PART II
NARRATIVE SUMMARY

The Security Platoon and Maintenance Section are at full strength.

Increase of personnel have made possible a larger amount of improvements in the Company area during the month of October. Improvements have been made in building and strengthening the Company Defensive Sector Line with fighting bunkers and protective positions against inclement weather. There have also been improvements made to building structures throughout the Company Area.

Due to weather condition from two (2) typhoons, much of the outside improvements were curtailed with work being continued in sheltered areas.

The Company has formed an 81mm Mortar Section to strengthen the defensive fires.
