PREFACE.

The Buxton mineral water is discharged from several openings in very large quantities, at a temperature of 82 degrees, Fahrenheit. It is charged with nitrogen gas, in, probably, a larger degree than any other mineral water. This gas is presented in water which has, otherwise, alkaline, earthy, and saline properties; and is remarkably detergent and softening to the skin when used as a bath; while it is free from odour or disagreeable taste, is clear and bright in its appearance, and of a singularly beautiful faintly-blue colour.

The medicinal action of the water, whether used as baths, or drunk, has been from time immemorial known to be great, in relieving or curing all conditions of a rheumatic or gouty character. It is stated by Dr. Jones, so long ago as the year 1572, that it was then used for the relief of the same ailments as it is at the present time.

Dr. Jones says, that in his time Buxton was much resorted to by poor afflicted persons; and towards the end of the 16th century, this was considered to be so serious an injury by the inhabitants of the adjoining chapelry of Fairfield, as to render them unable to provide funds for the maintenance of their chaplain, by reason of the urgent and continued claims of the many poor sufferers resorting to the Buxton Baths, as set forth in a petition on this matter addressed by them to Queen Elizabeth. These poor persons had been from time immemorial so far aided, as to have had gratuitous baths of the mineral water provided for them; and there seems to have been a fund called the "Treasury of the Bath," by which their pecuniary necessities were more or less ministered to. Dr. Jones writes, in reference to this fund, what may be quoted in this place:—"If any think this magisterial imposing on people's pockets, let them consider their abilities and the sick poor's necessities, and think whether they do not in idle pastimes throw away in vain, twice as much yearly; it may entail the blessings of them who are ready to perish upon you, and will afford a pleasant after-reflection. God has given you physic for nothing; let the poor and afflicted (it may be members of Christ) have a little of your money,—it may be the better for your own health; Heaven might have put them in your room and you in theirs; then a supply would have been acceptable to you."

Beyond this somewhat vague earlier history, there is no record of the Buxton Bath Charity until the year 1785, of which date there is extant at the Hospital, a document (*vide* pages 37-38), apparently an annual report of the Institution, from which time the use of the baths and waters and pecuniary aid had been regularly given to the poor Patients, until the year 1859, when the Devonshire Hospital was provided for the reception of the Patients.

The air of Buxton, resting on the large area of the mountain limestone and millstone grit formations, at an elevation of 1000 feet and upwards above the sea level, must be an important factor in enhancing the health advantages of the situation of the Hospital; and the sanitary position that has been secured by the efficient drainage and sewerage of Buxton, and its conveyance to a distance from the town; and complete chemical defœcation, and the destruction of all remaining refuse in a powerful furnace, must have completed the sanitary advantages, and lessened beyond calculation the risks of zymotic or epidemic disease. The reduction of the yearly death-rate to one or one-and-a-half per cent., as recorded by Mr. Frederick Turner, the Medical Officer of Health, is the well-earned result of the well-devised action of the Buxton Local Board.

It has been gathered from the annual reports that, in the eighteen years, from 1820, 14,906 Patients were admitted to the benefits of the Charity; of which number, 12,608 were discharged as cured or much relieved.

In the twenty following years, from 1838 to 1858, 23,319 Patients were admitted; and of these, 16,575 were cured or much relieved; 5859 were relieved in some degree; and 885 were no better at the time of discharge.

The Devonshire Hospital was opened for the reception of the Patients of the Charity, in the year 1859. It is the successful result of the conversion of a very extensive range of buildings, erected and used as stables since the commencement of the present century. The structure, which is of an important and substantial character, surrounds a parterre of considerable extent, and contains a colonnade of handsome proportions, is situated on a commanding eminence, presenting views of the town and valley of Buxton, and is near to the baths, the railway stations, and the principal buildings. It is curious and interesting, that in what purports to be the first volume of a work, entitled "*Les Delices de L'Espagne et du Portugal*," dated 1707, plate 495, is an exact representation of the interior area of the Devonshire Hospital. (*See frontispiece.*) The plate is inscribed "*Palais des Rois Chrétiens à Granade, vu par dedans de la Cour.*" It does appear to be an extreme turn of what we may surely think to be Providential fortune, that such a building should have been

used as the design for stables, and the stables have become, little more than half a century after erection, a Hospital for the reception and care of the poor afflicted sufferers, resorting to Buxton for the use of its mineral waters.

From the year 1820, then, to the beginning of September, 1858, when the Hospital was opened, or in 38 years, the Institution had received 38,225 Patients; of which number 35,042 were beneficially treated, and 2183 were very partially if at all relieved. During those 38 years, the Buxton Bath Charity received, on an average, upwards of 1000 Patients every year, and afforded cure or marked relief to 922 of that number. To a very large proportion of this important number of poor sufferers, chiefly from chronic rheumatism, the Charity gave a weekly allowance of 6s. during their stay in Buxton, in addition to all other benefits; until the funds became so seriously impaired, that the weekly money allowance was necessarily reduced to 5s., at which sum it remained until the opening of the Hospital. From the time of reducing the weekly money allowance, the pecuniary prosperity of the Buxton Bath Charity may be dated. The funds accumulated year by year, until the time of rebuilding the Buxton Baths, on the part of the 6th Duke of Devonshire, when a capital of nearly £3000 had been gathered together by the scrupulous management of the Trustees. The names may be mentioned, first and particularly, of the late Bishop Spencer, at one time a trustee, and incumbent of Buxton, and more recently one of the Vice-presidents of the Hospital; of Mr. Heacock and Mr. Smithers, its successive Treasurers; and of Sir Charles Scudamore, Dr. Robertson, Mr. Page, Mr. Cumming, Dr. Carstairs, the Rev. R. P. Hull-Brown, and the Rev. the Honourable F. R. Grey, as being no longer alive to witness and take part in the present development of the Charity. Of these £3000, £500 was judiciously expended on the rebuilding of the Charity Natural Baths; the large remaining sum which those Baths cost, and the whole cost of the Hot Baths of the Charity, having been paid by the munificence of the 6th Duke of Devonshire. Again, in 1853-4, when the proposal of a Hospital to receive the Patients of the Institution was brought before the public by Mr. Smithers and the other Trustees, the sum of £1000 from the accumulated fund was given towards the Hospital; leaving a residue of £1500 Consols, which sum remains thus invested. (See Estate Account.)

The history and doings of the Buxton Bath Charity have thus been summarily brought down to the time of forming the Hospital, the expenses of which were defrayed by the individual and collective liberality of the Trustees; by special subscriptions from the public; by the proceeds of a bazaar, that was bountifully supplied and supported, &c.—a total sum of £6000 having been thus got together, and expended on the conversion of this

valuable building to hospital purposes. This conversion, with its anxious details and successful results, was mainly due to the untiring exertions of the late Mr. E. W. Wilmot, aided by the architectural skill of Mr. H. Currey, and the liberal consideration of the 6th Duke of Devonshire.

During the years 1851 to 1858-9 the office of Secretary to the Buxton Bath Charity was held by the late Mr. James Wardley; and the Secretarial duty, in connection with the large and liberally-supported Bazaar, was willingly and sedulously performed by Mr. Wardley, until the Hospital was instituted.

It forms an interesting episode in this history, that, in the Winter of 1862-3, during what will be long remembered as the Cotton Famine, a special fund was obtained, chiefly by the exertions of the late Mr. Wilmot; and 100 young women, under 30 years of age, selected by the Relief Committees of their respective towns, as being most likely to be benefited by the change of air and the comforts of the Hospital, were received and taken care of, as to food and as to medicines, and restored to their homes in the subsequent Spring, with renovated health and strength, and full of gratitude for what they had received. The balance of the subscriptions, amounting, with interest, to £256, was invested as a separate fund for ever, to enable poor female operatives from factory towns to be received into the Hospital.

A very important circumstance in the history of the Hospital is, that the grounds in front of it were, with much kind consideration, made over to the Institution on the part of the late Duke of Devonshire; maintaining the detached position of the building, enhancing its appearance, and adding to the outdoor advantages of the Patients.

The building is the property of His Grace the Duke of Devonshire; and the conversion of it to the use of the Hospital for ever, was benevolently granted by the 6th Duke of Devonshire, as testified on the stone on the south front of the building, on which is inscribed: "The last munificent Charity of William Spencer, the 6th Duke of Devonshire, K.G., who allowed these buildings to be converted to the use of the sick poor, January, A.D. 1858." A considerable sum of money that had been collected for the construction of the Hospital was expended upon the work. The walls and roof of the structure were fortunately found to be in good preservation; the interior was entirely removed and re-arranged; the subsoil carefully taken away; and about two-thirds of the building occupied for the purposes of a Hospital, and by a chaplain's house, a dispensary, and a dispenser's apartments, a house for the master and matron, kitchen, day-rooms, dining-hall, and spacious dormitories; affording separate beds for 120 Patients,

in addition to the beds provided for cases of accident, and in addition to the rooms required for the servants of the establishment.

During the year 1868, a legal Conveyance of the buildings and grounds of the Hospital was given to the Trustees by the late Duke of Devonshire, at the nominal rent of five shillings yearly; on the condition that they shall be used exclusively for the purposes of the Charity. (A copy of the Conveyance is appended at page 30.)

During the year 1872, the Chaplain's house was converted to the general purposes of the Hospital; the number of beds for Patients was raised to 150, and better accommodation afforded to the Out-Patients, Dispensary, &c.

During the year 1878, a legal Conveyance of additional buildings and ground was made by the late Duke of Devonshire. This addition was acquired by the Trustees, to enable them to accept a proposed grant from the Cotton Districts Convalescent Fund for the extensions described below. (A copy of this Conveyance will be found at page 32.)

During the same year, 1878, the land and buildings of the Charity Hot Baths were legally conveyed by the late Duke of Devonshire to the Trustees, at the nominal rent of five shillings yearly. (A copy of this Conveyance will be found at page 34.) An undertaking was entered into during the same year, by which the Charity Natural Bath is held by the Trustees under a nominal rent of five shillings yearly.

During the forty years since the Hospital was opened, there have been 76,439 Patients under treatment, of which number 68,164 have been treated beneficially; and 9521, or about one-ninth of the whole, were not suffering from any of the forms of rheumatism, but were such cases as are ordinarily met with in hospitals. On the average of the forty years, the Patients remained under treatment nearly 24 days; and 66,911 cases of rheumatism, embracing every conceivable variety of this obstinate disease, were thus extensively relieved by the remedial agency of the Buxton mineral waters.

During the year 1881, the great extension works of the Hospital were practically completed, and the Hospital was formally opened by the Patron, His Grace the late Duke of Devonshire, and the Governors of the Cotton Districts Convalescent Fund, on the 11th of October. The accommodation for the additional number of Patients, under the grant of £24,000 from the Cotton Districts Convalescent Fund, was obtained by the removal of the two walls which traversed the entire circuit of the main building, and formed the corridor communicating with the various wards; the whole space from the outside to the inside of the building was thus thrown open, and inner and outer

windows supplied to all the wards ; the internal area was thus increased very greatly, and ample space provided for wards and day-rooms to receive and accommodate the 300 Patients. But an independent means of access to all the rooms of the Hospital was rendered necessary in consequence of this arrangement ; and this was obtained by covering the large area of the interior, and giving access to the ground floor rooms from the floor of the inner basement, and to the rooms of the upper floor, from a gallery above this. This arrangement has, however, not only supplied the means of access to all parts of the Hospital, but has enabled all the wards to be practically detached from one another, almost giving the advantages of the deservedly praised pavilion principle of hospital construction ; while it has facilitated the ventilation of the whole building to an important degree, and increased the free and ready admission of light to every part of the interior. The gallery has with much ingenuity been constructed exclusively of bricks and iron, by which it has been rendered entirely fireproof, giving all possible security in the event of fire. The great, covered, dry, warmed area of half-an-acre, canopied by the largest dome that has ever been erected, supplies very obvious and valuable contingent advantages for the recreation of the Patients in all cold or doubtful weather ; advantages which must represent a value to the afflicted and often crippled inmates, beyond any calculation. As the whole of the main building is now devoted to the Patients of the Hospital, new buildings have been erected on the north side, for all purposes that might be desirably detached, such as kitchen and kitchen offices, laundries, engine rooms, cellars, storerooms, bedrooms for household servants, separate wards for accident cases, and rooms for the immediate isolation of any cases of infectious character that might become manifested. The extensions were carried out under the architectural superintendence of Mr. R. R. Duke. The £24,000 expended from the Cotton Districts Convalescent Fund give a prior claim on the 150 additional beds to the nominees of the Fund ; and these beds have been allotted to the principal Hospitals within the area of the manufacturing districts. It cannot but be a subject of much regret that the extension has cost a larger sum than the grant by nearly £9000, besides the £5000 paid for the land and premises for the Hospital Extension. It is of evident importance that this outlay should not be left as a charge on the means and resources of the Hospital.

During 1896, the Terrace surrounding the Hospital building has been laid down with asphalt, rendering this extensive promenade available for Patients whose ailments have hitherto debarred them from taking exercise thereon owing to the irregularity of the gravelled surface, and its condition after rains.

This Prefatory account has seemed to be needful, for the information of those not already acquainted with the nature and merits of this Institution.

W. H. R.

A Clock Tower was erected in 1882, over the principal entrance of the Hospital, by subscriptions specially given for this purpose; the late Duke of Devonshire contributing the sum of £200 thereto, and also presenting a clock, with Cambridge chiming apparatus, and four illuminated dials, at a cost to His Grace of £500. The expense of lighting this clock, during the hours of night, has been kindly undertaken by the Buxton Urban District Council. It was intended that a portico of architectural character should have been erected as an ornament and protection to the principal entrance; but funds were not forthcoming. Such a completion is evidently desirable, and is commended to the kind consideration of munificent benefactors. It is needful to the architectural completion of the exterior of the Hospital.

The general wish which was expressed that the successive Patrons and Presidents and Vice-Presidents, the Trustees and members of the Committee of Management of the Buxton Bath Charity, and more recently of the Devonshire Hospital, should be requested to present photographic copies of their portraits of suitable size and plainly framed, to be hung on the walls of the Board Room of the Hospital, as an interesting record of its history, benefactors, and executive friends, has been attended with marked success, and more than fifty of these photographs are now displayed in the Board Room. Photographic portraits of the fifth, sixth, seventh, and present Dukes of Devonshire, the successive Patrons; and of the late F.M. Viscount Combermere, and the present Duke of Rutland, the Presidents, have been presented; and those of the remaining Vice-Presidents, &c., not hitherto obtained, will be most gratefully received. The walls thus decorated are a signal and permanent record of numbers of deceased friends and benefactors, and must be a constant record of the grateful sense of priceless services, and be the contemporary record of the friends who are still working and striving for its advancement and history.

REPORT
OF THE
COMMITTEE OF MANAGEMENT
OF THE
DEVONSHIRE HOSPITAL
AND
BUXTON BATH CHARITY,
FOR THE YEAR 1898.

GENERAL.

The success which continues to mark the work of the Devonshire Hospital proves indisputably the powerful action of the Buxton waters and the pure mountain air of the surrounding district in cases of gout and rheumatism and affections allied to these distressing complaints. The growing popularity of Buxton itself shews that these gifts of Providence are appreciated and taken advantage of by thousands of sufferers from every part of the world. It was a happy thought that inspired the founders of this Institution to bring within reach of the poorer classes the benefits which accrue from a stay in Buxton and the properly regulated use of the Waters. Following the example of the Devonshire family by whose liberality the Hospital was created, the Governors of the Cotton Districts Convalescent Fund by appropriating for the purpose during the years 1879 and 1880 an amount of £24,000 made it possible for the Trustees to establish on a sound basis this important Hospital, which has since its foundation given untold relief to numbers of those whose position in life would have otherwise prevented them from coming to Buxton. The building itself, not only handsome in appearance, but also commodious and surrounded by beautiful grounds, is unlike any institution of its kind in the kingdom, and the large dome, enclosing an area of many thousands of

square feet, being heated to a regular temperature, enables the Patients to take a proper amount of exercise in all weathers.

ACCIDENT WARDS.

Since our last Report the work of establishing Accident Wards and Operating Room, with every modern appliance, has been taken in hand. Subscriptions to the fund for this purpose have been most generously provided, and the alterations necessary are making rapid progress. Although this cannot be said to form part of the work of an institution for the treatment of gout and rheumatism it has long been felt that the requirements of a rapidly-growing population whose employment renders them especially liable to serious accidents, should be fully met, and the Sub-Committee appointed for the purpose are thankful to say that there is every prospect of the wards being opened free from debt. To Dr. Dickson for his constant supervision, to Mr. Duke the architect, and to all those who have so kindly supported this object the Committee of Management tender their grateful thanks.

WINTER TREATMENT.

During the late Autumn and early part of the Winter the admissions have been larger than usual, and this is, no doubt, due to the fact that Subscribers are beginning to see that a visit to the Hospital during this period is quite as beneficial as at other times. The large number of Patients sent during Summer gives rise to much inconvenience to both Patients and Officials; it is much to be desired that the recommendations should be spread more evenly over the twelve months.

ENTERTAINMENTS, &c.

Many residents and visitors have, from time to time, given entertainments in the Women's Day-room. Anything in the form of a musical afternoon is a boon to the Patients, giving welcome variety to their stay in the Hospital, and, by brightening their lives, helping them to bear more patiently the terrible suffering which many of them have to endure. The Committee thank most heartily all those who have given their services in this direction, and invite the assistance of others who have the ability and desire to help. The piano, kindly presented some time ago, is now far worn, and a new one would be a most acceptable gift.

RELIGIOUS SERVICES.

The chaplain, or some person by his authority, conducts a short service of prayer morning and evening. A service is held on Sunday, and others at various times. It is needless to say

that many of the Patients gladly avail themselves of the opportunities offered, and, no doubt, derive much solace from these services. An organ, a present to the Institution, helps greatly in the reverent conduct of these services.

STATISTICS.

During the year 1898, 2936 In-patients have been admitted, being 167 more than the number received in 1897. Of these, 2574 were discharged as improved, 226 as no better, 27 at their own request, 10 as unfit cases, 7 for misconduct, 2 as infested with vermin, 2 died, 6 left without report, and 82 remained on the books on December 31st. When the serious nature of many of the cases is considered it must be granted that the work done is most satisfactory. It is often difficult for Patients to find the means necessary for their journey to Buxton, especially those who come from some distance. It is gratifying to note the good work done in this direction by the Charity Organization Societies of the larger towns; but for the help of these Societies in providing a portion or the whole of the railway fare many of the working people who obtain recommendations could not come to the Hospital. Any sums contributed to the Samaritan Fund, available for Patients' return fare, will be gladly received by the Secretary. To Subscribers who look upon the Devonshire Hospital as a local Institution it may be a surprise to know that less than 50 of the Patients belong to Buxton and the district embracing the villages of Fairfield and Burbage; and that this number includes the accident cases. Every town of importance in the United Kingdom sends its quota of Patients, and numbers come from the outlying villages.

The Committee of the Cotton Districts Convalescent Fund have sent during the year 487 Patients, being 78 more than during the preceding year. The Patients coming from these districts are greatly benefitted by a visit to Buxton, as constantly working in a close moist atmosphere helps to produce many of the worst forms of rheumatic and gouty disease. The rest, good well-cooked food, and the curative effect of the Buxton air and waters, conduce to a rapid improvement in their condition, and often bring about complete restoration.

Once more the Committee earnestly request Subscribers to see that their Patients fill in and return the postcards they receive when leaving the Hospital, as it is necessary to learn their state six weeks after leaving, if the Medical Staff are to form a proper judgment of the effect of the treatment in their cases. The cards returned during the year record improvement in no less than 1729 cases; 605 are reported as no better, and 5 as having died. These figures the Committee consider to be most encouraging.

The number of Out-patients under treatment during the year was 218. Of these 152 were discharged as improved, 11 as no better, 2 at their own request, 1 was transferred to the In-patients' department, 45 left without report, and 7 remained on the books on December 31st. It is most desirable that Out-patients should report their condition on leaving; otherwise it is impossible to form anything like a reliable estimate of the result of their connection with the Hospital.

The average number of Patients daily in the Hospital has been 179·3. There were 69·2 beds occupied in January, 108·5 in February, 132·4 in March, 152·3 in April, 235·2 in May, 243·1 in June, 254·4 in July, 269·9 in August, 260·4 in September, 218·9 in October, 120·4 in November, and 82·5 in December.

The average cost per diem of each In-patient has been 2s. 0½d., being 2¾d. less than last year. The average cost per week of each Patient has been 14s. 3¼d., and for the three weeks term £2 2s. 9¼d., being 5s. 0¾d. less than the cost of the same term last year. It is found to be most difficult to keep the expenditure of an institution of this kind within uniform limits. Generous diet is necessary, the bathing establishment absorbs a large sum (£373 14s. 4d. during 1898), the cost of service and nursing, and the bills for drugs and surgical appliances are sometimes very heavy; the expenditure on the fabric in repairs and improvements, and on the furniture and fittings, is variable, but always considerable. The Committee desire to keep down the expenditure at as low a point as possible, but they feel that the efficiency of the Institution is of the highest importance.

FINANCE.

The position of the Hospital financially continues to be fairly satisfactory. The Committee feel that they have great cause for thankfulness that they are able to carry on this noble work without making special appeals to the public. The Annual Subscription of one guinea is quite inadequate, and the Hospital depends more or less upon donations and legacies which are so generously bestowed by various donors.

The Revenue Account for the year ending December 31st, 1898, is submitted, together with the Estate Account and general Balance Sheet.

From the following sources of income there has been an increase on the receipts of last year, viz. :—Annual Subscriptions, Donations, Hotels and Boarding Houses, and Interest; from other sources the income has been fairly proportionate.

His Grace the Duke of Portland has again generously contributed a donation of £55, from the sums received from Visitors at Welbeck Abbey.

On the Estate Account, a Legacy of £1000 has been received from the Executors of the late Mrs. Howard, of Blackpool; this, with the seven Life Subscriptions received during the year, will be duly invested.

The Annual Statements of the Wilmot Relief Fund Account, and the Samaritan Fund Account, are also submitted. Under the first of these, several very deserving cases have been received into the Hospital during the year; and, under the latter, 31 poor and almost destitute Patients have been assisted with their return railway fare, or necessary clothing, on their discharge. £11 13s. 3d. has been thus disbursed during the year, and £6 7s. 1d. of this has been returned by the Patients or their friends. Contributions to the Samaritan Fund are earnestly solicited.

OFFERTORIES IN CHURCHES.

The total sum received from Offertories and Collections in Churches and Chapels has been £144 2s. 10d. Of this sum £98 15s. 11d. was from St. John's, St. James', and St. Anne's Churches, Buxton. The preachers on Hospital Sunday were as follows:—St. John's Church, the vicar, the Rev. C. C. Nation, M.A., and the Rev. W. H. Oxley, M.A.; in St. James' Church, the Vicar, and the Rev. J. Bryan Allen, M.A.; St. Anne's Church, the Rev. J. T. Mumford, M.A.; Burbage Church, the Rev. C. L. Currey, B.A.; Trinity Church, the Rev. C. S. Green; St. Anne's Catholic Church, the Very Rev. J. T. Canon Hoeben; Congregational Church, the Rev. R. Rew. Offertories, etc., were also received from Wesley Chapel, Buxton, Devonshire Park Chapel, Buxton, Primitive Methodists, Buxton; and from Over Tabley, New Mills, Ellastone, and Ashover Churches.

VOLUNTARY AID.

The Committee gratefully acknowledge the aid given to the Institution by many outside agencies in Buxton, year by year. The proprietors of some of the Hotels, Boarding Houses, and Lodging Houses have materially assisted its funds by obtaining contributions from Visitors. The Directors of the Buxton Gardens Company, Limited, have allowed a Donation Box and a box for the reception of newspapers to be placed at the entrance to the Pavilion; the Directors of the Palace Hotel Company, Limited, have allowed a Donation Box to be placed in the entrance hall of the Hotel; the Buxton District Council has allowed a box for the reception of newspapers to be placed in the Pump Room; the proprietors of the local newspapers have inserted gratuitously, the annual, quarterly, and weekly reports, and the meteorological reports.

The gratuitous services of the Honorary Medical Officers, the Dental Surgeon, the Honorary Chaplain, and the House Visitors, also demand the best thanks of the Committee. The Committee desire also to thank most heartily all the Officials of the Hospital for their assiduous attention to their duties.

GIFTS.

The Committee gratefully acknowledge the receipt of gifts of warm clothing for the use of poor Patients from Mr. J. M. Birley, Mr. W. H. Jackson, Miss Luck, Miss Norah Luck, Mrs. Mothersill, Miss Osmond, Mrs. Machin, Miss Squires, Miss Vernon Wentworth, the Derby and Derbyshire Needlework Guild; of presents of game from Mr. V. C. W. ELECTIONS.

Mr. Henry Shaw has been unanimously re-elected Chairman of the Board of Trustees and Committee of Management.

The Sheffield and Rotherham Joint Stock Banking Company have again been unanimously re-elected Treasurers of the Hospital.

The Chairman is *ex-officio* a member of the House Committee, and Mr. Duke, Mr. Walton, Dr. Dickson, Mr. Josiah Taylor, Mr. E. C. Milligan, Mr. J. H. Orme, Mr. F. Turner, Mr. T. H. Lowthian, and Mr. F. Drewry, have again been unanimously re-elected members of this Committee.

BUXTON BATH CHARITY, A.D. 1785.

COPY OF REPORT OF THE CHARITY,
FOR THE YEAR 1785.

*The Original is in the Hospital, and was presented by Dr. Robertson,
December 29th, 1871.*

B U X T O N .

RESOLUTIONS by the Stewards of the several Houses at Buxton, on behalf of the Contributors to the Charitable Fund established here, for the better regulation of the Charity, made September 13th, 1785.

1st. As to the Contribution.

WHEREAS, at the commencement of this Charity, in the year 1779, instituted for the purpose of rendering the Beneficence of the Noble Proprietor and his Ancestors (in setting apart a Bath for the Use of the Poor) more extensively beneficial; two Stewards were appointed in each House kept open for the Reception of Company to receive a Contribution of One Shilling only, from each Person residing in such Houses, for the Benefit of the Charity. And upon the Departure of one of the Stewards, the departing Steward hath nominated a Successor; and in order to ascertain the Sums contributed, the Stewards for the Time being, at each House, have kept a Subscription Book, in which the Contributors have respectively written their Names and the sum of One Shilling opposite thereto; and as the Subscriptions have amounted to competent Sums, the Stewards have paid over the same to Mr. Samuel Buxton, Apothecary, in Buxton, as Treasurer, to be applied by him towards the Aid and Support of the Poor, whose Infirmities have caused them to come to Buxton for the Use of the Waters; for which Sums the said Mr. Buxton hath signed Receipts in the Subscription Books. Resolved that such practice be continued, and that no Person be permitted to subscribe a greater Sum than One Shilling in the books; and that the Receipts of Mr. Buxton, or the Treasurer for the time being, in the Subscription Books, be sufficient Discharges to the Stewards for what they receive.

Resolved, That it be recommended to future Stewards to hold an Audit on the 13th of September, yearly, to inspect the Accounts of Mr. Buxton, or of the Treasurer for the Time being, and to state Accounts of the preceding Year in like manner as the Accounts are this Day stated in the Subscription Book at the Hall. And it is declared, that the Allowance of a Duplicate of the Account by any two of the Stewards, under their hands, shall be a sufficient discharge to Mr. Buxton, and all future Treasurers.

Resolved, That all future contributors to the Charity do subscribe thereto upon the terms of these Resolutions.

2nd. As to the Admission of the Objects of this Charity.

Resolved, That no Inhabitant of Buxton, Fairfield, or of any place within Seven Miles distance from Buxton, be admitted to partake of the Charity; nor any Person be relieved during the months of November, December, January, February, March, or April; and that during the remaining six Months of the Year, not more than sixteen Objects, at one Time, be relieved by the Charity. And that no

Person shall be admitted on any other Day than Monday in every Week, between the Hours of eight and twelve in the Forenoon; on which Day, during such Hours, the weekly allowance to each Individual shall also be paid.

Resolved, That before the patient intending to take the benefit of the Charity be removed from where he or she dwells, Mr. Buxton, or the Treasurer for the Time being, be applied to by Letter, Postpaid, signifying such Intention, mentioning the Patient's Name, Place of Abode, and Nature of the Disorder; and that no Person be admitted unless there be a vacancy in the Number of Sixteen, and unless he or she first produces to the Treasurer his own Letter written in answer to such Application, and also a Letter of Recommendation from some Lady or Gentleman, resident in the Neighbourhood, certifying whether the Patient is relieved by his or her Parish, or not, and if not, whether he or she is a proper Object, with Respect to Circumstances; and in case he or she is a Pauper, relieved by the Parish, then also a Certificate signed by the Churchwardens or Overseers of the Poor, that the Pauper's Settlement is in the Parish from which he or she is sent; and also a Certificate from a Physician or Apothecary, that the case is proper for the Buxton Waters

Resolved, That the Names and Places of Abode of the Objects admitted, be entered by Mr. Buxton, or the Treasurer for the Time being, in a Book (of which Book each Contributor is to have free Inspection), with a Description of the Patient's Disorder; and after his or her Discharge a Minute of the Consequence of the Use of the Waters.

3rd. As to the Application of the Charity Fund.

It being the Intention of the Contributors, that the Money arising from the Contributions, be in every Case applied for the purposes of supplying the Patients during their Stay at Buxton, with Board, Lodging, and Medicines only; all Ladies and Gentlemen recommending Patients, and all Churchwardens and Overseers giving Certificates, are therefore particularly desired to take notice, that in Case the Patients shall be admitted to partake of the Charity, and shall die in the Parishes of Buxton or Fairfield, or in any Place within seven Miles Distance from Buxton, before he or she shall have actually returned to his or her own Parish, such Persons recommending, and such Churchwardens and Overseers certifying, shall be liable to pay the Expenses of the Funeral of such Patients respectively; and that the Charity Money, on no Account whatever, will be suffered to be applied to defray Travelling Expenses, either to or from Buxton.

Resolved, That no Patient be admitted more than once during a Season, nor be relieved, by the Charity, for a longer space of time than five Weeks, from the Date of his or her Admission, nor with a greater Sum than Six Shillings each Week. But for how long a Time he or she shall be relieved less than five Weeks, or what allowance shall be made him or her less than Six Shillings per Week, shall be at the discretion of Mr. Buxton, or of the Treasurer for the Time being, taking the advice of the resident Physician, or Physicians, on the Case, who it is hoped, will kindly consent to give gratuitous Assistance, when necessary.

Resolved, That Mr. Buxton, or the Treasurer for the Time being, be at liberty to retain all his necessary Expenses, occasioned by the Administration of the Charity, over and above what shall be expended in Board, Lodging, and Medicines.

Resolved, That if any Object receiving the Benefit of this Charity, shall beg or receive Alms, during his or her stay at Buxton, or be guilty of prophane Swearing, Drunkenness, Impertinence, or any gross misbehaviour, he or she shall be instantly (on complaint made) discharged from the Charity.

Ordered, That these Resolutions be printed, and hung up in as public a manner as possible, in the several Houses in Buxton, kept open for the Reception of Company, and wherever Contributions are received; and that the said Resolutions be sent by Mr. Buxton, or the Treasurer for the Time being, to every Person recommending a Patient, as a proper Object to partake of the Benefit of this Charity.
