

RUSHING WORK ON RAILWAY

CANADIAN NORTHERN CALLING FOR TENDERS

Section Running Sixty Miles East-erly From Westminster Must Be Finished in Year

An announcement of historic interest, presaging as it does the ushering in of a new era of development for the province of British Columbia, has just been made by the great firm of railway contractors, Mackenzie, Mann & Co., Ltd. They are calling for tenders for the construction of the first section of the Canadian Northern Pacific railway from New Westminster easterly for a distance of sixty miles. Tenders must be received at Toronto not later than the 15th of the present month, and the work must be completed not later than June 1st of next year. This notice, as published in another column, reads:

TENDERS will be received by the undersigned for the construction of the first section of the Canadian Northern Pacific Railway from New Westminster easterly for a distance of sixty miles. Tenders to include the grading, bridging, masonry, track laying, ballasting, and erection of telegraph line.

Plans, profiles and specifications may be seen and tender forms procured at the office of T. H. White, chief engineer, room 15, 135 Hastings street, West, Vancouver.

Total work to be completed by June 1st, 1911, and tenders to be received at our office Toronto, not later than June 15th, 1910.

MACKENZIE, MANN & CO., LTD. This apparently settles all doubt as to the intention of the company to rush the work of building the extension of their line from Edmonton to the coast at the earliest possible date. No announcement has yet been made as to when work will commence on the section of line which is to connect Victoria with Barkley Sound, but it is assumed that this matter will be taken up by D. D. Mann, vice-president of the Canadian Northern, when he reaches the city in a few days. Mr. Mann left Toronto on Sunday and should be here by Friday or Saturday next.

Rumors have been afloat for some time past that the Canadian Northern would abandon its original intention of (Concluded on page 16.)

LITTLE SOLID ABOUT COMET

TRANSIT ACROSS SUN DID NOT REVEAL MUCH

Observers at Honolulu Not Rewarded for Their Long Journey

Mail reports from Honolulu in regard to the comet's transit of the sun say that the nucleus of Halley's comet has no body of solid matter large enough to be visible through a six or six and four-tenths inch telescope, with the sun as a background. This was the conclusion reached as a result of the observations made at Diamond Head and Kaimuki, by Prof. F. Ellerman of the Mount Wilson Observatory and Professor Donaghio of the College of Hawaii. Both saw the sunspots reported by mainland observers. But Halley's comet, passing between them and the sun, showed absolutely no impression at all—the sun with the comet in front of it looked just as if there was no comet there.

This was what Professor Ellerman, Fred and Cedric, went all the way from their mainland institutions to observe. The telescopic observations do not prove that there is no solid matter in Halley's comet, but they do prove that there is no large solid body, constituting the head, or nucleus, of the comet.

It is possible that other, larger telescopes, may show some different results. Professor Ellerman stated after his observations were over, that a different report might come from the larger instrument employed in Manila. "All there is to be said about my observations here," he said, "is that the result was negative. There is nothing to report. I had had some idea that perhaps we might see something of the comet in transit, but not the faintest trace was to be seen."

SCORED BY BRITISH PRESS

ROOSEVELT'S SPEECH SHARPLY CRITICIZED

London Times Warns Him Not to Be Surprised if Unpleasant Manifestations Occur

(Times Leased Wire.) London, June 1.—Apparently unaffected by his present unpopularity as shown by newspapers and general comment, Col. Theodore Roosevelt was in a jovial mood to-day. He spent nearly an hour reading the various comments upon his speech relative to the British administration of Egyptian affairs and apparently the criticisms did not strike deep.

Col. Roosevelt was the guest of honor at a luncheon given him to-day by the Irish members of parliament, John Redmond, the Irish leader, presided. British officialdom refuses to comment publicly on Roosevelt's speech at Guildhall because of the semi-official character of the president's visit here. In spite of this lack of open comment, however, it is plain to see that many officials fear the speech may result in an upheaval of the Anglo-Egyptian relations.

Many people to-day declare that Roosevelt violated diplomatic propriety and compare the incidents surrounding his speech to the Lord Sackville-West incident in 1888 when President Cleveland dismissed the British ambassador for advising citizens of the United States to vote for Cleveland. The press here is dumfounded by the Colonel's utterances.

The Evening Star says Roosevelt is "guilty of a grave offence against the laws binding on host and guest."

"The fact that Roosevelt's predecessor was assassinated," the Star adds, "should make him careful of his comments regarding the assassin of Rotros Pasha."

The Manchester Guardian calls the colonel's views "muddled and boyish."

The Standard calls his speech a "social crime, little short of sacrilege."

All the newspapers concede that Roosevelt's arraignment of the British after receiving the city's highest honor violated the proprieties.

The London Times warns Roosevelt that he must not be surprised "should unpleasant manifestations occur due to sensitiveness resulting from his criticism."

The News contemptuously denies the statements of the colonel.

The Leader calls him "the greatest of modern sentimentalists."

The Standard terms the colonel's speech as a "humiliating rebuke from an alien critic."

The Telegraph describes it as "bitter medicine. A brusque, blunt admonition."

ROOSEVELT—"Come here, you rascal, until I tell the boss of the way you have miscondacted yourself."

SITE AT SPRING RIDGE ACCEPTED

SCHOOL BOARD ENDS HIGH SCHOOL DISPUTE

Trustees Contribute \$30,000 Toward Purchase and City Does the Rest—Deciding Vote

To the relief and satisfaction of a large delegation of workers from Spring Ridge the board of school trustees, at a meeting last evening, voted in favor of placing the new high school on the gravel-pits site. It was not all plain sailing for the resolution, three trustees voting for and three against.

Chairman Jay, who said that he favored Spring Ridge in connection with the proposed site, at Rockland avenue, cast the deciding vote, and the people from the Ridge, who have worked so unremittently to secure the school, went home to bed happy.

The discussion was opened by the reading of a letter from City Clerk Dowler, accompanied by a resolution recently passed by the city council. The resolution stated that a bylaw would be submitted to the ratepayers seeking permission for the city to turn over the Spring Ridge property to the board, that the corporation would contribute the balance of the purchase price, not more than \$12,000, and that the city would grade the site and remove such buildings as were on it, providing the school board would pay \$20,000 toward the purchase of the property as shown by a map prepared by the city engineer. A copy of this map was supposed to accompany the letter, but search failed to reveal it.

Mayor Morley, who was present with Aldermen Fullerton and Hansonman, supplied a map to fill the deficiency. His Worship placed his views before the board, advocating that 7 1/2 acres, instead of the 11 1/2 proposed by the trustees, be utilized. He suggested that a road be made to Grant street through Gladstone avenue, thus cutting down the site to the area mentioned and giving the school a roadway on each side. The possibility of unsuitable structures being erected on the balance of the 11 1/2 acres, which he thought should be divided into lots, could be obviated by stringent building restrictions.

Following a lengthy discussion of details in connection with the grading and preparation of the site by the Trustee Stanland moved that the board accept the resolution of the city council, providing that the site be placed at the disposal of the trustees by September 1st this year, that the city complete the grading and other work on the balance of the site by March 1, 1912, and that the city pay the cost of covering the site with six inches of clay and a top-dressing of mould and level adjoining streets to the grade shown by the city engineer's records.

Trustee Stanland said that he was at first in favor of the Rockland avenue site. If, however, the ratepayers were willing to purchase the Spring Ridge site he did not object.

Trustee McNeill also favored Spring Ridge. (Concluded on page 16.)

BLOODSHED MARKS HUNGARIAN ELECTIONS

Thousands of Troops Called Out to Restore Order—Twenty Murders Reported

(Special to the Times.) Buda Pest, June 1.—Terrible scenes have been witnessed during the Hungarian elections.

Twenty murders have been committed in different parts of the country and 20,000 troops have been called out to restore order.

BUILDING PERMITS NEAR MILLION MARK

Record Established for May With \$257,290—New Moving Picture Theatre

Last month's building permits comprised the largest total for any month this year. When the books closed last night \$257,290 was recorded.

The permits included \$125,000 for the additions to the Empress hotel, and two large residences—to H. Bowen, on Rockland avenue, to cost \$30,000; and to J. A. Trackell, on Foul Bay road, to cost \$10,000; and the G. T. P. wharf buildings, to cost \$12,000.

The total amount of building permits issued for the present year is \$975,255. Last month was ahead of May, 1909, by \$68,670, and almost a quarter of a million dollars ahead of the same month two years ago.

A permit was issued for a new moving picture theatre yesterday, under the name of the Crystal theatre, which will be opened in the premises formerly occupied by J. Valo on Broad street and the tailor shop adjoining. The architect is A. McCrimmon. The building will be remodelled to suit the moving picture business as at the B. C. Land and Investment Company for alterations, to premises on Langley street to cost \$2500.

PLANS TO SEND SETTLERS TO CANADA

Allan Line Submits Details of a Scheme for Emigration of Selected Pioneers

(Special to the Times.) London, June 1.—At the emigration conference yesterday R. E. Scott, of the Allan Line, submitted a financial plan scheme for the emigration of selected pioneers, and providing homesteads. It contemplates emigrating 2,000 families in the first year and five thousand each subsequent year to Canada, involving an initial expense of \$2,250,000.

ARE SEEKING TEMPORARY SITE

WORSWICK COMPANY PREPARING FOR WORK

Would Like Permission to Use Spring Ridge Pits for Asphalt-Plant

Messrs. Mason & Mann, acting city solicitors, are now preparing for execution the contract between the corporation and the Worswick Paving Company, whereby the latter agrees to lay down certain asphalt pavements for the sum of approximately \$100,000.

Just as soon as the contracts have been signed the company will commence to assemble its plant and prepare to rush the work to a speedy conclusion.

A representative of the Worswick company informed the Times this morning of the plans of the company for undertaking this work in Victoria. They have not yet been able to make arrangements for a permanent site for the big asphalt plant which they purpose erecting in Victoria, and therefore it will be necessary to secure a temporary location in order to do the work for which they have now contracted.

They desire, if possible, to secure permission from the city to use for this purpose certain of the area comprised in the sand-pits district at Spring Ridge. This, they say, would make an admirable location for the plant which they will use on the present work. They point out that the use of this suggested site would be but temporary, the permanent location to be in another part of the city. They wish this point clearly understood, as otherwise there might be some objection to the proposal from the residents of Spring Ridge.

It is likely that an application from the company to this end will come before the streets committee on Friday evening next. It is pointed out that the fact that there is a likelihood of the new High school being erected at Spring Ridge has no bearing whatever on their suggested use of this piece of ground, as long before the site would be needed for the school they would be away from there.

The company is desirous of proceeding with the work with all possible haste, so as to take advantage of the fine weather and get the job off their hands. A considerable number of men will be employed.

TORONTO BANK CLEARINGS

(Special to the Times.) Toronto, June 1.—Bank clearings for the month of May amounted to \$24,688,175, compared with \$18,252,162 for the same month last year. For five months of the present year the clearings amounted to \$93,500,430, compared with \$55,886,634 for the same period of 1909.

FALLS FROM DOCK

(Special to the Times.) Midland, Ont., June 1.—Geo. Baker, a grocer, was accidentally drowned here by falling off the dock.

LEMBERG WINS THE DERBY

GREENBACK SECOND, CHARLES O'MALLEY THIRD

Lord Rosebery's Neil Gow Fails to Secure Place in Classic Race

(Times Leased Wire.) London, June 1.—A Fairlie's Lemberg, Dillon up, won the classic English Derby at Epsom Downs to-day. Viscount Villiers's Greenback, Templeman up, was second, and Charles O'Malley, J. Howard up, was third. Neil Gow, the Earl of Rosebery's famous three-year-old, figured as the favorite, although Lemberg stood practically equal in the betting, did not show.

To what an extent English sportsmanship has suffered from King Edward's death had an ample illustration when the Derby was run over the mile and a half course.

There was a crowd of course, The huge racing army that turns up for every meeting was on hand. It was a subdued crowd which watched the race and the sight of the horses brought back vivid memories of last year's scenes of enthusiasm, following the victory of the colt Minoru, and of King Edward's own appearance on the track to lead the winning runner to the paddock.

For the first time in many years the royal box was empty and with the court in mourning, nearly all familiar faces on the club lawn and in the enclosure and members ring were missing.

The principal starters were the Earl of Rosebery's Neil Gow, A. Fairlie's Lemberg, the Earl of Durham's Rochester, Major Fustace-Lodwin's Admiral Hawks, L. Robinson's Treadaway and Viscount Villiers's Greenback.

Neil Gow beat Lemberg in the 2,000 guinea race, but it was only by a head, and the popular opinion was that Lemberg stood an excellent chance of turning the tables upon the Newmarket victor. Harry Payne-Whitney's colt Witchwork, was scratched at the last minute.

Late entries in the race were Cardinal, Charles, Galvatine, Gazlebrook, San Antonio, Ulster King, Swaynford, Rokeby, Gen. Botha, Maripasa, Wildflowers and G. O. G.

The owner of Lemberg secured a prize of \$35,000. After acting badly at the post and delaying the race 15 minutes and spoiling a dozen attempts to start, the field Neil Gow auklike, along and lost all chance before the race was half over.

Dillon on Lemberg, outrode Templeman on Greenback, although Greenback ran sensationally and caused Lemberg to strain to win by a neck. O'Malley was third by two lengths.

The post odds were: Lemberg 7 to 4, Greenback 100 to 50, O'Malley 100 to 50.

BANKS WILL OPEN

(Special to the Times.) Toronto, June 1.—The banks will open on Friday despite the fact that it is a statutory bank holiday. The King's birthday will not be generally observed by business houses and the banks will keep open for the convenience of customers.

PLASTERERS ON NEW BUILDING QUIT WORK

Workmen on Pemberton Block Want \$1 a Day Increase and Employers Refuse

Nearly forty operative plasterers employed on the new Pemberton block, Fort street, quit work this morning after making an unsuccessful demand for higher wages on short notice. The work of plastering the building is now at a standstill.

The men state that they gave notice to the contractors last week of their intention to strike unless the rate was raised from \$5 to \$6 a day. The latter rate is paid in all coast cities with the exception of Victoria, according to their statement. The notice was returned to the men and further time asked by the contractors. The men accordingly set June 1st as the last day on which the contractors could answer.

SOUTH AFRICA CELEBRATES UNION

MEMBERS OF CABINET TAKE OATH OF OFFICE

Ceremony at Pretoria is Simple One, Owing to Mourning for King

(Special to the Times.) Pretoria, June 1.—Celebrations throughout South Africa yesterday marked the birth of the new federation. The day was observed as a holiday here.

Following the reading of the proclamation, Viscount Gladstone was sworn in as governor-general of the union and Gen. Louis Botha, the premier, and other members of the new ministry took the oath of office. Lord and Lady Gladstone, members of the cabinet and a large congregation attended special service in the cathedral.

Thence Lord Gladstone's ministers proceeded to the legislative assembly for the swearing in. It was a distinguished gathering, but a sombre one owing to the mourning for the late King. Premier Botha and his fellow-ministers were in the procession, the judges being headed by Sir J. de Villiers, chief justice.

Having taken their places, Lord Gladstone, accompanied by a brilliant staff, entered the hall and went to the speaker's chair where he took a seat. A short and simple ceremony followed.

The commission appointing Lord Gladstone governor-general was read in English and Dutch and Chief de Villiers then administered the oaths to the governor-general and cabinet. The Gladstones have created a good impression.

Canada's Message. (Special to the Times.) Ottawa, June 1.—Canada's birthday message to the South African federation was from Lord Grey to Lord Gladstone as follows:

"His Majesty's Canadian ministers, on behalf of the Canadian people, desire to convey to your excellency and to the people of South Africa an expression of their congratulations on the consummation of the union of all the races of South Africa under the British Crown and of their belief that it will insure harmony, prosperity and constitutional freedom, and of their hope that it will prove beneficial in South Africa as in Canada."

ROOSEVELT GUEST OF STRATHCONA

FORMER PRESIDENT
"SWEARS BY CANADA"

(Special to the Times.) London, June 1.—About 400 guests who were invited to meet Colonel Roosevelt attended a reception at Lord Strathcona's house in Grosvenor Square yesterday. Roosevelt was somewhat late in arriving, but immediately it became known he was present everybody was anxious to see and shake hands with the ex-president. Lord Strathcona stood by Roosevelt's side introducing his guests as they filed past. Roosevelt had a word and smile for everyone.

On being spoken to by a Canadian Associate Press man who had been introduced as representing the Canadian press, Mr. Roosevelt remarked: "The press, eh? I'm right glad to see you, indeed I am; I swear by Canada."

Among prominent Canadians present were Hon. G. Sifton, Hon. S. A. Fisher, Sir J. Grant and Dr. Bowdell.

INSPECTORS APPOINTED

(Special to the Times.) Ottawa, June 1.—W. E. Ditchburn, Victoria; T. F. Neelands, Vancouver; and Dr. K. C. McDonald, Vernon, have been appointed inspectors of Indian agencies for British Columbia.

This follows the re-organization of Indian affairs in the province, the office of superintendent being abolished and the province divided into inspectorate divisions. McDonald will inspect agencies in the interior, Neelands those of the Northern coast, and Ditchburn will look after Vancouver Island.

FOUR DROWNED

British Warship Sinks Steamer Washing-ton off Falmouth.

Falmouth, June 1.—H. M. S. Wash ran down and sank the steamer Washington off here yesterday. Four lives were lost.

AUSTRALIAN FORCES

Melbourne, June 1.—Col. Kirkpatrick, inspector general of the Australian forces, has been assigned his duties. G. E. Pearce, the minister of defence, will consult him regarding modifications of Lord Kitchener's military defence scheme.

NOMINATED AT BRANDON

Brandon, Man., June 1.—Hon. George R. Colesworth, minister of education, was nominated last evening by the Conservatives of Brandon to contest the city at the next provincial elections.

NEW DERBY RECORD.

London, June 1.—Lemberg, today's Derby winner, established a new record for the race, the time being 2:34 1-5.

The Vancouver Island Development League yesterday afternoon received a letter from P. Stromme, a newspaper man of Grand Forks, North Dakota, stating that the writer intended to found a Norse colony of Vancouver Island if a suitable location could be found. If established the name of the colony would be Peoropolis. Exhaustive information has been forwarded to him.

Dexie, the valuable cocker spaniel owned by Charles Holmes, was run over by a truck and killed last evening on Menzies street, near Belleville street. The dog was a great favorite.

The United Kingdom now imports nearly one-half the eggs consumed.

Special Sale Field Glasses

CHANGES AT THE CITY HALL

OVERSEER OF SIDEWALKS RECEIVES NOTICE TO QUIT

Situation Said to Be Developing Which May Result in Other Resignations

Important changes are pending in the administrative staff of the public works department at the city hall, and a situation is developing which promises to prove very interesting. H. J. Warwick, superintendent of sidewalks, has received an intimation from the city engineer, Angus Smith, that his services will not be required in his present capacity after July 1st next. Other changes in the foreman's office of the works department are said to be pending.

It will be recalled that some months ago a similar effort was made to displace with the services of Mr. Warwick, but this proved abortive, owing to it being discovered that he had been appointed by resolution of the council, and therefore it was only through the act of that body that he could be discharged.

Mr. Smith is understood to have notified the board now that in his opinion there is no need for a superintendent of sidewalks, and that this may result in the council agreeing to the abolishment of that office. Possibly some other work will be found for Mr. Warwick, who is regarded as a very competent man.

It is understood that the new city engineer is not entirely satisfied with the manner in which he has been supported by his subordinates since he assumed office, and other developments outside of the dismissal of Mr. Warwick are confidently anticipated by those in touch with the situation at the city hall. Rumors were afloat this morning that a number of resignations are among the early possibilities.

BIG STRIKE REPORTED FROM BEAR RIVER MINE

Rich Vein of Galena Going \$70 to the Ton Laid Bare After Drifting

A. W. Payne-Lesueur, who is interested in the Bear River Canyon Mining Company, has just returned from Stewart, where he had been visiting the company's properties. He reports that the manager, Joseph Fall, after drifting a twenty-foot lead on the main bank, struck a vein of galena ten feet wide which assayed \$70 to the ton. At the point where he started to drift the vein was but 10 inches in width, but as the work proceeded this widened to 10 feet. A vein was also struck on the opposite side of the creek which seems equally promising. Drifting is now in progress at that place. It is the intention of the company to proceed with development work on the Pascoe property, where they have already discovered galena and silver ore going from 400 to 600 ounces to the ton. As a result of the latest news which has been received regarding this company's properties shares have rapidly advanced. It simply corroborates previous reports as to the richness of the Portland Canal mining region.

LOCAL NEWS

All members of the Y. M. C. A. lifeboat crew are requested to be at the boat house to-morrow evening at 7 o'clock.

The fire brigade was called out this morning to a rubbish fire on a lot at the corner of Herald and Store streets, owned by Miss Parshall.

Ald. Humber has posted a notice to the effect that at the next meeting of the city council he will present a resolution providing for the placing down of asphalt pavements on the streets surrounding the North Ward park, together with the necessary curbs and gutters. This proposal will likely meet with some opposition, as when Ald. Humber some weeks ago made a suggestion to the same end it was turned down.

The Victoria High School Alumni Society held its annual meeting last night in the assembly room of the High school. A large number were present and fifteen new members joined the society, which intends to become a live factor in Victoria educational movements. Following are the officers elected for the year: Honorary president, E. B. Paul; honorary vice-president, S. J. Willis; president, Edward Sears; secretary-treasurer, F. D. Bannerman; executive committee, Miss Gladstone, Miss Hastings, W. H. Miller, Peter Gill and J. Claribus. The Alumni intends to hold a reunion of ex-students of the High school and for that purpose will promote a garden fete in the near future.

Arthur Castleton, of Seattle, secretary of the Iron Molders' union there, who was shot by a hold-up on Thursday evening last while on his way home from a meeting of the union, is progressing favorably. Mr. Castleton, who was born in this city, is a brother of Fred Castleton, manager of the B. C. Funeral Company. He lived here for some time and was employed in the coal business. He was the founder of this city. The man who did the shooting has been caught and found to be an Italian. A letter was received yesterday by Mr. Castleton from his brother, in which he stated that the highwayman appeared from the side of the road and, without commanding him to throw up his hands, fired. The bullet struck the right side of his breast. The Italian will probably be charged with shooting with intent to kill.

TOO LATE TO CLASSIFY NEW ADVERTISEMENTS.

CALL AND SEE about these parcels of land which we have for a few days: 1,308 acres in Goldstream District, at \$1 per acre; 242 acres at \$5 per acre; 150 acres in Sooke for \$7 an acre. Shaw Real Estate Co., 1013 Yates street.

POWER TO MAKE RATES IS AFFIRMED

Decision of U. S. Supreme Court Upholds Interstate Commerce Commission

Washington, D. C., June 1.—The power of the interstate commerce commission to enforce railway rates of its own making was affirmed yesterday in an opinion handed down by Justice McKenna of the Supreme Court of the United States. The rate making power of the commission was questioned by the railroads and a number of cases were filed to test this point. The cases were based on the ground that the law authorizing the rate making power to the commission was a delegation of the legislative power vested in Congress by the constitution and that therefore the law was unconstitutional.

Complaints by Shippers. Complaints by western shippers to Attorney General Wickersham against the Traffic Association of Western Railroads and their request that the Attorney General proceed against the associations as combinations in restraint of trade, were laid before President Taft yesterday by Wickersham. Action by the president is not expected for several days and his attitude in the matter is problematical. It is believed that he will await until the traffic associations have placed their side of the case before Wickersham.

Later developments indicated that Wickersham was acting under instructions of President Taft when he submitted the allegations of the shippers to the president.

Action Urged.

Following shortly after the introduction of a resolution by Senator La Follette denouncing the proposed increase of freight rates as an evidence of combination, and calling upon the department of justice for action, Attorney General Wickersham assured certain senators that suit would be filed in Chicago to stop the enforcement of the proposed increase. La Follette's resolution came after a test registered with congress MONEY regarding the proposed freight rate increase. The rates protested against are general increases planned to go into effect to-day. The shippers declared that these rates were fixed in an effort to head off interference by the interstate commerce commission under the new railroad regulation bill which would give the interstate commerce commission power to suspend increases.

It has been known for a month that the increased rates would take effect June 1. The railroads have announced them. They apply largely to rates between Chicago and Mississippi River points to points west. The rates were even and uniform for the classes of freight to which they applied. It was this fact that led to Senator La Follette's resolution.

PAID THOUSAND DOLLARS FOR HIS WIFE

Woman, However, Regretted the Bargain and Refused to Live With Husband

Portland, Ore., June 1.—Buying his wife back for \$1,000 after she had left him, Fred Meyer was "thrown down" a second time after she had lived with him from May to October of last year. This was the story told in Judge Gantenbein's department of the Circuit court yesterday by Meyer while defending himself against a suit by his wife to collect a balance of \$300 of the \$1,000 alleged by her to be unpaid. After hearing the evidence the court decided that Meyer did not owe the money.

Meyer says he agreed to give his wife \$1,000 if she would return to him. She agreed to drop the divorce case. He gave her \$700, but could not raise the other \$300 at once, so gave her a note for it. He asserts he afterward paid the \$300.

Safe Prescriptions

We place every possible safeguard around the compounding, and only employ expert prescriptionists. Prices are never higher, usually lower here than else where. This is evidenced by the fact that we are filling a large number of prescriptions daily.

PROBING ILLINOIS BRIBERY SCANDAL

Sale of Stock in Banking Association in Which Senator is Interested Being Investigated

Springfield, Ill., June 1.—Prosecuting Attorney Burke has commenced an investigation of a new phase of the alleged bribery in connection with the election of William Lorimer to the United States Senate. The prosecutor was informed yesterday that a member of the legislature came into possession of \$10,000 worth of stock in the Banking Association recently organized in Chicago, and in which Lorimer declared before the Senate on Saturday, he was interested.

Who the legislator is Burke refuses to say, but he says he has information which will enable him to probe the story to the bottom and that if it proves to be true he will have a new lead in the Lorimer case which will bring out some unusual developments. It is reported that the legislator disposed of the stock last week. It was through this transaction, it is learned, that Burke came into possession of the facts he is supposed to have unearthed.

When Representative White confessed that he had declared to vote for Lorimer, he had declared that he had been offered a chance to get in on the ground floor in the new banking association.

WORK OF WINNIPEG JUVENILE COURT

F. C. Wade, K. C., Investigates Workings of Institution at the Prairie Capital

Winnipeg, June 1.—F. C. Wade, K. C., of Vancouver, has left for the East en route to Europe. While in Winnipeg he paid a good deal of attention to the workings of the juvenile court, and also secured the assistance of the Canadian Club in forwarding the project of building a Canadian monument to mark the grave of General Wolfe at Greenwich. The executive of the Canadian Club has recommended a contribution of five hundred dollars for the purpose.

Mr. Wade was particularly pleased with the juvenile court and detention building. The latter is a plain home-like structure surrounded by other residences. It has been found quite unobjectionable in every respect, and no neighbor would think of protesting against it. On the contrary, every one is so enthusiastic over the working of the juvenile court here that there is every disposition to help it rather than put obstacles in its way, nor has there been any difficulty such as there was in Vancouver in the formation of advisory committees. The Children's Aid Society put forth no claim for representation, but was quite content to see a small committee appointed consisting of the mayor and some others, and quite ignoring their own association. During the last year, out of 503 cases dealt with, 261, or more than half, were successfully disposed of out of court. So far only about 2 per cent. have gone back to their old habits.

Hon. T. Mayne Daly, juvenile court judge, declares in his annual report that ninety-five per cent. of juvenile delinquents is due to improper home surroundings. One of the most important functions of the court is the instruction and disciplining of parents and others who influence the lives of the children, and to this is due in the main the great reduction in delinquency wherever juvenile courts are instituted. The superintendent of neglected children reports that during the year 26 boys have been released from the reformatory on parole, and only one has had to be returned. As the reformatories have been filled under an old system of punishment now almost obsolete, and admittedly ill-judged and almost criminal in its stupid ferocity towards children, the sooner all reformatories are emptied on the parole system the better.

The King has signified his succession by leniency to many old and hardened criminals why, asked Mr. Wade, should not Canada seize on the occasion to make amends for the enormous crimes committed against many children who are serving long terms for what are now regarded as trivial offences easily cured without imprisonment?

IRRIGATION

A very handsome publication devoted to the history of irrigation, the development and conservation of the water supply in the Rocky Mountain region, and the results obtained therefrom, prepared and published in the interest of the Eighteenth National Irrigation Congress, which is to meet in Pueblo, Colorado, September 25-30, has just been issued by the passenger department, Denver & Rio Grande railroad.

Ex-Governor Adams of Colorado, Clarence A. Lyman, the well-known writer-farmer, and R. H. Faxon, secretary board of control of the congress, have contributed valuable articles, which are appropriately and profusely illustrated.

With the increasing interest on the part of investors in irrigation securities, any publication giving particulars regarding lands, water, crop production, etc., is welcomed by the investing public, and taken in connection with the irrigation congress, there will no doubt be a great demand for this interesting and timely folder.

GOLD BRICK FROM MORESBY ISLAND

Result of One Day's Run of the Mill on Early Bird Group of Claims

Vancouver, June 1.—The Queen Charlotte Islands have sent their first gold brick to the Dominion assay office in this city, and indications are that many others will soon follow. The brick represents one day's run of the five-stamp mill recently installed at the Early Bird free milling group, on the west coast of Moresby island. Its value is \$400.

The property was acquired three years ago by John McLellan, a graduate of the London School of Mines, and F. J. Bourne, M. T., of Cobalt, Ont. Development consists of a 1,000-foot shaft and 250 feet of drifting. The shaft was sunk on a two-inch stringer, which has now widened out in the lower workings to six inches. In places the vein gives phenomenal values, the gold literally encrusting the country rock. The vein has also been exposed on the surface for a distance of 250 feet. The property was originally operated by the Hudson's Bay Company in the late fifties, when it is claimed that \$80,000 in gold was extracted from a rich pocket near the surface. The hole is still visible. There is also a number of undeveloped free milling claims in the same group.

SALARY INADEQUATE

Tacoma Judge Will Retire and Resume Private Law Practice

Tacoma, Wash., June 1.—Judge John A. Shackelford, of the Pierce county superior court, announces his intention of returning to his private law practice in a morning paper.

RABIES IN IDAHO

Lewiston, Idaho, June 1.—People of Central Idaho are greatly alarmed on account of the prevalence of rabies among the domestic dogs and coyotes of the region.

According to a dispatch from Or., an eight-year-old Dorothy Hamilton, who was bitten by a dog ten days ago, is in a serious condition. She shows every symptom of rabies, according to physicians. Several other persons, children and adults, have been bitten by dogs recently. Their cases are being watched closely by physicians.

DIES SUDDENLY

Cranbrook, June 1.—The news of the sudden death of Archie Leitch, the dean of the lumbermen of the interior, came as a shock on the people of Cranbrook Monday. He had been around the city in his motor car in the morning and though he was not looking very well no one thought death was impending for him. He was buttoning his coat to go to lunch when he slipped to the floor of the morning room. When his son, Archie, lifted him up he was dead.

Cool Kitchen—Perfect Cooking

The housewife with years of experience—the woman who knows how to cook—finds, after practical tests and hard trials, the New Perfection Oil Cook-Stove is her idea of what a good cook-stove really ought to be.

She finds it requires less attention, costs less to operate, and cooks all food better than any other stove she has ever tried.

She finds the New Perfection oven bakes and roasts perfectly. The

New Perfection Oil Cook-stove

has a Cabinet Top with a shelf for keeping plates and food hot. There are drop shelves for coffee pot or saucepans, and nicked towel racks. It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

The Imperial Oil Company, Limited.

DEMAND SHORTER DAY

Cleveland, Ohio, June 1.—Demanding a twelve-hour working day and holidays off, 100 members of the Great Lakes Towing Company quit work yesterday. As a result, lake navigation in and out of Cleveland harbor is at a standstill, and passenger and freight steamers are tied up. The wage question does not enter into the controversy. Local tug men say the walk-out will become general along the great lakes.

CORPORATION TAXES

Washington, D. C., June 1.—The Supreme Court of the United States restored the corporation tax case to the docket yesterday for re-argument. This means that the case will go over until next fall. It is believed that it is the last of the important cases before the court that will have to be re-argued on account of the recent death of Justice Brewer.

MOTOR CARS AND THE PUBLIC.

It is a singular and deplorable coincidence that one of the most careful and considerate of motor car drivers should be the innocent principal in the first serious accident attending the operation of automobiles in this city. Next to the parents so unhappily bereaved Dr. Fraser unquestionably feels most keenly the lamentable mishap which resulted in the death of the little Brinkman lad.

It is perhaps hardly necessary to point out that the accident which occurred yesterday has no direct bearing on the general question of the regulation of speed of motor vehicles, except in so far as it accentuates the necessity for all who use the streets to be continually mentally and physically alert to guard against such occurrences.

It is perhaps hardly necessary to point out that the accident which occurred yesterday has no direct bearing on the general question of the regulation of speed of motor vehicles, except in so far as it accentuates the necessity for all who use the streets to be continually mentally and physically alert to guard against such occurrences.

"CAN" THE COLONEL. The great Colonel unquestionably has reached the culminating point of his triumphal progress. He is making more noise than any of the behemoth which fell before his unerring aim and unflinching hand did when crashing through native jungle.

The great Colonel unquestionably has reached the culminating point of his triumphal progress. He is making more noise than any of the behemoth which fell before his unerring aim and unflinching hand did when crashing through native jungle.

mand. If Mr. Roosevelt is making a nuisance of himself as a result of saying the things that come into his mind, and hang the consequences, he might be shooed off in a less peremptory manner than by presenting a gun at his head or a cup of poison to his lips. Some insane person, our dispatches tell us to-day, created a panic in a German squadron of horse by casting an infernal machine loaded with beans at the head of Prince Frederick William. Now bombs stuffed with beans, particularly if the stuffing be done at Chicago, are not always harmless. They have been known to explode and to scatter in haste all within the circle in which the explosion occurred. But generally they do not inflict any serious harm when they go off. Throw a can of beans at the Colonel, and see if he will take the hint.

THE COLONEL'S SENSATIONAL PROGRESS.

The Colonel has created a greater furor in Britain than he did among the wild beasts of Africa. But why he should be accredited by the Old Country newspapers with occupying a semi-official position is something we cannot precisely understand. Mr. Roosevelt is merely a private citizen of the United States, although he is an ex-president. He represents only himself. It is true more importance is attached to his utterances than would have been possible in the case of any other man who had formerly occupied the White House and attempted to dictate to the United States Senate.

The key of knowledge is in our own hands. The purpose of the long past and the promise of the future is being disclosed, and if we fail to rise to our opportunities, refusing to look within and know ourselves, then are we putting a stumbling block in the way of progress, and surrounding ourselves with adverse influences which are bound to work out in some form of suffering for ourselves. Let us then begin to look within with courage, and hope to find the dormant forces lying there.

"A Loyal Briton" can have his letter printed if he cares to attach his signature to it. Such a condition in the case is necessary in the interests of fair play. We believe there will be a general agreement that the city council and the school trustees have reached a happy solution of the High School problem. The majority of the school board and of the city council are to be congratulated on the spirit of sweet reasonableness which characterized their joint deliberations.

Mayor Morley has intimated to the people of Victoria that if he were paid a salary bearing some reasonable relationship to the value of the services he is qualified to render he might constitute himself a civic Pooh Bah and discharge the duties of the city engineer, the city solicitor and the city clerk, as well as the ordinary Mayor-alty routing, with efficiency and dispatch. His Worship has certainly no call to implore any divinity to "give him a good conceit of himself."

It is expected that the action brought by the city against the Silver Spring Brewery Company, regarding an alleged obstruction on Lime street, which was resumed in the Supreme court this morning, will be concluded this afternoon.

Victoria will never agree, to pay Mayor Morley the salary to which he is obviously entitled. Yet it is really too bad if the business of the corporation is to be attended to in a sloven manner on that account.

What Other People Think

"FEAR"

To the Editor:—To any one who knows something of history, with its ages of ignorance and superstition, and to those who keep their eyes open and in touch with the movements of our age, when men and women are coming out of the apathy and indifference of past periods, it must be evident that we have come to a time when, if we care to avail ourselves of the vast stores of knowledge and power spread before us, we can have our fears, pains and struggles tremendously lessened. It is recognized in the most informed quarters that since man is called his mortal condition and his religious hopes are an answer to something in "Nature," and that the clue to what is outside him is to be sought within himself, and to explain human sin, crime, cruelty and selfishness is in the fact that as yet the consciousness of man is very imperfect. But we believe that deep in the hearts of men, and all unconscious to most, lie latent forces that shall respond and laws that shall yet control man himself without limitations. And we know that to-day in modern psychology we have learned that "Nature" in healing is nothing else than the response of Nature's faculty and mind to the help that is offered to overcome physical disturbances, and to quote one authority, "The person who has acquired what is essential to bring about the proper mental attitude carries with him a consciousness of unity with divinity of contentment and freedom from fear which will remain with him forever."

The key of knowledge is in our own hands. The purpose of the long past and the promise of the future is being disclosed, and if we fail to rise to our opportunities, refusing to look within and know ourselves, then are we putting a stumbling block in the way of progress, and surrounding ourselves with adverse influences which are bound to work out in some form of suffering for ourselves. Let us then begin to look within with courage, and hope to find the dormant forces lying there.

LITTLE LAD AT PLAY

RAN INTO AUTOMOBILE

Son of Martin Brinkman Succumbed to Injuries Received on Burnside Road

Jumping off the back of a high box-wagon and running directly in front of Dr. R. L. Fraser's automobile, a four-year-old lad received injuries yesterday afternoon which resulted in his death two hours later. Happening as it did the sad accident was one which it was impossible to avoid, even for such a careful driver as Dr. Fraser is. The little lad was a son of Martin Brinkman, Harriett road, a B. C. Electric motorman. He and two companions were having a ride behind the wagon, about five o'clock. Dr. Fraser was driving out to Strawberry Vale to visit a patient and had to turn out in the narrow roadway to allow the wagon to pass, so that his speed was moderate. He had hardly cleared the wagon when two of the lads appeared, scurrying across the road, and before he could stop the machine the little Brinkman boy had run into it. The child was struck by one of the mudguards over the heart and knocked down, but was not run over.

Dr. Fraser hurried to the home with the child and examined him carefully, applying what restoratives were necessary and putting him to bed. Dr. Hart and a nurse were summoned and Dr. Fraser hurried back after visiting his patient. The shock to the tiny frame proved too much, however, and the child died at seven o'clock.

An inquest is being held this afternoon by Coroner Hart at the city hall. The funeral will be held to-morrow afternoon from the residence to Ross Bay cemetery. Rev. T. E. Henegaw will officiate.

Dr. Fraser naturally feels very keenly in regard to the accident. He said this morning, speaking of it:—"I was passing the wagon, a high box mill wagon, at ordinary speed, and just as I was abreast suddenly two little chaps who appeared to have dropped off the back of it darted across in front of my auto. Owing to the height of the wagon-box they were almost under the wheels before I saw them. Before I could stop the child who is dead was struck by some part of the machine but was not run over."

PERSONAL

F. D. Bray has arrived from Nanaimo.

Geo. de Maine, of Salt Spring Island, is on a visit to this city.

T. A. Smith, of Nanaimo, arrived in this city yesterday on business.

Geo. Driver, of Prince Rupert, is among the Northern visitors in this city.

Rev. H. A. Collinson, of Cedar Hill, has returned from a trip to the North.

Mrs. E. J. Hearn, of Foul Bay, will not receive to-morrow or again during the summer.

Mrs. E. Mitchell, 102 Fairfield road, left to-day for a visit to friends at Vancouver and North Bend.

Miss Jennie Survey leaves to-night on the Charmer for Dauphin, Man., to visit her sister and brother-in-law, who are both dangerously ill.

D. W. Higgins, who is lying ill in St. Joseph's hospital, in his many friends will be pleased to hear, slowly improving. He is expected to be out again shortly.

E. A. Harris, of E. A. Harris & Co., leaves to-night for the city against the Silver Spring Brewery Company, regarding an alleged obstruction on Lime street, which was resumed in the Supreme court this morning, will be concluded this afternoon.

It is expected that the action brought by the city against the Silver Spring Brewery Company, regarding an alleged obstruction on Lime street, which was resumed in the Supreme court this morning, will be concluded this afternoon.

Becoming Suits and Dresses for Summer

The past few days of warmth has tended to draw a rush of patrons to the Wash Suit, Lingerie Dress and Blouse Sections. Our immense stocks and great range of variety, coupled with the special sale prices which are now prevailing, will soon result in the clearance of many of the most desirable lines in Summer garments or in the materials for making them. To-day, we are offering a very special bargain in Cotton Wash Suits. We may not be able to duplicate in prices or style, even if we were able to procure a second-odd consignment, so the advisability of making a special effort to come here soon should be quite apparent.

Some Wash Suits are Afraid of Laundry Tubs—These are Not

Regular \$6.75 to \$7.50 \$3.90 To-day for - - - -

At \$3.90 we are selling a handsome Tailored Wash Suit. These are made of fine English cotton repp with pleated skirt. They are in white and blue shades with contrasting shades of stripes. They are mostly two-piece effects, although some are of the jumper style, and can be worn without the coats. These we have been regularly selling at \$6.75 and \$7.50, but, to-day, we are offering you your choice at \$3.90

300 Yards Fine Silk to Go on To-day at Half Price. Reg. 50c for 25c

Another one of Spencer's popular Silk sales is scheduled to take place to-day. This lot comprises about 300 yards of fine stripe Louisiana Silk. This we usually sell at 50c. To-day - - - - 25c

Men's and Youth's Pants, Regular \$1.50 and \$2, To-day at \$1.25

MEN'S AND YOUTHS' PANTS of exceptionally good quality go on sale to-day at special saving prices. These are mostly tweeds and fancy worsteds in stripes and neat patterns. These regularly sell at \$1.50 and \$2.00. To-day at \$1.25

You Will Have to Hurry Now for Louisiana Silk. 300 Yards on Sale To-Day at 25c. Usual Price, 50c

Dress lengths after dress lengths of fine LOUISIANNE SILK is hurrying out of this store. The present warm weather makes it imperative that light dresses must be worn. Especially is this true in regards to this particular line of material, but we want to clear the balance which we have on hand to-day, therefore we are offering it at . . . per yard. . . . 25c

Child's Pinafores, 50c and 75c for 25c

CHILDREN'S PINAFORES at one-half and one-third their regular price will be one of the main features of our White-wear Section, Wednesday. They are made of good, strong, serviceable, heavy print and gingham, nicely trimmed with white soutache braid. Sizes range from 2 to 14 years. Regular price 50c and 75c. Wednesday 25c

Japanese Mats at Economical Prices

Three different and well assorted lines of JAPANESE MATS go on sale to-day at very special prices. These are in a large variety of colorings. In sizes of 1 1/2 x 3 ft. . . . 55c 2 x 4 ft. at \$1.00 2 1/2 x 5 ft. at \$1.50

Men's Long Duster Coats, \$3.50 and \$4.50

A good DUSTER is a quick necessity these days. Our selection is a wide and most varied one, consisting only of what is strong and serviceable. They are in greys and fawns, in double-breasted effects. Priced at from \$3.50 to \$4.50 MEN'S AND YOUTHS' WHITE DUCK PANTS, \$1.25 and \$2.00 MEN'S FLANNEL AND OUTING PANTS, in white, grey stripes and English homespins at \$2.50 to \$2.75 MEN'S ALPACA COATS, just the kind for warm weather, in blacks and blacks with neat grey stripe, \$2.00 and \$2.75

A Better Assortment of Stylish Costumes Could Not Be Found. Special at \$13.75

At \$13.75 we are showing in our Government street windows a number of the finest suits that has been our good fortune to show, that is to say, at the price. They are the season's very best and latest styles, made of the finest material in its respective grade, in practically all colors and sizes. The coats are from 32 to 36 inches in length, while the skirts are all the new tunic and pleated effects. Special price \$13.75

Beautiful and Elaborately Trimmed Hats at \$4.50. Worth at Least \$10 and \$12

There is not the least room for an excuse that you cannot get a good stylish Summer Hat, that is to say, if price, quality and distinctiveness count for anything, for these are without doubt splendid bargains. They combine the season's latest and most dainty touches, very prettily trimmed with feathers and ribbons, making them, to say the least, very attractive. They are made of light-weight straws of every color. Specially priced at \$4.50

ANNOUNCEMENT

We take pleasure in announcing that hereafter "The Ladies' Home Journal Patterns and Style Books" may be had at this store. The progressive spirit of this store is again made manifest in the adoption of The Ladies' Home Journal Patterns. These patterns are as superior to all others as electric light is to candle light. They present the most advanced styles, are designed by people who have made this art a life study and who keep in constant touch with the leading fashion centres. They are perfect for fitting—each size being drafted—are economical of material, and yet the patented Guide Chart which goes with each pattern so simplifies the cutting and fitting that the home dressmaker can retain the style of the design as has never before been possible with any paper pattern. Price of patterns, 10c and 15c. The Monthly Style Book Free.

Men's Suits, Very Special at \$10

At \$10.00 we are offering a very special bargain indeed in Men's Suits. The extremely fine tailoring and finish make them an ideal suit for the business man for every day wear. Just drop into our Men's Clothing Department to-day. You will find a most pleasant surprise awaiting you.

Boys' Blouses at 50c

Another splendid shipment of BOYS' BLOUSES, direct from Belfast has just been opened up. These range in sizes from 3 to 8 years. Mostly dark patterns. Just the kind for the little fellow to romp around in. Special price. 50c

Get the kiddies a good strong spade, one that will not break easily. We have them at 25c, 40c, 50c, 65c and 75c. R. A. Brown & Co., 1322 Douglas St.

THE JUNE BRIDE will be proud of her photographs if taken at Foxall's Studio, 1111 Government St.

The annual meeting of the Victoria City Kennel Club will be held at the Labor hall, Douglas street, to-night, at 8 p. m.

The annual meeting of the Grand Lodge, A. F. and A. M. of British Columbia, is to be held at Cranbrook during the latter part of this month. Committees are already at work making adequate hospitable arrangements for the entertainment of the expected large attendance of visiting members of the craft.

In consequence of the rapid development of the Portland Canal mining district, it has been decided by the government to create a new mining division, the registry office of which will be the city of Stewart, to be known as Stewart mining division. Officers will be named and offices opened there on the 15th of July.

Representatives of Old Country capitalists are expected to reach the city shortly to inspect the Uplands Farm property, plans for the subdivision of which have been under way for some time. Everything is in readiness for an early commencement on the work, and on the report of the visitors will depend how early the job will be taken in hand.

New invitations for the Knights of Columbus hall, to be held at the A. O. U. W. hall on Friday evening, have not been issued. Many have been under the impression that when the committee in charge of the K. of C. hall postponed it out of respect to the memory of King Edward they issued new invitations. This is not so, and all the invitations issued in the first place are the only ones issued and will be the ones to be presented on Friday evening.

Tremendous reductions in Millinery at The Elite, 1316 Douglas.

Pure Wines

Taken daily, as beverages, are highly beneficial to the constitution. We stock only the best and purest brands, but offer them at popular prices—a price the average person desires to pay. Everything here required for the household.

Wm. W. Northcott, purchasing agent for the corporation who, by the way, is now using his new official title, "Superintendent of Public Buildings of the City of Victoria"—is calling for tenders, which will be received up to Monday, June 13, for the building of a dwelling at Smith's Hill reservoir for the use of the caretaker. A neat fence has already been erected around the reservoir.

LIBRARY RETURNS.
A total of 4284 books were taken out of the Victoria public library during the month of May. This is a slight decrease over the total for the previous month. The daily average for the month was 179, while the highest daily average was 218. Seventy-four persons made application for cards. The furniture for the new reading room upstairs has arrived and will be installed immediately. The reading space on the ground floor was found to be too small for the number of persons who visit it.

Hear Frederic Villiers' illustrated war talk, A. O. U. W. hall, Thursday, June 2nd.

PARLIAMENT OF WOMEN TO-NIGHT

Novel Entertainment Under Women's Council Auspices in A. O. U. W. Hall

A final rehearsal of the woman's parliament of the Land of Happy Paradise, which has been arranged by the committee on Citizenship of the Local Council of Women of Victoria and Vancouver Island, was held at 3 o'clock this afternoon, and the indications are that the entertainment to be given to-night in A. O. U. W. hall will be an unqualified success.

Miss Tiffin's orchestra will open the programme, after which will follow a solo by Miss Buckley, who will sing "The Lords of Creation" instead of "The Harry Briggs" as was at first announced.

The tableaux which have been arranged by Mrs. Denis R. Harris will be not only picturesque and effective but in keeping with the rest of the programme. The first one is called "A Future Citizen." The second will represent the differing municipal status of the women of Vancouver, New Westminster and Victoria respectively. The visitor from Mars, about whom so little is known, will still be an object of mystery until her identity is revealed on the platform.

A number of selections by the orchestra will end the first part of the programme, after which the famous "Woman's Parliament" will be found in session. All taking part in the latter will wear the college gown and cap.

After the various motions and questions have been discussed will come the second reading of some very important bills.

Mrs. Hay, in presenting for its second reading a bill providing that men engaged in the profession of teaching shall receive salaries equal to women, encounters some lively opposition from the government.

Hon. Helen Grant, in a telling speech, gives her reasons for wishing an act passed "whereby fathers may be given equal recognition with mothers as custodians of their children."

Other bills deal with the disfranchising of male householders; the amendment of the marriage laws; the securing of honest administration in public affairs; and last, but not least, "an act to prevent married men from being on the public streets after the ringing of the curfew at 2 a. m." Mrs. Gleason presents this bill and Mrs. Gleaves replies to it in a way to make every benighted laugh.

His honor the lieutenant-governor, the premier and the mayor with their wives, will be present.

CUSTOMS RETURNS FOR MONTH OF MAY

Duties Collected Show Very Substantial Increase Over Same Month Last Year

The customs returns for the month of May show a very slight falling off from the April returns, which were abnormally high. Compared, however, with the month of May last year there is a very decided increase, especially in the duties collected on merchandise, which is the only true indication of the amount of business done. The Chinese returns are always freaky. The following are the figures for May:

Duties	\$107,522.62
Chinese	119,550.00
Other revenues	24.50
Total	\$227,097.12

The duties for the month of May, 1910, amounted to only \$8,657.42.

BANK CLEARINGS.

The bank clearings for the month of May aggregated \$7,485,447, as compared with \$5,607,538 in May, 1909, and \$4,886,628 a year earlier. The clearings for the week ending yesterday totaled \$1,790,188.

VOLTAIRE IN RELATION TO CHRISTIANITY.

The Subject for To-Night by Professor Cooper at the Congregational Church.

Colonel Ingersoll, the great American sceptic, maintained that Voltaire caused 20,000,000 people to turn from Christianity. The cast of the head of Voltaire will be presented to-night, and an opportunity given to study the strong and weak points of this character from a phenological point of view.

Large and appreciative audiences greeted Prof. Cooper at the two preceding lectures, and without doubt an exception will not occur to-night.

HOW WEAK GIRLS MAY GROW INTO STRONG WOMEN

The Blood Supply Must Be Kept Rich, Red and Pure—Good Blood Means Good Health

Healthy girlhood is the only path to healthy womanhood. The merging of girlhood into womanhood lays a new tax upon the blood. It is the overtaxing of the scanty blood supply that makes growing girls suffer from all those headaches, backaches and aches—all that paleness, weakness and weariness—all that languor, despondency and constant ill health.

Unhealthy girlhood is bound to lead to unhealthy womanhood and a life of misery. Nothing but the blood-building qualities of Dr. Williams' Pink Pills can save a girl when she undertakes the trials and tasks of womanhood. That is the time when nature makes new demands upon the blood supply. Dr. Williams' Pink Pills actually make new, rich blood which meets these new demands with ease. In this simple scientific way Dr. Williams' Pink Pills fill a girl with overflowing health and strength.

Miss Eva Dennis Amherst, N. S. says: "Dr. Williams' Pink Pills have done me a world of good. I was completely run down, was very pale, easily tired and suffered from frequent severe headaches. Though I tried many medicines I got nothing to do me the least good until I began using Dr. Williams' Pink Pills. Even the first box of these seemed to help me, and after taking a half dozen boxes I was again a strong, healthy girl. I have not had any illness since, but should I again feel run down Dr. Williams' Pink Pills will be my only medicine, and I strongly recommend them to every weak and ailing girl."

Dr. Williams' Pink Pills are sold by all medicine dealers or sent by mail at 50 cents a box or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

J. W. Holmes, of this city, is visiting friends in Nelson.
 Mrs. Muirhead, of this city, is visiting her mother, Mrs. Love, of Hedley, B. C.
 L. W. Stratford, M. P. P. for the Similkameen, is a guest at the Empress.
 Mrs. L. Casey, of Niagara street, will receive on Thursday afternoon and not again this summer.
 Mrs. Gilbert Cook, 1615 Sell street, Oak Bay, will receive on Friday afternoon, from 4 to 6 o'clock.
 Mrs. J. H. Gray left yesterday for Quebec, where she will meet her daughter, who is returning from England.
 Miss Mary Rendell, of Caledonia avenue, left this morning for Nanaimo, where she will spend some time visiting friends.
 The many friends of Miss Pearl Harrison, of Saanich, will be pleased to know that she is progressing favorably in the St. Joseph's hospital.
 Wm. Whitaker, of 1322 Government street, has just received word that his late father, Mr. Robert Enker, Esq., has obtained a scholarship at the Horological Institute in Toronto, where he has been studying watchmaking for the past two years.
 The engagement is announced of Mr. Ernest W. Tribe, steward's clerk at the Empress hotel, and Miss Della Baker, daughter of Mr. Robert Enker, Esq., of Esquimalt road. Mr. Tribe and his fiancée are both well-known in this city.
 Mr. Kierstead, professor at McMaster college, Toronto, who has been visiting Mr. and Mrs. J. W. H. King, Chamberlain street, for the past few days, left for Nanaimo, from where he will proceed to Vancouver and other points on the coast before returning east. Dr. Kierstead came west to attend the closing of the Okanagan college.

The Knights of Columbus ball, which was postponed from the early part of May on account of the death of the king, takes place on Friday night of this week. All the arrangements are complete and it is expected that this will be one of the most interesting and important society events of the season. It is practically the last dance to be given, and is rather late, but not too late for everyone to have a splendid time.
 On Thursday and Friday, June 2nd and 3rd, the Victoria West Amateur Dramatic Society will present the four-act comedy drama "Down in Maine," in Semple's hall. The members of the cast are working hard in attempting to make this a great success. On previous occasions the society has always acquitted itself well and has delighted those who attended. The proceeds of this affair will be devoted towards the building fund of the Victoria West Athletic Club. On Friday evening at the close of the performance there will be a dance, when all those who attend will be invited to stay and join in. Following are the members of the cast: Zeph Cummings, A. R. Colby; Ralph Cummings, Mr. Stratford; Neil Wentworth, A. W. Semple; Bingle, F. W. Jenkins; Tompa, C. W. Holley; Mr. Holden, F. W. Waller; Jimmy, Master Popham; Moss, Gossin, G. Andrews; Bunt Cummings, Miss D. Lawrie; Mrs. Cummings, Mrs. C. Jenkins; Keziah, Mrs. A. R. Colby; Betsey Tompa; Miss Scott.
 The temperature of countries with sandy soils is higher than those with clay or other compact soils.

The Evening Chit-Chat

BY RUTH CAMERON

"Oh no, Elinor never baked a cake or did anything like that in her life. Yes, we do all the housework together, but she does the beds and dishes and dusting and picking up, and I get the meals, and do the cooking, and all the less simple work. It is so much easier that way."

If the easy way were always the best in life, and the line of least resistance the line of success, how much simplified everything would be. But "easy" and "best" alas, are seldom synonymous.

Elinor is sixteen. Some day not so many decades away she will probably have a home of her own, the running of which will very likely require a knowledge of something besides "dusting, picking up and doing beds and dishes."

And yet how many mothers could give a similar account of the division of household labor between themselves and their young daughters. The simpler things that the little daughter can do without any oversight, she is given to do over and over again, instead of having the daily quota of work made a continually changing and advancing lesson in the art of home making. Small wonder, she doesn't get interested in her household tasks, and shows an inclination to shirk them.

If you think your little girl will never make a good housekeeper because she doesn't like to dust and wash dishes every day try letting her get a whole meal all herself, or bake a cake and frost it.

And don't take all the interest out of the venture by hanging over her and taking the work out of her hands every few moments with a capable "Here, let me do it. You are so awkward."

Let her have a little responsibility. Nothing pleases a child like the joy of a little responsibility, a taste of the fun of "doing it all myself."

And nothing develops a child more. "Responsibilities," Elbert Hubbard says, "gravitate to those who can shoulder them."

Conversely, "Shoulders broaden for those to whom responsibilities are given."

One mother of several daughters who wrote me recently in regard to her training of them, believes with me most thoroughly that a daughter's share in the household work should be made more than a dull routine. "Mona (aged fifteen)," she writes, "is delighted when I place the responsibility of preparing and serving a meal upon her. She has learned this summer to cook vegetables, cereals and desserts very nicely. She watches the clock closely when a joint is being cooked, and will weigh it first to calculate the necessary time it will take, while I stand by and try to be very patient, although it would often be far easier and quicker to do it myself, instead of instructing her."

It seems to me the keynote of the trouble with half the young girls who do not seem to "take to housework," is that last sentence. They had mothers who found it far easier to do it themselves than to instruct their daughters, and who followed this line of least resistance. I trust you aren't that kind of a mother.

Ruth Cameron
 EMPRESS THEATRE.

The management of this popular little picture theatre has secured a very entertaining programme for to-night and to-morrow. The feature subject is "A Caribou Hunt," a thousand foot film portraying with remarkable vividness all the exciting scenes associated with such a hunt. Its educational facilities should not be overlooked. Another feature is a story of every-day life full of heart interest, "The Man in the Overalls," which will appeal to all. There are two screamingly funny comedies also, and Miss Nyland is singing one of Wilmark's latest picture melodies, Mr. Leville will be heard in sections from San Toy, Geisha, Country Girl, Dolly Varden, Red Mill, Strollers, Bohemian Girl, Maritana, Florodora, Pirates of Penzance, Gingerbread Man, Three Twins, Top-o'-the World and other operas. Friday will be amateur night, when the best amateur programme yet seen at this theatre will be presented. All amateurs will do well to see the manager as soon as possible to arrange for rehearsals, etc. Cash prizes will be given to all competitors. There will be no matinees until further notice, as extensive alterations to the vestibule of the theatre are being made.

PUBLIC RECEPTION TO THE NEW RECTOR

Adherents of Christ Church Extend Heartiest of Welcomes to Rev. A. J. Doull

Rev. A. J. Doull, the new rector of Christ church, and Mrs. Doull, were welcomed to Victoria by the members of the congregation at a public reception held in the cathedral schoolroom last evening. There was a very large attendance and the proceedings were of the pleasantest character.

No set programme had been prepared, there were no speeches and what occurred was devoid of all formality, but nevertheless the occasion was made a memorable one for the new incumbent, for he came to know that all members and adherents of Christ church were desirous of extending to him and to his family the heartiest of welcomes to the capital city of British Columbia.

SELL CONCESSIONS AT THE PUBLIC PARKS

Ald. Humber Favorable to Allowing Vendors of Refreshments to Ply Their Trade

If Ald. Humber has his way an innovation will be introduced in respect to the administration of the public parks of the city, the aggressive chairman of the park committee favoring granting privileges for the sale of light refreshments and sweets. Ald. Humber has signified his intention of presenting a resolution at to-morrow evening's meeting of the committee, providing for the calling for tenders for these concessions.

The suggestion will, it is certain, be hotly opposed by some members of the city council, who take the position that to grant such concession would be but the thin end of the wedge opening a way for the park to become a regular market place for all sorts of hawkers.

Ald. Humber's return to this is that the privileges may be restricted to the class he mentions, and that the council shall limit the number to whom concessions shall be granted.

SEVENTEEN MEN KILLED BY EXPLOSION

Bodies of Victims Are Hurdled 500 Feet and Mangled Beyond Recognition

Salt Lake City, Utah, June 1.—Foreman Hugh Maguire, seven Austrians, seven Italians and two Japanese were killed in an explosion at the rock quarry of the Union Portland Cement Company at Devil's slide, 25 miles east of Ogden to-day. Four hundred kegs of powder were prematurely set off, and it is reported every man in the quarry was killed.

The explosion damaged the cement plant half a mile distant to the extent of thousands of dollars.

A relief train carrying physicians and nurses left Ogden for Devil's slide as soon as the news was received. All wires are down.

Maguire was an expert powder man, and it is believed that an irresponsible person set off the blast.

The bodies of the men were hurled a distance of 500 feet across the canyon and were mangled beyond recognition.

MAKES TARGET OF AEROPLANE

Man Sends Three Bullets Through Airship During Exhibition Flight in Missouri

(Times Leased Wire.)
Joplin, Mo., June 1.—Officers are searching to-day for a man who fired six rifle shots at a biplane Charles Willard's aeroplane while it was several feet above the earth.

Willard had travelled two miles in an exhibition distance flight yesterday when his air craft became the target for a man who appeared near a mine dump with a rifle. One bullet splintered the propeller, another perforated the aeroplane's ribs.

The affair was reported to the authorities and a search for the marksman begun.

MANUKA ARRIVES FROM AUSTRALIA

PASSENGER TRAFFIC EXTREMELY LARGE

Sports Are Coming on Marama for the Big Fight at San Francisco

Making her first visit since two years ago, the Canadian-Australian liner Manuka steamed into port this morning well ahead of her schedule. She was a day ahead at Honolulu, and the consequence was that she remained at that port a whole day. She had a large list of passengers and was booked right up a long time before the steamer sailed. Her 379 passengers included all sorts and conditions of people. Some are coming to this province, but the majority are bound through to England and United States points. The following left the steamer at this port: J. Earle, Mr. and Mrs. J. B. Corley, C. M. Chapman, E. A. Solomon, Mr. and Mrs. J. H. Bennett, Mr. and Mrs. Howard Clarke, Mrs. (Capt.) A. Brew and infant, Mr. and Mrs. Bruce, Major A. T. Parker, Capt. H. Finness, Miss Hay, D. Rodriguez, Mrs. Gurney, Miss Gurney, D. Kligore, J. D. Jenne, A. Harris, Miss M. Murphy, A. T. Bottomley, Mrs. J. W. Walker, J. Gaughan, Silas Taber, F. R. Brunton, Miss Kelly, Miss F. Addy, Mrs. F. Clear, P. L. Hurst, Mr. and Mrs. Behling and child, Mrs. and Miss Turner, Mrs. F. Cook and two children, F. Campsall, Geo. Campsall, Mrs. Willerton, A. Clark, A. J. Poole, A. McHugh, F. Ferguson, A. Fleis, J. Dixon, R. Meldrum, Mr. and Mrs. Rochford and three children and Miss A. White.

Light variable winds and fine weather was experienced throughout the trip until yesterday, when a heavy head wind was experienced. The barque Almoraz was passed yesterday 300 miles southwest of Cape Flattery. During the trip the usual deck games were enjoyed and two rummy dress balls were held, which were unsuccessful, as well as a number of cogwheels.

The steamer brought a good-sized freight. For Victoria there was 38 crates pineapples, 15 barrels oil, 25 cases meat, 67 pieces timber, 30 cases wines, 5 cases boots, 25 cases K. gum.

For Vancouver, 125 crates pineapples, 10 cases tongues, 175 cases meats, 275 pieces of timber, 120 crates onions, 273 pieces timber, 65 cases preserves, 240 crates onions, 217 ingots tin, 311 bags ammonia, 24 bales millet, 2,501 sacks hide, 292 bundles steins, 35 bales gum pieces, 292 bales skins, 129 bales wool, 29 caasks pelts, 33 cases Kauri gum and a quantity of sundries.

Much gratification was expressed among the officers of the ship at the action of the Dominion government in calling for tenders for the carrying of mails for a period of three or five years. This, they explained, would give the company some encouragement in the matter of building new steamers.

Tummy Burns was not among the passengers, as expected. He is coming on the Marama a month later and there will also be a large number of Australian sports, including Bob Fitzsimmons. These will all attend the big fight at San Francisco and will probably go south on the steamer Marama, from this port.

The Manuka proceeded to Vancouver after discharging the passengers and freight for this port.

TRAFFIC ARRANGEMENT WITH MATSON LINE

Sir James Mills Left Steamer Manuka at Honolulu to Discuss Proposal

An arrangement is being made by Sir James Mills, one of the directors of the Union Steamship Company, which own the Canadian-Mexican line, by which passengers to San Francisco will be transhipped at Honolulu, allowing them to spend a few days in that city and then proceeding to their destination. The Matson Navigation Company is the firm with which the arrangements are being made, and they become effective at once.

Hitherto the passengers bound to San Francisco have come to this port and transhipped here, going south on the Pacific Coast steamer. As there is a good deal of travel between Honolulu and this city the allowing of the San Francisco passengers to leave the steamer at Honolulu will make room for others to take their places.

Sir James and Lady Mills left the Manuka at Honolulu to take the Matson liner Wilhelmina to San Francisco.

ELECTRIC STORM.
Captain of San Juan Describes Disturbances as Strangest He Had Ever Seen.

In a terrific electric storm, encountered off the Central American coast, the pole of the mainmast of the Grand Trunk Pacific steamer San Juan, was shattered by a bolt of lightning, and Third Officer Halston and several of the crew were badly stunned. The San Juan was at San Francisco from Ancon and way ports. Capt. Praser reported that it was the strangest disturbance he had ever witnessed during his long experience at sea.

The San Juan was steaming up the coast between San Jose, Chiriquito and was enjoying favorable but cloudy weather. On the evening of May 12th the star was lighted by great flashes of sheet lightning and thunder roared continuously.

After lasting for several hours the disturbance subsided. Along about 10 o'clock, when nearly all the passengers had retired, there came a blinding flash from the heavens, followed by a roar like the field guns of a retreating army.

The bolt of lightning dropped from the sky and made a contact with the stem of the mainmast, sending it into splinters. Third Officer Halston, who was on the bridge, was knocked down by the shock and several seamen in the forepeak were also stunned.

CROWDED CONDITION OF C. P. R. DOCKS

Seven Steamers Were Moored at Belleville St. Wharves Yesterday Afternoon

The need of an increase in size of the C. P. R. docks was well illustrated yesterday afternoon, when all but three of the steamers of the C. P. R. coasting fleet were tied around the Belleville street wharves, as well as one steamer of the International Company's fleet. The two big steamers Princess Charlotte and Princess Victoria were there, and the Northern boats Princess May, and Amur, as well as the smaller coasters Tees and Queen City. At the same time the Chippewa was tied at the dock.

Fortunately the Chalmers did not arrive until one or two of the others had pulled out or she would have had to find another mooring place.

The widening of the dock to the extent of thirty feet will be the piece which is to be added on to the end will make a considerable difference. That the C. P. R. did not take action any too soon is quite clear.

WINTER CONFERENCE TO DISCUSS SEALING

Arrangements Made for Meeting of Delegates From Four Interested Nations

Washington, D. C., June 1.—A conference of the representatives of the four countries interested in the sealing question is to be held early in the coming winter with a view to settling the much discussed question of stopping pelagic sealing. Great Britain, Russia, Japan, and the United States will each have delegates present. A conference has been held between British Ambassador Bryce and Counsellor Hoyt with the result that the meeting has been agreed upon, and the indications are that no trouble will be experienced in arranging a treaty. The four nations interested have all expressed their willingness to come to a definite arrangement for the settlement of this question.

BARQUE WRECKED; TWO MEN DROWNED

Small Boats Capsized When Crew Endeavored to Reach the Shore

(Special to the Times.)
Halifax, N. S., June 1.—The Norwegian barque Dorghad struck on Castor ledges, near Sherbrook, N. S., this morning and the crew took to the boats, which were soon washed on the ledges, and the steward and one seaman drowned. The remaining nine clinging to the wreckage of the boats were rescued by fishermen. All of them were much exhausted and two were so badly injured that they may die.

STEVEDORING DISPUTE

Steamer Hyndford Held Up in Fraser River While Owners and Millmen Settle Differences.

A report from Vancouver states that the loading of the steamer Hyndford, of the Waterhouse fleet, is the subject of a dispute between the Waterhouse company and the Fraser River Lumber Company, and in the meantime the vessel is lying idle until the misunderstanding is settled. The company insists that the Empire Stevedoring Company shall do the loading, while the Waterhouse Company, which has a contract with the Victoria and Vancouver Stevedoring Company, believes it can engage whatever company it prefers. It is probable that if an understanding is not reached within ten days, the Waterhouse Company will claim demurrage for non-delivery.

MARINE NOTES

R. P. Pierson has been appointed superintendent of the Alaska Steamship Company, entering upon his duties to-day. He has until recently been supervising engineer for the firm.

Ship Abner Coburn has been fitted with wireless apparatus, which will be operated by the Japanese cabin boy, Captain Murray hopes to be able to keep in touch with Everett G. Griggs during the voyage to South Africa.

Five well known Puget Sound barges have been added to the fleet of the Alaska Barge Company, of Tacoma, by the purchase of the James Drummond, St. James, Carondelet, Palmyra and Big Bonanza, formerly of the James Griffith fleet.

R. L. Newman, the Victoria naval architect, was one of the guests of honor of the Grand Trunk Pacific on their last leg of her voyage to this coast. He, with a number of others was landed at Falmouth. He is now on his way home to Victoria.

The hull and keel of Cape Flattery last week lost \$50,000 worth of cables, anchors, buoys and tackle during violent storms, according to vessels arriving at Seattle. The power schooner Pilot was rammed off Dungeness by the steamer Albion and was barely able to reach shore. Ole Stock and Hans Olsen, of the schooner Lester, caught a large shark in a trawl. The shark, rising to the surface, struck their dory with its tail, tore off the starboard side and then raced away with the men clinging to the wreck of the boat. They escaped death through parting of the tackle.

The London Gas Light and Coke Company has filled their year's requirement by purchasing 50,000 tons of Wear coal at 12s. 4d. free on board a reduction of about threepence on last year's price.

NEW GOVERNMENT NOT SOCIALIST

AUSTRALIAN PROSPECTS EXCEEDINGLY BRIGHT

Business Men From Antipodes Declare Labor Cabinet Best They Have Ever Had

That the new labor government in Australia is expected to be the best government that Australia has ever had is the news brought from Australia this morning by the steamer Manuka, Arthur Kidman, who is one of the principal exporters of Australian mutton to this country, with headquarters at Sydney, New South Wales, is here for the purpose of investigating the possibilities of the business and also looking for hints in regard to the establishment of a huge abattoir which his firm is planning for the port of Sydney.

Mr. Kidman was very enthusiastic about the future of his country. He says that business is on the increase in every department and they all look for much better times. The most interesting point he made, however, was in regard to the present labor government of that country. Speaking of it he said:

"The labor government of Australia is not a socialist government; I want you to clearly understand that. They are not in any way revolutionary, and everyone expects them to be the best and most stable government that Australia has yet had. Instead of the return of the labor government being a retrograde step, as some imagined, it is really a step forward. There has been no slump in securities, no interference with business, but instead of that the business of the country has shown signs of improving in every part of the country and in every line of trade."

"Your labor men are imperialists then?" Mr. Kidman was asked. "Well, yes, to some extent. They are not Socialists, at any rate. The returns of the last election show that the Socialists have had a complete setback. The labor men are sane and the prospects are most encouraging."

Several other business men who were with Mr. Kidman substantiated what he said in regard to the trend of affairs, and especially in regard to the new government.

Speaking of the result of the coal strike, Mr. Kidman said that the mines were all working full time. There was a slight loss of business, which had not yet righted itself, however, in the fact that vessels which would have come there to load had made other arrangements owing to the strike, and that some sail and other craft which were there to load, finding that they could not secure cargo, had gone to other parts of the world. This had caused a shortage of tonnage at Australian ports, with a consequent stiffening of prices.

Mr. Kidman will visit a number of points in this country before returning to Australia.

SCHOONERS ARRIVE

Seven coastwise sailing vessels are reported arriving on the sound yesterday, the majority of them having made slow passages up from California ports. The heavy northwest gales which have prevailed recently along the coast are probably chiefly responsible for the slow passages. The list includes the schooner W. H. Talbot from San Pedro, schooner Nokomis from San Francisco, schooner Commerce from San Pedro, schooner E. K. Wood from San Francisco, schooner Melrose from San Pedro, barkentine Puskos from Valparaiso, and schooner Americana from San Pedro.

SAVE SEALS

New York Newspaper Expresses Satisfaction That Agreement Among Nations Is Under Way.

New York, June 1.—The Evening Globe says: "Brief and lacking in detail as is the report that a sealing treaty between the United States, Canada, Russia and Japan has been practically concluded, the mere statement that it is all but agreed to stop pelagic fishing in the North Pacific ocean for a long term of years is enough to cause profound satisfaction."

"If it is true that the unequalled consent of other nations, particularly Japan, has been obtained to the restriction of prohibition so long and earnestly desired in this country, it may be that extermination of the seal herds is not to become complete. "If this agreement is not reached, the early extermination of the North Pacific seals seems an absolute certainty."

TO THE KLODKI
During the period navigation is closed on the Yukon river this company operates stages between White Horse and Dawson, carrying freight, passengers, mail and express. For further particulars apply TRAFFIC DEPARTMENT, W.P.A.T.N. 405 Winch Building, VANCOUVER, B. C.

REVIEW OF THE STOCK MARKET DURING MAY

There Has Been a Quiet Tone, But Not Accompanied by Any Weakness

F. W. Stevenson & Co.'s monthly review of the stock market for May is as follows:
The semi-demoralization in the New York stock market during January and February last was the result, in great part, of a belief that business was contracting. Since then a pessimistic feeling has grown up, every week bringing reports of lessened activity in this trade or that, or in one section of the country or another. If business really began to fall off at the time such a tendency was said to have been noticed, it seems strange that the effect is not yet seen in the earnings of transportation companies. Gross receipts of the leading railroads, instead of falling off, are growing in undiminished fact and as the figures now available represent a period prior to the movement to advance rates, the growth cannot to any extent be due to their increase. So far as railroad earnings can be considered a test of business activity there certainly has not yet been any change for the worse.

The crop outlook in this country continues excellent, much needed rains having fallen where most needed and as the spring season has been an early one large crops are almost assured. On the other hand the situation in Europe is less favorable, weather conditions having been cold and unseasonable, with crops making but little progress. In Australia also, the crop outlook is not the weather continuing exceedingly dry. Big crops in this country and short supplies abroad will probably turn the balance of trade again in our favor.

While money rates are not high it is a matter of comment among banking houses that there is an underlying tightness both here and abroad which is instantly felt upon any attempt to carry out large financial operations. Lenders of money in Europe, as here, want handsome inducements, as they can afford, to take their time and choose their securities at leisure. With this condition existing in May, far sighted people are commencing to calculate the possible effect of the added autumn demand for money. Stiff interests are certain, and we will be lucky if conditions are not more stringent than at any time since 1907. Fortunately for the stock market, speculation is not greatly extended, and Wall Street can afford to regard the money market outlook with equanimity, especially if it makes the preparations now which foresight indicates should be made.

The recent decline in securities has placed most of the high grade stocks at a level where they offer a more attractive return on an investment than some time past, and any further setback will undoubtedly bring the private investor into the market. The recent drastic liquidation in grain, as well as other commodities, is also an extremely bullish factor in stocks and for the immediate future we believe the purchase of standard securities will prove profitable.

Boston Copper Market.

Copper metal continues quiet and firm with Lake quiet at 12 1/2 to 13 1/2 cents per pound, with sales at both prices during the month. There is a good movement into consumption and considerable inquiry for future, with neither buyers or sellers attempting to force the market. The amalgamated interests are holding electrolytic at 15 cents, and refuse to make concessions from that price here, although it is reported that they have shaded the price to European consumers. There is still considerable copper held by two or three large European speculative interests, but practically all the small holdings have been liquidated within the past month. The copper situation is at present so complicated that it is exceedingly difficult to attempt forecasting the future movement of prices, at the same time a revival in business of any magnitude should find an immediate response in copper metal.

Montreal Market.

With the exception of Canadian Pacific, which sold up to 19 1/4 during the past month, this market has been devoid of any special interest, prices generally following in the wake of New York. Local banks have raised call loans and the money situation seems to be again a factor. That there is a ready demand for Canadian securities of the better class, however, is indicated by the rapidity with which the public subscribed to the entire issues of the Maple Leaf Milling Co. and Cereal merger.

Local Market.

The local market, especially the Portland Canal issues, is apparently suffering from an overdose of annual, glowing reports of new and rich strikes at lower levels on the principal properties failing to arouse any semblance of enthusiasm from the public, in fact, the disposition of late seems to be entirely on the selling side. While mining shares are more or less of a venture at the best, if one half the reports emanating from this camp are true the shares of the better class are cheap at the current figures.

A better demand is noticeable lately for International Coal, sales being recorded as high as 7 1/2, with current prices about 7 1/4. As we have often said before, we believe these shares are worth more than they are selling for at present.

Pacific Whaling Company's shares at current figures look cheap, as it is reported 1910 will be a prosperous year for the company. Anything like a continuance of last year's dividend rate should warrant higher prices.

Sponge Pudding.—Here is a nice pudding which has been contributed by a reader: Mix well, together a small teaspoonful of flour, half a teaspoonful of castor sugar, a teaspoonful of baking powder, an ounce of butter, one egg and half a teaspoonful of milk. Pour into the butter mould and bake in a slow oven for twenty minutes. Serve hot with a sherry sauce.

TRAVELLING OVER THE POLAR ICE

Commander Peary Describes Hardships and Difficulties Encountered on Trip to Pole

"The difficulties and hardships of a journey to the North Pole are too complex to be summed up in a paragraph," says Commander Peary in his story of the "Discovery of the North Pole," in the June Hampton's. "But, briefly stated, the worst of them are: The ragged and mountainous ice over which we must travel with our heavily loaded sledges; the often terrific wind, having the impact of a wall of water; which we must march against at times; the open leads already described, which we must cross and recross, somehow; the intense cold, sometimes as low as 50 degrees below zero, through which must be fur clothing and constant activity—keep our flesh from freezing; the difficulty of dragging out and back over the ragged and lead-broken trail enough pemmican, biscuit, tea, condensed milk and liquid fuel to keep sufficient strength in our bodies for travelling. It was so cold much of the time that the brandy was frozen solid, the petrolum was white and viscous, and the dogs could hardly be seen for the steam of their breath. The minor discomfort of building every night our narrow and uncomfortable snow houses, and the cold bed platform of that igloo on which we must snatch such hours of rest as the exigencies of our desperate enterprise permitted us, seem hardly worth mentioning in comparison with the difficulties of the main proposition itself.

"At times we marched all day long facing a blinding snowstorm, with the bitter wind searching every opening in our clothing. Those among my readers who have ever been obliged to walk for an hour against a blizzard, with the temperature 30 degrees or 20 degrees above zero, probably have a keen memory of the experience. Probably they also remember how welcome was the warm fireside of home at the end of their journey. But let them imagine tramping through such a storm all day long, over jagged and uneven ice, with the temperature between 15 degrees and 20 degrees below zero, and no shelter to look forward to at the end of the day's march, except a narrow and cold snow house which they would themselves be obliged to build in that very storm before they could eat or rest.

"A lead might open right through our camp, or through one of the snow igloos, when we are sleeping on the surface of the Polar sea.

"Should the ice open across the bed platform of an igloo, and precipitate the men into the icy water below, they would not readily drown, because of the buoyancy of the air inside their fur clothing. A man dropping into the water could probably be extricated in time; but with the thermometer at 50 degrees below zero it would not be a pleasant possibility.

"This is the reason why I have never used a sleeping bag when out on the Polar ice. I prefer to have my legs and arms free, and to be ready for any emergency at a moment's notice. Furthermore, I never go to sleep when out on the sea ice without my mittens on, and if I pull my arms inside my sleeves I pull my mittens in, too, so as to be ready for instant action. That is the place where a man must sleep with his boots on. What chance would a man in a sleeping bag have should he suddenly wake to find himself in the water?

"I am often asked if we were hungry on that journey. I hardly know whether we were hungry or not. Morning and night we had pemmican, biscuit and tea; and the pioneer party had tea and lunch in the middle of the day's march."

GRAVES IN WESTMINSTER ABBEY

Many Cannot Be Located by the Visitors.—A Plea for Their Proper Care.

Some time ago, says a writer in the London Daily News, I directed public attention to the condition of the tomb inscriptions in Westminster Abbey, especially in the north transept, but nothing seems to have been done to remedy the obliteration, which will undoubtedly ere long wipe away all trace of the last resting-places of the great dead, who have made the nation's history so glorious. It is not only apathy deserving the severest censure—but the most inexcusable vandalism on the part of the authorities responsible for the proper care of the Abbey memorials. It is almost impossible at present to locate the graves of Fox, Castlereagh, the Pitts and others at the entrance to the north transept. I understand there is a crown department for the preservation of ancient monuments, and unless the Dean of Westminster, or whoever else may be responsible, takes the matter up seriously, the sooner the custody of the Abbey monuments pass over into this department the better it will be for the dignity and respect of the nation.

The number of country and foreign visitors who pass through the portals of that ancient fabric within one year must reach an enormous total, and it cannot be disputed that the primary interest for visitors is not the awe-inspiring architecture, nor the lofty walls, made venerable by the dust of age, but the plain flagged pavement, underneath which rests the sacred dust of Britain's mighty men.

It should only be necessary to mention the necessity for improvement in a matter which so largely affects the sentiment of the empire. If it is a question of cost, which at the most would only be a trifle, an appeal from the dean would have immediate response. The custodians of the Abbey have a duty to perform for the nation, and if they are unable, through lack of funds, the people will assist them. The necessity for the improvement is urgent, and should be attended to without delay.

NEWTON & GREER CO., LIMITED

PAINT MANUFACTURERS

WORKS—WHARF, FOOT OF JOHNSON ST.
OFFICE—MUNICIPALITY, 1226 SHARF STREET
HARRIS, B. C.

To The "Times"

Please publish the following WARNING:

It having come to our knowledge that some persons have been collecting orders, and taking contracts for roof painting, falsely representing that the material they apply is "EAG SLATING" Fireproof Roof Composition, manufactured by us in Victoria;

We hereby warn the public against any such persons, who, while agreeing to use this material, substitute a cheap and inflammable concoction, detrimental instead of beneficial to roofs. This can be guaranteed against only by those interested seeing that every package, supposed to contain "EAG" Composition, bears our trade mark, "EAG", and the full name, Newton & Greer Co., Ltd.

We also beg to advise the public that all our representatives who solicit orders, are furnished with written authority from us, to enable them to book contracts in our name, to be done by our men—in which case it is guaranteed that none but the genuine material will be used and the same properly applied—in order to prevent roof fires, stop leaks, etc., etc.

Interested parties can obtain further particulars on application.

CITY OF VICTORIA

A complete list of Local Improvement Works authorized by By-Law from time to time will be found posted on the Bulletin Board at the Main Entrance to the City Hall.

Civic Notice

The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable:

1. To construct a permanent sidewalk of concrete on the west side of Douglas street from the northerly boundary of Lot 5, Block T, Work Estate, northerly to the city limits.
2. To light Yates street from Douglas street to Blanchard avenue by means of electric light posts bearing branch lights, also to construct the necessary conduits for carrying all wires underground.
3. To construct permanent sidewalks on both sides of Duchene, between Fort street and Leighton road.
4. To construct a permanent sidewalk, with curb, gutter and boulevard (including maintenance) on the west side of Richmond avenue from Oak Bay avenue southward to the north line of Lot 5, Peter's Sub-division, Section 65.
5. To construct a permanent sidewalk of concrete on the north side of Collinson street from Vancouver street to Cook street, with curbs, gutters and boulevards, including maintenance.

And that each and all of said works shall be carried out in accordance with the provisions of the "Local Improvement General By-Law" and amendments thereto, and the City Engineer and City Assessor having reported to the Council in accordance with the provisions of section 4 of said by-law, upon each and every of said works of local improvement, giving statements showing the amounts estimated to be chargeable in each case against the various portions of real property to be benefited by the said works, and the reports of the City Engineer and City Assessor as aforesaid having been adopted by the Council:

NOTICE IS HEREBY GIVEN that the said reports are open for inspection at the office of the City Assessor, City Hall, Douglas street, and that unless a petition against any proposed work of local improvement above mentioned, signed by a majority of the owners of the land or real property to be assessed for such improvement, and representing at least one-half of the value of the said land or real property, is presented to the council within fifteen days from the date of the first publication of this notice, the council will proceed with the proposed improvement upon such terms and conditions as to the payment of the cost of such improvement as the council may by by-law in that behalf regulate and determine.

WELLINGTON J. DOWLER,
C. M. C.
City Clerk's Office, Victoria, B. C., May 28th, 1910.

COURT OF REVISION

NOTICE IS HEREBY GIVEN that the first sitting of the Annual Court of Revision of the Municipality of the City of Victoria, will be held in the Council Chamber, City Hall, Victoria, B. C., on Tuesday, the 21st day of June, 1910, at 10 o'clock a. m., for the purpose of hearing complaints against the assessment as made by the Assessor, and for revising and correcting the assessment roll.

WELLINGTON J. DOWLER,
C. M. C.
City Clerk's Office, Victoria, B. C., May 19th, 1910.

Arc Light Equipment

Tenders will be received up to Monday, June 13th, at 4 p. m., for the supply of plant, consisting of lamp transformers, switchboard, and co. as per specifications, which can be seen at the office of the undersigned, to whom tenders shall be sent.

The lowest or any tender not necessarily accepted.

WM. W. NORTHCOTT,
Purchasing Agent.
City Hall, May 26th, 1910.

PARLIAMENTARY MANNERS.

Manners in the British parliament seem to have improved a little. Mr. Moritz says (in an old-time journal, quoted by E. V. Lucas in the Atlantic): "The members of the House of Commons have nothing particular in their dress; they even come into the House in their greatcoats, and with boots and spurs. It is not at all uncommon to see a member lying stretched out on one of the benches while others are debating. Some crack nuts, others eat oranges, or whatever else is in season. There is no end to their going in or out; and as often as any one wishes to go out, he places himself before the speaker, and makes him his bow, as if, like a school-boy, he asks his tutor's permission. Those who speak, seem to deliver themselves with but little, perhaps not always with even a decorous gravity. All that is necessary is to stand up in your place, take off your hat, turn to the speaker (to whom all the speeches are addressed), to hold your hat and stick in one hand, and with the other to make any such motions as you fancy necessary to accompany your speech."

NERVOUS HEADACHE

And Muscular Rheumatism Disappeared When the Nerves Were Retored by

DR. CHASE'S NERVE FOOD

Feeble, wasted, starved nerves often make their condition known by nervous headaches. This is one of the first and most marked symptoms. If you are at all subject to rheumatism you have noticed how much worse it gets when the system gets run down. Both nervous headache and muscular rheumatism disappear when Dr. Chase's Nerve Food is used to rebuild and revitalize the wasted and weakened body.

Mr. James Riley, moulder for the Waterloo Engine Co., 46 Jarvis street, Brantford, Ont., writes: "I suffered for years with muscular rheumatism and as I also had frequent and severe attacks of nervous headache I concluded that the trouble came from the nerves and began using Dr. Chase's Nerve Food. As I continued this treatment the rheumatism was gradually driven out of the system, my nerves got stronger and steadier, and the headaches disappeared. I consider Dr. Chase's Nerve Food a splendid nerve regulator and health builder."

You cannot possibly make a mistake in using Dr. Chase's Nerve Food when the nervous system gets run down, for by forming new, rich blood this great cure builds up the nerve cells as nothing else can.

When you have made up your mind to test this treatment, go at it in earnest and keep at it regularly until you feel again the joy of health and vigor. Fifty cents a box, 6 for \$2.50, all dealers, or Edmanson, Bates & Co., Toronto. Write for free copy of Dr. Chase's Recipes.

He who receives a good turn, should never forget it; he who does one should never remember it.—Charron.

A plucky girl told at the North London police court how she captured a burglar. Her name was Miss Lily Lindsey, and she said she found the back door of her aunt's home at Highbury open. Afterwards a man appeared at one of the back windows on the first floor, and called out to her that he would strike her if she did not get out of the way. He then climbed out of the window and dropped into the garden, breaking the glass of another window in his fall. He rolled over near where she was standing, and she seized him by the coat and held him until further assistance arrived.

GODFREY BOOTH, Manager - Victoria, Branch

Believing that a bomb had been thrown acrossers and guards ran down the Prince's assailant.
The missile struck and seriously wounded a policeman. It was found to be a mine pot containing boiled beans.
Although the Crown Prince laughed when told of the nature of the weapon, his guards and attendants are still quaking in the knees.
The King of Belgium was accompanying the Crown Prince at the time. The bean pot narrowly missed the Belgian monarch.
Elsewhere is believed to be insane.

Berlin, June 1.—While Crown Prince Frederick William of Germany was leading the Grenadier Guards in review to-day, Abraham Elseweiss, a Polish Jew, hurled a heavy missile at him

Auction Sale of Timber Berth

The right to cut timber under license on Berth No. 522, comprising the following lands in the Province of British Columbia, will be offered at public auction at the upset price of \$102,500, including the cost of survey, at 2 o'clock p. m. on Wednesday, the 16th of August next, at the office of the Dominion Timber Agent at New Westminster:
Timber Berth No. 522, situate in the Province of British Columbia, East of Adams Lake, and comprising the North three and one-half miles of Township 22, Range 11, and Sections 11, 12 and 13 of Township 25, Range 12, West of the 6th Meridian, containing an area of 2192 square miles—more or less—according to plan of survey thereof, signed by Ernest W. Robinson, D. L. S., dated the 7th January, 1909, and of record in the Timber, Grazing and Irrigation Branch of the Department of the Interior.
A license will not be issued until the full amount of the purchase price and the ground rental for the first year have been paid.
The conditions of payment, rate of rental, etc., are contained in the Timber Regulations, a copy of which may be secured on application to the undersigned or to the Crown Timber Agent at New Westminster. A Blue Print showing the location of the berth will be furnished on application.
P. G. KEYS, Secretary.
Ottawa, March 15th, 1910.

Does a Dollar Saved Interest You?

If not, you need not read this. But the fact remains that you cannot earn a dollar easier than saving it.

The big Opening Sale at White's New Shoe Store is your opportunity to save, not only one dollar, but many. The crowds who bought here yesterday and to-day are good proof that we are doing as we advertise.

To-morrow will see another whirlwind of Bargains in every department.

HERE ARE A FEW

- MEN'S FINE VELOUR CALF BLUCHER CUT BOOTS, heavy dull lined, medium and pointed toe, tan and black. The kind you need right now. Regular price \$4.50. Sale price \$2.85

COMMANDED TROOPS OF MULAI HAFID

Young Englishman, Now Visiting
Canada, Tells Interesting
Story of Morocco

Kaid Belton, who was from April, 1908, to February of this year the commander-in-chief of the Sultan of Morocco's Mulai Hafid army, is on his way to Saskatoon, says the Winnipeg Free Press. Mr. Belton is an Englishman, 28 years of age. He went to South Africa at the commencement of the Boer war, and at the age of 19 had gained the rank of lieutenant for services in the field. He served under Col. S. Hughes, M.P., who went to South Africa with the Canadian contingent, and speaks very highly of the work done by the Canadian troops. Mr. Belton afterwards served through the Zulu rebellion, during which he attained the rank of captain.

Returning to England, he found conditions there not exactly to his liking, and hearing that there was likely to be trouble in Morocco, he decided to go there and offer his services to the half brother of the then Sultan, and had, to proceed to Tangiers and Fez in the disguise of a Moorish woman, as the whole country was in a state of war at the time, owing to the French having tried to monopolize the country. The distance he covered in order to reach Tangier was 220 miles, on reaching that city he communicated with Mulai Hafid, stating that he had just arrived from England and wished to enter his army. A few days later he was sent for to go to the palace. He then told Mulai Hafid that he wished to take over the command of Mulai Hafid's army in the same way that Kaid Maclean had done in respect to the troops of the late Sultan. Mulai Hafid would not decide anything at that interview, but a few days later Mr. Belton was again sent for, and on going to the palace, he found that 40,000 men were drawn up outside, composed of infantry, cavalry and artillery, and he was ordered to show what he could do with them. He then proceeded to test their efficiency by putting the troops through various manoeuvres which proved satisfactory to Mulai Hafid.

After the Ait-Yusi.
During the comparative quiet which followed, he was engaged in re-organizing the Moorish troops and getting new equipment, etc. In June, 1909, he took an expedition of about 10,000 men against a tribe known as Ait-Yusi; this tribe had been independent for over 100 years and had paid no taxes to any Sultan. Mr. Belton was engaged in fighting them from the middle of January to the end of February, by which time they had been brought entirely into subjection. About this time a party of French military officers entered the service of the new Sultan, they having been brought over by the French government, and in the latter

SCHOOL YEAR WILL END THIS MONTH

Examinations Will Commence
Soon—Entrance Tests Begin
June 28

The present month will be a heavy one for the young students of the public schools. The promotion examinations in the public school classes will commence within a week or two, in order that the papers may all be corrected and the returns made up before the summer closing, which takes place on Thursday, June 30. While the promotions to higher classes do not all depend upon the results of these examinations, they are a guide to the teachers as well as the principals in putting the pupils into higher grades.

This is the time of year when some of the little folks begin serious work and when they commence wishing they had worked harder throughout the year. The hot weather of June is not conducive to study; however, and there is little hope for those who have not already made good.

The High school entrance examinations do not commence until the 28th of the month, lasting three days. The papers are examined by the inspectors. High school teachers and others during the beginning of the holidays, and the results are announced as soon as the work is completed. Unlike the class promotions the results of the entrance examinations are final, those not passing having to remain another year in the public schools. This is where nervous pupils find themselves handicapped.

The examination for teachers' licence commences on July 4th, making it impossible for any with pro-American leanings to take part in the great American celebration.

The summer holidays will extend over eight or ten days, a time which will include practically all the hot weather.

TENDERS

Tenders will be received by the Victoria School Board up to 4th June for the dressing and erection of six Flag Poles. Specifications to be seen at the office of the Board.
ISABELLE MOORE,
Secretary.

TALK No. 5

MAGIC BAKING POWDER

Does not contain Alum

ALUM is put into inferior baking powders because it is cheap. You cannot detect it, because all baking powders look alike. Alum is a dangerous mineral acid condemned by food experts as unfit for use in any food preparation, because it works havoc with the stomach and digestive organs and causes certain harm to the entire system.

Your baking results will be the best with MAGIC and you have the certain knowledge that your bread, biscuits and pastry will be light, healthful and delicious. There is no substitute for MAGIC and it is a medium priced baking powder and the only well-known one made in Canada that does NOT contain alum.

NO ALUM

Full Pound Cans, 25c.

N. B. GRESLEY, - - - P. O. Box 555

end of March the Sultan decided to send another expedition against another mountainous tribe known as Bent-El-Fer. These French officers went in command of the expedition with 7,000 men and on the 16th of April, 1909, they were almost completely annihilated, and lost all their camp equipment and 12 guns.

Mr. Belton was then sent out with another expedition to try and retrieve the loss, and taking with him 10,000 men on the 18th, 17th and 18th of May he fought and was successful in defeating the tribe, as well as recovering all the camp equipment and guns that had been lost. During June and July of 1909 he was engaged in re-organizing the troops.

Bou-Hamara Captured.
Late in August he took another expedition of about 15,000 men against a tribe known as Bou-Hamara in Southeastern Morocco. Bou-Hamara, who was the head of the tribe, had been fought and was successful in capturing Bou-Hamara and wiping out his force of about 8,000 men.

Finances Low.
From September, 1909, up to the end of January, this year he was again engaged in re-organizing the army, and in February he was forced to resign owing to the financial condition of the country. The previous Sultan had borrowed \$75,000,000 from the French government, and also about \$40,000,000

COOK'S POLAR RECORDS.

London, June 1.—The newspapers here announce that they have "traced Scotland with a fine-tooth comb" but failed to get any trace of Dr. Cook, reported to be in the northern country. New York newspapers wired their correspondents to interview Dr. Cook relative to his plans for departing for Etah and bringing back proofs of his discovery of the north pole.

New York, June 1.—Captain B. M. Osborn, a close friend of Dr. Cook's, declared yesterday that Cook did not intend to bring back the records from Etah. He said that some other man would bring the records back this winter and would prove that Cook reached the northern pole.

The number of deaths that occur on the globe amount to 67 a minute, and the births to about 69 of 70 a minute.

PASSENGERS COOL IN FACE OF DANGER

Beaching of Steamer Kaslo at Ainsworth Was Made Without Panic on Board

Nelson, May 31.—Further reports of the wreck of the Great Northern steamer Kaslo at Ainsworth show that for a time passengers and crew were in grave peril. In trying to make a landing the Kaslo struck the pier at Ainsworth. There was a high wind blowing and a heavy sea running.

Capt. Moore, thinking that no damage had been sustained, put off to continue his trip, when a few hundred yards from the shore it was discovered that there was a large hole in the fore part of the bottom of the boat. He sounded the distress whistle and made for the shore. There was danger of the boilers exploding and the passengers, and crew behaved splendidly, although the Kaslo was taking water rapidly.

Those on shore noticed that something was wrong, by the way the vessel was rolling, and as she came in Mr. Williams of Ainsworth jumped into the water and brought the line that was thrown ashore. The Kaslo was made fast and the passengers scrambled ashore. The stoke hold was by this time full of water, and waves were washing over the decks. The crew then toiled long and bravely to save the baggage and cargo.

The shore was littered with a miscellaneous collection of trunks, guns, clothing, etc., and even a piano. Sam Underhill left for Proctor for help in a small launch in spite of the heavy sea. At 3 o'clock in the afternoon W. H. Walsh, superintendent, arrived on the scene from Kaslo. A little later the C. P. R. tug Hoemer arrived.

Scouring as to the depth of the water in which the Kaslo lay were made, and the conclusion was reached that she could not sink any further, and so securing her by cables from the masts to trees on the shore, the tug returned to Proctor. The crew worked at lightening the vessel until dark, when they lit a fire on the beach, cooked some food, and finally rolled themselves in blankets and slept. The mail will be carried for the present by the C. P. R. steamer Kokanee, as the Great Northern is unable to put on a service. It is stated that the Kaslo will be raised. She now lies partly submerged in fourteen feet of water.

MINING STUDENTS ON TOUR.

Nelson, May 31.—The party of McGill mining students who have been on a tour of Canadian mountains, spent the latter part of the week in the Boundary district. They arrived at Phoenix Wednesday evening, accompanied by Prof. Porter and Prof. Bell, and were shown over the surface workings of Granby Hill by Superintendent Smith and his engineering staff. Later in the evening the party were entertained at a banquet given at the Hotel Brooklyn by Phoenix business and mining men, at which about fifty were present. Toasts were responded to by Prof. Porter, O. E. LeRoy of the Dominion Geological Survey, Mayor D. J. Matheson, Dr. Dickson, Messrs. G. E. Murray, McGill, J. E. Thompson, H. Boyles, Prof. Fell, T. A. Love and O. B. Smith, Judge Williams being toastmaster. On Thursday afternoon the McGill baseball team played a sensational game with the Phoenix nine, which resulted in a score of 1 to 0 in favor of the locals. On Thursday the McGill party visited the Greenwood smelter and Mother Lode. They will complete their tour at Rossland and a number of the students will spend the summer in mines of the Kootenays.

ANOTHER LOGGING VICTIM.

Charles Johnson Killed by Falling Tree at Evans Bay.

Vancouver, May 31.—Another fatality caused by a falling tree at a logging camp occurred up the coast a few days ago. While at work at Campbell's camp, Evans Bay, Charles Johnson was caught by a large tree as it crashed to the ground and killed. His remains are so terribly mangled that it is apparent that death must have been instantaneous, and accompanied with but very little suffering. He was a native of Sweden, where his relatives all reside.

JAPANESE MURDERER SENTENCED TO DEATH IN THE SQUAMISH

Will Be Hanged on June 22nd for Killing Fellow Countryman in Logging Camp

New Westminster, May 31.—After being out twenty-four minutes the jury in the case of Nishizawa, accused of the murder of Nishizawa, brought in a verdict of guilty, and Judge Clement condemned the prisoner to be hanged on July 22nd. When the sentence was read out and interpreted the prisoner betrayed little emotion, but the finish of the arduous case had quite a different effect on Justice Clement, who, after reading the sentence of death, covered his face with his hands and was visibly affected.

In delivering the sentence Judge Clement said he had hoped that the result of the case would do something toward putting a stop to drinking in logging camps.

On the night of December 18th, 1909, in a logging camp near White Rock, Kengo Nishizawa, a Japanese workman, murdered a fellow workman and fellow countryman, Nishizawa, by stabbing him. Eleven different wounds were found on the body. When Constable Winkler arrived on the scene of the murder the suspected man had disappeared, but two days later, finding that the police were close on his trail, he gave himself up in Vancouver, stating that he had stabbed a man at White Rock and thought he was dead.

In the evidence submitted at the trial it was shown that both the dead man and the prisoner had been intoxicated on the night of the crime.

One of the witnesses swore that Nishizawa, the murdered man, was quarrelsome when drunk. During the evening he had thrown a boot at the foreman of the camp and when the foreman objected he had followed with the other one. This was told Nishizawa when he came in. He asked Nishizawa why he did it and Nishizawa told him to mind his own business, whereupon there ensued a violent quarrel, in which Nishizawa was killed.

The defence strove to show that the death was the result of a general quarrel, in which it was difficult to say who struck the first blow, and W. F. Hansford, in his address to the jury, eloquently made the most of this feature of the case. Deputy Attorney-General McLean, in his address to the jury, called the attention of the jury to the savage nature of the attack on Nishizawa. The man was literally cut to pieces while his assailant escaped without serious injury.

Justice Clement made his remarks very brief, giving the jury an impartial summary of the case. That the evidence had been sufficiently conclusive in the opinion of the jury is shown by the length of time it considered the case—twenty-four minutes.

COAL FOUND AT ANDIMAU.

Hazelton, May 31.—Frank McKinnon has returned on the Hazelton from a short trip to Andimau, where he has been investigating a coal discovery made near there. He had a gang of four men at work for a few days and succeeded in opening a seam of fine looking coal about six feet thick. The seam crops out so close to the bank of the Skeena river that the steamers could be loaded directly from a tunnel driven into the bank. The coal looks good to men experienced in such matters, burns readily in a forge, being a better blacksmith coal than that shipped up the river. Several claims have been staked, and when licenses are secured the work of opening up the property will proceed at once.

THE BRITISH FLAG FLIES OVER NEARLY ONE-HALF OF THE ENTIRE SHIPPING TONNAGE OF THE WORLD.

The number of the world's postal officials is 1,894,247, to which Germany furnishes the strongest contingent, 34,311.

Of times when people get together, the conversation lags, till some one speaks about the weather; then it no longer drags. We've found a theme that's most appealing—a theme we understand, and so, with energy and feeling, we talk to beat the band. Of cloudburst, hailstorm and tornado, we all have yarns to spare; the weather is an Eldorado for people everywhere. "The Big Wind" came in '57" the hoary grandsire cries, and then the rest of us are driven to other windy lies. "In '64 the weather wizard predicted drought, and heat; instead, there came a mighty blizzard that filled the land with sleet. "Oh, Caesar! Well do I remember the year that turned me grey! July the fourth came in September, and Christmas was in May." 'Tis thus, when people get together, to pass a social hour; they polish off the good old weather, and no one's sore or sour. But if, alas! discussion switches to politics or books, or folks who roll in sinful riches, or servant girls or cooks, then everything's at once a jangle, and fuss, and fume, and preach. So let us, when we get together, for genial, social ends, discourse of nothing but the weather, and then we'll still be friends.

HEWLINGS & CO. 1109 BROAD. Phone 1734.

BADE FAREWELL TO PASTOR AND FAMILY

Methodists of Nanaimo Make Presentation of Rev. and Mrs. Robson

Nanaimo, May 31.—The schoolroom of the Wallace Street Methodist church was crowded last evening with members of the congregation and friends who gathered to bid farewell to Rev. and Mrs. Robson, who leave this morning for their new home in Vernon, Rev. Mr. Robson taking charge of the Methodist church in that city, after four years as pastor of the Wallace street church in this city.

The meeting was presided over by Ralph Smith, M. P., who in a few well chosen remarks explained the object of the gathering and called upon L. Manton to read an address to the retiring pastor and present him with a handsome gold watch, the gift of admiring members of his congregation. Rev. Mr. Robson made a suitable reply, after which Mrs. Robson was presented with a purse of gold, the presentation being made by Mrs. T. A. Smith.

The first class of girls presented Miss Irene Robson with a bracelet and Miss Majorie Robson was presented with a locket and chain. During the evening addresses were delivered by Rev. McLeod and Rev. Robertson, a solo was rendered by Mr. Evan Jones and the gathering joined in singing several rousing hymns. Refreshments were afterwards served and the meeting brought to a close by singing "God Be With You Till We Meet Again."

FAVOR DRAINAGE SYSTEM.

Chilliwack Council Will Submit a \$70,000 Drainage By-law.

Chilliwack, May 31.—The ratepayers at a public meeting supported a resolution recommending the city council to submit a by-law providing for a \$70,000 drainage system. The city has now a water supply from the purest sources in the mountain.

Lionel H. Buck, a drainage engineer of Vancouver, after months of preparation, submitted a complete report dealing with the question of drainage and sewage. He reported that a complete sewage system for a population of 5,000 would cost \$168,700, while a drainage system would cost \$70,000. He explained that a combined system of drainage and sewage was impracticable, so it rested with the citizens which they would choose.

On motion of S. A. Cawley, M. P. P., and R. F. Waddington, the drainage system was decided upon. The council will at once draft the by-law and submit same to the people.

INVITATION TO PREMIER.

Nelson, May 31.—At a meeting of the executive of the Canadian Club it was decided to extend an invitation to Sir Wilfrid Laurier, who will shortly be making a tour of the western provinces. The club will make every effort to secure the consent of the distinguished Canadian to be the guest of the club. The board of trade recently extended to the premier an invitation to visit this city.

The executive also decided to invite the chairman of the university site commission to address the club when the commission holds its Nelson sitting.

KILLED BY TRAIN.

Vancouver, May 31.—Swift death overtook S. Anadora, a Japanese workman in the Great Northern cut in the East End. He was standing close behind a steam shovel which was being dumped when a train of cars which were being shunted back towards him caught him unawares. He was knocked down and run over. His head was badly crushed and his shoulder and left arm broken. Death was instantaneous. He leaves a wife and two children in Japan.

S. A. BAIRD Real Estate, Financial and Insurance Agent. 1210 DOUGLAS STREET.

SMALL COTTAGE with about half acre of land, fruit trees and small fruit; just outside city limits. Price \$2,500.

This pretty little place is located on a favorable corner of Lamson street, close to Gorge car. Splendid lot of fruit trees and many small fruits.

PRICE \$4,500. Half cash, balance can be paid off at 7 per cent.

PRESENTATION TO PASTOR.

Chilliwack, May 31.—Rev. Mr. Menzies was made the recipient last Thursday evening of a new buggy. The presentation was made the occasion of a social gathering at the Sandvick Presbyterian church. The presentation came as a pleasant surprise to Rev. Mr. Menzies. He expressed his gratitude for this token of esteem and appreciation, and assured the audience he would begin at once to wear out the buggy in the prosecution of his pastoral work.

CROP-OUTLOOK BRIGHT.

Nelson, May 31.—Conditions for a heavy crop of fruit are excellent, the showers recently having been a boon to the ranchers. The strawberry crop will be two weeks earlier than last year, and exceptionally heavy. Apples give promise of a magnificent crop and all other fruits are equally promising. In a few spots the earliest cherries and plum blossoms were touched by frost, but even these fruits will give a good crop generally.

IN THE MATTER OF THE "NAVIGABLE WATERS PROTECTION ACT" BEING CHAPTER 115 OF THE REVISED STATUTES OF CANADA, 1906.

TAKE NOTICE that the British Canadian Securities, Limited, in pursuance of Section 7 of the above named Act, have deposited the plans of work and description of the proposed site thereof, to be constructed upon part of and in front of Lots 5 and 3 in Block 70, Victoria City, in the Province of British Columbia, with the Minister of Public Works at Ottawa, and a duplicate of each in the office of the Registrar-General of Titles at Victoria, British Columbia, being the Registrar of Deeds for the district in which such work is proposed to be constructed, and have made application to the Governor in Council for approval thereof.

AND TAKE NOTICE that at the expiration of one month from date hereof application will be made to the Governor in Council for approval thereof. Dated at Victoria, British Columbia, this 2nd day of May, 1910. Solicitors for Applicants.

REGULATING AUTOMOBILES

NEW YORK GOVERNOR SIGNS NEW BILL

Fine of \$100 for Violation of the Speed Limits—Licenses for Chauffeurs

Albany, N. Y., June 1.—Governor Hughes yesterday signed the Callan bill providing for the registration of automobiles and the licensing of chauffeurs, a measure which it is estimated will yield an annual revenue to the state of about \$2,500,000. Autos of 25 horse power or less are to be taxed \$5; between 25 and 35 horse power \$10; between 35 and 50 horse power \$15; and \$25 for all others except commercial vehicles, which are to be taxed a flat rate of \$5. Chauffeurs are to pay an annual license fee of \$5, and will be compelled to carry a license containing their names, photographs and general description.

The new law goes into effect on August 1st. The new law permits a speed of thirty miles an hour in the country, but provides that at all times autos must be driven in a prudent manner. First class cities are authorized to fix speed limits. Speed in other cities, and villages must not exceed fifteen miles an hour. Each machine must have a display at the front and rear on a placard, at least fifteen inches long and in figures four inches high the number of the license, the color to be changed each year.

Three convictions of speed violation will render the license of a chauffeur void for not less than six months. A chauffeur may be imprisoned for a year for running a car while intoxicated. He may be fined \$200, and sentenced to two years' imprisonment for running away after striking a person, and a second conviction of this offense renders him liable to imprisonment for not less than two years nor more than five years, no fine being permissible.

A fine of \$100 is provided for a violation of speed limit, and the method of proceeding built made easier. All fines and penalties collected are to be turned into the state treasury to be used for the repair and maintenance of state roads. A reciprocity clause gives owners of cars in other states the same privileges as those given New York motorists in their states.

SITE AT SPRING RIDGE ACCEPTED

Ridge. He thought that the Rockland avenue site had more advantages from the standpoint of beauty, but the central location of the Spring Ridge site and the fact that the erection of the high school upon it would remove a blot on the district made him support the resolution.

Vigorous opposition to the motion characterized the remarks of Trustee Riddell. He said that the board had decided to acquire the Rockland avenue site and that the committee which had been named to arrange the purchase price and terms were ready to report. Under the circumstances he doubted whether Trustee Staniland's motion was in order and asked for the chairman's ruling on that point.

Chairman Jay, having ruled the motion in order, Trustee Riddell added further criticism of the Spring Ridge site, following which the motion was put to the meeting.

Trustees Staniland, McIntosh and McNeil voted in favor and Trustees Jenkins, Riddell and Christie against, the deciding vote being that of Chairman Jay, who gave the verdict to Spring Ridge.

CHAUFFEURS WITHOUT LIGHTS GO UNFINED

"Blind Pig" Proprietress Fails to Pay Fine and Will Serve Two Months

George Morron, chauffeur to the Lieut.-Governor, was this morning charged with driving the automobile without having the rear light lit after dark. Because the same small light matter with the lamp, which would not burn properly, the magistrate accepted the defendant's plea of not guilty and allowed him to go. Arthur Dandridge, another chauffeur, charged similarly, was allowed to go on offering a like excuse.

H. B. Coombs was charged with driving an auto on Rockland avenue to the common danger. The defendant proved to the court that he was not on Rockland avenue at the time alleged, and as the prosecuting policeman was unable to identify the driver of the machine, because the pace was too swift, the prosecution failed. The police constable took the number of the machine as 365, but Coombs said he had sold that car a year ago to Victor Elliot and was now driving car No. 155.

Louisa Brown, who was convicted and fined \$250 last week for keeping a blind pig on Johnson street, appeared in court this morning in custody, as the distress order had been returned unsatisfied. She pleaded for a time-payment privilege in regard to the fine, but Magistrate Jay told her he could not establish a precedent, and issued a commitment order against her. She will serve two months in jail.

Here's a Great Summer Chair

Have You Tried These English Willow Chairs?

We have never sold a more popular chair than these English Buff Willow Easy Chairs—that favorite "low" style chair. Great, large, roomy, easy chairs they are. They fit you—no matter what the mood may be, and you soon forget all your troubles. They are specially desirable just now, when a comfy, inviting chair for the porch or lawn is desired. And oh, what a chair for the winter season, before the grate fire! That's a far-off call—to winter time—but we merely mention it to impress upon you the fact that while these are ideal Summer chairs, they are not JUST summer chairs—they are desirable at all seasons.

We have just received a big shipment direct from the makers in England and have several excellent designs to offer you. Come in and make your selection to-day, while the assortment is complete. Many have been waiting for the arrival of this lot, and they'll quickly disappear. Come to-day and see the chairs at \$6, \$10, \$11, \$12 and \$14.

Beautiful New Sterling Silver

Charming Creations—Desirable Wedding Gifts for June Brides

Doesn't Sterling Silver appeal to you as a practical, as well as particularly dainty wedding gift? Sterling marked on it means that it is practically everlasting. No wearing out to it. Sterling silver makes a gift that will be handed down to the next generation and—then some.

All these new pieces are exceptionally dainty in design, making them doubly acceptable as gifts for June brides. We would greatly appreciate an opportunity to show you these new arrivals. Come in to-day while the showing is complete. You'll be pleased with the new things shown.

FREDERIC VILLIERS RECALLS PAST VISITS

Famous War Correspondent, Who Lectures To-morrow Night, Praises Victoria

Frederic Villiers, the war correspondent, who has been spending the past few days in Victoria, and who is to give one of his celebrated illustrated war talks at the A. O. U. W. hall to-morrow night, when he will show 115 stirring photographs made on various fields, is greatly impressed with the beauties of Victoria, which he says is one of the most delightful cities he has visited in all his travels.

He has been a war correspondent for over a quarter of a century, accompanied many armies and seen much of the world, and he awards the palm for beauty in all the cities he has seen as a residential city to Victoria. This city has many associations for Mr. Villiers. He came here with Lord Stanley of Preston over two decades ago, and was one of the party on board H. M. S. Amphion on that memorable trip from Esquimalt when the cruiser ran into Kellett bluff and was steamed hurriedly back to Esquimalt with the water pouring in.

"There was thick fog," said Mr. Villiers to a Times man to-day, "and

we were standing on the Amphion's poop when we suddenly saw the headland as the fog cleared. It was too late, though. The Amphion collided with Kellett bluff, the impact being very heavy." Capt. Bolton brought the cruiser back to the Esquimalt dry dock with her hull badly torn. The collision mats were thrown over and the pumps manned, the cruiser sinking deeper in the water, and we arrived there just in time to avoid foundering.

"I sketched Kellett bluff when on my way to Victoria, and yesterday I went out to sketch the crumpled keel of the Amphion, which I found lying on the grassward at Beacon Hill park. That crumpled keel recalled a stirring day to me."

OBITUARY RECORD

The funeral of the late Mrs. Mary Helen Nicholson will take place to-morrow afternoon, at 2:30 o'clock from the family residence, 639 Craigflower road, from where the casket will proceed to St. Saviour's church. Rev. C. E. Cooper will conduct the services both at the church and the graveside.

The remains of the late Benjamin E. Nicholls were interred in Ross Bay cemetery this afternoon. The funeral took place from the B. C. Funeral Company's parlors at 2:15 o'clock, and proceeded to Christ Church cathedral, where services were conducted by Rev.
