CITY OF CHICAGO.

IN THE CITY COUNCIL, May 25, 1896.

Ordered, That the Corporation Counsel be and he is hereby directed to cause to be properly compiled, edited and published under his supervision as soon as practicable and in such manner that the publication may be admissible in evidence in court, all ordinances of the City of Chicago which shall appear to be in force at the time of such publication, including all ordinances appearing to have any present force in territory heretofore annexed to the City of Chicago, but passed by the respective municipal authorities having jurisdiction over any such territory prior to such annexation, and that the Comptroller be and he is hereby directed to pay the expenses of the work and of publication out of any moneys available for the purpose not otherwise appropriated.

2. Licenses—issuance and revocation.] The mayor shall grant licenses for the purposes authorized by this ordinance to such residents of the city of the age of twenty-one years, duly qualified according to the ordinances of the city council, as he may deem proper, unless the city council shall otherwise designate, and may revoke the same at pleasure.

cil in such appointment, the mayor may appoint some suitable person to discharge the duties of such office.

5. Reward proclamation.] The mayor may, whenever he shall deem it necessary, issue his proclamation for the apprehension of any person who may have committed a crime within the city of Chicago, and may, in such proclamation, offer a reward, not exceeding three hundred dollars, to be paid out of the city treasury, upon the certificate of the mayor that the service required has been performed.

6. Tax titles—conveyance of.] The mayor and city controller are hereby authorized and empowered to sell and convey any and all lots and parcels of land to which a title is held by the city under sale and conveyance for the city taxes or assessments, upon such terms as may be agreed upon, with the consent of the finance committee; but in no case shall such sale and conveyance be made for a less consideration, in case of tax titles arising from sales for general taxes, than the amount of the original purchase money and subsequent taxes paid by the city, with interest at the rate of ten per cent. per annum.

7. Flags and decorations.] The mayor shall have power and authority to display flags or other decorations on, in or about the city hall or other public buildings belonging to the city.

16. Free plates, badges, etc.] Wherever any ordinance in force in the city of Chicago requires licenses to be obtained for the purpose of carrying on any business or occupation, and the provisions of such ordinance require the licensee to obtain from the city clerk a metal plate or badge for the purpose of indicating that the license fee for the current year has been paid, it shall be the duty of the city clerk to deliver said plate or badge free of charge to the person paying the license fee, and said fee shall be considered as covering the cost of said plate or badge, or both.

This is not, however, intended to give them access to any part of any building of Class III.

252. Discretionary powers—arbitration.] In cases where discretionary power to estimate damage to frame buildings and their roofs is given the commissioner of buildings, and in questions relating to the security or insecurity of buildings or parts thereof, and in all other cases where discretionary powers are, by this chapter, given to the commissioner of buildings, an appeal to arbitration shall be allowed to parties believing themselves injured or wronged by the decision of the commissioner of buildings, as follows, to wit: The persons wishing to make such appeal shall do so within three days after written notice of the decision or order of the commissioner of buildings has been given them. As soon as such sum of money shall have been deposited with him, the commissioner of buildings shall appoint an arbitrator, to represent the city, and the two arbitrators thus appointed shall, if they can not agree, select a third arbitrator, and these arbitrators shall, after investigating the matter in question, make a decision with regard to the same, which shall be final and binding upon the appellant as well as upon the city. The fee deposited by the appellant with the commissioner of buildings shall be paid by said commissioner to the arbitrators upon rendering their report, and shall be in full of all costs incident to the arbitration, but, should the decision of said board of arbitration be rendered against the commissioner of buildings, then the money deposited by the appellant shall be returned to him and the entire costs of said arbitration shall be paid by the city of Chicago. Whenever the decision of the commissioner of buildings upon the safety of any building, or any part thereof, is made in a case so urgent that failure to promptly carry out his orders to demolish or strengthen such building, or part thereof, may endanger life and limb, the decision and order of the commissioner of buildings shall be absolute and final: Provided, if in the opinion of the commissioner of buildings it becomes necessary to demolish any building or part thereof, said commissioner of buildings shall call to his aid the president of the Illinois Chapter of the American Institute of Architects and the president of the Builders and Traders Exchange of Chicago, or their appointees, who, with the commissioner of buildings, shall form a board of arbitration, and the decision of a majority of said board shall be absolute and final. If, after a permit for the erection, enlargement, alteration, repair or removal of a building shall have been granted, the operations called for by the said permit shall not be begun within six months of the date thereof, or if such operations are not completed within the time fixed in said permit for the duration thereof, then said permit shall be void, and, before such operations can be begun or completed, a new permit shall be taken out by the owner or his agent, and fees, as herein fixed for the original permit, shall be paid therefor.

In all cases drawings and specifications sufficient to enable the commissioner of buildings to obtain full and complete information as to the extent and character of the work to be done, and the time to be occupied in doing it, shall be presented with such application. If the matters mentioned in any application for a permit, or if the plans and specifications accompanying and illustrating the same, indicate to the commissioner of buildings that the work to be done is not, in all respects, in accordance with the provisions of this chapter, he shall refuse to issue a permit until such application, plans and specifications shall have been made to conform in every respect to the provisions hereof, and, when such application, plans and specifications conform to the provisions of this chapter, the commissioner of buildings shall issue a permit, file said application and apply to such plans and specifications an official stamp stating that the drawings and specifications to which the same have been applied, comply with the provisions of this chapter. The plans and specifications so stamped shall then be returned to such applicant. True copies of so much of said plans and specifications as may be required, in the opinion of the commissioner of buildings, to illustrate the features of construction and equipment of the building shall be filed with the commissioner and shall remain on file in his office until the completion or occupation of said building, after which said drawings and specifications shall be returned by the commissioner to the parties by whom

they were deposited, upon the demand of said person or persons. It shall not be obligatory upon the commissioner of buildings to retain such drawings in his custody for more than three months after the completion or occupation of the building.

255. Deviation from plans approved.] It shall be unlawful to erase, alter or modify any lines, figures or coloring contained upon such drawings or specifications so stamped by the commissioner of buildings or filed with him for reference. If, during the progress of the execution of such work, it is desired to deviate in any manner affecting the construction or other essential of the building from the terms of the application, drawing or specification, notice of such intention to alter or deviate shall be given in writing to the commissioner of buildings and his written assent must first be obtained before such alteration or deviation shall be made. Alterations in buildings, which do not involve any change in their structural parts or of their stairways, elevators, fire escapes or other means of communication, or ingress or egress, may be made without the permission of the commissioner of buildings.

256. Permit, prerequisites of issue.] Before the commissioner of buildings shall issue a permit, as aforesaid, he shall first satisfy himself that the applicant for such permit has made payment to the water department of the city of Chicago for the water to be used in such building, or for the water meter for measuring all the water to be used in the construction of such building, according to the regulations of the water department. He shall, also, before issuing such permit, satisfy himself that the applicant for the same has filed with and had approved by the commissioner of public works of the city, an indemnifying bond protecting the city against any and all damage that may be done to the streets or alleys upon which such building is situated, and also to life and limb of passers by, in consequence of the proposed operations to be covered by said permit.

257. Permit fees.] The fees to be paid for permits for the erection of buildings shall be as follows, to wit:

For raising and repairing buildings, one dollar.

For sheds not exceeding two hundred and fifty-six square feet in area, one dollar.

For open shelter sheds at the rate of fifty cents for each one thousand cubic feet or part thereof.

For buildings one story in height and not exceeding 25x40 feet in area, one dollar and fifty cents.

For buildings more than one story in height or larger in area than 25x40 feet, the fee for the permit shall be at the rate of ten cents for every one thousand cubic feet or fractional part thereof contained in said structure, the cubic contents being measured to include every part of the building from the basement floor to the highest point of roof, and all bay windows and other projections.

259. Street occupation.] The extent of occupation of sidewalk and street, to be covered by the terms of a permit for street obstruction or building, shall be as follows: Such permit shall not authorize the occupation of any sidewalk or street or part thereof other than that immediately in front of the premises of the building upon which said permit is issued. During the progress of building operations, at least one-third of the sidewalk in front of the premises of the building for which such permit is granted, shall, at all times, be kept free and unobstructed, for the purposes of passage, and clear of rubbish, dirt and snow. Such sidewalks must, if there are excavations on either side of the same, be protected by substantial railings which shall be built and maintained thereon so long as such excavations continue to exist. It is not intended hereby to prohibit the maintenance of a driveway for the delivery of material across such sidewalk from the curb line to the building site.

260. Elevated sidewalks—storage of material.] Temporary sidewalks may be elevated, not to exceed four feet above the curb level of the street, for the purpose of delivering materials in the basements of buildings, and, when so elevated, shall be provided with good and substantial steps, on both ends of the same, and shall have railings as before specified on both sides thereof. If the building to be erected is more than four stories in height, and is set at or near the street line, there shall be built over such sidewalk a roof having a framework and covering, composed of supports and stringers of 3x12 timbers not more than eight feet from centers, covered by two layers of two-inch plank. Said roof shall be maintained as long as material is being used or handled on said street front and above the level of such sidewalk. In all cases, such temporary sidewalks and their railings and approaches and the roofs over the same shall be made, as regards ease of approach, strength and safety, to the satisfaction of the commissioner of buildings. The occupation of the street for the storage of building materials shall never exceed, in front of any one building, one-quarter

of the width of the roadway of the same, and in streets containing railroad tracks, such occupation shall not exceed one-half the distance from the curb stone to such railroad track. Earth taken from excavations and rubbish taken from buildings must not be stored either upon sidewalk or roadways of streets and must be removed, from day to day, as rapidly as produced. Where dry rubbish is apt to produce dust, it must be kept wet, so as to prevent it from being blown by the wind.

261. Derrick on sidewalk.] Materials for buildings more than four stories in height shall be hoisted entirely within the enclosing walls thereof. Derricks used for such purposes shall not be set upon the sidewalk.

262. Roadway occupation.] If the written consent and waiver of claims for damages against the city of Chicago is first obtained from the owners of properties abutting upon the site of any proposed building, and is filed with the commissioner of buildings, the permission to occupy the roadway and the sidewalk may be extended beyond the limits of such building upon the same terms and conditions as those herein fixed for the occupation of the sidewalk and street in front of the premises of such building.

263. Unlawful occupation of street.] The permission to occupy streets and sidewalks for purposes of building is intended only for use in connection with the actual erection, repair, alteration or removal of buildings, and must terminate with the completion of such operation. It shall be unlawful to occupy any sidewalk or street after the completion of the operation for which a permit has been issued by the department of buildings. It shall, also, be unlawful to occupy a sidewalk or street, under authority of such permit, for the storage of articles not intended for immediate use in connection with the operations for which such permit has been issued.

264. Danger—warning of.] Red lanterns shall be displayed and maintained during the whole of every night at each end of every pile of material in any street or alley and at each end of every excavation.

LOCATION OF HOSPITALS, LIVERY STABLES, ETC.

265. Hospital—consent of residents—location of.] It shall be unlawful to erect, establish, build, construct or maintain any hospital for the treatment and nursing of any person or persons, affected with any disease whatever, on any residence street or avenue in the city of Chicago until there be first obtained the written consent of the owner or owners of at least three hundred feet of frontage, on the opposite avenue, on each side of and adjoining such hospital or hospital site. Nor shall it be lawful for such person, firm, company or corporation to erect, establish, build, construct or maintain any hospital for the treatment or nursing of any person or persons, affected with any contagious disease, on any street or avenue until there be first obtained the written consent of the owner or owners of at least one hundred and

fifty feet of frontage on such street or avenue, on each side of and adjoining and nearest to such hospital or hospital site, and of the owner or owners of at least three hundred feet of frontage, on the opposite side of said street or avenue and nearest opposite said hospital. Such written consent shall be filed with the commissioner of buildings before any permit shall be granted for the construction or erection of any building for such hospital.

266. Stable—gas house or reservoir—paint, oil or varnish works.] It shall not be lawful for any person to locate, build, construct or keep in any block of any street, in which block two-thirds of the buildings, on both sides of the street, are devoted to exclusive residence purposes, a livery, boarding or sale stable, gas house, gas reservoir, paint, oil or varnish works within two hundred feet of such residence, on either side of the street, unless the owners of a majority of the lots in such block, fronting or abutting on the street, consent in writing to the location or construction of such livery stable, gas house, gas reservoir, paint, oil, or varnish works therein. Such written consent of the property owners shall be filed with the commissioner of buildings before a permit shall be granted for the construction or keeping of such livery stable, gas house, gas reservoir, paint or varnish works.

267. Residences only—exceptions.] If all the buildings on both sides of the street in any particular block are calculated to be and are used exclusively for residence purposes, and more than one-half of the frontage on both sides of the street in such block is thus improved, it shall not be lawful for any person to construct in such block, on either side of the street, any building intended or calculated to be used for any other than residence purposes only; and the commissioner of buildings shall not grant a permit for any building in such block for other than residence purposes only, unless the owners of the majority of the frontage upon which buildings have been erected in such block and, also, the owners of the majority of the vacant lots fronting or abutting on both sides of the street in such block, give their consent in writing to the construction of such building.

ALTERATION AND REMOVAL OF BUILDINGS.

268. Wooden buildings—alteration.] Permits to alter or raise wooden buildings may be issued, provided they do not involve an enlargement or raising of such buildings beyond the limits of dimensions herein prescribed for frame buildings, and the strains upon the material thereof are kept within the maximum strains hereby fixed for the same; and provided further, said wooden building has not been damaged to any extent greater than fifty per cent. of its original value by fire, wear and tear, action of the elements or otherwise.

269. Wooden building—removal.] Permits to move wooden buildings, provided they have not been damaged to an extent greater than fifty per cent. of their original value by fire, wear and tear, action

of the elements or otherwise, may be issued upon compliance with the following conditions: Any person desiring to move a wooden building shall first obtain the written consent of the owner or owners of a majority of the frontage of lots on the same side of the street of the block in which it is proposed to locate such removed building and, also, a majority of persons owning the frontage opposite the proposed location and within one hundred and fifty feet of the same. And such person shall, also, file an affidavit, subscribed and sworn to by one or more persons in the following form, as near as may be, viz.:

STATE OF ILLINOIS, }
 COUNTY OF COOK. } ss.

.....and.....each being duly sworn on oath, deposes and says, each for himself, that he was present and saw the persons whose names are subscribed to the above petition, sign the same and that each and every one of said persons claimed, at the time of said signature, that they were the owners of the property placed opposite their respective names in the above petition, or the attorneys or agents of the owners, with full authority to sign and act for them. Subscribed and sworn to before me thisday of.....A. D. 18....

This section shall not apply to the case of any person removing a building upon his own premises and not going upon the premises of any other person, or upon any street, alley or other public place, in making such removal.

270. Buildings, removal of—house mover's license.] No person except a licensed house mover, shall remove any building within the limits of the city; and every such person shall, annually, before engaging in said occupation, obtain a license therefor from the mayor, and no such license shall be granted until the party applying therefor shall have given a bond in the sum of five thousand dollars, with good and sufficient sureties, to be approved by the commissioner of public works, conditioned among other things, that said party will pay any and all damages which may happen to any pavement, street or sidewalk, or to any telegraph pole or wire belonging to the city of Chicago, or to any tree or trees, whether said damage or injury shall be inflicted by said party or his agents, employes or workmen, and conditioned, also, that said party will save and indemnify and keep harmless the city of Chicago against all liabilities, judgments, costs and expenses, which may in any wise accrue against said city in consequence of the granting of such permit or license, and will, in all things, strictly comply with the conditions of his permit. Upon the execution of said bond and its acceptance by said commissioner, a license shall be issued, and the said licensed person shall, in each and every instance, before removing any building, obtain a permit to do so from the commissioner of public works, and shall pay to said commissioner a fee of five dollars, whereupon said commissioner shall issue a permit, stating specifically all the conditions, describing the route to be taken, and lim-

iting the time for removal. The fee for a permit to remove a building from one part of a lot to another part of the same lot, or from one lot to another, when the same is owned by the same person and where said building or buildings are to be removed without crossing any street or alley, or the property of any person or persons, other than the owner of the lot from which the building is to be removed, shall be one dollar.

271. Revocation of permit.] If work upon any building shall be conducted in violation of any of the provisions of this chapter, either as to occupation of sidewalk or street, or the use or application of material or workmanship, it shall be the duty of the commissioner of buildings to revoke the permit for the building operations in connection with which such violation shall have taken place. And it shall be unlawful, after the revocation of such permit, to proceed with such building operations, unless such permit shall first have been reinstated or reissued by said commissioner. Before a permit, revoked for the cause or causes before mentioned, can be lawfully reissued or reinstated, the entire building and building site must be first put into condition corresponding with the provisions of this chapter, and any work or material applied to the same in violation of the provisions of this chapter shall be first removed from said building.

FRAME BUILDINGS.

272. Fire limits.] The fire limits of the city of Chicago shall be as defined by existing ordinances. No wall, structure, building, or part thereof shall hereafter be built, constructed, altered or repaired within the fire limits of the city of Chicago except in conformity with the provisions of this chapter. No building already erected or hereafter to be built within said fire limits shall be raised, altered or built upon in such manner that, were said building wholly rebuilt or constructed after the passage of this chapter, it would be in violation of any of its provisions. The provisions of this chapter as to the strength and stability of timber constructions shall also apply to the construction of frame buildings outside of the fire limits.

273. Frame buildings beyond fire limits.] Outside of said fire limits it shall be lawful to erect frame buildings not exceeding forty feet in height from the sidewalk to the highest point of the roof. If such frame buildings have a basement story of brick their height above the sidewalk may be made forty-five feet.

274. Frame building, raising of.] Permission may be granted, by the commissioner of buildings, for the raising of existing frame buildings, whether within or without the fire limits, to the limits of height hereinbefore fixed for new frame buildings and no more. Said commissioner is also authorized to issue permits for changing gable or hip roofs of existing frame buildings to flat roofs, and for the raising of walls incident to such change. But, if such hip or gable roof is changed to a flat roof and the walls raised in connection with such

change, the total cubic contents included by the walls so raised and the roofs so altered shall not exceed the cubic contents originally included in such gable or hip roofs.

275. Frame building, repair or removal prohibited.] It shall not be lawful to repair, reconstruct or remove any frame building which has been injured more than fifty per cent. of its original value by wear and tear, by the effects of the elements or by fire.

276. Combustible roof—repair prohibited, when.] No roof covered with shingle or other combustible material, which shall have been damaged from any cause whatsoever, more than fifty per cent. of its value, shall be repaired, but such roof may be replaced by a roof of incombustible material.

277. Frame building, building lines, etc.] Frame buildings shall not be built nearer than one foot to any line of the lot upon which they are built, street and alley lines excepted. It shall not be lawful to erect a frame building wider than forty feet nor deeper than seventy feet. If more than one frame building is built in the direction of the depth of any one lot, such buildings shall not be built with a less distance than ten feet between them.

278. Frame building, chimneys.] Chimneys in frame buildings shall be built of brick, or of hollow tile. Where hollow tile is used they shall have socket joints and a double tile wall around the smoke duct. All joints, whether in tile or in brick chimneys, shall be well filled with mortar and neatly pointed on the outside. Brick chimneys shall be plastered smooth on the inside. Foundations for chimneys must be carried to solid ground and below the reach of frost. The wood framing of frame buildings shall be trimmed around chimneys in such manner as not to come in contact with the same.

Metal smoke pipes or tile flues of single thickness shall not extend through the floors, or through the ceiling or roof of any building; and where such smoke pipes or tile flues pass through partitions the woodwork of such partitions shall be protected either by a course of brick built all around such smoke pipes or tile flues, or by a thimble made of bright tin, the two rings thereof being at least three inches apart, with proper ventilating holes provided in the outer covering of the same on both sides of the partitions.

279. Frame buildings, uniformity of height.] Frame buildings, the different parts of which are of different heights, may be carried up to a uniform height, provided the aggregate height thereof does not exceed the limits of height prescribed for frame buildings.

280. Frame buildings, raising.] A frame building may be raised, for the purpose of erecting a basement story under the same, but the principal floor of such frame building shall not be raised to a higher level than eight feet above the sidewalk grade for two story buildings or twelve feet high above the sidewalk grade for one story frame buildings. The walls enclosing such basement shall be of masonry, and if the frame building is one story high, such walls shall not be less than

eight inches thick, or if such frame building is two stories high, the basement walls shall not be less than twelve inches thick. The foundations of such walls are to be constructed as elsewhere herein stated under the head of foundations. It is provided, however, that no frame building shall be raised, for the purpose of constructing a basement under the same, to a greater height to the top of its roof than that elsewhere herein given as the maximum height above grade for frame buildings. It is, also, provided that after there has been a basement story constructed under any frame building, such frame building shall not be raised again for any purpose whatsoever.

BUILDING WITHIN FIRE LIMITS.

281. Building within fire limits.] All buildings hereafter constructed, altered or enlarged, within the fire limits of the city of Chicago, shall comply with the following:

282. Sheds—size—location—use.] Sheds not exceeding fourteen feet in height from the ground at the highest part thereof, and not exceeding two hundred and fifty-six feet in area, with an incombustible roof, may be constructed of wood; such sheds shall not be located on the front part of any lot, nor shall they be used as a dwelling, or an addition to a dwelling house, or for any business purposes whatever, nor shall more than one shed be erected on any one building lot of twenty-five feet.

283. Open shelter sheds.] Open shelter sheds may be constructed, provided they have incombustible roofing, not over twenty feet high from the ground to the highest point of the roof, and the roof supported on sufficient posts or piers. Such sheds shall have no enclosing walls or wooden floors. No fence shall be used for the back or side of such shed. If it is intended to enclose an open shelter shed, the enclosing walls must be made of brick or of hollow tile. Such enclosing walls must have foundations extending to solid ground and at least four feet below the surface of the ground.

Provided, that coal sheds erected upon docks or navigable waters within said city may be constructed not over thirty-five feet high from the ground to the highest point of the roof, and when such shed shall be enclosed, the enclosing walls shall be made of fire-proof material.

284. Classification of buildings.] As a means of reference in this ordinance, buildings erected within the fire limits (sheds and shelter sheds as before described being excepted) shall be divided into classes as follows:

Class I.—This class shall include all stables and all buildings devoted to the sale, storage or manufacture of merchandise.

Class II.—This class shall include all buildings used as residences for three or more families, all hotels, all boarding or lodging houses occupied by twenty-five or more persons, and all office buildings.

Class III.—This class shall include all buildings used as residences for one or two families or for less than twenty-five persons.

Class IV.—This class shall include all buildings used as assembly halls for large gatherings of people, whether for purposes of worship, instruction or entertainment.

If buildings, the uses of which bring them within any of the said classes, are to be used for the purposes of any other class for which a better system of construction is called for by this chapter, the construction and equipment of such building must first be made to conform to the requirements of this chapter as specified for such intended use. And it shall be unlawful to apply such building to a new or different use than that to which its structure and equipment adapts it under this chapter, unless the requirements of this chapter, for such new or different use, shall first have been complied with and a permit for such alteration of use shall have been first obtained from the commissioner of buildings.

285. Definitions.] In describing the construction of the buildings belonging to the various classes above enumerated, the following definitions of terms shall apply throughout this chapter:

The term "fire proof construction" shall apply to all buildings in which all parts that carry weights or resist strains and, also, all stairs and all elevator enclosures and their contents, are made entirely of incombustible material, and in which all metallic structural members are protected against the effects of fire by coverings of a material which must be entirely incombustible and a slow heat conductor. The materials which shall be considered as fulfilling the conditions of fire proof covering are: First, brick; second, hollow tiles of burnt clay applied to the metal in a bed of mortar and constructed in such manner that there shall be two air spaces of at least three-fourths of an inch each by the width of the metal surface to be covered, within the said clay covering; third, porous terra cotta which shall be at least two inches thick and shall also be applied direct to the metal in a bed of mortar; fourth, two layers of plastering on metal lath. In buildings of this type all door or window mullions, whether vertical or horizontal, shall be faced with cast iron, terra cotta or other incombustible material of equal fire-resisting values.

The term "skeleton construction" shall apply to all buildings wherein all external and internal loads and strains are transmitted from the top of the building to the foundations by a skeleton or frame work of metal. In such metal frame work the beams and girders shall be riveted to each other at their respective junction points. If pillars made of rolled iron or steel are used, their different parts shall be riveted to each other, and the beams and girders resting upon them shall have riveted connections to unite them with the pillars. If cast iron pillars are used, each successive pillar shall be bolted to the one below it by at least three bolts not less than five-eighths inch in diameter, and the beams and girders shall be bolted to the pillars. At each line of floor or roof beams, lateral connection between the ends of the beams and girders shall be made by passing wrought iron or steel straps across or

through the cast iron column, in such manner as to rigidly connect the beams and girders with each other in the direction of their length. These straps shall be made of wrought iron or steel and shall be riveted to the flanges or to the webs of the beams and girders. If buildings are made fire proof entirely and have skeleton construction so designed that their enclosing walls do not carry the weight of floors or roof, then their walls may be reduced in thickness one-third from the thickness hereinafter provided for walls of buildings of the different classes, excepting, only, that no wall shall be less than twelve inches in thickness; and provided, also, that such walls shall be thoroughly anchored to the iron skeleton; and provided, also, that wherever the weight of such walls rests upon beams or pillars, such beams or pillars must be made strong enough in each story to carry the weight of wall resting upon them without reliance upon the walls below them. But, if walls of hollow tiles are used as filling between the members of the skeleton construction, they shall be of the full thickness specified for non-skeleton buildings.

The term "slow burning construction" shall apply to all buildings in which the structural members which carry the loads and strains which come upon the floors and roof thereof are made wholly or in part of combustible material, but throughout which the combustible as well as the incombustible materials shall be protected against injury from fire, by coverings of incombustible non heat conducting materials similar to those described under the head of "skeleton construction," except that a single covering of plastering on metal lath and metal furring shall be considered sufficient protection for the underside of joists, and that a deafening of mortar, mineral wool, or their equivalent, applied at least one and one-half inches thick, shall be used to cover all floor and roof surfaces above the joists of the same. Where oak posts of greater sectional area than one hundred square inches are used, they need not have special fire proof covering. All partitions and all elevator enclosures in buildings of this type shall be made entirely of incombustible material. The use of wood furring or of stud partitions shall not be allowed in buildings of this class.

The term "mill construction" shall apply to all buildings in which all the girders and joists supporting floors and roof have a sectional area of not less than seventy-two square inches, and above the joists of which there is laid a solid timber floor not less than three and three-fourths inches thick. Wooden posts used in buildings of this class shall not be of smaller sectional area than one hundred square inches. Partitions and elevator enclosures in buildings of this class shall be made entirely of incombustible material. If iron pillars, girders or beams are used in buildings of this class, they shall be protected as provided for fire proof buildings; but the wooden posts, girders and joists need not be protected by fire proof covering. The use of wood furring, wood laths or steel partitions shall not be permitted in buildings of this class.

By the term "ordinary construction," as used in this ordinance, is meant the ordinary system of construction in which timber and iron structural parts are not protected with fire resisting coverings.

MATERIALS AND CONSTRUCTION.

286. Materials for use.] Materials used in the construction of buildings of all classes shall conform to the following specifications:

287. Foundations, materials for.] Foundations shall be proportioned to the actual average loads they will have to carry in the completed and occupied building, and not to theoretical or occasional loads. Exterior foundations shall be proportioned to carry at least eighty per cent. of the floor load elsewhere herein provided. Foundations shall be constructed of either of the following: cement, concrete, dimension or rubble stones, sewer or paving bricks. If iron or steel is used, filling and coating of same shall be of Portland cement, timber piles covered with grillage of oak timber, or a grillage of oak timber may be used. It being provided, however, that timber shall not be used in connection with any foundation at a level higher than city datum.

288. Cellar and foundation wall.] Cellar and foundation walls shall, where possible, be rendered impervious to dampness, and asphaltum or coal tar pitch, in addition to hydraulic cement, shall be used for that purpose.

289. Pile foundations.] Where pile foundations are used, borings of the soil shall first be made to determine the position of the underlying stratum of hard clay or rock, and the piles shall be made long enough to reach hard clay or rock, and they shall be driven down to reach the same, and such piles shall not be loaded more than twenty-five tons to each pile. The heads of the piles are to be protected against splitting while they are being driven and, after having been driven, the piles are to be sawed off to uniform level and covered with an oak timber grillage, so proportioned that in the transmission of strains from pile to pile the extreme fiber strain in the timbers composing the grillage shall not be more than twelve hundred pounds to the square inch.

290. Foundations other than pile.] If foundations are made of materials other than piles, they shall be so proportioned that the loads upon the soil shall not exceed the following limits, to wit:

291. Soil, pure clay, burden on.] If the soil is a layer of pure clay at least fifteen feet thick, without admixture of any foreign substance excepting gravel, it shall not be loaded more than at the rate of thirty-five hundred pounds per square foot. If the soil is a layer of pure clay, being hard, dry and compressed, it shall not be loaded more than at the rate of four thousand five hundred pounds per square foot.

292. Soil, dry sand, burden on.] If the soil is a layer of dry sand fifteen feet or more in thickness and without admixture of clay, loam or other foreign substance, it shall not be loaded more than at the rate of four thousand pounds per square foot.

293. Soil mixed, clay and sand, burden on.] If the soil is a mixture of clay and sand, it shall not be loaded more than at the rate of three thousand pounds per square foot.

294. Soil wet, unlawful construction.] In all cases where foundations are built in wet soil it shall be unlawful to build the same unless the trenches in which the work is being executed are kept free from water by bailing, pumping or otherwise, until after the completion of work upon the foundations.

295. Filled or made ground.] Foundations shall not be laid on filled or made ground, or on loam, or on any soil containing admixture of organic matter.

296. Foundations, depth of, etc.] Foundations must in all cases extend at least four feet below the surface of the ground upon which they are built, and, in the case of buildings forty feet or more in height, foundations shall extend at least to the depth drained by the street sewer in the neighboring streets or alleys, but if such sewers are at a greater depth than ten feet below the sidewalk grade, such foundations need not extend to a greater depth than ten feet; Provided, that, sound, hard soil is found at that depth. In all cases a connection with the street sewer shall be established before beginning the work of laying foundations. Provided, however, that all buildings not exceeding one story in height and eighteen feet in height from top of sills to highest point of roof, and sidewalls not exceeding twelve feet in height, and floor area not exceeding twelve hundred feet in superficial area, may have brick walls not less than eight inches in thickness, erected on wooden sills, the sills supported on vertical posts, or piers, sunk four feet below the surface of the ground. The foundations under such posts or piers shall be of wood or stone, each covering not less than five square feet of area to safely support the weight that may rest upon them; sills to be placed not higher than one foot above the established grade on the street fronting the lot upon which the building is erected, where grades are established, and not exceeding six feet above the ground where grades are not established, the sills and space from sills to the ground to be protected by fire proof material.

297. Stone for concrete--cement--sand.] Broken stone used for concrete in making foundations must be clean and free from dirt and dust. All sand must be free from admixture of loam and must be otherwise clean and sharp. Cement must have been kept dry and must be used fresh from the package; cement which has been permitted to become wet, hard or lumpy before it is mixed into the mortar or concrete shall not be used. Cement mortar for concrete shall be made in the proportion of one part of cement (quality equal to that before described) to three parts of sand, mixed dry, and then tempered with

water. Enough of this mortar shall be used to completely fill the interstices between the stones. If the cement is not equal in fineness or strength to the standard given above, a correspondingly greater quantity of cement shall be used. The use of concrete or mortar, of all kinds, the ingredients of which are not thoroughly and completely mixed and which are not free from lumps, or other unmixed portions of any of the ingredients, is prohibited. The use of cement mortar which has become partly or wholly set before use is also prohibited. Concrete foundations, wherever used, must have boxes of plank all around them, and the concrete must be well rammed in individual layers not more than six inches each in thickness. The ramming must be continued until the water stands on the top of the mass of concrete.

298. Steel or iron in foundations.] If steel or iron rails or beams are used, as parts of foundations, they must be thoroughly imbedded in a concrete, the ingredients of which must be such that, after proper ramming, the interior of the mass will be free from cavities. The beams or rails must be entirely enveloped in concrete and, around the exposed external surfaces of such concrete foundations, there must be a coating of any cement (established as a standard cement by the society of civil engineers of the northwest) mortar not less than one inch thick.

299. Concrete foundations.] If concrete foundations are used by themselves, and without the insertion of iron or steel beams or rails, the offsets on top of same shall not be more than one-half the height of the respective courses, and such concrete foundations must not be loaded more than eight thousand pounds per square foot. If reinforced by iron or steel beams or rails, the loads and offsets in the same must be so adjusted that the fiber strain upon the metal, if iron, shall not exceed twelve thousand pounds per square inch, or, if steel, that the fiber strain shall not exceed sixteen thousand pounds per square inch.

300. Dimension stones.] Dimension stones must have uniform beds and the offsets in the same, where two or more layers are used, must not be more than three-quarters of the height of the individual stones. They must be set with full beds of cement mortar under their entire area, and in such manner that they will not rock after being set. Dimension stone in foundations shall not be subjected to a load of more than ten thousand pounds per square foot in piers. If the beds of the stones are dressed and leveled off to uniform surface and the stones are set in any cement (established as a standard cement by the society of civil engineers of the northwest) mortar this strain may be increased to four thousand pounds per square foot.

301. Rubble foundation and walls.] Rubble foundations and rubble walls must be built of approximately square and flat bedded stones, well and thoroughly bonded in both directions of the walls, each stone thoroughly bedded in mortar under its entire area, in such manner that it will not rock, and all interspaces between individual stones

must be thoroughly filled with mortar and, if the spaces should be large, pieces of broken stone must be driven into the mortar. Whenever walls, of any kind, are used as curb walls, their exterior surfaces must be rendered approximately water tight, by a coating of any cement (established as a standard cement by the society of civil engineers of the northwest) mortar, or its equivalent.

302. Soft bricks—brick work.] The use of soft bricks is prohibited in all parts of buildings exposed to the weather and in internal or external piers. The bond of brick work shall be formed by laying one course of headers for every five courses of stretchers. All joints, longitudinal as well as transverse, shall be thoroughly filled with mortar and each brick shall be bedded in mortar under its entire surface. Brick work in walls laid in any cement (established as a standard cement by the society of civil engineers of the northwest) mortar shall not be loaded more than twenty-five thousand pounds per square foot. Brick work laid in ordinary cement mortar shall not be loaded more than eighteen thousand pounds per square foot. Brick work in walls laid in lime mortar shall not be loaded more than thirteen thousand pounds per square foot.

303. Joists.] Whenever walls sixteen inches or less in thickness shall be used for the support of ordinary joists in buildings of Class I, ledges four inches wide shall be formed for the support of such joists. Wherever in buildings of Class II joists rest upon walls twelve inches or less in thickness, ledges four inches wide shall be formed for the support of such joists. Wherever in buildings of Class III joists rest upon inclosing or upon party walls eight inches thick there shall be ledges projecting four inches from such walls. In buildings of all classes where furring strips, whether combustible or incombustible, are used on brick walls there shall be ledges equal to the thickness of such furring strips upon such walls, and, in all cases where ledges are built, they must be carried up to and leveled off on the line of the tops of the joists.

304. Pressed brick facings, etc.] If pressed brick facings are used, they must be bonded into their backing every seventh course. Bond shall be established by solid headers, or by blind headers, or by means of metallic anchors. In the case of piers faced with pressed brick, only solid headers shall be used, but bond stones or iron bond plates may be substituted for such headers. Pressed brick in all cases must be so laid as to have full bearing of mortar under its entire surface. The laying of pressed brick merely with a joint all around the outer edges of the brick is prohibited.

305. Brick piers.] In building brick piers, there shall be provided at every offset in each pier, or at every point where such brick pier receives the load, a bond stone at least eight inches thick, and at the top of each pier a cap stone at least ten inches thick, or in all such cases a bond plate of cast or rolled iron, which stones or plates, if at the top of such piers, shall cover the entire surface of such pier, and shall in all cases be adapted to receive the load to be imposed and

shall be made of a strength which will keep the fiber strain upon the material used within the limits elsewhere herein stated. If the height of the piers is four times their smallest dimensions, there shall be a bond stone or bond plate as above described inserted in the middle of such pier. For all piers higher than the above, there shall be a bond stone or bond plate for each distance in height equal to double the smallest dimension of such pier.

306. Hollow walls.] Where hollow walls are used, their solid parts shall be bonded together, either with solid brick headers or with metallic bond plates or anchors, once in every foot of length of such wall in every seventh course. If one or both of the solid parts of such wall are less than eight inches thick, such walls shall not be used as supports for any part of the structure of such buildings; but if both the solid parts of such hollow wall are eight inches or more in thickness, such walls may be used as bearing walls and, in all cases, where the load is imposed upon such hollow walls or any part thereof, there shall be bond stones, or iron bond plates, covering the whole of the solid parts of such wall, and so proportioned as not to strain either the material of the wall, or of such bond stones, or bond plates, more than to the extent of the limits elsewhere herein given for the ultimate strains of such materials.

307. Hollow tile—porous terra cotta.] Hollow tile and porous terra cotta may be used in the form of flat arches for the support of floors and roofs; such floor arches having a height of at least one and one-quarter inches for each foot of span. The arches must be so constructed that the joints of the same point to a common center; the butts of the arches shall be carefully fitted to the beams supporting them and there shall be a cross rib for every six inches or fractional part thereof in height; and, in addition to these there shall also be diagonal ribs in the butts. Floor arches made in the form of a segment of a circle or an ellipsis must be constructed upon the same principles, but, in such cases, the individual voussoirs forming the arch shall not be less in height than one-thirtieth of the span of the arch. Such arches, whether flat or curved, shall have their beds well filled with mortar and the centers shall not be struck until the mortar has been set. Where hollow tile blocks are used for building partitions or for enclosing walls, the joints shall be well filled with mortar and the effective bearing parts of the tiles shall not be loaded more than eighty pounds to the square inch for hard fire clay tiles, nor more than sixty pounds per square inch for hard ordinary clay tiles, nor more than forty pounds per square inch for porous tiles.

308. Stone, quality of.] The use of stone for walls, facing, piers, arches and other structural purposes shall be confined to such kinds of stone as have been tested for strength and ability to resist the effects of the weather by experts, who shall be either officers of the engineering corps of the United States, or state geologists, or the engineering faculties of universities and technical schools, to be desig-

nated for this purpose from year to year by the commissioner of buildings. Before any variety of stone may be used in connection with any building in the city of Chicago the persons desiring such use shall file with the commissioner of buildings a copy of a statement, certified to under oath, showing the result of tests as to strength and ability to resist the effects of weather of such stone, made by one or more of the experts before mentioned. The statements of such tests, if verified by the commissioner of buildings, shall be inserted in a book kept for said purpose by said commissioner, which book shall at all times be open to the inspection of the public.

309. Stone, limits of stress—cement—mortar.] The limits of stress to which the various kinds of stone used in buildings may be subjected shall be one-thirtieth of the ultimate strength developed by the tests before mentioned. If, however, the beds of the stones used are not dressed to uniform bearing over their entire surface, then the ultimate load to which they may be subjected shall not exceed one-fiftieth of the ultimate strength of the stone as indicated by the said tests. Stones shall be fully bedded in mortar over their entire surface, and for all stress exceeding one-seventieth of the ultimate strength of the stone, if the beds are undressed, or exceeding one-fortieth of the ultimate strength, if the beds are dressed. Any cement (established as a standard cement by the society of civil engineers of the northwest) mortar shall be used for such bedding. It shall be permitted to leave a space of one inch all around the outer edge of stones without mortar bedding.

310. Stone facing for brick walls.] Stone may be used as facing for brick walls under the following conditions: If the facing is ashlar without bond courses, and the individual courses thereof measure in height between bond stones more than six times the thickness of the ashlar, then each piece of ashlar facing shall be united to the brick work with iron anchors at least two to each piece and reaching at least eight inches over the brick wall, and hooked into the stone facing as well as the brick backing. Wherever ashlar, as before described, is used, it shall not be counted as forming part of the bearing surface of the wall, and the brick backing shall be of the thickness of wall herein specified for the different kinds of building. If stone facing is used with bond courses at a distance apart not more than six times the thickness of the ashlar, and where the width of bearing of the bond courses upon the backing of such ashlar is at least twice the thickness of the ashlar, and in no case less than eight inches, then such ashlar facing shall be counted as forming part of the wall, and the total thickness of wall and facing shall not be required to be more than herein specified for walls of the different classes of buildings.

311. Cast iron crushing stress.] Where cast iron is subjected to crushing stress only, as in plates, it may be loaded to the extent of fifteen thousand pounds per square inch.

312. Formula.] In all of the following formulae "S" represents the maximum load permitted for the kind of construction to which the formulae apply.

313. Cast iron pillars.] Cast iron used for pillars shall be proportioned in accordance with the following formulae:

For round cast iron columns—

$$S=10000a \div \left\{ 1 + \frac{l^2}{600d^2} \right\} \left. \begin{array}{l} l=\text{length of column in inches.} \\ d=\text{diameter of column in inches.} \\ a=\text{sectional area of column in square inches.} \end{array} \right\}$$

For rectangular cast iron columns—

$$S=10000a \div \left\{ 1 + \frac{l^2}{800d^2} \right\} \left. \begin{array}{l} l \text{ and } a \text{ as before.} \\ d=\text{the side of square column, or the least horizontal dimension of other columns.} \end{array} \right\}$$

Cast iron used in the shape of lintels, brackets or corbels shall be so proportioned that the compression stress upon the same shall not exceed thirteen thousand five hundred pounds per square inch, and that the tensile stress shall not exceed three thousand pounds per square inch.

314. Riveted columns.] The maximum loads allowed upon riveted columns shall not exceed those determined by the following formulae, to wit:

For riveted or other forms of wrought iron columns—

$$S=12000a \div \left\{ 1 + \frac{l^2}{36000r^2} \right\} \left. \begin{array}{l} l \text{ and } a \text{ as before.} \\ r=\text{least radius of gyration of columns in inches.} \end{array} \right\}$$

For riveted or other steel columns less than $60r$ in length—

$$S=17000 - \left\{ \frac{60l}{r} \right\} \left. \begin{array}{l} l \text{ and } r \text{ as before.} \end{array} \right\}$$

For riveted and other steel columns more than $60r$ in length—

$$S=13500a = a \text{ as before.}$$

315. Steel girders, beams, etc.] All girders, beams, corbels, brackets and trusses, if made of steel, shall be so proportioned that the maximum fiber stress will not exceed sixteen thousand pounds per square inch; or, if made of iron, the maximum fiber stress shall not exceed twelve thousand pounds per square inch.

316. Plate girders, rivets.] Plate girders shall be designed and constructed of strengths at least equal to those developed by the following formulae:

For plate girders—

$$\text{Flange area} = \frac{\text{Maximum bending moment in foot pounds.}}{C D}$$

D = Distance between centers of gravity of flanges in feet.

$$C = \left\{ \begin{array}{l} 13,500 \text{ for steel} \\ 10,000 \text{ for iron} \end{array} \right\}$$

$$\text{Web area} = \frac{\text{Maximum shear.}}{C}$$

$$C = \left\{ \begin{array}{l} 10,000 \text{ for steel} \\ 6,000 \text{ for iron} \end{array} \right\}$$

Maximum stress per square inch of rivet area (single shear) shall not exceed:

	STEEL.	IRON.
For shop driven rivets.....	9,000 pds	7,500 pds
For field driven rivets.....	7,500 pds	6,000 pds

With regard to connections of rolled beams with each other and with girders, work upon buildings in the city of Chicago shall hereafter be in conformity with the practice of the Carnegie, Trenton, Phenix, Pencoyd or other first class rolling mills, as published in their standard books and sheets and approved by the commissioner of buildings.

317. Wooden pillars.] Where wooden pillars are used, the maximum loads to which they are to be subjected shall not exceed those determined by the following formula, "S" representing the maximum loads as intended to be fixed by this ordinance:

$$S = ac \div \left\{ 1 + \frac{l^2}{250d^2} \right\}$$

a = sectional area of the post in square inches.
 d = side of square post or least side of rectangular post in inches.
 l = length of post in inches.
 c = $\begin{cases} 600 \text{ for white or Norway pine.} \\ 800 \text{ for oak.} \\ 900 \text{ for long leaf yellow pine.} \end{cases}$

318. Timber girder.] The ultimate load to which timber used for girder may be subjected shall not exceed those determined by the following formula, to wit:

$$S = \frac{cbd^2}{l}$$

b = breadth of beam in inches.
 d = depth of beam in inches.
 l = length of beam in feet.
 c = $\begin{cases} 160 \text{ for long leaf yellow pine.} \\ 120 \text{ for oak.} \\ 100 \text{ for white or Norway pine.} \end{cases}$

The constants given in all of the foregoing formulae are based upon the use of material and workmanship the best of their respective kinds.

319. Formulae explained. All formulae herein given for determining the load permitted upon girders of any kind are for girders supported at both ends and uniformly loaded over their entire length. The formulae for column loads are for columns concentrically loaded. The calculations for the allowances which must be made for other methods of loading shall be based upon the above formulae and constants and the rules of the best engineering practice.

320. Fire proofing of steel and iron structural parts.] Fire proofing of the steel and iron structural parts of buildings shall, for the purposes of this ordinance, be defined as follows: All iron or steel used as a supporting member of the external construction of any building, exceeding ninety feet in height, shall be protected against the effects of external changes of temperature and of fire, by a covering of brick,

terra cotta or fire clay tile, completely enveloping said structural members of iron and steel. If of brick, it shall be not less than eight inches thick. If of hollow tile, it shall be not less than six inches thick, and there shall be at least two sets of air spaces between the iron and steel members and the outside of the hollow tile covering. In all cases the brick or hollow tile shall be bedded in mortar close up to the iron or steel members and all joints shall be made full and solid. Where skeleton construction is used for the whole or part of a building these enveloping materials shall be independently supported on the skeleton frame for each individual story.

321. Iron or steel plates, fiber strain.] If iron or steel plates are used in each story for the support of such covering within the said story, such plates must be of sufficient strength to carry, within the limits of fiber strain for iron and steel elsewhere specified in this chapter, the enveloping material for the said story, and such plates may extend to within two inches of the exterior of said covering.

322. Terra cotta—backing of.] If terra cotta is used as part of such fire proof enclosure it shall be backed up with brick or hollow tile, of such dimensions, and laid up in such manner, that the backing will be built into the cavities of the terra cotta so as to secure perfect bond between the terra cotta facing and its backing.

323. Hollow tile fire proofing.] If hollow tile alone is used for such enclosure, the thickness of the same shall be made in at least two courses, breaking joints with and bonded into each other.

324. Horizontal filling between iron and steel vertical members.] The horizontal filling between the iron and steel vertical members of skeleton constructions shall be of brick, terra cotta or hollow tile, and in no case of less thickness than twelve inches, subject to the same conditions as to bond and courses as specified for the enveloping materials of structural members, and these horizontal fillings shall be bonded into the enclosures of the vertical members.

325. Walls—tops of and upper surfaces of breaks.] The upper surfaces of all breaks or offsets in external coverings and fillings and walls, as well as the tops of walls, shall be covered with stone, terra cotta or fire clay copings, set in cement mortar, and having lapped joints pointed with cement.

326. Internal structural parts—fire proofing of.] The internal structural parts of buildings of the skeleton construction shall be fire proofed by coverings of brick, hollow tile, porous terra cotta or plastering on metal lath and metal furring.

327. Coverings for columns.] In buildings of Class I the coverings for columns shall be, if of brick, not less than eight inches thick, if of hollow tile, they shall be in two consecutive layers, each not less than two and one-half inches thick. If the fire proof covering is made of porous terra cotta, it shall consist of at least two layers, each to be not less than two inches thick. Whether hollow tile or porous terra cotta is used, the two consecutive layers shall be so applied that neither the vertical nor the horizontal joints in the same shall be oppo-

site each other, and each course shall be so anchored and bonded within itself as to form an independent and stable structure. In all cases there shall be on the outside of the tiles a covering of plastering with any cement (established as a standard cement by the society of civil engineers of the northwest) or of other mortar of equal hardness and efficiency when set.

328. Column covering.] In places where there is trucking or wheeling or other handling of packages of any kind, the lower five feet of the fire proofing of such pillars shall be encased in a protective covering either of sheet iron or oak plank, which covering shall be kept continually in good repair.

329. Plastering on metallic lath.] If plastering on metallic lath is used for fire proofing of columns, it shall be in two layers. The metallic lath shall in each case be fastened to metallic furrings and the plastering upon the same shall be made with cement. Protection for the lower five feet shall be required in this case the same as where porous terra cotta or hollow tile covering is used.

330. Internal columns—fire proof covering.] In buildings belonging to Class II the fire proof covering for internal columns shall be made the same as specified for buildings of Classes I and IV, excepting that only one covering of hollow tile or porous terra cotta, and only two layers of covering made of plastering on metallic lath, shall be used.

331. Iron or steel beams, etc., covering.] The fire proof covering of iron or steel beams and girders in buildings of Classes I and IV shall be effected with either of the materials before specified. If hollow tiles are used, the tiles shall be set close to the metal to be protected, and there shall be two air spaces within the tile of at least three-fourths of an inch each. If porous terra cotta is used, it shall be at least two inches thick. If plastering on metal lath is used, the furring shall also be metal. There shall be two thicknesses of such plastering on metallic lath.

332. Air space.] For buildings of Class II only one air space will be required in the fire protection covering.

333. Structural iron or steel—fire proofing of.] If buildings of Class II are partly used for the purposes of Classes I and IV, the method of fire proofing the structural iron or steel in the whole of any story any part of which is so used, and in the whole of the story above and below the same, shall be as called for in buildings of Classes I and IV.

334. Beams—covering of.] In all cases the covering of beams, if of hollow tile or porous terra cotta, shall be so applied as to be supported entirely by the beams or girders protected, and shall be held in place entirely by the support of the flanges of such beams or girders and by the mortar used in setting. Wire binding and anchors shall not be used for fastenings of such fire proof covering.

335. Iron or steel floor supports—filling between.] The filling between the individual iron or steel beams supporting the floors

of fire proof buildings shall be made of brick arches, concrete arches, hollow tile arches or Spanish tile arches. Brick arches shall not be less than four inches thick and shall have a rise of at least one and one-quarter inches to each foot of span between the beams. If the span of such arches is more than five feet, the thickness of the same shall not be less than eight inches. If hollow tile arches having a straight soffit are used, the thickness of such arches shall not be less than at the rate of one and one-quarter inches per foot of span. If Spanish tile arches are used, they shall be made according to the published formulae of the Guastavino Construction Company, subject to the verification and approval of the commissioner of buildings. If concrete arches are used, the concrete in the same shall not be strained more than one hundred pounds per square inch, if the concrete is made of crushed stone, nor more than fifty pounds per square inch if the concrete is made of cinders. In all cases, no matter what the material or form of the arches used, the protection of the bottom flanges of the beams and so much of the web of the same as is not covered by the arches shall be made as before specified for the covering of beams and girders.

336. Walls—thickness.] The thickness of walls hereinafter specified and set forth in the tables for the various classes of buildings shall be, for each class of buildings, intended to apply to all external enclosing walls and also to such internal walls as may be required under the specifications of the different classes of buildings for the support of floors and roofs.

337. Bay windows and light shafts.] The enclosing walls of bay windows and of light shafts shall in all cases be built entirely of incombustible material, excepting that in buildings of Class I, Class II and Class III, there may be bay windows and light shafts not to exceed ten feet in width at the wall line, and not over three feet projection, and not to exceed three stories in height above the first or main story, made of combustible material: Provided, that the outside of such bay windows and light shafts shall be covered with sheet metal, or other incombustible material, and provided, further, that windows of such construction shall not be allowed on buildings exceeding four stories in height: Provided, that bay windows may be constructed as prescribed on the three upper stories of buildings not exceeding the height permitted in four story buildings.

338. Bay windows, etc.] In all cases where the weight of floors within bay windows or abutting upon light shafts is carried on a framing independent of the enclosing walls of such bay windows or light shafts, the thickness of such walls enclosing bay windows or light shafts may be reduced, but in no case shall the thickness of such walls be less than eight inches, nor shall any part thereof be so reduced in area that the load upon the same will be more than the maximum load hereinafter prescribed for the materials of which such walls are built.

339. Light shafts—hollow tile.] Hollow tile may be used for walls

enclosing light shafts, but such enclosing walls shall be firmly anchored to the framing of each successive floor.

340. Bay windows, etc.—walls.] If the walls of bay windows or of light shafts begin at any point above the foundations of the building, their means of support shall consist entirely of incombustible material.

341. Buildings—mode of construction—limit of height.] Buildings of Class I which are one hundred feet or more in height shall be made entirely of fire proof construction.

Buildings of Class I less than one hundred feet and more than sixty feet in height shall be built entirely of slow burning or of mill construction.

Buildings of Class I less than sixty feet in height may be built of ordinary construction.

Buildings of Class II which are one hundred feet or more in height shall be built entirely of fire proof construction. If less than one hundred feet and more than sixty feet in height, their construction shall be slow burning or mill construction. If they are less than sixty feet in height their construction may be ordinary construction.

Buildings of Class III may be built of ordinary construction, but if they are sixty feet or more in height they shall conform to the limitations fixed for buildings of Class II.

The limits of the height of buildings hereinbefore given for non fire proof buildings shall be from the sidewalk level to the highest point of roof thereof.

No building shall be erected in the city of Chicago of greater height than one hundred and fifty-five feet from the sidewalk level to the highest point of external bearing walls. And the height of no building of skeleton construction shall be more than three times its least horizontal dimension. And no isolated building of masonry construction shall be more than four times as high as its least horizontal dimension.

342. Wind pressure.] In all buildings, the height of which is more than one and one-half times their least horizontal dimension, allowance shall be made for wind pressure, which shall not be figured at less than thirty pounds for each square foot of exposed surface. The precautions against the effects of wind pressure may take the form of any one or more or all of the following factors of resistance to wind pressure:

First. Dead weight of structure, especially in its lower parts.

Second. Diagonal braces.

Third. Rigidity of connections between vertical and horizontal members.

Fourth. By constructing iron or steel pillars in such manner as to pass through two stories with joints breaking in alternate stories.

343. "Basement" defined.] Wherever in this chapter the word "basement" story is used, it is intended to mean that the floor of such story is at a distance of two feet, or more, below the level

of the sidewalk, and that its height does not exceed eleven feet in the clear. If the floor of such story is nearer than two feet to the sidewalk grade or if its height in the clear is more than eleven feet, it shall be counted as the first story of the building in which it occurs.

344. "Stories" defined.] Wherever the thickness of walls, or the character or dimensions of other parts of buildings, are herein designated or described by stories, it is understood that it refers to stories of the following heights, to wit: The first story not exceeding eighteen feet in the clear, the second story not exceeding fifteen feet in the clear, the third story not exceeding thirteen and one-half feet in the clear, and all other stories not exceeding twelve feet in the clear, excepting the top story, the average height of which, as referred to in this chapter, shall not be more than fourteen feet in the clear. If, however, it is desired to increase the height of any story or stories above the maximum heights herein given, this may be done; Provided the walls of the same are increased four inches in thickness above the dimensions prescribed by this chapter, and the walls below the story so increased in thickness are made sufficiently strong to carry such increased weight within the limitations of strain prescribed in this chapter, and provided, also, that in no case shall the wall in an upper story be thicker than the wall in a lower story, except only in buildings of skeleton construction.

345. Roofs, erections on.] It shall be permitted to erect on the roofs of all buildings, skylights, enclosures for water tanks and enclosures for elevator machinery, the construction of all of which enclosures shall be, if sixty feet or more above the sidewalk level, entirely of incombustible material. The erection of parapet walls or of balustrades constructed entirely of incombustible material is permitted above the roof level of buildings of all classes, and in addition to the heights herein fixed for the same.

346. Fire walls.] Fire walls of brick, not less than twelve inches thick, shall be built extending above the roofs of all buildings if such roofs are flat, and also above the roofs of all buildings where the same abut against another building, or where the same stand upon any line of any lot, excepting street or alley lines. Such fire walls, where they stand upon lot lines or where they are over the dividing walls between buildings or over the dividing walls in the interiors of buildings, where such are called for by this chapter by reason of the great area of such building, shall extend at least three feet above the roofs of such buildings. Fire walls upon street and alley lines shall extend not less than eighteen inches above the roof of such buildings. Fire walls may be dispensed with on street and alley lines if the tops of the roof boards and roof joists are protected against fire for a distance of at least five feet from such street or alley lines by a coating of deafening mortar on hollow tile or porous tile at least two inches thick. Fire walls at street and alley lines may also be dispensed with in all cases where the entire framing and material of the roof shall be made strictly fire proof. Walls facing upon courts and light shafts shall be treated in the same cate-

gory with walls facing upon streets and alleys. Fire walls must be covered with a weather proof coping of incombustible material.

347. Window and door sills.] Window and door sills shall be made of incombustible material. Oak timber used for door sills and not less than eight inches thick by the full width of the wall in which such sills occur shall, for the purpose of this chapter, be considered incombustible, but no other form or use of wood construction shall be considered incombustible.

348. Store fronts, pillars and lintels.] The pillars and lintels supporting store fronts shall not be made of wood in buildings more than twenty-five feet above the sidewalk grade. The use of plank or board partitions of greater area than three hundred and fifty square feet in any one story of any building is prohibited.

349. Roofs.] The use of shingle roofs and of other forms of combustible roof covering, upon buildings erected or altered within the fire limits, is prohibited. Roofs whose slope is not more than three inches per foot horizontal and the covering of which is made with at least four thicknesses of No. 2 roofing felt well cemented together, then covered with distilled composition and clean screened lake gravel, this then swept off, and the entire surface of the roof recoated with distilled composition and gravel, shall be considered incombustible under the provisions of this chapter and may be used upon buildings of all classes. The use of felt or tar roofs not covered with crushed stone or gravel as hereinbefore provided is hereby prohibited. In the case of all buildings less than sixty feet in height, roofs having a slope of more than that specified for composition roofs and less than thirty degrees with the horizon, may be made of timber and board construction and shall be covered with slate or glazed tile. Roofs upon buildings less than sixty feet in height and of greater slope with the horizon than thirty degrees and less than sixty-five degrees, or the roofs upon buildings sixty or more feet and less than ninety feet high and of greater slope than three inches to the foot and less slope than thirty degrees with the horizon, shall, if made of timber construction, have a fire proof covering upon the roof boards or between the rafters which shall be made either of mortar or porous terra cotta or plaster boards and which shall be at least two inches thick. If this covering is made upon the roof boards, wooden strips shall be inserted and securely fastened to the wooden substructure at regular intervals between the fire proof covering and a weather proof covering of sheet metal, slate or glazed tile shall be securely fastened thereto. The roofs of buildings sixty feet or less in height, if of greater slope with the horizon than sixty-five degrees, and the roofs of buildings more than sixty feet in height if of greater slope than thirty degrees with the horizon, shall be made as regards construction and covering entirely of fire proof material. In the case of buildings which are entirely fire proof in their construction and of which the roof is also entirely of fire proof construction the roof may rise above the limit of height of wall fixed, by this chapter, for

such buildings at a slope not to exceed thirty degrees with the horizon, and to a height not exceeding ten feet above limitation of height of such wall. The space enclosed by such roof above the legal limitation of the height of such wall may be used as an enclosure for pipes, ventilating or elevator machinery, or for ventilating ducts, but it shall not be lawful to use said attic space for purposes of storage, business or residence.

350. Roof, carrying water from.] The water from all roofs shall be carried to street sewers in metal conductor pipes, which must be continually maintained in such condition that leaks therein will not cause the water to soak into the walls or any other part of any building.

351. Sheet metal cornices—gutters.] Where sheet metal cornices or external sheet metal gutters are used, their entire frame work and covering shall be of metal, and the walls shall extend behind all such cornices or gutters along their entire height, and a water tight junction shall be made at the line of the wall, between the roofing material and the sheet metal covering of such cornices, or the sheet metal forming such gutters. All metal work in and about any cornice, gutter, eave or parapet, or in or about any bay, or oriel window, shall be riveted together with rivets not more than three inches apart, and shall be supported by iron brackets of $\frac{1}{4} \times 1\frac{1}{4}$ (or heavier) iron, placed not more than four feet apart, and firmly secured to the wall. All dentils, brackets, medallions or rosettes shall be flanged and securely riveted to main cornice, bay or oriel window. Wood shall not be used as the support of any gutter or cornice other than for such gutters as are on the inside of fire walls, for buildings of Class I, one hundred feet or less in height, or for Classes II, III and IV, ninety feet or less in height.

352. Towers, domes, spires.] Towers, domes and spires may be built on top of the roofs of buildings of Classes I, II and III, but shall not occupy more than one-quarter of the street frontage of any building, and none shall in any case have a base area of more than one thousand six hundred square feet. And such towers, domes or spires, if any part thereof is built to a height of more than sixty feet and less than ninety feet, shall be of slow burning construction, and if of greater height than ninety feet above the sidewalk shall be of fire proof construction, and in all cases where the area of such spire, dome or tower exceeds one hundred square feet, its supports shall be carried down to the ground, and shall be, if the construction supported is more than sixty feet and less than ninety feet high, of slow burning construction, and if more than ninety feet high, of fire proof construction.

353. Skylights.] Skylights made at the foot of light wells or light courts shall be made either of prismatic lights set in cast iron frames, or of glass at least five-eighths inch thick set in metallic frames; and if the latter are used, they shall be protected against injury from falling bodies by wire nettings placed at least six inches above the glass of such skylight and firmly and rigidly supported on

iron stanchions and frame work; such netting to be made of wire not lighter than No. 8 and mesh not coarser than $1\frac{1}{2} \times 1\frac{1}{2}$ inches. All other skylights shall have metallic frame, sash and curbs, glazed with glass not less than one-quarter inch thick, except in the case of skylights which occur in courts or in other places below the roofs of buildings to which they belong; such skylights shall be glazed with glass not less than one-eighth inch thick. This glass shall be protected against breakage by wire netting placed at least six inches above the glass of such skylight and firmly and rigidly supported on iron stanchions and frame work, such netting to be made of wire not lighter than No. 10 and the mesh not coarser than $1\frac{1}{2} \times 1\frac{1}{2}$ inches.

354. Bay and oriel windows, walls of.] The walls of all bay and oriel windows shall be constructed entirely of incombustible materials. The limitations of the dimensions of bay windows and the position of bay windows projecting over the street line of any building shall be as follows:

First—No such bay or oriel window shall be at a less distance than twelve feet from the sidewalk grade.

Second—No such bay or oriel window shall project more than three feet over the street line of any building.

Third—No such bay or oriel window shall have a greater street frontage than fifteen feet.

Fourth—There shall not be more than one bay or oriel window for any twenty-five feet of frontage, and no two bay windows shall be built nearer to each other than five feet.

Nothing herein contained shall, however, limit the number or size of bay and oriel windows which are built in such manner as not to project over the street line of the buildings of which they form part, but the structural parts of such bay or oriel windows shall also be made of incombustible material.

355. Cornice, belt course, balcony—projection of.] No cornice, belt course, or balcony shall project more than three feet over the street line of any building, and no cornice, balcony, string course, portico or veranda, if projecting over the street line of any building, shall be built in its entirety of other than incombustible material. It shall, however, be permitted to build verandas, porticos and balconies upon buildings less than sixty feet in height of combustible material, provided that no part thereof project over the street line of the buildings of which they form part.

356. Veranda—portico.] If verandas or porticos are to be enclosed the filling or enclosing walls must be made of incombustible material, the only exception being in case such porticos or verandas are to be made part of a storm house or of a storm door enclosure, which, however, shall in no case be more than twelve feet high, nor shall it occupy a greater frontage than two feet more than the width of the inner doors for which the storm doors are made.

357. Sidewalk space, prohibited use.] The use of any part of the sidewalks for steps or for open areas is prohibited, but porticos

or other entrance features, if not more than thirty feet in height, may be made to project upon the sidewalk eighteen inches, but no more. The foregoing prohibition for the use of sidewalk space for steps or areas shall not apply to existing buildings, but if material alterations in or additions to existing buildings are to be made, then such steps and open areas shall be made to conform to the provisions of this chapter.

358. Space under sidewalk, covering of same.] In all cases where the space under sidewalks is connected with the basement of any building, the covering of the same and all the supports of such covering shall be made entirely of incombustible material.

359. Chimneys.] No chimney shall be built with walls less than four inches thick, nor shall the top of any chimney be lower than five feet above the top of the roof of the building of which it is part, if such roof is a flat roof; if the roof be a pitched roof, the chimney tops shall extend at least two feet above the same. Joists or timbers of any kind are not to rest upon the walls surrounding any chimney, and are, in all cases, to be kept at least two inches distant from the outer face of the same, and such timbers shall also be kept at least eight inches distant from the interior of the flues. Chimneys having four inch walls shall have safeguards against the spread of fire to adjacent wood work as follows: If the interior of such flues is lined throughout their entire length with terra cotta flue liners, no further protection shall be necessary. If, however, there are no flue liners, then the inside of such chimney shall be plastered with mortar and the outside shall be first covered with metallic lath and shall be plastered after the application of such lath. Flues of greater area than one hundred and fifty square inches and smaller than five hundred square inches shall be surrounded with walls not less than eight inches thick and shall be otherwise treated the same as specified for flues having walls four inches thick, and the tops of such chimney shall extend at least five feet above the highest part of any roof within fifty feet of such chimney. Flues of greater area than five hundred and less than one thousand six hundred square inches shall have hollow walls, in which there shall be at least sixteen inches thickness of brick work and four inches hollow space all around such flues. From a distance of two feet below the smoke inlet and for a height of twenty feet above the same, such chimneys shall be lined with fire bricks laid in fire clay. At a height of fifty feet above the smoke inlet the thickness of surrounding brick walls of such flues may be reduced to twelve inches, but in all cases the surrounding walls of chimneys of this or any other size shall be so proportioned that the brick work in the same will not be subjected to stress greater than the maximum stress for brick work elsewhere fixed in this chapter. The tops of such chimneys shall extend to a height of not less than twelve feet above any roof within a radius of sixty feet thereof. For chimneys of greater area than one thousand six hundred square inches, the thickness of walls shall be increased, above the thickness specified in the preceding paragraph, four inches for each increase in area of one thousand square inches or

fractional part thereof, and the internal fire brick lining shall be made at least thirty feet high above the smoke inlet. If an internal smoke pipe of cast iron or steel is used so much of the brick work as is inside of the insulating cavity of the stack may be omitted. Wrought iron or steel smoke stacks shall, however, be lined with fire bricks for the first thirty feet of their height. The foregoing applies only to chimneys which are enclosed by or form part of the interior of any building.

360. Chimneys outside of building.] Chimneys may be built outside of the walls of existing buildings (but not in such manner as to encroach upon any street or alley) and shall be built as follows: If at least one side of such chimney abuts entirely upon the wall of an existing building, and the chimney is throughout its entire length securely and firmly anchored to the walls of said existing building, the walls of such chimney may be built of hollow tiles, in which case, however, it shall have a cast iron base lined with fire brick and extending to a height of at least ten feet above the street or alley grade. Such external chimney may, also, be built of rolled steel or iron not less than one-quarter inch thick and lined with fire bricks, laid in fire clay, for at least forty feet above street or alley grade, or it may be built throughout its entire height of cast iron, in which case the first ten feet above street or alley grade shall be lined with fire brick, laid in fire clay. In all cases the height of such chimneys shall follow the regulations hereinbefore given as to relations between top of chimney and roofs of buildings. If isolated chimneys are built, they shall also have hollow walls and shall be so designed and constructed that the stress upon any part thereof, due from the weight of the stack itself and from wind pressure, shall never exceed the limits elsewhere in this chapter fixed as the maximum stress for brick masonry. The foundations of smoke stacks, whether inside or outside of buildings or whether connected with the same or isolated, shall be designed and built in conformity with the provisions relating to foundations of buildings hereinbefore given.

361. Metallic chimneys or smoke pipes.] Metallic chimneys or smoke pipes shall not be used inside of any building in such manner as to pass through the floors or roofs of the same, unless such metallic smoke pipes or chimneys are enclosed in brick or tile walls with an air space between the enclosing walls and the smoke pipe from bottom to top.

362. Smoke pipes through partition—protection.] Where smoke pipes of diameter twelve inches or less pass through a wood or a plastered stud partition, they shall be surrounded either by a body of brick, hollow tile, porous terra cotta or other substance, measuring at least four inches all around such smoke pipe. Or they shall be surrounded by a sheet metal thimble made of two concentric rings of sheet metal, at least four inches apart, and the entire thimble so constructed that there will be a free circulation between the two rings forming the same. Smoke flues of less diameter than twelve

inches shall be kept at least twelve inches distant from any wood work, and such wood work immediately over and for a distance of two feet on each side of such smoke pipe must be covered with sheet metal or with porous terra cotta or hollow tile or with plaster. Smoke pipes of greater diameter than twelve inches and less area than six square feet must be kept at least twenty inches away from any wood work, and such wood work must be protected as before specified for the smaller smoke pipes to a distance of four feet on each side of such smoke pipe. Wherever smoke pipes of larger area than six square feet are used, they shall be kept at least three feet distant from any wood work, and such wood work for a distance of at least six feet on each side of said smoke pipe shall be protected as before specified for smaller pipes.

363. Structures in which fires are maintained.] Wherever steam boilers or furnaces or ovens, coffee roasters or other structures in which fires are maintained, are set inside of a building or in a room with wooden floor or ceiling construction, the floor of the same shall be protected by a covering of brick or concrete not less than five inches thick set in mortar upon a continuous sheet metal bearing plate not less than three-sixteenths of an inch thick, all the joints of which shall be securely riveted and the edges of which shall be turned up five inches all around. This foundation of sheet metal and brick and concrete shall extend under the whole of the fire box and ash pit of such steam boiler or furnace or other structure, and to a distance of not less than ten feet in front and at least four feet on the other three sides of the same. The space between the tops of such steam boilers or furnaces and any wood ceiling construction shall in no case be less than three feet, and the underside of such wood ceiling construction shall in all cases be protected either by two consecutive coatings of plastering on metallic lath, which shall be kept at least two inches distant from each other, and which metallic lath shall be applied by means of metal furring strips, or this protection of the wood work shall be made by a covering of at least two inches of porous terra cotta plastered on the underside, or by a covering of hollow tile with two air spaces at least half an inch each between the wood and the under surface thereof, which under surface shall also be covered with a heavy coat of plastering.

364. Cupola of foundry.] Cupolas of foundries shall extend at least ten feet above the highest point of any roof within a radius of forty feet of such cupola and shall be covered on top with a wire netting.

365. Hot air pipes.] Where pipes are used for the distribution of hot air in buildings, such pipes must be made of metal and double. The space between the two metal pipes shall be at least half an inch and the two pipes shall be kept apart from each other by the insertion of metallic separators extending all around such pipes at distances of three feet apart, and the interior of the main pipe shall be provided with braces, one for every three feet in length of the pipe. Such pipes

shall be made with air tight joints and be securely fastened to the partitions through which they pass.

366. Hot air registers—floor openings.] The openings in the floors for hot air registers shall be surrounded with borders of incombustible material not less than two inches wide, and firmly and securely set in place, and bedded in plaster of paris. The register boxes shall be double, the distance between the two thicknesses of tin being at least one inch. Where the air conveyed through pipes is heated in an ordinary hot air furnace, or in any other apparatus by direct contact of the air with a fire box, the material used for these double ducts, pipes and register boxes shall be bright tin, and the joints shall be double seamed, but not soldered. Where the air is heated by contact with hot water or steam pipes, any other sheet metal may be used for the pipes, and the use of double pipes shall not be obligatory.

367. Stoves and ranges—floor beneath.] The floors under all stoves and ranges shall be protected by a covering of incombustible material, which covering shall extend at least two feet in front and one foot on each side of such stove or range. Stoves shall be kept at least two feet distant from any wood work, and such wood work shall be covered either with tile, plastering or sheet metal.

368. Surrounding walls—thickness.] The following regulations shall govern the construction of buildings belonging to Class I: The thickness of their surrounding walls and of all dividing walls in the same, carrying the load of floors or roof, shall be made as indicated by the following table, to wit:

369. Stairs, elevator shafts, shaving pits, walls of.] The walls surrounding stairs, and also the walls of elevator shafts and shaving pits, shall not be less than eight inches thick, and their thickness shall be increased with increase of height to a sufficient extent to keep

the load on the brick work within the maximum load elsewhere herein specified. No eight inch wall shall be more than two stories high, nor more than twelve feet high between lateral supports. Walls surrounding ventilating ducts, and rubbish and ash chutes shall be constructed in accordance with the regulations governing the construction of smoke flues elsewhere herein contained.

370. Walls, thickness reduced, when.] If buildings of Class I are erected of less depth than one hundred feet from front to rear or between cross walls, or if the walls supporting their floors and roof are less than twenty-five feet apart, the thickness of walls given in the aforesaid table may be reduced by four inches, provided that no wall in such buildings shall be less than twelve inches thick.

371. Ice storage house.] Houses to be used exclusively for the storage of ice may be constructed of wood with incombustible roofing, the walls to be enclosed with an envelope of incombustible material; eight inch brick walls with proper foundations of masonry may be used for such envelopes; iron or slate may be used, but no coating of mineral substance, or "fire proof paint," so called, shall be considered as incombustible, and such houses shall be used for no other purpose than the storage of ice.

372. Workshops, salesrooms—stair cases.] In buildings of Class I, which are used as workshops or in which, if they are used as salesrooms, there is an occupation of the same at any time by one hundred or more persons, there shall be at least two stair cases, each not less than three feet wide. If the number of persons occupying such buildings exceeds three hundred, then the width of the stairs in the same shall be increased to five feet. If the number of persons occupying such premises exceeds eight hundred, three stairways five feet in width shall be constructed. And, if the number of persons occupying such premises exceeds twelve hundred, they shall be governed as regards the number, size and construction of stairways, by the regulations laid down for buildings of Class IV. In all cases the stairs shall be located at as great a distance as practicable from each other. The foregoing specifications as to stairs apply to non fire proof buildings only. For fire proof buildings one less flight of stairs than above called for shall be required in each case.

373. Stairs and fire escapes, obstruction of.] It shall be unlawful, under any circumstances, to close up or obstruct the stairs, fire escapes or the approaches leading thereto of any building during its occupation for business purposes, and no change in the position or construction of either of them shall be made, unless permission so to do shall first be obtained from the commissioner of buildings.

374. Door openings at street level.] The aggregate width of door openings at the street level in buildings of Class I shall be equal to the aggregate width of stairways hereinbefore specified, and such doors shall not be locked during business hours or while such buildings are occupied by large numbers of people.

375. Increase of height, rules to govern.] In all cases

where buildings of Class I, already built, of ordinary construction, are to be increased in height above the height of sixty feet or above the height of one hundred feet, the additional parts of such buildings shall be constructed as herein provided for buildings over sixty feet high or over one hundred feet high, respectively, and shall be made to conform in all respects and throughout their entire extent to the requirements of buildings of this class more than sixty feet or one hundred feet high, respectively, before it shall be lawful to occupy them.

376. Ceiling and roof, space between.] In buildings of Class I, if the enclosed space between the ceiling and the roof is of less average height than six feet, then the ceiling and the roof and all the structural parts of the same shall be made either of "mill construction" or "slow burning construction;" and in all cases, means of access satisfactory to the fire marshal shall be given to this space between ceiling and roof.

377. Iron shutters, when.] Whenever the distance between doors and windows of buildings on opposite sides of alleys or courts shall be thirty feet or less, such door or window openings shall be provided with iron shutters.

378. Dividing walls.] Dividing walls shall be required in buildings of Class I as follows: In buildings of ordinary construction if their floor area exceeds nine thousand square feet; in buildings of slow burning or mill construction if their area exceeds twelve thousand square feet; in fire proof buildings if their area exceeds fifteen thousand square feet. In each of the above mentioned cases such buildings shall be subdivided by brick walls built of the thickness given in the table for the thickness of enclosing walls, and all doors and other openings in such walls shall have iron doors or shutters on each side of same. And the buildings so subdivided shall be treated as regards stairs and fire escapes the same as two or more separate buildings.

379. Dividing walls—openings.] If openings are to be inserted in dividing walls, as above described, or in dividing walls between non fire proof and fire proof buildings or parts of buildings, they shall be made as follows: They shall have doors placed on each side of each opening in such walls, which doors shall be made of No. 12 plate iron with a continuous $2 \times 2 \times \frac{3}{8}$ inch angle iron frame extending all around the same and the plate riveted thereto with half inch rivets, placed four inches between centers. If such doors are made double they must have cross bars, levers and hooks so arranged that when the doors are closed, they will be of strength equal to that of a single door. All doors must be hung on frames made of $\frac{3}{4} \times 4$ inch iron stiffened with an angle iron extending all around the same and fitting up snug to the wall. The frames must be fastened to each other by bolts extending through the wall, such bolts being not more than two feet apart, and such doors must swing on three hinges and must be made to fit closely to the frame all around. The sills between the doors must be of brick, iron, stone or concrete, and must rise at least two inches above the floor on each side of each opening.

The lintel over the door must be made of brick, iron or stone, and the wall between the two door frames must be covered with a coat of plaster at least half an inch thick.

380. Buildings for storage of grain.] Elevator buildings (which term shall be interpreted as including all buildings intended solely for the receipt, storage and delivery of grain in bulk) may be constructed with bin walls, both externally and internally, made entirely of wood, provided such walls are made solid and without cellular open spaces within them. The external bin walls shall have a covering of brick or hollow tile not less than twelve inches thick, which shall be united to the bin walls by anchors, in the construction and arrangement of which due allowance shall be made for the variations of shrinkage of the enclosing wall and of the wooden bin wall. If the weight of the bins is independently carried on a skeleton construction of timber, steel or iron, the first story walls shall be of brick, not less than twenty inches thick. If the outer walls of the outside bins and their facing are not carried on a skeleton construction, then the first story walls shall be not less than twenty-eight inches thick, and as much thicker as may be required to keep the load upon the brick work within the limits of stress elsewhere specified in this chapter. The cupola or enclosure walls of elevator buildings shall be made of hollow tile not less than six inches thick, which shall be anchored to the frame work as above specified. The outside openings in elevator buildings shall have protections of wire netting made of No. 14 wire with meshes not over $\frac{1}{2} \times \frac{1}{2}$ inch. All openings in the body of first story of elevator buildings, all openings in the engine and boiler houses of the same, and all openings between the latter buildings and the main buildings shall have iron doors.

381. Buildings, Class II, enclosing walls.] Buildings of Class II shall conform to the following requirements. The thickness of enclosing walls of buildings of this class shall be made in accordance with the following table, to wit:

	Base- ment.	STORIES.

382. Stairs and elevators, walls of.] If the walls enclosing stairs or elevators are made of brick, they shall be not less than eight inches thick, and no such eight inch wall shall be more than twenty-four feet in height. Twelve inch walls used for enclosing stairs or elevators shall be not more than forty feet high; and in no case shall the load on any such wall or part thereof exceed the limits elsewhere herein specified for the maximum stress on brick masonry.

383. Enclosing walls, joist supports.] If in buildings of Class II the distance between enclosing walls is more than twenty-four feet in the clear, there shall be intermediate supports for the joists, which supports shall be either brick walls or iron or steel columns and beams. If brick walls are used for this purpose they may, in all cases where the thickness of walls is given in the table as sixteen inches or more, be made four inches less in thickness than the dimensions stated in the table.

384. Apartment houses, hotel, lodging houses—dividing walls.] In all apartment houses, the dividing walls or partitions between the apartments provided for each family shall be made entirely of incombustible material, or of stud partitions filled the full thickness and height with mineral wool and plastered on metal lath. In the absence of definite subdivisions between the apartments of different families, eight rooms shall be counted as the equivalent of one apartment. In boarding houses, lodging houses, and hotels, sixty feet or less in height, there shall be, for every eight rooms in any one story, dividing walls or partitions of incombustible material separating these eight rooms from the contiguous spaces.

385. Hotels, lodging and boarding houses—fire stop.] In hotels, lodging houses and boarding houses ninety feet or less in height, there shall be a fire stop of brick, concrete or tile between the ceiling and floor in each floor of joists for each twenty-five feet or fractional part thereof measured in the direction of the length of joists.

386. Stairs.] Stairs in buildings of Class II shall be adapted, in number and width, to the area, height and to the uses to be made of the building in which they occur: For office buildings, by which shall be understood buildings divided into apartments intended for business uses only, and in which there shall be no sleeping apartments whatever, there shall be in buildings of ordinary construction and of less ground area than two thousand square feet, one flight of stairs not less than five feet wide, or two flights not less than three feet wide each; and for office buildings of ordinary construction and of greater ground area than two thousand square feet, there shall be an additional flight of stairs for each additional two thousand square feet of ground area or for any fractional part thereof. For office buildings of slow burning or mill construction there shall be at least one flight of stairs not less than five feet wide or two flights not less than three feet wide for the first three thousand square feet of ground area, and an additional flight of stairs shall be required for each additional three thousand square feet of ground area or fractional part thereof. For fire proof office buildings

there shall be one flight of stairs not less than five feet wide for the first five thousand square feet of ground area and an additional flight for each additional five thousand square feet of ground area or fractional part thereof.

387. Building, Class II—stairs.] For all other buildings of Class II, there shall be for each building at least two flights of stairs which, for buildings of two thousand square feet or less in ground area shall be at least three feet wide each with an increase of six inches in width for each addition of five hundred square feet to the ground area of the building up to a ground area of three thousand square feet, and after that there shall be an additional flight of stairs not less than three feet wide for each additional two thousand square feet of floor area or fractional part thereof. In all cases where buildings of Class II are built entirely of fire proof construction the number of stairs herein provided may be reduced by one flight from the number herein specified for non fire proof buildings.

388. Windows.] In buildings of Class II no room shall be considered habitable or used as a habitation unless it has at least one window of an area equal to one-tenth of the superficial area of such room, opening into the external air.

389. Air space.] No space of less area than forty square feet for each three story building, or less area than fifty square feet for each four story building, and so on, increasing ten square feet for each additional story in height, shall be considered as affording means of communication with the outer air, and such open spaces or light shafts, if covered with a skylight or roof of any kind, shall not be considered as fulfilling the provisions of this chapter.

390. Building, Class I—floor strength.] No building of Class I shall be built with a strength of floor construction in any part thereof less than sufficient to carry, within the limits of stress for the different materials elsewhere herein specified, a load of one hundred and fifty pounds for each square foot of floor surface; and the strength of such buildings shall be increased above the capacity to carry one hundred and fifty pounds per square foot of floor surface, if the uses to which such building or part thereof is to be applied involve greater stress.

391. Notice of floor strength.] It shall be the duty of the owner of every building of Class I already constructed or hereafter to be constructed, or of his agent or of the occupant of the same, to affix and display conspicuously on each floor of such building a placard stating the load per square foot of floor surface which may with safety be applied to that particular floor, or if the strength of different parts of any floor varies, then there shall be such placards for each varying part of such floor. It shall be unlawful to load any such floors or any part thereof to a greater extent than the load indicated upon such placards. It shall be the duty of occupants of buildings to maintain such placards during their occupation of the premises, and the owners of buildings or their agents to cause the same to be properly affixed with

each change of occupation. It shall be part of the duty of the architects of all buildings to calculate the figures for such placard, which are to be verified and approved by the commissioner of buildings before they are affixed upon the respective floors of the different buildings.

392. Buildings generally—floors.] For buildings of Classes II, III and IV, including frame buildings outside of the fire limits, the floors shall be designed and constructed in such a manner as to be capable of bearing in all their parts, in addition to the weight of partitions and permanent fixtures and mechanisms that may be set upon the same, a live load of seventy pounds for every square foot of surface in such floors. In determining the strength of posts and the area of foundation for many storied buildings in buildings of Classes II, III and IV, allowances are to be made for the fact that the before mentioned live load of seventy pounds per square foot is but an occasional load, which rarely occurs simultaneously upon corresponding parts of many floors, and if so, for a very brief period only.

393. Roofs of buildings of all kinds—bearing power.] The roofs of all buildings of every kind and class, including frame buildings outside of the fire limits, shall be designed and constructed in such manner that they will bear a load, in addition to their structure and covering, of at least forty pounds for each square foot of horizontal surface, without straining the materials of construction beyond a point twenty per cent. less than the limits elsewhere fixed in this chapter.

394. Alteration not required—if made must conform hereto.] Excepting in cases where the immediate safety of the occupants of buildings is concerned, nothing in this chapter shall be considered as requiring alteration in the construction or equipment of buildings existing at the time of the passage of this ordinance, and which, when built, complied with the ordinance then in force. If, however, it is desired to enlarge or in any manner materially modify the construction of any existing building, or to make any change in its use or occupation which will transfer it from one class, as provided by this chapter, to another, then before such enlargement or structural change or modification of the building is made, or before such change in its use or occupation may be made, the entire building shall be reconstructed or modified in such manner as to bring the same, when enlarged or altered, or when occupied for its new and different purposes, in accordance with the provisions of this chapter.

395. Alteration—increasing thickness of wall.] If the walls of such building are not of sufficient thickness to comply with the requirements of this chapter for the enlarged or modified building, then the thickness of the existing walls shall be increased by building alongside of them a new wall, which shall not, however, be less in any part thereof than twelve inches thick, and which shall be increased in thickness by four inches for at least every forty feet in height of such wall. Such new wall must be laid in cement mortar, and must be anchored to the old wall; and, if an increase in the height of the building is contemplated, the wall from the top of the old wall shall be

built jointly upon the new and old walls. If solid masonry buttresses are introduced in connection with such thickening and strengthening of existing walls, the intervening wall may be reduced to eight inches in thickness, provided such buttresses are sufficient in number and in area to make the resultant structure of equal strength with the solid wall already specified.

396. Hollow tile wall in lieu of brick.] If a steel or iron skeleton construction is used for the support of the interior of the building to be added to or modified as before stated, then if the pillars of said skeleton are fire proofed all around the same, and if the skeleton construction is itself fire proofed, a hollow tile wall not less than ten inches in thickness made up of three thicknesses of three inch hollow tile, bonded in such manner as to break joints, may be substituted for the brick wall before specified.

397. Party wall.] The foregoing shall also apply to all cases where existing party walls are to be joined to for the erection of new buildings. But, in the case of party walls which at the time of their erection were built in accordance with the terms of the building ordinance then in force, such walls, if sound and in good condition, may be used without increase of thickness for any building not higher than, and of the same class as, the building for which the original wall was built.

398. Increase of walls—foundation.] In all cases where there is such increase of walls, a new foundation shall be built in such manner as to carry jointly both the new and old walls, and the soil under such foundation shall not be loaded beyond the limits elsewhere herein specified.

399. Buildings, Class III—walls, stairs.] Buildings of Class III shall have walls not less in thickness than those given in the table of thicknesses of walls for buildings of Class II. Buildings of Class III may be built of ordinary construction. Stairs in the same shall not be less than three feet wide, and if any building of Class III is more than two stories high above the basement story it shall not have less than two flights of stairs.

400. Buildings, Class IV—subdivision—walls.] Buildings of Class IV shall be divided into two special classes: Class IVa shall embrace all buildings of Class IV in which no movable scenery is used upon the stage thereof.

Class IVb shall embrace all buildings of Class IV in which movable scenery is used. The outside walls of all buildings of Class IV, the roofs or ceilings of which are carried on trusses or girders of a span of fifty feet or more, shall have walls as follows:

If the walls are less than twenty-five feet high, they shall be not less than twenty inches thick.

If more than twenty-five feet and less than forty-five feet high, not less than twenty-four inches thick.

If more than forty-five feet and less than sixty feet high, not less than twenty-eight inches thick.

If the walls are over sixty feet and less than seventy-five feet high, not less than thirty-two inches thick.

If more than seventy-five feet and less than ninety feet high, not less than thirty-six inches thick.

An increase of four inches in thickness of walls shall be made in all cases where walls are over one hundred feet long without cross walls of equal height.

For rooms less than fifty feet wide, the thickness of walls before given may be reduced by four inches.

401. Upper stories—wall.] In case there shall be one or more stories built above the room devoted to the uses of Class IV, such stories being carried on trusses or girders, the thickness of walls shall be increased by four inches for each two stories or part thereof above every such room. If solid masonry buttresses are employed and placed sixteen feet or less apart, and extended to the foot of the trusses or girders carrying the ceiling, or if iron or steel pillars are inserted in such walls for the support of the superstructure and at distances not more than eighteen feet between centers, such pillars extending to and carrying the superimposed trusses or girders, the thickness of such walls may be reduced in proportion to the increase of strength afforded by such buttresses or pillars, but in no case shall any such wall be less than twelve inches thick in the top story, four inches being added, going downward, for each story or for each gallery, or for each twenty-five feet in height of blank wall.

402. Iron or steel pillars.] If iron or steel pillars are introduced in said walls, the brick work around the same shall be bonded into that of the connecting walls, and each of such pillars shall have not less than eight inches of brick wall around it, the brick being measured from the extreme outer dimensions of such iron or steel pillars.

403. Building with seats for 800—two frontages.] Buildings of Class IVa, with seats for eight hundred persons or less, shall have a frontage upon two public spaces, of which at least one shall be a street and of which the other, if it is not a street, shall be a public or private alley not less than ten feet wide.

404. Seating capacity over 800—three frontages.] Buildings of Class IVa, of greater seating capacity than eight hundred, and all buildings of Class IVb, shall face upon three open spaces, of which at least one shall be a public street, while the two others, if not streets, must be public or private alleys of a width of not less than ten feet each.

405. Seating capacity not over 600.] Buildings of Class IVa, containing not more than six hundred seats, may be built of ordinary construction. If they contain more than six hundred and less than fifteen hundred seats, they shall be built of slow burning or of mill construction. If they contain more than fifteen hundred seats, they shall be built of entirely fire proof construction.

406. Seating capacity less than 1,000—Class IVb.] Buildings of Class IVb, containing less than one thousand seats, shall be of slow

burning construction, or of mill construction, and if they contain one thousand or more seats, they shall be built entirely of fire proof construction.

407. Buildings, Class IV, with uses as of other classes.] If buildings of Class IVa or IVb are built in conjunction with or as part of buildings devoted to the uses of Class I, II or III, then such buildings of Class I, II or III shall be built of fire proof construction, if the connected building of Class IVa contains more than fifteen hundred seats, or if the connected building of Class IVb contains more than one thousand seats.

408. Building over sixty feet high connected with one of Class IV.] Any building higher than sixty feet and connected with or made part of any building of Class IVa or IVb shall be entirely of fire proof construction. Any building less than sixty feet in height and connected with or made part of any structure of Class IVa or IVb shall, if its case is not already covered by other provisions of this chapter, be made of slow burning or mill construction.

409. Such buildings connected—iron doors.] In all cases where fire proof construction is not used for the whole of such connected buildings, there shall be at each connecting opening double iron doors between such building of Class IVa or IVb and the building connected therewith.

410. Spires, cupolas, domes.] Spires, cupolas or domes of non-fire proof material may be erected as part of any house of public worship or instruction, if the same is used for these purposes only, and if such house of public worship or instruction is so built that it is nowhere nearer than twenty feet to any line of the lot upon which it stands, street and alley lines excepted, and such non-fire proof spires or domes may be maintained only while this intervening space of twenty feet is made and maintained as part of the grounds of the owners of such house of public worship or instruction. In case the above is complied with, such spire or dome may be built with a frame work of combustible material which shall, however, be covered on the outside with porous terra cotta, hollow tile or mortar, and upon this, with a weather proof covering of sheet metal, slate or glazed tile, the same as elsewhere herein specified for roofs of the same type of construction.

411. Spires, etc., when removed—roofs.] If the twenty feet of vacant ground, above mentioned as one of the conditions upon which the building of spires and domes having a combustible frame work is permitted, shall at any time be built upon, then such spire or dome shall be taken down. The roofs of isolated buildings of Class IVa shall be constructed in the same manner as those herein provided for spires, domes and cupolas.

412. Existing buildings, Class IV—alterations, etc.—floor level.] The following limitations of floor levels in buildings of Class IV shall be observed in all cases of new construction or reconstruction, alteration or improvement of existing buildings: The floor

level of the auditorium of buildings of Class IVb shall be maintained within the limits of the first story thereof, and, in all cases where such floors are banked or stepped up, the floor of the lowest banks shall not be above the sidewalk level. If the floor of the first story is level it shall not be higher than three feet above the sidewalk level. The only exception to the foregoing shall be the case of rooms of Class IVb containing less than five hundred seats, which, in fire proof buildings, may be located in any story thereof, but in such case there shall be at least two flights of stairs from the floor, on which such auditorium of Class IVb is located, to the ground, and the width of such stairs shall be not less than four feet in the clear for each.

413. Floor levels.] In buildings of Class IV no auditorium containing more than one thousand seats shall have the highest part of its main floor at a greater elevation than eight feet above the adjacent sidewalk grades. No room of Class IVa containing more than five hundred seats shall be at a greater distance from the sidewalk grade than thirty feet. No room of Class IVa containing more than two hundred seats shall be at a higher level above the sidewalk grade than forty-five feet. Exceptions to the foregoing are to be made in the case of rooms of Class IVa containing less than five hundred seats, which may be located in any part of any fire proof building; Provided, however, that there be at least two flights of stairs from the level of the same to the ground, each flight not less than four feet in width.

414. Stairways, exits, aisles and passage ways.] Stairs in buildings of Classes IVa and IVb shall be in width equivalent to eighteen inches for every one hundred seats in such building—fractional parts of one hundred being in each case counted as a full one hundred seats—but no stairway in such building shall be less than four feet wide in the clear. All stairways shall have railings on each side thereof. No stairway shall ascend a greater height than eleven feet without a level landing, which, if its width is in the direction of the run of the stairs, shall be not less than three feet wide, or which, if at a turn of the stairs, shall not be of less width than that of the stairs. Distinct and separate places of exit and entrance shall be provided for each gallery above the first. A common place of exit and entrance may serve for the main floor of the auditorium and the first gallery, provided, its capacity be equal to the aggregate capacity of the outlets from the main floor and the said gallery.

415. Aisles, corridors, etc., in buildings, Class IV.] Aisles in buildings of Classes IVa and IVb shall be in width equal to eighteen inches for every one hundred seats or fractional part thereof, the occupants of which will be required to use such aisles, but no aisle shall be less than two feet three inches wide in its narrowest part. Steps shall be permitted in aisles only as extending from bank to bank of seats, and wherever the rise from bank to bank of seats is less than six inches the floor of the aisle shall be made as an inclined plane, and where steps oc-

cur in outside aisles or corridors, they shall not be isolated, but shall be grouped together, and there shall be a lamp at or near every place where there are steps in enclosing aisles or corridors. The width of corridors, passages, hallways and doors shall be computed in the same manner as that herein provided for stairways and aisles, excepting, however, that no corridor shall be less than five feet in width, and no door less than three feet wide.

416. Emergency exits.] Emergency exits and stairways shall be provided outside of the walls of all buildings of Class IVa seating more than one thousand five hundred persons and all buildings of Class IVb seating more than eight hundred persons. The aggregate width of such emergency exits, which shall be provided for each floor, balcony and gallery of such building, shall be one-half of that provided for the main exits, and no emergency exit, door or stairway shall be less than three feet in width. The frame work of said stairs shall be made of iron, the treads of wood. Said emergency exits are to be kept free of obstructions of all kinds, including snow.

417. Class IV--doors--wall between auditorium and stage.] All doors in buildings of Class IV shall open outward. In buildings of Class IV there shall be a solid brick wall of the same thickness as that called for on the outside walls between the auditorium and stage; and in non-fire proof buildings said wall shall extend to a height of six feet above the roof. The main curtain opening shall have an iron or asbestos curtain and all other openings in said wall shall have iron doors.

418. Stage floor.] The framing of the floor of every stage upon which movable scenery is to be used shall be of iron or steel. The stage floor may be of wood, but shall be not less than $3\frac{3}{4}$ inches thick. The entire floor construction and floors of fly galleries and rigging lofts, and all railings and supports and stanchions thereon, as also all sheaves and pulleys and their supports shall be of iron or steel. All wood work, including the under side of floor boards and, also, all scenery used on or about the stage shall be coated with a fire proof paint, the qualities of which shall be submitted to and approved by the commissioner of buildings in the manner hereinbefore provided for building materials generally. All wood used for floors and floor support in buildings of Classes IVa and IVb shall be coated on the under side with the same kind of paint.

419. Structures above auditorium.] Structures, of any kind and for any purpose whatsoever, erected above the ceiling of any auditorium containing five hundred or more seats, shall be entirely of fire proof construction and shall not be larger in area than seventy per cent. of the area of said auditorium. If any structure is built over the ceiling or roof of any building of Class IVa or IVb, the different members of the girders or trusses supporting the same shall have their fire proofing double, in the manner described for pillars of fire proof buildings of Class I.

420. Flues or ducts over stage.] There shall be over the

stage of every building of Class IVb flues or ducts extending fifteen feet above the top of the highest roof which forms part of such building, which flues or ducts shall have an area of at least one-thirtieth of the total area of such stage. The dampers for opening and closing said ducts shall be controllable from a point near the proscenium opening. These dampers shall be made of sheet metal, and the ducts themselves of incombustible material, and shall be properly insulated to prevent transmission of heat to adjacent combustible substances.

421. Stage storerooms.] If any part of any building of Class IVb shall be used for purposes of storing scenery, properties, furniture, books, papers or costumes, or as a workshop for the maintenance and repair of scenery and properties, such places shall be provided with automatic sprinklers of a make approved by the commissioner of buildings and the fire marshal of the city of Chicago, and the floors of such places shall be of brick or concrete and all structural iron or steel below, around and above the same shall have its fire proof covering made double. If said rooms or shops are located in the rear or at the side of the stage, they shall be separated from the stage by a brick wall, and the openings leading into said portions shall have fire proof doors on each side of the openings hung to iron eyes built into the wall.

422. Exit signs.] All exit openings in buildings of Class IV shall have the word "Exit" in letters at least six inches high applied to the auditorium side and to the stage side of every such exit.

423. Stage fire extinguishing apparatus.] There shall be kept in readiness for use on the stage of every building of Class IVb at least four (4) casks full of water and two (2) buckets to each cask. Said casks and buckets shall be painted red and marked "Use for fire only." There shall also be provided hand pumps or other portable fire extinguishing apparatus and, at least, four (4) axes, and two twenty-five (25) feet hooks, and two fifteen (15) feet hooks, and two ten (10) feet hooks on the floor of the stage and on each tier or floor under or over the stage. There shall be in every building of Class IVb a chemical fire engine and also a three and one-half inch pipe prepared with Siamese twin connections for steam engines, such connections being on the street or alley side of such building, and such pipe being carried to each fly gallery and to the rigging loft of such building; a regulation fire department valve at each, and with hose ready for use connected thereto at each of these points and at least two points upon the stage and at least two points below the stage.

424. Stand pipe, hose, etc.] Each building of Class IV shall have a water stand pipe and water plug, to be placed on the stage or platform, or in its immediate vicinity, which shall be connected with the water pipes or street mains of the city, and shall be put in under the direction and to the satisfaction of the fire marshal or commissioner of buildings. Hose shall be attached to such stand pipe of such size as may be directed by said marshal, and have nozzle and stop-cock attached thereto; such hose shall be of sufficient length to extend to

the farthest limits of such building or place of amusement, and shall, at all times, be kept in good order and repair, filled with water under pressure and ready for immediate use.

425. Buildings, Class IVb, fire extinguishing apparatus.] All buildings of Class IVb, with accommodations for one thousand or more persons, shall have at least one three-inch iron stand pipe and metallic ladder combined on the street or alley side of the building, from ground to roof, with hose attachments close to a window or door at each floor or gallery. Such buildings shall also be provided with a fire alarm telegraph apparatus connected by the necessary wires with the headquarters of the city fire alarm telegraph, or such other place or places as the fire marshal shall direct.

426. The same.] It shall be the duty of all owners, agents, lessees and occupants of buildings of Class IVb to provide such other fire extinguishing apparatus at such points about the building as the fire marshal shall direct.

427. Theater—employment of firemen.] It shall be the duty of the owner, agent, lessee or occupant of any building of Class IVb with accommodations for one thousand or more persons, to employ one or more competent and experienced firemen, approved by the fire marshal, to be on duty at such theater during the entire time it is open to the public; said firemen shall report to and be subject to the orders of the fire marshal, and shall be in uniform and shall see that all fire apparatus required is in proper place and in efficient working order.

428. License to limit visitors.] The permit for each building of Class IV shall state the number of persons it has accommodations for, which number shall be governed by the number and size of its exits, doors and passages, and shall be approved by the commissioner of buildings.

429. Building, Class IV, lighting.] Every portion of any building of Class IV devoted to the use or accommodation of the public and all outlets leading to the streets, including the open courts and corridors, shall be well and properly lighted during every performance, and the same shall remain lighted until the entire audience has left the premises.

430. Electric light—lamps.] Buildings of Class IVb shall be illuminated at night entirely by electric light, and shall have at each exit, and at the head and foot of each stairway, a metal bracket and a candle or a sperm oil lamp kept burning therein during the entire duration of any performance. Said provisions shall also apply to buildings of Class IVa, seating more than one thousand five hundred persons.

431. Building, Class IVa, lighting.] For building of Class IVa, the illumination may be either by gas or electricity; all gas or electric lights in the halls, corridors, lobby, or any other part of said building used by the audience, except the auditorium, must be controlled by a separate shut-off located in the lobby, and controlled only in that particular place. Gas mains supplying the building shall have inde-

pendent connections for the auditorium and the stage, and provision shall be made for shutting off the gas from the outside of the building. All suspended or bracket lights surrounded by glass, in the auditorium or in any part of the building devoted to the public, shall be provided with proper wire netting underneath. No gas or electric light shall be inserted in the walls, wood work, ceilings, or in any part of any building of Class IV, unless protected by fireproof materials. All lights in passages and corridors in said buildings and whenever deemed necessary by the commissioner of buildings, shall be protected with proper wire net work. The footlights, in addition to the wire net work, shall be protected by a strong wire guard not less than two feet distant from said footlights, and the trough containing said footlights shall be formed of and surrounded by fireproof materials. All border lights shall be constructed according to the best known methods and subject to the approval of the commissioner of buildings and the fire marshal, and shall be suspended for ten feet by wire rope. All ducts or shafts, used for conducting heated air from the main chandelier, or from any other light or lights, shall be constructed of metal, and made double, with an air space between. All stage lights, if gas, shall have strong metal wire guards or screens, not less than ten inches in diameter, so constructed that any material in contact therewith shall be out of reach of the flames of stage lights, and shall be soldered to the fixtures in all cases.

432. Inspection of lights, fire extinguishing apparatus, etc.] The stand pipes, gas pipes, electric wires, hose, footlights, and all apparatus for extinguishing fire, or guarding against the same, as in this chapter specified, shall at all times be made and kept in condition satisfactory to and under the control of the fire department, the commissioner of buildings, and the fire marshal of the city of Chicago.

433. Movable awnings.] All movable awnings hereafter erected shall be elevated at least eight feet above the top of the sidewalk, and shall not project over the sidewalk to exceed three-quarters of the width thereof. They shall be supported without posts, by iron brackets or by an iron frame work attached firmly to the building, so as to leave the sidewalk wholly unobstructed thereby.

434. Fixed awnings.] Fixed awnings may be constructed over sidewalks to protect the entrances of buildings, provided such awnings are constructed of metal frame work filled with glass not less than three-fourths of an inch thick, and supported entirely by the structure of the building, and without posts or other obstructions upon the sidewalk. Such awnings shall be of the width of the entrance which they protect and shall extend over the entire width of the sidewalk in front of the same. The lowest part of such awnings shall be at least ten feet above the sidewalk level.

435. Railing, fence, etc.—spikes prohibited.] No owner, lessee or agent of any building in this city shall erect or maintain, or permit to be erected or maintained, on or about the stairway in or the entrance to such building, or on or about its exterior building line, or

upon any portion of the sidewalk adjacent to such building, any railing, fence, guard or other protection of any kind upon which said railing, fence, guard or other protection there shall be affixed or placed, or in any manner attached any spike, nail or other pointed instrument of any kind or description.

436. Elevator—hatch closers.] Wherever elevators in non-fireproof buildings, or in fireproof buildings of Class I, are built without enclosing walls, there shall be at every floor through which they pass automatic hatch closers or automatic doors made in such manner that they will fully close each well hole when the temperature in such well hole exceeds one hundred and forty degrees Fahrenheit. Before any doors shall be considered as fulfilling the provisions of this chapter they shall be examined by the commissioner of buildings and the fire marshal, and if it is found by these officials that such doors will automatically close when the temperature at or near the same exceeds one hundred and forty degrees Fahrenheit, and that, also, the conditions of construction and operation of such doors or hatch closers are such that there is no reasonable probability of their getting out of order and failing to operate when required, and if there is nothing in their application or operation likely to cause accident to, or interference with, the elevator service in the hatch holes which they are intended to close, then, and in such case only, shall the use of such hatch closers or doors be permitted.

437. Elevator—wall in lieu of hatch closers, etc.] If such hatch holes are not supplied with hatch closers or doors, as above described, the elevator well shall be enclosed, in all non-fireproof buildings, with an entirely self-supporting wall of brick or tile extending from the foundation to a height of six feet above the roof of the building in which such elevator is located, and in buildings of fireproof construction the walls or partitions enclosing such elevator shafts, which may be of light construction, but which must be incombustible, may be carried from story to story upon the construction of the same.

438. Elevator shafts and enclosures.] All elevator shafts and all elevator enclosures, of every kind, shall have iron doors which shall be made to open from the inside only, excepting only the door upon the ground floor of the building, which shall also have a lock to permit opening the same from the outside.

ing therefrom of any materials that may be used, placed or deposited thereon.

442. Mode of building.] In the erection of buildings of masonry construction no wall shall be carried up at any time more than two stories above another wall of the same building. The walls and skeleton frame work of all buildings must be kept securely braced and otherwise protected against the effects of the weather during all building operations. All foundations must be protected against the effects of frost, and frozen cement mortar shall not be used in connection with any building operations.

FIRE ESCAPES AND STAND PIPES.

443. Stand pipes, ladders, etc.] All buildings, lodging houses and hotels of four or more stories in height hereafter to be erected in the city of Chicago shall be provided and equipped with one or more metallic stand pipes and ladders combined, with cast iron, wrought iron or steel balconies, with suitable railings, at each floor, and firmly secured to the outer walls, and in such locations and numbers as shall be satisfactory to the commissioner of buildings, the fire marshal and the inspector of fire escapes: Provided, that the provisions of this section shall not apply to private residences, flats and apartment buildings of less than four stories in height.

444. Inspection certificates.] All such fire escapes shall be put up and completed to conform to the buildings for which they are respectively intended, and shall be inspected after completion, and if found in a perfectly safe and satisfactory condition, a certificate shall be issued by the commissioner of buildings to that effect.

475. Inspectors of passenger vehicles—appointment.] There shall be designated by the mayor three persons from the regularly constituted police force of the city of Chicago, with the rank of sergeants, who shall constitute a board, and be known as inspectors of passenger vehicles. Said inspectors shall have headquarters or a place for the transaction of business and keeping of the records hereinafter required, in the city hall, and such office shall be open not less than four hours of each and every day, except Sundays.

476. Driver's license—terms of issue—bond.] No person shall receive a license to drive a cab, carriage or other vehicle for the carriage of passengers for hire, until he shall have complied with the following conditions: Every applicant for such license shall present an application in writing, endorsed by not less than two responsible citizens, who shall certify that he is a man of good habits, honest, sober and industrious, and is a fit person to drive a passenger vehicle. Said applicant shall also give a bond in the sum of one hundred dollars, conditioned substantially as follows: "Now, if the said A. B. shall well and faithfully perform his duties as driver of a passenger vehicle for hire, and faithfully obey and observe all of the ordinances of the city and the rules and regulations of the inspectors of passenger vehicles, and shall not be guilty of charging in any case more than the rates established by ordinance, then this obligation shall be null and void, otherwise to remain in full force and effect." Said bond shall be payable to the city of Chicago for the use of any person who shall be damaged or aggrieved by any failure of such driver to observe and obey the ordinances and regulations above referred to, and shall be signed by not less than two sureties. Said bond shall be taken and approved by the city clerk. Such license shall be transferable from person to person and vehicle to vehicle upon a new bond being given by the assignee of the same, as above provided.

477. Inspectors' duties.] It shall be the duty of said inspectors, as often as once in every three months, to carefully examine the condition of every vehicle licensed to carry passengers for hire within the limits of the city of Chicago, and note such inspection and

the date thereof in a record kept for that purpose, with remarks upon the vehicle so inspected, and if such vehicle is found to be strong and in good condition and such as to not endanger the safety of persons transported therein; they shall issue a certificate to the owner of such vehicle, stating such inspection, and no license shall be issued except upon such certificate of inspection being presented. It shall, also, be the duty of said inspectors, by one or more of their number, to make a daily inspection of every cab and carriage stand within the city, at which time they shall take note of the condition of such vehicles, horses and drivers. They shall see that the vehicles are kept clean and in good repair, and that the horses are proper and safe animals to be driven to such vehicles, and when such vehicles or horses are not in proper condition the certificate of inspection shall be revoked, and also the owner's license, until such vehicle has been brought up to the standard established by said inspectors; and they shall also see that no driver becomes intoxicated, or treats passengers insolently or improperly, and that no overcharges are made for the transportation of passengers. It shall be the duty of said inspectors, when and wherever they find a violation of any part or portion of this chapter to order the driver of such vehicle to remove the same from the streets, and not to use the same again until authorized by said board of inspectors. In the event the driver of any such vehicle, last above mentioned, refuses or fails to remove such vehicle from the streets, any one or more of said inspectors shall immediately arrest, or cause the immediate arrest, of such driver. It shall be the duty of at least one of such inspectors to continue such inspection of cab and carriage stands during each entire night, and said inspectors shall alternate in performing such night duty.

478. License—suspension and cancellation—registry.] All licenses issued, as above provided, to the owners or drivers of such vehicles shall be issued by the mayor, on the recommendation of said inspectors. Upon an application being received, said board of inspectors shall, before issuing a recommendation, make careful and diligent inquiry as to the character and record of the applicant for honesty, sobriety and capability, and if they shall find that said applicant is lacking in any of such respects, such license shall be refused, and if said inspectors shall find any driver intoxicated while in charge of a vehicle, his vehicle shall be taken from him and the passenger or passengers shall be driven by the inspector to his or their destination, after which the vehicle shall be driven to a stable. For such first offense the license of the driver shall be suspended for not less than ten days; for the second offense his license shall be suspended at the direction of the inspectors from thirty to sixty days; and for the third offense his license shall be cancelled and not renewed, and the same penalty shall be imposed where any driver shall demand or charge a higher rate for carriage of passengers than that provided by ordinance. Said inspectors shall keep at their office a well bound vol-

time or volumes of records, in which shall be noted the name of each applicant for a license, the names of persons endorsing such application, the finding of inspectors in regard to such applicant's honesty, sobriety, etc., the date of his bond, together with the names of his sureties, and also carefully note every offense of which any driver may be guilty and all suspensions and such other items of interest as shall be required to make a complete record in relation to the conduct and qualification of drivers. In case any driver shall be found to be particularly neat and careful in keeping his vehicle, and shall be intelligent, polite and accommodating, such inspectors shall likewise note such facts in such record, and such record shall contain an alphabetical index of all licensed drivers.

The month in which the license is to be issued shall be counted and included in the number of months to elapse. If any delay shall occur in issuing the license, whereby the applicant shall be entitled, as above provided, to a license for a smaller payment, the excess shall be refunded by the city collector through the city comptroller at the time when the license is issued.

1416. Application for license — bond.] Every person desiring such license shall file with the city clerk an application in writing, giving his full name, and the name of any firm of which he may be a member, and the name of each member of such firm, and the location of his place of business to be covered by the license applied for. Every applicant shown by such examination to be qualified for working as a master plumber shall be recommended by the commissioner of health to the mayor for a license, and upon payment of the license fee shall be entitled to receive a license, which shall thereupon be issued by the city clerk upon the direction of the mayor. An applicant who has been once examined and recommended for a license shall not be required to submit to an examination for any new license in case he shall have been continuously engaged in business as a master plumber subsequent to such examination, but in such case the commissioner of health shall report and recommend such previously-examined applicant to the mayor and city clerk for a license, and such previously-examined applicant shall be entitled to a license in the same manner as if he had been examined specifically therefor. Any applicant not shown by examination as herein provided to be qualified for working as a master plumber shall be so reported to the city clerk and to the city collector by the commissioner of health, and the city clerk and city collector shall thereupon return to such applicant the fee and bond filed with his application. 1423. Water meter to be tested.] No water meter shall be connected with the water supply pipes of any building or premises, until such meter shall be tested and approved by the commissioner of public works, and a special permit granted therefor.

1429. Tapping street main.] No person except the tappers employed by the department of public works will be permitted under any circumstances to tap the street main, or insert stop-cocks or ferrules therein; all service cocks or ferrules must be inserted at or near the top of the street main, and not in any case nearer than six inches from the bell of the pipe; the size of the cock to be inserted shall be that specified in the permit.

1436. Opening and repair of streets—permit.] Before filling the trench the service cock in the street main must be covered with a suitable cast iron box furnished by the city, the earth must be well rammed under the main, to a level with the top thereof, from thence the trench must be filled in layers of not more than twelve inches in depth, and each layer thoroughly rammed or puddled to prevent settlement. This work together with the replacing of sidewalks, ballast and paving shall be done in all cases by the city. A sufficient amount must be deposited with the city before issuing the permit for opening the street to cover this expense. In all cases where the street to be opened has been recently paved with blocks, sufficient of the paving must be removed so that the foundation boards or planks (if any), can be taken up without cutting. No permit shall be granted for the opening of any paved street for the tapping of mains or laying of service pipes, when the ground is frozen to a depth of twelve inches or more, except when in the opinion of the commissioner of public works there is a sufficient emergency to justify it.

All such boilers shall be provided with a tank or other receptacle of sufficient capacity to hold at least six hours' supply, in case of a pipe district being shut off to repair mains or make connections or extensions. In such cases the city of Chicago will not be responsible for a lack of water for steam boilers or for any other purpose.

In no case shall they be inaccessible unless placed so in accordance with a written permit from the commissioner of health.

extended to the level of the floor line, foot connections of soil and waste pipes shall be made with one-quarter or one-eighth long iron bends and an iron sewer cap, such as is in general use, shall be used to finish the construction. 1610. Payments on contracts—how made.] All moneys payable by the corporation, for work done or supplies furnished by contract or otherwise, under the department of public works, shall be paid by the comptroller upon the requisition of the commissioner of public works.

1611. Contracts—how made.] All contracts for the making of any public improvement to be paid for in whole or in part by special assessment, and any work or other public improvement, when the expense thereof shall exceed the sum of five hundred dollars, shall be let to the lowest responsible bidder, after advertising the same, and shall be approved by the mayor; but any such contract may be entered into by the said commissioner without advertising for bids, and without such approval, by a vote of two-thirds of all the aldermen elected.

1612. Improvements by special assessment — contract.] Whenever any public improvement shall be ordered by the city council, which is to be paid for by special assessment, and the assessment for the same shall have been finally confirmed, and one-half of the special assessment shall have been paid into the city treasury, the commissioner of public works shall advertise in some newspaper printed in the city of Chicago, of general circulation, for proposals for doing said work: Provided, however, a contract for said work may be made before one-half of the assessment is collected, if authorized by a vote of two-thirds of all the aldermen elected; Provided, also, when a portion of the work on any public improvement is done by private contract, under the authority of the city council, the remainder of the work

upon such public improvement may be let at any time after the assessment thereof shall have been ordered by the city council. A plan or profile of the work to be done, accompanied with specifications for the doing of the same, shall be first placed on file in the office of said department, before any such advertisement shall be made, which said plan, profile and specification shall, at all times, be open for public inspection; such advertisement shall be published on five separate days, the first publication to be not less than ten days before the day fixed for opening said proposals, and shall state the work to be done.

1613. Contracts--bids for.] In all cases, the bids for doing any work, or making any public improvement, shall be sealed bids, directed to said department, and shall be accompanied with a deposit, the amount of which shall be fixed by said commissioner, and named in said advertisement, and which shall not exceed five per cent. of the estimated cost of the improvement or work to be done, nor be less than the sum of one hundred dollars. Said deposit shall be in money, or a certified check upon some Chicago bank in good standing, payable to the order of said commissioner, and shall be forfeited to the city in the event that the bidder shall neglect or refuse to enter into a contract (with approved sureties) to execute the work for the price mentioned in his bid, and according to the plans and specifications, in case the contract shall be awarded to him. Said bids shall be opened at the hour and place mentioned in said notice; and should said bid or bids be rejected, or should it become necessary for any other reason to re-advertise for proposals to do said work, such subsequent advertisement may be, at the discretion of said commissioner, for three instead of five days, as required in the first instance. Said commissioner may, in said advertisement, reserve the right to reject any and all bids.

1614. Contracts—how let.] All contracts, exceeding in amount the sum of five hundred dollars, for work, materials or supplies, relating to any of the matters under the cognizance of the department of public works, shall be let by the commissioner of public works to the lowest reliable and responsible bidder or bidders, whose bid does not exceed the estimate; and bonds, to be approved by the commissioner, shall be taken for the faithful performance thereof; all such contracts shall be executed in triplicate by the commissioner of public works, on the part of the corporation, and by the contractor; one original copy so executed shall be kept and filed in the office of the commissioner of public works; one shall be filed in the office of the comptroller, and the third shall be given to the contractor. All contracts and bonds so taken, shall be in the name of, and run to, the city of Chicago; and every contract for a sum greater than five hundred dollars shall have the consent in writing of the mayor endorsed thereon, and shall be countersigned by the city comptroller.

1615. Contract — control of.] No contract shall be made for any work or supplies relating to any of the matters within the cognizance of the department of public works, unless such work or supplies shall have been authorized by the city council, except that whenever

any such work or supplies shall be necessary, and the total cost thereof shall not, in any one case, exceed five hundred dollars, the commissioner of public works may cause the same to be done or furnished, under the supervision of the appropriate officer of the department; but no such expenditure shall be made without the written order of the commissioner of public works, through his secretary, which order, when filled, shall be returned and filed as a voucher in said department, with the bill upon which payment was made.

1616. Contracts—emergency.] In all cases, before such supplies, work, materials or necessaries of any kind shall be ordered or purchased by said department, exceeding in amount the sum of two hundred dollars, and not more than five hundred dollars, said commissioner shall first obtain, in writing, at least three informal bids to furnish the same, which said bids shall accompany, and be filed, in every case, with the voucher upon which the requisition for payment of the same is issued.

1617. Contracts—essential clauses.] In all contracts executed by said commissioner, on behalf of the city, the right shall be reserved to said commissioner to finally decide all questions arising as to the proper performance of said work; and in case of improper construction, or of non-compliance with the contract in any manner, to suspend said work at any time or to order the partial or entire reconstruction of said work if improperly done, or to declare the contract forfeited, and to re-let the same without further advertisement; and to adjust the difference of damages or price, if any, which the contractor or contractors, failing to properly construct such work in such cases of default, should pay to the city, according to the just and reasonable interpretation of said contract.

1618. Contract—reservation of payment.] In cases where the contractor or contractors shall proceed to properly perform and complete their said contracts, the said commissioner may from time to time, as the work progresses, grant to said contractor or contractors an estimate of the amount already earned, reserving fifteen per centum therefrom, which shall entitle the holder or holders to receive the amount that may be due thereon when the money applicable to the payment of such work shall have been collected, and the conditions annexed to said estimate, if any, shall have been satisfied.

1619. Water and sewer contracts.] All contracts entered into by the said commissioner of public works on account of the water or sewerage works of the city shall specify that they are for such works.

1620. Contracts based on special assessment—condition.] All contracts in which the contractor or contractors agree to be paid from special assessments shall contain covenants in substance to the effect that such contractor or contractors shall have no claim or lien upon the city in any event, except from the collection of the special assessments made for the work contracted for; and that no liability of any kind shall attach to the city by reason of entering into such con-

tract, except for the payment over to such contractor or contractors of money received by the city under special assessments levied or to be levied for the improvement specified in such contract, and no contract for work to be paid for by a special assessment shall be let except to a contractor or contractors who will so agree.

1621. Contractor's default.] In case the prosecution of any public work shall be suspended in consequence of the default of any contractor or contractors, or in case the bids for doing such work shall be deemed excessive, or the person or persons making proposals are not, in the opinion of said commissioner, responsible or fit to be entrusted with its performance, the said commissioner of public works may, with the approval of the city council, where the urgency of the case and the interests of the city require, employ workmen to perform or complete any improvement ordered by the city council: Provided, that the cost and expense thereof shall in no case exceed the amount assessed or the sum appropriated for completing the same.

1622. Contractor's liability.] Whenever said commissioner or any other city officer shall let any work or improvement which shall require the digging up, use or occupancy of any street, alley, highway or public ground of said city, there shall be inserted in the contract for the same, substantial covenants requiring such contractor, during the night time, to put up and maintain such barriers and lights as will effectually prevent the happening of any accident in consequence of such digging up, use or occupancy of any street, alley, highway or public grounds, for which the city might be liable, and also such other covenants and conditions as experience may prove necessary to save the city harmless from damages. And also to provide in such contract, that the party contracting with the city shall be liable for all damages occasioned by the digging up, use or occupancy of such street, alley, highway or public grounds, or which may result therefrom, or which may result from the carelessness of such contractor, his agents, employes or workmen.

1623. Contractor's bond of indemnity.] Whenever any work or improvement is let by contract, to any person or persons, firm or corporation, the officers of the city letting the same shall, in all cases, take a bond from such person, persons, firm or corporation, with good and sufficient sureties, in such amount as shall not only be adequate to insure the performance of the work in the time and manner required in such contract, but also to save and indemnify and keep harmless the said city against all liabilities, judgments, costs and expenses which may in any wise accrue against said city in consequence of the granting of such contract, or which may in any wise result from the carelessness or neglect of such person, persons, firm or corporation, or his, their or its agents, employes or workmen, in any respect whatever; and conditioned also, that when any judgment shall be recovered against said city by reason of the carelessness or negligence of such person, persons, firm or corporation so contracting, or his, their or

its employes or workmen, and when due notice has been given of the pendency of such suit, such judgment shall be conclusive against such person, persons, firm or corporation, and his, their or its sureties on such bond, not only as to the amount of damages, but as to their liability; and conditioned also for the payment of all claims and demands whatsoever which may accrue to each and every person who shall be employed by such contractor, or any assignee or sub-contractor of such contractor, in or about the performance of such contract.

1624. Contract—forfeiture.] It shall be the duty of the commissioner of public works, in letting any contract for any sewer, public improvement or other work, to insert in the contract therefor a condition to the effect that it shall and may be lawful for said commissioner, whenever he shall have reason to believe that the contractor has neglected or failed to pay any sub-contractor, workman, or employe for work performed on or about any public improvement, sewer or other work contracted for, to order and direct that no further vouchers or estimates be issued, and no further payments be made upon such contract until such commissioner shall be satisfied that such sub-contractors, workmen and employes have been fully paid. Every such contract shall also provide, that a certain percentage (not less than fifteen per centum) shall be reserved out of the moneys earned upon such contract, and that such percentage shall not be payable until such contractor shall satisfy such commissioner or officer letting such contract that all sub-contractors, workmen and employes have been fully paid.

1625. Payment to sub-contractors and workmen, etc.] Whenever the commissioner shall notify the contractor by notice personally served, or by leaving a copy thereof at the contractor's last place of abode, that no further vouchers or estimates will be issued, or payments made on the contract until the sub-contractors, workmen and employes have been paid, and the contractor shall neglect or refuse, for the space of ten days after such notice shall have been served, to pay such sub-contractors, workmen or employes, it shall and may be lawful for the city to apply any money due, or that may become due under the contract, to the payment of such sub-contractors, workmen and employes without other or further notice to said contractor; but the failure of the city to retain and apply any of such moneys, or of the commissioner to order or direct that no vouchers or estimates shall issue, or further payments be made, shall not, nor shall the paying over of such reserved percentage, without such sub-contractor, workman or employe being first paid, in any way affect the liability of the contractor or of his sureties to the city, or to any such sub-contractor, workman or employe upon any bond given in connection with such contract.

1626. Contract greater than \$500.] When the expense of any work or public improvement shall exceed the sum of five hundred

dollars, and the same is to be paid out of the general fund, or the water or sewerage fund of said city, the doing of said work shall be let by contract, in the same manner as is provided in cases where the expense of the same is to be paid for by special assessment.

1627. Bond schedule of sureties.] In all cases, before the letting of any contract, where bonds are required to be taken by the commissioner of public works, the sureties therein shall deposit with said commissioner a statement, under oath, showing the real property owned by each surety, the location of the same, its value, and the amount of incumbrance or incumbrances, if any, thereon.

1628. Special funds—how paid out.] All moneys to be paid to any person or persons out of the water or sewerage funds, or any special assessment fund, shall be certified by the commissioner of said department, or, in his absence from the city, or incapacity, by sickness, to act, by the mayor of the city, to the city comptroller, and a warrant therefor shall be drawn, stating therein the particular fund to which the same is chargeable.

1629. Interest in contract.] Neither the commissioner of said department, nor any superintendent, officer, clerk, or other person employed in said department shall be interested, directly or indirectly, in any contract made and entered into by said department for any work or for any material to be furnished, and all contracts made by said department in which the said commissioner, or any officer or employe of said department, shall be so interested, shall, at the option of the city, be declared utterly void, and of no binding effect whatever, and any officer of said department interested in any contract shall thereby forfeit his office, and be removed therefrom on proof of such delinquency, and it is hereby made the duty of said commissioner, and of the mayor, and of every city officer, to report to the city council any such delinquency when discovered.

1630. Inhibition of profit.] No officer or employe of said department shall, either directly or indirectly, receive any interest or profit whatever, on account of the deposit of the city funds, nor shall any such officer or employe, either directly or indirectly, make use of or borrow any of said funds for his own private benefit or advantage.

1631. Annual report.] Said commissioner shall, on or before the first day of May in each year, prepare and present to the city council a report showing the receipts and expenditures and entire work of his department during the previous fiscal year.

1632. Annual estimates.] The commissioner of public works shall, within thirty days after the commencement of each fiscal year, submit to the comptroller, to be by him laid before the city council with his annual estimates, a statement, as near as the same can be estimated, of the repairs and improvements to be paid for out of the general fund of the city, and necessary to be undertaken by said city during the current year, and of the sums required by said department to make such repairs and improvements, as near as can be estimated;

and also, a statement as to any desired improvements, with the probable expense thereof; and of all contracts made and unfinished; and the amount of any and all unexpended balances of appropriations of the preceding and prior years. Said report shall be in detail. The city council, having revised, changed, or altered the estimates so submitted, may provide for raising the same, in the annual appropriation bill or ordinance.

1633. Power to remove obstructions.] The commissioner of public works may direct the removal of any article or thing whatsoever, which may encumber or obstruct any street, avenue or alley in the city of Chicago, under the penalties prescribed by law.

1634. Reports.] The commissioner of public works shall, when required by the city council, inquire into and report upon any of the matters within the cognizance of the department of public works, and shall, from time to time, communicate to the city council any information or suggestion which he may deem important in relation thereto.

1635. Rules and regulations.] All subordinate officers, assistants, clerks and employes employed in said department shall be subject to such rules and regulations as shall be prescribed from time to time by said commissioner.

PERMITS.

1636. Prerequisite.] Before a permit shall be granted to any corporation, company or individual, person or persons, to open ground in any street, sidewalk, alley, avenue or public place for any purpose, an estimate of the cost of restoring the said street, sidewalk, alley, avenue or public place to a condition equally good as before it shall have been so opened, with a fair additional sum as margin for contingent damages, shall be made by the commissioner of public works, and the applicant for such permit shall deposit the amount so ascertained with the city comptroller, and the permit shall issue to the applicant only on the presentation of the comptroller's receipt for the same to the commissioner.

1637. Restoration work.] After and as fast as the work provided for in the permit has been performed, city workmen, under the direction of the commissioner of public works, shall follow the employes of the contractor of the corporation, company or individual, person or persons, to whom the permit was issued, and replace and restore the street, sidewalk, alley, avenue or public place to a condition equally as good as they were before being opened under the permit.

1638. Cost advanced — surplus — deficiency.] After completion of the work to the satisfaction of the commissioner of public works, he shall certify to the city comptroller the amount of any surplus remaining from the amount deposited in such case, and said surplus shall thereupon be paid over to the proper claimant. But, if for any reason the amount of such deposit shall have been insufficient to cover the cost of such work, or if any damage shall have been done to

any underground work or connections, or otherwise, not contemplated in the original estimate, which shall have caused increased expenditure, the amount of such deficiency or damage shall be certified to the city comptroller, who shall collect the same from the corporation, firm or individual, person or persons, to whom the permit was issued.

1639. Record of permits.] The commissioner of public works shall keep a record of all permits granted for connections with sewers or drains, in which he shall enter the names of all persons from whom he may receive money for such permits, with the amount received from each person at the time when it was received.

1640. Permits.] In all cases where provision is made by ordinance that the consent of the commissioner of public works shall be obtained to authorize any act to be done, he may grant a permit therefor, subject to the restrictions of the ordinances in relation thereto, and in cases where the ordinances of annexed cities, towns or villages granting privileges and rights in the streets, alleys and public grounds for different purposes, contain the provision that the president and board of trustees must in each instance grant permission for any specific work under the ordinances, authority is hereby vested in the commissioner of public works to grant such permission in lieu of said president and board of trustees.

Such water absorption test shall be made by the commissioner of public works of the city of Chicago, in the following manner, to-wit: Not less than three bricks shall be broken across, thoroughly dried, and then immersed in water for seventy-two hours. The absorption shall then be determined by the difference between the weight dry and the weight at the expiration of said seventy-two hours.

Five specimen brick shall also be furnished by each bidder for submission to the "abrasion" test by the commissioner of public works; such test shall be made in the following manner, to-wit: Such speci-

The specimen brick submitted by the different bidders shall be subjected to the same test without any discrimination in favor or against any of the bidders. All bricks used must be equal in every respect to the specimens submitted by the bidder to the commissioner of public works for test.

Pitch Lake—Trinidad.] It shall be the duty of the commissioner of public works, in reporting all ordinances which he may hereafter submit to the city council for improving streets, avenues and alleys with sheet asphalt, to specify in such ordinances that the asphaltum to be used shall be equal in quality, for paving purposes, to that obtained from Pitch Lake in the Island of Trinidad.

MATERIAL AFFIDAVIT.

1661. Contractor to make affidavit.] There shall hereafter be inserted in all contracts and specifications for street improvements a provision that before the final estimate is issued and final payment made upon such contract, the contractor shall deliver to the commissioner of public works, his sworn, written statement of the amount, kind and quality of the several materials required, that were delivered upon and incorporated into the work, and no final estimate, nor final payment shall be made by the city, or any of its officers, until such sworn statement shall have been furnished, as aforesaid, and verified by the department of public works through the reports of its inspectors, or otherwise.

1662. False statement.] Any person, firm or corporation that shall make or furnish any false statement as to the matters aforesaid, shall thereafter be debarred from again bidding upon city contracts, or furnishing materials therefor, and it shall be unlawful for any city officer to let or award any contract for a public improvement to any such person, firm or corporation.

1663. Inspectors to report.] All inspectors of this city, on such work, shall keep and return to the commissioner of public works an accurate account and report of the quantity and quality of all materials incorporated in such work, and the same shall be compared by the commissioner of public works with the sworn statement above required, and such sworn statement and inspector's reports shall thereafter be preserved by said commissioner.

1664. Reservation as to right of city.] Nothing in the last three preceding sections shall be deemed to abridge or restrict in any way the right of this city to inspect, or dig up for inspection, any

street to determine whether the work thereon has been done according to contract, and the proper quantity and quality of materials used therein.

EXCAVATIONS

1665. Permit—boring; prohibited.] No person or corporation shall, without an express permit in writing previously obtained in each and every instance from the commissioner of public works, place any shaft, cable, pipe, main, conduit, wire or other transmitting or conducting device underneath the surface of any street or alley in the city of Chicago by driving the same through the earth underneath the surface of any such street or alley, or by boring or tunneling underneath any such street or alley, or in any other manner than by excavating from the street or alley surface.

1666. Penalty.] Any person or corporation violating, or aiding, or promoting a violation of the foregoing section shall be fined not less than fifty dollars nor more than two hundred dollars for each offense, and a further penalty of fifty dollars a day for each day the said underground device laid in violation of this ordinance is permitted to remain in the street.

1667. Power of commissioner.] All shafts, cables, pipes, mains, conduits, tubes, wires or other transmitting or conducting devices at any time laid or placed underneath the surface of any such street or alley in any manner forbidden by this ordinance, shall be promptly removed or cut out by the commissioner of public works.

1668. Limited to two blocks.] It shall be unlawful to open or tear up any of the paved streets of the city for any greater distance than two blocks in extent at any one time, for the purpose of laying railroad tracks, car tracks, gas pipes, sewers, telegraph or telephone cables, or the repairs of the same, or other purposes other than laying down new pavements. The pavement of the first block opened shall be temporarily re-laid and the debris removed before opening another block of the street in which the work is being prosecuted. The commissioner of public works shall provide the necessary rules governing the repairs of paved streets under this and other ordinances, so that the pavements shall be absolutely replaced in as good order as before being disturbed, the earth packed solid and pavement laid even with the adjacent blocks or other material, within three weeks after it is first torn up.

ARTICLE XI.

WATER MAINS.

1669. Cost advanced by property owners.] The commissioner of public works may extend water mains where the owners

of the property, or persons desiring such extension, shall advance and pay into the city treasury a sum of money equal to the entire cost thereof; and whenever, upon a proper survey, it is shown that a permanent annual revenue of ten cents per lineal foot is being derived from said water mains, then said money so advanced as aforesaid shall be repaid to the person or persons so advancing the same; Provided, however, if the money so advanced is not paid back within two years, interest at the rate of five per cent. per annum shall be allowed after the expiration of said two years, until paid.

1670. Duty of Commissioner.] Whenever an ordinance is hereafter passed by the city council for the filling, grading, curbing and paving of any street, it shall be the duty of the commissioner of public works to ascertain whether the street or streets upon which such improvement is ordered contains a sufficient number of houses to pay a permanent annual rental to the city of ten cents per lineal foot for every foot of water pipe laid on said street or streets, and if such commissioner finds that said water pipe will pay such revenue to the city, he shall at once notify the city council, as hereinafter provided.

1671. Extension of water mains.] It shall be the duty of the commissioner of public works, wherever he shall deem it necessary or advisable to lay or extend any water main in the city of Chicago, and before he shall cause the same to be laid or extended, to report to the city council the proposed location and extent of the same, together with the size of pipe necessary or advisable to be laid, and the probable expense thereof. No water main shall be laid or extended by the commissioner of public works, unless upon an order of the city council directing the laying or extension of the same, fixing the location thereof, the size of the pipe to be used, and the maximum cost of the same; Provided, however, that nothing in this article contained shall be construed to apply to the laying or extension of water mains where provision shall have been made for paying for the same by special assessment, or where the cost of the same shall be paid by private individuals who shall by agreement wait for reimbursement until a permanent annual revenue shall have been derived therefrom, as herein provided, or to cases of repairing or relaying mains already laid, where the same shall have burst or otherwise become out of repair.

1672. Special assessment for water mains.] Whenever any special assessment shall be collected by or for the city of Chicago for the purpose of laying or extending any water main within said city, there shall be repaid out of the moneys in the city treasury to the credit of the water fund, to the person or persons to whom the special assessment receipt shall be given, or upon his or their order, upon production of the original receipt, the amount for which any such receipt was given (less the rebate previously paid, if any, and less the proportionate share of the cost of making and collecting such special assessment), when from the surplus of the net income from

the water rates not otherwise appropriated or pledged, there is in the city treasury sufficient money therefor, and when the city comptroller shall so certify; Provided, however, that no such money shall be repaid unless the permanent annual water rates derived by reason of the laying of said water main for which any such receipt was given, in part or in whole, shall at the time of said proposed re-payment, per annum equal at least ten cents per lineal foot of main so laid and for which such special assessment was paid.

ARTICLE XII.

1673. Bureau created.] There is hereby established a division of the department of public works of the city of Chicago to be known and designated as the bureau of street and alley cleaning, which shall embrace the superintendent of said bureau, and such other inspectors and employes as the council may by ordinance prescribe and establish.

1674. He shall have, subject to the supervision of the commissioner of public works, the management and control of all things pertaining to said bureau of street and alley cleaning, including the removal and disposition of dirt, filth, litter, garbage, ashes, manure, offal, swill, dead animals and other material from the streets and alleys of the city of Chicago. Said superintendent before entering upon the duties of his office shall execute a bond to the city of Chicago in the sum of twenty-five thousand dollars, with such sureties as the city council shall approve, conditioned for the faithful performance of the duties of his office.

1675. Duties.] Said superintendent shall have the power, and it shall be his duty, subject to the supervision of the commissioner of public works and subject to the ordinances of the city of Chicago, to remove or cause to be removed from the streets, alleys and public places in the city of Chicago, all dirt, filth, litter, garbage, ashes, manure, offal, swill, dead animals and other material, and to keep such streets, alleys and public places in a clean and wholesome condition. It shall be his duty, subject to the supervision of the commissioner of public works, to see that the ordinances of the city prohibiting or relating to the throwing or casting of dirt, filth, litter, garbage, ashes, manure, offal, swill, dead animals and other materials in any street, alley, or place in the city, are enforced, and that violations thereof are

prosecuted. It shall also be his duty and he shall have the power, subject to the supervision of the commissioner of public works, to remove or cause to be removed, garbage, ashes, offal, filth or litter, or other nauseous or unwholesome things or substances from lots, grounds, or places of deposit thereof, and cause all dead animals to be removed, and disposed of in the manner prescribed by the ordinances of the city, and the regulations of said department of public works.

1676. Subordinates—removal.] Said superintendent shall have the power to suspend any subordinate officer, clerk, or employe and, with the approval of the commissioner of public works and the mayor, to discharge him from his employment. All orders or directions emanating from said bureau shall be issued in the name of said superintendent.

1677. Contractors—supervision.] It shall be the duty of said superintendent, subject to the supervision of the commissioner of public works, to see that all contracts for work connected with said bureau are faithfully observed and carried out by the contractors.

1678. Powers—expenditure of money—wards.] Said superintendent, subject to the supervision of the commissioner of public works, shall have the charge and conduct of the cleaning and sweeping of all streets in the city of Chicago, and of the removal and disposition of all sweepings or refuse arising from the same. He shall also, under like supervision, have the charge and conduct of the cleaning of all alleys in the city of Chicago, and the removal and disposition of all garbage, ashes and other refuse arising from the same. He shall, under like supervision, determine the times and manner in which said work shall be done, and all other matters regarding the same. All moneys appropriated for the purposes of said bureau shall be expended under his direction, subject to the approval of the commissioner of public works: Provided, that the portion of the tax paid for that purpose by the respective wards toward the cleaning of the streets lying within such wards shall be expended only for that purpose; and, in no event shall the taxes received for that purpose from one ward be applied toward cleaning the streets lying within another ward.

1679. Powers as to contracting.] Whenever it is found absolutely necessary to do the work by contract, proposals for any such work in charge of said bureau shall be invited by advertisement, in the official newspaper of the city of Chicago, which said advertisement shall be published for ten consecutive days. The bids for doing such work shall be sealed bids, directed to the department of public works, and shall be accompanied with five hundred dollars in money or a certified check, payable to the city of Chicago for that amount, upon some bank in good standing, doing business in the city, to be forfeited to the city in the event that he or they shall neglect or refuse to enter into a contract to perform the work for the price mentioned in his or their bid. Said bids shall be opened at the hour and place mentioned in said notice; and, should said bid or bids be rejected, or should it

become necessary for any other reason to re-advertise for proposals to do said work, such advertisement shall be published for three instead of ten days as required in the first instance. In said advertisement, the right to reject any and all bids shall be reserved. Said bids shall be opened and passed upon and awarded or rejected by the commissioner of public works and said superintendent, and in case they do not agree, then the mayor shall decide any such matter of disagreement. All contracts for such work, when the expenses thereof exceed the sum of five hundred dollars, shall be let to the lowest responsible bidder and shall be approved by the mayor and the city comptroller.

1680. Contractor's bond.] The person or persons, firm or corporation to whom any such contract shall be awarded, shall execute and deliver a bond, with good and sufficient sureties, in such amount as shall not only be adequate to insure the performance of the work in the time and manner required in such contract but, also, to save, indemnify and keep harmless the city of Chicago against all liabilities, judgments, costs and expenses, which may in any wise come against said city in consequence of the granting of such contract, or which may in any wise result from the carelessness or neglect of such person, persons, firm or corporation, or his, their or its agents, employes or workmen, in any respect whatever; and conditioned, also, that when any judgment is recovered against said city by reason of the carelessness or negligence of such person, persons, firm or corporation so contracting or his, their, or its employes or workmen, and when due notice has been given of the pendency of such suit, such judgment shall be conclusive against such person, persons, firm or corporation, and his, their, or its sureties on such bond, not only as to the amount of damages, but as to their liability; and conditioned also for the payment of all claims and demands whatsoever which may accrue to each and every person who shall be employed by said contractor or any assignee or sub-contractor of such contract, in or about the performance of said contract.

1681. Forfeiture of contract.] In all contracts executed on behalf of the city, the right shall be reserved to the commissioner of public works and said superintendent to finally decide all questions arising as to the proper performance of said work and, in case of improper performance, to suspend said work at any time, forfeit the contract and to re-let the same to some more capable and faithful contractor or contractors. They shall have the right to adjust the difference of damages or price, if any, which the contractor or contractors, failing to properly perform such work, should pay to the city according to the just and reasonable interpretation of said contract. All such contracts shall contain a covenant that such difference may be recovered at law in the name of the city, before any court of competent jurisdiction, from such contractor or contractors.

1682. Estimates—reserve.] In cases where the contractor or contractors shall proceed to properly perform and complete their

said contracts, the said superintendent may, from time to time as the work progresses, grant the said contractor or contractors an estimate of the amount already earned, reserving fifteen per centum therefrom, which, when approved by the commissioner of public works, shall entitle the holder or holders to receive the amount that may be due thereon when the money applicable to the payment of such work shall have been collected and the conditions imposed by said estimate, if any, shall have been satisfied.

1683. Lack of bidders—contractor's default.] In case the prosecution of any such work shall be suspended in consequence of the default of any contractor or contractors, or in case the bids for doing such work should be deemed excessive, or such person or persons making such proposals are not responsible or proper persons to be entrusted with its performance, the said superintendent may, subject to the supervision of the commissioner of public works, where the urgency of the case and the interests of the city require, employ workmen to perform or complete such work: Provided, that the cost and expense thereof shall in no case exceed the amount appropriated for such purpose.

1684. Annual report.] Said superintendent shall annually furnish to the commissioner of public works a full and comprehensive statement of all matters pertaining to said bureau, during the year, and of all expenditures from appropriations for the bureau, together with an estimate in detail of the appropriation required by the bureau during the next municipal year.

Each certificate so issued by them shall expire one year from the date of issue.

1924. Rules and regulations—daily sessions.] Said board of examiners shall be provided with suitable quarters by the commissioner of public works. Said board shall make and enforce such rules and regulations for its government and that of its employes as may be deemed proper and desirable, not inconsistent with the provisions of this chapter. Said board, or a majority thereof, shall hold daily sessions, of such duration as may be deemed requisite, between the hours of nine o'clock a. m. and ten o'clock p. m., for the purpose of examining and determining the qualifications of applicants for licenses for engineers and for persons having charge of steam boilers as provided herein.

1925. Examination—license—license fee.] The board of examiners, or a majority thereof, shall have power to examine into the qualifications of applicants, grant licenses, and, for cause, suspend or revoke the same. Every application for a license shall be made on the printed blanks furnished by the board of examiners, and shall set forth the name, age and citizenship of the applicant, and the extent of his experience. An application for an engineer's license shall be accompanied by a fee of two dollars and that for a boiler or water tender's license shall be accompanied by a fee of one dollar.

1926. Applicant's qualifications.] An applicant for an engineer's license must be a machinist or engineer, having at least two years' practice in the management, operation or construction of steam engines and boilers. An applicant for a boiler tender's license must be a person who has a thorough knowledge of the construction, management and operation of steam boilers. Each engineer and boiler or water tender, so to be licensed, must be at least twenty-one years of age, a citizen of the United States, or have declared his intention to become such, must be of temperate habits and good character, all of which shall be vouched for in writing by at least two citizens of

Chicago, or shall be verified under oath by the applicant when required by the board of examiners.

1927. License—suspension—revocation.] The board shall have power to suspend the license of an engineer or of a boiler or water tender for permitting water to get too low in the boiler; for carrying a higher pressure of steam than allowed by law; for an absence from his post of duty; or for any violation of the provision of this chapter, or other neglect or incapacity; Provided, however, that no license shall be suspended or revoked without first giving the accused person an opportunity to be heard in his own defense. When the license of an engineer or boiler or water tender shall be revoked for the first offense, no license shall be issued to him for thirty days thereafter; for the second offense for ninety days; for any offense thereafter his license shall be permanently revoked. In case of the suspension or revocation of a license, the fee thereof shall be forfeited to the city.

1928. License, attestation of.] Every certificate of license issued to an engineer or boiler or water tender shall be signed by the majority of the board of examiners, sealed with an imprint of the board's seal and attested by the clerk.

1929. Records.] The board of examiners shall cause to be kept in suitable books a full and correct detailed record of its official proceedings, including the names of the members of the board, the names, ages and residences of all applicants for licenses, the number issued and rejected, the number of licenses suspended, renewed or revoked, the cause therefor, the names of the persons forfeiting licenses; also the full amount of money received, and that returned on rejected applications. The financial record must be balanced daily, and the result thereof, in writing, shall be filed daily with the city comptroller.

1930. Bribery—fraud.] If any member of the board of examiners, or any person or employe connected therewith, shall at any time, or under any pretense whatever, himself or through any other person or persons receive, or cause to be received, any money, gift or other valuable thing or consideration, except as herein provided, for the purpose of officially favoring any applicant, or for the purpose of deceiving or defrauding any person or persons, or shall issue a license authorizing any person or persons to act as engineer or boiler or water tender without first having examined and found him or them qualified for such service, in accordance with the provisions and conditions of this chapter, then, in such case, the member or members of the board or other person so offending shall be removed from office by the mayor, and ever after be debarred from holding any position, official or otherwise, in the service of the city of Chicago, and any applicant who shall himself, or through any other person, offer, or cause to be offered, any money or other valuable consideration to said board, or any member thereof, or any person connected therewith, for any official act or favor, shall ever after be debarred from receiving any license under this chapter.

1931. Unlicensed engineer.] No steam engine or boiler subject to the provisions of this chapter shall be used, managed or operated in the city of Chicago, except by an engineer or boiler or water tender as provided herein, and who shall have been duly licensed as provided herein and who shall have and exhibit a certificate thereof. Any person who shall take charge of or manage or operate any steam engine or boiler, or any portion of a steam plant in the city of Chicago without a proper and valid license, as provided by this ordinance, shall, for each and every offense, be subject to a fine of not less than twenty dollars nor more than fifty dollars, and any person, agent, firm, company or corporation owning or controlling any steam engine, boiler or other steam plant, who shall authorize or permit any person or persons without a proper and valid license, as required herein, to take charge of, manage or operate any steam engine or boiler or any portion of a steam plant, shall, for each and every offense, be subject to a fine of not less than fifty dollars nor more than two hundred dollars, and each day's violation of any of the provisions of this chapter shall constitute a separate offense.

1932. Duty of board to enforce.] It shall be the duty of the board of examiners to see that each boiler plant in the city of Chicago shall have a licensed engineer, or boiler or water tender, or both, as provided herein, in charge at all times when working under pressure, whose certificate of qualification shall be displayed in a conspicuous place in the engine or boiler room, and each engineer and boiler tender shall devote his entire time, while boilers are working under pressure, to the duties of the plant under his charge. Any person who has charge of a steam boiler, whose duty it is to keep up the water in such boiler, shall be deemed a boiler or water tender, within the meaning of this chapter, but the provisions hereof for the examination, licensing and regulation of boiler or water tenders shall apply only to boiler or water tenders who are in charge of a steam boiler or boilers which are detached from the engine room, or so far removed therefrom or otherwise circumstanced or located as to render it difficult for the engineer in charge of the plant to give it or them his personal attention and supervision.

1933. Engineer's reports.] Every engineer licensed under this chapter shall, within the first ten days of January and July respectively, of each year, make a written report to the board of examiners of the condition of the engines, boilers and steam apparatus comprising the plant under his charge, and every boiler or water tender shall at the same time make to said board of examiners a similar report of the condition of the boiler or boilers and steam apparatus under his charge. All additions or changes made in any plant shall be reported by the engineer and the boiler or water tender to the board of examiners within ten days thereafter.

1934. Exempt persons—police reports.] Engineers in charge of locomotives shall be exempt from the provisions of this chapter, and all boilers used for heating private dwellings, hot houses, conservatories and other boilers carrying not more than ten pounds pressure of steam per square inch and the persons operating them shall be exempt from the provisions of this chapter. The police are instructed to report all infractions of this chapter coming to their notice.

1935. Salaries.] Said board hereby created shall not in its salaries and expenditures exceed the amount received from license fees; shall quarterly and yearly make a written report under oath to the city comptroller of all receipts and expenditures, and pay over to the city of Chicago all balances in their hands. The salary of the secretary of the board shall be seventeen hundred dollars per year, and he shall devote his whole time to seeing to the enforcement of the provisions of this chapter, and each of the other members shall receive a salary of fifteen hundred dollars per year. In case the receipts from the license fees shall be insufficient to pay the above salaries and the legitimate expenses of said board, their salaries, above mentioned, shall be diminished pro rata to the amount of the deficiency.

CHAPTER LXV.

STEAM BOILERS.

1936. Office of inspector created—term.] There is hereby created the office of inspector of steam boilers, who shall hold his office for the term of two years, and until his successor shall be appointed and qualified.

1937. Appointment.] He shall be appointed by the mayor, by and with the advice and consent of the city council, on the first Monday in May, 1897, or as soon thereafter as may be, and biennially thereafter.

1938. Qualifications.] The person so appointed shall be a person well qualified from practical experience in the use and construction of boilers, generators and super-heaters, and their appurtenances, used for generating steam for power, steaming or heating purposes, to enable him to judge of their safety for use as such, and who is neither directly nor indirectly interested in the manufacturing, ownership or agency of steam boilers which are to be inspected.

1939. Bond.] Said inspector, before entering upon the duties of his office, shall execute a bond to the city of Chicago, in the sum of five thousand dollars, with two or more sureties, to be approved by the mayor, conditioned for the faithful performance of the duties of his office.

1940. Duties.] It shall be the duty of the inspector, upon proper application, to inspect all boilers used for the generation of steam power or for heating or steaming purposes, except in private residences, and all tanks subjected to steam pressure, used in any business, by making a careful examination of, and subjecting the same to a hydrostatic pressure which shall exceed the maximum working pressure in the ratio of one hundred and fifty to one hundred pounds; and in no case shall the working pressure be more than one hundred pounds per square inch for a new boiler, forty-eight inches in diameter, made of No. 1 iron plates of one-fourth of one inch in thickness, and the steam pressure of all boilers, whether thicker or thinner, larger or smaller than before mentioned in this section, shall be governed by the same standard of strength; Provided, however, that whenever the plates of which any boiler is made show thereon the manufacturers' stamp indicating its tensile strength, such boiler may be tested and rated in accordance with the United States steamboat inspection law governing the inspection of steam boilers.

1941. Duty of owners.] It shall be unlawful for any person

to use any steam boiler or any tank or tanks subject to steam pressure in this city, until he shall have first procured a certificate from the inspector that it may be safely used; and, it shall be the duty of every person using any steam boiler or any tank or tanks subject to steam pressure, in this city, to have the same inspected by the inspector of boilers as often as once in each and every year thereafter; and, to that end, every owner or person using a steam boiler or tank aforesaid shall make or cause to be made, annually after such first inspection, an application in writing to the inspector requesting him to inspect the same.

1942. Certificate—record.] When an inspection of a boiler or boilers, tank or tanks, generator or generators, super-heater or super-heaters, has been made, and the same shall be approved by the inspector, he shall make and deliver to the person for whom the inspection was made, upon the payment to him of the fees hereinafter mentioned, a certificate of such inspection, which shall contain the date of inspection, together with a general description, for what purpose used, the number of try cocks, steam and water gauges, pumps, the pounds pressure to which said boilers have been tested, and the maximum pressure at which they may be safely used; which certificates shall be framed and put up in the office, or some other conspicuous place on the premises, for examination, and a record of the same shall be made by the said inspector, in a well-bound book, alphabetically indexed.

1943. Inspection of repairs.] It shall be the duty of said inspector, on the written application of the owner or agent of any boiler, generator or super-heater, stating that the same is out of repair, or has been repaired, to examine the same when so repaired, and determine if the same has been properly done, and it shall be unlawful for any person to use any boiler, after the same has been repaired, until he shall have first procured a certificate from the inspector that it has been properly done and may be safely used.

1944. Fees.] Said inspector may charge a fee of three dollars for inspecting each boiler, which shall be paid by the party requiring such service before the delivery of such certificate; Provided, that in any establishment where more than one boiler is used said inspector shall only be entitled to said fee of three dollars upon one boiler, and to a fee of two dollars upon each and every additional boiler.

1945. Charging excess of fee.] If the inspector shall take or receive any money or other valuable thing from any person, other than the fees allowed by this chapter, for the purpose of deceiving or defrauding any person or persons, or for the purpose of favoring any person or persons, or if said inspector shall issue any certificate of inspection without having at the time stated thoroughly examined and tested the boiler so certified for, he shall be fined in the penal sum of one hundred dollars, and shall be removed from his office by the mayor, and shall ever after be incompetent to hold the same.

1946. Try cocks—gauges—force pumps.] It shall be the

duty of every owner or other person using steam boilers in the city of Chicago to provide and properly affix to each and every one of such boilers a full complement of try cocks, one water gauge, one steam gauge, one or more safety valves of suitable dimensions (one of which safety valves shall be a spring or pop valve), and plugs of good Banca tin to be inserted in a suitable manner in the flues, crown sheet or other parts of the boiler most exposed to the heat of the furnace when the water falls below its prescribed limits, all to be subject to the approval of the inspector, and to provide and properly attach to each boiler a good and sufficient force pump or other means of supplying the boiler with water, which shall also be subject to the approval of the inspector.

1947. Owners to provide facilities.] All owners or other persons using steam boilers and tanks, and other machinery subject to inspection as aforesaid, shall provide, at their own expense, such arrangements and facilities for attaching the instruments for inspection as the inspector shall direct.

1948. Engineer's negligence.] If any engineer shall negligently or wrongfully endanger the life of any person by permitting the water to fall below three inches above the flues or crown sheet of any boiler, or otherwise neglect his duties, he shall be subject to a fine of not less than twenty-five dollars, nor more than two hundred dollars.

1949. Safety valve.] The safety valves of steam boilers shall be loaded to sustain only the maximum pressure allowed by said inspector.

1950. Penalty.] Any person who shall violate any of the provisions of this chapter, where no other penalty is provided, shall be subject to a penalty of not less than twenty dollars, nor exceeding one hundred dollars, for each and every offense.

1951. Monthly report.] The inspector of steam boilers of the city of Chicago shall make to the comptroller, on or before the tenth day of each month, a report in writing, verified by affidavit, showing in detail the fees and charges collected by him in the preceding month, and, at the same time, shall pay into the city treasury one-half of such fees and charges so collected by him for the use of the city of Chicago, and one-half of all such fees and charges so collected by him shall be retained by him as and for his salary. A failure to make such report and to pay over such fees and charges, within the time above limited, shall be considered as a resignation of such office, and the mayor may thereupon declare the office vacant and appoint a successor.

1952. Apparatus.] The city of Chicago shall provide such instruments, books, papers and things as shall be necessary for the proper performance of the duties of such inspector, which shall be the property of said city, and which shall be delivered by said inspector to his successor in office, or to the commissioner of public works, whenever he shall cease, for any cause, to discharge the duties of said office; said inspector shall also, without expense or charge, in-

spect all boilers owned or used by the city, or any of its departments, whenever called upon by the proper officer. He shall also report to the city council every three months, or as often as once a month if required by said council, all inspection of boilers by him made.

CHAPTER LXVI.

1956. Signals to bridge tenders—size of whistles.] All boats in passing or repassing up and down upon the Chicago river, or any of its branches, may use a steam whistle to signal bridge tenders to open and swing bridges and such signal shall be given by three sharp, short sounds of the whistle, to be given in succession as quickly as possible, and not to be prolonged, and the whistle used for this purpose shall be of copper, the tube not less than thirteen inches long, three inches in diameter, and the steam pipe not more than one inch in diameter.

1957. Bells may be substituted.] The department of public works may at any time direct that bells shall be substituted in place of steam whistles to be used for giving notice to bridge tenders to open bridges.

1958. Article construed.] Nothing in this article contained shall be construed as forbidding the use of steam whistles as alarm signals in case of fire or collision, or other imminent danger, nor for the necessary signals by the steam engines of the fire department of the city.

1959. Penalty.] Any violation of or failure to comply with any provision of this chapter shall be punished by a fine of not less than five dollars nor more than one hundred dollars.

CHAPTER LXVII.

CHAPTER LXXVI

TRACK ELEVATION.

Passed February 23, 1893.

AN ORDINANCE for the restoration of highways and streets in the city of Chicago whose surface is occupied by railroad tracks, by the removal of such tracks, and for the removal of railroad tracks from the surface of highways and streets in said city.

Preamble.] Whereas, there are terminals of twenty-one trunk lines of railroads within the city of Chicago, the main railroad tracks of which radiate from their respective terminal stations, which are situated in or near the main business center of the city, to the boundaries of the city; and the tracks of said railroads crossing the public highways and streets of the city, to the number of upwards of three thousand, cross such highways and streets at grade; and, whereas, it is estimated that in the aggregate more than three million persons per day, upon the average, cross one or the other of such railroad tracks upon said highways and streets in vehicles and on foot; that over three hundred persons were killed by railroad cars at such crossings in the city of Chicago during the year 1892, and many more than that number were maimed or injured by the same means; that a very large amount of property is annually destroyed at such crossings by the same causes; and, that the amount of expense and loss caused by the delays to vehicles and pedestrians traveling upon such highways and streets at such crossings, by the use of such crossings at grade by railroad engines and cars, amounts to several millions of dollars per year. That the expense and loss to railroad companies by the delays made necessary in operating their railroads at grade in said city, and by their liability for damages for injuries to persons and property, amounts during each year to an enormous sum of money—it being estimated that more than six million freight cars with a tonnage amounting to more than sixty million tons, and more than one million two hundred and fifty thousand passenger cars carrying more than twenty-seven million passengers are during each year moved along said railroad tracks in said city, and, whereas, because of the great growth of said city in population the public necessities require the opening each year of a large number of new streets across said railroads and, also, require and call for more constant use of the railroad tracks of said railroad companies and better and more uninterrupted use thereof;

and the great public evils of such grade crossings and the inevitable dangers of injury to persons and property upon such highways and streets at such crossings are increasing; and, whereas, the continued existence and operation of railroads across or upon highways and streets in said city, at grade, has become and is wholly inconsistent with the safety of the public traveling upon such highways and streets and, necessarily, fraught with great danger to persons and property upon such highways and streets; and it is necessary in order to make such highways and streets at such crossings reasonably safe for persons and property making proper use thereof, and to restore highways and streets occupied by railroad tracks so that they may be safe and convenient for public travel, that the surface of such highways and streets should not be occupied by railroad tracks used for the passage of locomotive engines and railroad cars propelled by steam, and that such railroad tracks should be removed from the surface of such highways and streets with all reasonable speed and dispatch; and, whereas, in view of the great and increasing number of such street crossings, it being estimated that there are now more than fifteen hundred railroad crossings of highways and streets in said city, and in view of the uniform level topography of the city it is impracticable to make such railroad crossings of highways and streets safe by the construction and maintenance of viaducts over said railroads; now, therefore,

2089. Definitions — districts.] Be it ordained by the city council of the city of Chicago: § 1. 1. That the transverse diameter of each of said posts or columns (exclusive of fenders) shall not exceed 24 inches at any point within ten feet of the surface of the highway or street in which the same shall be placed and suitable fenders shall be placed around the base of each of said iron or steel posts or columns to prevent collision between such posts or columns and vehicles moving along such highway or street.

2095. Surface tracks from district to district for a time limited.]
§ 7. tinuance of the use thereof, or prohibiting the use of steam as a motive power upon any or all of said tracks upon the surface of said highways or streets, but all its power and authority shall survive and continue, notwithstanding the provisions of this ordinance, and the exercise of the same shall at all times be free and unrestricted, whether before or after the time or times hereinbefore fixed for the commencement of or completion of said elevated railroads.

And the third section of this article shall be applicable to such election: Provided, that the returns of such election shall be made to and canvassed by the county judge and any two justices of the peace whom he shall call to his assistance, instead of the city council; and the result of such election shall be entered upon the records of such county court. All ordinances, resolutions and by-laws in force in any city or town when it shall organize under this act shall continue in full force and effect until repealed or amended, notwithstanding such change of organization; and the making of such change of organization shall not be construed to effect a change in the legal identity, as a corporation, of such city or town.

2170. Rights, etc., of old corporations to vest in new.] § 12. All rights and property of every kind and description, which were vested in any municipal corporation under its former organization, shall be deemed and held to be vested in the same municipal incorporation upon its becoming incorporated under the provisions of this act; but no rights or liabilities, either in favor of or against such corporation, existing at the time of so becoming incorporated under this act, and no suit or prosecution of any kind, shall be affected by such change, but the same shall stand and progress as if no change had been made: Provided, that when a different remedy is given by this act, which may properly be made applicable to any right existing at the time of such

city so becoming incorporated under this act, the same shall be deemed cumulative to the remedies before provided, and used accordingly.

2214. Wards.] § 4. The city council of any city in this state, whether organized under this act or under any special law of this state, may, from time to time, divide the city into one half as many wards as the total number of aldermen to which the city is entitled; and one alderman shall, annually, be elected in and for each ward, to hold his office for two years, and until his successor is elected and qualified. In the formation of wards the population of each shall be as nearly equal, and the ward shall be of as compact and contiguous territory as practicable. [As amended by act approved June 17, 1887. Vacancies shall be filled at an election to be held by the voters of the district in which such vacancies shall occur, at the time to be designated by the city council. In all elections for aldermen aforesaid, each qualified voter may cast as many votes as there are aldermen to be elected in his district, or may distribute the same or equal parts thereof, among the candidates as he shall see fit, and the candidate highest in votes shall be declared elected. [As amended by act approved and in force April 1, 1883.]

2219. Place of election—notice.] § 9. 2220. Manner of conducting elections, etc.] § 10. The manner of conducting and voting at elections to be held under this act and contesting the same, the keeping of poll lists and canvassing the votes, shall be the same, as nearly as may be, as in the case of the election of county officers, under the general laws of this state. The judges of election shall appoint clerks, when necessary to fill vacancies, and the judges and clerks shall take the same oath and have the same powers and authority as the judges and clerks of general state elections. After the closing of the polls, the ballots shall be counted and the returns made out and returned, under seal, to the city or village clerk, as the case may be, within two days after the election; and, thereupon, the

It shall be the duty of the village or city clerk, within five days after the result of the election is declared or appointment made, to notify all persons elected or appointed to office of their election or appointment, and unless such persons shall respectively qualify in ten days after such notice, the office shall become vacant.

2224. Special elections.] § 14. If there is a failure to elect any officer herein required to be elected, or the person elected should fail to qualify, the city council or board of trustees may forthwith order a new election therefor; and in all cases, when necessary for the purposes of this act, may call special elections, appoint judges and clerks thereof, canvass the returns thereof, and provide by ordinance for the mode of conducting the same; and shall give notice of such special elections in which shall be stated the questions to be voted upon, and cause such notices to be published or posted for the same length of time and in the same manner as is required in the case of regular annual elections in such cities or villages.

2252. Annual appropriation ordinance.] § 2. The city council of cities, and board of trustees in villages, shall, within the first quarter of each fiscal year, pass an ordinance to be termed the annual appropriation bill, in which such corporate authorities may appropriate such sum or sums of money as may be deemed necessary to defray all necessary expenses and liabilities of such corporation; and in such ordinance shall specify the objects and purposes for which such appropriations are made, and the amount appropriated for each object or purpose. No further appropriations shall be made at any other time within such fiscal year, unless the proposition to make each appropriation has been first sanctioned by a majority of the legal voters of such city or village, either by a petition signed by them, or at a general or special election duly called therefor.

2253. Limitation—emergency—borrowing money.] § 3. Neither the city council nor the board of trustees, nor any department or officer of the corporation, shall add to the corporation expenditures in any one year anything over and above the amount provided for in the annual appropriation bill of that year, except as is herein otherwise specially provided; and no expenditure for an improvement to be paid for out of the general fund of the corporation shall exceed, in any one year, the amount provided for such improvement in the annual appropriation bill: Provided, however, that nothing herein contained shall prevent the city council or board of trustees from ordering, by a two-thirds vote, any improvement, the necessity of which is caused by any casualty or accident happening after such annual appropriation is made. The city council or board of trustees may, by a like vote, order the mayor or president of the board of trustees and finance committee to borrow a sufficient amount to provide for the expense necessary to be incurred in making any improvements, the necessity of which has arisen as is last above mentioned, for a space of time not exceeding the close

of the next fiscal year—which sum, and the interest, shall be added to the amount authorized to be raised in the next general tax levy, and embraced therein. Should any judgment be obtained against the corporation, the mayor, or president of the board of trustees and finance committee, under the sanction of the city council or board of trustees, may borrow a sufficient amount to pay the same, for a space of time not exceeding the close of the next fiscal year—which sum and interest shall, in like manner, be added to the amount authorized to be raised in the general tax levy of the next year, and embraced therein.

2254. Contracting liabilities limited.] § 4. No contract shall be hereafter made by the city council or board of trustees, or any committee or member thereof; and no expense shall be incurred by any of the officers or departments of the corporation, whether the object of the expenditure shall have been ordered by the city council or board of trustees or not, unless an appropriation shall have been previously made concerning such expense, except as herein otherwise expressly provided.

2255. Duties of treasurer.] § 5. The treasurer shall receive all moneys belonging to the corporation, and shall keep his books and accounts in such manner as may be prescribed by ordinance, and such books and accounts shall always be subject to the inspection of any member of the city council or board of trustees.

2256. Separate accounts.] § 6. He shall keep a separate account of each fund or appropriation, and the debts and credits belonging thereto.

2257. Receipts.] § 7. He shall give every person paying money into the treasury a receipt therefor, specifying the date of payment, and upon what account paid; and he shall also file copies of such receipts with the clerk, at the date of his monthly reports.

2258. Monthly statements—warrants—vouchers—register.] § 8. The treasurer shall, at the end of each and every month, and oftener if required, render an account to the city council or board of trustees, or such officer as may be designated by ordinance (under oath), showing the state of the treasury at the date of such account, and the balance of money in the treasury. He shall also accompany such account with a statement of all moneys received into the treasury, and on what account, together with all warrants redeemed and paid by him; which said warrants, with any and all vouchers held by him, shall be delivered to the clerk, and filed with his said account in the clerk's office, upon every day of such settlement. He shall return all warrants paid by him stamped or marked "paid." He shall keep a register of all warrants redeemed and paid, which shall describe such warrants, and show the date, amount, number, the fund from which paid, the name of the person to whom and when paid.

2259. Deposit of funds—separate from his.] § 9. The treasurer may be required to keep all moneys in his hands, belonging to the

corporation, in such place or places of deposit as may be designated by ordinance: Provided, however, no such ordinance shall be passed by which the custody of such money shall be taken from the treasurer and deposited elsewhere than in some regularly organized bank, nor without a bond to be taken from such bank, in such penal sum and with such security as the city council or board of trustees shall direct and approve, sufficient to save the corporation from any loss; but such penal sum shall not be less than the estimated receipts for the current year from taxes and special assessments levied, or to be levied, by the corporation. The treasurer shall keep all moneys belonging to the corporation in his hands separate and distinct from his own moneys, and he is hereby expressly prohibited from using, either directly or indirectly, the corporation money or warrants in his custody and keeping, for his own use and benefit, or that of any other person or persons whomsoever; and any violation of this provision shall subject him to immediate removal from office by the city council or board of trustees, who are hereby authorized to declare said office vacant; and in which case his successor shall be appointed, who shall hold his office for the remainder of the term unexpired of such officer so removed.

2260. Treasurer's annual report—publication.] § 10. The treasurer shall report to the city council or board of trustees, as often as required, a full and detailed account of all receipts and expenditures of the corporation, as shown by his books, up to the time of said report; and he shall, annually, between the first and tenth of April, make out and file with the clerk a full and detailed account of all such receipts and expenditures, and of all his transactions, as such treasurer, during the preceding fiscal year, and shall show in such account the state of the treasury at the close of the fiscal year; which account the clerk shall immediately cause to be published in a newspaper printed in such city, if there be one, and if not, then by posting the same in a public place in the clerk's office.

2261. Warrants.] § 11. All warrants drawn upon the treasurer must be signed by the mayor and countersigned by the clerk, stating the particular fund or appropriation to which the same is chargeable, and the person to whom payable; and no money shall be otherwise paid than upon such warrants so drawn, except as hereinafter provided.

2262. Special assessment funds kept separate.] § 12. All moneys received on any special assessment shall be held by the treasurer as a special fund, to be applied to the payment of the improvement for which the assessment was made, and said money shall be used for no other purpose whatever, unless to reimburse such corporation for money expended for such improvement.

CITY COLLECTOR.

2263. His duties.] § 13. It shall be the duty of the collector, when

one is appointed, to preserve all warrants which are returned into his hands, and he shall keep such books and his accounts in such manner as the city council may prescribe. Such warrants, books, and all papers pertaining to his office, shall at all times be open to the inspection of and subject to the examination of the mayor, city clerk, any member of the council, or committee thereof. He shall weekly, and oftener if required by the council, pay over to the treasurer all moneys collected by him from any source whatever, taking such treasurer's receipt therefor, which receipt he shall immediately file with the city clerk; but the city clerk shall, at the time, or on demand, give such tax collector a copy of any such receipt so filed.

2264. He shall report, etc.—publication.] § 14. He shall make a report, in writing, to the council, or any officer designated by the council, of all moneys collected by him, the account whereon collected, or of any other matter in connection with his office, when required by the council or by any ordinance of the city. He shall also, annually, between the first and tenth of April, file with the clerk a statement of all the moneys collected by him during the year, the particular warrant, special assessment or account on which collected, the balance of moneys uncollected on all warrants in his hands, and the balance remaining uncollected at the time of the return on all warrants which he shall have returned, during the preceding fiscal year, to the city clerk. The city clerk shall publish or post the same, as hereinbefore required to be done in regard to the annual report of the treasurer.

2265. Not to detain money—penalty.] § 15. The collector is hereby expressly prohibited from keeping the moneys of the city in his hands, or in the hands of any person or corporation, to his use, beyond the time which may be prescribed for the payment of the same to the treasurer, and any violation of this provision will subject him to immediate removal from office.

2266. Examination of his books—paying over.] § 16. All the city collector's papers, books, warrants and vouchers may be examined at any time by the mayor or clerk, or any member of the city council; and the collector shall every two weeks, or oftener if the city council so direct, pay over all money collected by him from any person or persons, or associations, to the treasurer, taking his receipt therefor in duplicate, one of which receipts he shall at once file in the office of the clerk.

CITY COMPTROLLER.

2267. His powers and duties.] § 17. The city comptroller (if there shall be any city comptroller appointed, if not, then the clerk) shall exercise a general supervision over all the officers of the corporation charged in any manner with the receipt, collection or disbursement of corporation revenues, and the collection and return of all such revenues into the treasury. He shall have the charge,

custody and control of all deeds, leases, warrants, vouchers, books and papers of any kind, the custody and control of which is not herein given to any other officers; and he shall, on or before the fifteenth day of May, in each year, and before the annual appropriations to be made by the city council or the board of trustees, submit to the city council or board of trustees a report of his estimates, as nearly as may be, of moneys necessary to defray the expenses of the corporation during the current fiscal year. He shall, in said report, class the different objects and branches of expenditures, giving, as nearly as may be, the amount required for each; and for the purpose of making such report, he is authorized to require of all officers their statement of the condition and expenses of their respective offices or departments, with any proposed improvements and the probable expense thereof, all contracts made and unfinished, and the amount of any and all unexpended appropriations of the preceding year. He shall, in such report, show the aggregate income of the preceding fiscal year, from all sources, the amount of liabilities outstanding upon which interest is to be paid, the bonds and debts payable during the year, when due and when payable; and in such report he shall give such other information to the council or board of trustees as he may deem necessary, to the end that the city council or board of trustees may fully understand the money exigencies and demands upon the corporation for the current year.

2268. Council may define the duties—transfer of clerk's financial duties.] § 18. When there shall be appointed in any city a comptroller, the city council may, by ordinance or resolution, confer upon him such powers, and provide for the performance of such duties by him, as the city council shall deem necessary and proper; and all the provisions of this act relating to the duties of city clerk, or the powers of city clerk in connection with the finances, the treasurer and collector or the receipt and disbursements of the moneys of such city, shall be exercised and performed by such comptroller, if one there shall be appointed; and to that end and purpose, wherever in this act heretofore the word "clerk" is used, it shall be held to mean "comptroller;" and wherever the "clerk's office" is referred to, it shall be held to mean "comptroller's office."

2269. Record of bonds issued by city.] § 19. The comptroller when there shall be a comptroller, and if not, then the clerk, shall keep in his office, in a book or books kept expressly for that purpose, a correct list of all the outstanding bonds of the city, showing the number and amount of each, for and to whom the said bonds are issued; and when any city bonds are purchased, or paid, or canceled, said book or books shall show the fact; and in his annual report he shall describe, particularly, the bonds sold during the year, and the terms of sale, with each and every item of expense thereof.

GENERAL PROVISIONS.

2270. Further duties may be required.] § 20. The collector and treasurer, and all other officers connected with the receipt and expenditure of money, shall perform such other duties, and be subject to such other rules and regulations as the city council or board of trustees may, from time to time, by ordinance, provide and establish.

2271. Appeal to finance committee.] § 21. In the adjustment of the accounts of the collector or treasurer with the clerk (or comptroller if there shall be one), there shall be an appeal to the finance committee of the council or board of trustees, whose decision in all matters of controversy arising between said officers shall be binding, unless the city council or board of trustees shall otherwise direct and provide.

2272. Who may appoint subordinates.] § 22. The comptroller (if there shall be one), the clerk, treasurer and collector, shall, severally, appoint such various clerks and subordinates in their respective offices as the city council or board of trustees may authorize, and shall be held, severally, responsible for the fidelity of all persons so appointed by them.

2273. Foreign insurance companies—license, etc.—penalties.] § 23. All corporations, companies or associations not incorporated under the laws of this state, engaged in any city in effecting fire insurance, shall pay to the treasurer the sum of \$2 upon the \$100 of the net receipts by their agency in such city, and at that rate upon the amount of all premiums which, during the half year ending on every first day of July and January, shall have been received for any insurance effected or agreed to be effected in the city or village, by or with such corporations, companies or associations, respectively. Every person who shall act in any city or village as agent, or otherwise, for or on behalf of any such corporation, company or association, shall, on or before the fifteenth day of July and January, in each year, render to the comptroller (if any there be, if not, to the clerk,) a full, true and just account, verified by his oath, of all premiums which, during the half year ending on every first day of July and January preceding such report, shall have been received by him, or any other person for him, in behalf of any such corporation, company or association, and shall specify in said account the amounts received for fire insurance. Such agents shall also pay over to the treasurer, at the time of rendering the aforesaid account, the amount of rates for which the company or companies represented by them are severally chargeable by virtue hereof. If such account be not rendered on or before the day hereinbefore designated for that purpose, or if the said rates shall remain unpaid after that day, it shall be unlawful for any corporation, company or association so in default to transact any business of insurance in any such city or village, until the said requisitions shall have been fully complied with; but this provision shall not relieve any company from the payment of any risk that may be taken in violation hereof. Any person or persons violating any of the provisions of this section shall be subject to indictment,

and upon conviction thereof, in any court of competent jurisdiction, shall be fined in any sum not exceeding \$1,000, or imprisoned not exceeding six months, or both, in the discretion of the court. Said rates may also be recovered of such corporation, company or association, or its agent, by action in the name and for the use of any such city or village, as for money had and received for its use: Provided, that this section shall only apply to such cities and villages as have an organized fire department, or maintain some organization for the prevention of fires.

ARTICLE VIII.

OF THE ASSESSMENT AND COLLECTION OF TAXES.

2274. Ordinance levying tax—limitation.] § 1. The city council in cities and boards of trustees in villages may levy and collect taxes for corporate purposes in the manner following: The city council or boards of trustees, as the case may be, shall annually, on or before the third (3d) Tuesday in September in each year, ascertain the total amount of appropriations for all corporate purposes legally made and to be collected from the tax levy of that fiscal year; and, by an ordinance, specifying in detail the purposes for which such appropriations are made, and the sum or amount appropriated for each purpose respectively, levy the amount so ascertained upon all the property subject to taxation within the city or village, as the same is assessed and equalized for state and county purposes for the current year. A certified copy of such ordinance shall be filed with the county clerk of the proper county, whose duty it shall be to ascertain the rate per cent which, upon the total valuation of all property subject to taxation within the city or village, as the same is assessed and equalized for State and county purposes, will produce a net amount not less than the amount so directed to be levied, and it shall be the duty of the county clerk to extend such tax in a separate column upon the book or books of the collector or collectors of State and county taxes, within such city or village. And where the corporate limits of any city or village shall lie partly in two or more counties the city council or board of trustees shall ascertain the total amount of all taxable property lying within the corporate limits of said city or village in each county, as the same is assessed and equalized for State and county purposes for the current year, and certify the amount of taxable property in each county within said city or village under the seal of said city or village, to the county clerk of the county where the seat of government of such city or village is situate, whose duty it shall be to ascertain the rate per cent. which, upon the total valuation of all property subject to taxation within the city or village, ascertained as aforesaid, will produce a net amount not less than the amount so directed to be levied, and said clerk shall as soon as said rate per cent. of taxation is ascertained, certify under his hand and seal of office to the county clerk of any other county wherein

a portion of said city or village is situate, such rate 1 er cent. and it shall be the duty of such county clerk to whom such rate per cent. is certified to extend such tax in a separate column upon the book or books of the collector or collectors of the State and county taxes for such county against all property in his county within the limits of said city or village: Provided, the aggregate amount of taxes levied for any one year, exclusive of the amount levied for the payment of bonded indebtedness or interest thereon, shall not exceed the rate of two (2) per centum upon the aggregate valuation of all property within such city or village, subject to taxation therein, as the same was equalized for state and county taxes for the preceding year. [As amended by act approved June 18, 1891. In force July 1, 1891.]

2275. Manner of collecting.] § 2. The tax so assessed shall be collected and enforced in the same manner and by the same officers as state and county taxes, and shall be paid over by the officers collecting the same to the treasurer of the city or village.

2276. Time of paying [over.] § 3. It shall be the duty of the officer collecting such tax to settle with and pay over to such treasurer, as often as once in two weeks from the time he shall commence the collection thereof, all such taxes as he shall then have collected, till the whole tax collected shall be paid over.

2277. When tax levied for particular purpose.] [§ 4. Whenever any city or village is required to levy a tax for the payment of any particular debt, appropriation or liability of the same, the tax for such purpose shall be included in the total amount assessed by the city council or board of trustees, and certified to the county clerk as aforesaid; but the city council or board of trustees shall determine, in the ordinance making such assessment, what proportion of such total amount shall be applicable to the payment of such particular debt, appropriation or liability; and the city or village treasurer shall set apart such proportion of the tax collected and paid to him for the payment of such particular debt, appropriation or liability, and shall not disburse the same for any other purpose until such debt, appropriation or liability shall have been discharged.

2278. Uniformity.] § 5. All taxes levied or assessed by any city or village, except special assessments for local improvements, shall be uniform upon all taxable property and persons within the limits of the city, and no property shall be exempt therefrom other than such property as may be exempt from taxation under the constitution and general laws of the state.

ARTICLE IX.

SPECIAL ASSESSMENTS FOR LOCAL IMPROVEMENTS.

2279. Powers conferred.] § 1. That the corporate authorities of cities and villages are hereby vested with power to make local improvements by special assessment or by special taxation, or both, of

contiguous property, or general taxation, or otherwise, as they shall by ordinance prescribe.

2280. Ordinance for improvement.] § 2. When any such city or village shall, by ordinance, provide for the making of any local improvement, it shall, by the same ordinance, prescribe whether the same shall be made by special assessment or by special taxation of contiguous property, or general taxation, or both.

2281. When property is taken, etc.] § 3. Should said ordinance provide for improvements which require the taking or damaging of property, the proceeding for making just compensation therefor shall be as follows:

2282. Petition.] § 4. Whenever any such ordinance shall be passed by the legislative authority of any such city or village, for the making of any improvement mentioned in the first section of this act, or any other local improvement that such city or village is authorized to make, the making of which will require that private property be taken or damaged for public use, such city or village shall file a petition in some court of record of the county, in which such city is situated, in the name of the city, praying that "the just compensation to be made for private property to be taken or damaged for the improvement or purpose specified in such ordinance shall be ascertained by a jury."

2283. Form of petition.] § 5. Such petition shall contain a copy of the said ordinance, certified by the clerk, under the corporate seal; a reasonably accurate description of the lots, parcels of land and property which will be taken or damaged, and the names of the owners and occupants thereof, so far as known to the board or officer filing the petition, and where any known owners are non-residents of the state, stating the fact of such non-residence.

2284. Summons—publication—notice.] § 6. Upon the filing of the petition aforesaid, a summons, which may be made returnable upon any day in term time, shall be issued and served upon the persons made parties defendant, as in cases in chancery. And in case any of them are unknown, or reside out of this state, the clerk of the court, upon an affidavit being filed showing such fact, shall cause publication to be made in some newspaper printed in his county, or, if there be no newspaper published in his county, then in some newspaper published in this state containing notice of the pendency of such proceeding, the parties thereto, the title of the court, and the time and place of the return of the summons in the case, and the nature of said proceeding; such publication to be made for four weeks consecutively, at least once in each week, the first of which shall be at least thirty days before the return day of such summons. Notices so given by publication shall be sufficient to authorize the court to hear and determine the suit, as though all parties had been sued by their proper names and had been personally served. [As amended by act approved and in force March 30, 1874.]

2285. Hearing—jury.] § 7. Upon the return of said summons,

or as soon thereafter as the business of the court will permit, the said court shall proceed to the hearing of such petition, and shall impanel a jury to ascertain the just compensation to be paid to all of such owners and occupants aforesaid; but if any defendant or party in interest shall demand, or the court shall deem it proper, separate juries may be impaneled as to the compensation or damages to be paid to any one or more of such defendants or parties in interest. [As amended by act approved and in force March 30, 1874.]

2286. Jury to ascertain compensation—admitting other parties.] § 8 Such jury shall also ascertain the just compensation to be paid to any person claiming an interest in any lot, parcel of land or property which may be taken or damaged by such improvement, whether or not such person's name, or such lot, parcel of land, or other property, is mentioned or described in such petition: Provided, such person shall first be admitted as a party defendant to said suit by such court, and shall file a statement of his interest in and description of the lot, parcel of land, or other property in respect to which he claims compensation.

2287. Viewing premises—ownership, etc.] § 9. The court may, upon the motion of such city or village, or of any person claiming any such compensation, direct that said jury (under the charge of an officer of the court) shall view the premises which it is claimed by any party to said proceeding will be taken or damaged by said improvement, and in any case, where there is no satisfactory evidence given to the jury as to the ownership of, or as to the extent of the interest of any defendant in the property to be taken or damaged, the jury may return their verdict as to the compensation or damage to be paid for the property or part of property to be taken or damaged, and for the entire interests therein. [As amended by act approved and in force March 30, 1874.]

2288. Judgment—new parties—further proceedings.] § 10. Upon the return of such verdict, the court shall order the same to be recorded, and shall enter such judgment or decree thereon as the nature of the case may require. The court shall continue or adjourn the cause, from time to time, as to all occupants and owners named in such petition who shall not have been served with process, or brought in by publication, and shall order a new summons to issue and new publication to be made; and upon such occupants or owners being brought into court, shall impanel a jury to ascertain the compensation so to be paid to such defendant or defendants, for private property taken or damaged; and like proceeding shall be had for such purpose as hereinbefore provided for the ascertaining of compensation to other owners.

2289. Powers of court.] § 11. The court shall have power, at any time, upon proof that any such owner or owners named in such petition, who has not been served with process, has ceased to be such owner or owners since the filing of such petition, to impanel a jury and ascertain the just compensation to be made for the property (or the damage thereto) which had been owned by the person or persons so

ceasing to own the same; and the court may, upon any finding or findings of any jury or juries, or at any time during the course of such proceedings enter such order, rule, judgment or decree as the nature of the case may require.

2290. Ownership—further powers of court.] § 12. No delay in making an assessment of compensation shall be occasioned by any doubt or contest which may arise as to the ownership of the property, or any part thereof, or as to the interests of the respective owners or claimants, but in such case the court may impanel a jury and ascertain the entire compensation or damage that should be paid for the property, or part of property, and the entire interests of all parties therein, and may require adverse claimants to interplead so as to fully determine their rights and interests in the compensation so ascertained. And the court may make such order as may be necessary in regard to the deposit or payment of such compensation.

2291. Persons under disability.] § 13. When it shall appear, from said petition or otherwise, at any time during the proceedings upon such petition, that any infant, or insane or distracted person is interested in any property that is to be taken or damaged, the court shall appoint a guardian *ad litem* for such infant or insane or distracted person, to appear and defend for him, her or them; and the court shall make such order or decree as it shall deem proper to protect and secure the interest of such infant, or insane or distracted person, in such property, or the compensation which shall be awarded therefor.

2292. Judgment—effect—appeal, etc.] § 14. Any final judgment or judgments rendered by said court, upon any finding or findings of any jury or juries, shall be a lawful and sufficient condemnation of the land or property to be taken upon the payment of the amount of such finding as hereinafter provided. It shall be final and conclusive as to the damages caused by such improvement, unless such judgment or judgments shall be appealed from; but no appeal or writ of error upon the same shall delay proceedings under said ordinance, if such city or village shall deposit, as directed by the court, the amount of the judgment and costs, and shall file a bond in the court in which such judgment was rendered, in a sum to be fixed and with security to be approved by the judge of said court, which shall secure the payment of any future compensation which may at any time be finally awarded to such party so appealing or suing out such writ of error, and his or her costs.

2293. Order for possession.] § 15. The court, upon proof that said just compensation so found by the jury has been paid to the person entitled thereto, or has been deposited as directed by the court (and bond given, in case of any appeal or writ of error,) shall enter an order that the city or village shall have the right, at any time thereafter, to take possession of or damage the property, in respect to which such compensation shall have been so paid or deposited, as aforesaid.

2294. When improvement made by general tax.] § 16. When

the ordinance under which said improvement is ordered to be made shall provide that such improvement shall be made by general taxation, the cost of such improvement shall be added to the general appropriation bill of such city or village, and shall be levied and collected with and as a part of the general taxes of such city or village.

2295. Special taxation.] § 17. When said ordinance under which said local improvement shall be ordered shall provide that such improvement shall be made by special taxation of contiguous property, the same shall be levied, assessed and collected in the way provided in the section of this act providing for the mode of making, levying, assessing and collecting special assessments: Provided, that no special tax shall be levied or assessed upon any property to pay for any local improvement in an amount in excess of the special benefit which such property shall receive from such improvement. Such ordinance shall not be deemed conclusive of such benefit, but the question of such benefit and of the amount of such special tax shall be subject to the review and determination of the county court, and be tried in the same manner as in proceedings by special assessments. [As amended by Act approved June 21, 1895. In force July 1, 1895.]

SPECIAL ASSESSMENT.

2296. How made.] § 18. When the ordinance under which said local improvement is ordered to be made shall provide that such improvement shall be wholly or in part made by special assessment, the proceedings for the making such special assessment shall be in accordance with the sections of this act [article] from 18 to 51, inclusive.

2297. Ordinance — for sidewalks — owners' rights.] § 19. Whenever such local improvements are to be made wholly or in part by special assessment, the said council in cities, or board of trustees in villages, shall pass an ordinance to that effect, specifying therein the nature, character, locality and description of such improvement: Provided, that where the owners of a majority of the property in any block abutting on any street, alley, park or public place, shall petition the common council in cities, or board of trustees in villages for any local improvements, it shall be the duty of said council, or board of trustees to pass an ordinance for said improvement: Provided, that whenever any such ordinance shall provide only for the building or renewing of any sidewalk, the owner of any lot or piece of land fronting on such sidewalk shall be allowed fifteen days after the time at which such ordinance shall take effect in which to build or renew such sidewalk opposite his land, and thereby relieve the same from assessment; Provided, that the work so to be done shall in all respects conform to the requirements of such ordinance. [As amended by act approved June 1, 1889. In force July 1, 1889.]

2298. Estimate of cost.] § 20. The city council or board of trustees shall appoint three of its members, or any other three com-

petent persons, who shall make an estimate of the cost of the improvement contemplated by such ordinance, including labor, materials, and all other expenses attending the same, and the cost of making and levying the assessment, and shall report the same in writing to said council or board of trustees.

2299. Order for proceedings in court.] § 21. On such report being made, and approved by the council or board of trustees, as the case may be, it may order a petition to be filed by such officer as it shall direct, in the county court of its county, for proceedings to assess the cost of such improvement in the manner provided in this act.

2300. Petition to court.] § 22. The petition shall be in the name of the corporation, and shall recite the ordinance for the proposed improvement and the report of such commission, and shall pray that the cost of such improvement may be assessed in the manner prescribed by law.

2301. Appointment of commissioners—oath.] § 23. Upon the filing of such petition the court shall appoint three competent persons as commissioners, who shall take and subscribe an oath, in substance as follows, to-wit:

State of Illinois. }
County. } ss

On the hearing, the report of the commissioners shall be competent evidence, and either party may introduce such other evidence as may tend to establish the right of the matter. The hearing shall be conducted as in other cases at law, and if it shall appear that the premises of the objector are assessed more or less than they will be benefited, or more or less than their proportionate share of the cost of the improvement, the jury shall so find, and also find the amount for which such premises ought to be assessed, and judgment shall be rendered accordingly.

2309. Precedence.] § 32. The hearing in all cases arising under this act may be had at either a law or a probate term of said court, and shall have precedence over all cases in such court except criminal cases. (As amended by act approved and in force June 15, 1893.)

The court before which any such proceeding may be pending, shall have authority, at any time before final adjournment (judgment), to modify, alter, change, annul or confirm any assessment returned, as aforesaid, or cause any such assessment to be recast by the same commissioners whenever it shall be necessary for the attainment of justice, or may appoint other commissioners in the place of all or any of the commissioners first appointed, for the purpose of making such assessment, or modifying, altering, changing or recasting the same, and may take all such proceedings and make all such orders as may be necessary to make a true and just assessment of the cost of such improvement according to the principles of this act, and may from time to time, as may be

necessary, continue the application for that purpose as to the whole or any part of the premises.

2311. Judgment several—appeal, etc.—lien.] § 34. The judgment of the court shall have the effect of a several judgment as to each tract or parcel of land assessed, and any appeal from such judgment or writ of error shall not invalidate or delay the judgment, except as to the property concerning which the appeal or writ of error is taken. Such judgment shall be a lien upon the property assessed, from the date thereof until payment shall be made.

2312. Judgment certified to city clerk—filing—warrant.] § 35. The clerk of the court in which such judgment is rendered shall certify the assessment roll and judgment to the officer of such city or village authorized to collect such special assessments, or if there has been an appeal or writ of error taken on any part of such judgment then he shall certify such part of the judgment as is not included in such appeal or writ of error, and such certificate shall be filed in his office by the officer receiving the same. With such assessment roll and judgment the clerk of such court shall also issue a warrant for the collection of such assessment. [As amended by act approved June 26, 1885. In force July 1, 1885.]

2313. Form of warrant.] § 36. Such warrant shall give sufficient authority to collect the assessments therein specified.

2314. Collector's notice—form of.] § 37. The collector receiving such warrant shall immediately give notice thereof by publishing such notice in one or more newspapers in such city or village, if such newspaper is there; and if there is no such newspaper, then by posting four copies thereof in public places along the line of the proposed improvements. Such notices may be, substantially, in the following form:

All persons interested are hereby notified to call and pay the amounts assessed, at the collector's office (here insert location of office), within thirty days from the date hereof.

Dated this.....day of.....A. D. 18... .., Collector.

[As amended by act approved June 26, 1885. In force July 1, 1885.]

2315. Manner of collecting—entry of payment.] § 38. It shall be the duty of the collector into whose hands the warrant shall so come,

as far as practicable, to call upon all persons resident within the corporation whose names appear on the assessment roll, or the occupants of the property assessed, and personally, or by written or printed notice left at his or her usual place of abode, inform them of such assessment, and request payment of the same. Any such collector omitting so to do shall be liable to a penalty of \$10 for every such omission, but the validity of the special assessment, or the right to apply for and obtain judgment for any such special [assessment], shall not be affected by such omission. It shall be the duty of such collector to write the word "paid" opposite each tract or lot on which the assessment is paid, together with the name and post office address of the person making the payment, and date of payment.

2316. Report of delinquent list to county collector—evidence—defense.] § 39. It shall be the duty of the collector of special assessments, within such time as the city council or board of trustees may by ordinance provide, to make a report in writing—to the general officer of the county authorized, or to be designated by the general revenue law of this state, to apply for judgment and sell lands for taxes due the county and state—of all the lands, town lots and real property on which he shall have been unable to collect special assessments, with the amount of special assessments due and unpaid thereon, together with his warrant, or with a brief description of the nature of the warrant or warrants received by him authorizing the collection thereof; which report shall be accompanied with the oath of the collector that the list is a correct return and report of the lands, town lots and real property on which the special assessments levied by authority of the city of. (or village of. as the case may be,) remain due and unpaid; that he is unable to collect the same or any part thereof, and that he has given the notice required by law that said warrants had been received by him for collection. Said report, when so made, shall be *prima facie* evidence that all the forms and requirements of the law in relation to making said return have been complied with, and that the special assessments mentioned in said report are due and unpaid. And, upon the application for judgment upon such assessment, no defense or objection shall be made or heard which might have been interposed in the proceeding for the making of such assessment, or the application for the confirmation thereof.

2317. Application for judgment—what laws govern.] § 40. When said general office[r] shall receive the report provided for in the preceding section, he shall proceed to obtain judgment against said lots, parcels of land, and property, for said special assessments remaining due and unpaid, at the same time and in the same manner as is or may be by law provided for obtaining judgment against lands for taxes due and unpaid the county and state; and shall in the same manner proceed to sell the same for the said special assessments remaining due and unpaid. In obtaining said judgment and making said sale, the said officer shall be governed by the general revenue laws of this State,

except when otherwise provided herein. No application for judgment against lands for unpaid special assessments shall be made at a time different from the annual application for judgment against lands, upon which general taxes remain due and unpaid. The application for judgment upon delinquent special assessments in each year shall include only such special assessments as shall have been returned as delinquent to the county collector, on or before the first day of April, in the year in which such application is made. [As amended by act approved June 18, 1882. In force July 1, 1883.]

2318. Return of sales—redemption.] § 41. After making said sales, the list of lots, parcels of land and property sold thereat shall be returned to the office of the county clerk, and redemption may be made as provided for by the general revenue law of this state.

2319. Penalty when lands are sold for tax, etc.] § 42. If the collector shall receive any moneys for taxes or assessments, giving a receipt therefor for any land or parcel of land, and afterwards return the same as unpaid to the state officers authorized to sell lands for taxes, or shall receive the same after making such return, and the same be sold for tax or assessment which has been so paid and receipted for by himself or his clerks, he and his bond shall be liable to the holder of the certificate given to the purchasers at the sale, for double the amount of the face of the certificate, to be demanded in two years from date of the sale, and recovered in any court having jurisdiction of the amount; and the city or village shall, in no case, be liable to the holder of such certificate.

2320. Paying over—compensation.] § 43. The collector or collectors, and the general officer aforesaid, to whom the said warrant shall be returned, shall pay over to the city or village treasurer to which it shall belong all moneys collected by them, respectively, upon or by virtue of such warrant, or upon any sale for taxes or otherwise, at such time or times, and in such manner as shall be prescribed by ordinance, and shall be allowed such compensation for their services in the collection of such assessment as the ordinances of the city or village may provide, except when such compensation is fixed by general law.

2321. General revenue laws apply.] § 44. The general revenue laws of this state in reference to proceedings to recover judgments for delinquent taxes, the sale of property thereon, the execution of certificates of sale and deeds thereon, the force and effect of such sales and deeds, and all other laws in relation to the enforcement and collection of taxes and redemption from tax sales, except as herein otherwise provided, shall be applicable to proceedings to collect such special assessment.

2322. City or village may buy in.] § 45. Any city or village interested in the collection of any tax or special assessment, may become a purchaser at any sale of real or personal property to enforce the collection of the same, and may, by ordinance, authorize and make

it the duty of one or more city or village officers to attend such sales, and bid thereat in behalf of the corporation.

2323. When assessment set aside—new assessment.] § 46. If any assessment shall be annulled by the city council or board of trustees, or set aside by any court, a new assessment may be made and returned, and like notice given and proceedings had, as herein required in relation to the first; and all parties in interest shall have the like rights, and the city council or board of trustees and court shall perform like duties and have like power in relation to any subsequent assessment, as are hereby given in relation to the first assessment.

2324. Supplemental assessments.] § 47. If, in any case, the first assessment prove insufficient, a second may be made in the same manner, as nearly as may be, and so on, until sufficient moneys shall have been realized to pay for such public improvement. If too large a sum shall, at any time, be raised, the excess shall be refunded ratably to those by whom it was paid.

2325. New assessments against delinquents—lien—limitation.] § 48. If, from any cause, any city or village shall fail to collect the whole or any portion of any special assessment which may be levied, which shall not be canceled and set aside by the order of any court, for any public improvement authorized to be made and paid for by special assessment, the city council or board of trustees may, at any time within five years after the confirmation of the original assessment, direct a new assessment to be made upon the delinquent property for the amount of such deficiency, and interest thereon from the date of such original assessment—which assessment shall be made, as near as may be, in the same manner as is herein prescribed for the first assessment. In all cases where partial payment shall have been made on such former assessment, they shall be credited or allowed on the new assessment to the property for which they were made, so that the assessment shall be equal and impartial in its results. If such new assessment prove ineffectual, either in whole or in part, the city council or board of trustees may, at any time within said period of five years, order a third, and so on, to be levied in the same manner and for the same purpose; and it shall constitute no legal objection to such assessment that the property may have changed hands, or been encumbered, subsequent to the date of the original assessment, it being the true intent and meaning of this section to make the cost and expense of all public improvements, to be paid for by a special assessment, a charge upon the property assessed therefor, for the full period of five years, from the confirmation of the original assessment, and for such longer period as may be required to collect, in due course of law, any new assessment ordered within that period.

2326. Contracts payable from assessments.] § 49. All persons taking any contracts with the city or village, and who agree to be paid from special assessments, shall have no claim or lien upon

the city or village in any event, except from the collections of the special assessments made for the work contracted for.

2327. How contracts let—approval.] § 50. All contracts for the making of any public improvement, to be paid for in whole or in part by a special assessment, and any work or other public improvement, when the expense thereof shall exceed \$500, shall be let to the lowest responsible bidder, in the manner to be prescribed by ordinance—such contracts to be approved by the mayor or president of the board of trustees: Provided, however, any such contract may be entered into by the proper officer without advertising for bids, and without such approval, by a vote of two-thirds of all the aldermen or trustees elected.

2328. Lien.] § 51. All special assessments levied by any city or village under this act, shall, from the date of assessment, be a lien upon the real estate upon which the same may be imposed, and such lien shall continue until such special assessments are paid. And the same proceedings may be resorted to by the collector, upon any warrant or order issued or made for the collection of special assessments, as in the case of the collection of state and county taxes under the general laws of the state.

2329. Collection by suit.] § 52. At any time after the same becomes due, it shall and may be lawful for any collector thereof to commence suit in any court of record, in the corporate name of such city or village, against any person or persons, for the total amount of special assessments which such person or persons are liable for the payment of. Such suit shall be commenced by petition, and shall state the several amounts of the special assessments sought to be recovered, and give a general description of the warrant or warrants issued for the collection thereof. Upon the filing of the petition a summons shall be issued, served and returned as in other suits in such court. Upon the return of such summons, duly served, the court shall forthwith proceed to the hearing of said petition without formal pleadings, and may render judgment for all or any part of the special assessments, as the right and justice of the case may require. The original, or a certified copy (by the clerk, under the corporate seal) of such warrant or warrants and list or lists, or so much thereof as refers to the special assessments sought to be recovered, shall be prima facie evidence of the right of said collector to a judgment in favor of such corporation. Execution shall issue on such judgment as in other cases, but such execution may be first levied upon and collected from any personal property of the defendant; or the court, in which such proceedings were had, may, upon complaint of the city or village, issue a scire facias against the person or persons liable for such payment, to show cause why execution should not issue against him or them for the amount of such assessment; and if, upon the return of such scire facias, good cause is not shown why execution should not issue, the court may award

execution against such person or persons in the usual form of execution upon judgments at law.

2330. Supplemental petition to assess damages in condemnation case—pending cause—payment of.] § 53. Whenever any city or village shall apply to any court for the purpose of making just compensation for property taken or damaged by such proceedings as are authorized by this act, such city or village may file in the same proceedings a supplemental petition, praying the court to cause that an assessment be made for the purpose of raising the amount necessary to pay the compensation and damages which may be or shall have been awarded for the property taken or damaged with the costs of the proceeding. The said court shall have power, at any time after such supplemental petition shall have been filed, to appoint three commissioners to make such assessment and to ascertain, as near as may be, the costs incurred to the time of such appointment, and the probable further costs of the proceedings, including therein the estimated costs of making and collecting such assessment, and shall direct such cost to be included by such commissioners in making said assessment. Like proceedings in making said assessment shall be had, and the assessment shall be made, collected and enforced in the same manner, as near as may be, as is provided in this article in other cases: Provided, however, in all proceedings heretofore commenced, where the property has not been fully paid for, or that shall hereafter be commenced, said city or village shall take and pay for the lands sought to be taken or damaged within two years of the entry of judgment in such condemnation proceedings. And after the expiration of such time the court in which the proceedings may have been had, upon a motion of any person interested in the lands, may enquire in a summary manner whether the lands in which such person is interested have been taken or damaged and paid for; and if the court finds that such lands have not been taken or damaged and not been paid for, it shall enter an order requiring the city or village to pay for such lands within a short day, to be fixed by the court; and in default thereof shall dismiss such proceedings as far as they relate to lands of such person. If, however, the court finds that such city or village has taken possession of the land and has not paid therefor, it shall enter an order requiring such city or village to pay the amount of the condemnation judgment, with interest from the time of such taking, within a short day to be fixed by the court; and in default thereof, to dismiss the proceedings and enter a several judgment in favor of such land owners for interest from the day of such taking, and direct the issue of a writ of possession in favor of the several owners or their legal representatives or grantees respectively. And such dismissal as aforesaid shall operate as a bar to further proceedings under such ordinance against the land affected by such dismissal. And every such cause shall be considered as pending in the court in which the same has been, or shall be commenced, until all the lands sought

to be taken are paid for or until the proceedings are dismissed where the lands have not been taken. [As amended by act approved June 18, 1891. In force July 1, 1891.]

2331. Adoption of this article.] § 54. Any city or incorporated town or village may, if it shall so determine by ordinance, adopt the provisions of this article without adopting the whole of this act; and where it shall have so adopted this article, it shall have the right to take all proceedings in this article provided for, and have the benefit of all the provisions hereof.

That the amount of any special assessment for any local improvement in any city, incorporated town or village, may be divided into installments, when so provided for by the ordinance providing for the said improvement, the first of which shall not exceed the sum of twenty-five per cent. of the total of said assessment, and which shall be due and payable from and after confirmation of said assessment. The remaining portion of said assessment, after deducting the said first installment, shall be divided into four equal annual installments, which said installments shall be payable annually thereafter, and collected in the same manner that other assessments are now collected and the annual interest herein provided for on all of said installments which may at any time remain unpaid, shall also be payable annually thereafter and collected in the same manner that other assessments are now collected. Each of said four last named installments shall bear interest at the rate of six per cent. per annum, payable in each year, from and after the first day of July next succeeding the confirmation of said assessment, when such confirmation shall be had between the first day of November and the first day of March; and when such confirmation is had between the first day of March and the first day of July, then each of the said four last named installments shall bear interest at the rate of six per cent. per annum in each year, from and after the first day of October next succeeding such confirmation of assessment; and when such confirmation is had between the first day of July and the first day of November, then each of said four last named installments shall bear interest at the rate of six per cent. per annum, from and after the first day of January next succeeding such confirmation of assessment. Such interest shall be payable in each year at the time when the installments are payable: Provided, that in cities containing a population of fifty thousand or more this and the following sections shall not apply except in cases where any such special assessments shall exceed in the aggregate the sum of fifteen thousand dollars. [Added by act approved and in force April 29, 1887. As amended by act approved June 15, 1891. In force July 1, 1891.]

In making such annexation, the corporations so uniting may, by ordinance, fix the terms of the annexation, which shall have the force and effect of a binding contract: Provided, however, that no such ordinance shall be of any binding force or effect until submitted to a vote of the legal voters of such city, town or village, at a general election thereof, and adopted by a majority of all the voters voting thereon at such election, notice of which shall be given at the same time and in the same manner as required for the election of the officers of such city, town or village: And, provided, also, that the vote shall be by ballot, which shall be "for union ordinance," or "against union ordinance," and shall be received, canvassed and returned the same as ballots for municipal officers of such city, town or village.

2383. Finding — costs, etc.] § 6. If, upon the hearing, the court or the jury shall find that such territory ought to be annexed to such city, village or town, and can be so done without injustice to the inhabitants or persons interested, the court shall so order. If the court or jury shall find against the petitioners, the petition shall be dismissed at the cost of the petitioners; and no subsequent petition shall be presented for the annexation of any of the territory embraced in such petition, within one year from the time of entering such order: Provided, that new trials may be granted as in other jury cases.

2384. Proceedings by owner to be annexed.] § 7. When not less than a majority in number of the legal voters or the owner or owners of any tract or tracts of land, contiguous to any incorporated city, village or town, shall, by petition in writing, signed by them, and filed in the circuit court of the county where such territory or a major

part thereof is situated, pray to be annexed to such city, village or town, the like proceedings may be had thereon, and with the like effect, as in case of a petition by a city, village or town: Provided, a copy of the notice required to be given shall be left with the mayor of such city, or president of such village or town, at least ten days before such petition is heard.

2385. Proceedings to disconnect.] § 8. Whenever a majority of the legal voters of any territory within any city, town or village, and being upon the border and within the boundary thereof, shall petition the circuit court of the county in which such city, town or village is situated, praying to be disconnected therefrom, such petition shall be filed with the clerk of the court at least ten days before the first day of the term at which it is proposed to be heard, and like proceeding shall be had as is required by sections four, five and six of the act for the annexation of territory to such city, town or village: Provided, that the provisions of this section shall only apply to lands not laid out into city or town lots or blocks.

2386. Map and ordinance recorded.] § 9. When any territory is annexed to any city, village or town, as provided in this act, it shall be the duty of the mayor of the city, or the president of the board of trustees of the village or town (as the case may be), to cause an accurate map of such added territory, together with the ordinance for the annexation, certified by such mayor, and if a decree or order of the court has been made therefor, a copy of the same, to be filed for record and recorded in the recorder's office for the county in which such added territory is situated. If territory is disconnected or excluded from any city, village or town, a copy of the ordinance or decree therefor shall be so filed for record and recorded.

2387. School districts.] § 10. All school districts, and other corporations incorporated for school purposes, under special acts of the legislature, desiring to annex or disannex territory, may proceed under the provisions of this act.

2388. Judicial notice.] § 11. All courts in this state shall take judicial notice of cities, towns and villages, and of the changes of their territory, made under the provisions of this act.

AN ACT in relation to the disconnection of territory from cities and villages.
[Approved and in force May 29, 1879. L. 1879, p. 77.]

2389. Disconnecting territory.] § 1. Be it enacted by the People of the State of Illinois, represented in the General Assembly, That whenever the owners representing a majority of the area of land of any territory within any city or village, and being upon the border and within the boundary thereof, and not laid out into city or village lots or blocks, shall petition the city council of such city, or the trustees of such village, praying the disconnection of such territory therefrom; such petition shall be filed with the city clerk of such city, or the president of the trustees of such village, accompanied with a

certificate of the county clerk, showing that all city taxes or assessments due up to the time of presenting such petition are fully paid, at least ten days before the meeting of such city council, or trustees, at which it is proposed to present such petition, and the city clerk of such city, or president of the trustees of such village, shall present such petition to the city council or trustees, as the case may be, and upon such presentation, the city council of such city or trustees of such village may, by ordinance, to be passed by a majority of the members elected to such city council or board of village trustees, disconnect the territory described in such petition from such city or village: Provided, however, that the territory so disconnected, shall not thereby be exempted from taxation, for the purpose of paying any indebtedness contracted by the corporate authorities of such city or village, while such territory was within the limits thereof, and remaining unpaid, but the same shall be assessed and taxed for the purpose of paying such indebtedness, the same as if such territory had not been disconnected, until such indebtedness is fully paid.

2390. Ordinance recorded.] § 2. A copy of the ordinance disconnecting territory from any city or village, certified by the clerk of such city, or president of the trustees of such village, shall be filed for record and recorded in the recorder's office of the county in which such disconnected territory is situated, and another copy of such ordinance, so certified, shall be filed with the clerk of the county court of the county in which such disconnected territory is situated.

2391. Judicial notice.] § 3. All courts in this State shall take judicial notice of cities and villages, and of the changes made in their territory, under this act.

2392. Repeal.] § 4. All acts and parts of acts in conflict with this act are hereby repealed.

2393. Emergency.] § 5. Whereas, there is no valid law in force in this State enabling cities and villages to decrease their corporate limits, and special legislation therefor by the General Assembly is forbidden by the Constitution of this State, therefore an emergency exists why this act should take effect immediately; therefore this act shall take effect and be in force from and after its passage.

Such question may be submitted at either a special election called for that purpose, or at any municipal election, or at any general election. Notice of the election hereby required shall be given by causing notices thereof to be published in at least one newspaper published in said county, within which said city, village or incorporated town may be, to which territory is sought to be annexed, at least fifteen (15) days before such election, by the clerk of the County Court. nexation, any petition thereafter presented to the judge of the County Court shall be signed by not less than one-eighth of the legal voters of the incorporated city, town or village, which is sought to be annexed to an adjoining city, village or incorporated town so voting against annexation.

When the inhabitants of any territory not less than one-half square mile in extent, and less than the whole of an incorporated city, village or town, and which territory shall be contiguous to and adjoining the territory of another incorporated city, village or town, desire to be annexed to such other incorporated city, village or town, such annexation may be effected as follows: A petition shall be presented to the judge of the county court wherein such incorporated city, town or village is situated to which annexation is desired, signed by not less than one hundred of the legal voters of the territory sought to be annexed, asking that the question of annexation of the territory described in the petition may be submitted to the legal voters of the city, village or incorporated town from which said territory is to be taken, and to the legal voters of the city, village or incorporated town to which it is sought to annex the same. Such territory shall be described in said petition, and thereupon said county judge shall cause to be submitted the question of the annexation of such territory to the voters of the incorporated city, town or village from which it is sought to disconnect territory, and to the voters of the incorporated city, town or village to which it is sought to annex the same, at an election to be holden in each of said incorporated cities, towns or villages. Such question may be submitted at either a special election called for that purpose, or at any municipal election, or at any general election. Notice of the election hereby required shall be given by causing notices thereof to be published in at least one newspaper published in said county within which said city, village or incorporated town may be, to which territory is sought to be annexed, at least fifteen days before such election, by the clerk of the County Court, the ballots cast at such election to be written or printed, or partly written and partly printed, "For annexation of (here describe territory of city, village or incorporated town to be annexed) "to" (here name city, village or incorporated town to which annexation is sought) or "Against annexation of" (here describe territory of city, village or incorporated town to be annexed) "to" (here name city, village or incorporated town to which annexation is sought) respectively, to be received, canvassed and returned to same as ballots for municipal officers of such incorporated cities, towns or villages; and the officers who are charged by law with the duty of canvassing such votes shall file, or cause to be filed, with the clerk of the County Court of such county, a certificate of the result of such canvass, immediately upon ascertaining the result thereof; and if it shall appear that a majority of the voters of each city, village or incorporated town so

voting upon the question of annexation at such election vote for annexation, thereupon the jurisdiction of the incorporated city, town or village shall extend over said territory so annexed, but if it shall appear that a majority of the voters of any territory, less than the whole, of an incorporated city, village or town, so voting upon the question of annexation, when said question is first submitted, vote against annexation, any petition thereafter presented to the judge of the County Court for the annexation of the same territory shall be signed by not less than one-eighth of the legal voters of the territory so voting against annexation.

If petitions are presented to the county judge, as described in this act, for the annexation of the whole and also for the annexation of a part or parts of a city, village or incorporated town to a city, village or incorporated town, the said county judge shall submit such question as petitioned for by each petition, and if at such election the result of the votes shall be against annexation of the whole, but shall be in favor of annexation of a part or parts, and such parts combined as one territory are contiguous to such city, village or incorporated town, or if any such part be contiguous to such city, village or incorporated town, then such contiguous territory shall be annexed the same as though no proposition had been submitted to annex the whole thereof.

2397. Effect of annexation — payment of debts — division of property, etc.] § 4. The city, village or incorporated town to which the whole of another city, village or incorporated town is annexed under the provisions of this act shall assume and pay any and all debts, liabilities, bonds or obligations and interests thereon of the city, incorporated town or village so annexed, and shall become vested with title and ownership of all property belonging to said city, village or incorporated town so annexed, to be held for the same purposes and for the same uses, subject to the same conditions as theretofore, and if the public schools of such enlarged city, village or incorporated town are all in charge and under the control of one board of education, the said enlarged city, village or incorporated town shall assume and pay the indebtedness of each school district or township lying wholly therein, and shall become vested with the title and ownership of all property belonging to any school district or township lying wholly therein, to be held for the same purposes and to the same uses and subject to the same conditions as theretofore. If the bonds of said city, village or incorporated town so annexed, or of any school district or township lying wholly therein, have been registered in the office of the State Auditor of Public Accounts, in accordance with the statute, the county clerk shall certify the fact of such annexation forthwith to said State Auditor, and said State Auditor shall not thereafter certify any rate per centum to the county clerk, nor shall the county clerk thereafter extend any such rate for the payment of said bonds or interest thereon upon

the taxable property of such city, town or village so annexed, or school district or township. All debts, bonds and obligations of the united municipality to be paid by the enlarged city, village or incorporated town. And if there be a portion of a school district or township lying within and a portion lying without such annexed territory, the debts of such school district or township shall be paid and the property divided in the same manner as is provided for paying debts and dividing property in section eight (8) of this act, where parts of cities, villages or incorporated towns are annexed to other cities, villages or incorporated towns.

When the whole of a city, village or incorporated town is annexed to another city, village or incorporated town under the provisions of this act, and the corporate authorities of such city, village or incorporated town so annexed shall have passed an ordinance termed the annual appropriation ordinance, but not an ordinance levying a tax for the purpose of collecting a sufficient sum of money to defray the total amount of appropriations for all corporate purposes for that fiscal year, then the corporate authorities of the city, village or incorporated town to which such territory is annexed shall have the right to include the amount of such appropriations in the annual tax levy of such city, village or incorporated town, the same as though such appropriations had been made by the city, village or incorporated town to which such other city, village or incorporated town is annexed. The said taxes may be used by the city, village or incorporated town to which annexation is had for the purpose for which such appropriation was made by the city, village or incorporated town so annexed.

2399. Annexation not to stay tax levy.] § 6. When the whole of an incorporated town, city or village shall be annexed to another city, village or incorporated town it shall not arrest, stay or interfere with any proceedings for the collection or enforcement of any tax, special assessment or special tax, but the same shall proceed and be carried to a finality as though no such annexation had taken place, and the proceeds thereof shall be paid over to the treasurer of the city, village or incorporated town to which such other village, city or incorporated town is annexed, to be used for the purpose for which the tax was levied or the proceedings instituted.

2400. Pending suits — how defended and prosecuted.] § 7. All suits pending in any court on behalf of or against any village, city or incorporated town, the whole of which is under the provisions of this act annexed to another city, village or incorporated town, may be prosecuted or defended in the name of the city, village or incorporated town so annexed, and all judgments, fines, decrees or recoveries obtained for or on behalf of any village, city or incorporated town so annexed to another may be collected and enforced with like force and effect as though such annexation had not taken place in the name of the city, village or incorporated town so annexed.

2401. **Division of public property — payment of indebtedness.]** § 8. When a part of the territory of a city, village or incorporated town is taken therefrom and annexed to another city, village or incorporated town under the provisions of this act, then the proportionate share of any indebtedness, contract or liability of such city, village or incorporated town from which such territory is taken shall be assumed and paid by such enlarged city, village or incorporated town, according to the taxable property in such disconnected territory as the same existed immediately before such annexation, and if the public schools of such enlarged city, village or incorporated town shall be in charge and control of one board of education, then the proportionate share of any indebtedness of any school district or township shall be assumed and paid by such enlarged city, village or incorporated town according to the taxable property in such part of such disconnected territory within such school district or township, as the same existed immediately before such annexation and if the whole of a school district or township is annexed, then such municipality shall assume and pay all the indebtedness of such school district or township. The amount of the said indebtedness to be paid by said enlarged city, town or village shall be determined and agreed upon by the city council of the city or trustees of the village or incorporated town to which such territory is annexed, and the city council of the city or trustees of the village or incorporated town from which such territory is taken, or the school authorities of the school district or township of which such disconnected territory was a part, as the case may be, in such manner as they shall elect, if they can not agree, then the matter shall be determined by the Circuit or County Court of the county in which such municipal corporation may be to which annexation is made, by petition of either municipal corporation or of any taxpayer of either municipality. The court shall hear and determine the matter in a summary manner, without pleadings, and shall pronounce judgment as the right and equity of the matter may demand. If the respective corporate authorities shall agree as to the amount to be paid by such enlarged city, town or village, then each shall pass an ordinance or a resolution reciting the amount thereof to be paid, a copy of which said ordinance or resolution shall be duly certified by the clerk of the city, village or incorporated town to which such territory is annexed, and filed with the county clerk of the county wherein such enlarged city, town or village may lie, and by him certified to the State Auditor of Public Accounts, and which said ordinance or resolution shall be final and conclusive in all proceedings as to the amount of indebtedness so to be paid. If a judgment or decree shall be entered by a Circuit or County Court as herein provided, then a certified copy thereof shall be made by the clerk of said court and filed with the clerk of each of the said municipal corporations and with the county clerk, and by the county clerk certified to the State Auditor of Public Accounts and such judgment shall be final and conclusive in all proceedings as to the

amount of indebtedness to be paid by each municipality. The State Auditor shall not thereafter certify any rate per centum to the county clerk, nor shall the county clerk thereafter extend any rate upon the taxable property of said annexed territory for the payment of any of said bonds or interest thereon so issued by the city, incorporated town or village from which it is disconnected. Said enlarged city, town or village shall be vested with the title and ownership of all the public and school property in such annexed territory, and shall be charged therewith in the division of the public property of such dismembered city, incorporated town or village, or school district or township, between said municipalities, or between said enlarged city, town or village and any dismembered school district or township, as the case may be, and the territory not annexed shall be charged with all the public property within such territory, and all the public funds in the hands of the corporate authorities, such division to be agreed upon by the same authorities or settled by the court in the same manner and upon the same basis as above provided for in dividing the indebtedness of said dismembered municipality or school district or township.

2402. Tax levy made before annexation.] § 9. When a part of a city, village or incorporated town is annexed to another city, village or incorporated town, and before such annexation the municipal authorities of the city, village or incorporated town from which the territory is detached had made an annual tax levy, then in such case there shall be paid over to the treasurer of the city, village or incorporated town to which such territory is annexed the *pro rata* share paid by such territory of said tax levy for said year, according to the taxable property therein, as the same existed immediately before such annexation, and charging such territory its proportionate share for the expired part of the fiscal year.

2403. Proceedings instituted before annexation to improve streets, etc.] § 10. When a part of a city, village or incorporated town is annexed to another city, village or incorporated town under the provisions of this act, and prior to such annexation proceedings had been instituted for the purpose of improving any streets within such detached portion by special assessment or special taxation, then in such case such proceedings may be carried to a finality, whether the whole improvement be within the detached portion or not. If the whole improvement is to be made within the detached portion, then the amount collected by such proceedings shall be paid over to the city, village, or incorporated town to which such territory is annexed, to be used by such city, village or incorporated town for the purpose for which such proceedings were instituted. If only a part of such improvement is to be made within the detached territory, then the city, village or incorporated town from which such territory is detached may proceed with the same as though such annexation had not taken place.

lage or incorporated town is annexed to another under the provisions of this act, then in that case any proceedings instituted for the purpose of taking land for the purpose of opening any street or alley, or other public way, within the territory so annexed, shall not be arrested or stayed, but the same may proceed to a finality, if the city, village or incorporated town to which such territory is annexed so elect, and all moneys received from any special assessment or tax levied or assessed for such purpose shall be paid over to the city, village or incorporated town to which such territory is annexed, to be used by it for the purposes for which the same was collected, such proceedings to be continued in the name of the city, village or town from which the territory is detached with like force and effect as though the said territory had not been detached therefrom.

2405. Use of water works, gas or electric light system.] § 12. If a part of a city, village or incorporated town be annexed to another village, city or incorporated town, then such part of the city, village or incorporated town shall have the same use and benefit of any water works, gas or electric light system owned by such city, village or incorporated town prior to such annexation, on the same terms, conditions and restrictions that it had before such annexation; and on the same terms, conditions and restrictions said territory not annexed may thereafter receive the use and benefit thereof; and if a portion of the territory of any city, village or incorporated town be annexed to another city, village or incorporated town, then the portion of the city, village or incorporated town not annexed shall have the same use and benefit of any water works, gas or electric light system owned by such city, village or incorporated town prior to such annexation on the same terms, conditions and restrictions that it had before such annexation, and on the same terms, conditions and restrictions said territory annexed may thereafter receive the use and benefit thereof. Either part of such village, city or incorporated town receiving such benefit as aforesaid may have its said rights and benefits waived by the city council or board of trustees of the city, village or incorporated town to and from which said territory is annexed and detached upon such just and equitable terms as they may agree, and if they can not agree, then the matter shall be determined by the Circuit or County Court of the county within which such city, village or incorporated town to which territory is annexed may lie, on petition of any person interested therein. Said court shall determine the matter aforesaid in a summary manner and without formal proceedings pronounce judgment as the right and equity of the case may require, and such judgment shall be final and conclusive.

2406. Disputes as to division of property.] § 13. When a part of a city, village or incorporated town shall be under the provisions of this act annexed to another city, village or incorporated town, then, in case the municipal authorities of the municipal corporation from which the territory is detached and of the municipal corporation to which it is attached can not by ordinance agree as to the division

of the property or the settlement of their respective rights and all matters arising out of said annexation within sixty days thereafter, then the Circuit or County Court of the county within which either municipal corporation may be, shall hear and determine all matters so in dispute, and give judgment or decree, as the right of the matter may demand, on petition of either municipal corporation, and such judgment shall be final and conclusive.

When a part of a city, village or incorporated town shall be annexed to another city, village or incorporated town, and any mayor, president, alderman or trustee, clerk, treasurer or attorney for such municipality from which the territory is detached shall reside in the territory so detached, then he shall continue in office as an officer of such municipal corporation until the next annual municipal election of such city, village or incorporated town, as the case may be.

2409. Provision as to justices of the peace and their jurisdiction.] § 16. When the whole or any part of such city, village or incorporated town shall be annexed to another city, village or incorporated town under the provisions of this act, then any justice of the peace or police magistrate, duly elected, qualified and acting at the time that annexation shall take effect shall continue to hold their offices for the terms for which they were respectively elected. All suits, actions, proceedings, complaints, prosecutions and special proceedings which shall be pending in the territory annexed before any justice of the peace shall be heard and determined as though annexation had not taken place, and the said justices of the peace shall continue to exercise, within said territory, the functions of their respective offices until the term thereof shall respectively expire or otherwise sooner be determined, in the same manner as though annexation had not taken place, and the powers and jurisdiction of said justices within said territory and their fees and emoluments and methods of procedure shall be as though annexation had not taken place. But nothing in this section contained shall authorize any service of process issued by a justice of the peace or police magistrate of the city, village or incorporated town, or give any such justice of the peace jurisdiction outside of the territory to which his jurisdiction was limited before such annexation, or interfere with the jurisdiction of any justice of the peace or police magistrate of the city to which it is annexed over the

territory annexed. At the expiration of the term of such justices of the peace or police magistrates all dockets and books, papers and files of their respective offices shall be filed and deposited with any justice of the peace of the city, village or incorporated town to which said territory is annexed, that the Circuit Court of the county shall designate by order of the court.

The ballots cast at such election shall be written or printed, or partly written and partly printed, "For dramshops," or "Against dramshops," respectively, and shall be received, canvassed and returned the same as ballots cast at said election for municipal officers, and if it shall appear that a majority of the voters so voting upon the question vote "For dramshops," then licenses may be issued for said territory on the same terms and conditions as licenses are granted by ordinance within other parts of the municipality. It is intended by this section to continue in full force and effect all ordinances of any municipality, the whole or part of which is annexed to another city, incorporated town or village, whereby the licensing of dramshops is prohibited or regulated within said city, village or incorporated town, or any part thereof, without the voters of the terri-

filled so as to prevent standing water thereon, and to authorize cities, towns and villages to purchase or condemn lands, sand banks, gravel pits, and rock quarries, for any of the purposes above named. [Approved and in force May 19, 1883.]

2526. May purchase or condemn lands, etc.] § 2. Such city, town or village may purchase or enter upon and condemn lands for the location and construction of any such levee, or for the repairs of any levee, or dyke now built, or surrounding any such city, town or village, in the same manner that lands and right of way is now condemned for railroad purposes.

2527. City may order private levees repaired.] § 3. In all instances where any city, town or village in this State is now, or shall hereafter be surrounded in whole or in part by any levee, dyke, embankment or other structure, which is used or permitted to be used as a protection to any such city, town or village from overflow and inundation, and which is owned or claimed, in whole or in part, by any individual, private corporation or trust company, and whose duty it is in law or equity to keep up and maintain such levee, dyke, embankment or other structure, and the same shall be found to be insufficient in width or height, or too steep of grade, or which shall become impaired by wash or abrasion of the rivers, by caving banks, by impairment of the base or surface of the slope, or any other injury that may happen to any such levee, dyke, embankment or other structure, that, in the judgment of the city council, or board of trustees, or other municipal authorities of any such city, town or village, shall become unsafe or insecure for the purpose for which it was erected or used, and the party whose duty it is in law or equity to protect, maintain, and keep in repair such levees, embankments or dykes, shall not repair, enlarge, or heighten the same, as the case shall demand, it shall be the duty of the city council, or board of trustees of any such city, town or village, to cause notice to be served upon the owner or person in charge of any such levee, dyke, embankment or structure, or any agent of any such owner or person in charge thereof, of the condition, impairment or insufficiency of any such levee, dyke, embankment or other structure, and that the same must be repaired or improved as directed in said notice.

2530. Work to be charged to party liable and to be a lien.] § 6. All such work done upon any such levee, dyke or embankment, by any city, town or village, shall be charged up to the party liable therefor, and shall be a lien upon any such levee, dyke, or embankment, and any connecting levee, dyke or embankment which forms a part of the system of levee protection intended for such city, town or village, belonging to the party so liable, notwithstanding the lines of levees may be disconnected by intervening ownerships.

2531. How lien enforced.] § 7. If the expense incurred by any such city, town or village is not paid by such owner or person liable, within twenty days of the presentation of the bill therefor by the city, town or village clerk, when directed by the City Council or Board of Trustees, then such city, town or village may enforce the lien hereby created in any court of competent jurisdiction, in the same manner as mechanics' liens are now enforced under the statute of this State, provided the sales under the decree for sale of any such levee, dyke or embankment shall be absolute and without redemption.

2532. Who may purchase at sale.] § 8. Any such city, town or village may become purchaser at any such sale, and when so purchased, the city, town or village may take immediate possession thereof, and use, own and contract as to the same in the same manner as if it had been originally built by the city, but if purchased by any other person or corporation, then such levee or embankment shall be subject to this statute in the same manner as it was in the hands of the original owner.

2533. Repairs heretofore made—enforcing payment for—lien.] § 9. Where any city, town or village has heretofore built or repaired any part of any levee, dyke or embankment, when the original levee or embankment had been destroyed, or become insecure by the wash or abrasion of the rivers or the caving in of the banks, and the part so built or repaired formed a part of a system or levees surrounding any such city, town or village for the purposes men-

tioned in this act, and the same is, or was, owned and controlled by any person or corporation or trustee, and such system of levees, dykes or embankments was originally intended by the builder or builders, and was necessary, as a protection to the site of any such city, town or village, and it was, at the time of the making of the improvements mentioned in this section, the duty of any such owner, either in law or equity, to maintain and keep in repair such system of levees or embankments, and that at the time of making such improvement or repairs there appeared to be an emergency for the performance of such work, then any such city, town or village may have its action to recover back what it has expended in that regard, and may file its bill or petition as in case of mechanics' lien, and the amount so expended shall be a lien upon the whole of such levee system belonging to the party so defaulting at the time of the filing of such bill, from the date of the filing of any such bill or petition, and it shall be no answer or defense that any such city, town or village made such expenditure, or did such work as was done, without authority of law, or the owners of the original levee.

 § 10. Whenever the site of any city, town or village in this State is or has been located upon any of the navigable waters of this State or any of the navigable waters bordering this State, and the site thereof has been surrounded by levees or embankments to prevent overflow or inundation, and such levees are owned or controlled by private persons, corporations or trustees, and any part of such levee or embankment has been by the owner or owners thereof set apart for a landing place for vessels and water craft, and the place so set apart for a landing place, has been used by the public free of charge, by footmen, or for wagons, drays and other vehicles conveying persons or property to and from said landing for a term of twenty years or more, and the owner thereof claims the right to collect wharfage, tolls or a reasonable compensation for the landing of steamboats or other water craft at any such landing place, then any such city, town or village may, by ordinance, determine the slope or grade of any such levee, so used for public landing purposes, and the payment thereof, and the rate of toll or compensation to be charged at such landing. It shall be the duty of the owner thereof to grade, pave and keep such slope in repair as directed by ordinance, and may enforce the same by proper penalties, or forfeitures of any right to collect wharfage at any such landing until the ordinances in that regard have been complied with, and may enforce the powers herein granted, by proper ordinances.

2535. Stagnant water—nuisance—abatement.] § 11. Any city, town or village in this State wherein there are lots, blocks, or places wherein stagnant water is liable to stand, from surface water, or sipe water, or overflow, so that the same becomes a nuisance, or is dangerous to the public health of any such city, town or village, the corporate authorities thereof, may declare such lots, block or places

of land to be nuisances, and order the same filled to grade, or to such height as will prevent such standing water, and for the purpose of filling any such lots, blocks or places, such city, town or village may purchase or condemn lands, sand banks, or gravel, in the same manner as in other cases under this act.

2536. Liability of proprietors for damages — insufficient levees.] § 12. In all cases where any person or persons, trustees, company or corporation, has heretofore, or shall hereafter lay out any city, town or village within this State, the site whereof is liable to overflow, and is surrounded in whole, or in part by a levee or embankment, and the owner or proprietors of the site of such city, town or village shall, or shall have, in laying out and platting the same, reserve or reserved, retain or retained, as private property, a strip or strips of land surrounding the site thereof for the purpose of building such levees or embankments thereon, and shall actually build such levees or embankments, and such persons or owners so laying out such city, town or village as aforesaid, shall, after the building of such levees or embankments to protect the site of any such city, town or village from overflow, sell, lease or convey by quit claim or deed in fee, or otherwise, any lots, blocks or lands within the district or territory surrounded by such levees or embankments, it shall from thenceforward become the duty of any such owner or person and their agents, representatives or assigns to keep and maintain in good repair such levees and embankments, and upon their failure so to do such persons, owners or assigns shall be liable to the owner or owners of any lots, blocks or lands lying within such levees, whether held by the original purchaser or his assigns, and such persons or owners of such levees or embankments shall be liable in damages to the owners of any personal property that may be injured by the giving away or insufficiency of any such levees or embankments, and may have their action on the case for any damage they may suffer by reason of the insufficiency, impairment or giving away of any such levees or embankment; or any number of such owners of lots, blocks or land, and owners of personal property damaged as aforesaid, may join in a petition to any court of record of competent jurisdiction in this State for redress of grievances under this section, setting forth the claims of each, and the aggregate of such claims; and such claims shall be a lien upon such levees or embankments, and all the unsold lands or lots of the proprietors of such city, town or village within such levee inclosure, from the date of the filing of such petition; and the proceeding shall be the same as in mechanics' lien.

2539. Improvement districts—grade—special assessments.]
 § 1. Be it enacted by the People of the State of Illinois, represented in the General Assembly: Any city or village of this State incorporated under the general law for the incorporation of cities and villages, or under any special charter, the site of which is wholly or partially subject to overflow, and which site is or may be surrounded in whole or in part by levees, dykes or embankments to prevent overflow, may lay off such city or village, or any part thereof into what shall be known or called improvement districts, and may fix the grade of the streets, avenues, alleys or public grounds within such improvement district or districts, at a height above the natural surface of the earth to correspond with the height of the levees, dykes or embankments surrounding or partially surrounding such city or village, or above, if deemed necessary, in such manner and to such height as will give a surface drainage from such improvement district to the river or rivers which cause such overflow, and may require low lots, blocks or parts of blocks or lots, within such improvement district, to be filled in such manner as to prevent water from standing thereon, and so as to prevent the same from becoming a nuisance or injurious to the public health, in the judgment of the corporate authorities of such city or village. The work hereby authorized shall be done by special assessment or special taxation, and all the power in relation to special assessments or special taxation heretofore granted to any city or village in this State, or to any drainage or improvement district in this State, is hereby granted to such cities and villages under this act.

2540. Survey—cost of work.] § 2. When any such improvement district shall be created by ordinance under this act, it shall be the duty of the corporate authorities to cause an accurate survey of the work contemplated to be done or made, to be made by a competent civil engineer, and cause plats, profiles, and estimates of the work to be done, including the cost of all walls or other structures necessary to be built or constructed to hold the earth to its proper place, and the cost of the work opposite to, or adjacent to each lot in such district and the cost of the fill upon each and every lot within such district necessary to be filled to be used in estimating the benefits to be charged against the lot or block, or parts thereof, within such improvement district; and in estimating such benefits it shall be proper to take into consideration the benefit any such lot, block or parts thereof will receive by reason of being secured from overflow, or sipe water.

2541. Improvement district may issue bonds—style and manner of proceeding.] § 3. When any such improvement district or districts has or have been laid out and defined by any such city or

village, and the cost of the improvement estimated and ascertained by a competent engineer, and the benefits to the lots, blocks or parts thereof have been assessed, then such city or village may cause a series of bonds to be issued sufficient to pay the special assessments, or special tax, so ascertained for such district, and which bonds when so issued and endorsed as hereinafter provided for, shall be a lien upon the lots, blocks or parts thereof which shall be designated in such bond or bonds, such bond or bonds, to bear interest at a rate not exceeding six per cent., and may run for any term not exceeding twenty years, the style of the bond to be fixed and designated by ordinance; but before any bond shall issue, or be put in circulation, the owner or owners of any such lot or lots to be charged with such special assessment or assessments, or special tax, shall endorse upon the back of such bond or bonds, his or her consent thereto, in words in substance as follows:

No coupon need be recorded; the face of the bond and endorsement shall be sufficient.

If any steam or horse railroad shall be located upon, or across any street in any such improvement district, then, in estimating the cost of the work, such railroad shall be charged with the fill upon such street or crossing in the proportion or amount that it would require or cost such railroad to make an independent embankment of the same height to receive its

track or tracks upon such street or crossing: Provided, that any such railroad shall have the same right to build its embankment, or make its proportion of the improvement as is allowed to individuals. If any such steam or horse railroad shall fail, or refuse to comply with the ordinances of any such city or village, in this regard, the track or tracks of any such delinquent railroad shall be taken and deemed to be a nuisance, and all rights of any such railroad upon any such street or crossing shall be forfeited, and the rails and ties removed as the work progresses.

Such corporate authorities may acquire by purchase, gift, condemnation or otherwise all the real and personal property, rights of way and easements within or without the district necessary for the construction and maintenance of the works hereby authorized, and shall have the same control and jurisdiction of the property without as of that within the district. They shall have the right to construct the cut-off herein authorized, across, under, over, along, or upon any water course, street, highway, public ground, railroad or turnpike which the route of the same may intersect or touch; but shall not interrupt the use thereof longer nor to a greater extent than shall be necessary for the purpose.

2556. Condemnation of property.] § 6. Whenever it shall be necessary to take or damage private property, for any purpose contemplated by this act, whether within or without said drainage district, the compensation therefor may be ascertained and the proceedings for the condemnation thereof may be had in the manner provided in article nine of an act entitled "An act to provide for the incorporation of cities and villages," approved April 10, 1872, and the cost of constructing and maintaining the improvements herein provided for may be defrayed by special assessment upon the property benefited thereby within such district only. Said assessments to be levied and collected as provided in said article nine.

SANITARY DISTRICTS.

AN ACT to create sanitary districts and to remove obstructions in the Desplaines and Illinois rivers. [Approved May 29, 1889. In force July 1, 1889.]

2557. Incorporating sanitary district—petition—vote—commissioners.] § 1. Be it enacted by the People of the State of Illi-

nois, represented in the General Assembly, That whenever any area of contiguous territory within the limits of a single county shall contain two or more incorporated cities, towns or villages, and shall be so situated that the maintenance of a common outlet for the drainage thereof will conduce to the preservation of the public health, the same may be incorporated as a sanitary district under this act, in the manner following: Any 5,000 legal voters resident within the limits of such proposed sanitary district may petition the county judge of the county in which they reside to cause the question to be submitted to the legal voters of such proposed district whether they will organize as a sanitary district under this act. Such petition shall be addressed to the county judge, and shall contain a definite description of the territory intended to be embraced in such district, and the name of such proposed sanitary district: Provided, however, that no territory shall be included in any municipal corporation formed hereunder which is not situated within the limits of a city, incorporated town or village, or within three miles thereof, and no territory shall be included within more than one sanitary district under this act. Upon the filing of such petition in the office of the county clerk of the county in which such territory is situated it shall be the duty of the county judge to call to his assistance two judges of the Circuit Court and such judges shall constitute a board of commissioners which shall have power and authority to consider the boundaries of any such proposed sanitary district, whether the same shall be described in such petition or otherwise. Notice shall be given by such county judge of the time and place where such commissioners will meet, by a publication inserted in one or more daily papers published in such county, at least twenty days prior to such meeting. At such meeting the county judge shall preside, and all persons in such proposed sanitary district shall have an opportunity to be heard touching the location and boundary of such proposed district and make suggestions regarding the same, and such commissioners, after hearing statements, evidence and suggestions, shall fix and determine the limits and boundaries of such proposed district, and for that purpose and to that extent, may alter and amend such petition. After such determination by said commissioners, or a majority of them, the county judge shall submit to the legal voters of the proposed sanitary district the question of the organization and establishment of the proposed sanitary district, as determined by said commissioners, at an election to be held on the first Tuesday after the first Monday in November thence next ensuing, notice whereof shall be given by said commissioners, at least twenty days prior thereto, by publication in one or more daily papers published within such proposed sanitary district, such notice to specify briefly the purpose of such election, with a description of such proposed district. Each legal voter resident within such proposed sanitary district shall have the right to cast a ballot at such election, with the words thereon, "For Sanitary District," or, "Against Sanitary District." The ballots so cast shall be received, returned and canvassed in the same manner

and by the same officers as is provided by law in the case of ballots cast for county officers. The county judge shall cause a statement of the result of such election to be spread upon the records of the County Court. If a majority of the votes cast upon the question of the incorporation of the proposed sanitary district shall be in favor of the proposed sanitary district, such proposed district shall thenceforth be deemed an organized sanitary district under this act.

2558. Judicial notice of district—organization—election of officers.] § 2. All courts in this State shall take judicial notice of the existence of all sanitary districts organized under this act. Upon the organization of any sanitary district under this act the county judge shall call an election to elect officers and cause notice thereof to be posted or published, and perform all other acts in reference to such election in like manner as nearly as may be, as he is required to perform in reference to the election of officers in newly organized cities under the provisions of an act entitled "An act to provide for the incorporation of cities and villages," approved April 10, 1872.

2559. Trustees—election and terms of.] § 3. In each sanitary district organized under this act, there shall be elected nine trustees who shall hold their offices for five years, and until their successors are elected and qualified, except the term of office of the first trustees elected, shall be until five years after the first Monday in December after their election. The election of trustees, after the first, shall be on the Tuesday next after the first Monday in November in every fifth year. In all elections for trustees each qualified voter may vote for as many candidates as there are trustees to be elected, or he may distribute his vote among not less than five-ninths of the candidates to be elected, giving to each of the candidates among whom he distributes the same, the same number of votes or fractional parts of votes. The trustees shall choose one of their number president, and such sanitary district shall from the time of the first election held by it under this act be construed in law and equity a body corporate and politic and by the name and style of the sanitary district of . . . , and by such name and style may sue and be sued, contract and be contracted with, acquire and hold real estate and personal property necessary for corporate purposes, and adopt a common seal and alter the same at pleasure.

2560. Trustees constitute a board—duties and powers of.] § 4. The trustees elected in pursuance of the foregoing provisions of this act shall constitute a board of trustees for the district by which they are elected, which board of trustees is hereby declared to be the corporate authorities of such sanitary district, and shall exercise all the powers and manage and control all the affairs and property of such district. Said board of trustees shall have the right to elect a clerk, treasurer, chief engineer and attorney for such municipality, who shall hold their respective offices during the pleasure of the board, and who shall give such bond as may be required by said board. Said board may prescribe the duties and fix the compensation of all the officers

and employes of said sanitary district: Provided, however, that the salary of the president of said board of trustees shall in no case exceed the sum of four thousand dollars per annum: and the salary of the other members of said board shall not exceed three thousand dollars per annum. And provided further, that the amount received by any attorney shall not exceed the sum of five thousand dollars. (\$5,000) per annum. Said board of trustees shall have full power to pass all necessary ordinances, rules and regulations for the proper management and conduct of the business of said board of trustees and of said corporation, and for carrying into effect the objects for which such sanitary district is formed.

2561. Ordinances making appropriation—publication of.] § 5. All ordinances making any appropriations shall, within one month after they are passed, be published at least once in a newspaper published in such district, or if no such newspaper of general circulation is published therein, by posting copies of the same in three public places in the district; and no such ordinance shall take effect until ten days after it is so published, and all other ordinances, orders and resolutions, shall take effect from and after their passage unless otherwise provided therein.

2562. Ordinances and resolutions—evidence.] § 6. All ordinances, orders and resolutions, and the date of publication thereof, may be proven by the certificate of the clerk, under the seal of the corporation, and when printed in book or pamphlet form, and purporting to be published by the board of trustees and such book or pamphlet shall be received as evidence of the passage and legal publication of such ordinances, orders and resolution, as of the dates mentioned in such book, or pamphlet in all courts and places without further proof.

2563. Board of trustees—powers of.] § 7. The board of trustees of any sanitary district organized under this act shall have power to provide for the drainage of such district by laying out, establishing, constructing and maintaining one or more main channels, drains, ditches and outlets for carrying off and disposing of the drainage (including the sewage) of such district, together with such adjuncts and additions thereto as may be necessary or proper to cause such channels or outlets to accomplish the end for which they are designed in a satisfactory manner; also to make and establish docks adjacent to any navigable channel made under the provisions hereof for drainage purposes, and to lease, manage and control such docks, and also to control and dispose of any water-power which may be incidentally created in the construction and use of said channels or outlets, but in no case shall said board have any power to control water after it passes beyond its channel, waterways, races or structures into a river or natural waterway or channel, or water-power or docks situated on such river or natural waterway or channel: Provided, however, nothing in this act shall be construed to abridge or prevent the State from hereafter requiring a portion of the funds derived from such water-

power, dockage or wharfage to be paid into the State Treasury to be used for State purposes. Such channels or outlets may extend outside of the territory included within such sanitary district and the rights and powers of said board of trustees over the portion of such channel or outlet lying outside of such district shall be the same as those vested in said board over that portion of such channels or outlets within the said district.

2564. Right of way—how acquired.] § 8. Such sanitary district may acquire by purchase, condemnation, or otherwise any and all real and personal property, right of way and privilege, either within or without its corporate limits that may be required for its corporate purposes: Provided, all moneys for the purchase and condemnation of any property shall be paid before possession is taken, or any work done on the premises damaged by the construction of such channel or outlet, and in case of an appeal from the county court taken by either party whereby the amount of damages is not finally determined, the amount of judgment in such court shall be deposited at some bank to be designated by the judge thereof subject to the payment of such damages on orders signed by such county judge, whenever the amount of damages is finally determined; and when not longer required for such purposes, to sell, convey, vacate and release the same, subject to the reservation contained in section 7, relating to water-powers and docks.

2565. May borrow money — limitation.] § 9. The corporation may borrow money for corporate purposes and may issue bonds therefor, but shall not become indebted, in any manner, or for any purpose, to an amount in the aggregate to exceed five per centum on the valuation of taxable property therein, to be ascertained by the last assessment for State and county taxes previous to the incurring of such indebtedness: Provided, however, that said five per centum shall not exceed the sum of fifteen million dollars (\$15,000,000).

2566. To provide for direct annual tax — net earnings.] § 10. At the time or before incurring any indebtedness, the board of trustees shall provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal thereof as the same shall fall due, and at least within twenty years from the time of contracting the same: Provided, that the net earnings from water-power and docks may be appropriated and applied to the purpose of paying the interest or principal of such indebtedness, or both, and to the extent that they will suffice, the direct tax may be remitted.

2567. Contracts — how let.] § 11. All contracts for work to be done by such municipality, the expense of which will exceed five hundred dollars, shall be let to the lowest responsible bidder therefor upon not less than sixty days' public notice of the terms and conditions upon which the contract is to be let having been given by publication in a newspaper of general circulation published in said district, and the said board shall have the power and authority to

reject any and all bids, and re-advertise: Provided, no person shall be employed on said work unless he be a citizen of the United States, or has in good faith declared his intentions to become such citizen. In all cases where an alien after filing his declaration of intention to become a citizen of the United States shall for the space of three months after he could lawfully do so, fail to take out his final papers and complete his citizenship, such failure shall be *prima facie* evidence that his declaration of intentions was not made in good faith. And that eight hours shall constitute a day's work.

2568. Trustees may levy and collect taxes, etc.] § 12. The board of trustees may levy and collect taxes for corporate purposes upon property within the territorial limits of such sanitary district, the aggregate amount of which for each of the years 1895, 1896 and 1897 shall not exceed one and one-half per centum of the value of the taxable property within the corporate limits, as the same shall be assessed and equalized for the state and county taxes of the year in which the levy is made, and the aggregate amount of which in any one year after the year 1897 shall not exceed one-half of one per centum of such value. Said board shall cause the amount required to be raised by taxation in each year to be certified to the county clerk on or before the second Tuesday in August, as provided in section one hundred and twenty-two of the general revenue law. All taxes so levied and certified shall be collected and enforced in the same manner and by the same officers as state and county taxes, and shall be paid over by the officer collecting the same to the treasurer of the sanitary district in the manner and at the time provided by the general revenue law. [As amended by Act which became a law June 10, 1895. In force July 1, 1895.]

2569. Expenses of improvement — special assessments — general tax.] § 13. The board of trustees shall have power to defray the expenses of any improvement made by it in the execution of the powers hereby granted to such incorporation, by special assessment or by general taxation, or partly by special assessment and partly by general taxation, as they shall by ordinance prescribe. It shall constitute no objection to any special assessment, that the improvement for which the same is levied is partly outside the limits of such incorporation, but no special assessment shall be made upon property situated outside of such sanitary district, and in no case shall any property be assessed more than it will be benefited by the improvement for which the assessment is levied. The proceedings for making, levying, collecting and enforcing of any special assessment levied hereunder, shall be the same as nearly as may be as is prescribed by article nine of an act entitled "An act to provide for the incorporation of cities and villages," approved April 10, 1872. Whenever in said act the words "city council" are used, the same shall apply to the board of trustees constituted by this act, and the words applying to the city or its officers in that article shall be held to apply to the corporation hereby created and to its officers.

2570. Assessment — installments — interest.] § 14. When any assessment is made under this act, the ordinance authorizing such assessment may provide that it be divided into equal annual installments, not more than twenty in number, and fix the amount and time of payment of each installment, and that the installment shall bear interest at a rate not exceeding six per cent. per annum, payable annually, from the date fixed in said ordinance, and the several installments and interests thereon may be collected and enforced, as they shall become due, in the manner provided for the enforcement of assessments under said Article 9. No more of any assessment need be returned or certified to the county collector than will show the amount due and unpaid at the time of such return, and no sale of any parcel of land for any installment of an assessment shall discharge the premises from any subsequent installment of the same or any other assessment. Any one or all of the installments may be paid any time after the assessment is confirmed, with accrued interest, if any, to the date of payment.

2571. When assessments payable by installments — bonds may be issued.] § 15. Where any assessment is made payable in installments the board of trustees may issue bonds or certificates not exceeding in amount eighty per centum of the unpaid portion of such assessment at the date of the issue thereof, payable only out of such assessment, and bearing interest at a rate not exceeding the rate of interest upon the installments of such assessments. The board of trustees shall have the right to call in and pay off said bonds or certificates as fast as there is money received into the treasury from the assessment against which the same are issued, and all moneys received upon such assessment shall be applied to the payment of said certificates or bonds until they are fully satisfied.

2572. Private property — how taken for improvement.] § 16. Whenever the board of trustees of any sanitary district shall pass an ordinance for the making of any improvement which such district is authorized to make, the making of which will require that private property should be taken or damaged, such district may cause compensation therefor to be ascertained, and condemn and acquire possession thereof in the same manner as nearly as may be as is provided in an act entitled, "An act to provide for the exercise of the right of eminent domain," approved April 10, 1872: Provided, however, that proceedings to ascertain the compensation to be paid for taking or damaging private property shall in all cases be instituted in the county where the property sought to be taken or damaged is situated: And provided, that all damages to property whether determined by agreement or by final judgment of court shall be paid out of the annual district tax, prior to the payment of any other debt or obligation.

2573. May acquire right of way.] § 17. When it shall be necessary in making any improvements which any district is authorized by this act to make, to enter upon any public property

on property held for public use, such district shall have the power so to do and may acquire the necessary right of way over such property held for public use in the same manner as is above provided for acquiring private property, and may enter upon, use, widen, deepen and improve any navigable or other waters, waterways, canal or lake: Provided, the public use thereof shall not be unnecessarily interrupted or interfered with, and that the same shall be restored to its former usefulness as soon as practicable: Provided, however, that no such district shall occupy any portion of the Illinois and Michigan canal outside of the limits of the county in which such district is situated for the site of any such improvement, except to cross the same, and then only in such a way as not to impair the usefulness of said canal, or to the injury of the right of the State therein, and only under the direction and supervision of the canal commissioners: And, provided further, that no district shall be required to make any compensation for the use of so much of said canal as lies within the limits of the county in which said district is situated except for transportation purposes.

2574. Special assessment—damage to property, and cost of acquiring.] § 18. In making any special assessment for any improvement which requires the taking or damaging of property, the cost of acquiring the right to damage or take such property may be estimated and included in the assessment as a part of the cost of making such improvement.

2575. Liability of sanitary district for damages.] § 19. Every sanitary district shall be liable for all damages to real estate within or without such district which shall be overflowed or otherwise damaged by reason of the construction, enlargement or use of any channel, ditch, drain, outlet or other improvement under the provisions of this act; and actions to recover such damages may be brought in the county where such real estate is situated, or in the county where such sanitary district is located, at the option of the party claiming to be injured. And in case judgment is rendered against such district for damage, the plaintiff shall also recover his reasonable attorney's fees to be taxed as costs of suit: Provided, however, it shall appear on the trial that the plaintiff notified the trustees of such district, in writing, at least 60 days before suit was commenced by leaving a copy of such notice with some one of the trustees of such district stating that he claims damages to the amount of.....dollars, by reason of (here insert the cause of damage) and intends to sue for the same: And, provided further, that the amount recovered shall be larger than the amount offered by said trustees (if anything) as a compromise for damages sustained.

2576. Capacity of channel or outlet.] § 20. Any channel or outlet constructed under the provisions of this act which shall cause the discharge of sewage into or through any river or stream of water beyond or without the limits of the district constructing the same shall be of sufficient size and capacity to produce a continuous flow of water of at least two hundred cubic feet per minute

for each one thousand of the population of the district drained thereby, and the same shall be kept and maintained of such size and in such condition that the water thereof shall be neither offensive or injurious to the health of any of the people of this State; and before any sewage shall be discharged into such channel or outlet, all garbage, dead animals and parts thereof, and other solids shall be taken therefrom, and said district shall, at the time any sewage is turned into or through any such channel or channels, turn into said channel or channels not less than twenty thousand cubic feet of water per minute for every one hundred thousand inhabitants of said district, and shall thereafter maintain the flow of such quantity of water. [As amended by Act which became a law June 10, 1895. In force July 1, 1895.]

2577. Sanitary district — failure to comply with act—remedy — penalty.] § 21. In case any sanitary district in this State formed under the provisions of this act shall introduce sewage into any river or stream of water, or natural or artificial watercourse, beyond or without the limits of such district, without conforming to the provisions of this act, or having introduced such sewage into such watercourse, shall fail to comply with any of the provisions of this act, an action to enforce compliance, shall be brought by the Attorney General of this State in the courts of any county wherein such watercourse is situate, or he may authorize the State's Attorney of any such county to commence and prosecute such action in any such county: Provided, that nothing in this section contained shall be construed to prevent the prosecution of any action or proceeding by individuals or bodies corporate or politic against such district.

2578. Act—how construed.] § 22. Nothing in this act contained shall be so construed as to constitute a contract or grant between the State of Illinois and any sanitary district formed under its provisions, or to prevent, debar or deprive the State of Illinois from, at any time in the future, altering, amending or repealing this act, or imposing any conditions, restrictions or requirements other, different or additional to any herein contained upon any sanitary district which may be formed hereunder.

2579. Channel—how to be constructed.] § 23. If any channel is constructed under the provisions hereof by means of which any of the waters of Lake Michigan shall be caused to pass into the Desplaines or Illinois river, such channel shall be constructed of sufficient size and capacity to produce and maintain at all times a continuous flow of not less than 300,000 cubic feet of water per minute, and to be of a depth of not less than fourteen feet, and a current not exceeding three miles per hour, and if any portion of any such channel shall be cut through a territory with a rocky stratum where such rocky stratum is above a grade sufficient to produce a depth of water from Lake Michigan of not less than eighteen feet, such portion of said channel shall have double the flowing capacity above pro-

vided for, and a width of not less than one hundred and sixty feet at the bottom capable of producing a depth of not less than eighteen feet of water. If the population of the district draining into such channel shall at any time exceed 1,500,000, such channel shall be made and kept of such size and in such condition that it will produce and maintain at all times a continuous flow of not less than 20,000 cubic feet of water per minute for each 100,000 of the population of such district, at a current of not more than three miles per hour, and if at any time the general government shall improve the Desplaines or Illinois rivers, so that the same shall be capable of receiving a flow of 600,000 cubic feet of water per minute, or more, from said channel, and shall provide for the payment of all damages which any extra flow above 300,000 cubic feet of water per minute from such channel may cause to private property so as to save harmless the said district from all liability therefrom, then such sanitary district shall within one year thereafter, enlarge the entire channel leading into said Desplaines or Illinois rivers from said district to a sufficient size and capacity to produce and maintain a continuous flow throughout the same of not less than 600,000 cubic feet of water per minute, with a current of not more than three miles per hour, and such channel shall be constructed upon such grade as to be capable of producing a depth of water not less than eighteen feet throughout said channel, and shall have a width of not less than one hundred and sixty feet at the bottom. In case a channel is constructed in the Desplaines river as contemplated in this section, it shall be carried down the slope between Lockport and Joliet to the pool commonly known as the upper basin of sufficient width and depth to carry off the water the channel shall bring down from above. The district constructing a channel to carry water from Lake Michigan of any amount authorized by this act, may correct, modify and remove obstructions in the Desplaines and Illinois rivers wherever it shall be necessary so to do to prevent overflow or damage along said river, and shall remove the dams at Henry and Copperas Creek in the Illinois river, before any water shall be turned into the said channel. And the canal commissioners, if they shall find at any time that an additional supply of water has been added to either of said rivers, by any drainage district or districts, to maintain a depth of not less than six feet from any dam owned by the State, to and into the first lock of the Illinois and Michigan Canal at La Salle, without the aid of any such dam at low water, then it shall be the duty of said canal commissioners to cause such dam or dams to be removed. This act shall not be construed to authorize the injury or destruction of existing water power rights.

2580. Channel, when completed—control of.] § 24. When such channel shall be completed, and the water turned therein, to the amount of three hundred thousand cubic feet of water per minute, the same is hereby declared a navigable stream, and whenever the

general government shall improve the Desplaines and Illinois rivers for navigation, to connect with this channel, said general government shall have full control over the same for navigation purposes, but not to interfere with its control for sanitary or drainage purposes.

2581. May permit territories outside to drain, etc.] § 25. Any district formed hereunder shall have the right to permit territory lying outside its limits and within the same county to drain into and use any channel or drain made by it, upon such payments, terms and conditions as may be mutually agreed upon, and any district formed hereunder is hereby given full power and authority to contract for the right to use any drain or channel which may be made by any other sanitary district, upon such terms as may be mutually agreed upon, and to raise the money called for by any such contract in the same way and to the same extent as such district is authorized to raise money for any other corporate purposes: Provided, that where the united flow of any sanitary districts thus co-operating shall pass into any channel constructed within the limits of the county wherein such districts are located, and which passes into the Desplaines or Illinois rivers, such united flow shall in no case and at no time be less than 20,000 cubic feet of water per minute for each one hundred thousand of the aggregate of the population of the districts co-operating: Provided, nothing in this act shall in any wise be so construed as to diminish, impair or remove any right or rights of any city, village, township or corporation, body politic or individual situated on the Desplaines or Illinois rivers or their tributaries and within the valleys of the same to use the channel for drainage or otherwise not inconsistent with the rights of the district constructing the same as expressed in this act.

2582. When city or village owns waterworks, etc.] § 26. Whenever in any such sanitary district there shall be a city, incorporated town or village, which owns a system of waterworks and supplies water from a lake or other source which will be saved and preserved from sewage pollution, by the construction of the main channel, drain, ditch or outlet herein provided for, and the turning of the sewage of such city and district therein, and there shall be in such sanitary district any territory bordering on any such city, incorporated town or village within the limits of another city, incorporated town or village, which does not own any system of waterworks, at the time of the creation of such sanitary district, then upon application by the corporate authorities of such latter named city, incorporated town or village the corporate authorities of such city, incorporated town or village having such system of waterworks shall furnish water at the boundary line between such municipalities by means of its waterworks to the corporate authorities asking for the same in such quantities as may be required to supply consumers within said territory, at no greater price or charge than it charges and collects of consumers, within its limits for water furnished through meters in like large quantities.

2583. When channel constructed — commissioners to be ap-

pointed to inspect its work.] § 27. If any channel shall be constructed under the provisions of section 23 of this act, it shall be the duty of the trustees of such district, when such channel shall be completed, and before any water or sewage shall be admitted therein, to duly notify, in writing, the Governor of this State of such fact; and the Governor shall thereupon appoint three discreet persons as commissioners, one of whom shall be a resident of the city of Joliet, or between said city and the city of La Salle, and one a resident of the city of Peoria, or between said city and the mouth of the Illinois river, to inspect said work. The said commissioners shall, within ten days after such appointment meet at the city of Chicago, and shall appoint a competent civil engineer, and they may employ such other assistance as they may require to expeditiously perform their duties. The said commission shall take as their datum line for the survey the datum established by the Illinois and Michigan Canal Trustees in 1847, and shall make such examination and surveys of Chicago river and of the channel or channels authorized by this act as shall enable them to ascertain whether said channel is of the character and capacity required by this act. And in case they shall find the work in all respects in accordance with the provisions of section 23 of this act, they shall so certify to the Governor, who shall thereupon authorize the water and sewage to be let into said channel. But in case said commissioners shall find said channel is not constructed in accordance with the provisions of this act, it shall be their duty to file in any court of competent jurisdiction, on the chancery side thereof, in their name as such commissioners, a bill against said corporation, which bill shall set forth wherein said work is deficient and fails to comply with the provisions of this act; and said court shall thereupon issue an injunction without bond against said defendant, enjoining and restraining it from admitting water or sewage into said channel until the final order of the court. And in case said court, upon hearing, shall determine that said channel is not constructed in accordance with the provisions of this act, said injunction shall be continued until the provisions of this act shall have been fully complied with.

Such commissioners and engineer shall receive for their services ten dollars per day each, and their reasonable expenses and outlays for the time by them necessarily employed in the discharge of their duties, which shall be paid to them from the State Treasury; and the said sanitary district shall reimburse the State for all expenses and disbursements on account of said commission.

If any channel is constructed under the provisions of this act which shall discharge the sewage of a population of more than 300,000 into or through any river beyond or without the limits of the district constructing it, the same shall be constructed in accordance with the provisions of section 23 of this act, and if any such channel receives its supply of water from any river or channel connecting with Lake Michigan it shall be construed as receiving its supply of waters from Lake Michigan.

Be it enacted by the People of the State of Illinois, represented in the General Assembly, as follows:

ARTICLE I.

ADOPTION.

2634. How this act may be adopted by any city.] § 1. That the electors of any city now existing in this State may adopt and become entitled to the benefit of this act in the manner following:

Whenever one thousand of the legal voters of such city, voting at the last preceding election, shall petition the judge of the county court of the county in which such city is located to submit to a vote of the electors of such city the proposition as to whether such city and the electors thereof shall adopt and become entitled to the benefit of this act, it shall be the duty of such county court to submit such proposition accordingly at the next succeeding general State or county election, and if such proposition is not adopted at such election, the same shall in like manner be submitted to a vote of the electors of such city by such county court upon like application at any general State or county election thereafter, and an order shall be entered of record in such county court submitting such proposition as aforesaid. If one thousand shall exceed one-eighth of the legal voters of any such city voting at the last preceding election, then such petition or application need not be signed or made by more than one-eighth of the legal voters of such city voting at the last preceding election.

2635. Notice of election—blank forms—duty of county clerk—penalty—expenses.] § 2. The judge of such county court shall give at least sixty days' notice of such election by publishing such notice in one or more newspapers published within such city, for at least five times, the first publication to be at least sixty days before the day of election, and if no newspaper is published in such city, then by posting at least five copies of such notice in each ward sixty

days before such election; and such court shall enter an order directing the county clerk to prepare the necessary blank returns for the use of the judges of election substantially in the following form:

"At an election held in the.....precinct of the.....ward in the city of....., in the State of Illinois, on the.....day of....., in the year A. D....., the following vote was cast for and against city election law, to wit:

For city election law.....votes.
Against city election law.....votes.

Also to prepare separate tally sheets with appropriate headings.

And it shall be the duty of such county clerk to deliver to the judges of all the precincts in such city at such election proper tally sheets and blank statements of returns of votes cast for and against such proposition at such election. And it shall be the duty of the said judge of the county court to supervise and direct such matters and see that they are properly done.

Said judge of the county court shall also prepare directions to the judges and clerks of election as to the manner of canvassing the votes for and against such proposition, keeping tally thereof and making returns of the votes as to such proposition, in accordance with the provisions of this article; also informing them therein of the penalties of the law imposed upon the judges and clerks for any refusal or neglect pertaining to their duties, and such judge of the county court shall deliver such directions to the county clerk directing him to have them printed and sent out to such judges and clerks. And it shall be the duty of such county clerk to obey such instructions.

And it shall be the duty of the county clerk to do, and cause to be done, all things required of him by this article, and for a failure to perform such duties he shall, on conviction, be sentenced to the county jail for not less than six months nor more than twelve months, and shall also be removed from his office by the court in which such conviction shall be had.

The county shall pay all expenses connected with such election.

2636. Form of ballots.] § 3. At such election the ballots, so far as they relate to this act, shall be written or printed in the following form: "For city election law," or, "Against city election law."

2637. Tickets—how prepared and what to contain.] § 4. The ballot upon such proposition in the form aforesaid must be printed or written at the bottom of the ticket containing the names of candidates for public offices at such election who are voted for by any elector. But if any elector desires to vote upon such proposition and does not desire to vote for any candidate for any public office, he may vote a ballot prepared as aforesaid, without the name of any candidate

being thereon; but he cannot by one ballot vote for or against such proposition, and then by another ballot vote for any candidate for any office at that election. If any one shall vote a ballot which shall contain no reference to such proposition, or if both forms of ballot, viz.: "For city election law," and "Against city election law," be upon the same ticket un erased, such ballot shall not be counted for or against such proposition.

2638. Ballots—how canvassed.] § 5. The judges of such election shall canvass the ballots so cast for or against such proposition. They shall count in favor of said proposition all ballots "for city election law," and they shall count against such proposition all ballots "against city election law."

2639. Manner of canvass—announcing result.] § 6. Such canvass shall be made by such judges in the following manner: Before the name or names of any candidate on any ballot shall be canvassed, one of said judges, the other two sitting on either side of him and observing the canvass, shall separate all of the ballots cast in such precinct into three piles or files, putting together in the first pile all those containing the phrase, "for city election law," and putting together in the second pile all the ballots containing the phrase, "against city election law," and putting together in the third pile all the other ballots of every description. One of said three judges shall then count the first pile of ballots in batches of ten, and when one batch is counted, shall pass the same to the next judge, who shall count the same and pass it to the third judge who shall also count it, and when the three shall have finished the count of the ten ballots, the last judge shall announce in a loud voice the result, "ten votes for city election law," when the tally clerks shall tally ten votes accordingly on each tally sheet for city election law, and so the whole pile shall be counted, and before counting the second pile the clerks shall announce the result or number so entered and credited "for city election law," and then the second pile shall be counted in the same way in batches of ten, and the result tallied and announced in the same way "against city election law." And thereupon it shall be the duty of each of said judges in turn to announce in a loud voice the result of the election in that precinct upon that proposition. No ballot shall be counted for or against such proposition, unless it be in the form herein prescribed; no account is to be kept of the third pile of ballots as to such proposition.

2640. When no tally sheets—duty of judges.] § 7. If no tally sheets shall be furnished to the judges and clerks of any precinct relating to such proposition, such clerks shall use any piece of paper containing the headings written out by either of them: "For city election law," and "Against city election law," and tally the vote thereon opposite the respective headings as announced to them; and if no blank statements of returns relating to such proposition be provided or furnished to them, then it shall be the duty of said judges

and clerks to write out a return in triplicate, in substance in accordance with the form found in section two of this article.

2641. Manner of making returns.] § 8. After ascertaining and announcing the result as aforesaid, such judges shall make, fill up and sign triplicate returns or statements of the votes cast for and against such proposition as aforesaid, in the form found in section two of this article. Each of which shall be attested by the election clerks, and each of which shall then be enclosed and sealed in an envelope, one of which shall be on the outside addressed to the judge of the county court, one to the clerk of the county court, and one to the comptroller of such city, or to the officer whose duties correspond with those of the comptroller. Upon each of which statements shall be endorsed, "City election law returns." In the same manner the tally sheets shall be signed by said judges and clerks and shall be enclosed and sealed in separate envelopes, one of which shall be addressed to the county judge and one to the city clerk; upon both of said envelopes shall be endorsed, "City election law tallies." On the outside of each envelope shall be endorsed whether it contains a statement of the votes cast or the tallies, and for what precinct and ward. After the envelopes respectively containing such returns and tallies are closed and sealed, the judges of election shall each write across the folds of such envelopes their names, and thereupon each of said judges of election shall take one of said returns, and each of said election clerks shall take one of said tallies and shall deliver, each one respectively, to the person or officer to whom addressed, by noon of the next day, and when delivered he shall receive a receipt therefor from the officer to whom delivered. And it shall be the duty of such officers to give such receipts, and to safely keep such envelopes unopened until called for by the canvassing board herein provided.

2642. Special watchers of canvass.] § 9. At the canvass of the ballots in any precinct in any city where such proposition has been submitted, it shall be the duty of said judges of election, on request, to admit to the room, two electors of the ward who voted in favor of such proposition, and two who voted against it, as special watchers of such canvass; and said judges and the police officer or other officer of the law present shall protect such watchers and see that they are not excluded, and at the time of such canvass of the ballots cast for or against such proposition, such watchers shall be entitled to a position where they can plainly see and read each ballot; and it shall be the duty of such judges to grant and protect them in such position.

2643. Canvass by county judge, etc.—declaring result — when operative.] § 10. On the sixth day after such election the judge of the county court shall call to his assistance two well known electors of integrity and character, one of whom voted for and one of whom voted against such proposition, who shall constitute the canvassing board, to canvass the returns and votes so cast for and against such proposition. Such canvass shall be conducted in public in the

room usually occupied by such county court. The envelopes containing all the returns and all the tally sheets shall, upon the demand of the judge of the county court, be delivered to said board by the officers so having either of them in his possession. Thereupon the same shall be opened in order and the vote on such proposition ascertained and announced. All of such returns and tallies may be used in ascertaining the result, and when, in the opinion of said board, any doubt exists as to what the actual vote was, which was cast for or against such proposition in any precinct, or upon the written application of two persons who were at such canvass and who shall make oath that they believe that the returns of the said judges of election as to such proposition are not correct, said county judge shall demand of and receive possession from such county clerk the ballots so cast in such precinct at such election, and it shall then be the duty of said board to open the envelope containing said ballots and to recount the same, and to hear evidence of any person present at such precinct canvass touching the same; and thereupon said board shall announce and declare the vote cast for and against such proposition in such precinct, which shall be conclusive as to the ballots so cast; and thereupon the said judge of the county court so having received possession of such ballots, shall again place them upon a string or twine and place them in the same envelope, or another with like endorsements, and seal the same, and shall write across the face thereof, "Opened by the county judge," and sign his name thereunder, and shall then return such ballots to the possession of the county clerk. Said returns and tallies shall also be returned to the officers from whom received, who shall safely keep the same for six months, and then destroy the same if there be no contest. At the completion of the canvass of all the precincts in such city, the total number of votes cast for and against such proposition in the various precincts, ascertained as aforesaid, shall be added together by said board, who shall then declare the total result; thereupon said county court shall enter an order declaring the number of votes so ascertained, cast for, and the number of votes cast against such proposition, and if such proposition shall have received a majority of the votes cast for and against the same at such election, the court shall, by its order, declare this act adopted; and it shall be the duty of such county judge to file a copy of such order in the office of the secretary of State, and thereupon this act shall become operative and binding, and the law for all elections in such city, and for the electors thereof, and all courts and other persons shall take notice thereof.

2644. Judge or clerk—neglect of duty—penalty — opening returns, etc.] § 11. Any judge of election or clerk of election, who shall willfully neglect to perform any duty imposed upon him by this article, shall be deemed guilty of a felony, and, upon conviction, be imprisoned in a penitentiary for not less than one year and not more than three years. Any judge of election or clerk of election, who shall willfully open, change, tear, mutilate, lose or conceal, or

willfully cause or permit to be opened, changed, torn, mutilated, lost or concealed, any return of votes cast for or against this act, or any tally sheet of votes so cast for or against such proposition after the same has been sealed up and delivered to him to be carried and delivered to the officer of law required by this act to receive the same, shall be deemed guilty of a felony, and, upon conviction, shall be imprisoned in a penitentiary for not less than three nor more than five years.

2645. Stealing or mutilating returns, etc.—penalty.] § 12. Any officer having possession of such returns, tallies or ballots, who shall steal, counsel or assist in stealing, or who shall change or mutilate any return or tally sheet relating to such election, shall be deemed guilty of felony, and, upon conviction, shall be imprisoned in the penitentiary not less than five, nor more than ten years. And any other person who shall steal, counsel or assist in stealing, or who shall change or mutilate or counsel or assist in changing or mutilating any return, ballot or tally sheet relating to such election, shall be deemed guilty of a felony, and on conviction shall be imprisoned in the penitentiary not less than five years nor more than ten years.

2646. Offenses governed by law of the state.] § 13. All other offenses pertaining to the conduct of any election under this article shall be governed by the laws of the State not inconsistent herewith.

2647. Adoption of act by village or town.] § 14. Any village or incorporated town in this state may adopt this act in like manner, and the same shall be submitted to a vote of the people of the said village or town upon written application to said county court of 500 electors in such village or town.

2648. Effect of adoption of the act.] § 15. After and from the time of the adoption of this act as aforesaid, the provisions of the same shall be applicable to such cities, villages or towns, and all laws in conflict therewith shall no longer be applicable to such cities, villages or towns. But all laws or parts of laws not inconsistent with the provisions of this act shall continue in force and be applicable to any such city, village or town, the same as if this act had not been adopted.

ARTICLE II.

ELECTION COMMISSIONERS AND THEIR DUTIES.

2649. Creation of board of election commissioners—term of, etc.] § 1. In every city, village and incorporated town so adopting this act, there shall be created a board of election commissioners, which shall be composed of three members, each of whom shall be designated as an election commissioner, and shall be appointed by the county court in the county in which such city, village or incorporated town shall be located. And such appointment

shall be entered of record in such court, and, when qualified, such commissioner shall be an officer of such court. The first appointment of such commissioner shall be within sixty days after the adoption of this act, and those first appointed shall hold their offices for the period of one, two and three years respectively, and the judge appointing them shall designate the term for which each one shall hold his office, whether for one, two or three years. If the office of either commissioner shall become vacant, it shall thereupon be the duty of such county court to appoint a successor for such unexpired term; after the expiration of the term for which each commissioner is appointed, such court shall, in the same way, nominate and appoint a successor, who shall hold his office for the period of three years, and until his successor is appointed.

2650. Commissioners — how selected — qualifications of — vacancy.] § 2. Two of such commissioners, at least, shall always be selected from the two leading political parties of the State, one from each of such parties, and all shall be legal voters and householders, residing in such city, village or incorporated town, and be men of well-known political convictions and of approved integrity and capacity. No commissioner can hold any other public office. Whenever it shall come to the knowledge of such judge of the county court that one of the leading political parties of the State is not represented upon such commission by a person of the same political faith, he shall at once remove one of such commissioners and fill the vacancy with a member of the leading political party not so represented.

2651. Removal on complaint — ground of.] § 3. Such judge of the county court may, at any time, upon complaint made and cause shown, satisfactory to him, after notice to such commissioner, and an opportunity to be heard, remove any such commissioner and enter of record in the court such order of removal, and there shall be no appeal from such order. Such complaint must be signed and sworn to by at least twenty-five legal voters of such city, village or incorporated town, and must state the grounds of such complaint.

2652. Organization of board—officers—oath—official bond—office — books, etc.] § 4. Within twenty days after such first appointment shall be made, such commissioners shall organize as a board by electing one of their number as chairman, and one as secretary; and they shall perform the duties incident to such offices. And upon every new appointment of a commissioner such board shall reorganize in like manner. Each commissioner, before taking his seat in such board shall take an oath of office before such county judge, which in substance shall be in the following form:

“I,, do solemnly swear (or affirm) that I am a citizen of the United States, and have resided in the city of....., in the State of Illinois, for a period of ten years last past, and that I am a legal voter and house-holder in said city and State. That I will support the Constitution of the United States, and of the State of Illinois,

and the laws passed in pursuance thereof, to the best of my ability, and will faithfully and honestly discharge the duties of the office of election commissioner for said city.”

Which oath, when subscribed and sworn to before such judge, shall be filed in the office of the county clerk of said county, and be there preserved. Such commissioner shall also, before taking such oath, give an official bond in the sum of \$10,000, with two securities, to be approved by said judge, conditioned for the faithful and honest performance of his duties and the preservation of the property of his office. Such board of commissioners shall at once secure and open an office sufficient for the purposes of such board, which shall always be kept open during business hours of every day, Sundays and legal holidays excepted. Upon the opening of such office, the county clerk of the county in which such city, village or incorporated town is situated, shall, upon demand, turn over to such board, all registry books, poll books, tally sheets and ballot boxes heretofore used, and all other books, forms, blanks and stationery of every description in his hands in any way relating to elections or the holding of elections within such city, village or incorporated town.

2653. Board to provide ballot boxes, etc.] § 5. Such board shall provide all necessary ballot boxes and all registry books, poll books, tally sheets, blanks and stationery of every description with printed headings and certificates, necessary and proper for the registry of voters and the conduct of such election, and for every incidental purpose connected therewith.

2654. Chief clerk — powers and duties of.] § 6. Said board shall have the right to employ a chief clerk, who shall have charge of the office of said board, and who shall be present and in attendance at all proper business hours. Such chief clerk shall take an oath of office before such county judge, to the effect that he will honestly and faithfully perform all the duties of such office, under the direction of said board, which shall be preserved in the same way, and he shall be under the direction of said board, and he shall have the right to administer all oaths required under this act to be administered by either of said commissioners. Such additional assistance may be employed by said board from time to time, as may be necessary, with the consent and approval, previously entered of record, by said county court, or which may afterwards be approved by such court.

2655. Commissioners to establish election precincts — size of.] § 7. It shall be the duty of said board of commissioners, within two months after its first organization, to divide such city, village or incorporated town into election precincts, which shall contain as nearly as practicable three hundred actual voters, and in making such division, and establishing such precincts, such board shall take as a basis the poll books, or the number of votes cast at the last previous presidential election. Within ninety days after each presidential election, such board shall revise and rearrange such pre-

cincts on the basis of the votes cast at such election, making such precincts to contain, as near as practicable, three hundred actual voters, measured by the vote of such election, but at any time and in all instances where the vote cast at any precinct, at any election, equals four hundred and fifty, there must be a rearrangement, so as to reduce the vote to the standard of three hundred, as near as may be. The precincts in each ward, village or incorporated town shall be numbered from one upwards consecutively.

2656. General registration of voters.] § 8. After the first organization of such board of commissioners it shall prepare for a new and general registration of voters for the next general city or village election, or general State or county election, as the case may be, and when made, such registry shall be continued and revised in the manner hereinafter provided.

2657. Judges and clerks—appointment and qualifications of.] § 9. Said board of commissioners shall, at least sixty days prior to such election, select and choose three electors, who shall be householders, as judges of election for each precinct in such city, village or incorporated town. They must be citizens of the United States, and entitled to vote in the ward, village or incorporated town in which such precinct is located, at the next election, and they must be men of good repute and character, who can speak, read and write the English language, and be skilled in the four fundamental rules of arithmetic, and they must be of good understanding and capable; they must reside in the precinct of the village, city or incorporated town, at which they are selected to act, and they must not hold any office or employment under the United States, the State of Illinois, or under the county, city, village or town in which such election is to be held, and they must not be candidates for any office at the next ensuing election. Two clerks of election shall be selected within the same time by said board, who shall possess the same qualifications as the judges, except that they need not be householders. Being a notary public shall be no disqualification for judge or clerk.

2658. Notice—examination—confirmation—rejection—exemption—refusal to serve—penalty.] § 10. Each and every person so selected by the board of election commissioners shall be notified of the fact of his selection, with direction to appear, within the time fixed in the notice, before such board for the purpose of examination, and if, upon examination, he is found qualified, he shall, unless excused by such commissioners, by reason of ill health, or old age, be bound to serve as such officer for the term of one year; if his appointment shall be confirmed by the county court. Said commissioners shall keep books in which shall be written down the names of all such judges and clerks agreed upon before such notification, to appear before them, and if, when they appear, they shall be rejected for want of qualification, such fact shall be noted on said books opposite their names, and if excused on the ground of ill health or old age, such fact shall be noted, in like manner also, if they do not appear for examina-

tion, such fact shall be noted. No person shall be compelled to serve as judge or clerk, for three years after the expiration of his term of service. The judges and clerks of election shall be exempt from jury duty during the term of their service, and for two years thereafter. In case such person, so selected and notified to appear for examination, shall not appear before such board as required, or if he does appear, and shall refuse to serve, he shall forfeit not less than one hundred dollars nor more than three hundred dollars, unless it shall appear that he was not qualified for such service for any reason herein stated.

2659. Appointment and removal of judges and clerks.]
 § 11. In the selection of judges of election, at least one judge shall be selected from each of the two leading political parties or organizations of the State, to serve in each precinct, and one clerk of election shall be selected from each of the two leading political parties of the State, to serve in each precinct. Each of the commissioners shall have a veto upon the proposed selection or nomination of any judge or clerk, and if, in any instance, in consequence of such veto, the board cannot agree upon such appointments, then the names of six persons who are eligible, shall be selected, for judge or clerk, as the case may be, by the commissioner or commissioners belonging to the leading political party entitled to be represented by such judge or clerk, and out of said six names the other commissioner or commissioners representing the other leading political party of the State, shall select the name of such judge or clerk, who, when so selected, shall be the judge or clerk, if otherwise eligible, if he will serve or shall be not excused for cause, and if he shall be confirmed by the county court. In case the persons so selected for judges or clerks do not appear for examination on notification, then some other persons shall be selected and notified as aforesaid, until some eligible person is found who will serve. In all cases where the parties aforesaid do not appear and be examined, or if they do appear and refuse to serve, it shall be the duty of the commissioners, by the corporate name of the board of commissioners of election, to prosecute such persons for such forfeiture above provided, and collect and pay over the same into the county treasury, and the failure of such board of commissioners of election, or either of them, to prosecute such persons shall be sufficient cause for removal from office, and when established, the county court shall so remove such commissioner or commissioners from office.

2660. The judges and clerks to be selected from the different political parties.] § 12. The leading political party represented by a minority of all the commissioners in said board, shall be entitled to one of the judges and one of the clerks in each precinct with an even number, and to two of the judges and one of the clerks in each precinct with an odd number, and the other leading political party shall be entitled to two judges in the even, and one judge in the odd numbered precincts, and also shall be entitled to one clerk in each precinct, and it shall be the duty of such commissioners to observe this division in all respects in making such appointments. If there

should be three political parties represented in said board of commissioners, then each of such parties shall have one representative as judge in each precinct, as far as practicable, to be selected under some rule to be adopted by such board. And if there be not three political parties represented upon such board, yet if there be a third political party in such city, respectable in numbers, said commissioners may, in their discretion, select a judge from said party for each precinct, if a proper person for such position can be found, in such manner as said board may agree upon.

2661. Selection of judges and clerks to be returned to county court—confirmation—vacancies, how filled—removals.]
§ 13. After the judges and clerks are selected and have agreed to serve, then a report of such selections shall be made and filed in the county court, and application shall then be made by said board to said court for their confirmation and appointment, whereupon the county court shall enter an order that cause be shown, if any exist, against the confirmation and appointment of such persons so named, on or before the opening of the court, on a day to be fixed by the court. And said board of commissioners shall immediately give notice of such order, and the names of all of such judges and clerks so reported to such county court for confirmation, and their residence, and the precinct for which they are selected, by causing the same to be published in one or more newspapers in such city, village or incorporated town, and if no newspaper be published in such city, village or incorporated town, then by posting such notice in three of the most public places in such city, village or town, and if no cause to the contrary be shown prior to the day fixed, such appointments shall be confirmed by order entered by that court. If objections to the appointment of any such judge or clerk be filed within the time aforesaid, the court shall hear such objections and the evidence introduced in support thereof, and shall confirm or refuse to confirm such nominations, as the interests of the public may require. No reasons need be given for a refusal to confirm. If any vacancies shall exist by reason of the action of such board or otherwise, at any time, the said board of commissioners shall further report and nominate persons to fill such vacancies so existing in the manner aforesaid, and the court in the same way shall consider such nominations, and shall confirm or refuse to confirm the same in the manner aforesaid. The judges and clerks of election must be appointed and confirmed at least thirty-five days prior to the next election. If any vacancy shall occur or exist more than five days before election, the judges or clerks appointed to such places must be confirmed by such court. Such commissioners shall not voluntarily remove any judge or clerk within five days of such election, except for flagrant misbehavior, incapacity or dishonesty. And the reasons therefor must afterwards be reported in writing to such court, and if such removal be willful and without cause, said commissioners shall be guilty of a misdemeanor under this act, and be subject to removal.

The same form shall be observed as to applications made on the second day as are required on the first day of registry.

If at the end of such day's registration, the said registers shall be examined, compared and made to agree, and they shall then be signed by the judges in the same way as at the end of the first day's registry, and similar certificates shall be attached thereto.

The board of election commissioners shall furnish to the board of registry in each precinct a blank book, which shall be named “Verification Lists,” each page of which shall be ruled into three columns, and those on the left-hand side shall be marked thus:

They shall first write the name of such street, avenue, alley or court at the top of the second column, and then proceed to transfer the names to the left-hand page of such "verification lists," according to the street numbers as above indicated.

On the opposite, or right-hand page, the name of the same street, avenue, alley or court shall be written in the second column. If, during either day of registration, any registered voter of the ward, village or incorporated town shall come before the Board of Registry

and make oath that he believes that any particular person upon said registry is not a qualified voter, such fact shall be noted; and after the completion of such "verification lists" such board or one of said judges shall make a cross or check-mark in ink opposite such name. If said judges shall, however, know that any person so complained of is a qualified voter, and shall believe that such complaint was only made to vex and harass such qualified voter, then such name shall not be put upon such list, but shall go upon such list in case any one of the judges desire. Said judges shall, before noon of the next day, hang up such public register at the place of registration, and within the same period of time return the other two registers to the office of said election commissioners. [As amended by act approved June 18, 1891. In force July 1, 1891.]

2677. Duty of clerks—canvass of precincts—how made—verification list—refusal to answer questions—policemen—penalty.]

§ 7. The clerks of election are hereby constituted canvassers of the precinct for which they are appointed, and upon the Wednesday and Thursday following the second day of registration, if so much time shall be required, said two clerks shall go together and canvass such precinct, calling at each dwelling place or each house where any one may reside in such precinct and each dwelling place as indicated upon said "verification lists," and ascertain the name of every male inhabitant over 21 years of age residing in such precinct, and if they shall find that any person upon their "verification lists," on the left-hand page thereof, does not X reside at the place designated thereby, they shall make a check-mark or cross opposite such name.

Said canvassers shall also write down in their "verification lists," on the right-hand page thereof so designated, "names not registered," according to the street and street numbers, all the names of all persons so ascertained by them who reside in such precinct whose names are not already upon their "verification lists." No name shall be written down on said right-hand page which already appears on said left-hand page of such "verification lists." Whenever deemed necessary by said canvassers, or either of them, he or they may demand of the superintendent, captain, lieutenant or other person having command of the police in such portion of the city, village or town, to furnish a policeman to accompany them and protect them in their duties when necessary; and it shall be the duty of such superintendent, captain, lieutenant or other person having authority over such police, in such locality to furnish a policeman for such purpose, and in default thereof such superintendent, captain, lieutenant or other person shall be deemed guilty of a misdemeanor under this act, and shall be liable to penalty not exceeding \$100 nor less than \$25. If, in making such canvass, any person shall refuse to answer questions and give the information asked for, and known to him or her, such person shall be deemed guilty of a misdemeanor under this act, and shall be liable to a penalty not to exceed \$50. In making such canvass said canvassers shall make special inquiry at the residences as designated in the regis-

2678. Canvass to be compared with register—names may be added to verification list—notice to persons on list—duty of canvassers—penalty.] § 8. Immediately upon the completion of such canvass, said canvassers, or one of them, shall sign a notice and send the same through the United States mail, duly stamped, to the address given upon the registry and "verification lists," of all persons named therein against whose names they have made a cross or check-mark, indicating that they did not reside in such place as before stated, and also to the address of all persons against whose names said Registry Board or judge of election has placed a check-mark or cross in such "verification lists," which notice shall require such person to appear before the Board of Registry upon the Saturday following, giving the time of such session, and to show cause why his name should not be erased from such registry. Proper blanks and postage stamps shall be furnished for the purpose to said canvassers by the Board of Commissioners. A similar notice shall be also served by one of said canvassers, either at the time such canvass is being made or before the following Saturday, by leaving the same with the party, if found, or, if he is not found at the place designated in such registry and "verification lists," by leaving the same at such address if there be such a place. Such notice to be sent through the mail, must be mailed not later than 10 o'clock Friday morning of the week of such canvass. If sufficient postage stamps are not delivered to such canvassers by said board for the purpose aforesaid, then any one may furnish such postage stamps to such canvassers for that purpose, or such canvassers may procure the same at their own expense and afterward render an account therefor to said commissioners, duly sworn to, and it shall be the duty of the said commissioners to audit such account and cause the same to be paid. It shall be the duty of such commissioners, upon application, to deliver to such canvassers postage stamps sufficient for the purpose aforesaid, when not delivered before, and it shall be the duty of such canvassers, or one of them, to apply to said commissioners for such postage stamps, if sufficient number have not been delivered to them for the purpose aforesaid, and any willful neglect of said canvassers to make application for sufficient postage stamps as aforesaid, and any willful neglect of such canvassers to mail the notice aforesaid to all of the parties checked and designated as aforesaid, and the willful neglect of such canvassers to leave the notice aforesaid at the place designated for such person so designated and any willful neglect to check the name of any person on said "verification lists" transferred from the registry as aforesaid and not found at the place designated, and any willful neglect to transfer all the names from the registry as aforesaid to such "verification lists" in the manner aforesaid, shall be deemed a misdemeanor, and such canvasser or canvassers shall be punished, upon conviction thereof, by imprisonment in the

county jail for not less than one month nor more than one year, and such canvassers shall also be liable to be punished by the county court of the proper county as for contempt and be fined not less than \$50, or imprisoned in the county jail by such court for a period not exceeding 100 days, or both, in the discretion of the court. And it shall be the duty of said Board of Election Commissioners, when complaint is made to them, to investigate the action of such clerks or canvassers, and to cause them to be brought before such county court and to prosecute them as for contempt, and also, at their discretion, to cause them to be prosecuted criminally for such willful neglect of duty. [As amended by act approved June 18, 1891. In force July 1, 1891.]

2679. Third meeting of board — revision of register — adding and erasing names — notice to parties — powers of board — application to election commissioners.] § 9. On the Saturday following the Tuesday two weeks preceding such general county, city, village, town or State election, said Board of Registry shall again meet at the place designated, and the said clerks of election shall meet with them, and they shall remain in session from 6 o'clock p. m. to 10 o'clock p. m. for the sole purpose of revising their registry, and no new names shall be added. Said canvassers, or one of them, shall make out a list of the names of parties checked and designated as aforesaid and to whom such notice has been sent, given or left with the address, and make and attach his or their affidavit or affidavits thereto, stating that notice duly stamped was mailed to each of said parties at the places designated on such list, on or prior to 10 o'clock a. m. of the previous Friday, and that notice was also personally left at the said address of each of said parties named in said list so attached, if there be any such address. Blank affidavits shall be furnished by said commissioners for the purpose aforesaid; but if none are furnished such canvassers shall cause the same to be drawn, and they shall swear to such affidavit before one of the judges of such precinct. If either of said canvassers shall willfully neglect and fail to make such affidavit with the list aforesaid attached, he shall be punished in the same manner as last above provided, and if such affidavit shall be willfully false the maker thereof shall also be punished in the manner last aforesaid, and shall also be liable for perjury.

If any person to whom such notice has been sent shall appear before the Board of Registry during that session he shall make oath and sign an affidavit, in substance, as follows:

“I do solemnly swear that I am a citizen of the United States, and that I have resided in the.....precinct of the.....ward in the city of.....and the county of....., and the State of Illinois, since the.....day of....., and that I have never been convicted of any crime (or if convicted, state the time and when pardoned by the Governor of any State).”

This affidavit shall be signed and sworn to before one of such Board of Registry, and it shall be preserved and filed in the office of said elec-

tion commissioners. Thereupon said Board of Registry shall further examine him, and shall also swear such canvassers, and hear them upon the question, and they shall also have the power to send one or both of said canvassers to make further examination, and inquire at the place claimed by such person to be his residence, and again examine such canvassers touching the same; and if, after such further examination and hearing, the majority of said board are of the opinion that such person is not a qualified voter in such precinct, they shall mark the word "Yes" under the column of the registry marked "erase," and shall also draw a line in ink under his name, which memorandum, in case of any registration, shall indicate that the name of such person is erased from the register, and such person shall not be entitled to vote unless his name be restored as hereinafter provided. During the last hour of said session, if any person so notified to appear at such session has not yet appeared and shown cause why his name should not be erased from such register, the same shall be erased in the manner aforesaid. Persons whose names have been so erased may make application in writing to said Board of Election Commissioners within two days thereafter to be restored to such register as in the cases before provided for. Either of said clerks shall have the power and right of both in the matter pertaining to such canvass, except that both are required to go together and make such canvass; but in case either refuses or neglects to go and make such canvass as aforesaid, then the other may make such canvass alone. But a clerk who willfully neglects to perform his duty in making such canvass shall be deemed guilty of a misdemeanor, and on conviction shall be imprisoned in the county jail not exceeding sixty days nor less than thirty days, and shall also be deemed guilty of a contempt of court, and be punished accordingly as an officer of said county court. In case of temporary disability on the part of either canvasser or clerk, the judge who belongs to the same party may appoint a temporary clerk or canvasser, who shall belong to the same party, and administer to him the usual oath of office, and he shall perform all the duties of the office until the disability of the regular clerk or canvasser is removed.

The "verification lists" aforesaid, after the final revision, shall be at once returned by the Board of Registry to the Board of Election Commissioners, and within thirty days after such election such Board of Election Commissioners shall turn over said "verification lists" to the clerk of the county board, to be used by such county board in the preparation of jury lists; and it shall be made the duty of such county board to carefully keep such lists arranged in order; and from the legal voters of such lists of "names not registered" such county board shall first prepare such jury lists, and afterward from the legal voters of such lists of "registered names." of registry and said clerks shall compare and correct the three registers aforesaid and make them correspond and agree, and said judges shall then, immediately following the last name on each page of the register, sign their names, so that no other names can be added without discovery, and shall add the certificate as provided at former sessions. And thereupon and during the forenoon of the next day, said judges shall hang up the registry, known as the public register, in the place of registration for the use of the public, and shall return the other two registers to the possession of the board of election commissioners; and thereupon the said board of commissioners shall at once cause copies to be made of such registers of all names upon the same with the address not marked erased, and shall have the same arranged according to the streets, avenues, courts or alleys, commencing with the lowest number, and arranging the same in order according to the street numbers, and shall then cause such precinct register, under such arrangement, to be printed in plain large type in sufficient numbers to meet all demands, and upon application, a copy of the same shall be given to any person in such precinct. Said commissioners may, in their discretion, cause such precinct register to be published in one or more newspapers published in said city.

2681. Application to erase name—notice.] § 11. Any voter or voters in the ward, village or town containing such precinct, may make application in writing before such board of election commissioners to have any name upon such register of any precinct in the ward erased which application shall be in substance, in the words and figures following:

This section is made applicable, and it shall be the duty of the judges of election to observe it after each and every election.

2697. Special elections—no revision of registry—how conducted.] § 27. At any special election occurring in a portion of such city, village or town only, or which is to fill a vacancy occurring in a single office, and at all judicial elections, at which no other than judicial officers are to be elected, there shall not be a previous revision of the registry. But at such special or judicial election any legal voter of a precinct shall be entitled to vote in case he shall file with the judges of election an affidavit, stating the time when he removed into

such precinct and the length of his legal residence in such precinct, county and State, and that he has removed into that precinct since the last registration of electors at the last election, and that he is a legal voter of such precinct, supported by an affidavit of a registered voter and householder of the precinct that he knows such person, and that his statements as to his time of residence, as aforesaid, are correct, and that such person is a legal voter in such precinct. But it shall be the duty of such judges of election to examine him on oath as to his qualifications, and, if they are of the opinion that he is not a legal voter, or did not remove into such precinct since the last general or intermediate registration, they shall not accept of his vote. Any vacancy upon such board of registry, on the day of registration, shall be filled by the judge or judges present, always selecting a person of the same political party as the party absent, and the same oath shall be administered by one of the judges present to such temporary judge, as provided for regular judges. Whenever any regular judge shall return or be present, such temporary incumbent shall vacate his office.

2702. Time of opening and closing polls—presence of judges and clerks.] § 1. The election polls shall be opened at six o'clock in the morning, and continued open until four o'clock in the after-

No judge or clerk shall absent himself to exceed five minutes at any time, until the ballots are all cast and counted and returns made, except one at a time of such judges or clerks may absent himself for sufficient time to cast his vote in the precinct where he belongs. And when absent for any cause, said judge or clerk shall authorize some one of the same political party with himself to act for him until his return.

2703. Judge or judges present may fill place of absent judge — absence — penalty — detaining register, etc.] § 2. If any judge or clerk shall not be present after the expiration of fifteen minutes from the time to open the polls, the judge or judges present shall fill the place of such absent judge or clerk, always selecting a person of the same political party as the party absent. And one of the judges shall administer to such substitute the oath, as required of the judge or clerk originally appointed, and blank forms shall be sent out by the commissioner for such purpose, which oath shall be preserved and returned to the commissioners, and such appointee shall be considered an officer of the county court, and subject to the same punishment and penalties as any other judge or clerk. Whenever such regular judge or clerk shall be present such substitute shall cease to act. Any judge or clerk who shall willfully absent himself from the polls on election day, without good cause, shall be guilty of a misdemeanor, and be subject to a fine or penalty of five hundred dollars. And if such judge or clerk shall willfully detain any register or poll book, and not cause it to be produced at the polling place, at the opening of the polls, or for fifteen minutes thereafter, he shall be deemed guilty of a misdemeanor, and on conviction, shall be imprisoned not less than three months nor more than one year in the county jail, or be fined not less than two hundred dollars nor more than one thousand dollars.

2704. Ballot box not to be removed from public view—penalty—removal of obstruction.] § 3. Before voting begins the ballot box shall be empty and shall be opened and shown to those present to be empty; and it shall not be removed from the public view from the time when it is shown to be empty until after the close of the polls. It shall be locked and the key delivered to one of the judges, and shall not be again opened until the close of the polls. The judges of election shall each be held guilty of a misdemeanor, and on conviction shall be fined a thousand dollars, if such ballot box shall not be kept constantly in public view during the progress of the election; unless it shall be shown by such judge that he protested against such obstruction of the view of the ballot box, and was overruled by the majority of the judges. If any barricade or other obstruction of any kind shall be, prior to or during such election, interposed, so that all who desire cannot constantly see such ballot box, it shall be the duty of such judges to remove such obstruction on request or on their own

motion, and if such obstruction shall not be removed on request, it shall be the duty of any sheriff, constable or police officer to remove the same on request. And such judges shall be guilty of a misdemeanor and liable to a penalty of a thousand dollars on conviction for not removing the same on demand, and shall be imprisoned in the county jail not less than six months nor more than two years. Any judge or justice of the peace shall have jurisdiction, on complaint, to issue a warrant to any constable or the sheriff of the county to remove such obstruction as a nuisance; and in executing such warrant he may call any person to his assistance, and no other officer of the law or private individual shall interpose or interfere with such removal; and if he does he shall be guilty of a misdemeanor, and on conviction shall be imprisoned in the county jail not less than sixty nor more than ninety days.

2706. Name on ballot.] § 5. Each voter may write his name upon the back of his ballot with ink or in pencil.

2707. How ballots received—challenged—blank affidavits.] § 6. One of said judges of said election shall receive the ballot from the voter, and shall announce the residence and name of such voter in a loud voice. And the other two judges shall use and handle the two registers delivered to the judges by said commissioners, each using one. And when the name is found by both upon the registers, and the residence, as given by such voter, corresponds with the residence on such registry, and he is marked as a qualified voter therein, and not erased, then such judge shall receive such ballot unless such voter is challenged, and shall fold the same, if it be not folded, and shall mark the number of such vote thereon, which shall correspond with the number as then and there entered by said poll clerks upon the poll books. Said judge shall then put said vote into the ballot box in the presence of the voter and of the judges and clerks of election, and in plain view of the public. The judges having charge of such registers shall then, in a column prepared thereon, in the same line of the name of the voter, marked "voted," or the letter "V." If such person so registered shall be challenged as disqualified, the party challenging shall assign his reasons therefor, and thereupon one of said judges shall administer to him an oath to answer questions; and if he shall take said oath he shall then be questioned by said judge or judges touching such cause of challenge, and touching any other cause of disqualification. And he may also be questioned by the person challenging him in regard to his qualifications and identity. But if a majority of the judges

are of the opinion that he is the person so registered and a qualified voter, his vote shall then be received accordingly. But if his vote be rejected by such judges such person may afterward produce and deliver an affidavit to such judges, subscribed and sworn to by him before one of said judges, in which it shall be stated how long he has resided in such precinct, county and State, that he is a citizen of the United States, and is a duly qualified voter in such precinct, and that he is the identical person so registered. Also supported by an affidavit by a registered voter who is a householder residing in such precinct, stating his own residence, and that he knows such person, and that he does reside at the place mentioned, and has resided in such precinct, county and State for the length of time as stated by such person; which shall be subscribed and sworn to in the same way. Whereupon the vote of such person shall be received, numbered and entered as other votes. But such clerks and the judges, having charge of such registers, shall state in their respective books the facts in such case, and the affidavits, so delivered to said judges, shall be preserved and returned to the office of the commissioners of election. Blank affidavits of the character aforesaid shall be sent out to the judges of all the precincts, and the judges of election shall furnish the same on demand and administer the oaths without criticism. Such oaths, if administered by any other officer than such judge of election, shall not be received.

2708. Voter's name must be on register.] § 7. The vote of no one shall be received by said judges whose name does not appear upon said registers as a qualified voter.

2709. Political parties — challengers — watchers — canvass — policemen to be present.] § 8. At every election each of the political parties shall have the right to designate and keep a challenger at each place of registration, revision of registration and voting, who shall be assigned such position immediately adjoining the judges of election, inside the polling or registration booth as will enable him to see each person as he offers to register or vote, and who shall be protected in the discharge of his duty by the judges of election and the police. And authority signed by the recognized chairman or presiding officer of the chief managing committee of a party in any such city, village or incorporated town, shall be sufficient evidence of the right of such challenger to be present inside the room where the ballot box is kept. But in case any challenger cannot or does not produce the authority of such chairman, it shall be the duty of said judges of election to recognize a challenger that shall be vouched for and presented to them by the persons present belonging to such political party, or who shall be vouched for by the judge representing such party. The chairman of the managing committee of each political party for such city, village or town may remove any challenger appointed by him. The challenger so appointed and admitted to the room where such ballot box is kept shall have the right and privilege of remaining during the canvass of the votes, and until the returns are

duly signed and made. Each political party shall also have the right to a challenger placed conveniently outside of the polling booth, but not in the way of the voters. In addition to such challenger, each of the political parties casting votes at such poll at the close of the polls, shall have the right to the admission of two persons of their political faith into the room where such ballots are to be canvassed, to watch such canvass, which watchers may be selected by the captain of the ward or precinct, or other persons managing the political interests for such party in such ward or precinct, and in the absence of such selection it shall be the duty of the judges of such election to admit into such room two persons of each political party so voting at such election, and who shall be vouched for by the judge or judges representing such political party, to be present during the canvass of such votes and the making of such returns. That such persons shall be of good character, and sober, and shall in no wise interfere with such canvass. The police shall in no manner interfere with the entrance of such watchers into such room, but they shall keep order, and in case of any disorderly conduct on the part of any bystanders or watchers, it shall be the duty of the police to exclude such persons from such room. It shall also be the duty of such judges of election to admit one or more policemen to be present in such room at the time of such canvass.

2710. Authority of judges—person making arrest.] § 9. Said judges of election shall have authority to keep the peace and to cause any person to be arrested for any breach of the peace or for any breach of election laws, or any interference with the progress of such election or of the canvass of the ballots; and it shall be the duty of all officers of the law present to obey the order of such judges of election, and an officer making an arrest by direction of any judge shall be protected in making such arrest the same as if a warrant had been issued to him to make such arrest.

2711. Judicial election—official ticket holders—badge—duty of ticket holders—penalty.] § 10. It shall be the duty of the board of election commissioners, at any judicial election, at which no other officers are to be elected than a judge or judges, to appoint two competent and discreet persons residing in any ward, village or town, to act as official ticket holders for each precinct on the day of election, one from each of the leading political parties of the State, and who shall wear a badge indicating that they are such official ticket holders. Such commissioners shall furnish them with a box conveniently arranged to contain such tickets or ballots. And it shall be the duty of both such official ticket holders to keep on hand, if furnished to them, tickets of each candidate at such election in such precinct, and to furnish the ticket asked for by any person, irrespective of party. It shall be the duty of such official ticket holders to preserve and protect such tickets and not to destroy the same, and to prevent their needless destruction. Such official ticket holders shall be present at such polls from the opening to the close. Any such official ticket holder neglecting to perform his duty or who shall desert his place, or who shall corruptly

use his position, or who shall, in any way interfere in such election, or who shall canvass for voters for either party or for any person, shall be guilty of a misdemeanor, under this act, and shall forfeit his fee or salary for such service, and on conviction shall be imprisoned in the county jail not less than thirty, nor more than sixty days. Such ticket holder shall be protected by the police, and a majority of said judges of election at such precinct may for misconduct, remove any such official ticket holder and appoint another in his place of the same political party, and such removal shall be enforced by any police officer.

2712. Canvass to commence immediately upon close of poll— not to be adjourned—challengers and watchers to be present.]

§ 11. As soon as the poll of an election shall have been finally closed, the judges of election, in their several precincts, shall immediately and at the place of the poll, proceed to canvass the votes so cast. Such canvass shall not be adjourned or postponed until it shall have been fully completed, nor until the several statements hereinafter required to be made by the judges and clerks, shall have been made out and signed by them. The judges of election shall have the right to station one or more police officers, or officers of the peace, at such entrance to the room where such canvass is begun, or about to take place, to exclude disorderly persons, and to keep the peace. The challengers present, and the watchers of such canvass shall be allowed to be present, and so near that they can see that the judges and clerks of said election are faithfully performing their duties. Each candidate for an office to be filled at such election, by certificate in writing, signed by him, may designate one person for each election precinct in which he is a candidate, to be present at such canvass of the ballots, and such persons shall be admitted to a position in said room as a watcher of such canvass. And the judges of election shall permit him to be present, and be so near to them that he can see that such canvass and the statements required by them of the votes are correctly made, and no judge of election or police or other officer shall allow such person to be molested or removed during the canvass of such ballots, nor until such statements have been made, completed and signed, unless he shall be personally guilty of fraudulent or disorderly conduct.

2713. Canvass of votes—how made.] § 12. The judges of election shall first count the whole number of ballots in the box. If the ballots shall be found to exceed the number of names entered on each of the poll lists, they shall reject the ballots, if any, found folded inside of a ballot that is marked, and upon which there is no mark. And if the ballot and the poll lists still do not agree after such rejection, they shall reject as many of the ballots upon which no number is marked as may be necessary to make the ballots agree in number with the names entered on each of the poll lists. And if, after rejecting all the ballots upon which there is no number marked, the number of ballots in the box still exceeds the number of names en-

tered on each of the poll lists, the ballots shall be replaced in the box, and the box closed and well shaken, and again opened; and one of the judges shall publicly draw out and destroy so many ballots unopened as shall be equal to such excess. And the ballots or poll lists agreeing, or being made to agree in this way, the board shall proceed to count the votes in the following manner: Said judges shall open the ballots, and place those which contain the same names together, so that the several kinds shall be in separate piles, or on separate files. Each of the judges shall examine the separate files which are, or are supposed to be alike, and exclude from such files any which may have a name or an erasure, or in any manner shall be different from the others of such file. One of said judges shall then take one file of the kind of ballots which contain the same names, and count them by tens, carefully examining each name on each of said ballots. Such judge shall then pass the ten ballots aforesaid to the judge sitting next to him, who shall count them in the same manner, who shall then pass them to the third judge, who shall also count them in the same manner. The third judge shall then call the names of the persons named in the ten ballots, and the offices for which they are designated; and the poll clerks shall tally ten votes for each of such persons. When said judges shall have gone through such file of ballots containing the same names, by tens in that way; and when the poll clerks shall have tallied all the votes by tens for each of such persons, they shall then take up the next file of ballots containing the same names, and shall count them by tens in the same way; and shall call the names of the persons named in said ballots, and the offices for which they are designated; and the tally clerks shall tally the votes by tens for each of such persons in the same manner as in the first instance. When the counting of each file of ballots which contain the same names shall be completed, the poll clerks shall compare their tallies together and ascertain the total number of ballots of that kind so canvassed. And when they agree upon the number, one of them shall announce it in a loud voice to the judges. The said judges shall then canvass the other kinds of ballots which do not correspond, those containing names partly from one kind of ballots and partly from another, being those usually called "split tickets," and those from which the name of the person proper to be voted for on such ballots has been omitted or erased, usually called "scratched tickets." They shall be canvassed separately by one of the judges sitting between the two other judges, which judge shall call each name to the poll clerks, and the office for which it is designated; and the other judges, looking at the ballot at the same time, and the poll clerks making tally of the same. When all the ballots have been canvassed in this manner, the poll clerks shall compare their tallies together, and ascertain the total number of votes received by each candidate, and when they agree upon the numbers, one of them shall announce in a loud voice to the judges the number of votes received by each candidate on each of the kinds of ballots containing

his name, the number received by him on the split and scratched tickets, and the total number of votes received by him.

2714. Ballots strung.] § 13. Each batch of ten ballots counted by the judges of election shall, as soon as counted, read and tallied, be strung upon a strong string, thread or twine, in the order in which they have been read; and each batch shall be thus disposed of before the commencement of the count as to the next batch.

2715. When proposition submitted--how vote canvassed.] § 14. Whenever any proposition is submitted to a vote of the people, and is printed or written upon the same ticket, with the names of candidates for an office, the names, together with such proposition, shall be canvassed in the following manner: All the ballots shall be first separated into three piles. The first pile containing all the ballots in favor of such proposition, the second pile containing all the ballots against such proposition, and the third pile containing all the ballots not mentioning such proposition, or being neither for nor against such proposition. Each of the judges shall then examine each pile, and see that the separation has been properly made. Then the first pile shall be counted by tens, and the result announced to the clerk, who shall tally the same by tens. And so the second pile shall be counted, announced and tallied, and likewise the third pile, if necessary. Whereupon the clerks shall announce to the judges the number of votes for and the number of votes against such proposition. The ballots for or against any proposition submitted shall always be canvassed, counted and tallied before the names of candidates for any office are canvassed, counted or tallied.

2716. When tally sheets contain no heading for proposition--duty of judges.] § 15. If the tally sheets and returns should contain no heading for any proposition submitted, it shall be the duty of the clerks to write into such tally sheets and returns the headings necessary in order to keep a correct tally, and to make a correct and accurate return, and it shall be the legal duty of the clerks and judges of election to make a true count and correct return of all votes upon any such proposition, and any willful failure or neglect of any judge or clerk to do so shall constitute a felony and on conviction such judge or clerk shall be sent to the penitentiary for not less than three years nor more than five years.

2717. Judges to proclaim number of votes, etc.] § 16. When the canvass of the ballots shall have been completed and the poll clerks shall have announced to the judges the total number of votes received by each candidate, each of the judges of election in turn shall then proclaim in a loud voice, the total number of votes received by each of the persons voted for in such precinct, and the office for which he is designated; and the number of votes for and the number of votes against any proposition which shall have been submitted to a vote of the people. Such proclamation shall be *prima facie* evidence of the result of the canvass of such ballots.

2718. Returns — what to contain — certificate of judge and clerks — to whom directed.] § 17. The said judges or election shall make quadruple statements of the result of the canvass, one of which shall be written or partly written and partly printed, in each of the poll books used at such election. Each of the statements shall contain a caption stating the day on which, and the number of the election precinct and the ward, city and county in relation to which such statements shall be made; and the time of opening and closing of the polls of such election precinct. It shall also contain a statement showing the whole number of votes given for each person, designating the office for which they were given, which statements shall be written or partly written and partly printed, in words at length; and in case a proposition of any kind has been submitted to a vote at such election, such statements shall also show the whole number of votes cast for or against such proposition, written out or partly written and partly printed in words at length. And at the end thereof a certificate that such statement is correct in all respects. Which certificate and each sheet of paper forming part of the statement, shall be subscribed by the said judges and election clerks. If any judge or election clerk shall decline to sign such return, he shall state his reasons therefor in writing, and a copy thereof signed by himself shall be enclosed with each return. Each of the statements, except the one contained in each of the poll books, shall be enclosed in an envelope, which shall then be securely sealed with sealing wax or other adhesive material; and each of the judges and each of the election clerks shall write his name across every fold at which the envelope, if unfastened, could be opened. One of the envelopes shall be directed to the county clerk, and one to the comptroller of the city, or to the officer of such city, whose duties correspond with those of comptroller. Each set of tallies shall also be signed by the election clerks and the judges of the election. And each shall be enclosed in an envelope, securely sealed and signed in like manner; and one of the envelopes shall be directed on the outside to the election commissioners, and the other to the city, village or town clerk. On the outside of every envelope shall be endorsed whether it contains the statement of the votes cast or the tallies, and for what precinct and ward, village or town.

2719. One ballot of each kind to be pasted to returns, etc.] § 18. Before enclosing in an envelope the statements or returns aforesaid, and after signing the same, said judges shall securely paste or attach to each return one ballot of each kind found to have been given for the officers to be chosen at such election, and they shall state in words at full length, immediately opposite such ballot, and written partly on such ballot and partly on the paper to which it shall be pasted or attached, so that one of each kind of ballots received at such election for the officers then to be chosen shall be pasted or attached to such statement of such canvass. If only one ballot of any kind shall be found in the ballot box, it shall be pasted or attached

to the statement to be delivered to the board of election commissioners, and if only two ballots of any kind are found in the box, one shall be pasted or attached to the statement to be delivered to the board of election commissioners, and the other statement to be delivered to the county clerk. They shall also paste or attach all the ballots rejected by them as being deficient, in whole or in part to the statement, to be delivered to the board of election commissioners.

2720. Poll books to be placed in ballot box, etc.] § 19. The poll books, which contain two of the several statements or returns, shall be placed in the ballot box, and the ballot box shall then be locked and the key removed, whereupon said judges of election shall all write their names upon a strip of paper of sufficient length for the following purpose: Said strip of paper, after the signing of their names thereon by said judges shall then be pasted over the keyhole in said ballot box, and extending upward to the upper lid of the box, and carried for some distance over the top, and it shall be placed in such a way that the signatures of said judges shall extend across the place of the opening of the lid of the box, so that when the box is opened it shall tear such paper and destroy the signatures written thereon, and so that when the key shall be inserted in the keyhole it will tear the paper so pasted over the keyhole. Such paper shall be fastened with sealing wax, or by some other adhesive material, which will not permit the removal of such slip of paper, without defacing the same.

2721. Judges to deliver ballot box, etc., to election commissioners.] § 20. Thereupon one of the judges of election shall take charge of said ballot box and its contents so enclosed, and one of the judges, who shall represent the opposite political party from the one taking the ballot box, shall receive and hold the key thereto. The two judges who do not have charge of the ballot box shall each take one of the statements of the votes cast into his possession, sealed up in the envelopes as aforesaid; and each of the clerks shall take one of the tally sheets sealed up in the envelope as aforesaid. Thereupon, and before separating the remaining ballots not pasted or attached to said statements, as hereinbefore provided, shall be destroyed, and the meeting of said judges and clerks shall then be dissolved. Thereupon, and before twelve o'clock of the day after such election, the judge having possession of such ballot box shall deliver the same with the contents as aforesaid, to the board of election commissioners, with the seal unbroken, and shall receive a receipt therefor; and within the same period of time the judge having possession of such key shall deliver the same to said board of commissioners, and receive a receipt therefor, and the two judges not having possession of the ballot box and the two clerks shall each, before twelve o'clock of the next day after such election, deliver the statements and tallies so in their possession, respectively to the respective officers to whom addressed, as aforesaid, and who by this act are entitled to receive the same, and when delivered each one shall take a receipt from the officer to whom delivered. And none of them shall

receive pay for their services as such judges or clerks without the production of the receipts so given them by the officers aforesaid. It shall be the duty of the respective officers so designated, to whom such statements and tallies are ordered to be delivered, to receive the same, and to safely keep under lock and key until ordered to be surrendered as hereinafter provided.

2722. Commissioners to receive, note condition and open ballot box.] § 21. The said board of election commissioners, upon the receipt of said ballot box, and the key thereto, shall note the condition of the seal or stamp on said box, and enter the fact touching the same upon a book to be kept by them, together with the name of the officer who returned such ballot box. They shall thereupon open said ballot box and remove the poll books containing the returns of the votes cast, and note upon the same memorandum book their condition, and shall put them in a secure place, under lock and key, to which the public in no event shall have access.

and only one, ballot, on the back of which such judge shall indorse his initials in such manner that they may be seen when the ballot is properly folded, and the voter's name shall be immediately checked on the register list. At all elections, when a registry may be required, if the name of any person so desiring to vote at such election is not found on the register of voters he shall not receive a ballot until he shall have complied with the law prescribing the manner and conditions of voting by unregistered voters. If any person desiring to vote at any election shall be challenged he shall not receive a ballot until he shall have established his right to vote in the manner provided by law. Besides the election officer not more than two voters in excess of the whole number of voting booths provided shall be allowed in said inclosed space at one time.

2789. Manner of preparing ballot.] § 23. On receipt of his ballot the voter shall forthwith, and without leaving the inclosed space, retire alone to one of the voting booths so provided and shall prepare his ballot by making in the appropriate margin or place a cross (X) opposite the name of the candidate of his choice for each office to be filled, or by writing in the name of the candidate of his choice in a blank space on said ticket, making a cross (X) opposite thereto; and in case of a question submitted to the vote of the people, by making in the appropriate margin or place a cross (X) against the answer he desires to give: Provided, however, if he shall desire to vote for all of the candidates of one political party or group of petitioners, he may place such mark at the appropriate place preceding the appellation or title under which the names of the candidates of such party or group of petitioners are printed, and the ballot so marked shall be counted as cast for all of the candidates named under that title: Provided, further, that the voter may place such mark at the appropriate place preceding the appellation or title of one party or group of petitioners and may also mark, at the appropriate place preceding the name or names of one or more candidates printed under the appellation or title of some other party or group of petitioners, and a ballot so marked shall be counted as cast for all the candidates named under the appellation or title which has been so marked, except as to the officers as to which he has placed such mark preceding the name or names of some other candidate or candidates printed under the title of some other party or group of petitioners, and as to such it shall be counted as cast for the candidate or candidates preceding whose name or names such mark may have been placed. Before leaving the voting booth the voter shall fold his ballot in such manner as to conceal the marks thereon. He shall then vote forthwith in the manner now provided by law, except that the number corresponding to the number of the voter on the poll books shall not be indorsed on the back of his ballot. He shall mark and deposit his ballot without undue delay, and shall quit said inclosed space as soon as he has voted. No voter shall be allowed to occupy a voting booth already occupied by another, nor remain

within said inclosed space more than ten minutes, nor to occupy a voting booth more than five minutes in case all of said voting booths are in use and other voters waiting to occupy the same. No voter not an election officer, shall, after having voted, be allowed to re-enter said inclosed space during said election. No person shall take or remove any ballot from the polling place before the close of the poll. No voter shall vote or offer to vote any ballot except such as he has received from the judges of election in charge of the ballots. Any voter who shall, by accident or mistake, spoil his ballot, may, on returning said spoiled ballot, receive another in place thereof.

2790. Assistance to illiterate voter.] § 24. Any voter who may declare upon oath that he can not read the English language or that by reason of any physical disability he is unable to mark his ballot, shall, upon request, be assisted in marking his ballot by two of the election officers of different political parties, to be selected from the judges and clerks of the precinct in which they are to act, to be designated by the judges of election of each precinct at the opening of the polls. Such officers shall mark the ballot as directed by the voter, and shall thereafter give no information regarding the same. The clerks of election shall enter upon the poll lists after the name of any elector who received such assistance in marking his ballot a memorandum of the fact. Intoxication shall not be regarded as a physical disability, and no intoxicated person shall be entitled to assistance in marking his ballot.

The employer may specify the hours during which said employe may absent himself as aforesaid. Any person or corporation who shall refuse to an employe the privilege hereby conferred, or shall subject an employe to a penalty or deduction of wages because of the exercise of such privilege, or who shall directly or indirectly violate the provisions of this section, shall be deemed guilty of a misdemeanor and be fined in any sum not less than five dollars (\$5) nor more than one hundred dollars (\$100).

All ballots not voted, and all that have been spoiled by voters while attempting to vote, shall be returned by the judges of election to the officer or authorities charged with the printing and distribution of the ballots and a receipt taken therefor, and shall be preserved six months; such officer shall keep a record of the number of ballots delivered for each polling place, the name of the person to whom and the time when delivered, and he shall also enter upon such record the number and character of ballots returned, with the time when and the person by whom they are returned.

Immediately after making such proclamation, and before separating, the judges shall fold in two folds, and string closely upon a single piece of flexible wire, all ballots which have been counted by them, except those marked "objected to," unite the ends of such wire in a firm knot, seal the knot in such manner that it can not be untied without breaking the seal, enclose the ballots so strung in an envelope and securely tie and seal such envelope with official wax impression seals, to be provided by the judges, in such manner that it can not be opened without breaking the seals, and return said ballots together with the package containing the ballots marked "defective or objected to," in such sealed package or envelope, to the proper clerk or to the board of election commissioners, as the case may be, and such officer shall carefully preserve said ballots for six months, and at the expiration of that time shall destroy them by burning without previously opening the package or envelope. Such ballots shall be destroyed in the presence of the official custodian thereof, and two electors of approved integrity and good repute and members respectively of the two leading political parties. The said electors shall be designated by the county judge of the county in which such ballots are kept; Provided, that if any contest of the election of any officer voted for at such election shall be pending at the expiration of said time, the said ballots shall not be destroyed until such contest is finally determined. In all cases of contested elections the parties

contesting the same shall have the right to have said ballots opened and to have all errors of the judges in counting or refusing to count any ballot corrected by the court or body trying such contest; but such ballots shall be opened only in open court or in open session of such body and in the presence of the officer having the custody thereof.

2817. Judges — clerks — oath — duties — penalty.] § 5. The persons named as judges and clerks of election in the notice required by section four of this act, or any persons assuming or chosen to be such judges and clerks in the absence, refusal or failure to act of any of the judges or clerks named in such notice, shall first make oath or affirmation that they are legal voters and householders in one of the regular election precincts within the primary election district for which they were appointed to serve; that they will faithfully and correctly conduct such election, protect it against all frauds and unfairness, carefully and truly canvass all votes cast thereat, and in every way conform to the provisions of this act, and of the notice for the election, which oath may be administered by any one of the judges, or by any person authorized under the laws of the State to administer oaths. And if one or all of the judges appointed to serve at the election be absent, or fail or refuse to serve at the hour appointed for the election to begin, then the electors present to the number of not less than five, possessing the qualifications of persons entitled to vote at said election, shall choose a person or persons to fill any vacancy that may exist. Any violation of the provisions of this section shall be deemed a misdemeanor, and shall subject the offender on conviction to punishment by a fine of not less than fifty dollars nor more than two hundred dollars or by imprisonment in the county jail not less than one nor more than six months, or by both such fine and imprisonment in the discretion of the court.

Every legal voter entitled to vote at regular elections within any election precinct, included within the primary district of which he is a resident and who is a member of the political association or party holding the primary election, shall be entitled to vote at such primary election: Provided, that in cities, towns or villages where there is a board of election commissioners having jurisdiction of general elections, no person shall be allowed to vote unless he shall be a member of the political party or association holding such primary election and shall, upon demand give the judges his name and place of residence, and he shall state upon like demand (if made) that he has not voted at any other primary election held by any other political association or party for a period of one year prior to the date of the primary election then held. He shall not have voted at this or any other poll at any primary election held that day, nor shall he be

allowed to vote unless, in addition to the qualifications hereinbefore prescribed, he is a registered voter in one of the election precincts contained within the primary election district wherein he resides, and it shall be the duty of the board of election commissioners to furnish and distribute among the judges of every primary election held under this act, complete lists of the registered voters in each election precinct contained within their respective primary election districts. Any person who is not a member of the political association or party holding a primary election who votes at such primary election shall be deemed guilty of a misdemeanor and shall be subject, on conviction, to punishment by a fine of not less than fifty dollars, nor more than two hundred dollars, or by imprisonment in the county jail not less than six months, or by both such fine and imprisonment in the discretion of the court; and in any prosecution for the violation of the provisions of this act, wherein the fact as to the political party or association to which the defendant belongs is material, such membership may be shown by evidence of general reputation in the neighborhood where said defendant resided at the time of committing the alleged offense as to the political party or association to which he belonged.

2819. Committee to divide district—number of voters in.] § 7. The committee or body electing to hold a primary election under this act, shall divide the district, ward, township, city, town or village into primary election districts. Such primary election districts shall be formed of contiguous election precincts in as nearly compact form and as nearly equal as circumstances will permit; and no such primary election district shall be formed which shall contain more than 800 voters of the political association or party holding the primary election, the number of such voters to be determined by the vote cast at the last preceding presidential election. At any primary election held under this act, the voters of each of such primary election districts entitled to vote at such election shall choose their own representatives or delegates.

2820. Judges may hear objections—oath—registered voter—challenge — penalty.] § 8. It shall be the duty of the judges of said election to entertain objections made by any qualified elector, within his own primary election district, to any vote which may be offered, on the ground that the person offering it is not a citizen of the United States, or a legal resident and voter under the general election laws of the State, of the election precinct, ward, township, district, city, town or village for which the election is held; or that he is not a member of the association or party holding such election, or in case such person offering to vote should be registered by the terms of this act, that he is not a registered voter or that he has received or been promised, directly or indirectly, any money, fee or reward for his vote for any candidate, or that he has voted before at that place or some other place on that day, or at the same election; and it shall be the duty of one of the judges of the election, if such objection be not

withdrawn, to administer to the person so offering to vote, an oath or affirmation to the general effect that he will truly testify to all matters relating to his qualifications under the general election laws of the State, to his residence, citizenship, the political party or association to which he belongs, receiving or being promised, directly or indirectly, any money, fee or reward for his vote from any candidate or any other person, or whether he had voted at that or any other place on that day at such election, either in his own name or that of another, or under an assumed name. It shall then be the duty of the judges to interrogate the persons so objected to as to all matters in particular upon which said objection was made, and, generally, as to all of his qualifications as an elector at such election. If the person so objected to shall refuse to answer any questions asked, after said oath or affirmation shall have been administered, or shall refuse to take such oath, it shall be the duty of the judges to reject such vote, and they shall also reject such vote unless such person shall file with them a written or printed, or partly written or printed, statement by him, signed under oath, that he is a qualified voter of the election district in which such election is held, and entitled to vote at such election; and unless such statement shall be accompanied by a similar statement of some person known to at least one of the judges to be a qualified voter in that district, to the effect that he knows the person so challenged, and that his statement is true, which said last statement must also be subscribed by the party making it. Such statement must, in all cases, expressly state that the person making it is a member of the political association or party holding the election. If such statement shall be filed and such oath be taken, and such questions answered in such a manner as to show that the applicant is qualified to vote at such election, it shall be the duty of the judges of the election to receive such vote, and the word "sworn" shall be noted opposite the person's name on the poll lists, to be kept as hereinafter provided. Any violations of the provisions of this section by the judges of the election, or either of them, shall be deemed a misdemeanor, and, upon conviction, shall subject the party so offending to punishment by a fine of not less than one hundred dollars, nor more than three hundred dollars, or by imprisonment in the county jail for not less than two nor more than six months, or by both such fine and imprisonment, in the discretion of the court; and any person who shall, upon taking such oath or affirmation, and under the examination herein authorized, or in the written statements herein required, willfully make a false statement as to a matter pertinent and material in such examination, shall be deemed guilty of a perjury, and, upon conviction thereof, be punished as prescribed by law for such offense.

2821. Fraudulent voting—bribery—corrupt practices, etc.—penalty for violating act.] § 9. Second—Willfully aids or abets any one not qualified to vote at such primary election in voting or attempting to vote at such election; or

Third—By offering a reward or bribe, or by treating or giving to him any spirituous, malt or other liquors, either directly or indirectly, influences or attempts to influence any voter in giving or withholding his vote at such election; or

2849. Emergency.] § 12. Whereas, all the libraries of Chicago were destroyed by the recent fire in that city, and large donations of books have been made to found a free library, and whereas no suitable building or organization exists to receive or preserve them, therefore an emergency exists that this law shall take effect immediately: therefore this act shall take effect and be in force from and after its passage.

2950. Erection of building -- plans -- cost.] § 13. Whenever any board of directors of any public library, organized under the provisions of the act to which this is an amendment, shall determine to erect a building to be used for their library, or to accumulate a

fund for the erection of such building, they may do so as follows: The directors shall cause a plan for such building to be prepared, and an estimate to be made of its cost; they may then determine the time or years over which they will spread the collection of the cost of said building, not exceeding twenty (20) years, and shall make a record of their said proceedings and transmit a copy thereof to the city council for its approval.

If the council shall approve the action of the board the board shall divide the total cost of said building into as many parts as they shall determine to spread the cost of the collection thereof, and shall certify the amount of one of said parts to the city council, each and every year during the time or term over which they shall have determined to spread the collection of the cost of said building.

The city council on receiving the said last mentioned certificate shall in its next annual appropriation bill include the amount so certified, and shall levy and collect a tax to pay the same, with the other general taxes of the city; Provided, the said levy shall not exceed five (5) mills on the dollar in any one year and shall not be levied oftener than for the number of years into which the library board shall have divided the costs of said building: And provided, further, no city shall construct more than one building under the provisions of this act, and when said sum herein mentioned shall have been collected the said tax shall cease. [Added by act approved June 19, 1891. In force July 1, 1891.]

2951. Duty of board—erection of building—investment of funds.] § 14. The library board shall determine when they will proceed with the construction of the building; they may proceed at once or may determine to wait and allow the fund to accumulate, but shall not delay construction of said building longer than for the collection of said fund. If they shall determine to wait, they shall certify their action to the city council and said city council shall invest said money in good interest paying securities, there to remain until the same is needed for the construction of the building under the provisions of this act. [Added by act approved June 19, 1891. In force July 1, 1891.]

2952. How contract to be let.] § 15. When the directors shall determine to commence the construction of the building they may then revise the plan therefor or adopt a new plan and provide estimates of the costs thereof, and shall advertise for bids for the construction of said building and shall let the contract to the lowest and best responsible bidder, and may require from such bidder securities for the performance of his bid as the board shall determine: Provided, the said directors may let the contract for one part of said building to one bidder, and for another part to another bidder as they shall determine: And provided, further, the board of directors shall not in any new plan increase the per cent of the tax levy hereunder, without the approval of the city council. [Added by act approved June 19, 1891. In force July 1, 1891.]

2953. May rent portion—borrow money—tax levy.] § 16. If the board of directors shall think best they may construct the building so that a portion thereof may be rented, and may at any time during the construction thereof borrow money and execute a mortgage on the lot and building, not exceeding one-half the value thereof, and the money so obtained shall be used exclusively in the completion of said building. The levy of a tax hereunder shall not constitute a part of the general tax of the city, nor shall it affect any appropriation made or to be made for the support of the library. This act shall not apply to any city in this State having over one hundred thousand inhabitants. [Added by act approved June 19, 1891. In force July 1, 1891.]

Be it enacted by the People of the State of Illinois, represented in the General Assembly, That whenever any library association organized under any law of this state, and owning any real or personal property in this state, shall desire to sell or lease the same, or any part thereof, absolutely or with conditions, to the board of directors of any free public library, organized under the laws of this state, such sale or lease may be made in the manner following, viz: the directors of such association shall call a meeting of all the members, subscribers or stockholders thereof, to be held at the rooms of said library or office of the secretary of such association, written or printed notice of the time, place and object of such meeting, and of the terms and conditions of the proposed sale or lease being first mailed, at least thirty (30) days prior to the time of such meeting, to the address of each member, subscriber or stockholder whose place of residence is known to any of the officers or directors of such association, and by publishing such notice for at least thirty (30) consecutive days next preceding the time of such meeting, in some newspaper published and of general circulation in the county where the property of said association is situate.

In counties under township organization, said books shall be made to correspond with the organized townships. Separate books may be made for the collection of all taxes within the corporate limits of cities, towns and villages. This section shall not be construed to interfere with the tax book provided for in this act, for the use of county collectors, for collecting all taxes charged against railroad property and the capital stock of telegraph companies. The respective county clerks shall cause the collector's books to be properly ruled for the several classes of property, providing for each class three columns for value, the first to show the assessed valuation, the second to show the valuation as corrected and equalized by the county board, and the third to show the valuation as equalized or assessed by the State Board of Equalization. 3096. Rates — how extended — valuation — equalization.]
 § 126. Said clerks shall extend the rates of addition or deduction ordered by the county board and State Board of Equalization, in the several columns provided for that purpose. The rates per cent. ordered by the State Board of Equalization shall be extended on the assessed valuation of property, as corrected and equalized by the county board—except that in case of railroad property denominated “railroad track” and “rolling stock” said rates shall be extended on the listed valuations of such designated property. [See section 229. As amended by act approved May 31, 1879. In force July 1, 1879.]

County collectors, in cases of removals and insolvencies, may give, as the cause of inability to collect, the same cause as sworn to by the town or district collectors, stating in their return the fact that such was the statement made by the town or district collector, and that such tax still remains uncollected.

The auditor and other proper authorities or persons shall, in their final settlements with the collector, allow him credit for the amount so certified: Provided, that if the auditor or such other proper authorities or persons shall have reason to believe that the amount stated in said certificate is not correct, or that the allowance was illegally made, he or they shall return the same for correction; and when the same shall appear to be necessary, in the opinion of the auditor or such other proper authorities or persons, he or they shall designate and appoint some competent person to examine the collector's books and settlement, and the person so designated and appointed shall have access to the collector's books and papers, appertaining to such collector's office or settlement, for the purpose of making such examination.

3124. Clerk to notify auditor, etc., amount due them.] § 240. The clerk shall immediately, on the receipt of such statement, certify to the auditor and to other proper authorities or persons, the amount for which the collector is required to settle with them severally.

The county collector shall, on or before the fifteenth day of April following, pay over to the state treasurer the taxes in his hands, payable to the state treasury, as shown by the statement required by section 239, of this act. [As amended by act approved May 3, 1873.]

3126. Effect of failure of a collector to obtain judgment.] § 242. The failure of any county collector to obtain judgment shall not prevent him from presenting his statement of credits, and making settlement for taxes and special assessments in his hands, at the time required by this act; but if, from no fault of the collector, he fail to obtain judgment and sale of delinquent real estate at the time required by this act, shall be allowed, in his settlements, a temporary credit for the amount of taxes and special assessments in such delinquent list, which delinquent taxes and special assessments shall be accounted for and paid immediately after sale is had.

Any county collector failing to make the reports and payments hereinbefore required, for five days after the time specified for that purpose, or after demand made as aforesaid, the auditor or such other authorities or persons, may bring suit upon the collector's bond.

3130. Failure to account and pay over—suit.] § 246. If any county collector fails to account and pay over as required in the preceding sections, his office may be declared vacant by the county board, or by any court in which suit is brought on his official bond.

3131. When bond sued by city, town, etc.] § 262. Cities, towns, villages or corporate authorities, or persons aggrieved, may prosecute suit against any collector or other officer collecting or receiving funds for their use, by suit upon the bond, in the name of the People of the State of Illinois, for their use, in any court of competent jurisdiction, whether the bond has been put in suit at the instance of the auditor or not; and in case of judgment thereon the auditor may, if he shall so elect, have a writ of inquiry of damages for any amount that may be due to the state treasury from such officer. Cities, towns, villages and other corporate authorities or persons, shall

have the same rights in any suits or proceedings in their behalf as is provided in case of suits by or in behalf of the state. [As amended by act approved March 24, 1874.]

WHEN RECORDS ARE DESTROYED.

When assessment rolls or collectors' books, in whole or in part, of any county, town, city, incorporated village or district, shall be lost or destroyed by any means whatever, a new assessment, or new books, as the case may require, shall be made under the direction of the county board. Said board shall, in such cases, fix reasonable times and dates for performing the work of assessment, equalization, levy, extension and collection of taxes, and paying over the same, or making new books, as the circumstances of the case may require. All the provisions of this act shall apply to the dates fixed by the county board, in the same manner that they apply to the dates for similar purposes, as fixed by this act. The county board is hereby fully empowered to select and appoint persons, where it may find the same necessary, to carry into effect the provisions of this section.

3133. Special assessment — return limited.] § 279. When any special assessment is not returned to the county collector on or before the first day of March next after it is due, the same may be returned on or before the first day of March in the succeeding year; and, if not then returned, it shall be considered barred, unless return is prevented by an injunction or order of court; and the time such return is thus prevented shall be excluded from the computation of such time.

PENALTIES OF OFFICERS.

3134. Delivering books before collector's bond filed.] § 285. If any county clerk shall deliver the tax books into the hands of the county collector, or if any collector shall receive said books or collect any taxes until such collector's bond has been approved and filed, as required by this act, said clerk and collector, and each of them, shall be liable to a penalty of not less than \$500, and all damages and costs, to be recovered in an action of debt; and the auditor shall bring suit therefor, in the name of the People of the State of Illinois—the amount recovered on such fines to be paid into the state treasury as revenue fund. Nothing in this section shall be construed as relieving the securities of a collector from liabilities incurred under a bond not approved and filed by the auditor.

3135. Collector — neglect to obtain judgment, etc.] § 286. If any collector shall, by his own neglect, fail to obtain judgment at the May term of the county court, or shall fail to present his list of delinquencies on personal property, or errors in assessment of real estate, at the time required by this act, he shall lose the benefit of any abatement to which he might have been entitled, and shall pay to the state

If any officer shall fail or neglect to perform any of the duties required of him by this act, upon being required so to do by any person interested in the matter, he shall be liable to a fine of not less than \$10 nor more than \$500, to be recovered in an action of debt in the circuit court of the proper county, and may be removed from office at the discretion of the court; and any officer who shall knowingly violate any of the provisions of this act, shall be liable to a fine of not less than \$10 nor more than \$1,000, to be recovered in an action of debt, in the name of the People of the State of Illinois, in any court having jurisdiction, and may be removed from office at the discretion of the court, and said fines, when recovered, shall be paid into the county treasury.

3137. Refusal by clerk, assessor or other officer to do duty.] § 288. Every county clerk, assessor, collector or other officer who shall in any case refuse or knowingly neglect to perform any duty enjoined upon him by this act, or who shall consent to or connive at any evasion of its provisions, whereby any proceeding required by this act shall be prevented or hindered, or whereby any property required to be listed for taxation shall be unlawfully exempted, or the same be entered upon the tax list at less than its fair cash value, shall, for every such offense, neglect or refusal, be liable, on the complaint of any person, for double the amount of the loss or damage caused thereby, to be recovered in an action of debt, in the name of the People of the State of Illinois, in any court having jurisdiction, and may be removed from his office at the discretion of the court.

Said ordinance shall be published as required by law for other ordinances of said city, town, or village, and may require all owners of lots or parcels of land touching the line of said proposed sidewalk to construct a sidewalk in front of their respective lots or parcels in accordance with the specifications of said ordinance, within thirty days after such publication, and in default thereof, said materials to be furnished and sidewalk constructed by said city, town, or village, and the cost, or such part thereof as may be fixed in said ordinance, may be collected from the respective owners of said lots or parcels of land as hereinafter provided.
