TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 684, Amdt. 2]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF HANDLING

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

Order, as amended. The provisions in paragraph (b) (1) (i) and (ii) of § 953.791 (Lemon Regulation 684, as amended, 22 F. R. 3004; 3171) are hereby further amended to read as follows:

- (i) District 1: 6,510 cartons;
- (ii) District 2: 388,740 cartons.

PART 573—APPOINTMENT OF COMMISSIONED OFFICERS AND WARRANT OFFICERS

APPOINTMENT IN MEDICAL, DENTAL, VETERINARY, MEDICAL SERVICE, ARMY NURSE, AND ARMY MEDICAL SPECIALIST CORPS, REGULAR ARMY

1. The designation "Women's Medical Specialist Corps", wherever it appears throughout this part, is changed to read "Army Medical Specialist Corps."

2. In § 573.3, revise paragraphs (a) (1) and (b) (1) to read as follows:

§ 573.3 *Age and special eligibility requirements.* * * *

(a) *Medical Corps.* Applicant must:

(1) Have reached 21st birthday.

(b) *Dental Corps.* Applicant must:

(1) Have reached 21st birthday.

3. Paragraph (b) of § 573.4 is revised to read as follows:

§ 573.4 *Service credit.* * * *

(b) *Title 10, United States Code, Section 3294, as amended by Public Law, 497, 84th Congress.* Individuals appointed in the Medical or Dental Corps, Regular Army, will be given promotion list service which will be determined by the Department of the Army as follows:

(1) Credit for prior active Federal commissioned service.

(i) As a medical or dental officer in the Army, Navy, or Air Force, 100 percent credit.

(ii) Other than as a medical or dental officer in the Army, Navy, Air Force, or USMC, 100 percent credit for the first 2 years and 50 percent credit

for each succeeding year, not to exceed 4 years, and

(iii) No additional credit for service in excess of 6 years.

(2) Credit for professional education, training, and experience not credited under subparagraph (1) of this paragraph:

(i) Completion of medical or dental school, 4 years credit.

(ii) Professional education, training, and experience following graduation from medical or dental school, including internship, 100 percent credit for the first 2 years and 80 percent credit for each succeeding year.

(3) Credit for outstanding qualifications. An additional amount not to exceed 3 years as determined by the Department of the Army. In the case of an individual credited with service under this provision, the total amount of service credited may not exceed an amount equal to the number of years, months, and days subsequent to graduation from medical or dental school.

(4) In computing service credit, no period of time may be counted more than once except for credit under subparagraph (3) of this paragraph.

(5) No officer appointed under Public Law 497 who has had a break in active service as a medical or dental officer will be given credit under §§ 573.1-573.6 which is equal to or in excess of the service with which he would have been credited except for such break in service. In such cases an appropriate amount of service will be credited as determined by the Department of the Army. However, this amount will not be less than that specified in subparagraph (2) (i) of this paragraph and that portion of subparagraph (2) (ii) of this paragraph which provides for 100 percent credit for the first 2 years of professional education, training, and experience following graduation from medical or dental school, including internship.

(6) In determining credit for a graduate of a foreign medical school, a constructive date of graduation will be determined by the Department of the Army to equate the individual's state of training with that at which he would have been graduated had he received such training in the United States.

(7) The provisions of this section do not effect service creditable for voluntary or mandatory retirement or for pay purposes.

4. In § 573.5, revise paragraph (b) to read as follows:

§ 573.5 *Grade determinations.* * * *

(b) The grades of individuals appointed in the Medical or Dental Corps will be based on the service credited an appointee under § 573.4 (b). The permanent grade will be that held by the junior officer on the applicable promotion list (who is not a deferred officer or an officer considered but not selected for promotion under section 518 of the Officer Personnel Act of 1947) having the same or next longer service, and the name of an officer so appointed will be placed on that list immediately below such officer.

PART 154—WAIVERS OF NAVIGATION AND VESSEL INSPECTION LAWS AND REGULATIONS¹

DEEPER LOADING OF COASTWISE TANK SHIPS

The purpose of this order is to cancel a general waiver designated as 46 CFR 154.40, as well as 33 CFR 19.40, regarding deeper loading of coastwise tank ships, effective May 16, 1957. The Secretary of Defense in a letter dated April 24, 1957, to the Secretary of the Treasury stated:

On December 12, 1956, under the authority contained in the Act of December 27, 1950, 64 Stat. 1120, I requested that, in the interest of national defense, you waive compliance with the Navigation laws to the extent necessary to permit tankers of U. S. registry, in coastwise service, to load one mark deeper on the Plimsoll mark than is normally authorized when such deeper loading will not result in the maximum stress exceeding the limiting stress listed in the load tables for each tanker.

Since the interest of national defense no longer requires this action, I hereby request that the waiver granted in response to the above letter be cancelled.

It is hereby found that compliance with the Administrative Procedure Act respecting notice of proposed rule making, public rule making procedure thereof, and effective date requirements thereof is impracticable and contrary to the public interest.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by an order of the Acting Secretary of the Treasury, dated January 23, 1951, identified as CGFR 51-1, and published in the FEDERAL REGISTER dated January 26, 1951 (16 F. R. 731), and the act of December 27, 1950, the waiver order in § 154.40 *Deeper loading of coastwise tank ships* is canceled effective May

¹ This is also codified—33 CFR Part 19.

16, 1957, except that any vessel which may be loaded under the terms of the waiver order and underway on a voyage before the effective date of this cancellation may continue its voyage to its port of destination and no penalties of law shall be imposed because of failure to comply with the provisions of law which were relaxed by this waiver order.

Dated: May 3, 1957.

The Commission having under consideration the desirability of making certain editorial changes in § 2.104 (a) (5) of its rules and regulations; and

It appearing that the table of frequency allocations contained in § 2.104 (a) (5) of the Commission's rules was reprinted in recapitulative form to include Commission actions of July 30, 1952 (published November 1, 1952, 17 F. FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] MARY JANE MORRIS,
Secretary.

1. Amend Part 9—Aviation Services, as indicated below:

Delete paragraph (a) of § 9.611, and substitute the following:

§ 9.611 *Frequencies available.* (a) The frequencies 3281 kilocycles, 123.1, 123.2, 123.3, 123.4, and 123.5 megacycles are available for assignment to ground and aircraft flight test stations. (The frequencies 123.1, 123.3, and 123.5 megacycles are shared with flying school stations on a non-interference basis.) The

frequencies 123.15, 123.25, 123.35, and 123.45 megacycles are available for assignment only to aircraft manufacturers: *Provided, however,* That until January 1, 1960, these frequencies will be assigned only upon an adequate showing that harmful interference will not be caused to flight test and flying school stations operating on the other very high frequencies listed in this section.

2. Amend Part 2 as indicated below:

Amend that portion of the table of frequency allocations contained in § 2.104 (a) (5) of Part 2, pertaining to the band of frequencies between 123.1 and 123.5 Mc to read as follows:

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS, TELEVISION BROADCAST STATIONS

1. The Commission has before it for consideration its notice of proposed rule making issued March 21, 1957, (FCC 57-266) and published in the FEDERAL REGISTER on March 27, 1957 (22 F. R. 2014) in response to a petition filed by Indiana Broadcasting Corporation, permittee of television Station WANE (formerly WINT) in Fort Wayne, Indiana, proposing to shift the assignment in Kokomo, Indiana and Marion, Indiana, as follows:

City	Channel No.	
	Delete	Add
Kokomo, Ind.....	31	29+
Marion, Ind.....	29+	31

2. No comments opposing the proposed amendment have been filed. In support of its request petitioner urges that the proposed amendment would conform to the Commission's rules; that it would not

affect any existing station; and that it would permit WANE to move its transmitter to a site within the city of Fort Wayne.

3. The Commission is of the view that the proposed amendment would serve the public interest by making more effective use of the available facilities and would be in conformance with the rules.

4. Authority for the adoption of the amendments is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), 307 (b), and 316 of the Communications Act of 1934, as amended. Since the amend-

ments would permit an existing station to undertake modifications to improve the television service in Fort Wayne, Indiana, the Commission is of the view that the public interest, convenience and necessity would be served by making the amendments effective immediately.

5. In view of the foregoing: *It is ordered*, That effective May 1, 1957, the Table of Assignments contained in § 3.606 of the Commission's rules and regulations is amended insofar as the communities named are concerned to read as follows:

City:	Channel No.
Kokomo, Ind.-----	29+
Marion, Ind.-----	31

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154)

Adopted: May 1, 1957.

Released: May 2, 1957.

CIGAR-FILLER TOBACCO, CIGAR-BINDER TOBACCO AND CIGAR-FILLER AND BINDER TOBACCO; BURLEY, FLUE-CURED, FIRE-CURED, DARK AIR-CURED, AND VIRGINIA SUN-CURED TOBACCO; MARYLAND TOBACCO

NOTICE OF FORMULATION OF REGULATIONS RELATING TO MARKETING OF TOBACCO, COLLECTION OF MARKETING PENALTIES, AND RECORDS AND REPORTS, 1957-58 MARKETING YEAR

Notice is hereby given that pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301, 1311-1315, 1372-75), the Agricultural Act of 1949 (63 Stat. 1051), and the Agricultural Act of 1956 (70 Stat. 188), marketing quota regulations are being prepared governing the issuance of marketing cards for marketing and price support purposes, the identification of tobacco for purposes of marketing restrictions and price support, the collection and refund of penalties, and the records and reports incident thereto on the marketing of cigar-binder (types 51 and 52) tobacco, cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco, burley, flue-cured, fire-cured, dark air-cured and Virginia sun-cured tobacco, and Maryland tobacco for the 1957-58 marketing year.

It is contemplated that the regulations for the 1957-58 marketing year will be substantially the same as those issued for the 1956-57 marketing year (21 F. R. 6254, 7563, cigar-filler and binder; 21 F. R. 4502, 6859, burley, flue-cured, fire-cured, dark air-cured and Virginia sun-cured; 21 F. R. 6260, 7695 Maryland) except for changes and additional provisions as follows:

1. A provision would be included which would provide that an excess marketing card (ineligible for price support loans), showing the extent to which marketings of tobacco from a farm are subject to penalty, would be issued to identify (a) tobacco produced on newly irrigated or drained land (unless such land was used for the production of tobacco prior to May 28, 1956) within any Federal irriga-

tion or drainage project (as defined in section 211 of the Agricultural Act of 1956) or on land reclaimed by a flood-control project unless such irrigation, drainage, or flood-control project was authorized prior to May 28, 1956, and (b) tobacco produced on land owned by the Federal Government in violation of the provisions of a lease restricting the production of tobacco.

2. A provision would be included in Parts 725 and 727 (not applicable to Part 723) which would require that a bill of nonwarehouse sale (reverse side of memorandum of sale) shall be executed by the buyer and farm operator, for each nonwarehouse sale of tobacco produced on a farm, and the failure of such bill of nonwarehouse sale to show (a) the pounds of tobacco sold (actual or estimated weight), (b) the amount paid therefor, (c) the signature of the farm operator and (d) the date of such sale shall be a failure of the farm operator to account for disposition of tobacco marketed from the farm, and in the event that a satisfactory account of such disposition is not otherwise furnished, including the execution and submission of a bill of nonwarehouse sale for each nonwarehouse sale of tobacco from the farm and the payment of all additional penalty, if any, the allotment next established for such farm and kind of tobacco shall be reduced. The effect of this provision would be not only to help prevent Government price support loans on "resale" tobacco by requiring it to be properly identified, but also to assist in assuring that a complete record of disposition of tobacco is furnished by the producer.

3. The following additional provisions with respect to flue-cured tobacco only would be included in Part 725.

a. The title heretofore appearing under § 725.735, Determination of Tobacco Acreage, would be changed to read "Determination of Tobacco Acreage and Seed Varieties" and a new paragraph (g) would be added reading:

(g) *Identification of flue-cured tobacco seed varieties.* To assist the county committee in determining if there has been planted on a farm in 1957 any one of the flue-cured tobacco seed varieties identified as Coker 139, Coker 140 or Dixie Bright 244, or any mixture or

strains of such seed varieties, the farm operator at the request of the county committee, State committee or their representative, shall allow a designated number of flue-cured tobacco plants in each field or area to go to flower, and shall permit the taking of samples of tobacco or photographs of tobacco for identification purposes. If, after such request, the farm operator refuses or willfully fails to permit a designated number of flue-cured tobacco plants in each field or area to go to flower, or refuses to permit the taking of samples of tobacco or photographs of tobacco for identification purposes, all the flue-cured tobacco produced on the farm in 1957 which cannot otherwise be identified with respect to seed variety shall be deemed to be either Coker 139, Coker 140 or Dixie Bright 244 for the purpose of issuing a marketing card for the farm.

b. Subject to the other conditions of the regulations covering the issuance of Within Quota Marketing Cards, a provision would be included for the issuance of a Within Quota "Limited Support" Marketing Card with respect to any farm:

(i) On which flue-cured tobacco was grown in 1957, unless the farm operator establishes to the satisfaction of the County Committee that no Coker 139, Coker 140, or Dixie Bright 244, or any mixture or strains of such seed varieties of tobacco was grown thereon in 1957, and

(ii) On which flue-cured tobacco was grown in 1957, even though the farm operator has established to the satisfaction of the County Committee that no Coker 139, Coker 140 or Dixie Bright 244, or any mixture or strains of such seed varieties was grown thereon, if the operator also operates another farm on which he has failed to establish to the satisfaction of the County Committee that no Coker 139, Coker 140 or Dixie Bright 244, or any mixture or strains of such seed varieties, was grown thereon in 1957.

The Within Quota "Limited Support" Marketing Card issued under the provisions of (i) or (ii) above for any farm may, upon advance notice by the farm operator to the county committee and with prior approval of the county committee, be exchanged at the ASC county office by the operator for a regular full

PROPOSED RULE MAKING

support Within Quota Marketing Card when the operator establishes to the satisfaction of the county committee that there has been no commingling or substitution of the Coker 139, Coker 140 or Dixie Bright 244 varieties of tobacco with any other flue-cured tobacco produced on the farm or any other farm operated by him. Evidence that all such Coker 139, Coker 140 and Dixie Bright 244 tobacco has been marketed and properly identified at time of marketing by the Within Quota "Limited Support" Marketing Card would be considered by the county committee in connection with verification of no such commingling or substitution.

Such samples of the tobacco produced on the farm as are deemed necessary by the State or county committee shall be drawn by persons designated by the State or county committee and shall be subject to such physical examination and chemical analyses as may be deemed necessary by the county or State committee to establish that such tobacco does not consist in whole or in part of Coker 139, Coker 140 or Dixie Bright 244 tobacco, or any mixture or strains of such seed varieties.

c. A provision would be included requiring the operator of each farm on which flue-cured tobacco is planted in 1957 to execute and file a report with the ASC county office or a representative of the county committee on Form MQ-32—Flue-Cured, Certification of Flue-Cured Tobacco Varieties Planted in 1957, stating whether or not any one of the flue-cured tobacco seed varieties identified as Coker 139, Coker 140 or Dixie Bright 244 or any mixture or strains of such seed varieties, has been planted on the farm in 1957. If the farm operator fails to file the report as requested or files a report which is found by the State or county committee to be incomplete or incorrect, all the flue-cured tobacco produced on the farm or farms by such operator in 1957 will be subject to marketing under either a Within Quota Limited Support Marketing Card or an excess Marketing Card.

d. Consideration also is being given to including a provision which would require that, if an excess marketing card is required, under the regulations, to be issued for a flue-cured farm and no Coker 139, Coker 140 or Dixie Bright 244 tobacco was produced on the farm or any other farm operated by the farm operator, the excess marketing card and each memorandum of sale (both purchaser's copy and county office copy) therein shall be stamped or marked "Acceptable Varieties" to show that none of such varieties of flue-cured tobacco were produced on such farm or farms unless the producer objects to such stamping or marking.

Prior to the final adoption and issuance of such regulations, consideration will be given to any data, views, or recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than ten days from the date of

filing of this notice with the Director, Division of the Federal Register, in order to be considered.

Issued at Washington, D. C., this 2d day of May 1957.

CIGAR-FILLER TOBACCO, CIGAR BINDER TOBACCO, AND CIGAR-FILLER AND BINDER TOBACCO; BURLEY, FLUE-CURED, FIRE-CURED, DARK AIR-CURED, AND VIRGINIA SUN-CURED TOBACCO; MARYLAND TOBACCO

NOTICE OF FORMULATION OF REGULATIONS RELATING TO ESTABLISHMENT OF FARM ACREAGE ALLOTMENTS AND NORMAL YIELDS OF TOBACCO FOR 1958-59 MARKETING YEAR

Notice of formulation of Regulations Relating to Establishment of Farm Acreage Allotments and Normal Yields for Cigar Binder (types 51 and 52) Tobacco; Cigar-Filler and Binder (types 42, 43, 44, 53, 54 and 55) Tobacco; Burley, Flue-Cured, Fire-Cured, Dark Air-Cured, and Virginia Sun-Cured Tobacco; and Maryland Tobacco; for the 1958-59 Marketing Year.

Notice is hereby given that pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301, 1312, 1313), regulations are being prepared governing the establishment of farm acreage allotments and normal yields for the 1958 crop of (1) cigar-binder (types 51 and 52) tobacco, and cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco, respectively, (2) burley, flue-cured, fire-cured, dark air-cured, and Virginia sun-cured tobacco, respectively, and (3) Maryland tobacco.

The Agricultural Adjustment Act of 1938, as amended, includes only type 41 tobacco in the definition of cigar-filler tobacco. Since growers of cigar-filler (type 41) tobacco disapproved quotas on the 1956 crop which was the third consecutive year subsequent to 1952 for which quotas were disapproved, no national marketing quota will be proclaimed for the 1957-58 and 1958-59 marketing years unless prior to November 10 of the marketing year one-fourth or more of the farmers engaged in the production of the crop of tobacco harvested in the calendar year in which such marketing year begins petition the Secretary, in accordance with prescribed regulations (21 F. R. 3865), to proclaim a national marketing quota for each of the next three succeeding marketing years.

Pursuant to the provisions of section 312 of the act, as amended, the Secretary of Agriculture has proclaimed marketing quotas for the 1958-59 marketing year for cigar-binder (types 51 and 52) tobacco and cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco, respectively. In accordance with section 312 of the act, the amounts of such mar-

keting quotas will be determined and announced, and under section 313 of the act will be apportioned among the States and converted into State acreage allotments, and allotted to farms. Growers of cigar-binder (types 51 and 52) tobacco and growers of cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco, respectively, approved marketing quotas for such two kinds of tobacco for the 1957-58, 1958-59 and 1959-60 marketing years (22 F. R. 2035).

Pursuant to the provisions of section 312 of the act, as amended, the Secretary of Agriculture has proclaimed marketing quotas for the 1958-59 marketing year for burley, flue-cured and Virginia sun-cured tobacco, and such marketing quotas have been approved by growers voting in referenda (20 F. R. 6543) (21 F. R. 668). In accordance with section 312 of the act, the amounts of such marketing quotas will be determined and announced, and under the provisions of section 313 of the act (7 U. S. C. 1313), such quotas will be apportioned among the States and converted into State acreage allotments, and allotted to farms. Growers of fire-cured tobacco and dark air-cured tobacco approved quotas for the 1955-56, 1956-57 and 1957-58 marketing years (20 F. R. 809). The applicability of the regulations to be issued for fire-cured tobacco and dark air-cured tobacco will be contingent upon the proclamation of marketing quotas for the 1958-59, 1959-60 and 1960-61 marketing years pursuant to section 312 of the act, as amended, and upon approval of quotas by growers voting in referenda. Consideration will be given to establishing a date for such referenda.

Pursuant to the provisions of section 312 of the act, as amended, the Secretary of Agriculture has proclaimed a marketing quota for the 1958-59 marketing year for Maryland tobacco. In accordance with section 312 of the act, the amount of such marketing quota will be determined and announced, and under the provisions of section 313 of the act (7 U. S. C. 1313), such quota will be apportioned among the States and converted into State acreage allotments, and allotted to farms. Growers of Maryland tobacco approved quotas for the 1956-57, 1957-58 and 1958-59 marketing years (21 F. R. 668).

It is contemplated that the respective regulations for (1) cigar-binder (types 51 and 52) tobacco, and cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco, respectively, (2) burley, flue-cured, fire-cured, dark air-cured, and Virginia sun-cured tobacco, respectively, and (3) Maryland tobacco, will provide for establishment of farm acreage allotments and normal yields and the issuance of notices of allotments and marketing quotas by county committees substantially the same as provided with respect to the 1957 crop (21 F. R. 7202) (21 F. R. 9398) (22 F. R. 368) (21 F. R. 6803) (21 F. R. 9398), (21 F. R. 6882) (21 F. R. 8423), except as stated below:

(1) The owner or operator of a flue-cured tobacco farm may, not later than May 1, 1957, request of the ASC county committee that for purposes of determining future allotments pursuant to the

Agricultural Adjustment Act of 1938, as amended, the entire 1957 fire-cured allotment for the farm to be considered as having been planted to the commodity on the farm as provided under section 377 of the act. The last date on which comparable requests may be made with respect to other kinds of tobacco is August 1, 1957.

(2) Consideration is being given to providing that the 1958 tobacco acreage allotment for a farm would be reduced if a bill of nonwarehouse sale is not executed with respect to each nonwarehouse sale of tobacco from the farm. This would not apply to cigar-binder (types 51 and 52) tobacco or cigar-filler and binder (types 42, 43, 44, 53, 54 and 55) tobacco since bills of nonwarehouse sale are not required in connection with such two kinds of tobacco; however, a memorandum of sale would still be required.

(3) In the case of Maryland tobacco, the acreage available for adjustments of old farm tobacco acreage allotments, corrections of errors, and allotments for overlooked old farms would not exceed three-fourths of one percent of the total acreage allotted to all farms in the State for 1957. Also, the amount of the National Marketing Quota for Maryland Tobacco for new farms would not exceed one-eighth of one percent of the National Marketing Quota.

(4) A provision would be included to provide that any changes made in farm normal yields, whether or not a producer questions or appeals the normal yield for his farm to the State committee, shall not result in a weighted yield per acre for all farms in the county that is in excess of 102 percent of the county check yield.

(5) Consideration is being given to changing the definition of a farm.

(6) Consideration is being given to causing a review of the acreage of tobacco grown pursuant to Virginia sun-cured and fire-cured (type 21) tobacco farm acreage allotments. It is contemplated that 1958 fire-cured (type 21) tobacco acreage allotments and 1958 Virginia sun-cured tobacco acreage allotments will be determined in such manner as will take into account the changes in data and will result in allotments that reflect the kind of tobacco grown.

Prior to the final adoption and issuance of these regulations, consideration will be given to any data, views, and recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than ten days after the date of publication of this notice in the FEDERAL REGISTER in order to be considered.

Issued at Washington, D. C., this 1st day of May 1957.

[17 CFR Part 239]

FORMS PRESCRIBED UNDER SECURITIES ACT NOTICE OF DECISION NOT TO ADOPT PROPOSED AMENDMENT TO FORM S-1 REGARDING OFFERINGS BY CERTAIN FOREIGN PRIVATE ISSUERS

The Securities and Exchange Commission has decided not to adopt the proposed amendment to Form S-1 (§ 239.11) which was published for comment on December 21, 1956, in Release No. 3735. This action was taken because

there appears to be no present need for the amendment.

The proposed amendment would have provided that in the case of a pro rata offering to shareholders by certain foreign private issuers, other than North American or Cuban issuers, the financial statements required for registration would not have to be certified if certain conditions were met.

I. The \$1.00 par value Capital Stock of Bellanca Corporation is listed and regis-

tered on the American Stock Exchange, a national securities exchange; and

II. The Commission on April 24, 1957, issued its order and notice of hearing under section 19 (a) (2) of the Securities Exchange Act of 1934 (hereinafter called "the act") to determine at a hearing to be held on May 8, 1957, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months, or to withdraw, the registration of the capital stock of Bellanca Corporation (hereinafter called "registrant") on the American Stock Exchange for failure to comply with section 13 of the act and the rules and regulations adopted thereunder, and for failure to comply with the disclosure requirements of Regulation X-14 adopted pursuant to section 14 (a) of the act.

On April 24, 1957 the Commission issued its order summarily suspending trading of said securities on the exchange pursuant to section 19 (a) (4) of the act for the reasons set forth in said order to present fraudulent, deceptive or manipulative acts or practices for a period of ten days from the date of the aforesaid order.
