LOUISVILLE, KY.

Nanz & Neuner's New Seedling Rose,

*Engraved & Copied
by A. Stone
Philad.*

LADY JOY.

FOR DESCRIPTION SEE PAGE 115.

LOUISVILLE, KY., January 1, 1901.

Dear Friends:

NANZ & NEUNER again present you with their annual greeting. This is our WINNIE DAVIS number, named so in honor of the Daughter of the Confederacy, after whom we had the honor of naming a grand new rose of our own production and which has received the highest praise and found great favor among the many lovers of flowers who have seen the same. During the Reunion of the CONFEDERATE ASSOCIATION, held in the Spring of 1900, many hundreds of Nanz & Neuner's patrons were delighted in having seen this beautiful rose in all its glory and in its own home. Thousands of blooms were on exhibition during that time. We therefore feel quite proud in being honored each day with flattering letters praising our Winnie Davis rose as no other flower has been. Therefore, we desire to perpetuate and memorialize this NAME and NAMESAKE, feeling assured it will be appreciated by our many thousands of friends located in all parts of the country, especially in the South—we also consider Louisville a part of the South, notwithstanding we usually have 20 degrees below zero and at times two feet of snow.

To improve and to please is our motto. We feel that our efforts in the past have been appreciated by the many orders and complimentary letters received each day, therefore assure our patrons we will always strive to do so in the future, leaving nothing undone to continue the same. Nothing gives us more pleasure than to receive assurances from our patrons as to the manner their orders have been satisfactorily executed.

With the year 1901 we start our journey in the second half century.

We more than ever desire to hear from our many old and new patrons and friends.

Thanking all for their patronage and hoping same to be continued,

We beg to be,

NANZ & NEUNER.

NANZ & NEUNER'S

Twentieth Century Rose.

WINNIE DAVIS 

Many new roses are produced in large numbers each year both in foreign countries as well as at home. After several seasons of trial, for one cause or another they are temporarily laid aside or entirely thrown away as not coming up to the standard in not having qualities which would place them in comparison with others. The WINNIE DAVIS Rose, however, we are happy to say, the more we grow and produce the more convinced we and many hundreds of patrons are who have seen the same, that it is one of the finest and most original colored roses on the market. The color is difficult to describe. In small bud it is reddish pink; when unfolding and more developed, however, it is a yellowish pink running to salmon, the inside of petals creamy white; when fully open resembling a sunburst, something not found in any other rose.

The blooming qualities can not be excelled, every eye and shoot making a bud; the foliage of a leathery green with red veins. Its habit are vigorous, free blooming and a robust grower.

This grand rose is a seedling of our own production, being a cross between the famous Kaiserin Augusta Victoria and Belle Siebrecht. If you have not yet seen it, send for one, as no rose bed or garden is complete without it. Owing to the heavy demand for same we only have a limited stock to offer, viz.: Strong plants in 2½ inch pots, 50 cents each; 4 inch pot plants, \$1.00 each.

NANZ & NEUNER'S ROSES ARE ALL GROWN ON THEIR OWN ROOTS.

WINNIE DAVIS.

FACILITIES FOR SHIPPING.

The central locality of Louisville, the facilities of distribution by mail, express, railroad, or steamer, can not be surpassed. Add to these advantages our careful mode of packing (for which no charge is made) then our guaranty of safe delivery to all parts of the United States, and all parties who have not favored us with their orders in the past may feel induced to give us a trial order in the future.

A FEW HINTS TO OUR PATRONS.

PLEASE USE THE ORDER SHEET, which is attached to every catalogue, to make out your order. If it is necessary to write a letter in addition it is better to write on a separate sheet, or at least separate from the order.

HOW TO ORDER PLANTS.—Please state always whether you want your plants sent by mail or express; in the latter case whether in or out of pots.

PLANTS BY MAIL.—We make a specialty of growing hardy, vigorous young plants to be shipped through the mails free to any part of the United States and Canada, and it is the wonder of many to receive their plants in such excellent condition, no matter at what distance from here. Orders must amount to at least fifty cents. For orders less than fifty cents, ten cents must be added for postage and packing.

WHEN SO DIRECTED WE SHIP BY EXPRESS, or when the order is of a size or character that it can not be safely sent by mail, the purchaser paying express charges. It will be to the interest of purchasers to receive their plants by express whenever it is possible to do so, as large and fine plants can be sent best in this way. We will include extra plants to compensate for express charges. Please mention by which express company you desire your plants sent where more than one company has an office.

EXPRESS RATES.

We have secured for our customers from Express Companies, 20 per cent. reduction in express rates on plants. Have your plants sent by express; we can send you better plants and they will reach you in better condition than by mail.

Under the new ruling of the leading express companies, advocated and secured by us, plants packed in closed boxes or baskets, will now be carried at the "General Special" rate. This rate means a reduction of 20 per cent. from the regular merchandise rates to all points where no "General Special" exists. To points where a "General Special" rate is in force the companies make a special reduction. Shipments weighing less than 100 pounds receive the benefit of the rate per hundred pounds, but the minimum charge is 35 cents. For instance, where the regular merchandise rate is \$4.00 per 100 pounds, a box of plants weighing 25 pounds would be carried for 80 cents, a saving of 20 cents on one shipment.

PLANTS BY FREIGHT.—Large and heavy plants can be shipped safely by freight to all points situated on direct routes from here; it will not injure plants to be two or three days on the road. This applies especially to large plants which are to be planted out on arrival which recover quickly on arrival. Exorbitant express charges make it every year more imperative to ship all heavy articles by freight. Such orders as call for heavy plants and young, delicate stock at same time, can be divided; the delicate plants can be sent by express, while the heavier and harder can go by freight. If the mode of shipping, express or freight, is left to us, our customers may rest assured that the best course will be followed. Trees, shrubs, hardy perennial plants, bulbs, and roots can, of course, be shipped by freight without risk whatever.

OUR PROSPERITY DEPENDS UPON YOU RECEIVING SATISFACTION.

OUR RESPONSIBILITY.—We guarantee plants and seeds to reach their destination in a live, growing condition, but when we have done this our responsibility ceases, because we know that if they receive proper care they will grow nicely. Many plants die from careless treatment and neglect; in such cases we can not and should not be expected to replace them.

SUBSTITUTING.—There has been so much complaint about florists substituting, that we shall in the future refund the money when we can not furnish the varieties ordered, unless we are given the privilege of sending other varieties. In all cases when we are allowed to substitute we will send something as near like what was ordered as possible, and will add something else of equal value gratis. At present we believe we shall have ample stock of everything catalogued to meet the demand.

WE GUARD AGAINST ERRORS in filling orders as carefully as we can, but occasionally, in spite of best care, some mistakes will creep in; when they do, notify us at once, and we will correct by return mail. We cordially invite customers for our goods, and do not intend they shall regret coming to us if we can possibly by fair dealing prevent it. But do not blame us for not promptly filling your order if you have (as hundreds do every year) given no name or address; if you live in a city, please be careful to give street and number. If your letter is lost on the way and does not reach us, it will of course cause delay and often vexation.

SIZE AND QUALITY OF PLANTS.—To judge by careful observation and by testimonials we receive, the plants we are in the habit of sending out are always larger and finer than those of any competing house, and we try to keep this reputation. Our liberality is becoming proverbial with our old customers.

SELECTION OF VARIETIES MADE FOR THOSE WHO DESIRE IT.—It is difficult for you to judge of the merits of the different varieties by description, and we shall at all times be pleased to make selections for any one of our friends who would prefer to rely upon our judgment.

ALL PLANTS LABELED.—All plants sent out by us are distinctly labeled.

OUR TERMS ARE INVARIABLY CASH WITH THE ORDER.

PLEASE WRITE YOUR NAME IN FULL, giving postoffice, county, and State; also street and number in large towns; amount of money inclosed. We can also ship, C. O. D., return charges on money to be paid by purchaser.

TREATMENT OF PLANTS ON ARRIVAL.

Plants shipped by express or freight suffer little, if any, as the roots get disturbed but very little if taken out of pots. Some water and shade for a few days will re-establish any plant.

With plants received by mail more care and precaution have to be taken on arrival. On all plants to be shipped by mail most of the soil has to be removed from the roots in order to lessen the weight, and damp moss and paper take the place of the soil.

If the plants are the least wilted on arrival, put them in lukewarm water in a shallow pan, for about one hour, leaving the paper and moss undisturbed. This will soon restore their vitality.

In potting the plants, after removing the moss and paper, use clean pots and loose fine soil. Take pots only one size larger than the one the plant has

been grown in. Press the soil well down after placing the roots in a natural position, leaving half an inch empty space above the soil for the pot to receive the water. Water should be applied until it runs out at the bottom of the pot.

Keep shady and from the wind or draught for four or five days. Sprinkle the leaves every day, but take care not to wet the soil in the pot too much, which would make the roots rot.

In any case avoid extremes in watering or drying out.

If the plants are to be cultivated in pots, most of them will be ready to be shifted into larger sized pots in from two to four weeks, according to nature of plants.

Bedding plants can be set out at once in the open ground by observing the above rules about watering and shading (provided there is no danger of frost, etc.)

OUR PREMIUM OFFER FOR CLUBS, ETC.

N. B.—Please observe that no premiums are offered on trees, shrubs, etc.

Every customer sending one dollar can select any plant named in our catalogue, priced at ten or fifteen cents, free of charge.

It is in order to secure, by co-operation of a good many persons, great numbers of orders from people who might not have purchased from us but for their efforts, that we make the following liberal offers, with some items to be observed:

A CLUB ORDER MUST AMOUNT TO TWO DOLLARS. THE AMOUNT OF MONEY SENT BY EACH MEMBER OF THE CLUB SHOULD BE DISTINCTLY STATED.

We can send the order of each member of the club separately to his own address, provided the order amounts to at least one dollar. If sent together to address of getter-up of the club, we present extra plants to compensate for the trouble of distribution.

MAIL CLUBBING RATES.—Purchaser's choice from catalogue.

For a remittance of	
\$ 2 you may select plants priced at.....	\$ 2 35
3 " " " "	3 60
4 " " " "	4 75
5 " " " "	6 00
8 " " " "	10 00
10 " " " "	12 50
15 " " " "	19 00
20 " " " "	25 50

N. B.—NO PREMIUMS ARE ALLOWED IN ADDITION TO ABOVE MAIL CLUBBING RATES.

EXPRESS CLUBBING RATES.—The privilege of selecting our premiums is extended to all express or freight orders. For a remittance of \$2, select plants valued at \$2.50; for \$3, select for \$4; for \$4, \$5.50; for \$5, \$7; for \$6, \$8.50; for \$7, \$10; for \$8, \$11.50; for \$10, \$15; for \$15, \$22; for \$20, \$30.

These clubbing rates apply only to general collections of plants and bulbs, at the price per single plant. Do not apply to prices by 50 or 100 to any catalogue but this one, and not to items where exceptions are made.

INDIVIDUAL ORDERS are entitled to same premiums as Club Orders.

Purchasers are entitled to above rates on each order as sent in. Above premiums can not be figured on total amount sent at different times.

NOTICE.—Persons who wish to sell our plants will please correspond with us to that effect.

A NOVEL FEATURE.—All our customers know that at rates given the soil is removed from the roots in packing, the consequence is, that often the inex-

perienced lose their plants. We therefore propose hereafter to MAIL THE PLANTS WITH ALL SOIL UNDISTURBED, giving one-third less plants; thus, instead of fifteen roses you will receive but ten with undisturbed ball. THIS FACT MUST BE DISTINCTLY STATED IN ORDER, otherwise we always send FIFTEEN WITHOUT BALL. Other plants same.

ANOTHER LIBERAL OFFER.—Some persons do not care to have the names of varieties; to such we offer all collections for fifteen plants with names, or send twenty without names; only the best sorts. For example, twenty roses, or twenty heliotropes, or twenty verbenas, or twenty carnations, etc., instead of fifteen with names.

DOLLAR COLLECTIONS

—OF—

Plants and Bulbs.

We grow only the best sorts of everything in quantity. Those varieties we can afford to sell below named at greatly reduced rates, but make one invariable condition, that the selection of varieties be left entirely to us. If desired the purchaser can halve the sets.

ALL PLANTS LABELED—BUT OUR SELECTIONS INVARIABLY.

- No. 1. Fifteen roses, constant bloomers, all colors, well assorted; we sell a hundred thousand of these roses every year. Our plants will give you lovely buds and flowers all summer and fall.
- No. 2. Twelve fine Hybrid Perpetual Roses. These are perfectly hardy and need no protection, but will produce their exquisite flowers of unsurpassed fragrance only in spring and fall. A good pruning after the flowers are faded will help to bring on a fresh crop of flowers.
- No. 3. Twenty roses, one or two colors only, for forming ribbon lines. Pure white, clear pink or deep crimson or light yellow are best colors for this purpose.
- No. 4. Fifteen Noisette or Climbing Tea Roses: all these are climbers and are especially adapted for growing on trellises in open ground, in pots or greenhouses. They require more care than the common Tea Roses, but who would not undergo such for perfect flowers of Marechal Neil, Gloire de Dijon, Lamarque, and others in this class? Encourage the plants to throw out strong branches during the first spring and summer months, then bend these over in a half circle, fastening the outside of branches to center stem: this will compel the eyes on these shoots to grow out and bloom, etc.
- No. 5. Twenty roses, well assorted, without names. To parties not caring for the name of each variety, this will be a welcome variety.
- No. 6. Four palms, different sorts. At last decorative foliage plants are becoming more popular in this country too, and justly so. Think with what ease you can grow a palm and keep it an ornament for a lifetime, increasing in value from year to year. Keeping foliage free from dirt is one of the most essential requirements.
- No. 7. Twelve hardy, perennial plants, best summer bloomers. Hardy, perennial plants are getting to be more and more popular, and we have grown thousands of plants of delphinium, coreopsis, anemones, hardy pinks, poppies, etc., to fill the desire to have some flowers every week in summer. Our selections will be sure to please you.
- No. 8. Twelve new sorts of hardy perennial phlox, splendid new colors. Who does not admire this grand flower, improving in size and showiness from year to year?
- No. 9. Three larkspurs, three sweet williams, three day lilies, three hardy phlox, three Scotch pinks. This collection is valuable, all being perfect perennials.
- No. 10. Eight hardy-flowering shrubs, like spiraea, dentzias, hydrangeas, etc., and two hardy vines like honeysuckle, ampelopsis, silk vine, etc. Hardy shrubs are indispensable for a yard, and help not a little to furnish a good supply of flowers.
- No. 11. Ten Japan and German iris, improved sorts. These are amongst the finest of flowers, equalling orchids in brilliancy and contrast of colors, some blooming all summer: extra.
- No. 12. Ten hardy vines, including silk vine, clematis, honeysuckle, English ivies, etc. Grace and variety are produced by judicious placing of vines in various positions.

- No. 13. Fifteen geraniums, either all one color or fifteen different colors. Most popular bedding plant and greatly improved sorts.
- No. 14. Fifteen bronze or silver variegated geraniums or scented geraniums. These make a splendid border around blooming geraniums.
- No. 15. Twenty carnations. Will bloom all summer. Where fragrance and elegance of flowers combined with handsomest colors are desired, nothing can surpass this collection. You can have twenty without names.
- No. 16. Fifteen heliotropes in all existing shades.
- No. 17. Twenty select chrysanthemums, including the best new improved sorts.
- No. 18. Twenty verbenas, including some of the best mammoth sorts. Grand colors are included in our collection.
- No. 19. Fifteen single and double fuchsias, excellent varieties.
- No. 20. Eighteen coleus or achyranthes, red or yellow, or stevia variegata (white foliage) or cineraria candidissima, or alternantheras, red or yellow, or fifteen plants assorted in any number of each above sorts. Foliage beds are always showy. Trimming enhances the beauty of shape and color.
- No. 21. Fifteen blooming sorts of begonias; for pot culture or for planting out in a half shady, damp place these have no superior.
- No. 22. Twelve begonia rex and other large foliage sorts; these are liked and admired by everybody.
- No. 23. Twenty pansies; these are only good if planted early in March and April; after that time the summer heat affects this popular flower unfavorably.
- No. 24. Six scarlet geraniums, twelve cinerarias, white-leaved, for border.
- No. 25. Three coleus, three geraniums, three heliotropes, six verbenas; this collection will fill a bed eight or ten feet in diameter.
- No. 26. Twelve assorted plants suitable for hanging basket.
- No. 27. Fifteen bedding geraniums, single or double.
- No. 28. Fifteen tuberoses, extra large bulbs, sure to bloom.
- No. 29. Twelve gladiolus, six tuberoses, two dahlias.
- No. 30. Twenty gladiolus, splendid colors, assorted.
- No. 31. One amaryllis longifolia (hardy), three gladiolus, three tuberoses, one caladium esculentum, one dahlia, one lillium candidum.
- No. 32. Ten dahlias, distinct varieties, assorted.
- No. 33. Eight cactus with strikingly effective foliage, suitable for rock work or hanging baskets, where but little watering is practicable.
- No. 34. Twelve succulent plants like sedum, echeveria, etc., for border or rock-work.

- No. 35. One achania, three abuttlons, three achryanthes, three ageratums, dwarf blue, three centaureas. Above assortment will make a very nice group with achania as a center plant.
- No. 36. Ten verbenas, six geraniums, each a different color.
- No. 37. Fifteen bouvardias, of different colors, single or double.
- No. 38. Three heliotropes, three lantanas, three ageratums, three lemon verbenas, three rose geraniums.
- No. 39. Two rose geraniums, two heliotropes, two plumbagoes, three geraniums, three fuchsias, two roses.
- No. 40. Eight roses, ten verbenas. These may be planted in the same bed, the verbenas serving like mulching the ground around the roses.
- No. 41. One calla, three carnations, three fuchsias, two rose geraniums, three heliotropes, one lemon verberna, two bouvardias.
- No. 42. Three hibiscus, three geraniums, three plumbagoes, three lantanas, three cyperus. Will make a splendid bed.
- No. 43. Two star jessamines one Grand Duke jessamine, two night-blooming jessamines, two yellow fragrant jessamines, one rhynchospermum jasminoides, one taberlantana; all sweet-scented.
- No. 44. Ten ferns, best sorts for general cultivation, for shade only, or wardlan cases.
- No. 45. Eight plants producing white flowers in winter only.

COLLECTION NO. 46.

Price \$5 Express or \$3 by mail, postage prepaid by us.

- | | | |
|---------------------------|-------------------|----------------------------|
| 15 Monthly Roses | 2 Lemon Verbenas | 2 Petunias, double |
| 15 Verbenas | 2 Hibiscus | 2 Double Alyssums |
| 4 Fuchsias | 2 Abuttlons | 2 Carnations |
| 4 Heliotropes | 2 Climbers | 6 Ageratums |
| 4 Coleus | 2 Cupheas | 6 Tuberoses |

Fifteen Tea Roses, Prepaid, \$1.00, or Twenty Without Names. Try Them. Choice Sorts.

(2.) In 3, 4, 5 and 6-inch pots, to be sent, in bud or bloom, by express, to any distance.

The fall of the year is the time when roses are in their perfection, and only then is it safe to judge a rose. Sometimes the finest roses, like Gloire De Dijon, produce a few single flowers; in fact all roses are affected in color and quality by the heat of summer.

OUR ROSES ARE ALL GROWN IN POTS, in good, fresh soil without stimulants; are strong, healthy plants, kept from blooming here by cutting the buds off as they appear, and with any fair treatment on your part will be sure to grow; and the ever-blooming class will bud and bloom as soon as they start to grow vigorously.

Roses are our great specialty, and over 500,000 in all sizes await distribution this spring. Our roses are celebrated for their health and vigor, choice selections giving quick and constant bloom at once. We grow them in following sizes:

(1.) In 2-inch pots, especially prepared for mail trade and light packing by express.

Do not expect all varieties to be of the same size. Some under the same conditions make much larger and stronger plants than others, but many of the weakest growers produce the most beautiful flowers. Exquisite beauty of form, color and sturdy vigor are seldom combined in roses.

WHEN ORDERING ALWAYS STATE WHEN YOU WISH THE THINGS SHIPPED, else they will be sent you at once. Attention to these details will greatly facilitate our work and prevent confusion, errors and misunderstandings.

OUR AIM IS TO DO EVEN BETTER THAN WE PROMISE, so when the order will at all afford it, we add to it some plant or plants gratis, and they are often choice new kinds; several of the roses now so eagerly sought after were first introduced to our customers in this way—presented with their order.

POT-CULTURE FOR HOUSE AND CONSERVATORY.—The ever-blooming roses alone are best for house culture. Have a good, rich soil mixed with one-fifth sand. Sods and well rotted cow manure makes the best soil for roses. After potting, the plants ought to be thoroughly watered and kept from the burning sun. The earth should be moderately dry before watering again. If the rose gets too large for that pot, shift into one or two sizes larger, but do not use too large pots.

The rose should always be pruned when potted; as a general rule, shortened about one-half. Plunge the pots into the ground outdoors during the summer.

We furnish roses, suitably prepared for winter blooming, during the fall and winter months.

GARDEN CULTURE FOR ROSES.—Have your beds well drained, good, rich soil, enriched with old manure only—cow manure is the best. Plant the tender roses only in the spring; the hardy can be planted also in the fall to great advantage. Dormant plants should by all means be set out early; frost does not injure them like the tender varieties. Pot grown roses can of course be planted out any time in the spring and summer.

PRUNING.—March and April are the best months for this operation. Moderate pruning insure growth and more blooms. Cut out all decayed wood. All the shoots bearing flowers ought to be shortened two-thirds after blooming.

WATER.—We are frequently asked how often to water. Do so whenever the soil gets dry, but whenever water is applied do it thoroughly, so as to soak the soil to the roots; when the bed dries off a day or so after, loosen the soil around them lightly.

MULCHING.—This is a very important item for roses and should never be neglected. After loosening the soil for the first time, removing weeds, etc., cover the soil with well rotted manure or hay, leaves, etc., to the depth of three inches. They will keep the soil moist and cool and enrich the soil at the same time; also prevent the weeds from growing and save you the trouble of watering so often. This mulch can be removed and renewed once to bring on a fresh stimulant

PROTECTION.—Do not protect too early; give the wood a chance to ripen out. On our own grounds we draw the surrounding soil up about a foot around the bushes and let the rest of the branches freeze, and find this is the surest and best protection. Do not uncover too soon; more roses get killed by this cause than any other. A top dressing of stable manure is very beneficial also after the soil has been drawn up around the bushes.

ROSES IN BEDS OR MASSES.—To produce the finest effect, roses ought to be planted in beds or masses. No other flower should be planted with them.

ROSE HEDGES.—A rose hedge in full bloom produces a gorgeous effect. The plants ought to be kept trimmed all summer by cutting off all old flower shoots to an equal length as soon as the flowers fall off. In March a general pruning and cleaning ought to take place.

For newest roses of latest introduction, see novelties.

INSECTS AND INSECTICIDES.—Healthy, vigorous roses are less liable to the ravages of insects than weak specimens, which do not have the vitality to resist the onslaughts of these pernicious parasites. Our roses are singularly free from insects, owing to their vigor, but should they become infested, a few applications of a good insecticide will exterminate them at the outset, after which very little or no trouble will be experienced. The following recipes and preparations are good. They should be applied both to the upper and under surface of the foliage by means of a whisk broom or sprinkler. We can supply the "Tyrian Plant Sprinkler," which is probably the best for the purpose, at 75 cents each.

KEROSENE EMULSION.—To two parts of kerosene add one of slightly sour milk; agitate until the compound unites in the form of a white jelly; dilute with twenty parts of soft water.

TOBACCO SOLUTION.—Made by boiling the leaves or stems of tobacco. The liquid should be made about the strength of weak tea.

TOBACCO INSECTICIDE SOAP.—This preparation is put up in tin cans, with directions for use printed on labels. It is a standard remedy, and one of the best. Price, 30 cents per can, by mail, postpaid.

20th Century Bargain Collection

OF TEN ELEGANT Bedding Roses.

Mad. Welche.

Mignonette.

This Excellent Set of Ten Hardy Roses in 2½ inch pots, postpaid for 50 cents. Large Plants in 4 in pots (by Express only,) \$1.75.

The Price is remarkably low, and every lover of roses should plant this collection.

MAMAN COCHET. This is one of the most beautiful new Tea Roses that has been introduced in years. The growth is vigorous, with rich healthy foliage and extra large flowers on long stout stems, very double and simply exquisite when in bud or half blown. The color is a deep rosy pink, the inner side of petals silvery rose, makes charming bunches of long-stemmed flowers when cut. Fine for either pot culture or outdoor planting.

QUEEN'S SCARLET. Rich, velvety crimson, beautiful in bud. The best of all the crimson bedding varieties; very free-flowering.

MAD WELCHE. An extra fine variety; very large, double, and of beautiful rounded form. Color, apricot yellow, very heavily shaded throughout the center of the flowers with dark orange red, variable at times, frequently coming light canary, with deep shadings. The flowers are large, of good size and substance, and endure well after opening, giving the bush a handsome appearance.

SNOWFLAKE. A strong, vigorous grower with small, pure white flowers. Has been called White Hermosa, as it resembles Hermosa in form and freedom of bloom. A valuable bedding variety.

LA PRINCESS VERA. Very double and full; immense buds; color, pale, changing to salmon rose, shaded with carnine.

MAD. ETIENNE. One of the finest clear pink Tea Roses we have. The flowers are large and very double; the color, delicate pink, deeper on the edge of petals; very free flowering; an excellent bedding sort, blooming the whole season.

MIGNONETTE. One of the most beautiful miniature roses imaginable. The flowers are full and regular, perfectly double, borne in large clusters, often thirty to forty flowers each. Color, clear pink, changing to white, tinged with pale rose; a constant and profuse bloomer.

Marie Guillot.

MARIE GUILLOT. White, tinged with delicate shade of lemon; large full and beautifully imbricated in form; one of the finest white Teas; the perfection of form in Tea Roses; highly fragrant.

HERMOSA. (Bourbon.) Always in bloom and always beautiful. The flower is cupped, finely formed and full; color, the most pleasing shade of pink; very fragrant. A favorite with every one.

CLOTHILDE SOUPERT. One of the most prolific bloomers in our entire list, beginning to flower when not over four inches high, and continues without intermission the entire season. Flowers very double, the outer petals are pearl white, shading to a center of rosy pink. A grand bedding variety.

Snowflake.

ALL ROSES GROWN ON THEIR OWN ROOTS.

Beautiful Climbing Roses.

The New Climbing Rose, EMPRESS OF CHINA.

This is a climbing rose of the greatest excellence. It was brought to this country by a gentleman from China, who says of it that it commences to bloom in May, and is loaded with its elegant blooms until December. Think of it! There is no other rose like it that will bloom for so long a time. This has been the great objection to climbing roses, that they bloom once and then are done. But here we have a rose that blooms continuously for over seven months of the year. Color shell pink. It is perfectly hardy, and is a continuous grower. 10c each; larger plants, 25c and 50c each.

Grand New Velvety Red Rose,

CLIMBING METEOR.

All who know "General Jack" will call to mind its beautiful, high colored, rich, velvety-red buds and flowers. Climbing Meteor is the acme of all red climbing roses. It is a free, persistent bloomer and will make a growth of from ten to fifteen feet in a season; in bloom all the time, as it is a true ever-bloomer. We do not hesitate to place it at the head of the list of all roses for summer blooming, as it will make a strong growth and literally loaded with its deep, rich red flowers all the time. Its flowers are much larger than Meteor and are richer in color. It is just the rose to train up the verandas or around windows where its great beauty will show up to good advantage. 15c each; larger plants, 25c to 50c each.

MARECHAL NIEL.

YELLOW MARECHAL NIEL. Our stock of this splendid old favorite was never in better condition or in larger supply, hence we wish to call particular attention to it, and for this reason we have sought to give a partial idea of its rampant growth and blooming propensities by giving a truthful illustration of an ordinary plant. It is essentially a magnificent rose for Southern cultivation, where it attains a degree of perfection seldom seen in any rose. The buds and flowers are superb; extra large,

very double and deliciously perfumed; they are, in point of beauty, the first of their class. The color is deep golden yellow. Marechal Niel is highly esteemed for general planting in the North, where it makes a splendid show during the summer months, and for greenhouse or conservatory culture, it is by all odds the most desirable rose we know. Its merit as an outdoor rose has made it famous in the South, and we recommend it more highly than ever to our Southern friends. 10c each; 6 for 50c; 15 for \$1. Large plants, 25c to \$1.00 and \$2.00 each.

GLOIRE DE DIJON. Next to M. Niel this is the finest pillar rose for the greenhouse. Very large, double; rich, creamy amber color. Perfectly hardy south of Washington, and in sheltered situations it has been known to withstand the winters around New York City. Extra large plants, \$1.00 each; 1st size plants, 50c each, \$4.50 per doz.; young plants, 10c each, \$1.00 per doz.

WHITE MARECHAL NIEL. (Deegan, Germany.) One of the latest novelties in roses. It has been carefully tested for the last five years, and it proved to be the best and most valuable rose in cultivation; it is especially good for the Southern climate, as it has the same qualities and good habits as our old yellow Marechal Niel, which has been in cultivation for the last thirty-five years, and is everybody's favorite up to this day. This we can prove by the enormous amount of plants we sell every year, and, no doubt, this new rose, White Marechal Niel, will sell at sight, and no lover of roses ought to be without it, as your rose garden is not complete without this novelty. Price, 25c each. Large plants, \$1. to \$2 each.

REINE MARIE HENRIETTE. A seedling of the Gloire de Dijon, with bright red flowers; large, full, and scented. This rose partakes somewhat of the Hybrid Perpetual character, and in shape, form and size it is certainly very distinct and beautiful. The color is a bright cherry-red, a pure shade. A strong, vigorous grower. This rose succeeds well all over the South, and many plants of this variety are a source of pleasure and delight to their possessors in the States south of the Ohio. 10c each, 4-in. plants; 25c; larger plants 50c to \$1.00 each.

Grand Old Marechal Niel.

ALL ROSES GROWN ON THEIR OWN ROOTS.

The "Princess Bonnie" Set

OF TEN SUPERB FREE-FLOWERING HARDY ROSES.

STRONG GROWERS, FREE AND CONTINUOUS BLOOMERS.

TEN EXQUISITE ROSES FOR 75 CENTS.

Princess Bonnie.

Celebrated for their sweetness, beauty, hardiness and wonderful freedom of bloom; worth more than twice their number in unknown varieties possessing little or no merit, because they are surer to grow and will give more bloom. To foster the love, for roses—to encourage all who fear failure to a trial—and to prove that these roses are the best for home planting, surer to grow and quicker to bloom, we have made the preparation of this set the object of special attention; the varieties selected are the best; they are noted for their vigorous constitutions, freedom of bloom and ease of culture. We excel all others in growing roses; our roses thrive where others fail. The plants in the set will prove it; they have been grown especially for it; nothing has been spared to bring them to the fullest degree of healthy planthood. They are strong, growing in two and one-half and three-inch pots; stocky and sturdy, and will grow and bloom in your home—in pots or in open ground—just as they do here in the home of their birth. With their success is almost certain. Wherever there is a postoffice they can be sent, and their arrival in fresh and growing condition is guaranteed. They will bloom all the time from June until severe frosts. With this collection we make it possible for every one to have the choicest roses—the best grown—at the lowest prices. You will miss a rare treat if you don't give this set a trial. Order the "Princess Bonnie Set," and when you see the results they give you will be more than satisfied with the small expenditure.

PRINCESS BONNIE. The brightest, sweetest, hardiest, free-blooming rose in existence. Such is Princess Bonnie. Color solid crimson, deeper and more vivid than Gen. Jacquelinot; fragrance far sweeter than La France; produces more perfect flowers than Clothilde Soupert, the most prolific of all roses. For beauty and exquisite fragrance it is positively not equaled by any rose we know, while for continuity of bloom and vigorous, healthy growth—whether planted indoors or in open ground—it even surpasses a geranium. It blooms all the time. It is the hardy, free-blooming Tea Rose. Both in this country and Europe it has won the very highest praise. In every way it is a magnificent variety.

THE QUEEN. Pure white. Was introduced in 1889. It is large, pure white, free-blooming Tea Rose, the offspring of that fine old rose, the *Souv. d'un Ami*. It is a continuous bloomer, producing successive crops of buds and flowers in great profusion; the buds are beautifully formed, with large petals of best substance; shows the center but slightly when fully opened. Color pure snowy white; exquisitely scented; a vigorous and healthy grower; one of the best, if not the best, white Tea Roses now in cultivation.

SUNSET. Coppery yellow. This grand rose is a great favorite wherever known; the color is a rich golden amber or old gold, elegantly shaded with dark, ruddy crimson, resembling the beautiful tints seen in a summer sunset; the flowers and buds are extra large, full, finely formed and deliciously perfumed. It is a strong and vigorous grower and free bloomer, highly recommended both for open ground and house culture.

PINK SOUPERT. Deep pink. A superb new Tea Polyantha rose. It is an offspring of Clothilde Soupert and identical with it, excepting in color, which is deep rich pink. Its freedom of bloom is marvelous; throughout the entire growing season it produces cluster after cluster of finely formed buds and flowers. It is hardy with slight protection. For open ground planting this variety can not be surpassed.

KAISERIN AUGUSTA VICTORIA. A beautiful rose with elegant large pointed buds and very large, full double flowers. Color, delicate creamy white, deliciously fragrant. The plant is a strong healthy grower and constant bloomer. The flowers are on strong, stiff stems with rich, glossy foliage, making it one of the finest roses for corsage wear or any other use to which cut flowers can be put.

DUCHESS DE BRABANT. Few roses equal this in freedom of flowering; none surpass it in either fragrance or vigor; the flowers are rather loose when open but are rich and peculiarly colored; color, rose, heavily shaded with amber and salmon.

PAPA GONTIER. A magnificent red Tea. It is a strong grower, with fine healthy foliage; the buds are large and long, with thick, broad petals of a dark carmine crimson color, changing to a lighter shade in the open flower. An excellent winter blooming variety, and one of the best for outdoor planting, opening up the flowers in beautiful shape.

MAD. DE WATTEVILLE. A beautiful fancy colored rose, with elegant feathery shading of bright rose around the edge of each petal. A strong, vigorous grower, with handsome foliage; color, white, shaded with salmon, outer petals feathered with bright rose. Very fragrant, flowers large and beautiful shape.

CATHERINE MERMET. One of the finest roses grown. The buds are very large and globular, the petals being recurved and showing to advantage the lovely bright pink of the center, shading into light creamy pink, reminding one of La France in its silvery shading. A strong grower and fine bloomer.

MAD. ETIENNE. One of the finest of the clear pink Tea Roses. The flowers are large and very double; the color, delicate pink, deeper on the edge of petals; very free flowering; an excellent bedding sort, blooming the whole season.

SPECIAL OFFER.

For 75 cents we will send postpaid to any postoffice, with their arrival in fresh growing condition guaranteed, one each of the ten splendid roses described above.

STRONG TWO-YEAR OLD PLANTS. For only \$2.00 we will send, by express only, one each of the ten roses described above, in strong two-year-old plants, on own roots. No finer specimens will be found in this country, and this low price beats all others almost half; owing to large size of plants they can be sent by express, at purchaser's expense.

ALL ROSES GROWN ON THEIR OWN ROOTS.

The Souperets

THE SET OF THESE FOUR
FOR 35 CENTS.

LARGE PLANTS 25 CENTS
EACH.

THE SOUPERT VARIETIES are probably the freest blooming of all roses, blooming in great clusters the whole summer through. They belong to the Polyantha, or many flowering roses, and have been called "Everybody's Rose." The flowers are very double. They are a robust compact grower, entirely covered with their beautiful blossoms. They are an elegant rose for bedding, and are also a magnificent rose for summer blooming, making a very desirable rose for florists' sales on account of the freedom with which they bloom.

Clothilde Soupert.

Mosella.

MOSELLA OR YELLOW CLOTHILDE SOUPERT. Who does not know the beautiful Clothilde Soupert, the splendid bedding rose? Mosella is a strong grower, flowers are a little larger than the Clothilde Soupert, but appear the same way in clusters and on single stems; the color is chrome yellow in the center, getting creamy white on the edges of the petals; it is a great bedder and perfectly hardy. Price, 15 cents each.

PINK CLOTHILDE SOUPERT. This is identical with its unrivaled parent, except in color, which is of a clear pink or silvery rose. As a bedding rose this and Clothilde Soupert have no rivals, producing more flowers of unequalled beauty and form than any other rose. Its already great popularity will increase from year to year. Price, 15c each; \$1.50 per dozen.

CLOTHILDE SOUPERT. One of the most prolific bloomers in our entire list and admirably adapted to pot culture; beginning to flower, when not over four inches high, and continues without intermission the entire season if kept in healthy growing condition. The flowers are borne in sprays, very double and handsomely formed; the outer petals are pearly white, shading to a center of rosy pink, but vary sometimes on the same plant from a pure white to deep silvery rose. A grand bedding variety. 15 cents each; \$1.50 per dozen.

LEONIE OSTERIETH (OR WHITE SOUPERT). We have given this rose an extended trial and believe there is no better white rose grown. The buds are of a good size and flower full and double and deliciously fragrant. Pure porcelain white, with deep center. In freedom of bloom this charming variety rivals the Polyanthas. 15c each.

ALL ROSES GROWN ON THEIR OWN ROOTS.

Popular Rose Collection.

A CHOICE LIST OF 16 EVER-BLOOMING ROSES
FOR POT CULTURE AND WINTER BLOOMING.

The 16 sent by mail, postpaid, for \$1.00; large plants, by express, \$3.00.

BRIDESMAID. (Pink Tea Rose.) Here we have a new rose, a sport from the old standby, Catherine Mermet. This new variety retains all the good qualities of the parent, besides adding charms not possessed by the sweet Catherine. All know that Catherine Mermet takes precedence as a pink rose. More plants of it are cultivated by the amateur, and more cut bloom is sold by the flower dealers of it than any pink rose. Why? Because the bud is of exquisite shape and contour, so solid and firm, and the stems are so long and stiff that no other rose will compare with it in keeping qualities after being cut. Bridesmaid is about two shades deeper in color—just enough to make it bright; and it is the same color all the time, under every condition of weather and surroundings.

CLOTHILDE SOUPERT. One of the most prolific bloomers in our entire list and admirably adapted to pot culture; beginning to flower when not over four inches high, and continues without intermission the entire season if kept in healthy growing condition. The flowers are borne in sprays, very double and handsomely formed; the outer petals are pearly white, shading to a center of rosy pink, but vary sometimes on the same plant from pure white to deep silvery rose. A grand bedding variety.

CATHERINE MERMET. One of the finest roses grown. The buds are very large and globular, the petals being recurved and showing to advantage the lovely bright pink of the center, shading into light creamy pink, reminding one of La France in its silvery shading. A strong grower and fine bloomer.

PINK LA FRANCE. (Hybrid Tea Rose.) We have always given this the first place, the queen of all the roses. Accounts come to us from all quarters, every year, describing the great profusion of its bloom from June to frost, and extolling its fragrance and immense size; it is of superb form, and double as a rose can be. No variety can surpass it in delicate coloring, silvery rose shades, with pink. It has a satin sheen over its petals. It is universally regarded as the most useful of roses, for it is hardy, beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time, is exquisitely colored, and fragrant in the highest degree. A rose of which no one can have too many. Price, 10 cents.

PERLE DES JARDINS. Unquestionably the finest yellow rose for either winter or summer flowering. The flowers are very large and double, of perfect form. Color, a rich shade of yellow; a healthy, free grower, with beautiful foliage and unequalled in profusion of bloom. No collection of roses is complete without Perle.

MADAM C. TESTOUT. A really grand rose of the La France type, but larger and of better color. It is clear pink—there is nothing in the rose line that can approach it in color—and the flower is as large as Baroness Rothschild, and as free as La France. Very fragrant; a magnificent forcing variety.

THE BRIDE. Who does not know the beautiful Cath. Mermet? and this is a pure white one, without doubt the finest of all white roses for all purposes.

CORNELIA COOK. Color, a beautiful creamy, white, buds of immense size and very double; a magnificent flower when full grown, and a very free bloomer; flowers very sweet and fragrant.

Papa Gontier.

METEOR. A rich, dark, velvety crimson, everblooming rose, as fine in color as the best of the Hybrid Perpetuals; the flowers are of good size, very double and perfect in shape, either as buds or when fully opened; the plant is vigorous and remarkably free flowering. A splendid sort for pot culture, and the best of all the Hybrid Teas as a bedding variety for summer cut flowers, as it retains its color well, even in the hottest weather.

MAMAN COCHET. (New Tea Rose.) Probably the finest new rose of the season. The growth is vigorous, with rich, healthy foliage, and extra large flowers, which are borne on long, stout stems, very double and simply exquisite when in bud or half bloom. The color is a deep rose pink, the inner side of petals silvery rose. This variety was illustrated and described in the *Journal des Roses* four years ago, and one thousand dollars was refused for the stock by the originator, Mons. Cochet. It will undoubtedly become very popular.

MAD. HOSTE. A beautiful free-flowering Tea Rose, with extra large flowers and superb buds, very full and highly fragrant. A strong grower, and buds can always be cut with long stems. In cool weather the color is ivory white; in summer a bright canary with amber center.

KAISERIN AUGUSTA VICTORIA. Pure ivory white; a flower of grand build, from the very first bud-form till the rose drops its petals. This elegant variety can be had in first-class style and great purity of color throughout the year. A splendid grower, and with most beautiful foliage. Has proved one of the very best of the forcing roses.

WHITE MAMAN COCHET. A sport from that grand sort, Mamam Cochet, with which it is identical in every respect but color. It is a beautiful snow white, sometimes tinged with the faintest suggestion of blush. An extraordinary rose. Hardy with but slight protection.

PAPA GONTIER. A lovely Tea Rose. The blooms are large and long, with thick, broad petals of dark carmine crimson; the inner petals are bright, rosy carmine. The most popular forcing rose of its color.

SOUVENIR D'UN AMI. Fine delicate rose, shaded with salmon; very large, full and double, exquisitely fragrant; a vigorous grower and free bloomer; a rose that should be in every collection.

SOUV. DE WOOTON. (Hybrid Tea.) One of the best of the red forcing roses. Very free, and of easy culture.

ALL ROSES GROWN ON THEIR OWN ROOTS.

Crimson Rambler.

Four beautiful, hardy climbing roses. The introduction of these four climbers furnishes us with new colors for the decoration of porches and pillars.

We have for years had plenty of crimson and yellow climbing roses in the tender class, but none that are hardy where the mercury falls more than ten or twelve degrees below the freezing point. With the Ramblers we may have these much desired colors anywhere in the north. They are all remarkably free bloomers, being literally covered with fine large clusters of flowers that remain fresh and bright for an unusual length of time.

CRIMSON RAMBLER. Another season's trial fully justifies all the praise that has been given it in the past. Wherever seen during the past summer it has been a mass of rich glowing crimson, and everyone who has it is delighted with it. Perfectly hardy, wonderfully free flowering; intensely bright and vivid in color. The plant is a strong, rampant grower, making shoots ten to fifteen feet long in a season after the first year, or when well established. The flowers are produced in large trusses, pyramidal in shape, often thirty-five to forty in a cluster, fairly covering the plant from the ground to the top with a mass

THE FOUR RAMBLERS.

of bright glowing crimson. The color is simply superb and is retained unfaded or without showing any of the purplish tinge so often seen in dark roses, for an unusual length of time. For walls, pillars and porches, or any other place where a hardy climbing rose is wanted, nothing can be more desirable or beautiful. If grown in beds and pegged down, it makes a brilliant display with its profusion of bloom, large clusters shooting out from each joint. As many as three hundred blooms have been counted on a single branch. Each, 15c; 4 for 50c; large plants 40c to \$1.00 each.

YELLOW RAMBLER. (Aglaia.) The only yellow hardy climbing rose. Rosarians have for years been trying by hybridizing, to produce a yellow climbing rose that would stand the zero weather of our northern winters, and Mr. P. Lambert, the noted German rosegrower, has at last succeeded in producing the coveted variety. It has been thoroughly tested and found to successfully withstand without protection a continued temperature of zero and below. It is similar to Crimson Rambler in manner of bloom, the flowers being in immense clusters and having the same lasting qualities, remaining in bloom three to four weeks without fading; color clear yellow, very fragrant. The plant is even freer in growth than Crimson Rambler and soon makes a fine showy specimen. 10c; 3 for 25 cents; large plants, 25 to 50 cents each.

WHITE RAMBLER (Thalia.) In habit of growth, foliage, manner of blooming and shape of flower this is identical with C. Rambler, differing only in color, which in Thalia is a pure, clear white. 10 cents; 3 for 25 cents; large plants, 25 to 50 cents each.

PINK RAMBLER (Euphrosynn.) The flowers appear in large full, handsome pyramidal trusses, similar to Crimson Rambler, and are borne in great profusion from three to five weeks during the season. The parentage of this remarkable new variety is particularly desirable; it is a cross between Sarmientosa (the parent of Crimson Rambler) and Mignonette, one of the freest-flowering of Polyanthas. The color of the flower is pure shiny rose; the half-opened bud is a brilliant light carmine, making a strong and effective contrast. The numerous yellow stamens lend an additional charm to the flower. Each, 10 cents; 3 for 25 cents; large plants, 25 and 50 cents each.

ALL ROSES GROWN ON THEIR OWN ROOTS.

THE LA FRANCE SET.

Seven of the Best Roses for the Garden. In $2\frac{1}{2}$ inch Pots, 50 cents; in $3\frac{1}{2}$ inch Pots, (express only,) \$1.75.

PINK LA FRANCE (Hybrid Tea Rose). We have always given this the first place, the queen of all the roses. Accounts come to us, from all quarters, every year, describing the great profusion of its bloom from June to frost, and extolling its fragrance and immense size; it is of superb form and double as a rose can be. No variety can surpass it in delicate coloring, silvery rose shades, with pink. It has a satin sheen over its petals. It is universally regarded as the most useful of roses, for it is hardy beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time, is exquisitely colored, and fragrant in the highest degree. A rose of which no one can have too many. Price, 10 cents; large size, 25 cents.

WHITE LA FRANCE (Augustine Guinoisseau). Here we have a beauty indeed, one we can recommend to all, whether for outdoor culture or for pots in the house in winter. If you were to ask us to select six of the very finest roses for you, we should be sure to include it in the six. Do you know La France? If so, you know this elegant rose. It is identical with La France, except the color. It is pearly white, sometimes tinted with fawn. We predict for it far more popularity than La France ever attained. Don't fail to get this rose. Price, 10 cents; large size, 25 cents.

THE RED LA FRANCE (or Duchess of Albany). It is identical with La France, excepting in three points. These are: a more vigorous growth, a larger and more expanded flower, and a deep, even pink in color; not shaded, but what is called a solid color. Ladies prefer it on account of its beautiful color to any other rose for personal adornment, as it shows up well against either light or dark dress goods to a charming advantage. The growth of the plant is exceedingly vigorous, and the flowers, which are thrown up well above the foliage, are produced in extraordinary profusion, the plant being covered with handsome flowers. You will make no mistake to plant this rose largely. Price, 10 cents; large size, 25 cents.

STRIPED LA FRANCE (Madame Angellique Veyssett.) Everybody knows the beautiful La France—a rose that always had such a ready sale that the demand has never been fully met. Striped La France combines all the good qualities of La France in growth, fragrance, shape of bud and flower; in fact differs from it only in two points. First, it is freer in bloom than the parent; second, it is nicely striped, the marking being plain and distinct, the variegation a beautiful bright rose on a satin-pink ground. This rose has received several certificates of merit, as shown before the rose societies in this country as well as in Europe. Price, 10 cents; large size, 25 cents.

White La France.

CLIMBING LA FRANCE. Identical with La France in every respect except in style of growth, which, in this new variety, is of a strong, climbing habit, making it an excellent pillar or porch rose. It is a sport of La France, and retains the charming peach-pink color and the exquisite fragrance which have made La France the favorite. Price, 15 cents; larger plants, 35 cents.

KAISERIN AUGUSTA VICTORIA. In this variety we have one of the most beautiful of all roses for open-ground culture; it is a strong, healthy grower and as hardy as any of the Hybrid Perpetuals, while it blooms with unbroken continuity from early spring until severe frosts, in fact it is as free a bloomer as any of the Tea roses. It is celebrated the world over for its elegant, long, pointed buds and large, full, double flowers. Color satiny white, deliciously fragrant. 10 cents each; large plants 25 cents each.

ETOILE DE LYON. This is considered one of the finest yellow bedding roses for outside planting; it is, moreover, one of the hardiest in the Tea section. It blooms freely and every flower is a gem. It equals Marechal Niel in size on strong bushes. A deep chrome-yellow. A remarkable rose, deserving extensive culture. 10 cents each; large plants, 25 cents.

ALL ROSES GROWN ON THEIR OWN ROOTS.

NANZ & NEUNER'S

Grand Admiral

COLLECTION

OF 12 HARDY ROSES.

The Grand Admiral collection of twelve hardy roses named below are some of the best offered out of the large collection we offer in this catalogue. We will help our patrons to select. If twelve sorts are wanted we believe it would be impossible to improve on this selection, they are unequalled in their class, combining the greatest variety of form, richness of color and freedom of bloom which it is possible to get in that number. We offer the collection of 12 in 2-inch pots for \$1.00; 10 cents each. Larger size, \$2.50; 25 cents each or \$2.50 for the set.

GLOIRE DE MARGOTTIN. The flowers are very large, somewhat globular, very full and deliciously scented; the color is a clear dazzling red, one of the most brilliant roses ever seen.

GLORY OF THE EXPOSITION OF BRUSSELS. Large, full flowers; fine fragrance; color deep velvety, purplish amaranth, almost black; base of petals fiery red. We recommend this as one of the most satisfactory of all hardy roses. A superb variety.

Gloire Lyonnaise.

Dinsmore.

ANNA DE DIESBACH. Bright rose color, very large and showy; particularly fine in bud; flower slightly cupped. A vigorous grower; one of the best.

GLOIRE LYONNAISE. This is the nearest approach to a yellow in this class. A pale shade of salmon yellow, with deeper center, changing to creamy white.

GEN. JACQUEMINOT. Brilliant crimson; very large, globular and excellent; a free bloomer, unsurpassed in its clear, rich crimson scarlet color.

ROULE DE NIEGE. A finely formed, pure white rose. Occasionally shows white flesh with first opening. Beautiful shaped petals evenly arranged.

MARIE BAUMAN. Brilliant crimson-carmine, exquisite in color and perfume.

DINSMORE. A grand rose, very popular and highly recommended for garden planting on account of its hardiness and vigor of growth and constant and profuse bloom, which begins soon after planting and continues all through the season. Flowers are large and perfectly double; color rich crimson scarlet, very showy and handsome, and delightfully fragrant.

MAD. PLANTIER. This grand variety, when once planted, is as permanent as a Hydrangea. It is hardy as an Oak, and for outdoor planting it is the best white hybrid perpetual. We recommend it for cemetery planting because of its permanency. Flowers are pure white, very large and double; it is a profuse and continuous bloomer. Good white hardy roses are scarce—this is one of the very best.

BLACK PRINCE. A superb hybrid perpetual rose, a very dark, blackish-red, richly shaded with violet-crimson, extra large, full flowers, delightfully perfumed, good bushy habit, a hardy and vigorous grower and free bloomer. One of the very best dark roses.

DR. ANDRY. Rich, rosy crimson, large flowers, fine; smooth petals, superb.

PAUL NEYRON. Deep rose color, the largest flower of all in cultivation, free bloomer.

ALL ROSES GROWN ON THEIR OWN ROOTS.

The Golden Gate Collection,

The Golden Gate Collection of fifteen beautiful roses in 2½ inch pots for \$1.00. Large plants in 4 inch pots (per express only), \$3.50 for the collection.

GOLDEN GATE. A rose of rare beauty, strong, healthy growth and great freedom of bloom. The flowers are extra large and finely formed, with broad petals of lasting substance; buds long and pointed. Color of creamy white, delicately tinged with golden yellow and rose.

PAPA GONTIER. A magnificent red Tea. It is a strong grower, with fine healthy foliage; the buds are large and long, with thick, broad petals of dark carmine crimson color, changing to a lighter shade, in the open flower. An excellent winter blooming variety, and one of the best for outdoor planting, opening up its flowers in beautiful shape.

AMERICAN BEAUTY. A truthful description of this rose would sound like exaggeration. It grows as vigorously as a Hybrid Perpetual, and blooms as freely as the Hybrid Teas, while the flowers are of great size, boldly carried and most deliciously fragrant; rich, high rose color. Globular, hardy.

METEOR. A rich, dark velvety crimson ever-blooming rose, as fine in color as the best of Perpetuals; the flowers are of good size, very double and perfect in shape, either as buds or when fully opened; the plant is vigorous and remarkably free-flowering, splendid for pot-culture, and the best of the Hybrid Teas as a bedding variety for summer cut flowers, as it retains its color even in the hottest weather.

CORNELIA COOK. Beautiful creamy white, buds of immense size and very double; does not open well at all times, which is its weak point, but when well grown it is a magnificent flower.

PERLE DES JARDINS. This magnificent rose still retains its position as the finest rose of its color. The color varies from canary to golden yellow, flowers large and beautifully formed; handsome in every stage of development, from the smallest bud to the open bloom. The color, whether light or deep, always has a peculiar softness not observed in any other yellow rose. Very full and highly perfumed. It is the favorite yellow rose.

MAD. HOESTE. A beautiful free flowering Tea rose, with extra large flowers and superb buds, very full and highly fragrant. A strong grower, and buds can always be cut with long stems. In cool weather the color is ivory white; in summer a bright canary with amber center.

HERMOSA (Bourbon). Always in bloom and always beautiful. The flower is cupped, finely formed and full; color most pleasing shade of pink; very fragrant. A favorite with every one.

BRIDESMAID. Color, a bright, clear pink; a lovely shade; flowers very large, perfectly double. The buds are large and solid with long stiff stems and handsome glossy foliage. It has all the good qualities of a first-class winter blooming rose, a strong healthy growth, free from disease; is easily grown and produces very freely buds of the largest size of a color that can be used to advantage on all occasions. It is also an excellent bedding variety for outside flowering in summer.

Mad. Hoste.

THE BRIDE. The most popular white rose for winter flowering. The flowers are very large and double, on long stiff stems, of fine texture and substance, and last a long time in a fresh state after being cut, making it one of the best varieties for corsage wear or bouquets. During extreme hot weather it becomes a pinkish white, at other times a beautiful pure white.

MARECHAL NEIL. Beautiful deep yellow; very large, full, globular form; sweet scented, free flowering; one of the finest yellow tea scented roses yet introduced. A good climbing rose.

GENERAL JACQUEMINOT. So well known that it hardly needs a description. It is a bright shining crimson, very rich and velvety, exceedingly brilliant.

MAD. ETIENNE. Makes elegant buds and the flowers are extra large, very full and deliciously sweet; color bright, rosy pink, passing to clear rose, brightened with pink, elegantly shaded and very beautiful. It is a strong, healthy grower and a wonderfully free and constant bloomer. 15 cents each.

MADAME DE WATTEVILLE. This grand everblooming rose is one of the most beautiful varieties we have ever sent out, and is very largely planted by those who know its beauty. The color is a remarkable shade of creamy yellow, richly colored with rosy blush. The petals are large and each one widely bordered with bright crimson, which gives it a very striking and beautiful appearance. The flowers are large, very full and highly perfumed. This is the tulip rose, so called because of the feathery shading of bright rose around the edge of every petal, the body of the petal being creamy white and of heavy texture.

LA FRANCE. Delicate silvery rose, shaded with cerise pink, often silvery pink with peach shading. Very large, very double and of superb form. It flowers continually throughout the season. None can surpass the delicacy of its coloring; in fragrance incomparable; in form perfect. The sweetest of all roses. It ranks first not only in the section to which it belongs, but stands first and foremost among roses.

Large Plants, by
Express, \$2.00.

A bargain collection of
twelve beautiful, con-
stant blooming roses
for only 50 cents,
postpaid. Larger size
by express, \$2.00.

**MADAME ELIE LAM-
BERT.** A beautiful
new Tea rose. The
colors are not particu-
larly remarkable—
scarcely unusual—and
yet we have no hesi-
tancy in recommend-
ing it as one of the
most beautiful and
valuable roses of
which we have any
knowledge. The flow-
ers are extra large,
fine globular form,
very full and well
built up.

**CATHERINE MER-
MET.** One of the fin-
est roses grown. The
buds are very large
and globular, the pet-
als being recurved and
showing to advantage
the lovely pink of the
center, shading into
light creamy pink, re-
minding one of the
La France in its sit-
very shading. A
strong grower and a
fine bloomer.

ALINE SISLEY. Free bloomer, color varying from red to
purplish rose; a splendid sort, exceedingly select.

THE RAINBOW. This new rose from California was
awarded a silver cup by the State Floral Society. Color
a lovely shade of deep coral-pink, striped and mottled in
most unique manner, with intense crimson elegantly col-
ored with rich, golden amber at center of base of petals;
makes beautiful buds; flowers extra large, sweet, and of
great depth and substance.

GOLDEN GATE. White, yellow and rose. A magnificent
variety, with extra large, full, finely formed flowers;
buds long and beautiful. The color is rich, creamy
white, delicately tinged with golden yellow, with petals
tinged with clear rose, making altogether a rose of rarest
and most indescribable beauty. Blooms freely and con-
tinuously.

MAD. JOSEPH SCHWARTZ. A strong, vigorous grower,
and one of the hardest Tea Roses for out-door bedding.
The flowers are cup-shaped and borne in clusters; color,
white, beautifully flushed with pink.

THE QUEEN. A pure white rose, elegant shape and very
large size. A vigorous and healthy grower and contin-
uous bloomer, producing a great abundance of buds and

Golden Gate.

flowers all through the season. Buds finely formed; pet-
als thick, of good substance. Opens well and very sweet.

MRS. D'GRAW. Everybody wants a hardy, everblooming
rose, and we now offer the grandest of this class. From
early summer until frost it can be depended upon to pro-
duce flowers of large size and exquisite fragrance in lav-
ish abundance. In color it is a rich, glossy-pink. It is
such a strong grower that it is always impregnable
against attacks of insects. For garden or cemetery it has
no equal.

HERMOSA. An excellent rose, blooms in fine clusters;
large, very double and fragrant; color beautiful clear
rose; a constant bloomer; hardy; one of the best.

MIGNONETTE. A splendid variety, one of the very best;
full regular flowers, perfectly double and deliciously
perfumed; color clear pink, passing to white, tinged with
pale rose; an immense bloomer; very valuable.

QUEEN'S SCARLET. (China.) Rich crimson, changing to
light scarlet; very free flowering.

SOMRREUIL. Large, fine formed flowers; white, tinted
delicate rose; blooms in clusters.

ALL ROSES GROWN ON THEIR OWN ROOTS.

THE HARDY MEMORIAL ROSE.

Creeps on the ground like ivy; dark green leaves. Numberless satiny white flowers, with golden yellow disks. Hardy as grass and will grow in sun or shade.

New Hybrid Wichuraiana Roses or the Double Memorial Roses.

NEW EVERGREEN ROSES.

The most remarkable achievement and improvement of a new and distinct type or Hardy Roses that has been made for a generation. The growth is remarkable for its freedom, a single plant, four years old, covering a space of 240 square feet, with long shoots, twelve to twenty-five feet in length, completely covering the ground with its bright glossy foliage and showy, fragrant flowers. The foliage of all is leathery in texture, shiny, and not only proof against insects, but evergreen; that is, keeping the foliage all winter; a characteristic in roses never before obtained.

The flowers are produced most profusely, are all of large size, very fragrant, and can be easily used for cut-flower purposes, especially when in bud. The use of these roses will be unlimited; for covering graves, to cover roots, stumps and stems of trees, walls and trellises, and also for forcing as pot plants during spring, especially for Easter.

JERSEY BEAUTY (Wichuraiana X Perle des Jardins). Extremely vigorous grower, foliage shiny, thick, of leathery substance. Flowers singly or in clusters of two to four, large, single, three inches in diameter, opening pale yellow, with clusters of bright yellow stamens, which gives it a most striking appearance, fragrant, and produced in greatest profusion, covering the plant entirely, and having the appearance of a Yellow Cherokee Rose. Most striking variety of the set. Each, 15 cts.

EVERGREEN GEM (Wichuraiana X Madame Hoste). The most wonderful grower of the set. Foliage fine rich bronze color, closely matted. Flowers produced singly on stems, yellow, buff in bud, opening to almost white, two or three inches in diameter, perfectly double, and of a delightful sweetbriar fragrance. Each, 15 cents.

GARDENIA (Wichuraiana X Perle des Jardins). Strong grower with large green foliage. Flowers produced singly on stems one-half to one foot long. When in bud, hardly distinguishable from Perle, bright yellow, and when open cream color, three to three and a half inches in diameter, incurving towards evening to perfect imitation of Gardenia or Cape Jessamine as to shape and color, hence its name. Flowers are delightfully fragrant, and produce freely. A grand rose for any purpose. Each, 15 cents.

PRICE any of the above, fine strong plants from 4 inch pots, 35 cts. each; \$3.50 per doz. Set of 3 varieties for \$1.00.

THE MEMORIAL ROSE.

(Rosa Wichuraiana.)

A beautiful single rose from Japan. Blooms in clusters on the ends of short branches during July and August. Flowers fragrant, single, pure white, from 6 to 8 inches in circumference, with yellow stamens, followed in fall and winter with bright red fruit. Foliage dark shining green, almost evergreen; prostrate, trailing habit, and soon forms a dense mat or covering. Valuable for covering low walls, banks or rockeries, and for covering graves in cemeteries. It is perfectly hardy. Each, 10c.

Strong 2-year-old plants, 30 cts. each; \$3.00 per dozen.

Strong 1-year-old plants, 20 cts. each; 2.00 per dozen.

HYBRID WICHURAIANA ROSES.

These pretty hybrids of this most useful rose are quite hardy and need no protection whatever in winter, and from

New Rose—Gardenia.

their trailing habit are admirably adapted for covering rock-work or bare spaces, as well as planting in the border. They are of very free growth, with foliage of a fine deep green, which last until well on in the winter. The flowers are produced in immense quantities, and last a long time in perfection. Altogether very desirable.

TRIUMPH. This variety is of free growth, with fine foliage, double white flowers produced in clusters; sweet scented.

SOUTH ORANGE PERFECTION. Dwarf trailing habit, double flowers, blush-pink at tips, changing to white.

UNIVERSAL FAVORITE. Soft light pink flower, very fragrant.

PINK ROAMER. Strong grower, with single bright rich pink flowers and almost white center; orange-red stamens. Extra strong 1-year-old field-grown plants, 30 cts. each. Set of 4 varieties, \$1.00.

Good young plants, 10 cts. each. Set of 4 varieties, 35cts.

ALL ROSES GROWN ON THEIR OWN ROOTS.

Collection of Newest and Best Roses

OF LATE INTRODUCTION.

No branch of rose-growing is so fraught with pleasure, and frequently with disappointments, as the testing of new varieties. We think we can safely assert that nothing in roses, European and American, has escaped our notice. The very newest as well as all the standard varieties are to be found here. With the vast collection of roses offered in this book we hardly think any one will question our claim of having one of the leading rose-growing establishments of America.

Under the above heading we offer, after careful tests, the best of the newer roses introduced during the past few years up to 1901. Among them will be found American-born varieties—just as beautiful as their sister varieties produced and procured from France, England and Germany.

The Below Mentioned Rose has been Well Tested in Kentucky Soil and Climate.

Beaute Inconstant.

AMERICAN PERFECTION. This is a new American variety. It is a sport from Mad. Pierre Guillot and resembles Ernest Metz in foliage and flower. It is a very good rose and worthy of a place in the list. The color is light pink, shading deeper toward the center of flower. The flower is very double, full and deep; in the bud its is exceedingly handsome. Fine free blooming and strong grower, especially adapted to winter blooming. 15 cents each; large plants, 25 cents each.

BEAUTE INCONSTANT (Pernet.) A charming rose of the most variable coloring, especially beautiful in the bud state, when the color is orange scarlet, contrasting finely with the bright green calyx. A grand improvement on Ma Capucine, both in size and brilliancy. On opening it displays a number of bright shades. Price, 15 cents each.

COMTESSE DUBY. Cream yellow.

CLIMBING SOUV. DE WOOTEN. Bright cherry crimson. 15 cents each.

CLIMBING SOUV. DE LA MALMAISON. Very large and double, flesh color. 15 cents each.

BELLE SIEBRECHT. A truly superb rose, of a rich, imperial pink. The flowers are large and beautifully formed, of sweetest perfume, and of that long, tapering shape, with high center and of great substance. The plants are of easy and vigorous growth, with large, glossy foliage of leathery texture. A most prolific bloomer, every shoot producing a perfect flower on long, strong stems. This gem is not only hardy outdoors, but excels all potting roses in color, form and freedom of bloom. This rose has been tried by us on a large scale, and we can heartily recommend it for all purposes. Price, 15 cents each; \$1.50 per dozen; large plants, 30 cents.

CLIMBING METEOR. This gem of a Hybrid Tea Rose may properly be called a perpetual blooming, climbing General Jacqueminot, but it will produce twenty buds to Jacqueminot one. Buds are exquisite in form, flowers large, beautifully shaped, and of a rich, dark crimson color. Foliage strong, healthy and luxuriant. For outdoor or greenhouse cultivation we claim this the finest rose in existence; it will grow 10 to 12 feet in one season and produce the finest buds without interruption. Price, 25 cents each; 5 for \$1; large plants, 50 cents.

GERMAINE TROCHON. (Hybrid Tea.) Salmon, with orange nankin color, rose border, long buds. 15 cents each.

GRAZAILLA. Creamy white, pink center, large bud, the tint of Malmaison. 15 cents each.

MRS. BALDWIN. New and thoroughly distinct, especially in color, which is a beautiful crimson red; a splendid outdoor rose. Perfectly hardy; a strong grower and free bloomer. Each, 15 cents; large plants 35 cents each.

MAMAN COCHET. A fine novelty, equal in beauty of buds to Catherine Mermet or Bridesmaid; very free flowering; clearest pink with salmon base; very free. 15 cents each; two-year-old plants. 30 cents.

ALL ROSES GROWN ON THEIR OWN ROOTS.

New Rose, Liberty.

GRAND NEW ROSE LIBERTY. Most nearly approached by Meteor in color, but far surpassing that standard variety in brilliancy and purity of color, as well as in size, never showing any deformed, black or bull heads, either in

winter or summer and far surpassing Meteor in freedom of bloom. A remarkable keeper when cut, keeping its brilliancy of color without turning blue or dropping its petals, as is the case with Gen. Jacqueminot, which it somewhat resembles in size and fragrance. 30 cts. each.

This New
Rose has
Proven to
be the
Finest
Velvety
Red Rose in
Cultivation,
Every One
Should
Have Same.

Grand New Rose, Liberty.

MRS. PIERREPONT MORGAN. A sport of Mme. Cusin, and in every respect superior to it. The flowers are larger and very double, many of them measuring four inches across, and the foliage is also more luxuriant and larger. It is a most prolific bloomer, the flowers being of an intensely bright cerise or rose pink. By authorities on roses this variety is pronounced the finest and most perfect Tea Rose out. Price, 15 cents each; \$2 per dozen; large plants, 30 cents.

MME. JOS. COMBET. (Hybrid Tea.) Creamy white, with rose reflex; very sweet and free.

PAUL'S EARLY BLUSH. (Hybrid Perp.) A good, bright pink, with satiny flesh color, rich and free.

PRINCESS BONNIE. Sweeter than "La France." The best for winter blooming; blooms all the time. The brightest, sweetest, and freest blooming rose in existence. Such is Princess Bonnie. Color solid crimson, deeper and more vivid than Jack. Fragrance far sweeter than La France. Produces more perfect flowers than Clothilde Soupert, the most prolific of all roses. Blooms continuously in clusters; hardly a day without flowers. Positively the best rose for winter blooming. Every one

should give it a trial. In beauty and exquisite fragrance it is not equaled by any rose we know, while for continuity of bloom and vigorous, healthy growth, it even surpasses a geranium. We offer strong, well-rooted plants, from 3-inch pots, at reduced price. Price, 15 cents each; large plants, 25 cents.

SENATOR M'NAUGHTON. A grand new forcing or cut flower variety, a sport of Perle des Jardins, with which it is identical in every respect except color. It has the same rich, glossy foliage, sturdy habit of growth, and free-blooming qualities. The flowers are very large and full, with excellent shaded buds. 25 cents each.

MRS. W. C. WHITNEY. A grand, new rose of deep, clear pink shade; buds long and beautifully rounded, immense in size, on long, heavy stems; the very freest of all midwinter roses, at which time the flowers are very double and of the purest, brightest shade. Hybrid Tea of the sweetest fragrance. This rose has proved one of the most satisfactory and profitable on our place; it is extremely free in growth, and of the easiest management. Price, 15 cents each; \$1.50 per dozen; large plants, 30 cents.

ALL ROSES GROWN ON THEIR OWN ROOTS.

MRS. ROBERT GARRETT (Hybrid Tea). A variety of American origin with extra large, almost entirely double flowers and long beautifully-shaped buds; in color it is a soft rich pink, which illuminates grandly under artificial light, and of exquisite fragrance; it is a remarkably healthy, vigorous grower, throwing up great numbers of strong shoots from the base of the plant; wonderfully free flowering, producing no blind wood, every shoot being crowned with a bud. Good young plants, 20 cents each.

SOUVENIR DE PRESIDENT CARNOT is a magnificent variety. This French belle is so fascinatingly attractive that its future is insured. Nothing we have yet seen will compare with the beauty and perfection of its flowers. The flowers are large, perfectly double, exquisitely shaped, with heavy, thick, shell-like petals. The buds are superb—long and pointed like Niphotos; indeed, it is perfection in grace and finish. The flowers are borne on long, stiff stems, and are produced in remarkable profusion; the color is new and exceedingly refined—a delicate rosy blush, shaded a trifle deeper at the center of flower. The fragrance is the proverbial Hybrid Tea odor, delicious and charming. The plant grows strong and sturdy. It has no weak spot in its constitution. The foliage is unusually large, heavy and handsome. In every way it is a rose of remarkable merit. The prominent cut-flower growers are so much impressed with it that they agreed to make it a leading variety because of its great beauty and strong growth. It will spring at once into popularity. Don't fail to get it. Strong three-inch pot plants, ready to bloom immediately. 15 cents each; larger plants in limited supply, 35 cents each, by express.

Mrs. Robt. Garrett.

Souvenir de President Carnot.

WHITE MAMAN COCHET. A magnificent, ever-blooming Tea rose. This is a superb variety, and to see it in bloom one is lost to find words to express its wonderful beauty. It is identical with its parent, Maman Cochet (the queen of all pink roses), except in color of flower, which is snow white, sometimes faintly tinged with the faintest suggestion of pale blush. It has the same freedom of bloom, magnificent form of buds and flowers, which are marvelously beautiful in its perfection; the flowers are large and very double, with petals of unusually heavy texture, making it of more than ordinary value in the open ground. It has the vigor of an oak, with large, heavy foliage, which is impervious to disease. Hardy with protection. Of extraordinary merit. 15 cents each. Two-year-old plants, 30 cents each.

Above 15 cents each, except where noted. Larger plants, 30 cents each, \$3 per dozen.

ALL ROSES GROWN ON THEIR OWN ROOTS.

HYBRID TEA ROSES.

American Beauty.

The Hybrid Tea Roses deserve to become the most popular in cultivation, because they combine all desirable qualities—strong, vigorous growth, powerful fragrance, and continuous production of most gorgeous flowers. Price of all Hybrid Tea Roses, 10c each, from 2½ inch pots, or 12 for \$1; large plants, 30 cents each; \$3 per 12, except where noted.

BONA WELLISHOTT. A very strong grower; flower large and double, and of the centifolia form. Color rosy vermillion, with center of orange-red; very sweet.

AMERICAN BELLE. This new variety is the most important introduction in roses since the advent of the "American Beauty," and it is universally admitted by expert growers all over the country to be a distinct advance in color over its parent (Beauty), while holding all the good qualities, delicious fragrance, size, etc., of that magnificent variety. The color is the loveliest shade of bright pink; in all other qualities it is equal to its famous parent, "American Beauty." 20 cents each.

AUGUSTINE GUINOISEAU. (White La France.) Here we have a beauty indeed; one we can recommend to all, whether for out-door culture or for pots in the house in winter. If you were to ask us to select six of the very finest roses for you, we should be sure to include it in the six. It is pearly white, sometimes tinted with fawn.

ANTOINE VERDIER. Very large, full and of fine shape; color, a rich, carmine pink, slightly shaded with white; of good growth, with nice light foliage, of the La France type.

AMERICAN BEAUTY. A truthful description of this rose would sound like exaggeration. It grows as vigorously as a Hybrid Perpetual, and blooms as freely as the Hybrid Teas, while the flowers are of great size, boldly carried and most deliciously fragrant; rich, high rose color. Globular, hardy. 15 cents each.

AUGUSTINE HALEM. (Hybrid Tea.) Like a Hybrid, but blooms as free as a Tea Rose; color beautiful dark crimson, a beautiful free-flowering rose and very fragrant.

BEAUTY OF STAPLEFORD. Deep, rosy red, with dark purplish rose center; one of the best of this class.

ALL ROSES GROWN ON THEIR OWN ROOTS.

DUCHESS OF ALBANY. (Hybrid Tea.) A deep, even pink La France; highly perfumed and in all respects first class. This variety will become equally popular as La France for every purpose. We find this beautiful rose to be a freer bloomer and more vigorous in growth than La France. 15 cents each.

EARL OF PEMBROKE. Color very soft, velvety crimson, enlivened on margin of the petals with bright red; quite distinct, and good for all purposes.

KAISERIN AUGUSTA VICTORIA. Pure Ivory white; a flower of grand build, from the very first bud form till the rose drops its petals. This elegant variety can be had in first-class style and great purity of color throughout the year. A splendid grower, and with most beautiful foliage. Has proved one of the very best of the forcing roses. Has no rival as a bedding rose, producing the finest buds all summer.

LA FRANCE. Oldest and best of all Hybrid Teas. Delicate silvery rose; very large, full, globular form; extra fine.

METEOR. A velvety-red everbloomer has long been demanded, and now we have it; not the satin finish and lighter red of Papa Gontier, but the deepest glowing crimson, as fine as a hybrid; flower of medium size, very double, and petals slightly recurving; a beautiful open rose, a free bloomer. This variety has far exceeded our expectations in every respect.

MME. SCHWALLER. Of great freedom of bloom, color rosy flesh, paler at base, globular to cup-shaped, of bushy growth and very free bloomer; has the fragrance of La France.

MME. C. TESTOUT. A really grand rose of the La France type, but larger and finer in shape, and noted especially for its bright, vivid rose color. As large as a Baron Rothschild and as free a bloomer as La France; will become very valuable as a forcing plant. 15 cents each.

MADAM PERNET-DUCHER. A good, well-formed bud, quite long and of a distinct shape and form. Color a light canary yellow. The finest distinct yellow Hybrid Tea.

MADAM A. VEYSSET. ("Striped La France.") A magnificent new rose, identical in every respect with its parent, La France, except in two particulars—it is stronger in growth and flowers are beautifully striped and shaded with a delicate white.

Duchess
of
Albany.

Kaiserin
Augusta Victoria.

MRS. ROBERT GARRETT (Hybrid Tea). A variety of American origin, with extra large, almost entirely double flowers and long beautifully shaped buds; in color it is a soft rich pink which illuminates grandly under artificial light, and of exquisite fragrance; it is a remarkably healthy, vigorous grower, throwing up great numbers of strong shoots from the base of the plant; wonderfully free flowering, producing no blind wood, every shoot being crowned with a bud. Good young plants, 20 cents each; \$2 per dozen.

PIERRE GUILLOT. Bright, cherry red flowers, full and large; very free blooming, of good habit; next to a La France the best for general culture.

SOUVENIR DE PRESIDENT CARNOT. This grand new rose has taken more medals and certificates of merits than any other rose. It is a beautiful rose for forcing, combining strong vigorous growth with long stemmed large flowers of great substance, makes a splendid rose for outdoor planting, perfectly hardy, and of good habits; color of flowers light pink, edge of petals, flesh color. 15 cents each.

SOUV. DE WOOTON. Of strong, erect habit of growth and remarkably free flowering; every shoot is crowned with one or more buds. Color, crimson-red, changing to rosy-crimson. Very sweet scented.

TRIUMPH DE PERNET PERE. The flowers are extra large, having broad, thick petals and long, tapering buds, with delicious tea fragrance. Color a fine, clear magenta-red, sometimes passing to a bright crimson. Very striking and beautiful and of such good substance that the flowers retain their beauty for a long time. Very brilliant and beautiful.

WONDER OF THE WORLD. A fit companion for the old favorite Hermosa, only distinct from it in form and texture of flower; will prove a fine bedder.

ALL ROSES GROWN ON THEIR OWN ROOTS.

General Collection of EVER-BLOOMING TEA ROSES.

Bridesmaid.

The ever-blooming Teas are universally regarded as the most desirable and valuable roses for general planting in the open ground. Small plants, such as are sent by mail, will produce a prodigious amount of bloom in the first year; they commence to flower almost as soon as they are planted, and continue throughout the entire season, the flowers increasing in size and beauty until late autumn. They are noted for their exquisite delicacy of coloring and their delightful fragrance. While they are not to be classed among hardy roses, it is safe to say they will stand severe winters in open ground with good protection. For quick and satisfactory results plant the Ever-blooming Tea Roses, either mailing size or two-year-old plants. The harvest of bloom during the first year will more than compensate for the trifling outlay and effort expended.

Remember all our roses are grown in two and a half and three-inch pots. Not forced in one and a half and two-inch pots.

Remember you can select fifteen roses from the below-named unrivaled sorts, to be delivered free at your door, by mail, for only \$1; except those with price attached; or according to our new offer to ship roses with all soil attached, we will mail ten roses. Also twenty roses without names for only \$1. See special offer page.

A circular bed four feet in diameter will hold thirty roses, costing you \$2 for mail plants, or by express only the small addition of express charges, which we always offset by adding some gratis plants, etc., etc.

Any of the list of roses we have in two-year-old plants, 25c each; \$2.50 per dozen, unless where noted.

ALBERTINE BOQUET Holly-hock yellow, center canary; very sweet and free.

ARCHDUCHESS MARIE IMMACULATA. A combination of yellow, bronze-peach and rosy crimson.

ANNIE COOK. A seedling of Bon Silene, and somewhat like that variety in growth and shape of flower; the color is like a delicate pink, almost white; the flowers are more double than their parent; very fragrant and lasting.

ADAM. Rose with salmon center; very fragrant and lasting.

ALINE SISLEY. Free bloomer, color varying from red to purplish rose; a splendid sort, exceedingly select.

AURORA. Very pretty and valuable; beautiful rosy blush, changing to clear rose; very pretty and fragrant.

BELLA. Pure snow-white; large size, very full and double; tea-scented; splendid, large, pointed buds.

BON SILENE. One of the best winter bloomers; rosy carmine-shaded salmon; very sweet.

BOUGERE. Extra fine sort; rosy bronze; exceedingly sweet tea-scented; buds very fine.

BRIDESMAID. This is an improvement on the world-renowned Cath. Mermet, about the same shade as the famous Duchess of Albany, the deep red La France, and strange to say, both of these sports bloom more freely than their parents while in growth, foliage, etc., there is no perceptible difference.

BARONESS BERGE. Color bright rose, center clear yellow; very free and continuous bloomer.

COMTESSE ANNA THUN (Tea). A strong bushy growth; flowers extra fine and large, of a rich, orange silvery-salmon; a splendid bedder.

CATHERINE MERMET. Bright flesh color, large, full, and of beautiful form; decidedly one of the finest Teas. Fine bloomer for winter especially.

CHATEAU DES BERGERIES. Light canary-yellow, center darker, large globular flowers of fine shape.

CORINA. Bright pink, shaded coppery red, very free and fine.

CLEMENT NARBONNAND. Cream color, shaded with light crimson suffused with yellow; a strong-growing, free-flowering rose, producing quantities of fine long buds during the hottest weather.

CLIMBING DEVONIENSIS. Of climbing habit, otherwise identical with the Devonensis.

COMTE DE LA BARTHE. One of the freest blooming roses in existence; deep blush, cup-shaped flowers; very sweet, and one of the very best winter bloomers.

COMTESSE DE NADAILLAC. Bright rose, coppery apricot at base of petals, flowers full, large and globular; extra fine.

CHRISTINE DE NOUE. An elegant deep purple Tea Rose of the finest texture and size, forces finely, and is altogether the best Tea Rose of last year. We think highly of it for all purposes.

CHAS. ROSOLLI. Pure rose color, soft and pleasing, large, perfect flowers when open, and a handsome bud.

CORNELIA COOK. Extra fine, pure waxy white flowers; extra large and perfect buds; fine winter bloomer.

COQUETTE DE LYON. Canary yellow; very pretty buds; a very free bloomer; this variety is worth recommendation.

COUNTESS RIZA DU PARC. Bronzed rose; flowers medium size, moderately full; highly perfumed; very vigorous, large and full.

CHROMATELLA. Clear, bright yellow, good form and very sweet; highly prized in the South for a pillar rose.

DUCHESS MARIE SALVIATI. A strong, vigorous grower, flower large and double from long-pointed buds. Color a fine chrome orange, with shadings of rosy flesh, the center pure saffron; sweet violet scented. The raisers claim this to be a good forcer.

DEVONIENSIS. Large creamy flowers, justly called the Magnolia Rose; one of the sweetest roses in existence.

DOUGLAS, OR CRIMSON TEA. Dark cherry red, rich and velvety; large and double; an excellent bedding rose.

DUCHESS OF BRAGANCE. Light canary yellow, full, perfect flowers, opening well; vigorous.

DUCHESS OF EDINBURGH. The first deep crimson-colored Tea Rose out; flowers good size, moderately full; fine buds, free bloomer; excellent for forcing.

DR. GRILL. Medium size, vivid yellow, center light orange, shaded pink; exquisite fragrance.

ETOILE DE LYON. This magnificent Tea Rose originated at Lyons, France; color chrome-yellow, deepening to pure golden yellow, very double and full; deliciously fragrant. It is perfectly hardy here, and therefore, very valuable; only clear blooming yellow rose we have. It is equally valuable for forcing.

E. METZ (Tea). Rosy-carmine, color heightened in center with salmon reflex; large pointed buds on long stems; a real novelty.

E. SABLAYROLLES. A vigorous grower, producing short stems crowned with flowers, color a fine Hortensia rose, interior reddish peach color, shading into bright carmine. Very double.

ESTELLA PRADELL. One of the freest bloomers and growers; extra fine buds of purest white, with light yellow center.

ALL ROSES GROWN ON THEIR OWN ROOTS.

ELIZA FULGER. This is certainly one of the very best new roses of this year. The flowers are of grand size and superb form, well borne upon strong, stout stems. It is described as being somewhat in the way of Niphetos, but to our mind is much more beautiful and vastly more serviceable. The color is a rich, creamy white, beautifully tinged with pure golden yellow. The petals, which are large and broad, are frequently bordered and delicately shaded with soft pearly pink.

ELISE HEYMAN (Tea). Light yellow, shaded with nankeen yellow, center rosy peach; very free-flowering; an excellent bedding sort.

ETOILE D'ANGERS. Long bud, coppery yellow, bordered peach rose, bronze reflex.

GLOIRE DE DIJON. One of our leading varieties; one of the best and hardest for general culture; flowers extra large, full and sweet, of rich, creamy yellow color shaded with amber; good climber for the South, but equally good as a bush rose.

GRAND DUCHESS HILDA (Tea). Plant of moderately free growth, flowers medium in size with larger outer petals; color nankeen yellow with deeper center.

GOLDEN GATE. This magnificent rose is a cross between the old greatly admired varieties, Safrano and Cornelia Cook, and while combining the good qualities of both, is vastly more beautiful than either. It is a strong, healthy grower, excellent for both bedding and house culture. Produces a profusion of long-pointed buds, opening to very large double roses of creamy white, beautifully tinted with soft yellow at the base of the broad petals, which are exquisitely bordered with clear rose.

GRACE DARLING. Rich carmine pink, shaded peach; extra in every respect.

HOMER. Salmon rose; free bloomer; moderately hardy; beautiful buds, varying in color.

HENRY M. STANLEY. A vigorous and healthy grower of neat, compact habit; extra large, finely formed flowers; good substance, quite full and very fragrant; color clear pink, sometimes slightly tinged with salmon. It is a very free bloomer, producing beautiful buds, and will probably prove good for forcing.

ISABELLA SPRUNT. The only real profuse winter-blooming sort; of light sulphur-yellow color, buds exquisite in shape and color.

J. B. VARONNE. A fine grower; flower large and very double, with high center opening from long buds. Color soft China rose, changing to bright, deep carmine of even shading; an extra good rose and very sweet. Much superior to Luciole, which it greatly favors, but of a better growth, and much freer in its blooming qualities.

JANE GULLIAUMEZ. A very vigorous grower, flower large and double, and of good form, with beautiful long buds. Color clear red, touched with salmon; center a coppery red, with pale silvery shadings. Received first-class certificate from the Lyons Horticultural Society.

JAUNE D'OR. Yellow, clouded with fawn; beautiful. Free in growth and bloom.

Jane Gulliaumez.

JULES FINGER. Bright red, changing to brilliant red.

JEAN PERNET. Beautiful light yellow, suffused with salmon-yellow; medium sized, but pretty buds.

LA PACTOLE. Cream-yellow center; extra free bloomer; a good sort.

LA PRINCESS VERA. Flowers large and very full; white with coppery-yellow.

LETTIE COLES. One of the loveliest roses grown; very double-cupped, soft creamy white, bright carmine center.

LUCIOLE. Very bright carmine-rose, tinted and shaded saffron base, coppery, back of petals bronze, large and full, finely scented, good shape, long buds.

LADY ZOE BROUGHAM. Brilliant tawny yellow, darker on edges, large, full, imbricated buds.

LADY CASTLEREAGH. A distinct rose of vigorous branching habit. Foliage large and leathery, a continuous and late bloomer. Flowers very large, full, beautifully formed; petals thick, round and smooth; color soft rosy yellow, with rose color predominating on the outer edge of the petals. A beautiful rose of Irish origin.

LA NEIGE. Creamy white, middle-sized flowers, but very free; a good cut rose.

LEON XIII. In the line of the old Niphetos, color white, shaded to a light yellow; a very distinct and fascinating rose.

MADAM CARNOT. The features that make this a remarkable variety, that must be admired by all, are the sturdy strong growth, straight, stiff branches, enormously large, full double flowers, exquisite elongated buds, and wonderful color and profusion of bloom; yellowish white, back of petals a clear yolk yellow; will attract attention among the finest roses. 15 cents each; two-year-old plants, 35 cents each.

MARION DINGEE (Tea). A splendid new red Tea Rose, and one of the finest additions to our list of bedding roses we have had in years; flowers of good size, nicely cup-shaped, and borne in wonderful profusion all through the growing season. Color deep crimson, changing to carmine in the matured flowers.

MARIANA NEGARA. Bright crimson, magenta shade, strong and free.

MME. PIERRE GUILLOT. Vigorous in growth and of nice shape; flowers large and of nice shape; color yellow, bordered and lined with rosy carmine, reverse of petals, yellowish white. A magnificent variety with long-pointed buds.

MME. ETIENNE. Rosy pink on edge of petals, shading to light rose; large, finely shaped buds; very sweet and fragrant.

MARIE LAMBERT. Identical with Snowflake, pure white; a seedling from Mme. Bravy, and even more vigorous; has been called the white Hermosa, which it resembles in form and freedom of bloom.

MME. WELCHE. Large and double, apricot yellow, shaded dark orange red; free flowering; an excellent sort.

ALL ROSES GROWN ON THEIR OWN ROOTS.

- MME. DE WATTEVILLE.** White, slightly shaded salmon-yellow, edged bright pink; exquisite.
- MME BRAVY.** Creamy white; fine shape; very fragrant.
- MME. CAMILLE.** Large, double cup-shaped flowers; light aurora rose.
- MME CAROLINE KUSTER.** Pale orange-yellow; free bloomer; an extra good sort.
- MME CUSIN.** Purple rose, white center, tinted yellow, large, well formed, extra free bloomer.
- MME JOS. SCHWARTZ.** An excellent rose, one of the best blooming roses we have, buds white and pink tip; pretty and fragrant.
- MME PAULINE LABONTE.** A beautiful rose, fine, full form, very double and fragrant; color salmon rose, delicately tinged and shaded with fawn and amber; a profuse bloomer.
- MME HOSTE (Tea).** One of the very finest roses; a strong, bushy grower, and a bud can always be cut with a long stem and closely set leaves of heavy texture and dark green color. It is like *Perle* in growth, and also in the fact that the buds show different shades in different temperatures. In cool weather it is an Ivory-white (scarcely cream) of even tint; in the summer it is a bright canary with a deep amber center.

Perle des Jardins.

Mme. Francisca Krueger.

- MME. MARGOTTIN.** This is a grand rose, always a favorite, very large, perfectly double, elegant, beautiful, dark citron yellow.
- MARIE GUILLOT.** A first-class rose in every respect; color pure white, extra large size, full and double, sweet tea scented.
- MARIE SISLEY.** Deliciously tea-scented color, an extra fine shade of pale yellow; fine marginal rose.
- MARIE VAN HOUTTE.** White, slightly tinged with yellow; one of the handsomest of Tea Roses, free grower and fine bloomer.
- MARECHAL NIEL.** Beautiful, deep, sulphur-yellow, very full and large, and exceedingly fragrant. It is the finest yellow rose in existence. We have an extra fine stock of this variety. We sell the medium sized plants at the same price as other varieties; two-year-old plants, extra strong that will certainly bloom, 75 cents each. Of this variety we keep also budded plants on the *Mannetia* stock, which will grow three times more freely than those on their own roots; will prove more hardy, and will bloom profusely. These budded plants we offer at \$1 each; extra, \$1.50 to \$2 and \$3 each. We would advise our customers to spend a little more money in order to procure a strong two-year-old plant or a budded one, because a small one-year-old plant dies on your hand almost every year. The *Marechal Niel* is naturally a climbing rose, and should not be pruned too short. When you plant out a budded rose be sure and plant sufficiently deep so that the junction of plant and stock gets at least two inches under the surface of the soil.
- MARECHAL ROBERT.** Pure white, inner petals slightly tinged.
- MME. FRANCISCA KRUEGER.** Orange yellow, shaded flesh, full and perfect, a good bedder, somewhat variable in its color, sometimes rich and glowing, then of a darker shade, but always beautiful; a veritable treasure.
- MME. PH. KUNTZ.** A very strong grower, bearing its flowers erect. These are large and double, of cherry-red color, passing to salmon and flesh.
- PERLE DES JARDINS.** Beautiful straw color; sometimes deep canary, large, full, and of fine form; next handsomest yellow Tea Rose to *Marechal Niel*, and a free and surer bloomer, but of dwarf growth.

- MME. ELIE LAMBERT.** A wonderful, beautiful, new Tea Rose. The flowers are extra large, fine globular form, very full and well built up. The French description says it is the absolute perfection of form. The color is somewhat in the way of *Mme. de Watteville*, but deeper; rich, creamy white, faintly tinted with pale, golden yellow and exquisitely bordered and shaded with soft rosy flesh, exceedingly beautiful and very sweet; petals large and of good substance, constant and profuse bloomer, strong, vigorous and healthy grower—in short, a magnificent rose in every way.
- MME. LAMBARD.** Large, full, exquisite fragrance, beautiful rose tinged salmon buff, reverse of petals crimson.
- MARIE DUCHER.** Rich, transparent salmon, fawn center, large and distinct.

ALL ROSES GROWN ON THEIR OWN ROOTS.

Sunset.

- MISS ETHEL BROWNLOW.** Of robust, branching habit, foliage rich and handsome, very free flowering flowers (carried on stout stems) of great substance and perfect form; the petals are thick, round and very smooth, color salmon-pink, shaded yellow at base of petals.
- MME. CUSIN.** A pretty rose and now grown largely. It is destined to become more popular. It forces finely, and produces quantities of fine red rose-buds.
- NIPHETOS.** Purest snowy white; long, well-formed buds, very sweet scented; a fine winter-bloomer is strong plant.
- OPHELIA.** Creamy white, very large, perfect double flowers.
- PAPA GONTIER.** A magnificent red Tea, a seedling of Duchess of Edinburg; flowers large and semi-double, vivid rose color, reverse of petals crimson, free-growing, and flowering profusely; exceedingly fine.
- PRINCESS HOHENZOLLERN.** Dazzling red, large, fine shape; a seedling of Papa Gontier; extra.

- SOUVENIR D'UN AMI.** One of the best roses for bedding large and very double, full and sweet, color deep rosy flesh, tinged and shaded with purplish lilac.
- SOUVENIR DE VICTOR HUGO.** A bright China rose, yellow center, ends of petals suffused carmine; of decided merit.
- SAFRANO.** Saffron and apricot; one of the oldest and best roses; in the bud shape it can hardly be surpassed.
- SUNSET.** Is a "sport" from the grand old variety Perle des Jardins, which it strongly resembles except in color. The flowers are of large size, fine, full form, very double and deliciously perfumed. The color is a remarkable shade of rich, golden-amber, elegantly shaded and tinged with dark, ruddy copper; intensely beautiful and resembling in color a splendid "afterglow." Sunset is a constant and profuse bloomer.

RAINBOW. It has the shape of Papa Gontier, a lovely pink, blotched and streaked with darkest Papa Gontier color; to add to its beauty the base of petals is a rich amber.

REVE D'OR. A beautiful rose of climbing habit, suitable for trellis or pillar; pale orange yellow or rosy buff.

REINE MARIE HENRIETTA. Color beautiful cherry-red, of climbing habit; also red flowering Gloire de Dijon.

RUBENS. White shaded with rose, long buds, large, full and very beautiful.

SOUV. DE GANLIN. Magenta red, violet tinted; very vigorous.

SOUVENIR DE THERESA LEVET. Pure, clear, crimson-tinted purple; powerful odor, very distinct.

SOUVENIR DE MADAME PERNET. One of the finest pink roses in existence.

SUSANNAH BLANCHET. Flowers large, full, cup shaped; pale rose, very sweet.

SOMBREUIL. Creamy white, tinted with rose, very large, and according to our experience the freest bloomer, the showiest and most thankful rose for general cultivation of all Tea Roses.

THE QUEEN. A grand globular white rose of the most queenly rounded form, borne on long stems; a free grower and free bloomer. A sport from the Souv. d'un Ami.

TRIUMPH DE LUXEMBOURG. Brilliant salmon, rosy carmine; finely nerved and shaded; one of the best old sorts.

THE BRIDE. Who does not know the beautiful Cath. Mermet? and this is a pure white one, without doubt the finest of all white roses for all purposes.

W. F. BENNETT. A truly magnificent rose, truly called the everblooming Jacqueminot. A splendid rose for forcing and cutting, but if grown outdoors it is of little account, as same opens too quick and is not double enough.

WHITE BON SILENE. A sport of the well-known Bon Silene, but of an ivory white color; good bloomer.

YELLOW TEA. Like White Tea, best for South only, pale, golden yellow; beautiful, large, pointed buds.

BOURBON ROSES.

This group of roses is hardier than the Teas, but needs slight protection; they deserve to be highly appreciated, through their numberless flowers, the purity of the different colors, which are very fine.

APPOLINE. Very vigorous grower; very large and double, of fine rosy carmine color, large cupped flowers.

BOURBON QUEEN. A splendid rose, large, fine form, very double, full and sweet, color clear rose, edged white.

BERTHE CLAVEL. A striped sport from Souv. de Malmaison. Color creamy white with rose center, reverse of the petals striped violet and light rose. We have had blooms answering this description, and we think this a novel and useful new rose.

DUCHESS DE THURINGE. Beautiful silver rose of pure white shaded with amber, finely cupped form; a lovely rose.

EMPRESS EUGENIE. One of the best blooming roses we have; light, soft rose color; very perfect form and very double, shape of Souv. de Malmaison.

HERMOSA. The best and hardest of all our sorts; always in bloom, fine, bright rose color.

MALMAISON RED. A sport of Malmaison, of velvet-red color; very fine. 15 cents.

MRS. BOSANQUET. Very good and very distinct sort, of pale flesh color; very hardy and an excellent bloomer.

MRS. PAUL. Beautiful pearl white in color, with satin sheen. This is like Malmaison in growth and form of flower; won the gold medal prize over all competitors in its class. A valuable addition indeed. 15 cents.

PRINCESS VICTORIA. A yellow sport of the famous Souvenir de la Malmaison, outside petals creamy white, inside sulphur yellow, otherwise identical with its parent. A splendid and welcome novelty. 15 cents.

QUEEN OF BEDDERS. A very fine bloomer; color dark kermesine; growth moderate.

SIR JOSEPH PAXTON. Very distinct variety, dark, large, crimson flowers; constant bloomer.

SOUVENIR DE LA MALMAISON. This is undoubtedly the finest and most perfect rose of this class; hardy, free-blooming, of beautiful, clear flesh color, edges bluish; superb

ALL ROSES GROWN ON THEIR OWN ROOTS.

NOISETTE ROSES.

Formerly hardy, they have been hybridized with Tea Roses so as to lose much of their former character. They have been much improved in color and form, and to obtain large, perfect flowers, ought to be trimmed well every spring, and some during early summer. In the Southern States, or cultivated under glass in colder climes, they are magnificent climbers. They all need protection here.

AMERICA. Creamy yellow, bronze shaded; good bloomer.

AIME VIBERT. One of the hardest and best bloomers; pure white, well formed flowers, in large clusters.

AIME VIBERT, CLIMBING. Same as above, but will run ten feet or more.

CELINE FORESTER. Pale yellow, deeper toward the center, an excellent tree.

CLOTH OF GOLD OR CHROMATELLA. Deep, yellow center with sulphur edges; a splendid rose, but a shy bloomer. Do not prune too short.

EUPHROSYNE. Pale yellow, orange tinge, resembling Gloire de Dijon; a free bloomer and good grower; very good sort.

GLOIRE DE DIJON. Buff, with orange center, very large and double; handsome foliage and vigorous free-blooming habit. The most useful of all tea-scented roses. Too much can not be said in its praise.

JAMES SPRUNT. (Climbing Agrippina.) A rich, dark crimson; very strong grower.

LAMARQUE. Purest white; a splendid climber under glass, and the freest and finest for winter-blooming; has to be trimmed and trained well.

MAD. ALFRED CARRIERE. We know no better place than this for a rose of hybrid origin. It has long, rambling branches and blooms as freely as most of the Teas, although perfectly hardy and resembling the Hybrid Perpetual Roses in the globular form of its large flowers. Flesh white, with a slight shade of salmon.

OPHIRIE. Reddish copper, medium size, full; the plants have to have age in order to bloom well.

REINE MARIA HENRIETTA. A seedling of the Gloire de Dijon, with bright red flowers, large, full and scented. In shape and size it is certainly very distinct and beautiful; color, bright cherry-red; a strong, vigorous grower. This rose succeeds well all over the South.

W. A. RICHARDSON. A new shade of orange-yellow; strong growers and good bloomers; very fine.

REINE OLGA DE WURTEMBERG. Large, full and finé; color rosy-flesh, delicately tinged with salmon yellow; petals margined with crimson; blooms in clusters.

Any of the above named, 10 cents each; large plants, from 25 to 50 cents each.

Souvenir de La Malmaison, Bourbon Rose.

Polyantha Roses.

Beautiful free-flowering miniature roses, admirably adapted to pot culture, and planted out they flower continually the whole season. The flowers are quite small, borne in large clusters, each cluster making a bouquet by itself. They are quite hardy, requiring but slight protection even in the North. An excellent class for cemetery planting.

CLOTHILDE SOUPERT. One of the most prolific bloomers in our entire list, and admirably adapted to pot culture, beginning to flower when not over four inches high, and continues without intermission the entire season if kept in a healthy growing condition. The flowers are borne in sprays, very double and handsomely formed. The outer petals are pearl white, shading to a center of rosy pink, but varying sometimes on the same plant from pure white to deep silvery rose. A grand bedding variety.

GEORGE PERNET A strong growing, dwarf variety forming a perfect round bush. It is continually in bloom, the flowers being quite large for this class; the color is bright rose with touches of yellow, and passes to peach-blow with silvery white shadings.

MME. CECILIA BRUNNER. Salmon, heavy shaded rose, sweet and beautiful.

MIGNONETTE. A good grower, flowers exceedingly small,

borne in clusters of twenty to thirty flowers, color delicate rose, passing to white.

PACQUERETTE. A good grower; flowers somewhat smaller than Mignonette, but more perfect.

PERLE D'OR. An orange-red Polyantha, with yellowish tinge; very free bloomer; has proved an excellent bedder during the summer.

NEW AND OLD CLIMBING TEA ROSES.

Climbing Teas of pure blood, that is, not intermixed with Noisette, are still rare. Below named are of the real merit for greenhouse cultivation or to be grown in tubs in the middle or Northern States, while for the Southern States they are the most valuable everblooming climbers up to date. We can, therefore, highly recommend same.

CLIMBING NIPHETOS. There has never been but one point that held that glorious old rose, Niphetos, in the background, and that was the serious defect of its being a weak grower, and this defect is now remedied. We have a vigorous climbing growth, coupled with all the charms of Niphetos. It has always held the lead as being the most elegant of white roses. The buds on well-grown specimens measure four inches in length and are produced in the greatest profusion. 15 cents each.

CLIMBING PERLE DES JARDINS. Identical with Perle des Jardins except that it is a vigorous climber; a grand addition to our roses. It will rank with the very best. Price, 15 cents.

CLIMBING MALMAISON. Malmaison is another of our most perfect, everblooming roses, and now we have the pleasure to offer, for the first time, a strong climbing more popular. A continuous blooming, climbing rose of such beauty and perfection will make a most welcome addition to above sterling sorts. Price, 15 cents.

CLIMBING LA FRANCE. Identical with La France in every respect except in style of growth, which in this new variety is of a strong, climbing habit, making it an excellent pillar or porch rose. It is a sport of La France, and retains the charming peach pink color and the exquisite fragrance which have made La France the favorite. Price, 15 cents.

REINE MARIE HENRIETTA. The only beautiful cherry-red Tea Rose in existence; grand for the South. 15 cents.

REVE D'OR. (Climbing Safrano). Copper-yellow, large and free, fine climber. 10 cents each.

SETINA. (Climbing Hermosa). Flowers same as the well-known Hermosa. 10 cents each.

SOLFATERE. Sulphur-yellow; large, double and fragrant. 10 cents each.

WASHINGTON (Lady Washington). Pure white, enormous clusters, freely produced till hardy frost. Some Eastern florists prize this rose very highly, claiming that Washington himself named the original, which is now standing on the grave of Martha Washington. 10 cents.

BENGAL OR CHINA ROSES.

This group is adapted specially for massing in beds for ribbon beds, rose hedges, etc. Though not equal in size and beauty to the Tea Rose and Noisette, they are unequalled for pot culture, as they are most profuse bloomers. They need less protection than the Teas.

AGRIPPINA, CRAMOISE SUPERIOR. Rich, velvety crimson, moderate double, fine in bud; an excellent budding variety—one of the best.

ARCHDUKE CHARLES. This is a splendid old sort; rose color, which gradually changes to crimson.

GREEN ROSE (Virdiflora). Flowers quite double, pure deep green, a great curiosity and a good variety.

LAURENTIA ROSE. Fairy rose, a very interesting miniature rose, about the size of a ten cent piece, very neat, same variety in dark red.

LOUIS PHILLIPE. Rich, dark velvety crimson, profuse bloomer, full and double. A splendid bedding sort.

MME. JEAN SISLEY. A free-growing, free-flowering rose of merit. This is a great acquisition for bedding purposes, and a rose that will please. It is full and double, and pure white. Fine for cemetery planting.

NEMESIS. Rich, velvety-crimson, the darkest roses in the class, flowers large and freely produced.

OTHEITE, OR SANGUINEA. Darkest crimson, semi-double, freest bloomer, very compact growth, excellent for massing.

PINK DAILY. Clear, bright pink, medium size, full and double, fragrant, constant bloomer, a good sort.

QUEEN'S SCARLET. Improvement in bright colors.

WHITE DAILY. One of the oldest white roses. Very hardy and constant bloomer. 10 cents each; 18 for \$1.00. Large plants, \$2.50 per dozen.

Queen Scarlet.

ALL ROSES GROWN ON THEIR OWN ROOTS.

Hybrid Perpetual Roses.

Couquette des Blanches.

This class is justly popular, as it combines perfect hardiness with the most perfect forms and most brilliant colors. Most of them even surpass the Tea Rose in rich perfume. They grow best in a rich, loamy soil. A light cover of straw or hay will protect them not only from the cold, but from the intense rays of the sun which striking the stem while the sap is down is equally injurious. Our hints about trimming after the flowers fade, in order to procure fresh flowers and growth, apply especially to this class.

Baroness Rothschild.

Price in this collection, 10 cents each; 3-inch pots, 15 cents. Strong plants from 25 to 50 cents each; \$3.00 to \$5.00 per dozen.

ALFRED COLLOMB. Brilliant carmine-crimson very large, full globular form; very sweet, and in every respect a first-class sort.

ANNA DE DIESBACH. A beautiful shade of carmine, extra large, a fine garden rose.

ANTON MOUTON. A fine free bloomer; hardy flower of large size, full and sweet; brilliant carmine.

ADMIRAL NELSON. Bright crimson, large, perfect, splendid rose.

AURORA BOREALIS. Rich crimson-maroon, globular, full and sweet, extra.

ABRAHAM LINCOLN. Flowers are very large and full, blackish purple.

BOULE DE NEIGE. A Hybrid Noisette, pure white, fine and constant bloomer.

BARON DE BONSTETTEN. Rich, velvety crimson, a very fine sort.

BEAUTY OF WALTHAM. Rosy crimson; good.

BARONESS ROTHSCHILD. Bright pink, cupped form, symmetrical shape, very distinct.

CAPT. CHRISTY. A new shade, delicate flesh color, deepening in the center.

CAPT. HAYWARD. Bright carmine, strong grower and free bloomer.

CHARLES LEFEBRE. Very velvety and rich crimson, large, beautifully formed, splendid sort.

CARDINAL PATRIZIL. Darkest velvety crimson-shaded purple.

COUNTESS OF OXFORD. A magnificent rose of immense size, soft rosy-carmine changing to silver rose, fine form, free bloomer.

COUNT OF PARIS. Rich crimson, shaded bright purple.

COQUETTE DES ALPES. Another Hybrid Noisette, white, occasionally marked light pink.

COQUETTE DES BLANCHES. Pure white, best of Hybrid Noisettes.

DINSMORE. This fills a long-felt want: a perfectly hardy, ever-blooming rose, of good color, fine form, color dazzling scarlet crimson; truly a gem.

DR. HOGG. Very distinct deep violet, shaded purple, fine.

DR. ANDRY. Rich, rosy crimson, large flowers, fine; smooth petals, superb.

F. W. GIRDESTONE. Very large, brilliant vermilion, tinged with carmine, of extra large size, very fine.

ALL ROSES GROWN ON THEIR OWN ROOTS.

Gloire de Margottin.

DUKE OF EDINBURGH. Bright crimson, moderately full, fine cupped form; a good rose.

DUKE CHARLES DE MONTAULT. Extra dark, a splendid bloomer, brilliant velvety carmine.

EMPRESS OF INDIA. Dark, brownish crimson, very double, finely shaped flower; very distinct. 15c.

ELISE BOELLE. The very best form and purest white color amongst Hybrids.

FISHER HOLMES. Reddish scarlet, shaded deep crimson, a magnificent rose.

GLOIRE DE MARGOTTIN. Of beautiful blending red color, bright of all and very sweet.

GEN. JACQUEMINOT. Brilliant crimson, semi-double only, very large and effective in bud, very sweet, general favorite.

GLORY OF CHESTNUT. Rich crimson, very bright and vivid, a strong, robust-growing sort, with a very fine foliage; a most beautiful rose.

GENERAL WASHINGTON. Bright red with crimson shade, large, very full and free bloomer.

GIANT OF BATTLES. Intense crimson, medium size, full and handsome.

GLOIRE LYONNAISE. White, slightly tinged with saffron, large, but quite open in the center. In form of flower and fragrance it resembles the Tea Roses; quite distinct. Heralded as a new yellow rose.

GYPSY. Dark velvety red, of fine texture, quite hardy and vigorous, and a most persistent bloomer. Fine for cut blooms. 15c.

HER MAJESTY. This superb rose is probably the largest in cultivation; the flowers are fully six inches across, perfectly double, of great substance, color a rich delicate rose, similar to that of Baroness Rothschild. It is a wonderfully strong grower, sending up strong shoots often six feet high, with beautiful massive foliage.

Giant of Battles.

JEAN SOUPERT. Plum color, shaded black, large, full and evenly formed.

JOHN HOPPER. Bright rose, with carmine center, large and full, beautiful in bud; standard sort.

LA REINE. Glossy rose, very large and full; a good old sort.

LA ROSIERE. Amaranth-red, circumference of petals blackish crimson, flowers large and fine, good bloomer.

LOUIS VAN HOUTTE. Beautiful maroon, medium size, full, fine shape, very sweet, excellent.

LORD RAGLAND. Brilliant crimson-scarlet, large and full.

MABEL MORRISON. White, faintly tinged with pink, a great addition to our list of white roses. 15c.

MADAME EUGENE VERDIER. Flowers large and full, with very large petals; color of the finest satiny rose; a splendid, vigorous variety, very remontant, and certainly one of the most beautiful.

MADAME CHARLES WOOD. A splendid crimson, large and very full, very free bloomer.

ALL ROSES GROWN ON THEIR OWN ROOTS.

Margaret Dickson.

Madame Gabriella Luizet.

MARSHAL P. WILDER. Color bright cherry-carmine, fragrant, of vigorous growth, with fine foliage. One of the freest of the H. P.'s to bloom; we can recommend this rose without hesitation.

MADAME MASSON. Large and double, color reddish crimson, of fine form and substance, a constant bloomer and invaluable for bedding purposes; one of the best.

MAGNA CHARTA. Bright pink, suffused with carmine, very large, full and of good form, habit strong and erect, extra free bloomer.

MARIE BAUMAN. Brilliant crimson-carmine, exquisite in color and perfume.

MERVEILLE DE LYON. Large, pure white, also a sport of the Baroness Rothschild. 15c.

MRS. JOHN LAING. Excellent for early blooming, of exquisite satin-pink color, deliciously fragrant, vigorous, strong grower, every shoot producing magnificent flowers. Received a gold medal at London Rose Show. 5c.

MME. GEORGE BRUANT. This variety retains the heavy thorny canes and glossy leathery leaves of Rugosa, while the flower is dazzling white, positively untinted and semi-double. The bud is long-pointed like Niphetos, the fully expanded flower being from four to five inches in diameter, showing a heavy tremulous brush of yellow stamens in the center; it blooms in clusters, and is deliciously fragrant.

MADAME GABRIELLA LUIZET. Color a fine satin rose, inlaid with silvery rose, and the color heightened at the center. It is one of the sweetest and most beautiful roses grown. It ranks with Baroness Rothschild and Capt. Christy, acknowledged to head the list of H. P.'s; possesses a delightful odor, 15c.

MARGARET DICKSON. Winner of the gold medal for the best new rose of National Rose Society's Show in England. This rose is almost a pure white in color, strong in growth and quite free flowering. The finest Hybrid Rose of recent years.

PAEONIA. Cherry-red, very sweet, good bloomer.

PRINCE CAMILLE DE ROHAN. One of the best dark sorts, crimson-maroon, fine.

PIUS IX. Purplish red, changing to violet, splendid old sort.

PRESIDENT LINCOLN. Dark crimson, shaded red, good.

PIERRE NOTTING. Deep blackish red, very dark.

PRINCE ALBERT. Dark red, very fine form, very good bloomer.

PRIDE OF WALTHAM. Delicate flesh color, shaded flesh, extra. 15c.

ALL ROSES GROWN ON THEIR OWN ROOTS.

Paul Neyron.

PAUL NEYRON. Deep rose color, the largest flower of all in cultivation, free bloomer.

QUEEN OF QUEENS. Beautiful cup-shape, pearly-rose, edged violet, free bloomer, extra. 15c.

ROSIERISTE JACOBS. Fine, velvety red, shaded with black, large, full, well-formed extra fine. 15c.

NEW STRIPED ROSE, VICK'S CAPRICE. This grand novelty is a true Hybrid Perpetual Rose, being a sport from the H. P. Rose, Archduchess d'Avriche, therefore

perfectly hardy. The flowers are large, ground color soft satiny-pink, distinctly striped and dashed with white and carmine. It is beautiful in the bud form, being quite long and pointed; also showing the stripes and markings to great advantage, making it a valuable and desirable variety for cutting. Plants, each, 10c, from 2-inch pots; 25c from 4-inch pots.

THE SHAH. Splendid deep crimson-scarlet, very bright and sweet

ULRICH BRUNNER SON. Large, cherry-red, extra.

ALL ROSES GROWN ON THEIR OWN ROOTS.

Popular
Moss
Roses.

Glory of Mosses.

Who does not admire moss roses? Their mossy buds are the very symbol of beauty and elegance. Nearly all the varieties are strong, robust growers, perfectly hardy and deserve rich culture. They are not easily propagated, and, therefore, the price will always be higher than that of other roses. There are annual and perpetual bloomers, that if highly cultivated will give two or three of flowers to the other one's crop; but the prettiest flowers are found among the annual bloomers. Price, 10c each for 2-inch pot plants; 10 for \$1.00; larger size, 25 cents each, \$3.00 per dozen.

COUNTESS DE MURINAIS. Large, pure white, well mossed.

CAPT. INGRAM. Brilliant, velvety purple, good bloomer.

CENTIFOLIA. Prettiest pink moss, good bloomer.

CRESTED. Deep pink colored buds, surrounded with a mossy fringe; fine.

CRIMSON MOSS. Very distinct in color and growth.

CAPTAIN BRASROGER. Bright carmine-crimson shaded with blackish purple. Very large and of fine globular shape. Very free flowering.

LUXEMBOURG. Bright crimson scarlet, large and double, very sweet.

DUCHESS D'YSTRIE. Very large, cupped, imbricated.

GLORY OF MOSSES. Flowers handsome in an open state. Its pale rose flowers are the largest of its class.

JAMES VEITCH. Very free bloomer, but a shy grower, bright violet crimson, very sweet and finely mossed.

PERPETUAL WHITE. White, blooms in clusters.

PROLIFIC OR GRACILIS. Extremely pretty, rose-colored buds lined with fringe-like moss.

PERPETUAL MOSS ROSE, MME MOREAU. Buds finely mossed and very beautiful, the flowers are extra large, perfectly full and double, color rich carmine, with crimson and scarlet center, petals exquisitely edged with white, very fragrant.

PERPETUAL MOSS ROSE, BLANCHE MOREAU. New and highly recommended, flowers are produced in clusters, and are large, full and sweet, the color is pure white, and both flowers and buds have an abundance of lovely deep green moss.

NEW PERPETUAL MOSS ROSE, MOUSSELINE. Extra fine.

ZENOBIA. Flowers fine satin rose color, very soft and splendid addition.

CRIMSON GLOBE. A superb hybrid moss, growth bold, the leafage simple, and the flower of large size, globular in form and quite full, producing bloom in large clusters, the color rich, glowing crimson.

ALL ROSES GROWN ON THEIR OWN ROOTS.

Kentucky Collection

OF

Well Known

Climbing

Roses

of which over
100,000 are
distributed
annually.

For covering walls, trellises, buildings, etc., the hardy Prairie Roses are the best. Their rapid growth, perfect hardiness, luxuriant foliage, and immense clusters of beautiful flowers make them the more desirable. We can furnish some extra large plants from open ground, three years old at 50 cents as late as April 15. Mall plants, 10c each.

BALTIMORE BELLE. This is undoubtedly the best and finest of this class; flowers pale blush becoming nearly white, they are very compact and double.

GREVILLE OR SEVEN SISTERS. Bloom in large clusters, flowers changing from pure white to deep purple.

GEM OF THE PRAIRIES. Carmine-crimson; not a very strong runner.

PRIDE OF WASHINGTON. Brilliant amaranth, shaded rose center.

QUEEN OF THE PRAIRIE. Extra strong growth and free annual bloomer, bright, rosy red, the strongest climber of all.

MILLEDGEVILLE, OR PRIDE OF THE SOUTH. A splendid variety, color rich satiny pink, very fresh and

beautiful, fine, large globular flowers, full, regular form, very double and sweet, a profuse bloomer and quite hardy.

TENNESSEE BELLE. Graceful and slender in growth, bright pink flowers in clusters.

EMPRESS OF CHINA. A new free flowering climbing rose of Chinese origin. The plant is a strong, healthy grower, making a fine specimen in a very short time, and produces its medium sized flowers in the greatest profusion, comes nearer being a perpetual bloomer than and hardy climbing rose known. Color, soft red changing to light pink when fully open.

MARY WASHINGTON. This famous hardy climbing rose is one of the most valuable sorts that has been introduced for many years. A hardy perpetual blooming climber has long been needed. Its flowers are medium sized, pure white, perfectly double to the center; sweet and borne in endless numbers all summer. It is a vigorous and rapid grower and must at once become a general favorite. It makes a great profusion of fine buds, which are borne on long stems and usually in large clusters. 15 cents each; larger size, 25 to 50 cents each.

ALL ROSES GROWN ON THEIR OWN ROOTS.

Our Collection

OF

BLOOMING
BEGONIAS.

Our collection of blooming begonias is complete and up-to-date. We make this highly appreciated plant one of our specialties and no collection is considered complete without one or more of same. For outdoor cultivation in shady places our tuberous begonias are just the thing. Try them and you will be convinced and satisfied beyond all expectations.

Queen of Carpet.

ALBA PICTA ROSEA. This is a seedling of *Alba Picta* crossed with *Rubra*. Foliage rich green, spotted with white, flowers on long, pendent stem similar to *Rubra*. Color, delicate rose, very free flowering, very fine. 20c each.

BEGONIA ERFORDIA. A sterling novelty for florists. *Begonia Erfordia* has all the good qualities of the famous *bedders*, *Vernon* and *Dewdrop*, and is a novelty we can strongly recommend. It will stand the strong sun in summer, and is one mass of bloom from June until frost. It is also a very showy pot plant for spring sales. Habit of growth strong and compact; color deep rosy pink. We have a splendid stock and offer it at an exceptionally low price. 25c each.

DEWDROP. Always full of pure white flowers, stands the sun well and is a good house plant also. Everybody will be pleased with this variety.

DREGH. This variety is always in flower winter and summer; it is one of the most useful plants we have, flowers white.

DUCHARTRIN. Foliage lanceolate, sharply pointed dark bronze green on upper surface; reddish purple on the under side; flowers large, in good-sized panicles, pure white, nicely decorated with downy red hairs. This is a charming variety for winter blooming. Price, 20c each.

FUCHSIOIDES RUBRA. Red flowers, constant bloomer.

GLAUCOPHYLLA SCANDENS. Beautiful climbing begonia, admirable for baskets or stands in half shady places; produces its orange-bronze flowers continually all summer; beautiful.

Marguerite.

BLOOMING. The use of blooming begonias in basket-stands, even for bedding out in half shady places, where some of the varieties continue to bloom constantly, increases deservedly every year. Per dozen, \$1 to \$2, according to size, except where priced. Small plants, 75c per dozen; by mail or express, 10c each.

- GILSONI.** Large leaved, upright growing, elegant in form, racemes of semi-double, rosy-white flowers.
- HYBRIDA MULTIFLORA.** Flowers rose-colored, blooms almost continually.
- INCARNATA METALLICA.** Dark green leaves with silver dots and metallic shade, fine pink.
- OLBIA.** A grand variety. The leaves are from seven to ten inches in diameter, and are separated into deep, sharp points. The color is varying shades of brown and red, the young leaves being very bright; it has large flowers of lemon-white; one of the richest colored foliage varieties. 20c each.
- INGAMII.** One of the best winter-flowering varieties, flowers reddish carmine, the leaves edged with bronze.
- MOONLIGHT.** A dwarf, bushy sort deep metallic leaves, pure white flowers.

Vernon.

President Carnot.

- RUBRA.** This begonia is a favorite with every one, its dark, glossy green leaves, combined with its free flowering habit, make it one of the best plants for house or conservatory decoration. The flowers are a rich coral red, in large pendent panicles. One of the best.
- SAUNDERSONII.** Of this variety the flowers are a scarlet shade of crimson, borne in profusion during the entire year; one of the best. Also called the Wax Begonia.
- SEMPERFLORENS ALBA AND ROSEA.** White and rose colors, are excellent bedding varieties that can be highly recommended.
- SMITHII.** A splendid new begonia, handsome deep green, black shaded foliage, dense growth, pinkish white flowers.
- VERNON.** The best, hardiest and showiest bedding begonia, flowers bright crimson, foliage green, turning bronze-red in the sun. Per dozen, \$1; 10c to 25c each.
- WASHINGTONIANA ROSEA.** A splendid novelty, dark green foliage covered with felt-like substance, large panicles of deep rose flowers, very free winter-bloomer.
- WASHINGTONIANA ALBA.** Immense panicles of pure white flowers, with fine glossy leaves, good winter bloomer.
- WELTONIENSIS.** A very handsome winter-flowering variety, giving in profusion its lovely pink flowers, easy cultivation.

Weltoniensis.

- MARGUERITE.** Similar to Metallica, leaves bronze-green, light, rose-colored leaves.
- NEW BEGONIA LILLIAN HARRINGTON.** A cross between Alba and Rubra. Florets and sprays very large and of a deep rose color. The bronze green foliage and large panicles of flowers make it very attractive and desirable. 2½ inch pots, 25c each.
- NITIDA ALBA.** A strong-growing, profuse blooming variety, producing immense panicles of pure white flowers.
- OTTO HACKER.** A strong, vigorous grower, with stiff stems and upright habit, large, deep green leaves eight to ten inches long. The flowers are borne in immense pendent clusters eight or ten inches across. Very large flowers in clusters from eighteen to twenty-five inches across, and a beautiful bright coral red. This variety is one of the most prolific bloomers of all the large-growing begonias. Its freedom in blooming, the large, rich and showy foliage combined, make it an excellent decorative plant for the house or conservatory and should find its place in every collection. Price, 25c each.
- PAUL BRUANT.** A free growing variety and one that soon makes a fine specimen plant of bushy tree form. Leaf is of heavy texture and a deep, olive green color. The flowers are produced very freely on long, graceful stems; color delicate rose.
- PARNELLI.** Light green, beautifully dotted with white.
- PRESIDENT CARNOT.** A remarkably strong growing variety, of stiff, upright habit; foliage very large, somewhat in style of B. Rubra, but more than twice as large; upper side deep green, under side purplish red, flowers beautiful coral red in large pendent panicles.
- "QUEEN OF CARPET."** (Dwarf Vernon.) The Begonia Vernon—as a fact—has become a real favorite to all since it has been introduced. I think this new dwarf kind will please everyone, gardeners as well as amateurs. In appearance it is equally as beautiful as its taller growing relative, the Vernon, producing an abundance of bright crimson flowers and wonderful fine foliage, changing its color from dark green to brown-red, with metallic lustre. It is to be pronounced a really first-class bedding plant and almost unsurpassed for dwarf groups. 15c each.
- RICHARDSONII.** This neat and attractive begonia is of dwarf habit; the flowers are white, leaves elegantly cut.

OUR COLLECTION OF

Rex Begonias

The "King" of Begonias. Grand foliage plants and easily grown, the markings of the leaves being in rich shades of green, olive, silver, gray, purple and many other tints.

Price each, 15 cents.

Large plants, 25 to 50 cents.

\$2.50 per dozen, and upwards, except where noted.

ARGENTEA GUTTATA. The best of shrubby spotted leaved class, purple bronze leaves, oblong in shape, with silvery markings.

BEGONIA REX LEONDSII. The finest and largest leaved; coloring extremely rich, 20c each.

BEGONIA REX COMPTESSA LOUISE ERLODY. This is the begonia of all begonias. Its striking peculiarity which distinguishes it from all the begonias, consist in the two lobes not growing side by side, but one winds itself in a spiral way repeatedly over itself. 20c each.

CLEMENTINA. The color of the stem and the upper surface of the leaf are beautiful bronze green, ornamented with large silver dots. This is a cross between Rex and Dladema, very fine.

Lucy Closson.

COMPATA. An improved Zebrina, pink footstalks satiny green, with a silvery tinge, very pleasing.

ELEGANS. Silver gray with large green flakes along the veins, edged lilac.

FAIREST. Extra fine silvery white foliage.

FEASTIL. Glossy, shining olive green, veins nearly white, dwarf-creeping.

HUMBOLDTII. Large leaf, green striped, silvery white.

LONGIFOLIA REX. Leaves long and pointed, ground color green, center and outer edge bronze, with a clear silver band.

LADY STUART REX. Carmine, silver and green zones.

LISTERII. New cut-leaved variety of deep olive green, covered with silvery lustre, spotted gray.

LUCY CLOSSON. The very brightest colored Rex yet offered, broad, rose-colored zone, a fine, profuse grower, and sells on sight. 25c.

MARQUIS DE PARALTA. One of the finest growing Rex begonias, throwing out great clusters of leaves, which are exquisitely beautiful. They are edged by a very narrow band of silver of uniform width; this borders a bright green zone mottled in silver.

MANICATA. Large, light green, hand-shaped leaves, flowers light pink, very profuse in spring.

MANICATA AUREA MARMORATA. Golden marmorated foliage; 20c each.

MERVEILLE. Plant of beautiful habit; leaves of medium size, emerald green darkened with a glow of red, brightened with regular and well-defined variegations of beautiful silvery gray. Very distinct and fine. 20c each.

MME. J. MONOREAU. Intermediate between the Rex sorts and upright growers; center of leaf emerald green, finely speckled with silvery gray.

QUEEN VICTORIA. Bright, silver green, of crape-like texture, reddish veins and fluted edge.

REX, MME TREYVE. Of upright growth, with beautiful foliage.

REX ABEL CARRIERE. Also of upright growth, with fine silvery foliage. 20c each.

QUEEN OF HANOVER, REX. Stems red, narrow belt of silver, ground color bronze-green, pink lustre.

REX. Center and edge dark green, zones dark green, silver, gray and purple.

RICINIFOLIA MIGRICANS. Dark, shining crimson, large leaves borne on large, stout stems. 20c each.

Begonia Rex Leondsii.

Erdody.

TUBEROUS-ROOTED BEGONIAS.

Tuberous-rooted begonias are among the handsomest and most popular of our summer-flowering bulbs, both for planting in the open border for summer decoration and for growing in pots for the greenhouse, conservatory or sitting room. Nothing can excel the brilliancy of their colors, the delicacy of their tints, the richness of their waxy flowers, and the gorgeousness of their effect in masses or their graceful appearance in beds and borders. We have made a specialty of these charming plants for several years, have tried them thoroughly, and have no hesitation in saying they are destined to play a very important part in the bedding of the near future. With us they have bloomed profusely when planted out on rock-work or in the open ground, and have been a decided attraction. They should be planted about one foot apart each way, and on the approach of cold weather should be taken up and the bulbs, after drying, stored away in dry sand or similar material in a cool place free from frost until the spring, when they may be started in pots before planting in the garden.

- SINGLE. Scarlet, orange, crimson, pink, white, yellow, 15c each; \$1.50 per dozen; \$10 per 100.
- SINGLE. All colors mixed, 10c each, \$1 per dozen; \$8 per 100.

Rubra.

- DOUBLE. Scarlet, pink, white, yellow, 30c each, \$3 per dozen.
- DOUBLE. All colors mixed, 25c each, \$2.50 per dozen; \$20 per 100.

ORNAMENTAL LEAVED BEGONIAS.

Beauty and richness of color, combined with so many different shapes of the leaf, and an endless variety of markings, and easy of cultivation, they stand unrivaled for beauty and elegance in a conservatory, or as a house plant. They should always be kept, shady, moist and warm. Excellent for baskets, etc. Each, 15 cents, except where quoted; \$1.50 per dozen. Extra large plants, 25 and 50 cents, except where noted.

- ALBA PICTA. Very ornamental, long, ear-shaped, medium sized leaves of dark green, silvery spots, 10 cents to 25 cents.
- ALBA PERFECTA GRANDIFLORA. A dwarf, compact, free growing and free blooming, the best of begonias for out-door planting. Flowers pure white. 10 cents.
- AGYROSTIGMA PICTA. Leaves are distinctly white spotted. 10 cents to 20 cents each.
- ARGENTEA PUNCTATA REX. Dark green, with silvery spots, bronze center and border. 10 cents to 20 cents.

NEW LARGE

Orchid Flowering

FRENCH

AND

ITALIAN

CANNAS

We make the improved French Cannas a specialty and offer below the very cream of all sorts now in commerce. Remember the canna to bloom continuously must be kept moist and well fed. Therefore, give them rich, well-manured soil, and plenty of water, and remove the flower stalk as soon as flowers are faded, to make room for the new side shoots, continuously forming.

New Giant Orchid

Flowered Cannas.

This magnificent new race of cannas is the sensation of the year in floral novelties. In size and brilliancy of flowers and majestic Musa-like foliage, they are entirely distinct and far in advance of any of the large flowering cannas to date; of remarkably strong growth, they soon make fine specimen plants, with twenty to twenty-five strong stems bearing immense heavy leaves, each stem crowned with tall spikes of large, orchid-like flowers, many of which, when fully expanded, measure six to seven inches across.

ALAMANNIA. A immense flower, orange, with bright yellow border, spotted with orange. 20 cents each.

AUSTRIA. One of the wonders of recent introduction; many of the flowers when fully outstretched measure over six inches across, the petals are very broad with slightly reflexed edges resembling very closely some of the orchid family. The plant is remarkable for its sturdy, rank growth, forming massive clumps six to seven feet high, covered from the ground up with large deep green Musa-like foliage. Plants set out early in the season will before midsummer form clumps with twenty to thirty strong stems, each stem surmounted by tall spikes of golden yellow flowers standing upright like immense lilies. It blooms continuously from early summer until checked by frosts in fall; lifted before frost and taken into the house will continue to bloom all winter. 20 cents.

ITALIA. Another giant flowered variety from the same source as Austria, and by some would be considered the more showy of the two. The plant is of the same strong habit of growth with large deep green foliage. The flowers, while not quite as large, are even more gorgeous on account of their glowing colors. The three upper petals are golden yellow with a large blotch of orange scarlet in center of each, the center and lower petals scarlet, with a narrow edge of golden yellow. 20 cents each.

CANNA ALSACE. A vigorous grower, with clear green foliage, four feet high; produces from twelve to eighteen shoots in a season from a single eye, an early and continuous bloomer. Spikes of flowers, full, dense, crowded with flowers, which, upon opening, are of a delicate sulphur yellow, changing very soon, however, to a creamy white without spots. It is decidedly the most desirable canna for its unique color, and will be indispensable wherever contrast in color is desired. 15 cents each.

MRS. FAIRMAN ROGERS. This is an exceedingly fine, new gilt-edged canna, the stock of which is both scarce and valuable. It is a dwarf, compact grower, reaching a height of two to three feet; bears large spikes of flowers as large as Queen Charlotte. The color is deep scarlet, edged with bright canary yellow. A remarkably fine canna, and considered one of the best; 20 cents each, 6 for \$1.00.

Cannas.

Newer and
Scarcer Sorts.

TARRYTOWN.

THE FINEST OF ALL CANNAS.

The flowers are large, but its particular value lies in the earliness with which it blooms, the abundance of flowers produced, its branching habit, and the length of time the flowers remain after they open. Another point of superiority is the fact that the flowers are thrown well above the foliage, and the heads of bloom are held very evenly, and so freely produced that the foliage is almost hidden. One characteristic of this variety which largely gives it its value is its wonderful branching habit, two or three, spikes of flowers being in bloom on the same stem at the same time, producing a mass of bloom. The flowers, which are an exceedingly brilliant carmine crimson, have decidedly more substance than any other variety, and last for an unusually long time. The stem carries no withered, dried-up flowers, but is always bright, clean, and fresh. It is a fine, strong, healthy grower of medium height. 20 cents each.

MRS. KATE GRAY.—The largest-flowered canna ever introduced; the result of crossing canna Italia with Mme. Crozy. Flower is immense—larger than Austria or Italia being round and full, of a clear wine color, beautifully suffused with gold. Notwithstanding their size, the flowers have a great deal of substance, and are very showy and effective. It is a very free bloomer, and bears a large number of flowers on each spike. Besides the extraordinary size of the flowers, it is a very strong grower, and would be valuable on account of its beautiful and luxuriant foliage alone, which is tropical in its luxuriance, much resembling the Abyssinian Banana. 30 cents each.

ROBT. CHRISTIE. Brilliant orange-scarlet; almost identical in color with Chicago, but a much stronger and taller grower. Chicago is well considered one of the very finest varieties, but Robt. Christie excels it in freedom and profusion of bloom in a very marked degree. This variety is an exceptionally early and free bloomer. It has a remarkably large flower and an enormous truss. 20 cents each.

NEW YELLOW CANNA, BURBANK.—A clear, beautiful, yellow-flowered Canna, flowers of magnificent size—fully twice as large as Mme. Crozy—the three upper petals spreading fully seven inches, and the form is really semi-double; toward the inner part of the lower petals show fine crimson spots; all the rest of the flower is a most beautiful rich canary-yellow. The plant is a very strong grower, five to six inches high, with rich green leaves, very wide almost to the tips; its leaves are much thicker than those of the ordinary Cannas, with a texture not unlike the rubber plant. This variety stands the sun admirably. Price, 20 cents each.

CHEVALIER BESSON.—Deep red flower, very attractive. The plant is of sturdy and vigorous habit, with bright green foliage and good size trusses of flowers on erect flower spikes. 20 cents each.

IMPROVED CANNAS.

BEST STANDARD SORTS.

ALPHONSE BOUVIER. A luxuriant grower, growing considerably taller than Mme. Crozy, throwing up flower stems freer than that variety. The tips of the shoots are surmounted by immense clusters of bright crimson flowers of the very largest size, and nothing can exceed their brilliancy. 15 cents each; per dozen, \$1.50.

CANNA FLAMINGO. A splendid, compact, dwarf grower, throwing up erect, compact heads of bloom of immense size; the individual flowers are among the very largest. Color, dark crimson, center of the flower marked with golden pencilings; this is one of the very handsomest varieties. Its dwarf habit will make it valuable for outdoor bedding in conjunction with others. We believe Flamingo, without question, will give more satisfaction than any other variety sent out up to this time, and we recommend it very highly; no variety we have ever tested in our greenhouses has ever compared with it in any way, our bedding plants being a solid mass of bloom. The finest introductions of the year. We believe it for outdoor bedding to be equal to Alphonse Bouvier; under glass we consider it superior; its dark, crimson color will undoubtedly insure it a wide distribution and ready sale. 15 cents each.

CANNA BISMARCK. Very appropriately named after the man of blood and iron. The large, showy flowers are of the deepest blood red, and the flower spikes stand tall and boldly erect. First class. Price, 15 cents, each.

CHILDSI. Fine yellow, freely spotted bright scarlet. 15 cents each.

CHAS. HENDERSON. A splendid, compact, dwarf grower, throwing up erect, compact heads of bloom of large size; the individual flowers are among the very largest. Color bright crimson; center of the flower marked with golden pencilings. This is one of the very handsomest varieties, and makes a pot plant equal in habit. 15 cents each.

FLORENCE VAUGHAN. A grand yellow or bright golden shade, heavily dotted with bright red. Very broad petals forming an elegant flower; spike large and compact. A dwarf-grower, texture of flower extra good. The best of all yellow spotted with red. 15 cents each.

NEW BUTTERFLY CANNA, GOLDEN WINGS. In Golden Wings we have a grand sort decorated in a unique manner. Through a golden field are scattered irregular spots and blotches of deep, brownish crimson and orange scarlet, with great patches of color in the center of the flowers. No orchid is more generously endowed than this in the distribution of colors; no butterfly is more pleasingly decorated. It is with the purpose of accentuating this rare coloring that we have given it the title of the "Butterfly" Canna as the only appropriate one fitting its appearance; at a little distance the flowers look like golden butterflies fluttering above the green leaves. The natural height is four and a half feet, splendid foliage and branching flower stalks. Price, 15 cents.

MME. CROZY. This is a gem of the first water, dwarf, compact growth, foliage rich, bright green, flowers the largest, showiest of any introduced so far, and are produced on large, bunching stems, covered with the showiest, dazzling and glowing orange scarlet flowers, distinctly bordered orange scarlet. Per dozen, \$1.50; 15 cents each.

Queen Charlotte.

PAUL MARQUANT. The individual flowers are larger than any others and flowers spikes very large, each flower standing out separately by itself. The flower is as fine as the finest orchid. The color is a very light salmon, with a carmine tint. The flower has a silver lustre, which glistens and lightens it up with a silvery sheen. 15 cents each.

QUEEN CHARLOTTE. This is indeed a queen among cannas; it is entirely distinct from any other variety offered; our illustration clearly shows the shape and marking of the flowers, which are very large, with broad, rounded petals, slightly recurved; they are borne in immense heads, well above the foliage, and are most striking in color. A bright orange-scarlet, deeply edged with bright canary yellow. The plant is of dwarf habit, a sturdy, compact grower, with deep green Musa-like foliage. A perpetual bloomer and one of the finest new decorative plants that has been offered in years. Price, 15 cents each.

ROSE-COLORED CANNA, "ROSE UNIQUE." This variety is not up to the present standard in size of petals, but is so distinct in color, differing from all others, that we consider it well worthy of trial. It is the nearest approach to a rose color yet introduced, remarkably vigorous, flowers are produced in large heads and present a unique appearance. Price, 15 cents each.

STAR OF '91. A grand variety for pot culture. It is a dwarf, compact grower, rarely exceeding 2½ feet in height, and is a perpetual bloomer summer and winter if kept growing; flowers very large, in large, compact panicles; colors rich, glowing orange scarlet, faintly banded with golden yellow. 15 cents each.

Any of the above varieties 15 cents each, 7 for \$1, except where noted.

BRENNINGSII. Variegated yellow foliage, green, yellow, striped.

DISCOLOR. Grows from eight to twelve feet high, leaves very large, dark green, and bronze crimson. Very showy.

MARECHAL VAILIANT. Large orange flowers, dark bronze crimson leaves, 15 cents each.

New Butterfly Canna, Golden Wing.

NEW LEOPARD SPOTTED CANNA, MADAME MONTE-FIORE. This is a grand spotted variety well deserving the application of the "Leopard" Canna. Viewed individually the spots are a prominent feature of the flower, but when planted in masses, even at a short distance, the general effect is rich yellow, while many others, under equal conditions, have an orange appearance. The flowers are a clear, light yellow, spotted with red, very large, grows, about 4½ feet deep, green foliage. Price, 15 cents each.

EVER BLOOMING CARNATIONS.

The rose, the chrysanthemum and the carnation are the most popular and the most fashionable flowers of the day. Is there a sweeter flower than the carnation, or plink? What flower presents a greater variety of colors and variations? What flower has such lasting quality, combined with its graceful form and most delightful fragrance? The variation of colors is greater than in almost any other flower, and the cultivation is of the easiest.

Observe the following rules: Use only young vigorous plants for planting out, and plant out very early. Do not wait till the hot weather of May sets in.

MODE OF CULTURE. Young plants are planted in open ground here as early as April 15th, as light frosts do not injure them; or if for pot culture, a repeated shifting from time to time is advisable, and preferable to planting young plants in very large pots at once. Pinch the top shoots once or twice during the early summer only to encourage a bushy growth. The soil, common loam, should be enriched by a little leaf mold, well-rotted cow manure or bone dust. About October 1st lift the plants from the open ground with a full ball and pot. Keep cool and shady for first week, till well established, then remove to a sunny, airy place, and let temperature never exceed sixty degrees. They enjoy a moist and cool atmosphere.

Price, except where noted, mailing plants, 20 for \$1 without names; with names, per 15, \$1; each, 10 cents, except where noted. Young showy plants, in 3-inch pots, per dozen, \$1.50; each, 15 cents. Strong-blooming plants, in 4-inch pots, per dozen, \$2; each 25 cents. Extra large plants, each 50 cents.

Mrs. F. Jooste.

PINK VARIETIES.

ARGYLE. One of the sensational new carnations of this year, receiving awards wherever shown. Color, a pleasing shade of carmine pink, flowers extra large, borne on strong stems. An early and continuous bloomer. 15 cents each.

DAYBREAK. Flowers are of the largest size, very double and full in the center. The petals are thick and of heavy texture, and the flowers keep a long time after cutting. Color a beautiful pure flesh with no salmon shading and a very good grower.

CARNATION ETHEL CROCKER. Absolutely the best pink carnation ever offered the trade. Flowers with ordinary culture will average three to three and a half inches in diameter, with a good strong calyx, and the kind of stem that the store men like in a carnation. The color is a pure rich pink, pink all the time, daylight or artificial light, and the shade of pink that sells itself on sight. The plants are as near perfection as it seems possible to get, and as it blooms continuously from October 1 to July 1, and produces more long stemmed flowers to the square foot than any other known variety. 2-inch pot plants, 15 cents each.

MME. DIAZ ALBERTINI. It has the same habits in growth and blooming as the Daybreak; stem very strong but not so much branching, calyx peculiar cup shape, the points bracing against the petals, making it very strong. Flower very large, center round and full; color a delicate flesh pink, with a very strong clove fragrance.

MRS. F. JOOSTE. An almost pure pink in color, showing scarcely any lavender. It combines large size with good length and stiffness of stem and strong growth. We expect good results from this variety next season. Its fine color will make it a seller. 15 cents each.

ROSE QUEEN. Color soft, pure rose, so much admired by cut flower purchasers; flowers large and well formed. It is a very healthy and clear growing variety, in habit of growth, freedom of blooming and taking color, this carnation will prove satisfactory to everybody.

Ethel Crocker.

TRIUMPH. Color pure pink of a yellowish tinge, large, and good in every way. This variety is recommended by the disseminator as rust proof.

THE MARQUIS (Murquisee). Ready March 1. This very large, light pink variety has already made a heavy sale, and is enthusiastically praised by florists who have been watching its development. Color, true pink, soft and rich, form exceptionally perfect, of the very largest size, stems strong, two to three feet, very fragrant and a good keeper and continuous bloomer. 2 inch pot plants, 15 cents each.

WM. SCOTT. This grand variety is undoubtedly the most productive carnation of its color. A rich, Grace Wilder pink, habit of growth very similar to this variety, strong, long stiff stems, early and very free.

Mrs. Thomas W. Lawson, Famous \$30,000 Carnation.

This famous carnation was bought last year for \$30,000, the highest price ever paid for a flower of any kind. A standing challenge of \$5,000 to produce its equal within a year failed to find one, so it still remains undisputedly the best in the world. The flowers are the largest, deepest, best formed. The stems are the longest and strongest. The color, purest rose pink, which illuminates splendidly under artificial light. Price, 25 cents each; \$2.00 per dozen.

G. H. Crane.

SCARLET VARIETIES.

AMERICA. Color, pure, light scarlet, of soft, even shade. This variety has been and still is in perfect health. We have never seen rust, spot, or stem rot attack it. It is a vigorous grower, with nice grass of medium weight, always covered with the "bloom" of good health. It is a medium high and compact in growth; the flower is of fine size, nicely filled, but not crowded with petals; has a very strong calyx and a perfectly upright stem eighteen to twenty-two inches in height. It is very early in coming into bloom and its strongest points are its freedom of bloom, easy culture and great size. 2-inch pot plants, 15 cents each.

FRED DORNER. Bright, deep scarlet, a most perfect color, soft yet brilliant; the flower is of the largest size, perfectly double, nicely fringed and sweet.

G. H. CRANE. The coming scarlet carnation. Wonderfully productive, and an early, continuous all-season bloomer. Easy to lift and quickly established, strong growing, robust, clean, well formed, bushy plants; producing full, rounded, deep, clear, brilliant scarlet average three-inch blooms, on 16 to 18-inch stiff stems that never have a falling to weakness. The calyx is one of its strongest points, as they never show any bursted flowers. Good substance and excellent keeper. Price, 15 cents each.

PORTIA. The most intense bright scarlet, with a vigorous constitution. The flowers are of medium size and very freely produced, a fine variety.

W. W. COLES. Very good scarlet for all purposes.

JUBILEE. This is a very popular scarlet carnation of the highest quality. Flowers are of the largest size, and are borne on long, straight stems. Calyx is very strong, never bursts. Free bloomer. Strong plants, 2 1/4-inch pots, spring delivery, 10 cents each; extra sized field-grown plants, fall delivery, 20 cents each.

Flora Hill.

WHITE VARIETIES.

FLORA HILL. The grandest white variety to date, and destined to be found in every greenhouse because of its easy management. The flower is of enormous size and rounded build; wonderfully free in bloom; stems strong enough to support the blooms nicely, and they keep on stiffening as the season advances; good calyx, not subject to rust. Without exaggeration we can claim this as prolific a bloomer as can be found in the carnation family. 15 cents each.

MRS. FISHER. A very robust grower, flowers full and the best summer bloomer we have; also splendid for winter.

PURITAN. Finest white, extra large size, very fragrant, an early and continuous bloomer.

KOHINOOR. Flowers are pure white, very large and full, with no tendency to burst. Plants robust and very productive; comes quickly into bloom and continues prolific throughout the season.

LIZZIE M'GOWAN. This beautiful white carnation is remarkable for its extremely vigorous growth, very large flowers, perfect shape, purest white. Indeed, for size and freedom of bloom, purity of color, which is immaculate, sweetness of perfume that is delicious, and vigorous growth, this variety has no equal.

WHITE CLOUD. Unquestionably the finest bold handsome white we have to date; the flowers are large, well built, with good calyx and extra fine, strong stem; plant strong and very vigorous, producing flowers very freely.

All variety in every way. 15 cents each.

Kohinoor.

Mrs. Geo. M. Bradt.

MRS. GEO. M. BRADT. Color, clear white, heavily edged and striped with bright scarlet, giving it a very bright and cheerful appearance. Flowers large and full, with center petals standing erect, giving the bloom a well-rounded form. Calyx resembling *Mad. Albertini*. Hard strong and vigorous. This variety is now in its fourth year, and has proven the most even and constant bloomer from early to late. We receive for these flowers the highest prices paid in the market. Received gold medal at Atlanta. 20 cents each.

VARIETATED.

AMERICAN FLAG. A strong, vigorous grower and profuse bloomer, very fragrant. The color is distinct from any other variety, being distinctly and regularly striped with scarlet and pure white.

LILY DEAN. A fancy carnation that is both chaste and beautiful. Pure white ground, with delicate margin and pencillings of clear pink, making it exceedingly attractive.

CRIMSON VARIETIES.

JACQUEMINOT. This is a very rich crimson. It flowers freely and is something very attractive; growth strong and healthy; very valuable for cut flowers. 15 cents.

YELLOW VARIETIES.

BUTTERCUP. Rich, golden yellow, with a few streaks of clear carmine; of vigorous habit and very floriferous; the florets are full and very double.

MAYOR PINGREE. Color clear lemon yellow. Lightly marked with pink and occasionally splashed with white. A very strong, robust grower, continuous bloomer, and not a cropper. Blooms measure two and a half to three inches and over in diameter. Stems extraordinarily stiff and from 18 to 30 inches long as the season advances. Excellent keeper, very productive. Cuttings strike readily, and promises to be a splendid yellow commercial carnation. 15 cents each.

MARGUERITE.

The flowers of these are not as perfect as the *Remontant*, but only semi-double and the petals more fringed, but are continuous bloomers. Will bloom from seed the first year. Are very sweet and graceful for bouquets. 10 cents each; per dozen, \$1.

NEW HARDY PINK, HER MAJESTY. A compact and healthy grower with beautiful and distinct foliage of a charming green color, which retains its attractive evergreen appearance throughout the winter, whether planted in open ground outdoors or grown for house culture. Flowers a lovely clear white in color, very double, and produced on long, stiff stems, exhaling an exquisite clove-scented fragrance; rivaling the finest carnation in size and substance; very prolific bloomer, producing immense masses of flowers in latter part of May and early in June. 10 cents each; \$1 per dozen.

GARDEN PINKS.

HARDY SCOTCH OR MAY. Equally desirable as carnations are the hardy pinks. They are of low, bushy growth, especially adapted for bordering beds, or cemetery planting. They load themselves with flowers of richest perfume and colors during May and June. We have different colors in these, pink, crimson, white, purplish crimson, etc. Price, 10 cents, each; \$1 per doz.

CARNATION MARGUERITE

COPYR 189 BY WA

The chrysanthemum may be planted at any time after the ground has become warm in spring until the middle of June and make large blooming plants by fall. The chrysanthemum is a gross feeder and delights in a rich soil with plenty of sunshine and moisture. As they flower only on terminal branches, the tops of the young plants should be pinched out when five or six inches high. Allow four shoots to grow from this main trunk; when these are four inches high pinch out the terminal bud, and save three or four of the branches that will spring from each of these limbs. Allow these last

branches to attain a height of six inches, then pinch out the tops for the last time. This should not be later than August 1st; after this they should be allowed to grow undisturbed. If wanted for indoor blooming they should be lifted about the 1st of September and potted. Give a thorough watering and set in a shady place for a few days. Afterwards expose them to the full light. If large size flowers are wanted allow only one flower to each branch, pinching out all but terminal buds as fast as they appear.

THE CREAM OF 1900.

Only some of the best varieties are given here. The collection of eight varieties \$1.25; 20 cents each.

OLDMINE. Rich golden yellow; outer petals reflexed and center incurving in a whorl. In perfection November 20th to 30th. Best flowers were from buds taken October 10th. We predict it will depose Modesto and Golden Wedding, being more dwarf, surpassing both in size, a rival in color, and having better stem than the former.

HENRY WEEKS. A rosy crimson Japanese of immense size, broad petals, partially twisted. Dwarf habit, stem and foliage perfect. Good exhibition variety. 25c.

QUEEN OF PLUMES. A very double hairy chrysanthemum of a beautiful shade of bright pink. One of the best hairsute varieties to date.

HILOWA. A brilliant crimson Japanese of easy culture and good habits. The petals are twisted and contorted but show only the dark crimson upper surface, making a very artistic and showy bloom.

IMPERBA. The latest Japanese incurved pink that has come to our notice, being in perfection December 10th to 30th. A very double flower $5\frac{1}{2}$ inches to 6 inches in diam-

eter with high, rounded center. Color, bright pink, intermediate between that of its parents. This we believe to be one of the best commercial varieties we have produced. Buds that were taken November 1st will not be developed for Christmas.

WILLOWBROOK. An early white variety of good substance. Japanese, an improvement on Merry Monarch. Stem and foliage good.

WHITE BONNAFFON. Variety of great promise which we predict will become as popular as the typical Maj. Bonnaffon. Color, pure white; form identical with Bonnaffon; growth very short-jointed, not 3 feet in height. Foliage large and very dark green. Its lateness (November 20th to 30th) greatly enhances its value. Take terminal bud about October 10th. Certificated by four committees.

YELLOW FITZWIGRAM. A clear yellow sport from Lady Fitzwigram. Indispensable to those who want the earliest yellow.

GENERAL COLLECTION OF CHRYSANTHEMUMS.

Apollo. Golden Wedding.

Henry Nanz.

PRICE: We offer fifteen young plants from below-named varieties for \$1; each, 10 cents except where priced. Large plants in September or October, \$2 to \$5 per dozen, according to size; each, 20 to 50 cents. 20 without names for \$1; small pots.

ALLEGRO. Beautiful early variety of the Wheeler type. In fact the brightest of this class, scarlet crimson inside; bright yellow reverse. Healthy and vigorous, dwarf, fine for pot culture. October 20th.

APOLLO. Large, solid, high-built flower of exquisite color, which is a deep, golden yellow at base, shading off lighter towards the tips of petals. The outer rows of petals reflex to the stem, while the center is incurved. Foliage dark green, close up to flower. Stem stiff and short-jointed, late, Nov. 21st.

AUTUMN BRIDE. As early as Madam Bergman, but a longer and more graceful flower than that popular variety. The color is the purest white imaginable, the form of the flower gracefully incurved. It is a dwarf, healthy grower, and is therefore a very desirable variety for bush plants and A. No. 1 for cut flowers.

BOUNDLESS SNOW. A magnificent flower, pure white, style and build of Vivand Morel. Dwarf. Early, blooming a trifle later than Mrs. Henry Robinson. Take first crown bud. Each, 15 cents.

BLACK HAWK. The darkest red yet raised, velvety crimson-maroon, showing no trace of the reverse color. As with all reds, beware of late feeding, and use a quantity of charcoal in the soil. Use late cuttings, either bud. Tall. Midseason.

CHIPETA. A most peculiar striking shade of coppery-bronze, similar to ripened oak leaves. If well-grown it is an enormously large flower of broad petals closely incurved. A grand single stem pot plant and exhibition cut flower.

CHARLES DAVIS. A golden sport from Vivand Morel; light yellow suffused with rich apricot; grand flowers of great size.

COL. WM. B. SMITH. Immense double flowers of richest gold-bronze color, petals broad, incurving, very graceful.

DAYDAWN. As early as October 15th. Creamy white flower with deeper center, seven and one-half inches in diameter, and of good depth. Petals straight and sharp pointed. Stiff stem, a very free grower.

DOMINATION. An old favorite, but still in the front rank, pure white when fully opened, spherical in shape, good for all purposes, extra large, early.

EUGENE DAILLEDOUZE. The grandest of all midseason yellows. Enormous size, of gracefully incurved shape. Petals very broad and of good substance, fine for exhibition cut blooms, tall grower.

EVANGELINE. Pure white; similar in form to Kioto, but larger and more graceful. 12 inches across; petals four and a half inches long. Stem and foliage perfect. Two and a half to three feet high. 20 cents each.

FRANK HARDY. The best mid-season white to date and indispensable to every grower whether for exhibition or the cut flower trade. Each, 15c.

GLORY OF THE PACIFIC. The best early pink; the first to come into bloom being ready to cut October 8th. Strong, stiff stem and excellent foliage. Dwarf.

GOLDEN WONDER. Mammoth old gold yellow, shading deeper to center, petals reflexed, broad bloom of immense size, 14 to 16 inches in diameter, stem and foliage perfect. Crown of terminal buds. Three and a half feet.

GEO. W. CHILDS. The most popular of all crimson red varieties. Very suitable for specimen pot plants.

GOOD GRACIOUS. Large, incurving, peach pink, petals narrow gracefully twisted, very free growing.

GEORGIENNE BRAMHALL. Light, primrose yellow, incurved, very graceful in appearance, the best of its color. Midseason.

GOLDEN WEDDING. Richest golden yellow, intense and dazzling in color, flowers of the very largest size, petals irregular, interlacing and incurving. The grandest of yellows if well grown, for pots as well as cut flowers.

GOLDEN GATE. Tawny yellow, quite distinct and strikingly handsome spreading flowers slightly whorled; regular form, stout stem, broad, long petals, fine exhibition bloom of great size.

HENRY NANZ. (Nanz & Neuner.) Golden Sport of the well-known variety, Mrs. Jerome Jones. In every way identical except color, which is a remarkable striking light golden yellow with pink shadings on outer petals. Different from any variety we know of. Very late. Each, 15 cents.

HARRY L. SUNDERBRUCH. Bright yellow, of extra large size, excellent for pots and cut flowers.

HELEN BLOODGOOD. Purest rosy-pink imaginable without any trace of purple or magenta, full, high-built flower of good substance, very attractive. Strong, robust habit. November 10th to 15th.

J. H. TROY. Very early incurved, white of fine form and good substance, tall, very large, one of the best early varieties.

J. F. LAGER. Early yellow, large, reflexing, has been grown very extensively this season, good for specimen pot plants.

INVINCIBLE. A mammoth, extra large, white variety, of most robust habit and medium height. Petals broad, firm and cupping to the center which is full and solid. Blooms often measure ten to twelve inches in diameter by seven inches deep. Magnificent heavy foliage, close up to the flower, carried erect on stout stems.

INDEPENDENCE. By keeping up a succession of cuttings it may be flowered every month of the year. A double flower, 4 inches in diameter, style of Bergman; opens creamy, changing to pure white, good stem and foliage; 2 feet; either bud. Perfectly hardy, flowering in July and August in the open ground.

LENAWEE. An incurved Japanese of the finest white, resembling the Queen, but surpassing that popular variety, being double to the center and of very largest size. Has a good, stout stem and abundant foliage. An excellent variety for cut flowers and specimen plants. Height, 4½ feet.

LADY FITZWYGRAM. Indispensable to the grower of cut flowers, as it is the earliest of all the whites, and the prettiest of all earliest. Ready to cut September 22; use first bud, and start in March; blooms, 5 inches in diameter; pure white, incurving and feathery; easy to grow. Each, 15 cents.

MRS. J. M. ATHERTON. By far the best of the Chinese type. The form is spherical, when in perfection almost conical, and of the purest snowy white. The flower is right up to the flower and very abundant, large and luxuriant. It is especially adapted for fine specimen plants, as it makes large blooms even on large bush plants. It is of our own raised novelties and has received certificate at Atlanta in 1895.

Major Bonnefon.

IVORY. An old variety which has kept its place up to the present day, a splendid white of great substance and durability. Extra dwarf in habit, unsurpassed as a specimen pot plant.

IORA. Large, high-built of beautiful pink color, long, tubular petals, irregularly incurving, giving it a very artistic appearance, very much admired wherever shown.

INTER OCEAN. One of the past few years, an extra large, reflexing bloom of light pink color, changing to pearly white, type of Vivian Morel, from which it is a seedling.

JESSICA. Old, well-known favorite, flowers flat, large, pure white, straight petals, very free of growth. Good for pots as well as cut flowers.

KENTUCKY. Extra large graceful flower of globular shape. Color a pure even shrimp pink. Petals long, narrow, standing out straight much like the old favorite, Lillian B. Bird. Stem stout and foliage heavy and nearly up to flower. Healthy, easy grower. Fine for exhibition. Midseason.

LATEST FAD. A wonderful curiosity and peculiar freak of nature. A mammoth bloom with ribbon or cord-like petals gracefully falling around the stem. Color rich yellow, sometimes mottled and striped and slashed with bronze and crimson; fine exhibition bloom.

LIBERTY. Of beautiful form, eight inches in diameter, reflex in its earlier stages, incurving and of perfect globular shape when fully developed. Color clear, rich deep golden yellow. Habit dwarf but robust. Foliage and stem perfect. It stands first among very late yellows as it is at its best in December. A fine keeper and shipper.

MARION HENDERSON. Bright, clear, light yellow, full double, petals long, narrow and twisted. One of the best early yellows, either for pot or cut blooms. October 15th to 20th.

MARION CLEVELAND. Immense high, round, solid bloom, with broad, massive, cupping petals. Ivory white, shading delicate lemon to center in Philadelphia. Almost as dwarf as Ivory. Stem stiff and erect with magnificent foliage close up to the flower. The largest early white to date.

MAJOR BONNEFON. The yellow for all purposes. A bright clear yellow with shadings of largest size, being fully seven inches in diameter and nearly as deep. The plant is of dwarf, sturdy growth. As a specimen pot plant as well as cut bloom it has hardly a rival.

MINERVA. One of the very best and brightest clear yellows, a grand incurved variety, of broad, graceful and incurved petals. Dwarf and vigorous in growth and a gem for exhibition blooms of fine shaped specimen plants. Early.

MAYFLOWER. Enormous flower of great substance and depth, petals long, gracefully arranged and intermingled, of purest white color.

MRS. E. G. HILL. The finest extra early pink, of largest size. Broad, bold, incurving flower of great depth and substance. Color exquisite shade of light pink. A very popular market cut flower.

MODESTO. Among all yellow this variety will have first place, as expressed by several experts, "the finest yellow yet produced for exhibition or trade." Intense in color, a real dandelion yellow, unsurpassed in size; of an incurved, slightly whorled form with full, high center.

MRS. J. PEABODY. Very large Jap of fine form and finish; color, pure white.

Mlle. LUCIE FAURE. This is undoubtedly one of the finest white varieties ever introduced, either for commercial purposes or for exhibition. Flowers are of extraordinary size, of the purest white, petals incurving very full to the center. Flower is of magnificent form and finish—finish and purity of the blooms being wonderful. As an exhibition variety this variety can not be excelled, and it is also an ideal commercial variety, with splendid foliage, strong, straight stem, showing a fine bloom, there being no imperfect flowers. Medium. Midseason.

MRS. O. P. BASSETT. (Early Yellow.) One of the most valuable novelties of last year; what Robinson is among whites, its yellow sport, Mrs. Bassett, is among yellows. Every other early yellow will have to hustle out of the way when this grand sort comes in. Large and round, and a beautiful yellow, with elegant foliage; this variety is a boon to cut-flower growers.

MERRY CHRISTMAS. The best very late white chrysanthemum, having a good, stiff stem. Flowers are of large size, style of Mutual Friend, but with far greater substance. Nothing could be finer for a late chrysanthemum. Of the very highest quality. Each, 15 cents.

MRS. HENRY ROBINSON. Among all introductions of late years none have attained such a popularity both with the public and with the commercial growers as this beautiful variety. Extra large in size, of the purest white imaginable, and of the most graceful outlines. It receives but one comment, "Oh! simply grand!" It is one of the earliest to appear and lasts fully into mid-season.

Mrs. Perrin.

Mrs. Henry Robinson.

Mrs. Jerome Jones.

Pink Ivory.

MRS. BAER. A golden yellow sport from Mrs. Jerome Jones. This variety ought to need nothing more to describe or recommend it than the above. For a late mid season yellow it will have no rival. Strong, thrifty plants; each, 15 cents.

MRS. PERRIN. Best described as a rose-pink ivory. The brightest shade of pink introduced. Height, 3½ feet. Stiff stem and foliage close up to flower. A good keeper.

MRS. J. T. ANTHONY (New). Of all early pink varieties this is the most suitable for all purposes. It is a beautiful rosy pink shaded with delicate silvery pink. If well grown it is eight inches in diameter. As a specimen pot plant it has hardly an equal, being of short-jointed bushy growth. October 10th to 15th.

MRS. JEROME JONES. One of the latest sorts, color delicate creamy white, sometimes tinged with light pink. Petals very broad, gracefully incurved. Very lasting after being cut. December 1st to 10th.

MRS. S. T. MURDOCK. The purest and brightest self pink up to date; large size, fine form and of good substance; foliage and stem perfect, will be one of the leaders in pink varieties for years to come. This variety received first premium over all competitors. Especially under gas or artificial light, it shows up simply grand. Nov. 10th to 20th.

MRS. GEO. WEST. Magnificent, bold flower of greatest size, color richest deep rose purple. A real Japanese bloom. Healthy, vigorous grower and one of the most popular varieties.

MUTUAL FRIEND. Pure white, flat flowers of the largest dimensions.

NIVEUS. A grand, snow-white, standard variety, of considerable popularity, center irregularly incurved, outer petals standing out straight. A fine, free grower and splendid keeper. Midseason, tall.

NEMESIS (Daybreak). Very early, light shade of pink, a fine, bold, well-built flower, with straight, broad petals, of very neat and dwarf habits, thus making it especially adapted for specimen pot plants.

NYANZA. A seedling from Geo. W. Childs, possessing the same brilliancy of color. The strongest in growth of this class. Midseason.

PENENNIS (Nanz & Neuner). Certificate National Chrysanthemum Society of America at Chicago. Pure chaste white of large size and elegant shape, incurved in its earlier stages, reflexed when fully mature. Late, coming with Mrs. Jerome Jones but a much larger and fuller flower than the latter. Foliage well up to flower. 20 cents each.

PINK IVORY. A beautiful pink sport from white Ivory. Identical in other respects.

PRAIRIE ROSE. Delicate light pink, full very large bloom, late, stout, healthy grower, fine in every way.

PHILADELPHIA. The sensational variety of the season. Color a creamy white, shaded light yellow in the depths. Petals incurving, twisted and hooked at the ends, different from any other chrysanthemums. Received first-class certificate wherever shown. Comes in early and lasts past midseason.

RADIANCE. Second early variety, of deep yellow color, full, deep flower of great beauty and substance; handsome, large foliage up to the flower, and good stem.

ROGER WILLIAMS. Rare, little known sort, one of the most beautiful and free growing, crimson, orange reverse. One of the best of its color.

SILVER CLOUD. Enormous, plummy, full double flower, white, toward center suffused with delicate salmon. Always attracts attention.

SURPRISE. Deep crimson, broad, slightly incurved, extra large size. Makes magnificent specimen pot plant; ought to be in every collection.

SWEET MARIE. Early, full, double flowers of largest size. Petals broad and spreading, color white with delicate lemon center. As a specimen pot plant or cut flower it can hardly be beaten; healthy and easy grower.

THE TIMES. A very large, bold flower, that takes at first sight, of deep pink at base, shading off to silvery pink at the tips. Shows off beautifully by artificial light. Stem stiff and foliage dark green, glossy and well up to flower. A healthy free grower, never going blind. Height, 3½ to 4½ feet. November 1st to 8th.

THE QUEEN. Grandest of all white sorts; nothing surpasses the elegance of its form nor the chaste whiteness of its color. A healthy, free grower. No collection complete without it.

VIVIAND MOREL. One of the most well-known varieties, immense reflex flower of exquisite pink shading. A very changeable flower in regard to color, even under the same cultural conditions; it is subject to changes from very deep rosy-pink to a faint blush pink.

VINETA. Large, incurved flower, style of Mrs. Geo. West, more even in color, being a deep wine color throughout. A striking flower in any collection. Good stem and foliage. For exhibition or commercial use. Midseason.

WESTERN KING. This, we believe, is the best white introduced for commercial or exhibition blooms, or for plants either bush or single stem. An incurved flower with outer petals slightly reflexing, pure white. Maturing Nov. 1st. Height, 3½ to 4 feet, good from either bud. Stem and foliage excellent.

W. T. HAMILTON. Elegant creamy white flower, quite similar to Philadelphia, the petals broader, of the most delicate shading, loosely and gracefully incurved, fine foliage and stiff, stout stems, carrying the big, bold flower perfectly erect.

W. H. RIEMAN. Grand, deep golden flower of massive build and immense size, stem stout, clothed close up to flower with fine, large foliage. The best yellow of the season. Late, November 20th to 30th.

WHITE FLYER. A very dwarf reflexed white variety, being excellent for high side benches. A high built flower with quilled petals. Good stem and foliage. Early. Best from terminal.

W. H. LINCOLN. Rich, golden yellow, of finest form and texture. A No. 1 for all purposes. If you want an extra fine specimen pot plant, this is the variety.

YELLOW MONARCH. A yellow sport from Merry Monarch, identical except in color, which is a pleasing canary. The earliest large flowering yellow chrysanthemum to date. Blooms cut on October 5, 1896. Price, 15 cents each.

YANOMA. The best latest white ever produced. It is a solid, reflexed bloom of the Vivland Morel type, of a pure snow white. At its best December 1st and can be kept until Christmas.

YELLOW IVORY. (Smith & Son.) A fine early yellow seedling from Ivory, which it resembles in form and growth. Height, 3 feet. Each, 15 cents.

YELLOW MADAME CARNOT. This is distinct from any other sport of Madame Carnot, of which there are several, being deeper and brighter in color, larger and fuller, flowers averaging 9 inches each way. It is unquestionably the grandest and most graceful of all yellow chrysanthemums yet introduced for exhibition. Each, 15 cents.

YELLOW QUEEN. Early yellow, fine, deep flower, center incurved, outer petals reflexing, an extra good variety for cut flowers, and pot plant as well, and a splendid keeper, on the plant and after being cut.

ZULINDA. Very large, incurved, close built flower, outer petals reflexing, center ones incurved, color fine rosy pink, with silvery or satin-like glossy pink reverse, fine, stiff stem and elegant and large foliage up to flowers.

CHINESE COLLECTION.

BOUQUET OF ROSES. Incurved, compact, deep rose shading off lighter with age, dwarf, compact grower, makes very neat bushy plants.

C. B. WHITNALL. Deep velvety crimson and maroon; the finest dark color of any existing variety, reverse lighter, petals broad and gracefully incurved.

POMPONS. Each, 10 cents; 20 for \$1.00.

DELICATISSIMA. Outer petals, light pink; center, deep wine color.

SANTIAGO. Deep shaded bronze red; very distinct and good size.

BLACK DOUGLAS. Rich, dark crimson; striking in color and very free bloomer.

MIDDLE. MARTHA. Dwarf, rather large, fine white. Mid-season.

MRS. BATEMAN. Orange brown; large, very good.

SNOWDROP. Pure white; small flowers; very profuse bloomer.

WM. KENNEDY. Rather large crimson amaranth.

GOLDEN FLEECE. Clear yellow, small flower; early and free; one of the best for outdoor planting.

MRS. HIGINBOTHAM. A large, rich bright pink, with extremely wide cupping and incurving petals; habit, stem and foliage perfect.

We are the largest Chrysanthemum growers in the South.

ORANGE

PLUME COLLECTION

(Hirsute or Hairy Type.)

BIJOU FERNANDEZ (New Imported). Quite different from all others of this class, being of strictly Chinese incurved type in shape, color a clear, fresh pink. Dwarf bushy habit. 10 cents each.

LOUIS BOEHMER. Deep pink, with silvery shadings, very healthy grower, and suitable for fine specimen or fancy trained plants. 10 cts. each.

WM. FALCONER. Identical with the former of which it is a sport, except in color, which is a soft, delicate blush, shading almost to white. 10 cents, each.

ENFANT DES DEUX MONDES. Another sport of Louis Boehmer, which originated abroad. Color a pure white with the faintest lemon tinge in the center, far superior to Mrs. Alpheus Hardy, as it is of free, healthy and easy growth. 10 cents each.

Yellow Queen.

FUCHSIAS.

If properly cultivated, and a suitable place be had where the plants are protected from the midday sun, few flowers can equal the fuchsias in gracefulness, and beautiful, showy flowers perpetually coming on. The secret of success with fuchsias is to keep the plants properly watered and nourished to stimulate fresh, continuous growth, and consequently flowers. This satisfactory result requires repeated repotting if plants are kept in pots, or if planted out much mulching with cow manure and watering.

PRICES. We offer fifteen plants by mail, prepaid, for \$1; each, 10 cents; these are grown in 2 inch pots; the same size by express, for 75c for fifteen plants; or larger, grown in 3 1/2 inch pots, per express only, per dozen, \$1; or larger grown in 4 inch pots, per express only, per dozen, \$1.50, or 15c each; extra large plants, 25c to 50c each.

Berliner Kind.

Single Flowering.

- A. DE NEUVILLE. Reddish violet; large corolla, extra good.
- AUROLA. Tube and sepals large and scarlet, corolla rosy plum color.
- AROSTATA. Covers itself with flowers of a delicate lilac color.
- BENJAMIN PEARSON. Tube and sepals rosy red, single corolla, crimson and purple, flowers rather small, but freely produced.
- BRIGHT HEART. Corolla white, sepals crimson.
- BANK'S GLORY. Sepals long, strongly reflexed, tube and sepals rich scarlet, corolla purple.
- BLACK PRINCE. Large expanded corolla, of reddish rose color, sepals waxy carmine, very distinct variety, of compact growth.
- BRILLIANT. Sepals flesh color, corolla crimson, very free bloomer, extra fine.
- CARL HALT. Corolla crimson, striped white, distinct free blooming variety.
- CHAS. BLANC. Flowers single, rosy, light pink blush and sepals, corolla rich amaranth; fine for outdoors.
- CORYMBIFLORA. Foliage with silver lustre. Large tubed scarlet flowers.
- CONSTANCY. Extra large flowers, sepals white, corolla purple, very free flowering.
- DISPLAY. A rapid growing variety of drooping habit, very free bloomer during summer months; flowers crimson, fine for baskets.
- EARL OF BEACONSFIELD. Quite distinct, vigorous growing, free-flowering variety. The blooms are three inches in length, tubes and sepals light rosy carmine, corolla deep carmine.
- MRS. MARSHALL. White tube and sepals, bright rosy-scarlet corolla, flowers large and bold, free bloomer and grower, extra, for winter and summer.
- MRS. RUNDLE. An improved Earl of Beaconsfield, long tubes and sepals, rosy-salmon.
- MON. THIBAUT. Strong grower, free blooming, sepals dark red corolla rosy vermilion, tinted violet, extra fine.

Avalanche.

Molesworth.

Perle Von Brunn.

Jupiter.

Double Flowering.

ABBIE GARNIER. Sepals red, corolla short, violet-blue, marked with bright rose blotches, extra fine. 15 cents.

AVALANCHE. Violet-purple corolla, bright carmine tube and sepals extra.

BERLINER KIND. Double white flowering.

EDMOND ABOUT. Large blush, white, very free and durable.

ESMERALDA. One of the grandest and most distinct varieties; tube short, sepals red, corolla very large and double, beautiful lilac, changing to clear rose.

JEANNE SUMARIS. Double white, drooping habit.

JUPITER. French variety of recent introduction and the finest mammoth flowered, double purple fuchsia up to date; flower of enormous size and very large rich violet-purple; double corolla often two inches and over in diameter; tube and sepals bright crimson. Price, 15 cents.

MOLESWORTH. This is a variety, unsurpassed among all the fuchsias with white corollas. In fact, it is nearly perfect as to free growing and habit, being strong and bushy, beginning to bloom quite early in the spring and continues very late. The tube and sepals are brilliant, deep scarlet, thick and leathery in texture. The corolla is very large and double, and pure white.

MAD. CARNOT. Large petals, carmine red, large corolla.

PERLE VON BRUNN. This is the variety best adapted to our climate of all double white fuchsias. It is remarkable for its large, well-formed flowers, its healthy, robust constitution and increasing production of flowers.

PHENOMENAL, THE KING OF FUCHSIAS. The flowers are of enormous proportions, being very double, very broad, and of great substance; well reflexed, of a most beautiful coral-red, corolla intense bright sky-blue. It is without comparison as a novelty. The largest fuchsia grown. Price, good, strong plants, 25 cents; small plants, 15 cents.

PURPLE PRINCE. This is a very distinct variety, does not grow very tall; free bloomer, color dark blue.

SAPALY FRERES. Color of sepals a bright coral-red, corolla violet and carmine-red. One of the most beautiful and distinct of the doubles.

TROPHEE. The freest flowering double purple fuchsia. 15 cents each.

ROSE OF CASTILE. Blush pink, violet corolla, best summer bloomer.

RIFFIARD. This is a new variety we imported from France. It proves to stand the sun, as we had it blooming in the open ground all summer. Flowers, the corolla is crimson, sepals scarlet. Price, 15 cents each.

SPECIOSA. Fine blush rose tube and sepals, reddish corolla, extra fine bloomer, good for winter blooming.

TRAILING QUEEN. This fuchsia differs from all others in habit of growth. Instead of growing upward the young branches branch out toward the edge of the pot and then droop downward, continuing in this way until the vines are four or more feet in length, and covered with handsome foliage. The flowers are borne in clusters; large, long and graceful. The corolla at first is deep violet-purple, changing to crimson; buds, tubes and sepals rose-scarlet. A very profuse bloomer and a vigorous grower.

FUCHSIA PROCUMBENS. This is an entirely distinct species of fuchsias; a native of New Zealand. It is of trailing or drooping habit, and is admirably adapted for basket, vases, etc. The flowers are very peculiar in shade and color, being bright yellow, brown and green beautifully blended together. The flowers are followed by berries that become bright red when ripe. 15 cents.

Constant Blooming Geraniums.

Single and Double.

Price, small mailing plants, 20, without names, for \$1.00.
Price for small mailing plants \$1 per fifteen; 10 cents each.

Price for small mailing plants, by express, 75 cents per dozen; 10 cents each.

Price per dozen, in 3½ inch pots, by express only, \$1; 10 cents each.

Price per dozen, in 4 inch pots, \$1.25; 15 cents each.

Price per dozen, large plants in 5 inch and 6 inch pots, \$2; five for \$1; 25 cents each.

Price, the collection of thirty double sorts, 3½ inch and 4½ inch pots, \$4; new and old.

N. B.—We grow the most popular bedding sorts, Gullion Mangilli, Asa Gray, La Favorite, Mrs. S. Kraft, in large quantities, and offer same per hundred, 2 inch pots, \$5; 3½ inch pots, \$7; in 4 inch pots, \$8.

Double Geraniums.

A. FLEUROT. A gem in its line of color, violet-garnet, very free.

ALFRED NEUNER. Black amaranth, marmorated chestnut brown.

ANGRA PEQUENA. Large, semi-double, very free bloomer, soft red in color, good.

ASA GRAY. Light salmon-orange color, dwarf, free flowering, one of the best.

A. SHOENINGER. Double, orange-red.

BONNAT. Flery pink, large and fine.

BOUGEREAU. Peach pink, fine bedder.

CARMINE GEM. Another jewel for bedding, exquisite flowers of a pleasing carmine tint.

CHROMATELLA. One of the finest golden scarlet, compact habit, very profuse bloomer, compact habit, with large truss of well-formed, brilliant orange scarlet flowers.

COMTESSE DE SALIS. Rich crimson, fine large flowers and trusses; very free flowering and good bedding sort.

DR. BEHRING. Salmon-pink; flower fine size and form; a splendid grower of nice compact habit.

DR. ANDIGNIER. Very large trusses, salmon orange shading.

DUC DE MONTEMART. A neat dwarf compact grower. Very free bloomer. This is one of the prettiest geraniums in cultivation. Very good bedder. Color a beautiful crimson, something new in color.

DIRECTOR WALTER. Rich, dark scarlet, dwarf growing habit; it proves to be a very free blooming variety.

GULLION MANGILLI. A splendid variety in the style and habit of Asa Gray. Very dark, double violet, scarlet flowers, a new shade and first class sort.

G. GAILLEBOTTE. Plant remarkably free flowering, crimson, lower petals spotted orange.

INGENIEUR PARLIER. Violet red, surmounted by velvety orange.

LA FAVORITE. Dwarf double white, very neat foliage; the flower stems are long and stiff, both forets and stems are of unusual size, stands the sun finely, proving a grand bedder.

MRS. SALLIE WARD KRAFT. Extra large flower, best clear rose, double-flowering geranium, beautiful.

Gold Dust.

- MATAMORE.** Very large; flowers bright scarlet, tinted salmon.
- MME. DEBONNAIRE.** Ground color delicate pink; center of petals bright salmon and pink; free bloomer; extra.
- M. REMY MARTIN.** Color bright rose with large spherical trusses.
- MLLE. DURANT.** Plant remarkably strong; vigorous grower; producing flowers in large, full trusses. Color light pink, with red border.
- NEW LIFE.** Double. A great sensation in every way. The outer florets are large, of a brilliant red; in the center of these appear another semi-double floret, pure white in color, affecting a charming contrast, difficult to realize unless seen, and having the appearance of being produced artificially. 20 cents each.
- PASTEUR.** Extremely free in bloom, well-formed, round florets, color light pink, and very double.
- ROBT. ROLAND.** Color a light pink, dark center; flowers and trusses large and good form.
- S. A. NUTT.** This is a very dark crimson, the king of dark, with perfect flowers, and a free bloomer.
- SURPRISE.** Brilliant red upper petals marked with white. A variety raised by Gerbeaux that is indeed a surprise to all who have seen it in bloom, as it is entirely distinct from any other variety both in color and in the arrangement of the color. The trusses and florets are of immense size and plant robust.
- TURTLES SURPRISE.** Dark scarlet, extra large flowers, stems and leaves very often come variegated.
- VAN POMMER ESHE.** The center of the florets are bright, center orange, shading to a light salmon edge. This is a good grower and profuse bloomer, well suited for outdoors and as a pot plant.

SINGLE GERANIUMS.

Price the same as those given for the double varieties, also for the set of 25 sorts.

N. B.—The following varieties are grown in extra large quantities for massing, on account of their extra free blooming qualities and brilliant, distinct colors; Queen of the West. Surpass Queen, Our Pet. See Jubilee Collection, page 58.

- ADAM MICKERWICK.** Extra fine bedder, largest trusses, rich orange-salmon, dark center.
- ADMIRATION.** Pant dwarf, white, with large, rosy salmon center, best addition to the light colored.
- CINDERELLA.** Bright rosy-salmon, new color; extra good bedder.
- CONCOURS REGIONAL.** Rich pink; far ahead of our old Master Christine.
- DAZZLER.** Fiery scarlet, extra large; white center.
- HECLA.** The grandest single scarlet that we have yet seen. Footstalks fifteen inches long and very rigid, bearing enormous trusses composed of immense circular florets of velvety crimson scarlet. This variety has the floret, the finest truss, the longest stem and the best color among the single reds; it is a fine and very free grower.
- JARDANUS.** White, with light, salmon center; extra large flowers.
- KATE T. PATTERSON.** Large flowers of deep, orange color, overlaid with buff.
- KING OF THE PURPLES.** Rich shade of violet-red, upper petals marked scarlet.
- MADONNA.** A chaste, satin peach rose, fine grower and freest bloomer.
- METEOR.** This is one of our own seedlings, very attractive with large trusses of a most brilliant scarlet, velvety texture, large, bold, white eye, a great improvement of the well-known Dazzler, dwarf compact grower, very long stem, a very good bedder.
- MARIE STUART.** Petals overlapping and floret slightly cupped on long footstalks; truss large and informal, color brilliant rosy-scarlet. We cheerfully recommend this as a bedder of the very highest order.
- MARGUERITA.** The ne plus ultra of the single white; extra.
- MRS. SALLIER.** Pale, lavender rose, bright rose markings at base of petals, extra for pot culture.
- MRS. W. F. NORTON.** An orange-red, with point on every petal, novel; fine.
- OUR PET.** An extra fine bedding sort, producing a very pleasing effect in massing; is equal to the best in covering itself with its light, rosy-salmon trusses of bloom.
- PIERRE DUCHARTRE.** Ground color light pink, veined deeper, edge scarlet; white eye in center surrounded by a broad band of orange-vermillion; large florets and truss and long footstalks.
- PANACHE DE NANCY.** Very distinct with white stripes on salmon grounds.

Queen of the West.

- QUEEN OF THE WEST.** This old favorite retains its position as the most satisfactory bedding variety, of a fine, orange-scarlet color; first-class for every purpose.
- QUEEN OLGA.** A beautiful, free-blooming novelty, with large, noble trusses and well-shaped flowers of a fiery-rose-color, with blending of eye white; extra for massing; excellent.
- SIMMINOIDES.** Rich purplish, crimson-white markings on upper petals.
- SURPASS QUEEN OF THE WEST.** Mrs. An exquisite bedder of more vivid color than Queen of the West.
- VICTOR FOURNEL.** Very large flowering, color a very clear salmon, with darker shading around white eye, and edge of petals marked with brighter. This is an extra fine variety and attracts everybody's attention.
- VIOLET QUEEN.** Extra large flowering, color violet crimson, upper petals also marked white.
- W. A. CHALFONT.** Light scarlet, profuse bloomer, with large trusses of well-formed flowers.

SOU. DE MIRANDE TYPE.

Any of the five below, 10 cents each; 15 for \$1.

COMTESSE DE MONTEMARTRE. Color, base white surrounded by vermillon.

DR. LEVAVASSEUR. A fancy variety, peculiarly blotched and shaded, immense trusses of large florets; the three lower petals are orange cerise, marked with lilac, which shades into cerise. This flower produces beautiful effects.

GLOIRE DE PLESSIS. Bright orange vermillon; lower petals almost white.

JEANNE D'ARC. This is a very much improved Sou. de Mirande, being even freer to bloom and much darker and brighter color. We believe this to be without exception the best yet produced of the type.

SOU. DE MIRANDE. The most popular and distinct new variety sent out in years, color white, banded with bright pink.

TWO ELEGANT NEW GERANIUMS.

MARS. A superb bedding and pot geranium. It is of dwarf and compact habit, and extraordinarily floriferous. The flowers are a clear light salmon, darker at the center, and produced close to the foliage. 15 cents each.

KENTUCKY BELLE. This is one of our own seedlings. It is the prettiest geranium of late introductions. It stands the sun remarkably well; good grower and good habits. Flower ground color white, veined and edged with a lovely pure red and extra large. Price, 25 cents each.

BRUANTS.

New class of large floret Nosegay geraniums, originated by Mr. Bruant, a distinguished French florist. The entire class are new from the general run of geraniums, as each floret and each petal are nearly twice the size of old sorts, besides the petals are never fully reversed, but stand half erect, each flower thus forming a cup. The foliage is thick, leathery and very large, and the trusses proportionately large and showy. Price, 10 cents each; \$1 per dozen; from 4 inch pots, 15 cents each; 50 cents per dozen from 1-inch pots, except where marked.

ALFRED TENNYSON. Petals overlapping, and floret slightly cupped, on long footstalks; trusses large and informal; color scarlet.

ALPHONSE RICARD. A strong grower, dwarf and branching, and producing flowers in great masses. Both floret and truss are of enormous size. Single or slightly double and color of brilliant shade of orange-red.

OUR AURIOLES.

These have been imported from France, and they are some of the prettiest geraniums in market.

The collection below, 15c each.
CAMILLE BERNARDIN. Color very attractive; upper petals half white, succeeded by pink; lower petals base white, followed by soft rosy-pink with soft scarlet edge; will prove a good bedder, as it stands the sun.

MME. BRUANT. A variety totally distinct from every other in culture; plant vigorous and free flowering; fine trusses with large flowers; white veined with carmine lake, the five petals regularly bordered in bright solferino; the arrangement of color is exquisite, often intermingling and producing a striped or "panache" effect.

FLEUR POITEVINE. This beautiful novelty differs entirely from the preceding; the flowers are large, color brilliant rosy-carmine, marbled and striped in white and producing an aureole of deep orange carmine at the center; the plant is robust and produces quantities of bloom on stiff stems.

RENOMMIE LYONAISE. A grand, new sort; the flowers are a beautiful combination of bright scarlet, clear rose and white; center of florets white, surrounded by a rose and broad scarlet border; very large and good, round truss, it has a very brilliant effect, something entirely new and distinct.

THE COLLECTION OF THE FOUR FOR 45 CENTS.

Sou. de Mirande.

Crystal Palace Gem.

- BARONNE DE SCALIBERT.** Dwarf and compact in growth, and so free in blooming that the large trusses cover the plant, florets large, of bright, soft pink color; the center is marked white, petals veined red, a lovely color and a grand addition to the Bruant type.
- BEAUTE POITEVINE.** Finest of the semi-double, salmon, beautifully shaded and tinted from the deepest orange to pale salmon; is ahead of anything in this color, extra large truss and florets. 15 cents each.
- BLANCHE MOULAS.** Very light salmon, edged and bordered white. This will prove a grand bedding variety.
- BARBIZET.** A lovely chaste pink and extra fine shape and size.
- BUFFALO.** An extra fine flower of the most pleasing carmine.
- BRUANT.** Semi-double, color of the flower vermilion-red of a most pleasing shade. The flowers are absolutely perfect in shape and makeup. Trusses large and borne in large, round balls. Each, 15 cents.
- CHAPLIN.** Habit semi-dwarf, small foliage, nicely zoned, large florets, semi-double, of brilliant red, shading to white center.
- COMTE D'ELBEE.** Single habit, rather dwarf, foliage beautifully zoned; trusses immense on rigid stems, florets large, color tender rose passing to bright rose, very distinct. Each, 15 cents.
- DOCTEUR CLENET.** Strong, nicely branching habit, very large trusses, well above the foliage, florets round, large, single and of bright capucine scarlet, fine for massing, single.
- FRANCOIS ARAGO.** Flowers finely formed, a free bloomer on strong footstalks. Color silvery salmon shaded peach.
- GEN. DODDS.** Plant very dwarf in habit and foliage very heavy, trusses very large, florets more than two inches in diameter, color soft vermilion of grand effect; single. Each, 15 cents.
- GOLDDUST.** The best bedder of the class, flowers large, of the most intense scarlet.
- MME. ALFRED MAME.** Most distinct by the size of its florets, of a bright scarlet, very vigorous, extra. 15 cents each.
- MADAME JAULIN.** The finest semi-double offered in many years. An entirely distinct color in the Bruant or bedding type. Very large florets from a truss of large size; center of flowers delicate pink bordered with pure white. For freshness and beauty this color is without parallel among bedding sorts; equally valuable for pot culture. 20 cents each.

MRS. E. G. HILL. Florets two and a half to three inches, center of each petal is a soft, light salmon, bordered with rosy-salmon, and veined deep rose, frequently forms six petals, not to be confused with the old variety of the same name, resembles a real begonia bloom more than a geranium. Each, 15 cents.

M. G. MEINOT. A fine single salmon, with large truss and florets; a good novelty. Price, 15 cents each.

PROTEE. Flowers very large and freely produced in immense trusses. Color silvery lilac, white shadings, changing to silvery pink.

PRESIDENT VICTOR DUBOIS. Enormous trusses formed of extra large, semi-double florets, color of the most fashionable shade of rose magenta; this shade is entirely new in the Bruant section and for those who like it, it is one of the finest.

ROBT. PENCH. A decidedly novel color among Bruant, a very delicate red, almost transparent florets of the largest size; extra fine truss. Price, 15 cents each.

VULCAN. Large flowering, robust grower, color the most intense fiery scarlet; extra large foliage and flower.

VAN DALE. White, salmon center, one of the lightest color of the Bruant type.

VILLE DE POITIEU. The grandest and largest of all double Bruants, color rich orange scarlet, fine texture, grand truss and large stems; this is unrivaled among double reds. 15 cents each.

W. P. SIMMONS. This variety has proved to be such a grand bedding sort that we make special mention of it and recommend it very much; color orange-red, penciled lilac; plant a very dwarf but robust grower. 15 cents each.

PELTATE ZONALE. DOUBLE.

They are the result of crosses between the Zonale and the Ivy-leaved varieties; they grow tall, with brilliant flowers on large trusses.

BIJOU. A superb crimson, fine bedder; a really first-class sort; 10 cents each.

P. CROZY. A perfect gem, equaling the best Zonale in large flowers and superb scarlet trusses, with black markings on two upper petals, of dwarf habit and very free, 10 cents each.

Mountain of Snow.

DOUBLE IVY-LEAVED.

Some splendid improvements are offered in this list, 10 cents each; \$1 per 12, except where noted.

- BASTIENNE LE PAGE.** A grand new double pink of a rich shade; extra large, florets often 2 inches across. 15 cents each.
- CULVIER.** Very beautiful, color clear lilac, fading to blue, a very odd color among the geraniums. 15 cents.
- EDEN MARCHI.** Enormous size flowers, resembling some of the best double Zonale geraniums in size and shape; color beautiful salmon rose, slightly shaded violet. 10 cents each.
- FLEURENS.** This variety we consider the best of all dark pink ivy geraniums. Flowers are a beautiful shade of carmine pink; florets very large and perfect, good truss on long stems. 15 cents each.
- GALILIE.** Light rosy-pink, veined, with lilac, extra, 10 cents each.
- INCOMPARABLE.** Trusses very large, florets immense and very regular in form, quite full, the color is an exquisite shade of rose-carmine, no finer. 10 cents each.
- JAQUES CALLAT.** This is a beautiful light pink of the habit of Jeanne d'Arc. 15 cents each.
- JEANNE D'ARC.** A grand variety, the nearest approach to pure white ivy geranium; good grower and constant bloomer. 10 cents each.
- MERIMEE.** Plant of trailing habit, flowers double, white veined black, splendid for hanging baskets.
- MONSIEUR PREMIER.** A very rank grower, makes numerous trusses of rosy-pink flowers, base of petals white, so it forms a large white eye surmounted by the pink; very distinct.
- M. FRA PETTIT.** This variety is the nearest approach to purple in existence; its color is a violet magenta, very bright, and deep velvety texture. Flowers extra large and double, excellent stocky grower and good bloomer.
- REMARKABLE.** Large flowers of very rich coloring, deep, rich red; very good.
- SOUV. CHAS. TURNER.** One of the handsomest ivy geraniums ever introduced; florets two and a half inches in trusses six inches across. The color is a deep, bright pink, approaching scarlet in color, the upper petals feathered maroon; quite double.
- TICCOUF.** Rich crimson variety, strong grower. Each, 15 cents.
- VETERAN.** Extra good, new red. Each, 15 cents.
- W. CLAYS.** Deep crimson, approaching purple, distinct coloring. 15 cents each.

SINGLE FLOWERING IVY-LEAVED.

Beautiful for baskets or trellis.

- DOLLY VARDEN.** A bronze, ivy-leaved variety. Price, 10 cents.
- DUCHESS OF EDINBURGH.** Large leaves of dark sea-green, fine pink flowers. Price, 10 cents.
- INNOCENCE.** Flowers white, veined dark, extra good for baskets. 10 cents each.

VARIEGATED IVY-LEAVED.

- HOLLY WREATH.** Leaves light green, blotched and variegated with white, very fine. Price 10 cents.
- L'ELEGANT.** Deep green foliage, with a broad band of creamy white ground on each leaf, and often margined with pink besides. Price, 15 cents.

DIFFERENT TYPES OF VARIEGATED.

- 10 cents each; 15 for \$1.
- BISMARCK.** Leaves yellow, brown zone, dwarf and compact, flowers scarlet. 10 cents.
- DISTINCTION.** Foliage bright green and stiff, bordered very dark zone. Flowers red. 10 cents.
- WHITE DISTINCTION.** Same style as above, darker green flowers, single white. 10 cents.
- GOLDEN BEAUTY.** Leaves golden yellow, scarlet flowers.
- FANNY.** Foliage similar to Bismarck, but the flowers are a beautiful salmon color, free bloomer, very good. 10 cents.
- SILVER KING.** Grayish green foliage with white border, glitters like silver. 10 cents.
- MRS. POLLOCK (Golden Tricolor).** Is an ornament for the parlor or conservatory, nothing yet excels this beautiful plant. The flowers are dark scarlet; the ground color, or rather the disk of the leaf, is green; next comes a zone of bronze crimson, margined scarlet, then a belt of lighter green; the margin of the leaves being a clear yellow. 15 cents each.
- SUNRAY.** Zone of bright carmine, outer belt a rich golden yellow and intersected with flame. Scarlet tints on broken patches of dark brown. 15 cents.
- GOLDEN GEM** Green leaves with golden border, very vigorous growth. 10 cents each.
- HAPPY THOUGHT.** Yellow blotch in center of leaf, outer band of green at margin, about the best.
- BATTERSEN (Park Gem).** Leaved deep yellow, margined green, flowers scarlet.
- CRYSTAL PALACE GEM.** Leaves green with a broad, golden margin; fine.
- MME. SALLEROI (Silver Variegated).** Very fine for massing or bordering. A thrifty healthy grower, rarely reaching a height more than ten inches. Leaves very small, of a peculiar green, edged with pure white.

MOUNT OF SNOW. This is a very fine silver tricolor variety, good grower and very showy. Leaves rich dark green edged with a border of pure white, zone almost black. Flowers bright scarlet. Price, 10 cents each; \$1 a dozen, except where noted.

Any above variety 10 cents each, except where noted, \$1 for 15.

DIFFERENT VARIETIES, SCENTED.

- 10 cents each; \$1 per 12.
- ROSE SCENTED.** Skeleton leaf.
- LEMON SCENTED.** Small, curly leaves, very fragrant.
- BALM SCENTED.** Very large, deliciously fragrant.
- NUTMEG.** Dwarf, bushy growth, strong fragrance.
- APPLE SCENTED.**
- PEPPERMINT SCENTED.** Large, woolly leaves, very fragrant.
- MRS. TAYLOR.** Distinct variety of the scented geraniums and large, deep scarlet flowers.
- OAK LEAVED.** Large, dark green foliage, with dark brown blotch.
- SHRUBLAND PET.** A bushy grower, leaves curled at the edge. With distinct fragrance. Flowers rose colored.
- Any of the above varieties 10 cents each; \$1 per dozen.
- FERN LEAVED.** Delicious oily fragrance. 20 cents each.

VARIEGATED, ROSE SCENTED.

LADY PLYMOUTH. Silver variegated rose geranium, very distinct. 20 cents each.

PELARGONIUMS, OR LADY WASHINGTON GERANIUMS.

(By many called Pansy Geraniums.)

- This beautiful type surely deserves a more extensive cultivation. It rivals the blossoms of the most beautiful orchid in texture and color of flowers. Their time in blooming begins in March and continues until late in June.
- VICTOR.** A large flower, blotched crimson on white ground, upper petals marked purplish black. fine. 25 cents each.
- SPLENDOR.** Flowers large, very showy. A beautiful carmine with white edge, upper petals marked purple. 25 cents each.

NEW DOUBLE FLOWERING PELARGONIUMS.

- MME. THIBAUT.** Large double flowers, rosy-pink and white, with ruffled edges, very showy. Per dozen, \$3.50; 35 cents each.
- MR. ROB SANDIFORD.** The pure white counterpart of above. 50 cents each.
- SALISBURY.** This is a beautiful large-flowering variety of a bright rose color, blotched white and crimson. 25 cents each.
- EMPRESS EUGENIA.** Bright, carmine scarlet color. 25 cents each.

EVERBLOOMING PELARGONIUMS.

- FRED DORNER.** This is a first-class acquisition of vigorous growth and good blooming habit, very rich colors of clear red and dark crimson on dark ground. 25 cents each.
- CHAS. NEUNER.** A seedling, rose and crimson, white bordered, according to our observation, showiest of all. Per dozen, \$2; 25 cents each.

Lady Washington.

Bed of Surpass Queens.

NANZ & NEUNER'S
Jubilee Collection
 Of Sunproof Geraniums.

This collection includes only the very best blooming and bedding varieties. They will be found to stand our Southern hot and dry summers well, and, therefore, every person

who loves geraniums ought to get the varieties named below.

DOUBLE.

LA FAVORITE. Dwarf double white, very neat foliage. The flower stems are long and stiff; both florets and stems are of unusual size; stands the sun finely, proving a grand bedder.

MATAMORE. An excellent bedding variety; plant a robust, free grower and constant summer and winter bloomer; fine, large, full double flowers. Color bright scarlet.

MRS. SALLIE WARD KRAFT. One of the prettiest and most delicate double rose-colored geraniums. Flowers well above foliage. Very profuse bloomer. A charming flower that attracts attention at once.

SINGLE.

OUR PET. An extra fine bedding sort, producing a very pleasing effect in massing; is equal to the best in covering itself with light, rosy-salmon trusses.

QUEEN OF THE WEST. One of the best bedding geraniums on the list; it grows freely and blooms in the greatest profusion; color light orange-scarlet.

SURPASS QUEEN. The best single scarlet for bedding and pot culture; flowers are large and perfect in form. One of the freest bloomers continually covered with large trusses of its beautiful scarlet flowers.

The above 6 varieties 2 in. pots, 50c; 4 in. pots, 75c.

Mrs. Sallie Ward Kraft,

ABUTILON.

INDIAN CHIEF. The darkest blood red yet produced, dwarf and compact and a very free bloomer, quite a novel color, and a seedling of our own. 10 cents to 25 cents each.

L'AFRICAN. A superb variety, very large, perfectly formed flowers, which are freely produced, plant dwarf, color a beautiful dark maroon red. 10 cents to 25 cents each.

A hard-wooded greenhouse shrub, blooming the entire year, well adapted for houseculture and bedding out in summer. Assorted large plants, \$2 per dozen; small, \$1 per dozen, mail or express. 10 cents to 25 cents each.

A. BELSHAM. A good, old red variety, large drooping flowers, well open; color orange red, mixed scarlet.

BOULE DE NEIGE. Pure white, bell shaped flower, blooming without intermission, being planted out or grown in pots, splendid winter bloomer. 10 cents to 20 cents each.

BLUE BELLS. One of our own novelties, pourpre red, overlaid with a blue tinge, large, fine flowers, 10 cents to 25 cents each.

CARMINE GEM. This is one of our own seedlings, bright carmine in color, flowers large and well open, a good grower and in bloom it makes a beautiful show with its brilliant flowers.

CLOCHE D'ARGENT. A novelty from France, it covers itself with its well-opened pure white flowers. Each 20 cents.

Blue Bells;

ERECTA. A compact growing and very free flowering variety; holds its flowers more upright than any other sort we have seen yet; the color is a beautiful soft pink, changing into orange, in fact one of the prettiest colors known. Flowers are rounded in shape and well open. Every lover of flowers should have this abutilon. 10 cents each.

ECLIPSE. Trailing and massive with beautifully variegated foliage. Flowers scarlet set in yellow calyx; fine for baskets and vases. 10 cents to 25 cents each.

ERECTA AUREA. This makes a beautiful pot plant; holds its flowers above the foliage; color rich, golden yellow, very free blooming. 10 cents.

EMPOREUR ALEXANDRE. A new French variety, very large flowering; color a deep crimson maroon, very showy. 20 cents.

FLEUR DE NEIGE. White, veined purplish rose; good bloomer. 15 cents.

GOLDEN FLEECE. The best yellow variety in existence, of dwarf habit, symmetrical growth and a very free bloomer. Makes a grand effect. 10 cents to 25 cents each.

INFANTA EULALIA. It would be difficult to find a more unique flowering plant than this. Unlike the ordinary abutilon of scraggy growth, it is very compact and short jointed, making a very neat pot plant. The flowers are the most beautiful we have seen among abutilons, being very large yet short and beautifully cupped, and of the most lovely satiny pink color imaginable. It produces its flowers by the score both summer and winter. 15 to 25 cents.

Infanta Eulalia

PRINCE OF HEILBRON. Orange yellow flowers. The beauty of this sort is in its effective variegated foliage and golden yellow blotches on green ground, with white and gold mottled, very suitable for center plants for vases or beds. 10 cents to 25 cents each.

Sou. de Bonn.

- SOUVENIR DE BONN.** Remarkable, new, variegated foliage. The dark green leaves have a distinct white border; a beautiful plant to grow isolated on lawn or in tub. 25 cents each.
- THOMPSONII PLENA.** The first double flowering abutilon in existence, perfect, double, like a miniature hollyhock, color deep orange, shaded and streaked with crimson. 10 cents to 25 cents each.
- VENILLARIUM PICTUM.** Dark green leaves, spotted with golden dots and of trailing habit; splendid vase plant. 10 cents to 25 cents each.
- VIOLET QUEEN.** A very pleasing rosy-violet color, showy habit. 10 cents each.
- WHITE NECK.** Color rich, bright rose, base of petals white; a very beautiful color and fine texture. 20 cents each.
- SAVITZII.** A new Japanese variety that is bound to become a popular decorating plant, as its perfectly variegated green and white foliage contrasts nicely with any other plants with which it may be placed. The growth is dwarf and very compact, making a fine pot plant for house culture. 20 cents.

Abelia Lupestris.

A new dwarf shrub suitable for greenhouse purposes; it has a lovely, small, white flower and is very ornamental with its dark green leaves. Each, 15 cents; large size, 25 cents.

Agapanthus Umbellatus.

Acalypha.

- MARGINATA.** Dark bronze, with rose margined foliage. This variety equals the showiest varieties of coleus effect, and has besides a decided advantage over a coleus, namely, to be hardier, and not liable to wilt the hottest and driest weather. Per dozen, \$1; 10 cents to 20 cents each. Small mailing plants, 75 cents per dozen.
- MACAFAENA.** A superb summer bedding plant, with highly colored, bright red leaves. 10 cents to 25 cents each.
- OBOVATA.** As the name denotes, oval shaped leaf, with very distinct rich marking, very showy. We recommend it highly. 10 cents to 25 cents each.
- SANDERI.** See novelties.

Acalypha Sanderi

Acacia Lophanta.

A Brazilian plant of great usefulness as ornamental foliage plant, effective as pot plant or bedded out with centas, etc. 10 cents to 25 cents each.

Achimenes.

A bulbous-rooted house plant, that rests in winter; flowers beautiful and numerous during the entire summer. Per dozen, \$1, in six varieties; 15 cents each.

Achyranthus.

- LINDENII.** Of a rich, dark red color, admirably adapted for ribbon bows, or the edgings of flower beds.
- M'NALLI.** Very decided improvement, dwarf, compact and very effective. This and below named new sort make splendid show. 10 cents.
- BEIMUELLERII.** Dark metal red foliage. Its striking point is its low-spreading, symmetrical growth, does not exceed six inches in height, a very useful novelty.
- Any of the above are suitable to form ribbon lines contrast with the centaureas, cinerarias candidissimi, etc. Small mailing plants of either kind, 50 cents per dozen; 5 cents each. Large size, 10 cents each; \$1 per dozen.

Agapanthus Umbellatus.

(AFRICAN LILY.)

A noble plant belonging to the bulbous-rooted section with evergreen foliage. The flower stalks grow near three feet high, crowned with a head of twenty or thirty blue flowers. Preserve roots in cellar during the winter the soil. 15 cents to 25 cents each.

WHITE AFRICAN LILY. Same as above with pure white flowers. 15 cents.

Very easily grown, bloom continually all summer a fall, excellent winter blooming plants.

Ageratum.

AGERATUM TAPIS BLANC. The first pure white sort bloom all summer, forming a white carpet, as its name indicates; very valuable.

This is a grand acquisition for summer as well as winter bloom. Each 10 cents to 15 cents; 75 cents per dozen.

LADY JANE. Bright blue flowers, very free bloom habit, winter and summer; twelve to fifteen inches high. 10 cents.

PRINCESS PAULINE. A most distinct and novel variety of dwarf, compact habit, rarely exceeding five inches height its peculiarity being that both colors, blue and white, are combined in the same flower, the body of the flower being white, while the stamens are of a light sky-blue; one of the most distinct new bedding plants (See cut.) Price, 15 cents each; \$1.50 per dozen.

Princess Pauline Ageratum

Alocasia.

ANTIQUORUM. The foliage of this sort is of dark bluish green color, grow to a gigantic size, habit like the Caladium Esculentum. 25 cents to 50 cents.

DORA (Caladium Arboreum.) This noble plant while young resembles the well-known Caladium Esculentum, but grows to gigantic dimensions as it attains age, and while the latter dies down annually to the bulb, this grows into a stem or trunk, which retains the foliage through the winter if kept in the conservatory or sitting room. The leaves are of enormous size, of a bright, glossy green, with thick, fleshy midribs and nerves standing stiff and upright on a stout stem. Plants, under good culture, frequently attain eight and twelve inches in height. Price, for extra strong plants, \$1 each; from 4 and 5 inch pots, 25 cents to 50 cents.

Achania Malvaviscus.

A greenhouse shrub, with scarlet flowers; blooms summer and winter; not subject to insects of any kind. One of the most satisfactory house plants grown. Each, 10 to 25 cents.

Amaryllis Equestre

Alternanthera.

Millions of these useful plants for ribbon beds are now annually used, especially in public parks, where large, showy beds are required. No plant stands our hot and dry weather better, nor can be trained at will, nor has brighter color than these gems. Malling plants, per dozen, 75 cents; by express, per dozen, 50 cents; per 100, \$4.

AUREA NANA. A golden yellow-leaved variety, new, very neat and symmetrical.

PARONYCHIOIDES MAJOR. Bronze, tipped with red; the brightest and showiest.

SPATULATA. Leaves tinted carmine and green.

VERSICOLOR. Leaves tinted light rose to deep crimson, excellent to plant with centaurea.

ROSEA. A rose-tinted foliage, keeps its color well, very dwarf and compact.

Aloysia Citriodora.

(LEMON VERBENA.)

A well-known plant noted for its delightful fragrance of foliage; indispensable for bouquets. No garden is complete without it. Per dozen, \$1; 10 to 25 cents each.

Alyssum.

LITTLE GIANT. A great improvement on the old double sweet alyssum. Flowers twice as large, borne erect like candytuft. Per dozen, 75 cents; 10 cents each.

NEW DOUBLE DWARF. Very neat and valuable, a counterpart of the single variety, but far preferable. 10 cents each.

THE GEM. The best double-flowering variety, with beautiful variegated foliage. 15 cents each; per dozen, \$1.50.

Achania

Alpina Cardamomum

A grand window plant, a good companion for the parlor palm (Aspidistra). Easily grown and not affected by gas, purifying the bad air of our dwellings; foliage glossy green and has an agreeable aromatic fragrance; grows to a height of eighteen inches. 15 to 50 cents each.

Allamanda.

HENDERSONII. Flowers deep yellow, circular form, blooming all summer, quite showy, habit climbing. 20, 25, 50, 75 cents and \$1

NERIFOLIA. Bushy, compact and constant bloomer, very showy. 25 to 50 cents.

Amaryllis Formosissima.

A very showy, free-flowering, bulbous plant, commonly called the Jacobean Lily, color crimson velvet. Three for 50 cents; 20 cents each.

FINE HYBRIDS OF JOHNSONII. These are very showy and admirably adapted for pot culture, blooming almost every two months. Brilliant vermilion, striped white. The bulbs must be kept at rest for two or three months every year, or planted in open ground every summer according to size. 50 cents, 75 cents, \$1 and \$1.50 each.

EQUESTRE. This beautiful flower is a bright salmon pink, with distinct snow white blotch at base of petals. It is a remarkably free flowering variety. Its striking and beautiful effect makes it wonderfully attractive for house blooming, and they grow as well in pots as when planted outside. 25 cents each.

TREATIE (Zephyranthus). A native of Florida, known also as the Fairy Lily. The flowers are pure white, sweet scented. The bulbs are quite small, four or five of them should be grown together in a five or six inch pot. Three for 25 cents; 10 cents each.

Allamanda Williamsii.

This handsome variety is entirely distinct from all others being quite dwarf and in no way resembling a climber, but forming a compact bush with trusses of bloom at every point, and having from two to four expanded blooms on each extremity at the same time and buds innumerable. It continues flowering the whole summer, and, with proper management, in the winter also. The flowers are from 3½ to 4½ inches in diameter, of a very rich yet delicate tint of yellow, and are deliciously scented. 35 cents to \$1 each.

Allamanda Grandiflora or Wardlayana.

A grand plant for the South and for summer blooming on the lawn here. Plants about three or four years old will be covered with hundreds of their bright golden yellow flowers, each measuring three to four inches in diameter, producing a display which can not be equaled by any other tub plant. It must be grown in full sun and copiously watered during the warm weather, then winter in a warm, dry place. Small plants 10 cents, larger from 25 cents to 50 cents, 75 cents to \$1 and \$2.

Araucaria Excelsa.

(Norfolk Island Pine.)

Without doubt, one of the most serviceable plants for house decoration, well adapted to room culture, and attractive in appearance. Beautiful specimen plants, 15 inches high, \$2 each; 18 inches, \$3; 24 inches, \$5; 36 inches, \$7.50; 48 inches, \$10.

Antirrhinum.

(SNAPDRAGON.)

We offer this year an unusually fine lot of antirrhinums seedlings from seed saved from the finest and most beautiful flaked mottled and striped varieties in cultivation. Per dozen, 75 cents, 10 cents each.

Ananassa Sativa.

(PINEAPPLE.)

25 to 50 cents each.

Aralia Filicifolia Variegata.

Fine, variegated foliage plant from Japan; dark green serrated leaves, silvery edge. 25 cents to 50 cents each. **ARALIA SIEBOLDII VARIEGATA.** A grand foliage plant equal in hardness and elegance to our best palms, for outdoor as well as house decorations. 75 cents to \$1.50 each.

Asclepias Linifolia Alba.

An herbaceous plant, bearing umbels of pure white flowers during the entire summer. When planted out a valuable florists' plant. 10 cents each.

Asparagus Tenuissimus.

The grandest acquisition for decorative purposes for the greenhouse, conservatory, or for cutting from that has been offered for years. As a plant for contrast it stands unrivaled. For bouquets or floral decorations it possesses more durability than any of the ferns. Its fine filmy foliage retains its freshness of beautiful rich green, when cut for several weeks when stuck in water. 10 cents to 25 cents each; extra large, 50 cents; per dozen, \$2.

ASPARAGUS COMORENSIS. This is the most valuable climbing plant ever offered for conservatory or parlor. The foliage of the nest smaragd-green color, is very durable; it grows also more vigorously than Asparagus Tenuissimus and others. Large, 35 cents, 50 cents to \$1 each; small plants, 15 cents each.

ASPARAGUS PLUMOSUS NANUS. A gem in fineness of foliage, growth more compact than Comorensis; equal the Maiden Hair Fern for elegance. 35 cents, 50 cents to \$1 each.

ASPARAGUS SPRENGERII. A trailing variety of great beauty of foliage, very hardy and quite distinct from all others. 20 cents each; 3 for 50 cents.

Andromeda Speciosa.

Produces great sprays of flowers, color waxy white, resembles Lily of the Valley. Price, \$1.50; per express only.

Anthericum Variegatum.

Valuable as a decorative plant, suitable either for the greenhouse, parlor or dining table. The foliage is of a bright, grassy green, beautifully striped and margined with creamy white. 10 cents to 20 cents each.

Anthericum Picturatum.

Entirely distinct from the old Anthericum Variegatum, having a rich, creamy white band three quarters of an inch wide, running through the center of each leaf, margined each side with deep green. 10 cents to 25 cents each.

AGATHEA CELASTIS OR BLUE DAISY.

The flower of this is a lovely light blue, constant bloomer; is very dwarf and suitable for border. Price, 15 cents each; large plants, 25 cents.

Allamanda Grandiflora

Araucaria Excelsa

Asparagus Sprengerii.

Aristolochia Elegans.

A rapid growing vine, bearing large and elegant flowers of a rich purple color, ornamented throughout with irregular branched markings of a creamy white and having a golden yellow eye surrounded by rich, velvety purple. Its blossoms are produced in great profusion, even on small plants and are entirely free from any objectionable odor. 25 cents to 50 cents each.

Aspidistra Lurida.

Curious plants, remarkable for producing their flowers on the surface of the earth. The leaves are six inches long, about two inches wide and of a bright green. Well adapted for wardian cases, ferneries, etc. 20 cents each.

URIDA ARGENTA VARIEGATA. Same as above with silver variegated leaves, very fine and tough. 25 cents each.

Ardisia Crenulata.

A greenhouse shrub, with dark, evergreen leaves bearing clusters of bright red berries which remain on the plant a long time; very ornamental. Large plants with berries 50 cents to \$1 each; smaller 15 cents to 35 cents each.

Ardisia Crenulata.

Asparagus Tenuissimus.

Aucuba Japonica Var.
(GOLDDUST TREE.)

A fine, hardy house plant, leaves large, dark, glossy green, distinct yellow dots all over them; will keep in any room; hardy in the Southern States. 25 cents to 50 cents each.

AUCUBA MASCULA MACULATA. Leaves blotched and marbled with bright yellow. 35 cents each.

FELIX FEMINA PICTA. Leaves pale green, broadly margined with yellow. 35 cents each.

CHINESE AZALEAS.

(AZALEA INDICA.)

No plant has increased in popularity during recent years with such amazing rapidity as the Chinese Azalea. A few years ago the annual importation of these from Belgium and Holland into the United States would hardly exceed twenty-five thousand, to-day it probably reaches two hundred and fifty thousand. At Easter they are seen in every church and in the windows of our finest residences throughout the country. Keep outdoors in a shady place in summer.

Fine plants, 14 to 16 inches across, \$1.50 each; \$15.00 per dozen; 12 to 14 inches, \$1.00 each, \$9.00 per dozen; 10 to 12 inches, 75 cents each; \$7.00 per dozen.

SPECIAL.—Specimen plants, 18 to 24 inches wide, \$3.00, \$4.00 and \$5.00 each, according to size; small plants (unnamed), 25 cents each; \$2.50 per dozen.

Banana Musa Cavendishii.
Double Flowered Azaleas.

- APOLLO. Large semi-double flower; blood-red. Very showy.
 BERNARD ANDREA ALBA. Very fine double white.
 CONCORDE D'ORANGE. A grand double red, the best extant.
 DAME MATSON. Clear white, red markings. Very showy.
 DEUTSCHE PERLE. Pure white; fine for forcing. Very early.
 DOCTEUR DE MOOR. Intense rose and violet.
 EMPEREUR DE BRESIL. Double pink, edged white.
 ILLUSTRATION. Pink, marked white. A very pretty sort.
 IMPERATRICE DES INDES. Rose, edged white.
 MME. VAN DER CRUYSSSEN. Bright rose.
 RACHAEL. Pure white, double flower of fine form; late bloomer.
 VERVAENIANA. Exquisite form, splendid habit, very free blooming, and one of the very best for forcing. A beautiful rose, deeply edged with white and spotted slightly with rosy red on the lower part of the upper petals, the white delicately feathered with rose where the two colors join.

Single Flowered Azaleas.

- APOLLON. Large, single white, sparingly lined red.
 EUGENE MAZEL. Salmon rose, upper lobes.
 MME. DE GREY. Flesh color, spotted crimson.
 QUEEN OF WHITES. Very fine, pure white.
 ROI D'HOLLANDE. Blood-red, spotted black.
 VERSICOLOR. Pure white, heavily striped and stained deep red.
 AZALEA MOLLIS. A hardy variety of comparatively easy culture, covers itself with yellow and orange flowers. Plants with fifteen to twenty-five buds, 75 cents each.
 AMOENA. An old but very pretty, hardy sort, which covers itself with innumerable carmine flowers every spring; decidedly one of the handsomest hardy shrubs. 75 cents to \$1 each.

Banana Musa Ensete.

Banana.

Tall variety, 50 cents, \$1 to \$3 each. This variety is very easily kept over winter in a warm cellar; cut off all the leaves and keep dry. For tropical effect this variety is next to the Abyssinian Banana.

MUSA CAVENDISHII. A dwarf variety with large, ornamental foliage, can be cultivated in tub or box, and will bear fruit; ornamental as a house plant in winter. \$1 and \$2; small, 50 cents each.

MUSA ENSETE (Abyssinian Banana). The grandest foliage plant in cultivation, gigantic in dimensions. Finest plants 75 cents, \$1, \$1.50 and \$2; one to two feet, 25 cents to 50 cents each.

Bellopheron Oblongata.

BELLOPHERON OBLONGATA. A splendid winter-blooming plant of easy cultivation. Price, 10 cents each.

BOUVARDIAS.

These are among the most important plants cultivated for winter flowers, owing to the increasing variety of colors and excellent adaptation for that purpose. They are also effective as bedding plants for garden, blooming from July until frost. Per dozen, \$1.50 or 15 cents each; small plants, \$1 per dozen; 10 cents each.

Double Flowering.

- A. NEUNER. New double white. This novelty, brought into commerce by us, proved to be the best new plant sent out, either in this or the old country, for a good many years. It is perfectly double, pure waxy white, a good bloomer of unsurpassed beauty.
 HOGARTHII FL. PL. Best double red, only one of a habit as vigorous as the original double white.
 PRESIDENT GARFIELD. A double pink. This is a sport from the double white bouvardia, A. Neuner; novel and handsome.
 DOUBLE FLAVESCENS. Like the above, but perfect double yellow flowers.

Double Flowering Bouvardia.

Single Flowering

- HUMBOLDTH CORYANBIFLORA. The largest white flowering sort out, the flower tubes are three inches long, very fragrant.
 LANANTHA. Color, scarlet; grows 10 to 15 inches high.
 PRESIDENT CLEVELAND. A splendid variety, extra large, fiery scarlet flowers, strong, vigorous growth, extra.
 ROSEA MULTIFLORA. This is a sport of the well-known B. Elegans. While inheriting the vigorous growth of its parent, it has larger dark pink flowers of a distinct and handsome shade, but its greatest characteristic is that it is a really ever-blooming variety, introduced by us.
 THE BRIDE. A fine novelty, brightest pink, large white eye, exquisite.
 VRELANDII. Finest of the white bouvardias; valuable for bouquets, best of all singles.

Bilbergia Speciosa.

Pineapple resembling foliage, with brightest crimson flowers growing out of the heat of the plant; of easy cultivation; 25 cents.

Bougainvillea Glabra.

Bignonia.

Evergreen greenhouse varieties. We have two distinct new sorts, one splendid orange, the other white flowers, all fine for greenhouse; will climb five to twenty feet. 10 to 25 cents each.

Bellis Perennis.

(DAISY.)

Well-known, everblooming plants, pink, white, red, double flowering. \$1 per dozen; 10 cents each.

Bougainvillea Glabra Sanderiana.

The most useful and brilliant flowering plant known—First Class Certificate Royal Horticultural Society. April 24, '94—of the most easy culture, either in the greenhouse, conservatory or plant stove, producing its magnificent rosy crimson bracts and yellow blooms in the smallest pots, under all conditions, in the greatest abundance and amazing profusion. Price, 15 cents each; large plants 25 cents to \$1.00 each.

Boussingaultia Variegata.

A shrubby, variegated foliage plant, well adapted to our Southern climate, its foliage is silvery white on green ground; it contrasts beautifully with achyranthus, coleus or acalyphas. 10 cents each; \$1 per dozen.

Camelia Japonica.

Fancy Leaf Caladiums.

Caladium Esculentum.

ESCULENTUM. (Adam's Apron). A tropical plant of the well-known family of caladium, growing to a height of four or five feet, with corresponding breadth. The leaves are of an immense size, often eighteen inches by two feet, of shield shaped outline. It is a fine plant for lawn or large flower borders. Give plenty of water. 25 cents to 50 cents each.

Fancy Leaf Caladiums.

IN VARIETY. Without doubt one of the finest variegated tribes of plants; they love a shady, moist place. The bulbs have to be kept dry and warm through the winter. We name six of the handsomest and most robust growing sorts, but have dozens of others.

- AUBER. Green, spotted white and pink.
 - BARON ROTHSCHILD. Green, spotted and veined with orange crimson.
 - BEETHOVEN. White, mid rib rose.
 - CALADIUM. Fancy leaved.
 - DUKE DE RATISBON. Green, shaded white, with crimson spots.
 - MILTON. Red veins, gray center, crimson spots.
 - WRIGHTII. Light green, crimson and white spots.
- Dry bulbs can be had up to the first of March, in twenty-five distinct varieties. 20 cents each; \$2 per dozen. Started plants ready the first of April, in twenty-five fine varieties. 25 cents each; \$3 per dozen. Well-started plants can be planted out in open ground here after May 15, in half sun or shade. They will thrive well in any situation in light, rich, soil, with plenty of water. They deserve to be cultivated more extensively.

Caladium Esculentum.

Caryopteris Mastacanthus.

Camelia.

Camelia Japonica is considered the Queen Flower of the South; during the month of May immense trees can be seen in full bloom, making one of the most gorgeous sights to behold. Their dark shiny leaves contrast beautifully with the waxy like blooms which come in white, pink, rose, carmine and variegated shades. No garden is without them, as they also are quite hardy in the Southern States and require no protection or care.

JAPONICA. The royal family of greenhouse plants, leaves glossy green and flowers of the most exquisite beauty and waxy texture, from pure white to crimson, in almost endless variations. Our collection is very fine. According to the size and number of buds, 75 cents and \$1 to \$5 each. Small mailing plants, \$4 per dozen, 40 cents each.

Carex Japonica.

Carex Japonica Variegata.

The exquisite gracefulness of this new decorative gem is well-known and will find a place for it among palms, ferns and dracenas. Indeed, its slender green foliage edged with white, can not be equaled by any other plant. It is extremely easy to grow, will stand heated atmosphere with impunity, and can be carelessly handled without being damaged. Decidedly a plant for florists and for indoor culture, and yet it is hardy in the garden. Plants 10 cents each; \$1 per dozen; large plants 15 to 25 cents each.

Calla Lilies.

TOM THUMB. "Little Gem." The greatest value of this over the common calla lily lies in its dwarf habit and freedom of bloom. The principal objection to the old varieties is found in its rank growth, but in this improved sort that objection is overcome. It rarely exceeds twelve inches in height and blooms most abundantly, 50 cents each. Dry bulbs, 25 cents each.

Black.

ARUM SANCTUM. A rare specie from the Holy Land. The flowers are about fourteen inches long from tip to base, and about four inches broad, at the widest part, gracefully curving to a small point. They have a strong, violet-like odor, are a deep velvety purplish maroon—almost black—on the upper side and moss green underneath. From the center of the flower springs a spike ten inches long, of the most intense glossy black. Price, 50 cents each, for strong plants started in pots.

LILY OF THE NILE. Pure white, large, splendid flower. 30 cents each; per dozen, \$3; large plants, 6-inch pots, 50 cents each.

Tom Thumb.

Spotted.

RICHARDIA ALBA MACULATA. This plant is always ornamental, even when not in bloom, the dark green leaves being beautifully spotted with white; in other respects the plant is the same as the white calla, but is of dwarf habit. 30 cents each; per dozen, \$3.

Caryopteris Mastacanthus.

This new plant is highly spoken of in the foreign horticultural journals, and has been twice color plated. It is of Chinese origin and has lately been introduced by Messrs. Veitch & Sons, which is sufficient guarantee of its value. It is extremely floriferous, plants in two and one-half inch pots blooming profusely and continuing to do so until they have reached a height and width of three feet. The dense flower heads are of rich lavender blue, rare among flowers. Blue spirea is a good name for it. \$1 per dozen; 10 cents each.

Campsidium Filicifolium.

Very graceful, hard-wooded and rapidly growing fern-like creeper, from the Fiji Islands. 25 cents each.

Centaurea**(DUSTY MILLER.)**

GYMNOCARPA. Attains a diameter of two feet, forming a graceful rounded bush of silvery gray, for which nothing is so well to contrast in ribbon lines with a dark foliage plant. Per dozen, 50 cents, in 2-inch pots; 3-inch \$1; 10 cents each.

Choisya Ternata.

An evergreen shrub, producing during the summer months a profusion of pure white flowers in large clusters. This is hardy south of Tennessee, and deserves general cultivation. Plants by mail, 15 cents; larger, from 4-inch pots, 25 cents.

Chrysanthemums.

See special collection, pages 45 to 48.

Cestrum. (Jessamines.)

LAURIFOLIUM. Pure white, very sweet, large plants, very desirable, early and free bloomer, 10 cents to 20 cents.
PARQUI (Night-blooming Jessamine). Plant of strong, shrubby growth, with small, greenish white blossoms. With delightful odor, which is dispensed freely only during the night; of easy cultivation. Plants 10, 25 to 50 cents each.

Cestrum Parqui, Night-blooming Jessamine.

Centrosema Grandiflora.

This new perennial climber or vine is offered this season. It is worthy of growth in all gardens. It is a perfectly hardy perennial vine, blooming early in June and in great profusion inverted pea-shaped flowers one and one-half to two and one-half inches in diameter, and ranging in color from a rosy violet to a reddish purple, with a broad, feathered white marking through the center. The large buds and the back of the flowers are pure white, making it appear as if one plant bore many different colored flowers at one time. Occasionally plants bear white flowers, while others are broadly margined with a white feathering. Blooming stems placed in water remain fresh for many days. It bears its flowers until cut down by frost. It is well adapted for every garden purpose and especially as a climber, running six to eight feet in a season. 20 cents each; \$2 per dozen.

Cineraria.

MARITIMA CANDIDISSIMA. A bedding plant of silvery white foliage for ribbon beds, etc. This variety is especially desirable, because it can be trimmed and kept at any height. Per dozen, 50 cents; 10 cents each.
HYBRIDA. These are among the most gorgeous greenhouse plants. The colors range through all the shades of blue, violet, crimson, pink, maroon and white. They are in bloom only until the month of May. 15, 25 to 35 cents each.

Cissus Discolor.

A well-known climber with leaves beautifully shaded dark green, purple, and white, the upper surface of the leaf having a rich, velvet-like appearance. 15 to 30 cents.
CISSUS RHOMBIA. An evergreen vine of sturdy nature, excellent as a house plant, etc. 10 to 25 cents each.

Coccoloba.

PLATYCLADA. Plant of very singular and interesting growth, stems and branches growing in flat, broad joints; well suited for vases and rustic work. 10 cents to 20 cents each.

Clerodendron Balfouri.

A house plant of great beauty. The flowers, which are of a bright scarlet, are incased by a bag-like calyx of pure white. The trusses of panicles of flowers are upward of six inches in width, and when trained upon trellises and hanging down have a rich and elegant appearance. 10 to 25 cents each.
SPECIOSA. Same as above, only in the red instead of white calyx. 10 cents to 25 cents each.
FRAGRANS. (Volkameira.) Shrubby variety, with deliciously sweet-scented flowers; double blush. 25 cents each.

Cobæa.

SCANDENS. Is a magnificent climber, with large, bell-shaped flowers and elegant leaves and tendrils. It is of rapid growth, and consequently eminently adapted during the summer for warm situations, where it can produce an abundance of the elegant purple flowers. Per dozen \$1 to \$2; 15 to 30 cents each.

Coleus.

A very ornamental and interesting plant, with a splendid dark maroon color. Price, 25 cents each.
 The most popular foliage bedding plant of the day. In ribbon beds it is always advisable to pinch off the top shoots from time to time to keep in equal height with other plants. They are of easy cultivation and adapted to our climate. Their varied tints of crimson, gold, bronze and green, richly blotched, veined or margined, produce a brilliancy of coloring unequalled. The set of twenty-five sorts per dozen, 75 cents; small plants, by express only, 50 cents; per 100, \$4; each, 10 cents.
AEINA. Pale golden yellow, blotched dark crimson.
BECKWITH GEM. Crimson blotched with purple maroon, green border spotted creamy yellow; very strong grower. This is a grand variety; no garden is complete without it.
BLACKBIRD. Leaves and stem jet black.
CRYSTAL. Center of leaf white, dotted various tints of rose.
ED. WACHENDORFF. Brightest fiery-red and yellow, well serrated.
ELEGANCE. Large, lemon-yellow, distinct veins, fine.
FIRE BRAND. Carmine, shaded dark.
FIREFLY. Very bright; hardest for sunny places.
GOLDEN BEDDER. Color yellow. This is the best yellow coleus for bedding.
GEO. THOMPSON. Creamy white with broad, emerald green border.
HIAWATHA. Fine; orange, yellow and crimson-flamed.
GOVERNOR BRADLEY. This magnificent coleus is one of our own seedlings. It stands the sun remarkably well. The leaves are creamy yellow at the base suffused with emerald green, a central band of deep purple, mottled sulphur, crimson, green and dark maroon. 15 cents each.
JAMES VICK. Center large, purplish crimson, blotched dark purple, edge sulphur and dark green.
JOHN GOOD. Light green or yellow ground.
KATINKAS. Greenish yellow with white; strong grower.
LITTLE GEM. Long, narrow leaves, creamy white, with dark green border.

Riese Von Stuttgart.

MRS. KIRKPATRICK. Green, blotched white, one of the best.
MRS. F. SANDER. We have no hesitation in saying that this is the most beautiful and distinct coleus yet raised; dwarf and bushy in habit; it makes a perfect pot plant.
RIESE VON STUTTGART. Extra large foliage, dark dots of carmine and purple on green ground. Splendid for specimen plants.

Cuphea Liava.

- NONPAREIL.** Dark green ground, blotched crimson and dark purple, green colored center.
- MRS. J. SCHULTZ.** The hardiest and showiest, especially adapted for hot places; bright golden yellow ground, with bright scarlet and carmine.
- MRS. J. HUNT.** Splendid dark carmine, red center, dark border, excellent bedder.
- ONWARD.** Marbled and blotched with the various shades of maroon, yellow, pink, crimson, black, white.
- PROGRESS.** Very distinct green ground, covered with dots of yellow, maroon and red.
- QUEEN OF THE LAWN.** Highly colored carmine.
- SPOTTED GEM.** Yellow, blotched crimson, green and orange.
- T. CANDORS.** Gold ground, blotched dark green, spotted carmine and dark purple.
- VERSCHAFELTII.** The oldest, still one of the best, dark blood-red, solid color.
- YEDDO.** Center green, white border, spotted light crimson.

Cuphea Liava.

(THE TRICOLORED CUPHEA.)

This interesting flowering plant belongs to the same family as the well-known Ladies' Cigar Plant. The flowers are tubular in shape, about two inches long, and combine three distinct colors in each flower—scarlet, white and blue. In bloom continually. 10 cents each; \$1 per dozen.

Cuphea.

PLATYCENTRA (Ladies' Cigar Plant). This is a well-known, everblooming plant of neat habit, growing about twelve inches in height. The tube of the flower is scarlet, with the end partly white and crimson; very useful as a ribbon line or front border plant. Per dozen 50 cents, 10 cents each.

HYSSOPHYLLA. Dwarf, a neat plant, always in bloom, purplish lilac. Per dozen, 50 cents; 10 cents each.

Grape Myrtle.

A grand flowering plant, grows about eighteen inches high and bushy; during summer covers itself with its tube-shaped flowers. The tube is green at the base, passing to bright scarlet at opening; throat purple, pollen white. A beautiful plant for the garden.

LAGERSTROEMEA INDICA. A favorite tub-plant in this latitude, where it is not hardy enough to preserve its old wood during the winter, as in the South, where it is perfectly hardy. Here it dies down to the root, but comes up again in the spring, and therefore takes a long time before it blooms in summer. The best way, therefore, is to keep the plants in the cellar over winter and transplant in rich soil early in the spring, watering freely with water, soap-suds, etc., during summer and no flower will produce better effect. The contrast in color of the four distinct varieties we offer is very pleasing.

PURPUREA, OR PURPLE. A bluish purple.

Croton.

- ROSEA.** Fine pink, or rose-colored; freest bloomer.
- ALBA, OR WHITE.** Purest white, nothing excels its beauty. We introduced this variety years ago into commerce, and it has attained widespread popularity all over the world since that time. 15, 25, and 50 cents to \$1.
- CRIMSON OR SCARLET.** Bright, deep crimson; fine and most effective. One-year-old plants of either color, which will all bloom, 10 cents to 25 cents; two-year-old and three-year-old, strong plants, 50 cents to \$1. Price for extra large plants given on application.

Croton.

High-colored foliage plants, which stand our hot sun admirably, and to persons who wish something rare and showy these plants can be highly recommended. Price, 25 cents to \$1 each.

AUREA MASCULATA. Nearly all crotons fail to show their fine colors until grown to a large size, but this variety is beautiful in all its stages, from a three inch pot to a towering specimen. Deep green, beautifully maculate, golden yellow.

ELEGANS. Bright green striped with golden yellow.

QUEEN VICTORIA. Strong, upright grower; young foliage glossy green, streaked with golden bands. These markings eventually change, the green becoming a very beautiful contrast of colors.

Cyclamen Giant Persian.

VOLUTUM. Deep green, golden bar through center in form of a ram's horn.
WEISMANNI. Leaves about a foot long and three fourths of an inch broad; ground color shining bright green,, striped and mottled with golden yellow.
INTERRUPTUM. Very long, wavy foliage, red midribs. Many other new sorts. 50 cents each.

Giant Persian Cyclamen.

These are among the most beautiful winter and spring flowering plants for the window and greenhouse. Not only are the flowers of striking beauty, but the foliage is also highly ornamental. The colors range through shades of pink, crimson, white, spotted, etc. Most of them are, moreover delicately fragrant.
 Flowers of extraordinary size, and of great substance. The leaves are proportionately large and beautifully marked. Price each, 35 cents to \$1.

Cyperus.

ALTERNIFOLIUS. A grass-like plant, throwing up stems to the height of about two feet, surmounted at the top by a cluster or a whorl of leaves, diverging horizontally, giving the plant a very curious appearance. A splendid plant for the center of baskets, vases or wardian cases, or as a water plant. 10, 25 and 50 cents.
ALTERNIFOLIUS ARGENTHIUS VAR. Beautiful silvery variegation of half the leaves and half the stem. 25 cents and 50 cents each.
ALTERNIFOLIUS GRACILIS. Very neat and compact growth; will not grow over eighteen inches high and therefore for ferneries, etc., well adapted; a little gem. 10 to 20 cents each.

Cycas Revoluta.

Datura Cornucopia.

(HORN OF PLENTY.)

The singular form, gigantic size, striking colors and pleasant odor of the flower make this novelty most conspicuous.
 The plant is of a very robust habit. The stem is thick, dark brown purple, shining as if varnished. The branches are very numerous, spreading symmetrically three or four feet in every direction. The leaves are large, of a dark green color. The flowers are trumpet shaped, measuring eight to ten inches in length and five to seven inches across the mouth, and form three distinct flowers growing each within the other, the throat and mouth of corolla a most delicate French white, beautifully contrasted and marbled with royal purple on the outside; three for 50 cents; 20 cents each.

Cyperus Alternifolius.

Gloxinia.

These are among the handsomest of our summer blooming greenhouse plants, the rich and varied coloring of the flowers being beautiful in the extreme. The bulbs should be started in the spring, in hot bed or hothouse, and after blooming all summer, require a season of rest. This can be done by withholding water from them. After they are dried off, they may be kept in a warm room. In shady places where begonias or ferns prosper out doors, the gloxinias will also thrive and bloom for over two months, only protect them from prolonged rains. Dry bulbs, assorted colors, per dozen, \$2; 20 cents each.
 Started plants, assorted colors, per dozen, \$2.50 25 cents each.

Gloxinia.

Cycas Revoluta or Sago Palm.

It is one of the showiest decorative palms in existence. It increases in value the older it grows. It is of easy culture, very ornamental, nobby looking, fine for the yard, conservatory or house. We offer an extra fine lot of these palms, having imported the finest heads last season. 50, 75 cents, \$1, \$1.50, \$2, \$3 and \$4 each.

Dracaena Terminalis.

Datura Arborea Alba.

Datura Arborea Alba.

A magnificent plant, growing four to six feet high, leaves large sea-green and velvety, the flowers large, trumpet shaped, double, and highly fragrant, about eight or ten inches long, and five or six inches across the mouth flowers pure when fully expanded; profuse summer, and in a sunny window, profuse winter bloomer. Strong 50 cents each; medium, 15 cents to 25 cents each.

Datura Chlorantha.

(SOLARIACEA.)

Golden double; scented flowers, growth same as Cornucopia. Each, 50 cents.

Dracaena.

(DRAGON TREE.)

Beautiful ornamental leaved plants, much used for centers of baskets and stands. They prefer the shade.

TERMINALIS. Rich, crimson foliage. This is the showiest of the Dracenas; very ornamental as a parlor plant or in rustic baskets, etc. \$1.50 each.

DRACO. The true "Dragon's Tree," and a superior decorative species, one of the best plants for the house. 25 cents to \$1 each.

INDIVISA. This variety is used very extensively as a center plant for vases, urns, etc. It stands full exposure to the sun, and its long, narrow, graceful foliage contrasts beautifully with other foliage and flowering plants. 25 cents, 50 cents and \$1.

FRAGRANS. A superb African species, with beautiful deep green leaves, lighter in the growth, though having no variegations or markings in the foliage. This is one of the most admired of the decorative species. 50 cents and \$1.00 each.

Doryanthus Palmeri.

A decorative plant. 50 cents each. Specimens, \$3 to \$5.

Duranta Variegata.

DURANTA VARIEGATA. This is not a new plant, but the first time advertised in our catalogue; it is a beautiful variegated leaved and splendid decoration plant. 20 cents each; small plants, 10 cents.

Erythrina.

(CORAL PLANT.)

Very ornamental, producing a profusion of scarlet and deep crimson and pea shaped flowers on spikes eighteen inches long; may be taken up in fall and wintered in a dry cellar like a dahlia and planted in the spring; remains in bloom all summer. It deserves to become popular; plants 20 to 35 cents; extra strong blooming plants, 50 cents.

Erythrina Corallodendran.

CRISTA-GALLI. Deep crimson, very showy, profuse bloomer. 15 cents.

Erythrina Hendersoni.

A large, round-leaved variety, flowers and seeds are a brilliant vermilion scarlet. 25 cents each.

Eugenia-Rose Apple.

A rich colored variety of Crista-Galli.

JAMBOS. An evergreen shrub; flowers large, globular, brush-like head, succeeded by white fruit, with a strong attar of rose perfume. Make a delicious jelly. 15 to 35 cents.

UGNI. (Chilian Myrtle.) Hardwood evergreen shrub, with small foliage. Flowers white or pale pink. Fruit aromatic. 15 to 35 cents.

Euonymus Versicolor.

Most distinct and handsome variegation, yellow ground, with creamy yellow overlaid. 35 cents.

JAPONICUS. A handsome, evergreen shrub, an excellent house plant for winter, growing well in the shade, perfectly hardy south of Kentucky, excellent as a hedge plant, 3 inch pot plants, \$6 per hundred; 10 to 25 cents each.

JAPONICUS, GOLDEN OR SILVER VARIEGATED. Very ornamental in the house. 10 to 25 cents each.

RADICANS VARIEGATUS. A plant with small, glossy, pea-green leaves, deeply margined with creamy white, well fitted for baskets, hardy, will climb over rock work, stumps, etc. Per dozen, \$2; 10 to 25 cents each.

DUC D'AUMALE. New green, mottled pale yellow and light green. 10 to 25 cents each.

Eupatorium Arboreum.

A valuable winter blooming plant, forming trusses of a feathery flower of pure white, blooming from December to March. 10 to 20 cents each.

AMERICANUM. The earliest bloomer, blooming in November and first of December. 10 to 20 cents each.

ELEGANS. White, blooming from January to April. 10 to 20 cents each.

RIPARIUM. White, blooming from January to April. 10 to 20 cents each.

Large plants, either variety, per dozen, \$2.

Eucharis Amazonica.

(AMAZON LILY.)

A cluster of six or eight snow white flowers, each three or four inches across, makes a very desirable plant for the hothouse; extra fine for cut flower work; keep moist and shady. 25 to 50 cents each.

Eranthemum Marginatum.

Very pretty foliage plant with deep green leaves heavily margined with spotless white. As a pot plant for decorative purposes it has many advantages, being of a strong, thrifty habit and very ornamental in foliage. As a specimen in the border it is very effective. Per dozen, \$1; 10 cents each.

ERANTHEMUM TUBERCULATUM. A neat little bushy-growing plant. Covers itself the entire year with its star-shaped, pure white flowers, a very good plant for either vases, baskets or pots. 10 cents each.

Euphorbia Corollata.

Small pure white flowers borne in great abundance; is excellent for bouquets in summer, perfectly hardy. 20 cents each.

SPLEDENS. This is a curious plant, having but few leaves, but is covered over and over with thorns one-half inch long. The crown of thorns worn by our Saviour Jesus Christ is said to have been made out of branches of this plant. It blooms freely winter and summer. Flowers scarlet in clusters. 15, 25, to 75 cents.

Euphorbia Heterophylla.

(NEW MEXICAN FIRE PLANT, OR PAINTED LEAF.)

This rare and beautiful annual in its brilliantly blazed and leafy habit resembles Poinsettia. The plant grows two or three feet high, of decidedly branching, bush-like form, with smooth, glossy leaves. The leaves are at first entirely green, but about midsummer at the end of each branch appears greenish white flowers enveloped in beautiful orange-scarlet bracts, and the surrounding leaves are blotched with vivid carmine. The earlier the plants are started the sooner will they develop their brilliant colors; give them a sunny situation. Per dozen, \$1.00; each, 10c.

Eleagnus Argentea Var.

ELEAGNUS ARGENTEA VAR. This is a shrub, hardy in Southern climate; it is nicely variegated. Price, 20 cents each.

Farfugium Grande.

A valuable foliage plant for shady places or conservatory. beautiful dark green leaves, with large, yellow spots. 15 to 25 cents each.

Feverfew.

DOUBLE. Very fine, double-white summer blooming plant. Per dozen, \$1; 15 cents each.

Franciscea Eximea.

A rare, hard-wooded plant, blooming freely during winter, large blossoms of a rich purple velvet and quite fragrant; graceful and elegant in its character. 25 cents to 50 cents each.

Fig Trees.

We grow the improved Brown Turkey, Celestial black, and green Ischa; one year old, 25 cents; two year, strong, 50 cents; large tub plants from \$3 to \$5 each.

Ficus.

RADICANS GIGANTEA. A plant which ought to be in every conservatory, either as a vase plant or to cling to a wall or post, etc.; hardy, easily kept, and very vigorous grower, a great improvement on Ficus Repens. Six for \$1; 25 cents each.

REPENS. A plant suited especially to greenhouse decorations for covering the walls, pillars, etc., or for outside decorations in the South, as it clings to stone or woodwork with the greatest tenacity. Per dozen, \$1; 15 cents each.

FICUS ELASTICA OR INDIAN RUBBER TREE. From the East Indies, foliage large, dark green, shining. This plant has no superior as a house plant; very ornamental; small plants, 25 cents each. Plants eight to twelve inches high, 50 cents each. Larger, 75 cents to \$2 each.

FICUS LANCEIFOLIA. Long, lance-shaped leaves. 15 to 50 cents each.

Ficus Australis.

AUSTRALIAN GUM TREE. Foliage smaller than *Elastica*. Very good house plant. Small plants, 15 cents each. Large plants, 25 cents to \$1.00 each.

NITIDA. A dense, compact growing sort, very vigorous, will grow to great size in a few years. 15 to 50 cents each.

PARCELLI. A splendid decorative plant with beautifully variegated foliage. The leaves, which are of large size, thin texture and coarsely serrated on the margins, are of bright, green color, profusely but irregularly blotched with creamy white and dark green. 50 cents each.

Forget-me-not.

MYOSOTIS PALUSTRIS. A great favorite. It delights in partly shaded moist places, flowers light blue. Per dozen, \$1; 10 cents each.

Fuchsias.

See special collection,

Ficus Elastica.

FERN S.

All of below named kinds are very desirable for wardian cases and ferneries, for planting out in shady or partly shady places, for hanging baskets, etc., or for parlor and conservatory. Our selection of six ferns and lycopodiums for \$1.50. The native ferns are of little or no value for house culture.

ADIANTUM CAPILLIUS VERNERIS (Maiden-hair Fern). A very graceful plant, and easily grown. Per dozen, \$1.50; 10 to 20 cents each.

ADIANTUM GRACILLIS. The finest of all *Adiantums*. 10, 25 to 50 cents each.

ADIANTUM HENDERSONII (New). A very distinct and elegant Maiden-hair Fern, beautiful dark green, the young fronds a bronzy crimson. 10, 15, to 25 cents each.

ADIANTUM FARLAYENSE. Very large, handsome foliage, most elegant, best for temperate house. 35 to 50 cents each.

ADIANTUM CUNEATUM. The popular Maiden-hair Fern, most graceful and useful for bouquets, etc. 15, 25 to 50 cents each.

ADIANTUM RHODOPHYLLUM. A most distinct and beautiful Maiden-hair Fern; the fronds are densely crowded, and attain a height of fifteen to eighteen inches; when first developed the young pinules are crimson; gradually changing to a rosy green, and finally to soft pale green. 25 to 50 cents each.

ASPLENIUM BELLANGARI. One of the handsomest ferns, feather-like narrow leaves of green color, very symmetrical growth. 50 cents.

ASPLENIUM DIVERSIFOLIUM. The striking quality of this variety is that it forms small growing plants on the surface of the older leaves. Cut off the leaf and lay on moist sand, partly covering the leaf, and the offspring will take root. 25 to 50 cents. Large plants, one or two feet. \$1 to \$2. One-year-old

BLECHNUM BRAZILIENSE. (The Brazilian Tree Fern.) 25 to 50 cents.

GYMNOGRAMMA AUREA (Golden Fern). The seed side of leaves is covered with a golden yellow dust. 10, 25 to 50 cents.

LOMAHIA GIBBA. A miniature variety of *Blechnum Braziliense*. 25 to 50 cents.

LYCIDIUM SCANDENS. One of the best climbing plants, in or out of doors. For festooning windows, etc.; as a room plant it is just the plant. 15 to 35 cents.

NEPHRODIUM UNDULATUM (Sword Fern). A really graceful fern, multiplying very fast in throwing out vines, on which grows separate plants again, somewhat similar to the Saxifraga, or Beefsteak Geranium. Per dozen \$1 to \$2; each, 10, 20 to 50 cents.

NEPHROLEPSIS DAVALIODES FURCANS. A highly ornamental production from Java, with long, deep-crested fronds of a bright, glossy green color; a strong growing variety; strong plants. 20 to 50 cents.

Polypodium Aureum.

Blechnum Braziliense.

Adiantum Farlayense.

Nephrolepis Bostoniensis.

NEPHROLEPIS BOSTONIENSIS. One of the most useful and ornamental of the "Sword Ferns." It is now grown by the thousand for the market in all the large cities, and is steadily increasing in popularity. In well-grown specimens the fronds attain a length of six or seven feet, like plumes arching over in every direction, in a most graceful manner. This beautiful fern is excellent for outside planting in shady borders. It is a very fine plant for hanging pots or baskets on the piazza in summer and conservatory or window in winter. (See cut.) Price, plants from 7-inch pots, \$1.50 each; 6-inch pots, \$1 each; 5-inch pots, 60 cents each; 4-inch pots, 35 cents each; 3-inch pots, 20 cents.

NEPHROLEPIS PICTINEATA. A dwarf variety of the Sword Fern; admirably adapted for hanging baskets.
PTERIS SERRULATA CRISTATA NANA COMPACTA. A new and beautiful form of the Pteris Serrulata Cristata; spreading habit; large foliage, finely crested. 25 cents.
POLYPODIUM AUREUM. Long leaves, often two feet or more, of a sea-green color, deeply lobed, very effective as a pot plant. 25 to 50 cents.

Pteris Tremula.

(SHAKING FERN.)

The foliage of the Pteris varieties is large; very graceful. The slightest movement of the air shakes the leaves of this kind, which we recommend more than any other for house culture, etc. It grows readily and very fast. Keep the leaves from dust and sprinkle slightly every warm day. Per dozen, \$2; large plants, two feet high, 25 to 50 cents; small, 15 cents.

ARGYREA. The inner half of leaves silvery white, very beautiful; should be in every collection; grows from fifteen to eighteen inches. Per dozen, \$2; 10, 25 to 50 cents each.

LONGIFOLIA. Long, graceful fronds, eighteen to twenty inches long. 20 cents.

SERRULATA AND SERRULATA CRISTATA. Hardy, attractive, eight to twelve inches high; long, narrow leaves in dense masses. Per dozen, \$1.50; 15 cents each.

Pteris Tremula Smithiana.

A crested form of the well-known Pteris Tremula, with large deep green fronds, with the ends of the pinnae crested and tasseled, forming semi-pendent tufts. The whole plant presents a unique but graceful appearance, and will make one of the best large growing ferns in cultivation, especially for exhibition purposes. 50 cents each.

Lycopodium.

(CHINESE MOSS.)

DENTICULATUM. This is the most popular of the creeping mosses, creeping in dense masses over the soil, loves shade and moisture like all the rest. Well-grown plants, per dozen, \$1; 10 cents each.

CAESIUM ARBOREUM. This kind grows upright twelve to eighteen inches, but needs support; its metallic shining leaves are really beautiful. 25 to 50 cents.

MARTENSII. Grows three to six inches high, like miniature shrubs. 10 to 25 cents each.

SELAGINELLA WILDENOWII. A moss with fern-like fronds, very handsome. 25 cents each.

Genista Canariensis.

GENISTA CANARIENSIS. A most desirable spring flowering plant, producing its fragrant bright golden yellow flowers in the greatest profusion. As a winter plant of the easiest culture it is unsurpassed. Especially desirable for Easter decoration.

German Ivy.

(RAILROAD IVY.)

Is a vine of rapid growth, beautiful dark green glossy foliage; excellent for covering walls, arbors, etc. Per dozen, \$1; in three inch pots. 10 to 30 cents each.

MACROGLOSSUS. Deep green foliage, blooms freely the second year, effective single yellow flowers. 10 to 25 cents each.

Glechoma Heneeaacca Var.

Glechoma Heneeaacca Var.

(NETETA GLECHOMA, GROUND IVY.)

Foliage white and green variegated, very free growing, of a drooping, weeping habit, one of the best plants known for baskets, vases and for trailing purposes; lovely in all stages, perfectly hardy. 10 to 20 cents each.

Gazania Pavnica Major.

A fine improvement on the old sort, for sunny places few plants will show to better advantage; flowers very large, sunray like, with peacock creeping habit, excellent for rock work. 10 to 25 cents each.

Gnaphalium.

LANATUM. Downy white, rapid growth, can be trained into any shape by trimming in summer. Per dozen, 50 cents; 10 cents.

Goldfussia Anisophyllia.

Beautiful plants with dark green leaves, and spikes of funnel shaped flowers of a pale lilac color, blooming most of the winter, grows luxuriantly and makes a charming pot plant. 10 to 25 cents each.

Heterocentron.

- A free-flowering plant of easy cultivation, adapted for either bedding out or pot culture. It is a fine plant for winter blooming, at which time it produces long racemes of beautiful flowers.
- H. ALBUM. Long racemes of pure white flowers, produced freely. 10 to 20 cents each.

Heliotropes.

- Of this very popular and indispensable plant, esteemed for its fragrant flowers, we give below the choicest and most distinct varieties in cultivation. Per dozen, \$1.50; in 4-inch pots, large, 15 cents each. Mailing size, 15 for \$1; 30 cents each.
- ALBERT DELAUX (also called Purple and Gold). Bright golden yellow foliage, and marked with delicate green, the deep lavender color of the flower contrasting admirably with the ever-varying foliage.
- CHIEFTAIN. Rich shade of violet. The best winter and summer bloomer, of unsurpassed fragrance.
- GERBE FLEUR. A good variety for pot culture; color, white, shaded lilac.
- MAD. BRUANT. Plant a dwarf, compact, yet healthy grower, with massive trusses of very large florets. Color deep violet with large white centers, very showy.
- MME. BARNSBY. A strong, healthy growing variety with immense trusses of deep violet-blue flowers, delightfully fragrant.
- MAD. A. CARRIERE. Plant half dwarf, extremely free flowering; trusses and floret very large, color a large white center bordered with deep blue. Very showy and fine.

Heliotrope.

- WHITE LADY. A strong growing, free branching plant; very profuse in bloom. The flower is large and of the purest white.
- MRS. J. C. BOEL. A grand purple variety, florets and trusses extra large. A very robust variety. This is a rival of Chieftain.
- QUEEN OF THE VIOLETS. This is the richest colored of all the dark varieties; color a rich velvet blue. 15c each.
- LOUISE DELAUX. Color purplish violet, good grower.

Hoya Carnosa.

Hypericum Moserinum.

- A beautiful new hardy plant with large, showy golden yellow flowers two or two and one-half inches across. The habit of the plant is free and graceful, producing long, slender much branched stems; wonderfully free flowering, continually in bloom from July to October. It is perfectly hardy, forming a bush two or two and one-half feet high. 25 cents; 5 for \$1.

Hypericum Calcynum.

- A new evergreen flowering shrub; flowers large, light yellow, produced in bunches; blooms from June until frost. 20 cents.

Hoya Carnosa.

(WAX PLANT.)

- Has thick, fleshy leaves, growing moderately fast and bearing umbels of beautiful flesh colored flowers, from which are exuded large drops of honey-like liquid. One of the best plants for house culture, as it stands the extremes of heat and cold better than most plants and is not easily injured by neglect. Each, 10, 20c to \$1.

Habrothamnus Elegans.

- A very handsome plant with bright rosy crimson flowers produced all winter in profusion, in drooping panicles. 15 cents.

Hibiscus Sinensis.

- This plant rivals the geranium in popularity. A very good way to make them bloom freely and to facilitate the lifting in fall is to transplant each plant into a pot two or three sizes larger than the one it has been grown in, then plunge the pot altogether into the ground, the soil to cover the surface two inches. Then in the fall the plant can be lifted without injury, and being transplanted again, and kept in a shady, cool place until fully recovered, it will, in a warm sunny window, in a warm room, bloom constantly. We offer small plants ready to bloom, at 75 cents per dozen; larger plants in 4-inch pots, \$2 per dozen; small plants ready to bloom, 10 to 20 cents. Extra large plants, 25, 50 cents to \$1 each.

- AUREA VARIEGATA. Beautiful golden foliage, mingled with dark green; good carmine flowers.
- BRILLIANTISSIMI OR GRANDIFLORA. Large single flowers of the richest and most brilliant crimson scarlet flushed with orange; base of petals stained deep crimson.
- DENNISONII. Nearly pure white color, very slightly rose-tinted; good, single.
- DOUBLE CRIMSON. Two or three inches in diameter, very showy and fine.
- COOPERII. Tricolored foliage, single dwarf.
- DOUBLE ORANGE. Extra large flowers, freely produced.
- DOUBLE ROSE. Altogether a new shade, a lovely rose color. 15 cents each.
- DOUBLE SULPHUR. Yellow, medium sized, but very numerous flowers. 15 cents each.
- DOUBLE PINK. Very large double flowers of a pleasing violet pink tinge, double. The flowers last for several days.
- FUIGIDUS. Single flowers of large size, composed of fine broad and slightly undulated petals, an intense carmine scarlet.
- DOUBLE SCARLET. Large, double, brilliant and attractive, bright vermilion scarlet; ought to be in every garden; showiest; flowers last well.

IMPATIENS SULTANII

- SCHIZOPETALUS.** Extra, the petals are deeply lacinated and fringed; its drooping flowers, with reflected orange red and lacinated petals render this plant not only a curiosity, but highly ornamental. 25 cents each.
- MAGNIFICUS.** A grand variety, single flowers, rich crimson magenta.
- ZEBRINA.** Yellow ground, with bright scarlet stripes; well marked; double.
- CRUENTUS.** Brilliant crimson; the richest colored of all hibiscus.
- HIBISCUS CHRYSANTHUS.** Sulphur yellow, base of petals dark brown.

Impatiens Sultani.

From South Africa, and proves a valuable addition to our flower gardens. It grows freely and flowers profusely and continuously; resembling a balsam in habit of growth and shape of leaf; the flowers are single, of the richest carmine magenta color. Extra, 25 cents.

Hydrangeas.

- Beautiful blooming plant, adapted to rather shady location. The large clusters of flowers resemble the snowball, only being much larger.
- HYDRANGEA CYANOGLADA.** Large heads of bright, bluish pink, stems black, leaf stalk. 10, 20 and 50 cents.
- HORTENSIS VARIEGATA.** Beautiful foliage of white and green. 50 and 25 cents.
- OTAKSA.** A very beautiful variety from Japan, giving large clusters of bluish pink flowers in great abundance through the season; the flowers are very persistent, lasting two or three months. 10, 25 to 75 cents.
- THOMAS HOGG.** This is the finest of all hydrangeas. It is a more free and abundant bloomer than any other; for the florists and all decorative purposes it will be invaluable. The flowers are all the purest white, of very fine texture, and continue in flower for a great length of time; quite hardy in open ground. 10, 25, to 50 cents.

Ipomea Grandiflora.

A plant that grows and blooms well with every one; it is a very rapid grower and will thrive and bloom in almost any situation, but of course the growth will be stronger and flowers more abundant if given a good, rich soil and plenty of light. As a vine for covering trellises, fences, verandas, etc., it has few equals, often growing thirty to forty feet in a season, and with a little training can be made to cover a large space in a very short time. The flowers are pure white, five to six inches in diameter, and as they expand toward evening have a very striking effect. A good-sized plant will produce fifty to one hundred flowers every evening. They begin to open about sundown and close before noon the following day. 10 cents each; 12 for \$1.

Ipomea Martoni.

This is one of the prettiest of the Ipomea, rapid grower, unsurpassed for vases and baskets, in fact, one of the best vines for that purpose as it always is in bloom; flowers purplish lilac. 10 cents each.

Ipomea Leari.

(BLUE MOONFLOWER.)

A magnificent variety, bearing azure blue flowers six inches in diameter. A profuse bloomer and a lovely color. 15 cents.

Ipomea, Mexican or Palmata.

A distinct and pretty Mexican species, bearing fine clusters of large purplish rose colored flowers. It grows rapidly and succeeds in almost any position; as a plant for covering arbors, verandas, etc., it is invaluable; being tuberous-rooted it may be wintered like a dahlia. 10 to 25 cents.

Isolepis Gracilis.

Elegant drooping grass, very showy in greenhouses or outdoor shady places, in baskets or vases. 10 cents each.

Moon Vine.

Ivy, English.

Valuable for covering brick walls, and upon the north or shady side of buildings; also excellent for parlor ornaments and most desirable hanging basket plants. Small, per dozen, \$1; 10 cents each. Large, per dozen, \$2; 20 cents each; extra large plants, 50 cents to \$1.

AUREA. Variegated, golden yellow.

EVERGREEN ENGLISH. Perfectly hardy, suitable for covering graves, walls, etc.

GLAUCA. Glaucous thread-like leaves; hardy.

MARMORATA. Leaves beautifully margined green and white.

MARGINATA ARGENTEA. Small leaved, silvery variegated.

PALMATA. Large heart shaped leaves; robust.

RHOMBIA VARIEGATA. Small leaves, fine silver margin.

VITIFOLIA. Small leaved, neat, fine form.

Jasminum.

Jasminum Multiflora.

GRANDIFLORUM (Catalonian Jessamine). A valuable winter-flowering plant, blooming without intermission from October to May; the flowers are pure white, most deliciously fragrant. 10, 25 to 75 cents each.

GRAND DUKE. Flowers double white, like miniature white rose; deliciously fragrant. 10, 25 to 75 cents each.

MULTIFLORA. This is one of the best of all jessamines; a constant bloomer; flowers of the purest white, on wreath-like branches; very sweet. 10, 20 and 50c to \$1.

REVOLUTUM. Fragrant yellow jessamine, rapid grower. 10, 25 to 50 cents.

TRIFOLIATA. An improved variety of the Grand Duke Jessamine style, very free bloomer, very fragrant and double white. 10, 25 to 50 cents.

CAPE JESSAMINE—GARDENIA FLORIDA. The large-flowering sort of this exquisitely fragrant flower, also the dwarf (Radicans); prices same. 15 to 50 cents each.

N. B.—Prices of extra large plants of all sorts of jessamines given on demand.

Justicea, Blue.

A beautiful plant when in bloom; it throws its flowers in clusters and blooms for a considerably long time in winter and early spring. The flowers are of a most beautiful and rich shade of intense ultramarine blue.

This plant is in bloom nearly all the year. The flowers are star shaped, white tipped, crimson maroon, and resemble some species of orchids. 15 cents.

JUSTICEA CARNEA AND ROSEA. Good plants for the house and blooming winter and summer. Red and rose. 10 to 20 cents.

New Dwarf Justicea, "Velutina."

This New DWARF JUSTICEA, so highly praised by Mr. Louis de Villmorin in the Revue Horticole, is really a much finer and dwarfer plant than our engraving, made from an imported specimen, suggests. Everyone knows the tall, lanky, straggling habit of the old Justicea Rosea. This new sort, which is now grown so extensively by Parisian florists, begins to bloom when the plant has only three or four leaves, and is never out of flower afterward. If pinched back occasionally it makes a very dwarf, stocky plant, frequently covered with 20 to 50 large pink flower-heads, lasting a long time. The foliage is also more persistent and highly ornamental, being heavy in texture and VERY VELVETY. 20 cents each; \$2 per dozen.

Justicea Velutina.

Lantanas.

These are exceedingly valuable plants for bedding out during summer; they thrive in dry, hot, sunny weather, when many of our other plants suffer, and bloom all summer. Per dozen, \$1; 10 cents each, except when noted. Small plants for mailing, 75 cents per dozen; express, 50 cents; 10 cents each.

ALBA PERFECTA. Largest and freest blooming white sort known.

BOULE D'OR. Clear yellow, dark center, very dwarf.

COMTESE DE BLENCOURT. Large, bright rose; center sulphur, fine color.

DELICATISSIMO. Pink-lilac, trailing, splendid for vases.

GOLD CUP. Our seedling, lemon-yellow, golden yellow center, dwarf, compact grower, very pretty. Six for \$1.

HARKET'S PERFECTION. The leaves are a golden-yellow, blotched and marbled green, rose flowers.

LILLIE NEUNER. Our own seedling. Dwarf yet strong grower, the largest flowering rose variety in existence; very bright and pleasing in color. Beautiful variety. 15 cents each.

METEOR. Fiery red, changing to darkest maroon. Very free and showy. 15 cents each.

MONT. BLANC. A dwarf white with lemon eye; good.

A. CLAVEN. Very dwarf and bushy habit; covered with flowers of silvery rose with center of soft yellow. A beautiful contrast.

AMIEL. Semi-dwarf, very compact, very fine bloomer; umbel and floret fine size. Color reddish orange with yellow center.

Lasonia Alba.

A fine plant of shrubbing habit, with sweet scented flowers, resembling the magnonette flowers exactly, deliciously sweet, very easily cultivated; one of the best plants we have ever offered in our catalogue. 50 cents each.

Lavender.

SWEET. Blue flowers; well-known herb; hardy. 15 cents.

Laurus.

NOBILIS (Sweet Laurel). Foliage stiff, glossy and scented. 20 cents to \$1.

Of the above laurel we have trained specimens, stems four feet high with crowns from two to three feet in diameter, which we offer from \$20 to \$25 per pair, respectively. These can be wintered in a warm cellar or hall, or still better in any light room not too warm.

LAURUS TINUS. Dwarf, compact growing, winter blooming Laurus, flowers white, in clusters, hardy south of Tennessee. 25 to 50 cents; large, bushy plants, \$1.50 each.

Lemon Trees.

The flowers of the lemon are sweet like those of the orange, and the fruit can be matured here easily. They are excellent house plants if only care is taken not to over-water them in winter. Grafted, well-started plants, that will bloom and bear the same year, \$1 to \$2; small, 35 cents to 75 cents each.

Libonia.

FLORIBUNDA. Flowers scarlet orange at the base, running into deep yellow at the top; it blooms in great profusion from December to May. 20 cents each.

PENROHENSIS. A neat greenhouse shrub attaining a height and breadth of twelve to fifteen inches. Flowers about an inch in length, maroon, orange, and yellow. Blooms profusely from December to May. 10 to 20 cents each.

Lophospermum Scandens.

A vine of rapid growth and beautiful dark green foliage, excellent for covering fences or out-houses in summer. attains a height of twenty feet, also a good house plant. 15 cents each.

Lynum Triginum.

A winter blooming plant of great beauty, producing in the greatest profusion very large and very showy blooms of a bright yellow color. The plant is a complete mass of bloom for a long time during winter, and is one of the most beautiful winter bloomers it is possible to have. The flowers are about the size of a morning-glory and no matter how small the plant is it will bloom profusely. Price, 10 cents each; large plants, 15 cents to 25 cents.

Lobelia.

Splendid basket plant, producing hundreds of little blue, white or marmorated flowers without interruption. We cultivate three of the best varieties. Per dozen, 75 cents; per hundred, \$5; 10 cents each.

Lopezia Rosea.

Free growing, red flowering plant, blooming constantly from November to April. 10 cents each.

ALBA. Same as above; white flowering. 10 cents each.

Manettia Vine.

A beautiful free growing vine with small tubular shaped flowers of a rich, fiery scarlet color, shading off into a bright yellow at tip of flower. It commences to bloom when very small and flowers continually. A valuable plant for small trellises, vases, or baskets. 10 cents.

BICOLOR. A really splendid new vine, colors bright, foliage rich glossy green; very free.

CORDIFOLIA. A beautiful climber, covers itself with rich, deep scarlet flowers. Foliage is heavy and glossy and of a very dark green, contrasting well with the flowers for which it forms a background.

Makaya Bella.

A handsome greenhouse shrub, with glossy foliage and branching habit, bell shaped flowers borne in large, drooping panicles of pale lilac color. 15 to 25 cents each.

Maurandya.

This climber is one of the most free-flowering and graceful for trellises or baskets.

WHITE, BLUE AND PINK. A fine, running vine, good bloomer and grower and ornamental. Per dozen, \$1; 10 cents each.

Mesembryanthemum.**(ICE PLANT.)**

CORDIFOLIUM VARIEGATUM. A succulent plant: the leaves are distinctly variegated with green and white. 10 to 30 cents each.

ERECTUM. Upright habit, long narrow leaves, bright carmine flowers. 10 to 20 cents each.

ERECTUM ALBUM. A fine novelty with pure white flower; superb for hanging baskets or vases. Per dozen, \$1.50; 20 cents each.

Metrosideros Robusta.

METROSIDEROS ROBUSTA. Evergreen plant with fine flowers from the Pacific Islands. Each, 25 cents.

Mimulus, Musk.

MOSCHATUS. An old and well-known plant, of low trailing habit; a very strong, musky odor, with small yellow flowers. 10 cents.

Maranta Zebrina.

A house plant of unsurpassed beauty; foliage a dark velvety green, with black stripe. 25 to 50 cents. Several other new sorts of dwarfier growth, at 50 cents.

Myosotis Palustris.**(SEMPERFLORENS.)**

An everblooming variety of the old forget-me-not; must be kept half shaded; is extra winter blooming. 10 to 20 cents each.

Manettia Scandens.

Mexican Primrose.

This plant is strictly a perpetual bloomer, as it is in flower at all times of the year, a good specimen showing always from ten to thirty large, saucer shaped blossoms, about three inches across. This plant seldom grows over ten inches high, but inclines to a trailing habit, spreading its branches out over the ground, or drooping over the sides of the pot, holding its large, silky flowers erect, so that their unsurpassed beauty is seen to best advantage. Each blossom keeps perfect many days before fading, and when it drops others are out to take its place, and this succession of beauty, is continued from one end of the year to another. The plant is a free grower, succeeding in any soil or situation, and commencing to bloom almost as soon as the cuttings are rooted and potted. As a window plant it combines great hardiness and ease of culture with unsurpassed beauty and delicate loveliness, and is truly a plant which has no superior. In the open ground it grows freely and blooms profusely all summer, and, in fact, until winter is upon it. Early frosts do not injure it, and it blooms on and on until frozen solid with the ground or covered with snow. It is a plant whose merits of hardiness, ease of culture, perpetual freedom of bloom, and unsurpassed beauty, both in color and habit, are offset by no faults whatever. It is the one most desirable new plant for the whole world.

ROSEA. The pink Mexican primrose. 10 cents each.

SNOWFLAKE. New. The pure white Mexican primrose 15 cents each.

Marguerite.**(PARIS DAISY).**

ETOILE D'OR. A yellow variety of this popular flower; a perpetual bloomer, grows two feet high and very bushy. 15 cents each.

NEW WHITE PARIS DAISY. Large, pure white, extra for cut flowers. 10 cents.

Madeira Vine.

(MIGNONETTE VINE.)

The flowers of this climber are feather white, with the fragrance of the mignonette; grows fifty feet high or more in one season. Started plants per dozen, 75 cents; 10 cents each. Tubers, 50 cents per dozen.

Meyenia.

ERECTA. A neat plant with beautiful blue flowers, resembling a small flower of the gloxinia; as a plant for the conservatory it has few equals, as it blooms nine months in the year. 10, 20, to 50 cents each.

ALBA. Pure white, still new; very fine addition to above. 25 cents each.

Myrtus.

COMMUNIS. (The Bridal Myrtle.) An evergreen house plant. 15, 25 to 50 cents.
MULTIPLEX. A double flowering sort of the small leaved Bridal Myrtle. 50 cents.
LARGE LEAVED. Also known under the name of Eugenia Augustifolia, growing more vigorous than the myrtles 10 to 25 cents.

It does not freeze. They love plenty of water and rich ground well manured. If the plants get too high plant them out in the open ground and cut down two or three feet and hundreds of young shoots will come up, forming nice bushy plants. Extra large plants, \$1 to \$5 each.

DOUBLE PINK. The oldest and well-known good bloomer, 10, 25 and 50 cents each.

DOUBLE SCARLET. A brilliant, bright color, very showy, 25 cents each.

DOUBLE WHITE. (Madoni Grandiflora.) This kind is really fine, the flowers are large and very numerous, of the purest white. 10, 20 to 50 cents each.

FLAVUM DUPLEX. A new double yellow, fine and distinct. 10, 25 and 50 to 75 cents each.

SINGLE BUFF, OR YELLOW. Good buff shade, or medium-sized flowers. 10, 25 and 50 cents each.

SINGLE WHITE. This is the most profuse blooming variety, and really showy. 10, 25 and 50 cents each.

SINGLE PINK. 10 and 25 cents.

SINGLE CRIMSON. 10 and 25 cents.

Ophiopogon Jaburan Variegatum.

A very pretty half-hardy plant, producing in dense spikes flowers of a deep violet hue, above green leaves variegated with creamy white. 25 to 50 cents.

Cattleya Orchid.

Asparagus Plumosus.

Myrsiphyllum.

Myrsiphyllum.

ASPARAGOIDES (Smilax). Surpassed by none in the graceful beauty of its foliage; one of the most valuable plants for decoration. The secret for growing smilax well in pots is to let it run up on the fine twine or thread instead of sticks; fasten one or more strings to a stick three or four feet high and the other end of twine to a short stick, or to the pot, and you will see the vine spin up fast. It loves plenty of water with good drainage. Per dozen, \$1 to \$2; 10 to 20 cents each.

Nierembergia.

GRACILIS. A pretty bedding plant; of good habit and delicate foliage; flowers light blue, with dark center; ever-blooming. Per dozen, \$1; 10 to 20 cents each.

Oleanders.

(NERIUM.)

As a tub plant this has no rival. All the improved varieties bloom from May till October very profusely. They can be kept over winter in any kind of cellar or pit in which

Orange Tree.

The orange deserves the widest culture. The orange tree is said to attain the oldest age of any tree in the world; it certainly produces with a little care the sweetest of all flowers, and is called the Queen of Flowers by the most eminent botanists. Potted in soil made of old sod and well-rotted cow manure, with one-third sand for drainage; plenty of water during summer mixed with a little liquid manure about once a month will assure a luxuriant growth, with plenty of flowers, fruit, etc.

GRAFTED. The sweet or the large Mock Orange; both are good blooming kinds, and will ripen their fruit here. One to two feet, 50, 75 cents and \$1; extra large from \$2 to \$10.

We also cultivate the Mountain Sweet, the Navel and many others prized for their high quality of fruit and flower. In spring most varieties can be had with buds, from 75 cents to \$2.

Olea.

FRAGRANS (Sweet Olive). Very sweet, evergreen leaves, good house plant. 25, 50 and 75 cents to \$1 each. A few extra plants 4 to 5 feet, nice and bushy. \$2 each.

**Oxalis Rosea.****Oxalis Ortgiesii.**

Few new plants will give better satisfaction than this, as it is a perpetual bloomer in every sense of the word. It is in full bloom every day of the year, when grown in a pot of good soil and with ordinary care. It grows as freely as a geranium in any situation. It is a shrubby plant like a geranium or fuchsia without buds, in which respect it differs from other oxalis. It grows twelve to eighteen inches in height, branching freely and loaded at all times with clusters of bright, golden star shaped flowers which do not close at night like other oxalis. Beautiful as the flowers are, it is still a splendid plant without them, on account of its highly ornamental foliage. The leaves are three-lobed, dark olive-green above, and a beautiful shining metallic crimson-purple underneath, and wine colored stems. This makes a truly novel plant, as well as a beautiful one, and it is surprising to see what attention it will attract. Price, 10 cents each; 3 for 25 cents.

Oxalis.

PENDULA. Excellent for baskets; long, drooping branches, constant yellow flowers. 15 cents each.
Bulbous-rooted winter and spring blooming dwarf plants, very showy.
ROSEA. Large-flowering rose, extra fine, bulbous-rooted. 25 cents each.
YELLOW. Very showy, bulbous-rooted. 10 to 20 cents each.

Phygelius Capensis, or Cape Fuchsia.

Scidom have we seen a plant so charming and free-blooming. During our past dry summer it was never out of flower, while geraniums alongside of it were perishing. Plants barely a few inches high bear from ten to twenty bold, long spikes, completely crowded with showy scarlet, drooping flowers, persistently produced from May until late autumn, when they can be brought in for winter blooming. It is also a good bedding plant, grown singly or in masses; does well on poor soil, moist or dry, and will probably prove hardy. Can also be grown from seed. We have it. 15 cents each; \$1.50 per dozen.

**Plumbago Capensis.****Passiflora.****(PASSION FLOWER.)**

In order to introduce this beautiful running vine more generally, we reduce the price considerably. Will bloom a long time in the house if grown in a large pot or tub and removed before frost.

ARC-EN-CEIL. A rapid graceful grower. Flowers white, with blue anthers; a beautiful contrast. 20 cents each.

CONSTANCE ELLIOTT. A hardy free grower, and produces in the greatest profusion, sweet scented, pure ivory white flowers. The inner surface of the sepals and petals is white, the coronal threads being ivory white tinged with yellow toward the tip, is perfectly hardy south of Kentucky. 20 to 25 cents each.

INCARNATA. The roots of this variety are hardy, while vines freeze to the ground every year—a good bloomer, though not as handsome as the others. 10 cents each.

JOHN SPAULDING. A sport of the pure white hardy C. Elliott with the added beauty of foliage marked beautifully golden yellow. Per dozen, \$2; 20 cents each.

Panax Victoriae.

A distinct and graceful variegated plant. The leaves, which are green, prettily margined with white, form a dense, plummy, recurring mass of foliage, making it indispensable for center of jardinières or any of the finer table decorations. Another strong recommendation is, it is a free grower and very hardy, which makes it indispensable to every florist. 15 to 50 cents each.

Panicum.

VARIEGATUM. A variegated grass of drooping or creeping habit; a valuable plant for vases, baskets, or fern cases. 15 cents each.

Orange Mandarin**(OR DWARF.)**

This is a beautiful dwarf-growing orange of bushy form and of the easiest culture, as it ripens its fruit under very ordinary circumstances. The flowers are pure white and quite fragrant. It is a very early and remarkable prolific variety, as it bears its fruit when only a few inches in height. Fruit about one-half inch in diameter. Its only value is for an ornamental plant, yet it deserves a place in every collection, as it attracts more attention than a well-grown specimen loaded with the edible fruit. 35 to 50 cents, according to size. 2-inch pot plants, 15 cents each.

Othonna Grassifolia.

It is excellently adapted for carpeting the ground, or as a plant for baskets or vases. It has small, bright yellow, tassel-like flowers borne in great profusion. As a hanging vine for parlor baskets in a sunny window, with moderate watering, this is not surpassed. Per dozen, \$1; 10 cents each.

**Passiflora John Spaulding.**

PALMS.

Kentia Belmoreana.

Chamaerops Excelsa.

LATANIA BORRONICA (Chinese Fan Palm). The most de-
beauty for a long time. 50 cents to \$1 each.
sirable for general cultivation, especially adapted for
centers of baskets, vases, jardinières. 15, 25, 50 cents,
\$1, \$2, \$3 to \$5 each.

Palms are now indispensable in all decorations, whether for
apartments, conservatories, or tropical bedding in the
summer. The large demand the last few years has in-
duced us to considerably increase our facilities for prop-
agating and growing this class of stock, and we now
have two of our largest houses devoted to their cultiva-
tion alone, which enables us to supply all the leading
and popular varieties at most reasonable prices.

Cocos Wedelliana.

Phoenix Reclinata.

Areca Lutescens.

PHOENIX RECLINATA. Beautiful reclinate foliage. 50
cents to \$2.50 each.

PRITCHARDIA FILAMENTOSA. The leaves are palm-
ated, with numerous divisions and whitish filaments, a
beautiful palm, but hard to raise. 50, 75 cents to \$2.

ARECA LUTESCENS. One of the most valuable and beau-
tiful palms in cultivation; bright, glossy green foliage
and rich golden yellow stems. 25 and 50 cents to \$5 each.

CHAMAEROPS EXCELSA. A handsome fan palm, of rapid
and easy culture. 25 and 50 cents to \$1 each.

COCOS WEDELLIANA. The most elegant and graceful of
all the smaller palms. The cocos are admirable for fern
dishes, as they are of slow growth and maintain their

CORYPHA AUSTRALIS. An Australian palm of rapid
growth for decorative purposes. 25 and 50 cents to \$1
each.

CURELICO RECURVATIVE. A graceful palm-like plant
for decorative purposes. 25 and 50 cents to \$3 each.

CYCAS REVOLUTA. (Sago Palm.) The stem of this vari-
ety is very thick, and bears the foliage in whorls at
the top. 35, 50 and 75 cents, \$1, \$2, \$3 and \$5 each.

KENTIA BELMOREANA. A beautiful, strong-growing
palm, with deep green crisp foliage. 25, 75 cents, \$1.50 to
\$5 each.

KENTIA FOSTERIANA. One of the finest of the kentias,
with graceful, bright green foliage. 50, 75 cents, \$1.50 to
\$5 each.

Latania Borbonica.

PHOENIX DACTILIFERA (Date Palm). Small. 25 and 50
cents to \$1 each.

SEAFORTHIA ELEGANS. One of the very best for ordi-
nary purposes, of graceful habit, and rapid, easy
growth. 50 cents to \$1 each.

N. B.—We can furnish small mailing plants of *Latania*,
Phoenix, *Coryphs*, and *Areca*s at \$1.50 per dozen. 15 cents
each.

The *Phoenix* varieties, *Latanias* and *Pritchardias*, also the
Cycas or *Sago Palm*, and the *Chamaerops* stand full sun
well, while the others must be grown in partial shade.

Pandanus Veitchii.

Pandanus.
(SCREW PINE.)

UTILIS. Called Screw Pine from the arrangement of the leaves on the stem. Excellently adapted for the center of vases and baskets, or grown as a single specimen; a beautiful plant. 25, 50 cents to \$3 each.

VEITCHII. Broader leaves and finer variegation than above, extra. \$1.50 to \$5 each.

Pansy.
(HEART'S EASE.)

One of the finest early blooming plants for outdoors. It will stand some frost, can be planted out and will bloom when there is hardly any other flower in bloom. The plants we offer come from the very best German and French seeds. We offer extra select large-flowering varieties at \$1 per dozen, or \$5 per hundred in pot grown plants, which are far preferable to plants from frame. Good plants from frame, 50 cents per dozen or \$3 per 100; young plants, 30 cents per dozen, two for 10 cents.

We can supply in separate colors, white, blue, yellow, bronze, etc.

We sold 100,000 pansies last spring. If you want good, large flowers, plant early. This is important. In above large-flowering sorts we understand French Trimardeaus, Giant, Odier, Bugnots, spotted Carriers, etc., etc. We can furnish you thirty plants of any of the above sorts for \$1.

Pellionia.
(SO-CALLED MEXICAN PEPEROMIA.)

One of the handsomest greenhouse or parlor plants that we have ever seen. It grows very rapidly in a warm, moist place, sending out long creeping or drooping branches in every direction. The foliage is of the most beautiful olive-green, marbled all over with silvery gray, and covered with a purplish velvety luster, while the under sides of the leaves are bright red. Its drooping habit makes it most desirable as a basket plant or specimens on pedestals. Price, 15 cents each; \$1.25 per dozen.

Pellionia Pulchra.

An exceedingly pretty trailing plant, with light green foliage marked with dark spots. A charming trailing plant. 10 to 20 cents each.

Pelargoniums.

See special collection.

Plicatum Grass.
(PANICUM PLICATUM.)

This is a tropical plant from the East Indies, and although it is not new, it is so little known, and withal such a graceful and beautiful plant. It grows about three feet high, branching from the root, and forms a clump not close or compact, but extremely graceful. Price, three for 50 cents; 20 cents each.

Pilea.

ARBOREA (Artillery Plant). A pretty little plant of drooping habit, resembling the fern; it is a fine basket plant.
GRANDIS. Until it comes to flower, you never would suspect that it belongs to the same family as the "artillery plant." It makes a most graceful plant, with large leaves of golden green color. 10 cents each.

Pomegranate.

Pomegranate.

JAMES VICK. Improved. This is a decided improvement on our old sort, James Vick, sent out by us some eleven years ago. Its habit is dwarfer and more compact and blooms earlier and is constantly blooming. Bright. Single scarlet. 10, 25 cents to \$1.

DOUBLE-FLOWERING SCARLET. 10, 25, 50 cents to \$3.
DOUBLE-FLOWERING, WHITE. 10, 25, 50 cents to \$3.
DWARF POMEGRANATE. Old variety, single. 20, 50 cents to \$1.

LEGRELIAE (Flora Plena). Beautifully variegated flowers of golden yellow and crimson; showiest of all. 10, 25, 50 cents to \$1.

The flowers of this are yellow, flaked with scarlet, double, extra fine.

New Purple Seeded.

A remarkable seedling of the sweet pomegranate, fruit large, highly colored, pulp very juicy of finest quality. Color of rind usually bright. Grows very thriftily. 25, 50 cents to \$1.
These pomegranates of the South are beautiful flowering shrubs of easy culture; fruit very ornamental; cultivate in tubs.

Giant French Pansy.

Petunia Snowdrift.

Petunia.

Blotched and striped. Assorted colors, per dozen, 75 cents; 10 cents each.

LARGE-FLOWERING, SINGLE. Extra fine, maculated and striped varieties, among the finest of summer blooming plants. Per dozen, \$1; 15 cents each.

These are certainly among the finest of bedding plants for massing or border.

(DOUBLE.)

PINK BEAUTY. This grand novelty is really a pink with the tint of the well-known carnation, Grace Wilder, and beautifully fringed. Unlike many of the strikingly fringed varieties, it is a robust grower, and will make a splendid market plant. Six for \$1; 20 cents each. Price for small plants for planting out; per dozen, 75 cents; 10 cents each. Larger plants grown in 5-inch pots, per dozen, \$2; 20 cents each.

DOUBLE FRINGED. Blotched, variegated or spotted; white, crimson or purple.

SNOWDRIFT. Double white, large. 15c each.

SMALL-FLOWERING, DOUBLE. A very free bloomer; purple and white. 10c each.

Primula Forbesi—Baby Primrose.

A beautiful free-flowering Primula, fine for pot culture. The flowers are a charming rosy lilac with a yellow eye and are freely produced on long slender stems well above the foliage. They begin blooming quite young. If wanted for fall and winter use they should be sown about July 1st and the flowers kept pinched off until October; treated in this way, from that time until late in spring they will bloom continuously. 25 cents.

Primula.

CHINENSIS. This is the most thankful of all the plants we cultivate for the winter flowers, and the most worthy to be recommended for winter gardening. One plant will yield several hundred flowers; one of the most valuable and beautiful plants in cultivation.

Single varieties, pink, white and kermesine. 15, 25, to 40 cents each.

Primula Obonica.

Primula Obonica.

A lovely perpetual blooming primrose and admirably adapted to growing in a cool greenhouse. The flowers are not large, but are profusely borne in loose trusses and are of a delicate rosy lilac, shading to white, and possess the true primrose fragrance. It is in bloom fully nine months of the year and some plants have kept up a succession of bloom during the entire season. 10 cents each. Large plants, 25 cents each.

Plumbago.

CAPENSIS. Deserves general culture, produces its large trusses of azure blue flowers from March till November; one of the best bedding plants. Per dozen, \$1; small, 10 cents; large, 20 and 25 cents each.

CAPENSIS ALBA. Who does not admire the lovely blue plumbago? In this new white sort we offer a sterling novelty which will be heralded by all flower lovers with delight. It is equally thankful as the blue, and even more attractive in its individual beauty. 10 to 20 cents each.

COCCINEA SUPERBA. Similar in style to Plumbago Rosea, but producing long racemes of flowers 12 to 15 inches in length, and of a bright satiny carmine color. They remain in bloom a long time and are very showy and brilliant. 50 cents each.

LARPENTAE. Splendid shade of dark blue, dwarf, hardy perennial. 15 cents each.

Baby Primrose.

Pittosporum Torba.

An evergreen, robust shrub, a very good house plant; flowers small, white, very sweet, hardy south of here. 15, 25, 50 cents to \$2. Variegated leaved, 15, 25, 50 cents to \$1.

Philodendron.

P. PERTUSUM (Monstera deliciosa). A superb tropical climber for a stove-house; the leaves are very large, and curiously cut and perforated. 75 cents to \$2 each.

Poinsettia.

Poinsettia.

DOUBLE-FLOWERING. The bracts of this new kind are gathered into clusters, which fill up the center. It is strikingly gorgeous, of a most brilliant and vivid scarlet color. 25 to 50 cents each.

PULCHERRIMA. A tropical plant of gorgeous beauty, the bracts or leaves that surround the flower being in well-known specimens one foot in diameter and of the most dazzling scarlet. In a hothouse temperature of sixty degrees it begins to bloom in November, and remains expanded until February. 25 cents to \$1 each.

Psidium Cattleyanum.

The Cattley or Strawberry Guava. Perhaps none of the tropical fruits have attracted more attention or given better satisfaction to the general public than this. Plants fruit freely in six or seven inch pots, and the fruit is delicious. Three inch pots, \$2 per dozen; 20 cents each.

Phrynium Variegatum.

A beautiful variegated plant with white and green variegated foliage, about six to eight inches long, borne on long, fleshy stems. As a plant for table or window decoration it is unsurpassed. 10 cents each.

Rhyncospermum.

JASMINOIDES. An evergreen greenhouse climber, which has an abundance of fragrant white jessamine-like flowers in the spring, for 3 months. 20, 35 and 50 cents to \$1 each.

Rivinia Humilis.

A beautiful little plant with racemes of small white flowers, followed by scarlet berries. In the bloom and fruit the entire year. One of the prettiest plants we have in our greenhouses. Very showy. 10 cents each.

Rivinia Humilis.

Rubus Grandiflora.

Large, double, pure white flowers; very showy and desirable; hardy south of here. 10 cents.

Rosmarinus.

OFFICINALIS (Rosemary). A spiky, fragrant plant. 10 to 25 cents.

Ruellia.

FORMOSA. Perpetual-flowering half shrubby plant; flowers brilliant scarlet; blooming the entire season. 15 cents.

Russellia.

JUNCEA. Brush-like foliage; handsome scarlet flowers, always in bloom; habit drooping; fine for baskets or vases. 15 to 50 cents each.

Salvia.

(SAGE.)

Excellent summer blooming plants, especially brilliant in the fall months.

COMPACTA ALBA. Blooms in the same style as Splendens, pure white flowers.

RUTILANS. (Apple-scented.) Produces very freely neat spikes of magenta colored flowers; graceful foliage with a very agreeable fragrance.

SPLENDENS (Scarlet Sage). Dense flower spikes of the most brilliant scarlet. Per dozen, large, \$1; small, 70 cents; 10 to 15 cents each.

AMABILIS. Light, sky-blue. (See Hardy Perennials.) 15 cents each.

LEUCANTHA. A beautiful blue-flowering salvia; flowers and foliage deliciously fragrant.

SANGUINEA. Flowers large, crimson purple; a tall growing plant.

Golden Leaved Salvia.

Seeing it from a short distance, one would take it for the well-known Golden Bedder Coleus, except for the masses of brilliant scarlet flowered spikes which loom up over the yellow foliage. The effect produced when this gem is planted en masse on a lawn is extremely fine. The contrast between the golden yellow foliage, the scarlet flowers, and the green grass gives to us the grandest combination of colors imaginable. The color of the leaves is constant and distinct at any stage of the plant inside or out of doors.

This plant is very popular, as any one can grow it, and the price is within the reach of every one. Price, large plant, 15 cents; per dozen, \$1.50; small plants, 10 cents each.

Santolina Tomentosa.

A most neat and effective white border plant, forming dense, compact bunches not over six inches high and from six to ten inches in diameter. We can highly recommend this as a companion to the alterantheras, growing the same height and contrasting finely. Per dozen, 50 cents; two for 10 cents.

Saxifraga.

Saxifraga.

TOMENTOSA. A fine basket plant; Strawberry or Beefsteak Geranium. 10 cents.

Sanchezia Nobilis.

A beautiful and attractive stove plant from Ecuador with glaucous green foliage striped with white. 50 cents each.

Sansevieria Zealanica.

Sansevieria Zealanica.

An elegant variegated plant, especially adapted for house decoration, the thick leathery leaves standing the heat and dust of the house with impunity. 25 cents to \$1 each.

Schismatoglottis.

SCHISMATOGLOTTIS. Aroids, much prized for their beautiful leaves.

S. SIAMENSIS. A favorite decorative plant because of its neat, rather dwarf habit, and glossy, white-flecked leaves. 50 cents to \$2.

Spirea.

SPIREA ANTHONY WATERER. After growing this variety for several years, and seeing it grow and bloom freely under the most adverse circumstances, we have no hesitancy in pronouncing it one of the most valuable shrubs. It makes a dwarf, compact bush, 15 to 18 inches high, and is covered the entire growing season with large umbels of deep crimson flowers. It is perfectly hardy, an excellent plant for low clumps or beds. Grown as a pot plant it is fine for house decoration. 15 cents.

Senecio Leucostachys.

A pure white foliage plant, which, no doubt, has come to stay, the leaves are finely cut and growth of foliage very graceful; it will prove especially valuable for ribbon beds, on account of its clear white color and on account of its readiness to submit to any amount of trimming to keep at any desired height or shape. 10 cents each, \$1 per dozen.

Solanum Azureum.

(THE BLUE SOLANUM.)

Certainly one of the finest plants lately introduced. Every one is acquainted with *Solanum Jasminoides*, and its merits are greatly appreciated. In the Blue *Solanum* we have a far superior plant in every respect. It is of robust growth, soon making the fine specimens that climb over and cover a porch with the most handsomely cut foliage. In mild localities it is covered during the late summer months with hundreds of clusters of large, lavender-blue, wisteria-like flowers, brightly set off with golden stamens, each cluster measuring fifteen inches in circumference, and often attaining a length of twelve inches. The flowers are succeeded by bright scarlet berries, remaining perfect for a long time. 35 cents each,

Solanum or Jerusalem Cherry.

Solanum.

(JERUSALEM CHERRY.)

HENDERSONII. A distinctive variety of the Jerusalem Cherry, grows neat and branchy, twelve to eighteen inches. The flowers are succeeded by bright scarlet berries; very ornamental. 10c to 25c each.

JASMINOIDES. A very showy, climbing plant, attaining a height of from six to eight feet; the flowers are white, with golden yellow anthers; a valuable plant for trellises, etc. 10 to 25 cents each.

N. B.—The variety sent out under *Jasminoides Grandiflora* is identical with above.

Stevia.

COMPACTA. New, dwarf, winter-flowering, white, extra, fine, very valuable; grows not more than eighteen inches high. 10 to 20 cents.

RIPARIUM. Fine, white flowering, winter blooming plant; later than the above dwarf. 10 to 20 cents.

VARIEGATA. One of the most effective silver variegated foliage plants, contrasting well with any other plant. Per dozen, 75 cents; 10 cents each.

Solanum Wendlandii.

Swainsonia Galegifolia Alba.

A most desirable everblooming plant, with pure white flowers, produced in sprays of from twelve to twenty flowers each, the individual blooms resembling a sweet pea. As a decorative plant for the window or conservatory we know of nothing that will give as much satisfaction as the swainsonia. Its easy culture, growing in almost any light position, its freedom of bloom, rarely ever being out of bloom, and the grace and beauty of the flower and entire plant, will undoubtedly make this one of the most popular plants in cultivation. 10 cents each; large plants, 15 cents.

Solanum Wendlandii.

We have never noticed Wendlandii anywhere except at Kew, where there are two splendid specimens, one in the succulent house and the other in the water lily house. We have described it before, but mention it again, as it seems always in bloom, bearing a free display of the heavy masses of mauve-blue flowers, which are individually of very large size, $2\frac{3}{4}$ inches across, in clusters of over one hundred. It is a superb climber.—The Garden, November 4, 1893. 25 cents each.

This exceedingly handsome free-flowering vine is highly recommended, especially for the Southern climate, where it remains out doors the entire season. 25 cents each.

Stephanotis Floribunda.

An evergreen greenhouse climber, with deliciously fragrant white flowers. 25 cents to \$1 each. One of the best plants in cultivation.

Strobilanthes Dyerianum.

A beautiful new plant, awarded silver medal at the recent New York show, and also other honors at the European exhibitions. Of brilliant and exquisite colorings, easy growth and very useful as a decorative plant. The long racemes of lovely violet blossoms in midwinter greatly enhances its value. 10 to 25 cents each.

Thunbergia Laurifolia.

This magnificent climber can not be too highly praised. To the florists and all who require winter blooms, it is indispensable, as it flowers in the greatest profusion during the winter months. Color delicate violet blue. 10, 25 to 50 cents each.

FRAGRANS. Pure white flowers, constant winter blooming variety in conservatories or light, warm windows, extra. 15 to 35 cents.

A good climber. This and the above are valuable greenhouse perennials.

ALLETA. Yellow flowers with black center. 10 cents each.

Tradescantia.

Fine creeping plants; most excellent for baskets or vases, and also for growing on the surface of large pots containing specimen palms, etc. Being sub-aquatic, they will grow freely in a very moist place.

T. VIRIDES VITTATA. Green leaves.

TRADESCANTIA MULTICOLOR. A trailing plant of great beauty, and largely used for covering walls in greenhouses or for growing along the edges of the benches. The foliage is variegated—green, purple, carmine, white and crimson. One of the most valuable plants in our list. 15 cents each; \$1.50 per dozen. We also offer two other sorts at 10 cents each, \$1 per dozen.

TRADESCANTIA ERECTA. Large leaves. 15 to 25 cents each.

Stephanotis Floribunda.

Large Flowering Verbenas.

Next to the geranium the verbenas are the most popular and useful of our bedding plants. The collection we offer below is as fine a collection as could be found on this continent, containing the most brilliant colors and some right fragrant varieties. In order to keep the plants in the best of blooming condition, cut all faded flowers off and even a severe trimming or clipping tends only to strengthen the plants and keep them in better shape for late flowering. The demand we had the past season for this popular flower was simply enormous. Price, 10 cents each; 18 for \$1; our selection, 24 for \$1.

CAMEO. Beautiful soft pink shade, large, distinct yellow eye, of the very best.

CLIMAXER. Most brilliant, scarlet, large bold eye, foliage dark green, glossy, strong grower.

CORAL. Extra large pink, large, well-defined white eye, grows very large and spreading.

ECLIPSE. Maroon, white eye, cherry lips, very free bloomer.

GLOW WORM. Brilliant dark red.

JOCKEY. Deep crimson, satiny shading.

MODISTE. Beautiful large flowers of exquisite heliotrope shade, very blooming and healthy grower.

MRS. CLEVELAND. Largest and sweetest of all, of dazzling snow white free color, makes very large plants and large foliage.

MAGIC. Very large white, striped and blotched with blue.

MIDNIGHT. Extra dark variety.

OLIO. White, large, striped and flaked with carmine, very sweet.

PINK STAR. Extra large flowers of clearest, bright, rosy pink, one of the most admired varieties.

PINK AND WHITE STAR. Very large white, striped with deep pink.

Vinca.

(PERIWINKLE.)

HARRISONII. Center of leaves marked with light green. 20 cents each. Small, 10 cents.

MAJOR VARIEGATA. A rapid grower; leaves glossy green, marked with white. 20 cents each; small, 10 cents.

Coontio, Zamia Integrifolia.

A RARE SOUTH FLORIDA CYCAD.

This strikingly beautiful and interesting Cycad, a native of the extreme southern part of Florida, is something between a Palm and a Fern, but is neither, and is of extreme stateliness and beauty. The leaves are pinnate and palm-like, but coiled in the bud like ferns, and retain their beauty for some years. The beautiful flower-head is like a pine cone in shape, appearing as if stamped out of rich maroon velvet. When ripe it bursts and exhibits its glossy, rich yellow seeds, which change to red. It makes a magnificent decorative pot plant, standing heat, dust, and almost any amount of abuse, and is a fine companion for the rare Sago Palm, which it somewhat resembles though entirely distinct. The plants we offer are all pot grown, beautiful specimens, with fine fronds (leaves) and an abundance of roots, ready for immediate effect, and all sure to live and thrive. First size, with nice foliage, 40c each, postpaid; second size, larger and exceedingly fine foliage, 75 to \$2 each, by express only.

Violets.

This is one of the most popular flowers in cultivation, one of the most fragrant flowers in existence; so popular has the flowers become that florists through the country have invested thousands of dollars in greenhouses for the exclusive cultivation of this sweet flower. The violet has become one of the ultra fashionable flowers during its blooming season. Millions of them are sold monthly. The most popular in cultivation are:

THE CZAR (OR RUSSIAN VIOLET). Very large, deep blue, with long, stiff stems, blooms early in spring, each, 15 cents. (Single.)

MARIE LOUISE. Double blue, very fine bloomer, each, 15 cents.

SCHOENBRUNN, OR LITTLE BLUE PEEP. One of the first to bloom and longest to stay in the market. Very popular among florists. 10 cents each. (Single.)

THE CALIFORNIA is not an untried novelty. Last season a few thousand flowers were sold in the San Francisco market at ten times the price of Marie Louise and Russian, and this season tens of thousands are being marketed at four times the price of the above. The plants are vigorous, absolutely free from disease. The flowers are single, covering a silver dollar, intensely fragrant and clear violet purple in color and do not fade out; stems are long and ten to fourteen inches in length, a single plant produces several hundred flowers during the season. These facts are borne out by the San Francisco floral market. 15 cents each; \$1.50 per dozen.

LADY CAMPBELL. New double light blue, a shade lighter than Marie Louise, and more profuse summer and winter bloomer. Very best for all purposes. 15 cents each; \$1 per dozen.

Violet Princess of Wales.

SWANLEY WHITE. A very large, double white, good grower and bloomer. 15 cents each.

We have small plants of the above varieties in 2-inch pots, 10 cents each; 20 for \$1.

New Violet, Luxonne.

This violet of recent introduction promises to take the place of our older varieties. It is a very free bloomer, very sweet scented, and above all other good virtues, a long keeper. We offer only a limited stock to the trade. Each, 15 cents; per dozen, \$1.50.

PRINCESS OF WALES. Another grand new Violet. Large, single flowers of a true blue. Strong, stiff stems; fine for cutting. Intensely fragrant. 15c; 2 for 25c.

Volkamaria or Clerodendron Fragrans.

The large tropical looking leaves and compact heads, of most exquisite waxy white flowers, are as delicious in fragrance as a gardenia or jessamine. A single bunch could well form a bouquet in itself. Add to this its easy growth as a pot plant and the fact that it is almost hardy, and little more is needed to make it popular. Price, per dozen, \$1.50; 15c each.

Double Violet.

SPECIAL OFFER.

The popular taste for this new style of bedding out increases yearly, and we offer below the best varieties of each class at lowest prices, to bring it within the reach of all. The acalyphas, achyranthes, alternantheras, boussingaultia, cineraria, coleus, stevias, pileas and vincas need pinching every two weeks, at least, to keep at proportionate height with plants before and behind. No premiums are included at these prices, which are for young, vigorous stock, ready to plant out. To be shipped by express or freight only.

Water Lilies and Aquatic Plants.

LILIES IN TUBS AND CEMENT BASINS.

A good degree of success may be obtained by planting them in large tubs or half-barrels, in the open air, either on the surface or sunk in the ground. They should be placed where they receive the full benefit of the sun for at least the greater portion of the day. If for the whole day, so much the better. Fill them about half full of the compost. The large growing kinds would do better in large half-hogsheads or tierces sawed in two.

A very effective and inexpensive plan is to arrange the tubs in connection with a rockery.

The next best arrangement for growing aquatics is to build of brick and hydraulic cement a basin two feet deep and six feet in diameter, either round or square.

Aquatics may also be grown in the basin of a fountain, but will not flourish if the spray is allowed to fall upon the leaves.

SOIL. Well decayed manure of any kind, mixed loam or garden soil we find best for growing all kinds of aquatics.

TENDER SORTS TO BE WINTERED IN CELLAR OR CONSERVATORY.

These tender sorts must not be exposed until the arrival of warm weather; in the fall after the frost has killed the foliage of the tender nymphaes, the tubs containing the tubers can be removed to a warm cellar or put under the bench in a greenhouse.

Cyperus Alternifolius.

This plant grows readily with its roots submerged in water, its reedy stems with tufted heads, resembling miniature palm trees. 10 to 25 cents each.

Water Hyacinth.

Eichhornia Crassipes Major, (Pontederia.)

(THE WATER HYACINTH.)

The leaves of this charming plant are borne in curling swollen stems, which at first sight appear like those of a pitcher plant. On examination these stems prove to be filled with delicate, spongy air-cells. It is the nature of this plant to float around on the water, its large clusters of hairy roots hanging downward under the surface. The blossoms are of a beautiful, rosy-lilac color, produced in large spikes like a hyacinth. They are produced freely during summer and autumn. It flowers best if grown in two or three inches of water with rich soil for the roots to take hold upon, or if crowded and matted together, when floating in deep water. Per dozen, \$1.50; 15 cents each.

Nelumbium Album Grandiflorum.

A magnificent variety, distinct from the small-flowered white one offered in former catalogues. The flowers are of the largest size; white, without a tinge of the pink color seen in *N. Speciosum*. It is at present the rarest variety for sale in this country. Each, \$1; two for \$1.50:

Nymphaea Odorata.

The praises of our fragrant water lily can never be too highly sung. Its lovely white flowers are worthy of a place beside the most costly exotics. It can be successfully grown in a tub and wintered in a cellar. Do not tie a stone to it and sink it, as many recommend, but push it carefully into the mud with the hands or feet. Where mud is very rich it will produce flowers six inches and leaves thirteen inches across. Strong roots, by mail, per dozen, \$2; five for \$1; 25 cents each.

Nymphaea Odorata Rosea.

(HARDY PINK WATER LILY.)

This is the famous pink water lily of Cape Cod, and is the grandest acquisition ever made to our list of hardy Nymphaes. It possesses all the desirable qualities of the white-flowered species, hardiness, freedom of bloom and delicious fragrance, with the added charm of deep pink color. A shade somewhat like the rose *Hermosa*. The flowers average a larger size than the white. Large roots, \$1 each.

Nelumbium Speciosum.

(EGYPTIAN LOTUS.)

This was cultivated in Egypt, in the most ancient times, where its seed was known as the "Sacred Bean." It is the "Sacred Lotus" of India and China, and is also cultivated in Japan. This wonderful plant, though coming

from such tropical and semi-tropical regions, has proved to be entirely hardy in this country, enduring any degree of cold short of actual freezing. We have for many winters kept it in water, upon the surface of which ice is formed from four to eight inches thick. No aquatic plants have a more tropical aspect than Nelumbiums. Strong roots, \$1; small roots, 50 cents.

Nymphaea Odorata Resea Minor.

A pretty little variety of our native pond lily, equally as hardy and fragrant, but the flowers and leaves are much smaller. 25 cents each.

*Nymphaea Odorata.*

Nelumbium Luteum.
(AMERICAN LOTUS.)

Though a native of this country it is not common. There is scarcely any difference between this and *N. Speciosum*, except in the color of the flowers, which are of a rich sulphur yellow. They are as large as a quart bowl, and have a strong fragrance entirely unlike that of a *Nymphaea*. Still warm water and very rich soil are the conditions for success with these noble plants. A large patch of them with hundreds of flowers and buds is a sight never to be forgotten. Tubers, 75 cents.

Myriophyllum Plant.

Very best for general aquarian purposes. Price 15 cents each; two for 25 cents.

Nymphaea Flava.

(THE YELLOW WATER LILY.)

A charming addition to any collection, having leaves variegated with brown, and flowers nearly as large as those of *N. Odorata*. They are of a bright, golden yellow color, and deliciously scented, something like locust tree blossoms, but more delicate. It is only half hardy at the North, and should have a warm position in summer. It succeeds perfectly in a warm climate. 35 cents each.

Parrot's Feather.

(MYRIOPHYLLUM PROSEPINACOIDES.)

An aquatic hanging plant is a novelty indeed, and we have it to perfection in this dainty little jewel. Its long trailing stems are clothed with whorls of the most exquisite foliage, as finely cut as the leaves of the cypress vine, and much more delicate. Planted in a water-tight hanging basket, so water can be kept standing on the surface, it will trail finely. 15 cents each; \$1.50 per dozen.

Water Poppy.

(Limnocharis Humboldtii.)

A charming and easily cultivated plant, with small, oval floating leaves, and the most exquisite flowers of a bright lemon color, with black stamens, standing a few inches out of the water and produced freely all summer. Easily grown in a pool, tub, or any shallow water. Must be wintered away from frost. Price, 10 cents each.

CACTI.

Night Blooming Cactus.

Cacti have much to recommend them to lovers of the curious and beautiful; the majority possess very valuable characters, i. e., they are easily grown, so easily in fact that any one who can only devote a small space to them in the window may grow them successfully. In the dry and heated atmosphere of a room, which is so trying to most plants, they are perfectly at home, and their demands upon the attention of their host is so slight that they may be left for weeks, nay, months, without the slightest supply of water. It is not surprising, therefore, that they are favorites everywhere. Many a toiler has had his heart lightened by a sight of the lovely flowers.

Cereus Grandiflorus.

(NIGHT BLOOMING CACTUS.)

Flowers straw color from 20, 50 cents to \$1 each.
C. FLAGELL FORMIS. Under the popular names of Whipcord and Rat's Tail Cactus, this plant is well-known. The stems are very slender, about half an inch in diameter, and they grow to the length of four to six feet, being of pendulous, bright rose colored flowers, which are produced in spring, being extremely attractive. Owing to its very pendulous habit, this species is generally seen to better advantage, grafted on a stem of the Columnar *Cereus*. 25 cents to \$1 each.

CEREUS COLUBRINUS. This soon attains stately proportions, throwing up stems two and three feet high in one season. It bears flowers that bloom at night. 50 cents each.

CEREUS TRIANGULARIS. Stems three corner and blooming at night. Bears the largest flowers of all, often 16 inches across. 10 to 50 cents each.

CEREUS MACDONALDIAE. Free bloomer; flowers twelve inches in diameter, opening at night. Excellent to graft other sorts on; best bloomer of all the *Cereus grandiflorus* varieties. 25 cents to \$1.00 each.

Echinocactus Horizontalonius.

A beautiful species which is found growing in strong soil at the summit of hills from Pecos to El Paso, where it flowers freely from April to July. It varies greatly in size, but it is globular in form, with nine to ten thick ridges, on which the clusters of spines are very closely set. The flowers are purplish pink, tipped dark purple. All in all a very fine specimen. 25, 50 cents, \$1 to \$3 each.

Echinopsis.

MULLERI. The most valuable echinopsis, on account of its rapid growth, and because it blooms when only two years old. Flowers double, satiny rose in color, and remaining on the plants for a week; very beautiful. Small plants, 25 cents; larger, 60 cents.

Queen Cactus.

PHYLLOCACTUS LATIFRONS (Queen Cactus). The giant of its family; magnificent night bloomer; flowers eight, ten and twelve inches across, produced on plants scarcely a foot high, from May to August; quick grower if good soil and warm, though somewhat shady position be given it. Perhaps no other cactus is so suitable for all around purposes, as it is sure to bloom profusely and make fine and valuable specimens. We recommend it above all other cacti, and believe it will please purchasers especially well. Price, 25 cents for one-year-old plants; larger specimens at all prices up to \$10 each.

PERESKIA ACULEATA. The Barbadoes Gooseberry or Biad Apple. A cactus with leaves like an orange tree, excellent and mostly used for grafting, and also for growing on rafters in a greenhouse. Planted direct in the ground it will make prodigious growth in a season. When it attains height and strength many different kinds of cacti can be grafted on it, and curious effects produced. Good strong plants, 25 cents each.

STAPELIA GRANDIFLORA. A much larger plant than the above; the flowers often measure six inches across, and are completely covered with reddish hairs; blooms in large clusters; one of those rare plants seldom met with. 75 cents to \$3; cuttings, 35 cents.

VARIEGATA. The flowers are beautiful; measuring three inches across, of a leathery texture; color buff-yellow, with narrow markings; blooms when quite small. 15 cents and upwards.

Opuntia.

O. SENILIS. Called Old Man Cactus on account of the white hairs with which it is covered, somewhat on the order of *Pilocereus senilis*. \$1 each.

SUCCULENTS.

Agaves.

The plants described under this heading page are not cacti, but succulents usually grown with them under the same conditions.

Of these excellent plants, so useful with cacti, we have a few varieties.

Agaves are noble plants and form grand ornaments in the greenhouse or conservatory, and more especially so for the lawn during summer. Down South they are perfectly hardy; there they grow rapidly and soon come into bloom. Many sorts, indeed, will send up their enormous flower-spikes 30 feet high when only five to ten years old. They grow in any kind of soil.

Agave Americana.

(CENTURY PLANT.)

Very picturesque plant for outdoor decoration on the lawn or in vases. From 10, 25, 50 cents to \$3 each.

AMERICANA VARIEGATA. Similar to the above variety, with leaves banded with yellow. These plants stand any amount of heat and drouth, and they are admirably adapted for center plants of vases, rock work, baskets, etc. Small plants, in 4-inch pots, 25 to 50 cents each; large plants, one or two feet high, \$1 to \$3 each.

AGAVE VICTORIA REGINA (The Queen Victoria Century Plant). Extra fine sort. \$1 and upwards.

AGAVE STRICTA. Most handsome variety, hundreds of leaves; rapid grower, should not be confused with a common Texas species. \$1 to \$5.

ALOE VERA. A beautiful sort, with pale green, almost gray leaves, very long. Makes a graceful plant; being a tall and quick grower; it is desirable and useful for centers of baskets, beds, etc.; it is not expensive. 25 cents to \$1. The juice is an excellent remedy for burns or scalds, applied to the part affected.

ALOE PICTA. When well grown and not stunted as to light and nourishment this soon makes a remarkably handsome plant. The leaves are broad, thick and charmingly recurved. The color is a green, spotted and mottled all over with white and green of a still lighter shade. Flower spikes enormous in size, and growing at the rate of two inches a day until two feet high, when it produces a beautiful panicle of yellow, orange and green flowers. A plant that will last a life-time, and

bloom regularly every season. According to size, 50 cents to \$2.

LINGUA (Tongue Aloe). Curious tongue-shaped, spotted leaves, bell-shaped flowers in spring. 50 cents each.

SOCOTRINA. Renowned for its healing qualities of all kinds of wounds. 10 cents to 50 cents each.

Echeverias.

Group of Echeverias.

ECHEVERIA DESMENTIANA. The prettiest of all echeverias. Color, silvery white. 20 cents each.

ECHEVERIA METALLICA. Most beautiful purple, fleshy leaves, soon forming extra large plants, covered all summer with long spikes of yellow and orange waxy-like flowers; a grand plant indeed. Large specimens, 50 cents; small plants, 15 cents each.

ECHEVERIA SANGUINEA. Like *Metallica*, only green leaves.

ECHEVERIA SECUNDA GLAUCA. (Hen and Chickens.) 10 cents each.

ECHEVERIA GLAUCA. Extra fine, hundreds of leaves, form a beautiful rosette. Price, 25 cents to \$1.

Rochea Falcata.

A fine succulent plant from South Africa; distinct in the color of its fleshy leaves, which are of a frosty gray. They bear large spikes of orange-yellow flowers, which are handsome and remain perfect for weeks; the plant is very attractive and of easy culture. Large plants, 50 cents to \$1; small, 25 cents.

Bulbs, Roots and Tubers.

NOT HARDY.

Amaryllis.

The summer bulbs are a most useful and brilliant class of flowers, and becoming every year more popular, both among florists and amateurs everywhere. The gladiolus now takes rank at the very head of the list. The summer bulbs are tender, and therefore destroyed by freezing and must not be planted until frost is over in the spring. In the autumn they must be taken up before hard frost, and kept in the cellar or some other place where it does not freeze. They are easily preserved in good condition, and will richly repay for the little care required in their treatment. Here they can be planted in April and May.

Nothing can compare with a blooming plant of the hybrid varieties. They grow vigorously, are good for forcing, and make an excellent pot plant. Plant the bulb in a good-sized pot. It will throw up a stem about eighteen inches in height, bearing from eight to fifteen flowers each. Bulbs are always good and increase in value. Bloom several times in pots.

DEFIANCE. One of the handsomest of all amaryllis, large carmine-red flowers, with streaks of white through each flower, \$1 each.

FORMOSISSIMA (St. John's Lily). Scarlet. 25 cents each. **HYBRIDS.** White grounds, striped with rose and crimson; very showy. 30, 50, 75 cents and \$1 each.

RED GROUND STRIPED WITH WHITE. 75 cents each. **JOHNSONII.** Crimson, striped with white; one of the best. 50, 75 cents to \$1 each.

LONGIFOLIA, ALBA AND ROSEA. Hardy, either color, 50 cents each.

OLGA. Best blooming, white amaryllis. \$2 each.

ATAMASCO. Small-flowering, 50 cents per dozen; 10 cents each.

PEARL. White, striped with carmine rose, well-opened flowers, large. 75 cents each.

VALOTTA PURPUREA. Purplish scarlet. 35 cents each.

Begonia.

(TUBEROUS ROOTED.)

Very few plants can compare with the splendid varieties as now offered. They will be found admirably adapted for summer and autumn decoration of the conservatory and house, for they produce in utmost profusion magnificent flowers of large size and great variety of color. The colors are bright carmine rose color, scarlet, bright orange, etc. The plants attain a height of ten to eighteen inches. The tubers are dried off in winter and started again in spring, and bloom the entire season until frost. Seeds, mixed colors, 20 cents per packet.

SINGLE FLOWERING. Strong bulbs. Per dozen, \$1.50; 15 to 50 cents each.

French Hybrid Gladiolus.

DOUBLE FLOWERING. Extra fine. Per dozen, \$3.50; 50 cents to \$1.00 each.

N. B.—The best success is attained by planting dry bulbs in the open ground as soon as weather permits and the ground gets warm, which is here the beginning of May, a stronger growth will be obtained than if started in pots and then planted out.

Gladiolus.

The gladiolus is the finest and most showy of our summer bulbs, with tall spikes of flowers some two or more feet in height. The flowers are of almost every desirable color. Their culture is simple. Set the bulbs from eight to ten inches apart and cover about three inches. Plant at different times from middle of April until the middle of June, and you will have a succession of bloom. The cut flowers will last at least a week in water. The bulbs are taken up in the fall and kept over winter in a dry cellar protected from frost.

Tuberos Rooted Begonia.

Gladiolus Unnamed.

VERY FINE MIXED VARIETIES. Of various shades of red. Per dozen, 75 cents; each, 10 cents.
FINE MIXED VARIETIES. Light colors and white. Per dozen, 75 cents; each, 10 cents.
FINE MIXED VARIETIES. Assorted colors. Per dozen 50 cents; each, cents.
MIXED GLADIOLI. Assorted colors. Per 100, \$4; each, 10c.
MIXED GLADIOLI. Light and white. Per 100, \$5; each, 10c. Not less than 50 at 100 rates.

These unnamed gladioli are really very fine. Do not think they are poor because so cheap. We grow them all and do not intend to have a poor one in the lot.

Dahlias.

We offer a book for the cultivation of dahlias, gives exact treatment and all the standard varieties; it is called *The Dahlia*, by Lawrence K. Peacock. We advise all that are interested in this popular flower to buy one of these books for the small sum of fifty cents.

The dahlia is one of the oldest garden flower in existence, and retains its great popularity. The roots ought to be planted as soon as the ground becomes warm, and covered about three inches. It is an autumn flower and attains its beauty in the fall months when the weather becomes cool. After flowering before hard frost, take up the roots, dry them, and remove the tops and keep in the cellar until spring, when they can be divided and replanted. The Show Dahlias are from three to four feet high. The dwarf, or bedding dahlias, about twenty inches, and the pompon dahlias about three feet, making a compact growth. Our collection of dahlias embraces but the best varieties. Price, 15 cents each; \$1.50 per dozen, except where noted. Should stock of roots become exhausted, we will send strong plants at 10 cents each. \$1 per dozen.

Five Dahlias of Special Merit.

NYPHHEA (The Pink Water Lily). An entirely distinct and novel variety of perfect shape, producing flowers of large size, with heavy broad petals, those of the center being somewhat cupped or incurved. The color is clear, distinct, light shrimp pink, shading slightly darker toward the outer petals. 20 cents each.

CRIMSON GIANT. Of immense size and intense glowing crimson, richly shaded; a great favorite everywhere on account of its large size and deep color. 20 cents each.

LUCY FAWCETT. Very large, pale straw, striped and pencilled rosy magenta; constantly a mass of perfect flowers and invaluable for cutting; one of the best. 20 cents.

PENELOPE. Pure white, delicately flaked lavender; of beautiful form and always perfect; good for cutting and decorating. 20 cents.

QUEEN VICTORIA. Pure yellow, sometimes shaded old gold; of good size, perfect form, and a profuse bloomer; a tall vigorous grower with beautifully quilled petals. 20 cents.

Cactus Dahlia.

BEAUTY OF ARUNDEL. Glowing crimson.
DELICATA. Yellow, overlaid with soft pink.
HENRY PATRICK. Pure snow white.
WM. PIERCE. Rich, butter yellow.
ZULU. Darkest maroon, almost black.

Show and Fancy Dahlias.

ADOLPH PFEIFFERHORN. Cherry red.
GLOIRE DE LYON. Pure white, perfect form.
HECTOR. Bright orange-scarlet.
MISS CANNELL YELLOW. Tipped red.
QUEEN OF YELLOWS. A beautiful, clear yellow.

Pompon Dahlias.

LOVELINESS. White, tipped pink and purple.
SNOW FLAKE. Small, pure white.

Single Dahlias.

HAROLD. Deep, velvety maroon.
PARAGON. Maroon, edged purple.
SNOW QUEEN. Pure white.
 We have a lot of the best colors, mixed dahlias (clumps). Price, 10 cents each; three for 20 cents; 75c per dozen.

Tigridia.

Of Mexican origin, producing flowers of exquisite beauty—flowers about four inches across, and of curious shape. Color orange yellow, spotted with black. Produces flowers from June to October. Take up in fall and keep in a dry place, and plant again in May.
PAVONIA AND CONCHAFLORA. Per dozen, \$1; 10 cents each.

Madeira Vine.

A half hardy tuberous root, climbing plant of rapid growth, bearing copious and graceful racemes of deliciously fragrant white flowers, very useful for screens, trellis or rock work. Per dozen, \$1; per hundred, \$5; 10 cents each.

Tuberoses.

Double.

Pearl.

A beautiful wax-like, pure white, sweet-scented flower, well known to all. Plant in the warmest place in the garden, and plant when the weather becomes warm. The bulb flowers but once, but the small, young ones, after a year's growth, make, generally, flowering bulbs. Take the bulbs up before severe frosts, dry the bulbs, then keep in warm place all the winter and start early.

BULBS. Any kind, started in pots. Per dozen, \$1 (by express only) 15 cents each.
DOUBLE TALL. Dry bulb. Per dozen, 50 cents; per hundred, \$3; 5 cents each.
SINGLE. Early flowering, orange flavored. Per dozen, 60 cents; per hundred, \$3; 10 cents each.
PEARL. Bulbs dwarf. Per dozen, 60 cents; per hundred, \$4; 10 cents each.

Pompon Dahlia.

Hardy Perennial Plants, Roots and Bulbs.

Adapted to our hot summers and changeable winters. Only perfectly hardy plants in this and latitudes north of us are enumerated in this list. We pay particular attention to this branch of our business, as few plants give better satisfaction, with less trouble, than these hardy plants.

Astilbe Japonica.

(JAPAN SPIREA.)

Sometimes called *Hotela Japonica*, grows from one to one and one-half feet high; leaves dark green, forms a handsome tuft, from which arise numerous panicles of silvery white flowers. Excellent for forcing in pots for Easter, etc., or if planted outdoors will bloom here in May. Per dozen, \$1.50; 20 to 40 cents each.

Achillea, "The Pearl."

One of the very best white-flowered plants for the border. The flowers are borne in the greatest profusion the entire summer on strong, erect stems. Pure white in color, somewhat resembling *Pompon Chrysanthemum*. As a summer cut bloom it is a great acquisition. 15 cents each; two for 25 cents.

ACHILLEA MULTIFLORUM ROSEUM. Very showy. Large heads of flowers, blooms all summer, fifteen to eighteen inches high. Per dozen, \$1; 10 cents each.

Aquilegia—Columbine.

CERULEA. A beautiful Rocky Mountain species with broad flowers, often three inches in diameter; the outer sepals deep lilac or blue, petals white, while the deep blue spur is tipped green. A grand variety for the border or rockery. 15 cents each.

CHRYSANTHA. Grows two and a half feet high, forming a bush two to three feet across, which is covered for two months with golden yellow flowers with long spurs; one of the most distinct of the family. 15 cents each.

Anemone Japonica.

One of the most showy of all our autumn blooming herbaceous plants. They commence to bloom in August and continue to increase in beauty until the end of autumn. They thrive best in light, rich, somewhat moist soil and should not be transplanted more than necessary to divide them when they become too thick. A covering of leaves, straw or long manure is sufficient for our most severe winters. 15 cents each.

"LADY ARDILAUM." This is unquestionably one of the finest novelties in hardy plants that has been introduced in many years. It is a variety of the old hardy white *Anemone Japonica*, but entirely distinct in foliage and growth, producing flowers much larger with broader petals and of a wax-like substance, overlapping almost to the points, thus forming a most symmetrical flower. It has two or more rows of petals like the old *Japonica*, but of purest white, and is certain to become very popular. 25 cents each; \$2.50 per dozen.

Anemone Lady Ardilaum.

Anemone Whirlwind.

A new semi-double form of *Anemone Japonica Alba* which is supposed to be a cross between this beautiful variety and *A. Japonica Rosea*. In general style and habit it is identical with the white *Anemone*. It is of the same strong habit of growth, and is even more free flowering than the original type. The flowers which are two and a half to three inches across, have several rows of pure

white sepals, and have the advantage of lasting much longer than the single varieties. We consider this a good acquisition, and can not recommend it too highly. Per dozen, \$1.50; 15 cents each.

COPYRIGHTED 1893 BY
A. BLANG

Arunda Donax, Var.

This is the stately and most graceful of all known variegated grasses. It grows from six to ten feet high. It is of vigorous habit, with long, broad, elegantly recurved leaves, picturesquely marked with broad silver stripes that margin their whole length. 25 to 50 cents.

DONAX. A magnificent hardy grass, growing to a height of fifteen feet, and forming dense clumps. It should be left undisturbed, as it increases in vigor and recurvedness from year to year. 15 to 50 cents each.

Aegopodium Variegatum.

A splendid variegated grass, excellent for bordering large beds. Per dozen, \$1; 15 cents each.

Asters, Hardy.

(MINIATURE DAISIES.)

A beautiful hardy class of plants. They are of easy culture and will thrive on any ordinary soil, and produce in profusion during several months their beautiful star shaped flowers. Most of these varieties continue to bloom a long time and are well adapted either for cut flowers or bouquet work.

TURBINELLUS. This is a grand and beautiful aster, producing masses of large, rich purplish blue flowers. Per dozen \$1; 10 to 20 cents each.

Bambusa Metake.

A perfectly hardy Japanese bamboo of dwarf habit, attaining a height of not over five or six feet. The foliage is of a rich dark green and is retained on the plant in a fresh condition almost the entire winter. It makes a most desirable addition to the border in connection with shrubbery, or as an individual specimen for the lawn. 50 cents each; \$5 per dozen.

Arunda Donax.

Bocconia Cordata.

This is one of the finest of our hardy foliage plants, admirably adapted for planting among shrubs or in isolated positions on the lawn; grows very large. 25 cents each.

Bellis Perennis.

(DAISY.)

Well-known, everblooming plants, pink, white, red, double-flowering. \$1 per dozen; 10 cents each.

Candytuft.

IBERIS TENOREANO. A pretty little hardy plant, resembling the well-known annual candy-tuft in flower; but being evergreen, stands out in winter without protection; bushy and compact, growing about nine inches high, and covered with flowers in May and June; ought to be in every garden. Per dozen, \$1; 10 to 20 cents each.

Caryopteris Mastacanthus.

This new plant is highly spoken of in the foreign horticultural journals, and has been twice color plated. It is of Chinese origin and has lately been introduced by Messrs. Veitch & Sons, which is sufficient guarantee of its value. It is extremely floriferous, plant in two and one-half inch pots blooming profusely and continuing to do so until they have reached a height and width of three feet. The dense flower heads are of rich lavender blue, rare among flowers. Blue spirea is a good name for it. \$1 per dozen; 10 cents each.

Delphinium Formosum.

Cereopsis Lanceolata.

The best of this family; flowers large, bright golden yellow, and produced in the greatest profusion; invaluable for potting. Per dozen, \$1; 10 cents each.

Delphinium.

BICOLOR GRANDIFLORUM. Richest shade of azure blue. It blooms almost without intermission from July to October. Per dozen, \$1; 20 cents each. Double-flowering, 25 cents each.

D. FORMOSUM. Single, finest ultramarine blue flowers in existence. Per dozen, \$1; 15 cents each.

Dianthus, Double.

BARBATUS (Sweet William). An old garden favorite which has been greatly improved lately, double as well as the single. Double or single, per dozen, \$1.50; 20 cents each.

DELFOIDES (Maiden's Pink). Grows from six to nine inches high; dense tufts of grassy leaves; flowers pink or white, with a white circle; very sweet; large plants, per dozen, \$1.50; 20 cents each.

PLUMARIUS ALBA FIMBRIATA (Double White Snow). A splendid pure white fringed variety, generally called the Cushion Pink. This is something really valuable. Tufts from open ground. Per dozen, \$1.50; 20 cents each.

N. B.—Small plants of any of the above pinks, by express, 50 cents; by mail, 75 cents per dozen.

Dianthus Delfoides.

Dianthus Plumarius.

HER MAJESTY. New double white pink of perfect form and very prolific, of powerful fragrance. Received nine first premiums at the English Expositions. 25c each.

Dicentra Spectabilis.

One of the most ornamental spring flowering perennial plants, commonly known as Bleeding Heart, with handsome, peony-like foliage, and long, drooping racemes of bright pink and white, heart-shaped flowers, hardy. 20 cents each.

Digitalis Fox Glove.

Digitalis.

(FOX GLOVE.)

Ornamental plants of great beauty, producing dense spikes of flowers on stems three to five feet high. The blossoms are thimble shaped, purple, white and spotted, and very striking. Seed can be sown in spring or autumn, and large roots can be divided. Blossoms the second season; hardy biennial. Three feet. 20 cents each.

Erianthue Ravennae.

RAVENNA GRASS. Perfectly hardy, the foliage forms graceful clumps three to four feet high, above which arise numerous spikes five or six feet, bearing plummy flowers. 20 to 50 cents each.

Euphorbia Corollata.

Small pure white flowers grown in great abundance; is excellent for bouquets in summer; perfectly hardy. 20 cents each.

Eulalia.

JAPONICA VAR. An entirely distinct variety of grass of easy culture, and perfectly hardy; it has long, narrow leaves, striped white and green, throwing up stalks from four to six feet in height, terminating with a cluster of flowers. Per dozen, \$1.50; 20 cents each.

Eulalia Japonica Zebrina.

Beautiful ornamental grass with silvery white rib in center of green leaf; more graceful than the old well-known E. Japonica and Zebrina; hardy, splendid for vase plant, as well as grown isolated on lawn. 25 cents each. Extra large clump of any of above eulalias, 50 cents to \$1 each.

Eulalia Japonica Zebrina.

Eulalia Gracilima Univittata.

Unlike all other variegated plants this has its striping or marking across the leaf instead of longitudinally. It grows from four to six feet in height, forming a most striking and graceful plant, resembling nothing else that we know of in cultivation. The expanded flower spike resembles the ostrich plume. 20 cents each.

COPYRIGHTED 1890 BY A. BLANC.

Gaillardia.

GRANDIFLORA. This plant has hitherto been placed with the rank and file of the herbaceous plants, but for the future will take a much more prominent position; they are all hardy, very free blooming, will thrive in ordinary border and are very useful for cutting, the flower lasting a week in water; they grow about two and a half feet in height, are of a bushy habit, and produce myriads of blossoms from June to October; they vary in color from the palest primrose to the deepest crimson. Per dozen, \$1.50; 15 cents each.

Helleborus.

CHRISTMAS ROSES. Plant in rich soil, half shady place. Blooms in spring, almost under the snow; excellent for winter forcing. Assorted colors. Per dozen, \$2.50; 25 cents each.

Helianthus Bouton d'Or.

A new dwarf perennial sunflower, dwarf, compact and very floriferous, a decided improvement on Hel. Multiflorus, as it blooms freer and keeps clean, healthy foliage all summer. Price, 20 cents each; \$1 for 6.

Hemerocallis or Spider Lily.

Heliopsis Pitcherianus.

This has no equal among all the hardy herbaceous plants. It is perfectly hardy, grows two or three feet in height, and spreading three to four feet. It is a perpetual bloomer, flowering the whole summer. Flowers are about two inches in diameter, of a beautiful deep golden yellow color, and very thick texture, being very useful for cutting and a far superior plant to Coreopsis Lanceolata. Per dozen, \$1.50; 15 cents each.

Hemerocallis.

(DAY LILY, OR FUNKIA.)

The white blooming variety of this beautiful plant is very fragrant, and is so called because one of its flowers opens every day. The foliage is light green, broad shaped and veined. It blooms in the early fall and continues a long time. Perfectly hardy here. Divide the roots after few years growth.

DAY LILY. White, fragrant. Per dozen, \$2; 20 cents each.
DAY LILY. Blue. Small flowers on long spikes. Per dozen, \$1; 15 cents each.

Hemerocallis. New Hardy Spider Lily.

This variety comes to us from Florida, and is described as being perfectly hardy, having withstood the severe winters of 1892 and 1893, without protection in the northern part of New York. The flowers are pure white and have a delicate, tissue-like saucer connecting the petals about the center and are deliciously fragrant. 15 cents each; four for 50 cents.

Fringed Hollyhock.

(DOUBLE.)

This old fashioned, hardy garden plant has been much improved lately; beautiful, perfect double flowers in all colors. Per dozen, \$2; strong roots, 20 cents each.

We have a fine stock of fine double carmine, yellow, blood-red, rose, maroon, white, etc. Young plants, per dozen, \$1; 10 cents each; larger roots, per dozen, \$2.50; 25c each

Hemerocallis Kwamso Fl. Pl.

(DOUBLE ORANGE LILY.)

Large, double copper-colored flowers; bloom in summer; a bold and striking flower. 15 cents each.

Hemoracallis Fulva.

Lemon-colored flowers, excellent for planting among shrubbery.

Helianthus Multiflorus Plenus.

Hardy perennial sunflower, double flowers continually in bloom; very good. Per dozen, \$1; 15 cents each.

Heuchera Sanguinea.

One of the most valuable perennials introduced lately, growing two feet high, with brilliant coral and scarlet red flowers. Five for \$1; 25 cents each.

Helianthus Multiflorus Plenus.

Hibiscus, Hardy.

SINGLE WHITE. This hardy perennial plant can not be too highly recommended; very large fine white flowers with carmine throat, continuously produced till frosts, makes it one of the most desirable blooming plants. 25 to 50 cents each.

SINGLE ROSE. Splendid rose-tinted flowers, most effective, otherwise same as above. 25 cents each.

CRIMSON EYE. Flowers of the very largest size, with petals broad and flat, making each flower as full and round as a dinner plate. The color is clear, dazzling white, with an intensely brilliant crimson spot at the base of each petal, making a crimson eye two inches across in the center of an immense white flower. Three for 50 cents; 20 cents each.

Hardy Hydrangea, Forms Tree.

Hydrangeas.

THOMAS HOGG. Pure white, flowers in large umbels, very showy, one of the finest, hardy plants. 25 and 50 cents each.

OTASKA. Large pink flowers. Both sorts need protection to prevent the freezing of the flower buds, which form themselves at the point of each branch each year. 15, 25 to 50 cents each.
Above hydrangeas need slight protection with leaves, etc.

HYDRANGEA PANICULATA GRANDIFLORA. Undoubtedly the finest and most popular summer and fall blooming shrub in existence. Its immense white blooms resembling snowballs. No garden complete without one. Our stock of this grand flowering shrub is unusually fine. Strong one-year-old plants, by mail, postpaid, 10 cents each.; 12 for \$1. By express or freight. Strong two-year-old plants, by express or freight only. 25 cents each. Extra strong three to five-year-old plants, cut back, by express or freight only, 50 cents each.

Iris Siberica.

This distinct and most beautiful iris is worthy of the most extended culture. It is perfectly hardy, and will thrive under almost any condition. It blooms immediately after the German and just before the Japanese sorts. It and all varieties of hardy iris bloom well the first season if planted in the fall. Three varieties; per dozen, \$1.50; per hundred, \$10; each, 20 cents.

Iris Kämpferi.

This Japanese iris is an excellent addition to the list of hardy herbaceous plants; it should be planted in a somewhat cool, moist situation. They are quite distinct from all the other varieties, and are as beautiful as orchids. The Japanese iris is one of the handsomest of the whole genus, and when in flower one of the handsomest of hardy perennial plants. It is beloved by the Japanese, who make holidays to visit the iris beds when plants are blooming, and who have devoted infinite pains to its improvement. The flowers are hardly surpassed in delicacy of texture or in beauty of color, and it is hard to imagine anything more beautiful than a mass of these many tinted flowers.

Mixed sorts, very finest, per dozen, \$3. (Single and double) 35 cents each. Mixed sorts, very good, per dozen. \$2. (Single only) 25 cents each.

Iris, New German.**(GERMAN FLAG.)**

The German iris blooms earlier than the Kaempferi, and are very beautiful indeed, and have a charming fringed flowers. The following named sorts are very fine indeed: 15c each, \$1.50 per dozen.

CANADIANUS. Light lavender, falls reddish purple.

CUBERO. Old gold; falls strongly veined with purple maroon.

FULDA. Smoky pearl, satiny finish; falls fine blue.

HONORABLE. Intense yellow; falls a beautiful bronze.

MME. CHERAL. Grand, pure white edged with azure blue; falls lead white, edged with blue penciling.

PENELOPE. Upright petals are pearly white; falls veined a lively purple.

QUEEN OF THE GYPSIES. Dusky light bronze; falls purplish red.

VELVETEEN. Yellowish buff; falls intense plum-purple. grace. They form large clumps, which produce hun-

CONQUEROR. Uprights lavender; falls deep rich purple-blue.

ALREIVE. Uprights light blue, falls rich brilliant purple blue, fluted and feathered.

VISC. DE BRABANT. Uprights yellowish white, flaked purple; falls white and plum, finely feathered.

PARISIENSIS. Fine light and deep blue, large.

Lilium Auratum.

Japan Lilies.

The lily has always been a favorite flower. Some varieties are magnificent and ought to be in every garden. They are of easy culture and can be planted in the fall or spring. All are hardy. Plant eight inches deep. Cover during the winter with straw or coarse manure. Plant in good garden soil with good drainage.

LILIUM AURATUM. Golden-banded Japan lilies; the finest of all; fragrant. 25 and 50 cents each.

LILIUM LONGIFOLIUM. Trumpet shaped, white, one of the best. Per dozen, \$1.50; 15 cents each.

LILIUM CANDIDUM. The old white lily. Per dozen, \$1.50; 15 cents each.

20th CENTURY Grand Novelties OF TRUE MERIT.

GATHERED FROM ALL PARTS OF THE COUNTRY AND OFFERED
FOR THE FIRST TIME AFTER YEARS OF
CAREFUL TRIALS.

ACALYPHA SANDERI.

ACALYPHA SANDERI. Without a doubt the most sensational new plant introduced for many years and one of the most striking flowering ornamental plants we have ever seen. It is of strong, free growth with large dark green leaves from each axil of which, one to two feet long and nearly one inch thick, rope-like spikes of velvety crimson flowers are gracefully suspended, as shown in illustration, page 60, which conveys but a faint idea of the beauty and distinct warm coloring of this splendid acquisition; but the remarkable floriferousness and the great size of the spikes of flowers compared to the plant is fairly well shown. The plant is in flower the year round and is as easily grown as a coleus, simply requiring a warm temperature to develop its full beauty. Price, 25 cents each; larger plants 50 cents to \$1.00 each.

GLOIRE DE LORRAINE BEGONIA.

GLOIRE DE LORRAINE BEGONIA. The grandest Begonia of the day and one of the best selling plants for florists ever offered. Blooms continuously, autumn, winter and spring. Flowers beautiful clear pink. Plants present a mass of floral loveliness for months. Strong plants in 2½ inch pots. 50 cents each.

LITTLE JAPAN FERN BALL.

LITTLE JAPAN FERN BALL (*Davallia Bullata*). For the window, drawing room, or suspended from the chandelier over dining table, or used in fern dishes. This little beauty is an importation from Japan, direct to us, and is certainly the finest addition to the fernery yet introduced. It comes in a dormant condition and is a most satisfactory house plant, needing little care and sure to live and thrive. After watering they start into life and in a short time are covered with a mass of beautiful green ferns. They should be allowed to dry up in November and rest until January or February, and may then be started by watering as before. When growing they should be watered two or three times a week. They may also be cut in halves and used in fern dishes. Ready for delivery about 15th of November. 1st size, \$2.00 each; 2d size, \$1.50 each.

GRAND NEW CARNATIONS.

OLYMPIA.

The Finest Fancy Carnation.

OLYMPIA. This is one of the very finest carnations ever introduced, of the very largest size. It is a variegated variety, somewhat similar to Mrs. George M. Bradt, but lighter in color, having much less red in it,—beautiful clear glossy white, with delicate pencilings of clear scarlet running through the petals, making it the most beautiful variegated variety ever introduced. While it is fully as large as Bradt, or larger, it is a much freer bloomer. Tested alongside of that variety for two seasons, it has produced twenty-eight per cent. more flowers than that popular variety. It is a strong, healthy, vigorous grower, lasting in good condition long after the hot weather in spring has practically ruined the quality of Mrs. George M. Bradt. Flowers are fragrant, and keeping qualities unsurpassed. Price, 20 cents each.

MRS. THOS. W. LAWSON.

MRS. THOS. W. LAWSON. The \$30,000 prize beauty. This carnation has achieved such great notoriety that it is hard to find any well-informed person who does not know something about it. It has had a greater amount of free advertising by the newspapers of this country, as well as of others, than any plant ever introduced. It is without doubt the largest carnation of its color, which is a beautiful true pink, several shades deeper than Scott. Experts who have seen it growing say that the claims made for this grand variety will be fully sustained by its behavior when introduced. Price, 25 cents each.

DOROTHY.

DOROTHY. This carnation has no equal as a paying variety of this color. It is a bright, pure pink, about the shade of Scott. Produces as freely as the same; a splendid keeper and good for shipping. The flower is larger than Scott and well formed. Price, 20 cents each.

MARQUIS.

NEW CARNATION MARQUIS. This is undoubtedly one of the finest pink carnations ever introduced. Its color is distinctive, being a true pink—a soft shade with no trace of purple. Its form is perfect, fragrant, delightful, and keeping qualities wonderful. The plant is a strong grower, free bloomer, and propagates readily. Price 25 cents each.

GENEVIEVE LORD.

GENEVIERE LORD. This is one of the finest introductions of this season. Light silvery pink—about the same shade as Mrs. James Dean, one of the most popular of all colors. Its strong point is its magnificent stems, which are perfectly rigid, holding the flowers erect, and averaging two to three feet in length, and the size of the flowers in proportion to the length of the stems. It is a splendid bloomer. Habit of growth is ideal,—sturdy, vigorous, free, and clean, being entirely free from rust. Its keeping qualities are of the very highest order. We shall be very much mistaken if this does not prove to be exceedingly profitable and one of the most popular carnations for some time to come, on account of its generally good, all-around qualities. As a carnation for retailing nothing can excel it., on ac-

count of its beautiful color and fine stem. Awarded silver medal at Chicago (November, 1899) for the best light pink carnation; also numerous certificates and first prizes wherever exhibited. Price, 25 cents each. The above set for \$1.00.

**NEW ORCHID-FLOWERED HYBRID CANNA.
MME. CHARLOTTE.**

MME. CHARLOTTE. Semi-double Bruant. One of the grandest sorts in this class. Dwarf, spreading habit. Distinct, pure salmon, occasionally veined with white. Extra large trusses with individual florets two inches and over in diameter. We consider this a decided improvement on Beaute Poitevine, being better color and more prolific. Price, 35 cents each. The above set for \$1.00.

Novelties

AND

New

Geraniums

for 1901.

New Geranium, Little Pink.

AMERICA.

NEW GERANIUMS FOR 1901.

AMERICA. A seedling of Mars, having the same dwarf habit and freedom of bloom, but much stronger in growth. Opening bluish white, the flowers become deep, pure rose when fully open, making a very beautiful and attractive truss. An ideal pot and bedding Geranium. Price, 35 cents each.

LITTLE PINK.

LITTLE PINK. (Hall.) Double pink Mars. The first double variety of this class. Same dwarf habit and

freedom of bloom as Mars; does not exceed 4 in. to 6 in. in height. Color bright pink, with no trace of salmon. This variety can not be too highly recommended as a pot and bedding variety. 50 cents each.

MRS. KATE GRAY.

MRS. KATE GRAY. A hybrid between the orchid-flowering and Crozy type. Very strong growth; bronzy green foliage; height 6 ft. Very large, bright orange scarlet flowers, which do not burn in the hottest weather. Early, free and continuous bloomer. 35 cents each.

New Chrysanthemums for 1901.

MRS. ELMER D. SMITH.

MRS. ELMER D. SMITH. A Japanese incurved, of the most perfect form; full, double, high rounded center. Color bright yellow, deeper than Golden Wedding. Stem and foliage perfect; 3 feet high. In season November 1st to 10th; ready April 15th. Price, 60 cents each.

MRS. MARY KELLER.

MRS. MARY KELLER. This new chrysanthemum originated with us last season. It resembles the parent plant Good Gracious (from which it is a sport.) in every respect, excepting in color, also having a stiffer stem which holds the beautiful flower upright. The color is a beautiful orange yellow, very decided from other colors. It blooms the same time as Good Gracious, proving therefore to be a very fine novelty belonging to the late class. Strong, thrifty plants, 25 cents each.

TIMOTHY EATON.

TIMOTHY EATON. The finest variety given out in many years. This grand new white has captured many premiums. It is the largest globular, Japanese, incurved variety yet raised; the form is perfect, the stem stiff, a healthy grower, and brings a full crop of perfect flowers. Height 3½ to 4 feet. Blooms November 15th and later. Ready April 15th. Price, 60 cents each.

MARY HILL.

MARY HILL. A seedling from Mrs. Perrin, of quite similar habit and growth; flower very much fuller, showing no sign of an open center; a light bright shade of pink, with a high pearl gloss on the outer petals. Blooms the middle of November and is an excellent keeper. Price, 50 cents.

New Roses for 1901.

Nanz

&

Neuner's

Seedling

Nanz

&

Neuner's

Seedling

New Seedling Rose, Lady Joy.

New Hardy Rose, SOLEIL D'OR.

NEW HARDY ROSE, SOLEIL D'OR. (New race, Puertina.) A cross between the Persian yellow (Rosea Lutes) and the H. P. Antoine Ducher. It retains a good deal of the character of Rosea Lutea, the bark of the wood being reddish, the thorns very fine, the foliage more ample, and the leaves of a beautiful clear green are closer together. Altogether this grand rose forms a totally new section different from any at present in commerce. This magnificent variety like the Persian Yellow, is perfectly hardy. Robust, very vigorous, making plants of three feet high, with brownish wood, foliage beautiful bright green, conical shaped buds, of a lovely hue, the flower when expanded being very full, large and globular, the petals in the center being well incurved, superb color, varying from gold and orange yellow to reddish gold, shaded with nasturtium red. The color stands the sun well. Plants in 2-inch pots, \$1.00 each.

Nanz & Neuner's New Hybrid Tea Rose LADY JOY.

LADY JOY. Again we have the good fortune to offer to the public a grand new seedling rose, Lady Joy. This beautiful rose is a cross between the American Beauty and Belle Siebrecht. Its blooming qualities can not be excelled, each and every eye and shoot producing a flower, the size being equal to if not larger than its parent, the American Beauty. The blooms are cup shape, very double and open most beautifully, emitting a most delicious perfume. In color it is deeper than the American Beauty, a peculiar and new crimson luster, most striking and beautiful, resembling an artificial flower, being a vigorous grower, making a compact plant, with deep green leaves. For a forcing rose it is excellent, and for out door culture can not be excelled. We can truthfully bespeak for this new rose as being an acquisition and should be in every greenhouse and garden. Strong plants, 2½-inch pots, 50 cents each; two-year-old plants, \$1.00 each.

LARGE FLOWERING COSMOS, DAWN.

The Cosmos is now one of our most popular flowers, but frequently, on account of its coming into bloom so late, the plants are destroyed by frost without having perfected a solitary flower. This new variety comes into full flower in July, and continues a mass of bloom until cut down by severe frost. This feature alone is sufficient to stamp it as a novelty of the first class, and will make their successful cultivation possible in the most northerly States and Canada; but added to this, it is of dwarf, compact growth, growing only four and one-half feet high, while the old variety growing alongside towers up nearly seven feet, a victim to the first strong wind. The flowers are fully as large as in the best selections of the old type, the color is a beautiful white, relieved only by a delicate tint of rose at the base of the petals, altogether the finest novelty introduced in many years. Price, 10 cents per packet; 3 packets, 25 cents.

CARNATION.

NEW MARGUERITE. This class excels in all respects: It is the most profuse bloomer of any of the "Pinks." Exquisite in color, showing beautiful shades in white, red, pink, variegated, etc. Large size, perfect form, dwarf habit, compact and robust; flowers in a few weeks from seed. They can be potted and taken in the house and will flower abundantly throughout the winter. Should be cultivated by all. 10 cents.

Victoria Aster.

Poppy Parsonium (Peacock Poppy), scarlet	5
Ranunculus Flowered French, all colors	5
Poppy Giganteum, extra large	5

IMPERIAL JAPANESE MORNING GLORIES.

These are new types of the well-known Morning Glory. The vines are of a strong and robust growth, attaining a height of from 30 to 40 feet. The foliage varies greatly, some plants having yellow or silvery foliage, while others are blotched and mottled, but the great charm of this wonderful introduction lies in the great beauty and gigantic size of the flowers, which often measure six inches across, and their great substance causes them to remain much longer in perfection than the ordinary type. The colors of the flowers vary into nearly every shade imaginable, making them real wonders of nature. They are of easy culture, succeeding well in any sunny position. Per packet, 10 cents; dozen packets, \$1.

MESEMBRYANTHEMUM. Crystallinum, white	5
Glabrum, light yellow	5
MIGNONETTE. (Reseda.) Golden Queen	5
Gabrielle, red flowers	5

mixed	10

Dwarf Sweet Peas.

BURPEE'S PINK AND WHITE CUPID.

Single, separate colors, or mixed 5
 As this plant is a fair sample we would state that it measured six to eight and one-half inches high by nineteen to twenty-four inches in diameter, spreading on the ground. We could give record of the number of flowers and buds, by actual count, on a single plant of Burpee's Pink Cupid, but will merely refer to the editorial in American Gardening, on page 6, in which Mr. Leonard Barron says, "We counted 121 stalks in blossom on one plant, and an average of three flowers to a stem." 10 per packet

SWEET PEAS. Adonis, deep carmine rose	5
Apple Blossom, shaded rose and pink	5
Blanche Burpee	5
Blanche Ferry, extra early	5
Boreatton, rich maroon	5
Butterfly, white, lavender and blue	5

SUNDRY ARTICLES

Which can be shipped to all parts of the Country with Perfect Safety.

GOLD FISH, AQUARIAS, SUPPLIES, Etc.

Gold Fish and Globe or Aquaria should be in every home. There is no pet which requires and gives so much pleasure, for so little an outlay. During the winter they may be exposed to the light and even slight frost, as they can stand freezing without a particle of injury. During the summer, however, they should be kept in shady places and shallow water, with a little feeding every two or three days, and, perhaps, changing the water several times a week, they can be left to themselves without further care.

- Gold Fish, medium size, 25c; large size, 50c each.
- Japan Fan Tail Gold Fish, medium size, 50c each.
- Silver Fish, medium size, 25c each.
- Pearl Fish (pure white and speckled sides), 35c to 50c each.

AQUARIAS.

Aquarias, all sizes and shapes. A complete assortment always on hand. Also glass fish globes for hanging or standing.

- Round Glass Globes, for hanging, 6 inches, with chain..\$0 50
- Round Glass Globes, for hanging, 7 inches, with chain.. 75
- Round Glass Globes, for hanging, with chains, 9 inches in diameter 1 00
- Standing Glass Globes, 10 inches in diameter 1 25
- Standing Glass Globes, 12 inches in diameter 1 50
- Standing Glass Globes, 15 inches in diameter 2 00
- Square Aquarias, 28x12x11 inches, of cast iron, holding 5 to 6 gallons of water 10 00
- Japanned Tinned Aquarias, in three sizes, from 10 to 24 inches long. \$2 to \$6 each.
- Aquaria Ornaments, Floating Fish, as Swan, Ducks, Alligators, 25c to 50c each. Fish food, 10c per package; Gravel, 10c per package; Aquaria plants, 10c each, 3 for 25c.

STANDARD FLOWER POTS.

The pots we offer are the best for the following reasons: We are the largest consumers in the South, and have made the best. They are smooth, uniform shapes, porous clay, well baked and tough. There is no breakage. They must not be confounded with blistered, irregular shapes of little better than sun-dried material. Perhaps cheaper in the beginning, but dearer in the end. Make a test yourself and be convinced.

They are full inside measurement, height and width, which makes them at least one size larger than by the old way of measuring.

Red Top (14 lbs.)		1 50
Rye Grass, English		2 00

THE MOST BEAUTIFUL LAWNS

May be procured by sowing our Pure Kentucky Bred Lawn Grass Mixture Seed. Being in the heart of the bluegrass region, we, therefore, are fully prepared to furnish the genuine article. We handle nothing but the very best, free of adulterations and weeds. 25c per lb.; \$3 per bushel.

"TYRIAN" PLANT SPRINKLER.

The "Tyrian" Plant Sprinkler is, without question, one of the most useful and most handy articles about the house, not only for the sprinkling of plants and flowers, but also used for sprinkling the floor and even clothes when ironing. This sprinkler should therefore be in every home. When using same for plants and flowers, especially when applying insecticides for the destruction of insects, we would advise to unscrew the head in filling same; but when water is used, by the pressing of said sprinkler, and placing in a vessel of water, it refills itself. We, therefore advise everybody to get one, which will last years. Small size by mail, 85c each; large size, \$1.10 each, postpaid.

FANCY JARDINIERS.

We constantly keep in stock a full line of fancy flower pots, all sizes and styles, imported and domestic, which are especially adapted for parlor and salon decorations. These come in all sizes from 6 inches in diameter to 18 inches, ranging in price from 50 cents, \$1, \$1.50, \$2, and upwards. Nothing sets off a fine palm or blooming plant more than to have same set into a fancy vase. Therefore, when such plants are used, we would consider it advisable and most tasty to have one or more of same. By stating what size and price vase you wish, we will select the finest for the money.

Hyacinth Glasses, tall and low style, 20c each; \$2.25 per dozen.

Fern Dishes, imported round and oval, \$1, \$1.50, \$2 and upward, each. We carry a fine assortment of same in stock.

French Immortelles or Everlasting Flowers, in original bunches, red, white, blue, purple, yellow, black, 35c each.

Our stock of Metal Designs for cemetery decoration is most complete; for want of space, we will mention only a few styles and designs. These can be shipped any distance at little cost. These designs can be composed of metal leaves, porcelain flowers, such as Roses, Camellias, Pansies, Geraniums, Tuberoses, Jessamines, Hyacinths, etc.

Wreaths, 12 inches, \$1.50; 14 inches, \$2 each and upward.

Crosses, 12 inches, \$1.50 and \$2; 15 inches, \$2.50 each and upward.

Anchors, \$1.50 to \$5 each; Stars, Gates Ajar, Harps and many other designs.
