THE LARGEST ROSE GROWERS
 **IN THE WORLD**

Psyche.—Received the award of merit of the Royal Horticultural Society of England. A cross between Crimson Rambler and the Polyantha Rose, Golden Fairy. In growth and habit it much resembles Crimson Rambler. The flowers are produced in clusters of eight to thirty-five and are two to two and a half inches across when fully expanded. The color is white, suffused with salmon rose and pink, with yellow base to the petals. A real companion to Crimson Rambler. The horticultural press of England gives it flattering comment as described at the various exhibitions. 75 cents per dozen; \$6.00 per hundred.

THE BEST OF THIS YEAR'S NEW ROSES.

ADA CARMODY.

This Rose resembles Madame Abel Chatenay. The color is a warm, soft pink. A very attractive Rose. \$1.00 per dozen.

AURORA.

The flower resembles in shape a high-built Chrysanthemum. The color is light pink. A very pleasing shade. \$1.00 per dozen.

ALBERT STOPFORD.

This is an improved Bon Silene. Color dark crimson rose. A very vigorous, free-blooming variety. \$1.00 per dozen.

CLIMBING BELLE SIEBRECHT.

Identical with Belle Siebrecht, except that it is a vigorous climber. Its delicate, bright pink flowers measure five to six inches in diameter. A gem. \$1.50 per dozen.

DUCHESS D'ARENBERG.

This Rose resembles that charming variety Grace Darling, having the same delicate shades, but with the advantage over that variety in its being a more vigorous grower. \$1.00 per dozen.

GARDENIA.

A novelty which must not be confused with Manda's Hybrid Wichuriana. This is one of the prettiest and daintiest of garden Teas. It is fine in foliage; very free in bloom. Its buds are slender and pointed, as they open showing a flesh pink center surrounded by snowy white. The open flower recurves its petals, which are of heavy texture, and its form is like a Cape Jasmine, hence its name. The open flower is the purest paper white. A free grower and very free in bloom. \$1.00 per dozen.

JOHANNA WESSENHOFF.

This is the finest grand bedding yellow Rose. It is a deep golden yellow, and is such a good bedding Rose that it is already called by some the Bedding Perle. It is certainly fine. \$2.00 per dozen.

META.

This is a grand, high-colored variety. It has all the different shades of color, with a few additions, that Luciole has. Coppery yellow, suffused with pink and crimson. \$1.00 per dozen.

MADAME BOULLET.

A very delicate pink-colored Rose. Somewhat of the Testout type. \$1.00 per dozen.

PLANTS BY FREIGHT.—Perishable plants sent by freight are at the risk of the purchaser.

REMITTANCE should be made either in the form of Money Order, Bank Draft, Express Order or Registered Letter. Remittances in any other way are entirely at the sender's risk.

UNKNOWN CORRESPONDENTS.—Orders from unknown correspondents must be accompanied by the cash, or satisfactory reference. If ordered sent C. O. D., one-fourth of the value of the stock called for must be remitted with the order. We make no deviation from this rule, as at the very low rate offered we cannot afford to run any risk. This rule will be strictly adhered to.

MADAME E. DURANTHIN.

This is one of the most unique colored Roses in existence. It combines the delicate shades of Princess Beatrice with the more ruddy coloring of Madame Margottin. This is indeed a beauty. \$1.50 per dozen.

MADAME HUSSON.

A light-colored Rose with yellow center, like Madame Caroline Kuster, only deeper and richer. \$1.00 per dozen.

PIERRE MIGNON.

A very delicate shade of light pink. Has decided merits. \$1.00 per dozen.

PSYCHE, THE NEW RAMBLER ROSE.

Received the award of merit of the Royal Horticultural Society of England. A cross between Crimson Rambler and the Polyantha Rose Golden Fairy. In growth and habit it much resembles Crimson Rambler. The flowers are produced in clusters of eight to thirty-five and are two to two and a half inches across when fully expanded. The color is white, suffused with salmon rose and pink, with yellow base to the petals. A real companion to Crimson Rambler. The horticultural press of England gives it very flattering comment as described at the various exhibitions. 75 cents per dozen; \$6.00 per hundred.

QUEEN OLGA OF GREECE.

This Rose comes to us very highly praised. So far we have failed to detect what these merits are. It may improve with a longer acquaintance. The color is light pink. \$1.00 per dozen.

SOUV. DE MD. EUGENE COUVIN.

We think highly of this Rose. It is a fine grower and free bloomer. Flowers when open flat. It combines shades of white and yellow in pleasing harmony, with center of flower deeper yellow. Very desirable. \$1.50 per dozen.

MRS. MAWLEY.

This grand variety embodies so many good qualities that it is difficult to describe it. We could say no more in its praise than to say it is like Maman Cochet, only several shades lighter in color. \$1.00 per dozen.

ROSES OUR SPECIALTY

SOME OF THE NEWER ROSES

ANTOINE RIVOIRE.

A handsome new Rose of vigorous habit of growth, with large, full, Camellia-shaped flowers. Color rosy flesh, on a yellow ground, shaded with a border of carmine; flowers five inches in diameter. A remarkable variety of great worth. 60 cents per dozen.

ADMIRAL DEWEY.

In color this is among the most beautiful of pink Roses, a delicate daybreak blush, clear and distinct and very captivating, nothing weak or waxy in color. It is a sport from Madame Caroline Testout, is more vigorous in habit and a very free bloomer. Like Testout, the flowers are very perfect in form, a little lacking in fullness when fully expanded, forces finely and is very fragrant; a fine cold weather Rose of enormous size. \$1.00 per dozen; \$6.00 per hundred.

BARDOU JOB. The Saucer Rose.

This is not, strictly speaking, a new Rose, but its merits have only been discovered in the past year. It is scarce, and will be so for some time to come. It is of a semi-climbing habit, being quite vigorous and strong. The foliage is large and leathery. The flowers are very large, and resemble a saucer in shape, semi-double. The color is the deepest, richest velvety crimson of all Roses. We know of nothing in the Rose family so rich in color. A well grown bunch of these Roses will startle you. 60 cents per dozen.

CLIMBING PAUL NEYRON.

(Madame Wagram.)—A grand new Rose. Paul Neyron has always been known as the largest Rose extant. In Climbing Paul Neyron we have this large size, coupled with its bright, fresh pink color that no Rose excels. And it is also a true perpetual bloomer. The freest of all climbers. This Rose is a wonder. Be sure to try it. 60 cents per dozen; \$4.00 per hundred.

BALDUIN.

One of the most remarkable Roses of recent date, as strong growing as the best of the Hybrid Perpetuals, with large, handsome foliage, flowers of the fullest form and largest size, which is equaled in profusion by no other Rose of its size that we have seen. The color is bright, glowing carmine, and if this Rose were constant in shade it would outrank all others of its color. Its one and only defect is that it at times comes "off color." The bud is long and elegantly pointed; it is as sweet as a June Rose. Its many good qualities will make friends for it despite its one fault. 75 cents per dozen; \$5.00 per hundred.

CLIMBING MALMAISON.

This is identical with the old Malmaison, except that it is a vigorous climber. Indeed, it is the most rampant of all the ever-blooming climbers. This is already a fixture in our list of climbing Roses, from its decided merits. 50 cents per dozen; \$3.00 per hundred.

A Rose among Roses, CLIMBING BRIDESMAID

If there is one Rose more beautiful than another, that Rose is Bridesmaid. It is the standard pink cut-flower

Rose of America. It has many rivals, but as yet it holds its own as one of the grandest Roses in commerce. It represents the highest degree of beauty yet attained in Roses of its class. It is distinct in form, distinct in growth, and equally distinct in color. When we first offered this new variety as a sport from Bridesmaid, its popularity was assured. We proceeded to grow as many as we could, but the demand kept the supply down. Not until this year have we been able to get it in such quantity as would allow us to bring it into prominent notice and offer it at a popular price. We want our customers

Balduin.

to try this Rose, more especially those whose Winters are not too severe. It is quite hardy, but where the Winters are very cold and long, it should be carefully protected in open ground. It grows rapidly and strongly, and blooms as freely as does its parent, Bridesmaid, which is practically all the time. The flowers are simply beautiful (identical with Bridesmaid), clear dark pink; in bud they are superb beyond anything we have ever seen. This is one of the most valuable additions to the Climbing Tea Roses made in recent years. 50 cents per dozen; \$3.00 per hundred.

New Hardy, Ever-Blooming Crimson Rose, CLIMBING WOOTTON.

To our mind this is one of the best Roses in this book, for these reasons: It is hardy, has no weak spots, grows with wonderful vigor, blooms continually throughout the growing season, producing flowers that are nothing less than superb, both in beauty and in fragrance. These we think are the points that make a good Rose, and in this variety we have one. It is a sport from that famous Rose, Souv. de Wootton, and is identical with it except that it is a strong, rampant climber, growing in one season to a height of 10 to 15 feet, and producing in wonderful profusion its superbly formed flowers, which are bright magenta red, passing to violet crimson, richly shaded. The flowers are large, full and regular, with thick, leathery petals, and deliciously scented. Makes beautiful buds. As an outdoor climbing Rose, it will take front rank because of its hardness, strong growth and freedom of bloom. A well developed bush covered with finely formed flowers is beautiful beyond anything we have ever seen. Truly this is a magnificent and valuable new Rose. 60 cents per dozen; \$4.00 per hundred.

Golden Gate. (See description on page 4)

THE BURBANK ROSE. A Perfectly Hardy, New, Ever-Blooming Rose.

This lovely Rose was raised by Mr. Luther Burbank, of California, known the world over as the "Wizard of Horticulture," and is the only variety out of seventy-five thousand cross-bred seedlings which he raised that he was willing should bear his name. The Rose is the only rival that the famous variety Champion of the World has. The color is described as cherry crimson—it is, in other words, the very deepest and brightest pink Rose in cultivation. It is peculiarly adapted for both outdoor planting or for blooming in pots in the house during Winter. It is a strong, vigorous grower, making well rounded, bushy plants. The Burbank Rose is perfectly hardy, and will stand our most severe weather. This is a decided point in its favor over so many of our lovely Roses, they being too tender to withstand the extreme cold. The Burbank can be planted anywhere. The Burbank is without doubt the freest-flowering Rose in cultivation. It commences to bloom when only a few inches high, and blooms throughout the season until stopped by freezing weather. The flowers are double, three inches across; the whole flower is most pleasing in its rich beauty, and is delightfully fragrant. 50 cents per dozen; \$3.00 per hundred.

CLARA WATSON.

A free-blooming Tea Rose of English origin with many distinctive features. The flowers are very graceful, resembling Bridesmaid in form, and are produced in remarkable profusion. For freedom of bloom this variety is especially valuable. The buds are very beautiful, and are supported on long stems, making it desirable for cutting. The color is salmon pink, very difficult to describe. Will take a place among the best Roses. 50 cents per dozen; \$3.00 per hundred.

CARMINE PILLAR. (The Butterfly Rose.)

Hardy climber. The flower is from three and a half to four inches across, of the brightest possible rosy carmine, and produced very abundantly. The display lasts for several weeks. Quite hardy. One of the very finest of ornamental shrubby Roses. Of the freest growth. It is so dainty and graceful as to be given the name of the Butterfly Rose. 50 cents per dozen; \$3.00 per hundred.

Grand New Velvety Red Rose, CLIMBING METEOR

The brightest colored of all Roses. It has been called a Perpetual Blooming, Climbing General Jacqueminot. All who know "Gen. Jack" will call to mind its beautiful, high-colored, rich, velvety red buds and flowers. Climbing Meteor is the acme of all red Climbing Roses. It is a free, persistent bloomer and will make a growth of from ten to fifteen feet in a season. In bloom all the time, as it is a true ever-bloomer. We do not hesitate to place it at the head of the list of all Roses for Summer blooming, as it will make a strong growth, and is literally loaded with its deep, rich red flowers all the time. Its flowers are much larger than Meteor and are richer in color. It is just the Rose to train up to the veranda or around windows, where its great beauty will show up to advantage. Don't fail to plant one or more of Climbing Meteor. 50 cents per dozen; \$2.50 per hundred.

EMPRESS OF CHINA.

The Apple Blossom Rose.

This is a new, hardy climber that possesses great merit. It is a strong, rampant grower, and a very free bloomer. Flowers of good size, from pointed buds, soft red, turning lighter as it opens. It blooms from May to December in the open ground. It will, in our estimation, become a standard variety for florists' use to bloom in pots for market purposes, as it is such a free and persistent bloomer. Introduced from China. 50 cents per dozen; \$2.50 per hundred.

ENCHANTRESS.

This variety belongs among the leaders. It blooms with astonishing freedom, bearing its large, globular, double flowers in immense clusters. It is as free blooming as any Rose in our collection. The color is creamy white, slightly tinted with buff in the center. Of vigorous growth, fine foliage and highly valuable, both in pots for late Autumn and Winter blooming, as well as for general planting in open ground during the summer. 50 cents per dozen; \$2.50 per hundred.

Mrs. Rob't
Garret.

See description
on page 5.

FRANCIS DUBREUIL.

This is a grand new, red Rose. The color is a deep, vivid crimson, with rich, velvety shadings. Fine for open ground planting. 50 cents per dozen; \$3.00 per hundred.

FERDINAND JAMAIN.

A strong, vigorous grower and free bloomer of the Hybrid Tea class. Flowers large, full and globular. Color rosy carmine, shaded with salmon. The center of the Rose is light, while the color graduates and deepens to its very tips, resembling a halo of glory. 75 cents per dozen; \$4.00 per hundred.

GOLDEN GATE, The Great Forcing Rose

This variety, while not new, has recently attracted considerable attention, and is considered by many one of the most valuable Winter-flowering Roses now grown. It does best in a temperature that grows fine Bridesmaids. Under favorable conditions its shapely blooms are often as large as American Beauty, and are borne on strong, heavy canes, stiff as reeds. When well grown it is of exquisite color—shell pink, shading to creamy flesh on outer petals. This Rose has been grown quite largely in the vicinity of Washington, where it has been received with great favor. It is a favorite with both grower and retailer, and commands the highest prices of any Tea Rose. See illustration on page 3. 50 cents per dozen; \$3.00 per hundred.

GRUSS AN TEPLITZ.

As a bedding Rose this is one of the finest and most useful varieties ever sent out. Many of our customers who bought it the past Spring are realizing its value and singing its praises. It will take rank with Hermosa or Soupert. The color is brightest scarlet, shading to deep, rich, velvety crimson. It is very fragrant. The freest grower and the most profuse bloomer of any ever-bloomer. The mass of color produced is wonderful, and the foliage is extremely beautiful, all the younger growth being a bronzy plum color. A queen among scarlet bedders. It is a perfect sheet of richest crimson scarlet all Summer. It will undoubtedly supersede Agrippina, Queen's Scarlet, and others of this class. 60 cents per dozen; \$4.00 per hundred.

Mrs. Robert Peary. See description, page 5.

GENERAL ROBERT E. LEE.

This is the first Rose that we have introduced, and we are sure it will please all who try it. It is in color an orange yellow, after the style of Ma Capucine, only richer and better. It is a good grower, has elegant, long buds borne on long stems, and will produce more buds than any Rose we know of. It colors up much deeper and richer in cloudy weather, which will make it a useful Rose for Winter forcing. The color is so peculiar and rich that it attracts attention wherever seen. Try it. 50 cents per dozen; \$2.50 per hundred.

HELENE. The New Rambler.

A seedling from Crimson Rambler originated by a famous German rosarian, from whom we obtained our stock. Flowers larger than those of Crimson Rambler, nearly double, and borne in clusters of twenty to fifty. Color soft violet rose, yellowish white at base of petals. Anthers pure yellow and numerous. Habit fully as strong as Crimson Rambler, but more graceful. Foliage like Crimson Rambler. Hardy. 10 cents each; 50 cents per dozen; \$3.00 per hundred.

HELEN CAMBIER.

This lovely coppery yellow Hybrid Tea Ever-Blooming Rose will fill a long-felt want from the fact that everybody has been looking and longing for a good yellow Rose that combines vigorous hardiness with rich color and free-blooming qualities. This Helene Cambier does. It is a new Rose of French origin, destined, we believe, to find a prominent place among the highest grade ever-blooming Roses, both for Summer and Winter blooming. The growth is free and vigorous, very free blooming, flowers of splendid substance and a delightful shade of deep, rich, coppery yellow. In extreme heat it comes a deep amber color. The buds are full and firm, lasting a long time when cut. As the flowers expand the center of the Rose discloses depths of golden yellow, with light orange tints, while the older petals lessen to lemon yellow, giving a combination of tints and tones unequalled in their beauty. Without question this is a charming Rose for the garden. 50 cents per dozen; \$2.50 per hundred.

LADY DOROTHEA.

The Greatly Improved Sunset.

One of the most beautiful of Roses. Color hard to describe, but perfection in tint. It is a sport from Perle des Jardins, and is a lovely mingling of pink and tawny buff. A warm, bright color, but lacking the coppery red found in Sunset. A very distinct and valuable variety. The finest of the Perle family. Foliage as handsome as the flower. A fine forcing variety. \$1.00 per dozen; \$6.00 per hundred.

MRS. ROB'T PEARY, or Climbing Kaiserin.

This is without doubt the grandest of all white climbing Roses. It is the first and only pure white, hardy, ever-blooming climbing Rose, and as such meets a demand that has never before been supplied. Small plants bloom continually the first season, just as the parent, Kaiserin Augusta Victoria, does. It is as hardy as any Hybrid Perpetual or Moss Rose, and will withstand, unprotected, the most severe Winters. It is a strong, rapid grower, without a weak spot, growing to perfection in open ground, and throwing up numerous shoots ten to fifteen feet high in a single season. The flowers are something grand. They are the equal of the finest and most beautiful cut-flower Roses. Of splendid substance. They are extra large, full, deep and double, and are produced on long, stiff stems, like a forcing or cut-flower Rose. The buds are long and pointed, exquisitely modeled and gracefully finished. Both in bud and flower it is truly beautiful. It has a fragrance that is delicious,

just like Cherry blossoms. If you want a quick-growing, absolutely hardy, climbing, sure-to-bloom Rose, one that will give you flowers this season, this is the only white variety that will do. Be sure to get this wonderful variety. Its magnificent flowers, freedom of bloom and healthy growth will astonish you. This is the greatest of all climbing Roses. See illustration on page 4. 50 cents per dozen; \$3.00 per hundred.

MAID OF HONOR. The Brighter Bridesmaid.

Advertised as Miss Clara Barton. This grand sport from Bridesmaid originated with the Hoffmeisters, of Ohio. They say of it: "After rigid tests, during the last two years, we are able to state—1st. That its color is a rich, glowing pink, darker than Bridesmaid. 2d. That it is an excellent keeper, and sells over the counter better than Bridesmaid. 3rd. That it is a most prolific bloomer, with all perfect buds. 50 cents per dozen; \$3.00 per hundred.

MURIEL GRAHAM.

The latest addition to the Mermet family, being a sport from that fine variety, identical with it in everything except color, which is creamy white, suffused with delicate pink. A color intermediate between Mermet and Bride, and as daintily as possible to imagine. A nice addition to our forcing varieties. 50 cents per dozen; \$2.50 per hundred.

MADAME ABEL CHATENAY. Forcing Rose.

The celebrated Rose which the Washington, D. C., society people have used almost exclusively during the past season in their social events. This is a wonderfully strong, healthy growing variety, with rich, bright foliage. A grand bedding Rose, as it is a profuse and continuous bloomer. Flowers large and full, petals recurved and of a beautiful creamy rose, shaded with rose vermillion and tinged with salmon; the base of the petals is very highly colored, being a combination of the foregoing shades strongly accentuated. This will undoubtedly make a fine garden Rose because of its substance and hardiness, long stems, so that it is The flowers are borne on exceedingly well adapted for vases of cut flowers. 50 cents per dozen; \$3.00 per hundred.

MOSELLA, OR YELLOW SOUPERT.

Mosella is a stronger grower, flowers are a little larger than Clothilde Soupert, but appear the same way in clusters and on single stems. The color is a chrome yellow in the center, getting creamy white on the edges of the petals. It will make a great bedder and perfectly hardy. 50 cents per dozen; \$2.50 per hundred.

Souvenir du President Carnot.

(See description on page 6)

Mrs. Robert Garret.

(See illustration, page 4.)

A beautiful, large Rose of exquisite shape, finish and blending of colors. It was raised by Mr. John Cook, of Baltimore, Md., the result of a cross between Sombreuil and Madame Caroline Testout. It partakes largely of the latter variety in habit of growth, in foliage, spines and stems, and in shape of flowers shows a complete blending of both parents. The flowers are very large on strong stems, clothed with clean, heavy foliage and strong spines. The buds are long and pointed in shape, and open up beautifully into a full, rounded flower. In shape of bud and half-open flower it very much resembles Souv. President Carnot, but is very much larger, color a glowing shell pink, very deep in the center; the fragrance is delicate and pleasing. A correspondent of the American Florist, in commenting on this Rose last March, says: "The exhibit of Mr. Cook was a departure

from the rest, as it was a vase of Roses. But such Roses! They towered above the Carnations on strong stems clothed with heavy foliage, and were as large as American Beauties, but of a beautiful clear pink, almost light enough to be called a shell pink." See illustration on page 4. 50 cents per dozen; \$3.00 per hundred.

PRINCESS VENOSA.

A strong grower, producing a long bud, flower large and beautifully formed. Color nankeen yellow, with shadings of carmine. A most remarkable combination of colors. 50 cents per dozen; \$3.00 per hundred.

PRESIDENT CLEVELAND, or Climbing Marie Guillot. A Glorious New Rose.

This Rose has been grown around Houston, Texas, for several years under the name of President Cleveland. If you have never seen Marie Guillot growing at its best in the open ground, you cannot conceive of the beauty of its large, bold, handsome white flowers. It has been termed the "Queen of White Roses," and while there are many white varieties of unquestionable excellence, there are none more reliable for outdoor cultivation than Marie Guillot. Climbing Marie Guillot possesses all the valuable features of its famous parent, from which it differs only in habit of growth. It is one of the most rapid growing and vigorous climbing Roses we have ever seen, small plants making a growth of ten to twenty feet in five months. It is an exceedingly healthy Rose, possessing every attribute that a perfect Rose should have. It blooms continuously throughout the season, the first and every year. The flowers are magnificently made, extra large, deep and double. The buds are particularly beautiful and the fragrance delightful. The color is pure snow white, sometimes faintly tinged toward the center with pale yellow. It will prove moderately hardy with protection, but it will be seen at its best in the South, Southwest and Pacific Coast States (where the Winters are mild). It will bloom the whole year around in the far South, and wherever Marechal Niel is grown this variety will undoubtedly equal it in beauty of flowers and surpass it in vigor and growth. It is one of the really grand Roses. 50 cents per dozen; \$3.50 per hundred.

ROYAL CLUSTER.

Hardy Climber.

"The name 'Royal Cluster' has been given because of the great size and beauty of its clusters. One hundred and nineteen flowers and buds have been counted in one cluster at a time. The flowers are white, generally tinted with blush when breaking; of medium size, quite double, beautifully formed and durable, making Royal Cluster the very best companion for the Crimson Rambler yet introduced, and it no doubt will become a popular forcing Rose. Royal Cluster is a vigorous climber and a free bloomer, continuing a long time in bloom. It is a sterling novelty." 50 cents per dozen; \$3.00 per hundred.

SOUVENIR DU PRESIDENT CARNOT

With all our admiration for the hosts of beautiful Roses, this variety is so fascinating that we believe it to

be, everything considered, one of the greatest introductions of the last ten years. It is superb in every way. The flowers are large, full and double, exquisitely shaped, with heavy, thick, shell-like petals. The buds are wonderfully beautiful—long and pointed like Niphetos—perfection in every line. The color is a new, delicate rosy blush, shaded a trifle deeper at center of flower. Fragrance delicious. strong grower and free bloomer; has no weak point; will become one of the most popular of all Roses. See illustration on page 5. 50 cents per dozen; \$3.00 per hundred.

SOUVENIR DE MADAME EUGENE VERDIER.

This is one of the grandest Roses in this book. It is a very strong, free grower, throwing up strong, erect canes. Every shoot is crowned with a large, full, deep, double flower of exquisite shape and color, creamy white, shading to yellow. Beyond question this is a superb Rose, and one that will draw forth exclamations of admiration from all who see it. 50 cents per dozen; \$3.00 per hundred.

SOUVENIR DE CATHERINE GUILLOT.

An extra fine variety, producing a long, pointed bud of the color of the Austrian copper. The open flower is large and full, and a wonderful combination of color. Very fragrant and a free and easy grower. 50 cents per dozen; \$3.50 per hundred.

White Maman Cochet,

OR PRISCILLA.

The Charming New White Tea Rose.

Another new American Rose, but as widely different from all other white Roses as one can well imagine. It belongs to the Tea class, being a child of that grandest of bedding or outdoor Roses, Maman Cochet, and is hardy here in northern Ohio, with slight protection in Winter. Its habit is exceedingly strong and upright, like its parent, and it possesses the same large, beautiful, healthy foliage, and is a most profuse and constant bloomer. The flowers are of enormous size, remarkably round and full, pure, clear, snowy white throughout, and are delightfully Tea scented. It is by far the finest and most reliable white bedding Rose yet produced, and should be planted by everybody. By planting a few

plants of it, anyone can have the very finest Roses for cutting and for use in vases, upon altar, dining table, in parlor, etc., all Summer and Autumn. Without question the largest white Rose, both in bud and flower. No other Rose of its color approaches it in size. It is startling. This Rose will disappoint no one who plants it. 50 cents per dozen; \$2.50 per hundred.

WHITE BOUGERE.

A sport from that famous old variety Bougere. For open ground planting it has no superior. The flowers are unusually large, deep, full and double; long, stiff stems, and borne throughout the season in great abundance. The color is a pure ivory white. Very beautiful, and a particularly good Rose for general planting. 50 cents per dozen; \$3.00 per hundred.

CLOTHILDE SOUPERT.

Its color is a pearl white, with a vivid carmine rose center, which fades after a little, leaving the Rose almost white. It is a constant bloomer, quite fragrant, and cannot fail to be a splendid market plant for growing in pots for Spring sales. In addition to its suitability for market purposes, it will be very useful to the cut-flower worker, forming, as it does, nice sprays of open flowers and half open buds. 50 cents per dozen; \$2.50 per hundred.

WHITE MALMAISON.

New. The color is a pure waxy snow white, sometimes has a lemon tint, and to those who desire a fine double flower when fully expanded, this will meet your wants, as it is very beautiful when full blown. Resembles that grand old Rose "Malmaison" in shape and fullness. See illustration on page 8. 50 cents per dozen; \$3.00 per hundred.

DUCHESS OF ALBANY.

A deep, sweet pink in color; not shaded, but what is called a solid color. Ladies prefer it on account of its beautiful color to any other Rose for personal adornment, as it shows up against either light or dark dress goods to a charming advantage. 50 cents per dozen; \$3.00 per hundred.

ETOILE DE LYON.

This is considered one of the finest yellow bedding Roses for outside planting. It is, moreover, one of the hardiest in the Tea section. It blooms freely, and every flower is a gem. It equals Marechal Niel in size, on strong bushes. 50 cents per dozen; \$2.50 per hundred.

EMPRESS EUGENIE

One of the sweetest of all pink Roses. It is a prime favorite in the far South. 50 cents per dozen; \$2.50 per hundred.

A grand garden Rose on account of its vigorous growth and hardiness. 50 cents per dozen; \$2.50 per hundred.

Crown Princess Victoria. (See description on page 7.)

No variety can surpass it in delicate coloring—silvery rose shades, with pink. It has a satin sheen over all its petals. It is universally regarded as the most useful of Roses, for it is hardy beyond question. It blooms continuously. 50 cents per dozen; \$2.50 per hundred.

LETTY COLES.

This is one of the very sweetest and prettiest Roses in our entire collection. The flower is of the largest size and very fragrant. The color is deep rose, touched with crimson. 50 cents per dozen; \$3.00 per hundred.

LUCIOLE.

Another good Rose, producing very long, pointed buds of a coppery color, suffused with pink and crimson. This Rose we recommend for its many good qualities. 50 cents per dozen; \$3.00 per hundred.

LEONIE OSTERIETH, or White Soupert.

We have given this Rose an extended trial, and believe there is no better white Rose grown. The buds are of good size, the flower full and double, and deliciously fragrant. Pure porcelain white, with deep center. In freedom of bloom this charming variety rivals the Poly-anthas. 50 cents per dozen; \$2.50 per hundred.

MADAME DE WATTEVILLE.

Color a beautiful creamy yellow, tinged with rosy blush; large, shell-like petals, having bright, crimson-shaded border. 50 cents per dozen; \$3.00 per hundred.

MADAME A. VEYSSET. Striped La France.

A magnificent new Rose, identical in every respect with its parent, La France, except in two particulars—it is much stronger in growth, and the flowers are beautifully striped and shaded a delicate white. The coloring is exquisite, and we think this Rose will please cut-flower buyers. It forces freely, and produces magnificent large buds and flowers. 50 cents per dozen; \$2.50 per hundred.

MADAME DE VATRY.

One of the brightest Roses. We consider this splendid variety to be one of the very best and most satisfactory Roses for general planting, especially outdoors. The people in the South fairly rave over its great beauty. In New Orleans it is a prime favorite. Makes big, clean buds of great beauty and opens well, showing the large, full, double flowers to great advantage. The color is a rich red, changing to silvery peach—reminds one of the delicate hues seen on the inside of the fairest deep sea

Medea. (See description on page 9)

The color is somewhat in the way of Madame de Watteville, but deeper. Rich creamy white, faintly tinted with pale golden yellow, and exquisitely bordered and shaded with soft rosy flesh, exceedingly beautiful and very sweet, petals large and of good substance, constant and profuse bloomer. A magnificent Rose in every way. 50 cents per dozen; \$2.50 per hundred.

MADAME HOSTE.

It possesses all the requisites of a first-class forcing Rose, viz: strong, vigorous growth, large, well-formed buds, freely produced. We believe this Rose to be one that will continue to assert its claim until it is as generally grown as Perle or Niphotos. 50 cents per dozen; \$2.50 per hundred.

MADAME JOSEPH SCHWARTZ.

A most useful variety for pot culture, and in every way desirable for market purposes. Good bedder, color white, beautifully flushed with pink. 50 cents per dozen; \$2.50 per hundred.

MADEMOISELLE CECILE BERTHOD.

Most beautiful, both in bud and flower, which is deep golden yellow. In fact, the deepest yellow in color of any Rose we grow. The foliage is very bright. This Rose is of a magnificent size and color. We grow of this variety alone over fifty thousand, which is evidence of how we prize it. Altogether a grand Rose, and always in bloom. 50 cents per dozen; \$2.50 per hundred.

METEOR

A velvety red ever-bloomer of the deepest glowing crimson, as fine as a hybrid. Flowers very double, and petals slightly recurving. A beautiful open Rose, a free bloomer, and promising well as a pot Rose. 50 cents per dozen; \$2.50 per hundred.

MAMAN COCHET.

This Rose attracted our attention from the very first time we saw it in flower. It comes from France—the country that has produced nearly all of our best Roses. We are not alone in our admiration of it, as all the visitors to our establishment the past season have been unstinted in its praise. It is a vigorous grower, with beautiful, pretty foliage. In bud it resembles the Mermet family, being long and shapely, borne on long, stiff stems. It is of the largest size, and, as you will notice, the flower is built up or rounded and very double. The color is a deep, rosy pink, the inner side of the petals being a silver rose, shaded and touched with golden yellow. We pronounce this the finest Rose by far that has been introduced from France in the past five years. No Rose surpasses it in vigorous growth and in the immense size of its buds and flowers. Indeed, nothing in the Tea family approaches it in size. Deliciously fragrant. 50 cents per dozen; \$2.50 per hundred.

MADEMOISELLE FRANCISCA KRUEGER.

It is closely allied to Catherine Mermet, and resembles it in everything save color. In its shading of deep coppery yellow it stands unique and distinct from all others. The flower when open is of good size and very symmetrical. 50 cents per dozen; \$2.50 per hundred.

Meteor.

MARIE VAN HOUTTE.

PAPA GONTIER.

The blooms are large and long, with thick, broad petals of dark carmine crimson. The inner petals are a bright rosy carmine, and light up well at night. 50 cents per dozen; \$2.50 per hundred.

PRINCESS SAGAN.

A strong-growing Rose, with small, closely set, dark foliage, and medium sized flowers of the brightest scarlet and velvety texture. 50 cents per dozen; \$2.50 per hundred.

SNOWFLAKE, Marie Lambert.

This is a lovely white Rose, a pure Tea, but a foreign seedling, the freest flowering white Rose we have seen. It will be especially useful in set designs. For a pot plant it cannot be excelled, as it possesses every quality of a pot Rose. We counted on one plant one hundred and forty-three buds and flowers in a single day, and the plant was only nine months old. It can be used in place of white Carnations for set pieces at an immense saving, because it can be bloomed profitably at one dollar per hundred buds. Not only will it cover twice and three times the space in a funeral design, for instance, that a Carnation covers, but it will give greatly superior results. Try it. 50 cents per dozen; \$2.50 per hundred.

Viscountess
Folkestone.

SUNSET.

The color is a remarkable shade of rich, golden amber, elegantly tinged and shaded with dark, ruddy copper, intensely beautiful, and resembling in color a splendid "afterglow." 50 cents per dozen; \$3.00 per hundred.

SOUVENIR OF WOOTTON.

A fine, delicate Rose, shaded salmon. One of the best pink Roses, and a good variety to force. 50 cents per dozen; \$2.50 per hundred.

SOUVENIR DE LA MALMAISON.

Always in demand. Everyone's favorite, and never enough to go around. Fine for private grounds, cemeteries and parks. 50 cents per dozen; \$3.00 per hundred.

THE QUEEN.

It is pure snow white, makes good, finely formed buds, is quite full, showing the center but slightly when fully open. The petals are thick and of good substance, opens well, is very sweet and has proved valuable, both for forcing and open ground planting. 50 cents per dozen; \$2.50 per hundred.

TRIOMPHE DE PERNET PERE.

The flowers are extra large, having broad, thick petals, and long, tapering buds, with delicious Tea fragrance. Color a fine, clear magenta red, sometimes passing to a bright crimson. Striking and beautiful. 50 cents per dozen; \$2.50 per hundred.

THE BRIDE.

A lovely pure white, very fragrant Rose, admirably adapted for forcing. The buds have more substance than Niphetos, are very full and double, and possess the good characteristics of Catherine Mermet. 50 cents per dozen; \$2.50 per hundred.

VISCOUNTESS FOLKESTONE

The flower is delicately tinted flesh, almost white, and lustrous as satin. When in full bloom it is like a fine white Pæony, but without a suggestion of stiffness. 50 cents per dozen; \$2.50 per hundred.

WHITE PERLE DES JARDINS.

We think that every lover of white Tea Roses will be delighted with White Perle. It will be found totally distinct from Bride or any other white Rose. A great Rose. 50 cents per dozen; \$3.00 per hundred.

HARDY CLIMBING PRAIRIE ROSES

MILLEDGEVILLE, or Pride of the South.

A splendid variety. Color a rich, satiny pink, very fresh and beautiful. Fine, large, globular flowers, full, regular form, very double and sweet. A profuse bloomer and quite hardy.

CRIMSON RAMBLER.

Imported from Japan, the land of wonders. It is a rapid grower, and very quickly makes heavy canes of great length, covered with peculiar, shining foliage. Blooms are produced in great bouquets, and are of a most peculiar and lovely shade of crimson. It has proved perfectly hardy even in our trying Ohio climate. A bed of this pegged down and requiring little attention would be very useful to the general florist at blooming time. It also makes a fine pot plant, treated and brought on like the early-blooming Hybrid Perpetuals, and forms a perfect bouquet of bloom. This is without question the handsomest plant of any description for Easter blooming. Grow in the field one or two years, the latter age is the best, dig and pot and keep cool at night for about six weeks, until root action is active, then gradually increase temperature. Treated this way this Rose produces, from the very pot to its topmost branches, huge bunches of from fifty to two hundred blooms in a cluster, and is a sight not soon to be forgotten. 50 cents per dozen; \$2.50 per hundred.

CLIMBING PEARL OF THE GARDENS.

Few Roses have as firm a hold in popular favor and are so highly prized by the professional and amateur Rose growers alike as the Pearl of the Gardens. It thrives well in the open air, blooming freely. Its large, full, well-formed golden yellow flowers, borne on stiff stems, make this variety especially desirable for bouquets and artistic floral decorations, while the dark and glaucous foliage of the plant furnishes an excellent setting for the fragrant, delicate-hued blossoms. It will no doubt be as much of a surprise to our readers as it has been to us to learn that this stately Rose has recently evolved itself into a form which, while retaining the excellent qualities of its progenitors, has assumed a climbing habit. On the original plant the lateral growth is eighteen feet in each direction from the stem, and the plant has carried at one time over one thousand buds and flowers. If there is any perceptible difference between the two it is only that the Climbing Pearl of the Gardens is even more vigorous and floriferous than the bush form. Climbing Pearl of the Gardens will supersede Marechal Niel, as the buds and flowers are as large and the color as deep a golden yellow as that variety, while it is as vigorous a climber, and will produce one hundred flowers to Niel's one. It is hardy in the South. A most remarkable Rose, and without doubt the best yellow Rose ever seen. 50 cents per dozen; \$3.00 per hundred.

MADAME MASSON.

Manda's New Evergreen Memorial Roses

50 CENTS PER DOZEN; \$3.00 PER HUNDRED.

HYBRID WICHURAIANA MEMORIAL ROSES

What Mr. Manda says: "The most remarkable achievement and improvement of a new and distinct type of Hardy Roses that has been made for a generation. The growth is remarkable for its freedom, a single plant, four years old, covering a space of two hundred and forty square feet with long shoots, twelve to twenty-five feet in length, completely covering the ground with its bright, glossy foliage and showy, fragrant flowers. The same plant has made one hundred and eight new growths of remarkable strength during the Summer. The foliage of all is leathery in texture, shining, and not only proof against insects, but evergreen—that is, keeping the foliage all Winter—a characteristic in Roses never before obtained. The flowers are produced most profusely, are all of large size, very fragrant, and can be easily used for cut-flower purposes, as much as any greenhouse Tea Rose, especially when in bud. The use of these Roses will be unlimited—for trailing or covering ground where nothing else would grow, to cover roots, stumps and stems of trees, walls and trellises, for cut-flower purposes, and also for forcing as pot plants during Spring, especially for Easter."

JERSEY BEAUTY.

Extremely vigorous grower, foliage thick, of leathery substance, flowers singly or in clusters of two to four, large, single, three inches in diameter, opening pale yellow with clusters of bright yellow stamens, which give it a novel appearance. Fragrant, and produced in greatest profusion, covering the plant entirely and having the appearance of a yellow Cherokee Rose. Great acquisition to Roses, and the most striking variety of the set.

GARDENIA.

Strong grower with large, green foliage, flowers produced singly on stems one-half to one foot long. When in bud hardly distinguishable from Perle des Jardins, bright yellow, and when open cream color, three to three and one-half inches in diameter, incurring towards evening to perfect imitation of a Gardenia or Cape Jasmine

as to shape and color, hence its name. Flowers delightfully fragrant and produced freely. A grand Rose for any purpose.

Evergreen Gem.

The most wonderful grower of the set. Not only evergreen, but growing during mild weather in Winter. Stems long-branching, rich, bronze color, closely matted, flowers produced singly on stems, yellow, buff in bud, opening to almost white, two or three inches in diameter, perfectly double, and of a delightful, sweetbriar fragrance. This will be found most valuable for landscape work, as well as for cut-flower purposes. We consider this the best plant of the set.

General Collection of Plants.

ARAUCARIA EXCELSA.

Norfolk Island Pine.—Various names have been suggested for this grand plant to properly convey to the mind the appearance of it. Some have called it the "Christmas Tree Palm," from its resemblance to a Christmas tree; others have called it the "Star Palm," because the leaves are arranged to form a perfect star, but no descriptive name can give an adequate idea of its beauty. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances. Its symmetry of form, grace and beauty of foliage are unequaled in the vegetable kingdom. It is easily grown in the house, and is highly ornamental. It requires the same culture as the Palm. **Fine plants, four-inch pots, ten to twelve inches high, three to four tiers of leaves, \$1.00 each; \$9.00 per dozen.**

Araucaria Excelsa. Norfolk Island Pine.

AMPELOPSIS VEITCHII.

Boston Ivy.—A beautiful, hardy climbing plant of Japanese origin. This is one of the finest climbers we know for covering walls, as it clings firmly to the smoothest surface, covering it with overlapping leaves, which form a perfect mass of foliage. The color is a fresh, deep green in Summer, changing to the brightest shades of crimson and yellow in Autumn. It is quite hardy, and becomes more popular every year. **50 cents per dozen; \$3.00 per hundred.**

This plant goes under various names, such as "Chenille Plant," "Philippine Medusa," "Comet Plant," "Dewey's Favorite Flower," "Bloody Cat Tail," etc. Without doubt the most sensational new plant introduced for many years, and one of the most striking flowering ornamental plants we have ever seen. It is of strong, free growth, with large, dark green leaves from each axil of which rope-like spikes, from one to two feet long and nearly one inch thick, are gracefully suspended, as shown in our illustration, which conveys but a faint idea of the beauty and distinct warm coloring of this splendid acquisition. But the remarkable floriferousness and the great size of the spikes of flowers (compared to the plant) is fairly well shown. The plant is in flower the year round, and is as easily grown as a Coleus, simply requiring a warm temperature to develop its full beauty. **50 cents per dozen; \$3.00 per hundred.**

Camellia Japonica.

Leaves are glossy-green, flowers of exquisite beauty and waxy texture. From pure white to crimson in almost endless variegation, the pure white ones generally prized above the colored varieties. Culture nearly related to that of the Azalea, but their success is more certain. Requires shade and moisture throughout the hot season. Time of blooming is in Winter and early Spring. Requires a moderate and uniform temperature, with as little artificial heat as possible. When set with flower buds great care must be taken in watering—when left too dry the buds are sure to drop. We have a fine assortment in all colors. Large, strong plants, 75 cents each; \$6.50 per dozen; \$50.00 per hundred.

FANCY-LEAVED CALADIUMS.

Fancy-leaved Caladiums have, in recent years, grown very rapidly in popular favor, not only for decoration of the conservatory and greenhouse and window boxes, but nearly all the varieties succeed admirably if planted out of doors when the ground has become warm, in partly shaded, sheltered borders, in well enriched light soil, while for exhibition plants at fairs, etc., during the Summer and Fall months, nothing can equal their beauty. Our collection is very fine. Well dried, extra large bulbs, our selection of sorts, \$1.50 per dozen. These are the finest bulbs you ever saw of fancy Caladiums.

When of full size it stands about five feet high, with immense leaves, often measuring four feet in length, by two and one-half in breadth. Smooth, of bright green color, beautifully veined and variegated with dark green. The roots should be preserved in dry sand in the cellar during Winter, out of danger from frost. Good, small bulbs, 50 cents per dozen; \$3.50 per hundred. Fine, large bulbs, \$1.00 per dozen; \$6.50 per hundred. Extra large bulbs, three to four pounds in weight, 35 cents each.

CROTONS.

The Crotons are among the finest decorative foliage plants known. As easy to grow as Coleus, and much brighter in their coloring. Our customers everywhere, especially in the South, should bed out Crotons. The leaves of all are more or less veined and margined, sometimes entirely variegated with shades of yellow, orange and crimson. Some have long, narrow leaves, arching gracefully, fountain fashion, others are broad and short, oak leaved. Some recurve very much, others are twisted, cork-screw-like. Crotons love heat, sunshine and moisture. The Crotons are fast becoming one of our most beautiful bedding plants, and are also one of the handsomest house plants in pots.

DAHLIAS

Within the last year or two a wonderful revival of interest in the Dahlia has resulted in their now being important rivals of those standard bedding plants, the Cannas and Geraniums. This to a great extent is due to the introduction of the dwarf, profuse-blooming varieties that a few years ago were unheard of. We offer a collection of the best Cactus, show and decorative Dahlias, in red, white, yellow, pink, variegated, and all intermediate shades. They are the "cream" of over five hundred varieties, selected after critical examination, and combining in a superlative degree purity of color, perfection of form, free and continuous flowering, and they succeed under the most ordinary garden culture.

NOVELTIES IN DAHLIAS

\$1.00 PER DOZEN.

Clifford W. Bruton.—This superb new variety is acknowledged by all who have seen it to be the finest yellow Cactus Dahlia ever produced. The flowers are large, five to six inches in diameter, perfectly full to center, while the outer petals reflex to the stem. The color is a solid, pure yellow, the clearest, richest shade ever seen. Invaluable for cutting and exhibition purposes.

William Agnew.—The grandest red Cactus Dahlia ever produced, and one that will eventually find its way into every collection. The flowers are of the largest size, sometimes measuring more than seven inches in diameter. Always full to the center, of perfect form, and of exquisite quality and finish, while the color is the richest shade of intense, dazzling red. The petals are very long, the outer rows being beautifully twisted. Certainly a grand variety.

Nymphaea, The Pink Water Lily Dahlia.—By far the most delicately beautiful Dahlia ever introduced. The color is a soft, delicate, light shrimp pink, shading slightly darker toward the outer petals, while the flowers are of large, perfect form and most exquisite, being soft, waxy, delicate and graceful. Has a delicate, refined Water Lily fragrance. This odor, together with its striking resemblance to the ideal pink Water Lily, suggested the name of Nymphaea. This variety, all things considered, is the finest in the entire list.

BEAUTIFUL MARGUERITE DAISIES.

Marguerite Daisy, Madame Gaillbert.—This is one of the finest new plants that has ever been introduced. Nothing can be imagined that is finer. Blooms from November to June. Very desirable. **50 cents per dozen; \$3.00 per hundred.**

Hardy Double White Daisy, Snow Crest.—Entirely hardy everywhere. Most distinct, and an improvement on all existing sorts. Its habit of growth and size of flowers, in comparison with older varieties, is gigantic. The flowers, which are borne on stout, stiff stems, from six to ten inches long, are of the purest white, and full to the center. When fully developed they rise to a conical or sugar-loaf form, and well-grown specimens will cover a silver dollar. It makes an admirable hardy garden plant, or may be forced for cut flowers under the same treatment as Violets. **50 cents per dozen; \$3.00 per hundred.**

Beautiful FERNS.

Boston Fern.

The popularity of Ferns has increased wonderfully in the past few years, and they are now indispensable in all choice floral decorations, and are especially valuable for ferneries, for room and table decorations. No collection of plants is complete without Ferns.

Nephrolepis Exaltata Bostoniensis.—In the vicinity of Boston no other plant is used so extensively as this graceful Nephrolepis, which differs from the ordinary Sword Fern in having much longer fronds, which frequently attain a length of six feet. These arch and droop over very gracefully, on account of which it is frequently called the Fountain Fern. This drooping habit makes it an excellent plant to grow as a single specimen on a table or pedestal. **50 cents per dozen; \$3.00 per hundred; \$25.00 per thousand.**

Lygodium Scandens.—(The Japanese Climbing Fern)—This makes a growth of from eight to fifteen feet, and is a very graceful, dainty and desirable variety. **50 cents per dozen.**

Adiantum Cuneatum.—(Maidenhair Fern)—This is the beautiful Maidenhair Fern which the florists employ in so many ways, either as pot plants or cut fronds. It is very light, airy and graceful. Don't confound it with the old common Maidenhair Fern. **60 cents per dozen.**

Nephrolepis Compacta Cordata.—(New Sword Fern)—It is of a free, strong growing, compact habit, attaining, when full grown, a height of about two feet. The fronds are of a dark green color, very rich, of upright growth, with just sufficient arch in them to make them graceful. For house culture or for window-gardening we don't know of any other variety that would give the same satisfaction, and which we could recommend so highly. **50 cents per dozen; \$2.50 per hundred.**

Davallia Striata.—One of the finest Ferns in cultivation, whether for growing as a decorative plant in the room or planting out. The fronds are of strong texture, very fine and delicate. **50 cents per dozen.**

Pteris Argyrea.—(The Silver Fern.) A showy Fern, with light green fronds, with a broad band of silver white down the center of each; very distinct and beautiful. **60 cents per dozen.**

THE WONDERFUL JAPANESE FERN BALLS.

Fern Ball

This novelty from Japan we take great pleasure in introducing as one of the most satisfactory house Ferns ever offered. One was started last January, and its beautiful leaves and color attracted the attention of all who saw it until August, when it was placed in the cellar to rest. The center is moss-covered with Fern roots in a very ingenious manner, looking like a ball of small roots twisted together. After watering they start into life, and in a short time are covered with a mass of beautiful green foliage. If desired they may be allowed to dry up, which is very convenient when a person goes on a Summer vacation. They may be started again by simply watering as before. When growing they should be watered two or three times each week. If desired they may be cut in halves and placed in a Fern dish. The ball, before it is started, is six to ten inches in diameter. We only handle the "Nagaha" long-leaved variety; the common variety only produces short fronds. Can only be sent by express. 40 cents each; \$4.00 per dozen.

THE GLADIOLUS.

The Gladiolus is the most satisfactory, the most desirable and the most popular of all garden bulbs. Nothing else in the flower line costs so little, and nothing else grows and blooms so readily for anybody and everybody, in any soil or climate. It makes a display which, for brilliancy and beauty of coloring, few bulbs can equal and none surpass.

GLADIOLI—MIXED VARIETIES.

Mixed Gladioli.

Our mixed Gladioli are not the poor, dull colors, old discarded red sorts and worthless seedlings usually sent out as mixtures. On the contrary, they are made up from splendid named sorts, brightest and most varied colors, white, yellow, pink, rose, blush, intense scarlet, carmine, violet, striped, blotched, variegated, etc. All old, common and poor sorts have been discarded, and this mixture is of the highest grade.

GLOXINIAS

These are among the most beautiful of all our Summer-blooming plants. The rosette of velvety green leaves is surmounted with a cluster of lovely trumpet-shaped flowers as large as Gladioli blooms. The coloring is exquisite. The ground work of many is pure white, with throats of blue, scarlet, rose, crimson or velvety purple, while others are beautifully flecked and striped with the brightest colors, and the tubes are of a bright color with white throat. The bulbs should be started in a warm place, greenhouse, hotbed or sunny window.

Pot of Gloxinias.

They will bloom until late in Summer, when they should be dried off, letting the leaves dry. The pots can be kept over Winter in a cellar free from frost. They are very easily grown. **Fine bulbs of choicest varieties, 60 cents per dozen; \$4.00 per hundred.**

GREVILLEA ROBUSTA, AUSTRALIAN SILK TREE.

Grevillea.

This beautiful plant well deserves the great popularity it has gained in the past two years. The drooping branches are covered with delicate, sage-green foliage, and every twig is tipped with a long raceme of exquisite, pea-shaped blossoms of a pure canary color, almost hiding the foliage, and suggesting the name "Fountain of Gold." Charming. **40 cents per dozen; \$3.00 per hundred.**

The Wonderful New Lemon, Ponderosa.

Nothing that has ever been brought to our notice in the plant line has caused half the commotion that this wonderful Lemon has. It is a true ever-bearing variety. On a plant six feet high no less than eighty-nine of these ponderous Lemons were growing at one time. It was a beautiful sight to see. The tree was blooming, and at the same time had fruit at all stages of development, from the size of a pea up to the ripe fruit, showing it to be a true ever-bearer. Fruit has been taken from this tree weighing over four pounds. The Lemons have very thin rind for such large fruit. It is the juiciest of all Lemons, makes delicious lemonade, and for culinary purposes cannot be excelled. It is not uncommon to make twelve lemon pies from one lemon. We have the entire stock of this ponderous Lemon, and guarantee the trees to produce the same large fruit. No budding or grafting necessary. . . . . THE BEAUTIFUL

Moon Flowers.

The True Ever-blooming Moon Flower, Ipomoea Grandiflora.—We have the true variety that blooms constantly. If planted out in rich ground, in a situation where it has full exposure to the sun, it will attain a height (if given a wire or string to twine on) of forty feet by October 15th, blooming abundantly the entire season. It is called "Moon Flower" from its rare peculiarity of blooming best at night, although it expands its flowers in dull days. The flowers are pure white, from five to six inches in diameter, emitting a rich, Jasmine-like odor at night. The "Moon Flower" is a tender plant, but it can easily be kept in the house over Winter. It roots so easily from slips that no attempt should be made to lift large plants. The true "Moon Flower," **50 cents per dozen; \$3.00 per hundred.**

Moon Flower, Learii, or Heavenly Blue.—This makes a splendid companion plant to the white "Moon Flower." It is equally rapid in growth and as free blooming as the white variety, although blooming in the morning and dull days. The flowers are the most heavenly blue, with reddish purple rays, and are six inches across. **50 cents per dozen; \$3.00 per hundred.**

OLEA FRAGRANS, or TEA OLIVE.

One of the most desirable flowering shrubs of Southern gardens, and also a favorite house plant in the North. Has deep green foliage similar to the Camellia. The white flowers, although small, are produced in great profusion, and emit the most pleasing fragrance. It has been well said that each individual bloom has more sweetness than the most fragrant Lily. The blooming period begins in the Fall and lasts for several months. It is of easy culture, and especially desirable as a window plant. **\$1.50 per dozen.**

OLEANDERS.

ORANGE KUMQUAT, HARDY PHLOX.

OR KIN KAN.

This unique and wonderfully beautiful Orange is a native of Japan, where it is known as the Kin Kan, which means gold orange; its other name—Kumquat—is Chinese for the same meaning. It bears in the most marvelous profusion little miniature oranges, no larger than a damson plum, of a rich golden color and glittering amid the dark foliage like burnished gold. The whole fruit, rind and all, is eaten, and people become very fond of them. The rind is sweet and the pulp agreeably acid, making a piquant combination. They are also delicious preserved and crystallized. The plants begin to bear just as soon as they have wood enough to hold the fruit, and are loaded with fruit and flowers every year. We have had bushes only twenty inches high carrying upward of one hundred oranges. We have put in cuttings in the Fall that started growth the following March, bloomed and set fruit in June, which ripened in the Fall—only one year from the time the cuttings were propagated! A small tree, not more than six feet high and five feet through, bore over two thousand fruits, and this is by no means an extraordinary yield for this sort. The branches are slender, without thorns, the leaves narrow and oval, and the plant assumes a fine shape. As a pot plant it will create a sensation everywhere grown. As a window plant for the North as well as for gardens in the Orange region, the Kin Kan is one of the handsomest and most valuable ornamentals. Diminutive trees in pots are loaded with fruit and flowers every year. The small but exquisitely beautiful fruit hangs on the unique and handsome evergreen trees all winter. Fine plants, to bear at once, **50 cents each.**

OXALIS, ORTGIESI.

Upright Oxalis, or Star of Bethlehem.—Few new plants will give better satisfaction than this, as it is a perpetual bloomer in every sense of the word. It is full of bloom every day in the year when grown in a pot of good soil and with ordinary care. It grows as freely as a Geranium or Fuchsia without buds, in which respect it differs from other Oxalis. It grows twelve to eighteen inches in height, branching freely, and loaded at all times with clusters of bright golden, star-shaped flowers, which do not close at night like other Oxalis. Beautiful as the flowers are it is still a splendid plant without them, on account of its highly ornamental foliage. The leaves are three lobed, dark, olive green above, and a beautiful, shining metallic crimson purple underneath, and wine-colored stems. This makes a truly novel plant, as well as a very beautiful one, and it is surprising to see what attention it will attract. **50 cents per dozen; \$3.00 per hundred.**

PALMS.

Palms are now indispensable for all decorations, whether in or outdoors, and for tropical bedding. They are easily grown, and increase their value two to fourfold every year.

NOTICE.—It may be well to state here that young Palms do not resemble the illustrations given, as they do not show their character leaves until the second year, so that when you get your small Palm plants, and see long, narrow leaves instead of the character leaves as shown in the illustrations, do not think the wrong kind has been sent you. Should you order the larger sizes, the character leaves will be developed and answer the illustrations as given here.

The following is a select list of rare and handsome varieties that can be recommended for apartments, conservatories, decorations or vase plants during the Summer. They are all grand plants, and of the easiest culture.

ARECA LUTESCENS.

This majestic Palm is without a peer for strength and elegance combined. Its dark, glossy, green leaves are gracefully curved on slender stems, and the entire foliage is gracefully disposed. The trunk and stems are a golden yellow, irregularly spotted with bronzy green, giving it a peculiar charm. The built up plants of this Palm, that is, three plants in a pot, are very handsome and deservedly popular.

PHRYNIUM VARIEGATUM.

The Most Ornamental Plant Imaginable.

Phrynium Variegatum.

It is impossible to convey by description or cut anything like a correct idea of the great beauty of this new, ornamental foliage plant. Its habit of growth is almost precisely like the Canna, and it grows from a tuber which may be wintered dry—like a Gladiolus—if desired, or it may be kept growing the year round as a pot plant. The Canna-like shoots grow from a foot or eighteen inches to three feet high, and the leaves, which are spreading blades of oblong, lanceolate form, are from six to ten inches long and two to five inches broad. They are bright, pale green, beautifully variegated with pure white and rich cream, the variegations being extremely diversified; indeed, in our beds of thousands of the plants it is almost impossible to find two leaves exactly alike. In some leaves the whole area is pure white or rich cream color, in others only one-third or one-half; in others again it is reduced to a few stripes of faint lines—and all these variegations in one plant. It is very free-growing and one of the most ornamental plants imaginable, either for pot culture or for bedding out. It is a grand plant to border Canna beds with, standing the full force of the sun's rays; indeed, the fiercer the sunshine the more perfect are the variegations of the leaves. The variegations grow constantly better and more varied as the plant grows older and larger. It is managed with the most perfect ease, and is absolutely sure to delight all who grow it. **50 cents per dozen; \$3.50 per hundred.**

CHINESE PRIMROSE.

In White, Pink and Crimson. Few house plants afford better satisfaction than this. It requires to be kept cool, a north window suiting it best. Care should be taken in watering it that no water gets on the buds, as it causes them to decay. In the Summer they can be turned out into a shady border. The plants we offer are fine, and the colors will please. We have them in white, pink and crimson. **50 cents per dozen; \$3.00 per hundred.**

PITTIOSPORUM TOBIRA.

One of the most valuable of our hardy decorative plants. The leaves are broad, glossy and ever-green. The plants we offer are from twelve to twenty-four inches high, well established—many of them set with buds. The colors are blush, rosy crimson dark scarlet, lilac, crimson, purple and variegated. The leaves grow to a length of three or four feet and are beautifully striped cross-wise with broad, white variegations on a dark green ground. A rare and beautiful plant which should be abundantly grown for positions out of the reach of sunlight, where other plants will not thrive. When you consider that it can be placed in any position in any room and do well, its great usefulness is at once apparent. It has a singular beauty for decorative purposes which other plants do not possess, and is useful both Winter and Summer. Though grown mainly for the beauty of its foliage, it is by no means an insignificant flowering plant. It blooms usually during May and June, sending up great plume-like spikes a foot or more in length. It is difficult to find a more unique or ornamental plant than this, especially when it is in bloom. **40 cents per dozen; \$2.50 per hundred.**

New Crimson Spirea, Anthony Waterer.—This beautiful, new, crimson-flowered Spirea was introduced last year for the first time, and previous to its introduction Mr. Goldring, of the famous Kew Gardens, said: "It is one of those exceptional novelties that occur only at rare intervals, adding in a conspicuous way to the rich and varied flora of our gardens. It outshines all the Spireas in brilliancy of color—a bright crimson. It is a rare gem." It makes a low, compact bush fifteen to eighteen inches high, and is covered nearly the whole growing season with large umbels of deep crimson flowers, which measure nearly a foot across. When scarcely three inches high it begins to bloom, and thereafter is seldom out of flower. As a pot plant for growing in the open ground, nothing can equal it. Perfectly hardy, it is unquestionably one of the really meritorious plants that we cannot have too many of. We offer strong plants, **75 cents per dozen; young plants, 40 cents per dozen; \$3.00 per hundred.**

It is certain to become popular with flower-lovers everywhere, owing to the high decorative value of plant and flower. It is a sturdy, upright grower, and is extremely floriferous, plants from small pots blooming profusely and continuing to do so throughout the season until they reach a height and width of three feet.
