Persons interested can obtain copies of the text of the Alaska Game Law and other Federal laws relating to the protection of wildlife in the Territory by writing to the Alaska Game Commission, Juneau, Alaska, asking for Circular No. 16. Following are extracts from the law that are of general interest and importance to hunters and trappers:

CITIZENSHIP AND RESIDENCE REQUIREMENTS¹

Section 3 of the Alaska Game Law defines citizens and specifies residence requirements as follows:

That for the purposes of this act a citizen of the United States who has been domiciled in the Territory for the purpose of making his permanent home therein, for not less than 1 year immediately preceding his claim for resident privileges or a foreign-born person not a citizen of the United States who has declared his intention to become a citizen of the United States, and has been domiciled in the Territory for a like period and purpose, shall be considered a resident; but if such a foreign-born person shall not have been admitted to citizenship within 7 years from the date he declared his first intention to become a citizen, he shall thereafter be deemed to be an alien until admitted to citizenship. A foreign-born person not a citizen of the United States who has not declared his intention to become a citizen of the United States, or who has not resided in the Territory for at least 1 year after having declared such intention, shall be considered an alien: *Provided*, That whenever the Secretary of Agriculture² shall determine that the economic welfare and interests of native Indians or Eskimos, or the fur resources of Alaska, are threatened by the influx of trappers from without the Territory, he may, in his discretion and for such periods as he shall determine, require that citizens of the United States who are nonresidents of the Territory, and foreign-born persons and aliens within the meaning of this act, shall have resided in Alaska for a continuous period of 3 years instead of 1 year before being eligible to obtain resident trapping licenses under the provisions of the Alaska Game Law, as amended, and regulations issued pursuant thereto.

UNLAWFUL TAKING OF ANIMALS AND BIRDS

Section 8 of the Alaska Game Law contains the following regarding the taking of wild animals and birds:

¹ See Secretary's declaration requiring residence in the Territory for 3 years before eligibility for resident trapping license, p. 24.

That, unless and except as permitted by this act or by regulations made pursuant to this act, it shall be unlawful for any person to take, possess, transport, sell, offer to sell, purchase, or offer to purchase any game animal, land fur-bearing animal, wild bird, or any parts thereof, or any nest or egg of any such bird, or, except under regulations of the Secretary of Agriculture,² to molest, damage, or destroy beaver or muskrat houses: *Provided*, That nothing in this act shall be construed to prevent the collection or exportation of animals, birds, parts thereof or nests or eggs of birds for scientific purposes, or of live animals, birds, or eggs of birds for propagation or exhibition purposes, under a permit issued by the Secretary of Agriculture² and under such regulations as he may prescribe. Land fur-bearing or game animals which escape from captivity, unless recaptured by their owners, in accordance with regulations prescribed by the Secretary of Agriculture,² and all fur and game animals hereafter introduced into Alaska are declared to be wild fur-bearing or game animals and shall be subject to the provisions of this act.

PENALTIES

Section 15 of the Alaska Game Law makes the following stipulation regarding penalties:

That unless a different or other penalty or punishment is herein specifically prescribed, a person who violates any provision of this act, or who fails to perform any duty imposed by this act or any order or regulation adopted pursuant to this act, is guilty of misdemeanor and upon conviction thereof shall be fined not less than \$25 nor more than \$500 or be imprisoned not more than 6 months, or both; and in addition thereto, any person convicted of a violation of any provision of this act who is the holder of any form of license issued thereunder shall thereupon forfeit said license and shall surrender it upon demand of any person authorized by the Commission to receive it, and upon a second conviction he shall not be entitled to, nor shall he be granted, a license of such form for a period of 1 year from date of such forfeiture, and upon a third or successive conviction, for a period of 5 years from the date of such forfeiture; and any cooperative store operated exclusively by and for native Indians or Eskimos, or any store operated by missions exclusively for native Indians or Eskimos, without a license as provided in this act, upon a second or third conviction for violation of this act, shall not be entitled to engage in the business of dealing in furs for such time as the court before whom such conviction is had may decide: *Provided*, That such prohibition shall not be imposed for the first conviction, nor for a period in excess of 1 year from date of the second conviction, nor for a period in excess of 5 years from date of the third or any subsequent conviction; that all moneys from fines shall be transmitted by the clerk of the court to the executive officer to be disposed of as are other receipts of the Commission.

(g) The permit unless otherwise provided therein shall expire on December 31 of the year of issue, shall be revocable at the discretion of the Secretary, and shall not be transferable. A permit revoked by the Secretary shall be surrendered to him by the person to whom issued on demand of any employee of the United States Department of the Interior or of the Commission authorized by the Secretary to make such demand.

(h) The holder of a permit to take, possess, buy, sell, exchange, or transport such animals or birds or eggs of birds for propagation shall on or before the 10th day of January of the year following the issuance of the permit, or as required by such permit, with respect to such animals, grouse, and ptarmigan report to the Alaska Game Commission, Juneau, Alaska, and with respect to migratory waterfowl, report to the Secretary of the Interior, Washington, D. When such package is transported out of the Territory the permittee must at the time forward to the collector of customs at the port of clearance a copy of his permit bearing the seal of the United States Department of the Interior and a list correctly showing the number and kinds of animals or birds, or parts thereof, or the nests or eggs of birds contained in the package, and in the event subsequent packages are exported under the one permit, such a list of the contents of each such subsequent package, together with a reference to the number of the permit, shall be mailed to the collector of customs at the port of clearance.

REGULATION 33 [sec. 91.33].—LICENSE, GUIDE, OR OTHER REQUIREMENTS

DECLARATION REGARDING STATUS OF BLACK BEARS IN ALASKA

SECTION 91.1a. Inquiry and investigation having been conducted in Alaska to determine whether and in what part of the Territory the black bear and its color variations are predominantly hunted as game animals rather than as fur bearers, and it having been found by me that the black bear and its color variations are predominantly hunted as game animals rather than fur bearers in Alaska, by virtue of the Alaska Game Law of January 13, 1925 (43 Stat. 739), as amended by act of February 14, 1931, 46 Stat. 1111 (48 U. S. C. 198), and as further amended by act of June 25, 1938 (52 Stat. 1169), I [E. K. Burlew, Acting Secretary of the Interior] do hereby declare that the black bear and its color variations are predominantly hunted in Alaska as game animals rather than as fur bearers. (5 F. R. 2297, June 19, 1940.)

DECLARATION OF THE SECRETARY OF THE INTERIOR REGARDING ELIGIBILITY FOR RESIDENT TRAPPERS' LICENSES IN ALASKA

SECTION 91.2a. Inquiry and investigation having been conducted in Alaska to determine whether the economic welfare and interests of native Indians and Eskimos or the fur resources of Alaska are threatened by the influx of trappers from without the Territory, and it having been determined that the economic welfare and interests of native Indians and Eskimos and the fur resources of Alaska are threatened by the influx of trappers from without the Territory, I, E. K. Burlew, Acting Secretary of the Interior, do by virtue of authority of the Alaska Game Law of January 13, 1925 (43 Stat. 739), as amended by Act of February 14, 1931, 46 Stat. 1111 (48 U. S. C. 198), and as further amended by act of June 25, 1938 (52 Stat. 1169), require that citizens of the United States, who are nonresidents of the Territory, and foreign-born persons and aliens within the meaning of said Alaska Game Law shall have resided in Alaska for a continuous period of 3 years instead of 1 year before being eligible to obtain resident trapping licenses under the provisions of the Alaska Game Law, as amended, and regulations issued pursuant thereto. (Sec. 3, 43 Stat. 739 as amended by 52 Stat. 1169, 48 U. S. C., Sup. IV., 207—5 F. R. 2297, June 19, 1940.)

REGULATIONS OF THE ALASKA GAME COMMISSION RELATING TO GUIDES, POISONS, AND RESIDENT TRAPPING AND HUNTING LICENSES

[As adopted by the Alaska Game Commission on February 17, 1940, effective July 1, 1940, 5 F. R. 2297, 50 C. F. R. 92]

Regulation A [sec. 92.1]. Employment of Guides by Nonresidents and Aliens⁹

Nonresidents of the Territory or aliens taking game animals for any purpose, or polar bears for sport or trophies, or going afield to photograph large brown or grizzly bears, except nonresident Federal officials engaged in wildlife investigations in Alaska exempted by special permit of the Commission, are required to employ and be accompanied by a guide registered with and licensed by the Commission; but no such guide shall accompany in the field more than one nonresident or alien, except husband and wife and minor child all of whom are in possession of the required hunting licenses.

Regulation B [sec. 92.2]. Qualifications for Guide Licenses and Issuance Thereof

Only resident citizens who have resided in the Territory for the 5 years immediately preceding application for registration and a guide license will be registered and licensed to act as guides for nonresidents and aliens taking game animals for any purpose, or polar bears for sport or trophies, or going afield to photograph large brown or grizzly bears.

The Alaska Game Commission will establish guide districts and maintain a register of such persons as are duly qualified and licensed to act as guides in such districts.

Applications for such registration and guide license shall be made on a form issued by the Commission and shall state applicant's citizenship and resident status, age, physical characteristics, permanent address, and district or districts in which he desires to operate, together with full information relative to his qualifications to act as guide, and shall be subscribed and sworn to by the applicant before an officer authorized to administer oaths.

Upon receipt of such application the Commission, through one of its members or such person as it shall designate, will arrange to determine, by such written and oral examinations and otherwise as it shall require, the qualifications of such applicant to act as a guide and his knowledge of the Alaska Game Law and regulations.

The member of the Commission or other person authorized to conduct such examination shall promptly file his report thereof with the Commission, together with his recommendation thereon, which report and recommendation shall be attached to the application and considered and determined at a regular or special meeting of the Commission.

If the Commission determines that the applicant does not possess sufficient field experience to qualify him to act as a principal guide but has all other qualifications, an assistant guide license may be issued to him, which shall authorize him to act as assistant to a principal guide.

In cases of emergency the Executive Officer of the Commission may, after investigation and satisfying himself of an applicant's qualifications, issue a special guide license to him upon payment of the required fee, authorizing him to guide the nonresident or alien hunter named in the application for such special license.

⁹ A list of licensed guides may be obtained upon request addressed to the Alaska Game Commission, Juneau, Alaska.

Extension or renewal of guiding privileges authorized by any guide license shall be made, in the discretion of the Commission, only upon examination and approval as hereinbefore provided.

A registered guide license must bear the signature of the Executive Officer of the Commission. Each license shall expire on June 30 next succeeding its issuance, shall be revocable at the discretion of the Commission, and shall not be transferable.

Each licensed guide shall submit to the Commission, immediately upon completion of a hunting or photographing trip, a report containing the name and address of the nonresident or alien for whom he acted as guide, period covered by his services, number and species of animals taken, wounded and not secured, numbers and localities of each species of big game animal observed on the trip, and such other information as the Commission may require.

Regulation C [sec. 92.3]. Designation and Use of Poison

Pursuant to section 9 of the Alaska Game Law, the following substances are by the Commission designated poisons: Strychnine, arsenic, phosphorus, antimony, barium, the cyanides, corrosive sublimate, or any derivative or derivatives, compound or compounds thereof, which, by said section 9, are forbidden

- (1) to be used at any time to kill any game or wild fur-bearing animal or bird,
- (2) to be put out where any game or wild fur-bearing animal or bird may come in contact with it,
- (3) to be sold or given to any hunter or trapper, or
- (4) to be possessed by any hunter or trapper.

Any person selling or otherwise disposing of any of the aforesaid poisons is required by said section 9 of the Alaska Game Law to keep a record in a special book showing the name and address of each person purchasing or otherwise procuring said poison, and the kind and amount thereof, such record to be, at all times, open to inspection by any wildlife agent or other officer authorized to enforce the Alaska Game Law and information thereof to be transmitted monthly to the Alaska Game Commission.

Regulation D [sec. 92.4]. Resident Trapping and Hunting Licenses

No resident of the Territory over 16 years of age, except a native-born Indian or Eskimo, shall take game animals, land fur-bearing animals, or birds in the Territory without first having obtained a resident hunting license for game animals or birds or a trapping license for land fur-bearing animals, but a person who is the holder of such trapping license shall be entitled to the privilege of hunting game animals or birds during the respective open seasons without a hunting license.

On and after July 1, 1940, all former regulations of the Alaska Game Commission relative to guides, poisons, and resident hunting and trapping licenses shall be and are hereby revoked.

BIRD AND WILDLIFE REFUGES IN ALASKA

On the Alaska bird and other wildlife refuges named below, most of which are administered by the Fish and Wildlife Service through its representatives in Alaska, wild animals and birds are specially protected. In addition, the Mount McKinley National Park, the Katmai, Sitka, Old Kasaan, and Glacier Bay National Monuments, under the National Park Service of the Department of the Interior, are game sanctuaries, all hunting being prohibited in these places. Certain other areas where birds and animals are protected in the Territory are defined by schedules A and B, regulations 5 and 6, pages 21 and 22.

Aleutian Islands (established by Executive order of March 3, 1913).—A chain of islands with vegetation characteristic of the treeless Arctic plains, extending westward 1,200 miles from the Alaska Peninsula, including Unimak Island on the east and Attu Island on the west; maintained for the protection of native birds and game animals, the encouragement of fisheries, and the propagation of reindeer and fur animals. Islands usually rocky and some of them covered with a vigorous growth of grass and lichens. Blue foxes are farmed on many. By Executive order of November 23, 1928, the islands of Akun, Akutan, Sanak, Tigalda, Umnak, and Unalaska, including Sedanka or Biorka, and by Executive order of December 19, 1929, a portion of Amaknak Island were eliminated from this reservation and transferred to the jurisdiction of the General Land Office. By Executive order of April 7, 1930, Amak Island, the Sealion Rocks, and a small unnamed island lying southeast of Amak were added to the reservation.

Bering Sea (established by Executive order of February 27, 1909).—Includes St. Matthew and Hall Islands and Pinnacle Islet in Bering Sea, about 220 miles north of the Pribilofs. St. Matthew, a jagged straggling reach of bluffs and headlands, connected by bars and lowland spits, has an extreme length of 22 miles, and varies in width from 2 to 3 miles. Hall Island, 3 miles to the west, is separated from St. Matthew by Sarichef Strait. Pinnacle Islet is a narrow rock about 1 mile long and 200 yards wide and rises to an altitude of 900 feet so abruptly that there is scarcely a place for a boat to land. Arctic foxes, represented mainly by the normal phase, which turns white in winter, are found in numbers, some coming from the mainland in winter on the pack ice. The rare and beautiful McKay's snowflake is known to breed nowhere except on this refuge, and the Pribilof sandpiper breeds here more extensively than anywhere else.

Bogoslof (established by Executive order of March 2, 1909).—Volcanic islets, in Bering Sea, commonly known as the Bogoslof Islands, about 40 miles north of Umnak and Unalaska, of the Aleutian Islands Reservation. Noted for the large colonies of sea lions, and the rocky portion as being the home of millions of murres.

Chamisso Island (established by Executive order of December 7, 1912).—A reservation about a mile and a quarter long and a half a mile wide, consisting of Chamisso Island and Puffin and other nearby rocky islets in Kotzebue Sound, 2 miles south of the extremity of Choris Peninsula. One of the most important breeding rookeries of Arctic birds along the northwest coast of Alaska, including horned puffins, Pallas's murres, Pacific kittiwakes, and Point Barrow gulls.

Curry and Alaska Railroad (established by Executive order of February 21, 1927).—Certain areas along the Alaska Railroad between mileposts 40.5 and 293 set aside especially as preserves and breeding grounds for muskrats and beavers, but under regulation 5 (p. 6) all game birds and game and fur-bearing animals are protected; and an area comprising 14 square miles surrounding the Government hotel at Curry, Alaska, as a bird, fish, and game refuge.

Forrester Island (established by Executive order of January 11, 1912).—In the Pacific Ocean west of Ketchikan, at the extreme southeastern boundary of Alaska, including Forrester and Lowrie Islands and Wolf and other adjacent rocks. The breeding place of various kinds of sea birds.

Hazen Bay Migratory Waterfowl Refuge (established by Executive order of December 14, 1937).—Situated in Hazen Bay, north of Nelson Island near the north entrance to Baird Inlet, off the west coast of Alaska, and comprising the islands of Nunivakchak and Krigegag. Established for migratory birds and other wildlife. Black brant, and white-fronted, emperor, and little Canadian, or cackling, geese nest on these islands, as well as swans, glaucous gulls, greater scaup ducks, old squaws, and large numbers of eider ducks.

Hazy Islands (established by Executive order of January 11, 1912).—A group of islands in southeastern Alaska, west of Coronation Island and 100 miles north of Forrester. Breeding place for numerous sea birds.

Nunivak Island (established by Executive order of April 15, 1929).—Located in Bering Sea, off the west coast of Alaska. Set apart for use in conducting experiments in the crossing and propagation of reindeer and native caribou and also as a preserve and breeding ground for native birds and wild game and fur-bearing animals. A herd of musk oxen, which now numbers 70 animals, the nucleus of which was reintroduced into Alaska from Greenland in 1930, is now maintained on this refuge. By Executive order of October 22, 1930, Triangle Island and all small unnamed islands and rocks lying adjacent to Nunivak Island were added to this reservation.

St. Lazaria (established by Executive order of February 27, 1909).—At the entrance to Sitka Sound, about 30 miles west of Sitka. The breeding place of certain sea birds.

Semidi Islands Wildlife Refuge (established by Executive order of June 17, 1932).—The refuge, which is in the north Pacific Ocean, southeast of the Alaska Peninsula, includes the islands of Aghiyuk, Chowiet, Kateekuk, Anowik, Kiliktagik, Suklik, Aghik, Aliksemit, and South Island, known as the Semidi Island Group. Colonies of puffins, auklets, and petrels inhabit the refuge.

Tuxedni (established by Executive order of February 27, 1909).—Embracing Chisik, Egg, and other small islands in Tuxedni Harbor, Cook Inlet, set aside as a breeding ground for native birds. Within the Southwestern Fisheries Reservation established November 3, 1922.

BLUE FOX MARKING

[Ch. 67, approved May 1, 1923, as amended by ch. 113, approved May 2, 1929]

SECTION 1. Every person engaged in the business of breeding blue foxes in Alaska shall be the owner of a duly registered brand or mark of identification for marking blue foxes and skins of blue foxes as hereinafter provided.

SEC. 4. Every breeder of blue foxes shall, before disposing of any blue-fox skins and before the same are removed from the breeding ground or fox farm, mark such skins on the inside of back at base of tail with a perforating reproduction of his brand which shall be readily visible.

SEC. 5. All unmanufactured blue-fox skins legally held in Alaska prior to the passage of this act shall, before October 1, 1923, be exhibited to the United States commissioner in the precinct in which such skins are held, together with an affidavit showing where such skins were raised or from whom and at what time the owner obtained the same, and such other facts as will show the possessor's legal ownership of said skins. Such skins shall then be tagged for identification by the commissioner in such manner and pursuant to such rules as shall be provided by the secretary of the Territory. The commissioner shall file such affidavits and keep in his office such records of such skins and their owners.

Unmanufactured blue-fox skins hereafter legally imported or brought into the Territory shall, at the time of entering the Territory, be presented to the United States commissioner of that precinct, and shall be tagged in like manner to those legally held prior to the passage of this act. Any unmanufactured blue-fox skins hereafter legally acquired in the Territory other than skins raised on farms having a registered brand and branded with such brand as heretofore provided, shall likewise, on the first occasion when such skins are brought to a place where a United States commissioner resides or has his office, be presented to such United States commissioner with an affidavit showing the facts proving legal possession, and shall be tagged in like manner. For such services the commissioner shall receive a fee of one dollar and fifty cents (\$1.50) for each skin, which fee shall be paid by the owner of the skins.

No person except a fur farmer on his own fur farm shall possess any blue-fox skin not branded, marked, or tagged as herein provided; nor shall any person buy, sell, offer to buy, or sell, give, receive, or transport any blue-fox

skin not so branded or tagged as provided in sections 4 and 5 of this act: *Provided, however,* That nothing herein contained shall prevent the legal taking of wild foxes, and the possession, barter, sale, or transportation thereof untagged if such possession be had or barter, sale, or transportation be made before said skins be brought to any place where a United States commissioner resides or has an office; but the burden of proving such legal taking and possession, barter, sale, and transportation shall rest upon him who asserts the same.

SEC. 6. Subsequent to the first day of October 1923 every blue-fox skin not marked in the manner directed in sections 4 and 5 of this act and not in possession of a fox farmer on his own fox farm shall be presumed, *prima facie*, to have been unlawfully obtained and to be unlawfully possessed, bought, sold, given, received, or transported, as the case may be.

SEC. 7. No holder of a registered brand shall therewith mark any skin or animal other than the animals or skins raised by him nor shall any person mark or brand any skin or pelt, or animal, so as to resemble, imitate, or counterfeit any registered brand or the system adopted in the Territory for branding such animals or skins.

It shall be unlawful for any person not the registered owner thereof to have in his possession and under his control any implement for marking skins or live animals with any registered brand mark, or for any person to have in his possession any implement for marking skins or live animals with any brand mark resembling or imitating a registered brand mark or the system adopted in the Territory for branding animals or skins.

Any person violating any of the provisions of this section shall be guilty of a misdemeanor, and upon conviction shall be punished by a fine of not more than two thousand (\$2,000) dollars, or by imprisonment for not more than 1 year, or by both such fine and imprisonment in the discretion of the court.

SEC. 8. Any person who shall alter, add to, or efface any mark or identification upon any animals or upon the pelt or skin of any animal for the purpose of concealing the identity of the owner of such animal, pelt, or skin, or for the purpose of otherwise deceiving or defrauding, shall be guilty of a felony, and upon conviction shall be punished by a fine of not more than two thousand (\$2,000) dollars or by imprisonment for not more than three (3) years, or by both such fine and imprisonment in the discretion of the court.

SEC. 11. All persons dealing in, possessing, or transporting fur pelts in Alaska, at any time during usual business hours, shall afford any marshal or deputy marshal, Federal or Territorial game or fur warden full and fair opportunity to inspect any and all pelts, furs, and skins in their possession, and any person failing or refusing to do so, after demand, shall be guilty of a misdemeanor and upon conviction shall be punished by a fine of not more than two thousand (\$2,000) dollars or by imprisonment for not more than 1 year, or by both such fine and imprisonment in the discretion of the court.

SEC. 12. It shall be unlawful for any person other than an officer on lawful business, to land or enter upon any island lawfully used for fur farming without the permission of the lawful occupant or the person using said island as a fur farm. When such landing or entrance is made at any other place than within sight of said fur farmer's dwelling house and at a place established by him for landing purposes, such landing or entrance shall be presumed to be without the permission required by this section. Nothing herein contained shall be construed as limiting any right specifically reserved in the lease, contract, or permit under which any fur farm or island is occupied, nor any right conferred by Federal law or regulation: *Provided further,* That a landing made on any island by stress of circumstances, storm, or accident shall not be deemed unlawful.

Every person occupying an island or land for the purpose of propagating blue foxes shall within 3 months after the passage of this act place signs within sight of each other, bearing the words in black letters at least 6 inches high, on white background: "Fox Farm—No Trespassing" in conspicuous places upon said island or land.

Any person violating any of the provisions of this section shall be deemed guilty of a misdemeanor, and upon conviction shall be punished by a fine of not more than one thousand (\$1,000) dollars or by an imprisonment in jail for not more than six (6) months, or by both fine and imprisonment in the discretion of the court.

SEC. 13. Any person other than the fur farmer himself or his duly authorized agent, who shall take or attempt to take, capture, or kill any animals of any

kind on any fur farm, or who shall set any trap on such fur farm, or place poison thereon, or who shall fire or discharge any gun thereon, or shall shoot at any birds or animals upon such farm, shall be guilty of a misdemeanor, and upon conviction shall be punished by a fine of not more than one thousand (\$1,000) dollars, or imprisonment in jail for not more than six (6) months, or by both such fine and imprisonment in the discretion of the court.

SEC. 14. All traps, guns, boats, or other paraphernalia used in or in aid of a violation of this act shall be forfeited to the Territory of Alaska, and shall be liable to seizure by any Federal or Territorial game or fur warden, or any marshal or deputy marshal, and when so seized shall be delivered into the possession of the treasurer of the Territory or to someone designated by said treasurer to act for him in the matter, and shall by the treasurer or under his direction be sold at public auction and the proceeds covered into the treasury of the Territory after all expenses of seizure and sale have been paid.

For the purpose of carrying out the provisions of this section, the treasurer is authorized to execute all instruments and conveyances necessary for the purpose of conveying title to such property so seized and sold.

SEC. 15. Any person who shall, in violation of the provisions of this act, have in his possession, buy, sell, offer to buy or sell, give, receive, or transport any blue-fox pelt not marked or branded as herein provided shall be guilty of a misdemeanor and upon conviction shall be punished by a fine of not more than two thousand (\$2,000) dollars or by imprisonment for not more than 1 year or by both such fine and imprisonment.

The pelts of blue fox unlawfully possessed, held, or transported by any person in violation of the provisions of this act shall be the property of the Territory of Alaska and may be seized by any officer of the United States or of the Territory and delivered to the treasurer of the Territory for disposal as provided in section 14.

That whenever property is confiscated under the provisions of this act, any interested person disputing or denying the legality of such confiscation may institute proceedings in replevin against the officer in possession of such confiscated property in any district court in the Territory of Alaska within 60 days after such confiscation, and if he fails to do so he shall be precluded from afterwards claiming or asserting that the confiscation was unlawful.
