

New York Sept 27th 1828

Friend Richens

The balance of your

Flour arrived on the 24th and was
next day sold at \$6 7/8. The market is
now declining the rest of it we have not
ascertained the exact quantity, but believe
it is 210 Bbls short & 27 Bbls Base in
all 237 Bbls. We consider the sale a
very fortunate one, at least we could
not now obtain the same price,
Ely and other first rate brands fresh ground
were offered at 7 Dols.

We ordered it on 12th ult and had it arrived
on Saturday but we would have got 7 Dols.
Since that time the market has gradually
become duller, and we are confident
that without the aid of foreign demand
the present price will not be supported.
To the South the crop though not abundant
is fair, and very large supplies are
arriving from that quarter

With esteem yours
Edward Childs
