

TOKYO DECLARATION 2023

7th Free Nations PostRussia Forum

August 1st, 2023, Tokyo

We, the representatives of different nations that currently live on the territory of Russia, and politicians and representatives of civil society of Japan, hereby declare that:

- 1.** We are committed to the decolonization and deimperialization of the Russian Federation and liberation of all nations that live on the territory of Russia. We will collaborate with each other and with Japanese politicians and civil society to achieve this.
- 2.** We call for final peace settlement with Japan and immediate resolution of the problem of the occupied Northern Territories. The imperialism in Russia will never be defeated without this happening – once and for all.
- 3.** To achieve these objectives and to ensure that Post-Russian territory will become a democracy and not a threat to its neighbors, we will exert ourselves to establish Free Eurasia Coordination Center in Japan (FECCJ). Anyone who wants to support the reforms and democratization, can participate in this international organization.

SIGNED:
