Dreer's Wholesale Price List

SEPTEMBER—1915—DECEMBER

SPECIAL NOTICE

While it has long been a rule in the Seed, Plant and Bulb trade to accept all orders for growing crops and stock not actually in hand subject to crop failures, shortages or other causes beyond control, it is seldom that we have failed to make deliveries as promised, but the present condition of affairs throughout Europe, resulting in the drafting for the armies of many of the men necessary to harvest the crops, and the serious interference with the shipping of all European countries, make it necessary at this time to call the special attention of our customers to the above rule and also to the rule in which we reserve the right to advance prices without notice.

Our friendly relations, large purchases, financial standing, and reputation for fair dealing with the leading growers in Europe insure us and our customers the delivery, if such is possible, of the best stocks of all Seeds, Plants and Bulbs procurable, and we pledge ourselves to take care of the interests of our customers to the best of our ability.

BULB DEPARTMENT—The immense quantities of Bulbs which we handle enable us to supply them at the lowest possible prices. Our sources of supply are the best in this country and abroad, the leading growers of the world having for years supplied us with their **choicest stock**. All prices quoted in this list include duty, packing and delivery to any Express or Freight line in Philadelphia.

SEED DEPARTMENT—This is in charge of trained experts, and whether your wants may be in Flower, Vegetable or Agricultural seeds, you may be sure to get only the choicest.

PLANT DEPARTMENT—Our stocks of the leading decorative and flowering plants are in splendid condition, and customers may rely on getting full value and prompt and careful service.

SHIPPING.—By our careful and thorough system of packing, we **Guarantee Safe Delivery** of plants and perishable goods, when ordered to be sent by **Express**, and we always ship this way unless we have positive instructions to the contrary, and **when sent in any other way, are solely at purchaser's risk**.

PARCEL POST.—Many of our customers seem to have the idea that Seeds, Plants and Bulbs can be sent by Parcel Post at small cost, such is not the case, and it is invariably cheaper, safer and quicker to send packages by Express. We will be pleased to send such items as can be mailed by Parcel Post if customers will remit for postage. **We do not deliver any goods free at Wholesale Prices**.

PRICES.—This list cancels all previous offers. The prices quoted in this list are net, and subject to no discounts. No order for **plants or bulbs** amounting to less than **\$1.00** will be filled and packed at wholesale prices. Orders received from the trade for Plants or Bulbs amounting to less than **\$1.00** will be charged for at retail prices, less 10 per cent.

TERMS OF BUSINESS.—Unknown correspondents desiring to open an account will please furnish three references to parties in the trade with whom they have had credit relations, and sufficient time to investigate same, otherwise cash must accompany order.

 Remittances should be made by Post-Office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way.

 Goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance.

 All goods are offered subject to crop failures, shortages or other causes beyond our control and to being unsold on receipt of order, and we reserve the right to advance prices without notice.

 No charge is made for boxes or packing, nor for delivery to Freight Depots or Express Offices in Philadelphia.

 In filling out your order always give **Shipping Directions**, and write **Name and Address** distinctly on each and every order.

NON-WARRANTY.—We wish it to be distinctly understood that although we continue to take all possible pains to supply only New, Genuine and Unadulterated Seeds, Plants and Bulbs, we still give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any of the Seeds, Plants or Bulbs we send out, and will not be in any way responsible for the crop. Every order received for articles named in this Catalogue will be executed on these conditions only.

Dreer's Reliable Bulbs

Prices on bulbs and roots in this Catalogue include duty, all import charges, cases, packing and delivery to any Express Office, Freight or Steamboat Line in Philadelphia.

NOTE—Notwithstanding the state of affairs in Europe, we hope to receive in due season our annual supply of Bulbs and Roots, but wish to call attention to the rule that all orders are booked subject to crop failure or other causes beyond our control.

Dreer's Superb Mixture of Single Early Tulips

There are great differences in the various grades of mixed Tulips. As a rule they are made up by the growers in Holland out of cheap, undesirable or surplus lots, and little attention given to variety of color or time of flowering.

We import each season a large quantity of selected bulbs of the best-named varieties to make this superb mixture. It contains a carefully balanced range of colors, and must not be compared with mixtures as usually sent out, and notwithstanding the great care to make this the finest mixture ever sent out we are in a position to offer it at the price usually charged for a very inferior grade. \$1.00 per 100; \$8.00 per 1000.

SINGLE EARLY TULIPS KAISER KROON

May-flowering Tulips

This class is now very popular for bedding, naturalizing and especially so for cutting, bearing their large brilliant flowers on long strong stems and lasting a long time when cut. They bloom from the middle of May until after the beginning of June, according to weather conditions.

	Per 100	Per 1000

Plant Department

Greenhouse and Decorative Plants

Our stock of decorative plants is, as usual at this season of the year, very complete in a full line of popular sizes, and the quality of the plants is of the same high standard for which our stock is celebrated. Whenever possible pay our Nursery a visit and make a personal inspection of the plants.

We are not listing Bay Trees, due to the uncertainty of securing delivery of Belgian products under present European conditions. These and other Belgian products have been contracted for as usual and due notice will be given in the trade papers when imports arrive.

THE GLORY FERN (*Adiantum Farleyense Gloriosa*)

CIBOTIUM SCHEIDEI

DREER'S FINE FERNS

VARIETIES OF SPECIAL MERIT

Adiantum Croweanum.

We are the sole distributors of Mr. Crowe's stock of this valuable fern.

This for many years has been the standard variety for general commercial work. We have a nice lot of 3-inch pots. \$2.00 per doz.; \$15.00 per 100; \$140.00 per 1000.

Adiantum Hybridum.

Preferred by some growers to *A. Croweanum*. A large thrifty stock of 2 1/4-inch pots. 85 cts. per doz.; \$6.00 per 100; \$50.00 per 1000. 4-inch pots, \$1.50 per doz., \$12.00 per 100.

Adiantum Farleyense Gloriosa.

The Glory Fern or *Ruhm von Mordrecht*.

This variety has proven a most valuable addition for the grower of choice fronds for cutting purposes. It closely resembles *Adiantum Farleyense* and will make a splendid substitute for that fancy variety and it can be produced at much less cost, as it will thrive under conditions in which *Adiantum Farleyense* could not exist.

Anyone who successfully grows the ordinary varieties of *Adiantum* such as *Cuneatum*, *Croweanum* and *Hybridum*, can grow it under precisely the same conditions given to these sorts.

Cyrtomium Rochfordianum.

The Crested Holly Fern.

A most important addition to our list of Ferns. Its foliage is of a rich, deep, glossy green color, the pinnæ or leaflets besides being wavy or undulated are also deeply cut or toothed, giving the plant a graceful light appearance, which makes it valuable not only as a dish Fern but for decorative work and apartment use.

Cibotium Schiedei.

It seems almost impossible to put up a first-class decoration without including some of this beautiful variety.

We offer a splendid stock of 6-inch pots, \$1.50 each; 8-inch pots, \$2.50 each; 10-inch tubs, \$3.50 to \$5.00 each.

Nephrolepis John Wanamaker.

A "sport" from *Nephrolepis Scholzelii*, with longer, narrower, gracefully drooping fronds. It is not so compact in growth as *Scholzelii*, and, therefore, does not decay in the center, and is a durable house fern. It is a rapid grower, making an abundance of fronds, and is quite distinct from any other *Nephrolepis*.

Strong Plants from 2 1/4 inch pots.

Pteris Childsi.

This beautiful variety is to *Pteris* what *Farleyense* is to *Adiantum*, and like that variety produces no spore, so that propagation is by the rather slow method of division, which will keep it a rare variety. The plant is of strong growth, attaining a height of about 20 inches; fronds large, pinnæ deeply dentated and undulated, tips crested. Makes a beautiful specimen for exhibition.
Fine plants, 4-inch pots, 50 cts. each.

Polypodium Glaucum Cristatum.

A perfect gem and entirely distinct from all other Ferns, and a splendid subject to grow into specimen plants, the fronds attain a height of about 2 feet, and are of a metallic glaucous-blue color, with the edges of the pinnæ wavy and crispate, giving the plant a graceful, unique appearance. Good 5-inch pots, 75 cts. each.

Polypodium Mandaianum.

This beautiful Fern originated as a seedling of *P. Aureum* and is similar in habit of growth to its parent, producing on well-grown plants fronds from 2 to 3 feet long, on which all of the pinnæ is beautifully fringed or lacinated; entirely distinct from all other varieties. It makes a handsome specimen grown either in a pot or a hanging-basket.

Novelties in French Hydrangeas for 1915

It seemed impossible that further improvement could be made on the new varieties of Hydrangeas sent out during the past few years; however, the latest novelties imported by us from various specialists in Europe during the past two seasons, and which we have thoroughly tested, show a wonderful advance. We have selected twelve varieties which we now offer.

Baby Blimbenet. Very dwarf, free and early, the plant becomes covered with large compact trusses of silvery-rose flowers.

Beaute Vendomoise. Immense heads of white flowers tinted pink; the individual florets will attain a diameter of 4 inches; while it shows a tendency to a loose open truss, this adds to its attractiveness. We feel very enthusiastic about this sort.

Directeur Vuillermet. A strong grower with very large fringed flowers of bright rose with greenish tint, very effective.

Eclairleur. One of the most startling acquisitions, a very bright carmine-rose, the nearest approach to a red. We particularly recommend this.

La France. Very strong grower, with immense trusses of deeply fringed flowers of a delicate shade of rose.

La Perle. The grandest, largest and most refined white we have yet seen; flowers deeply fringed.

Lille Moullere. An ideal deep pink variety of splendid habit and very floriferous.

Louis Moullere. Has the vigorous growth of Otaksa, very large fimbriated flowers of a delicate lilac rose.

L'Islette. Immense flowers of a bright carmine-rose.

Mme. Auguste Nonin. Heavy strong growth with large delicate rose-colored flowers

Souvenir du Lieut. Chaure. Produces immense heads of bright rose-carmine flowers on bold upright stems.

Ville de Chartres. Immense large heads of purest white.

Good young plants from 2-inch pots, \$2.00 per doz.; \$15.00 per 100.

The set of 12 varieties for \$2.00.

Stronger plants in 4-inch pots, \$3.50 per doz.; \$25.00 per 100.

HYDRANGEAS

For Easter Forcing

Easter 1916 coming very late (April 23) Hydrangeas will be particularly useful as they may be brought on very slowly which will assist in their more perfect development and help their keeping qualities, which, in a late Easter when the weather is likely to be warm is an important consideration. Anticipating a heavy demand we are preparing an immense stock of all the above named select standard varieties in 5 and 6-inch pots which we offer for October and later delivery.

PALMS OUR LEADING SPECIALTY

WHILE OUR STOCK OF KENTIAS in the decorative sizes, that is plants from \$3.00 up, is just as "large" and complete as in past seasons, there is a general scarcity of this stock throughout the country due to the fact that many growers depend very largely on Belgian imports, and which they were unable to obtain the past spring, as a result we look for an unusual demand and we recommend you to place your orders early to make certain to have your requirements fully covered. Whenever possible come and inspect the stock personally.

DREER'S SUPERB DOUBLE FRINGED PETUNIAS

HARDY PERENNIAL PLANTS

For many years Hardy Perennials have been one of our principal specialties and our stock at the present time is unquestionably the most complete both in quantity and variety in the country.

Many planters not thoroughly familiar with this class of plants have an idea that nothing but a large, field-grown clump will give satisfactory returns the first season. This, as experience has taught us, is in most instances a mistake. A vigorous plant of proper size will, in nearly every case, give quicker and better returns than the best so-called "field-clumps" that can be procured. This fact is particularly appreciated by the leading Landscape Architects throughout the country, the majority of whom give preference to the Drear pot-grown plants.

Summer Flowering Hardy Asters.

These varieties grow from 15 to 18 inches high, and produce their showy flowers during July and August, their free flowering habit and compact growth makes them most desirable subjects for the front of the mixed border.
Acris. A neat variety, growing a foot high, completely covered in September with violet-blue flowers.
Amellus Beauty of Ronsdorf. Of a tender rose-lilac of most perfect form, entirely distinct.
Amellus Perry's Favorite. A most distinct bright clear rose.
Amellus Preciosa. A fine deep violet-blue.
Parmicoides. Flowers white, not large, but produced in great masses, fine for cutting.
 \$1.50 per doz.; \$10.00 per 100.

ASTER GRANDIFLORUS

New or Rare Hardy Asters (Michaelmas Daisies).

Beauty of Colwall. This is unquestionably one of the finest of the Michaelmas Daisies, of upright, compact growth, about 4 feet high, of free-branching habit, and literally covered during September with large semi-double flowers of ageratum-blue, a pleasing shade. \$1.50 per doz.

Grandiflorus. Not a new variety but one of the finest of all and distinct in character and flower from all others. The flowers, of a lovely dark bluish-violet, frequently measure 2 inches in diameter. It is the latest flowering variety—October and November—and by lifting the plants can be flowered in connection with Chrysanthemums, where its effect is very beautiful. 20 cts. each; \$2.00 per doz.

Novi Belgii Climax. One of the most important additions to the Michaelmas Daisies, and we believe the forerunner of a new type. The plant is of strong, vigorous habit of growth, over 5 feet high; fully one-half of this consists of much branched pyramidal shaped flower stems which are filled with lively light lavender-blue flowers fully 1 1/4 inches in diameter. The plant is in flower from the latter part of August to the middle of October. 35 cts. each; \$3.50 per doz.; \$25.00 per 100.

Novi Belgii St. Ewlin. A bright pink in strong bushes, 2 1/2 to 3 ft. high, during September and October. \$1.50 per doz.

Thompsoni. (Ready in Nov.) One of the most beautiful large-flowered sorts yet introduced. The flowers are not only of exceptional size, but of graceful, stellate form and of a pleasing Venetian blue color; grows 18 inches high, and blooms in July and August. \$1.50 per doz.

Hardy Asters (Michaelmas Daisies, or Starworts).

These are among the showiest of our late flowering hardy plants. The collection offered below is made up of the choicest varieties only, the weedy sorts being eliminated. All of them bloom in September and October.

- Boule de Neige.** Very free pure white. 2 1/2 feet.
- Curtislii.** Pale heliotrope; August and September. 3 feet.
- Dornröschen.** Free pure mauve with light halo. 2 feet.

Dreer's Imperial Japanese Iris.

These magnificent Iris are among the most beautiful of our hardy early-summer flowering plants and are destined to become as popular as the hardy Phlox and Pæonies. They are valuable not only as decorative flowering subjects for the garden, but are also very useful as cut flowers.

Our stock of Japanese Iris is very extensive in a splendid assortment of home-grown varieties and can be relied upon for being true to name and description. We supply these in strong liberal divisions of a most satisfactory planting size.

Price. Any of the above varieties, 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Extra Choice Mixed Varieties. \$1.00 per doz.; \$6.00 per 100.

Iris Pallida.

Pallida Dalmatica. One of the finest of the Germanica type. The plant is of strong habit, growing 4 feet high, with exceptionally large flowers, the standards of a fine lavender, the falls lavender shaded blue; fine for massing. \$1.50 per doz.; \$10.00 per 100.

Pallida Dalmatica Folla Variegata. Foliage variegated, with broad bands of creamy-yellow. 35 cts. each; \$3.50 per doz.

Pallida Spectosa. Standards dark-lavender, falls light-purple, very free flowering. \$1.50 per doz.; \$10.00 per 100.

Iris Pumila Hybrida.

A type which originated by crossing the dwarf early flowering Pumila Iris with the German varieties, they are among the earliest flowering and are very showy, growing from 10 to 12 inches high.

Cyanea. Rich royal purple, with blackish shadings.

Excelsa. A splendid pale lemon-yellow.

Schneekuppe. A large showy pure white.

\$1.50 per doz.; \$10.00 per 100.

Iris Interregna.

An interesting new type, the result of crossing *I. germanica* with *I. pumila hybrida*, and for which there promises to be a great future. They bloom earlier than the German Iris, and the flowers combine perfection of form with large size and clear and decided colors. The foliage is dwarf, and maintains its freshness throughout the season. The flower stems are almost 18 inches high, holding the flowers well above the foliage.

Frithiof. Standards light lavender blue, falls satiny violet-blue.

Helge. Light citron, with pearl-colored centre. A beautiful soft shade.

Ivortne. Pure white; flowers 5 inches deep, with petals 2 inches wide. A grand flower.

Hardy Perennial Phloxes

We are the largest growers of Perennial Phlox in the world, having this season over a half million field-grown plants in stock.

The collection offered below embraces every known color in this gorgeous race of Summer flowering plants, and we are prepared to furnish many of the rarer as well as the older standard varieties in large quantities at a low uniform price.

The plants we offer are all strong one-year-old field-grown, and will make a fine display of flowers next season.

Novelties and Recent Introductions

Astrild. Dense trusses of medium-sized flowers of a brilliant cochineal-carmine, shading deeper towards the center. \$1.50 per doz.; \$10.00 per 100.

Europa. A white variety with very decided crimson-carmine eye; the individual flowers as well as the trusses are very large, entirely distinct.

Elizabeth Campbell. Very bright salmon-pink, with lighter shadings and dark crimson eye; an entirely new and much-wanted shade in Phlox. \$1.50 per doz.; \$10.00 per 100; \$90.00 per 1000.

Frau Anton Buchner. The finest white variety yet introduced, having the largest truss and individual flower; of dwarf habit.

Geflon. A new color in Phloxes, a tender peach-blossom pink with bright rose eye. \$1.50 per doz.; \$10.00 per 100.

Grideur. Ground color soft mauve rose, heavily suffused and overlaid with a lively deep shade of cerise, giving the whole a beautiful mottled appearance. \$1.50 per doz.; \$10.00 per 100.

Rheinlander. A beautiful salmon-pink with flowers and trusses of immense size, the color of the flower is intensified by a very decided eye of a deep claret-red.

Riverton Jewel. One of our own introductions which it gives us great pleasure to recommend, a lively shade of mauve-rose illuminated by a carmine-red eye, a splendid improvement on the popular variety Asia. \$1.50 per doz.; \$10.00 per 100.

Thor. A most beautiful and lively shade of deep salmon-pink suffused and overlaid with a scarlet glow and a light almost white halo around its aniline-red eye. This variety will undoubtedly hold the same place among deep salmon colors that Elizabeth Campbell holds among the light salmon-pinks. \$1.50 per doz.; \$10.00 per 100.

W. C. Egan. One of the finest Phloxes yet introduced, and while the individual flowers according to the color-chart are of a delicate lilac color illuminated by a large bright solferino eye, the color effect as a whole is a delicate pleasing shade of soft pink.

Widar. A splendid improvement on Edmond Rostand; in color a light reddish-violet, with very large white centre, which intensifies the color.

Wanadis. Entirely distinct, a mottling of white and light violet, reminding one of the native Phlox Divaricata Canadensis. The color is intensified by a bright reddish-purple eye, a strong grower producing trusses of immense size.

HARDY PHLOX

Price. Any of the above varieties, except where noted, \$1.00 per doz.; \$6.00 per 100; \$50.00 per 1000.

Price. Any of the above General Collection, 75 cts. per doz.; \$4.00 per 100; \$30.00 per 1000.

A New Race of Phloxes, P. Arendsi.

At the great international exhibition held in London in May, 1912, where this new type of Phlox received an award of merit, no other new plant in the Hardy Perennial class attracted such great attention. This new type originated through the successful crossing of the early-flowering popular Phlox Divaricata Canadensis with the showy hardy herbaceous varieties of Phlox Decussata. The plants are of vigorous, branching habit, growing, according to the variety, from twelve to twenty-four inches high. Coming into flower during the latter part of May, they continue in good condition for nearly two months.

From a large number of varieties, the introducer has selected for us six of the most distinct sorts.

Amanda. The dwarfest of the collection growing but 12 inches high, very bushy, flowers delicate lilac with deeper centre.

Charlotte. Grows eighteen to twenty-four inches high, flowers very large, pale lilac shaded pink, with a prominent dark eye; one of the best.

Grete. Plant of very branching habit, twenty inches high, producing great masses of medium-sized white flowers.

Helene. Of a beautiful lavender-blue color, similar to Divaricata Canadensis. Shapely plant, fifteen to eighteen inches high.

Kathe. Stems loosely branched, about twenty inches high, flowers purplish-rose, with a dark eye, surrounded by a lighter halo.

Lulse. A strong-growing variety, about two feet high, light lilac flowers with a carmine eye.

Price. 25 cts. each; \$2.50 per dozen; \$15.00 per 100.

Early Flowering Hardy Phloxes (P. Suffruticosa).

While this type does not contain the rich colors which are a feature of the other well-known sorts, it is invaluable on account of coming into bloom in May, or fully six weeks earlier than the others, and continuing throughout the season.

Clouded Gem. White, suffused with rose.

Miss Lingard. The grand, free-flowering early white.

Hercules. Bright rosy lilac.

Mrs. Dairyptic. White shaded rose; scarlet eye.

\$1.00 per doz.; \$7.00 per 100; \$60.00 per 1000.

Phlox Subulata.

(Moss Pinks or Mountain Pinks.)

Alba. White.

Atropurpurea. Bright purplish-rose.

Nelsoni. Pure white.

Rosea. Bright rose.

TRITOMA PFITZERII

New Hardy Vinca.

Vinca Minor Aurea.

A pretty yellow variegated form of the hardy Vinca Minor which is so extensively used as a ground cover especially in shaded places where grass will not grow.

This new variegated form should prove a most desirable addition for this purpose, particularly so as the foliage is much larger than in the type and irregularly margined and marbled with yellow.

It also should prove valuable for use in window boxes particularly for winter use in connection with Boxwoods and other Evergreen plants. \$1.50 per dozen; \$10.00 per 100.

Vinca Minor Argentea Variegata.

A pretty silver variegated variety and a companion plant to the above. \$1.50 per doz.; \$10.00 per 100.

Vinca (Periwinkle or Trailing Myrtle).

Orchid-flowered Sweet Peas

This type is distinguished from the standard or grandiflora sorts by the extraordinary size of their flowers and by the standard being crinkled and wavy. They usually bear four blossoms on a stem, and are as easy to grow as the commonest sorts. Owing to their being shy seeders they will always be higher in price than the grandifloras, but a fair crop the past season enables us to offer them at prices much lower than ever before.

Dreer's Special Grass Seed Mixtures

DREER'S SHADY PLACE LAWN GRASS

These are put up in attractive packages and sell rapidly, thereby bringing the dealer an extra revenue at little expense or trouble. Handsome colored posters for hanging in store to advertise our Grass Seeds furnished free.

The formulas for Dreer's Brands of Grass Mixtures are the result of careful experiments, and the seeds of which they are composed are carefully selected, and free from weeds and foul grass. Directions for preparing ground and sowing the seed are sent with each lot of seed we sell.

Dreer's Fairmount Park Lawn Grass is put up in illustrated quart and pint boxes, and sells rapidly.

Price: One-pint boxes \$7.00 per 100. One quart boxes \$11.00 per 100.

THE "DREER" LAWN GRASS

Dreer's Florist Specialties

EUREKA STEEL WIRE POT HANGER

15 inches long, suitable for holding any size pot up to 8 inches, specimen plants can be suspended overhead into full sunlight, where they will develop sooner than in crowded bench. 50 cents per dozen; \$3.00 per 100.

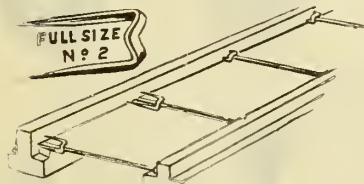

DREER'S WIRE POT HANGER

An ingenious arrangement of wire, easily applied, comes in good use in overcrowded greenhouses, used for hanging pots of ferns, orchids and other plants which are benefited by being put in open space. It also helps the general appearance of a greenhouse by placing nice specimens in full view.

Dreer's Peerless Glazing Points

Galvanized

Pat'd March 26, 1901

Once used! Always used!

The Peerless Glazing Point is the only perfect Point known. The latest improvement is that both points are beveled on top and will hug close to glass when driven. Three sizes, No. 1, for small single thick glass; No. 2, for medium double thick glass; No. 2½, for large double thick and skylight glass. Price per 1000, 60 cents; postpaid, 75 cents. 5000, \$2.75 by express.

DREER'S SPECIAL GREENHOUSE WHEELBARROW

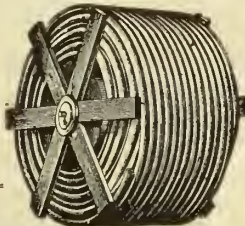

A strong, well-constructed barrow, made special for greenhouse work, being only 21 in. wide at end of handles, so it may be used between staging. Medium size only. \$4.25.

DREER'S RIVERTON BRAND HOSE

The Hose for the Florist and Nurserymen

This hose can be furnished in continuous lengths up to 500 feet without seam or joint. Will withstand 50 per cent. more pressure than the old style hose. Couplings supplied with 25 feet lengths and over. The "RIVERTON," is guaranteed, and is the best hose for florists' use. Will not kink, will not harden or become brittle. It is utterly impossible for it to open or unwrap. See that it bears our name and brand, "RIVERTON," ¾-inch, per foot, 15 cents; in reels of 500 feet, 14½ cents per foot; two reels, 1000 feet, 14 cents per foot. ½-inch, 13 cents per foot; in reels of 500 feet, 12½ cents per foot; two reels, 1000 feet, 12 cents per foot.

DREER'S "RIVERTON SPECIAL" CEDAR TUB
