THE

ZOOLOGICAL RECORD,

VOLUME THE THIRTIETH.

BEING

RECORDS OF ZOOLOGICAL LITERATURE

RELATING CHIEFLY TO THE YEAR

1893.

BY J. A. THOMSON, R. LYDEKKER, R. BOWDLER SHARPE, G. A. BOU-
LENGER, W. A. HERDMAN, B. B. WOODWARD, R. I. POCOCK, D. SHARP,
F. A. BATHER, FLORENCE BUCHANAN, S. J. HICKSON, AND R. HANITSCH.

EDITED BY

D. SHARP, M.A., F.R.S., F.Z.S., &c.,

CURATOR IN ZOOLOGY, UNIVERSITY MUSEUM OF ZOOLOGY AND COMPARATIVE
ANATOMY, CAMBRIDGE.

Explorate solum : sic fit via certior ultra.

LONDON :

GURNEY & JACKSON, PATERNOSTER ROW.
M.DCCC.XCIV.

Communications, Papers, and Memoirs intended for this work should be addressed to "THE EDITOR of the Zoological Record, Zoological Society, 3, Hanover Square, London, W." It is earnestly requested that in the case of separately-printed copies of papers so forwarded, the *original pagination* be indicated.

The Editor thanks those Societies and individuals who have forwarded works and papers for the purposes of the Record, and suggests that Societies publishing Zoological Papers would much facilitate the work of the Recorders by forwarding a separate copy of each Zoological Memoir they publish to the Editor for the use of the Recorder.

~~150-300~~

PREFACE.

THE thirtieth volume of the ZOOLOGICAL RECORD has been prepared by the same Recorders as the last one. The Editor has great pleasure in thanking them for their valuable assistance.

A new list of periodicals and abbreviations appears in this volume. The system after which it has been prepared is explained at the head of the list. Had the arrangement been reversed, and the names of the periodicals preceded the abbreviations, the list would perhaps have been more widely appreciated. This course, however, would have detracted from its usefulness for the special purpose for which it is intended, viz., as a key to the abbreviations made use of in the volume.

The list has been prepared by the Editor with the sanction of the Record Committee of the Zoological Society. Some of the libraries at which the different works may be consulted are pointed out in it. The Editor desires to thank the Librarians of the Royal, Zoological, and Linnean Societies for the assistance they gave him in the preparation of this part of the new list. He has also received most valuable help from Mr. B. B. Woodward, of the British Museum of Natural History; and Mr. F. A. Bather has given important aid in regard to the titles of the numerous palæontological works the list now includes.

The Editor regrets that the volume appears later in the year than its immediate predecessors. This is due to delay in the printing, owing to circumstances which the printers assure him will not recur.

D. SHARP.

CAMBRIDGE, Oct. 17, 1894.

E R R A T A.

MOLLUSCA.

Page 47, line 2 from top, for "*Torellalla*" read "*Torellella*."

INSECTA.

Page 106, line 2 from bottom, for "n. g." read "n. subg.", and for "p. 10" read "pl. 10."

Page 137, line 14 from top, for "RHIPIDOPHORIDÆ" read "RHIPIDOCERIDÆ," and transfer "*Evaniocera minuta*, n. sp." to p. 156.

Page 156. Transfer the entries "*Homæorhipis*" and "*Simianus*" to "RHIPIDOCERIDÆ" on p. 137.

Page 158, line 18 from top, for "n. sp." read "n. g."

Page 248, line 22 from bottom, for "*Synobium*" read "*Synobrium*."

Page 258, line 19 from bottom, for "*Orthogonioptiluna*" read "*Orthogonioptilum*."

Page 302, line 17 from bottom, for "BLACKBURN" read "MEYRICK."

VERMES.

Page 53, line 21 from bottom, for "*Cryptocelis*" read "*Cryptocelides*."

ALPHABETICAL LIST
OF THE
ABBREVIATIONS
USED IN THE
ZOOLOGICAL RECORD
FOR THE
TITLES OF THE JOURNALS, TRANSACTIONS, ETC.,
THAT CONTAIN ZOOLOGICAL PAPERS.

WITH INDICATIONS OF SOME OF THE PRINCIPAL
LIBRARIES
IN WHICH THE BOOKS ARE CURRENT.

THE primary object of this list is to enable those using the Record to find with ease the full title of a Journal they see quoted in an abbreviated form. The arrangement is therefore a simple alphabetical list of the abbreviations, uncomplicated by syllabic or verbal limitations.

The list has also to serve the Recorders and others as a list of Journals, and for this purpose it is important that it should be fairly complete as regards current periodicals. In order to increase the utility of the list, the abbreviations have been made on a uniform system ; but a few exceptions have, in practice, been found necessary. The chief points that have been kept in view in constructing the abbreviations may be briefly stated as follows :—

The words selected as distinctive in each title are reduced in most cases to three or four.

A distinct abbreviation is used for each different word, and the same abbreviation for the same word is used throughout the list.

Accents are omitted. As a rule the first word of the title is represented by an abbreviation, but this rule is departed from in the case of articles and prepositions, and occasionally in the case of adjectives that are useless for distinctive purposes. Thus "Annual Report" becomes "Rep.", and "Occasional Papers" becomes "Pap." Such adjectives as "New" and "Royal" are omitted, except when necessary for distinctive or other purposes.

The consecutive order of the words of the title is maintained in the abbreviation, except in a few cases where the arrangement of the words in the title is very unusual or faulty.

As an example of the form of abbreviation that is aimed at, we may take *Bull. Soc. Moscou.* The name of the locality is given at greater length than the more frequently used portions of the abbreviation.

Unfortunately some of the abbreviations commonly used are badly constructed, e.g., "N. *Acta Ac. L.-C. Nat. cur.*" This should give place to the simpler and more descriptive "*Acta Ac. German.*"

After the titles, the place of publication is given, and this is followed by letters indicating the principal libraries in which the works may be consulted. The explanation of these letters is as follows:—

- N. = British Museum Natural History: general library.
 - Nz. = " " " library, zoological department.
 - Ng. = " " " " geological "
 - R. = Royal Society Library.
 - Z. = Zoological Society Library
 - L. = Linnean " "
 - C. = Cambridge University Library.
 - (C) p= " Philosophical Society Library.
 - (C) b, or g, or y = Cambridge Balfour, or Woodwardian Museum, or Physiological Libraries respectively.

I.—LIST OF TITLES.†

1. *ACQUA, C. Il microscopio, ossia guida elementare per le più facili osservazioni di microscopia. Milano : 8vo, 238 pp., 81 figg.
2. *ALLARA, V. Il magnetismo negli animali e nelle piante. Milano : 138 pp.

* It will be understood that papers recorded here may also be recorded under the various classes, II.-XVIII. They are included here because of their bearing on some general question; their relevancy, if not obvious, will in most cases be made apparent in the Subject Index.

† An asterisk prefixed to a quotation indicates that the Recorder has not seen the Journal or Work referred to.

3. ALTMANN, R. Die Granula-lehre und ihre Kritik. Arch. Anat. 1893, pp. 55-66, 2 figg.
4. ——. Ueber Kernstruktur und Kerntechnik. Verh. Anat. Ges. vii, pp. 50-52.
5. *—. Die Elementarorganismen und ihre Beziehungen zu den Zellen. 2 Aufl. Leipzig : 8vo, 160 pp., 9 figg., 35 pls.
6. *AMMON, O. Die natürliche Auslese beim Menschen. Jena : 8vo, x & 326 pp.
7. ANDERECK, E. Generationswechsel bei Insekten. MT. Ges. Bern, 1892, pp. 1-69.
8. *ANNA, E. d'. Sulla spermatolisi nei Vertebrati. Rich. Lab. Anat. Roma, iii, pp. 127-171, 1 pl.
9. ARDISSONE, F. L'Organismo vivente considerato nella sua essenza e nella sua origine. 2nd Ed. Varese : 4to, 25 pp.
- ARSONVAL, d'. [See BROWN-SÉQUARD & D'ARSONVAL (72, 73, 74).]
10. AUERBACH, L. Ueber merkwürdige Vorgänge am Sperma von *Dytiscus marginalis*. SB. Ak. Berlin, 1893, pp. 185-203.
11. ——. Zu den Bemerkungen des Herrn Dr. Ballowitz betreffen das Sperma von *Dytiscus marginalis*. Anat. Anz. viii, pp. 627-630.
12. *AUVARD, A. Menstruation et fécondation ; physiologie et pathologie. Paris : (1892) 8vo, 195 pp.
13. *BAGER-SJÖGREN, J. Herbert Spencer och Utvickelingsfilosofien. En Studie. Lund : 8vo, 142 pp.
14. BAILLET, —. Quelques mots sur les croisements dits au premier sang, chez les animaux domestiques. Mem. Ac. Toulouse, v, pp. 128-143.
15. BALBIANI, E. G. Centrosome et "Dotterkern." J. Anat. Physiol. xxix, pp. 145-179, 2 pls. [Cf. Ann. Micrograph. v, pp. 1-25, 49-84, & 113-137, 2 pls.]
16. *BALKWILL, F. H. The Testimony of the Teeth to Man's place in Nature. With other Essays on the Doctrine of Evolution. London : 8vo, 236 pp. Illustr.
17. BALL, W. P. Natural Selection and Lamarckism. Nat. Sci. ii, pp. 337-349.
18. BALLOWITZ, E. Die Nervenendigungen der Pigmentzellen, ein Beitrag zur Kenntnis des Zusammenhanges der Endverzweigungen der Nerven mit dem Protoplasma der Zellen. Zeitschr. wiss. Zool. lvi, pp. 673-706, 5 pls.
19. ——. Zu der Mitteilung des Herrn Professor L. Auerbach in Breslau über "Merkwürdige Vorgänge am Sperma von *Dytiscus marginalis*." Anat. Anz. viii, pp. 505 & 506.

20. BAMBEKE, CH. VAN. Contributions à l'histoire de la constitution de l'œuf. II. Elimination d'éléments nucléaires dans l'œuf ovarien de *Scorpaena scrofa*, L. Arch. Biol. xiii, pp. 89-124, 2 pls; Bull. Ac. Belgique, xxv, pp. 323-364, 2 pls.

21. —. Les matériaux de l'organisme humain. *Op. cit.* xxvi, pp. 733-757.

22. BARFURTH, D. Regeneration. Anat. Ergebnisse, i, pp. 103-140 (1892).

Important Summary.

23. —. Regeneration. *Op. cit.* ii, pp. 124-156.

24. —. Experimentelle Untersuchung über die Regeneration der Keimblätter bei den Amphibien. Anat. Hefte, i Abth., ix Heft., pp. 311-354, 4 pls. [Cf. Anat. Anz. viii, Ergänzung Heft., pp. 43-50.]

25. —. Ueber Organbildende Keimberzirke und künstliche Missbildungen des Amphibieneios. Anat. Hefte, i Abth., ix Heft., pp. 355-389, 2 pls.

26. —. Halbbildung oder Ganzbildung von halber Grösse? Anat. Anz. viii, pp. 493-497.

27. BARON, R. Nouvelles considérations théoriques et expérimentales sur la loi Delboeuf. Bull. Sci. France Belgique, xxv, pp. 155-173.

II.—SUBJECT-INDEX.

1. TEXT-BOOKS AND GENERAL ESSAYS.

Text-books of Zoology :—DUVAL & CONSTANTIN (140), FLEISCHER (160), GÉRARDIN (182), HAYEK (221), HERTWIG, R. (243), KENNEL (280), PERRIER, R. (392), SHIPLEY (476), WIEDERSHEIM (547), VOGT & YUNG (516), MIVART (354).

Of Biology :—BIDGOOD (39), CAMPBELL (90), PARKER (389), WELLS (539).

Of Anatomy, Histology, Physiology :—BONNIER (47), CAMERANO (89), DEBIERRE (125), PIERSOL (400), RAWITZ (413), STIRLING (490).

Of general Embryology :—DEBIERRE (125), HERTWIG (240), KORSCHELT & HEIDER (298), MILNES-MARSHALL (340).

Of Palaeontology :—BERNARD (37), BONNEY (46), DAWSON (124), KOKEN (295), PRIEM (406), WALTHER (526), WOODS (555), ZITTEL (562).

Manuals of Microscopy :—ACQUA (1), BOLLES-LEE (44), CROSS & COLE (111), VAN HEURCK (244), RIO Y LARA (423).

Aquarium :—COUPIN (110).

Works of Reference :—BRONN (68), BREHM (65), CARUS (92), MERKEL & BONNET (343), Naples Monographs (487, 510).

Popular Books :—ANON “Son of the Marshes” (565), BOMMELI (45), BONNEY (46), BREHM (65), BRONGNIART (67), BUXTON (83), FOLIN (164), FURNEAUX (173), HUDSON (259), LACKOWITZ (305), PRIEM (406), TROUESSART (507).

Illustrations :—BRASS (58).

General Essays :—The essence and origin of the organism ; ARDISSONE (9).—General physiology ; DUBOIS (139).—Chemistry of organisms, unity of animal and plant life, &c. ; FRÉBAULT (168), HUXLEY (265, 266).—Man, an organic community ; the problem of psychical integration in organisms ; KING (281).

Biological Generalities :—LUCIANI (323).—Mechanism in relation to organisms ; SAINT-LOUP (446).—History, scope, and fundamental problems of Biology ; BURDON-SANDERSON (449).—Position of pathology among the biological sciences ; VIRCHOW (515).—Distribution, migration, mimicry, heredity, &c. ; TRISTRAM (505).—Relations of Zoology to Sociology ; ZIEGLER (560).—Parasitism organic and social ; MASSART & VANDERVELDE (341).

Les Zoologistes actuels ; ERRERA (154).

Nomenclature :—BLANCHARD, R. (42).—Of zoology ; GIRARD (185).—Bioplastology, suggested terminology ; HYATT (270).—Bathmology = Auxology = study of growth. Genesiology = study of heredity. Genism = the free genetic force and the principle of heredity. Ctetology = study of acquired characters. Names for stages and sub stages of ontogeny. Comparative nomenclature for ontogeny and phylogeny. Terminology of position and direction : SCHULZE (464, 465), cf. Zool. Rec. xxix, *Gen. Sub.* p. 36.—ANON, Dritter Entwurf (567).

2. DISTRIBUTION.

Cosmopolitan animals ; MÜLLER (365).

Text-books on distribution ; BUCHHOLZ (76), TROUESSART (506).—Zoo-geography and the History of the Earth ; KOBELT (291).—Zoo-geographical regions ; CLARKE (102), SHARPE (474).

Biological regions and tabulation areas ; CLARKE (102).

Evolution of faunas :—The original pelagic fauna : the discovery of the bottom and its effect on evolution, &c. A most suggestive speculative essay ; BROOKS (69).

Terrestrial Invertebrates, distribution of ; STOLL (492).

Aquatic animals, distribution of ; GUPPY (201).

Marine animals, some problems in the distribution of ; MAAS (331).—Distribution and Bionomics of marine animals ; WALTHER (526, 527).

Pelagic and abyssal faunas ; PETERSEN (393).

Plankton ; HENSEN, &c. (230, 231).—Plankton-Composition : “Monotones” : 9–10ths of similar or identical forms, *e.g.*, Copepods. “Prævalentes” : at least $\frac{1}{2}$ of similar or identical forms. “Polymiktes” : no one kind of animal over 49 %. “Pantomiktes” : a heterogeneous mixture. HÆCKEL (208).

Plankton of Arctic Ocean ; POUCHET (403).

Polar Region, life-areas and fauna of ; SEEBOHM (467).

Scotland, naturalists' map of ; HARVIE-BROWN & BARTHOLOMEW (217).

Schleswig-Holstein Oyster-banks, fauna of ; MÖBIUS (355).

Jura Lakes, Pelagic fauna of ; DE GUERNE & RICHARD (199).

Madagascar, fauna of ; SHERBORN (475).

Antarctica : a supposed former Southern Continent ; FORBES (165, 166).

Australian fauna, phylogeny of ; HAECKEL (207).

Relation of fauna of Australia to that of New Zealand ; HEDLEY (223).

Tasmania, fauna and zoological relationships of ; SPENCER (486).

Great Barrier Reef ; SAVILLE-KENT (453).

Nearctic Region (570).

Travels, explorations, sport, &c. ; BRYDEN (75), BUXTON (83), HUDSON (259), MONACO (356), ROOSEVELT & GRINELL (433), SELOUS (471), STUHLMANN (498).

3. MORPHOLOGICAL (ANATOMY AND HISTOLOGY).

Cytological differences in homologous organs ; GILSON (184).

Vascular system and associated organs—summary ; EBERTH (141).

Nervous system of Arthropods ; VIALLANES (513).

Summary in regard to histology and development of nervous system ; GOLGI (194).—Histology of central nervous system ; HERRICK (239) and RAMON Y CAJAL (409).

Nerve endings in pigment-cells ; BALLOWITZ (18).

Intra-cellular connections between tissues of different kinds ; SCHUBERG (463).

Nose and upper lip of Vertebrates ; KEIBEL (278).

Retina of Vertebrates ; KRAUSE (300), RAMON Y CAJAL (410).

Triple rudiment of hypophysis in *Anguis* and *Lacerta* ; GAUPP (179).

Blood corpuscles of Invertebrates ; KNOLL (288).

Comparative study of olfactory apparatus and the cornu ammon ; EDINGER (142).

Structure of lung ; MILLER (348).

Individuality of the parietal eye ; BÉRANECK (35).

Striated muscle-fibres in man and several Vertebrates, structure and development of ; SCHAFFER (456).

Pancreas : threefold rudiment of pancreas in Teleosteans, Amphibians, Birds, and Mammals ; STÖHR (491).

Pancreas, development of : three rudiments in salmon-trout, four in sturgeon (v. Kupffer), three at least in Amphibians, three in chick (*Felix*), two in at least some Mammals. The fourfold origin is probably primitive : GOEPPERT (193).

4. PHYSIOLOGICAL.

General :—DUBOIS (139), HUXLEY (265), BURDON-SANDERSON (449).—Biological economy of organisms in its relations to morphology WHITMAN (544).

Comparative pathology of Inflammation :—Traces the development of phagocytic functions from the *Protozoa* upwards ; METSCHNIKOFF (346).

Anærobic functioning of animal tissues ; GAUTIER (180).

Carnot's principle and animal and vegetable life. An often stated difficulty in regard to the application of Carnot's principle to organisms is due to an oversight, which is explained by the author ; PARKER, J. (388).

Equilibrating organs ; GRÜTZNER (192), LEE (310).

Rôle of electricity in vital phenomena ; SOLVAY (480).—Magnetism in plants and animals ; ALLARA (2).

Blood corpuscles of Invertebrates ; KNOLL (290).

Auditory organs :—In Molluscs and Crustaceans, otocysts combine the two functions of hearing and orientation ; those in Vertebrates are, according to the author, for hearing only. The sense of orientation is a complex physiological resultant in which various sensory organs besides otocysts may concur ; BÉRANECK (36).—Physiology of auditory labyrinth. Otolithic organs of both Vertebrates and Invertebrates have to do with sensations of position and movement ; KREIDL (302, 303).—Functions of tentaculocysts, otocysts, auditory sacs ; HURST (261).—Otolith organ in connection with geotropic functions of Crayfish ; BUNTING (82).—Equilibrium in Fishes ; LEE (310).

Luminous organs, faceted eyes, vision of deep-sea Schizopods ; CHUN (100).

Physiology of stomach in Batrachians and Mammals ; CONTEJEAN (105).

Digestive processes in Arachnids ; BERNARD (38).—Digestion in *Echinodermata* ; CHAPEAUX (95).—Digestion in *Oculentera*. Digestion of *Siphonophora* exclusively intra-cellular. In *Actinia*, there are digestive fluids disassociating albuminoid bodies, very slowly peptonising them, and emulsifying fats. The intra-cellular digestion peptonises, saponifies fats, dissolves starch. The final digestion is within the phagocytes ; CHAPEAUX (94, 96).—Digestive ferments of *Pelomyxa* ; HARTOG & DIXON (216).

The process of cellular excretion ; VAN GEHUCHTEN (181).

Physiology of Decapod Crustaceans :—Branchial glands excretory as well as the green glands, they form carcinuric acid, and seem also to share in phagocytosis. The two parts of the green-gland labyrinth have different functions. The mid-gut gland absorbs peptones and sugars, the short mid-gut fats. The mid-gut gland also regulates amount of water in the blood ; CUÉNOT (113).

Function of liver in Crustaceans and Molluscs ; SAINT-HILAIRE (445).

Bursa Fabricii, amygdaloid glands, Peyer's patches, spleen, thymus, thyroid, pituitary body ; RETTERER (418).

Classification of glands ; GLEY (186).

Stigmata of *Mastigophora*, function as sensitive to light and heat ; FRANZÉ (167).

Chitin :—Different kinds of ; various kinds in different animals might be used in classification ; regarded as amid-derivatives of carbohydrates ; in behaviour to iodine and aniline stains chitin resembles amyloid (the pathological product) ; cellulose is only certainly known in Tunicates ; the chitin occurs in loose chemical association with proteid substances : KRAWKOW (301).

Animal chlorophyll and symbiosis ; BOUVIER (53).

Geotropism of lower animals, Infusorians, &c. ; JENSEN (271).

Heliotropic animals ; LOEB (319).

Extremes of temperature to which organisms may adapt themselves ; DE VARIGNY (511).

Muscles of Invertebrates, force of ; CAMERANO (86).

Origin and nature of movement ; SOURY (481).

Locomotion of animals ; LE HELLO (311), MAREY (338, 339).

Pigment :—Physiology of ; the pigments of the scales in *Lepidoptera* belong to the uric acid group and to related groups, including the nucleobases (xanthin, hypoxanthin, adenin, guanin), which are decomposition-products of nuclein along with albumen and phosphoric acid ; URECHI (508).—Colour-change : turning white in winter ; SCHIWALBE (466).—Coloration: the typical coloration of the yolk sac of the *Fundulus* embryo is due to a specific, probably chemical, irritability of the chromatophores which are forced by this irritability to migrate to the blood-vessels, and gather on their surface ; LOEB (321).

Senses and Intelligence :—Senses of *Beroë* : Diffuse skin sensitiveness to various stimuli ; pole-plates not olfactory ; no olfactory organ ; little chemical sense ; the aboral sense-organ not a nervous central organ ; the activity of the statolith organ is a reflex process ; NAGEL (369).

Sense of equilibrium in Fishes : Dynamical functions, sensations of rotational movement, localised in semicircular canals, stimulation during body movement ; statical functions, sensations of position of body in space, localised in otolithic parts, stimulation continual ; LEE (310).

Sense-Organ of *Clepsine* : The suggestiveness of a series beginning with purely tactile organs and ending with purely visual organs ; WHITMAN (546).

Animal intelligence ; WEIR (535).—Intelligence and instinct; EMERY (149).—Limits of intelligence ; MORGAN (362).

Psychology of lizards ; DELBŒUF (127) : of a snail ; YUNG (557).

Habits of Blennies ; GUILTEL, F. (200).

Sociability and morality in animals ; HOUSSAY (256).

Industries of animals ; HOUSSAY (255).

Means of defence among animals ; CUÉNOT (115).

Movements of animals from place to place ; GÜNZEL (198).

Autotomy : The habit was at first voluntary and intentional, due to an instinct of self-preservation ; it was perfected, and became purely reflex ; FREDERICQ (169).

5. PROTOPLASM AND THE CELL.

a. *Protoplasm.*

Review of recent researches on protoplasm ; HASWELL (218).

Structure of protoplasm : Historical account of observations ; D'ERLANGER (153).—Structure of protoplasm and Altman's bioplasts ; CECONI (93).—The Schaum plasma in reproductive cells of *Branchipus*. The apparent inter-relation between a foam structure and the phenomena of karyokinesis ; MOORE (358).

Chemistry of living protoplasm : "Theory of the specific individual capillary reactions of the protoplasm." Uniqueness of protoplasm depends on capillary peculiarities. Destructive criticism of micellar or tagma theory. Contrast between phytoplasma, which is especially the seat of synthetic (*Kondensations*) and reducing processes, and zooplasma, which is especially the seat of analytic and oxidising changes ; a contrast dependent on the possession of different capillary forces or colligative properties ; WENDT (540).

Structure of plasma in blood corpuscles ; GRIESBACH (189).

The granula theory of the structure of protoplasm ; ALTMANN (3).

b. *Cell Structure and Physiology.*

Summary and bibliography on cell-substance, archoplasm, centrosomes, nucleus, mitosis ; FLEMMING (162, 163).

Structure of the cell ; MOORE (357).

General biological considerations ; VAN BAMBEEK (21), VIRCHOW (515).

Cell structure :—The indifferent cells of Hydrozoa represent a primitive condition, with a "Linen" framework, the mobile part, a granula, and the secretions, &c., of the granula. The granula consists of Zoa (simplest vital elements) and the "Linen" are Zoa united in rows. Interpretation of muscle-cells, nerve-cells, &c., in terms of the "Linen" and granula ; SCHNEIDER (461).

The new views of the cell ; WALDEYER (522).—Nægeli's experiments on living cells ; SMITH (478).—Specific character, "altruism," &c., of cells; HANSEMANN (214).—Oligodynamic phenomena ; NÄGELI (367).

"Elementary organisms," their relation to the cell ; ALTMANN (5).

Import of nucleus : Microscopic vivisection of the cell. A portion of the necklace-like nucleus is essential if a fragment is to regenerate the whole ; it is the nucleus which gives the cell its physiognomy ; but the behaviour of a fragment shows that each particle of protoplasm has "its own independent Psyche," and that the nucleus is not the psychical centre of the cell ; GRUBER (191).

Selection of stains by the cell-elements, the nuclein substances of the nucleus select the basic colouring matters from a mixture, the albuminoid substances of the cytoplasm select the acid stuffs ; LILIENFELD (315).

Chemical physiology of the animal cell ; HALLIBURTON (213).

Cytological differences in homologous organs ; GILSON (184).

Process of cellular excretion ; VAN GEHUCHTEN (181).

Interaction between the cytoplasm and nucleus ; ROUX (437).—Reciprocal relations of cytoplasm and nucleus as seen in merotomy of ciliated Infusorians ; BALBIANI (15).—Functional independence of cytoplasm and nucleus ; there is some independence between the life of the protoplasm and that of the nucleus. Thus the former is only manifested in the presence of oxygen ; the latter goes on in a medium insufficient to sustain the active life of the protoplasm. There is much division of labour in the cell, its life is a complex resultant ; DEMOOR (128, 129).

Chemical nature of cytoplasm and nucleus ; ZACHARIAS (558).

Intercellular bridges ; HEIDENHAIN (225).

Nerves cells, inter relations ; DOGIEL (133).

Muscle cells, fine structure of ; BÜTSCHLI (81).

c. *Nucleus, Nucleolus, Centrosomata.*

Structure of nucleus ; ALTMANN (4).—Specific nuclear structure in different tissues and other facts demonstrated by the Lysol method ; REINKE (415).

Nuclein acid ; KOSSEL (299).

Archoplasm and centrosomes, methods ; HERMANN (237).

Disposition of archiplasm in pigment cells ; ZIMMERMANN (561).

Centrosomata : EISMOND (144).—In the absence of centrosomes in incipiently parthenogenetic ova of Mammals, the chromosomes become centres of attraction and orientation for the achromatin filaments ; HENNEGUY (227).

Homology of the Centrosome : Microsome, centrosome, zwischenkörper, cell-plate, and polar microsomes, all belong to the same category of cytoplasmic material. The centrosome is not a unique organ, but it is identical

with the microsome. The cell-plate consists of equatorial microsomes. When equatorial microsomes fuse the result is the zwischenkörper ; WATASÉ (529).

Origin of the Centrosomata : The contrast between centrosome and nucleus has been exaggerated. In spermatocyte of *Ascaris mealocephala*, var. *univalens*, it is clear that the centrosome belongs to the nucleus. The chromatin elements are the bearers of hereditary qualities, the centrosome is an organ of division. The whole of the spindle seems to be nuclear ; BRAUER (59).

Centrosome and Yolk-nucleus : Yolk-nucleus (studied in spiders) is homologous with the centrosome, or Nebenkern, of seminal cells, and the centrosome of somatic cells. It has a nuclear origin, and an influence on the cytoplasm like that of the centrosome. It may occasionally be double. In spiders this "female centrosome" is degenerate, and without physiological significance ; it is a "phylogenetic reminiscence" ; BALBIANI (15).

Centrosomata : attraction spheres, achromatin figures, zwischenkörperchen, in pathological states ; LUSTIG & GALEOTTI (325).—Behaviour of chromatin, centrosomata, &c., in carcinoma ; GALEOTTI (176).

Nucleoli : The accessory nucleoli, as seen in germinal vesicles of many Vertebrates, are said to contain the products of metabolism in the chromatin. The single chief nucleolus, as seen, e.g., in Echinoderm ova, is a "rhythmically pulsating organ of excretory and probably also of secretory or secretion-storing import" ; HÄCKER (210, 211).

"Nucleoli," so-called ; RHUMBLER (420).

Micro-nucleus (?) in *Ameba* ; MOORE (360).

Import of paranucleus ; EISMOND (145).

d. Cell Division.

Present state of knowledge in regard to nuclear and cell-division. Astrophere proposed as term for attraction spheres. Probability that nuclear segments move actively, under chemotactic influence from centrospheres. Spindle-fibres in plants not nuclear, but cytoplasmic, formed of "kinoplasm" ; STRASBURGER (493).

Cell-multiplication and cell-replacement : On the one hand there is cell-multiplication by mitosis with growth as its result ; on the other hand there is cell-replacement by amitosis, with repair as its result ; FRENZEL (170).

Cell-division : *Selachii* ; MITROPHANOW (351).

The form of the protoplasmic masses within the cell has a directive influence on the nuclear spindle, and differentiation of cytoplasm is also dependent on nucleus ; ROUX (437).

Division of nucleoli ; EISMOND (145).

In early stages of the dace the blastoderm-cells show no individualised chromatin, the karyokinetic figures are entirely of achromatin. This

tells against exaggerating the importance of the chromatin. It is at first diffuse, but is gradually aggregated ; BATAILLON & KŒHLER (28).

Imitation of karyokinetic figures: Radiations due to expansion of drops of alcoholic solution of shellac, &c., allowed to fall on a smoked surface of paper or glass ; HENKING (229).

Distribution of pigment-granules in karyokinesis ; NUSBAUM (377).

Significance of asymmetrical karyokinesis ; STREBE (495).

Intermediate bodies : Zwischenkörper ; LUSTIG & GALEOTTI (326).

Mitosis : HÆCKER (209).—Mitosis in germinal zone of *Ascaris* ; WASIELEWSKI (528).

When amitosis occurs in testis or ovary, or rudiment of either, it occurs either in temporary investing cells or in reproductive cells which degenerate ; VOM RATH (411).

Amitotic division in mid-gut gland of crayfish ; FRENZEL (172).

6. OOGENESIS, SPERMATOGENESIS, MATURATION, FERTILISATION.

a. *The Ovum.*

Summary as to first stages in development ; BORN (50, 51).—Some general considerations *re* chromosomes, &c. ; HERMANN (237).

Vitelline body of Balbiani : This is a central body surrounded by a zone of protoplasm ; it arises from the germinal vesicle and occurs in the ova of animals of every class. In Vertebrates it generally disappears before the ovum is ripe ; in some Invertebrates it persists even in the embryo. Perhaps it and the nucleolar elements of the germinal vesicle correspond to the macronucleus of Infusorians ; HENNEGUY (238) ; JULIN (276).

Oogenesis in *Ophryotrocha* : Ovarian cells become either nutritive or reproductive. There seems to be a sort of competition among the ova for association with the nutritive cells, which are in the minority ; BRAEM (57).—Nutritive cells and ova in *Ophryotrocha* ; KORSCHELT (297).—Oogenesis in *Styelopsis grossularia* ; JULIN (275).—Oogenesis in *Cyclas* ; STAUFFACIOLI (489).

The nucleoli of ova either contain the products of chromatic metabolism or are pulsating organs ; HÆCKER (210, 211), see Cell, p. 43.

Germinal vesicle ; HÆCKER (209).

Development of germ-cells in *Branchipus*, &c. : (1) Similarity of male and female cells ; the specific peculiarities are rather physiological adaptions than of morphological importance. (2) Derivates of the primary germ-cells become (a) by karyokinesis reproductive elements, (b) by akinesis the surrounding egg-case or sperm-fluid. (3) The division of the cells is intimately associated with the foam structure. An initial step of importance is the fusion of intra-nuclear globules ; MOORE (358).

Sex-cells, origin of, in *Ctenophora* ; SAMASSA (448).—Amitosis in sex-cells ; VOM RATH (411).—Staining living sex-cells ; WALDNER (523).

Yolk-nucleus ; HUBBARD (258).

Parthenogenetic segmentation of Mammalian ova : in follicles undergoing atresia, ova may show directive spindle and a polar globule precociously, and an incipient irregular parthenogenetic segmentation ; HENNEGUY (227).

Parthenogenetic ova of *Artemia salina*.—Directive spindle consists not of 24–26 bipartite chromosomes, but of 84 tetrapartite elements in a round plate. Only one polar body may be formed, or a second division may occur, but without extrusion, the retained half behaving like a sperm-nucleus ; BRAUER (60).

History of the ova which produce the different forms of *Phylloxera* ; LEMOINE (312).

Graafian follicle, origin and history of.—Ova and follicular epithelium arise directly from the germinial epithelium. Waldeyer's *Eiballen* are first formed. From these arise (a) the Pflüger-Valentin tubules, (b) typical primordial follicles, (c) atypical primordial follicles, (d) *Eiballen-follikel* and (e) tubular follicles from delimitation of parts of (a). No new Graafian follicles arise in adult human ovary. In degeneration the nucleus undergoes chromatolysis or atrophy ; the cell-substance exhibits fatty or perhaps albuminous degeneration ; or there may be various combinations of these ; SCHOTTLAENDER (462).—Origin and history ; NAGEL (368).—Metamorphoses of ; HOELZL (247).

b. *Spermatozoon.*

Spermatozoa of *Axolotl* ; FICK (157) : of Echinoderms ; FIELD (158).

Spermatogenesis : Summary and Bibliography ; HERMANN (238).—In Mammals ; MOORE (359).

Spermatogenesis : in *Branchipus* ; MOORE (358) : in *Styelopsis grossularia* ; JULIN (275).—Spermatogenesis in Decapod *Crustacea* : cephalic cap of spermatozoon derived from atrophied or transformed nucleus ; head formed by the vesicle, or secondary nucleus ; radiate filaments derived from the cytoplasm. Particular discussion of the morphology of the spermatozoa, their adaptations to fertilisation, the differentiation of the nuclear elements ; SABATIER (444).—Of a Turbellarian : spermatozoa distinctly cellular in nature. What seems to be absence of cytoplasm from the head of a ripe spermatozoon is only apparent ; REPIACHOFF (416).—History of Chromosomes in spermatogenesis of *Ascaris megalocephala* ; BRAUER (61).

Spermatolysis of Vertebrates ; D'ANNA (8).

Remarkable processes observed in spermatozoa of *Dytiscus marginalis*. Strange union of spermatozoa in pairs, a temporary conjugation or "dejugation," which may result in molecular exchange of substance, perhaps affecting variability ; AUERBACH (10).

Reduction-divisions in the spermatogenesis of *Salamandra maculosa* ; VOM RATH (411).

c. *Maturation.*

Maturation of the ovum in Mammals ; HOLL (251, 252).

Elimination of nuclear elements in ovarian ovum of *Scorpaena scrofa* ; VAN BAMBKE (20).

Maturation of parthenogenetic ova of *Artemia* ; BRAUER (60).

In Axolotl : The first polar body is expelled as the egg passes from ovary to oviduct, or in the uppermost part of the latter ; the second, after fertilisation. The spindles show neither polar rays nor centrosome ; FICK (157).

In Lamprey : True germinal vesicle and polar bodies now discovered ; HERFORT (235).

Maturation (Newt) ; JORDAN (274).

Maturation in *Ophryotrocha* : The equatorial plate of the first polar spindle has only a single tetrapartite chromosome, a condition only known elsewhere in *Ascaris megalocephala*, var. *univalens* ; KORSCHELT (297).

d. *Fertilisation.*

Summary and bibliography ; BOVERI (54).—Nature and origin of ; KOEHLER (293).

Menstruation and fertilisation ; AUWARD (12).

In Mouse : The completion of the division which leads to the extrusion of the polar body occurs after the spermatozoon has entered ; SOBOTTA (479).

In Axolotl : There is physiological polyspermy. The whole spermatozoon enters the ovum, at a point where there is a funnel-like or conical aggregation of protoplasm. The head forms the spermatic nucleus, with amœboid movements ; the connective piece forms an attractive sphere ; the tail disappears completely ; FICK (157).

Fertilisation, polyspermy, &c., in Newt ; JORDAN (274) : in *Styelopsis grossularia* ; JULIN (275).—Artificial fertilisation ; ONANOFF (381).

7. EMBRYOLOGICAL.

Survey of embryological theories ; VIALLETON (514).

Recapitulation theory ; BATHER (30).

Ontogeny and regeneration : Facts of regeneration show that the conception of parallelism between ontogeny and regeneration must undergo fundamental modification. Thus the pharynx of *Microstoma* (ontogenetically ectodermic) may be regenerated from mesoblastic tissue, and so on ; WAGNER (519).

Considerations in regard to the homology of the germinal layers ; MAAS (329).

Germinal layers, theory of ; HATSCHEK (219).

Cleavage, germinal layers, &c., summary and bibliography ; BORN (50, 51).

- Mesoderm and coelome ; POLÉJAEFF (402).
 Organ-forming areas ; BARFURTH (25).
 Blood, &c., origin of ; NUSBAUM (378, 379).
 Origin of blood-corpuscles ; ENGEL (152).
 Blood and vascular endothelial are wholly hypoblastic ; HOFFMANN (248, 250).
 The Urmund theory ; DAVIDOFF (123).
 Ectodermic origin of skeleton : Ectodermic proliferations give rise to skeletal rudiments of a connective-tissue nature, which are subsequently in part differentiated into cartilage ; GORONOWITSCH (196).
 Nervous system, development of ; summary and criticism ; STRASSER (494).
 Chondrocranium and arches, development of ; GAUPP (178).
 Head, development of the ; KUFFFER (304).
 Ectodermic origin of some cartilaginous structures in the head ; PLATT (401).
 Hairs and skin sense-organs ; LEYDIG (314).
 Vertebrate embryology ; MARSHALL (340).
 Bibliography of vertebrate embryology ; MINOT (349).
 Gastrulation in *Vertebrata* and homology of germinal layers ; REPIACHOFF (417).
 Germinal layers in Vertebrates : A palingenetic invagination (in *Amphioxus*) forms the archenteron ; a coenogenetic dorsal invagination of ectoderm forms, according to the author, the rudiment of notochord and associated musculature, along with which the rudiment of the nervous system is also associated ; LWORT (327).
 Import of intracellular bridges between smooth muscle and epithelial cells in outer germinal epithelium ; HEIDENHAIN (225).
 Wolffian body, development of, in chick and rabbit. The duct and segmental tubules are at first solid. No evidence that the tubules form first and then join the duct ; HAYCRAFT (220).
 Ganglion-ridges (Ganglienleisten) in head of birds, &c. The medullary plate is a composite rudiment (Anlage) ; the primary ridges form mesenchyme ; in the formation of the secondary ridges the ectoderm and the medullary plate have an equal share ; but the most general conclusion seems to be the impossibility of drawing any strict line between ectodermic and mesodermic origins ; GORONOWITSCH (195).
 Development of reptiles ; WILL (549).
 Parablast and the circulatory system in Axolotl, development and morphology of the ; HOUSSAY (254).
 Pineal eye, epiphysis, and parietal nerve, development of ; KLINCKOWSTRÖM (282).—Origin of hypophysis ; GAUPP (179).
 Origin of nerves, organs of lateral line, &c., in *Selachii* ; MITROPHANOW (351).
 The epiphysis in *Squalus* is double, being formed from a united pair of accessory optic vesicles ; LOCY (317).
 A complete vascular system formed without circulation or blood.

pressure in embryo *Fundulus*. Tiger-like pigmented marking of yolk-sac depends on the distribution of blood-vessels ; LOEB (321).

Experimental embryology : Summary and criticism ; ROUX (434, 435) : summary of researches ; THOMSON (503).—Summary of facts as to post-generation, &c. ; BARFURTH (23).

Halves or half-sized wholes ? Denial of Chabry's conclusion that after the destruction of one of the two first blastomeres of the Ascidian ovum, the result is a complete embryo of half size. A typical half-morula, half-gastrula, half-larva, is formed. Note of a half-embryo of *Siredon pisciformis* ; BARFURTH (26).—Experiments on Amphibian ova ; BARFURTH (24, 25).

Cleavage, effect of pressure, &c. ; BORN (52).—Experiments with electric currents, &c. ; ROUX (439).

Warmth affects the blastulae of *Sphaerechinus granularis*, so that exogastrula and anenteria result. Dilution of the sea-water induces variations in the formation of micromeres, and yet normal Plutei may result. Removal of the micromeres of the "vegetative" half, of the "animal" half, &c., does not prevent the development of a normal Pluteus. Therefore the blastomeres are equivalent, and organogenesis is induced by differences of position and by external stimuli acting on the self-differentiating plasma ; DRIESCH (135).

Effect of pressure : Effect of pressure of a cover-glass on ova of Sea-Urchins from which the membranes are shaken off. The eight-cell stage consists of an annular zone of "animal" cells, and two separate zones, one at each pole, of "vegetative" cells. Yet normal Plutei result : thus, a blastomere may give rise to something quite different from that to which it would have given rise in normal development ; some cells, which would normally form endoderm do in reality form ectoderm ; DRIESCH (136).

Criticism of Driesch : It is an unproved assumption that the eight Echinoid blastomeres formed, under pressure, in Driesch's experiment are the equivalents of the cells in the normal 8-cell stage. Driesch's experiment shows only that segmentation may be greatly altered without affecting ultimate development, and if one of the first two blastomeres form a complete gastrula, this is simply a striking instance of regeneration ; BRAEM (56).

Driesch's argument that because a normal Pluteus larva is formed after disarrangement of blastomeres, or removal of some of them, therefore the blastomeres are mutually equivalent, is fallacious. Roux explains the normal result as due to the residual powers of regeneration and post-generation. Roux recognizes two modes of development : the normal or direct, in which there is a typical system of definitely-determined processes ; and the indirect or atypical, in which the post-generative processes are at work—when, for instance, the half-embryo of a frog forms a whole embryo. He distinguishes the idioplasms of direct and indirect development ; ROUX (434, 435, 436).

Effects of lithium salts on the development of Echinoid embryos : The

two chief results are (1) exogastrulation, and (2) an increase in the archenteric or endoderm-forming zone, which leads to a two-vesicled type of larva. Against the doctrine of specific areas, Herbst notes that the Pluteus outgrowths may arise from groups of cells which do not normally form them. So is it with the ciliated bands when the calcareous needles are displaced. Therefore the author maintains the idioplasmatic equivalence of the cells in early stages ; HERBST (233).

Artificial stimulus (clove-oil, xylol, &c.), evoking production of vitelline membrane around unfertilized Echinoderm ova ; HERBST (234).

The position of the median plane of the embryo is not determined by the position of the first or second cleavage plane. In various modifications of cleavage, produced by compression, &c., the nuclei are disposed in disorderly fashion, yet normal embryos result. Therefore there are no predetermined organ-forming areas or specialised substances definitely arranged. If one of the first two blastomeres be completely destroyed, the surviving half forms a fairly normal embryo. No semi-gastrula lateralis nor hemi-embryo lateralis were seen. The Mosaic theory of development is erroneous. So is the theory of germ-plasm. The ovum is a specifically organised "elementarorganismus," which develops epigenetically, i.e., with gradual differentiation according to the mutual relations of the embryonic cells ; HERTWIG (241, 242).

Modification of segmentation of frog ova by gentle compression between two slides, or by confinement in glass tubes. The two poles of the nuclear spindle, defining the direction of the segmentation-plane, come to be in the direction of the largest protoplasmic parts. General conclusion :—that it is not cleavage which separates the ovum into qualitatively specialised parts, the predisposition is in the unfertilised ovum ; HERTWIG (242).

Criticism of Hertwig. The first cleavages are qualitative partitions of the material which serves for the direct development of the four quarters of the embryo ; ROUX (438).

Influence of mercurial vapours on the embryo ; DARESTE (121).

Action of light and currents on development of Amphibians ; CAMERANO (87, 88).

Effect of movement on the development of the eggs of the fowl ; MARCACCIO (337) : of light and various other influences ; FÉRÉ (156).

Experiments on eggs of *Ctenolabrus*, *Serranus*, *Fundulus* : Removal of blastomeres seems to show that the size of the embryo is determined by the amount of protoplasm present, and not by the quantity of nuclear material. The embryo cut off from all connection with the germ-ring on one side, elongates backwards, producing an embryo having both right and left sides alike and equal. The conclusion follows: In the elongation of the embryonic knob backwards the head remains a fixed point, and the elongation is due to an extension backwards of the mass ; the germ-ring takes no important part in the formation of the body of the fish embryo ; MORGAN (363).

Experiments on maturation and fertilisation in *Ascaris megalocephala*:

The living worms (in a glass) were placed for 30 mins.—two hours in a freezing mixture at + 3 — to — 5° C, and thereafter gradually warmed. Among the results were—frequent polyspermy, the chromosomes were altered in number and disposition, not unfrequently only one polar body was formed, in one case six centrosomata were seen in an ovum, and so on ; SALA (447).

Spina bifida, &c. ; KOLLMANN (296).

8. REPRODUCTION, SEX, AND HEREDITY.

a. Reproduction and Sex.

NUSSBAUM (380), WEISMANN (536).

First differentiation of reproductive and somatic cells in sponges ; MAAS (330).

Dissogony ; CHUN (99).

Polymorphism, neotaenia, &c., in Termite societies. The reserve sexual forms are fed, both as larvæ and after, from salivary secretion only, a nutritive diet which probably hastens the rapid development of the reproductive system ; GRASSI & SANDIAS (188).

Reproduction of Wasps: In *Vespa germanica*, the workers lay parthenogenetic ova, which develop into males. Abundant nutrition favours the (parthenogenetic) fertility of workers ; MARCHAL (336).

Regeneration : Summary and bibliography ; BARFURTH (22, 23) : of germinal layers ; BARFURTH (24).—As to regeneration in general, see ROUX (434–436), WEISMANN (536). See Experimental Embryology.

Some details as to regeneration in *Ophryotrocha*: thus the further forward the cells, the less their regenerative power. After injury, regeneration begins at the part nearest the tail end, and progresses centripetally ; BRAEM (57).

Teleogony : citation of facts ; FINN (159).

Breeding in and in ; BAILLET (14).

Consanguinity : It is the more avoided the higher the type. Vertebrates and insects practice "topographical exogamy." The result of self-fertilisation may be higher than those of cross-fertilisation. Cross-fertilisation is related to the necessity for wide distributional range ; REGNAULT (414).

Rôle of males and females in evolution of Mammals. Suggestion that brood-pouch and mammary glands were first acquired by the males ; HAACKE (204).

Origin of sex ; MANN (335).

Sexes of larvæ of *Smerinthus populi*. Out of 193, 68 female and 59 male pupæ were hatched. No support given to the opinion that the sex can be determined by external conditions during larval life. The larger female larvæ require more food, and with a minimum of food tend to starve first. Favouring conditions must be distinguished from determining conditions ; POULTON (405).

Hermaphroditism : Describes in *Ophryotrocha* the formation of both ova and spermatozoa in the same organ at the same time. Besides hermaphrodite and unisexual forms, he found apparent females with male cells as well as ovaries, and apparent males with ova as well as sperms ; KORSCHELT (297).—In insects ; VOSSELER (518).

Parthenogenesis, &c. ; VONHOF (517).

Hybridism : Cyprinoids ; HEINCKE (226), MORGAN (363).—Believes he has fertilised the ova of *Asterias* with the sperm of *Arbacia* ; LATASTE (308), SUCHETET (499).—Two fertile Cyprinoid hybrids ; KNAUTHE (287).—Study of a hybrid between a fertile mule and horse ; CORNEVIN & LESBRE (109).—Hybridism among insects : Pairing or attempted pairing between different species is common. Hybrid offspring, however, are only known among *Lepidoptera*. Most are sterile. The hybrid has usually some characteristics of both species, but the external features of the hybrid are usually much more like those of the paternal species than those of the maternal species ; STANDFUSS (488).

b. Heredity.

CALDERWOOD (85), HAACKE (202), KOEHLER (293), LATASTE (307), MANN (335), NUSSBAUM (380), ORR (382), WALDEYER (521), WEISMANN (536).

A theory of development and heredity : Germ-cells not isolated, e.g., from nervous influences. No essential difference between development and reproduction of *Protozoa* and those of *Metazoa*. Inheritance of acquired characters in both. Epigenetic theory of development ; the forces of the environment mould the growing organism. Great importance attached to direct mechanical effect of the environment ; ORR (382).

Historical notes on the idea of the continuity of the germ plasm ; BAUR (32), NUSSBAUM (380), WEISMANN (537).

General work on normal and pathological inheritance ; SANSON (450).

The theories of Weismann ; DELAGE (126), HAACKE (202), HARTOG (215), MORGAN (361), ROMANES (429, 430), SPENCER (483, 484).

Some laws of heredity ; BUCKMAN (77).

Recapitulation theory in biology ; BUCKMAN (78).

Hymenoptera, heredity in the social colonies of : Embryological and palaeontological evidence negative the idea that the various types in the colony are produced by the treatment accorded to the young by the workers, each generation for itself. “It is more probable that the basis of the entire community, the original fertile soldier, acquired his characters in the usual way, by use, and that all other forms have been derived from him by inheritance, modified by disuse and degeneracy, under the influence of variations in the food supply ; CORE (106).

Telegony, citation of facts ; FINN (159).

Heredity *versus* Evolution ; GILMAN (183).

Theory of Gemmaria ; HAACKE (202, 205).

Atavism, &c. ; MANN (335).

Transmission of acquired characters : Modified activity of certain organs (*e.g.*, in Brown-Séquard's experiments on epilepsy) may perhaps result in the formation of certain products, probably ferments, which are taken up along with the germ-plasm and handed on. This accessory part of the germ-cell is called Zymoplasm ; EMERY (147).—Coloration of Flat-fishes : "The disappearance of the pigment from the lower side in the normal flat-fish is an hereditary character, not due to the withdrawal of the action of light in the individual. . . . On the other hand, the fact that the pigment, after prolonged action of the light, actually reappears, is strong evidence that originally, in the beginning of the evolution, the pigment disappeared, in consequence of the withdrawal of the lower sides from the action of light. If so, an acquired character has become hereditary ; CUNNINGHAM (116).

Cases supposed to illustrate transmission of acquired characters : A cow twisted its horn, a female calf showed same deformation. A peculiar way of holding the tail was traced from a mare through two generations. A pair of bulldogs were taught to carry ; one of the offspring, sent away when quite young, exhibited carrying habit without any training ; KNAUTHE (285, 286).

Inheritance of Mopsköpfigkeit in Cyprinoids ; KNAUTHE (284).

Gold-carp : Evidence showing that the double-tailed races have arisen, in the first place, as a consequence of injuries inflicted during the early development of the eggs and embryos, and that the effects of these embryonic traumatisms have become transmissible ; RYDER (441).

Persistent loss of spore-forming function in *Bacillus anthracis*, as result of heat ; PHISALIX (397).

Hereditary transmission of immunity ; CHARRIN & GLEY (98).—Facts suggesting the transmission of immunity ; CHARRIN & GLEY (187).

Heredity of tuberculosis ; GÄRTNER (175).

Malformation from pre-natal influence ; WALLACE (525).

Adverse criticism of apparent cases of inherited results of mutilation ; VOM RATH (412).

Supposed inheritance of acquired characters in domesticated animals. All experience against transmission of results of mutilation. Climatic variations in cattle are transmitted. Improbability that germ-plasm can remain uninfluenced by nutrition and metabolism of the body. But the author's argument lacks sufficiently precise appreciation of Weismannism ; WILCKENS (548).

Removal of the maternal nucleus from an ovum removes the maternal heredity tendencies ; BOVERI (55).

Non-inheritance of acquired characters ; WALLACE (524).

Acquired character, phylogeny of ; HYATT (269).

Congenital and adaptational characters ; PACKARD (383).

Therapeutic effects of testicular extract, &c. ; BROWN-SÉQUARD & D'ARSONVAL (71-74).

Report on teratology ; WINdle (552).

Double monstrosity : believed to be due to superfluity of germ-plasm

(determinants) existing in the germ, leading to a fission which is prior to that by which normal development is commenced. Superfluity of germ-plasm supposed to be due to faulty segmentation of the polar bodies, to faulty segmentation in spermatogenesis, or to polyspermy. Excess of growth without superfluity of parts depends upon different causes from those which produce double monstrosity ; WINDLE (551).

9. EVOLUTION.

a. General Subject.

Herbert Spencer and Evolution-Philosophy ; BÄGER-SJÖGREN (13).

Darwin and Hegel ; RITCHIE (424).

Useful summary of recent aetiological theories ; KEELER (277).

The law of periodicity in evolution ; HECKEL (222).

Delboeuf's law ; BARON (27).

Factors in evolution ; EMERY (147).—Restatement of position ; EIMER (143).

Gestaltung und Vererbung : support of a position, on the whole Lamarckian ; HAACKE (202).

Theory of gemmæria : the plasma of ovum, &c., consists of the smallest organised particles or gemmæria, built up of rhombic prisms (gemmæ), formed of albuminoid molecules. The system of gemmæria is in internal equilibrium, but may be modified by external influences. As the gemmæ change in arrangement, the gemmæria change in shape, and the animal varies. Fertilisation strengthens the system of gemmæria, and enables the offspring to ward off injurious influences more readily ; HAACKE (202).

Theory of the modification of species ; PFEFFER (395).

Energy as a factor. The energy-factor or ergogeny (expressed in modes of growth) illustrated ; RYDER (440).

The germ-plasm : elaboration of a general theory of evolution ; WEISMANN (536).

Huxley on Nature and Man ; SETH (472).

Man's place in nature, &c. ; BALKWILL (16).

Man's place in Nature : Evidence for evolution ; life in its lower and higher forms. The characteristics of human life. The relations of environment to life. Heredity and evolution. Sensory and rational discrimination. Animal and rational intelligence. Rational life ; CALDERWOOD (85).

b. Variation.

[This subject is also largely referred to in various special Records.]

Classification of variations :—Primary variations, the result of intimate changes in the germ-plasm, from formation of new kinds of id, or from alteration of the existing kinds ; these are inherited and progressive, and may lead to new species. Secondary variations, arising from different

combinations of ids in amphimixis ; these are inherited and lead to individual variations, or through isolation to new species. Tertiary variations, the result of environment, are not usually inherited ; EMERY (147).

Problem of variation : "In the present state of knowledge it is a more irresistible conclusion that the changes produced in the soma ultimately affect the germ-cells, than that variations in the latter are due to variations of nutrition in some manner which no one has attempted to describe" ; CUNNINGHAM (117).

General discussion of variation, reversion, &c. ; KING (281).—Variability ; MANN (335).—Anomalies in man and mammals ; BLANC (40).

Material for study of variation, finger-prints. Apparent definiteness or determinateness of variation ; GALTON (177).

Study of variation in colours of birds ; KEELER (277).

An attempt to distinguish between "congenital characters" of caterpillars and "later adaptational characters" ; PACKARD (383-386).

Teratological variations ; WINdle (553).

Laws of variation, in relation to harvest spider ; WEED (534).

Variability and hybridism in Cyprinoids ; HEINCKE (226).

c. *Influence of Function and Environment.*

General discussion ; CALDERWOOD (85).

Crustaceans adapted to colour of surroundings ; MALARD (333).

Influence of environment on development ; SCHIMKEWITSCH (458).

"Mechanical genesis of the scales of fishes" ; RYDER (443).

Influence of environment on colour of birds ; KEELER (277).

Experiments on influence of light on coloration of flat-fishes ; CUNNINGHAM (116).

Influence of running water and light on development of *Anura* ; CAMERANO (86, 87).

Action of oxygen and compressed air on warm-blooded animals ; PHILIPPON (396).

Relation of strength of stream to form of fishes ; SCHIRSCHOFF (459).

Influence of nutrition in producing polymorphism of Termites ; GRASSI & SANDIAS (188).

Effect of nutrition on fertility of worker wasps ; MARCHAL (336).
[See Sex and Reproduction.]

Effects of diminished nutrition on *Lepidoptera*, on individual, pupation, number of offspring, &c. ; SEITZ (469).

Effect of food (modified plant pigments) on colour of Lepidopterous larvæ ; POULTON (404).

Effect of warmth (of mills, &c.) on the multiplication of *Ephestia kuehniella* ; DANYSZ (120).

Effects of temperature in pupal stage : Some, but not all of the characteristic colouring (in *Pieris napi*), depends not on whether the insect enters the pupal stage in spring or summer, but on the temperature to

which the individual pupa is exposed. In *Chrysophanus phlaeas* the principal effects on colour are produced not by long exposure to severe cold, but by exposure, during the active pupal changes, to great heat (producing duskiness) or moderate cold (producing vividness of colour, smallness of spots, enlargement of copper band on hindwings); MERRIFIELD (345).

Temperature of water, and number of vertebræ in fishes; JORDAN (272, 273).

Effects of cold on organisms: Freshwater fishes survived being frozen at -8° to -15° C. Frogs survived, -28° ; centipedes, -50° ; a snail, -120° ; frog ova, -60° ; Rotifers and Infusorians, -60° . Exposure to about -200° in liquefied air did not kill either germs or seeds. At -100° chemical processes cease; much more so in seeds, germs, and spores subjected to -200° . Yet many revived. Life is one of the constant forces of nature. It does not die as long as the structure in which it manifests itself is intact; PICTET (398).

Effect of cold on ova of *Ascaris*; SALA (447).

Transpiration and respiration in relation to the environment; DISSART (130).

Concentration of sea-water, its influence on activity of the heart. Increased concentration and consequent reduction in the amount of water in the cells lessens number of heart-beats, and *vice versa*; SCHIVELY (460).

Toxicity of water, according to Nägeli; VARIGNY (512).

Rudimentary eyes; KOHL (294).

Influence of function: morphological changes associated with the squatting posture; CHARLES (97).

Geotropism; JENSEN (271).—Heliotropism; LOEB (319).

Refer also to many researches under heading Experimental Embryology; e.g., DRIESCH (135), HERBST (233).

d. Elimination, Selection, and Isolation.

Inadequacy of natural selection; SPENCER (482).

Sufficiency of natural selection; WEISMANN (538).

Discussion of natural selection, isolation, &c. Definiteness of variation. Elimination the fact rather than selection; EMERY (147).

Emphasis on "constitutional selection," i.e., in the process of natural elimination those forms with less suitable constitutions go to the wall. Speculative suggestions as to origin of Mammalian characteristics; HAACKE (204).

Natural selection and Lamarckism; BALL (17).

Nutritive relations of *Lepidoptera*, interesting in connection with struggle for existence; SEITZ (469).

Secondary sexual characters: possibility of sexual characters granted in case of certain birds. But in polygamous birds, the females belong to the victor among rival males, and some of these birds are brightly adorned. Colour may be an index of male vigour, but this does not

account for patterns, &c. The importance of the blood in bringing all parts of the body into connection. Secondary sexual characters believed to be due to the varying reactions of the organs of the body to the chemical stimuli which pass out from the sexual organs by the blood ; EMERY (147).

Sexual selection ; KEELER (277).

Natural selection among men ; AMMON (6), MUNRO (366).

Skin-parasites as factors in natural selection ; SCHEWYRIEW (457).

Isolation : the Lizard genus *Tropidurus* in Galapagos Islands ; BAUR (31).

e. Particular Problems.

Kinetogenesis of the limbs of Vertebrates ; COPE (108).

Physical explanation of organic skeletal structures ; DREYER (134).

Mechanical genesis of form of fowl's egg. Inquiry into the immediate conditions influencing shape of egg . . . or even type of placenta. In case of egg-shell, the author distinguishes (*a*) the development of a statical equilibrium (statogenetic), and (*b*) the kinetic results of movement in oviduct (kinetogenetic) ; RYDER (442).

"Mechanical" genesis of joints in Crustaceans, &c. ; SHARP (473).

"Mechanical" evolution of metapodial keels of *Diplarthra* ; WORTMAN (556).

Coloration: Albinism and melanism in Reptiles and Amphibians ; WERNER (542).—Markings of fish ; SAVILLE-KENT (454).—Coloration of flat-fishes : "These investigations afford support to the view that the incidence of light is the reason why the upper and dorsal surface of animals is more strongly pigmented than the lower or ventral throughout the animal kingdom, and that the absence of light is the cause of the disappearance of pigment in many cave-inhabiting and subterranean animals ;" CUNNINGHAM & MACMUNN (118).—Colours of birds: Pigments, probably waste-products, vary in different groups ; natural and sexual selection combine and re-arrange the limited assortment. Law of assortment of pigments : the primitive colour is a composite, which, when more or less completely resolved into its component elements, gives the specialized tints of the species or genus ; KEELER (277).

Evolution of pigments in *Lepidoptera*, &c. : The simplest pigments are greenish-yellow to yellow ; with increasing molecular weight in the pigments, orange, red, violet, blue, and green may successively arise. Sometimes in the ontogenetic succession of colour there is a recapitulation of the phylogenetic process [*Cf.* p. 40, Physiological] ; URECH (508).

Luring colours in animals ; STRUBELL (496).

Protective adaptations ; HORNELL (253).—Protective colouring in birds ; FABANI (155).—Protective colour in Lepidopterous larvæ ; GOULD (197).—Colour-change in animals which turn white in winter ; SCHIRALBE (466).—Variations in colours of cocoons in reference to theories of protective colouration ; BATESON (29).

Mimicry : NEWTON (376).—Mimicry in general, and in *Papilionidae* in particular ; HAASE (206).—Aggressive mimicry in *Volucella* ; LATTER (309).—Mimicry in the struggle for existence ; SEITZ (470).

Questions as to special liability of the female to become mimetic, as to the divergent conditions under which mimicry appears in closely-related species, as to relation between selection and variation in the production of mimicry. [Abstract, with special reference to *Hypolimnas*.] ; SWINHOE (501).

Particular cases : Evolution of Termite societies ; EMERY (148).

Illustrations of convergence, or the occurrence of similar (homoplastic) adaptations in unrelated forms ; WERNER (541).

Speculations on the origin of mammals ; HAACKE (204).

Origin of hair ; WEBER (530).

Origin of Crustacea, *Hydromedusae*, &c. ; BROOKS (69).

Blind fish ; RITTER (425).

Evolutionary discussion of the larvae of moths ; PACKARD (383-386).

Power of swimming in animals ; ROBINSON (426).

Suggests that as his abnormal Echinoid larvae form a graded series, so a gradual series of adults does not, in itself, prove continuous descent ; the series may have arisen because different forms have reacted in varying degrees to the same influences ; HERBST (233).

Origin of Chordata and other phylogenetic problems ; BROOKS (69).

Phylogeny of *Vertebrata* ; COPE (107).

Hairs and scales ; EMERY (150).—Origin of hairs and scales ; WEBER (530).—Scales of mammals ; WEBER (532) and RÖMER (427).

II. MAMMALIA.

BY

R. LYDEKKER, B.A., F.R.S., F.G.S.

II. FAUNISTIC INDEX	23	Ungulata	34
III. BIOLOGICAL INDEX	24	Cetacea	39
IV. SYSTEMATIC ARRANGEMENT	24	Edentata	40
Primates	24	Marsupialia	41
Chiroptera	26	Monotremata	42
Insectivora	27	Multituberculata	42

THE most important event of the year the Recorder has to notice is undoubtedly the completion of Zittel's "Palæontologie," which will, for many years, remain the standard compendium of the palæontological history of Mammals.

In systematic work, the year has been noteworthy for the large number of species (whether in all cases valid, it is not for the Recorder to say) of recent Mammals that have been described. Among the most interesting of these is a new genus of Rodents—the fish-eating Murine (*Ichthyomys*) ; and next to this may be mentioned a new *Sminthus* from Kashmir, and a second species of the African Viverrine genus *Nandinia*. All these forms have been brought to notice by THOMAS ; and it may be added that the bulk of the new species of the year have been described by the latter, ALLEN, and MATSCHIE. Mention must, however, also be made of the new Stag from the neighbourhood of Lhasa, described by BLANFORD. A prominent place in the year's systematic work is likewise occupied by FORSYTH MAJOR, who has not only made a complete revision of the classification of the Squirrel family, but has likewise described the curious, and apparently but recently exterminated, Malagasy

lemuroid *Megaladapis*. From a distributional point of view the recorded occurrence of *Mellivora* in Transcaspia is of considerable interest ; and our knowledge of the Mammalian fauna of Africa has received considerable additions from the labours of MATSCHIE, SCLATER, and THOMAS. Among anatomical work, the investigations of BEDDARD on the brain of the *Proboscidea*, and of DEBIERRE and BOLE on that of the *Carnivora* deserve special mention.

The subject of the development and homology of teeth continues to attract a large number of workers. OSBORN'S paper on this subject and the general evolution of Mammals will be found of more than ordinary interest, as are his researches on the dentition of the Cretaceous Mammals of the Laramie beds. From the circumstance that the permanent teeth of the Marsupials are believed to belong to the first series, this author states that Placentals cannot have had a Marsupial origin. On the other hand, KLAATSCHI'S interesting investigations regarding the existence of vestiges of a marsupium in Placentals, lead him to draw precisely the opposite conclusion.

As regards fossil forms, DAMES'S memoir on the Zeuglodonts is one of prime importance, not less from a classificatory point of view than from the evidence he adduces as to the presence of a dermal armour in these Cetaceans. Dermal armour of another kind has led FILHOL to believe in the presence of loricate Edentates among the Quercy Phosphorite fauna ; and even if his conclusions on this point be not upheld, it would seem that he has proved that pangolins and aard-varks inhabited France at the epoch in question. Not less noteworthy is TOULA'S discovery of remains of Titanotheres, hitherto regarded as an exclusively North American group, in the Tertiary of the Balkans.

— & CHAPMAN, F. M. On a Collection of Mammals from the Island of Trinidad, with Descriptions of New Species. *T. c.* pp. 203-234.

34 species, of which 9 are new, are noticed, and a complete list of the Mammalian fauna of the island is given. [See p. 27, *Phyllostomatidae*, p. 31, *Muridae*, and p. 33, *Octodontidae*.]

AMEGHINO, F. Apuntes Preliminares sobre el Genero *Theosodon*. Rev. Jard. Zool. B. Ayres, i, pp. 20-29, fig. [See p. 34, *Macrauchenidae*.]

—. Les Premiers Mammifères (Relations entre les Mammifères Diprotodontes Éocènes de l'Amérique du Nord et ceux de la République Argentine). Rev. Gen. Sci. iv, pp. 77-81, figg. [See p. 42, *Multituberculata*.]

—. Les Mammifères Fossiles de la Patagonie Austral. Rev. Scient. li, pp. 13-17 & 731. Translated Amer. Natural. xxvii, pp. 439-449.

Extracts from a letter to Trouessart, in which, after discussing the age of the Santa Cruz deposits, the author gives notes on the Ungulates, and some other Patagonian Mammals. *Theosodon* (an ancestral form of *Macrauchenia*) is stated to be pentedactylate ; and the same is asserted to

be the case with *Homalodontotherium*, in which, however, the terminal phalanges are said to be like those of *Chalicotherium*, of which the genus is regarded as an ancestor. Among the *Proterotheriidae*, *Theosodon* is declared to be monodactyle; while *Ribodon*, originally described as a Tapiroïd, is referred to the *Sirenia*. Notes on the Marsupials and Rodents of the Santa Cruz beds are likewise given; and a remarkable humerus is stated to possess characters connecting the Monotremes with the lower Vertebrates. Certain new generic and specific names are proposed, but as these are neither defined nor refer to particular specimens which can be identified in Museums, they have no status, and accordingly are not quoted here.

[AMEGHIINO, F.] Sobre la Presencia de Vertebrados de Aspecto Mesozoico en la Formacion Santa-cruceña de la Patagonia Austral. Rev. Jard. Zool. B. Ayres, i, pp. 76-84.

In the course of this paper the author describes two humeri from the Santa Cruz beds of Patagonia, which he regards as indicating as many genera of *Monotremata* [q. v. p. 42].

ANONYMOUS. The Nearctic Region and its Mammals. Nat. Sci. iii, pp. 288-292.

A critical paper, dealing with the views recently propounded by Hart Merriam & J. A. Allen.

MAJOR, C. J. FORSYTH. On some Miocene Squirrels, with Remarks on the Dentition and Classification of the *Sciurinae*. P. Zool. Soc. London, 1893, pp. 179-215, pls. viii-xi.

After an elaborate review of the dentition of recent Squirrels, and the classification of the group, together with a description of certain fossil forms, the author proceeds to give his reasons for rejecting the view that trituberculism is the primitive type of Eutherian molar dentition. On the contrary, he regards the primitive condition as that of polybunism. The single tubercles of cusps in the primitive type are considered to have been arranged in longitudinal series (tinotaxis), divided by longitudinal grooves, or valleys, there being generally three rows, with two grooves in the upper, and two rows, with one groove, in the lower molars. *Microlestes* may prove to have been a remote ancestor of the *Eutheria*. From the polybunous molar it is considered that the other types of Placental cheek-teeth have originated by a gradual transformation of the longitudinal arrangement of the cusps into a transverse one (chiastotaxis), and the dominant development of a limited number, as well as by the fusion and suppression of others, although certain of these persist in a secondary condition with great constancy. In the upper molars two cusps on the outer side, and either one or two on the inner side are the most developed. The typical tritubercular molar is a specialized stage, frequently preceded by the trigonodont type of Rütimeyer. The supposition that the talon or heel of the lower molars is a superadded element, is disputed ; but it cannot yet be determined which of all the cusps of the primitive polybunous molar represents the simple conical Reptilian tooth. —. Recent Researches upon the Succession of the Teeth in Mammals. Amer. Natural. xxvii, pp. 493-504.

A general review of recent investigations on the development and relations of Mammalian teeth, especial attention being directed to the views of Kükenthal, Röse, and Taeker. While adopting many of these views, especially that of the equivalence of the true molars with the first series, the author is indisposed to admit fission as an agent in dental development, and insists strongly upon the prime importance of trituberculism.

—. Sur la découverte du *Palaeonictis* en Amérique. *Bull. Soc. Geol. France* (3) xx, pp. 434-436, fig.

Figures an incomplete skull of a species named in 1892.

An important and suggestive memoir, dealing with the dental characters, foot-structure, and evolution of Mammals in general, and containing disquisitions on particular groups. Adopting recent views on the evolution and relations of teeth, the author gives a table showing the manner in which the first and second series are developed or aborted in the chief groups ; and he adds that the abortion of the second series in the Marsupials is a fatal bar to the view that this group is in any way ancestral to the Placentals. Trituberculism and the evolution of Ungulate molars are discussed in detail. In the course of the memoir, the author takes the opportunity of recording his dissent from the view that the Mammals of the Santa Cruz beds of Patagonia are of Eocene age,

considering that they are more probably Oligocene or Miocene, adding that he cannot accept Ameghino's derivation of *Chalicotherium* from *Homalodontotherium*.

[OSBORN, H. F.] Fossil Mammals of the Upper Cretaceous Beds. Bull. Amer. Mus. v, pp. 311-330.

It is shown that the *Multituberculata* described by Marsh from the Laramie under a variety of new generic names are referable to Cope's genera *Ptilodus* and *Meniscoëssus*, the former of which is typically from the Puerco Eocene. The Trituberculate types named from the Laramie are also partly reduced, although from the nature of the material this cannot be done so completely as in the Multituberculates. It is urged that the Laramie fauna is closely related to that of the Puerco beds, and widely different from that of the Upper Jurassic. As they pass from the Jurassic to the Tertiary, the *Plagiaulacidae* exhibit a reduction in the number of the premolars, accompanied by an increase in the number of grooves on the last tooth of that series.

WOODWARD, M. F. Contributions to the Study of Mammalian Dentition. Part I. On the Development of the *Macropodidae*. P. Zool. Soc. London, 1893, pp. 450-473, pls. xxxv-xxxvii.

The presence of 5 or even 6 vestigial incisors in the *Macropodidae* is indicated ; while the tooth generally regarded as the successor to the fourth milk-molar is declared to have no connection with the latter, and is regarded as a retarded premolar, which may be the fourth of the series, the tooth which it appears to succeed being the fifth of the series. The opinion that the molars belong to the second dentition is not supported.

WORTMAN, J. L. A New Theory of the Mechanical Evolution of the Metapodial Keels of *Diplarthra*. Amer. Natural, xxvii, pp. 421-434.

From the fact that the keel on the distal end of the metapodials is frequently not congenitally correlated with the groove on the proximal surface of the first phalangeal, it is urged that the production of the whole structure is due to mechanical impact, and is not owing to favourable variations preserved by natural selection.

—. On the Divisions of the White River or Lower Miocene of Dakota. Bull. Amer. Mus. v, pp. 95-106.

The formation in question is divided into the *Titanotherium*, *Oreodon*, and *Protoceras* beds, the Mammalian fauna of each of which is indicated. It is incidentally mentioned that an *Aceratherium* from the *Oreodon* beds had a more or less persistent upper canine.

—. [See also OSBORN & WORTMAN.]

— & EARLE, C. Ancestors of the Tapir from the Lower Miocene of Dakota. *T. c.* pp. 159-180.

It is shown that *Protapirus* (distinguished from *Tapirus* by its simpler premolars) occurs in the White River Miocene ; while the earliest type of the family is considered to be the Eocene *Systemodon*. The phylogeny of the allied genus *Colodon* is also discussed ; its ancestral type being *Healaetes*. [See p. 35, *Tapiridae*.]

ZITTEL, K. A. v. Die geologische Entwicklung, Herkunft, und Verbreitung der Säugethiere. SB. Ak. Munchen, xxiii, pp. 137-196.
Translated in Geol. Mag. (3) x, Nos. 9, 10, & 11.

A survey of the various Mammalian faunas of the different regions of the globe according to their geological ages. It is considered that during the Secondary period the *Multituberculata* (*Allotheria*), together with Polyprotodont Marsupials, had a world-wide distribution ; while subsequently to this, in the Tertiary epoch, there were three great centres of Mammalian development and dispersion, namely, (1) Australia, (2) South America, and (3) Europe, Asia, Africa, and North America. The alleged connection between South America, South Africa, and Australia by means of an Antarctic continent is disputed, as it is urged that if such connection existed during the Tertiary period, we ought to meet with Edentates in Australia. Especial attention is directed to the recently described faunas of Argentina and Patagonia ; and it is shown that if the earliest be rightly assigned to the Eocene, its Mammals were much more specialized than those of Europe belonging to that epoch ; the Ungulates and Rodents having hypsodont molars, and *Homalodontotherium* being the only one among the former which can be regarded as a generalised type. The list of this earliest, or Santa Cruz, fauna of this region includes only Marsupials, Edentates, Toxodonts, Typotheroids, peculiar Perissodactyles, Histeromorphous Rodents, and Primates ; and the same holds good for the so-called Patagonian fauna, which has been correlated with the Miocene. Hence all the genera found in these formations may be regarded as indigenous to South America. On the other hand, when we reach the (? Pliocene) Monte Hermoso and Pampean stages, we are confronted for the first time with Tapirs, Horses, Llamas, Stags, Mastodons, Murine Rodents, and true Carnivores, all of which are evidently immigrants from the north. Confirmation of the connection between South and North America having not taken place till this period, is afforded by the contemporaneous incursion of South American Edentates into the northern half of the continent.

—. Handbuch der Paleontologie. 1. Abth. iv Band. 2 Lief., pp. 305-592 ; 3 Lief., pp. 593-799.

The 2nd part concludes the Ungulates, and contains the Insectivores, Bats, and a portion of the Creodont Carnivores ; while the 3rd part completes the work.

ZOLLIKOFER, E. Farben-Aberrationen an Säugethieren und Vogeln im St. Galler Museum. Ber. St. Gall. Ges. 1891-92, pp. 295-312.

II.—FAUNAS.

PALÆARCTIC REGION.—See CHAPMAN & BUCK (Spain), COKE (Malta), DEPÉRET (France), GADOW (Spain), HOFMANN (Styria), KERMODE (I. of Man), and SCHULZE (Saxony).

ETHIOPIAN REGION.—See JENTINK (Cahama), LYDEKKER, MATSCHIE, SCLATER, TRUE, and TULLBERG.

ORIENTAL REGION.—See EVERETT (Borneo), HOSE (Borneo), and WEBER (Malayana).

NEARCTIC REGION.—See ALLEN, COPE, HATCHER, MARSH, MERRIAM, OSBORN, SCOTT, and WORTMAN.

NEOTROPICAL REGION.—See AMEGHINO (Patagonia), ANONYMOUS, GURICH, HERRING, and THOMAS (Trinidad).

For the Tertiary Fauna of the whole world, see ZITTEL.

III.—BIOLOGICAL INDEX.

ANATOMY AND HISTOLOGY.—See ALESSANDRINI, BEAUREGÁRD, BEDDARD, CATTANEO, CHRISTICENI, CORDIER, DUVAL, ELLENBERGER & BAUM, FRANCaviglia, HEPBURN, JOHNSON, KEITH, KLAATSCHE, LAVOCAT, LENHOSSEK, MAURER, PIANA, PARONA & CATTANEO, POU-SARGUES, ROCHE, RUGE, TUCKERMAN, and WILSON & MARTIN.

OSTEOLOGY.—See AMEGHINO, BLANC, CHAPMAN, DAMES, EARLE, FILHOL, GRANDIDIER, HENNIGE, HOWES, KOKEN, LYDEKKER, MAGGI, MAJOR, ROMER, ST. LOUP, STEHLIN, STIEDA, STRUTHERS, and WORTMAN.

DENTITION.—See BEAUREGARD, DE VIS, FREUND, KÜKENTHAL, LATASTE, LAVOCAT, LECHE, MAJOR, OSBORN, POLLARD, RÖSE, and WOODWARD.

DEVELOPMENT.—See EWART, DUVAL, FREUND, KÜKENTHAL, LECHE, MAURER, NEHRING, ROCHE, ROMER, and WOODWARD.

CLASSIFICATION.—See MAJOR.

IV.—SYSTEMATIC WORK.

(*Extinct groups and species are indicated by a †.*)

1. PRIMATES.

Ligaments of the Old World forms described by KEITH, *vide supra*, p. 11, and nerves of lumbar plexus by RUGE, p. 19.

a. SIMIIDEÆ.

BEDDARD, Tr. Zool. Soc. London, xiii, pp. 177–218, pls. xx–xxviii, publishes the full text of the important memoir of which the abstract is quoted in Zool. Rec. xxix, *Mamm.* p. 22. Following an introductory notice relating to the history of the specimens on which the memoir is based, the author gives a detailed description of the external characters and anatomy of the bald Chimpanzee, after which he does the same for an Ape reputed to be *Simia morio*. Figures are given of the heads, hands, and feet of both the Apes referred to, as well as illustrations of their soft parts.

Hylobates javanicus, n. sp., MATSCHIE, SB. Ges. naturf. Berlin, 1893, p. 62, N. W. Borneo. Distinctive features of all the species tabulated by the same writer, *t. c. p.* 209.

b. CERCOPITHECIDÆ.

Semnopithecus cruciger: in a notice of three specimens by THOMAS, P. Zool. Soc. London, 1893, p. 3, it is suggested that this form may prove to be merely an erythrism of *S. chrysomelas*.

Semnopithecus sabanus, n. sp., THOMAS, Ann. Nat. Hist. (6) xii, p. 230, N. Borneo.

Cercopithecus moloneyi, n. sp., SCLATER, P. Zool. Soc. London, p. 252, pl. xvii, British Central Africa. In the same paper the author figures *C. schmidti* (pl. xvi), and gives a synopsis of the genus. Excluding *Myopithecus*, the author recognizes from personal observation 31 species, divided into several groups, in addition to which there are 15 which have not come under his notice. In a supplemental paper (*op. cit.* p. 441), descriptions and figures are given of *C. boutourlinii* and *C. brazzae* (pl. xxxiii). MATSCHIE, SB. Ges. naturf. Berlin, 1893, p. 212, comments on this list, and gives a diagnosis of several of the species.

Cercopithecus santiensis, p. 64, W. Africa, and *C. stuhlmanni*, p. 225, near Albert Nyanza, n. spp., MATSCHIE, SB. Ges. naturf. Berlin, 1893. *C. cambelli* noticed, *t. c.* p. 253, by the same author, who, on pp. 97-101, gives a list of the nine white-nosed species of the genus, with their distinctive characters, and further notes on p. 253 of the same volume.

Cercopithecus lalandei: habits of young; SCLATER, P. Zool. Soc. London, 1893, p. 615, fig.

Cercopithecus opisthostictus, n. sp., SCLATER, *t. c.* p. 725, British E. Africa. *Macacus nemestrinus* and *inuus*: notes on these species by SCLATER, P. Zool. Soc. London, 1893, p. 325.

Colobus vellerosus, its distinctive features; MATSCHIE, SB. Ges. naturf. Berlin, 1893, p. 175.

Papio thoth, n. var. *ibeanus*; THOMAS, Ann. Nat. Hist. (6) xi, p. 47, Lamu, E. Africa. This name has the priority over *Cynocephalus langheldi*, Matschie (Zool. Rec. xxix, Mamm. p. 24), if the two prove to be identical.

c. HAPALIDÆ.

Hapale jacchus: abnormal sternum described and figured by HOWES, P. Zool. Soc. London, 1893, pp. 168-170.

Hapale santaremensis, n. sp., MATSCHIE, SB. Ges. naturf. Berlin, 1893, p. 227, Santarem.

d. LEMURIDÆ.

Lemur nigerrimus, Sclater, shown by MILNE-EDWARDS, P. Zool. Soc. London, 1893, pp. 177 & 178, to be the male of *L. rufipes*, Gray.

Galago zanzibaricus, n. sp., MATSCHIE, SB. Ges. naturf. Berlin, 1893, p. 111, Zanzibar.

MAJOR, P. Zool. Soc. London, 1893, p. 532, describes, without name, a Lemuroid skull of large size from the superficial deposits of Madagascar, apparently allied to *Hapalemur*.

e. Tarsiidae.

Tarsius fuscomanus. WEBER (*vide supra*, p. 21) considers this form distinct from *T. spectrum*. In the latter the hands are rufous, the pelage rufous, and the ears slightly shorter than the head; whereas in the latter the hands are brown, the pelage clear brown above and greyish-white below, and the ears only two-thirds the length of the head.

f. †Megaladapidæ.

†*Megaladapis madagascariensis*, n. g. & sp., MAJOR, P. R. Soc. London, liv, p. 176, Pleistocene, Madagascar.

The skull on which this new genus and species are founded indicates an animal some three times the size of any existing Lemuroid. In addition to having tritubercular molars, it is characterized by an enormous lateral development of the anterior interorbital region of the frontals; a narrow and elongated postorbital frontal region, separated by a slight constriction from the equally narrow parietal area; and a thick and flattened sagittal, and a strong occipital crest. The zygoma is high, and projects moderately outwards. The relatively small size of the brain-case is regarded as a degenerate feature; and it is surmised that younger specimens would show a relatively larger cerebral chamber and a shorter facial region. In the course of his paper the author proposes a classification of the families of the Lemuroids.

2. CHIROPTERA.

H. ALLEN, P. U. S. Mus. xvi, pp. 1-28, publishes an introduction to a monograph of the N. American forms, in which he discusses the structure and morphology of the order, and gives the characters of the Nearctic genera.

a. Pteropodidæ.

Pteropus aldabrensis, n. sp., TRUE, P. U. S. Mus. xvi, p. 533, Aldabra I.

Pteropus medius: for structure of stomach, see CATTANEO, *suprà*, p. 6.

Epomophorus macrocephalus: see MATSCHIE, SB. Ges. naturf. Berlin, 1893, p. 256.

b. Rhinolophidæ.

†*Rhinolophus schlosseri*, n. sp., HOFMANN, Abh. geol. Reichsanst. xv, pt. 4, p. 18, Miocene, Styria.

c. VESPERTILIONIDÆ.

The relations and serial position of the genera *Antrozous*, *Corynorhinus*, *Synotus*, *Noctulinia*, and *K[C]erivoula* discussed by H. ALLEN, P. U. S. Mus. xvi, pp. 29-31; the fourth of these being employed for the Noctule Bat.

d. EMBALLONURIDÆ.

Nyctinomus kalinowskii, n. sp., THOMAS, P. Zool. Soc. London, 1893, p. 334, pl. xxix, Central Peru.

e. PHYLLOSTOMATIDÆ.

Chiroderma dorie and *C. villosum* are contrasted by THOMAS, Ann. Nat. Hist. (6) xi, pp. 186 & 187, with some general remarks on the genus. *Artibeus glaucus*, n. sp., THOMAS, P. Zool. Soc. London, 1893, p. 336, pl. xxix, Central Peru.

Chæronycteris intermedia, n. sp., ALLEN & CHAPMAN, Bull. Amer. Mus. v, p. 207, Trinidad.

Desmodus youngii, n. sp., JENTINK, Notes Leyden Mus. xv, p. 282, W. Indies.

3. INSECTIVORA.

a. TUPAIIDÆ.

Tupaia gracilis, n. sp., THOMAS, Ann. Nat. Hist. (6) xii, p. 53, Borneo.

b. MACROSCELIDIDÆ.

Rhynchocyon stuhlmanni, n. sp., MATSCHIE, SB. Ges. naturf. Berlin, 1893, p. 66, Semliki river.

c. TALPIDÆ.

Scapanus anthonyi, n. sp., J. A. ALLEN, Bull. Amer. Mus. v, p. 200, Lower California.

b. VIVERRIDÆ.

Nandinia gerrardii, n. sp., THOMAS, Ann. Nat. Hist. (6) xii, p. 205, Nyasaland.

c. HYENIDÆ.

†*Hyena brevirostris*: complete skull described and figured by BOULE, Ann. Sci. nat. (7) xv, p. 85, pl. i.

†*Borophagus diversidens*, Tertiary, Texas, described and figured by COPE, Rep. Geol. Surv. Texas, 1892, pp. 52-55, pl. xiii, fig. 4, and regarded as an ally of *Hyænictis*.

d. CANIDÆ.

For British Sporting Dogs, see LEE, *suprà*, p. 12; and New Zealand Native Dog, COLENZO, *suprà*, p. 6.

†*Canis anceps*, n. sp., SCOTT, Amer. Natural. xxvii, p. 660, Tertiary, Montana.

†*Cynodesmus thyoides*, n. sp., SCOTT, *l. c.*, *ibid.*

†*Canimartes cumminsi*, n. sp., COPE, Rep. Geol. Surv. Texas, 1892, p. 52, Tertiary, Texas.

e. URSIDÆ.

Ursus luteolus, Griffith, regarded by MERRIAM, P. Biol. Soc. Washington, viii, p. 147, as a valid species; not the same as *U. cinnamomeus* of AUDUBON. See also PURPURUS, Zool. Garten, xxxiv, p. 113.

f. MUSTELIDÆ.

Mustela martes (*Martes sylvatica*), its distribution in Britain ; HARTING, Zoologist (3) xvii, p. 161.

Mephitis occidentalis, its distribution and habits ; PURPUS, Zool. Garten, xxxiv, p. 134.

Mellivora indica, recorded by BÜCHNER, *suprà*, p. 5, from Transcaspia.

Meles taxus : the minimum period of gestation considered by NEHRING, Zool. Garten, xxxiv, p. 107, to be six months.

†*Parietis princeps* [? *Parictis princeps*], n. g. & sp., SCOTT, Amer. Natural. xxvii, p. 658, John Day Miocene, Oregon.

B.—PINNIPEDIA.

In Jena, Zeitschr. xxviii, pp. 76–118, KÜKENTHAL gives the results of his observations on the morphology and development of the teeth of this group, the forms specially described being *Trichachus* and *Phoca*. He considers that the presence of three pairs of lower incisors in the former lends no support to the view that it is more nearly allied to certain land Carnivores than to the *Phocidae*.

Otaria : for structure of foetus, see ROCHE, *suprà*, p. 18; for approaching extermination of Fur-Seals in the South Seas, see CHAPMAN, p. 6. The structure and power of the Seal's eye has been investigated by JOHNSON, *suprà*, p. 11.

C.—†CREODONTA.

g. †PALÆONICTIDÆ.

†*Palæonictis occidentalis* (Zool. Rec. xxix, Mamm. p. 32) described by OSBORN, Bull. Soc. geol. France (3) xx, p. 435.

5. RODENTIA.

For structure of thyroid, see CHRISTIANI, *suprà*, p. 6.

a. SCIURIDÆ.

Following an exhaustive survey of their dentition, FORSYTH-MAJOR, P. Zool. Soc. London, 1893, pp. 179–215, proposes the following classification of the family, viz. :—

1. SCIURINÆ.—*Rhithrosciurus*, *Xerus*, *Sciurus*, *Spermophilus*, *Arctomys*, and *Cynomys*; *Sciurus* being subdivided into *Eosciurus*, *Sciurus* proper, and *Tamias*.

2. PTEROMYINÆ.—*Sciuropterus*, *Pteromys*, and *Eupetaurus*.

3. NANNOSCIURINÆ.—*Nannosciurus*.

While *Rhithrosciurus* and the *Sciurus vulgaris* group show the most primi-

tive basin-shaped molars, *Xerus*, and certain African species hitherto included in *Sciurus*, have molars approximating to the Hystricomorphous type, and those of *Nannosciurus* are decidedly dormouse-like. *Sciuropterus*, with which *Eluravus* may be identical, is shown to be common in a fossil condition; *Sciuroides* and *Pseudosciurus* being probably allied types. From these and other considerations, it is urged that the *Fteromyinae* are not derived from the *Sciurinae*, even if they belong to the same family.

Sciurus aberti, n. var. *durangi*, THOMAS, Ann. Nat. Hist. (6) xi, p. 50, Durango, Central Mexico.

Sciurus apache, n. sp., J. A. ALLEN, Bull. Am. Mus. v, p. 29, Mexico. The author, *t. c.* p. 30, has also a note on *S. arizonensis*.

Sciurus nelsoni, n. sp., MERRIAM, P. Biol. Soc. Washington, viii, p. 144, S. Mexico.

Sciurus vulgaris, for structure of male genital organs, see POUSARGUES, *suprà*, p. 18.

†*Sciurus gæriachensis* and *gibberosus*, n. spp., HOFMANN, Abh. geol. Reichsanst. xv, pt. 4, pp. 41 & 42, Miocene, Styria.

Tamias leucurus peninsulae, n. var., J. A. ALLEN, Bull. Amer. Mus. v, p. 197, Lower California.

Tamias panamintinus, p. 134, *T. callipeplus*, p. 136, *T. alpinus*, p. 137, n. spp., MERRIAM, P. Biol. Soc. Washington, viii, California.

†*Xerus grivensis*, n. sp., MAJOR, P. Zool. Soc. London, 1893, p. 191, Miocene, La-Grive-St.-Alban.

†*Sciuropterus albanensis*, n. sp., MAJOR, *l. c.*, *ibid.*

Sciuropterus nigripes, n. sp., THOMAS, Ann. Nat. Hist. (6) xii, p. 30, Philippines.

Spermophilus: for life-history and distribution of the 5 Mississippi species, see BAILEY, *suprà*, p. 4, by whom 3 are figured.

Spermophilus nelsoni, p. 129, California, *S. perotensis*, p. 131, Mexico, n. spp., MERRIAM, P. Biol. Soc. Washington, viii.

Spermophilus spilosoma annectans, p. 132, Texas, *S. beecheyi fisheri*, p. 133, California, *S. chrysodeirus brevicaudus*, p. 134, California, n. var., MERRIAM, *t. c.*

Arctomys monax: for structure of burrow, see FISHER, *suprà*, p. 8.

Arctomys marmotta, its distribution and habits; LANGKAVEL, Zool. Garten, xxxiv, p. 1.

b. CASTORIDÆ.

†*Steneofiber montanus*, SCOTT, Amer. Natural. xxvii, p. 660, Tertiary, Montana.

c. MYOXIDÆ.

Eliomys parvus, n. sp., TRUE, P. U. S. Mus. xvi, p. 601, Tana river, W. Africa.

Myoxus (Eliomys) smithi, n. sp., THOMAS, Ann. Nat. Hist. (6) xii, p. 267,
Victoria Nyanza.

† *Myoxus zitteli*, n. sp., HOFMANN, Abh. geol. Reichsanst. xv, pt. 4, p. 43,
Miocene, Styria.

d. MURIDÆ.

For report on the vole-plague in Scotland, see HARTING, *suprà*, p. 9.

Dasyomys longicaudatus, n. sp., TULLBERG, Acta Soc. Upsal. iii, p. 36,
Camerun.

¹ *Leimacomys* [*Limacomys*, R. L.] *buttneri*, n. g. & sp., SB. Ges. naturf.
Berlin, 1893, pp. 107-109, Togo, W. Africa. A fourth genus of
Dendromyinae, allied to *Lophuromys*, but distinguished by its shorter
tail, grooved upper incisors, and shorter fore claws.

Cricetus: after reviewing the geographical distribution of the various
species of the genus, NEHRING, Jahrb. geol. Reichsanst. xliii, pp. 179-
198, records the occurrence of remains of *C. vulgaris* and *C. phœnix* in
the European Pleistocene.

Oryzomys palustris natator, n. var., CHAPMAN, Bull. Amer. Mus. v, p. 44,
Florida.

Oryzomys costaricensis, n. sp., J. A. ALLEN, t. c. p. 239, Costa Rica.

Oryzomys speciosus, *trinitatis*, *velutinus*, and *brevicauda*, n. spp., ALLEN &
CHAPMAN, t. c. pp. 212-215, Trinidad.

Vesperimus fraterculus, n. sp., MILLER, Amer. Natural. xxvi, p. 261 (1892),
S. California.

Sitomys americanus canadensis, n. var., MILLER, P. Biol. Soc. Washington,
viii, p. 55, East U.S.

Sitomys major and *herromii*, n. spp., RHOADS, Amer. Natural. xxvii, pp. 831,
& 832, California.

Sitomys auropectus and *rowleyi*, n. spp., J. A. ALLEN, Bull. Amer. Mus.
v, pp. 75 & 76, Utah.

Sitomys americanus thurberi, n. var., *S. martirensis* and *gilberti*, n. spp.,
ALLEN, t. c. pp. 185-188, Lower California.

Sitomys niveiventris, n. var. *subgriseus*, F. M. CHAPMAN, t. c. p. 340,
Florida.

Sitomys robustus, n. sp., ALLEN, t. c. p. 335, California.

Rhithrodontomys pallidus, n. sp., RHOADS, Amer. Natural. xxvii, p. 835,
California.

Rhithrodontomys aztecus, n. sp., J. A. ALLEN, Bull. Amer. Mus. v, p. 79,
N. Mexico.

Onychomys ramona, n. sp., RHOADS, Amer. Natural. xxvii, p. 833, Cali-
fornia.

Nectomys palmipes, n. sp., ALLEN & CHAPMAN, Bull. Amer. Mus. v, p. 209,
Trinidad.

Tylomys couesi, n. sp., ALLEN & CHAPMAN, t. c. p. 211, Trinidad.

Neotoma pinetorum and *arizonæ*, n. spp., MERRIAM, P. Biol. Soc. Washing-
ton, viii, pp. 109-112, Arizona. The former is a round-tailed form

allied to *N. fuscipes*; while the latter presents the external characters of the bushy-tailed forms (*Teonoma*), with the cranial characters of the round-tailed species (*Neotoma* proper).

Neotoma macrotis, p. 234, California, *N. lepida*, p. 235, n. spp., THOMAS, Ann. Nat. Hist. (6) xii.

¹ *Ichthyomys stolzmanni*, n. g. & sp., THOMAS, Nat. Sci. ii, p. 286, P. Zool. Soc. London, 1893, p. 337, pls. xxviii & xxix, Central Peru. An apparently fish-eating, rat-like Murine, with webbed and fringed hind feet.

Arvicola (Myromes) aztecus, n. sp., J. A. ALLEN, Bull. Amer. Mus. v, p. 73, New Mexico.

Arvicola guentheri, HARTING (*suprà*, p. 9) records that this is the common Vole in Thessaly.

Synaptomys stonei, n. sp., RHOADS, Amer. Natural. xxvii, p. 53, New Jersey.

Ervotomys gapperi rhoadsi, n. var., STONE, t. c. pp. 54-56, New Jersey.

Mus gilvus (p. 100), *trizonus* (p. 103), *spicilegus* (p. 114), *arundinaceus* (p. 142), n. spp., PETENYI, in work by CHYZER, cited on p. 6.

Mus (Isomys) rufocanus, n. sp., TULLBERG, Acta Soc. Upsal. iii, p. 23, Cameruns.

Mus tana, n. sp., TRUE, P. U. S. Mus. xvi, p. 602, Tana river, W. Africa.

Mus margarettæ, n. var. *pusillus*, THOMAS, Ann. Nat. Hist. (6) xii, p. 232, N. Borneo.

Mus poschiavinus, a variety of *M. musculus*, see DAVATZ, *suprà*, p. 7.

e. SPALACIDÆ.

Heterocephalus: its anatomy, see PARONA & CATTANEO, *suprà*, p. 17.

f. GEOMYIDÆ.

Geomys cherriei, n. sp., J. A. ALLEN, Bull. Amer. Mus. v, p. 337, Costa Rica.

Geomys grandis, p. 270, Guatemala, *G. merriami*, p. 271, Mexico, n. spp., THOMAS, Ann. Nat. Hist. (6) xii.

Thomomys monticolus, p. 48, California, *T. aureus*, p. 49, Utah, *T. fossor*, p. 51, Colorado, *T. toltecus*, p. 52, Mexico, n. spp., J. A. ALLEN, Bull. Amer. Mus. v.

Thomomys orizabae, p. 145, *T. peregrinus*, p. 146, n. spp., MERRIAM, P. Biol. Soc. Washington, viii, Mexico.

Heteromys bulleri, xi, p. 330, Jalisco, Mexico, *H. salvini*, p. 331, Guatemala, *H. pictus*, xii, p. 233, Jalisco, n. spp., THOMAS, Ann. Nat. Hist. (6).

Heteromys salvini, n. var. *nigrescens*, THOMAS, Ann. Nat. Hist. (6) xii, p. 234, Costa Rica.

Dipodomys merriami, n. var. *melanurus*, MERRIAM, P. Calif. Ac. (2) iii, pp. 345 & 346, Lower California.

Dipodomys phillipsi, its re-discovery; MERRIAM, P. Biol. Soc. Washington, viii, pp. 83-96. The genus and species defined, and *Macrocolus haiticus* identified therewith.

g. DIPODIDÆ.

Zapus insignis, recorded by MILLER, P. Biol. Soc. Washington, viii, p. 1, from United States.

Zapus princeps, n. sp., J. A. ALLEN, Bull. Amer. Mus. v, p. 71, Colorado. *Sminthus leathami*, n. sp., THOMAS, Ann. Nat. Hist. (6) xi, p. 184, Maru-Wardwan, Kashmir.

h. OCTODONTIDÆ.

Lonchères castaneus, n. sp., J. A. ALLEN, Bull. Amer. Mus. v, p. 222, Trinidad.

Echimys trinitatis, n. sp., ALLEN, t. c. p. 223, Trinidad.

i. HYSTRICIDÆ.

Hystrix galeata, n. sp., THOMAS, Ann. Nat. Hist. (6) xi, p. 230, Lamu, E. Africa.

j. †CASTOROIDIDÆ.

See MOORE, *suprā*, p. 15.

k. CAVIIDÆ.

Cavia aperea: the fertile crossing of this species with *C. cobaya* recorded by NEHRING, SB. Ges. naturf. Berlin, 1893, p. 249. For structure of male genital organ, see POUSARGUES, *suprā*, p. 18.

l. LEPORIDÆ.

Lepus orizabae, n. sp., MERRIAM, P. Biol. Soc. Washington, viii, p. 143, S. Mexico.

Lepus victoriae, n. sp., THOMAS, Ann. Nat. Hist. (6) xii, p. 268, Victoria Nyanza.

Lepus europaeus, ST. LOUP, C.R. Ac. Sci. cxvii, p. 640, considers that there is a complete gradation from the skull of this species to that of *L. cuniculus*.

m. LAGOMYIDÆ.

Lagomys collaris, n. sp., NELSON, P. Biol. Soc. Washington, viii, p. 117, Alaska.

6. UNGULATA.

A.—PROBOSCIDEA.

a. ELEPHANTIDÆ.

In describing the structure of the brain in the African Elephant, BEDDARD, P. Zool. Soc. London, 1893, pp. 178–218, gives reasons for disagreeing with some of the conclusions of Krueg, although he confirms others. The outline of the brain is nearer to the Carnivorous than to the typical Ungulate type ; but the arrangement of the chief sulci appears to be on a plan peculiar to the family.

After describing the structure and mode of development of the incisor and cheek-teeth of the Indian species, RÖSE, Morphol. Arbeit. iii, pp. 173–194, comes to the conclusion that there is no evidence for homologising the first three of the latter with the milk-molars of the Mastodons ; while he further refuses to admit the serial homology of any individual tooth with the tooth of less specialized Mammals with which it has hitherto been regarded as corresponding. He adds that there is no apparent reason why the number of cheek-teeth developed in an Elephant should not be seven or eight, instead of six.

†*Elephas primigenius*, its geological age, see HOWORTH, *suprà*, p. 10, and STIRRUP, *suprà*, p. 20.

†*Elephas meridionalis*, see GAUDRY, *suprà*, p. 9.

†*Elephas antiquus*, skull described by POHLIG, *vide supra*, p. 17.

†*Dibelodon præcursor*, n. sp., COPE, Rep. Geol. Surv. Texas, 1892, p. 64, Tertiary, Texas.

†*Mastodon borsoni*, see DONNEZAN, *suprà*, p. 7.

B.—†AMBLYPODA.

b. †CORYPHODONTIDÆ.

For restoration of the type genus, see MARSH, Amer. J. Sci. (3) xlvi, p. 321.

C.—HYRACOIDEA.

c. PROCAVIIDÆ.

For observations on the dentition, see LATASTE, *suprà*, p. 11.

Procavia neumanni, n. sp., MATSCHIE, SB. Ges. naturf. Berlin, 1893, p. 112, Zanzibar ; on p. 228 of the same volume, a notice is given of the habits of one of the arboreal species.

D.—†LITOPTERNA.

d. †MARAUCHENIIDÆ.

†*Theosodon lydekkeri* is considered by AMEGHINO (Rev. Jard. Zool. B. Ayres, i, pp. 20–29) to belong to a separate family, allied to the

Macraucheniiidae, from which it is distinguished by the forward position of the narial aperture, and the more elongated nasals. The skull is figured.

E.—†ANCYLOPODA.

e. †ARTIONYCHIDÆ.

Artionyx gaudryi, n. g. & sp., OSBORN & WORTMAN, Bull. Amer. Mus. v, p. 5, White River Miocene, Dakota. While resembling *Chalicotherium* in having the terminal phalangeals in the form of large, curved claws, this new form is distinguished by the general foot-structure being formed on the Artiodactyle rather than the Perissodactyle type. It is concluded that both *Chalicotherium* and *Artionyx* branched off from the Ungulates before they had fully acquired their distinctive hoofs ; and it is suggested that while the one may have diverged from the Perissodactyle stock, the other may have been as closely related to the Artiodactyles. If, however, the *Ancylopoda* be a natural group, then these forms will present a kind of parallelism to the Perissodactyles and Artiodactyles. It is further suggested that the S. American *Homalodontotherium* may be a member of the same group. The paper concludes with an appendix on the mechanics of the Artiodactyle tarsus.

In a later paper, OSBORN, Amer. Natural. xxvii, pp. 118-133, further exemplifies the affinities of these forms, concluding that the *Ancylopoda* are directly descended from the unguiculate *Protungulata*, and that from a side branch of the same main stem there arose, at an earlier stage, the *Condylarthra*, from which, through the *Phenacodontidæ*, the *Perissodactyla* have originated.

f. †CHALICOOTHERIIDÆ.

†*Schizotherium priscum*, Gervais (= *Limognitherium*, Filhol), from the Quercy Phosphorites, is shown by FILIOL, Ann. Sci. Nat. xvi, pp. 142 et seq., to be a Chalicotheroid, with three posterior and five anterior digits.

F.—PERISSODACTYLA.

g. TAPIRIDÆ.

EARLE, Science, xxi, p. 118, discusses the osteological characters of the feet of the Malayan and Brazilian Tapirs ; and concludes that the manus of the former is considerably more specialized than that of the latter, while in the pes there is less modification in the Brazilian than in the American species.

†*Protapirus obliquidens* and *simplex*, n. spp., WORTMANN & EARLE, Bull. Amer. Mus. v, pp. 162-168, White River Miocene, U.S.A.

†*Tapirus telleri*, n. sp., HOFMANN, Abh. geol. Reichsanst. xv, pt. 4, p. 47,
Miocene, Styria.

h. EQUIDÆ.

List of Asiatic Wild Asses, by MATSCHIE, SB. Ges. naturf. Berlin, 1893,
p. 206.

Equus caballus: for rudimentary horns, see BLANC, *suprà*, p. 5; for
general anatomy, ELLENBERGER & BAUM, p. 8; for development
of limb-bones and polydactylism, EWART, p. 8, and STRUTHERS,
p. 20; and for internal anatomy, PIANA, p. 17.

Equus quagga, its distribution and extermination; NOACK, Zool. Garten
xxxiv, p. 289.

†*Equus cumminsi*, *minutus*, and *semiplicatus*, n. spp., COPE, Rep. Geol.
Surv. Texas, 1892, pp. 67 & 80, Tertiary, Texas.

†*Protohippus pachyops*, *fossulatus*, and *lenticularis*, n. spp., COPE, t. c.
pp. 26, 30, & 41, *ibid.*

†*Hippidium interpolatum*, n. sp., COPE, t. c. p. 42, *ibid.*

†*Onohippidium*, Moreno, incorrectly quoted in Zool. Rec. xxviii, *Mamm.*
p. 40, as *Onohippus*.

i. PALÆOTHERIIDÆ.

†*Desmatippus crenidens*, n. g. & sp., SCOTT, Amer. Natural. xxvii, p. 661,
Tertiary, Montana.

†*Anchitherium equinum*, SCOTT, l. c., *ibid.*

j. RHINOCEROTIDÆ.

Rhinoceros simus, its occurrence in Mashonaland; MILLAIS, P. Zool. Soc.
London, 1893, p. 614.

†*Aceratherium tridactylum*, described by OSBORN, Bull. Amer. Mus. v,
p. 85, from Dakota.

†*Aceratherium* sp.: incisor from Miocene of Kajali, Balkans, described
and figured by TOULA, SB. Ak. Wien, 1892, p. 608.

†*Amynodon*, *aff. intermedius*, skull described by PAVLOW, Bull. Soc.
Moscou, 1893, p. 37, pl. iii.

†*Rhinoceros occidentalis*, skull described by POHLIG, Bull. Soc. Belg. Geol.
vii, p. 41, pl. iii.

k. †TITANOTHERIIDÆ.

†*Menodus*? [*Titanotherium*] *rumelicus*, n. sp., TOULA, SB. Ak. Wien,
1892, p. 612, Miocene, Katina, near Sofia, Balkans. The author con-
siders that *Brachydiaestematherium transilvanicum*, from the Tertiary
of Transylvania, is likewise referable to the same family.

G.—ARTIODACTYLA.

An important series of observations on the changes in the form of the skull of the ruminating Ungulates after birth, are published by STEHLIN, *suprà*, p. 19. The anatomy of the stomach of the same group described by CORDIER, *suprà*, p. 7.

l. BOVIDÆ.

Bos bison: its range in the Caucasus shown by RAPPE, P. Zool. Soc. London, 1893, p. 175, to be confined to the districts around the sources of the Labu and Bjellaja, on the north side of the chain, extending eastwards from the former locality to the springs of the Selentschük.

Bos (Bison) americanus, its distribution and extermination; LANGKAVEL, Zool. Garten, xxxiv, p. 353.

†*Bos (Bubalus) antiquus*, see POMEL, *suprà*, p. 17.

Bubalis, synopsis of the species by LANGKAVEL, *op. cit.* p. 200.

Bubalis linata, a skull probably pertaining to a hybrid between this species and *B. caama*, figured by SELOUS, P. Zool. Soc. London, 1893, pp. 1 & 2.

Catoblepas reichei, n. sp., NOACK, Zool. Anz. 1893, p. 153, Transvaal.

Cephalophus harveyi, n. sp., THOMAS, Ann. Nat. Hist. (6) xi, p. 48, Kilima-njaro.

Cephalophus maxwelli, see MATSCHIE, SB. Ges. naturf. Berlin, 1893, p. 256.

Cobus ellipsiprymnus, note on the birth of a fawn in captivity, by SCLATER, P. Zool. Soc. London, 1893, p. 505, pl. xxxix.

Cobus crawshayi, n. sp., SCLATER, t. c. p. 726, British E. Africa; on p. 727, the name *C. unctuosus* is stated to have priority over *C. sing-sing*.

Nanotragus livingstonianus, skull figured by THOMAS, P. Zool. Soc. London, 1893, pp. 237 & 238.

Antelope [= *Gazella*] *soemmerringi*, n. var. *berberana*, MATSCHIE, SB. Ges. naturf. Berlin, 1893, p. 65, Somaliland. Distinguished by its large size and coloration.

Oryx: the characters and distribution of the four species given by MATSCHIE, t. c. pp. 101–104.

Haploceros montanus: a paper on by PURPUS, Zool. Garten, xxxiv, p. 79, *Rupicapra tragus*: its distribution and habits; LANGKAVEL, t. c. p. 267.

m. CERVIDÆ.

For Deer of British Guiana, see QUELCH, Zoologist (3) xvii, p. 19.

Cervus thoroldi, n. sp., BLANFORD, P. Zool. Soc. London, 1893, p. 444, pl. xxiv, Tibet. The two specimens on which the species is founded were obtained by Dr. Thorold about 200 miles N. E. of Lhasa, at an elevation of over 13,000 feet, and indicate a species of the Red Deer group.

Cervus brookei, n. sp., HOSE, Ann. Nat. Hist. (6) xii, p. 206, N. Borneo.

Cervus davidianus : for structure of stomach, see CORDIER, *suprà*, p. 7.
 †*Palaeomeryx meyeri*, n. sp., HOFMANN, Abh. geol. Reichsanst. **xv**, pt. 4,
 p. 61, Miocene, Styria.

n. TRAGULIDÆ.

For anatomy, see ALESSANDRINI, *suprà*, p. 2.

o. CAMELIDÆ.

†*Procamelus leptognathus*, n. sp., COPE, Rep. Geol. Surv. Texas, 1892,
 p. 37, Tertiary, Texas.

†*Plauchenia spatula*, n. sp., COPE, *t. c.* p. 70, *ibid.*

†*Holomeniscus sulcatus* and *macrocephalus*, n. spp., COPE, *t. c.* pp. 84 &
 85, *ibid.*

p. †PROTOCERATIDÆ.

†*Protoceras celer* : skull described by MARSH, Amer. J. Sci. (3) **xlvi**,
 p. 408.

q. †COTYLOPIDÆ.

†*Mesoreodon chelonyx*, n. g. & sp., SCOTT, Amer. Natural. **xxvii**, p. 661,
 Tertiary, Montana.

†*Cyclopidius incisivus*, n. sp., SCOTT, *l. c. ibid.*

r. †CHÆROPOTAMIDÆ.

†*Elotherium clavum*, n. sp., MARSH, Amer. J. Sci. (3) **xlvi**, p. 409,
 Miocene, Dakota.

†*Ammodon leidyanum* and *potens*, n. g. & spp., MARSH, *op. cit.* pp. 409 &
 410, Miocene, N. Jersey and Colorado.

s. DICOTYLIDÆ.

†*Platygonus bicalcaratus*, n. sp., COPE, Rep. Geol. Surv. Texas, 1892, p. 68,
 Tertiary, Texas.

t. HIPPOPOTAMIDÆ.

Hippopotamus liberiensis : CHAPMAN, P. Ac. Philad. 1893, pp. 185-187,
 considers this species entitled to rank as the representative of the
 distinct genus *Chæropsis*.

†*Hippopotamus lemerlei* : for this extinct Malagasy species, see GRANDI-
 DIER & FILHOL, *suprà*, p. 9.

u. PANTOLESTIDÆ.

The Puerco genus *Protagonodon* referred by EARLE, Amer. Natural.
xxvii, p. 377, to this family.

7. CETACEA.

The respiration is described by JOLYET, *suprà*, p. 11; HEPBURN, p. 9, treats of the mammary glands; MÖBIUS, p. 15, examines and criticizes a Japanese work on Whales; POUCHET, p. 17, investigates ancient records of stranded specimens; while SOUTHWELL, p. 19, gives details of the whale-fishery of 1892.

a. BALENIDÆ.

Balaena (Eubalaena) biscayensis: GULDBERG, Zool. Jahrb. Syst. vii, p. 1, describes and figures an example stranded in 1889, with details of its anatomy.

Balaenoptera sibbaldi: a stranded specimen; see BEAUREGARD, *suprà*, p. 4.

Balaenoptera musculus: its rudimentary hind limb contrasted by STRUTHERS (*suprà*, p. 20) with that of other genera.

c. PHYSETERIDÆ.

Physeter macrocephalus: for record of specimen stranded on Sicilian coast, see RIGGIO, *suprà*, p. 18.

From an examination of a large series of specimens, FORBES (P. Zool. Soc. London, 1893, pp. 216-236) concludes that in the skull of *Mesoplodon* the mesorostral bone, instead of being derived from the cartilage of the same name, is in great part formed by a special development of the osseous tissues of the floor and sides of the vomer, and of the premaxillaries; such ultra development being probably caused by the compression of those bones, as a result of the vigorous early growth in the premaxillæ and maxillæ that surround them. It is further shown that the form of the rostrum, when seen in transverse section, varies greatly with age and sex, so that the outlines of the bones constituting such a section cannot be regarded as sufficient to characterize a species. It is concluded that the number of existing species of the genus is six, viz., : *M. bidens*, *M. europaeus*, *M. hectori*, *M. layardi*, *M. densirostris*, and *M. grayi*.

Mesoplodon bidens: a female stranded on the Norfolk coast, near Cromer, on December 18th, 1892, is described by SOUTHWELL & HARMER, Ann. Nat. Hist. (6) xi, pp. 275-284, with a list of all previously recorded British examples. In the same volume, p. 439, ROTHSCHILD gives reasons for believing that while the male has the under-parts white, the female is uniformly black.

†*Dioplodon [Mesoplodon] tenuirostris* and *Placoziphius duboisi*, recorded by CAPELLINI, Rend. Ac. Lincei, ii, pp. 283-288, from the Tertiary of Italy.

d. DELPHINIDÆ

Grampus griseus, recorded by TURNER, *suprā*, p. 21, from the Shetlands.

e. †ZEUGLODONTIDÆ.

After describing certain remains from the Eocene of Egypt, DAMES (Pal. Abh. [2] i, pp. 189–222) discusses the phylogeny and relationships of this family. He not only supports the view of the Recorder as to their Cetacean nature, but in place of regarding them as representing a distinct suborder, would include them in the *Odontoceti*, according to the following arrangement :—

ODONTOCETI.

1. *ARCHÆOCETI*; oligodont and heterodont.
Zeuglodontidæ.
2. *MESOCETI*; polyodont and heterodont.
Squalodontidæ.
3. *EUODONTOCETI*; polyodont and homœodont.
Platanistidæ.
Delphinidæ.
Physeteridæ.

It is considered that the Zeuglodonts are separated from the Squalodonts by the resemblances presented by their skulls to those of ordinary terrestrial Mammals, and the small number of their teeth. They thus form the least specialised representatives of the *Cetacea*, and are connected with the modern toothed whales by means of the Squalodonts. He also describes certain bony plates found in association with the Zeuglodont remains, which are considered to have formed portions of a dorsal bony dermal armour in these animals. The existence of such an armour is in accordance with KÜKENTHAL'S discovery of vestiges of such a structure in the skin of *Phocæna (Neomeris) phocænoïdes*.

†*Zeuglodon osiris*, n. sp., DAMES, *op. cit.* p. 204, Eocene, Egypt.

*8. EDENTATA.**a. BRADYPODIDÆ.*

The presence of a distinct coracoid in the adult indicated by LYDEKKER, *vide suprā*, p. 12; the general anatomy described by FRANCAVIGLIA, *suprā*, p. 8.

b. †MEGATHERIIDÆ.

†*Megalonyx leptostomus*, n. sp., COPE, Rep. Geol. Surv. Texas, 1892, p. 49, Tertiary, Texas.

c. DASYPODIDÆ.

Nature and structure of the exoskeleton in this family and the *Manidæ* discussed by ROMER, *vide supra*, p. 18.

†*Necrodasypus galliae*, FILHOL, Ann. Sci. nat. xvi, p. 136, fig. 7, Phosphorites, Quercy.

e. MANIDÆ.

¹ †*Necromantis quercyi*, n. g. & sp., FILHOL, Ann. Sci. nat. xvi, p. 132, fig. 1, Phosphorites, Quercy.

¹ †*Leptomanis edwardsi*, n. g. & sp., FILHOL, t. c. p. 134, fig. 4, *ibid.*

f. ORYCTEROPODIDÆ.

†*Orycteropus gaudryi*, recorded by FORSYTH MAJOR from Tertiary of Maragha, Persia, P. Zool. Soc. London, 1893, p. 239.

¹ †*Paleorycterus quercyi*, n. g. & sp., FILHOL, Ann. Sci. nat. xvi, p. 135, fig. 6, Phosphorites, Quercy.

9. MARSUPIALIA.

WINGE, E. Mus. Lund. ii, art. 2. The author deals primarily with the living and fossil opossums of the district of Lagoa Santa ; but he also makes some observations on the affinities of the family in general, and defines the subgeneric groups he would adopt. Skulls and limb-bones are described and figured ; and certain emendations made on the Recorder's determinations of some of the fossil forms.

For Jacobson's organ in *Phascolomys* and *Didelphys*, see RÖSE, *suprā*, p. 18 ; and for dentition of *Macropodidæ*, WOODWARD, *suprā*, p. 22. The presence of rudimentary milk-teeth in *Phascolomys* is recorded by RÖSE, SB. Ac. Berlin, 1893, pp. 749-755. See also OSBORN, *suprā*, p. 17, as to dentition both of recent forms and of those from the Laramie.

a. PHASCOLOMYIDÆ.

†*Phascolonus* : DE VIS, P. Linn. Soc. N. S. Wales (2) viii, p. 11, figures the upper incisor, and thus shows that *Sceparndon* is generically distinct.

b. †DIPROTODONTIDÆ.

STIRLING, P. Zool. Soc. London, 1893, p. 473, has notes on a "find" of a number of complete skeletons of *Diprotodon* and *Phascolonus* near Lake Frome, S. Australia.

c. DIDELPHYIDÆ.

Didelphys (Micoureus) canescens, n. sp., J. A. ALLEN, Bull. Amer. Mus. v, p. 235, Tehuantepec, Mexico.

Didelphys koseriti, n. sp., IHERING, in paper quoted *suprà*, p. 10.

10. MONOTREMATA.

For homologies of bones of shoulder-girdle, see HOWES, *suprà*, p. 10, and LYDEKKER, p. 12, the former author also dealing with the structure of the pelvis. KOKEN, Zeitschr. deutsch. geol. Ges. xlv, pp. 343 et seqq., also enters into the discussion, and considers that the coracoid process of Placentals represents the amalgamated coracoid and precoracoid of Reptiles and Amphibia. He refuses to admit an homology between the precoracoid of *Dicynodon* and the epicoracoid of the *Monotremata*, remarking that the latter is a true epicoracoid plus an omosternum.

In the course of their observations on the structure and histology of the muzzle of *Ornithorhynchus*, WILSON & MARTIN (*suprà*, p. 22) show that the beak is covered with soft delicate skin, like that of the nose of a dog, and that the whole structure is most highly supplied with tactile organs. The snout is supported on cartilage supposed to be a vestige of the primitive chondro-cranium.

†*Adiastaltus habilis*, n. g. & sp., AMEGHINO, Rev. Jard. Zool. B. Ayres, i, p. 77, Tertiary, Patagonia.

†*Anathitus revelator*, n. g. & sp., AMEGHINO, t. c. p. 78, *ibid.*

11. †MULTITUBERCULATA.

AMEGHINO, Rev. Gen. Sci. iv, pp. 77-81, discusses the relations of *Microbiotherium*, *Abderites*, and certain other allied South American Tertiary forms to the *Multituberculata* of the United States. Both groups are considered to be very closely allied, but as the Neotropical forms do not exhibit any marked multituberculosis, they are regarded as connecting the North American types with the Diprotodont Marsupials. The author is of opinion that *Bolodon* is founded upon the upper molars of *Plagiaulax*.

For the Upper Cretaceous *Plagiaulacidae* of the Laramie beds, see OSBORN, *suprà*, p. 17.

SPECIAL SUBJECTS.

II.—FAUNISTIC.

PALÆARCTIC REGION. See Blaauw, Dresser, Hartwig, Koenig, Lilford, Lorenz, Nikolskawo, Reiser, Schmitz, Seeböhm, Stejneger, Stolzmann.

ETHIOPIAN REGION. See Barboza du Bocage, Büttikofer, Oustalet, Reichenow, Ridgway, Sharpe, Shelley, Sibroo, Sjöstedt.

INDIAN REGION. See Baker, Barnes, Büttikofer, Hose, Oustalet, Sharpe, Styan, Whitehead.

AUSTRALIAN REGION. See Büttikofer, Collett, Evans, Forbes, Meyer, Perkins, Rothschild, Wiglesworth, Wilson.

NEARCTIC REGION. See Allen, Fisher, Rhoads.

NEOTROPICAL REGION. See Allen, Berlepsch, Chapman, Cory, Godman, Hartert, Holland, Richmond, Ridgway, Salvin, & Sclater.

III.—ANATOMY AND MISCELLANEOUS.

ANATOMY. See Beddard, Gadow, Headley.

OSTEOLOGY. See Hurst, Shufeldt.

OOTOLOGY. See Campbell, Nathusius, Ryder, Ryshak, Shufeldt, Young.

PTERYLOGRAPHY. See Pycraft.

FOSSIL BIRDS. See Burckhardt, Forbes, Hamilton, Hutton, Lydekker, Marsh, Newton (E.), Parker.

LITERATURE. See Blanchard, Newton (A.), Sharpe.

Report of a Committee, consisting of Professor A. Newton (Chairman),

Mr. John Cordeaux (Secretary), Messrs. R. M. Barrington, John A. Harvie-Brown, W. Eagle Clarke, and E. P. Knubley, appointed to make a digest of the observations on the Migration of Birds at lighthouses and light-vessels, and to report on the same. Rep. Brit. Ass. 1892, p. 366.

Report of the Committee, consisting of Mr. Thomas H. Thomas (Chairman), Professors W. Newton Parker, A. Newton, and A. Leipner, Mr. E. Poulton, Canon H. B. Tristram, and Dr. C. T. Vachell (Secretary), appointed to consider proposals for the Legislative Protection of Wild Birds' Eggs. Rep. Brit. Ass. 1892, pp. 366 & 367.

GEOGRAPHICAL DISTRIBUTION. See Allen, Christy, Newton (A.) Seeböhm, Sharpe.

IV.—SYSTEMATIC.

Subclass RATITÆ.

Order RHEIFORMES.

Rhea darwini, breeding in confinement; F. E. BLAAUW, P. Zool. Soc. London, 1893, p. 532.

Order CASUARIIFORMES.

Dromaius ater, figured; A. MILNE-EDWARDS & E. OUSTALET, Notice Ois. Éteintes Mus. Paris, pp. 62–67, pl. v.

Casuarius picticollis, *C. uniappendiculatus*, and *C. occipitalis*, eggs figured; A. B. MEYER, Abh. Mus. Dresden, No. 3, taf. ii. *C. laglaizii*, n. sp., Jobi I., E. OUSTALET, Bull. Soc. Philom. (8) v, pp. 1–3.

Order DINORNITHIFORMES.

The Moas and the Moa-hunters; A. DE QUATREFAGES [Translation], Tr. N. Zealand Inst. xxv, pp. 17–49.

The Moas of New Zealand; H. O. FORBES, Nat. Sci. ii, pp. 374–380.

New species of Moas; F. W. HUTTON, Tr. N. Zealand Inst. xxv, pp. 6–13.

Dinornis strenuus, *Anomalopteryx fortis*, *Euryapteryx compacta*, *Pachyornis inhabilis*, *P. valgus*, are described.

Dinornis queenslandiae, note on; F. W. HUTTON, P. Liun. Soc. N. S. Wales (2) viii, pp. 7–10.

Anomalopteryx antiqua, note on; F. W. HUTTON, t. c. pp. 14–16, pl. iv.

See LYDEKKER, R., p. 9.

On the classification and mutual relations of the *Dinornithidae*; T. J. PARKER, Tr. N. Zealand Inst. xxv, pp. 1–6, pls. i–iii.

Order ÆPYORNITHIFORMES.

On *Æpyornis*; R. BURCKHARDT, Pal. Abh. vi, Heft. 2, pp. 127–145, taf. 1–4.

Order APTERYGIFORMES.

Additional observations on the development of *Apteryx*; T. J. PARKER, Phil. Trans. 183 (B), pp. 73-84, pls. vii & viii.

On the genus *Apteryx*; W. ROTHSCHILD, Bull. B. O. C. i, pp. lix-lxii. 6 species recognized, besides *A. maximus*, Verr. (sp. dub.), and *A. lawryi* and *A. occidentalis*, n. spp., t. c. pp. lxi & lxii.

Apteryx haastii, notes on; W. ROTHSCHILD, Ann. Nat. Hist. (6) xi, pp. 43 & 44; H. O. FORBES, t. c. pp. 159-161; W. ROTHSCHILD, t. c. pp. 299 & 300.

Subclass CARINATÆ.

Order CRYPTURIFORMES.

Calodromas elegans, Pterylography; P. L. SCLATER, Bull. B. O. C. i, p. xxiv.

Order GALLIFORMES.

Suborder MEGAPODII.

Catalogue of the Game-birds in the collection of the British Museum, xxii; W. R. OGILVIE-GRANT, pp. 445-472.

⁴ *Eulipoa*, n. gen.; type, *E. wallacii* (Gray); W. R. OGILVIE-GRANT, t. c. p. 462.

Suborder CRACES.

Catalogue of the Game-birds in the British Museum, xxii; W. R. OGILVIE-GRANT, pp. 473-522.

Crax incommoda, Sel., = *C. pinima*, Pelz.: W. R. OGILVIE-GRANT, t. c. p. 477. *C. grayi*, n. sp., Hab. ign.; W. R. OGILVIE-GRANT, t. c. p. 480.

Suborder PHASIANI.

Catalogue of the Game-birds in the British Museum, xxii; W. R. OGILVIE-GRANT, pp. 33-444, pls. i-viii.

Palæortyx edwardsi, Depéret (fossil), figured; R. LYDEKKER, P. Zool. Soc. London, 1893, p. 519, pl. xli, figs. 9 & 10. *P. maxima* and *P. grivensis*, n. spp. (fossil), Miocene of France; id. t. c. pp. 520 & 521, pl. xli, figs. 11 & 12. *P.* sp. incogn.; id. t. c. p. 521, pl. xli, fig. 13.

Family TETRAONIDÆ.

See OGILVIE-GRANT, Catalogue, *ut suprà*, pp. 33-93.

Tetraogallus henrici, figured; E. OUSTALET, N. Arch. Mus. Paris (3) v, p. 63, pl. 5.

Lagopus scoticus, notes on the changes of plumage; W. R. OGILVIE GRANT, Ann. Nat. Hist. (6) xii, pp. 61-65. Migration, T. E. BUCKLEY, Tr. Invern. Soc. iii, pp. 441-444. *L. hyperboreus*, notes on ; A. CHAPMAN, Bull. B. O. C. iii, p. x. *L. mutus*, in Cumberland ; H. A. MACPHERSON, Zool. 1893, pp. 97-99.

Lygurus tetrix × *Lagopus scoticus* ; W. B. TEGETMEIER, P. Zool. Soc. London, 1893, p. 616.

Tympانuchus americanus × *Pediocetes campestris*, skeleton ; R. W. SHUFELDT, Auk, x, pp. 281-285.

Family PHASIANIDÆ.

See OGILVIE GRANT, Catalogue, *ut suprà*, pp. 94-444, pls. i-viii.

Francolinus streptophorus (pl. i), *F. albogularis* (pl. ii), *F. spilogæmus* (pl. iii), *F. elgonensis* (pl. v), *F. shelleyi* (pl. vi), *F. adspersus* (pl. vii), figured ; W. R. OGILVIE-GRANT, *t. c.* *F. dybowskii*, n. sp., Upper Congo, E. OUSTALET, Naturaliste, xiv, p. 232.

Pternistes leucoscepus, figured ; W. R. OGILVIE-GRANT, *t. c.* pl. viii. *P. afer*, n. var. *benguellensis*, Galanga, Angola ; J. V. BARBOZA DU BOUCAGE, J. Sci. Lisb. (2) xi, p. 154.

Arboricola ardens, n. sp., Hainan ; F. W. STYAN, Ibis, 1893, pp. 56 & 57. Figured ; *id. t. c.* pl. xii.

Coturnix communis, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxvii.

Lophophorus impeyanus, n. varr. *mantoui* and *obscura* ; E. OUSTALET, Bull. Soc. zool. France, xviii, p. 17.

Gennaeus davisoni, n. subsp., Kachin Hills, Yunnan ; W. R. OGILVIE-GRANT, Cat. B. Brit. Mus. xxii, p. 304. *G. oatesi*, n. subsp., S.E. Arakan Hills ; *id. t. c.* p. 306.

Phasianus colchicus × *Thaumalea picta* : *P. colchicus* × *Gennaeus nycthemerus* ; W. B. TEGETMEIER, P. Zool. Soc. London, 1893, p. 692. *P. altus*, Milne-Edwards (fossil), figured ; R. LYDEKKER, *t. c.* p. 519, pl. xli, figs. 5-8.

Ortyx atriceps, n. sp., W. Mexico ; W. R. OGILVIE-GRANT, Cat. B. Brit. Mus. xxii, p. 424.

¹*Dactylortyx*, n. gen. ; type, *D. thoracicus* (Gambel) ; W. R. OGILVIE-GRANT, *t. c.* p. 429.

Odontophorus consobrinus, n. sp., Mirador, Southern Mexico ; R. RIDGEWAY, P. U. S. Mus. xvi, pp. 469 & 470.

¹*Rhynchortyx*, n. g. ; type, *R. spodiostethus* (Salvin) ; W. R. OGILVIE-GRANT, *t. c.* p. 443.

Suborder HEMIPODII.

See OGILVIE-GRANT, Catalogue, *ut suprà*, pp. 526-555.

Suborder PTEROCLETES.

See OGILVIE-GRANT, Catalogue, *ut suprà*, pp. 1-32.

Order COLUMBIIFORMES.

Catalogue of the *Columbæ*, or Pigeons, in the British Museum; T. SALVADORI [Vol. xxi of the Catalogue of Birds]. London: 1892, 8vo, pp. i-xviii & 1-676, pls. i-xv.

Suborder COLUMBÆ.

Family TRERONIDÆ.

Subfamily TRERONINÆ.

Sphenocercus formosæ, figured; T. SALVADORI, Catalogue, pl. i.

Osmotreron griseicauda (pl. ii, fig. 1), and *O. wallacii*, n. sp., Celebes, (pl. ii, fig. 2), *O. aromatica* (pl. iii) and *O. axillaris* (pl. iv), T. SALVADORI, Catalogue.

Phabotreron occipitalis, n. sp., Basilan, T. SALVADORI, t. c. p. 68.

Subfamily PTILOPODINÆ.

Leucotreron fischeri meridionalis, n. subsp., S. Celebes; A. B. MEYER & L. WIGLESWORTH, Ornith. Monber. i, pp. 12 & 13.

Ptilopus tristrami, n. sp., Marquesas I., T. SALVADORI, Boll. Mus. Torino, vii, No. 135, p. 1. *P. smithsonianus*, n. sp., Paumotu I., id., Cat. B. Brit. Mus. xxi, p. 105. *P. eugeniew*, figured, id. t. c. pl. v.

Alectraena nitidissima, figured; A. MILNE-EDWARDS & E. OUSTALET, Notice Ois. Eteintes Mus. Paris, pp. 40-51, pl. iii.

Megaloprepia poliura septentrionalis, n. subsp., N. and E. New Guinea and Jobi Is.; A. B. MEYER, Abh. Mus. Dresden, 1892-93, No. 3, p. 25.

Subfamily CARPOPHAGINÆ.

Carpophaga aenothorax, figured; T. SALVADORI, Catalogue, pl. vi. *C. muelleri aurantia*, n. subsp., N. New Guinea, A. B. MEYER, Abh. Mus. Dresden, 1892-93, No. 3, p. 25.

Zonophaps, n. subg.; type, *Carpophaga forsteni* (T.); A. B. MEYER, t. c. p. 208.

Cryptophaps, n. subg.; type, *Carpophaga paciforrhoa*, Brügg.; T. SALVADORI, t. c. p. 220.

Lopholaimus antarcticus, egg described; A. J. CAMPBELL, P. Soc. Victoria (n.s.) v, p. 126.

Family COLUMBIDÆ.

Columba grisea, figured; T. SALVADORI, Catalogue, pl. vii. *C. albipennis*, figured, id. t. c. pl. viii.

C. rupestris pallida, n. subsp., Eastern Siberia; W. ROTHSCHILD & E. HARTERT, Ornith. Monber. v, pp. 41 & 42. *C. taczanowskii*, n. sp., E. Siberia and Korea; L. STEJNEGER, P. U. S. Mus. xvi,

p. 624. *C. crissalis*, n. sp., Costa Rica and Veragua; T. SALVADORI, t. c. p. 294.

¹ *Neswnas*, n. g.; type, *N. mayeri*; T. SALVADORI, t. c. p. 327.

Turturana sharpii, n. sp., Equatorial Africa; T. SALVADORI, Cat. B. Brit. Mus. xxi, p. 329, pl. ix, fig. 3.

T. delegorguei, figured; T. SALVADORI, t. c. pl. ix, figg. 1 & 2.

T. incerta, n. sp., Hab. ignot.; T. SALVADORI, t. c. p. 330.

Subfamily MACROPYGIINÆ.

Macropygia goldiei, n. sp., S. E. New Guinea; T. SALVADORI, t. c. p. 358.

Family PERISTIDÆ.

Subfamily ZENAIDINÆ.

Zenaida yucatanensis, n. sp., Yucatan; T. SALVADORI, Cat. B. Brit. Mus. p. 384.

Subfamily TURTURINÆ.

Turtur shelleyi, n. sp., R. Niger; T. SALVADORI, t. c. p. 419. *T. saturatus*, n. sp., Amirante Is.; R. RIDGWAY, P. U. S. Mus. xvi, p. 600.

¹ *Homopelia*, n. subg.; type, *T. picturatus*; T. SALVADORI, t. c. p. 409.

Subfamily PERISTERINÆ.

Columbigallina passerina perpallida, n. subsp., Aruba I.; E. HARTERT, Ibis, 1893, pp. 304 & 305.

Chamæpelia buckleyi, figured; T. SALVADORI, t. c. pl. x, fig. 1.

Oxypelia, n. subg.; type, *O. cyanopis* (Pelz.); T. SALVADORI, t. c. p. 491. The species figured, pl. x, fig. 2.

¹ *Calopelia*, n. subg.; type, *C. puella* (Schl.); T. SALVADORI, t. c. p. 523.

¹ *Histriophaps*, n. g.; type, *H. histrionica* (Gould); T. SALVADORI, t. c. p. 529.

Haploptelia johnstoni, n. sp., Nyasaland; G. E. SHELLEY, Ibis, 1893, p. 28, pl. iii.

Subfamily GEOTRYGONINÆ.

Geotrygon venezuelensis, n. sp., Venezuela; T. SALVADORI, Cat. B. Brit. Mus. xxi, p. 581.

Leptoptila megalura, figured; id. t. c. p. 581, pl. xiii.

Osculatia purpurea; id. t. c. pl. xiv.

Phogenas platene, n. sp., Mindoro; id. t. c. p. 588. *P. beccarii*, figured; id. t. c. pl. xi, fig. 1. *P. granti*, n. sp., Solomon I.; id. t. c. p. 594, pl. xi, fig. 2. *P. albicollis*, n. sp., Bow I.; id. t. c. p. 601, pl. xii, fig. 1.

P. erythroptera, figured; id. t. c. pl. xii, fig. 2.

Otidiphaps cervicalis, figured; id. t. c. pl. xv.

Family GOURIDÆ.

Goura beccarii huonensis, n. subsp., Huon Gulf, N. G.; A. B. MEYER, Ornith. Monber. i, pp. 65-67.

Order OPISTHOCOMIFORMES.

Catalogue; W. R. OGILVIE-GRANT, Cat. B. Brit. Mus. xxii, pp. 523-525.

Order RALLIFORMES.

Family RALLIDÆ.

On the classification of the *Rallidæ*; R. B. SHARPE, Bull. B. O. C. i, pp. xxvi-xxix. The following new genera are recognized:—

Tricholimnas, n. g., p. xxviii. Type *T. lafresnayanus* (Verr.).

Dryolimnas, n. g., p. xxviii. Type *D. cuvieri* (Pucher).

Castanolimnas, n. g., p. xxviii. Type *C. canningii* (Blyth).

Crecopsis, n. g., p. xxviii. Type *C. egregia* (Peters).

Oenolimnas, n. g., p. xxviii. Type *O. isabellinus* (Schl.).

Amaurolimnas, n. g., p. xxviii. Type *A. concolor* (Gosse).

Anurolimnas, n. g., p. xxviii. Type *A. castaneiceps* (Scl. & Salv.).

Poliolimnas, n. g., p. xxviii. Type *P. cinereus* (V.)

Microtribonyx, n. g., p. xxix. Type *M. ventralis* (Gould).

Notes on the Rails of the Leyden Museum; R. B. SHARPE, Notes Leyden Mus. xv, pp. 266-270.

Rallus muelleri, n. sp., Auckland Is.; W. ROTHSCHILD, Bull. B. O. C. i, pp. xl & xli.

Hypotaenidia jentinki, n. sp., I. of Sula Mangoula; R. B. SHARPE, Notes Leyden Mus. xv, p. 268.

Cabalus modestus, young and egg described; H. O. FORBES, Bull. B. O. C. i, pp. xlvi & xlvi. Egg figured, *id.*, Ibis, 1892, pl. xiv, fig. 4. Note on; W. L. BULLER, Tr. N. Zealand Inst. xxv, pp. 52 & 53.

Ocydromus sylvestris is a *Cabalus*; R. B. SHARPE, Bull. B. O. C. i, p. xxx.

Aramidopsis, n. g.; type, *A. pluteni* (Blasius); R. B. SHARPE, t. c. p. liv. *Aramides ypecaha*, breeding in confinement; F. E. BLAAUW, P. Zool. Soc. London, 1893, pp. 531 & 532.

Ocydromus fuscus, Du Bus. = *O. brachypterus* (Lafr.); R. B. SHARPE, Bull. B. O. C. i, p. xxvii. *O. greyi* = *O. earli*; *id. t. c.* pp. xxix & xxx. *O. minor*, n. sp. (fossil); A. HAMILTON, Tr. N. Zealand Inst. xxv, pp. 103 & 104.

Diaphorapteryx = *Aphanapteryx*; H. O. FORBES, Ibis, 1893, p. 254.

Notes on *Aphanapteryx*; H. O. FORBES, Ann. Nat. Hist. (6) xii, pp. 65-67. *A. broeckii*, bones figured; E. NEWTON & H. GADOW, Tr. Zool. Soc. London, xiii, pp. 293 & 294, pl. xxxv, figg. 12-20.

Rallus aldabranus, n. sp., Aldabra I.; R. RIDGWAY, P. U. S. Mus. xvi, pp. 598 & 599 = *Dryolimnas aldabranus* (Günther). [Cf. R. B. SHARPE, Cat. B. Brit. Mus. xxiii, p. 333.]

- ¹ *Stictolimnas*, n. g., for *S. sharpii*, n. sp., South America ; J. BüTTIKOFER, Notes Leyden Mus. xv, p. 274.
- Crex crex*, in Australia ; A. J. NORTH, Rec. Austral. Mus. ii, p. 82.
- C. pusilla*, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxvii.
- Pennula sandwichensis*, notes on ; R. B. SHARPE, Notes Leyden Mus. xv, p. 269 : Distinct from *P. ecaudata* ; G. HARTLAUB, Bull. B. O. C. i, p. xxiv : R. B. SHARPE, t. c. p. xlvi.
- Porzana palmeri* [Zool. Rec. xxix, Aves, p. 30], figured ; W. ROTHSCHILD, Avif. Laysan, pt. i, pl. 5. Nest and eggs figured, id. t. c. pl. 31, fig. 2.
- Porzana cinereiceps*, notes on ; C. W. RICHMOND, P. U. S. Mus. xvi, pp. 529 & 530.
- Crex suahelensis*, Tristram, = *Porzana marginalis*, juv. ; R. B. SHARPE, Notes Leyden Mus. xv, p. 270.
- Gallinula sandwicensis*, figured ; S. B. WILSON & A. H. EVANS, Aves Hawaienses, pt. iv.
- Porphyrio chathamensis*, n. sp., Chatham Is. ; R. B. SHARPE, Ibis, 1893, p. 531.
- ¹ *Palaeolimnas*, n. g. (sub-fossil) ; type, *P. newtoni*, M.-E. ; H. O. FORBES, Ibis, 1893, pp. 544 & 545.
- Fulica prisca*, n. sp. (fossil) ; A. HAMILTON, Tr. N. Zealand Inst. xxv, pp. 98 & 99. *F. newtoni*, bones figured ; E. NEWTON & H. GADOW, Tr. Zool. Soc. London, xiii, pp. 292 & 293, pl. xxxv, figg. 1-11.

Family HELIORNITHIDÆ.

On the Osteology, Pterylosis, and Muscular Anatomy of the American Fin-foot (*Heliornis surinamensis*) ; F. E. BEDDARD, Ibis, 1893, pp. 30-40.

Notes on the family ; R. B. SHARPE, Bull. B. O. C. i, pp. xxxvi & xxxvii.

¹ *Heliopais*, n. g. ; type, *H. personata* (Gray) ; R. B. SHARPE, l. c.

Podica camerunensis, n. sp., Cameroons ; Y. SJÖSTEDT, Ornith. Monber. i, pp. 42 & 43.

Order PODICIPEDIDIFORMES.

Podiceps nigricollis, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxv. *P. griseigena*, figured ; id. op. cit. pt. xxvi. *P. auritus*, figured ; id. op. cit. pt. xxvii.

Podilymbus podiceps, its nesting habits ; A. M. COLLETTE, Tr. Kansas Ac. xiii, p. 49.

Order HESPERORNITHIFORMES.

¹ *Coniornis*, n. g. Type *C. altus*, n. sp. [fossil], Montana ; O. C. MARSH, Amer. J. Sci. (3) xliv, pp. 81 & 82.

Order COLYMBIFORMES.

Colymbus glacialis, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxv.

Order PROCELLARIIFORMES.

Family DIOMEDEIDÆ.

Diomedea : photographs of the Nesting of various species on Laysan I.; W. ROTHSCHILD, Avif. Laysan, pt. i, pls. xxv-xxix. *D. immutabilis*, n. sp. ; *id.* Bull. B. O. C. No. ix, p. lviii : figured ; *id.* Avif. Laysan, pt. i, pl. xxx. *D. bulleri*, n. sp., New Zealand ; *id.* Bull. B. O. C. No. ix, p. lviii. *D. chinensis*, figured ; *id.* Avif. Laysan, pt. i, pls. xxiii & xxiv.

Thalassogeron salvini, n. sp., New Zealand ; W. ROTHSCHILD, Bull. B. O. C. No. ix, p. lviii.

Family PROCELLARIIDÆ.

Puffinus : 5 species in Madeira ; W. HARTWIG, Ornith. Monber. i, p. 45.

P. nativitatis and *P. cuneatus*, figured ; S. B. WILSON & A. H. EVANS, Aves Hawaïienses, pt. iv : eggs figured ; W. ROTHSCHILD, Avif. Laysan, pt. i, pl. xxxii, figs. 6-10.

Bulweria columbina, egg figured ; W. ROTHSCHILD, t. c. pl. xxxii, fig. 5.

Œstrelata axillaris, n. sp., Chatham Is. ; O. SALVIN, Bull. B. O. C. i, p. xxxiii. *Œ. nigripennis*, n. sp., Kermadec Is. ; W. ROTHSCHILD, Bull. B. O. C. i, pp. lvii & lviii. *Œ. hypoleuca*, figured ; *id.* Avif. Laysan, pt. i, pls. xxi & xxii. *Œ. longirostris*, n. sp., Province of Mutsu, Japan ; L. STEJNEGER, P. U. S. Mus. xvi, pp. 618-620. *Œ. leucophrys*, n. sp., Sunday I., Kermadec Is. ; F. W. HUTTON, P. Zool. Soc. London, 1893, p. 752, pl. lxiii.

Nectris brevicaudus, breeding on Furneaux I. ; H. H. MONTGOMERY, P. Soc. Tasmania, 1892, pp. 1-10.

Oceanodroma townsendi, n. sp., Western Mexico ; R. RIDGWAY, P. U. S. Mus. xvi, pp. 687 & 688. *O. cryptoleucura*, figured ; S. B. WILSON & A. H. EVANS, Aves Hawaïienses, pt. iv.

Garrodia nereis, egg figured ; H. O. FORBES, Ibis, 1893, pl. xiv, fig. 3.

Order ALCIFORMES.

Alca impennis : notes on specimens in the Paris Museum ; A. MILNE-EDWARDS & E. OUSTALET, Notice Ois. Éteintes Mus. Paris, pp. 56-62 : notes on ; R. H. READ, Rep. Ealing Soc. 1892, pp. 1-5.

Uria grylle and *Mergulus alle*, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxiii.

Order LARIFORMES.

On the classification of the *Longipennes*; R. W. SHUFELDT, Amer. Natural, xvii, pp. 233–237.

Family STERCORARIIDÆ.

Stercorarius catarractus in Shetland; W. E. CLARKE, Ann. Scott. Nat. Hist. ii, pp. 65–67: figured as *Lestrus catarractus*; LORD LILFORD, Col. Fig. Br. Birds, pt. xxvi. *S. maccormicki*, n. sp., Victoria Land; H. SAUNDERS, Bull. B. O. C. iii, p. xii.

Family LARIDÆ.

Subfamily LARINÆ.

Xema sabini in Holland; F. E. BLAAUW, Ibis, 1893, p. 150: in Cumberland; H. A. MACPHERSON, Zoologist, 1893, p. 429.

Larus atricilla: breeding habits; G. H. MACKAY, Auk, x, pp. 333–336. *L. ridibundus*: process of gaining breeding plumage; R. READ, Bull. B. O. C. i, p. xxxviii.

Rhodostethia rosea, figured; LORD LILFORD, Col. Fig. Br. Birds, pt. xxvii. *Larus fuscus*, *L. argentatus*, *L. glaucus*, figured; LORD LILFORD, Col. Fig. Br. Birds, pt. xxiii. *L. ichthyaetus*, figured; *id. op. cit.* pt. xxiv. *L. marinus*, figured; *id. op. cit. pt. xxv.* *L. leucopterus* and *L. glaucus*, figured; *id. op. cit. pt. xxvi.* *L. minutus* in Germany; E. HARTERT, Ornith. Monber, i, pp. 64 & 65.

Pagophila eburnea, figured; LORD LILFORD, Col. Fig. Br. Birds, pt. xxvi.

Rissa tridactyla, figured; LORD LILFORD, *op. cit.* pt. xxiv.

Subfamily STERNINÆ.

See H. B. TRISTRAM, p. 17.

Anous stolidus and *A. melanogenys*, figured; W. ROTHSCHILD, Avif. Laysan, pt. i. *A. hawaiiensis*, n. sp., Hawaii; *id. Bull. B. O. C.* No. x, p. lvii: figured; *id. Avif. Laysan, pt. i, pls. xviii & xix*: egg figured; *id. t. c. pl. xxxiv*, fig. 13.

Haliplana fuliginosa: photograph of nest, &c.; W. ROTHSCHILD, Avif. Laysan, pt. i, pl. xvi. *H. lunata*, figured; *id. t. c. pl. xv*: egg figured; *id. t. c. pl. xxxii*, fig. 9.

Gygis alba: photographs of living bird; W. ROTHSCHILD, *t. c. pls. xiii & xiv*: egg figured; *id. t. c. pl. xxxii*, fig. 11.

Order CHARADRIIFORMES.

Suborder DROMADES.

Dromas ardeola: nesting habits; T. G. R. FINNY, J. Bombay Soc. viii, pp. 320–322.

Suborder CHIONIDES.

Chionididae : a review of the systematic position of the family ; R. W. SHUFELDT, Auk, x, pp. 158-165.

Chionis alba on the coast of Ireland, in Co. Down ; P. L. SCLATER, P. Zool. Soc. London, 1893, p. 178 ; H. L. JAMESON, Irish Natural, ii, pp. 151-155, pl. 4.

Suborder CHARADRII.

Family CHARADRIIDÆ.

Eudromias morinellus : breeding in S. Banffshire, N. B. ; W. R. OGILVIE-GRANT, Bull. B. O. C. i, p. lv : in East Prussia ; F. LINDNER & C. FLOERICKE, Ornith. Monber. i, p. 45.

Charadrius curonicus : nesting habits ; E. ZIEMER, t. c. pp. 176 & 177.

Ægialitis cantiana : nesting at Kharaghora ; H. BULKLEY, J. Bombay Soc. viii, pp. 325 & 326. *Æ. vocifera*, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxv.

Thinornis novazealandiae : eggs and nestling ; H. O. FORBES, Bull. B. O. C. i, p. xlvi : figured ; id. Ibis, 1893, pl. xiv, figs. 5 & 6, xv, fig. 2.

Hoplopterus spinosus is the Crocodile-bird of the Nile ; J. M. COOK, t. c. pp. 275-277.

Family SCOLOPACIDÆ.

Subfamily SCOLOPACINÆ.

On a point in the mechanism of the bill of birds (ex. *Tringa alpina*) ; W. P. PYCRAFT, Ibis, 1893, pp. 361-364.

Numenius tenuirostris in East Prussia ; F. LINDNER & C. FLOERICKE, Ornith. Monber. i, p. 45 : in Holland ; H. W. DE GRAAF, Ibis, 1893, p. 150.

Limosa aegoccephala, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxvii.

Actitis bartramii, in Chili ; R. A. PHILIPPI, Zool. Garten, 1893, p. 29 ; Ornith. Monber. i, p. 67.

Totanus solitarius, *T. glareola*, and *T. ochropus*, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxvi. *T. majori*, n. sp. (fossil), Miocene of France ; R. LYDEKKER, P. Zool. Soc. London, 1893, p. 521, pl. xli, fig. 14.

Tringa canutus : notes on ; G. H. MACKAY, Auk, x, pp. 25-35 : supposed egg from Greenland ; H. SEEBOHM, Bull. B. O. C. i, p. xxxii. *T. acuminata*, in Norfolk ; id. Ibis, 1893, pp. 181-183, pl. v : its synonymy ; P. L. SCLATER, t. c. pp. 183-186. *T. alpina*, *T. striata*, and *T. maculata*, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxiv. *T. subarquata*, figured ; d. t. c. pt. xxv. *T. temmincki*, in

- Japan ; L. STEJNEGER, P. U. S. Mus. xv, pp. 371-373. *T. minutilla*, in N. Devon ; H. SAUNDERS, P. Zool. Soc. London, 1893, p. 178.
Limicola platyrhyncha, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxiv.
Calidris arenaria, in Borneo ; H. SEEBOHM, P. Linn. Soc. N. S. Wales (2) viii, pp. 49 & 50.
Scolopax sabini, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxvii.
Gallinago pusilla : egg and nestlings ; H. O. FORBES, Bull. B. O. C. i, p. xlvi : figured ; id. Ibis, 1892, pls. xiv, figs 1 & 2, xv, fig. 1. *G. chathamica*, n. sp. (sub fossil) ; id. op. cit. 1893, p. 515. *G. tristrami*, n. sp., Antipodes I. ; W. ROTHSCHILD, Bull. B. O. C. iii, pp. xii & xiii. *G. huegeli*, n. sp., Snares Is. ; H. B. TRISTRAM, op. cit. i, pp. xlvi-xlviii.

Subfamily PHALAROPINÆ.

- Phalaropus fulicarius*, in Chili ; P. L. SCLATER, Bull. B. O. C. i, p. lv. *P. antarcticus* and *P. wilsoni*, in Chili ; R. A. PHILIPPI, Verh. Ver. Santiago, ii, pp. 266-271, Taf. 4 & 5.

Suborder GLAREOLÆ.

- Glareola pratincola*, in Holland ; H. W. DE GRAAF, Ibis, 1893, p. 151.

Suborder CURSORES.

- Rhinoptilus sebohmi*, Damara Land, *R. hartingi*, Somaliland, *R. albofasciatus*, S. Africa, n. spp. ; R. B. SHARPE, Bull. B. O. C. ii, pp. xiii & xiv.

Suborder OTIDES.

- On new genera of *Otidæ* ; R. B. SHARPE, Bull. B. O. C. i, p. 1.
¹*Heterotis*, n. g. ; type, *H. vigorsi* (Smith). ²*Neotis*, n. g. ; type, *N. ludwigii* (Rupprecht). ³*Houbaropsis*, n. g. ; type, *H. bengalensis* (Gm.). *Id. t. c.* p. 1.
Otis tetrax, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxiv. *O. macqueeni*, in Yorkshire ; R. HOWSE, Zoologist, 1893, p. 21.

Order GRUIFORMES.

Suborder GRUES.

- On new genera of Cranes ; R. B. SHARPE, Bull. B. O. C. i, p. xxxvii.
¹*Limnogeranus*, n. g. ; type, *L. americanus* (L.). ²*Sarcogeranus*, n. g. ; type, *S. leucogeranus* (Poll.). ³*Pseudogeranus*, n. g. ; type, *P. leucauchen* (T.). R. B. SHARPE, t. c.
Grus cinerea longirostris, T. & S., = *G. mexicana* ; R. B. SHARPE, t. c. p. xlivi.

Order PELARGIFORMES.

Suborder CICONII.

Ciconia alba, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxiii.

Suborder ARDEÆ.

Pelargocrex, nom. emend. pro *Pelargopsis*, M.-E. (nec Gloger) ; A. MILNE-EDWARDS, Bull. B. O. C. i, p. liii.

Ardeirallus pretermisssus, n. sp., Ceram ; R. B. SHARPE, op. cit. ii, p. iv.
Butorides mauritianus, n. sp. (fossil) ; E. NEWTON & H. GADOW, Tr. Zool.

Soc. London, xiii, pp. 289 & 290, pl. xxxiv, figg. 6-8.

Nycticorax griseus, in Ireland ; R. PATTERSON, Zoologist, 1893, p. 459.

Ardea ralloides, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxiv.

Botaurus lentiginosus, its habits in confinement ; R. W. SHUFELDT, Auk, x, pp. 77 & 78. Figured, LORD LILFORD, Col. Fig. Br. Birds, pt. xxiv.

Herodias alba and *Ardea pacifica*, in Tasmania ; W. V. LEGGE, P. Soc. Tasmania, pp. 79-81.

Suborder PLATALEÆ.

Family PLATALEIDÆ.

Platalea ajaja, in confinement ; F. E. BLAAUW, Ibis, 1893, pp. 465 & 466.

Family IBIDIDÆ.

Plegadis fulcinellus, in Silesia ; C. FLOERICKE, J. Ornithol. 1893, pp. 132 & 133. Figured, LORD LILFORD, Col. Fig. Br. Birds, pt. xxvii.

Ibis abbotti, n. sp., Aldabra I. ; R. RIDGWAY, P. U. S. Mus. xvi, p. 599.

Order ANSERIFORMES.

Family ANATIDÆ.

Subfamily ANSERINÆ.

Anser cinereus, *A. brachyrhynchus*, and *A. segetum*, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxvi.

Ochen hyperboreus, figured ; LORD LILFORD, t. c. pt. xxvi.

Bernicla brenta, figured ; LORD LILFORD, t. c. pt. xxiv. *B. brenta* X
Anser albifrons ; E. HARTERT, Bull. B. O. C. i, p. xxiii. *B. sandvicensis*, figured ; S. B. WILSON & A. H. EVANS, Aves Hawaienses, pt. iv.

Subfamily CYGNINÆ.

Cygnus musicus and *S. bewicki*, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxv.

Subfamily ANATINÆ.

Tadorna cornuta, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxvi.
Sarcidiornis mauritianus, n. sp. (fossil) ; E. NEWTON & H. GADOW, Tr.

Zool. Soc. London, xiii, pp. 290 & 291, pl. xxxiv, figg. 9 & 10.

Anas bosca × *Chaulelasinus streperus* ; G. PAVESI, Boll. Soc. Ven. Trent. v, pp. 3–6. *A. obscura*, nesting on Plum I. ; C. S. ALLEN, Auk, x, pp. 53–59, pls. i & ii. *A. wyvilliana*, figured ; S. B. WILSON & A. H. EVANS, Aves Hawaienses, pt. iv. *A. laysanensis*, figured ; W. ROTHSCHILD, Avif. Laysan, pt. i, pl. vi. *A. theodori*, n. sp. (fossil) ; E. NEWTON & H. GADOW, Tr. Zool. Soc. London, xiii, p. 291, pl. xxxiv, figg. 11–17.

Spatula clypeata, in South Africa ; W. B. FAIRBRIDGE, Ibis, 1893, p. 153.
Campylæmus labradorius, figured ; A. MILNE-EDWARDS & E. OUSTALET,

Notice Ois. Éteintes Mus. Paris, pp. 51–62, pl. iv.

Ædemia : notes on the genus ; G. TRUMBULL, Auk, x, pp. 165–176, pl. v.

Œ. nigra, in Sussex ; H. SAUNDERS, Bull. B. O. C. i, p. xxiv.

Mergus merganser, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxiiii.

Order PELECANIFORMES.

Suborder PHAETHONTES.

Phaëton rubricauda, egg figured ; W. ROTHSCHILD, Avif. Laysan, pt. i, pl. iii, fig. 8. *P. aethereus*, in Madeira ; W. HARTWIG, Ornith. Monber. i, p. 172.

Suborder SULÆ.

Sula cyanops and *S. piscatrix*, photographs of nests, &c. ; W. ROTHSCHILD, Avif. Laysan, pt. i, pls. xi & xii. *S. abbotti*, n. sp., Assumption I. ; R. RIDGWAY, P. U. S. Mus. xvi, pp. 599 & 600.

Suborder PHALACROCORACES.

Family PHALACROCORACIDÆ.

Phalacrocorax onslowi and *P. rothschildi*, n. spp., Chatham Is. ; H. O. FORBES, Ibis, 1893, pp. 533 & 537. *P. neglectus*, nesting on Dassen I. ; W. G. FAIRBRIDGE, Ibis, 1893, pp. 277–279.

Plotus nanus, n. sp. (fossil), Mauritius ; E. NEWTON & H. GADOW, Tr. Zool. Soc. London, xiii, pp. 288 & 289, pl. xxxiv, figg. 1–5.

Suborder FREGATI.

Fregata aquila, photographs of nest, &c. ; W. ROTHSCHILD, Avif. Laysan, pt. i, pls. vii–x.

Order ICHTHYORNITHIFORMES.

See SHUFELDT, R. W., p. 16.

Order ACCIPITRIFORMES.

Suborder ACCIPITRES.

The Hawks and Owls of the United States, in their relation to agriculture ; A. K. FISHER, Bull. Dep. Agric. Ornithol. 3, pp. 1-131, pls. i-xviii. The following species are figured : — *Elanooides forficatus*, *Ictinia mississippiensis*, *Circus hudsonius*, *Accipiter velox*, *A. cooperi*, *A. atricapillus*, *Buteo borealis*, *B. lineatus*, *B. swainsoni*, *B. latissimus*, *Archibuteo lagopus sanctijohannis*, *A. ferrugineus*, *Haliaetus leucocephalus*, *Falco peregrinus anatum*, *F. columbarius*, *F. sparverius*, *Pandion haliaetus carolinensis*.

On the moultling of the Birds of Prey ; J. G. GOODCHILD, P. Phys. Soc. Edinb. xi, pt. ii, pp. 243 & 244.

Les Oiseaux hybrides rencontrés à l'état sauvage : Pt. iv, *Accipitres* ; A. SUCHETET, Mem. Soc. zool. France, vi, pp. 26-45.

Family VULTURIDÆ.

Gyps fulvus and *Neophron percnopterus*, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxiii.

Family FALCONIDÆ.

Subfamily ACCIPITRINÆ.

Circus cineraceus, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxvii: breeding in Cambridgeshire ; F. E. SWAINSON, Zoologist, 1893, p. 312. *C. spilonotus*, from Moulmein ; W. T. BLANFORD, Bull. B. O. C. ii, p. x.

Accipiter pallens, n. sp., Japan ; L. STEJNEGER, P. U. S. Mus. xvi, p. 625. *A. major*, notes on ; X. RASPAIL, Mem. Soc. zool. France, vi, pp. 226-233.

Astur alphonsii, n. sp. (fossil), Mauritius ; E. NEWTON & H. GADOW, Tr. Zool. Soc. London, xiii, pp. 285 & 286, pl. xxxiii, figg. 9 & 10.

Urospizias sumbaensis, n. sp., Sumba I. ; A. B. MEYER, Abh. Mus. Dresden, No. 3, p. 7.

Subfamily BUTEONINÆ.

Buteo ferox, near Düsseldorf ; R. LEUSSEN, Ornith. Monber. i, p. 190. *B. menetriesi*, in Russia ; H. E. DRESSER, Ibis, 1893, pp. 379 & 380. *B. zimmermannae*, n. sp., N.E. Europe ; S. EHMEKE, J. Ornithol. 1893, p. 115 ; H. SCHALOW, t. c. p. 173. *B. albicaudatus sennetti*, n. subsp., Rio Grande, Texas ; J. A. ALLEN, Bull. Amer. Mus. v, pp. 144 & 145.

Subfamily AQUILINÆ.

Aquila chrysaëtus and *A. naevia*, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxv.

Spilornis raja, n. sp., Sarawak ; R. B. SHARPE, Bull. B. O. C. i, p. lv.
Harpagornis moorei, notes on ; A. HAMILTON, Tr. N. Zealand Inst. xxv, pp. 92-96, pls. vii, b, c.

Subfamily FALCONINÆ.

Pernis apivorus, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxvii.
Baza borneensis, n. sp. [ex. Brüggem. MSS.], N.E. Borneo ; R. B. SHARPE, Ibis, 1893, pp. 557 & 558. Notes on *B. sumatrensis* and its allies ; *id. t. c.* pp. 555-558. *B. timorlaoënsis*, n. sp., Timorlaut ; A. B. MEYER, Abh. Mus. Dresden, 1892-93, No. 31, p. 5.
Falco cenchris, in Anhalt ; J. SOMMER, Ornith. Monber. i, p. 42. *F. sparverius deserticulus*, in British Columbia ; W. BREWSTER, Auk, x, p. 236. *F. severus papuanus*, n. subsp., S.E. New Guinea ; A. B. MEYER & L. W. WIGLESWORTH, Abh. Mus. Dresden, No. 3, 1892-93, p. 6.
Cerchneis vespertinus, in Austria-Hungary ; E. C. F. RHEZAK, Ornith. Monber. i, pp. 77-80. Figured, LORD LILFORD, Col. Fig. Br. Birds, pt. xxvii.

Suborder STRIGIFORMES.

The Hawks and Owls of the United States in their relation to agriculture ; A. K. FISHER, Bull. Dep. Agric. Ornithol. 3, pp. 132-201, pls. xix-xxv. The species figured are :—*Strix pratincola*, *Asio wilsonianus*, *A. accipitrinus*, *Syrnium nebulosum*, *Megascops asio*, *M. flammeolus idahoensis*, *Bubo virginianus*, *Speotyto cunicularia hypogaea*. Die verbreitung und Lebensweise der Nachtraubvögel in Siebenbürgen ; J. VON CZATO, MT. ornith. Ver. Wien, xvii, pp. 17-20.

Family BUBONIDÆ.

Bubo maximus : a spotted egg ; E. REY, Ornith. Monber. i, pp. 57 & 58.
Megascops : evolution and dichromatism in the genus ; E. M. HASBROUCK, Amer. Natural. xxvii, p. 521. The geographical distribution of the genus in North America ; *id. Auk*, x, pp. 250-264, pls. viA & viB, maps.
Scops brookii, figured ; C. HOSE, Ibis, 1893, pl. xi. *S. sibutuensis*, n. sp., Sibutu I. ; R. B. SHARPE, Bull. B. O. C. ii, p. ix.
Pisorhina solokensis, n. sp., Solok, W. Sumatra ; E. HARTERT, op. cit. i, pp. xxxix & xl.
Asio otus, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxviii.
Glaucidium kilimense, n. sp., Kilimanjaro ; A. REICHENOW, Ornith. Monber. i, p. 178. *G. borneense*, n. sp., Mt. Kalulong, Sarawak ; R. B. SHARPE, Bull. B. O. C. i, p. lv. *G. custaneum*, n. sp., Central Africa (Andundi) ; A. REICHENOW, Ornith. Monber. i, p. 62. *G. sjöstedti*, n. sp., Cameroons ; *id. t. c.* p. 65.
Syrnium aluco, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxv.

Family STRIGIDÆ.

Strix sancti albani, n. sp. (fossil), Miocene of France; R. LYDEKKER, P. Zool. Soc. London, 1893, p. 518, pl. xli, figs. 1-4. *S. suazieri*, n. sp. (fossil), Mauritius; E. NEWTON & H. GADOW, Tr. Zool. Soc. London, xiii, pp. 286-288, pl. xxxiii, figg. 11 & 18.

Order CORACIIFORMES.

A monograph of the *Coraciidae*, or family of the Rollers; H. E. DRESSER. Farnborough, Kent: 1893, folio, xx & 112 pp., pls. i-xxvii. The following species are figured:—*Coracias abyssinicus*, *C. lorti*, *C. caudatus*, *C. spatulatus*, *C. weigalli*, *C. garrulus*, *C. indicus*, *C. affinis*, *C. naevius*, *C. mosambicus*, *C. cyanogaster*, *C. temmincki*, *Eurystomus glaucurus*, *E. afer*, *E. gularis*, *E. orientalis*, *E. pacificus*, *E. salomonensis*, *E. azureus*, *Brachypteryx leptosomus*, *B. squamiger*, *Atelornis pittoides*, *Leptosomus discolor*, *L. gracilis*.

Suborder HALCYONES.

Halcyon fortis, n. sp., Senegal; A. REICHENOW, Ornith. Monber. i, pp. 201 & 202. *H. sordidus*, account of nesting habits; A. J. NORTH, P. Linn. Soc. N. S. Wales (2) vii, p. 395.

Suborder CAPRIMULGI.

Caprimulgus ruficollis, figured; LORD LILFORD, Col. Fig. Br. Birds, pt. xxiv. *C. nigriscapularis*, n. sp., Central Africa (Seonga); A. REICHENOW, Ornith. Monber. i, p. 31.

Suborder CYPSELI.

See SALVIN, O., & GODMAN, F. D.; and also SHUFELDT, R. W. Swifts and Humming-birds; F. A. LUCAS, Ibis, 1893, pp. 365-371.

Belornis, nom. emend. pro *Tachyornis*, M.-E. (nec Gosse); A. MILNE-EDWARDS, Bull. B. O. C. i, p. lii.

Chætura lawrencei, n. sp., Grenada, West Indies; R. RIDGWAY, P. U. S. Mus. xvi, pp. 43 & 44.

Cypseloides cherriei, n. sp., Costa Rica; *id. t. c.*

Panyptila cayanensis (Gm.), its nest; C. W. RICHMOND, Auk, x, pp. 84 & 85.

Order TROCHILI.

See SHUFELDT, R. W.

The genera of Humming-birds; A. BOUCARD, Humming Bird, pp. 32 & 55-106. The following new species are described:—*Metallura peruviana*, Peru, p. 6; *Lesbia aequatorialis*, Ecuador, p. 95; *Oreotrochilus*

bolivianus, p. 7; *Hylocharis brasiliensis*, p. 7; *Amazilia forsteri*, p. 7; *Saucerottia wellsi*, p. 8; *Uranomitra whiteleyi*, p. 8; *Agyrtria speciosa*, p. 8; *Chrysura buckleyi*, p. 9; *Phaethornis garleppi*, p. 9; *Hemistephania guianensis*, p. 10; *Patagona peruviana* and *P. boliviensis*, pp. 60 & 61; *Cyanolesbia meridana* and *C. columbiana*, pp. 97 & 98; *Thalurania valenciana*, p. 102.
Swifts and Humming-birds; F. A. LUCAS, *Ibis*, 1893, pp. 365–371.
The food of Humming-birds; F. A. LUCAS, *Auk*, x, pp. 311–315.

Section B. TROCHILI INTERMEDI.

Metallura atrigularis, n. sp., Ecuador; O. SALVIN, Bull. B. O. C. i, p. xl ix.
Anthocephala berlepschi, n. sp., U.S. Colombia; O. SALVIN, Bull. B. O. C. iii, p. viii.
Cyanomyia salvini, n. sp., Sonora, Mexico; W. BREWSTER, *Auk*, x, pp. 214 & 215.

Section C. TROCHILI LÆVIROSTRES.

Pygmornis chapadensis, n. sp., Matto Grosso; J. A. ALLEN, Bull. Amer. Mus. v, p. 122.

Suborder COLII.

Colius lacteifrons, n. sp., Damaraland; R. B. SHARPE, Cat. B. Brit. Mus. xvii, p. 345 [omitted from Zool. Rec. xxix, p. 46]. *C. capensis*, breeding in confinement; P. L. SCLATER, P. Zool. Soc. London, 1893, p. 528.

Order TROGONES.

Trogon chrysomelas, n. sp., Escondido river, Nicaragua; C. W. RICHMOND, P. U. S. Mus. xvi, p. 513.
Harpactes whiteheadi, figured; J. WHITEHEAD, Expl. Kina Balu, pl. xxx.

Order COCCYGES.

Suborder MUSOPHAGI.

Turacus emini, n. sp., Central Africa; A. REICHENOW, Ornith. Monber. ii, p. 30.

Suborder CUCULI.

Cuculus canorus, notes on breeding; A. WALTER, J. Ornithol. 1893, pp. 135–149. *C. saturatus* and *O. intermedius*, synonymy; W. T. BLANFORD, P. Zool. Soc. London, 1893, pp. 315–319. Coloration of the eggs; J. A. NORTON, P. Bristol Soc. vii, pt. ii, pp. 134–136.

Scythrops novaehollandiae, egg described : A. J. CAMPBELL, P. Soc. Victoria (n.s.), v, pp. 125 & 126.

Piaya cayana cabanisi, n. subsp., Matto Grosso ; J. A. ALLEN, Bull. Amer. Mus. v, pp. 136-138.

Centropus flecki, n. sp., Damaraland ; A. REICHENOW, Ornith. Monber. i, p. 84. *C. kangeanensis*, n. sp., Kangean Archipelago ; A. G. VORDEMAN, Natuurk. Tijdschr. Nederl. Ind. 1893, p. 190.

Rhopodytes kangeanensis, n. sp. ; A. G. VORDEMAN, t. c. p. 188.

Order PSITTACIFORMES.

On certain points in the anatomy of Parrots bearing on their classification ; F. E. BEDDARD & F. G. PARSONS, P. Zool. Soc. London, 1892, pp. 507-514, pl. xl.

Wilde Papageien bei Berlin ; L. HECK, Ornith. Monber. i, pp. 24-26.

Family LORIIDÆ.

Lorius erythrothorax rubiensis, n. subsp., Rubi ; A. B. MEYER, Abh. Mus. Dresden, No. 3, 1892-93, p. 10.

Family CACATUIDÆ.

Lophopsittacus mauritianus, bones figured ; E. NEWTON & H. GADOW, Tr. Zool. Soc. London, xiii, pp. 283-285, pl. xxxii, figg. 1-8.

Family PSITTACIDÆ.

Subfamily PIONINÆ.

Chrysotis ochroptera and *O. rothschildi*, figured ; E. HARTERT, Ibis, 1893, pl. ix, figg. 1 & 2. *O. canifrons*, distinct from *O. ochroptera* ; G. L. LAWRENCE, t. c. pp. 566 & 567.

Subfamily PSITTACINÆ.

Coracopsis vasa, sexual characters ; P. L. SCLATER, P. Zool. Soc. London, 1893, p. 435.

Subfamily PALÆORNITHINÆ.

Prioniturus verticalis, n. sp., Sulu Archipelago ; R. B. SHARPE, Bull. B. O. C. iii, p. x. *P. cyaniceps*, figured ; J. WHITEHEAD, Expl. Kina Balu, pl. xxvi, fig. 2.

Mascarinus duboisi, figured ; A. MILNE-EDWARDS & E. OUSTALET, Notice Ois. Éteintes Mus. Paris, pp. 1-20, pl. i.

Palæornis salvadorii, n. sp., Szechuen ; E. OUSTALET, Bull. Soc. zool. France, xviii, p. 19.

Subfamily PLATYERCINÆ.

Platycercus occidentalis, n. sp., N.W. Australia; A. J. NORTH, Rec. Austral. Mus. ii, p. 83.

Cyanorhamphus: notes on the genus; T. SALVADORI, Ibis, 1893, pp. 466 & 467. *C. hochstetteri* = *C. erythrotis*; H. O. FORBES, t. c. pp. 280 & 281. *C. forbesi*, n. sp., Chatham Is.; W. ROTHSCHILD, P. Zool. Soc. London, 1893, pp. 529 & 530. *C. rayneri*, account of nesting habits; A. J. NORTH, P. Linn. Soc. N. S. Wales (2) vii, p. 395.

Order SCANSORES.

Suborder CAPITONES.

On some genera of Oriental Barbets; W. T. BLANFORD, Ibis, 1893, pp. 234–240.

Thereicyx, n. g.; type, *T. zeylonicus* (Gm.), *Mesobucco* [Zool. Rec. xxvi, Aves, p. 61], = *Cyanops*.

Melanobucco zombae, n. sp., Nyasaland; G. E. SHELLEY, Ibis, 1893, pp. 10 & 11.

Tricholaema flavibuccale, n. sp., Central East Africa (Wembacre Steppes); A. REICHENOW, Ornith. Monber. i, p. 20.

Smiliorhis whytii, n. sp., Nyasaland; G. E. SHELLEY, Ibis, 1893, p. 11, pl. i.

Xantholema and *Megalama*, notes on certain species; E. HARTERT, J. Ornithol. 1893, pp. 133 & 135.

Order PICIFORMES.

Suborder PICI.

Subfamily PICINÆ.

Colaptes auratus: habits; W. BREWSTER, Auk, x, pp. 231–236.

Picoides americanus alasensis, in British Columbia; W. BREWSTER, t. c.

Mesopicus johnstoni: ♀ described; Y. SJÖSTEDT, Ornith. Monber. i, p. 102.

Dendropicos reichenowi, n. sp., Camaroons; Y. SJÖSTEDT, t. c. p. 138.

D. pacificolæmus, n. sp., Central Africa (Scouga); A. REICHENOW, t. c. p. 30. *D. lacuum*, n. sp., Kareria, E. C. Africa; id. t. c. p. 178.

Subfamily PICUMNINÆ.

Picumnus salvini, n. sp., Hab. ign.; E. HARGITT, Bull. B. O. C. iii, p. iii.

P. innominatus, from Borneo; R. B. SHARPE, Ibis, 1893, p. 560.

Suborder BUCCONES.

Malacoptila fuliginosa, n. sp., Escondido River, Nicaragua; C. W. RICHMOND, P. U. S. Mus. xvi, pp. 512 & 513.

Order EURYLÆMI.

Calyptomena whiteheadi, figured ; J. WHITEHEAD, Expl. Kina Balu, frontisp.

Order PASSERIFORMES.

Section A. OSCINES.

Family CORVIDÆ.

See DIEDERICH, F., p. 5.

Die Rabenarten Norddeutschlands ; K. WENZEL, Zeitschr. Ornith. 1893, pp.

Corvus frugilegus, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxiii. *C. tropicus*, figured ; S. B. WILSON & A. H. EVANS, Aves Hawaïenses, pt. iv. *C. americanus* and *C. caurinus*, notes on ; S. N. RHOADS, Auk, x, pp. 18-21.

Garrulus glandarius and its allies ; O. KLEINSCHMIDT, Ornith. Jahrb. iv, pp. 167-219, Taf. i.

Family PARADISEIDÆ.

Monograph of the *Paradiseidæ*, or Birds of Paradise, and *Ptilonorhynchidæ* [q.v.], or Bower Birds. Part II. By R. B. SHARPE. London : 1893, folio. The following species are figured : *Ptilorhis paradisea*, *Craspedophora intercedens*, *Astrapia nigra*, *Paradigalla carunculata*, *Paradisornis rudolphi*, *Rhipidornis gulielmi tertii*, *Manucodia chalybeata*.

Subfamily EPIMACHINÆ.

Ptilorhis victoriae : nest and egg figured ; D. LE SOUEF, P. Soc. Victoria, (n.s.) v, pp. 36 & 37, pl. i.

Drepanornis bruijnii : ♂ figured ; E. OUSTALET, N. Arch. Mus. (3) Mem. v, pp. 295-299, pl. vi. *P. geisleri*, n. sp., Huon Gulf, New Guinea ; A. B. MEYER, Abh. Mus. Dresden, 1892-93, No. 3, p. 15.

Subfamily PARADISEINÆ.

Paradisea augustae victoriae : its egg ; A. B. MEYER, Ibis, 1893, pp. 481-483, pl. xiii. *P. ragiana* : notes on ; O. FINSCH, Ibis, 1893, p. 464.

Trichoparadisea, n. g. ; type, *P. gulielmi tertii* ; A. B. MEYER, Abh. Mus. Dresden, 1892-93, No. 3, p. 20.

Family PTILONORHYNCHIDÆ.

Monograph of the *Paradiseidæ* [q.v.], or Birds of Paradise, and *Ptilonorhynchidæ*, or Bower-Birds. Part II. R. B. SHARPE, 1893, folio.

The following species are figured: *Amblyornis inornata*, *Ælurædus stonii*.

Sericulus melinus: nest and eggs described; A. J. CAMPBELL, P. Soc. Victoria (n.s.) v, pp. 123-125.

Family STURNIDÆ.

Sturnus vulgaris, notes on; J. TALSKY, ii Flugschr. Stadt Liebau, 1893.
[Cf. Ornith. Monber. i, p. 210.]

Family EULABETIDÆ.

Stilbopsis, n. g.; type, *S. stuhlmanni*, n. sp., Central E. Africa (Badjua); A. REICHENOW, Ornith. Monber. i, p. 31.

Fregilupus varius, figured; A. MILNE-EDWARDS & E. OUSTALET, Notice Ois. éteintes Mus. Paris, pp. 21-46, pl. ii.

Family PARAMYTHIIDÆ.

Paramythia montium [Zool. Rec. xxix, Aves, p. 50], figured; P. L. SCLATER, Ibis, 1893, pp. 243 & 244, pl. vii.

Family DICRURIDÆ.

Buchanga aldabrana, n. sp., Aldabra I.; R. RIDGWAY, P. U. S. Mus. xvi, p. 597.

Chibia jentinki, n. sp., Kangean Archipelago; A. G. VORDERMAN, Natuurk. Tijdschr. Nederl. Ind. 1893, p. 194.

Family ORIOLIIDÆ.

Oriolus galbula, in Orkney; W. HARVEY, Ann. Scott. Nat. Hist. ii, p. 181: in the Faeroes; H. W. FEILDEN, Zoologist, 1893, p. 355.

O. hosei, figured; C. HOSE, Ibis, 1893, pl. x. *O. vulneratus*, figured; J. WHITEHEAD, Expl. Kina Balu, pl. xxvi, fig. 1. *O. insularis*, n. sp., Kangean Archipelago; A. G. VORDERMAN, Natuurk. Tijdschr. Nederl. Ind. 1893, p. 200.

Family ICTERIDÆ.

Icterus gularis yucatanensis, in Louisiana; C. BENDIRE, Auk, x, pp. 366 & 367.

Agelaius phoeniceus sonoriensis, in British Columbia; W. BREWSTER, t. c. p. 237.

Dolichonyx oryzivorus: changes of plumage; F. M. CHAPMAN, t. c. pp. 309-311, pl. vii. *D. oryzivorus albinucha*, = *D. oryzivorus*; id. t. c. p. 311.

Family PLOCEIDÆ.

- Symplectes castanicapillus*, n. sp., Cameroons, Y. SJÖSTEDT, Ornith. Monber. i, p. 43. *S. preussi*, ♀ described; *id. t. c.* p. 28. *S. stuhlmanni*, n. sp., Central E. Africa; A. REICHENOW, *t. c.* p. 29. *S. dorsomaculatus*, n. sp., Cameroons; *id. t. c.* p. 177.
- Hypothymis reichenowi*, n. sp., Galanga, Angola; J. V. BARBOZA DU BOCAZ, *J. Sci. Lisb.* (2) xi, p. 153. *H. bertrandi*, n. sp., Nyasaland; G. E. SHELLEY, *Ibis*, 1893, p. 23, pl. ii.
- Ploceus interscapularis* (Bundoko), *P. rufoniger* (Kinjawanga), *P. pachyrhynchos* (Karévia), n. spp., Central E. Africa; A. REICHENOW, Ornith. Monber. i, p. 29.
- Malimbus rubricollis centralis*, n. subsp., Central Africa (Nduruma); A. REICHENOW, *t. c.* p. 30. *M. erythrogaster*, n. sp.; *id. l. c.*
- Chlorura borneensis*, figured; J. WHITEHEAD, *Expl. Kina Balu*, pl. xvi, fig. 1.
- Foudia aldabrensis*, n. sp., Aldabra I.; R. RIDGWAY, *P. U. S. Mus.* xvi, p. 598.
- Lagonosticta dybowskii*, n. sp., Upper Congo; E. OUSTALET, *Naturaliste*, xiv, p. 23.
- Uroloncha kangeanensis*, n. sp., Kangean Archipelago; A. G. VORDERMAN, *Natuurk. Tijdschr. Nederl. Ind.* 1893, p. 199.

Family TANAGRIDAÆ.

- Chlorospingus leotaudi*, n. sp., Trinidad; F. M. CHAPMAN, *Auk*, x, p. 342. *C. albitemporalis venezuelanus*, n. subsp., Venezuela; H. VON BERLEPSCH, Ornith. Monber. i, p. 11.
- Rhamphocælus costaricensis*, notes on; G. K. CHERRIE, *Auk*, x, p. 278.
- Bullockia ceruleigularis*, n. sp., Buena Vista, Costa Rica; R. RIDGWAY, *P. U. S. Mus.* xvi, p. 609.
- Pachycephala palpebrosa melanops*, n. subsp., Venezuela; H. VON BERLEPSCH, Ornith. Monber. i, p. 11.

Family CÆREBIDAÆ.

- Note on the proper use of the generic terms *Certhiola* and *Cereba*; P. L. SCLATER, *Ibis*, 1893, pp. 246 & 247.
- Conirostrum sitticolor intermedium*, n. subsp., Venezuela; H. VON BERLEPSCH, Ornith. Monber. i, p. 11.

Family DREPANIDEÆ.

- Drepanis funerea*, n. sp., Molokai I., Sandwich Is.; A. NEWTON, *P. Zool. Soc. London*, 1893, p. 690.
- Akulucus bishopi*, n. sp., Molokai I., Sandwich Group; W. ROTHSCHILD, *Bull. B. O. C.* i, p. xlvi.

- Hemignathus affinis*, n. sp., I. of Mauai, Sandwich Group ; W. ROTHSCHILD, Ibis, 1893, p. 112 [*vide infrà*]. *H. lanaiensis*, n. sp., I. of Lanai ; *id. Bull. B. O. C. i*, pp. xxiv & xxv. Review of the genus, pp. 79-93, *H. procerus*, *H. lanaiensis*, *H. obscurus*, figured ; *id. Avif. Laysan*, pt. ii.
- Heterorhynchos* : review of the genus (pp. 95-106), *H. wilsoni*, n. sp., Hawaii (p. 97), *H. hanapepe*, *H. affinis*, figured ; W. ROTHSCHILD, *t. c. Viridonia sagittirostris*, figured ; W. ROTHSCHILD, *t. c. Himatione maculata* (Cab.) referred to *Viridonia* ; W. ROTHSCHILD, *Bull. B. O. C. i*, p. lvii.
- Palmeria mirabilis*, = *Himatione dolei*, Wils. ; W. ROTHSCHILD, *op. cit. ii*, p. ix [*vide infrà*, p. 43].
- Himatione newtoni*, *H. wilsoni*, n. spp., Mauai I., Sandwich Group ; W. ROTHSCHILD, *op. cit. i*, p. xlvi.
- H. freethi* [Zool. Rec. xxix, *Aves*, p. 52] ; W. ROTHSCHILD, *Avif. Laysan*, pt. i, pl. 2, figg. A, B, C. *H. sanguinea*, figured, *id. t. c. pl. 2*, fig. D. *H. mana*, figured ; S. B. WILSON & A. H. EVANS, *Aves Hawaienses*, pt. iv.
- Loxops wolstenholmei*, n. sp., I. of Oahu, Sandwich Group ; W. ROTHSCHILD, *Bull. B. O. C. i*, p. lvi.
- L. ochracea*, n. sp., I. of Mauai, Sandwich Group ; W. ROTHSCHILD, Ibis, 1893, pp. 112, 113, 281, & 282.
- Chloridops kona*, figured ; S. B. WILSON & A. H. EVANS, *Aves Hawaienses*, pt. iv.
- Oreomyza*, review of the genus, pp. 111-126 ; *O. maculata*, *O. newtoni*, *O. montana*, and *O. flammula*, figured ; W. ROTHSCHILD, *Avif. Laysan*, pt. ii.

Family FRINGILLIDÆ.

Subfamily COCCOTHRNSTINÆ.

- Coccothraustes vespertinus*, notes on ; A. W. BUTLER, *Auk*, x, pp. 155-157. *Ligurinus sinicus*, in Denmark ; K. ANDERSEN, *Vid. Medd.* 1893, pp. 166-172.
- Euetheia sharpii*, n. sp., Curaçao ; E. HARTERT, *Bull. B. O. C. i*, p. xxxvii.
- Pseudonestor*, n. g. ; type, *P. xanthophrys*, n. sp., I. of Mauai, Sandwich Group ; W. ROTHSCHILD, *t. c. pp. xxxv & xxxvi.*

Subfamily FRINGILLINÆ.

- Fringilla spodiogenys* and its allies ; W. ROTHSCHILD & E. HARTERT, *Ornith. Monber. i*, pp. 97 & 98. *F. spodiogenys koenigi*, n. subsp., Tunis, *iid. t. c. pp. 97 & 98.*
- Carduelis elegans*, in North Uist ; J. CAMPBELL-ORDE, *Ibis*, 1893, p. 592.
- Chrysomitris bieti*, n. sp., Tatsien-lou ; E. OUSTALET, *N. Arch. Mus. Paris (3) v*, p. 34.

Montifringilla altaica, its synonymy ; H. E. DRESSER, *t. c.* pp. 377 & 378.

Serinus hortulanus, distribution in Europe ; W. HARTWIG, *Ornith. Monber.* i, pp. 1-7 ; K. C. F. RZEHAK, *t. c.* pp. 45 & 46 ; W. HARTWIG, *t. c.* pp. 80 & 81 ; K. G. ANDERSEN, *t. c.* pp. 100 & 101 : in Ireland ; E. WILLIAMS, *Zoologist*, 1893, p. 108.

Telepiza cantans [Zool. Rec. xxvii, *Aves*, p. 49], figured ; W. ROTHSCHILD, *Avif. Laysan*, pt. i, pl. 3.

T. flavissima [Zool. Rec. xxix, *Aves*, p. 53], figured ; W. ROTHSCHILD, *t. c.* p. 7, pl. iv. Nest and egg figured ; *id. t. c.* pl. xxxi, fig. 1.

Passer petronia, breeding in Thuringia ; H. VON BERLEPSCH, *Ornith. Monber.* i, p. 23.

P. montanus, in North Uist ; J. CAMPBELL-ORDE, *Ibis*, 1893, p. 592.

Propyrrhula subhimalayensis, ♂ juv. figured ; E. OUSTALET, N. Arch. Mus. Paris (3) v, p. 36, pl. iv, fig. 2.

Subfamily EMBERIZINÆ.

Emberiza ciopsis ijimæ, n. sp., Tsushima ; L. STEJNEGER, P. U. S. Mus. xvi, p. 637.

Plectrophenax nivalis, breeding in S. Banffshire, N. B. ; W. R. OGILVIE-GRANT, Bull. B. O. C. i, p. lv ; L. W. HINXMAN & W. EAGLE CLARKE, Ann. Scott. Nat. Hist. ii, p. 181.

Fringillaria saharæ, its synonymy ; H. E. DRESSER, *Ibis*, 1893, pp. 375-377.

Calcarius lapponicus, note on immigration of ; J. H. GURNEY, Norf. & Norw. Nat. Soc. v, p. 372.

Rhyncophanes macownii, in British Columbia ; W. BREWSTER, *Auk*, x, p. 237.

Zonotrichia albicollis, in Holderness ; J. CORDEAUX, *Zoologist*, 1893, p. 149.

Z. albicollis × *Junco hyemalis* ; W. STONE, *Auk*, x, pp. 213 & 214, pl. vi.

Compsospiza garleppi, n. sp., Bolivia ; H. VON BERLEPSCH, *Ibis*, 1893, pp. 207-210, pl. vi.

Poospizopsis, n. g. ; type, *P. caesar* (Sel. & Salv.) ; H. VON BERLEPSCH, *t. c.* p. 208, note.

Junco ridgwayi, in Colorado ; R. C. MCGREGOR, *Auk*, x, p. 206. *J. pinosus*, n. sp., from California ; L. M. LOOMIS, *t. c.* pp. 47 & 48.

Family ALAUDIDÆ.

Ammonianes saharæ, nom. nudum pro *A. algeriensis*, Sharpe ; N. E. DRESSER, *Monogr. Corac.* (!), p. 46.

Rhamphocoris clotbey, ad. et juv. figured ; A. KOENIG, J. f. O. 1893, Tab. 2.

Mirafra tigrina, n. sp., Upper Congo ; E. OUSTALET, *Naturaliste*, xiv, p. 231.

Family MOTACILLIDÆ.

Anthus cervinus and *A. obscurus*, in East Prussia ; F. LINDNER & C. FLOERICKE, Ornith. Monber. i, p. 44.

Family MNIOTILTIDÆ.

Basileuterus vermivorus olivascens, n. subsp., Trinidad ; F. M. CHAPMAN, Auk, x, p. 343. *B. rufifrons jouyi*, San Luis Potosi, Mexico, R. RIDGWAY, P. U. S. Mus. xv, p. 119 ; *B. rufifrons dugesii*, Guanajuato, Western Mexico, n. subsp., *id. ibid.*
Geothlypis poliocephala ralphi, n. subsp., Lower Rio Grande Valley ; R. RIDGWAY, t. c. p. 692.

Family CERTHIIDÆ.

Tichodroma muraria, its song ; S. BAUER, MT. ornith. Ver. Wien, xvii, No. 4, pp. 49 & 50.

Family MELIPHAGIDÆ.

Palmeria, n. g. ; type, *P. mirabilis*, n. sp., I. of Maui, Sandwich Group ; W. ROTHSCHILD, Ibis, 1893, pp. 113 & 114. [Cf. *Drepanidæ*, ante, p. 41.]

Family NECTARINIDÆ.

Cinnyris regia, n. sp., Central E. Africa ; A. REICHENOW, Ornith. Monber. i, p. 32. *C. stuhlmanni* and *C. purpureiventris*, n. spp., Central Africa ; *id. t. c. p. 61*. *C. teysmanni*, n. sp., Macassar ; J. BÜTTIKOFER, Notes Leyden Mus. xv, p. 179.

Arachnorhaphis everetti, n. sp., Kina Balu ; R. B. SHARPE, Ibis, 1893, p. 561.

Family DICÆIDÆ.

Dicæum splendidum, n. sp., Macassar ; J. BÜTTIKOFER, Notes Leyden Mus. xv, p. 180. *D. cyanonotum*, n. sp., Ichang, China ; F. W. STYAN, Ibis, 1893, p. 470. *D. sibutuense*, n. sp., Si Butu I. ; R. B. SHARPE, Bull. B. O. C. iii, p. x.

Family ZOSTEROPIDÆ.

On the species of *Zosterops* found in the I. of Java ; H. SEEBOHM, Ibis, 1893, pp. 217-219.

Zosterops neglecta, n. sp., E. Java ; H. SEEBOHM, Bull. B. O. C. i, p. xxvi. *Z. griseovirens*, n. sp., Anno-Bom I., W. Africa ; J. v. BARBOZA DU BOCAZ, J. Sci. Lisb. ix, p. 18.

Family PARIDÆ.

Pœcile songara, distinct from *P. affinis*; T. PLESKE, Bull. B. O. C. iii, p. xiii.

Parus palustris, in Strathspey; W. EVANS, Ann. Scott. Nat. Hist. ii, pp. 207-213. *P. owstoni*, Ijima, Döbuts. Yasshi, No. 62. *P. transcaspius*, n. sp., Transcaspia; N. ZAROUDNOI, Bull. Soc. Moscou, 1893, pp. 365-368. *P. hensoni* and *P. seebohmi*, n. spp., Japan; L. STEJNEGER, P. U. S. Mus. xv, pp. 342-344. *P. hudsonicus* and allies; S. N. RHOADS, Auk, x, pp. 321-333. *P. hudsonicus ungava*, n. subsp., Labrador; *id. t. c.* p. 328. *P. hudsonicus columbianus*, n. subsp., from British Columbia; *id. t. c.* pp. 23 & 24. *P. fasciiventer*, n. sp., Central East Africa (Ruanzori); A. REICHENOW, Ornith. Monber. i, p. 31.

Cyanistes berezowskii, n. sp., Upper Chuan-che, China; T. PLESKE, Bull. B. O. C. iii, p. xiii.

Lophophanes dichrooides, distinct from *L. dichrous*; T. PLESKE, *t. c.* p. xiii.

Acredula caudata and its allied forms; H. E. DRESSER, Ibis, 1893, pp. 240-243. *A. calva*, n. sp., Upper Chuan-che, China; T. PLESKE, Bull. B. O. C. ii, p. xiii.

Ægithalus stoliczkei, distinct from *Æ. pendulinus*; T. PLESKE, *t. c.* p. xiii.

Family PANURIDÆ.

Panurus biarmicus, figured; LORD LILFORD, Col. Fig. Br. Birds, pt. xxiv.

Family LANIIDÆ.

Lanius excubitor, in Norway; R. COLLETT, Arch. Naturv. Christian. xvi, p. 50. *L. ludovicianus gambelli*, in British Columbia; W. BREWSTER, Auk, x, p. 237. *L. excubitor* and *L. sibiricus*, notes on; L. STEJNEGER, P. U. S. Mus. xvi, pp. 217 & 218. *L. collaris*, distribution in Great Britain; O. V. APLIN, Tr. Norfolk Soc. v, pp. 286-310: nesting in Lanarkshire; J. PATERSON, Ann. Scott. Nat. Hist. ii, p. 182. *L. raddlei*, Dresser, = *Otomela bogdanovi*; Bianchi; H. SCHALOW, J. Ornithol. 1893, p. 116; H. E. DRESSER, Ibis, 1893, pp. 378 & 379.

Telephonus australis emini, n. subsp., Central East Africa (Bukoba); A. REICHENOW, Ornith. Monber. i, p. 60.

Dryoscopus major and allies; A. REICHENOW, Jahresber. Hamburg. Anst. x, pp. 19-21. *D. pringlii*, n. sp., Mauungu, E. Africa; F. J. JACKSON, Bull. B. O. C. ii, p. iii.

Pachycephala teysmanni, and *P. meridionalis*, n. spp., Macassar; J. BÜTTIKOFER, Notes Leyden Mus. xv, pp. 167 & 168.

Family VIREONIDÆ.

Vireo huttoni insularis, n. subsp., British Columbia ; S. N. RHOADS, Auk, x, pp. 239-241.

Family SYLVIIDÆ.

Sylvia atricapilla, habits in Madeira ; J. LOWE, Zoologist, 1893, pp. 169-172.

Phylloscopus superciliosus, in East Prussia ; F. LINDNER & C. FLOERICKE, Ornith. Monber. i, p. 44.

Acanthopneuste ijimæ, n. sp., Seven Is., Japan ; L. STEJNEGER, P. U. S. Mus. xv, pp. 371-373.

Acrocephalus familiaris [Zool. Rec. xxix, Aves, p. 57], figured ; W. ROTHSCHILD, Avif. Laysan, pt. i, pl. i : nest and egg figured ; id. t. c. pl. xxxii, fig. 3.

Bradypterus nyasaæ, n. sp., Nyasaland ; G. E. SHELLEY, Ibis, 1893, p. 16. *Locustella hondoensis*, n. sp., Japan ; L. STEJNEGER, P. U. S. Mus. xvi, p. 633.

Calamocichla plebeia, n. sp., Cameroons ; A. REICHENOW, Ornith. Monber. i, p. 178.

Acanthiza ewingi in Tasmania ; W. V. LEGGE, P. Soc. Tasmania, 1893, pp. 77 & 78.

Burnesia taeniolata, n. sp., Cameroons ; A. REICHENOW, Ornith. Monber. i, p. 178.

Eremomela atricollis, n. sp., Galanga, Angola ; J. v. BARBOZA DU BOCAGE, J. Sci. Lisb. (2) xi, p. 153.

Camaroptera axillaris, n. sp., Central E. Africa (Uramba) ; A. REICHENOW, Ornith. Monber. i, p. 32.

Apalis flavigularis, n. sp., Nyasaland ; G. E. SHELLEY, Ibis, 1893, p. 10.

Graminicola striata, n. sp., Hainan ; F. W. STYAN, t. c. p. 54.

Melocichla atricauda, n. sp., Central Africa (Ukondjo) ; A. REICHENOW, Ornith. Monber. i, p. 61.

Cisticola discolor, n. sp., Cameroons ; Y. SJÖSTEDT, t. c. p. 84. *C. nuchalis*, n. sp., Central Africa (Kagera) ; A. REICHENOW, t. c. pp. 61 & 62.

Rectirostrum, n. g. ; type, *R. hypochondriacum*, Central E. Africa (Kinjawanga) ; A. REICHENOW, t. c. p. 32.

Dybowskia, n. g. ; type, *D. kemoensis*, n. sp., R. Oubangui, Upper Congo ; E. OUSTALET, Naturaliste, xiv, p. 218.

Family TURDIDÆ.

On the species of *Merula* found in the Island of Java ; H. SEEBOHM, Ibis, 1893, pp. 219-222.

Turdus whitii, in Russia ; M. MENZBIER, t. c. pp. 371 & 372. *T. milanjensis*, n. sp., Nyasaland ; G. SHELLEY, t. c. p. 12. *T. torquatus*, in Scotland in Winter ; R. SERVICE, Ann. Scott. Nat. Hist. ii, p. 42.

- Merula alpestris*, its range in Europe ; T. SALVADORI, Boll. Mus. Torino, viii, 1893. *M. javanica*, and its allies ; J. BÜTTIKOFER, Notes Leyden Mus. xv, pp. 107-110. *M. celebensis*, n. sp., Macassar ; *id. t. c. p. 109.*
- M. whiteheadi*, n. sp., E. Java ; H. SEEBOHM, Bull. B. O. C. i, pp. xxv & xxvi.
- Amalocichla sclateriana* [Zool. Rec. xxix, *Aves*, p. 59] allied to *Geocichla* ; P. L. SCLATER, Ibis, 1893, pp. 245 & 246.
- Cittocincla nigricauda*, n. sp., Kangean Archipelago ; A. G. VORDERMAN, Natuurk. Tijdschr. Nederl. Ind. 1893, p. 197.
- C. tricolor*, from Nias I., teste Oustalet [Zool. Rec. xxix, *Aves*, p. 16] ; locality erroneous ; T. SALVADORI, Ibis, 1893, pp. 279 & 280.
- Callene anomala*, n. sp., Nyasaland ; G. E. SHELLEY, Ibis, 1893, pp. 14 & 15.
- Phœornis* : review of the genus, pp. 59-68. *P. obscurus*, juv., *P. myiades-tina*, juv., and *R. lanaiensis*, juv., figured, *P. palmeri*, n. sp., Kauai ; W. ROTHSCHILD, Avif. Laysan, &c., pt. ii.
- Ruticilla tithys*, its breeding habits ; A. WALTER, Ornith. Monschr. Schutze, i, pp. 58-60.
- Saxicola moesta*, ♂ juv. figured ; A. KÖNIG, J. Ornithol. 1893, Tab. i.
- Pratincola* : notes on African species of the genus ; Y. SJÖSTEDT, Ornith. Monber. i, pp. 139-141.

Family CINCLIDÆ.

- Cinclus aquaticus*, nesting in Surrey ; R. H. READ, Zoologist, 1893, p. 308.

Family TROGLODYTIIDÆ.

- Cistothorus palustris griseus*, n. subsp., Georgia ; W. BREWSTER, Auk, x, pp. 216-219.
- Cyphorhinus richardsoni*, n. sp., Nicaragua ; O. SALVIN, Bull. B. O. C. i, p. xxxii.
- Heleodytes*, vice *Campylorhynchus* ; T. S. PALMER, Auk, x, pp. 86 & 87.

Family MIMIDÆ.

- Galeoscoptes carolinensis*, nesting habits ; R. W. SHUFELDT, Auk, x, pp. 303 & 304.

Family TIMELIIDÆ.

- Pomatorhinus maclellandi*, var. *dedeekensi*, n. subsp. ; E. OUSTALET, N. Arch. Mus. Paris (3) v, pl. iv, fig. 1.
- Trochalopteron ellioti* var. *bonvaloti*, n. subsp. ; E. OUSTALET, t. c. pl. iii, fig. 1. *T. henrici*, n. sp. ; *id. t. c. pl. iii*, fig. 2.

- Turdinus kalulongae* and *T. tephrops*, n. spp., Mt. Kalulong, Sarawak ; R. B. SHARPE, Bull. B. O. C. i, p. liv.
- T. castaneus*, n. sp., Miuhassa, North Celebes ; J. BÜTTIKOFER, Notes Leyden Mus. xv, p. 261.
- T. rufiventris*, n. sp., Camaroons ; A. REICHENOW, Ornith. Monber. i, p. 177.
- Staphidia castaneiceps*, figured ; E. C. STUART BAKER, J. Bombay Soc. viii, pl. A.
- S. everetti*, figured ; J. WHITEHEAD, Expl. Kina Balu, pl. xvi, fig. 3 : nest described ; R. B. SHARPE, Ibis, 1893, p. 563.
- Corythocichla crassa*, figured ; J. WHITEHEAD, Expl. Kina Balu, pl. xiv, fig. 1.

Family PYCNONOTIDÆ.

- The Bulbuls of North Cachar ; E. C. STUART BAKER, J. Bombay Soc. viii, pp. 413-424, viii, pp. 1-16.
- The following species are figured : *Chloropsis hardwickii*, *Molpastes burmanicus*, *M. bengalensis*, and *Spizixus canifrons*.
- Hemixos connectens*, figured ; J. WHITEHEAD, Expl. Kina Balu, pl. xiv, fig. 2.
- Hypsipetes amaurotis hensonii*, n. subsp., Japan ; L. STEJNEGER, P. U. S. Mus. pp. 347 & 348.
- Ixocincla madagascariensis rostrata*, n. subsp., Aldabra and Gloriosa Is. ; R. RIDGWAY, P. U. S. Mus. xvi, p. 597.
- Xenocichla xavieri*, n. sp., Upper Congo ; E. OUSTALET, Naturaliste, xiv, p. 218.
- X. clamans*, n. sp., Cameroons ; Y. SJÖSTEDT, Ornith. Monber. i, p. 28.
- X. fusciceps*, n. sp., Nyasaland ; G. E. SHELLEY, Ibis, 1893, p. 13.
- Andropadus alexandri*, n. sp., Upper Congo ; E. OUSTALET, Naturaliste, xiv, p. 231.
- Pycnonotus taivanus*, n. sp., Formosa ; F. W. STYAN, Ibis, 1893, p. 470.
- Spizixus canifrons*, figured ; E. C. STUART BAKER, J. Bombay Soc. vii, pl. i, fig. 1.

Family CAMPOPHAGIDÆ.

- Pericrocotus cinereigula*, figured ; J. WHITEHEAD, Expl. Kina Balu, pl. vi, fig. 2.

Family MUSCICAPIDÆ.

- Muscicapa grisola*, figured ; LORD LILFORD, Col. Fig. Br. Birds, pt. xxvi.
- M. atricapilla*, on the distribution and habits in Wales ; E. A. SWAINSON, Zoologist, 1893, pp. 420-424.
- M. parva* and *M. collaris*, breeding in Germany ; W. HARTWIG, J. Ornithol. 1893, pp. 121-132.

- Alseonax obscura*, n. sp., Cameroons ; Y. SJÖSTEDT, Ornith. Monber. i, pp. 43-44.
- Batis puella*, n. sp., E. Africa ; A. REICHENOW, Jahrb. Hamburg. Anst. x, pp. 18 & 19.
- Pachyprora dimorpha*, n. sp., Nyasaland ; G. E. SHELLEY, Ibis, 1893, p. 18.
- Gerygone salvadorii*, n. sp., Southern Borneo ; J. BÜTTIKOFER, Notes Leyden Mus. xv, p. 175. *G. keyensis*, n. sp., Little Key I. ; *id. t. c.* p. 258. *G. aruensis*, n. sp., Aru Is. ; *id. t. c.* p. 259. *G. magnirostris*; nest and eggs ; A. J. NORTII, Ibis, 1893, pp. 373-375.
- Chasiempis* : notes on the three species ; W. ROTHSCHILD, Bull. B. O. C. i, p. lvi : review of the genus ; *id. Avif. Laysan*, pt. ii, pp. 69-78, *C. sandwichensis*, ad. et juv., *C. sclateri*, ad. et juv., figured.
- Pacicodryas melanogenys*, n. sp., S. E. New Guinea ; A. B. MEYER, Abh. Mus. Dresden, No. 3, p. 12.
- Pogonochichla johnstoni*, n. sp., Nyasaland ; G. E. SHELLEY, Ibis, 1893, p. 18.
- Trochocercus albonotatus* [Zool. Rec. xxviii, Aves, p. 67], from Nyasaland ; G. E. SHELLEY, Ibis, 1893, p. 19. *T. albiventris*, n. sp., Cameroons ; Y. SJÖSTEDT, Ornith. Monber. i, p. 43.
- Rhipidura* : review of the genus ; J. BÜTTIKOFER, Notes Leyden Mus. xv, pp. 65-98 & 113-115. *R. celebensis*, n. sp., and *R. teysmanni*, n. sp., Makassar ; *id. t. c.* pp. 79 & 80. *R. sumbaensis*, n. sp., Sumbawa ; *id. t. c.* p. 85. *R. rosenbergi*, n. sp., Aru ; *id. t. c.* p. 88. *R. hoedti*, n. sp., Lettie ; *id. t. c.* p. 93. *R. meyeri*, n. sp., Mt. Arfak ; *id. t. c.* pp. 82 & 115.
- Terpsiphone newtoni*, n. sp., Anno Bom I., W. Africa ; J. V. BARBOZA DU BOCAGE, J. Sci. Lisb. (2) ix, p. 17. *T. emini*, n. sp., Central E. Africa (Bukoba) ; A. REICHENOW, Ornith. Monber. i, p. 31.
- Cryptolopha xanthopygia*, n. sp., Palawan ; J. WHITEHEAD, Expl. Kina Balu, p. xxxi : figured ; *id. t. c.* pl. xvi, fig. 2. *O. vordermanni*, n. sp., E. Java ; J. BÜTTIKOFER, Notes Leyden Mus. xv, p. 260.
- Stoparola septentrionalis* and *S. meridionalis*, n. spp., Celebes ; J. BÜTTIKOFER, *t. c.* pp. 169 & 170. *S. cerviniventris*, figured ; J. WHITEHEAD, Expl. Kina Balu, pl. vi, fig. 1.
- Anthipes olivacea*, from Borneo ; R. B. SHARPE, Ibis, 1893, p. 559.

Family HIRUNDINIDÆ.

A monograph of the *Hirundinidæ*, or family of Swallows [Zool. Rec. xxix, p. 21] ; R. B. SHARPE & C. W. WYATT. The following species are figured : *Chelidon urbica*, *Cotile riparia*, *Phedina brazzae*, *Hirundo rustica*, *H. gutturalis*, *H. tytleri*, *H. erythrogaster*, *H. emini*, *Progne purpurea*, *P. hesperia*.

Cotile diluta, n. sp., Central Asia ; R. B. SHARPE & C. W. WYATT, *t. c.* pt. xvi.

Hirundo astigma, n. sp., Nyasaland ; G. E. SHELLEY, Ibis, 1893, p. 19
[= *H. emini*].

Progne subis, notes on ; W. E. PREAGER, Irish Natural, ii, pp. 87-89.

Section B. OLIGOMYODÆ.

Family TYRANNIDÆ.

Empidagra bahiae, n. sp., Bahia ; H. VON BERLEPSCH, Ornith. Monber. i, p. 12.

Serpophaga munda, n. sp., Bolivia ; H. VON BERLEPSCH, t. c.

Myiarchus and allied genera, remarks on ; R. RIDGWAY, P. U. S. Mus. xvi, pp. 605-608.

Eubates, n. g. ; type, *M. magnirostris* ; id. t. c. p. 606.

Deltorhynchus, n. g. ; type, *M. flammulatus* ; id. ibid.

Family COTINGIDÆ.

Carpodectes nitidus, notes on ; C. W. RICHMOND, P. U. S. Mus. xvi, pp. 509 & 510.

Xenopsaris albinucha (Burm.), described and figured ; P. L. SCLATER, P. Zool. Soc. London, 1893, pp. 166-168, pl. vii.

Family PITTIIDÆ.

Notes on the genus *Pitta* ; D. G. ELLIOT, Auk, x, pp. 51 & 52.

A monograph of the *Pittide*, or family of Ant-Thrushes. Part i, 1893 ; D. G. ELLIOT. The following species are figured : *Eucichla gurneyi*, *E. schwaneri*, *Pitta moluccensis*, *P. maxima*, *P. venusta*, *P. rosenbergi*, *P. oatesi*, *P. angolensis*, *P. arcuata*, *P. sordida*.

A review of the species of the family *Pittide* ; J. WHITEHEAD, Ibis, 1893, pp. 488-509.

Division II. TRACHEOPHONÆ.

Family FORMICARIIDÆ.

Thamnophilus bridgesi, notes on ; G. K. CHERRIE, Auk, x, p. 279.

Formicarius : a revision of the genus ; R. RIDGWAY, P. U. S. Mus. xvi, pp. 667-686. *F. nigrifrons glaucopectus*, n. subsp., Guiana ; id. t. c. p. 673. *F. saturatus*, n. sp., Trinidad ; id. t. c. pp. 677-679. *F. umbrosus*, n. sp., Costa Rica and Nicaragua ; id. t. c. pp. 681-683.

Myrmeciza longipes albiventris, n. subsp., Trinidad ; F. M. CHAPMAN, Auk, x, p. 343.

Rhopoterpe stictoptera, n. sp., Nicaragua ; O. SALVIN, Bull. B. O. C. i, p. xxxii.

Grallaria excelsa, n. sp., Venezuela ; H. VON BERLEPSCH, Ornith. Monber. i, p. 11.

IV. REPTILIA AND BATRACHIA.

II.—FAUNÆ.

EUROPE.

Great Britain and Ireland. Catalogue of local lists of Reptiles and Batrachians ; M. CHRISTY, Zoologist (3) xvii, 1893, pp. 241–252.

Germany. On the Reptiles and Batrachians of the Harz and neighbouring districts ; WOLTERSTORFF, Jahresber. Ver. Magdeburg, 1892, pp. 1–242 (1893).—List of the Reptiles and Batrachians of Artland ; MÖLLMANN, Jahrsber. Ver. Osnabrück, 1891–92, pp. 225–228.—On the Reptiles and Batrachians of the environs of Salzwedel ; *L. KÖHNKE, Wiss. Beilage z. Jahrsb. d. k. Gymn. zu Salzwedel, Ostern 1893 (4to, 12 pp.).

Austria. On the Reptiles and Batrachians of Lower Austria ; F. WERNER, Jahresber. Ver. Magdeburg, 1891, pp. 117–123 (1892).

Italy. C. LOPEZ, Cenni sulla Fauna dell' Abruzzo Teramo, pp. 32 & 33, enumerates the Reptiles and Batrachians observed by him in the Abruzzi.

Sicily. F. MINÀ-PALUMBO concludes his account of the Reptiles and Batrachians ; Natural. Sicil. xii, 1893, pp. 262–264 & 282–287.

Dalmatia. G. KOLOMBATOVIC, Novi Nadodatje, pp. 11–14, records some little-known Reptiles from Dalmatia.

Bosnia and Herzegovina. Notes on the distribution and life-history of the Reptiles ; O. V. TOMASINI, Wiss. Mitth. aus Bosn. u. der Hercegovina, ii, 1894, pp. 560–661.—On the Reptiles and Batrachians of Bosnia ; WERNER, Zool. Anz. xvi, 1893, pp. 421–426.

ASIA.

Transcaucasia and Armenia. On some Reptiles and Batrachians ; L. V. MÉHELY, Zool. Anz. xvii, 1894, pp. 78–86.

Syria. On a collection of Reptiles and Batrachians ; PERACCA, Boll. Mus. Torino, ix, 1894, No. 167, 20 pp.

Sinaiotic Peninsula. Notes on a few Reptiles ; F. WERNER, Verh. Ges. Wien, xlili, 1893, Abh. p. 359.

Aden. On some Reptiles and Batrachians ; MATSCHIE, SB. nat. Fr. 1893, pp. 27–31.

Ceylon. Notes on Reptiles and Batrachians ; F. WERNER, Verh. Ges. Wien, xlili, 1893, Abh. pp. 349–354.

Pegu and Karin Hills. Report on the collection made by L. Fea ; BOULENGER, Ann. Mus. Genova (2) xiii, 1893, pp. 305–347, pls. vii–xii.

Sumatra. On some Reptiles ; F. WERNER, Verh. Ges. Wien, xlili, 1893, Abh. pp. 354–356.

Pulo Nias. On a small collection of Reptiles and Batrachians ; F. WERNER, Jahresber. Ver. Magdeburg, 1892, pp. 248–254 (1893).

Borneo. New species described by BOULENGER, P. Zool. Soc. London, 1893, pp. 522–528, pls. xlili–xliv.—On some Reptiles and Batrachians ; BÖTTGER, MT. Geogr. Ges. Lubeck (2) v, 1893 ; F. WERNER, Verh.

Ges. Wien, xlivi, 1893, Abh. pp. 357 & 358.—On Reptiles from North Borneo ; T. W. VAN LIDTH DE JEUDE, Notes Leyden Mus. xv, 1893, pp. 250–257.

Java. Descriptions of new Reptiles and Batrachians from Western Java ; BŒTTGER, Zool. Anz. xvi, 1893, pp. 334–340.

AFRICA.

East Africa. On the Reptiles and Batrachians collected by Stuhlmann in 1888 and 1889 ; PFEFFER, Jahresber. Hamburg. Anst. x, 1893, pp. 71–105, 2 pls.—On some collections from E. Africa and the adjacent Islands (Seychelles, Gloriosa, Aldabra) ; STEJNEGER, P. U. S. Mus. xvi, 1894, pp. 711–741.

Somaliland. On a collection of Reptiles and Batrachians ; BŒTTGER, Zool. Anz. xvi, 1893, pp. 113–119, 129–132, & 193.

Central Africa. On Reptiles and Batrachians from British Central Africa and Lake Tanganyika ; GÜNTHER, P. Zool. Soc. London, 1893, pp. 618–621 & 629 (1894).

West Africa. Descriptions of new species ; MATSCHIE, SB. nat. Fr. 1893, pp. 170–175.

Anno Bom I., Guineia. List of Reptiles ; J. V. BARBOZA DU BOCAZ, J. Sci. Lisb. (2) iii, 1893, pp. 45 & 46.

Togoland. List of the Reptiles and Batrachians ; MATSCHIE, Mitth. deutsch. Schutzgeb. vi, 1893, Heft 3, 1893.

Congo. On some Reptiles ; D. A. DEL PRATO, Raccolte Zoologiene fatti nel Congo del Cav. G. Corona (Parma : 1893, 8vo), pp. 8–14.

Angola. Diagnoses of new Reptiles and Batrachians, by J. V. BARBOZA DU BOCAZ, J. Sci. Lisb. (2) iii, 1893, pp. 115–121.

South Africa. A sketch of the herpetological fauna by R. TRIMEN, in NOBLE, Illustr. Official Handbook of the Cape and South Africa. (London : 1893, 8vo), pp. 78–88.

Madagascar. New or little-known species described by PERACCA, Boll. Mus. Torino, viii, 1893, No. 156, and MOCQUARD, C.R. Soc. Philom. 1894, No. 9, pp. 3–5.

AMERICA.

British Columbia. List of Reptiles and Batrachians by COPE, P. Ac. Philad. 1893, pp. 181–184.

United States. On collections of Reptiles and Batrachians from S. W. Missouri and the Plains at Lat. 36° 30'. COPE, t. c. pp. 383–387.

Indiana. The Batrachians and Reptiles of the State of Indiana, by O. P. HAY ; Indianapolis : 1893, 8vo, 204 pp., 3 pls.

Missouri and Texas. Annotated list of Reptiles and Batrachians ; F. C. TEST, Bull. U. S. Fish Comm. for 1892, pp. 121 & 122 (1894).

Death Valley, California and Nevada. Annotated list of Reptiles and Batrachians, by L. STEJNEGER, North Amer. Fauna, No. 7, 1893, pp. 159–228, pls. i–iv.

Mexico and Central America. F. BOUCOURT brings out the 13th fascicle of his *Études sur les Reptiles, Mission Scientifique au Mexique et dans l'Amérique Centrale*, iii (Paris : 1893, 4to, pp. 733-780, pls. lii-lvii), containing the continuation of the *Ophidia*.—A. GÜNTHER, in *Biologia Centrali-Americanana*, pp. 81-128, pls. xxxi-xli, concludes the list of the Lizards, and proceeds with the Snakes.—On a collection from Mt. Orizaba ; W. S. BLATCHLEY, P. U. S. Mus. xvi, 1893, pp. 37-42.

Venezuela. On Reptiles and Batrachians ; BÖTTGER, Ber. Senckenberg Ges. 1893, pp. 35-42.

Paraguay. List of Reptiles and Batrachians ; BOULENGER, Ann. Nat. Hist. (6) xiii, 1894, pp. 342-348.

AUSTRALIA.

Central Australia. On the Reptiles and Batrachians collected by the Elder Exploring Expedition ; STIRLING & ZIETZ, Tr. R. Soc. S. Austral. xvi, 1893, pp. 159-176, pls. vi & vii.

Victoria. On the Lizards ; A. H. S. LUCAS, P. Soc. Victoria (2) vi, 1894, pp. 24-92, pl. ii.

III.—REFERENCES, ARRANGED SYSTEMATICALLY.

REPTILIA AND BATRACHIA.

- W. HAACKE, "Die Schöpfung der Tierwelt" (Leipzig and Vienna : 1893, 8vo), deals with the evolution and distribution of Batrachians and Reptiles, pp. 382-401.
- On the terminology of the coracoid and precoracoid of Reptiles and Batrachians ; HOWES, P. Zool. Soc. London, 1893, pp. 585-587.

- Amphibolurus rufescens*, p. 164, pl. vi, fig. 2, and *scutulatus*, p. 165, pl. vii, figs. 1 & 2, n. spp., STIRLING & ZIETZ, Tr. R. Soc. S. Austral. xvi, 1893, Central Australia.
- Uromastix spinipes*, Daud., recorded from Biskra, Algeria; E. OLIVIER, Bull. Soc. zool. France, xviii, 1893, p. 62.

IGUANIDÆ.

- Anolis brevipes*, n. sp., BÖTTGER, Katal. Senckenb. i, p. 57, 1893, Costa Rica.
- Dactylocalotes*, n. g., for *D. elisa*, n. sp., WERNER, Zool. Anz. xvi, 1893, p. 361, = *Basiliscus vittatus*, Weigm.; id. t. c. p. 426.
- Crotaphytus baileyi*, Stejn., *wislizenii*, B. & G., and *silus*, Stejn.; further notes by STEJNEGER, North Amer. Fauna, No. 7, 1893, p. 170.
- Callisaurus ventralis*, Hallow., is regarded as distinct from *C. draconoides*, Blainv., by STEJNEGER, t. c. p. 170.
- Sauromalus ater*, A. Dum., notes by STEJNEGER, t. c. p. 173.
- Holbrookia propinqua*, B. & G., figured by GÜNTHER, Biol. Centr.-Amer., Rept. pl. xxxi, fig. C (1893).
- Uta lateralis*, Blgr., figured; GÜNTHER, ibid. fig. D.
- Sceloporus omiltemanus*, Gthr., *plewolepis*, Gthr., and *ruberiventris*, Gthr., figured; GÜNTHER, ibid. pl. xxxii. *S. magister*, Hallow., p. 178, pl. i, fig. 2, *graciosus*, B. & G., p. 183, and *biseriatus*, Hallow., p. 184; notes by STEJNEGER, t. c. *S. boulengeri*, p. 180, pl. i, fig. 5, Mazatlan, Mexico, and *oreocutti*, p. 181, pl. i, fig. 4, San Diego Co., California, n. spp., id. ibid.
- Phrynosoma blainvillii*, Gray, is considered distinct from *P. coronatum*, Blainv., STEJNEGER, t. c. p. 187, pl. ii, figg. 1 & 2. *P. platyrhinos*, Gir., Notes, id. ibid. p. 190, pl. ii, fig. 4. *P. cerroense*, p. 187, Cerros I., Pacific Coast of Lower California, and *goodei*, p. 191, Coast deserts of the State of Sonora, Mexico, n. spp., id. ibid.

ZONURIDÆ.

- Zonurus frenatus*, Pfeff., redescribed and figured by PFEFFER, Jahresber. Hamburg. Anst. x, 1893, p. 73, pl. i, figg. 1 & 2.
1893. [VOL. XXX.]

ANGUIDÆ.

Gerrhonotus imbricatus, Wgm.: on variations of colour; DUGÈS, *Natura-leza* (2) ii, 1893, p. 204, pl. xii. *G. scincicauda*, Skilt.: notes by STEJNEGER, North Amer. Fauna, No. 7, 1893, p. 195. *G. scincicauda palmeri*, n. subsp., *id. ibid.* p. 196, Nevada, California. *G. burnettii*, Gray, is also considered a distinct form; *id. ibid.* p. 197.

Ophiodes intermedius, n. sp., BOULENGER, Ann. Nat. Hist. (6) xiii, 1894, p. 343, Paraguay.

HELODERMATIDÆ.

Heloderma suspectum, Cope: recorded from Eastern Nevada; STEJNEGER, North Amer. Fauna, No. 7, 1893, p. 194.

VARANIDÆ.

Varanus microstictus, n. sp., BÖTTGER, Katal. Senckenb. i, p. 72, 1893, Abyssinia.

XANTUSIIDÆ.

Xantusia vigilis, Baird: notes by STEJNEGER, North Amer. Fauna, No. 7, 1893, p. 198, pl. iii, fig. i.

TEIIDÆ.

Centropyx paulensis, n. sp., BÖTTGER, Katal. Senckenb. i, p. 73, S. Paulo, Brazil. *C. viridistriga*, n. sp., BOULENGER, Ann. Nat. Hist. (6) xiii, 1894, p. 343, Paraguay.

Cheniodophorus tigris, B. & G.: notes by STEJNEGER, North Amer. Fauna, No. 7, 1893, p. 198.

AMPHISBÆNIDÆ.

Amphisbaena camura, Cope, redescribed by BOULENGER, Ann. Nat. Hist. (6) xiii, 1894, p. 344. *A. boehlsii*, n. sp., *id. ibid.* p. 344, Paraguay.

Monopeltis semipunctata, n. sp., BÖTTGER, MT. Geogr. Ges. Lübeck (2) v, 1893, Cameroon.

Lepidosternum latifrontale, n. sp., BOULENGER, t. c. p. 345, Paraguay.

Rhineura hatcheri, n. sp. (foss.), BAUR, Amer. Natural. xxvii, 1893, p. 998, Miocene, S. Dakota.

Hyporhina, n. g., type of a new family (*Hyporhinidae*) distinguished from all living Amphisbænians by the presence of a postorbital arch; *H. antiqua*, n. sp. (foss.), BAUR, t. c. p. 999, Miocene, S. Dakota.

LACERTIDÆ.

Philochortus, n. g., allied to *Tachydromus*, but with femoral pores [? = *Poromera*, Blgr.—Rec.], for *P. neumannii*, n. sp., MATSCHIE, SB. nat. Fr. 1893, p. 30, Aden.

- Latastia* [*Eremias*, err.] *heterolepis*, n. sp., BÖTTGER, Zool. Anz. xvi, 1893, p. 115, Somaliland [= *L. hordeggeri*, Stdr.—REC.].
Eremias sextenialata, p. 718, and *hoecheli*, p. 719, n. spp., STEJNEGER, P. U. S. Mus. xvi, 1894, Tana R., E. Africa.

SCIINCIDÆ.

Egernia kintorei, n. sp., STIRLING & ZIETZ, Tr. R. Soc. S. Austral. xvi, 1893, p. 171, Central Australia.

Hemisphariodon tasmanicum, n. sp., FROST & LUCAS, P. Linn. Soc. N. S. Wales (2) viii, 1894, p. 227, Tasmania.

Mabuya wrightii, Blgr., = *M. sechellensis*, D. & B., STEJNEGER, P. U. S. Mus. xvi, 1894, p. 720. *M. chanleri*, n. sp., *id. t. c.* p. 721, Tana R., E. Africa. *M. ozori*, n. sp., BOCAGE, J. Sci. Lisb. (2) iii, 1893, p. 47, Anno Bom I., Guinea. *M. pulchra*, n. sp., MATSCHIE, SB. Nat. Fr. 1893, p. 29, Aden. *M. büttneri*, n. sp., *id. t. c.* p. 170, Togoland, W. Africa.

Lygosoma zebratum, Blgr., is a variety of *L. indicum*, Gray, BOULENGER, Ann. Mus. Genova (2) xiii, 1893, p. 319. *L. feae*, Blgr., = *L. cyanellum*, Stol., *id. ibid.* p. 320. *L. punctatolineatum*, n. sp., *id. ibid.* p. 321, Karin Hills. *L. melanops*, n. sp., STIRLING & ZIETZ, Tr. R. Soc. S. Austral. xvi, 1893, p. 173, pl. vi, fig. 3, Central Australia.

Emoia spenceri, n. sp., LUCAS, P. Soc. Victoria (2) vi, 1894, p. 81, pl. ii, fig. 1, Victoria.

Siaphos maccoyi, n. sp., LUCAS, *t. c.* p. 85, pl. ii, fig. 2, Victoria.

Ablepharus festae, n. sp., PERACCA, Boll. Mus. Torino, ix, 1894, No. 167, p. 8, Syria. *A. gloriosus*, n. sp., STEJNEGER, P. U. S. Mus. xvi, 1894, p. 723, Gloriosa I.

Eumeces skiltonianus, B. & G.: notes by STEJNEGER, North Amer. Fauna, No. 7, 1893, p. 201. *E. rovirosae*, n. sp., DUGÈS, Naturaleza (2) ii, 1893, p. 298, pl. xiii, Tabasco, Mexico [= *E. lynxe*, Wgm.—REC.].

Didosaurus mauritianus, Gthr.: notes on and figure of further remains; GADOW, Tr. Zool. Soc. London, xiii, 1894, p. 323, pl. xliv, figg. 1–16.

ANEYTROPIDÆ.

“*Voeltzkowia*, n. g., allied to *Typhlacontias*, Boëcage, for *V. mira*, n. sp., BÖTTGER, Katal. Senckenb. i, p. 116, 1893, W. Madagascar.

Typhlosaurus meyeri, n. sp., BÖTTGER, Abh. Mus. Dresden, 1892–93, No. 5, 1894, Angra Pequena, S. W. Africa.

RHIPTOGLOSSA.

F. MOCQUARD, CR. Soc. Philom. 1893, No. 19, pp. 4–6, draws attention to the presence of an auxiliary pit or pocket in certain Chameleons. [The Recorder would warn students of this group against basing species upon this character alone, which he finds to be unreliable. In

two out of three specimens of *C. polleni*, the pit is well marked ; and it is sometimes present sometimes absent in *C. vulgaris* and *brevicornis*, of which species he has been able to compare a large number of specimens.] The same author regards *C. calcarifer*, Ptrs., as the ♂ of *C. calypratus*, A. Dum., and *C. antimena*, Grand., = *rhinoceratus*, Gray.

- Chameleon gastrotaenia*, Blgr.: redescribed by PERACCA, Boll. Mus. Torino, viii, 1893, No. 156, p. 3. *C. arabicum*, n. sp., MATSCHIE, SB. nat. Fr. 1893, p. 27, Aden [= *C. calcarifer*, Ptrs.—REC.] *C. oustaleti*, n. sp., MOCQUARD, CR. Soc. Philom. 1894, No. 9, p. 3, Madagascar [= *C. verrucosus*, Cuv.—REC.]. *C. ruspolii*, n. sp., BÆTTGER, Zool. Anz. xvi, 1893, p. 116, Somaliland, = *C. dilepis*, var. *isabellinus*, Gthr., BÆTTGER, t. c. p. 193. *C. veltzkowi*, n. sp., BÆTTGER, Katal. Senckenb. i, p. 120, 1893, W. Madagascar.
Brookesia superciliaris, Kuhl: its osteology worked out by SIEBENROCK, SB. Ak. Wien, cii, 1893, p. 71, 2 pls. *B. minima*, n. sp., BÆTTGER, t. c. p. 123, Nossi Bé, Madagascar.
Rhampholeon bætgeri, n. sp., PFEFFER, Jahresber. Hamburg. Anst. x, 1893, p. 76, pl. i, figg. 6 & 7, Bagamoyo, E. Africa.

DOLICHOSAURIA.

- ¹*Carcosaurus*, n. g., for *C. marchesettii*, n. sp., KORNHUBER, Abh. geol. Reichsanst. xvii, 1893, No. 3, 2 pls., Upper Cretaceous, Karst, Istria.

PYTHONOMORPHA.

- L. DOLLO, Bull. Soc. belge Geol. vi, 1894, Mem. pp. 219–259, pls. iii–iv, deals with the osteology and phylogeny of the Mosasaurs, which he regards as derived from the *Lacertilia* through the *Dolichosauria*.
Mosasaurus lemnieri, Dollo: entire skeleton and limbs figured by DOLLO, t. c. pls. iii & iv.
Clidastes velox, Marsh: restoration by WILLISTON, Kansas Quart. ii, 1893, p. 83, pl. iii.

OPHIDIA.

- E. D. COPE, Amer. Natural, xxvii, 1893, pp. 477–483, publishes a prodomus of a classification of the non-venomous Snakes, based to a great extent on the structure of the hemipenis. The Colubrines are divided into the following families and subfamilies :—
1. *Calamariidae*.
2. *Lycodontidae* (*Oligodontinae*, *Lycodontinae*, *Boodontinae*, *Cantoriinae*, *Uriechininae*).
3. *Colubridae* (*Colubrinae*, *Dipsadinae*, *Chrysopelinae*).
4. *Xenodontidae* (*Xenodontinae*, *Scytalinae*).
5. *Natricidae*.

- On the anal pockets of Snakes ; PORTIER, C.R. cxviii, 1894, pp. 662 & 663.
 On the development of the pancreas in *Ophidia* ; SAINT-REMY, *op. cit.*
 xvii, pp. 405 & 406.
 On the toxic properties of the blood of the Viper (*Vipera aspis*, L.) ;
 PHISALIX & BERTRAND, *t. c.* p. 1099, and C.R. Soc. Biol. (9) v,
 1893, pp. 996-999. The same authors also write on the presence of
 poison-glands in *Tropidonotus*, and on the toxic properties of the
 blood of these Snakes, C.R. cxviii, 1894, pp. 76-79, and Arch. Phys.
 norm. path. (5) vi, 1894, pp. 423-432. Remarks by S. JOURDAIN,
 C.R. cxviii, 1894, pp. 207 & 208.
 On self-inflicted bites in poisonous Snakes ; E. S. HOLDEN, Nature, xlviii,
 1893, p. 342 ; E. RAY LANKESTER, *t. c.* p. 369 ; H. W. WOOD, *t. c.*
 p. 391.
 On the reptation of Snakes on a smooth vertical surface ; BOUGON,
 Naturaliste, xv, 1893, p. 188.
 On the constrictive habit in Snakes ; STRADLING, Science, xxi, 1893,
 pp. 228 & 229.
 H. LACHMANN has a paper on the habits of Snakes in confinement, Zool.
 Gart. xxxiv, 1893, pp. 33-48, figg.

TYPHLOPIDÆ.

Typhlops curtus, Og. [= *ligatus*, Ptrs.] : note by WAITE, Rec. Austral.
 Mus. ii, 1893, p. 57. *T. rueppelli*, Jan., is regarded as distinct from *T. nigrescens*, Gray ; *id. t. c.* p. 59, pl. xv, figg. 5 & 6. *T. proximus*,
 n. sp., *id. t. c.* p. 60, pl. xv, figg. 1-4, New S. Wales and Victoria.
T. boulengeri and *hottentotus*, n. spp., BOCAGE, J. Sci. Lisb. (2) iii,
 1893, p. 117, Angola. *T. praocularis*, p. 709, Congo Free State, and
mandensis, p. 725, I. of Manda, E. Africa, n. spp., STEJNEGER,
 P. U. S. Mus. xvi, 1894. *T. bisubocularis*, n. sp., BŒTTGER, Zool.
 Anz. xvi, 1893, p. 336, Java.

BOIDÆ.

Boa constrictor, L., is ovoviparous, G. B. TOROSSI, "L'Embrione del
Boa constrictor," Vicenza, 1893-4 ; L. REDON-NEYRENEUF, Echange,
 ix, 1893, p. 53.

UROPELTIDÆ.

Rhinophis travancoricus, Blgr. : figured by BOULENGER, J. Bombay
 Soc. vii, 1893, pl.

COLUBRIDÆ.

Aglyphæ.

Lianthera, n. g., for *Herpetodryas bernieri*, D. & B. COPE, Amer. Natural.
 xxvii, 1893, p. 482. [= *Dromicodryas*, Blgr.—REC.]

- Tropidonotus*, Kuhl: the Central American species described and figured by BOOCOURT, Miss. Sci. Mex., Rept., under the names of *Regina*, B. & G., *Tropidonotus*, Kuhl (part.), *Thamnophis*, Fitz., and *Eutania*, B. & G. *Eutania cyrtopsis*, var. *n. fulvus*, *id. ibid.* p. 777, pl. lvii, fig. 2, Guatemala. *T. olivaceus*, Ptrs.: notes by PFEFFER, Jahrb. Hamburg. Anst. x, 1893, p. 79. *T. anomalus*, n. sp., WERNER, Zool. Anz. xvi, 1893, p. 362, Texas [= *T. fasciatus*, L.—REC.].
- ✓ *Diplophallus*, n. g., for *Tropidonotus piscator*, Schn.; COPE, Amer. Natural. xxvii, 1893, p. 483.
- ✓ *Ceratophallus*, n. g., for *Tropidonotus vittatus*, L.; COPE, t. c.
- Tretanorhinus*, B. & G.: figures of the various species; BOOCOURT, t. c. pls. lii & liv, fig. 1.
- Ischnognathus*, B. & G.: the Central American species described and figured by BOOCOURT, t. c., under the names of *Adelophis*, Cope, *Storeria*, B. & G., and *Tropidonotus*, Kuhl (part.).
- Trirhinopholis nuchalis*, Blgr.: further notes by BOULENGER, Ann. Mus. Genova (2) xiii, 1893, p. 323.
- Lycognathophis sechellensis*, Schl.: note by STEJNEGER, P. U. S. Mus. xvi, 1894, p. 726.
- Pseudoxyrhopus ambreensis* and *tritaeniatus*, n. spp., MOCQUARD, C.R. Soc. Philom. 1894, No. 9, p. 4, Madagascar.
- ✓ *Gonionotophis klingi*, n. sp., MATSCHIE, SB. nat. Fr. 1893, p. 172, Togoland, West Africa.
- Simocephalus chanleri*, n. sp., STEJNEGER, P. U. S. Mus. xvi, 1894, p. 726, Manda I., N. of Lamu, E. Africa.
- ✓ *Theleus*, n. g., for *Boodon virgatus*, Hall.; COPE, Amer. Natural. xxvii, 1893, p. 482.
- ✓ *Glyphotyphlops*, n. g., allied to *Boodon*, but with the dentition of *Lamprophis*, for *G. bicolor*, n. sp., GÜNTHER, P. Zool. Soc. London, 1893, p. 629, fig. (1894), Lake Tanganyika.
- Buscanion flagellum frenatum*, n. subsp., STEJNEGER, North Amer. Fauna, No. 7, 1893, p. 208, California to Arizona.
- Salvadora grahamiae hexalepis*, Cope: note by STEJNEGER, t. c. p. 205, pl. iii, fig. 2.
- Zamensis ludacensis*, And., n. var. *subnigra*; BOETTGER, Zool. Anz. xvi, 1893, p. 118, Somaliland. *Z. rogersi*, n. sp., ANDERSON, Ann. Nat. Hist. (6) xii, 1893, p. 439, Lower Egypt.
- ✓ *Crossanthera*, n. g., for *Dendrophidium melanotropis*, Cope; COPE, Amer. Natural. xxvii, 1893, p. 481.
- Spilotes corais xanthurus*, n. subsp., A. E. BROWN, P. Ac. Philad. 1893, p. 433, Vera Cruz?
- Coluber longissimus*, Laur. (*asculapii*, Host): note on its former occurrence in Seeland, Denmark; SARAUW, Natur. og Mennesk. xi, 1894, p. 258: the specimens had previously been referred to *Coronella austriaca*, Laur.; *id. op. cit.* x, 1893, p. 216. *C. chlorosoma*, n. sp., GÜNTHER, Biol. Centr.-Amer., Rept., p. 115, pl. xli (1894), Mexico.

- Pityophis melanoleucus*, D. & B.: notes on the egg and embryo; J. P. MOORE, Amer. Natural, xxvii, 1893, p. 878, pl. xix. *P. catenifer deserticola*, n. subsp., STEJNEGER, North Amer. Fauna, No. 7, 1893, p. 206, California.
- Gonyophis margaritatus*, Ptrs., redescribed by WERNER, Verh. Ges. Wien, xlili, 1893, Abb. p. 357.
- Philothamnus heterolepidotus*, Gthr., and *neglectus*, Ptrs.; notes by PFEFFER, t. c. pp. 82-84. *P. punctatus*, Ptrs., n. var. *sansibaricus*, id, ibid. *P. guentheri*, n. sp., id, ibid., Mozambique [= *P. irregularis*, Leach.—REC.]. *P. girardi*, n. sp., BOCAGE, J. Sci. Lisb. (2) iii, 1893, p. 47, Anno Bom I., Guinea.
- ¹*Acanthophallus*, n. g., for *Xenodon colubrinus*, Gthr.; COPE, Amer. Natural, xxvii, 1893, p. 482.
- Ablabes decipiens*, n. sp., GÜNTHER, Biol. Centr.-Amer., Rept. p. 105, pl. xxxvii, fig. A (1893), Costa Rica [= *Liophis lateristriga*, Berth.—REC.].
- Elapochrous aequalis*, Salv., figured by GÜNTHER, t. c. pl. xxxvi, fig. A.
- Liophis epinephelus*, Cope, figured by GÜNTHER, t. c. pl. xxxvii, fig. B.
- Rhadinaea godmani*, Gthr., pl. xxxix, fig. B, and *laureata*, Gthr., pl. xl, fig. A, figured by GÜNTHER, t. c. *Dromicus omiltemanus*, n. sp., id. ibid. p. 113, pl. xl, fig. B (1894), Omilteme, Guerrero [= *Rhadinaea vittata*, Jan, var.—REC.].
- Aporophis coralliventris*, n. sp., BOULENGER, Am. Nat. Hist. (6) xiii, 1894, p. 346, Paraguay.
- Coronella*, Laur.: on the colour-variations of *C. dolia*, *C. triangulum*, and allies, COPE, Amer. Natural, xxvii, 1893, p. 1066, pls. xxiv-xxviii. *C. austriaca*, Laur.: notes by BOULENGER, Zoologist (3) xviii, 1894, p. 10, figs. *C. annulata*, Kenn.: varieties figured by GÜNTHER, Biol. Centr.-Amer., Rept. pl. xxxviii (1893). *C. leonis*, n. sp., id. ibid. p. 110, pl. xxxix, fig. A, Nuevo Leon. *C. plumbeus*, n. sp., BÖTTGER, Zool. Anz. xvi, 1893, p. 117, Somaliland [= *C. semiornata*, Ptrs.—REC.].
- Diadophis punctatus*, L.: note on a specimen from Nova Scotia; H. PIERS, P. N. Scotia Inst. (2) i, 1892, p. 181.
- Hypsiglena texana*, n. sp., STEJNEGER, North Amer. Fauna, No. 7, 1893, p. 205, Texas [= *H. ochrophæa*, Cope.—REC.].
- ¹*Dicraulax*, n. g., for *Simotes trinotatus*, D. & B.; COPE, t. c. p. 480.
- Simotes annulifer*, n. sp., BOULENGER, P. Zool. Soc. London, 1893, p. 524, Borneo.
- Oligodon everetti*, n. sp., BOULENGER, ibid., Borneo.
- Lygonoirostra stuhlmanni*, n. sp., PFEFFER, Jahresber. Hamburg. Anst. x, 1893, p. 78, pl. i, figs. 8-10, Usambara, E. Africa [= *Prosymna ambigua*, Boc.—REC.].
- Ablabes stoliczkae*, W. Sclater: note by BOULENGER, Ann. Mus. Genova (2) xiii, 1893, p. 325.
- Cyclophis coronella*, Schleg., *modestus*, Martin, and *collaris*, Mén., referred

- to *Homalosoma* by PERACCA, Boll. Mus. Torino, ix, 1894, No. 167, pp. 12-15.
- Ficimia quadrangularis*, n. sp., GÜNTHER, Biol. Centr.-Amer., Rept. p. 99, pl. xxxv, fig. A (1893), W. Mexico.
- Tropidodipsas*, Gthr. *Virginia fasciata*, Fisch., redescribed and figured by GÜNTHER, t. c. p. 93, pl. xxxiv, fig. A, as *Geophis fasciata*, by BOOCOURT, t. c. p. 738, pl. liv, fig. 3, as *Tropidoclonium annulatum*.
- Geophis chalybae*, Wagl., n. var., *quadrangularis*; GÜNTHER, Biol. Centr.-Amer., Rept. p. 89, pl. xxxiii, fig. B (1893), [= *C. dolichocephalus*, Cope.—REC.]. *G. chalybaeus*, Wagl., figured, t. c. fig. C, as *G. mæsta*, Gthr. *G. omiltemana*, n. sp., id. ibid. p. 92, pl. xxxiii, fig. A, Omilteme, Guerrero.
- Calamaria benjamini*, Edel., characterized by BÖTTGER, MT. Geogr. Ges. Lubeck (2) v, 1893. *C. baluensis*, p. 524, and *everetti*, p. 525, n. spp., BOULENGER, P. Zool. Soc. London, 1893, Borneo. *O. prakkei*, n. sp., v. LIDTH DE JEUDE, Notes Leyden Mus. xv, 1893, p. 252, N. Borneo.
- Anoplophallus*, n. n. for *Megalops*, Hall. nec Lacép.; COPE, Amer. Natural. xxvii, 1893, p. 480.
- Dasypeltis*, Smith: notes on specimens from Kilimanjaro; STEJNEGER, P. U. S. Mus. xvi, 1894, p. 733.

Opisthoglyphæ.

- Dipsadoboaa assimilis*, n. sp., MATSCHIE, SB. nat. Fr. 1893, p. 173, Togoland, W. Africa.
- Hemirhagerrhis*, n. g. (*Dipsadinarum*); BÖTTGER, Zool. Anz. xvi, 1893, p. 119. *H. kelleri*, n. sp., id. ibid., p. 129, Somaliland. *H. kelleri*, Bttgr., and *hildebrandti*, Ptrs.: notes by STEJNEGER, P. U. S. Mus. xvi, 1894, p. 729.
- Psammophis biseriatus*, Ptrs., redescribed by STEJNEGER, t. c. p. 731. *P. togoensis*, n. sp., MATSCHIE, SB. nat. Fr. 1893, p. 171, Togoland, W. Africa.
- Uriechis anomala*, n. sp., BOULENGER, Ann. Nat. Hist. (6) xii, 1893, p. 273, Gold Coast.

Proteroglyphæ.

- Naia nigricollis*, n. var. *crawshayi*; GÜNTHER, P. Zool. Soc. London, 1893, p. 620 (1894), British Central Africa.
- Vermicella fasciata*, n. sp., STIRLING & ZIETZ, Tr. R. Soc. S. Austral. xvi, 1893, p. 175, pl. vi, fig. 4, Central Australia.

VIPERIDÆ.

- Atractaspis irregularis*, Reinh.: notes by PFEFFER, Jahresber. Hamburg. Anst. x, 1893, p. 87.

Causus nasalis, n. sp., STEJNEGER, P. U. S. Mus. xvi, 1894, p. 735, W. Africa.

Vipera berus, L. : on Hungarian specimens ; L. v. MÉHELY, Zool. Anz. xvi, 1893, p. 186. *V. ursinii*, Bp. ; *V. berus*, n. var. *rakosiensis*, id. t. c. p. 190, Hungary : referred to this species, which is redescribed and figured from Lower Austria, by BOULENGER, P. Zool. Soc. London, 1893, pp. 596, 757, pl. li : recorded from the Basses-Alpes, France ; id., Feuille Natural. xxiv, 1893, p. 8 : further notes by MÉHELY, Zool. Anz. xvii, 1894, pp. 57 & 86. *V. renardi*, Christoph, is a valid species ; BOULENGER, P. Zool. Soc. London, 1893, p. 598 : redescribed and figured ; id. ibid. p. 757, pl. lxiv (1894) : further notes by MÉHELY, Zool. Anz. xvii, 1894, p. 69. *V. aspis*, L. : heads figured by KAUFMANN, Vip. France (Paris : 1893), pl. [The specimen figured as *V. berus* is a *Coronella austriaca*, Laur.—REC.]

Echis colorata, Gthr. : notes by PERACCA, Boll. Mus. Torino, ix, 1894, No. 167, p. 16.

Crotalus tigris, Keun., and *cerastes*, Hallow. : notes by STEJNEGER, North Amer. Fauna, No. 7, 1893, pp. 214 & 216.

Bothrops sandakanensis, n. sp., v. LIDTHI DE JEUDE, Notes Leyden Mus. xv, 1893, p. 256, N. Borneo.

ORNITHOSAURIA.

Ornithostoma ingens, Willist. : restoration of the pelvis and hind limb, by WILLISTON, Kansas Quart. ii, 1893, p. 79, fig.

DINOSAURIA.

Camptosaurus dispar, Marsh : restoration by MARSH, Amer. J. Sci. (3) xlvi, 1894, p. 245, pl. vi.

On teeth referred to *Hoplosaurus* and *Pelorosaurus*, from Aylesbury ; LYDEKKER, Quart. J. Geol. Soc. xlix, 1893, p. 566, figg.

Sarcolestes, n. g. (*Anchisauridae* ?), for *S. leedsi*, n. sp., based on a portion of mandible from the Oxford Clay of Peterborough ; LYDEKKER, t. c. p. 284, pl. xl.

Zancloodon, Plien. : on remains from the Upper Keuper of Franconia ; F. v. SANDBERGER, N. Jahrb. Min. 1894, i, p. 203.

Morosaurus brevis, Ow. (= *M. becklesi*, Marsh) : on a vertebra referred to this species ; LYDEKKER, Quart. J. Geol. Soc. xlix, 1893, p. 276, fig.

Titanosaurus australis, p. 3, pls. i & ii, and *nanus*, p. 8, pl. iii, figs. 1 & 3, n. spp., LYDEKKER, An. Mus. La Plata, ii, 1893, No. 1, Cretaceous, Patagonia.

Argyrosaurus superbus, n. sp., LYDEKKER, t. c. p. 9, pls. iv & v, Cretaceous, Patagonia.

Microcælus, n. g. of uncertain position, for *M. patagonicus*, n. sp.; LYDEKKER, t. c. p. 12, pls. iii & iv, Cretaceous, Patagonia.

H. G. SEELEY, Ann. Nat. Hist. (6) xii, 1893, p. 227, fig., describes a double-rooted tooth from the Purbeck, which he refers to the Dinosaurian genus *Nuthetes*. The tooth is, later, p. 274, admitted to be possibly Mammalian.

EMYDOSAURIA.

C. RÖSE, Anat. Anz. viii, 1893, pp. 458-472, figs., writes on Jacobson's organ in Crocodiles; and, pp. 745-751, figs., on the nasal and palatal glands in *Crocodilus porosus*.

C. B. DAVENPORT, Bull. Mus. Harvard, xxiv, 1893, pp. 45-48, 6 pls., has a note on the carotids and the Ductus Botalli of the Alligator.

Crocodilus niloticus, Laur.: biological and embryological notes on the Crocodile of Madagascar; VOELTZKOW, SB. Ak. Berlin, 1893, p. 347.

Caiman, Spix: VAILLANT, Bull. Soc. zool. France, xviii, 1893, p. 217, proposes to substitute *Jacaretinga*, Spix, to this name.

Steneosaurus baroni, n. sp. (foss.), R. B. NEWTON, Geol. Mag. (3) x, 1893, p. 193, pl. ix, Jurassic, Madagascar.

CHELONIA.

L. WILL, Zool. Jahrb. Anat. vi, 1893, pp. 529-615, figs., pls. xxx-xxxvi, has a paper on the development of the egg of *Emys orbicularis*.

J. F. VAN BEMMELLEN, Anat. Anz. viii, 1893, pp. 801-803, studies the development of the branchial pouches and aortic arches in the embryo of *Chelone mydas*.

K. MITSUKURI, Anat. Anz. viii, 1893, pp. 427-431, figs., has a preliminary note on the process of gastrulation in Chelonians. L. WILL, t. c. pp. 653 & 654, remarks on the gastrulation in *Emys* and *Chelone*.

On the markings of Chelonians; WERNER, Biol. Centralbl. xiv, 1894, pp. 201-206.

G. BAUR, Amer. Natural. xxvii, 1893, pp. 672-675, has a note on the classification of the *Cryptodira*.

Podocnemis madagascariensis, Grand., n. var. *bifilaris*; BÖTTGER, Katal. Seckenb. i, p. 14, 1893, W. Madagascar.

Sternothærus nigricans, Donnd.: on specimens from the Seychelles; STEJNEGER, P. U. S. Mus. xvi, 1894, p. 713.

Testudo. On the extinct species of the Mascarenes; SAUZIER, "Les Tortues de terre gigantesques des Mascareignes, etc." (Paris: 1893, 8vo, 32 pp.), and GADOW, Tr. Zool. Soc. London, xiii, 1894, pp. 313-322, pls. xlvi-xlii. *T. sumierei*, n. sp., SAUZIER, t. c., Mauritius. *T. sauzieri* and *guentheri*, n. spp., GADOW, t. c., Mauritius. On the

extinct species of Rodriguez, with figures of *T. vosmaeri*, Fitz.; and *T. peltastes*, D. & B.; VAILLANT, Centen. Mus. d'hist. nat. 1893, pp. 255–288, 3 pls. *T. grandidieri*, Vaill.: various remains described and figured by BOULENGER, Tr. Zool. Soc. London, xiii, 1894, pp. 305–311, pls. xxxix–xli. *T. emys*, Schl. & Müll.: note on young specimens; BOULENGER, Ann. Mus. Genova (2) xiii, 1893, p. 312. *T. polyphemus*, Daud.: notes on the habits; HUBBARD, Science, xxii, 1893, p. 57. *T. strauchi*, n. sp., v. LIDTH DE JEUDE, Notes Leyden Mus. xv, 1893, p. 312, pl. ix, Cape of Good Hope. *T. amiatæ*, n. sp. (foss.), PANTANELLI, Atti Soc. Toscana, Mem. xii, 1893, p. 128, figs., Eocene of Cinigiano, Italy.

Cistudo, Flem.: 5 species diagnosed by BAUR, Amer. Natural, xxvii, 1893, p. 677.

Emys orbicularis, L.: on its habits and on its occurrence in Switzerland: FISCHER-SIGWART, Zool. Garten, xxxiv, 1893, pp. 162, 193, 235, & 257: on specimens from the Dep. Indre, France, with anomalous carapace; R. BLANCHARD, Bull. Soc. zool. France, xviii, 1893, p. 120, figs.

Graptemys pulchra, n. sp., BAUR, Amer. Natural, xxvii, 1893, p. 675, Alabama.

Kinosternon louisianæ, n. sp., BAUR, t. c., p. 676, Louisiana.

Dermochelys coriacea, L., recorded from New Zealand by T. F. CHEESEMAN, Tr. N. Zealand Inst. xxv, 1893, p. 108.

ICHTHYOSAURIA.

H. G. SEELEY, P. R. Soc. London, liii, 1893, pp. 149–168, makes further observations on the shoulder girdle and clavicular arch in Ichthyosaurians and Plesiosaurians.

Ichthyosaurus burgundicus, Gaudry: description republished in Bull. Soc. Yonne, xlvi, 1893, p. 35. *I. bodenbenderi*, n. sp., DAMES, Zeitschr. geol. Ges. xlvi, 1893, p. 23, pl. i, Tithon of Argentina.

PLESIOSAURIA.

On the shoulder girdle and clavicular arch; SEELEY, P. R. Soc. London, liii, 1893, pp. 149–168.

E. KOKEN, Zeitschr. geol. Ges. xlvi, 1893, pp. 337–377, figg., pls. vii–xi, deals with the structure of *Nothosaurus*.

Nothosaurus marchicus, n. sp., KOKEN, t. c. pl. x, Muschelkalk, Reidersdorf.

G. A. BOULENGER, P. Zool. Soc. London, 1893, p. 616 (1894), remarks on a small Nothosaurian, apparently referable to *Lariosaurus*, and on the systematic position of the *Lariosauridae* and *Mesosauridae*.

Partanosaurus zitteli, Skuph.: described and figured by SKUPHOS, Abb. geol. Reichsanst. xv, 1893, No. 5, p. 3, 3 pls.

- \ *Microleptosaurus*, n. g., for *M. schlosseri*, n. sp., SKUPHOS, t. c. p. 12, pl. iii, figg. 5-17, Trias of Vorarlberg.
- \ *Kolposaurus*, n. g., for *K. dichthadius*, n. sp., SKUPHOS, t. c. p. 14, Muschelkalk of Upper Silesia.

THECODONTIA.

- \ *Erpetosuchus*, n. g., allied to *Stagonolepis*, for *E. granti*, n. sp., E. T. NEWTON, P. R. Soc. London, liv, 1894, p. 436, Trias, Elgin.
- \ *Ornithosuchus*, n. g., stated to be intermediate between Dinosaurs and Crocodilians, and provisionally referred to the Theropodous Dinosaurs, for *O. woodwardi*, n. sp., E. T. NEWTON, t. c. p. 437, Trias, Elgin.

ACROSAURIA.

- Acrosaurus frischmanni*, H. v. Mey.: description and figure of a specimen from Solenhofen; ANDREÆ, Ber. Senckenberg. Ges. 1893, p. 21, pls. i & ii.

RHYNCHOCEPHALIA.

- On the skull of *Sphenodon punctatus*, Gray; SIEBENROCK, SB. Ak. Wien, cii, 1893, p. 250, pl., and Ann. & Mag. Nat. Hist. (6) xiii, 1894, p. 297, pl. xiv.
- Sphenodon punctatus*, Gray: on its habits in confinement; WERNER, Zool. Gart. xxxiv, 1893, p. 335.
- \ *Callibrachium*, n. g., apparently referable to the *Proterosauria*, for *C. gaudryi*, n. sp. (foss.), BOULE & GLANGEAUD, C.R. cxvii, 1893, p. 646, and Bull. Soc. Autun, vi, 1893, pl. iii, Permian of Autun France.

ANOMODONTIA.

- E. T. NEWTON, Phil. Tr. clxxxiv, B, 1893, pp. 431-503, pls. xxvi-xli, describes and figures the new Anomodonts from the Elgin Sandstones: *Gordonia traquairi*, *huxleyana*, *duffiana*, *juddiana*, *Geikia elginensis*, and *Elginia mirabilis*.
- H. G. SEELEY gives an abstract of his researches on *Deuterosaurus* and *Rhopalodon*, from the Permian of Russia, P. R. Soc. London, liii, 1893, pp. 168 & 169.

BATRACHIA.

- On variation and development of the vertebral and limb-skeleton; HOWES, P. Zool. Soc. London, 1893, pp. 268-278, figg.

- On the spinal ganglia ; J. DIESE, Verh. Anat. Ges. 1893, pp. 201-203, figg.
- On the morphology of the bladder ; H. H. FIELD, Bull. Soc. zool. France, xix, 1894, pp. 20-22.
- On the termination of the nerves of striated muscles ; C. ROUGET, C.R. cxvii, 1893, pp. 802-804.
- On the structure of the skin ; HEIDENHAIN, Anat. Anz. viii, 1893, pp. 404-410, fig., and SCHUBERG, Zool. Jahrb. Anat. vi, 1893, pp. 481-490, pl. xxv.
- On the muscles in the skin ; F. MAURER, Morphol. Jahrb. xxi, 1894, p. 152.
- On the structure of the cutaneous glands ; P. NICOGLU, Zeitschr. wiss. Zool. Ivi, 1893, pp. 409-487, pls. xxi-xxiii : E. VOLLMER, Arch. mikr. Anat. xlii, 1893, pp. 405-423, pls. xxiv & xxv, and HEIDENHAIN, SB. Ges. Wurzburg, 1893, pp. 52-64.
- On the possible relation of the sense-organs of the skin of lower Vertebrates to the hairs ; LEYDIG, Biol. Centralbl. xiii, 1893, pp. 359-375, and MAURER, Morphol. Jahrb. xx, 1893, pp. 429-448.
- E. BÉRANEK, Rev. Suisse Zool. i, 1893, pp. 255-288, pls. ix-xi, has a contribution to the embryogeny of the pineal gland.
- Experiments on the Regeneration of the germinal layers ; BARFURTH, Verh. Anat. Ges. 1893, pp. 43-50.
- On the first segmentation stages in the eggs of Frogs and Newts ; O. HERTWIG, Arch. mikr. Anat. xlii, 1893, pp. 662-807, pls. xxxix-xliv.
- A review of our knowledge of the Batrachians which dispense with the whole or part of the aquatic larval life ; L. CUÉNOT, Naturaliste, xv, 1893, pp. 149-152, figg.

ECAUDATA.

- Chapter III of A. MILNE-MARSHALL's "Vertebrate Embryology" (London : 1893) deals with the Frog.
- On the diaphragm of tailless Batrachians and its homology with that of Mammals ; GIGLIO-TOS, Atti Acc. Torino, xxix, 1894, pp. 248-258.
- S. KÄSTNER writes on the development of the musculature of the limbs and abdomen in tailless Batrachians, Arch. Anat. 1893, pp. 257-292, pl. xiv.
- On variations in the vertebral column and spinal nerves of tailless Batrachians ; ADOLPHI, SB. Ges. Dorpat, x, 1893, pp. 45 & 46.
- On an abnormal connection of the renal-portals in a young male *Limnodynastes* ; J. P. HILL, P. Linn. Soc. N. S. Wales (2) viii, 1894, pp. 222-224, fig.
- On the early development of the venous system in the Frog ; J. NUSBAUM, Biol. Centralbl. xiii, 1893, pp. 356-359.
- A. WILLEY, Tr. N. York Ac. xii, 1893, p. 242, figg., remarks on the

- position of the anus in certain Tadpoles. [Overlooking previous literature on the subject.—REC.]
- W. ROUX, Anat. Anz. viii, 1893, pp. 605–609, writes on the first cleavages of Frogs' eggs. G. BORN, t. c. pp. 609–627, figg., remarks on the effects of pressure on the segmenting eggs of Frogs.
- T. H. MORGAN & U. TSUDA, Quart. J. Micr. Sci. xxxv, 1894, pp. 373–405, pls. xxiv & xxv, contribute a paper on the orientation of the Frog's egg.
- On the methods for obtaining half-embryos of the Frog ; W. ROUX, Anat. Anz. ix, 1894, pp. 248–262 & 265–283.
- On the development of the endothelium of the heart in the Frog ; V. ROUDNEV, C.R. Congr. int. Zool. Moscou, 1892, pp. 101–103.
- On the sphincter pupillæ of the Frog ; A. GRUENHAGEN, Arch. ges. Phys. liii, 1893, pp. 421–427, pl. xiii.
- PIISALIX & BERTRAND, C.R. cxvi, 1893, pp. 1080–1082, C.R. Soc. Biol. (9) v, 1893, pp. 477–479, and Arch. Phys. norm. path. xxv, 1893, pp. 511–517, compare the toxic characters of the blood and dermal secretions of the common Toad.
- On the respiration of the Frog ; A. DISSARD, C.R. cxvi, 1893, pp. 1153 & 1154.
- On the action of running water and light on Frog-tadpoles ; CAMERANO, Boll. Mus. Torino, viii, 1893, No. 140.
- On Frogs' endurance of cold ; physiological experiments by M. M. LUND, Vid. Medd. 1893, pp. 125–165.

RANIDÆ.

Rana. On the Tadpoles with a ventral disk ; BOULENGER, P. Zool. Soc. London, 1893, p. 526, pl. xlili, figs. 2–4. *R. esculenta*, var. *ridibunda*, Pall. : on Syrian larvæ ; CAMERANO, Boll. Mus. Torino, viii, 1893, No. 162, p. 2. *R. temporaria*, L. : on remarkable specimens from Scotland ; BOULENGER, Scott. Natur. 1893, p. 202. *R. agilis*, Thom., recorded from Jersey by BOULENGER, Zoologist (3) xvii, 1893, p. 355 : from Linz, on the Rhine, by MELSHEIMER, Verh. Ver. Rheinland, I, 1893, Korr. p. 44 : from E. Switzerland by O. STOLL, Vierteljahrsschr. Ges. Zurich, xxxvii, 1892, p. 337. *R. aurora*, B. & G., *boylii*, Baird, and *draytoni*, B. & G. : notes by STEJNEGER, North Amer. Fauna, No. 7, 1893, pp. 225–227. *R. areolata asopus*, Cope : note on the habits ; TEST, Science, xxii, 1893, p. 75. *R. trinodis*, Bttg. : a variety from Mozambique described by PREFFER, Jahresber. Hamburg. Anst. x, 1893, p. 90. *R. aspera*, Blgr., *femoralis*, Blgr., and *cowanii*, Blgr., redescribed by PERACCA, Boll. Mus. Torino, viii, 1893, No. 156, pp. 4–6. *R. doriae*, Blgr., p. 328, pl. viii, fig. 1, *limborgii*, W. Slater, p. 329, pl. x, fig. 1, *granulosa*, And., p. 333, pl. viii, fig. 2, and *nigrovittata*, Blyth, p. 334, pl. viii, fig. 3, redescribed and figured by BOULENGER, Ann. Mus. Genova (2) xiii, 1893. *R. guentheri*, Blgr., p. 331, and *jerboa*, Gthr. (= *masonii*, Blgr.), p. 335 : notes ; *id. ibid.*

- R. erythraea*, Schl., n. var. *elongata*, WERNER, Jahresber. Ver-Magdeburg, 1892, p. 253 (1893), Nias [= *R. nicobariensis*, Stol.—REC.]. *R. fisheri*, n. sp., STEJNEGER, t. c. p. 227, pl. iii, fig. 5, Nevada. *R. johnstoni*, n. sp., GÜNTHER, P. Zool. Soc. London, 1893, p. 620 (1894), British Central Africa. *R. plicifera*, n. sp., BOCAGE, J. Sci. Lisb. (2) iii, 1893, p. 118, Angola. *R. cavitympanum*, n. sp., BOULENGER, P. Zool. Soc. London, 1893, p. 525, pl. xliv, fig. 1, Borneo. *R. lemniscata*, n. sp., BÖTTGER, Zool. Anz. xvi, 1893, p. 337, Java. *R. moellendorffi*, p. 363, *sanguinea*, p. 364, and *leytensis*, p. 365, n. spp., id. t. c., Philippines. *R. inaudax*, p. 7, *opiparis*, p. 9, *eruminialis*, p. 10, and *aluta*, p. 12, n. spp., PERACCA, t. c., Madagascar.
- Arthroleptis stenodactylus*, n. sp., PFEFFER, Jahresber. Hamburg. Anst. x, 1893, p. 93, pl. i, fig. 11, Kihengo, E. Africa. *A. variabilis*, n. sp., MATSCHIE, SB. nat. Fr. 1893, p. 173, Cameroons.
- Phrynobatrachus acridooides*, Cope: note by STEJNEGER, P. U. S. Mus. xvi, 1894, p. 738.
- ⁴ *Phrygnopsis*, n. g.: pupil horizontal, tongue cordiform, vomerine teeth, toes feebly webbed, outer metatarsals united, omosternum and sternum cartilaginous. *P. bouleengerii*, n. sp., PFEFFER, t. c. p. 101, pl. ii, figg. 5 & 6, Mozambique.
- Prostherapis herminae*, n. sp., BÖTTGER, Ber. Senckenberg. Ges. 1893, p. 37, Venezuela. [= *Phyllobates trinitatis*, Garm.—REC.]
- Rhacophorus femoralis*, Blgr., redescribed by PERACCA, t. c. p. 13. *R. liber*, n. sp., id. t. c. p. 14. *R. otolithus*, n. sp., BOULENGER, P. Zool. Soc. London, 1893, p. 527, pl. xliv, Borneo. *R. javanicus*, n. sp., BÖTTGER, Zool. Anz. xvi, 1893, p. 338, Java. *R. verrucosus*, p. 337, pl. x, fig. 2, and *few*, p. 338, pl. ix, n. spp., BOULENGER, Ann. Mus. Genova (2) xiii, 1893, Karin Hills.
- Chiromantis xerampelina*, Ptrs. [= *rufescens*, Gthr.], described by PFEFFER, t. c. p. 91. *C. kelleri*, n. sp., BÖTTGER, Zool. Anz. xvi, 1893, p. 131, Somaliland.
- Ixalus flavosignatus*, n. sp., BÖTTGER, t. c. p. 339, Java. *I. carinensis* and *parrulus*, n. spp., BOULENGER, t. c. p. 339, pl. x, figs. 3 & 4, Karin Hills.
- ⁴ *Chirixalus*, n. g., distinguished from *Ixalus* in having the two inner fingers opposed to the two outer; BOULENGER, t. c. p. 340. *C. doriae*, n. sp., id. t. c. p. 341, pl. x, fig. 5, Karin Hills.
- ⁴ *Phrynoderma*, n. g., like *Rhacophorus*, but tongue very feebly nicked behind, and no vomerine teeth; BOULENGER, t. c. p. 341. *P. asperum*, n. sp., id. t. c. p. 342, pl. xi, fig. 1, Karin Hills.
- Rappia cinctiventris*, Cope: notes by STEJNEGER, P. U. S. Mus. xvi, 1894, p. 737. *R. marmorata*, Rapp; and *flavoviridis*, Ptrs.: notes by PFEFFER, t. c. pp. 94 & 98. *R. platycephala*, p. 96, pl. ii, fig. 2, Mozambique, *sansibarica*, p. 97, pl. ii, fig. 4, Zanzibar, *vermiculata*, p. 98, pl. i, fig. 12, Zanzibar I, and *puncticulata*, p. 99, pl. ii, fig. 2, Zanzibar, n. spp., id. *ibid.* *R. benguillensis*, n. sp., BOCAGE, J. Sci. Lisb. (2) iii, 1893, p. 119, Angola.

Megalixalus stuhlmanni, n. sp., PFEFFER, Jahresb. Hamburg. Anst. x, 1893, p. 99, Zanzibar I.

Hylambates argenteus, n. sp., PFEFFER, t. c. p. 100, pl. ii, fig. 3, Bagamoyo, E. Africa. *H. angolensis* and *cinnamomeus*, n. spp., BOCAGE, J. Sci. Lisb. (2) iii, 1893, pp. 119 & 120, Angola.

CYSTIGNATHIDÆ.

Hylobates maussi, n. sp., BÄTTGER, Ber. Senckenberg. Ges. 1893, p. 39, Venezuela.

Leptodactylus bufonius, n. sp., BOULENGER, Ann. Nat. Hist. (6) xiii, 1894, p. 348, Paraguay.

¹ *Philocryphus*, n. g., intermediate between *Helioporus* and *Chiroleptes*, for *H. flavoguttatus*, n. sp., FLETCHER, P. Linn. Soc. N. S. Wales (2) viii, 1894, p. 233, New South Wales.

BUFONIDÆ.

Bufo vulgaris, Laur.: on an adult specimen with a long tail; E. OLIVIER, Bull. Soc. zool. France, xviii, 1893, p. 62, and Rev. Sci. Bourbonnais, vi, 1893, p. 105, pl. ii. *B. viridis*, Laur.: on Syrian larvæ; CAMERANO, Boll. Mus. Torino, viii, 1893, No. 162, p. 3. *B. intermedius*, Gthr.: note by BLATCHLEY, P. U. S. Mus. xvi, 1893, p. 39. *B. fergusonii*, Blgr.: figured by BOULENGER, J. Bombay Soc. vii, 1893, pl. *B. boreas nelsonii*, n. subsp., STEJNEGER, North Amer. Fauna, No. 7, 1893, p. 220, S. E. California and W. Nevada. *B. steindachnerii*, n. sp., PFEFFER, Jahresber. Hamburg. Anst. x, 1893, p. 103, pl. ii, fig. 8, Kihengo, E. Africa. *B. preussi*, n. sp., MATSCHIE, SB. nat. Fr., 1893, p. 175, Cameroons. *B. pentoni*, n. sp., ANDERSON, Ann. Nat. Hist. (6) xii, 1893, p. 440, Suakin.

Nectes pleurotaenia, Blkr.: note by BÄTTGER, MT. Geogr. Ges. Lubeck, (2) v, 1893.

HYLIDÆ.

Hyla arborea, var. *savignyi*, Aud.: on the larvæ; CAMERANO, Boll. Mus. Torino, viii, 1893, No. 162, p. 4.

Hylella fleischmanni, n. sp., BÄTTGER, Ber. Senckenberg. Ges. 1893, p. 251, Costa Rica.

Nototrema pygmaeum, n. sp., BÄTTGER, t. c. p. 40, and Zool. Gart. xxxiv, 1893, p. 129, Venezuela.

PELOBATIDÆ.

Pelobates syriacus, Bttg.: on the Tadpole; BOULENGER, Ann. Nat. Hist. (6) xii, 1893, p. 61, and CAMERANO, Boll. Mus. Torino, viii, 1893, No. 162, p. 5.

Leptobrachium carinense, Blgr.: figured by BOULENGER, Ann. Mus. Genova (2) xiii, 1893, pl. xii. *L. parvum*, p. 344, pl. xi, fig. 2, and *pelodytoides*, p. 345, pl. xi, fig. 3, n. spp., *id. ibid.*, Karin Hills.

DISCOGLOSSIDÆ.

Bombinator igneus, Laur., and *B. pachypus*, Bp.: figured by HAACKE, Schöpfung der Tierwelt, Heft 2 (1893).

Alytes obstetricans, Laur.: on its distribution in Thuringia; WOLTERSTORFF, Zool. Anz. xvi, 1893, p. 151.

CAUDATA.

- A. PERRIN, C.R. cxvii, 1893, pp. 243-245, compares the fore and hind limbs in some tailed Batrachians. The same author, C.R. Soc. Philom. 1893, No. 18, and Bull. Soc. Philom. (8) vi, 1894, pp. 5-9, remarks on the muscles of the fore limb.
- A. DAVISON, Anat. Anz. ix, 1894, pp. 332-336, fig., writes on the arrangement of muscular fibres in *Amphiuma tridactyla*.
- On the total absence of lungs in *Desmognathus* and *Plethodon (erythronotus and porphyriticus)*, H. H. WILDER, t. c. pp. 216-220, figg.
- SUSANNA P. GAGE, Wilder Quart.-Cent. Book, pp. 259-313, 7 pls., describes the brain of *Molge (Diemyctylus) viridescens*, Raf., from larval to adult life.
- F. MALL, J. Morphol. viii, 1893, pp. 415-432, figg., writes on histogenesis of the retina of *Amblystoma* and *Necturus*.
- On the ovarian egg of *Triton tæniatus*; G. BORN, Arch. mikr. Anat. xlivi, 1894, pp. 1-79, pls. i-iv.
- On the fertilization and early development of the Axolotl ovum; F. FICK, Verh. Anat. Ges. 1893, pp. 120-122, and Zeitschr. wiss. Zool. lvi, 1893, pp. 529-614, pls. xxvii-xxx.
- C. VAN BAMBEKE, Bull. Ac. Belgique (3) xxv, 1893, pp. 710-726, pl., has a paper on the gastrular raphe or median groove in *Molge alpestris*.
- U. ROSSI studies the structure of the eggs of *Salamandrina perspicillata* and *Spelerpes fuscus*, Monit. Zool. ital. v, 1894, pp. 13-23, & 33-41.
- J. E. S. MOORE has a paper on the relationships and rôle of the archo-plasmic body during Mitosis in the larval Salamander, Rep. Brit. Ass. 1892, pp. 755 & 756 (1893).
- On the development of the abdominal vein in the Salamander; HOCHSTETTER, Morphol. Jahrb. xxi, 1894, pp. 19-27, pl. i.
- F. HOUSSAY, Arch. Zool. exp. (3) i, 1893, pp. 1-94, pls. i-v, deals with the development (parablast and blood-vessels) of the Axolotl.
- H. H. FIELD, Anat. Anz. viii, 1893, pp. 634-638, figg., has a note on embryonal circulation in the head of the Axolotl.
- JULIA B. PLATT, Anat. Anz. ix, pp. 51-56, figg., writes on ontogenetic differentiations of the ectoderm in *Necturus*.
- On the relation of the cartilage to the chorda in the Axolotl; ZYKOFF, Bull. Soc. Moscou, 1893, pp. 30-36.

O. VOM RATH, Zeitschr. wiss. Zool. lvii, 1893, pp. 97-185, pl. vii., has a contribution to the knowledge of the spermatogenesis in *Salamandra maculosa*.

On the structure of the cells of the spermatozoids of *Salamandra*; BENDA, Verh. Anat. Ges. 1893, pp. 161-165.

ZANDER, Schr. Ges. Konigsb. xxxiii, 1892, Ber. pp. 21-26, reviews our knowledge of the reproduction of tailed Batrachians.

Salamandra maculosa, Laur.: notes on the life-history; WACQUANT-GEOZELLES, Zool. Gart. xxxiv, 1893, p. 137: on breeding habits; O. VOM RATH, Zeitschr. wiss. Zool. lvii, 1893, p. 98.

MOLGE, Merr.: a key to the determination of the European species; BEDRIAGA, Zool. Anz. xvi, 1893, p. 214, and Ann. & Mag. N. H. (6) xii, 1893, p. 338: on the size of the British Newts; BOURGERON, Zoologist (3) xviii, 1894, p. 145. *M. vulgaris*, L.: on a sexually mature larva; F. WESTHOFF, Zool. Anz. xvi, 1893, p. 256: on its occurrence in East Switzerland; O. STOLL, Vierteljahrsschr. Ges. Zurich, xxxvii, 1892, p. 337. *M. palmata*, Schneid., described and anatomically investigated by MÉHELY, Math. term. Kozlem. Magyar Ak. xxv, 1893, p. 455, and Math. naturw. Ber. Ungarn, xi, 1893, p. 333, pls. xxi & xxii: on its occurrence in Thuringia; WOLTERSTORFF, Zool. Anz. xvi, 1893, p. 150. *M. montandoni*, Blgr.: redescribed and compared with *M. palmata*, by MÉHELY, t. c.: *M. viridescens*, Raf.: note by H. PIERS, P. N. Scotia Inst. (2)i, 1892, p. 183: on its habits and development; E. O. JORDAN, J. Morphol. viii, 1893, p. 269, pls. xiv-xviii.

Typhlotriton spelaeus, Stejn.: notes by COPE, P. Ac. Philad. 1893, p. 384.

Spelerpes fuscus, Bp.: on its habits in confinement; J. BERG, Zool. Gart. xxxiv, 1893, p. 367, figs. *S. melanopleurus*, n. sp., COPE, P. Ac. Philad. 1893, p. 383, S. W. Missouri. *S. orizabensis* and *gibbicaudus*, n. spp., BLATCHLEY, P. U. S. Mus. xvi, 1893, p. 38, Mt. Orizaba, Mexico.

Cryptobranchus maximus, Schleg.: notes on the anatomy and systematic position; H. C. CHAPMAN, P. Ac. Philad. 1893, pp. 227-233, figs. v-vii.

APODA.

Hypogeophis rostratus, Cuv.: notes by STEJNEGER, P. U. S. Mus. xvi, 1894, p. 738. *H. alternans*, n. sp., id. t. c. p. 739, Seychelles.

STEGOCEPHALA.

H. CREDNER, Abh. Sachs. Ges. xx, 1893, pp. 475-552, figs., 4 pls, investigates the histology of the Labyrinthodont teeth, his researches being based chiefly on specimens of *Sclerocephalus*.

Sclerocephalus labyrinthicus, Geinitz, described and figured by CREDNER, Zeitschr. deutsch. geol. Ges. xlvi, 1894, p. 639, pls. xxx-xxxii.

1893. [VOL. XXX.]

II.—THE GENERAL SUBJECT.

T. GILL, Mem. Ac. Washington, vi, 1893, pp. 127–138, gives a conspectus of his classification of Fishes; 324 families are named, but not defined.

D. S. JORDAN again discusses the relation of temperature to the number of vertebræ in Fishes; Wilder Quart.-Cent. Book, pp. 13–36.

On ribs and similar elements, and their nomenclature; BAUR, Anat. Anz. ix, 1893, pp. 116–120.

On the hæmapophyses; BOULENGER, Ann. Nat. Hist. (6) xii, 1893, pp. 60 & 61.

H. KLAATSCH studies the development of cartilaginous vertebræ in Fishes. Morphol. Jahrb. xx, 1893, pp. 143–186, pl. vii.

On the notochord and its relation to the vertebral column in the caudal extremity; V. SCHMIDT, SB. Ges. Dorpat, x, 1893, pp. 142–152.

On the evolution of the scales of Fishes; A. S. WOODWARD, Natural Science, iii, 1893, pp. 448–450, fig.

On the pancreas of Fishes; LAGUESSE, C.R. Soc. Biol. (9) v, 1893, pp. 402–404, and J. Anat. Physiol. xxx, 1894, pp. 79–116, pl. iii.

SUSANNA P. GAGE, Wilder Quart.-Cent. Book, pp. 259–313, 7 pls., compares the brain of the American Newt (*Molge viridescens*, Raf.) with those of *Amia* and *Petromyzon*.

G. FRITSCH, Rep. Brit. Ass. 1892, pp. 757 & 758 (1893), has a communication on the origin of the electric nerves.

On the electric organs of Fishes; F. GOTCH, P. Liverp. biol. Soc. vi, 1892, pp. 148–154.

On the possible relation of the sense-organs of the skin of lower Vertebrates to the hairs; LEYDIG, Biol. Centralbl. xiii, 1893, pp. 359–375; MAURER, Morphol. Jahrb. xx, 1893, pp. 429–448.

On the derivation of the pineal eye in Fishes; W. A. LOCY, Anat. Anz. ix, 1893, pp. 169–184, figg.

Researches on the development of Fishes; MITROPHANOW, Trav. Soc. Varsovie, ii, 1892, pp. 160–216, pls. i–vii.

H. B. POLLARD, Anat. Auz. ix, 1894, pp. 349–359, figg., has a paper on the "Cirrhostomial" origin of the head in Vertebrates.

On the formation of the germinal layers in Vertebrates; Translation of LWOFF's paper in Ann. Nat. Hist. (6) xi, 1893, pp. 360–377.

On the nuclei in the yolk of Fish ova; H. E. ZIEGLER, Ber. Ges. Freiburg, viii, 1894, pp. 192–209.

On the relation of size to sexual maturity; HOLT, Rep. Brit. Ass. 1892, p. 765 (1893); CUNNINGHAM, t. c. p. 767; SAUVAGE, Ann. Stat. aquic. Boulogne-s.-M. i, 1893, pp. 86–98.

J. NOË remarks on the length of time various Fishes can survive out of their natural element, and formulates the law that the more a species has sedentary habits the longer it can live out of water, and *vice versa*; C.R. Soc. Biol. (9) v, 1893, pp. 1049–1051.

P. P. C. HOEK (see p. 7) writes on hermaphroditism in Fishes. The following Mediterranean *Percidae* and *Sparidae* are found to be constantly hermaphrodite : — *Serranus cabrilla*, *S. scriba*, *Centropristes hepatus*, *Chrysophrys auratus*, *Box salpa*, *Charax puntazzo*, *Sargus rondeletii*, *S. annularis*, *S. salviani*, *Pagellus mormyrus*.

On the food of some Fishes in the English Channel ; SAUVAGE, Ann. Stat. aquic. Boulogne-s.-M. i, 1893, pp. 39–51.

W. HAACKE, "Die Schöpfung der Tierwelt" (Leipzig & Vienna : 1893, 8vo) deals with the evolution and distribution of Fishes, pp. 344–381.

T. GILL, Science, xxii, 1893, p. 345, offers some remarks on certain groups of Freshwater Fishes and their geographical distribution.

III.—FAUNÆ.

EUROPE.

Great Britain and Ireland : Catalogue of local lists of Fishes, arranged under counties ; M. CHRISTY, Zoologist (3) xvii, 1893, pp. 252–264.

Scandinavia : F. A. SMITT supplies a new, revised and completed edition of Fries and Ekström's "History of Scandinavian Fishes," illustrated by W. von Wright. Part i. Stockholm and London : 1893, 4to.

Denmark : Notes on the pelagic life in Fæno Sound, Denmark ; PETERSEN, Report of the Danish Biological Station. III. Copenhagen : 1893, pp. 1–15.

Gulf of Riga : List of the Fishes, by G. SCHWEDER, KB. Ver. Riga, xxxvi, 1893, pp. 33–35.

Germany : List of the Fishes of Artland ; MÖLLMANN, Jahresber. Ver. Osnabrück, 1891–92, pp. 228–232. On the German names of some of the Fishes of the Main ; BUXBAUM, Zool. Garten, xxxiv, 1893, p. 233. The same author, t. c. pp. 11–13, reports on the migrations of Fishes in this river during the summer of 1892.

Bay of Biscay : On the Food-fishes ; ROCHE, Ann. Sci. Nat. (7) xv, 1893, pp. 41–53.

Portugal : On some Freshwater Fishes ; L. VIEIRA, Ann. Sci. nat. (Porto) i, 1894, No. 2, pp. 1–18.

Italy : C. LOPEZ, Cenni sulla Fauna dell' Abruzzo Teramano, pp. 33–39, remarks on the ichthyological fauna of the Abruzzi and the corresponding coast of the Adriatic.

Dalmatia : G. KOLOMBATOVIC, Novi Nadodatci, pp. 14–27, remarks on some Fishes.

Canary I. : See Africa.

ASIA.

Bay of Bengal : On the Deep-sea collection made by the 'Investigator,' 1892–93 ; A. ALCOCK, J. Asiatic Soc. Bengal, lxii, 1893, pp. 177–184, pl. ix.

Shan States : On a collection made by Mr. E. W. OATES ; BOULENGER, Ann. N. H. (6) xii, 1893, pp. 198–203.

Black River, Upper Tonkin : On the Fishes obtained by M. Bonvalot and Prince Henri d'Orleans ; VAILLANT, Bull. Soc. Philom. (8) v, 1893, pp. 197-204.

Sumatra : On some Freshwater Fishes ; PERUGIA, Ann. Mus. Genova (2) xiii, 1893, pp. 241-247.

Borneo : L. VAILLANT, N. Arch. Mus. (3) v, 1894, pp. 23-114, discusses the affinities of the Fish-fauna, and enumerates the known Fishes. Remarks in C.R. cxviii, 1894, pp. 209-211. List of Fishes collected by M. Chaper ; VAILLANT, Bull. Soc. zool. France, xviii, 1893, pp. 55-62. New Freshwater species described by BOULENGER, Ann. N. H. (6) xiii, 1894, pp. 245-251.

AFRICA.

Canary I. : Catalogue of the Fishes, by VINCIGUERRA, Atti Soc. Ital. xxiv, 1893, pp. 295-334.

East Africa : On the Fishes collected by Stuhlmann in 1888 and 1889 ; PFEFFER, Jahrb. Hamburg Anst. x, 1893, pp. 131-177, 3 pls.

Somaliland : On a small collection of Fishes ; VINCIGUERRA, Ann. Mus. Genova (2) xiii, 1893, pp. 448-455.

Central Africa : On new Fishes from Nyassaland and Lake Tanganyika ; GÜNTHER, P. Zool. Soc. London, 1893, pp. 621-632, pls. liii-lviii (1894).

South Africa : A sketch of the Fish-fauna, by R. TRIMEN, in Noble's Illustr. Offic. Handb. of the Cape and S. Africa (London, 1893), pp. 88-90.

AMERICA.

North America : T. H. BEAN, Bull. U. S. Fish Comm. x, 1892, pp. 49-61, has notes on various North American Fishes.

New Brunswick : Observations on the distribution and habits of some Fishes ; P. COX, Bull. Soc. N. Brunswick, xi, 1893, pp. 33-42.

Lake Ontario : H. H. SMITH, Bull. U. S. Fish Comm. x, 1892, pp. 213-215, pl. xxi-1, gives a list, with figures, of the Fishes of that Lake.

Iowa : report upon the Fishes, by S. E. MEEK, t. c. pp. 217-248.

North Carolina : on a collection of Fishes from the Albemarle River ; H. H. SMITH, op. cit. xi, 1893, pp. 185-200.

Kentucky : lists of Fishes from the Rivers of Kentucky ; A. J. WOOLMAN, op. cit. x, 1892, pp. 249-288, pl. li.

Maryland : H. H. SMITH, t. c. pp. 63-72, pls. xviii-xx, reports on a collection of Fishes from the Lower Potomac River, Maryland.

Florida : lists of Fishes from the Rivers of Central Florida tributary to the Gulf of Mexico ; A. J. WOOLMAN, t. c. pp. 293-302, pls. lii & liii.

Texas and Rio Grande Basin : on the Fishes, considered chiefly with reference to their geographic distribution ; B. W. EVERMANN & W. C. KENDALL, op. cit. 1892, pp. 57-126, pls. x-1 (1894).

Pacific Coast of North America : on acclimatized Fishes; H. H. SMITH, *Science*, xxii, 1893, pp. 88 & 89.

Death Valley, California and Nevada : notes on the Fishes ; GILBERT, *North Amer. Fauna*, No. 7, 1893, pp. 229–234, pls. v & vi.

S. Mexico and Central America : list of the Freshwater Fishes ; C. H. EIGENMANN, *P. U. S. Mus.* xvi, 1893, pp. 53–60.

Brazil : on Freshwater Fishes collected by F. C. Hart in E. Brazil ; EIGENMANN, *Ann. N. York Ac.* vii, 1894, pp. 625–632.

Rio Grande do Sul : H. v. IHERING publishes (*Rio Grande do Sul* : 1893, 8vo, 36 pp.) a Catalogue of the Freshwater Fishes of that province, and (in Koseritz's *Volkskalender*, 1893, pp. 89–119) a list of the Coast Fishes, with considerations on their distribution. On Fishes collected by H. v. Ihering ; EIGENMANN, *Ann. N. York Ac.* vii, 1894, pp. 632–637. On the Fishes obtained by the Naturalist Expedition ; E. D. COPE, *P. Amer. Phil. Soc.* xxiii, 1894, pp. 84–108, pls. iv–ix.

NEW ZEALAND.

In a paper entitled "A Comparison of Antipodal Faunas," T. GILL tabulates the Fishes of New Zealand and compares them with those of the British Islands. *Mem. Ac. Washington*, vi, 1893, pp. 91–124.

IV.—PALÆONTOLOGY.

Great Britain : H. Woods, *Geol. Mag.* (3) x, 1893, p. 118, supplements his list of the types of Fossil Fishes in the Woodwardian Museum, Cambridge. A. S. WOODWARD, *P. Geol. Ass.* xiii, 1894, pp. 190–200, figg., pls. v & vi, describes and figures various Sharks' teeth from British Cretaceous Formations. On the Fossil Fishes of Achanarras Quarry, Old Red Sandstone, Caithness ; TRAQUAIR, *P. Phys. Soc. Edinb.* xii, 1894, pp. 279–286, fig. On Fish-remains from the Lower Carboniferous rocks of the Bristol District ; A. J. HEATH & C. LLOYD MORGAN, *P. Bristol Soc.* (2) vii, 1893, pp. 80–92.

France : H. E. SAUVAGE's paper on the Fishes of the Upper Lias of Yonne [*Cf. Zool. Rec.* 1892, *Pisces*, p. 12], reprinted in *Bull. Soc. Yonne*, xlvi, 1893, pp. 23–33, 3 pls.

Belgium : on some Fish-remains ; DAIMERIES, *Ann. Soc. malac. Belgique* (2) vii, 1893, *Bull.* pp. xii–xvi.

Germany : on the Ganoids of the Mayence Basin (Miocene) ; ANDREE, *Verh. Ver. Heidelb.* (2) v, 1893, pp. 7–15.

Bohemia : A. FRITSCH publishes the second fascicle on the third vol. of his "Fauna der Gaskohle, &c.," dealing with Selachians and Actinopterygians.

South Africa (Karoo formation) : A. S. WOODWARD, *Ann. N. H.* (6) xii, 1893, pp. 393–398, pl. xvii.

Canada (Devonian) : R. H. TRAQUAIR continues his remarks on the

fossils of Campbelltown and Scaumenac Bay. Geol. Mag. (3) x, 1893, pp. 262-267.

Ohio (Upper Devonian): on the Fish-fauna; CLAYPOLE, *t. c.* pp. 443-448, figg.

V.—REFERENCES, ARRANGED SYSTEMATICALLY.

TELEOSTOMI.

TELEOSTEI.

- F. F. KAVRAISKI, Tr. Soc. Friends N. H. Moscow. lvi, 1893, enumerates the Acanthopterygian Fishes in the collection of the Moscow University.
- C. SCHEEL, Morphol. Jahrb. xx, 1893, pp. 1-47, pls. i-iii, studies the development of the vertebral column in the Physostomous Teleosteans.
- On the anatomy of the cerebellum of Teleosteans; A. SCHAPER, Anat. Anz. viii, 1893, pp. 705-720, figg.
- On the œsophageal and gastric papillæ of *Luvarus imperialis*; CATTANEO, Atti Soc. Ligustica, iii, 1892, pp. 298-303.
- On the lobi inferiores of the Teleostean and Ganoid brain; J. J. DAVID^o, Inaug. Dissert., Basle, 1892, 8vo, 48 pp., 2 pls.
- G. RETZIUS writes on the nervous elements in the spinal cord of Teleosteans, Biol. Unters. (2) v, 1893, pp. 27-30, pl. xiv.
- E. E. PRINCE, Rep. Brit. Ass. 1892, p. 772 (1893), studies the formation of argenteous matter in the integument of Teleosteans.
- On the contraction of pigment-cells in Teleosteans; ZIMMERMANN, Verh. Anat. Ges. 1893, pp. 76-78.
- On the development of the fin-rays of Teleosteans; R. G. HARRISON, Arch. mikr. Anat. xlii, 1893, pp. 248-278, pls. xvi-xviii.
- On the development of the fins in the Trout; DUCRET, Bibl. universelle, (3) xxx, 1893, pp. 271-273.
- E. GOEPPERT, Morphol. Jahrb. xx, 1893, pp. 90-111, figg., writes on the development of the pancreas in Teleosteans.
- E. W. L. HOLT, Tr. Dublin Soc. (2) v, 1893, pp. 1-121, pls. i-xv, describes and figures the eggs and larval and postlarval stages of Teleosteans from the West Coast of Ireland.
- On oviposition, eggs, and larvæ of various Teleosteans (mostly Gadoids and Pleuronectoids) observed in the British Channel; E. CANU, Ann. Stat. aquic. Boulogne-s.-M. i, 1893, pp. 117-132, pls. viii-xv.
- On the eggs of various Teleosteans; SAINT-JOSEPH, Bull. Soc. Philom. (8) v, 1893, pp. 189-195.
- J. T. CUNNINGHAM has notes on the ovarian eggs of some Teleosteans, J. Mar. Biol. Ass. (2) iii, 1894, pp. 154-165, figg.
- T. H. MORGAN, Anat. Anz. viii, 1893, pp. 803-814, has a preliminary communication on experimental studies on the Teleost eggs.

- On the blastoderm and orientation of the ovum in Teleosteans ; KœHLER & BATAILLON, C.R. cxvii, 1893, pp. 490-493. On karyokinesis in the blastoderm ; *id. t. c.* pp. 521-524.
- On the fecundation of the Trout-ovum ; H. BLANC, Ber. Ges. Freiburg, viii, 1894, pp. 163-189, pl. vi.
- C. VAN BAMBEKE, Bull. Ac. Belg. (3) xxv, 1893, pp. 323-362, pl. i, and Arch. Biol. xiii, 1893, pp. 89-121, pls. v & vi, writes on the elimination of nuclear elements in the ovarian egg of *Scorpaena scrofa*.

ACANTHOPTERYGII.

PERCIDÆ.

- Perca fluviatilis*, L. : on an apparently hermaphrodite specimen ; IWAN-ZOFF, Bull. Soc. Moscou, 1893, p. 199, pl. viii.
- Etheostoma spilotum*, Gilb., pl. li, and *quiescens*, Jord., pl. liii, figured by WOOLMAN, Bull. U. S. Fish. Comm. x, 1892. *E. lepidogenys*, n. sp. ; EVERMANN & KENDALL, *t. c.* p. 114, pl. xxxv (1894), Texas.
- Labrax lupus*, Cuv. : on an anomalous specimen ; MAZZA, Atti Soc. Ligustica, iv, 1893, p. 432, pl. xvi, fig. 4, and pl. xvii, fig. 4.
- Serranus (Epinephelus) dictiophorus*, Blkr. : a variety described by STEINDACHNER, SB. Ak. Wien, cii, 1893, p. 219.
- Apogon (Archaphia) sansibaricus*, n. sp. ; PFEFFER, Jahresber. Hamburg. Anst. x, 1893, p. 135, pl. iii, fig. 5, Zanzibar. 71
- D. S. JORDAN & B. FESLER, Rep. U. S. Fish Comm. 1889-91, p. 421 (1893), review the *Lutjaninae* of America and Europe.
- ¹ *Rarirubia*, n. subg., for *Mesoprion inermis*, Ptrs. ; JORDAN & FESLER, *t. c.* p. 438.
- Raizero*, n. subg., for *Mesoprion aratus*, Gthr. ; JORDAN & FESLER, *ibid.*
- ¹ *Isacia*, n. g., for *Pristipoma conceptione*, C. & V. ; JORDAN & FESLER, *t. c.* p. 501.
- ¹ *Isaciella*, n. subg., for *Pristipoma brevipinne*, Stdr. ; JORDAN & FESLER, *t. c.* p. 500.
- Elassoma evergladei*, Jord., figured by WOOLMAN, Bull. U. S. Fish Comm. x, 1892, pl. liii, fig. 4.

SQUAMIPINNES.

- Chætodon plebejus*, Gm., *vagabundus*, L., and *melanotus*, Bl. Schn. : notes by STEINDACHNER, SB. Ak. Wien, cii, 1893, pp. 227-230.
- Heniochus chrysostomus*, C. & V. : young noticed and figured by STEINDACHNER, *t. c.* p. 226, pl. ii, fig. 1. *H. intermedius*, n. sp. ; *id. t. c.* pp. 222, pl. ii, fig. 2.

SPARIDÆ.

- D. S. JORDAN & B. FESLER, Rep. U. S. Fish Comm. 1889-91, pp. 421-544 (1893), review the *Sparidae* of America and Europe.

- ¹ *Sparosomus*, n. g., for *Pagrus unicolor*, Q. & G.; GILL, Mem. Ac. Washington, vi, 1893, p. 123.
Dentex, Cuv.: on the character of the gill-rakers in the Mediterranean species; VINCIGUERRA, Boll. Soc. Rom. Zool. ii, 1893, p. 50.
Sargus annularis, L.: on an anomalous specimen; MAZZA, Atti Soc. Ligustica, iv, 1893, p. 430, pl. xvi, fig. 2.
Box salpa, L.: on an anomalous specimen; MAZZA, t. c. p. 434, pls. xvi & xvii.
² *Sectator*, n. subg., for *Pimelepterus oxyurus*, Jord.; JORDAN & FESLER, t. c. p. 536.
¹ *Medialuna*, n. g., for *Scorpio californiensis*, Stdr.; JORDAN & FESLER, *ibid.*

HOPLOGNATHIDÆ.

Hoplognathus fasciatus, Schleg., redescribed by STEINDACHNER, SB. Ak. Wien, cii, 1893, p. 222.

SCORPÆNIDÆ.

- C. H. EIGENMANN & C. H. BEESON, Amer. Natural. xxvii, 1893, pp. 668-671, have a note on the relationship of the Scorpaenoids usually united under the generic name *Sebastodes*.
¹ *Acutomentum*, n. g., for *Sebastodes ovalis*, Ayres; EIGENMANN & BEESON, t. c. p. 669. *A. macdonaldi*, n. n. for *S. proriger*, Eigenm., nec Jord. & Gilb.; *iid. ibid.*
¹ *Primospina*, n. g., for *Sebastodes mystinus*, Jord. & Gilb.; EIGENMANN & BEESON, *ibid.*
¹ *Pteropodus*, n. g., for *Sebastodes maliger*, Jord. & Gilb.; EIGENMANN & BEESON, t. c. p. 670. *P. dallii*, n. sp.; *iid. op. cit.* xxviii, 1894, p. 66, San Francisco.
Scorpana dactyloptera, Delaroche: notes and figure by W. E. CLARKE, P. Phys. Soc. Edinb. xii, 1893, p. 94, pl. ii. Recorded from the Yorkshire coast by T. H. NELSON & W. E. CLARKE, Naturalist, 1893, p. 81. On its occurrence on the East coast of Scotland; G. SIM, Ann. Scott. Nat. Hist. 1893, p. 204.

BERYCIDÆ.

Myripristis pillwaxi, n. sp.; STEINDACHNER, SB. Ak. Wien, cii, 1893, p. 215, pl. i, Honolulu.

SCIÆNIDÆ.

Sciæna adusta, Ag.: note by EIGENMANN, Ann. N. York Ac. vii, 1894, p. 631.

TRICHIURIDÆ.

Astrodermus elegans, Risso: remarks by KOLOMBATOVIC, Novi Nadodatci, p. 21.

CARANGIDÆ.

Trachurus melanosaurus, Cocco, is specifically distinct from *T. trachurus*, L.; KOLOMBATOVIC, Novi Nadodatci, p. 19.

CYTTIDÆ.

Rhombocyttus, n. g., for *Cyttus traversi*, Hutton; GILL, Mem. Ac. Washington, vi, 1893, p. 123.

Capromimus, n. g., for *Platystethus abbreviatus*, Hector; GILL, *ibid.*

Bathystethus, n. g., for *Platystethus*, Gthr., nec Mannerheim; GILL, *ibid.*

Eviotius, n. g., for *Platystethus huttoni*, Gthr.; GILL, *ibid.*

STROMATEIDÆ.

Centrolophus maoricus, n. sp., DOUGLAS-OGILBY, Rec. Austral. Mus. ii, 1893, p. 64, New Zealand.

CORYPHÆNIDÆ.

Schedophilus, Cocco: review of the species by DOUGLAS-OGILBY, Rec. Austral. Mus. ii, 1893, pp. 65-73.

Promethichthys, n. n., for *Prometheus*, Lowe, nec Hubner; GILL, Mem. Ac. Washington, vi, 1893, p. 123.

SCOMBRIDÆ.

Thunnus, South, 1845, in the proper generic name of the Tunnies; GILL, P. U. S. Mus. xvi, 1893, p. 693.

Echeneis naucrates, L.: on its accidental occurrence in the Gulf of Venice; E. F. TROIS, Atti Ist. Veneto (7) iv, 1893, p. 1636. *E. pediculus*, n. sp., A. A. GIRARD, Boll. Soc. Geogr. Lisb. xi, 1893, p. 611, pl. ii, Coast of Portugal.

TRACHINIDÆ.

Bathypercis, n. g. (*Trachinina*), ALCOCK, J. Asiat. Soc. Bengal, lxii, 1893, p. 177. *B. platyrhynchos*, *id. t. c.* p. 178, pl. ix, fig. 1, Bay of Bengal, 128 faths.

Cathetostoma alboguttata, n. sp., BEAN, P. U. S. Mus. xv, 1892, p. 121, Gulf of Mexico.

BATRACHIDÆ.

LOUISE B. WALLACE writes on the structure and development of the axillary gland of *Batrachus*. J. Morphol. viii, 1893, pp. 563-568, pl. xxvii.

Thalassophryne montevideensis, n. sp., C. BERG, An. Mus. La Plata, ii, 1893, Zool. p. 6, pl. ii, Montevideo.

PEDICULATI.

Lophius multilobatus, n. sp., ALCOCK, J. Asiatic Soc. Bengal, lxii, 1893, p. 179, Bay of Bengal, 128 fathms.

Himantolophus grænlandicus, Lütk.: specimen from the Portuguese Coast, described and figured by A. A. GIRARD, Boll. Soc. Geogr. Lisb. xi, 1893, p. 605, pl. i.

DISCOBOLI.

Liparis lineatus, Lep.: note by O. M. REUTER, Medd. Soc. Faun. Fenn. xvii, 1892, p. 168.

GOBIIDÆ.

H. B. POLLARD, Quart. J. Micr. Sci. xxxv, 1894, pp. 335-352, pls. xxi & xxii, has observations on the development of the head in *Gobius capito*.

Gobius, Art.: note on the Italian freshwater species; VINCIGUERRA, Boll. Soc. Rom. Zool. ii, 1893, p. 212. *G. minutus*, L.: note on the eggs; SAINT-JOSEPH, Bull. Soc. Philom. (8) v, 1893, p. 189. *G. modiglianii*, n. sp., PERUGIA, Ann. Mus. Genova (2) xiii, 1893, p. 252, Engano I., Sumatra. *G. silveiræ-martinsi*, n. sp., INHERING, Süsswasserfische v. Rio Grande do Sul, 1893, p. 34, Camaquam R., Rio Grande do Sul, Brazil. *G. viganensis*, p. 230, Philippines, *longicauda*, p. 232, Swatow, China, and *petersenii*, p. 234, Swatow, n. spp., STEINDACHNER, SB. Ak. Wien, cii, 1893. *G. douglasi*, n. sp., S. KENT, Great Barrier Reef, pl. xvi, fig. 12, Queensland.

Gobioides petersenii, n. sp., STEINDACHNER, t. c. p. 235, Swatow, China.

Salarigobius, n. g., with distinct ventrals. *S. stuhlmanni*, n. sp., PFEFFER, Jahresber. Hamburg. Anst. x, 1893, p. 141, pl. iii, figg. 6 & 7, Kokotoni, E. Africa.

Eleotris klunzingerii, n. sp., id. t. c. p. 142, pl. iii, fig. 8, Zanzibar. *E. squamifrons*, n. sp., PERUGIA, Ann. Mus. Genova (2) xiii, 1893, p. 254, Engano I., Sumatra.

Aphyia pellucida, Nardo, recorded from the Danish seas by PETERSEN, Rep. Dan. Biol. Stat. iii, 1893, p. 23.

W. E. RITTER, Bull. Mus. Harvard, xxiv, 1893, pp. 51-102, 4 pls., writes on the eyes, the integumentary sense papillæ, and the integument of *Typhlogobius californiensis*, Stdr.

HETEROLEPIDOTIDÆ.

⁴ *Erilepis*, n. n. for *Myriolepis*, Lockington nec Egerton ; GILL, Science, xxiii, 1893, p. 52.

BLENNIIDÆ.

Salarias steindachnerii, n. sp., PREFFER, Jahresber. Hamburg. Anst. x, 1893, p. 143, pl. iii, fig. 3, Bani L, E. Africa.

Clinus argentatus, Cuv. : on the habits ; GUILLET, Arch. Zool. exp. (3) i, 1893, p. 326.

⁴ *Ericentrus*, n. g. for *Clinus rubrus*, Hutton ; GILL, Mem. Ac. Washington, vi, 1893, p. 123.

⁴ *Cologrammus*, n. g. for *Clinus flavescens*, Hutton ; GILL, t. c. p. 124.

⁴ *Notoclinus*, n. g. for *Tripterygium fenestratum*, Forst. ; GILL, ibid.

⁴ *Plagiogrammus*, n. g. for *P. hopkinsi*, n. sp. ; BEAN, P. U. S. Mus. xvi, 1893, p. 699, fig., Monterey, California.

MASTACEMBELIDÆ.

Mastacembelus oatesii and *caudiocellatus*, n. spp., BOULENGER, Ann. Nat. Hist. (6) xii, 1893, p. 199, S. Shan States. *M. alboguttatus*, n. sp., id. t. c., p. 200, Burma. *M. tanganicæ* and *ophidium*, n. spp., GÜNTHER, P. Zool. Soc. London, 1893, pp. 629 & 630 (1894), Lake Tanganyika.

GASTROSTEIDÆ.

On the nostril ; B. SOLGER, Zeitschr. wiss. Zool. Ivii, 1893, p. 186, fig.

Gastrosteus spinachia, L., is an annual animal, the individuals living only one year ; PETERSEN, Report of the Danish Biological Station, iii (Copenhagen : 1893), p. 23 : on the nest ; MÖBIUS, SB. Nat. Fr. 1893, p. 167.

LABYRINTHICI.

Betta rubra, n. sp., PERUGIA, Ann. Mus. Genova (2) xiii, 1893, p. 242, Sumatra.

Polyacanthus queenslandiae, n. sp., S. KENT, Great Barrier Reef, pl. xvi, fig. 8, Queensland.

TRACHYPTERIDÆ.

Regalecus masterii, n. sp., DE VIS, P. R. Soc. Queensl. viii, 1892, p. 109, Queensland.

ACANTHOPTERYGII PHARYNGOGNATHI.

POMACENTRIDÆ.

Glyphidodon luteo-caudata, n. sp., S. KENT, Great Barrier Reef, pl. xvi fig. 11, Queensland.

LABRIDÆ.

On the development of the pharyngeal teeth ; E. E. PRINCE, Rep. Brit. Ass. 1892, p. 773 (1893).

Julis aneitensis, Gthr., redescribed by STEINDACHNER, SB. Ak. Wien, cii, 1893, p. 237. *J. cyanoventer*, n. sp., S. KENT, Great Barrier Reef, pl. xvi, fig. 14, Queensland.

Labroides bicincta and *auropinna*, n. spp., S. KENT, t. c. pl. xvi, figs. 4 & 9, Queensland.

Chærops hodgkinsonii, n. sp., S. KENT, t. c. pl. xv, fig. 2, Queensland.

Harpe naevius, n. sp., EIGENMANN, Ann. N. York Ac. vii, 1894, p. 630, Rio Janeiro.

Phyllodus, Ag. (foss.) : on some remains from the Eocene of Belgium ; DAIMERIES, Ann. Soc. malac. Belgique (2) vii, 1893, Bull. pp. xiii & xiv.

Nummopalatus belgicus, n. sp. (foss.) ; DAIMERIES, Ann. Soc. malac. Belgique (2) vii, 1893, Bull. p. xv, Eocene, Brussels.

EMBIOTOCIDÆ.

On the vascular respiratory mechanism of the vertical fins in *Ditrema laterale* ; RYDER, P. Ac. Philad. 1893, pp. 95-99, fig.

CHROMIDES.

A revision of the American species, by C. H. EIGENMANN & W. L. BRAY Ann. N. York Ac. vii, 1894, pp. 607-624.

Crenicichla lacustris, Casteln., redescribed by COPE, P. Amer. Phil. Soc. xxiii, 1894, p. 102.

Geophagus gymnocephalus, Hens., and *brasiliensis*, Q. & G., redescribed ; COPE, t. c. pp. 103 & 106. *G. camurus*, p. 104, pl. ix, fig. 17, and *brachyurus*, p. 105, pl. ix, fig. 18, n. spp., id. t. c., Rio Grande do Sul.

Retroculus, n. g., allied to *Acaropsis*, Stdr., for *R. boulengeri*, n. sp. ; EIGENMANN & BRAY, t. c. p. 614, E. Brazil.

Xequidens, n. subg. of *Astronotus*, Sw. ; EIGENMANN & BRAY, t. c. p. 616.

Chromis niloticus, Hasselq., redescribed and figured by PFEFFER, Jahrb. Hamburg. Anst. x, 1893, p. 149, pl. iii, figs. 1, 2, & 4. *C. vorax*, n. sp. ; id. t. c. p. 151, pl. ii, figg. 9-11, Mozambique. *C. squamipinnis*, Gthr., redescribed and figured by GÜNTHER, P. Zool. Soc. London, 1893, p. 621, pl. liii (1894). *C. subocularis*, p. 621, pl. liv, fig. b, *johnstoni*, p. 622, pl. liv, fig. a, *lethrinus*, p. 622, pl. lv, fig. a, *tetraستigma*, p. 623, pl. liv, fig. c, *callipterus*, p. 623, pl. lv, fig. b, *kirkii*, p. 624, pl. lvi, fig. a, and *williamsi*, p. 624, pl. lvi, fig. c, n. spp. ; id. t. c., Lake Nyassa. *C. horei*, p. 630, pl. lviii, fig. a, *tanganicae*, p. 630, fig. *burtoni*, p. 631, pl. lviii, fig. c, and *diagramma*, p. 632, pl. lviii, fig. b, n. spp. ; id. t. c., Lake Tanganyika.

Hemichromis modestus, p. 625, pl. lvii, fig. A, *livingstonii*, p. 625, pl. lvi, fig. B, and *afer*, p. 626, pl. lvii, fig. B, n. spp.; GÜNTHER, t. c., Lake Nyassa.

Ctenochromis pectoralis, p. 153, pl. ii, figs. 3, 4, & 7, and *strigigena*, p. 155, pl. ii, figs. 5, 6, & 8, n. spp.; PFEFFER, t. c. E. Africa.

ANACANTHINI.

GADIDÆ.

On the relation of size to sexual maturity in *Gadus morrhua* and *G. aeglefinus*; HOLT, J. Mar. Biol. Ass. (2) iii, 1893, p. 79.

Gadus callarias: biological notes by PETERSEN, Report of the Danish Biological Station, iii (Copenhagen, 1893), p. 19.

Pollachius chalcogrammus fucensis, n. subsp.: JORDAN & GILBERT, P. U. S. Mus. xvi, 1893, p. 315, Puget Sound, California.

Physiculus argyropastus, n. sp.; ALCOCK, J. Asiat. Soc. Bengal, lxii, 1893, p. 180, pl. ix, fig. 2, Bay of Bengal, 128 fathms.

OPHIDIIDÆ.

Dermatorus trichiurus, Alcock, figured by ALCOCK in Ill. Zool. Investigator, pl. i, fig. 1.

Lamprogrammus niger, Alcock, figured; t. c. pl. i, fig. 2.

Bathyonus glutinosus, Alcock, figured; t. c. pl. i, fig. 3.

Ateleopus septemstriata, Alcock, figured; t. c. pl. ii, fig. 2.

Glyptophidium argenteum, Alcock, figured; t. c. pl. ii, fig. 3.

Paradicrolene multifilis, Alcock, figured; t. c. pl. ii, fig. 4.

Neobythites steaticus, n. sp.; ALCOCK, J. Asiat. Soc. Bengal, lxii, 1893, p. 181, pl. ix, Bay of Bengal, 128 fathms.

Rhizoiketicus, n. g., allied to *Fierasfer*, for *R. carolinensis*, n. sp.; VAILLANT, C.R. cxvii, 1893, p. 745, Caroline I.

MACRURIDÆ.

Macrurus quadricristatus, Alcock, *lophotes*, Alc., *heterolepis*, Alc., *investigatoris*, Alc., and *petersonii*, Alc., figured by ALCOCK, Ill. Zool. Investigator, pl. iii.

Chalinura mediterranea, n. sp.; GIGLIOLI, Zool. Anz. xvi, 1893, p. 344, W. coast of Sardinia.

PLEURONECTIDÆ.

On the migration of the eye; PFEFFER, Verh. deutsch. Zool. Ges. iii, 1894, p. 83.

On minute differences in the asymmetrical parts; M. SACCHI, Atti Soc. Ligustica, iv, 1893, pp. 356-369, pl. xi.

On the stomach ; PILLIET, C.R. Soc. Biol. (9) v, 1893, pp. 881 & 882, and J. Anat. Physiol. xxx, 1894, pp. 61-78.

J. T. CUNNINGHAM & C. A. MACMUNN publish a paper on the coloration of the skins ; P. R. Soc. London, liii, 1893, pp. 384-388, and Phil. Trans. clxxxiv (B), 1893, pp. 765-812, pls. liii-lv; also J. T. CUNNINGHAM, J. Mar. Biol. Ass. (2) iii, 1893, pp. 111-118.

Rhombus maximus, Cuv. : on the egg and early larva ; HOLT, Rep. Brit. Ass. 1892, pp. 772 (1893).

Arnoglossus laterna, Walb., recorded from the coast of Boulogne by E. CANU, Ann. Stat. Aquic. Boulogne-s.-M. i, 1893, p. 108.

Pleuronectes limanda, L., and *flesus*, L. : biological notes by PETERSEN, Report of the Danish Biological Station, iii (Copenhagen, 1893), pp. 16 & 18.

Aphoristia septemstriata, Alcock, figured by ALCOCK, Ill. Zool. Investigator, pl. ii, fig. 1.

¹ *Caulopsetta*, n. g., for *Pleuronectes scaphus*, Forst. ; GILL, Mem. Ac. Washington, vi, 1893, p. 124.

PHYSOSTOMI.

SILURIDÆ.

T. W. BRIDGE & A. C. HADDON publish a memoir on the air-bladder and Weberian ossicles in the Siluroids ; Phil. Trans. clxxxiv (B), 1893, pp. 65-333, pls. xi-xix.

A. V. KLINCKOWSTRÖM, Anat. viii, 1893, pp. 561-564, figg., has notes on the epiphysis cerebri and parietal foramen in *Callichthys*.

Clarias robecchii, n. sp. ; VINCIGUERRA, Ann. Mus. Genova (2) xiii, 1893, p. 450, Somaliland.

Hemisilurus scleronema, Blkr., recorded from Borneo by BOULENGER, Ann. Nat. Hist. (6) xiii, 1894, p. 247.

² *Diastatomycter*, n. g. [since referred to *Hemisilurus*, Blkr.], for *D. chaperi*, n. sp. ; VAILLANT, Bull. Soc. zool. France, xviii, 1893, p. 61, and N. Arch. Mus. Paris (3) v, 1894, p. 65, pl. ii, fig. 3, Borneo.

Callichrous eugeniusatus, n. sp. ; VAILLANT, tt. cc. pp. 61 & 66, pl. ii, fig. 2, Borneo.

¹ *Anoplectropius*, n. g., near *Pseudeutropius*, Blkr. : VAILLANT, Bull. Soc. Philom. (8) v, 1893, p. 198. *A. henrici*, n. sp., id. t. c. p. 199, Black River, Upper Tonkin.

Bagrus meridionalis, n. sp. ; GÜNTHER, P. Zool. Soc. London, 1893, p. 626 (1894), Upper Shiré river.

Macrones planiceps, C. & V., recorded from Borneo by BOULENGER, t. c.

Liocassis moeschii, Blgr., and *poecilopterus*, C. & V., recorded from Borneo by BOULENGER, Ann. Nat. Hist. (6) xiii, 1894, p. 247. *L. inornatus*, p. 245, and *saravacensis*, p. 246, n. spp. ; id. t. c., Borneo.

Akysis major, n. sp. ; BOULENGER, t. c. p. 246, Borneo.

- Pimeodus nigribarbis*, Blgr., = *P. valenciennis*, Kröy.; EIGENMANN, Ann. N. York Ac. vii, 1894, p. 632.
- Rhamdella straminea*, n. sp.; COPE, P. Amer. Phil. Soc. xxiii, 1894, p. 93, pl. vii, fig. 10, Rio Grande do Sul.
- Brachycephalus mino*, Ham. Buch., recorded from Borneo by BOULENGER, Ann. Nat. Hist. (6) xiii, 1894, p. 247.
- Synodontis nebulosus*, Ptrs., p. 158, and *eurystomus*, Pfeff., p. 159, pl. i, fig. 5, redescribed by PFEFFER, Jahresber. Hamburg. Anst. x, 1893.
- Anoplopterus uranoscopus*, Pfeff., redescribed and figured by PFEFFER, t. c. p. 161, pl. ii, figg. 1 & 2.
- Plecostomus commersonii*, Val., redescribed by COPE, P. Amer. Phil. Soc. xxiii, 1894, p. 99. *P. aspilogaster*, n. sp., id. t. c. p. 100, pl. viii, fig. 14, Rio Grande do Sul.
- Loricaria caerulea*, Hens., redescribed and figured by COPE, t. c. p. 94, pl. viii, fig. 15.
- Hisorotus levior*, p. 95, pl. vii, fig. 12, and *leptochilus*, p. 96, pl. vii, fig. 11, n. spp.; COPE, t. c. Rio Grande do Sul.
- Otocinclus flexilis*, p. 97, pl. vii, fig. 13, and *fimbriatus*, p. 98, pl. ix, fig. 16, n. spp.; COPE, t. c. Rio Grande do Sul.
- Osteogaster*, n. g., for *Corydoras eques*, Stdr.; COPE, t. c. p. 102.

SCOPELIDÆ.

Enchodus lemonnieri, n. sp. (foss.); DOLLO, Bull. Soc. belge Geol. vi, 1893, P.V. p. 185, figg.; Upper Cretaceous, Mons, Belgium.

CYPRINIDÆ.

- On inherited malformations of the head in Cyprinoids; KNAUTHE, Biol. Centralbl. xiii, 1893, p. 766.
- Amyzon brevipinne*, n. sp. (foss.); COPE, P. Ac. Philad. 1893, p. 402, British Columbia.
- Carassius auratus*, on inheritance of monstrous characters; RYDER, t. c. p. 75.
- Carpio kollari*, Heck., hybrid between *Cyprinus carpio* and *C. carassius*; notes by KNAUTHE, Zool. Anz. xvi, 1893, p. 416.
- Crossochilus vittatus*, n. sp.; BOULENGER, Ann. Nat. Hist. (6) xiii, 1894, p. 247, Borneo.
- Barbus zanzibaricus*, Ptrs., note by VINCIGUERRA, Ann. Mus. Genova (2) xiii, 1893, p. 454. *B. macrolepis*, Pfeff., p. 162, pl. i, fig. 1, *oxyrhynchus*, Pfeff., p. 163, pl. i, fig. 2, *nigrolinea*, Pfeff., p. 164, pl. i, fig. 3, and *laticeps*, Pfeff., p. 166, pl. i, fig. 4, redescribed and figured by PFEFFER, Jahresber. Hamburg. Anst. x, 1893. *B. maculatus*, C. & V., redescribed and figured by VAILLANT, N. Arch. Mus. Paris (3) v, 1894, p. 79, pl. i, fig. 1. *B. goniosoma*, Blkr., = *B. maculatus*, C. & V.; PERUGIA, Ann. Mus. Genova (2) xiii, 1893, p. 245. *B.*

- oatesii*, p. 201, *schanicus*, p. 201, *nigrovittatus*, p. 202, and *compressus*, p. 202, n. spp.; BOULENGER, Ann. Nat. Hist. (6) 1893, xii, S. Shan States. *B. strigatus*, p. 247, *pentazona*, p. 248, and *everetti*, p. 248, n. spp.; *id. op. cit.* xiii, 1894, Borneo. *B. allopleurus*, p. 201, and *bonvaloti*, p. 202, n. spp.; VAILLANT, Bull. Soc. Philom. (8) v, 1893, Black River, Upper Tonkin.
- ¹ *Oxybarbus*, n. g., for *Barbus heteronema*, Blkr.; VAILLANT, Bull. Soc. zool. France, xviii, 1893, p. 57.
- Amblyrhynchichthys altus*, n. sp.; VAILLANT, t. c. p. 59, and N. Arch. Mus. Paris (3) v, 1894, p. 84, pl. ii, fig. 1, Borneo.
- Gobio fluviatilis*, Cuv., on abnormal variations in the pharyngeal teeth; KNAUTHE, Biol. Centralbl. xiii, 1893, p. 767.
- Couesius greeni*, n. sp.; JORDAN, P. U. S. Mus. xvi, 1893, p. 313, Fraser River, British Columbia.
- Rhinichthys (Apocope) velifer* and *nevadensis*, n. spp.; GILBERT, North Amer. Fauna, No. 7, 1893, pp. 229 & 230, pl. vi, figg. 1 & 2, Nevada.
- Leptobarbus melanotenia*, n. sp.; BOULENGER, Ann. Nat. Hist. (6) xiii, 1894, p. 249, Borneo.
- Notropis metallicus*, Jord. & Meek, figured by WOOLMAN, Bull. U. S. Fish Comm. x, 1892, pl. lii, fig. 1.
- Opsopaeodus emili*, Hay, and *bollmani*, Gilb., figured by WOOLMAN, t. c. pl. li.
- ¹ *Aphelichthys*, n. g., allied to *Leuciscus*, for *A. lindahlii*, n. sp. (foss.); COPE, P. Ac. Philad. 1893, p. 19, Pliocene (?), Illinois.
- Chondrostoma reiseri*, n. sp.; STEINDACHNER, SB. Ak. Wien, cii, 1893, p. 239, pl. iii, fig. 1, Herzegovina.
- Barilius barnoides*, Vincig., = *B. ornatus*, Sauv.; BOULENGER, Ann. Nat. Hist. (6) xii, 1893, p. 203.
- Leucaspius delineatus*, Sieb., on its oviposition and development; KNAUTHE, Zool. Anz. xvi, 1893, p. 355.
- Alburnus alexandrinus*, n. sp.; STEINDACHNER, SB. Ak. Wien, cii, 1893, p. 240, pl. iii, fig. 3, Egypt. *A. leydigii*, n. n., for a hybrid between *A. lucidus* and *Leucaspius delineatus*; KNAUTHE, Zool. Anz. xvi, 1893, pp. 416 & 448.
- ¹ *Nematabramis*, n. g., of the group *Abramidina*, but with a long maxillary barbel; BOULENGER, Ann. Nat. Hist. (6) xiii, 1894, p. 249. *N. everetti*, n. sp.; *id. t. c.* p. 250, Borneo.
- ¹ *Engraulicypris*, n. g., elongate, cylindrical, like an Anchovy, for *E. pinguis*, n. sp.; GÜNTHER, P. Zool. Soc. London, 1893, p. 626, fig. (1894), Lake Nyassa.
- Homaloptera bilineata*, Blyth, and *H. modesta*, Vincig., recorded from Borneo by BOULENGER, Ann. Nat. Hist. (6) xiii, 1894, p. 251. *H. whiteheadi*, n. sp.; VAILLANT, N. Arch. Mus. Paris (3) v, 1894, p. 92, pl. i, fig. 2, Kina Baloo, Borneo. *H. modiglianii*, n. sp.; PERUGIA, Ann. Mus. Genova (2) xiii, 1893, p. 245, Sumatra.
- Gastromyzon monticola*, Vaill., described and figured by VAILLANT, t. c. p. 94, pl. i, fig. 3 [= *G. borneensis*, Gthr.—REC.].

Nemachilus brevis, n. sp.; BOULENGER, Ann. Nat. Hist. (6) xii, 1893, p. 203, S. Shan States. *N. olivaceus*, p. 250, and *saravacensis*, p. 251, n. spp.; *id. op. cit.* (6) xiii, 1894, Borneo.

Acanthophthalmus borneensis, n. sp.; BOULENGER, t. c. p. 251, Borneo.

Modigliania, n. g., Cobitid., with a large conical papilla on the praeorbital region, for *M. papillosa*, n. sp.; PERUGIA, Ann. Mus. Genova (2) xiii, 1893, p. 246, Sumatra.

CHARACINIDÆ.

Xiphorhamphus brachycephalus, n. sp.; COPE, P. Amer. Phil. Soc. xxxiii, 1894, p. 85, pl. iv, Rio Grande do Sul.

Pseudocorynopoma doriae, Perugia, redescribed by COPE, t. c. p. 86.

Tetragonopterus fasciatus, Cuv., *lacustris*, Lütk., *interruptus*, Lütk., and *obscurus*, Hens., notes by EIGENMANN, Ann. N. York Ac. vii, 1894, pp. 633-635. *T. steindachneri*, n. n. for *T. lineatus*, Stdr. nec Perugia; EIGENMANN, P. U. S. Mus. xvi, 1893, p. 53. *T. rutilus*, Jenyns, redescribed by COPE, P. Amer. Phil. Soc. xxxiii, 1894, p. 87. *T. jacuhensis*, p. 88, pl. vi, fig. 6, *eigenmanniorum*, p. 89, pl. vi, fig. 8, *laticeps*, p. 89, pl. vi, fig. 7, and *pliodus*, p. 90, pl. v, fig. 5, n. spp.; *id. t. c.*, Rio Grande do Sul. *T. luetkenii*, Blgr., is referred to *Chirodon* by HERING, Süßwasserfische v, Rio Grânde do Sul, 1893, p. 22, to *Hemigrammus* by COPE, t. c. p. 91.

Chirodon monodon, n. sp.; COPE, t. c. p. 91, pl. vi, fig. 9, Rio Grande do Sul.

Diapoma, n. g., allied to *Tetragonopterus*, for *D. speculiferum*, n. sp.; COPE, Amer. Natural. xlviii, 1893, p. 67, and t. c. p. 92, pl. v, fig. 4, Rio Grande do Sul.

Chorimycterus, n. g., like *Characidium*, but with two series of teeth in the lower jaw, for *C. tenuis*, n. sp.; COPE, tt. cc. pp. 67 & 86, pl. v, fig. 3, Rio Grande do Sul.

Asiphonichthys, n. g., like *Anacyrtus*, but with imperfect lateral line, for *A. stenopterus*, n. sp.; COPE, Amer. Natural, xlviii, 1894, and P. Amer. Phil. Soc. xxxiii, 1894, p. 85, pl. v, fig. 2, Rio Grande do Sul.

CYPRINODONTIDÆ.

Cyprinodon macularius, Gir.: notes by GILBERT, North Amer. Fauna, No. 7, 1893, p. 232. *C. macularius baileyi*, n. subsp., *id. t. c.* p. 233, Nevada. *C. amazona*, n. sp., EIGENMANN, Ann. N. York Ac. vii, 1894, p. 627, Lower Amazon. *C. orientalis*, n. sp., VAILLANT, Bull. Soc. Philom. (8) v, 1893, p. 203, Black River, Upper Tonkin.

Jordanella florida, Goode & Bean, figured by WOOLMAN, Bull. U. S. Fish Comm. x, 1892, pl. lii, fig. 4.

Haplochilus johnstoni, n. sp., GÜNTHER, P. Zool. Soc. London, 1893, p. 627 (1894), Nyassaland.

Fundulus ocellaris, J. & G., fig. 2, and *seminolis*, Gir., fig. 3, figured by WOOLMAN, Bull. U. S. Fish Comm. x, 1892, pl. lii. *F. guentheri*, 1893. [VOL. XXX.]

n. n. for *F. orthonotus*, Gthr. nec Ptrs. ; FFEFFER, Jahresber. Hamburg Anst. x, 1893, p. 167.

Zygonectes chrysotus, Gthr., figured by WOOLMAN, Bull. U. S. Fish Comm. x, 1892, pl. liii, fig. 1.

Lucania goodei, Jord., figured by WOOLMAN, t. c. pl. liii, fig. 2.

Empetrichthys, n. g., most nearly allied to *Orestias* ; GILBERT, North Amer. Fauna, No. 7, 1893, p. 233. *E. merriami*, n. sp., id. t. c. p. 234, pl. v, between California and Nevada.

Pacilia caudomaculatus, Hens., and *januarius*, Hens. : notes by EIGENMANN, t. c. p. 636. *P. vivipara paræ*, n. var., id. t. c. p. 628, Para. *P. branneri*, n. sp., id. t. c. p. 629, Santarem and Para.

Girardinus iheringii, Blgr., = *G. januarius*, Hens. ; IHERING, Süßwasserfische v. Rio Grande do Sul, 1893, p. 28.

STOMIATIDÆ.

Stomias nebulosus, Alc., figured by ALCOCK, Ill. Zool. Investigator, pl. vii, fig. 1.

SALMONIDÆ.

Salmo salar, L. : biological notes by LÖNNBERG, Bih. Svenska Ak. xviii, 4, No. 2, 1893, p. 10. *S. mykiss aqua-bonita*, n. subsp., JORDAN, P. U. S. Mus. xv, 1892, p. 481, Kern River, California. *S. (Salvelinus) marstoni*, n. sp., S. GARMAN, Science, xxii, 1893, p. 23, Ottawa, Canada.

Oncorhynchus chouicha, Walb. : on its introduction in Lake Castel Gandolfo, Italy ; VINCIGUERRA, Boll. Soc. Rom. Zool. ii, 1893, p. 253.

OSTEOGLOSSIDÆ.

Osteoglossum jardini, n. sp., S. KENT, P. Soc. Queensland, viii, 1892, p. 105, N. Queensland.

CLUPEIDÆ.

Clupea alosa, L. : on the spawning habits ; S. G. WORTH, Bull. U. S. Fish Comm. xi, 1893, p. 201. *C. pilchardus* : on the life-history ; J. T. CUNNINGHAM, J. Mar. Biol. Ass. (2) iii, 1894, pp. 148-153, figg. : on the food ; ROCHE, C.R. Soc. Philom. 1893, No. 13, p. 10. *C. janeiro*, n. n. for *O. brasiliensis*, Stdr. nec Bl. Schn. ; EIGENMANN, Ann. N. York Ac. vii, 1894, p. 627.

ALEPOCEPHALIDÆ.

Narcetes erimelas, Alcock, figured by ALCOCK, Ill. Zool. Investigator, pl. iv, fig. 1.

Alepocephalus bicolor, Alcock, figured ; t. c. pl. iv, fig. 2.

Bathytroctes squamosus, Alcock, figured ; t. c. pl. v, fig. 1.

Aulastomatomorpha phosphorops, Alcock, figured ; t. c. pl. v, fig. 2.

HALOSAURIDÆ.

Halosaurichthys carinicauda, Alc., figured by ALCOCK, Ill. Zool. Investigator, pl. vii, fig. 2.

Halosaurus hoskynii, Alc., figured ; t. c. pl. vii, fig. 3.

Bathypterois guentheri, Alc., figured ; t. c. pl. vii, fig. 6.

Scopelogenys tristis, Alc., figured ; t. c. pl. 7, fig. 7.

GYMNOTIDÆ.

Cryptops, n. g. for *Sternopygus humboldtii*, Stdr. ; EIGENMANN, Ann. N. York Ac. vii, 1894, p. 626.

MURENIDÆ.

E. W. REID, P. R. Soc. London, liii, 1893, pp. 36-41, describes the process of secretion in the skin of the common Eel ; and, Phil. Trans. clxxxiv (B) 1893, pp. 335-365, the electromotive properties of the skin of the same.

Anguilla vulgaris, Turt. : on the capture of a female in ripe condition ; CALDERWOOD, Ann. Nat. Hist. (6) xii, 1893, p. 35.

Conger, Cuv. : on the metamorphoses of *C. vulgaris* and *C. mystax* ; FACCIOLA, Natural. Sicil. xii, 1893, pp. 254, 287, & 309 ; and xiii, 1893, pp. 25 & 56.

Dysomma bucephalus, Alc., figured by ALCOCK, Ill. Zool. Investigator, pl. vi, fig. 1.

Promyallantor purpureus, Alc., figured ; t. c. pl. vi, fig. 2.

Sauromuraenesox vorax, Alc., figured ; t. c. pl. vi, fig. 3.

Coloconger raniceps, Alc., figured ; t. c. pl. vii, fig. 4.

Congromuraena longicauda, Alc., figured ; t. c. pl. vii, fig. 5. *C. squaliceps*, n. sp., ALCOCK, J. Asiat. Soc. Bengal, lxii, 1893, p. 183, Bay of Bengal, 128 fathms.

Leptocephali : further notes by GRASSI & CALANDRUCCIO, Atti Acc. Lincei, cxc, 1893, p. 450.

PLECTOGNATHI.

F. HILGENDORF, SB. nat. Fr. 1893, p. 3, remarks on the structure of the teeth in *Orthagoriscus*.

Orthagoriscus mola, L. : on a specimen from New Zealand ; W. L. WILLIAMS, Tr. N. Zealand Inst. xxv, 1893, p. 110, pl. viii A : on one from the coast of Portugal ; A. A. GIRARD, Ann. Sci. nat. (Porto) i, 1894, p. 31.

Chilomycterus californiensis, Eigenm., described and figured by EIGENMANN, P. U. S. Mus. xv, 1892, p. 485, pl. lxxxi.

ASPIDOCEPHALI.

On the primordial cranium of *Thyestes*; ROHON, Zool. Anz. xvii, 1894, p. 51.

GANOIDEI.

- C. HASSE, Zeitschr. wiss. Zool. lvii, 1893, pp. 76-96, pls. v & vi, writes on the development and structure of the vertebral column in Ganoids.
- On the great sympathetic nervous system of the Sturgeon; R. CHEVREL, C.R. cxvii, 1893, pp. 441-443.
- H. F. E. JUNGERSEN, Vid. Medd. 1893, pp. 188-203, pl. ii, contributes to the embryology of *Acipenser sturio*.
- On the development of the head of *Acipenser sturio*; C. v. KUPFFER, Studien zur vergleichenden Entwicklungsgeschichte des Kopfes der Kranioten, i, 1893.
- On the embryonal kidney of the Sturgeon; JUNGERSEN, Zool. Anz. xvi, 1893, pp. 464-467 & 469-472, fig.
- On the spawning conditions of the Sturgeon; B. DEAN, Zool. Anz. xvi, 1893, pp. 473-475.
- W. E. COLLINGE, P. Birmingham Soc. viii, 1893, pp. 263-272, 5 pls., writes on the lateral canal system of *Lepidosteus osseus*.
- On the lymphatic and enteric epithelium of *Amia calva*; G. S. HOPKINS, Wilder Quart.-Cent. Book, pp. 367-382, 2 pls.
- Amia kehreri*, n. sp. (foss.); ANDREÆ, Verh. Ver. Heidelb. (2) v, 1893, p. 9, Miocene, Messel, Germany.
- Caturus angustus*, Ag. (foss.), described and figured by A. S. WOODWARD, Ann. Nat. Hist. (6) xii, 1893, p. 398, pl. xviii, fig. 1.
- Lepidosteus strausi*, Kink. (foss.): note by ANDREÆ, Verh. Ver. Heidelb. (2) v, 1893, p. 7, fig.
- Athrodon*, Sauv.: a revision of the species, by A. S. WOODWARD, Geol. Mag. (3) x, 1893, p. 433, pl. xvi. *A. intermedius*, p. 434, fig. 1, Purbeck, England, *crassus*, p. 435, fig. 2, Cambridge Greensand, and *tenuis*, p. 435, fig. 3, Lower Senonian, Belgium, n. spp.; *id. t. c.*
- Anomæodus*, Forir: genus diagnosed by A. S. WOODWARD, Geol. Mag. (3) x, 1893, p. 488. *A. superbus*, p. 489, pl. xvi, fig. 5, Cenomanian, Cambridgeshire, and *willetti*, p. 489, pl. xvii, fig. 1, Turonian, Sussex, n. spp.; *id. t. c.*
- Calodus inaequidens*, p. 491, pl. xvii, fig. 5, Cenomanian, Cambridgeshire, and *fimbriatus*, p. 491, pl. xvii, fig. 6, Turonian, Kent, n. spp.; A. S. WOODWARD, *t. c.*
- Gyrodus punctatus*, Ag. (foss.), described and figured by A. S. WOODWARD, Ann. Nat. Hist. (6) xii, 1893, p. 400, pl. xviii, figg. 2-4.
- Phæbodus brodiei*, n. sp. (foss.); A. S. WOODWARD, *t. c.* p. 282, Upper Keuper, Warwickshire.
- Lepidotus*, Ag. (foss.): on the skull; A. S. WOODWARD, P. Zool. Soc. London, 1893, p. 560, figg. *L. latifrons*, n. sp., *id. t. c.*, Oxford Clay,

- Peterborough. *L. francottei*, n. sp., DAIMERIES, Ann. Soc. malac. Belgique (2) vii, 1893, Bull. p. xv, Eocene, Brussels.
- Acipenser cretaceus*, n. sp. (foss.), DAIMERIES, Ann. Soc. malac. Belgique (2) vii, 1893, Bull. p. xvi, Folx-les-Caves, Belgium.
- Dapidius*, Ag. (foss.) : on the skull ; A. S. WOODWARD, t. c. p. 563.
- ¹ *Trissolepis*, n. g., for *Sphaerolepis kounoviensis*, Fritsch ; A. FRITSCH, Fauna d. Gaskohle, iii, p. 76, pls. cix-cxii (1893).
- Dictyopyge* (?) *draperi*, n. sp. (foss.) ; A. S. WOODWARD, Ann. Nat. Hist. (6) xii, 1893, p. 393, pl. xvii, fig. 1, Karoo Formation, S. Africa.
- Atherstonia minor* and *seeleyi*, n. spp. (foss.) ; A. S. WOODWARD, t. c. pp. 395 & 396, pl. xvii, figg. 2 & 3, Karoo Formation, S. Africa.
- ¹ *Ganolepis*, n. g. (*Palaeoniscidae*), allied to *Acrolepis*, *Elonichthys*, and *Gyrolepis* ; A. S. WOODWARD, t. c. p. 286. *G. gracilis*, n. sp. ; *id. t. c.* p. 287, pl. x, figg. 7-9, Permian (?) of Siberia.
- Gyrolepis dubius*, n. sp. (foss.) ; A. S. WOODWARD, t. c. p. 285, pl. x, figg. 10-12, Rhætic of Scania.

CROSSOPTERYGII.

- W. E. COLLINGE, P. Birmingham Soc. viii, 1893, pp. 255-262, 3 pls., has a note on the lateral canal system of *Polypterus*.
- Megalichthys nitens*, n. sp. (foss.) ; A. FRITSCH, Fauna d. Gaskohle, iii, p. 75, pl. lxxxviii, figg. 15 & 16 (1893), Carboniferous, Bohemia.
- Glyptolepis quebecensis*, Whiteaves : note by TRAQUAIR, Geol. Mag. (3) x, 1893, p. 265.
- Eusthenopteron foordi*, Whiteaves : note by TRAQUAIR, t. c. p. 266.

DIPNOI.

- On the vertebral column of the *Dipnoi* ; KLAATSCH, Verh. Anat. Ges. 1893, pp. 130-132.
- W. N. PARKER has a paper on the anatomy and physiology of *Protopterus annectens* ; Tr. Irish Ac. xxx, 1892, pp. 109-230, pls. vii-xvii.
- R. SEMON, in the first part of his "Forschungsreisen in Australien, &c." (Jena : 1893, 4to, 50 pp., 8 pls.), deals with the distribution, life-history, reproduction, and development of *Ceratodus forsteri*. In the introduction to the same work, E. HÆCKEL, pp. xvi-xviii, discusses the phylogenetic position of the *Dipnoi*.
- On the blood vessels of *Ceratodus* ; W. B. SPENCER, Macleay Memorial Vol., pp. 1-34, pls. i-v (1893).
- Ceratodus levissimus*, Miall (foss.) : tooth described and figured by A. S. WOODWARD, Ann. Nat. Hist. (6) xii, 1893, p. 282, pl. x, fig. 1.
- Lepidosiren paradoxa*, Natterer : notes on its occurrence and habits in Paraguay ; J. BOHLS, Nachr. Ges. Gottingen, 1894, p. 80. *L. paradoxa*, Fitz. : notes on specimens from Paraguay ; EHLLERS, t. c. p. 84. *L. articulata*, n. sp., *id. ibid.*, Paraguay.

H. AYERS, Am. Nat. xxvii, 1893, p. 919, continues to regard *Proptopterus* as generically inseparable from *Lepidosiren*.

¹ *Scaumenacia*, n. g., for *Phaneropleuron curtum*, Whiteaves (foss.); TRAQUAIR, Geol. Mag. (3) x, 1893, p. 262.

Dinichthys lincolni, p. 275, Marcellus Shale, *clarki*, p. 279, Cleveland Shale, and *gracilis*, p. 279, Cleveland Shale, n. spp. (foss.); CLAYPOLE, Amer. Geol. xii, 1893.

On the ventral plates of *Holonema* and *Pterichthys*; H. S. WILLIAMS, Amer. J. Sci. (3) xlvi, 1893, p. 285, figg.

O. JAEKEL, SB. nat. Fr. 1893, p. 178, remarks on the structure of the limbs of the Placodermi.

Remarks on the gigantic Placoderms of Ohio; CLAYPOLE, Amer. Geol. xii, 1893, pp. 89-99.

OSTRACODERMI.

Cephalaspis magnifica, n. sp.; TRAQUAIR, Ann. Scott. Nat. Hist. 1893, p. 206, and P. Phys. Soc. Edinb. xii, 1894, p. 269, pl. vii, Old Red Sandstone, Caithness.

ELASMOBRANCHII.

ACANTHODII.

¹ *Traquairia*, n. g. for *Acanthodes pygmaeus*, Fritsch; A. FRITSCH, Fauna d. Gaskohle, iii, p. 50, figg., pls. ciii-cv (1893).

¹ *Protacanthus*, n. g., allied to the preceding, for *P. pinnatus*, n. sp.; A. FRITSCH, t. c. p. 55, figg., pl. cviii, figg. 1 & 2, Carboniferous, Pilsen, Bohemia.

Acanthodes gracilis, Römer, n. var. *bendai*; A. FRITSCH, t. c. p. 64, figg., Carboniferous, Bohemia and Moravia.

SELACHII.

On the spiracular gills of the Selachians; H. VIRCHOW, SB. nat. Fr. 1893, pp. 31-33.

On the structure of the nidamentous gland of the oviduct of Selachians; HENNEGUY, C.R. Soc. Philom. 1893, No. 16, pp. 2 & 3.

On the blood-vessels of the eye in Selachians; H. VIRCHOW, SB. nat. Fr. 1893, pp. 33-37.

W. A. LOCY, J. Morphol. ix, 1894, pp. 115-122, writes on the optic vesicles of Elasmobranchs and their serial relation to other structures on the cephalic plate.

H. RABL-RÜCKHARD, Anat. Anz. viii, 1893, pp. 728-731, figg., writes on the *lobus olfactorius impar* of Selachians.

- J. C. EWART writes on the lateral sensory canals of Selachians (*Læmargus* and *Raia*). Tr. R. Soc. Edinb. xxxvii, 1893, pp. 59–105, pls. i–iii.
- P. MITROPHANOW gives the results of his studies in Selachian embryology, Arch. Zool. exp. (3) i, 1893, pp. 161–220, pls. ix–xiv.
- C. K. HOFFMANN, Morphol. Jahrb. xx, 1893, pp. 289–304, pl. xii, writes on the development of the venous system in Selachians. Remarks by P. MAYER, Anat. Anz. ix, 1893, pp. 185–192.
- On the formation of the medullary groove in the Selachians; W. A. LOCY, J. Morphol. viii, 1893, pp. 367–378, pls. xix.
- P. P. C. HOEK (See TITLES, p. 7) reports on the results of his researches into the development of the excretory organs in Selachians.

ASTEROSPONDYLI.

- Notes on Sharks' Teeth from British Cretaceous Formations; A. S. WOODWARD, P. Geol. Ass. xiii, 1894, pp. 190–200, figg., pls. v & vi.
- On the development of the cloaca in *Pristiurus melanostomus*; OSTROU-MOFF, MT. Stat. Neapel, xi, 1893, pp. 46–54, pls. iii & iv.
- Lamna cornubica*, recorded from Nova Scotia by H. PIERS, P. N. Scotia Inst. (2) i, 1892, p. 184.
- Oxyrhina crassa*, Ag. (foss.), on a tooth from the Red Crag of Suffolk; A. S. WOODWARD, Geol. Mag. (3) xi, 1894, p. 75, fig.
- Acrodus contortus*, n. sp. (foss.), DAIMERIES, Ann. Soc. malac. Belgique (2) vii, 1893, Bull. p. xii, Eocene, Brussels.
- Notidanus muensteri*, Ag. (foss.), described and figured by A. S. WOODWARD, Ann. Nat. Hist. (6) xii, 1893, p. 401, pl. xviii, fig. 5.

TECTOSPONDYLI.

- G. VALENTI, Atti Soc. Toscana, Mem. xii, 1893, pp. 83–98, pl. iii, publishes histological researches on the brain of *Torpedo*.
- On the structure of the electric organ of *Torpedo*; E. BALLOWITZ, Arch. mikr. Anat. xlvi, 1893, pp. 459–468, pls. xxix–xxx.
- J. C. EWART, P. R. Soc. liii, 1893, pp. 388–391, fig., has further notes on the electric organ of the Skate.
- Læmargus microcephalus*, Bl. Schn., on the skull and visceral skeleton; P. J. WHITE, Tr. R. Soc. Edinb. xxxvii, 1893, p. 287, 3 pls.
- Acanthias vulgaris*, Bp., on an anomalous specimen; MAZZA, Atti Soc. Ligustica, iv, 1893, p. 428, pls. xvi & xvii, fig. 2.
- Centrina brunniensis*, n. sp., DOUGLAS-OGILBY, Rec. Austral. Mus. ii, 1893, p. 62, Tasmania.
- Myliobatis pentoni*, n. sp. (foss.); A. S. WOODWARD, P. Zool. Soc. London, 1893, pl. xlviii, Lower Tertiary, Egypt.
- Torpedo ocellata*, Reed, on an anomalous embryo; A. COGGI, Mem. Acc. Bologna (5) ii, 1892, p. 353, pl.

ICHTHYOTOMI.

- E. D. COPE, Amer. Natural. xlvii, 1893, p. 999, writes on the position of the Cladodont Sharks.
- B. DEAN, J. Morphol. ix, 1894, pp. 87-112, pl. vii, deals with the morphology of *Cladoselache*, n. g. (for *Cladodus mirabilis*, Newb., and *A. fyleri*, Newb. [foss.]).
- Symmorium*, n. g., allied to *Cladodus*, Ag., for *S. reniforme* n. sp. (foss.) ; COPE, Amer. Natural. xlvii, 1893, p. 999, Coal Measures of Illinois.

INCERTÆ SEDIS.

Nemacanthus monilifer, Ag., on a spine from the Rhætic ; A. S. WOODWARD, Ann. Nat. Hist. (6) xii, 1893, p. 284, pl. x, fig. 6.

CYCLOSTOMI.

- On the affinities and systematic position of the Marsipobranchii ; G. B. HOWES, P. Liverp. biol. Soc. vi, 1892, pp. 122-147, pls. viii-x.
- G. RETZIUS, Biol. Unters. (2) v, 1893, pp. 55-70, pls. xxiv-xxvii, further contributes to the anatomy of Cyclostomes.
- S. M. GAGE, Wilder Quart.-Cent. Book, pp. 421-493, 7 pls., makes an exhaustive study of the freshwater Lampreys of New York (*Petromyzon branchialis* and *unicolor*).
- On the horny teeth ; M. JACOBY, Arch. mikr. Anat. xlvi, 1894, pp. 117-148, pl. vi.
- On the brain ; R. BURCKHARDT, Anat. Anz. ix, 1893, pp. 152-155, fig.
- On variations in the respiratory organs of *Petromyzon fluviatilis* and *Myxine glutinosa* ; G. B. HOWES, P. Zool. Soc. London, 1893, pp. 730-733, fig. (1894).
- On the pancreas of *Ammocetes* ; C. v. KUPFFER, SB. Ges. Munchen, ix, 1893, pp. 37-58, figg.
- *F. C. STUDNICKA, in a separately-published pamphlet (Prague : 1893) deals with the parietal organs of *Petromyzon planeri*.
- On the development of the vertebral column of Cyclostomes ; C. HASSE, Zeitschr. wiss. Zool. lvii, 1893, pp. 290-305, pl. xvi.
- On the development of the head of *Ammocetes planeri* ; C. v. KUPFFER, Studien zur vergleichenden Entwicklungsgeschichte des Kopfes der Kranioten, ii, 1894.
- J. W. KIRKALDY writes on the head kidney of *Myxine* ; Quart. J. Micr. Sci. xxxv, 1894, pp. 353-359, pl. xxiii.
- On the early stages of segmentation of *Petromyzon marinus* ; F. W. McLURR, Zool. Anz. xvi, 1893, pp. 367, 368, & 373-376.
- On the first stage of the fecundated egg of *Petromyzon fluviatilis* ; K. V. HERFORT, Anat. Anz. viii, 1893, pp. 721-728, figg.

Petromyzon marinus, L., and *fluviatilis*, L., note on the habits, by L. VIEIRA, Ann. Sci. nat. (Porto) i, 1894, No. 2, p. 79, pl. iv. *P. fluviatilis*, L., on individual variations; LÖNNBERG, Bih. Svenska Ak. xviii (4) No. 2, 1893, p. 3. *P. planeri*, Bl., on a hermaphrodite specimen; BEARD, Rep. Brit. Ass. 1892, p. 790 (1893).

Geotria macrostomus, Burm., redescribed and figured by BERG, Ann. Mus La Plata, ii, 1893, Zool. p. 3, pl. i. Note by GILL, Science, xxiii, 1894, p. 30.

Myxine glutinosa, L., on changes in the dentition; BEARD, t. c. p. 789.

Palaeospondylus gunni, Traq. (foss.), further description and figure by TRAQUAIR, P. Phys. Soc. Edinb. xii, 1893, p. 87, pl. i.

LEPTOCARDII.

J. TUCKEY publishes an English translation of HATSCHEK's work on the *Amphioxus* and its development. London : 1893, 8vo, 181 pp., 9 pls.

Chapter II of A. MILNE-MARSHALL'S "Vertebrate Embryology" (London : 1893) deals with *Amphioxus*.

E. HÆCKEL, in the introduction to SEMON'S "Forschungsreisen in Australien, &c." (Jena : 1893, 4to), treats (pp. xiii-xv) of the phylogenetic position of the *Acrania*.

W. B. BENHAM, Quart. J. Micr. Sci. xxxv, 1893, pp. 97-118, pls. vi & vii, has a paper on the structure of the pharyngeal bars of *Amphioxus*. Remarks by J. W. SPENGEL, Anat. Anz. viii, 1893, pp. 762-765.

On the Notochord of *Amphioxus*; B. LWOFF, Zeitschr. wiss. Zool. lvi, 1893, pp. 299-309, pl. xvii.

On a Lancelet from the Bahamas; E. A. ANDREWS, Johns Hopkins Univ. Circ. xii, 1893, p. 104, and Ann. Nat. Hist. (6) xii, 1893, p. 236.

Branchiostoma cultellum, Peters, note by A. WILLEY, Quart. J. Micr. Sci. xxxv, 1894, p. 361.

VI. TUNICATA.

II.—ANATOMY, EMBRYOLOGY, PHYSIOLOGY,
AND GENERAL.

A.—GENERAL.

SEELIGER (25), in the first number of his article *Tunicata*, for Bronn's "Klassen und Ordnungen des Thierreichs," discusses the history of our knowledge of the group, commencing with Aristotle and the ancients, then working up through the Middle Ages and the Renaissance to the zoologists of the eighteenth century, and ending with the establishment of the group *Tunicata*, by Cuvier, Lamarck, and Savigny, in the early years of this century.

BROOKS discusses a number of phylogenetic points, and other matters of wide interest, in his chapter on *Salpa*, in its relations to the evolution of life (4). He also deals with such matters as the primitive pelagic fauna, the primary food supply, the phylogeny of the *Metazoa*, the ancestral

Chordates, and the systematic position and relations of *Salpa*. He declares very emphatically against the views that the *Vertebrata* are derived from Annelids, and that the *Tunicata* are degenerate Vertebrates.

B.—ANATOMY, ETC.

METCALF (18) describes the structure of a new species of *Octacnemus*, obtained by the "Albatross," off Patagonia, which differs in some respects from the "Challenger" forms examined by Moseley & Herdman. He finds that in this case the animals are not solitary, but are connected together by processes in chains, as in *Salpa*. Possibly the "Albatross" specimens are chain individuals, and the "Challenger" ones solitary individuals of the same species.

AMY E. WARIHAM (32) describes and figures the variations in the dorsal tubercle of forty individuals of *Ascidia virginea*. There appear to be two simple forms of tubercle, and several variations from each of these.

HERDMAN (11) gives some details of anatomy in regard to some of the British Simple Ascidians, such as *Forbesella tessellata*.

RITTER (22) gives a detailed account of the structure of the various organs in a new species of *Perophora* from California. He shows that the cells of the test are derived from mesodermal cells which migrate through the ectoderm.

JULIN (14) gives an account of the reproductive organs of *Styelopsis grossularia*.

TODARO (29) describes the structure of the eyes in *Salpæ*, both solitary and aggregated. He maintains the homology of the *Salpa* eyes with the pineal and lateral eyes of Vertebrates. He classifies *Salpæ* into *Brockenterata*, *Orthoenterata*, and *Curioenterata*, according as the intestine forms a loop, a straight line, or a spiral coil.

One of the most important contributions of the year is W. K. BROOKS' work on *Salpa*—first in the form of preliminary notices in the Johns Hopkins University Circular (2, 3, 4), and then in his large, finely illustrated monograph on the genus (5), in which he gives an account of the structure and development both of the sexual and of the asexual forms, along with a very full discussion of theoretical matters.

METCALF gives an account of the structure of the eyes, subneural gland, and central nervous system in *Salpa*, both in his paper in the Zool. Anz. (17), and also as an appendix to Brooks' Monograph of the genus (5). He deals also with the homologies of the nervous system in other groups of the *Tunicata*.

NEWSTEAD (20) discusses the perivisceral cavity of *Ciona*, and considers that it is not the primitive blastocœle, but is rather a modified and enlarged epicardium. He regards the stolons of *Ciona* as modified budding organs.

C.—EMBRYOLOGY.

SALENSKY (23) comes to the conclusion that the sense-vesicle of the Ascidian larva's nervous system is homologous with the epiphysis of Vertebrates, and the Ascidian eye with the parietal eye.

SEELIGER (28) discusses the origin of the cells of the test, and confirms Kowalevsky's results. In *Oikopleura cophocerca*, however, he finds that ectoderm cells pass into the "Haus," and no mesoderm cells. In both *Salpa democratica* and *Clavelina lepadiformis* migrating mesoderm cells were found (see also RITTER, above).

SALENSKY (24) comes to the following conclusions :—(1) The original form of metagenesis in the *Tunicata* is represented in such Synascidian genera as in the larval condition are able to reproduce themselves sexually; (2) Amongst known Synascidians *Distaplia* alone represents an alternation of generations, while the development of the *Didemnidæ* has nothing to do with alternation of generations; (3) The primordial bud of the *Distaplia* larva should be regarded as a transition form between the simple bud and the proliferous stolon of the metagenetic *Tunicata*; (4) The proliferous stolon is derived from the bud which, before separation from the maternal body, began itself to divide or bud; (5) In the oldest metagenetic forms the "nurse," after the production of the sexual generation, viz., the buds, must die; in the further development of metagenesis, the life of the nurse is always more prolonged. *Doliolum* represents in this connection a transition form between the Synascidians and *Salpa*.

The development of *Salpa*, both sexually from the embryo and also asexually by budding from the stolon, is discussed and described very fully by BROOKS (5), as well as the organogeny, and the foetal membranes and appendages.

DAVIDOFF (6) has a short note on the neurenteric canal of the Ascidian embryo.

HJORT (12) treats of the developmental cycle in the Compound Ascidiants; and PIZON (21) also deals with the subject, specially in the *Botryllidæ*.

WILLEY (33), in his Studies on the *Protochordata* (1), comes to the following morphological conclusions:—That the first four primary stigmata of *Ciona*, and probably also of *Ascidia mentula*, &c., represent and are derived from one primitive gill slit, and that three pairs of gill slits are formed altogether in *Ciona*, &c., and that all the stigmata of the adult branchial sac are derived from and represent these six primary stigmata. New transverse rows of stigmata arise by division of the pre-existing transverse rows. The long axis of the adult Ascidian is at right angles to the long axis of the larva. The atrial cavities are ectodermal invaginations. The pyloric gland of the Ascidian is homologous with the hepatic cæcum of *Amphioxus*. *Appendicularia* is, he considers, not a primitive form, but represents a larval Ascidian which has secondarily

become pelagic and progenetic. The fixing point (stolon) is praoral on the anterior lobe, and in *Ciona* the longitudinal muscles converge to it. The pericardium arises from the endoderm of the branchial sac.

In his II "Studies" (34) he has worked at the later development of the nervous system in *Ciona*, and finds it is different from what is described by van Beneden and Julin. He also deals with the closure of the neuro-
porus and the origin of the sense organs in *Ascidia mentula*, and the origin of the neuro-hypophysial system in *Ciona* and in *Clavelina*.

In the III series, WILLEY deals with the position of the mouth in the larvæ of the Ascidiants and *Amphioxus*, and its relations to the neuro-
porus. He considers that the hypophysis of the Ascidiants is represented by the olfactory pit of *Amphioxus*, and that the primitive mouth was dorsal.

GARSTANG (7) corrects an error of Salensky in regard to the development of the stigmata in *Pyrosoma*, which never have their long axes parallel to the endostyle either in adult or embryo.

JULIN (14) gives an account of ovogenesis, spermatogenesis, and fertilization in *Styelopsis grossularia*. He considers the polar bodies to be aborted ova.

D.—PHYSIOLOGY.

From a study of the beating of the heart in *Perophora*, RITTER (22) comes to the conclusion that the reversal is due to regurgitation caused by engorgement of the capillaries.

The nutrition of the *Salpa* embryo, and a number of other more or less physiological matters in connection with *Salpa*, are discussed by BROOKS (5).

III.—GEOGRAPHICAL DISTRIBUTION.

MEISSNER (16) describes specimens of *Ascidia virginea* from the Biological Station at Heligoland, with *Crenella marmorata* imbedded in the test.

HEIDEN (8) records 24 species of Compound Ascidiants from the Island of Minorca, and of these 13 are new species.

BORGERT (1) discusses the synonymy of *Doliolum denticulatum*, and describes a new closely-related species (*D. nationalis*) obtained in the Atlantic during the "Plankton" Expedition.

MŒBIUS (19) records *Cynthia rustica* and *Oikopleura flabellum* from the oyster banks off the German Coast. The former is, however, more probably *Styelopsis grossularia*, which is commonly found on oyster shells in British waters.

METCALF (18) records a new form of *Octacnemus* obtained from a depth of 1050 fathms., off the east coast of Patagonia by the "Albatross." The genus was only previously known from the South Pacific.

TRAUSTEDT (30) describes 3 species of *Doliolum* and 13 species of *Salpa* (2 n. spp.) as having been obtained in the Atlantic by the Plankton Expedition. He also gives tables of the known distribution of the species of *Doliolum* and *Salpa* in the great oceans. TRAUSTEDT also (31) gives records of 20 species of Simple Ascidiants found in Danish seas during the "Haughs" expedition.

KLÆR (15) records 34 species of Simple Ascidiants from Norway, of which 6 are new species. He gives tables of the geographical and bathymetrical distribution. The *Tunicata* of the White Sea are given in a paper by JACOBSSON.

BROOKS (5) gives some information in regard to the geographical distribution of some of the species of *Salpa*.

IV.—SYSTEMATIC.

HERDMAN (11) discusses the synonymy and nomenclature of many of the British and North European Simple Ascidiants, and redescribes and figures some of the older species of Forbes, Alder, and Hancock. He also gives an account of *Styela rustica*, and distinguishes this species from *S. monoceros*, Moller.

TRAUSTEDT (30) considers that *Salpa musculosa*, Herdman, and *S. punctata*, Forskahl, are the solitary and chain forms respectively of the same species. He gives useful synoptical schemes of the species of *Doliolum* and *Salpa*.

RITTER (22) describes a *Perophora*, which seems to form a remarkable transition from "Social" (Clavellinid) to Compound Ascidiants, as the ascidiozooids are sometimes free and at other times completely imbedded in a common test.

THE Recorder thinks it right to state that the same course has been followed this time with regard to Palæontological papers as was pursued last year, viz., new generic and sectional names, when ascertainable, have been recorded in the Systematic part; new species have not always been noted; but references to all important Palæontological papers will be found under the heading Geological, in Sect. II.

II.—ANATOMY, PHYSIOLOGY, &c.

1. GENERAL.

On the distortion of hermaphrodite *Gastropoda*; BOUVIER (39).—Anatomy of *Schizoglossa* [n. g.] *novoseelandica*, Pfr. (*Daudebardia*) ; HEDLEY (159).—Anatomy of *Parmacochlea fischeri* ; HEDLEY (157).—Anatomy of *Paryphanta hochstetteri* ; GODWIN-AUSTEN (135).—Anatomy of *Helicarion adolphi*, Böttg., *Macroclamys minuta*, v. Mart., *Nanina wallacei*, Pfr., *cidaris*, Lam., *nemorensis*, Müll., *rareguttata*, Mouss. *rumphii*, v. d. Busch, *vomer*, v. Mart., *Trochomorpha planorbis*, Less., *costulata*, v. Mart., *Helix (Plectotropis) sumatrana*, v. Mart., *rotatoria*, Busch, (*Rhagada*) *solorensis*, v. Mart., (*Hadra*) *argillacea*, Férv., (*Chloritis*) *crassula*, Phil., *tuba*, Alb., *amphidromus*, *adamsi*, Reeve, *porcellanus*, Mouss., *contrarius*, Müll., *Stenogyra octona*, Chemn., *panayensis*, Pfr., *Clausilia obesa*, v. Mart., *moluccensis*, v. Mart.; WIEGMANN (404).—Anatomy of species of *Vallonia*; STERKI (360).—Anatomy of *Arion flagellus*, n. sp.; COLLINGE (81).—Anatomy of the *Oncidiidæ*; PLATE (296).—Anatomy of *Ancylus lacustris* and *fluvialis*; ANDRÉ (10).—Anatomy of some species of *Doris* and *Chromodoris*; BERGH (19).—Anatomy of *Actæon*; BOUVIER (36-38); PELSENEER (276).—Anatomy of *Gastropteron*; BERGH (17): of *Doridiidæ*; *id.* (18).—Anatomy of *Phyllaplysia lafonti*, Fischer; MAZZARELLI (231).—Anatomy of *Gadinia peruviana*, Gray; PLATE (297).—Anatomy of *Siphonaria*; KOEHLER (194, 195).—Anatomy of *Rhodope verani*; BOEHMIG (26).—Anatomy of *Melongena melongena*; VANSTONE (385).—Anatomy of *Triton*, *Dolium*, and *Strombus*; HALLER (146).—Anatomy of *Coleophysis truncatula*, Brug., and *Ammonicera* [n. g.] *fischeriana*, Monteros.; VAYSSIÈRE (389, 390).—Anatomy of *Neritina*; FISCHER &

CROSSE (125).—Anatomy of *Ephippodonta macdougalli*, Tate ; WOODWARD (415).—Anatomy of *Aplacophora* ; SIMROTH in BRONN (44).—Anatomy of *Chatoderma nitidulum*, Lovén ; WIRÉN, (409) 1892.—Anatomy of *Proneomenia sluteri* ; HEUSCHER (164).

2. SHELL AND INTEGUMENT.

Note on the protoconch of *Orthoceras* ; CLARKE (65).—Coiling of the shell in embryonic *Gastropoda* ; FISCHER (122).—Chitin of *Mollusca* ; KRAWKOW, Zeitschr. Biol. xxix, p. 190.—The chromatophores of *Cephalopoda* ; SAMASSA (312).—Chromato-dilation in *Cephalopoda* is paralysed by the destruction of the sub-oesophageal ganglia : chromatoco-contraction by that of the supra-oesophageal ganglia ; PHISALIX (282).—Peculiar chromatophores (thermoscopic eyes ?) in *Chiroteuthis bonplandi* ; JOUBIN (179).—Reply to criticisms on the question of the chromatophores of *Cephalopoda* ; JOUBIN (181).—Coloured organs on the skin of two species of *Chiroteuthis* ; JOUBIN (182).—Note on the tegument of [*Hyalinia*] *Zonites cellarius* ; ANDRÉ (11).—Development of the cerata in *Æolis* ; DAVENPORT (107).—In *Philine* and *Doridium* a narrow canal leads from the shell cavity to the exterior ; PELSENEER (278).

3. MUSCULAR SYSTEM.

[None.]

4. DIGESTIVE SYSTEM.

On the snout and buccal apparatus of the *Prosobranchiata* ; OSWALD (264 & 265).—The labial palps are employed by *Pelecypoda*, especially *Pholas*, to prevent foreign, inedible substances from entering the digestive system, and to drive such bodies to the exhalent siphon ; COUPIN (86).—Radulae of *Mollusca*, monograph by TROSCHEL (380), completed by THIELE.—Changes during growth in the radula of land *Mollusca* ; STERKI (361).—On the lingual cartilages and cartilaginous tissue in *Gastropoda* and in *Cephalopoda* ; LOISEL (211–213).

5. CIRCULATORY SYSTEM.

The renal circulation of *Helix pomatia* ; GIROD (134).—On the heart of *Aplysia limacina* ; SCHOENLEIN (322).—Circulatory and renal organs of *Chitons* ; PLATE (297).—Heart of *Ostrea* and *Pandora* is in some species traversed by the rectum ; PELSENEER (274).—On a fourth kind of respiratory globulin, δ-achroglobline, in the blood of *Doris* ; GRIFFITHS (143).—Phagocytosis in gills of *Pelecypoda* ; BRUYNE (52).—Defensivo phagocytosis in green Oysters ; PELSENEER (275).

6. RESPIRATORY SYSTEM.

Structure of the gills of *Pelecypoda*; JANSSENS (174).

7. EXCRETORY AND SECRETORY SYSTEM.

Excretory apparatus of *Elysia*; PELSENEER (277).—So-called primitive kidneys of Gastropods; ERLANGER (116).—The organ of the funnel of *Cephalopoda* (Müller's organ) is the equivalent of the pedal mucous pore of *Gastropoda*; JATTA (175).—Phosphorescent organs in *Histioteuthis ruppellii*; JOUBIN (183).

8. NERVOUS SYSTEM.

Structure of the nervous system of *Gastropoda*; NABIAS (254).—Physiological researches into the nervous system of *Eledone moschata*; UEXKÜLL (384).—Histology and anatomy of the nervous centres of some *Pulmonata*; NABIAS (256).—*Acteon* is streptoneurous; BOUVIER (36-38), PELSENEER (276).—Nervous system of *Heteropoda*; PELSENEER (273), [see also Zool. Rec. 1892, Moll. p. 31].—Nervous system of *Nerita polita* and *Navicella porcellana*; BOUTAN (34).—Comparison of the central nervous system of *Pelecypoda* with that of *Gastropoda*; HARDIVILLER (148).—On the nerve fibres of *Pelecypoda*; CHATIN (60).—Ocular nerves of *Spondylus gaederopus*; CHATIN (62).

9. SENSORY SYSTEM.

Sensory organs of *Mollusca*; PELSENEER (279).—Eyes of some *Gastropoda*; PELSENEER (280).—The tentacula are the seat of the olfactory organs in *Helix*; GRIFFITHS (142).—Branchial sensory organs of *Patina pellucida*; THIELE (376).

10. GENERATIVE ORGANS.

Double hectocotylisation in a specimen of *Eledone cirrhosa*; APPELLÖF (12).—Morphology of the generative system in *Testacella*; COLLINGE (79).—Absence of male organs in individuals of *Helix aspersa* and *Arion intermedius*; COLLINGE (75).—Genitalia of *Bulinus acutus* [i.e., *Cochlicella acuta*]; MOSS & PAULDEN (251).—Genitalia of *Achatina mساسica*, *Helix similaris*, *Goudotiana lucubensis*; BRANCSIK, Trencsen term. Evkon. xv, pp. 117, 208 & 209, figg.—Reproductive apparatus of *Elysia*; PELSENEER (277).

11. EMBRYOLOGY.

Embryology of *Gastropoda*; ERLANGER (116).—Development and power of self-fertilization of *Arion ater*; WOTTON (416), SIMROTH (333).—Development of *Umbrella mediterranea*; HEYMONS (165).—Abnormal features in the development of *Cassidaria echinophora*; ERLANGER

(117).—Development of *Haliotis*; BOUTAN (35).—Notes on embryology of *Chiton*; METCALF (241), the ova are fertilized after extrusion.—Structure and segmentation of the egg of *Cyclas cornea*, L.; STAUF-FACHER (353, 354).—Embryology of *Unio complanata*; LILLIE (198).—Embryology of *Ostraea glomerata*; KENT (187).

12. PHYLOGENY AND CLASSIFICATION.

Classification of *Mollusca* after Pelseneer; LAHILLE (197); WOODWARD (414).—Classification of *Ammonites*; BLAKE (24).—On the systematic value of the operculum; MOELLENDORFF (248).—The *Streptoneura* and *Euthyneura* are connected by *Actaeon*, which is streptoneurous; BOUVIER (36-38), PELSENEER (276).—Phylogeny of *Oncidiidae*; PLATE (296) [see also Zool. Rec. 1892, *Moll.* p. 35].—*Rhodope veranii* is most nearly allied to the *Nudibranchiata* in its anatomy, but to the *Turbellaria* in its development, and should form a new class; BOEHMIG (26).—Phylogeny of *Docoglossa*; DALL (95) replies to criticisms by Thiele.

The *Polyplacophora* are finally classified by PILSBRY in TRYON (381), as under:—

I. Superfam. EOPLACOPHORA.

Fam. LEPIDOPLEURIDÆ.

Genus *Lepidopleurus*.

Genus *Hanleya*.

Genus *Hemiarthrum*.

Genus *Microplax*.

II. Superfam. MESOPLACOPHORA.

Fam. ISCHNOCHITONIDÆ.

Subfam. *Ischnochitoninæ*.

Genus *Tonicella*.

Genus *Schizoplax*.

Genus *Cullochiton*.

Genus *Trachydermon*.

Genus *Chaetopleura*.

Genus *Pallochiton*.

Genus *Dinoplax*.

Genus *Ischnochiton*.

Subfam. *Callistoplacinae* (nov.).

Genus *Callistochiton*.

Genus *Nuttallina*.

Genus *Craspedochiton*.

Genus *Angasia*.

Genus *Callistoplax*.

Genus *Ceratozona*.

Fam. MOPALIIDÆ (nov.).

Genus *Mopalia*.

Genus *Placiphorella*.

Genus *Plaxiphora*.

Fam. ACANTHOCHITIDÆ (nov.).

- Genus *Spongiochiton*.
- Genus *Acanthochites*.
- Genus ? *Leptoplax*.
- Genus *Katharina*.
- Genus *Amicula*.
- Genus *Cryptochiton*.

Fam. CRYPTOPLACIDÆ,

- Genus *Cryptoplax*.
- Genus *Choneplax*.

III. Superfam. TELEOPLACOPHORA.

Fam. CHITONIDÆ.

Subfam. *Chitoninæ* (nov.).

- Genus *Chiton*.

Genus *Eudoxochiton*.

Subfam. *Tonicinæ* (nov.).

Genus *Tonica*.

Genus *Acanthopleura*.

Subfam. *Liophurinæ* (nov.).

Genus *Schizochiton*.

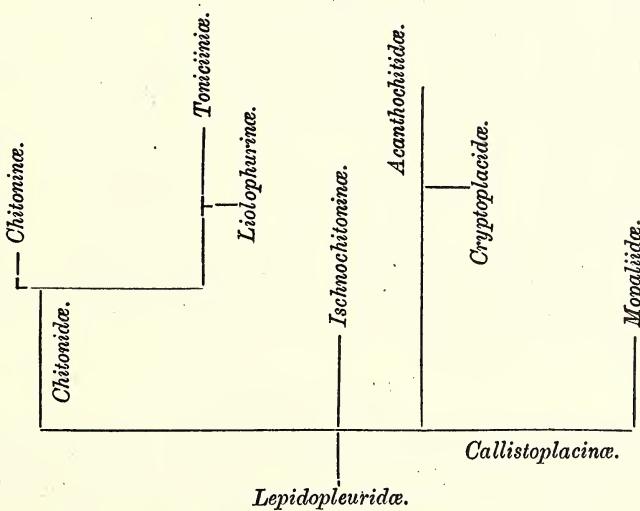

Genus *Lorica*.

Genus *Enoplochiton*.

Genus *Onithochiton*.

Genus *Liophura* (nov.).

PILSBRY further gives the following diagram of the phylogenetic relationship of the families and subfamilies :—

besides other diagrams of the genera, *Ischnochitoninæ*, *Chitonidae*, and *Acanthochitidae*.

SIMROTH (in BRONN, 44) classifies the *Aplacophora* as follows :—

SUBORDER.	FAMILY.	GENERA.
<i>Chaetodermatina</i>	<i>Chaetodermatidae</i>	<i>Chaetoderma</i> .
	<i>Neomeniidae</i>	<i>Neomenia</i> .
		<i>Proneomeniidae</i> .
		{ <i>Solenopus</i> .
		{ <i>Rhopalomenia</i> , n. g.
		{ <i>Macellomenia</i> , n. g.
		{ <i>Dondersia</i> .
		{ <i>Myzomenia</i> , n. g.
		{ <i>Nematomenia</i> , n. g.
		{ <i>Paramenia</i> .
		{ <i>Ismenia</i> .
		{ <i>Lepidomenia</i> .
		(?) <i>Echinomenia</i> , n. g.

Classification of *Pelecypoda* : Fischer's families arranged according to Pelseneer's scheme ; WOODWARD (413).

13. STRAY NOTES.

Principles of Malacology ; WESTERLUND (397).—"Conchology as a popular Science" ; ADAMS, J., Northampton Soc. vii, pp. 204-212.—Influence of environment on the development of *Mollusca* ; LOCARD (204).—Climate and the variation of Slugs ; COCKERELL (70).—Filtration of water by *Mollusca* ; FISCHER (124).—Dispersal of non-marine *Mollusca* ; KEW (1874).—Dispersal of freshwater bivalves by the agency of Vertebrates ; GUERNE (144).—Habits of *Octopus* in captivity ; HORNER (170).—Mode of feeding of *Testacella scutulum* ; WEBB (396).—Life-history of *Arion ater* ; WOTTON (416).—Slugs injuring coffee ; COCKERELL (71).—*Idalia elegans*, Leuck., preys on Tunicates ; PROUHO (302).—Feeding lines of a living land Gastropod on lichen-covered slate ; WOODWORTH, Science, xxi, p. 157. — Food-supply of oyster, clam, and mussel ; LOTSY (218).—Occurrence of *Crenella marmorata*, Forb., in the mantle of *Ascidia virginea*, Müll. ; MEISSNER (233).—"Mimicry" of *Lamellaria perspicua* ; HERDMAN (162).—Seat of colouration in green oysters ; CHATIN (61).—On the causes of viridity in oysters ; JOURDAIN (184).—Teratological conchology ; DAUTZENBERG, Feuille Natural. xxiii, pp. 30 & 31 : *Ibid.*, DAVY, t. c. p. 77.—Historical researches on Printer's shells ; LOCARD (202).

14. ECONOMICS.

Edible *Mollusca* of Southern California ; WILLIAMSON (406).—Oyster-culture in the Black Sea ; STOHL, Congr. Internat. Zool. ii, pt. 2, pp. 28-36.—Oyster-culture at Roscoff ; LACAZE-DUTHIERS, C.R. Ac. Sci. cxvi, pp. 414-419, and cxvii, pp. 428-434.—Pearls from the West of France ; BONNEMÈRE (33).

15. COLLECTION, MUSEUMS, &c.

Beach-shell collecting in connection with oceanic phenomena; WILLIAMSON (407).—Type fossils in the Woodwardian Museum; WOODS, Geol. Mag. 1893, pp. 113–116.—Catalogue of the types and figured specimens in the Geological Department, Manchester Museum; BOLTON, Museum Handbook (*Moll.*) pp. 11–20.

III.—DISTRIBUTION.

GEOGRAPHICAL.

NON-MARINE MOLLUSCA.

a. PALÆARCTIC ZONE.

Unionidae; BOETTGER (27).

1. Septentrional Region.

Vallonia excentrica, declivis (?), n. spp.; STERKI (360).—Notes on some European species of *Arion*; COLLINGE (76).—The *Dreissensiae* of the European system, with alleged new species; LOCARD (201).

British Isles: Notes on the Conchological Society's List; COCKERELL, Sci. Gossip, pp. 15, 16, & 25–28: occurrence of *Arion lusitanicus*, Mab.; COLLINGE (80): theory as to the introduction of *Hydrobia jenkinsi*; ADAMS (1).

England: Derbyshire: *Mollusca* of; MILNES (243).—Herts: shells collected at Much Hadham; ROPE (307).—Kent: list of *Mollusca* near Maidstone; ELGAR & LAMB (114).—Leicester: *Pisidia* near; OLDHAM, J. Conch. vii, p. 167.—Middlesex: varieties of *Helix nemoralis* and *hortensis* near Ealing; BELT (15).—Nottinghamshire: list of Molluscan fauna; DODD (109); GAIN (130).—Warwickshire: *Mollusca* near Rugby; AUSTEN (13).

Scotland: additions to the comital census; ROEBUCK, Ann. Scott. Nat. Hist. 1893, pp. 164–170.—Argyle: *Mollusca* of Oban and the Is. of Lismore; STANDEN & HARDY (352).—Clackmannanshire and Southern Perthshire, conchology of; MACDOUGALL (219).—Inverness: Eigg shells; McMURTRIE (221).—Stirlingshire: list, with notes; MCLELLAN (220).

Ireland: distribution of *Geomalacus maculosus*; SCHARFF (316).—Cork: *Arion flagellus*, n. sp.; COLLINGE (77, 81).—Donegal: *Mollusca* around Portsalon; STANDEN (351).

France: fresh and brackish-water *Mollusca*; LOCARD (199).—Paris: *Mollusca* of the water conduits; LOCARD (203).—France: *Hyalinia*, 3 alleged new species; LOCARD (210).—*Arion occidentalis*, n. sp.? COCKERELL (68).—*Helix nemoralis*, in the Pyrenees; SCHARFF (317).—*Bythiniae*; LOCARD (205).—*Anodonta discoidea, albica, baudoniana*, alleged n. spp.; DROUËT (111).

Finland : *Anodonta planulata, flava*, alleged n. spp. ; DROUËT (111).—Germany : new localities ; GEYER (132) : occurrence of *Limax schwabii*, Frauenf. ; MUELLER (252) : occurrence of *Lithoglyphus naticoides*, C. Pfr., in the Rhine near Wiesbaden ; MARTENS (227).—Bavaria : *Vitrea goldfussi*, n. sp. ; WESTERLUND (398).—Prussia : list of species from Prussian Ober Lausitz ; WOHLBEREDT (411).—Saxony : Molluscan fauna ; NEUMANN (260) : new locality for *Amalia marginata* ; SIMROTH (327).

Lapland : *Sphaerium physale*, n. sp. ; WESTERLUND (398).—Norway : *Pisidium arcticum*, n. sp. ; WESTERLUND (398).—Sweden : *Anodon*, 9 alleged new species ; DROUËT (111).—Russian Transcaspia : fauna with *Buliminus varenzovi*, n. sp. ; ROSEN (308A).—Central Asia : *Buliminus goldfussi*, from Alai Mountains ; KOBELT (193).

2. Circum-Mediterranean Region.

The *Dreissiniae* of the European system with alleged new species ; LOCARD (201).

Spain : *Vitrina tarragonensis, zapateri*, n. spp. ; WESTERLAND (398) : *Unio*, 8 alleged new species ; DROUËT (111).

France : fresh and brackish-water *Mollusca* ; LOCARD (199) : list of terrestrial *Mollusca* from the environs of Bandol (Var) ; CAZIOT (59) : *Helix (Xerophila) bavayi*, alleged new species ; POLLONERA (299) : *Helix*, 5 alleged new species ; LOCARD (208) : *Bythiniae* ; LOCARD (205) : catalogue of the *Mollusca* of the environs of Avignon ; CAZIOT (58).

Italy : *Helix (Iberus) signatus* in the Roman province ; MELI (234) : list of species found in winter at San Remo ; SCHNEIDER (321).—Sardinia : Molluscan fauna ; MARCIALIS (223) : *Helix (Xerophila)*, 2 alleged new species ; POLLONERA (299).—Sicily : *Helix (Xerophila)*, 3 alleged new species ; POLLONERA (299).

Greece : *Zonites labiosus*, n. sp., and *Clausilia*, 5 new species ; WESTERLUND (398) : *Helix*, 2 new species ; KOBELT in ROSSMAESSLER (309) : *Helix coracis*, n. sp., and *Campylea*, 3 new species ; KOBELT (190) : *Unio scissus, mansellianus*, alleged n. spp. ; DROUËT (111).—Corfu : *Helix pantocratoris* ; KOBELT (190).

Crete : *Helix theobaldi* and *Hyalinia heracleensis*, n. spp. ; WESTERLUND (398).

Asia Minor : *Buliminus*, 2 new species, *Unio*, 2 new species ; KOBELT (193) : *Unio bithynicus*, n. sp. ; KOBELT in ROSSMAESSLER (309).

Persia, N.W. : on the Molluscan fauna ; MOELLENDORFF (249).

Syria : *Unio*, 2 alleged new species from the basin of the Orontes ; DROUËT (111).

Palestine : *Helix (Pomatia) moabitica*, n. sp. ; GOLDFUSS (138) : *Buliminus longulus*, n. sp. ; ROLLE (305).

Algeria : Slugs of Algeria with *Amalia cabiliana*, n. sp. ; POLLONERA

(300): *Helix (Xerophila)*, 6 new species ; KOBELT in ROSSMAESSLER (309): *Helix (Xerophila)*, 6 alleged new species; POLLONERA (299): *Helix subaperta*, n. sp., ANCEY (7); also described as *H. mazzulopsis*, Ancey, n. sp., by PILSBRY in TRYON (382) : *Buliminus djurdjurenensis*, ANCEY (5); *Pupa cartennensis*, n. sp., ANCEY (8).

Morocco : *Helix culminicola*, n. sp. ; KOBELT in ROSSMAESSLER (309).

3. Central Asiatic Region.

Turkestan : *Helix (?) sturanyana*, n. sp. ; KOBELT in ROSSMAESSLER (309) : *Buliminus semenovi, annenkovi*, n. spp.; ANCEY (5).

Afghanistan and Beloochistan : list of species, with *Buliminus kayberensis*, n. sp. ; ANCEY (6).

4. Chinese Region.

Tonkin : 8 new species ; DAUTZENBERG (104).—Fauna of Hainan I., 2nd suppt., 4 spp. ; FISCHER (123).

5. Japanese Region.

[None.]

6. Atlantidean Region.

[None.]

b. PALEOTROPICAL AFRICAN ZONE.

7. Central African Region.

Colouration of some East African Slugs ; SIMROTH (330).—East Central Africa : new species, unnamed, of *Atoxon, Stuhlmannia*, n. g. ?, *Vaginula*, 7 new species, only 2 named ; SIMROTH (329).—British Central Africa : 13 new species ; SMITH (334).

8. West African Region.

Species collected by the American expedition ; STEARNS (355).—*Pseudachatina nachtigali*, n. sp. ; KOBELT in MARTINI & CHEMNITZ (228).—Accra : *Oncidiella acrenisis*, n. sp. ; PLATE (296).—Congo : *Spatha corrugata*, n. sp. ; DAUTZENBERG (105).—Gold Coast : *Pseudoglossula abetifiana*, n. sp. ; ROLLE (306).—Grand Bassam : *Ennea bassamensis*, n. sp. ; SMITH (335).—Togoland : list of species, VON MARTENS, Mitth. Forschungsreis. & Gelehr. Deutsch. Schutzgeb. vi, Hft. 3, Kling & Büttner, p. 216.—St. Helena : *Patula sexdentata, perarmata*, n. spp. ; SMITH (345).

9. *South African Region.*

Ennea, 10 new species, *Macrocyclis quekettiana*, *Achatina*, 2 new species, *Stenogyra crawfordi*, *Buliminus*, 3 new species, *Succinea bowkeri*, *Planorbis*, 2 new species ; MELVILLE & PONSONBY (240).—*Patula somersetensis* and *Helix strobiloides*, n. spp., *Pupa*, 7 new species, and *Ennea*, 4 new species ; MELVILLE & PONSONBY (239).—*Veronicella saxicola*, n. sp. ; COCKERELL (66).—Angra Pequena : *Oncidiella maculata*, n. sp. ; PLATE (296).

10. *Malagasy Region.*

Distribution ; COOKE (82).—Madagascar : *Acroptychia albocincta*, n. sp. ; SMITH (343).—Comoro Is. : *Ennea longula*, n. sp., Mayotta Is. ; SMITH (335).—Seychelles : list of species ; DAUTZENBERG (100).

11. *Afro-Arabic Region.*

Abyssinia : *Helix jickeliana*, n. sp. ; KOBELT in ROSSMAESSLER (309).—Arabia : *Helix beadlei*, n. sp. ; PILSBRY in TRYON's Manual (382).

c. PALÆOTROPICAL ORIENTAL ZONE.

12. *Indian Region.*

India : *Peronina*, n. g. (*Oncidiidae*), with *P. alta*, n. sp. ; PLATE (296).

13. *Indo-Chinese Region.*

Annam : 6 new species ; SMITH (340).—Assam, Manipur, and Burmah : *Alycaeus*, 7 new species ; GODWIN-AUSTEN (136).—Burma : *Oncis inspectabilis*, n. sp. ; PLATE (296) : *Clausilia stoliczkanai*, n. sp. ; SYKES (371).—Cambodia : *Parmarion martensi*, n. sp. ; SIMROTH (331).—Laos : *Helix remoratrix*, *Clausilia paviei*, *Glossula paviei*, *Cyclophorus tornatus*, and *Melania dugasti*, n. spp. ; MORLET (250).—Singapore : *Oncis martensi*, n. sp. ; PLATE (296).—Nicobars : *Alycaeus busbyi*, n. sp. ; GODWIN-AUSTEN (136) : *Oncidium nangkauriense*, *simrothi*, n. spp. ; PLATE (296).

14. *Indo-Malay Region.*

Borneo : 27 new species ; SMITH (336) : *Oncidium nigrum*, n. sp. ; PLATE (296) : *Opisthostoma otostoma*, n. sp., *Alycaeus*, 2 new species ; BOETTGER (31) : *Rhiostoma bonalli*, n. sp. ; GODWIN-AUSTEN (137).—Java : *Parmarion weberi*, (*Microparmarión*, n. subg.) *strubelli*, *austeni*, n. spp. ; SIMROTH (331).—Sumatra : *Clausilia*, 2 new species and 1 new var. ; SYKES (369).

15. *Philippine Region.*

Philippines : contribution to the fauna, 146 species, with 34 new species, and 4 new sections ; MOELLENDORFF (246, 247) : a small collection, with 5 new species ; SMITH (338) : *Hemiglypta*, n. g., with 4 new

species ; MOELLENDORFF (247) : *Trochomorpha neglecta* ; PILSBRY in TYRON'S Manual (382) : *Oncidium multinotatum*, *branchiferum*, *Oncis semperi*, *montana*, n. spp. ; PLATE (296).—Luzon: 31 new species belonging to the genera *Vitrinoconus*, *Macrochlamys*, *Kaliella*, *Lamprocystis*, *Bensonia*, *Plectopylis*, *Chloraea*, *Cochlostyla*, *Hapalus*, *Opeas*, *Cyclotus*, *Leptopoma*, *Pupinella*, *Moulinsia*, *Palaina*, *Diplomatina*, *Omphalotropis*, and *Helicina* ; QUADRAS & MOELLENDORFF (303).—Palawan : *Cassidula bicolor*, n. sp. ; GODWIN-AUSTEN (137).

d. AUSTRALIAN ZONE.

HEDLEY (158) considers that the area of distribution of *Placostylus* (viz. : the Austro-Polynesian and Neozelanian Regions with the Solomon Islands) should form a Zoological Province.

16. *Astro-Malay Region.*

Amboina : *Oncidium amboinæ*, *Oncis cæca*, n. spp. ; PLATE (296).—Moluccas : *Macrochlamys martini*, n. sp. ; SCHEPMAN (318) : *Planispira tietzeana*, n. sp. ; ROLLE (305).—New Britain : *Oncis lata*, n. g. and sp. ; PLATE (296).—New Guinea : *Nanina infelix*, n. sp. ; SMITH (342).

17. *Australian Region.*

Baudin Is. (N. W. coast Australia) : *Helix (Gonostoma) baudinensis*, *collingii*, n. spp. ; SMITH (341).—Queensland : observations on the land-snail fauna ; HEDLEY (154).—South Australia : hand list of aquatic Mollusca ; ADCOCK (2).—Victoria : Mollusca fauna of near Castlemaine ; BILLINGHURST (22) : *Oncidiella pachyderma*, n. sp. ; PLATE (296).

18. *Astro-Polynesian Region.*

New Hebrides : *Placostylus alienus*, n. sp. ; PILSBRY (287).

19. *Polynesian Region.*

Sandwich Islands : catalogue of shells ; BALDWIN (14) : monograph of the genus *Carelia*, with 2 new species and description of *Microcystis lymanniana*, n. sp. ; ANCEY (9).

20. *Neozelanian Region.*

New Zealand : reference list, with *Rhenea*, n. n. for *Elea* ; HEDLEY & SUTER (160) : contributions to the Molluscan fauna ; SUTER (366) : observations on the Helices, JHERING (178) ; reply by PILSBRY (289) : *Oncidiella obscura*, n. sp. ; PLATE (296) : the supposed *Leptopoma* probably a *Lagochilus* ; MOELLENDORFF (245).

e. NEANTARCTIC ZONE.

Lists and descriptions of South American *Mollusca*; HIDALGO (166).

f. NEOTROPICAL ZONE.

Lists and descriptions of South American *Mollusca*; HIDALGO (166).

23. Peruvian Region.

Bolivia: *Clausilia boliviiana*, n. sp.; SYKES (370).—Peru: *Clausilia steeriana*, n. sp.; SYKES (370).—Galapagos Is.: report on Molluscan fauna, with complete list; STEARNS (357): 7 new species; DALL (99).

24. Columbian Region.

New Granada: *Clausilia perplexa*, n. sp.; SYKES (370).

25. Brazilian Region.

Brazil: *Unionidae* of Piracicaba, 16 species; NEHRING (258).—*Unionidae* of S. Paulo, with 9 new species, and their geographical distribution; JUERING (176).

26. Mexican Region.

Bulinulus, 4 new species; DALL (94).—Mexico and Central America: MARTEÑS (225); FISCHER & CROSSE (125).—Guatemala: *Otostomus championi*, n. sp.; MARTENS (225).—Lower California: *Mollusca* of, with *Melaniella* ♀ *eiseniana* and *Planorbis*, 2 new species; COOPER (83).—*Bulinulus montezuma*, n. n. for *B. proteus*, Binney, non Brod; DALL (97).—Mexico: *Otostomus*, 2 new species, *Bulinulus durangoanus*, n. sp.; MARTENS (225).—*Unio*, 3 new species, and *Anodonta chalcoensis*, n. sp.; CROSSE & FISCHER (91).—*Anodonta tehuantepecensis*, n. sp.; CROSSE & FISCHER (90).—Nicaragua: *Orthalicus macluræ*, n. sp.; MARTENS (225).—*Thysanophora coloba*, n. sp.; PILSBRY (283).—Panama: *Otostomus bugabensis*, n. sp.; MARTENS (225).

27. Caribbean Region.

Dominica Is.: a collection from; PILSBRY (284).—Jamaica: occurrence of *Agriolimax agrestis*, Linn.; COCKERELL (72).—Little Cayman Is.: *Hemitrochus caymanensis*, n. sp.; MAYNARD in TRYON'S Manual (382).—St. Lucia: *Veronicella luciae*, n. sp.; COCKERELL (66).—Trinidad: *Mollusca* of; GUPPY (145).

g. NEARCTIC ZONE.

Notes on the variation of some North American land *Mollusca*; COCKERELL (74).—North American species of *Succinea*; COCKERELL (73).

28. American Region.

Vallonia excentrica, *parvula*, *perspectiva*, n. spp.; STERKI (360).—Relationships and distribution of the *Unionidae*; SIMPSON (323).—*Mollusca* of N.W. Louisiana and Harrison County, Texas; VAUGHAN (386).—Arkansas: List of species; SAMPSON (314).—Indiana: shells of Henry Co.; PLEAS (298).—Michigan: notes on the shell-bearing *Mollusca*; WALKER (395).—New Mexico: shells from the sand of a dry salt lake at Eddy; STERKI (362).—North Carolina: *Polygyra subpalliata*, n. sp.; PILSBRY (290).

29. Californian Region.

Vallonia cyclophorella, n. sp.; STERKI (360).—Arizona: *Anodonta mearnsiana*, n. sp.; SIMPSON (324).—Colorado: shells of William's Cañon; SAMPSON (313).—Nevada: *Amnicola micrococcus*, n. sp.; PILSBRY in STEARNS (358).

30. Canadian Region.

Canada: *Vallonia albula*, n. sp.; STERKI (360).—Gaspé district: a list of species; HANHAM (147).—British Columbia: shells from Laggan, Rocky Mts.; TAYLOR (375).

MARINE MOLLUSCA.

1. Arctic Province.

Fauna of the Russian Arctic Sea; HERZENSTEIN (163).

2. Boreal Province.

Norway: *Mollusca* of Trondhjem Fiord; NORMAN (262).

3. Celtic Province.

British Isles: additions [mostly varr.] to Somerville's list; MARSHALL (224).—Cornwall: *Mollusca* found near Falmouth; VALLENTIN, J. Inst. Cornwall, xi, pp. 319–324.—Devon: list of *Mollusca* at Teignmouth; BYNE (56).—Essex: living examples of *Crepidula fornicata*; CROUCH (92).—Scotland: *Mollusca* of the upper portion of Loch Linnhe; KNIGHT (188).—North Sea *Cephalopoda* collected on the Norwegian Expedition; APPELLÖF (12).—Sweden: Summary of *Cephalopoda*; LÖNNBERG (215) 1891.—Holland: *Acanthopsole coronata*, Forbes, and *Amphorina aurantiaca*, A. & H., added to fauna; LOMAN (214): *Cephalopoda*; HOEK (168).

4. *Lusitanian Province.*

Cephalopoda collected by the "Melita"; JOUBIN (180).—Cape Verd Is.: *Latirus maximus*, n. sp.; SOWERBY (350); *Ischnochiton nebulosus*, n. sp.; PILSBRY (381).—Portugal: *Ischnochiton obtusus*, n. sp.; PILSBRY (381).—France: additions to the fauna of St. Lunaire (Ille et Vilaine); DAUTZENBERG (106).—*Veneridae* and *Petricolidae* of Roussillon; BUCQUOY and others (54).—*Mollusca* of Bandol (Var); CAZIOT (59); fauna of Granville and St. Pair; DAUTZENBERG (101); *Alexia*, 3 alleged new species; LOCARD (207).—Italy: list of *Mollusca* found at San Remo in winter; SCHNEIDER (321); *Hermaea cremoniana*, n. sp., from the Gulf of Naples; TRINCHESE (379); *Cyerce jheringi*, n. sp., from Naples; PELSENEER (271).—Sardinia: Molluscan fauna; MARCIALIS (223).—Bathymetrical distribution of *Mollusca* in the Black Sea; OSTROUMOV (263).—Tunis: *Littorina nervillei*, n. sp.; DAUTZENBERG (103).

5. *Aralo-Caspian Province.*

Black Sea and Sea of Azov: Molluscan fauna; OSTROUMOV (264).

6. *West African Province.*

West Coast Africa: species collected by the American expedition; STEARNS (355).

7. *South African Province.*

Acanthochites carpenteri, n. sp.; PILSBRY (381).—*Cerithium natalense*, *inaequisculptum*, n. spp.; KOBELT in MARTINI & CHEMNITZ (228).

8. *Indo-Pacific Province.*

[*Cypraea*] *Arabica gillei*, n. sp.; JOUSSEAUME (185).—E. Africa?: *Pleurotoma albovaricosa*, n. sp.; SOWERBY (347).—Zanzibar: *Acanthochites involutus*, n. sp.; PILSBRY (381).—Mascarene Is.: *Cerithium mascarenarum*, n. sp.; KOBELT in MARTINI & CHEMNITZ (228).—Mauritius: *Pleurotoma*, 2 new species, *Daphnella elata*, n. sp., *Defrancia*, 2 new species; SOWERBY (347); *Latirus praestantior*, n. sp.; MELVILL (237); *Columbella sutoris*, n. sp.; KOBELT in MARTINI & CHEMNITZ (228).—Seychelles: list of species; DAUTZENBERG (100).—Red Sea: *Callistochiton heterodon*, n. sp.; PILSBRY (381).—Bombay: list of marine *Mollusca*; MELVILL & ABERCROMBIE (238): 25 new species; MELVILL (236).—Ceylon: *Angasia tetrica*, n. sp.; PILSBRY (381).—Pondicherry: *Sphenia sowerbyi*, n. sp.; SMITH (339).—British Burmah: *Chiton burmanus*, n. sp.; PILSBRY (381).—Penang: *Cancellaria eudeli*, n. sp.; SOWERBY (349); *Scapharca deyrollei, penangana*, n. spp.; JOUSSEAUME (186).—Singapore: *Sphenia inaequalis*, n. sp.; SMITH (339).—Hongkong:

Pleurotoma, 2 new species, *Daphnella*, 2 new species, *Cythara ringens*, n. sp.; SOWERBY (347).—Philippines: *Cerithium citrinoides*, n. sp., KOEBELT in MARTINI & CHEMNITZ (228); *Rissoidae*, 10 new species (*Pachyrissoina* and *Parazebinella*, n. sectt.); *Assiminea*, 2 new species; BOETTGER (28); *Eulimidæ*, 9 new species; BOETTGER (29); *Onoba quadrasi*, n. sp., *Rissoina*, 2 new species; BOETTGER (30).—Rotti Is.: *Cerithidea tenkati*, n. sp.; SCHEPMAN (320).—Australia: synonymy of some Australian *Mollusca*; BRAZIER (43): Catalogue of species of *Murex*; BRAZIER (41): *Pleurotoma huberti*, n. sp.; SOWERBY (347): *Cythara guentheri*, n. sp.; SOWERBY (347): *Rissoina walkeri*, n. sp., from Baudin Is.; SMITH (341): *Euchelus ampullus*, n. sp.; TATE (373): *Chiton miles*, n. sp., from Torres Straits; PILSBRY (381): *Dolium pictum*, n. sp., from "New Holland?"; SCHEPMAN (319): *Plaxiphora excravata*, n. sp., from Australia? PILSBRY (381).—New Ireland: *Chiton pulvinatus*, n. sp.; PILSBRY (381).—Pacific Ocean: *Doridium diomedaeum*, *ocelligerum*, n. spp.; BERGH (18): *Carinaria elata*, n. sp.; SOWERBY (348).—Marquesas Is.: *Chiton marquesanus*, n. sp.; PILSBRY (381).

9. Australo-Zelandic Province.

Catalogue of species of *Murex* of Australia and Tasmania; BRAZIER (41).—Australia: 15 new species and additions to the fauna; TATE (373, 374).—Hand list of aquatic *Mollusca*; ADCOCK (2).—*Pleurotoma walcotæ*, n. sp.; SOWERBY (347).—*Pholas obturamentum*, n. sp.; HEDLEY (153).—New Zealand: *Plaxiphora obtecta*, *Eudoxochiton huttoni*, n. spp.; PILSBRY (381).

10. Japonic Province.

Japan: *Calliostoma crumpii*, n. sp.; PILSBRY (286).—*Isechnochiton cultratus*, *hakodadensis*, *Chiton densiliratus*, n. spp.; PILSBRY (381).—*Teredo iaponica*, n. sp.; CLESSIN in MARTINI & CHEMNITZ (228).

11. Aleutian Province.

Bering Is.: *Placiphorella borealis*, n. sp.; PILSBRY (381).—British Columbia: check list: [NEWCOMBE] (261): notes on some forms, with *Pecten vancouverensis*, n. sp.; WHITEAVES (402).

12. Californian Province.

Rare and little-known forms; STEARNS (356).—*Mitra idæ*, n. sp.; MELVILL (235): *Pallochiton lanuginosus*, *Callistochiton palmulatus*, *crassicostatus*, *Placiphorella velata*, n. spp.; PILSBRY (381): *Yoldia montereyensis*, n. sp.; DALL (98).—Monterey Bay: species obtained; WOOD (412).—Sta. Catalina Is.: *Doridium purpureum*, n. sp.; BERGH (18).

13. *Panamic Province.*

Rare and little known forms; STEARNS (356).—Descriptions and lists of South American *Mollusca*; HIDALGO (166).—Gulf of California: *Nassa brunneostoma*, n. sp.; STEARNS (359); *Acanthochites exquisitus*, *Ischnochiton tridentatus*, *Callistochiton gabbi*, n. spp.; PILSBRY (381); *Clementia subdiaphana*, Cpr., in San Pedro Bay; WILLIAMSON (405).—Mexico: *Callistochiton infortunatus*, n. sp.; PILSBRY (381).—Panama, Bay of: *Navarchus enigmaticus*, n. sp.; BERGH (18); *Acanthochites rhodeus*, n. sp.; PILSBRY (292, 381).—Ecuador: *Callistochiton infortunatus*, n. sp.; PILSBRY (381).—Gallapagos Is.: report on Mollusean fauna, with complete list; STEARNS (357).

14. *Peruvian Province.*

Descriptions and lists of S. American *Mollusca*; HIDALGO (166).—Chili: *Tonicia rubridens*, n. sp.; PILSBRY (381).

15. *Antarctic Province.*

Descriptions and lists of S. American *Mollusca*; HIDALGO (166).

16. *Patagonian Province.*

Descriptions and lists of S. American *Mollusca*; HIDALGO (166).

17. *Caribbean Province.*

Descriptions and lists of S. American *Mollusca*; HIDALGO (166).—Brazil: additional shells from the Southern coast; DALL (96).—Caribbean Sea: *Doridium punctilucens*, n. sp.; BERGH (18).—Jamaica, &c.: *Mollusca* added to the fauna; COCKERELL (69); *Aclesia intrapicta*, n. sp.; COCKERELL (67).—Key West, Florida: *Acanthochites hemphilli* *Callistochiton shuttleworthianus*, n. spp.; PILSBRY (381).

18. *Transatlantic Province.*

E. coast, U. S. A.: shells dredged in 1880, with 10 new species; BUSH (55).—Maine: shells of the Sheepscote River; WINKLEY (408).

GEOLOGICAL.

Fossils of Indiana with many alleged new species, and *Streptodiscus*, n. g. of *Nautilidae*; MILLER (242).—For lists of fossils occurring in Mexico see AGUILERA & ORDOÑEZ, "Datos para la Geología de Mexico." Tacubaya: 1893, 8vo.

Type fossils in the Woodwardian Museum; WOODS, Geol. Mag. 1893, pp. 113–116.—Type fossils in the Manchester Museum; BOLTON, Museum Handbook, (*Moll.*) pp. 11–20.

1. Post-TERTIARY.

British Isles : *Mollusca* from a Pleistocene deposit at Stone, Hants ; REID, Quart. J. Geol. Soc. xlix, p. 325 : *Mollusca* from a Post-tertiary deposit at Selsea, Sussex ; BELL, Rep. Yorksh. Soc. 1892 (1893), pp. 62-65, 1 pl. : list of shells from the Lower Boulder Clay at Heaton, Mersey ; ROEDER, Tr. Manchester Geol. Soc. xxii, pp. 206-210 : *Mollusca* from Pleistocene deposits on either side of the Irish Sea ; BELL, P. Irish Ac. ii, pp. 620-642 : list of Pleistocene *Mollusca* from the ancient lake of Elie, Fifeshire ; SCOTT, P. Phys. Soc. Edinb. xii, pp. 156-170.—Sweden : on *Rissoa parva*, DaC., and other Post-glacial *Mollusca* from Åland ; MUNTHE (253), PETERSEN (281).—France : Pleistocene non-marine shells, near Vendres and Bassan ; BICHE, Bull. Soc. Beziers, xv, pp. 33 & 34 & 36-38.—Germany : *Mollusca* from the Pleistocene Calc-tuf of the Fränkisch Alb and analogous deposits ; SANDBERGER, SB. Ak. Munchen, 1893, pp. 3-16.—Austro-Hungary : *Molluscan* fauna of the Alluvial beds at Mährens ; RZEIIAK, Verh. geol. Reichsanst. 1893, pp. 284 & 285.—Italy : Post-pliocene fossils at Rome ; BASSANI, Rend. Acc. Lincei, ii, pt. i, pp. 347-350.—U.S. : Post-pliocene shells at Belten, Texas ; CRANDALL (88).

2. TERTIARY.

Saccoia, n.g. for *Melania oriza*, Sism., Franco-Italian Tertiaries ; BRUSINA (46).—Tertiary *Mollusca* of the Mediterranean, *Tritoninae* ; GREGORIO (140).—Italy : Tertiary *Mollusca* from the Venetian Alps, with many nom. nud. ; VINASSA DE REGNY, P.-v. Soc. Toscana, viii, pp. 217-223.—Tertiary *Pyramidellidae*, *Ringiculidae*, *Solariidae*, *Scalariidae*, *Conidae*, and *Conorbidae* of Piedmont and Liguria ; SACCO (311).—Switzerland : Tertiary non-marine *Mollusca*, with a few new species ; LOCARD (200).—Austro-Hungary : Fauna of Dubovac, near Karlstadt, Croatia, 2 new species ; BRUSINA (49).—Balkan Peninsular : Tertiary fossils from the Southern Balkans, with new species ; TOULA, Denk. Ak. Wien, lix, pp. 409-478, 6 pls.—N. Africa : Tertiary fossils from Tunis ; THOMAS, Explor. Scient. Tunisie, Descript. Foss. nov. pp. 7-29.—Australia : list of *Mollusca* from the marine Tertiaries of Australia ; TATE & DENNANT, Tr. R. Soc. S. Austral. xvii, pp. 218-225 : *Gastropoda* from the older Tertiary of Australia, with very many new species, and *Heligmope*, n. g. ; TATE, t. c. pp. 316-345, 5 pls.—U.S. : Dates of Conrad's "Fossils of the Tertiary Formation" and "Medial Tertiary" ; DALL (93).

Neogene : *Mollusca* from Bessarabia, with new species ; SINTZOV, Zapiski Novoross. Obsch. xvii, pp. 57-69, figg.

Pliocene : Italy : Pliocene *Pelecypoda* of Upper and Central Italy ; PANTANELLI (267) : *Discophelix castelli*, n. sp., Pliocene of Orciano, Tuscany ; MANTOVANI (222) : Pliocene fossils from Vallebbiaia, Prov. Pisa, a list ; BUSATTI, Atti Soc. Toscana, xii, pp. 75-82 : Pliocene fossils of the Valley of the Aniene ; ANGELIS, Rend. Acc. Lincei, ii, pt. 1, pp. 350-

353.—Austro-Hungary: new fauna discovered in the *Congeria* beds near Agram; BRUSINA (51): *Aphanotylus*, n. g., 3 species from *Lyrceæa* beds of Hungary; BRUSINA (48).—New Zealand: Pliocene *Mollusca*, Catalogue with no new species; HUTTON (171).

Miocene: Germany: *Pelecypoda* from Dingden, with new species; LEHMANN, Verh. Ver. Rheinland, I, pp. 273–294, 1 pl.—Italy: Miocene fossils of Sardinia, *Sepia caralitana*, *lovisatoi*, *Cuspidaria miocenica*, *Lithodomus išilensis*, n. spp.; PARONA (268).—Austro-Hungary: Miocene *Mollusca* from Pulgram and Krauschek; RZEHAK, Verh. Ver. Brunn, xxxi, pp. 46 & 47; from Mähren, many new species, and *Staliopsis*, n. g.; *id. t. c.* pp. 142–192, 2 pls.: new locality for Miocene fossils in Mähren, with list; REDLICH, Verh. Geol. Reichsanst. 1893, pp. 309–317: *Mollusca* from the Miocene beds at Kralitz in Mähren; TOULA, Ann. Hofmus. Wien, viii, p. 290: Upper Pontic fauna of Szegzard, Nagy-Mányok, and Árpád, with many new species; LÖRENTHEY, MT. Ungar. Geol. Anstalt (and Magyar Földt. Int. Evkon.), x, No. 4.—Servia: *Papyrotheca*, n. g., with 3 new species from the Pontic beds; BRUSINA (47).—Siberia: sub-tropical Miocene *Mollusca* from the shores of the Okhotsk Sea, 5 new species; DALL, P. U. S. Nat. Mus. xvi, pp. 471–478.

Oligocene: New species of *Pelecypoda* and 1 *Bulla* from the Tongrian; MAYER-EYMAR (230).—France: non-marine *Mollusca* from the Upper Oligocene of S. W. France, with 16 new species, and *Proplecotrema*, n. g.; DEGRANGE-TOUZIN (108): revision of marine Oligocene fauna of Etampes, *Odontostomia lamberti* and *Truncatella bezanconi*, n. spp.; COSSMANN (84).—Germany: Upper Oligocene *Mollusca* near Dusseldorf; KÖNIGS, Verh. Ver. Rheinland, I, pp. 522 & 523.—Balkan Peninsula: Lower Oligocene fauna of Burgas (Balkans), with few new species; KOENEN, SB. Ak. Wien, Bd. cii, Abth. I, pp. 179–189.

Eocene: France: *Nucula coessmanni*, n. sp., Sables Moyens, Paris basin, hitherto identified as *N. lunulata*, Nyst.; VINCENT (393).—Belgium: additions to the fauna of the Sables de Wemmel in the environs of Brussels; VINCENT, Bull. Soc. malac. Belgique, 1892 (1894) pp. xxxiii & xxxiv.—Germany: Lower Eocene *Pelecypoda* of North Germany, with many new species, and *Triodonta*, n. g.; KOENEN (196).—Austro-Hungary: *Acanthoceras mantelli* in the "Wienersandstein," near Vienna; TOULA (378).—Italy: non-marine *Mollusca* from the Eocene of Vicentia; GREGORIO (139).—U. S.: complementary notes on the Eocene fauna of Alabama, with new species; COSSMANN (85): *Mytilus hamatoides*, n. sp., Eocene of Arkansas; CALL, Rep. Geol. Surv. Arkansas, 1889, ii (1891), p. 202.

3. SECONDARY.

Secondary fossils from the Southern Balkans, with new species; TOULA, Denk. Ak. Wien, lix, pp. 409–478, 6 pls.—Secondary fossils from Madagascar; MEUNIER, Naturaliste, 1893, pp. 175 & 176, figg.

Cretaceous : Note on Aptian *Belemnites*, RENEVIER, Bull. Soc. Vaudois, xxix, pp. 91–95.—Germany : Upper Cretaceous fossils from the Kieslingswalder, with *Scaphites kieslingwaldensis* and *Ostrea diformis*, n. sp., from Jahresh. Glatzer Gebirgs-Vereins, 1891, 12 pp., 6 pls., fol., Breslau.—Austro-Hungary : fossils from the Cretaceous of Bohemia ; FRIČ, Arch. Landesdf. Bohmen, ix, No. 1.—Italy : note on a Cretaceous Ammonite from near Bergamo ; TARAMELLI-TORQUATO, Rend. Ist. Lombardo, xxvi, pp. 200–209.—Russia : Ammonites from the Neocomian of Northern Simbirsk, with *Oxynoticeras*, 2 new species, *Hoplites*, 2 new species ; STCHIROWSKY, Bull. Soc. Moscow, 1893, pp. 369–380, 2 pls. —Africa : Cretaceous fossils from Tunis ; THOMAS, Explor. Scient. Tunisie, Descript. Foss. nov. pp. 7–29.—Neocomian fossils from Somaliland, several new species ; MAYER-EYMAR, Vierteljahrsschr. Ges. Zurich, xxxviii, pp. 253–265, 2 pls.—U. S. : Cretaceous *Mollusca* from near Moorestown, New Jersey : WOOLMAN, P. Ac. Philad. 1893, pp. 219–222. —Cretaceous *Pelecypoda* from near Moorestown, New Jersey ; [WHITFIELD ?], *Nautilus*, vii, pp. 51 & 52 : *Cypraea squyeri*, n. sp., Fox Hills Group, E. Montana ; CAMPBELL (57).—Canada : Cretaceous Ammonites from Athabasca, 4 new species ; WHITEAVES (399).—Cretaceous Ammonites (*Olcostephanus deansii* and *Hoplites haidaquensis*, n. spp.) from Queen Charlotte Is. ; WHITEAVES (401).

Jurassic : Middle Jurassic species of *Sonninia*, with 2 new species, and *Witchellia*, with 5 new species ; HAUG (150).—British Is. : Ammonites of the Inferior Oolite, *Sonninia*, 25 new species ; BUCKMAN (53).—France : *Trigoniae* from the Jurassic of Normandy, with 21 new species ; BIGOT (21, 22) : *Mollusca* from the Sequanian beds at Tonnerre (Yonne), few new species ; LORIOL (217) : Lower Jurassic *Mollusca* of the Southern Jura, with some new species ; RICHE, Ann. Univ. Lyon, vi, Fasc. 3.—Portugal : Jurassic Lamellibranchs, with new species of *Pholadomya* and *Arcomya* and *Goniomeris gaudryi*, n. g. & sp. ; CHOIFFAT (63).—Germany : Upper Jurassic *Mollusca* of N. Germany, with many new species ; FIEBELKORN, Zeitschr. Geol. Ges. xlv, pp. 395–429 : Jurassic *Mollusca* from near Echte, with many new species and list ; SMITH, Jahrb. geol. Landesanst. Berlin, xii, pp. 333–354 : Corallian fossils of Oberbuchsiten, with many new species ; GREPPIN (141) : Ammonites of the Schwabian Jura, with several new species ; POMPECKJ (301).—Switzerland : *Mollusca* from the Corallian beds of the Bernese Jura ; LORIOL (216).—Italy : Inferior Oolite *Mollusca* from Monte Grappa ; FUCINI, P.-v. Soc. Toscana, viii, pp. 225–228.—Balkan Peninsular : Jurassic fossils from the Balkans N. of Sofia, with new species of *Ammonites* ; TOULA, SB. Ak. Wien, Abth i, Bd. cii, pp. 191–206, 1 pl.—Poland : Upper Jurassic *Mollusca*, with many new species ; SIEMIRADZKI, Zeitschr. Geol. Ges. xlv, pp. 110–130.—Russia : *Mollusca* from the Tithonian beds at Theodosia [or Kaffa], Crimea, with many new species, and *Tithonoceras*, n. g. [*Nautilidae*] ; RETOWSKI, Bull. Soc. Moscow, 1893, pp. 206–298, 6 pls. : Jurassic *Mollusca* from the Caucasus, with new species and *Kepplerites*, n. subg. of *Ammonites* ; NEUMAYR & UHLIG, Denk. Ak. Wien, lix, pp. 18–66, figg.

—Africa : Oxford Clay fauna from Mtaru (German E. Africa), with *Macrocephalites*, 4 new species, *Perisphinctes*, 2 new species ; TORNQUIST, Jahrb. Hamburg. Anst. x, pp. 263–268, 8 pls.—U. S. : *Volutoderma woolmani* and *Cerithium pilsbryi*, n. spp., Lower Green Marls, New Jersey; WHITFIELD (403).

Liassic: Portugal : *Ammonitidae* from the Lusitanian of Torres-Vedras, with many new species ; CHOIFFAT (64).—Italy : revision of the Liassic fauna of Gozzano, Piedmont, with *Pseudomelania pennina* and *Gryphaea cristata*, n. spp. ; PARONA, Mem. Acc. Torino, xlivi, pp. 1–19, figg. : Lower Lias of Lombardy, with *Rhynchoteuthis taramellii* and *Aptychus paronae*, alleged new species ; CORTI, Boll. Scient. xv, pp. 18–20, 1 pl. : Lower Lias fossils from Monte S. Giuliano, with 6 new species ; NERI, P.-v. Soc. Toscana, viii, pp. 95–98 : on two Lower Lias Pectens from Longobucco ; FUCINI, t. c. pp. 196–201 : Lower Lias *Mollusca* from the Apuanian Alps and Lunigianian Appennines, with *Anomia apennina* [sic] and *Chemnitzia restiense*, n. spp. ; FUCINI, Atti Soc. Toscana, xii, pp. 305–308, figg.—Rhætic fossils from Monte Cetona (few new species) ; SIMONELLI, Mem. Acc. Bologna, ii, 1891 [i.e., 1893], pp. 223–248, 1 pl.

Triassic : *Cephalopoda*, many new sections, genera, and species ; MOJSISOVICS VON MOJSVAR (244).—British Is. : Triassic *Mollusca* discovered in Warwickshire ; HARRISON, Midland Natural. 1893, pp. 227–229 : Triassic *Mollusca* discovered in Worcestershire, note on the specimens ; NEWTON, Geol. Mag. 1893, p. 557.—Germany : Triassic *Mollusca* of Bavaria, with many new species ; AMMON (3).—Italy : Triassic fossils from near Lagonegro, in the Basilicata, few new species ; LORENZO, Atti Acc. Napoli, v, No. 8 : Triassic fossils from the Dolomite, near Mercato S. Severino, Prov. of Salerno, no new species ; BASSANI, Atti Acc. Napoli, v, No. 9, 1 pl.—Bosnia : Triassic *Cephalopoda*, with 42 new species ; HAUER, Denk. Ak. Wien, lix, pp. 251–296, 15 pls.

4. PRIMARY.

Working list of Palæozoic fossils of Cornwall ; COLLINS, Tr. geol. Soc. Cornwall, xi, pp. 453–466.—Palæozoic fossils from Hérault ; MIGUEL (J.), Bull. Soc. Beziers, 1893, 16 pp. [advance copy].

Carboniferous : *Cephalopoda* of Texas with 12 new species and *Domatoceras*, n. g. ; HYATT (172) : Affinities of *Anthracoptera* and *Anthracomya* ; HIND (167) : *Unio*-like shells (*Asthenodonta westoni*, n. g. & sp.) in the Coal Measures of S. Joggins ; WHITEAVES (400).

Devonian : fauna of the Malevka-Mourayevnia beds, with new species and lists [Russ. with Fr. résumé] ; PEETZ, Trudui St. Peterb. Obshch. xxii, pp. 66–103 : Fauna of St. John's Group, *Styliola primæva*, *Creseis minuta*, *corrugata*, n. spp., and *Orthoceras*, 2 n. spp. ; MATTHEW, Tr. R. Soc. Canada, 4, pp. 104–106, figg., and Bull. Soc. N. Brunswick, x, p. xviii.

Silurian : *Mollusca* from Arisaig, Nova Scotia ; AMI, P. N. Scotia Inst. (2) i, pp. 188–191.—*Mollusca* from Lilydale (Silurian) Limest. with figg. ; CRESSWELL, P. Soc. Victoria, v, p. 41, pl. viii.

Cambro-silurian : *Hyolithidae* with *Orthotheca*, n. subg., and *Conulariidae* with *Torellalla*, n. g. ; many new species ; HOLM (169).

Ordovician : *Gastropoda* of the Trenton Limestone of Manitoba, with *Loxonema winnipegense*, n. sp. ; WHITEAVES, Canad. Rec. v, pp. 317-328, figg.

IV.—SYSTEMATIC.†

Introduction to the study of *Mollusca* ; PELSENEER, Mem. Soc. malac. Belgique, 1892 (1894), pp. 31-243, figg. : also separately.

Recent progress in Conchiology ; WOODWARD, Nat. Sci. iii, pp. 35-39.

Notes on recent researches into the morphology of univalve *Mollusca* ; FISCHER, J. Conchyl. xli, pp. 5-15.

I. CEPHALOPODA.

Summary of Swedish *Cephalopoda* ; LÖNNBERG, Bih. Svenska Ak. xvii (1891), Afd 4, No. 6, 41 pp., 1 pl.

Note on the Chromatophores ; SAMASSA, Verh. Ver. Heidelberg, v, pp. 133-138, fig.—Reply to criticisms on the question of the Chromatophores ; JOUBIN, Arch. Zool. exp. (3) i, pp. 95-103.—Paralysis of the Chromatophores produced by destruction of the nerve ganglia ; PHISALIX, C.R. Ac. Sci. cxvii, pp. 638-640, and C.R. Soc. Biol. v, pp. 887-889.

On the lingual cartilage and cartilaginous tissues ; LOISEL, C.R. Soc. Biol. v, pp. 244-246.

DIBRANCHIATA.

OCTOPODA.

Eledone moschata, Lamk., physiological researches on nervous system ; UEXKÜLL, Zeitschr. Biol. xxviii (1891), pp. 550-566, & xxx, pp. 178-186, & 317-327, 1 pl. *E. cirrhosa*, note on a case of double hectocotylisation ; APPELLÖF, Bergens Mus. Aarbog., Afhandl. i. *Octopus*, habits of, in captivity ; HORNELL, J. Marine Zool. i, pp. 9-11.

DECAPODA.

Chiroteuthis : structure of coloured organs on the skin of two species ; JOUBIN, Mem. Soc. zool. France, vi, pp. 331-343.

C. bonplandi, Vér., peculiar chromatophores in ; JOUBIN, Bull. Soc. zool. France, xviii, pp. 146-151, figg.

Histioteuthis ruppellii, phosphorescent organs ; JOUBIN, C.R. Soc. Biol. v, pp. 142-146, fig.

†*Sepia caralitana*, p. 165, *lovisatoi*, p. 167, n. spp., Miocene, Sardinia, PARONA, Atti Soc. Ital. xxxiv, figg.

† This sign indicates that the reference is palaeontological.

Spirula australis, Lamk., notes on accounts of the animal; GIARD, C.R. Soc. Biol. v, pp. 861-867.

AMMONEA.

Classification of Ammonites; BLAKE, P. Geol. Ass. xiii, pp. 24-39, 2 pls.

—Cretaceous Ammonites from Athabasca, with 4 new species; WHITEAVES, Tr. R. Soc. Canada, x, Sect. iv, pp. 111-121, 4 pls.—

Ammonites of the Schwabian Jura with several new species; POMPECKJ, Jahresh. Ver. Wurttemb. xlix, pp. 151-248, 8 pls.—

Ammonitidae from the Lusitanian of Portugal with many new species; CHOFFAT (64).—Triassic *Ammonea* with many new sections, genera, and species; MOJSISOVICS VON MOJSVAR, Abh. Geol. Reichsanst. vi, Hft. 2.

†*Acanthoceras mantelli*, Sow., in the "Wienersandstein," near Vienna; TOULA, N. Jahrb. Min. 1893, ii, pp. 79-85.

†*Desmoceras affine*, p. 113, *athabascense*, p. 116, n. spp., Cretaceous of Athabasca; WHITEAVES, Tr. R. Soc. Canada, x, Sect. 4, figg.

†*Hecticoceras*, n. g., type *Nautilus hecticus*, Reinecke, with several new species; BONARELLI, Bull. Soc. malac. Ital. xviii, p. 77.

†*Hoplites mconnelli*, p. 117, *canadensis*, p. 118, Cretaceous of Athabasca, WHITEAVES, Tr. R. Soc. Canada, x, Sect. 4, figg.; †*H. haida-quensis*, Queen Charlotte I., WHITEAVES, Canad. Rec. v, p. 444, fig.: n. spp.

†*Kepplerites*, n. subg., type *Ammonites calloviensis*, Sow.; NEUMAYR, Denk. Ak. Wien, lix, p. 53.

†*Olcostephanus deansii*, n. sp., Cretaceous, Queen Charlotte I., WHITEAVES, Canad. Rec. v, p. 442, fig.

†*Oppelia*: note on the group *Nisus* with 3 new species; SARASIN, Bull. Soc. geol. France, xxi, pp. 149-156, figg.

†*Scaphites*: note on the so-called lip; JAHN, Verh. Geol. Reichsanst. 1893, p. 345.

†*Sonneratia*: note on the groups *bicurvatus* and *raresulcatus*, with 2 new species; SARASIN, Bull. Soc. geol. France, xxi, pp. 156-164, figg.

†*Sonninia*: 25 new species; BUCKMANN (53), Pal. Soc. Mon.: Middle Jurassic species, with 2 new species; HAUG, Bull. Soc. geol. France, xx, pp. 277-302, 3 pls.

†*Witchellia*: Middle Jurassic species, with 5 new species; HAUG, Bull. Soc. geol. France, xx, pp. 303-333, figg.

TETRABRANCHIATA.

†*Domatoceras*, n. g., allied to *Centroceras*, for *D. umbilicatum*, n. sp., Carboniferous, Texas; HYATT, Rep. Geol. Surv. Texas, ii, pp. 342 & 343.

†*Orthoceras*: note on the protoconch; CLARKE, Amer. Geol. xii, pp. 112-115, fig. Remarks on the specific characters in *Orthoceras*; FOERSTE, t. c. pp. 232-236, figg.

†*Streptodiscus*, n. n. for *Trematodiscus*, Meek & Worthen; MILLER, advance sheets, 18th Rep. Geol. Surv. Indiana, p. 71. [Miller's name is a synonym for *Cælonutilus*, Foord & Crick, *vide* Geol. Mag. 1893, p. 288.]

†*Tithonoceras*, n. g., for *T. zittelii*, n. sp., Tithonian of the Crimea; RETOWSKI, Bull. Soc. Moscou, 1893, p. 222, fig.

[PTEROPODA : See OPISTHOBRANCHIATA.]

II. GASTROPODA.

On the affinities of the several groups; BOUVIER, C.R. Ac. Sci. cxvi, p. 68.

On the distortion of hermaphrodite *Gastropoda*; BOUVIER, C.R. Soc. Philom. 1893, No. 6, pp. 2-4.

On the lingual cartilages and cartilaginous tissue; JOUBIN, C.R. Soc. Biol. v, pp. 193-196.

Structure of the nervous system; NABIAS, C.R. Soc. Biol. v, pp. 155-163, figg.

Coiling of the shell in embryonic *Gastropoda*; FISCHER, J. Conchyl. xl, pp. 309-313.

Embryology; ERLANGER, Biol. Centralbl. xiii, pp. 7-14.

On the systematic value of the operculum; MOELLENDORFF, Nachrbl. deutsch. malak. Ges. 1893, pp. 136-147.

PULMONATA.

Check-list of the Slugs; COCKERELL, Conchologist, ii, pp. 168-176 & 185-232.

STYLOMMAТОPHORA.

TESTACELLIDÆ.

Ennea calva, p. 157, *atomaria*, p. 159, Tonkin, DAUTZENBERG, J. Conchyl. xli, figg.; *E. distincta*, *regularis*, p. 22, *perspicua*, *collieri*, p. 23, MELVILL & PONSONBY, Ann. Nat. Hist. xi, figg.; *E. crossleyana*, p. 106, *drakensbergensis*, *euthymia*, *maritzburgensis*, p. 107, *pulchella*, p. 108, *socratica*, p. 109, *vandenbroeckii*, p. 110, Natal, *polita*, p. 108, *tharfieldensis*, p. 109, Tharfield [Graham's Town], *vanstaadensis*, p. 110, Van Staaden's Riv. [Port Elizabeth], MELVILL & PONSONBY, op. cit. xii, figg.; *E. johnstoni*, *karongana*, British Central Africa, p. 633, (*Ptychotrema*) *bassamensis*, Grand Bassam, p. 642, (*Edentulina*) *longula*, Mayotte [Comoro Is.], p. 643, SMITH, P. Zool. Soc. London, 1893, figg. : n. spp.

- Hapalus quadrasi*, Luzon, QUADRAS & MOELLENDORFF, Nachrbl. deutsch. malak. Ges. 1893, p. 177, n. sp.
- Paryphanta*: notes on the genus and on the anatomy of *P. hochstetteri*, Pfr.; GODWIN-AUSTEN, P. Malac. Soc. London, i, pp. 5-9, 1 pl.
- ~ *Rhenea*, n. n. for *Elaea*, Hutton, 1884, non Ziegler, 1833; HUTTON in HEDLEY & SUTER, P. Linn. Soc. N. S. Wales, vii, p. 631.
- ~ *Schizoglossa*, n. g., for *Daudebardia novoseelandica*, Pfr., with description of its anatomy; HEDLEY, P. Linn. Soc. N. S. Wales, vii, p. 391, figg.
- Streptaxis (Eustreptaxis) dorri*, Tonkin, DAUTZENBERG, J. Conchyl. xli, p. 160, fig., n. sp.
- Testacella*: morphology of the generative system; COLLINGE, Ann. Nat. Hist. xii, pp. 21-25, 1 pl. *T. scutulum*, mode of feeding; WEBB, Zoologist, xvii, pp. 281-289 & 356, 1 pl.

LIMACIDÆ.

- Agriolimax agrestis*, Linn., in Jamaica; COCKERELL, Nautilus, vii, pp. 21 & 22.
- Amalia cabiliana*, Algeria, POLLONERA, Medit. Natural. iii, p. 424, n. sp.
- † *Ariophanta saucatsensis*, Oligocene, S. W. France, DEGRANGE-TOUZIN, Act. Soc. Bordeaux, xlv, p. 132, figg., n. sp.
- Atoxon*, 8 new species unnamed, SIMROTH, Ber. Ges. Leipzig, 1892-93, pp. 13-17, n. sp.
- Beusonia cardiostoma*, Luzon, QUADRAS & MOELLENDORFF, Nachrbl. deutsch. malak. Ges. 1893, p. 172, n. sp.
- ~ *Coneuplecta*, n. sect. of *Euplecta*, type *E. scalarina*, Pfr.; MOELLENDORFF, Ber. Senckenberg. Ges. 1893, p. 64.
- Conulus fulvus*, Müll., dentate variety; STERKI, Nautilus, vii, pp. 4 & 5.
- C. galapaganus*, Galapagos I., DALL, Nautilus, vii, p. 55, n. sp.
- Euplecta (Pareuplecta) quadrasi*, kochiana, Philippines, MOELLENDORFF, Ber. Senckenberg. Ges. 1893, p. 63, figg., n. spp.
- Helicarion adolfi*, Böttg.: anatomy; WIEGMANN, (404) pp. 114-119, figg.
- ~ *Hemiglypta* n. g., p. 1, type *Helix blainvileana*, Lea, with *Hemiglypta semperi*, p. 11, *connectens*, p. 14, *infrastrigata*, p. 22, *microglypta*, p. 25, MOELLENDORFF, Nachrbl. deutsch. malak. Ges. 1893, n. spp.
- [*Hyalinia*] *Zonites cellarius*: note on the tegument; ANDRÉ, Zool. Anz. xvi, pp. 39 & 40, fig. *Hyalinia pura*, Alder: misplacement of the names of type and variety; NELSON & STANDEN, J. Conch. vii, pp. 151-153.
- H. terveri*, *recta*, p. 110, *exæquata*, p. 111, alleged n. spp., France, LOCARD, Echange, ix; *H. (Polita) heracleensis*, Crete, WESTERLUND, Nachrbl. deutsch. malak. Ges. 1893, p. 118; *H. chathamensis*, Galapagos Is., DALL, Nautilus, vii, p. 54 : n. spp. [See also *Vitreæ* and *Zonites*.]
- Kaliella haiphongensis*, Tonkin, DAUTZENBERG, J. Conchyl. xli, p. 163, fig.; *K. micropetasus*, Luzon, QUADRAS & MOELLENDORFF, Nachrbl. deutsch. malak. Ges. 1893, p. 171; *K. transitans*, p. 68, *tenuisculpta*, p. 69, Philippines, MOELLENDORFF, Ber. Senckenberg. Ges. 1893, figg. : n. spp.

- Lamprocystis chlororhaphes*, Palawan, SMITH, Ann. Nat. Hist. xi, p. 348, figg.; *L. flavescens*, p. 171, *leucosphaerion*, p. 172, Luzon, QUADRAS & MOELLENDORFF, Nachrbl. deutsch. malak. Ges. 1893; *L. pseudosuccinea*, p. 70, *appendiculata*, p. 72, *subcrystallina*, p. 73, Philippines, MOELLENDORFF, Ber. Senckenberg. Ges. 1893, figg. : n. spp.
- Limax cinereo-niger*, Wolf, specific rank of ; ROEBUCK, Ann. Nat. Hist. xi, pp. 225-228. *L. maximus*, L., var. *cinereo-niger*, a reply to Roe-buck ; COLLINGE, t. c. pp. 286 & 287. *L. schwabii*, Frauenf., in Germany, MUELLER, Nachrbl. deutsch. malak. Ges. 1893, p. 197.
- Macrochlamys minuta*, v. Mart., anatomy ; WIEGMANN, (404) pp. 151 & 152, figg.
- M. pseustes*, Palawan, SMITH, Ann. Nat. Hist. xi, p. 348, fig.; *M. promiscua*, Annam, SMITH, P. Malac. Soc. London, i, p. 10, fig.; *M. tenuigranosa*, Tonkin, DAUTZENBERG, J. Conchyl. xli, p. 162, fig.; *M. martini*, Moluccas, SCHEPFMANN, Notes Leyden Mus. xv, p. 149, fig.; *M. cagayanica*, Luzon, QUADRAS & MOELLENDORFF, Nachrbl. deutsch. malak. Ges. 1893, p. 170 : n. spp.
- Microcystis mirmido*, Tonkin, DAUTZENBERG, J. Conchyl. xli, p. 162, fig. ; *M. lymannia*, Sandwich Is., ANCEY, Mem. Soc. zool. France, vi, p. 331 : n. spp.
- Microparmarion*, n. subg. of *Parmarion* [q.v.].

Zonites labiosus, Greece, WESTERLUND, Nachrbl. deutsch. malak. Ges. 1893, p. 118, n. sp. [See also *Hyalinia* and *Vitrea*.]

Zoniidae, notes on some ; STERKI, Nautilus, vii, pp. 13-17.

ARIONIDÆ.

Arión : notes on some European species ; COLLINGE, Conchologist, ii, pp. 113-117. *A. ater*, life history ; WOTTON, Rep. Cardiff Soc. xxiv, pp. 25-30 : development and power of self-fertilization ; WOTTON, J. Conch. vii, pp. 158-167 : remarks on the same ; SIMROTH, t. c. pp. 208 & 209. *A. intermedius*, absence of male organs in an individual of ; COLLINGE, J. Anat. Phys. xxvii, p. 238. *A. lusitanicus*, Mab., occurrence in the British Isles, and descriptions of 4 varieties ; COLLINGE, Ann. Nat. Hist. xii, pp. 414 & 415.

A. flagellus, and anatomy, COLLINGE, Ann. Nat. Hist. xii, pp. 252-254, 1 pl., and Conchologist, ii, p. 157; *A. occidentalis*, "apparently new," Pau (Basses Pyrenees), COCKERELL, J. Conch. vii, p. 192, figg. : n. spp.

Geomalacus maculosus, Allman, distribution in Ireland ; SCHÄRFF, P. Malac. Soc. London, i, pp. 17 & 18, map.

HELICIDÆ.

PATULA GROUP.

Nesophila, n. sect. of *Endodonta*, type *Helix tiara*, Migh. ; PILSBRY in TRYON's Manual, 2nd series, ix, p. 27.

Paratrochus, n. sect. of *Endodonta*, type *E. dalbertisi*, Brazier ; PILSBRY in TRYON's Manual, 2nd series, viii, p. 295.

[*Patula*] *Endodonta (Flammulina) infundibulum*, Hombr. & Jacq., note on ; HEDLEY, Nautilus, vii, p. 35.

Patula somersetensis, S. Africa, MELVILL & PONSONBY, Ann. Nat. Hist. xi, p. 19, fig. ; *P. (Endodonta) sexdentata*, *perarmata*, St. Helena, SMITH, Conchologist, ii, pp. 164 & 165, figg. : n. spp.

Pheuacharopa, n. subg. of *Endodonta*, type *Pupa novoseelandica*, Pfr. ; PILSBRY in TRYON's Manual, 2nd series, ix, p. 29.

Pterodiscus, n. n. for *Tropidoptera*, Ancey, sect. of *Endodonta* ; PILSBRY in TRYON's Manual, 2nd series, ix, p. 36.

Thaumatodon, n. sect. of *Endodonta* = *Pitys*, Pease (in part) ; PILSBRY in TRYON's Manual, 2nd series, ix, p. 26.

Thysanophora coloba, Nicaragua, PILSBRY, P. Ac. Philadelphia, 1893, p. 403, fig., n. sp.

Trochomorpha, anatomy of *T. planorbis*, Less., pp. 152-159, *costulata*, v. Mart., pp. 159 & 160 ; WIEGMANN, (404) figg.

T. neglecta, Philippines, PILSBRY in TRYON'S Manual, 2nd series, viii, p. 124, figg.; *T. (Videna) sericina*, Philippines, MOELLENDORFF, Ber. Senckenberg. Ges. 1893, p. 74, figg. : n. spp.

HELICIDÆ, s.s.

Monograph of the genus *Helix* continued by KOEHL in MARTINI & CHEMNITZ (228), pp. 627-650, pls. clxxxv-clxxxviii.

Lyrodiscus, n. n. for *Lyra*, Mousson, type *Helix circumseissa*, Shuttlew. ; PILSBRY in TRYON'S Manual, 2nd series, ix, p. 48.

Papuina [= *Gestrochus*], notes on; HEDLEY, Nautilus, vii, pp. 73 & 74.

Pella, Albers, is a mixed group, and the name preoccupied : after eliminating species belonging elsewhere, PILSBRY refers the remainder to *Phasis*, Albers, with a new subsect. *Trachycystis* ; TRYON'S Manual, 2nd series, viii, pp. 134 & 135.

Strobilops, n. n. for *Strobila*, Morse, non Sars. ; PILSBRY, P. Ac. Philad. 1892, p. 403 : note on the species ; PILSBRY, Nautilus, vii, pp. 56 & 57.

Trachycystis, n. sect. of *Phasis* = *Pella*, Alb., 'in part' ; type *Helix bimaculata*, Benson ; PILSBRY in TRYON'S Manual, 2nd series, viii, p. 136.

Tropidocochlis, n. g., type *Helix explanata* ; LOCARD, Echange, ix, p. 97.

Valonia: observations on the genus, *V. pulchella* and *costata* are considered distinct species, and "varieties" are described ; also *V. excentrica*, p. 252, Septentrional and American Regions ; *declivis* (?), p. 257, Central Europe ; *albula*, p. 263, Canada ; *parvula*, p. 265, *perspectiva*, p. 271, American Region ; *cyclophorella*, p. 272, Californian Region, n. spp. ; STERKI, P. Ac. Philad. 1893, pp. 234-279, 1 pl. of figg. of radulae and jaws : the new species are also described and figured in TRYON'S Manual, 2nd series, vol. viii, pp. 249-259, pls. xxxii & xxxiii.

(PALÆARCTIC SPECIES.)

Helix aspersa, absence of male organs in an individual of ; COLLINGE, J. Anat. Physiol. xxvii, p. 237. *H. nemoralis*, and white-lipped var. in the Pyrenees ; SCHARFF, J. Conch. vii, p. 157 : HORSLEY, t. c. p. 174. *H. arbustorum*, L., note on its distribution ; KOEHL, Nachrbl. deutsch. malak. Ges. 1893, pp. 87-92. *H. (Campylaea) nicatis*, Costa, note on ; PANTANELLI, Bull. Soc. malac. Ital. xviii, pp. 109 & 110. *H. (Iberus) signatus*, Fér., in the Province of Rome ; MELI, Boll. Soc. Rom. Zool. ii, pp. 242-252. *H. raymondi*, Moq., notes on species of the group ; ANCEY, Naturaliste, 1893, p. 91. *H. (Cochlicella) acuta*, genitalia ; MOSS & PAULDEN, Tr. Manchester Micr. Soc. 1892 (1893), pp. 75-79, 1 pl.

H. (Macularia) pantocratoris, p. 43, Corcyra, *coracis*, (*Campylaea erymanthia*, p. 44, *pterolaka*, p. 45, *eliaca*, p. 46, Greece, KOEHL, Nachrbl. deutsch. malak. Ges. 1893 ; *H. coracis*, p. 50, (*Xerophila*)

salonicana, p. 65, Greece, *mactae*, p. 166, *subsphaerita*, *keratæ*, p. 67, *nedromæ*, *madharica*, p. 69, *batnensis*, p. 73, Algeria, *jickeliana*, Abyssinia, p. 73, (?) *sturanyana*, Turkestan, p. 75, (*Iberus*) *culminicola*, Morocco, p. 78, KOBELT in ROSSMAESSLER'S Iconographie, vi, figg. *H. (Xerophila) inelegans*, p. 29, *impolita*, p. 30, *indigens*, *indefinita*, p. 33, *apparens*, p. 34, *infima*, p. 42, Algeria, *neutra*, p. 35, *himerensis*, p. 36, *drepanitana*, p. 42, Sicily, *bavayi*, p. 38, S. France, *lamarmoræ*, p. 39, *deterior*, p. 44, Sardinia [alleged n. spp.], POLLONERA, Bull. Soc. malac. Ital. xvii, figg.; *H. (Theba) theobaldi*, Crete, WESTERLUND, Nachrbl. deutsch. malak. Ges. 1893, p. 119; *H. (Pomatia) moabitica*, Palestine, GOLDFUSS, t. c. p. 86 : n. spp.
H. subaperta, Djurdjura, Algiers; ANCEY, Bull. Soc. zool. France, xviii, p. 136, fig. Also described as *H. (Pomatia) mazzulopis*, Ancey, n. sp., PILSBRY in TRYON'S Manual, 2nd series, viii, p. 238, fig.; *H. niepcei*, *subfruticum*, *opimata*, *falsani*, *avarica*, S. France [alleged n. spp.], LOCARD, Echange, ix, p. 86. [For n. spp. of *Valonia*, see ante, first section of HELICIDÆ, s. s.]

(PALÆOTROPICAL AFRICAN SPECIES.)

Helix (Pella) whytei, Fort Johnston, Upper Shiré, SMITH, P. Zool. Soc. London, 1893, p. 634, figg.; *H. (Pella) strobilodes*, S. Africa, MELVILL & PONSONBY, Ann. Nat. Hist. xi, p. 19, fig.; *H. (Macrocyklis) queketiana*, Natal, MELVILL & PONSONBY, op. cit. xii, p. 103, fig.; *H. beadlei*, Arabia, PILSBRY in TRYON'S Manual, 2nd series, viii, p. 176, fig. : n. spp.

(PALÆOTROPICAL ORIENTAL SPECIES.)

Helix: anatomy of *H. (Plectotropis) sumatrana*, v. Mart., pp. 160-166, *rotatoria*, Busch., pp. 166-169, (*Rhagada*) *solorensis*, v. Marts., pp. 169-171, (*Hadra*) *argillacea*, Fé., pp. 171-189, (*Chloritis*) *crassula*, Phil., pp. 189-90, *tuba*, Alb., pp. 190 & 191; WIEGMANN (404).
H. (Chloritis) remoratrix, Laos, MORLET, J. Conchyl. xl, p. 317, fig.; *H. (Hadra) pachychilus*, Annam, SMITH, P. Malac. Soc. London, i, p. 11, fig., also described as "*Cumæna pachychila*, Smith," by PILSBRY in TRYON'S Manual, 2nd series, viii, p. 265; [*H.*] *Plectopylis quadrasi*, Luzon, MOELLENDORFF in QUADRAS & MOELLENDORFF, Nachrbl. deutsch. malak. Ges. 1893, p. 172; [*H.*] *Planispira tietzeana*, Halmaheira, Moluccas, ROLLE, t. c. p. 33 : n. spp.

(AUSTRALIAN AND POLYNESIAN SPECIES.)

Helices of New Zealand, observations on; JHERING, Nautilus, vi, pp. 121-124. Reply by PILSBRY, t. c. pp. 129 & 130.
Helix (Gonostoma) baudinensis, p. 97, *collingii*, p. 98, Baudin Is., N.W. Australia, SMITH, Conchologist, ii, figg., n. spp.

(NEOTROPICAL SPECIES.)

Hemitrochus caymanensis, Little Cayman Is., MAYNARD in TRYON'S Manual, 2nd series, viii, p. 241, fig., n. sp.

(NEARCTIC SPECIES.)

[*Helix*] *Polygyra subpalliata*, North Carolina, PILSBRY, Nautilus, vii, p. 7,
n. sp.

[For new species of *Valonia*, see ante, first section of HELICIDÆ, s. s.]

(FOSSIL SPECIES.)

†*Helix (Vallonia) brochoni*, Oligocene, S.W. France, DEGRANGE-TOUZIN,
Act. Soc. Bordeaux, xlv, p. 139, figg., n. sp.

COCHLOSTYLA GROUP.

Chloraea hennigiana, *cristatella*, p. 173, *malleata*, p. 174, Luzon, QUADRAS
& MOELLENDORFF, Nachrbl. deutsch. malak. Ges. 1893, n. spp.

Cochlostyla (Callicochlias) chrysæma, *semperi*, p. 175, *streptostoma*,
(Orustia) pulchella, p. 176, Luzon, QUADRAS & MOELLENDORFF,
Nachrbl. deutsch. malak. Ges. 1893 ; *C. (Hypselostyla) connectens*,
Philippines, MOELLENDORFF, Ber. Senckenberg. Ges. 1893, p. 97,
fig. : n. spp.

ORTHALICIDÆ and BULUMULIDÆ.

Amphidromus : anatomy of *A. adamsi*, REEVE, pp. 191-204, *porcellanus*,
MOUSS, pp. 204-208, *contrarius*, MÜLL., pp. 208-210 ; WIEGMANN (404)
figg.

A. kobelti, hab. ?, ROLLE, Nachrbl. deutsch. malak. Ges. 1893, p. 34 ; *A. costifer*, Annam, SMITH, P. Malac. Soc. London, i, p. 12, fig. : n. spp.
Bulimulus chaperi, CROSSE & FISCHER: note on the animal ; FISCHER,
J. Conchyl. xli, pp. 32 & 33 ; *B. (Pleuropyrgus) habeli*, STEARNS,
figured, P. U. S. Mus. xvi, pl. li.

B. (Nesiota) duncanus, p. 52, *olla*, p. 53, *tortuganus*, *bauri*, p. 54, Galapagos
Is., DALL, Nautilus, vii ; *B. (Scutalus) montezuma*, Lower California,
n. n. for *B. proteus*, BINNEY, non BROD., DALL, t. c. p. 26, figured in
P. U. S. Mus. xvi, pl. lxxii, fig. 1 ; *B. (Scutalus) baileyi*, p. 640,
(Leptobyrus) zeledoni, p. 644, *bryanti (inscendens*, var. COOPER), *veseyi-*
anus, p. 645, Mexican Region, DALL, P. U. S. Mus. xvi, figg. ; *B. durangoanus*, Mexico, MARTENS, Biol. Centr.-Amer. Moll. p. 246,
fig. : n. spp.

Orthalicus [sic] *maclurae*, NICARAGUA, MARTENS, Biol. Centr.-Amer.
Moll. p. 188, fig., n. spp.

Otostomus trimarianus, Mexico, p. 216, *bugabensis*, PANAMA, p. 218, *cham-*
pioni, GUATEMALA, p. 222, *moritinctus*, Mexico, p. 228, MARTENS, Biol.
Centr.-Amer. Moll. figg., n. spp.

Partula : conclusion of catalogue ; HARTMAN, Nautilus, vi, pp. 97-99,
figg.

Placostylus, range of ; HEDLEY, P. Linn. Soc. N.S. Wales, vii, pp. 335-
339. Reprinted Ann. Nat. Hist. xi, pp. 435-439.

P. alienus, New Hebrides, PILSBRY, Nautilus, vi, p. 116, n. sp.

BULIMINIDÆ and PUPIDÆ.

Bifidaria, n. subg. of *Pupa*, type *P. arizonensis*, Gabb., with 5 sections ; STERKI, Nautilus, vi, pp. 4 & 99-101.

Buliminus longulus, Palestine, ROLLE, Nachrbl. deutsch. malak. Ges. 1893, p. 34 ; *B. trojanus, priamus*, Troy, p. 150, (*Chondrula goldfussi*, Alai Mts., Central Asia, p. 151, KOBELT, Nachrbl. deutsch. malak. Ges. 1893 (-also described as n. spp. in ROSSMAESSLER's Iconographie, vi, pp. 81 & 82, figg.) ; *B. varenzovi*, Russian Transcaspia, ROSEN, (308A) p. 178 ; *B. annenkovi*, p. 36, Turkestan, *djurdjurensis*, p. 39, Algiers, *hayberensis*, p. 45, Kayber Pass, ANCEY, Bull. Soc. zool. France, xviii ; *B. (Pachnodus) maritzburgensis*, Natal, *transvaalensis*, p. 105, *jejunus*, p. 106, Transvaal, MELVILL & PONSONBY, Ann. Nat. Hist. xii, figg. : n. spp.

Campolemus, n. g., for *Tomigerus* (?) *peregrinus*, Smith ; PILSBRY, Nautilus, vi (1892), p. 96.

Clausilia, anatomy of, (*Phaedusa*) *obesa*, v. Mart., pp. 224-229, *moluccensis*, v. Mart., pp. 229-231; WIEGMANN (404), figg. *O. vespa*, Gould, and its allies ; SYKES, Conchologist, ii, pp. 165-167, figg. *C. massiei*, Morlet, is a synonym for *C. mouhoti*, Pfr.; SYKES, t. c. pp. 167 & 168. *C. boliviensis*, Bolivia, p. 100, *steeriana*, Peru, *perplexa*, New Granada, p. 101, SYKES, Conchologist, ii, figg. ; *C. (Oospira) stoliczkanæ* [= *C. vespa*, Gould, of Stoliczka], Burma, SYKES, t. c. p. 166, fig. ; *C. ænigmatica*, p. 28, *melvilli*, p. 29, Sumatra, SYKES, P. Malac. Soc. London, i, fig. ; *C. (Strigillaria) mystica*, p. 125, (*Herilla* ?) *peloponnesiaca*, p. 126, (*Papillifera*) *praestans*, p. 127, *subsuturalis*, *sympyta*, p. 128, Greece, WESTERLUND, Nachrbl. deutsch. malak. Ges. 1893 ; *C. paviei*, p. 319, *dautzenbergi*, p. 320, Laos, MORLET, J. Conchyl. xl, figg. : n. spp.

Pupa cartennensis, Algeria, ANCEY, Bull. Soc. zool. France, xviii, p. 138.

P. tubularis, dysorata, quantula, p. 20, *sykesii, haploa, pretoriensis*, p. 21, *griqualandica*, p. 22, MELVILL & PONSONBY, Ann. Nat. Hist. xi, figg. ; further note on *P. dysorata* and *sykesii*, op. cit. xii, p. 111 : n. spp.

STENOGRYRIDÆ, HELICTERIDÆ, and SUCCINEIDÆ.

Achatina mossambica, Mozambique, BRANCSIK in FREY, Trencsen term. Evkon. xv, p. 116 ; fig. of genitalia ; *A. scævola, penestes*, Transvaal, MELVILL & PONSONBY, Ann. Nat. Hist. xii, p. 104, figg. : n. spp.

Achatinidae : monograph begun by KOBELT in MARTINI & CHEMNITZ, (228) pp. 1-56, pls. A & i-xvii.

Carelia : monograph of the genus, with *C. glutinosa*, p. 324, *dolei*, p. 328, n. spp. ; ANCEY, Mem. Soc. zool. France, vi, pp. 321-330.

Glessula paviei, Laos, MORLET, J. Conchyl. xl, p. 321, fig., n. sp.

Melaniella ? *eiseniana*, Lower California, COOPER, P. Calif. Ac. iii, p. 339, fig., n. sp.

- Opeas nitidum*, Luzon, QUADRAS & MOELLENDORFF, Nachrbl. deutsch. malak. Ges. 1893, p. 177, n. sp.
- Pseudachatina nachtigali*, W. Africa, KOEBELT in MARTINI & CHEMNITZ, (228) Achatinidae, p. 12, fig., n. sp.!
- Pseudoglessula abetifiana*, Gold Coast, ROLLE, Nachrbl. deutsch. malak. Ges. 1893, p. 86, n. sp.
- Stenogyra*, anatomy of (*Subulina*) *actona*, Chemn., pp. 210-223, (*Opeas*) *panayensis*, Pfr., pp. 223 & 224; WIEGMANN (404) fig.
- S. cravfordini*, Van Staaden's Riv. [Port Elizabeth], MELVILL & PONSONBY, Ann. Nat. Hist. xii, p. 105, fig., n. sp.
- Succinea*, North American species; COCKERELL, Nautilus, vi, pp. 21-23 & 29-31; vii, pp. 43-46. 33 species enumerated, of which "possibly not more than about half will prove valid."
- S. bowkeri*, Malvern, South Africa, MELVILL & PONSONBY, Ann. Nat. Hist. xii, p. 110, fig.; *S. corbis*, Galapagos Is., DALL, Nautilus, vii, p. 55; *S. philippinica*, Philippines, MOELLENDORFF, Ber. Senckenberg. Ges. 1893, p. 101, figg. : n. spp.

ATHORACOPHORIDÆ, VAGINULIDÆ, and ONCIDIIDÆ.

- An enumeration of the *Janellidæ*; HEDLEY, Tr. N. Zealand Inst. xxv, pp. 156-162.
- Oncidiella steindachneri*, Stearns, figured; P. U. S. Mus. xvi, pl. li.
- O. maculata*, Angra Pequena, p. 201, *accrensis*, Accra, p. 203, *pachyderma*, Victoria, p. 204, *obscura*, New Zealand, p. 207, PLATE, Zool. Jahrb. Anat. vii, figg., n. spp.
- Oncidiidæ*, monograph, with anatomy and descriptions of new genera and species; PLATE, Zool. Jahrb. Anat. vii, pp. 93-234, 6 pls.
- Oncidium lesliei*, Stearns, figured; P. U. S. Mus. xvi, pl. li.
- O. nangkauriense*, p. 170, *simrothi*, p. 174, Nicobars, *amboinæ*, Amboina, p. 177, *giseum*, Polynesia ?, p. 179, *multinotatum*, p. 181, *branchiferum*, p. 183, Manilla, *nigrum*, Borneo, p. 188, PLATE, Zool. Jahrb. Anat. vii, figg., n. spp.
- ↓*Oncis* [nom. preocc. *Onchis* (i.e., *Oncis*), Fér., = *Peronia*, Blainv.], n. g., p. 164, type *O. coriacea*, Semper, with *O. lata*, New Britain, p. 191, *semperi*, p. 192, *montana*, Philippines, p. 194, *martensi*, Singapore, p. 196, *inspectabilis*, Burma, p. 198, *coeca*, Amboina, p. 199; PLATE, Zool. Jahrb. Anat. vii, figg.
- ↓*Peronina*, n. g., p. 166, for *P. alta*, n. sp., India [Madras ?]; PLATE, Zool. Jahrb. Anat. vii, figg.
- Vaginula stuhlmanni*, p. 20 ?, *schnitzleri*, p. 21 ?, and 5 unnamed new species, pp. 22-25 ?, East Central Africa; SIMROTH, Ber. Ges. Leipzig, 1892-93.
- Veronicella saxicola*, p. 216, Port Elizabeth, *luciae*, p. 220, St. Lucia, COCKERELL, Conchologist, ii, n. spp.

BASOMMATOPHORA.

AURICULIDÆ.

- Alexia exilis, parva, ringicula*, Atlantic coast of France, LOCARD, Echange, ix, p. 62, alleged n. spp.
 †*A. benoisti*, Oligocene, S.W. France, DEGRANGE-TOUZIN, Act. Soc. Bordeaux, xlv, p. 149, figg., n. spp.
 †*Blauneria (Solidoma) guestieri*, Oligocene, S.W. France, DEGRANGE-TOUZIN, Act. Soc. Bordeaux, xlv, p. 152, figg., n. sp.
Cassidula bicolor, Palawan, GODWIN-AUSTEN, Ann. Nat. Hist. xii, p. 33 ;
 †*C. orthezensis*, Oligocene, S.W. France, DEGRANGE-TOUZIN, Act. Soc. Bordeaux, xlv, p. 156, n. spp.
 †*Leuconia elegans*, Oligocene, S.W. France, DEGRANGE-TOUZIN, Act. Soc. Bordeaux, xlv, p. 151, figg., n. spp.
 †*Proplecotrema*, n. g., for *Plecotrema marginalis*, Gratel. ; DEGRANGE-TOUZIN, Act. Soc. Bordeaux, xlv, p. 157.

LIMNÆIDÆ and PHYSIDÆ.

- Ancylus fluviatilis* and *lacustris*, anatomy of ; ANDRÉ, Rev. Suisse Zool. i, pp. 427-461, 1 pl.
 †*Limnaea tourouperi*, p. 162, *boettgeri*, p. 163, and 2 species indet., Oligocene, S.W. France, DEGRANGE-TOUZIN, Act. Soc. Bordeaux, xlv, figg., n. spp.
 †*Papyrotheca*, n. g., for *P. mirabilis*, p. 161, *pseudogyra*, p. 162, *contraria*, p. 163, Pontic beds of Servia ; BRUSINA, Conchologist, ii, figg.
Physa karougensis, Karouga, British Central Africa, SMITH, P. Zool. Soc. London, 1893, p. 640, fig., n. sp.
Planorbis bowkeri, crawfordi, Van Staaden's Riv. [Port Elizabeth], MELVILLE & PONSONBY, Ann. Nat. Hist. xii, p. 111, figg. ; *P. (Anisus) anitensis*, p. 341, *peninsularis*, p. 342, Lower California, COOPER, P. Calif. Ac. iii, figg. ; *P. (Gyraulus) quadrasi*, Philippines, MOELLENDORFF, Ber. Senckenberg. Ges. 1893, p. 105, figg. : n. spp.

[For *Gadinia* and *Siphonaria*, see TECTIBRANCHIATA.]

OPISTHOBRANCHIATA.

NUDIBRANCHIATA.

- Morphology of the *Sacoglossa* ; JHERING, Acta Ac. German, lviii, pp. 361-435, 2 pls.
Æolis ; development of the cerata ; DAVENPORT, Bull. Mus. Harvard, xxiv, pp. 141-148, 2 pls.

- Acanthopsole coronata*, Forbes, added to the fauna of Holland ; LOMAN, Tijdschr. Nederland. Dierk. Ver. iv, p. 35.
- Amphorina aurantiaca*, A. & H., added to fauna of Holland ; LOMAN, Tijdschr. Nederland. Dierk. Ver. iv, p. 36, figg.
- Cyerce jheringi*, Naples, PELSENEER, Bull. Soc. malac. Belgique, 1892 [1894], p. xx, fig., n. sp.
- Doto uncinata*, Hesse, belongs to the genus *Hancockia* ; GARSTANG, Conchologist, ii, p. 110.
- Elysia* : excretory and reproductive apparatus ; PELSENEER, Zool. Anz. 1893, pp. 458-460.
- Glaucus atlanticus*, colouration and colour variation in ; SIMROTH, Ber. Ges. Leipzig, 1892-93, pp. 83-86.
- Hermæa cremoniana*, Gulf of Naples, TRINCHÈSE, Rend. Acc. Napoli, vii, p. 155, n. sp.
- Idalia elegans*, Leuck., notes on its habits ; PROUHO, Arch. Zool. exp. iii, i, pp. 105-111, figg.

Rhodope veranii, Köll, in its anatomy is most nearly allied to the *Nudibranchiata*, but in its development to the *Turbellaria*, and should form a new Class ; BOEHMIG, Zeitschr. Wiss. Zool. lvi, pp. 40-116, 4 pls., and figg.

TECTIBRANCHIATA.

PLEUROBRANCHIDEA.

- Gadinia peruviana*, Gray, anatomy ; PLATE, SB. Ak. Berlin, 1893, pp. 959-962, who states that the genus belongs to the *Opisthobranchiata*.
- Siphonaria*, anatomy of the genus ; KOEHLER, Zool. Jahrb. Anat. vii, pp. 1-92, 6 pls., who agrees with Haller [see Zool. Rec. 1892, Moll. p. 12, No. 166] that it is a Tectibranch ; also in Ber. Oberhess. Ges. xix, pp. 107-112.
- S. basseinensis*, Bombay, MELVILL, Mem. Manchest. Soc. vii, p. 63, fig., n. sp.
- Umbrella mediterranea*, development of ; HEYMONS, Zeitschr. wiss. Zool. lvi, pp. 245-298, 3 pls.

APLYSIDÆ.

[Including PTEROPODA GYNOSOMATA.]

- Aclesia intrapicta*, Jamaica, COCKERELL, Ann. Nat. Hist. xi, p. 219, n. sp.
- Aplysia* : researches on the egg-capsule ; ENGEL, Zeitschr. Biol. xxviii (1891), pp. 345-352. *A. limacina*, notes on the heart of ; SCHOENLEIN, op. cit. xxx, pp. 186-220, 2 pls.
- Phyllaplysia lafonti*, Fischer, note on the anatomy ; MAZZARELLI, Boll. Soc. Napoli, vii, pp. 5-8, 1 pl.

BULLIDEA.

[Including PTEROPODA THECOSOMATA.]

Pteropoda Thecosomata of the "Albatross" voyage from the N. Atlantic to the N. Pacific; PECK, P. U. S. Mus. xvi, pp. 451-463, 3 pls.

Actæon: notes on its anatomy. *A.* is streptoneurous and forms the link between the streptoneura and euthyneura; BOUVIER, Bull. Soc. Philom. v, pp. 64-71, figg., and C.R. Soc. Biol. v, pp. 25-30; PELSENEER, Bull. Soc. malac. Belgique, 1893. [Advance copy 3 pp.]

A. reevei, hab. ?, SMITH, Conchologist, ii, p. 99, n. sp.

Coleophysis (Utriculus) truncatula, Brug., anatomy; VAYSSIÈRE, Ann. Fac. Marseille, iii [pp. 13], figg.

†*Conulariidae* of the Swedish Cambro-Silurian, monograph with many new species, and *Torellella*, n. g.; HOLM, Sveriges geol. Unders. Afh. c 112.

Diaphana (?) lottæ, E. coast U. S. A., BUSH, Bull. Mus. Harvard, xxiii, p. 222, fig., n. sp.

Doridiidae, monograph with anatomy, &c.; BERGH, MT. Stat. Neapel, xi, pp. 107-135, 1 pl.

Doridium has a narrow canal leading from the shell cavity to the exterior; PELSENEER, C.R. Ac. Sci. cxvii, pp. 810 & 811.

D. punctilucens, Caribbean Sea, p. 131, *purpureum*, Sta. Catalina Is., *diomedaeum*, *ocelligerum*, Pacific Ocean, p. 133, BERGH, MT. Stat. Neapel, xi, n. spp.

Gastropterion, monograph of the genus with anatomy, and *G. pacificum*, p. 303, n. sp.; BERGH, Zool. Jahrb. Anat. vii, pp. 281-308, figg.

†*Hyolithidae* of the Swedish Cambro-Silurian, monograph with many new species, and *Orthotheca*, n. subg.; HOLM, Sveriges geol. Unders. Afh. c 112.

Navarchus anigmaticus, Bay of Panama, BERGH, MT. Stat. Neapel, xi, p. 134, fig., n. sp. [*Navarchus* is preoccupied for *Pisces*.]

†*Orthotheca*, n. subg. of *Hyolithus* for *H. teretiusculus*, Linrs., and 3 new species; HOLM, Sveriges geol. Unders. Afh. c 112, p. 49.

Peltide of the Gulf of Naples [brief abst.]; MAZZARELLI, Rend. Acc. Napoli, vii, p. 122.

Philine has a narrow canal leading from the shell cavity to the exterior; PELSENEER, C.R. Ac. Sci. cxvii, pp. 810 & 811.

†*Ringiculidae* from the Tertiaries of Piedmont and Liguria, with *Ringiculospogia*, *Ringiculella*, *Ringiculocosta*, n. subgg. [misdated 1892], and many species said to be new; SACCO (311).

†*Torellella*, n. g., and *Torellellidae*, n. fam. of *Conularia*, type *Hyolithus laevigatus*, Linrs.; HOLM, Sveriges geol. Unders. Afh. c 112, p. 146.

Weinkauffia diaphana, description of the animal; VAYSSIÈRE, J. Conchyl. xli, pp. 90-97, 1 pl.

[NUCLEOBRANCHIATA : See PROSOBRANCHIATA.]

PROSOBRANCHIATA.

On the snout and buccal apparatus of Prosobranchs ; OSWALD, Viertel-jahrschr. Ges. Zurich. xxxviii, pp. 346-353, and *id.* Jena Zeitschr. xxviii, pp. 119-162, 2 pls.

PECTINIBRANCHIATA.

NUCLEOBRANCHIATA.

Heteropoda are streptoneurous ; PELSENEER, Bull. Soc. malac. Belgique, 1892 [1894], pp. lii-liv. [See Zool. Rec. 1892, Moll. p. 70.]

Heteropoda of the "Albatross" voyage from the N. Atlantic to the N. Pacific ; PECK, P. U. S. Mus. xvi, pp. 463-466, 1 pl.

Atlanta has a sinistral operculum ; PELSENEER, Bull. Soc. malac. Belgique, 1892 [1894], p. xxxv.

Carinaria : notes on the species, with *C. elata*, n. sp., p. 16, Western Pacific ; SOWERBY, P. Malac. Soc. London, i, pp. 14-16, figg.

TOXOGLOSSA.

TEREBRIDÆ, CONIDÆ, PLEUROTOMIDÆ, and CANCELLARIIDÆ.

Cancellaria eudeli, Penang, SOWERBY, P. Malac. Soc. London, i, p. 27, fig., n. sp.

† *Conidae* from the Tertiaries of Piedmont and Liguria, with many species said to be new ; SACCO (311).

Conus californicus, Hinds, notes on the animal ; HEMPHILL, Zoe, iii, p. 351. *C. wyvillei*, Watson, note on ; BRAZIER, P. Liinn. Soc. N.S. Wales, viii, p. 43.

Cythara guentheri, N.W. Australia, *ringens*, Hong Kong, SOWERBY, P. Zool. Soc. London, 1893, p. 491, figg., n. spp.

Daphnella fusco-picta, spencera, Hong Kong, *elata*, Mauritius, SOWERBY, P. Zool. Soc. London, 1893, p. 490, figg., n. spp.

Defrancia infracincta, mauritiana, Mauritius, SOWERBY, P. Zool. Soc. London, 1893, p. 491, figg., n. spp.

† *Haliidae* from the Tertiaries of Piedmont and Liguria ; SACCO (311).

Mangilia leuca, E. coast U. S. A., BUSH, Bull. Mus. Harvard, xxiii, p. 209, fig., n. sp.

Pleurotoma walcotæ, S. Australia, *huberti*, N.E. Australia, p. 487, *albo-varicosa*, E. Africa ?, *edithæ*, Hong Kong, *inclinata*, Mauritius, p. 488, *keeni*, hab. ?, *hungerfordi*, Hong Kong, *infrafusca*, Mauritius ?, p. 489, SOWERBY, P. Zool. Soc. London, 1893, figg. ; *P. (Drillia) amblytera*, E. coast U. S. A., BUSH, Bull. Mus. Harvard, xxiii, p. 203, figg. ; *P. (Clavus) praecincta*, Bombay, MELVILL, Mem. Manchester Soc. vii, p. 52, fig. : n. spp.

Pleurotomella atypha, p. 205, *sulcifera*, p. 207, *leptalea, dalli*, p. 208, E. coast U. S. A., BUSH, Bull. Mus. Harvard, xxiii, figg., n. spp.
Terebra simplex, Cpr., notes on the animal; HEMPHILL, ZOO, iii, p. 352.

RHACHIGLOSSA.

MARGINELLIDÆ, VOLUTIDÆ, and MITRIDÆ.

Marginella (Gibberula) maragonica, Bombay, MELVILL, Mem. Manchester Soc. vii, p. 57, n. sp.
Mitra idæ, Lower California, MELVILL, Conchologist, ii, p. 140, fig., n. sp.
 † *Volutoderma woolmani*, Lower Green Marls, New Jersey, WHITFIELD, Nautilus, vii, p. 37, fig., n. sp.

FASCIOLARIIDÆ and TURBINELLIDÆ.

Latirus maximus, Cape Verd Is., SOWERBY, Conchologist, ii, p. 139, fig.;
L. præstantior, Mauritius, MELVILL, Mem. Manchester Soc. v, p. 92 : n. spp.
Melongena melongena, on some points in the anatomy; VANSTONE, J. Linn. Soc. Zool. xxiv, pp. 369-373, 1 pl. *M. fusiformis*, Blainv., on the systematic position of; CRAVEN, Bull. Soc. malac. Belgique, 1892 [1894], p. xxv.

BUCCINIDÆ, NASSIDÆ, and COLUMBELLIDÆ.

Columbella: monograph continued by KOEHL in MARTINI & CHEMNITZ, (228) pp. 129-176, pls. xix-xxiv.
C. sutoris, hab. ?, p. 130, *alabastroides*, Mauritius, p. 167, KOEHL in MARTINI & CHEMNITZ, (228) fig.; *C. (Mitrella) flavidina, euterpe*, Bombay, MELVILL, Mem. Manchester Soc. vii, p. 56, fig.; *C. (Mitrella) vincula*, S. Australia, TATE, Tr. R. Soc. S. Austral. xvii, p. 190, fig. : n. spp.
Engina zea, Bombay, MELVILL, Mem. Manchester Soc. vii, p. 55, fig., n. sp.
Nassa brunneostoma, Gulf of California, STEARNS, Nautilus, vii, p. 10, n. sp.
Nitidella incerta, Stearns, figured; P. U. S. Mus. xvi, pl. li.
Sipho (?) mimeticus, St. Vincent Gulf, S. Australia, TATE, Tr. R. Soc. S. Austral. xvii, p. 189, fig., n. sp.
 ↳ *Ukko*, n. n. for *Jumala*, FRIELE, 1882; FRIELE in NORMAN, Ann. Nat. Hist. xii, p. 352.

MURICIDÆ.

Murex: catalogue of Australian and Tasmanian species; BRAZIER (41).
M. (Ocinebra) bombayanus, Bombay, MELVILL, Mem. Manchester Soc. vii, p. 52, fig.; *M. (Pteronotus) pygmæus*, E. Coast U. S. A., BUSH, Bull. Mus. Harvard, xxiii, p. 213, figg. : n. spp.

- Purpura (Cuma) coronata*, Lmk., note on the varieties ; CRAVEN, Bull. Soc. malac. Belgique, 1892 [1894], pp. xxiii & xxiv.
- P. (Stramonita) blanfordi*, Bombay, MELVILL, Mem. Manchest. Soc. vii, p. 53, fig., n. sp.
- Sistrum subnodulosa, konkanensis*, p. 54, *xuthedra*, p. 55, Bombay, MELVILL, Mem. Manchest. Soc. vii, figg., n. spp.
- Trophon verrillii*, E. coast U. S. A., BUSH, Bull. Mus. Harvard, xxiii, p. 214, fig., n. sp.

TÆNIOGLOSSA.

TRITONIDÆ, CASSIDIIDÆ, DOLIIDÆ, and CYPRÆIDÆ.

- Cassidaria echinophora*, abnormal features in the development ; ERLANGER, Zool. Anz. xvi, pp. 1-6, figg.
- Cypræa cruenta*, Gmel., var. *Greegori*, n. var. ; FORD, Nautilus, vi, pp. 112 & 113, figg. on pl. ii : raised to specific rank ; FORD, *op. cit.* vii, p. 40, fig. : not a species ; SMITH, t. c. p. 64 : reply to Smith ; FORD, t. c. pp. 78-81.
- [*Cypræa*] *Arabica gillei*, Pacific, JOUSSEAUME, Naturaliste, 1893, p. 171, fig. ; †*C. squyeri*, Cretaceous, E. Montana, CAMPBELL, Nautilus, vii, p. 52, fig. : n. spp.
- Dolium* : anatomy and morphology ; HALLER, Morphol. Jahrb. xix, pp. 563-577, figg.
- D. pictum*, "New Holland ?", SCHEPMAN, Notes Leyden Mus. xv, p. 276, n. sp.
- Triton* : anatomy and morphology ; HALLER, Morphol. Jahrb. xix, pp. 554-563, figg.
- Tritoninae* of the Mediterranean, living and fossil ; GREGORIO (140).
- Trivia solandri*, Gray, notes on the animal ; HEMPHILL, Zoe, iii, p. 350.

STROMBIDÆ and APORRHAIDÆ.

- †*Chenopidae* from the Tertiaries of Piedmont and Liguria ; SACCO (311).
- †*Strombidæ* from the Tertiaries of Piedmont and Liguria, with *Sulcogladius*, n. subg. ; SACCO (311).
- Strombus* : anatomy and morphology ; HALLER, Morphol. Jahrb. xix, pp. 577-586, figg.
- †*Terebellidae* from the Tertiaries of Piedmont and Liguria ; SACCO (311).

CERITHIIDÆ.

- Bittium estuarinum*, S. Australia, TATE, Tr. R. Soc. S. Austral. xvii, p. 190, fig., n. sp.
- Cerithidea tenkatei*, Rotti Is., SCHEPMAN, Tijdschr. Nederland. Dierk. Ver. iv, p. 66, n. sp.

Cerithiopsis marmorata, S. Australia, TATE, Tr. R. Soc. S. Austral. xvii, p. 190; *C. (Seila) bandorensis*, Bombay, MELVILL, Mem. Manchest. Soc. vii, p. 62, fig. : n. spp.

Cerithium : monograph continued by KOBELT in MARTINI & CHEMNITZ, (228) pp. 89–160, pls. xix–xxx.

C. citrinoide, Philippines, p. 122, (*Cerithidea*) *natalense*, p. 157, *inaequisculptum*, p. 158, Natal, *mascarenarum*, Mascarenes, p. 160, KOBELT in MARTINI & CHEMNITZ, (228) figg.; †*C. pilosbryi*, Lower Green Marls, New Jersey, WHITFIELD, *Nautilus*, vii, p. 38, fig. : n. spp.

MELANIIDÆ.

Melania woodwardi, p. 638, Lake Nyassa, *mweruensis*, *imitatrix*, *crawshayi*, p. 639, Lake Mweru, British Central Africa, SMITH, P. Zool. Soc. 1893, figg.; *M. dugasti*, Laos, MORLET, J. Conchyl. xli, p. 153, fig. : n. spp.

‘*Pachymelania*, n. n. for *Claviger*, Haldeman, = *Vibex*, Gray ; type *Nerita aurita*, Müll., with synonymy ; SMITH, Conchologist, ii, p. 142.

LITTORINIDÆ.

Littorina nervillei, Tunis, DAUTZENBERG, J. Conchyl. xli, p. 35, fig., n. sp.

Tectarius galapagiensis, Stearns, figured, P. U. S. Mus. xvi, pl. li.

SOLARIIDÆ.

†*Discohelix castellii*, Pliocene of Orciano, Tuscany, MANTOVANI, P.-v. Soc. Tosc. viii, p. 5, n. sp.

†*Solariidae* from the Tertiaries of Piedmont and Liguria, with *Grano-solarum*, n. subg. [misdated 1892], and many species said to be new ; SACCO (311).

Solarium (Torinia) delectabile, Bombay, MELVILL, Mem. Manchest. Soc. vii, p. 57, fig., n. sp.

Torinia foveolata, S. Australia, TATE, Tr. R. Soc. S. Austral. xvii, p. 191, fig., n. sp.

HOMALOGYRIDÆ.

‘*Ammonicera*, n. g., for *Homalogryra fischeriana*, Monterosato, with anatomy ; VAYSSIÈRE, Ann. Faculté Sci. Marseille, iii [14 pp.], figg. : note on the shell ; VAYSSIÈRE, J. Conchyl. xli, pp. 108 & 109, fig.

Homalogryra : notes on the animal ; VAYSSIÈRE, C.R. Ac. Sci. cxvii, pp. 59 & 60. *H. polyzona*, Brusina, notes on the shell of ; VAYSSIÈRE, J. Conchyl. xli, pp. 106–108, figg.

RISSOIDÆ.

- Alvania mahimensis*, Bombay, MELVILL, Mem. Manchest. Soc. vii, p. 61, fig.; *A. quadrasi*, Philippines, BOETTGER, Nachrbl. deutsch. malak. Ges. 1893, p. 101 : n. spp.
- Cingula sulcata*, Philippines, BOETTGER, Nachrbl. deutsch. malak. Ges. 1893, p. 99, n. sp.
- Fairbankia quadrasi*, Philippines, BOETTGER, Nachrbl. deutsch. malak. Ges. 1893, p. 112, n. sp.
- Onoba philippinica*, p. 99, *tenuilirata*, p. 100, *quadrasi*, p. 186, Philippines, BOETTGER, Nachrbl. deutsch. malak. Ges. 1893, n. spp.
- Parazebinella*, n. sect. of *Rissoina* [q.v.]
- Pachyrissoina*, n. sect. of *Rissoina*, for *A. walkeri*, Smith; BOETTGER, Nachrbl. deutsch. malak. Ges. 1893, p. 104.
- Rissoa*: notes on the genus; TOMLIN, Brit. Natural. 1893, pp. 122, 123, 198, & 199.
- R. versoverana*, Bombay, MELVILL, Mem. Manchest. Soc. vii, p. 61, fig., n. sp.
- Rissoina bilabiata*, p. 102, (*Zebinella*) *moellendorffi*, p. 107, (*Parazebinella*, n. sect.) *crenibras*, p. 109, (*Moerchiella*) *detrita*, p. 110, (*Rissolina*) *signata*, p. 187, (*Zebinella*) *trigonostoma*, p. 189, Philippines, BOETTGER, Nachrbl. deutsch. malak. Ges. 1893; *R. walkeri*, Baudin Is., N.W. Australia, SMITH, Conchologist, ii, p. 98, fig.; *R. (Zebina) appanata*, Bombay, MELVILL, Mem. Manchest. Soc. vii, p. 60, fig.: n. spp.

HYDROBIIDÆ and PALUDINIDÆ.

- Amnicola micrococcus*, Nevada, PILSBRY in STEARNS, (358) p. 277, fig., n. sp.
- Bythinella*: the species described in 1892 by Nicolas, criticised by COUGNE, Ann. Soc. Agric. Lyon, v, pp. 349-367.
- †*B. (Belgrandia) falloti*, Oligocene, S.W. France, DEGRANGE-TOUZIN, Act. Soc. Bordeaux, xlv, p. 185, figg., n. sp.
- Bythinia*, on French species, *B. stramicensis*, *parva*, S. France, LOCARD, Échange, ix, pp. 4 & 5, ? n. spp.
- Cleopatra johnstoni*, mweruensis, Lake Mweru, British Central Africa, SMITH, P. Zool. Soc. 1893, p. 637, figg., n. spp.
- †*Fossarulus paulensis*, Miocene, S.W. France, DEGRANGE-TOUZIN, Act. Soc. Bordeaux, xlv, p. 187, figg., n. sp.
- Hydrobia jenkinsi*, Smith, theory as to its introduction into England; ADAMS, J. Conch. vii, pp. 148-150.
- †*H. andreaei*, p. 180, *girondica*, p. 183, Oligocene and Miocene, S.W. France, BOETTGER, Act. Soc. Bordeaux, xlv, figg., n. spp.

- Lithoglyphus naticoides*, C. Pfr., in the Rhine at Walluf, near Wiesbaden; MARTENS, SB. Ges. naturf. Berlin, 1893, pp. 269 & 270.
- †*Pseudumnicola balizacensis*, Oligocene, S.W. France, DEGRANGE-TOUZIN, Act. Soc. Bordeaux, xlv, p. 189, figg., n. sp.
- †*Saccoia*, n. g., type *Melania oriza*, Sism.; BRUSINA, Bull. Soc. malac. Ital. xviii, p. 49.
- Staliopsis, n. g., type *Littorina moravica*; RZEHAK, Verh. Ver. Brunn. xxxi, p. 171, figg.
- †*Stenothyra aquensis*, Miocene, S.W. France, DEGRANGE-TOUZIN, Act. Soc. Bordeaux, xlv, p. 186, figg., n. sp.
- Viviparus mweruensis*, p. 636, *crawshayi*, p. 637, Lake Mweru, British Central Africa, SMITH, P. Zool. Soc. London, 1893, figg., n. spp.

VALVATIDÆ and ASSIMINEIDÆ.

- †*Aphanotylus*, p. 182, n. g., for *Valvata adeorboides*, Fuchs, and *A. cossmanni*, p. 185, *fuchsi*, p. 186, n. spp., Tertiary, Hungary, BRUSINA, J. Conchyl. xli.
- Assiminea crassitestula*, p. 113, *semilirata*, p. 115, Philippines, BOETTGER, Nachrbl. deutsch. malak. Ges. 1893, n. spp.

CYCLOPHORIDÆ.

- Alycaeus bi-rugosus*, Assam and Manipur, *subculmen*, *granum*, p. 593, *magnus*, Assam, *ruberinus*, *ochraceus*, Upper Burmah, p. 594, *dohertyi*, Burmah, *busbyi*, Nicobars, p. 595, GODWIN-AUSTEN, P. Zool. Soc. London, 1893; *A. dohrni*, p. 195, *rimatus*, p. 196, Borneo, BOETTGER, Nachrbl. deutsch. malak. Ges. 1893 : n. spp.
- Arinia borneensis*, *similis*, Borneo, SMITH, J. Linn. Soc. xxiv, p. 350, figg., n. spp.
- Cyathopoma (Jerdonia) pyramidatum*, Philippines, MOELLENDORFF, Ber. Senckenberg. Ges. 1893, p. 106, figg., n. sp.
- Cyclophorus eudeli*, *consociatus*, Annam, SMITH, P. Malac. Soc. London, i, p. 13; *C. everetti*, Borneo, SMITH, J. Linn. Soc. xxiv, p. 343; *C. tornatas*, Laos, MORLET, J. Conchyl. xl, p. 322, figg. : n. spp.
- Cyclotus (Platyrhaphis) coptoloma*, *mammillatus*, Luzon, QUADRAS & MOELLENDORF, Nachrbl. deutsch. malak. Ges. 1893, p. 178, n. spp.
- Diplommatina sulphurea*, *moluensis*, p. 348, *symmetrica*, *excentrica*, *everetti*, p. 349, *baritensis*, p. 350, Borneo, SMITH, J. Linn. Soc. xxiv, figg.; *D. (Sinica) quadrasi*, *leytensis*, p. 128, *breviplica*, p. 129, *micropleuris*, *subcrystallina*, p. 130, Philippines, MOELLENDORFF, Ber. Senckenberg. Ges. 1893, figg.; *D. cagayanica*, (*Sinica*) *filicostata*, *concolor*, Luzon, QUADRAS & MOELLENDORFF, Nachrbl. deutsch. malak. Ges. 1893, p. 182 : n. spp.

Ditropis decollata, p. 109, *conulina*, *pyramidata*, p. 110, *corniculum*, p. 111, Philippines, MOELLENDORFF, Ber. Senckenberg. Ges. 1893, figg., n. spp.

Geothauma, Crosse, and *Gyrostropha*, Ancey, are unnecessary genera; SMITH, Ann. Nat. Hist. xi, pp. 284 & 285.

Helicomorpha quadrasi, p. 121, *appendiculata*, p. 122, *depressa*, p. 123, Philippines, MOELLENDORFF, Ber. Senckenberg. Ges. 1893, figg., n. spp.

Lagocheilus baritensis, *jucundus*, p. 344, *inornatus*, *altus*, p. 345, *borneensis*, p. 346, Borneo, SMITH, J. Linn. Soc. xxiv, figg.; *L. similis*, Balabec and Palawan, SMITH, Ann. Nat. Hist. xi, p. 352, figg.; *L. concolor*, Philippines, MOELLENDORFF, Ber. Senckenberg. Ges. 1893, p. 117, figg. : n. spp.

Leptopoma: the supposed New Zealand species, probably a *Lagocheilus*; MOELLENDORFF, P. Linn. Soc. N. S. Wales, vii, p. 385.

L. pulawanensis, Palawan, SMITH, Ann. Nat. Hist. xi, p. 352, fig.; *L. quadrasi*, Philippines, MOELLENDORFF, Ber. Senckenberg. Ges. 1893, p. 120, figg.; *L. subalatum*, Luzon, QUADRAS & MOELLENDORFF, Nachrbl. deutsch. malak. Ges. 1893, p. 179 : n. spp.

Moulinisia quadrasi, Luzon, MOELLENDORFF in QUADRAS & MOELLENDORFF, Nachrbl. deutsch. malak. Ges. 1893, p. 180, n. sp.

Opisthostoma mirabile, *everetti*, p. 346, *jucundum*, *wallacei*, *baritense*, p. 347, *busauense*, p. 348, Borneo, SMITH, J. Linn. Soc. xxiv, figg.; *O. otostoma*, Borneo, BOETTGER, Nachrbl. deutsch. malak. Ges. 1893, p. 194 : n. spp.

Palaina conspicua, p. 180, *cristata*, *modesta*, p. 181, Luzon, QUADRAS & MOELLENDORFF, Nachrbl. deutsch. malak. Ges. 1893; *P. mirabilis*, Philippines, MOELLENDORFF, Ber. Senckenberg. Ges. p. 127, figg. : n. spp.

Pupina dorri, Tonkin, DAUTZENBERG, J. Conchyl. xli, p. 164, fig., n. sp.

Pupinella quadrasi, Luzon, MOELLENDORFF in QUADRAS & MOELLENDORFF, Nachrbl. deutsch. malak. Ges. 1893, n. sp.

Rhiostoma boxalli, Borneo, GODWIN-AUSTEN, Ann. Nat. Hist. xii, p. 32, figg., n. sp.

CYCLOSTOMATIDÆ and TRUNCATELLIDÆ.

Acroptychia albocincta, n. sp., Madagascar; SMITH, Conchologist, ii, p. 130, figg., with fig. of *A. notabilis*.

Omphalotropis columellaris, *semperi*, Luzon, QUADRAS & MOELLENDORFF, Nachrbl. deutsch. malak. Ges. 1893, p. 183; *O. (Solenomphala) conjungens*, Philippines, MOELLENDORFF, Ber. Senckenberg. Ges. 1893, p. 136, figg. : n. spp.

Truncatella quadrasi, (*Taheitia*) *albida*, Philippines, MOELLENDORFF, Ber. Senckenberg. Ges. 1893, p. 137, figg.; †*T. bezanconi*, Oligocene of Etampes; COSSMANN, J. Conchyl. xl, p. 358, fig. : n. spp.

CAPULIDÆ and LAMELLARIIDÆ.

Crepidula fornicate found alive in Essex; CROUCH, P. Malac. Soc. London, i, p. 19. *C. moulinii*, Mich., description of the animal; VAYSSIÈRE, J. Conchyl. xli, pp. 97–105, 1 pl.

Lamellaria perspicua, Linn., “mimicry” of; HERDMAN, Conchologist, ii, p. 129.

NATICIDÆ.

†*Heligmope*, n. g., for *H. dennanti*, n. sp., Lower Tertiaries of S. Australia; TATE, Tr. R. Soc. S. Austral. xvii, p. 329, figg.

Naticina pomatiella, Bombay, MELVILL, Mem. Manchest. Soc. vii, p. 62, fig., n. sp.

PTENOGLOSSA.

Janthina: notes on the young shells; SIMROTH, Ber. Ges. Leipzig, 1892–93, p. 9?.

GYMNOGLOSSA.

EULIMIDÆ and PYRAMIDELLIDÆ.

Amathis filia, Bombay, MELVILL, Mem. Manchest. Soc. vii, p. 58, fig., n. sp.

Eulima saccata, n. n. for *E. inflexa*, Pease; BOETTGER, Nachrbl. deutsch. malak. Ges. 1893, p. 158.

E. quadrasi, p. 157, *recurva*, *imitatrix*, p. 160, *spina*, p. 161, *pachychila*, *oblonga*, p. 162, Philippines, BOETTGER, Nachrbl. deutsch. malak. Ges. 1893; †*E. koeneni*, n. n. for *E. microstoma*, Koen; *E. newtoni*, n. n. for *E. microstoma*, Newton, BRUSINA, t. c. p. 83 : n. spp.

Niso quadrasi, Philippines, BOETTGER, Nachrbl. deutsch. malak. Ges. 1893, p. 165, n. sp.

†*Odontostomia lamberti*, Oligocene of Etampes, COSSMANN, J. Conchyl. xl, p. 347, fig., n. sp.

Oscilla tornata, Bombay, MELVILL, Mem. Manchest. Soc. vii, p. 59, fig., n. sp.

†*Pyramidellidæ* from the Tertiaries of Piedmont and Liguria, with many species said to be new; SACCO (311).

- Pyrgulina callista*, Bombay, MELVILL, Mem. Manchest. Soc. vii, p. 60, fig., n. sp.
Stylifer quadrasi, p. 166, *variabilis*, p. 167, Philippines, BOETTGER, Nachrbl. deutsch. malak. ges. 1893, n. sp.

SCUTIBRANCHIATA.

RHIPIDOGLOSSA.

HELICINIDÆ and HYDROCENIDÆ.

- ⁴*Ceratopoma*, n. sect. of *Helicina*, type *H. caroli*, Kob. ; MOELLENDORFF, Ber. Senckenberg. Ges. 1893, p. 139.
Eutrochatella, P. Fischer, notes on the animal, &c. ; FISCHER, J. Conchyl. xli, pp. 85-89, 1 pl.
Georissa gomantonensis, *similis*, *hosei*, Borneo, SMITH, J. Linn. Soc. xxiv, p. 351, figg. ; *G. quadrasi*, p. 144, *turritella*, p. 145, Philippines, MOELLENDORFF, Ber. Senckenberg. Ges. 1893, figg. : n. spp.
Helicina citrinella, Philippines, MOELLENDORFF, Ber. Senckenberg. Ges. 1893, p. 141 ; *H. (Ceratopoma) hennigiana*, Luzon, QUADRAS & MOELLENDORFF, Nachrbl. deutsch. malak. ges. 1893, p. 184 : n. spp.
⁵*Pleuropoma*, n. sect. of *Helicina*, type *H. dichroa*, v. Molldff. ; MOELLENDORFF, Ber. Senckenberg. Ges. 1893, p. 140.
⁶*Sulphurina*, n. sect. *Helicina*, type *H. citrina*, Grat. ; MOELLENDORFF, Ber. Senckenberg. Ges. 1893, p. 141.

NERITINIDÆ.

- Navicella porcellana*, Linn., memoir on the nervous system ; BOUTAN, Arch. Zool. exp. (3) i, pp. 221-266, figg.
Nerita polita, Linn., memoir on the nervous system ; BOUTAN, Arch. Zool. exp. (3) i, pp. 221-266, figg.
Neritina : anatomy and characters of the genus ; FISCHER & CROSSE, Miss. Scient. Mexique, &c., vii, ii, pp. 458-472.

TURBINIDÆ, TROCHIDÆ, and CYCLOSTREMATIDÆ.

- Callistoma crumpii*, Japan, PILSBRY, Nautilus, vi, p. 105, fig. on pl. ii ; *C. spinulosum*, S. Australia, TATE, Tr. R. Soc. S. Austral. xvii, p. 195, fig. : n. spp.
Clanculus consobrinus, *euchelioides*, S. Australia, TATE, Tr. R. Soc. S. Austral. xvii, p. 193, figg., n. spp.
Cyclostrema solariellum, Bombay, MELVILL, Mem. Manchest. Soc. vii, p. 63, fig., n. sp.

- Euchelus fenestratus*, p. 195, *pumilio*, *vixumbilicatus*, *annectans*, p. 196,
ampullus, p. 197, Australia, TATE, Tr. R. Soc. S. Austral. xvii, figg.,
 n. spp.
 †*Guilfordia acanthochila*, note on; JAHN, Verh. geol. Reichsanst. 1893,
 p. 346.
Thalotia neglecta, S. Australia, TATE, Tr. R. Soc. S. Austral. xvii, p. 194,
 fig., n. sp.
Turbo (Astralium) rutidoloma, S. Australia, TATE, Tr. R. Soc. S. Austral.
 xvii, p. 192, fig., n. sp.

HALIOTIDÆ and PLEUROTOMARIIDÆ.

Haliotis: development; BOUTAN, C.R. Ass. Franc. 1892, ii, pp. 522–525.
Pleurotomaria: notes on the genus; BOUVIER, Naturaliste, 1893, pp. 11–
 13, figg.

DOCOGLOSSA.

Phylogeny; DALL, P. Ac. Philadelphia, 1893, pp. 285–287. Replies to
 Thiele's criticisms.
Patina pellucida, note on the branchial sensory organs; THIELE, Zool.
 Anz. xvi, pp. 49 & 50.

III. SCAPHOPODA.

[None.]

IV. PELEYCOPODA.

Structure of the gills; JANSSENS, Cellule, ix, pp. 5–90, 2 pls.—Phagocytosis in gills of *Pelecypoda*; BRUYNE, C.R. Ac. Sci. cxvi, p. 65.—Note on the nerve-fibres; CHATIN, C.R. Soc. Philom. 1893, No. 14, pp. 2 & 3.—Classification: Fischer's families arranged according to Pelseneer's scheme; WOODWARD, Ann. Nat. Hist. xi, pp. 156–159 & 335.—Dispersal of freshwater *Pelecypoda* by the agency of Vertebrates; GUERNE, C.R. Soc. Biol. v, pp. 625 & 626.

SEPTIBRANCHIATA.

†*Cuspidaria miocenica*, Miocene, Sardinia, PARONA, Atti Soc. Ital. xxxiv,
 p. 170, figg., n. sp.

EULAMELLIBRANCHIATA.

ANATINACEA.

† *Goniomeris*, n. g., for *G. gaudryi*, n. sp., Jurassic of Portugal ; CHOFFAT, (64) p. 38, fig.

Pandora : in some species the heart is traversed by the rectum ; PELSE-NEER, Bull. Soc. malac. Belgique, 1892 [1894], p. lv, fig.

Thracia salsetensis, Bombay, MELVILL, Mem. Manchest. Soc. vii, p. 65, fig., n. sp.

PHOLADACEA.

Pholadea : monograph continued by CLESSIN in MARTINI & CHEMNITZ, (228) pp. 41-88, pls. xiii-xxi, and Abth. 4a, pls. i-iii.

Pholas obturamentum, Sydney Harb., HEDLEY, Rec. Austral. Mus. ii, p. 56, 1 pl., n. sp.

Teredo japonica, Japan, CLESSIN in MARTINI & CHEMNITZ, (228) *Pholadea*, p. 78, fig., n. sp.

MYACEA.

Sphenia : notes on the genus, with *S. sowerbyi*, Pondicherry, *similaris*, hab. ?, p. 280, *inæqualis*, Singapore, p. 281, n. spp. ; SMITH, Ann. Nat. Hist. xii, pp. 277-281, figg.

CARDIACEA.

† *Hippurites* : revision of the species, with many new species ; DOUVILLE, Mem. Soc. geol. France, iii, fasc 4, pp. 57-94, 8 pls.

VENERACEA.

Clementia subdiaphana, Cpr., in San Pedro Bay ; WILLIAMSON, Nautilus, vi, p. 116.

Cyclas, see *infrà Sphaerium*.

† *Oncophora* : note on the genus ; BITTNER, Verh. geol. Reichsanst, 1893, pp. 141-144 : a good genus ; SANDBERGER, t. c. p. 401.

Pisidium (Fossarina) arcticum, Norway, WESTERLUND, Nachrbl. deutsch. malak. Ges. 1893, p. 132, n. sp.

- Sphaerium corneum*, Lin., structure and segmentation of the egg ;
 STAUFFACHER, Vierteljahrsschr. Ges. Zurich, xxxviii, pp. 361-370,
 figg., and Jena Zeitschr. xxviii, pp. 196-246, 5 pls.
S. (Corneola) physale, Lapland, WESTERLUND, Nachrbl. deutsch. malak.
 Ges. 1893, p. 131, n. sp.
Veneridae and *Petricolidae* of Roussillon ; BUCQUOY and others (54).

TELLINACEA.

- Tellina kolabana*, p. 64, (*Mæra*) *lechriogramma*, p. 65, Bombay, MELVILL,
 Mem. Manchest. Soc. vii, figg., n. spp.
Raeta abercrombiei, Bombay, MELVILL, Mem. Manchest. Soc. vii, p. 64,
 fig., n. sp.

SUBMYTILACEA.

(Marine Forms.)

- ¹ *Caelastarte*, n. sect. of *Astarte*, type *A. excavata*, Sow. ; BOEHM, Ber. Ges. Freiburg, vii, p. 175.
Ephippodonta, Tate, note on its habitat ; MATTHEWS, Conchologist, ii, pp. 144 & 145. *E. macdougalli*, Tate, anatomy ; WOODWARD, P. Malac. Soc. London, i, pp. 20-25, 1 pl.

II.—CLASSIFICATION, &c.

SCHUCHERT (11) gives the following classification of the BRACHIOPODA:—

Subclass LYOPOMATA [= *Inarticulata*].

Order ATREMATA.

- Fam. *Paterinidae*, n. (p. 148).
- Fam. *Obolidae*.
- Fam. *Trimerellidae*.
- Fam. *Lingulellidae*, n. (p. 149).
- Fam. *Lingulidae*.
- Fam. *Lingulasmatidae*, n. (p. 149).

Order NEOTREMATA.

Subord. DAIKAULIA.

- Fam. *Trenatidae*, n. (p. 149).
- Fam. *Discinidae*.
- Fam. *Acrotretidae*, n. (p. 150).
- Fam. *Siphonotretidae*.

Subord. GASTEROPEGMATA.

- Fam. *Craniidae*.

Subclass ARTHROPOMATA [= *Articulata*].

Order PROTREMATA.

- Subord. TRULLACEA, n. (p. 151).
 - Fam. *Kutorginidae*, n. (p. 151).
 - Fam. *Clitambonitidae*, n. (p. 151).
 - Fam. *Pentameridae*.
 - Fam. *Porambonitidae*.

- Subord. THECACEA, n. (p. 152).
 - ~ Fam. *Billingsellidæ*, n. (p. 152).
 - Fam. *Strophomenidæ*.
 - Subfam. *Orthothetinæ*.
 - Subfam. *Rufinesquinæ*, n. (p. 153).
 - Subfam. *Cadomellinæ*.
 - Fam. *Thecididiidæ*.
 - Subfam. *Thecidiiinæ*.
 - Subfam. *Lyttoniinæ*.
 - Fam. *Productidæ*.
 - Fam. *Richthofenidæ*.
 - Fam. *Orthidæ*.

Order TELOTREMATA.

- Subord. ROSTRACEA, n. (p. 155).
 - Fam. *Rhynchonellidæ*.
 - ~ Fam. ? *Eichwaldiidæ*, n. (p. 155).

Subord. HELICOPEGMATA.

- Fam. *Atrypidæ*.
 - Subfam. *Zygospirinæ*.
 - Subfam. *Atrypinæ*.
- Fam. *Spiriferidæ*.
 - Subfam. *Suessiinæ*.
 - Subfam. *Uncitinae*.
 - Subfam. *Trigonotretinæ*, n. (p. 156).
- Fam. *Nucleospiridæ*.
- Fam. *Athyridæ*.
 - Subfam. *Athyrinæ*.
 - Subfam. *Meristellinæ*.
- Fam. *Koninckinidæ*.

Subord. ANCYLOBRACHIA.

- Fam. *Terebratulidæ*.
 - Subfam. *Centronellinæ*.
 - Subfam. *Stringocephalinæ*.
 - Subfam. *Terebratulinæ*.
- Fam. ? *Dyscoliidæ*.
- Fam. *Terebratellidæ*.
 - ~ Subfam. *Dallinæ*, n. (Beecher, p. 159).
 - Subfam. *Platidiinæ*.
 - Subfam. *Megathyrinæ*.
 - ~ Subfam. *Magellanicæ*, n. (Beecher, p. 160).
 - Subfam. *Magasinae*.
 - Subfam. *Kraussinæ*.

His paper is accompanied by a table showing the relationships and geological distribution of these families.

Generic evolution of some recent *Brachiopoda*; CRANE (5).

Generic evolution of Palæozoic *Brachiopoda*; CRANE (6).

Type fossils in the Woodwardian Museum; WOODS, Geol. Mag. p. 113.

Catalogue of the types and figured specimens in the Geological Department, Manchester Museum; BOLTON, Museum Handbooks, (*Brach.*) pp. 9 & 10.

III.—DISTRIBUTION.

A.—GEOGRAPHICAL.

Distribution of some recent *Brachiopoda*; CRANE (5).

Norwegian Coast: 4 species collected in Trondhjem Fiord; NORMAN, Ann. Nat. Hist. xii, pp. 441–443.

Russian Arctic Seas: 3 species; HERZENSTEIN (*Moll.*, No. 163) p. 138.

British Columbia: Check list; [NEWCOMBE] (*Moll.*, No. 261).

South Australia: List; ADCOCK (*Moll.*, No. 2).

B.—GEOLOGICAL.

Table showing the geological distribution of the *Brachiopoda*; SCHUCHERT (11).

Tertiary *Brachiopoda* from Australia; TATE & DENNANT, Tr. R. Soc. S. Austral. xvii, p. 225.

Pliocene *Brachiopoda* from the environs of Bologna: *Terebratulina seguennæ*, n. sp.; FORESTI, Bull. Soc. malac. Ital. xviii, pp. 55–72, 1 pl.

Miocene *Brachiopoda* from the beds at Kralitz, in Mähren; TOULA, Ann. Hofmus. Wien, viii, p. 290.

Eocene *Brachiopoda* of the Sables blancs d'Assche; VINCENT, Bull. Soc. malac. Belgique, 1892 [1894] pp. xviii & xix.

Cretaceous *Brachiopoda* from Tunis; PERON, Explor. Scient. Tunisie, Descript. Invert. Foss. pp. 329–338, figg.

Jurassic: *Thecididea ornata* and *Terebratulina substriata* recently discovered in the Yorkshire Oolites; WALKER (12).—Jurassic *Brachiopoda* from the Swiss Jura, few new species; HAAS (7).—Jurassic fossils from the Balkans, N. of Sofia, with *Terebratula lakatnikensis*, n. sp.; TOULA, SB. Ak. Wien, Abth. I, Bd. cii, pp. 191–206, figg.—Jurassic *Brachiopoda* with new species from the Caucasus; NEUMAYR & UHLIG, Denk. Ak. Wien, lix, pp. 4–17, figg.—Upper Jurassic *Brachiopoda* of N. Germany, with *Rhynchonella jaekeli*, n. sp.; FIEBELKORN, Zeitschr. Geol. Ges. xlvi, pp. 390–395.—Upper Jurassic *Brachiopoda* of Poland, with 2 new species; SIEMIRADZKI, t. c. pp. 130–142.—Corallian *Brachiopoda* from the Bernese Jura; LORIOL (see *ante*, *Moll.*, p. 15, No. 216); *Brachiopoda* from the Sequanian beds at Tonnere (Yonne); LORIOL (see *ante*, *Moll.* p. 15, No. 217.)

—Corallian *Brachiopoda* of Oberbuchsiten ; GREPPIN (see *ante*, *Moll.* p. 10, No. 141).—Oxford clay fauna with *Rhynchonella aquatorialis*, n. sp. ; TORNQUIST, Jahrb. Hamburg. Anst. x, p. 281.—*Brachiopoda* from the Tithonian of the Crimea, with *Lingula tithonia*, n. sp. ; RETOWSKI, Bull. Soc. Moscow, 1893, pp. 286–288.—*Brachiopoda* from the Lower Jurassic of the southern Jura ; RICHE, Ann. Univ. Lyon, vi, Fasc. 3.

Liassic *Brachiopoda*, 5 n. ff. ; GRECO, P.-v. Soc. Toscana, viii, p. 38.—Revision of the Liassic fauna of Gozzano, Piedmont, with *Koninckina* (?) *aquonice*, *Rhynchonella bulga*, *restituta*, and *Waldheimia pedemontana*, n. spp. ; PARONA, Mem. Ac. Torino, xlivi, pp. 20–51, figg.—New *Koninkoniidae* from the Alpine Lias ; BITTNER (3).—Lower Lias fossils from Monte S. Giuliano, with *Rhynchonella iuliana*, n. sp. ; NERI, P.-v. Soc. Toscana, viii, p. 97.—Lower Lias *Brachiopoda* from the Apuanian Alps, and Lunigianian Appenines, with *Rhynchonella canavarii* and *Terebratula cocchii*, n. spp. ; FUCINI, Atti Soc. Toscana, xii, pp. 295–305, figg.

Palaeozoic *Brachiopoda*, CRANE (6) : working list of Palaeozoic fossils of Cornwall ; COLLINS, Tr. geol. Soc. Cornwall, xi, pp. 437–452.—Devonian *Brachiopoda* of the South of England, with several n. spp. and *Enantiosphen*, n. g. ; WHIDBORNE (13).—Fauna of the Malevka-Mourayevnia bed (Upper Devonian) with n. spp. and lists [Russ. with Fr. résumé] ; PEETZ, Trudui St. Petersb. Obsch. xxii, pp. 43–66, figg.—*Brachiopoda* from the Grauwacke at Seifen (no n. spp.), MAURER (10) ; *Brachiopoda* from the St. John's Group, New Brunswick, MATTHEW, Bull. Soc. N. Brunswick, x, pp. xvi & xvii ; ib, Tr. R. Soc. Canada, x, Sect. iv, pp. 100–104, figg., n. spp. and vars.—Silurian *Brachiopoda* from Arisaig, Nova Scotia ; AMI, P. N. Scotia Inst. (2) i, pp. 187 & 188.—^oLower Silurian *Brachiopoda* of Minnesota ; WINCHELL & SCHUCHERT, Final Rep. Minnesota Geol. Surv. iii, chap. v : Review in Geol. Mag. 1893, pp. 421–424.

IV.—SYSTEMATIC.

An introduction to the study of the *Brachiopoda* ; HALL & CLARKE, Rep. N. York Mus. 1891 (1892).

Classification of the *Brachiopoda* with many n. fam. and subfam., &c. (for which see *ante*, pp. 2, 3) ; SCHUCHERT, Amer. Geol. xi, pp. 141–167.

[†]*Amphiclinodonta adnethica*, Alpine Lias, BITTNER, Jahrb. geol. Reichsanst. xlivi, p. 141, figg., n. sp.

[†]*Amphistrophia*, n. subg. of *Strophonella* ; type *S. striata*, Hall, HALL & CLARKE, Nat. Hist. New York, Palæont. viii, pt. i, 1892, p. 292 (buried in text).

[†]*Anoplia*, n. subg. of *Chonetes* ; type *Leptaena nucleata*, Hall, HALL & CLARKE, Nat. Hist. New York, Palæont. viii, pt. i, 1892, p. 309 (buried in text).

[†]*Enantiosphen*, n. g., for *Meganteris* ? *ricaryi*, Davidson ; WHIDBORNE (13), p. 97, fig.

†*Koninckina pichleri*, p. 136, *waehneri*, (*Koninckodonta*) *fuggeri*, p. 137, *geyeri*, p. 140, Alpine Lias, BITTNER, Jahrb. geol. Reichsanst. xlivi, figg., n. spp.

‡ *Koninckodonta*, n. subg. of *Koninckina* [q.v.].

· †*Leptostrophia*, n. subg. of *Stropheodonta*; type *S. magnifica*, Hall, HALL & CLARKE, Nat. Hist. New York, Palæont. viii, pt. i, 1892, p. 188 (buried in text).

· †*Pholidostrophia*, n. subg. of *Stropheodonta*; type *S. nacreus*, Hall, HALL & CLARKE, Nat. Hist. New York, Palæont. viii, pt. i, 1892, p. 287 (buried in text).

II.—ANATOMY, &c.

PROUHO (13) continues his investigation of marine *Bryozoa*. A colony is composed of an *oozoite* and of a certain number of *blastozoites*. The oozoite is the founder of the colony and is the immediate result of the metamorphosis of the larva : the blastozoites arise from it by blastogenesis. The term *Bryozoite* is employed for any member of a colony, whether oozoite or blastozoite : it is an indivisible unity, and is not to be regarded as composed of two individuals, zoecium and polypide, though these terms are still used for convenience of description. The zoecium, or cystid, is the protective external skeleton ; the polypide includes the digestive, nervous, and muscular organs ; the dual, polycopystid interpretation of the individual *Bryozoite* is rejected. The author discusses the relations of the adult tissues to those of the larva in *Gymnolaemata*, taking *Flustrella hispida* as the type. The "intertentacular organ" of *Gymnolaemata* is a genital duct existing only in the sexual

Bryozoites, never exhibiting the structure of a nephridium, but having the same position as the orifice of the metanephridium in *Phylactolaemata*, and serving, secondarily, for the evacuation of the débris of the degenerated polypides. The development of the ovum is described by the author, who considers that all Ectoproctous *Bryozoa* with a free development, have a larva of the *Cyphonautes* type. In *Bryozoa* the ectoderm retains the power of forming a fresh endoderm, or intestinal epithelium. *Ectoprocta* and *Entoprocta* should be kept in one class. The degeneration of the Polypide may be related to the absence of an excretory system. The loss of the calyx in *Entoprocta* is not analogous to the formation of "brown bodies" in *Ectoprocta*. EHLLERS (5) reviews the above-named investigations of Prouho, discussing in particular the openings to the exterior; he briefly indicates how his conclusions bear upon the relationships of the different types.

Anatomy and reproduction of *Urnatella gracilis*; DAVENPORT (3).—Nephridia of *Cristatella*; CORI (2).—Terminology for the apertures and pores in the *Cheilostomata*, revised and amended; GREGORY (7).

GREGORY (7) classifies the *CHEILOSTOMATA* as follows:—

I. Subord. STOLONATA.

- Fam. 1. *Aeteidiæ*.
- Fam. 2. *Eucratiidiæ*.
- Fam. 3. *Chlidoniidiæ*.

II. Subord. CELLULARINA.

- Fam. 4. *Cellulariidiæ*.
- Fam. 5. *Bicellariidiæ*.
- Fam. 6. *Epistomiidiæ*.
- Fam. 7. *Catenicellidae*.
- Fam. 8. *Bifaxariidiæ*.

III. Subord. ATHYRIATA (nov.).

- Fam. 9. *Farciminariidiæ*.
- Fam. 10. *Flustridae*.
- Fam. 11. *Membraniporidæ*.
 - Subfam. 1. *Membraniporinæ*.
 - Subfam. 2. *Electrininæ*.
 - Subfam. 3. *Annulitinae*.
- Fam. 12. *Cribrilinidæ*.
 - Subfam. 1. *Cribrilininæ*.
 - Subfam. 2. *Hiantoporinæ*.
 - Subfam. 3. *Stegioporinæ*.
- Fam. 13. *Microporidæ*.
 - Subfam. 1. *Microporinae*.
 - Subfam. 2. *Selenarinæ*.
- Fam. 14. *Steganoporellidæ*.
- Fam. 15. *Cellariidæ*.

IV. Subord. SCHIZOTHYRIATA (nov.).

Fam. 16. *Schizoporellidae*.Subfam. 1. *Schizoporellinae*.Subfam. 2. *Schizoreteporinae*.Subfam. 3. *Schismoporinae*.Subfam. 4. *Biporinae*.Fam. 17. *Adeonellidae*.Fam. 18. *Microporellidae*.Subfam. 1. *Microporellinae*.Subfam. 2. *Schismoporellinae*.Subfam. 3. *Adeoninae*.

V. Subord. HOLOTHYRIATA (nov.).

Fam. 19. *Lepraliidae*.Subfam. 1. *Lepraliinae* (*Cycliopora—Lepralia*).Subfam. 2. *Teichoporinae*.Subfam. 3. *Reteporinae*.Fam. 20. *Celleporidae*.Fam. 21. *Smittiidae*.

DAVENPORT (3) gives reasons for adopting the view that *Bryozoa* have probably been derived from Rotifer-like ancestors.

III.—DISTRIBUTION.

A.—GEOGRAPHICAL.

British Islands—Eastbourne : Marine *Bryozoa*; GABBETT (6).—Ireland : Species rare, or new to the fauna; DUERDEN (4).

France : *Bryozoa* at Bandol (Var); CAZIOT, Feuille Natural. xxiii, p. 127.

Norway : List of *Bryozoa* from Beitstadfjord; NORDGAARD, Bergens Mus. Aarbog, 1892, Afhandl 2, pp. 7 & 8.—Fauna of Trondhjem Fiord, with *Scrupocellaria intermedia*, n. sp.; NORMAN (12).

Africa : Note on the distribution of *Plumatella*; MEISSNER (11).

Brazil : New freshwater species, *Lophopus jheringi*; MEISSNER (10).

Torres Straits : *Stirparia haddoni*, *Lepralia filamentosa*, *Smilia levis*, *Barentsia laxa*, n. spp., 1890; KIRKPATRICK (9).

B.—GEOLOGICAL.

Post-Tertiary : *Bryozoa* from a deposit at Selsea, Sussex; BELL, Rep. Yorksh. Soc. 1892 (1893), p. 65, figg.

Neogene : *Bryozoa* from Bessarabia; SINTZOV, Zapiski Novoross. Obshch. xvii, pp. 51–57, figg.

Miocene : *Bryozoa* from Kralitz in Mähren; TOULA, Ann. Hofmus. Wien, viii, pp. 289–290.

Palaogene: British Palaogene *Bryozoa* with many n. spp., and *Biselenaria*, n. n., *Schismoporella*, *Teichopora*, *Meniscopora*, n. g.; GREGORY (7).

Cretaceous: *Bryozoa* from Tunis, several n. spp. and *Globulipora*, n. g.; PERON & THOMAS, Explor. Scient. Tunisie, Descript. Invert. Foss. pp. 339-366, figg.—*Bryozoa* of the British Isles, many tables and some new names without descriptions; VINE (15).

Jurassic: *Bryozoa* from the Cornbrash of Thrapston, Yorks, with *Stomatopora*, 2 n. spp., *Proboscina*, 4 n. spp.; VINE (16).

IV.—SYSTEMATIC.†

ENTOPROCTA.

Barentsia laxa, Torres Straits, KIRKPATRICK, P. Dublin Soc. vi (1890), p. 624, fig., n. sp.

Pedicellinopsis, Hincks, this genus is cancelled as a synonym of *Barentsia*; HINCKS, Ann. Nat. Hist. xii, p. 140.

Urnatella gracilis, anatomy and reproduction; DAVENPORT, Bull. Mus. Harvard, xxiv, pp. 1-44, 6 pls. *Urnatella* is, structurally, one of the *Pedicellinidae*, and most nearly resembles *Arthropodaria benedeni*.

ECTOPROCTA.

GYMNOLÆMATA.

CYCLOSTOMATA.

†*Entalophora tergemina*, London Clay, Sheppey, GREGORY, Tr. Zool. Soc. London, xiii, p. 260, figg., n. sp.

†*Globulipora*, n. g., for *G. africana*, n. sp., Cretaceous, Tunis; PERON & THOMAS, Explor. Scient. Tunisie, Descript. Invert. Foss. pp. 349 & 352, figg.

†*Idmonea bialternata*, London Clay, London, GREGORY, Tr. Zool. Soc. London, xiii, p. 257, figg., n. sp.

†*Heteropora glandiformis*, Palæogene, S. E. England, GREGORY, Tr. Zool. Soc. London, xiii, p. 261, figg., n. sp.

†*Proboscina obscura*, p. 255, *divisa*, p. 256, *ornata*, *thrapstonensis*, p. 257, Cornbrash, Thrapston, VINE, P. Yorks. geol. Soc. xii, figg., n. spp.

†*Stomatopora phillipsii*, p. 250, *intermixta*, p. 252, Cornbrash, Thrapston, Yorkshire, VINE, P. Yorksh. geol. Soc. xii, figg., n. spp.

CTENOSTOMATA.

Alcyonidium variegatum, p. 569, *duplicer*, p. 580, Mediterranean, PROUHO, Arch. Zool. exp. x, figg., n. spp.

† is prefixed to fossil forms.

CHILOSTOMATA.

A revised and amended terminology for the apertures and pores is given by GREGORY, Tr. Zool. Soc. London, xiii, pp. 220 & 221, who also proposes (p. 222) the following new suborders :—*Athyriata*, *Schizothyriata*, and *Holothyriata* (see his classification given *ante*, p. 3).

Adeonellidae: systematic position defined ; with list of species belonging to the genus *Adeonella*, and of those which have been referred to it ; GREGORY, Tr. Zool. Soc. London, xiii, pp. 241-245.

† *Adeonellopsis wetherelli*, London Clay, London Basin, GREGORY, Tr. Zool. Soc. London, xiii, p. 245, figg., n. sp.

† *Biselenaria*, n. n. for *Diplotaxis*, Reuss., with *B. offu*, n. sp., Barton Beds, Barton ; GREGORY, Tr. Zool. Soc. London, xiii, pp. 234 & 235, figg.

† *Conescharrellina clithridiata*, London Clay, London, GREGORY, Tr. Zool. Soc. London, xiii, p. 252, figg., n. sp.

† *Cribrilina vinei*, London Clay, Sheppen, GREGORY, Tr. Zool. Soc. London, xiii, p. 236, fig., n. sp.

Lepralia filamentosa, Torres Straits, KIRKPATRICK, P. Dublin Soc. vi (1890), p. 619, fig., n. sp.

† *Membranipora buski*, *crassomuralis*, p. 229, *tenuimuralis*, p. 231, *virguliformis*, p. 232, British Palaeogene, GREGORY, Tr. Zool. Soc. London, xiii, figg., n. spp.

† *Meniscopora*, n. g., with *M. bigibbera*, n. sp., Bracklesham Beds, Huntingbridge ; GREGORY, Tr. Zool. Soc. London, xiii, pp. 250 & 251, figg.

† *Micropora cribiformis*, Barton Beds, Barton, GREGORY, Tr. Zool. Soc. London, xiii, p. 237, fig., n. sp.

† *Mucronella angustoccium*, Palaeogene, S.E. England, GREGORY, Tr. Zool. Soc. London, xiii, p. 254, figg., n. sp.

† *Onychocella magnoperta*, Brockenhurst Beds, Brockenhurst, GREGORY, Tr. Zool. Soc. London, xiii, p. 238, fig., n. sp.

† *Schismoporella*, n. g., for *Cellepora schizogaster*, Reuss. ; GREGORY, Tr. Zool. Soc. London, xiii, p. 243.

† *Schizoporella magnoaperta*, Barton Beds, Barton, GREGORY, Tr. Zool. Soc. London, xiii, p. 239, fig., n. sp.

Scrupocellaria intermedia, Trondhjem Fiord, NORMAN, Ann. Nat. Hist. xii, p. 451, figg., n. sp.

Smittia levis, Torres Straits, KIRKPATRICK, P. Dublin Soc. vi (1890), p. 620, fig. ; † *S. tubularis*, London Clay, Hampstead, GREGORY, Tr. Zool. Soc. London, xiii, p. 255, figg., n. spp.

Stirparia haddoni, Torres Straits, KIRKPATRICK, P. Dublin Soc. vi (1890), p. 613, fig., n. sp.

† *Teichopora*, n. g., with *T. clavata*, n. sp., Barton Beds, Barton, GREGORY, Tr. Zool. Soc. London, xiii, p. 249, figg.

† *Umbonula bartonense* [sic], Barton Beds, Barton, p. 248, *calcariformis*, London Clay, Fareham, p. 249, GREGORY, Tr. Zool. Soc. London, xiii, figg., n. spp.

PHYLACTOLÆMATA.

Cristatella: note on the nephridia; CORI, Zeitschr. wiss. Zool. Iv, pp. 626-644, 2 pls. *C. mucedo*, note on; BRAEM, Zool. Anz. xvi, pp. 65 & 66.

Lophopus jheringi, Brazil, MEISSNER, SB. Ges. naturf. Berlin, 1893, p. 260, fig., n. sp.

Plumatella: note on the distribution of the genus in Africa; MEISSNER, Zool. Anz. xvi, pp. 385 & 386, who found the statoblasts attached to the shells of *Aetheria*.

X. CRUSTACEA.

(Including GIGANTOSTRACA AND PANTOPODA.)

By R. I. POCOCK.

II.—SUBJECT-INDEX TO PAPERS ON EMBRYOLOGY, ANATOMY, PHYSIOLOGY, DISTRIBUTION, PALÆONTOLOGY, &c.

1. EMBRYOLOGY, METAMORPHOSIS, &c.

Formation of the generative organs of *Amphipoda*; ROSSYNSKAIA-KOJEVNIKOVA.—Origin of reproductive elements in *Apus* and *Branchipus*; E. S. MOORE.

Spermatogenesis of *Decapoda*; SABATIER.

Hermaphroditism of river-crabs; LA VALETTE ST. GEORGE.

Segmentation of egg and formation of germinal layers in *Lernaea*; PEDASCHENKO.—On the germinal layers of *Moina*, and of the *Cladocera*; SAMASSA; also GROBBEN.—Cement-glands and origin of egg-membranes in the Lobster; HERRICK (1).—Development of the winter-eggs of *Moina* and of the *Daphnidæ*; HÄCKER (1, 2).

Maturation of the parthenogenetically developed eggs of *Artemia*; BRAUER (1).—On the eggs of *Branchipus*; BRAUER (2).—Development of the germinal streak in *Gammarus*; BERGH (2): in *Mysis*; BERGH (1).

Development of the *Ostracoda*; MÜLLER: of the *Halocypridae*; CLAUS (3): of *Pontellidae*; CLAUS (6): of *Cyclops*; CLAUS (7): of *Chondracanthus*; SCHIMKEWITSCH: of the *Isopoda*; NUSBAUM: of the *Cumacea*; BUTSCHINSKY: of the *Oxyrhyncha*; CANO: of *Maia*; URBA-NOWICZ.

Postembryonic development of *Stenopus*; CANO, HERRICK (2): of the Crayfish; LAGUESSE.

Larval stages of *Malacostraca*, pp. 62-99; ORTMANN (3).

2. ANATOMY, PHYSIOLOGY, &c.

Physiology of the Crayfish; CUÉNOT (1): of *Decapoda*; CUÉNOT (2).

On the coelom and vascular system of *Arthropoda*; LANKESTER.

Nephridia and body-cavity of *Decapoda*; ALLEN.

On the mid-gut, &c., of river-crabs; FRENZEL.

Function of the liver in *Crustacea*; SAINT HILAIRE.

On the buccal-armature and a new digestive gland in *Cirripedia*; GRUVEL (3).

Mouth-parts of *Crustacea*; HANSEN.—On the mouth of *Crustacea*; POUCHET (2).

Circulation and excretion of *Cirripedia*; GRUVEL (2).

Structure and growth of shell in *Balanus*; GRUVEL (1).

Function of the otoliths in *Astacus*; BUNTING.—Physiology of the ear-labyrinth in crabs; KREIDL.

Relation between the sense-organs and mode of life and respiration of Amphibious *Decapoda*; AURIVILLIUS (2).

Nervous system and sense-organs of *Decapoda*; GERSTAECKER.—Nervous system of *Cypris*; TURNER (2).

On the chromatophores of *Crustacea*; AGASSIZ.

The influence of light upon the colouration of *Crustacea*; MALARD.

Luminosity of *Pleuromma*; DAHL.—On the pigment mass of *Pleuromma*; GIESBRECHT (1).

Myology of *Astacidae*, *Thalassinidae*, *Paguridae*, *Munida*; BORDAGE (1, 2, 3, 4): of *Palinurus*; PARKER & GORDON.

3. CLASSIFICATION, &c.

Phylogeny of *Arthropoda*; SEGOND.

Morphology of *Ascothoracida*; KNIPOWITSCH.

Classification, &c., of *Malacostraca*; STEBBING.

Revision of the classification of *Brachyura*; ORTMANN (1, 2): of *Gammarini*; DELLA VALLE.

Classification of *Cyclopidae*; CLAUS (1, 2, 7, 8), MRÁZEK (2, 3, 4): of *Calanidae*; CLAUS (8): of *Pontellidae*; CLAUS (4, 6).

4. HABITS, PARASITES, AND MISCELLANEOUS SUBJECTS.

Symbiosis between *Suberites* and *Paguridae*; CELESIA.

Parasites of American Crayfishes; J. P. MOORE.—*Tremnocephala* on *Astacoides*; VAYSSIERE.—A Cestode parasitic in *Hyas*; VAULGEARD.—*Cysticercus* in *Cyclops*; ROSSETER.—*Protozoa* parasitic in and upon *Cyclopidae*; SCHEWIAKOFF.

Mysis in freshwater; HOEK (2).

Natural history of *Limnoria*; HOEK (1); HOEK et alii; MURPHY.

Habits of *Thalassina*; HORST: of *Orchestia gammarellus*; HERDMAN: of *Maia* and of *Palinurus*; HORNELL (1): of *Cyamus*; POUCHET (1): of *Cyamus*, *Baculus*, and *Pennella*; LUTKEN (1, 2): on *Æglea*; BERG.

Albinism in the Lobster; HORNELL (2), MARTIN.

Monstrosities amongst *Decapoda*; RICHARD (1): in Crayfish; DENDY.

Action of poisons on *Carcinus*; LANGLOIS.

Artificial hatching of the Lobster; LE BEAU.—Shrimp and prawn fishery; WALKER (2).

5. PALEONTOLOGY.

Structure of carapace in *Rhinocaris*; CLARKE.

List of the Palaeozoic *Crustacea* of Cornwall; COLLINS.

Bibliography of Palaeozoic *Crustacea* with catalogue of North American species; VOGDES.

Ostracoda from the Palaeozoic Rocks of Westmoreland; JONES (2): of Ayrshire; JONES (3): of Wyoming and Utah; JONES (5): from Silurian Rocks of Nova Scotia; AMI: from Carboniferous Rocks of West Scotland; YOUNG: from the Gault; CHAPMAN & SHERBORN: from the Cretaceous of Mecklenburg; SCHACKO.

Phyllopoda of the Palaeozoic Rocks; JONES & WOODWARD (1, 2), and JONES (1).

Cirripedia from the Upper Silurian of Gotland; AURIVILLIUS (1).

Decapoda from the Tertiary Rocks of Austria; BITTNER: of Switzerland; STUDER: of Italy; RISTORI (1, 2).

New genera:—*Phrynomelampus* and *Ranidina* (*Decapoda*); BITTNER: *Macrocaris* (*Phyllocarida*): MILLER.

6. DISTRIBUTION.

Palaeartic Region.

Great Britain.—Wanstead Park: *Entomostraca*; SCOURFIELD.—Liverpool Bay: *Podophthalma*; WALKER (1): *Copepoda*; J. C. THOMSON.—Firth of Forth, &c.: mostly *Entomostraca*; SCOTT, T. (1-6), SCOTT, T. & A.

Norway: *Amphipoda*; SARS.—Trondhjem Fjord: *Crustacea*; NORMAN. Hungary: *Ostracoda*, &c.; DADAY.

Austria (Cracow, &c.,) *Crustacea*; JAWOROWSKI: *Assellidae* and *Phyllopoda*; FISZERA (1, 2).

Germany: *Copepoda*; SCHMEIL (1, 2): Lake Plön, *Crustacea*; ZACHARIAS (1, 2).

Switzerland: *Ostracoda*; KAUFMANN: *Cladocera*; KLOCKE.

France: Pelagic fauna of the Lakes of the French Jura and of the Pyrenees; GUERNE & RICHARD (1, 2): *Amphipoda* of Boulonnais; BONNIER of Saint Vaast-la-Hogue; CHEVREUX & BOUVIER: record of *Cypris bispinosa*; GUERNE, and of two new types of *Chionostomatidae*; GIARD & BONNIER.

Spain: *Isopoda*; DOLLFUS (2).

Portugal: *Crustacea*; OSORIO.

Canary Island: *Isopoda*; DOLLFUS (1).

Azores: *Crustacea*; BENEDICT.

Mediterranean: *Cirripedia*; CHEVREUX & GUERNE: *Orchestidae*; CHEVREUX (2).—Gulf of Naples: *Gammarini*; DELLA VALLE.

Syria, Egypt, and Palestine: *Copepoda*; RICHARD: *Decapoda*; BARROIS.

Japan: *Decapoda*; ORTMANN (1, 2): *Isopoda*; HILGENDORF (3).

Ethiopian Region.

Ashanti, Cape Town, &c.: *Crustacea*; BENEDICT.

Togoland (West Africa): *Malacostraca*; HILGENDORF (1, 2).

Zanzibar : *Copepoda* ; BOURNE.

Nossibé : *Crustacea* ; BRANCSIK.

Madagascar : *Eutomostraca* ; GUERNE & RICHARD (3).

South-east coast of Madagascar : *Crustacea* ; CONNORTON.

Seychelles : *Isopoda* ; DOLLFUS (6).

Oriental and Australian Regions.

Indian Ocean : *Crustacea* ; WOOD-MASON & ALCOCK (1, 2).

India, Ceylon, Birma : *Decapoda* and *Stomatopoda* ; HENDERSON.

Malay Archipelago : *Podophthalma* ; DE MAN.

Australian and China Seas : *Stomatopoda* ; POCOCK (1).

Tasmania and New Zealand : *Crustacea* ; THOMSON, G. M. (1, 2).

Nearctic Region.

Wisconsin : *Copepoda* ; MARSII (1, 2).

Cincinnati : *Entomostraca* ; TURNER (1).

Indiana : Crayfishes ; HAY.

West coast of North America and Sandwich Islands : *Brachyura* ; RATHBUN (2).

Neotropical Region.

Central America, Galapagos, &c. : *Decapoda* ; FAXON.—Central and South America, and West Indies : *Telphusidae* ; RATHBUN (3).

Lower California : *Paguridae* ; BOUVIER.

Venezuela : *Isopoda* ; BUDDE-LUND.

St. Vincent (W. Indies) : *Decapoda* ; POCOCK (2).

Barbados : *Crustacea* ; BENEDICT.

Bahamas : *Stomatopoda* ; BIGELOW (2).

Lower Amazons : *Copepoda* ; DAHL (1).

Argentine Republic : *Entomostraca* ; WIERZEJSKI.

III.—SYSTEMATIC.

MALACOSTRACA.

PODOPHTHALMA.

DECAPODA.

BRACHYURA.

(1) *Oxyrrhyncha*.

MAIIDÆ and INACHIDÆ.

- Neorhynchus mexicanus*, Gulf of California, p. 233, RATHBUN, P. U. S. Mus. xvi, n. sp.
- Paramithrax (Leptomithrax) bifidus*, Japan, p. 52, pl. iii, fig. 6, ORTMANN, Zool. Jahrb. Syst. vii, n. sp.
- Pleistacantha oryx*, Japan, p. 39, ORTMANN, Zool. Jahrb. Syst. vii, n. sp.
- Podochela tenuipes*, Gulf of California, p. 224, RATHBUN, P. U. S. Mus. xvi, n. sp.

- Pugettia minor*, Japan, p. 44, ORTMANN, Zool. Jahrb. Syst. vii; *P. dalli*, California, p. 232, RATHBUN, P. U. S. Mus. xvi: n. spp.
Sphenocarcinus agassizi, Gulf of California, RATHBUN, P. U. S. Mus. xvi, p. 231, n. sp.

PARTHENOPIDÆ.

- Heterocrypta transitans*, Japan, p. 417, pl. xvii, fig. 2, ORTMANN, Zool. Jahrb. Syst. vii, n. sp.
Lambrus hassleri, West coast Central America, p. 152, FAXON, Bull. Mus. Harvard, xxiv, n. sp.
L. (Parthenopoides) pteromerus, Japan, p. 416, pl. xvii, fig. 1, ORTMANN, Zool. Jahrb. Syst. vii, n. sp.
Mesorhæa gilli, Gulf of California, p. 235, RATHBUN, P. U. S. Mus. xvi, n. sp.
Parthenolambrus exilipes, Lower California, p. 234, RATHBUN, P. U. S. Mus. xvi, n. sp.

(2) *Cyclometopa*.

CANCRIDÆ.

[Including *Oziidæ*, *Menippidæ*, and *Xanthidæ* of ORTMANN.]

- Actaea peronii* (M.-Edw.), *squamosa*, Muttuwartu Par., p. 357, HENDERSON, Tr. Linn. Soc. London, v, n. var.
Actumnus verrucosus, Tuticorin, p. 364, pl. xxxvi, figg. 15 & 16, HENDERSON, Tr. Linn. Soc. London, v, n. sp.
Cancer pygmaeus, p. 426, pl. xvii, fig. 4, *japonicus*, p. 427, pl. xvii, fig. 5, Japan, ORTMANN, Zool. Jahrb. Syst. vii, n. spp.
Cymo tuberculatus, Mahé Atoll, p. 443, ORTMANN, Zool. Jahrb. Syst. vii, n. sp.
Cycloanthus californiensis, California, p. 237, RATHBUN, P. U. S. Mus. xvi, n. sp.
Halimede thurstoni, Tuticorin, p. 360, pl. xxxvi, figg. 13 & 14, HENDERSON, Tr. Linn. Soc. London, v, n. sp.
Hypocælus rugosus, Tuticorin, p. 358, pl. xxxvi, figg. 9-11, HENDERSON, Tr. Linn. Soc. London, v, n. sp.
Lophactæa fissa, Tuticorin, p. 355, pl. xxxvi, fig. 8, HENDERSON, Tr. Linn. Soc. London, v, n. sp.
Lophoxanthus frontalis, California, p. 236, RATHBUN, P. U. S. Mus. xvi, n. sp.
Lophozozymus dodone (Herbst), *glabra*, Fiji, p. 458, ORTMANN, Zool. Jahrb. Syst. vii, n. var.
Menippe convexa, Honolulu, p. 239, RATHBUN, P. U. S. Mus. xvi, n. sp.
Micropanope polita, Lower California, p. 238, RATHBUN, P. U. S. Mus. xvi, n. sp.

- Panopeus areolatus*, Jamaica, &c., p. 361, *dissimilis*, Trinidad, p. 366, *ovatus*, Gulf of California, p. 368, *angustifrons*, Massachusetts, Florida, &c., p. 373, *hemphillii*, Florida, p. 374, *bermudensis*, Bermuda, p. 376, BENEDICT & RATHBUN, P. U. S. Mus. xiv; *P. latus*, p. 153, *tanneri*, p. 154, West coast Central America, FAXON, Bull. Harvard Mus. xxiv : n. spp.
- Pilodius flavus*, Sandwich Is., p. 239, RATHBUN, P. U. S. Mus. xvi, n. sp.
- Pilumnus margaritatus*, Tahiti, p. 436; *major*, Japan, p. 439, ORTMANN, Zool. Jahrb. Syst. vii, n. sp.
- P. gonzalensis*, Gonzales Bay, p. 240, RATHBUN, P. U. S. Mus. xvi, n. sp.
- Xantho bifrons*, Ecuador, p. 450, pl. xvii, fig. 7, ORTMANN, Zool. Jahrb. Syst. vii, n. sp.
- Xanthodes minutus*, Sandwich Is., p. 238, RATHBUN, P. U. S. Mus. xvi;
- X. sulcatus*, West coast of Central America, p. 152, FAXON, Bull. Harvard Mus. xxiv : n. spp.

PORTUNIDÆ.

- Achelous affinis*, West coast of America, p. 155, FAXON, Bull. Mus. Harvard, xxiv, n. sp.
- Callinectes tumidus*, Ordway, *gladiator*, Bezah River, p. 537, BENEDICT, P. U. S. Mus. xvi, n. var.
- Gonioneptunus*, n. g., *subornatus*, n. sp., Japan, p. 79, pl. iii, fig. 9; ORTMANN, Zool. Jahrb. Syst. vii.
- Neptunus (Hellenus) iridescent*, Gulf of California, p. 241, RATHBUN, P. U. S. Mus. xvi, n. sp.

CORYSTIDÆ.

- ✓ *Podocatactes*, n. g., p. 29, *hamifer*, n. sp., Japan, p. 29, pl. iii, fig. 1; ORTMANN, Zool. Jahrb. Syst. vii.
- ✓ *Trachycarcinus*, n. g., *corallinus*, n. sp., West coast of America, p. 156; FAXON, Bull. Mus. Harvard, xxiv.

TELPHUSIDÆ.

[Including *Pseudotelphusidæ* and *Trichodactylidæ*.]

- Deckenia alluaudi*, Seychelles, p. 335, pl. viii, MILNE-EDWARDS & BOUVIER, Ann. Sci. Nat. xv, n. sp.
- Dilocarcinus margaritifrons*, Peru, p. 492, pl. xvii, fig. 11, *cryptodus*, Peru, p. 493, ORTMANN, Zool. Jahrb. Syst. vii, n. spp.
- Epilobocera haytensis*, Hayti, p. 658, pl. lxxvii, figg. 4 & 5, *granulata*, West Indies, p. 659, pl. lxxvii, fig. 6, RATHBUN, P. U. S. Mus. xvi, n. spp.
- Paratelphusa salangensis*, Salanga, p. 487, ORTMANN, Zool. Jahrb. Syst. vii, n. sp.
- Potamocarcinus nicaraguensis*, Steep., Nicaragua, p. 656, pls. lxxvi & lxxvii, figg. 1-3, RATHBUN, P. U. S. Mus. xvi.

Pseudotelphusa jouyi, Lake Chapala (Mexico), p. 649, pls. lxxiii & lxxiv, figg. 1-3, *dugesii*, Cuernavaca, p. 651, pl. lxxiv, figg. 4 & 5, *terrestris*, Guadalajara, p. 651, pl. lxxiv, figg. 6 & 7, *verticalis*, Tehuantepec, p. 652, pl. lxxiv, figg. 8 & 9, *xantusi*, ? Mexico, p. 652, *colombianus*, Colombia, p. 653, pl. lxxiv, fig. 10, pl. lxxv, figg., *lamellifrons*, Tehuantepec, p. 654, pl. lxxv, figg. 2-5, *richmondi*, Nicaragua, p. 654, pl. lxxv, figg. 6-10, RATHBUN, P. U. S. Mus. xvi, n. spp.

Telphusa masoniana, Jumna, &c., p. 381, pl. xxxvii, figg. 1-4, *pocockiana*, Jubbulpore, p. 384, pl. xxvii, figg. 5-8, HENDERSON, Tr. Linn. Soc. London, v, n. spp.

Trichodactylus quinquedentatus, Nicaragua, p. 660, pl. lxxvii, fig. 7, RATHBUN, P. U. S. Mus. xvi, n. sp.

(3) *Catometopa.*

GRAPSIDÆ and GECARCINIDÆ.

Gecarcinus malpilensis, Malpilo I., p. 157, FAXON, Bull. Mus. Harvard, xxiv, n. sp.

Heterograpsus jouyi, Mexico, p. 247, RATHBUN, P. U. S. Mus. xvi, n. sp.

Pachygrapsus longipes, Honolulu, p. 247, RATHBUN, P. U. S. Mus. xvi, n. sp.

Sesarma cruciata, Mindanao, p. 624, pl. xxi, fig. 6, *demanii*, Siargao, p. 625, pl. xxi, fig. 7, *semperi*, Bohol, p. 630, pl. xxi, fig. 1, BURGER, Zool. Jahrb. Syst. vii, n. spp.

Xenophtalmus obscurus, Gulf of Martaban, p. 394, pl. xxxvi, figg. 18 & 19, HENDERSON, Tr. Linn. Soc. London, v, n. sp.

OXYPODIDÆ.

Carcinoplax dentatus, Gulf of California, p. 243, RATHBUN, P. U. S. Mus. xvi, n. sp.

Gelasimus gracilis, California, p. 244, *latimanus*, Lower California, p. 245, *coloradensis*, Lower California, p. 246, RATHBUN, P. U. S. Mus. xvi, n. spp.

Ediplax, n. g., p. 241, *granulatus*, n. sp., Gulf of California, p. 242; RATHBUN, P. U. S. Mus. xvi.

Speocarcinus granulimanus, Gulf of California, p. 242, RATHBUN, P. U. S. Mus. xvi, n. sp.

PINNOTHERIDÆ.

Cryptophys, n. g. p. 250, *concharum*, n. sp., Puget Sound, p. 250; RATHBUN, P. U. S. Mus. xvi.

Pinnixa occidentalis, Alaska and Lower California, p. 248, *californiensis*, California, p. 249, RATHBUN, P. U. S. Mus. xvi; *P. panamensis*, Panama, p. 158, FAXON, Bull. Harvard Mus. xxiv : n. spp.

- Opisthopus*, n. g., p. 251, *transversus*, n. sp., California, p. 252, RATHBUN,
P. U. S. Mus. xvi.
Scleroplax, n. g., p. 250, *granulatus*, n. sp., Lower California, p. 251;
RATHBUN, P. U. S. Mus. xvi.

(4) *Oxystomata.*

CALAPPIDÆ.

- Mursia hawaiiensis*, Sandwich Is., p. 252, RATHBUN, P. U. S. Mus. xvi,
n. sp.
Platymera californiensis, California, p. 253, RATHBUN, P. U. S. Mus. xvi,
n. sp.

DORIPPIDÆ.

- Aethusa ciliatifrons*, p. 159, *pubescens*, p. 160, West coast Central America,
p. 159, FAXON, Bull. Mus. Harvard, xxiv; *A. lata*, Gulf of California,
p. 258, RATHBUN, P. U. S. Mus. xvi : n. spp.
Aethusina smithiana, West coast Central America, p. 160, FAXON, Bull.
Mus. Harvard, xxiv, n. sp.
Cymopolia fragilis, Lower California, p. 259, *zonata*, Gulf of California,
p. 259, RATHBUN, P. U. S. Mus. xvi; *C. tuberculata*, West coast
Central America, p. 161, FAXON, Bull. Mus. Harvard, xxiv : n. spp.

LEUCOSIIDÆ.

- Ebalia fallax*, Gulf of Martaban, &c., p. 402, pl. xxxviii, figg. 4-6,
HENDERSON, Tr. Linn. Soc. London, v; *E. americana*, Gulf of
California, p. 254, RATHBUN, P. U. S. Mus. xvi : n. spp.
Myra townsendi, Gulf of California, p. 255, *subovalis*, Gulf of California,
p. 256, RATHBUN, P. U. S. Mus. xvi, n. spp.
Nursia tuberculata, Gulf of California, p. 257, RATHBUN, P. U. S. Mus.
xvi, n. sp.
Philyra verrucosa, Madras, p. 399, pl. xxxvii, figg. 10-12, *polita*, Madras,
p. 401, pl. xxxviii, figg. 1-3, HENDERSON, Tr. Linn. Soc. London, v,
n. spp.
Pseudophilyra pusilla, Gulf of Martaban, p. 398, pl. xxxvii, figg. 13-15,
HENDERSON, Tr. Linn. Soc. London, v, n. sp.
Randallia distincta, Sandwich Is., p. 257, RATHBUN, P. U. S. Mus. xvi,
n. sp.

MATUTIDÆ.

- Osachila lata*, West coast of America, p. 159, FAXON, Bull. Mus.
Harvard, xxiv, n. sp.

(5) *Raninidea.*

RANINIDÆ.

- Raninoides serratifrons*, Cheval Par., p. 408, pl. xxxviii, figg. 10-12, HENDERSON, Tr. Linn. Soc. London, v, n. sp.
Raninops fornicata, West coast Central America, p. 162, FAXON, Bull. Mus. Harvard, xxiv, n. sp.

MACRURA.

(1) *Anomala.*

LITHODIDÆ.

- Echidnocerus diomedea*, West coast Central America, p. 164, FAXON, Bull. Mus. Harvard, xxiv, n. sp.
Lithodes panamensis, West coast Central America, p. 166, FAXON, Bull. Mus. Harvard, xxiv, n. sp.
Paralomis aspera, p. 164, *longipes*, p. 165, West coast Central America, FAXON, Bull. Mus. Harvard, xxiv, n. sp.
Rhinolithodes cristatipes, West coast Central America, p. 163, FAXON, Bull. Mus. Harvard, xxiv, n. sp.

PORCELLANIDÆ and ALBUNEIDÆ.

- Albunea thurstoni*, Cheval Par., p. 409, pl. xxxviii, figg. 13-15, HENDERSON, Tr. Linn. Soc. London, v, n. sp.
Pachycheles panamensis, Panama, p. 175, FAXON, Bull. Mus. Harvard, xxiv; *P. tomentosus*, Karachi, p. 428, pl. xxxix, figg. 16-18, HENDERSON, Tr. Linn. Soc. London, v, n. sp.
Petrolisthes agassizii, West coast Central America, p. 174, FAXON, Bull. Mus. Harvard, xxiv; *P. tenkatei*, p. 289, pl. vii, fig. 2, *indicus*, p. 293, pl. vii, fig. 3, Flores, DE MAN, Notes Leyden Mus. xv : n. spp.
P. burbatus (Heller), described p. 296, figured, pl. vii, fig. 4; DE MAN, Notes Leyden Mus. xv.
Rhaphidopus indicus, Madras, p. 427, pl. xxxix, figg. 19-22, HENDERSON, Tr. Linn. Soc. London, v, n. sp.

GALATHEIDÆ.

- Diptychus spinosus*, p. 306, MILNE-EDWARDS & BOUVIER, Ann. Sci. nat. xvi, n. sp.
Galacantha diomedea, West coast Central America, p. 180, FAXON, Bull. Mus. Harvard, xxiv, n. sp.
Galathea rufipes, p. 252, MILNE-EDWARDS & BOUVIER, Ann. Sci. nat. xvi, n. sp.

- Munida curvimanus*, p. 256, *perarmata*, p. 257, MILNE-EDWARDS & BOUVIER, Ann. Sci. nat. xvi ; *M. obesa*, p. 176, *refulgens*, p. 177, *propinquua*, p. 178, *gracilipes*, p. 179, West coast Central America, FAXON, Bull. Mus. Harvard, xxiv, n. spp.
- Munidopsis vicina*, p. 181, *agassizii*, p. 182, *villosa*, p. 182, *hystrix*, p. 183, *sericea*, *margarita*, p. 184, *crinita*, p. 185, *ornata*, *scabra*, p. 186, *tanneri*, *hamatu*, p. 187, *quadrata*, p. 188, *depressa*, *carinipes*, p. 189, *hendersoniana*, p. 190, *inermis*, p. 191, West coast Central America, FAXON, Bull. Mus. Harvard, xxiv ; *M. talismani*, *media*, *aculeata*, p. 275, MILNE-EDWARDS & BOUVIER, Ann. Sci. nat. xvi : n. spp.
- Oroporhynchus platirostris*, p. 287, MILNE-EDWARDS & BOUVIER, Ann. Sci. nat. xvi, n. sp.
- Uroptychus nitidus*, M.-Edw., *occidentalis*, n. subsp., West coast Central America, p. 192 ; FAXON, Bull. Mus. Harvard, xxiv.
- U. pubescens*, p. 192, *bellus*, p. 193, West coast Central America, FAXON, Bull. Mus. Harvard, xxiv, n. sp.

PAGURIDÆ.

- Cancellus tanneri*, West coast Central America, p. 167, FAXON, Bull. Mus. Harvard, xxiv, n. sp.
- Catapagurus ensifer*, Gulf of Martaban, p. 424, pl. xxxviii, figg. 16-19, HENDERSON, Tr. Linn. Soc. London, v ; *O. diomedea*, West coast Central America, p. 171, FAXON, Bull. Mus. Harvard, xxiv : n. spp.
- Diogenes affinis*, Madras, p. 415, pl. xxxix, figg. 1 & 2, *violaceus*, Madras, p. 416, pl. xxxix, figg. 3 & 4, *planimanus*, Madras, p. 416, pl. xxxix, figg. 5 & 6, *costatus*, Madras, p. 418, pl. xxxix, figg. 7 & 8, HENDERSON, Tr. Linn. Soc. London, v, n. spp.
- Eupagurus zebra*, Muttuwarta Par., p. 425, pl. xxxix, figg. 12-15, HENDERSON, Tr. Linn. Soc. London, v, n. sp.
- Paguristes fecundus*, West coast Central America, p. 173, FAXON, Bull. Mus. Harvard, xxiv ; *P. digueti*, Lower California, pp. 18-24, with figg., BOUVIER, Bull. Soc. Philom. (8) v, Pt. 1, n. spp.
- Pylopagurus longimanus*, p. 168, *affinis*, p. 169, *hirtimanus*, p. 176, West coast Central America, FAXON, Bull. Mus. Harvard, xxiv, n. sp.
- Troglopagurus*, n. g., *manuarensis*, n. sp., Tuticorin, p. 421, pl. xxxix, figg. 9-11, HENDERSON, Tr. Linn. Soc. London, v.
- Spiropagurus occidentalis*, West coast Central America, p. 172, FAXON, Bull. Mus. Harvard, xxiv, n. sp.

(2) Thalassinidea.

- AXIIDÆ, CALOCARIDÆ (= THAUMASTOCHELIDÆ), and GEBIIDÆ.
- Axius crista-galli*, West coast Central America, p. 193, FAXON, Bull. Mus. Harvard, xxiv, n. sp.
- Calastacus*, n. g. of *Calocaridae*, *stilirostris*, n. sp., West coast Central America, p. 194 ; FAXON, Bull. Mus. Harvard, xxiv.

Gebia simsoni, Tasmania, p. 49, pl. i, figg. 3-5, THOMSON, P. Soc. Tasmania, 1893, n. sp.

Gebiopsis darwinii, Miers, and *intermedia*, De Man, are identical; HENDERSON, Tr. Linn. Soc. London, v, p. 432.

(3) *Astacidea.*

ERYONTIDÆ.

Eryonicus spinulosus, West coast Central America, p. 198, FAXON, Bull. Mus. Harvard, xxiv, n. sp.

Polycheles tanneri, p. 196, *granulatus*, p. 197, West coast Central America, FAXON, Bull. Mus. Harvard, xxiv, n. sp.

P. sculptus, Smith, *pacificus*, n. subsp., West coast Central America, p. 196; FAXON, Bull. Mus. Harvard, xxiv.

Willemæsia inornata, West coast Central America, p. 195, FAXON, Bull. Mus. Harvard, xxiv, n. sp.

NEPHROPSIDÆ, POTAMOBIIDÆ, and PARASTACIDÆ.

On grounds of expediency, STEBBING proposes the new family name *Nephropsidae*, for *Nephrops*, *Nephropsis*, &c., and *Astacus*; for *Astacus* is the true generic term for the species recently included under *Homarus*; and the species commonly regarded as constituting *Astacus* must be called *Potamobia*, from which is derived the family name *Potamobiidae*.

Camararus pellucidus testii, Mayfield Cave (Indiana), p. 285, pls. xliv & xlv, HAY, P. U. S. Mus., xvi, n. subsp.

Nephropsis occidentalis, West coast Central America, p. 195, FAXON, Bull. Mus. Harvard, xxiv, n. sp.

Parastacus: notes upon; JHERING, Congr. Internat. Zool. 1893, pl. ii, pp. 43-49.

(4) *Penæidea.*

PENÆIDÆ.

Aristaeus occidentalis, West coast Central America, p. 215, FAXON, Bull. Mus. Harvard, xxiv, n. sp.

Benthescymus tanneri, West coast Central America, p. 215, FAXON, Bull. Mus. Harvard, xxiv, n. sp.

Haliporus nereus, p. 213, *doris*, *thetis*, p. 214, West coast Central America, FAXON, Bull. Mus. Harvard, xxiv, n. spp.

Hemipenaeus triton, West coast Central America, p. 215, FAXON, Bull. Mus. Harvard, xxiv, n. sp.

Peneopsis diomedea, West coast Central America, p. 212, FAXON, Bull. Mus. Harvard, xxiv, n. sp.

- Penaeus balboae*, West coast Central America, p. 211, FAXON, Bull. Mus. Harvard, xxiv; *P. compressipes*, Gulf of Martaban, p. 450, pl. xl, figg. 21 & 22, HENDERSON, Tr. Linn. Soc. London, v : n. spp.
Sicyonia affinis, p. 209, *picta*, p. 210, West coast Central America, FAXON, Bull. Mus. Harvard, xxiv, n. sp.
Solenocera agassizii, West coast Central America, p. 211, FAXON, Bull. Mus. Harvard, xxiv, n. sp.

SERGESTIIDÆ.

- Acetes americanus*, Tocantins, p. 39, pl. ii, fig. 2, ORTMANN, Decapoden und Schizopoden der Plankton Expedition, n. sp.
Sergestes inous, p. 216, *phoreus*, *halia*, p. 217, West coast Central America, FAXON, Bull. Mus. Harvard, xxiv; *S. sargassi*, Sargasso Sea, p. 34, pl. ii, fig. 1, ORTMANN, Decapoden und Schizopoden der Plankton Expedition : n. spp.
Sergia hensenii, Guinea Current, p. 38, pl. iii, fig. 3, ORTMANN, Decapoden und Schizopoden der Plankton Expedition, n. sp.

(5) *Caridea.*

CRANGONIDÆ.

- Aegeon orientalis*, Gulf of Martaban, p. 446, pl. xl, figg. 16 & 17, HENDERSON, Tr. Linn. Soc. London, v, n. sp.
Glyphocrangon alata, p. 201, *spinulosa*, *sicarius*, p. 202, West coast Central America, FAXON, Bull. Mus. Harvard, xxiv, n. spp.
Paracrangon areolata, West coast Central America, p. 201, FAXON, Bull. Mus. Harvard, xxiv, n. sp.
Pontophilus challengerii, n. n. for *P. gracilis*, Bate, p. 49; ORTMANN, Decapoden und Schizopoden der Plankton Expedition.
P. occidentalis, West coast Central America, p. 200, FAXON, Bull. Mus. Harvard, xxiv, n. sp.
Sclerocrangon atrox, *procav*, West coast Central America, p. 199, FAXON, Bull. Mus. Harvard, xxiv, n. sp.

ÅLPHEIDÆ, HIPPOLYTIIDÆ, and PANDALIDÆ.

- Alpheus malabaricus* (Fabr.), Pulicat, described p. 434, figured pl. xl, figg. 1-3; HENDERSON, Tr. Linn. Soc. London, v.
A. ascensionis, Ascencion I., p. 45, ORTMANN, Decapoden und Schizopoden der Plankton Expedition, n. sp.
Heterocarpus vicarius, p. 203, *hostilis*, *affinis*, p. 204, West coast Central America, FAXON, Bull. Mus. Harvard, xxiv, n. spp.
Orgyris occidentalis, Tocantins, p. 46, pl. iii, fig. 4, ORTMANN, Decapoden und Schizopoden der Plankton Expedition, n. sp.

ATYIDÆ.

- Caridina nilotica*, syn. *longirostris*, p. 130 ; BARROIS, Rev. Biol. v.
C. timorensis, Timor, p. 300, pl. viii, fig. 6, DE MAN, Notes Leyden Mus. xv ; *C. togoensis*, Togoland, p. 156, HILGENDORF, SB. Ges. naturf. Berlin, 1893 : n. spp.
Hemicaridina desmarestii, figured, p. 127 ; BARROIS, Rev. Biol. v.

PALÆMONIDÆ.

- Leander tenuipes*, Bombay, Madras, p. 440, pl. xl, figg. 14 & 15, HENDERSON, Tr. Linn. Soc. London, v, n. sp.

II.—ANATOMY, PHYSIOLOGY, EMBRYOLOGY, CLASSIFICATION, HABITS.

GENERAL.

Comparative embryology of *Arachnida* and *Limulus*; KINGSLEY.

Structure and classification of *Arachnida* and their relations with the *Eurypterida*; LAURIE (1, 2).

Views on classification and development discussed; CARPENTER (2, 3).

Origin of tracheæ; BERNARD (1): value of tracheæ in phylogeny; BERNARD (4).

Blood of *Arachnida*; GRIFFITHS.

Vascular system and coelom of Arthropods; LANKESTER.

Walk of Arthropods; DIXON.

Structure and significance of the endosternite in *Arachnida*; SCHIMKÉ-WITSCH.

Procephalic lobes of *Arachnida*; BERNARD (8).

Digestive processes of *Arachnida*; BERNARD (7).

Morphology and classification of the *Arachnida*; POCOCK (8).

Organs and characters in different orders of *Arachnida*; HANSEN.

SCORPIONES, PEDIPALPI, SOLIFUGÆ, PSEUDOSCORPIONES.

- Alleged parasite of Scorpion ; TOWNSEND, J. Inst. Jamaica, i, p. 221.
On the parasitism or commensalism of Chelifers with regard to Beetles, Flies, &c.; BERG, HICKSON, JHERING (2), LEYDIG, MONIEZ.
On the anatomy and vestigial stigmata of Chelifers ; BERNARD (6).
Observations upon living examples of *Thelyphonus* ; MARX (4) : of Scorpions ; POCOCK (6), "R. V.," NOE, ICONOMOULOS.
Sensory organ in the palp of *Galeodes* and of *Phrynus* ; BERNARD (2).
Structure of the head in *Galeodes* ; BERNARD (8).
On the classification of Scorpions ; POCOCK (5).
On the coxal gland of Scorpions ; BERNARD (3).

ARANEÆ.

ANATOMY, PHYSIOLOGY, &c.

- The respiratory organs of *Caponia* and *Nops*, pp. 326 & 327 ; SIMON (5).—On the development of the lungs in Spiders ; JAWOROWSKI (2).
Degeneration of organs in Spiders owing to disuse ; MARX (3).
Monstrosities amongst Spiders ; CASTELLI (2).
Circulatory system of *Mygale* ; CAUSARD.—Activity of the heart in Spiders ; WAGNER (2).
Epigyne of Spiders ; HASSELT (1).
Parthenogenesis in *Filistata* ; DAMIN.
Fat-body in Spiders ; KOWALEWSKY.
Venom of Spiders ; GAUBERT.—Spider bitos ; EPIS, Insect Life, v, p. 348.—Poisonous effects of the bite of *Lathrodetus* ; PUGA-BORRE.

HABITS, COLOURATION, MIMICRY, and MISCELLANEOUS SUBJECTS.

- Protective colouration of *Epeira* ; HARTMANN, CARPENTER (1) : of *Argiope* ; BELL.
Spider mimicry ; LULL, Insect Life, vi, p. 38, see also Int. J. Anat. Phys. iii, p. 414.
Food of *Tarantula* ; SCHAFER : of young Spiders ; F. CAMBRIDGE (2) : see also Field Club, iv, p. 46.
Spider capturing Centipede ; Field Club, iii, p. 10.
Trap-door Spiders ; ISABELL.—The nest of Californian Trap-door Spider : CLEVELAND : of *Atypoides* ; RIVERS.
Spiders' webs ; MARX (2).—On the webs of *Argiope* and *Dolomedes* from Sierra Leone ; CLEMENTS.—On the snare of *Argiope* from the Gold Coast ; BELL.
Oviposition of *Agelena* ; WARBURTON (2).
Cocoons of *Phidippus opifex* ; DAVIDSON, Ent. News Philad. 1893, p. 194.
Spinning apparatus of *Epeiridae* ; WARBURTON (1).

General observations on the habits, sense organs, &c., of *Amaurobius*, *Pholcus*, *Epeira*, &c.; POCOCK (7).

Notes on *Argyroneta*; JOHNSON: on *Pholcus*; GAUBERT (2): on *Marpissa*; HASSELT (3): on *Nephila madagascariensis*; CAMBOUÉ: on two South African Epeiroids; KOLBE: on a jumping Spider; CURTIS: on *Epeira quadrata*; F. CAMBRIDGE (3).

ACARI.

Embryology of *Ixodes*; WAGNER (1)

Reproduction of *Sarcoptidae*; TROUESSART (2), MEGNIN.

Zoological and anatomical studies on *Tyroglyphus* and *Hemisarcopeltis*; LIGNIERES (1, 2).

Anatomy of *Bdella*; KARPELLES (2).

On the hexapodous larva of *Hydrachnidiae*; KRAMER.

Notes on Ticks parasitic on men; ALT, Centrbl. Bakter. xiv, p. 468, NEUMANN, HESSLER.

On *Sarcoptidae* parasitic on mice; NEUMANN (2), RAILLIET & LUCET.

Ticks in the ears of *Mammalia*; C. H. T. TOWNSEND, Ent. News Philad. 1893, pp. 246 & 267, also J. N. York Ent. Soc. i, p. 49.

Notes on the Cattle Tick; CURTICE, Ent. News Philad. 1893, p. 125.—On *Ixodes* from Antigua; MICHAEL, P. Zool. Soc. London, 1893, p. 177.

On the itch caused in the Rabbit by *Sarcoptes scabiei*, and its transmissibility to the Ferret; RAILLIET.

Ticks on the Iguana; MEADEN.

Mites on Beetles and Wood-lice; M. MASKELL.

On the parasitism of *Acari*; BRANDES, BOMAN.

General observations upon *Hydrachnida*; KOENIKE (1, 2, 3), PIERSIG (1, 2).

On the geographical distribution of *Atax*; JIHERING (1).

On Mites found infesting hay; ORMEROD: infesting mushrooms; OSBORN.

III.—DISTRIBUTION.

1. Palæartic Region.

Spitzbergen: *Acari*; TROUESSART (3).

British Is.: *Araneæ*; O. P. CAMBRIDGE (2), F. O. P. CAMBRIDGE (1).

Scotland: *Araneæ*; CARPENTER (4).—Perthshire: *Araneæ*; TRAIL.—Inverness-shire: record of *Argyroneta*; EVANS.

England: Cornwall: *Acari*; MICHAEL.—Northampton: record of *Sparassus smaragdulus*; F. W. H., J. Northampt. Soc. No. 54, p. 230.—Cambridge: *Araneæ*; WARBURTON (3).

France: *Phytopidae* of Elbeuf; MARTEL.

Italy : *Phytoptidæ* ; CASTELLI, CANESTRINI (1), CANESTRINI & MASSALONGO (1, 2).

Tyrol : *Phytoptidæ* ; DALLE-TORRE.

Germany : Lake Plon : *Hydrachnidæ* ; ZACHARIAS (1, 2).

Austria : *Hydrachnidæ* ; JAWROWSKI (1).

Hungary : *Acari* ; KARPELLES (1).

Russia : *Acari* ; BIRULA (2).

Transcaspia : *Solifugæ* ; BIRULA (1), BERNARD (5), LANSDELL, p. 418, Chinese Central Asia, London, 1893.

2. Ethiopian Region.

West Coast of Africa : *Araneæ* ; MARX (1), BANKS (7).

East Africa : *Hydrachnidæ* ; KOENIKE (4).

South Africa : *Scorpiones* ; POCOCK (5).

Lakes Rudolph and Stephanie : *Arachnida* ; SIMON (6).

Madagascar (Nossibé) : *Arachnida* ; BRANCSIK.

Seychelles : *Arachnida* ; SIMON (3).

3. Oriental and Australian Regions.

N. India and Tenasserim : *Scorpiones* ; POCOCK (5).

Ceylon : *Araneæ* ; HASSELT (4).

Malaysia : *Araneæ* ; SIMON (4), WORKMAN.

Sumatra and Java : *Araneæ* ; HASSELT (4).—*Scorpions* ; POCOCK (5).

Celebes : *Scorpiones* ; POCOCK (1).

Flores : *Scorpiones* ; POCOCK (1).—*Opiliones* ; LOMAN.

New South Wales : *Araneæ* ; RAINBOW (1, 2).

S. Australia : *Scorpiones (Urodacus)* ; POCOCK (5).

Tasmania : *Araneæ* ; URQUHART (1).

New Zealand : *Araneæ* ; URQUHART (2).

4. Nearctic Region.

Alaska : *Epeiridæ* ; KEYSERLING.

United States : *Araneæ* ; BANKS (1).—*Epeiridæ* ; KEYSERLING.—*Opiliones* ; BANKS (2, 4), WEED (5).—*Pseudoscorpiones* ; BANKS (3).

New England : *Attidae* and *Thomisidae* ; EMERTON (1, 2).

South Dakota : *Phalangidae* ; WEED (4).

Mississippi : *Phalangidae* ; WEED (6).

Ohio : *Phalangidae* ; WEED (1, 7).

California : *Opiliones* ; OSBORN.

Colorado : *Araneæ*, &c. ; COCKERELL (3).

New Mexico : *Araneæ* ; TOWNSEND.

5. *Neotropical Region.*

Central America : Guerrero, Guatemala, &c. : *Araneæ* ; O. P. CAMBRIDGE (1).—Costa Rica : *Epeiridae* ; GÉTAZ.

West Indies : *Scorpiones* and *Pedipalpi* ; POCOCK (2).—Jamaica : *Araneæ* ; COCKERELL (1, 2).—St. Vincent : *Attidae* ; PECKHAM.—Trinidad : *Pseudidiops*, &c. ; POCOCK (4).

South America : Venezuela : *Araneæ* ; SIMON (2).—Various localities : *Scorpiones* ; POCOCK (3).—*Epeiridae* ; KEYSERLING.

IV.—SYSTEMATIC.

(A) SCORPIONES.

POCOCK, Ann. Nat. Hist. (6) xii, pp. 305–313, classifies the group as follows :—Fam. I. *Scorpionidae*, with subfamilies *Scorpionini*, *Ischnurini*, *Diplocentrini*, *Hemiscorpiini*, *Uradacini*. Fam. II. *Iuridae*, with subfamilies *Iurini*, *Charilini*, *Chactini*. Fam. III. *Bothriuridae*. Fam. IV. *Buthidæ*.

BUTHIDÆ.

Centrurus: descriptions, with synonymy, of the known West Indian species; the following described and figured :—*insulanus*, Thor., Jamaica, p. 388, pl. xxx, fig. 12, *testaceus*, De Geer, Montserrat, p. 389, pl. xxx, fig. 11, *nitidus*, Thor., Hayti, p. 390, pl. xxix, fig. 5, POCOCK, J. Linn. Soc. xxiv.

¹ *Heterocerus*, n. g., p. 391, for *junceus*, Herbst., syn. *hemprichii*, Gerv., Hayti, p. 392; *agamemnon*, C. Koch, Brazil, p. 393; POCOCK, J. Linn. Soc. xix.

Isometrus mucronatus (Fabr.), discussed, p. 85, figured, pl. vi, fig. 1, *flavimanus*, Thor., Sumatra, p. 87, pl. vi, fig. 2; POCOCK, in Max Weber's Zool. Ergebnisse, &c., ii.

I. formosus, Buitenzorg, p. 88, pl. vi, fig. 3, POCOCK, in Max Weber's Zool. Ergebnisse, &c., ii, n. sp.

² *Pseudobuthus*, n. n. for *Rhoptrurus*, Karsch, preoccupied, p. 312; POCOCK, Ann. Nat. Hist. (6) xii.

³ *Tityobuthus*, n. g., for *Rhoptrurus baroni*, Poc., p. 312; POCOCK, Ann. Nat. Hist. (6) xii.

Tityus, C. Koch, restored for the American species referred by Thorell and others to *Isometrus*, with *Phassus* and *Androcottus* as synonyms, p. 376; *androcottoides*, Karsch, Trinidad, p. 377, pl. xxix, fig. 3, *americanus*, Linn., Hayti, Porto Rico, p. 378, pl. xxix, fig. 2, *insignis*, St. Lucia, p. 379, pl. xxix, fig. 10; POCOCK, J. Linn. Soc. xxiv.

T. melanostictus, Trinidad, p. 381, pl. xxix, fig. 4, *pictus*, St. Vincent, p. 382, pl. xxx, fig. 8, *smithii*, Grenada, with n. var. *microdon*, the Grenadines, p. 383, pl. xxx, fig. 9, POCOCK, J. Linn. Soc. xxiv; *T. asthenes*, Peru, p. 313, *quelchii*, British Guiana, Para, p. 314, pl. xiv, fig. 1, *pusillus*, Iguarassu, p. 315, POCOCK, Ann. Nat. Hist. (6) xii : n. spp.

BOTHRIURIDÆ.

Bothriurus coriaceus, Chili, p. 95, pl. v, fig. 12, *keyserlingii*, Chili or Peru, p. 96, pl. 5, fig. 9, *asper*, Iguarassu, p. 96, pl. v, fig. 10, *signatus*, Theresopolis, p. 97, pl. v, fig. 11, POCOCK, Ann. Nat. Hist. (6) xii, n. spp.

Brachistosternus, n. g., syn. *Mecocentrus*, Simon, not Karsch, for *Scorpio ehrenbergii*, Gervais, syn. *glaber*, Gervais, *politus*, L. Koch, ? W. Indies, pp. 402 & 403; POCOCK, J. Linn. Soc. xxiv.

Cercophonius brachycentrus, Thor, is referred to the genus *Urophonius*; POCOCK, Ann. Nat. Hist. (6) xii, p. 101.

Phoniocercus, n. g., p. 99, *pictus*, n. sp., loc. ?, p. 99; POCOCK, Ann. Nat. Hist. (6) xii.

Urophonius, n. g., p. 100, *jheringii*, n. sp., Rio Grande do Sul, p. 101, pl. vi, fig. 14; POCOCK, Ann. Nat. Hist. (6) xii.

IURIDÆ.

Iurini.

Anuroctonus, n. g., p. 328, for *Uroctonus phæodactylus* (Wood); POCOCK, Ann. Nat. Hist. (6) xii.

Caraboctonus, n. g., *keyserlingii*, n. sp., Coquimbo, &c., p. 92, pl. v, fig. 8; POCOCK, Ann. Nat. Hist. (6) xii.

Chærilus cavernicola, from Ngalau Cavern, in Sumatra, p. 90, pl. vi, fig. 5, *celebensis*, Celebes, p. 93, POCOCK, in Max Weber's Zool. Ergebnisse, &c., ii, n. spp.

O. variegatus, Sim., Tjibodas, Java, p. 90, pl. vi, fig. 4, POCOCK, t. c.

Hadruruoides, n. g., for *Hadrurus charcasus*, Karsch, p. 329; POCOCK, Ann. Nat. Hist. (6) xii.

Scorpiops petersii, syn. *hardwickii*, Peters, Simla, p. 323, pl. xiv, fig. 10; *leptochirus*, loc. ?, p. 328, pl. xiv, fig. 11, *longimanus*, Silhet, p. 326, pl. xiv, fig. 12, *binghamii*, Tenasserim, p. 327, pl. xiv, fig. 13, POCOCK, Ann. Nat. Hist. (6) xii, n. spp.

Chactini.

Broteas characterized, p. 77, *gervaisii*, loc. ?, p. 78, pl. v, fig. 1, POCOCK, Ann. Nat. Hist. (6) xii, n. sp.

B. levipes, Karsch, and *æquinoctialis*, Karsch, are referable to the genus *Chactas*; POCOCK, Ann. Nat. Hist. (6) xii, p. 87.

- Broteochactas*, n. g., with type *nitidus*, n. sp., Trinidad, p. 377, pl. v, fig. 2 ; POCOCK, Ann. Nat. Hist. (6) xii : further described and figured in J. Linn. Soc. xxiv, p. 399, pl. xxix, fig. 7.
- Chactas delicatus*, Karsch, of which *Chactas opacus*, Karsch, is the male, belongs to *Broteochactas*; POCOCK, Ann. Nat. Hist. (6) xii, pl. v, fig. 2, and POCOCK, J. Linn. Soc. xxiv, p. 401 ; *van benedenii*, p. 84, *lepturus*, Thor., syn. *thorelli*, Karsch, p. 85; *amazonicus*, Sim., p. 86, described; POCOCK, Ann. Nat. Hist. (6) xii.
- C. keyserlingii*, Colombia, p. 87, *simonii*, Venezuela, p. 88, *chrysopus*, loc. p. 89, *whymperi*, Ecuador, p. 90, pl. v, fig. 7, POCOCK, Ann. Nat. Hist. (6) xii ; *C. karschii*, new name for *C. lepturus*, Karsch, not of Thorell, POCOCK, t. c. p. 86 : n. spp.
- Hadrurochactas*, n. g., pp. 78 & 80, *sclateri*, n. sp., British Guiana, p. 80, pl. v, fig. 5, POCOCK, Ann. Nat. Hist. (6) xii.
- Heterochactas*, n. g., pp. 78 & 81, *gervaisii*, n. sp., Cuença, p. 82, pl. v, fig. 6 ; POCOCK, Ann. Nat. Hist. (6) xii.

SCORPIONIDÆ.

- Chiromachus*, n. g., for *Ischnurus ochropus*, C. Koch, with which *asper* and *chrysopus*, Peters, are synonyms ; POCOCK, Ann. Nat. Hist. (6) xii, p. 320.
- Cyphocentrus*, Karsch, = *Nebo*, Simon ; POCOCK, Ann. Nat. Hist. (6) xii, p. 308.
- Diplocentrus antillanus*, St. Lucia, St. Vincent, pl. xxix, fig. 6, *scaber*, Jamaica, Barbadoes, p. 396, POCOCK, J. Linn. Soc. xxiv, n. spp.
- Hormurus weberi*, Celebes, p. 97, pl. vi, fig. 7, POCOCK, in Max Weber's Zool. Ergebnisse, &c., ii, n. sp.
- Iodacus*, POCOCK, = *Urodacus*, Peters ; POCOCK, Ann. Nat. Hist. (6) xii, pp. 308 & 320.
- Iomachus*, n. g., for *Hormurus laeviceps*, Poc., p. 320, pl. xiv, figg. 5 & 6 ; POCOCK, Ann. Nat. Hist. (6) xii.
- Oecopetrus*, n. n. for *Petro-acus*, Karsch, preoccupied, p. 307 ; POCOCK, Ann. Nat. Hist. (6) xii.
- Opisthacanthus elatus*, Gerv., probably = *Scorpio lepturus*, Pal. de Beauvois, p. 398 ; POCOCK, J. Linn. Soc. xxiv.
- Opisthocentrus*, n. g., for *Opisthacanthus africanus*, Sim., syn. *7-dentatus*, Karsch, p. 317, *lecomtei* (Luc.), syn. *12-dentatus*, Karsch, *validus*, Thor., syn. *capensis*, Thor., *diremptus* (Karsch), *asiaticus*, Keyserling, p. 318 ; POCOCK, Ann. Nat. Hist. (6) xii.
- O. levipes*, Transvaal, p. 319, pl. xiv, POCOCK, Ann. Nat. Hist. (6) xii, n. sp.
- Scorpio indicus* (Linn.), figured, pl. vi, fig. 6 ; POCOCK, in Max Weber's Zool. Ergebnisse, &c., ii.
- Urodacus keyserlingii*, Poc., = *U. abruptus*, Poc. ; POCOCK, Ann. Nat. Hist. (6) xii, p. 321.

U. planimanus, Perth, p. 321, pl. xiv, fig. 7, pl. xv, fig. 1, *woodwardii*, Darling Range, pl. xiv, figg. 8 & 9, POCOCK, Ann. Nat. Hist. (6) xii, n. spp.

(B) PEDIPALPI.

Tarantula reniformis (Linn.), with alleged synonymy, described from West Indies, pp. 404-407 ; POCOCK, J. Linn. Soc. xxiv.

(C) ARANÆ.

AGELENIDÆ.

Tegenaria livoris, Maketu (near Auckland), p. 167, URQUHART, Tr. N. Zealand Inst. xxv, n. sp.

T. hibernica, Cambr., figured, fig. 6 ; O. P. CAMBRIDGE, P. Dorset Club, xiv.

Cryphæca diversa, Carlisle, p. 148, fig. 2, O. P. CAMBRIDGE, P. Dorset Club, xiv, n. sp.

AMMOXENIDÆ.

New family allied to *Hersiliidæ* ; SIMON, Hist. Nat. Araignées, i, p. 452.

Ammoxenus, n. g., *coccineus*, S. Africa, n. sp., p. 455 ; SIMON, Hist. Nat. Araignées, i.

ATTIDÆ.

Anoka, n. g., *vernalis*, St. Vincent, n. sp., p. 701, pl. lxii, fig. 9 ; PECKHAM, P. Zool. Soc. London, 1893.

A. peckhamii, Kingston, Jamaica, p. 221, COCKERELL, J. Inst. Jamaica, n. sp.

Attus rarus, p. 185, *suffusus*, p. 186, *kirkii*, p. 187, Wellington (N. Zealand), *tenebrosus*, Hunua, p. 188, *adustus*, Ohaupo, p. 189, URQUHART, Tr. N. Zealand Inst. xxv ; *A. silvestris*, New England, p. 247, pl. xx, fig. 4, EMERTON, Tr. Connect. Ac. viii, Pt. 2 ; *A. (Amicus?) præ-mandibularis*, Sumatra, p. 157, HASSELT, Tijdschr. Ent. xxxvi ; *A. (Hasarius) bistriatus*, Sumatra, p. 157, HASSELT, t. c. : n. spp.

Cybele, n. g., *obscura*, p. 695, pl. lxi, fig. 3, *vincentii*, p. 696, pl. lxi, fig. 4, n. spp., St. Vincent ; PECKHAM, P. Zool. Soc. London, 1893.

Cydonia, n. g., *luteola*, St. Vincent, n. sp., p. 700 ; PECKHAM, P. Zool. Soc. London, 1893.

Cyrene, n. g., *decorata*, St. Vincent, n. sp., p. 698, pl. lxii, fig. 6 ; PECKHAM, P. Zool. Soc. London, 1893.

Dendryphantes octopunctatus, St. Vincent, p. 697, pl. lxi, fig. 5, PECKHAM, P. Zool. Soc. London, 1893 ; *D. aeneolus*, California, p. 332, CURTIS, Zoe, iii ; *D. montanus*, New England, p. 229, pl. xvii, fig. 3, EMERTON, Tr. Connect. Ac. viii, Pt. 2 : n. spp.

- Dynamius metallicus*, St. Vincent, p. 694, pl. lxi, fig. 2, PECKHAM, P. Zool. Soc. London, 1893, n. sp.
- Euopryna pulchella*, St. Vincent, p. 699, pl. lxii, fig. 7, PECKHAM, P. Zool. Soc. London, 1893; *E. monadnock*, p. 241, pl. xx, fig. 2, *cruciatus*, p. 241, New England, EMERTON, Tr. Connect. Ac. viii, Pt. 2 : n. spp.
- Habrocestum agile*, n. n. for *H. auratum*, Peckh., not of Hentz, p. 126; BANKS, J. N. York ent. Soc. i.
- Icius hartii*, pl. xviii, fig. 5, *formicarius*, p. 235, New England, EMERTON, Tr. Connect. Ac. viii, Pt. 2, n. spp.
- Keyserlingella minuta*, St. Vincent, p. 693, PECKHAM, P. Zool. Soc. London, 1893, n. sp.
- Mævia roseo-limbata*, Ceylon, p. 150, *margaritacea*, Sumatra, p. 158, HASSELT, Tijdschr. Ent. xxxvi, n. spp.
- Neon pomputus*, St. Vincent, p. 703, pl. lxii, fig. 11, PECKHAM, P. Zool. Soc. London, 1893, n. sp.
- Phidippus multiformis*, p. 224, *brunneus*, p. 225, pl. xvi, fig. 2, New England, EMERTON, Tr. Connect. Ac. viii, Pt. 2, n. spp.
- Plexippus validus*, Tasmania, p. 127; URQUHART, P. Soc. Tasmania, 1893, n. sp.
- Prostheclina pygmaea*, St. Vincent, p. 702, pl. lxii, fig. 10, PECKHAM, P. Zool. Soc. London, 1893, n. sp.

- Sinie*, n. g. of *Epedanidae*, p. 12, *vagus*, n. sp., Java, p. 13, pl. i, figg. 5 & 6; LOMAN, in Max Weber's Zool. Ergebnisse, iii, Pt. 1, n. sp.
- Sitalces californica*, S. California, p. 151, BANKS, Tr. Amer. ent. Soc. xx, n. sp.

ACARI.

BDELLIDÆ, EUPODIDÆ, GAMMARIDÆ, and HOPLOPODIDÆ.

- Bdella maculata*, p. 105, *longipalpis*, p. 106, pl. xv, fig. 5, Hungary, KARPELLES, Math. naturw. Ber. Ungarn, xi, n. spp.
- Hoplopus sculptus*, Hungary, p. 119, pl. xvii, fig. 3, KARPELLES, Math. naturw. Ber. Ungarn, xi, n. sp.
- Scyphiodes maxillatus*, Hungary, p. 116, pl. xx, fig. 1, KARPELLES, Math. naturw. Ber. Ungarn, xi, n. sp.
- Tydeus sulcatus*, Hungary, p. 117, pl. xv, fig. 6, KARPELLES, Math. naturw. Ber. Ungarn, xi, n. sp.
- Gamasus krameri*, pl. xiii, fig. 7, *multispinosus*, pl. xvi, fig. 1, p. 96, Hungary, KARPELLES, Math. naturw. Ber. Ungarn, xi, n. spp.
- Trachynotus simplex*, Hungary, p. 100, pl. xv, fig. 3, KARPELLES, Math. naturw. Ber. Ungarn, xi, n. sp.

HALACARIDÆ.

- Acaromantis*, n. g., p. 207, *squilla*, n. sp., Loire Inférieure, p. 208, Naturaliste ; TROUESSART & NEUMANN.

Agave ornata, Cape Verdes, p. 86, pl. xi, figg. 3 & 4, LOHMANN, Halacarinen der Plankton Expedition, n. sp.

Halacarus borealis, p. 257, fig. 28, *poucheti*, p. 259, fig. 29, *reticulatus*, p. 262, fig. 30, Arctic Ocean, TROUESSART, Arch. miss. Sci. v ; *H. nationalis*, Bermudas, &c., p. 70, pls. i & ii, *hispidus*, Sidney, p. 71, pl. iii, figg. 7-11, *panopae*, Sidney, p. 72, pl. iii, figg. 1-8, pl. iv, figg. 8 & 9, *hypertrophicus*, Zanzibar, p. 74, pl. iii, figg. 2-4, pl. iv, figg. 1 & 2, *thaleia*, Zanzibar, p. 75, pl. iii, figg. 5 & 6, *pulcher*, Sidney, Bermuda, p. 77, pl. v, fig. 7, *speciosus*, Guinea, p. 78, pl. vii, fig. 5, *lamellosus*, Sidney, p. 79, pls. vi & vii, figg. 1-4, *oblongus*, p. 83, pl. ix, figg. 1-3, pl. x, figg. 3-7, LOHMANN, Halacarinen der Plankton Expedition : n. spp.

HYDRACHNIDÆ.

Arrhenurus stuhlmanni, Zanzibar, p. 5, pl. i, figg. 1 & 2, *gibbus*, Muemba, p. 8, pl. i, figg. 3-6, *concavus*, Bagamoyo, p. 11, pl. i, figg. 7-10, *plenipalpis*, Quilimane, p. 16, pl. i, figg. 13 & 14, *pectinatus*, Zanzibar, p. 20, pl. i, fig. 15, KOENIKE, in Stuhlmann's Zool. Ergebnisse ; *A. oblongus*, p. 311, figg. 2 & 3, PIERSIG, Zool. Anz. xvi : n. spp.

A. chavesi, Barr., = *A. emarginatus*, Müll. ; BARROIS, Rev. Biol. v, p. 206. *Atax triangularis*, p. 395, PIERSIG, Zool. Anz. xvi ; *A. spinipes*, Zanzibar, p. 23, pl. ii, figg. 16-18, *simulans*, Quilimane, p. 25, pl. ii, figg. 19 & 20, KOENIKE, in Stuhlmann's Zool. Ergebnisse, &c. : n. spp.

Axonopsis, n. g., *bicolor*, n. sp., p. 310, fig. 1 ; PIERSIG, Zool. Anz. xvi.

Bargena, n. g., *mirifica*, n. sp., Zanzibar, p. 47, pl. iii, figg. 35-41 ; KOENIKE, in Stuhlmann's Zool. Ergebnisse, &c.

Curvipes forcipatus, Bagamoyo, p. 29, pl. ii, figg. 21-25, *clathratus*, Zanzibar, p. 33, pl. iii, figg. 26-29 ; KOENIKE, in Stuhlmann's Zool. Ergebnisse, &c.

Hydrachna spinosa, Zanzibar, p. 43, pl. iii, figg. 32-33 ; KOENIKE, in Stuhlmann's Zool. Ergebnisse, &c.

Hydryphantes schaubi, Quilimane, p. 37, pl. iii, fig. 30, *incestus*, Quilimane, p. 40, pl. iii, fig. 31 ; KOENIKE, in Stuhlmann's Zool. Ergebnisse, &c.

Thyas angusta, Rhætia, p. 94, KOENIKE, Zool. Anz. xvi, n. sp.

IXODIDÆ.

Gonixodes rostralis, Guanajuato, p. 164, DUGÈS, Naturaleza, ii, n. sp.

Ixodes hungaricus, Hungary, p. 123, pl. xviii, fig. 5, KARRELLES, Math. naturw. Ber. Ungarn, xi, n. sp.

I. herrerae, Dug., figured on pl. viii ; DUGÈS, Naturaleza, ii.

ORIBATIDÆ.

- Belba mirabilis*, p. 85, pl. xiii, fig. 2, Hungary, KARPELLES, Math. naturw. Ber. Ungarn, xi, n. sp.
- Damæus bulbipes*, Hungary, p. 91, pl. xiii, fig. 1, KARPELLES, Math. naturw. Ber. Ungarn, xi, n. sp.
- Hermannia oblonga*, Hungary, p. 93, pl. xx, fig. 3, KARPELLES, Math. naturw. Ber. Ungarn, xi, n. sp.
- Nothrus corticalis*, Hungary, p. 86, pl. xiii, fig. 3, KARPELLES, Math. naturw. Ber. Ungarn, xi, n. sp.
- Oppia hungarica*, Hungary, p. 89, pl. xiii, fig. 4, KARPELLES, Math. naturw. Ber. Ungarn, xi, n. sp.
- Oribata homodactyla*, p. 82, pl. xiv, fig. 1, *distincta*, p. 83, pl. xiii, fig. 6, Hungary, KARPELLES, Math. naturw. Ber. Ungarn, xi, n. spp.

PHYTOPTIDÆ.

NALEPA, Denk. Ak. Wien, lix, pp. 525–540, 4 pls., gives synopsis of the known genera of *Phytoptidae*, and redescribes and figures for the first time the following species :—*Phytoptus patrichus*, *cladophthirus*, *anthocoptes*, *brevirostris*, *anceps*, *squidulus*, *euaaspis*, *nalepiae*, *anthonomus*, *exilis*, *leiosoma*, *laticinctus*, *leioproctus*, *gemite*, *eucricoles*, *trifolii*, *schlechtendali*, *informis*, *euanthus*, *varius*, *cerastii*; *Cecidophyes convolvens*, *parvulus*.

Phyllocoptes coronillæ, p. 151, *urticarius*, p. 153, CANESTRINI & MASSALONGO, Bull. Soc. Veneto-Trent. v, No. 3; *P. genistæ*, *lactucæ*, p. 153, *spartii*, p. 154, CANESTRINI, t. c. : n. spp.

Phytoptus malpighianus, p. 127, CANESTRINI & MASSALONGO, Bull. Soc. Veneto-Trent. v, No. 3; *P. megacerus*, p. 152, CANESTRINI & MASSALONGO, t. c.; *P. rhodiæ* and *silvicola*, p. 198, CANESTRINI, Atti Soc. Veneto-Trent. (2) i; *P. juglandis*, p. 129, pl. xix, fig. 5, *tiliae*, p. 129, *quercus*, p. 130, pl. xx, fig. 6, Hungary, KARPELLES, Math. naturw. Ber. Ungarn, xi; *P. hypochærum*, p. 31, NALEPA, SB. Ak. Wien, 1893, No. iv; *P. ribis* and *spirææ*, p. 105, NALEPA, op. cit. No. xii; *P. scaber* and *psilaspis*, p. 190, NALEPA, op. cit. No. xviii : n. spp.

Trimerus mussalongianus, p. 32, NALEPA, SB. Ak. Wien, 1893, No. iv, n. sp.

SARCOPTIDÆ.

¹*Campylochirus*, n. g., *adherens*, n. sp., on *Anomalurus erythronotus*, pp. 698–700; TROUESSART, C.R. Soc. Biol. v, No. 24.

Onemidocoptes philomelæ and *glaberrimus*, pp. 134–137, SICHER, Bull. Soc. Veneto-Trent. v, No. 3, n. spp.

¹*Hemisarcoptes*, n. g., *coccisugus*, n. sp., on *Kermes conchiformis*, pp. 75–77, fig.; LIGNIÈRES, C.R. Soc. Biol. v.

Psorergates simplex, on the mouse, p. 330, NEUMANN, C.R. Soc. Biol. v, No. 11, n. sp.

\ *Physacarus*, n. n. for *Heteropus*, preoccupied ; TRYBOM, Ent. Tidskr. xiv, p. 121.

Surcoptes alepis, on *Muridae*, pp. 404-407, RAILLIET & LUCET, C.R. Soc. Biol. v, No. 13, n. sp.

TROMBIDIIDÆ.

Megamerus ocellatus, Hungary, p. 109, pl. xvi, fig. 1, KARPELLES, Math. naturw. Ber. Ungarn, xi, n. sp.

Rhyncholophus plumipes, Armenia, BIRULA, Horæ Soc. Ent. Ross. xxvii, p. 387, pl. vii ; *R. longus*, Hungary, p. 112, pl. xvi, fig. 4, KARPELLES, Math. naturw. Ber. Ungarn, xi : n. spp.

Smaridea hungarica, Hungary, p. 108, pl. xvi, fig. 3, KARPELLES, Math. naturw. Ber. Ungarn, xi, n. sp.

TYROGLYPHIDÆ.

\ *Lentungula*, n. g., p. 264, *algivorans*, n. sp., p. 268, pl. xviii, Cornwall ; MICHAEL, P. Zool. Soc. London, 1893.

\ *Nodipalpus*, n. g., *ulmi*, n. sp., Hungary, p. 128, pl. xviii, fig. 7 ; KARPELLES, Math. naturw. Ber. Ungarn, xi.

Tyroglyphus linnieri, on mushrooms, p. 360, OSBORN, Science, xxii ; *T. canestrinii*, Hungary, p. 126, pl. xix, fig. 4, KARPELLES, Math. naturw. Ber. Ungarn, xi, n. sp.

XII. MYRIOPODA AND PROTOTRACHEATA.

II.—ANATOMY, PHYSIOLOGY, CLASSIFICATION, HABITS, &c.

Classification of *Chilopoda*, *Diplopoda*, and *Hexapoda*; POCOCK (5, 6); of *Myriopoda*; BOLLMAN (9): of *Syngnatha*; BOLLMAN (10): of *Julidae*; VERHOEFF (6).

Mouth parts of Chilopods; BANKS.

Immature stages in the males of *Julus*; VERHOEFF (1, 2, 6).

Structure of the copulatory organ of *Diplopoda*; VERHOEFF (7).

On the origin of Tracheæ; BERNARD.—Structure of Tracheæ in *Scutigera*; SINCLAIR.

On the fat-body of *Myriopoda*; KOWALEWSKY.

The relations between the cœlom and vascular system ; LANKESTER.

Digestive processes ; ADLERZ.

Structure of eyes in *Scutigera* ; ADENSAMER : in *Lithobius* and *Polyxenus* ; WILLEM (1) : of Cerebral nuclei in Myriopods ; CHATIN : of Tömösvary's organ in *Lithobius* ; WILLEM (2).

Luminosity of *Oryza barbarica* ; DUBOIS.

Blaniulus affecting the vine ; FONTAINE.

III.—DISTRIBUTION.

Palæarctic Region.

Ireland : POCOCK (7) : Rugby, POCOCK (8).

France : MONIEZ, *Scolopendrella*.

Switzerland : *Scutigera* ; GODET.

Galicia : FISZERA.—Bosnia and Herzegovina : KARLINSKI.

Portugal : VERHOEFF (3, 4).

Syria : PORAT (1).

Samarkand : LANSDELL, *Scutigera*.

Burma : POCOCK (3), *Iulidae*, *Chordeumidæ*, and *Polyzonidæ*.

Ethiopian Region.

West Africa : COOK & COLLINS. West and South Africa : PORAT (2).

Lakes Rudolph and Stephanie (E. Africa) : KARSCH.

Nossi Bé (Madagascar) : BRANCSIK.

Nearctic and Neotropical Regions.

North America in General : BOLLMAN (1, 2, 11). Minnesota : BOLLMAN (5).

Colorado : COCKERELL (1). Nebraska : KENYAN (1, 2).

Bermuda : POCOCK (1).

West Indies in General : POCOCK, *Chilopoda* (4). Jamaica : COCKERELL (2).

IV.—SYSTEMATIC.

CHILOPODA.

SCUTIGERIDÆ.

Scutigera planiceps, Cape Town, p. 124, POCOCK, Ann. Nat. Hist. (6) xi, p. 124 ; *S. flavipes*, Bahamas, p. 200, BOLLMAN, Bull. U. S. Mus. xlvi : n. spp.

S. guildingii, Newport, St. Vincent, described, p. 456 ; POCOCK, J. Linn. Soc. xxiv.

LITHOBIIDÆ.

Henicops tristani, Tristan d'Acunha, p. 125, POCOCK, Ann. Nat. Hist. (6) xi; *H. sinuata*, Cape Colony, p. 5, PORAT, Bibl. Svenska Ak. xviii, No. 4 : n. spp.

Lithobius transmarinus and *mordax*, Koch, are synonymous with *L. spinipes*, Say; BOLLMAN, Bull. U.S. Mus. xlvi, p. 146. *L. fasciatus*, Newp., *macrops*, Karsch, and two unnamed species recorded from Syria and identified; PORAT, Rev. Biol. Nord France, vi, pp. 64-66. *L. kochii*, Stuxb., n. var. *coloradensis*, Colorado, p. 370; COCKERELL, Tr. Amer. ent. Soc. xx.

L. maltenis, *nebrascensis*, p. 161, *dorsospinorum*, *brunesi*, *sexdentatus*, Nebraska, p. 162, KENYAN, Canad. Ent. 1893, also Ent. News. Philad. 1893, p. 247; *L. stejnegeri*, Bering I., &c., p. 199, BOLLMAN, Bull. U. S. Mus. xlvi; *L. bermudensis*, Bermuda, p. 126, POCOCK, Ann. Nat. Hist. (6) xi; *L. parvicornis*, Syria, p. 65, *barbipes*, p. 66, fig. 1, PORAT, Rev. biol. Nord France, vi : n. spp.

SCOLOPENDRIDÆ.

Arthrorhabdus interveniens, Namaqua, p. 46, PORAT, Bibl. Svenska Ak. xviii, No. 4, n. sp.

Cormocephalus calcaratus, Porat, from Cape Town, is synonymous with *C. violaceus* (Fabr.); POCOCK, Ann. Nat. Hist. (6) xi, p. 127. *C. mirabilis*, Porat, recorded from Syria, and described, p. 69, fig. 3; PORAT, Rev. biol. Nord France, vi. *C. acanthophorus*, Kohl., and *dispar*, Porat, Cape Colony, described, pp. 6 & 7; PORAT, Bibl. Svenska Ak. xviii, No. 4. *C. purpureus*, n. n. for *C. violaceus*, Newp., preoccupied; POCOCK, Ann. Nat. Hist. (6) xi, p. 127.

C. teretipes, Jericho, p. 70, fig. 2, PORAT, Rev. biol. Nord France, vi; *C. parcespinatus*, Cape Colony, p. 7, *devylderi*, Namaqua, p. 9, *crassicornis*, Zanzibar, p. 9, PORAT, Bibl. Svenska Ak. xviii, No. 4; *C. huttoni*, New Zealand, p. 128, POCOCK, Ann. Nat. Hist. (6) xi : n. spp.

Cryptops bivittatus, St. Vincent, p. 462, POCOCK, J. Linn. Soc. xxiv, n. sp.

Eremops, n. n. for *Monops*, Gervais, preoccupied, p. 165; BOLLMAN, Bull. U. S. Mus. xlvi.

Otocryptops ferrugineus (Linn.), West Indies, with full synonymy, p. 463; *melanostoma*, Newp., syn. *megacephalus*, Kohl., and *longiceps*, Poc., St. Vincent, p. 464; POCOCK, J. Linn. Soc. xxiv, p. 464. *O. ferrugineus*, De Geer, described from the Cameroons, p. 12; PORAT, Bibl. Svenska Ak. xviii, No. 4.

Newportia longitarsis (Newp.), St. Vincent, described, p. 466; POCOCK, J. Linn. Soc. xxiv.

N. pusilla, St. Vincent, p. 468, POCOCK, J. Linn. Soc. xxiv, n. sp.

Ostostigma spiculiferum, St. Vincent, p. 461, POCOCK, J. Linn. Soc. xxiv; *O. cuneiventris*, p. 10, *inermipes*, p. 11, Cameroons, PORAT, Bibl. Svenska Ak. xviii, No. 4 : n. spp.

- Scolopendra cingulata* (Latr.), n. var. *obscuriceps*, Syria, p. 67 ; PORAT, Rev. biol. Nord France, vi. *S. morsitans* (Linn.), n. var. *multispinosa*, Erivan (Caucasus), p. 5 ; DADAY, Math. term. Ertes. Magyar Ak. xii.
- S. nicaraguensis*, Nicaragua, p. 198, *sanatillæ*, Sanatilla Is. (Caribbean Sea), p. 199, BOLLMAN, Bull. U. S. Mus. xlvi ; *S. polyodonta*, New Guinea, p. 5, DADAY, Math. term. Ertes. Magyar Ak. xii : n. spp.
- Scolopocryptops miersii* (Newp.), Santa Lucia, described, p. 465 ; POCOCK, J. Linn. Soc. xxiv, p. 465.
- S. calcarius*, Indiana, p. 133, BOLLMAN, Bull. U. S. Mus. xlvi, n. sp.

GEOPHILIDÆ.

- Agathothus*, n. g., for *Scolioplanes gracilis*, Bollm. ; BOLLMAN, Bull. U. S. Mus. xlvi, p. 166.
- Aspidopleres, n. g., p. 14, *intercalatus*, Damaraland, p. 15, PORAT, Bih. Svenska Ak. xviii, No. 4, n. sp.
- Bothriogaster signatus*, *affinis*, and *meinerti* are in all probability identical ; PORAT, Rev. biol. Nord France, vi, pp. 71 & 72.
- Geophilus bipuncticeps*, Wood, *georgianus*, Mein., and *perforatus* (McNeill) are synonymous with *attenuatus*, Say ; BOLLMAN, Bull. U. S. Mus. xlvi, p. 148. *G. cephalicus*, Wood, is synonymous with *rubens*, Say ; BOLLMAN, t. c. p. 148.
- G. mustiquensis*, Mustique I., p. 470, with fig., POCOCK, J. Linn. Soc. xxiv ; *G. grandiceps*, Cape Town, p. 47, PORAT, Bih. Svenska Ak. xviii, No. 4 : n. spp.
- Meinertia, n. n. for *Scotophilus*, Mein., preoccupied ; BOLLMAN, Bull. U. S. Mus. xlvi, p. 142.
- Taeniolinum*, n. g., p. 471, *setosum*, St. Vincent, p. 472, POCOCK, J. Linn. Soc. xxiv, n. sp.

DIPLOPODA.

GLOMERIDÆ.

- Latzelia*, n. g. for *Glomeris minima*, Latz., p. 161 ; BOLLMAN, Bull. U. S. Mus. xlvi.
- Sphaerotherium walesianum*, Karsch, from Queensland, is synonymous with *S. angulatum*, Butler ; POCOCK, Ann. Nat. Hist. (6) xi, p. 130.

POLYZONIDÆ.

- Dolistenus*, Fanz., is synonymous with *Androgynathus*, Cope ; BOLLMAN, Bull. U. S. Mus. xlvi, p. 136.
- Siphonophora feae*, Mount Mooleyit, p. 386, POCOCK, Ann. Mus. Genova, xxiii, n. sp.

POLYDESMIDÆ.

- Cryptodesmus gabonicus*, Lucas, Cameroons, p. 26 ; PORAT, Bih. Svenska Ak. p. xviii, No. 4.
- C. knutsoni*, Cameroons, p. 27, PORAT, Bih. Svenska Ak. xviii, No. 4, n. sp.
- Leptodesmus borealis*, Winona, p. 183, BOLLMAN, Bull. U. S. Mus. xlvi, n. sp.
- Orthomorpha. n. n. for *Paradesmus*, Sauss., preoccupied, p. 159; BOLLMAN, Bull. U. S. Mus. xlvi ; *karschi*, n. n. for *Paradesmus gracilis*, Karsch ; BOLLMAN, t. c. p. 196.
- Oxydesmus valdaii*, Cameroons, p. 24, *tuberculifrons*, Cameroons, p. 25, PORAT, Bih. Svenska Ak. xviii, No. 6, n. spp.
- O. erythropus*, Luc., and *granulosus*, Pal. Beauv., Cameroons, described, pp. 22-26 ; PORAT, Bih. Svenska Ak. xviii, No. 4.
- Paradesmus aubryi*, Luc., syn. *ornatus*, Pet., Cameroons, p. 20 ; PORAT, Bih. Svenska Ak. xviii, No. 4.
- P. thysanopus*, Congo, p. 25, pl. 1, figg. 1-6, COOK & COLLINS, Ann. N. York Ac. viii ; *P. sanguinicornis*, Cameroons, p. 21, PORAT, Bih. Svenska Ak. xviii, No. 4 : n. spp.
- Polydesmus canadensis*, Newp., *glaucescens*, and *pennsylvanicus*, Koch, are synonymous with *P. serratus*, Say ; BOLLMAN, Bull. U. S. Mus. xlvi, p. 146.
- P. pectiniger*, Portugal, p. 168, VERHOEFF, Zool. Anz. xvi ; *P. laevigatus*, p. 17, *setiger*, p. 19, Cape Town, PORAT, Bih. Svenska Ak. xviii, No. 4 ; *P. gallicus*, S. France, p. 4, DADAY, Math. term. Ertes. Magyar Ak. xii : n. spp.
- Polylepis, n. n. for *Pachyurus*, Sauss., preoccupied, p. 168 ; BOLLMAN, Bull. U. S. Mus. xlvi.
- Scytonotus scabricollis* and *lavicollis*, Koch, are synonymous with *S. granulatus*, Say ; BOLLMAN, Bull. U. S. Mus. xlvi, p. 146.
- Stenonia tuberosa*, Ki Is., p. 131, pl. ix, fig. 3, POCOCK, Ann. Nat. Hist. (6) ix, n. sp.
- Strongylosoma guérini* (Gerv.), syn. *cylindraceum* (Gerv.), Teneriffe and Bermuda, p. 130, figured, pl. ix, fig. 2 ; *gervaisii* (Lucas), syn. *trilineatum*, Newp., and *petersii*, L. Koch, Paramatta, p. 131, pl. ix, fig. 1 ; POCOCK, Ann. Nat. Hist. (6) xi. *S. syriacum*, Humb. & Sauss., Syria, described, p. 93 ; PORAT, Rev. biol. Nord France, vi.

CHORDEUMIDÆ.

- Branneria*, n. g., for *Craspedosoma carinatum*, Bollm., p. 158 ; BOLLMAN, Bull. U. S. Mus. xlvi.
- Haasia, n. g., for *Craspedosoma mammillatum*, Haase, p. 158 ; BOLLMAN, Bull. U. S. Mus. xlvi.
- Heterochordeuma, n. g., *doriae*, Thao (Burma), p. 387 ; POCOCK, Ann. Mus. Genova, xxiii, n. sp.

LYSIOPETALIDÆ.

Lysiopetalum hardwickii, Newp., is synonymous with *L. foetidissimum*, *richii* (Gray), with *anceps*, Latz.; *rugulosum* and *lineatum*, Newp., with *lactarium*, Say; POCOCK, Ann. Nat. Hist. (6) xi, p. 248. *L. rufolineatum*, C. Koch, Syria, described, p. 73; PORAT, Rev. biol. Nord France, vi.

L. alternans, Portugal, p. 167, VERHOEFF, Zool. Anz. xvi, n. sp.

IULIDÆ.

Hemipodiulus, Verhoeff, contains two new subgenera, *Megaiulus* and *Acanthoiulus*, p. 481; VERHOEFF, Zool. Anz. xvi.

Iulus (s. s.) contains the following new subgenera:—*Xestoziulus*, *Oncoiulus*, *Amploziulus*, *Cryptoiulus*, *Leptoziulus*, *Chromatoziulus*, *Cylindroziulus*, *Leucoziulus*, p. 480, VERHOEFF, Zool. Anz. xvi. *I. niger*, Leach, syn. *albipes*, C. Koch, *punctatus*, Leach, syn. *silvarum*, Mein., *pilosus*, Newp., syn. *fallax*, Moin., and *terrestris*, Leach, *pilipes*, Newp., syn. *varius* (Fabr.); POCOCK, Ann. Nat. Hist. (6) xi, p. 249.

I. (Hemipodiulus) dorsovittatus, Portugal, p. 157, VERHOEFF, Zool. Anz. xvi; *I. (s. s.) birmanicus*, Meteleo (Burma), p. 392, *feæ*, Tenasserim, *septem-lineatus*, Meteleo, p. 393, POCOCK, Ann. Mus. Genova, xxiii; *I. microporus*, p. 75, *barroisi*, p. 76, Syria, PORAT, Rev. biol. Nord France, vi; *I. oliveiræ*, Portugal, p. 159, *occultus*, p. 165, *porathi*, p. 166, VERHOEFF, Zool. Anz. xvi; *I. canariensis*, Teneriffe, p. 132, *tristani*, Tristan d'Acunha, p. 132, pl. ix, fig. 5, *solitarius*, Tristan d'Acunha, p. 133, pl. ix, fig. 4, POCOCK, Ann. Nat. Hist. (6) xi: n. spp.

Mesoiulus, n. g., for *Iulus sabulosus*, and *porathi*; VERHOEFF, Zool. Anz. xvi, p. 480.

Nemasoma sayanum, n. n., for *Iulus punctatus*, Say; BOLLMAN, Bull. U. S. Mus. xlvi, p. 144.

Micropodiulus, n. g., for *Iulus ligulifer*, Latz., and *terrestris*, Linn., p. 480; VERHOEFF, Zool. Anz. xvi.

Pseudoziulus is synonymous with *Paraiulus*; BOLLMAN, Bull. U. S. Mus. xlvi, p. 138.

Tachypodiulus, n. g., for *Iulus albipes* (C. Koch); VERHOEFF, Zool. Anz. xvi, p. 480.

CAMBALIDÆ.

Cambala, Gray, syn. *Glyphiulus*, Gerv., and *Trachyiulus*, Peters, characterised, *doriae*, Palon (Pegu), p. 389, *feæ*, Farm Caves (Moulmein), p. 390, *calva*, Reef Is., &c. (Burma), p. 391, POCOCK, Ann. Mus. Genova, xxiii, n. spp.

Iulomorpha porathi, Malamaui (Philippine I.), p. 134, POCOCK, Ann. Nat. Hist. (6) xi, n. sp.

SPIROBOLIDÆ.

Acanthiulus, Gerv., is allied to *Spirobolus murrayi*, Aru Is., p. 136, pl. ix, fig. 7, POCOCK, Ann. Nat. Hist. (6) xi, n. sp.

Spirobolus spinigerus, Wood, is a synonym of *S. marginatus*, Say; BOLLMAN, Bull. U. S. Mus. xlvi, p. 145. *S. monilicornis*, Porat, syn. *heilprini*, Bollm., and probably *virescens*, Daday, recorded from Bermuda, p. 138, *dorsalis* (Le Guillou), Aru Is., described, p. 140, figured pl. ix, fig. 8; POCOCK, Ann. Nat. Hist. (6) xi. *S. pulvillatus* and *simillimus*, Newp., are synonymous with each other, and with *giganteus* of Porat, and *ligulatus* of Voges, *caudatus*, Newp., syn. *latus*, Karsch, *roseus*, Gervais, syn. *costulatus*, Porat, and *S. hecate* of Butler is a *Spirostreptus*; POCOCK, t. c. pp. 249 & 250.

S. dentatus, p. 3, *fenichelii*, p. 4, New Guinea, DADAY, Math. term. Ertes. Magyar Ak. xii; *S. erythrocephalus*, Madagascar, p. 250, pl. xvi, fig. 2, *urophorus*, Seychelles, p. 251, pl. xvi, fig. 3, *naresii*, Seychelles, p. 252, pl. xvi, fig. 4, *hoplurus*, N. W. Borneo, p. 252, pl. xvi, fig. 5, *caledonicus*, New Caledonia, p. 253, pl. xvi, fig. 6, POCOCK, Ann. Nat. Hist. (6) xi; *S. digrammus*, Cape Town, p. 138, pl. ix, fig. 9, *challengeri*, Ki Is., p. 139, pl. ix, fig. 10, *flavo-collaris*, Aru Is., p. 140, pl. ix, fig. 11, *haemorrhantus*, Ki Is., p. 141, pl. ix, fig. 12, POCOCK, t. c.; *S. gracilis*, Paramaribo, p. 190, *callipus*, Guanajuato, p. 191, *bahamensis*, Bahamas, p. 192, *surinamensis*, Paramaribo, p. 192, *zonipus*, Paramaribo, p. 194, *dugesii*, Guanajuato, p. 194, BOLLMAN, Bull. U. S. Mus. xlvi; *S. moulineinensis*, Moulmein, p. 395, *macrurus*, Tenasserim, p. 396, *dolfusii*, Cochin China, p. 397, *spiculifer*, S. INTRODUCTION.

THE extent of Entomological work in 1893 appears to be quite as considerable as that of any previous year. The titles number 1069 against 1026 last year.

BRUNNER V. WATTENWYL has published a very useful work on the system of *Orthoptera* (116). He has been successful in obviating certain of the inconsistencies of Stål and others, so that some groups, whose classification was previously incomprehensible, are now brought into intelligible form. We are also indebted to FOREL for some improvements in the classification of ants (325).

Of systematic work we must also notice the first volume of RAGONOT's work on *Pyralidae* (745); it contains a very large number of genera in proportion to the species it deals with. WATSON has made a laudable effort (1033) to cope with the great difficulties presented by the classification of the *Hesperiidae*, proceeding to a large extent on the lines previously traversed by Scudder.

LETHIERRY AND SEVERIN have published the first volume of a useful and much required general catalogue of *Hemiptera* (583); and DALLA-TORRE has been able to give us two volumes (212) of the general catalogue of *Hymenoptera*.

In faunistic work we have the pleasure of noticing ASHMEAD'S (21) monograph of the N. American *Proctotrupidae*, SMITH's list (917) of the *Noctuid* Moths of N. America, and CALVERT's paper (135) on the Dragonfly fauna of Philadelphia. These three works will no doubt prove most useful in advancing and diffusing a knowledge of the rich insect-fauna of North America. HAMPSON has given us another part of the Illustrations of *Lepidoptera* in the British Museum (423); it refers to the fauna of Ceylon.

The publication of Parts v-vii of the Manual of New Zealand *Coleoptera* by BROUN (112) is notable, as it brings the number of named New Zealand forms of this order up to about 2,600. Although some deduction will, no doubt, have to be made from this number, on account of synonymy and varietal forms, yet, on the other hand, there still remains the great family of *Staphylinidae*, which has scarcely been touched. We shall be pardoned for expressing the hope that the *Diptera* and *Hymenoptera* may be collected before the extinction that is progressing so rapidly in New Zealand shall have further obscured the true nature of this very important fauna. Much suggestive matter will be found in WHEELER'S embryological treatise (1049); and very interesting entomological information is contained in MÖLLER'S memoir (641) on mushrooms cultivated by ants. BATAILLON'S enquiry (41) into the physiology of the metamorphosis of the silkworm is full of interest. The most important memoir of the year is, however, that by GRASSI & SANDIAS (393), giving an account of the habits and development of the two species of *Termitidae* found in Sicily, a subject on which it is clear much more

work will have to be done. URECH has given, in tabular form (999), the results of an enquiry into the colour of the scales of *Lepidoptera* and *Coleoptera*, and into their behaviour with several reagents. KOLBE's work on general entomology (538) has been completed.

The Recorder expresses his regret that he is unable to include even the titles of many articles—some at any rate being, in all probability, of value—of numerous agricultural and other experiment stations. Of some of the reports and bulletins of these institutions apparently no copy is sent to this country. He would also take the liberty of urging on entomologists the importance of indicating the species, genera, and synonyms contained in their work in such a manner that those purporting to be new can be detected without difficulty. Many authors make use of an abbreviation of their personal name, or “mibi,” where they should put “n. gen.” or “n. sp.” New names proposed in this manner are liable to be overlooked; and synonyms that are not marked as new are still more likely to meet with this fate.

II.—ANATOMY, PHYSIOLOGY, BIOLOGY.

1. GENERAL, COMPARATIVE AND EXTERNAL.

General anatomy of *Termitidae* and of *Embia*, GRASSI & SANDIAS (393).—General anatomy of *Phylloxera*, KRASSILSTCHIK (555).—Anatomy of larva of *Trichoptera* and of mouth of imago, LUCAS (602).—Tracheal system, alimentary canal, and nervous system of blowfly, LOWNE (600).—Anatomy of larva of *Melophagus ovinus*, PRATT (736).—General anatomy of larva and pupa of *Dicranota*, MIAILL (634).—Anatomy of *Chironomus* larva, MIAILL & HAMMOND (635).—Mouth-organs of *Diptera*, WATERHOUSE (1032), LOWNE (601).—Breastbone of *Cecidomyia* larva, GIARD (374).—Sclerites of head of *Danais*, KELLOGG (515).—Venation of Lepidopterous wing, EIMER (258).—External structure of pupa of *Micropteryx*, CHAPMAN (156); of other Lepidoptera, *id.* (155).—General anatomy and histology of fat-body of *Phylloxera*, KRASSILSTCHIK (552).—Duality of labrum, CHATIN (157).—Morphology of appendages, HANSEN (426, 427). Post-embryonal development of male armour of *Periplaneta*, PEYTOUREAU (704).—*Chironomus dorsalis*, post-embryonal development, MIAILL & HAMMOND (635).—Origin of imaginal discs in *Melophagus*, PRATT, Arch. Naturg. lix, i, p. 198.

2. NERVOUS SYSTEM, ORGANS OF SENSE, AND PSYCHOLOGY.

Histology of nervous system, MONTI (648).—Function of cerci, KOLBE (543).—Sense-organ on antenna of Coleopterous larva, GAHAN (357).—Sense-organs on legs of *Termes*, STOKES (943).

Distribution of Gland nerves and Gland capillaries in Lepidopterous larva, HOLMGREN (457).

Sight, WENSLEY (1047).—Optics of sight, ROSTOCK (820).—Proportions of the sexes of *Coleoptera* attracted by light, WICKHAM (1052).—More males than females attracted by light, SLINGERLAND (906).—Insects and the searchlight of a warship; Entomologist, xxvi, p. 217.—Butterflies and colours, KNAGGS, Entomologist, xxvi, p. 273.—Decoying butterflies, DAGGETT, Ent. News Philad. 1893, p. 15.—Development of eye of the imago of *Vanessa urticae*, JOHANSEN (499).

Instinct discussed, EMERY (265).—Reflex action in *Mantis religiosa*, DUBOIS (248).—Experiments by wounding nerve-centres and limbs, HERRERA (440), and DUBOIS, *op. id.* p. 224.—Instinct of ants, FOREL (320).—Habits of *Crabronidae*, MARCHAL (615).—Habits of *Bembex*, MARCHAL (614).—*Osmia cristata*: habits relations to coloured flowers, FERTON (310).—Change of habit in *Megachile centuncularis*, GIARD, Bull. Soc. ent. France, 1893, p. cccvii.—Habits, instincts, and development of *Termitidae*, GRASSI & SANDIAS (393).—Habits of butterflies at Yokohama, SEITZ (871).—Recognition of ants, PAWSON, Sci. Gossip, 1893, p. 183.—Ants as cultivators of mushrooms, MÜLLER

(641).—Sound-producing ants, LIVINGSTONE, P. ent. Soc. London, 1893, p. xxxv.—Sound-producing organs of ants, SHARP (890).—Chirping ants, EMERY (266).—Sounds produced by ants, JANET (493).—Stridulation of ants, WASMANN (1029).—Use of Microphone for listening to sounds, PREECE, P. ent. Soc. London, 1893, p. xii.

Mode of hovering of *Diptera*, CAR (146).

Scent-organs (presumed) on head of *Tineides*, MEYRICK, p. 573, P. Linn. Soc. N. S. Wales (2) vii.

3. MUSCULAR SYSTEM.

Structure of muscular fibrillæ in repose of *Dytiscus* and *Hydrophilus*, TOURNEUX (970).—Contraction of the striated muscles of *Bombyx mori*, PATRIZI (700).—Absolute power of muscles of *Coleoptera*, CAMERANO (140).—Absolute power of mandibular muscles of *Coleoptera*, CAMERANO (138).

4. ORGANS AND FUNCTION OF NUTRITION, CIRCULATION, AND RESPIRATION.

Anatomy and histology of alimentary canal of *Orthoptera*, VISART (1013).—The digestive secretions, with descriptions and figures of epithelium, ADLERZ (8).—Ecdysis and food in *Dicranura*, SEYFANG, Entomologist, xxvi, p. 274.—Peculiar odour of myrmecophagous insects, GIARD, p. cccv, Bull. Soc. ent. France, 1893.

Malpighian tubes, their primitive number, homologies, &c., WHEELER (1050).—Malpighian tubes of *Cecidomyia* larvæ, GIARD (374), LABOULBÈNE, tom. eod. p. clxxiv.

Glands, see Nervous System, p. 67.

Action of toxic substances on eggs, larvæ, and chrysalids of *Bombyx mori*, RAULIN (749).

Histology of tracheæ, STOKES (942), quoted in Ent. News Philad. 1893, p. 90.—Origin of tracheæ, BERNARD (61).—Structure of stigmata in *Melolontha* larva, BOAS (81).—Post-thoracic stigmata of larva of *Rhynchophorus palmarum*, BLANDFORD, P. ent. Soc. London, 1893, pp. ii & viii.—Respiratory movements and respiratory muscles in the thorax of *Coleoptera*, CAMERANO (139).

Respiration of pupa of *Bombyx*, LUCIANI & LO MONACO (603).—Relations of respiration to metamorphosis in the silkworm, BATAILLON (41).—Development of respiratory apparatus of *Nepa*, MARTIN (616).

5. SEXUAL ORGANS AND EMBRYOLOGY.

The embryology of *Xiphidium ensiferum*, with discussion of many points connected with other insects, WHEELER (1049).—Embryology of *Forficula*, HEYMONS (441).

Morphology of genital armour discussed, PEYTOUREAU (704, 705, 706).—General character of ♂ copulatory organs, VERHOEFF (1002), ESCHE-

RICH (272), VERHOEFF (1011, 1012).—Anatomy of copulatory organs of male in *Coleoptera*, VERHOEFF (1002).—Anatomy and morphology of ♀ abdomen of *Coleoptera*, VERHOEFF (1003).—Structure of ovipositor of *Coleoptera*, VERHOEFF (1003).—Structure of male sexual glands in *Lucanidae*, ESCHERICH (270); of terminal abdominal segments of ♀ of *Rhynchota*, VERHOEFF (1004).—Morphology of copulatory ♂ organs of *Hymenoptera*, VERHOEFF (1005).—*Bombus*, ♂ organs, BORDAS (91).—Structure of copulatory organs in *Odonata*, INGENITZKY (477).—Sexual organs of *Noctua pronuba* figured and described, GRIFFITHS (401).—Sexual organs of *Pronuba*, and organs in spermatheca, RILEY, Bull. Botan. Garden Missouri, iii, p. 132, pl. xl.—Androconia of *Lepidoptera*, THOMAS (966).—Note on the larval testes of *Ephestia kuehniella*, DANYSZ, Bull. Soc. ent. France, 1893, p. clxxviii.—Origin of the sexual cells, HEYMENS (442).

Spermatozoa of *Dytiscus*, AUERBACH (25 & 26), and Boll. scient. xv, p. 28.—Behaviour of Spermatozoa of *Dytiscus*, BALLOWITZ (37).

Nuclear chromatophyl substances in parthenogenetic eggs of *Aphis rosae*, ZOJA (1068).

Development of egg in viviparous and oviparous *Aphididae*, LEMOINE (578).—Viviparous reproduction in *Coccidae*, KRASSILSTCHIK (554).—Development of unfertilised and fertilised eggs in *Phylloxera*, LEMOINE (579, 580).

Parthenogenesis and alternation of generations, CAMERON (141).—Parthenogenetic production of workers of Wasp, MARCHAL (613).

Hermaphrodite of *Lethe mekara*, KRETZSCHMAR, p. 160, Deutsche ent. Zeitschr. Lep. vi; of *Rhodocera rhamni*, and of *Argynnis paphia*, VOSSELER (1014); of *Psilura monacha*, HENRION, Soc. ent. viii, p. 12; of *Calopteryx splendens*, RUDOW, t. c. p. 84.—Gynandrous *Argynnis paphia*, BARRETT, p. xxx, P. ent. Soc. London, 1893, and Ent. Mag. xxix, p. 189.—Gynandromorphous *Smerinthus populi*, BROWN, Ent. Mag. xxix, p. 165.—Number of hermaphrodites in his collection, STAUDINGER, p. 160, Deutsche ent. Zeitschr. Lep. vi.

Notes on hybrid *Lepidoptera*, STANDFUSS, Zeitschr. Ent. Breslau, xviii, p. xiii.—Hybridising *Zygaea*, FLETCHER (314), and P. ent. Soc. London, 1893, p. ix.—Hatching of 1800 hybrid eggs between *Spilosoma rustica* and *mendica*, CARADJA, Soc. ent. viii, p. 89.—Hybrid of *Smerinthus austauti* and *atlanticus*, AUSTAUT, Naturaliste, 1893, p. 230; of *Libellula quadrimaculata* and *fulva*, RUDOW, p. 84, Soc. ent. viii; hybrid Saturniid Moths, WATSON (1034).—Hybrid larvæ of *Actias luna* and *selene*, BEUTENMÜLLER, p. 90, Bull. Amer. Mus. v.

6. GENERAL BIOLOGY AND STRAY NOTES.

Cave Insects, GARMAN (363).

Chelifers parasitic on beetles, HICKSON (443).—Sketch of parasitism in the *Insecta*, RILEY (788).—Parasite: the use of the word, REY (780).—Plumose antennæ in ♀ Lepidopterous pupæ, WOOD, Ent. Rec. iv, p. 237.

—Protection of *Lepidoptera* by common cocoons, *Psyche*, vi, p. 410.—Controlling swarming of bees, BENTON (48).—*Catocala dilecta*, habits in connection with temperature, CARADJA, Deutsche ent. Zeitschr. Lep. vi, p. 225.—Unusually early appearance of *Schistocerca americana* in Indiana, BLATCHLEY, *Psyche*, vi, p. 465.—Cause of occasional abundance of *Deilephila galii*, W. E. SHARP (893).—The food of Lepidopterous larvæ in relation to their general biology and evolution, SEITZ (874).—Effect of change of food-plants on insects in New Zealand, SMITH, Entomologist, xxvi, p. 221.—Proportion of the two sexes produced from butterfly eggs, BEAN (42).—Proportions of sexes produced by successively laid eggs of *Smerinthus populi*, POULTON (735).—Production of distinction between worker and female bees, GALE (361), ABRAM (6).—Cannibalism of *Papilio* larvæ, KUNZE (560); of *Danais archippus*, FIELD, Canad. Ent. xxv, p. 88.

Laws governing variation in *Lepidoptera*, OBERTHUR (677).—Nine specimens of one species possessing each "so called specific or generic characters," WILLISTON (1061).—Season dimorphism in *Lepidoptera*, SEITZ (872).—Variation in Shetland, SOUTH (929).—Variation of venation, DYAR (251).—Variation of *Gonioctena articata*, WICKHAM, p. 166, Amer. Natural. 1893; of colour of *Elater sanguinolentus*, CANDEZE, p. 286, Ann. Soc. ent. Belgique, xxxvii.—Variation in *Geotrupes auratus*, LEWIS, Entomologist, xxvi, p. 150.—Variation in labrum of *Agrotis segetum*, CHATIN (157).—Variation in *Crossidius* and melanism, WICKHAM (1055); of *Methoca ichneumonoides*, ROTHNEY, P. ent. Soc. London, 1893, p. xxix; of wing-venation of *Tenthredinidae*, HARRINGTON, p. 59, Canad. Ent. xxv; in length of elytra of *Staphylinidae*, EPPELSHEIM (269).—Abnormalities in colour of some species of N. American *Rhopalocera*, EHIRMAN, Ent. News Philad. 1893, p. 75.—Melanic var. of *Papilio sarpedon*, NICÉVILLE, p. 54, pl. 1, fig. 11, J. Bombay Soc. viii.—Variation of *Papilio machaon*, FARREN (295), and NICHOLSON, Ent. Rec. iv, p. 189, pl. D, fig. 1.—*Colias edusa*, variation in Pyrenees; intermediate to *helice*, CARADJA, Deutsche ent. Zeitschr. Lep. vi, p. 171; of *Gonepteryx rhamni*, HANBURY, P. ent. Soc. London, 1893, p. xxx; of *Vanessa io* and others, LLEWELYN, t. c. p. xvi; of *Vanessa urticæ*, COX, Entomologist, xxvi, p. 295, and NICHOLSON, Ent. Rec. iv, p. 189, pl. D, figg. 2 & 3.—Varr. of *Vanessa urticæ* and *Erebia blandina* in Scotland, MORTON, Ent. Mag. xxix, p. 223.—*Vanessa cardui*, var., NICHOLSON, Ent. Rec. iv, p. 190, pl. D, fig. 5.—Variation in *Vanessa cardui* and *atalanta*, SOUTH, Entomologist, xxvi, p. 27.—Var. of *Epinephele hyperantæ*, SOUTH, t. c. p. 281, and RIDING, t. c. p. 318; of *Argynnис papbia*, FROHAWK, t. c. p. 97; of *Argynnис frigga* and *aphirape*, SAHLBERG (832); of *Polyommatus phleas*, NICHOLSON, Ent. Rec. iv, p. 189, pl. D, fig. 6; of *Chrysophanus phleas*, FROHAWK, Entomologist, xxvi, p. 294, SABINE, t. c. p. 295, SOUTH, t. c. p. 305, and MERRIFIELD, p. xv, P. ent. Soc. London, 1893; of *Lycaena theophrastus*, MANDERS, p. xiv, t. c.—Variation in *Zygana trifolii*, BARRETT, Ent. Mag. xxix, p. 181, and SOUTH, Entomologist, xxvi, p. 215.

Var. of *Spilosoma lubricipedu*, SOUTH, Entomologist, xxvi, pp. 257 & 346; also PORRITT, t. c. p. 296.—*Arctia caja*, N. American var., NEUMOGEN & DYAR, p. 214, Ent. News Philad. 1893.—Variation of *Xylophasia polyodon*, &c., in Donegal, JOHNSON, Ent. Mag. xxix, p. 236.—*Triphena pronuba*, variation of the two sides in one specimen, BLAGG, Entomologist, xxvi, p. 250.—Variation of *Plotheia frontalis*, HAMPSHIRE, p. 106, pl. clxiv, figg. 1-32, Ill. Lep. Het. ix.—Varieties of British *Noctuæ*, TUTT (994); of *Zonosoma* in Rhineland, FUCHS (352); of *Thalpochares candidana*, JOANNIS, p. ccxxxv, Bull. Soc. ent. France, 1893.—Doubtful var. of *Dasympampa rubiginea* and *Cerastis vacciniæ*, KIRBY, P. ent. Soc. London, 1893, p. xxxvii.—Variation of larva of *Synchloe lacinia*, EDWARDS, pp. 286-291, Canad. Ent. xxv.—Var. in colour of pupa of *Anthocharis euphenoides*, BROMILOW, Entomologist, xxvi, p. 138.—The two sexes and a variety in one ind. of *Argynnus paphia*, VOSSELER (1014).—Similar var. in two larvae, DYAR, Ent. News Philad. 1893, p. 262.—Similar var. of *Lycæna alexis*, KEAYS, P. ent. Soc. London, 1893, p. xxxvii.—Asymmetric var. of *Triphena pronuba*, SOUTH, Tr. ent. Soc. London, 1893, p. xxxii.—Melanism, FREER, Ent. Rec. iv, p. 188, and KANE (504).—Melanism in British *Lepidoptera*, ROBSON (810), TUTT (995).—Melanochroism in British *Lepidoptera*, TUTT, Ent. Rec. iv, pp. 141-148; GROTE, t. c. pp. 165 & 196; STILL, t. c. p. 220.—Melanic var. of *Lepidoptera* near London, QUAIL, Ent. Rec. iv, p. 108.—Melanism in *Diurnæa fagella*, HOLLIS, Ent. Rec. iv, p. 149; in Pyrenean Lep., CARADJA, Deutsche ent. Zeitschr. Lep. vi, p. 165.

Wingless ♀ of *Biston hirtarius*, ROBBE, p. 514, Ann. Soc. ent. Belgique, xxxvi.

Variation in structure of prosternum of *Dinarchus dasypus* (*Locustidæ*), p. 176, and of *Calyptotryphus marmoratus* (*Gryllidæ*), p. 215, BRUNNER, Ann. Mus. Genova (2) xiii.—Variation in *Blabera* (*Blattidæ*), SAUSSURE, p. 117, Biol. Centr.-Amer. Orthopt.—Variation of *Diptera* and *Lepidoptera* in relation to climate, SINTENIS, p. 487, SB. Ges. Dorpat. ix.—Variation of venation in wings of *Diptera*, SINTENIS, t. c. p. 481 and p. 486; in *Trimicra*, WULP, p. 499, Ann. Soc. ent. Belgique, xxxvii, woodcut.—Variation of *Opomyza*, SINTENIS (900).—Insular variation of *Schistocerca melanocera* and *literosa*, SCUDDER, pp. 11 & 16, Bull. Mus. Harvard, xxv.—Variation in colour of wings of *Acridiidæ* correlative with climate, BRUNER (114).—Colour of wings of different species of *Orthoptera* and climate, DISTANT (238).—Melanistic var. of *Orthopteron*, MORSE, p. 401, Psyche, vi.—Breeding from varieties of *Spilosoma lubricipeda* and *Psilura monacha*, TUGWELL, Entomologist, xxvi, p. 247.

Variation and protection, ACLAND, Rep. Rugby Soc. pp. 29-32.

Pachyta quadrimaculata, double antenna, PLANET, Naturaliste, 1893, p. 275.—*Abraçax grossulariata*, deformation of wing, SOUTH, Entomologist, xxvi, p. 145.—Abnormal embryo of *Dissosteira carolina*, SCUDDER, p. 406, Psyche, vi.

Relation of colour of Lepidopterous larvae to food, POULTON (734).—Development of colour in *Phymatodes variabilis*, PLANET, Naturaliste,

1893, p. 242; in the pupa of *Ichneumon ruficaudus*, PLANET, *t. c.* p. 196.—White and brown cocoons of *Saturnia pyri*, PLANET, Bull. Soc. ent. France, 1893, p. xxx, and Naturaliste, 1893, p. 118.—Temperature and dark forms, FIELD, P. ent. Soc. London, 1893, p. xxv; MERRIFIELD, *t. c.* p. xxviii.—Temperature and colour of *Chrysophanus phlaeas*, MERRIFIELD (628, 629).—Changes of colour in *Schistocerca peregrina*, VOSSELER, p. lxxxvii, Jahresh. Ver. Wurttemb. 1893.—Changes of colour in locusts during development, BRONGNIART (111).—Colour of animals (vertebrates) and parasitism, RICE, Insect Life, v, p. 256.—Colour, changes of, CARPENTER (149).—Striking colour and ocellar spots, origin and development, PORTSCHINSKY (732).—Colour of imago of *Lepidoptera*, and physiology of pupal changes, TUTT (993).—*Lepidoptera* of which the yellow colour is influenced by cyanide of potassium, COSTE (201).—Colour of the scales of *Lepidoptera* and *Coleoptera*, and effect of reagents on them, URECH (999).—Decoying butterflies, KNAGGS, Entomologist, xxvi, pp. 154–156.

Protective resemblance, CUÉNOT, Naturaliste, 1893, pp. 38 & 39.—Protective resemblance of *Geometra papilionaria* larva, HEWETT, Ent. Rec. iv, p. 215.—Protective coloration in *Stauropus fagi*, CLARKE, Entomologist, xxvi, p. 59.—Protective resemblance in larva of *Acherontia atropos*, ROSSI, Boll. Soc. Rom. Zool. i, p. 180.—Protective resemblance of *Oedemasia concinna*, TUCKER, Science, xxii, p. 123.—Resemblance of *Hypatima bindella* to broken twig, HERING, p. 105, Stettin Ent. Zeit. liv.—Protection of *Cryptorhynchus stigma* by resembling colour of inside of pod, Timehri, vi, p. 181.—Resemblance of larva to twig, GUPPY, J. Trinidad Club, i, p. 200.—Resemblance of *Eristalis tenax* and bee, OSTENSACKEN (687).—Protective and warning colour, GOULD (392).—Protective colouring, selection of positions, EWOR, Field Club, iv, p. 107, BATH, *t. c.* pp. 119–122.—Butterflies selecting similar spots to themselves, CLEMENTS in SCHAUER & CLEMENTS (843) p. vi.—Protection not used, WHITAKER, Field Club, vi, p. 155.

Mimicry: HAASE (420), SEITZ (869), also RIESEN, *t. c.* p. 29, SWINHOE (954), WHITEHEAD (1051), MORRIS, Field Club, iv, pp. 3–6, CORDER, *t. c.* pp. 26–28.—Mimicry between small insects, KENNEL (519).—Effect of mimetic insects on apes, SEITZ (868).—Mimicry in 1st group of *Heliconius*, WEYMER, Deutsche ent. Zeitschr. Lep. vi, pp. 285 & 286.—Resemblance of a *Longicorn* and *Clerid*, FAIRMAIRE, p. 521, Ann. Soc. ent. Belgique, xxxvii; ant and beetle, WASMANN (1026); *Tipulid* and *Reduviid*, FROGGATT, P. Linn. Soc. N. S. Wales (2) viii, p. 126; *Myrmecia* and *Cryptocerus*, STADELmann, SB. Ges. naturf. Berlin, 1893, p. 169.—The mimicry of *Volucella*, LATTER (572).—Mimicry in *Hemiptera*, DISTANT, Biol. Centr.-Amer. Rhynchota, Introduction, p. ix, also REUTER (778).—Mimicry in *Blattidae*, SAUSSURE, Biol. Centr.-Amer. Orthopt. p. .

Birds eating *Sphinx catalpae*, Insect Life, v, p. 350.—*Danais archippus* eaten by mice, Insect Life, v, p. 270.—Birds eating larvæ, KLETKE, Zeitschr. Ent. Breslau, xviii, p. xiv.

Myrmecophilous *Coleoptera*, WASMANN (1026).—Ants'-nest beetles, RUPERTSBERGER (829).—Ants'-nest insects, *Tettigometra* and *Crematogaster*, SCHNEIDER, Ent. Nachr. xix, p. 79.—*Elasmosoma berolinense*, habits, OLIVIER, p. lxxi, Bull. Soc. ent. France, 1893.—Myrmecophilous *Dipteron*, WASMANN (1030).—Ants and *Coccidæ*, COCKERELL, Nature, xlvii, p. 608, ROMANES, op. cit. xlvi, p. 54.—Review of Wassmann's work on mixed colonies of ants, PANTEL, Rev. Quest. Sci. (2) iv, pp. 573–586.—Termitophilous *Coleoptera*, WASMANN (1031).—Phylogeny of Saturniid moths, FACKARD (692).—Variation of *Vanessa atalanta* and phylogeny, DIXEY (239).—Evolution of insects' wings, COMSTOCK (185).—Copulatory organs and phylogeny, VERHOEFF (1010).—Lepidopterous phylogeny and origin of species, EIMER (258).

Galls : CAMERON (141, 142), DALLA TORRE (214), KIEFFER (525 to 528), MASON (621), MASSALONGO, *Coccidæ* (622, 623), SCHLECHTENDAHL (846), SIMROTH (899), THOMAS (965), TOWNSEND (986).—Theory of origin, &c., CAMERON (141).—Production of, ROTHERA (821).—Notes on various insect galls, RUDOW, Soc. ent. viii, p. 123.—Galls of *Cecidomyiidae*, TOWNSEND (973, 974).—Galls of *Asphondylia melanopus*, MIK, p. 292, Wien. ent. Zeit. xii.—Galls of the *Brachyscelidae*, FROGGATT (346), TEPPER (959), STADELMANN, p. 231, SB. Ges. naturf. Berlin, 1893.—Gall-making *Aphid*, BUCKTON (121).—*Buprestidae* as makers of galls, FROGGATT (345).—Galls of *Nematus salicis*, and general considerations on cecidiogenesis, HEIM (433).—Galls on *Bigelovia*, TOWNSEND (977).—On *Ephedra nevadense*, TOWNSEND, p. 242, Ent. News Philad. 1893.—Galls on *Populus fremonti*, woolly leaf-gall on oak, Hymenopterous gall on Creosote bush, TOWNSEND, Amer. Natural, 1893, pp. 904–906; Cecidomyiid gall on *Atriplex*, id. t. c. p. 1021.—Woolly gall on *Quercus undulata*, var. *wrightii*, TOWNSEND, Psyche, vi, p. 523.

Insects attacking man : Insects and flowers. [See Economic.]

III.—FAUNISTIC AND PALÆONTOLOGY.

The numbers in brackets refer to "Titles"; by their means it is intended to give a reference to every memoir containing a notice affecting the entomological fauna of each of the twelve regions here made use of. But synonymous notes and changes of systematic position are not included in these references.

New species whose locality is not known :—*Coleoptera*: *Teratotarsa* (n. g.) *schouberti*, Tschitsch., cf. *Carabidae*; *Menephilus cibratellus*, Fairm., cf. *Tenebrionidae*.

Collembola in hothouses in N. Europe ; REUTER (771) : *Thysanoptera* in hothouses in N. Europe ; REUTER (773).

Localities for *Halobates*, WALKER, P. ent. Soc. London, 1893, p. xxix.—Atlantic ocean *Halobates*, DAHL (211).

Insects at sea: *Schistocerca exsul*, SCUDDER, Bull. Mus. Harvard, xxv, p. 4.—Moth at sea, MACLACHLAN, P. ent. Soc. London, 1893, p. ii.

1. ARCTIC AND ANTARCTIC.

Greenland (*Insecta*), AURIVILLIUS (27).

2. INSULAR (including NEW ZEALAND).

The entomological peopling of an island, ADLERZ (7).

Madeira (*Coleoptera*), CROISSANDEAU (209, 210); (*Rhynchota*), REUTER (775).

Canary Is. (*Hymenoptera*), EMERY (261), FOREL (323, 326), MEDINA, Act. Soc. espan. xxi, p. 85; (*Hemiptera*), NOUALHIER (675); (*Neuroptera*), MORTON (657); (*Orthoptera*), BOLIVAR (87).

Cape Verdo Is. (*Rhynchota*), BERGROTH (50).

St. Helena (*Coleoptera*), JACOBY (486).

Fiji Is. (*Coleoptera*), FAUST (296).

Loo-Choo Is. (*Lepidoptera*), HOLLAND (454).

Kurile I. (*Coleoptera*), LEWIS (586).

Galapagos (*Hymenoptera*), EMERY (262); (*Orthoptera*), SCUDDER (865).

Hawaiian Is. (*Coleoptera*), Insect Life, vi, p. 43; (*Coccidae*), MASKELL (619).

Falkland Is. (*Lepidoptera*), BUTLER (127).

New Zealand (*Coleoptera*), BROUN (112, 113), RAFFRAY (742).—Destruction in New Zealand, THOMSON, Science, xxii, p. 189.

3. PALÆARCTIC REGION.

(a.) *The Region.*

For Mongolia, see 6, Tropical and Eastern Asia.

Coleoptera. ABEILLE (1, 2, 4), CROISSANDEAU (209, 210), DANIEL (215), DESBROCHERS (222, 223, 224), ESCHERICHII (271), GUILLEBEAU (412), JAKOWLEFF (489), PIC (723, 724, 725), RAFFRAY (742), REITTER (754, 757, 758, 760, 761, 770), SEIDLITZ (866), SEMENOW (875, 876, 878, 880), STIERLIN (941), TSCHITSCHÉRINE (992), WEISE (1044), ZOUFAL (1069).

Hymenoptera. ANDRÉ (14), HANDLIRSCH (424), MOCSÁRY (639), RADOSZKOWSKY (738).

Lepidoptera. BOHATSCH (83), CHRISTOPH (162), RAGONOT (745), REBEL (750), STAUDINGER (933).

Aphaniptera. WAGNER (1019).

Rhynchota. BERGROTH (59), JAKOWLEFF (491), REUTER (775).

Neuroptera. McLACHLAN (610), MORTON (657).

(b.) *Collective Europe.*

Coleoptera. Additions to and alterations in the European Catalogue, BERGROTH (56), FRIVALDSZKY (343), GERHARDT (366, 367), PIC (714), REITTER (766).

Hymenoptera. FRIESE (341), KRIECHBAUMER (559), POKORNY (729), RÜBSAAMEN (827, 828).

Rhynchota. PUTON (737).

Orthoptera. BOLIVAR (86).

(c.) *British Islands.*

ADDITIONS, CHANGES, ETC.

Coleoptera. GORHAM, novelty, Entomologist, xxvi, p. 349.—NEWBERRY, novelty, Ent. Mag. xxix, p. 250.—Catalogue of British *Coleoptera*, SHARP & FOWLER (892).

Hymenoptera. BIGNELL, n. sp., Ent. Mag. xxix, p. 37.—BILLUPS, novelties, Entomologist, xxvi, pp. 278 & 279.—DALE, novelty, Ent. Mag. xxix, p. 68.—DALE, novelties, t. c. p. 115.—Monograph of British Phytophagous *Hymenoptera* concluded, CAMERON (141).

Lepidoptera. RICHARDSON, n. sp. (783).—*Grapholita gemmiferana*, FLETCHER, novelty, Ent. Mag. xxix, p. 80.—THURNALL, *Dichrorampha alpestrana*, novelty, t. c. p. 175.—CORBET, *Lithocletis cerasicorella*, novelty, t. c. p. 82.—BARRETT, *Gelechia figulella*, novelty, t. c. p. 158.—BANKES, *Gelechia strelitzella*, withdrawn, t. c. p. 213.—British butterflies, BARRETT (39).—Larvae of British moths, BUCKLER (120).—The decadence of British butterflies, McLACHLAN (609).—*Aporia cratagi*, as British, MERRIFIELD, Ent. Mag. xxix, p. 163.—*Clostera anachoreta*, as British, KNAGGS, Entomologist, xxvi, pp. 40–45, GREENE, t. c. p. 76, WEBB, t. c. p. 79, KNAGGS, t. c. p. 111.—*Acidalia osseata*, as British, BARRETT, Ent. Mag. xxix, p. 65.—*Butalis dissimilella*, as British, BANKES, t. c. p. 88.

Diptera. EATON, novelties, n. spp. (255).—BRADLEY, novelties, Ent. Mag. xxix, p. 285.—MEADE, novelties (625).

Coccidae. DOUGLAS, n. sp. (245).—NEWSTEAD, n. sp. (669).

Neuroptera. MORTON, n. sp. (657).

LOCAL LISTS.

Insecta. N. Devon, SWALE, Ent. Mag. xxix, p. 261.—Dorset, RICHARDSON, P. Dorset Club, xiv, pp. 203–205.—Marlborough, MEYRICK, CLAXTON, & YOUNG, Rep. Marlbor. Soc. xli, pp. 122–142.—Oxford, SHIPP, Ent. Mag. xxix, pp. 191 & 192.—Ipswich, MORLEY, Sci. Gossip, 1893, p. 127.

Coleoptera. North Devon, SWALE, Ent. Mag. xxix, p. 286.—Chesil Bank and Glanvilles Wootton, DALE, t. c. p. 143.—New Forest, BAYFORD, t. c. p. 48.—Hastings, BENNETT, t. c. p. 19, and t. c. pp. 142 & 193.—Eastbourne, BENNETT, t. c. p. 142.—Tenterden, BENNETT, t. c. p. 141.—Sheppey, WALKER, t. c. p. 286.—Woking, CHAMPION, t. c.

pp. 90, 115, 145, & 216.—Windsor, CHITTY, *t. c.* p. 286.—City of London, LEWCOCK, Tr. City London Soc. 1893, pp. xi–xv.—Oxford, SHIPP, Entomologist, xxvi, p. 89, and Ent. Mag. xxix, p. 89.—Wychwood Forest, SHIPP, *t. c.* p. 144.—Reading, HOLLAND, *t. c.* p. 237.—Marlborough, FOWLER, *t. c.* p. 71.—Sherwood Forest, FOWLER, *t. c.* p. 162.—Yorkshire, MOSLEY, *t. c.* p. 193.—Cardiff, TOMLIN, *t. c.* p. 192.—Llantrissant, CHITTY, *t. c.* p. 19.—Castle-Douglas, ROBINSON-DOUGLAS, Tr. Dumfries Soc. 1892–93, pp. 126–130.—Arran, BILLUPS, Entomologist, xxvi, p. 54.—Loch Awe, CHITTY, Ann. Scott. Nat. Hist. 1893, p. 119, and Ent. Mag. xxix, p. 48.—Rothiemurchus, EVANS, Ann. Scott. Nat. Hist. 1893, p. 249.—Morayshire, CHITTY, Ent. Mag. xxix, pp. 68 & 258.—Craigellachie, CHITTY, *t. c.* p. 19.—Caithness, GRIMSHAW, Ann. Scott. Nat. Hist. 1893, p. 121.—Thurso, THORNLEY, Ent. Mag. xxix, p. 143.—Ireland, HALBERT, *t. c.* p. 116.—Dublin, HALBERT, *t. c.* p. 215.

Hymenoptera. Plymouth, BIGNELL, Entomologist, xxvi, p. 52.—Deal, Rugby, Cannock Chase, MORICE, Ent. Mag. xxix, pp. 10–12.—Rugby, MORICE, Rep. Rugby Soc. xxvi, pp. 26–29, and xxvii, pp. 50 & 51.—Bexhill, ROTHNEY, Ent. Mag. xxix, p. 262.—Shirley, ROTHNEY, *t. c.* p. 67.—Forres, CHITTY, *t. c.* p. 91.—Ireland, CARPENTER, *t. c.* p. 166.

Lepidoptera. Guernsey, LUFR, Ent. Mag. xxix, p. 139.—Cornwall, ST. JOHN, Entomologist, xxvi, p. 314.—Sidmouth, GOSS, Ent. Mag. xxix, p. 189.—N. Devon, *t. c.* p. 87.—Bloxworth, CAMBRIDGE, Entomologist, xxvi, pp. 87–89.—Dorset, BANKES, *t. c.* p. 86, and Ent. Rhynchota. BERGROTH (54, 57); DISTANT (228-230); MASKELL (619); MONTANDON (643, 645); NEWSTEAD, *Coccidae* (669); *id.*, TRINIDAD, *Coccidae* (669).

Neuroptera. GERSTAECKER (368).

PALÆO-ENTOMOLOGY.

[*Cf.* GADEAU (354), MEUNIER (632), SCHÄFF (840), SCHAFUSS (841).]

COLEOPTERA.

SCHAUFUSS (841) describes numerous new species from Baltic amber, and establishes the following new genera of *Scydmænidae*: *Cryptodiodon*, p. 564, *Semmodioceras*, p. 573, *Palaeomastigus*, p. 575, *Heterothia*, p. 579, *Paleothia*, p. 581, *Heuretus*, p. 583, *Electroscydmenus*, p. 584, *Nunquam* *ot.* iii.

DIPTERA.

Oppenheimiella baltica, n. g. & sp. *Platypezidae* in amber; MEUNIER (632).

ORTHOPTERA.

Protophasma, proportions of thoracic segments; SCUDDER, *Psyche*, vi, p. 406.

Periplaneta orientalis in peat; SCHÄFF (840).

THYSANURA.

Machilis succinii in Baltic amber; GADEAU, p. 465, *Ann. Soc. ent. France*, 1893, n. sp.

IV.—ECONOMIC.

A large number of notes and queries in Insect-life, bearing on Economic Entomology, are not specially recorded.

Reports, &c.: ORMEROD (680).—Handbook of destructive insects of Victoria (Australia); FRENCH (338).—Injurious insects in Tasmania; THOMPSON (968).—Conspectus of injurious insects of East India; COTES (203): many miscellaneous notes; *id.* (204).—Injurious insects in N. America in 1893, WEBSTER, p. 186, *Ins. Life*, vi; SMITH, *t. c.* pp. 187-192; OSBORN, *t. c.* pp. 193 & 194.—Report on insects of the season in Iowa; OSBORN, *Bull. Dep. Agric. Ent.* xxx, pp. 42-48.—Report on insect injuries in Nebraska during the summer of 1892; BRUNER, *t. c.* pp. 34-41.—Report on some of the injurious and beneficial insects of California, chiefly *Coccinellidae*; COQUILLETT, *t. c.* pp. 9-33.—Report on experiments in Apiculture, 1892; LARRABEE, *t. c.* pp. 57-64.—Report on outbreaks of

the western cricket, and of certain locusts in Idaho ; MILLIKEN, Insect Life, vi, pp. 17-24.—Report on *Charæas graminis* and other insects injurious in Sweden ; LAMPA (571).—Report on infested sugar-canæs ; COCKERELL, Bull. Botan. Dept. Jamaica, No. 40, p. 7.—Compilations of reports on plants visited by bees in Australia ; Agric. Gaz. N.S.W. iv, p. 90.—Insect foes of American cereal grains, with measures for their prevention or destruction ; WEBSTER, Insect Life, vi, pp. 146-158.—*Xyleborus perforans*, the cask-boring beetle ; BLANDFORD (76).—Household insects ; BUTLER (131).—Insects injurious to books ; GARMAN, Science, xxi, p. 158.—Insect foes of American cereal grains, with measures for their prevention or destruction ; WEBSTER, Rep. ent. Soc. Ontario, xxiv, pp. 88-93.—Enemies of the apple ; DECAUX, Feuille Natural. xxii, pp. 179-188, 200-209, 226-228.—Insect pests in Trinidad ; URICH, Insect Life, vi, pp. 196-198.—Entomological notes for the season of 1892 ; MURTFELDT, Bull. Dep. Agric. Ent. xxx, pp. 49-56.—Injurious insects in Canada in 1893 ; FLETCHER, Rep. ent. Soc. Ontario, xxiv, pp. 8-13.—Injurious insects, generally, in Kansas, and remedies ; KELLOGG (517).—Some injurious insects in Kansas [*Isosoma tritici*, *Bibio tristis*, *Piophila casei*, *Drosophila* sp., *Diabrotica longicornis*] ; KELLOGG, Tr. Soc. Ontario, xxiv, pp. 102-104.—Hydrocyanic gas as an insecticide; COQUILLETT, Insect Life, vi, pp. 176-180.—Results of trap-lantern experiment; SLINGERLAND (906).

Insects and Flowers: HOFFMANN (446), JOLY (500), SCOTT-ELLIOT (860); BULMAN, Sci. Gossip, 1893, pp. 121-125, & 131-133.—Insects and *Solanum*; COCKERELL, Nature, xlviii, p. 438.—Fertilisation of *Vincetoxicum*; HOUSSAY, Bull. Soc. ent. France, 1893, p. ccxxiii.—Insects visiting flowers of *Libanotis montana*, RIEBER, Jahresh. Ver. Wurttemb. 1892, p. xci.—Pollination of *Yucca*; COQUILLETT (195), RILEY (790, 791).—*Pronuba* and *Yucca*; RILEY, Insect Life, v, p. 300.

Insects attacking man: BLANCHARD (73), and Bull. Soc. ent. France, 1893, p. 24; RADOSZKOWSKY (739); SMITH (916); PARONA, Bull. Soc. ent. Ital. xxiv, pp. 313-315.—Anonymous, Sci. Gossip, 1893, pp. 100-102.—Insect Life, vi, p. 56.—HAMILTON, Ent. News Philad. 1893, pp. 217-219.—SHIMER, Insect Life, v, p. 344.—Coleopterous larva vomited; BLANCHARD, p. clxvi, Bull. Soc. ent. France, 1893, and Naturaliste, 1893, p. 107.—Larva of *Cestrus* in man; SANGAGLI, Rend. Ist. Lombardo (2) xxvi, pp. 645-647.

Collections: Number of existing species discussed; KARSCH (510).—The cost and extent of public collections of insects; SHARP (891).—Presentation of Sénaç's collection of *Tenebrionidae* to the Ent. Soc. of France, Bull. Soc. ent. France, 1893, pp. vi & xlvi.—Catalogue of Coleopterous larvæ in the Museum at Copenhagen continued by MEINERT in Ent. Meddel. iv, pp. 1-110.—Bigot's collection of *Diptera* purchased by Verrall, Bull. Soc. ent. France, 1893, p. ccix.—Account of some of the collections of Europe and N. America with reference to N. American *Noctuidæ*;

SMITH (917).—H. T. Stainton's collections, note on, by LORD WALSINGHAM, Ent. Mag. xxix, p. 173.—Account of the collections of Ferdinand Reiber, now in the Brussels Museum; SEVERIN, Ann. Soc. ent. Belgique, xxxvii, pp. 358–362.—Account of the entomological features of International Congress of Zoology at Moscow; JANET, Bull. Soc. ent. France, 1893, pp. lx–lxiii.

Directions for collecting and preserving insects; RILEY (784).—Instructions for collecting, preparing, and preserving *Microlepidoptera*; HERING (437).—Collecting in the tropics; SIKORA, Soc. ent. viii, pp. 4, &c.—Prevention of mould; SHARP, Ent. Mag. xxix, p. 94.—RADLEY, t. c. p. 168.—Arsenic as a preservative in insect-collections; McLACHLAN, Ent. Mag. xxix, pp. 105–108.

Preservation of larvæ; GARMAN (362).—Preparation of Lepidopterous larvæ; DÖNITZ, Berlin ent. Zeitschr. xxxvii, SB. p. 2.—Mounting wings of *Lepidoptera* in Canada balsam to shew venation; id. t. c. p. 7.—Preservation of colours of *Odonata*; STEFANELLI (937).—Removal of grease; ARKLE, Entomologist, xxvi, p. 109; ANDERSON, t. c. p. 110; ARKLE, t. c. p. 217; CHRISTY, t. c. p. 32; GREENE, t. c. p. 147.

Apparatus for rearing ants and other social insects in captivity; JANET (494, 495).—Construction of simple breeding-cage for *Lepidoptera*; KNAGGS, Ent. Mag. xxix, pp. 159–162.—Pith for minute insects; McLACHLAN, t. c. p. 15.—Felt and pith for mounting insects; MATTHEWS, t. c. p. 72.—Pith for mounting insects; SMITH, t. c. p. 194.—Chloroform bottle; KNAGGS, t. c. p. 239.—Moth-trap; STUDD, Entomologist, xxvi, p. 114.—Mode of decoying butterflies; KNAGGS (532).

V.—BIBLIOGRAPHY, NOMENCLATURE, BIOGRAPHY.

1. *Bibliography*. History of the “North American Entomologist”; GROTE, p. 56, Canad. Ent. xxv.—History of the Entomological Society of Philadelphia, with portrait of J. L. Le Conte.—REITTER, E., list of his writings (755).—The correct dates of the parts of Moore's *Lepidoptera Indica*; SHERBORN, Ann. Nat. Hist. (6) xi.

2. *Nomenclature*. GIRARD (385).—Various points discussed; TOWNSEND, Science, xx, p. 164.—Priority and mode of designating variations; SEITZ, Stettin. Ent. Zeit. liv, p. 20.—Species and subspecies, how to express them; HARTERT (430).—Formation and gender of generic names; CARUS & BLANCHARD, Bull. Soc. zool. France, xviii, pp. 159–162.—Emendation of generic names discussed and disapproved; FOREL, pp. 165–167, Ann. Soc. ent. Belgique, xxxvii.—Writing specific names with capital letters discussed; Ent. Nachr. xix, p. 30.—Nomenclature of European *Lepidoptera*, historical notice; BUCKELL (119).—The trivial nomenclature of *Lepidoptera*; BUCKELL, pp. 25–38, Tr. City London Soc.

3. *Biographical*. Brunner v. Wattenwyl elected honorary Fellow of the Entomological Society of London; Wien. ent. Zeit. xii, p. 288.—

Prix Dollfuss awarded to M. L. Fauconnet ; Bull. Soc. ent. France, 1893, p. xxxvi.—Prof. Gravenhorst's Jubilee ; KIRBY, Entomologist, xxvi, p. 233.—Robineau Desvoidy : see OSTEN-SACKEN (686).—Biographical notice of Herbert Osborn ; W. Amer. Scient. viii, p. 39.

Obituary Notices. Prof. Dr. Ed. Brandt, with portrait ; Horæ Soc. ent. Ross, xxvii, pp. i-vi.—Rev. Henry Burney ; Ent. Mag. xxix, p. 196.—Charles Brisout de Barnevile ; Bull. Soc. ent. France, 1893, p. excvi, and Ent. Mag. xxix, p. 145.—Jas. Batty, Entomologist, xxvi, p. 368, and Ent. Mag. xxix, p. 287.—J. M. F. Bigot ; Bull. Soc. ent. France, 1893, p. clxxxvii, and Ent. Mag. xxix, p. 145.—Rev. Leonard Blomefield ; Ent. Mag. xxix, pp. 239 & 240.—J. C. Bowring ; Ent. Mag. xxix, p. 169.—C. A. Dohrn, by Dr. H. DOHRN, with portrait ; Stettin Ent. Zeit. liii, pp. 281-322.—P. M. Ferrari, by GESTRO, with portrait and list of writings ; Ann. Mus. Genov. xxxiii, pp. 407 & 416.—Prof. Veit Graber ; Entomologist, xxvi, p. 68.—H. A. Hagen ; Ent. Mag. xxix, p. 288, and with portrait, Ent. News Philad. 1893, pp. 313-317.—A. C. Horner ; Ent. Mag. xxix, p. 240.—The Hon. Sir William Macleay ; Macleay Memorial Vol. of Linn. Soc. N.S.W. pp. vii-51.—Isaac C. Martindale, with portrait ; Ent. News Philad. 1893, p. 37.—F. O. Morris ; Entomologist, xxvi, p. 144, and Ent. Mag. xxix, p. 73.—Edward Parfitt ; Ent. Mag. xxix, p. 73, and Rep. Devon. Ass. xxv, pp. 159-162.—F. P. Pascoe ; Ent. Mag. xxix, p. 194.—Giovanni Passerini ; Bull. Soc. ent. Ital. xxv, p. 218.—Fritz Rühl ; Soc. ent. viii, p. 49.—Adolph Speyer : Eine Lebensskizze von Prof. Otto SPEYER, nebst einem Vorwort von Dr. O. STAUDINGER. Deutsche ent. Zeitschr. Lep. pp. 37-68, also Deutsche ent. Zeitschr. 1893, p. 12.—H. T. Stanton, by J. W. DOUGLAS & R. McLACHLAN : Ent. Mag. xxix, pp. 1-4, portrait, and Stettin Ent. Zeit. liii, pp. 323-329 ; by RAGONOT, Ann. Soc. ent. France, 1893, pp. 405-408.—Hans Freiherr von Türkheim ; Deutsche ent. Zeitschr. 1893, p. 12, and Berlin. ent. Zeitschr. xxxvii, p. 511.—H. Viallanes ; Wien. ent. Zeit. xii, p. 288, and Henry Viallanes, with list of his writings ; Bull. Soc. Philom. (8) v, pp. 205-211.—Biography of Henry Viallanes, with list of his writings ; BOUVIER (97).—J. O. Westwood, by McLACHLAN, with portrait ; Ent. Mag. xxix, p. 49, Stettin Ent. Zeit. liii, p. 330, Entomologist, xxvi, p. 25, and by O. P. CAMBRIDGE, t. c. p. 47 ; Ent. Nachr. xix, p. 77 ; Ent. Tidskr. 1893, p. 79.—James Wood-Mason, Ent. Mag. xxiv, p. 145.

VI.—SYSTEMATIC.

N.B.—The reference-numbers collected under the headings of the various groups refer to "Titles," and are intended to give, in each case, a complete list of all memoirs containing anything of importance in connection with the group.

(A.) *COLEOPTERA.*

Arrangement of series of *Coleoptera*; PATTON, Canad. Ent. xxv, p. 9.

Structure of male copulatory organs; VERHOEFF (1002).

Structure of the abdomen and ovipositor of female; VERHOEFF (1003).

Nature of colouration of scales; URECH (999).

Parasitic *Hymenoptera* reared from *Coleoptera*; CHITTENDEN (160).

CICINDELIDÆ.

[*Cf.* BRANCSIK (102), FLEUTIAUX (315–319), GESTRO (371), W. HORN (462–470), PÉRINGUEY (702), SLOANE (912).]

Catalogue of the family; FLEUTIAUX (315).

Descriptive catalogue of S. African *Cicindelidae*; PÉRINGUEY, Tr. S. African Soc. vii, pp. 1–98, pl. iii.

Critical remarks on varieties, species, genera, synonymy, and classification; HORN, Deutsche ent. Zeitschr. pp. 321–347.

Synonymic notes; FLEUTIAUX, p. cccxv, Bull. Soc. ent. France, 1893.

Synonymic and comparative notes on numerous species of Eastern *Cicindelidae*; FLEUTIAUX, p. 483–502, Ann. Soc. ent. France, 1893.

Amblychila: notes on, with figures: *baroni* is male of *piccolominii*; RIVERS, p. 218, pls. xxviii & xxix, Zoe, iv. *A. piccolominii*, note on; G. H. HORN, p. 282, Ent. News, 1893.

Cicindela cancellata, Dej., note on; FLEUTIAUX, p. 7, Ann. Soc. ent. Belgique, xxxvii. *C. assimilis*, Hope, note on; HORN, p. 538, *op. cit.* xxxvi. *C. duponti*, n. var. *barmanica*; GESTRO, p. 360, Ann. Mus. Genova, xxxiii. *C. abbreviata*, n. var. *baliensis*; BRANCSIK, p. 210, pl. x, fig. 8, Jahresh. Ver. Trencsin. xv. *C. rectangularis*, Klug, redescribed; FAIRMAIRE, p. 144, Ann. Soc. ent. Belgique, xxxvii. *C. chlorosticta*, n. var. *smaragdina*, p. 198, *marginella*, n. var. *paradoxa*, p. 199; HORN, Deutsche ent. Zeitschr. 1893. *C. aphrodisia*, varieties; BEUTHIN, Ent. Nachr. xix, p. 24. *C. caucasica*, varieties, BEUTHIN, t. c. pp. 155–157. *C. hybrida*, L., varieties, BEUTHIN, t. c. pp. 133, &c., HORN, t. c. p. 140. *C. silvicola*, BEUTHIN, t. c. p. 61. *C. silvatica*, varieties, BEUTHIN, Soc. ent. viii, p. 113.

C. congoensis, *brazzai*, W. Africa, FLEUTIAUX, p. xxxii, Bull. Soc. ent. France, 1893; *C. damara*, p. 35, pl. i, fig. 3, *dissimilis*, p. 50, *C. (Euryoda) algoensis*, p. 56, S. Africa, PÉRINGUEY, Tr. S. African

- Soc. ; *C. oberthuri*, Sikkim, FLEUTIAUX, p. cccxvi, Bull. Soc. ent. France, 1893 ; *C. luteoguttata*, Madagascar, BRANCSIK, p. 209, Jahresh. Ver. Trencsin. xv ; *O. indica*, E. India, p. 484, *mutata*, Pegu, p. 486, *separata*, China, *siamensis*, Lakhon, p. 491, *harmandi*, Cambodia, p. 494, FLEUTIAUX, Ann. Soc. ent. France, 1893 ; *C. severini*, Bengal, HORN, p. 537, Ann. Soc. ent. Belgique, xxxvi ; *O. iravaddica*, p. 351, *humillima*, p. 353, *modica*, p. 354, *atkinsonii*, p. 357, *mariae*, p. 361, *cariana*, p. 363, *laurae*, p. 364, Birma, GESTRO, Ann. Mus. Genova, xxxiii ; *C. anometallescens* (*sic*), Birma, HORN, p. 140, Ent. Nachr. xix ; *C. semperi*, Philippines, HORN, p. 320, Deutsche ent. Zeitschr. 1893 ; *C. confluens*, Minas Geraes, p. 197, *motschoulskyi*, E. India, *saetigera* (*sic*), Cape York, p. 198, *innocens*, New Guinea, p. 199, *divina*, Timor, *miseranda*, Bukoba, p. 200, HORN, t. c. : n. spp.
- Collyris subtilis*, n. var. *brachycephala* ; HORN, p. 378, Ann. Mus. Genova, xxxiii.
- C. feae*, p. 373, *lesnei*, p. 374, *schmidtgæbeli*, with var. *brachycephala*, p. 379, *gestroi*, p. 380, *brevilabris*, p. 381, Birma, HORN, Ann. Mus. Genova, xxxiii ; *C. beccarii*, Sumatra, HORN, p. 382, t. c. : n. spp.
- Cosmema ambitiosa*, p. 84, *brevipennis*, p. 87, *connexa*, p. 90, *hamata*, p. 92, *ramigera*, p. 93, S. Africa, PÉRINGUEY, Tr. S. African Soc. vii, n. spp.
- Deroocrania honorei*, E. India, FLEUTIAUX, p. 502, Ann. Soc. ent. France, 1893, n. sp.
- Dromica pseudo-clathrata*, p. 74, *grandis*, p. 75, *natalica*, p. 77, S. Africa, PÉRINGUEY, Tr. S. African Soc. vii, n. spp.
- Heptadonta ferrarii*, Birma, GESTRO, p. 366, Ann. Mus. Genova, xxxiii, n. sp.
- Manticora* : list of the species : FLEUTIAUX, p. xxxi, Bull. Soc. ent. France, 1893. *M. mygaloides*, n. var. *damarensis*, p. 13, *scabra*, n. var. *pseudo-scabra*, p. 16 ; PÉRINGUEY, Tr. S. African Soc. vii.
- M. ferox*, S. Africa, PÉRINGUEY, p. 17, pl. i, fig. 1 [as *ludovicii*], Tr. S. African Soc. vii, n. sp.
- Megacephala regalis*, n. var. *herero* ; PÉRINGUEY, p. 22, t. c.
- M. frenchi*, Queensland, SLOANE, P. Linn. Soc. N.S.W. (2) viii, p. 25, n. sp.
- Megalomma limbiger*, S. Africa, PÉRINGUEY, p. 60, Tr. S. African Soc. vii ; *M. minimum*, Madagascar, HORN, p. 197, Deutsche ent. Zeitschr. 1893 ; *M. ambanurensis*, Nossi-bé, BRANCSIK, p. 210, pl. xi, fig. 5, Jahresh. Ver. Trencsin. xv : n. spp.
- Myrmecoptera tenella*, p. 63, *spectabilis*, p. 64, *algoensis*, p. 67, *costata*, pl. ii, fig. 6, *limpopoiana*, p. 69, S. Africa, PÉRINGUEY, Tr. S. African Soc. vii, n. spp.
- Odontochila discrepans*, Brazil, HORN, p. 197, Deutsche ent. Zeitschr. 1893 ; *O. crassicornis*, Bahia, HORN, p. 140, Ent. Nachr. xix : n. spp.
- Oxychila germaini*, Bolivia, FLEUTIAUX, p. cccxv, Bull. Soc. ent. France, 1893, n. sp.

- Oxygonia schaumi*, p. 194, *batesi*, p. 195, Peru, HORN, Deutsche ent. Zeitschr. 1893, n. spp.
- 'Opisthencentrus*, n. g. for *Oxygonia dentipennis*, Germ.; HORN, p. 196, Deutsche ent. Zeitschr. 1893.
- Platychile pallida*, n. var. *plagiata*, Damaraland; PÉRINGUEY, p. 19, pl. ii, fig. 2, Tr. S. African Soc. vii.
- Pogonostoma cæruleum*, ♂ described, *P. spinipenne*, ♀, *pubescens*, and *chalybeum*, distinctions, p. 13; HORN, Deutsche ent. Zeitschr. 1893.
- P. chaudoïri* (= *cyanescens*, Chd., nec Klug), p. 13, *affine*, *klugi*; p. 14, *srnkei*, *ovicolle*, p. 15, *schaumi*, p. 16, HORN, Deutsche ent. Zeitschr. 1893, n. spp.
- Therates concinnus*, descriptive note; GESTRO, p. 368, Ann. Mus. Genovæ, xxxiii.
- T. obliquus*, Birma, *tuberous*, p. 497, *cribratus*, Siam, p. 498, *proxima*, *distincta*, Indo-China, p. 499, *gestroi*, Birma, p. 500, FLEUTIAUX, Ann. Soc. ent. France, 1893, n. spp.

CARABIDÆ.

[*Cf.* BALBI (36), BEDEL (43, 44), BLACKBURN (71), BONNAIRE (89), BRANCSIK (102), BROUN (112, 113), DANIEL (215), FAIRMAIRE (277, 278, 283, 290), GESTRO (369), HAMILTON (421), REITTER (756, 757, 758, 761, 763, 769), ROST (819), SLOANE (910), TSCHITSCHÉRINE (991, 992), VUILLEFROY (1016).]

Speculations on the source of the *Carabi* of Galicia; LOMNICKI (595).

Acinopus picipes, metamorphoses; XAMBEU, p. 67, Appendix, Échange, 1893.

Adelotopus papuanus, New Guinea, GESTRO, p. 287, Ann. Mus. Genova, xxxiii, n. sp.

Adotela esmeralda, description; SLOANE, p. 212, Tr. R. Soc. S. Austral. xvi.

Amara patricia, larva described; XAMBEU, p. 67, Appendix, Échange, 1893. *A. schimperi*, discussed; DANIEL, p. 54, Col.-Studien, i.

A. (Leiocnemis) consors, E. Siberia, TSCHITSCHÉRINE, p. 371, Horæ Soc. ent. Ross. xxvii, n. sp.

Anillus phyllobius, New Zealand, BROUN, p. 164, Ann. Nat. Hist. (6) xii, n. sp.

Anthracus (Balius) bivittulus, Margelan, *wimmeli*; HAMBURG, REITTER, p. 43, Wien. ent. Zeit. xii, n. spp.

Antisphodrus navaricus, Pyrenees, VUILLEFROY, p. cxxii, Bull. Soc. ent. France, 1893, n. sp.

Apotomus microps, Algeria, BEDEL, p. 102, Abeille, xxviii, n. sp.

Bembidium (Peryphus) wagneri, B. (*Leja*) *gracilentum*, E. Siberia; TSCHITSCHÉRINE, Horæ Soc. ent. Ross. xxvii; B. (*Trapanes*) *duvali*, N. Africa, &c.; BEDEL, p. 108, Abeille, xxviii; B. *basistriatum*, CHOA, FAIRMAIRE, p. 13, Ann. Soc. ent. Belgique, xxxvii; B. *postfasciatum*, Allegheny, HAMILTON, p. 305, Canad. Ent. xxv; B. *clevedonense*, p. 1007, *diaphanum*, p. 1008, *dehiscens*, *antipodum*, p. 1009, *tersatum*, p. 1010, New Zealand, BROUN, Manual : n. spp.

- Brachinus janthinipennis*, metamorphoses ; WICKHAM, p. 330, pl. ix, figg. 1 & 2, Bull. Lab. Iowa.
- B. opacicollis*, Nossibé, BRANCSIK, p. 212, Jahresh. Ver. Trencsin. xv, n. sp.
- Bronislavia sidonia*, Turkestan, REITTER, p. 219, Wien. ent. Zeit. xii, n. sp.
- Broscosoma elegans*, Bates, = (*Miscodera donitzii*, Har.) ; LEWIS, p. 150, Entomologist, xxvi.
- Calathus melanocephalus*, n. var. *noricus* ; DANIEL, p. 60, Col.-Studien, i. *C. giganteus*, n. var. *impressicollis* ; VISART, p. 90, Atti Soc. Toscana, Pr.-V. vii, p. 90.
- Carabus (Platychrus) irregularis* and others, habits ; GARBOWSKI, Ent. Nachr. xix, pp. 45-47. *C. obsoletus*, n. var. *fossulifer*, n. sp., FLEISCHER, p. 217, Wien. ent. Zeit. xii.
- C. (Plectes) neerwouti*, p. 381, *felicitanus*, p. 382, Cireassia, REITTER, Ent. Nachr. xix, n. spp.
- Chlaenius discopictus*, Somaliland, FAIRMAIRE, p. 146, Ann. Soc. ent. Belgique, xxxvii, n. sp.
- Coscinia rufo-testacea*, Somaliland, FAIRMAIRE, p. 145, Ann. Soc. ent. Belgique, xxxvii, n. sp.
- Crepidogaster elongata*, Nossibé, BRANCSIK, p. 213, pl. xii, fig. 9, Jahresh. Ver. Trencsin. xv, n. sp.
- Ctenognathus munroi*, New Zealand, p. 984, BROUN, Manual, n. sp.
- Cyphrus thibetanus*, Ta-tsien-lu, FAIRMAIRE, p. clxxv, Bull. Soc. ent. France, 1893, n. sp.
- Cymindis (Menas) rufibasis*, Astrachan, p. 67, *impressa*, Margelan, p. 66, *frivaldszkyi*, Hungary, p. 67, REITTER, Wien. ent. Zeit. xii, n. spp.
- Daptus* : the species distinguished ; MORAWITZ, p. 434, Horæ Soc. ent. Ross. xxvii.
- D. acutus*, Cyprus, REITTER, p. 109, Wien. ent. Zeit. xii, n. sp.
- Dicrochile anthracina*, New Zealand, BROUN, p. 161, Ann. Nat. Hist. (6) xii, n. sp.
- Diglymma punctipenne*, *nigripes*, New Zealand, BROUN, p. 982, Manual, n. spp.
- Drimostoma distinctum*, Madagascar, BRANCSIK, p. 218, Jahresh. Ver. Trencsin. xv, n. sp.
- Eccoptoptera cupricollis*, Chaud. 1882, and *E. labrata*, Fairm., 1891, n. spp., were erroneously placed in the Zoological Records of those years in *Scolytidae* ; BLANDFORD, Ent. Mag. xxix, p. 162.
- Feronia septemcostata*, Chaud., = (*nitidicollis* and *basisulcata*, Tschitsch.), *F. (Sarticus) obesula*, Chaud., = (*saphyriennis* and *esmeraldipennis*, Cast.) ; TSCHITSCHÉRINE, p. 457, Horæ Soc. ent. Ross. xxvii. *F. pusilla*, metamorphoses ; XAMBEU, p. 74, Appendix Echange, 1893.
- F. nadari*, Pyrenees, VUILLEFROY, p. ccxii, Bull. Soc. ent. France, 1893 ; *F. (Platysma) wagneri*, E. Siberia, TSCHITSCHÉRINE, p. 365, Horæ Soc. ent. Ross. xxvii ; *F. (Eucamptognathus) erinnys*, Madagascar, p. 457, *F. (Pterostichus) jungens*, E. Siberia, p. 460, *consors*,

- Altai, p. 463, *platymorpha*, E. Siberia, p. 464, *caucasicola*, Swanetia, p. 465, *F. (Platysma) chotanensis*, Chotan, p. 473, *glasunovi*, Zeravschian, p. 474, *insignicollis*, Central Asia, p. 475, *F. (Eurythorax) eurymorpha*, E. Siberia, p. 480, *F. (Poecilus) amabilis*, = (*opulenta*, Tschitsch.), p. 481, *korbi*, Asia Minor, p. 482, *iberica*, Camarena, p. 483, *alutacea*, Syria, p. 484, *F. (Pseudopedius) subsimilis*, Caucasus, p. 486, *dissors*, Transcaspian Region, p. 488, TSCHITSCHÉRINE, Horæ Soc. ent. Ross. xxvii : n. spp.
- Harpalus*: eating fruit; Bos, p. 255, Biol. Centralbl. xiii. *H. meridionalis*, metamorphoses; XAMBEU, p. 59, Appendix Echange, 1893.
- H. numidicus*, Algeria, BEDEL, p. 102, Abeille, xxviii; *H. macronotus*, p. 372, *cyaneus*, p. 374, *sinuatus*, p. 375, E. Siberia, TSCHITSCHÉRINE, Horæ Soc. ent. Ross. xxvii; *H. nossibianus*, Madagascar, BRANCSIK, p. 217, Jahresh. Ver. Trencsen. xv : n. spp.
- Hoplolenus anthracinus*, Madagascar, BRANCSIK, p. 216, pl. x, fig. 15, Jahresh. Ver. Trencsen, xv, n. sp.
- Leistus niger*, Gebl., = (*laticollis*, Mor.); REITTER, p. 73, Wien. ent. Zeit. xii.
- Mecodema suteri*, New Zealand, BROUN, Manual, p. 977, n. sp.
- Metaglymma asperum*; p. 978, *junctum*, p. 979, *tersatum*, p. 980, *rugipenne*, p. 1321, *thoracicum*, p. 1322, New Zealand, BROUN, Manual, n. spp.
- Microtyphlus doderoi*, Italy, BALBI, p. 197, Boll. Soc. Rom. Zool., n. sp.
- Molops piceus*, n. var. *obscuripes*; EVERTS, p. 15, Tijdschr. Ent. xxxvi.
- Nebria gagates* and *pedemontana* discussed, pp. 51 & 52, *pictiventris*, Fauv. (= *delphinensis*, Dau.), p. 52, *angustata* and *laticollis*, Dej., noticed, p. 53; DANIEL, Col.-Studien, i. *N. sadona*, = (*leechii*); LEWIS, p. 150, Entomologist, xxvi.
- N. microcephala*, p. 41, *morula*, p. 43, Val Pesio, *posthuma*, Centr. Italy, *subcontracta*, Piedmont, p. 45, DANIEL, Col.-Studien, i, n. spp.
- Odontocarus semenowi*, Taschkent, REITTER, p. 110, Wien. ent. Zeit. xii, n. sp.
- Omphreus appelbecki*, Herzegovina, REITTER, p. 259, Wien. ent. Zeit. xii, n. sp.
- Oodimorphus freyi*, Nossibé, BRANCSIK, p. 216, pl. xii, fig. 7, Jahresh. Ver. Trencsen. xv, n. sp.
- Oopterus collaris*, p. 1002, *pallidipes*, p. 1003, *puncticeps*, p. 1398, New Zealand, BROUN, Manual, n. spp.
- Ophonus stricticollis*, E. Siberia, TSCHITSCHÉRINE, p. 371, Horæ Soc. ent. Ross. xxvii, n. sp.
- Panagaeus bipustulatus*, n. var. *conjunctions*; EVERTS, p. 15, Tijdschr. Ent. xxxvi.
- Parroa noctis*, p. 207, *lævigata*, p. 208, *apicalis*, p. 210, Australia, SLOANE, Tr. R. Soc. S. Austral. xvi, n. spp.
- Pheropsophus angusticollis*, Nossibé, BRANCSIK, p. 212, pl. x, fig. 6, Jahresh. Ver. Trencsen, xv, n. sp.

- Platymetopus nossibianus*, Madagascar, BRANCSIK, p. 217, Jahresh. Ver. Trencsen, xv, n. sp.
- Platynus setiporus*, Turkestan, REITTER, p. 219, Wien. ent. Zeit. xii; *P. parmarginatus*, Allegheny, HAMILTON, p. 305, Canad. Ent. xxv : n. spp.
- Plectes polychrous*, supplementary description, p. 339, *iebersteini*, n. var. *nacharensis*, p. 340, *puschkini*, n. var. *apschuanus*, *circassicus*, n. var. *abasinus*, p. 341 ; ROST, Ent. Nachr. xix.
- Plectes dalensis*, Caucasus, ROST, p. 338, Ent. Nachr. xix, n. sp.
- Polyhirma semidorsata*, Choa, FAIRMAIRE, p. 13, Ann. Soc. ent. Belgique, xxxvii, n. sp.
- Pristonychus fezzensis*, Algeria, BONNAIRE, p. 316, Rev. Ent. franc. xi, n. sp.

Classification of palæarctic *Coccinellides*; WEISE, pp. 105 & 107, Abeille, xxviii.

Trophies of *Epilachne borealis* and *Coccinella 9-notata* figured and discussed; SMITH, Ent. News, 1893, pp. 123-125.

Habits of some Tasmanian species; THOMPSON (969).

Results of the importation of Australian *Coccinellids* to California; COQUILLETT & KOEBELE (198).

Alexia basicollis, Comoro Isles, FAIRMAIRE, p. 555, Ann. Soc. ent. Belgique, xxxvii, n. sp.

Aphidela, n. g., for *Coccinella oblitterata*, L.; WEISE, p. 106, Abeille, xxviii.

Chilomenes posticalis, Choa, FAIRMAIRE, p. 49, Ann. Soc. ent. Belgique, xxxvii, n. sp.

Coccinella coriacea, New Zealand, BROUN, p. 1319, Manual, n. sp.

Cyrtocaria 26-punctata, Comoro Isles, FAIRMAIRE, p. 554, Ann. Soc. ent. Belgique, xxxvii, n. sp.

Epilachne borealis, life-history; SMITH, p. 197, Ent. News, 1893. *E. proteus*, note on; WEISE, p. 96, Deutsche ent. Zeitschr. 1893.

Exochomus 10-punctatus, Ecuador, p. 94, *orbiculus*, Peru, p. 95, WEISE, Deutsche ent. Zeitschr. 1893, n. spp.

Hippodamia: characters of palæarctic; BEDEL, p. 107, Abeille, xxviii.

Holopsis pictulus, *rotundatus*, New Zealand, BROUN, p. 1503, Manual, n. spp.

Micaria personata, Columbia, WEISE, p. 94, Deutsche ent. Zeitschr. 1893, n. sp.

- Novius koebeli*, life history ; COQUILLET, p. 20, Bull. Dep. Agric. Ent. 30.
- Orcus australasiae*, pp. 16-18, *chalybeus*, p. 19, life histories ; COQUILLET, Bull. Dep. Agric. Ent. 30.
- Psylllobora drakei*, Bolivia, WEISE, p. 96, Deutsche ent. Zeitschr. 1893, n. sp.
- Vedalia cardinalis* and *Icerya purchasi*, in New Zealand ; WIGHT, Insect Life, vi, p. 194.
- Verania suturata*, Comoro Isles, FAIRMAIRE, p. 555, Ann. Soc. ent. Belgique, xxxvii, n. sp.
- ▷ *Veronicobius*, n. g., near *Scymnus* for *V. hirtus*, n. sp., New Zealand, BROUN, p. 1393, Manual.

CORYLOPHIDÆ.

[*Cf.* BROUN (112).]

- ✉ *Sacina*, n. g., for *S. oblonga*, n. sp., New Zealand ; BROUN, Manual, p. 1071.
- Sericoderus fulvicollis*, p. 1072, *scutellaris*, *basalis*, p. 1073, New Zealand, BROUN, Manual, n. spp.

(b.) HYMENOPTERA.

Structure of ♂ organs; VERHOEFF, Zool. Anz. xvi, p. 407, BORDAS, C.R. Ac. Sci. cxvii, pp. 316 & 317.

ACULEATA.

[*Cf.* ANDRÉ (14-17), BARGAGLI (38), BELLEVoyE (47), BORDAS (90, 91), Bos (92, 93), CAMERON (390), COSTA (199, 200), DALLA TORRE (213), DAVIDSON (218), EMERY (261-266), FERTON (310), FOREL (320-328), FOX (331-336), FRIESE (341, 342), FROGGATT (344), GRIBODO (394, 395), HANDLIRSCH (424, 425), HART (429), JANET (493-496), KOHL (531-537), MARCHAL (613, 614, 615), MAYR (624), MÖLLER (641), MORAWITZ (652, 653, 654), NICOLAS (672), PLANTA (726), RADOSZKOWSKI (738, 740, 741), ROBERTSON (809), REED (751), SAHLBERG (831), SCHULTESS-RECHBERG (856), SHARP (890), SICKMANN (898), SHIPP (897), SPENCER (930), VACHAL (1000), VERHOEFF (1005-1009), WASMANN (1029), WEISMANN (1046).]

Origin of forms of social insects; WEISMANN (1046), SPENCER (930).

Abundance of *Hymenoptera* in England in 1893; LATTER (573).

APIDÆ.

Acanthopussplendidus, male armour; RADOSZKOWSKI, p. 188, pl. vii, fig. 49, Bull. Soc. Moscou, 1893.

A. jheringi, Brazil, GRIBODO, Bull. Soc. ent. Ital. xxv, p. 417, n. sp.

Agapostemonnigricornis, radiatus, synonymy; ROBERTSON, p. 148, Tr. Amer. ent. Soc. xx.

A. bicolor, Illinois, ROBERTSON, p. 148, Tr. Amer. ent. Soc. xx, n. sp.

Aglae cœrulea, male armour; RADOSZKOWSKI, p. 186, pl. vii, fig. 44, Bull. Soc. Moscou, 1893.

Andrena atrata, p. 62, *braunsiana*, p. 63, Hungary, *croatica*, p. 65, *dragana*, p. 67, *grossa*, p. 69, Fiume, *hungarica*, p. 70, Hungary, *korleviciana*, p. 72, *liburnica*, p. 74, Fiume, *niveata*, Germany, p. 76, *sisymbrii*, Hungary, p. 78, FRIESE, Bienen-Fauna, Deutschland; *A. transcaspica, germabica*, Central Asia, RADOSZKOWSKI, p. 56, Horæ Soc. ent. Ross. xxvii; *A. serotina, scutellaris*, N. America, ROBERTSON, p. 148, Tr. Amer. ent. Soc. xx; *A. crataegi*, Illinois, ROBERTSON, p. 273, t. c. : n. spp.

 pp. 24–26: its phytophagous habit discussed; RILEY, P. ent. Soc.
 Washington, ii, pp. 359–364.
- M. spermatophorus*, N. America, WACHTL, p. 26, pl. i, Wien. ent. Zeit. xii,
 n. sp.
- Torymus hainesii*, Lower California, ASHMEAD, p. 278, Ent. News Philad.
 1893, n. sp.

PROCTOTRUPIDÆ.

List of hosts of N. American *Proctotrupidæ*; ASHMEAD, Bull. U. S. Mus. No. 45, pp. 449-451.

Proctotrupids on *Coleoptera*; CHITTENDEN, Insect Life, v, p. 250.

Betyla fulva, ♂ ♀ figured; HUDSON, p. 164, pl. ix, Tr. N. Zealand Inst. xxv.

The following are the new genera and species described in ASHMEAD'S monograph of the North American *Proctotrupidæ*, Bull. U. S. Mus. No. 45:—

¹*Acanthoscelis*, n. g., for *A. americanus*, pl. x, fig. 6, *flavipes*, n. spp., S. America, ASHMEAD, p. 236, t. c.

Acerota cecidomyiae, California, ASHMEAD, p. 261, t. c., n. sp.

Aclista rufa, *rufescens*, *rufopetiolata*, pl. xv, fig. 4, p. 376, *missouriensis*, *conica*, *rugosopetiolata*, p. 377, *californica*, *borealis*, *floridana*, p. 378, N. America, ASHMEAD, t. c., n. spp.

Acoloides howardii, p. 171, *bicolor*, *melleus*, p. 172, *subapterus*, *seminiger*, p. 173, N. America, ASHMEAD, t. c., n. spp.

Acolus xanthogaster, p. 174, *zabriskiei*, p. 175, pl. xv, fig. 7, N. America, ASHMEAD, t. c., n. spp.

Acropista flavicauda, pl. xiv, fig. 3, *subaptera*, N. America, ASHMEAD, p. 354, t. c., n. spp.

Amblyaspis occidentalis, p. 267, *californicus*, *petiolatus*, p. 268, *minutus*, *rugiceps*, p. 269, N. America, ASHMEAD, t. c., n. spp.

¹*Ampulicomorpha*, n. g., *Emboleminæ*, p. 79, for *A. confusa*, n. sp., California, p. 80, pl. v, fig. 1; ASHMEAD, t. c.

Anectata californica, p. 381, *polita*, *georgica*, p. 382, N. America, ASHMEAD, t. c., n. spp.

Aneuryynchus floridanus, pl. xvii, fig. 4, *virginicus*, N. America, ASHMEAD, p. 405, t. c., n. spp.

Anopedias pentatomus, N. America, ASHMEAD, p. 292, t. c., n. sp.

Anoxus chittendenii, pl. iv, fig. 6, *laevis*, N. America, ASHMEAD, p. 68, t. c., n. spp.

Anteon unifasciatus, p. 95, *rugosus*, *politus*, pl. vi, fig. 2, p. 96, *pallidicornis*, *puncticeps*, *minutus*, p. 97, N. America, ASHMEAD, t. c., n. spp.

Anteris virginiensis, p. 225, *nigriceps*, p. 226, pl. x, fig. 2, N. America, ASHMEAD, t. c., n. spp.

Apenesia coronata, N. America, p. 47, pl. iii, fig. 3, ASHMEAD, t. c., n. sp.

Aphanognus niger, p. 133, *bicolor*, *floridanus*, p. 134, *virginiensis*, *marylandicus*, *pallidipes*, *varipes*, pl. vii, fig. 1, p. 135, N. America, ASHMEAD, t. c., n. spp.

Aphelopus rufiventris, p. 100, *albopictus*, p. 101, *affinis*, p. 102, N. America, ASHMEAD, t. c., n. spp.

¹*Aradophagus*, n. g., *Telenomini*, for *A. fasciatus*, n. sp., Florida, pl. vii, fig. 9; ASHMEAD, t. c.

Atelopterus virginensis, pl. iii, figg. 1 & 2, *tarsalis*, p. 45, N. America, ASHMEAD, t. c., n. spp.

- Aritomus americanus*, N. America, ASHMEAD, p. 122, pl. vi, fig. 9, *t. c.*, n. sp.
- Baoneura bicolor*, N. America, ASHMEAD, p. 235, pl. ix, fig. 6, *t. c.*, n. sp.
- Baeus minutus, niger*, p. 178, *piceus*, p. 179, N. America, ASHMEAD, *t. c.*, n. spp.
- Baryconus oecanthi*, N. America, pl. ix, fig. 2, p. 215, RILEY, *t. c.*, n. sp.
- Basalyss fuscipennis, picipes, utahensis*, p. 444, *analis*, p. 445, *brevicornis, californica*, pl. xviii, fig. 7, p. 446, N. America, ASHMEAD, *t. c.*, n. spp.

Parnassius delphinius, n. var. *elwesi*; LEECH, *Entomologist*, xxvi, Supp., p. 104. *P. jacquemonti*, var., pl. xxxiii, fig. 3, *delphinius*, var. *elwesi*, fig. 4, *citrinarius*, fig. 6, and var., fig. 5, figured; LEECH, Butt. China. *P. clodius* and *smintheus*, distinctions; STRECKER, p. 163, *Canad. Ent.* xxv.

Schoenbergia, n. subg. of *Ornithoptera*, q.v.; PAGENSTECHER, *Jahrb. Nassau. Ver.* xlvi, p. 35.

Sericinus telamon, var. *telmona*, ♂ ♀ figured, pl. xxxiii, figg. 7 & 8; LEECH, Butt. China.

PIERIDÆ.

Anthocharis gruneri, n. var. *armeniaca*; CHRISTOPH, p. 86, *Deutsche ent. Zeitschr. Lep.* vi.

Aporia dubernardi, pl. xxxvi, fig. 8, *davidis*, fig. 1, var. *venata*, fig. 3, *procris*, pl. xxxiii, fig. 10, *hippia*, var., pl. xxxvi, fig. 2, figured; LEECH, Butt. China.

Appias whiteheadi, figured; WHITEHEAD, Kina Balu, pl., p. 118.

Belenois crasshayi, p. 665, *diminuta*, p. 666, pl. lx, fig. 7, Central Africa, BUTLER, *P. Zool. Soc. London*, 1893, n. spp.

Colias: many varr. and abb. described, with new names, including *eogene*, n. var. *leechi* (an. sp. prop.?), Himalaya; GRUM-GRSHIMAILO, Horæ Soc. ent. Ross. xxvii, pp. 379-383: notes on distribution; DUPONT, Feuille Natural. xxxiii, pp. 65, 66, & 83-88. *C. hecla*, note on, with var. *sulitelma*; AURIVILLIUS, pp. 11 & 12, pl. ii, figg. 9 & 10, Bih. Svenska Ak. xv, No. 1. *C. edusa*, n. var. *aubouissoni* (intermediate to *helice*); CARADJA, p. 172, *Deutsche ent. Zeitschr. Lep.* vi: early hatching of eggs; BIGNELL, *Ent. Mag.* xxix, p. 64: life history; FROHAWK, *Entomologist*, xxvi, pp. 184-187. *C. hyale*, varr. figured, pl. xxxiv, figg. 1-14, *montium*, fig. 15, *fieldii*, pl. xxxv, figg. 6 & 7, figured; LEECH, Butt. China: earlier stages; FROHAWK, *Entomologist*, xxvi, pp. 5 & 145; WILLIAMS, t. c. p. 7; FROHAWK, t. c. p. 60; HAWES, *Ent. Mag.* xxix, p. 12: note on larva; BARRETT, *Ent. Mag.* xxix, p. 44. *C. behrii*, metamorphoses; DYAR, p. 158, *Canad. Ent.* xxv. *C. philodice*, n. var. *luteitincta*; WOLCOTT, p. 104, t. c.

Delias: revision of the genus, with catalogue of the species and synonymy; MITIS, *Deutsche ent. Zeitschr. Lep.* vi, pp. 97-153, pls. ii & iii. *D. eumolpe*, figg. 1 & 2, *inferna*, figg. 3-5, *belisar*, figg. 6 & 7, *singhapura*, figg. 1 & 2, *nigidius*, figg. 3 & 4, *oraia*, figg. 5-7, pl. iii, figured; SMITH & KIRBY, Rhop. ex. *Delias*, ii. *D. belladonna*, figured, pl. xxxvii, figg. 3 & 4, LEECH, Butt. China; *sanaca*, varr. with *subnubila*, n. var., figg. 7 & 8, *patrua*, figg. 1 & 2, with *lativitta*, n. var., pl. xxxv, fig. 1, p. 422, LEECH, Butt. China. *D. dorylaea*, n. var. *alтивага*; FRUHSTORFER, p. 333, *Ent. Nachr.* xix.

- D. bromo*, Java, FRUHSTORFER, p. 335, Ent. Nachr. xix ; *D. datames*, *danala*, *derceto*, Sumatra, NICÉVILLE, p. 557, J. Bombay Soc. vii, and viii, pp. 51–53, pl. I, figg. 9, 4, 8 ; *D. cathara*, Borneo, SMITH, Ann. Nat. Hist. (6) xii, p. 34 ; *D. honrathi*, New Pomerania, p. 134, pl. iii, fig. 1, *dorothea*, Waigiou, p. 146, fig. 3, MITIS, Deutsche ent. Zeitschr. Lep. vi : n. spp.
- Dercas wallichii*, pl. xxxv, fig. 3, figured ; LEECH, Butt. China.
- Gonepteryx rhamni*, var. figured, pl. xxxv, fig. 4 ; LEECH, Butt. China.
- Leucophasia gigantea*, figured, pl. xxxvi, figg. 10 & 11 ; LEECH, Butt. China.
- Metaporia largeteaui*, pl. xxxvi, fig. 9, *oberthuri*, fig. 7, *lotis*, fig. 6, figured ; LEECH, Butt. China.
- Mylothris jaopura*, W. Africa, KARSH, p. 232, Berlin. ent. Zeitschr. xxxviii, n. sp.
- Pieris napi*, variation of colour according to temperature ; MERRIFIELD, p. 56, Tr. ent. Soc. London, 1893 : figured, pl. xlivi, figg. 1 & 2, *melete*, figg. 3 & 4, with n. var. *mandarina*, p. 451, *extensa*, pl. xxxvi, figg. 4 & 5, pl. xlivi, fig. 6, *cisseis*, fig. 5, figured ; LEECH, Butt. China.
- Pinacopteryx mahobo*, figg. 1–3, *mabella*, figg. 4–6, *liliana*, figg. 7–9, figured ; SMITH & KIRBY, Rhop. ex. Papil. Pierinæ.
- P. gerda*, Mombasa, SMITH & KIRBY, Rhop. ex. Papil. Pierinæ, p. 4, pl. i, figg. 10 & 11, n. spp.
- Synchloe lacinia*, variation of larva ; EDWARDS, Canad. Ent. xxv, pp. 286–291. *S. joppa*, oviposition ; COCKERELL, p. 450, Psyche, vi.
- Teracolus rhodesinus*, Central Africa, BUTLER, p. 663, P. Zool. Soc. London, 1893, n. sp.

DANAIDÆ.

- Amauris niavius*, variation of male, *bulbifera*, figure, fig. 1, description, p. 260, larva, pl. iii, fig. 1, pupa, fig. 1a ; AURIVILLIUS, Ent. Tidskr. 1893.
- A. whytei*, Central Africa, BUTLER, p. 644, P. Zool. Soc. London, 1893, n. sp.
- Anosia plexippus*, off Cape St. Vincent, Portugal ; HARKER, Ent. Mag. xxix, p. 86 : in the Atlantic ; BARRETT, t. c. p. 163.
- Danaida* to be used in place of *Danais* ; AURIVILLIUS, p. 259, Ent. Tidskr. 1893.
- Danais archippus*, canibalism of larvæ ; FIELD, p. 88, Canad. Ent. xxv : resting swarm, figured ; Insect Life, v, p. 206. *D. plexippus*, *jamaicensis*, life-histories ; PANTON, J. Inst. Jamaica, i, pp. 311–314.
- D. (Caduga) tytiooides*, Sumatra, NICÉVILLE, p. 555, J. Bombay Soc. vii, and viii, p. 37, pl. k, figg. 1 & 2, n. sp.
- Danisepa niasana*, Nias I., SWINHOE, p. 254, Ann. Nat. Hist. (6) xii, n. sp.
- Euplaea (Narmada) martinii*, Sumatra, NICÉVILLE, p. 555, J. Bombay Soc. vii, and viii, p. 38, pl. k, figg. 3 & 4, n. sp.

- Hestia riukiuensis*, Loo-Choo Is., HOLLAND, p. 337, pl. xv, fig. 1, Ent. News Philad. 1893, n. sp.
- Pademma klugi*, n. var. *hamiltoni*; SWINHOE, p. 269, Tr. ent. Soc. London, 1893.
- Stictoplaea binotata*, variation and synonymy; SWINHOE, p. 269, Tr. ent. Soc. London, 1893.
- Tithorea flavescens*, early stages noticed; GUPPY, p. 199, J. Trinidad Club, i.

ACREIDÆ and HELICONIIDÆ.

- Acraea*: synonymy of numerous African species discussed; HOLLAND, pp. 247-250, Ann. Nat. Hist. (6) xii. *A. serena*, var. *melas*, p. 24, pl. i, fig. 13, *cynthias*?, Drury, figure, pl. i, fig. 5, synonymy, p. 28; OBERTHUR, Etudes Ent. xvii. *A. peneleos*, p. 274, pl. iv, fig. 2, *pharsalus*, p. 275, fig. 1, *zetes*, p. 276, fig. 4, *vinidia*, p. 277, fig. 3, *lycoa*, pl. v, fig. 2, *cydonia*, p. 278, pl. v, fig. 3, larva and pupa noticed; AURIVILLIUS, p. 279, Ent. Tidskr. 1893. *A. areca*, figured; MABILLE & VUILLOT, Novitat Lep. pl. xiv, fig. 5.
- A. niobe*, *newtoni*, p. 554, *insularis*, p. 555, I. of St. Thomas, W. Africa, SHARPE, P. Zool. Soc. London, 1893; *A. eugenia*, W. Africa, KARSCH, p. 196, Berlin, ent. Zeitschr. xxxviii; *A. empusa*, Central Africa, BUTLER, p. 656, t. c.; *A. kraka*, p. 272, pl. vi, fig. 3, *fenebos* (Stgr., i. l.), p. 273, fig. 5, Cameroons, AURIVILLIUS, Ent. Tidskr. 1893; *A. thelestis*, Gaboon, p. 17, pl. iii, fig. 33, *epidica*, Usambara, fig. 27, *strattipodes*, pl. i, fig. 9, pl. iii, fig. 25, Madagascar, p. 18, *cheribula*, pl. ii, fig. 16, *guillemei*, pl. i, fig. 1, p. 19, *periphanes*, pl. ii, fig. 23, Tanganyika, *regalis*, Kilimanjaro, fig. 20, p. 20, *thesprio*, Zanzibar, pl. iii, fig. 34, p. 21, *orinata*, pl. ii, fig. 22, Congo, *conradti*, pl. i, fig. 10, p. 22, *apecida*, Usambara, pl. ii, fig. 15, *cappadox*, pl. i, fig. 2, p. 23, *planesium*, Kilimanjaro, pl. i, fig. 11, p. 24, *proteina*, E. Africa, pl. i, fig. 4, pl. ii, figg. 14, 19, 21, pl. iii, fig. 29, p. 25, *kilimanjara*, pl. ii, fig. 17, p. 26, *masaris*, Comoro Is., pl. i, figg. 3, 12, pl. ii, fig. 18, pl. iii, fig. 30, p. 27, *machoni*, Zanzibar, pl. iii, fig. 28, p. 29, OBERTHUR, Etudes Ent. xvii; *A. sanderi*, New Guinea, ROTHSCHILD & JORDAN, Ann. Nat. Hist. (6) xii, p. 455 : n. spp.
- Alæna nyassa*, n. var. *ochracea*; BUTLER, p. 659, P. Zool. Soc. London, 1893.
- Heliconius*: revision of Staudinger's 1st (*Silvana*) group, with synonymy and many new varietal names; WEYMER, Deutsche ent. Zeitschr. Lep. vi, pp. 281-345, pls. iv, v.
- H. metellus*, Santarem, p. 290, pl. iv, fig. 1, *mirus*, Bolivia, p. 296, pl. iv, fig. 2, *geminatus*, Amazons, fig. 3, p. 299, *jonas*, S. Paulo, p. 307, *spurius*, Massauary, p. 309, fig. 7, *sulphureus*, Rio Negro, p. 311, pl. iv, fig. 8, *gordius*, Upper Amazons, p. 312, fig. 9, *felix*, Peru, fig. 10, p. 315, *versicolor*, Rio Madeira, p. 317, pl. iv, fig. 12, *leopardus*, Bolivia, p. 319, pl. v, fig. 11, *staudingeri*, Peru, p. 324, pl. v.

fig. 2, elegans, Upper Amazons, p. 326, pl. v, fig. 3, *floridus*, Peru and Bolivia, p. 329, fig. 4, *seraphion*, fig. 5, p. 330, *timaeus*, fig. 6, p. 331, *gradatus*, fig. 9, p. 335, Upper Amazons, *idalion*, Colombia, p. 337, *sergestus*, Peru, p. 339, fig. 12, WEYMER, Deutsche ent. Zeitschr. Lep. vi, n. spp.

Planema : notes on the characters of various African species, pp. 279–291, synonymy, p. 291, *P. alcinoe*, n. var. *camerunica*, p. 285; AURIVILLIUS, Ent. Tidskr. 1893.

P. tellus, p. 280, fig. 7, *consanguinea*, p. 282, fig. 8, *macariooides*, p. 284, Cameroons, AURIVILLIUS, Ent. Tidskr. 1893, n. spp.

NYMPHALIDÆ.

The tropical *Nymphalinae* of N. America systematically treated ; SCUDDER, P. Amer. Ac. xxvii, pp. 236–251.

Aganisthos orion, larva and its spines described ; COCKERELL, p. 481, Psyche, vi.

Aptura iris, ilia, habits of larvæ ; CASPARI, Jahrb. Nassau. Ver. xlvi, pp. 135–139.

Argynnis chariclea and varr. discussed ; AURIVILLIUS, Bih. Svenska Ak. xv, No. 1, pp. 7–11, pl. i, figg. 1–4. *A. frigga, aphirape*, varr. described and figured ; SAHLBERG, pp. 202–205, pl., Medd. Soc. Faun. Fenn. xviii. *A. niobe*, n. var. *tekkensis* ; CHRISTOPH, p. 87, Deutsche ent. Zeitschr. Lep. vi. *A. erinna*, n. var. *cunninghami* ; OWEN, p. 246, Ent. News Philad. 1893. *A. niphe*, note on early stages ; ROBSON, J. Bombay Soc. viii, p. 151. *A. paphia*, var. figured ; FROHAWK, Entomologist, xxvi, p. 97 : var. *valezina*, time of emergence ; HAMM, Ent. Mag. xxix, p. 189. *A. oweni, cornelia*, figures, Ent. News Philad. 1893, pl. xi. *A. cybele* and *leto*, note on ; SKINNER, p. 318, t. c. *A. astarte* queried as *amphilochus*, Men. ; ELWES, p. 186, Canad. Ent. xxv.

A. erda, Vilui, CHRISTOPH, p. 87, Deutsche ent. Zeitschr. Lep. vi, n. sp.

Atella philiberti, Seychelles, JOANNIS, p. li, Bull. Soc. ent. France, 1893, n. sp.

Aterica fuliginosa, W. Africa, HOLLAND, p. 2, Canad. Ent. xxv ; *A. duseni, sjostedti*, Cameroons, Ent. Tidskr. 1893 : n. spp.

Athyra assa, Sumatra, NICÉVILLE, p. 556, J. Bombay Soc. vii, and viii, p. 42, pl. k, fig. 8, n. sp.

Charaxes lactetinctus, redescribed and figured ; KARSCH, p. 190, pl. v, fig. 3, Berlin. ent. Zeitschr. xxxviii.

C. hollandi, Sierra Leone, BUTLER, p. 266, Ann. Nat. Hist. (6) xii ; *C. whytei*, Central Africa, BUTLER, p. 649, pl. lx, fig. 2, P. Zool. Soc. London, 1893 ; *C. everetti*, North Borneo, p. 348, *staudingeri*, Java, p. 349, ROTHSCILD, Deutsche ent. Zeitschr. Lep. vi : n. spp.

Cirrhochroa jiraria, Khasia Hills, SWINHOE, p. 281, Tr. ent. Soc. London, 1893, n. sp.

- Crenis umbrina*, figured and redescribed ; KARSCH, p. 179, Berlin. ent. Zeitschr. xxxviii, pl. v, fig. 2.
- C. crawshayi*, Central Africa, BUTLER, p. 654, P. Zool. Soc. London, 1893, n. sp.
- Cynthia erota*, seasonal forms ; SWINHOE, p. 277, Tr. ent. Soc. London, 1893.
- Cyrestis (Chersonesia) cyanee*, Sumatra, NICÉVILLE, J. Bombay Soc. vii, and viii, p. 49, pl. L, figg. 6 & 7, n. sp.
- Dichorragia nessicus*, N. W. China, SMITH, Ann. Nat. Hist. (6) xi, p. 217, n. sp.
- ¹ *Diestogyna*, n. g. for *Papilio veronica*, Cr. ; KARSCH, p. 181, Berlin. ent. Zeitschr. xxxviii.
- Doleschallia rickardi*, fig. 1, *sciron*, figg. 4-6, figured ; SMITH & KIRBY, Rhop. exot. Nymphal. Doleschallia, i.

London, 1893. *V. antiopa*, hybernated ind. with yellow border; MOLESWORTH, Entomologist, xxvi, p. 219. *V. urticæ*, development of the eye of imago; JOHANSEN, Zool. Jahrb. Anat. vi, pp. 445-480, pls. xxiii & xxiv.

MORPHIDÆ.

- Clerome arcesilaus* and *kirata*, distinctions of; SWINHOE, p. 276, Tr. ent. Soc. London, 1893.
- Tenaris catops*, n. var. *westwoodi*; STAUDINGER, p. 368, Deutsche ent. Zeitschr. Lep. vi.
- T. kubaryi*, p. 365, pl. vii, fig. 2, *cyclops*, p. 367, New Guinea, STAUDINGER, Deutsche ent. Zeitschr. Lep. vi, n. spp.
- ¹ *Morphotenaris*, n. g., near *Tenaris*, p. 317, for *M. schönbergi*, n. sp., New Guinea, p. 318; FRUHSTORFER, Ent. Nachr. xix.
- Morphotenaris*: the genus not valid, p. 363, the insect figured is *Tenaris falcata*, pl. vii, fig. 1; STAUDINGER, Deutsche ent Zeitschr. Lep. vi.
- Zeuxidia dohertyi*, Java, FRUHSTORFER, Ent. Nachr. xix, p. 257, n. sp.

SATYRIDÆ.

Descriptions and figures of the E. Indian, continued ; MOORE, Lep. Ind. ii, pp. 1-112, pls. xciv-cxxii.

Aulocera brahminoides, pl. xcix, figg. 2 & 2a, p. 29, *chumbica*, p. 30, figg. 3 & 3a, E. India, MOORE, Lep. Ind. ii, n. spp.

Bicyclus medontias, larva and pupa noticed ; AURIVILLIUS, Ent. Tidskr. 1893, p. 264.

⁴ *Chazara*, n. g., type *C. briseis* ; MOORE, p. 21, Lep. Ind. ii.

Chionobas subhyalina, note on ; EDWARDS, p. 137, Canad. Ent. xxv. *O. ano*, *Chionobas* vii, *maccounii*, *Chionobas* x, metamorphoses figured ; EDWARDS, Butt. N. America (3). *C. semidea*, egg and young larva ; BEUTENMÜLLER, p. 87, Bull. Amer. Mus. v.

⁴ *Chonala*, n. g., p. 14, for *Debis masoni*, *Pararge espiscopalalis* and *præusta* ; MOORE, Lep. Ind. ii.

Canonympha iphis, n. var. *heroides*, *tiphon*, n. var. *grisescens* ; CHRISTOPH, p. 87, Deutsche ent. Zeitschr. Lep. vi.

⁴ *Crebeta*, n. g., type *Pararge deidamia*, Eversm. ; MOORE, p. 11, Lep. Ind. ii.

⁴ *Dallacha*, n. g., for *Ypthima hyagriva* ; MOORE, p. 94, Lep. Ind. ii.

⁴ *Dichothryris*, n. g., for *D. graphidhabra*, n. sp., W. Africa, including also *Mycalesis sambulos*, Hew., *auricruda*, Butl., and *kenia*, Rogenh. ; KARSCH, p. 203, Berlin. ent. Zeitschr. xxxviii.

Erebia turanica, n. var. *tristis* ; GRUM-GRSHIMAILO, p. 383, Horæ Soc. ent. Ross. xxvii. *E. christi*, ♀ and distinctive characters ; RÄTZER, p. 359, Stettin Ent. Zeit. liii.

Epinephele dysdora, n. var. *tristis*, p. 128, *amardea*, n. var. *glasunovi*, *lycaon*, n. var. *galtscha*, p. 129 ; GRUM-GRSHIMAILO, Horæ Soc. ent. Ross. xxvii.

Gnophodes chelys, larva and pupa noticed ; AURIVILLIUS, p. 263, Ent. Tidskr. 1893.

⁴ *Hemadara*, n. g., type *Ypthima narasingha* ; MOORE, p. 106, Lep. Ind. ii.

Heteronympha paradelta, Melbourne, LOWER, p. 146, Tr. R. Soc. S. Austral. xvii, n. sp.

⁴ *Kanetisa*, n. g., type *Hipparchia digna* ; MOORE, p. 42, Lep. Ind. ii.

⁴ *Karanasa*, n. g., p. 38, type *K. hubneri*, Feld., with *K. leechii*, Ladak, pl. ci, figg. 4, 4a, *modesta*, Lahul, pl. cii, figg. 1, 1a, n. spp., p. 41 ; MOORE, Lep. Ind. ii.

⁴ *Kirinia*, n. g., type *Lasiommata epimenides*, Men. ; MOORE, p. 14, Lep. Ind. ii.

⁴ *Kolasa*, n. g., p. 82, type *Ypthima chemui*, MOORE, Lep. Ind. ii.

Lethe darena, Felder, fig. and description ; NICÉVILLE, p. 40, pl. x, fig. 7, J. Bombay Soc. viii.

L. sicelides, N. W. China, SMITH, Ann. Nat. Hist. (6) xi, p. 218, n. sp.

⁴ *Lokana*, n. g., type *Ypthima inica* ; MOORE, p. 92, Lep. Ind. ii.

⁴ *Lopinga*, n. g., *Pararge dumetorum*, Oberth. ; MOORE, p. 11, Lep. Ind. ii.

- Maniola latistigma*, Afghanistan, p. 46, pl. ciii, figg. 2, 2a, *brevistigma*, Indus Valley, p. 47, figg. 3, 3a, *tenuistigma*, Beluchistan, p. 48, figg. 4, 4a, *kashmirica*, Gulmurg, p. 51, pl. civ, figg. 2, 2a, MOORE, Lep. Ind. ii, n. spp.
- Melanitis leda*, var.; AURIVILLIUS, p. 262, Ent. Tidskr. 1893.
- M. harpa*, W. Africa, KARSCH, p. 211, Berlin. ent. Zeitschr. xxxviii; *M. gylippa*, Ké I., SWINHOE, p. 255, Ann. Nat. Hist. (6) xii : n. spp.
- Mycalesis phalanthus*, p. 265, *agraphis*, p. 266, *rhanidostroma*, p. 267, *anisops*, p. 268, fig. 3, notes on, *dorothea* larva, p. 271; AURIVILLIUS, Ent. Tidskr. 1893.
- M. golo*, p. 267, *nobilis*, p. 269, pl. vi, figg. 1 & 2, *dubia*, fig. 4, p. 270, Cameroons, AURIVILLIUS, Ent. Tidskr. 1893; *M. campa*, p. 206, pl. v, fig. 4, *agraphis*, *rhanidostroma*, figg. 5 & 6, p. 207, *leptoglena*, p. 208, fig. 7, *elisi*, p. 209, fig. 8, *procora*, p. 210, W. Africa, KARSCH, Berlin. ent. Zeitschr. xxxviii; *M. eminens*, New Guinéa, STAUDINGER, p. 360, pl. vii, fig. 3, Deutsche ent. Zeitschr. Lep. vi : n. spp.

Thestor ballus, early stages ; BROMILOW, Entomologist, xxvi, p. 238.
Thysonotis monographed, with drawings of the male genitalia ; DRUCE & BAKER, P. Zool. Soc. London, 1893, pp. 536-553, pls. xlv-xlvii : the following being figured, *serapis*, pl. xlvi, figg. 1 & 2, *danis*, ♂ characters, pl. xlvi, fig. 1, *karpaia*, n. var., p. 540, pl. xlvi, figg. 3 & 4, *appollonius*, pl. xlvi, figg. 5 & 6, pl. xlvi, figg. 2, 2a, with n. var. *supous*, p. 542, pl. xlvi, fig. 7, *philostratus*, pl. xlvi, fig. 8, pl. xlvi, fig. 3, *schaeffera*, pl. xlvi, figg. 4, 4a, *caledonica*, pl. xlvi, fig. 1, *taygetus*, male characters, pl. xlvi, fig. 5, *piepersi*, pl. xlvi, fig. 9, *cyanea*, ♂ genitalia, pl. xlvi, fig. 6, *epicoritus*, pl. xlvi, fig. 10, *arinia*, pl. xlvi, figg. 6 & 7, pl. xlvi, fig. 7, *pindus*, pl. xlvi, fig. 11.
T. melimnos, pl. xlvi, fig. 2, *perphere*, pl. xlvi, figg. 9 & 10, p. 544, New Guinea, *korion*, Kei Is., pl. xlvi, fig. 3, *brownii*, New Ireland, fig. 8, p. 547, *eudocia*, Batchian, pl. xlvi, fig. 4, p. 548, *smaragdus*, Wetter I., fig. 5, p. 550, *T. ? miraculum*, Waigiou, p. 552, pl. xlvi, fig. 12, DRUCE & BAKER, P. Zool. Soc. London, 1893, n. spp.
Tingra picena, figg. 3 & 4, *phidia*, fig. 5, *lagyra*, fig. 6, *rotha*, fig. 8 & 9, figured ; SMITH & KIRBY, Lycaenidae (African), pl. xxi.
T. nunu, W. Africa, KARSCH, p. 215, pl. v, fig. 10, Berlin. ent. Zeitschr. xxxviii ; *T. glagassia*, p. 22, pl. i, fig. 4, *limbata*, fig. 3, *amenaoides*, p. 23, W. Africa, HOLLAND, Ent. News Philad. 1893 : n. spp.
Triclema, n. g., p. 227, type *Lycaenesthes lucretialis*, Hew., and including *T. phoenicis*, n. sp., W. Africa, p. 228 ; KARSCH, Berlin. ent. Zeitschr. xxxviii.
Yasoda pitane, Sumatra, NICÉVILLE, p. 557, J. Bombay Soc. vii, and viii, p. 50, pl. L, fig. 5, n. sp.
Zephyrus texila, variation tabulated, p. 371, *atascus*, pl. xxvii, figg. 5 & 6, *orientalis*, n. var. *suffusa*, fig. 14, p. 377, *icanus*, fig. 4, *signata*, fig. 12, *quercivora*, fig. 15, *caelistis*, fig. 9, *betulae*, pl. xxviii, varr., fig. 8, *crassa*, n. var., fig. 11, p. 384, *melpomene*, fig. 14, *minervia*, fig. 12, *comes*, fig. 9, *thespis*, fig. 2, *michaelis*, n. var. *gabrielis*, fig. 7, *raphaelis*, var. *flamen*, fig. 10, *entheia*, var., pl. xxx, fig. 18, figured ; LEECH, Butt. China.
Z. coruscans, p. 373, pl. xxvii, figg. 7 & 8, *scintillans*, p. 367, figg. 10 & 11, *pedius*, fig. 3, p. 378, *hecale*, figg. 1 & 2, p. 379, China, LEECH, Butt. China, n. spp.
Zeritis simplex, S. Africa, TRIMEN, p. 136, Tr. ent. Soc. London, 1893, n. sp.

HESPERIIDÆ.

New classification and revision of the genera ; WATSON, P. Zool. Soc. London, 1893, pp. 3-132, pls. i-iii. In this work previously established genera are redefined, and in many cases divided ; but for these changes the student must refer to the memoir itself, as we shall mention below only the new genera and species.

- Abantis bismarckii*, redescribed, p. 242, and figured, pl. vi, fig. 1 ; KARSKH, Berlin, ent. Zeitschr. xxxviii.
- Ablepsis*, n. g., type *vulpinus*, Hub. ; WATSON, p. 36, P. Zool. Soc. London, 1893.
- Acolastus amyntas*, ♂ characters figured, pl. lxxvii, fig. 9, noticed, p. 304 ; GODMAN & SALVIN, Biol. Centr.-Amer. Rhopalocera, ii.
- Actinor*, n. g., type *radians*, Moore ; WATSON, p. 108, P. Zool. Soc. London, 1893.
- Aeromachus* ? *johnstoni*, Central Africa, BUTLER, p. 673, P. Zool. Soc. London, n. sp.
- Amenis*, n. g., type *pionia*, Hew. ; WATSON, p. 12, P. Zool. Soc. London, 1893.
- A. ponina*, figured ; GODMAN & SALVIN, Biol. Centr.-Amer. Rhopalocera, ii, pl. lxxiii, figg. 23 & 24.
- Antigonus synestalmenus*, W. Africa, KARSKH, p. 263, pl. vi, fig. 8, Berlin. ent. Zeitschr. xxxviii, n. sp.
- Ardaris*, n. g., type *eximia*, Hew. ; WATSON, p. 13, P. Zool. Soc. London, 1893.
- Argopteron*, n. g., type *aureipennis*, Blanch. ; WATSON, p. 88, P. Zool. Soc. London, 1893.
- Arnetta*, n. g., type *atkinsoni*, Moore ; WATSON, p. 81, P. Zool. Soc. London, 1893.
- Astictopterus kada*, Shillong, SWINHOE, p. 328, Tr. ent. Soc. London, 1893 ; *A. obliquans*, Java, MABILLE, p. 51, Ann. Soc. ent. Belgique, xxxvii : n. spp.
- Azonax*, n. g., for *Myscelus typhaon*, Hew., figured, pl. lxxiv, figg. 27 & 28 ; GODMAN & SALVIN, Biol. Centr.-Amer. Rhopalocera, ii.
- Baracus fenestratus*, Central Africa, BUTLER, p. 673, P. Zool. Soc. London, 1893, n. sp.
- Bungalotis*, n. g., type *midas*, Cr. ; WATSON, p. 28, P. Zool. Soc. London, 1893.
- B. midas*, male characters, pl. lxxix, fig. 8, *ramusis*, figg. 9-12, *heras*, figg. 16-18, *dexo*, figg. 13-15, *salatis*, male characters, pl. lxxx, fig. 1, figured ; GODMAN & SALVIN, Biol. Centr.-Amer. Rhopalocera, ii.
- Burara*, n. g., near *Ismene*, including *vasutana*, *harisa*, *gomata*, Moore ; SWINHOE, p. 329, Tr. ent. Soc. London, 1893.
- Calitoris*, n. g. (for part of *Baoris* ?), including *C. onchisa*, n. sp., Shillong ; SWINHOE, Tr. ent. Soc. London, 1893, p. 323.
- Caprona adelica*, redescribed and figured ; KARSKH, p. 245, pl. vi, fig. 2, Berlin, ent. Zeitschr. xxxviii.
- Carcharodus swinhœi*, N. W. India, WATSON, p. 68, P. Zool. Soc. London, 1893, n. sp.
- Carterocephalus palæmon*, n. var. *albigutta* ; CHRISTOPH, p. 87, Deutsche ent. Zeitschr. Lep. vi.
- Carystus albescens*, *singularis*, Java, MABILLE, p. 51, Ann. Soc. ent. Belgique, xxxvii, n. spp.

- Ceratrichia tetrastigma*, pl. xvi, fig. 8, figured ; MABILLE & VUILLOT, Novitat. Lep.
- ¹ *Chrysoplectrum*, n. g., type *otriades*, Hew. ; WATSON, p. 24, P. Zool. Soc. London, 1893.
- C. perniciosum*, figured, pl. lxxvii, figg. 6, 7, & 8, *C. otriades* = (*Thymele euphronioides*, Mab.), p. 303 ; GODMAN & SALVIN, Biol. Centr.-Amer. Rhopalocera, ii.
- Cyclopides uniformis*, W. Africa, KARSCH, p. 245, Berlin. ent. Zeitschr. xxxviii ; *C. quadrisignatus*, p. 670, pl. ix, fig. 9, *midas*, p. 671, Central Africa, BUTLER, P. Zool. Soc. London, 1893 : n. spp.
- ¹ *Drephalys*, n. g., type *helixus*, Hew. ; WATSON, p. 34, P. Zool. Soc. London, 1893.
- ¹ *Dyscophellus*, n. n. for *Dyscophus*, Burm., p. 319, *D. doriscus*, ♂ characters, pl. lxxviii, fig. 18 ; GODMAN & SALVIN, Biol. Centr.-Amer. Rhopalocera, ii.
- Eagris decastigma*, pl. xvi, fig. 7, figured ; MABILLE & VUILLOT, Novitat. Lep.
- Entheus bicolor*, Tonkin, OBERTHUR, p. 14, pl. iv, fig. 36, Études Ent. xvii, n. sp.
- Epargyreus exadeus*, pl. lxxvii, fig. 1, *asander*, fig. 4, figured ; GODMAN & SALVIN, Biol. Centr.-Amer. Rhopalocera, ii.
- E. gaumeri*, Honduras, p. 300, pl. lxxvii, figg. 2 & 3, GODMAN & SALVIN, Biol. Centr.-Amer. Rhopalocera, ii, n. sp.
- Eudamus simplicius*, pl. lxxv, fig. 1, *chalco*, fig. 4, *proteus*, fig. 5, *esmeraldus*, fig. 6, *dorantes*, fig. 7, *zilpa*, fig. 8, *catillus*, figg. 9 & 10, *albofasciatus*, fig. 11, *alcaeus*, fig. 12, *ridens*, figg. 13-15, *auginus*, fig. 26, *octomaculatus*, fig. 23, *metallescens*, figg. 27-29, *undulatus*, fig. 30, figured ; GODMAN & SALVIN, Biol. Centr.-Amer. Rhopalocera, ii.
- E. aemilea*, Oregon, SKINNER, p. 64, Ent. News Philad. 1893 ; *E. chales*, p. 274, pl. lxxv, figg. 2 & 3, *miltas*, figg. 18 & 19, *crison*, figg. 16 & 17, p. 282, *uginulus*, figg. 20-22, p. 284, *alciphron*, figg. 24 & 25, p. 285, Central America, GODMAN & SALVIN, Biol. Centr.-Amer. Rhopalocera, ii : n. spp.
- Eurypterus peruvianus*, pl. xv, fig. 4, figured ; MABILLE & VUILLOT, Novitat. Lep.
- ¹ *Gehenna*, n. g., type *abima*, Hew. ; WATSON, p. 108, P. Zool. Soc. London, 1893.
- Goniusurus piliger*, pl. xv, fig. 3, figured ; MABILLE & VUILLOT, Novitat. Lep. *G. caelus*, pl. lxxvi, fig. 1, *talus*, fig. 2, figured ; GODMAN & SALVIN, Biol. Centr.-Amer. Rhopalocera, ii.
- ¹ *Grynnopsis*, n. g., type *cæleste*, Westw. ; WATSON, p. 42, P. Zool. Soc. London, 1893.
- Halpe nigerrima*, Central Africa, BUTLER, P. Zool. Soc. London, 1893, p. 672 ; *H. moorei*, E. India, WATSON, p. 109, t. c. ; *H. aucta*, *marta*, *wantona*, p. 325, *perara*, *teliga*, p. 326, Shillong, SWINHOE, Tr. ent. Soc. London, 1893 : n. spp.

- Hesperia hyrcana*, Lenkoran, CHRISTOPH, p. 87, Deutsche ent. Zeitschr. Lep. vi; *H. geron*, Quetta, WATSON, p. 66, P. Zool. Soc. London, 1893 : n. spp.
- Hesperilla perornata*, Australia, ANDERSON, p. 437, Ann. Nat. Hist. (6) xii, n. sp.
- Heteropia bryaxis*, figured, pl. lxxvi, fig. 25, GODMAN & SALVIN, Biol. Centr.-Amer. Rhopalocera, ii.
- H. melon*, Mexico, GODMAN & SALVIN, p. 297, pl. lxxvi, figg. 26 & 27, Biol. Centr.-Amer. Rhopalocera, ii, n. sp.
- Heteropterus formosus*, Central Africa, BUTLER, p. 670, P. Zool. Soc. London, 1893, n. sp.
- Hyda majorella*, *tricerata*, *micacea*, figured; MABILLE & VUILLOT, Novitat. Lep. pl. xiii.
- ↓ *Hypocryptothrix*, n. g., type *teutas*, Hew.; WATSON, p. 22, P. Zool. Soc. London, 1893.
- Hypoleucis indusiata*, pl. xvi, fig. 6, figured; MABILLE & VUILLOT, Novitat. Lep.
- H. titanota*, p. 254, pl. vi, fig. 5, *enantia*, p. 255, W. Africa, KARSCH, Berlin. ent. Zeitschr. xxxviii, n. spp.
- ↓ *Iambria*, n. g., type *salsala*, Moore; WATSON, p. 76, P. Zool. Soc. London, 1893.
- Isma isota*, Shillong, SWINHOE, p. 320, Tr. ent. Soc. London, 1893, n. sp.
- Ismene ataphus*, E. India, WATSON, p. 126, P. Zool. Soc. London, 1893, n. sp.
- ↓ *Jemadia*, n. g., type *hospita*, Butl.; WATSON, p. 14, P. Zool. Soc. London, 1893.
- J. hospita*, pl. lxxiv, figg. 4-6, *hewitsoni*, figg. 7-9, *patrobas*, figg. 13-15, *azeta*, figg. 16 & 17, figured; GODMAN & SALVIN, Biol. Centr.-Amer. Rhopalocera, ii.
- J. macleannani*, Panama, GODMAN & SALVIN, Biol. Centr.-Amer. Rhopalocera, ii, p. 262, pl. lxxiv, figg. 10 & 12, n. sp.
- ↓ *Katreus*, n. g., type *johnstonii*, Butl.; WATSON, p. 115, P. Zool. Soc. London, 1893.
- ↓ *Kedestes*, n. g., type *lepenula*, Wallgr.; WATSON, p. 96, P. Zool. Soc. London, 1893.
- ↓ *Koruthaialos*, n. g. for *K. hector*, n. sp., Malacca; WATSON, p. 76, P. Zool. Soc. London, 1893.
- ↓ *Lophoides*, n. g., type *iapis*, Nicév.; WATSON, p. 84, P. Zool. Soc. London, 1893.
- ↓ *Mahotis*, n. g., type *nurscia*, Swains.; WATSON, p. 13, P. Zool. Soc. London, 1893.
- ↓ *Microceris*, n. g., type *variicolor*, Mén.; WATSON, p. 15, P. Zool. Soc. London, 1893.
- ↓ *Motasingha*, n. g., type *dirphia*, Hew.; WATSON, p. 73, P. Zool. Soc. London, 1893, n. sp.
- ↓ *Murgaria*, n. g., type *albociliatus*, Mab.; WATSON, p. 37, P. Zool. Soc. London, 1893.

- Myscelus belti*, figured, pl. lxxiv, figg. 21–23 ; GODMAN & SALVIN, Biol. Centr.-Amer. Rhopalocera, ii.
- M. hages*, Central America, GODMAN & SALVIN, Biol. Centr.-Amer. Rhopalocera, ii, p. 266, pl. lxxiv, figg. 24–26, n. sp.
- Mysoria*, n. g., type *acastus*, Cr. ; WATSON, p. 12, P. Zool. Soc. London, 1893.
- M.* : limits and definition altered, p. 253, *M. venezuelae*, pl. lxxiii, figg. 17, *affinis*, figg. 19–21, *amra*, fig. 18, *galgala*, fig. 22, figured ; GODMAN & SALVIN, Biol. Centr.-Amer. Rhopalocera, ii.
- Nascus*, n. g., type *phocus*, Cr. ; WATSON, p. 28, P. Zool. Soc. London, 1893.
- N. phocus*, pl. lxxviii, fig. 19, male characters, *evathlus*, figg. 22 & 23, *cæpio*, figg. 3–5, pl. lxxix, *advena*, figg. 6 & 7, figured ; GODMAN & SALVIN, Biol. Centr.-Amer. Rhopalocera, ii.

Vol. VII. of Romanoff's Memoirs is devoted to a monograph of *Phycitinae* and *Galleriinae* by RAGONOT.

Acentropus niveus, habitat in Pomerania; HERING, p. 81, Stettin Ent. Zeit. liv.

Acharana præteritalis, pl. clxxiii, fig. 3, p. 165, *admensalis*, fig. 10, p. 166 (Wlk., sub *Botys*), figured; HAMPSON, Ill. Let. Het. ix.

Acrobasis scabrilineella, Japan, p. 95, pl. xliii, fig. 6, *encaustella*, China, p. 101, pl. xi, fig. 12, *diversicolor*, Natal, p. 114, pl. xi, fig. 3, *epigrammella*, Rangoon, p. 122, pl. vi, fig. 9, RAGONOT, Romanoff Mem. vii, n. spp.

Adelosemia odontella, Caucasus, RAGONOT, p. 220, pl. xi, fig. 21, Romanoff Mem. vii, n. sp.

Aetholix cingalesa, Ceylon, HAMPSON, p. 173, pl. clxxiv, fig. 18, Ill. Lep. Het. ix, n. sp.

Aglossa simplicialis, Schahrud, CHRISTOPH, p. 96, Deutsche ent. Zeitschr. Lep. vi, n. sp.

Agrotera effortalis, Wlk. (sub *Aediodes*), figured, pl. clxxiv, fig. 19, p. 173; HAMPSON, Ill. Lep. Het. ix.

A. magnificalis, Ceylon, HAMPSON, p. 173, t. c. fig. 17, n. sp.

Alophia, n. g., p. 433, for *Pyralis combustella*, H.-S.; RAGONOT, Romanoff Mem. vii.

Amaurosema brevialis, Wlk. (sub *Scopula*), figured, pl. clxxiii, fig. 15, p. 164; HAMPSON, Ill. Lep. Het. ix.

Ambia suffusalis, pl. clxxiv, fig. 20, p. 178, *cæruleata*, fig. 29, p. 179, HAMPSON, Ill. Lep. Het. ix, n. spp.

Amphithrix, n. g., for *sublineatella*, Stgr.; RAGONOT, p. 185, pl. vii, fig. 13, Romanoff Mem. vii.

Analtes obliqualis, Ceylon, HAMPSON, p. 170, pl. clxxiii, fig. 5, Ill. Lep. Het. ix, n. sp.

Anartula, n. g., for *A. melanophia*, n. sp., Wladiwostock; STAUDINGER, p. 78, Deutsche ent. Zeitschr. Lep. vi.

Ancova, n. g., for *Neph. meridionalis*, Wlk.; RAGONOT, p. 150, pl. xli, fig. 5, Romanoff Mem. vii.

Ancylostomia, n. g., for *Myelois stercorea*, Zell.; RAGONOT, p. 567, Romanoff Mem. vii.

Angonia, n. g., *Crambidæ*, p. 54, for *A. crambidalis*, n. sp., Java, p. 56, pl. iii, fig. 1; SNELLEN, Tijdschr. Ent. xxxvi.

Aphyletes, n. g., *Phycitinae*, for *nigrisparsella*, Rag.; RAGONOT, p. 444, Romanoff Mem. vii.

Argyria (Catharylla) bifasciella, Celebes, SNELLEN, p. 63, pl. iii, fig. 5, Tijdschr. Ent. xxxvi, n. sp.

- Aripana lactiferalis*, Wlk. (sub *Zebronia*), figured, pl. clxxiii, fig. 28, p. 170; HAMPSON, Ill. Lep. Het. ix.
- \Arsissa*, n. g., *Phycitinae*, p. 131, for *Pyr. ramosella*, H.-S.; RAGONOT, Romanoff Mem. vii.
- Arthroschista hilaralis*, Wlk. (sub *Margaronia*), figured, pl. clxxiii, fig. 21, p. 168; HAMPSON, Ill. Lep. Het. ix.
- \Astartodes*, n. g., for *Ennychia monspessalalis*, Dup.; RAGONOT, p. 617, Romanoff Mem. vii.
- Asopia kacheticalis*, Transcaucasus, CHRISTOPH, p. 96, Deutsche ent. Zeitschr. Lep. vi, n. sp.
- Asopina (Hypotia) tamaricalis* = (*obatrallis*, Chr.), CHRISTOPH, p. 36, Stettin Ent. Zeit. liv.
- Atheropoda flaccidalis*, Peru, *infelixalis*, Brazil, p. 169, SNELLEN, Tijdschr. Ent. xxxv, n. spp.
- Auzacia*, n. n. to replace *Aria*, Rag.; RAGONOT, p. 483, Romanoff Mem. vii.
- Balanotis irrorata*, Ceylon, HAMPSON, p. 156, pl. clxxii, fig. 1, Ill. Lep. Het. ix, n. sp.
- Bazaria pampeliella*, Krasnowodsk, RAGONOT, p. 454, Romanoff Mem. vii, n. sp.
- Bostra illusella*, Wlk., figured, pl. clxxii, fig. 19, p. 159; HAMPSON, Ill. Lep. Het. ix.
- Botys damastesalis*, figured and noticed; SNELLEN, p. 159, pl. x, figg. 3 & 4 Tijdschr. Ent. xxxv. *B. silialis*, figured, pl. xviii, fig. 9; MABILLE & VUILLOT, Novitat. Lep. *B. tithonialis* = (*dotatalis*, Chr.), *costalis*, Ev. = (*hilaralis*, Chr.), *ciliialis*, Hb. = (*Antigustra virgatalis*, Chr.); CHRISTOPH, p. 35, Stettin Ent. Zeit. liv. *B. commellalis* and *nitidalis*, early stages; CHRÉTIEN, Naturaliste, 1893, p. 265. *B. polyclealis*, Wlk., cf. *Eupithecia* in *Geometridæ*.

Raphidolabis debilis, California, WILLISTON, p. 62, Kansas quart. ii, n. sp.

Stygeropis bergrothi, Alaska, WILLISTON, p. 64, Kansas quart. ii, n. sp.

- Tipula goriziensis*, p. 165, *macroselene*, p. 167, Austrian Coast, STROBL,
Wien. ent. Zeit. xii, n. spp.
Trimicra pilipes: variation of venation; WULP, p. 499, Ann. Soc. ent.
Belgique, xxxvii, cut.

XYLOPHAGIDÆ, STRATIOMYIIDÆ, TABANIDÆ.

Subula pallipes: pupa described; TOWNSEND, p. 163, Ent. News Philad.
1893.

The genera and species of *Stratiomyiidæ* found in Belgium tabulated;
COUCKE, pp. 431-449, Ann. Soc. ent. Belgique, xxxvii.

Berisamyia fusca, Mexico, GIGLIO-TOS, p. 103, pl. i, fig. 2, Mem. Acc.
Torino (2) xlivi, n. sp.

Chrysonotus aeneiventris, Mexico, GIGLIO-TOS, p. 121, Mem. Acc. Torino,
xliii, n. sp.

Stratiomys flavolimbata, Tunis, COSTA, p. 101, Rend. Acc. Napoli (2) vii,
and Atti Acc. Napoli (2) v, No. 14, p. 21, pl. iv, fig. 6, n. sp.

Chrysops mauritanicus, Tunis, COSTA, p. 101, Rend. Acc. Napoli (2) vii,
and Atti Acc. Napoli (2) v, No. 14, p. 22, pl. iv, figg. 7 & 8, n. sp.

Diachlorus guttatus, Kansas, TOWNSEND, p. 134, Tr. Kansas Ac. xiii,
n. sp.

LEPTIDÆ, ASILIDÆ, APIOCERIDÆ.

Leptidæ: characters of the Belgian species; COUCKE, pp. 127-134, Ann.
Soc. ent. Belgique, xxxvii.

Apioceridæ: defined, systematic position discussed: trophi, and male
characters described and figured, the former compared with those of
other families; WILLISTON, Kansas quart. i, pp. 101-118, pls. ix & x.

Asilus novæscotia, *sericeus*, *midas*, pp. 68 & 69, *notatus*, p. 74, redescribed;
WILLISTON, Kansas quart. ii.

A. astutus, *annulatus*, p. 70, *angustifrons*, p. 71, *flavipes*, p. 72, *A. (Neoitamus) distinctus*, *afinis*, p. 73, *A. (Tolmerus) callidus*, *A. (Rhadiurus) leucopogon*, p. 75, *A. (Stenoprosopus) arizonensis*, p. 76, N.
America, WILLISTON, Kansas quart. ii, n. spp.

Anisopogon: synopsis of species; COQUILLETT, Canad. Ent. xxv, p. 20.

A. ludius, p. 20, *rubidus*, California, *patruelis*, Texas, p. 21, COQUILLETT,
Canad. Ent. xxv, n. spp.

Blacodes cristatus, p. 33, *truncus*, *clausus*, p. 34, California, COQUILLETT,
Canad. Ent. xxv, n. spp.

Cyrtopogon dasyllis, Colorado, WILLISTON, p. 66, Kansas quart. ii, n. sp.

Dioctria: synopsis of N. American; COQUILLETT, p. 80, Canad. Ent. xxv.

D. parvulus, *rubidus*, California, COQUILLETT, p. 80, Canad. Ent. xxv,
n. spp.

Efferia, n. g., near *Erae*, for *E. perniciis*, p. 175, *rava*, *candida*, p. 176,
n. spp., N. America; COQUILLETT, Canad. Ent. xxv.

Laxenecera stuhlmanni, E. Africa, RÖDER, p. 205, Jahrb. Hamburg. Anst.
x, n. sp.

- Exoprosopa vesperugo*, Tunis, COSTA, p. 101, Rend. Acc. Napoli (2) vii, and Atti Acc. Napoli (2) v, No. 14, p. 23, pl. iv, fig. 9, n. sp.
- Lordotus sororculus*, California, WILLISTON, p. 255, North Amer. Fauna, vii; *L. pulchrissimus, puella*, N. America, WILLISTON, p. 65, Kansas quart. ii : n. spp.
- Toxophora virgata*: pupa described; TOWNSEND, p. 455, Psyche, vi.
- Triplasius novus*, California, WILLISTON, p. 254, North Amer. Fauna, vii, n. sp.

THEREVIDÆ.

- Psilocephala festina, morata*, p. 225, *baccata, pavida, montivaga*, p. 226, *slossoni, aldrichi*, p. 227, *johsoni, marcida*, p. 228, N. America, *obscura*, Jamaica, p. 229, COQUILLETT, Canad. Ent. xxv, n. spp.
- Thereva semitaria*, p. 198, *duplicis, otiosa*, p. 199, *novella, johsoni*, p. 200, N. America, COQUILLETT, Canad. Ent. xxv, n. spp.

EMPIDÆ.

- Empis brunnipennis*: ♂ described; STROBL, p. 39, Wien. ent. Zeit. xii. *E. genualis*, Lesina, STROBL, p. 39, Wien. ent. Zeit. xii; *E. sociabilis*, Washington, WILLISTON, p. 76, Kansas quart. ii : n. spp.
- Hilara matroniformis*, Lesina, STROBL, p. 40, Wien. ent. Zeit. xii, n. sp.
- ¹*Mythiocomyia*, n. g. for *M. rileyi*, n. sp., California, COQUILLETT, p. 209, Ent. News Philad. 1893.

- ¹*Oustaletimyia* : provisional new genus and species in amber ; MEUNIER, p. cccxxxiii, Bull. Soc. ent. France, 1893.
Tachydromia novakii, p. 37, *lesinensis*, p. 38, Lesina, STROBL, Wien. ent. Zeit. xii, n. spp.

DOLICHOPODIDÆ.

- ¹*Aptorthus*, n. g., *Psilopinæ*, for *A. albiciliatus*, p. 48, *borealis*, *nigripes*, p. 49, *townsendii*, p. 50, n. spp., N. America ; ALDRICH, Kansas quart. ii.
¹*Dactylomyia*, n. g. near *Medeterus*, for *D. gracilipes*, n. sp., Dakota ; ALDRICH, p. 151, Kansas quart. ii.
Dolichopus : revision of the N. American species ; ALDRICH, Kansas quart. ii, pp. 1-23.
D. tenuipes, Idaho, WILLISTON, p. 155, Kansas quart. ii ; *D. johnsoni*, p. 7, *calcaratus*, *kansensis*, p. 8, *convergens*, p. 9, *albicoxa*, p. 10, *dukotensis*, p. 11, *reflectus*, p. 12, *vigilans*, p. 13, *brunneus*, *obcordatus*, p. 14, *gracilis*, *angustatus*, p. 15, *agilis*, p. 16, *marginatus*, p. 17, *duplicatus*, *plumosus*, p. 18, *occidentalis*, *coquilletti*, p. 19, *aurifacies*, p. 20, *grandis*, p. 21, *willistoni*, p. 22, N. America, ALDRICH, Kansas quart. ii : n. spp.
¹*Gnamphtopsilopus*, n. g. for a part of *Psilopus* ; ALDRICH, p. 48, Kansas quart. ii.
Hygroceleuthus : revision of the North American species ; ALDRICH, pp. 23-26, Kansas quart. ii.
H. ciliatus, Wyoming, ALDRICH, p. 25, Kansas quart. ii ; *H. idahoensis*, N. America, ALDRICH, p. 154, t. c. : n. spp.
¹*Leptorhethum*, n. g. near *Psilopus*, for *L. angustatum*, n. sp., St. Vincent ; ALDRICH, Kansas quart. ii, p. 50.
Liancalus hydrophilus, p. 569, *similis*, p. 571, N. America, ALDRICH, Psyche, vi, n. sp.
¹*Metaplastoneurus*, n. g., p. 152, for *M. kansenensis*, n. sp., N. America, p. 153 ; ALDRICH, Kansas quart. ii.
Psilopinæ : definition ; ALDRICH, p. 47, Kansas quart. ii.
Sympycnus occidentalis, Wyoming, ALDRICH, p. 153, Kansas quart. ii, n. sp.

SYRPHIDÆ.

- Syrphidæ* : notes on synonymy of some S. American genera ; BIGOT, p. clvii, Bull. Soc. ent. France, 1893.
Baccha : groups distinguished ; AUSTEN, p. 135, *B. amphithoe*, Wlk., redescribed, p. 142, pl. iv, fig. 2, *B. clavata*, Fab. = (*Paragus scutellaris*, *B. babista*, *varia*, Wlk.), p. 159, P. Zool. Soc. London, 1893.
Baccha nubilipennis, Ceylon, p. 136, pl. iv, figg. 7-9, v, fig. 14, *bicolor*, Mysol, p. 137, pl. iv, fig. 6, *refulgens*, Bouru, fig. 4, *triangulifera*, Ceylon, fig. 5, p. 138, *pulchrifrons*, p. 139, pl. iv, figg. 10 & 11, *fallax*, fig. 12, p. 142, Ceylon, *sulica*, Malay Arch., fig. 3, *sagittifera*, Jamaica,

- fig. 14, p. 144, *signifera*, Ega, fig. 8, p. 145, *levissima*, Brazil, fig. 15, p. 146, *bigoti* = (*apicalis*, Big.), *incompta*, fig. 13, p. 147, *pumila*, pl. v, fig. 12, p. 148, *silacea*, fig. 13, p. 149, *cultrata*, figg. 8 & 9, p. 151, *flavens*, fig. 10, p. 153, *giloa*, fig. 7, p. 154, *crocata*, fig. 5, p. 155, *crocea*, fig. 6, p. 157, *fervida*, fig. 11, p. 158, Amazons, AUSTEN, P. Zool. Soc. London, 1893 : n. spp.
- Chilosia chalybescens*, California, WILLISTON, p. 76, Kansas quart. ii, n. sp.
- Cyphipelta* (sub *Brachyopa*) *rufo-cyanea*, Wlk. = (*conifrons*, Big., and *Eristalis vesicularis*, Er.) ; AUSTEN, p. 163, P. Zool. Soc. London, 1893.
- Eristalis tenax* : resemblance to bee, distribution, mythology ; OSTEN-SACKEN, Bull. Soc. ent. Ital. xxv, pp. 186-217.
- E. sumichrasti*, Mexico, GIGLIO-TOS, p. 324, Mem. Acc. Torino, xlili, n. sp.
- Lycastrirhyncha nitens* : referred to *Eristalini* ; AUSTEN, p. 163, P. Zool. Soc. London, 1893.
- Merodon minutus*, Dalmatia, STROBL, p. 77, Wien. ent. Zeit. xii, n. sp.
- Palaoascia*, n. n. for the fossil species of *Ascia* ; MEUNIER, pl. cxxix, Bull. Soc. ent. France, 1893.
- Paragus pulcherrimus*, Fiume, STROBL, p. 78, Wien. ent. Zeit. xii, n. sp.
- Ocyptamus* : to this are referred the following of Walker's species : *Pipiza costalis*, (pica) = *O. trigonus*, Wied., (*divisa*, *dolosa*) = *O. dimidiatus*, Fab., *syrphus*, *stolo*, *antiphates*, *peas*, (*amissas*, *radaca*) = *O. fuscipennis*, Say, *iridipennis*, *tarsalis* ; AUSTEN, p. 134, P. Zool. Soc. London, 1893.
- O. iris*, Jamaica, AUSTEN, p. 133, pl. iv, fig. 1, P. Zool. Soc. London, 1893, n. sp.
- Rhingia semicærulea*, Sierra Leone, AUSTEN, p. 162, p. v, figg. 1 & 2, P. Zool. Soc. London, 1893, n. sp.
- Salpingogaster virgata*, pl. v, fig. 3, p. 159, *minor*, fig. 4, p. 161, Amazons, AUSTEN, P. Zool. Soc. London, 1893, n. spp.

OESTRIDÆ.

- Larva extracted from frontal sinus of an antelope of the genus *Boselaphus* ; BLANCHARD, pp. cxxxii & cxxxi, figg., Bull. Soc. ent. France, 1893.
- Cobboldia* : note on the species found in the Indian and African elephants ; BLANCHARD, p. cxxx, Bull. Soc. ent. France, 1893.
- Cuterebra fontinella*, bred from *Lepus artemisia* ?, ♀ described ; TOWNSEND, pp. 317-320, Insect Life, v.
- Dermatobia cyaniventris* : note on ; BLANCHARD, Bull. Soc. ent. France, 1893, pp. xxiv-xxvii.
- Estrus* larva in man ; SANGAGLI, Rend. Ist. Lombardo (2) xxvi, pp. 645-647.

CONOPIDÆ, PLATYPEZIDÆ, PIPUNCULIDÆ.

Stylogaster: note on the American species and their synonymy; WILLISTON, pp. 120-122, Kansas quart. i.

¹*Brachyceratias*, n. n. for *Brachyceraea*, Röder; RÖDER, p. 62, Ent. Nachr. xix.

Callomyia; for n. g., allied to, in amber, *vide* Palæoentomology.

C. aurantiaca, Italy, BEZZI, p. 304, Wien. ent. Zeit. xii, n. sp.

Pipunculus aridus, California, WILLISTON, p. 255, North Amer. Fauna, vii, n. sp.

MUSCIDÆ CALYPTRATÆ.

Essay on the classification of *Muscidae*, defining the following families of *Calyptrate*, viz., *Anthomyidæ*, *Tachinidæ*, with subdivisions *Caenosiinae*, *Muscinae*, *Oestrinae*, *Calliphorinae*, *Masicera* group, and *Sarcophaga* group; GIRSCHNER, pp. 297-312, Berlin. ent. Zeitschr. xxxviii.

BRAUER explains the nature of the Memoirs by BRAUER & BERGENSTAMM, gives tables for the determination of the European genera included therein, and for correlating the genera with those of Schiner; Verh. Ges. Wien. xliii, pp. 447-525.

Observations on BRAUER & BERGENSTAMM's genera; WILLISTON, pp. 238-240, Insect Life, v.

Descriptive notes on some dubious *Muscidae* from Jamaica; TOWNSEND, J. Inst. Jamaica, i, pp. 314-316.

Remarks on WULP's diagnoses of *Phasiides*, &c.; TOWNSEND, Canad. Ent. xxv, pp. 165-168.

List of hosts of some N. American *Tachinidæ*; TOWNSEND, Psyche, vi, p. 466.

Larva allied to *Ochromyia* attacking man in S. Africa; BLANCHARD, pp. cxx-cxxix, Bull. Soc. ent. France, 1893.

Anthomyiidæ: revision of the Styrian species, with synonymous and other notes; STROBL, p. 274, Verh. Ges. Wien. xliii: and for many remarks on the memoir, see POKORNY, t. c. pp. 526-544.

Acroglossa tessellata, Mexico, GIGLIO-TOS, p. 5, Boll. Mus. Torino, viii, No. 158, n. sp.

¹*Acroptena*, n. g., p. 60, *Anthomyiidæ*, for *A. simonyi*, n. sp., Alps of Europe, p. 61; POKORNY, Wien. ent. Zeit. xii.

Admontia occidentalis, Mexico, WULP, p. 195, Tijdschr. Ent. xxxv, n. sp.

(F.) *NEUROPTERA.*

TRICHOPTERA.

[*Cf.* Klapálek (531), Linden (594), Lucas (602), Morton (656, 657), Ris (801), Wallengren (1023).]

Metamorphoses of 36 species described and illustrated by Klapálek, Arch. Landesdf. Bohmen, viii, No. 6. [This is the memoir referred to below by Klapálek and the page thereof.]

Anatomy of larva, of mouth of imago; mode of nutrition, &c.; Lucas, Arch. Naturg. lix, i, pp. 285-330, pls. x-xii.

Monograph, in the Swedish language, of Scandinavian *Trichoptera*; Wallengren, Svenska Ak. Handl. xxiv, No. 10. In addition to the names of new subgenera and genera we record below, the author elevates several of McLachlan's sections to the rank of families.

Adela aethiops, Feld., noticed as probably a *Neuropteron*; Meyrick, p. 486, P. Linn. Soc. N. S. Wales (2) vii.

Aetesis, n. g., for *Oecetis lacustris*, &c.; Wallengren, p. 134, No. 10, Svenska Ak. Handl. xxiv.

Agapetus fuscipes, metamorphoses; Klapálek, p. 131.

Allotriogametis, n. g., for *Oecetis furva*; Wallengren, p. 133, No. 10, Svenska Ak. Handl. xxiv.

Anabolia laevis, metamorphoses; Klapálek, pp. 12-16.

Apatania fimbriata, p. 31, *muliebris*, p. 35, metamorphoses; Klapálek.

Asynarchus adulterinus, Stockholm, = (*thedenii*, Wallengr., pars olim); Wallengren, p. 69, No. 10, Svenska Ak. Handl. xxiv, n. sp.

Bereodes minuta, metamorphoses; Klapálek, p. 80.

Brachycentrus montanus, metamorphoses; Klapálek, p. 55.

Chematopsyche, n. g., for *Hydropsyche lepida*; Wallengren, p. 142, No. 10, Svenska Ak. Handl. xxiv.

Crunacia irrorata, metamorphoses; Klapálek, p. 71.

Cyrnus fenestratus, Switzerland, Ris, MT. Schweiz. ent. Ges. viii, p. 53, n. sp.

Diplectrona felix, preparatory stages, affinities; Morton, Ent. Mag. xxix, p. 84.

Dophnaea, n. subg. of *Beraea*, for *B. maurus*; Wallengren, p. 114, No. 10, Svenska Ak. Handl. xxiv.

Economus tenellus, metamorphoses; Klapálek, p. 119.

- Ernodes*, n. subg. of *Beraea*, for *B. articularis*; WALLENGREN, p. 113, No. 10, Svenska Ak. Handl. xxiv.
- Glossosoma boltoni*, metamorphoses; Klapálek, p. 128.
- Goëra pilosa*, metamorphoses; Klapálek, p. 48.
- Hydatophylax*, n. g., for *Stenophylax infumatus*; WALLENGREN, p. 73, No. 10, Svenska Ak. Handl. xxiv.
- Hydroptila macclachlani*, metamorphoses, Klapálek, p. 135; note on, with fig. of male characters, MORTON, p. 78, pl. vi, Tr. ent. Soc. London, 1893.
- H. stellifera*, Italy, p. 75, *fortunata*, Canary Is., p. 76, *uncinata*, Europe, p. 77, MORTON, Tr. ent. Soc. London, 1893, n. spp.
- Hypnotranus*, n. g., for *Stenophylax picicornis*; WALLENGREN, p. 70, No. 10, Svenska Ak. Handl. xxiv (= *Hypochniona*, Thoms.; *id. t. c.* p. 167).
- Lepidostoma hirtum*, metamorphoses; Klapálek, p. 75.
- Leptocerus annulicornis*, p. 88, *bilineatus*, p. 92, metamorphoses; Klapálek.
- Limnophilus extricatus*, metamorphoses; Klapálek, pp. 9-12. *L. rhombicus*?, self-mutilation of larva; LINDEN, Biol. Centralbl. xiii, p. 81.
- Micrasema longulum*, p. 63, *minimum*, p. 67, metamorphoses; Klapálek.
- Micropterna nycterobia*, metamorphoses; Klapálek, p. 27.
- Molanna angustata*, metamorphoses; Klapálek, p. 84.
- M. distinguenda*, Lapland, WALLENGREN, p. 118, No. 10, Svenska Ak. Handl. xxiv, n. sp.
- Mystacides nigra*, metamorphoses; Klapálek, p. 95.
- Neuronia ruficrus*, metamorphoses; Klapálek, pp. 5-8.
- Notidobia ciliaris*, metamorphoses; Klapálek, p. 43.
- Œcetis ochracea*, p. 99, *furva*, p. 103, *lacustris*, p. 107, metamorphoses; Klapálek.
- Oligoplectrum maculatum*, metamorphoses; Klapálek, p. 59.
- Oxyethira costalis*, metamorphoses; Klapálek, p. 139.
- O. ecornuta*, Finland, p. 79, *falcata*, Britain, p. 80, MORTON, Tr. ent. Soc. London, 1893, n. spp.
- Philopotamus montanus*, metamorphoses; Klapálek, p. 112.
- Plectrocnemia conspersa*, metamorphoses; Klapálek, p. 116.
- Pleurograpta*, n. g., for *Œcetis notata*, *testacea*, and *tripunctata*; WALLENGREN, p. 134, No. 10, Svenska Ak. Handl. xxiv.
- Potamophylax*, n. subg. of *Stenophylax*, for *S. stellatus*, Curt. and others; WALLENGREN, p. 75, No. 10, Svenska Ak. Handl. xxiv.
- Rhadicoleptus*, n. g., for *Stenophylax alpestris*; WALLENGREN, p. 72, No. 10, Svenska Ak. Handl. xxiv.
- Rhyacophila septentrionis*, metamorphoses; Klapálek, p. 126.
- Sericostomatinae* of France; MARTIN, xxiii, pp. 35-37, 57-59, & 73.
- Sericostoma pedemontanum*, metamorphoses; Klapálek, p. 39.
- Stenophylax rotundipennis*, p. 16, *nigricornis*, p. 20, *stellatus*, p. 23, *luctuosus*, p. 25, metamorphoses; Klapálek.
- Tinodes rostocki*, metamorphoses; Klapálek, p. 122.

NEUROPTERA-PLANIPENNIA.

[*Cf. GERSTAECKER* (368), McLACHLAN (610, 611).]

List of the *Planipennia* of L'Indre, France, with remarks; MARTIN, Rev. Ent. franc. xii, pp. 142-147.

Panorpidae.

Apterobittacus, n. g., for *Bittacus apterus*; McLACHLAN, p. 317, Ent. Nachr. xix.

Harpobittacus: note on the genus and its constituents; McLACHLAN, Ent. Nachr. xix, p. 316.

Myrmeleontidae.

Acanthaclisis felina, E. Africa, GERSTAECKER, p. 118, MT. Ver. Vorpomm. xxv, n. sp.

Cymothales, n. g., near *Glenurus*, p. 127, for *C. mirabilis*, Cameroons, p. 128, *dulcis*, E. Africa, p. 130, n. spp., including also *Myr. eccentros*, Wlk.; GERSTAECKER, t. c.

Formicaleo cerdo, Bengal, p. 132, *irrigatus*, Brazil, p. 133, *ephemerinus*, Brazil, p. 134, *debilis*, Chiriqui, p. 136, *sylphis*, Gaboon, p. 137, GERSTAECKER, t. c., n. spp.

Glenurus (Dendroleon) pupillaris, Yokohama, p. 120, *G. impluviatus*, Bolivia, p. 122, *psilocerus*, Venezuela, p. 124, *luniger*, Chiriqui, p. 125, GERSTAECKER, t. c., n. spp.

Myrmeleon protensus, p. 138, *tendinosus*, p. 139, Brazil, *mysteriosus*, p. 141, *punctatissimus*, p. 142, E. Africa, *lagopus*, Mesopotamia, p. 143, *marginicollis*, p. 145, *inanis*, p. 146, Bengal, *perspicuus*, Chiriqui, p. 147, GERSTAECKER, t. c., n. spp.

Palpare gigas, contrarius, males noticed; GERSTAECKER, pp. 110 & 111, t. c.

P. praetor, Gaboon, p. 111, *solidus*, Mesopotamia, p. 113, *festivus*, Delagoa Bay, p. 115, *digitatus*, Guinea, p. 117, GERSTAECKER, t. c., n. spp.

Ascalaphidae.

Allocormodes intractabilis, ♂ described, GERSTAECKER, p. 100, MT. Ver. Vorpomm. xxv, n. sp.

Colobopterus scutellaris, Peru, *consors*, Chiriqui, GERSTAECKER, p. 109, t. c., n. spp.

Cordulecerus inquinatus, ♂ described, GERSTAECKER, p. 107, t. c., n. sp.

Episperches, n. g., near *Haploglenius*, p. 98, for *E. tenuatus*, *irideus*, n. spp., Amazons, p. 99; GERSTAECKER, t. c.

Haploglenius angulatus, p. 93, *dentiger*, p. 94, Chiriqui, *vacuus*, Honduras, p. 95, *hilaris*, Chiriqui, p. 96, *fervidus*, Brit. Honduras, p. 97, GERSTAECKER, t. c., n. spp.

Helicomitus ctenocerus, Assam, GERSTAECKER, p. 101, t. c., n. sp.

Orphne umbrina, Bolivia, GERSTAECKER, p. 107, t. c., n. sp.

Suphalasca princeps, p. 103, *lugubris*, p. 104, *placida*, Java, *rutila*, Bagamoyo, p. 105, GERSTAECKER, *t. c.*, n. spp.

Mantispidæ and *Nemopteridæ*.

Mantispa morosa, Palawan, p. 149, *strenua*, p. 150, *annulicornis*, p. 151, *amabilis*, p. 152, Java, GERSTAECKER, MT. Ver. Vorpomm. xxv, n. spp.

Nemoptera (Croce) ephemera, Mesopotamia, GERSTAECKER, *t. c.*, n. sp.

Hemerobiidæ and *Osmylidæ*.

Micromus morosus, p. 170, *pusillus*, p. 171, Java, GERSTAECKER, MT. Ver. Vorpomm. xxv, n. spp.

Osmylus pulverulentus, Brazil, p. 166, *diaphanus*, p. 168, *modestus*, p. 169, Java, GERSTAECKER, *t. c.*, n. spp.

Psychopsis zebra, note on ; GERSTAECKER, p. 171, *t. c.*

Chrysopidæ.

Ancylopteryx polygramma, p. 161, *sigillaris*, p. 162, Java, GERSTAECKER, MT. Ver. Vorpomm. xxv, n. spp.

Apochrysa phantomæ, New Guinea, *evanida*, Java, p. 154, *cræsus*, Chiriqui, p. 155, GERSTAECKER, *t. c.*, n. spp.

Chrysopa lineolata, amplified description, p. 232, *guadarramensis*, a valid species, p. 233 ; McLACHLAN, Tr. ent. Soc. London, 1893. *C. flava*, *vittata*, *guadarramensis*, amended characters ; McLACHLAN, Ent. Mag. xxix, p. 109.

C. walkeri, Europe, p. 229, *intima*, Siberia, Japan, p. 230, *nana*, Asia Minor, &c., Tr. ent. Soc. London, 1893 ; *C. pretiosa*, Taurus, p. 158, *catenulata*, Ceylon, *hexasticha*, p. 159, *lunigera*, p. 160, Java, GERSTAECKER, MT. Ver. Vorpomm. xxv : n. spp.

Leucochrysa meteorica, Bolivia, p. 156, *macrostigma*, Gaboon, p. 157, GERSTAECKER, *t. c.*, n. spp.

Nothochrysa polychroa, p. 163, *fervida*, p. 164, Java, *robusta*, p. 165, *olivacea*, p. 166, Yokohama, GERSTAECKER, *t. c.*, n. spp.

PSEUDO-NEUROPTERA.

MALLOPHAGA.

Mode of collecting and preserving, habits, &c. ; BEZZI (67).

TERMITIDÆ and EMBIIDÆ.

[*Cf.* EMERY (267), GRASSI & SANDIAS (393), STOKES (943), WASMANN (1031).]

GRASSI & SANDIAS give an account of the communities of *Calotermes flavicollis* and *Termes lucifugus*, explaining their development, duration of life, division of labour, and the modes of feeding ; also treating of various points in anatomy (393).

Summary of Grassi and Sandias's memoir ; EMERY, Biol. Centralbl. xiii, pp. 758-766.

Termes redemannii, Ceylon, WASMANN, Wien. ent. Zeit. xii, p. 239, n. sp.
Eutermes incola, Ceylon, *capricornis*, p. 242, *sikoræ*, p. 244, Madagascar, WASMANN, Wien. ent. Zeit. xii, n. spp.

Termes flavipes, sense-organs ; STOKES, p. 273, figg., Science, xxii.

Termopsis angusticollis, note on ; TOWNSEND, p. 139, Zoe, iv.

Embia solieri ?, habits, sexual distinctions, mode of spinning, anatomy of tracheal system, nervous system, &c.; GRASSI & SANDIAS (393).

PERLIDÆ and EPHemeridÆ.

Taniopteryx : micropterous forms in Scotland ; MORTON, Ent. Mag. xxix, p. 249.

Prosopistoma deguernei, Senegal, VAYSSIÈRE, Ann. Sci. Nat. xv, p. 338, n. sp.

ODONATA.

[*Cf.* CALVERT (135), GIRARD (384), INGENITZKY (477), KARSCH (508, 512), TRYBOM (990).]

Introduction to the study of *Odonata*, with sketch of the fauna within 20 miles of Philadelphia, consisting of 66 species : for summary of synonymy see p. 269; CALVERT, Tr. Amer. ent. Soc. xx, pp. 152a-272. Preserving the colours of *Odonata* ; STEFANELLI, Bull. Soc. ent. Ital. xxv, pp. 3-11.

Structure of copulatory organs of ♂ ; INGENITZKY, Zool. Anz. xvi, p. 405, woodcut.

Enumeration of species found in W. Africa, with outline figures of many larvæ ; KARSCH, Berlin ent. Zeitschr. xxxviii, pp. 17-48.

The *Odonata* of the Jenisei region discussed ; TRYBOM, Bih. Svenska Ak. xv, No. 4.

Agrion hylas, Jenisei, TRYBOM, p. 12, Bih. Svenska Ak. xv, No. 4, n. sp.

Apatelia, n. g., *Libellulides*, near *Lathrecista*, p. 25, for *A. incongruens*, n. sp., W. Africa ; KARSCH, Berlin. ent. Zeitschr. xxxviii.

Cenagrion sublacteum, W. Africa, KARSCH, p. 40, Berlin. ent. Zeitschr. xxxviii, n. sp.

Chlorocnemis elongata, ♀ described ; KARSCH, p. 36, Berlin. ent. Zeitschr. xxxviii.

C. nubilipennis, W. Africa, KARSCH, p. 37, Berlin. ent. Zeitschr. xxxviii, n. sp.

Heliaeschna fuliginosa, description ; KARSCH, p. 194, Ent. Nachr. xix.

Libellago luminosa, p. 33, *decorata*, p. 34, W. Africa, KARSCH, Berlin. ent. Zeitschr. xxxviii, n. spp.

Onychogomphus hageni, note on ; BOLIVAR, p. 476, Rev. biol. Nord France, v. *O. genei* and *hagenii*, redescribed with notes on other Portuguese *Odonata* ; GIRARD, Rev. Soc. Ribeiro, ii, No. 5, pp. 26-45.

- Pseudagrion emarginatum*, W. Africa, KARSCH, p. 39, Berlin. ent. Zeitschr. xxxviii, n. sp.
- Pseudomacromia luxuriosa*, Java, KARSCH, p. 21, Berlin. ent. Zeitschr. xxxviii, n. sp.
- Somatochlora sibirica*, p. 5, *sahlbergi*, p. 7, *S. ? theeli*, p. 8, Jenisei region, TRYBOM, Bih. Svenska Ak. xv, No. 4, n. spp.
- Sympetrum luminans*, W. Africa, KARSCH, p. 22, Berlin. ent. Zeitschr. xxxviii, n. sp.
- Trithemis dichroa*, W. Africa, KARSCH, p. 25, Berlin. ent. Zeitschr. xxxviii, n. sp.

THYSANOPTERA.

- Thysanoptera* in hothouses in Finland ; REUTER, Medd. Soc. Faun. Fenn. xvii, pp. 161-167.
- Heliothrips femoralis*, hothouse in Finland, REUTER, p. 166, Medd. Soc. Faun. Fenn. xvii, n. sp.
- Notes on Hungarian species ; JABLONOWSKI, Potfuz. Termes. Kozl. xxii, pp. 17-24.

APTERA.

THYSANURA and COLEMBOLA.

[*Cf. GADEAU DE KERVILLE* (354), HARVEY (431, 432), KARSCH (508), MACGILLIVRAY (607), MONIEZ (642), PARONA (699), REUTER (771), SCHOTT (854, 855).]

Thysanura.

- Campodea dargilani*, grotto in Lozère, MONIEZ, Rev. biol. Nord France, vi, p. 81, n. sp.
- Japyx africanus*, W. Africa, KARSON, p. 16, Berlin. ent. Zeitschr. xxxviii ; *J. oudemansi*, Birma, PARONA, p. 128, pl. i, figg. 5 & 6, Atti Soc. Ital. xxxiv ; *J. americanus*, Washington, MACGILLIVRAY, p. 174, Canad. Ent. xxv : n. spp.
- Lepisma burmanica*, Birma, PARONA, p. 124, pl. i, figg. 1-3, Atti Soc. Ital. xxxiv, n. sp.
- Machilis*, fossil, see Palaeoentomology, p. 87.

Collembola.

- Collembola*, found in hothouses ; REUTER, Medd. Soc. Faun. Fenn. xvii, pp. 17-28.
- Achorutes longispinus*, New Mexico, MACGILLIVRAY, p. 315, Canad. Ent. xxv ; *A. brevispinus*, N. America, HARVEY, p. 182, fig., p. 184, Ent. News, 1893 : n. spp.
- Anoura magna*, Ohio, MACGILLIVRAY, p. 128, Canad. Ent. xxv, n. sp.
- Aphoromma*, n. g., type *Anoura granaria*, Nic. ; MACGILLIVRAY, p. 314, Canad. Ent. xxv.
- Aphorura*, n. g., to replace *Lipura*, Burm. ; MACGILLIVRAY, p. 313, Canad. Ent. xxv.

- ¹ *Bourletia*, n. g., type *Anurophorus laricis*; Nic.; MACGILLIVRAY, p. 313, Canad. Ent. xxv.
- ² *Brachysius*, n. g., for *B. dilatatus*, n. sp., New York; MACGILLIVRAY, p. 317, Canad. Ent. xxv.
- ³ *Drepanura*, n. g., near *Entomobrya*, for *D. californica*, n. sp., pl. iv, figg. 2-5; SCHOTT, p. 19, Bih. Svenska Ak. xvii, No. 8.
- Entomobrya annulata*, in nest of *Fringilla cælebs*; MONIEZ, Rev. biol. Nord France, v, p. 491.
- E. spectabilis*, hothouse in Berlin, REUTER, p. 25, Medd. Soc. Faun. Fenn. xvii; *E. lineata*, p. 132, pl. i, figg. 13 & 14, *fæc*, p. 134, figg. 15 & 16, Birma, PARONA, Atti Soc. Ital. xxxiv : n. spp.
- ⁴ *Gnathocephalus*, n. g., for *G. complexus*, n. sp., Washington; MACGILLIVRAY, p. 318, Canad. Ent. xxv.
- Izotoma crassicornis*, Sumatra, SCHOTT, p. 172, pl. ii, figg. 8-10, Ent. Tidskr. 1893, n. sp.
- Lepidocyrtus pallidus*, p. 24, *assimilis*, p. 25, hothouses in Berlin, REUTER, Medd. Soc. Faun. Fenn. xvii, n. spp.
- Lipura cirrigera*, grotto in Lozère, MONIEZ, p. 85, Rev. biol. Nord France, vi, n. sp.
- ¹ *Oudemansia*, n. g., *Lipuridae*, p. 173, for *O. cœrulea*, n. sp., Thousand Is., p. 174, pl. ii, figg. 1-7; SCHOTT, Ent. Tidskr. 1893.
- ¹ *Neanura*, n. g., to replace *Anoura*, Gerv.; MACGILLIVRAY, p. 314, Canad. Ent. xxv.
- Podura granulata*, Tennessee, MACGILLIVRAY, p. 316, Canad. Ent. xxv, n. sp.
- Papirius rufescens*, hothouse in Berlin, REUTER, p. 22, Medd. Soc. Faun. Fenn. xvii; *P. maculosus*, California, SCHOTT, p. 14, Bih. Svenska Ak. xvii, No. 8; *P. unicolor*, N. America, HARVEY, p. 65, pl. iv, Ent. News, 1893 : n. spp.
- Schoturus*, n. g., type *Podura nivicola*, Fitch; MACGILLIVRAY, p. 316, Canad. Ent. xxv.
- Sira cavernarum*, grotto in Lozère, MONIEZ, p. 84, Rev. biol. Nord France, vi; *S. plumicornis*, Birma, PARONA, p. 130, pl. i, figg. 7-11, Atti Soc. Ital. xxxiv; *S. purpurea*, California, SCHOTT, p. 17, pl. iv, fig. 1, Bih. Svenska Ak. xvii : n. spp.
- Smynthurus spinatus*, *floridanus*, N. America, MACGILLIVRAY, p. 127, Canad. Ent. xxv; *S. eisenii*, p. 7, pl. i, figg. 1-6, *plicatus*, p. 13, pl. ii, figg. 2-5, California, SCHOTT, Bih. Svenska Ak. xvii, No. 8 : n. spp.

(G.) *ORTHOPTERA.*

[*Cf.* AZAM (33), BLATCHLEY (78, 79, 80), BOLIVAR (84-88), BORMANS (390), BRANCSIK (100, 101), BRONNIART (111), BRUNER (114, 115, 789), BRUNNER (116, 117), COTES (202, 205), DISTANT (238), DUBOIS (248), FINOT (312, 313), GIGLIO-TOS (381), GRIFFINI (396 to 400), HEYMONS (441), KARSCH (508, 513, 514), KRAUSS (556), LESTAGE (581), MORSE (656), PEYTOUREAU (704, 705), RILEY (792), SAUSSURE (390, 837, 838, 839), SCHÄFF (840), SCUDDER (865), TEPPER (958), VISART (1013), VOSSELER (1015), WHEELER (1049).]

Embryology of *Orthoptera* as exemplified in *Xiphidium ensiferum*; WHEELER (1049).

FORFICULIDÆ.

Anatomy and histology of alimentary canal; VISART (1013).

- Podoscirtus modestus*, Grenada, BRUNNER, p. 610, P. Zool. Soc. London, 1893, n. sp.
- Prosecogryllus*, n. g., near *Homœogryllus*, for *P. nossibianus*, n. sp., Madagascar, p. 198, pl. x, fig. 10, BRANCSIK, Jahresh. Ver. Trencsen. xv.
- Scleropterus punctatus*, Birma, BRUNNER, p. 204, pl. vi, fig. 73, Ann. Mus. Genova (2) xiii, n. sp.
- Xya inflata*, Birma, BRUNNER, p. 195, Ann. Mus. Genova (2) xiii, n. sp.

LOCUSTIDÆ.

Revision of the classification ; BRUNNER, Ann. Mus. Genova (2) xiii, pp. 164, *et seq.*

The *Locustidæ* of Indiana described ; BLATCHLEY (79).

Aerometopa festæ, Lebanon, GIGLIO-TOS, p. 13, pl., fig. 3, Boll. Mus. Torino, viii, No. 164, n. sp.

Æthiomerus adelphus, ♀ described ; GRIFFINI, Boll. Mus. Torino, viii, No. 144.

Amuria, n. g. *Decticides*, for a species from Amurland ; BRUNNER, p. 185, Ann. Mus. Genova (2) xiii.

Analota apenninigena, characters noticed ; AZAM, p. 194, Ann. Soc. ent. France, 1893.

Anaulacomera antillarum, Grenada, BRUNNER, p. 607, P. Zool. Soc. London, 1893 ; *A. darwinii*, Galapagos Is., SCUDDER, p. 19, pl. iii, figg. 1, 4, & 5, Bull. Mus. Harvard, xxv : n. spp.

Anepitacta contaminata, p. 132, *egestosa*, *aliquantula*, p. 133, W. Africa, KARSCH, Berlin. ent. Zeitschr. xxxviii, n. spp.

Arantia incerata, W. Africa, KARSCH, p. 128, Berlin. ent. Zeitschr. xxxviii, n. sp.

Brachopeplus reticulatus, habitat and systematic position discussed ; BRUNNER, p. 176, Ann. Mus. Genova (2) xiii.

Cædicia apicalis, W. Africa, BOLIVAR, p. 177, Ann. Soc. ent. France, 1893, n. sp.

Calliphona alluaudi, Canaries, BOLIVAR, p. 50, Act. Soc. Espan. xxii, n. sp.

Cestromæcha, n. g., for *Poreuomena tenuipes*, KARSCH, p. 128, Berlin. ent. Zeitschr. xxxviii.

⁴ *Clasma*, n. g. *Conocephalides*, p. 139, for *C. parcispinosa*, n. sp., W. Africa, p. 140 ; KARSCH, Berlin. ent. Zeitschr. xxxviii.

Cleandrus rex, Birma, BRUNNER, p. 172, Ann. Mus. Genova (2) xiii, n. sp.

Conocephalus palustris, Indiana, BLATCHLEY, p. 89, Canad. Ent. xxv ; *C. insulanus*, Galapagos Is., SCUDDER, p. 21, pl. iii, figg. 2 & 3, Bull. Mus. Harvard, xxv : n. spp.

Ctenodecticus vasarensis, N. Africa, FINOT, p. celi, Bull. Soc. ent. France, 1893 ; *C. festæ*, Lake Tiberias, GIGLIO-TOS, p. 15, pl., fig. 6, Boll. Mus. Torino, viii, No. 164 : n. spp.

- Dolichopoda azami*, note on habits and characters ; AZAM, p. 197, Ann. Soc. ent. France, 1893.
- Ectadia fulva, abbreviata*, pl. v, fig. 58, Birma, BRUNNER, p. 167, Ann. Mus. Genova (2) xiii, n. spp.
- Engoniaspis*, n. g., *Decticides*, for an unnamed N. American species ; BRUNNER, p. 185, Ann. Mus. Genova (2) xiii.
- Ephippigera terrestris*, ♂ character ; AZAM, p. 196, Ann. Soc. ent. France, 1893.
- E. borellii*, Piedmont, GRIFFINI, Boll. Mus. Torino, viii, No. 138 ; *E. vosseleri*, Algeria, KRAUSS, p. xcvi, Jahresh. Ver. Wurttemb. 1893 : n. spp.
- Eremus nitidus*, W. Africa, KARSCH, p. 144, Berlin. ent. Zeitschr. xxxviii ; *E. nigrosignatus*, Birma, BRUNNER, p. 191, Ann. Mus. Genova (2) xiii ; *E. camerani*, Australia, GRIFFINI, Boll. Mus. Torino, viii, No. 154 : n. spp.
- Eugaster guyoni*, habits ; VOSSELER, Jahresh. Ver. Wurttemb. 1893, p. xciv : n. varr. *lucasi, inornata*, KRAUSS, p. xvi, t. c.
- Eurycorypha velicauda*, W. Africa, KARSCH, p. 131, Berlin. ent. Zeitschr. xxxviii ; *E. brunneri*, Madagascar, BRANCSIK, p. 197, pl. iv, fig. 4, Jahresh. Ver. Trencsen. xv : n. spp.
- Gryllacris rabida*, W. Africa, KARSCH, p. 144, Berlin. ent. Zeitschr. xxxviii ; *G. brevixipha, nobilis*, Birma, BRUNNER, p. 190, Ann. Mus. Genova (2) xiii : n. spp.
- Hemigyrus*, n. g., near *Phyllocerus*, for *H. amplius*, n. sp., Birma, pl. vi, fig. 61 ; BRUNNER, p. 175, Ann. Mus. Genova (2) xiii.
- Holochlora geniculata*, p. 169, *nigro-spinulosa*, p. 170, Birma, BRUNNER, Ann. Mus. Genova (2) xiii, n. spp.
- Hoplidostylus*, n. g., *Pseudophyllides*, for *H. argillatus*, n. sp., W. Africa, KARSCH, p. 138, Berlin. ent. Zeitschr. xxxviii.
- Isophya savignyi*, ♀ described ; BOLIVAR, p. 487, Rev. biol. Nord France, v. *I. festae*, Palestine, GRIFFINI, Boll. Mus. Torino, viii, No. 157, n. sp.
- Leptophyes festae*, Lebanon, GIGLIO-TOS, p. 12, pl., fig. 5, Boll. Mus. Torino, viii, No. 164, n. sp.
- Locusta* : characters of the European species ; BOLIVAR, pp. 22-26, Act. Soc. Espan. xxii.
- L. hispanica*, Guadarrama, p. 24, *maroccana*, Tangier, *algerica*, Argelia (sic), p. 25, BOLIVAR, Act. Soc. Espan. xxii, n. spp.
- Macroscyrtus bicolor*, W. Africa, BOLIVAR, p. 178, Ann. Soc. ent. France, 1893, n. sp.
- Morgenia melica*, Cameroons, KARSCH, p. 196, Ent. Nachr. xix, n. sp.
- Nesecia*, n. g., *Pseudophyllinae*, for *Agracia cooksoni*, Butl., figured, pl. iii, figg. 9 & 10 ; SCUDDER, p. 20, Bull. Mus. Harvard, xxv.
- Odontura terniensis*, Algeria, FINOT, p. xxx, Bull. Soc. ent. France, 1893 ; *O. quadridentata*, Algeria, KRAUSS, p. xvi, Jahresh. Ver. Würtemb. 1893 : n. spp.
- Orchelimum indianense*, p. 90, *campestre*, p. 91, *bruneri*, p. 92, Indiana, BLATCHLEY, Canad. Ent. xxv, n. spp.

- Pachypyga*, n. g., *Phaneropterides*, p. 124, for *P. inclusa*, n. sp., W. Africa, p. 125; KARSCH, Berlin. ent. Zeitschr. xxxviii.
- Pachysaga*, n. g., *Sagides*, for a species from Lord Howe I.; BRUNNER, p. 183, Ann. Mus. Genova (2) xiii.
- Paroxya atlantica*, melanistic variety; MORSE, p. 401, Psyche, vi.
- Phanerotus*, n. g., near *Temera*, for *P. opacus*, n. sp., Tenasserim, pl. vi, fig. 63; BRUNNER, p. 178, Ann. Mus. Genova (2) xiii.
- Phyllocoreia fenestrata*, figured; WHITEHEAD, Kina Balu, pl., p. 50.
- Phyllozelus infumatus*, Birma, BRUNNER, p. 174, Ann. Mus. Genova (2) xiii, n. sp.
- Pyrrhicia brevicaudata*, Birma, BRUNNER, p. 168, Ann. Mus. Genova (2) xiii, n. sp.
- Plangia venata*, Madagascar, GRIFFINI, Boll. Mus. Torino, viii, No. 144, n. sp.
- Platycleis senica, kabyla*, N. Africa, FINOT, p. celi, Bull. Soc. ent. France, 1893, n. spp.
- Polyglochin subulo*, Cameroons, KARSCH, p. 198, Ent. Nachr. xix, n. sp.
- Pterolepis indigena*, Algeria, FINOT, p. ccl, Bull. Soc. ent. France, 1893, n. sp.
- Rhaphidophora crenulata*, Birma, BRUNNER, p. 192, Ann. Mus. Genova (2) xiii, n. sp.
- Stenopelmatus calcaratus, lessonae*, Mexico, GRIFFINI, Boll. Mus. Torino, viii, No. 154, n. spp.
- Sthenaropoda austera*, W. Africa, KARSCH, p. 134, Berlin. ent. Zeitschr. xxxviii, n. sp.
- Tarphe immunis*, Bhamo, BRUNNER, p. 177, pl. vi, fig. 62, Ann. Mus. Genova (2) xiii, n. sp.
- Tellidia*, n. g., near *Polichne*, p. 177, for *T. longipes*, n. sp., W. Africa, p. 178, BOLIVAR, Ann. Soc. ent. France, 1893.
- Terpandrulus*, n. g., *Sagides*, for species unnamed; BRUNNER, p. 183, Ann. Mus. Genova (2) xiii.
- Thyreonotus pachymerus*, its song; DAVIS, p. 108, Canad. Ent. xxv.
- Tropizaspis*, n. g., *Decticides*, for an unnamed N. American species; BRUNNER, p. 187, Ann. Mus. Genova (2) xiii.
- Tylopsis irregularis*, W. Africa, KARSCH, p. 130, Berlin. ent. Zeitschr. xxxviii, n. sp.
- Tympanophoridae*: characters of the group, *Xiphosaga* referred to it; BRUNNER, p. 182, Ann. Mus. Genova (2) xiii.
- Xiphidium brevicercus, armatipes*, W. Africa, KARSCH, p. 142, Berlin. ent. Zeitschr. xxxviii, n. sp.

ACRIDIIDÆ.

Classification revised and the characters of the genera tabulated, BRUNNER, Ann. Mus. Genova (2) xiii, pp. 102 *et seq.*
Locusts of India discussed; COTES (202).

- Descriptions and figures of the destructive *Acridiidæ* of North America ; BRUNER, Bull. Dep. Agric. Ent. xxviii.
- Acrida thrymmatoptera*, W. Africa, KARSCH, pp. 55 & 57, Berlin. ent. Zeitschr. xxxviii, n. sp.
- Acridella*, n. subg. of *Tryxalis*, q.v.; BOLIVAR, Feuille Natural. xxiii, p. 163.
- Acridium peregrinum*, metamorphoses described and figured, its periods in Algeria discussed ; LESTAGE (581). *A. paranense* and *cancellatum* one species, notes on ; REED, P. ent. Soc. London, 1893, pp. xxi-xxiii.
- A. radama*, p. 191, *schistocercoides*, p. 192, pl. xii, fig. 2, Madagascar, BRANCSIK, Jahresh. Ver. Trencsen. xv, n. spp.
- Acrotylus errabundus*, Algeria, FINOT, p. xxx, Bull. Soc. ent. France, 1893 ; *A. mossambicus*, p. 187, pl. ix, fig. 3, *ocellatus*, pl. x, fig. 16, *variegatus*, p. 188, *cabaceira*, E. Africa, *multispinosus*, Madagascar, p. 189, BRANCSIK, Jahresh. Ver. Trencsen. xv : n. spp.
- Aidemona*, n. g., for part of *Pezotettix* ; BRUNNER, p. 145, Ann. Mus. Genova (2) xiii.
- Alpha*, n. g., *Tryxalides* for *Stenobothrus occipitalis*, Thomas, &c.; BRUNNER, p. 121, Ann. Mus. Genova (2) xiii.
- Amesotropis*, n. g., near *Ochrilidia*, p. 66, for *A. valga*, n. sp., W. Africa, p. 67 ; KARSCH, Berlin. ent. Zeitschr. xxxviii.
- Amorphopus simplex*, Madagascar ; BRANCSIK, p. 185, pl. xii, fig. 8, Jahresh. Ver. Trencsen. xv.
- Azelota*, n. g., *Acridiidæ*, for some unnamed species from Australia ; BRUNNER, p. 141, Ann. Mus. Genova (2) xiii.
- Beta*, n. g., *Tryxalides*, for some unnamed species from N. America ; BRUNNER, p. 121, Ann. Mus. Genova (2) xiii.
- Birmania*, n. g., *Tettigidae*, p. 113, for *B. gracilis*, n. sp., Bhamo, pl. v, fig. 47, p. 114 ; BRUNNER, Ann. Mus. Genova (2) xiii.
- Caloptenides* : to be used instead of *Acridiidæ* ; KARSCH, p. 85, Berlin. ent. Zeitschr. xxxviii.
- Caloptenus festæ*, p. 8, *cælesyriensis*, *sacer*, p. 10, Palestine, GIGLIO-TOS, Boll. Mus. Torino, viii, No. 164 ; *C. mossambicus*, E. Africa, p. 194, pl. xii, fig. 4, *baliensis*, Madagascar, p. 195, fig. 5, BRANCSIK, Jahresh. Ver. Trencsen. xv : n. spp.
- Carsula ? tenera*, Birma, BRUNNER, p. 157, pl. v, p. 53, Ann. Mus. Genova (2) xiii, n. sp.
- Caryanda sanguineo-annulata*, Pegù, BRUNNER, p. 154, Ann. Mus. Genova (2) xiii, n. sp.
- Catantops præmonstrator*, p. 95, *modicus*, p. 96, *mellitus*, p. 97, *asthmaticus*, p. 98, *villosus*, p. 99, *nudulus*, *taniolatus*, p. 100, *comis*, p. 101, W. Africa, KARSCH, Berlin. ent. Zeitschr. xxxviii ; *C. sacalava*, Madagascar, BRANCSIK, p. 193, pl. xii, fig. 3, Jahresh. Ver. Trencsen. xv : n. spp.
- Charagotettix*, n. g., *Tettigidae* for *C. lucubensis*, n. sp., Madagascar ; BRANCSIK, p. 184, pl. x, fig. 13, Jahresh. Ver. Trencsen. xv.

- ¹*Chirista*, n. g., *Truxalides*, p. 75, for *C. virgata*, *flavolineata*, p. 77, *manca*, p. 78, n. spp., W. Africa, and including *Gymnobothis varians*, Karsch; KARSCH, Berlin. ent. Zeitschr. xxxviii.
- ¹*Chlorizeina*, n. g., p. 130, near *Rubellia* for *C. unicolor*, n. sp., Birma, p. 131, pl. v, fig. 51; BRUNNER, Ann. Mus. Genova (2) xiii.
- ¹*Chortocetes*, n. g., *Tryxalides*, for some unnamed species; BRUNNER, p. 123, Ann. Mus. Genova (2) xiii.
- ¹*Chrostheipus*, n. n., to replace *Apomala*, Stål nec Serv.; BRUNNER, p. 137, Ann. Mus. Genova (2) xiii.
- ¹*Closteridea*, n. g., *Truxalinae* for *C. bauri*, n. sp., Galapagos Is., pl. i, figg. 4 & 5; SCUDDER, p. 9, Bull. Mus. Harvard, xxv.
- ¹*Coloradella*, n. g., *Tryxalides*, for some unnamed N. American species; BRUNNER, p. 123, Ann. Mus. Genova (2) xiii.
- Coptacra anguliflava*, W. Africa, KARSCH, Berlin. ent. Zeitschr. xxxviii, n. sp.
- Coptotettix lutifrons*, pl. v, fig. 44, *acuteterminatus*, Birma, BRUNNER, p. 112, Ann. Mus. Genova (2) xiii, n. spp.
- ¹*Coryphosima*, n. g., *Truxalides*, for *C. brevicornis*, n. sp., W. Africa, KARSCH, p. 72, Berlin. ent. Zeitschr. xxxviii.
- ¹*Cymochtha*, n. g., p. 68, *Truxalides*, for *C. nigricornis*, n. sp., W. Africa, p. 69; KARSCH, Berlin. ent. Zeitschr. xxxviii.
- Cyrtacanthaeris scrobiculatus*, W. Africa, KARSCH, p. 89, Berlin. ent. Zeitschr. xxxviii, n. sp.
- Demodocus amphiprosopus*, W. Africa, KARSCH, p. 107, Berlin. ent. Zeitschr. xxxviii, n. sp.
- ¹*Dendrotettix*, n. g., near *Caloptenus*, p. 254, for *D. longipennis*, Texas, n. sp., p. 255; RILEY, Insect Life, v.
- ¹*Desmopleura*, n. g., near *Aptenopedes*, for *D. concinna*, n. sp., Galapagos Is., pl. ii, figg. 2 & 4; SCUDDER, p. 19, Bull. Mus. Harvard, xxv.
- Dracotettix plutonius*, California, BRUNER, p. 267, North Amer. Fauna, vii, n. sp.
- Duronia versicolor*, *deflorata*, Birma, BRUNNER, p. 126, Ann. Mus. Genova (2) xiii, n. spp.
- Egnatius caeruleans*, Algeria, KRAUSS, p. xciv, Jahresh. Ver. Wurttemb. 1893, n. sp.
- Encoptolophus pallidus*, California, BRUNER, p. 266, North Amer. Fauna, vii, n. sp.
- ¹*Epeisactus*, n. g., *Mastacides*, for an unnamed species from Guatemala; BRUNNER, p. 115, Ann. Mus. Genova (2) xiii.
- Epistaurus aberrans*, Bhamd, BRUNNER, p. 160, pl. v, fig. 55, Ann. Mus. Genova (2) xiii, n. sp.
- Eremocharis syriaca*, Palmyra, BOLIVAR, p. 483, Rev. biol. Nord France, v, n. sp.
- Erianthus defloratus*, p. 116, *acute carinatus*, p. 117, pl. v, fig. 48, Birma, BRUNNER, Ann. Mus. Genova (2) xiii, n. spp.
- Euprepocnemis nobilis*, Madagascar, p. 195, pl. xi, fig. 10, *phronusa*, Mozambique, p. 196, pl. xii, fig. 6, BRANCSIK, Jahresh. Ver. Trencsen. xv, n. spp.

- Euryphymus calcaratus*, p. 103, *marginipecten*, p. 104, W. Africa, KARSCH, Berlin. ent. Zeitschr. xxxviii, n. spp.
- Euthymia polychroma*, Madagascar, BRANCSIK, p. 190, pl. xi, fig. 2, Jahresh. Ver. Trencsen. xv, n. sp.
- Exarna*, n. g., *Acriidiides*, for an unnamed species from Queensland; BRUNNER, p. 141, Ann. Mus. Genova (2) xiii.
- Fenestra*, n. g., *Tryxalides*, for an unnamed species from Buenos Aires; BRUNNER, p. 120, Ann. Mus. Genova (2) xiii.
- Gavialidium birmanicum*, Birma, BRUNNER, p. 104, pl. v, fig. 37, Ann. Mus. Genova (2) xiii, n. sp.
- Gelastorhinus*, n. g., group *Mesopes*, p. 157, for *G. albolineatus*, n. sp., Birma, p. 158, pl. v, fig. 54; BRUNNER, Ann. Mus. Genova (2) xiii.
- Gerenia intermedia*, p. 161, pl. v, fig. 56, *abbreviata*, p. 162, Birma, BRUNNER, Ann. Mus. Genova (2) xiii, n. spp.
- Gomphocerus livoni*, Hautes Alpes, AZAM, p. 190, Ann. Soc. ent. France, 1893, n. sp.
- Halmenus*, n. g., near *Pezotettix*, p. 17, for *H. robustus*, n. sp., Galapagos Is., p. 18, pl. i, figg. 6 & 7; SCUDDER, Bull. Mus. Harvard, xxv.
- Hieroglyphus citrino-limbatus*, Bhamò, BRUNNER, p. 154, Ann. Mus. Genova (2) xiii, n. sp.
- Hypochlora*, n. g., for *Pezotettix acutipennis* and *speciosa*, Scudd.; BRUNNER, p. 145, Ann. Mus. Genova (2) xiii.
- Machaeridia bitonata*, ♂ and varr. described; KARSCH, p. 60, Berlin. ent. Zeitschr. xxxviii.
- Macrotona*, n. g., *Acriidiides*, for some unnamed species from New Holland; BRUNNER, p. 142, Ann. Mus. Genova (2) xiii.
- Mazarredia inaequalis*, p. 106, pl. v, fig. 39, *convergens*, fig. 40, p. 107, *lateralis*, fig. 41, p. 108; Birma, BRUNNER, Ann. Mus. Genova (2) xiii, n. spp.
- Mesambria ferrugata*, Madagascar, BRANCSIK, p. 191, Jahresh. Ver. Trencsen. xv, n. sp.
- Mestra notata*, Birma, BRUNNER, p. 130, pl. v, fig. 50, Ann. Mus. Genova (2) xiii, n. sp.
- Metalepta*, n. g., for the American species of *Tryxalis*; BRUNNER, p. 118, Ann. Mus. Genova (2) xiii.
- Metaxymecus*, n. g., p. 104, near *Euprepocnemis*, for *M. patagiatus*, n. sp., W. Africa, p. 105; KARSCH, Berlin. ent. Zeitschr. xxxviii.
- Ocnocerus diabolicus*, *sulcatus*, W. Africa, KARSCH, p. 64, Berlin. ent. Zeitschr. xxxviii, n. spp.
- Orthochtha brachycnemis*, W. Africa, KARSCH, p. 62, Berlin. ent. Zeitschr. xxxviii, n. sp.
- Oxya vicina*, p. 152, E. Asia, *rufipes*, p. 153, Asia and Malasia, BRUNNER, Ann. Mus. Genova (2) xiii, n. spp.
- Oxyolena*, n. g., *Truxalides*, for *O. mucronata*, n. sp., W. Africa, pp. 58 & 57; KARSCH, Berlin. ent. Zeitschr. xxxviii.
- Pamphagus muelleri*, Algeria, KRAUSS, p. xcv, Jahresh. Ver. Wurttemb. 1893; *P. bethlehemitæ*, Syria, BOLIVAR, p. 484, Rev. biol. Nord France, v : n. spp.

- Pantelia armata*, W. Africa, BOLIVAR, p. 176, Ann. Soc. ent. France, 1893, n. sp.
- ^ *Paraidemona*, n. g., for *Pezotettix punctatus* and *pilosus*, Stål; BRUNNER, p. 145, Ann. Mus. Genova (2) xiii.
- ^ *Paraeuprepocnemis*, n. g., near *Euprepocnemis*, for some unnamed species from the East; BRUNNER, p. 151, Ann. Mus. Genova (2) xiii.
- ^ *Parudichroplus*, n. g., for some species of *Pezotettix*; BRUNNER, p. 145, Ann. Mus. Genova (2) xiii.
- Parapleurus fasciatus*, Birma, BRUNNER, p. 127, Ann. Mus. Genova (2) xiii, n. sp.
- Paratettix durus*, W. Africa, KARSCH, p. 119, Berlin. ent. Zeitschr. xxxviii; *P. interruptus*, p. 109, *hirsutus*, pl. v, fig. 43, *semihirsutus*, p. 110, Birma, BRUNNER, Ann. Mus. Genova (2) xiii : n. spp.
- ^ *Paratylotropidia*, n. g., near *Pezotettix*, for an unnamed insect from Texas; BRUNNER, p. 147, Ann. Mus. Genova (2) xiii.
- Penichrotes leptotes*, Madagascar, BRANCSIK, p. 186, pl. xii, fig. 1, Jahresh. Ver. Trencsen. xv, n. sp.
- ^ *Phaulacridium*, n. g., *Acridiides*, for some unnamed species from Australia; BRUNNER, pp. 151 & 216, Ann. Mus. Genova (2) xiii.

INTRODUCTION.

I. TITLES.—The total of 288 includes 54 from literature published before 1892, 102 from publications of 1892,* and 134 representing the work of 1893. The list is still incomplete, since many publications anterior to 1894, and known to contain Echinoderm literature, had not arrived at any library in London so late as September, 1894.

Under each title, references have been given to all Abstracts and Reviews of any importance that were known to the Recorder. References are also given to all Abstracts and Reviews of Echinoderm literature that were published in 1893. Such references are under the names of the authors of the papers reviewed, but are not numbered in the series.

Most of the titles are followed by certain figures in square brackets. These refer to the various divisions of the Subject- and Systematic Indices. For instance, under title (6) the following—[II, B, ii, a : D, ii; iv : F, iv, b. III, A. IV, D.] informs the reader that references

* The Record for 1892 was admittedly incomplete.

to this paper will be found first in Division II.—Biology, Subheading—Morphology, ii subject—variation, a, special case—in form ; then under Subheading—Bionomics, subjects, ii—special habits, and iv—feeding; next under Subheading—Auxology, iv—Asteroidea, b—brephic stages. Secondly, in Division III.—Distribution, Subheading A—Geographical. Thirdly, in Division IV.—Systematic, Subheading D—Asteroidea. Thus the contents of a paper can easily be discovered. References to the systematic index are only given when new genera and species are described or alterations made in nomenclature.

II. BIOLOGY.—The Index under this head is as complete as lies in the Recorder's power. For example : it is believed that every case of deviation from the normal symmetry mentioned in this mass of literature will be found indexed on pp. 35, 36. Other modes of variation have been as carefully attended to, and the same principle has governed all the rest of the index.

The Section F, which in previous Records bore the subheading EMBRYOLOGY, now includes all phases of the Life-history, from the first formation of the gonads to the death of the individual. It is therefore necessary to adopt for its subheading the previously proposed term AUXOLOGY.

III. DISTRIBUTION.—In the Geographical Index the order is from N. to S. down the Atlantic, then round Australia, northwards through the Malay Archipelago and adjacent seas, and then from S. to N. up the Pacific.

IV. SYSTEMATIC.—This Index is complete, with certain exceptions noted in List of Titles. Reference to this Index, in combination with the cross-references to other sections given under Titles, will put the student on the track of everything said about any particular species in all the 288 papers here recorded.

This Index contains 316 new species, distributed as follows :—*Holothuroidea*, 27 ; *Echinoidea*, 124 ; *Asteroidea*, 38 ; *Ophiuroidea*, 9 ; *Crinoidea*, 106 ; *Cystidea*, 4 ; *Blastoidea*, 8. There are also many new genera and new varieties, and, especially among Holothurians, an appalling number of *nomina nuda*.

A very large proportion of the new species of *Echinoidea* come from the Cretaceous and Tertiary rocks of France, while the bulk of the new species of *Crinoidea* are, as usual, furnished by the Carboniferous rocks of North America.

This list of new species is most probably imperfect; but those authors, at any rate, have no right to complain who either decline to indicate which of their species are new (*e.g.*, British Museum Catalogues), or obscure the fact by affixing to the name of the species their own name or that of a friend, often with a wrong date (*e.g.*, many French writers), or who describe species as “n. sp.” which have already been described months before (*e.g.*, Dr. Hartlaub). On this point read what the Recorder for *Insecta* says on his page 3.

Throughout the record, the Recorder has merely taken facts and names

as he found them, without expressing an opinion as to their validity; he has, however, done his best to discover and quote the published opinions of others. The few remarks within square brackets are inserted to prevent confusion, and are the only evidences of personality that the Recorder has permitted himself.

I.—TITLES.*

1. AGASSIZ, A. Three letters . . . to the Hon. Marshall McDonald . . . on the Dredging Operations off the West Coast of Central America to the Galapagos, to the West Coast of Mexico, and in the Gulf of California, in charge of Alexander Agassiz, carried on by the U. S. Fish Commission steamer "Albatross," Lieut. Commander Z. L. Tanner, U.S.N., commanding. Bull. Mus. Harvard, xxi, pp. 185-200 (1891).
French Translation by E. L. BOUVIER, Ann. Sci. Nat. xii, pp. 319-341 (April, 1892).
This is practically a preliminary notice of (3).
2. —. *Calamocrinus diomedae*, a new stalked Crinoid, with notes on the Apical System and the Homologies of Echinoderms (being No. 1 of Reports on an exploration . . . by the U. S. . . ss. "Albatross," during 1891 . . .). Mem. Mus. Harvard, xvii, No. 2, 95 pp., 32 pls. (Jan. 1892). [II, B, i, a, 2, 3, 5; c, 2, 8; d, 7; f, 1, 2, 3 : F, vi, c.]
For preliminary notice, see AGASSIZ, Zool. Rec. 1891. Abstracts, J. R. Micr. Soc. 1892, p. 377; by O. JAEKEL, N. Jahrb. Min. 1893, i, pp. 562 & 563; in LUDWIG (158).
3. —. Reports on the Dredging Operations off the West Coast of Central America to the Galapagos, to the West Coast of Mexico, and in the Gulf of California, . . . steamer "Albatross," &c. II. General Sketch of the expedition of the "Albatross," from February to May, 1891. Bull. Mus. Harvard, xxiii, No. 1, 89 pp., 22 pls. (Feb. 1892). [II, D, v, c, 3. III, A, i ; iii.]
4. AGUILERA, J. G. [& ORDOÑEZ, E.] Datos para la geología de México. Tacubaya : 1893, 8vo, 87 pp. The stratigraphic part by AGUILERA only. [III, B, ii ; iii. IV, C, F.]
5. ALCOCK, A. Natural History Notes from H.M. Indian Marine Survey steamer, "Investigator," . . . Series ii, No. 9. An account of the Deep-Sea Collection made during the season of 1892-93. J. Asiat. Soc. Bengal, lxii, pp. 169-184, pls. viii & ix (1893). [III, A, iii. IV, C, D, E.]

* An asterisk prefixed to a quotation indicates that the Recorder has not seen the Journal or Work referred to.

6. [ALCOCK, A.] Natural History Notes from H.M. Indian Marine Survey steamer "Investigator," Commander C. F. Oldham, R.N., commanding. Series ii, No. 7. An account of the Collection of Deep-Sea *Asteroidea*. Ann. Nat. Hist. (6) xi, pp. 73-121, pls. iv-vi (Feb. 1893). [II, B, ii, a : D, ii; iv : F, iv, b. III, A. IV, D.] Abstract, J. R. Micr. Soc. 1893, p. 194.

II.—BIOLOGY.

(A.) EVOLUTION.

Evolution of the various lines of descent viewed in relation to environment ; HAACKE (111) p. 306.

Phylogeny of *Echinoderma* ; NEVIANI (199), see also F, i, a.

(B.) MORPHOLOGY.

i. Anatomy.

(a) *ECHINODERMA* :—(1) General account with special reference to extinct forms ; BERNARD (20).—General account ; BELL (16) p. 1 ; GERARDIN (97) ; MARSHALL (169) ; PERRIER (213) pp. 781-846 ;

and (215) pp. 248–310; SHIPLEY (243).—Popular account of general characters and external morphology; PERRIER (214).

(2) Bilateral and radiate symmetry:—PERRIER (213) pp. 40, 323, 786.—Relation of radiate structure to the bilateral larva; SEELIGER (241) p. 408.—Derivation of radiate structure from a primitive bilateral form; BUETSCHLI (27).—Orientation of *Echinodermata*; AGASSIZ (2) pp. 93–95.—Metamerism and paramerism (p. 38), varying number of rays among Echinoderms (pp. 60 & 781), coalescence of parameres in certain Asteroids and in Echinoids (p. 60); PERRIER (213).

(3) Homologies of the classes of *Echinodermata* discussed; AGASSIZ (2) pp. 84–95.

(4) Skeleton formation; DREYER (65 & 66).—Formation of stereom; CHUN (34).

(5) Apical system of the various classes discussed and compared; AGASSIZ (2) pp. 65–83.—Homologies of calycinal plates; JANET (128).

(6) Water-vascular system, the term objected to; KENNEL (132) p. 73.—Ambulacral system generally; PERRIER (213) pp. 79 & 804.

(7) Blood, summary of researches and chemical analyses; GRIFFITHS (109) pp. 117–119.—Blood-vascular system; PERRIER (213) pp. 81 & 813.—The Hydrocoel and its meaning; SEELIGER (241) p. 397.—Axial sinus and other sinuses; PERRIER, (213) p. 810.

(8) Digestive system generally; PERRIER (213) pp. 79 & 800.

(9) Nervous system (p. 819), sense organs (p. 822); PERRIER (213).

(10) Pedicellaria; PERRIER (213) p. 823.

(11) Histology of body-wall; PERRIER (213) p. 799.

(12) Generative organs; PERRIER (213) p. 826.

(b) *HOLOTHUROIDEA*:—(1) Cephalization; PERRIER (213) pp. 59 & 323.

(2) Spicules of *Cucumaria montagui*, *C. koellikeri* described; NORMAN (204).

(3) Polian vesicles; HEROUARD (121) p. 125.

(4) Coecum of *Benthodytes sanguinolenta*; LUDWIG (156) p. 180.—Cuvierian organs; HEROUARD (121) p. 125; PERRIER (213) p. 826.

(5) Description of ovum of *Holothuria* and *Synapta*; CRETY (52).

(c) *ECHINOIDEA*:—(1) General and popular account; LINDSAY (149).

(2) Skeleton; PERRIER (213) p. 795.—Ambulacra, plates and pores, with definition of terms *uni-*, *bi-*, *tri-geminatus*, *uni-*, *bi-*, *tri-sociatus*, and *toxogeminate*; LAMBERT (145) pp. 50–54.—The plastron of the *Spatangid* test, elaborate comparative study; LAMBERT (146).—Buccal plates of *Pyrina flava*; COTTEAU (39) p. 539.—Anal system of *Discoidea*, *Spatangoids*, *Clypeasteroids*, &c.; AGASSIZ (2) p. 83.—Perignathic girdle, *Discoidea* and *Echinoconus*; DUNCAN & SLADEN (71).

(3) Pedicellariæ of *Echinus alexandri*, 3 forms; DANIELSEN (62) p. 2.

(4) Poriferous plates in *Echinopsis elegans*; COTTEAU (44) p. 579.—Genital pores; JANET (128).—Madreporite; LAMBERT (145) p. 83; JANET (128).

(5) Dorsal organ or ovoid gland of *Sphaerechinus granularis* and *Dorocidaris papillata*; its morphology and histology described, and function discussed; LEIPOLDT (148).—Cell structure; SCHNEIDER (237).

(6) Stewart's organs; PERRIER (213) p. 826.

(7) External branchiae; PERRIER (213) p. 826; KENT (135) p. 43.

(8) Eyes; AGASSIZ (2) p. 88.

(d) ASTEROIDEA:—(1) Skeleton, a comparative study; PERRIER (211) and (213) p. 788.—Marginals of *Aspidosoma*; HALFAR (111A) p. 194.

(2) Pedicellariae on terminals of *Metopaster parkinsoni*; SLADEN (248) p. 31.

(3) Madreporite; CHADWICK (30).

(4) Water-vascular system, tube-feet, histology; CHADWICK (30).

(5) Respiratory papillae; PERRIER (213) p. 825.

(6) Blood-vascular system; CHADWICK (30).—"Heart" derived from the tenth interradial gland; JOURDAIN (129).

(7) Eyes: AGASSIZ (2) p. 88; PERRIER (213) pp. 82 & 823: of *Asterias vulgaris*, *A. forbesi*, and *Cribrella sanguinolenta*, histologically described; WATASE (269) p. 324.

(e) OPHIUROIDEA:—(1) General description; FJELSTRUP (84) pp. 4-17.

(2) Skeleton; PERRIER (213) p. 791.—Skeletal formation in *Ophiopus*; MORTENSEN (197) p. 524.—Ambulacral shields in *Ophiurella griesbuchi*, and radial shields in *Ophiuira granulata* and *Ophiopege gregaria*; BOEHM (22): Ditto of *Ophioleura borealis*; GRIEG (106) p. 3.—Dorsal arm-shields in *Ophiopege gregaria*; BOEHM (22).

(3) Water-vascular system in *Ophiopus*, muscles of tube-feet; MORTENSEN (197) p. 518.

(4) Blood-vascular system in *Ophiopus*; MORTENSEN (197) p. 518.—Aboral blood-sinus and its connection with the stomach in *Ophiothrix*; RUSSO (231).—Ovoid gland, haemal system (?), axial and aboral sinuses in *Amphiura*; MACBRIDE (159); CUÉNOT (59).

(5) Nervous system in *Ophiopus*; MORTENSEN (197) p. 520.

(6) Morphology of genital system in *Amphiura squamata*; RUSSO (230) p. 16.—Genital organs and genital bursae in *Ophiopus*; MORTENSEN (197) p. 511.—Genital bursa and ova of *Ophiopus arcticus* (p. 17), genital fissures in *Asteronyx loveni* (p. 29); GRIEG (106).

(f) CRINOIDEA:—(1) Skeleton; PERRIER (213) p. 792.—Terminology and symbols; BATHER (11) pp. 17, 64, & 73. — Homologies of the calyx-plates in *Antedon* and other Crinoidea; SEELIGER (241) p. 389.—Dorsal cup,—of *Bathycrinus carpenteri*; DANIELSEN (61) pp. 4 & 5: of *Saccocrinus*; JAEKEL (125) p. 662: of *Plicatocrinidae*; JAEKEL (125) p. 621: of *Uintacrinus socialis*, accurately described, basals and a plate [incorrectly] termed centrodorsal now first seen; CLARK (36) p. 22: of *Pisocrinidae*, fresh interpretation (p. 24), of *Herpetocrinus*, first described (p. 40), of *Calceocrinidae*, fresh interpretation (pp. 58, 63); BATHER (11).—Infrabasals,—discussion of Monocyclic and Dicyclic types; AGASSIZ (2)

• p. 52 : fusion in *Gissocrinus* ; BATHER (11) pp. 152, 156, 161, 172, & 173.—Basals,—fusion in *Pisocrinus* (p. 32), fusion and atrophy in *Calceocrinidae* (pp. 58, 67); BATHER (11): of *Tetracrinus*; JAEKEL (125) p. 642.—Radials bisected, morphological importance; BATHER (11) pp. 20, 59.—Tegmen,—of *Calamocrinus* described and compared with that of *Apioocrinus*, *Encrinus*, *Dodocrinus*, *Extracrinus*, *Saccocrinus*, *Glyptocrinus*, &c.; AGASSIZ (2) pp. 40–44 : with mouth, tentacles, orals, grooves, and anal tube, in *Bathyocrinus carpenteri*; DANIELSEN (61) p. 9 : of *Pisocrinus* (p. 31), of *Calceocrinidae* (p. 70), of *Euspirocrinus*, with madreporite (p. 111), of *Cyathocrinus*, with madreporite (pp. 132 & 148), in *Gissocrinus* (pp. 157 & 170) ; BATHER (11).—Orals (?) of *Calamocrinus* described and discussed; AGASSIZ (2) p. 44.—Anal structures of *Pisocrinus* (pp. 31, 34), of *Herpetocrinus* (pp. 41, 47), of *Calceocrinidae* (pp. 61 & 70), of *Euspirocrinus* (p. 110), of *Botryocrinus cucurbitaceus*, no pores (p. 122), of *Streptocrinus* (p. 125), of *Cyathocrinus* (pp. 132, 135, & 144), in *Gissocrinus* (pp. 157, 164, & 170) ; BATHER (11).—Supplementary plates, *Calceocrinidae* ; BATHER (11) p. 69.—Interradials (*i.e.*, interbrachials) of *Calamocrinus*, described and compared with those of other *Crinoidea*, especially *Apioocrinus*; AGASSIZ (2) pp. 32–40.

• Arms,—of *Pisocrinus* (pp. 30, 34), of *Herpetocrinus* (pp. 41, 47), of *Calceocrinidae* (p. 71), of *Euspirocrinus* (p. 110), of *Botryocrinus cucurbitaceus*, fresh interpretation (p. 121), of *Streptocrinus* (p. 124), of *Gissocrinus* and *Cyathocrinus* (p. 156) ; BATHER (11) : of *Bathyocrinus carpenteri*; DANIELSEN (61) pp. 5–8 & 10) : of *Plicatocrinidae*; JAEKEL (125) p. 628.—Arm-structure of *Hyocrinus* (p. 652), of *Saccocoma* (p. 667); JAEKEL (125).—Arms of *Calamocrinus* minutely described, Walther's views on pinnules criticised ; AGASSIZ (2) pp. 17–32.—Pinnules in *Calceocrinus* (p. 98), in *Streptocrinus*, false pinnules (pp. 124 & 175) ; BATHER (11).—Covering-plates or ambulacrals ; AGASSIZ (2) p. 28 : in *Ocaleocrinus* (p. 90), in *Cyathocrinus* (pp. 134, 144, 145, & 148), in *Gissocrinus* (pp. 157, 162, 164, & 169) ; BATHER (11).

Stem,—of *Calamocrinus* described, especially the proximal columnal, and compared with that of *Apioocrinidae*, also a general discussion of the stems of various extinct Crinoids and their mode of growth ; AGASSIZ (2) pp. 51–65 : of *Herpetocrinus*, its evolution (pp. 41–45, 50, & 51), of *Calceocrinus* (p. 74), of *Botryocrinus*, attacked by parasites (p. 120), of *Gissocrinus*, curious irregularity (p. 170) ; BATHER (11) : of *Hyocrinus* (p. 658), of *Plicatocrinidae* (p. 631); JAEKEL (125): of *Bathyocrinus carpenteri*; DANIELSEN (61) pp. 2, 3, & 15.—Root of *Bathyocrinus carpenteri*; DANIELSEN (61) pp. 3, 4, & 15.—Root discovered in *Heterocrinus subcrassus*, *H. simplex*, *Glyptocrinus neali*, *G. dyeri*, and *G. baeri* ; DYCHE (72).

(2) Articulations,—Hinge of *Calceocrinidae* (p. 68), arm-joints of *Botryocrinus* (p. 118) ; BATHER (11).—Radial facets and muscle grooves in *Calamocrinus* ; AGASSIZ (2) p. 16. See also II, F, vi, c.

(3) Nervous systems of *Bathyocrinus carpenteri* (pp. 19–22), chambered organ of *Bathyocrinus carpenteri* (p. 15) ; DANIELSEN (61).—Axial cords of *Calamocrinus* compared with *Apioocrinus*, &c. ; AGASSIZ (2) p. 14.

(4) Dorsal organ of *Bathycrinus carpenteri*, connected with genital rachis (pp. 16 & 17), gonads in pinnules of *Bathycrinus carpenteri* (pp. 9 & 18); DANIELSEN (61).

(5) Sacculi; PERRIER (213) p. 826.

(6) Colour of *Bathycrinus carpenteri*; DANIELSEN (61) p. 22. For colour, see also under, B, ii, c, & D, v, c, 3,

(g) CYSTIDEA :—General discussion; TEISSEYRE (259).

Relation of *Cystidea* to the “cystid-stage” of *Antedon*; SEELIGER (241) p. 417.

(h) BLASTOIDEA :—General discussion; TEISSEYRE (259).

Ambulacra strongly bent in *Mesoblastus australis* (p. 211), hydrosire sacs and large deltoids in *Tricoelocrinoides obliquatus* (p. 213); ETHERIDGE (76).

(ii) Variation.

(a) In form :—Depressed *Echinus esculentus*; SCOTT (238) p. 49.—Depressed var. of *Echinus esculentus*, also one higher than usual, and pentagonal in shape through flattening of interambulacra; SCOTT (239).—Form of cup in *Pisocrinoides pilula* (p. 28), in *Cyathocrinoides visbyensis* (p. 131); BATHER (11).—Outline and size in *Granatocrinoides mutabilis*; ROWLEY (228) p. 307.—Swelling of arms in *Cribrella praestans*; ALCOCK (6) p. 112.—Proportional measurements, *Asterias torquata*; MEISSNER (179) p. 184.—Variation in size of individual rays congenital and not due to regeneration, in *Astronyx loveni*; SMITH (251).—Length of rays in *Goniaster phrygianus*; SCOTT (238) p. 49.—Arms of *Acanthaster echinatus* (p. 387), *Echinaster eridanella* (p. 391), *Luidia maculata* (p. 380), *Pentaceropsis obtusatus* (p. 381); LORIOL (154).

(b) In form and surface characters :—Form or external ornament in *Echinocyamus affinis*, *E. subcaudatus*, *Thagaster wetterlei*, *Rhabdocidaris ponechi*, *Coelopleurus tournonieri*, *Echinopsis elegans*, *Maretia grignonensis*, *Euspatangus croizieri*; COTTEAU (44).—Outline, and in size and arrangement of tubercles in *Holocarpus planatus*; CLARK (36) p. 58.—Supplementary plates and measurements of *Astropecten aster*; MARCHISIO (162).—Proportions of radii, supero-marginals, spines, and papularia in *Ponaster tenuispinus*; BELL (15).—Size and number of supero-marginals in *Metopaster parkinsoni* (p. 36), and in *Mitraster hunteri* (p. 62), and *M. rugatus* (p. 66); SLADEN (248).—Surface characters of *Pentaceros turritus* (p. 380), measurements and surface characters of *Ophiocoma erinaceus* (p. 410), pedicellariae and spines of *Archaster typicus* (p. 378), spines of *Pentaceropsis obtusatus* (p. 381); LORIOL (154).—Spines in *Ophiacantha abyssicola*; GRIEG (106) p. 24.—Length and colour of spines in *Spongylometrotus droebachiensis*; GANONG (91) p. 57; PETERSEN (216) p. 41.—In spicules of *Synapta digitata* (? senile); MARENZELLER (164) p. 18.—Spicules and colours in *Holothuroidea*; HEROUARD (121) p. 131.—Form and colour of *Echinus esculentus*; LINDSAY (149) p. 347.

(c) In colour :—*Echinus angulosus*; MEISSNER (181) p. 184.—*Ophioglypha affinis* and *Ophioscolex glacialis*; GRIEG (106) pp. 7 & 27.—*Antedon* sp. (p. 43), *Synapta* sp. (p. 241); KENT (135).—Albino, *Actinometra pectinata*; HARTLAUB (113) p. 107.—White, yellow, red, and blue in an Asteroid; FIELD (82) p. 84.

(d) Meristic variation :—(1) Variation from pentamerous symmetry,—In *Plicatocrinus* and *Tetraacrinus*; JAEKEL (125) pp. 628, 640, & 646.—Four radii: *Goniodiscus sanderi*; MEISSNER (179) p. 185; *Astericus verruculatus*; MARTENS (172); *Hemiaster*; COTTEAU (39) p. 540; *Tristomathus elegans*; BITTNER (21) p. 354.—Four and six-rayed *Pentaceros turritus*; STUDER (256) p. 256; *Archaster typicus*; MARTENS (171) p. 183.—Six radii: *Echinolumpas ovalis*; COTTEAU (42) p. 740; *Asterias glacialis*; ROBERTSON (223); *Echinaster purpureus*; MARTENS (171) pp. 183 & 184; *Ophiactis flexuosa*; STUDER (256) p. 55.

(2) Reduplication or absence of parts,—In apical system of *Ophioglypha nodosa*; GRIEG (105) p. 6.—Absence of anterior costal, and modifications in apex of *Holaster latissimus*; LAMBERT (145) p. 91.—In anal plates of *Arbacia*; MEISSNER (181) p. 184.—Four anal plates in three specimens of *Parasalenia gratiosa*; MEISSNER (182).—Two subanal plates in *Salenia petalifera*; SCHLUETER (236) p. 161.—In distribution of water-pores in an Echinoid (*Discoides peroni*), showing the slight classificatory value of this character; LAMBERT (145) p. 83.—Two madreporites, in *Echinaster eridanella*; LORIOL (151) p. 391: in *Linckia multiforis*; MEISSNER (179) p. 185.—Ambulacratal pores, 8 pairs in one arc, in *Strongylocentrotus droebachiensis*; BUCKLEY in HERDMAN (120).—Double genital pores in *Cidaris perornata*, *C. sceptifera*, and *Arbacia punctulata*; water-pores in interambulacrum (2 of Lovén); JANET (128).—In pinnules of *Actinometra stelligera*; HARTLAUB (113) p. 104.—In brachials and joints of *Antedon macronema*, *Actinometra regalis*, *A. coppingeri*, *A. parvicirrura*, *A. fimbriata*, and *A. typica*; HARTLAUB (113).—In brachials of *Antedon patula* (p. 341), in cirri of *Antedon longicirra* (p. 339); BELL (17).—In length of column in individuals of *Glyptocrinus*; DYCHE (72).

(e) Abnormalities :—Development of a second crown of tentacles on the left side of a *Cucumaria planci*, due (?) to abnormal regeneration; also two fused individuals of *Pseudocucumis acicula*; LUDWIG (155).—Ciliated calcareous body in genital tube of male *Cucumaria pentactes*; TORSENT (263).—Abnormal fasciole in *Hemiaster prunella*; COTTEAU (42) p. 737.—Instances of monstrosity in *Astroidea* and *Ophiuroidea*, and classification of same; GANONG (91) p. 52.—Abnormal tentaculiferous larvae of *Antedon* (p. 266); variation in number and shape of calyx-plates in *Antedon* larva, when kept in an aquarium (p. 223); SEELIGER (241).—Abnormal structure of cup in *Cyathocrinus visbyensis* (p. 130), of *C. ramosus* (p. 150); BATHER (11).—Supernumerary disk and modified ambulacratal groove in *Antedon*; CHADWICK (31).—Arms without ambulacratal groove in *Actinometra pectinata*; HARTLAUB (113) p. 107.

(iii) Secondary Sexual Characters.

All quoted from STUDER (256).

Sexual dimorphism in *Hemiaster cavernosus* and *Cidaris membranipora* (p. 143), in *Pentaceros turritus* (p. 256).

Colour different in the two sexes in *Ophiothrix petersi* (p. 25).

Brood-pouches in *Ophioglypha hexactis* and *Ophiacantha vivipara* (pp. 143 & 144).—Protection of ova in ambulacra, *Hemiaster cavernosus*, *Arbacia alternans* (p. 281), and *Cidaris membranipora* (p. 142).—Protection of ova by attachment of sea-weed to body, *Hipponoë variegata* (p. 235).

(C.) PHYSIOLOGY.

(i) General :—*Echinoderma*; GRIFFITHS (107).

(ii) Haemal & water-vascular :—The functions of the so-called excretory dorsal organ or ovoid gland in Echinoids discussed; LEIPOLDT (148) p. 614.—“Heart” has excretory function in *Astroidea*; JOURDAN (129).—Relations of ambulacral and haemal systems to one another and to external water; PERRIER (213) p. 818.

(iii) Respiration :—by a bladder-like membrane in *Diadema setosa*; KENT (135) p. 43.—Echinochrome, its chemical composition and functions; GRIFFITHS (108).

(iv) Digestion :—Action of amoebocytes and glandular epithelium in *Asterias glacialis*; CHAPEAUX (32).—Amoebocytes, phagocytic action; CUÉNOT (54) p. xi.—Secretive and absorbent activity of epithelium of alimentary canal in Echinoderms; FRENZEL (88).—Stones size of peas in gut of *Pentaceros turritus*; STUDER (256) p. 256.

Yellow cells of connective tissue as food reserves; JOURDAN (130).

(v) Miscellanea :—Acrid juices of Holothurians; KENT (135) pp. 239 & 266.—Purple exudation of *Holothuria sanguinolenta*; KENT (135) p. 56.

Functions of arms in Crinoids; JAEKEL (125) p. 679.

Very slow effect of cocaine on *Asterina*, *Ophiura*, and *Cucumaria*; DANILEWSKY (63).

(D.) BIONOMICS.

(i) General :—Bionomics of living Echinoderms, collected notes; WALTHER (268) pp. 296–328—General account; MARSHALL (169) and THOMSON (261).—General and popular; LINDSAY (149).

(ii) Special habits :—Habits of *Cidaris savignyi* and *Echinometra lucunter*; BOUTAN (24) p. 212.

Gregarious habits of deep-sea *Astroidea*; ALCOCK (6) p. 75.

Burrowing of *Echinoidea*, spines set tight against wash of sea, &c.; FEWKES (80).—Boring habits of *Strongylocentrotus droebachiensis*; FEWKES (79); GANONG (91) p. 57.—Boring into lava, of *Echinometra*; STUDER (256) p. 17.

(iii) Habitat :—Attached to sea-weed, *Antedon macronema* (p. 185), on stem of gorgonids, *Synapta reticulata* (p. 192), mud, “shaped like a cherry

with thick stalk," *Rhopalodina lageniformis* (p. 30); STUDER (256).—*Synapta* under mangrove roots and under coral slabs, a Holothurian in sand, *Toxopneustes* among algae, *Echinometra subangularis* in natural crevices, *Linckia* around Aleyonian colony; FIELD (82).—*Astronyx loveni* parasitic on *Funiculina quadrangularis*; SMITH (251).

Habitus of *Plicatocrinidae* as reef-dwellers; JAEKEL (125) pp. 633 & 645.

(iv) Feeding:—Habits and mode of feeding of Holothurians; KENT (135) pp. 55, 121, 226, 242.—Food, of Echinoids, Asteroids, Ophiuroids, and Holothurians in Kattegat; PETERSEN (216): of Ophiurid and Holothurians; KENT (134) pp. 230 & 231.—Starfishes eat mussels; HERDMAN (119) p. 30.—Food of deep-sea *Astroidea*; ALCOCK (6) p. 75.

(v) Defence and Protection:—(a) Active.—Means of defence, test, spines, autotomy; CUÉNOT (55).—Spines of *Diadema setosa* as means of defence; KENT (135) p. 42: rendered more dangerous by gregarious habit; FIELD (82) p. 83.—Protection by sudden change of shape, *Synapta besseli*; STUDER (256) p. 234.

(b) Concealment.—*Toxopneustes variegatus* conceals itself by bits of seaweed, shell, &c., held on dorsal surface by ambulacral feet; also in less degree, *Hipponoë esculenta*: FIELD (82) p. 83.

(c) Protective colouration, and colour generally:—

(1) Colour like sand on which it lives, *Ophiolepis affinis* (p. 28), like sponges among which it lives, *Ophiomyxa brevispina* (p. 233), like seaweed on which it lives, *Ophiactis incisa* (p. 248); STUDER (256).—*Synapta* with brown patches like coral, *Linckia* like an Aleyonian colony with which it lives; FIELD (82).—Varying with locality in *Colochirus tuberculatus*; STUDER (256) p. 191.—Colour: generally (p. 16), blue in a starfish (p. 36), protective in Ophiurids (p. 38), sexually dimorphic (p. 255); BEDDARD (13).—Warning colours in starfish (p. 51), *Asterias littoralis*, intense Prussian blue (p. 55); GANONG (91).

(2) *Astropecten aurantiacus*, red natural, violet due to commensal alga *Rytiphloea tinctoria*, neither respiratory; HEIM (114).—Echinoids covered with phosphorescent substance; COUTEAUD (51) p. 150.

(3) Colour of fossil Crinoids investigated; BATHER (11) p. 151.—Colour of living *Echinoderma*; see STUDER (256), *passim*: of deep-sea types; AGASSIZ (3) p. 82. See also II, B, ii, c, & B, iii.

(vi.) Locomotion:—Various methods; PERRIER (213) p. 82.

A free-swimming, pelagic Holothurian, *Pelagothuria*; LUDWIG (156) p. 183.

Bipinnaria and Brachiolaria larvae of littoral *Astroidea* found 1000 sea-miles from nearest coast in Sargasso Sea; possible retardation of development; HENSEN (115) p. 25.

Movements of *Asterias* in turning over, and of *Antedon* in swimming; MAREY (168) pp. 710–712.—*Ophioglypha*, sp., swims by paired motion of four arms; SLUITER (249) p. 181.—Living positions of *Ophioglypha* and *Astropecten*; KOCH (141) figg. 7 & 8.

Structure of *Saccocoma* correlated with pelagic life; JAEKEL (125) p. 687.

(vii) **Autotomy and Regeneration** :—In *Linckia*; FIELD (82) p. 84.—Autotomy, *Asterias fragilis*; STUDER (256) p. 269.—Spontaneous division of an arm which regenerated a disc, in *Asterias muelleri*; DANIELSEN (61) p. 12.—Autotomy of *Asterias richardi*, from a young with 6 arms to adults with 5 arms; MARENZELLER (166) p. 66.—Spontaneous division of one individual to form two, in *Asteroidea* and *Ophiuroidea*; PERRIER (213) p. 845.

Autotomy of Holothurians in connection with *Entoconcha mirabilis*; MARSHALL (170) p. 87.—Cuvierian organs, extrusion in *Holothuria argus*; STUDER (256) p. 234.

Apparent spontaneous division of *Bathycrinus carpenteri*; crown above basals being thrown off, perhaps after reproductive period, and regenerated on the stem left behind; DANIELSEN (61) pp. 11–14.—Regeneration of arms in *Dendrocrinus*; FOERSTE (85).—Incomplete evisceration in *Antedon*; CHADWICK (31).

(viii) **Parasites and Commensals** :—Gregarines in Holothurians, relation to Cuvierian organs (p. 300) and to descent of species (p. 304); MINCHIN (189).

Gregarines in *Synapta inhaerens*, *S. digitata*, *Echinocardium cordatum*; *Cyclochaeta*, a ciliate infusorian, symbiotic in *Synapta inhaerens*, commensal with *Asterina gibbosa* and *Ophiothrix fragilis*; Trematode cercariae on tentacles of *Synapta inhaerens*, and in *Ophiothrix fragilis* and *Ophioglypha albida*; a Turbellarian, *Syndesmis*, in *Echinus sphaera*, *E. acutus*, and *Strongylocentrotus lividus*; a Rotifer, *Discoporus*, on *Synapta inhaerens*; a Polychaet, *Hermadion*, on *Ophiothrix fragilis*; a Tardigrade, *Tetrakentron*, on *Synapta inhaerens*; a Copepod, *Synaptiphilus luteus*, on *Synapta inhaerens* and *S. digitata*; CUÉNOT (60).—Nematode in *Synapta*; *Ctenodrilus* in *Synapta* and *Holothuria*; *Anoplodium* in *Holothuria*; *Ophyro trocha* in *Cucumaria*; MONTICELLI (193).—Copepod in *Synapta kefersteini*; VOIGT (267).

Species of *Myzostoma* parasitic on *Antedon phalangium*, *M. pulvinar* lives in oesophagus; PROUHO (220).—Parasites in stem of *Botryocrinus*; BATHER (11) p. 120.

Linckia multiforis, with “eine symbiotische Schnecke, *Thyca crystallina*”; MARTENS (171) p. 183.—Association of Crinoids and Gasteropods; KEYES (136, 138).

Complete account of *Fierasfer* and *Encheliophis* in Holothurians and Asteroids; CUÉNOT (56). See also KENT (135) p. 240.—*Entoconcha* in Holothurian; MARSHALL (170).

(ix) **Echinoderms as food for Fish** :—*Amphiura* in *Pleuronectes platessa*, *P. limanda*, *P. cynoglossus*, *Hippoglossoides limandooides*, *Gadus aeglefinus*, *G. merlangus*, *Trigla gurnardus*; *Ophioglypha* in *Pleuronectes platessa*, *P. limanda*, *Hippoglossoides limandooides*, *Gadus aeglefinus*, *Raia clavata*, *G. morrhua*; *Amphidotus* in *Pleuronectes platessa*, *P. microcephalus*, *P. limanda*, *Hippoglossoides limandooides*, *Gadus aeglefinus*;

Ophiothrix in *Pleuronectes limanda* (*O. rosula*), *Hippoglossoides limandooides*, *Trigla gurnardus*, *Gadus morrhua*, *G. æglefinus*, *Anarrhichas lupus*; *Asterias* in *Hippoglossoides limandooides*, *G. æglefinus*; *Echinocyamus* in *Gadus æglefinus*; *Cucumaria* in *Gadus æglefinus*; *Echinus* in *Gadus æglefinus*; *Antedon* in *Pleuronectes microcephalus*: SMITH (252).—*Ophiothrix fragilis* in *Galeus canis*, *Gadus morrhua*; *Ophioglypha texturata* in *Galeus canis*, *Acanthias vulgaris*, *Trigla hirundo*, *Platessa vulgaris*, *Limanda vulgaris*; *Echinus miliaris* in *Trigla gurnardus*, *Platessa vulgaris*; *Echinocyamus pusillus* in *Platessa vulgaris*, *Rhombus lavis*, *R. maximus*, *Solea vulgaris*: SAUVAGE (235).—Echinoderms, chiefly *Ophiura* and *Ophioglypha*, with some Echinoids and occasional Holothurians, form the chief food of *Trigla lyra*, *Gadus æglefinus*, and *Pleuronectes limanda*; largely eaten by *Hippoglossoides limandooides*, *Pleuronectes platessa*, *P. microcephalus*, *P. cynoglossus*, and *Solea vulgaris*; occasionally by *Gadus morrhua*, *G. merlangus*, *Merluccius vulgaris*, *Scyllium canicula*, and *Raja batis*; rarely by *R. clavata*: HOLT (123).

(E.) MISCELLANEOUS.

(i) **Preservation** :—of *Echinodermata*; GRANGER (98): of Asteroids and Echinoids; FIELD (82) p. 84: of Echinoids; BAVAY (12); CHEVREUX (33).

(ii) **Economics** :—*Asteroidea* as manure, and *Strongylocentrotus* used for food; GANONG (91) pp. 49 & 57.—Bèche-de-mer fishery; KENT (133 & 135).

(iii) **Bibliography** :—*Crinoidea* of Gotland; BATHER (11).—Mesozoic *Echinodermata* of the United States; CLARK (36) pp. 15–20.—Iowa *Blastoidea* (p. 219), *Crinoidea* (p. 266), *Echinoidea* (p. 294), other *Echinodermata* (p. 291); KEYES (140).

(F.) AUXOLOGY.

(i) **ECHINODERMA** :—(a) **Recapitulation** :—Ontogeny repeats phylogeny, in Ophiuroids, Asteroids, and *Antedon*; CUÉNOT (58): compared with phylogeny in *Antedon*, recapitulation denied by HURST (124) p. 199, and maintained by BATHER (10) p. 275.

(b) **General Embryology** :—KORSCHELT (144); BELL (16) p. 10.—General account of development, and comparison of larval forms; PERRIER (213) p. 831.

(c) **Formation of Gonads** :—PERRIER (213) p. 830.—Gonads derived from Amœbocytes of lymphatic (ovoid) gland in *Asteroidea*, *Ophiuroidea*, and *Crinoidea*; CUÉNOT (53).—Spermatogenesis and description of spermatozoa in all classes of recent Echinoderms; FIELD (83); CUÉNOT (57): the same compared with that of Mammals; MOORE (194).—Oögenesis; CUÉNOT (57).

(d) **Oviposition** :—the time of, in *Toxopneustes variegatus*, *Hipponoë esculenta*, *Ophiocoma ethiops*, *Ophiothrix orsterii* ?, in Kingston Harbour, Jamaica; FIELD (82).

(e) Larval stages :—Cleavage of Echinoderm ova compared with that of *Amphioxus*; WILSON (273).—Bilateral symmetry of larva independently acquired in the different classes; KENNEL (132) p. 70.—The preoral lobe in Echinoderms; SELIGER (241) p. 409: as an organ of fixation; WILLEY (272) p. 331.—Adaptive modifications of the free-swimming larval forms contrasted with simple non-swimming larvæ; PERRIER (213) p. 185.—Comparison of Tornaria of *Balanoglossus* with the Echinoderm larva; MORGAN (195) pp. 431–447.

(f) Tissue-formation :—Development of Mesoblast; GREENOUGH (101).—Formation of stereom by skeletogenous cells in *Echinoderma* generally; CHUN (34): and in *Echinoidea* particularly; THEEL (260).

(ii) *HOLOTHUROIDEA* :—(a) Ova :—large in *Benthodytes sanguinolenta*; LUDWIG (156) p. 180.

(b) Larval Stages :—Habitat of embryos; KENT (135) p. 229.

(c) Tissue-formation :—Growth of spicules, variant methods, in *Cucumaria montagui*; NORMAN (204) p. 472.

(d) Senile characters :—in spicules of *Synapta digitata*; MARENZELLER (164) p. 18.

(iii) *ECHINOIDEA* :—(a) Formation of Gonads :—Spermatogenesis; PICTET (218).—Early development and structure of ovum in *Sphaerechinus*; SCHNEIDER (237) p. 46.

(b) Larval stages :—Maturation, impregnation and segmentation of ovum, development of blastula, cells with plasmatic processes and sensory (?) cilia, of gastrula, formation of mesenchyme (with general discussion), the formation of calcareous deposits, development of pluteus and of young urchin, especially of spines, sphæridia and teeth, and of dorsal plate from rod of pluteus; THEEL (260).—Segmentation in *Echinus microtuberculatus*, and teratological development of archenteron and mesoblast; PENARD (210).—Normal development of skeleton in pluteus of *Sphaerechinus*; HERBST (118) p. 194.

(c) Brephic and Neanic stages :—of *Echinocyamus affinis*, *Coptosoma pellati*, *Circopeltis baicherei*, *Arachniopleurus arenatus*; COTTEAU (44): of *Echinothrix desori* (p. 362), *Asthenosoma varium* (p. 364), *Salmacis rari-spina* (p. 370), *Laganum depressum* (p. 375); LORIOL (154): of *Diplopodia renevieri* (p. 61), and stages of growth in *Holaster latissimus* (p. 91); LAMBERT (145): of *Micraster gauthieri*, compared with adult; PARENT (206) p. 13.

(iv) *ASTEROIDEA* :—(a) Larval stages and origin of organs :—Development of dorsal organ, genital organs, described in *Asterina gibbosa*, and compared with *Amphiura squamata*; MACBRIDE (161).—Segmentation, origin of mesenchyme, mesoderm, and vaso-peritoneal vesicle in *Asterias glacialis*, compared with other Echinoderms; RUSSO (229) p. 125.—Development of Bipinnaria in *Asterias glacialis*; RUSSO (229) p. 131.

(b) Brephic stages :—of *Nymphaster florifer*, *Zoroaster angulatus*, *Z. carinatus*; ALCOCK (6) pp. 94, 105 & 107.—Blood-vascular system in young *Asterias rubens*; CHADWICK (30).

(v) *O PHIUROIDEA* :—(a) General description ; FJELSTRUP (84) pp. 17-21.

(b) Formation of Gonads :—in *Amphiura squamata* ; RUSSO (230) p. 16.—Extrusion of ova in *Ophiopus arcticus* ; GRIEG (106) p. 17.—*Ophiopus* dies after its first and only extrusion of ova ; MORTENSEN (197) p. 526.

(c) Larval stages and origin of organs :—Segmentation, origin of germinal layers, vaso-peritoneal vesicles, water-vascular system, ovoid gland, skeleton, and nervous and digestive systems in *Amphiura squamata* ; RUSSO (230).—Embryonic development of genital organs, ovoid gland, axial and aboral sinuses in *Amphiura* ; MACBRIDE (159); CUÉNOT (59).—Apical system in *Ophioglypha nodosa* (p. 6), *Gorgonocephalus agassizi* (p. 10), and *G. lincki* (p. 11) ; GRIEG (105).

(d) Brepfic and neanic stages :—of *Gorgonocephalus agassizi* ; GRIEG (106) p. 35 : of *Ophiothrix punctolimbata* ; LORIOL (154) p. 416.

(vi) *CRINOIDEA* :—(a) Formation of Gonads :—Oö- and spermatogenesis in *Bathycrinus carpenteri*, *Antedon petasus*, *A. prolixa*, and *A. eschrichtii* ; DANIELSEN (61) pp. 17-19.—Time and manner of oviposition in *Antedon* ; SEELIGER (241) p. 162.

(b) Larval stages :—Complete account of development of *Antedon rosacea* from ovum to cystid stage ; SEELIGER (241).

(c) Brepfic and neanic stages :—Muscular articulation in brachials of young *Bathycrinus carpenteri* becomes syzygial in adult ; DANIELSEN (61) p. 10.—Growth of stem in *Crinoidea* ; AGASSIZ (2) pp. 56-65.—Distal columnals of *Bathycrinus carpenteri* are in young formed of upper and lower halves united by syzygy ; DANIELSEN (61) p. 3.—Neanic stages of *Gissocrinus verrucosus* ; BATHER (11) p. 172.

(vii) Experimental investigation :—Of early development of Echinoids, by chemical alteration of medium, fusion of two or more embryos into one individual (pp. 459 & 483), fission of one ovum into two individuals (p. 468), feeble development of skeleton, &c. ; HERBST (116) : similar investigation with Lithia-salts continued ; HERBST (118) : with chemical reagents on unfertilized eggs of *Spharechinus* ; HERBST (117) : of segmentation in eggs of *Arbacia*, by salination of water ; LOEB (151) : by shaking, pressure, and salination, & of *Asterias* by shaking ; eggs of *Asterias forbesi* fertilized successfully with sperm of *Arbacia punctulata* ; MORGAN (196) : of segmentation of egg of *Echinoidea* by division of material ; DRIESCH (67) : by pressure, alteration of temperature and fragmentation ; DRIESCH (68) ; same continued and further development ; DRIESCH (70) : of ova of *Spharechinus granulatus* and *Echinus microtuberculatus* by pressure ; relations of Ectoderm and Entoderm ; DRIESCH (69).—Driesch criticised ; BRAEM (26).

Fertilisation and segmentation of enucleated ova of *Echinoidea* ; BOVERI (25).—Conditions of keeping living larvæ of *Echinocyamus* (p. 3), different physiological reaction of ova from different environments (p. 6) ; THEEL (260).

III.—DISTRIBUTION.

A.—GEOGRAPHICAL.

(i) GENERAL.

Geographical and bathymetric distribution of living *Echinoderma*, with lists of species, giving range in depth; WALTHER (268) pp. 296–328.

Comparison of deep-water *Echini* in Panamic and Caribbean districts; AGASSIZ (3) p. 80.

(ii) ATLANTIC.

(a) North: (1) Arctic Europe,—Spitzbergen, *Ctenodiscus*, *Asterias glacialis*, Ophiurids, *Strongylocentrotus droebachiensis*, *Echinus norvegicus*; COUTEAUD (51) p. 150.

(2) Scandinavian Waters,—Norway, Trondhjem Fjords; NORDGAARD (201): simple list of species of all classes; NORMAN (203) pp. 346 & 349.—Bergen Fjords, names of species; APPELLÖF (8).—W. coast of Norway, list of Echinoderms dredged in July 1891; BUCKLEY in HERDMAN (120).

Oyster-banks of Schleswig-Holstein and Helgoland, lists of Echinoderms; MOEBIUS (191).—Detailed distribution of Echinoderms in Kattegat, and comparison with adjacent seas; PETERSEN (216).—Danish *Ophiuroidea*; FJELSTRUP (84) pp. 21–30.

Baltic, eastern, *Asteracanthion rubens*, *Ophioglypha albida*; KOJEVNIKOV (143) pp. 141 & 154.

(3) British area,—Horizontal, vertical, and topographical distribution of Echinoderms; BELL (16) pp. 175–187; for special distribution of species, see under names of species in body of same work.

Moray Firth, *Astroideaa*; SCOTT (240).—Coast of Scotland, *Astronyx loveni*, details and causes of distribution; SMITH (251).—Firth of Forth, SCOTT (238).

Plymouth; GARSTANG (92).

Channel Is., list of *Echinoidea*; SINEL in SHARP (242) p. 64.—Pas-de-Calais, various Echinoderms; HALLEZ (112) p. 278.

(4) Main Ocean,—List of Crinoids and Echinoids as far as lat. 42° N.; DANIELSEN (61, 62): *Ophiuroidea*; GRIEG (106).—Greenland, W. Coast, and Labrador, Ophiurids; GRIEG (105).—North Atlantic, coast of Spain, and Azores, Holothurians, especially *Holothuria tremula*, *H. verrilli*, *Stichopus regalis*, *Pseudostichopus occultatus*, *Cucumaria abyssorum*, *C. montagui*, *Thyone inermis*, *Synapta digitata* at 150 metres, and *Chiridota abyssicola*, n. sp., at 2870 metres; MARENZELLER (164).—Concarneau, *Cucumaria koellikeri*; MARENZELLER (167).—Localities of Holothurians dredged by the “Hirondelle”; MARENZELLER (163): of *Astroideaa*; GUERNE (110).—New Brunswick, *Asterias forbesi*, *Molpadia turgida*, and *Chirodota tigillum*, added to list; GANONG (91).—Sargasso Sea, larvæ of littoral Asteroids, apparently thirty days old, found 1000 sea-miles from E. coast of Atlantic, and 3000 from W. coast, whence they probably came; HENSEN (115) p. 25.

(5) Mediterranean.—Eastern, various Echinoderms ; STEINDACHNER (254) p. 445.—*Luidia paucispina*, *Pentagonaster hystricis*, *Gnathaster mediterraneus*, *Pseudostichopus occultatus*, *Kolga ludwigi*, n. spp., *Ophioglypha carneae*, *Holothuria intestinalis*; MARENZELLER (165).—Cartagena, *Asterias glacialis*, *Echinaster sepositus* ; MEISSNER (179).—Sardinia, list of Echinoderms ; EFISIO (73) pp. 252 & 253.

(b) Central and South : (1) Jamaica, Kingston Harbour, principal Echinoderms ; FIELD (82).

(2) W. coast of Africa, list of *Echinodermata* and affinities of fauna ; STUDER (256) pp. 21 & 22.—Cape of Good Hope, list of *Echinodermata* dredged ; STUDER (256) pp. 53 & 54.—Cape Town, *Linckia multiforis*, *Asterina penicularis* ; MEISSNER (179).

(3) Fernando Noronha, *Echinoidea* ; RIDLEY (222) p. 559.

(4) Kerguelen, *Cucumaria*, *Semperia*, *Chirotoma*, *Trochostoma*, *Psolus*, *Thyonne*, *Cidaris*, *Echinus*, *Hemicaster*, *Schizaster*, *Ophiogona*, *Ophioglypha*, *Ophioceten*, *Ophiocomis*, *Amphiura*, *Ophiacantha*, *Ophiomyxa*, *Gorgonocephalus*, *Pedicellaster*, *Asterias*, *Echinaster*, *Gnathaster*, *Porania*, *Leptoptychaster*, *Luidiaster*, *Pteraster*, *Retaster* ; STUDER (256) pp. 137, 142, & 163.

(5) W. Australia, Dirk Hartog I., *Antedon*, *Ophiocreas*, *Ophiurospis*, *Pentagonaster* ; STUDER (256) p. 184.

(iii) PACIFIC AND ADJACENT OCEANS.

(a) **Australia** : Sydney, *Antedon macronema* ; Queensland, *Antedon tenera*, *Actinometra parvicirra*, *A. pectinata*, Bowen, *Antedon nematodon*, *A. afra* ; HARTLAUB (113).—Barrier Reef, *Holothuroidea* ; KENT (133, 135).—Torres Straits, *Antedon monacantha*, *A. tenera* ; HARTLAUB (113).—Sahul Bank, *Antedon longicirra*, *A. wood-masoni*, n. sp., *A. patula* and *Metacrinus interruptus* ; BELL (17).

New Guinea, Galewo Straits, Asteroids and Ophiuroids ; STUDER (256) p. 233 : several species of Echinoids, Asteroids, and Ophiuroids already known from Indian Ocean ; MARTENS (171).

(b) **Malay Archipelago** : (1) Bay of Amboyna,—*Cidaris metularia*, *Rhabdocidaris annulifera*, *R. imperialis*, *Echinothrix desori*, *Diadema setosum*, *Asthenosoma varium*, *Salmacis rarispina*, *Tripneustes variegatus*, *Echinometra lucunter*, *Heterocentrotus mamillatus*, *Laganum depressum*, *Arachnoides placenta*, *Metalia muculosa*, *Maretia planulata*, *Astropecten polycanthus*, *Luidia maculata*, *Pentaceros turritus*, *Pentaceropsis obtusatus*, *Culcita grex*, *Asterina cepheus*, *A. exigua*, *Linckia miliaris*, *Ophidiaster purpureus*, *Acanthaster echinites*, *Echinaster eridanella*, *Ophiopeza luetkeni*, n. sp., *Pectinura septemspinosa*, *P. gorgia*, *P. infernalis*, *Ophiolepis cincta*, *Ophioplacus imbricatus*, *Ophiactis sexradiata*, *O. brocki*, n. sp., *Amphiura duncani*, *Ophioenida picteti*, n. sp., *Ophiocoma scolopendrina*, *O. erinaceus*, *Ophiarachna affinis*, *Ophiarthrum elegans*, *Ophiomastix annulosa*, *O. caryophyllata*, *Ophiothrix longipeda*, *O. comata*, *O. galatea*, *O. bedoti*, n. sp., *O. picteti*, n. sp., *O. propinqua*, and others previously recorded from Amboyna ; LORIOL (154). *Antedon brocki*, *A. affinis*, *A. ludovici*,

A. crassipinna, *A. claræ*, *A. oxyacantha*, *A. spinipinna*, *A. imparipinna*, *A. brevicuneata*, *A. elongata*, *A. perspinosa*, *A. nana*, *Actinometra divaricata*, *A. bennetti*, *A. regalis*, *A. coppingeri*, *A. pectinata*, *A. typica*; HARTLAUB (113).

(2) Rest of Archipelago,—New Britain, *Antedon finschi*, *A. tenuipinna*; Ruck Is., *Actinometra fimbriata*, *A. pulchella*; Java, Noordwachter Eiland, *Antedon bella*; Pulo Edam, *Actinometra gracilis*; Lombok, *Actinometra parvicirra*; Sumatra, Atjeh, *Antedon milberti*; Singapore, *Antedon martensi*, *A. palmata*, *A. flagellata*; HARTLAUB (113).

(c) Indian Ocean: (1) Deep waters, *Pararchaster*, *Pontaster*, *Dylaster*, *Persephonaster*, *Pseudarchaster*, *Porcellanaster*, *Stylocaster*, *Hyphalaster*, *Astropecten*, *Dipsacaster*, n. g., *Pentagonaster*, *Milteliphaster*, n. g., *Dorigona*, *Nymphaster*, *Paragonaster*, *Mediaster*, *Anthenoides*, *Palmipes*, *Chaetaster*, *Zoroaster*, *Marsipaster*, *Hymenaster*, *Cribrella*, *Dictyaster*, *Pedicellaster*, *Asterias*, *Brisinga*, *Freyella*; ALCOCK (6).

(2) Bay of Bengal,—*Dipsacaster pentagonalis*, n. sp., *Calliaster mamilifer*, n. sp., *Astroschema flosculus*, n. sp., *Echinolampas castanea*, n. sp., *Brissopsis oldhami*, n. sp., *Lovenia gregalis*, n. sp., and others; ALCOCK (5).—*Antedon bengalensis*, *A. kraepelini*; HARTLAUB (113).

(3) African coast & Islands,—Mauritius, *Cidaris curvatispinis*, n. sp.; BELL (19).—Mozambique Channel, *Georisia ornata*, n. sp.; PERRIER (212).—Wapoo, *Antedon hupferi*; HARTLAUB (113).—Madagascar, *Parasalenia gratiosa*; MEISSNER (182).—Zanzibar, *Gonioidiscus sanderi*, n. sp., *Pentaceros muricatus*, *Asterina cepheus*; MEISSNER (179).—Cape Town and Zanzibar, *Echinoidea*; MEISSNER (181).

(4) Red Sea,—Holothurians; HEROUARD (121).—Various Echinoids; BOUTAN (24) iv, pp. 212, 352, & v, p. 53.—MAZZETTI (177).—*Antedon palmata*; Koseir, *A. klunzingeri*; HARTLAUB (113).

(d) Main Ocean: (1) Polynesia and S. America,—*Gymnasterias valvata*, from Lord Howe's I., not from Lord Hood's I.; BELL (18) p. 28.—Anachorete Is., various *Echinoderma* (pp. 234 & 235), New Mecklenberg (p. 248), Neu-Pommern (p. 256), E. Australia (pp. 260–269), Magellan Str. (pp. 281, 283, 285–289, & 292), Timor (p. 216), Dampier Archipelago (pp. 191–197); STUDER (256).

(2) Islands N. of Equator,—Fiji Is., *Actinometra parvicirra*, *A. stelligera*; Ovalau, *Antedon imparipinna*; Tonga Is., *Antedon palmata*, *A. imparipinna*, *A. serripinna*, *A. nana*, *Actinometra parvicirra*; Samoa, *Actinometra stelligera*; HARTLAUB (113).

(3) S. America,—Callao and Tahiti, Echinoids; MEISSNER (181).—Callao, *Helianaster helianthus*, *Stichaster aurantiacus*, *Echinaster cylindricus*, *Asterina chilensis*, *Luidia bellonæ*; MEISSNER (179).—Chili, list of *Echinoidea*; PHILIPPI (217).

(4) Caroline Is.,—Mortlock Is., *Antedon monacantha*, *Actinometra parvicirra*, *A. maculata*; Ponape, *A. parvicirra*; HARTLAUB (113).

(5) Philippines,—Cebu Is., *Antedon erinacea*; near Philippines, Palau Is., *A. andersoni*; HARTLAUB (113).

(6) China Sea,—*Actinometra solaris*, *Antedon crassipinna*, *A. impari-*
1893. [VOL. XXX.]

pinna, *Actinometra macrobrachius*; Formosa, *A. multiradiata*; HARTLAUB (113).

(7) Eastern Pacific,—Holothurians, with new genera *Synallactes*, *Mesites*, *Meseres*, *Scotodeima*, *Laetmophasma*, *Capheira*, *Pelagothuria*, and *Sphaerothuria*; LUDWIG (156).

Panamic region, deep-sea Echinoids, *Cystechinus*, *Aspidodiadema*, *Urechinus*, *Pourtalesia*, *Schizaster*, *Salenia*, and some *Cidaridae*; Ophiuroids, a few Ophiurans, *Ophiocreas*, *Sigsbeiu*; Asteroids, abundant, *Freyella*, *Hymenaster*, *Astrogonium*, *Asterina*, and *Archasteridae*; Holothuroids, *Elasipoda*, *Peniagone*, *Benthodytes*, *Euphronides*; Crinoids, *Calamocrinus*; AGASSIZ (3) p. 77.—Gulf of California, Echinoids, *Schizaster*, new genus allied to *Palaeopneustes*, *Cystechinus*, *Pourtalesia*; Ophiuroids, *Ophiomusium*, *Ophiocreas*; Asteroids, *Brisinga*, *Cribrella*, *Astropecten*; Holothuroids, *Elasipoda*, *Cucumaria*, *Trochostoma*, *Benthodytes*, *Euphronides*; AGASSIZ (3) p. 78.

(8) Japan,—*Antedon conifera*, *A. japonica*, *A. multiradiata*; HARTLAUB (113).—Echinoids; MEISSNER (181).—Yokohama, *Asterias amurensis*, *A. torquata*, *Astropecten scoparius*, *Luidia limbata*, *Asterina pectinifera*; Inland Sea, *Astropecten latespinosus*, n. sp.; MEISSNER (179).

(9) N. E. Pacific,—Coast of British Columbia, *Strongylocentrotus franciscanus*; WHITEAVES (270) p. 133.

B.—GEOLOGICAL.

(i) GENERAL.

Summary of fossil *Echinodera* of France, with localities; MEUNIER (183).

(ii) CAINOZOIC.

(a) General:—Distribution of *Astropecten*; SACCO (233) p. 745.—Pianosa in Tyrrheno Sea, *Echinoidea*; SIMONELLI (245).—(?), Turkestan, *Austinocrinus erckerti*; ROMANOVSKII (223) p. 85.—Coro, W. Indies, *Scutella*; ERNST (75) p. 339.—Australia,—*Echinoidea*, for new species see under *Psammechinus*, *Coptechinus*, *Fibularia*, *Progonolampas*, and *Cyclaster*; BITTNER (21) pp. 368 etc., and TATE (257): *Echinolampas morgani*, n. sp., and *Galeraster australiae*, n. g. & sp.; COTTEAU (39) pp. 546–548.

(b) Pliocene:—Piedmont, *Astropecten* and *Ophiotrix*; SACCO (233).—E. Pyrenees, *Cidaris tribuloides*; COTTEAU (42) p. 736.—Mexico, *Echinocyamus altavillensis*, *Clypeaster meridianensis*, *C. crustulum*; AGUILERA (4) p. 43.—(?), New Guinea, *Temnechinus* and *Peronella*; ETHERIDGE (76) p. 691.

(c) Miocene:—Angles in Gard, France, *Pentacrinus*, cf. *Gastaldii*; SINARD (247).—Kralitz in Mähren, *Echinoidea* and *Astroidea*; TOULA (265) pp. 291 & 292.—(Helvetian), of Rhone basin, *Echinoidea*; DEPÉRET (64).—(Middle Miocene), Maine-et-Loire, *Echinolampas dumasi*, n. sp.; COTTEAU (46) p. 353.—Sinai, two *Echinoidea*; ROTHEPLETZ (224) p. 103.—Ilheu da Cal, Porto Santo, Madeira Archipelago, *Clypeaster altus*;

COTTER (49) p. 235.—Ilha de Santa Maria, Azores, *Clypeaster altus*; COTTER (50) p. 259.

(d) Eocene:—*Clypeastroidea*; COTTEAU (40).—*Cidaridae*, list of species; COTTEAU (43).—Localities and complete species of *Scutellina*, *Echinocymus*, *Lenita*, *Thagaster*, *Fibularia*, *Cidaris*, *Rhabdocidaris*, *Porocidaris*, *Salenia*, *Coptosoma*, *Cyphosoma*, *Leiosoma*, *Circopeltis*, *Micropeltis*, *Gagaria*, *Coelopleurus*, *Baueria*, *Echinopsis*, *Hebertia*, *Rhabdopleurus*, *Arachniopleurus*, *Triplacidia*, *Leiopedina*, *Echinopedia*, *Sphaerechinus*, *Psammechinus*, *Micropsina*, *Parasalenia*, also species of *Maretria*, *Euspatangus*, *Tuberaster*, *Echinocardium*, *Sarsella*, and *Breynia*; COTTEAU (44).—(Upper Eocene), Biarritz; *Cidaris felicia*, n. sp.; COTTEAU (42).—E. Balkans, *Echinocymus subcaudatus*; TOULA (264) p. 450.—Vicentino, Italy, *Brissospatangus vicentinus*, n. sp.; MAZZETTI (176).—Victoria, localities of *Echinoidea* and *Antedon breviceps*; TATE & DENNANT (258) p. 225.—(Passage from Cretaceous couches à *Echinanthus*), Pyrenees, *E. heberti*, *E. carinatus*, *E. pouechi*, *E. ataxensis*, *E. rayssacensis*, *E. gracilis*, and other species of *Echinanthus*, *Horiolampas*, *Conocyclus*, *Micraster*, *Hemiaster*, *Echinocorys*, and *Striectechinus*; ROUSSEL (226).

(iii) MESOZOIC.

(a) General:—*Echinodermata* of United States; CLARK (36), *passim* and special table on p. 94.

(b) Cretaceous:—N. Germany, *Cidaridae* and *Salenidae* (pp. 143, 203, & 209), and Regular Echinoids (p. 214); SCHLUETER (236).—*Epiaster* (?) sp. indet., in Glen Rose beds, Texas; HILL (122) p. 21.—(Upper Cretaceous), Haute-Garonne, *Striectechinus pouechi*, n. sp.; COTTEAU (42) p. 738.—Angoulême, horizons and localities of numerous Echinoids and *Pentacrinus carinatus*; ARNAUD (9).—*Micraster aff. aturicus et heberti*; FALLOT (77).—(Pyrope beds), Bohemia, *Antedon pyropa*, n. sp.; ZAHALKA (277).—(Upper Desert Sandstone), *Micraster sweeti*, n. sp.; ETHERIDGE (76) p. 559.—(Upper Cretaceous), Mexico, *Salenia prestensis*, *Pseudocidaris saussurei*, *Pseudodiadema malbosi* ?, *Cyphosoma texana*, *C. aquitanicum*, *Holectypus castilloi*, *Laneria lanieri*, *Pyrina parryi*, *Toxaster elegans*, *Heteraster texanus*, *Enallaster mexicanus*, *E. delgadoi*, *Micraster* sp. ?, *Linthia* sp., *Ananchytes sulcatus* ?, *Macropneustes*, sp. ?; AGUILERA (4) p. 26.—(Danien), Rivières near Tercis (Landes), *Dipneustes aturicus*, n. g. & sp.; COTTEAU (41).—Villagrains in Aquitaine, (Senonian) *Micraster aturicus*, *Echinocorys heberti*, *Echinoconus raulini*, (Danien) *Echinocorys vulgaris* (*acuminati*, var.), *Echinoconus gigas*, also other Echinoids of less importance; FALLOT (78) pp. 353–355.—(Senonian),—Lezennes, d'Estrée-Blanche, and Roisel, N. France, *Micraster beonensis*, *M. gauthieri*, and other species of *Micraster*, *Echinocorys*, *Echinoconus*, *Holaster*, and *Cidaris*; PARENT (208): all species of *HemipeNSTES*; COTTEAU (38): France, *Cirycopeltis peroni*, n. sp.; COTTEAU (39) p. 537: Vernassal near Friuli, *Cidaris papillata*; TOMMASI (262) p. 1115: Tunis, *Pentacrinus peroni*, n. sp., *Balanocrinus africanus*, n. sp.; LORIOL (153): Algeria, *Hemiaster* and *HemipeNSTES*, n. sp., *Echinobrissus subsitifensis*; FICHEUR (81) pp. 419–421.—

(Upper Senonian, Lower Campanian), Charente-Inférieure, *Thylechinus* and *Cyphosoma rejaudryi*, n. spp.; COTTEAU (46) p. 349.—(Middle Dordonian), Charente Inférieure, *Salenia cylindrica*, n. sp., of Dordogne, *Orthechinus boreau*, n. sp.; COTTEAU (46) pp. 346 & 350.—(Upper Senonian) Dordogne, *Hemipneustes arnaudi*, n. sp.; COTTEAU (42) p. 733.—(Hippurite Chalk) France, *Cidaris baussetensis*, n. sp.; COTTEAU (39) p. 545.—(Santonian) France, *Sulenia rudiens*, n. sp.; COTTEAU (39) p. 543.—(Zones of *Micraster* and *Epiaster*) Boulonnais, *M. breviporus*, *M. cortestudinarium*, *M. corbovis*, *M. normanniae*, *M. n. sp.*, *Cardiaster granulosus*, *Cyphosoma* sp., and other *Echinoidea*; PARENT (207).—(Zone of *Micraster cortestudinarium*) near Lille, *Micraster gauthieri*, n. sp., *M. cayensi*, n. sp., *M. bucailli*, n. sp., *M. coranguinum*, var.; (Zone of *M. breviporus*), *M. sanctaemaurae*, *M. normanniae*, *Echinoconus lezennensis*, n. sp.; PARENT (206).—(Zone of *M. cortestudinarium*) Lille, *Micraster gosseleti*, n. sp.; CAYEUX (29).—(Zone of *M. breviporus*), *Echinoidea*; CAYEUX (28).—(Turonian) Silesia, *Cidaris* sp., cf. *subvesiculosa*, *Micraster cortestudinarium*; MICHAEL (184) p. 242.—(Cenomanien),—Artois, N. France, various *Echinoidea*, names only; PARENT (209): Silesia, *Cidaris vesiculosus* and *C. reussi*; MICHAEL (184) p. 240: Algeria, *Hemaster gabrielis* and *H. proclivis*, *Heterodiadema libycum*, *Codiopsis doma*, &c.; FICHEUR (81) pp. 411 & 412: rocks of Lebanon, proved of this age by *Echinoidea*; COTTEAU (47, 48): Sinai, various *Echinoidea*; ROTHPLETZ (224) p. 103.—(Priesener Schichten) Bohemia, *Antedon fischeri*, *Cidaris scepterifera*, *C. subvesiculosa*, *Phymosoma radiatum*, *Micraster de lorioli*, *Holaster placenta*?, *Hemaster regulusanus*, *Cupulaster pauper*, *Stellaster coombii*, *Ophioglypha*? *pulcherrima*; FRIČ (89) pp. 22, 61, & 109.—(Kieslingswalder Gestein) Silesia, *Cardiaster cotteanus*, *Schizaster roemerii*, *Asterias schulzii*; LANGENHAN & GRUNDEY (147) p. 8.—(Aptian, Albian, Cenomanian, Senonian, Maestrichtian) Central Pyrenees and Corbières, lists of *Echinoidea*; ROUSSEL (225).

Lower Cretaceous.—(Berriasschichten) Margofelalpen and “Auf der Schöni,” Switzerland, *Cidaris alpina*; MOESCH, (192) p. 7.—(Rolling Downs Formation), *Pentacrinus australis*; ETHERIDGE (76) p. 439.—(Gault) Artois, N. France, *Catopygus*, cf. *cylindricus*, *Cidaris gaultina*, *C. cf. salevensis*, *C. vesiculosus*; PARENT (209).—(Neocomian) Spain, *Cidaris pyrenaica*; COTTEAU (39) p. 542: Balkans, *Pentacrinus neocomensis* and *Pyrina* sp.; VANKOV (266) p. 97: Somaliland, *Toxuster collegnoi*, *Pygaulus kelleri*, *P. barthi*; MAYER-EYMAR (175) p. 261.—(Aptien, Sables ferrugineux) Grandpré, France, *Cidaris plexa*, n. sp., *Goniocidaris furringdonensis*, *G. arduennensis*, n. sp., *Diplopodia renevieri*, *Polydiadema cotteai*, n. sp., *Hemidiadema rugosum*, *Peltastes lardy*, *Discoides peroni*, n. sp., *Phyllobriussus cerceleti*, *Holaster latissimus*, *Echinospatangus breyniusi*; LAMBERT (145).

(c) Jurassic:—Caucasus, see under *Acrochordocrinus*, *Pentacrinus*, and *Rhabdocidaris*; NEUMAYR & UHLIG (198).—Mexico, *Millericrinus polyclonus*, *Cidaris submarginata*, *Acrocidaris nobilis*; AGUILERA (4) p. 17.—(Upper Jurassic) Poland, *Apocrinus milleri*, *Pentacrinus desori*, *P. amby*

scalaris, *Sphaeraster punctatus*, *Cidaris coronata*, *C. propinqua*, *C. florigemma*, *C. filograna*, *C. abichi*, *Rhabdocidaris remus*, *R. suevica*, *R. nobilis*, *R. caprimontana*, *Stomechinus auroviensis*, *Hyboclypeus* sp., *Echinobrissus goldfussi*, *Collyrites thermarum*, *Dysaster siliceus*; SEMIRADZKI (244) pp. 142-144.—(Tithonian) Crimea, *Phyllocrinus verrucosus*, n. sp., and Echinoid fragments; RETOWSKI (221) p. 288: Algeria, at Soubella and Teniet-Afghan, *Holectypus afer*, *Infraclypeus thalebensis*, *Metaporphinus convexus*, *Collyrites carinata*; FICHEUR (81) p. 401.—(Kimmeridgian and Oxfordian, Katrol and Chareo Groups) Cutch, India, *Cidaris* sp., *Rhabdocidaris* sp., *Pseudocidaris unigranulatus*, n. sp., *Pseudodiadema cutchensis*, n. sp., *Stomechinus* sp., *Holectypus sarthacensis*, *Collyrites dorsalis*, *C. cf. bicordata*, *Pygorhytis tumulus*, n. sp.; GREGORY (102) p. 2: of Kahlberg, near Echte, Germany, list of *Echinoidea*; SMITH (250) p. 346.—(Sequanian, Couches de Ste. Verene) Oberbuchsiten, Switzerland, *Cidaris florigemma*, *C. blumenbachi*, *C. coronata*, *Diplocidaris gigantea*, *Hemicidaris intermedia*, *Acrocidaris nobilis*, *Apiocrinus meriani*, *Pentacrinus desori*, *Balanocrinus signaringensis*; GREPPIN (104) pp. 99 & 105.—(Oxfordian) Brünn, *Pentacrinus briareus*, with *P. subteres*, *P. cingulatus*, and *Eugeniocrinus hoferi*; ZIMMERMAN (279).

(Oolite, Nattheim-kalk) Swabia, *Solanocrinus* and *Eugeniocrinus*; ENGEL (74).—(Middle and Upper Oolites) Yorkshire, lists of Echinoderms; FOX-STRANGWAYS (87), I, pp. 276, 302, 314, 322, 324, 334, 340, 347, 355, 359, 363, 377, and II, pp. 193-199.—(Lower Oolites) Yorkshire, lists of Echinoderms; FOX-STRANGWAYS (87), I, pp. 152, 177, 209, 214, 249, 264, and II, pp. 144-146.—(Between Bajocian and Bathonian) Maine-et-Loire, *Pedina grossouvrei*, n. sp.; COTTEAU (46) p. 344.—(Stufenstein) Switzerland, *Cidaris filograna* and *C. sp.*; MOESCHI (192) pp. 27 & 28.—(Inferior Oolite, Untere Hauprogenstein) near Basle, contains banks of *Cainocrinus andreae*; *Terebratula maxillata* beds are rich in *Hemicidaris langrunensis*; Discoidineen-mergel or Cornbrash contains *Holectypus depressus*, *Echinobrissus clunicularis*, and *Clypeus sinuatus*; GREPPIN (103).

(d) Lias:—England and Wales, except Yorkshire, general list of Echinoderms; WOODWARD (276) pp. 369 & 370.—Yorkshire, lists of Echinoderms; FOX-STRANGWAYS (87), I, pp. 37, 45, 49, 53, 60, 79, 84, 126, 130, and II, pp. 32-36.—(Toarcian) May in Calvados, *Hemicidaris bigoti*, n. sp.; COTTEAU (46) p. 345: Dives in Calvados, *Pentacrinus basaltiformis* and *Eugeniocrinus deslongchampsi*; LIPPmann & DOLLFUS (150) p. 390.—(Middle Lias) Lothringen, *Pentacrinus basaltiformis*, *P. subsulcatus*, *P. oceanii*, *Extracrinus subangularis*; STUBER (255): (?) Kurremölla in Scania, *Pentacrinus* and *Cidaris*; MOBERG (190) pp. 23-27.—(Lower Lias) Lothringen, *Pentacrinus psilonotii*, *P. tuberculatus*, *Cyclocrinus hausmanni*, *Cidaris martini*, *C. cf. itys*, *Pseudodiadema minutum*; STUBER (255): Swabia, *Pentacrinus angulati*, n. sp., and *Ophiura turneri*, n. sp., &c.; ENGEL (74): Gamchilücke, Switzerland, *Pentacrinus tuberculatus*; MOESCHI (192) p. 35: Ugliancaldo and Resti, Italy, *Pentacrinus*; FUCINI (90) p. 294: Calabria, Echinoid spines and *Pentacrinus columnalis*; GRECO (100) p. 79.

(e) Rhaetic :—Montagna di Cetona, Italy, *Hemicidaris* and *Cidaris* spines ; SIMONELLI (246) p. 243.

(iv) PALÆOZOIC.

(a) General :—Cornwall, various ill-determined Crinoids ; COLLINS (37) p. 49.

(b) Trias :—Saxony, list of fossils ; GEINITZ (96) 190.—(Muschelkalk) *Holocrinus* ; JAEKEL (126).—Recoaro, *Ophioglypha granulata* ; NEVIANI (200).—(Muschelkalk, Gorasdzer Schichten) Chorulla, Upper Silesia, *Encrinus*, sp. ; MICHAEL (185).—(St. Cassian beds) S. Tyrol, species of *Encrinus*, *Pentacrinus*, *Cidaris*, and *Rhabdocidaris* ; OGILVIE (205) p. 50.

(c) Permian :—Saxony, list of fossils ; GEINITZ (96) p. 178.

(d) Permo-Carboniferous :—Queensland, species doubtfully referred to *Actinocrinus*, *Platycrinus*, *Stemmatocrinus*, *Poteriocrinus*, *Mesoblastus*, *Granatocrinus*, *Tricelocrinus*, and *Archaeocidaris* ; ETHERIDGE (76) pp. 207–213.

(e) Carboniferous :—*Palechinus sphaericus*, forming a bed at Chanxhe and Comblain-au-Pont, Belgium ; LOHEST (152).—Turkestan, *Cyathocrinus stellatus*, *Poteriocrinus maschatensis*, *Platycrinus hieroglyphicus*, *Rhodocrinus tuberculatus*, n. spp., mostly columnals ; ROMANOVSKII (223) pp. 81–85.—(Lower Carboniferous) Donegal, *Homotachus* ; SOLLAS (253).—Character of Crinoid faunas in the rocks of Iowa ; KEYES (139) pp. 61–67.

. (Coal Measures) Missouri, *Hydreionocrinus subsinuatus* (p. 40), *H. noduliferus* (p. 41), *H. crassidiscus* (p. 43), *H. granuliferus* (p. 44), *Ulocrinus blairi* (p. 57), *U. occidentalis* (p. 58), *Aesiocrinus angulatus* (p. 59), *Eupachycrinus parvus* (p. 60), n. spp., MILLER & GURLEY (188).

(Kaskaskia Group) Indiana, *Zeocrinus bellulus* (p. 34), Virginia, *Z. obesus* (p. 35), Illinois, *Z. nitidus* (p. 36), Indiana, *Scaphiocrinus martinensis* (p. 38), *Onychocrinus parvus* (p. 52), Kentucky, *Granatocrinus sphaeroidalis* (p. 65), n. spp., MILLER & GURLEY (188).

(St. Louis Group) Indiana, *Melonites indianensis* (p. 5), Kentucky, *Oligoporus sulcatus* (p. 8), *Batocrinus lyonianus* (p. 18), Missouri, *Hydreionocrinus sanctiludovici* (p. 40), Illinois, *Talarocrinus trijugis* (p. 45), n. spp., MILLER & GURLEY (188).

(Keokuk Group) Missouri, *Oligoporus blairi* (p. 6), *O. bellulus* (p. 7), Indiana, *Actinocrinus gibsoni* (p. 10), Illinois, *A. angustatus* (p. 11), Iowa, *Cyathocrinus andersoni* (p. 30), Indiana, *C. tumidulus* (p. 31), *C. signatus* (p. 32), *Barycrinus formosus* (p. 33), *Scaphiocrinus arrosus* (p. 39), Kentucky, *Forbesocrinus pyriformis* (p. 47), Indiana, *Taxocrinus crawfordsvillensis* (p. 49), *Goniasteroidocrinus lyonianus* (p. 55), n. spp., MILLER & GURLEY (188).—Missouri, n. spp. of *Agelocrinus*, *Platycrinus*, *Batocrinus*, Indiana, n. spp. of *Rhodocrinus*, *Steganocrinus*, *Batocrinus*, *Eretmocrinus*, *Cyathocrinus*, *Scaphiocrinus*, *Barycrinus*, Kentucky, *Ichthyocrinus* ; MILLER (187).—Iowa, *Eupachycrinus orbicularis* (p. 31) ; WHITFIELD (271).

(Burlington Group) Iowa, *Batocrinus laura* (p. 17), *Eretmocrinus attenuatus* (p. 18), other Crinoids and one Blastoid previously described

by Hall from this locality, and *Batocrinus bisbrachiatus*, n. sp. (p. 13); WHITFIELD (271) : *Actinocrinus arrosus* (p. 15), *A. plagosus* (p. 16), *Eretmocrinus cassedayanus* (p. 17), *Strotocrinus venustus* (p. 26), *Illinois, Actinocrinus erraticus* (p. 14), *Granatocrinus winslowi* (p. 66), n. spp.; MILLER & GURLEY (188) : *Teleocrinus aegilops* (p. 20), Missouri, *Batocrinus obesus* (p. 12); WHITFIELD (271) : *Batocrinus altiusculus* (p. 20), *B. aspratilis* (p. 21), *B. scyphus* (p. 23), *B. laetus* (p. 24), *B. aquabilis* (p. 25), n. spp.; MILLER & GURLEY (188) : n. spp. of *Actinocrinus*, *Dorycrinus*, *Batocrinus*; MILLER (187) : *B. shepardi*, n. sp.; ROWLEY (228).

(Kinderhook Group) Missouri, *Blairocrinus spinosulus*, n. sp., p. 28; MILLER & GURLEY (188).

(Chouteau Limestone) Missouri, n. spp. of *Platycrinus*, *Actinocrinus*, *Blairocrinus*, *Agaricocrinus*; MILLER (187).—*Platycrinus allophyllus*, *P. insolens*, *Blairocrinus*, *Granatocrinus roemerii*, and *G. sp.*; ROWLEY (227).—*G. mutabilis*, n. sp.; ROWLEY (228).

(f) Devonian :—(Hamilton Group) Missouri, *Melocrinus gregeri*, *Taxocrinus concavus*, n. spp.; ROWLEY (228).

(Upper Helderberg Group) Kentucky, *Nucleocrinus greenei* (p. 62), Kentucky and Ohio, *N. venustus* (p. 63), n. spp.; MILLER & GURLEY (188).

(Lower Oriskany) New York, *Edriocrinus sacculus*; BEECHER & CLARKE (14).

(Lower Devonian, Hauptquarzit) Klostergrunde in Harz, *Ctenocrinus*; KAYSER (131) p. 67. Haupt-Kahlebergrandstein, Harz, *Aspidosoma*; HALFAR (111A).

(g) Silurian:—Gotland, the *Crinoidea Inadunata* compared with those of England and America; BATHER (11), *passim* and esp. pp. 6 & 15.—Stratigraphy of Central Bohemia with special reference to Crinoids and Cystids, of which many nomina nuda are quoted; JAHN (127).

(Niagara Group) Indiana, n. spp. of *Holocystis*, *Aethocystis*, *Stribalocystis*, *Stephanocrinus*, *Saccocrinus*, *Cylicocrinus*, *Melocrinus*, *Gazacrinus*, *Cyphocrinus*; MILLER (187).—Tennessee, *Eucalyptocrinus wortheni*, n. sp.; MILLER & GURLEY (188) p. 53.

IV.—SYSTEMATIC.†

(A.)—ECHINODERMA IN GENERAL.

General classification; AGASSIZ (2) p. 8: the following is given by PERRIER (213) pp. 846–864:—

I. Sub-series *Palaeochinodermata*: I Class, *Cystidea*; II Class, *Blastoidea*.

II. Sub-series *Neoechinodermata*: 1. Branch, *Anangia*; I Class, *Stelleroida* (= *Asteroidea*); II Class, *Ophiuroidea*; 2. Branch, *Angiophora*; I Class, *Crinoida*; II Class, *Echinoida*; III Class, *Holothurides*.

† A dagger prefixed to the trivial name of a species indicates that it is fossil; prefixed to the name of the author, it denotes that the reference is to the species in a fossil state; prefixed to the name of a genus, it indicates that all species of the genus here recorded are fossil, and the † is therefore not repeated before each name. The abbreviations *l. c.* and *op. cit.* refer only to the place or work quoted immediately before.

The chief divisions diagnosed ; BELL (16) p. 12 : see also Zool. Rec. 1891,
BELL (5) p. 46.

(B.)—HOLOTHUROIDEA.

†*Holothurian* ?, intestine, preserved fossil ; FRIČ (89) p. 114.

Actinopyga echinates, characters of living animal, p. 236, *A. lecanora*, ditto,
p. 235, *A. mauritiana*, ditto, pp. 229 & 236, *A. obesa*, ditto, p. 235 ;
KENT (135).

A. mamillata, p. 56 [see under *Holothuria mammifera*], *A. polymorpha*,
p. 236, Great Barrier Reef, KENT (135), n. spp.

Anapta fallax, Lamp. ; STUDER (256) p. 287.

Ancyroderma spinosum, nomen nudum ; LUDWIG (156) p. 185.

Benthodytes ; AGASSIZ (3) pp. 77, 79, 83, & 84. *B. gelatinosa*, Walsh,
referred to *Palopatides*, p. 178, *B. incerta*, nomen nudum, p. 179, *B.
sanguinolenta*, Theel, anatomical details corrected, p. 180 ; LUDWIG
(156). *B. (?) typica*, Theel, Azores ; MARENZELLER (164) p. 12.

(F.)—CRINOIDEA.

A large number of names, apparently taken from the unpublished Vol. vii, Abth. ii, of Barrande's "Système Silurien du centre de la Bohême," are quoted in JAHN (127). As these names are at present without meaning, they are not entered here.

General classification discussed, with reference to *Plicatocrinidae* and *Saccocoma*; JAEKEL (125) p. 691. General classification and relation to other *Echinodera*, the name *Pelmatozoa*; AGASSIZ (2) pp. 7-12. Definition discussed; BATHER (11) p. 19.

†*Abacocrinus cappelleri*; BATHER (11) p. 4.

†*Acrochordocrinus amalthei*, Quenst. sp., Eisenoolith, Dsiroula in Imertien, Caucasus; NEUMAYR & UHLIG (198) p. 3.

†*Actinocrinus clarus*, Hall, now first figured, p. 8; *A. eryx*, Hall, *A. glans*, Hall, now first figured and distinguished from *A. eryx*, p. 10; *A. limabrachiatus*, Hall, now first figured, arms only, p. 5; WHITFIELD (271). *A. lobatus*, Worthen non Hall, see *A. augustatus*. *A. opusculus*, Hall, now first figured, p. 9; *A. quarternarius*, Hall, now first figured, but only doubtfully distinguished from *A. proboscidialis*, p. 7; *A. rusticus*, Hall, now first figured, but referred to *A. scitulus*, M. & W.; *A. scitulus*, M. & W., p. 10; *A. securis*, Hall, p. 6; *A. sexarmatus*, Hall, p. 6; WHITFIELD (271). *A. sp.*, Gympie Beds and Star Beds, Queensland; ETHERIDGE (76) p. 207. *A. sp.*, Carboniferous, Turkestan, portion of cup; ROMANOVSKII (223) p. 83. *A. thetis*, Hall, now first figured and distinguished from *A. sexarmatus* and *A. securis*; WHITFIELD (271) p. 6.

†*A. arrosus*, Burlington Group, Iowa, p. 15, *A. augustatus* [error for *angustatus*], nom. nov. for *A. lobatus*, Worthen non Hall, Keokuk Group, Illinois, p. 11, MILLER & GURLEY, Bull. Ill. Mus. iii; *A. blairi*, p. 35, *A. brittsi*, p. 36, Burlington Group, Sedalia, Mo., *A. chouteauensis*, Chouteau Limestone, Sedalia, Mo., p. 18, MILLER, Pal. Indiana, 1892; *A. erraticus*, Burlington Group, Illinois, MILLER & GURLEY, Bull. Ill. Mus. iii, p. 14; *A. fossatus*, Burlington Group, Sedalia, Mo., MILLER, Pal. Indiana, 1892, p. 40; *A. gibsoni*, Keokuk Group, Indiana, p. 10, *A. plagiosus*, Burlington Group, Iowa, p. 16, MILLER & GURLEY, Bull. Ill. Mus. iii; *A. sedaliensis*, Burlington Group, Sedalia, MILLER, Pal. Indiana, 1892, p. 16 : n. spp.

Actinometra bennetti, J. Müll., held to include *A. peroni*, p. 95; *A. brachiolata*, Lam., p. 107; *A. coppingeri*, Bell, variation in brachials, p. 101; *A. divaricata*, Carp., from Amboina, p. 94; *A. fimbriata*, Lam., variation in brachials and in joints, p. 102; *A. gracilis*, Hartl., redescribed and now first figured, p. 111; *A. macrobrachius*, Hartl., redescribed, p. 101; *A. maculata*, Carp., Mortlock Islands, p. 105; HARTLAUB (113). *A. multiradiata*, Linn. sp., from Amboina; Formosa, and Japan; *op. cit.* p. 103: colour; STUDER (256) pp. 194 & 195. *A. parvicirra*, J. Müll., two varieties distinguished, p. 96; *A. pectinata*, Retz. sp., albino, and arms without ambulacratal groove, p. 107; HARTLAUB (113). *A. peroni*, Carp., see *A. bennetti*. *A. pulchella*, Pourt., redescribed and said to be identical with *Comatula echinoptera*, p. 105; *A. regalis*, Carp., variations in arms, p. 99; *A. solaris*, Lam., China Sea, p. 107; *A. stelligera*, Carp., variation in pinnules, p. 104; *A. typica*, Loven sp., variation in arms, p. 108; HARTLAUB (113).

†*Aesiocrinus angulatus*, Coal Measures, Missouri, MILLER & GURLEY, Bull. Ill. Mus. iii, p. 59, n. sp.

†*Agaricocrinus* :—*A. americanus*, Roem., p. 26; *A. corrugatus*, Hall, p. 23; *A. excavatus*, Hall, now first figured and distinguished from *A. americanus* and others, p. 26; *A. ornotrema*, Hall, now first figured, p. 24; *A. pentagonus*, Hall, ditto, p. 25; *A. pyramidatus*, Hall, now first figured and distinguished (?) from *A. corrugatus*, p. 23; WHITFIELD (271).

A. blairi, p. 21, *A. chouteauensis*, p. 43, *A. germanus*, p. 42, Chouteau Limestone, Sedalia, Mo., *A. sampsoni*, Chouteau Limestone, Chouteau Springs, Mo., p. 20; MILLER, Pal. Indiana, 1892, n. spp.

†*Alageocrinus*, morphology ; BATHER (11) p. 21.

†*Ampheristocrinus*, systematic position ; BATHER (11) p. 107.

†*Amphorocrinus* :—*A. divergens*, Hall, type-specimen now first figured, p. 21; *A. inflatus*, Hall, now first figured and distinguished (?) from *A. spinobrachiatus*; *A. spinobrachiatus*, Hall, p. 22; WHITFIELD (271).

†*Anomalocrinus*, morphology and systematic position ; BATHER (11) pp. 20, 35, 41, & 60.

Antedon, de Frem.; BELL (16) p. 52 : evolution ; BATHER (10) p. 275, and HURST (124) p. 199. *A. acuticirra*, Carp., referred to *A. ludoviciana*; HARTLAUB (113) p. 29. *A. aequipinna*, Carp., see *A. imparipinna*. *A. affinis*, Hartl., redescribed and now first figured, p. 25; *A. afra*, Hartl., redescribed and now first figured, p. 87; HARTLAUB (113). *A. amboinensis*, Hartl., see *A. brevicuneata*. *A. andersoni*, Carp., redescribed and figured, p. 78; *A. bella*, Hartl., redescribed and now first figured, with var. *brunnea*, n. var., Amboina, p. 43; *A. bengalensis*, Hartl., redescribed and now first figured, p. 19; HARTLAUB (113). *A. bifida*, Penn.; BELL (16) p. 54 : development and orientation of stem ; BATHER (11) p. 44 : see also under *A. rosacea*. *A. bipartipinna*, Carp., doubtfully referred to *A. ludoviciana*; HARTLAUB (113) p. 29.

†*A. breviceps*, Tate ; TATE & DENNANT (258) p. 226; *A. brevicuneata*, Carp., redescribed with certain variations from the type-specimen, and held to include *A. amboinensis* and *A. similis*, p. 68; *A. brocki*, Hartl., redescribed and now first figured, p. 23; *A. clarae*, Hartl., ditto, p. 41; *A. conifera*, Hartl., ditto, p. 76; HARTLAUB (113). *A. conjungens*, Carp., see *A. imparipinna*. *A. crassipinna*, Hartl., redescribed and now first figured, p. 32; *A. elongata*, J. Müll., redescribed and figured, p. 71; *A. erinacea*, Hartl., redescribed and now first figured, p. 52; HARTLAUB (113). *A. eschrichti*, J. Müll.; BELL (16) p. 53 : testes; DANIELSSEN (6) pp. 19 & 23. *A. finschii*, Hartl., redescribed and now first figured ; HARTLAUB (113) p. 47. †*A. fischeri*, Gein., = *Bourgueticrinus ellipticus*, root figured; FRIC (89) p. 109. *A. flagellata*, J. Müll., redescribed and figured, p. 73; *A. hupferi*, Hartl., redescribed and now first figured, p. 88; *A. imparipinna*, Carp., redescribed and figured, and held to include *A. aequipinna*, *A. conjungens*, and *A. proteeta*, p. 63; *A. japonica*, Hartl., p. 84, *A. kunningeri*, Hartl., p. 46, *A. kraepelini*, Hartl., p. 22, all redescribed and

- now first figured ; HARTLAUB (113). *A. laevipinna*, Carp., see *A. milberti*. *A. lepida*, Hartl., referred to *A. palmata* ; *op. cit.* p. 49. *A. longicirra*, P. H. Carp., variation in length of cirri ; BELL (17) p. 339. *A. ludovici*, Carp., a variety from Amboina described and figured ; HARTLAUB (113) p. 29. *A. macronema*, Müll., variation in first syzygy ; *op. cit.* p. 78 : lives attached to sea-weed ; STUDER (256) p. 185. *A. martensi*, Hartl., redescribed and figured for the first time, p. 21; *A. milberti*, J. Müll., held to include *A. laevipinna*, p. 81 ; *A. monacantha*, Hartl., p. 59, *A. nematodon*, Hartl., p. 27, *A. nana*, Hartl., p. 89, *A. oxyacantha*, p. 55, all redescribed and now first figured ; *A. palmata*, J. Müll., Red Sea, Singapore, and Tonga Is., redescribed and figured, p. 49; HARTLAUB (113). *A. putula*, P. H. Carp., variation in brachials ; BELL (17) p. 341. *A. perspinosa*, Carp., a variety from Amboina ; HARTLAUB (113) p. 85. *A. petasus*, Düb. & Kor.; BELL (16) p. 57 : testes, ovary ; DANIELSEN (61) pp. 19 & 23. *A. phalangium*, J. Müll.; BELL (16) p. 59, STEINDACHNER (254) p. 445 : parasitic *Myzostoma* ; PROUHO (220). *A. prolixa*, Slad. ; BELL (16) p. 58 : testes, ovary ; DANIELSEN (61) pp. 19 & 23. *A. protecta*, Hartl. ex Lütken M. I.—BIOLOGICAL.

1. GENERAL.

SPENGEL's monograph on the *Enteropneusta* (231) deals with the morphology and ontogeny of the group.

Anatomy and histology of *Sipunculus indicus*; FISCHER (87), SHIPLEY (222): of *Ophryotrocha puerilis*; KORSCHELT (136), BRAEM (39): of *Syllids*; MALAQUIN (162). Preliminary account of a new and aberrant *Sabellid*; GIARD (94). Anatomy of *Enchytraeids*; HESSE (116): of new genera and species of *Oligochaeta*; BEDDARD (7, 8), EISEN (83, 84), and BENHAM (11, 12): of *Sutroa*; BEDDARD (9): of Leeches; LEUCKART (143), pp. 535-731.

Anatomy and histology of Scandinavian Cestodes; LÖNNBERG (153): of *Tenia ursina*, n. sp.; v. LINSTOV (149): of *Caryophyllaeus mutabilis*; WILL (263): of Trematodes (3 species of *Monostomum*); WALTER (253): of *Distomum clavigerum*; NOACK (186). Anatomy and physiology of *Bilharzia*; BROCK (47). Anatomy of Exotic Nemertines; BÜRGER (55). Anatomy and histology of *Emea lacustris*; DU PLESSIS (196). Anatomy of Turbellarians of Black Sea; PÉREYASLAWZEWIA (193): of a curious Turbellarian which cannot be classed decidedly with either Dendrocoels or Rhabdocoels; CHAPUIS (66).

Articles on *Eustrongylus* and *Filaria*; BLANCHARD (31). Anatomy of a *Trichosomum*; REIBISCH (203). Comparative anatomy of *Mermis* and *Gordius*; VILLOT (250).

Summary of current knowledge of the *Philodinidae*; JANSEN, O. (132): of the *Gasterotricha*; WAGNER (251). Anatomy of *Cypricola parasitica*, n. sp.; DADAY (75): of other new Rotifers; BRYCE (48, 49, 50), WIERZEJSKI (260), WESTERN (257), ROUSSELET (211). List of new Rotifers since 1889; ROUSSELET (212).

2. INTEGUMENT.

Of *Enteropneusta*; SPENGEL (231), pp. 577-588.

Of *Sipunculus indicus*; FISCHER (87). Histology of cutis and epidermis in *Lumbricus*; CERFONTAINE (64): of the Clitellum; COLE (70). Development of Setæ in *Syllids*; MALAQUIN (162).

Cuticle, Stäbchen and subcutaneous layer of cells in Cestodes; WILL (263). Cutaneous investment of Trematodes; MONTICELLI (172), appendix; WALTER (253), LOSS (156). Integument and stinging organs of Turbellarians; PÉREYASLAWZEWIA (193), pp. 1-31. Mechanism of the stinging cells; PENARD (192). Epidermis of a Turbellarian not ciliated; CHAPUIS (66).

Cuticle of Nematodes; COBB (67): of *Gordius*; JANDA (130), and CAMERANO (61): of *Mermis* and *Gordius* compared; VILLOT (250).

3. MUSCULAR SYSTEM.

Of *Enteropneusta*; SPENGEL (231), pp. 457, 515, 555.

Histology of circular, longitudinal, aciform and setal-sac muscles of *Lumbricus terrestris*; CERFONTAINE (64). Muscles of *Lumbricus* and *Hirudo*; APÁTHY (3): those of *Enchytraeids* shown to be cells of the Nematoid type; HESSE (116).

Muscles of Cestodes; WILL (263): of Nemertines; BÜRGER (55, 57): of Turbellarians; PÉREYASLAWZEWIA, pp. 95-116. A sucker-like muscular mass in a Turbellarian; CHAPUIS (66).

Muscles of *Ascaris*; APÁTHY (3), compared with those of *Lumbricus* and *Hirudo*. Strength and resistance of muscles of *Gordius*; CAMERANO (59).

4. DIGESTIVE SYSTEM.

Alimentary canal and gill slits of *Enteropneusta*; SPENGEL (231), pp. 453-512, 541-576.

"Rectal diverticula" of *Sipunculus* shown not to communicate with the lumen of the intestine; SHIPLEY (222). Development of jaws in *Ophryotrocha puerilis*; BONNIER, BRAEM, KORSCHELT. Jaws of Leeches; CROOCKEWIT (74). Alimentary canal of *Syllids* and the development of the permanent pharynx from the larval one; MALAQUIN

(162, 161). A *Sabellid* with anus close behind the mouth on the ventral surface ; GIARD (94).

Alimentary canal and salivary glands (pp. 142-148) and pharynx (pp. 74-78) of Turbellarians ; PÉREYASLAWZEWKA.

Organ embedded in oesophagus and opening into dorsal wall of pharynx of Nematodes ; HAMANN (109). [“Pharyngeal glands,” see under Organs of Uncertain Function.]

Presence of anus in *Notops pygmaeus* and description of mastax ; ROUSSELET (211). Substitution of the term “pharyngeal loop” for “oesophagus” in macrotracheous *Callidinæ* ; BRYCE (49).

5. BODY CAVITY AND ITS CONTENTS, PARENCHYME, &c.

Coelom of *Enteropneusta* ; SPENGEL (231), pp. 456, 520-529, 533, 534, & 659.

Histology of Coelomic Epithelium of *Lumbricus* ; CERFONTAINE (64) : of *Ophelia* ; SCHAEPPPI (217). Coelomic corpuscles of *Ophelia* ; SCHAEPPPI (217) : their formation in *Micronereis* ; RACOVITZA (199).

Parenchyme of *Caryophyllæus* and other Cestodes ; WILL (263) : of Trematodes ; WALTER (253), LOOSS (156), MONTICELLI (172). Black pigment in Parenchyme lacunæ of a *Distomum* ; BILLET (19). Presence of ganglion cells in Parenchyme of *Distomum* ; SCHUBERG (219) [see also under Nervous System]. Parenchyme, pp. 92-95, body cavity and its liquid, pp. 116-123, of Turbellarians ; PÉREYASLAWZEWKA (193). Division of body cavity in an *Asplanchna* ; ROUSSELET (211).

6. EXCRETORY SYSTEM.

Nephridia and Chloragogen cells of *Ophelia* ; SCHAEPPPI (217) : of *Nephelis* ; GRAF (101). Excretion of *Syllids* ; MALAQUIN (161). Nephridia of *Nereis* ; GOODRICH (99) : of young *Arenicola* ; BENHAM (13) : of *Enchytraeids* ; BOLSIUS (33) : of a *Naid* ; BENHAM (12) : of *Sutroa* ; BEDDARD (9) : of Leeches ; BOURNE (38), LEUCKART (144), and GRAF (101). Excretory nature (?) of “branchiæ” in Polychæts ; BUCHANAN (52).

Excretory system of *Caryophyllæus* ; WILL (263) : of Tænias and relation to other systems ; STILES (233). Structure of end cells of excretory apparatus in a *Distomum* ; SCHUBERG (218). Excretory system and apertures in *Bilharzia* ; BROCK (47).

Contractile vesicle of Rotifers represented by a diverticulum full of Bacteria in a new *Floscularia* ; WIERZEJSKI (260).

7. VASCULAR SYSTEM.

Of *Enteropneusta* ; SPENGEL, (231) pp. 614-647.

Of *Ophelia* ; SCHAEPPPI (217) : of young *Arenicola* ; BENHAM (13) : of *Enchytraeids* ; HESSE (116). Arterial and venous blood of *Nephelis* ; GRAF (101).

8. RESPIRATORY ORGANS.

Gill slits of *Enteropneusta*; SPENGEL, (231) pp. 548-562.

Branchiæ of Polychæts, their nature, and functions other than respiratory in certain species; BUCHANAN, (52) pp. 443-448.

9. ORGANS OF UNCERTAIN FUNCTION.

"Rectal diverticula" of *Sipunculus* shown to be in connection with a system of lacunæ in the walls of the rectum; SHIPLEY (222). Branchia-like structures on a Polynoid; BUCHANAN (52). "Dorsal ciliated organ," probably the morphological equivalent of a gonaduct; GOODRICH (99). "Septal glands" of Enchytraëids shown to secrete an adhesive material and to open eventually into the pharynx; HESSE (116). Glands of post-genital segments in Euchytraëids; HESSE (116).

Laurer's canal of endoparasitic Trematodes; GOTO (100), LOOSS (155), both agree in homologising it with the vitello-intestinal canal of the ectoparasitic forms; but while GOTO homologises it also with the blind sheaths of *Amphilina*, and maintains that it is unrepresented in multi-segmented Cestodes, Looss regards it as equivalent to the uterus of Cestodes. GOTO would homologise the uterus of Cestodes with that of *Amphilina*, and with the vagina of ectoparasitic and the sheath of endoparasitic Trematodes. BILLET (19) describes the canal of Laurer opening to the exterior in *Distomum sinense*. A pair of spherical, rhythmically contracting organs described in *Bilharzia*, lying in the excretory system; BROCK (47).

Organs of uncertain function in Nematodes, pharyngeal glands, &c.; HAMANN (109): dorsal organ of *Diplogaster*; COBB (67).

10. NERVOUS SYSTEM.

Nervous system of *Enteropneusta*; SPENGEL, (231) pp. 590-612: of *Syllids*; MALAQUIN (162).

Sensory nerves of Polychæts; RETZIUS (215). Vesicular tissue of nerve-cord of *Sigalion* and head- and ventral-shield of *Lepadorhynchus* compared to notochord of *Amphioxus*; LWOFF (159).

Primitive character of nervous system of *Caryophyllæus*; WILL (263). Demonstration of peripheral ganglion cells by methylene-blue method in *Distomum* (2 spp.); BRANDES (40), SCHUBERG (218): and of the connection of their processes with muscle cells; BRANDES. SCHUBERG describes similar ganglion cells in the parenchyme. WALTER (253) regards certain large cells often thought to be ganglionic in the parenchyme as really only stages in development of the parenchyme. Nervous system of Nemertines; BÜRGER (55, 57): of Turbellarians; PÉREYASLAWZEWIA, (193) pp. 37-56.

11. SENSE ORGANS.

Sensory nerve endings (spindle-shaped cells over whole surface of body, in mouth-cavity and pharynx, and dendritic cells at the base of the setæ), in *Nereis*, *Nephthys*, and *Lepidonotus*; RETZIUS (205).

Sense-organs of Nemertines; BÜRGER (57). Stiff bundles of setæ supplied with nerves in a Turbellarian; CHAPUIS (66).

Touch-organs in Turbellarians; PÉREYASLAWZEWA, (193) pp. 66-74.

Eyes: of *Alciopids*, embryology and histology; BÉRANECK (14): of *Clepsine*, showing their development from sensillæ; WHITMAN (259). Eyes of Turbellarians; PÉREYASLAWZEWA, (193) pp. 78-92.

Auditory organs: of *Alciopids*, showing their derivation from dorsal cirri; BÉRANECK (15). Otoliths of Turbellarians; PÉREYASLAWZEWA (193) pp. 56-66.

Nackenorgane: of *Syllids*; MALAQUIN (162). Lateral organs of a *Cerebratulus* unconnected with the ganglion; BÜRGER (55). Cephalic clefts of Turbellarians; PÉREYASLAWZEWA, (193) pp. 31-34.

Doubtful sense-organs, in brain of *Sipunculus*; SHIPLEY (218).

12. GENITAL SYSTEM.

Of *Enteropneusta*; SPENGEL, (231) pp. 648-658.

Hermaphrodite gland in an Oligochaet on one side, and other variations in the arrangement of Gonads; WOODWARD (267). Testes of *Sutroa*; BEDDARD (9).

Oogenesis: in *Ophryotrocha*; KORSCHELT (136), BRAEM (39): in *Micronereis*; RACOVITZA (199).

Spermatogenesis: in *Ophryotrocha*; KORSCHELT (136), BRAEM (39).

Spermatophors: of Lumbricids; ROSA (209).

Receptacle seminalis: formed by the modification of a dorsal cirrus in *Asterope candida*; APSTEIN (4).

Evacuation of eggs in *Micronereis*; RACOVITZA (199).

Genital system: of *Tenias*; STILES (233): of *Caryophylleus*; WILL (263): of *Davainea* (ovary functioning as uterus), DIAMARE (80): of another species of *Davainea* (ovary functioning as shell gland); v. LINSTOW (149). [For canal of Laurer of Trematodes, see under Organs of Uncertain Function.] Eggs of *Geonemertes* and their mode of exit: DENDY (77). Reproductive organs of Turbellarians; PÉREYASLAWZEWA, (193) pp. 145-164. Spermatogenesis in Turbellarians; REPIACHOFF (204).

Development of germ-cells of *Ascaris megalcephala*, stages hitherto overlooked; v. WASIELEWSKI (255). Behaviour of chromatin in oogenesis and fertilization; ZOJA (269). Spermatogenesis, BRAUER (41).

Discovery of winter eggs of several species of *Callidina*; O. JANSON (132).

13. REPRODUCTION.

Sexual and asexual : of *Syllids*; MALAQUIN (162) : of *Syllis ramosa*; CORI (73) : of *Ctenodrilus*; MONTICELLI (174). Hermaphroditism of *Ophryotrocha*; KORSCHELT (136), BRAEM (39). Description of male of *Micronereis variegata*; RACOVITZA (199).

Neotenia in *Urogonimus cercatus* and *Archigetes sieboldi*, and the distinction of this process from Pædogenesis; MONTICELLI (172). Reproduction of *Geonemertes*; DENDY (77). Asexual reproduction of Turbellarians; PÉREYASLAWZEWKA (193).

Discovery and description of male of *Filaria* in the Frog; NABIAS & SABRAZÈS (182) : of *Stephanoceros eichornii*; WESTERN (257).

14. DEVELOPMENT, LIFE HISTORY, &c.

Development of different species of *Enteropneusta*; SPENGEL, (231) pp. 363-446.

Cleavage and formation of germ-layers in Chordates compared with that in Annelids; WILSON (266). Development of *Syllids*; MALAQUIN (162) : of *Ophryotrocha*; KORSCHELT (136), BRAEM (39), BONNIER (34). A polytroch larva of a new genus of Polychæt; KORSCHELT (136). Post-larval stage of *Arenicola marina*; BENHAM (13). Relation of re-generation to ontogeny in freshwater Oligochaëts; WAGNER (252).

Development and life-history of Tænias; v. LINSTOW (149) : of *Bilharzia*; SONSINO (226, 227), BROCK (47), MOTY (177). Variations in form of embryo according to quality of water in which it is placed; BROCK (47). Life-history of *Distomum hepaticum*; LUTZ (158) : of *D. sinense*; BILLET (19). Long cilia to embryo of *D. ovocaudatum*; SONSINO (228, 225). Different forms, one moveable and two immoveable (of which one encapsulated), of *Tetracotyle typica*; v. LINSTOW (148). Development of Nemertines, a critical revision; BÜRGER (56). Introduction to comparative embryology of Turbellarians; HALLEZ (107). Development of Turbellarians of Black Sea; PÉREYASLAWZEWKA, (193) pp. 164-187.

Formation of germinal layers in Nematodes; JAMMES (129). Development of *Pseudalium inflexus*; LIST (151) : of *Alantonema sylvaticum* (and life-history); v. LINSTOW (146) : of male and female of *Tylenchus radicola*; COBB (67).

15. VARIATIONS IN SYMMETRY, NUMBER, COLOUR, &c.

Variations in the constitution of the somite in Leeches; BLANCHARD (24 ix).

Spiral segmentation or intercalation of half segments : in Polychæts; BUCHANAN (51) : in Leeches; BLANCHARD (28, 24 xi, 26) : in Cestodes; MONTICELLI (170), BARROIS (6), AHLBORN (1), BORK (36), STILES & HASSALL (234).

Other cases of asymmetry : in eyes of Leeches ; BLANCHARD (22) : in gonads of Oligochaëts ; WOODWARD (267) : in branchiæ of a *Chloëia*, and tentacular cirri of a *Eunice* ; BUCHANAN, (53) p. 175.

Bifurcation : of posterior portion of a *Lumbriculus* ; CORI (73) : of *Dasychone* ; BUCHANAN (53) ; of a primary branchial ray of a *Branchiomma* ; LO BIANCO (152). Double Tænias, resulting in triradiate forms ; BARROIS (6), KÜCHEL (138). Bifurcate (or trifurcate) specimens of *T. saginata* ; AHLBORN (1) : of *Chapmannia tauricollis* ; MONTICELLI (170).

Supernumerary gonads in Oligochaëts ; WOODWARD (267). A supernumerary cirrus on one side in a *Eunice*, and branchiæ in a *Chloëia* ; BUCHANAN, (51) p. 175.

Variation in number : of anal appendages in *Polydora* ; MESNIL (168). Individual variation in number of eyes of *Nephelis* ; BLANCHARD (24 xv) : of hooks in *Tania solium*, and their absence in individuals of *Hymenolepis acuta* ; PARONA & PERUGIA (190 II).

Colour : in Tænias, the cause of the black colour ; NABIAS (181). Black pigment in a *Distomum* ; BILLET (19). Colour variation and its significance in Nemertines ; RICHES (206) : in *Cycloporus papillosus* ; GAMBLE (93) : in *Geoplana fletcheri* ; DENDY (78).

Variations in form : of *Bilharzia* embryos ; BROCK (47) ; of copulatory organ of *Promesostoma* ; GAMBLE (93).

Individual variations : in different species of *Tetrastemma* ; VERRILL (247), and RICHES (206) : in *Eunice philocorallia*, n. sp. ; BUCHANAN (53).

16. PHYSIOLOGY.

Absorption and excretion in *Syllids* ; MALAQUIN (161). Chloragogene of *Ophelia* ; SCHAEPPPI (217). Function of Clitellum of *Lumbricus* ; COLE (70).

Physiology of *Bilharzia* ; BROCK (47).

17. HABITS.

The two species of *Polydora* living on Oysters ; CARAZZI (62) : Polychaëts of the Schleswig Holstein Oyster banks ; MÖBIUS (169). On the homes and tubes of marine Annelids ; MCINTOSH (160). Habits, colouring, and tubes of tubicolous Annelids of Gulf of Naples ; LO BIANCO (152). *Eunice* inhabiting *Lophophelia* ; BUCHANAN (53), MARENZELLER (165). *Ctenodrilus* in Holothurians ; MONTICELLI (171). Leech-like parasites in American Cray-fish ; MOORE, J. P. (176). Phosphorescent Earthworms of Berlin ; MATZDORF (166). Habits of Earthworms ; ROSA (207), SMITH (223). Prevention of blood coagulation by Leeches ; CROOCKEWIT (74). Tracks made by *Clepsine* in sand ; WELTNER (256).

Longevity of adult *Bilharzia* ; MOTY (177). Habits of British Nemertines, and their relations to their surroundings ; RICHES (206). Mode of

life of *Emea lacustris*; DU PLESSIS (196). Habits of British Turbellarians; GAMBLE (91, 93). Hardiness and scavenger habits of a Planarian; RASPAIL (201).

Habits of Nematodes associated with different plants; COBB (67) : sugar-cane in particular; COBB (69). A Nematode embedded in the shell of a hen's egg; PAVESI (191). Polyhelminthes of an *Echino-rhynchus* in a Dolphin; PARONA (189).

Construction of lorica of *Brachionus*; THORPE (241) : of tube of *Melicerta*; HELM (114). A free-swimming *Floscularia*; WIERZEJSKI (260). Seasonal appearance of Rotifers and their eggs in the Rhine; LAUTERBORN (140) : in the Holstein Lakes; APSTEIN (5). List of symbiotic and parasitic Rotifers; DADAY (75).

18. THEIR PARASITES, COMMENSALS, &c.

Parasites (Protozoa, a young Distomum, a Nematode, and Copepods) of *Enteropneusta*; SPENGEL, (231) pp. 755 & 756. Gregarines of Polychaets; LÉGER (142). A proliferating cystic parasite of Earthworms; HASWELL & HILL (112). *Epistylis* commensal on neck gland of Holstein, Spanish, and Syrian, but not of French, *Glossiphonia bioculata*; BLANCHARD (22). Gregarines (encysted) in parenchyme of an *Amphiporus*; BÜRGER (55).

19. CLASSIFICATION.

SPENGEL (231) concludes that the Enteropneusta have no special affinities with the Chordata, the Nemertines, or Echinoderms, nor with the Annelids, except that the ancestors of both groups have to be sought in the Platyhelminthes. He accepts as the nearest allies of the Enteropneusta, *Cephalodiscus*, *Phoronis*, &c., but does not discuss the relationship of these to other animals.

The classification of the *Eunicidae* as affected by the development of *Ophryotrocha*; BONNIER (34) : of *Polydora* and its allies; MESNIL (168), CARAZZI (62) : of the terrestrial Oligochaeta; EISEN (82, 83), ROSA (207, 208), BEDDARD (7, 8). Proposal to remove *Ctenodrilus* from the Chaetopods, and to regard it either as a primitive or a much degenerate Annelid; MONTICELLI (174).

The primitive nature of *Caryophylleus*; WILL (263). Classification of Nemertines; BÜRGER (57) : of Turbellarians; HALLEZ (106). The acelism of the so-called "acelous" Turbellarians shown by development not to be a primitive characteristic, and the name *Pseudoacæla* proposed for the group; PÉREYASLAWZEWIA (193). Classification of Polyclads; BERGENDAL (17).

Classification of Rotifers; DADAY (75) : of *Philodinidae*; O. JANSON (132). Relationship of Gastrotricha to the Rotifera; WAGNER (251).

A new Mesozoon, and its relation to *Trichoplax*; MONTICELLI (173). The Mesozoa regarded as degenerate Metazoa, and the Ctenophora as primitive; THIELE (238).

20. METHODS AND EXPERIMENTAL OBSERVATIONS.

For staining sensory nervous system of Polychæts; RETZIUS (205). For preserving and staining *Polydora*; CARAZZI (62). For studying excretion in *Syllids*; MALAQUIN (161); in *Nephelis*; GRAF (101). The advantages of hot and cold corrosive sublimate for preserving the muscles of *Ascaris* and *Hirudo*, respectively; APATHY (3).

The different effects of different preserving fluids on Cestodes; STILES & HASSALL, (234) p. 98.

For preserving and studying *Caryophylleus*; WILL (263). Methylene-blue treatment of *Distomum*; BRANDES (40), SCHUBERG (218).

For studying anatomy of Nematodes; REIBISCH (203): germ cells of *Ascaris*; WASIELEWSKI (255), BRAUER (41).

For preserving Rotifers; ROUSSELET (213).

Experiments in producing black Tænias; NABIAS (181), cf. BILLET (19): in producing changes of form of *Bilharzia* embryos; BROCK (47): on feeding a Planarian; RASPAIL (201).

Effects of lowering the temperature below zero on the ripening and fertilization of the eggs of *Ascaris*; SALA (215). On the vital resistance of *Anguillula aceti* to different physical and chemical agencies; PALLECHI (188). Resistance of muscles of *Gordius*; CAMERANO (59).

Introduction of *Filaria* of Rabbit into Ferret; RAILLIET (200): of *Trichosoma* into Mouse; PARONA & PERUGIA (190 III).

21. MEDICAL NOTES.

Occurrence and effects of Cestodes, Trematodes, and Nematodes in Man; MÜHLMANN (179), LEUCKART (143). Worms producing an appearance of tuberculosis in beef and mutton; GILES (96). Diseases of domestic animals of Japan due to worms; JANSON (133).

Statistics of *Echinococci* of muscle; MÜLLER (180): and of Nematodes; HEISIG (113). Effects of *Distoma sinense*; MOTY (178). Longevity of *Bilharzia*; MOTY (177).

History of *Trichina* in Man; CERFONTAINE (63). Detection of *Trichina spiralis*; SHERMAN (221). Its introduction from a Rabbit into a Ferret; RAILLIET (200). Reflex meningitis caused by *Acaris lumbicoides*; BUGLIONI (54). Ecdysis of *Filaria sanguinis hominis* produced by viscosity of blood or, experimentally, by chilling the blood; MANSON (164). Its occurrence by day as much as by night; LAVARIN (141). Art. *Filariosis* in Grande Encyclopédie; BLANCHARD (31).

22. DISTRIBUTION OF PARASITIC FORMS ACCORDING TO THEIR HOSTS.

a. General.

PARONA (189) discusses parasitism in relation to hosts in general, and introduces the new terms "homopolyhelminthesis," for where there are many worms all of one species in one host, and "allopolyhelminthesis," where there are several different species.

Summary of recent work on animal parasites (Cestodes, Trematodes, Nematodes, and *Acanthocephala*) ; BRAUN (42). Enumeration of parasites (same groups) in Mammals, Birds, Reptiles, Amphibians, and Fish of Istria and the Mediterranean ; STROSSICH (235).

Synoptic tables for the identification of *Tænias* of Man and the domestic animals ; GALLI-VALERIO (90). Habitats of parasitic Trematodes of Man and the lower animals ; BRAUN (43). Cestodes and Trematodes of the Zoological Museum at Palermo, and their hosts ; MONTICELLI (170).

Nematodes parasitic in the alimentary canal of various fish, and fish-eating birds and mammals ; JÄGERSKIÖLD (128). Worms of the blood ; BLANCHARD (25).

b. *Man.*

Trematodes and Leeches ; LEUCKART (143). *Echinococci* in Man ; SANGALLI (216). *Bilharzia* ; SONSINO (227), and LEUCKART, (143) p. 519.

Statistical distribution of Nematodes among 230 people ; HEISIG (113). Embryos of *Filaria sanguinis* occurring both by day and night ; LAVARIN (141).

c. *Other Mammals.*

Anthropoid Apes : Cestodes compared with those of man and of the lower monkeys ; BLANCHARD (29). Cattle and sheep : Cestodes ; STILES & HASSALL (234) : Cestode embryos simulating the appearance of Tuberculosis ; GILES (26). Sheep and rabbits : Cestodes and Nematodes, and their effect on the infected animal ; HUTCHINSON (123). Horse : Eggs of *Distomum* in lung ; WILLACH (264) : in liver ; RATZ (202). Abyssinian antelope : *Strongylus filaria* ; SETTI (220). Hungarian pig : *Cheiracanthus hispidus* ; v. LINSTOW (147). *Atherura armata* : *Oxyuris flagelloides*, n. sp. ; JÄGERSKIÖLD (128). Hyrax : Cestodes ; SETTI (220). Bear : Cestodes ; v. LINSTOW (149). Wolf : *Dochmias trigonocephalus* ; POSITANO-SPADA (197). *Herpestes* : *Cysticercus herpestes* and *Ascaris canis* ; SETTI (220). Cat : 2 species of *Dipylidium* ; DIAMARE (79) : an *Echinococcus* ; NEUMANN, G. (185) : 4 Cestodes, 3 Distomas, and an *Ascaris* ; BRAUN (44). Whales : 2 Cestodes ; LÖNNBERG (153 II). Bats : Cestodes (one in a species said to be frugivorous) ; PARONA & PERUGIA (190 II) : Distomas ; SONSINO (229), v. LINSTOW (148). Dolphin : an *Echinorhynchus* ; PARONA (189). Rabbit : a *Cænurus* in the pericardium ; CONDORELLI-MANGERI (72). Mouse : a *Trichosoma* in liver ; PARONA & PERUGIA (190 III). Ferret : artificial introduction of *Trichina spiralis* of Rabbit ; RAILLIET (200). Otter : *Filaroides mustelarum* ; NEUMANN, R. (184). *Echidna* : a new species of *Tænia* ; THOMPSON (239).

d. Birds.

Angiostomum in lung of a Bird; STOSSICH (236). *Chapmannia tauricollis* in *Rhea*; MONTICELLI (170). *Distomum* in *Podiceps minor*; v. LINSTOW (148). In *Turdus merula* (Cestodes); v. LINSTOW (148).

Filarias of Duck; HAMANN (108). *Trichosomum* in oesophageal epithelium of a pheasant; REIBISCH (203). *Heterakis* embedded in shell of hen's egg; PAVESI (191). Echinorhynchi of Birds; CONDORELLI-FRANCAVIGLIA (71); a new species in *Mergus serrator*; OLSSON (187). Cysts of *E. magretti* outside trachea of *Lamprotornis chalybea*; SETTI (220).

e. Reptiles.

Angiostomum in lung of a reptile; STOSSICH (236). *Distomum* of Snakes; SONSINO (229): of Chameleon (3 unnamed species), and of Chelone (1 species); SONSINO (224). *Oxyuris paronai*, n. sp. of *Macrosceles coctei*, Cape Verd Is.; v. LINSTOW (147).

f. Amphibians.

Angiostomum in 7 species of Amphibians; STOSSICH (236). *Distomum* in different parts of Frog; SONSINO (224).

Filaria of blood of Frog; NABIAS & SABRAZÈS (182).

g. Fish.

In Scandinavian freshwater fish: (Leeches, Trematodes, Cestodes, and *Acanthocephala*, and several larval forms); OLSSON (187). From Yellowstone National Park: Fish Entozoa; LINTON (150). In *Orthagoriscus mola* (3 species of *Distomum*); MONTICELLI (172). In *Lichia amia* (a new species of *Distomum*); STOSSICH (235). In *Lota vulgaris* of Germany (hydatids of *Bothriocephalus latus*; BRAUN (45). In *Raniceps niger*, (*Bothriocephalus neglectus*, n. sp.); LÖNNBERG (154). In *Thymallus vulgaris* (2 species of Filaria and an *Echinorhynchus*); v. LINSTOW (148): a Trematode; OLSSON (187). In *Ranania truncata* (a new species of *Agamoneema*); STOSSICH (235). In *Tetronodon stellatus* (a new species of *Icthyonema*); JÄGERSKIÖLD (128). In *Leuciscus atrarius* (cysts of a *Distomum* sp. ?) LINTON (150) p. 553. In a *Torpedo* (a Cestode); MONTICELLI (170). In a Selachian from Java (a new species of *Onchobothrium*); LÖNNBERG (154). In *Lamna cornubica* (2 Cestodes); LÖNNBERG (153 II). In *Coryphaena* from Hawaï (a *Distomum*); LUTZ (157). In an unknown fish (*Bothriocephalus peltcephalus*, n. sp.); MONTICELLI (150). Fishes as intermediate hosts of Distomas of Cats; BRAUN (44).

h. *Molluscs.*

The 2 species of *Polydora* commensal on Oysters, and their effects on the Oysters ; CARAZZI (62).

Bucephalus in *Cardium* and *Mactra* ; HUET (122). Redia and Cercaria of *Distoma* in *Melania* ; LUTZ (157), BILLET (19).

i. *Crustaceans.*

Branchiobdella, or allied genus, ectoparasitic on American Crayfish ; MOORE, J. P. (176).

Cestode in liver of *Hyas aranea* ; VAULLEGARD (246). Cysticercus of *T. microsoma* in *Cyclops agilis* ; ROSSETER (210).

Daphnia pulex as intermediate host of *Filaria* of Duck ; HAMANN (108).

Palamoneutes as a host for *Nectonema agile* ; WARD (254).

A Rotifer ectoparasitic on *Cypris incongruens* ; DADAY (75).

j. *Insects.*

A tailed cysticercoid of *Tænia serpentulus* in *Geotrupes silvaticus* ; v. LINSTOW (149). Larvae of *Distomum endolobium* found in larva of *Anabolia*, *Ephemera*, and *Chloëon* (also in adult *Ephemera*) ; v. LINSTOW (148).

Nematodes of pharyngeal glands of Ants ; JANET (131). *Allantonema* in *Geotrupes* ; v. LINSTOW (146). *Asconema* in Cecidomyiid Fly ; GIARD (95). A *Mermis* in pharyngeal gland of *Lasius flavus* ; JANET (131). A *Gordius* in *Phyllodromia* ; CAMERANO (61) : in *Mantis* ; CAMERANO (60) : in *Aethiomerus adelphus*, CAMERANO (60).

k. *Vermes.*

Young *Distoma* in proboscis and collar cavity of a *Balanoglossus* ; SPENGEL (231).

A proliferating cystic parasite in the Earthworm ; HASWELL & HILL (112).

l. *Echinoderms.*

2 Annelids, a new species of Rhabdocœl, and a Nematode in Holothurians of Naples ; MONTICELLI (171).

m. *Cœlenterata.*

A *Distomum* in *Beroë ovata* ; MONTICELLI (172).

n. *Plants.*

Plant diseases caused by *Aphelenchus* : Bos (37). Nematode worms of banana, celery, lettuce, &c. ; COBB (67) : of sugar cane ; COBB (69).

II.—FAUNISTIC.

1. MARINE FORMS.

a. Arctic Ocean.

[Nothing.]

b. Atlantic Ocean.

Baltic : Turbellarians of E. Baltic (2 new species) ; BÖHMIG (32) : of Swedish coast (2 new species and 1 new genus) ; BERGENDAL (16, 17).

North Sea.—Firth of Forth : *Lineus marinus*, Mont., and *Ammotrypane aulogaster*, Rthk. ; SCOTT (219). *Brachionus tridens*, n. sp., in salt and brackish water, Scotland ; HOOD (119). Free living Nematodes of North Sea and English Channel ; DE MAN (163). Animals living on Schleswig Holstein oyster banks (11 Polychæts and a *Sagitta*) ; on Heligoland oyster banks (9 Polychæts, all different but one) ; MÖBIUS (169).

English Channel : Boulonnaise coast, *Syllidae* ; MALAQUIN (162) : *Ophryotrocha* ; BONNIER (34). Plymouth : 33 species of Nemertines, 4 new and 4 others new to Britain ; RICHES (206) : 56 species of Turbellarians, 4 new and 23 others new to Britain ; GAMBLE (91, 92). Falmouth : Nematodes, including 13 species belonging to 12 genera, 9 species and 3 genera new ; DE MAN (163).

Irish Sea : 15 species of Port Erin Nemertines ; VANSTONE & BEAUMONT (245). A *Dinophilus*, *Spadella*, and *Myzostoma* ; HERDMAN (115). Turbellarians of L. M. B. C. District, 27 species, 5 new to Britain (12 species the same as at Plymouth) ; GAMBLE (91, 93).

West Coast of Ireland : Polychæts of deep sea, including 1 new species and 1 new to Atlantic ; BUCHANAN (53). *Notholca hoodi*, n. sp., at Westport ; WESTERN (257).

Mediterranean : *Enteropneusta* ; SPENGEL (231). Geographical distribution of Polychæts in Mediterranean, according to soil, depth, &c., including 3 new species and several others new to the Mediterranean or to the Bay of Naples ; LO BIANCO (152). Polychæts of East Mediterranean in deep water, including 3 new species, 3 new to Mediterranean, and 12 species of Serpulids ; v. MARENZELLER (165). 6 species of *Polydora*, CARAZZI (62) ; *Alciopids*, APSTEIN (4). Bay of Naples : Free-living Nematodes, including 8 new species ; COBB (68) pp. 390, 392, 399, 411, 416, 419: 2 new littoral species of Oligochæts (1 new genus) ; HESSE (116) : Annelids, a Rhabdocœl and a Nematode in Holothurians ; MONTICELLI (171) : parasites in fish of Mediterranean ; STOSSICH (235) : a new Mesozoon ; MONTICELLI (173). Gulf of Genoa : *Echinorhynchus* in a Dolphin ; PARONA (189) : a *Distomum* in *Beroe ovata* ; MONTICELLI (172).

Black Sea : 46 species belonging to 16 genera, of Turbellarians, including 19 new species (and 3 new varieties) belonging to 10 genera, of which one (*Darwinia*) is new ; PÉREYASLAWZEWIA (193).

Gulf Stream : 2 remarkable pelagic Nemertines ; VERRILL (247).

E. coast of North America.—Off Cape Breton I. and Nova Scotia, a new species of *Bulanoglossus* ; SPENGEL (231) p. 297. Off coast of New England : Nemertines ; GIRARD (97) p. 244 ; VERRILL (247) (several new species) : *Dinophilus* (2 new species) ; VERRILL (248) : Turbellarians ; GIRARD (97) pp. 188 & 223 ; VERRILL (249) (several new species).

Bahamas : a new species of *Ptychodera* (*Enteropneusta*) ; SPENGEL (231) p. 185.

Mexico : a new species of Nemertine ; BÜRGER (55) p. 236.

W. coast of Africa : (5° 48' N., and 14° 20' W., at a depth of 2500 fath.) *Glandiceps abyssicola*, n. sp. (*Enteropneusta*) ; SPENGEL (231) p. 266. An Alciopid (*Callizona angelina*) ; APSTEIN (4).

Mouth of the Congo : *Eupolyodontes cornishii*, n. g. & sp. of Polychæt ; BUCHANAN (52).

Rio Janeiro : 2 new species of *Enteropneusta* ; SPENGEL (231) pp. 126 & 192.

S. Georgia : Nemertines, including 10 new species ; BÜRGER (55).

c. Indian Ocean.

Red Sea : a new species of *Ptychodera* (*Enteropneusta*) ; SPENGEL (231) p. 173. A *Cerebratulus* ; JOUBIN (184).

Mauritius : a new species of Nemertine ; BÜRGER (55), p. 230.

Ceylon : 2 new genera and species of Nematodes ; COBB, (68) pp. 391 & 420.

Java : Nemertines ; BÜRGER (55), pp. 236, &c.

d. N. Pacific Ocean.

Japan : *Bulanoglossus sulcatus*, n. sp., SPENGEL (231) ; *Laetmonice producta*, BUCHANAN (53).

Hawaii : *Distomum clavatum* in *Coryphaena*, LUTZ (157).

e. S. Pacific Ocean.

E. coast of Australia : a *Bulanoglossus* from coast of N. S. Wales ; HILL, J. P. (117). 9 species of Nematodes from Port Jackson ; COBB (68), pp. 394, 401-409, & 415.

S. coast of Australia : a new species of Nematode from Port Adelaide ; COBB (68), p. 417.

W. coast of Australia : 2 new species of *Alciopids* ; APSTEIN (4), pp. 146-148.

Coast of Peru : a new species of *Schizocardium* (*Enteropneusta*) ; SPENGEL (231), p. 216.

2. LAND AND FRESHWATER FORMS.

Geographical distribution of Earthworms ; ROSA (207, 208).

The restricted distribution of freshwater Oligochaeta ; EISEN (85).

The existence of an antarctic continent, sending arms to New Zealand, Patagonia, and S. Africa, supported by the distribution of Earthworms ; BEDDARD (10).

Geographical distribution of Cestodes of Cattle and Sheep ; STILES & HASSALL (234).

a. Palaeartic Region.

The 5 species of freshwater Leeches in North Europe ; BLANCHARD (24 x), including 2 new species belonging to a new genus *Placobdella*.

Jan Mayen : Lagune in north of island, 3 Rotifers only at all abundant ; POUCHET (198).

Scandinavia : 90 species (10 new) and several larval forms : of parasitic Leeches (2 species), Trematodes (20 species), Cestodes (50 species), and *Acanthocephala* (18 species) ; OLSSON (187). W. of Sweden : a new *Bothriocephalus* in *Raniceps niger* ; LÖNNBERG (154).

British Isles.—London neighbourhood : *Philodina commensalis*, n. sp. ; WESTERN (257). Epping Forest : *Callidina pusilla*, n. sp. ; BRYCE (49) : *Metopidea parvula*, n. sp. ; BRYCE (50) : *Callidina longirostris*, Jansen ; WESTERN (257, 258). Keston Common : *Floscularia pelagica*, n. sp. ; ROUSSELET (211). Roehampton : *Rattulus bicornis*, n. sp. ; WESTERN (257). Bognor : *Callidina cornigera*, n. sp. ; BRYCE (49). Near Oxford : *Nais heterochæta*, n. sp. ; BENHAM (12). Scotland : *Rattulus bicornis*, n. sp. ; WESTERN (257) : *Floscularia spinata* and *Polyarthra aptera*, n. spp. ; HOOD (119) : *Oecistes brevis*, n. sp. (Hood) ; ROUSSELET (211). Gareloch Head, N.B. : *Adineta clauda*, n. sp. ; BRYCE (48). Ireland : two new species of Earthworms ; FRIEND (89) : *Rattulus bicornis*, n. sp. ; WESTERN (257) : 159 species of Rotifers, of which 23 (? 24) are new ; GLASCOTT (98).

France : list of Turbellarians so far found in North of France ; HALLEZ (106). Paris neighbourhood : Rotifers, *Chatonotus*, Nematodes and Planarians ; CERTES (65). Lakes of French Jura : 6 pelagic Rotifers ; GUERNE & RICHARD (103). Lakes of Hautes Pyrénées : 4 pelagic Rotifers ; GUERNE & RICHARD (104). Near St. Jean de Luz (S. of France) : a new and very large terrestrial Planarian ; GRAFF (102), MATZDORFF (166). At Cazan (S. W. France) : a new and very large species of Earthworm, *Allolobophora savignyi* ; GUERNE & HORST (105).

Spain : 12 species of Leeches ; BLANCHARD (28).

Azores : 2 species of Leeches ; BLANCHARD (21).

Teneriffe : 2 species of *Microcolex* ; UDE (244).

Cape Verd Islands : *Oxyuris paraoni* from *Macroscincus coctei* ; V. LINSTOW (147).

Germany : Rotifers of the Rhine and its by-waters, 4 species and 2 genera said to be new ; LAUTERBORN (139, 140). Plankton of the different Holstein Lakes according to season ; APSTEIN (5). Great Lake of Plön : 13 Turbellarians (1 new), 5 Nematodes, 6 Leeches (1 undetermined), 5 Oligochaëts, 37 Rotifers (7 new), 3 Gastrotricha ; ZACHARIAS

(268) : Leeches ; BLANCHARD (23). Province Hannover : Enchytraeids (5 species of *Fredericia*, 2 of *Enchytraeus*, 3 of *Henlea*, 1 of *Buchholzia*, 1 of *Mesenchytraeus*, 1 of *Pachydrilus*, 1 of *Anacheta*) ; UDE (243) : *Philodina* from neighbourhood of Bremen ; JANSON (132) : on a mountain near Bückeburg, a *Geotrupes* infested by *Allantonema sylvaticum*, n. sp.; v. LINSTOW (146). Berlin : phosphorescent Earthworms ; MATZDORFF (166). A new species of *Trichosoma* in German Pheasants ; REIBISCH (203).

Switzerland : Nematodes and Rotifers of 7 Lakes of the Rhone region (1 new species of Rotifer) ; IMHOF (125) : distribution of 15 species of Swiss Rotifers according to height of lakes above sea level ; IMHOF (126). Eurhyaline Rotifers in Alpine Lakes ; IMHOF (124). Lake of Geneva : Nemertines (*Emea lacustris*, n. g. & sp.) ; PLESSIS (195, 196). Lake of Champez : Nematodes (larvæ and an adult), 5 Rotifers (2 pelagic), *Icthydium larus*, Leeches (*Clepsine*) and Oligochaëts (*Aeolosoma*, sp.) ; STUDER (237). Lake of Brienz : *Cystobranchus* on Fish ; BLANCHARD (26).

Shores of Mediterranean : Parasites of Mammals, Birds, Reptiles, Amphibians, and Fish ; STOSSICH (235).

Italy.—Piedmont : Leeches, 8 species ; BLANCHARD (27). Freshwater Dendrocoels of North Italy (10 species belonging to 3 genera and 2 varieties) ; BORELLI (35). *Taenia*s of Rome and its province ; ALESSANDRINI (2). Mt. Vesuvius and Pompei : 2 new species of *Dorylaimus* ; COBB (67), p. 45. Sardinia : *Hirudo troctina* (for the first time out of Africa) ; BLANCHARD (26).

Austria.—Carinthia : a *Xerobdella* at height of 1800 metres ; BLANCHARD (26). In the region between the Danube and Theiss, and beyond the Theiss, 25 species of Rotifers belonging to 15 genera (1 being *Chaetonotus*, and 1 a new species) and a new species of Nematode ; DADAY (76) : *Cheiracanthus hispidus* in a Hungarian pig ; v. LINSTOW (147). Galicia : 3 species of *Gordius* (2 new) ; JANDA (130) : a non-sessile *Floscularia* near Krakau ; WIERZEJSKI (260).

Russia : Turbellarians of neighbourhood of Moscow ; KOSCHOWNIKOFF (137). Transcaucasia : *Limnatis niloticus* and other Leeches ; BLANCHARD (26).

Syria : 15 species of Earthworms (4 new of *Allolobophora*), all the old ones being palearctic species from the shores of the Mediterranean or further east, none from the Ethiopian Region or the South ; ROSA (209) : 7 (? 8 or 9) species of Leeches ; BLANCHARD (22, 30).

Japan : parasites of domestic animals (Cestodes, Trematodes, and Nematodes) ; JANSON (133).

b. Oriental Region.

China : 9 species of Rotifers (7 new, and 1 new genus, *Octotrocha*) ; THORPE (240).

Tonkin : a new freshwater Sabellid (*Caobangia billeti*, n. g. & sp.) and a new species of *Tubifex* (*T. contrarius*) ; GIARD (94) : *Distomum sinense*

in a coolie, with the *Melania* infested by *Caobangia* as its probable intermediate host; BILLET (19).

India: *Moniligaster indicus*, n. sp.; BENHAM (11). Seebpore: *Perionyx intermedius*, n. sp.; BEDDARD (8), p. 686.

Singapore and Penang: *Microdrilus saliens*, n. g. & sp.; BEDDARD (8), p. 683.

Malay Archipelago: 33 species of *Perichaeta* (7 new); HORST (120). Sumatra: *Perichaeta urceolata*, n. sp.; HORST (120). Java: *P. tijbodae* and *P. inflata*, n. spp.; HORST (120), pp. 326 & 327: *P. pusilla* and *parva*, n. spp., and *P. capensis*, Horst; UDE (244), pp. 61-64: *Microdrilus saliens*, n. g. & sp.; BEDDARD (8), p. 683: *Paecilobdella granulosa*; BLANCHARD (26). Borneo: *Perichaeta bosschia*, n. sp.; HORST (120), p. 324: *P. capensis*, Horst; UDE (244), p. 61. Sumba: *P. variabilis*, n. sp., p. 319; East Flores, *P. falcata*, n. sp., and *P. ? sangirensis*, Mich., pp. 316 & 317; Groot Bastaard, *P. Forbesii*, Bed.: HORST (120).

c. Australian Region.

Australia.—South Australia: *Geonemertes quinquilineata*, Fl. & Ham., and *G. fletcheri*, with var. *adelaideensis*; DENNY (78) pp. 185-188. New South Wales: *Temocephala*, *Craspedella*, n. g., and *Actinodactylella*, n. g.; HASWELL (110, 111). Clarence River Sugar-canies: 30 species of Nematodes, all new but 4, and belonging to 14 genera, of which 3 are new; COBB (69). Sydney: a tape-worm from *Echidna*; THOMPSON (239): 10 species of Nematodes, 9 (? 8) new, belonging to 7 genera; COBB (67) pp. 12, 20, 21, 29, 36, 39, 44, & 53. Moss Vale: 3 species of Nematodes belonging to 3 genera; COBB (67) pp. 11 & 38. Victoria: 22 species of *Perichaeta* (20 new); SPENCER (230). A *Temocephala* from Gippsland; HASWELL (110) p. 139.

Tasmania: 7 species of *Geoplana* (3 new and 1 new variety); DENNY (78) pp. 178-184.

New Zealand: Notes on Earthworms; SMITH (223): *Acanthodrilus*, 2 new species (pp. 675-677), *Octochaetus*, n. g., with 2 new species, pp. 668-674; BEDDARD (8).

Fiji: 24 species (23 new) of Nematodes belonging to 11 genera, mostly attacking or found about the roots of the Banana plant; COBB (67) pp. 8-10, 13-19, 20, 30, 34, 40-44, 45, 47, 51-53.

Sandwich Isles: A *Tenia* and 5 Nematodes in Man; LUTZ (157). Cercaria of *Distomum hepaticum* in 5 Gastropods, and their distribution in the different islands of the group, according to the distribution of these hosts, there being more in Oahu and Kauai than in the others; LUTZ (158).

d. Ethiopian Region.

N. E. Africa.—Shores of Red Sea: Parasites of the animals there, including several Cestodes, 3 new species Nematodes (in Mammals), and an *Echinorhynchus* in a bird; SETTI (220).

W. Africa.—Lagos : *Pygmaeodrilus lacuum*, n. sp., p. 259, *Alvaina milsoni*, n. g. & sp., p. 271 ; BEDDARD (7) : *Benhamia crassa*, n. sp., BEDDARD (8) p. 681.

W. Central Africa.—Upper Congo : *Benhamia congica*, n. sp., HORST (121). French Congo : *Gordius raphaelis*, n. sp., in *Phyllodromia*, and *G. verrucosus* in *Mantis*, CAMERANO (61).

E. and S. E. Central Africa.—Magila : *Polytorentus magilensis*, n. sp., BEDDARD (7) p. 243. Nyassaland : *Benhamia whytei*, n. sp., BEDDARD (8) p. 680.

S. Africa.—Durban : *Eudriloides durbanensis* and *Ilyogenia africana*, n. g. & sp., BEDDARD (8). *Taenia actinoides*, STILES & HASSALL (234).

Madagascar.—2 new species of *Gordius* from a *Mantis*, and from a Conocephalid ; CAMERANO (60).

e. Neotropical Region.

Falkland Isles.—*Acanthodrilus falcandicus*, n. sp., BEDDARD (8) p. 678.

Patagonia.—A remarkable (unnamed) Turbellarian from Port Galagos ; CHAPUIS (66).

Chili.—South : A terrestrial Leech (*Mesobdella*, n. g.) intermediate between *Glossophonidae* and *Hirudinidae* ; BLANCHARD (20).

Brazil.—A new species of *Chordodes* ; JANDA (130 II). A *Temnocephala* from branchial cavity of an *Ampullaria* ; HASWELL (110). *Anteus teres*, n. sp., from Taquara (Rio Grande do Sul) ; UDE (244) p. 59.

Columbia.—*Anteus distinctus*, n. sp., from Antioquia ; UDE (244) p. 58.

Central America.—*Ocnerodrilus guatamaiae*, *hendriei*, *limicola*, *rosae*, *contractus*, *agricola*, n. spp., EISEN (83) pp. 249, 251, 252, 254, 258, 262, & 265; a *Benhamia*, UDE (244). I. of Colon and Port Limon: an aquatic Oligochaet, *Furcularia tubiformis*, n. sp. and one other Rotifer ; KING (135).

Trinidad.—3 species of *Dero*, 1 new ; STIEREN (232).

Barbadoes.—*Trichochæta barbadensis*, n. sp., BEDDARD (8) p. 701.

Martinique.—A species of subg. *Pæcilibdella*, the only one not Indo-Chinese or Malayan ; BLANCHARD (26).

Jamaica.—*Trichochæta hesperidum*, n. sp., BEDDARD (7) p. 252.

Bahamas.—*Moniligaster bahamensis*, n. sp., the first appearance of the genus in the New World ; BEDDARD (8) p. 690.

f. Nearctic Region.

Presence of *Glossiphonia tessellata* as far North as *Anas glacialis* ; BLANCHARD (24 XVIII).

Nemertines, Turbellarians, *Dinophilus* and *Balanoglossus*, of North America ; GIRARD (97) pp. 157, 204, 233, 236, 297.

Branchiobdella of American Crayfish ; MOORE, J. P. (176).

Mexico.—*Limnobia mexicana*, n. g. & sp., BLANCHARD (26). *Ocnerodrilus sonorae*, n. sp., EISEN (83) p. 251.

California.—Cape Region of Lower California: *Ocnerodrilus beddardi*, n. sp., EISEN (83); *Kerria macdonaldi* and *zonalis*, n. spp., EISEN (84). Alemeda: *Deltania benhami*, n. g. & sp., EISEN (86). S. Francisco Bay: *D. elegans* and *troyeri*, n. spp., EISEN (86). N. of San Francisco Bay: *Argilophilus marmoratus*, n. g. & sp., 2 varieties, one further north than the other; EISEN (86).

Oregon.—*Argilophilus marmoratus* (the northern variety); EISEN (86).

Yellowstone Park and Lake.—2 new species of Rotifers (*Monostyla* and *Conochylus*) and a Turbellarian; FORBES (88).

Illinois.—Danville: *Geodrilus singularis*, n. g. & sp. of *Acanthodrilidae*; UDE (244) p. 69.

Pennsylvania.—Near Philadelphia: *Bimastos*, a new aquatic Oligochaet; MOORE, H. J. (175).

Texas.—Cretaceous formation: *Serpula pataxiensis*, n. sp., HILL, R. T. (118).

Bermudas.—*Eudrilus erudiens*, n. sp., UDE (244) p. 71.

III.—SYSTEMATIC.

1.—HEMICORDATA.

Monograph of the *Enteropneusta*; SPENGEL (231). 4 genera are recognized, viz:—

Balanoglossus, with 5 species: (i) *B. kupfferi*, p. 268, (ii) *kowalewskii*, p. 309, (iii) *mereschkowskii*, p. 324, and (iv) *B. canadensis*, n. sp., from off Cape Breton, p. 297, and (v) *B. sulcatus*, n. sp., Japan, p. 347. It is proposed, p. 360, to make a new subgenus, *Dolicoglossus*, for the species (ii), (iii), & (v).

Glandiceps, n. g., with 3 species: *G. (B.) talaboti*, p. 223, *hacksi*, p. 244, and *abyssicola*, n. sp. (for the "Challenger" specimen from a depth of 2500 fathms., off the W. coast of Africa), p. 266.

Ptychodera, Eschscholtz, with 9 species: (i) *P. (B.) minuta*, p. 17, (ii) *sarniensis*, p. 91, (iii) *clavigera*, p. 137, (iv) *gigas*, p. 159, (v) *aurantiaca*, p. 164, (vi) *flava*, p. 190, and (vii) *P. aperta*, n. sp., Rio Janeiro, p. 126, (viii) *P. erythraea*, n. sp., Red Sea, p. 173, (ix) *P. bahamensis*, n. sp., Bahamas, p. 185. This genus it is proposed, p. 359, to regard as a separate family, *Ptychoderidae*, including the genera *Chlamydothorax*, n. g. (for spp. viii & ix), *Tauroglossus*, n. g. (for spp. vii, iii, iv, v, & vi), and *Ptychodera* proper (for spp. i & ii).

Schizocardium, n. g., with 2 species: *S. brasiliense*, n. sp., Rio Janeiro, p. 192, and *S. peruvianum*, n. sp., Peruvian coast, latitude of Pisco, p. 244.

A species (probably new) of *Balanoglossus* from New South Wales described briefly; HILL, J. P. (117).

[*Cephalodiscus*, *Rhabdopleura*, and *Phoronis* are referred to by SPENGEL (231) in their relationship to the *Enteropneusta*, pp. 735-738.]

2.—ANNELIDA [including *Gephyrea*, *Chaetopoda*, *Archiannelida*,
and *Hirudinea*.]

A.—*GEPHYREA*.

Sipunculus indicus, anatomy and histology; FISCHER, Jahresber. Hamburg.
Anst. x, pp. 1–12 ; SHIPLEY, P. Zool. Soc. London, pp. 326–332.

B.—*CHÆTOPODA*.

a. POLYCHÆTA.

Acoëtidae: revision of family ; BUCHANAN, Quart. J. Micr. Sci. xxxv, pp. 433–446.

Amphinome: spiral metamorphism in ; BUCHANAN, op. cit. xxxiv, pp. 529–544.

Apomatus globifer, in the Mediterranean ; MARENZELLER, Denk. Ak. Wien, ix.

Arenicola marina: post-larval stage of ; BENHAM, J. Mar. Biol. Ass. iii, p. 48. *A. cristata*, in Mediterranean ; LO BIANCO, Atti Acc. Napoli, v.

Aricia cuvieri distinguished from *A. fætidus* ; LO BIANCO, t. c. p. 24.

Autolytus ; MALAQUIN (162).

Bispira mariae, n. sp., Mediterranean, LO BIANCO, t. c. p. 75.

↓ *Boccardia*, n. subg. for *Polydora polybranchia* ; CARAZZI, MT. Stat. Neapel, xi, p. 44.

Brada parthenopeia, n. sp., Mediterranean, LO BIANCO, t. c. p. 44.

Callizona moebii, n. sp., Mediterranean, APSTEIN, Arch. Naturg. lix, p. 147.

↓ *Caobangia*, n. g., with *C. billeti*, n. sp. An aberrant member of the *Sabellidae* living in fresh water, probably the type of a new family, with alimentary canal bent on itself, so that anus opens on ventral surface close behind mouth ; found in shells of *Melania* infested by an alga, at Caobang, Tonkin ; GIARD, C.R. Soc. Biol. v, pp. 473–476.

Chloëia modesta, Ehl., and *C. euglochis*, recognized as distinct species ; MARENZELLER, Denk. Ak. Wien, ix.

Chloëne of Kinberg and of M'Intosh not synonymous ; MARENZELLER, t. c.

Corynocephalus gazelle, n. sp., W. coast of Australia ; APSTEIN, Arch. Naturg. lix, p. 148.

Dasychone savignii redescribed ; BUCHANAN, P. Dublin Soc. viii, p. 177.

(*Euarche*) = *Eupanthalis* ; BUCHANAN, Quart. J. Micr. Sci. xxxv, p. 442.

Euince floridana, inhabiting corals of Mediterranean ; MARENZELLER, t. c. p. 38, ? = *E. philocorallia*, n. sp., from *Lophophelia prolifera*, off the W. coast of Ireland ; BUCHANAN, P. Dublin Soc. viii, p. 173.

Eupanthalis : redefinition of genus and its enlargement, so as to include *Euarche*, and ? 1½ species of *Panthalis* ; BUCHANAN, Quart. J. Micr. Sci. xxxv, p. 442.

↓ *Eupolyodontes*, n. g. for *Polyodontes gulo*, Grube., and *E. cornishii*, n. sp., from mouth of Congo ; BUCHANAN, t. c. p. 438.

(*Eupompe*), referred to genus *Polyodontes*; BUCHANAN, t. c. p. 441.

Eusyllis. } MALAQUIN (162).
Exogone. }

Halla parthenopeia, spiral metamerism in; BUCHANAN, op. cit. xxxiv.

Harpochæta, n. g., with *H. angulata*, n. sp., Polytrochous larva of; KORSCHELT, Zeitschr. wiss. Zool. lvii.

Laetmonice producta, from W. coast of Ireland and from Japan; BUCHANAN, P. Dublin Soc. viii, p. 169. (*L. kinbergi*), Baird, = *L. filicornis*, Kbg., and distinguished from *L. kinbergi*, Ehl.; BUCHANAN, t. c. pp. 170-173.

Laonome salmacidis, Clp., with eyes on branchiæ; MARENZELLER, Denk. Ak. Wien. Ix. p. 35.

Magelona papillicornis, in Mediterranean; LO BIANCO, Atti Acc. Napoli, v, p. 34.

Micronereis variegata, anatomy of male and female; RACOVITZA, C.R. Ac. Sci. cxvi, pp. 1390-1392.

Nereis: a new organ, "dorsal ciliated organ", in several species, and Nephridium of *N. diversicolor*; GOODRICH (99).

(*Notophyllum alatum*), Lngns., = *N. foliosa*, Sars; MARENZELLER, t. c.

Ophelia radiata: Chloragogene, its nature and distribution, and the organs directly or indirectly concerned in its formation; SCHAEPPPI (217).

Ophryotrocha puerilis: development of jaws in; BONNIER (34) : eggs, sexual conditions, development, and points in the anatomy; KORSCHELT (136) & BRAEM (39): its presence in Holothurians; MONTICELLI (171).

(*Panthalis*) = *Polyodontes*, BUCHANAN, Quart. J. Micr. Sci. xxxv, p. 441.
P. oerstedi, in Mediterranean, described; MARENZELLER, Denk. Ak. Wien, ix, p. 28.

Pholoe dorsipapillata, n. sp., in Mediterranean; MARENZELLER, t. c. p. 30.

(*P. brevicornis*), Panceri, = *Scalisetosus pellucidus*, Ehl.; id. t. c.

Polydora: revision of genus; CARAZZI, MT. Stat. Neapel, xi, pp. 4-45, MESNIL, C.R. Ac. Sci. cxvii, pp. 643-645. CARAZZI recognizes 10 species, of which 6 occur in the Mediterranean, and of these 2, *P. hoplura* and *P. ciliata*, are commensal on oysters, the one boring into the shell, and the other accumulating mud at the mouth of the shell and doing more damage to the oyster; another, *P. polybranchia*, forms the type of a new subgenus, *Boccardia*. *P. antennata*, var. *pulchra*, n. var., or (?) a hybrid of this species and *P. ciliata*, described, p. 26. MESNIL would include *Pygospio elegans*, and *Spirio mecznikowianus* in the genus *Polydora*. He describes *P. giardi*, n. sp., and would include in it (?) *P. ciliata*, var. *minuta*, Lngns., and the young specimen of *P. agassizii* of Marion & Bobretzky. He regards *P. hamata* and *P. hoplura* as distinct species, as opposed to CARAZZI, though *P. hoplura* may be only a variety of *P. ciliata*.

Polyodontes: definition and enlargement of genus, so as to include *Eupompe*, *Panthalis*, and *Acötetes*. (*P. gulo*), = *Eupolyodontes gulo*; BUCHANAN, Quart. J. Micr. Sci. xxxv, p. 441.

- Protula marioni*, n. sp., Mediterranean, MARENZELLER, Denk. Ak. Wien, lx, p. 36 : a *Protula* with an operculum.
- Ranzania sagittaria*, Clap., presence of tentacles in ; LO BIANCO, Atti Ac. Napoli, v, p. 39.
- Sabella crassicornis* in Mediterranean ; LO BIANCO, t. c. p. 67. A new Sabellid [see *Caobangia*].
- †*Serpula palaxiensis*, n. sp., Cretaceous formation, Texas, HILL, R. T. (118).
- Stylaroides hirsutus*, n. sp., Bay of Naples, LO BIANCO, t. c. p. 42.
- Syllis* ; MALAQUIN (162).
- Vanadis violacea*, n. sp. (loc. ?), and *studieri*, n. sp., W. Coast of Australia, APSTEIN, Arch. Naturg. lix, pp. 143-146.
- Vermilia agglutinata*, n. sp., E. Mediterranean, MARENZELLER, Denk. Ak. Wien, lx, p. 41. *V. multivaricosa* and *multicristata* distinguished from one another, t. c. p. 40.

b. OLIGOCHÆTA.

A useful revision of the Lumbricids is given by ROSA, Mem. Acc. Torino, xlili, 4 genera (*Lumbricus*, *Allolobophora*, *Allurus*, and *Criodrilus*) being recognised and their species diagnosed. He also gives a list of species wrongly called *Lumbricus* and not belonging to the family at all. In Boll. Mus. Torino, viii, No. 151, he gives also the more important synonyms of each of the species diagnosed.

The classification of the *Naidomorpha* is dealt with by STIEREN, SB. Ges. Dorpat, x, p. 103. He would divide the family into 3 sub-families of equal value, viz. :—

1. Ciliornaididae. Genus : *Aulophorus*.
2. Branchinaididae. Genera : *Chætobranchus*, *Alma*, and *Dero*.
3. Naididae. Genera : *Ophidonais*, *Bohemilla*, *Nais*, *Slavina*, *Styleria*, *Pristina*, and *Naidina*.

Acanthodrilus smithi and *paludosus*, n. spp., New Zealand, *A. falcandicus*, n. sp., for a specimen previously referred to *A. georgianus*, Mich. ; BEDDARD, P. Zool. Soc. London (1892), pp. 675-678. Some New Zealand species (*A. antarcticus*, *multiporus* and others) referred to new genus, *Octochatus* ; BEDDARD, t. c.

Allolobophora : 49 species recognized, some of them with 2 or more subspecies ; ROSA, Mem. Acc. Torino, xlili, pp. 424-465. *A. (Dendrobena) semitica*, *A. (D.) byblica*, *samarigera*, and *A. patriarchalis*, n. spp., Syria, ROSA, Boll. Mus. Torino, viii, No. 160, pp. 3-9. *A. savignyi*, n. sp., S.W. of France, GUERNE & HORST, Bull. Soc. zool. France, xviii, p. 153.

Allurus : 6 species recognized ; ROSA, Mem. Acc. Torino, xlili, pp. 465-470. *A. macrurus*, n. sp., Ireland, FRIEND, P. Irish Ac. ii, p. 461.

¹*Alvania*, n. g. of *Eudrilidae*, with *A. millsoni*, n. sp., Lagos ; BEDDARD, Quart. J. Micr. Soc. xxxiv, p. 271.

Anteus distinctus, n. sp., Columbia, and *A. teres*, n. sp., Brazil, UDE, Z. wiss. Zool. lvii, pp. 58 & 59.

Argilophilus, n. g. of *Eudrilidae*, with *A. marmoratus ornatus*, n. sp., Oregon, and *A. marmoratus papillifer*, n. sp., further south; EISEN, Zoe, iv, p. 253.

Aulophorus: remarks on genus; STIEREN, SB. Ges. Dorpat, x, p. 117.

Benhamia: definition of genus and comparison with the genus *Octochatus*; BEDDARD, P. Zool. Soc. London (1892), p. 671. *B. whytei*, n. sp., Nyassaland, *B. crassa*, n. sp., Lagos, BEDDARD, t. c. pp. 680 & 681. *B. congica*, n. sp., Upper Congo, HORST, Tijdschr. Nederland. Dierk. Ver. iv, pp. 67 & 68.

Bimastos, n. g., near Philadelphia, MOORE, H. J., Zool. Anz. xvi, p. 333.

Criodrilus: one species recognized; ROSA, Mem. Acc. Torino, xlili, p. 470.

Ctenodrilus [see under C.—ARCHIANNELIDA].

Deltania, n. g. of *Eudrilidae*, with *D. elegans*, *troyeri*, and *benhami*, n. spp., California; EISEN, Zoe, iv, pp. 251 & 252.

Dendrobena. [See *Allolobophora*.]

Dero: definition of genus, recognition of 10 species, of which 3 occur in Trinidad, and description of *D. multibranchiata*, n. sp.; STIEREN, SB. Ges. Dorpat, x, pp. 107–114 & 121.

Didymogaster silvaticus, from Sidney, description; UDE, Z. wiss. Zool. lvii, p. 67.

Eudriloides “?” *durbanensis*, n. sp., Durban, anatomy; BEDDARD, P. Zool. Soc. London (1892), p. 696.

Eudrilus erudiens, n. sp., Bermudas, anatomy; UDE, t. c. p. 71.

Geodrilus, n. g. of *Acanthodrilidae*, with *G. singularis*, n. sp., Illinois; UDE, t. c. p. 69.

Geoscolecidae: revision of family; BEDDARD, Quart. J. Micr. Soc. xxxiv, p. 257.

Gordiodrilus not regarded as one of the *Ocnerodrilidae*, but rather as forming a distinct family *Gordiodrilidae*; EISEN, P. Calif. Ac. iii, p. 228.

Ilyogenia, n. g., with *I. africana*, n. sp., Durban; BEDDARD, P. Zool. Soc. London (1892).

Kerria not regarded as belonging to the *Acanthodrilidae*, but rather as a member of one large group of Oligochaëts, including also the genera *Ocnerodrilus*, *Gordiodrilus*, and *Pymodrilus*; EISEN, P. Calif. Ac. iii, pp. 291–318. *K. macdonaldi* and *K. zonalis*, n. spp., California, EISEN, t. c. pp. 294 & 311.

Lumbriculus variegatus, with double tail; CORI, Lotos, xiv, p. 169.

Lumbricus: 6 true species recognized and diagnosed; enumeration of species wrongly so-called; ROSA, Mem. Acc. Torino, xlili. *L. papillosus*, n. sp., Ireland, FRIEND, P. Irish Ac. ii, p. 456.

Megascolex templetonianus, notes on; UDE, Z. wiss. Zool. lxvii, p. 65.

Microdrilus, n. g., with *M. saliens*, n. sp., Singapore, Java, Penang; BEDDARD, P. Zool. Soc. London (1892), p. 683.

- Moniligaster bahamensis*, n. sp., Bahamas, anatomy, BEDDARD, *t. c.* p. 690.
M. indicus, n. sp., India, BENHAM, Quart. J. Micr. Sci. xxxiv, p. 361, anatomy of genus and species.
- Nais heterochæta*, n. sp., near Oxford, BENHAM, *t. c.* p. 383.
- Ocnerodrilidae*: revision of family; EISEN, P. Calif. Ac. iii, p. 228 : its geographical distribution; EISEN, *t. c.* p. 291. 10 species (8 new ones) from California and Mexico described, *O. beddardi*, p. 230, *guatemalae*, p. 249, *sonorae*, p. 251, *hendrei*, p. 252, *rosae*, p. 258, *contractus*, p. 262, and *agricola*, p. 265 ; EISEN, *t. c.* pp. 228-290.
- ¹*Octochætus*, n. g., with *O. thomasi* and *O. huttoni*, n. spp., New Zealand, and including some New Zealand species previously referred to *Acanthodrilus*; BEDDARD, P. Zool. Soc. London (1892), pp. 668-674.
- Pachydrilus litoreus*, n. sp., littoral species of Enchytraeid at Naples, anatomy; HESSE, Z. wiss. Zool. lvii.
- ²*Parenchytraeus*, n. g. with *P. litteralis*, n. sp., littoral species of Enchytraeid at Naples, anatomy; HESSE, *t. c.*
- Perichaeta copelandi*, *obscura*, *sylvatica*, *hoggii*, *hallii*, *rubra*, *frenchii*, *steelii*, *lateralis*, *dendyi*, *lochensis*, *dubia*, *walhalla*, *alsophilu*, *fielderi*, *frosti*, *goonmuk*, *yarraensis*, *tanjilensis*, n. spp., and 2 other species, Victoria, SPENCER, P. Soc. Victoria, v, pp. 1-26. *P. falcata*, *variabilis*, *teukatei*, *urceolata*, *boschae*, *tjibodae*, *infata*, n. spp., and *P. forbesii*, Bed. ?, *sangirensis*, Mich., Malay; HORST, Notes Leyden Mus. xv, pp. 316-329. *P. pusilla* and *parva*, n. spp., and *P. capensis*, Horst, Java; UDE, Z. wiss. Zool. lvii.
- Perionyx*: new diagnosis of genus, description of *P. intermedius*, n. sp., Seebpore, and notes on and definitions of 3 other species; BEDDARD, P. Zool. Soc. London (1892).
- Polytorentus magilensis*, n. sp., Magila (E. C. Africa), anatomy; BEDDARD, Quart. J. Micr. Sci. xxxiv, pp. 243-252.
- Pygmaeodrilus lacuum*, n. sp., Lagos (W. Africa), anatomy; BEDDARD, *t. c.* p. 259.
- Siphonogaster*: notes on genus, showing it to belong to the *Geoscolecidae*; *S. millsoni*, some points in the anatomy; BEDDARD, *t. c.* p. 264.
- Sutroa*: notes on the genus; BEDDARD, Tr. R. Soc. Edinb. xxxvii, p. 195.
- ³*Trichochæta*, n. g., with *T. hesperidum*, n. sp., Jamaica; BEDDARD, P. Zool. Soc. London (1892), pp. 252-257.
- Tubifex contrarius*, n. sp., in the deserted tubes of a new Sabellid, Tonkin; GIARD, C.R. Soc. Biol. v.

C.—ARCHIANNELIDA.

Branchiobdella, or ? a new allied genus, the 4 species commensal on American Crayfish, including *B. illuminata*, *pulcherrima*, *instabilis*, n. spp.; MOORE, J. P., P. Ac. Philad. p. 419.

Ctenodrilidae : removed from the *Chaetopoda* and regarded as either very primitive or very degenerate Annelids ; two genera in the family recognized, viz. :—

Ctenodrilus, Clp., with 2 species, *C. serratus* (= *pardalis*) and *C. parvulus* :

Zeppelinia, Vaill., with 1 species, *Z. monostyla* : MONTICELLI, Boll. Soc. Napoli, vii, pp. 37-44.

Dinophilidae of New England, *D. pygmæus* and *D. simplex*, n. spp. ; VERRILL, Tr. Connect. Ac. viii, pp. 457 & 458. *D. simplex* may require to be placed in a new genus. *D. tæniatus* at Port Erin ; HERDMAN (115).

D.—HIRUDINEA.

BLANCHARD, C.R. Ac. Sci. exvi, p. 446, shows the derivation of the *Glossiphoniidae* and *Hirudinidae* from a common ancestor, from which the *Glossiphoniidae* have deviated less than the *Hirudinidae*.

(*Batracobdella*) Vig., = *Glossiphonia algira*, Moq. Tand. ; BLANCHARD, An. Soc. Espan. xxii, pp. 243.

(*Blennobdella depressa*) = a young *Hæmentaria* ; BLANCHARD (24 xiv).

Cystobranchus respirans, Trosch, and *fasciatus*, Kollar, described ; BLANCHARD, Boll. Mus. Torino, viii, No. 145, pp. 1-5.

Dina blasei, in Spain, BLANCHARD (28) ; in Syria, BLANCHARD (22, 30) ; in the Azores, BLANCHARD (21).

Glossiphonia : 5 S. European species referred to genus *Placobdella* ; BLANCHARD (24 x). *G. algira*, in Spain ; BLANCHARD (28). *G. bioculata* and *tesselata*, in Syria ; BLANCHARD (22 & 30 respectively).

Hæmentaria ghilianii and *officinalis*, anatomy ; BLANCHARD, (26) pp. 7-23. (*H. mexicana*) = *H. officinalis* ; BLANCHARD, (26) p. 20.

(*Hirudo cylindrica*) Blanchard, = (*H. gemmata*) Blanchard, = (*H. brevis*) Grube, which forms the type of a new genus *Mesobdella*, with species *H. gemmata* ; BLANCHARD (24 xiii & viii). (*H. granulosa*) Sav., made the type of a new subgenus of *Limnatis* : *Pacilobdella* which would include 6 other species also Malayan or Indo-Chinese and 1 species from Martinique ; (*H. quinquestriata*) Schmarda, referred to *Limbobdella*, n. g. : BLANCHARD, (26) p. 28. *H. troctina* in Europe ; BLANCHARD (28). *H. medicinalis* in Syria ; BLANCHARD (22, 30).

Limnatis nilotica, in Spain, BLANCHARD (28) ; in Syria, BLANCHARD (22, 30) ; in the Azores, BLANCHARD (21).

• *Limnobdella*, n. g., for *L. mexicana*, n. sp., and including *L. (H.) quinquestriata*, Schmarda ; BLANCHARD, Boll. Mus. Torino, viii, No. 145, p. 29.

Lumbricobdella schaefferi, multiplication of annuli in ; BLANCHARD (24 ix).

• *Mesobdella*, n. g., intermediate between the *Glossiphoniidae* and *Hirudinidae*, with 1 species, *M. gemmata*, Blanch., for (*H. brevis*) Gr., (*cylindrica*), or (*gemmata*) Blanch. ; BLANCHARD, Bull. Soc. zool. France, xviii, pp. 110 & 26.

Nephelis: 8 species recognized in Piedmont, *N. atomaria* and *octoculata*, described; BLANCHARD (27). (*N. sexoculata*) Schn., = *N. octoculata* with anterior lateral eyes atrophied; BLANCHARD (24 xv). (*N. scriptura*) and (*N. crassipunctata*) Schn., = *N. atomaria*, Carena; BLANCHARD (24 xvi & xvii). Variations according to locality in *N. atomaria*; BLANCHARD, (27) pp. 4-8.

Piscicola perspicax and *lippa*, n. spp., from *Cottus quadricornis*, Scandinavia, OLSSON, Svenska Ak. Handl. xxv.

Placobdella, n. g., connecting *Glossiphonia* and *Hæmentaria*, with *P. raboti* and *P. guernii*, n. spp., and including 5 other species previously referred to the genus *Glossiphonia*; BLANCHARD, Bull. Soc. zool. France, xviii, p. 92. *P. (G.) carinata*, described, BLANCHARD, t. c. p. 104; *P. (G.) catinigera*, described, BLANCHARD, t. c. p. 98; both these species and the young of another one in Syria, BLANCHARD (22, 30).

Pæcilibdella, n. subg. of *Limnatis*, with *Hirudo granulosa*, Sav., as type, and including 6 other East Indian species and 1 W. Indian one; BLANCHARD, Boll. Mus. Torino, viii, No. 145, p. 28.

(*Theromyzon palleus*), Phil., = (probably) *Glossiphonia tessellata*; BLANCHARD, Bull. Soc. zool. France, xviii, p. 14.

3.—PLATYHELMINTHES.

A.—CESTODA.

Adult Forms.

STILES & HASSALL, Bull. No. iv of Dept. of Agric., Washington, give an index of specific names of (p. 103), the Cestodes of cattle and sheep, and group them into 3 genera, viz.:—*Moniezia*, Bl., *Thysanosoma*, Dies., and *Stilesia*, Railliet, n. g.

50 species from Scandinavian fish; OLSSON, Svenska Ak. Handl. xxv, pp. 1-41.

Abothrium rugosum, Rud.: anatomy and histology; LÖNNBERG, Svenska Ak. Handl. xxiv, No. 6, pp. 73-84.

Amabilia, n. g., for *Taenia lamelligera*, Owen; DIAMARE, Boll. Soc. Napoli, vii, pp. 10-12.

Amphytyches urna, Gr. & Wagn., anatomy and histology; LÖNNBERG, Svenska Ak. Handl. xxiv, No. 6, pp. 9-47.

Andrya, n. g., for *Taenia marmoratae*, Fröhl.; (RAILLIET 200A), STILES & HASSALL, t. c. p. 71.

Anoplocephala critica, Pagenst., and *A. ragazzi* (for Moniez's *Architænia hyracis* and his own *T. ragazzi*), in *Hyrax*, on shores of Red Sea; SETTI, Atti Soc. Ligustica, iv, pp. 13 & 15.

Archigetes sieboldii, Neotenia in; MONTICELLI (172).

Bertia. The different species occurring in the different anthropoid Apes; BLANCHARD (29), and the genus, with *Anoplocephala* and *Moniezia*, referred to one large group, *Anoplocephala*. SETTI, t. c. would alter the definition of the genus so as to include *Moniezia expansa*. NEUMANN, R., (183) would refer *T. ovilla* to the genus *Bertia*.

- Bothriocephalus peltoccephalus*, n. sp., from an unknown fish; MONTICELLI, Nat. Sci. xii, p. 176. *B. motellæ* and *B. spinachia*, n. spp., from *Motella cimbria* and *Gasterosteus spinachia* respectively, Scandinavia; OLSSON, Svenska Ak. Handl. xxv. *B. neglectus*, n. sp., from *Raniceps niger*, W. of Sweden; LÖNNBERG, Bih. Svenska Ak. xviii. *B. punctatus*, Rud., anatomy and histology; LÖNNBERG, Svenska Ak. Handl. xxiv, No. 6, pp. 51-60. Its different varieties and description of *B. punctatus*, var. *motellæ*, from *Motella*; LÖNNBERG, Bih. Svenska Ak. xviii. [See also under *Diplogonoporus*.]
- Ctenomorphus joyeuxi*, n. sp., from *Hyas aranea*; VAULLEGEARD, Bull. Soc. Norm. (4) vii, pp. 23-26.
- ¹*Calyptrobothrium*, n. g., of *Tetrabothridae*, with *C. riggi*, n. sp., from *Torpedo marmorata*; MONTICELLI, Natural. Sicil. xii, p. 179.
- Caryophyllaeus mutabilis*, Rud., anatomy and systematic position; WILL, Z. wiss. Zool. lvi, pp. 1-39.
- ¹*Chapmannia*, n. g., for *Tenia tauricollis*, Chapm. (= *T. argentina*, Zech.), MONTICELLI, Natural. Sicil. xii, pp. 208-211.
- ¹*Cotugnia*, n. g., for *Tenia digonopora*, Pasq., and *T. bifaria*, v. Sieb.; DIAMARE, Boll. Soc. Napoli, vii, pp. 10-12.
- ¹*Ctenotaenia*, n. g., for *Dipylidium leuckarti* and *pectinatum*; (RAILLIET, 200A), STILES & HASSALL, t. c.
- Davainea spinosissima*, n. sp., from intestine of *Turdus merula*; v. LINSTOW, Jena. Zeitschr. xxviii, pp. 336 & 337. *D. struthionis*, Hoult., anatomy and development; v. LINSTOW, Arch. mikr. Anat. xlvi, p. 442. *D. tetragona*, Molin., functions of ovary in; DIAMARE (80).
- Dibothriorhynchus megalocephalus*, Rud., adult found; MONTICELLI, t. c.
- Dinobothrium septoria*, v. Ban., from *Lamna cornubica*, anatomy; LÖNNBERG, Svenska Ak. Handl. xxiv, pp. 25-28.
- Diplobothrium affine*, n. sp., from a whale, and *D. simile*, v. Ban., from *Lamna*, anatomy; LÖNNBERG, t. c. pp. 16-24.
- ¹*Diplogonoporus*, n. subg. of *Bothriocephalus* with 2 groups of gonads in each proglottid, for *D. balaenopterae*, n. sp., from a whale; LÖNNBERG, t. c. pp. 4-16.
- Dipylidium*: redefinition of genus, DIAMARE, Rend. Acc. Napoli, viii, p. 123, with 2 new species, 1 (unnamed) in Italian domestic cat, the other, *D. pasqualei*, n. sp., DIAMARE, t. c. pp. 213-217, in the cat of Alexandria. *D. leuckarti* and *pectinatum* referred to *Ctenotaenia*, n. g., Raill., and *D. latissimum* to *Rhopalocephalus*, n. g., Raill., STILES & HASSALL, t. c.
- Hymenolepis moniezi*, n. sp., Par., from a bat (*Pteropus medius*) which said to be frugivorous; *H. acuta*, for *Taenia acuta*, Rud., armed and unarmed individuals occurring together in Italian bats, PARONA & PERUGIA, Atti Soc. Ligustica, iv, pp. 202-206.
- Ligula catostonii*, notes on; LINTON, Rep. U. S. Fish Comim. xvii, p. 546.
- Moniezia*. Summary of genus, and subdivision of it into 3 groups according to the form of the interproglottidal gland; anatomy of *M. planissima*, Stiles, pp. 15-26; of *M. oblongiceps*, n. sp., from a

Coassus from Trinidad, pp. 35 & 36; of *M. trigonophora*, n. sp. (for *T. expansa*, Curtis, ex parte, and McMurrich, and for *T. benedeni*, Neumann, ex parte), pp. 37-42; and 3 undetermined species, probably new; STILES & HASSALL (234). *M. alba*, Perr., and *M. denticulata*, Rud., both to be regarded as varieties of *M. expansa*, Rud.; SETTI, Atti Soc. Ligustica, iv, p. 8.

Monobothrium terebra, n. sp., anatomy; LINTON, Rep. U. S. Fish Comm. xvii, pp. 548-552.

Monocotylides: anatomy; SAINT RÉMY, Rev. biol. Nord France, v, p. 45.

Onchobothrium schizacanthum, n. sp., from a Selachian in Java, anatomy; LÖNNBERG, Bih. Svenska Ak. xviii.

Poly cercus, a proliferating cystic parasite of the Earthworm, described, and its relationships discussed, the conclusion being arrived at that its nearest ally is *Staphylocystis*, and not *Echinococcus*; HASWELL & HILL, P. Linn. Soc. N.S. Wales, viii, pp. 365-375.

Ptychobothrium belones (Duj.), Lönnb.: anatomy; LÖNNBERG, Svenska Ak. Handl. No. 6, pp. 63-72.

^ *Rhopalocephala*, n. g., for *Dipylidium latissimum*, (RAILLIET, 200A), STILES & HASSALL (234).

^ *Stilesia*, n. g., for *Taenia globipunctata* and *T. centripunctata*; (RAILLIET, 200A), STILES & HASSALL, (234) pp. 73-82.

Taenia ursina, n. sp., from *Ursus arctos*, anatomy and life-history; LINSTOW, Arch. mikr. Anat. xlvi, p. 442. *T. echinata*, n. sp., from *Lagopus alpina* and *T. secunda*, n. sp., from *Melis taxus*, Scandinavia, OLSSON, Svenska Ak. Handl. xxv. *T. echidnae*, n. sp., from *Echidna*, Sydney, THOMPSON, J. R. Micr. Soc. p. 297. *T. isomydis*, n. sp., from *Isomys abyssinicus*, Shores of Red Sea, SETTI, Atti Soc. Ligustica, iv, p. 10.

T. digonopora and *T. bifaria*, referred to a n. g. *Cotugnia*; *T. lumelligera* to a n. g. *Amabilia*; DIAMARE (81 II). (*T. argentina*), Zsch., = *T. tauricollis*, to a n. g. *Chapmanria*; MONTICELLI (170). *T. centripunctata* and *T. globipunctata*, to a n. g. *Stilesia*, Raill., *T. marmotae*, to a n. g. *Andrya*, Raill., *T. caprae*, Rud., to the genus *Moniezia*, and *T. actinoides* and *giardi* to the genus *Thysanosoma*, Dies.; STILES & HASSALL (234). *T. ovilla*: its position in classification; NEUMANN, R. (183). *T. microsoma*, discovery of its cysticercus in *Cyclops agilis*; ROSSETER (210). *T. erostris*, Lönnb., notes on; LÖNNBERG, Bih. Svenska Ak. xviii, p. 11. *T. paroai*, Moniez, in *Hyrax*; SETTI, t. c. *T. hyracis*, Pall., distinct from the *T. hyracis*, Pagenstecher, which = *Anoplocephala cortica*; SETTI, t. c. *Taenias* of Rome and its provinces; ALESSANDRINI (2). *T. saginata*: abnormalities in; AHLBORN (1), BARROIS (6), KÜCHEL (138), MONTICELLI (170). [See also under *Davainea*.]

Tetrarhynchus tetrabothrius, v. Ban., anatomy; LÖNNBERG, Svenska Ak. Handl. xxiv, No. 6, pp. 87-104.

Thysanosoma, Dies., genus re-established for *Taenia giardi* and *T. actinoides*; STILES & HASSALL, (234) pp. 55-70.

Trienophorus robustus, n. sp., from *Esox lucius*, Scandinavia, OLSSON, t. c.

Cystic Forms.

In Scandinavian fish; OLSSON, Svenska Ak. Handl. xxv.

Cysticercus herpestes, n. sp., in *Herpestes*, SETTI, Atti Soc. Ligustica, iv, p. 4. Cysticercus of *Tænia microsoma* in *Cyclops*; ROSSETER (210). Tailed cysticercoid of *T. serpentulus* in *Geotrupes sylvaticus*; v. LINSTOW (149). Echinococcus of cat; NEUMANN, G. (185).

B.—TREMATODA.

MONTICELLI, Zool. Jahrb. Anat. vi, Suppl. iii, enters fully into the classification of the subfamily *Distomidae*, in which he would recognize 10 genera, viz.:—*Bilharzia*, *Cephalogonimus*, *Urogonimus*, *Distomum*, *Apoblemma*, *Echinostomum*, *Crossodera*, *Rhopalophorus*, *Podocotyle*, *Mesogonimus*. He gives a table to distinguish these, p. 154.

HASWELL (111) founds a new family for his *Actinodactylella*.

BRAUN, in Bronn's Klassen und Ordnungen des Thier-reichs, concludes his account of the digenetic Trematodes.

Twenty species of Trematodes from Scandinavia; OLSSON, Svenska Ak. Handl. xxv.

Accacoelum, n. subg., for *Distomum contortum*, R., *D. nigroflavum*, R. *D. microcotyle*, D., *D. pelagiae*, Koll., and *D. calyptrocotyle*, n. sp.; MONTICELLI, t. c. p. 135.

Actinodactylella, n. g., for what was described last year as *Actinodactylus*, n. g. (Zool. Rec. 1892, *Vermes*, p. 66). It is now recognized as the type of a new family distinct from the *Temnocephaleæ*, and the specific name, *A. blanchardi*, n. sp., is added; HASWELL, Macleay Mem. Vol. pp. 152-159.

Amphistomum: diagnosis of the genus, and anatomy of *A. hominis*; LEUCKART, Paras. d. Menschen. n. ed., pp. 448-463.

Apobлемма: genus defined, 3 species figured and their description promised; MONTICELLI, t. c.

Bilharzia: genus defined; MONTICELLI, t. c., LEUCKART, t. c. pp. 464-468. *B. hæmatobia*, anatomy; LEUCKART, t. c. pp. 468-506: development and life-history; SONSINO (226, 227), LEUCKART, pp. 506-528. Anatomy and physiology, and experiments on embryos; BROCK (47). Occurrence and clinical significance; LEUCKART, pp. 519-534.

Cephalogonimus: genus defined, and 3 species, *C. lenoiri*, Poir., *C. pellucidum*, Linst., and *C. ovatum*, R., described; MONTICELLI, t. c.

Craspedella, n. g., with *C. spenseri*, n. sp., from *Astacopsis bicarinatus*; HASWELL, Macleay Memorial Vol. p. 142.

Crossodera: genus defined; MONTICELLI, t. c.

Dactylodiscus borealis, n. sp., from *Thymallus borealis*, Scandinavia; OLSSON, t. c.

Didymozoon exocoeti, n. sp., for *Monost. filum*, G. Wagn.: diagnosis of genus and species; PARONA & PERUGIA, Atti Soc. Ligustica, pp. 198-201.

Distomum: anatomy, histology, and systematic; MONTICELLI, t. c. *D. calyptrocotyle*, n. sp., from *Beroë ovata*, of Gulf of Genoa, pp. 1-138; *D. macroporum*, n. sp., for (*D. macrocotyle*) Stoss, p. 133; *D. megalocotyle*, n. sp., previously described but not named from *Mustelis vulgaris* at Wimereux, foot-note p. 52; *D. bonnieri*, n. sp., on branchial arches of *Trigla gurnardus*, previously described as *D. varium*, Müll., pp. 180-184; *D. paronae*, n. sp., from *Seriola dumerilii*, p. 191; *D. teretiusculum*, n. sp., from *Solea klenii*, p. 193. *D. ercolanii*, n. sp., footnote p. 188, for " *D. signatum*, Duj." Ercol.; MONTICELLI, t. c. *D. italicum*, n. sp., from *Lichia amia*; STOSSICH, Boll. Soc. Adriat. xiv, p. 88. *D. albidum*, n. sp., from cats of Königsburg, BRAUN, Centr. Bakt. xiv, pp. 381-392 & 422-428. *D. (Echinost.) pungens*, n. sp., from *Podiceps minor*; *D. macrolaimus*, n. sp., from *Vesperugo pipistrellus*; v. LINSTOW, Jena. Zeitschr. xxviii, pp. 333-335.

Descriptions, with synonyms, of *D. richardii*, Lopaz, pp. 139-148, *D. fractum*, Rud., pp. 167-172, *D. capitellatum*, pp. 173-176, *D. fuscescens*, R., pp. 177-179, *D. nigrovenosum*, Bellingham, pp. 185-189, *D. betencourtii*, Mont., pp. 190 & 191; and figures, without description, of *D. contortum*, R., *D. fasciatum*, R., *D. filiferum*, R., *D. laticolie*, R., *D. macrocotyle*, Dies., *D. megastomum*, R., and *D. veliporum*, Crepl.; MONTICELLI, t. c. (Zool. Jahrb. Anat. vi, Suppl. iii). Descriptions and new hosts of *D. endolobium*, Duj., pp. 332 & 333, *D. erraticum*, R., pp. 335 & 336, *D. (Echinost.) echinatum*, p. 333, and *D. brachysoma*; v. LINSTOW, Jena Zeitschr. xxviii, pp. 328-341. 3 species from Chameleon, and *D. cymbiforme*, R., as the only species of *Chelone caretta*; SONSINO, Atti Soc. Toscana, p.-v. viii, pp. 183-190. *D. (Echinost.) trigonocephalum* in *Plecotus communis*, and *Distomas* in exotic snakes; SONSINO, P. Zool. Soc. London, pp. 496-500. *D. ovocaudatum*, notes on; SONSINO, Monit. Zool. ital. iv, p. 63, and Atti Soc. Toscana. *D. laureatum*, notes on; LINTON (150). *D. clavigerum*, R., anatomy and histology; NOACK (186). *D. sinense*; BILLET, C.R. Soc. Biol. v, pp. 506-510. *D. hepaticum*, life-history; LUTZ, Centrbl. Bakt. xiii, pp. 320-328.

(*D. simile*), Sons., = *D. horridum*, Leidy; SONSINO, Atti Soc. Toscana, p.-v. viii, pp. 215-217. (*D. campanulatum*), Ercol., referred to *D. truncatum*, Rud.; BRAUN (45). *D. macrostomum*, R., distinct from *D. erraticum*, R.; v. LINSTOW (148). [See also under *Accacælum*, *Monostomum*, and under *Young Forms*.]

Echinostomum: definition of genus and description of *E. cesticillus*, Molin, pp. 158-161; MONTICELLI, Zool. Jahrb. Anat. vi, Suppl. iii. *E. pungens*, n. sp., v. LINSTOW, Jena Zeitschr. xxviii. [See also under *Distomum*.]

Mesogonimus, definition of genus and enumeration of the 10 contained species; MONTICELLI, t. c.

Monostomum: full anatomy and histology of 3 species; WALTER, Zeitschr. wiss. Zool. lvi, pp. 189-235. (*M. filum*, Wagen.), placed in

the genus *Didymozoon*, and distinguished from the *M. filum*, DÜJ., which is a true *Monostomum*; PARONA & PERUGIA, Atti Soc. Ligustica, iv, pp. 198-201. (*M. hepaticum suis*), n. subsp., WILLACH (265), = stage in development of *Cysticercus tenuicollis* (Braun). *M. lantis*, v. Nordm., sp. dub., LEUCKART, Paras. d. Mensch. 2nd ed. pp. 445-448.

Podocotyle: definition of genus; MONTICELLI, Zool. Jahrb. Anat. vii.

Rhopalophorus: definition of genus; MONTICELLI, t. c.

Tenuocephala comes and *dendyi*, n. spp., from *Astacopsis*, N. S. Wales and Victoria; *T. jheringii*, n. sp., from *Ampullaria*, Brazil, and *T. engavi*, n. sp., from *Engaeus fissor*, Gippsland; HASWELL, Macleay Mem. Vol. pp. 134-139.

Tetracotyle typica, Dies.: 3 forms distinguished, one moveable, and two unmoveable, one being encapsuled; v. LINSTOW, t. c.

Urogonimus: definition of genus and description of *U. cercatus*, n. sp., pp. 162-166, and *U. macrostomum*, R.; MONTICELLI, t. c.

Young Forms.

Bucephalus haimeanus, found in *Cardium edule* and *Mactra solida*; HUET, Bull. Soc. Normand. vii, pp. 40 & 41.

Distomum: eggs and redia of a new species in lung of horse; WILLACH (264): eggs in liver of horse; RATZ (202). Peculiar redia and cercaria of a *Distomum* in *Melania*, which is possibly free-living when adult; LUTZ (158). Cercaria with bifid tail of *D. sinense* in *Melania*; BILLET (19). Cysts of *Distomum* sp.? in *Leneiscus atrarius*; LINTON, (150) p. 553. Larvæ of *D. endolobium* in Insects; v. LINSTOW (148).

C.—NEMERTINEA.

Systematic of Nemertines; BÜRGER, Ver. deutsch. Zool. Ges. iii, pp. 24-27.

VERRILL, Tr. Connect. Ac. viii, pp. 382-456, describes and figures and gives the synonymy of a large number of marine Nemertines from New England, and he finds a new family, *Nectonemertidae*, for two remarkable pelagic Nemertines found in the Gulf Stream, somewhat resembling *Sagitta* in form.

Amphiporus dissimilans, n. sp., Plymouth, RICHES, J. Mar. Biol. Soc. p. 10. *A. multisorus*, *heterosorus*, *tetrusorus*, pp. 393 & 394, *frontalis*, *mesosorus*, pp. 398 & 399, *cæcus*, p. 402, n. spp., and 13 other species, from coast New England, VERRILL, t. c. *A. spinosissima*, *A. spinosa*, and *A. cruciatus*, n. spp., S. Georgia, BURGER, Zool. Jahrb. Syst. vii, pp. 210-214. (*A. spectabilis*), Mc. INT., = *Drepanophorus rubrostriatus*, Hubr.; RICHES, t. c.

(*Borlasia quinquelineata*), QUOI & GAIM., = *Eupolia*; BÜRGER, Zool. Jahrb. Syst. vii.

- Carinella polymorpha* at Plymouth; RICHES, J. Mar. biol. Ass. iii. p. 5.
Carinina grata, Coast of New England; VERRILL, Tr. Connect. Ac. viii.
Cephalothrix linearis, Coast of New England; VERRILL, t. c.
Cerebratulus steineni, *C. subtilis*, *C. validus*, n. spp., S. Georgia, BÜRGER,
 Zool. Jahrb. Syst. vii, pp. 226-229. *C. boutani*, n. sp., Red Sea,
 JOUBIN, Rev. biol. Nord France, v, p. 67. Description of 4 species
 and 1 doubtful one from New England; VERRILL, t. c.
Drepanophorus rubrostriatus, at Plymouth; RICHES, t. c. *D. lankesteri*;
 VERRILL, t. c.
¹ *Emea*, n. g. of *Enopla*, with *lacustris*, n. sp., L. of Geneva, anatomy and
 histology; DU PLESSIS, Rev. Suisse Zool. pp. 329-357.
Emplectonema: definition and synonymy of genus; VERRILL, t. c. p. 412,
 with description of *E. giganteum*.
Eupolia mediolineata, n. sp., Mauritius, *E. novemlineata*, n. sp., Java, and
E. mexicana, n. sp., Mexico, BÜRGER, Zool. Jahrb. Syst. vii,
 pp. 230-236.
¹ *Hyalonemertes*, n. g. of a new family, *Nectonemertidae*, with *H. atlantica*,
 n. sp., in the Gulf Stream; VERRILL, t. c. p. 451.
Lineus bicolor, p. 426, and 7 other species, 1 doubtful one, New England;
 VERRILL, t. c.
Malacobdella, 2 spp., New England, VERRILL, t. c. pp. 444 & 445.
Micrura aurantiaca, at Plymouth; RICHES, t. c. *M. dorsalis* and *rubra*,
 n. spp., pp. 429 & 430, and 3 other species from New England; VERRILL, t. c.
¹ *Nectonemertes*, n. g. of a new family, *Nectonemertidae*, with *N. mirabilis*,
 n. sp., Gulf Stream; VERRILL, t. c. pp. 447-450.
Nemertes candida, at Plymouth; RICHES, t. c.
Tetrastemma: variations in the genus, and description of *T. nigrum*,
immutabile, and *ambiguum*, n. spp., Plymouth; RICHES, t. c. pp.
 14-20. Variations in *T. candida*, *dorsale*, and *vittatum*, and description
 of *T. roseum*, n. sp., p. 412, *T. vermiculus*, with *catenulatum*, n. var.,
 p. 408, and *T. dorsale*, with *unicolor*, n. var., p. 410, and *T. elegans*,
 coast of New England; VERRILL, t. c. *T. amphiporoides*, *dubosi*,
gulliveri, *hansi*, *antarcticum*, *vallidum*, *georgianum*, n. spp., S. Georgia;
 BÜRGER, Zool. Jahrb. Syst. vii.

D.—TURBELLARIA.

PÉREYASLAWZEWA, in her monograph of the Turbellarians of the Black Sea, Zapiski Novoross. Obsch. xvii, 3, would substitute the name *Pseudoacæla* for *Acæla*, in consideration of the fact that the forms belonging to this group have a distinct gastric cavity in the embryo, and even in the adult the presence of pharynx and alimentary canal, as well as nervous system, can be demonstrated. She would therefore separate the marine Turbellarians into 3 groups as follows:—

<i>Pseudocaela</i> , including the genera	<i>Schizoprora</i> , with 1 sp., pp. 204 & 205.
	<i>Aphanostoma</i> , with 4 spp., pp. 205-213.
	<i>Convoluta</i> , with 8 spp., pp. 214-230.
	<i>Darwinia</i> , n.g., with 3 spp., pp. 230-242.
	<i>Macrostoma</i> , with 3 spp., pp. 242-244.
	<i>Microstoma</i> , with 1 sp., pp. 244-246.
	<i>Promesostoma</i> , with 6 spp., pp. 246-255.
	<i>Proxenetes</i> , with 2 spp., pp. 255-261.
	<i>Hyporhynchus</i> , with 4 spp., pp. 261-268.
	<i>Macrorhynchus</i> , with 6 spp., pp. 268-284.
<i>Rhabdocela</i> , including the genera	<i>Schultzia</i> , with 2 spp., pp. 288 & 289.
	<i>Ophistoma</i> , with 1 sp., pp. 284-289.
	<i>Acmastoma</i> , with 1 sp., pp. 291-295.
	<i>Allostoma</i> , with 1 sp., pp. 297-299.
	<i>Monotus</i> , with 2 spp., pp. 299-303.
<i>Allocoela</i> , including the genera	<i>Plagiostoma</i> , with 1 sp., pp. 295-297.

HALLEZ, Rev. Biol. Nord France, v, pp. 92-107, 135-158, & 165-197, publishes an elaboration of part of his paper on the classification of Turbellarians recorded last year [see Zool. Rec. 1892, *Vermes*, p. 13, HALLEZ (3), and p. 70].

CHAPUIS (66), describes a remarkable Turbellarian from Patagonia, of which he has only seen the male, though he has examined 80-100 specimens, and whose systematic position he cannot decide. It resembles the Dendrocoels in some respects, the Rhabdocels in others.

BERGENDAL, Rev. biol. Nord France, v, founds a new family of Polyclades, the *Polypostidae*, belonging to the suborder *Acotyles*, for *Polypostia*, n.g., p. 366, and *Cryptocelis*, n.g., p. 237. It is most nearly allied to the family *Leptoplanidae*.

A new Turbellarian, from the Yellowstone Lake, is mentioned and very briefly described by FORBES, Bull. U. S. Fish Comm. xi.

VERRILL, Tr. Connect. Ac. viii, pp. 459-520, describes and figures, and gives synonymy of a number of species from the coast of New England.

Acrorhynchus bivittatus, v. Graaf, referred to genus *Macrorhynchus bivittatus*; PÉREYASLAWZEWA, Zapiski Novoross. Obshch. xvii, 3, p. 277.

Anoplodium pusillum, n. sp., from body cavity of *Holothuria poli*; MONTICELLI, Monit. Zool. Ital. iii.

Aphanostoma for (*Proporus*, Schm.) *rubropunctata*, A. for (*Naidina*, Ulj.) *pulchella* and *sensitiva*; PÉREYASLAWZEWA, pp. 211-213. *A. aurantiacum* and *olivaceum*, n. spp. (pp. 509 & 510), and another species, coast of New England; VERRILL, t. c.

Automolos horridus, n. sp., Plymouth; GAMBLE, Quart. J. Micr. Soc. xxxiv, p. 491.

Bdelloura candida, Gir., described and figured, coast of New England; VERRILL, t. c. p. 499.

Convoluta elegans and *hipparchia*, n. spp., the latter with varieties *violacea* and *nigra*, n. var., and *C. viridis*, n. sp., Black Sea; PÉREYASLAWZEWA, t. c. pp. 211-229. *C. paradoxa*, habits, &c.; GAMBLE (93).

- ↳ *Cryptocelides*, n. g., as type of a new family (*Cryptocelididae*) afterwards changed to *Polypostiadæ* (p. 366), with *O. loveni*, n. sp.; BERGENDAL, Rev. biol. Nord France, v, pp. 237-241: in British Seas; GAMBLE (93), [see also *Polypostia* and *Typhlolepta*].
- Cryptocelis arenicola*, n. sp., North of France; HALLEZ, Rev. biol. Nord France, v, p. 150.
- Cycloporus maculatus*, n. sp., North of France; HALLEZ, t. c. p. 171. *C. papillous*, and its variation in colour; GAMBLE (93).
- Cyrtomorpha subtilis*, v. Graaf, referred to n. g., *Darwinia*; PÉREYAS-LAWZEWA, Zapiski Novoross. Obsch. xvii, 3.
- ↳ *Darwinia*, n. g., with *D. albomaculata* and *D. variabilis*, n. spp., and including *Cyrtomorpha subtilis*, v. Graaf, Black Sea; PÉREYAS-LAWZEWA, t. c. pp. 230-242.
- Dendrocaelum brandtii*, n. sp., and *D. brunneo-marginatum*, n. sp. (? = *Planaria affinis*, Oerst.), East Baltic; BÖHLMIG, Ber. Komm. deutsch. Meere, vi (3), pp. 205 & 206.
- ↳ *Discocelides*, n. g. of *Leptoplanidae*, with *D. langi*, n. sp.; BERGENDAL, t. c. p. 241.
- Discocelis mutabilis* (Verr.), coast of New England; VERRILL, Tr. Connect. Ac. viii.
- Eurylepta maculosa*, n. sp., coast of New England; VERRILL, t. c. p. 495.
- ↳ *Eustyllochus*, n. g., for (*Planocera elliptica*) Girard; VERRILL, t. c.
- Fovia affinis*, and 2 varieties, coast of New England; VERRILL, t. c. p. 509.
- Geoplana diemenensis*, n. sp., p. 179, *G. mortoni*, n. sp., p. 181, *G. typhlops*, n. sp. (for a specimen he had previously referred to *G. alba*) p. 184, and *G. adæ*, Dendy, var. *fusca*, n. var., all from Tasmania; *G. mundula* and *G. variegata*, Fl. & Ham., found there for the first time, and *G. tasmanica*, described; DENDY, P. Soc. Victoria, vi, pp. 178-189. *G. quinquelineata* and *G. fletcheri*, var. *adelaidensis*, described, from South Australia; DENDY, t. c.
- (*Girator bivittatus*), Ulj., = *Macrorhynchus bivittatus*; PÉREYAS-LAWZEWA, t. c. p. 277.
- Gunda graffii*, n. sp., East Baltic; BÖHLMIG, Ber. Komm. deutsch. Meere, p. 205.
- ↳ *Heterostylochus*, n. g., for *H. (Stylochoplana*, Lang., *Stylochus*, Qfg.,) *maculatus*; VERRILL, t. c. pp. 467 & 468 (footnote).
- Hyporhynchus piriformis* and *mirabilis*, n. spp., Black Sea; PÉREYAS-LAWZEWA, t. c. pp. 266 & 267.
- Imogine oculifera*, Gir., coast of New England; VERRILL, t. c.
- Leptopiana schizoporellæ*, n. sp., North of France; HALLEZ, Rev. biol. Nord France, v, p. 156. *L. virilis*, n. sp., p. 478, and *L. angusta*, n. sp., p. 485, and 3 other species from coast of New England; VERRILL, t. c.
- Macrorhynchus spiralis* and *dolichocephalus*, n. spp., Black Sea, and (*Protostomum*) *keffersteinii*, Clp. (= *M. naegeli*) Graaf (*Girator* Ulj.), or (*Acrorhynchus*, Graaf) *bivittatus* referred to this genus; PÉREYAS-LAWZEWA, t. c. p. 275-277.

- Macrostoma gracil*, *megalogastricum*, and *ventriflavum*, n. spp., Black Sea ; PÉREYASLAWZEWA, t. c. pp. 243-246.
- (*Mesostomum ensifer*, Ulj.), referred to genus *Promesostoma* ; PÉREYASLAWZEWA, t. c. p. 249.
- (*Naidina*, Ulj., *pulchella* and *sensitiva*), referred to genus *Aphanostoma* ; PÉREYASLAWZEWA, t. c.
- Oligocladus sanguinolentus*, Isle of Man and Plymouth ; GAMBLE, P. Liverp. biol. Soc. vii, p. 170.
- Opistoma oculata*, n. sp., Black Sea ; PÉREYASLAWZEWA, t. c. p. 287.
- Plagiostoma elongatum* and *pseudomaculatum*, n. spp., GAMBLE, Quart. J. Micr. Soc. pp. 473 & 474. *P. pontica*, n. sp., Black Sea ; PÉREYASLAWZEWA, t. c. p. 295. *P. quadrioculatum*, n. sp., Greater Lake of Plön ; ZACHARIAS, Biol. Centralbl. xiii, pp. 377-382. *P. sulphureum*, Port Erin ; GAMBLE, P. Liverp. biol. Soc. vii, p. 162.
- Planaria alpina*, distribution, anatomy and systematic position ; BORELLI, Boll. Mus. Torino, viii, No. 137, pp. 1-10 : method of distribution ; GAMBLE, t. c. (*P. affinis*) Oerst., ? = *Dendrocaelum brunneo-marginatum* ; BÖHMIG, t. c. p. 150.
- (*Planocera elliptica*, Girard), referred to *Eustylochus*, n. g. ; VERRILL, t. c.
- Planoceropis*, n. subg. of *Planocera* with marginal ocelli ; VERRILL, t. c., with *P. nebulosa*, Girard, as type, coast of New England.
- Polycelis nigra*, var. *brunnea*, n. var., and *P. cornuta*, var. *brunnea*, n. var., N. Italy ; BORELLI, Boll. Mus. Torino, viii, No. 137, pp. 10 & 11.
- Polychærus caudatus*, Mark., New England, additions to anatomy ; VERRILL, t. c. p. 311.
- ¶*Polypostia*, n. g. of family previously (p. 237) called *Cryptocelididae*, but now changed to *Polypostiadæ*, n. fam., with *P. similis*, n. sp., an acotylous Polyclad with numerous male copulatory organs ; BERGENDAL, Rev. biol. Nord France, v, pp. 366-368.
- Procerodes ulvae*, coast of New England, VERRILL, t. c. p. 506.
- Promesostoma bilineata*, p. 247, *pachydermum*, p. 250, and *pedicellatum*, n. spp., Black Sea ; *P. (for Mesostomum, Ulj.) ensifer*, p. 249, *P. minima*, as intermediate between this genus and *Proxenetes*, p. 254 ; PÉREYASLAWZEWA, t. c. *P. marmoratum*, notes on, and *P. lenticulatum*, new to Britain ; GAMBLE, P. Liverp. biol. Soc. pp. 155-157.
- (*Proporus rubropunctata*, Schm.), referred to genus *Aphanostoma* ; PÉREYASLAWZEWA, t. c. p. 211.
- Prosthiostomum gracile*, Gir., redescribed, from the coast of New England ; VERRILL, t. c. p. 497.
- (*Prostomum keffersteinii*, Clp.), referred to genus *Macrorhynchus* ; PÉREYASLAWZEWA, t. c. p. 275.
- Provortex rubrobacillus*, n. sp., Plymouth, GAMBLE, Quart. J. Micr. Soc. xxxiv, p. 469.
- Proxenetes paradoxus*, n. sp., Black Sea, PÉREYASLAWZEWA, t. c. p. 259.
- Rhynchodemus pyrenaicus*, n. sp., S. of France, v. GRAAF, Bull. Soc. zool. France, xviii, p. 122. *R. terrestris*, PISAROVIC & BABOR (194).

- Schultzia pothroideum*, n. sp., p. 290, and *P. pellucida*, v. Graaf, var. *theodosica*, n. var., Black Sea; PÉREYASLAWZEWA, t. c.
- Stylochus frontalis*, n. sp., p. 465, and 2 other species, coast of New England; (*S. maculatus*) made type of n. g. *Heterostylochus*, p. 467: VERRILL, Tr. Connect. Ac. viii.
- Stylostoma sanguineum*, n. sp., N. of France, HALLEZ, t. c. p. 180.
- Trigonoporus dendriticus*, n. sp., p. 491, and another species from coast of New England; VERRILL, t. c.
- Typhlocolax acuta*, as probably belonging either to the *Acala* or *Rhabdochela*, rather than to the *Dendrochela*; VERRILL, t. c. p. 514.
- Typhloleptus caeca*, Oerst., ? = *Cryptocelides*; BERGENDAHL, Rev. biol. Nord France, v, p. 241.

4.—NEMATODA, ACANTHOCEPHALA, AND CHÆTOGNATHA.

A.—NEMATODA [including *Mermithidae* and *Gordiidae*].

- Agamонема ranzaniae*, n. sp., from cyst in wall of alimentary canal of *Ranzania truncata*, Mediterranean; STROSSICH, Boll. Soc. Adriatic, xiv, p. 86. *A. sp.* in muscles of body-wall of *Synapta*, in Mediterranean; MONTICELLI, Monit. Zool. Ital. iii, p. 248.
- Alaimus minor*, n. sp., roots of sugar-cane, N.S.W.; COBB, Agric. Gaz. N.S.W. iv, p. 824.
- Allantonema sylvaticum*, n. sp., in *Geotrupes sylvaticus* at Harl Mt. (near Bückeburg), development and life-history; v. LINSTROW, Centrbl. Bakter. xiv, p. 169.
- Angiostomum*: description of genus, and of its 5 contained species occurring in the lungs of a bird, a reptile, and 7 amphibians; STROSSICH, Boll. Soc. Adriatic, xiv, pp. 90–96.
- Aphelenchus longicaudatus* and *minor*, n. spp., banana plant, Fiji, and *A. microlaimus*, COBB, Sydney, N.S.W.; COBB, Macleay Memorial Vol., pp. 53–58. *A. fragariae* and *A. ormerodis*, n. spp. (1891); BOSS, Science, xxi, p. 59.
- Araeolaimus (Araeolaimoides) microphthalmus*, n. sp., Falmouth; MAN, Mém. Soc. zool. France, vi, p. 86.
- Ascaris megalocephala*: experimental observations on ripening and fertilisation of eggs; SALA (215): development of germ cells; WASIELEWSKI (255), BRAUER (41), and ZOJA (269). *A. canis* in *Herpestes*, on shore of Red Sea; SETTI, Atti Soc. Ligustica, iv, p. 15.
- Asconema* in the body-cavity of a Cecidomyiid fly, and its history; GIARD, Boll. Soc. Ent. France, lxii, p. ccxxi.
- Aulolaimus exilis*, n. sp. (♀ only), bananas, Fiji, COBB, Macleay Mem. Vol., p. 40.
- Bastania australis*, n. sp., Clarence river, N.S.W., COBB, Agric. Gaz. N.S.W. iv, p. 824.
- Bathylaimus*, n. g., with *B. australis*, n. sp., Port Jackson; COBB, P. Linn. Soc. N.S.W. viii, p. 409.

- ⁴*Brachynema*, n. g., with *B. obtusa*, n. sp., sugar cane, N.S.W.; COBB, Agric Gaz. N.S.W. iv, p. 811.
- Cephalobus similis* (young ♀) (? the type of a new genus), and *C. infestans* (♂ only), n. spp., COBB, Macleay Mem. Vol., pp. 39 & 40. *C. multicinctus*, n. sp., COBB, Agric. Gaz. N.S. W. iv, p. 829.
- ✓ *Cephalonema*, n. g., with *C. longicauda*, n. sp., sugar cane, N.S.W.; COBB, t. c. p. 825.
- ↓ *Chaolaimus*, n. g., with *C. pellucidus*, n. sp., sugar cane, N.S.W.; COBB, t. c. p. 821.
- Cheiracanthus hispidus*, Fedt., from stomach of Hungarian pig, anatomy; v. LINSTOW, Arch. Naturg. lix, p. 202.
- Chordodes*: systematic of genus; JANDA, Zool. Jahrb. Syst. vii. He would make it into a separate genus on a level with *Gordius* and *Nectonema*. He describes *C. brasiliensis*, n. sp., Brazil, and the males of several other species which were not previously known or inefficiently described.
- Chromadora poecilosoma*, n. sp., Falmouth, MAN, Mém. Soc. zool. France, vi, p. 96. *C. minima* and *C. musae*, n. spp., (immature ♀'s only), banana roots, Fiji, COBB, Macleay Mem. Vol., pp. 13 & 14. *C. minima* also in N.S.W., more detailed description, COBB, Agric. Gaz. N.S.W. iv p. 820. *C. minor*, n. sp., Port Jackson, COBB, P. Linn. Soc. N.S. Wales, viii, pp. 394–399.
- (*Chromogaster*), n. g., with *C. nigricans*, n. sp., Bay of Naples, and *C. purpurea*, n. sp., Adelaide, COBB, t. c. pp. 416 & 417. In a note he refers the genus to *Siphonolaimus*, de Man, q.v.
- ✓ *Demonema*, n. g., with *D. rapax*, n. sp., Bay of Naples; COBB, t. c. p. 392.
- Diplogaster*: description of genus and 21 spp., with key. *D. parvus* (♂), *minor* (♀), and *minima*, n. spp., Fiji; *D. australis* (♀), and *D. graninum* (♂), n. spp. [or (?) = 1 n. sp. (♂ and ♀)], and *D. trichuris*, Sydney, N.S.W.; COBB, Macleay Mem. Vol., pp. 15–22.
- Dochmius trigonocephalus*, Duj., anatomy; POSITANO-SIADA (197).
- Dorylaimus exilis*, *obtusus* (♀ only), *longicollis* (♀), *perfectus*, *granuliferus* (♀), *labyrinthostoma* (♀), n. spp., bananas, Fiji; and *D. spiralis*, n. sp., (♀), carrots, N.S.W.; and *D. domus glauci*, n. sp., (♀), Pompeii, and *D. resvorianus*, n. sp., Mt. Vesuvius; COBB, t. c. pp 41–45. *D. minutus* and *subsimilis*, n. spp., sugar cane, N.S.W., COBB, Agric. Gaz. N.S.W. iv, p. 810.
- Enoplolaimus vulgaris*, n. sp., Falmouth, MAN, Mém. Soc. zool. France, vi, p. 119.
- Filaria uncinata*, of duck, with *Daphnia pulex* for intermediate host; HAMANN, Centrbl. Bakter. xiv, pp. 555–557.
- ✓ *Fimbria*, n. g., with *F. tenuis*, n. sp., (♂ only) Ceylon, COBB, P. Linn. Soc. N.S. Wales, viii, p. 420.
- Gordius latrensis* and *speciosus*, n. spp., Galatia, JANDA, Zool. Jahrb. Syst. vii, pp. 596 & 597. *G. raphaelis*, n. sp., from *Phyllocladus* in French Congo, CAMERANO, Bull. Soc. zool. France, xviii, p. 213. *G. madagascariensis* and *G. pardalis*, n. spp., Madagascar, CAMERANO, Boll.

- Mus. Torino, viii, No. 148. *G. verrucosus*, Baird, revision needed; (*G. varius*) Leidy, ♀ = *G. tricuspidatus*, Dufour; CAMERANO, Bull. Soc. zool. France. (*G. sp.?*) Vejdowsky, = *G. pioltii*, Camer.; JANDA, t. c. Resistance of muscle of *G. pustulosus* and of *G. tolosanus*; CAMERANO, Boll. Mus. Torino, viii, No. 139. Anatomy of *Gordius* and *Mermis* compared; VILLOT, C.R. Ass. Franc. 1892, ii, p. 529.
- Heterakis inflexa*, embedded in egg-shell; PAVESI (191).
- Icthyonema pellucidum*, n. sp., from *Tetrodon stellatus*; JÄGERSKIÖLD (128).
- ^ *Laxus*, n. g. for *L. contortus*, n. sp., Bay of Naples, and *L. longus* (♂), n. sp., Port Jackson; COBB, P. Linn. Soc. N.S. Wales, viii, pp. 404 & 405.
- Lecanocephalus*: Schneider's pore and "pharyngeal" glands; HAMANN, Zool. Anz. xvi, p. 432.
- Leptosomatatum elongatum*, Bast., Falmouth; MAN, t. c. pp. 103-108.
- Mermis*: anatomy compared with that of *Gordius*; VILLOT, t. c. A *Mermis* in pharyngeal gland of *Lasius flavus*; JANET (131).
- Monhystera leptosoma*, n. sp., Falmouth, MAN, t. c. p. 83. *M. diplops*, *brevicollis*, *lata*, *setosissima*, *gracillima*, *australis*, n. spp., Port Jackson, COBB, P. Linn. Soc. N.S. Wales, viii, pp. 401-408. *M. insignis*, *pratensis*, *australis*, n. spp., sugar cane, N.S.W., COBB, Agric. Gaz. N.S. Wales, iv, pp. 823 & 824. Additions to anatomy of *M. rustica*, Bütschli; COBB, t. c. p. 822: its occurrence in Fiji I.; COBB, Macleay Mem. Vol., p. 30.
- Monochus*: description of genus and key to species, with *M. digiturus* (♀), *gymnolaimus* (♀), *minor* (immature ♀), n. spp., roots of bananas, Fiji; and *M. major*, n. sp., Moss Vale, N.S.W., *M. longicaudatus*, n. sp., on celery, Sydney, COBB, Macleay Mem. Vol., pp. 1-12. *M. intermedius* and *similis*, n. spp., sugar cane, N.S.W., COBB, Agric. Gaz. N.S.W., pp. 817 & 818.
- Nectonema agile*: the young parasitic, with *Palaeomonetes* for a host; WARD, P. Amer. Ac. xxvii, p. 260.
- ^ *Neonchus*, n. g., with *N. longicaudata*, n. sp., sugar cane, N.S.W., COBB, Agric. Gaz. N.S.W. iv, p. 819.
- Oncholaimus albidus*, Bastian, Falmouth, MAN, t. c. pp. 108-112.
- Oxyuris puronai*, n. sp., from *Macroscincus coetei*, Cape Verd Is., v. LINSTOW, Arch. Naturg. lix, p. 201. *O. flagelloides*, n. sp., from *Atherura armata*, JÄGERSKIÖLD, Ak. Handl. Stockholm.
- ^ *Pelagonema*, n. g., with *P. simplex*, n. sp., Ceylon; COBB, P. Linn. Soc. N.S. Wales, viii, p. 390.
- Pelodora janeti*, n. sp., larvæ in pharyngeal glands of ants, adult free-living in detritus of ants' nest; JANET, C.R. Ac. Sci. cxvii, pp. 700-703.
- (*Peritrichelius*) not a distinct genus from *Ascaris*; JÄGERSKIÖLD (128).
- ^ *Platycoma*, n. g., with *P. cephalata*, n. sp., (♂), Bay of Naples; COBB, P. Linn. Soc. N.S. Wales, viii, p. 399.

- Plectus insignis*, n. sp., Moss Vale, N.S.W., COBB, Macleay Mem. Vol. p. 38. *P. minimus*, *pusillus*, *intermedius*, *cephalotus*, n. spp., sugar canes, N.S.W., COBB, Agric. Gaz. N.S.W. iv, pp. 826–828.
- Prismatolaimus australis*, n. sp., (♀), Moss Vale, N.S.W., and *P. intermedius*, Bütschli, ? ; COBB, Macleay Mem. Vol., pp. 37 & 38.
- Rhabditis australis*, n. sp., (♀), Sydney, *R. coronata*, n. sp., (♀), bananas, Fiji, and *R. sp.*? (young), COBB, t. c. pp. 29 & 30. *R. filiformis*, Bütschli, ?, and 2 other species, Sydney ; COBB, t. c. pp. 22–29. *R. simplex*, *minutus*, n. spp., sugar canes, N.S.W., COBB, Agric. Gaz. N.S.W. iv, pp. 830 & 831.
- ↪ *Siphonolaimus*, n. g., with *S. niger*, n. sp., Falmouth, MAN, Mém. Soc. zool. France, vi, pp. 99 & 100. *S. nigricans*, n. sp., Bay of Naples, and *S. purpurea*, n. sp., Port Adelaide, COBB, P. Linn. Soc. N.S. Wales, viii, pp. 416 & 417.
- ↓ *Solenolaimus*, n. g., with *S. obtusus*, n. sp., Bay of Naples ; COBB, t. c. p. 419.
- Spilophora parva*, *gracilicauda*, and *gracilicauda dolichura*, n. spp., Falmouth, MAN, t. c. pp. 89–94.
- Strongylus filaria*, Rud., in *Oreotragus saltator* on shores of Red Sea ; SETTI, (220) p. 16.
- ↓ *Synonchus*, n. g., with *S. fasciculatus*, and *hirsutus* (♂), n. spp., Bay of Naples ; COBB, t. c. pp. 411–413.
- ↓ *Thalassoalaimus*, n. g., with *T. tardus*, n. sp., Falmouth ; MAN, t. c. pp. 81 & 82.
- Thoracostoma figuratum*, Bast., n. sp., Falmouth, MAN, t. c. pp. 108–111.
- ↓ *Trefusia*, n. g., with *T. longocaudata*, n. sp., Falmouth, MAN, t. c. pp. 84 & 85.
- Trichosomum strulosum*, n. sp., from œsophageal epithelium of pheasant in different parts of Germany ; REIBISCH, Arch. Naturg. lix, pp. 331–340. Experimental introduction of a species into mouse ; PARONA & PERUGIA (190 III).
- ↑ *Tricoma*, n. g., with *T. cincta*, n. sp., having a segmented appearance, Bay of Naples ; COBB, P. Linn. Soc. N. S. Wales, viii, pp. 389–390.
- Triodontolaimus acutus*, Villot, Falmouth ; MAN, t. c. pp. 115–119.
- Tripyla* : description of genus and 12 species, with key : *T. minor*, n. sp., (♀), bananas, Fiji, and *T. tenuicauda*, n. sp., (♂), Sydney, N.S.W. ; COBB, Macleay Mem. Vol. pp. 31–36.
- Tylencholaimus limnophilus*, n. sp., between the Danube and Theiss, DADAY, Math. term. Ertes. Magyar Ak. xii, p. 39 (and pp. 13, 23, & 25). *T. ensiculiferus*, n. sp., (♀), bananas, Fiji, COBB, t. c. p. 47.
- Tylenchus granulosus* (♀), *similis* (♂), *multicinctus*, n. spp., Fiji, COBB, t. c. pp. 51 & 52. *T. setiferus*, *emarginatus*, *dihystera*, *minutus* (♂), and *uniformis*, n. spp., sugar canes, N.S.W., COBB, Agric. Gaz. N.S.W. iv, pp. 813–815. *T. radicola*, Greef, larvæ, and development of male and female ; COBB, Macleay Mem. Vol., pp. 48–51. *T. devastrix*, and its synonyms ; COBB, t. c. p. 51.

B.—*ACANTHOCEPHALA*.

Echinorhynchus: 18 species in different fish of Scandinavia, with *E. gibber* (from *Muraena anguilla*) and *E. obovatus* (from *Mergus serrator*), n. spp., OLSSON, Sv. Ak. Handl. xxv. On 3 species in birds, CONDORELLI-FRANCAVIGLIA, (71) pp. 79–82. *E. capitatus*, v. Linst., as an instance of omopolielminthes in *Globicephalus vinealis*, Flow., Gulf of Genoa; PARONA (189). *E. magretti*, Par., cysts occurring outside the trachea of *Lamprotornis chalybea*, from Red Sea; SETTI (220). *E. tuberosus*, Yellowstone Park, notes on, LINTON, (150) p. 554. *E. claviceps*, as an instance of true paedogenesis; MONTICELLI (172).

C.—*CHAETOGNATHA*.

[Nothing.]

5.—ROTIFERA, INCLUDING GASTROTRICHIDÆ.

DADAY, Termes. Fuzetek. xvi, pp. 72–80, deals with the systematic of Rotifers in general, and introduces a new family belonging to the order *Monogonota* for his *Cypridicola parasitica*, a peculiar form with single ovary, but paired genital apertures, and a foot gland which becomes the stalk gland, ectoparasitic on a *Cypris*.

Adinetidae; BRYCE, J. Quekett Club, v, pp. 146–151.

Adineta clauda, n. sp., Gareloch Head, N.B., possibly the type of a new genus; BRYCE, J. Quekett Club, v, p. 150. *A. tuberculosa*, *barbata*, and *gracilis*, n. spp., N. Germany, JANSON, Abh. Ver. Bremen, xii, Suppl. pp. 69–73. *A. vagu*, 2 var., *major* and *minor*, distinguished; BRYCE, t. c.

Anapas: remarks on the genus and on the species, *A. ovalis*, to which he would refer Lauterborn's (*Chromogaster testudo*); BERGENDAL, Ofv. Ak. Forh. l, pp. 589–598.

Ascomorpha agilis and *amygdalum*, n. spp., Holstein (Greater Lake of Plön), ZACHARIAS, Biol. Centralbl. xiii, pp. 377–382.

Asplanchna priodonta, Gosse, from Plön, anatomy; ROUSSELET (21).

Bipalpus vesiculosus, in the Greater Lake of Plön; ZACHARIAS, t. c. Anatomy of female, with only a brief mention of the male; WIERZEJSKI & ZACHARIAS, Zeitschr. wiss. Zool. p. 236. Lauterborn's *Dictyoderma hypopus* referred to it; WIERZEJSKI & ZACHARIAS, Zool. Anz. xvi, p. 430. *B. lynceus*, Ehrb., defence of the name; WIERZEJSKI & ZACHARIAS, t. c. JÄGERSKIÖLD, Zool. Anz. xvi, p. 357, gives these 2 species as synonyms of his 2 species of *Gasterochiza*, q.v.

Brachionus tridens, n. sp., salt and brackish water, Scotland; HOOD, J. Quekett Club, v, p. 283. *B. rhenanus*, n. sp., Rhine, LAUTERBORN, Zool. Jahrb. Syst. vii, p. 269.

- Callidina pusilla*, n. sp., Epping Forest, and *C. cornigera*, n. sp., near Bognor, and remarks on the naming of other species and of their organs; BRYCE, J. Quckett Club, v, pp. 196-201. *C. longirostris, vorax*, and *ehrenbergii*, n. spp., N. Germany, JANSON, Abh. Ver. Bremen, xii, pp. 53-57. (*C. sordida*), n. sp., Epping Forest, WESTERN, J. Quckett Club, v, p. 159, = *C. longirostris*, Janson; WESTERN, t. c. p. 308.
- (*Chromogaster*), n. g., with (*C. testudo*), n. sp., Rhine, LAUTERBORN, t. c. p. 266, shown to = *Anapas ovalis*, BERGENDAL, Ofv. Ak. Forh. l.
- Coclopus similis*, Wierzejski, ? = *Rathulus bicornis*, Western; WESTERN, J. Quckett Club, v, pp. 308.
- Colurus pachypodus* and *tesselatus*, n. spp., Ireland, GLASCOTT, P. Dublin Soc. viii, p. 74. *C. cristatus*, n. sp., near New York, ROUSSELET, J. R. Micr. Soc. p. 446.
- Conochylus leptopus*, n. sp., Yellowstone Park, FORBES, Bull. U. S. Fish Comm. xi, p. 256. *C. volvox*, in Rhine Lakes, IMHOFF (125).
- (*Cypridicola*), n. g., with *C. parasitica*, n. sp., and type of a new family belonging the order Monogonota, ectoparasitic on *Cypris incongruens*; DADAY, Termes. Fuzetek, xvi, pp. 1-28.
- (*Dictyoderma*), n. g., with (*D. hypopus*), n. sp., Rhine, LAUTERBORN, t. c. p. 268, = *Bipalpus vesiculosus* (*Gastroschiza flexilis*, Jäg.), WIERZEJSKI & ZACHARIAS, t. c., ? = *G. faveolata* (*B. lynceus*, W. & Z.), BERGENDAL, t. c.
- Diglena inflata, revolvens, elongata*, and *rugosa*, n. spp., pp. 60-62, and *hudsoni* and *dromius*, n. spp., pp. 83 & 84, Ireland, GLASCOTT, t. c. *D. ferox*, n. sp. for (*Pleurotrocha grandis*), West.; WESTERN, J. Quckett Club, v, p. 155.
- Dinocharis serica*, n. sp., China, THORPE, J. R. Micr. Soc. p. 152.
- Eosphora striata*, n. sp., Ireland, GLASCOTT, t. c. p. 57.
- (*Euchlanis bicarinata*), Perty, referred to genus *Salpina*, and needing a new specific name, there being already a *S. bicarinata*; DIXON-NUTTALL, J. R. Micr. Soc. pp. 639 & 640.
- Floscularia pelagica*, n. sp., Keston Common, ROUSSELET, J. R. Micr. Soc. p. 444. *F. spinata*, n. sp., Scotland, HOOD, J. Quckett Club, v, p. 281. *F. atrochooides*, n. sp., non-sessile, near Krakau, WIERZEJSKI, Zool. Anz. xvi, pp. 312-314. *F. regalis*, Huds., in Alpine Lakes, IMHOFF (124). *F. mutabilis*, Bolt., in Rhine, LAUTERBORN, t. c.
- Furcularia semisetifera, megalcephala*, and *rigida*, n. spp., Ireland, GLASCOTT, P. Dublin Soc. viii, pp. 55-57. *F. tubiformis*, n. sp., West Indies, KING, J. Quckett Club, v, pp. 137-145.
- (*Gasteropus stylifer*), Imh., in Rhine, ?, LAUTERBORN, t. c. p. 263, ? = *Gastroschiza stylifer*, JÄGERSKIÖLD, t. c., = *Notops pygmaeus*, Calman, WIERZEJSKI & ZACHARIAS, Zool. Anz. xvi, pp. 430-432, although not properly a *Notops*, and possibly also = *N. ruber*, Hood. (*G. hudsoni*), Imhof, ? = *Gastroschiza flexilis*, Jäg.; JÄGERSKIÖLD, t. c.; and (*G. ehrenbergi*), Imhof, ? = *Gastroschiza lynceus*, Ehrb., JÄGERSKIÖLD, t. c.

Gastroschiza : remarks on genus; JÄGERSKIÖLD, *t. c.*, BERGENDAL, *t. c.* JÄGERSKIÖLD recognises 5 species, and gives their synonyms [see *Bipalpus*].

Gastrotricha : relationship to Rotifers discussed ; WAGNER, Biol. Centralbl. xiii, pp. 223-238. Three species in Holstein lakes ; ZACHARIAS (268).

(*Hudsonella*), n. g. with (*H. picta*), n. sp., ZACHARIAS, *t. c.* = *Notops pygmaeus*, Calm. ; ROUSSELET, J. R. Mier. Soc. pp. 444-449, WIERZEJSKI & ZACHARIAS, Zeitschr. wiss. Zool. lvi. The latter would, however, make the species the type of a separate genus, and suggests that the *Notops ruber* of Hood may be the same species.

Lacinularia megalotrocha and *racemovata*, n. spp., Singapore and China ; THORPE, J. R. Mier. Soc. pp. 149 & 150.

Mastigocera capucina, n. sp., (♀ only), Holsteiu ; ZACHARIAS, Biol. Centralbl. xiii, and WIERZEJSKI & ZACHARIAS, Zeitschr. wiss. Zool. lvi, p. 242. *M. (hudsoni)*, n. sp., Rhine ; LAUTERBORN, Zool. Jahrb. Syst. vii, p. 266, and Verb. Ver. Heidelb. v., = *M. capucina*, W. & Z. ; WIERZEJSKI & ZACHARIAS, *t. c.* *M. cylindrica*, Imh. ?, Rhine, p. 264, *M. setifera*, n. sp., or ? the same, Rhine, p. 271 ; LAUTERBORN, Zool. Jahrb. Syst. vii. *M. brachydactyla*, n. sp., Ireland ; GLASCOTT, P. Dublin Soc. viii, p. 64.

Megalcephala procera and *spinosa*, n. spp., China, THORPE, *t. c.* p. 150.

Melicerta janus, in Alpine Lakes ; IMHOFF, Biol. Centralbl. xiii, p. 607.

Metopidea parvula, n. sp., Fpping Forest, BRYCE, J. Quekett Club, v, p. 284.

Monostyla ovata, n. sp., Yellowstone Lake, FORBES, Bull. U. S. Fish Comm. xi, p. 256. *M. n. sp.*, in Rhone region, IMHOFF, Arch. Sci. Nat. xxix, p. 649. *M. lamellata*, n. sp., between Danube and Theiss, DADAY, Math. term. Ertes. Magyar Ak. xii, p. 40.

Microdon ? *robustus*, n. sp., Ireland, GLASCOTT, *t. c.* p. 40.

Notholca hoodi, n. sp., marine, Westport, Ireland, WESTERN, J. Quekett Club, v, p. 158. *M. scapha*, Gr. (for the first time in fresh water), and *N. labis*, Gr., in Alpine lakes ; IMHOFF, Biol. Centralbl. xiii.

Notommata volitans, *cylindriformis*, *larviformis*, and *rubra*, pp. 47-86, *N. lucens* and *N. gigantea*, pp. 79 & 80, n. spp., Ireland, GLASCOTT, P. Dublin Soc. viii.

Notopa lotos, n. sp., China, THORPE, *t. c.* p. 152. *N. forcipata*, n. sp., p. 79, and *N. ? quadrangularis*, n. sp., p. 43, Ireland ; GLASCOTT, *t. c.* *N. pygmaeus*, Calm., Dundee, description ; ROUSSELET, J. R. Mier. Soc. p. 446 [see also *Hudsonella*].

• *Octotrocha*, n. g., with *O. speciosa*, n. sp., China ; THORPE, *t. c.* p. 146.

Oecistes brevis, n. sp., Scottish lakes, ROUSSELET, *t. c.* p. 448. *O. sp. ?*, TUGWELL, Sci. Gossip, p. 130.

Pedalion fennicum, Lev., remarks on species by Dr. Hudson ; LEVANDER, (145) : figured and remarked on by CALMAN, Ann. Nat. Hist. p. 332.

Philodinidae : summary of knowledge of the family ; JANSON (132).

Philodina commensalis, n. sp., on *A sellus vulgaris*, neighbourhood of London ; WESTERN, J. Quekett Club, v, p. 156.

(*Pleurotrocha grandis*) Western, = *Diglena ferox*, n. sp. ; WESTERN, t. c. p. 155.

Polyarthra aptera, n. sp., Scottish lakes and pools ; HOOD, t. c. p. 281.

Rathulus bicornis, n. sp., Roehampton, Scotland, and Ireland ; WESTERN, t. c. p. 159, and p. 308.

Rhinops orbiculodiscus, Thorpe, in China, probably = type of new genus ; THORPE, J. R. Micr. Soc. pp. 145-152.

Rotifer phaleratus, n. sp., or (?) only new var. of *R. vulgaris*, Ireland ; GLASCOTT, t. c. p. 38.

Sacculus hyalinus, Kellic., in Rhine ; LAUTERBORN, Zool. Jahrb. Syst. vii.

Salpina, n. sp., for *Euchlanis bicarinata*, Perty. ; DIXON NUTTALL, J. R. Micr. Soc. p. 639.

Stephanoceros eichhornii, description of male ; WESTERN, J. Quekett Club, v, p. 157.

Syncheta grandis, n. sp., Greater Lake of Plön ; ZACHARIAS, t. c.

Triarthra longisetosus, Ehrb., var. *limnetica*, n. var., Greater Lake of Plön ; ZACHARIAS, t. c.

Trochosphaera solstitialis, n. sp., Chiua, and reference of the genus to the family *Hydatinidae* instead of to the *Mellicertidae* as an aberrant form, on account of the shape of the ovary ; THORPE, t. c. p. 147.

MESOZOA.

MONTICELLI, Rend. Acc. Lincei (5) ii, pp. 39 & 40, describes under the name of *Treptoplas*, n. g., *reptans*, n. sp., an animal with no trace of organs, but having 3 layers of cells and exhibiting ameboid movements. It would seem to be most nearly allied to *Trichoplax adhaerens*, Schultze, but differs from it in having no somatic muscles, by the fact that of the two outer layers of cells, which are both epithelial, the ventral one only is ciliated ; also the refringent bodies instead of being inside the animal are on the surface, and the pigment masses of *Trichoplax* are absent. It was found crawling on the glass of the tanks at the Naples Aquarium. It multiplies by simple division into two.

THIELE, Abh. Ges. Isis, 1892, pp. 54-57, discusses the systematic position of *Salinella*, *Trichoplax*, &c., concluding that they are to be regarded as degenerate Metazoa, the *Ctenophora* being primitive.

XVI. COELENTERATA.

II.—MORPHOLOGY.

HYDROZOA.

The minute anatomy of the Hydrozoa has been submitted to careful examination by Zoja and Schneider. ZOJA (84) by means of the methyl-blue method investigated more particularly the ultimate ramifications of the nervous system of *Hydra*, and is able to give figures of minute fibrils and nodules terminating in the ectoderm cells.

SCHNEIDER's paper (70) is very elaborate, and covers a wide field. The results of his investigations into the structure of the tissue elements are given in a series of figures. The minute anatomy of the ectoderm, endoderm, mesogloea, muscle and nerve fibres, nematocysts, &c., is considered in detail. The genera used in his investigations were *Carmarina* and *Pennaria*, as representatives of the *Hydromedusae*; *Forskalea*, *Apolemia*, and *Velella* as representatives of the *Siphonophora*; *Pelagia* of the *Scyphozoa*, and *Acyonium* and *Adamsia* of the *Anthozoa*.

MURBACH (60) has arrived at different conclusions to Schneider on the subject of the development of nematocysts. He states that the division of the nuclei of the interstitial cells, which form the nematocysts, is amitotic. A portion of the nuclear mass forms a little rod at the periphery of the cell, which soon passes into the substance of the cell. The rod then separates itself from the cell-protoplasm, excepting at one point, where it remains in contact with it. The rod then increases in size, and the thread is formed in a spiral manner round it.

CHAPEAUX (25) says that physiological experiment teaches us that *Hydra* is a very sensitive animal, that the sensitivity is not localised in any particular region, but is distributed throughout the organism; that the peristomatic region is the coordinating centre of movement, that the extremities of the tentacles are extremely sensitive, and that the cnidocil is an "élément sensoriel."

The cnidocil, he finds, is in connection with the nervous system, and the peristomatic region is morphologically the centre of the nervous system.

SIGERFOOS (72) states that, notwithstanding Lang's investigations on the mode of gemmation of *Hydra* [vide Zool. Rec. 1892], the blastostyle buds of *Epenthesis* are formed by evagination of both ectoderm and endoderm.

SAMASSA (69), in a note on the origin of the sexual cells of the *Ctenophora*, says that although it has not yet been actually proved, it is highly probable that they arise in *Callianaria* from the ectoderm.

NUSSBAUM (64) observed that by changing some living Hydras from one tank to another, he was able to change their sex. His conclusions are that light, temperature, &c., have no influence in producing the change, but that it is entirely due to the amount of food present, a

diminution in the amount of food producing a hermaphrodite and then a male condition.

GÜNTHER (34) gives a preliminary account of the anatomy of the freshwater Medusa (*Limnocnida*) from Lake Tanganyika, illustrated by two plates. Until the life-history is known more thoroughly, the zoological position of the genus must remain doubtful, but it shows affinities with both the *Lepto-* and *Anthomedusæ*.

HEIDER (39) gives an interesting account of the anatomy of the curious parasitic Ctenophore *Gastrodes*, previously discovered by Korotneff in 1888.

HICKSON (41) gives an account of the early stages in the development of *Distichopora*, together with a summary of the early stages in the development of other Cœlenterates, and discusses briefly the "delamination," "invagination," and other theories of Cœlenterate development.

NAGEL (6) gives an account of his investigations on the physiology of the senses of *Beroe*, and calls attention to the great sensitivity of the skin in this genus.

CHAPEAUX (23, 24) gives an account of his investigations on the digestion of the Cœlenterates. He finds that when one removes an *Adamsia* from the water, and attempts to remove it from the shell on which it is parasitic, it emits a fluid which contains a number of refracting vacuoles, which, when broken, are distinctly more alkaline than sea-water. This fluid does not, however, affect starch, but is capable of attacking albuminoids and changing them chemically. It is also capable of emulsifying fats much more rapidly than ordinary sea-water, but does not change them chemically. This liquid is undoubtedly secreted by the mesenterial filaments. Intra-cellular digestion also occurs. In the transparent nutritive zooids of *Apolemia uvaria* and *Diphyes acuminata*, diatoms, grains of carmine may be seen to undergo disintegration in the endoderm cells. Particles of fibrin are seized by these cells and digested, but the extra-cellular ferment has no effect upon hydrocarbons. When emulsified olive oil is injected into the *Apolemia*, some globules are taken up and changed chemically, but others are rejected.

SCYPHOZOA.

BIGELOW (13) states that in the Medusa *Polyclonia* there is a sexual dimorphism due to an especial adaptation in the female for the protection of the eggs. In the adult females the oral funnels have disappeared from the disc, while the oral vesicles have increased in number until they are closely crowded together and completely cover it. The vesicles on the oral disc serve to protect the eggs, those on the arms to capture food.

HORNELL (44) calls attention to the malformed colletocystophores in Lucernarians observed at Jersey, this organ bearing in many cases a tentacle-like outgrowth at its apex.

HORNELL (45) & HURST (48) arrive independently at the conclusion that the *Scyphomedusa* are degenerate. HURST (48) summarises his conclusions as follows:—

1. That *Haliclystus* is a degenerate or arrested *Scyphistoma*.
2. That its marginal bodies are arrested rudiments (*i.e.*, vestiges) of tentaculocysts.
3. That *Lucernaria* is a still further modified ("degenerate") descendant of some free-swimming *Medusa* of one or more species.

HURST (46, 47) comes to the conclusion that the so-called "auditory organs," *i.e.*, "tentaculocysts," "octocysts," &c., of the *Cœlenterata* and other invertebrates cannot be sensitive to vibrations of sound, but they are rather of the nature of "touch" organs.

GOETTE (31) finds that the larva of *Pelagia* possesses, before the beginning of the formation of ephyrae, nearly all the most essential parts of the organisation of a *Scyphistoma*, and lacks only the attached habit and the organs connected with it. The origin of the sexual cells is not purely endodermal, as some of the gastric pouches are formed from ectoderm.

ANTHOZOA.

CARLGREN (19) states that in the *Edwardsiae* and *Edwardsioides* there are only 16 tentacles in two cycles of 8. In the *Edwardsiella* type there are 8 tentacles in the first cycle, but they stand inside instead of outside the tentacles of the second cycles. The tentacles of the second cycle are 12 in number. Besides this there are tentacles of a third cycle more or less incomplete. In the *Milne-Edwardsiae* the tentacles are arranged in four cycles, 6-6-12-24, and on a hexactinian plan. There is a full description of *Milne-Edwardsia carneae*, = *Edwardsia carneae* (Gosse).

CARLGREN (20) finds two forms of brood chamber in the *Actinia*. In the one case they may be simply the intermesenterial chambers or cœlenteric cavity, in the other ectodermic invaginations of the body-wall. The former occurred in four examples of a Paractid and a Bunodid, probably a *Tealia*.

In the same species as the last occurred the chambers formed by ectodermic invagination. They have no communication with the cœlenteron, and must consequently be filled from outside.

According to CARLGREN (21), the siphonoglyphe of the *Cerianthea* is dorsal, and not ventral as it is in *Alcyonaria*.

BOURNE (14), in his account of the post-embryonic development of *Fungia*, uses the following terms:—He calls the individual Caryophyllia-like form developed directly from the ovum a "trophozooid." From this there may arise one or more buds, or "anthoblasts." When two or more anthoblasts unite to form a colony they are called "anthocormus." "Anthocyathus" is the name given to the discoid *Fungia* form, whether free or attached, and "anthocaulus" to the pedicle which carries the anthocyathus.

Mr. Bourne's views as to the cause of the detachment of the anthocyathus from the anthocaulus are expressed as follows:—"It appears that the soft tissues undergo degeneration at the point where the anthocaulus passes into the anthocyathus. The decay and death of the tissues is followed by degenerative changes in the corallum, which is then more liable to the iuroads of *Achyla penetrans*, the parasite hastening the process which has been begun by the decay of the tissues, and which may be completed in its absence by the solvent action of sea-water, a process which would be necessarily very slow."

BROOK (16), in discussing the affinities of the genus *Madrepora*, points out that in the bilateral arrangement of the septa the genera *Anacropora* and many *Montiporæ* show affinities with *Madrepora*, which are not shared by any other genus. *Madrepora*, however, stands alone in having axial corallites and radial bud corallites. The characteristic mode of colony formation in *Madrepora* is confined to the formation of independent branches; but in all colonies, so long as encrustation continues, the mode of budding is not characteristic.

VON KOCH (51) states that in *Madrepora echidnaea* and *M. surculosa* the skeleton of the buds arises from processes on the costæ of the mother-calyx. Connecting pieces are then formed, which become the rudiments of the calyx. The young calyx then becomes like a martin's nest attached to the present calyx. The septa and calyx of the bud are formed entirely from these processes of the costæ of the parent.

III.—FAUNISTIC.

DUERDEN (29) gives a list of the *Hydroidea* of the S. W. coast of Ireland. Eighteen species are recorded for the first time from this locality.

PICTET (66) gives a list of the *Hydroidea* collected in the Bay of Amboyna, and calls attention to the fact that in the tropics the number and size of the Hydroids are smaller than in temperate seas.

WOOD (83) gives a list of the Hydroids collected in the Isle of Man.

NORDGAARD (62) & NORMAN (63) give lists of *Cœlenterata* caught in the Trondhjem Fjord in Norway.

LANKESTER (53) calls attention to the fact that for three years *Limnocodium* did not appear in the Regent's Park tank, but in the beginning of June, 1893, it made its reappearance in the *Victoria regia* tank at Sheffield. This tank was probably infected by the transference of water plants from Kew in 1892-3. The author gives a list of the dates of appearance of *Limnocodium*.

GUERNE (33) calls attention to the freshwater *Medusa*, 20-25 mm. in diameter, stated to occur at Bamakou by Dr. Tautain.

MAAS (59) states that of the 116 *Medusæ* caught by the Plankton Expedition only 9 were coast forms. No genera of *Craspedota* which occur north

of the Florida and Gulf Streams occur south of them, and *vice versa*; a long description of the distribution and occurrence of the species is given in this paper by the author.

CHUN (26) states that the *Monophyidae* are only known in the Mediterranean and in the temperate and tropical zones of the Atlantic and Pacific Oceans. They appear to be entirely absent from colder waters. An interesting point is that the Pacific and the Atlantic species are very closely allied.

DE LACAZE-DUTHIERS (52) calls attention to the immense number of *Scyphistomas* which appeared in one of the tanks of the laboratory at Arago. Not a single *Ephyra*, however, was seen.

VANHOFFEN (77) adds a note to a previous communication on the geographical distribution of *Nausithoe punctata* and some undetermined species of *Pelagia*.

BEAUMONT (8) gives a list of Lucernarians of the Isle of Man, and mentions one species of *Haliclystus* as being probably new.

HERDMAN (40) gives a list of the *Aleyonaria* and *Zoantharia* collected by him in Norway.

SAVILLE KENT (50) gives an account of the fauna of the Great Barrier Reef of Australia.

IV.—NEW GENERA AND SPECIES.

HYDROZOA.

GYMNOBLASTEA.

Syncoryne crassa, 0–2 metres, Amboyna; PICTET (66), p. 8.

↓ *Sphaerocoryne*, n. g. Hydrorhiza rampant, filiform, and ramified. Hydranths in the form of an almost spherical mass. Tentacles capitate, disposed in whorls arranged round the median zone of the hydranth. Medusa buds sessile between the tentacles, Medusa free? *S. bedoti*; PICTET (66), Amboyna.

Tubularia viridis; PICTET (66), p. 17, Amboyna.

New family MYRIONEMIDÆ. The hydranths have a hypostome which is trumpet-shaped and surrounded by numerous filiform tentacles disposed in many whorls. *Myrionema amboinensis*, n. g. & sp.; PICTET (66), 1 metre, Amboyna.

Halecium simplex, p. 22, Laminarian Zone. *H. humile*, p. 23, Amboyna; PICTET (66).

Olytea trigona, p. 33, 1 metre. *O. arborescens*, p. 34, Amboyna; PICTET (66).

Lafcea triaxialis, R., = *L. dimosa*, ? Kattegat; LEVINSEN, (57) p. 381.

Umbrellaria, n. g. Hydrocaulus rudimentary covered by a rudimentary perisarc. Hydranths with a single whorl of filiform tentacles. Hypostome conical. Hydrorhiza filiform, ramified, creeping. Nematocysts of 2 forms. Gonosome unknown. *U. aloysii*; ZOJA, (85) p. 520, Naples Aquarium.

CALYPTOBLASTEA.

Halocordyle australis, BALE, (7) p. 94, Port Phillip Bay.

Leptoscyphus, n. g. *L. junceus* = *Campanularia juncea*, Allman, PICTET, (66) Amboyna.

Campanularia tridentata, BALE, (7) Port Phillip Bay, p. 98.

Sertularella angulosa, BALE, (7) p. 102, hab. ?.

Plumularia tubulosa, p. 114, Port Phillip Bay, and *P. flexuosa*, p. 115, Snowy River mouth; BALE (7). *P. strictocarpa*, p. 55, and *P. plagiocampa*, p. 56; PICTET, (66) Amboyna.

Aglaophenia carinata, BALE, (7) p. 105, W. Australia. *A. disjuncta*, PICTET, (66) p. 59, Amboyna.

Hebella lata, PICTET, (66) p. 40, Amboyna.

Thujaria carica, LEVINSEN, (58) Kara-havet.

TRACHOMEDUSÆ.

MAAS (59) adds the following new species:—

Trachynema longiventris, p. 12, Atlantic.

Murmanema velatoides, p. 13, Tropical Atlantic.

Rhopalonema striatum, p. 15, Temperate N. Atlantic.

Homaeonoma, n. g. The tentacles are equal but numerous (32–64 and more). *H. platygonon*, p. 15. *H. militare*, p. 16, North Atlantic.

Pantachogon, n. g. The gonads are not situated on definite places on the radial canals, but are in the form of irregular swellings on their whole course. The tentacles are numerous and similar to one another. *P. haekelii*, p. 11, N. Atlantic.

Liriope distanogona, p. 36, Tropical Atlantic. *L. compacta*, p. 37, Tropical Atlantic. *L. minima*, p. 37, South Equatorial Current. *L. hyperbolica*, p. 38, Tropical Atlantic.

NARCOMEDUSÆ.

Solmaris multilobata, p. 45, Hebrides.

Pegantha dactylethra, p. 47, North Equatorial Current.

Cunina duplicata, p. 52, Canary and Guinea Currents.

Solmundella hensenii, p. 55, Florida Current, MAAS (59).

LEPTOMEDUSÆ.

Halopsis megalotis, p. 57, N. W. Scotland.

Ptychogena longigona, p. 64, N. Atlantic.

Tiara prismatica, p. 68, Gulf Stream, MAAS (59).

MEDUSA : INCERTÆ SEDIS. ANTHO- OR NARCOMEDUSA.

GÜNTHER (34) adds the following new genus :—

Limnocnida, n. g. Umbrella flat, almost disk-like, about four times as broad as high, with a lens-shaped thickening in the middle. Tentacles very numerous, hollow, with bases partly embedded in and aduate to the umbrella margin. Marginal sense organs situate along line of attachment of velum, composed of a multicellular mass of refringent cells, enclosed in a roundish capsule. Mouth round, two-thirds the diameter of the animal. Manubrium very short. Stomach shallow, of same diameter as mouth. Sexual organs situated on the manubrium.

L. tanganjicæ, p. 274. Lake Tanganyika.

HYDROCORALLINE.

HALE (36) adds the following new species of fossil Stylerids :—

Deontopora, n. g. Dactylopores arranged in an arc of about three-quarters of a circle round a gastropore at the centre. There are no styles visible on a superficial examination in the dactylopores, and the presence of the matrix in the gastropores prevented the search for them there.

D. mooraboolensis, p. 117, Gray Clays, Geelong.

Leptobothrus, n. g. The pores are grouped in cyclosystems; dactylopores not in radial grooves.

L. spenceri, p. 120, Eocene, near Geelong.

RHABDOPHORA.

HOLM (43) describes *Dictyonema cervicorne*, p. 9, *D. abnorme*, p. 13, and *Reticolites nassa*, p. 25, from Gotland.

SIPHONOPHORA.

CHUN (26) adds—

Monophyes brevitruncata, Orotava, p. 103, which occurs in another form, *Diplophysa codonella*, p. 105.

Doromasia, n. g. Bell pentagonal, the distal extremity of the subumbrella cavity being drawn out in a tubular manner. When the axial portion of the colony becomes free it develops into an *Ersaea*.

D. picta and *Ersaea picta*, p. 115, Canary Islands.

D. bojani and *Ersaea bojani*, p. 132, Pacific Ocean.

Halopyramis adamantina and *Cubooides adamantina*, p. 135, Canary Is.

BEDOT (9) adds *Bathyphysa grimaldii*, 1294–2000 metres, North Atlantic, and gives the following synonym (10) : *Forskalia leuckarti*, Bed., = *F. contorta*, Leuckart.

SCYPHOZOA.

ANTIPA (4) adds the following new family:—*Capriidae*. Fixed Stauro-medusæ, with powerful adradial arms on the margin of the umbrella directed inwards for catching food. Without principal or succursal tentacles, but with a dentate border to each arm. Marginal muscle of the umbrella circular and undivided. Longitudinal muscles divided equally in a funnel-shaped manner over the sub-umbrella. A stalk for adhesion. *Capria sturdzii*, n. g. & sp., off Capri, 80 metres.

ANTHOZOA.

ZOANTHARIA.

ACTINIARIA.

CERIANTHEÆ.

Cerianthus tenebrarum, ALCOCK, (3) p. 169, 410 faths., Bay of Bengal.
C. andamanensis, ALCOCK, (2) p. 153, Andaman Is. *C. nobilis*, HADDON & SHACKLETON, (35) p. 118, Torres Straits.

HEXACTINIE.

HADDON & SHACKLETON (35) add the following new species from Torres Straits:—

Corynactis hoplies, p. 118, 6 to 7 faths.

Discosoma kenti, p. 119. *D. malu*, p. 120. *D. macrodactylum*, p. 120. SAVILLE KENT (50) also adds *D. haddoni*, p. 145, and *D. rubra-oris*, p. 151, from the Great Barrier Reef.

Rhodactis bryoides, p. 121. SAVILLE KENT (50) adds *R. howesii*, p. 150, Great Barrier Reef.

Phymanthus simplex, p. 121. *P. muscosus*, p. 122.

Actineria dendrophora, p. 123.

Condylactis gelam, p. 123. *C. ramsayi*, p. 124. *C. aspera*, p. 124.

Anemonia citrina, p. 125. *A. kwoiam*, p. 125.

Actinioides dixoniana, p. 126. *A. sesere*, p. 126.

Viutrix cineta, p. 127.

Alicia rhadina, p. 127, 10 faths.

Phellia stipunculoides, p. 128. *P. devisi*, p. 129.

Paraphellia huntii, p. 129, 15 faths. *P. lineata*, p. 130, 6 to 7 faths.

Thoe milmani, p. 130, 10 faths.

Adamsia miriam, p. 130.

SAVILLE KENT (50) adds *Megalactis griffithsi*, p. 147, *Heterodactyla hypnoides*, p. 148, and *Physobrachia douglasi*, n. g. & sp., with bladder-like apices to the tentacles, p. 150, from the Great Barrier Reef.

BOVERI (15) adds the new tribe

HOLACTINIAE.

Radially symmetrical actiniaæ, with paired mesenteries. In each pair the longitudinal muscles are without exception turned towards one another, the transverse muscles turned away from one another. Mouth circular. Siphonoglyphes absent.

Gyractis, n. g. *G. excavata*, p. 250, and *G. pallida*, p. 251, Galle coast, Ceylon.

ZOANTHIDÆ.

Acrozoanthus, n. g., SAVILLE KENT, (50) p. 154. Distinguished by its habit of building up an erect tubular support or "zoothecium." *A. australiae*, p. 153.

Platyzoanthus, n. g., SAVILLE KENT (50). The tentacles are exceedingly short, in most instances minutely lobate, and developed over the greater portion of the area of the expanded disk. *P. mussoides*, p. 155.

MADREPORARIA.

TURBINOLIDÆ.

Rhizotrochus crateriformis, ALCOCK, (3) p. 170, 573 faths., Bay of Bengal. *Paracyathus fulvus*, ALCOCK, (1) p. 139, Persian Gulf. *P. porphyreus*, p. 140, Arrakan coast.

Heterocyathus wood-masoni, p. 141, Andaman Sea.

Discotrochus investigatoris, p. 142, Arrakan Sea.

Polycyathus andamanensis, p. 143, Andaman Sea.

EUPSAMMIDÆ.

Balanophyllia scabra, p. 144, Andaman Sea.

Eupsammia regalis, p. 144, Ceylon, 32 faths.

Heteropsammia aphrodites, p. 145, Ganjam coast, 20–25 faths.

EUPHYLLIDÆ.

Pectinia jardinei, p. 158.

Oculina fasciculata, p. 170, SAVILLE KENT (50), Great Barrier Reef.

FUNGIDÆ.

Cycloseris mycoides, p. 147, Andaman Sea, ALCOCK (1).

Diasteris fragilis, p. 148, Andaman Sea.

Bathyactis stephanus, p. 149, Kistna Delta.

PORITIDÆ.

Rhodariaea fruticosa, SAVILLE KENT, (50) p. 187.

FOSSIL CORALS : INCERTA SEDIS.

TOMES (75) adds the new genus *Stelidoseris*. The genus comes next to *Clausastræu*, from which it differs in possessing a well-developed columella, and increasing both by fissiparity and gemmation. *S. gibbosa*, p. 576, Sutton stone of Glamorganshire.

CANAVARI (18) adds *Ellipsactinia portisi*, p. 194, Valle della Stura di Cuneo. *E. tyrrhenica*, p. 195, various localities, *E. micropora*, p. 197, Capri. *E. caprense*, p. 198, Capri, &c. *E. africana*, p. 200, Montenegro. *E. polypora*, p. 201, Basilicata. *E. ramosa*, p. 201, Capri.

Spæractinia pedemontana, p. 203, Cuneo. *S. steinmanni*, p. 204, Capri. *S. dicotoma*, p. 205, Basilicata.

THOMSON (76) adds *Callophyllum danai*, p. 687. *C. spinosum*, p. 688. *C. tuberculatum*, p. 689. *C. irregularum*, p. 689. *C. lehoniana*, p. 690. *C. cuspidum*, p. 691. *O. nodosum*, p. 692. *C. angularum*, p. 692. *C. denticulatum*, p. 693. *C. robustum*, p. 694. *C. approximatum*, p. 694. All from the Lower Carboniferous strata in Scotland.

TITLES.*

THIS list includes all papers which have come under the Recorder's notice up to June 30th, 1894.

1. APSTEIN, C. Die während der Fahrt zur Untersuchung der Nordsee vom 6–10 August, 1889, zwischen Norderney und Helgoland gesammelten Thiere. Ber. Komm. deutsch. Meere, vi, hft. 3, pp. 191–199. *Grantia ciliata* and *Leucosolenia bothrylloides*.
2. BIDDER, G. Flask-shaped Ectoderm and Spongoblasts of one of the *Keratosa*. J. R. Micr. Soc. 1893, p. 55. Abstract of paper in P. R. Soc. London, li, pp. 475–484, 5 woodcuts. [See Zool. Rec. 1892.]
3. ——. The collar-cells of Sponges. Zool. Anz. 1894, p. 167.

* An asterisk prefixed to a quotation indicates that the Recorder has not seen the Journal or Work referred to.

4. BOUVIER, E. L. La chlorophylle animale et les phénomènes de symbiose entre les algues vertes unicellulaires et les animaux. Bull. Soc. Philom. (8) v, pp. 72-149.
Spongilla fluviatilis, p. 82, &c.
5. BROOK, G., HADDON, A. C., HOYLE, W. E., THOMPSON, I. C., WALKER, A. O., & HERDMAN, W. A. The Marine Zoology of the Irish Sea. Rep. Brit. Ass., Sect. D, 1893, 10 pp., 1 pl., 2 woodcuts.
Spongiae, p. 7.
6. CELESIA, P. Della *Suberites domuncula* e della sua simbiosi coi Paguri. Mus. zool. Genova, 1893, No. 14, 63 pp., 4 pls.
7. CHOPIN, A. Sponges. Tr. Manchester Mier. Soc. 1892, pp. 25-36.
8. ——. Something about Sponges. Amer. Mier. J. xiv, No. 12, pp. 342-347.
9. DEAN, B. The physical and biological characteristics of the natural Oyster Grounds of South Carolina. Bull. U. S. Fish Comm. x (1890), pp. 335-361, pls. lxii-lxvii.
Sponges (*Cliona*) as enemies of the Oyster, p. 352.
10. DELAGE, Y. Embryology of Sponges. J. R. Mier. Soc. 1893, pp. 337 & 338. Abstract of paper in Arch. Zool. exp. (2) x, pp. 345-498, 8 pls. [See Zool. Rec. 1892.]

II.—MORPHOLOGY, EMBRYOLOGY, PHYSIOLOGY, AND GENERAL.

A. ANATOMY, HISTOLOGY, AND GENERAL.

BIDDER (3), in a short note, confirms Vosmaer and Pekelharing's observations as to the non-existence of Sollas's membrane, and promises a detailed account of the collar-cells in *Sycon compressum*.

CHOPIN (7) gives a brief account of the history, structure, development, classification, and distribution of Sponges.

DENDY (13) continues his "Studies on the Comparative Anatomy of Sponges," and gives an account of the structure and classification of the *Calcarea Heterocæla*. According to this author, the canal system varies greatly, even in genera apparently closely allied. The Leuconoid type has been independently developed from the Syconoid type no less than three times, but never directly from the Homocæle type. We find the Leuconoid type amongst the *Grantidae* (*Lelapia*, *Leucyssa*, and most species of *Leucandra*), amongst the *Heteropidae* (*Vosmaeropsis*, which genus is indeed not typically Leuconoid, but rather Sylleibid), and amongst the *Amphoriscidae* (several species of *Leucilla*). Five stages can be distinguished in the evolution of the most complex Leuconoid from the most simple Syconoid form:—(1) *Sycetta* stage: the flagellated chambers are straight, unbranched, radially arranged, not touching each other, without dermal cortex. (2) *Sycon* stage: the walls of the adjacent chambers fuse, leaving between them the "intercanals." (3) *Grantia* stage: the distal ends of the chambers and intercanals are covered over by a dermal cortex, containing true inhalent pores. (4) Sylleibid stage: the chambers are no longer arranged radially around the central gastræ cavity, but around the usually radial exhalant canals. (5) *Leucandra* stage: the chambers are small, spherical, irregularly scattered.

The starting-point for the development of the skeleton is the radially symmetrical skeleton of *Sycetta*, which is characteristic of the group, and obviously dependent upon the primitive radial symmetry of the canal system. The first great change in the skeleton is brought about by the development of a dermal cortex, with its special skeleton. The skeleton of the chamber layer of the sponge-wall now begins to vary. This variation may either depend upon the gradual change of the canal system from the Syconoid to the Leuconoid condition, whereby all radial symmetry is lost, or may be independent of the canal system, such a variation being of the utmost systematic importance. These modifications consist in the development of subdermal sagittal triradiates (*Heteropidae*), or subdermal quadriradiates (*Amphoriscidae*). These newly-developed spicules, with their inwardly directed apical rays, replace thus to a certain extent, by a kind of secondary centripetal radial symmetry, the primitive symmetry which had been lost in these families.

The gastral cortex is subjected to little modification, though a striking exception is found in *Utella*, with its oxeote spicules in the gastral cortex. *Sycyssa* and *Leucyssa* have very exceptional skeletons, with no radiate, but only oxeote spicules. *Leucascus* apparently never had a radially symmetrical skeleton.

The next two chapters treat of the histology and classification of the heterococle *Calcarea*, with diagnoses of the families and genera. Finally, the origin and phylogeny of the group are discussed and summarised in a genealogical tree.

DENDY (15) has a paper on the anatomy and relationships of a remarkable calcareous Sponge, *Lelapia australis*. The most interesting feature of *Lelapia* is the reticulated fibrous character of its skeleton, which appears to have hitherto escaped observation. This character is unknown in any other living calcareous Sponge, while it forms the most prominent feature in Zittel's fossil group, *Pharetrones*. Dendy, however, shows that this fibrous skeleton may have been derived from the more primitive Syconoid type. Of the spicules, the "tuning-forks" are the most remarkable, although they are of no great significance, as they are paralleled in some of Haeckel's species. Its canal system belongs to the Leuconoid type, thus agreeing with Dendy's former supposition (18) p. 180. Altogether the author thinks it unadvisable, in the present state of our knowledge, to introduce the family *Pharetrones* into the system of recent *Calcarea*, and regards *Lelapia* simply as a very specialized type of the *Grantidae*.

HANITSCH (17) gives a revision of the generic nomenclature and classification in Bowerbank's "British Spongiadæ." The paper consists of two parts, the first section giving, in two parallel columns, Bowerbank's and the revised nomenclature. The second part contains the classified list of all British Sponges described by Bowerbank, with their revised generic names. The classification is compiled from Ridley, Dendy, Topsent, Sollas, von Lendenfeld, and Vosmaer.

HORNELL (18), remarking on the colour of animals, offers an explanation why, in the case of the *Calcarea*, we find almost exclusively white, but in the *Silicea* a variety of colours.

HORNELL (19) gives a sketch of the structure of Sponges in general, and of a few species from Jersey in detail, with life-like illustrations.

MINCHIN (31) gives a critical account of the embryology of the *Porifera*, based upon Delage and Maas's recent works.

VON LENDENFELD (22) tells us that *Suberites fruticosus*, O. Schmidt, of which he examined the type specimen in the Graz Museum, does not belong to the *Suberitidae*, but represents a new genus (*Tetranthella*) of the *Lithistida*. *Suberites crambe*, O. S., of which he also saw the type specimen, is identical with *S. fruticosus*. Accordingly he proposes the name *Tetranthella fruticosa*. Lendenfeld considers the few chelæ he observed in the Sponge as probably accidental. The same author (24), p. 189, gives a detailed description of this Sponge.

VON LENDENFELD (23) maintains that *Placospongia* is a monaxonid

Sponge, allied to the *Spirastrellidae*. The sterrasters bear only a superficial resemblance to the *Geodidae*, their structure and development are monaxonid.

VON LENDENFELD (27) has written a monograph on the *Tetractinellida* of the Adriatic. The first part contains a detailed description of the species, of which there are twenty-six, including one Lithistid. Two species are new. A table showing the geographical distribution, and an analytical key to the species are given. The synthetical part treats of the individuality and external form of tetractinellid Sponges, their canal system, cortex, and skeleton. A number of new names for spicules is suggested. The epithelium, according to Von Lendenfeld, may be of various forms,—pavement epithelium, with or without flagella, spherical, conical, and columnar epithelium. Mushroom-shaped epithelial cells, as described by Bidder and Minchin, seem to occur amongst the *Tetractinellida* in exceptional cases only. With regard to Sollas's membrane, the author cannot convince himself that it is present in the normal condition. Osmium-material of *Oscarella* showed distinct collar and flagella without Sollas's membrane, but material treated only with spirit showed no flagella, the collars were less well preserved but were fused to form a Sollas's membrane. [Compare VOSMAER & PEKELHARING (63) and BIDDER (3).] Hereafter follow description of cortex, chones, pulp, and a note on the development.

RAUFF (36) describes the process of fossilization of certain Sponges, in which reversion of the original conditions has taken place in such a manner, that the original silicious skeleton has been changed into calcareous spar, and the calcareous sediment into pure silica. Rauff explains it as follows:—After the death of the animal, and the decomposition of the soft parts, the silicious skeleton was slowly buried in the mud of the sea, the mud permeating and filling up the spaces between the framework of the skeleton. Gradually the sediment hardened into rock. Then the rock was permeated by solutions which dissolved the original silicious skeleton, but did not affect the calcareous sediment. Thus, in the place of a silicious skeleton, a continuous system of fine tubules was formed, which preserved the outlines of the skeleton in the sharpest detail. Afterwards the tubules were filled up with calcareous spar, and it was only after this took place, and when the rock was permeated by silicious solutions, that the ground mass became changed into clear chalcedon, which enclosed the water-clear calcareous skeleton, often of extreme beauty.

RAUFF (40) publishes the first part of a Monograph of Fossil Sponges. The present part is introductory, and begins with an account of the literature between the years 1672 and 1892. Subsequently the morphology of Sponges, their external form, histology, canal system, sexual and asexual reproduction, skeleton, and classification, and, lastly, the conditions of the fossilization are given. The author has fully utilised the labours of his predecessors, and his work will no doubt be a great assistance to those interested in this branch of zoology.

ROBERTS & PHILLIPS (41) give a popular account of the structure of Sponges.

SCHULZE (43) discusses the derivation of the eight-rayed spicules (*Discoctaster*) of certain *Hexactinellida* (some species of *Acanthascus* and *Rhabdocalyptus*) from the Hexaster. In these spicules the eight rays arise quite regularly, corresponding to the eight angles of a cube ; the base of the rays, in transverse section, is three-lobed ; between the bases of the rays, corresponding to the centres of the six sides of the cube, there are six prominences. On each of these six prominences are four ridges (standing at right angles to each other), which join on to the four neighbouring rays. Schulze propounds the theory that the six prominences correspond to the original chief rays of the Hexaster. Each of the original six rays became split into four (corresponding to the four ridges). These twenty-four split rays met in threes at points corresponding to the angles of a cube, then became fused, and thus eight rays were formed.

STEDMAN (44) describes certain structures in *Spongilla lacustris*, which he thinks may correspond to a nervous system. Sectionized spirit-material showed spindle- or star-shaped cells, ending in thread-like processes, with granular protoplasm, and large and prominent nuclei.

TOPSENT (52) gives an account of his examination of living Sponges. He found great differences in their relative consistency, which apparently depends on histological modifications. Some Sponges, such as *Desmacidon fruticosus*, *Dendoryx incrassata*, *D. reses*, *Reniera viscosa*, on being taken out of the water, give off an abundance of a thread-like liquid, which is a true mucus, secreted by spherical cells of glandular nature, as can be shown by staining with aniline. Others, chiefly *Reniera indistincta*, are viscous. They possess spherical cells, which often serve, at the same time, as glands and as nutritive reservoirs. Finally, many of the *Chalininae* and *Ectyoninae* are elastic. In them are found spherical cells which apparently have the function of connective tissue.

TOPSENT (55) approves of Lendenfeld's new generic name *Tetranthella* for *Suberites fruticosus* and *L. crambe* of O. Schmidt, as the generic name *Crambe*, proposed by Vosmaer, had been already applied by Linnaeus to a cruciferous plant. Vosmaer is not right in his supposition that the few observed chelæ belong to the Sponge.

VOSMAER (61) gives a preliminary account of some *Tetractinellida* of the Bay of Naples, which had either been insufficiently described, or which vary to such an extent that a revision of their specific nomenclature was necessary. According to Vosmaer, many species vary enormously, and those which, by most authors, are regarded as distinct species, should at the most be called "varieties." Thus he acknowledges only one species of *Thenea* (*T. muricata* (Bwk.) Gray), which includes the numerous species so carefully described by Sollas.

VOSMAER (62), referring to Lendenfeld's note (22), says that he examined the type specimens of *Suberites fruticosus* and *S. crambe*, O. S., so long as fourteen years ago, found them identical, and placed them

under the name *Crambe harpago* amongst the *Desmacidinae*, as possessing chelæ which are not accidental, as Lendenfeld thinks. The specific name then given by himself should be dropped, and the Sponge called *Crambe fruticosa*, O. S.

VOSMAER & PEKELHARING (63) in their paper say "Sollas's membrane does not exist." The choanocytes stand quite free, and touch each other only at the very base. Then follow the opinions of other authors, namely Sollas, Dendy, Lendenfeld, Bidder, Delage, and Minchin, and a critical analysis of these various opinions. Finally the methods used in preparing the material are given. The species examined were : *Haliclondria panicea*, *Spongilla lacustris*, and *Sycon ciliatum*. [Compare Bidder (3) and Lendenfeld (24), p. 163.]

WELTNER (65) has an extensive report on the work done in Spongology during the years 1888-1891. The report is arranged under the following headings: List of Papers, pp. 161-175 ; General, pp. 175-177 ; Methods, pp. 177-179 ; Sponge Culture, pp. 179 & 180 ; Anatomy and Histology, pp. 180-193 ; Nomenclature of Spicules, p. 193 ; Physiology, pp. 194-199 ; Ontogeny, pp. 199-207 ; Phylogeny, pp. 207-210 ; Systematic and Faunistic, pp. 210-255 ; Fossil Sponges, pp. 255 & 256.

B. EMBRYOLOGY.

DELAGE (11) claims the priority of having discovered the formation of the epidermis from the cells of the inner layer, and that the ciliated cells travel to the inside.

MAAS (29) gives a contribution to the doctrine of the continuity of the germ-plasm. There are two kinds of cells forming the "mesoderm" of the adult Sponge, (1) fine granular cells possessing oval nuclei with a delicate network of chromatin ; (2) cells with coarse granular protoplasm and vesicular nuclei, the amoeboid wandering cells, which give rise to the sexual elements. Both kinds of cells can be traced back through all the larval stages to the macromeres of the segmenting embryo. But whilst the former cells are differentiated descendants, the amoeboid cells are the unaltered descendants of the macromeres. In other words: we can prove a direct derivation of the germinal cells from the ovum, since after the subtraction of all somatic specialized elements, there remains a number of undifferentiated elements, the primary sexual cells.

MAAS (30) has an important paper on the embryonic development and metamorphosis of the *Cornacuspongia*. He studies—1st, The metamorphosis (reversion of layers, &c.) in types of all the families of *Cornacuspongia* ; 2nd, The formation of the larva from the ovum, in order to be able to homologize the same with larvae of other groups of Sponges, and to support the view that the sponge-organism arises from two germinal layers only, although the adult shows three strata. Maas studied the development of *Chalinula* as type for the *Homorrhaphidae*, *Gellius* for the *Heterorrhaphidae*, *Myxilla* for the *Desmacidonidae*, *Axinella* for the *Axinellidae*. Certain stages in the development of *Hircinia*, *Euspongia*,

and *Spongilla* are also described. In all observed species the segmentation is more or less as follows :—As the result of the first two cleavages, four equal blastomeres are formed, standing meridionally, and at right angles to one another. The third furrow is horizontal, but divides the four blastomeres unequally, and, from that point, we have unequal segmentation, the difference between micromeres and macromeres being distinct. A segmentation cavity, which appears already at the eight-cell stage, exists only for a short time. The micromeres, at the anterior pole, go on dividing more rapidly than the macromeres at the posterior pole, and soon partly overgrow the latter. At that stage the micromeres contain very little yolk, and have a nucleus with a close framework of chromatin ; the macromeres contain a good amount of yolk, and have a vesicular nucleus. The micromeres are transformed into flagellated columnar cells, and cover the anterior and lateral portions of the oval larva. The macromeres are differentiated in the way described by Maas in his last year's paper [see Zool. Rec. 1892, *Spongiae*, p. 12]. Spicules are developed at a very early stage. Two types of larvæ can be distinguished amongst the true *Cornacuspongiae*. In the one type, the flagellated cells simply stop at the posterior end, and, whilst they are coloured red, the internal mass of cells, protruding at the posterior end, shows no colour but that of ordinary protoplasm. *Esperia*, *Myxilla*, *Desmacidon*, *Clathria*, *Dictyonella*, *Axinella*, belong to this group. In the second type a circle of specially long flagella is found where the ordinary flagellated cells stop, and they are supported by larger cells. The posterior pole of the larva is pigmented—especially the large flagellated cells, which form a ring of violet, brown, or yellow pigment—whilst the rest of the body remains white. *Reniera*, *Chalinula*, *Gellius*, *Pachychalina*, *Toxochalina*, belong to this group. This shows that there is a close relationship between the *Homorrhaphidae* and *Heterorrhaphidae*, on the one hand, and between the *Desmacidonidae* and *Axinellidae* on the other. In the larvæ of the *Ceratosa* (e.g., *Hircinia*) there is not a ring of flagella, but a circular area covering the posterior pole. These larvæ are to be regarded as belonging to the second type, in which the ring of flagella became extended over the whole posterior end. Similar are the larvæ of the *Spongillidae*. The larva of *Aplysilla*, as described by Delage, seems to be allied to the first type. This would point towards a polyphyletic origin of the *Ceratosa* from the *Cornacuspongiae*, therefore not in the sense meant by Lendenfeld, who places *Aplysilla*, &c., in a special group (*Hexaceratina*), and regards it as closely allied to the *Hexactinellida*.

After pointing out the homology between the chief stages of the development of the silicious Sponges and those of *Sycandra*, and comparing their development with that of the *Cœlenterata* and other *Metazoa*, Maas comes to the conclusion that either the germinal layers of Sponges cannot be homologized with those of other animals, or else that the flagellated cells of sponge embryos correspond to the ectoderm, the large cells to the endoderm. The systematic position of the Sponges is

summed up as follows :—The Sponges are true *Metazoa*, as they form ova and spermatozoa, and as various tissues of specific functions are differentiated. And possibly they are true *Metazoa*, so far as they are derived from ancestors with two germinal layers, which layers can be compared to the ectoderm and endoderm ; but from that point, if not from the beginning, the Sponges took a different course in development, as their flagellated locomotory cells came to lie inside. They are in no case *Celenterata*, as their layers are not homologous to the ectoderm and endoderm of the *Celenterata*, and as their canal system is of a totally different origin. The development of the tissues and organs in Sponges is different in principle to that of all other animals.

WELTNER (66) continues his studies on the *Spongillidae*, and describes the gemmules of Freshwater Sponges, chiefly from the neighbourhood of Berlin. The shell consists of several layers :—(1) An internal cuticle with one or more pores, closed during the winter. (2) An air-chamber layer, of cellular or vesicular structure, probably hydrostatic in function. Here are found the characteristic spicules ; whether the amphidises are really perforated by a central canal is doubtful. (3) A thin, yellowish external cuticle. This layer, and sometimes also the air-chamber layer, may be absent in certain forms. The germ of the gemmules consists of closely-packed cells, containing light-refracting bodies (Götte's yolk-granules). The cells are often bi- or even multi-nuclear ; but those with more than one nucleus divide when leaving the shell, so that each then contains only one nucleus. The gemmules of *Euspongilla lacustris*, and the Sponge itself, may contain Zoochlorellæ, each consisting of a small amount of protoplasm, and from one to three chlorophyll bodies. All the cells of the gemmules do not contain Zoochlorellæ, and in the Sponge itself they are found only in the superficial portions. *Spongilla fragilis* has a brown pigment, which is apparently affected by light, Sponges living in the shade being generally colourless. The pigment exists in amœboid cells, situated in the superficial portions of the Sponge in the form of irregular granules, not soluble in alcohol. Similar pigment is found in *Hydra fusca*, *Planaria*, &c. Its significance is doubtful, it perhaps being excretory matter. In any case it does not seem to form an essential part of the Sponge. In the last pages of the paper, the influence of temperature upon the germinating power of the gemmules is discussed, and remarks are added on the development of *Spongillidae* from deformed larvæ.

C. PHYSIOLOGY AND BIOLOGY..

CELESIA (8) relates some interesting observations on the symbiosis of *Suberites domuncula* and *Pagurus*. After an introduction, giving the history of the subject, the author explains his method of orientation, and goes on to describe 34 specimens in detail, stating shape and colour of the Sponge, dimensions of the three chief axes of shell and Sponge, size and shape of the vestibule, and species of shell and inhabiting crab.

The next part treats in a comparative way of the colour of the Sponge, of the cavity occupied by the *Pagurus*, and of the vestibule. Next, in the genetic part, the origin of the symbiosis is discussed, and also the genesis of the vestibule, of colour and shape of the Sponge. The last part answers in the affirmative the question : Is there a fixed form of *Suberites domuncula*?—although only a single instance had come under the author's notice of *S. domuncula* attaching itself to other objects besides Univalves.

D. METHODS OF PRESERVATION AND PREPARATION.

VON LENDENFELD (25) gives directions for staining collar-cells.

MAAS (30), pp. 334–337, describes his methods for preserving and sectionizing larvæ.

VOSMAER and PEKELHARING (63) describe their methods for examining the collars of the flagellated cells.

WELTNER (67) gives directions for collecting and preserving Freshwater Sponges.

III.—DISTRIBUTION.

A. FAUNISTIC.

Mexico, Campeche : TOPSENT (57).

South Carolina : *Cliona* as enemy of the Oyster ; DEAN (9).

Norway, Trondhjem Fjord : NORMAN (33).

Kattegat and Skagerak : LEVINSEN (26).

Germany, Heligoland : APSTEIN (1).—Holstein, Oyster-grounds : MOEBIUS (32).—Neighbourhood of Berlin : *Spongillidae* ; WELTNER (66, 67).

Irish Sea : BROOK, &c. (5).

Jersey : HORNELL (19).

France, Eaux Blanches, Cette : GOURRET (16).—Roscoff : TOPSENT (54).—Mediterranean Coast : chiefly Banyuls : numerous *Hexaceratina* ; TOPSENT (53, 54).—*Spongillidae* ; TOPSENT (50).

Bay of Naples : *Tetractinellida* : VOSMAER (61).

Adriatic : *Tetractinellida* ; LENDENFELD (24). 76 per cent. of all Adriatic *Tetractinellida* have been found at Lesina, 44 per cent. have been found in other parts of the Mediterranean, and 24 per cent. outside the Mediterranean.

TUNIS : Gulf of Gabes ; TOPSENT (56).

Syria, Lake of Houleh : *Spongillidae* ; TOPSENT (48).

Gulf of Aden, Tadjoura : TOPSENT (51).

Sechelle Is. : TOPSENT (49).

Australia : *Calcarea Heterocæla* ; DENDY (13).

B. GEOLOGICAL.

Archaicum : *Spongiae* (?) ; RAUFF (39).

Cretaceous, Minnesota : WOODWARD & THOMAS (70).

IV.—SYSTEMATIC.

A. PHYLOGENY.

DENDY, (13) p. 250, illustrates the relationship of the *Calcarea Hetero-caela* by a phylogenetic tree.

SCHULZE, (42) p. 546, expresses the relationship of the genera of the *Hyalonematidae* by a phylogenetic tree.

VON LENDENFELD, (24) p. 90, illustrates the relationship of the *Tetractinellida* by a phylogenetic tree.

B. CLASSIFICATION.

RAUFF (40) proposes a complete classification of Sponges.

VON LENDENFELD, (24) p. 180, gives a revised classification of the *Tetractinellida*.

TOPSENT (58) proposes a new classification of the *Monaxonida*, giving that of the *Halichondrina* more in detail.

C. DESCRIPTIVE.

1. CALCAREA.

Lelapia australis, redescribed ; DENDY, Q. J. Micr. Sci. (n.s.), No. 142, pp. 127-142, pl. xiii.

2A. HEXACTINELLIDA.

Hyalonema clavigerum, F. E. Sch., p. 571, *globus*, F. E. Sch., p. 572, *cebuense*, Higgin, p. 573, *thomsoni*, W. Marshall, p. 574, *poculum*, F. E. Sch., p. 574, *conus*, F. E. Sch., p. 575, *lusitanicum*, Barb. du Boceage, p. 576, *divergens*, F. E. Sch., p. 576, *robustum*, F. E. Sch., p. 577, *tenerum*, F. E. Sch., p. 577, *gracile*, F. E. Sch., p. 578, *elegans*, F. E. Sch., p. 579, *kenti*, O. Schmidt, p. 579, *depressum*, F. E. Sch., p. 580, *apertum*, F. E. Sch., p. 581, *sieboldi*, Gray, p. 582, *toxeres*, Wyv.-Thomson, p. 583, *acuferum*, F. E. Sch., p. 583, redescribed ; SCHULZE, SB. Ak. Berlin, 1893, hft. 30.

H. cupressiferum, Pacific, lat. 0° 33' S., long. 151° 34' W., depth 4438 metres, p. 568, *fruticosum*, Philippines, Luzou, depth 1922 metres, p. 570, SCHULZE, SB. Ak. Berlin, 1893, hft. 30, n. spp.

Pheronema annae, Leidy, p. 561, *carpenteri*, Wyv.-Thomson, p. 562, *giganteum*, F. E. Sch., p. 563, *grayi*, Sav. Kent, p. 564, *hemisphaericum*, Gray, p. 565, *globosum*, F. E. Sch., p. 565, redescribed ; SCHULZE, SB. Ak. Berlin, 1893, hft. 30.

Poliopogon amadou, Wyv.-Thompson, *gigas*, F. E. Sch., redescribed ; SCHULZE, SB. Ak. Berlin, 1893, hft. 30, p. 567.

Semperella schultzei, Semper, redescribed ; SCHULZE, SB. Ak. Berlin, 1893, hft. 30, p. 584.

2B. HEXACERATINA.

- Darwinella intermedia*, Banyuls, France, TOPSENT, Arch. Zool. exp. (3) i (1893), p. xxxvii; *D. simplex*, TOPSENT, op. cit. (2) x, p. xxvii, Banyuls : n. spp.
- Dendrilla cirsoides*, Banyuls, France, TOPSENT, Arch. Zool. exp. (3) i (1893), p. xxxvii, n. sp.
- Halisarea sputum*, Banyuls, France, TOPSENT, Arch. Zool. exp. (3) i (1893), p. xxxviii, n. sp.

3A. TETRACTINELLIDA.

- Ancorina radix*, Mar., p. 116, pl. ii, fig. 24, pl. iii, fig. 38, pl. v, fig. 75, *cerebrum*, O. S., p. 117, pl. i, fig. 7, pl. ii, fig. 23, &c., *mucronata*, O. S., p. 123, pl. i, fig. 8, pl. ii, fig. 12, &c., Adriatic, redescribed; LENDENFELD, Denk. Ak. Wien, lxi; *A. cerebrum*, O. S., Naples, redescribed, VOSMAER, Tijdschr. Nederland. Dierk. Ver. (2) iv, 3, p. 282.
- Caminiella loricata*, n. sp., Lesina, LENDENFELD, Denk. Ak. Wien, lxi, p. 62, pl. ii, fig. 27, pl. iii, fig. 52, pl. viii, figg. 143–146.
- Caminus vulcani*, O. Schmidt, Lesina, redescribed; LENDENFELD, Denk. Ak. Wien, lxi, p. 148, pl. i, fig. 6, pl. ii, fig. 29, &c. *C. vulcani*, O. S., Naples, redescribed; VOSMAER, Tijdschr. Nederland. Dierk. Ver. (2) iv, 3, p. 276.
- Characella saxicolla*, n. sp., TOPSENT, Arch. Zool. exp. (2) x, p. xvii, Banyuls, depth 25–30 metres.
- Corticella stelligera*, O. Schmidt, Sebenico, Adriatic, redescribed; LENDENFELD, Denk. Ak. Wien, lxi, p. 106, pl. ii, fig. 11, pl. iii, fig. 49.
- Corticium candelabrum*, O. Schmidt, Sebenico, Adriatic, redescribed; LENDENFELD, Denk. Ak. Wien, lxi, p. 103, pl. iii, fig. 50, pl. iv, figg. 60–65.
- Cydonium intutum*, n. sp., TOPSENT, Arch. Zool. exp. (2) x, p. xviii, Banyuls, depth 25–30 metres.
- C. gigas* (O. S.), Soll., Posillipo and Nisida, Italy, redescribed; VOSMAER, Tijdschr. Nederland. Dierk. Ver. (2) iv, 3, p. 270.
- Dercitus plicata*, O. Schmidt, Lesina, redescribed; LENDENFELD, Denk. Ak. Wien, lxi, p. 105, pl. ii, fig. 10, pl. iii, fig. 43.

S., Naples, redescribed ; VOSMAER, Tijdschr. Nederland. Dierk. Ver. (2) iv, 3, p. 283.
- Stryphnus mucronatus* (O. S.), Soll., Naples, redescribed ; VOSMAER, Tijdschr. Nederland. Dierk. Ver. (2) iv, 3, p. 280.
- Synops anceps*, Naples, 175 metres, VOSMAER, Tijdschr. Nederland. Dierk. Ver. (2) iv, 3, p. 275, n. sp.

3B. LITHISTIDA.

- Desmanthus*, n. g., for *Aciculites incrustans*, Topsent ; TOPSENT, Arch. Zool. exp. (3) i (1893), p. xxxvi.
- Tetranthella*, n. g., for *Suberites fruticosus*, O. Schmidt ; LENDENFELD, Zool. Anz. xvii, p. 49. *T. fruticosa*, O. S., redescribed ; LENDENFELD, Denk. Ak. Wien, lxi (1894), p. 189.
- Tetranthellidae*, n. fam. of the *Lithistida anoplia*, with *Tetranthella*, n. g. ; LENDENFELD, Zool. Anz. xvii, p. 49.

4A. MONAXONIDA.

- Halichondrina*: TOPSENT remodels the classification, introducing the following nomenclature, viz.:—
- Hadromerina*, new name for the subord. *Spintharophora*, Sollas; TOPSENT, Mem. Soc. zool. France, vii, p. 26.
- Haploscleridae*, n. fam., for *Chaliniae*, *Renieriae*, *Spongillinae*, *Gellioidinae*, *Phlaeodictyinæ*; TOPSENT, p. 7, t. c.
- Paeciloscleridae*, n. fam., for *Esperellinæ*, *Dendoricinæ*, *Ectyoninæ*, *Bubarinæ*; TOPSENT, p. 10, t. c.
- Bubarinæ*, n. subfam., for *Plocamia*, Schmidt; *Suberotelles*, Schmidt; *Bubaris*, Gray; *Rhabderemia*, Topsent; *Hymerhabdia*, Topsent; TOPSENT, p. 20, t. c.
- Acarinus tortilis*, n. sp., TOPSENT, Arch. Zool. exp. (2) x, p. xxiv, Banyuls.
- Acheliderma*, n. g., *A. lemniscata*, n. sp., Banyuls, TOPSENT, t. c., p. xxiv.
- Amphilectus osculosus*, n. sp., Banyuls, TOPSENT, t. c., p. xxiii.
- Axinella crista-galli*, Naples, MAAS, p. 338, pl. xx, figg. 16-18 & 20-24, Zool. Jahrb. Anat. vii, n. sp.
- Axosuberites*, n. g., with *A. fauroti*, n. sp.; TOPSENT, Bull. Soc. zool. France, xviii, p. 179, fig. 3, Gulf of Tadjoura (Aden).
- Batzella*, n. g., for *Halichondria inops*, Topsent; TOPSENT, Arch. Zool. exp. (3) i (1893), p. xxxiv.
- Bubaris constellata*, I. of Batz, Roscoff, p. xxxiii, *gallica*, Oceanic and Mediterranean coast of France, TOPSENT, p. xxxv, t. c., n. spp.
- Chalina zostericola*, n. sp., TOPSENT, op. cit. (2) x, p. xviii, Ille de Porquerolles.
- Coppatias inconditus*, n. sp., Bandol and Banyuls, TOPSENT, t. c., p. xxvi.
- Damiria cavernosa*, prouhoi, Banyuls, TOPSENT, t. c., p. xxii, n. spp.
- Dendoryx reses*, Banyuls, *iotrochotina*, Bandol, TOPSENT, t. c., p. xxi, n. spp.
- Desmacella vulgaris*, n. sp., Banyuls, TOPSENT, t. c., p. xx.
- Echinodictyum lacazei*, n. sp., Arch. Zool. exp. (2) x, p. xxv, Saint-Nazaire.
- Esperella mollis*, *albicans*, Banyuls, *hamata*, Bandol, TOPSENT, Arch. Zool. exp. (2) x, pp. xx & xxi, n. spp.
- Gellius lacazei*, Arch. Zool. exp. (3) i (1893), p. xl, *G. uncinatus*, op. cit. (2) x, p. xx, Banyuls, France; TOPSENT, n. spp.
- Halichondria intricata*, n. sp., TOPSENT, t. c., p. xix, Banyuls.

II.—MORPHOLOGY AND PHYSIOLOGY.

1. ANATOMY.

BLOCHMANN (15) has discovered numerous fine protoplasmic threads projecting from the surface of *Pelomyxu*.

BLOCHMANN (17) proves the existence of axial threads in *Dimorpha mutans*, which, like the flagella, converge radially towards the nucleus. The nucleus, too, has a radial structure, flagella and axial threads springing from its centre. This author establishes a new genus, *Dimastigamæba*, which differs from *Dimorpha* by the *Rhizopoda*-like pseudopodia, and the arrangement of the flagella. The *Rhizomastigina* are *Flagellata*, contrary to Frenzel's views.

EGGER (54) has an important monograph on the *Foraminifera* collected during the voyage of the German corvette "Gazelle," in the Atlantic, Indian, and Pacific Oceans, during the years 1874-76. 490 species are described, of which 46 are new. The work is illustrated by 21 plates and 1 map.

FRANZÉ (62) has studied the stigmata or eye-spots of the *Euglenoidina* *Chlamydomadina*, and *Volvocinae*. They consist of a disc of a plasmatic, fine-meshed ground substance, containing oily red graules. The centre of the disc is occupied by a crystalline body, surrounded by a number of lens-bodies. The stigmata serve for the perception of light and heat.

MOORE (155) has studied the structural differentiation of the *Protozoa* by microscopic sections. *Spirostomum* showed a splendid reticulum of the whole protoplasmic body, and, near the oral furrow, a structure which suggests a nervous apparatus. *Paramacium* showed much less differentiation.

RHUMBLER (185) has a paper on the origin and significance of certain small bodies which occur in the nucleus of many *Protozoa*, and in the germinal vesicle of *Metazoa*. They are probably not organized structures, but reserve material.

RHUMBLER (186), describing *Saccammina sphaerica*, states that the sand grains constituting the shell are connected by a cementing substance along the lines of contact only. When growing, certain parts of the shell are broken open, and are rebuilt by the pushing in of new sand grains. Sarcodite and nucleus are also described.

SCHAUDINN (198) describes a new marine Rhizopod, *Myxotheca arenicola*, of very great size, which may be either the lowest living Foraminifer, or perhaps an incompletely developed one.

SCHAUDINN (200) describes the shell, protoplasm, nucleus, nutrition, and reproduction of *Calcituba polymorpha*.

THÉLOHIAN (240) has observed, in the gall-bladder of Fishes, certain forms, with two spores, mostly belonging to the genus *Ceratomyxa*, and others, which form a transition between *Ceratomyxa* and *Sphaeromyxa*, and thus connect the disporic and polysporic species. The latter are degenerated through more pronounced stages of parasitism.

2. EMBRYOLOGY.

BLOCHMANN (15) describes karyokinesis in *Pelomyxa uvella*.

BLOCHMANN (16) describes mitosis in *Euglena* and *Trachelomonas*. Centrosomes and polar stripes are absent, nor could spindle fibres be demonstrated. The nuclear membrane remains.

LABBÉ (110) has observed a dimorphism in the development of certain *Hæmatosporidia* (*Drepanidium ranarum* and *D. danilevskii*). They may reproduce either by means of macrospores or of microspores. Cytocysts, with macrospores, are found in the leucocytes, in spring and autumn; cytocysts, with microspores, in liver and spleen, at the beginning of the summer.

LÉGER (122) has studied the development of Gregarines in the intestine of Marine Worms (*Nereis cultrifera* and *Polydora agassizi*).

MARSHALL (139) describes the life-history of *Gregarina* (*Clepsidrina*) *blattarum*, v. Sieb.

SCHAUDINN (201), on the reproduction in various types of *Foraminifera*, describes how it takes place by the division of the soft body, either within the maternal shell, or after it has left the same. In the former case, the new formation of the shell takes place within the mother; in the latter, after the parts, in the form of naked plasmodia, have left the shell of the mother. The nuclei, before dividing, go through a series of changes, first taking up fluid, then becoming vesicular, and with their chromatin and achromatin evenly distributed. Then they break up into numerous portions, afterwards freed by the dissolution of the nuclear membrane.

ZACHARIAS, (262) pp. 114–117, describes mitosis in *Ceratium hirundinella*.

3. PHYSIOLOGY AND BIOLOGY.

ATTFIELD (8) made experiments showing that the “self-purification” of impure water may be due to the destruction of *Bacteria* by *Infusoria*.

BALBIANI (10) gives an account of his continued experiments on the merotomy of the *Ciliata*, especially *Stentor polymorphus*, *S. igneus*, *Dileptus anser*, *Loxodes rostrum*, and *Paramaecium aurelia*.

BLOCHMANN (15) describes his observations on the daily movements of *Pelomyxa*, and the effect upon it of light and oxygen.

FRANZÉ (63), in a preliminary note on the organization of the *Choanoflagellata*, gives an account of the ingestion of food in *Codosiga botrytis*, and the structure of collar and digestive vacuole, which differs in various points from that given by Bütschli.

GREENWOOD (70) describes the constitution and formation of the food-vacuoles, and her observations on the processes of digestion in *Carchesium polypinum*.

GRUBER (71) in a popular lecture, "Microscopic Vivisection," gives an account of his experiments on the artificial division of *Stentor cæruleus*, and its power of regeneration.

HASWELL (82) has noticed a parasitic Flagellate, resembling *Euglena deses*, in an undescribed rhabdocœl Turbellarian (from a pond in Victoria Park, Sydney), producing there a dull yellowish green colour. They were found in the interior of unicellular glands, or other large cells of the parenchyma. No similar occurrence of *Flagellata* seems to have been previously recorded.

MASSART (141) gives an account of his experiments on the irritability of *Noctiluca*, and its reaction to mechanical, physical, and chemical influences.

SCIEWIAKOFF (205) records his studies on so-called excretory granules of *Paramaecium*, and some other *Protozoa*.

STRENG (236) observed *Infusoria* in the sputum of pulmonary gangrene, and made cultures of the same.

VERWORN (249), in his paper on the movement of living substance, comes to the conclusion that the affinity of certain particles of the protoplasm to the oxygen of the surrounding medium is the cause of the formation of Pseudopodia, and of the protoplasmic streaming.

VERWORN (250) made a series of experiments on some marine *Radiolaria*, in order to ascertain how far the organism is affected by the removal of certain parts, especially of the central capsule and nucleus; how far regeneration can take place; and what conclusions can be drawn from these experiments as to the physiological significance of the nucleus.

WERNICKE (255) found enormous numbers of parasitic *Protozoa*, probably *Coccidia*, in the giant-cells of a tumour of the corium (*Mycosis fungoides*?).

ZACHARIAS, (262) p. 124, has found *Carchesium polypinum* and *Epistylis lacustris* floating free in the lake of Plön, in such numbers that they could not be supposed to have been torn away from their supports. They probably give up periodically their fixed habit in favour of a free-floating one, a kind of retrogressive adaptation.

ZACHARIAS (262) discusses the periodicity of the *Limnoplankton* in the lake of Plön (Holstein), and gives the results in a tabular form.

III.—DISTRIBUTION.

A. HOSTS AND SEATS OF PROTOZOA.

The literature on parasitic and pathogenic *Protozoa* is extensive and scattered. The following list, even though imperfect, may, it is hoped, be useful:—

PROTOZOA (generally).

General occurrence, BAUMGARTEN (13), DÖHLE (53), LINDNER (124).—Holothurians, MONTICELLI (153).—Cyclops, SCHEWIAKOFF (204).—Termites, GRASSI & SANDIAS (69).—Blood of caterpillars, HARTIG (81). Man, KARTULIS (100).—Mycosis fungoides, WERNICKE (255).—Cancer, DELÉPINE (49), NEPVEU (161), PLIMMER (174), RUFFER (192), RUFFER & PLIMMER (193), RUFFER & WALKER (194), RUSSELL (196), SOUDAKE-WITSCH (226), TÖRÖK (245).—Cancer of man and Vertebrata, PFEIFFER (170).

AMOEBA.

Urine, POSNER (177).—Abscess of jaw, FLEXNER (60).—Malaria, KOCHS (101).—*Amœba coli*: Man, COUNCILMAN (43, 44), EICHBERG (55), EPSTEIN (57), HAROLD (80), LUDWIG (128), RUEHN (184), SCHUBERG (219), STENGEL (229), TALAMON (237), WESENER (256).

SPOROZOA (generally).

General occurrence, KOROTNEFF (102).—Scolopendra and Phalangidium, SCHNEIDER (211).—Insects, LÉGER (123).—Periplaneta, KÜNSTLER (104).—Fishes, THÉLOHAN (241).—Salmon, HOFER (87).—Rat, REGNAULT (183).—Graafian follicle and ovum of Rabbit, PODWYSSOZKI (176).—Intestinal villi of Cattle, SMITH (223).—Texas fever of Cattle, SMITH (224).—Cancer, CLARKE (39), KOROTNEFF (103), KÜRSTEINER (105), SOUDAKE-WITSCH (225).—Cancer of Man and Vertebrata, PFEIFFER (170).

GREGARINIDEA.

Holothuria, MINCHIN (147).—Acridium, LÉGER (120).—Blatta and Aphodius, MARSHALL (139).—Melolontha, LÉGER (121).—Marine worms, LÉGER (122).

COCCIDIIDEA.

Generally, WILLACH (257).—*Solen vagina*, SCHNEIDER (214).—Fish, LABBÉ (108), THÉLOHAN (243).—Birds, LABBÉ (111, 112), STILES (232), RAILLIET & LUCET (182).—Rabbit, DELÉPINE & COOPER (50), PFEIFFER (169), BARROIS (12).—Mouse, SCHUBERG (218).—Sheep, STILES (230).—Cattle, GUILLEBAUM (73).—Cancer, BURKHARDT (27), METSCHNIKOFF (146).

MYXOSPORIDEA.

Fishes, GURLEY (75), THÉLOHAN (239).—Crustacea Decapoda, HENNEGUY & THÉLOHAN (83, 84).

FLAGELLATA.

Turbellaria, HASWELL (82).—*Cercomonas intestinalis*: Man, MÜLLER (157).—*Cercomonas coli hominis*: Man, MAY (144).—*Cercomonas muscae domesticae*: Pinemoth Caterpillar, HARTIG (81).—*Haematozoa*: Cold-blooded Vertebrata, LABBÉ (109).—Malaria, Texas fever, &c., ARNAUD (5, 6), BACELLI (9), BARBACCI (11), BEIN (14), CORONADO (41), LAVERAN (113, &c.), MANNABERG (134, 135), MARCHIAFAVA & BIGAMI (136), MIRINESCU (149), POTAINE (178), SCHELLONG (202), SJÖBRING (222), SOULIÉ (227), STARCOVICI (228), TREILLE (247, 248), VINCENT (252).

CILIATA.

Invertebrata, CUÉNOT (45).—*Ichthyophthirius*, Fishes, ZACHARIAS (263).—*Balantidium coli*: Man, ORTMANN (165).—Pulmonary Gangrene, STRENG (236).

ACINETARIA.

Gammarus, SCHNEIDER (210).—Cyclops, SCHEWIAKOFF (201).

B. FAUNISTIC.

South America, Cape.—*Foraminifera*; EGGER (54).

Argentinia.—*Lobosa, Heliozoa*; FRENZEL (66).

North America.—*Protozoa*; SCHEWIAKOFF (203).—Rocky Mountains: *Rhizopoda*; PENARD (167).—South Carolina, Oyster grounds: *Protozoa*; DEAN (48).—United States, Brackish water: *Infusoria*; STOKES (335).

Atlantic.—*Foraminifera*; EGGER (54), PICAGLIA (173).

France.—Neighbourhood of Paris: *Protozoa*; CERTES (36).—Gulf of Marseille: *Foraminifera*; SCHLUMBERGER (207).—Jan Mayen: *Protozoa*; POUCHET (179).

Germany.—Schleswig-Holstein, Oyster banks: *Protozoa*; MÖBIUS (150).—Holstein: *Protozoa*; APSTEIN (3).—Lakes of Plön, Holstein: *Protozoa*; ZACHARIAS (260-263).—Norderney and Heligoland: *Protozoa*; APSTEIN (3).

Norway.—Trondhjem Fjord: *Foraminifera*; NORMAN (162).

Hungary.—Mezöseger Lakes: *Protozoa*; DADAY (46).

Galizia.—Wells of Krakau and Lemberg: *Protozoa*; JAWOROWSKI (94).

Russia.—Odessa, Salt-lakes: *Peridinidae*; ZABOLOTNY (259).

Mediterranean.—*Foraminifera*; PICAGLIA (172).

Red Sea.—*Foraminifera*; PICAGLIA (172).

Indian Ocean (especially coast of Mauritius).—*Foraminifera*; EGGER (54).

Malay Archipelago.—Freshwater *Protozoa*; SCHEWIAKOFF (203).

New Guinea.—*Foraminifera*; EGGER (54).

Australia.—Freshwater *Protozoa*; SCHEWIAKOFF (203).—East and West Coast: *Foraminifera*; EGGER (54).

New Zealand.—Freshwater *Protozoa*; SCHEWIAKOFF (203).

Sandwich Islands.—Freshwater *Protozoa*; SCHEWIAKOFF (203).

Fiji Islands.—*Foraminifera*; EGGER (54).

Pacific.—*Foraminifera*; EGGER (54), PICAGLIA (173).

SCHEWIAKOFF (203), who describes the *Protozoa* collected by him in North America, Sandwich Islands, New Zealand, Australia, and Malay Archipelago, finds that the European species are mostly cosmopolitan. 274 genera and 584 species have been recorded so far in Europe, and out of Europe 202 genera with 395 species, of which 181 genera with 326 species are European. 21 genera with 69 species have not been found so far in Europe.

c. GEOLOGICAL.

Silurian (?).—Barbadoes : *Radiolaria*; CARTER (32).

Jurassic (Pholadomyenmergel).—Switzerland : *Lagenidae*; HÆUSLER (78).

Cretaceous.—Taplow (Chalk) : *Foraminifera*; CHAPMAN (37).—Folkestone (Gault) : *Foraminifera*; CHAPMAN (38).—Russia : *Foraminifera*; JACOBIJ (93).—Minnesota : *Foraminifera*; WOODWARD & THOMAS (258).—North-western Manitoba (Upper Cretaceous, Pierre Formation) : *Radiolaria*; RÜST (191).—Chalk (or Oligocene ?), Liguria : *Bathysiphon filiformis*, Sars, identical with the living form; ANDREE (1).

Tertiary.—Trinidad and West Indies : *Foraminifera*; GUPPY (74).

Eocene.—Bellarine Peninsula, Australia: *Foraminifera*; HALL & PRITCHARD (79).

Miocene.—Germany: *Foraminifera*; HOSIUS (89).

Pliocene.—Italy: *Foraminifera*; FORNASINI (61).—Andalusia: *Foraminifera*; CALDERÓN (29).

IV.—SYSTEMATIC.

A.—GYMNOMYXA.

Class 3.—LOBOSA.

Amaba eteropoda, Lugano, Switzerland, p. 13, *jalina*, Brinzio, Lombardy, p. 14, MAGGI, Boll. scient. xv; *A. tentaculifera*, p. 94, pl. vii, figg. 21–25, *salinæ*, p. 97, pl. vii, figg. 26–29, Argentinia, FRENZEL, Bibl. Zool. xii : n. spp.

Class 6.—RETICULARIA.

- Amphistegina maculata*, Mauritius, 137 metres, p. 430, pl. xx, figg. 1 & 2, *foveolata*, West Africa, Mauritius, Dirk Hartog, p. 430, pl. xx, figg. 6–8, EGGER, Abh. Bayer. Ak. xviii, n. spp.
- Anomalina globigerinoides*, from 16 different stations, p. 378, pl. xiv, figg. 16–19, EGGER, Abh. Bayer. Ak. xviii, n. sp.
- Articulina extensa*, Mauritius, 411 metres, p. 242, pl. iii, fig. 3, EGGER, Abh. Bayer. Ak. xviii, n. sp.

- Biloculina discus*, West Coast of Africa, lat. $10^{\circ} 12' 9''$ N., long. $17^{\circ} 12' 5''$ W., depth 677 metres, p. 217, pl. i, figg. 50 & 51, *nodososa*, Mauritius, depth 411 metres, p. 221, pl. i, fig. 12, EGGER, Abh. Bayer. Ak. xviii, n. spp.
- Bolivina ovata*, Mauritius, 411 metres, p. 293, pl. viii, figg. 21–23, *acaulis*, Western Australia, 1187 metres and 359 metres, p. 295, pl. viii, figg. 28–30, *glutinata*, West Africa, 677 metres, Western Australia, 359 metres, p. 297, pl. viii, figg. 57–62, *substriata*, Mauritius, 411 metres, p. 298, pl. viii, figg. 4–6, *campanulata*, West Portugal, 5301 metres, Mauritius, 411 metres, Western Australia, 359 metres, p. 301, pl. viii, figg. 53 & 54, EGGER, Abh. Bayer. Ak., n. spp.
- †*Bolivina strigillata*, Phosphatic Chalk of Taplow, p. 515, pl. xv, fig. 10, CHAPMAN, Quart. J. Geol. Soc. xlvi, n. sp.
- Bulimina ornata*, Western Australia, 359 metres, p. 286, pl. viii, fig. 80, EGGER, Abh. Bayer. Ak., n. sp.
- †*Bulimina*, n. sp., HOSIUS, Verh. Ver. Rheinland, I, 1 Hft., p. 118, pl. ii, fig. 11, Miocene, Germany. †*B. trigona*, Phosphatic Chalk of Taplow, p. 515, pl. xv, fig. 8, CHAPMAN, Quart. J. Geol. Soc. xlvi, n. sp.
- †*Flabelliporus*, n. g., with *F. orbicularis*, p. 59, figg. 13–17, 23, 35, & 36, *dilatatus*, Colli Torinesi (Termofurà, Italy), p. 60, figg. 1–12, 18, 20, 21, 24, 25, 27–33, DERVIEUX, Atti Acc. Torino, xxix, n. spp.
- Gaudryina colligera*, Western Australia, 915 metres, p. 279, pl. vii, figg. 4 & 5, EGGER, Abh. Bayer. Ak. xviii, n. sp.
- Globigerina radians*, Western Australia, 915 metres and 359 metres, Fiji Is., 1655 metres, p. 362, pl. xiii, fig. 22–24, *sphaeroides*, from 25 different stations, p. 367, pl. xiii, fig. 69 & 70, *hastata*, Western Australia, 359 metres, p. 368, pl. xiii, fig. 80, pl. xiv, figg. 41 & 42, *glutinata*, West Africa, Western Australia, New Guinea, p. 371, pl. xiii, figg. 19–21, EGGER, Abh. Bayer. Ak. xviii, n. spp.
- Layena tubulifera*, between Montevideo and Tristan d'Acunha, 3950 metres, p. 324, pl. x, figg. 6 & 7, *tortilis*, Western Australia, 359 metres, p. 329, pl. x, figg. 61–63, *compressa*, Neuamsterdam, 1485 metres, p. 331, pl. x, figg. 1 & 2, *costulata*, Western Australia, 359 metres, Fiji Is., 1655 metres, p. 334, pl. x, figg. 40 & 41, *bicornuta*, between Montevideo and Tristan d'Acunha, 3950 metres, p. 335, pl. x, figg. 92 & 93, *ungula*, Western Australia, 359 metres, p. 335, pl. x, figg. 52 & 53, EGGER, Abh. Bayer. Ak. xviii, n. spp.
- ~*Massilina*, n. g., p. 76, with *M. annectens*, Gulf of Marseille, p. 78, pl. iii, figg. 77–79, SCHLUMBERGER, Mem. Soc zool. France, n. sp.
- Miliolina pellucida*, Western Africa, 677 metres, Neuamsterdam, 1485 metres, Western Australia, 1188 and 359 metres, Eastern Australia, 2769 metres, Fiji Is., 1655 metres, p. 229, pl. ii, figg. 7–12, *cylindrica*, Western Australia, 359 metres, p. 233, pl. ii, fig. 69, pl. iv, figg. 25–27, *orrecta*, Mauritius, 411 metres, p. 233, pl. ii, figg. 50–52,

- tubulifera*, Western Australia, 359 metres, p. 234, pl. i, figg. 52-54,
maculata, West Africa, 677 metres, p. 238, pl. ii, figg. 85 & 86,
 EGGER, Abh. Bayer. Ak. xviii, n. spp.
- †*Nodosaria perpusilla*, p. 591, pl. ix, fig. 6, *bambusa*, p. 591, pl. ix, fig. 7,
internotata, p. 592, pl. ix, fig. 10, Gault of Folkestone, CHAPMAN,
 J. R. Micr. Soc. 1893, n. spp.
- †*Nonionina*, n. sp., HOSIUS, Verh. Ver. Rheinland, iv, 1 Hft., p. 134,
 Miocene, Germany.
- †*Nubecularia jonesiana*, Phosphatic Chalk of Taplow, p. 514, pl. xv, fig. 2,
 CHAPMAN, Quart. J. Geol. Soc. xlvi, n. sp.
- Pelosina spiculifera*, Western Australia, 1187 metres, p. 254, pl. iv, fig. 3,
 EGGER, Abh. Bayer. Ak. xviii, n. sp.
- Planispirina auriculata*, Mauritius, 411 metres, lat. 20° 35' S., long. 57°
 17' E., 347 metres, Western Australia, 1187 and 359 metres, p. 245,
 pl. iii, figs. 13-15, EGGER, Abh. Bayer. Ak. xviii, n. sp.
- Polymorphina compressa*, Cape Verde, 69 metres, p. 309, pl. ix, figg. 11-
 13, *formosa*, Cape Verde and Western Australia, 359 metres, p. 440,
 pl. ix, figg. 17-19, EGGER, Abh. Bayer. Ak. xviii, n. spp.
- Quinqueloculina stelligera*, Gulf of Marseille, p. 68, pl. ii, figg. 58 & 59,
 SCHLUMBERGER, Mem. Soc. zool. France, n. sp.
- Rheophax hystrix*, Cape Verde Is., 69 metres, p. 256, pl. iv, fig. 14, EAGER,
 Abh. Bayer. Ak. xviii, n. sp.
- Sigmoidina costata*, Gulf of Marseille, p. 61, pl. l, figg. 51 & 52, SCHLUM-
 BERGER, Mem. Soc. zool. France, vi, n. sp.
- Spiroloculina inaequilateralis*, Gulf of Marseille, p. 60, pl. iv, figg. 84-86,
 SCHLUMBERGER, Mem. Soc. zool. France ; *S. involuta*, Mauritius,
 depth 411 metres, p. 222, pl. i, figg. 37 & 38, *lamella*, Western Australia,
 lat. 18° 52' S., long. 116° 18' E., depth 359 metres, p. 223, pl. i, figg.
 24 & 25, *foveolata*, Mauritius, depth 137 metres, p. 224, pl. i, figg.
 33 & 34, *complanata*, Mauritius, depth 411 metres, lat. 20° 35' S. long.
 57° 17' E., depth 347 metres, Western Australia, depth 359 metres,
 p. 225, pl. iii, figg. 7 & 8, EGGER, Abh. Bayer. Ak. xviii : n. spp.
- Textularia horrida*, Mauritius, Coral Reefs, 137 metres, p. 270, pl. vi,
 figg. 11 & 12, EGGER, Abh. Bayer. Ak. xviii, n. sp.
- †*T. decurrens*, pl. xv, fig. 6, *serrata*, pl. xv, fig. 7, p. 515, Phosphatic
 Chalk of Taplow, CHAPMAN, Quart. J. Geol. Soc. xlvi, n. spp.
- Triloculina mariioni*, Gulf of Marseille, p. 62, pl. i, figg. 38-41, SCHLUM-
 BERGER, Mem. Soc. zool. France, n. sp.

 21 & 48-52, *elegans*, Cape Verde Is., 3427 metres, p. 265, pl. v, figg.
 22-24, EGGER, Abh. Bayer. Ak. xviii, n. spp.
- Uvigerina crassa*, Mauritius, 411 metres, p. 311, pl. ix, figg. 38 & 39,
tuberosa, New Guinea, 832 metres, p. 313, pl. ix, fig. 56, *globulosa*,
 Western Australia, 359 metres, p. 414, pl. ix, figg. 54 & 55, EGGER,
 Abh. Bayer. Ak. xviii, n. spp.
- Vaginulina signoidea*, Mauritius, 410 metres, p. 347, pl. xi, figg. 34 & 35,
 EGGER, Abh. Bayer. Ak. xviii, n. sp.

Class 7.—RADIOLARIA.

- † *Caryosphaera equidistans*, Pierre Formation, Manitoba, RÜST, p. 104, pl. xiv, figg. 1a & 1b, Geol. Survey, Canada, 1892, n. sp.
- † *Cenellipsis hexagonalis*, Pierre Formation, Manitoba, RÜST, p. 104, pl. xiv, fig. 2, Geol. Survey, Canada, 1892, n. sp.
- † *Cyrtocalpis crassitestata*, Pierre Formation, Manitoba, RÜST, p. 105, pl. xiv, fig. 4, Geol. Survey, Canada, 1892, n. sp.
- † *Dictyocephalus microstoma*, p. 105, pl. xiv, fig. 5, *macrostoma*, p. 106 pl. xv, fig. 1, Pierre Formation, Manitoba, RÜST, Geol. Survey, Canada, 1892, n. spp.
- † *Dictyomitra canadensis*, Pierre Formation, Manitoba, RÜST, p. 108, pl. xvi, fig. 1, Geol. Survey, Canada, 1892, n. sp.
- † *Prunulum calococcus*, Pierre Formation, Manitoba, RÜST, p. 105, pl. xiv, fig. 3, Geol. Survey, Canada, 1892, n. sp.
- † *Stichocapsa tyrelli*, p. 110, pl. xvi, fig. 4, *dawsoni*, p. 110, pl. xvi, fig. 5, Pierre Formation, Manitoba, RÜST, Geol. Survey, Canada, 1892, n. spp.
- † *Theocampe sphaerocephala*, Pierre Formation, Manitoba, RÜST, p. 106, pl. xv, fig. 2, Geol. Survey, Canada, 1892, n. sp.
- † *Tricolocapsa thoracica*, p. 107, pl. xv, fig. 4, *dowlingi*, p. 108, pl. xv, fig. 5, *selvyni*, p. 108, pl. xv, fig. 6, Pierre Formation, Manitoba, RÜST, Geol. Survey, Canada, 1892, n. spp.

B.—CORTICATA.

Class 1.—SPOROZOA.

LÉGER (123) gives the following classification of the *Gregarinidea* :—

A. GYMNOSPOREA.

The spores are without protecting envelope.

Fam. *Gymnosporidæ*.

B. ANGIOSPOREA.

The spores are always covered by a resistant membrane, which may be either simple or double.

I. *Polycystidea* : the spores have equal poles.

a. With regular smooth spores.

Fam. *Clepsidrinidæ*, *Anthrocephalidæ*, *Dactylophoridæ*, *Actinocephalidæ*.

b. With regular, spiny spores.

Fam. *Acanthosporidæ*.

c. With irregular spores.

Fam. *Stylocynchidæ*, *Menosporidæ*.

II. *Monocystidea* : the spores have unequal poles.

Fam. *Gonosporidæ*, *Urosporidæ*.

GURLEY (75) proposes the following classification of the *Myxosporidia* :—

- I. *Cryptocystes*, n. ord. *Myxosporidia*, in which the pansporoblast produces many (at the fewest 8) spores ; the last minute, without distinct symmetry, with a single capsule ; type (and only) family : *Glugeidae*, n. fam.
 - II. *Phænocytes*, n. ord. *Myxosporidia*, in which the pansporoblast produces few (at the most 2) spores ; the last relatively large, with distinct symmetry and two or more capsules ; type family, *Myxobolidae*, n. fam. Other families : *Cystodiscidae*, *Chloromyxidae*, *Myxidiidae*, n. fam.
- *Acanthospora*, n. g., with *A. pileata*, n. sp., in alimentary canal of larval *Cistelides* ; LÉGER, p. 145, pl. xv, figg. 1-5, Tabl. zool. iii.
- Actinocephalus tipulae*, in alimentary canal of larval *Tipula*, p. 141, pl. xiv, figg. 12-14, *A. acutispora*, in alimentary canal of *Silpha lœvigata*, p. 142, pl. xiv, figg. 6-11, LÉGER, Tabl. zool. iii, n. spp.
- *Amphorella*, n. g., with *A. polydesmi*, n. sp., in alimentary canal of *Polydesmus complanatus* ; LÉGER, p. 132, pl. x, figg. 9-14, Tabl. zool. iii.
- *Ancyrophora*, n. g., with *A. gracilis*, in alimentary canal of larval and adult *Carabus auratus* and *C. violaceus*, and in larval *Silpha thoracica*, p. 146, pl. xix, figg. 11-13, *A. uncinata*, in alimentary canal of larval *Sericostomes* and larval *Dytiscus* and *Colymbetes*, p. 147, pl. xix, figg. 6-10, LÉGER, Tabl. zool. iii, n. spp.
- *Anthocephalus*, n. g., with *A. sophiae*, in alimentary canal of *Phalangium opilio*, p. 69, pl. x, fig. 11, SCHNEIDER, Tabl. zool. ii, n. sp.
- *Asterophora*, n. g., with *A. mucronata*, in alimentary canal of larval *Ryacophila*, pp. 129-131, pl. xv, figg. 6-9, *A. elegans*, in alimentary canal of larvæ of *Phryganea grandis* and *Sericostomes*, p. 131, pl. xii, figg. 8-14, LÉGER, Tabl. zool. iii, n. spp.
- Balbiania rileyi*, *falcatula*, parasitic in birds, p. 79, STILES, U.S. Bureau Anim. Industry, 1893, n. spp.
- *Ceratospora*, n. g., with *C. mirabilis*, n. sp., in body cavity of *Glycera*, LÉGER, p. 159, pl. xx, figg. 9-11, Tabl. zool. iii.
- Chloromyxidae*, n. fam. ; GURLEY, p. 418, Bull. U. S. Fish Comm. xi.
- Chloromyxum mucronatum* in urinary bladder of *Lota lota*, *incisum* in gall-bladder of *Raja batis*, GURLEY, p. 419, Bull. U. S. Fish Comm. xi, n. spp.
- Clepsidrina acridiorum*, parasitic in *Acridium*, p. 811, LÉGER, C.R. Ac. Sci. cxvii, n. sp.
- C. longa* in alimentary canal of larval *Tipula*, p. 117, pl. viii, *lagenoides* in alimentary canal of *Lepisma saccharina*, p. 118, pl. vi, fig. 7, *podurae* in alimentary canal of *Podura villosa*, p. 119, pl. x, figg. 1-8, *acuta* in alimentary canal of *Trox perlatus*, p. 121, pl. vi, figg. 9 & 10, *longirostris* in alimentary canal of *Thanassimus formicarius*, p. 122, pl. xi, figg. 2-12, LÉGER, Tabl. zool. iii, n. spp.
- Oococcidium cristalloides* in intestine of *Motella tricirrata*, *C. variabile* in intestine of *Cottus bubalis*, *Crenilabrus melops*, and *Lepadogaster gouani*, THÉLOHAN, C.R. Ac. Sci. cxvii, p. 249, n. spp.

- O. lucidum* parasitic in *Motella* (? = *Coccidium variabile*, Thélohan) ;
LABBÉ, Soc. zool. France, xviii, n. sp. ?
- J. Corycella*, n. g., with *C. armata*, n. sp., in alimentary canal of larval *Gyrinus natator* ; LÉGER, p. 144, pl. xvi, figg. 7-11, Tabl. zool. iii.
- Cryptocystes*, n. order of Sporozoa ; GURLEY, Bull. U. S. Fish Comm. xi, p. 409.
- Cystodiscidae*, n. fam. ; GURLEY, p. 413, Bull. U. S. Fish Comm. xi.
- Cystodiscus* ♀ *diploxyx*, in *Tortrix viridana*, GURLEY, p. 413, Bull. U. S. Fish Comm. xi, n. sp.
- Dactylophora*, n. g., with *D. robusta*, n. sp., in alimentary canal of *Crytops hortensis* ; LÉGER, p. 124, pl. ix, Tabl. zool. iii.
- Didymophyes leuckarti*, in alimentary canal of *Aphodius prodromus* and *A. nitidulus*, p. 41, pl. ii, figg. 24-29, MARSHALL, Arch. Naturg. lix, n. sp.
- Diplocystis*, n. g., with *D. schneideri*, in body cavity of *Periplaneta americana*, p. 43, pl. ix, KÜNSTLER, Tabl. zool. ii, n. sp.
- Discocephalus*, n. g., with *D. truncatus*, n. sp., in alimentary canal of larval *Sericostomes* (?) ; LÉGER, p. 134, pl. xv, figg. 10-12, Tabl. zool. iii.
- Eirmocystis*, n. g., with *E. ventricosa*, in alimentary canal of larval *Tipula oleracea* and *T. pratensis*, p. 111, pl. vi, figg. 1-4, *E. polymorpha* in alimentary canal of larval *Limnobia*, p. 113, pl. iii, LÉGER, Tabl. zool. iii, n. spp.
- Glugeidae*, n. fam. of Sporozoa ; GURLEY, p. 409, Bull. U. S. Fish Comm. xi.
- Gonospora varia* in body cavity of *Audouinia*, p. 157, pl. xx, fig. 2, *G. sparsa* in body cavity of *Phyllodoce* and *Glyceria*, p. 157, LÉGER, Tabl. zool. iii, n. spp.
- Menospora*, n. g., with *M. polyacantha*, n. sp., in alimentary canal of larval *Agrion puella* ; LÉGER, p. 151, pl. xix, figg. 1-5, Tabl. zool. iii.
- Myxidiidae*, n. fam. ; GURLEY, p. 420, Bull. U. S. Fish Comm. xi.
- Myxobolidae*, n. fam. ; GURLEY, p. 413, Bull. U. S. Fish Comm. xi.
- Myxobolus unicapsulatus* on *Labeo niloticus*, *inequalis* on *Pimelodus clarus*, *oblongus* on *Erimyzon suetta*, *bicostatus* on branchiae of *Tinca tinca*, *lintoni* on *Cyprinodon variegatus*, p. 414, *obesus* on *Alburnus alburnus*, *cycloides* on *Leuciscus rutilus*, *sphericalis* in the branchial mucosa of *Coregonus fera*, *globosus* on *Erimyzon suetta*, *transovalis* on *Phoxinus funduloides*, *perlatus* on *Gymnocephalus cernua*, p. 415, ? *zschorkei* on *Coregonus fera*, *monurus* on *Aphredoderus sayanus*, *macrurus* on *Hybognathus nuchalis*, p. 416, *strongylurus* on *Synodontis schal*, *kolesnikovi* on *Coregonus fera*, *linearis* on *Rhamdia sebae* and *Pseudoplatystoma fasciatum*, *schizurus* on *Esox lucius*, p. 417, *creplini* on *Gymnocephalus cornuta*, *diplurus* in kidney of *Lota lota*, p. 418, GURLEY, Bull. U. S. Fish Comm. xi, n. spp.

- ¹*Nematopsis*, n. g., parasitic in the mantle of *Solen vagina*, p. 209, pl. xxxiii; SCHNEIDER, Tabl. zool. ii. [No specific name.]
- Phænocystes*, new order of *Sporozoa*; GURLEY, p. 410, Bull. U. S. Fish Comm. xi.
- ¹*Phialis*, n. g., with *P. ornata*, n. sp., in alimentary canal of larval *Hydrophilus piceus*; LÉGER, p. 135, pl. xiii, figg. 4-12, Tabl. zool. iii.
- ¹*Pleistophora*, n. g., with *P. typicalis*, n. sp., in muscles of *Cottus scorpio*; GURLEY, p. 410, Bull. U. S. Fish Comm. xi.
- ¹*Pogonites*, n. g., with *P. erinitus*, in alimentary canal of larval *Hydrobius*, pp. 148-150, pl. xviii, *P. capitatus*, in alimentary canal of larval *Hydrous*, p. 150, pl. xvi, figg. 1-6, n. spp.; LÉGER, Tabl. zool. iii.
- ¹*Pterocephalus*, n. g., with *P. nobilis*, n. sp., parasitic in *Scolopendru morsitans*, p. 67, pl. x, figg. 1-10; SCHNEIDER, Tabl. zool. ii.
- Pyrosoma bigeminum*, in blood of diseased cattle (Texas fever), SMITH, p. 511, Centrbl. Bakter. xiii (1893), n. sp.
- ¹*Rhopalocephalus*, n. g., with *R. carcinomatous*, n. sp., cancer parasite, p. 373, figg. 1-15; KOROTNEFF, Centrbl. Bakter. xiii.
- Sarcocystis farcicula*, parasitic in Birds, p. 79, STILES, U. S. Bureau Anim. Industry, 1893, n. sp.
- ¹*Schneideria*, n. g., with *S. mucronata*, in alimentary canal of larval *Bibio marci*, p. 153, pl. ii, figg. 7-13, *S. coronata*, in alimentary canal of larval *Sciara*, p. 155, pl. ii, figg. 1-6, n. spp.; LÉGER, Tabl. zool. iii.
- ¹*Sphaerocystis*, n. g., with *S. simplex*, n. sp., in larvæ of *Cyphon pallidus*; LÉGER, p. 115, pl. vi, fig. 11, Tabl. zool. iii.
- ¹*Stephanophora*, n. g., with *S. radiosa*, n. sp., in alimentary canal of *Dorcus parallelipipedus*; LÉGER, p. 127, pl. xii, figg. 1-7, Tabl. zool. iii.
- ¹*Stictospora*, n. g., with *S. provincialis*, n. sp., in the alimentary canal of larval *Melolontha* and *Rhizotrogus*; LÉGER, p. 129, C.R. Ac. Sci. cxvii.
- Thélohania macrocystis*, in muscles of *Palæmonetes varians*, GURLEY, p. 410, Bull. U. S. Fish Comm. xi, n. sp.
- ¹*Xiphorhynchus*, n. g., with *X. firmus*, in alimentary canal of *Dermestes lardarius*, pp. 137-139, pl. xvii, figg. 1-8, 12, & 13, *X. tenuis*, in alimentary canal of *Dermestes tenuis*, p. 139, pl. xvii, figg. 9-11, LÉGER, Tabl. zool. iii, n. spp.

Class 2.—FLAGELLATA.

- Asterosiga radiata*, Plön, Holstein, ZACHARIAS, p. 76, pl. i, fig. 8, Forschungsberichte, Plön, ii, n. sp.
- Bicosæca oculata*, Plön, Holstein, ZACHARIAS, p. 71, pl. i, figg. 5 & 5A, Forschungsberichte, Plön, ii, n. sp.
- B. lacustris*, J. Clark, var. *longipes*, Plön, Holstein; ZACHARIAS, p. 72, pl. i, figg. 7 & 7A, Forschungsberichte, Plön, ii, n. var.

- ¹*Dimastigamæba*, n. g., for certain forms included by Klebs under the genus *Dimorpha*, but differing from it by rhizopoda-like pseudopodia and the arrangement of the flagella; BLOCHMANN, Biol. Centralbl. xiv, p. 198.
- Diplosiga frequentissima*, Plön, Holstein, ZACHARIAS, p. 75, pl. i, figg. 4A & B, Forschungsberichte, Plön, ii, n. sp.
- Mallomonas acaroides*, Plön, Holstein, ZACHARIAS, p. 16, pl. i, fig. 13, Forschungsberichte, Plön, i, n. sp.
- M. acaroides*, var. *producta*, Plön, Holstein; ZACHARIAS, p. 73, pl. i, figg. 6A-E, Forschungsberichte, Plön, ii, n. var.
- Monas nephrodes*, Cadempino, Italy, p. 16, MAGGI, Boll. scient. xv, n. sp.

Class 5.—CILIATA.

- ¹*Cenomorphina*, n. g., with *C. henrici*, n. sp., Freshwater, Rostock; BLOCHMANN, Biol. Centralbl. xiv, p. 90, fig. 3.
- Chænia similis*, Plön, Holstein, ZACHARIAS, p. 77, Forschungsberichte, Plön, ii, n. sp. (?).
- Cothurnia fecunda*, Brackish water, Morris and Essex Canal, near Greenville, N. J., p. 298, pl. v, fig. 1, *inflata*, Brackish water, Longport, Long Island, N. Y., p. 299, pl. v, fig. 2, STOKES, J. R. Micr. Soc. 1893; *C. ligia*, on the gills of *Ligia oceanica*, p. 86, fig. 3, CUÉNOT, Rev. biol. Nord France, iv; *C. puteana*, pp. 12 & 47, pl. i, figg. 3-12, *C. cyathus*, pp. 15 & 48, pl. i, figg. 16-18, in the wells of Krakau, JAWOROWSKI (Nowe Gatunki, &c.) : n. spp.
- ¹*Cothurniopsis*, n. g., with *C. valvata*, n. sp., Brackish water, Coney I., N. Y., p. 299, pl. v, figg. 3 & 4; STOKES, J. R. Micr. Soc. 1893.
- Dileptus trachelioides*, Plön, Holstein, ZACHARIAS, p. 78, pl. ii, figg. 1 & 2, Forschungsberichte, Plön, ii, n. sp.
- Epistylis pyriformis*, in the wells of Krakau, pp. 16 & 48, pl. ii, fig. 19, JAWOROWSKI (Nowe Gatunki, &c.), n. sp.
- Lagynus ornatus*, Brackish water, Northport, Long I., N. Y., STOKES, p. 300, pl. v, fig. 7, J. R. Micr. Soc. 1893, n. sp.
- ¹*Litosolenus*, n. g., with *L. armatus*, n. sp., Brackish water, Northport, Long I., N. Y., p. 301, pl. v, fig. 8, *verrucosus*, n. sp., Brackish water, Coney I., N. Y., p. 302, pl. v, fig. 9; STOKES, J. R. Micr. Soc. 1893.
- Metacystis striata*, Northport, Long I., N. Y., STOKES, p. 300, pl. v, fig. 6, J. R. Micr. Soc. 1893, n. sp.
- Scyphidia patella*, in the gills of *Patella vulgata*, p. 83, fig. 2, CUÉNOT, Rev. biol. Nord France, iv, n. sp.
- ¹*Staurophrya*, n. g., with *S. elegans*, n. sp., Plön, Holstein; ZACHARIAS, p. 18, pl. i, fig. 10, Forschungsberichte, Plön, i.
- Tintinnus tubus*, Brackish water, Coney Is., N. Y., p. 300, pl. v, fig. 5, STOKES, J. R. Micr. Soc. 1893, n. sp.

Trichodina patellæ, in the gills of *Patella vulgata*, p. 82, fig. 1, CUÉNOT,
Rev. biol. Nord France, iv, n. sp.

Vorticella vaga, Jena, RÖMER, p. 465, Biol. Centralbl. xiii, n. sp.

Class 6.—ACINETARIA.

Acineta simplex, Plön, Holstein, ZACHARIAS, p. 17, Forschungsberichte,
Plön, i, n. sp.

✓ *Pericometes*, n. g., with *P. digitatus*, n. sp., in branchiæ of *Gammarus*,
p. 19, pls. vii & viii ; SCHNEIDER, Tabl. zool. ii.

Trichophrya cordiformis, n. sp., SCHEWIAKOFF, Bull. Mosc. 1893, No. 1,
p. 8, pl. i, figg. 13–16. Parasitic on *Cyclops phaleratus*, Koch.

INDEX TO NAMES
OF
NEW GENERA AND SUBGENERA
MENTIONED IN VOLUME XXX,

INCLUDING NEW NAMES FOR GENERA PREVIOUSLY ESTABLISHED.*

-
- Ablepsis, *Watson*, Ins. 237
Abrodiæta, *Brunner*, Ins. 355
Absala, *Swinhoe*, Ins. 275
Acallophilus, *Faust*, Ins. 158
Acanthoiulus, *Verhoeff*, Myr. 9
Acanthomyrmex, *Emery*, Ins. 206
Acanthophallus, *Cope*, Rept. 27
Acauthophysa, *Uhler*, Ins. 329
Acanthoscelis, *Ashmead*, Ins. 215
Acanthospora, *Léger*, Prot. 30
Acaromantis, *Trouessart and Neumann*, Arachn. 30
Accacelum, *Monticelli*, Vermes 49
Acheliderma, *Topsent*, Spong. 18
Achroblatta, *Saussure*, Ins. 355
Achromota, *Casey*, Ins. 101
Acolhua, *Distant*, Ins. 329
Acolonia, *Casey*, Ins. 106
Acoremia, *Kolbe*, Ins. 174
Aceridella, *Bolívar*, Ins. 367
Acridotarsa, *Meyrick*, Ins. 301
Aerocomus, *Raffray*, Ins. 106
Acroptena, *Pokorny*, Ins. 314
Acerozoanthus, *Kent*, Cœl. 15
Actenochroma, *Warren*, Ins. 275
Actinodactylella, *Haswell*, Vermes 49
Actinor, *Watson*, Ins. 237
Actinosphæridium, *Zacharias*, Prot. 26
Acuspis, *Gumppenberg*, Ins. 275
Acutomentum, *Eigenmann and Beeson*, Pisces 22
Adelolcus, *Bergroth*, Ins. 324
Adiastaltus, *Ameghino*, Mamm. 42
Adorodocia, *Brenske*, Ins. 127
Adoroleptus, *Brenske*, Ins. 127
Æanes, *Champion*, Ins. 152
Æquidens, *Eigenmann and Bray*, Pisces 26
Ætesis, *Wallengren*, Ins. 347
Æthocystites, *Miller*, Ech. 106
Ætorhinella, *Nouallier*, Ins. 335
Agalba, *Brown*, Ins. 134
Aganeuma, *Brown*, Ins. 158
Aganhyboma, *Kolbe*, Ins. 121
-

* The total number of names in this Index is 1575, distributed as follows:—
Mammalia, 14; Aves, 42; Reptilia and Batrachia, 30; Pisces, 46; Tunicata, 0; Mollusca, 62; Brachiopoda, 6; Bryozoa, 5; Crustacea, 57; Arachnida, 100; Myriopoda, 24; Insecta, 1022; Echinoderma, 30; Vermes, 68; Cœlenterata, 16; Spongæ, 13; Protozœa, 40. The corresponding total was last year 1520, and ten years ago, in 1883, 1079.

- Aganipus, *Fairmaire*, Ins. 174
 Agathothus, *Bollman*, Myr. 7
 Agondasooidea, *Brunner*, Ins. 361
 Aidemona, *Brunner*, Ins. 367
 Alidus, *Gahan*, Ins. 174
 Allaorus, *Broun*, Ins. 158
 Allastena, *Broun*, Ins. 187
 Allocatops, *Broun*, Ins. 112
 Alloeme, *Lameere*, Ins. 175
 Allognota, *Pokorný*, Ins. 314
 Allomicrus, *Gahan*, Ins. 175
 Alloparnus, *Broun*, Ins. 120
 Alloprocas, *Broun*, Ins. 158
 Allostichus, *Kolbe*, Ins. 175
 Allotriogametis, *Wallengren*, Ins. 347
 Alluaudia, *Lameere*, Ins. 175
 Alluaudia, *Bolívar*, Ins. 362
 Alluaudiella, *Bolívar*, Ins. 362
 Alophia, *Ragonot*, Ins. 291
 Alpha, *Brunner*, Ins. 367
 Alvania, *Beddard*, *Vermes* 42
 Amabilia, *Diamare*, *Vermes* 46
 Amalthea, *Gumpenberg*, Ins. 276
 Amaropsis, *Champion*, Ins. 152
 Amaurolimnas, *Sharpe*, Aves 24
 Amblopala, *Leech*, Ins. 233
 Amblopusa, *Casey*, Ins. 101
 Amblycara, *Fairmaire*, Ins. 143
 Amblyochetus, *Faust*, Ins. 158
 Amenis, *Watson*, Ins. 237
 Amercedes, *Casey*, Ins. 158
 Amesotropis, *Karsch*, Ins. 367
 Ammodon, *Marsh*, Mamm. 38
 Ammonicera, *Vayssiére*, Moll. 64
 Ammonoxenus, *Simon*, Arachn. 17
 Amorphozancle, *Warren*, Ins. 276
 Amphibulus, *Kriechbaumer*, Ins. 212
 Amphistrophia, *Hall*, Brach. 5
 Amphithera, *Meyrick*, Ins. 301
 Amphithrix, *Ragonot*, Ins. 291
 Amphitomura, *Pilsbry*, Moll. 76
 Amphorella, *Léger*, Prot. 30
 Amploiulus, *Verhoeff*, Myr. 9
 Ampulicomorpha, *Ashmead*, Ins. 215
 Amuria, *Brunner*, Ins. 364
 Amusurgus, *Brunner*, Ins. 362
 Anachrostis, *Hampson*, Ins. 264
 Anagraphis, *Simon*, Arachn. 19
 Anamesia, *Tepper*, Ins. 355
 Anartula, *Staudinger*, Ins. 291
 Anasida, *Karsch*, Ins. 324
 Anaspis, *Thomson*, Crust. 28
 Anathitus, *Ameghino*, Mamm. 42
 Ancova, *Ragonot*, Ins. 291
 Ancylostomia, *Ragonot*, Ins. 291
 Ancyrophora, *Léger*, Prot. 30
 Ancystrocerus, *Raffray*, Ins. 106
 Andromma, *Simon*, Arachn. 19
 Androstigma, *Hampson*, Ins. 245
 Andrya, *Railliet*, *Vermes* 46
 Anepsiota, *Casey*, Ins. 101
 Aneuretus, *Emery*, Ins. 206
 Aneurota, *Casey*, Ins. 101
 Angonia, *Snellen*, Ins. 291
 Anisædus, *Simon*, Arachn. 25
 Anisogamia, *Saussure*, Ins. 356
 Anisopygia, *Saussure*, Ins. 356
 Anitra, *Casey*, Ins. 106
 Anoka, *Peckham*, Arachn. 17
 Anoleus, *Bergroth*, Ins. 324
 Anomaloniscus, *Dolffus*, Crust. 29
 Anomonychus, *Faust*, Ins. 159
 Anonychia, *Warren*, Ins. 276
 Anoplectropius, *Vaillant*, Pisces 28
 Anoplia, *Hall*, Brach. 5
 Anoplophallus, *Cope*, Rept. 27
 Anthocephalus, *Schneider*, Prot. 30
 Anuroctonus, *Pocock*, Arachn. 15
 Anurolimnas, *Sharpe*, Aves 24
 Aochetus, *Faust*, Ins. 159
 Apatelia, *Karsch*, Ins. 351
 Aphananthus, *Kolbe*, Ins. 175
 Aphanotylus, *Brusina*, Moll. 66
 Apharsatus, *Fairmaire*, Ins. 175
 Aphelichthys, *Cope*, Pisces 30
 Apheloglossa, *Casey*, Ins. 101
 Aphideita, *Weise*, Ins. 195
 Aphoromma, *Macgillivray*, Ins. 352
 Aphorura, *Macgillivray*, Ins. 352
 Aphyletes, *Ragonot*, Ins. 291
 Aplochlora, *Warren*, Ins. 276
 Apophyga, *Warren*, Ins. 276
 Aprusia, *Simon*, Arachn. 24
 Apterobittacus, *McLachlan*, Ins. 349
 Aptinoclerus, *Kuwert*, Ins. 139
 Aptorthus, *Aldrich*, Ins. 312
 Aradophagus, *Ashmead*, Ins. 215
 Aræognatha, *Hampson*, Ins. 272
 Aræopteron, *Hampson*, Ins. 273
 Aræoscapus, *Broun*, Ins. 160
 Araiorhinus, *Senna*, Ins. 172
 Aramidopsis, *Sharpe*, Aves 24
 Archaeolenes, *Broun*, Ins. 117
 Archemorus, *Simon*, Arachn. 24
 Archimandrita, *Saussure*, Ins. 356
 Arcidius, *Simon*, Arachn. 24
 Ardaris, *Watson*, Ins. 237
 Ardiosteres, *Meyrick*, Ins. 301
 Arecopais, *Broun*, Ins. 173
 Argilophilus, *Eisen*, *Vermes* 43
 Argopteron, *Watson*, Ins. 237
 Arianops, *Brendel*, Ins. 106
 Arnetta, *Watson*, Ins. 237

- Arocha, Simon, Arachn. 24
 Arsissa, Ragonot, Ins. 292
 Articeropsis, Wasmann, Ins. 106
 Artionyx, Osborn and Wortman,
 Mamm. 35
 Artochia, Casey, Ins. 101
 Aruanoidea, Brunner, Ins. 361
 Asaphomorpha, Brancsik, Ins. 126
 Asartodes, Ragonot, Ins. 292
 Asbolodes, Fairmaire, Ins. 143
 Ascalabus, Fairmaire, Ins. 143
 Ascaphium, Lewis, Ins. 113
 Asilis, Broun, Ins. 138
 Asiphonichthys, Cope, Pisces 31
 Asphærites, Broun, Ins. 112
 Aspidopleres, Porat, Myr. 7
 Aspitus, Kolbe, Ins. 175
 Assinia, Lameere, Ins. 175
 Asterophora, Léger, Prot. 30
 Asthenesita, Casey, Ins. 101
 Asthenodonta, Whiteaves, Moll. 73
 Astyplus, Broun, Ins. 160
 Asymades, Kerremans, Ins. 131
 Ataxigamia, Tepper, Ins. 356
 Atemeleta, Brunner, Ins. 356
 Atizes, Distant, Ins. 324
 Auchas, Distant, Ins. 335
 Aulacaspis, Cockerell, Ins. 343
 Australanthus, Bittner, Ech. 57
 Autallacta, Warren, Ins. 276
 Auxacia, Ragonot, Ins. 292
 Auzeodes, Warren, Ins. 276
 Axinoptera, Hampson, Ins. 276
 Axonopsis, Piersig, Arachn. 31
 Axosuberites, Topsent, Spong. 18
 Azelota, Brunner, Ins. 367
 Azonax, Godman and Salvini, Ins.
 237
 Badariotta, Giglio-Tos, Ins. 175
 Bagodares, Druce, Ins. 277
 Balboa, Distant, Ins. 330
 Balta, Tepper, Ins. 356
 Bantiades, Broun, Ins. 160
 Bargena, Koenike, Arachn. 31
 Baronia, Salvini, Ins. 223
 Barossus, Fairmaire, Ins. 176
 Bathycles, Distant, Ins. 330
 Bathydema, Uhler, Ins. 330
 Bathylaimus, Cobb, Vermes 56
 Bathypercis, Alcock, Pisces 23
 Bathystethus, Gill, Pisces 23
 Batrisinus, Raffray, Ins. 106
 Batzella, Topsent, Spong. 18
 Belornis, Milne-Edwards, Aves 34
 Beta, Brunner, Ins. 367
 Biancolina, Della Valle, Crust. 30
 Bifidaria, Sterki, Moll. 56
 Bilga, Fairmaire, Ins. 126
 Bimastos, Moore, Vermes 43
 Birmania, Brunner, Ins. 367
 Biselenaria, Gregory, Bry. 6
 Blæsodactylus, Bætger, Rept. 20
 Blasticorhinus, Butler, Ins. 265
 Blechoscelis, Simon, Arachn. 25
 Blepharoïdes, Jacoby, Ins. 187
 Boagrius, Simon, Arachn. 25
 Boccardia, Carazzi, Vermes 40
 Bocchus, Ashmead, Ins. 216
 Bourletia, Macgillivray, Ins. 353
 Brachiophrya, Giglio-Tos, Ins. 315
 Brachistosternus, Pocock, Arachn.
 15
 Brachyceratias, Röder, Ins. 314
 Brachycettarus, Hampson, Ins. 247
 Brachynema, Cobb, Vermes 57
 Brachysius, Macgillivray, Ins. 353
 Bradypatae, Broun, Ins. 160
 Branneria, Bollman, Myr. 8
 Bricinniella, Giglio-Tos, Ins. 320
 Briseis, Kerremans, Ins. 132
 Broteochactas, Pocock, Arachn. 16
 Bryobiota, Casey, Ins. 101
 Bubaces, Distant, Ins. 330
 Bungalotis, Watson, Ins. 237
 Burara, Swinhoe, Ins. 237
 Byrrhocryptus, Broun, Ins. 137
 Cacoblatta, Saussure, Ins. 356
 Cacodrotus, Broun, Ins. 176
 Cacus, Ashmead, Ins. 216
 Caeneus, Distant, Ins. 330
 Cœnomychus, Lewis, Ins. 195
 Cæsarmysis, Ortmann, Crust. 28
 Cæsetius, Simon, Arachn. 28
 Caina, Ragonot, Ins. 292
 Calaphodius, Reitter, Ins. 122
 Calastacus, Faxon, Crust. 24
 Caletor, Loman, Arachn. 29
 Calhyboma, Kolbe, Ins. 122
 Calhypnorna, Saussure, Ins. 356
 Callibrachium, Boule and Glan-
 geaud, Rept. 32
 Calliphrys, Kowarz, Ins. 315
 Calliscelio, Ashmead, Ins. 216
 Caloblatta, Saussure, Ins. 356
 Caloclerus, Kuwert, Ins. 139
 Calolampra, Saussure, Ins. 356
 Calopelia, Salvadori, Aves 23
 Caltoris, Swinhœ, Ins. 237
 Calyptrobothrium, Monticelli,
 Vermes 47
 Camerunia, Aurivillius, Ins. 247
 Camioleum, Lewis, Ins. 102
 Campolæmus, Pilsbry, Moll. 56
 Camptoscapus, Broun, Ins. 160

- Campylochirus, Trouessart, Arachn. 32
 Canvella, Scott, Crust. 32
 Caobangia, Giard, Vermes 40
 Capheira, Ludwig, Ech. 52
 Capheris, Simon, Arachn. 28
 Capivaccius, Distant, Ins. 324
 Capria, Antipa, Cœl. 14
 Capromimus, Gill, Pisces 23
 Capucina, Saussure, Ins. 356
 Caraboctonus, Pocock, Arachn. 15
 Carcosaurus, Kornhuber, Rept. 24
 Cardax, Weise, Ins. 188
 Castanolimnas, Sharpe, Aves 24
 Catarctia, Holland, Ins. 248
 Catenes, Distant, Ins. 330
 Caulopsetta, Gill, Pisces 28
 Cavipalpia, Ragonot, Ins. 293
 Ceina, Della Valle, Crust. 30
 Celetotelus, Broun, Ins. 161
 Centriocera, Pokorny, Ins. 315
 Cephaloclerus, Kuwert, Ins. 139
 Cephalonema, Cobb, Vermes 57
 Ceracanthia, Ragonot, Ins. 293
 Cerapopsis, Della Valle, Crust. 30
 Ceratinella, Banks, Arachn. 26
 Ceratobæus, Ashmead, Ins. 216
 Ceratomysis, Faxon, Crust. 28
 Ceratophallus, Cope, Rept. 26
 Ceratopoma, Moellendorff, Moll. 69
 Ceratopria, Ashmead, Ins. 216
 Ceratorhynchus, Hampson, Ins. 277
 Ceratospora, Léger, Prot. 30
 Ceroplastodes, Cockerell, Ins. 343
 Ceroplophana, Gestro, Ins. 127
 Cesonia, Simon, Arachn. 19
 Cestromoecha, Karsch, Ins. 364
 Chætocælia, Giglio-Tos, Ins. 320
 Chaleenosoma, Jacoby, Ins. 188
 Chalioides, Hampson, Ins. 248
 Chalyboclydon, Warren, Ins. 277
 Chamaepsephis, Broun, Ins. 161
 Chambersia, Riley, Ins. 302
 Chaolaimus, Cobb, Vermes 57
 Chapmania, Monticelli, Vermes 47
 Charagotettix, Brancik, Ins. 367
 Charibas, Simon, Arachn. 28
 Chazara, Moore, Ins. 231
 Chelyocephalus, Schmidt, Ins. 114
 Cheumatopsyche, Wallengren, Ins. 347
 Chirista, Karsch, Ins. 368
 Chirixalus, Boulenger, Rept. 35
 Chiromachus, Pocock, Arachn. 16
 Chlamydopleon, Ortmau, Crust. 28
 Chlamydothorax, Speugel, Vermes 39
 Chloricalla, Kerremans, Ins. 132
 Chlorizeina, Brunner, Ins. 368
 Chlorodontopera, Warren, Ins. 277
 Chonala, Moore, Ins. 231
 Chorimycterus, Cope, Pisces 31
 Chorocosma, Meyrick, Ins. 302
 Chortoicetes, Brunner, Ins. 368
 Chromatoiulus, Verhoef, Myr. 9
 Chromogaster, Cobb, Vermes 57
 Chromogaster, Lauterborn, Vermes 61
 Chromoteleia, Ashmead, Ins. 216
 Chrostheipus, Brunner, Ins. 368
 Chrysaspis, Kerremans, Ins. 132
 Chrysoplectrum, Watson, Ins. 238
 Ciconissus, Broun, Ins. 117
 Ciropteryx, Holland, Ins. 248
 Cisseoides, Kerremans, Ins. 132
 Cistudinella, Champion, Ins. 188
 Citripestis, Ragonot, Ins. 293
 Cladoselache, Dean, Pisces 38
 Clasma, Karsch, Ins. 364
 Cleomantes, Druce, Ins. 278
 Cleomis, Fairmaire, Ins. 145
 Cligenes, Distant, Ins. 330
 Clinogaster, Wulp, Ins. 315
 Clinophlebia, Hampson, Ins. 266
 Closteridea, Scudder, Ins. 368
 Cnopus, Champion, Ins. 154
 Cœlastarte, Boehm, Moll. 72
 Cœloccelius, Guillebeau, Ins. 116
 Cœlogaster, Ashmead, Ins. 216
 Cœnomorphina, Blochmann, Prot. 33
 Colaspina, Weise, Ins. 189
 Colaspinella, Weise, Ins. 189
 Coleocoptus, Awivillius, Ins. 177
 Cologrammus, Gill, Pisces 25
 Colopea, Simon, Arachn. 25
 Coloradella, Brunner, Ins. 368
 Colposura, Casey, Ins. 102
 Comptolampra, Saussure, Ins. 357
 Conchaspis, Cockerell, Ins. 343
 Coneuplecta, Moellendorff, Moll. 50
 Coniesthes, Kolbe, Ins. 177
 Coniornis, Marsh, Aves 25
 Coptarthria, Ragonot, Ins. 293
 Coptopteryx, Holland, Ins. 248
 Coranopsis, Horvath, Ins. 334
 Corycella, Léger, Prot. 31
 Coryphosima, Karsch, Ins. 368
 Coryssocnemis, Simon, Arachn. 25
 Corythurus, Hampson, Ins. 266
 Costleya, Broun, Ins. 126
 Cothurniopsis, Stokes, Prot. 33
 Cotugnia, Diamare, Vermes 47
 Craspedella, Haswell, Vermes 49
 Craspedogonia, Hampson, Ins. 266

- Crato, *Distant*, Ins. 325
 Crebeta, *Moore*, Ins. 231
 Crecopsis, *Sharpe*, Aves 24
 Cremastobæus, *Ashmead*, Ins. 216
 Cremastochrysallis, *Karsch*, Ins. 248
 Crossanthera, *Cope*, Rept. 26
 Crossopriza, *Simon*, Arachn. 25
 Cryptocelides, *Bergental*, Vermes 54
 Cryptodiodon, *Schaufuss*, Ins. 87
 Cryptoiulus, *Verhorff*, Myr. 9
 Cryptoloba, *Warren*, Ins. 279
 Cryptomera, *Broun*, Ins. 155
 Cryptophaps, *Salvadori*, Aves 22
 Cryptophrys, *Rathbun*, Crust. 21
 Cryptopone, *Emery*, Ins. 208
 Cryptops, *Eigenmann*, Pisces 33
 Ctenocompa, *Meyrick*, Ins. 302
 Ctenotænia, *Railliet*, Vermes 47
 Cybele, *Peckham*, Arachn. 17
 Cyclaxyra, *Broun*, Ins. 117
 Cydonia, *Peckham*, Arachn. 17
 Cylicocrinus, *Miller*, Ech. 98
 Cylindrocephalus, *Faust*, Ins. 162
 Cylindroiulus, *Verhoeft*, Myr. 9
 Cyloceps, *Uhler*, Ins. 336
 Cymochtha, *Karsch*, Ins. 368
 Cymothales, *Gerstaecker*, Ins. 349
 Cyphanobium, *Broun*, Ins. 142
 Cyphanodes, *Broun*, Ins. 137
 Cyphocrinus, *Miller*, Ech. 98
 Cypridicola, *Dayay*, Vermes 61
 Cyrene, *Peckham*, Arachn. 17
 Cyrtoneurina, *Giglio-Tos*, Ins. 316
 Cytillus, *Broun*, Ins. 120
- Daenophylla, *Broun*, Ins. 162
 Dactylocalots, *Werner*, Rept. 21
 Dactylomyia, *Aldrich*, Ins. 312
 Dactylophora, *Léger*, Prot. 31
 Dactylortyx, *Ogilvie-Grant*, Aves 21
 Dajaca, *Brunner*, Ins. 361
 Dalcerides, *Neumogen and Dyar*, Ins. 249
 Dallacha, *Moore*, Ins. 231
 Damasiippoides, *Branczik*, Ins. 361
 Darmistidus, *Uhler*, Ins. 328
 Darwinia, *Pereyaslavzewa*, Vermes 54
 Dascia, *Meyrick*, Ins. 302
 Davila, *Distant*, Ins. 330
 Defoa, *Swinhoe*, Ins. 279
 Deinotrichia, *Warren*, Ins. 279
 Delenda, *Croissandeau*, Ins. 108
 Delochilocoris, *Bergroth*, Ins. 330
 Delozeuma, *Cambridge*, Arachn. 19
- Deltania, *Eisen*, Vermes 43
 Deltorhynchus, *Ridgway*, Aves 49
 Demobrotis, *Meyrick*, Ins. 302
 Demonema, *Cobb*, Vermes 57
 Dendrocera, *Hampson*, Ins. 249
 Dendrotettix, *Riley*, Ins. 368
 Deontopora, *Hale*, Cœl. 13
 Deremius, *Kolbe*, Ins. 177
 Desmanthus, *Topsent*, Spong. 17
 Desmatippus, *Scott*, Mamm. 36
 Desmopleura, *Scudder*, Ins. 368
 Dexiopsis, *Pokorny*, Ins. 316
 Diapoma, *Cope*, Pisces 31
 Diaphorocellus, *Simon*, Arachn. 25
 Diarthrocera, *Broun*, Ins. 119
 Diastatomyceter, *Vaillant*, Pisces 28
 Diatomocera, *Ragonot*, Ins. 293
 Diaulota, *Casey*, Ins. 102
 Dicepolia, *Snellen*, Ins. 293
 Dichothyris, *Karsch*, Ins. 231
 Discraulax, *Cope*, Rept. 27
 Dictyoderma, *Lauterborn*, Vermes 61
 Didia, *Ragonot*, Ins. 293
 Diestogyna, *Karsch*, Ins. 229
 Dimastigamœba, *Blochmann*, Prot. 33
 Domyxus, *Fairmaire*, Ins. 128
