PREFACE

This Gazetteer presents an alphabetical list of names of geographic features of the Caroline, Marianas, Marshall, and Gilbert Islands within the limits shown on the chart following this page.

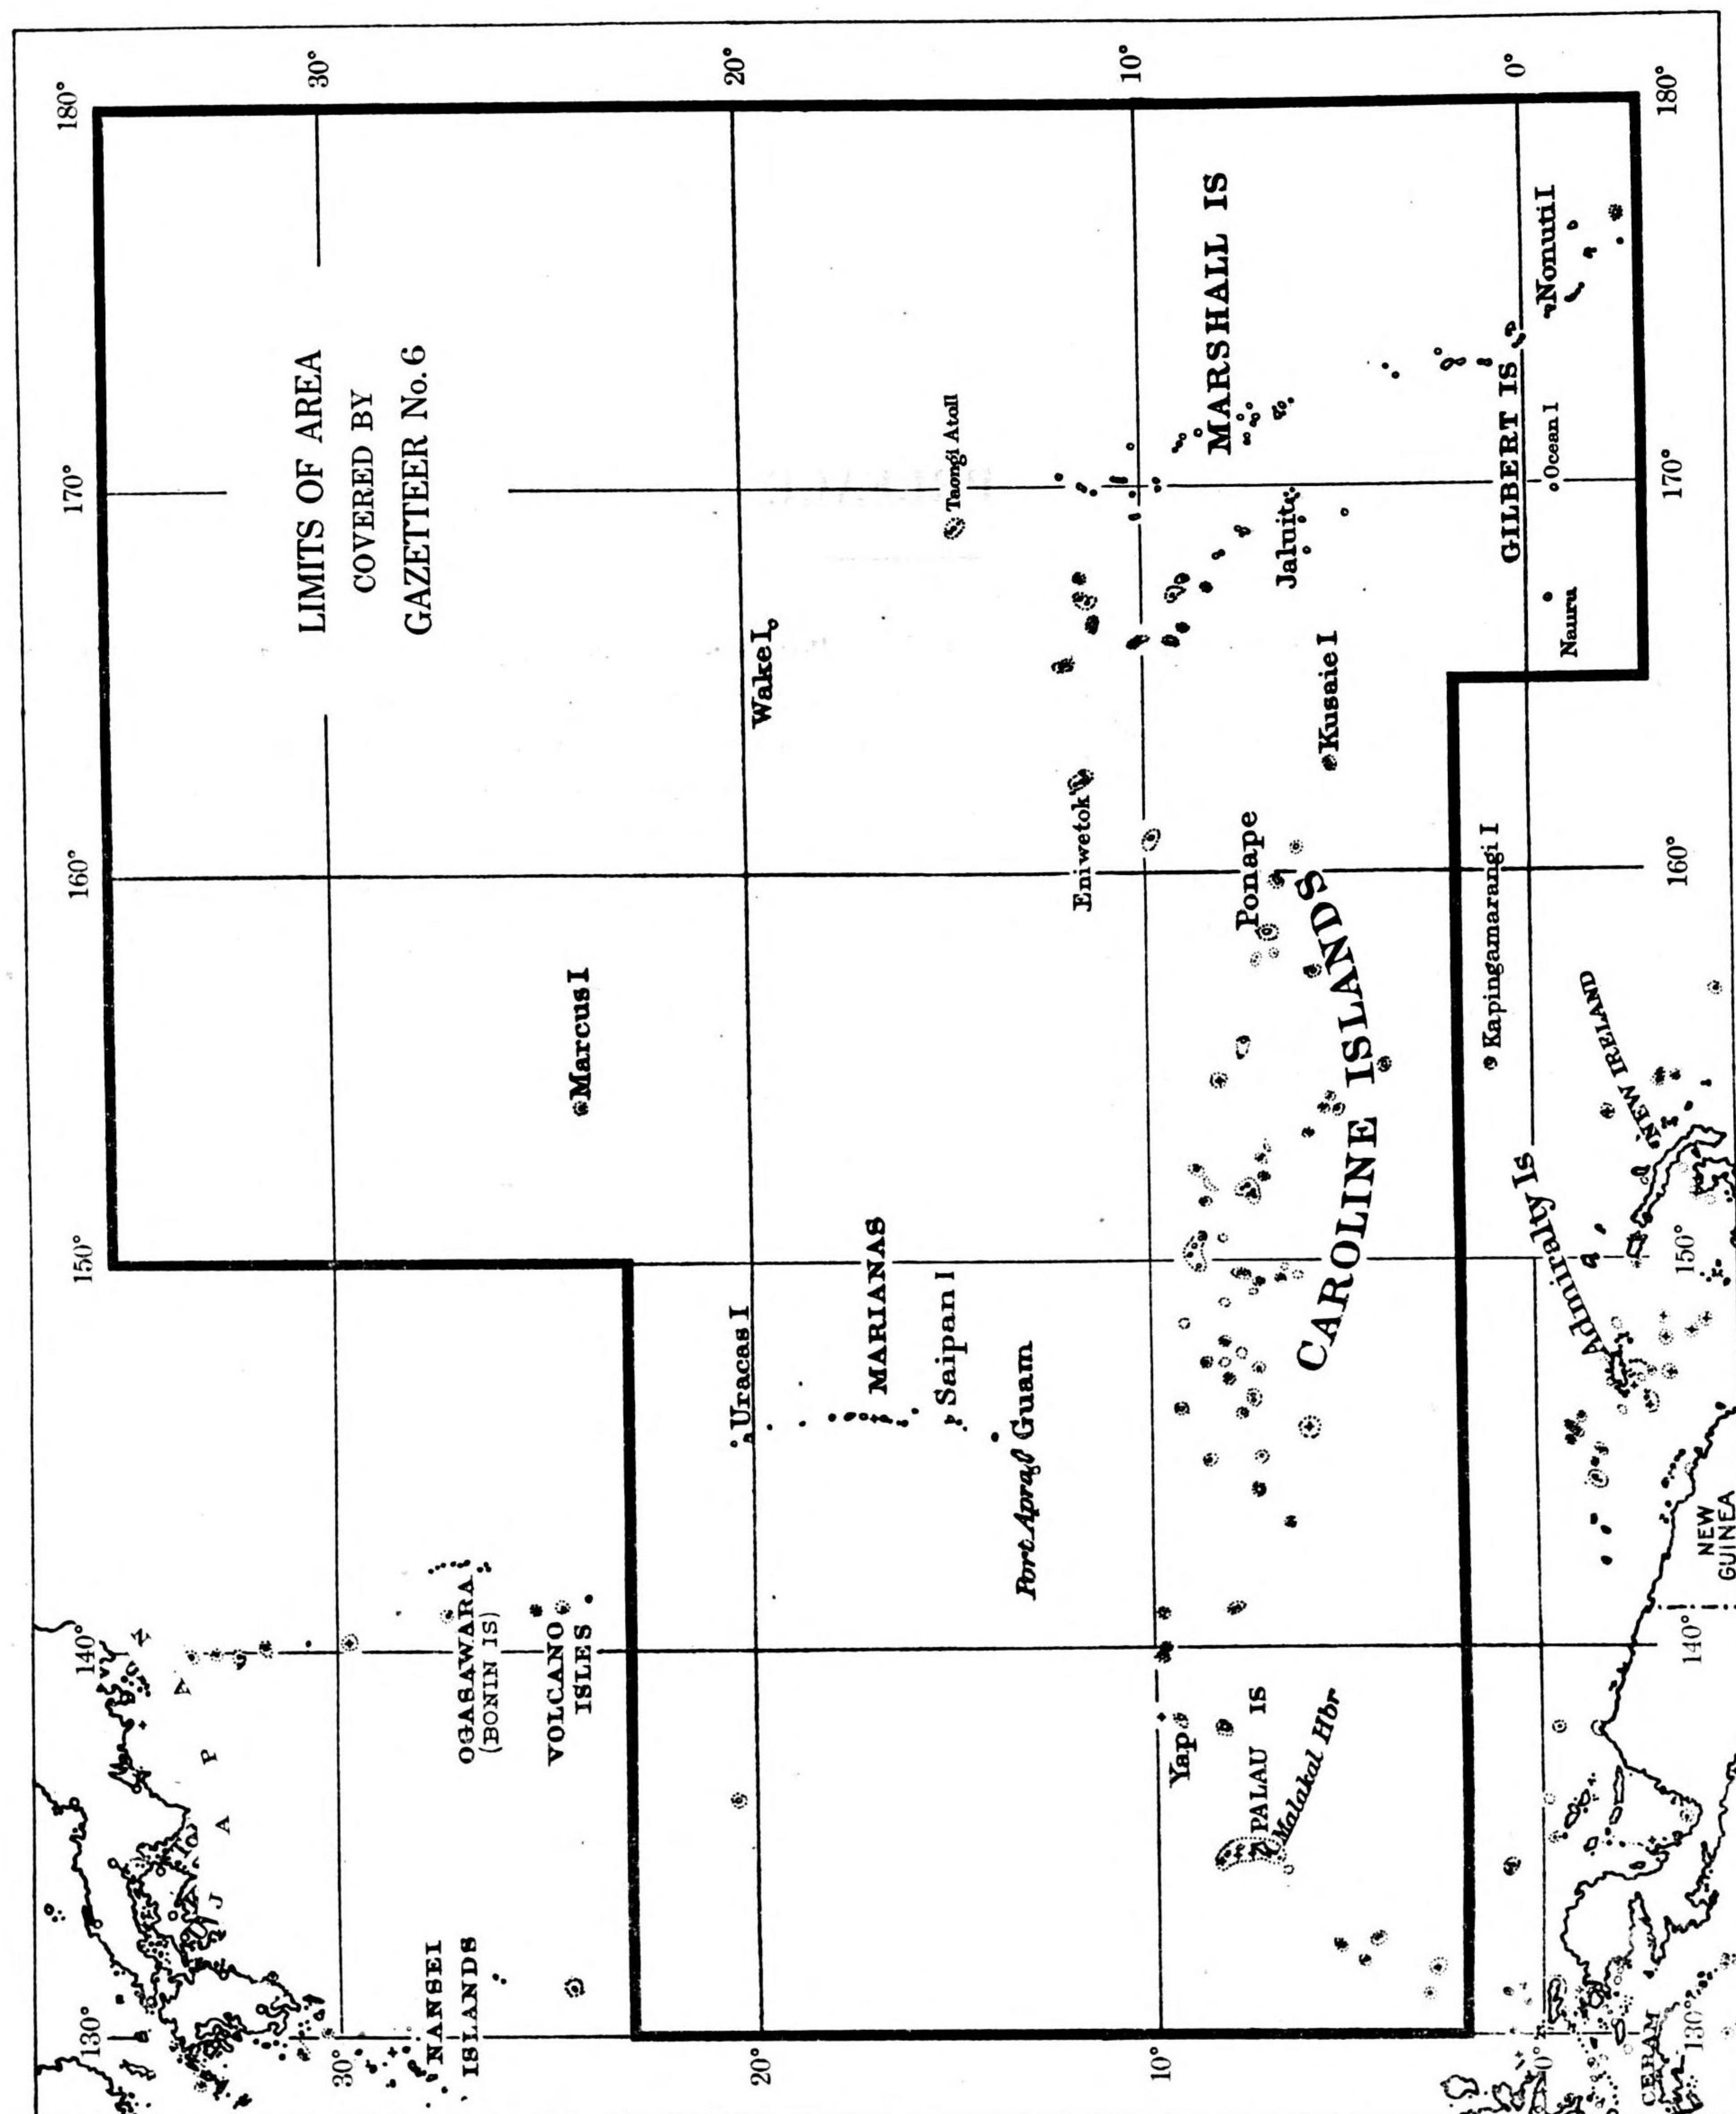

All names listed are transcribed exactly as they appear on the source chart or map. Alternative names are printed in *italic*, but no preference in usage is indicated by distinction in type or arrangement.

The coordinates accompanying each name are obtained from the source chart or map and are given to the nearest full minute unless enclosed by brackets to indicate less precision. All longitudes are from Greenwich. No attempt has been made to reconcile differences in the coordinates of the source material.

Selected charts and maps of the best scale, a total of 201 items, were examined in the preparation of this Gazetteer. This source material is classified as follows:

U. S. Hydrographic Office charts.....	76
British Admiralty charts.....	15
Japanese charts.....	22
German charts.....	4
U. S. Coast and Geodetic Survey charts.....	1
Various maps (principally from Army Map Service).....	83
Total.....	201

It is requested that errors or omissions noted in this publication be referred to the Hydrographic Office, Navy Department, Washington, D. C.
