NO. 155.

## CUSTOMS REVENUE STILL GROWING

**INCREASE OF \$250,000 OVER JUNE LAST YEAR**

**Government Makes 600 Per Cent in Six Years in Toronto Real Estate**

(Special to the Times.) Ottawa, July 2.—The customs revenue for June totalled \$6,032,988, an increase of \$250,000 over June last year. For the first quarter of the fiscal year the comparative increase in customs revenue has been \$3,800,000, or over 28 per cent.

The government has made over 600 per cent in six years in real estate in Toronto. A farm on the outskirts of the city purchased six years ago for \$35,000 as a site for new barracks has been sold again for \$21,000, a better site being secured on the tax shore near Long Branch.

## NEW YORK GOVERNORSHIP.

**Col. Roosevelt Declares He Will Not Accept Nomination.**

Utica, N. Y., July 2.—Theodore Roosevelt will not be governor of New York. He pictured the boom that was started for him for chief executive of the state by the Onondaga county Republican club. In a note to Secretary Adams of the club Roosevelt declared he could not accept the nomination.

"May I thank the club for its measure," the colonel wrote, "its good will is appreciated, but I must ask the club immediately to stop the agitation to have me nominated for governor because it is an absolute impossibility to accept."

## SUDDEN DEATH.

**J. F. Prudhomme, Who Made Sensational Charges Regarding Judgments, Drops Dead.**

(Special to the Times.) Winnipeg, July 2.—J. F. Prudhomme, who made sensational charges during the present election campaign that Horace Sherrier offered to sell judgments, dropped dead at ten-thirty this morning in St. Boniface.

## MINES LEASED.

(Special to the Times.)

Hullfax, July 2.—The lease of the Cumberland Coal & Railway Company's mines in Cape Breton, with the option of purchasing for \$500,000 within three years, to the Dominion Iron & Steel, has been recorded in the mines department. It is understood negotiations began when the trouble arose between the Dominion Steel and Coal companies.

## MAY ABOLISH SPECIAL RATES

**WESTERN RAILWAYS CONSIDER PROPOSAL**

**Executive Committee of Passenger Association Will Discuss Two-Cent Minimum Tariff**

(Times Leased Wire.)

Chicago, July 2.—It is reported here on good authority that western railroads are considering a proposition of abolishing all special rates and making two cents the minimum.

This would mean the abolishment of colonist rates and reduced summer rates. It is said that the executive committee of the Western Passenger Association has taken the matter up at the instance of various western railway presidents. The proposal is in line with general retrenchment policies recently adopted by the several western lines following the passage of the railroad regulation bill.

The movement, however, is the revival of a movement started over a year ago, beyond agreeing that it would rebound economically to do away with all reduced rates for special occasions, all summer tourist rates and all home-seekers and colonist rates, the executive committee has done nothing it is reported.

The committee plans to meet in the near future and see how far the western roads can go in the way of discontinuing reduced rates. The trouble in reaching an agreement is that a number of the roads have certain classes of business which they are unwilling to give up. Some of the trans-continental lines desire to continue to attract people to the Pacific coast by reduced rates for conventions, and roads leading to the Northwest and the Southwest are unwilling to abandon the large colonist business by which thousands of acres of land are being settled every year.

## THE POPE INDISPOSED.

Rome, July 2.—Pope Pius was seized with a fainting spell to-day. Dr. Petacci, the vatican physician, says the illness was caused by heat and an attack of hemorrhoids. He said the attack was not serious.

## SHOOTING IN EMPIRE MATCH

**BRITAIN LEADING IN FIRST THREE RANGES**

**Australia Secures Second Place With Canada Third—Scores of Canadians**

(Special to the Times.) Bisle, July 2.—Though the Bisle meeting does not open until Monday, there was a prelude yesterday when the Empire match was fired. This is a match for a challenge trophy offered by the Commonwealth council of the Rifle Association of Australia, and open to teams of eight men each from the naval and military forces of the United Kingdom and overseas possessions, the ranges being 200, 500, 600, 800 and 1,000 yards, ten rounds at each distance, heavy showers occurring throughout the match.

Five teams entered, representing Great Britain, Austria, Singapore, India and Canada. Owing to the unfavorable conditions the shooting was exceedingly good.

At the 200 yards range Great Britain and Canada were tied for first place with 392 each out of a possible 400, with Australia close up with 390, the other competitors, India and Singapore, being already out of running.

At 500 yards Great Britain improved its advantage by putting on 385, Australia being second with 380 and Canada only getting 372, Great Britain thus leading at the two ranges by 7 over Australia and 13 over Canada.

Part of this lead was lost at the third and the last range of 600 yards, at which Australia led with a fine score of 365, Canada being one point behind with 364, while Great Britain only got 362. This left Britain in the lead with a total of 1,139, four points ahead of Australia with 1,132, while Canada with 1,125 was 11 points behind. The scores were:

|               |     |     |     |       |
|---------------|-----|-----|-----|-------|
| Great Britain | 200 | 500 | 600 | Total |
| Australia     | 392 | 385 | 362 | 1139  |
| Canada        | 392 | 390 | 365 | 1132  |
| India         | 392 | 372 | 364 | 1128  |
| Singapore     | 378 | 360 | 322 | 1060  |
| Singapore     | 382 | 350 | 322 | 1054  |

The detailed scores of the Canadian team, which is about as strong an aggregation as Canada has ever sent across the Atlantic, were:

Capt. Forest, Sixth D. C. O. R., Vancouver, 49, 46, 48, Total 143.  
Sergt. Morris, Bowmanville, 50, 49, 44, Total 143.  
Sergt. Russell, Ottawa, 49, 46, 47, Total 142.  
Capt. Crowe, Guelph, 49, 45, 47, Total 141.  
Private Steele, Guelph, 47, 48, 46, Total 141.  
Staff-Sergt. Mitchell, Hamilton, 50, 45, 46, Total 141.  
Col-Sergt. Freeborn, Hamilton, 49, 46, 44, Total 139.  
Capt. McHarg, Vancouver, 49, 47, 41, Total 137.

The 800, 900 and 1,000 yard ranges will be fired to-day. This is the third time the challenge trophy has been shot for. In 1907 it was won by Australia with a score of 2194, New Zealand being second with 2056, Great Britain third with 2053. The second occasion was in 1909, when Australia again won, defeating New Zealand by 2088 to 1958. This is the first time that the Canadian team has competed.

## FIXES TAX RATE FOR PRESENT YEAR

**Twenty-Five and One-Half Mills on the Dollar Decided Upon by City Council**

At a special meeting of the council held on Thursday evening, it was decided that this year's tax rate shall be 25 1/2 mills on the dollar, or 2.56 per cent. This is a reduction of 1/2 per cent. from the rate of 3 per cent. which was fixed for the present year. Under this assessment, the revenue by the tax on land and improvements is \$679,850. All the members of the board felt that it would be desirable to reduce the tax on improvements as much as possible, 7 1/2 per cent. of the assessable value of improvements was fixed as the proportion to be taxed. Under this assessment, the revenue by the tax on land and improvements is \$679,850. All the members of the board felt that it would be desirable to reduce the tax on improvements as much as possible, 7 1/2 per cent. of the assessable value of improvements was fixed as the proportion to be taxed. Under this assessment, the revenue by the tax on land and improvements is \$679,850.

Owners representing Douglas street property interests submitted a petition asking that the proposed widening of sidewalks on that thoroughfare be amended by making the width sixteen feet. The city engineer had recommended the greater width.

The engineer submitted a report showing that the cost of the sidewalk widening will be greater with the sixteen-foot sidewalk than with one of twenty feet. He submitted the following figures: With the sixteen-foot sidewalk, the cost of the sidewalk widening is \$2,424; 4,300 feet of curb and gutter, \$788; moving eight telephone poles, \$200; moving ten E. C. Electric Company's poles, \$250; moving one stand pipe, \$10; total, \$3,662.

The cost, with the walks widened to twenty feet, including the cost of widening, will be as follows: 15,155 feet of sidewalk, \$2,424; 4,300 feet of curb and gutter, \$2,281; moving 28 E. C. E. R. poles at \$24, \$672; one stand pipe, \$10; one fresh water hydrant, \$10; three salt water hydrants at \$20, \$60; moving fourteen telephone poles at \$25, \$350; dressing old curb, \$100; dressing old walk, \$100; total, \$4,010. (Concluded on page 3.)

THE ONLY SPOT ON THE MAP.

## ESQUIMALT WATER COMPANY LOSES

**MOTION FOR WRIT OF MANDAMUS DISMISSED**

**Claim for Right to Enter on Craighflower Road Lots or Compensation Fails**

After being before the court for eight months an interesting case concerning the Esquimalt Waterworks Company and the Victoria West arbitration was disposed of by Chief Justice Hunter on Thursday, when a motion for a writ of mandamus by the company's counsel was dismissed with costs.

In November last a court order was made compelling the arbitrator, who was entrusted with the straightening out of Victoria West, to show cause why he should not consider the claim of the waterworks company. This claim was for an order conferring upon the company the right to enter upon the lots fronting on Craighflower road at any time for the purpose of maintaining its water mains and pipes. These mains formerly ran through Craighflower road, as shown on the old maps, but now lie in private property. The company claimed, as an alternative, compensation for the lots for the relaying of its pipes along Craighflower road as now determined.

Chief Justice Hunter dismissed the motion and allowed costs for the arbitrator on the application of Thornton Fell, A. P. Luxton, K. C., appeared for the company.

## PROPOSED FLIGHT FROM MONTREAL TO TORONTO

**Count de Lesseps Will Attempt a Trip if Big Machine Arrives in Time**

(Special to the Times.) Montreal, July 2.—Count de Lesseps says that if the big Blériot machine which he crossed the English Channel arrives here in time, he will attempt to fly from Montreal to Toronto, a distance of 323 miles.

Rheims Amateur Meet. Paris, July 2.—Aviators from all parts of Europe are assembling here to-day to attend the Rheims aviation meet, which will begin to-morrow. Forty bi-planes and 23 monoplane will be entered in the contests.

Aviators Holla, Blériot, De Lessep, Pelhan, Farman, Dubounet and Lambert will compete for prizes which total \$65,000.

## CANADIANS DEFEATED.

(Special to the Times.) Liverpool, July 2.—The Liverpool cricket team defeated the Canadians here yesterday. After a good stand by Southam and Loundsborough, who scored 40 and 24 respectively, the visitors collapsed and were all out for 57. Liverpool secured the 97 runs required for the loss of five wickets.

## SETTLERS FROM STATES.

Ottawa, July 2.—W. J. White, inspector of immigration agencies in the United States, reports to the department that approximately 150,000 Americans settled in western Canada this summer.

## TOWNS ISOLATED BY FOREST FIRES

**ENORMOUS DAMAGE WROUGHT IN ONTARIO**

**Farmers are Seeking Safety in Flight—Canadian Northern Suffers Serious Loss**

(Special to the Times.) Winnipeg, July 2.—The Canadian Northern Railway announce the following loss this week by bush fires in Rainy River district: 125 box cars, thirty depots, station houses, freight sheds and water tanks; also \$500,000 worth of yard material last night. Emo, Ont., is cut off from communication with Fort Francis is surrounded by fires.

Only one house started in the village of Miscampbell.

Farmers in all directions are abandoning their homes, taking the women and children to safety.

Many settlers in the interior are believed to be cut off owing to bad roads. Town in Ruins. International Falls, Minn., July 2.—The town of Mizpah, 40 miles south of here, is in ruins to-day as a result of forest fires which are sweeping that portion of the state.

The postoffice building was blown up in an effort to check the advance of the fire, but a high wind carried the flames through the town and forced the inhabitants to flee.

## FIVE DEATHS FROM HEAT IN NEW YORK

**Thousands Sleep on Beach at Coney Island—No Relief in Sight**

(Times Leased Wire.) New York, July 2.—Trains leaving New York to-day are jammed with people fleeing to escape the severe heat that has gripped New York for the past few days. Fifty thousand persons slept on the beach at Coney Island last night. The temperature remained at 85 degrees during the night and to-day there is no prospect of relief.

Five deaths and numerous prostrations have been reported.

## OVERDUE LINER REACHES BOMBAY

**The Steamer Trieste Makes Port Under Jury Rig With Broken Propeller**

(Times Leased Wire.) Bombay, July 2.—The steamer Trieste, 10 days overdue, arrived here to-day under sail and with a broken propeller. The Trieste carried a crew of 85 and 34 passengers. Fears that the vessel had foundered in a storm had been expressed.

## WAR CLOUD AT CITY-HALL

**CITY ENGINEER AND HIS ASSISTANT**

**Thought That Strained Relations Which Exist Cannot Much Longer Continue**

That there have been for some time past strained relations between the city engineer, Angus Smith, who has recently assumed office, and G. H. Bryson, assistant engineer, is well known to all who keep in touch with affairs at the city hall, and that the situation cannot much longer continue is equally well known. At Thursday's evening's special meeting of the city council the matter was openly discussed, and it was felt by all present that there must be a speedy settlement of these differences if the affairs of the city are to be properly managed.

It appears that during the absence of Mr. Smith at Sooke, where he had gone to make additional surveys for the water board, Mr. Bryson immediately set to work at the task of widening the sidewalks on Douglas street, notwithstanding the fact that he had received an intimation from his superior officer that such work might be altered, and that he was not to commence operations.

On this information being communicated to the board on Thursday evening, it was mentioned in defence of Mr. Bryson's action that he had received written instructions from the engineer to do so. It was explained that Mr. Smith had so instructed Mr. Bryson. (Concluded on page 5.)

## BY AIRSHIP TO THE NORTH POLE

**Flight Being Arranged by Prince Henry of Prussia and Count Zeppelin**

(Times Leased Wire.) Kiel, July 2.—An attempt will be made to reach the north pole in an airship. If the plans of Prince Henry of Prussia and Count Zeppelin are carried out. They went to Spitzbergen to-day to arrange to get an airship for to-day a flight. They plan to make the attempt next week.

## FIREMAN KILLED.

(Special to the Times.) Toronto, July 2.—By the collapse of a trestle bridge in the Grand Trunk yards, East Toronto, Fireman Swarzen was killed and Engineer W. J. Campbell and Yard Master Hewitt were seriously injured. The engine with two cars going up a coal chute crashed through the trestle, carrying the men with it.

## SERVICE RECOGNIZED.

(Special to the Times.) London, July 2.—To commemorate the ninety-third birthday of Sir Frederick Young, vice-president of the Royal Colonial Institute, in recognition of his services toward Imperial unity, members of the British Empire League have presented him with a silver cup.

## NO OBSTACLE TO PREFERENTIAL TRADE

**Hon. W. S. Fielding Declares Canada Is Still Free to Make Arrangements With the Motherland—Growth of Dominion.**

(Special to the Times.)

London, July 2.—The Dominion Day dinner held at the Hotel Cecil last night was of the high standard of previous years, namely, the most successful dinner of the season in London. Lord Strathcona presided for the fifteenth time, and amongst those present were: Hon. W. S. Fielding, Hon. S. Fisher, Hon. W. Paterson, Sir W. Mulock, Earl Crewe, Lords Ralfour, Blyth, Shaw of Dunfermline and Wenlock, Sir G. H. Reid of Australia, W. H. Hall-Jones of New Zealand, Richard Solomon of South Africa, the Bishops of Ripon and St. Albans, Judge Channell and A. W. Smithers.

Lord Strathcona and Sir W. Mulock proposed the loyal toasts. The president, who received an ovation in giving the toast of "Canada," welcomed the distinguished visitors and regretted the unavoidable absence of Earl Grey. The Dominion's progress, prosperity and wealth was the inspiring theme of his eloquent speech. With reference to the reported gold discovery in British Columbia, he counselled caution till more reliable information is obtained.

In his response, Hon. W. S. Fielding, in a fluent and vigorous speech, referred to the growing importance of the annual gathering, and proceeded to emphasize Canada's two needs, capital and population. Canadians rejoiced to see the tide of British investment in the Dominion flowing greater than ever. It would bring satisfactory returns. As regards population, the finance minister entered a strong defence of the purpose of the immigration laws.

The interview with Sir A. Douglas, published in the Montreal press, was the next subject of reference, and Hon. Mr. Fielding emphatically controverted each of the three points that had been made by Douglas. The statement that annexation was at the bottom of the hearts of ministers of the Dominion he characterized as amazing. There never was a moment in the history of Canada when there was less thought of annexation with the United States than at present. (Cheers.) Canada, north, south, east and west, was meant to be thorough British.

Hon. Mr. Fielding next endeavored to remove some of the misconception which he found existed here regarding Canada's commercial arrangements. The impression was widespread here that in making these arrangements Canada had in some way interfered

with her liberty to deal with the Motherland as she might desire in the future. He wished to correct that view. Canada had fought for freedom in this direction and won, and she was not going to interfere in any degree with the principles she had maintained. In every one of the treaties there was a desire to improve Canadian trade, but in no one of them was there a single word to prevent Canada and the Mother Country making preferential arrangements if they desired. The Imperial trade arrangements, he declared, were domestic affairs, wherewith no foreign nation had right to meddle. (Cheers.)

A loyal telegram having been sent to the King in the name of the 400 guests present, the president at this point read a gracious message of thanks and good wishes.

Hon. S. Fisher in proposing "Our Guests" added his testimony to that of Hon. Mr. Fielding respecting the absence of a desire for annexation, pointing out that in the last census of American settler qualified for naturalization, 80 per cent. had taken out their papers.

Earl of Crewe, responding, said that colonial self-government also applied to international relations. He most heartily welcomed that state of things. He knew the Canadian government in framing its tariff took every care to avoid, if it could be done, inflicting the slightest injury to British industry. Transactions of that kind were better carried out by men like Hon. Mr. Fielding than by home officials, however their good will. (Cheers.)

It had been their desire that Canada should settle her own affairs in her own way. To the superficial observer that might sound something like an advance toward independence, but what was aimed at was combined and concerted action. (Cheers.)

Two excellent after-dinner speakers, Bishop of Ripon and Sir G. L. Reid, also responded, and the toasts concluded with "The Chairman," proposed eulogistically by Hon. Mr. Paterson and enthusiastically honored. Subsequently Lord and Lady Strathcona held a big reception in Queen's Hall.

The Daily Mail in a Dominion Day editorial says: "The Mother Country rejoices in the triumph of her daughter, and looks with pride upon her strength. As Canada has grown in wealth and population her influence also has grown both at home and abroad. No stronger proof of this could be given than the attitude of foreign nations to-day to Canada."

Sir A. Douglas, in response to a question by wireless regarding the interview referred to by Hon. Mr. Fielding, in reply from the steamer Megantic, says: "No interview with any newspaper in Canada."

## FORT STREET OWNERS TIRED AND DISGUSTED

**Further Talk About Widening Scheme at Special Meeting of City Council**

Prior to the regular business at Thursday evening's special meeting of the council the board was visited on by a deputation of property owners on Fort street, consisting of Joseph Hayward, Arthur Haynes, A. P. Luxton, K. C., Dr. Fraser, and others. They expressed thorough disgust at the delay which has occurred in connection with the Fort street widening scheme and pressed for an explanation from the city council.

Mr. Haynes, who was spokesman for the deputation, declared that the owners were very tired of the long delay and were anxious to know the reason therefor. The difficulty appeared to be over the request of the owners that the pavement cost be extended over a period of twenty years instead of ten years, as is usually the case. The owners were anxious to know what objection there could be to this arrangement.

Mr. Luxton, who followed Mr. Haynes, believed that to assess the cost on the arrangement proposed would make it much easier for the owners, who would be paid to great extent through the improvement scheme in any event. In Vancouver, where block pavements are laid, the cost of the concrete foundation is stretched over twenty years, and the blocks, if they do not last out the full term, are renewed at the expense of the owners.

Mr. Luxton had no doubt that the owners would be willing to accept the ten-year term, if such had to be, but they did want the work pushed ahead as quickly as possible. Building operations on the section between Douglas and Cook streets are being delayed owing to the inability of the city engineer to give street lines.

After some debate as to the legal points involved, Mr. Luxton and Ald. Banerman were appointed to interview the city barrister and ascertain if the city engineer can properly give the street lines at present, and whether the city can adopt the ten-year term without the owners petition asking for the twenty-year term having to be resigned by the owners.

## QUARREL OVER \$2 STARTS RIOT

**THREE WHITE MEN AND SIX NEGROES SLAIN**

**Mob Resumes Attack on Settlement and Colored Men Flee to the Swamps**

(Times Leased Wire.) Mendonville, Miss., July 2.—Having killed six negroes in a race riot which began last evening, a mob resumed its attack on the negro settlement here to-day. A negro named Skiffer was riddled with bullets and slain. The negroes living here have fled and the mob is hunting them.

The troubles started on Sunday when Lutier Buckley, a white man, went to the cabin of a negro named Brady to collect \$2 which he said the negro owed him. Brady and Buckley quarrelled and a fight ensued, in which Buckley was killed.

Brady and other negroes fled, pursued by a mob of white men. The negroes were found in Skiffer's cabin near Harrisville. They were huddled together in fear. All were dragged from the cabin by the infuriated mob.

The white men alleged that Skiffer had given the fugitives shelter and the mob shot Skiffer to death. Two other negroes were severely beaten and the others were released.

While pursuing the negroes through a swamp yesterday, two white men in the posse were shot and instantly killed from ambush.

The authorities hope to control the situation without the aid of troops. The white men are still searching for other negroes.

## VISIT CANADA.

(Special to the Times.) London, July 2.—General Benson, whose new honor as Knight Commander of the Bath has given much pleasure to his Canadian friends, sails shortly upon a Canadian tour.

### ITALIAN MURDERED

Case Will Be Held at Como Whether or Not Chariton is Present. Rome, July 2.—Porter Chariton, who confessed to the murder of his wife, Mary Scott Castle Chariton, will be tried at Como whether or not he is present in the Como court. This announcement was made by the president of the Como tribunal. Unless Chariton is surrendered to the

Italian authorities he will be adjudged guilty of murder by proxy. In that case if he should leave America he would be in danger of rearrest at the request of the Italian authorities. It is not believed here that Chariton will be extradited. Even though he is adjudged guilty at a trial at which he is not present, he will not be punished unless he departs from America and is within reach of Italy's courts.

### TORONTO EXHIBITION.

Judge Winchester Submits Report on Finances—His Recommendations.

Toronto, July 2.—Judge Winchester's report on the investigation of the affairs of the industrial exhibition association has been sent to the mayor. His honor enclosed a cheque for \$259 from Col. J. Knox Leslie, the former treasurer of the exhibition association, being the balance due out of a sum of \$8,290.10 due to the association by Col. Leslie. This was in addition to the former shortage of about \$10,000. The judge recommends that all the cheques be counter-signed by the president, and that greater care be taken by the executive committee in the expenditure of money. He recommends a better system of keeping the accounts, and he severely criticizes the special auditors appointed by the city.

### ALLEGED COMBINE.

Missouri Packers File Demurrer in Ouster Suit Brought by State Attorney-General.

Jefferson City, Mo., July 2.—Packers charged with combination in restraint of trade in an ouster suit brought by Attorney-General Major have filed a demurrer asking that the proceedings be dismissed. The demurrer alleges that the facts stated in the petition are not sufficient to form a cause for action. It is contended in the demurrer that the alleged relations between the parties to the suit which is part of the cause for action is not properly stated in the petition filed by the state. The demurrer also contends that the Missouri Supreme court has no jurisdiction in the matter. The suit against the packers was brought under the Missouri anti-trust law.

### TORONTO'S RECORD.

(Special to the Times.) Toronto, July 2.—Bank clearings for June were the largest on record, amounting to \$127,631,604. In June last year the clearings totalled \$122,961,157, while ten years ago they totalled only \$44,545,607.

### MURDERER EXECUTED.

(Special to the Times.) Toronto, July 2.—Pasquale Ventricini was hanged at Toronto jail on Thursday for the murder of Rafaela Fabbio on March 6th.

### MURDER AND SUICIDE.

New York, July 2.—Haunted by the terrible fear that she was going insane, Mrs. Jane Hodson gave cyanide of potassium to her two months' old daughter and swallowed a draught of the same poison herself. Both lay dead on the same bed when the husband arrived home.

### HOCH DER TET!

## MOTOR BOATS TO END RACE HERE

### OUTER WHARF IS SCENE OF FINISH

Yachting Carnival Starts With Opening Race Monday Morning

To-morrow afternoon off the outer wharf will be seen the finish of the long 200 mile motor and power boat race which is now in progress in connection with the Victoria Yacht Club regatta. The boats race from Tacoma to Vancouver and finish at Victoria. The officials supervising the contest consider that the event will finish during the afternoon to-morrow.

Victoria has two entries in the event, in which there are in all sixteen entries. Victoria's entries are the Jessie, owned by Simpson and Greer, and the Petrol, owned by Mr. Burton. Both boats are entered from the Victoria Yacht Club and both are likely to be in the first brigade of arrivals.

The Vancouver yachting fleet consisting of a large number and the fastest yachts of the V. Y. C. left Vancouver for Victoria yesterday morning. The fleet is expected to arrive here to-morrow afternoon and early Monday morning. There are already a number of boats here from Tacoma and Seattle, which will be sailed in the carnival that commences Monday morning.

The list of entries which are competing in the motor boat race to finish to-morrow afternoon is as follows:

- Limet, A. W. Le Page, Royal Vancouver Yacht Club, Vancouver, B. C.
- Half Moon, Knox Wallison, Royal Vancouver Yacht Club, Vancouver.
- Petrol, Van Aylk and Cross, Everett Yacht Club, Everett.
- Summer, George Summer, Everett Yacht Club, Everett.
- Allell, E. C. Hillson, Seattle Yacht Club, Seattle.
- Wanderer, E. A. Salisbury, South Coast Yacht Club, Mexico.
- Easthope, Easthope, North Vancouver Yacht Club, Vancouver.
- Wando, E. H. McLeishan, Tacoma Yacht Club, Tacoma.
- Salmonero, E. A. Simms, Port Townsend Yacht Club, Port Townsend.
- Marama, B. F. Jacobs, Tacoma Yacht Club, Tacoma.
- Jessie, Simpson and Greer, Victoria Yacht Club, Victoria.
- Petrol, Burton, Victoria Yacht Club, Victoria.
- North Vancouver, McMillion, North Vancouver Yacht Club, Vancouver.
- Soya, B. H. Lewis, Seattle Yacht Club, Seattle.
- Narad, Dr. Coe, Tacoma Yacht Club, Tacoma.
- Sacajewa, Dr. Dwight and Reed, Tacoma Yacht Club, Tacoma.

The Start To-day. Tacoma, Wash., July 2.—The great international power boat race from Tacoma to Victoria, by way of Vancouver, started this morning from the Tacoma Yacht Club house at 8 o'clock. Wanda, of Tacoma, was the first boat off at 8 o'clock. The Knomo of Vancouver, Half Moon of Vancouver, Summer of Everett, Wanderer of South Coast, Petrol of Everett, Marana of Tacoma, Allell of Seattle, Salmonero of Port Townsend and Limit of Vancouver started, the Limit getting away last at 11:25 o'clock. All got a good start and their navigators expect a good showing.

### PERSONAL.

Mrs. J. H. Miller left to-day on a visit to Mrs. Geo. Sage, Nanaimo.

Mrs. J. A. Ritthel will not be at home through the rest of the summer.

Mrs. F. W. Baylis has gone to Vancouver to spend a couple of weeks with friends.

Matthews was a passenger on Thursday afternoon's boat for Vancouver and will be returning next week.

Mrs. E. Matthews and Master Leslie left on the Princess Victoria this afternoon for Vancouver for a couple of weeks' holiday.

R. Victor Russell, of Portland, Ore., has arrived in the city and is renewing old acquaintances. He is visiting with his parents, Mr. and Mrs. James Russell, of "Craiglewood," Mt. Tolmie.

Mrs. D. Daby, with three children, two of whom are infant twins, is visiting her parents, Captain and Mrs. Thompson, of this city. The well known local pilot now has a large list of grandchildren.

Mr. Theodore O. Roberts and Miss Verna W. Doyle, of New Westminster, were quietly married on Thursday afternoon by the Rev. A. E. Roberts, at his residence, 1276 Flaggard street. Mr. and Mrs. Roberts return to New Westminster, where they will reside, yesterday.

J. H. McLeod, acting appraiser of customs at Prince Rupert, has been appointed a Dominion fruit inspector for that port on the same conditions as those which have governed the appointments of officers of the customs at Nelson and Grand Forks. This arrangement has worked very well for the enforcement of the Fruit Marks Act in relation to imported fruit.

Prof. E. G. Wickens leaves here next Tuesday to join the Empress of Ireland for London, Eng., to visit his mother, who is nearly ninety years of age and is not expected to last much longer. He is taking a quantity of Vancouver Island Development literature for distribution in some of the principal cities of the Eastern provinces and also the leading centres of the British Isles.

The home of Mr. and Mrs. W. Agnew, Gladstone avenue, was the scene of a merry gathering on Wednesday evening. One important feature of the evening's programme was the clever impromptu speeches by the young men present, after which the young people participated in games and music. Among those present were: Mr. and Mrs. R. Westcott, Mrs. Croot, Mr. and Mrs. G. Agnew, Misses O. Sherwood, R. Sherwood, V. Croot, E. McIntyre, M. Dickson, E. Andrews, G. Johnson, V. McGill, Messrs. V. Westcott, A. Johnson, R. Schave, R. Clemence, P. MacDonald.

## JUNE BUILDING BREAKS RECORD

### SIXTY-FOUR PER CENT. MORE THAN JUNE, 1909

Total for the First Six Months of the Year is a Grand Showing

June broke all records for building progress in Victoria. Permits valued at \$312,600 were issued, being the greatest amount of any month this year. For the past six months the value of the buildings for which permits have been issued was \$1,287,825, compared with \$789,200 for the corresponding six months in 1909 and \$520,786 for the same period in 1908. The increase this year to date over a similar period a year ago is no less than 54 per cent. These figures do not include those buildings erected in Oak Bay, Esquimalt, or that portion of Saanich adjoining the city which may be termed Greater Victoria.

The monthly returns for the year to date compared with the same months in the two previous years are as follows:

| Month    | 1910      | 1909     | 1908     |
|----------|-----------|----------|----------|
| January  | \$128,285 | \$78,920 | \$42,715 |
| February | 151,750   | 122,430  | 72,325   |
| March    | 244,769   | 121,640  | 113,809  |
| April    | 192,440   | 188,060  | 129,625  |
| May      | 257,290   | 188,620  | 79,285   |
| June     | 312,600   | 90,120   | 74,910   |

Total for six months' total: \$1,287,825 \$789,200 \$520,786

### FIGHTING IN NICARAGUA.

Bluefields, Nic., July 2.—The government customs house at Pearl Lagoon has been captured by revolutionists under General Masias. The officers in the customs service were captured, as was General Masias, who was formerly associated with the revolutionary cause. The fighting lasted twenty minutes, and the total casualties were said to be fifty.

### MONTREAL CLEARINGS.

(Special to the Times.) Montreal, July 2.—Bank clearings for the month of June totalled \$177,713,729, compared with \$159,631,290 for the same month last year.

### BUILDING AT CALGARY.

Calgary, July 2.—Bank clearings for the month of June in Calgary show the gratifying increase of over 68 per cent, totaling \$13,985,982. For the same month last year they were \$8,115,533. Building permits also show a great increase over last year, 143 permits being issued during June, calling for the expenditure of \$573,388.

### COWICHAN BAY ANNUAL REGATTA

YESTERDAY'S EVENT WAS VERY SUCCESSFUL

Many Victoria Yachts Took Part in Interesting Programme of Races

(Special to the Times.)

Duncan, July 2.—The annual regatta at Cowichan Bay was held yesterday. The racers of the previous day left the roads in perfect condition for the large crowds that drove to the bay, and a splendid sailing breeze was blowing. The bay was dotted with boats of all kinds, from the smart motor and sailing boats to the tiny home-made canoe made by the Indian small boy.

About noon the Iroquois brought a boat load of excursionists from Victoria and Sidney, and altogether the bay presented a very different appearance from its every day one. Ice cream stalls, refreshment tents, the small boy calling "peanuts and candy five a bag," are unknown on quiet days.

Music during the day was supplied by the Kuper Island Indian band. Among visiting craft in the bay were: Able Langley's sloop, rigged yacht, the Dorothy, the Louisa, a yacht from Vancouver, Mr. Simpson's cruiser from Victoria, Mr. Whitting's launch Veruna from Victoria, Mr. Bulwer's yacht from Victoria, N. Green's motor boat from Victoria, J. French's launch, the Siamrock, from Salt Spring Island; Major Maule's launch, the Irene, from Salt Spring Island; H. Barrow's launch, from Sidney; Capt. Byng Hall's launch, Nigeria, from Victoria; Mr. Singleton-Wise's Chaos, which was formerly the old Columbia mission boat; Mr. Schwabe's launch from Mill Bay; Mr. Bridgman and party in a motor launch from Victoria. Among the local boats of interest were: F. H. Maitland-Dougall's launch, Thistle; A. L. Parry's launch, Klatawa; D. B. Le Neven's launch, Antic; A. Kennington's launch; L. Garnet's launch from Mill Bay; J. Corfield's launch; W. H. Ellington's, W. P. Jaynes', J. H. Whittom's and A. Wood's launches from Maple Bay.

The results of the races were: Columbia river sail boats—1, Tom Valdez; 2, Saanich boat. Gentlemen's double sculls (lady cox-wain)—1, Brenton and Douglas; 2, Jeffrey Bros. Dingy sailing race, for which a challenge cup, to be held 3 years for final possession, held by J. S. Stilwell—A. Kennington was the only one entered for this race, Mr. Stilwell unfortunately being away from the district. Mr. Kennington therefore sailing over.

Gentlemen's double paddle canoe—1, Brenton and Douglas; 2, Jeffrey Bros. Indian boy, single paddle canoe—1, Abele; 2, Jack. Indian single paddle canoe—1, Alex; 2, Felix.

Motor boat handicap—1, F. Maitland-Dougall; 2, A. N. Parry. War canoe race—1, Valdez; 2, West Saanich. White upset canoe—1, Jeffrey Bros; 2, Kingston and Wood. Indian double paddle—1, Isaac Valdez; 2, Tommy.

The Indian war canoe race was especially interesting, there being four entries. Unfortunately the two boats from Cowichan were run down by a motor boat, and one filled and the other was damaged, so both were out of the race.

During the day a special race for visiting cruisers was arranged, for which there were four entries from Victoria and three from Vancouver. This was probably the prettiest race of the day. The course was a triangular one from Cowichan wharf to Genoa Bay to a buoy off "Deepdive" and then home.

The committee having the arrangements for the regatta in hand were: W. H. Hayward, hon. president; T. H. Maitland-Dougall, president; committee: G. Cheeke, S. M. Dighton, M. Elliott, H. D. Irvine, W. R. Mason, H. D. Morten, A. H. Lomas, H. W. May, I. J. Mutter, A. Parry, W. J. Robertson, Capt. Looker, R. N.; hon. secretary and treasurer, A. Lane; judges, G. Cheeke and H. D. Irvine; starters, H. W. May and A. Parry.

### HEAT CLAIMS MORE VICTIMS IN CHICAGO

Fifteen More Deaths Reported, Making Total of 65 Since June 14

Chicago, July 2.—Fifteen more deaths from heat occurred to-day, making a total of 65 since June 14th, when the heat wave first struck the city. The thermometer reached 90 degrees to-day as compared with 82 degrees yesterday, but there was not enough breeze to move a pall of smoke that hung over the city.

The fact that to-day was a half holiday probably saved the lives of many workmen.

### AMATEUR CHAMPIONSHIP

London, July 2.—The 100-yard dash for the amateur championship was won by Ramsdell, of the University of Pennsylvania, to-day in the international amateur athletic meet. Ramsdell defeated Walker of South Africa. His time was 19 1/5 seconds.

Ramsdell also won the 220-yard dash, defeating Whaley, the English star. His time was 22 2/5 seconds.

### TOLSTOI ILL

Moscow, July 2.—Count Tolstoy is ill at his home at Yasnaya to-day. Old age is the cause, and some alarm is felt among his friends.

—Won't Burn.—Our double bottom cake or bread tins prevent the contents from burning. Good, strong, serviceable. See to it. R. A. Brown & Co., 1302 Douglas street.

### CLOSING EXERCISES AT ST. LOUIS COLLEGE

Boys Receive Handsome Medals Presented by Dr. J. J. Murtagh

The closing exercises of St. Louis College were held on Thursday morning, but owing to the lack of an assembly hall it was impossible to invite parents. Bishop Macdonald presided and with him were Rev. Father Letorme, Rev. Father Gillis and Dr. J. J. Murtagh.

The boys have done exceptionally well during the term, showing the ability of the teaching staff, and were complimented highly by the bishop, who addressed them in terms of kindly commendation and advice.

A feature of the day was the presentation of two valuable and highly artistic medals to the two head boys, the medals being given by Dr. Murtagh. These were designed and manufactured by Andermaet & Co. and are undoubtedly by far the handsomest medals ever given for scholastic competition here. Alfred Belanger won the gold medal as a special prize for excellence.

Medal presented to head boys of St. Louis College by Dr. J. J. Murtagh.

amplary conduct and general progress, and Hilbert Lawless the silver and gold medal as a second prize for good conduct. Belanger got 85 1/2 marks out of 100 and Lawless 75 marks.

These medals were given with the permission and approval of Bishop Macdonald. At the close of the proceedings his lordship referred in feeling terms to the coming departure of Dr. Murtagh, who is a cultured and highly-trained instructor and to his generous action in presenting the medals. Dr. Murtagh, who is understood to have come into a princely fortune by a late decision of the Irish courts, leaves for Dublin as soon as the privy council has decided an appeal. Meanwhile he is remaining here and carrying on his music classes.

### AMERICANS TO PICNIC AT SIDNEY MONDAY

Local Residents of United States to Celebrate Independence Day

The considerable number of citizens of the United States resident in Victoria will on Monday next, Independence Day, celebrate by holding a picnic at Bazaar park, Sidney. The committee having the affair in charge have issued the following card of invitation:

"All present and former citizens of the United States residing and sojourning in Victoria and vicinity, together with their families and friends, are cordially invited to join in the celebration of the 134th anniversary of American Independence, to be held at Bazaar park, Sidney.

"Arrangements have been made for a special train to leave the V. & S. station at 1 p. m.; returning, leaving Sidney at 7 p. m.

"A good, old-fashioned picnic will be held, all participants bringing their lunch baskets. There will be short speeches during the afternoon by Hon. Richard McBride, premier of British Columbia; Judge A. A. Freeman, late of New Mexico, and others. The American consul will preside; also recitations, songs by the children, games, races and other sports. Everything will be done to make the occasion thoroughly enjoyable for all who attend."

### AN AVIATOR'S UPS-AND-DOWNS

When Binks tried out his aeroplane, the flight occasioned quite a fuss. Binks waved his arms, said "Let 'er go," and started thus.

Alas for hopes so fondly nursed. Alas for visions of renown. He only flew a hundred yards.

Our press publicity only deals with items of special interest— Everything is reduced.

**TWO MISCONCEPTIONS REMOVED.**

The annual Dominion Day dinner at the capital of the Empire has become a very important function. In the highest sense of the term it is usually a feast of reason, which is eminently fitting considering that the affair has developed into something greater than a mere opportunity for the delivery of "felicitous" addresses abounding in high-sounding phrases. It has attained the status of a grand Imperial reunion. Last night from this central Imperial station there was disseminated much food for thought and reflection. There was also dissipated some idle rumors affecting our trade relations with Great Britain and the United States. Hon. W. S. Fielding, as befitting the national character of the occasion, was the principal speaker. The Finance Minister never wastes time or energy in purposeless beating of the air with oratorical wings. In his usual direct and emphatic way Mr. Fielding set at rest the alleged misgivings of a certain admiral of the British navy with respect to secret preferences of Canadians for United States institutions. In Canada time or space devoted to such a task would be considered wasted; but the people of Great Britain, not being on the ground, might easily be alarmed by false statements emanating from the lips of a naval officer with opportunities for observation.

Mr. Fielding's exposition of the fiscal policy of Canada as it affects present and prospective trade relations with the Mother Country was strikingly appropos, inasmuch as Mr. Borden, the leader of the Conservative party of Canada, has given his authority to a statement that as a consequence of what he has chosen to describe as concessions to the United States in order to avert a tariff war, the "hands of Canada are tied" and further advances in the direction of Imperial preferential trade are impossible. We trust every intelligent Canadian who takes an interest in the public affairs of his country knows that there is absolutely no warrant for the pessimistic statement of Mr. Borden. The fact was pointed out at the time of the conclusion of the negotiations with President Taft that the result of the entente was that the commercial independence of Canada had been conceded; the settlement was a full and free recognition of the position taken by the Canadian Ministers; that trade concessions granted by the Dominion to any country under the British flag could not be regarded as discrimination against the United States. A short but decisive tariff war with Germany settled that point. The American negotiators were more reasonable, and a peaceful and honorable settlement resulted.

There is no immediate prospect of the people of Great Britain discarding the fiscal system under which they have made remarkable industrial progress in the face of perhaps the heaviest handicap any nation ever carried, but should the day come when a change is considered advisable, the Canadian door will be found wide open.

**ONE OF THE PENALTIES OF PROGRESS.**

The extraordinary notoriety given the Jeffries-Johnson prize fight is one of the penalties civilization has to pay for the latter day accomplishments of the human race. But for the facilities given by the electric telegraph for the transmission of news the two "champions" could never have attained more than a little local celebrity. At it is the news of their doings and their condition is flashed over the wire. It is carried to all parts of the world, or at least to all those parts of the world in which the sporting spirit is active. Human (some call it brute) interest is aroused. Hundreds of men on this continent will spend every cent they can collect by divers methods in order to view the combat. Many "sports" from Australia and Great Britain are already on the ground reviewing the work and the condition of the gladiators and endeavoring to form estimates of the probable result for the benefit of speculative friends who are debarred by force of circumstances from gracing the gala occasion by their presence. Thus, thanks to three comparatively modern institutions, the telegraph, the press and the railways, prize fighters of the present day enjoy golden opportunities. The wires and

the newspapers work up the interest—the railways provide the facilities of transportation. The Jeffries-Johnson "go" will not only be fought for stakes amounting to a fortune for an individual of moderate pretensions, it will be one of the greatest gambling carnivals the world has ever seen or read of. There will not be one redeeming feature about it. From first to last it deserves condemnation and reprobation. But while it is advertised as the greatest event of its kind in the history of the world, there is also a general unanimity of opinion that it will be the last event of its kind in the world's history. Principals and promoters and abettors are all agreed upon that point. Public opinion has become so pronouncedly antagonistic to professional pugilism that there will very soon not be a single state in the American Union in which it will be possible to build an "arena."

The naval department of the Dominion government is already beginning to take steps looking to the establishment of a naval college at Halifax, N. S. The creation of this institution as a necessary corollary of the Canadian navy means that a new and highly attractive occupation will very soon be open to the sons of all Canadians who incline to a "life on the ocean wave, a home on the roaring deep." If there is any romance left in connection with a seafaring life, it adheres to the naval service. If there is any trace of brine left in the blood of Britons beyond the seas, it will surely manifest itself in a desire to join the Canadian navy. If the hereditary inclination remains, it will not be balked by any difficulties created or obstacles raised by the naval department. Qualifying examinations will have to be passed, but they will prove easy for any lad enjoying the benefits of our free educational system. The cost will be no bar to any lad of energy and ambition. The naval college, it is understood, will be erected within the limits of the dock-yard at Halifax. Until the new building is completed, the admiralty house will be utilized for the accommodation of the cadets. It is proposed to open the school with a class of thirty cadets, whose qualifications will be determined by competitive examinations under the Civil Service Commission, the examination being adapted to the qualification of the average high school boy of fifteen. Cadets will spend a two-year course in the college, for which they will be charged about \$500. They will next spend two years on board ship, at the rate of about \$2 per day, out of which they will provide uniforms and mess. At the completion of the four-year course with satisfactory service and progress they will be commissioned as sub-lieutenants at \$3 per day. It is expected the Niobe will make a training cruise to the West Indies next winter. She is regarded in the department as a training ship pure and simple, and will have on board the instruction officers loaned to Canada by the British Admiralty. On the Pacific Coast the cruiser Rainbow will be used for a similar purpose as the Niobe is designed for on the Atlantic.

It is a trite saying that "there is no smoke without fire." A contemporary directs attention to the fact that although the story that Messrs. Mackenzie and Mann, the President and Vice-President respectively of the Canadian Northern Railway, had been offered in London fifty millions sterling for their tenaciously held 400,000 Canadian Northern Common stock lacks personal confirmation, it has caused no surprise. Even Mr. Rodolphe Forget, M. P., affirms that it was no secret that the stock could be placed at a good figure in either London or New York. The obvious deduction is that, in declining \$125 per share for their holding, those gentlemen did not mean to part with the control of the road to British financiers. In fact, the president is reported to have said he would not part with the stock for \$100,000,000.

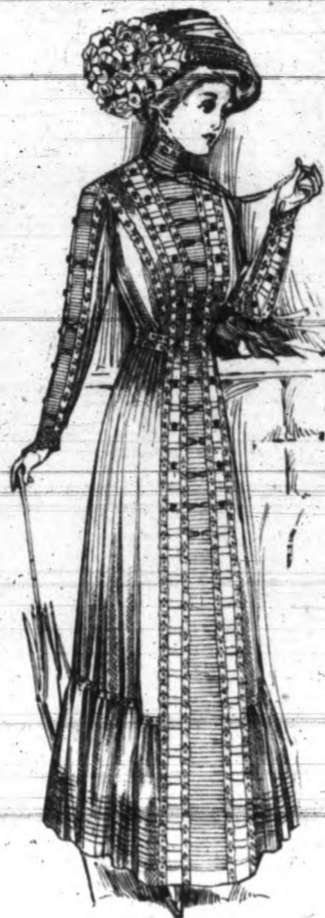

The appointment of Hon. Jas. C. Patterson to a moderately lucrative position by Sir Wilfrid Laurier's government was a generous act. Mr. Patterson has filled the positions of minister in a Conservative government at Ottawa and Lieut.-Governor of Manitoba and is still a member of the Conservative party. The charge can still be made, however, by the Conservative press that Sir Wilfrid appoints only partisans to office, but what of that? Every fair-minded Canadian will approve the motive that prompted the appointment to office of Hon. Mr. Patterson.

It is a somewhat remarkable fact that the Canadian Finance Minister should almost invariably turn up in London just at a time when there are some false impressions and nonsensical misconceptions to be removed. And Mr. Fielding always does his work in a thorough manner.

An appreciative visitor remarked yesterday how thoroughly and on the whole how "sincerely" Victorians appeared to enjoy a holiday. That is one of the respects in which all new-comers fall, perhaps unconsciously, into the wholesome ways of the old-timers.

Premier Roblin and Hon. Bob Rogers had better be warned by that solemn occurrence in Manitoba. It will be their turn next if they don't watch out.

Great doings in the United States on Monday. The tetanus germ when last seen was sharpening up his incisors.

**Interesting Savings Monday**

**EX-SUPERINTENDENT J. C. CAMERON**

of Medicine Hat, who for a number of years was superintendent of the western division of the C. P. R., spent hundreds of dollars in search of health. He went to Kellogg's Sanitarium, Battle Creek, Mich., but the doctors seemed unable to solve his case. Finally a friend advised him to try Kola Tonic Wine, made from Kola, celery and pepin. These are his own words: "After using it I gained in weight 42 pounds. I most heartily recommend Kola Wine to any person who like myself spent much money in vain search for health. It is, without doubt, a positive cure for sour stomach, fermentation, or aggravated case of indigestion and a great appetite restorer." As a cure for rheumatism, insomnia and all nerve diseases Kola Tonic Wine is unrivalled. It contains no drugs or alcohol. Call for a glass of Kola Tonic Wine at any hotel or restaurant. For home use your dealer can supply you. If he has not got it in stock, ask him to procure a bottle for you from Pither & Leiser, wholesale distributors, corner Fort and Wharf streets.

Stage will start running Sunday, April 24th, 1910. Round trips 75c, single trips 50c. Leave Pacific Transfer, Stables 9 a.m. every Sunday.

—\$15. \$12. Pattern Hats are slaughtered for \$5. The Elite, 1215 Douglas street.

—Expert posing and lighting enable us to produce portraits of merit—pictures that will please the girl graduate, the June bride or the summer girl. Foxall's studio, 1111 Government St.

—Excursions Wednesdays and Saturdays. Now is the time to see the beautiful islands, the novelty of this trip cannot be exceeded in any part of the world.

—Thousand Islands—Next Sunday the S.S. Fenelon will make one of those delightful trips around the Gulf Islands, stopping one hour at Mayne, and returning via the picturesque Pender Canal. Take V. & S. train, leaving Victoria at 9:45 a.m. Refreshments and music on board. For further information telephone 511.

—A new floor at small cost. A half-gallon can of Campbell's Floor Finish will make your old floor look as good as new. This Finish comes in Transparent also with stain combined, producing beautiful imitations of natural woods. Bownass, Broad St., sells it.

—Seattle \$2.70 round trip by S. S. Iroquois leaving 9 a.m. Good from June 30th to July 5th.

—Tremendous reductions in Millinery at The Elite, 1316 Douglas.

—The regular monthly meeting of the Victoria Nurses' Club will be held on Monday afternoon at 2 o'clock in the Alexandra club rooms. A lecture will be given after the business, which is to be brought up, is concluded. All members are asked to attend.

—The meetings at the Salvation Army Citadel, Broad street, will be conducted by Major and Mrs. Morris on Saturday and Sunday. Strangers in the city and others will be made welcome. Capt. Kundson, who has been away for her vacation, has returned and will take part in the Sunday services.

—The funeral of the late J. Nakabayashi, the Japanese who was found dead on the doorstep of his shack, Tillicum road, South Saanich, on Wednesday, took place this morning at 11 o'clock from the Hanna parlors, Yates street. Rev. A. E. Roberts conducted the services under the auspices of the Japanese Methodist mission. The verdict of the coroner's jury in this case was death from natural causes.

—Work on the erection of the new Y. M. C. A. building, on the corner of View and Blanchard streets, will be commenced at once. The structure will be an exceedingly handsome one, with every convenience needed by the many members of the association. It will be four stories in height with basement, and will be thoroughly modern in construction. H. S. Griffiths prepared the plans. The contract for construction has been awarded to J. L. Skene & Co.

—The annual meeting of the Women's Auxiliary Society, P. R. J. hospital, will take place on Tuesday next at 2:30 p.m. at the board of Trade rooms. All members, donors and friends of the society are earnestly invited to attend. The annual fee of \$2 is now due, and where it has not been already collected, members or intended members are asked to very kindly forward the same to Mrs. Hassell, secretary-treasurer, care of Alexandra Club.

—On Thursday evening the death occurred at the family residence, 1434 Vining street, after a lengthy illness, of Sidney Charles Driver, son of Mr. and Mrs. Charles Driver. Deceased was born in this city 17 years ago, and received his education in the public school here. The remains have been removed to the parlors of the B. C. Funeral Company, from where the funeral will take place on Monday afternoon at 2:30 o'clock. Rev. Mr. Stevenson will officiate. Court Vancouver, A. O. F., No. 5755, of which order deceased was a valued member, will be present. The lad is survived by a mother, father, two brothers and two sisters.

Come in and ask to hear these played.

**Fletcher Bros.**

West in Canada's Largest Music House.  
1231 Government Street.

—Seattle \$2.70 round trip by S. S. Iroquois leaving 9 a.m. Good from June 30th to July 5th.

—The W. C. T. U. will meet at the residence of Mrs. David Spencer July 7th to hear the report of the Westminster convention.

—The new Canadian hymn book, entitled "The Book of Common Prayers," will be adopted at St. Barnabas' church to-morrow. Copies are provided for those who have not got them.

—The "Unseen World and Man's Relation to It" will be the subject of an address by Phil. R. Smith at the Unitarian meeting on Sunday evening. The address will be followed by the regular sermon.

—The B. C. Telephone Company is stringing additional copper wires between here and Nanaimo, which will give three circuits between the two cities, and to this extent increase the telephonic facilities.

—Doubtless many from here will avail themselves of the opportunity of enjoying the sea breeze on the 4th. There will be the usual excursion to Port Angeles on that day. As attractions there are to be a military review, foot races and other sports.

**FLOWER SERVICE.**

The annual flower service will take place to-morrow the 3rd inst., at 3 p.m. at the Pemberton chapel, Provincial Royal Jubilee hospital. The dean of Columbia will officiate and the choir of St. Paul's church, Esquimalt, have kindly offered to assist. This service is arranged by the Daughters of Pity, who invite all friends, children and fellow workers to attend, and to bring plants or flowers.

**USE OF ALUM IN MICHIGAN.**

State Chemist F. W. Robison, of Michigan, in an interview some days ago, stated that many Baking Powder Companies have for months been turning out inferior aluminum sulphate as one of the ingredients used in the manufacture of baking powder, which when sifted down, was nothing more or less than alum. This he claims will soon be used by many of the States as an entering wedge to prohibit the use of that substance in baking powder and many other foodstuffs. Michigan has no law preventing the use of alum, but there is a stringent law against the use of substances in foodstuffs that are injurious to the public health. According to the Pennsylvania decision alum is classed as such, and action may be taken in Michigan to prevent the sale of baking powder containing it.

**ASKS \$25,000 DAMAGES; COURT AWARDS \$100**

**Judgment Handed Down To-day in Case of Oliphant Versus the City of Victoria**

Mr. Justice Gregory to-day handed down judgment in the case of William Oliphant versus the city, allowing the plaintiff \$100 for damage caused to his property by flooding from city sewers and restraining the corporation from continuing the sewer now in course of construction on Surflej street. The plaintiff alleged trespass and depreciation of his lots through the flooding and asked for \$25,000 damages.

After reviewing the case His Lordship says: "I therefore allow \$100, which will more than cover all the real damage plaintiff has suffered by reason of the surface waters or sewerage and will leave a surplus which may be considered damages for the trespass— which will not recur, as there will be an injunction restraining the city from continuing the sewer opening on Surflej street. The surface water by a already been provided for by a surface drain."

No order as to costs is made, counsel being allowed time to file arguments on this point.

**BAND CONCERT.**

By kind permission of Col. Currie and officers of the 4th Regiment, the band will play the following fine selection of music at Beacon Hill park to-morrow afternoon at 3 o'clock:

- March—The Annihilator..... Clement
- Overture—Midsummer Night's Dream..... Mendelssohn
- Gavotte—Alita..... Loxey
- Selection—The Army Chaplain..... Milnes
- Waltz—Castro, Tansie..... Gural
- Corset Solo—Inflamatus..... Rossini
- Grand March—Albion (request). Backens
- March—Kindly Light..... Dyke
- March—Nightingale..... Wagner
- God Save the King.

**WAR CLOUD AT CITY HALL**

(Continued from page 1)

son, but had later countermanded the order. The work of laying out the widened area ought not to have been proceeded with under those circumstances.

Ald. Fullerton, Mable and other members of the board thought that an intolerable state of affairs had developed in the relations between the city engineer and his assistant, and they charged that the mayor was mainly responsible for this situation.

Ald. Fullerton declared with some heat that Mr. Bryson had no right whatever to be constantly advising the mayor over the head of his superior. He (Ald. Fullerton) could assure the board that nothing of this sort would be tolerated in connection with the administration of the affairs of the fire department.

Mayor Morley, when asked why Mr. Bryson had not in the matter of the widening of sidewalk on Douglas street observed the city engineer's second letter, remained silent. The press was asked to say nothing about the incident of these evidences of strained relations between the city engineer and his assistant.

Some few weeks ago, at the suggestion of Ald. Bannerman, chairman of the streets committee, it was decided that a by-law giving the engineer full control over every member of his staff, from his assistant down, should be passed. This by-law was prepared, but, on inspecting it, Mr. Smith discovered that it fell far short of giving him that measure of jurisdiction which was desirable if he is to be enabled to maintain the discipline necessary for the proper administration of his department. It is now said, however, that the by-law will be introduced in amended form, to the satisfaction of Mr. Smith.

Mr. Smith is not ignorant of the influences which, it is alleged, are working against him, and some few days ago communicated his fears to Ald. Bannerman, who, at the time of the conversation agreed that the engineer's suspicions were well-founded. It is declared by those who claim to know that Mr. Bryson has on numerous occasions expressed contempt for the ability of his superior officer.

The whole situation is one so serious that the ratepayers of the city are entitled to be acquainted with it, as it is obvious that this lack of harmony between the heads of the chief department of the city cannot but have a most damaging effect on the system for the execution of the important works which are now in hand and in contemplation.

It may be anticipated with some confidence that at the next meeting of the city council an effort will be made by the more aggressive members at the aldermanic board to defeat a conspiracy which they feel to be at once contemptible and destructive of good civic government.

The Local Council of Women will meet on Monday afternoon at 2:30 o'clock in the city hall. A full attendance of members is requested, as business of importance is to be transacted.

**LOYAL TRUE BLUES MEET IN GRAND LODGE**

RENTON DROPS OPENING GAME

PLAY IS WATCHED BY BIG HOLIDAY CROWD

Teams Tie on Errors and Hits, But Victoria Gets 7 Runs to 4

It was exciting ball that the fans saw yesterday afternoon at the ball park, and until Victoria got three home in the sixth it was either side's game.

On hits and errors the two teams were equal, both getting six errors and eight hits. Victorians who crossed the home plate, were Murrach, and Moore twice, Moulton, McDiarmid, and Whyte.

The holiday crowd was a good one and almost filled the grand stand, white at either end the bleachers were well filled. A near accident occurred in the Cook street bleachers, where a child fell from the seat at the top of the stand to the ground below.

Peden pitched good ball; in fact Peden was a ball player yesterday afternoon. He struck out fourteen of the Renton batsmen and got one hit, and that is a whole big afternoon's work for Bob.

Wattlet played up to six innings, and then retired from the game, giving his place at right field to Brown. Renton opened with two runs in the second innings, after Peden had closed them out for the first. Victoria went to the fourth innings before the score was opened, and then two runs were scored, tying the score.

The following is the detailed score: Victoria.

Table with columns: A.B.R.H.P.O.A.E. for Victoria and Renton.

Score by Innings: 1 2 3 4 5 6 7 8 9

Stolen bases, Murrach, Moore, McQuaden; Ladd, sacrifice hits, Fuller, 2; two-base hits, McDonald, Mulver, base on balls, off Peden 1, off Fuller 1; struck out, by Peden 14, by Fuller 5; hit by pitcher, Fuller Mulver; left on bases, Victoria 5, Renton 9; time of game, 1 hour, 30 minutes; umpire, Geo. Burns.

STEELE SHUT OUT THE CLOVER NINE

Beacon Hill Wins Ball Game at Terminal City—Score 5 to 0

The Beacon Hill team went to Vancouver and played a holiday fixture yesterday morning against the Clover nine, defeating the Terminal players for the second time this season.

The Clovers have an enviable record, having lost only one game this year in Vancouver, and are at the head of the senior league there. "Bugs" Andrews, their star pitcher, was on the mound yesterday and they had placed two members of the Beaver team, both being heavy hitters, catcher and first baseman, so as to have the best team possible on the field.

Although it was Townsley's turn to twirl, the Clovers were anxious to get revenge on Steele, so he performed. Neither side was able to score up to the fourth, when Scott's three-bagger, followed by R. Steele's single brought in one run, after which there was not even a hit allowed, until the eighth, when Russell made a single, Monk sacrificing him to second. Gravin singled over short, advancing him to third. O'Rourke went out, Alberts to Shaddick. E. Steele singled, scoring Russell, and Townsley hit for two bases, scoring Gravin and Steele. Scott singled to centre, scoring Townsley, when R. Steele struck out.

The nearest the Clover team came to scoring was in the sixth, when with one down Shaddick hit for three bases, but E. Carruthers and Frasen both struck out. There was a good-sized crowd present.

Table with columns: A.B.R.H.P.O.A.E. for Beacon Hill and Clover.

Score by Innings: 1 2 3 4 5 6 7 8 9

Three-base hits, Scott, Shaddick; two-base hits, R. Steele, Townsley; struck out, by Steele 11, by Andrews 7; bases on balls, Andrews 2; hit by pitched ball, Frasen, by Steele; time, 1:15.

The Albions went down to defeat yesterday in an all day game with the Garrison, being beaten by 4 wickets and 21 runs.

There was no brilliant play on either side, but the bowling of the Garrison was better than their opponents, which accounted for the poor showing made by the batsmen. Following is the score:

Table with columns: A.B.R.H.P.O.A.E. for Albion and Garrison.

Total: Albion—1st Innings, 0; 2nd Innings, 0; 3rd Innings, 0; 4th Innings, 0; 5th Innings, 0; 6th Innings, 0; 7th Innings, 0; 8th Innings, 0; 9th Innings, 0.

SPECIAL ON THE FIGHT AT RENO

FULL PARTICULARS BY TIMES RINGSIDE WIRE

Victoria Theatre Gets Special Wire and Will Describe Fight by Rounds

Victoria fight fans, and in fact the whole population of the city, will be well served on Monday afternoon regarding the particulars and the result of the world's championship prize fight that takes place between Jack Johnson, the present world's champion, and James J. Jeffries, the undefeated world's retired champion at Reno.

The fight will be wired from the ringside to the Times office direct over a special leased wire. The results of each round will be received within two minutes of the happening. Each blow will be described and recorded here exactly as each of the heavyweights delivers and lands it, and the public will be given the complete story by a special edition of the Times published on Monday afternoon immediately the decision is made known.

At the Victoria theatre arrangements have been made for a special announcement of the fight round by round. A leased wire has been engaged and connections made direct from the ringside at Reno to the theatre stage. Every blow and all the happenings at the ring, and in the crowd around the ring, will be read to the public as soon as the telegraph reports come to hand. The theatre people have gone to the expense of securing the same quick service as is given to the newspapers of the continent, and the public will have the fight described to them just as it is described by the fight experts who are taking it at the ringside.

The gigantic undertaking of securing the special wire at a few days' notice was completed last night. The theatre management, and connections will be made by Monday with a telegraph receiving machine installed on the stage. As the report comes in it will be read to the public by the announcer, who will receive the messages from the telegraph operator seated at the machine.

The public of Victoria will know the history of the fight as it occurs and at no time will it be more than a half round behind. The fight will commence shortly after 1:30 o'clock and the returns will commence coming in by 1:33, so that those who attend the theatre will be seated by 1:30 p. m.

WESTMINSTER EASILY DEFEATS VANCOUVER

Royals Win by Nine Goals—Game Ends in Fight on the Field

(Times Leased Wire.) Vancouver, B. C., July 2.—The lacrosse game between Vancouver and Westminster resulted in the Terminal citizens being whitewashed, while the champions scored nine goals. Up to half time the Vancouver defense held splendidly, and the two goals scored were the result of sharp shooting, but with a pre-emption of Vancouver men to the fence in the third quarter the Westminster attack got busy and grabbed four goals. In the last quarter they got three more. From half time on the game was very rough and there was a free for all fight a few minutes before the whistle finally blew. The crowd numbered about 9,000.

VICTORIA WON FROM VANCOUVER ELEVEN

Capital City Cricketers Were Eighty-Nine Runs to the Good

(Times Leased Wire.) Vancouver, B. C., July 2.—The annual holiday match between the Vancouver and Victoria cricket teams yesterday resulted in a win for the eleven of the Capital City by 89 runs.

The Vancouver team batted first and prevailed rather easily for Gooch and Gallihier, being disposed of for 95 runs. Armistage 24 and Barr 23 were the chief scorers.

Victoria did not start off well but steadied down and York stayed at the wickets for 91 runs. Came 30, Barnacle 18 and Tye 14 were the other good scores. In the run churning Gooch took 7 wickets for 31 runs and Gallihier took 2 for twelve. The Vancouver team tried out nine bowlers.

JEWELLERS PLAY BALL

Ten-mile Point was the scene of an exceedingly entertaining baseball match yesterday afternoon between the ground and first floors of Chalonier & Mitchell's establishment. Just why the two branches should journey so far to settle their differences has not been explained unless it was prompted by the modesty of the players. The ground floor won out with a score of 14 to 12, which is not only a dignified showing but respectfully close.

The batteries were Hill and Aldridge for the ground floor and Jones and Gallop for the first. The score yard seems to have been lost, unintentionally, of course, which prevents publication of details, disclosures, etc. etc. P. M. Licklater was umpire. Some of his decisions struck the players as somewhat radical, but it happens that he is a radical of the old school and no one could quarrel with his sincerity. A return match is being arranged for next Dominion Day.

Glycerine has the property, extraordinary, of making the skin soft and supple.

VICTORIA ATHLETES WIN AT LADYSMITH

Sweeney Wins Half-Mile—Local Trio is First in the Relay Race

Ladysmith, B. C., July 2.—The largest crowd that ever attended any kind of sports in this city were out in full force yesterday afternoon to enjoy the programme mapped out in celebration of Dominion Day. Baseball, lacrosse and foot races filled the bill and they were all exciting from the start until the finish.

The Chemainus nine won from the locals in the ball game by the score of seven runs to nil. The hundred-yard dash was won by Joe Evans, a University of Washington athlete, who is visiting here at the present time. "Bert Mackay, of the Victoria J. B. A. A., was second. The half-mile open was won by John P. Sweeney, of the J. B. A. A., with W. Day second. Sweeney also won the quarter-mile from a field of a dozen starters, with Christmas, of Duncan, second and Evans, Seattle, third. Mackay finished second but was disqualified for fouling.

The feature of the day's sport was the relay race, for which there were teams entered from Victoria, Nanaimo, Ladysmith, Duncan and Chemainus. The Victoria trio won out after a close finish with Ladysmith. The Victoria team was composed of R. MacKay, W. Day and John P. Sweeney.

In the evening the celebration was brought to a fitting close when a big dance was held, which lasted until the early hours of the morning. A large crowd attended and today Ladysmith is recovering from one of the finest and best managed celebrations that they have had for years.

JEFFRIES' TRAINER SAYS TWENTY ROUNDS

Statement Issued by Cornell, in Charge of White Man's Camp

(Written for the United Press by Roger Cornell, Chief Trainer at Jeffries' Camp.)

Reno, Nev., July 2.—Contrary to the popular belief, there is nothing incongruous in the statement that Jeffries will be in the best condition of his career when he enters the ring on Monday. There is nothing miraculous about the fact that this trite expression is becoming an actuality.

The reason for doubt was that "retirement" is commonly associated with old age. Jeffries' retirement came when he was only 30 and before his actual physical maturity, which in many of large physique often comes late. This is proved by the fact that he is larger-boned now than then and that he has developed in every way. Jeffries has not had to come back in the sense of a "has been" but as a precaution he has devoted a year and a half to preparation for this fight. He has usually given six weeks to preparation for boxing and massage comes into Jeffries will be faster Monday than he has been in any previous fight. His whole system of training has been designed to uphold his speed and to soften his muscles. With soft muscles he will be better able to stand punishment than when nature's armor is made hard and rigid. Jeffries actually has spent more time on the massage table than in exercise and the result will be an athletic masterpiece of speed and endurance.

A great deal has been said of Jeffries' lack of boxing practice. On the eve of the fight and now that secrecy is no longer of value, I will say that Jeffries has had practically double the amount of public has heard of for several weeks past, and practically on every day when the crowd was disappointed at not getting a chance to see the big fellow work Jeffries has been rising at 4 o'clock in the morning, hauling out his brother Jack and Bob Armstrong for secret boxing. These workouts invariably have been followed by massage, the whole proceeding being kept secret in order to clinch the belief in John-sen's camp that Jeffries is not working as hard as necessary.

Jeffries will win in well under 20 rounds but should the battle go beyond that will see Jeffries carrying the fight and so full of battle and vitality as to surprise all but his most intimate followers.

DOMINION DAY BUSY

TIME FOR BOWLERS

Close Games at the Beacon Hill Rinks—Many Matches Played

At the bowling green yesterday afternoon the members of the Victoria club spent a busy afternoon and an exceedingly close match was played by Turner and Coleman's teams. The four sets was played when the teams were still level. The detailed results of the principal matches were:

RINK MATCH. W. Walker, S. Shaw, W. Lorimer and J. A. Turner (skip), 14. W. Bruce, J. Lemon, B. John and R. W. Coleman (skip), 14.

To decide the match an extra end was played which again resulted in a draw.

SIX-HANDED MATCH. B. Stewart, D. Moratt and R. W. Coleman, 22. G. Lowe, R. Dunn and J. A. Turner, 20.

FOUR-HANDED GAME. W. Oilphant and G. Mowatt, 12. J. A. Turner and R. Dunn, 17.

The greatest whirlpool is the maelstrom off the Norway coast. It is an eddy between the mainland and an island, and when the current is in one direction and wind in another, no ship can withstand the fury of the waves. Whales and sharks have been cast ashore and killed. The current is estimated to run 30 miles an hour.

RESULTS OF GAMES IN BASEBALL LEAGUES

AMERICAN. Philadelphia, July 2.—Scores in yesterday's games follow:

ship; Chinnault and Custer. Vancouver, July 2.—Scores in yesterday's games follow: Afternoon Game. R. H. E. Spokane 0 5 0. Vancouver 6 7 1.

Batteries—Bonner and Brooks; Shen, Gardner and Sugen. Evening Game. R. H. E. Vancouver 3 11 1. Spokane 0 5 0.

Batteries—Brinker and Lewis; Kill-illay and Shea.

The Bankers' baseball team suffered a bad defeat yesterday at the hands of the fast Capital nine. The losers failed to connect with White's benders and in nine innings only collected six runs. The Capital players were in the game all the time and when at the bat they clouted the ball hard and at the close of the match had 18 runs to their credit. The game was played at the North Ward park, before quite a crowd of spectators.

A new potato contains about 50 per cent. of water.

CELEBRATION OF DOMINION DAY

MANY PICNIC PARTIES WERE HELD YESTERDAY

Weather Was Beautiful and Large Crowds Enjoyed Themselves Thoroughly

Dominion Day in Victoria was made the occasion of a general exodus from the city. The beautiful weather prevailing made it possible for the thousands of school children and their friends to participate to the fullest enjoyment in the many picnic events which had been arranged.

At Peddar Bay. Everyone who attended the picnic held at Peddar Bay yesterday by the Sunday school of the Metropolitan Methodist church enjoyed themselves to the utmost and voted it as being one of the most pleasant affairs in which they have participated for many years.

At Peddar Bay. The excursion boat on this occasion, was very suitable for the work, the first three trips the station she carried her full complement of passengers, and there was ample room on her for every person.

About 3 o'clock the sport programme was commenced and many keenly-contested races, especially amongst the youngsters, were witnessed. The most interesting event of the day was the tug-of-war between the team from the quarantine station and the Metropolitan school.

At Peddar Bay. The members of First Baptist Sunday school with the Burnside and Victoria West missions held their annual picnic at Macaulay Plains. The day proved thoroughly enjoyable to all who attended and the many games, races, etc. arranged by the sports committee were keenly contested.

At Peddar Bay. The various wooden pavements throughout the city which have developed work spots are being repaired. The work blocks are being removed and replaced with new ones.

At Peddar Bay. A man named Thomas, charged with doing damage to property at Rendell's pool rooms, Government street, was remanded in the police court this morning until Monday.

At Peddar Bay. L. O. L., 1425, will hold its regular meeting at the lodge room, Foresters hall, Broad street, on Monday night, the 4th July.

At Peddar Bay. The Lancashire cricketers had 182 runs and Surrey 160 for seven wickets when the game was abandoned today.

SENSATION SUIT MAY NOT COME TO TRIAL

Negotiations to Settle Croft vs. Whiting Out of Court—Point of Law Decided

It is understood that the sensational suit brought by Henry Croft and others against Samuel Whiting, James Dunsmuir and others, in which conspiracy was alleged and damages to the extent of \$4,500,000 asked for, will be settled out of court.

Chief Justice Hunter, on Thursday afternoon handed down a judgment settling an important point of law which was argued before him by counsel for the various parties to the action. The question was whether the defendants had a right to hold their registration of a second option given on the coal lands owned by them and on which they had given a first option to the plaintiffs.

The court held that the plaintiffs' caveat was in force when the second option was registered. By this judgment the second option is nullified and the first option established.

TIDE TABLE

UNUSUAL LONDON INCIDENT

A meeting in Trafalgar square, organized by Mr. Stewart Gray to condemn the workhouses, demand land for the unemployed, and to send an address to the King, was attended by the London Standard of recent date.

The real business of the meeting was to pass a resolution and adopt a "loyal address and solemn warning" to the King, trusting that his Majesty would heed the teaching of history.

PRETTY WEDDING AT THE CATHEDRAL

Miss Heyland and Mr. D. George McCurdy Were Married This Afternoon

A church wedding of great interest took place this afternoon at 2:30 o'clock, when Miss Anita Antoinette, eldest daughter of Mrs. Rowley Heyland, and granddaughter of the late General Heyland, "Redwall," Esq., and Mr. David George McCurdy, third son of Mr. A. W. McCurdy, Esq., were united in wedlock before the altar in Christ Church cathedral by Rev. Archdeacon Scriven.

The bridesmaids were Misses Helen, Beatrice and Constance Heyland, sisters of the bride; Miss Drake, Miss Helmsdon, Miss King and Miss Blackwood.

The young couple, who are well known in this city, the bride being very popular in society circles, and the groom a great favorite, were the recipients of many beautiful and useful presents, which testified to the esteem in which they are held.

### FATAL FIRE AT OIL STORAGE PLANT

One Man Killed and Four Injured,  
One Probably Fatally—Property Loss \$200,000

(Times Leased Wire.)  
St. Louis, Mo., July 2.—One man was killed, one fatally hurt and three others injured in a spectacular fire at the storage plants of the Waters Pierce Oil Company here to-day. Fire Captain J. M. Lyons was killed, Herman Fiker, a laborer, was fatally injured and three firemen were badly hurt. The flames broke out in the big storage and shipping plant of the company and spread with great rapidity. Nineteen giant storage testing tanks exploded while the flames were at their height. The loss is estimated at over \$200,000.

### AUTO PLUNGES OVER EMBANKMENT

One Person Killed and Two Others Injured in Accident at Hamilton

Hamilton, Ont., July 2.—Miss Susan L. Perkins, a trained nurse of London, Ont., was instantly killed, and Miss Dorothy Robertson, the 17-year-old daughter of Robert Robertson, general manager of the Hamilton Steel and Iron Company, was seriously injured as the result of the worst auto accident in the history of the city, occurring Thursday evening. Keith McCrae, the driver, was also badly injured.

Miss Robertson was convalescing after an attack of typhoid fever, and Miss Perkins, who was her cousin, had been nursing her throughout her illness. They were out for a breath of fresh air on the mountain. While descending the Strongman mountain road, which is a steep grade, McCrae evidently lost control of the car and ran to the edge of the road. He struck and tore up a portion of the fence, and the car went over the embankment, falling to the road below, a distance of thirty feet.

### LIBERAL RE-ELECTED.

(Special to the Times.)  
London, July 2.—In East Dorset by-election yesterday, Guest, Liberal, had 6,967 votes, and Nicholson, Unionist, 6,375, a majority for Guest of 592. In the recent general election Guest's majority was 428. The by-election was caused by the unseating of Guest on the ground that the candidate's expenses were excessive.

### QUARREL ENDS IN MURDER.

Conductor Shot in Railway Depot—Station Agent in Hands of Police.

Ridgefield, Wash., July 2.—Conductor I. H. Stewart is dead and E. M. Fuller, aged 19, night telegrapher and station agent for the Northern Pacific railroad at Ridgefield, is under arrest accused of murder as a result of a shooting affair in the depot. Two brakemen who were present witnessed the shooting.

A week ago there was a small wreck in the Ridgefield railroad yards. Fuller and Stewart each blamed the other. On account of the wreck it is asserted enmity between the men grew. On Thursday Stewart entered the station to get clearance papers for his train. Witnesses state that they began to quarrel, and that finally Fuller drew a gun and shot Stewart through the heart, killing him instantly.

### NAVAL OFFICER'S TRIBUTE.

Plymouth, Eng., July 2.—The officers and midshipmen of the American squadron now visiting Plymouth, attended the celebration in honor of the memory of Sir Francis Drake.

Replying to the toast of "The Visiting Squadron," Captain George R. Clark said:

"I have noted with growing astonishment and admiration the Englishman's wonderful mastery over men. Wherever Englishmen go they stand for law and order, progress and civilization. Order comes out of chaos and the worst places are made glad. Americans are proud to claim relationship with such people."

There was some comment comparing these remarks with Mr. Roosevelt's Guildhall speech.

### GOES HIGH IN AIR.

Montreal, July 2.—The feature on Thursday the aviation meet was the flight of Walter Brookings, the Wright aviator, with Bertrand de Lesseps, brother of the count, as a passenger, lasting twenty-three and a half minutes and ascending to a height of 1,140 feet. It was the first time that de Lesseps had ever been up in a heavier-than-air machine.

William Jennings Bryan was an interested spectator.

### DENMARK'S CABINET RESIGNS.

Copenhagen, July 2.—Denmark is without a cabinet to-day, following the acceptance by King Frederick of the resignation of his cabinet members. The government's defeat in the recent election in which its plan to reorganize the national diet was at stake is given as the cause of the cabinet's action.

Premier Zable and the other ministers sought to resign May 27th but on request of the king retained their portfolios for the time being.

### ILLINOIS BRIBERY CASE.

Springfield, Ill., July 2.—Representatives Wilson and Lee O'Neill Browne, indicted for bribing the Illinois legislators in connection with the election of Senator William Lorimer to the United States senate Thursday gave bonds in the sum of \$10,000. Both were cheerful, but declined to talk. Browne was tried on a similar charge in Chicago and the jury disagreed after 145 hours of deliberation.

### STEEL MILLS MAY BE BUILT AT CALGARY

Large Bodies of Iron Ore Located Within Fifty Miles of the City

Calgary, July 2.—From seventeen pounds of iron ore found within fifty miles of Calgary, ex-Alderman Watson, local representative of a Boston syndicate controlling \$40,000,000, secured five pounds of excellent iron of fine grain and admirably suited for the manufacture of steel. According to Mr. Watson, mountains of such ore exist within fifty miles of this city and within twenty-five miles of the railroad. He states that within a few months work on a steel plant and rolling mills will be started in Calgary, a new line of railroad will be built direct from the mills to the mines and there is now every assurance that Calgary will be the Pettiburg of the Canadian west. Negotiations have already been partially completed with a view to securing a suitable site.

### FIXES TAX RATE FOR PRESENT YEAR

(Continued from page 1.)

It was decided to purchase fifteen one-inch and five hundred five-inch tri-dent meters, at a cost of \$2,300, for the water works department.

On the recommendation of the city engineer ten tons of calcium chloride will be purchased for experimentation in allaying the dust nuisance. Equilibrium road, Cook street, and that part of Fort street between Oak Bay avenue and the Royal Jubilee will be first treated.

It was decided not to impose the penalty of \$10 per day against the Victoria Machinery Depot for the non-delivery of certain goods ordered from that firm. The depot recently put in an expensive plant, and the delay in the delivery of the goods was in consequence of an unavoidable mechanical difficulty.

### RICH STRIKE IS MADE IN ROCKIES

Prospector Finds Gold, Copper and Coal—Work in the Yukon

"We have not yet commenced so much as to scratch the gold deposits in the Yukon," remarked Isaac J. Hartman, who has been now for twelve years postmaster at Dawson, in an interview at Vancouver.

"This small piece of blotting paper upon this very large table, the blotting paper representing the work in development which has so far been accomplished, gives something like a fair, although nevertheless quite imperfect impression, of the immense territory which has yet to be worked over."

"At the present time," he continued, "it is a most difficult thing to prospect this territory, but when the Grand Trunk Pacific railway is built and we can secure a much nearer base of supplies than is now possible, the work will be vastly facilitated."

"Prospecting is actively in progress upon the Dome, a considerable and quite extensive elevation from which all the great gold-bearing creeks start. The Dome Lode Company has run a tunnel from the Dominion to Lombard creek, and we now think, and indeed, we are quite confident, that we are in touch with the original quartz in the Mother Lode—which is the primal source of all this wealth. Another important company intends to develop another side of the Dome. Still, again, upon this other side, three other companies are working between Eldorado and Bonanza creeks, and they all have very good prospects in quartz. One of these companies, moreover, has erected a small mill with two stamps and is obtaining quartz which average \$20 per ton right down from the surface. Our own assays of the quartz which we have taken from our workings upon the Dome go much higher, although so far we have secured nothing more than a mill ton made upon a few hundred pounds of ore."

"Another party, and myself," continued Mr. Hartman, "last year sent an experienced miner to prospect among the ranges of the Rocky mountains, some 300 miles to the eastward of Dawson city, and when he came out after an absence of a couple of months, he reported to us the discovery of much wonderful prospects in gold, copper, iron and coal that we have been encouraged to send him back again with a full year's supplies into that most interesting section. I will not reveal the locality with any degree of exactitude, but I will state that it lies in the vicinity of Peel river."

"The copper ore assayed over 25 per cent. pure copper and the iron 66.65 per cent. pure iron. The gold samples are rich and the coal, this man said, is very good. He had burned it for heat and cooking purposes. This whole northern section of country has been deliberately pronounced by experienced mining men to be the greatest mineral bearing territory to be found in the whole world."

"The Guggenheim interests began work upon their numerous claims during the past season, when they took out over a million and a half in gold. They are using dredges, with endless buckets, hydraulic lifts and hydraulic hose, the motive power being electrical. Only a very small proportion of our placer deposits have been as yet touched, and much of the ground which is now being sluiced in years past went through the hands of the original miners."

"It is estimated that over one hundred million lbs. concealed in the placer properties which are controlled by the Guggenheims upon the various and neighboring creeks near the city of Dawson, such as Hunter, Bonanza and Lovett, etc., as well as the smaller streams that are tributary to these valuable creeks. Wholly separate from the Guggenheim interests, the Canadian

is at the present moment engaged in the construction of the biggest dredge that has ever been built upon the continent of America, to be used in developing placer deposits. Each bucket used upon this enormous dredge will have a capacity of fifteen cubic feet. Although we can successfully grow the grains—wheat, oats and barley—as well as the very finest vegetables in the whole world, as far as both flavor and size are concerned, the Yukon will never be an agricultural district."

is at the present moment engaged in the construction of the biggest dredge that has ever been built upon the continent of America, to be used in developing placer deposits. Each bucket used upon this enormous dredge will have a capacity of fifteen cubic feet. Although we can successfully grow the grains—wheat, oats and barley—as well as the very finest vegetables in the whole world, as far as both flavor and size are concerned, the Yukon will never be an agricultural district."

### WILL KILL PRIZE FIGHTING.

Bill Passed by Legislature of Georgia Goes to Governor for Signature.

Atlanta, Ga., July 2.—A bill passed by the Georgia legislature which will kill prize fighting and every kind of fistie contest in the state is awaiting the signature of the governor to-day. The bill was first introduced in the assembly and was made more stringent when it reached the senate. Athletic clubs in Savannah and Atlanta will be put out of business if the bill becomes a law.

### DWELLINGS DESTROYED.

Montreal, July 2.—As a result of a fire at St. Mary street Thursday four frame dwellings were destroyed and twelve families left homeless.

### BRITISH BUDGET IS INTRODUCED

### CHANCELLOR HAS WIPED OUT DEFICIT

### Surplus Expected at End of Year - Large Increase in Naval Expenditure

London, July 2.—In the commons on Thursday, Premier Asquith announced that the government proposed to adjourn parliament at the end of July, and that it would reconvene in November. The 11th and 12th of July, he said, would be devoted to the second reading of the women's enfranchisement bill.

Chancellor Lloyd-George then introduced the budget for 1910-1911.

The chancellor had no novelties to offer in this budget. He took an optimistic view of the future, despite the fact that he had to find the revenue to meet an increased expenditure. For the 1200,000,000, or, to be exact, 1,198,530,000, the chancellor figured a total revenue of 1,197,791,000, leaving a surplus of 739,000.

The chancellor was cheered when he stated that he had already wiped out the deficit and that everything pointed to a better outlook in trade. The greatest increase in the expenditure was for the navy, which was 15,550,000, the total under this heading amounting to 140,000,000.

The chancellor announced that there would be no reduction in the whiskey tax, despite the increase in revenue from this source of 1,400,000. The decrease in consumption of ten million gallons of whiskey, he said, conducted to the well-being of the people. Drunkenness in Ireland and Scotland had decreased immediately to a great extent after the increase in the tax, and the chancellor said that the man who would reduce the tax would be guilty of a crime against the state.

The following are the estimates for the expenditure on the supply services during the current year:

|                               |             |
|-------------------------------|-------------|
| Army                          | 127,760,000 |
| Navy                          | 20,453,600  |
| Other                         | 20,150,100  |
| Total                         | 148,363,700 |
| Civil services—               |             |
| Old age pensions, in class 61 | 9,220,000   |
| Other                         | 32,465,446  |
| Total                         | 41,685,446  |
| Customs and inland revenue    | 1,254,400   |
| Postoffice                    | 19,828,256  |

### REV. DR. SUTHERLAND DIES AT TORONTO

### Missionary Secretary of Methodist Church of Canada Passes Away at Age of 77

Toronto, July 2.—Rev. Dr. Alex. Sutherland, missionary secretary of the Methodist church in Canada, died Thursday afternoon, aged 77.

Rev. Dr. Sutherland was born in the township of Guelph, Sept. 13, 1833, and was educated in the public schools. He early in life became a printer. He joined the Methodist church in 1852, and became a preacher afterwards attending Victoria college, Cobourg, and was ordained to the ministry in 1859. His pastoral charges were successively, Niagara, Thorold, Drummondville, Hamilton, Yorkville, Richmond St., Toronto, and St. James, Montreal. He was twice secretary and also president of the Toronto conference, and chairman of the Montreal conference.

In 1872 Dr. Sutherland was sent with Rev. Dr. Sanderson as a delegate to the general conference of the Methodist Episcopal Church of the United States which met at Brooklyn. In 1881 he was one of the Canadian representatives at the Methodist Occasional conference in London, Eng., and was elected one of the joint secretaries of that important gathering. In 1886 he was fraternal delegate to the British Wesleyan conference in London. At the first general conference of the Methodist Church of Canada, in 1874, Dr. Sutherland was elected general secretary and clerical treasurer of the missionary society. He received the honorary degree of D. D. from Victoria University in 1879. In furtherance of his duties he travelled throughout the whole of Canada, the Bermudas and Japan superintending missionary work. In 1891 he declined the principalship of Mount Allison University, N. B. In 1897 he was selected by the Theological Faculty of Vanderbilt University, Nashville, Tenn., to deliver the next course of lectures on the "College Foundation." Through his career Dr. Sutherland was very active in Sunday school and temperance work. He was for some years president of the Ontario Temperance and Prohibition League and was afterwards president of the Prohibition Third Party in that province. In addition to his work as editor of the "Missionary Outlook" he wrote largely for the press and magazines, including "A Summer in Prairie Land." He married early in life Mary Jane, daughter of Hugh Moore, Dundas, Ont.

A great auk's egg was sold by auction in London for 30 guineas. The egg, under the impression it was only a penguin's egg, had been at one point in its history left neglected in the loft of a private chapel for more than forty years. The highest price paid for a great auk's egg so far is 315 guineas.

### SARA

From the very first Gladwin had to admit to himself that Sara was perfect of her kind. She had come to him at a time when he was sadly in need of her assistance. His own stenographer had fallen ill and had gone away to a rest cure; it was the time of the year when business was heavy and experienced help hard to find. Gladwin in despair was just steering his mind to choose between two doubtful young persons whom a popular employment agency had sent to him when Sara appeared. She had been filling a position temporarily in the absence of a regular stenographer. The regular stenographer had returned and she was, of course, out of employment. The man in whose office she had worked, having some acquaintance with Gladwin and knowing his need, had sent her to him. And Gladwin hired her at once, with a secure feeling of relief that he had not been forced from necessity to employ a makeshift.

Sara told him that her former position had been her first, but for all that she did not seem to lack experience. She was alert, obedient, dainty in all her methods. Her work was always done a minute and with exquisite precision. She did not ask questions. She always hit the mark. She was never when she aimed for it. She did not bother Gladwin about useless details. Indeed, she rarely spoke to him at all, unless she was first spoken to. Her manner was attractive. It was reserved, dignified, calm. She was never in a hurry, never anything but at ease. She came at the stroke of the hour and departed likewise. She wasted no time that was not her own.

After a time Gladwin got beyond her manner and began to notice the girl. She wore black—perfectly fitting, perfectly tailored black, not always the same in style, but always the same in throat and wrists were always snowy, she exhibited no jewellery; her hair was always perfectly smooth. She was rather a plain girl, but her plainness was of the kind that lessens with acquaintance. One had to see Sara many months before one was aware that her skin was good in spite of its pallor.

Good breeding breathed from her as constantly and unobtrusively as did the odor of her favorite perfume. She had nothing to say about herself and after six months spent in daily contact with her Gladwin knew no more about her than he had known the first morning she entered his office. Her complete unconsciousness of him in any other capacity than that of her employer pleased his curiosity. Gladwin was a good-looking, youngish man, who dressed well and had plenty of wit. The fact that he knew had always made much of him. Two or three of them he felt vaguely wanted to marry him, but neither was the kind of woman he cared to link his life with. To tell the truth, Gladwin had given so little time to the thought of women that he did not know the kind he preferred, but it came to him one day as he sat watching Sara at work that she pleased him better than any woman he had seen.

It was a light morning—one could not call it sunny, for sunshine never penetrated the windows of that particular office building, shut in as it was by larger structures—and Sara's hair showed more satiny than ever, her cheeks finer of texture, her dress more immaculate. A little sigh of sudden longing caught in Gladwin's throat and he stumbled in his dictation. That was the beginning of his falling in love with her. It was curious, too, for he had never dreamed that he would want to marry any stenographer of his employment. He had heard of such things being done and he did not approve of them. But Sara distinctly was not the ordinary type of office girl. Gladwin made up his mind that he would speak to her. But first he wanted to be sure of his ground. Besides, he wanted to make a little bigger pile before he took it upon himself to support a wife.

"Do you think," he asked her one day, "that two people can live decently in this town on fifteen hundred a year?" Sara appeared to consider a moment before she answered quietly. "I have heard that there are people who live on very much less and yet manage to be comfortable."

Gladwin said nothing more. But the next day he asked the same question of a friend who had recently become engaged.

"Fifteen hundred a year!" More laughed. "Why, man alive, that wouldn't buy provisions, to say nothing of paying for house rent and cab hire and theatre tickets and clothes." He slipped merrily over the list, at the conclusion of which Gladwin looked quite downcast. More caught him by the shoulder. "Thinking of it seriously—are you, old man?"

"No—no, no," Gladwin shook his head. "No, indeed." But he was.

It was soon after that Gladwin began to speculate in stocks. A few trifling things came his way and he thought he had found an easier road to making money than grinding out the

of the district observed that this was the only act in rehearsal. He asked for an explanation; he was informed that the rest of the play could not be rehearsed because the parts were not entirely committed to memory, the scenery was lacking, and there were other difficulties.

### IDEAL PROGRAMME OF AIRMANSHIP

Act of Flying Reached Stage When There is No Longer Public Wonder

"Airmanship has reached the stage when public wonder at the mere act of flying is dying," declared Mr. Claude Grahame-White, in an interview with London Daily Mail. "This fact I am hearing very strongly in mind in arranging the programmes of a number of demonstrations which I have now decided to give this summer, assisted by one or more airmen of repute, at suitable natural aerodromes around London."

"An ideal programme of airmanship which I am preparing will include the following special features:

- "1. A race between two specially skilled airmen trained to overcome the 'back rush' of wind from the propeller of a rival, in order to illustrate the sporting possibilities of airmanship.
- "2. Carrying a photographer as a passenger to take snapshots of buildings below, so as to show how valuable the aeroplane will become in reconnoitering work.
- "3. The aerial dive, in which an airman swoops down towards the ground from 1,000 feet with his engine stopped.
- "4. Dropping dummy bombs from an aeroplane in order to illustrate the machine's destructive possibilities.
- "5. A 'first-aid' race between airmen, in which machines are driven to a mark where the pilots pick up dummies representing wounded men and fly back to their starting point.
- "6. Demonstrate the beauty of flight by rising in spirals, wheeling and curvetting 2,000 feet high, and descending again with the engine running at a speed of 80 or 100 miles an hour in swift dips and dives."

### PERSISTENT AMERICAN WOMEN.

Only two professions, according to statistics, have so far not been invaded by the persistent American woman. There are no women sailors in the marine corps, and no female firemen for telegraph and telephone systems. The other professions and trades number women as follows:

|              |        |
|--------------|--------|
| Architects   | 1,041  |
| Clergymen    | 2,373  |

### PANGS AND TORTURES OF A WEAK STOMACH

Prompt Relief and Cure Can Be Obtained Through Dr. Williams' Pink Pills

Indigestion is a condition in which the stomach is more or less unable to digest the food. Even a slight case of indigestion means much misery, but when the trouble is at its worst, the life of the sufferer is one of constant and acute misery. Indigestion is recognized by a burning sensation in the stomach, bloating, an oppressive feeling of weight, belching wind, pains in the region of the heart, often vomiting and nausea, and a dread of food for the misery it causes. Dieting and the use of pre-digested foods may give some relief, but will never cure indigestion. The work of indigestion depends upon the blood and the nerves and the only way to cure indigestion is to so tune up the stomach that it will do the work that nature intended it should do. The very best way to cure a weak stomach is through a course of Dr. Williams' Pink Pills. These renew the blood, strengthen the nerves and thus give tone to the stomach, and enable it to do its work with ease and comfort. No one suffering from indigestion in even the slightest form should neglect the trouble for an instant; to do so means that it obtains a firmer hold, and daily the misery and suffering is increased, and the cure made more difficult. At the first approach of the trouble take Dr. Williams' Pink Pills and it will speedily disappear. These Pills will cure even the most obstinate case of indigestion, but naturally it takes longer to cure. Mr. Philip Lafleur, St. Jerome, Que., says: "After I left college, when I had studied hard for four years, I suffered so much from indigestion that I found it difficult to earn my living. I was troubled with terribly pains, a bloating feeling, and a sourness in the stomach. This led to a loss of appetite and I began to show signs of a nervous breakdown. I tried several different treatments without finding any apparent relief, and my nervous system had grown so shattered that I could not work. A priest who was interested in me advised me to try Dr. Williams' Pink Pills and I followed his advice. It was not long before they began to bring me back to health, and in the course of a couple of months my stomach was as sound as ever; my nervous system strong and vigorous, and I have since enjoyed the best of health. I owe all this to Dr. Williams' Pink Pills, for which I shall always feel grateful." Sold by all medicine dealers or by mail at 25 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## WINDSOR TABLE SALT

Windsor Table Salt is the salt for us. We pay our money for good salt—made right here in Canada—that everyone knows is absolutely pure.

We certainly won't pay fancy prices for an imported salt with a fancy name.

Windsor Salt is all salt—pure, dry, dissolves instantly, and lends a delicious flavor to every dish.

resting and important remarks on the question of Socialism, revealing to me the interest he felt, not only in the temporal condition of the working classes, but in the notions that they entertain with respect to the material changes which they regard as remedies for their difficulties. "The King's liberal notions as to religious liberty greatly impressed me. He made it plain that, if he could have his way, he would leave all men free to believe such religious creeds and observe such religious customs as they conscientiously preferred. "At some points of our conversation it seemed to me that there was a note of sadness in the King's voice as he referred to the sin and suffering to be found amongst his people. His Majesty's heart was evidently largely in sympathy with the slaves of evil and sorrow. "In the interview the King made no attempt to pose as an intellectual phil-

## Many Women who are Splendid Cooks

dread having to prepare an elaborate dinner because they are not sufficiently strong to stand over an intensely hot coal range. This is especially true in summer. Every woman takes pride in the table she sets, but often it is done at tremendous cost to her own vitality through the weakening effect of cooking on a coal range in a hot kitchen. It is no longer necessary to wear yourself out preparing a fine dinner. Even in the heat of summer you can cook a large dinner without being worn out.

## New Perfection Oil Cook-stove

Gives no outside heat, no smell, no smoke. It will cook the biggest dinner without heating the kitchen or the cook. It is immediately lighted and immediately extinguished. It can be changed from a slow to a quick fire by turning a handle. There's no drudgery connected with it, no coal to carry, no wood to chop. You don't have to wait fifteen or twenty minutes till its fire gets going. Apply a light and it's ready. By simply turning the wick up or down you get a slow or an intense heat on the bottom of the pot, pan, kettle or oven, and nowhere else. It has a Cabinet. Top with shelf for keeping plates and food hot, drop shelves for coffee, teapot or saucepan, and even a rack for towels. It saves time, worry, health and temper. It does all a woman needs and more than she expects. Made with 2, 2 and 3 burners; the 2 and 3-burner sizes can be had with or without Cabinet.

Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest agency of the  
**The Imperial Oil Company, Limited.**

# MANUAL TRAINING

Victoria Schoolboys Do Good Work

The cases are few where manual training has not proven useful to those who have taken the course. From every department of business in which the young men who attended the school are represented, come testimonies proving how useful this elementary course in wood-work has been to them.

The schools have now closed for the summer vacation and a review of the work done at the manual training centre in Victoria since the work began here, is very interesting. W. H. Binns, who is the head instructor at the Central school branch, in a talk with a Times representative, gives a general idea of what has been done since this sphere of work was added to the public schools and what is intended to be done during the coming term. This article will, undoubtedly, convince all readers that manual training is very helpful both to the young students and to those who have completed the course.

Ten years ago this important branch was introduced into the course of the boys who attend the public school after they pass into the third reader. Since that time 3,000 boys have taken this additional work, with a total attendance of 197,800. At present there are but two centres for the carrying on of this work, one being located at the Central school and the other at the North Ward school. Pupils from the South Park and Central schools attend the former and boys from Victoria West and North Ward assemble at the latter.

Assisting Mr. Binns at the Central school is L. A. Campbell, while Mr. Waddington is in charge of the one situated in the northern section. This is a fine staff of instructors. They are al-

out for the boys is as follows: Square flower stick, plant label, string winder, flat ruler, round model, second year, pen-stand, bracket, flower stand, hammer handle, simple box, circular mat, dibble, brush rack and original model; and third year, ink stand, axe handle, soap box, fish-line winder, drawing board and squares, scoop, hat-rack, bread-board, knife-box and original model. The last named model of each year has been placed in the series mainly to see what ideas the boys have. They are allowed to make any sort of a figure they like and some of these show that the boys have excellent ideas and that some day they will be filling the positions of contractors, architects and other trades and professions where such a talent is valued.

The ones who take the greatest interest in this work are the beginners. They would not miss the half-day spent a manual for the world. These boys are industrious and exert all their energies in trying to make a model as good as the one that hangs on the wall, which is the work of the instructor. There are no lax youngsters to be found in the junior classes and the teachers, although their patience is tried very hard sometimes in explaining things to the young, take every opportunity that offers itself in showing the scholars where the faults are in their models, so that they may avoid a similar occurrence next time. When a boy completes the making of a form in comparison with his drawing he carefully stores it in the locker which is provided for him, where he keeps it until the close of the term. He then

ment, the overseers of the boys expressing themselves as well pleased with the work which had been accomplished during the past term. It is the intention of Mr. Binns to make this an annual affair. Before now exhibitions have been given in connection with the fall fair, but the success of the recent affair, which was the first to be held at that branch, has created in the teacher a new idea which will consist of the following out of the plan which has just been commenced.

Owing to the popularity of the manual training work amongst the scholars in this city, and also owing to the fact that the number of boys attending the schools is rapidly increasing, the school board has under consideration a plan for the extension of this work, and has ordered a new equipment which will be installed in another centre to be opened after the holidays. The board has also under contemplation the installing of a metal work plant at the High school, as there is no manual training in connection with that institution. The adding of this section of work to the student's course at the Victoria college would prove very popular amongst the boys, as they have all taken the manual training and are anxious to continue work in a similar line. Greater strength and attention is required to work in metal than in wood and therefore the students at the High school would be better adapted for the proposed course than those in the Junior schools. Those who enter this class to make the series of models will be taught the art of chipping, filing, turning and soldering metals of all kinds. Another important step which the

BOYS AT WORK AT CENTRAL SCHOOL MANUAL TRAINING CENTRE

EXHIBIT OF ARTICLES MADE BY THE BOYS, WHICH CANNOT BE EQUALLED FOR FINISH.

ways ready to assist any child that may be a little backward. The one ambition of all the teachers is to keep their classes together in the work. Perhaps a bright youth might be in a class and force his way ahead but the majority of the boys are all kept working on the same model at the same time.

Although a great deal of the time allotted to each class is taken up in the making of models, still the instructors reserve a certain portion of the session to teaching the boys the names of the tools and the proper way to use them, and also teach them how to tell the different kinds of wood by the grain and markings, and also by the leaves. The former method has been added to the course so that when the boys apply for a piece of wood, out of which to make a model, they will know how to plane it without spoiling the section of wood by going against the grain. The latter will prove beneficial to the boys when they are out in the country. By the leaves they will immediately be able to tell the name of a tree, and if they happen to be looking for a particular tree form which to secure a small limb to make a whistle they could, therefore, save the tooter completed before a companion, who would not have taken the course, would find the desired tree.

A set course has been laid out and every boy must complete one model before going on to the next. This course consists of first year models, which are made of one piece of wood; second year, composed of two pieces; and third year, the models of which are made from two or more sections of wood. In the first year the work laid

collects all his models and takes them home to show his parents. A special box is made in which these articles are put and they are only exhibited when some visitor makes a call. Some boys use some of the fruits of their labor about the house, such as the soap-box, simple box, etc., which come in very handy.

It is an inspiring sight to visit one of these centres when there is a class at work. A person at once feels that it was a wise step which was taken by the school board when this useful subject was added to the course of the boys, who are pupils at the various public schools in this city, and that the time there is well spent. Each student has a bench, which is equipped with a set of tools.

The skill of the boy is not only tested in connection with woodcraft but is also tried in the architectural line. Before he can commence on the construction of a model he must at first make a drawing-board, T-square, set-squares and a model-drawing which he must copy. The instructor marks the drawings with either of the letters A, B and C, and if a boy is not successful in having one of these placed on his drawing he will have to duplicate the performance, but it is seldom that any scholar has to repeat the job, as he is anxious to commence work on his model.

The instructors at the Central school gave an "at home" on Thursday evening, June 23rd, when the parents were allowed to inspect the quarters. The best models had been selected and were arranged in such a manner that they showed off to good effect and brought forth a great deal of favorable com-

school board is about to take in the extension of the wood-work in the elementary schools by the adding of wood-turning lathes. When boys finish the regular three years' course they will then be placed on this line of work. At present about fifty pupils complete this set course every year, and then there is practically nothing for them to do further. They are allowed to make anything they desire, but the young ones would sooner have a series to follow instead of bothering their heads to try and figure out some shape that would be feasible to make. To these boys the lathes would lend valuable aid and at the same time would occupy their minds during the time they are at manual. The students would be given a model which they would have to draw and then make it in proportion. A chair would make a good example for illustrating this new proposition, which is engaging considerable time and thought of the trustees. Those who finish the three years' course will secure the desired pieces of wood and turn them into the required shapes. After doing this they would be compelled to put the chair together. This would be a good addition to the present method pursued, which is by no means inadequate.

As each pupil completes the three-year course he is presented with a certificate, which is signed by the head instructor at the school where he attended, and by the city superintendent. These are very tasty in design, having gold seals on them, and in the homes of boys who have been successful in obtaining them can be seen hanging on the wall of the drawing-room or half in a neat frame which sometimes

CLARKSON & CROSS, F.C.A.

The departure that is being made in offering securities of this character to the public has been decided on because it is believed to be in the interest of the public as well as to the advantage of the business of the new company to secure as wide a distribution as possible for the preferred stock.

The \$1,500,000 of the above preferred stock is now offered for sale at par, carrying with it a bonus of common stock equal to 20 per cent. of the preferred stock.

Of this \$1,500,000 subscriptions have already been received for \$1,000,000 and accepted, leaving for public subscription the sum of \$500,000.

The preferred stock is preferred both as to dividends and as to assets. Payments may be made as follows:

PLAN "A"  
10 per cent. on application, and  
90 per cent. on allotment

OR

PLAN "B" in instalments as follows:  
10 per cent. on application  
15 per cent. on allotment  
35 per cent. on 15th July, 1910,  
40 per cent. on 15th August, 1910,  
100 per cent.

When payments are made in instalments, according to Plan "B," interest at the rate of 7 per cent. per annum from date of allotment will be charged. The preferred stock carries dividends at 7 per cent. from June 15th, 1910.

The right is reserved to allot only such subscriptions and for such amounts as may be approved, and to close the subscription books without notice.

Where no allotment is made the deposit will be returned in full, and where the number of shares allotted is less than the number applied for, the balance of the deposit will be applied toward the remaining payments.

Applications will be made to have both the preferred and common stock of the company listed on the Toronto Stock Exchange.

### ASSETS AND EARNING POWER.

The Company will own the undertaking as a going concern of the W. A. Murray Co., Limited, and John Kay Co., Limited.

Messrs. Clarkson and Cross and Mr. James P. Langley, accountants, in their certificate of earnings report as follows:

"We have examined the books and accounts of the W. A. Murray Co., Limited, and of the John Kay Co., Limited, for the three years ending 31st January, 1910. Eliminating interest, making a reasonable deduction for depreciation of buildings, store fixtures and furnishings, and allowing the sum of \$25,000 each year for directors' fees and salaries of executive officers, we find the combined net profits for the three years to have been \$589,375.65."

These earnings are at the rate of \$196,458.55 per annum, an amount equal to over 13 per cent. on the preferred stock of the new company, which would leave, after the payment of the dividend on the preferred, earnings equal to over 6 per cent. on the common stock. Considering that in this period occurred the panic year of 1907-8, and consequent curtailment of business, and taking into account the economy to be effected under this consolidation and the impetus that will be given to the business of the new company by reason of the additional cash working capital now being provided, it is confidently expected that the future earnings will be very much in excess of the foregoing figures:

### The Combined Profit and Loss Statement of the Auditors for the Three Years Ending January 31st, 1910, is as Follows:

|  | 1907-08      | 1908-09      | 1909-10      |
|--|--------------|--------------|--------------|
| Gross Profit .....   | \$528,398 44 | \$482,068 40 | \$522,575 07 |
| Cash Discounts .....   | 28,967 16    | 25,596 96    | 28,362 37    |
| General charges, including allowance for bad debts, executive salaries, and directors' fees, depreciation on fixtures and building ..... | \$555,965 60 | \$507,665 36 | \$550,937 44 |
| Net profits .....  | \$347,902 94 | \$329,542 77 | \$347,746 04 |
|  | 208,061 66   | 178,122 59   | 202,191 40   |
|  | \$555,965 60 | \$507,665 36 | \$550,937 44 |

Average net profits per annum \$196,458.55, or over 13 per cent. on the preferred stock of the new company.

The businesses are taken over as of the 31st January, 1910, with accrued profits from that date.

### GENERAL INFORMATION

The companies taken over are two of the oldest and most important mercantile businesses in Canada.

The men who for a great many years past have helped to make the businesses pre-eminently successful will, in addition to being largely financially interested in the company, be actively identified with its management and direction.

The large amount of new working capital which will be placed in the treasury of the company will permit of important extensions and improvements, and will enable the company to keep pace with the tremendous development that is taking place, not only in the City of Toronto, but throughout Canada.

The prominent part these two businesses have played in helping to make Toronto the important retail centre that it is may be gathered from the fact that the John B. Kay Company dates back to 1843, while the W. A. Murray Company started business on its present site as early as 1853.

The John Kay Company, Limited, has long had the reputation of being by far the largest and most successful house-furnishing business of its kind in the country. With the rapid increase in wealth, not only in the principal towns and cities, but throughout the rural districts of Canada, the market for the various lines either manufactured or sold by it is certain to increase very much more rapidly during the next five or ten years than it has in any like period in the past. The position of the new company will be made stronger by the fact that Mr. John B. Kay, who had retired from participation in the Kay business a few years ago, will in addition to filling the position of Vice-President of the new company, be actively identified with its management.

The W. A. Murray Company, Limited, started business in a very small way in a store that occupied a very limited portion of the present site, and has gradually expanded till it stands to-day one of the largest high-class dry goods businesses in Canada. The company has always made a particular feature of endeavoring to provide for its patrons the best, and on this account has always made a specialty of carrying the highest grades of merchandise. In every city it is a recognized fact that this class of business is the most profitable that can be done.

The businesses of the two companies, though different in character, will mutually assist each other in attracting new business, and will result in the creation of the largest high-class house in Canada. To preserve and ensure continuity of good management it is to be noted that the Board of Directors includes Mr. Parkyn Murray, the President of the W. A. Murray Company, Limited; Major J. A. Murray, Vice-President W. A. Murray Co., Limited; Mr. John Drynan, of the W. A. Murray Company, Limited; Mr. John B. Kay, formerly head of the Kay Company; Mr. W. T. Bradshaw, President John Kay Company, Limited; and Mr. D. K. Ridout, Vice-President John Kay Company, Limited.

CONTRACTS—Pursuant to the provisions of Section 43 of Companies Act, Chapter 73, Revised Statutes of Canada, 1906, the following contract is noted, namely, an agreement between the Murray-Kay Limited and C. A. Barnard, dated 15th June, 1910.

Prospectuses and forms of application may be obtained from Dymont, Cassels and Co., and from members of the Toronto Stock Exchange.

Applications may be made on the form accompanying the prospectus and forwarded, with the installment due on application, to the head office or any branch of

Bank of Toronto, Home Bank of Canada, Canadian Debentures Corporation, Limited, Toronto, Toronto General Trust Corporation, and to

## Dymont, Cassels & Company

Members Toronto Stock Exchange, Toronto

is the work of the possessor of the sheet of paper contained in it. In a few years the men who are called carpenters now will have to take a back seat or else back up, as they will not be able to stay in the competition with the young men who have graduated from the School of Woodwork. At the exhibit of models the other night it was common to hear the remark that the work done by the juniors was superior to that which agorns many of the men in this city made by professional carpenters. Many little odd jobs that mother wants to be executed are carried out by her sons, without

a cost of sixty cents an hour. There are many men claiming to be carpenters and joiners, who can handle a saw and hammer but when it comes to putting on the minute finishing touches they are left in the lurch. It is the boys who are now being taught the beginnings of the trade that will be called upon to take the place of jammer and saw men in future. Then a person will be able to get their work done in a right and artistic way. At many of the factories, shops and other places of business the apprentices who attended the manual training school gather together at noon-hours

and recall the days when they were among those on the register, days which were not without their trying times. Perhaps a boy would put some shavings in the glue pot or a piece of rubber on the stove. The instructor would then line the pupils up against the wall and keep them there until the culprit owned up. If he was not man enough to confess then the whole class would have to suffer by missing the greater part of the session. Several of those who were successful in securing certificates narrate stories in proof of the usefulness of the training.

## Teacher Wanted

Applications are invited by the School Board of Victoria, B. C., for the position of teacher of the Commercial Course in the High School, initial salary \$100 per month.

Applications received up to the 26th July.

ISABELLE MOORE,  
Secretary of Victoria School Board.

for its use has become a matter of urgency.

It will be recalled that when in January, 1909, the project of such an institute first took form it was stated that an ample supply of radium had been secured for its use. It now appears that a firm who had contracted to supply the precious material had been unable to obtain anything like the quantity required, 5 1-2 grammes. Indeed, it is estimated that at the present time there are less than 1,000 milligrammes in the Old Country, and a portion of it is on loan from the Austrian government, and is due for return in September, whereas the institute is expected to be ready in October.

A well-known medical man described the position as somewhat peculiar "I know," he said, "that efforts were made to obtain some of the radium in Paris, but the price asked was too high. Besides, the radium used in the Paris institute is obtained from Portugal; and I believe the mine has been provisionally acquired by an English company. Whether the mine will come up to their expectations in the matter of yield it is difficult to say. Personally, I should like to see the supply secured for the Radium Institute here, as the work done in Paris is simply marvellous, and when the British medical profession generally have an opportunity of studying its working and watching its effects I believe they will be quite enthusiastic."

The price of radium has now reached something like \$2,000,000 an ounce. A remarkable safe has been made by Messrs. Chubb and Sons for the British Radium Corporation. It has been specially constructed from the design of the technical advisers to the corporation for the storage and protection of radium, and though only about three feet in height, it weighs a ton and a half. Great ingenuity has been exercised in order to make it as far as possible proof against the skill of the most expert burglars and against all risks of loss by emanations. Practically the only metal which will withstand the great penetrating power of radium emanations is lead, but as this is not burglar-proof, the only solution of the problem was to construct a safe with an interior of lead and an exterior of steel. The interior shell is, therefore, of three-inch lead, and the outer casing of a similar thickness of steel.

Another difficulty was the fitting of the door to prevent the escape of any ray of light. This was secured by constructing a circular lathe-turned door, which has a "dead" fit, and a specially ingenious contrivance for immediately remedying any wear and tear caused by opening and shutting. Two valves have been fixed into the door, through which tubes of mercury will be passed for the collection and storage of the emanations.

If the wicks of candles are salted before lighting, there will be no sputtering or dripping. Take fine table salt between the fingers and rub well into the wick. You will be surprised at the clear light, and there will be no grease to wipe up.

Switzerland's greatest industry, the manufacturing of watches, brings her over five millions a year.

**MANUAL TRAINING**

(Continued from page 13.)

given them at the public schools has been.

Three brothers who showed great ability while taking the course have the following to say: "Early in the spring our father decided to build an addition to the house. He had received figures for the erecting of it and had almost let the contract when we stepped in and asked him to let us try and build it. He purchased the lumber and we commenced work. While we did not make such fast progress as the carpenters would have, we nevertheless finished the job and it's there to stay. If we had not had the opportunity of going through this course our dad would have had to draw on his bank account."

A young man who a short time ago became a benedict, has already found out how serviceable the three years' training has been to him. He is able to make shelves, four bins, drawers, and other articles which are handy to have around the house. "If it was not for that course," he said, "I should have a carpenter's bill to pay every month the same as I had with the grocer."

A doctor in this city not long ago advertised for a boy. Among those that applied for the position was a youth who had just finished his term at the training school. In answering one of the questions put to him by the doctor the applicant explained that he was one of the boys that had secured diplomas from the Central branch. The physician pointed out to him that this was one of the best courses a boy could take when at school if he desired to be a doctor, as it creates a delicate sense of touch which is one of the most valued gifts that a surgeon can possess.

If any of the High school students are approached on this subject they will inform one that from this primary employment they have learned to be accurate. In any of the classes at the college the boys are found at the top in drawing examinations every time. Their success is due principally to the education they received in this line at the handworking school. The boy students do their work according to the specifications, while the girls wander away from them.

In the electrical business youths who have had a training in this line are preferred. The bosses do not have to stop and show the boys how to use a saw, bore a hole or tell him the best place to put wires, and many times the boy is able to help the overseer out by his ideas.

**APIOL & STEEL For Ladies PILLS**

Are the acknowledged leading remedy for all Female complaints. Recommended by the Medical Faculty. The genuine bear the signature of Wm. Maynard (registered without which none are genuine). No lady should be without them. Sold by all Chemists & Stores.

large spoonfuls of sugar; a pint of stewed and sifted tart apple sauce, then beat with an eggbeater until it will stand up. Make a steamed custard and put in a deep dish and pour the apple over it.

## The Evening Chit-Chat

BY RUTH CAMERON

Do you allow for the possibility of mistakes or misunderstanding on your part when your friends hurt your feelings in any way? It seems to me one should. I am speaking of this just now because the season of weddings and class days has just passed with its host of opportunities for hurt feelings.

### ICED TEA—HOW TO MAKE IT.

The "Salada" Tea Co. give the following recipe for making "Iced" Tea: "Use about one-quarter more of the dry leaf than you would when making tea to be served hot. Pour on boiling water and allow tea to steep five to eight minutes (all the good can be extracted in that time). Pour off the tea into another vessel and allow it to cool gradually.

### USEFUL HINTS

Cabbage or cauliflower baked with cheese makes a good dish. Boil the vegetables in the usual manner until tender. Make a white sauce in the proportion of a tablespoonful of flour and two spoonfuls of butter to a cupful of milk. Fill a baking dish half full of the cabbage or cauliflower and over this pour some of the sauce, and then lay a layer of grated American cheese; then the rest of the vegetable sauce, and, lastly, another layer of cheese. Stand the dish in a pan of hot water in a hot oven and bake until well browned.

# July Sale

OF

# SILKS

Commenced To-day at 8 a. m.

In every ad. that we put before you we emphasize the fact that Our Prices are Positively the Lowest. Every Lady and Miss who has visited us has found this statement to be true. Now, Madam, that we have decided to put on a July Sale, we most certainly are going to hold our reputation as "The House of Lowest Prices."

Here are a few prices for Saturday shoppers:

**Pongee Silk**

Then have your FURNITURE properly packed and shipped at a moderate charge by  
Ring Up Telephone No. 216. **STILES & SHARP** PACKERS AND REMOVERS. On call at 88 FORT STREET.

**Sunshine burns less than expected**

**Two Tons in the bin and the winter over**

OWNERS of Sunshine furnaces often make this mistake for the first winter. They order the same winter's coal supply as when using their old furnaces. When spring arrives they have about two tons in their bins. Of course, they are delighted. Wouldn't you like to own a furnace that burns less than expected?

Go to our agent in your locality and let him explain why the Sunshine furnace is such a "Famous" fuel-economist.

Let him tell you why the Nickel steel dome and radiator is a better conductor of heat than plain steel—why the straight semi-steel fire-pot radiates more heat than the common slanting gray iron fire-pot.

Let him show you how the four triangular grate bars release ashes without wasting fuel—how the automatic gas damper makes the Sunshine burn valuable gas fumes that escape up the chimney of ordinary furnaces.

Let him install a Sunshine furnace with a guarantee to heat your house to your entire satisfaction.

**McClary's Sunshine Furnace**  
London, Toronto, Montreal, Winnipeg, Vancouver, St. John, N.B., Hamilton, Calgary.

## Among City Churches

### REFORMED EPISCOPAL

#### Church of Our Lord

Sunday Services.—The pastor, Rev. T. W. Gladstone will conduct both services to-morrow. Morning subject, "Christ and the Old Testament"; evening subject, "Truth and Love."  
Sunday School Excursion.—It has been decided to hold the annual Sunday school excursion on Saturday, July 9th, to Sidney, and every effort will be made to make this event as successful as those of former years. A low rate has been fixed for the adult tickets and it is expected a large number will avail themselves of the opportunity to enjoy the day's outing.

### PRESBYTERIAN

#### First Church

Patriotic Service.—To-morrow morning, in connection with the regular service, a patriotic service to commemorate the first Sabbath of the Dominion year will be held. The service has been suggested by the general assembly for all churches and suitable selections will be sung by the congregation and an appropriate sermon preached by the Rev. Dr. Campbell, pastor.

#### Ladies Meeting

The Ladies Aid Society and Woman's Missionary Society will hold their regular monthly meeting on Wednesday afternoon next.

#### St. Andrew's

Patriotic Service.—There was a large congregation last Sunday morning for the Dominion Day services and much interest was taken in the event. A choir of young people led the singing of familiar and patriotic hymns and an appropriate address was delivered by the Rev. W. Leslie Clay, pastor.

#### Men's Bible Class

The members of the Men's Bible class are reminded that they are expected to meet on Tuesday evening next at 7:15 o'clock, for business, and also for photographic purposes.

#### St. Paul's

Sunday Services.—There were very interesting services last Sunday both morning and evening, when the birthday of the Dominion of Canada was remembered by appropriate music and addresses. The pastor, Rev. D. MacRae, preached the sermon and the service suggested by the general assembly of the Presbyterian church was adopted.

#### Sunday School Picnic

The annual picnic was held yesterday at Oak Bay. A very large number of adults went with the happy crowd of children and the day passed very pleasantly.

### CONGREGATIONAL

#### First Church

Young People's Society.—The gathering of last Monday evening under the auspices of the Young People's Society was a most successful and pleasant one. Instead of meeting as usual in the school room of the church, the young people and their friends met on the beach off Dallas road, and an impromptu programme was rendered in the open air, after which the party gathered round the camp fire and sang many familiar songs and appropriate hymns. There was a large attendance and the evening was enjoyed by all.

#### Epworth League

The social gathering at the Gorge last Monday evening in connection with the Metropolitan Epworth League was a most enjoyable affair and attracted a large number. On Monday evening next the Rev. Dr. Spence of the Local Option League of British Columbia, will deliver an address on the temperance situation in B. C. The meeting promises to be of especial interest.

#### W. M. S.

There was a splendid attendance at the meeting of the Metropolitan Auxiliary of the Woman's Missionary Society last Monday afternoon at the residence of Mrs. Teague. Deaconess Weiborn of San Francisco, was present and gave a short address. Mrs. Brace read extracts from a letter received from Mrs. Taylor, wife of Rev. R. E. S. Taylor of West China, and Mrs. Nicholas spoke of the work among the Indians of B. C.

#### Interesting Presentation

On Tuesday afternoon last many of the young ladies of the church gathered at the home of Miss Bell, Edmonton street, in honor of Miss Gertrude Hawley, who is removing to Vancouver. A pleasant time was spent in social intercourse and Miss Hawley was presented with a handsomely bound Bible as a token of esteem.

#### James Bay

The members of the Epworth League thoroughly enjoyed their outing at Fowl Bay last Monday evening. There was a good attendance and the evening was a most pleasant one. The same evening Mrs. (Rev.) Miller entertained her Sunday school class at the same place.

#### Class Social

On Wednesday afternoon last Miss Ruth Miller entertained her class of girls at Fowl Bay picnic grounds. The presence of Miss Bland, the former teacher, added much interest to the enjoyable affair.

### DELEGATES TO BIG CONFERENCE

#### REPRESENTATIVES OF CANADIAN METHODISM

List of Those Elected to General Conference at the Various Conference Meetings

### BAPTIST

#### Emmanuel

Sunday Services.—The pastor, Rev. William Stevenson, will preach to-morrow in the morning on "The Crown of our Messiah," and in the evening on "The Worth of Praise in Worship." In the evening there will be a special song service by an augmented choir and the soloists will be Mrs. J. Longfield and Miss Mabel Parritt.

#### Convention Meetings

The B. C. Baptist convention will be held next week in Vancouver, commencing on Thursday, July 7th, and extending to Monday, July 11th. The Baptist pulpits of Victoria will be supplied on Sunday, 10th inst., by pastors visiting the convention. Among these with whom fixtures have already been made are the Rev. C. W. King of Cranbrook, and Rev. W. P. Freeman of Revelstoke. The meetings this year are being looked forward to with special interest.

#### Rev. William Stevenson of Emmanuel

is expected to preach the convention sermon on Thursday evening, and the Rev. J. B. Warricker will address the closing meeting on Monday, 11th, whilst the Rev. F. T. Tapscott has charge of the committee on "The State of Religion," and will give the report. Mrs. Spofford is to speak on "The Citizenship of Women," and H. C. Brewster, M.P., on "The Christian Reformer in the Legislature."

#### First Church

Anniversary Services.—Last Sunday the members of Victoria West mission held special services on the occasion of the nineteenth anniversary of the opening of the school. There was a good attendance. Ralph Bagshaw, as superintendent, presided and addresses were given by former workers in the school and Pastor Warricker of First church. Annual Meeting.—On Tuesday evening the annual meeting of the church will be held and it is hoped that every member who can will attend. Reports from the officers and all departments will be submitted and officers for the ensuing year will be elected.

#### Women's Mission Circle

There will be no meetings of the circle during the months of July and August, as many of the members will be absent from the city during the summer holidays.

#### Communion service

The communion service to-morrow morning the members of the church will observe the ordinance of the Lord's Supper. Delegate to Convention.—On Tuesday evening the following delegates were appointed to represent the church at the forthcoming Baptist convention to be held in Mt. Pleasant church, Vancouver: Miss B. Walker, Mrs. E. W. Andrews, R. W. Coleman, J. L. Bekkwith and G. Stevens. Miss M. Faw, J. W. H. King, B.A., and Dr. W. Russell will represent the Sunday schools, and Mrs. M. B. Walker the Women's Mission Circle. Mrs. J. L. McNaughton, Mrs. W. H. Spofford, Mrs. Helen Grant and A. B. McNeill will attend as ex-officio as members of the convention board.

#### Society of Friends

To-morrow's Services.—At the meeting for worship to-morrow morning at 11 o'clock in the Broad street hall, two ministers of the society, Harry Parry of Vancouver, and Herbert Dann of Cobble Hill, are expected to be present. The meetings are open and entirely free and a cordial invitation is extended to all those who are interested. In front of Reform.—The Society of Friends was foremost in the abolition of slavery, and some of its strong features to-day are the suppression of the opium traffic, the reform of license laws, the question of peace and war. The meetings are open to any who feel they have a message. At the present time, when there is so much unrest in the religious world, there is a greater opening than ever for the message that Quakerism has to give to the world in general.

### BRIGHT LITTLE ONES

#### MAKE HOME BRIGHT

Babies that are well, sleep well, eat well and play well. They sleep naturally and wake up good natured. The child that is not rosy-cheeked and playful needs prompt attention for it is not well. A sickly child can be restored to health with a few doses of Baby's Own Tablets, which cure colic, indigestion, constipation, teething troubles and the other disorders from which young children suffer. Mrs. Tjos, Whiting, Waterford, Ont., says: "I have used Baby's Own Tablets in my home for some years and would not be without them. I find them just the right medicine for little ones." Sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

#### You can deposit your money at

per cent interest with The B. C. Permanent Loan Company and be able to withdraw the total amount or any portion thereof without notice. Cheques are supplied to each depositor. Paid up capital over \$1,000,000, assets over \$2,500,000; Branch office, 1210 Government street, Victoria, B. C.

#### —Going on a picnic?

Wooden picnic plates, 10c dozen; baskets, 25c to 40c; canopeners, 10c; cork screws, 25c; at R. A. Brown & Co.'s, 1302 Douglas Street.

### REPRESENTATIVES OF CANADIAN METHODISM

The following delegates have been elected by their various Conferences as members of the General Conference of the Methodist church which will convene in the Metropolitan Methodist church on August 14th next. The billing committee are making arrangements for the entertainment of these delegates and there may be some who have friends in the city who would be glad to either entertain them at their homes or arrange for their entertainment at a hotel or boarding house. The secretary of the committee, Rev. A. E. Roberts, 1270 Fisgard street, will be very glad to hear of such cases so that the best arrangements both for the hosts and the guests will be made.

### Bay of Quinte Conference

Ministers: W. H. Emsley, Napanee; S. J. Shorey, D.D., Cobourg; Geo. W. Henderson, Peterboro; B. Greatrix, Belleville; N. Burwash, L.L.D., Toronto; J. P. Wilson, B.A., Lindsay; D. S. Reserves: J. F. Middlemiss, Wolsley; E. Connor, Fleming; R. P. Shanks, Wheatlands.

### Alberta Conference

Ministers: A. R. Aldridge, B.A., Wetaskiwin; J. H. Riddell, D.D., principal Alberta college, Edmonton; C. H. Huestis, M.A., Red Deer; G. W. Kerby, B.A., Calgary; T. C. Buchanan, Calgary; J. M. Harrison, MacLeod; Arthur Barner, Red Deer; T. P. Perry, Lethbridge; A. C. Farrell, B.A., Medicine Hat.  
Reserves: T. Powell, LaCombe; W. A. Lewis, Edmonton; T. J. Johnston, Oids.  
Laymen: W. G. Hunt, Calgary; Dr. A. M. Scott, Calgary; E. Michener, M.P., Red Deer; Hon. W. H. Cushing, Calgary; Jas. Speakman, Penhold; Dr. Galbraith, Lethbridge; J. F. Fowler, Wetaskiwin; P. E. Butchart, Edmonton; W. W. Chown, Edmonton.  
Reserves: G. W. Smith, Red Deer; A. T. Cushing, Edmonton; F. G. Marwood, Calgary.  
British Columbia Conference.  
Ministers: W. J. Sippell, D.D., principal Columbian college, New Westminster; H. N. Power, Vancouver; A. E. Roberts, Victoria; J. H. White, D.D., New Westminster; A. M. Sanford, B.A., B.D., Vancouver; S. S. Osterhaut, Vancouver; John Johnson, B.A., Vernon; R. Milliken, B.D., Vancouver.  
Reserves: S. J. Thompson, Nanaimo; Jas. Calvert, Grand Forks; J. F. Betts, Vancouver.  
Laymen: Geo. Bell, Enderby; D. S. Curtis, New Westminster; J. F. Rice, Kamloops; R. W. Harris, Vancouver; A. Lee, Victoria; G. R. Gordon, Vancouver; J. Patrick, Nelson; E. W. Keenleyside, Vancouver.  
Reserves: W. N. Mitchell, Victoria; E. W. Leeson, Vancouver; H. H. Stevens, Vancouver.  
The Revs. O. L. Kilborn, M.D., Geo. E. Hartwell and Jas. Endicott will officially represent the West China mission at the Conference, and Rev. and Mrs. Mortimore, Rev. and Mrs. C. J. L. Bates and Rev. and Mrs. J. H. Howe, missionaries en route to their fields of labor, will also be in attendance upon the sessions of Conference. The local committee are sparing no pains to royally entertain their guests and there has been a good response to their appeal for friends in this city to be responsible for the entertainment of the delegates. Many are taking them in their homes, others are paying for them at hotels, and the committee would be glad to hear of any who have friends among the number appointed so that the billing may be properly arranged.  
The list of delegates from Newfoundland has not been sent in yet, and will be published as soon as possible.

### Christian Endeavor

#### MEETS IN VICTORIA

Provincial Convention in St. Andrew's Church From Aug. 10 to 14

The annual convention of the Provincial Christian Endeavor Union will be held in St. Andrew's Presbyterian church in this city, August 10th to 14th. The executive committee are making plans for one of the most noteworthy gatherings ever held under the auspices of the union. Already they have arranged with the famous Baptist preacher, Rev. W. B. Hinson, of the White Temple, Portland; Rev. E. A. King of North Yakima, a former general secretary of the C. E. of Ohio; and Rev. L. L. West of Everett, Wash., to be present and deliver addresses. They are in communication with, and hope to have favorable replies from Rev. T. Albert Moore, D.D., general secretary of the Lord's Day Alliance; Rev. S. T. Bartlett, M.A., B.D., general secretary of the Epworth League and Sunday school department of the Methodist church; Rev. W. F. Wilson, D.D., who was one of the leading speakers at the Seattle convention of 1907; and last but not least, the Rev. C. W. Gordon, D.D., of Winnipeg, more familiarly known as Ralph Connor. Of the more local men, arrangements have been made with Rev. Dr. McKay and Rev. Dr. Pidgeon of Westminster Hall, Vancouver; Rev. S. J. Thompson of Nanaimo; Rev. J. B. Warricker, M.A., of the First Baptist church, this city; J. D. McPhail of Vancouver, and C. C. Michener of Victoria, both earnest laymen intensely interested in young people's work.  
It was hoped until very recently that Dr. Macdonald, editor of the Toronto Globe, would also have been one of the speakers at the convention, but he has had to refuse the request of the local committee, owing to the illness of one of his leading assistants in the Globe office.

### University School

An Edison Phonograph will surprise you

The first time you hear it you will be surprised at its goodness. Everybody is—particularly the first time you hear the Edison Phonograph play an Amberol Record. People who have heard Phonographs talked about, or who have heard them at a distance on the street, or who have heard some other make of sound-reproducing machine, do not realize the remarkable goodness of the Edison Phonograph.

This is partly due to the wonderful sapphire point which does not scratch or make any sound, and partly due to the wonderful Amberol Records which are so smooth and clear that they can reproduce the finest violin melody with all its natural sweetness.

This is the same instrument which plays and sings those musical comedy songs which everybody whistles. The Edison Phonograph does everything and does it well. Is there any reason why you should not have one?

Edison Phonographs - \$16.50 to \$100 Edison Amberol Records (play twice as long) 15c Edison Standard Records - 10c Edison Grand Opera Records - 8c and 12c  
There are Edison dealers everywhere. Go to the nearest and hear the Edison Phonograph play both Edison Standard and Amberol Records. Get complete catalogues from your dealer or from us.

## Arrow Brand Gilsonite Composition

is for Concrete and Brick Walls, Iron and Wooden Structures of all kinds. For Ships' Hulls and Decks, for all kinds of Roofs, for Tin or Iron Buildings and Bridges. It is especially adapted for insulating purposes. It will stand a high degree of heat, and will not carbonize. It is proof against Acids, Alkalies, Fumes and Gases, and is particularly adapted for use on gas, oil and cyanide tanks, pipes, boilers, smelters, etc. Ask for color card.

**PETER McQUADE & SON**  
 SHIPCHANDLERS. Sole Agents.

Henry W. Savage, who is among the leading producing managers of the U.S., has adopted the "open door" policy so far as the producer goes, and has just issued the following formal announcement to the press:  
 Henry W. Savage yesterday entered into contracts with the National Theatre Owners' Association and with Messrs. Klaw & Erlanger, which provide that for a term of years Mr. Savage's productions shall appear in the theatres owned or controlled by them. Mr. Savage's numerous productions will thus be offered in every city and town of theatrical importance throughout the United States, playing the Klaw & Erlanger houses wherever they exist, and those of the Independent forces in the smaller cities and towns.  
 As in previous seasons, Mr. Savage's productions will also play, by this arrangement with the Klaw & Erlanger, the houses owned or controlled or represented by that firm in all the larger cities.  
 By this arrangement the differences between the Syndicate and the Independent forces are abrogated in so far as concerns the Savage productions, and those living on no important portion of the theatrical map will be compelled to miss the attractions of this producer.  
 Subsequently Mr. Savage gave out this signed interview:  
 "As a manager who has never had any interest in any syndicate holdings or profits, but has confined himself exclusively to producing, I have exercised the privilege of offering my goods in the places that seem suited to my interests and those of the public at large. Therefore, while I still propose to play my attractions in Messrs. Klaw & Erlanger's theatres wherever they exist, I also propose to take advantage of the opportunity to reach the smaller centres, and thus to come in touch with the widest possible public. Perhaps, in this connection, it is apropos to say that I have frequently found this public in the smaller cities quite as appreciative, both intellectually and financially, as that in what are presumed to be more favored communities."  
 In another column we reproduce an amusing bit of doggerel which was the outcome of the breaking away of John Cort from the Syndicate and the formation of the National Theatre Owners' Association. Of the persons mentioned, "John" is, of course, Mr. Cort; "Aby" is Abraham Lincoln Erlanger; "Lee" is Lee Shubert, one of the leaders of the independents; "Henry B." is Henry B. Harris, one of the allies of Erlanger & Klaw.

Margaret Illington is returning to the stage, under the management of her husband, Edward J. Bowes. Her first appearance in her new play will be in Tacoma on August 22nd, and later she will appear here. She will play eastward, reaching her home town, Bloomington, Ill., on Christmas Day, and ending the season in New York.

On Tuesday night of last week at the Lyric theatre in New York, De Wolf Hopper ended the "honorable" and lengthy career of the most famous recitation of the last fifteen years. As far as Mr. Hopper himself is concerned, "Casey as the Bat" is no more. Nevertheless will be heard from the Hopper lips the awful story of that ball game in Mudville. The obsequies were fittingly observed. It was baseball night at the Lyric theatre, and all of the players of the Giants and the Cubs, together with their wives and sweethearts, occupied the boxes at the theatre. The party, numbering nearly one hundred, was there on invitation from Mr. Hopper, who never misses a ball game, and regards Christie Mathewson and Mordca Brown as the two greatest men on earth.

Empress Stock Company. The management have shown much enterprise in closing an engagement by which the favorite stock company of Vancouver will begin a two week's engagement at the Victoria theatre on Monday. Walter Sanford, the proprietor of this company, had many offers made him to send the company to Seattle and Portland during the six weeks season of opera to be given in Vancouver at the Empress theatre, but decided to send this well known company to this city. So many of our residents have seen the magnificent productions and performances of this organization while on trips to Vancouver, that its fame is almost as great here as in Vancouver. Walter Sanford is the manager of the Empress theatre, Vancouver, and for two consecutive years he has maintained his dramatic stock company up to the highest standard, causing it to be looked upon as the leading stock company of the Pacific coast.  
 Four plays will be presented here during the two weeks, selected from

above theatre on Monday and Tuesday of the coming week is "The Great Northwest," which is the work of the Selig company. The opening pictures depict a little settlement composed mostly of hunters and trappers on Hudson's Bay. The long winter months are at hand and the big hunt is all planned. The Factor's daughter Julie is the idol and spoiled girl of the trappers. She, perhaps, is more favorably impressed with Pierre, a young man of the settlement, and after much pleading on his part, accepts his hand and promises to become his wife. The next day they leave the post for the hunt. Pierre is one of the party, but incurs the enmity of Jon, a hunter, before leaving. Following closely upon their departure a young Englishman arrives with a letter from the governor-general to the factor, stating that the bearer was duly appointed game warden for the territory and would see that all laws regarding the protection of game and reserves be respected and enforced, and instructed him to post notice publicly to that effect. The factor was clearly displeased at the turn of affairs, but Roland, the newcomer, proved himself amiable and it was not long before Julie looked upon him with great favor. Pierre returns from the hunt and meets the wedding guests just as they are leaving the church. Confronted with the facts on all sides, he turns sadly and wends his way back to the forests.  
 The illustrated song which will accompany the above film will be "You'll Be Right to Sing Me an Old Irish Song." Among the pictures to be shown tonight are "Ramona," a story of the white man's injustice to the Indian; "The Diver's Remorse," an educational subject showing deep-sea diving, submarines and the laying of mines; "After Many Years," a story of reconstruction days, and "Harlequin's Nightmare," a comedy.

The first week of the Lewis and Lake musical comedy season at the Pantages has demonstrated that a very enjoyable brand of this most popular summer entertainment can be furnished for the seeming ridiculously low price of 15 and 25 cents; also that women and children need not hesitate attending a performance of the Lewis and Lake company's quality of clean, classy and thoroughly likable productions. These two facts are responsible for the tremendous patronage the Pantages has received this week, and that from the better classes of people, who seem to derive as much pleasure from these condensed musical creations, lasting an hour and a quarter, as they did the two-hour show when Lewis and Lake played in this city before.  
 The company was handicapped at the opening performances on account of the absence of a couple of the chorus members, but is now in working order and ready to stage their more pretentious productions.  
 "Ikey, Milkey and Jekey in Society" is to be the offering for next week, and the very title suggests laughter. It tells the ludicrous story of the great doll syndicate, formed by a Hebrew, a German and an Irishman to protect Ikey's mechanical doll invention. The many disasters they encounter are exceedingly mirth-provoking. Of course the dolls are in evidence as the pretty singing and dancing girls who, piloted by dainty Marjorie Lake and Hazel Morris, introduce many chorus numbers.

At Vancouver this week Anita Diaz' Monkeys, showing at the Orpheum theatre, have been causing a furore, and Terminal city audiences who are used to the best that can be obtained by Sullivan and Considine, are talking of the monkey act as the biggest and best animal act vaudeville has ever known. Manager Jamieson of the Grand theatre, has been able to secure this act for Victoria next week, and it is certain to be the biggest draw of the season. There are nine monkeys acting in the little circus. There is the doctor monkey, the toothache monkey and a whole surgical operation. The imitation of people in real life by these little tropical animals is one of the most remarkable results of animal training ever known, and it will be seen here Monday afternoon at the matinee for the first time.  
 An act of a different kind, but one that will be a star feature here next week, is the incomparable comedy pair, Harry and Katherine Mitchell. They also played Vancouver this week in the act "Crazy for a Minute," and the pair sent Vancouver crazy with laughter. They are the brightest and cleverest pair that have been to the Grand since Haverley and Wells, and Victoria will get one long, loud laugh.  
 A big feature of next week's bill here is the Scott Brothers, who loop the loop on the stage. This act is purely sensational. It does not call for humor. It is a thrill from first to last, and especially last, when the loop the loop act of the act takes place with the two brothers head to head inside a circular loop spinning round at a hundred revolutions per minute.  
 The other acts coming to the Grand Monday are the Waco Belle, Beulah Dallas, a singer from the south, whose voice has received much favorable notice, and J. Francis O'Reilly, the missionary of mirth. O'Reilly has a monologue that is ripe and busy all the time. He sings a couple of songs and everything he brings will be original and amusing.

The illustrated song this week will be sung as usual by the sweet-voiced singer Thomas J. Price, and with the moving pictures and the orchestral selections, the show will be one of the best and most complete of the season.  
 Romano Theatre.  
 The little god with the heart quivers, Cupid, has perpetrated some dark deeds on his journeys amongst men. In one of the pictures at the Romano this week he sets brother against brother for the hand of a girl.  
 The title of the picture in which Cupid is introduced is "The Brother's Feud." The civil war is on at the time, and one of the Howard boys is an officer in the army. He and his younger brother, who is a cadet, are as much in love with a pretty maiden that have grown to hate one another bitterly. They do not conceal their enmity in the presence of the girl, who does all she can to alleviate matters. Suddenly there comes a proclamation from the president that all cadets on furlough are to report for war duty, and Harry's luck is to enlist in the company which his brother commands. Jack is bad and vindictive and makes the life of his brother a miserable one. The two have continuous quarrels and a vicious fight terminates them. Harry downs his brother and disappears. Meanwhile the boys' mother is dangerously ill and Harry is written for. The letter arrives but Jack gets it. He immediately hurries off for home, but is astonished on reaching the house to find his brother there. With her last strength she takes the hand of each in hers and counselling brotherly love, closes her eyes in the sleep that knows no awakening.  
 The other pictures are: "The Trials of a Chauffeur," "The Millstream," and "Two Portraits." The Romano orchestra will furnish music during the evenings.  
 Majestic Theatre.  
 One of the films to be shown at the

John looked at his old booking list.

# THE FORMULA OF "FRUIT-A-TIVES"

Is On The Outside Of Every Box For All The World To See

Every user of "Fruit-a-tives" knows exactly what is being taken. The formula of this famous fruit medicine is printed plainly on the outside of every box. We have stated many times—and now state clearly—that "Fruit-a-tives" is made of the juices of apples, oranges, figs and prunes, with valuable heart and nerve tonics and antiseptics.  
 Everyone knows that fruit juice is healthful—but perhaps some do not understand why this is true.  
 Fruit juice consists of about 91 per cent water, 8 per cent of sweet principle, and 1 per cent of a bitter substance. It is the quantity of bitter principle in fruit that gives the fruit value as a medicine. An eminent physician of Ottawa, after years of experimenting, found a method of increasing the bitter principle in fruit juice, thus increasing the medicinal or curative qualities.  
 The juices are first extracted from fresh, ripe oranges, apples, figs and prunes. By a secret process, some of the sweet atoms are replaced by the bitter principle. Then tonics and antiseptics are added, and the whole made into tablets, now known far and wide as "Fruit-a-tives."  
 "Fruit-a-tives" is the only medicine in the world that is made of fruit juices, and is one of the few remedies that have let their composition be known from their introduction to the public.  
 "Fruit-a-tives" is nature's stimulant for the liver, bowels, kidneys and skin. In cases of obstinate Constipation, Liver Trouble, Indigestion, Backache, Rheumatism, Headaches and Impure Blood, this wonderful fruit medicine cures when everything else fails.  
 "Fruit-a-tives" is sold everywhere at 50c. a box, 6 for \$2.50, or trial box, 25c., or will be sent, postpaid, on receipt of price by Fruit-a-tives Limited, Ottawa.

 1032 FREDERICK ST. VICTORIA, B. C.

And thought of all that he had missed  
 In seasons past; and what to gain  
 In future seasons did he remain  
 A slave to the man who bears the name  
 Of one who has gone down to fame,  
 Because his life's best blood he gave  
 To break the chains that bound the slave.  
 John thought of the houses he controlled,  
 And felt he was not over bold  
 In asking that his time be filled  
 By successful plays and players  
 skilled:  
 He thought this was not without reason—  
 For sixteen shows don't make a season!  
 Too long indeed he'd worn the yoke—  
 Under Abe's bookings he'd go broke!  
 And so he turned aside to Lee  
 Who offered him some thirty-three  
 Or more attractions for the coming year  
 In terms inviting and quite clear.  
 And as he thought the matter o'er  
 He soon set up a mighty roar—  
 "Ha! ha!" laughed John in merry glee,  
 "Abraham Lincoln has set me free!"  
 "Which shall it be? Which shall it be?"  
 John looked at Abe—John looked at Lee!  
 And then he said in courteous way—
