Alphabetical listing of films -----	1
Alphabetical listing of distributors -----	16
Subject index -----	24

## INTRODUCTION

Over the past several years, the use of occupational health films as an aid in protecting and improving the health of the worker has increased greatly. This listing has been compiled to provide interested persons with a current ready reference to selected occupational health films and filmstrips and their sources.

This listing presents only those films that have come to our attention and that are directly related to occupational health. Film descriptions are based on available information rather than on staff evaluation. Each film is listed alphabetically by title and the address for each source appears at the end of the listing. A subject index appears at the end.

### **1. Aircraft Accident Investigation**

*Motion Picture Sound Black and White 37 min. (1957)*

Explains that simple, human errors are the cause of most aircraft accidents, many of which are triggered by the personal problems of the pilot. Shows that the medical investigator must seek out and determine the mental and emotional aspects behind these human errors and make recommendations which will prevent such accidents from happening again. Demonstrates in detective-story fashion the techniques of medical investigation in two cases of deaths resulting from preventable accidents.

Available from: Air Force Film Library Center (Loan) (Refer to TF 1-8150)

### **2. Air Force Industrial Medicine in Action—Physical Hazards**

*Motion Picture Sound Color 33 min. (1961)*

Describes physical hazards incidental to industrial operations at an Air Force base. Shows how the industrial physician and the industrial hygiene engineer indoctrinate personnel in the undesirable effects of noise, keep noise hazards under surveillance, recommend use of protective equipment, and monitor the effects of noise exposure by audiometry. Explains the various types of radiation hazards. Charts illustrate how ionizing radiation enters the bloodstream and affects the body cells. Shows how abnormalities in temperature, humidity, and pressure affect workers.

Available from: Air Force Film Library Center (Loan) (Refer to TF 8170c), United World Films (Purchase)

### **3. Air Force Industrial Medicine in Action—Toxic Chemical Agents**

*Motion Picture Sound Color 29 min. (1960)*

Emphasizes need to evaluate working conditions in shops and on flight lines and stresses importance of protecting workers from toxic chemical agents. Shows parts of hazardous environment affecting respiratory tract, gastro-intestinal tract, skin and lung irritations, and exposure to strong solvents, acids, gases, radiation, noise, burns, etc.

Available from: Air Force Film Library Center (Loan) (Refer to TF 8170b), United World Films (Purchase)

**4. Air We Breathe, The***Motion Picture Sound Black and White 26 min.*

Tells why respirator protection against dust, gas, and other air contaminants is necessary and how it is accomplished. Demonstrates proper use of respirators. Intended for the worker.

Available from: Mine Safety Appliances Co. (Loan)

**5. Alcoholism in Industry***Filmstrip Sound (Tape) Color 35 min.*

Presents alcoholism as a disease and depicts the problem of the alcoholic worker. Discusses industry's role in an effective rehabilitation program.

Available from: Division of Occupational Health, Public Health Service (Loan)

**6. America's Untapped Asset***Motion Picture Sound Black and White 13½ min. (1953)*

Shows how persons with a physical disability can be successfully employed in white collar jobs—in this case, the headquarters of an insurance company.

Available from: National Society for Crippled Children and Adults (Loan)

**7. An Accident Happens to Sam***Motion Picture Sound Black and White (Also filmstrip) (1952)*

Shows an industrial nurse explaining to a plant worker that accidents do not just happen. Discusses practical safety measures, and emphasizes the importance of prompt first aid for injuries.

Available from: National Safety Council (Rent or purchase)

**8. An Approved Technique for Pure Tone, Air Conduction Audiometry***Motion Picture*

Presents an accepted technique for doing air conduction threshold audiometry. May be used for demonstrating to industrial nurses how pre-employment and periodic audiograms should be done.

Available from: American Academy of Ophthalmology and Otolaryngology, Subcommittee on Noise (Loan or purchase)

### 9. As Others See Us

*Motion Picture Sound Black and White 19 min.*

Shows examples of negligence by workers in the textile trade: pouring caustic soda when not wearing protective clothing, oiling moving machinery, and other dangerous practices.

Available from: University of North Carolina (Rent), North Carolina Industrial Safety Commission (Purchase), [Attn: Mr. Baucum, Raleigh, N.C.]

### 10. Back on the Job

*Motion Picture Sound Black and White 14 min.*

Shows how a heart attack victim is returned to useful employment with the aid of a Heart Association-sponsored Cardiac Work Evaluation Unit.

Available from: Local Heart Association or American Heart Association (Loan)

### 11. Billion Dollar Malady, The

*Motion Picture Sound Black and White 15 min.*

Stresses economic importance of colds in loss of wages and manpower, cost of drugs, etc. Presents what is known about colds and suggests methods for their cure and prevention. (Also available in Spanish.)

Available from: Bray Studios, Inc. (Rent or purchase)

### 12. Breathe and Live

*Motion Picture Sound Color 18 min.*

Shows and explains health precautions to be observed and protective gear to be used on shipboard to avoid ill effects from noxious gases and oxygen deficiency when welding, painting, using solvents, working with internal combustion engines, and entering and working in void spaces and tanks.

Available from: U.S. Naval Medical School (Loan) (Refer to: MN 7498a), United World Films, Inc. (Purchase)

### 13. Capital Story

*16 mm. Sound Black and White 20 min.*

Depicts industrial hygiene chemist and laboratory workers as they investigate and solve serious threat to workers' health. For lay audiences, from the series *This Is America* produced by the former Office of War Information.

Available from: Division of Occupational Health, U.S. Public Health Service

**14. Caution—Eyes at Work***Motion Picture Sound Color 23 min. (1954)*

Illustrates the importance of having specialist personnel plan a suitable eye protection program in industry. Shows the benefit to be derived by both management and workers from such a program and demonstrates how to set it up.

Available from : American Optical Company (Loan)

**15. Comeback***Motion Picture Sound Color 26½ min. (1946)*

Shows processes of vocational rehabilitation: surgery, medical care, physical therapy, vocational guidance, training, and employment. Demonstrates that properly prepared and properly placed handicapped workers make good employees. Highlighted by shots of handicapped celebrities.

Available from : State vocational rehabilitation agencies or U.S. Office of Vocational Rehabilitation (Loan)

**16. Coming Home***Motion Picture Sound Black and White 15 min.*

Tells the story of Jack Burns, who is found to have tuberculosis; how he and his family adjusted to the problem of his hospital stay and how he regained his job and his place in life.

Available from : National Tuberculosis Association (Loan)

**17. Dermatoses of Industrial Workers***Motion Picture Sound Color 20 min.*

Discusses methods of investigation, patch tests, sensitivity of patients to irritants, reactions, pathology, treatment, and reaction of patients. Prepared by Dr. John Downing, Boston City Hospital.

Available from : Boston University Film Library (Rent)

**18. Doctor in Industry***Motion Picture Sound Black and White 55 min. (1946)*

Illustrates growth and development of industrial medicine. How, in cooperation with non-industrial physicians, it is contributing to improvement in the health, safety, and general well-being of employees in industry.

Available from : General Motors Corporation (Loan)

**19. Don't Be Liquidated**

*Filmstrip Sound Black and White 15 min. (1950)*

Demonstrates proper handling of hazardous liquids at work and at home. Covers fire and explosion hazards as well as poisoning and dermatitis.

Available from : Zurich Life Insurance Companies (Rent or purchase)

**20. Ear Protection in Noise**

*Motion Picture Sound Color 14 min. (1959)*

Emphasizes to employer and employee the need for protecting hearing in noise and how to go about it.

Available from : American Academy of Ophthalmology and Otolaryngology, Subcommittee on Noise (Loan or purchase)

**21. Easy on the Eyes**

*Motion Picture (Also Filmstrip) Sound Black and White 20 min. (1949)*

Encourages the worker to guard his eyes on the job. Contrasts old-fashioned safety glasses and their modern counterpart. Presents case histories of injured workers and three rules for safety on the job: wear the right safety glasses; make sure they fit; keep them clean.

Available from : National Safety Council (Rent or purchase)

**22. Emotional Stress**

*Motion Picture Sound Black and White 30 min. (1957)*

Gives a brief case history of an individual's responses to emotional stresses and strains, his adverse reactions to wife, family, and colleagues, manifesting themselves in psychosomatic symptoms of arthritis. Shows that with proper therapy he readjusts favorably and assumes proper place of authority on job and normal behavior patterns.

Available from : Almanac Films, Inc. (Rent or purchase)

**23. Eye Protection**

*Film strip 82 frames (1945)*

Discusses goggles—their selection, adjustment, and care. Also covers helmets and hand shields.

Available from : Jam Handy Organization (Purchase, \$4.95)

**24. Factory Safety**

*Motion Picture Sound Black and White 10 min. (1938)*

Points out how good factory safety records are achieved by such precautionary measures as rule booklets, safety meetings for foremen, stop

switches and guards for machines, goggles and respirators for workers, and attention to even minor injuries.

Available from : Jam Handy Organization (Purchase)

## **25. Fragile, Handle Feelings With Care**

*Motion Picture Sound Black and White 10 min. (1953)*

Stresses that people's feelings are fragile and easily hurt. O'Grady, a typical plant foreman, can't understand why his workers are suddenly giving him the "cold shoulder." He learns that each was hurt by a thoughtless action or word.

Available from : National Safety Council (Rent or purchase)

## **26. Guard Your Heart**

*Motion Picture Sound*

Illustrates what takes place in arteriosclerosis and coronary thrombosis and briefly discusses other heart diseases. Shows how a busy executive resolves to adjust his pace to protect his heart.

Available from : Bray Studios, Inc. (Rent or purchase)

## **27. Hazards of Dental Radiography**

*Motion Picture Sound Color 13 min.*

Illustrates the elementary physical principles involved in dental radiography and the actual methods of radiography used by dentists. Emphasizes the radiation hazards to which the dentist and his staff are exposed. Gives recommendations to protect dental workers from dangerous levels of radiation.

Available from : American Dental Association (Rent)  
National Bureau of Standards (Rent or purchase)

## **28. Heads Up**

*Motion Picture Sound Color 11 min.*

Shows brain operation as result of head injury. Used to promote wear of hard hat in any industry.

Available from : Greater Chicago Safety Council

## **29. Health Hazards of Pesticides**

*Motion Picture Sound Color 14 min.*

Emphasizes the potential public health hazards resulting from widespread use of pesticides, explains the work of the Communicable Disease Center's toxicology laboratories in measuring this hazard, and makes recommendations for the safe use of pesticides.

Available from : Communicable Disease Center (Loan)

**30. How to Avoid Muscle Strain***Motion Picture Sound Black and White 15 min. (1949)*

Employs views of a living model in action and animated drawings to illustrate the mechanics of muscular activity, especially in the lifting of heavy loads. Diagrams show the analogy between the three types of levers studied in physics and certain familiar arrangements of bones and muscles in the human body. Also shows the correct and incorrect ways of lifting objects and illustrates the effects of overstrain on the cerebral column. A concluding section deals with hernias. (Also produced in Spanish, French, and other languages.)

Available from : Bray Studios, Inc. (Rent or purchase)

**31. Industrial Absence and the General Practitioner***Filmstrip Sound (tape) Color 30 min. (1961)*

Discusses problem of excessive or unnecessary absences and the role the industrial physician can play in helping to reduce these absences.

Available from : Film Distributors International (Rent)

**32. Industrial Exhaust Systems***Motion Picture Sound Black and White 11 min. (1950)*

Demonstrates with miniature models types of hoods, baffles, elbows, and fans used in modern industrial exhaust systems and shows their operation in manufacturing plants. Comparative effectiveness is illustrated with an artificial smoke produced by titanium tetrachloride, which shows the amount of air control afforded by each hood and baffle. Importance is placed upon selection of the proper type of exhaust unit for the specific functions it must perform.

Available from : University of Michigan (Rent or purchase)

**33. Inner Man Steps Out, The***Motion Picture Sound Black and White 34 min. (1951)*

Shows Jerry Allen, a nervous, irritable fellow both to his family and on the job. The family doctor helps him to see his inner conflict. Jerry realizes the poor manner in which he handled many problems at the shop and he determines to practice being more tolerant, less antagonistic, and endeavors to win back the respect and loyalty of his subordinates. Directed toward improving personnel relations—especially applicable to supervisory level.

Available from : Henry Strauss

**34. Investment in Human Welfare***Motion Picture Sound Color 22 min. (1951)*

Demonstrates the contributions rehabilitated workers can make to the Nation's economy despite their handicaps. A variety of occupations

performed by handicapped men and women and industrial equipment they use are shown. Also shows some of the rehabilitation processes through which the disabled are prepared for useful work.

Available from: Office of Vocational Rehabilitation (Loan), Unifilms, Inc. (Purchase)

### **35. It's Up to You**

*Motion Picture Sound Color 33 min.*

Portrays risks and health hazards in a bakery. Emphasizes the importance of adequate ventilation, correct methods of lifting, and cleaning of equipment.

Available from: Bakery and Confectionery Workers' International Union of America (Loan)

### **36. It's Up to You**

*Motion Picture Sound Color 11½ min. (1959)*

Stresses the use of proper safety eyewear as the foundation of any successful program to prevent loss of sight due to industrial eye accidents. Shows many typical work situations which could produce eye injuries and explains the various types of safety eyewear available for specific working conditions. Includes narrative case history of an eye injury that occurred while a worker was not wearing his safety glasses and shows a surgeon removing a metal fragment from the victim's eye.

Available from: National Society for the Prevention of Blindness (Loan or purchase)

### **37. Keep It Clean**

*Filmstrip Sound Black and White 15 min. (1949)*

Suggests ways to keep industrial plants clean, orderly, healthful, and safe.

Available from: National Safety Council (Rent or purchase)

### **38. Keep Your Head**

*Filmstrip Sound Black and White 15 min. (1947)*

Discusses the control of one's emotions and its relationship to health and safety.

Available from: Zurich Life Insurance Companies (Rent or purchase)

### **39. Kinetics in Manual Handling**

*Motion Picture Sound Black and White 25 min.*

Introduces basic key factors of good kinetics, and shows their application in the handling of bags, barrels, drums, and boxes. Primarily concerned with strain prevention.

Available from: Imperial Chemical Industries (New York), Ltd.

**40. Lighting for Efficient, Accurate Seeing***Slides Color 30 min.*

Outlines basic principles of light and vision, research basis for current recommended levels of illumination, and typical applications of good lighting practice.

Available from: Illuminating Engineering Society (Rent or purchase)

**41. Light Is What You Make It***Motion Picture Sound Color 10 min.*

Illustrates with a Walt Disney cartoon the importance of good lighting. Shows how inadequate lighting, glare, or sharp contrasts between light and dark places, may cause eye strain. Explains how this form of strain can be eliminated.

Available from: Chatham College (Loan)

**42. Making Sound Behave***Filmstrip Sound Color 12 min.*

Shows the effect of man's auditory environment upon his ability to work efficiently and think effectively. Presents design goals using noise criteria for planning work areas.

Available from: Barber-Colman Company (Loan), Barber-Colman Field Offices

**43. Medical Aspects of High Intensity Noise: Ear Defense***Motion Picture Sound Black and White (1956)*

Points out the hazards associated with high noise levels produced by jet aircraft and other noisy equipment found ashore and aboard ship. Describes the nature of noise, its effect on hearing, and various devices that are used for the protection of hearing.

Available from: U.S. Department of the Navy (Loan) (Refer to MN 9318-c)

**44. Medical Aspects of High Intensity Noise: General Effects***Motion Picture Sound Black and White (1956)*

Explains the increasingly serious hazards of high intensity noise; describes the nature of noise and some of its physiological and psychological effects; and gives examples of sounds of extreme intensity approximating conditions found near jet aircraft, artillery, and other noise-producing equipment.

Available from: U.S. Department of the Navy (Loan) (Refer to MN 9318-a)

#### **45. Medical Aspects of High Intensity Noise: Prevention of Hearing Losses**

*Motion Picture Sound Black and White (1956)*

Shows how to recognize symptoms of acoustic trauma resulting from exposure to high intensity noise. Demonstrates the methods for detecting hearing losses and describes the effectiveness of various ear protection devices.

Available to medical personnel from: U.S. Department of the Navy (Refer to MN 9318-b)

#### **46. Mr. Finley's Feelings**

*Animated Film Sound Color 10 min. (1957)*

Illustrates how daily emotional tensions sometimes lead to real trouble. Setting is in a work situation. Designed to stimulate questions and comments and provoke an exchange of ideas about ways of meeting stress situations and handling day-to-day relationships. A discussion guide is provided for use with the film.

Available from: Metropolitan Life Insurance Co. (Loan)

#### **47. Noise and Hearing**

*Motion Picture Color Sound 30 min. each (series of three) (1961)*

Deals with the health problems of noise, methods for measuring noise and testing hearing, and the various measures that may be taken to reduce noise. Originally prepared as a public educational film and for teaching purposes. Contains information useful to industrial hygienists and safety directors.

Available from: Mine Safety Appliances Co. (Loan)

#### **48. Occupational Diseases**

*Filmstrip Sound (Tape) Color 37 min.*

Classifies and depicts occupational diseases ranging from dermatitis to radiation, and includes such classical diseases as lead poisoning, silicosis, and skin diseases. Planned for a medical audience, but interesting and informative to a lay group.

Available from: Division of Occupational Health, Public Health Service (Loan)

#### **49. Occupational Health Problems**

*Motion Picture Sound Color 48 min. (1947)*

Describes the industrial physician's problems, ranging from the pre-employment examination to the prevention of occupational hazards in atomic energy plants. Discusses industrial dermatoses, lead contami-

nation, tuberculosis surveys, the common cold in industry, traumatic cases and burns, the basic principles of rehabilitation of the injured, radiation control, and protective measures in the handling of contaminated material in atomic energy plants.

Available from: Medical Film Guild, Ltd. (Rent or purchase)

#### **50. One to a Customer**

*Motion Picture Sound Black and White 10 min.*

Deals primarily with personal protective equipment and attempts to instill in employees the proper attitude towards safety aids. Emphasizes the necessity for wearing protective equipment on the job, just as athletes do on the playing field. Designed for industrial groups in foundries, construction work, mills, machine shops, and manufacturing plants.

Available from: American Optical Company (Loan)

#### **51. Operation of Industrial Hygiene Survey Equipment: The Light Meter**

*Motion Picture Sound Black and White 3 min. (1957)*

Instructs students in methodology applicable to the operation of the light meter.

Available from: Air Force Film Library Center (Loan) (Refer to FTA 272e)

#### **52. Operation of Industrial Hygiene Survey Equipment: The Midget Impinger Dust Sampler**

*Motion Picture Sound Black and White 11 min. (1958)*

Demonstrates correct procedure for operating the midget impinger dust sampler.

Available from: Air Force Film Library Center (Loan) (Refer to FTA 272c)

#### **53. Operation of Industrial Hygiene Survey Equipment: Relative Humidity, Temperature, and Air Pressure Instruments**

*Motion Picture Sound Black and White 14 min. (1957)*

Instructs students in methodology applicable to operation of humidity, temperature, and air pressure instruments.

Available from: Air Force Film Library Center (Loan) (Refer to FTA 272b)

**54. Operation of Industrial Hygiene Survey Equipment: The Sound Analyzer**

*Motion Picture Sound Black and White 10 min. (1957)*

Acquaints students with the proper method of operating the sound analyzer.

Available from: Air Force Film Library Center (Loan) (Refer to FTA 272g)

**55. Operation of Industrial Hygiene Survey Equipment: Toxic and Combustible Gas Detectors**

*Motion Picture Sound Black and White 15 min. (1957)*

Demonstrates operation of some of the industrial hygiene equipment used in the detection of certain toxic and combustible gases.

Available from: Air Force Film Library Center (Loan) (Refer to FTA 272a)

**56. Opportunities of the Industrial Nurse**

*Filmstrip Sound Color 20 min.*

Portrays some of the functions and responsibilities of a nurse employed in industry.

Available from: Massachusetts Industrial Nurses Association (Rent)

**57. Plan to Live**

*Motion Picture Sound Black and White 17 min. (1952)*

Shows the many operations in a chemical industrial plant and the safety practices which should be observed.

Available from: Indiana University (Rent or purchase)

**58. Plant Health Program, A**

*Filmstrip Sound (disc) Black and White 15 min. (1955)*

Shows a typical occupational health program in operation in a modern printing plant.

Available from: Communicable Disease Center, U.S. Public Health Service

**59. Practice of Radiological Safety, The**

*Motion Picture Sound Black and White 33 min. (1952)*

Shows how shipments of radioactive materials are handled, doses for therapy prepared, and synthetic compounds manufactured; pictures the protective clothing and the metering equipment worn by personnel handling radioactive materials; emphasizes safety precautions.

Available from: U.S. Department of the Army (Loan), United World Films (Sale)

**60. Primer on Monitoring***Motion Picture Sound Color 27 min.*

Illustrates various types of radioactivity, principles and calibration of radiation-detection devices, and radiation monitoring methods. Although some of the instruments shown are obsolete by current standards, the principles discussed are still valid.

Available from: U.S. Atomic Energy Commission (Loan)

**61. Production with Safety***Filmstrip Sound Black and White 20 min. (1945)*

Depicts safety training for new workers. Shows safety shoes, goggles, gloves; gives safety instructions and follow-up. Stresses importance to management and labor of avoiding accidents.

Available from: National Safety Council (Rent or purchase)

**62. Protecting the Atomic Worker***Motion Picture Sound Black and White 12½ min.*

Shows the comprehensive safeguards used to protect the men and women working in atomic energy against the dangers of radiation, illustrating the extreme care with which these employees are constantly shielded and tested and methods of decontamination at the slightest indication that irradiation is present.

Available from: U.S. Atomic Energy Commission (Loan)

**63. Proud and Tall***Motion Picture Sound Both in black and white and in color 13½ min. (1961)*

Depicts the rehabilitation of a blinded worker and the preparations made by the employer-company for his rehiring. Made for The President's Committee on Employment of the Physically Handicapped.

Available from: Employers Mutuals of Wausau (Loan)

**64. Public Health Aspects of the Occupational Environment***Filmstrip Sound (Tape) Color 28 min.*

Presents an over-all view of industrial operations from fisheries and agriculture to modern-day electronics, and discusses the health hazards faced by the worker in the various occupations.

Available from: Division of Occupational Health, Public Health Service (Loan)

**65. Safety for Welders***Motion Picture Sound Black and White 7 min.*

Shows proper use of protective equipment: goggles and helmets to protect eyes, face, and neck from injuries; leather clothing to prevent skin burns; and local exhaust and air supply respirators to prevent metal fume poisoning.

Available from : United World Films, Inc.

**66. Strange Interview***Motion Picture Sound Black and White 55 min. (1947)*

Tells the story of the owner of a small production shop which is rapidly losing business due to the owners' attitude toward his employees. In a dream sequence Benjamin Franklin demonstrates that the secret of getting along with people and having them get along with you is simply treating them with consideration and as individual human beings.

Available from : General Motors Corporation (Loan)

**67. To Live in Darkness***Motion Picture Sound Black and White 13 min. (1944)*

Portrays dramatically the cases of three men who lost their eyesight through carelessness and the effect of these accidents upon the employees and their families.

Available from : National Society for the Prevention of Blindness (Loan), United World Films (Purchase)

**68. Ulcer at Work***Motion Picture Sound Black and White 26 min.*

Shows how the peptic ulcer—a result of emotional strain—creates unhappiness and failure in man's working and personal life, and grows in importance as a cause of business losses. Tells how a typical ulcer sufferer deals with the problem and finds his way to a happier, more realistic and satisfying life.

Available from : International Film Bureau, Inc. (Purchase)

**69. Under Cover***Filmstrip Sound Black and White 15 min. (Rev. 1956)*

Deals with industrial safety and the equipment necessary to prevent industrial accidents. Demonstrates and discusses the need for safety equipment and tells why it is profitable for the industrial employee to use it.

Available from : Zurich Life Insurance Companies (Rent or purchase)

**70. Workmen's Compensation***Filmstrip Sound (tape) Color 30 min. (1961)*

Illustrates the several ways in which the relationship between the industrial patient and the industrial physician has been affected by workmen's compensation insurance laws. Discusses the physician's administrative role, the emotional impact of compensation, and changes in physical standards for employment.

Available from : Film Distributors International (Rent)

**71. Your Ear and Noise***Motion Picture Sound Color 12 min.*

Describes the relation of problems of noise with the function of the ear. Shows methods of noise measurement in industry and noise control procedures. Stresses pre-employment and routine periodic audiometric tests of employees subject to hazardous noise levels.

Available from : American Academy of Ophthalmology and Otolaryngology, Subcommittee on Noise (Loan or purchase)

**72. Your First Defense***Filmstrip Sound Black and White 15 min. (1947)*

Care of the skin ; avoiding occupational dermatoses.

Available from : Zurich Life Insurance Company (Rent)

**73. Your Patient and Social Security Disability Benefits***Filmstrip Sound (tape) Color 30 min. (1961)*

Emphasizes the importance of the industrial physician's role in the disability evaluation process. Explains "disability" as defined in the Social Security Law.

Available from : Film Distributors International (Rent)

**74. Your Richest Gift***Motion Picture Sound Color 10 min.*

Features eye protection in industry. For high school to adult age groups.

Available from : Owens-Illinois Glass Company (Loan or purchase)

## ADDRESSES OF FILM SOURCES

The sources of occupational health film material listed in this catalog appear alphabetically. For easy reference, the films which are available are mentioned after each address.

Air Force Film Library Center  
Air Photo and Charting Service (MATS)  
United States Air Force  
8900 South Broadway  
St. Louis 25, Mo.

**Films:**

Aircraft Accident Investigation  
Air Force Industrial Medicine in Action  
Industrial Medicine in Action—Toxic Chemical Agents  
Operation of Industrial Hygiene Survey Equipment (series of 5)

Almanac Films, Inc.  
41 Union Square West  
New York 3, N.Y.

**Film:**

Emotional Stress

American Academy of Ophthalmology and Otolaryngology  
Subcommittee on Noise, Research Center  
327 Alvarado Street  
Los Angeles 57, Calif.

**Films:**

An Approved Technique for Pure Tone, Air Conduction Audiometry  
Ear Protection in Noise  
Your Ear and Noise

American Dental Association  
Film Library  
222 East Superior Street  
Chicago 11, Ill.

**Film:**

Hazards of Dental Radiography

**American Heart Association**  
 44 East 23rd Street  
 New York 10, N.Y.

**Film :**

Back on the Job

**American Optical Company**  
 Safety Products Division  
 Southbridge, Mass.

**Films :**

Caution—Eyes at Work  
 One to a Customer

**Armed Forces Institute of Pathology**  
 Medical Illustration Service  
 Washington 25, D.C. (Washington, D.C., area)

**Film :**

Practice of Radiological Safety

Other requests for loan of the film should be forwarded to the Commanding General, Attention : Surgeon, of the Army area in which the requesting individual or institution is located :

First U.S. Army, Governor's Island, N.Y. (Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, Vermont).

Second U.S. Army, Fort George G. Meade, Md. (Delaware, Kentucky, Maryland, Ohio, Pennsylvania, Virginia, West Virginia).

Third U.S. Army, Atlanta 3, Ga. (Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee).

Fourth U.S. Army, Fort Sam Houston, Tex. (Arkansas, Louisiana, New Mexico, Oklahoma, Texas).

Fifth U.S. Army, 1660 E. Hyde Park Blvd., Chicago, Ill. (Colorado, Illinois, Indiana, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Iowa, Wisconsin, South Dakota, Wyoming).

Sixth U.S. Army, Presidio of San Francisco, Calif. (Arizona, California, Idaho, Montana, Oregon, Nevada, Utah, Washington).

**Bakery and Confectionery Workers' International Union of America**  
 1000 Sixteenth Street, NW.  
 Washington 6, D.C.

**Film :**

It's Up to You

**Barber-Colman Company**  
**Rockford, Ill.**

# SUBJECT INDEX

## With Film Numbers

- Absence, 31
- Accident prevention (*see Safety*)
- Aircraft accidents, 1
- Air Force, industrial hazards, 2, 3
- Air pressure, measurements, 53
- Alcoholism, 5
- Audiogram, 8
- Bakers, hazards of, 35
- Blindness, 63, 67
- Chemicals, plant safety, 57
  - hazards of, 3
- Cleanliness, in plant, 37
  - in bakery, 35
- Colds, 11
- Communicable Disease Center, 29
- Compensation, workmen's, 70
- Dental radiography, 27
- Dermatoses, 17, 72
- Disability, 6, 73
- Doctors, in industry, 18, 31, 49, 70, 73
- Dust sampling, 52
- Ear, and noise, 42, 43, 44, 45, 47, 71
- Equipment (*also see Protective measures and Safety*)
  - air pressure, humidity, and temperature measurement, 53
  - dust sampler, 52
  - gas detectors, 55
  - light meter, 51
  - sound measurement and analyzing, 54
  - radiation monitoring, 60
- Exhaust systems, 32
- Eye, protection, 14, 21, 23, 36, 40, 41, 67, 74
  - rehabilitation of blind, 63
- First aid, 7
- Gas detectors, 55
- Handicapped workers, 6, 15, 34
- Health hazards (*see also Safety*), 64
- Health program, 58
- Heart disease, 10, 26
- Human relations (*see Mental health*)
- Humidity, measurement, 53
- Industrial medicine,
  - growth and development, 18
  - (*see also Doctors, Nursing*)
- Kinetics, 39
- Laboratory work, 13, 29
- Lighting, 40, 41
- Light meter, 51
- Liquids, handling, 19
- Mental health, 22, 25, 33, 38, 46, 66, 68
- Midget impinger, 52
- Muscle strain, 30, 39
- Noise
  - audiogram, 8
  - effects of, 42, 43, 44, 71
  - prevention of hearing loss, 45, 47
  - measuring and analyzing, 54
- Nursing, industrial, 7, 56, 66
- Occupational diseases,
  - dermatosis, 17, 72
  - general, 48, 49
  - in aircraft, 3
- Pesticides, hazards of, 29
- Prevention,
  - of accidents (*see Safety and Protective measures*)
  - of disease (*see Occupational diseases and Protective measures*)
  - of colds, 11
  - of muscle strain, 30, 39
- Protective measures,
  - clothing, 9
  - ear, 20
  - eye, 14, 21, 23, 36, 67, 74
  - in plants, shops, mills, 50, 69
  - in welding, 65
  - head, 28
  - lighting, 40, 41
  - on shipboard, 12
  - respirators, 4
- Radioactivity, 59, 60, 62

Radiography, dental, 27  
 Rehabilitation,  
   heart disease, 10, 26  
   of alcoholic, 5  
   of the blind, 63
