COUNCIL DISCUSSES NORTH WARD PARK

THE COMMITTEE TO RECONSIDER SUBJECT

Sanitary Inspector Wilson walked into the council chamber about five minutes to eight last night and smiled at the atmosphere. It appeared good to him, so after a short sniff, he decided to leave the mayor and aldermen to their business without worrying about the air in the city fathers' meeting.

The stilly air of night was broken by the pellucid tones of the bell, somewhat cracked with an occasional reflex stroke, when His Worship came up the stairs to find an absolutely empty room. It was not for long, however, as the city clerk came along in a few minutes to sustain him, followed in short order by Ald. Goodacre, Fullerton and Vincent. Ald. Hall and Stewart, busy arguing the water question, came in arm and arm, after which Ald. Davey, Douglas and Yates were seated in their seats while the minutes were being read. Without discussion the proceedings of the last meeting, as dictated by W. J. Dowler, were read and adopted. This left only one vacancy for the time being, the seat reserved for Ald. Fell, and the council then got down to business. But Ald. Hall was working overtime. He had some most mysterious invitations in his possession that had to be worked off. One after the other the aldermen said "Nay" when he approached them, but finally he found a supporter in the person of Ald. Vincent, who took one and looked dubious.

The trades and labor council wrote relative to the coming trades and labor congress, and asking the city council to appoint three to sit with representatives from the trades and labor council, the Development and Tourist Association, etc.

Ald. Fullerton moved that the council be represented on the suggested body.

This carried, and His Worship named Ald. Fullerton, Douglas and Stewart as representatives of the city council.

Pemberton & Son asked that the council should not press for the removal of a building owned by their client.

It was decided to allow the matter to stand until it was seen what improvements were made.

F. H. Eaton, on behalf of the Teachers' Institute, wrote inviting the mayor and aldermen to attend the meetings of the institute, particularly that one to be held in the opera house on Wednesday evening to discuss the university question.

The invitation was accepted.

Arthur Lee, for the Metropolitan Methodist church, asked for the removal of a box drain, the trustees of the church being engaged in boulevarding.

It was decided to refer this to the city engineer.

The Development and Tourist Association wrote relative to the proffer of trees to the city by Sir Henri Joly de Lotbiniere. The following resolution was forwarded in this connection:

Resolved, that in view of the gift of trees by Sir Henri Joly to the committee, and the fact that boulevarding the streets is the wish of the citizens, we deem it both expedient and necessary that park commissioners be appointed whose terms of office should be continuous and whose jurisdiction should extend over boulevards and similar street improvements, as well as the park.

We further consider that if power to do so under the present by-law is insufficient, such power should be sought from the legislature at the earliest opportunity.

It was decided to inform the association that the council had taken the necessary steps to refer the matter to the citizens.

P. A. Smart, secretary of the Victoria Sewerage Commission, wrote with reference to the finances, particulars of which appear in another column.

A. Taylor wrote with respect to his patented fire alarm, offering to connect up various public buildings by his system, giving the rates.

Ald. Stewart thought that while the system was a good one for certain classes of buildings, it was not perhaps necessary to have it in ordinary structures.

Ald. Vincent thought it might be a very good thing in the Old Men's Home, where they had no water.

It was finally decided to refer the matter to the committee dealing with the Old Men's Home.

J. Bell wrote asking to have a portion of Johnson street put in shape. He asked that the hay crop on it be cut, as it was in good condition for curing. No labor was put on the street by the city, and the "Lord only knew when it would be improved."

This was referred to the streets, bridges and sewers committee, Ald.

Stewart stating that he knew the street needed attention.

George McIntosh complained of the conditions on Quebec street, laying stress on the presence of a "dirty old Chinaman" living on it.

It was decided to refer this to the sanitary and building inspectors.

George Bishop asked for a cement sidewalk on Garbally road.

Ald. Vincent said this had been included among the streets to be improved.

The city solicitor wrote with respect to the costs allowed in the waterworks case. This was allowed to stand over until the accounts were reached.

The city engineer and city assessor were asked to report on the cost of the street where permanent sidewalk was to be laid on Wharf street.

Ald. Vincent said it was impracticable to have these buildings removed. He thought that the only way was to proceed with the work. The property was the Yates estate.

Ald. Fell thought something might be done to see whether the estate would not make some arrangement by which perhaps a substantial donation should be made.

Ald. Yates said he assuredly held that the buildings were not upon the street. The structures were put up in 1861. At that time the precaution was taken to ascertain the street line, and the buildings were upon the line of the street as it then existed. He further pointed out that the estate had contributed its share to the improvements on the street.

It was decided to allow this work to proceed without taking any steps relative to the buildings.

The building and sanitary inspectors wrote recommending the tearing down of several structures, including the one at the corner of Belleville and Gorge streets.

It was decided to take the usual course with them.

A recommendation was received from the water commissioner to the effect that a better supply should be furnished the Old Men's Home by putting in a 4-inch pipe at a cost of \$1,400.

Ald. Vincent did not know that putting in a 4-inch pipe would give any more water. He thought a tank might be located there. The caretaker complained that at times there was no water.

Ald. Hall thought the isolation hospital should have water.

It was referred to the hospital committee and the Old Men's Home committee.

A petition was received from A. J. Galatley and others praying for attention being given to improving Rockland avenue.

On a motion to refer this to the streets committee, Ald. Vincent said that there was not the money to be expended on improving the street.

Ald. Stewart endorsed this view, and said the petitioners might just as well be informed that nothing could be done unless the residents proposed to have it done by the local improvement plan.

Robt. Swinerton and others asked for a light at the corner of Yates street and Cadboro Bay road.

This was regarded as a very necessary one, and endorsed.

The electric light committee reported that while it was not opportune to put in a conduit across the causeway for telephone wires yet there did not seem to be any reason why the conduits should not be put in on Belleville street.

Ald. Hall explained that the committee thought that it was not advisable to lay a cement conduit across the causeway. There was some danger of it cracking until the causeway settled.

Ald. Vincent called attention to the fact that a 12-inch water main had been laid across the causeway.

Ald. Hall said there was more danger of a cement conduit cracking than there was of a steel water pipe being damaged.

Ald. Vincent did not think there was any greater danger to the conduits than to the water pipes. He moved that the Telephone Company be requested to proceed with work as formerly requested. If it was found inadvisable to put the wires underground over the causeway the work could at least be done on Belleville street.

This was carried.

It was decided on the recommendation of the finance committee that \$100 be given the Y. M. C. A.

Appropriations to the amount of \$3,545 were ordered paid. It was further recommended that \$3,178, the costs allowed by the court, to Pooley, Luxton & Pooley in connection with the water works case, should be paid.

The parks committee recommended the putting of a wire fence to keep people from crowding the foot path at the Gorge, and used for the convenience of bourgeois.

This carried.

The streets committee submitted reports containing the following recommendations:

1. Gentlemen—Your streets, bridges and sewers committee having considered the undermentioned subjects, beg to submit the following recommendations for adoption by the council, namely:

1. Re petition from Dr. Morrison et al for the widening of Oak Bay avenue. Recommended that the improvement be carried out, provided that the whole cost of the same be borne by owners of the property benefited, and that the city engineer be instructed to prepare an estimate of the same.

2. Re communication from James Middleton respecting drainage, Hillside avenue. Recommended that the drains be cleaned out.

3. Re communication from A. Gibson respecting the condition of sewerage on Vining street. Recommended that Mr. Gibson be informed that the same will be remedied in about two months by the extension of the sewerage system.

4. Re Galatley avenue retaining wall. Recommended that Messrs. Haggerty & Co. be required to construct a permanent retaining wall of stone or cement, up to the permanent grade of the street as set by the city engineer, and also a fence on same for the protection of the public.

5. Recommended that the tender of W. J. Walters and William Davies for the painting of Point Ellice bridge for the sum of \$300 be accepted, and the corporation recommended to the contract.

6. Recommended that a sidewalk be constructed on the south side of Fort street, between Richmond avenue and Gorge street, at a cost of \$2,000.

7. Re boulevard in front of the Metro-

politan Methodist church. Recommended that the city engineer be instructed to give the necessary lines, be instructed to subdivide the lots of 27 and 28, section 75, Ferwood estate, owned by G. M. McLaughlin. Recommended that the city engineer be authorized to sign the plan.

8. Re agreement with Major Dupont in respect to sewer frontages. Recommended that the position of his property facing Belmont avenue be colored as requested on the plan.

9. Re completion of Dallas road seawall. Recommended that this work be finished at an estimated cost of \$20,000.

10. Your committee recommend to the council the following resolution, viz:—That the city council hereby determine that it is the desire of the council to lay permanent sidewalks of concrete on the streets and portion of streets mentioned hereunder, the work to be done by day labor and carried out under the provisions of the Local Improvement By-Law:—South Turner street, both sides, from Simcoe street to Dallas road, including boulevard.

Elliot street, north side, from Government street to Douglas street.

Kingston street, south side, from Menzies street to Oswego street.

Central street, north side, from Blanchard avenue to Quadra street.

Figuard street, both sides, from Douglas street to Blanchard street.

Caledonia avenue, south side, from Douglas street to Blanchard street.

Douglas street, east side, from Johnson street to Humboldt street.

St. James street, east side, from Quebec street to Kingston street.

Michigan street, south side, from Government street to Menzies street.

Gorge road, south side, from Government street to David street.

Blanchard avenue, west side, from Pandora street to Quebec street.

Clarence street, west side, from Simcoe street to Niagara street, including boulevard.

Johnson street, south side, from Fernwood road to west line of telephone company's property.

Belleville street, south side, from Belleville street to Quebec street.

Blanchard avenue, east side, from Courtney street to Pandora avenue.

Broad street, both sides, from Yates street to Gloucester street.

Ritner street, north side, from Menzies street to South Turner street.

King street, north side, from Blanchard avenue to Work street.

Work street, west side, from King's road to Hillside avenue.

Douglas street, west side, from Johnson street to Cormoran street.

Pandora avenue, north side, from Government street to Douglas street.

Cormoran street, both sides, from Douglas street to Government street.

School street, east side, from Fort street to Yates street.

Garbally road, north side, between Douglas street to the Gorge road.

Ormond street, east side, between Yates and Fort streets.

The reports were adopted.

Ald. Hall wished to know if anything was being done to settle the street lines in Victoria West. There was a desire to extend the cement paving there and a settlement of the lines was sought.

His Worship said he would inquire relative to this.

A request from Raymond & Son asked that a shed occupied by them should be left standing.

It was decided to leave this on the table, but in the meantime Raymond & Son will be asked what the intention of the firm is with reference to improving the appearance of the shed or tearing it down.

It was decided to ask for tenders for repairs and painting of police court.

Several buildings were by resolution decided to be wiped off the map as unsanitary or unsafe.

The Local Improvement By-Law was then considered in committee.

His Worship wished to know if this could not be boiled down. He favored such a course with all city by-laws.

After some consideration the by-law was left over for further consideration.

The parks committee recommended the purchase of a park site for the North Ward. That portion recommended would require the closing up of the upper end of Princess avenue, and including it in the park. This would cost about \$17,000. The committee recommended the disposal of city property which was not now yielding any revenue, and which if sold would be taxable. This property when sold would furnish the funds for purchasing the North Ward park.

Ald. Yates pointed out that the city council had not made the wisest disposition of the land purchased as a site for the Old Men's Home. It had been used to build the home on the lower ground and use the other portion as a gravel pit. It had been decided, however, to put the home on the

high portion, which did away largely with the opportunity to use it as a gravel pit. He thought it would be wise to sell the portions of the lot not used for the home.

With respect to the sale of the lands in James Bay, His Worship said he had been advised that the wisest course in disposing of the land was to offer it by auction after advertising.

Ald. Yates did not have much faith in getting a good price by auction.

Ald. Fell said he did not agree with selling any part of the site of the Old Men's Home. He had opposed purchasing that site in the first place. He did not favor building on the top of the hill after the lot was bought, but the medical board decided in favor of that location. He favored making the lower portions into a garden now.

With reference to the purchase of a site for a park he preferred to have the citizens decide upon which site should be selected.

Ald. Hall pointed out that by submitting say three locations to be decided by the citizens at a referendum vote there would be danger that a sufficient vote would not be got to decide upon any one lot.

In connection with the sale of the lots in James Bay he believed that the assessor should be asked to put a valuation on the lots as subdivided, and they should be offered for sale. Had this been done there would have been a sale of some of these lots.

His Worship then proposed that the by-law should be submitted asking for a decision as to whether a park should be selected. The decision of the site should be left to be decided by the citizens of North Ward.

Ald. Yates said the site recommended was agreeable to the people of the North ward. There was no doubt it would be accepted by them as the best.

Ald. Stewart wanted the question decided without alternative propositions. The question of a park for the North Ward was the one which should be submitted.

Ald. Davey wanted the report referred back to the committee to be revised. There were too many alternatives in the present recommendations.

Ald. Fell wished to know if it was intended that the site proposed was to be a park if it was decided to get a park.

Ald. Yates said he thought that was the position. This site was known to be agreeable to the citizens.

The report was referred back to the committee.

Ald. Fell on the question of the hours for keeping the public library open read a letter from the librarian, in which the latter withdrew his alternative schedule of hours. That prepared by the library commissioners was then submitted, going away with keeping the library open on Sundays, and giving the librarian 46 1/2 hours a week and his assistant 46 1/2 hours.

His Worship said that it appeared to him that the librarian was more concerned over his hours of labor than over the library.

Some of the aldermen did not think that the council should be asked to take any part in this. It was a matter solely for the commissioners.

Ald. Fell said that the step had been taken to refer this to the council for endorsement in order to do away with the lobbying, which had characterized the librarian.

It was decided to adopt the schedule of hours submitted by the commissioners.

Before adjournment His Worship outlined in a general way the standing of the water supply question. This appears in another column.

The meeting then adjourned.

DANGER IN CORN SALVES.

They usually contain acids and burn the flesh. The one safe cure in liquid form is Putnam's Farmhouse Corn Extractor, which is purely vegetable, causes no pain and cures in one day. Don't forget the name—"Putnam's."

BRIEF TELEGRAMS.

In the Supreme court, Paris, on Monday, Prosecutor General Baudouin began his argument in the Dreyfus case. He declared he was convinced that Dreyfus was innocent and that Major Count Esterhazy was guilty. He therefore urged the quashing of the entire proceedings without a re-trial.

A peculiar elevator accident at an eighteen story building under course of erection at West 23rd street, New York, resulted in the death of Thomas McGarg and the injury of Patrick Joyce and Michael Ward, all workmen. While the elevator was ascending near the sixth floor, the drum slipped and the cage fell a few feet until the clutch brake took hold. The sudden stop threw the occupants out of the cage five stories into the cellar.

Giant heating power pigmy fuel-cost

This furnace is built to get most heat QUICKEST from least fuel, to give least trouble in getting that heat. Its triangular, hollow grate-bars let AIR through the fire all the time—perfect combustion.

Oxford Furnace

Warm air Furnace

Extra big fire feed-door lets you use the cheapest fuel—big coal, rough wood, or waste home. Deep ash-pit, needs cleaning out less often, yet won't fill up quick and choke the draft. Easy to regulate, easy to feed, easy to run, easy to buy—it is surely one GOOD furnace. See it, or send for the book about it.

It gets all the good out of fuel

churches, in its influence upon the lives of future citizens of the country. They have come here to exchange experiences and to listen to the advice of all who have counsel to give. Now is the time for critics to give expression to their views, and we think we can promise those who have counsel to give that what they have to say will be listened to with gladness. Perhaps we might go even further and promise profit to the critics from the discussion.

PREACHING REVOLUTION

Our reasonable and broad-minded comrades of the Socialist party are going ahead with considerable speed on the other side of the line, led by very class-conscious comrades from Victoria. First Mr. Hawthornthwaite, the man who has been of such service to Premier McBride, created a sensation by raising and leading in the cheers for the red flag of freedom after making one of his impassioned addresses to the comparatively conservative brethren of Seattle. The leader's influence has evidently been making an impression here, because we notice that one T. E. Craif, whom the Post-Intelligencer describes as a "youthful-looking social, lat orator," has been endeavoring to incite the fraternity across the border up to the point of blood-letting and revolution.

The speaker, we are told in the report of one of these Sunday meetings, which are beginning to attract the attention of the authorities, advocated the idea that everybody, the workmen, the wage-slaves and the middle classes, should unite with one common purpose—the extermination of the capitalist. His remarks, according to the same conclusion, were applauded heartily by the hundred Socialists in the hall. "Workmen and capitalists, tyrants, cannot live in the same age. If you workmen want to prove yourselves capable of surviving the capitalists, join the revolutionary party. Shed blood if necessary." We have always understood that the comrades of Victoria were inclined to preach the gospel of revolution by peaceful methods. But a great change of styles have evidently been decided upon. Perhaps the cause has not been making satisfactory progress under the original plan of campaign. We shall wait with considerable curiosity to hear what Leader Hawthornthwaite has to say when he takes the stump in anticipation of the provincial election campaign.

THE PRESIDENTIAL ELECTION

William Jennings Bryan is evidently going to be the principal figure in a gigantic presidential boom. Having been taught wisdom in the school of experience at home and learned a good deal during his visits to countries of Asia and Europe in various stages of political and industrial development, it is understood that Mr. Bryan has abandoned all his pet heresies from "sixteen to one" upward and is prepared to conform to the orthodox political faith which is the way of party salvation. Consequently the man from Nebraska looms so big on the political horizon that it has been determined he shall receive a grand reception on his arrival on his native beach or about the 29th day of August next. After the first grand hurrah at New York a triumphal tour of the country will be made and the selection of the Democratic candidate of 1908 will, barring accidents, be practically fixed so far in advance as the year 1906. From the point of view of the hitherto dispirited Democrats there is but one cloud on the political horizon. Mr. Hearst and his batteries of scolding newspapers seem to be displeased with the trend of events. They sought in 1904 to turn the tide against Alton B. Parker. Not succeeding in their campaign, they apparently believed that Bryan being discredited on account of political eccentricities and the judge disqualified by flat failure, a liberal expenditure of money might bring about that which their boss, desired. And now behold Mr. Bryan comes back rehabilitated and is going to be received with loud acclaim as the political Moses of the Democrats. The tide has set so strongly, in fact, that the Hearst wing sees already that there is no room for its leader in the tents of the Democrats. Consequently they have set their hopes upon Labor. They have commenced the campaign already by telling labor leaders in confidence that the time has come for them to come out and be separate from the labor political organizations. They must concentrate their forces. And who so competent to lead them as William Randolph Hearst, the popular politician of true Democratic principles and the tried friend of the toilers? Thus it is practically decided already who shall be the candidates of two of the parties in the presidential election of 1908, the Republicans and Prohibitionists and Socialists; and one or two bye-blows have yet to be heard from. But it is settled that the day of the triumph of the millionnaire yellow-journalist is yet quite a distance off.

British shipowners, or some of them, are protesting that certain provisions of a merchant shipping bill before the House of Commons will mean absolute ruin for them and the speedy extinction of the British carrying trade.

BIOSCOPE ENTERTAINMENT

First Exhibition Will be Given at the Tramway Company's Park on Monday. Although Victoria is not planning any elaborate celebration on Dominion Day—Canada's national holiday is by historic custom not so well Victoria's gala day as is the well loved 24th of May—next Monday will not pass locally without a notable occasion in free public amusement, which citizens are certain to enjoy in thousands. Reference is made to the opening of the London bioscope entertainment which is to be the great evening attraction of the summer months at the George Park arrangements for this constant and already popular amusement enterprise having been completed by the tramway company with Messrs. Gibbons & Denham, of London and exhibited it on its introduction at the Victoria theatre. There it has been shown on several occasions at 50 and 75 cents to crowded houses. The essential dissimilarity between the bioscope and other moving picture entertainments is that the pictures are shown much larger and free from the constant quivering that is so trying upon the eyes.

The programme of picture stories will of course be changed weekly, the views being kept strictly up-to-date, and as the camera is now as indispensable as the reporter's notebook on all notable occasions, Victorians may shortly expect to see re-enacted for their benefit such great events as the San Francisco earthquake and fire, the opening of Russia's first free-parliament, and the marriage and attempted assassination of the Spanish King. There will be an abundance of humorous and general picture stories, as well, and in its entirety the entertainment promises to be an exceedingly one for summer evening diversion. A first class orchestra will play before and during the display of the pictures, and on the whole the tramway company's programme is a most excellent idea of popularizing and crowding their new park during the evenings of the summer now at hand.

As no charge is made in any connection for the entertainment it is to be hoped and expected that the George Park department will be able to do so well that they will "clear" a crowd of 2,000 every hour.

TRADING COMPANY CONTRACT

Letters and Telegrams From Lord Strathcona Read at Meeting of Committee. (Special to the Times.) Ottawa, June 26.—At to-day's session of the public accounts committee several telegrams and letters were read from Lord Strathcona in reference to the North Atlantic Trading Company's contract. His Lordship endeavored to make it clear that he was not in sympathy with the contract although he consented to it and was only acting for the department. He had nothing to do with organizing it. He makes no objection to the government in withholding the names of the company. Upon that point he has nothing to say.

A HAIDA GRAMMAR

Unique Volume Presented to the Provincial Library by the Author. Rev. J. H. Keen. This morning the provincial library was in receipt of an unique volume, a "grammar of the Haida language" by J. H. Keen, representative of the Church Missionary Society at Metlakatla. The book has been printed by the microtype process, very few copies being in existence, and bears the imprint of the Society for the Promotion of Christian Knowledge. Two other books of special interest to students of early history are volumes XI and XII, "The Rise of the U. E. Loyalists" and "The Rise of the U. E. Loyalists" was also received last week. This is the latest work of the Viscount de Fronsac, of Cornwall, Ont., author of the "Political History of Canada" and other well known works. It is published by the British Whig Company, of Kingston, who also announce as ready almost at once "The Empire Beyond the Sea" and "Heraldry in Relation to Art," by the same writer.

AUTOMOBILE CONTEST

Two Accidents During First Day's Racing For the Grand Prize. (Associated Press.) Paris, June 26.—The automobile contest for the grand prize over the course was started at one o'clock this morning. A very large crowd of people was present, and great enthusiasm was manifested. The contest, which is 100 kilometres long, was patrolled by troops. Bays (France) covered the first round in 32 minutes 25 seconds at the rate of 118 kilometres per hour. Duray (France) was second in 52 minutes and 32 seconds. Two accidents occurred during the first round. Fabry (Italy) collided with a wall with the result that his machine was completely demolished, but the occupants were uninjured, and Lehtun (France) was ditched and upset without the occupants of his car sustaining any injuries. Baros covered the second round in 52 minutes 50 seconds. Sizet (France) led during the third circuit

David Spencer Ltd. WESTERN CANADA'S BIG STORE

The Store That Grows in Size, Strength and Spirit of Helpfulness...

WHETHER you come in person, write, 'phone or send your little boy or girl for merchandise, it makes no difference in the quality of the service rendered by the store. Intelligence, impartiality and determination "to do the right thing" are back of every transaction. Orders by 'phone and mail orders are turned over to one of the shoppers in mail order section. These young women go about purely in the interest of the customer. If one article is more desirable than another, one pattern prettier than the rest, inevitably it is the preference that is selected to be sent. There is never question on that point. Indeed, in many cases, because of more intimate acquaintanceship with the stock, our young women are enabled to make better selections than customers themselves. The throngs that daily fill the store are a wonderment to many. He who thinks, knows that such a condition is not by chance, but the result of long years of business building on the side of solid service to the public.

Made in Canada Souvenir Goods Boys' Blouses and Wash Suits Outing Boots Outing Shirts Hammocks Boys' Belts

steadily increasing his lead and won the day's racing in 5 hours 45 minutes, 20 2-5 seconds. Clement (France) was second in 6 hours 10 minutes 10 seconds. Sizet was enthusiastically greeted. The racers will start again at 6 o'clock tomorrow morning. France has 25 entries, Germany three, and Italy six in the Sarthe contest. The course must be covered twelve times. The cars running six hours daily for two days to complete the total distance, 1,200 kilometres.

THE PENSION ACT

Giving Minister Half Salary on Retiring After Five Years' Service Will be Repealed. (Special to the Times.) Ottawa, June 25.—The bill dealing with pensions to cabinet ministers will be introduced this week. Some time ago the subject was discussed in parliament and it also came before the government caucus. The government was in this way put in possession of the views of the House and its followers in particular. The pension scheme which gave to a minister half his salary on retiring for the next five years, service notwithstanding, was one of the most objectionable features of the indemnity and salaries bill of last session. As a result some amendment was promised by the government, but what that was to be was not said. There was a general idea that the British system might be adopted, that is to say that pensions would be given upon the application of the party entitled to the same. In this way only those who were really in need of a pension would get one, and people would probably be satisfied with an amendment this session. However, it is said now that the government will go a step further and repeal the Pension Act altogether, which would still be more satisfactory.

PASSENGERS

All lovers of home cooking and home-made bread should go to the Palma Cafeteria and afternoon tea. Open 7.30 a. m. to 11.30 p. m. No Chinese employed.

A most delightful outing among the wonderful scenery of the Thousand Islands of the Gulf next Sunday by steamer Iroquois. V. & S. train leaves at 9.45 a. m. For information telephone 411.

The Popular London Bioscope Entertainment—Perfection of big, clear, moving picture show, with orchestral concert. All absolutely free, at Gorge Park. Opens next Monday evening.

"Bella Cubana," clear Havana Cigar—J. D. Gillis, late principal of the Boys' Central school, will at once assume his new duties as provincial inspector. He leaves to-morrow for Cumberland to conduct examinations, and on his return will move to Nelson. His new sphere of duty will embrace the Kootenay district.

On Friday evening the school trustees will meet in the board room to discuss repairs and renovations to be carried on during the holidays. The usual rearrangement of teachers will also take place, and the filling of the positions vacated by J. D. Gillis, Miss Potts and Miss Pope considered.

The closing exercises in connection with the Rock Bay school attracted a large attendance of parents and friends. There were the usual tributes by the children, after which a number of brief addresses of a congratulatory character were delivered. Honor rolls were distributed as follows: Division I—Maud Humber, pro-noun; Dolly Torrence, department; Aida MacGregor and Henry Moir, regularly and punctuality. Division II—Anna McDonald, proficiency; Alister MacCallum, deportment; Henry Basso, regularity and punctuality. The proportion lists were read, after which the children were dismissed for the summer holidays.

Next Sunday the Iroquois will go one hour at Mass and return via the picturesque Pender Island and canal.

The total clearings for the Victoria clearing house for the week ending June 26th, 1906, was \$746,165.

The Popular London Bioscope Entertainment—Perfection of big, clear, moving picture show, with orchestral concert. All absolutely free, at Gorge Park. Opens next Monday evening.

The annual meeting of the Woman's Auxiliary Society of the Royal Jubilee hospital is taking place in the board of trade rooms this afternoon as the Times goes to press.

Tenders for cutting and removing hay from the Dominion land at Work Point have been called for by the officer commanding the Royal Canadian Engineers. They have to be in by July 2nd.

The Royal Templars of Temperance will meet in the A. O. U. W. hall to-morrow night, and visiting members are cordially invited to attend. The principal business of the meeting will be the election of officers for the ensuing term.

A good programme of sports has been prepared for the Union Presbyterian Sunday school picnic on Monday, July 2nd. A large attendance is expected as Goldstream is an ideal place for such an outing.

Following the instructions given by the city council a couple of weeks ago, the chief of police has issued a bulletin calling attention to the traffic by-laws. A further warning will be given to offenders except a summons to appear in the police court.

The management of the Victoria Tourist and Development Association wish to express their appreciation to the number of ladies who were good enough to provide cake and sandwiches last evening for the reception tendered the teachers who have come to attend the convention in the High school this week. The association also feel very grateful to the ladies for the flowers used in decorating the rooms.

An automobile accident occurred this morning on the Goldstream-Victoria road. A party in charge of B. Combe were on their way from the country to the city in J. Hunter's machine. Something went wrong with the steering gear while running on a steep grade, and the car pitched into the ditch, throwing the occupants to the ground. The chauffeur, Mr. Combe, was the only one at all badly hurt. He was knocked unconscious, and Dr. Robertson was hastily summoned. The latter went out in another automobile and returned with the wrecked excursionists. Mr. Combe's injuries proved to be much less dangerous than at first thought, and he is expected to be about again in the course of a few days. A remarkable feature of the occurrence is the fact that Mr. Hunter's machine was in no way damaged, despite the shock to which it was subjected. After hitting it upon the road it was driven into the city without difficulty.

All Aboard For Cordova Bay PACIFIC TRANSFER
Stage leaves stables, Fort street, below C. P. R. office, every SUNDAY MORNING at 8.15 for the famous camping and picnic resort, returning to the city at 5 p. m. Fare for round trip, 50c; children, 25c.

The most recently meeting of the Natural History Society was held in their room in the provincial buildings last evening. President Wallace in the chair. After the usual routine business was completed, a fossilized mammoth's tooth, in a most perfect state of preservation, was exhibited by Captain Wallace. It was loaned for the purpose by Mrs. Frederick Williams, Superior street. The tooth was taken out of the head of the animal by the late Mr. Williams when prospecting for gold in California during the sixties. Several other interesting objects were shown, including a sample of canary grass by James B. Anderson, deputy minister of agriculture, and specimens of herrings, broom, other fishes, and an eel, taken out of the graving dock, Esquimalt, at different seasons of the year, and preserved in spirits of wine by Captain Curtis, R. N. It was agreed to meet again at the next meetings for the summer season. The next will take place on Monday, 15th September, 1906.

The Popular London Bioscope Entertainment—Perfection of big, clear, moving picture show, with orchestral concert. All absolutely free, at Gorge Park. Opens next Monday evening.

"Bella Cubana," clear Havana Cigar—The Popular London Bioscope Entertainment—Perfection of big, clear, moving picture show, with orchestral concert. All absolutely free, at Gorge Park. Opens next Monday evening.

A practice shoot of the Capital City Gun Club will be held to-morrow afternoon at the Williams range. As no contest will take place on Saturday this will be the last opportunity those intending participating in the Dominion Day shoot at Vancouver on the 2nd of July will have to train. A large attendance, therefore, is expected.

"Bella Cubana," clear Havana Cigar—The police court this morning three drunks came before Magistrate Hall. They were convicted and the usual fine imposed.

There will be no admission for the garden fete at Christ Church cathedral to-morrow afternoon. For the musicale in the evening a fee of 25 cents will be charged.

The Popular London Bioscope Entertainment—Perfection of big, clear, moving picture show, with orchestral concert. All absolutely free, at Gorge Park. Opens next Monday evening.

An explosion took place at the Crofton smelter on Saturday evening. The waste jacket furnace suddenly blew up with such force as to tear away the whole side of the building. Although many employees were around the works at the time there was no loss of life. The furnace is reported a complete wreck and a new one will have to be put in its place.

Miss Helen Monro, who is to sing at the musicale in the Christ Church cathedral Sunday school room on Wednesday evening, the Vancouver News-Advertiser says: "Her solos were sung in a most charming manner." "The World's Night," though her voice showed the compass in "Villanelle," with its brook-like ripple, rising gradually till it finally ended in a triumphant burst of flute-like clearness." Of her singing in Scotland the Ross-shire Journal said: "She displayed a marvellously developed voice, full, rich and velvety," and referring to a concert given in London the Middlesex Times said: "Miss Helen Monro sang charmingly." The other ladies who are to take part are Mrs. Harry Pooley and Miss Winifred Lugin, who will each render vocal solos, and Mrs. Harry Young, who will contribute a piano solo and act as accompanist. Messrs. Geoffrey Booth and Ronald Grant will render solos. These ladies and gentlemen will undoubtedly present an exceptionally attractive programme.

AFTER FOURTEEN YEARS.
A. Wood Pleased With Progress in This City.
Alfred Wood, until recently proprietor of the leading daily paper in Ottawa, is stopping at the Driford, as mentioned in yesterday's Times.

"It is fourteen years since I lived in Victoria," said Mr. Wood. "I attended the birth of the Daily News, and I was present when it was laid in the journalistic graveyard. The News, you may remember, was promoted by the late Theodore Davie, and had a breezy though brief career."

Shortly after its demise, Mr. Wood returned to Toronto and acquired a financial interest in newspaper ventures.

Mr. Wood says that he has for many years proclaimed the fact that Victoria is the most desirable residential city in America. As a director of the Semi-Ready Company, and advertising manager of the States Shoe Company of Montreal, Mr. Wood is visiting the West in order to bring his colleagues into closer touch with the commercial conditions of the West. He says:

"I met W. J. Gage, the millionaire publisher from Toronto, a very warm friend of mine. He was returning from a trip taken with similar intent to my own, and he agreed with me that if the manufacturers of the East would visit the rapidly growing West at regular intervals there would be little room for foreign goods in this market. With few exceptions our manufacturers do not keep posted. Towns grow quickly, and opportunities for larger business are too often left to the tender mercies of the middleman. The average traveller is too busy selling goods to gracefully describe conditions. And most middlemen reap rather than develop trade. I do not believe in excursions, when a body of manufacturers come along with a whip. A man must come and see conditions as they exist normally, and he should remain long enough to study the present and forecast the future."

CLOVER POINT SALMON.
One Thousand Fish Brought to Outer Wharf Canery This Morning.
There was another lift of salmon at the Clover Point trap this morning when one thousand fish were taken from the mooses and brought to the outer wharf for canning at the new factory here, installed by the Capital City Canning & Packing Company, of this city. Unlike the previous catch made at the trap, most of the salmon lifted this morning are spring salmon. These will be separated from the sockeyes and salted.

This catch is the only one reported for this week. The weather in the straits was too rough for any other traps to be worked yesterday, and up till noon there was no news of whether any were lifted this morning. It is stated that there is a very heavy swell following the wind of yesterday, and if this is true it is probable that the next catches will be taken to-morrow.

The possibilities for Victoria becoming an important first centre is now attracting attention in other cities. Victor Henry, of the Everett Fish Co., is in the city to-day looking into the future of the business, and there is a probability that he may invest here before he leaves.

PERSONAL.
W. Reed, of Reed & Goodman, the ink dealers of San Francisco, is on his first visit to Victoria since the earthquake. The work of sixteen years has been wiped out by the shake, but the firm is reconstituted by setting to work to rebuild. Mr. Reed believes a greater and more beautiful San Francisco will in less than a decade replace the present city. The greatest hardship results from the action of some of the insurance companies, which refuse to pay their claims in full. Others, the "dollar" companies, are meeting their obligations and the residents are carefully marking the companies which are deducting 25 per cent, and 35 per cent, from their claims, and it will be very difficult for them to obtain business in future.

J. S. Knechtel and wife of Hanover, are in Victoria, agents of Seattle, representing Peter Larsen, of Helena, in the city, staying at the Driford. He has been on the West Coast inspecting mining propositions for him.

Dr. E. S. Reynolds, proprietor of the Nanaimo Herald and the Ladysmith Ledger, is at the Driford. Rev. Father Harrison, of Seattle, is a guest at the Driford.

CLARKE'S SLICED BEEF.
Never fails to satisfy. It has a delicious piquant flavor and is sliced thin, ready for instant use.

MANUFACTURERS ARE COMING TO VICTORIA.
After Three Days Convention in Winnipeg They Will Visit This City—The Itinerary.

The general itinerary of the Canadian Manufacturers' Association members tour has been arranged. The excursion will leave Montreal and Toronto in special Canadian Pacific railway sleeping cars on Friday, September 14th, arriving in Victoria at 6 o'clock in the afternoon of September 24th.

The visit to this city will extend until 8 o'clock in the morning of September 26th.

The whole trip, including the convention at Winnipeg of three days will take twenty-one days from Montreal or Toronto. The itinerary is as follows:

Leave Toronto 8.30 p. m., September 14th; leave Montreal 9.40 p. m., September 14th; arrive Winnipeg 8.40 p. m., September 16th; convention, September 17th, 18th and 19th; leave Winnipeg 1 a. m., September 20th; arrive Regina 1 p. m., September 20th; arrive Regina 4 p. m., September 20th; arrive Moose Jay 5.15 p. m., September 20th; arrive Calgary 7.15 p. m., September 21st; leave Calgary 3 p. m., September 21st; arrive Banff 6.30 p. m., September 21st; arrive Vancouver 7.30 a. m., September 24th; leave Vancouver 24th; leave Victoria 8 a. m., September 24th; arrive Vancouver 12 noon, September 24th; leave Vancouver 11 p. m., September 25th; arrive Revelstoke 4 p. m., September 25th; arrive Kamloops 7 p. m., September 25th; arrive Calgary 1 p. m., September 28th; arrive Edmonton 2 p. m., September 28th; arrive Regina 1 a. m., September 29th; arrive North Battleford September 29th; leave North Battleford September 29th; arrive Kamloops September 29th; arrive Banff September 29th; arrive Vancouver 10th, September 30th; arrive Dauphin September 30th; arrive Neepawa September 30th; arrive Winnipeg 7.30 a. m., October 1st; leave Winnipeg 11.30 a. m., October 1st; arrive Kenora 5 p. m., October 1st; arrive Port Arthur 7.30 p. m., October 1st; arrive Port Arthur 8 a. m., October 2nd; leave Port Arthur 6 p. m., October 2nd; arrive Port Hope 11.59 p. m., October 2nd; arrive Montreal 6.30 p. m., October 4th; arrive Toronto 7.30 a. m., October 4th.

DEATH OF WM. MURRAY.
Well Known Engineer Succumbs to Stroke—Sole Survivor of Standard Weck.
William Murray, well known in this city, died from sunstroke near New Westminster on Sunday last. Wm. H. Adams, assistant of Government street, with whom deceased lived for eight or nine years, went over to New Westminster yesterday morning and will make arrangements for burial of the body. Murray, who has no relatives in this province, was a native of Scotland and about 40 years of age.

When the cannery steamer Standard went down off Cape Mudge some years ago Murray was the only survivor. On that occasion he made a wonderful fight for life, being in the water for twelve hours, and landing in an exhausted condition at one of Mike King's logging camps. He also worked for several years for the Victoria Gas Co., and followed the sea, as marine engineer, on boats running from Victoria and Vancouver.

Mr. Murray had been employed as engineer at G. S. Macgowan's lumber camp across the Fraser from New Westminster. He was in the city on Saturday afternoon to obtain some small pieces of machinery required in repairing his engine, and appeared in the best of health. Upon his return he commenced work on the repairs, remaining in the shop for a long time hunched.

On Sunday morning the boss of the camp, Mr. Macgowan, paid a visit of inspection about 10 o'clock. He found Murray asleep in his cabin, but did not disturb him, as it is very usual for lumbermen to spend a large part of Sunday in bed. Having gone over the scene of work he returned to the cabin intending to wake deceased. He was breathing with difficulty, a peculiar reddish fluid escaping from his mouth. Several of the men attempted to rouse him, but without success, and Dr. Jones was sent for. The case was at once diagnosed as one of sunstroke. Murray's temperature rose to 109, and it was seen there was no possibility of saving his life. He died about 5 in the afternoon.

THE PREMIER RETURNS
Hon. Richard McBride Arrives in City After Tour of Fraser Valley.

Hon. Richard McBride returned last night from a tour through the Fraser valley, particularly of his constituency, Dewdney. While away he paid much attention to the working of the new School Act, and stated this morning that it was turning out most satisfactorily.

Meetings were held at Haney, Dewdney, Agassiz, Port Moody and Mission City, at which the Premier delivered addresses. He also visited Chilliwack and Ladner, "General conditions," he said this morning, "are particularly good. The farmers of the Fraser delta, are in high spirits over their magnificent crops. New Westminster is also making great progress. The re-opening of the Rose-McLaren mill gives employment to hundreds of men, and the tannery, car shops and distillery also make for the improvement of the city."

"I visited the farm now used in connection with the asylum for the insane, near Westminster Junction, and was informed by Dr. C. E. Deberry, the medical superintendent, that the patients improve rapidly under the outdoor life. The farm contains 1,000 acres, of which about 500 are ready for cultivation. Sixteen acres have been cleared by inmates of the asylum and a comfortable house erected. There are 15 employed there at the present time, and they must enjoy the new surroundings. Though perfectly able to return to the main institution if they wish, all prefer to stay on the farm."

YOUR LINEN AFFECTS YOUR APPEARANCE

The well laundered shirt, collar or cuff the one that has a perfect finish, the correct stiffness and a faultless shape is the one that is chosen to wear on a swell occasion. We take pains to see that all our work is suitable for such occasions.

LEA & PERRINS SAUCE 70 Years' Reputation Behind It.

An Enemy of The King By Hagenbuch Wyman

CHAPTER XL.—(Continued.) "In the first place, monsieur, I began, having no knowledge how I was to finish, 'you and your gallant company are doubtless tired, hungry and thirsty'..."

"My very modest lackey, you greatly undervalue both your life and your liberty, if you think you can buy them from me at so small a cost. No; you offer too little. The pleasure of killing you far exceeds that of having you for a servant. Now that we have happily met, you know that there must be shelter, food and drink somewhere near at hand. We can find them for ourselves in as short a time, perhaps, as it would require you to take us there. We shall doubtless have the happiness of meeting there your very gallant master and the lady whom you protects with your arm and sword. Having robbed him of his means of guarding his lovely charge, I shall in fairness relieve him of the charge."

"I perceived here the opportunity of saying to her 'I was under the governor's orders, you see, my lady, when I signed that document.' But De Berquin pursued mademoiselle while he came in quest of the Sieur de la Tournelle, or whether it was on his own account. 'You infatuation for this lady must be very great,' I said, in a tone too low for him to follow. 'I shall gush my words, to lead you to force your presence on her.' 'My infatuation?' he repeated, and then he laughed. 'My very knowing lackey, if you were better informed of my affairs, you would know that an infatuation for Mile de Varion is a luxury that I cannot at present afford. A man who has lost his estates, his money, his king's favor, and who has fled from the creditors in Paris to prey on the provinces, thinks not of love, but of how to refill his pockets.' 'I beg to say that I am not for love that I pursue Mile de Varion,' I said. 'I now believe, as I had first thought, that the governor had changed his mind after ordering mademoiselle to leave the province, had decided to hold her in duration, and had commissioned De Berquin to detain her, as well as to hunt me down. But I put the question in order to get further time for thought. 'For love, yes; but not for mine' was the answer. 'This startled me. 'For that of M. de la Châtre?' I asked, quickly. 'You need to be curious on this point,' said De Berquin, derisively. 'If I am to die,' I replied, 'you can lose nothing by gratifying my curiosity. If I am to live, I may be the better able to serve you if you gratify it.' 'I am not one to refuse the request of a man about to die, love that with a self-muzzed look. 'It is not M. de la Châtre, the superb, whose amour I have come into this cursed wilderness to serve. 'Then who?' But I stopped at the beginning of the question, as a new figure came to me. 'The secretary?' I said. 'Montignac, the modest and meditative,' replied De Berquin. 'I might have thought it. What man of his age, however given to deep study and secret ambition, could have been insensible to her beauty, her grace, her gentleness. Such a youth as Montignac would pass a thousand women indifferently, and at last perceive in Mile de Varion at first glance the perfections that distinguished her from others of her sex. Doubtless to him, as to me, she embodied an ideal, a dream, of which he had scarcely dared hope to find the realization. Seeing her at the inn, he had been warned by her charms at once. He had resolved to avail himself of his power and of her helplessness. Her father in prison...

No Mystery

There's no mystery in good paint making. It's only "cheap" and inferior paint that surrounds itself with secrecy and mystery.

THE SHERWIN-WILLIAMS PAINT

is not a "patent" or "chemical" paint. There's no secret or mystery about it. It's a pure lead, pure zinc, and pure linseed oil paint. It's better than other paints made from the same materials, because the methods and manufacturing facilities of its makers are better—not because they have any patent or secret scheme.

S. W. P. always gives satisfaction and saves money.

VISITING WRITER ADMIRES CITY

EX-DETECTIVE KIDNAPPED.

Taken From Vancouver in Schooner. (Special to the Times.)

Vancouver, June 26.—Wm. Shearer, who disappeared a week ago on Sunday morning from Vancouver, returned to-day. He was induced by means of a bribe to go to the foot of Cambie street bridge. There he was plied with whisky and thrown into a boat then taken to a schooner in English Bay. From there his kidnapers and himself sailed for Everett. Two days later Shearer escaped. He was formerly a detective, and five years ago assisted in the capture of Sherman, a pugger, at Sunak, Sherman swore he would get even, and was leader of the party which carried out the kidnaping. Shearer is a respectable man, and the story is credited here.

WELL KNOWN JOURNALIST FROM MINNEAPOLIS HERE

FROM MINNEAPOLIS HERE

Katherine Louise Smith Gives Interesting Interview on Tour of North West.

An interesting personality, and one of the foremost newspaper women in America, is at present visiting Victoria. Miss Katherine Louise Smith, of Minneapolis, is well known to all who read the big magazines, and the object of her trip is to gather material for Sunday stories for the Pittsburg Gazette and Buffalo Times. She visited Canada primarily for the Women's Canadian Press Association convention at Winnipeg, and was one of the party who made an extensive tour of the Northwest by courtesy of the C. P. R.

"I am perfectly charmed with my trip through the Dominion," she said this afternoon. "The enormous extent of arable land awaiting settlement was a revelation. No wonder thousands are flocking in. And after passing through the scenery was most magnificent. The mountains and waterfalls, with the narrow valleys between, are more beautiful than anything I ever saw. The short stretch of the White Pass and Yukon railway is the only district I can at all compare with British Columbia for scenic beauties. Victoria itself must be a delightful place to live in. You have such charming residences and then the roses—I'm sure everyone here should be proud of their beautiful city."

"We have had an extremely enjoyable and instructive trip. There were 22 of us in the party, including Mrs. Cynthia Westover, Alder and president-general of the Sunshine Society of New York; Mrs. Theodore Nappan, wife of the former secretary of the Western Canadian Immigration Association; Marine Murphy, of the Chicago Inter-Ocean; Mrs. Coleman, known all over America as "Kit" of the Toronto Globe; and also our well-known writer Agnes Deans Cameron. Miss Cameron was usually down to respond to a toast at the many public luncheons given us, and if it was not there were always calls for her. I was much surprised, and agreeably so, at the kindness displayed everywhere. Even small places where we could not stop shared in our friendly reception. Baskets of flowers were left on the car with a note of regret. At one village, the name of which I cannot recall, we were all given badges emblemized with a golden reading. Glad you came this way; say we can't stay," and also with orange silk banners bearing the monogram of the association.

"I was much impressed with those queer people the Doukhobors, and also with a Mormon settlement near Calgary, where we spent a few hours. At the latter place they gave us an exhibition of 'bronco busting,' which was extremely interesting. We went as far north as Edmonton, where a special drill of the mounted police was given for our benefit. Other places we visited were Calgary, Yorktown, Regina, Banff and a number of smaller settlements. Everyone treated us well, and, as an American, I can hardly find words to express my thanks for the most courteous extended. Luncheons were met by the mayor, or representatives of the town, and in some cases only formal receptions, luncheons and musicales, but always affording opportunities for gaining the largest amount of information possible.

"Miss Cameron has intended to examine her journey east to Toronto, Ottawa and other places. She is much interested in a proposal to have the next meeting of the association held in England. I understand she will take the matter up while in Ottawa. We got out a paper on the car, of which Mrs. Alden was editor in chief, but as there was no printing press on board the copy was left at Calgary to be printed. Kit did the society page, and a feature in a sermon by Agnes Deans Cameron. I hope to return through the Kootenay country and will thus get a good idea of your magnificent province before I return home."

Miss Smith will take a few days' recreation in Victoria before returning

ICE MEN COMBINE

Five Defendants—Must Pay Fine or Serve Year in Workhouse.

Toledo, O., June 25.—Five ice dealers, representing local companies, were sentenced to-day to pay a fine of \$5,000, or to serve one year in the workhouse. The five men, all of them prominent in business circles, were taken to the county jail to await the making out of the necessary papers to commit them to the workhouse unless in the meantime they meet Judge Kinkadee's requirements of restitution.

These men were indicted under the Valentine anti-trust law for combining to restrain trade. Under the pretext that the ice supply was much smaller than in recent seasons these dealers combined and advanced the price from 50 to 100 per cent. The sentence is the maximum under the law. If the men go to the workhouse they will be set to hard labor.
