OPERATIONAL

Navigation Homing Rendezvous Recognition, Ships Communications Flight Operations Search and Tracking Base Operations Maintenance.

At 6700(E), 20 February, 1945, Lieutenant T.A. TURNER, U.S.M.R., took off from CVE-81 for an observation mission over IWO JIMA. His observe was Capt. J.D. COOK, U.S.M.C.R., who sat in the second cockpit which had been expectally prepared for this type of work.

At 0808(II) some medium AA fire was seen to be coming up from area 200%. Bunning from West to Bast to spot this position tracer fire was seen to be coming up ahead of the plane, so Lieutenant TURNER started evasive action with the AA going first to the left and then to the right. Just as a normal run was resumed one shell hit the engine, and not only could a flash be seen, but also the plane got quite a jolt, and immediately started to smoke. Capt. COOK reported the hit as well as the position from which it had come as the plane continued eastward toward the carrier.

Lieutenant TURNER out back to 20" and went into a glide to observe the instruments and try to determine the possibility of getting back to base. Immediately upon advancing manifold pressure to 30" flames broke out from the engine, making an immediate forced landing necessary. Flaps were lowered as well as tail hook, and an easy landing was made into the wind about 500 yards from an LCM.

All occupants got out easily and Lieutenant TURNER was able to step into the inflated raft without getting wet. The plane floated high, so Lieutenant TURNER got back 18 into the plane to recover his parachute and plotting board. Then in returning to the raft he slipped and fell into the water. The plane floated for about three minutes.

Ligutenant TURMER and Capt. COOK, as well as the aircreamen. Robert P. Offo, ARMJo, and Vincent R. GIANNOTTI, AOM2c, were transferred to the U.S.S. ASHLAND, LSD/1, and on 25 February, 1945 were finally returned to CVE-81.

Photographs of the water landing were taken from LSD#1 as well as by the U.S.S. PERRY (DD883) and were forwarded to Pearl Harbor.
