| Province     | Base of Estimate   |
|--------------|--|
| Kiangsu      | Supposing that the percentage of the cultivatable land left barren to the total area of land as made by the National Agricultural Research Bureau can be used as the percentage of the uncultivated land to the total area of land of the same province, we may, basing on the total area of the province in table 1, estimate the area of the cultivatable land as appears on the left column.  |
| Chekiang     | As Kiangsu.  |

| Hunan        | As Kiangsu.  |
| Szechuen     | As Kiangsu.  |
| Sikong       | Basing on the ratio of the area of the cultivatable land left barren of the province, for 1930, we may reckon the area of the uncultivated land of the same province, for 1942.  |
| Hopei        | As Kiangsu.  |
| Shantung     | As Kiangsu.  |
| Shansi       | As Kiangsu.  |

| Lioning      | Basing on the figure 30,100,870 Kungchin for Manchuria, on page 87, Chap. 2 of "Economics of Various Countries", written by Frederick V. Field, and translated by Wang Cheng-tsu, and on the figure 44.9% of cultivated land to the cultivatable land for 1930, we may reckon 55.1% of the uncultivated land, and the area of 1,658,983,860 Hungmow.   |
| Kirin        |  |
| Heilungkiang |  |
| Juhol        | Basing on the ratio of area of the cultivatable land left barren of 4 Hsien of the province published by the Ministry of Interior 1930, we may reckon the area of the cultivatable land left barren of 16 Hsien of the province.   |
| Chabar       | As Kiangsu.  |
| Suiyuan      | As Kiangsu.  |
| Ninghsia     | As Kiangsu.  |
| Sinkiang     | Basing on the ratio of area of cultivatable land left barren of 41 Hsien of the province, as given by the Ministry of Interior, 1933, we may reckon the area of the uncultivated land of 59 Hsien of the province. Basing on the ratio 1% of cultivated land to the cultivatable land of Outer Mongolia on page 96-97 of "Problems of Outer Mongolia" by Wang Chinyu, and with reference to the chapter on Frontier Economics in "Year Book of Chinese Economics", published by the former Ministry of Industry, we may reckon the uncultivated land as 4,000,000 kungmow. |
