Hull of Shamrock Cleaned for Next Race To-morrow

Lipton Takes Step To Have Challenger in Very Best Condition For Next Contest Over Thirty-Mile Triangular Course; Sloop Put in Drydock This Morning

Sandy Hook, N.J., July 22.—The America's Cup challenger Shamrock IV was towed early to-day to the Staten Island Shipbuilding Company's plant, where she was drydocked and had her underbody cleaned in preparation for the fourth race with the American defending sloop Resolute to-morrow.

Captain Burton, Designer Nicholson and Navigator Claude Heyckman, of the Shamrock, were especially pleased with what they agree was a wonderfully fine race yesterday, even if the challenger lost it on time allowance. To-morrow's race will be over a triangular course ten miles to a leg, and it is in this contest that Shamrock is expected to force the Resolute to the limit.

HUNDREDS URGE BRYAN TO STAND

Ask Him by Telegram to be American Prohibition Presidential Candidate

Lincoln, Neb., July 22.—Several hundred telegrams and as many more letters poured into W. J. Bryan's office here to-day urging him to accept the Prohibition Party's nomination for the presidency of the United States.

Platform Redrafted. Lincoln, Neb., July 22.—The Prohibition Party to-day rearranged its convention schedule pending word from William Jennings Bryan, saying whether he would accept the party's nomination as candidate for the presidency of the United States.

The platform committee, virtually ready late last night with its tentative draft, went back into executive session to re-draft the platform so that, as its members said, "there could be nothing in it which would not meet with Mr. Bryan's whole-hearted approval."

Chief among the planks being re-drafted were those dealing with the League of Nations, agriculture, profiteering and commerce. A plank calling for a world tribunal, but not specifically the Versailles league was adopted by the committee. Members reserved the right to offer amendments on the convention floor, however, and indications are there will be a fight.

The agriculture plank pledged the strongest possible support to farmers and that concerning profiteering was a vigorous denunciation of speculation.

There was little doing in the convention hall. All committees and leaders were busy outside arranging to "make Bryan the next President."

FRENCH GOVERNMENT THEATRE SCHEME

Paris, July 22.—A "popular theatre," where plays and operas will be given under Government direction, has been definitely agreed upon by the Chamber of Deputies and it is believed by its supporters that the Senate will agree. The plan has long been contemplated.

Plays will be given nightly, with two matinees, at the Trocadero, which seats 5,000.

A feature of the plan is the decision to make it a producing playhouse for the Government conservatory for the training of actors and musicians.

U.S. Railroaders Probably Will Hold a Wage Vote

Chicago, July 22.—A decision to-night on whether the eighteen railroad unions will accept the \$600,000,000 wage award of the Railroad Labor Board was promised to-day by T. E. Sheppard when the brotherhood chiefs resumed their conferences.

Union officers refused to comment on the reports that they were divided. Privately they said a referendum seemed the only possible course.

If a vote by all union members is ordered the award will be tentatively accepted so that the men will get the increased pay for this month and the back pay from May 1, as provided by the retroactive feature of the Railroad Labor Board's decision. A referendum will take at least thirty days.

It was stated this morning, after an all-night session, that no agreement was reached, that six of the brotherhoods, in addition to the masters, mates and pilots of America, had expressed their decision as favorable to acceptance of the award in its entirety, seven favored referring the question to the unions with a recommendation that it be ac-

Police Fired on Rioters During Belfast Melees

Belfast, July 22.—Rioting was renewed in the Falls area of West Belfast during the mill dinner hour here to-day. The post office was wrecked and police fired on the rioters. In the melee a soldier and several civilians were wounded.

After a night of sanguinary fighting between Sinn Fein and Unionist mobs, armel cars were patrolling the affected areas. The casualties up to last night were two men and one woman killed and twenty persons treated at hospitals for serious gunshot wounds. Many wounded did not report to hospitals. Fifty-four arrests were made.

HARDING NOTIFIED BY REPUBLICANS

London, July 22.—A number of Sinn Fein employees of Harland and Wolff's shipyards were badly mauled yesterday, and several were taken to a hospital in consequence of an attack by Unionist workers, more than 5,000 of whom held a meeting at the dinner hour and adopted a resolution to boycott all Sinn Fein workers in the yards, according to a dispatch from Belfast.

A large-body of Unionists proceeded to the east yard, and urged the Sinn Feiners to quit immediately. A fracas occurred, in which the Sinn Feiners were roughly handled. Seven of them tried to escape by swimming across the Musgrave, but were met on the other side by a hostile crowd, and after being beaten, were compelled to turn back.

During the turmoil, ambulances arrived and took away those who had received the most serious injuries. Similar scenes occurred in another yard, necessitating the services of ambulances also.

The rioting was renewed last night by the rival factions. There was considerable stone throwing, during which a number of windows were smashed. The police finally restored order.

MINING CONVENTION DISCUSSES LEAD

Interesting Address Is Delivered at Nelson Meeting by S. F. Fowler

Nelson, July 22.—At the International Mining Convention here this forenoon, S. F. Fowler, manager of the new Canadian Metal Company, gave a striking address on the treatment of oxidized lead ores, which once were not thought to exist in this territory, but which at present constitute the main shipments of the Blue Bell, Electric Point and similar mines.

Mr. Fowler gave a complete description of the process used by the Blue Bell, which employs crushed lead from similar ore, and concentration fifty per cent. of the lead was saved, which, according to Mr. Fowler, was a whole lot better than none at all. Ore surface specimens exhibited by Mr. Fowler looked exactly like common rock, showing the principal reason why such deposits were formerly overlooked.

In the discussion that followed it was brought out that a company in Arizona has raised its recovery of lead from similar ore, by re-subsidizing the tailings.

U. S. TRAINMEN AND PRESIDENCY OF U. S.

Cleveland, Ohio, July 22.—The records of Senator Warren G. Harding, the Republican nominee for President of the United States, and of Governor James M. Cox, nominee of the Democratic Convention, will be sent to the members of the Brotherhood of Railway Trainmen, who will be asked to form their own opinions and vote accordingly.

An officer of the Brotherhood announced this as the policy to be followed by the organization in the November election. The records will be mailed out from the Washington office of the Brotherhood as soon as they are prepared.

Records of the candidates will be placed side by side and sent to the men, Mr. Lee declared. "With the fact before them our members are sufficiently intelligent to form their own opinions."

HOW MILL MONEY IS DISTRIBUTED

Over 600 White Men in City Divide \$100,000 Payroll

To show that sawmill operations in Victoria are of advantage chiefly to white men and not to orientals, as has been charged recently, Victoria lumbermen to-day made public figures regarding the numbers of Chinamen employed and the extent of their wages.

In issuing these figures this morning, D. O. Cameron, of the Cameron Lumber Company, stated that there were five sawmills and one shingle mill operating in Victoria at present. These plants employed 604 white men, with a total payroll of \$109,560 a month. In addition \$211,000 he said, was paid out for logs and \$25,000 for supplies. These figures did not include the money paid out by the operators on insurance, amounting to between \$11,000 and \$12,000 a month.

The Cameron Lumber Company, Mr. Cameron stated, paid Chinese \$1,500 a month out of a total payroll of \$40,000. He said there were 220 white men employed, he said, and seventy-five Chinamen were employed.

"Indeed, after consulting with the other lumbermen of the city," said Mr. Cameron, summing up the situation, "I have no hesitation in saying that of the total payroll of the Victoria sawmills between seventy-five and eighty per cent. goes to white men."

The logs used by Victoria mills, too, represent a big expenditure to white men who are exclusively engaged in the logging business. The \$211,000 paid out by Victoria mills for logs goes to pay for supplies and for wages to white men. In the production of these logs about 1,000 men are employed, and besides, white men are employed on the tug boats used to tow the logs and in other incidental operations.

"These figures," Mr. Cameron observed, "do not include the operations of the Shawanigan Lake Lumber Company and the Genoa Bay Lumber Company, both of which have their head offices in Victoria."

Lethbridge, Alta., July 22.—Two hours' heavy rain fell over all Southern Alberta last night. This will cool the crops off after the recent very hot weather and will help the wheat to fill. W. K. VANDERBILT DIES IN PARIS

Paris, July 22.—William K. Vanderbilt, the American financier, died here to-day. He had been suffering from heart disease and complications. Vanderbilt was the eldest surviving member of the Vanderbilt family. He celebrated his seventieth birthday on December 12 last. His only daughter, Consuelo, married the Duke of Marlborough in 1895.

He was born at Staten Island, New York, in 1848 and received an academic education which included several years study at Geneva, Switzerland. His early business career was spent as a book-keeper in the office of the treasurer of the Hudson River Railroad, where he acquired the fundamental training in railway matters which later led to his being director on a number of the leading Eastern lines.

With his brothers, Mr. Vanderbilt founded the Vanderbilt Clinic in New York, which has been of untold boon to the poor of the metropolis. Keenly interested in the arts, Mr. Vanderbilt founded the New Theatre, New York, and was also a director of the Metropolitan Opera Company at the time of his death.

HON. M. BURRELL IS NOW ON COAST

Vancouver, July 22.—Hon. Martin Burrell, former M.P. for Yale, accompanied by his wife and daughter, arrived in this city this morning, on a holiday tour.

Mr. Burrell was indisposed, on account of his resignation from the Cabinet, to talk politics. He stated that he had not the remotest idea as to whom his successor would be in the new Cabinet, and hazarded a doubt that such an appointment would be made. He was quite satisfied with his appointment as Parliamentary Librarian.

Mr. Burrell will leave shortly for Victoria, and will return to Grand Forks, where he will wrap up some of his private affairs before proceeding east.

HOSPITAL MAY GET \$2,000 FROM WILL

Orphanage Receives \$1,000 From Mara Estate; Probated at \$249,898

The Protestant Orphans' Home receives \$1,000 and the Jubilee Hospital may get \$2,000 for its new building under the will of J. A. Mara, which has been probated.

Mr. Mara, in his will pointed out that in 1912 a number of wealthy men of Victoria subscribed towards the building of a new Jubilee Hospital, but they have not paid up. He stated that he subscribed \$2,000, but paid only \$1,000. He has left instructions that if others pay up within a year his executors are to pay the other \$2,000. Mr. Mara was long treasurer of the board of the Jubilee Hospital.

"Having in 1912 subscribed \$2,000 for the building of a new hospital, of which \$1,000 has been paid, other persons at the time made large subscriptions to the said fund of which subscriptions no payments have been made at all. I declare that if the subscriptions of other parties of such fund shall have been received, the balance of my subscription amounting to \$2,000 remaining unpaid, should be paid," Mr. Mara states in his will.

The estate is probated at \$249,898, of which \$17,750 is in war bonds. There is a personal estate of \$18,106 outside of British Columbia.

Mr. Mara left four children, his niece, Mabel Wallace, wife of Dr. Herbert Wallace, of Kingston, Ont. A codicil in the will, however, cuts this down to \$500.

The income from \$5,000 has also been cut down by codicil to \$5,000, which is to go to his sister, Charlotte Sophia Mara.

To his daughter, Miss Ellen Frances Mara, he left the home on Pemberton Road and all furniture, linen, china, books, pictures, prints, wines, liquors and other household effects.

All the rest of the estate is to be invested and the income turned over to his son, John Lytton Mara, or to his wife if she should die, to be used for the grandchildren. If his daughter-in-law should become a widow and marry, her income is to be cut to one-third.

REPORT NUMBERS OF BEAVER LOW

Game Board Hears Reports on Fur-bearing Animals of British Columbia

After hearing the representations of numerous sportsmen on the question of open seasons on British Columbia game during two busy seasons yesterday, the Provincial Game Board to-day is considering the mass of data laid before it, with a view to drawing up the year's regulations.

The afternoon session of the Board was devoted chiefly to an animated discussion of the question of protecting the fur-bearing animals of the Province. Different views were heard before the Board, which did not commit itself on the matter. The most striking commentary on the fur situation was afforded by reports on the condition of the beaver in the northern section of the Province submitted by provincial officers in accordance with the promises given the Provincial Legislature at its last session. Reports were received from the Government Agents at Telegraph Creek and in Atlin district, and from the Deputy Inspector of Provincial Police at Fort George, who had sent Constable Van Dyk to investigate conditions in the Omineca district. The Chief Constable at Fort St. John also has an offer to enter the wilds for the same purpose and extracts from his report were read.

The general view expressed in these reports was to the effect that the number of beaver in the districts investigated are very low, and that a closed season was extremely advisable. Indeed, Constable Van Dyk stated that the beaver appeared to be in danger of extermination in the north.

Unless agreement can be reached to send Allied troops through Germany, the most likely route for their movement is through Italy. Officials here have estimated that such movement would require at least a month, whereas by routing the armies across Germany it would be possible to detain them in Poland in less than a week.

Germany's agreement to such action was doubted here.

Lloyd George's Statement. London, July 22.—It was to the interest of Great Britain and of Europe that Poland should not be wiped out, Mr. Lloyd George declared, in addressing the Commons yesterday.

To test the good faith of the Russian Soviet Government, he explained.

Allies Prepare to Send Aid to Poland Against Bolsheviki

British and French Missions Being Sent to Warsaw to Tell Poles Allies Will Help If Bolsheviki Continue Advance; Troops May Be Sent.

Paris, July 22.—The Allies have decided to take measures preparatory to giving military aid to Poland if that should be necessary, it was learned to-day.

A French mission, headed by Jules J. Jusserand, French Ambassador to the United States, who is home on leave, will leave to-night for Warsaw to arrange for prompt succor to the Poles.

On the same train and with the same object there will be a British mission headed by Lord D'Abernon, British Ambassador at Berlin.

These missions, it is learned, will leave with full authority to say to the Poles that whatever aid is needed, whether military or financial or in the nature of supplies, will be forthcoming if the Bolsheviki persist in a design to march into distinctly Polish territory.

It is stated unofficially but on high authority that this means help for Poland in the form of troops if they are required.

Already a large number of Allied officers and subalterns are with the Polish army, which, it is declared, will be increased according to circumstances with as many divisions of infantry, tank detachments, air forces and artillery as may be transported in due time.

Belshewik Statement. London, July 22.—Further successes for the Bolsheviki against the Poles in Volhynia and southward are reported in Wednesday's Soviet communications from Moscow, received by wireless to-day. The statement shows the Bolsheviki have crossed the old Galician boundary line to the south of Lemberg, from which town they are still, however, about 100 miles distant.

Speed Needed. Washington, July 22.—Army officers and officials of the State Department are busy studying the Polish-Russian operations. They pressed the opinion unofficially today that Warsaw can be saved from the Bolsheviki only if adequate supplies are available within the next few weeks. The Government was without official advice of the reported decision of the Allies to send troops if necessary into Poland to check the forward movement of the Russians.

It was believed here that the Allied Powers probably would suggest participation by the United States.

Via Italy. Unless agreement can be reached to send Allied troops through Germany, the most likely route for their movement is through Italy. Officials here have estimated that such movement would require at least a month, whereas by routing the armies across Germany it would be possible to detain them in Poland in less than a week.

Germany's agreement to such action was doubted here.

Lloyd George's Statement. London, July 22.—It was to the interest of Great Britain and of Europe that Poland should not be wiped out, Mr. Lloyd George declared, in addressing the Commons yesterday.

ANDERSON FORGED TO QUIT WORK ENTIRELY

"Tanlac Has Put Me Back On the Job Feeling as Well As I Ever Did," He Declares.

"After being such a sick man for six months that I had to quit all work, Tanlac has put me back on the job feeling as well as I ever did," declared W. Anderson, 3469 Quebec St., Vancouver, B. C.

"I suffered untold agonies on account of stomach trouble and couldn't touch a bite of food without it disagreeing with me. Everything I ate would lie on my stomach like a lump of lead and then sour and form gas that bloated me up until I couldn't hardly breathe and my heart would beat like a trip-hammer. I had spells of dizziness when, if I hadn't held on to something, I should have fallen, and often had such terrible headaches that they almost drove me distracted. At night I used to roll and toss about on the bed for hours unable to sleep, and when morning

came was so tired and worn out that I could hardly stand. Finally I became so weak that I had to give up my job as I simply couldn't stand up to the work.

"While I was in this condition I read a statement in the papers telling how a man with troubles just like men had been helped by Tanlac, so I lost no time in getting some. The first bottle did me so much good that I kept right on with it, and by the time I was through with the second I was back at work and haven't missed a day since. My appetite is splendid, all trouble from indigestion has disappeared and I have gained several pounds in weight. I haven't had a headache or dizzy spell since I finished the first bottle of Tanlac, and I sleep like a log every night. I don't think I could feel better than I do now, and I shall always be grateful to the medicine that brought about such a remarkable change in my health."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas, and Lang's Drug Store, Esquimalt Road.

RUSSELL APPEAL FAILED IN LONDON

No Application to Ottawa For Clemency For Winnipeg Striker

London, July 22.—In dismissing the petition of R. B. Russell, one of the Winnipeg strike leaders serving a sentence, to the Privy Council for leave to appeal, the Lord Chancellor said: "The petitioner asks leave to appeal in a criminal matter. He asks the Privy Council to advise His Majesty that there should be an exercise of the prerogative. Such advice is only given by Your Lordships in very special cases, which have been clearly defined in a long succession of authorities. It is sufficient for me to say that the petition in this case has entirely failed, in my opinion, to bring the matter within the class of petition."

W. H. Trueman, K. C., Winnipeg, for the petitioner, at the opening of the proceedings was interrupted by Sir John Simon, appearing for the respondents, who said that, in the view of the Canadian authorities, the question would arise whether there was any appeal to this country on criminal matters.

During the argument Lord Haldane said the Empire had developed in the last forty years, and consequently the question of prerogatives was more closely looked into. They were there to intercept the constitution of the Empire, yet counsel asked them to violate it. What he meant to say was that Canada had home rule, and he was not disposed to go back of that.

Ottawa, July 22.—A formal application for clemency, it is stated, has not yet been made in the case of R. B. Russell, chief of the Winnipeg strike leaders, who appealed without success to the Imperial Privy Council against his sentence of two years' imprisonment.

While no official announcement has been made, it is not considered likely that there will be an exercise of clemency in the immediate future.

Winnipeg, July 22.—That the Privy Council's dismissal of the petition of R. B. Russell, one of the Winnipeg strike leaders now serving a sentence, would be accepted as disposing of contemplated appeals on behalf of the other convicted Winnipeg labor leaders, was an intimation given yesterday afternoon by James Law, secretary of the Defence Committee. Mr. Law said he had had no word as yet from Mr. Trueman or from his London agents, but accepting the press reports on the case as accurate, he intimated that there would seem to be no advantage in entering further appeals, which would have to be along lines similar to the Russell appeal.

ARMY CAPTAIN WAS KILLED IN IRELAND

London, July 22.—A Dublin dispatch last evening said an infantry captain was mortally wounded and two soldiers were seriously wounded when a lorry carrying provisions for troops at Ballyvourney was ambushed Tuesday night. A bullet pierced the gas tank, forcing abandonment of the lorry.

The Kingsbridge terminus in Dublin was the scene of unusual animation yesterday morning, when thousands of passengers for the Curragh races and other destinations were held up because the trainmen refused to carry thirty armed policemen bound for Kildare. Many passengers proceeded to Curragh by motor cars.

GREEK TROOPS ARE MAKING ADVANCE

Occupying Eastern Thrace; Troops Landed at Sea of Marmora Ports

London, July 22.—A Greek communication received here last evening announced that the Greeks, supported by the British fleet, had occupied Heraclea and Rodosto, and that all resistance had been crushed.

A dispatch from Smyrna said Greek troops supported by an Anglo-Greek naval force, which included two British dreadnoughts, had landed at the ports of Eregli, Sultankeu and Rodosto, on the European shore of the Sea of Marmora, according to a communique issued at Greek headquarters Tuesday. No resistance was met except at Rodosto, where the position of the Turks was broken, their troops fleeing into the interior. The statement added that landing of troops was continuing according to schedule.

King on Cruiser. An Athens dispatch dated July 20 said King Alexander of Greece was aboard the cruiser Averoff during bombardment this morning of Rodosto, on the European shore of the Sea of Marmora. Greek troops were landed by the fleet, driving out the Turks.

In Thrace. Salonica, July 21.—Via London, July 22.—The Greek troops have commenced their advance in the occupation of Eastern Thrace, according to official announcement here to-day. Telegraphic and railroad communication has been suspended between Constantinople and the interior, the announcement adds.

Bandits Taken. London, July 22.—A dispatch from Constantinople said that British troops Monday night raided bandit hideouts that had been their activities to the Bosphorus European shore. The raid resulted in the capture of several bandits, many guns and considerable ammunition.

MINING CONVENTION HEARD ADDRESSES

Nelson, B.C., July 22.—A feature of yesterday afternoon's session of the third International Mining Convention here was an address by Glenville A. Collins, president of the Seattle convention, who spoke on "Financing the Prospect."

After outlining the usual methods of financing prospectors Mr. Collins elaborated a plan he had developed himself, whereby prospectors' groups could be formed for the enlistment of capital for a property of some member of a group. The advantage of this system, Mr. Collins stated, was that the combined judgment of the group was behind each prospector included that legal advice and engineering still could be retained, and that any individual prospect in the combination could be the subject of development without reference to the others.

Another interesting address was that of A. G. Langley, resident engineer, who advised prospectors to seek the rarer ores instead of continuing their search to the best known ones.

Nicol Thompson, Vancouver, gave a splendid address on the development of the iron and steel industry in the Province.

A dance last night, a trip up the West Arm for the ladies in the afternoon, an international baseball game between Colville and Nelson, and a boxing exhibition were the amusement features.

LLOYD GEORGE SAYS GERMANS ARE TRYING TO PAY

London, July 22.—Speaking in the Commons yesterday, Lloyd George said the impression received at the Spa conference was that Fehrenbach and Simons, the German Chancellor and Foreign Secretary respectively, were two honest and bright men who would do their best to fulfill the treaty obligations. Reciting the results of the Spa conference, the Prime Minister declared: "We have proof that the Germans have grappled with the problem of the indemnity and are making a real effort to deal with it. There are schemes for raising money to enable Germany to pay, and there is no attempt to evade obligations."

LARKIN STRIKE IN DUBLIN A FAILURE

London, July 22.—A demonstration was staged in Dublin yesterday in an effort to bring the movement for securing the release of James Larkin from prison in the United States. A general strike was ordered by the sponsors of the resolution, but the response to the call was not general.

A procession planned to demonstrate in front of the United States consulate was participated in by comparatively few workers, according to dispatches received here. It passed the consulate at 1.30 o'clock. No untoward incident occurred there, the demonstrators confining themselves to cheering for Larkin, while a strong police force stood guard at the consulate.

The procession was led by Miss Della Larkin.

Fears had been expressed that the demonstration would be accompanied

SINN FEINERS BALK AT DISCUSSION WITH BRITISH OFFICIALS

London, July 22.—A Dublin dispatch last evening said: "Inquiry concerning the report that the Sinn Fein and the British Government are prepared to discuss the basis of a settlement of the Irish question disclosed to-day that an eminent ecclesiastic with important Sinn Fein connections informed friends that he had received a communication with credentials which satisfied him that it had emanated from the Cabinet. This he had submitted to Arthur Griffith, founder of the Sinn Fein organization."

"Many attempts had been made previously to sound the Sinn Fein on the possibilities of a compromise. It is asserted, and there appears to be no reason to suppose that this will be more fruitful than any others. The Sinn Feiners declare they will not negotiate."

HON. J. D. REID IS IMPRESSED BY WHAT HE SAW IN B. C.

Prince Rupert, July 22.—Hon. J. D. Reid, Minister of Railways and Canals, said after arriving here yesterday that the journey through central British Columbia had been an agreeable surprise, greatly exceeding impressions he had formed prior to leaving Ottawa.

He said the embodying of the Grand Trunk Pacific in the national system would work out to the substantial advantage of Prince Rupert, and he promised to do his part in providing this port with necessary terminal requirements.

D. E. Hanna, president of the Canadian National Railways, who together with Lieut.-Col. Peck, V.C., M.P., arrived with Dr. Reid on a special train, described the trip as a tour of discovery. Transportation was a basic utility, demanding the spending of money, which would be done, he said.

ROYAL VICTORIA

An interesting question is raised by an unfaithful wife in "The Woman Gives" starring Norma Talmadge, as to whether religion has lost its grip through a rigid condemnation of those who have not followed its precepts. Miss Talmadge, playing the part of Inga Soderstrom, goes to the wife to get her to join in an effort to save her husband from a life of dissipation. Inga's appeal to her sense of righteousness brings the retort from the wife that she wants to spend the hereafter with her friends.

This is one of the many dramatic situations which go to make up the story, unfolded in "The Woman Gives," which will be the attraction at the Royal Victoria Theatre again to-night.

VARIETY

Mary Miles Minter's second Reelact picture, following "Anne of Green Gables," which will be shown at the Variety Theatre again to-day, is a picturization of Grace Miller White's universally read story, "Judy of Rogues Harbor," a combination of one of the ablest of fiction writers with one of the dearest of filmdom's leading stars. Miss Minter is supported by a cast of celebrated actors and directed by one who is distinguished for his art and attention to detail. Critics consider "Judy of Rogues Harbor" a film drama masterpiece.

Despite the fact that she wears the most luxurious and gorgeous costumes when appearing in her screen productions, Nazimova in private life wears the most commonplace dresses she can obtain. is the most model of sensible and economic dressers. The speed with which Nazimova, who is appearing in "The Heart of a Child," mastered the English language is a remarkable sight on her character and a sensational record of his kind. When she arrived in this country in 1905 she knew but three English words. When she remained here contracts were offered her if she would learn English. She undertook the task immediately, and within five months' time she did this with the instruction of a tutor, who worked with her for four hours a day.

COLUMBIA

William S. Hart, who is at the Columbia Theatre in "The Toll Gate," is said to have the most powerful dramatic role of his career as Black Deering, the bandit chieftain in the story which was written by Lambert Hillier and himself. Lambert Hillier is the director. It is a Paramount-Artcraft release. This is a typical tale of the west or southwest in the days before the fences came, the days of bold bandit bands, of promiscuous train holdups, of masked desperadoes, wild riders and Indians. It portrays with startling fidelity the characteristics of a picturesque page in the history of the border. Black Deering, leader of the bandits, decides to disband and quit. A rival refuses and leads the band into a trap, selling them out for "thirty pieces of silver." All are killed or captured. Deering escapes. He sets out to revenge himself. He meets the woman who has been deserted by the traitor and his better manhood keeps him from wreaking his revenge upon her in lieu of the real culprit. The latter meets his just deserts and Deering goes South and out of the hands of the law, into, it is hoped, a better life, his eyes opened at last to the realization that there are good men and women in the world after all. Anna Q. Nilsson and a fine cast of players are seen in the support. Mr. Hart's famous Pinto pony is also present. Joe August, A.C.C. made the photographic rendition.

"The Decorator" has been selected as the title of Jimmy Aubrey's new Vitagraph comedy, recently completed. In it Jimmy does more damage to an art collection than the proverbial "bull in a china shop."

Alice Joyce has an unusually capable supporting company in "The Proxy," her new Vitagraph special production. Among others in the cast are Harry Benham, as hero, and L. Rogers Lytton, as the villain.

NAMELESS PLAY

ACCORDED OVATION

Comedy Drama by Don Mullally Secures Success at Princess

Don Mullally's nameless play, which opened at the Princess Theatre last night to a crowded house, created something in the nature of astonishment. Without detracting from the former able work of the Mildred Page Players, this last production is by far and away the best comedy-drama that has yet been staged.

The Plot's Theme. It is a drama of a chain of circumstances that is in frequent evidence in real life, being the unhappy results of parental interference with the affections of their children. The plot is simple but natural all through, and the whole piece goes over the boards as a page from real life. If a moral was intended—it would be that at the basis all individuals have a right to select their partners in life at the dictates of their heart, without pride of name, and other false doctrines being upheld by the unrelenting type of misguided parents, wrecking the lives of their children.

The plot carries two romances in its train, though both vastly opposite in aspect: one, the unhappy result of the attempt of a New England gentleman, to restrain his son from marrying a girl from a New York burlesque show; the other, the felicitous result that was consequent on the elopement of his daughter with the man of her choice. The second romance is carried in a minor key to the main action of the piece, and serves to make the pathetic failure of the first evident, with the cause well in evidence as the untimely interference of the parents with what subsequently turns out to be a very happy conjunction.

Byron Aldern, as Richard Earl, fiction writer, carries the main part of the play, and displays himself to Victoria audiences as an actor of more than ordinary versatility and forcefulness. More than that, he manages to bring restraint to his aid on the more emotional periods of the action. Mildred Page, as Richard's much maligned wife, the burlesque actress, adds another finished part to her well-known capabilities, and delights her audience with many a well turned phrase.

George Cleveland, as Billy Wessner, the erstwhile bachelor friend of Richard Earl, runs the leading man a very close race for his character-ization of the lovable, but wild companion of the latter's halcyon days in Bohemian surroundings. "Billy" is a character that lends comedy and enchantment to many of the more pathetic moments of the action, and is an invaluable asset to the movement of the piece. His work in the studio, while the three disillusioned cronies are making a brave attempt to keep a cheerful face on the pathetic moments of the action, and is an invaluable asset to the movement of the piece. His work in the studio, while the three disillusioned cronies are making a brave attempt to keep a cheerful face on the pathetic moments of the action, and is an invaluable asset to the movement of the piece.

Nina Guilbert, as the breezy fiancée of Billy, who afterwards elopes with that lovable character. His last part with a wit and liveliness that is beginning to be a looked-for feature of the Princess productions. Genevieve Berkley as Mrs. Earl, senior, and Thomas M. Sullivan, as Earl, the New England autocrat, both lend realism to difficult parts, and further the main action of the play immensely by their capable rendition. Legge Willis, an addition to the Mildred Page Players, who will be remembered from the Society's Dramatic Society, was seen again on the boards of the Princess in the distinctive character of "Grumpy," a thoroughly unpleasant old grump, who however, displays a rather warm heart beneath his cynicism.

No name has yet been announced for the production, but the competition has created a wide interest. Mr. Aldern, in taking the curtain last night, told the audience that the past few months had been a struggle for the Mildred Page Players, but that the support of the local theatre goers had removed the difficulty, and that the popular stock company was now well on its feet again.

POPULAR FILM STAR BEFORE PUBLIC FROM HER BABYHOOD

Mary Miles Minter was born in Shreveport, La., on April 1, 1902. As she has been before the public almost ever since she was a baby, she never attended school, but has received her education through private tutors. Though one of the youngest of American actresses, Miss Minter has had a long and brilliant career on both stage and screen. She made her debut on the stage with the late Nat. C. Goodwin, in "Cameo Kirby." Following this auspicious beginning, she appeared with Dustin Farnum, in "The Squaw Man," and with Robert Hillier, in "The Pink and Madame Bertha Kalich."

Vaudeville saw Miss Minter in a playlet of the Civil War. So good was the little sketch that it was elaborated into a play, and so excellent was this wonder child's delineation of her role that she was engaged to play her original part in the larger production. This was "The Little Rebel," the greatest war drama of its day, in which the Farnum Brothers, Dustin and William, appeared.

Miss Minter has been a star on the screen for five years, not in child parts, but enacting young ladies, and she is still a minor. More remarkable still is that she has been a star in all her screen offerings. She made her debut in photoplay before she reached her "teens" and the name of Mary Miles Minter has been featured on the screen from the start. She has recently signed with the newly-organized Reelact Pictures Corporation for a term of years. Miss Minter has just completed Israel Zangwill's "Nurse Marjorie."

PANTAGES OFFERS

SIX CLASSY ACTS

Most Entertaining Vaudeville Bill Is Topped by Gautier's Toy Shop

Pantages show this week offers entertaining novelties of varied character. The current bill is opened by a Japanese novelty presented by the Mizuma Japs, and is brought to a close by a most unusual novelty, Gautier's Toy Shop.

Gautier's Toy Shop embraces some educated dogs and ponies, and in the manner of its conception and presentation is vastly different from the usual animal performance. For the youngsters, particularly, the offering is a riot of fun and wonderment, and from the advertisement the attendance of the youthful element at the Pantages this week should be a record breaker.

The act does not lack its entertaining features for the elders, as evidenced by the warm appreciation with which the novel offering was received at the opening shows. The comedy element introduced by these clever animal performers is laughable. No doubt the performers in Gautier's Toy Shop will get a big hand during the remainder of their stay here. It is an entertaining act effectively presented.

Concert devotees will greet Louis Gilbert with enthusiasm. This singer is the possessor of a clear soprano voice which she uses to the best advantage in the presentation of operatic and popular numbers. "Somewhere in France" is a rollicking trench farce, offered by a quartette of soldiers in which the Canadian, Scotch, Irish and Cockney dialects are conspicuous. The act abounds with good humor and good singing and music. The Mizuma Japs appear before the opening curtain with a decidedly clever exhibition of balancing and other Oriental acrobatic work. The Japanese are unsurpassed in human juggling and the Mizuma Japs rank with the best. Pearson, Newport and Pearson present what they are pleased to call "A Study in Perc." Introducing acrobatic clog dancing and other features. They are athletic entertainers who keep time with the music while performing most unusual feats. Fred Weber and company offer a ventriloquist oddity which compares with any that has been seen in this class of entertainment on the coast.

The adventures of Rusty continue to hold the interest of Pantages patrons. If anything the thirteenth episode of this remarkable film serial is even more exciting than the preceding numbers.

An area is being cleared at the Vitagraph studio in Hollywood for the erection of a new stage and fifty additional dressing rooms. The project which involves an expenditure of \$100,000, will be completed in September.

Earle Williams, Director Chester Bennett and Jack Mackenzie, chief cameraman, have gone to Catalina Island, off the Pacific Coast, for a seasonal dress rehearsal. They will work out the details of Mr. Williams' next Vitagraph production, "The Romance Promoters," based on a story by L. H. Robbins, and published in Ainslee's Magazine.

The Test of a Salad

The test of a good salad, according to Mrs. Wells, is the dressing. She says almost any combination of vegetables and fruits is nice.

She uses the simple recipe given in one of these little announcements and says there is never any doubt about the result.

If you desire the recipe, please write for Pacific Milk Salad Dressing Recipe.

A DANGEROUS WARNING

—BLEEDING GUMS

Are your gums tender? Do they bleed when brushed? If so—watch out for Pyorrhea.

This disease of the gums, which afflicts four out of five people over forty, not only destroys the teeth, but often wrecks the health.

In Pyorrhea, the gums become spongy, then recede; the teeth decay, loosen, and fall out—or must be extracted to rid the system of the infecting Pyorrhea germs which breed in pockets about them. These germs lower the body's vitality and cause many diseases.

You can keep Pyorrhea away. Visit your dentist often for tooth and gum inspection, and use Forhan's For the Gums.

NEWS AND NOTES OF THE MINES

Inspecting Coal Properties

For the purpose of making inspection of their extensive coal holdings in the Copper River district, H. W. Dyson and F. W. Osborn, officials of the Yorkshire and Canadian Trust Co. of Vancouver, are now in Smithers, as The Prince Rupert News. They are accompanied by A. C. Garde, the mining engineer, and the party has already left for the coal fields in charge of Jack Ashman, the packing arrangements being in charge of B. M. Hoops, of Telkwa.

Great interest has been taken in the property since the war, and the growing scarcity of coal has created confidence that it would soon be worked. The property is located on Chetleburgh Creek, a tributary of the Zymoeste River, about thirty miles from Smithers.

Two Seams Coal. The property, consisting of seventy-five leases, was taken up by the Copper River Coal Co., the National Finance Co., now in liquidation, handling the property as fiscal agents, until 1914, and is now being handled by the Yorkshire and Canadian Trust Co., liquidators of the National Finance Co.

There are two good seams of coal exposed respectively at six and six feet thick, which are slightly developed by short prospect tunnels. The property has seen a lot of exploratory work and the coal measures are exposed on Chetleburgh Creek for a distance of two miles. A diamond drill was taken to the property during the winter of 1913, but has never been used, all work having been stopped since 1911.

Hudson's Bay Mountain. J. D. Galloway, district mining engineer, made a trip last week to the Premier group on Hudson's Bay Mountain, where Donald Simpson is taking out ore for shipping. Mr. Simpson has made application for a trial to his new development.

The Eukaby Silver-Lead Find. Considerable interest is being displayed in Sydney, Australia, the new find near Eukaby, South Australia, as a result of the announcement that Sydney companies were likely to secure blocks. The Marshall Brothers and E. V. Jones, of Broken Hill, stating that they had taken an option from the discoverers over the four principal blocks of forty acres each, near Baratta Station, 240 miles west of Broken Hill. Marshall Brothers and Jones are prepared to transfer the option under an agreement in course of preparation, and agree to represent the Marshall Monarchy Company on the field in pegging out leases and obtaining other options in the interest of the company.

The suggestion of the Hon. William Sloan, Minister of Mines, that the Dominion Government might profitably establish car shops at one of its Pacific Coast terminals should be earnestly pressed at Ottawa.

INEVITABLE.

There was very little room for doubt that the Privy Council would reject the appeal of R. B. OTHER PAPERS' VIEWS.

Should be Protected. (Toronto Globe) In Montreal thousands of children of school age are getting no education. The children should be protected against the parental selfishness or ignorance that is depriving them of a birthright, and the State ought also to be protected against the spread of illiteracy.

A Legal Distinction. (Toronto Mail and Empire) The President of the American Woolen Company was indicted for profiteering, but a court has decided that as the company does not make wearing apparel, but merely the material from which it is fashioned, no offence was committed.

(Continued from page 1.) Higher Rates. Washington, July 22.—An increase of twenty per cent. in passenger fares and fifty per cent. in Pullman charges was asked of the Interstate Commerce Commission by the railroad board.

In East and West. Additional increases in freight rates ranging from ten per cent. in the eastern territory to eight per cent. in the western territory also were asked. The executives requested increases in freight rates on milk proportionate to the increase in the rates on other commodities made in the roads' first application for rate advances.

Forty Per Cent. The increases of freight rates asked by the executives to-day are in addition to those previously asked. If the Commission grants all of the demands, freight rates in the east will be advanced forty per cent. and in the west thirty-two per cent.

Observe Air Currents. In Vancouver arrangements have been made to work with the Canadian air service from the new aerodrome to be established there, in order to observe air currents at high altitudes. ALLIES PREPARE TO SEND AID TO POLAND AGAINST BOLSHEVIKI

It has been decided at Spa to advise Poland to apply to Russia for an armistice. The Soviet's answer to the Allies regarding peace with Poland was incoherent, ambiguous and propaganda largely intended for home consumption. So declared that Britain and France would supply the necessary means to organize and equip the 200,000 volunteers Poland had just raised.

that Gen. Wrangel and his Crimean shelter should not be touched. To all this was the Council of the People's Commissaries, answered by refusal. "If England had not desired war she would have stopped supplying Poland with munitions and money."

Direct Appeal. "Our refusal of hostile mediation does not mean that we have altered our policy toward Poland. Moscow more than once has proposed peace to Warsaw, and if she will now appear to us directly, peaceful relations will be established between Russia and Poland, sooner, better and more substantially in this way."

Chicago, July 22.—A "front cell" campaign is planned by the Socialist Party for Eugene V. Louis Waldman and August Claessens are the men so engaged. The campaign publicity chief said that two speakers in all were now out campaigning.

cost of preserving fruit this year by substituting money for sugar, according to state bee inspectors who met here for a two-day conference with Dr. J. H. Merrill, Assistant Entomologist of the Kansas Agricultural experiment station.

While it requires slightly more honey for preserving fruits, bee-keepers can save money by using the product of state bees because the cost of manufacturing it is almost nothing, the inspectors pointed out. They said thousands of dollars' worth of honey from the state goes to waste annually because comparatively few farmers keep bees.

SOME NEW LIQUOR RULES IN KENTUCKY

Louisville, Ky., July 22.—Harder sledding is in prospect for liquor law violators who have coveted eyes on the 20,000,000 gallons of whisky in Kentucky bonded warehouses. **PAYS TRIBUTE TO
JAMES ISLAND PLANT**

Director of British Explosives
Trades Limited En Route
to England

A tribute to the splendid equip-
ment and character of the explosives
plant at James Island is paid by B. E.
Todhunter, a director of the Ex-
plosives Trades Limited, the British
organization which controls the ex-
plosives industry in Great Britain.

Mr. Todhunter arrived here with
Mrs. Todhunter on the Niagara and
has since had the opportunity of in-
specting the fine plant on James
Island. He considers that it is one
of the best in the Empire, and has
reason to be proud of its record
during the war.

Mr. Todhunter in the course of a
chat with The Times last evening
stated that his present tour, which
has embraced Australia and New
Zealand, is not for business pur-
poses. He found New Zealand the
most prosperous of any of the
countries he has visited since Armi-
stice. The reason for that circum-
stance, he stated, was that the
country's industries were dependent
on primary production and thus with
the heavy demand for foodstuffs and
wool, the Dominion was in a very
advantageous condition accordingly.

In Australia, particularly in New
South Wales, he found a great deal
of industrial unrest, but he does not
think the Australian Trade Unionist
an extremist, the unionists now
gradually eliminating the extreme
radical policy. He foresaw a great
metal industry developing, particu-
larly from the recent discoveries
in South Australia, and a sub-
stantial increase in the export of
gold from Western Australia. In the
last named state it is due to the ex-
tension of mining beyond the Golden
Mine at Kalbarri, and the newly dis-
covered field at Hampton Plains, in
Western Australia, where great
activity is in progress. Hampton
Plains is an abandoned field, which
is now coming into the limelight
again.

Mr. and Mrs. Todhunter will con-
tinue their journey to England in a
few days.

**READY TO MEET
IN QUEBEC TUESDAY**

Union of Canadian Municipal-
ities Has Vital Conven-
tion Topics

Victoria will not be represented at
the annual convention of the Union
of Canadian Municipalities, which
will open in Quebec on Tuesday, last-
ing three days.

In the conference call issued by
W. D. Lightall, K.C., the honorary
secretary-treasurer, the following ap-
pears:

"Experienced municipal men have
for many years valued and realized
the necessity of the Dominion-wide
Municipal Union, to aid in the solu-
tion of civic problems, and for mutual
protection from vicious legislation.
If it were fully realized by the Coun-
cils of all our municipalities, just
what the Union of Canadian Muni-
cipalities stand for, and what powers
we have, and what authority we ex-
ert, and have exercised, there would
be no question of support and co-
operation.

"A new start is now before us. In-
terprovincial municipal relations to-
day have a new, and a greater im-
portance in Dominion-wide affairs
than ever before. By the war, every
municipality is affected, more or less,
in its finances, its labor, its public
works—in every phase of its civic and
industrial life—and all are now
struggling with imperfect methods
towards ideals of reconstruction and
reorganization. The way out, and a
new vision can only be found in the
open-hearted councils of the muni-
cipal men of all Canada, in Conven-
tion.

"Among the matters to be discuss-
ed are: Our Municipalities and La-
bor; The Latest Ideas Regarding
Public Health; Incidence of Muni-
cipal and Related Taxation; Housing
Schemes; Municipal Annexations;
Municipalization of Utilities; Recent
Progress of Western Municipalities."

A good shoe is worthy of a shoe tree to keep its shape and prevent wrinkling across the toes. Don't

thrust it into a shoe bag when not in use. For one thing, it doesn't give it a chance to ventilate, and shoe linings absorb so much moisture that they need the best of opportunities to dry. A shoe rack—just a board slanted down from the baseboard of the closet with a cleat tacked along the upper edge to catch the heels—is much better for shoes in everyday use.

PREMIER RECOGNIZES NO REASON FOR HALT

Claim of Marine Department to Johnson Street No Basis, He Says

Recent references to the suggestion of a deadlock in connection with the Marine Department's property and its relation to the Johnson Street bridge have prompted Premier Oliver to write to Mayor Porter advising him that he has no knowledge of any condition which should require special consideration for the Department's claim to an outlet to the proposed new thoroughfare.

In order to give an outlet to the Dominion Government's property to Johnson Street, says Mr. Oliver, it would be necessary for the proposed roadway to cross the E. and N. property, for which no provision has been made, and in respect of which neither the Province nor the city is under any obligation.

The plans provide for the Marine Department's access to the new street by way of the roadway which will run from the Point Ellice Bridge, thence to Johnson Street—a western instead of a southern approach for the Department.

WANTS INFORMATION ABOUT NEW SERVICE

Mr. Oliver Interests Himself on Behalf of Pouce Coupe Settlers

Premier Oliver was in communication over the long distance telephone this morning with D. C. Coleman, Vice-President of the Canadian Pacific Railway Company, in connection with the company's proposals for the future operation of the Edmonton, Dunvegan and British Columbia Railway system with particular reference to the service to the settlers of the Pouce Coupe locality.

Mr. Coleman assured the Premier that the matter would have his attention and would be discussed by him with Premier Stewart of Alberta during the next few days. In the meantime Mr. Coleman will forward all the information available for the Premier's benefit.

MISS LEEMING WINS IN LADIES SINGLES

Tennis Results at Mainland Championships; Mrs. Rickaby in Mixed Doubles

Vancouver, July 22.—Though only five games were scheduled in this morning's play in the mainland tennis championships, the matches resulted in one or two of the best exhibitions seen on the courts in the four days' play. There was one upset when Miss Leeming, the young and coming star of Victoria, won from Miss Henderson, Vancouver, by 6-3, 6-2. Miss Leeming served well with a fine overhead swing and she used excellent judgment in placing her shots, which crossed the net with considerable force. Miss Henderson played a steady game but many of her drives were too long. Miss Neame, Victoria, and Mrs. Cushing, California, are now favored by many for the finals on Saturday.

C. H. Mercer and Mrs. Rickaby (Victoria) succeeded in eliminating Phil Neer, Portland, and Mrs. Cushing in a closely contested three-set match, the third of which went fourteen games before it was ended. Mercer appeared to be off his game at the start, but came strong after the first set. Both ladies were playing at their best.

Mrs. Graham and Miss B. Elliott, Vancouver, advanced another step when they won from Mrs. Hamilton and Miss Lorna Fraser, Vancouver, in straight sets.

Following are the morning scores: Mrs. Graham and Miss B. Elliott beat Mrs. Hamilton and Miss Fraser, 6-1, 10-8.

Miss Leeming beat Miss Henderson, 6-3, 6-2.

Mercer and Mrs. Rickaby (Victoria) beat Neer and Mrs. Cushing, 5-7, 6-4, 8-6.

Mercer and Rhodes beat Hudson (Victoria) and Lewis (New Westminster), 6-2, 8-6.

Mrs. Burbridge and Mrs. Rickaby beat Mrs. Wilcox and Mrs. Hamilton, 6-1, 6-2.

PIONEER MUSICIAN

DIED THIS MORNING

Late Wm. Haynes Came to City With Royal Engineers in 1859

One of the party of Royal Engineers who came out to Victoria aboard the clipper "Thames City" landing April 12, 1859, has passed away in the person of William Haynes, who died at his residence, 1008 Finkney Street this morning after a long illness.

The late Mr. Haynes was born at Sevenoaks, Kent, England, eighty-four years ago. When still a boy he enlisted in the band of the Royal Engineers rising to the position of bandmaster, which rank he held when the regiment came to Victoria in 1859. After leaving the service, Mr. Haynes entered the music-teaching profession, being one of the first in this Province, and many of Victoria's prominent citizens received their early musical education at his capable hands.

A Freemason, Mr. Haynes had been a member of Vancouver and Quadra Lodge No. 2, A.F. and A.M. since 1866. He is survived by his widow, five sons and three daughters.

The funeral will be held, under the auspices of the lodge, on Saturday, July 24 at 4 p.m., from the B.C. Funeral Chapel, where service will be held. Interment will be made at Ross Bay Cemetery.

TO EXPORT MILK IN FORM OF POWDER

Ambitious plans for a great extension of the Danish export of milk are spreading, built on the success of the original milk-condensing plants whose products are now being taken up in England and Canada, after Germany's large schemes of import have been partly checked by the low mark exchange.

The erection of new factories is being rushed, both on the islands and in Jutland, especially since the invention of milk powder had minimized the difficulties of transportation. The weight of the condensed article has so far acted as a handicap to shippers near long distances with

high freight tariffs, but after years of experiments the Danish dairy organizations have now succeeded in making the milk powder which, according to experts, will give results fully equal to condensed milk, if properly kept and treated.

This should mean a new and very welcome export article for Denmark. If the butter export cannot be fully restored.—The Times Trade Supplement, London, England.

HE PAUSES.

"Why ain't you hustling?" "Got to give the horse a chance to catch up," explained the sane salesman. "I loaded all the orders the factory can fill for two or three years."

A healthy body means healthy arteries. The railways are the arteries of Canada

IN the operation of railways Canadians hold high reputations.

The chief Canadian systems are operated over great stretches of territory presenting widely different problems.

Their traffic obligations fluctuate rapidly with the seasons.

Climatic conditions are sometimes difficult. Unusual foresight, skill and determination are called for.

Yet the only unfailing highways for the heavy traffic across the New World from China to France during the war—were Canadian railways.

Canada alone among the allied countries had no war-time transportation crisis. When foreign roads choked under their loads she relieved them of millions of tons. At a time when ships were the need of the hour no ship lost time in any Canadian port through failure of the railways to deliver cargoes at the docks.

To-day the Canadian producer still commands the fastest, the most dependable and the cheapest railway service in the world.

But the foresight that made this record possible could do nothing without MONEY! The skill that kept terminals uncongested had to be backed with MONEY! The determination that drove crippled engines ahead in the face of 40-below gales and mounting snow would in the long run have been useless without MONEY!

Thus to-day the alarming fall in the net revenues of the railways is a menace to railway efficiency. It injures railway credit. It dissolves the reserves needful to meet the expanding needs of a growing country. It imperils national prosperity.

Increased freight rates are imperative therefore, not merely on behalf of railways but in the interests of Canada itself!

This is the first of a series of advertisements published under the authority of The Railway Association of Canada formerly the CANADIAN RAILWAY WAR BOARD

VICTORIA CADETS PLEASED OFFICERS OF CANADIAN SHIP

Capt. A. O. Cooper, of S.S. Canadian Importer, Compliments Navy League

The officers of the Canadian Importer were highly pleased and not a little astonished with the type of boys sent over from Victoria, said P. A. Rayner, secretary of the local branch of the Navy League on his return from Vancouver to-day after seeing G. R. Newell and W. R. Nunn, sailor cadets, safely installed in their new quarters on the Canadian Government carrier.

The two boys are the first officer cadets to be sent to sea from the ranks of the Victoria Boy's Naval Brigade. Captain A. O. Cooper and his officers complimented the local branch of the Navy League concerning the prompt manner in which the conditions had been fulfilled and upon the splendid type of cadet supplied.

Both Captain Cooper and Commander Graves, chief officer of the Canadian Importer, are Victorians, so more than ordinary interest will be taken in the youthful seafarers starting out on a seafaring career. The boys are housed and messed in the officers' quarters and they were greatly pleased with their new environment.

To Visit Exporter. The object of the Boy's Naval Brigade is to supply the material to man Canada's new merchant marine and in order to stimulate greater interest in the movement it is proposed to arrange for a visit of the entire brigade to the steamship Canadian Exporter, Captain Bradley, when that vessel enters the Esquimalt drydock within the next few days.

It is proposed to take the members of the brigade down to Esquimalt in a body and let them inspect the class of ship on which they are likely to serve in shaping their careers as ship's officers.

Sail an Emprise. When the Empress of Russia, of the C.P.O.S. fleet, sails on her return voyage to the Far East a week from to-day, she will carry two more lads supplied by the Navy League organization, Jack Ford, of Kamloops, and Edouard Cochrane, son of Mr. Cochrane, of Constant Avenue.

The Navy League invites limited applications from parents desirous of their sons adopting a sea career. All boys entering the Canadian Government Merchant Marine as officer cadets must first have preliminary training in the Navy League organization.

ESTEVAN SOUTHBOUND WITH SKELETON CREW

Men Quit, Claiming That Government Went Back on Its Assurances

Manned by a skeleton crew the Dominion lighthouse tender Estevan is expected to reach port to-morrow from Prince Rupert. Firemen and deckhands left the Estevan at Prince Rupert because of the refusal of the Government to grant the same scale of wages now existing on coastwise vessels, which amounts to a \$10 raise all round.

The men state that they were given assurances prior to the departure of the Estevan on her northbound trip that the increase would be granted. At Prince Rupert they were informed that if they did not like the conditions under which they were working, they had the alternative to quit. The men were paid off at the northern port and came down by the steamship Prince George.

Yesterday the men interviewed the Agent of Marine in a body. Unless the Government decides to pay the prevailing scale of wages there is every indication that the Estevan will have a lengthy stay in port, as considerable difficulty will doubtless be experienced in securing a crew.

The crew of the Newington is still reported on strike at Prince Rupert, where the vessel has been tied up some days.

BUILDING RECORD FOR COUGHLAN FIRM

S.S. Indus on Trials 90 Days After Keel-laying; Fine Type of Craft

Vancouver, B.C., July 22.—With a high run of 13.585 knots and a mean speed of thirteen knots even, the steamer Indus, built by J. Coughlan & Sons for the Swedish East Asiatic line accomplished yesterday one of the most successful trials ever run by the many vessels turned out by this firm.

It was just ninety days since the keel of the Indus, known as hull No. 16 on the Coughlan list, was laid down and John Coughlan received the congratulations of those on board for turning her out in time that is believed to be a record for vessels of her class in the British Empire. Her tonnage is 5,500 dead-weight.

The building of the vessel is believed to be a Canadian record for 5,500-ton ships. The Indus was on trials 53 days after the keel was laid and the working time occupied but 66 1/2 days. Captain Brandt, formerly master of the S.S. Ceylon, is taking over the command of the Indus for the Swedish East Asiatic Company. The Indus will load flour on the Columbia River for Europe.

SCOTTISH SETTLERS TO INVADE WEST

Anchor - Donaldson Official Predicts Big Influx in Next Two Years

British Columbia and other North-west States are threatened with an invasion of Scottish settlers within the next two years, states S. S. Moncur, passenger manager for the Anchor-Donaldson Line, one of the allied corporations of the Cunard Steamship Company. Mr. Moncur paid a return visit to Victoria on Tuesday after accompanying C. A. Whitelock, British Columbia manager for the Cunard Line, on a tour of the Okanagan country. "The movement from Scotland to Western Canada will be heavy," says Mr. Moncur. "The Scottish people realize that they have to come west to get the full opportunities offered them in the new world."

The Anchor-Donaldson Line is making plans to take care of its share of this pending influx from Scotland. The Anchor-Donaldson Line is making rapid progress in restoring its service to a normal basis. The line has two new passenger liners, each of 12,500 tons deadweight, under construction at the Fairfield yards on the Clyde. They will be of the popular one-class type each with accommodations for 520 cabin and 1,200 third class passengers, all the staterooms having from two to four berths. Each vessel will be 520 feet long with a beam of 66 feet and a depth of 44 feet. The company hopes to have these vessels in service by Spring to replace the Athenia and Letitia, which were lost during the war. The two new ships will be named Athenia and Letitia and will ply between Glasgow and Montreal. The Anchor Line, also an ally of the Cunard Line, is building three steamships for its Glasgow-New York service and four others for its New York-Mediterranean route.

BRIEF LOCALS

Expensive Meal Ticket.—The result of an argument over a bill for a meal in the Atlanta restaurant between F. C. Perotta, and Constantine Codkas, the proprietor, resulted in the former being fined \$15 with a further \$2.50 for the cost of the interpreter to take evidence from the Chinese cook against the accused in police court to-day.

Local Resident Bereaved.—Word has been received by Mrs. T. E. Wood, of Gladstone Avenue, of the death of her uncle, the Hon. Mark Dods, of Melbourne, Australia. Mr. Dods, who was a brother of the late Archibald Dods, of this city, was for many years Colonial Secretary and Magistrate of the Fiji Islands and leaves a wife, three daughters, three sons and one brother in Levuka, Fiji, and one cousin, Dr. Marcus Dods, in Edinburgh, Scotland.

Young People's Rally.—Mrs. Jesse Longfield, Edmund Petch, and Harold Roberts will sing in St. Andrew's Presbyterian Church, Sunday, at the evening service which will take the form of a Young People's Rally. This will be the only special recital given by the choir during the summer. All young people of the city will be made welcome. C. R. McGillivray, M.A., will give an address on "The Great Quest."

Thief is Daring.—Conducting his illegal occupation almost in the eye of the law, a sneak thief to-day absconded with a bicycle that had been parked by J. G. Jennings, clerk in the Motor Section of the Provincial Police Office, in front of his office. Jennings left the bicycle to go into the building for a moment, and when he returned the much-prized machine had disappeared.

Firemen's Dance.—The firemen wish to remind their many patrons that the usual weekly dance will be held on Thursday evening. The firemen have installed a new induction fan which makes the hall delightfully cool for dancing, also iced lemonade will be provided as a refreshment. Dancing will be from 8:45 p. m. to midnight. It is anticipated that these dances will discontinue shortly to permit of alterations to the hall.

To Picnic at Patricia Bay.—The members of the Knights of the Thistle, together with the St. Andrew's and Caledonia Society and the Ladies' Auxiliary of the latter organization have decided to hold a joint picnic at Patricia Bay on Saturday, August 14. The party will leave the Caledonia Hall on View Street in trolley-hos at 10 a. m. It will be a basket picnic, but tea, sugar, and milk will be provided free. A fine programme of sports is being arranged and a thoroughly enjoyable time is assured to all those who make the journey. A very capable committee, under the chairmanship of Bob Lauchland is in charge of the affair, and they have a most energetic secretary in the person of Mrs. A. Stevens.

Refuse to Take Convict.—Jack Duffy, who was arrested on a charge of vagrancy here recently, and who has been in jail for the past three months, pending proceedings between the Immigration bodies of the United States and Canada, is to remain in Canada, it was learned to-day. Duffy escaped from the Deer Lodge penitentiary, while under sentence there, and crossed into Canada. So far from wishing the return of the escaped man, the United States authorities have seized upon his admission that he was born in Canada, to leave him in this country. Duffy, who viewed the whole extradition proceedings with interest was released yesterday.

RAILWAY WAGES ARE DISCUSSED IN OTTAWA

Ottawa, July 22.—With the object of drawing a schedule of wage increases that would provide each Canadian railway employee with remuneration according to his responsibility, service and ability, the chairman, vice-chairman and secretary of the eastern and western sub-committees of the Canadian Brotherhood of Railway Employees, are meeting with Grand President A. R. Mosher in Ottawa. The brotherhood has been in negotiation with officials of the Canadian National Railways for some time regarding wage increases, and the award of the United States Labor Board to railway men in that country may possibly simplify their work. "In most cases the increases offered in the United States would be quite satisfactory to Canadian railway employees," A. R. Mosher said this afternoon. He did not, however, think that it would be fair to apply the United States award in Canada without revision.

JAPAN'S RED CROSS DELEGATES HOME

Marquis K. Tokugawa, vice-president of the Japan Red Cross Society, who went to Europe to attend the World Red Cross Conference held in Geneva early this year, has returned to Japan. Dr. A. Ninagawa, adviser on international affairs of the society, who accompanied him to Europe, returned home at the same time.

Twenty-eight different nations were represented at the conference and various matters aimed at promoting human happiness in peace were discussed, according to Marquis Tokugawa. Among the important matters discussed was the proposition to appoint a permanent executive committee of fifteen nations, the nature of its organization being similar to that of the League of Nations Covenant. After the conference was over Marquis Tokugawa and Doctor Ninagawa toured through the principal European countries. This was their second trip through Europe since the war. Marquis Tokugawa was pleased with the high reputation of the Japan Red Cross in Europe. He is ready now to recommend that his society work on a much bigger scale in Red Cross affairs.

Had Narrow Escape.—In attempting to swim across the Nanaimo River, Leo Fourmesous of Cassidy, on July 19, had a narrow escape, and but for the timely assistance of Oswald Thompson, would probably have lost his life.

ESCAPED DEATH AT BOLSHEVIK HANDS

Mr. and Mrs. Barker, Vancouver, Not Killed at Nikolaiievsk as Believed

Vancouver, July 22.—Believed to have perished in the Bolshevik massacre at Nikolaiievsk, Siberia, in May last, Mr. and Mrs. Edward H. Barker, of Vancouver, and their two-year-old child have escaped and in a letter hastily scribbled on board the Japanese cargo steamer Ohta under date of June 25 and mailed from Tokio, Mrs. Edward Barker describes to her mother-in-law, Mrs. D. Barker, 2375 Cambridge Street, the horrors of that flight.

E. H. Barker, a resident of Vancouver for twenty-five years, is an expert gold dredger man, having had Klondike experience. He was engaged by the Orsk Goldfields, Ltd., to go to Siberia and proceeded to the mines near Nikolaiievsk in 1914, accompanied by his wife. The child was born in Siberia.

Eighteen Got Away.

On June 21 Canadian newspapers contained a dispatch from London in which the belief was expressed that the Chukchi, Americans and Europeans at the mine had been killed by the Bolsheviks, and this letter by Mrs. Barker is the first word of their fate. She mentions that the party of fugitives numbered eighteen, with four children, so apparently all managed to get away.

Reign of Terror.

It was on January 21 that the Bolsheviks took possession of the mine, she writes, and a reign of terror followed.

"There were several attempts on our lives," she says and her husband was ordered to start the gold dredges under penalty of being shot. They were kept under close guard. On May 15 they learned of a plot to massacre them. There was a wedding that night, with plenty of vodka and everyone was invited except the Barkers. The plan was for a party of twelve Bolsheviks to come to the house and demand the gold which they believed Mr. Barker had hidden as the product of the mine. If he refused to give it up they were first to torture and mutilate a child and then murder him and his wife.

A Great Experiment.

At the previous international convention, Mr. Scurrah recalled, a committee had been formed to study the question of industrial relations and in a report on the subject to the next assembly. This report, Mr. Scurrah thought, was one of the most important matters considered, while the address of Judge Huggins, of Topeka, Kansas, on the same subject, he felt, was a masterpiece. Judge Huggins, said Mr. Scurrah, had been called into conference with Governor Allen of Kansas during the

A Fight.

They were to set sail in open boats on the morning of June 1, but as the baggage was being loaded a force of Bolsheviks arrived in three cutters and opened fire. They were after

thirty-seven ponds of gold from the mine. A pond, Mrs. Barker says, is equal to thirty-six pounds.

A vigorous engagement ensued which the Chinese forces won, but their friend Kamarov was taken by the Bolsheviks and later killed himself and his wife to avoid torture, Mrs. Barker learned.

MUCH ACCOMPLISHED BY BIG CONVENTION

Rotarians Told of International Rotary Assembly at Atlantic City

The international character of the gathering, discussion of industrial relations and consideration of boys' work were three features of the big International Rotary Convention held in Atlantic City some weeks ago, Rotarian P. B. Scurrah told the Victoria Rotary Club at its weekly luncheon to-day, Mr. Scurrah, with Rev. P. A. Chadwick, represented the Club at the Convention.

Mr. Scurrah recalled that a new system of governing International Rotary also had been approved by the Convention and, if ratified by the district conference during the next year, would take effect. This provided for the creation of nine Rotary Districts, six in the United States, one in Canada, one in Great Britain, and one in Cuba. Each of these districts would be represented in the international executive, so that all sections would be assured of representation.

Canadian Rotary, said Mr. Scurrah, was successful in electing Crofford McCullough, of Fort William, first Vice-President of the International Rotary—after Alex. MacFarlane, of Vancouver, had withdrawn his nomination.

Mr. Scurrah felt that never at any previous convention had the British delegates come to understand so closely the ideas of American Rotary, and never before had American Rotary appreciated so fully the activities of the British Rotarians. Indeed, the international character of the convention, he said, was one of its most important features.

As a result of the discussion on boys' work, the speaker remarked, International Rotary would continue to press a broad and useful boys' work programme. Mr. Chadwick will discuss this matter more fully with the local Rotarians on his return from the East.

The International Convention will be held in Edinburgh, Scotland, next year if transportation facilities can be secured, said Mr. Scurrah.

Two-minute speeches by a number of Rotarians on what they would do if they had to lead their lives over again were a feature of to-day's programme. Rotarian George G. Bushby scored a decided hit with the assertion that, after learning all there was to learn about the shipping business, he would found the biggest shipping company in the world, and use it to promote the interests of the Boy's Navy Brigade.

The Club to-day accepted the challenge of the Kiwanis Club to a friendly cricket game, to be played in aid of the Hospital Fund. The Club is confident that it can field a winning team.

Among other visiting Rotarians at to-day's luncheon was Alex. MacFarlane, of Vancouver.

Castoria, or Something Else?

FLETCHER'S CASTORIA is particularly a preparation for Infants and Children. It is made agreeable to the taste, acceptable to the stomach and pleasant in its action. It has been in use for over thirty years and has always been one of the most highly esteemed of all cathartic preparations.

It has one great advantage over other preparations of its kind in that while it opens the organs readily and completely, it does not have a tendency to produce subsequent constipation so much to be dreaded.

Fletcher's Castoria having been prepared solely for our little-ones, should not be confused with ordinary cure-alls or preparations primarily compounded for grown-ups. The child's organism, so delicate and tender, requires specially prepared medicines and foods, the one no less than the other, as mother-love we knows, and mother-love can not be deceived.

Children Cry For Fletcher's CASTORIA

What is the Matter with Baby?

It cries fretfully, is restless and does not sleep well, its bowels do not move or it has diarrhoea, it does not eat or it has flatulence and vomits easily. You know baby is sick. You want to help baby get well safely and quickly.

If you are wise you will use Fletcher's Castoria, the wonderful remedy for babies' ills, that was discovered by a family doctor and that has been used for over thirty years.

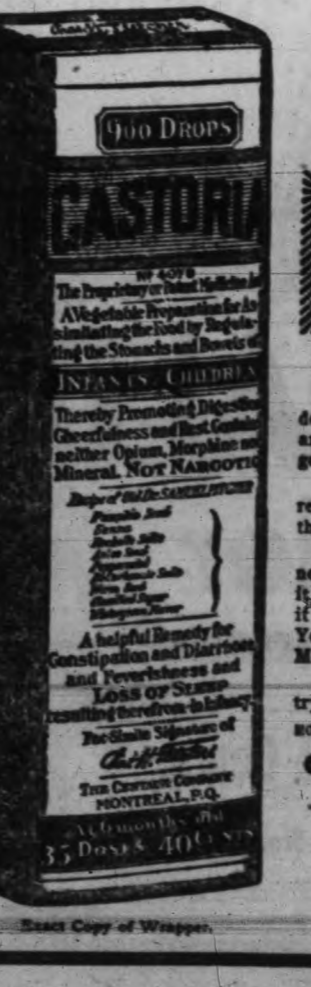

When you have learned the value of Fletcher's Castoria you will never be without it, you will tell other mothers what a useful remedy it is. You will be able to keep baby well and happy by using it to keep its stomach sweet and its digestive organs acting naturally. You will call Fletcher's Castoria the Children's Comfort and the Mother's Friend.

Don't say tomorrow—try it today. And above all things don't try to relieve baby with a remedy that you would use for yourself.

They average 175 pounds per man and constitute the heaviest crew that has ever rowed in an N. P. A. O. regatta. Games at the Stadium, though doubtless there are some omissions due to delayed mails. Sweden is in for all the events except the walks and tug-of-war; Great Britain is entered for all except the pole vault and javelin, while Italy will take part in all but the hammer throw and shot put. The list for virtually all events in the boxing contests includes the United States, South Africa, France, Holland, Norway, Italy and Great Britain, while Switzerland will send only welterweights.

LOCAL TENNIS STARS

STILL WIN MATCHES

Mrs. Rickaby Lost in Ladies' Singles, But Other Players Disposed of Opponents

Vancouver, July 22.—Brilliant tennis was served up to the large gallery of enthusiasts who attended the third day's play of the Mainland Tennis tournament at the Vancouver club's court yesterday afternoon.

In the men's singles Verley, former Manitoba title holder, showed marvellous control and beat Phil Bettens, the California crack, Irving Weinstein, Bettens' partner from the South, played G. D. Holmes at his own game—steadiness—and won handily in straight sets. The winner's exhibition was a pretty one. Wally Scott, winner at Spokane, and young Phil Neer, Oregon state champion, both came through their matches in fine style.

The doubles match, Holmes and Verley against Bettens and Weinstein was one of the finest displays of the day. The Winnipeg pair, showing great steadiness, combination and head work, were returned winners over California's cracks.

Some beautiful tennis was seen in this match. Mercer and Greaves put up a brilliant game against Phil Neer and Henry Stevens, but lost out in the odd set. The local pair played well and their taking of the terrific smashes of their opponents was beautifully timed. Neer had the misfortune to break a racquet, which unsettled him for a time. After he settled down he played brilliantly.

DOUBLE WINNERS

Capitals Open Up

After surviving the first inning without much difficulty, MacKay ran into a sea of trouble in the second. The first thing he did was to crack Carman in the ribs with a wild heave. Dempsey followed with a single to left. Neighbors and Cunningham both flew out, but Young caught a fast one on the end of his bat and it dropped against the right-field fence. Carman scored on the drive. Elliott sent Dempsey across with a slashing drive through the infield.

Twelve Capitals went to bat in the third inning. Leard and Brown each worked MacKay for a walk. Carman drove a hot one to left, but Nixon grabbed it. MacKay tried to throw the ball into the stands and both base-runners advanced. Dempsey delivered his second single of the game and scored Leard and Brown. Neighbors played a drive over second and Cunningham got his midriff in the way of a wide one, filling the bases. Young hit a slow bouncer to MacKay, who booted it around, allowing Dempsey to score. Elliott pierced the infield with a hot drive and Neighbors romped home. Jimmie Church tried to clean up with a hit, but MacKay beamed him, forcing in Cunningham.

Yanked.

Hoffman could not bear to see MacKay toil along any further and advised him to take a short rest. The little fellow went to the dugout to recuperate for another effort later in the week. Bill Reid, a cheery southpaw, did the relief work. Leard showed Reid that there was a tough job ahead of him by clouting the first ball through third for a single, scoring Young. Brown lifted a high ball to centre, but Cuyler pulled it down after a pretty run. Carman grounded out, ending an awful span of baseball.

Young tried to tease the Giants with a few of his assorted floaters, but they came back with a vicious kick. Grant lifted a single over the infield, and Nixon chased him across the pan with a drive that went for two bases. Hoffman got in wrong with the umpire, and took his revenge on the poor little ball, crashing it along the left foul line for a pair of bases. Boelzle popped a Texas Leaguer behind second and Robke, a Victoria cast-off, scored Hoffman with timely single. Shannon sent Boelzle home with the Giants last tally, when he singled to left.

Both Pitched Well.

From then on both pitchers went smoothly. Young only allowed two hits in the last five innings. Reid

MacKay Made Mess of Things and Caps Won

Little Seattle Twirler Looked Bad on Mound Yesterday; Crowded Everything He Knew in Less Than Three Innings; Cy Young Was in Trouble in Only One Inning; Helped Win Game By His Own Hitting

Victoria, 10; Seattle, 3.

Cy Young went into the pitcher's box at the Stadium yesterday afternoon with his right sleeve full of slow balls and in all but one inning he had the Giants popping up easy flies and lying gentle rollers along the ground. It was a soft game for the old-timer. He had no cause to worry as his team-mates gave him an eight-run lead in the third inning. In the fourth inning Cy became a little reckless and began to feed the Giants a string of slow ones that did not carry much more than a prayer with them. Six of these slow balls came into violent collision with the bats wielded by the Giants and three runners crossed the plate. Then Bill Leard hustled in from second base and in his polite manner whispered something in Cy's ear which had the effect of stopping the rally.

MacKay, the diminutive hurler, whom Hoffman carries around with him, went in to stop the Capitals in their victorious march to the pennant, but he got enough in less than three innings to do most pitchers for a week. What MacKay did not get out of his system is not known to baseball. Besides letting the Caps slaughter his offerings, he hit three men, made two errors, got three passes and uncorked a wild pitch.

After surviving the first inning without much difficulty, MacKay ran into a sea of trouble in the second. The first thing he did was to crack Carman in the ribs with a wild heave. Dempsey followed with a single to left. Neighbors and Cunningham both flew out, but Young caught a fast one on the end of his bat and it dropped against the right-field fence. SHAMROCK HAS GOOD CHANCE TO-MORROW

Yesterday She Out-reached Resolute; Next Race Has Two Leg on Reaches

Sandy Hook, N. J., July 21.—The crews of both boats—thirty-five on Resolute and forty on Shamrock IV, including skippers and observers, had an easy time of it yesterday on the home stretch, with no sails to shift, and they crouched aft, apparently "pulling" for their sloop to win.
For half an hour after the start, Shamrock held inshore and was almost in shoal water. When she tackled it was seen at once she had no chance to weather Resolute. The defender waited until assured that she had the weather berth and then tackled almost on top of Shamrock. This practically settled the race. Captain Burton tried every possible sea trick to squirm out from under Resolute. He made four or five fake tacks in the hope of leaving Resolute in irons. Captain Adams was not to be caught napping, in fact, Resolute gained a few hundred yards by these fake tacks.
The two yachts made more than twenty tacks between the Highlands and Long Branch.
Finally, Resolute stood for the mark in a long six-mile board off shore. Shamrock soon followed and for more than half an hour the yachts ploughed through the waves, for the breeze increased to nearly twelve knots and at times the water rushed over the lee rail.

Shamrock Faster.
The last mile was made with slightly started skets and on this point of sailing Shamrock proved herself a trifle faster than Resolute. In fact, the last mile was quite significant, in view of the fact that the next race will be over a triangular course with two legs on broad reaches.
If Shamrock can outreach Resolute on the two-mile legs to-morrow by eight or ten minutes she may make up for loss of a minute or two on the beat to windward and give her the third and deciding race.
Resolute rushed around the mark in a very narrow circle and had her spinnaker blossoming out one minute and 35 seconds later. Shamrock made a wider turn and took half a minute longer in breaking out her spinnaker.
It was a straight-away slide down to the finish with Shamrock getting the better wind-astern, the breeze softening as the yachts ran along. Half-way to the finish Shamrock had cut Resolute's lead in half. Three miles from the line it had been reduced to 300 yards and a half mile from the lightship the two yachts were sailing side by side.

OPPORTUNITY TO AID JEWISH RELIEF FUND WILL END NEXT WEEK: POLISH CHILDREN USE FLOUR SACKS TO ATTEND SCHOOL.

Nothing goes to waste from American Jewish Relief supplies in Poland. Here are little tots from the orphanage at Grodno, dressed in sacks, which brought flour to the destitute people of Poland. With no supplies to fill the acute demand for clothing, Jewish Relief workers gathered up all the empty flour sacks available and made warm outer garments for the children, who are the worst sufferers from lack of clothing. These children are also wearing shoes, stockings and hats furnished them through Jewish Relief funds.

ELKS TRIM VETS AND ARE LEAGUE LEADERS

MacFarlane's Players Could Not Hit Balcom; Straith Unable to Limber Up

Amateur League Standing.

Colleries-G. W. V. A. 7 5 .583
Yarrows 5 5 .500

Knights and Yarrows have one tie game to play off.

After leading the league for several weeks the Colleries-Vets had their footing knocked away by the Elks at the Stadium last evening and slipped down a rung. Lorimer's squad of ball-heavers had strict orders to win the game and when Alex Straith failed to get his arm in shape owing to the cold, their task was made rather easy and they won by 5 to 1. As a result the Elks now lead the league for the second time this season and the Vets are in second place with Yarrows, holding on to the third berth, and the Knights nosing around in the cellar.

The main credit of the Elks' win goes to Balcom who twirled a splendid game. Only three of the Vets were able to hit him safely, Jackson, Lalonde and Straith getting a pair of hits apiece. The other Vets could do nothing with his slants and ten of them went out on strikes.
For seven innings the Vets did not get a runner passed second. In the ninth Jackson lifted out a home run and saved the former league-leaders from a shut-out.

Got Early Lead.
The Elks got an early lead. They shoved over two runs in the first and two more in the third. Their last run came in the fifth. The Elks did a lot of heavy hitting. Green and Minnis getting home runs, Bob Whyte a three-bagger and green a double.
The Elks seem to be striking a stride which will land them the bunting. Yarrows may come through and upset the dope, but on present form the Elks looked like the best of the four.

NATIONAL GRADES FOR DAIRY EXPORTS
Proper Standardization of Commodity is Essential to Success.
With the resumption on a large scale of foreign trade in farm products, made possible by the removal of war restrictions and the establishment of normal business relations, the question of a national system of grading for all products destined for export has again come to the fore. Both producers and sellers are showing a lively interest in this matter, not only in America but in other countries as well.
That a system of national grading is desirable for all agricultural products which may be exported is generally conceded, and for no kind of exports is such a system more important and essential than for dairy products.
It has been demonstrated many times that in the markets of the world the seller with the best graded products is the favorite, because graded goods are standard and the buyer knows what he will get when he buys. Standardization establishes a common language between the buyer in one country and the seller in another, which creates understanding and confidence and prevents disputes.
A national grading system usually provides for authorized national inspectors to pass upon the goods and this puts into effect a uniform standard application of the grades established, whatever they may be, that cannot be maintained unless the system is nation-wide in its scope.
In fact experience has shown that the decisive factor in the development of foreign business often hinges on the proper standardization and grading of the products to be sold. The importance of a grading system will be recognized by the producers and exporters of American dairy products when they realize that only by obtaining a satisfactory outlook for the entire production can they present a situation in which the production of a small surplus will not result in depressed conditions on the domestic markets. When the foreign outlet is handicapped by difficult trading methods, such as a lack of national grading, the burden of surplus falls most heavily on the producer. The Market Reporter, U. S. Department of Agriculture.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nineteen years. Now made in Canada. Handy tin boxes containing 12 tablets cost but a few cents. Druggists "Aspirin" in an unbroken "Bayer" package. There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer Manufacture, to assist the public against imitations, the Tablets of Bayer Compound will be stamped with their general trade mark, the "Bayer Cross."

DELIGHTFUL SMOKER GIVEN BY COMRADES

Some two hundred members of the Comrades of the Great War and a number of guests enjoyed a delightful smoker at the Comrades Club last night.

A splendid programme of songs and music was the feature of the entertainment arranged by the Secretary, Comrade MacIntyre, and his able committee, some of the best hits being: Piano forte selection by J. Moffat; songs by Thomas Kelway, Harry Morton, W. E. Povah, D. Rylands, H. Fotts, E. Butterworth and Mr. Corbett.

A most exciting boxing exhibition was staged by Pat Steele, W. Blair, N. Burnett and Frank Matthews.

As special guests of the evening there were present the members of the Victoria and Seattle ball teams. The manager of the local team expressed the appreciation of the play-

ers for the entertainment afforded them.

Liquid refreshment and "smokes" added to the gaiety of the occasion. Dr. Palmer made a most acceptable chairman.

CONSIDER THIS WOMAN'S CASE.
Mrs. A. L. DeVine of Los Angeles, Cal., says: "After I had suffered from a female trouble for years, not being able to do my housework, or get any relief from doctors, Lydia E. Pinkham's Vegetable Compound made me a well woman, and I want to tell the world the good this medicine does." This woman is perfectly justified, and should be commended for telling others how she regained her health.

MAKING SURE.
"What is your opinion on the liquor question?"
"Well, sir, I'm seeking votes in this community, and before I answer that question I should like to know where you stand."

HON. J. D. REID TO SPEAK ON MONDAY
Minister of Railways Will Be Guest of the Canadian Club

The executive of the Canadian Club has completed arrangements for the Canadian Club luncheon to be tendered to the Hon. J. D. Reid, Minister of Railways, in the Empress Hotel ballroom on Monday next at 12 o'clock noon.

Hon. Dr. Reid will address the club upon the Transportation Problems of Canada and in view of the enormous importance of this subject in the Dominion at the present time and the financial obligations which the Dominion is carrying, the address of the Minister is being anticipated with much interest.

Some reference will doubtless be made to transportation problems which directly affect this city.

The members of the Women's Canadian Club are cordially invited to be present at 12.30 p.m. to hear the address.

HOW FORMER VICTORIAN LOST LIFE IN WHIRLPOOL

The drowning accident at Beasley, on the Kootenay River, in which George Donald Kurtz and his son Donald lost their lives, is described in The Nelson News to hand to-day.

H. D. Kenny, who alone survived the accident, reports that a fish being caught by Mr. Kurtz released the oars to assist in the landing, when the boat was drawn into an unobserved whirlpool stern foremost, raised on end, and capsized, precipitating the occupants into the river.

Mr. Kenny stated he was a long time in reaching the shore, but found he was much nearer the shore, and in a back eddy when he could see his whereabouts. He struggled desperately for the shore, and as he climbed over the rocks, turned, and saw Mr. Kurtz a short distance from him assisting Donald Kurtz to the shore.

Mr. Kurtz shouted for assistance, and Mr. Kenny answering him glanced hurriedly around in search of a pole to tow the swimmers ashore, but another glance towards them showed they had disappeared.

Mr. Kurtz Born Here.

"The late Mr. Kurtz was born in Victoria about 1890, the son of David Kurtz, his mother having been a Miss Redfern, sister of Charles Redfern, one time Mayor of Victoria," says The Nelson News.

"He was educated and made his first start at work in that city, where as a member of the 5th Garrison Artillery, he carried off a prize for gunnery.

"Coming to the Kootenay with C. W. Busk, in 1896, he lived at Balfour, and later at Kokanee, where he was a partner with Mr. Busk on the latter's ranch.

"Receives Medal.

"Later he took to steambating on a tug on which Mr. Busk was master, and shortly afterwards joined the C. P. R. service on the tug Proctor under Capt. D. C. McMorris. He rose rapidly, gained his master's certificate, and was put in charge of different tugs by the company, and while still in the service, saved the life of a dockhand in a storm, for which he was publicly presented with the Royal Humane Society's medal and certificate by the then Mayor of Nelson.

"After leaving the C. P. R. service he engaged in a teaming business in the city on his own account, and joined forces with George Ferguson, who was also in the same class of business, under the name of the Nelson Transfer Company, which was suit at the expense of Mr. Busk, who also owned the land on which the present buildings of the company are located.

His Family.

"The partners later purchased the stables and land, and finally organized the Nelson Transfer Company, Ltd.

"Mr. Kurtz was about forty years old. He leaves a wife, nee Miss Lola Koch, and two children, William, aged nine, and Gloria, aged four. His two brothers, Christian Charles Kurtz, of New York, and David Carl Kurtz, of Los Angeles, Cal., also survive him. The late Mr. Kurtz was a Mason."

THE ONE TO TELL.

"You've got indigestion; that's what's the matter with you," said the doctor.

"Oh, that's what it is, then?" inquired the patient.

"That's it. You've been eating a lot of meat, I suppose?"

"I have, yes."

"Well, now you're paying for it."

"Would you mind telling my butcher that, doctor?"—Yonkers Statesman.
