Jury:

The white in your eyes can be seen from 3 miles away. You can hear your own blood pumping through your veins. One of your greatest desires is being fulfilled after ages of waiting. You finally got it....

Stroopwafel! Yum!

Stroopwafels are like drugs to Wikimedians. They should be available on a doctor's prescription. Magioladitis is just a perfect illustration of this fact. That's why he's the winner of the Wikimania 2014 Stroopwafel selfie competition.

Jury:

"I'll have what she's having", that line was unfortunately already taken by Sally. But it could have been a stroopwafel line, because eating a stroopwafel clearly increases your sex appeal.

Dschwen has used the power of the stroopwafel wisely in this selfie. Now the question arises: did it get him more than just a stroopwafel t-shirt?

Jury:

The stroopwafel is becoming an icon. And we are sooo proud of that. But some people really take it to the next level. They make it almost religious...

In a time where "the right to be forgotten" is being discussed a lot, Chedasaurus found a solution to show his love for the cookie without revealing too much about himself. We do hope that he'll wear his stroopwafel t-shirt proudly and visibly.
