LICK HOUSE,

ALSTROM & CO.—The undersigned, formerly proprietors of the Oriental Hotel, respectfully inform the public that they have purchased the Lease and Furniture of the Lick House. Our friends and the public can rest assured that we shall leave nothing undone to merit their patronage.

It is conceived that the Lick House, has far superior advantages over all other hotels in California.

The house being but three stories high, the rooms are easy of access, well lighted, and contain all the modern improvements; the staircase and halls are wide, spacious and airy.

The Kitchen and Pantry are being enlarged, and we are certain of being able to give complete satisfaction in the Dining hall department.

The Office will be under the superintendence of Mr. FRANK J. LAWLER, late of the St. Nicholas, New York.

THE WIFE—Only let a woman be sure that she is precious to her husband—not useful, not valuable, not convenient, simply, but lovely and beloved; let her be the recipient of his polite and hearty attentions; let her feel that her care and love are noticed, appreciated and returned; let her opinion be asked, her approval sought, and her judgment respected, in matters of which she is cognizant; in short let her only be loved, honored and cherished, in fulfillment of the marriage vow, and she will be to her husband, her children and society, a well spring of pleasure. She will bear pain, and toil and anxiety, for her husband's love is, to her, tower and fortress. Shielded and sheltered therein, adversity will have lost its sting. She may suffer, but sympathy may dull the edge of sorrow. A house with love in it—and by love I mean love expressed in words, and looks, and deeds, for I have not one spark of faith in love that never crops out—is to a house without love, as a person to a machine. The unloved woman may have bread just as light, a house just as tidy as the other, but the latter has a spring of beauty about her, a joyousness, an aggressive, and penetrating and pervading brightness to which the former is a stranger. The deep happiness in her heart shines out in her face. She is a ray of sunlight in the house. She gleams over it. It is airy, and gay, and graceful and warm, and welcoming with her presence. She is full of devices, and plots, and sweet surprises for her husband and family. She has never done with the romance and poetry of her life. She is herself a lyric poem, setting herself to all pure and gracious melodies. Humble household ways and duties have to her a golden significance. The prize makes the calling high, and the end sanctifies the means. "Love is Heaven, and Heaven is Love."

IF YOU MEAN NO, SAY NO.—When a man has made up his mind to do or not to do a thing, he should have the pluck to say so, plainly and decisively. It is a mistaken kindness—if meant as a kindness—to meet a request you have determined not to grant, with—"I'll see about it," or "I'll think the matter over," or, "I cannot give you a positive answer now; call in a few days and I'll let you know." It may be said, perhaps, that the object of these ambiguous expressions is to "let the applicant down easy;" but the tendency is to give him useless trouble and anxiety, and possibly to prevent his seeking what he requires in a more propitious quarter until after the golden opportunity has passed. Moreover, it is questionable whether the motives for such equivocation are philanthropic as some people suppose. Generally speaking, the individual who thus avoids a direct refusal, does so to avert himself pain. Men without decision of character have an indescribable aversion to say "No." They think "No"—sometimes when it would be more creditable to their courtesy and benevolence to say "Yes,"—but they dislike to utter the bold word that represents their thoughts. They prefer to mislead and deceive. It is true that these bland and considerate people are often spoken of as "very gentlemanly." But it is gentlemanly to keep a man in suspense for days, and perhaps weeks, merely because you don't wish to put him out by a straightforward declaration? He is only a gentleman who treats his fellow men in a manly, straightforward way. Never seem by ambiguous words to sanction hopes you do not intend to gratify. If you mean "No," out with it!

GIVE HIM A TRADE.—If education is the great buckler and shield of liberty, well developed industry is equally the buckler and shield of individual independence. As an unflinching resource through life, give your son, equal with a good education, a good honest trade. Better any trade than none, though there is ample field for adoption of every inclination in this respect. Learned professions and speculative employments may fail a man; but an honest handicraft trade seldom or never—if its possessor chooses to exercise it. Let him feel, too, that honest labor crafts are honorable and noble. The men of trades—the real creators of whatever is most essential to the necessities and welfare of mankind—cannot be dispensed with. They, above all others, in whatever repute they have been held by their more fastidious fellows, must work at the ore of human progress, or all is lost. But few brown handed trade-workers think of this, or appreciate the real power and position they compass. Give your son a trade, no matter what fortune he may have, or seem likely to inherit. Give him a trade. With this he can always battle with temporal want, and can always be independent.

It is calculated that the operatives of Lancashire are spending at least ten millions of pounds sterling less than before the crisis.

A FRENCH breakfast—Two salt cellars and a muffin.

MOURNING APPAREL.—This custom is gradually falling out of use, compared with what it was thirty years ago, and this kind of reform is rather sensible. As a general practice, the wearing of black clothes is no real expression of grief for the loss of friends, nor is it so considered. It is adopted by the covetous heir whose heart beats with joy at any event which puts him in possession of his idol, as well as by those who are affected with the purest emotions of genuine sorrow. An English writer has remarked, that "The very time that a man shall mourn, and the very time he shall half mourn, and the very time he shall cease to mourn, are fixed for him by the world, whatever may be the duration of his own sorrow!"

It is no mark of respect for departed relatives. The dark habiliments are assumed, whether the deceased was virtuous or vicious, honest or fraudulent, sober or intemperate; whether he was a man or a simpleton, a blessing or a curse to society. It imparts no consolation to the bosom of sorrow; it alleviates not the woe which flows from a bereaved heart; it offers no balm to its wounds; it equally fails to assuage excessive grief, and to excite that which is prouder. As a memento of departed worth it is superfluous.—The heart of true friendship needs it not; the object of its affection is engraven there too deeply to be effaced.—The mock mourner is unaffected by its sable hue.

Objection to the custom may be founded principally on its positive evils. It is extravagant, and absorbs a large amount of funds which might be appropriated for more useful purposes; it presents a strong temptation to pride and dishonesty, and has often robbed the widow and fatherless of bread and the creditor of his due.

LINCOLN'S LAST YOKE.—Our humorous Chief Magistrate was lately visited by one of the "on to Richmond," sword of Gideon gentry, who confidently expressed the hope, so common among the abolition noodles, that Lee's army would be "bagged." The President grinned to the utmost of his classic mouth, and remarked that he was afraid there would be too much "nigger mathematics" in it. The visitor smiled at the allusion, as he felt bound in politeness to do, supposing there must be something in it, though he could not see the point. "But I suppose you don't know what 'nigger mathematics' is," continued Mr. Lincoln. "Lay down your hat a minute, and I'll tell you." He himself, resumed the sitting posture, leaned back in his chair, elevated his heels on the table and went on with his story. "There was a darkey in my neighborhood called Pompey, who, from a certain quickness in figuring up the prices of chickens and vegetables, got the reputation of being a mathematical genius."

"Mr. Johnson, a darkey preacher, heard of Pompey, and called to see him. 'Here ye're a great mat'm'ishum, Pompey.' 'Yes sar, you jus try.' 'Well, Pompey, Ise compound a problem in mat'matics.' 'All right, sar.' 'Now, spose dere am three pigeons sittin on a rail fence, an thee fire a gun at 'em and shoot one, how many's left?' 'Two, ob course,' replies Pompey, after a little wool scratching. 'Ya ya ya,' laughs Mr. Johnson; 'I knowed you was a fool, Pompey; dere's none left; one's dead, and d'adder two's flown away.' 'That's what makes me say,' continued Mr. Lincoln, 'that there is too much nigger mathematics in the Pennsylvania campaign.' And the result showed that in this instance, at least, the anecdote suited the fact. Lee's Army was the three pigeons. One of them was taken down at Gettysburg, but the other two flew off over the Potomac.—Boston Courier.

NEVER attempt to strike the guilty, where by misdirected or too hasty blows the innocent, gallant and good may suffer. Never attempt to expose a villain, if your efforts in so doing are likely to injure those who have been the unsuspecting dupes of his artifice. Never wager a larger sum than you carry in your pocket. Never shake hands with a man if you are not really glad to see him. Never forget, when you meet, to recognize your friends, and be even more careful to offer your salutations to those that are poor. Never quarrel without sufficient cause; but if it be necessary that you do quarrel, then see that quarrel firmly to an end. Never betray confidence of any kind, but more particularly that of women.

Two friends met not long since, after a separation of thirty-two years. "Well, Tom," says one, "how has the world gone with you, old boy? Married yet?" "Yes, and have a family you can't match—seven boys and one girl!" "I can exactly match it," was the reply; "for I have seven girls and one boy."

"I would have you understand that I am a man of quality," said a marquis to a financier. "And I," replied the financier, "am a man of quantity."

HOW TO DIRECT A LETTER.—Do letter writers ever consider that the style of address, or rather the manner of writing addresses, sanctioned by immemorial usage, is as nearly as possible what it ought not to be? Let us illustrate:

WASHINGTON LAFAYETTE SNOOKS, ESQ.
No. 743 ZENOBIA STREET,
Athens,
N. Y.

Here we have the individual name by far the most prominent feature; then the street in which he lives; then, still smaller, the town; and finally, in almost illegible letters, the state. This letter goes into the Sacramento post office, with ten thousand others; the clerks pour the whole lot upon the table, and begin to sort them for the mails. The first thing a clerk wants to know is—not whose letter it is, but where it is to go. Mails are made up for East, South, West and North, and for States and part of States. Now, all the clerk cares for is the State to which the letter is to go, and, in a few instances, the section of the State. He has no regard for Snooks, nor for Zenobia Street, nor for Athens, except to know what Athens, so that he may not send to Illinois or to Greece the letter that should go up the Hudson River.

That is the case. Now let us see what should be, and the best way to illustrate is this:

Washington L. Snooks,
No. 743 Zenobia Street,
ATHENS,
NEW-YORK.

Here the clerk sees at a glance that the letter is for New-York State, and at the same instant he recognizes the special location to be Athens. That is all he cares about; the letter is properly mailed; at Athens the local postmaster sees on the instant that the letter is in the right post office, and at his leisure he finds who it is sent to. And of all men in the service, from the Postmaster-General downward, this special postmaster at Athens is the only man who cares to know the name of Washington Lafayette Snooks.

Moral: Write the name of the State and town in full, and quite large; as for the rest, it is of small account, so it be neat and plain.

A LEGAL friend in the West sends the following:

Several years ago I was practising law in one of the many beautiful towns in Wisconsin. One very warm day, while seated in my office at work, I was interrupted by the entrance of a boy, the son of one of my clients, who had walked into town, six miles, in a blazing sun, for the purpose of procuring a bible. He had been told, he said, that there was a place there where they gave them away to people who had no money; he said he had no money, and was very anxious to get one of the good books, and asked me to go with him to the place where they were kept. Anxious to encourage him in his early piety, I left the brief on which I was engaged, and went over with him to the stand of an old Presbyterian deacon who had the much coveted books in charge. I introduced him to the deacon, telling him the circumstances. He praised the boy very highly; was delighted to see a young man so early seeking after the truth, etc. etc., and presented him with the best bound Bible in the collection. Bubby put it in his pocket, and was starting off, when the deacon says: "Now, my son, that you have got what you so much desired, I suppose that you feel perfectly happy?" "Well, I do, old boss, for between you and I, I know where I can trade it off for a plucky good fiddle!"

A FEW MORE LEFT.—A pedlar, who was offering for sale some wooden bowls to an old lady, was anxious she should purchase, as it would be the last chance she would ever have to buy, the last tree suitable for making bowls having been cut down, and he had all that was left for sale. A few months after, another pedlar came along, offering to sell some wooden bowls very cheap.

"What," said the old lady, "I tho't they had cut the tree down long ago, and that no more could be made."

The pedlar coolly confirmed his brother pedlar's statement, adding that his were made from the root of the tree, as she could see how curly the wood looked. Thinking this her last chance, she bought one.

A gentleman who had been spending the evening with a few friends, looking at his watch just after midnight, said, "It is to-morrow morning! I must bid you good night, gentlemen."

THE AGE of a young lady is now expressed according to the present style of skirts, by saying that eighteen springs have passed over her head!

FLOWERS have their language, why not their religion? Of course it would be Budism.

THERE is a farmer in Yorkshire, who has a mile of children. His name is Furlong, and he has four boys and four girls. Eight furlongs make one mile.

NEWSPAPERS.—We are under obligations to Messrs. Stratman & Co of San Francisco for full files of Pictorials and Atlantic papers.

ASYLUM BUILDING ACT.—The Secretary of State some time since reported that there was an error in the Laws published, in regard to the Asylum Building Act—which read three-fourths of one per cent instead of three-fourths of a mill should be levied to create an Asylum Building Fund. We hope that everybody will vote in favor of the Building Fund.

ACCORDING to the returns made to the County Superintendent by the School Census Marshalls, there are in Yolo county 1518 children between the ages of 4 and 18 years: boys, 764; girls, 754. There are 664 children under 4 years, and 112 between 4 and 21; total of all ages under 21 in the county, 2294. Number of children born in California, 1257. Between 4 and 6 years of age, 322.

THE Stockton District Fair will open on the 22d of September next.

THE Ladies' Sanitary Aid Society, of Portland, Oregon, has collected \$1,783 for the relief of wounded soldiers.

THE stock of foreign brandies in the San Francisco market is sufficient for three years' consumption.

THE imports of San Francisco for the first six months of this year amount to the value of \$6,283, 529. This is an increase of 25 per cent. over the same period last year.

HIGH PRICES.—Lumber sells at Unionville (N. T.) for \$300 per one thousand feet.

ALTITUDES.—Virginia City is 4,391 feet above Placerville, El Dorado county, and the latter place is 1,756 feet above the Pacific. Mount Diablo is 4,750 feet above the sea level.

THE gold yield of Colorado Territory for the last year, is estimated at \$20,000,000.

COAL.—Indications are promising for the discovery of a coal mine within ten miles of Virginia City, N. T.

THE pirate Florida was at Bermuda on July 16th, where she was permitted to repair and take on coal. She saluted the british flag, and the salute was returned, and interchanges of other civilities followed. The pirate claims to have gone on a recent occasion within fifty miles of New York, in pursuit of the Ericsson.

DISCHARGED FROM THE ARMY.—The returns from the Medical Director's office at Washington, show that since the war commenced, 135,000 soldiers have been discharged from the army on surgeon's certificates.

A. T. STEWART—the merchant prince who chartered a ship and sent it with a cargo of breadstuffs to the suffering poor of Ireland—lately gave \$5,000 to the fund for the relief of the policemen and soldiers who were wounded in quelling New York riots.

CALIFORNIA EXPORTS.—The ship Mary L. Sutton, Capt. E. Spicer, Jr., sails on Monday next for New York, having for a portion of her cargo some six hundred tons of copper ore from the Napoleon, Newton and Alta mines. This ore is intended for reduction at Boston and New York, and comprises the most valuable class of copper ores yet exported from this state. The ship has a cargo of wool, hides, ore, horns, oil, native wine, turpentine, and a general California assortment.—Alta.

General Election.

On Wednesday next the electors of California are called upon by the proclamation of the Governor to meet at their respective election precincts and vote for a Governor, Lieutenant Governor, three Members of Congress, and other State and County Officers. This is an important duty the citizen is called upon to discharge. The privilege of choosing our own rulers is a reflex of the principle laid down by our revolutionary fathers, that "the people are the source of all political power." The people choose from among themselves—not from a privileged class—the men who are to make and the men who are to execute the laws for a limited period, and those upon whom the choice of the people fall become for the time being the servants of the people, of the humblest as well as the greatest, to make and to administer laws in accordance with the organic law of the nation and the state, which is the basis whereon stands our political and social superstructure. The people are now as they ever have been since the formation of our government, and as they ever will be so long as that government stands or so long as the people are left free to read and think for themselves, divided into parties, each party believing the principles and policy it avows best calculated to attain a common end; hence the necessity of free discussion and an untrammelled press, that opinions may be freely interchanged and rational judgments formed. As one eminent in our political history has said, "error is comparatively harmless so long as truth is left free to combat it."

The two parties in this state have acted in their primary capacity and each indicated its choice for the several offices within the gift of the people, and the duty devolving upon the voters on Wednesday next is to decide between these parties by the use of that silent but most potent voice—the ballot. And we doubt not that the people fully appreciate the importance of the duty they are called upon to perform. Those States which have declared themselves a power independent of the United States and are in arms to maintain that independence, are to be brought back. Those seats in Congress so long vacant, are again to be filled. The roar of cannon and the rattle of musketry are to cease. The fields so long desolated by civil war are again "to blossom as the rose," and the charred remains or smoldering embers of the once humble cottage or stately edifice are to give place to habitations for shelter to those who have been driven forth to encounter the pitiless storm. Peace must again be restored! Who is equal to this task? The voice of the people must be heard sooner or later, and sooner or later that voice will be obeyed, and whilst the herculean tasks above indicated is being performed, the patriotic masses will not lose sight of the fact that their own civil and political rights and liberties are to be preserved and protected.

QUICKEST TRIP ON RECORD.—The Cunard steamer Scotia made her last run from Queenstown to New York in eight days and three hours. The Persia, of the same line, which left this port to day, will probably make her destination under nine days. We note the time of the Scotia from Sunday, July 19th, 5 P. M., from Queenstown, to Monday, July 27, 8 P. M., at New York, as the quickest trip on record. She communicated with our news agent off Cape Race in five days and a few hours from Queenstown. A French merchant who left Paris on the 18th of July, on business to New York, by the Scotia, completed his object yesterday, and sailed on his return in the Persia to-day. The prospect is he will be at home again by the 8th of August—from Paris to New York and back in twenty-one days, including two days important business in New York.—N. Y. Times, July 30.

SUDDEN DEATH.—S. H. Pritchard, of the firm of Pritchard & Bro.'s, San Francisco, died very suddenly yesterday morning at the St. Nicholas Hotel in this city. He came to town on Wednesday evening, and complained of being a little unwell at that time. During Thursday afternoon he had a sofa taken to his room, saying he could not sleep in bed. In the morning the proprietor of the house went up to his room and found him lying partially on the floor and partially on the sofa, with a shawl thrown over him, covering his head. He seemed to be quietly sleeping and was left so. Almost immediately afterwards, however, one of the boys was sent up to attend to his wants, and on throwing off the shawl he was discovered to be dead and perfectly cold. He is supposed to have died from disease of the heart.—Appeal, 22d.

Ninety-eight tons of ore from the Delaware and Broderick ledges at Aurora, N. T., produced \$13,233 90.

Thursday Night's Meeting.

According to previous notice the Union party held a meeting in this place on Thursday evening last. Though not so fully attended as some previous meetings of the campaign, yet there was quite a respectable crowd in attendance. In the published notice of the meeting an invitation was extended to the democratic candidates to occupy a share of the time, which was accepted.

Dr. J. B. Hartsough, Union candidate for the Assembly, was the first speaker introduced to the audience, who was followed by Dr. J. L. Downing, Democratic candidate for the same position. Mr. Patten, late member of Assembly, was the next speaker on the Union side, who was followed by Col. Andrew Stevenson, Democratic candidate for State Senator, who made a few brief remarks on local policy. Col. Vinton, Union speaker, was next called for, who seemed to aim to speak against time, considering the lateness of the hour. Up to the close of Mr. Vinton's speech the whole affair had progressed quietly and orderly, but then one of the most disorderly and disgraceful scenes occurred that it has been our lot to witness for a great while. Mr. Jacobs, the democratic nominee for District Attorney, was called for, when a portion only (to the credit of the party he it said) of the Union men present determined to hear no more democratic speeches, and set up such yells and such groans as civilization seldom hears, and to add to this indignity, a fire-ball was thrown from behind the corner of a house by some miscreant who was too cowardly to show his head. This proceeding so incensed the democrats, that, true to the tenets of the party, they determined that Mr. Jacobs should be heard, and this determination was made known in such unmistakable terms, and being heartily seconded by the more respectable portion of the Union men present, that the malcontents were forced to yield, and such of them as felt unwilling to hear another democratic speech, joined in the torchlight procession, which was not a very great display.

A FAMILY OF SEVEN PERSONS DROWNED.—A shocking catastrophe occurred recently in Black River township, Loraine county, Ohio. Herwig, a Protestant German, with his wife and five children, set out about eight o'clock in the morning in their wagon to attend church at a neighboring town. About an hour afterward, as some men were crossing a bridge at Beaver Creek, they saw two horses struggling in the water. The neighbors were alarmed and the horses extricated. When the carriage was drawn out the bodies of Herwig, his wife and five children, comprising the entire family, were found in it, quite dead. It is supposed that in crossing the bridge the horses became frightened and backed off into the river, where, becoming entangled in the carriage, all the seven were drowned. The eldest of the children was a girl about fourteen years of age.

AGRICULTURE AND FRAKING PRIVILEGE.—The Postmaster General, in his instructions to postmasters, under the new postoffice law, reduced the extreme weight allowable to packages of seeds, cuttings, roots and scions sent free, from the former limit of thirty-two ounces to twelve ounces. This rule promising to work great inconvenience and obstruction, cutting off even the smallest packages of wheat hitherto distributed, an order has been issued by the Postmaster General re-establishing the limit of thirty-two ounces.

RUNNING AWAY TO ESCAPE THE DRAFT.—All sorts of stories are in circulation, says the Boston Traveler of Tuesday, relative to the "exodus" of persons who have been drafted. At one of our popular hotels, six waiters were drafted, all of whom are reported to have suddenly disappeared. It is said that seventy or eighty of the men employed at the gas works were drafted, and that not more than one in ten of these were at work the next day.

THE "CLAIMS" OF REESE RIVER.—There are now located and recorded in the mining district (Reese River) about 1,300 different company claims. Nearly half are separate ledges. Mount Hope has about 75 companies; Ravenswood, 85; Simpson's Park, 230; Big Creek 350; Smokey, 300; Summit, 100; Santa Fe, 60; Grass Valley, 15; Union, 20; Cortez, unknown.—Reese River Reveller.

RAID FROM YOLO.—A detachment of the Washington Guard, of Washington, Yolo county, came over yesterday, cut out the bulk Dimon, moored at the foot of N street, and broke up the railroad track leading thereto. The object was to secure the hulk and the two steam boilers thereon with the view of sending them to San Francisco to be placed on a new steamer which is being built there. Had the Cleopatra arrived in time, the raiders might have gotten off safely with their booty. As it is we have an opportunity of getting out our big guns and preventing the consummation of their purpose.—Republican, 25th.

BY OVERLAND TELEGRAPH.

The following dispatches are from the Sacramento Union:

Chicago, August 26. The following circular regulating the enrollment in California has been just received from the War Department:

Provost Marshall General's office, [Circular No. 75] Washington, August 21, 1863. By direction of the President of the United States the State of California is divided into three enrollment districts, as follows: The counties of Butte, Colusa, Del Norte, Humboldt, Klamath, Marin, Mendocino, Napa, Plumas, Shasta, Sierra, Siskiyou, Solano, Sonoma, Sutter, Tehama, Trinity, Yolo and Yuba to constitute and be known as the Northern District—headquarters at Marysville. The counties of Amador, Calaveras, El Dorado, Nevada, Placer, Sacramento, San Joaquin, Stanislaus and Tuolumne to constitute and be known as the Middle District—headquarters at Sacramento. The counties of Alameda, Buena Vista, Contra Costa, Fresno, Los Angeles, Mariposa, Merced, Monterey, Santa Barbara, Santa Clara, San Bernardino, San Diego, San Luis Obispo, San Mateo, Tulare and San Francisco to constitute and be known as the Southern District—headquarters at San Francisco.

Fortress Monroe, August 24. The steamer City of Richmond, from off Charleston on Sunday noon, Aug. 23, has arrived. Sumter's flag was shot away. On Thursday and Friday, 20th and 21st, the bombardment was constantly kept up. The whole south side of the fort was demolished almost to the base. On Friday morning, 21st, nine breaches were discovered. Wagner and Gregg and other rebel batteries fired at short intervals. An expedition was being fitted out to silence the James Island batteries.

The Richmond Sentinel of to-day has the following important dispatches:

Charleston, Aug. 22.—The fire of the enemy's land batteries has been concentrated upon Sumter, and more guns have been disabled. There has also been a heavy fire against Wagner and Gregg from the fleet and land. Gillmore's demand for the surrender of Sumter and Morris Island, with a threat to shell Charleston in four hours from the delivery of the papers at Fort Wagner, was received and returned this morning. Beaugregard, in reply, charged inhumanity and violation of the laws of war against Gillmore, and affirmed that if the offense is repeated he will employ stringent measures for retaliation. Up to this time the threat to shell the city has not been executed.

Charleston, Aug. 23. On Saturday, Aug. 22, six hundred and four shots were fired at Sumter, four hundred and nineteen of which struck inside or outside. The east wall is sealed and battered, and the parapet is utterly ruined. The north-west wall and arches have fallen in. The guns are all dismounted. On Sunday the fire was very damaging. The shot swept through the fort and the shell wounded several officers, including Col. Rheet, commanding. He is ordered to hold out until relieved or the place is taken. Col. Gaylord, of Fort Wagner, was killed, and several wounded. Twenty-three vessels were inside the bar, including the iron clads. General Gillmore sent a notice on Sunday, 23, that at eleven o'clock to-morrow, August 24th, he would open on Charleston. Meantime non-combatants could leave.

Chicago, Aug. 25. Gold in New York this afternoon, 22 1/2.

Chattanooga, Aug. 22. The Yankees commenced shelling Chattanooga yesterday, without notice of their intention to do so. All quiet to-day.

New York, Aug. 25. The draft commenced to-day in the Eighth District, where the trouble began on the 13th of July. No disturbance whatever occurred to-day.

New York, Aug. 26. Drafting proceeds quietly to-day in the Fifth, Eighth and Ninth Districts.

Norfolk (Va.), August 25th. The Richmond Examiner of to-day has been received. It contains a Charleston dispatch of August 24th, which says: "Last night, at twelve o'clock [Sunday, Aug. 23,] the enemy opened fire on the city, firing fifteen 8 inch Parrott shells. Non-combatants are leaving in a continuous stream."

Cairo, Aug. 26. Advice from Steele's expedition to Aug 18th has been received. At that time Steele was at Charleston, Arkansas, and had been joined by Davidson's command from Pilot Knob, Missouri. The report that the rebels are fortifying at Bayou Meteo is confirmed. It is reported that Kirby Smith's force was marching from the Red River country to Little Rock. It was not stated how soon General Steele would move forward, but from the energy displayed on all sides the troops would soon be in proper condition to start. A battle at Bayou Meteo is probable.

Chicago, Aug. 27. A Cincinnati dispatch says Burnside's advance was within thirty miles of Knoxville (Tenn.), on Monday, August 24th. Buckner is reported to be strongly fortifying that place.

SAN JOSE RAILROAD.—The San Jose (Santa Clara) Tribune says:

"The work on the San Francisco and San Jose Railroad, which is the first link in the Great Pacific Railroad, is now so far advanced, that by September next the cars will be running to San Mateo; and by January next they will, doubtless, enter our delightful valley.

The editor of the Baltimore American says he has heard from a respectable eyewitness, that Gen. Hooker, in his parting address to his officers here, said "that the Army of the Potomac fought with the rebels two hours out of the twenty-four, and with the Government at Washington the other twenty-two."

INCOME TAXES.—A maiden lady in Hampshire county, Mass., pays an income tax for last year of \$10,000. There is an estate in the second congressional district of the same State which is reported as yielding an annual income of \$90,000. The proprietor is a minor.

FROM THE SQUAW VALLEY MINES.—
A correspondent in the Forest Hill (Placer county) *Courier*, of August 17, says:
Among the hundreds who have visited this locality, who can tell the number that have been to Cariboo, Salmon River, Kern River and Gold Lake? I would not compare this section to these localities. \$500 or \$600 per day was spoken of as common in Washoe, and when we hear of \$300 and \$400 assay per ton from "croppings," just you think of former days. Yet, such an assay might not be impossible; a small piece upon the outside might be very rich, and yet the ledge might not pay. But of one thing I am fully convinced—in this section is a large amount of rock that contains silver and gold; and judging from opinions expressed by persons here, who have resided in Washoe for two and three years, who have operated in and are acquainted with silver rock, I have come to the conclusion that the "indications" here are similar to the early prospects of the Virginia City and Gold Hill mines. But to develop the richness of different ledges here, will take time, money and labor.

As far as assays have been obtained here, they are all from "croppings" only, except one claim at Haskell's diggings and the Georgetown here. The latter have sunk a shaft 40 feet in depth. At the commencement the rock assayed from \$3 to \$4 per ton; but as they descended, at the distance above stated, the pay increased to \$42 per ton. Much will yet be done this fall to develop these mines, and the fact fully established that this section abounds in silver. New comers arrive daily, and I believe none fail to get some "feet." New ledges are discovered frequently, and some of the last found bear appearances of the best rock. I do not want to be, nor am I visionary, regarding the "prospects" here, but I have seen enough to convince me that great inducements exist to develop these mines. They evidently exist from the headwaters of the American river to the Uncle Abe and Juniper Creek diggings, over 40 square miles.

Quite a settlement has sprung up on the east bank of Truckee, opposite Squaw Valley. Knoxville is the name of the place. It contains 5 provision stores, 2 clothing stores, 1 eating house, called the Union, presided over by a Frenchman, Monsieur Weed, 1 meat market, one blacksmith shop, fruit stand, hay yard, etc. A large number of specimens of rock have been sent for assay to different places.

Article 2135, section 26.—The name of each elector whose ballot has been thus received, shall be immediately entered by each clerk, in the column of his poll list, headed "names of voters," numbering each name in the additional column, as it is taken down, so that it may be seen at any time whether the two lists agree.

Article 2137, section 31.—If the vote of any person be challenged on the ground that he has been convicted of an infamous crime, or disfranchised by any court of competent jurisdiction, he shall not be required to answer any questions respecting such alleged conviction; and in the absence of any authentic record of such facts, it may be competent for two disinterested witnesses upon oath to prove the same.

Article 3138, section 32.—When the polls are closed, proclamation thereof shall be made at the place of voting, and no votes shall be afterwards received.

Article 2139, section 33.—As soon as the polls are closed on the afternoon of the day of election, the judges shall open the ballot-box and commence counting the votes, and in no case shall the ballot-box be removed from the room in which any election may be held, until all the ballots are counted; the counting of ballots shall in all cases be public. The ballots shall be taken out carefully, one by one, by the inspector or one of the judges, who shall carefully open them, and read aloud the name of each person contained therein, and the office for which every such person is voted for. Each clerk shall write down each office to be filled and the name of each person voted for for such office, and shall keep the number of votes by tallies, as they are read by the inspector or judge. The counting of the votes shall be continued without adjournment until all are counted.

Article 2140, section 34.—If two tickets are found folded together, they shall both be rejected; and if more persons are designated on any ticket for any office than are to be elected to such office, such part of the ticket shall not be counted for any of them; but no ticket shall be lost for want of form, if the board of judges can determine to their satisfaction the person voted for and the office intended. DR. HOSTETTER'S STOMACH BITTERS.

THE OPERATION OF THIS PALATABLE Remedy upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its control and invigorating properties.

Invigorate the System.
 Vigorous digestion and pure bile produce nutritious blood, and nutritious blood a healthy frame. Does the victim of a dyspeptic stomach and a disordered liver desire to know how the digestion may be improved, the bile and other fluids of the body purified?

Dr. Hostetter's Stomach Bitters
 Will accomplish this desirable revolution in the system, regulating the secretions and excretions, giving tone to the animal juices which dissolve the food, strengthen every relaxed nerve, muscle and fibre, and brings the whole machinery of vitality into vigorous and healthful play.

Strengthen the System.
 The best means of imparting vigor to the broken-down frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in

Dr. Hostetter's Stomach Bitters.
 Debility, from whatever cause arising, may be cured; strength, in whatever manner it may have been wanted, may be restored by the use of this powerful and healthful invigorant. For indigestion and all its painful effects, bodily and mental, they are a positive specific.

A Word to the Aged.
 In the decline of life the loss of vital force consequent upon physical decay can only be safely supplied by some vivifying preparation which recruits the strength and spirits, without entailing the exhaustion which is always the final effect of ordinary stimulants. We tender to the aged

Dr. Hostetter's Stomach Bitters
 As an invigorant and restorative, immediate in its beneficial action and permanent in its effects. It tones the stomach, improves the appetite, and acts like a charm upon the spirits.

For Females.
 Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervous headache, vertigo, general debility, and all peculiar disturbances and derangements to which, as a sex, they are subject. It cheers and enlightens the oppressed mental powers, as well as strengthens the body, and its use is never followed by any reaction.

Beware of Counterfeits. Purchase only of reliable dealers, Sold every where.

Dr. Guyssot's Improved

Yellow Dock and Sarsaparilla
 Will Cure without Fail

Scrofula or King's Evil, Cancers, Tumors, Eruptions of the skin, Erysipelas, Chronic Sore Eyes, Ringworm or Tetter, Scald Head, Rheumatism, Pains in the Bones and Joints, Old Sores and Ulcers, Salt Rheum, Disease of the Kidneys, Loss of Appetite, Disease arising from the use of Mercury, Pain in the Side and Shoulder, General Debility, Dropsy, Jaundice, Lumbago, &c.

Dr. Guyssot's Extract of Yellow Dock and Sarsaparilla

put up in the largest sized bottles, contains more of the Honduras Sarsaparilla than any other preparation extant, which is combined with the extract of Yellow Dock, the extract of Wild Cherry and the Balsam of Fir, thus making the remedy more thoroughly efficient than any other Sarsaparilla before the public. At the same time it is perfectly free from ALL mineral poisons, which can not be said of any other of the Sarsaparilla compounds. The invalid should beware of poisons. Mercury, Iron, Quinine, Potash, Iodine, Sulphur, Arsenic, and many other mineral and metallic poisons enter into and form the active basis of most of the sarsaparilla and panacea of the day. Guyssot's Compound Extract of Yellow Dock and Sarsaparilla does not contain a particle of the substances; as any one can ascertain by applying the necessary tests.
 These poisons may occasionally remove disease, but they so vitiate the blood and impregnate the whole system with their baneful effects, that the first cold or the first attack of disease, prostrates the patient's strength and subjects him or her to the most excruciating torture, and renders another cure almost impossible and hopeless. Let all poisonous sarsaparilla preparations alone, and use Guyssot's Improved Extract of Yellow Dock and Sarsaparilla, which is thoroughly efficacious, perfectly harmless and purely vegetable. All kinds of diseases yield to its genial influence.

Caution. Beware of counterfeits. All genuine Dr. Guyssot's Extract of Yellow Dock and Sarsaparilla has the name of JOHN D. PARK, Present Proprietor, Cincinnati, O., on the label.
 Remember this fact when buying, all without the name of "JOHN D. PARK, Cincinnati, Ohio," on the label are counterfeits.
 Sold by all Druggists.

PATENT COMBINED GANG PLOW,

SEED SOWER AND HARROW.

We have purchased the right this great labor-saving implement for the State of California, and are having a number made in the Atlantic States for this market.

With this combined Machine one man, with six horses, can do the work of three twelve inch plows, besides sowing the grain, and harrowing it in as he proceeds, thus finishing his work in the best manner possible, without being obliged to travel over the plowed ground. This Machine was very thoroughly tested by the farmers of Santa Clara county, where some eight are now in use; also, by the Messrs. Hensel & Kethley, of this county, and Messrs Hoppin Brothers, near Cacheville, Yolo county. It is made very substantial; is not liable to get out of order, and being on large truck wheels, the Gang Plow, Seed Sower and Harrow, runs lighter than three plows would, cutting the same amount of land.

We are desirous of having these plows generally introduced throughout the State, and are therefore prepared to offer very favorable inducements to farmers and the trade. The following are some of the names of our customers who have used them for the past two seasons:

Sacramento county—Hensel & Kethley.
 Yolo county—Hoppin Brothers, L M Curtis, Caleb Davis, C Travers, A J Scroggins.
 Sutter county—M Bouliware, A L Chandler.
