HARBIN DISTRICT TRADE REPORT.

1°. LOCAL.—The year 1919 opened with a feeling of optimism in the air. The termination of the Great War, the liberation of Siberia by the Czecho-Slovaks, and the creation of the Allied Technical Board of Control, with the celebrated American engineer John F. Stevens as president, seemed to warrant hopes that the Chinese Eastern Railway would regain all its former efficiency. The optimists, in fact, predicted a new era of unexampled prosperity, while the pessimists shook their heads, pointed to the declining rouble, and hinted that the Bolsheviks would “come back.” For some time, indeed, the optimists seemed to be in the right. Communications with Siberia improved, the armies of Admiral Koltchak advanced victoriously, and business in Harbin was excellent. The place seemed to be full of money, and the great boom in building pointed to exceptional prosperity. Unhappily, as the year wore on one illusion after another was dispelled. Koltchak’s advance was stopped, and his forces began to retreat. Strikes on the Chinese Eastern Railway, defensible in the first instance on the score of the inadequate pay, continued after this grievance was removed and assumed a distinct Bolshevik colour. The Sungari remained at a persistently low level throughout the summer, and the difficulties of navigation combined with the unusual activity of the *lung-hu-tz’ü* were responsible for an exceedingly bad season. But business might have weathered all these storms: it was the utter collapse of the rouble which finally brought about the slump in the latter part of the year. At the close of 1918 *Shanghai Ts.* 100 exchanged for *Roubles* 1,250. From this point the rouble dropped rapidly and fairly steadily to 8,250, on the 11th October. In a week it went to 17,500, recovering to 15,375 on the 27th of that month. Since the latter date there have been no official rates, though nominal quotations have been as low as approximately *Sl. Ts.* 100 = *R.* 27,000, at which rate the rouble was worth just over half a Mexican dollar cent. On the 15th May the 20 and 40 rouble Kerensky notes were withdrawn from circulation. In some respects this was a wise step, as owing to the inferior paper and simple design enormous numbers of forged “beer labels,” as they were nicknamed, were on the market, and these notes, which bore no numbers, naturally became discredited and heavily discounted. But they at least provided a fairly adequate supply of small change, and their disappearance created a crisis in this respect. The so-called Siberian notes, short-term treasury bonds issued by the Koltchak Government in November 1918, appeared in Harbin in the early spring, but were received with little enthusiasm, for one reason, *inter alia*, because they did not solve the difficulty of making small payments, being mostly in large denominations. Many expedients were tried to meet the situation, most of the better-known shops, restaurants, and hotels refusing to give change in currency and forcing their own “coupons” on their unwilling customers. The result of the scarcity of small notes was to force them to a high premium, especially the Romanoff issues. The financial situation became more and more confused, as not only were the Siberian and Kerensky issues discounted in terms of Romanoff currency, but the higher denominations of each issue were progressively discounted in the small notes of the same issue, the discount increasing with the face value of the notes. Towards the end of the summer the stagnation of trade had reached such a point that the Chinese shops selling piece goods and ~~merchandise~~ in one of the main streets liquidated their stocks and went into the exchange business, and by the late autumn nearly every shop in this long street was an exchange shop, legitimate business having ~~virtually ceased~~. Great ingenuity was displayed in devising pretexts to make profits, the shops discounting ~~notes~~ with holes or otherwise damaged, a practice which was later extended to the Romanoff notes. The Kerensky and Siberian issues received a further blow from the Chinese Eastern Railway order,

requiring all passenger fares and a proportion of freight charges to be paid in Romanoff notes. In view of the chaotic state of Russian exchange and the growing difficulty of financing business therein, merchants turned to the dollar and the gold yen, and towards the end of the year the latter had virtually supplanted the rouble, at least as regards wholesale business and purchases in Russian shops. The Romanoff small notes, however, maintained a measure of popularity and became more or less stabilised on the basis of 10 to the gold yen and 25 to the dollar. Reference should also be made to a further currency, the Russo-Asiatic Bank, or so-called "Horvath," notes, printed in America. After many vicissitudes these notes settled down, by the end of the year, to an exchange value slightly less than the Romanoff issues. On the 31st December the following were the approximate nominal buying rates for the Chinese dollar:—

Romanoff (notes of 3, 5, and 10 roubles)	Roubles	25.00
" (" 25 roubles)	"	27.50
" (" 50 ")	"	60.00
" (" 100 ")	"	67.00
" (" 500 ")	"	72.00
Kerensky	"	140.00
Siberian	"	300 to 350
Gold yen	Yen	2.42

The reasons for the depreciation of the rouble are various and complex. Doubtless the inability of the Omsk Government to maintain its trade balance, due in no small measure to transportation difficulties and trade restrictions, was a most important factor. Speculation, inflated currency, and the existence of vast quantities of alleged forged notes were other causes which contributed to the decline. Lastly, loss of confidence in Russian currency, demonstrated by the cessation of speculative buying by Chinese for hoarding purposes, had a disastrous effect on the Far Eastern market. On the Russian side of the Amur, in the Aigun neighbourhood, the Bolsheviki have given a good deal of trouble. On the 8th March the notorious Mukhin, one of the most important Bolshevik leaders in these parts and former president of the local soviet, was captured by the Japanese near Blagovestchensk and summarily executed. The *kung-hu-tzŭ* showed unusual activity during the year. In July a large band surrounded the Chinese settlement at Suifenho. The bazaar was looted and partly burnt, and about 50 Chinese residents were killed before the robbers were dispersed. In the same month another band of about 300 attacked Sansing. The telegraph office was occupied and the wires disconnected. The Magistrate's house was destroyed, and the Magistrate himself together with four leading merchants taken as hostages pending payment of a large sum. The Customs staff had an anxious time and were held up by the robbers, although fortunately not maltreated. Some 20 catties of confiscated opium, as well as some private money belonging to the staff, were also taken. The arrival of a Chinese Eastern Railway steamer with Russian troops was the signal for the departure of the robbers.

2°. REVENUE.—Although showing an advance on the bad years of 1916 and 1918, the revenue for 1919—*Hk.Tts.* 970,000 nearly—still falls short of the average for the past 10 years. Improved communications with Siberia account for a considerable recovery at Manchouli—*Hk.Tts.* 115,000,—and for slightly better figures at Suifenho. Sansing, in spite of adverse conditions, also had a good year, and the collection of *Hk.Tts.* 108,000 is a record for this station. Aigun, while not maintaining the very high standard of 1918, collected close on *Hk.Tts.* 130,000, which must be considered satisfactory in view of the large stocks carried over from the previous year and the stagnation of trade in the latter part of 1919. The revenue derived from imports improved by *Hk.Tts.* 67,000, or nearly 30 per cent., Manchouli and Harbin River both recording an increase of over one-half. Turning to exports, Sansing appreciated by one-third, mainly owing to the great quantity of beans and wheat shipped to Siberia through the Lahasusu barrier, while Manchouli

collected more than three times the revenue of 1918. Harbin River and Aigun both report important decreases, of 80 and 70 per cent. respectively. River dues fell off seriously, from *Hk.Fts.* 18,000 to *Hk.Fts.* 7,000, in spite of the fact that the tariff was raised from seven to 15 times the original rouble scale in August.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The total gross value of foreign imports shows a striking recovery, of nearly 100 per cent., from *Hk.Fts.* 9,150,000 to *Hk.Fts.* 18,000,000, Suifenho contributing 64 per cent. and Aigun over one-quarter. The improvement at the former station, which has trebled the 1918 figure, is due in the main to the greatly increased arrivals of coal, rails, and locomotive parts for the Chinese Eastern Railway, but as these articles are duty free, the revenue has not benefited. Gunny bags appreciated two and a half times in response to the demand for cereals abroad. Heavy advances are also recorded for salt, tea, and fish, while kerosene and mineral engine oil, which had fallen to *nil* in 1918, again arrived in considerable quantities. At Aigun the chief feature was the large increase in importation coastwise of all kinds of cotton piece goods except white shirtings, Japanese cottons being especially prominent. Woollens, owing presumably to advanced prices, fell off very considerably, as did American kerosene oil, spirits of wine, and leather footwear. Sansing imports are always trifling and again generally declined, especially cotton piece goods, although American kerosene oil shows a fourfold increase. Harbin River had a dull and featureless season, in which a considerable advance in furs and a very heavy falling off, to the extent of 12,000 piculs, in salt fish may be noted. At Manchouli, as elsewhere in the Chinese Eastern Railway zone, the year was one of expansion, and the constant stream of refugees accounts for important increases in coal and firewood as well as in timber for house construction.

(b.) *Re-exports.*—Re-exports abroad rose from *Hk.Fts.* 3,600,000 to *Hk.Fts.* 10,870,000, Manchouli, as might be expected in view of the shortage of goods in Siberia, being credited with the bulk of this total, or *Hk.Fts.* 8,000,000. In passing it may be noted that the abrogation of the transit system for goods by rail through Manchuria was in a great measure responsible for the increase in re-exports at Manchouli as well as in imports at Suifenho.

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports).*—The total gross value of Chinese exports and re-exports was just over *Hk.Fts.* 17,000,000, a gain of 10 per cent. Suifenho heads the list of the Harbin sub-offices with over one-third, while Manchouli has *Hk.Fts.* 5,260,000 to its credit. At the former the high figure is due to a large increase in exports of wheat, amounting to 670,000 piculs. Fresh eggs and barley also improved, and 32,000 railway sleepers were exported, as against *nil* in 1918. On the other hand, beancake, flour, and beans and peas all fell off, the last named by over 400,000 piculs. Manchouli records an advance for almost every article of note, particularly for cereals, fresh eggs, flour, and meat, no small part of these foodstuffs being destined for the Russian and Allied forces operating in Siberia. Sansing likewise improved all round, notably in beans, wheat, and fresh eggs. The slow but continual development of the Lower Sungari region accounts for a progressive increase of exports at Lahasusu barrier, at the expense of the Sansing sub-office. Aigun had a bad season and reports a general falling off, firewood alone, among the major items, showing any important increase. Harbin River also did badly, cereals of all kinds, flour, fresh eggs, softwood planks, and spirits of wine all declining very heavily. Skins improved from 10,500 to 25,000 pieces, and locally made laundry soap from 2,400 to 7,700 piculs. The 1918-19 bean harvest was estimated at not more than 75 to 80 per cent., the severe drought being responsible for this shortage. Owing to railway transport difficulties, only a small part of the new crop was exported, and a not inconsiderable portion of the previous season's beans is still awaiting shipment at various stations on the line. About 31,000 tons were shipped from Vladivostock, of which 19,000 went to Europe, Japan taking the balance. Prices f.o.b. Vladivostock fluctuated greatly, but generally showed an important advance, the highest figure reached being about *Gold Yen* 200 per ton.

(b.) *Imports*.—The most striking feature under this heading was a very large increase in arrivals of firewood at Harbin River, from 880,000 to 1,650,000 piculs. Nevertheless, stocks were somewhat short at the close of the year, taking into consideration the rapidly growing population of Harbin.

5°. *INLAND TRANSIT*.—No remarks.

6°. *SHIPPING*.—The navigation season opened rather later than usual, the first steamer only leaving port on the 22nd April. During the winter a great Chinese shipping combine was formed, under official auspices, and this new venture, under the name of the Wu Tung Kung Ssū (茂通公司), acquired, in addition to a number of former Chinese steamers, the bulk of the Russian vessels disposed of by their owners to Chinese during the Bolshevik régime. The departure in June of this company's steamer *Chihchow* for Habarovsk marks an epoch in the annals of this district, being the first occasion on which a Chinese flag vessel has been seen in purely Russian waters. The extreme heat of July and the general drought prevailing resulted in a considerable fall of the river, which materially hampered navigation during the remainder of the season. The decreasing demand for goods from the Amur region, the fall of the rouble, and the depredations of the *hung-hu-tzū* were other adverse factors. It is therefore not surprising to find a further decline in the figures for steam shipping entered and cleared, which totalled 894,000 tons, or 33,000 tons less than in 1918. The number of vessels rose, however, from 2,745 in the latter year to 3,935, showing that the low water necessitated the employment of a smaller type of craft. The junk tonnage shows only a very slight diminution on the record 1918 figure. From the beginning of August river dues were collected at 15 times the original rouble scale, but owing to the falling off of shipping the Sungari Aids Service, which is maintained from this fund, did not materially benefit by the increase. There were several serious cases of piracy, both Russian and Chinese vessels being victimised, and a number of people were killed or wounded by the robbers.

7°. *PASSENGER TRAFFIC*.—The passengers carried by river steamer between Sungari and Amur ports totalled 200,891, the lowest since 1913. The decrease on the 1918 figures amounted to 72,000 and is explained by the unfavourable conditions alluded to under 6°. "Shipping." The Chinese Eastern Railway transported about 2½ million passengers during the year.

8°. *TREASURE*.—No remarks.

9°. *OPIUM*.—In May, thanks largely to the energy and enthusiasm of Dr. Wu Lien Teh (伍連德), a local branch of the Anti-Opium Association was formed, with the Harbin Taoyin as president and various prominent foreigners and Chinese as vice-presidents and committee members. The necessity for some energetic action to combat the opium evil in Manchuria becomes more pressing every year, as the area under poppy cultivation on the Lower Sungari and in the Suifenho neighbourhood is steadily increasing. There is little doubt that herein is to be found one of the causes of the high cost of living, since the farmers are tempted to neglect legitimate agriculture for the more remunerative poppy-growing, and the cost of cereals is thereby enhanced. During the year more than 100 piculs of opium and poppy seeds were publicly burnt by the Customs.

10°. *MISCELLANEOUS*.—This district did not escape the influenza epidemic which ravaged the entire world, but was fortunately not very severely affected. A much greater misfortune was the terrible cholera visitation, which made its first appearance at Harbin on the 3rd August, following a phenomenally hot and dry July. According to figures kindly supplied by the North Manchuria Plague Prevention Service the

total mortality at Harbin from cholera was 4,503, of whom 3,738 were Chinese. The Plague Prevention Service staff and the American Red Cross doctors and nurses did splendid work in fighting the scourge, and the systematic use of hypertonic saline injections was in no small measure responsible for the low mortality record—14.11 per cent.—in the Plague Prevention Hospital. Spotted typhus and typhoid were also rampant, and Mr. H. G. Garden, Chinese Customs River Inspector at Taheiho, succumbed to heart failure following typhoid on the 16th September at Blagovestchensk.—The great prosperity witnessed in the early part of the year and the constant influx of refugees resulted in a crisis in the housing problems and a veritable building boom. The Russian authorities estimate the present Russian population of Harbin at approximately 130,000, a figure greatly in excess of the pre-war population of any city in Siberia. The more settled conditions brought about a considerable decrease in serious crimes, from which this somewhat turbulent place was relatively free during 1919.—The International Banking Corporation opened a branch office at Harbin in August. Just before the close of the year new bank-notes of the Bank of China and Bank of Communications were placed on the market.

The above report has been written by Mr. G. C. F. Holland, Deputy Commissioner.

RENE D'ANJOU,

Commissioner of Customs.

HARBIN, 1st March 1920.

中華民國八年哈爾濱口華洋貿易情形論畧

竊查本年歲首、本埠景况、似頗樂觀、蓋大戰既終、西伯利亞賴捷克軍之鎮懾、得享安甯、協約各國、又組一鐵路技術監理部、而以鼎鼎大名之美工程師司提芬爲部長、則中東鐵路之恢復原狀、似可預期、斯樂觀者所以抱無窮之希望、而憂時之士、對於盧布之日落、並逆料過激黨之再臨、未許定抱樂觀也、然當時景况、初未嘗無一線之曙光、蓋西伯利亞之交通、稍呈進步、柯爾恰克大將之軍隊、屢獲勝利、加以哈埠貿易之興盛、金融之充足、與夫建築之發達、在在均顯其蒸騰之氣象、不幸閱時未久、種種佳况、均歸泡影、柯軍不進而反退、中東鐵路工人、初藉口工資菲薄、聯同罷工、迫辛金既增、仍不就職、蓋若輩趨向過激派、至是其態度乃顯然矣、本年夏間、松花江水、落而不漲、航行困難、而胡匪則猖獗更甚、貿易衰落、斯爲大因、然尙未至於一蹶不振也、不意盧布價值、又復一落千丈、於是自秋徂冬、陷於絕境、查民國七年歲杪、上海規銀百兩、不過合盧布一千二百五十元、其後價值日落、至本年十月十一日、驟跌至八千二百五十元、一星期後、落至一萬七千五百元、是月二十七、價值稍提、行市爲一萬五千三百七十五元、過此以後、並無正當行市、惟聞最低之價、規平百兩、約合盧布二萬七千元、據此核算、則盧布一元、僅值大洋半分餘已、開連斯基時代發行之二十四十元鈔票、於本年五月十五日收回、此舉甚善、是種鈔票、紙質既劣、花紋又粗、人至呼爲酒瓶上之標紙、且偽造之票、流行甚夥、票面又無號碼、真贗莫辨、信用遂失、折扣亦逐漸而鉅、惟票面價額不大、以之找零、尙稱便利、今一旦收回、殊覺不便、一千九百十八年十一月、柯政府發行之短期債票、一名西伯利亞票、於本年春間、流入本埠市面、惟人民不甚歡迎、一因票面價額、大都甚鉅、零星交易、無法找兌、嘗屢求善法以去此困難、凡買賣稍大之商店與飯莊旅館等、每拒絕找兌、而強其顧客收受彼等所發之記帳票焉、夫小額之票、既如其缺、於是以大易小、自須貼

水甚鉅、且以帝國時代所發之票(即老羌帖)爲尤甚、於是金融益形紊亂、不獨西伯利亞票與開連斯基票、兌換老帖、多所折扣、即同類之票、價額大者、對於價額小者、亦莫不一有巧飾之折扣、價額鉅者、其扣亦鉅、浸至季夏之間、貿易頗有中止之勢、於是華人店鋪、向營正頭及洋貨業者、均結束存貨、改業兌換、至秋季之末、迢迢大道、徧設錢莊、而正項營業、反銷聲匿影、且各逞伎倆、以資其漁利之藉口、對於開連斯基紙幣、遇有污損及小孔者、均大事折扣、後於老帖、亦一律挑剔、中東鐵路公司、又特出新例、凡購買客票、須全用老帖、運費亦須納老帖若干成、於是開連斯基與西伯利亞帖、重受打擊、俄幣既若是紊亂、交易即極形困難、商人乃行使銀元及日本金票、迨至歲暮、金票異常通行、幾有取盧布而代之之勢、凡大宗買賣、俄商多以金票作價、惟人民對於小額老帖、尙屬歡迎、行市頗覺穩定、老帖約十元合金票一元、二十五元合大洋一元、惟此間尙有一種紙幣、在美國印刷、由俄亞銀行發行、普通呼之曰霍爾瓦特帖、此帖自發行以來、價值屢更、至年底乃得確定、其值較老帖稍遜、茲將十二月三十一日、盧布兌換中國銀元、每元約合數目、列表於左、以資比較、

紙幣種類	票面額數	銀元每元價目
老帖	三元五元及十元	二十五元
同上	二十五元	二十七元半
同上	五十元	六十元
同上	一百元	六十七元
同上	五百元	七十二元
開連斯基帖		一百四十元
西伯利亞帖		三百至三百五十元
日本金票		二元四十二錢

至盧布低落，原因固甚複雜，然大概以沃木斯克政府之對外貿易，無法調劑，與夫輸運之困難，貿易之限制，實爲最大，其次則人每以盧布爲投機之品，且濫發無度，僞票充斥，又次則昔日華人嘗收買盧布，深藏待價，今以俄幣信用掃地，無人過問，此節於遠東市面，關係頗鉅，至俄屬黑龍江北岸，離愛琿不遠一帶，過激黨恣意滋擾，有該黨渠魁名穆興者，嘗爲該地勞兵會會長，於三月八日，在黑河附近，爲日軍所獲，立處死刑，本年鬻匪猖獗特甚，七月間，綏芬河有大幫鬻匪，圍困華界，劫掠市肆，焚去商場之一部，居民之被殺者約五十人，同月三姓亦被鬻匪約三百人圍攻，佔據電報局，割斷電線，焚燬縣署，擄去縣知事及殷商四人，勒贖鉅款，該地海關人員，亦被恐嚇，雖幸不加害，然已飽受虛驚，且搜去克公之烟土約二十斤，私人財物若干，迨俄兵乘鐵路公司輪船抵姓，匪始揚揚而去。

一 本關稅課，本年共徵關平銀約九十七萬兩，較之民國五七兩年，尙覺有盈無絀，惟按之近十年平均收數，則尙未及額也，滿綏二口與西伯利亞之交通，稍形進步，故各該分關之收入，亦稍有增加，滿洲里共收十一萬五千兩，綏芬河亦畧有起色，惟三姓則處境雖逆，而稅收反增，計共十萬八千兩，爲該關收入最旺之年，愛琿收入，幾十三萬兩，較之民國七年，雖稍覺減少，然往歲存貨甚多，本年下半年載，貿易又幾呈終止之態，則上列之數，尙不得不視爲滿意者也，進口稅，多收關平銀約六萬七千兩，較之去年，約增百分之三十，蓋滿洲里及濱江關，所增幾逾半數也，至於出口稅，三姓所增者約三分之一，實緣本年豆麥，經拉哈蘇蘇分卡而輸出於西伯利亞者，爲數不少也，滿洲里之出口稅，較之去年，竟增三倍，而濱江關則少收百分之八十，愛琿關則少收百分之七十焉，河捐一項，大爲減色，去年尙有一萬八千兩，今年僅得七千兩，雖於八月間，按照從前盧布捐率，由七倍加至十五倍，而於收入尙無起色也。

一 洋貨貿易，洋貨由外洋運進口及由通商口岸運來者，進口洋貨，上年估值關平銀九

百十五萬兩、本年則增至一千八百萬兩、兩相比較、幾多一倍、發達之速度、殊覺可驚、此項增加、綏芬河佔百分之六十四、愛琿則佔四分之一、有差、查綏芬河進口、較去歲增加三倍、惜其所進之貨、大都為中東鐵路用品、如煤炭鐵軌及車頭零件等、此項物品、向屬免稅、故於收入一途、無所裨益、外洋之於糧石、需用甚殷、故蔴袋之進口、增至二倍半、鹽茶魚三項、所增亦復不少、他如煤油及滑物油、去歲並無進口、而今年則為額頗鉅、愛琿最大貿易、則為各類棉布、由通商口岸運來者、除白色布外、餘皆大增、尤以日本布疋為最、呢絨因價格昂貴、進口銳減、美國煤油火酒及皮鞋之屬亦然、三姓進口、向本無多、本年亦見減少、尤以布疋為最甚、惟美國煤油、獨增四倍、濱江關亦毫無精彩、所堪注目者、惟皮貨大見增加、鹹魚進口、減少至一萬二千担、滿洲里景象、亦一如沿中東路線各埠、異常發展、避難而來者、源源不絕、故煤與柴之進口、因之大增、且屋宇之建築既多、木料之進口亦盛、復出口往外洋之貨、由關平銀三百六十萬兩、增至一千八十七萬兩、西伯利亞貨物缺少、故滿洲里復出口之貨、竟佔關平八百萬兩、觀於此、則知廢除北滿鐵路貨物過境之制、其關係於綏芬河之進口、與滿洲里之復出口、良非淺鮮也、

一土貨貿易、土貨出口運往外洋及通商口岸、連復出口在內土貨出口及復出口、共值關平銀一

千七百餘萬兩、所增約十之一、佔額最鉅者、首推綏芬河、約居全數三分之一、滿洲里亦有五百二十六萬兩、綏芬河之所以佔此鉅額者、則以出口之麥、計達六十七萬担、鮮蛋及大麥之出口、為數亦鉅、鐵路枕木、去年無有、而本年則多至三萬二千條、惟豆餅麩粉及豆類、均見減少、計豆類所減約四十萬担、滿洲里之大宗出口、幾於無一不增、尤以糧石鮮蛋麩粉及肉類為最、此項食品、輸至西伯利亞、以供俄軍及協約軍用者、為數亦屬不少、三姓出口、亦見加增、尤以豆麥鮮蛋為最、松花江下游、發展雖緩、然而有恒、故拉哈蘇蘇分卡之出口、漸見增加、而三姓分關、遂受其影響、愛琿出口、各貨均見減少、其大宗出品、祇有柴薪一項、大為增加、濱江關出口、亦屬失色、凡穀類麩粉鮮蛋輕木板及火酒

等、均見銳減、獨皮張從一萬零五百張、增至二萬五千張、土製粗皂、從二千四百担、增至七千七百担、豆之收穫、由去年年底算起、祇有七成五至八成、蓋因天氣過旱、難望豐收、又以鐵路輸運之困難、新豆之裝出、祇有小數而已、其上年所存之豆、堆積站上、候車裝運者、仍屬不少、本年從海參崴出口之豆、約三萬一千噸、就中有一萬九千噸、運至歐洲、餘均運至日本、豆價漲落靡定、惟其勢日趨於昂貴、在海參崴交貨至船上、最高之價、每噸約值日金二百元云、土貨進口、在江關統計上、其最觸人眼簾者、則為薪柴之增加、從八十八萬担、增至一百六十五萬担、迨歲暮之時、仍覺存貨無多、則以哈埠居民、較前大增故也、

一 出入內地之貨、入內地領有子口單之洋貨、無、

出內地領有三聯單、運往外洋之土貨、無、

特別論畧、無、

一 船隻、本年通航時期較遲、至四月二十二日、始有輪船出口、去年冬間、華人組織一輪船會社、規模頗大、政府又為之護持、名曰戊通公司、除固有華旗輪船外、更於過激黨活動時代、購買俄輪多艘、本年六月、該公司有輪船名池州者、開往伯力、華船而航於完全俄國領河者、此輪實開其紀元也、七月之間、天氣酷熱、亢旱非常、河水淺涸、故下半年之航務、大受打擊、加以黑龍江一帶、消貨不旺、盧布又落、鬻匪猖獗、航業益形不振、本年進出口輪船、共計八十九萬四千噸、較之上年、約少三萬三千噸、夫致減之原因、若是其多、則亦無怪其所減之數、若是其鉅也、至於輪船隻數、反從二千七百四十五艘、增至三千九百三十五艘、蓋以水淺之故、小船較為利便故也、蓬船噸數、比較去年、所減有限、本年八月初旬、河捐按諸往日盧布稅率、加徵十五倍、而理河經費、向藉此捐以資挹注者、今以航業不振、未嘗以加抽之故、而稍為充裕也、本年華俄船隻之被盜劇案、屢見不鮮、搭客之死傷者、則更實繁有徒焉、

一 旅客、松黑兩江、輪船所載旅客、共計二十萬八百九十一人、自民國二年後、以此數為最

少、比之上年、實少七萬二千人、其所以致此之故、詳見船隻章內、茲不贅叙、至中東鐵路、本年所載旅客、約計二百五十萬人云、

一金銀、無足論列、

一藥土、本年五月、此間設立禁烟分會、舉濱江道尹爲會長、而以華洋人士之有聲望者、爲副會長及董事、斯會之成、伍連德醫士之熱心毅力、有以成之也、松花江下游及綏芬河附近、種烟區域、逾推逾廣、故北滿烟害、非施以猛烈手段、難冀剷除、而此手段之實行、尤覺迫不容緩、且生活費之昂、與種烟業之盛、亦有關係、農人狃於種烟之大利、幾忘其藝穀之世傳、斯穀價所以日貴也、本年海關當衆焚燬之烟土與罌粟種子、重逾百担、

一雜論、本年之患傷寒流行病者、大地之上、無處不有、哈埠亦不能逃此範圍、所幸爲禍不烈、七月之時、天氣亢旱、炎熱非常、至八月三日、哈埠遂有霍亂症發現、死亡之數甚鉅、據東三省防疫局通告、本埠死於是症者、共四千五百零三人、內有華人三千七百三十八、防疫局與美國紅十字會之醫士及看護人等、均異常出力、以滅此厲疫、至用補血鹽水注射法、亦活人甚衆、入院病人、以上法療治而無效者、百人中僅十四人、又零一一耳、猩紅病與腸熱病、本年亦多、海關巡江工司賈登君、奉公大黑河、於染腸熱病後、復罹心臟病、於九月十六日卒於黑河、歲首之時、百業甚旺、俄人之避難而來者、滔滔不絕、屋宇甚缺、於是大興土木、俄人之僑居斯土者、據俄官估算、現約有十三萬人、歐戰之前、雖西伯利亞大城、亦未有居民若斯之衆者也、此間大局、較前安靜、罹法之人、自見減少、而此紛擾之場、遂稍形清靜也、花旗銀行、設分行於本埠、則在仲秋以後、而中交銀行之國幣券、流行市上、亦恰值歲暮時矣、

1919.....	1,572,836	125,671	5,255,244	4,500	6,958,251	7,976,483

第三節 進口各貨淨數
III.—IMPORTS (NET).

民國四年至八年海關由鐵路進口大宗各貨按年各數
Principal Articles imported by Railway through the Maritime Customs, 1915 to 1919.

貨物花色	DESCRIPTION OF GOODS.	貨數單位 Classifier of Quantity.	四年 1915.	五年 1916.	六年 1917.	七年 1918.	八年 1919.
外國棉貨類 FOREIGN COTTON GOODS.							
漂市布	Shirtings, White	疋 Pieces	2,696	6,166
印花布	Printed Cottons:—						
細洋紗, 軟洋紗, 稀	Cambries, Lawns, and Muslins.....	疋 Pieces	1,457	659	731	10	...
雙面印花布							
雙面印花布	Reversible Cretonnes.....	碼 Yards	42,416	97,045	625
羽緞, 諸法布等	Satteens, Repps, etc.....	疋 Pieces	697	3,621	649	152	...
染色布	Dyed Cottons:—						
素羽緞, 泰西緞, 羽綾	Italians, Venetians, and Lastings, Plain	疋 Pieces	142	1,735	74
粗斜紋布, 立巴次布	Satteens, Repps, and Ribs.....	碼 Yards	3,119	8,527	1,801
細洋紗, 軟洋紗, 稀	Drills.....	碼 Yards	...	278
市布, 粗布, 細布	Cambries, Lawns, and Muslins.....	碼 Yards	113	215
素, 染色, 印花, 絨布, 棉	Shirtings and Sheetings.....	碼 Yards	4,592	1,565	219
法絨, 尺九絨	Flannelettes, Plain, Dyed, or Printed..	碼 Yards	264
尺六絨, 尺九絨	Velvets and Velveteens.....	碼 Yards	211,181	195,060	40,953	1,374	...
染色華絲綿布	Moleskin Cloth, Dyed.....	碼 Yards	...	3,866	4,936
手帕	Cotton Blankets.....	條 Pieces	128	...
他類棉貨	Handkerchiefs.....	打 Dozens	16,304	30,435
捲線	Cotton Goods, Unenumerated.....	碼 Yards	260,465	147,824
	Thread, on Spools.....	碼 Gross	669	596
毛棉呢類 WOOL AND COTTON UNIONS.							
毛棉呢	Wool and Cotton Unions, Unenumerated	碼 Yards	9,767	544

海關由鐵路進口大宗各貨類

Principal Articles imported by Railway through the Maritime Customs—Continued.

貨物花色	DESCRIPTION OF GOODS.	貨數單位 Classifier of Quantity.	四年 1915.	五年 1916.	六年 1917.	七年 1918.	八年 1919.
呢絨類							
WOOLLEN GOODS.							
毯, 氈	Blankets and Rugs	磅 Pounds	38,636
哆囉呢, 冲衣著呢, 中 衣著呢, 哈喇呢	Cloth, Broad, Medium, Habit, and Russian	碼 Yards	...	1,400
他類呢絨	Woollen Goods, Unenumerated	" "	34,819	9,839

綏芬河關 SUIFENHO

第一節 進出呈報 I.—REPORTS TO THE CUSTOMS.

第一款 本年海關報單總數 1°. Number of Applications during 1919.

		第一季 MARCH QUARTER.	第二季 JUNE QUARTER.	第三季 SEPTEMBER QUARTER.	第四季 DECEMBER QUARTER.	共 TOTAL.
進口	Import	1,614	4,410	1,914	2,211	10,149
出口	Export	5,142	5,139	3,799	4,330	18,410
運入	Transit Inwards	2	3	5
過境(進)	In-Transit Goods (Entered) ..	1,698	4,166	3,091	1,612	10,567
共	TOTAL	8,456	13,715	8,804	8,156	39,131

第二款 近十年海關報單按年各數 2°. Number of Applications, 1910 to 1919.

年分 YEAR.	進口 IMPORT.	出口 EXPORT.	運入 TRANSIT INWARDS.	過境(進) IN-TRANSIT GOODS (ENTERED).	共 TOTAL.
1910	18,053	36,003	43	8,942	63,041
1911	15,832	43,400	42	9,760	69,034
1912	15,876	38,987	99	11,782	66,744
1913	19,078	37,564	181	14,387	71,210
1914	16,439	35,879	56	11,157	63,531
1915	14,445	40,886	21	27,285	91,637
1916	12,923	40,397	43	34,003	87,366
1917	8,975	28,350	66	10,781	48,172
1918	12,243	25,241	5	1,622	39,111
1919	10,149	18,410	5	10,567	39,131

第二節 貿易貨價

II.—VALUES.

第一款 民國六年至八年海關貿易貨價計值關平銀之總數及淨數

1°. Gross and Net Values of the Maritime Customs Trade, 1917 to 1919.

		六年 1917.		七年 1918.		八年 1919.	
		總數 GROSS.	淨數 NET.	總數 GROSS.	淨數 NET.	總數 GROSS.	淨數 NET.
		兩 Hk. \$s	兩 Hk. \$s	兩 Hk. \$s	兩 Hk. \$s	兩 Hk. \$s	兩 Hk. \$s
洋貨	FOREIGN GOODS.						
由外洋及香港進口	Imported from Foreign Countries and Hongkong	5,814,022		3,738,193		11,391,547	
由通商口岸進口	Imported from Chinese Ports	
共計洋貨進口	Total Foreign Imports	5,814,022		3,738,193		11,391,547	
復往外洋及香港	Re-exported to Foreign Countries and Hongkong	2,165,085		529,007		674,815	
復往通商口岸	Re-exported to Chinese Ports	
共計洋貨復出口	Total Foreign Re-exports	2,165,085		529,007		674,815	
洋貨進口淨數	Net Total Foreign Imports		3,648,937		3,209,186		10,716,732
土貨	CHINESE PRODUCE.						
進口總數	Imported	
復往外洋及香港	Re-exported to Foreign Countries and Hongkong	
復往通商口岸	Re-exported to Chinese Ports	
共計土貨復出口	Total Chinese Re-exports	
土貨進口淨數	Net Total Chinese Imports	
土貨運往外洋及香港	Chinese Produce of local origin exported to Foreign Countries and Hongkong	17,982,550		7,447,497		6,492,338	
土貨運往通商口岸	Chinese Produce of local origin exported to Chinese Ports	
本口土貨出口總數	Total Exports of local origin		17,982,550		7,447,497		6,492,338
本口貿易貨價總數	Gross Value of the Trade of the Port	23,796,572		11,185,690		17,883,885	
本口貿易貨價淨數 (即總數內除去復出口數)	Net Value of the Trade of the Port, i.e., Foreign and Chinese Imports less Re-exports, and Chinese Exports of local origin		21,631,487		10,656,683		17,209,070

第二款 近十年海關貿易貨價計值關平銀按年各數

2. Value of the Maritime Customs Trade, 1910 to 1919.

年分 YEAR.	進口 IMPORTS FROM		出口 EXPORTS TO		進出共 TOTAL IMPORTS AND EXPORTS.	復出口 RE- EXPORTS.	金銀 TREASURE.		出入內地之貨 TRANSIT TRADE.	
	由外洋 Foreign Countries.	由通商口岸 Chinese Ports.	往外洋 Foreign Countries.	往通商口岸 Chinese Ports.			進口 Imported.	出口 Exported.	入內地 Inwards.	出內地 Outwards.
	兩 Hk. Ts	兩 Hk. Ts	兩 Hk. Ts	兩 Hk. Ts			兩 Hk. Ts	兩 Hk. Ts	兩 Hk. Ts	兩 Hk. Ts

HUNCHUN TRADE REPORT.

1°. LOCAL.—If in these agricultural districts crops look promising and the harvests prove good, events abroad, and even in China, are likely to be of much less influence locally than could be expected. The Great War and its after-effects have—as well as the high wages paid to carters and others, as mentioned in the report for 1918—no doubt caused prices to increase generally here, as elsewhere, to a very considerable degree indeed. On the other hand, the strained relations in July between the Fengtien and Kirin Tsuchün hardly affected things here, directly or indirectly, thanks to the good sense of the local officials, who were determined to carry on in a way which maintained the situation undisturbed locally. The independence movement in Korea in March had some reflex action here in the form of demonstrations, which, however, were of a rather mild description, mainly consisting in a display of flags by the Koreans. The local Chinese officials showed both firmness and tact and thus kept things well within bounds. The boycott of Japanese goods in Vladivostock in June, following the Paris decision concerning the Shantung question, was not much felt here, though for a brief time it caused some depreciation to the yen currency and dullness of trade. The insurrection of General Gaida against the Omsk Government, which created excitement in Vladivostock from the 16th to 20th November, had no echoes in Novokievsk or here. The growing influence of the Bolsheviks has, however, caused a good deal of uneasiness, which, considering the nearness of the frontier, is reasonable enough. This and the activity of bands of *lung-hu-tzū* caused the strengthening of the local military force by an additional *ying* sent from Kirin. All previous reports have called attention to the necessity of improved roads and better means of communication as being the most crying needs of these districts. The Magistrate's suggestion of levying a tax of 3 *tiao* on each horse harnessed to a cart passing certain stations and using the funds thus obtained for improving the main trade roads towards the frontiers and Kirin resulted in the establishment of a Road Improvement Bureau. It is to be hoped the execution of the plan will be as good as the plan itself. The fate of Hunchun's future—at least, for many years to come—may be decided, and unfortunately to its disadvantage, now that the long-contemplated scheme for a railway from Hunchun to Possiet appears actually to have been seriously considered. A party of engineers is even reported to have made a preliminary survey in March of the road to be taken between these places. Lack of capital, particularly now on the Russian side, is against the carrying out of this scheme, and foreign capital can hardly be expected to be readily forthcoming for investment in such an out-of-the-way place and partly within Russian territory in its present disturbed state. The extension of railways now from Korea, pending and being made, will benefit these districts and is therefore to be welcomed, but it is a matter of much regret that the railway to Possiet, or Hanchi (罕歧)—the natural outlet of this district,—is not being constructed. This necessary work might have been carried out long ago but for Russian inertia. The fluctuations of exchange were perhaps even more bewildering than ever. *Kuan t'ieh* (官帖) fluctuated during the year between *Tiao* 16.38 in January and *Tiao* 34.68 in April = *Yen* 1, *Ta Yang Dollar Note* 1 = *Tiao* 22.20 in January to *Tiao* 40 in July. The various rouble notes—Romanoff, Kerensky, and Omsk—were all violently fluctuating, which must have caused great inconvenience to trade with Russian territory, though it did not do so to the Customs, which from the 1st September 1917 ceased accepting roubles in payment of duties. With such intolerable exchange conditions it is difficult to understand how traders can carry on business. The local retail trade suffered considerably through the scarcity of *tiao* notes of small denominations. To remedy this the local chamber of commerce, as was also done in the previous year, made an issue of such notes to the value of *Tiao* 200,000. These notes, like those issued in 1918, are still in circulation.

2°. REVENUE.—The collection amounted to *Hk.Ŧts.* 29,920, a decrease of *Hk.Ŧts.* 4,526 compared with that of 1918. Of this, *Hk.Ŧts.* 19,259 were collected on foreign imports, cotton piece goods, cigarettes, kerosene oil, alcohol, and fresh and salt fish being the principal items. Export duties amounted to *Hk.Ŧts.* 10,660, beans, beancake, grain, live stock, and timber being the chief sources of this item of revenue. From the 1st August 1919, it is to be noted, duties were collected here at one-third reduction instead of at the full rate. As, however, the import duties according to the new tariff (1919) were generally higher than formerly, the one-third reduction did not much affect the import collection. Exports were collected at the old low tariff (1858), which, furthermore, was subject to one-third reduction. This, as well as an actual decline of the export trade, is the cause of the decrease of collection.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The value of foreign imports amounted to *Hk.Ŧts.* 722,080, *i.e.*, an increase, when compared with the previous year's figures, of *Hk.Ŧts.* 136,159. *Hk.Ŧts.* 151,767 and *Hk.Ŧts.* 537,545 represent, respectively, the values of the imports *via* Vladivostock-Novokievsk and *via* Ungi (雄基) in Korea. The corresponding figures for 1918 were *Hk.Ŧts.* 77,275 and *Hk.Ŧts.* 493,920, and there are thus increases respectively of *Hk.Ŧts.* 74,492 and *Hk.Ŧts.* 63,625. The harvests during this and the previous two years having been good, farmers were able to buy more goods and of better quality. Foreign sundries imported *via* Kirin and other Chinese places were valued at *Hk.Ŧts.* 12,768. *Hk.Ŧts.* 337,440 represents the value of cotton piece goods, practically all Japanese, which, compared with that of the previous year, shows an increase of *Hk.Ŧts.* 76,430. The principal items are plain grey sheetings (26,601 pieces), white shirtings (3,900 pieces), plain cotton prints (8,480 pieces), and plain dyed cotton lastings (8,728 pieces). As regards kerosene oil, the figures are: American, 42,363 gallons; Japanese, 1,375 gallons; *i.e.*, an increase of 8,003 gallons. American oil increased considerably, while Japanese oil decreased. 1,151 mille of American cigarettes were imported, against 579 mille in 1918, showing an increase, while Japanese cigarettes—15,435 mille, as compared with 26,304 mille—show a decrease. Alcohol from Japan also shows an increase. The value of goods imported through the Japanese post office shows again, as in 1918, an increase of over 100 per cent., which, as explained in the report for 1918, is due to the convenience of forwarding small consignments by post, exemption being granted when the duty leviable does not reach half a tael. It must be noted that the figure *Hk.Ŧts.* 722,080, representing the total gross value of foreign imports for 1919 as mentioned above, does not include *Hk.Ŧts.* 114,771, the value of "through cargo," *i.e.*, goods declared, on importation from Korea, to be destined for Russia and passed by the Customs here on payment of deposit refundable on re-exportation.

(b.) *Re-exports.*—The value of foreign re-exports was *Hk.Ŧts.* 135,444, as compared with *Hk.Ŧts.* 150,151 in 1918, a decrease of *Hk.Ŧts.* 14,707. Foreign re-exports to native places declined *Hk.Ŧts.* 8,656, which, as explained in the report for 1918, is presumably due to the western part of this district being now more supplied from Lungchingtsun, which is near Huining, the terminus of the Korean railway. Foreign re-exports to foreign countries also show a decrease—*Hk.Ŧts.* 6,051,—due to less Japanese goods being sent to Russian territory, where things are in a disturbed and impoverished state.

4°. CHINESE GOODS.—(a.) *Exports Abroad.*—The total value of net exports abroad was *Hk.Ŧts.* 377,912, as against *Hk.Ŧts.* 508,959 in 1918. The decrease is due to the decline of the trade with Russia, impoverished by the war and internal strife. Besides, it was not advantageous to sell good grain for roubles which were of little and might become of no value. The increased cost of cartage was also an adverse factor. An early thaw made it difficult to bring timber from the hillsides to the rivers, and low water later prevented rafts from being floated down. Hence the great decrease—1,803,309 square feet in 1919, as compared with 4,365,907 square feet in 1918.

(b.) *Imports.*—In accordance with the Revised Customs Regulations, in force since the 1st January 1916, native imports from the interior do not come under the cognizance of this office.

5°. INLAND TRANSIT, 6°. SHIPPING, and 7°. PASSENGER TRAFFIC.—No remarks.

8°. TREASURE.—*Nil*, the reason being the embargo placed on the export of treasure from Korea, gold dust being formerly sent through the local Japanese post office by parcel post to Korea and thence again to Chinese places.

9°. OPIUM.—In spite of official endeavours to prevent it, opium would appear to be more extensively cultivated on the Russo-Chinese frontier, where, due to the disturbed state of affairs, the same control cannot be expected on the Russian side as in former years.

10°. MISCELLANEOUS.—On the 8th January the Magistrate received instructions concerning the control, policing, etc., of the newly established *shang-fou* (商埠), or section of the town more especially set aside for the residence of foreigners and foreign trade. The *shang-fou* extends from the west gate to the Ling Pao Temple (靈寶寺) and is bound on the north by the Kokona Creek (濶克訥河) and on the south by the Hungchi River (紅旗河). The new Japanese Consulate, which was inaugurated on the 21st September, is situated nearly at the western extremity of this *shang-fou*.—Cattle disease made its appearance, but fortunately not in a severe form. Cholera, which levied its toll in the neighbouring territories of Russia and Korea, appears to have caused but little havoc here.—The harvest, which proved about a seven-tenths one, would have been much better had it not been for a protracted spell of dry weather, followed, as is often the case, by the appearance of insects, which destroyed a good deal of the growing crops.—Game, which had become rather scarce, is now more abundant. This is probably due to the export *via* Vladivostock to Russia and Europe by the Siberian Railway having practically ceased. Hunters from Russian territory may also experience difficulty in obtaining cartridges.—The Afforestation Bureau, which was closed in March, was reopened in September. It is to be hoped that something will be done in connexion with afforestation, which, as mentioned in previous reports, is urgently needed here.—More emigrants, mostly Koreans, are coming here, and Hunchun is gradually developing, while more and more substantial houses are being built.

K. H. VON LINDHOLM,
Commissioner of Customs.

HUNCHUN, 19th February 1920.

中華民國八年琿春口華洋貿易情形論畧

竊查本口爲農產之區，祇期年景兆豐，收穫富饒，其國內外諸特別之變遷，能影響至本埠者，甚爲纖微，終無煩人之介意也。至各處物價飛騰，本埠亦然，揆厥原由，固爲大戰及戰後之反感，餘如上年論畧內所述本地車價增高，亦有以致之也。本年七月間，奉吉兩督之關係，驟成險象，本埠直接間接，均未蒙其影響，良以地方官措置有方，專以維持現狀爲急務，殊堪欽佩也。三月間，朝鮮發生獨立之舉，本埠韓民，亦隨聲附和，但不過揚旗遊行，舉動甚屬和平，亦因地方官善運其機智，表示其抑壓之態，故終未見越出常軌。巴黎和會，表決山東問題後，六月間，海參崴，曾提倡抵制日貨，本埠亦未受感染，惟一時日幣價格低落，貿易畧爲停滯而已。十一月十六日，至二十日間，海參崴，因蓋達將軍，反抗其沃木斯克政府，秩序譁然，幸源杵河，與本埠，未受若何之牽及，至過激派，勢力日見膨漲，本埠因與俄接壤，故頗有一種不安之狀況，亦理使然也。復加以鬻匪充斥，嗣乃由省垣，遣調軍隊一營來琿，以實軍力焉。治平道路，利便交通，歷年論畧內，迭經引爲當務之急矣。幸本年本縣知事，亦有鑒於斯，提議設立路工分處，徵收路捐，擬定每駕車之馬，經過分處時，須納捐官帖錢三吊，以爲修墊達俄國、通朝鮮、及往省垣、各通商要道之用。於是路工處亦設立矣，尙望實行與計畫兼顧並善，不相矛盾可也。敷設琿春毛口崴間之鐵路計畫，久已在討論之中，並確已爲人所注重，且風聞有某工程師一隊，於三月間，已將應取之路綫，約畧測量，如果此項計畫，因而實行，則本埠之前途，定可樂觀，然不幸事實正與懸望相反，蓋俄國方面缺乏資金，誠爲礙及進行之首因，其次則爲地處邊陲，且路綫半在紛亂無序之俄國境內，此時若望外國實行投資於該路，亦甚難集合，故本埠之前途，至近以此後數年間而論，只得仍抱悲觀也。至朝鮮方面，有關本埠諸鐵路計畫，或尙在討論，及已進行者，甚望其從速發展，蓋亦有裨益於本口一帶也。第往毛口崴，或達罕歧，爲本口天然之出路，所計畫之鐵路，本能早觀厥成，祇緣俄國方面，缺乏原動力，

迄未着手進行，殊堪引爲憾事也。錢法價格無定，較前尤難捉影，計本年一月間日幣每圓兌換官帖十六吊三百八十文，四月間漲至三十四吊六百八十文，大洋票在一月間，每圓僅換官帖二十二吊二百文，七月間竟漲至四十吊，各種新舊俄帖，尤各暴漲暴落無已，往來俄國之商賈，因而大受其累，而獨本關，毫未蒙其害，緣自民國六年，九月一日起，已拒絕以俄幣交納稅款矣，然金融紊亂若斯，而商人仍能支持營業，殊難索解，再小數官帖缺乏，零星交易，多感不便，本埠商會，爲救濟商艱起見，仍做上年成例，復發小數官帖二十萬吊，與上年所發者，現均流通於市焉。

一本關稅課，本年共徵關平銀，二萬九千九百二十兩，較上年計減四千五百二十六兩，其中洋貨進口稅，一萬九千二百五十九兩，大宗物品，爲布疋、紙烟、煤油、酒精、鮮魚、鹹魚等是也，出口稅，一萬六百六十兩，豆子、豆餅、食糧、猪、木植等稅，居其多數，自本年八月一日起，本關進出口稅，均按則減三分之一徵收，影響於進口稅數，尙不甚鉅，因按本年新頒進口稅則，所徵之稅，較前增高也，至出口貿易，本年原屬不旺，又加以猶按前清咸豐戊午年舊則例，減三分之一課稅，故收數之減，甚顯然也。

一洋貨貿易，本年洋貨由外洋運進口，及由通商口岸運來者，總共估值關平銀，七十二萬二千八十兩，較上年五十八萬五千九百二十一兩，計增十三萬六千一百五十九兩，內由原杵河及毛口歲運來之貨，估值十五萬一千七百六十七兩，由朝鮮雄基運來之貨，估值五十五萬七千五百四十五兩，查上年由該兩國運進之貨，一俄國估值爲七萬七千二百七十五兩，本年計增七萬四千四百九十二兩，一朝鮮估值爲四十九萬三千九百二十兩，本年計增六萬三千六百二十五兩，其銷路所以如此推廣者，因近三年來，連歲豐收，當地農民，資財既見充裕，故多肯購優美物品也，本年外洋雜貨，由省垣及其他各埠運來者，計估值一萬二千七百六十八兩，布疋一項，計估值三十三萬七千四百四十兩，較上年估值二十六萬一千十兩，增七萬六千四百三十兩，其大宗者，計原色粗

布、二萬六千六百一疋、白色布、三千九百疋、印花布、八千四百八十疋、素棉羽綾、八千七百二十八疋、煤油一項、美國煤油、四萬二千三百六十三加倫、日本煤油、一千三百七十五加倫、兩項合計、較上年增八千三加倫、分而計之、美國加增獨鉅、日本反形縮減焉、美國紙烟、計一千一百五十一千枝、較上年五百七十九千枝、亦見增加、日本紙烟、計一萬五千四百三十五千枝、較上年二萬六千三百四十四千枝、又形縮減、惟日本酒精、進口、本年仍見增加、日本郵局進口包件之估值、本年復增一倍有奇、其故、即如上年論畧內、所述小件貨物、交郵局投遞、甚為便捷、亦由應徵之稅、不及關平銀五錢者、概行豁免也、仍有應行聲敘者、上述本年進口洋貨總估值、七十二萬二千八十兩、外有過境貨物、估值十萬四千七百七十一兩、並未包括在內、所謂過境貨物者、即指由朝鮮入境、報係運銷俄國、繳納押款

此項押款一經出境即准發還者、而言、

一洋貨復出口、本年共估值關平銀、十三萬五千四百四十四兩、較上年十五萬一百五十一兩、計減一萬四千七百七兩、內中復出口往內地者、計減八千六百五十六兩、其故、如上年所述、因本口以西諸處、所需之洋貨、今多求給於龍井村、以其接近會甯鐵路之終點也、復出口往外洋者、計減六千五十一兩、緣俄境秩序紊亂、市面空虛、日本貨物運往者、不若昔之暢旺故也、

一土貨貿易、土貨出口運往外洋者、共估值關平銀、三十七萬七千九百十二兩、上年估值五十萬八千九百五十九兩、其驟減之故、半因俄國困憊於內爭外戰、出口往該國之貨、遂形減少、半因俄幣落價、且時有變為廢紙之虞、以若此之錢幣、易日用之食糧、故均不視為有利之懋遷矣、又如車價昂貴、亦一因也、今春解凍較早、木植在林場待運、河干者、均為阻止、嗣河水淤淺、尤不容木筏漂下、是以本年木植出口、僅一百八十萬三千三百九方尺、較上年之四百三十六萬五千九百七方尺、相減甚鉅、

土貨進口、自民國五年一月一日、本關改訂試辦章程、實行以來、由內地各處運來之土貨、已無須納稅、因不復記載、

一出入內地之貨、入內地領有子口單之洋貨、無、
出內地領有三聯單運往外洋之土貨、無、

一特別論畧、無、

一船隻、無可論列、

一旅客、無從調查、

一金銀、本年竟無金砂出口、在昔本埠所產之金砂、均由日本郵局、寄經朝鮮、轉運中國內地各處、現因朝鮮禁運金銀出口、故然也、

一藥土、播種鴉片、中國當道、雖厲行嚴禁、然在中俄接壤之區、種植仍廣、因俄國方面、值此紊亂之秋、不能如昔日查禁之嚴也、

一雜論、管理新開商埠、編練商埠警察等事、本縣知事、業於本年一月八日、奉令遵辦矣、商埠云者、即本埠之一部份、專為外國商民居住而設者、其界綫、東由西門起點、西至靈寶寺為界、南以紅旗河為界、北以闊克訥河為界、新建之日本領事署、即在埠內相近西界之處、已於本年九月二十一日、行落成禮矣、本年曾有牛疫發生、惟其性尚不劇烈也、接近本埠之俄疆及朝鮮地方、瘡亂症、流行甚廣、災氛所及、死亡甚眾、幸本埠未顯若何之危險、今歲秋收、約有七成、設無延長之亢旱、及相繼而起之蟲災、害及禾稼、則收成之佳、當遠勝於此矣、野禽一物、由海參崴、經西比利亞鐵道、運往俄國各埠、及西歐者、久已停滯、而來自俄國之獵夫、又苦無從購買槍彈、是以本地之野禽、前已有滅跡之虞、今復覺蕃殖矣、琿春森林局、先於三月間取消、後於九月間、復行設立矣、造林、為本邑應辦之要政、歷年迭經聲敘、所望對此有所設施焉、外國人民、多為韓人移居於此者、日見衆多、堅固之屋宇、亦逐漸增益、總之琿春各項事業、其進步雖紆緩、然正在循序發展之時也、

民國九年 二月 十九日

琿春關稅務司林德厚呈報

三等供事王雪堉譯漢

文 案楊俊興撰述

中華民國八年琿春關貿易冊
HUNCHUN TRADE STATISTICS.

第一節 進出呈報

I.—REPORTS TO THE CUSTOMS.

第一款 本年海關報單總數

1°. Number of Applications during 1919.

		第一季 MARCH QUARTER.	第二季 JUNE QUARTER.	第三季 SEPTEMBER QUARTER.	第四季 DECEMBER QUARTER.	共 TOTAL.
進口.....	Import.....	1,105	1,060	1,160	1,188	4,513
出口.....	Export.....	1,162	1,560	1,399	1,048	5,169
復出口.....	Re-export.....	906	550	458	665	2,579
共.....	TOTAL.....	3,173	3,170	3,017	2,901	12,261

第二款 本年海關裝貨車馱各數

2°. Number of Pack-animals and Carts with Loads during 1919.

		第一季 MARCH QUARTER.		第二季 JUNE QUARTER.		第三季 SEPTEMBER QUARTER.		第四季 DECEMBER QUARTER.		共 TOTAL.	
		馱 Pack- animals.	車 Carts.	馱 Pack- animals.	車 Carts.	馱 Pack- animals.	車 Carts.	馱 Pack- animals.	車 Carts.	馱 Pack- animals.	車 Carts.
進口.....	Import.....	89	1,299	142	1,136	148	980	142	1,142	521	4,557
出口.....	Export.....	784	1,826	544	3,170	275	2,420	420	1,759	2,023	9,175
共.....	TOTAL.....	873	3,125	686	4,306	423	3,400	562	2,901	2,544	13,732

第二節 貿易貨價

II.—VALUES.

第一款 民國六年至八年海關貿易貨價計值關平銀之總數及淨數

1°. Gross and Net Values of the Maritime Customs Trade, 1917 to 1919.

		六年 1917.		七年 1918.		八年 1919.	
		總數 GROSS.	淨數 NET.	總數 GROSS.	淨數 NET.	總數 GROSS.	淨數 NET.
		兩 Hk. \$s.	兩 Hk. \$s.	兩 Hk. \$s.	兩 Hk. \$s.	兩 Hk. \$s.	兩 Hk. \$s.
洋貨	FOREIGN GOODS.						
由外洋及香港進口	Imported from Foreign Countries and Hongkong	447,361		571,195		709,312	
由通商口岸進口	Imported from Chinese Ports	22,415		14,726		12,768	
共計洋貨進口	Total Foreign Imports	469,776		585,921		722,080	
復往外洋及香港	Re-exported to Foreign Countries and Hongkong	93,342		100,063		94,012	
復往通商口岸(大半往延吉)	Re-exported to Chinese Ports (chiefly to Yenki)	61,335		50,088		41,432	
共計洋貨復出口	Total Foreign Re-exports	54,677		150,151		135,444	
洋貨進口淨數	Net Total Foreign Imports		315,099		435,770		586,636
土貨	CHINESE PRODUCE.						
進口總數(大半由吉林)	Imported (chiefly from Kirin)	
復往外洋及香港	Re-exported to Foreign Countries and Hongkong	
復往通商口岸	Re-exported to Chinese Ports	
共計土貨復出口	Total Chinese Re-exports	
土貨進口淨數	Net Total Chinese Imports
土貨運往外洋及香港	Chinese Produce of local origin exported to Foreign Countries and Hongkong	421,237		508,959		377,912	
土貨運往通商口岸	Chinese Produce of local origin exported to Chinese Ports	
本口土貨出口總數	Total Exports of local origin		421,237		508,959		377,912
本口貿易貨價總數	Gross Value of the Trade of the Port	891,013		1,094,880		1,099,992	
本口貿易貨價淨數(即總數內除去復出口數)	Net Value of the Trade of the Port, i.e., Foreign and Chinese Imports less Re-exports, and Chinese Exports of local origin		736,336		944,729		964,548

第二款 近十年海關貿易貨價計值關平銀按年各數

LUNGCHINGTSUN TRADE REPORT

LOCAL.—The value of the trade of Lungchingsun for the year was *Hk.Ts.* 3,315,378, which represents an increase of nearly 20 per cent. as compared with the figures for the previous year. The following figures demonstrate the rapid growth of trade during the last quinquennial period:—

	1915.	1916.	1917.	1918.	1919.
Value of trade .	<i>Hk.Ts.</i> 443,065	642,881	1,281,113	2,770,115	3,315,378

All the annual reports on the trade of Lungchingsun have emphasised the need for better means of communication, therefore it must be stated that the expansion above depicted has been reached in spite of the poor communications and has not been aided by any improved facilities in this respect, with the one important exception that in 1917 a railway replaced the trolley line from Kainei to Seishin. On this side of the frontier there is neither melioration nor progress to record. The winter was severe, but spring came remarkably early. There was little snow, so the roads remained in good condition and thus facilitated the transportation of cargo. The previous year having been unusually prosperous from the traders' point of view, China New Year was celebrated more extensively than has been the practice of late years. As soon as business was reopened after the festivities, the Korean movement for independence produced much restlessness, and a section of the Korean community was inclined to pay more attention to politics than to trade. The spring rains were more abundant than usual, and until the hot season arrived the weather was very favourable to agriculture and the crops showed much promise. But after the middle of June there was a serious shortage of rain, and, as is customary when drought supervenes, insects appeared and caused considerable damage, especially to the millet. The wheat crop, however, was too far advanced to be seriously affected by the lack of rain, and the harvest was excellent. The rice crop, which depends largely upon artificial irrigation, was also very good, and in the autumn cheap rice proved a great boon to the populace. Japanese seed has been introduced with excellent results, and a first grade quality of rice can now be obtained locally. The pulse crops were poor, principally owing to the drought in the blossoming season, which withered the flowers and retarded the growth of the pods. The summer proved exceptionally hot and higher temperatures were experienced than any previously recorded. Early in October, as the result of a typhoon which created immense damage in North-east Korea, the Tumen River rose to an abnormal height, and it became extremely difficult to cross the turbulent stream. On the 12th October many passengers were drowned and mail bags and ponies were lost by the capsizing of the boat at the main ferry near Kainei. For a fortnight the water remained at a high level, during which period no cargo was ferried across the river. Shortage of transport in the autumn, when climatic conditions were especially favourable, was a drawback against which trade had to contend. The backwardness of the season retarded the harvest, which meant that carts were still being used for conveying grain from the fields to the threshing floors at a time when they have usually been employed in transporting export produce to the frontier. In conformity with the agitation for independence which broke out among the Korean people in March, a sympathetic movement manifested itself in this district, and on the 13th March a demonstration took place, the object of which was apparently to present a petition to the Consul General for Japan. In order to prevent any chance of a disturbance the Chinese authorities forbade the Koreans to hold their demonstration in the town and for the day refused them permission to enter its precincts. Soldiers were sent from Yenki to assist in carrying out these orders. Nevertheless, a crowd of some 6,000 Koreans, who had provided themselves with national flags and inscribed banners, assembled from the neighbourhood,

and, after listening to a few speeches, determined to enter the town to present their petition as originally intended. A duststorm was raging at the moment, and, owing to this circumstance and to the confusion reigning, the Chinese troops, who had been endeavouring to restrain the Koreans, misunderstanding the situation, fired upon the crowd and caused many casualties. The Koreans were bewildered by this action and rapidly dispersed. In consequence of this demonstration many Koreans were arrested by the local Japanese police and incarcerated in the prison attached to the Consulate General. This aroused much resentment among their compatriots, which culminated in an attempt to burn down the Consulate General that was all but successful. A public meeting was called to consider the situation, when it was decided to send telegrams to influential persons in Japan requesting the despatch of troops for their protection, and, in the meantime, to form a band of volunteers to guard Japanese residences at night. The detachment of police attached to the Japanese Consulate General was strongly reinforced and in the course of the summer Koreans were being arrested. During the latter part of the year the arrests declined and thereafter there was no further outward evidence of the Korean agitation. The foreign trade, notwithstanding that it is practically a Japanese monopoly, was not affected by the boycott. Year after year attention has been drawn in these reports to the currency problem in this district. At the present time the province is flooded with a variety of depreciated notes, and it is very doubtful whether the banks have sufficient silver reserves to meet them. Silver dollars and subsidiary coins may almost be said to have completely disappeared. During the year a movement was started in the province to introduce currency reforms and to improve the general economic condition. With a view to securing greater stability in the money market it was proposed to redeem the *tiao* notes issued by the Kirin Kuan Yin Hao (吉林官銀號) and to replace them by big dollar notes. In addition, there is on the *tapis* the more comprehensive scheme to reform the entire financial system of Manchuria by establishing a Provincial Bank of Manchuria, which is to float a note issue for the purpose of taking up the varied and depreciated issues of the many small banks in the Three Eastern Provinces. This plan, if carried out, would create a standard currency for Manchuria.

2°. REVENUE.—The total collection amounted to *Hk.Ŧs.* 72,175 and shows a decrease of *Hk.Ŧs.* 8,160 as compared with the collection for 1918. This decrease is accounted for by the deduction of one-third on export as well as on import duty from the 1st August, when the Revised Import Tariff of 1919 was enforced.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The value of the foreign goods imported amounted to *Hk.Ŧs.* 2,234,406, which, compared with the value for the previous year, represents an increase of 40 per cent. In considering this increase an important factor must be taken into account, and that is higher prices and consequently enhanced Customs valuations. The Koreans, who comprise the majority of the population here, have as a race been noted for the simplicity of their daily requirements, a characteristic which has been an important factor in limiting the demand for foreign commodities, with the result that the import trade in this district has shown little variation. However, largely owing to the excellent prices obtained for their agricultural products during recent years, a demand is being manifested on their part for articles hitherto considered more in the nature of luxuries than necessities, and a higher standard of living is gradually becoming perceptible among them: This tendency may be observed in the appearance in this mart of cotton piece goods of a higher grade, such as drills, lawns, prints, and lastings, in place of the ordinary grey sheetings, which formerly mainly satisfied their needs. It is also shown in the demand for foreign clothing, silk, and hosiery, the importations of which have advanced 33, 77, and 116 per cent. respectively. Once again it may be noted in the demand for certain foodstuffs, which show appreciable increment as regards the quantities imported, such as condensed milk (27 per cent.), fish (28 per cent.), soy (34 per cent.), seaweed and agar-agar (70 per cent.), fresh fruit (87 per cent.), and saké (117 per cent.). The value of metals imported has risen from *Hk.Ŧs.* 40,442

to *Hk.Tts.* 157,735. The principal reasons for this expansion are the arrival of iron rails ordered by the Tienpaoshan Mining Company for a trolley line from the copper mine to the Laotowkow (老頭溝) coal-field and to a demand on the part of Korean carters for iron axles and iron tires for their carts to replace those made of wood previously in general use. A popular demand is still evinced for sewing machines, which are sold on the instalment system, the payments amounting to *Yen* 3 per mensem and extending over a period of three years. It is probable that modern agricultural implements, flour-milling, bean-crushing, and rice-cleaning machinery could now be introduced with satisfactory results. No coastwise imports come under the cognizance of this office.

(b.) *Re-exports*.—There were no re-exports abroad.

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports)*.—The value of the export trade was *Hk.Tts.* 1,080,972 and represents a decrease of *Hk.Tts.* 106,718 as compared with the trade of the previous year. This reduction is chiefly due to the fact that there was no market in the autumn for white beans, for which in 1918 there was so keen a demand. It was foreseen that this trade might not survive the restoration of normal conditions in the world after the war, and, in consequence, the cultivation was materially restricted and therefore little loss has been suffered by the farmers. Partly owing to poor harvests in other parts of Manchuria there was a fair demand for yellow beans. The export of timber from this district is considerable, but as the trees are felled in the forests at some distance from Lungchingtsun, this trade is beyond the sphere of control of this office.

(b.) *Imports*.—Native goods from Kirin and the interior do not come under the cognizance of this Custom House.

5°. INLAND TRANSIT.—During the year 188 inward transit passes were issued to convey cargo to the value of *Hk.Tts.* 12,663 to places within the province. Outward transit certificates have not yet been issued here.

6°. TRANSPORT.—The total number of carts that reported to the Custom House was 45,095, and the number of pack-animals was 3,785.

7°. PASSENGER TRAFFIC.—No statistics are available.

8°. TREASURE.—Gold dust to the value of *Hk.Tts.* 1,263 was exported to Korea.

9°. OPIUM.—No remarks.

10°. MISCELLANEOUS.—Towards the end of the year the Korean section of the light railway from Kainei to the Tienpaoshan mine was completed, but, beyond the survey, work has not been begun on the Chinese section. It is stated that the line *via* Hwaikingkai (懷慶街) adopted by the company was not the route sanctioned by the Government, and therefore permission to continue the construction has been withdrawn temporarily.—The epidemic of cholera, which caused so many deaths in other parts of this province during the summer, did not invade this district, but in November influenza reappeared in a more malignant form than in 1918 and the victims were more numerous.—Among the many new buildings constructed during the year may be mentioned the Custom House, which was opened to business on the 29th September.

A. H. FORBES,

1st Assistant, B, in Charge

LUNGCHINGTSUN, 10th February 1920.

中華民國八年龍井村口華洋貿易情形論畧

竊查本口本年貿易情形，進出口貨總估值，達關平銀三百三十一萬五千三百七十八兩，較之上年，增加百分之二十，觀下列之表，足徵近五年內本埠商業發達之速。

年分	值關平
民國四年	四十四萬三千六十五兩
五年	六十四萬二千八百八十一兩
六年	一百二十八萬一千一百十三兩
七年	二百七十七萬一百十五兩
八年	三百三十一萬五千三百七十八兩

歷年報告本口貿易中最要之點，即希冀得一良好道路，俾可發達商業，然此間最堪慰之事，係交通部分，雖全處於困難之境，而考其上列之價表，則有增無已，無他，僅以民國六年清會鐵路告成，以代輕便路之輔助也，惟本埠之道路仍故，論氣候，冬季異常寒冷，但春間之氣候轉來甚早，雨雪亦少，道路頗佳，運輸因此便利，以商界之形勢觀，去年貿易為最興旺，及值年節，歡欣忭舞，鋪張揚厲，較之往年有過無不及，詎意年後商務交易，將行開始，遽遭朝鮮人運動獨立，人心惶惶，朝鮮商人素有勢力者，均將全副精神注重在政治之上，是以商界貿易停頓之影響，亦隨之普及矣，入春以來，雨澤頗多，夏季氣候亦和暖適宜，播種收穫，預兆豐登之象，但自六月中旬以後，異常缺雨，早象畢露，稼禾蟲生，為患甚大，穀類中被災，以小米為最，小麥收成較早，因未缺雨，以故豐收，至稻米豐收，端賴人力灌溉，是以甚佳，觀於秋季米價之低廉，則人民受益甚大也，兼有用日本米作種子者，收穫亦頗不惡，頭等米，本埠亦能得之，無須外求，豆類收穫稍次，在含苞結蕊之時，遽遭旱災，以致花朵凋萎，成莢稍遲，而質亦劣下，夏季之熱，溫度之高，為往年所未有，十月初旬，大風肆虐，朝鮮東北部受創甚巨，即圖們江水陡漲，往來頗為困難，甚至十月

十二日、臨近會甯之渡口、以渡船沉沒、不惟許多客商與波臣爲伍、而郵便信袋、及駝袋之馬、亦均隨波逐流、頓失蹤跡、彼時兩星期之久、江水毫不見減、因之客貨此時內皆不能渡江、秋季天氣雖異常清朗、而運輸車輛又形缺乏、貿易因之停頓、氣候既晚、收穫亦遲、本年禾稼登場之時較諸往年、即轉輸出口糧石之日、再三月中各處鮮人運動獨立、本埠之鮮人亦咸表同情、於三月十三日、此種動作、遂一發而不可遏、睽其目的、擬請願於本埠之日本總領事館要求一切、在中國長官因係華境、爲維持秩序、杜絕亂萌起見、不准商民在境內有是項舉動、是以臨時由延吉調來軍隊藉資維持、是日鮮人由四鄉聚集者、約六千餘人、咸手執國旗、及他種旗幟、聚集埠外地方、均聽爲首領之人依次演說、嗣遂決定羣趨埠內、上呈呼籲、以行其預定計畫、是日也、風塵蔽天、喧嘩滿地、中國兵士意度將行暴動、無可遏止、誤會伊等行爲、加以正當防範、隨發槍擊射死傷頗多、於是鮮民手足無措、刻即四散、許多表示運動之鮮人、被日本警察逮捕、羈押館內附設囹圄之中、不免受諸苦况、是以外同人之惡感、亦愈激愈烈、並乘間焚燒日領事署、幸未燃及、日本商民、公同議決相當辦法、決定拍電本國各重要人物、要求派兵保護、先行組織義勇隊、夜間來往梭巡於日僑臨近地方、日領署遂增加警察若干、本年夏間、鮮人時常被捕、及下半年逮捕之事、逐漸消滅、嗣後並無實現暴動、本埠洋貨貿易、純係日貨充斥市面、並未因停銷日貨致受損失、年來報告中、關於幣制問題、實爲人所注目、近來本省各種價值低廉紙幣、妨害商業、而準備金多寡、尙屬疑問、現銀幣及輔幣、幾絕跡於市、本年本省改良紙幣、整頓財政、此項計畫、業已發端、有人爲求錢市平穩、故建議將永衡官帖收回、而以大洋紙幣頂替、此外又擬改良東省錢法、籌備即設立東三省銀行、發行紙幣、俾將三省內官立地方較小之錢號、所發行之紙幣、形形色色、盡皆收回、如果屬實、則東省錢法之統一、庶可翹望焉、

一 稅課、本關共徵關平銀七萬二千一百七十五兩，較之上年，減少八千一百六十兩，此項減少之原因，則以八月一日起實行新稅則，凡進出口稅項，各減三分之一所致。

一 洋貨貿易、洋貨由外洋運進口，及由通商口岸運來者，本年共估值關平銀二百二十三萬四千四百六兩，較之上年增加百分之四十，其增加原因，係貨價高，而海關估價亦隨之提起，本處人民朝鮮佔居多數，共知其生活簡單，從其習慣，每用各種洋貨無所變更，職是之故，本口所進之洋貨差別無幾，究之近數年因農業出產頗豐，售價亦厚，故亦多用其奢華物品，似普通物矣，而生活程度逐漸變遷，茲特證明以資考鑑，查進口增加上等布疋貨物，類如打連、洋紗、印花布、羽絨等類，以代作曩時粗布之用，即此則可鑒其美滿之慾，如外國衣服、綉貨、洋襪等，亦各增加百分之三十三、七十七、百分之百十六、不等，尤堪令人注意者，即食料品、牛奶、增百分之二十七、魚、百分之二十八、醬油、百分之三十四、海帶、百分之七十、鮮菓、百分之八十七、日本酒、百分之百十七、五金類、由關平銀四萬四百四十二兩，亦增至十五萬七千七百三十五兩，此項增加原因，大半不外多數鐵軌運進，專為天寶山鑛務所修輕便鐵路，至老頭溝以作運煤之用，兼之近來朝鮮車之軸、及輪、向用木製者，均改用鐵製，裁縫機器、為公共用品，賣出仍分期交價，每月收回日金三元，限三年交完，如現有新式農業器具、面粉機、壓豆機、洗米機，輸入必可適宜，由內地轉運之洋貨，並無運入本口者。

洋貨復出口、本年並無復出口前往外洋之洋貨、

一 土貨貿易、土貨出口運往外洋及通商口岸者，連復出口在內本年共估值關平銀一百八萬九

百七十二兩，較之上年，減少十萬六千七百十八兩，此項減少強半，以秋間市中，無小白豆之交易，如上年買主之多，歐戰終止，此項貿易可預觀不能恢復原狀，前之種此者，今則寥寥無幾，故此農間所受損失甚微，東省有收穫不佳之處，是以多向本地爭購黃豆，

木料一項、由本處出口者甚夥、其中砍伐森林木場、距龍井村較遠、實非本關權力所及、由吉林之內地運進土貨、不歸本關管轄、

一出入內地之貨、入內地領有子口單之洋貨、本年所發出內地子口單數目、一百八十八張、貨物價值關平銀一萬二千六百六十三兩、指售地點則不外本省、

出內地領有三聯單、運往外洋之土貨、無、

特別論畧、無、

一載運、車、四萬五千九十五輛、馱、三千七百八十五頭、

一旅客、無從調查、

一金銀、往朝鮮出口之砂金、值關平銀一千二百六十三兩、

一藥土、姑不具論、

一雜論、本年終、由會甯至天寶山輕便路、在朝鮮之部分、完全告成、而在中國方面者、除測量外、工程尙未起首、此道由該公司自定經過懷慶街、未得政府同意、致工程暫行中止、在夏季中本省以及他處、均有霍亂症流行、致死者狼籍、本處幸無此症、至十一月間、感冒症復見、較去年尤烈、人民罹者甚衆、本年間建築房屋甚多、而本關在九月二十九日、亦遷入新署辦公矣、

No record available.

MOUKDEN TRADE REPORT.

1°. LOCAL.—In spite of inclement weather conditions, which adversely affected agricultural prospects, the year 1919 has been the most prosperous recorded in Moukden. The more than usually plentiful spring rains augured well for the harvest, but the summer rains failed and drought did much harm to the beans and kaoliang, and the average harvest did not exceed 50 per cent. or in parts 60 per cent. The indigo, hemp, and tobacco crops were good. For various reasons, of which the partial paralysis of the Harbin trade was perhaps the principal, Moukden became the centre of the skin business of North China and attracted a number of American buyers, whose competition has driven up prices to unheard-of heights. Exact figures are unobtainable, but it is known that several million yen worth of skins were sent through the Japanese post office, and the following list, kindly supplied by the Moukden Chamber of Commerce, represents "shop" sales and, while not complete, gives some indication of the importance of the trade:—

	<i>Pieces.</i>
Ass skins	50,000
Sheep and goat skins	100,000
Raccoon skins	30,000
Cow hides	60,000
Rabbit skins	50,000
Badger skins	20,000
Sable skins	2,000
Dog skins	100,000
Fox skins	30,000
Weasel skins	100,000
Squirrel skins	200,000
Cat skins	80,000
Wolf skins	5,000
Sea-otter skins	5,000

The keen competition among buyers and the constantly increasing prices paid, exceeding all records, must bring about a climax, and it is probable that with the disappearance of the abnormal conditions following the war the parcel post trade will decrease greatly if not disappear. Whatever fluctuations branches of trade may experience, the position of Moukden as the capital of a country growing in agricultural, mineral, and industrial wealth and the heart of the arteries of communication cannot but justify the confidence in its future prosperity evinced by the growing Japanese community; new firms are being established, actually miles of new houses—good-looking red brick structures—are going up, and the Railway Settlement is being fast linked up with the Chinese business quarter. The only considerable Chinese mercantile development, with the exception of increased cultivation of beans, said to amount in South Manchuria to 10 per cent., was the establishment of the Ch'un I Silk Filature (純益絲廠) at Moukden with a capital of \$400,000. The story of Japanese enterprise is very different; according to the Osaka "Mainichi" during the past year there were upwards of 250 new companies established in South Manchuria with capital aggregating Yen 150,000,000. Among these companies are merchandise exchanges, trust business, banks, garages, warehouses, paper mills, cement, paint, and glass factories, etc. In this connexion an interesting experiment will be made by local Chinese to connect Chênkiatun with Sinminfu (新民府).

on the Peking-Moukden line, by a motor-lorry service. Other motor services are also contemplated, and the machines are being ordered from America. While many of the large Japanese banks and firms are represented, it is somewhat surprising to note the absence of representatives of any foreign firms, with the exception of the British-American Tobacco Company and its offshoot the British Alliance Tobacco Company, in charge of the important cigarette factory, the Standard Oil Company, which is centralised here for the control of its Manchurian business, and Messrs. Andersen, Meyer & Co., which has recently sent an agent. The enterprise of the last-named company has been well repaid by the contract for the sale of more than one telephone system for Moukden and other cities and of motor-lorries, and their example might well be followed by other firms interested in machinery. Merchants have held back because there was no foreign bank, and, moreover, banks have hesitated to open branches owing to the absence of merchants, and one can but admire the admirable cohesion of the Japanese banks, shipping companies, and merchant firms. The Hongkong and Shanghai Bank sent a representative during the year to report on the advisability of opening a branch, and though his report was not favourable, yet the Banque Industrielle de Chine has made arrangements to establish itself during March 1920, and there is every probability of its venture meeting with success. Not only will exchange transactions be assisted, but its issue of notes, though probably only cashable in Tientsin, will afford a more stable currency for foreign trade. The depreciation and fluctuations of the local notes have been one of the great obstacles to trade, and the efforts of the Governor to remedy this state of affairs is but one sign of his desire to improve commercial conditions in the Three Provinces, of which he has control. Although installed as Inspector General of the Three Provinces in 1918, he was not able to establish full control until he could effect the retirement of Military Commander Mêng Ên-yüan (孟恩遠), Tuchün of Kirin (吉林督軍). At one time it seemed that there must be a serious clash between the opposing forces, but through the mediation of the President Tuchün Mêng retired in August and was followed by his generals Kao Shih-pin (高士儼) and Kao Ch'un-feng (高春逢). Military Commander Pao Kuei-ch'ing (鮑貴卿), Tuchün of Heilungkiang (黑龍江督軍), was appointed to Kirin province and his place was taken at Heilungkiang by Lieutenant-General Sun Lih-ch'ên (孫烈臣), late Commander of the Moukden Garrison and of the 27th Division. Before Tuchün Mêng's retirement there occurred a clash between some of his men and the Japanese soldiers near Changchun, in which lives were lost on both sides, but fortunately no serious consequences followed and an amicable settlement was effected. In August it was arranged to withdraw the Japanese guard that had been stationed in the city since 1912. While the improvement and unification of the monetary system of the Three Provinces is yet in its infancy, yet a beginning has been made and some improvement effected. To detail all the actions taken would be unnecessary; it will be sufficient to note the policy being adopted to prevent the presentation of blocks of notes for redemption and to confine the issue of notes to certain substantial official banks. To meet the first contingency two steps were taken, firstly, by issuing notes in bond form, bearing interest at 4 per cent. per annum and redeemable after five years; secondly, by recalling the "dollar" notes and issuing in their place redeemable copper cent notes up to 100 coppers in value. The interest on the "bond" notes for the first period has been paid. As a temporary measure during 1918 the Bank of China and the Bank of Communications adopted the practice of stamping their notes with the characters 吉黑 (Chi Hei) and 長春 (Changchun) respectively, to prevent their being presented for redemption. These notes have been recalled, but a certain proportion with the characters erased are yet on the market, though at a discount with the copper cent notes. A large number of copper cents have been minted and are on the market and held as reserve against note issues. What the actual value of these coins is against silver, and what the effect of fluctuations in silver exchange will have on the notes, is difficult to estimate. With the news of the issue of the copper money the value of the notes rose to 140, but has now receded to 160 as compared with the Mexican dollar. Steps are being taken to close the provincial banks of Heilungkiang and Kirin and to replace them by the Bank of the Three Eastern Provinces and their notes by those issued at Moukden. It is to be hoped that

the Governor will see his way to publish statements showing the actual note issue of the various banks and to limit issues in proportion to reserves, as such a step would do more than anything to maintain the value of credit. The following is a list of the native banks operating in Fengtien province and some remarks on their note issues, for the major part of which I am indebted to Mr. Chen Ti Tsen, 3rd Clerk, C:—

BANKS NOW DOING BUSINESS AND BANK NOTES CIRCULATED IN MOUKDEN.

NAME OF BANK.		NATURE OF BANK.	KIND OF NOTES NOW ISSUED.	REMARKS.
English.	Chinese.			
Provincial Bank of Manchuria.	東三省官銀號	Official	Small-coin \$1.20 notes of \$1, \$5, \$10, \$20, \$50, and \$100 denominations. Small-coin notes of 5, 10, and 20 cents each.	These notes are to be accepted at Tientsin or Peking in payment for remittances for the equivalent of Shanghai taels; whether such remittances can be made is doubtful. Only a very small portion of the small-coin notes are in use.
Kung Tsi Bank of Fengtien.	奉天 公濟平市錢號	"	Copper coin notes of 5, 10, 20, 50, and 100 copper coins.	This is simply a branch of the Provincial Bank of Manchuria, but in a different name. The notes are convertible into copper coins.
Moukden Bank of Industrial Development.	奉天興業銀行	"	Small-coin \$1.20 bonds of \$1, \$5, \$10, \$20, \$50, and \$100 denominations.	These bonds are not convertible into cash and carry interest at 4 per cent. per annum, to be paid half-yearly—on 1st of 4th moon and 1st of 10th moon. The bonds are good for five years, during which time they can be presented at the bank for interest. After the term expires, they will be redeemed by new bonds and cancelled.
Bank of China	中國銀行	Semi-official	Small-coin \$1.20 notes of \$1, \$5, and \$10. Small-coin notes of 10, 20, and 50 cents, and of \$1, \$5, and \$10 denominations.	Dollar notes are used for remittance to Shanghai at the local current rate at Moukden. There are very few notes in circulation of small-coin \$1, \$5, and \$10. Some may be the old Chi Hei notes.
Bank of Communications.	交通銀行	Official	Small-coin \$1.20 notes of \$1, \$5, and \$10. Small-coin notes of \$10, \$5, \$1, and 50 cents denominations.	Dollar notes are used for remittance to Shanghai at the local current rate at Moukden.
San Yu Ho	三 畚 合	Owned by the Governor.	Issuing notes (small-coin \$1.20 notes) of \$1, \$5, and \$10 and small-coin notes of 20 and 50 cents and of \$1 denominations.	Only the small-coin \$1 notes are occasionally seen on the market now, and small-coin notes of 20 and 50 cents can also be sometimes met with. Notes of other denominations seem to have entirely disappeared.

NOTE.—It is stated that in future only four banks, viz., the Tung San Sheng Kuan Yin Hao (東三省官銀號), the Hsing Yeh Ying Hang (興業銀行), the Bank of China (中國銀行), and the Bank of Communications (交通銀行), will be allowed to issue notes and all other banks will have to recall their notes in circulation.

The small-coin \$1.20 notes bear denominations in dollars, but 1 dollar changes for \$1.20 in small-coin dollar notes. They are called 1-2 or "big dollar" notes.

2°. REVENUE, 3°. FOREIGN GOODS, 4°. CHINESE GOODS, 5°. INLAND TRANSIT, 6°. SHIPPING; 7°. PASSENGER TRAFFIC, 8°. TREASURE, and 9°. OPIUM.—No remarks.

10°. MISCELLANEOUS.—The following notes on industries and agriculture have been gleaned from the defunct "South Manchuria Daily News." It was perhaps only after this paper ceased publication that it was realised how valuable it had been, and it is to be hoped that the energetic editor will see his

way to reviving the only newspaper printed in English in Manchuria. It may be noted how full of useful information the Japanese papers in China generally are and how well they compare in this respect with English and Chinese papers, the Chinese papers being particularly devoid of interest.—A zinc refinery has been established at Fushun with a capital of Yen 5,000,000, one quarter paid up; the ores to be bought in Australia; Fushun has been chosen as the seat of the plant because of the proximity of an abundant coal supply and of ammonium sulphate, a by-product of the coal mines.—The Manchuria-Mongolia Development Company, established for the development of Mongolian products with woollen yarn and wool-weaving factories at Moukden and wool cleaning and combing factories at Tientsin, is to be opened during the current year. The capital is Yen 10,000,000, with a subsidy from the Kwantung government of Yen 150,000 for four years. The extension of the Szepingkai-Chenkiatun Railway to Taonanfu is to be commenced this spring, and when this is completed the development of the Mongolian trade will commence in earnest.—The South Manchuria Railway Sugar Refining Company has increased the price paid for beets and extended the area of cultivation, which hitherto was limited to 5 miles on either side of the railway, and the distance has been increased to 13 miles, cartage being paid and advances of money made to farmers.—The South Manchuria Railway agricultural experimental stations at Fenghwangcheng (鳳凰城) and Telissu (得列寺) made trial cultivation of American and Japanese tobacco seeds with success, proving that the cultivation of tobacco in these parts is not only possible but promising. The experiments will be extended. The Toā Tobacco Company made arrangements to plant about 250 acres of land situated between Fenghwangcheng and Antung with tobacco seeds to be obtained from America; as it was too late for sowing, young plants were distributed, and, in spite of the drought, the crops were successful beyond expectation.—Difficulties have been experienced in all parts of Manchuria in filling the increased demand for labour, and wages have risen by at least 50 per cent. The Fushun Collieries were at one time short of 5,000 workmen, and means are being sought to make life more attractive, *e.g.*, by the devising of amusements and the provision of houses and by inducing men to bring their families, for whom suitable work will be found.—The cholera epidemic was felt severely in Moukden and the neighbourhood and over 100 deaths occurred daily for a fortnight or more.

C. E. S. WAKEFIELD,

Commissioner of Customs, Officiating

MOUKDEN, 6th April 1920.

中華民國八年奉天口華洋貿易情形論略

竊查本口貿易情形、本年氣候不甚融和、農產似無豐收之望、但商務以本年為最發達、春季雨水充足、秋收不至缺望、乃入夏後、天時亢旱、荳子、高粱、受害不尠、平均計算、不過五成、間亦有達到六成者、靛青、苧蔴、菸葉、收穫豐登、奉天為中國北部皮貨業之中心點、固由於種種原因、而哈爾濱商務之停滯、或為其主因也、美人來奉購皮張者頗眾、互相羅致、遂至皮價飛漲、甚有出諸意料之外者、其真確數目、不易獲得、但由日本郵便局、運出口之皮貨、估值約計日金數百萬元、則可斷言者也、下列一單、係承奉天商會錄送、不過代表本年皮肆批發之數、雖不能窺其全豹、然該業之重要、於此可見一斑矣、

驢皮	五萬張	狗皮	十萬張
羊皮山羊皮	十萬張	狐皮	三萬張
貉獾皮	三萬張	鼬鼠皮	十萬張
生牛皮	六萬張	灰鼠皮銀鼠皮	二十萬張
兔皮	五萬張	貓皮	八萬張
獾皮	二萬張	狼皮	五千張
貂皮	二千張	海龍皮	五千張

皮價之日形昂貴、端由於購者競爭之劇烈、其價之高、實為曩昔所未聞、將來必有終止之一日也、且歐戰波及影響、既已消滅、嗣後包裹營業、雖不至完全停止、勢必大形減色、各種商業無論如何消長、異日奉天商務之發達、則可操左券、誠以奉天為一省之都市、其農礦工三業、均有蒸蒸日上之勢、又為交通之中樞、即觀於日本居民之眾多、亦可證明此言之不謬也、茲復設立新商號、建築新舍、幅員之廣、不可以道里計、且新舍俱係紅磚砌成、極形壯觀、鐵路租界、不久可與華人商市毗連、日本銀行商號、俱有經理、惟外國

商號絕焉無之、有則僅英美烟公司及其分枝、即管理烟廠之駐華聯合菸草公司及美孚油行數家而已、美孚油行、滿洲營業、係集中於奉天、概由該處分行管理、此外慎昌洋行、近亦派經理人來奉、以便著手進行、行中事業、甚爲得利、奉天與各城鎮所用電話機、及運貨汽車、由其承辦、已定有合同、其他經營機器之商號、或當起而效之、意中事也、原商人之所以裹足不前者、實由於外國銀行缺乏之故、而外國銀行之對於開設分行、迄今猶豫不決者、彼此亦復相同、彼日本銀行、輪船公司以及各商號之深相聯絡團結不解者、實不得不爲吾人所嘉許也、滙豐銀行、本年曾派人來奉、關於開設分行、有所觀察、以定行止、惟其報告、對於此舉、不以爲然、中法實業銀行、已佈置就緒、擬於明年三月、設立分行、此舉雖近危險、容能奏效、正未可知、蓋該分行、不但於滙兌有所便利、而其發行之鈔票、雖或僅在天津兌現、然外國商務、亦可獲一穩固之錢幣、本埠紙幣價格跌落、且升縮不定、實爲商務大障礙之一、省長不但對於此端、思所以設法而補救之、凡關於東三省商務之情形、無不欲竭力改良、以資進步、彼雖於民國七年奉命任爲東三省巡閱使之職、惟迄今未能執行實權、迨吉林督軍孟恩遠離任、始克達此目的、先時兩軍相持不下、衝突之機、千鈞一髮、幸經大總統調解、孟督軍始於八月間解職、其部下軍官高士儻、高春逢亦同時解職、黑龍江督軍鮑貴卿調任吉林督軍、其遺缺則以前駐奉軍旅長二十七師師長、陸軍中將孫烈臣繼任、當孟督軍未解職之先、其部下士卒、與日兵在長春附近地方衝突、兩方互有死傷、但未釀成大禍、復克解決妥協、亦云幸矣、八月間議定將駐在奉城之日軍衛兵撤回、該軍始於民國元年移駐於此、東三省幣制之統一及進步、雖尚在幼稚時代、要不能云毫無成績、省長所舉辦之事、若一一表而出之、未免稍涉繁縟、但就其所行之政策、一爲聲叙、即可知其要旨之所在矣、所謂政策者、即阻止多數票洋兌現、及發行票洋、僅限於信實官銀號是也、然對於此項政策之設施、不得有

所濟其後、乃採取兩種辦法、第一發行債券票、年利四釐、五年後、始克兌現、第二收回奉票洋、發行能兌現之銅元票、以代該項銅元票、以一百枚為最大債券票、第一年息金、業已付給、民國七年、中國交通兩銀行、為阻止兌現起見、各將所發行票洋、加蓋吉黑或長春兩字、此乃暫時之辦法也、此種票洋、現已收回、惟有一部份、將戳記擦去、仍流行市面、該項票洋、若欲兌換銅元票、須有折扣、現時銅元、鼓鑄者甚多、通行市面、作為發行票洋之準備金、至於現洋能兌銅元若干枚、以及銀價之漲落、於票洋有若何影響、則甚難計算、鼓鑄銅元消息傳出後、票洋價格、即升至一百四十元、折合墨洋一百元、乃現時又降至一百六十元、黑龍江吉林兩省銀號、現正設法將行停閉、以東三省官銀號代之、其發行之票洋、則代以奉天發行之票洋、各銀號出票洋之實數、應切實調查、宣佈大眾、庶幾於發行有所限制、而可與準備金相抵、此所望於省長者也、蓋此舉於維持信用、深為有效也、左列一單、係在奉省所開之中國各銀號、其中所加評語、大部分深資三等供事陳任衛之襄助焉、

奉天銀號及其發行票洋表、

ANTUNG TRADE REPORT.

1°. LOCAL.—The gross value of trade amounted to *Hk.Tts.* 62,380,000, and after deducting re-exports—*Hk.Tts.* 1,007,000—the net value is *Hk.Tts.* 61,373,000. These figures show an increase of *Hk.Tts.* 21,214,000 over the net value of the trade for 1918 and of *Hk.Tts.* 18,505,000 over the net value of the trade for 1917. It must not, however, be lost sight of that a certain portion of this increase is due to the appreciation in values of both import and export commodities during 1919. The trade with foreign countries (principally Japan) totalled a value of *Hk.Tts.* 53,694,000, and out of this total goods to the value of *Hk.Tts.* 48,405,000 were carried by the railway. A large part of railway shipments simply pass through Antung *en route* to places further north in Manchuria or find an outlet abroad from the interior. The value of imports so passed amounted to *Hk.Tts.* 24,500,000 and of exports to *Hk.Tts.* 5,900,000—a total of *Hk.Tts.* 30,400,000, *i.e.* nearly 62 per cent. of the rail-borne cargo. Cotton piece goods and foreign sundries form the bulk of the imports in transit and cereals and wheat flour the bulk of exports in transit. The real value of the trade of Antung itself was therefore only some *Hk.Tts.* 31,000,000. There can be no doubt that the place is expanding rapidly and becoming more important from the commercial point of view each year. New buildings are going up on all sides, both for dwelling and industrial purposes. Five new bean mills were added during the year, and the number now in operation is 20. Four more are to be opened early in 1920. There are also 24 silk filatures and 20 sawmills in operation. A large factory with most modern and up-to-date machinery for spinning waste silk was opened in the latter part of 1919. Were it possible to improve the Yalu River so as to render the water approaches to Antung more available to steam navigation, there would be a great future for the port. Attempts to dredge the channel in the years 1913 and 1914 were not successful and were discontinued. Since then nothing has been attempted, and nothing appears likely to be done in the immediate future. The winter of 1918-19 was an unusually severe one, with very few falls of snow, the absence of which interfered considerably with the hauling of timber to the riverside in the districts of the Upper Yalu. The ice in the river began to break up in the middle of March and by the 17th the river was open to navigation. The first steamer reached Tatungkow on the 20th, but it was five days later before the first steamer arrived at Santaolangtow, the anchorage for Antung. The spring was an exceptional one, with an unusual amount of rain and a very backward season. On the 2nd May a snowstorm occurred, and the neighbouring hills were all white. On the 9th May a tremendous downpour of rain, accompanied by incessant lightning and thunder, caused a fall of over 11 inches in as many hours, the result being extensive damage in Antung and surrounding districts, tearing up roads, washing away bridges and embankments, and flooding the country. The summer months of July and August were very dry ones and resulted in serious damage to the crops. The normal rains in September helped matters somewhat, but they came too late to be of much benefit to the crops, and the harvests were considerably below the average. Kaoliang, maize, and millet yielded between 60 and 70 per cent., and beans about 60 per cent., of the normal yield. Rice suffered less from the drought than other cereals, and the harvest is said to be an 80 per cent. one. On the 23rd November the port was closed to navigation owing to the heavy drift ice, although the river did not freeze over until the middle of December. The year 1919 is said to have been a prosperous one for the Antung merchants, all branches of the trade, with the exception of that of timber, realising very fair profits. The timber business—a very important factor in the Antung trade—was seriously handicapped by the absence of snow in the timber districts, which made the hauling of the logs to the riverside more difficult and consequently more costly. The doings of the *hung-hu-tzū* (brigands) likewise interfered with the trade, as they captured and held for ransom many of the workmen engaged in felling trees, and the payments that had to be met reduced the usual profits.

2°. REVENUE.—The total collection for 1919 amounted to *Hk.Tts.* 1,345,215, as against *Hk.Tts.* 893,747 in 1918, an increase of *Hk.Tts.* 451,469, or over 51 per cent. Import duty advanced by *Hk.Tts.* 255,451 and export duty by *Hk.Tts.* 185,582, the balance of the increase being made up by small gains under coast trade duty and transit and tonnage dues. The Japanese flag contributed 88 per cent. of the total duties collected, the Chinese flag 9 per cent., and the British flag 3 per cent. The distribution between rail-borne and sea-borne goods was as follows:—

	RAIL-BORNE.			SEA-BORNE.		
	1917.	1918.	1919.	1917.	1918.	1919.
	<i>Hk.Tts.</i>	<i>Hk.Tts.</i>	<i>Hk.Tts.</i>	<i>Hk.Tts.</i>	<i>Hk.Tts.</i>	<i>Hk.Tts.</i>
Import duty	783,406	522,738	752,716	29,611	33,592	59,065
Export	151,405	165,814	253,167	122,395	158,126	256,356
Coast trade duty	5,577	7,019	10,126
TOTAL	934,811	688,552	1,005,883	157,583	198,737	325,547

This distribution shows that the sea-borne shipments are steadily increasing, and now that tonnage is rapidly becoming more available it remains to be seen whether the railway will be able to maintain its supremacy in the carrying trade.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The value of imports during 1919 amounted to *Hk.Tts.* 32,780,000, as against *Hk.Tts.* 22,568,000 in 1918, an increase of *Hk.Tts.* 10,212,000. Of these imports, *Hk.Tts.* 24,500,000 were destined for the interior of Manchuria, leaving a balance of *Hk.Tts.* 8,280,000, or 25 per cent., as the value of local importations. Antung partakes, therefore, of the status of a gateway to Manchuria for its trade to and from Japan, and its statistics may accordingly be accepted as a fairly accurate barometer showing the ups and downs of Manchurian commerce. In spite of the poor harvests of 1919, the increase of the land under cultivation and the appreciation in the value of the produce therefrom, combined with the rise in the price of silver currencies *vis-à-vis* gold currencies, have enabled increased purchases of foreign goods being made from abroad. A glance over the principal articles imported, given in Table III, will show that this has been the case with the great majority of items. Cotton piece goods especially present large increases, chiefly of Japanese manufacture, the English and American goods being conspicuous by their absence. Shirtings advanced by 103,000 pieces, drills and silesias by 100,000 pieces, turkey reds by 73,000 pieces, chintzes, lawns, and muslins by 115,000 pieces, italians, venetians, crape, and lastings by 117,000 pieces, and flannelettes by 26,000 pieces. Fancy woven cloth increased by over 7,090,000 yards, but Japanese cotton cloth declined by 2,614,000 yards and sheetings by 38,000 pieces. Trade in metals was also brisk. The large increase of 19,000 piculs in copper ingots and slabs was due to importations of that metal for provincial minting purposes. Graphite advanced over 10,000 piculs, new iron and mild steel by 47,000 piculs, and old iron and mild steel by 5,000 piculs. Iron ore almost doubled the 1918 importation, the quantity having risen from 247,000 to 487,000 piculs. This ore is a "pyrite" or "disulphide," coming from Korean mines, and is shipped to Penhsihu for smelting purposes and also to Fushun, where it is made into sulphuric acid. Building operations at Antung are responsible for a large portion of the increased arrivals of galvanized sheets, nails, rivets, steel bars, etc. With foreign sundries there was an increase of 1,600 head of cattle. These came from the neighbouring districts of Korea, where the drouth during the past summer was very severe and forced the farming classes to dispose of superfluous animals to tide over the bad year. Bags of all kinds advanced by 1,477,000 pieces. These are chiefly

used for packing beans and cereals for exportation. Cigarettes in steadily increasing quantities are coming in yearly, and the increase for 1919 amounted to 19,006 mille. Arrivals of kerosene oil totalled 1,076,000 gallons, of which 436,000 were American and 640,000 Sumatra oil. Paper increased 15,000 piculs. Newspapers are becoming more and more a necessity, and naturally more paper is required for printing them. Skins (furs), principally from Korea, advanced by 35,000 pieces and were sent to Moukden, which is now the chief fur market of Manchuria. There was a decline of 2,400 piculs in arrivals of brown, white, refined sugar and sugar candy, but the unusually high prices prevailing the world over for these articles has confined purchases to actual necessities. Timber shows a decrease of 9,000 cubic feet of hardwood, an increase of 2,494,000 square feet of softwood and 869,000 square feet of softwood planks. These figures represent arrivals of timber from Korea and must not be confused with Chinese timber from the Upper Yalu districts. Chinese timber comes under the cognizance of the Shaho Tax Office and only appears in the Maritime Customs statistics when exported by foreign-type vessels or by rail.

(b.) *Re-exports*.—The value of foreign goods re-exported amounted to *Hk.Tts* 797,000, and deducting that sum from the value of imports mentioned under paragraph (a.), the net imports for the year are therefore *Hk.Tts* 31,983,000. The exceptional prices obtainable in Japan for certain articles imported therefrom made it more profitable to reship them back for sale, paying freight both ways, than to keep the goods in stock for a possible buyer in Manchuria. Consequently, considerable quantities of goods, especially cotton piece goods, were returned to Japan.

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports)*.—The value of native produce exported amounted to *Hk.Tts* 25,436,000. This figure is *Hk.Tts* 9,810,000 in excess of exports during the previous year and is a new record. The value of shipments from the interior passing through Antung by rail to Korea and Japan was *Hk.Tts* 5,900,000, which leaves a balance of *Hk.Tts* 19,536,000 as representing the value of local exports—an increase of more than 56 per cent. over the figures for 1918. The four principal articles of export at this port are bean products, cereals, wild silk products, and timber. The three first named show handsome increases, but timber fell off slightly compared with the trade of the previous year. With bean products, beancake increased by 402,500 piculs, beans by 2,200 piculs, and bean oil by 3,500 piculs. The 20 bean mills in operation at Antung have a combined annual producing capacity of 10 million beancakes—4,650,000 piculs—and 450,000 piculs of bean oil. Owing to the difficulty of obtaining the necessary supply of beans for the mills, the output for 1919 was restricted to 4 million beancakes. The consumption of beancake in Korea is increasing yearly, and a large increase is anticipated during the next few years, as the government is energetically urging farmers to use the cake for fertilising the rice fields. Cereals were shipped in large quantities to Korea to make up for the food shortages caused by the part failure of the crops during the past summer. Kaoliang (sorghum) increased by 147,800 piculs, millet by 1,228,000 piculs, and wheat by 140,900 piculs, but maize showed a decrease of 21,800 piculs. Manchurian flour, however, increased by 20,400 piculs. Manchuria is often described as one of the "world's granaries," and if a total was made of the grain poured out through the various Manchurian ports, the name would certainly be proven as justified. With wild silk products the past year has been an exceptionally busy one. Wild raw silk, not filature, increased by 1,700 piculs and the filature variety by 6,700 piculs. Waste silk also advanced some 7,800 piculs, refuse silk cocoons by 2,900 piculs, silk pongees by 149 piculs, and dried silkworms by 8,800 piculs. Taking into consideration the increase in the local consumption of cocoons, as indicated by the above-mentioned increases in export of silk products, it is not astonishing to find that the export of wild silk cocoons has very considerably decreased, the falling off in shipments being 52,600 piculs. Antung has developed into the position of being the wild silk market of the Far East, and each year sees her position as such become more and more impregnable. The timber trade shows

an increase in the shipments of beams, hardwood as well as softwood, the former exceeding the 1918 figures by 14,100 pieces and the latter by 165,100 pieces, but softwood poles declined by 30,300 pieces and softwood planks by 2,168,000 square feet. However, the latter loss is more than accounted for by the increased importation of 2,494,000 square feet of Korean softwood planks.

(b) *Imports*.—The value of native produce imported during 1919 amounted to *Hk.Tts.* 4,164,000, and the value of such goods re-exported amounted to *Hk.Tts.* 211,000, leaving a net import of *Hk.Tts.* 3,953,000, as against *Hk.Tts.* 2,646,000 during 1918. Shanghai cotton goods manufactures improved slightly over the figures of the year before, sheetings showing an advance of 17,000 pieces, nankeens of 1,000 piculs, and cotton yarn of 700 piculs. Native rice increased by 41,600 piculs, and native cigarettes were four times the importation of 1918, the increase being over 1,000 piculs. Shanghai flour jumped from 193,000 to 258,000 piculs, a 65,000 piculs increase. Raw cotton shows an increase of 2,000 piculs, paper of 11,100 piculs, and joss paper of 1,200 piculs.

5°. *INLAND TRANSIT*.—The number of inward passes issued was 2,291 and covered foreign goods to the value of *Hk.Tts.* 363,000. The special exemption certificates covering goods to Manchurian trade marts were issued to the number of 3,224, and the value of the goods so covered amounted to *Hk.Tts.* 5,082,000.

6°. *SHIPPING*.—The total number of steamers entered and cleared was 628, of 331,788 tons, and the total number of sailing vessels entered and cleared was 652, of 20,312 tons, making a grand total of 1,280 vessels and 352,100 tons. There were also 322 steamers, of 72,740 tons, that entered and cleared under Inland Navigation Rules. In addition to the above, 58 steamers, of 29,500 tons, anchored off the mouth of the Yalu River and entered and cleared at the Korean Customs during 1919, carrying chiefly cargo manifested at the Antung Customs.

7°. *PASSENGER TRAFFIC*, 8°. *TREASURE*, and 9°. *OPIUM*.—No remarks.

10°. *MISCELLANEOUS*.—The cholera, which had been very prevalent at Moukden and other places along the South Manchuria Railway from Dairen to Changchun during the month of July, did not appear in Antung until early in August. It was then brought down by a coolie travelling by rail from Moukden, and in a few days' time the disease spread rapidly both in the Chinese town and the Japanese Concession. The South Manchuria Railway at once instituted medical examination of all passengers from the north, and while this measure prevented further cases being introduced, the "fat" was already in the fire and had to burn itself out. The disease was rampant during August, but the cooler weather and the rains of September put a stop to its continued spread, and by the end of the latter month the epidemic was practically over. According to the official Chinese and Japanese returns, 1,221 cases and 554 deaths occurred in the Chinese town and 303 cases and 156 deaths in the Japanese Concession. During the epidemic strict quarantine was maintained by the Korean authorities against Antung, the railway bridge being closed to all foot-passengers and the sampan trade totally prohibited. The railway, with its usual thoroughness, did everything in its power to stop the disease, providing numerous medical officers and distributing anti-cholera vaccine treatment free to all applicants at its hospitals. The railway benefits Antung in many ways, the waterworks and electric lights being under its management; and both water and electricity are supplied at most reasonable prices. Both of these undertakings are now being enlarged at a considerable expenditure. A new hotel for Antung has been constructed facing the railway station. It has both foreign and Japanese style rooms, and the accommodation provided supplies a long-needed want.

TATUNGKOW.—The net value of goods imported amounted to *Hk.Ƴs.* 28,886, and of goods exported to *Hk.Ƴs.* 38,124, making a total of *Hk.Ƴs.* 67,010. This shows a slight decline compared with the figures of 1918. As stated in the Trade Report for 1918, Tatungkow has no facilities for the loading and discharge of cargo; and until some are provided its usefulness as a treaty port is practically *nil*. There is some talk of building a branch line from Antung to Dairen, and if this be ever done it will probably touch at Tatungkow. When that happens the place may become of some commercial importance, but until it does the trade of Tatungkow will continue to be of a most insignificant character.

I desire to express my indebtedness to Mr. J. Fukumoto, 1st Assistant. A, for much information contained in this report.

FRANCIS A. CARL,

Commissioner of Customs.

ANTUNG, 6th March 1920.

中華民國八年安東口華洋貿易情形論畧

竊查本年本埠貿易總額，共估值關平銀六千二百三十八萬兩，由此數內，除去原貨出口，估值一百萬七千兩，其貿易總額之淨數，實共六千一百三十七萬三千兩，比較一千九百十八年，計增二千一百二十一萬四千兩，比較一千九百十七年，計增一千八百五十萬五千兩，而其增加原因，多半由於進出口貨物價值增漲之故，本年對外貿易（以日本一方面為最多）總額，共估值關平銀五千三百六十九萬四千兩，內有估值四千八百四十萬五千兩之貨物，係由火車進出口者，但火車所運之貨物，大半為通過貨物，進口者則經過安東，運至北方各地，出口者則由內地運至安東，然後再轉外國，按路過安東之進口貨，估值關平銀二千四百五十萬兩，路過安東之出口貨，估值關平銀五百九十九萬兩，兩共估值三千四十萬兩，約佔火車進出口全數百分之六十二，路過安東之貨物，進口以棉布暨外國雜貨為大宗，而出口則以五穀暨麩粉為大宗，是以安東本地之貿易總額，僅估值關平銀三千一百萬兩耳，安東商業，遞年異常發達，大有商務重要之勢，新建之住房及實業工廠，日見增多，查本年新開設之油坊，計有五處，合之前此開機之油坊，現下共有二十處之多，明年（一千九百二十年）上半年，尚有四家油坊，次第開辦，又現在絲房工作者計有二十四家，機器鋸木廠，開機者亦達二十家，今年下半年，有一專紡亂絲之大工廠，業已開幕，按該廠所用之機器，係最新式之機器，如果能將鴨江航線整理，俾輪船直達埠內，則安東將來之商業，當更興盛矣，乃自一千九百十三年，及一千九百十四年，疏濬河道之法，失敗停止後，既未另籌何等完善手續，亦未更循前此同樣辦法，繼續疏濬，殊可惜也，再一千九百十八年，暨一千九百十九年間之冬季，天氣既異常寒冷，而雪降亦少，以致上江放簾之事，大受影響，查鴨江之冰，於三月半開凍，至十七

日即可行船矣、第一次航行之輪船、於是月二十日、抵大東溝地方、而安東向來泊船之三道浪頭、又於後五日、始有輪船駛至、春氣之發生既緩、而雨轉甚多、且於五月二日、尙下雪一次、近山皆白、已屬罕見、而五月九日、又下一次可驚可駭之大雨、雷雹交加、歷數小時之久、雨量足有十一寸之多、遂致本埠及附邑近處、損失頗鉅、道路塌陷、橋梁傾欹、堤壩坍塌、不一而足、並安東同時發水、是時咸有過澇之憂、乃夏季七八兩月、天氣轉復燥乾、早象又呈、因之難收雨暘時若之效、嗣至九月間、甘霖始降、雖於農事不無小補、但已稍遲、而秋收遂大減色矣、按高粱、玉蜀黍、小米三項、每項之出產、比較平時、僅在百分之六十至七十之間、荳之比較尤劣、剛及百分之六十、至若大米雖較他種穀類、患早稍輕、然例以平時之收成、亦多不過百分之八十耳、按本年鴨江結冰、雖至十二月半尙未堅固、然因時有冰塊順流而下、於十一月二十三、日、即已停止航行矣、安東商務、本年可稱極盛、除木業外、各商無不得享厚利、按木業乃安東商業中、特品之一、無如因雪少關係、上江木簾、不惟駛放艱難、抑且費用繁重、兼以土匪滋擾、所有砍木苦工、被綁勒贖之事、時有所聞、而此項取贖之款、向由業主擔認、以致木業利益、遂大受剝奪矣、

一本關稅課、本年共徵收關平銀、一百三十四萬五千二百十五兩、而去歲實徵收關平銀、八十九萬三千七百四十七兩、計今年比去年、實增收百分之五十一、而有餘、或關平銀四十五萬一千四百六十九兩、此項增收數目、即進口稅、增多關平銀二十五萬五千四百五十一兩、出口稅、增多關平銀十八萬五千五百八十二兩、其餘增收之數、係由復進口半稅、暨子口半稅、並船鈔三項而得、以上本年共徵稅項之中、日本旗、實擔負百分之八十八、中國旗、擔負百分之九、而英國旗、僅擔負百分之三耳、今以前去今三年之稅課、按鐵路及水路、進出口之數目、分配之於左、

路別種類 民國六年

民國七年

民國八年

路	鐵		水		路
	進	出	進	出	
總數	七十八萬三千四百六兩	十五萬一千四百五兩	九十三萬四千八百一十一兩	十二萬二千三百九十五兩	總數
進	五十二萬二千七百三十八兩	十六萬五千八百十四兩	六十八萬八千五百五十二兩	十五萬八千一百二十六兩	總數
出	七十五萬二千七百十六兩	二十五萬三千一百六十七兩	一百萬五千八百八十三兩	七千九百九十二兩	總數
復進口			三萬三千五百九十二兩	二十五萬六千三百五十六兩	復進口
半稅			五萬九千六十五兩	一萬一千二百二十六兩	半稅
總數	十五萬七千五百八十三兩	十九萬八千七百三十七兩	三十二萬五千五百四十七兩		總數

觀上表所列，是水路輸運之貨，已逐漸增多，可知現時水路輸運之利用，實日趨於緊要，第不識南滿朝鮮，兩路火車，輸運貨物之優越地位，能否永久保持，而不為水路之輸運所侵佔耳、

一洋貨貿易，洋貨由外洋逕運進口，暨由通商口岸運來者，本年進口洋貨，共估值關平銀三千二百七十八萬兩，比較去年洋貨貿易，估值二千二百五十六萬八千兩，則今年進口洋貨，實增一千二十一萬二千兩，按本年進口洋貨數目，內有二千四百五十萬兩，係由高麗及日本，通過安東，轉運滿洲內地之貨，其餘百分之二十五，或關平銀八百二十八萬兩，為安東就地進口之貨，以故安東既有往來日本間之貿易，實具有滿洲門戶之資格，並安東之統計表，有如極準之風雨表，一望而知滿洲商業之盛衰，然今年農業，秋收不豐，而購辦外洋之貨物，轉而增加，此何故哉，實緣開墾之地，日見推廣，而農事之出產，值價又均提高，更兼金賤銀貴，金銀兩項兌換之價格，復相差懸殊，種種關係之所致，試觀第三節進口各貨淨數表，所列大多數洋貨，則知今年洋貨進口之增加矣，其中棉布疋之增加，以日本製造之貨為最顯著，而英美顯然無貨進口也，至以下各貨，比較去

年、均見增多、如棉細布一宗、增加十萬三千疋、棉粗斜紋布、暨棉羽布二宗、共增加十萬疋、紅洋布一宗、增加七萬三千疋、印花布、及軟洋紗稀洋紗三宗、共增加十一萬五千疋、棉羽綢、泰西縐、棉縐布、棉羽綾等四宗、共增加十一萬七千疋、棉法絨一宗、增加二萬六千疋、又先染後織花布、增加七百九萬餘碼、但日本棉布之進口、則減少二百六十一萬四千碼、暨棉粗布、減少三萬八千疋而已、今年五金營業、亦極見發展、查銅錠暨銅塊、兩項進口、共增加一萬九千担之多、此蓋由於供給東三省鑄造銅幣之需用也、黑鉛一項、增加一萬担有餘、而新鋼鐵一項、則增加至四萬七千担之鉅、惟舊鋼鐵、僅增加五千担耳、再如鐵鑽石之增加、實倍於去年、其比例率、則以今年之四十八萬七千担、比較去年之二十四萬七千担也、此項鐵鑽石、係屬一種硫化鐵、產自朝鮮鑛山、由該鑛山、運送至奉省之本溪湖、以鎔化之、或運往奉省之撫順、採取硫酸、外此更有一大部分之鍍錳鐵片洋釘、及鍋釘鋼條等、因安東建造房屋甚多、前項物品、需用最要、故進口數目、亦較去年為鉅、查雜貨項下、由朝鮮接近安東地方、運來之牛類、計增多一千六百頭、其增多之原因、則以今夏朝鮮境內、天氣亢旱、該農人等、不得不將此暫時無用之牲畜出售、以度荒年耳、再各種袋包之進口、大半為裝運豆及五穀出口之用、以今年比較去年、其進口數目、計增加一百四十七萬七千條、紙烟一項、每年進口、雖已增加、而今年竟增加至一千九百萬枝、(二萬九千密力)之多、火油進口之總額、共計一百七萬六千加倫、其中四十三萬六千加倫、係美孚油、其餘六十四萬加倫、均係亞細亞油、又紙一項、計增加一萬五千担、蓋新聞紙之推行、既日見增益、而印新聞紙之用紙、亦必因之加增、此自然之理也、本年皮貨由朝鮮經過安東、運往奉天、核計其數、已增加三萬五千張、是蓋因奉天為東三省交易皮貨中樞之故、又糖類之進口、如赤糖、白糖、淨白糖、及冰糖、均大見減少、是蓋

因世界糖價、日益翔貴、除正當必需外、餘均撙節不購矣、今年進口之外國重木、計減少九千立方尺、而輕木則增加二百四十九萬四千平方尺、又輕木板、亦增加八十六萬九千平方尺、而其所最當注意者、即此項木料、係由朝鮮進口者、並非由上江運來之中國木料、按由上江運來之中國木料、向係歸安東沙河稅捐徵收局管理、惟由洋式船、或用火車、輸運出口者、始歸海關管理、已分配其數於統計表中也、

洋貨復出口、本年共估值關平銀七十九萬七千兩、由上述洋貨進口總數內、除去此數、則進口洋貨淨數、尚實值關平銀三千一百九十八萬三千兩、某種貨物、由日本運來、而後運回日本者甚夥、蓋因在日本國內、是時價值昂貴、即多此來往運費、亦尙有利可企、故商人甯可運回本國、而不願在滿洲銷售也、然此大宗貨物、運回日本者、則惟棉布正爲最多、

土貨貿易、土貨出口運往外洋及通商口岸者、

連復出口在內

本年土貨出口之總數、爲關平銀

二千五百四十三萬六千兩、比較去年出口總數、增加九百八十一萬兩、溯自開埠以來、出口貿易、以本年爲最盛、其中五百九十萬兩、係自內地經過安東、由火車輸出朝鮮及日本之貨、其餘一千九百五十三萬六千兩、係由安東就地輸出之貨、此項就地輸出之貨、比較去年、計增加百分之五十六、本地出口主要之貨物、爲豆類、五穀、野蠶絲類、及木料四項、今年之豆類、五穀、野蠶絲類、三項之出口、比較去年、均見增加、惟木料一項、則稍形減少、今以豆類而論、豆餅增加四十萬二千五百担、豆增加二千二百担、豆油增加三千五百担、按安東作工開機之油坊、共二十家、每年可出豆餅一千萬片、計合四百六十五萬担、並能出豆油、四十五萬担、惟因豆不敷用、本年全年、合計此二十家、僅出豆餅四百萬片、自朝鮮當道、極力勸導朝鮮農人、用豆餅以作稻田之肥料、故朝鮮境內、豆餅需

要之增加、大有與年俱進之勢、預料此後數年中、豆餅一項、當較前更見暢銷矣、今年穀類、大宗多運往朝鮮、其故多半因朝鮮今夏收穫不豐、運此以濟民食、所謂以羨餘補不足者是也、查穀類出口數目、比較去年、大都增加、如高糧、增加十四萬七千八百担、小米、增加一百二十二萬八千担、小麥、增加十四萬九百担、惟玉蜀黍一項、今年出口數目、與去年相較、計減少二萬一千八百担耳、他如滿洲麪粉、亦增加二萬四百担之多、有人謂東三省爲世界穀倉之一、然若能將由三省各口、運出穀類之總數、核計明確、始足爲實至名歸之信據、今更以野蠶絲類而論、本年野蠶絲之銷路、堪稱暢旺、大框絲、計增一千七百担、小框絲、計增六千七百担、亂絲頭、計增七千八百担、爛繭壳、計增二千九百担、繭網、計增一百四十九担、其餘蠶蛹、亦增加八千八百担、以上各種絲貨、均見增多、獨野蠶繭一項、出口數目、不但未增、較之去年、轉減少五萬二千六百担、推究其故、蓋因此項蠶繭、多數歸安東就地繅製之所致也、是知安東市面、近年頗形發達、即以絲類而論、已足爲極東絲貨之最大商場、並其地位、亦日益鞏固、實有蒸蒸日上之盛、論木植事業、本年出口數目、重木樑、計增一萬四千一百根、輕木樑、計增十六萬五千一百根、但輕木桿、則減少三萬三百條、並輕木板、亦減少二百十六萬八千平方尺、然出口之輕木板、雖然減少上述數目、而由朝鮮進口之輕木板、反而增加二百四十九萬四千平方尺、自淺面言之、進口增加之數、實轉超過出口減少之數也、

土貨進口、本年進口土貨、共估值關平銀四百十六萬四千兩、除去復出口土貨、關平銀二十一萬一千兩、所餘淨數、爲三百九十五萬三千兩、比較去年進口土貨、淨數二百六十四萬六千兩、增多一百三十萬七千兩、上海棉製物品、比較去年、均稍增多、如棉粗布、計增一萬七千疋、棉土布、計增一千担、棉紗、計增七百担、其餘雜貨、如大米、則增至四萬一千六百担、中國紙烟一項、進口數目、比去年增加四倍、(計增一千担以上)可謂鉅矣、上

海麪粉、今年進口數目、共計二十五萬八千担、而去年僅十九萬三千担、計今年超越去年者、實六萬五千担、他如棉花、則增加二千担、紙、則增加一萬一千一百担、神紙、亦增多至一千二百担也、

一 出入內地之貨、入內地領有子口單之洋貨、共計二千二百九十一張、內載輸運之洋貨、共估值關平銀三十六萬三千兩、又填發洋土各貨、運往東三省各商埠之免重徵專照、共計三千二百二十四張、內載輸運之洋土各貨、共估值關平銀五百八萬二千兩、

出內地領有三聯單、運往外洋之土貨、無、

特別論畧、無、

一 船隻、本年本埠進出口船隻、輪船數目、爲六百二十八艘、計合三十三萬一千七百八十八噸、風船數目、爲六百五十二艘、計合二萬三百十二噸、兩共一千二百八十艘、統計三十五萬二千一百噸、又有往來內地之輪船、核其進出數目、共三百二十艘、計合七萬二千七百四十噸、除上述歸本關管轄船隻外、尚有停泊在鴨綠江口、歸朝鮮海關管理之進出口輪船、其數爲五十八艘、共合二萬九千五百噸、但此項輪船、所輸運之貨物、由本關報運進出口者、實佔一大部分也、

一 旅客、姑不具論、

一 金銀、姑不具論、

一 藥土、姑不具論、

一 雜論、本年七月間、奉天暨沿南滿路線、若大連、若長春各地、雖然次第發生虎疫、而安東則迄八月初、尙未有是疫之發現、嗣因有染患虎疫之工人、自奉天乘車來安、未數日而虎疫即蔓延於本埠、中國舊市街一帶、並流行於日本居留地內、南滿鐵路公司、當即組辦驗病事務、凡北來旅客、均須詳細檢驗、按檢驗雖能防止嗣後之發生、但彼時疫勢、業

經非常猛烈、譬之傾油火上、火焰正熾、其勢非燃盡而不止、故八月下旬、疫氣尙復險惡、直至九月間、氣候稍寒、兼以甘霖迭沛、疫乃稍殺、迨九月杪、始一律告肅清矣、按照中日官場之統計、中國舊市街全部、患疫者共一千二百二十一人、致死者五百五十四人、日本居留地內、患疫者共三百三人、致死者一百五十六人、當虎疫發生之時、朝鮮官場、組辦險病事務、最爲嚴厲、大橋既阻絕步行之交通、近岸復禁止舢板之駛行、以防安東之虎疫、或乘隙侵入、而南滿鐵路公司、亦因虎疫之傳染甚速、竭盡全力、以期貫徹其防止之宗旨、特聘多數醫官、分任預防之事、並施贈預防虎疫之注射鍼、無論何人、均得請願注射、概不取費也、按南滿鐵路公司、裨益於安東者、良非淺鮮、茲舉其大者數端、如該公司所設之自來水、及電燈、均取資極廉、而目下實不惜巨資、以擴充之、且爲成全安東必要之需求、於火車站前、擇地建築一新旅館、該旅館現已竣工開張矣、其中東西式房間、暨一切設備、均極完全、

一大東溝、本年進口貨物淨數、爲關平銀二萬八千八百八十六兩、出口貨物淨數、爲關平銀三萬八千一百二十四兩、共估值六萬七千十兩、比較去年、稍形減縮、按大東溝口岸、實無裝卸貨物之便利、已於去歲貿易論畧中、論及之、如果能積極進行、力求改良、則該處尙不失爲通商口岸、否則毫無商埠之資格矣、近有人提議、建築安東大連間之鐵路、倘獲成爲事實、該路或當經過大東溝、屆時該口、或能稍得商務上之重要、但該口就地商務之範圍、恐仍無擴大之希望也、再者、本年貿易論、深得本關頭等幫辦福本順、對於本埠之商業人事、及其他一切經過之事實情形、奔走調查之贊助、合併陳明、

DAIREN TRADE REPORT.

1°. LOCAL.—Dairen's trade in 1919 which came under the cognizance of this office amounted to a gross value of 237 million Haikwan taels and a net value of 215 million Haikwan taels, as against 189 million and 173 million respectively in 1918. All previous records have therefore been greatly exceeded, and the port has probably been able to retain its position as the second port in China as regards volume of trade, especially in direct trade with foreign countries. Most of the factors which conduced to the prosperity of the trade of the previous two years were again present in 1919, and, in addition, the trade with Europe revived with the removal of war restrictions on commerce. The Manchurian provinces forming the hinterland for the trade of the port were on the whole peaceful throughout the year under the strong and able government of the authorities at Moukden, and the adjoining Siberian territories enjoyed a brief tranquillity owing to the gain in power of the Government at Omsk and the presence of the Allied troops. The boycott movement against Japanese goods, which was rife in Shanghai, Tientsin, Chefoo, and other ports, was totally absent in Manchuria. Agriculturally, the year was not favoured. A spring with a scanty rainfall was followed by an exceptionally dry and hot summer, and the drought severely affected the crops. Changchun was the only district from which a good harvest was reported; the Kirin district suffered but slightly; all other districts reported a decreased yield. According to an estimate by an expert, kaoliang and maize averaged from 60 to 70 per cent.; wheat and barley from 50 to 80 per cent.; and beans, which appear to have been most affected, from 50 to 60 per cent. According to another expert, the average bean crop in North and South Manchuria, taken as a whole, is put at 70 per cent. of a normal year's yield. Rice cultivation in Manchuria has been yearly growing in importance, the combined output of paddy of dry and wet culture in 1918 being roughly estimated at 1.5 million *koku* (石). The cultivation of rice in wet fields, which was introduced into Manchuria by Korean immigrants and is now carried on all over South Manchuria by Chinese, Koreans, and Japanese, is destined to become an important industry in the near future. The gold value of silver, which was already very high during 1918, soared up still higher during the year under review. The local exchange opened at *Gold Yen* 169 (= *Silver Yen* 100), gradually declined to the lowest figure of the year, *Gold Yen* 149.50 (7th March), and subsequently advanced steadily, with occasional fluctuations, till its zenith was reached on 25th November, when *Gold Yen* 255 was quoted: it declined somewhat towards the end of the year. The value of Kirin provincial notes remained very low, although it showed an occasional rise whenever there was a demand for them. The rouble continued its rapid downward grade, and with the decline of the Government at Omsk the drop was precipitate, *Roubles* 5,000 to 8,000 = *Gold Yen* 100 having been quoted in November. The loss of credit of these paper currencies has been the source of the increasing difficulties with which importers of goods to North Manchuria have had to contend. The Moukden note has regained its lost credit, and its circulation improved owing to the efforts of the authorities to prop up its value by regulating the issue and providing an ample specie reserve to support it. The industrial boom referred to in the Report for 1918 has continued, and a mania for starting new enterprises, which held sway over Dairen, caused numerous business concerns—on a sound basis or otherwise—to spring into existence like mushrooms. Joint-stock companies and partnerships under Japanese or Sino-Japanese management established in Manchuria during the year numbered 304, with an aggregate authorised capital of 225 million gold yen, and of these, 200, representing 150 million gold yen, belonged to Dairen. Of various enterprises, financing and trust business took the foremost place; manufacturing industries came next. In the early part of the year there was a great congestion of goods—both north bound and south bound—along the South Manchuria Railway line, which amounted, at the end of February, to the

unprecedentedly large volume of 1.2 million tons. The congestion on the Chinese Eastern Railway lines was also enormous, being estimated at half a million tons. The causes which brought about the congestion were: increase in the volume of cargo due to the increased output of agricultural products attending the opening up of the country; the coming down south of North Manchurian beans and cereals; inadequacy of railway accommodation, owing chiefly to the shortage in rolling-stock; and military transport, which upset the railway company's annual programme of carrying coal in the summer months when traffic on the lines was light. The railway management has, however, successfully dealt with these difficulties: a large number of goods wagons have been built and purchased, and new locomotives, 56 in number, were put into service directly they arrived from America. The congestion was thus cleared by the new bean season. On the 1st December the railway company inaugurated the system of mixed storage of beans—a new departure in the handling of this commodity. Under the new system, beans accepted for deposit by the railway stations are examined by the station examiner and graded according to quality (special, ordinary, and inferior) and season. A certificate is issued to the depositor, which entitles him to draw from the mixed storage depôt on the Dairen (or Newchwang) wharves so many piculs of beans of the same quality and season. The gunny bags used in packing are also examined for quality (new; old, first quality; old, second quality), and in cases where the grade of the bags received and that of the bags delivered is different, the loss or gain thereon is adjusted by paying to or collecting from the depositor the difference in the value of the bags according to the schedule fixed by the company. The new system saves the railway the trouble of transporting and storing each consignor's cargo separately. It also saves the consignor the risks attending delay in transportation and the trouble of looking after his goods after they have arrived at destination. Business is thus considerably expedited. The graduation of goods according to quality will, it is expected, help to improve the quality of Manchurian beans. The mixed storage system is by no means compulsory, and the owner of beans can, of course, choose either to avail himself of its convenience or forward his goods in the usual way. Since its inauguration the new system has worked satisfactorily, although there have been many difficulties to be overcome. The following table shows in million Haikwan taels the value of direct trade of the port with each country in 1919, as compared with that for the previous year and 1913, the record year before the war:—

	1913.			1918.			1919.		
	Imports.	Exports.	TOTAL.	Imports.	Exports.	TOTAL.	Imports.	Exports.	TOTAL.
Hongkong	0.41	0.77	1.18	2.44	1.26	3.70	1.64	0.64	2.28
Dutch Indies	0.13	0.13	0.99	1.03	2.02	1.81	1.07	2.88
Europe	3.26	2.17	5.43	0.63	0.37	1.00	2.37	16.41	18.78
Korea	1.07	1.54	2.61	1.98	2.11	4.09	1.26	4.72	5.98
Japan	21.79	24.14	45.93	48.30	47.85	96.15	61.50	76.24	137.74
United States	1.45	0.13	1.58	11.03	27.92	38.95	18.65	9.45	28.10
Other countries	0.76	1.13	1.89	1.61	0.44	2.05	2.29	0.04	2.33
TOTAL	28.74	30.01	58.75	66.98	80.98	147.96	89.52	108.57	198.09

Harbour construction work has been steadily pushed on by the South Manchuria Railway Company, and the wharf equipment has been augmented to cope with the expansion of trade. The work on the No. 3 (New) Pier progressed well, and all the pier walls were completed by the end of the year. This pier measures 2,000 feet by 400 feet and has a total frontage of 5,300 feet, including the quay of 900 feet between No. 2 and No. 3 Piers. It will have at its base 56 acres of reclaimed land for the site of cargo-sheds and other requirements. The reconstruction and extension of the No. 2 (Main) Pier wall at its north and east sides were finished to the extent of 24 per cent. by the end of the year. The

reclamation and bunding of the shore-front at Jijiko (寺兒溝), covering an area of 91 acres, and a similar undertaking on the shore-front of the Chinese town 西崗子, covering an area of 220 acres, were taken in hand. The wharf office building, referred to in previous years' reports, is now a magnificent structure and will be ready for occupation in August 1920.

Junk Trade.—Compared with the totals for the previous year, the number of junks entered and cleared decreased by 30 per cent., and the value of the trade carried by them fell off by 35 per cent. Imports increased by 900,000 Haikwan taels, but exports decreased by 4 million Haikwan taels. A heavy falling off in the export of cereals to Shantung, owing to a good harvest in that province the previous year, was chiefly responsible for this remarkable shrinkage in the junk traffic.

2°. REVENUE.—The total revenue for the year amounted to *Hk.Ŧs.* 4,556,924, which is an increase of *Hk.Ŧs.* 994,728. The greater part of this large surplus is credited to the first and second quarters, when trade, import and export, flourished exceptionally. Import, export, coast trade, and transit duties all contributed to the increase. The Revised Import Tariff came into force on the 1st August, but it is difficult to estimate what gain to the revenue accrued from it. The collection of junk duties, *Hk.Ŧs.* 31,234, was the smallest figure for the last five years.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The value of trade, including junk borne, as compared with the three previous years, in million Haikwan taels, was as follows:—

	1916.	1917.	1918.	1919.
Imported into the Leased Territory (free area) by sea—				
From foreign countries	33.4	58.3	67.0	89.6
Chinese ports	7.3	9.5	8.8	9.8
	— 40.7	— 67.8	— 75.8	— 99.4
Re-exported	5.0	5.0	7.3	10.4
Imported by rail into Manchuria	25.8	42.5	48.4	63.0
	— 30.8	— 47.5	— 55.7	— 73.4
 BALANCE	 9.9	 20.3	 20.1	 26.0

Compared with the corresponding figures for 1918, the value of imports into the Kwantung Territory showed a remarkable increase of 23.6 million Haikwan taels, and that of the railway imports an advance of 14.6 million. It is a noteworthy fact that about 50 per cent. of the former and 70 per cent. of the latter may be accounted for by the increase in cotton goods. It is also to be noted that the increase in the "balance" is made up partly of the value of railway rolling-stock imported in large quantities by the South Manchuria Railway. The total net value of cotton goods imported into Dairen advanced from 13.3 million to 25.9 million Haikwan taels, and the value of those forwarded into Manchuria, from 12.2 million to 22.2 million Haikwan taels. The principal factors which contributed to this phenomenal prosperity were: temporary restoration of order in Siberia, which aroused a keen demand in that country and brought about great animation in the North Manchurian market; interruption of the goods traffic on the Japanese, Korean, and Antung-Moukden railway lines by the transportation of Japanese troops over these lines, which caused a considerable quantity of goods for Manchuria to be imported by sea *via* Dairen; and the boycott of Japanese goods in Shanghai, Tientsin, and other ports, which caused a certain quantity of Japanese cotton goods imported into these ports to be reshipped to this port in order to find a market

in Manchuria. The two last-mentioned causes were, of course, of a temporary nature, and the activity of the North Manchurian market was brought to a close by a bad slump in roubles in the second half of the year. Compared with those of the previous year, the figures under the principal headings showed an all-round conspicuous increase. The percentage for each article was: shirtings, 150 (net import into Dairen) and 100 (import into Manchuria by rail); sheetings, 69 and 62; white shirtings, 77 and 60; drills, 43 and 45; jeans, 85 and 52; turkey red cottons, 345 and 356; italians, venetians, and other dyed cottons, 75 and 72; imitation native cloths, 11 and 15; yarn, 37 and 22. The increase in grey shirtings is partly accounted for by the growing demand for this article as a substitute for high-priced white shirtings. The increase in printed and dyed cottons is chiefly attributed to the Russian demand. The proportion of the increase in imitation native cloths was the smallest, owing to the diminution of production in Osaka from various causes. As in previous years, Japanese goods predominated. Not only was the market for plain piece goods, such as shirtings, sheetings, drills, jeans, etc., which had almost ousted European and American goods before the war, further extended, but dyed and printed cottons of Japanese make largely replaced English and Russian goods, the manufacture in Japan of these fabrics, which calls for superior skill, having improved greatly, stimulated by the stoppage of the supply of the European goods which monopolised the market before the war. The principal headings under metals showed an all-round increase both in the import into Dairen and that into Manchuria, owing, no doubt, to the removal of war restrictions on the supply and to reduction in price. Putting aside copper ingots for the Mints, rails for the South Manchuria Railway, and tinned plates for making tins for bean oil, the increase in most of the other items may be explained by the building boom, which continued from the previous year both in the Kwantung Territory and in the railway towns, and by the general industrial development. Of the principal items of sundries, new gunny bags, cement, coal, electrical materials, window glass, machinery, matches, American kerosene oil, and railway materials increased, both in the import into Dairen and the railway import into Manchuria, while rice, cigarettes, and sugar declined. The number of gunny bags imported was the largest on record, and the excess over the previous year's figures may no doubt be chiefly accounted for by the short importation *via* Vladivostock and Suifenho in the year under review as well as in the three previous ones. The inauguration of the system of mixed storage of beans, already described, was also responsible for a certain portion of the increase. The building boom and the industrial activity in Manchuria and the Kwantung Territory again caused a large importation of cement, electrical materials, window glass, and machinery. The shortage in the supply of coal caused 80,000 tons of Japan coal to be brought to this coal-exporting port for local consumption. The increase in matches was due to the diminution in the production of Manchurian factories, owing to the shortage of labour, and to the exportation of the products of certain Chinese factories to Shantung, where the boycott movement against Japanese goods was rife. American kerosene oil, which was put on the market at a much lower price in 1919, found a large sale. The shortage and high price of Korean rice were the cause of diminished importation, the shortage being made good by Chinese rice imported or grown in Manchuria. The decline in cigarettes is accounted for by the shortage of supply of Japanese and Korean goods on the one hand and to the increased production of the Toā Tobacco Company's Newchwang factory on the other hand. The importation of sugar was fairly large, and owing to the export to Siberia having come to a deadlock, due to the slump in roubles, considerable stagnation resulted in the market. However, a large re-export to Europe in May and June cleared the stock, and the importation netted 256,000 piculs, viz., about one-third of the amount imported in 1918.

(b) *Re-exports.*—The value of re-exports to foreign countries amounted to 7 million Haikwan taels, and that of re-exports to Chinese ports to 3.3 million Haikwan taels. The re-export trade to foreign countries was made up chiefly of transshipments or of casual movements of goods. The principal items were: English white shirtings and other cotton piece goods, brought from Shanghai and transhipped to

Chemulpo; white sugar, reshipped to Antwerp; coffee beans, originally destined to Russia but re-exported to Japan, the United States, and Great Britain; and American leather boots, redirected to Vladivostok and Japan. Coastwise re-exports were made up of Japanese cotton piece goods and yarn, the value of which amounted to one-third of the total, and other goods of all descriptions reshipped to Shanghai, Kiaochow, Tientsin, Chefoo, Lungkow, etc.

4. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports).*—The value of original exports, including junk trade, amounted to 107 million Haikwan taels, showing an advance on the previous year's total of 15 million Haikwan taels. The value of exports to foreign countries increased from 72.4 million Haikwan taels in 1918 to 97.2 million Haikwan taels, while that of coastwise exports diminished from 19.8 million to 9.7 million Haikwan taels. The prosperity of foreign trade is again credited, to a large extent, to the business in beans, beancake, and bean oil, while the decline in coastwise trade is accounted for by the falling off in the export of beancake, cereals, wild silk, etc. The total original export of beans, 9.9 million piculs, is the largest on record, showing an excess over the previous year's total of 4.2 million piculs. An enormous carry-over of North and South Manchurian beans of the 1918 crop, which congested the Dairen wharves and the railway, formed the chief source of this prosperous export trade. Direct export to Europe revived during the year and more than 3 million piculs were supplied to various countries. Shipment was most brisk during the second and third quarters, but later exchange difficulties kept the trade in check. The export to Japan increased by 1.4 million to 5.7 million piculs. The demand for beans in Japan as foodstuff increased, while production diminished owing to bean cultivation giving place to more lucrative crops. The growth of the oil-mill industry in that country also contributed to the increase. The export of beancake to Japan increased by 2.2 million piculs. Despite the greatly enhanced price of this commodity in Japan, due to a high silver exchange, the demand was brisk throughout the year, an abnormally high price of rice enabling farmers to invest a large sum of money in manures. A new market for beancake was opened during the year in Korea, where the Government began to encourage the use of this fertilizer instead of discouraging it as hitherto. The export of bean oil to America fell off to less than one-third of the previous year's record figure, but the export to Europe, which flourished exceptionally, almost made up for the decrease in the American trade. During the first two months of the year business was practically at a standstill, and the prospect was gloomy, owing to the cessation of the war demand and to the reported presence of large stocks in Europe and America. In March an improvement in the market set in, owing to the arrival of orders from Europe and to the revival of the American demand. Shipments to both destinations were most brisk during the second and third quarters. Subsequently, however, business having received a check from the enhancement of cost, due to the rise in the gold value of silver and to an unfavourable exchange on Europe, stagnation ruled over the local market throughout the rest of the year. The shortage in the supply of cereals in Japan and Korea caused a considerable quantity of Manchurian grain to be exported to these countries. Japan took a large amount of wheat, kaoliang, maize, and millet, while the Korean demand was chiefly for millet. Some kaoliang and maize were shipped to the United States, and a small quantity of maize found its way to Canada. The shipment of cereals to Shantung ports by steamers and junks shrank to very small proportions, owing to a bumper crop in that province in 1918. Owing to the shortage of vegetable oils in Europe and America, the export of all oil seeds—castor, hemp, perilla, and sesamum—flourished. As most of the local oil mills have no equipment but that for pressing oil from beans, these seeds were shipped to Japan to be dealt with by the mills there. The export of Fushun coal dwindled to one-half of the previous year's figure. As the supply did not even meet the local demand, export was restricted to the shipment of goods previously contracted for, and the deficit was made good by Kailan and Japan coal. The diminution in the output of the Fushun Colliery, owing to the shortage of labour, and the increase of local consumption in Manchuria and Korea, were responsible for the shortage. The

heavy falling off in wild silk exported to Chefoo may be explained by the development of filatures in Antung and the shipment of their product direct to Japan. The value of re-exports advanced from 8.7 million Haikwan taels in 1918 to 11.7 million Haikwan taels. This branch of trade is chiefly made up of transshipments, and the principal items during the year under review were: vegetable oils, brought from Shanghai, Kiaochow, and Chefoo and reshipped to America and Europe; grasscloth, from Shanghai to Korea; wild silk, from Chefoo to Japan; and rice, imported from Shanghai and Tientsin and reshipped to Japan.

(b.) *Imports.*—The net imports into the Kwantung Territory, including junk-borne goods, were valued at 19 million Haikwan taels, and those forwarded to Manchuria (included in the above net imports) at 11 million Haikwan taels, as against 12.8 million and 7.1 million Haikwan taels respectively in 1918. The trade in cotton goods, to which the above increase of values may be wholly credited, made a long stride forward during 1919. Chinese cotton piece goods and yarn, which can be laid down in Manchurian markets at less cost than Japanese goods, should supersede the latter, and the shortage of supply and high price of Japanese goods during the year, especially yarn of low count, offered them a golden opportunity of extending their market. However, the shifting of the import route from Newchwang to Dairen, owing to the derangement of the transfer tael system in the former port, has also, no doubt, contributed to the increase of import through this port. Of various cotton goods, yarn increased most remarkably. Nearly 14 times as much as in 1918 was imported into Dairen, while its importation into Manchuria was 11 times as much. The import exceeded the demand, and in the autumn, the North Manchurian market coming to a standstill due to the slump in roubles, a considerable stock was left standing at the Dairen wharves at the close of the year. The importation of rice, flour, and cigarettes remained much the same as during the previous year; twice as much coal as in 1918 was imported to make up for the deficit in Fushun coal; the greatly increased import of leaf tobacco points to the increased production of cigarettes mentioned under "3. Foreign Goods."

5 INLAND TRANSIT.—No remarks.

6°. SHIPPING.—(a.) *Under General Regulations.*—The total number of steamers entered and cleared was 4,955, with a total registered tonnage of 4,766,410, as against 4,417 vessels and 3,812,742 tons in 1918. The total tonnage in 1919 slightly exceeded the pre-war record figure of 1914, but the average tonnage per vessel was much smaller than that for that year. Compared with the figures of the previous year, shipping under the Japanese flag increased by 360 steamers and 604,735 tons; the tonnage under the British flag was twice as much, but it was still far short of pre-war figures. For several months following the termination of the war the tonnage market was in a state of serious depression, and the drop in freight and charterage was precipitate, the lowest rates in March being less than one-fourth of the highest rates on record. The market has since somewhat recovered, and fairly high rates were maintained on the Dairen-America and Dairen-Europe runs. However, an abundant supply of tonnage by small coasters was available at cheap rates for the Dairen-Japan export trade all the year round.

(b.) *Under Inland Steam Navigation Rules.*—No remarks.

7°. PASSENGER TRAFFIC.—No remarks.

8°. TREASURE.—The movement of treasure in 1919 further declined to 2.2 million Haikwan taels, and of this sum one-fourth was made up of a consignment of dollars transhipped from one port to another. The embargo on the export of Chinese dollars and Manchurian small silver coins on the one hand and the demand by the Moukden authorities for the specie reserve to support the issue of notes on the other appear to have been the cause of the large excess of import over export of treasure.

9°. OPIUM.—The official importation of opium to the Kwantung Territory amounted to 148 piculs, as against 278 piculs in 1918. In June the Kwantung government resuscitated the system of gradual prohibition of opium smoking, *i.e.*, of allowing confirmed smokers only to take a prescribed amount of the drug. The smoker is given a pass-book in which his daily allowance of opium is mentioned, and the opium retailer is under strict orders to sell opium to nobody else but the licensed smoker. Reports indicate that opium is cultivated in Manchuria and that there is a considerable traffic in the drug. The Japanese police in the Kwantung Territory and the railway zones have orders to suppress the traffic and have frequently made seizures. The illicit trade in morphia and cocaine through this port has now been practically exterminated.

0°. MISCELLANEOUS.—The first half of the winter of 1918-19 was mild, but the second half was severe, and the harbour was covered with ice during the greater part of January and the first 10 days of February, necessitating the active employment of ice-breakers to keep the fairway open for shipping. The ice conditions were reckoned to have been the severest since 1909. The temperature ranged between a maximum of 35.7 C. (6th August) and a minimum of -17.8 C. (2nd February). The rainfall was very small and amounted to 429.5 millimetres, as against 638.1 millimetres, the mean of previous years.—An epidemic of cholera was prevalent in Manchuria and the Kwantung Territory during the months of July, August, and September. The disease first appeared in Dairen in the beginning of August and quickly spread among the lower class of Chinese. The epidemic was rife in the last 10 days of the same month and in the beginning of September, when the victims sometimes numbered 80 a day; it gradually died out, however, towards the end of September. The epidemic having terrified the travelling public, the number of both train and steamer passengers markedly decreased. The number of steamers calling at the port was also diminished, owing to the quarantine detention enforced in Japan on vessels arriving from Dairen, and the export trade thereby experienced a temporary hitch.—A reform in the organisation of the Kwantung government was introduced, and changes in the *personnel* of the principal officials took place in April. An interesting feature of the revision is that the Governor is made a civilian, and the appointment of a military officer an exception. On the 12th April Lieutenant-General Baron Y. Nakamura was released from the Governor-Generalship, which post was abolished, and Baron G. Hayashi, ex-Minister to Peking, was appointed Governor. Mr. S. Miyao was relieved of the office of Civil Governor, which post was also abolished, and Mr. S. Sugiyama appointed to the newly created post of Director of General Affairs. Simultaneously with the reform in the government, changes in the *personnel* of the South Manchuria Railway Company's staff took place. Dr. S. Kunisawa, director-in-chief, retired, and Dr. R. Nomura was appointed president. To the post of vice-president, newly created, Mr. S. Nakanishi was appointed. Later, in July, a reorganisation of the company's various departments and sections, and changes in the *personnel* introduced by the new directorate with a view to more effective control of business, took place.—Several outbreaks of fire from unknown causes at the open storage ground on the Dairen wharves (*vide* Trade Report for 1918) took place after the restoration of the fire insurance service in February, leading to the cancellation of this service on and after the 5th May. Banks refused to make investments on the goods, and it would have proved a serious detriment to trade had it not been for the prompt and generous relief measures taken by the railway company, which offered, as a temporary expedient, to pay to the owner 90 per cent. of the value of the uninsured goods stored in the open storage ground which might be consumed by fire in the future. A few more outbreaks took place at longer intervals, the last occurring in September. A suspected incendiary was arrested, but he was soon released and quitted the port. By a strange coincidence the outbreak of fires has since ceased.—The first smelting furnace of the South Manchuria Railway Company's Anshan Iron Foundry was lighted on the 29th April, and the first output of iron obtained on the 1st May. The average outturn, 130 tons a day, is, so far, short of expectations, and the quality of the output is said not to equal the product of Penkihu. During the fiscal year 1920 the second furnace will be completed

and the manufacture of sulphate of ammonia will be taken in hand: but there appears to be no prospect of the early completion of the proposed steelworks—the ultimate object of the undertaking. A plant for the storage of bean oil in bulk is under contemplation by the Mitsui Bussan Kaisha. It will consist of seven storage tanks, of a capacity of 10,000 tons in all, and an oil-tin factory, and will be completed by the autumn of 1920. The chief object of this enterprise is, of course, the exportation of oil in bulk in tank steamers, a new departure in export business which saves a considerable sum in the cost of packing-cases and tins or barrels as well as in freight. Moreover, the storage in tanks is attended by the advantage of improving the quality of the oil by the settling of impure matter and also by doing away with the inconvenience and risk of storing the oil in small receptacles.

T. EBARA,

Acting Commissioner of Customs.

DAIREN, 15th March 1920.

中華民國八年大連灣口華洋貿易情形論畧

竊查本口本年貿易情形、估值總數、爲關平銀二萬三千七百萬兩、淨數、爲關平銀二萬一千五百萬兩、上年估值總數、爲關平銀一萬八千九百萬兩、淨數、爲關平銀一萬七千三百萬兩、相差甚多、是則本年貿易、在連埠通商史上、實可首屈一指、就本年總數、及其中之外洋直接貿易以觀、合中國商埠大連約可仍居第二、其所以如斯興盛之故、多與上二年相同、惟以大戰停止、商業上之限制、俱已撤銷、對歐貿易、復得活動、亦一原因也、滿洲各省、素爲本埠貿易之根據地、賴有精明強幹之官憲、全年粗得平安、其與北滿接壤之西比利亞、因阿穆司克政府維持、及各國聯軍鎮攝、亦得暫保秩序、日本貨物、在上海天津芝罘等埠、雖受重大影響、而行銷滿洲、則依然如故、本年農產、實屬不佳、春季雨澤既少、入夏又復燥熱、因受旱災、收成大減、長春一處、獨慶豐年、吉林微受損害、其他各地、俱屬歉薄、據一專門家核計、高粱、玉蜀黍、平均收穫六成至七成、小麥、大麥、五成至八成、大豆、受災最重、只收穫五成至六成而已、又據一專門家云、綜合南北滿所產大豆、而平均計算、僅抵中常年景之七成、滿洲種稻事業、逐年加多、上年所產水旱各稻米、約計一百五十萬石、查該處之有水田種稻、以朝鮮僑民爲嚆矢、現在南滿各處之華人、朝鮮人、日本人、從事於此者、遍地皆是、將來能成一重要農業、可以斷言、銀價昂騰、本年尤甚、本埠金銀兌換行市、開始銀一百圓、換日金一百六十九圓、繼而銀價漸落、至三月七日、銀一百圓、換日金一百四十九圓五角、是爲年內最低之數、此後銀價、雖偶有上下、然仍係騰漲不止、及十一月二十五日、達於極點、銀一百圓、換日金二百五十五圓、嗣又漸見低落、以迄年底、吉林官帖之價值、仍無起色、有時因收用者多、亦略見提漲、俄國羌帖、每况愈下、迨阿穆司克政府失敗、價又驟跌、十一月內、日金一百圓、能換五千至八千盧布、

此項紙幣之無信用，實爲運貨赴北滿者，倍加困難之原因，奉票已失之信用，又行恢復，市面流通，已露平穩狀態，蓋皆官憲維持之力，不但限制濫發，且又備有相當基金，以爲兌現之用，上年論略所述，各種工業發達情形，本年仍係日增月盛，商民對於實業，輒發狂熱，爭先恐後，一時組成許多會社公司，直如百花齊放，惟所經營事項，確屬可靠者固多，而毫無把握者，亦復不少，總計日人自辦，及中日合辦各公司，分設於滿洲者，三百零四處，資本共爲日金二萬二千五百萬圓，就中設在大連者，二百處，資本共爲日金一萬五千萬圓，以上各公司，經營金融事業者，佔大多數，工業次之，本年年初，由南滿鐵路往來南北之貨物，在沿線各站堆積者甚多，迨二月底，達一百二十萬噸，爲從來未有之鉅數，中東鐵路各站堆積之貨，亦屬不少，約有五十萬噸，其致此之因有四，內地開發，農產貨加多，一也，北滿出產之大荳五穀，運往南滿，二也，鐵路車輛不敷需用，三也，南滿鐵路公司，裝運煤斤，每年皆在貨物稀少之夏月，今以輸送軍隊之故，致破此例，四也，幸當局者，對此難題，力謀疏通，於是添置多數貨車，有自造者，亦有購入者，又由美國買來車頭五十六輛，甫經運至，立即使用，因此各站堆積之貨，至收割大荳時，全數運完，南滿鐵路公司，自十二月一日起，立出大荳混合保管之辦法，此係另開生面，爲從前所未有，其辦法爲何，即大荳運至本埠車站之際，須經該站驗貨人，查明新陳及品質，分爲上中下三等，驗訖，發給收單，持此可隨便向本埠或牛莊碼頭混合保管棧房，照單提取，裝大荳之麻袋，亦分新舊兩種，舊之中，又分頭二等，倘提荳之時，所裝麻袋，與原來不符，則查照公司章程規定之價目，受虧者，爲之按數補給，獲益者，令其按數繳出，有此辦法，在鐵路一方面，可免分運分存之煩，在貨主一方面，可免搬送遲緩之虞，並貨到後，親自照料之苦，方便殆莫大焉，其按照品質之分等，滿洲大荳成色，藉此可望改良，該公司立此辦法，並非強迫行使，裝運時，或按新章，或仍舊例，一聽貨主之便，施行以來，雖有種種窒礙，然終

能令人滿意、南滿鐵路公司、建築港灣之工程、頗見進行、碼頭規模、亦加擴充、以應貿易之發展、第三碼頭之工程、修作甚速、所造岸壁、已於年終告成、該碼頭、長二千英尺、寬四百英尺、連同界於第二第三兩碼頭中間起卸貨物碼頭之長九百英尺、共佔海岸線五千三百英尺、所填海面、計有五十六英畝、可供建造貨廠、及他項使用、第二碼頭東北岸壁、改築並放大之工程、迨至年底、已完百分之二十四、寺兒溝地方、為建造堤岸起見、填堵海面、九十一英畝、西崗子沿岸、亦有同樣之工程、二百二十英畝、均在進行之中、往年論略所述、南滿鐵路公司埠頭事務所之工程、現已巍然可觀、翌年八月、即可報竣、本外洋直接貿易之情形、既如上述、茲特將本年與上年、及戰前稅收最旺之民國二年、三個年內、此項貿易之數目、列為一表、以資比對、表中數目、以萬為單位

民國二年

民國七年

民國八年

	民國二年		民國七年		民國八年	
	進口	出口	進口	出口	進口	出口
香港	四一	七七	一一八	二四四	一二六	三七〇
爪哇等處	無	一三	一三	九九	一〇三	二〇二
歐洲	三二六	二一七	五四三	六三	三七	一〇〇

總共	二八七四	三〇〇一	五八七五	六六九八	八〇九八	一四七九六

本年民船貿易、總計進出口船隻數目、比上年少百分之三十、其貨物估值、比上年少百

分之三十五、惟內中進口一項、增加關平銀九十萬兩、出口者、減少關平銀四百萬兩、出口赴山東之五穀、因該省上年豐收、大為減縮、是即此項貿易退步之所由來也、

一本關稅課全數、本年共徵關平銀、四百五十五萬六千九百二十四兩、比上年多九十九萬四千七百二十八兩、若大增加、強半賴在第一第二兩結、因彼時進出口貿易、非常興旺也、統計進出口正稅、與復進口及子口半稅、均有起色、修改通商進口稅則、本年八月一日實行、由此增收之稅課、究有若干、難以核算、本年民船稅、共計關平銀、三萬一千二百三十四兩、為近五年以來最小之數、

一洋貨貿易、洋貨由外洋運進進口、及由通商口岸運來者、茲就本年與上三年之估值、列為一表、並將民船數目括入、以資比較、

表 中 數 目 以
萬 為 單 位

	民國五年	六年	七年	八年
由外洋運進進口	三三四〇	五八三〇	六七〇〇	八九六〇

由前兩項數目扣除後兩項之淨數

即指租借地內之儲用兩項

九九〇

二〇三〇

二〇一〇

二六〇〇

就本年數目、與上年比較、運入租借地內者、增加關平銀二千三百六十萬兩、由鐵路運入滿洲者、增加關平銀一千四百六十萬兩、此兩數內、有可注意之處、即前者百分之五十、後者百分之七十、皆由棉貨暢旺所致、此外猶有一可注意之事、即增加淨數內、有一部分、係因南滿鐵路輸入車輛甚多、運入本埠之棉貨、估值淨數、由關平銀一千三百三十萬兩、增至二千五百九十萬兩、運入滿洲者、由關平銀一千二百二十萬兩、增至二千二百二十萬兩、其非常興盛之主因、約有三端、西比利亞暫時恢復秩序、俄國購買加多、

俾北滿市場大行活動一也、日本朝鮮安東三鐵路、因輸送軍隊、阻碍運貨、致多取道海路、由大連入口、轉赴滿洲、二也、因上海天津及其他商埠、偶起風潮、已抵各該埠之日貨、有不能行銷者、皆改由大連運至滿洲售賣、三也、以上第二第三兩原因、不過偶然之事、至於北滿市場之生意、迨下半年、竟以羌帖跌價、殆全停滯、本年進口各種主要貨物、皆比上年顯有增加、茲將增加之率、分列於下、原色細布輸入本埠之淨數、爲一倍半、由鐵路運入滿洲者、一倍、以下只書數目本埠滿洲等字從畧原色粗布、爲百分之六十九、百分之六十二、漂細布、爲百分之七十七、百分之六十、粗斜紋布、爲百分之四十三、百分之四十五、細斜紋布、爲百分之八十五、百分之五十二、紅洋布、爲百分之三百四十五、百分之三百五十六、羽綢泰西緞以及其他染色布疋、爲百分之七十五、百分之七十二、充土布、爲百分之十一、百分之十五、棉紗爲百分之三十七、百分之二十二、以上原色細布增加之故、半因漂細布價值太昂、多購此以代用、印花布、及染色布、增加之原因、蓋由俄人購買者多、充土布增加之數最小、係大阪出品、以有種種緣故、減少所致、總之日本棉貨、仍佔最優勢力、無異往年、不但各種素面布疋、如粗細布、粗細斜紋布、在歐戰前、已幾完全起代歐美貨物、近且日見擴充、即有色並印花各布、亦多起代英俄織品、日本織造此種布疋、所需之高等技藝、因從先在市場專利之歐美貨物、不能運至、遂得鼓勵而大有進步、五金主要物品、運入本埠、及由鐵路輸入滿洲者、均有增加、蓋因歐戰終止、限制報銷、並價值便宜、毫無疑義、如造幣廠所用之紫銅錠、南滿鐵路所用之鐵軌、造豆油箱所用之馬口鐵、皆運入不少、繁盛自不待言、此外各種增加之故、則以租借地內、及南滿鐵路沿線各處、大興土木、自上年起、直至今日、迄未停止、並各種工業之進步、用途擴大也、雜貨、如新蘇袋、洋灰、煤、電氣材料、玻璃、機器、自來火、美國煤油、並鐵路材料、運入本埠、與由鐵路運入滿洲者、均見加多、惟稻米、紙煙、及糖減少、新蘇袋進口之數、以本年爲最鉅、所以如此銳增者、

係因自前三年至現在，由海參崴經芬河運入者少，至前述大豆混合保管之辦法，亦爲一因。滿洲並租借地內，建築工程及各種工業之發展，致使洋灰、電氣材料、玻璃、機器、進口加多，本埠向爲煤斤出口之地，今因供給不敷，反由日本運來八萬噸，以充燃料，自來火增加之故，由於滿洲各工廠，人不敷用，製造減少，且華商工廠之出品，有運往山東以代日貨者，美國煤油，因在市面減價發賣，故得暢銷，朝鮮稻米，貨寡值高，是以進口者少，所食稻米，恃有他省及滿洲之出產，以補其缺，紙煙減少之故，一因日本朝鮮運來者稀，一因東亞烟草會社，在牛莊製出者多，糖之進口，不得謂少，只以羌帖跌價，不能運往西比利亞，遂使此項貿易，完全停滯，積存之糖，在五六月內，殆皆復出口，運往歐洲，除此之外，其進口淨數，爲二十五萬六千担，與上年相比，僅有三分之一。

洋貨復出口，往外洋復出口，估值總數，爲關平銀七百萬兩，往通商口岸復出口者，爲關平銀三百三十萬兩，往外洋復出口之大宗物品，皆屬轉口，或始料不及之復出口，就中如上海來之英國漂布，及他種棉布，轉運仁川、白糖，轉運比國昂維爾斯，咖啡豆，原擬轉運俄國，繼而轉運日本，並英美兩國，美國皮鞋，轉運海參崴並日本，往通商口岸復出口之大宗貨物，爲日本布疋、棉紗兩項，估值佔此全數三分之一，並其他各貨，多轉運上海、膠州、天津、芝罘、龍口等埠。

一 土貨貿易、土貨出口、運往外洋、及通商口岸、連復出口在內合民船出口者計之、共估值關平銀

一萬七百萬兩、比上年多一千五百萬兩、內中出口運往外洋者、上年爲關平銀七千二百四十萬兩、本年增至九千七百二十萬兩、其運往通商口岸者、上年爲關平銀一千九百八十萬兩、本年減至九百七十萬兩、推厥增減之故、前者、強半仍由於大豆、豆餅、豆油、出口加多、後者、則因豆餅、五穀、野蠶絲等、輸出無幾、本年出口大豆、達九百九十萬担、爲

從來未有之鉅數，比上年多四百二十萬担，所以如此暢盛者，係因上年在本埠碼頭及南滿鐵路沿線一帶，積存之南北滿大豆，率多運出，大豆出口，逕往歐洲之貿易，本年復見活躍，其運去數目，超過三百萬担，第二第三兩結，走貨非常迅速，嗣以匯兌困難，漸見停頓，運往日本之大豆，由一百四十萬担，增至五百七十萬担，蓋因用此充食品者加多，兼之農民以大豆利薄，皆擇利厚者耕種，致出產減少，至於該地油坊需用之日增，亦與有關係焉，運往日本之豆餅，本年增加二百二十萬担，雖係銀價昂騰，豆餅較貴，而購買之盛，全年曾不少息，實因該地米價，昂貴異常，農人得有餘力，多購肥料也，此貨在朝鮮國內，新闢一銷路，係該國政府，向不勸導農民用此為肥料，而今竟提倡焉，豆油，運往美洲者，上年最多，本年大減，尚不及其三分之一，其運往歐洲者，則非常繁多，能補美洲之不足，豆油，運往歐洲之貿易，一二兩月，殆全閉塞，此等不佳狀況，係因歐戰停止，無所需用，並相傳歐美各地存貨太多之故，迨三月內，歐洲訂單繼至，美洲亦復購買，遂見活動，此項出口貿易，亦以第二第三兩結，為最發達，嗣因金銀價值，大相懸殊，加之歐洲匯兌，虧折過鉅，致受打擊，直至年底，無甚起色，日本朝鮮兩國，農產不敷食用，購入滿洲五穀，為數孔繁，日本所買者，小麥、高粱、玉蜀黍、小米居多，朝鮮所買者，則強半為小米，此外高粱、玉蜀黍，亦有運往歐洲者，又有少數玉蜀黍，運往加拿大，裝輪船民船往山東各埠之雜糧，大為減少，因該省上年豐收也，歐美兩洲，植物油缺短，因而各種油糧，如草蘇子、蘇子、蘇子、芝麻等，出口暢旺，又以本埠各油坊，只有榨豆油之機器，致此各種油糧，均運往日本製造，撫順煤，減至上年全數之半，本埠且不敷用，非從前立有訂單，不准出口，不足之數，則以開灤及日本煤充補，其缺乏之故，由於撫順煤礦，工人短少，出品減退，並滿洲朝鮮各處，需用增多也，出口往芝罘之野蠶絲銳減，因安東繅絲發達，能以本地出產，逕運日本。

土貨復出口、估值總數、上年爲關平銀八百七十萬兩、本年增至一千一百七十萬兩、其中大宗貨物、均係由通商口岸運來轉運外洋、如上海膠州芝罘來之植物油、轉運歐美、上海來之夏布、轉運朝鮮、芝罘來之野蠶絲、上海天津來之稻米、均轉運日本、

土貨進口輸入租借地內者、估值淨數、連民船在內爲關平銀一千九百萬兩、上年爲一千二百

百八十萬兩、就中轉運滿洲者、爲關平銀一千一百萬兩、上年爲七百十萬兩、推厥加多原因、全在棉貨貿易之大有進步、中國布疋棉紗兩項、行銷滿洲、成本較日貨爲低、應能起而代之、適遇本年日貨短缺、價值昂貴、又特予國貨一良好時機、其棉紗之中、粗碼者、銷路尤暢、雖然自牛莊爐銀轉帳之制紊亂、棉貨進口路程、多改歸本埠、亦不得不謂爲加增之一原因、各種棉貨之中、棉紗加增最多、其運入本埠者、幾十四倍於上年、而運入滿洲者、則十一倍焉、職是之故、遂致供過於求、復以秋季北滿市面、因羌帖頓跌、貿易全然停滯、迨至年終、各該貨存積本埠碼頭者、爲數頗鉅、稻米、麥粉、紙烟、輸入之數、與上年畧同、煤則因撫順出貨缺少、致借助他山、以資挹注、約有上年二倍、菸葉進口大增、蓋因製造紙烟加多之故、已於洋貨貿易項內論及、

一 出入內地之貨、入內地領有子口單之洋貨、無、

出內地領有三聯單運往外洋之土貨、無、

特別論畧、無、

一 船隻、遵照本關總章行駛、進出口者、本年四千九百五十五隻、共計四百七十六萬六千四百十噸、上年四千四百十七隻、共計三百八十一萬二千七百四十二噸、歐戰以前、噸數最多之時、首推民國三年、以本年噸數、與之比較、猶少有增加、惟平均各船噸數、則大爲減退、就本年數目、與上年相比、日本輪船、多三百六十隻、共爲六十萬四千七百三十五噸、英國輪船噸數、比上年加一倍、然欲恢復戰前狀況、則相差尙遠、自歐戰停止、海運

界大呈弱象、貨物運費、並船身租金、立即大減、至三月內、兩項價目最低、比較歐戰最貴時、不及四分之一、嗣又漸入佳境、往來大連歐洲及美洲之船價、均見提漲、其率尙高、然往來大連日本者、船小而多、噸數亦頗不少、因此出口往該地之運費、全年低廉、遵照內港行輪章程、進出口之船隻、姑不具論、

一旅客、姑不具論、

一金銀、總計進出口數目、仍係減少、僅值關平銀二百二十萬兩、其中尙有四分之一、爲由他埠運來、轉口之銀圓、就本年進出口兩數、分而計之、則進口多於出口、厥因有二、中國大小銀圓、均不准外運、一也、奉天官憲、以維持紙幣之故、收存者多、二也、

一藥土、本年關東州特許阿片總局運入租借地之藥土、爲一百四十八担、上年爲二百七十八担、六月內、當局重申烟禁、實行按年遞減辦法、查明確有烟癖者、方准吸食、按人發給執照一紙、載明每日需用數目、復嚴諭分銷各所、不得售與無照之人、傳聞滿洲內地栽種鴉粟、大買大賣、租借地及南滿鐵路附屬區域之日本警察、奉令密查、時有破獲、出入本埠販賣高根嗎啡不法之營業、現已一律肅清、

一雜論、自上年歲杪、至本年歲初、始尙溫和、繼則甚冷、由一月以迄二月上旬、港內結冰、非碎冰船破鑿、不能航行、其結冰狀況、自前清宣統元年以來、此爲最厲、本埠溫度、以攝氏寒暑表衡之、最高時、在八月六日、爲三十五度七分、最低時、在二月二日、爲零下十七度八分、本年雨量甚小、全數爲四百二十九密米又半、往年折衷之數、爲六百三十八密米又一、七八九三月、滿洲及租借地內、霍亂流行、大連地方、於八月初旬發見、立致燎原、中國下等社會、多被傳染、自同月下旬、至九月初間、異常猖獗、每日疫死人數、有時達八十名、月底始漸撲滅、職此之故、行人咸有戒心、乘坐車船之旅客、均見稀少、經過大連之輪船、亦見減退、因日本地方、對於此項輪船、檢驗甚嚴也、一時出口貿易、大受影響、本年四

月、關東都督府改訂官制、重要各缺、俱有變更、都督改爲長官、民政長官改爲事務總長、長官永屬文職、以武人充任爲例外、是亦改革中之有興趣者也、同月十二日、陸軍中將男爵中村雄次郎免都督之職、以前任日本駐京公使男爵林權助任爲長官、宮尾順治免民政長官之職、以杉山四五郎任爲事務總長、南滿鐵路公司、同時亦有變更、理事長改爲社長、工學博士國澤新兵衛退職、以工學博士野村龍太郎充任、新添副社長一缺、以中西清一充任、該公司之新董事部、爲改良營業管理起見、於七月內、將各課人員更動、碼頭保險、自本年二月、又行恢復、然如上年論畧內所述之奇火、仍係不免、故至五月五日、保險復爲取消、銀行對此未保險之貨物、概不抵借、南滿鐵路公司、急起補救、爲一時權宜之計、准許碼頭露積區域未保險之貨物、倘兆焚如、賠償百分之九十、非然者、則商務上定受莫大之損失、此後又有幾起火災、惟時日相隔稍遠、至九月內之回祿、是爲最末次、官署曾捉獲縱火嫌疑犯一名、旋又釋放、自行出境、乃事有不期而合者、自此嫌疑犯出境之後、卽不復失慎、南滿鐵路公司、鞍山製鐵所之第一鑄鐵爐、四月二十九日、開始鍛鍊、五月一日出鐵、平均每日可達一百三十噸、不逮預料之數、且其品質、亦似遜於本溪湖之出產、民國九年會計年度內、第二鑄鐵爐可以竣工、並開始製造硫酸安母尼亞、惟其最後製鋼之目的、一時尙難達到、三井物產會社、存儲豆油之設備、將告成功、計有油槽七座、共容一萬噸、並製造油桶廠一處、民國九年秋季、均可完成、其主要目的、係爲將來豆油出口時、裝入散艙、既省桶價、並可減輕運費、誠新法也、至油槽貯油之利益、能澄清渣滓、提高成色、且免裝灌小桶之不便、及存入油池之危險焉、

(注意) 本款所用較小之數目字係表明復出口多於進口之數

Notes.—The figures in small type represent the excess of Re-exports over Imports.

凡由外洋進口運入租借地之各貨海關尚不查驗故所計數目均係約數

Figures for imports from abroad are taken from "Import Statements" (not Import Applications as at Chinese Treaty Ports) handed in by merchants when importing cargo into the Leased Territory. It not being necessary to check these to meet any Customs requirements, they must be taken as only approximate.

NEWCHWANG TRADE REPORT.

1. LOCAL.—After a series of lean years, when trade was going from bad to worse and when the pessimistic predictions that Newchwang was a moribund port seemed in a fair way of fulfilment, it is pleasant to record a recovery, and not merely a temporary recovery due to some special stimulant, but one founded on a return to more healthy conditions. In the first paragraph of the report for 1918 were specified the three dangerous symptoms which were undermining the well-being of Newchwang. These were the currency chaos, the South Manchuria Railway differential policy in favour of Dairen, and the bad condition of river transportation. Of these, two have been partially remedied and the third has been tackled in earnest. It was recounted in the report for 1918 how the important firm of Hsi I Shun (西義順), the largest issuer of transfer taels, had failed for about *Tts* 8,000,000 and how the local authorities had tried to bolster it up and avert a crisis. Sycee has for long disappeared from this market, and a nominal "shoe" (the unit) of transfer taels, *Tts* 53.50, which should equal \$81 in small-coin silver (*Mexican* \$74) fell as low as \$36 in small-coin notes (*feng-piao*), and as these notes were at that time at a discount of 45 per cent. as compared with Mexican dollars (*Mexican* \$100 = *Small-coin* \$180), a credit of *Tts* 53.50 had only a buying value of *Mexican* \$20 or *Sh.Tts* 14. Transactions in transfer taels were temporarily forbidden, and a firm or bank termed Kung I Yin Hao (公益銀號), composed of the nominees of Hsi I Shun's creditors, was established to control Hsi I Shun's business, and debentures to cover the firm's debts were issued. The assets were supposed to amount to two-thirds of the debts, and two-thirds of the debentures were transferable and interest-bearing and passed on the market as transfer taels; the remainder were non-transferable and bore no interest and were to be repaid only after the transferable debentures had been redeemed. The public had no confidence in the arrangement, and the value of the debentures continued to fall; the other *yin-lu* (銀爐), transfer tael banks, took advantage of the low price of transfer money to redeem their liabilities with the new issue, and the only transfer taels on the market were those of Hsi I Shun. An attempt was made to improve the value by fixing an arbitrary rate and to forbid the importation of goods by Chinese merchants. This attempt at a cure was worse than the disease; secret transactions and the further fall of credit could not be prevented, and the stoppage of the circulation of goods threatened the existence of the mercantile body. Thereupon the Civil Governor took direct cognizance of the dangerous situation and through the newly appointed Taoyin brought into being the Newchwang Currency Maintenance Society with the object of controlling the conduct of the *yin-lu* and of rehabilitating the value of the medium. The official banks have taken over the assets of the bankrupt firm, of which the flour mill at Harbin is the most important, and are redeeming the debentures. This action met with popular approval, and the value of the transfer tael rose to *Small-coin* \$0.48 at the end of the year, and there is every reason to suppose that it will continue to rise until it reaches its original value, when Hsi I Shun's debentures have all been redeemed and if the Currency Redemption Society carries out its programme. The unstable *feng-piao* was another clog in the artery of commerce. The refusal of the issuing banks to redeem their notes and the insufficiency of reserves brought the value of the notes steadily down until in November they were at a discount of nearly 50 per cent. as compared with Mexican dollars (*Mexican* \$100 = *Small-coin* \$192). Again the Civil Governor took drastic steps with a view to reorganising the whole banking system of the Three Provinces; about \$10,000,000 of notes were withdrawn from circulation, and copper cents were minted and placed on the market, with the result that after various fluctuations the notes now stand at about \$150 = *Mexican* \$100,

and a further improvement is expected. The second impediment to trade, due to the South Manchuria Railway policy, has also been in part removed. The local deputation sent to Tokio met with a favourable reception, and the freight rates have been revised in such a manner that Newchwang is no longer so heavily handicapped in its competition with Dairen. The new tariff was gazetted to come into force from the 1st October, but the Dairen merchants protested so vehemently that it was withdrawn for reconsideration. The result was that, while the rates were made slightly less favourable to Newchwang than had been arranged, they were raised all round, and the date of the introduction of the new tariff put back to the 15th November—too late to benefit Newchwang that season. The principle is that freight to Newchwang pays on a sliding scale according to distance and Dairen obtains a reduction of from 15 to 25 per cent. from the same scale of rates. This is more favourable to Newchwang than the old rates, under which Dairen obtained reductions of from 25 to 40 per cent. Taking an average of the various towns along the line to the north, the freight on 1 ton of beans is now about *Gold Yen* 1.50 more favourable to Newchwang than it was under the old tariff; e.g., from Kaiyuan to Newchwang (177 miles), freight on 1 ton of beans, *Gold Yen* 6.522; to Dairen (312 miles), *Gold Yen* 8.52; under the old tariff the figures were *Yen* 5.31 and 5.70 respectively. The improvement of the tariff will be nugatory unless a larger number of cars are allotted to Newchwang, and it is hoped that the recent purchase by the railway of about 1,000 new freight cars will render this possible. Perhaps the best proof of the certainty of Newchwang's future can be found in recent Japanese developments here; land purchases of nearly 2 million yen are said to have been made, and companies have been floated with an aggregate capital of over 3 million yen for the exploitation of banking, steamship and godown, and land and building interests. Newchwang's gain will not be Dairen's loss, for the development of Manchuria and Siberia promises to be so great and rapid that within 10 years it is probable that more railways and more ports will be required to deal with the immense surplus of produce. While nothing has as yet been done to improve the navigation of the Upper Liao, the conservancy of the river has been placed on a sound footing and will be dealt with in another section of the report. From the above it will be seen that never were the prospects of the port so bright, and this is the opinion of all classes of merchants. The Peking-Moukden Railway has, however, done nothing to assist in helping Newchwang beyond running two regular trains and an occasional freight train, while the rates are high, and no guarantee is given for safe carriage, thus obliging owners to accompany their goods at their own expense. In spite of the large profits made, it is short of rolling-stock, and the 500 new freight cars bought in 1918, of which 100 were given up to other lines, are only a moiety of the requirements. While the management of the line and the condition of the carriages call for stricture, it is a pleasure to note the punctuality of the service and the smooth running of the trains, due to the excellence of the engineering and traffic departments.

2°. REVENUE.—The year's revenue amounted to *Hk.Ŧs.* 747,527, constituting the best year's collection since 1915 and an increase of 48 per cent. over the figures for 1918. Export duties and tonnage dues show increases of 83 and 100 per cent. respectively. Coast trade duties alone show a slight decrease, a fact directly ascribable to the disturbed state of the local money market.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The value of direct importations of foreign goods was *Hk.Ŧs.* 6,086,955 and of coastwise arrivals *Hk.Ŧs.* 5,496,207, the total representing an increase of *Hk.Ŧs.* 2,097,369 over the figures for the preceding year. The importation of cotton goods has increased under certain headings, notably in the case of American sheetings, from 18,000 to 37,500 pieces; English jeans, from 31,000 to 50,000 pieces; velvets and velveteens, from 89,000 to 135,000 yards; and Indian cotton yarn, from 13,000 to 26,000 piculs. Japanese cotton goods, however, with the exception of grey shirtings, which have increased from 32,000 to 44,000 pieces, all show a marked falling off; grey sheetings, from 85,000 to 32,000 pieces; drills, from 63,000 to 45,000 pieces; and jeans, from 178,000 to 103,000 pieces; cotton cloth,

moreover, has declined from 1,500,000 to 423,000 yards and cotton yarn from 15,000 to 7,600 piculs. In view of the fact that the only notable decreases in the importation of this class of commodities are seen in the case of Japanese goods, it seems impossible not to conclude that the movement against these goods in Mid and South China must have influenced the local public and have received its effective sympathy. An increased demand for the locally manufactured patriotic (愛國) cloth has been a natural consequence of the growing change in the attitude of the public in this province and of the growing interest which it shows in public affairs. Importations of aniline dyes have advanced in value to *Hk.Tts.* 52,500, as compared with *Hk.Tts.* 23,000 for the preceding year. American kerosene oil, of which there was no importation in 1918, was imported during 1919 to the extent of 5,130,000 gallons, representing the largest importation of any variety of this commodity since 1915. Sumatra oil was imported to the amount of 3,241,000 gallons, being an increase of 200,000 gallons over the amount of the previous year's figures, while Japanese oil ceased to be imported.

(b.) *Re-exports.*—No remarks.

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise.*—The value of Chinese goods exported abroad amounted to *Hk.Tts.* 10,471,315 and of those exported coastwise to *Hk.Tts.* 7,754,134, being an increase of 146 and 47 per cent. respectively over the figures for 1918. The briskness of the export trade may be explained partly by the greater amount of tonnage available and partly by the increased demands by Japanese, acting frequently as middlemen for American buyers, for all kinds of raw materials. The substantial reduction which took place in freight rates on the conclusion of hostilities in Europe and the presence of abundant supplies of all the important staples which awaited shipment combined to favour the export trade in the year under review. Practically all articles of importance have increased by large amounts. With the plentiful supplies of beans in stock from the excellent crop of 1918 and with an enormously increased demand in Japan for beancake and bean oil there was keen competition on the part of the local oil mills, four of which, worked by motor engines, were newly opened. Bean oil exports, which in 1918 amounted to the paltry total of 7,206 piculs, the lowest on record, increased to 106,548 piculs for the year under review; beancake has advanced from 1,760,000 to 3,310,000 piculs, the totals of these commodities approximating respectively to those in 1913, before general dislocation was caused to trade by the outbreak of the European War. Yellow beans, the most important of the bean variety here, increased by 161 per cent. and constitute the best total for the last three years. The privilege already enjoyed by Manchuria of exporting abroad certain grains led to a very large increase in their exportation to Japan, where the inflation in the price of rice put this article of food outside the reach of the masses of the people. Barley thus increased from 523 piculs in 1918 to 24,770 piculs in the year under review, and maize and wheat from 49,000 and 48,000 piculs to 279,000 and 204,000 piculs respectively. Kaoliang exports decreased from 105,000 to 11,000 piculs owing to the large amount of grain available in Shantung as the result of an exceptionally good harvest. Dogskin mats were exported to the number of 265,000, being an increase of 56 per cent. over the 1918 figures. The ginseng crop was good, the total amount exported being 3,035 piculs, as compared with 2,055 piculs in the previous year. Wild raw silk shows an increase of 85 per cent. and waste silk an increase of 73 per cent., while the export of silk cocoons increased more than threefold. With a sufficiency of tonnage for Vladivostock again being available, Government salt exported to that port amounted to 441,000 piculs, being the highest figure since 1915.

(b.) *Imports.*—The value of Chinese imports amounted to *Hk.Tts.* 11,891,676, being an increase of *Hk.Tts.* 639,474. With the exception of nankeens, all cotton goods show large decreases; this is owing to the gradual displacement of the Southern sheetings and drills by the locally manufactured varieties, which has caused an increased demand for Indian cotton yarn. Alum, cigarettes, flour, medicines, 2nd quality paper,

and soda all show large advances. The increasing activity of native cigarette manufacturers is seen in the opening of a local agency by the Nanyang Tobacco Company as the chief distributing centre for its products in Manchuria. Salt imports from the neighbouring port of Foochow Bay show the record figures of 877,000 piculs. The importation of sugar, the annual volume of which was once reckoned in tens of thousands of piculs, has during 1919 sunk to the record low-water mark of 1,625 piculs. This is probably due, in the first instance, to the chaotic state of the market in Harbin and to the fact that the newly opened beet-sugar factory at Moukden now produces a considerable quantity of this commodity, said to amount to 50,000 piculs during the year under review, while, lastly, it is probable that Dairen is importing Southern sugar in increased quantities.

5°. INLAND TRANSIT.—(a.) *Inwards (under Transit Pass).*—Dues collected on goods sent inland amounted to *Hk.Tls.* 26,098, an increase of nearly 35 per cent. over the figures for 1918. The number of passes issued is greater by 3,636.

(b.) *Outwards (under Transit Certificate).*—No remarks.

(c.) *Special.*—The amount of Chinese factory products sent inland under *yāntān* shows a very healthy increase. The number of passes issued is 991 in advance of the previous year's figures and the value of the goods greater by *Hk.Tls.* 908,000, representing an increase of nearly 55 per cent.

6°. SHIPPING.—(a.) *Under General Regulations.*—The total number of vessels entered during the year was 485, representing a tonnage of 415,863, being an increase of 80 per cent. over the previous year's figures. The Japanese flag predominates with 288 vessels, over half of which entered in ballast. The Chinese flag comes next with 120 vessels, and the British third with 71. The increases in the numbers of the vessels flying these flags are 88, 52, and 97 per cent. respectively.

(b.) *Under Inland Steam Navigation Rules.*—No remarks.

7°. PASSENGER TRAFFIC, 8°. TREASURE, and 9°. OPIUM.—No remarks.

10°. MISCELLANEOUS.—The Anshan Ironworks, formed in 1916 by the South Manchuria Railway Company with a capital of *Gold Yen* 10,000,000 and mention of which has been made in previous reports, has not made the progress originally anticipated and has not as yet fulfilled the hopes of its promoters. The idea of establishing large ironworks in the centre of a district rich in iron ore was formed at a time when, owing to the European War, steel was not only very expensive but was also almost impossible to obtain. Owing, however, to various mistakes made and difficulties encountered, it was only by the middle of 1919 that the first two furnaces were lit—out of the 16 originally planned. The quality of the ore, moreover, is said to have fallen below the average of the former assays, its purity not being more than about 30 per cent. The present daily output consists of a small quantity of pig iron, and the scheme of making Anshan the Birmingham or Pittsburg of South Manchuria is temporarily in abeyance.—The borings on the Peipiao (北票) coal-fields have been continued by the Peking-Moukden Railway's representative and a survey made of the line to connect the district with the main line at Chinhsien (錦縣). Foreign capitalists, working in conjunction with the Board of Communications and the provincial government, are interesting themselves in the project of developing the port of Hulutao. It is to be hoped that, if arrangements are carried through, a working agreement will be made with the Peking-Moukden Railway: the port needs the coal and other freight, and the mines need a convenient port. At the beginning of 1919 the South Manchuria Railway Company entered into an arrangement with the Kailan Mining Administration by which

they became the sole selling agents for Kaiping coal in Manchuria in return for agreeing not to export to the area in which Kaiping coal predominates. It is difficult, however, to see how the South Manchuria Railway could have exported their coal to the extent of its becoming a menace to the Kaiping product, as it is known that the output was becoming insufficient to supply the needs of Manchuria alone. By this agreement, which would appear to be distinctly in favour of the South Manchuria Railway Company, the latter acquired a virtual selling monopoly of all coal in the local market, and the price for bunkers advanced from *Gold Yen* 15 to 24.50. The importation of foreign (Japan) coal has increased from 35 to 9,502 tons; this variety is chiefly used in bean mills, the native sub-bituminous product not being suitable for industrial requirements. The importation of Kaiping coal has increased from 40 to 22,133 tons.—The outbreak of cholera, which visited Manchuria with such deadly results, reached this neighbourhood in July and caused a large amount of mortality among the poorer classes. In the town itself there were not many deaths, but in many of the outlying villages fully half of the inhabitants perished.—The weather conditions somewhat militated against the crops during 1919, for although the spring rains were abundant, there was a long period of exceptional drought in the summer. However, when the long-delayed rain came it was sufficient to ensure a fairly satisfactory harvest. Kaoliang and beans showed good returns, and other crops on the whole averaged from 60 to 70 per cent.—Owing to the death of the late engineer-in-chief in January 1918 and to shortness of funds, practically no work has been done in the Upper River and very little in the Lower River sections of the Liao Conservancy. It is pleasant to record that differences of opinion have now been adjusted, and arrangements were made to engage a British engineer to complete the work on the Lower River and a Japanese engineer to carry out the improvements to the Upper River. Mr. P. N. Fawcett, formerly of the Haiho Conservancy, took up the position of engineer to the Lower River in October, and Mr. T. Arai, engineer to the Ministry of the Interior in Japan, was appointed in November for the Upper River. Unfortunately, Mr. Arai met with a sad death in December in a railway accident near Kaiyuan, and a Chinese surveyor and interpreter shared his fate. It is pleasing to note the generous treatment shown to the families of the deceased by the directors of the South Manchuria Railway, who promptly allotted compensation to the amount of *Gold Yen* 30,000 for the engineer, *Gold Yen* 5,000 for the surveyor, and *Gold Yen* 3,000 for the interpreter. No successor has yet been appointed. In the absence of engineers no estimate could be given of the cost of the works, but the Government authorised the following appropriations from the Customs Revenue Account: for the Upper River, *Hk.Ts.* 1,350,000, and for the Lower River, *Hk.Ts.* 400,000. The first instalment was paid on the 31st December. A fresh survey was made of the bar by Mr. H. C. Müller, kindly lent for the purpose by the Coast Department, and it is gratifying to see that the training walls already constructed have justified themselves. While in 1916 there was a patch of 13,000 feet having a depth of only 6 feet low water ordinary springs, this has been reduced to 6,000 feet.—The Government sanctioned the establishment of a quarantine hospital for shipping. The appropriation from Customs revenue of *Hk.Ts.* 40,000 for the building and *Hk.Ts.* 1,250 per month for maintenance was authorised, and the management was placed under the North Manchuria Plague Prevention Service, with Dr. Wu Lien Teh as medical director and the Taoyin and the Commissioner of Customs as directors. Construction was commenced in the autumn, and the hospital will be ready for opening in the early summer.

11°. NATIVE CUSTOMS.—The total value of the trade was *Hk.Ts.* 12,293,284 and the revenue collected *Hk.Ts.* 87,609, showing decreases of about 15½ and 24 per cent. respectively. The falling off of duties is general under all headings: import, *Hk.Ts.* 8,000; export, *Hk.Ts.* 14,000; tonnage dues, *Hk.Ts.* 5,000. The chaos in the money market, referred to above, was ruinous to the import trade, and many junks, of which only 913 entered from the South, against 1,515 during the previous season, learning of local conditions discharged their cargoes in Shantung ports. Of the imports, nankeens, in spite of exemption from all duty, decreased by 9,500 piculs, and this decrease is not due to any growing preference for Japanese cloth but to

an increasing competition by the local hand-worked cloth mills. In 1918 there were only 20 of them working here, and in 1919 their number had increased to 100. Both the high market rate and the low exchange affected exports, and many junks, arriving to ship beans, cake, and oil, left in ballast, being unable to purchase at paying rates. Bean oil declined by 22 per cent, and beancake exports were smaller by 56 per cent. The decline of kaoliang from 616,000 piculs in 1918 to 207,000 piculs was mainly due to the good crops and consequent smaller demand in Shantung and Chihli. Certain articles, however, show a gratifying increase, viz.: jute, by 400 per cent.; melon seeds, by 82 per cent.; while castor oil more than doubled in quantity.

I am indebted to Mr. H. C. Morgan, 2nd Assistant, B, for assistance in the compilation of this report.

C. E. S. WAKEFIELD,
Commissioner of Customs.

NEWCHWANG, 4th March 1920.

中華民國八年牛莊口華洋貿易情形論畧

竊查本口貿易情形、連年商業凋敝、幾有一落千丈之勢、牛莊商埠、奄奄衰敗、似在臆度之中、詎本年竟能恢復舊觀、良堪欣慰、推其原因、蓋由於商務漸形復活、并非假於特別之援助、而呈此暫時之佳現象也、去歲貿易論內、曾經提及本埠商務、有三種危險、不振之主因、一爲金融紊亂、一爲南滿鐵路、對於大連取保護政策、一爲河道運輸之艱難、然一二兩般、現已稍有補救、其第三種困難、亦正竭力經營、以剔除之、本埠行使爐銀、商號領袖西義順號、如何虧累至八百萬兩、及地方官長、如何設法拯救、鎮靜市面、去歲已經聲叙、無庸復贅、現銀一宗、早已絕跡、惟爐銀、每錠雖以五十三兩五錢爲本位、不過徒有其名、按其價格、原合小洋八十一元、即合大洋七十四元、乃竟降至奉票三十六元、奉票兌換大洋、照四十五分折扣、每百八十元、折合大洋百元、是爐銀一錠、只合大洋二十元、即規銀十四兩、爐銀交易、遂有暫停之議、而西義順號之債權、起而組織公益銀號、代理其營業、發行債券、抵還債款、估其財產、約抵債額三分之二、發行之債券、亦即三分之二、可相授受、兼付利息、與爐銀一律通用、其餘一分、不能授受、亦無利息、然付還之期、則以通行之債券、有無收回爲定、而社會對於此種辦法、多懷疑慮、債券價格、因愈低落、斯時爐房、均以爲時機可乘、彼此用以清賬、市面上之爐銀、只有西義順一號而已、乃有擡高銀價之提議、商酌定一價目、並禁止華商運貨進口、詎此種辦法、不惟無益、適足以敗壞本埠之大局、爐銀暗行交易者、仍難禁阻、其價格乃愈趨愈下矣、省長關懷大局、思以補救、由新任道尹籌畫取締方法、設立營口金融維持會、監視本埠爐房之動作、以圖恢復爐銀之原價、現在西義順號財產、已全歸於官銀號、惟其財產之最重要者、則爲哈爾濱之火磨、該號債券、現正陸續收回、此種辦法、社會贊同、當無疑義、爐銀價格、已於歲杪、漲至奉票四十八元之高、如能繼續進行、則西義順號債券、收回之後、爐銀價格、自不難復

原、本埠商務之障礙、固由於銀法不良、然奉票漲落無常、亦不得辭其咎、況有各銀號發行不兌現洋之票、準備金亦復不足、以致票價時形跌落、十一月間、竟落至每百九十二元、折合大洋百元、幾至折半、亦云甚矣、張省長有鑒於此、酌定嚴厲辦法、改定東三省官銀號現行規則、收回紙幣、約計一千萬元、并鼓鑄銅元、藉資流通、現在票價雖未大增、然已增至每百五十元、折合大洋百元、將來尙有增高之希望、南滿鐵路政策、爲本埠商務第二之障礙、現有一部份、已經改革、代表等曾往東京、請彼邦政府修改章程、已蒙許可、此後牛莊、尙可與大連抗衡、不至如昔日居於不利之地、新章本定於十月一日施行、嗣以大連商人、反對新章甚烈、因而另議、此次修改、係將各類運費、概行增高、較諸前次所改者、與牛莊稍爲不利、是以至十一月十五日、始見實行、惜時期較晚、牛莊之旺時已過矣、按照新章、運費之多少、係按途程遠近核定、運貨至牛莊、與至大連、兩相比較、而大連於同一價目中、仍減百分之十五至二十五、當新章未行以前、大連減百分之二十五、至四十、新舊章程相較、則牛莊居優勝地位、自無待言、就沿路線往北各城鎮而論、平均計算、每噸豆子運費、牛莊可沾日金一元五角之利益、例如豆子、由開原至牛莊、計程一百七十七英里、每噸運費、日金六元五角二分二釐、至大連計程三百十二英里、運費日金八元五角二分、按舊章核算、運管爲日金五元三角一分、大連則五元七角、運費章程、雖云改良、惟其分配車輛、不能多與牛莊、仍鮮功用、近來鐵路公司、新置貨車、約一千輛、或有濟歟、觀本埠日人事業之發達、已足爲將來牛莊與盛最顯明之表証、據聞所購土地、約值日金二百萬元、其肇端營業者甚多、資本總額、在日金三百萬元以外、爲開擴銀行輪船倉庫、建築房宇等之預備、牛莊之勝利、未必爲大連損害、且滿洲及西比利亞之發達、既盛且速、其大部份之出產、無由運輸、不十年勢必多開商埠、多築鐵路、以應要需、意中事也、惟遼河上游航務、尙未從事改良、然其工程正在進行、詳細情形、見於雜論條內、

牛莊商務之發達，正未可量，商人亦均抱樂觀也。京奉鐵路對於牛莊，并無何等之援助，不過日間，開通常車二次，間或開例外貨車一次，該路運費較昂，且於載運貨物之保全，亦不負責，商人只得隨車保護，不但費重，事亦較繁，雖云年有盈餘，而車輛仍不敷分配，去歲新購貨車五百輛，亦僅敷需用之半數，况內有一百輛，撥歸別路耶？該路辦法之不善，車輛之窳劣，人多非之，惟辦公時刻有準，車行平穩，尙堪差強人意，蓋由於機務車務兩處，管理得法耳。

一 本關稅課，本年征收稅餉，共計關平銀七十四萬七千五百二十七兩，民國四年以來，本年稅收爲最旺，較上年增百分之四十八，出口稅增百分之八十三，船鈔增至一倍，惟復進口稅，稍形減少，由於本埠圍法紊亂之故也。

一 洋貨貿易，洋貨由外洋運進口，及由通商口岸運來者，洋貨運進口，估值關平銀，計六百八萬六千九百五十五兩，由通商口岸運來者，估值關平銀，計五百四十九萬六千二百七兩，兩項合計，較上年增二百九萬七千三百六十九兩，棉貨進口，多有增加，最甚者，爲美國原色粗布，英國細斜紋布，棉剪絨，及印度棉紗四種，美國原色粗布，由一萬八千疋，增至三萬七千五百疋，英國細斜紋布，由三萬一千疋，增至五萬疋，棉剪絨，由八萬九千碼，增至十三萬五千碼，印度棉紗，由一萬三千担，增至二萬六千担，日本棉貨，惟原色布一項，由三萬二千疋，增至四萬四千疋，餘皆甚減，原色粗布，由八萬五千疋，減至三萬二千疋，粗斜紋布，由六萬三千疋，減至四萬五千疋，細斜紋布，由十七萬八千疋，減至十萬三千疋，棉布，由一百五十萬碼，減至四十二萬三千碼，棉紗，由一萬五千担，減至七千六百担，其進口貨之如是銳減者，實由於中國中部及南省，停銷日貨，影響本埠之故，本省人民之心理，對於日貨既有變更，對於愛國之舉動，又樂贊成，則本地所織之愛國土布，銷路定然暢旺，乃自然之勢也，顏料進口，較諸上年增加甚鉅，本年計估值關平銀五萬二千五百兩，去年僅二萬三千兩，美國煤油，上年并無進口，本年則有五百十三萬

加倫、自民國四年以來、各類煤油進口、此爲最鉅、蘇門答臘煤油進口、計三百二十四萬一千加倫、較上年增二十萬加倫、日本煤油、已屬絕跡、洋貨復出口、姑不具論、

一土貨貿易、土貨出口運往外洋、及通商口岸、運復出口在內運往外洋者、估值關平銀、計一千四十七萬一千三百十五兩、較上年幾增百分之一倍半、運往通商口岸者、估值關平銀、計七百七十五萬四千一百三十四兩、較上年增百分之四十七、本年土貨出口貿易之興旺、半由於噸位之多、半由日人需用之增、蓋日人常代美人購辦各種原料、不但此也、歐戰停後、運費大減、且有大宗貨物待運出口、上年豆子豐收、屯積頗多、而日本運用豆餅、豆油、甚形踴躍、引動本埠各油業之競爭、添設油坊四家、均用汽機工作、上年豆油出口、只有七千二百六担、爲數頗少、本年乃增至十萬六千五百四十八担、豆餅、由一百七十六萬担、增至三百三十一萬担、核與民國二年、每項出口之數、不相上下、然彼時商務、尙無因歐戰停滯之故、黃豆、爲本埠豆類中最重要之品、本年增加百分之一倍半有奇、出口總數、較近三年爲最鉅、滿洲享有米糧准運外洋之利益、而日本米價又極昂貴、不得不轉籌他計、故雜糧出口、運往日本者、大見增加、大麥、由五百二十三担、增至二萬四千七百七十担、玉蜀黍、由四萬九千担、增至二十七萬九千担、小麥、由四萬八千担、增至二十萬四千担、高粱、由十萬五千担、減至一萬一千担、其故由於山東收穫豐稔、足供該省之用、狗皮褥出口、計二十六萬五千張、較上年增百分之五十六、人參收成頗豐、上年出口、二千五十五担、本年三千三十五担、野蠶絲、增加百分之八十五、亂絲頭、增加百分之七十三、蠶繭、乃增至三倍、官鹽運往海參威者、四十四萬一千担、民國四年以來、以本年爲最多、

土貨進口、淨值關平銀一千一百八十九萬一千六百七十六兩、比上年增六十三萬九千四百七十四兩、除土布一宗、所有棉貨、均形縮減、蓋以本埠各種土布盛行、有逐漸起

而代原色粗布、粗斜紋布之勢、印度棉紗進口之多、職是之故、明礬、紙烟、麪粉、藥材、次等紙、及鹼、均形增加、中國紙烟商、甚見活動、南洋烟草公司、在本埠設立經理處、以爲分配東三省銷售紙烟之中心點、鹽、由復州灣進口者、計八十七萬七千担、糖、本年進口較少、只有一千六百二十五担、推原其故、一由哈爾濱金融紊亂、一由奉天甜菜製糖廠、出產頗富、間有五萬担、又因南省之糖、由大連進口者多耳、

一 出入內地之貨、入內地領有子口單之洋貨、本年所征該項稅課、計關平銀二萬六千九十八兩、較上年增百分之三十五、所發單數、增三千六百三十六張、
出內地領有三聯單、運往外洋之土貨、姑不具論、

特別論略、機器仿製之貨、領有運單者、此項貿易、頗見起色、所發運單、比上年增九百九十一張、貨價則增九十萬八千兩、約增百分之五十五、

一 船隻、遵照本關總章行駛者、本年進口、共有四百八十五隻、計四十一萬五千八百六十三噸、較上年增百分之八十、日輪進口爲首屈一指、計二百八十八隻、內有一半係屬空船、次爲中國船、計一百二十隻、英國船又其次也、計七十一隻、日本船、增百分之八十八、中國船、增百分之五十二、英國船、增百分之九十七、內港輪船、遵照內港行輪章程行駛者、姑不具論、

一 旅客、姑不具論、

一 金銀、姑不具論、

一 藥土、無、

一 雜論、南滿鐵路公司、於民國五年、備資本日金一千萬元、在鞍山創立鐵廠、前此貿易冊內、已經提及、迄今并未見有若何進步、主動創立者、大失所望、原其所以設一鐵廠、在富於鐵鑛區域之中心點者、鑒於歐戰正劇、鋼質不但價昂、且不易得、然其辦法多有失當、遂致進步遲緩、幾費躊躇、本年六七月間、而一二兩爐、始行開工興作、其原意、本定爲十

六爐據聞該礦所出之鐵質不及以前試金之均度，純質約百分之三十，每日所出者，不過少數生鐵而已，由是以觀，該廠欲為南滿洲之堡明漢，或壁脫史勃之大計畫，不得不暫行擱止矣。北票煤礦之開掘，由於京奉鐵路繼續辦理，并擬建築支路，與錦州相近之幹線銜接，已經測過地段，外國資本家，與交通部及省政府，現正竭力謀畫，擬將胡蘆島開為商埠，兩方面如能議妥，即可與京奉鐵路局商訂合同，胡蘆島若開，煤與運貨須繼其後，而北票之煤礦，亦須有利濟之口岸，本年春令，南滿鐵路公司，與開灤礦務局，訂立合同，開灤礦務局，允將開平煤，由南滿鐵路公司，在滿洲獨自經售，而撫順煤，不能運至開平煤行銷之區域，惟撫順煤日形減少，供給滿洲一處，尙慮拮据，何能與開平煤爭衡，此所不解者也。該項合同，似與南滿鐵路公司，大有利益，該公司已獲本埠各種煤專賣之權，船用之煤，每噸已由日金十五元，增至二十四元五角，日煤進口，由三十五噸，增至九千五百二噸，此種煤，大半用於油房，因中國所產之次等煤，不合於工藝之用，開平煤進口，由四十噸，增至二萬二千一百三十三噸，本年滿洲虎烈拉疫，為患甚烈，七月間，蔓延至本埠，受其害者甚少，貧民雖有死亡，不若附近村民，間有死去一半者之甚也，本年春令，雨水調和，入夏以來，早魃為虐，歷時經久，秋收似無希望，俟後得沛甘霖，乃以有秋，亦云幸矣，高粱、豆子，收穫豐足，雜糧收成，平均計算，約六七分，遼河工程，上游毫無成績之可言，惟下游稍有進益，固因總工程師於上年逝世，亦由於經費之竭蹶，今幸各方面意見相同，聘定英日兩工程師，上下游分別進行，下游聘定前充天津海河工程師英人福綏脫君充任，於十月間到差，上游則為前充日本東京內務省工程師荒井君充任，於十一月間到差，不料荒井君於十二月間，因所乘之火車，距開原相近地方衝撞，受傷而故，并中國之測量員及繙譯員，亦遭慘故，南滿鐵路公司總辦，不勝惋惜，分別給予恤金，工程師為日金三萬元，測量員五千元，繙譯員三千元，繼任工程師，尙未聘定，今經政府核准，工程經費，上游應由洋稅項下提撥關平銀一百三十五萬兩，下游四十萬兩，其第

一期、已於十二月三十一日提交、遼河下游淺灘、復經倩由巡工司所派穆樂爾君測量、所築之隄、頗著功效、當民國五年、該淺灘有一萬三千尺、春季潮水最低時、深不過六尺、今已縮至六千尺矣、本埠設立海口檢疫醫院、爲檢查往來船隻之用、業經中國政府允准其購地、暨建築費、以及每月經常費、均准由關稅項下提撥、計購地及建築等費、計關平銀四萬兩、每月經常費、計關平銀一千二百五十兩、其內部管理、係附屬北滿防疫事務處、該院院長、係以伍連德醫士兼充、總辦以道尹兼充、會辦以稅務司兼充、至此項建築工程、已於本年秋季、開始興作、開院日期、約在明歲孟夏間也、

一常關、本年經過常關之貿易、估值關平銀、計一千二百二十九萬三千二百八十四兩、所征稅項、計關平銀八萬七千六百九兩、較上年貨價、減百分之十五有奇、稅餉、則減百分之二十四、各項稅課、俱形短絀、進口稅、減關平銀八千兩、出口稅、減一萬四千兩、船鈔、減五千兩、本埠金融紊亂、於進口貿易、最爲窒礙、因有多數帆船、聞本埠銀法毛荒、俱將所載之貨、卸於山東口岸、本年南省帆船進口、共九百十三隻、去歲一千五百十五隻、相差甚遠、土布已屬免稅、本年進口、乃亦減九千五百担、溯厥原因、蓋由於本埠手機布廠、甚形發達、並非人民習尚日本布也、上年該項布廠不過二十、本年竟增至百家、亦云盛矣、本埠滙水既高、而市面洋銀、兌換又低、出口商業、受其影響、殊非淺鮮、本有多數帆船、欲由本口裝運豆子、豆餅、豆油出口、惟以價目不合、只得空船而往、豆油出口、少百分之二十二、豆餅、少百分之五十六、高粱、上年出口六十一萬六千担、本年則減至二十萬七千担、諒因山東、直隸收穫良佳、銷路較少耳、惟蘇麻、瓜子、葦麻油等、俱形大增、蘇麻、增至三倍、瓜子、增百分之八十二、葦麻油、增至二倍、以上所述、深資二等幫辦模爾根之贊勳焉、

CHINWANGTAO TRADE REPORT

1°. LOCAL.—The net value of trade at this port during 1919 was *Hk.Ts* 15,700,440, an increase over 1918 of $3\frac{1}{2}$ million taels. Year by year progress has been continuous, but it must again be admitted, as in previous reports, that business in general is capable of far greater expansion than it has yet shown. The increase during the year under review is entirely due to the steady development of the trade in coal, exports of which reached an average monthly total of over 170,000 tons. Coal may well be described as the *raison d'être* of Chinwangtao, but it is destined to become something more, for the proximity of this mineral wealth and the cheapness of Chinese labour open up prospects for the future of the port as an industrial centre which have never been more apparent than to-day. This is clearly shown by the unusual number of inquiries received during the year from European and American manufacturers seeking information as to the possibility and practicability of erecting factories of the most varied types: in some cases representatives inspected sites and studied local conditions in person. Certainly the year is one of promise. The Kailan Mining Administration intends to erect, as soon as the necessary plant can be procured, a blast furnace for the production of pig iron and eventually steel, the ore being obtained from iron-fields in the Wuhu district. There will also be a large plant for making coke and subsidiary plants for the recovery of by-products, Kaiping coal being particularly suitable for these purposes. The works will occupy an area of nearly 2 square miles within the near angle formed by the Tangho River and the railway line. A coal-washing plant capable of operating about 9,000 tons a day is to be put up, and an additional coal-yard—at present a lagoon—will be laid out to the south-east of the present one. Great harbour improvements are also contemplated—over 1,000 ships visited Chinwangtao in 1919—and plans have been prepared for the construction of a new breakwater and alterations to the present one which will raise the total berthing accommodation of the port from 7 to 20 berths. During the year a cement godown with storage space for 12,000 casks was completed; electric light was extended to the Peking-Moukden Railway Station, and the pumping station at Tangho was replaced by electrically driven plant with a capacity of 10,000 gallons an hour.

2°. REVENUE.—The collection was *Hk.Ts* 362,448, which is second only to that for the year 1914 (*Hk.Ts* 415,415). Nearly four-fifths of this amount were contributed by export duties and tonnage dues, both record totals, though collections under the other headings all show slight increases over the previous year.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—Since 1915 the value of this trade has stood roughly at 2 million taels (excluding the value of arms imported for Government use), as compared with 4 millions in pre-war years. In particular, importations destined for Manchuria have receded steadily year by year, although, during the latter half of 1919, some consignments came this way instead of *via* Dairen as a result of the Japanese boycott. Cotton piece goods and cotton yarn, which formerly occupied premier place under this heading, have suffered a further severe set-back (value *Hk.Ts* 628,092 in 1918, *Hk.Ts* 281,302 in 1919), which is happily compensated for by a correspondingly large increase in similar products from Chinese factories—a resultant of cheaper prices and of the growing demand for national goods. Cigarettes increased from 164,110 to 182,770 mille, although much larger quantities of native cigarettes were also imported. There was a direct shipment from America of just over 50,000 cases of kerosene oil, a great part of which was immediately transported to inland depôts, chiefly in North-east Chihli, where stocks had fallen very low. Increased quantities of metals and minerals principally, but also

of electrical materials, machinery, machine tools, and building materials, to a total value of *Hk.Tts.* 651,000, were imported consequent upon the growing development of mining enterprises and also because orders had been restricted to a minimum during the war. There were fewer sleepers and materials for the railways. Other articles, such as sugar, paper, and soda, which make up the remaining bulk of the trade, came in normal quantities.

(b.) *Re-exports.*—No remarks.

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports).*—The value of this trade reached its highest total (*Hk.Tts.* 9,543,758) as a result of the large increase in the export of coal. In 1918, 1,419,931 tons of coal were shipped from Chinwangtao, or slightly more than the aggregate total (1,413,993 tons) from all other ports in China; in 1919, 2,074,982 tons left the port. The increase bears entirely on the coastwise trade and is indicative of healthy progress in the development of native industries, although other factors, such as the revival in shipping, reduced importations from Japan, and the scarcity of Fushun coal available for export owing to local demands, also contributed to the result. With declining freights, new markets are opening up all over the East, and at times the supply was scarcely equal to the demand, especially in regard to the better grades. Large contracts have been entered into with Japanese firms, and three new shafts are to be sunk at the principal collieries, so that the future of this trade may be looked to with confidence. Shipments of anthracite from the Liukiang mines (included in the above totals) increased from 26,636 to 51,503 tons: 19 per cent. to Japan and 10 per cent. to Korea (mostly dust and slack for making coke, Kaiping coal being superior to Japanese in this respect); 7 per cent. to Hongkong (bunkering) and 4 per cent. to other foreign ports; 38 per cent. to Shanghai and 22 per cent. to 18 other Chinese ports (in both cases for bunkering, industrial, and household purposes). Coke decreased from 21,780 to 19,210 tons and cement from 503,913 to 162,015 piculs, large quantities of the latter article being sent away from Tangku instead of *via* this port. Bricks and tiles show slight decreases; the figure for raw silk, 128 piculs, was about up to the average; and there were a few experimental shipments of silver ore. The remainder of the trade calls for no special remarks.

(b.) *Imports.*—This section of the trade continues to show encouraging results, its value having risen from *Hk.Tts.* 1,095,497 in 1918 to *Hk.Tts.* 1,868,036 in 1919. In particular there were substantial advances in cigarettes, cotton yarn, and cotton piece goods.

5°. INLAND TRANSIT.—(a.) *Inwards (under Transit Pass).*—Foreign goods sent inland under transit pass consisted chiefly of mining materials and machinery, kerosene oil, and cigarettes, in each of which there was an increase.

(b.) *Outwards (under Transit Certificate).*—No remarks.

(c.) *Special.*—This trade to Manchuria is no longer important, but shows some improvement over the previous year, due, it is thought, to accidental and temporary causes.

6°. SHIPPING.—The total tonnage dealt with amounted to 2,086,924 tons, which is double the tonnage for 1913 and nearly half a million tons more than in any preceding year: 1,081 ships entered and 1,090 cleared. There were 136 entries during December, and on the 13th of that month a total of 24 ships was either at berth or at anchor. British tonnage (372,841 tons) shows an increase of 72 per cent. over the figures for 1918, and there was also a large increase under the Chinese flag, new companies having built small ships and started business during the last few years.

7°. PASSENGER TRAFFIC, 8°. TREASURE, and 9°. OPIUM.—No remarks.

10°. MISCELLANEOUS.—During the latter half of January and until the 10th February persistently unfavourable winds caused an accumulation of ice in the Gulf of Liaotung, which resulted in difficulties to navigation more serious than any experienced since the opening of the port.—The highest reading of the thermometer was 94° F. in August and the lowest -2° F. during February. The rainfall, 13.95 inches in 187 hours, was scarcely more than half that of a normal year.—The new Chinwangtao Light was first exhibited in September, and has since been lighted continuously from sunset to sunrise irrespective of wharf or harbour lights. Its 1,000 candle-power electric lamp radiates through the lens of a 6th order light with excellent effect to an approximate distance of 20 miles.—Numerous deaths from choleraic diarrhoea during July and August occurred in the immediate district and at various points along the railway. Precautionary measures were promptly adopted here in order to arrest the spread of the epidemic among the 3,000 odd coal coolies. Later an epidemic of influenza claimed many victims.—On the 25th November the Chinese steamer *Hsinpingan* struck Shoal Point, near Shanhaikwan, and, after drifting westwards, finally stranded near the shore about 5 miles from Chinwangtao Bluff. She remained there until the 11th December, when she was successfully refloated with the aid of a powerful tug from Tientsin. She apparently suffered no damage.—The largest quantity of coal ever shipped from this port in one month was 256,429 tons during December.—There were fewer summer visitors than in previous years owing to the large post-war exodus from China.—The Italian gun-boat *Sebastiano Caboto* remained here again during the greater part of the summer (28th July to 30th September); the United States cruiser *Brooklyn* spent some days off Chinwangtao in April and the French cruiser *D'Estrées* in July.

E. G. LEBAS,

Deputy Commissioner of Customs.

Approved:

F. W. MAZE,

Commissioner of Customs.

CHINWANGTAO, 27th February 1920.

中華民國八年秦王島口華洋貿易情形論畧

竊查本年本口貿易情形、各貨淨值關平銀一千五百七十萬四百四十兩、較去年多三百五十萬兩、貿易繼續、年盛一年、然仍須如往年論略、承認普通商業、尙有大發展之餘地、本年之增益、完全由於煤斤生意穩健之進行、平均計算、每月出口十七萬餘噸、此項確可謂爲本口存在之原理、且運數所定將爲較尤重要者、以其附近礦產豐富之區、且有廉價之華工、啓發本口日後爲工業中心之企望、從未有若今日之明瞭、其顯著者、卽有多數之歐美製造家、函詢本口是否合宜爲各項工廠之設施、且有派代表來島親自履勘地勢、及研究地方情形者、本年確爲有望之一年、開灤礦局意欲設立一鑄鐵廠、以蕪湖地方所採之礦石化煉生鐵塊、嗣後兼製鋼鐵、俟機器運到、卽可興工、另有製焦炭之機器、及輔助機件、以補救其各副產品、開灤煤於前項製造均特別合用、該廠將設於京奉路線南湯河、東岸、面積幾二英方里、并建築一洗煤處、每日能洗九千噸之譜、且在現有煤場東南之淺水塘、添建一新煤場、改良港口之大計畫、現已思及、本年到口船隻有一千餘艘之多、且已繪圖、以備另築一新碼頭、及將舊有者改良、工竣後泊船處、可由七處增至二十處、本年建成之洋灰棧、可容存貨一萬二千桶、電燈機、已推展至京奉路站、在湯河之起水機、已改用電力、每句鐘可激水一萬加倫、

一本關稅課、共收關平銀三十六萬二千四百四十八兩、本關最盛之民國三年、則有四十一萬五千四百十五兩、本年祇居該年之次、出口稅及船鈔二項、於全數內幾占八成、尤爲向來所未有、其餘則較上年微有增益、

一洋貨貿易、洋貨由外洋逕運進口、及由通商口岸運來者、此項貿易、除官用軍械價值外、在歐戰以前、每歲約估值四百萬兩、自民國四年以來、每年約不過二百萬兩、指定運往東三省之貨、雖於本年下半年有因抵制日貨之故、不由大連、改裝本口輸送、仍前年復一

年之退步，布疋及棉紗，向爲此類貨之巨擘，本年則更形縮減，去年估值六十二萬八千九十二兩，今年則有二十八萬一千三百二兩，幸有中國紡織廠，製造相類貨物之大增，足堪抵補，此項華貨之盛，因其價格稍廉，亦以漸知注重國貨之故，洋紙烟雖有較多數之土紙烟運進，由十六萬四千一百十蜜力，增至十八萬二千七百七十蜜力，本年由美國運運到口之煤油船一次，計五萬餘箱，多半甫報進口，即運往直省東北內地各油棧，因該處存儲無幾，大宗五金，及礦產類，又電氣材料，機器，暨機器需用器具，并建築需用之材料，共估值六十五萬一千兩，以上均形增漲，因礦務營業擴充，及歐戰時期限制購運所致，鐵路枕木，及鐵路材料，進口較少，其餘貨物如紙張，糖，碱等，皆無漲落，洋貨復出口，姑不具論。

一土貨貿易，土貨出口運往外洋，及通商口岸，連復出口在內此項貿易之價值，計關平銀九百五十四萬三千七百五十八兩，已達至極高度，因出口煤斤大爲增加所致，去年出口煤斤共一百四十一萬九千九百三十一噸，較通商各口統計運出之一百四十一萬三千九百九十三噸，稍有增益，本年出口共計二百七萬四千九百八十二噸，其增漲因運往通商口岸者甚鉅，此可證明各口實業發展之狀況，亦緣船隻盛旺，而由日本運來者減少，且撫順煤斤，僅供本地之需，此皆其助長之原因也，現在水脚日漸低落，於東亞各處新開銷場，有時高等之煤特然供難應求，復與日本商號定立大批合同，是以擬定來年於大礦區另開三井，日後此項貿易之發達，可操券而待也，柳江硬煤出口數目，包括於上記總數之內，由去年二萬六千六百三十六噸，增至本年五萬一千五百三噸，總計各煤爲百分，去日本者十九分，高麗十分，多係末煤以供煉焦之用，因開灤煤煉焦，較日本者爲優，去香港者七分，係爲船用，去外洋別口者四分，往上海者三十八分，去十八處華口者二十二分，多屬船用，及製造住戶等所需，出口之焦炭，則形減少，由二萬一千七百八

十噸、落至一萬九千二百十噸、洋灰亦見短絀、由五十萬三千九百十三担、落至十六萬二千十五担、此項退減、因多由塘沽出口所致、缸磚、缸瓦、亦畧形減少、出口之絲、則有一百二十八担、較常年無異、試運之銀礦石、曾幾次出口、別項貨物、則無足具論、

土貨進口貿易、本年依然進步、共值關平銀一百八十六萬八千三十六兩、去年則有一百九萬五千四百九十七兩、至紙烟、棉紗、布疋類、皆實有增漲、

一 出入內地之貨、入內地領有子口單之洋貨、多半為礦用材料、及礦用機器、并煤油紙烟等項、皆較上年加鉅、

出內地領有三聯單運往外洋之土貨、姑不具論、

特別論畧、運往東三省之貿易、現無甚緊要、雖較上年稍有起色、其原因想係偶然、不能持久、

一 船隻、共計二百八萬六千九百二十四噸、較民國二年加增二倍、比以前各年幾多五十萬噸、其進口船隻計有一千八十一次、出口一千九十次、十二月內有一百三十六隻船到口、是月十三日有船二十四隻之多、或靠碼頭、或在港內停泊、英國噸數共三十七萬二千八百四十一噸、較上年多七成有餘、華船亦甚增多、因近數年有新立之公司、購置較小之輪船、以營航業、

一 旅客、姑不具論、

一 金銀、姑不具論、

一 藥土、姑不具論、

一 雜論、自一月半後至二月十日間、恆有逆風、致遼東海股冰塊堆積、因而航路異常險阻、為開埠以來所罕見、本年華氏寒暑表、最高係在八月間、為九十四度、最低係在二月間、為起點下二度、雨量於一百八十七點鐘時間內、為十三英寸九五、較常年僅能過半、本

口新建燈塔由九月開用、無論碼頭有無別項燈光、悉按時開點、該燈係千枝燭力之電燈、自六等透光鏡發出、效果良佳、其光可達至約二十英里之遙、七八月間、霍亂症發現於本埠一帶、及京奉路沿線之各處、致多人斃命、因恐延及開灤局所用之三千工人、迅速佈置、豫爲防阻、嗣至年底復有時症流傳、亦死多人、十一月二十五日、中國新平安輪船、在山海關附近處、觸於暗沙、後往西漂浮、至距島約五英里之處、觸岸擱淺、直至十二月十一日、因有由津放來有力之小汽船助力、方能復浮水面、船亦未見受損、於十二月分出口煤斤、有二十五萬六千四百二十九噸、其增盛爲以前各月所未有、夏季來島之遊客、較少於往年、因歐戰休止多作還鄉之舉、義大利戰艦名喀博圖者、於夏令自七月二十八日至九月三十日停泊港內、美國巡洋艦名布克林者、於四月間、又法國巡洋艦名迭斯特瑞者、於七月間、各在本口寄碇數日焉、

民國九年 二月 二十七日

秦王島海關稅務司梅樂和呈報

第五節 出入內地之貨

V.—INLAND TRANSIT.

第一款 本年入各省內地領有子口單之洋貨

1°. Provinces to which Foreign Goods were forwarded under Transit Pass during 1919.

省名	PROVINCE.	子口單 NO. OF PASSES.	貨價 VALUE.	內地子口稅 TRANSIT DUES.
		張	兩 <i>Hk. Ts</i>	兩 錢 分 <i>Hk. Ts</i>
直隸	Chihli	3,067	1,330,771	22,529.133
奉天	Fengtien	928	279,495	4,504.332
吉林	Kirin	67	24,269	444.750
黑龍江	Heilungkiang	10	3,705	67.500
共	TOTAL	4,072	1,638,240	27,545.725
領有運單之機器仿製貨	STEAM FACTORY PRODUCTS UNDER SPECIAL TRANSIT PASS.			
直隸	Chihli	145	60,843	...
奉天	Fengtien	411	240,504	...
共	TOTAL	556	301,347	...
統共	GRAND TOTAL	4,628	1,939,587	27,545.725

第二款 本年出各省內地領有三聯單運往外洋之土貨

2. Provinces from which Chinese Goods were brought under Transit Certificate during 1919.

省名	PROVINCE.	三聯單 No. OF CERTIFICATES.	貨價 VALUE.	內地子口稅 TRANSIT DUES.
		張	兩 Hk. \$s.	兩 錢 分 Hk. \$s.
直隸	Chihli	85	316,041	3,513.095
奉天	Fengtien	5	321	9.485
共	TOTAL	90	316,362	3,522.580

第三款 本年遵照本關專章入各省內地領有子口單之土貨

3. Provinces to which Chinese Goods were forwarded under Transit Pass under Chiuwangtao Special Practice during 1919.

省名	PROVINCE.	子口單 No. OF PASSES.	貨價 VALUE.	內地子口稅 TRANSIT DUES.
		張	兩 Hk. \$s.	兩 錢 分 Hk. \$s.
直隸	Chihli	508	586,016	2,790.512
奉天	Fengtien	407	144,504	1,243.445
吉林	Kirin	2	54	1.238
共	TOTAL	917	730,574	4,035.195

第六節 稅鈔

VI.—REVENUE.

第一款 本年海關徵收各項稅鈔完納關平銀按國旗號之數

1°. Dues and Duties collected under each Flag by the Maritime Customs during 1919.

旗號	FLAG.	進口正稅 IMPORT.	出口正稅 EXPORT.	復進口稅 COAST TRADE.	船鈔 TONNAGE.	內地子口稅 TRANSIT.	統共 TOTAL.
		兩 錢 厘 Hk. Tls	兩 錢 厘 Hk. Tls	兩 錢 厘 Hk. Tls	兩 錢 厘 Hk. Tls	兩 錢 厘 Hk. Tls	兩 錢 厘 Hk. Tls

TIENTSIN TRADE REPORT.

1°. LOCAL.—1919, being the first year after the Great War, brought with it a notable increase in the trade of this port, the net value of which rose from 153 million Haikwan taels in 1918 to 189 million taels, an increase of 36 million taels, which is a record for Tientsin. This advance was largely due to an increase in the tonnage locally available for the carriage of merchandise (1,062 steamers entered and cleared in comparison with 803 steamers the previous year), as well as to the fall in ocean freights and the gradual removal of restrictions on trade which had been imposed by the belligerent powers. The net value of foreign imports showed an increase from 73 million to 85 million Haikwan taels during the year under review. There was a good demand throughout the year for most kinds of foreign goods, as arrivals during the progress of the war had been insufficient to meet the demand; moreover, traders in the province had enjoyed considerable prosperity owing to excellent crops in the preceding autumn and had, besides, received good prices for raw materials during the past few years. The high sterling exchange throughout the year naturally stimulated imports, but this was partly offset by the greatly increased cost of all manufactured articles abroad. Imports were also undoubtedly handicapped by the fact that manufacturers abroad were only able to partly supply the demand, owing to the reorganisation of factories after the war and to unsettled labour conditions. This, however, was not the case as regards the piece goods trade from England, which appears to have been little affected by adverse conditions at home. Steady deliveries were made throughout the year, enabling considerable business to be done, as the markets here had become denuded. Japanese trade was affected to some extent during the latter half of the year by the boycott. Although the statistics of trade do not disclose any falling off in the importations of Japanese goods, yet the sales are said to have diminished, and the retail merchants have suffered. Piece goods, cotton yarn, socks, singlets, soap, and sundries were most affected. The latter articles had found ready sale owing to their cheapness, but the demand was fairly well met by the increased sale of Chinese articles made locally and in Shanghai. These products show an improvement in quality, and, while on the whole not as good as the Japanese articles, they are cheaper. The total value of exports increased from 51 million Haikwan taels in 1918 to 71 million taels during the year under review. At the beginning of the year there was a falling off in the demand for raw materials owing to the labour troubles abroad and because the close of the war left foreign governments with large stocks on their hands which they were compelled to dispose of on the open market. However, as time passed, the labour conditions gradually improved, and the government stocks were gradually absorbed. The high sterling exchange compelled the manufacturer abroad, of course, to pay more for local products, but improved financial conditions, on the other hand, enabled the increased cost of the manufactured article to be met, and the demand for raw materials was well maintained throughout the year. During the last months of 1919 the scarcity of silver in the money market handicapped export trade, and banks in many instances were unable to advance silver for the purchase of produce in the interior, where the native bank-notes were unacceptable owing to their still being at a discount.

2°. REVENUE.—The total collection for the year was *Hk.Tts* 5,203,386, which is easily a record and which is an advance of 1 million taels over the collection of the previous year. The cause of this increase was mainly the general improvement in trade already described, but the introduction of the Revised Import Tariff in August helped in a lesser degree to swell the revenue. Import duty, export duty, and tonnage and transit dues all showed a general increase.

3. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The value of foreign imports which reached Tientsin direct from foreign countries was 66.88 million taels, and of foreign imports from Chinese ports 19.86 million taels, making the total value of foreign imports 86.74 million taels. From this figure must be deducted the value of foreign goods re-exported, 1.39 million taels, leaving a net importation of 85.35 million taels. This total represents an increase of 12 million taels compared with the figures for 1918. There was a large increase in the importation of cotton piece goods, the statistics for the principal kinds showing an advance in the number of pieces of nearly 30 per cent. over the previous year. The importation of metals also increased, as it was possible to obtain supplies from abroad after the termination of hostilities. There was also a large increase in the number of small native foundries equipped with lathes for the manufacture of implements and machine parts, which contributed to increase the demand. Over 33 million gallons of kerosene oil were imported, as compared with 20 million gallons the previous year. This was due to the fact that the stocks of the oil companies had been completely depleted during the foregoing eighteen months, and it was necessary to replenish them. The increased importation, therefore, did not necessarily mean increased consumption, although there is undoubtedly a very attractive future for kerosene oil in North China.

(b.) *Re-exports.*—No remarks.

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports).*—There was an increase of 21 million taels in the value of the export trade, as the demand was steady throughout the year and the supply of tonnage was satisfactory. The Panama route to New York is reported to have increased in favour. The delays in the transmission of cables combined with periodical advances in the exchange were a serious handicap to export trade. Exportations of raw cotton increased from 442,000 to 572,000 piculs, as the crop was good and the demand, especially from America, was firm, while prices here were lower. The exportation of sheep's wool during the year amounted to 280,000 piculs, compared with 278,000 piculs the previous year. Shipments were normal until the last two months of the year, when the high exchange caused the price to rise about 20 per cent. above the foreign markets. There was a phenomenal advance in the exports of cotton seed, which rose from 54,000 piculs in 1918 to 347,000 piculs during the year under review. It was nearly all exported to Japan, where the oil was expressed and shipped to Europe and America, where it is in great demand for the manufacture of margarine. There was a big increase in the export of all kinds of furs, those mostly shipped being fox, squirrel, marten, wolf, and raccoon. There was a large demand for this article from foreign countries, and many of the furs which were formerly shipped *via* Vladivostock were brought to this port either by railway or by the caravan route *via* Urga for shipment abroad owing to disturbed conditions in the former port. The exportation of untanned goat skins increased from 2.48 million pieces in 1918 to 4.63 million pieces during the year under review. Large shipments were made to satisfy the large demand in America for shoe leather, where high prices ruled. There was likewise a large increase in the export of dog skins, which rose from 33,123 pieces in 1918 to 131,325 pieces. The demand for these skins from abroad greatly increased with the development of the automobile traffic, the skins being used for gloves and rugs. There is probably no place in the world where such large dog skins covered with such long hair are to be found as in Manchuria, Mongolia, and the northern part of China, where the temperature often falls about 30° below zero in winter: the dogs are reared purposely for their skins. The liquorice trade with foreign countries, which had seemed so hopeful in 1917 and 1918 and for which a great future was predicted, absolutely ceased during the year, as the supplies from Mesopotamia and Turkey recaptured the market, the liquorice there being better and cheaper.

(b.) *Imports.*—The net value of Chinese goods imported amounted to 32.87 million taels, or 4.72 million taels more than the previous year.

5°. **INLAND TRANSIT.**—(a.) *Inwards (under Transit Pass).*—Foreign goods sent inland were valued at 36.47 million taels, which showed an increase of 9.23 million taels. Chihli, Shantung, Honan, Shensi, and Kirin were the provinces to which most of the trade was forwarded, taking 21.60, 1.41, 3.01, 0.49, and 0.38 million taels respectively.

(b.) *Outwards (under Transit Certificate).*—As compared with that of the previous year, the value of Chinese goods brought to Tientsin showed an increase. 11,752 certificates, covering produce valued at *Hk.Ts.* 25,681,375, were surrendered, as against 9,534 certificates, covering produce valued at *Hk.Ts.* 21,231,144, in 1918.

(c.) *Special.*—Chinese factory products in this district were much in demand owing to the insufficiency of supplies from foreign countries, and the special passes issued exempting them from inland duty increased considerably. Several new cotton mills are under construction, and more are projected, for the spinning of cotton yarn and weaving of sheetings, drills and heavy canvases. The machinery mostly came from America, and the capital was subscribed locally. All these establishments use electric power produced in their own plants. These developments in the cotton textile industry here are significant as indicating that in time North China is likely to become a cotton-manufacturing centre of considerable importance, although the present output of the various mills is too limited as yet to have much effect on the piece goods market.

6°. **SHIPPING.**—(a.) *Under General Regulations.*—The total entries and clearances amounted to 2,122 vessels, with a tonnage of 2.18 million tons, as against 1,609 vessels, aggregating 1.59 million tons, the previous year. Arrivals and departures under every flag showed an increase. Freights dropped continually throughout the year, and a great deal of fresh tonnage which had been released from war service arrived. The supply of ocean tonnage, however, was not adequate for requirements.

(b.) *Under Inland Steam Navigation Rules.*—No remarks.

7°. **PASSENGER TRAFFIC.**—The number of foreign passengers travelling by coast steamers to and from the port increased from 4,103 in 1918 to 4,424 during the year under review. The railway route to the south *via* Pukow continued to receive foreign patronage, but the Chinese travelling public preferred the steamer route because of its relative cheapness and of the facilities given for the conveyance of luggage by that route.

8°. **TREASURE.**—No remarks.

9°. **OPIUM.**—Extensive smuggling of opium and its derivatives has to be recorded, and the Customs authorities made some notable seizures during the year under review. A great deal of morphia undoubtedly finds its way into North China from abroad—notwithstanding the vigilance of the Customs,—and the menace to the health of the people is becoming a matter of supreme importance. The ease with which the drug can be smuggled baffles detection in most cases, and even the most stringent preventive measures cannot stop the evil. The real solution is to limit production to purely medical requirements, but this can only be effected, of course, by mutual agreements between the countries concerned. An Anti-Narcotic Society, of which His Excellency the Civil Governor is president, has been established, and its activities have been useful, more especially as regards propaganda work and keeping alive public opinion, etc.

10°. **MISCELLANEOUS.**—*Railways.*—Traffic returns showed a steady increase on all railways. The permanent ways were successfully maintained throughout the year, with the exception of a period of two months on the Peking-Hankow Railway, when the line was interrupted owing to floods. On the

Peking-Moukden Railway the line will probably be doubled between Tangshan and Shanhaikwan in the near future, owing to the increased output of coal from the Kaiping coal-fields. The average haul on this line for December was 9,000 tons a day, showing an increase of 4,000 tons over the previous year, the record haul being 14,000 tons in one day. New engines and rolling-stock have been provided in order to cope with the situation. Passenger returns showed a slight decrease, probably owing to an epidemic of cholera in summer. The outlook for 1920 is very promising.

Haiho Conservancy.—Mention was made in the report for 1918 of the serious shoaling of the bar caused by the floods during 1917, and the measures taken by the Haiho Conservancy Board to restore the Bar Channel, etc., were described. The expectations entertained regarding the improvements likely to result by the selection of a new line of direction (S. 72° 40' E.) across the bar in continuation of the Deep Hole Channel were realised, and the dredging operations conducted during the season showed satisfactory results and enabled a signalled depth of about 14 feet 6 inches on the side lines to be registered towards the close of the season; in the centre line of the channel the depth was 1 foot more, or 15 feet 6 inches. The Taku Bar Leading Marks now serve for the entire length of the Bar Channel, and with the exception of a short section in the Deep Hole, they mark the centre of the fairway. For the time being, however, the marks lead vessels over the inner portion of the Deep Hole somewhat to the north of the centre of the channel and close to the southern edge of the north bank. The Haiho Conservancy Board, however, proposes to remove the south-western corner of this bank by dredging and to prevent further encroachment on the fairway by the construction of training walls or groynes—referred to below,—and when these works are completed vessels navigating on the marks will practically be in the centre (or deepest) part of the channel all the way. But the groynes will serve other and more important purposes: it is expected that by their agency the new line of direction of the Bar Channel will be permanently maintained, that ice-breaking operations will be facilitated, and that the formation of an inner bar will be prevented, etc. The construction of these works at the river entrance appeared to the Commissioner of Customs to afford a favourable opportunity for submitting to the notice of the Chinese and foreign authorities concerned an important reclamation project, which has for its object the development of a deep-water port in the vicinity and the construction of steamer wharves, godowns, coal-yards, and railway sidings on land reclaimed between the North Fort and the inner end of the Deep Hole. The engineer-in-chief of the Haiho Conservancy Board advises that from an engineering standpoint the scheme is quite feasible and would not be unduly expensive and that the position concerned—situated as it is at the actual mouth of the river—is for a variety of reasons the most suitable site available. The first reach of the river is straight, is about 1,000 feet broad, and is deep, thus possessing obvious advantages for the accommodation of shipping. It is superior in this respect to other sites further up stream, which are not only much more limited in extent, but do not possess such favourable advantages as regards breadth of river or depth of water. If facilities for deeper-draught steamers are provided on the above lines, it is no exaggeration to state that the shipping interests of the port would be revolutionised and that the trade of Tientsin and North China would greatly benefit. A deep-water port below Taku, for example, would form a convenient shipping centre for the coal business; similarly, the oil companies trading here would probably find it advantageous to erect installations at the river entrance and, provided sufficient depth of water can be secured in the future, bring ocean-going steamers alongside and discharge direct. It should be considered, however, that the immediate execution of the scheme mainly depends upon the existing requirements of the coal trade, and the present conditions of this branch of business do not, for the moment, appear to call for increased wharfage accommodation, etc., but in view of expected developments in this connexion both locally and in Shansi in the near future it may be predicted with reasonable certainty that in the course of the next decade a deep-water port on the lines indicated will be constructed. In the past,

the steamer traffic here has necessarily been restricted to coasting vessels only, which impeded the general expansion of trade. It is improbable, however, that the future needs of Tientsin can be indefinitely met by such means, and if this important trade centre is to maintain and improve its present influential position, it is essential that facilities for ocean-going shipping be provided on modern lines. The following report on the subject has been issued by the Haiho Conservancy Board: "In the Haiho Conservancy Report for 1918 mention was made of the tendency the first bend below the river entrance has to scour seawards in the direction of the river entrance line. From surveys of 1858, 1902, and 1918 this tendency is made very evident, and the movement can be roughly estimated at about 75 feet per annum. This movement will not cease unless the bend is effectively protected. On the other hand, the improvement of the mouth of a tidal river like the Haiho is an obvious necessity when it is considered that the influx of the flood tide is in volume 13 times that of the fresh water from inland. The good effect obtained in the river generally by the widening of the river mouth at the North Fort in 1914 is unmistakable. The improvement and systemisation of the river entrance, therefore, will not only effect a local improvement, but will facilitate the influx of tidal water, on which the maintenance of the river for the most part depends. The Haiho Conservancy Board has recently placed an order for a powerful Hopper dredger. The delivery of this dredger is expected in the spring of 1921, and it is confidently anticipated that it, together with the existing bar dredger, will be able to excavate and maintain, excepting in seasons of abnormal freshets, a channel having a depth of 20 feet at ordinary high water. Dredging alone will enable the depth of the lower reaches of the river to be extended through the bar: but, unless measures are adopted to stabilise the inner end of the channel, it will, as in past years, continue to move southward parallel to itself. The engineer-in-chief recently proposed to the Board to construct the dikes shown in red on the attached plan, with the object of attaining that systemisation and training of the river entrance which is highly desirable for the following reasons:-

1. It will regularise the influx of the flood tide.
2. It will make permanent the inner end of the channel.
3. It will facilitate considerably ice-breaking operations in that the raising of the north bank will prevent the ice from lifting off the flats at high water and blocking the river entrance, which is at present the principal difficulty to be contended with.
4. It will prevent the formation of an inner bar and will assist the channel to maintain itself.

The Board has authorised the immediate construction of the smaller dike on the South Flats and has agreed in principle to the proposal gradually to build a dike along the north bank. It will not be possible, at any rate until a new course is given to the silt-laden Yungtingho, for vessels of a draught exceeding 15 feet to come up to Tientsin Bund, and it was this fact that prompted Mr. Maze to suggest the possibility of reclaiming the flats behind the dike to be built on the north bank and thereby to provide wharf accommodation for vessels drawing up to 20 feet of water. At Mr. Maze's request, Mr. Pincione, engineer-in-chief, prepared a plan of the proposed reclamation work and reported that the project was a perfectly feasible one and that it would comprise the following works:—

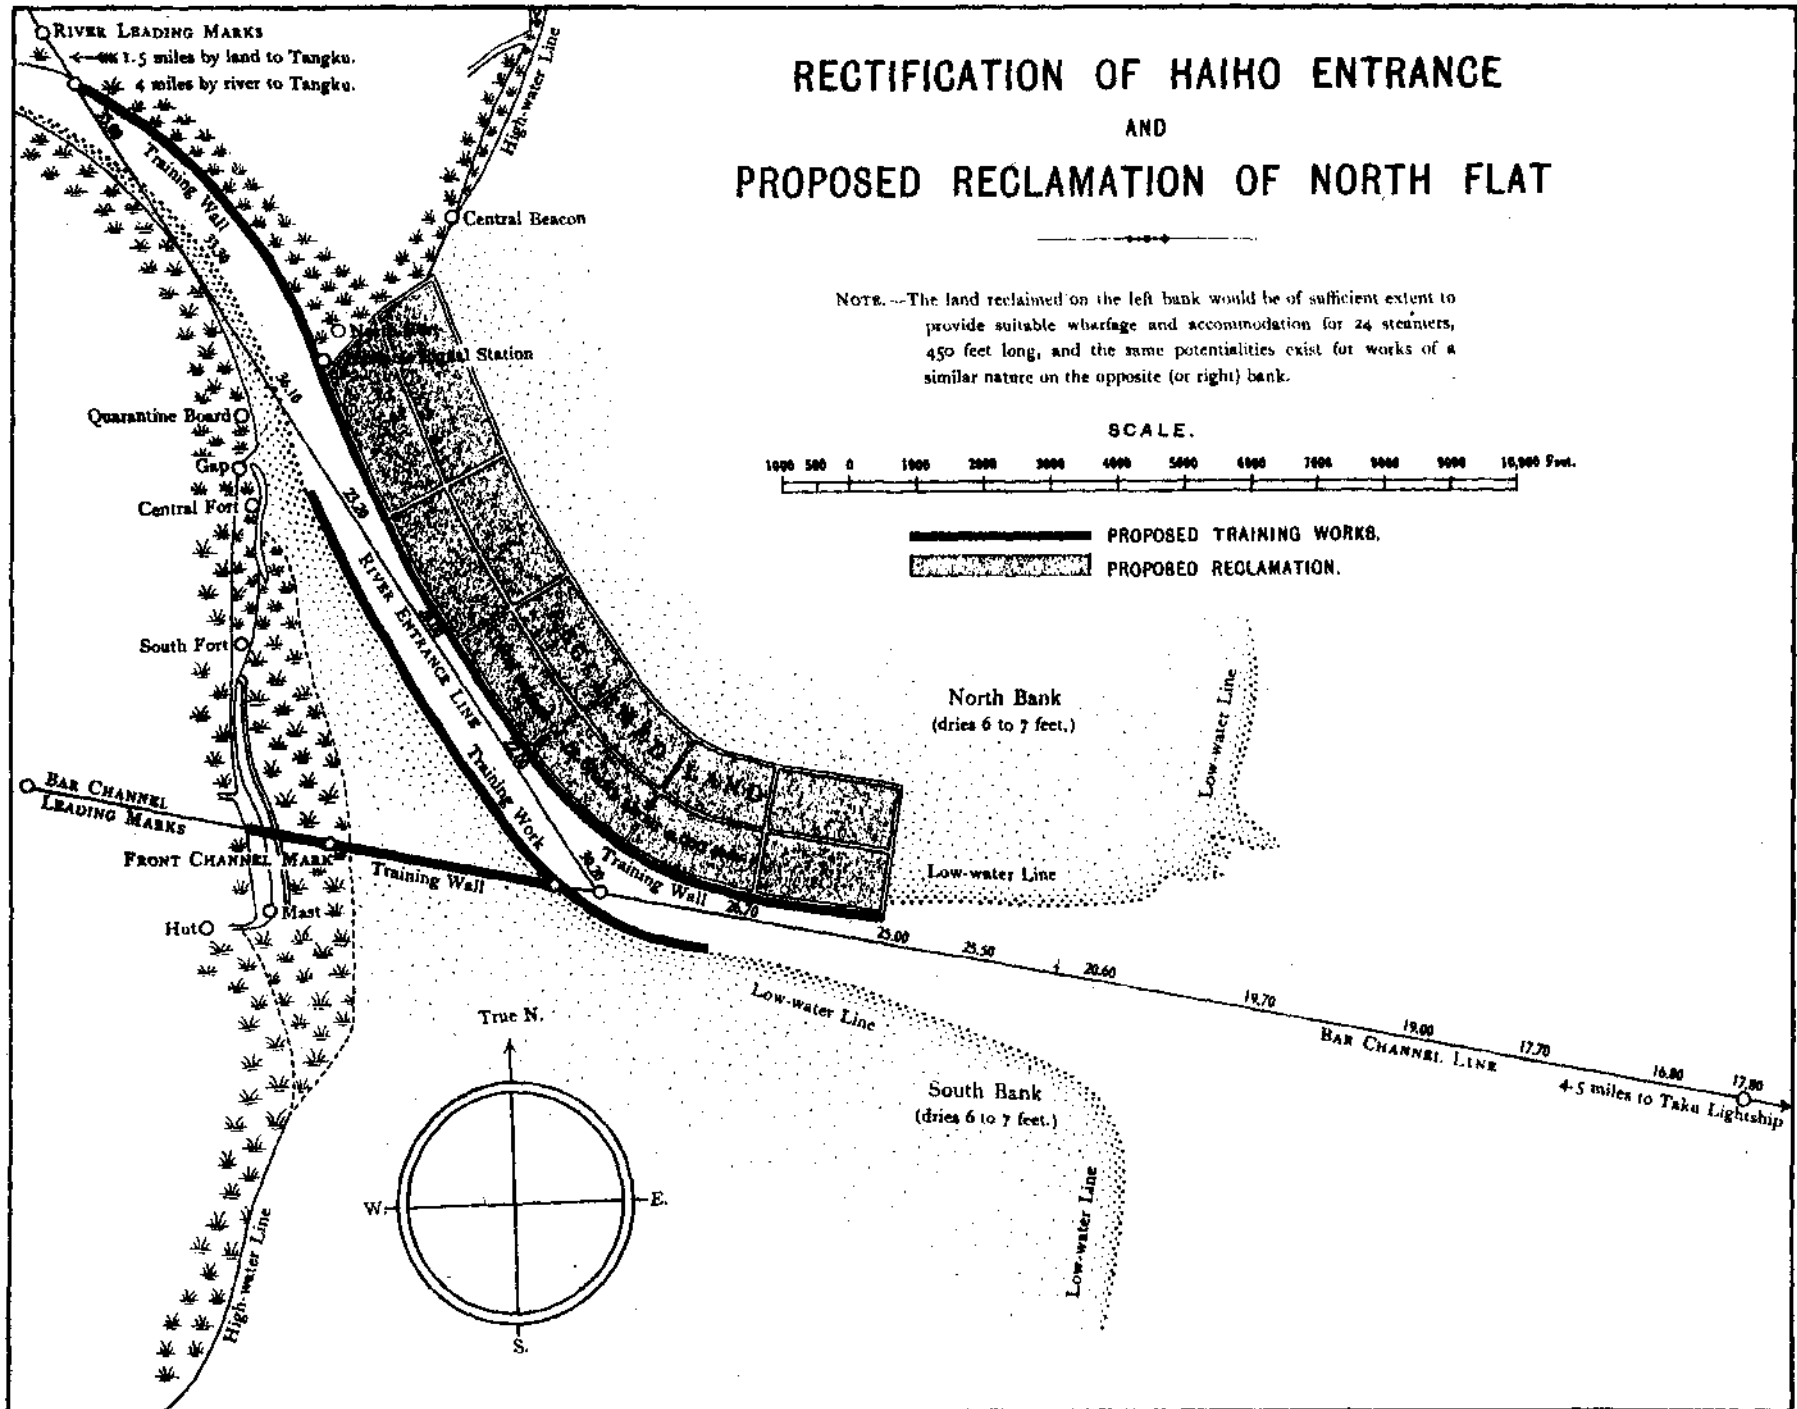

- (a.) The rectification and protection of the north bank from Messrs. Butterfield & Swire's property to the North Fort.
- (b.) The rectification and protection of the South Flat from the Quarantine Station to the concave of the bend.
- (c.) A dike from the Front Beacon of the channel to the concave side of the bend in the direction of the channel, in order to preclude any passage of water over the South Flat.
- (d.) The dredging of the spit of the bend and the silting of the foreshore north until the normal line is reached.

RECTIFICATION OF HAIHO ENTRANCE AND PROPOSED RECLAMATION OF NORTH FLAT

NOTE.—The land reclaimed on the left bank would be of sufficient extent to provide suitable wharfage and accommodation for 24 steamers, 450 feet long, and the same potentialities exist for works of a similar nature on the opposite (or right) bank.

PROPOSED TRAINING WORKS.
 PROPOSED RECLAMATION.

- (e.) 12,000 feet of zinkstuk dike along the edge of the North Flat and 14,000 feet of dike protected by fascine work 2,000 feet behind the first dike and parallel to it. This last to be turned at right angles at the outer end in order to protect the reclaimed land against wave action.

The building of the dike and the reclaiming of the flats is estimated to cost \$4,500,000. The land reclaimed would total 4,000 *mou* and the wharf accommodation would be 12,000 feet in length. It follows, of course, that the success of any harbour improvement scheme in Tientsin depends upon the improvement of the navigability of the Bar Channel, but if the Commission for the Improvement of the River System of Chihli succeeds in finding a practicable solution for the problem of the Yungtingho (永定河) and the prevention of floods, there is no reason why the most sanguine anticipations in regard to the Taku Bar should not be realised. The navigability of many ports throughout the world is maintained by dredging alone, and if the connecting waterways of this province are properly conserved and the interests of drainage and navigation co-ordinated, it is possible to improve permanently and satisfactorily the communications between Tientsin and the sea, and deepen the bar sufficiently to allow ocean-going vessels of moderately deep draught (*i.e.*, from 20 to 25 feet) to enter the port. But unless the affluents of the Peiho (more especially the Yungtingho) are so conserved on scientific lines and remain under the control of qualified engineers, there can be no security that the activities of the Haiho Conservancy Board in the river and on the bar can be indefinitely prosecuted without suffering tedious interruption and serious damage by the recurrence of such floods as devastated the district in 1917; in other words, the solution of the complex problem of bar conservancy work is to be found rather in the conservation of the connecting waterways of the province than in purely local conservancy operations. This fact does not appear to have been sufficiently realised in the past, and the navigational and trade interests of the port have suffered accordingly. As is well known, of course, the progress of Tientsin has been greatly impeded by reason of its unfavourable situation on the banks of such a shallow and narrow river as the Hai, and the paramount importance of a progressive conservancy policy on broad lines is becoming more and more apparent as time progresses and as trade increases. The Cathedral Cutting—described in the report for 1918—has proved of great benefit to the river, as the promoters of the work claimed would be the case. As evidence thereof it may be mentioned that before its completion the rise and fall of the tide at the Red Bridge—immediately above it—in May 1913 (or a short time after the opening of the Haiho Fourth Cutting) was 3.64 feet, whereas in May 1919 it was 5.56 feet with a maximum of 7.8 feet. In other words, the depth of water in the Tientsin Anchorage has been increased some 2 feet. A further work of this nature in the immediate vicinity known as the Grand Canal—or Ta Wang Miao (大王廟)—Cutting was completed in 1919 and opened to traffic on the 26th November. Although of relatively little importance as a flood relief measure, this cutting is nevertheless of considerable utility, and the elimination of the tortuous bend at the junction of the Grand Canal and the Peiho facilitates the tidal action and renders navigation in the vicinity safer and more convenient for the junk traffic. The work was carried out under the immediate direction of the Chihli Conservancy Commission, but it should be remembered that the Haiho Conservancy Board originally brought forward the proposal as part of a definite scheme for the improvement of the Tientsin Anchorage. It may be mentioned in this connexion that it is proposed to make a fifth cutting in the river about 6 miles below Tientsin for the purpose of removing the Tombs Bend, and when this is effected it is expected that vessels drawing 18 feet will be able to come up to the Bund. It is also appropriate to state that the question of a projected new port at a place called Tatsinghokow (大清河口)—situated along the coast about half-way between Tientsin and Chinwangtao—is under discussion. If industrial works are established in the vicinity and if new railways are constructed to connect with and open up new districts, such a port would serve a useful purpose. But it is somewhat difficult to understand how it could displace Tientsin as the distributing centre of North China, as has been suggested. Moreover, the phrase “ice-free port”

where the Gulf of Chihli is concerned is liable to misconception, and too much importance should not be attached to it. Generally speaking, geographical position in the Gulf has little to do with ice conditions, and given certain protective works in the shape of dikes, etc., at river estuaries, an ample depth of water, and an efficient service of ice-breakers, there should be little difficulty in keeping any port in the Gulf free of ice during normal winters. As a matter of fact, navigation during the month of January (which is generally the coldest time of the year) is more liable to be interrupted by pack-ice at sea than by the accumulation of ice at the approaches of a port where ice-breakers function. The two previous reports referred to the Commission for the Improvement of the River System of Chihli and the circumstances which led up to its establishment, stating that its preliminary functions comprised a comprehensive survey of the province and the execution of the Niumutun Cutting, etc. The main function of the Commission, of course, is the investigation of the river system of the province with a view to the formulation of the so-called grand scheme. Topographical and hydrometrical survey departments were therefore organised, and their activities began in the summer of 1918. The staff of the former consists of two engineers, two engineer surveyors, 22 assistant engineer surveyors, 23 draughtsmen, and a number of guards, etc. The work already accomplished comprises a traverse survey of various rivers and a strip of country on each side of them. The surveys of the rivers to the northward of Tientsin have been completed except the Lower Chienkanho, while to southward the Grand Canal survey has been completed as far as Liuching: the remainder of the Grand Canal to the Yellow River has been surveyed by the Grand Canal Board. It is calculated that the total amount of survey work needed for the Commission's purpose is 4,900 kilometres of river courses, involving an area of some 20,000 square kilometres; and, in addition to this, there is the contouring of the land between the river courses. The hydrometrical department originally consisted of 12 gauging stations situated on the different rivers throughout the province for the purpose of recording the water levels three times a day, measuring the discharge at least once a week, and determining the silt contents in the water at different stages. Furthermore, rainfall records have been kept, and all the data and results have been tabulated and worked out in the form of rating curves, silt contents curves, discharge curves, water levels and rainfall, etc. The scope of this important department has recently been extended, and the staff now comprises three hydrometric surveyors, 17 observers, 60 recorders, etc. During the year the Commission replaced the old Hsink'aiho weir by a system of modern sluices at a cost of a little over \$300,000. The effect of the improvement will be to assist in relieving the Lower Peiho of flood waters and by so doing to facilitate the discharge of the Hsiho through its purposely constricted debouchure under the Red Bridge. It will thus have a direct ameliorative effect in providing for a run-off in times of floods in the western plain. Early in the year a grant was supplied by the Peking authorities for the purposes of the reversion of the Peiho and the improvement of the Hsink'aiho and Machang Canal. The year has passed, however, without work having been commenced, and a reference to the Commission's Public Statement of August indicates that strong opposition to the scheme has been manifested by the people in the neighbourhood, and that the Government's support against that opposition had been petitioned for by Mr. Hsiung Hsi-ling, the director general. A second year of the Commission's existence on the scale of activities indicated in the Public Statement No. 2 means a greatly increased probability that it will remain a permanent institution. It is growingly obvious that on that maintenance depends any prospect of providing adequate safeguards against the perils impending over Tientsin, as already mentioned. And as a further indication of its vitality and expansion, it may be mentioned that its *personnel* is being strengthened by the appointment of Mr. F. C. Rose, Secretary to the Government of India, Public Works Department, who is due to arrive here shortly. As regards finances, the existing arrangement of intermittent grants is very unsatisfactory, and in view of the growing importance of the works placed in the Commission's hands, it is hoped that the position will be stabilised in this respect. Before closing these remarks upon conservancy questions it is desirable to record an important scheme under consideration for the improvement of the

communications between Tientsin and Paotingfu (保定府). The provincial capital is situated on a tributary of the Tach'ingho, an affluent of the Peiho, some 130 miles distant from the mouth of the Haiho below Taku. This small stream, known as the Fuho, runs through districts with such steep gradients that there is no possibility of regular navigation unless its water supply is controlled by locks. This being so, the engineer-in-chief of the Haiho Conservancy Board has been requested by the local authorities to consider the question of conserving it on modern lines and rendering it navigable for lighters, etc., drawing 6 feet of water. Mr. Pincione investigated the question and has drawn up an interesting report on the subject, in the course of which he emphasised the obvious advantages which would be derived from improved means of transportation by water between Paotingfu and Taku—more especially if the Taku Reclamation Scheme, already referred to, eventuates. At present, for example, the railway rates for carrying 1 ton of merchandise from Paotingfu to Taku (*via* Fengtai) amount to about \$4.50, whereas if the rivers concerned are canalised in the manner proposed, the cost of transport by water would be about \$1 per ton; similarly, the third class railway fare, which is now \$3.50, would amount to about one-half of this by river. The estimated cost of the improvement, including dredging and the construction of locks, etc., is about *Tls* 500,000, and the work would take about two years to complete. As regards the conservation of the Grand Canal mentioned in the report for 1918, it is understood that satisfactory progress has been made during the year, and there is every prospect that this ancient waterway will soon be restored to its former usefulness.

Foreign Concessions.—Building activity on all sides continues, and many imposing structures are in course of erection. The Kailan Mining Administration, for example, is building palatial offices in Meadows Road on the site of the old building, and the International Banking Corporation, Bank of Communications, King Cheng Banking Corporation, and the National Industrial Bank of China are all about to construct new premises in the immediate vicinity of the junction of Victoria and Consular Roads—which is rapidly becoming the banking centre of the Foreign Concessions here. The three last named have secured commanding sites in what was formerly known as the Commissioner of Customs old compound in Victoria Road, which is one of the few remaining vacant lots centrally situated in the British Concession. The question of replacing the International Bridge, connecting the French and Russian Concessions and serving as the only means of communication between the East Railway Station and the British, French, Japanese, and *ex*-German Concessions, is under consideration, but a definite decision has not yet been made. The existing bridge is now entirely inadequate, and the congestion of both foot and vehicular traffic occasions vexatious delay and constant inconvenience. Moreover, the design of the structure, comprising stone piers in the stream, precludes the possibility of making provision for the extension of the anchorage to the *ex*-Austrian Bridge, as is highly desirable. There is therefore a double reason for dismantling the present bridge and either constructing a modern drawbridge of improved design and adequate dimensions or a subway. The latter plan possesses obvious advantages and would be of great public utility. As regards an extension of the anchorage, this important question must await a decision in respect to the International Bridge.

F. W. MAZE,

Commissioner of Customs.

TIENTSIN, 8th March 1920.

TIENTSIN NATIVE CUSTOMS TRADE REPORT.

1°. REVENUE.—The total revenue collection for 1919, amounting to *Hk.Tts.* 1,288,677, constitutes a record, the previous record of 1918 being surpassed by *Hk.Tts.* 175,650. January was the only month for which the collection did not show an increase over the corresponding month in 1918. Duty collected on goods to the interior is solely responsible for this satisfactory increase, the total receipts under this heading totalling *Hk.Tts.* 612,193, or *Hk.Tts.* 181,692 more than those of 1918. The figures for the various other branches of the revenue were: duty on goods from the interior, *Hk.Tts.* 476,450; coast trade duty, *Hk.Tts.* 17,736; special fees, *Hk.Tts.* 128,202; Kung Kwan dues, *Hk.Tts.* 54,096. Outward transit dues collected on behalf of and remitted to the Maritime Customs amounted to *Hk.Tts.* 570,207, which also show an increase of *Hk.Tts.* 94,513 over the 1918 figures.

2°. TRADE WITH THE HINTERLAND.—(a.) *To the Interior.*—A very decided improvement is to be noted in the trade under this heading. The gross value for the year amounted to *Hk.Tts.* 133,414,798, which is *Hk.Tts.* 27,265,337 more than for 1918. The reopening of the European and American markets after the conclusion of hostilities and the unprecedented rise in silver encouraged the purchase of as great a quantity of commodities from those markets as shipping restrictions would allow, and it is chiefly due to the revival in the European and American trade that the goods going inland show such remarkable increases. The increase would have been still further augmented had the boycott of Japanese goods, towards the end of the year, not stopped the flow of those goods inland. Of the foreign goods that paid Native Customs duty, piece goods and metals of every denomination, with but very few exceptions, have advanced by leaps and bounds. There was also an improvement in the quantity of Chinese goods sent inland, but this branch of trade is still hampered by the internal dissension that prevails in China.

(b.) *From the Interior.*—The trade from the interior again shows improvement, and the gross value for 1919 was *Hk.Tts.* 106,438,310, or *Hk.Tts.* 9,288,638 more than in 1918. Expectations that exports would be in great demand on the signing of peace in Europe were not, however, fully realised, and until the former belligerent countries have settled down internally and the exchange has become more favourable from the foreign buyer's standpoint, the expansion of the trade under this heading will be, to a certain extent, impeded. However, in spite of the somewhat unfavourable conditions, notable increases are to be recorded in most goods which come to Tientsin under Native Customs documents and outward transit pass. Raw cotton shows an advance of 156,351 piculs; silk piece goods, 339,813 piculs; rush and straw mats, 1,178,517 pieces; earthenware, 47,682 piculs; cotton seed, 308,659 piculs; groundnut oil, 32,522 piculs. Skins of all descriptions show remarkable improvement, especially untanned goat skins, which have advanced by 2,495,125 pieces; untanned marmot skins and untanned sheep skins increased by 1,195,411 and 119,208 pieces respectively. The excellence of the bean crop was manifested by the fact that 1,012,276 piculs came from the interior, as against 489,333 piculs in 1918. On the other hand, the following decreases were to be noted: melon seeds, 23,181 piculs; sesamum seed, 12,446 piculs; timber, planks and softwood, 76,269 pieces; straw hats, samshu, and fresh fruit also fell off considerably. The crops were not satisfactory, and a decline in the amount of cereals coming into Tientsin was the consequent outcome.

3°. COAST TRADE.—The freight rates demanded by the coast shipping companies remained abnormally high during the year, and in consequence native craft was still in great demand. American and Canadian timber having become more obtainable, however, the fleet of junks, inaugurated for the carrying of timber from the Yalu district and alluded to in the report for 1918, has ceased to exist, and to this can be attributed the decline in the junk trade as compared with 1918. The total number of junks entered was 536, and of those cleared 563, against 913 and 936 respectively in 1918.

4°. INLAND NAVIGATION.—A marked decrease is to be noted in the number of vessels plying on the canals, 57,780 boats, representing a tonnage of 1,230,137, having entered, and 58,670, representing a tonnage of 1,257,114, having cleared, as against 72,669 and 72,633 vessels respectively in 1918. The causes of this decline are not hard to seek: the crops, which were bounteous in 1918, yielded only 60 to 70 per cent. during the year under review, and as these give the largest contribution to water-borne cargo, the vessels were not in such great demand; the boycott of Japanese goods, curtailing the water traffic in Japanese sundries, and the late opening and early closing of the river, also helped towards the decrease for the year.

5°. TRADE ROUTES.—The trade of 1919 was divided in the following proportions amongst the three methods of transport: railways, 64 per cent.; waterways, 33 per cent.; land routes, 3 per cent. The rail-borne cargo shows a decrease of 1 per cent. compared with the figures for 1918, and the land routes have benefited to this extent.

6°. GENERAL.—The end of the European War made it possible for local enterprise, which had been rendered dormant by the conflict, to once more assert itself, and the prosperity of the port has made great strides during the year under review. Building has continued apace, and the district has expanded in every direction. Four new banks made their appearance in the native city, the most prominent being the Ta Shêng Yin Hang (大生銀行), with a capital of $\text{¥}600,000$. The Peiyang Oil Factory (北洋製油廠), manufacturing groundnut oil, commenced operations during the year, and the Chung Hua Yu Yeh Kung Ssü (中華油業公司) had completed arrangements in December for the manufacture of cotton-seed oil. The Yü Yuan Cotton Mill (裕源紡紗有限公司) turned out 16,504 bales of yarn during the year, and this output should be increased considerably in the future owing to the recent addition of 25,000 spindles; the Hua Hsin Cotton Mill (華新紡織有限公司), although not fulfilling the expectations foreshadowed in the report for 1918, produced nearly 50,000 piculs of cotton yarn, which is considered satisfactory. The canvas factory (恒源帆布工廠) produced 660,000 yards of canvas during the first eight months of the year, after which it amalgamated with the Mo Fan Cotton Factory (模範紡紗廠) and is producing cotton yarn only. The boycott of Japanese goods, fostered by the students, assumed serious proportions during the year, and a good deal of excitement prevailed in the city from time to time. A direct outcome of the boycott has been the inauguration of the Peiyang Cotton-manufacturing Joint Stock Company, Limited (北洋商業第一紡織股份有限公司), for which machinery has been ordered from America; it is said to be the intention of the promoters to increase the local production of cotton yarn to such an extent that a scarcity in this commodity will be guarded against in the future. The work of the Cotton Testing House is increasing yearly, and the total amount of bales tested and re-tested during the year was 452,298; only 6,321 were rejected on account of excess moisture, the average moisture working out at 9.63 per cent., which is slightly better than that for 1918.

C. N. HOLWILL,

Acting Deputy Commissioner in Charge.

Approved:

F. W. MAZE,

Commissioner of Customs.

TIENTSIN, 1st March 1920.

中華民國八年天津口華洋貿易情形論畧

竊查本口貿易情形，本年自歐戰停止之後，商業驟見興盛，去年貿易估值爲關平銀一萬五千三百萬兩，今年增至一萬八千九百萬兩，超過前額三千六百萬兩之譜，爲空前所未有之巨額，綜計發達之原因，大半由於船位噸數之增加，（本年進出口船，共一千六十二艘，去年僅八百三艘，此外如航洋水脚輕減，及戰爭紛擾情形，漸形消滅，種種限制，亦已取銷，莫不助商業之發展，綜覽本年進口貨物估值，計自關平銀七千三百萬兩，增長至八千五百萬兩，凡所舶來各種洋貨暢銷無阻，良以歐戰方殷之時，洋貨有供不應求之勢，而去秋農稼豐登，土產售出，所獲不貲，此亦洋貨暢行之一因也，金價低廉，固足鼓勵進口之加增，而阻於外國工本之浩繁，亦未能如所預期，且外國製造品，以工廠經歐戰之影響大改組之後，僅可供本國之需求，無暇兼顧，此亦未能悉如所願之一因也，惟英國運華之布疋，似絕未受本國商業凋敝之牽累，而終年接濟不絕，使本埠布疋稀少之市面漸具生彩，日本商業在下半年微感停銷日貨之痛苦，雖統計表中不見日貨進口之凋落，而銷場限制，小販虧累，尤以布疋、棉紗、洋襪、衛生衣、胰皂等雜項爲最，未載數品，以價低廉，頗易售銷，然本埠及上海出品漸夥，已足敷華人之需，且其品質亦甚見進步，雖不逮日貨之精美，而價值低廉，人民頗樂購之耳，本年出口總額估值，計自一九一八年之關平銀五千一百萬兩，升至本年爲七千一百萬兩，惟本年初季，土貨運出甚見衰縮，一由於外國勞工之不靖，復由於歐戰方停，各國政府亟欲將素所存儲之原料，售諸市面，惟不久勞工即漸歸常軌，政府儲藏亦漸次銷罄也，銀價騰昂，凡外國工廠訂購土貨者，勢必感受不利之影響，惟他一方面則外國經濟調劑之適宜，足使商家不致虧累過甚，故本年一年之中，土貨需求，終未低減，再者本年年底銀根短缺，內地購貨，以

本地鈔票價格、未見增漲、多不通用鈔紙、銀行復缺現款可資挹注、故凡入內地購置土產者、頗感困難也、

一本關稅課、本年共徵關平銀五百二十萬三千三百八十六兩、實爲空前之巨額、較諸上年收入、超過一百餘萬兩之譜、其原因不外商業之擴充、如上所述、而新改之稅則、亦於稅銀之增加稍與有力焉、統計進口、出口、船鈔、子口等稅、無不增收云、

一洋貨貿易、洋貨由外洋運進口、及由通商口岸運來者、洋貨由外洋運來津者、總值爲關平銀六千六百八十八萬兩、其由通商口岸轉運而來者、爲一千九百八十六萬兩、共計總額爲八千六百七十四萬兩、若由此數減去復出口貨、估值一百三十九萬兩外、淨入口爲八千五百三十五萬兩、此數較諸去年已逾一千二百萬兩之譜、本年進口布疋增額頗巨、由其要項計之、實較去年增加百分之三十、五金入口亦見增加、良以戰事告終、所需易得、而國內鑄造鐵具及機械零件之小工廠、日見增多、此亦需求擴充之一因也、去年煤油進口爲二千萬加倫、本年爲三千三百萬加倫、因前此一年有半之內、各煤油行之積貨、銷售殆盡、此特補充之耳、故煤油入口之增加、非即謂銷場之推廣、而華北數省煤油事業之發展、實可預期云、

洋貨復出口、無可具論、

一土貨貿易、土貨出口運往外洋及通商口岸、連復出口在內本年出口以需求孔殷、噸載利便、故

以估值計之、實較上年增加關平銀二千一百萬兩之譜、說者謂巴拿馬運河通航以來、對於紐約商業頗見成效、惟海電不靈、銀價逐次騰高、實爲出口之一阻礙、本年棉花自四十四萬二千担、增至五十七萬二千担、因本年收成甚佳、價格低廉、故外國頗樂採辦、尤以美國爲甚、羊毛、亦自去年二十七萬八千担、今年增至二十八萬担、因除歲底兩月外、終年銀價高騰、幾逾國外價格百分之二十、故運額頗平平云、本年棉子出口、異常發

達、去年出口僅五萬四千担、本年竟增至三十四萬七千担、大半運至日本榨取棉油、運往歐美、備製人造奶油之需、各種皮張出口、亦頗見發達、其最著者爲狐皮、灰鼠、貂皮、狼皮、貉獾皮等、近日外國對於皮張需求甚廣、且昔日皮件之由海參崴轉運出口者、今則以該口地方不靖、大抵自庫倫或由鐵道或結商隊、輾轉運津、以資出口、生山羊皮一項、自去年二百四十八萬張、本年增至四百六十三萬張之譜、美國製靴皮料昂貴、故本年由華運往者、爲額頗巨云、再則本年運出狗皮爲數甚夥、去年運出爲三萬三千一百二十三張、本年竟增至十三萬一千三百二十五張、良以國外汽車事業、日見推廣、此等皮張、大半用於製造手套、及裹護車頭之需、此種狗皮、產自滿蒙寒沍之地、該處冬寒酷烈、恆降至零度下三十餘度、土人多參狗以取其皮、故其皮張之大、及毛之長、世罕其匹、甘草貿易於前去二年、本有厚望、惟本年絕無出口、蓋由米蘇布太米亞所產者、質良價廉、故獨得推崇也、

一 土貨進口、淨值關平銀三千二百八十七萬兩、衡諸客歲、超過有四百七十二萬兩之譜、

一 出入內地之貨、入內地領有子口單之洋貨、估值關平銀三千六百四十七萬兩、較諸去歲逾九百二十三萬兩、若以省分分配列之、則直隸二千一百六十萬兩、山東一百四十一萬兩、河南三百一萬兩、陝西爲四十九萬兩、吉林爲三十八萬兩、

出內地領有三聯單、運來本口之土貨、衡諸上年、增額頗巨、計發單照一萬一千七百五十二張、約估值關平銀二千五百六十八萬一千三百七十五兩、去年單照則僅九千五百三十四張、約值二千一百二十三萬一千一百四十四兩、

特別論畧、中國本國工廠製造品、需求甚殷、良以洋貨不足供人民之消耗、故發特照、藉免內地釐稅者、幾有日增月盛之勢、有織工廠數家、正在建築之中、尙有多數亦已建議創設、專爲紡紗、製織粗細布疋、其機器大半運自美國、資本則本口自集、凡此等工廠、皆

採用電力，由此而論華北織工一項，雖現時毛羽未豐，未足操縱市面，將來或竟執全國布業之牛耳，亦非奢望也。

一船隻，遵照本關總章行駛者，本年進出口船之共數，為二千一百二十二艘，共合二百零八萬噸，去年則為一千六百九艘，共一百五十九萬噸，各國船隻進出口俱見增加，本年之內，水脚逐漸輕減，有多數供應戰事之船隻，漸見還集，頗足應裝載之需，惟海洋噸位，仍覺缺少，不敷應用，遵照內港行輪章程行駛者，無可具論。

一旅客，外國僑民，由沿岸輪船蒞津去津者，計自去年四千一百三人，本年增至四千四百二十四人，津浦路線，雖頗受外人之惠顧，而華人大多乘坐輪船，以費用較廉，而箱籠雜物易於攜帶也。

一金銀出入，無可論述。

一藥土、鴉片進口及種植，雖屢經中國政府明令禁止，而無恥之徒，意在嘗試，尤以嗎啡一宗為甚，屢經查獲，是以本口紳士有拒毒會之創設，即推省長為會長，於殲除罪惡，頗獲良果。

一雜論，鐵路營業，綜覽本年各路記載，收入皆見起色，本年各大幹線，除京漢路線，被水覆沒，曾有二月之久外，大抵處理適宜，而京奉線，以開平煤出產豐盛，近有於唐山山海關之間，建議添設副線，本年十二月內，該路載運煤斤，平均每日九千噸，較諸上年實增四千噸，所記最高之數，某日曾運至一萬四千噸，故欲鼓勵事業之發展，現已購備新車頭及車輛甚夥，惟記載行客，為數微渺，大約係受本夏時疫之影響，預期一九二十年，必大有可觀也，海河工程，一九一七年，水潦氾濫，淤泥堆積河口，上年論畧已述梗概，其海河工程之大綱，亦畧論及，昔日所擬遷移河道之計畫，由南八十二度四十分東，移至南七十二度四十分東，今已達此目的，濬挖之工程進行不懈，頗見成效，迄於年終，大沽港航

道之兩旁、水深已見十四尺有半、而於該港之中流、則見水深十五尺有半、現在大沽港、行船標記、已可作全港航道之標準、且除深處一小部分外、可定為航路之中線、若以現狀而論、則該行船標記、實足導船駛越深處之內部、並可由該港中心迤北、直至北岸之南角、海河工程局近復建議擬將該北岸之西南角、濬深建築迎水壩、如下所述、預計此項工程告竣、則航行之船、苟遵嚮導行駛、則可永往來該河中流至深之處、且該迎水壩之用甚夥、實可作新導線之標準、冬令則鑿冰工作易於施行、且可防港內淤泥、再行堆積成灘、本稅務司有見於此、特備函通告中外當局、具陳開拓河岸之計畫、以便於天津附近開闢深水港口、及建築停船碼頭、貨棧、煤棧、及鐵路岔線等、海河總工程司頗踴是議、且預計所費、富不致過鉅、若就該地址而論、則所拓之地、既在大沽口外、勘驗洵稱至便、蓋本河首段形直水深、寬約千尺、極合船隻停泊之需、而其他上流之地、水淺路狹、遠遜於此、設將來吃深水之巨輪得資停泊、則本埠航業可見一大改革、裨益於本埠及中國北方商業、良非淺鮮也、蓋此深港建於河口、實為裝煤極便之所、且各煤油公司、亦必於該處建立棧房、使航洋巨輪、亦可於該處停卸貨載、毫無窒礙矣、或謂此計畫履行之緩急、當視煤業之狀況為定、而觀該業之現狀、似尚無建築宏闊停船碼頭之必要、然試觀本埠及山西產額之增加、則謂十年之內建闢深港、亦非無因也、昔日本埠航業、僅限於沿岸船隻、致商業大受影響、將來不加改革、商業或亦可發達、然茲姑不論、而苟欲此商業之中心永維原狀、或更加擴充、則非建築如近代新式之停泊巨輪處不可、今謹將該海河工程局關於此項計畫之報告、附誌於下、一九一八年、海河工程局之記載、曾謂該河口外第一灣水流、有依港口路線向海衝擊之勢、現依據一八五八、一九零二、一九一八等年所測者觀之、此勢甚為明顯、約略計之、每年移動有七十五尺之譜、今欲阻此衝擊、則該灣原道、必須竭力加以防衛、緣海河潮至之時、海水灌入之量、大於內河流出

淡水十三倍、故開拓河口、獲益至大、一九一四年、該河口曾闢廣一次、收效之大、已有明徵、是以改良河口、定以統系、非僅於該口一處有利、實足助潮汐之灌入、裨益全港不淺也、海河工程局近已定購新式濬河船一艘、大約一九二一年春初可到、預計此船到後、加以原有之濬河船、合力共作、苟無洪水氾濫之患、該港口水深可常在二十尺左右、濬河工作、固可使海河下流加深、惟該航道內部、尚須加以鞏固之方、庶免其漸向南移也、該局總工程司、近復條陳建築長隄、如附圖內紅線之所誌、用以改良河口、加以統系、總其理由畧如下述、

一 節制潮汐流入之多寡、

二 鞏固航道之內部、

三 裨益冬令鑿冰工作、以北岸一經築高、冬令之冰、即不致堆積沙灘窒礙河道、如今日鑿冰之困難也、

四 可使港道永維現狀、淤泥不致再於內部堆積成灘、

該局以此先命於南港築一小隄、將來依該工程司之議、擬在北岸逐漸加築長隄、然泥沙淤積之永定河、苟不加以疏通、則深水輪船、吃水十五尺以上者、即永不得直抵天津河壩、本稅務司有鑒於此、始有提議於北岸建築長隄之後、收回荒地、設立停船碼頭、以備吃水二十尺以下輪隻停泊之需、總工程司平爵內君、深韙是議、且從稅務司之請、擬定辦法數條、其所籌畫之工程、臚舉如下、

甲 由太古洋行地址、至北礮台間、北岸改正及設備、

乙 由防疫所至灣凹處一帶、南港改正及設備、

丙 由前燈塔至灣凹處、依港道之方向、築一長隄、以阻水流沒過南港、

丁 濬挖灣凹沙嘴、及迤北之淤沙、

戊於北港建築長隄，一係一萬二千尺長者，一係一萬四千尺長者，外築短隄二千尺，於長隄之末作直角式，以衛隄內之地。

統計築隄及拓地所需，不下四百五十萬元，拓地四千畝，可築碼頭，長約一萬二千尺，天津港埠之改良，誠繫乎大沽港通航之如何，然順直水利委員會，設能將永定河問題根本解決，水患既絕，而關於大沽口之改築，謂不能收效果者，必無之事也，世界河港，僅藉濬挖而永無他患者，歷歷可舉，倘本省與海河連接之支流，悉行疏通，則灌溉之利，舟楫之便，二者得兼矣，且天津與海口之間，良港可永保存在，其尋常之航洋船隻，吃水二十至二十五尺之間者，皆可自由入口，惟白河之支流，以永定河爲甚，苟不以近世科學之法，加以疏濬，復聘幹練工程司，永督其事，則海河工程，雖一時告竣，然一旦水患復來，各處悉成澤國，如一九一七年之狀況，則前功將盡棄也，故曰海河工程困難紊亂，欲清其源，端在全省，而不在區區一河口也，凡此諸端，前此之人，均未想及，職是之故，本港商業受失不淺，海河兩岸，既如是之淺，而航道復如是之狹，故欲天津之發達，該河應積極改良，實乃一日不可緩也，去歲論畧，所言三岔河裁灣取直，工成之後，裨益河道，果如建議者所預期，蓋此工未竣以前，查紅橋附近潮水漲落，一九一三年五月，僅得水三尺六四，本年五月，竟有六尺五六之多，而最盛時，則得七尺八寸，簡言之，則天津停泊處之水深已增加二尺有餘，最近則大王廟河灣亦已裁直，已於本年十一月通航，此項工程，雖於水患未能輕減，而於運河及海河互相啣接處之羊腸曲道，既已裁直，則於內港帆船航行頗稱便利，此項工程，雖成於順直水利委員會，而首先建議者，實爲海河工程局，此改良天津港埠計畫之一斑耳，近復有建議於天津下游六英里處之灣，再行裁直，設履行此計畫，則吃水十八尺之輪船，可直達津埠碼頭矣，再者，近有議於天津秦王島間，大清河口建築商港，設他日鐵道興築，工業發展，該港當甚有用，惟有謂此港一成，則天津將

不能復爲中國北方商業之中心者，是言頗難索解，近有人對於直隸海灣之無冰港，頗多謬論，毋庸深究，蓋灣內之地形，與冬令結冰，毫無關係，設河口隄防堅固，河流深闊，鑿冰之工作不間，則當尋常之冬令，欲使港內無冰，固匪難事，且就事實論之，則每年一月，冬寒嚴冽之時，輪船行駛，每被阻於海上之浮冰，而非被阻於港內之結冰，緣港內鑿冰之工，孜孜未已也，順直水利委員會之建立，並所籌辦之工程，上二年曾略論及，不外全省通盤測繪，暨牛木屯河之裁直等事，而其最要之功用，則在測量全省之水道，定一大計畫，於是該會設有地形流量等處，悉於一九一八年夏季成立，地形處，共有工程師二人，測量員二人，副測量員二十二人，繪圖員二十三人，防守兵勇等不計其數，其已竟之工程，則爲各河及河旁之民地，漸已測量就緒，天津以北，除箭桿河之一部分外，今測量告竣，天津迤南至楊柳青，運河之測量，亦已完畢，其運河之他一部分，則由運河工程處司之，統計該會所測河道，共長四千九百基羅米突，廣袤二萬方基羅米突，此外兩河間毗連之地，尚不在內，流量處，原於本省各河設有測水所十二，日測水平三次，水流多寡，每星期測一次，而河內淤泥之存積，亦不時推測，至於雨水等，亦無不詳細登錄，所有記載效果，皆製成各種曲線圖表，該處範圍近已擴充，計有測量員二人，觀測員十七人，記錄員六十人云，本年老新開河之水壩，已更易新式之水閘，共費銀三十餘萬元，此關可減白河將來之水患，亦助西河之水流，故患水之時，其西來之水，可直流出口，不致氾濫，本年初季，政府曾發巨款，以備改築白河及改良新開河及減河之需，惟迄年終，尚未動工，迨閱該委員會八月之公報，始悉該處附近人民反抗甚力，能督辦則上書政府，務期必成，溯該水利會成立，於茲已有二載，成效卓著，將來或能永久設立，蓋本埠之能否保無水患，繫乎該會之能否存在，此種情形，日益明顯，再則印度政府工程司之羅司君，已就該會之要職，不日來華，由此可見該會事業之方興未艾也，惟該會經費，時發時止，頗

不合宜、該會工程、既如是其重大、甚望能於經濟上速籌良策焉、再關於河道工程、如天津保定府間水路之改良、現亦正在計畫之中、蓋保定居府河之旁、該河爲大清河一小支流、距海口約有一百三十英里、該處水流極淺、若不以活閘制其流、則尋常船隻頗難航行、故海河工程局總工程師平爵內君、承地方官廳之請、擬將該河設法改良、使吃水六尺之船隻、得以航行無阻、現平爵內君、已將該議深加考察、詳細呈報、且謂保定大沽間水道之改良、收利至大、尤以上述之拓地計畫底成後、爲益顯著、蓋現時火車運費、自保定至大沽經豐台、每噸約須四元五角、而該河通航之後、水道運費、每噸不過一元而已、再則旅客三等火車票價、現爲三元五角、若以舟行、可省其半、該工程計畫需款五十萬兩、二年可告工竣、至上年所述之運河工程計畫、本年之內頗見成效、預期此道不久或將復其舊觀云、租界、各處建築極盛、高樓廣廈、正在鳩工庀材者甚多、如開灤礦務局花旗交通金城中國實業諸銀行、莫不於英中街及領事道附近、建築華屋、該處將漸爲租界銀行事業之中心、而交通金城中國實業三銀行、俱已於英中街前海關稅務司住宅原址、得適當地點、現計英租界之空地、未經建築者、亦寥寥無幾矣、萬國橋之改建、久在計畫之中、至今未能解決、惟該橋跨法俄二界、而爲東車站與英法日及前德租界交通之衝衢、現該橋極不適用、行人車輛、往往擁擠諸多窒礙、再該橋之建築、亦頗阻礙船隻之航行、其石砌橋脚矗立河中、致巨輪不得上駛、故具此兩宗理由、則該橋實不可不折去、或重建一新式巨橋、或鑿通隧道、而尤以築隧道爲最便、至於自萬國橋至金湯橋間、船隻停泊處之擴充、尙待萬國橋改建後、方可規定也、

中華民國八年天津常關華洋貿易情形論畧

一本關稅課、本年收數、一百二十八萬八千六百七十七兩、較上年收數、竟增加十七萬五千六百五十兩、只本年一月分、較上年一月分、收數減少、其餘各月分、均見加增、本關本年增收各款之中、以出境稅鈔最占多數、出境稅共收銀六十一萬二千一百九十三兩、較上年增收十八萬一千六百九十二兩、茲將各項收款分別開列、入境稅款、關平銀四十七萬六千四百五十兩、海船稅款、關平銀一萬七千七百三十六兩、各項雜費、關平銀十二萬八千二百二兩、工關稅款、關平銀五萬四千九十六兩、代海關征收出內地子口稅款、關平銀五十七萬二百七兩、較上年增收九萬四千五百十三兩、此款全數撥交海關、

一內地貿易、甲、入內地貨物、此項貿易情形、極為發達、本年估價、共計關平銀一萬三千三百四十一萬四千七百九十八兩、較上年加增估價、二千七百二十六萬五千三百三十七兩、歐戰告終後、歐美市場、均復舊觀、銀價之增漲、向未經見、因而華商在歐市購買貨物、極形踴躍、但使有船輸運、即可盡力購置、本年入內地貨物增多、大率為恢復歐美貿易之緣因、若將近年終時、無停銷日貨之事、以過日貨流入內地之源、則入內地貨物之數、當更見增漲、用常關單照運入內地洋貨之加增、除少數貨物外、布疋五金最占多數、入內地之土貨、略有進步、惟因中國內亂無已、影響於貿易者至深、乙、出內地貨物、此項貿易、亦有進步、本年估價、關平銀一萬六百四十三萬八千三百十兩、較上年增九百二十八萬八千六百三十八兩、歐洲和約簽字後、深冀出口貿易、定見興旺、詎料未副所望、非至前此各交戰國內、一切景象和平、及銀洋行市、合宜於買貨洋商外、此項貿易、定有極大障礙、雖丁此不良時勢、而用常關單、及出內地子口單、領運貨物、極見加增、計

生棉花、較上年增十五萬六千三百五十一担、綢緞、增三十三萬九千八百十三担、草蓆、增一百十七萬八千五百十七件、審貨、增四萬七千六百八十二担、棉花子、增三十萬八千六百五十九担、花生油、增三萬二千五百二十二担、各種皮張、更見加增、其最多者、爲生山羊皮、較上年增二百四十九萬五千一百二十五張、生獺皮、增一百十九萬五千四百一十一張、生羊皮、增十一萬九千二百八十八張、豆子、由內地運來者、計一百一萬二千二百七十六担、上年則爲四十八萬九千三百三十三担、足爲豆子豐收之明證、本年縮減貨物列下、計瓜子、減二萬三千一百八十一担、芝蔴、減一萬二千四百四十六担、木料板片、及軟木、減七萬六千二百六十九塊、草帽、燒酒、鮮菓等、亦大減少、復因年景歉收、以致穀類運來津埠者、亦見減少、

一 海口貿易、本年沿海運貨各公司、索收運費、仍異常昂貴、因之各商仍用民船運貨、美國坎拿大木料復行進口、是以上年所云鴨綠江專設大幫轉運入口之民船、現已停業、此民船營業、較上年退化之原因也、共計入口船、五百三十六隻、上年則爲九百十三隻、出口船、五百六十三隻、上年則爲九百三十六隻、

一 內河船隻、本年往來各河船隻、頗見減少、共計入境船、五萬七千七百八十隻、重一百二十三萬一千三十七噸、出境船、五萬八千六百七十隻、重一百二十五萬七千一百一十四噸、上年入境船、則爲七萬二千六百六十九隻、出境船、七萬二千六百三十三隻、究其減少原因、不難尋索、即上年各處田地豐收、本年不過六七成之收穫、是以河路貨物多數減少、需船因亦不多也、又值本年各處停銷日貨、凡日本雜貨、由水路運載者減少、更兼今春開河甚晚、冬季封河甚早、此皆使船業不旺之原因、

一 各路貿易、本年貨物分三路、按百分法計算、鐵路占百分之六十四分、水路占百分之三十三分、陸路占百分之三分、鐵路貨物、較上年減百分之一、陸路貨物、增百分之一、

一 概論、當歐戰時、本埠商業停滯、迨本年歐戰終結、乃呈良好現相、商務倍極興隆、建卽築一項、各處繼續動工、四郊擴充甚廣、本埠設有銀行四家、其最大者、爲大生銀行、資本六十萬兩、又有北洋製油公司、本年開辦、製造花生油、中華油業公司、於十二月間成立、製造棉花子油、裕源紡紗有限公司、本年出紗一萬六千五百四包、該公司尙擬擴充二萬五千錠、將來出紗、仍可增多、華新紡織有限公司、雖未達上年貿易論內預料之目的、然已出紗約五萬担、其結果亦頗稱良好、恒源帆布工廠、由一月至八月、共出帆布六十六萬碼、後與模範紡紗廠合併、只製棉紗一項、本年發生停銷日貨、係爲學界之提倡、頗形激烈、人民憤慨情形、本埠屢次發現、其結果、乃有北洋商業第一紡織股分有限公司之組合、已在美國定購機器、發起人之目的、欲增加本埠棉紗出產、使其足供所需、將來不至有缺乏之患、檢查棉花處、報驗之棉花、年復增加、共烤驗棉花四十五萬二千二百九十八包、有含水過多不准入境者、六千三百二十一包、計平均水氣、每百分中、含有九分六釐三毫、較上年少好、

LUNGKOW TRADE REPORT.

1°. LOCAL.—Poor crops, disease, and the Japanese boycott were adverse factors in the trade of Lungkow for the year under review. The winter was exceptionally mild, with very little snow. Spring brought but little rain, and a high wind, accompanied by a slight fall of snow, coming just at the time when the fruit trees were in blossom, wrought great damage. In the middle of the June quarter rain came in time to save the wheat from being a failure, but too late to provide a good crop. Following this rain, there was a long period of drought. While the district immediately behind Lungkow did not suffer to the same extent as the districts beyond Hwanghsien, where many of the crops were almost a total loss, even in this district the best crops were but from 60 to 70 per cent. of the average yield. To further aggravate matters, towards the end of September locusts appeared. Great as was the damage done here, it was still greater in outlying districts and seriously accentuated the hardships already experienced. Cholera started at the end of July and in Lungkow itself, from a population of about 4,000, claimed over 200 victims. The full extent of the toll levied by this scourge in the territory within 100 *li* of this port cannot be accurately given, but was not far from 12,000 lives, probably more. Lack of an adequate supply of coffins greatly contributed to the death-roll. The hospital in Hwanghsien under Dr. Ayers did yeoman service, but was badly handicapped for lack of opium. Influenza appeared in November and December in the districts beyond Lungkow and was the cause of from 2,000 to 3,000 deaths. The Japanese boycott began to take effect in June, and from then on was increasingly thorough and systematic and ultimately caused an almost complete stoppage of the import of Japanese goods. In view of the preceding it is not surprising that the net value of the trade for 1919 shows a decrease of *Hk.Tts.* 426,972, being *Hk.Tts.* 2,802,703, as against *Hk.Tts.* 3,229,675 for 1918, but, paradoxical as it may seem, the greater part of this decrease is due more to the abundant harvest of 1918 than to the adverse trade conditions of 1919. However important a stimulant to trade a good harvest may be in places with a fairly high standard of living and normally producing more than is consumed, in places with a low standard of living, that even with a rich harvest are forced to import foodstuffs, a good harvest in the previous year may become an adverse factor in that it causes a big decrease in the most important imports, viz., foodstuffs. At Lungkow 1917 was a bad year for the harvests, and before the good harvests of 1918 were gathered, foodstuffs to the rough amount of *Hk.Tts.* 1,010,000 were imported. Owing to the excellent harvests of 1918 the demand during 1919 for outside supplies was lessened, only amounting to *Hk.Tts.* 382,000, but as the 1919 harvests have been far below average, the demand in 1920 should be increased and the deficit for 1919 made good. That the standard of living in this port of Shantung is low has been frequently stated by people familiar with conditions. Perusal of the various imports, for the greater part imports of necessities, not luxuries, confirms this and forces the conclusion that only increased communications with corresponding increased areas to supply and draw from can rapidly increase the trade of Lungkow. Until such time as recognition of its favourable geographical situation forces the bestowal of these communications together with harbour improvements similar to those at Chefoo, any increase of trade will be slow and must come from an increase in exports and a gradual elevation of the scale of living with an attendant increase in imports. The following table shows roughly the yearly net value of the import trade, foreign and Chinese, exclusive

of the imports of foodstuffs, cereals, and silk. It should be noted that, from a harvest point of view, 1918 was a good year, 1919 a bad year.

	1918.		1919.	
	Hk.Tls.	Hk.Tls.	Hk.Tls.	Hk.Tls.
Net total Chinese imports		2,052,000		1,657,000
Beancake, beans, cereals, and flour	1,010,000		382,000	
Wild raw silk	623,000		776,000	
	<hr/>	1,633,000	<hr/>	1,158,000
		419,000		499,000
Net total foreign imports		500,000		307,000
		<hr/>		<hr/>
TOTAL		919,000		806,000
		<hr/>		<hr/>

Allowing for the effect of the Japanese boycott on the 1919 figures for the net total foreign import, the totals in the table are very similar and show that what demand there is for outside goods is stable.

2°. REVENUE.—The total collection for the year amounted to Hk.Tls. 35,906, as against Hk.Tls. 42,432 in 1918, a decrease of Hk.Tls. 6,526. Import, coast trade, and tonnage dues all show decreases, but the export collection is the highest on record.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The value of foreign imports amounted to Hk.Tls. 315,446, as against Hk.Tls. 508,966 for 1918. The decrease, Hk.Tls. 193,520, is largely due to the effects of the Japanese boycott. Fans, cigarettes, and most cotton goods show a substantial decrease. The big increase in the import of soda is due to its cheapness and an increase in the amount of cloth locally manufactured and dyed. This increase in the local manufacture of cloth also accounts for the increase in indigo. The decrease in the imports of sugar is due to the poor harvest and the consequent need for economy.

(b.) *Re-exports.*—No remarks.

4°. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports).*—The total value for produce of local origin was Hk.Tls. 838,253, as against Hk.Tls. 676,549 in the previous year, an increase of Hk.Tls. 161,704. Exports to foreign countries amounted to Hk.Tls. 284,222, as against Hk.Tls. 71,117 for 1918. Re-exports to Chinese ports amounted to Hk.Tls. 8,628. There was no re-export abroad. The increase in the export figures is largely due to vermicelli and pongee. Vermicelli increased owing to demand from Hongkong. The increase in pongee is due to unsettled conditions in Siberia. This pongee is made at Changi (昌邑), about 300 li from Lungkow, and has hitherto been sent to Siberia via Tsinanfu (濟南府) and Kalgan. During the year other markets had to be sought, and it is said that the silk passing through Lungkow was intended for Korea. The quality was poor. The decreases in brassware and glassware are caused by railway competition, these articles being now shipped by rail from Chowtsun (周村) via Tsinanfu to Tientsin and Newchwang. Bags decreased. Strictly speaking, these bags are a re-export, being imported covering beans and cereals. Dried fruits, previously sent from Kaomi (高密) via Tsingtao, have been diverted here owing to the boycott. Unclassed ores disappeared, the mine at Chaoyuan (招遠) ceasing to work. A poor year and prohibition of export during the cholera scare account for the decrease in fresh fruits. The increase in cow hides is due to the hides being brought here instead of going via Tsingtao. Fans decreased. These fans are made from rushes (*Typha latifolia*)—Chinese: *hsiang-p'u* (香蒲)—and sell in Lungkow for two coppers each. Properly exploited, these fans and cori baskets and mats, also locally made, should find a ready market abroad.

(b.) *Imports*.—The total net value of the imports for the year was *Hk.Ƴs.* 1,657,027, as against *Hk.Ƴs.* 2,052,166 for 1918, a decrease of *Hk.Ƴs.* 395,139, due largely to lesser imports of beancake, beans, and cereals. Shanghai cotton yarn increased from 1,093 to 1,924 piculs, partly owing to increased popularity and partly owing to the Japanese boycott. The decrease in cigarettes is also due to the boycott. The plentiful harvest of 1918 accounts for the decrease in the import of flour. Increases under joss paper and samshu are due to cholera and deaths caused therefrom, joss paper being used at the funerals and samshu being in demand as a medicine. Soda shows a decrease, the price of the native soda comparing unfavourably with that of foreign soda. The increase in bean oil is due to the poor crops in 1919. Liquid indigo increased owing to its low price and an increase in the amount of cloth manufactured and dyed locally. The import of wild raw silk, while greater than that of the previous year, is still but a half of that of 1917. This silk goes to Changi (昌邑) to be made into pongee.

5°. *INLAND TRANSIT*.—*Nil*.

6°. *SHIPPING*.—(a.) *Under General Regulations*.—The tonnage of shipping under this head was 55,252 tons, as against 37,813 for the previous year, 12 steamers clearing direct for Hongkong.

(b.) *Under Inland Steam Navigation Rules*.—There has been a decrease of about 30,000 tons. British and Chinese shipping increased, while Japanese shipping decreased.

7°. *PASSENGER TRAFFIC*.—Passenger traffic shows a substantial increase. This is due to the greater number of emigrants to and from Manchuria and Eastern Siberia.

8°. *TREASURE*.—Rouble notes to the amount of 2,801,000 were re-exported. The notes were originally brought in by returning emigrant.

9°. *OPIUM*.—*Nil*.

10°. *MISCELLANEOUS*.—The jetty at the proposed New Settlement has been completed, and it is expected that early in 1920 ships will be taken alongside to demonstrate its utility. A light push-cart railway has been built, extending from the present town to the jetty, and it is proposed to use this railway to transport goods from the godowns located in the present town to the jetty.—A distillery for the making of samshu was started at the beginning of the year, but up to now the quality of the distilled product has not been satisfactory.—Exchange between copper cents and Peiyang dollars was normal, fluctuating between 120 and 137 coppers.—The highest reading of the barometer was 30°.76, the lowest 29°.50. The highest temperature registered was 92° F., the lowest 21° F.—The district has been comparatively free from disturbances. There have been no accidents to shipping.

中華民國八年龍口華洋貿易情形論略

竊查本年收成歉薄、疾病發生、日貨停銷、皆爲本埠各項貿易阻礙之原因、冬令氣候非常和暖、春令雨水稀少、當果樹開花之時、大爲厲風薄雪所損害、於陽歷五月間、雨水下降、小麥賴以稍爲保全、惟爲時太晚、難獲豐收、雨後天氣轉變乾旱、爲時甚久、本埠以東各鄉、所受損失、較之黃縣以東各鄉、因天旱幾無收成爲畧勝耳、本埠收成雖豐、若較諸常年折中所獲者、僅至六七成而已、旋於九月底、蝗蟲飛臨、本埠因而大受損失、惟外鄉較重、人民所歷之艱難、又爲之加重、七月底霍亂盛行、龍地居民約有四千、而死於此疾者、二百有餘、本埠一百里境內、死於此災確數、無從查知、約有一萬二千或較多也、因棺木不敷之故、以致染疫而死者尤衆、黃縣醫院、美國人艾醫士、力施救治、因乏土藥、頗爲掣肘、十一月暨十二月、龍地鄰近之各鄉、出現傷風時症、死者約計二三千、於六月間、發起停銷日貨之舉、嗣後逐漸加厲、秩序井然、手續周到、終至進口日貨、幾乎全爲停止、按以上情形、本年貿易價值、淨數關平銀二百八十萬二千七百三兩、較上年貿易價值、三百二十二萬九千六百七十五兩、減少四十二萬六千九百七十二兩、則無所爲奇、惟本年減少之原因、大半緣上年收成豐登之所致、非本年貿易不順之故也、此等論調、於理似有不順、然其爲事實無可掩也、凡人民有高等生活之程度、每年收成、用之有餘、苟遇豐收之年、貿易必隨之大興、因其生活程度既高、其所視爲需用者、必求完備故耳、反之、若人民生活程度較低、仍須依賴外來糧食之接濟、惟因上年收成甚豐、本年進口之大宗糧食、隨因之減少、前年龍地之收成頗歉、而於上年未曾豐收之前、糧食之進口者、約計關平銀一百一萬兩、上年收成既豐、是以本年進口、大爲減少、僅計三十八萬二千兩、惟本年較常年折中收成、比較相去太遠、則來年向外埠求援之糧食、又應爲之增加、以補本年之欠缺、茲將兩年華洋進口貿易、以及糧食、五穀、野蠶絲、價值之淨數、畧列如左、而尤應注意之處、即按收成結果而言之、上年係一豐收之年、而本年乃一歉收之年也、

	本年	上年	估 值 關 平 銀
(甲) 土貨進口豆餅豆子五穀麩粉	本年	上年	一百一萬兩
			三十八萬二千兩
(乙) 土貨進口野蠶絲	本年	上年	六十二萬三千兩
			七十七萬六千兩
(丙) 兩	本年	上年	一百六十三萬三千兩
			一百十五萬八千兩
(丁) 土貨進口之淨數	本年	上年	二百五萬二千兩
			一百六十五萬七千兩
(戊) 他類土貨進口 甲乙兩款不在內	本年	上年	四十一萬九千兩
			四十九萬九千兩
(己) 洋貨進口之淨數	本年	上年	五十萬兩
			三十萬七千兩
(庚) 華洋進口貨物之數 除去戊己兩款	本年	上年	九十一萬九千兩
			八十萬六千兩

本年洋貨進口之淨數，因停銷日貨，受有影響，表中其他各款，總數無相上下，於此可見由他處運來需用之貨物，仍然照常，其熟識此地情形之人，常稱本埠乃山東省內生活程度較低之處，查各類進口貨物，大抵係需用必要者，並非奢華品，足可證明生活程度較低之說，推而斷之，若能發展交通，擴充互相供給之地域，則龍地貿易，必能驟興也，此處地勢，認為優勝之後，則與烟台相同之交通，以及港泊之整頓，始可實行發現，反之，則本埠貿易之發達，自必遲緩，而只能於出口貨加增而已，至於人民生活程度之階級，可望逐漸較高，而進口貨物，亦隨之漸加。

一本關稅課，上年共徵關平銀四萬二千四百三十二兩，本年共徵三萬五千九百六兩，較上年減少六千五百二十六兩，復進口半稅暨船鈔，均為減少，惟出口稅課，為本埠開關以來，所徵收最多之數。

一洋貨貿易，洋貨由外洋運進口，及由通商口岸運來者，洋貨進口，共估值關平銀三十一萬五千四百四十六兩，上年共估五十萬八千九百六十六兩，其所以減少十九萬三千五百二十兩者，大半由於日貨停銷所致耳，各類棉貨、扇及紙煙等，皆大為減少，進口之純賺大增，乃因價值便宜，及土製土染之布加增故耳，土織布之加增，亦與進口之加增，有密切之關係，糖類之減少，由於收成不佳，不得不撙節經費耳。

洋貨復出口、姑不具論、

一土貨貿易、土貨出口、運往外洋、及通商口岸者、連復出口在內本年土貨出口、共值關平銀八十三萬八千二百五十三兩、上年共值六十七萬六千五百四十九兩、較上年增加十六萬一千七百四兩、運往外洋、共值關平銀二十八萬四千二百二十二兩、上年運往外洋者、七萬一千一百十七兩、復出口往通商口岸者、估值關平銀八千六百二十八兩、本年復出口運往外洋者無、出口加增之原因、粉絲繭綢二項、居其大半、粉絲加增、因香港銷路較暢故也、惟繭綢出口較多、實因現時西比利亞情形不穩、查繭綢一項、為距龍口三百里之昌邑縣所織、向由濟南府張家口二處、運往西比利亞者、今則在他處另覓銷路、據稱由龍口轉運之繭綢、係運往高麗者、其質甚劣、因鐵路運費減輕、故銅器及玻璃器、為之減少、此二種貨物、皆由火車自周村經濟南、運往天津牛莊二處、出口之蘇袋、亦見減少、以事實而論、此項貨物、原為進口雜糧包皮之用、今為復出口矣、乾菓類、向自高密經青島出口者、今因山東問題、皆改由龍口出口矣、本年並無礦石出口、昔日招遠縣所開之礦、現已停止工作、本年水菓收成不佳、又遇霍亂盛行、禁止出口、故本年出口之數、為之減少、生牛皮出口之數、亦見增加、其故由於昔自青島出口者、今亦假道龍口矣、本年出口之蒲扇、亦見減少、此等蒲扇、乃為蒲草所製、當地價目、每把僅值銅元二枚、此處所製之蒲扇、柳條筐、及草蓆等、如有實業家、肯為提倡、將來必為外洋社會所歡迎、銷路必暢旺也、

土貨進口估值之淨數、共關平銀一百六十五萬七千二十七兩、上年共二百五萬二千一百六十六兩、本年減少三十九萬五千一百三十九兩、其故由於進口之豆餅、米麥、及雜糧減少耳、本年進口之上海土棉紗、自一千九十三担、增至一千九百二十四担、其所以增加之故、一半由於人民樂用、一半由於日貨停銷耳、紙烟減少、亦因日貨停銷所致、上年麥季、收成甚佳、故本年進口之麪粉減少、本年霍亂盛行、死者甚多、神紙及土酒、隨

之加增、蓋神紙用之於喪事、土酒用以爲藥、土繭減少、乃因洋繭之價、較土繭略低耳、本年收成不佳、豆油因之增加、水靛之增加、由於價目便宜、又因本地織布既多、而所需之染料、自必加多耳、本年進口之野蠶絲、雖較上年加增、然亦不過僅爲一千九百十七年進口之半數、此項野蠶絲、乃係運至昌邑、織成繭綢之用、

一 出入內地之貨、入內地領有子口單之洋貨、無、

出內地領有三聯單、運往外洋之土貨、無、

特別論畧、無、

一 船隻、遵照本關總章行駛者、本年共計五萬五千二百五十二噸、上年之數、爲三萬七千八百十三噸、船隻徑駛香港者、共十二隻、船隻遵照內港行輪章程行駛者、本年減少三萬噸、英旗華旗各船隻加增、惟日旗船隻則減、

一 旅客、本年進出之旅客、大見加增、因華僑之來往滿洲、及東西比利亞者、較上年更多之故、

一 金銀、盧布票復出口之數、共二百八十萬一千枚、此票原爲昔日僑民所帶回者也、

一 藥土、無、

一 雜論、新居留地所建築之碼頭、業已告成、各船隻將於明春、試行擁靠碼頭、以視其成效若何、輕便鐵路、加以手推之料車、已自舊市場、達至新碼頭、異日卽用以載運貨物、本年春間、設置製酒廠一所、惟所製之品、至今尙未滿意、本年北洋銀元、約換銅元一百二十枚、至一百三十七枚、風雨表、高至三十度七十六分、低至二十九度五十分、寒暑表、高至九十二度、最低爲二十一度、本埠並無擾亂情事、往來船隻、亦無意外之事、

CHEFOO TRADE REPORT.

1°. LOCAL.—In the winter of 1918-19 there was an almost complete absence of snow; the spring crops failed, and spring sowings were made with great difficulty. A prolonged drought followed, the total rainfall being but half the normal, so that wells ran dry, and in many parts there was a plague of locusts. Influenza was bad early in the year, and choleraic diarrhoea was very bad later. Under such conditions crops throughout the year were poor: fruit was poorer in quality than in quantity even. Vladivostock as buyer, supplier, or remitter of money almost ceased to exist until late in the year. Coolies returning then introduced a new currency, American dollar notes. French and English money but in small quantities, is also reported to have been brought by coolies returning from the Labour Corps. For years roubles and yen were favourite currencies, and their fall in value has ruined many dealers. It is surprising, therefore, that foreign currencies were welcomed, but that this actually occurred is a strong argument in favour of a standard silver dollar uniform to all China: Chinese silver dollars were the least desired form of silver, but as the year wore on, Peiyang dollars began to find favour the drop in paper yen and roubles and the rise in silver leading to all silver being sought for hoarding. Money was always said to be short, and quantities are said to be hoarded. With a new Mint being established in Shanghai, one cannot insist too strongly on the silver unit being nearer in value to a shilling than to a dollar, as experience shows that the unit is a very great determining factor in prices and the rise in all prices seems utterly unjustifiable, as it is said to have spread to even those small villages which have hardly known anything of the world's disturbances. The dollar unit is cruelly hard on Chinese of every class, and hardest on the poorest. It is rumoured that Labour Corps coolies have been abominably fleeced, rapacious persons flocking to the centres to which the men went. Brigandage appears to have been bad, and consequently many Chinese have come to live in Chefoo—which made houses difficult to obtain and raised land values. The Tsingtao question has naturally caused even more heart-burning in Shantung than elsewhere, and the organisers of the boycott movement can only be said to have shown a self-control and restraint which were not conspicuous in China a few years ago: this point to the really fine qualities of the Shantung man and augurs well for the future. The question has drawn attention to the immense value of Shantung not only as a rich province but as a gateway to China; given terminal and railway development, its value to China would completely eclipse its provincial value. There is no foreign Concession or Settlement at Chefoo, and the area known as Section 1, covering the parts in which foreigners chiefly live, and adjacent streets of the Chinese city, has for 17 years been managed by a committee of Chinese and foreigners with ever happier results and increasing revenues, although there is no enforced taxation, only voluntary contributions, for which, of course, a rateable value has been assessed as basis. Chinese and foreign commissions, under Government authorisation, have functioned in two cases with the greatest success, namely, the Singtai Bankruptcy Commission and the Harbour Improvement Commission. Good feeling and mutual esteem between the Chinese and foreigners, which is so desirable is probably greater here than in most ports, and this is due to a great extent to the better knowledge of each resulting from such commissions; especially, perhaps, in the Bankruptcy Commission the Chinese saw foreigners, with no personal interests to serve, give care, time, and work, and the foreign members saw the Chinese showing the same desire for accomplishment with the result of a quick finish, with practically no costs, of an intricate business which might have been expected to drag on for years with all the asset

swallowed by costs. It "gave everyone to think," and during the last six years good relations between the respective chambers of commerce have become much more cordial, every desire is shown to work well together, and the Chinese Chamber has markedly improved in its accomplishments.

Harbour Improvement Work.—The report of the Commission's engineer-in-chief for the 17 months August 1918 to 31st December 1919 follows: "*Breakwater.*—During this period very good progress has been made with both the foundation and superstructure, and the advanced state of the breakwater now affords very considerable protection against north-easterly winds. The rubble mound with the heavy stone protection on the slopes has been completed, and the heavy stone and small block protection on the berms is laid as far as the large blocks. In 1918 blocksetting was continued till the 5th December. It was resumed on the 1st April 1919 and was continued till the 29th November. A total of 3,000 large blocks, containing 57,000 cubic yards of masonry and making a total length of 2,300 feet of blockwork to its full height, have now been set in the breakwater, in addition to nearly 3,000 7-ton blocks, containing 5,000 cubic yards of masonry, on the outer berm and around the south head. Only about 400 large blocks remain to be set to complete all the large blockwork in the breakwater. Blockmaking on the West Beach was continued till the 3rd December 1918, was resumed again on the 3rd March 1919 and continued till the 1st December, when stopped by cold weather, leaving a stock of 260 blocks ready for next working season. The building of the concrete and masonry superstructure was continued steadily till stopped by cold weather on the 15th December 1918. Owing to the difficulty of obtaining sufficient quantities of building stone for both blockmaking and this work, the latter was not resumed till the 19th May 1919, since when it has been continued till the 12th December. Altogether some 24,000 cubic yards of superstructure have now been built, and the landing steps at the south end have been set. The reinforced concrete caisson for the north head was completed in November 1918 and is ready for placing in position as soon as the blockwork is completed. *Mole.*—Work has been continued steadily on the foundations and superstructure of the Western Mole. To date some 900,000 cubic yards of sand, 100,000 square yards of brushwood zinkstuks, and 54,000 tons of rubble have been deposited in the foundations and lower part of the mole, and over 67,000 tons of rubble of various grades in the upper part, which is approximately to its full height and fully protected with heavy rubble on the outer slope and partially protected on the inner slope for a length of 1,200 feet. The rubble foundation for the quay wall has been completed and levelled, and the reinforced concrete caisson for its western end was successfully sunk in position in May 1919 and has been filled with concrete. That for the east end is ready to be placed as soon as it is required. The building of masonry blocks for the quay wall has been continued, a total of 346, containing 5,000 cubic yards of masonry, having now been made. The setting of these was commenced in September 1919, and 133 bottom blocks are now in place and backed up with rubble. *Plant, etc.*—In order to increase the output from the quarries the contractors are installing a compressed air drilling plant at the Bluff. Much delay has been caused in this work by difficulties of transport and supply, but the majority of the machinery has now been erected, and the remainder is expected to arrive from America early in 1920. Since the commencement of the works 15,500 tons of cement have been received."

2°. REVENUE.—An increase of *Hk.Tls* 9,253 is shown. Import duty fell by *Hk.Tls* 4,200; coast trade duty increased by *Hk.Tls* 9,600 and tonnage dues by *Hk.Tls* 3,700. Native Customs revenue rose by *Hk.Tls* 2,687.

3°. FOREIGN GOODS.—(a.) *Imports, Direct and Coastwise.*—The total value—*Hk.Tls* 6,211,800—shows a gain of *Hk.Tls* 563,900, in spite of the low silver value of imports. All Japanese cotton piece goods fell, while the loss was more than made up for by the rise of the English and American varieties. Japanese

sheetings, for instance, fell by 32,760 pieces, but English and American rose by 65,800 pieces: Russian disappeared. Japanese cotton yarn fell 13,450 piculs: Indian rose 4,800 piculs. Shanghai yarn rose 25,700 piculs and Shanghai sheetings by 31,200 pieces. Japan matches fell 203,800 gross, locally made ones being in demand. Japan coal fell by 11,700 tons. American and Sumatra kerosene oil gained 510,000 gallons, as some direct shipments came: Japanese all but disappeared. White sugar fell sufficiently to wipe out the gain in other varieties.

(b.) *Re-exports* decreased *Hk.Tts.* 1,756,000, due entirely to Korean ginseng dropping by 2 million taels. Cotton goods and kerosene oil showed increases.

4^o. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports).*—The total value shows an increase of *Hk.Tts.* 2,955,800. *Re-exports* increased by *Hk.Tts.* 703,500. The losses were in fish, fruits, lace, and wild raw silk. Lace fell through its high cost in gold, owing to the difficulty of obtaining English thread while fine work and the unwillingness to make new patterns, as usual, were adverse factors, but 1,000,000 yds. of good quality was made. Workers turned from lace-making to the easier and more profitable work on hair nets, of which the value for the year was *Hk.Tts.* 1,805,000, a rise of 1 million taels. The early spring saw a sharp demand from America: it was learnt that forward business had been done there, and England and France thereupon began to buy, but had to go short, as prices rose beyond their figures. However, American demand was stimulated to a scramble for nets at any price, nets offering at \$2.20 a gross in the spring fetching \$5 before the end of the year. Very great harm has been done to a growing business; unprincipled buyers are reported to have gone inland, not buying so much from Chefoo, and to have offered any price to obtain nets direct from workers, supplying them with other hair to replace what they had received and made up on contracts. The result was that contracts were simply ignored by the Chinese: the hair net business in Europe was originally said to lend itself to sharp practices, and such seems to be its fate with the Chinese, who have simply been taught dishonesty during the summer: of course, quality has fallen by 50 per cent., and a large amount of absolute rubbish has been sent to America and is being returned, and it is sincerely to be hoped that those American buyers have been hit whose action has endangered the existence of a business which is very valuable as providing labour and has also shown up the foreigner in a bad way. Great care is now being taken by buyers, but the Chinese of all classes have done so well that they consider they can supply what they like. Wild raw silk decreased by 910 piculs, while pongee increased by 960 piculs. The year opened with a drop of some 25 per cent. in prices in Europe, consequently stocks accumulated here until the summer, when a demand for heavier grades came from Europe; lighter grades were out of favour owing to the inferior qualities which had been sent abroad. Later America bought the lighter weights, and by the autumn the market was stripped of all qualities and prices had risen 50 per cent., while exchange had raised cost abroad by 100 per cent.; still, demand so exceeded supply that even very high offers could not be met. The value of good grades of this pongee is so recognised abroad that the only factors against great growth are insufficient supply of cocoons and dishonest practices by the Chinese, the makers considering that they can supply anything they choose. Efforts are being made to assist production of cocoons and to standardise pongee. The competition of Japan grows more deadly as the Antung cocoons pass more into Japanese hands. Straw braid shows a slight increase, but transport difficulties are driving it to Tientsin, local firms finding it necessary to send buyers there, and Chefoo cannot hope to retain this trade.

(b.) *Imports.*—A gain in value by 3.3 million taels is recorded. The chief drop was in rice, the price being too high, while cocoons fell solely because they could not be procured.

5 INLAND TRANSIT.—No remarks.

6°. SHIPPING.—Entries numbered 1,356, with a tonnage of 1,092,000—a gain of 58 vessels. The gain was general, but not enough to remove freight difficulties. Vessels under Inland Steam Navigation Rules lost 245, and 30,000 tons.

7°. PASSENGER TRAFFIC.—Chinese inward traffic gained by 9,400, outward by 2,400. Few coolies went to Vladivostock, but many returned from there towards the end of the year.

8°. TREASURE.—Import increased 1.99 million taels, export decreased *Hk.Ts.* 275,600. Gold bars from Dairen increased *Hk.Ts.* 16,990 and export to Shanghai decreased *Hk.Ts.* 41,000. There is undoubtedly much smuggling of gold on the person by passengers. Silver coins increased inward and outward, bars increased on import and declined on export.

9°. OPIUM.—*Nil.*

10°. MISCELLANEOUS.—Work in the harbour was stopped by gales on 23 days. The highest reading of the thermometer was 98° F.; the lowest, 9° F. Rainfall, 12.52 inches; snowfall, 31.05 inches, in November and December.—A considerable amount of building was in progress.

A. SUGDEN,

Commissioner of Customs.

CHEFOO, 28th February 1920.

中華民國八年烟台口華洋貿易情形論畧

竊查客歲冬季，幾未見雪，來春田穫，難期豐足，春暖甚遲，南風不息，隴畝爲燥，曾憶五月間某日，天氣最熱，竟達至九十八度，故春禾毫無收穫，果木之萎，多爲風殘，春來播種，亦爲至難，蓋以天氣久旱，井水枯涸，全年雨量，僅及往常之半耳，各處蝗蟲之災，多所遭受，時疫流行於前，虎力拉症發於後，然據本埠有司調查所及，土著之死於此者，幸尙不多也，全年禾稼，收穫至寡，果木之產，既不豐饒，而色味尤劣，海參崴一埠，向與本埠貿易，且常通匯兌，今則幾至完全停滯，直抵本歲末季，始稍恢復，僑工歸來，攜帶美幣，於是金融市間，引出一種新幣，英法錢幣，亦時見之，聞亦係僑工携來者，然爲數甚微也，俄票日金，於本埠通用，歷有年所，今之價格驟落，傷損隨之，從茲外洋錢幣，恐於此埠難望發達，外洋錢幣，咸受社會歡迎一事，人常持以論改良中國幣制，應定一通用銀圓，流通全國，不分畛域，歷年華幣頗不通行，今北洋銀幣，始漸爲社會所重，俄票日金之跌落，銀價之驟增，以致儲銀之風日盛，初未思及其成色如何者，近年金銀奇絀，歛取藏蓄之，有以致之也，新造幣廠，設立於滬，應速釐定單位，製一新幣，使其小於一圓，類英倫之先令者，是爲當務之急，就歷年所經觀之，物價之升降，實以貨幣單位爲準，此次百物昂貴，荒村僻壤，幾不識世之有變者，亦波及之，揆諸情理，豈得謂平，以銀圓爲單位，華人咸受其苦，而貧寒之家，受之益甚，僑工返者，類皆隻身赴烟，道路傳聞，有不肖之徒，或男或女，設法誘騙其財物者，數見不鮮，盜賊充斥，鄉人之來烟避亂者甚夥，以致覓居維艱，地價騰貴，青島問題，魯人痛患切膚，過於他省，而其隱忍自勵，爲中國前此所不見者，觀其百折不回，實爲魯人天賦良質，將來希望之佳，豈能預測，卽此問題，引起國人注目於魯省，非惟一富庶之區，且爲中國之門戶，設交通便利，軌路相聯，則其價值當係乎中華全局，非僅限於一省治己也，烟台無外人租界，然所謂警察第一區地面，類爲外人所居，附近街市，曾於近十七載間，爲華洋共同組織之工程會修理清潔，有條不紊，會中並無苛稅之徵，係准

一定率、由諸紳商樂善捐輸者、至今款項頗稱充足、而此間華洋共組之會、承政府之允許者、蓋有二焉、一爲順泰破產會、一爲海壩工程會、華洋人士、感情融洽、甲諸他埠、要皆由共組會社、興辦事業、彼此相知甚稔也、即舉破產會言之、外人之小心謹慎、犧牲時力、不顧私利、悉能大白於衆、而華人誠懇忠毅、適亦相同、均期取此糾紛之事、速爲排解、而初不計及報酬也、否則徒費光陰、恐罄其資產、尙不抵其清理之費、此最能令人注意者也、近六年間、華洋兩商會、關係日益親善、皆期共同工作、達於美滿、而此間華商會近年進步、亦最顯著也、

海壩工程、茲將工程會總工程司報告錄後、計報十七個月內所建之工程、係自七年八月起算、至八年十二月爲止、查以前年報、悉起自八月、因工程起自該月也、去歲公衆議決、此項報告、定於每年工程期限完畢時發出、似較便當、是以後之所述、僅限於此十七個月也、

海壩、此期中該壩之基礎、及上部工程、進行俱速、現時大功雖未告竣、但其抵禦東北風之效、已非淺鮮、亂石基墩、及保護兩坡之大石、俱已竣工、其保護壩腰之大石、及小混合石塊、已放至與大混合石塊相齊、安放混合石塊工程、民國七年內係於十二月五日停止、八年四月一日開工、十一月二十九日停止、除外壩腰上、及南端壩頭之周圍、已放妥三噸重之混合石塊、約三千塊、合石工五千餘立方碼外、又共放妥大混合石塊三千六百塊、合石工五萬七千方碼、共長一千二百尺、俱已及應至之高度、應再放四百塊左右、則此項工程、即可告竣、西沙旺建築混合石塊工程、民國七年內、係於十二月三日停止、八年三月三日開工、十二月一日、因天冷停工、現存混合石塊二百六十塊、預備下次開工應用、上部之混合石及灰沙石工程、民國七年內、循序進行、至十二月十五日、方以天冷停止、惟因採石困難、不敷同時供作混合石塊、及此項工程之用、故此項工程、於八年五月十九日、方復開工、繼續進行、至十二月十二日止、上部工程之造成者、總計約

二萬四千立方碼，又南端之升降階，現已砌成，北端之鐵筋灰沙石基箱，已於七年十一月內造成，一俟混合石塊放畢，即可安置。

防波堤，該堤上下兩部工程，俱同時循序進行，下部工程，現已積有沙約九十萬立方碼，柴埽約十萬平方碼，亂石五萬四千噸，上部工程，已積有大小亂石，約六萬七千噸，共長一千二百尺，已約及應至之高度，其內坡與外坡之一部分，已用大石掩護，碼頭下之亂石基墩，已平整完竣，其西端之鐵筋灰沙石基箱，已於八年五月間安放妥貼，並已用灰沙石填滿，其東端之基箱，亦已預備齊全，隨時可以安放，碼頭應用之混合石塊，仍繼續建造，已共造成三百四十六塊，合石工五千立方碼，八年九月間開始安放，現已放妥底層石塊，一百三十三塊，其後方並已用亂石填積。

機械等項，包工者，為增加石廠出品起見，現正在北島安設一氣壓鑽孔機器，因運輸不便，來貨不易，故將此項工程耽誤不少，但其大部機件，現已經營就緒，其餘諸部，大約於九年初亦可由美運到，自開工起共收入洋灰一萬五千五百噸。

一本關稅課，本年所收之稅，較上年增關平銀九千二百五十五兩，而進口正稅一項，減關平銀四千二百兩，復進口半稅，增關平銀九千六百兩，船鈔，增關平銀三千七百兩，常關稅款，增關平銀二千六百八十七兩。

一洋貨貿易，洋貨由外洋運進口，及由通商口岸運來者，共計價值關平銀六百二十一萬一千八百兩，縱本年金銀價值相懸，洋貨售價，多受傷損，而進口之數，較去歲竟增關平銀五十六萬三千九百兩，日本棉製布疋大減，英美貨品之增，實足以抵其所損而有餘，即以日本粗布而論，較上年減三萬二千七百六十疋，而英美舶來之品，增六萬五千八百疋之多，此其例也，俄國布疋，今已不見，棉紗，日本製者，減一萬三千四百五十担，來自印度者，增四千八百担，製於滬者，增二萬五千七百担，上海粗布，亦增三萬一千二百疋，日本自來火，減二十萬三千八百羅，而土製者，所求甚急也，日本煤，減一萬一千七百

噸、美國及蘇門答臘之煤油、增五十一萬加倫、多逕自該埠裝運來此者、日本油、今則完全絕跡矣、白糖所減殊巨、他項貨品增益之數、足爲其所掩蔽也、

復出口洋貨、減關平銀一百七十五萬六千兩、卽高麗參一項、減關平銀二百萬兩、此次減少、悉原於此、而棉製品及煤油、皆有增益、

一土貨貿易、土貨出口運往外洋、及通商口岸者、連復出口在內總額增關平銀二百九十五萬五

千八百兩、復出口增關平銀七十萬三千五百兩、土貨減少者、爲魚類、水菓、花邊、及野蠶

絲等、花邊金價增高、而英製之線、又難於購置、具足以使其出口減色、其花樣泥古、不喜

更新、而出品不潔若昔、亦有以致之、惟一種束髮花邊、業能製就、品質頗稱精良、製花邊

者、類皆移此業而就髮網、工作較易、而獲利勝之、全年價值、關平銀一百八十萬五千兩、

較去年增一百萬兩、春間美之求購者多、一時在美銷售、甚爲踴躍、英法兩國、旋亦從事

購辦、是以髮網缺少、價值大昂、美之求購者、爭先恐後、有則購之、價值高低、在所不計、春

間髮網每羅斯祇售洋二元二角、至年終竟漲至五元之多、聞有購網西商、素乏經驗、少

向烟台購辦、曾赴內地、直向網工收買髮網、出以高價、且供以髮、以致網工向所受之髮、

約期製網者、遂致擱置、及期不成、華商業網者、均相率廢棄契約、而此日與月益之業、受

一摧折、歐洲髮業、時有詐欺之舉、不意今夏華商亦被薰染、以致在華髮業、亦受其影響

矣、如此交易、出品自難精良、不惟貨質遜於以前過半、且屬雜劣品、輸運去美、卒致退回、

此等購網之美商、竟至自受其害、因若輩此舉、使此項工業之存在、趨於險象、且足以揭

示外商之不良也、現購貨者、皆係小心翼翼、然華人處此求過於供之時、所得已豐、咸抱

出貨不慮無人過問之想、野蠶絲、減九百十担、繭綢、增九百六十担、本年開始、在歐綢價

落四分之一、以致本埠貨多壅滯、入夏歐之求購者、多索較重之品、以前此赴外洋輕量

之綢、品多惡劣、故外人捨而不用也、既而輕量之綢、見購於美、秋來市間各色綢貨、均爲

售罄、價增其半、而在歐金銀交易屢更、其價竟倍疇昔、雖然、求仍逾供、雖出高價、不可得

也、此項繭綢、在外洋聲價頗高、祇以山繭缺少、供給不足、華商交易、多乏誠心、於此業發

展實有妨礙，而綢工賴於銷路之暢，遂任意織製，市間所需，未嘗顧也。曾擬設法鼓勵產繭，改良製綢，但日本之爭衡，日益加甚，安東山繭盡歸其掌握矣。草帽緞，微有增益，然以轉運艱難，業此者多赴天津，而求購者亦多往該埠交易。觀此，則草緞業於此埠難於振興也。

一 進出口土貨，總額增關平銀三百三十萬兩，大米漲價，遂致減色，山繭亦減，因得之匪易也。

一 出入內地之貨，入內地領有子口單之洋貨，無。

一 出內地領有三聯單，運往外洋之土貨，無。

特別論畧，無。

一 船隻，進口船隻，為數一千三百五十六，共一百九萬二千噸，較上年增船隻五十有八，本年各國船隻，皆有增益，惟仍不足以濟噸位之困乏也。遵照內地章程行駛船隻，減二百四十五，共三萬噸。

一 旅客，入口華客，增九千四百人，出口增二千四百人，赴海參崴之苦工頗少，年終自該處歸來者，甚多也。

一 金銀，進口總額，增一百九十九萬兩，出口，減二十七萬五千六百兩，金條，由大連來者，增關平銀一萬六千九百九十兩，往上海者，減四萬一千兩，旅客私携金貨來往不報者，亦復不少，銀幣進出口皆增，銀條進口有增，出口則減。

一 藥土，無。

一 雜論，本港工程，為大風所阻，停工二十三日，本年寒暑表熱度最高至九十八度，低至九度，雨量十二英寸五二，在十一月間，雪則三十一英寸零五，本埠土木建築，本年進行甚盛也。

KIAOCHOW TRADE REPORT

1°. LOCAL.—The first half of the year 1919 witnessed a steady growth of trade at this port, the revenue collection exceeding that of the corresponding period of 1918 by more than 200,000 Haikwan taels. But this expansion was nipped in the bud quite unexpectedly on account of the developments of the Shantung question, and in all classes, under the instigation mainly of students, a general reluctance to deal in Japanese goods manifested itself. Although the Government spared no pains in suppressing this movement, yet the Peking students became excited and instituted a strike, the effects of which spread like wildfire to all important places in the country. At Tsinan the students held demonstrations, made fiery speeches, distributed posters, searched shops, and watched movements of goods at the railway station. The sale of Japanese goods was naturally obstructed, but besides Japanese merchants, the Chinese merchants hitherto importing and dealing in Japanese goods and native goods of a similar nature suffered equally. However, in spite of the vigilance exercised by the students, the arrivals at Tsingtao of native goods such as groundnuts, straw braid, bean oil, groundnut oil, and leaf tobacco during the year 1919 were twice as much as those in 1918, being roughly 100,000 tons, against 50,000 tons. In point of fact it may be admitted that the movement is to be regarded as a precursor of the awakening of young China, but, if matters should be carried too far, it is to be feared that further complications may arise. The exchange rates between Japanese silver yen and gold yen, which are not always commensurate with the silver quotation in London, are shown in the following table:—

1919.	100 SILVER YEN =			1919.	100 SILVER YEN =		
	Highest.	Lowest.	Average.		Highest.	Lowest.	Average.
	Gold Yen.	Gold Yen.	Gold Yen.		Gold Yen.	Gold Yen.	Gold Yen.
January	171.00	165.00	167.15	July	175.00	170.50	172.88
February	165.00	152.00	157.50	August	183.00	175.00	180.10
March	154.00	149.00	151.42	September	190.00	178.00	183.20
April	161.75	152.00	158.39	October	205.00	188.00	192.75
May	170.00	161.00	166.10	November	239.00	199.00	217.67
June	175.00	168.00	172.28	December	242.00	217.00	227.58

Prolonged drought affected all agricultural products, especially in Tengchow (登州), Laichow (萊州), and Tsingchow (青州): It rained towards the latter part of the month of August, but on account of the unfavourable weather, both wheat and groundnuts were inferior in quality to the previous year's yield. The extension of the area of land under cultivation is reported to have made up for the scantiness of crops, particularly in the case of cotton. In August there was a flood on the Hwangho (黃河), but the damage done to the districts in the province that lie along the river is said to be small. In September a swarm of locusts made its appearance in South-western Shantung along the Ching-P'u Railway line, destroying plants and vegetables wherever it stopped. It passed over Tsingtao going westwards in two separate groups, each taking about two hours to pass over the town. Tsingchow (青州), Tehchow (德州), and Taian (泰安) are said to have suffered heavily. Taking, however, the whole province into consideration and seeing that the export of staples was not reduced—with some products rather increased—in comparison with that in 1918, the damage from drought, flood, and locusts cannot be said to be serious. In February the first batch of

the Chinese labourers in Europe—referred to in Kiaochow Trade Report for 1917—returned here. During the year 26 steamers brought to Tsingtao 39,471 men, and by the end of January 1920 these returned labourers totalled 58,000, leaving a balance of 37,000 more to come back. The amount of money annually paid to the labourers' families is estimated to be about \$7,000,000, which at a time of scarcity must have been a godsend to the people of Shantung and have saved them from starvation. The growth of Tsingtao may be seen from the fact that the number of firms and factories with subscribed capital of over half a million yen was 32 at the end of the year 1918, which, during the year under review, increased by 38, making the total 70. Over 300 houses are now in course of construction.

Junk Trade.—The value of the junk trade for the year was 7 million Haikwan taels, as against 6 million in 1918. The total revenue collection shows an increase of *Hk.Tts.* 23,600 over the figures of 1918, and import duties establish a fresh record. The total value of junk-borne imports amounted to 6 million Haikwan taels, exceeding that of the previous year by 2 million. This increase is chiefly due to a large importation of wheat and other articles from Haichow (海州). The value of original exports to native places was 1.4 million Haikwan taels, showing a falling off of 0.7 million compared with the year 1918. This is due to the failure of the harvest. The value of inter-bay trade amounted to 1.68 million Haikwan taels, showing a decrease of 0.89 million on the 1918 total, while the revenue for the same heading increased by *Hk.Tts.* 1,440. It is due to the curtailed exportation of salt from Yintao (陰島), which, being produced in the Leased Territory, does not affect the revenue. The number of sea-going junks entered and cleared during the year was 16,986, with carrying capacity of 4,584,516 piculs, as against 14,241, with 3,830,713 piculs, in 1918. The junk trade in Tsingtao is full of promise with the improvement of the Small Harbour.

2. REVENUE.—As has been remarked elsewhere, the revenue collection up to the month of June was ahead of that in the same period of 1918 by *Hk.Tts.* 216,000. The effect of the boycott began to be felt in July, and the decrease of collection was conspicuous in October. With the revival to some extent of import trade in November and brisk export trade in December, the whole year's collection resulted in an increase of *Hk.Tts.* 253,000 over the 1918 figures. In spite of the fact that both the gross and the net values of trade beat all previous records, the collection has fallen to the fourth place. This peculiar discrepancy seems at first sight to be incapable of any explanation, but the actual state of affairs is that up to the year 1913 Tsingtao was rather a port of ingress of foreign goods than of egress of native cargo. Since the reopening of the Custom House in 1915 the tendency has been reversed. With imports remaining almost stationary, exports have been making a rapid advance. This fact causes the expansion of the trade value of this port, but as the duty charged on export cargo is very small in comparison with the import duty, the collection cannot necessarily be proportionate with the increase of the volume of trade.

3°. FOREIGN GOODS.—(a) *Imports, Direct and Coastwise.*—The encouragement given to foreign imports by the high exchange of silver was sadly checked by the boycott movement. Nearly all items of cotton goods, especially those of Japanese make, fell off enormously. In the first half of the year under review nearly half a million pieces of grey sheetings and shirtings, *T*-cloths, jeans, turkey red cottons and dyed *T*-cloths, and drills, valued at over 2 million Haikwan taels, were brought here, while in the latter half their importation was reduced to one-fifth. In the first half cotton yarn imported was worth over 2 million Haikwan taels, while in the latter half no importation took place. Local industrial activity has also caused reduced importation of cotton yarn, matches, flour, table water, and cement. The Japanese Government's prohibition in November of export from Japan of cotton yarn under 20 counts had no effect on the trade in that line, for at that time no direct business transaction with the interior was possible. With the vigorous undertaking of the erection of various buildings, timber from Hokkaido made itself conspicuous in its importation. Hitherto 80 per cent. of timber on the market has been the production of the Yalu region.

But, encouraged by the high rates of exchange of silver, timber from Japan and America began to fill the market, the Yalu timber being reduced to about 30 per cent. The increased value of direct foreign imports over that in 1918—17.5 million Haikwan taels in 1919, against 16.9 million—does not point to the actual expansion of general foreign imports, inasmuch as the soaring of prices during the year makes the standard for the calculation of trade value higher than in the previous year and causes the volume of trade to appear much larger than it actually is. Imports from Hongkong decreased from 2.1 million Haikwan taels in 1918 to 1.7 million; those from Japan, from 12.9 million to 12.8 million; and those from the United States increased from 0.9 million to 1.9 million. The chief items from the last-named country are machinery and kerosene oil. Compared with the year 1918, foreign goods imported from treaty ports were reduced in value by nearly one-third, being 4.6 million Haikwan taels, against 6.3 million. Shanghai's share was nearly 4 million and Dairen's nearly 0.6 million.

(b.) *Re-exports*.—Of the total re-exports to foreign countries, nearly five-sixths were carried to Japan, the principal item being cotton goods. Owing to lack of demand, the cargo accumulated here had to find its outlet in other ports. The result was that out of 1.6 million Haikwan taels worth of total re-exports 1 million was sent to Dairen and the remainder to Shanghai, Tientsin, Chefoo, Lungkow, Hankow, etc.

4. CHINESE GOODS.—(a.) *Exports, Abroad and Coastwise (including Re-exports)*.—Exports to the value of 38.7 million Haikwan taels established a fresh record. Compared with the 1918 figures, the value of coast export fell off by over 1 million taels, while foreign export increased by more than 10 million taels. Shipping facilities for Europe and America being in favour of Japan, 3.7 million taels worth of groundnut kernels, 6.3 million taels worth of groundnut oil, 1.1 million taels worth of bean oil, and 1.2 million taels worth of straw braid were carried there, where most of the cargo was transhipped for Western countries. As the result of the fine crops harvested in 1918 and the removal of wheat embargo since October the same year till July 1919, the amount of this commodity sent to Japan was over 1 million piculs, valued at more than 3.4 million taels. The first shipment of iron ore—produced by the Kinlingchen (金嶺鎮) iron mine worked by the Shantung Railway—took place in May. The ore is sent to the Japanese Government Iron Foundry at Wakamatsu. The total shipment during the year was over 1 million piculs. In the neighbourhood of Haichow a phosphorite mine was discovered, and if successfully worked, another staple commodity will be added to the export list. Under a special agreement concluded between the Chinese and the Japanese Governments, salt was shipped for Japan from the Haichow district, the limit being 1 million *tan*. A new phenomenon caused by the boycott was the export of locally manufactured cotton yarn and matches, the former article to Dairen and Tientsin and the latter to Dairen. Copper ingots are ceasing to be an export article and will soon be eliminated from the port returns. As the result of the Japanese Government's exemption of import duties on cotton yarn, beef, eggs, and beans, for one year, an enormous quantity of fresh eggs and frozen beef was sent to Japan. The total value of exports to that country was over 23 million taels, consisting, besides those mentioned above, chiefly of beancake, coal, coke, steam filature silk, cow hides, and animal tallow. Shanghai comes next, where bristles, coal, raw cotton, egg albumen and yolk, groundnut kernels, steam filature silk, Shantung pongees, straw braid, and leaf tobacco, valued at 7.1 million taels, were sent. The last-named commodity alone was worth 2.7 million taels. Dairen carried away bean oil, groundnut oil (2.8 million Haikwan taels), leaf tobacco, etc., valued at 4.7 million taels. Korea's share was 0.7 million taels, and Tientsin and Canton received 0.49 and 0.46 million taels respectively. Beer locally brewed and exported to treaty ports and Japan reached as much as *Hk.Ts* 566,405. As has been remarked elsewhere, the Shantung Railway could not be availed of for transportation of merchandise, and cotton yarn from Shanghai was re-exported to Dairen (1 million Haikwan taels) and other ports. The total re-exports of native goods to treaty ports amounted to 1.7 million taels, as against 0.18 million taels in 1918. Those to foreign countries were too small in quantity to need any remark.

(b.) *Imports*.—Gross native imports fell off from 12 million Haikwan taels in 1918 to 10 million. Shanghai contributed more than 9 million; Dairen, 0.4 million; and Antung and Tientsin, 0.17 and 0.13 million respectively. The principal articles from Shanghai were cotton piece goods, cotton yarn (4.23 million Haikwan taels), cigarettes (1.97 million Haikwan taels), flour, and various papers.

5°. *INLAND TRANSIT*.—(a.) *Inwards (under Transit Pass)*.—As compared with the year 1918, both the number of passes issued and the value of goods covered by them have increased—passes by 212 and the value by *Hk. Ts* 247,326. The cargo transported consisted of kerosene oil and a small quantity of candles.

(b.) *Outwards (under Transit Certificate)*.—The cargo brought from Honan under transit certificate consisted of pig iron.

(c.) *Special*.—*Nil*.

6°. *SHIPPING*.—(a.) *Under General Regulations*.—The total number of steamers entered and cleared during the year exceeded that in 1918 by 698, with an aggregate tonnage of 676,532 tons. The increase in British shipping by 92 (310,606 tons) was mainly due to the arrival of the steamers carrying back coolies from Europe. The Japanese ships increased by 539 (300,383 tons), the Russian by 13 (14,571 tons), and the Chinese by 52 (25,314 tons).

(b.) *Under Inland Steam Navigation Rules*.—As against 102 vessels entered and cleared during the year 1918, with an aggregate tonnage of 7,752 tons, 190 vessels, with an aggregate tonnage of 23,522 tons, entered and cleared. One Chinese ship withdrew after making only 23 trips and returned to Chefoo.

7°. *PASSENGER TRAFFIC*.—At first sight the number of incoming Chinese seems too great in comparison with outgoing natives. But if the number of labourers returned from Europe be deducted, the incoming and the outgoing numbers are almost the same. The increase of foreigners from Japan and the decrease of those leaving for Japan point to the fact that Japanese visitors to China arriving from Japan direct were more than in 1918 and they returned home *via* other ports.

8°. *TREASURE*.—The import and the export of treasure during the year have again departed from the normal order—import being far greater than export. Payment had to be made to the returned Chinese labourers landed at Tsingtao, and the demand for Chinese dollars was very great, thereby causing an unusual amount of import.

9°. *OPIMUM*.—Only 7.50 piculs were imported, as against 55 piculs in 1918. The authorities have been exercising, in pursuance of the "gradual suppression" policy, stricter vigilance in the examination of habitual smokers applying for licences for smoking and in the prevention of transferring such licences to people other than their legal owners. The result was that there was still stock to meet the demand.

10°. *MISCELLANEOUS*.—The appointment of Acting Tschün Chang Shu-yüan (張樹元) was made substantive in March, but he resigned in December and was succeeded by General T'ien Chung-yü (田中玉). His Excellency Shên Ming-ch'ang (沈銘昌) was appointed Civil Governor, but resigned in August and was succeeded by His Excellency Ch'ü Ying-kuang (屈映光). Lieut.-General Oshima was placed on the reserved list, and Lieut.-General Yuhi—later promoted to General—was appointed Commander of the Tsingtao Garrison.—The minimum temperature registered at the port during the year was $-11^{\circ}.8$ C. on the 4th February, and the maximum $35^{\circ}.4$ C. on the 8th August, while the total rainfall

was 542.4 millimetres.—The reclamation work of the north-eastern area near the Great Harbour was commenced in January at a cost of *Silver Yen* 472,200. The area to be reclaimed is 143,231 *tsubo*, i.e., 117 acres. 89,000 *tsubo* had already been filled in at the end of the year, and the remaining part will be finished by September 1920.—With the ever-increasing population and industries the insufficiency of electric and water supplies has been a constant complaint. The wells at Litsunho (李村河) and Haipoho (海泊河) being utterly inadequate to meet the demand—a daily consumption of over 5,000 tons,—the Japanese authorities are making new wells at Paishaho (白沙河), 21 kilometres from Tsingtao. Pipes have already been laid, and the work has progressed by 80 per cent. and will be completed in May 1920. The cost is estimated at *Silver Yen* 380,000 and *Gold Yen* 600,000. Anticipating further shortage of water, the authorities are contemplating a plan to construct a reservoir large enough to hold 10,000,000 tons at a place two miles from the present wells at Paishaho. The Electric Power House has added a new Stal turbine generator and condenser capable of supplying 1,500 to 2,000 kilowatts of power at a cost of *Gold Yen* 237,000.—A government hospital for Chinese was built at a cost of *Silver Yen* 54,000. It is fitted with up-to-date medical apparatus for the application of such treatments as diathermie, Röntgen, radium, sunlight, etc. Another hospital is in course of erection within the compound of the old Red Cross Hospital. It will cost *Silver Yen* 180,000 and will be completed in April 1920.—The land and buildings of the former Silk Industrial Company of a Sino-German concern at Tsangkow (滄口), which were used by the British War Bureau during the war as barracks and drilling ground for the coolie corps, were bought up by the Hua Hsing Spinning and Weaving Company, of Tientsin. They were reconstructed and fitted with machinery imported from the United States. The new factory will be in working order in the spring of 1920.—As elsewhere, Asiatic cholera of severe nature invaded the port. The first case was reported on the 9th July. Strict quarantine regulations were enforced and not removed till the 5th October. On the 22nd August the authorities went so far as to prohibit sea-bathing, fishing, and all other water sports by a military ordinance. According to the report of the Gendarmerie Office the total cases in the port amounted to 191, of which 60 per cent. were fatal. In November another epidemic—influenza—appeared and raged for fully two months. The total cases amounted to 4,257, of which 99 proved fatal.

M. TACHIBANA,

Commissioner of Customs.

TSINGTAO, 26th February 1920.

中華民國八年膠州口華洋貿易情形論畧

竊查本口貿易情形、自春徂夏、顯係蒸蒸日上、所收稅課、較上年春夏兩季增益二十萬金、詎料好景不常、變來至速、其變維何、即係因山東問題發生、各界對於日貨均不樂爲之銷售、是尤以學界之倡導爲甚、雖經政府竭力彈壓、而京校學生竟有以此釀成罷課風潮者、其響應之速、等於野火燎原、國內各要區靡不漸受其影響、濟南學生並有遊行示威、激烈演說、散布傳單、搜檢商舖、稽察車站之行爲、日貨銷場遂不免因而停滯、日商無論矣、即華商向以販運日貨、及類似日貨之土貨爲業者、亦不免同受損失、然學生雖竭力進行、而到青之土貨中、如花生、草帽、縷、豆油、花生油、菸葉等品、其數皆倍於上年、上年祇有五萬噸、本年竟達十萬噸、總之此事平心而論、當認爲少年國民奮醒之預兆、第措施過當、或恐別滋事端耳、登萊青三屬、旱魃爲災、農產受損、麥糧花生之成色、概較遜於上年、比至仲秋、始獲雨澤、幸各種雜糧、產地增廣、藉補收穫之不足、棉花一項、展地尤多、八月間黃河雖經氾濫、本省沿河一帶之災區、尙屬寥寥、九月間本省西南、飛蝗禍人、津浦鐵路山東轄境、爲所叢集者、林木園蔬、僉被蹂躪、青島界內、並有二羣、向西飛去、每羣經過之時間、約歷二句鐘、被災最甚者、係青州、德州、泰安等處、但以全省而論、出口土貨、視上年並未減絀、且有數種貨物、輸出較多、足見水旱蝗災、爲害尙不過劇、民國六年論及赴歐之華工、其第一批、已於二月間由歐返青、本年裝載此項華工之輪船、共有二十六艘、計三萬九千四百七十一人、若算至翌年一月杪、共有五萬八千人、尙未回青者、計三萬七千餘人、每年發給華工家屬之款項、需洋七百萬元、山東人民、適處窘鄉、有此巨款、以拯凍餒、直可謂天賜之幸福、本年商務、益形發達、凡商舖工廠、股本在百萬圓以上者、上年杪祇有三十二家、本年竟增至七十家、建築未成之房屋、共有三百餘所、日本金銀幣之兌價、與倫敦之銀市、常有不同、茲特將本年交換行市、表列於後、

用銀幣一百圓兌換金幣

民船貿易、本年貨值、共計關平銀七百萬兩、上年祇有六百萬兩、稅收總數、較上年增加二萬三千六百兩、內以進口稅為最多、堪為歷年之冠、由民船運入之進口貨、共值六百萬兩、較上年增二百萬兩、增加之原因、即係由海州運來之麥糧及雜貨、運往各處之土貨、以年歲不登、收成歉薄、僅值一百四十萬兩、較上年短七十萬兩、港內貿易、共值一百六十八萬兩、較上年短八十九萬兩、收入稅項、反增一千四百四十兩、推其原因、乃陰島產鹽減絀、出口無多、鹽為租境所產、向不徵稅、稅項與貨值、本無關係也、進出口之出海民船、上年共一萬四千二百四十一隻、計三百八十三萬七百十三担、本年共一萬六千九百八十六隻、計四百五十八萬四千五百十六担、民船交易、漸次擴充、直與小港改善、有同等之進步、

一本關稅課、六月杪結算、較上年多收關平銀二十一萬六千兩、七月間日貨滯銷、比至十月、收數頓減、十一月進口貨逐漸回復、十二月出口愈多、全年統計、較上年增二十五萬三千兩、與歷年相較、當退至第四級、稅收見絀、貿易情狀、不見佳妙、而貨物之總值及淨值、獨較往歲爲優、驟觀之下、似難索解、但考其實際、本埠貿易之趨勢、戰前偏重輸入進口洋貨、恒多於出口之土貨、戰後境地變遷、趨勢亦轉、現時進口貨似經停滯、出口貨則奮勇進行、商業前途、日形發達、出口稅較輕於進口、貨值與稅銀、未能相稱、良非無故、一洋貨貿易、洋貨由外洋逕運進口、及由通商口岸運來者、進口洋貨、原受銀價昂貴之鼓勵、厥狀至佳、不幸日貨停銷、中道忽遭挫折、日本各棉貨、衰落異常、春夏兩季、運入之原色粗布、及原色布、標布、細斜紋布、紅布、及色標布、粗斜紋布、約計五十萬疋、共值關平銀二百餘萬兩、比至秋冬、此種進口貨色、頓減去五分之四、棉紗一項、春夏進口、共值二百餘萬兩、秋冬概未見過、且本埠工業勤奮、亦足爲減縮輸入之原因、如棉紗、自來火、麪粉、汽水、洋灰、進口日絀、未始不受此影響、十一月間日本政府、禁止輸出二十支以下之棉紗、是時內地交易、早經斷絕、此等禁令、與本埠紗業、並無干係、建築事業、甚形踴躍、日本北海道之木材、販入極多、原有鴨綠江之木植、在本埠市面、原佔八成、嗣以銀值飛騰、來自日本及美國之木材、幾有充塞市場之勢、鴨綠江之木植、由八成減至三成、自外洋逕入之貨、較多於上年、上年計值一千六百九十萬兩、本年竟達一千七百五十萬兩、特此種狀況、不能認爲洋貨貿易之增漲、誠以本年洋貨、價值騰高、關冊所載、表面殊過於實際、來自香港者、由估值二百十萬兩減至一百七十萬兩、來自日本者、由估值一千二百九十萬兩減至一千二百八十萬兩、來自美國者、由估值九十萬兩增至一百九十萬兩、美貨之大宗、係各種機器及煤油、由通商口岸運來之洋貨、較上年約減去三分之一、上年計值六百三十萬兩、本年僅值四百六十萬兩、計自上海運來者、值四百萬兩、自大連運來者、值六十萬兩、

洋貨復出口、運往外洋之總值、內有六分之五、運送日本、大宗爲棉貨、本口存積之洋貨、因銷場不旺、皆別尋出路、轉運他口、轉運總數、計值關平銀一百六十萬兩、其中有一百萬兩去大連、餘係分往上海天津烟台龍口漢口等處、

一 土貨貿易、土貨出口運往外洋、及通商口岸、連復出口在內土貨出口之總值、共計關平銀三千八百七十萬兩、堪爲首創之新紀載、運赴通商口岸者、較上年減一百餘萬兩、運赴外洋者、較增一千餘萬兩、去歐美之貨、輪轉甚便、運赴日本之花生仁、計值三百七十萬兩、花生油、計值六百三十萬兩、豆油、計值一百十萬兩、草帽縵、計值一百二十萬兩、此項貨物、泰半先運日本、轉送歐美、本省麥糧、以客歲豐收、暫弛禁令、自上年十月起、至本年七月杪止、販運日本者、共一百餘萬担、計值三百四十餘萬兩、山東鐵道所開金嶺鎮之鐵礦、所出之鑛鐵、五月間初次出口運往日本、以供若松地方八幡製鐵所之用、本年共計出口一百餘萬担、海州附近所開之磷礦、出磷甚佳、日後可爲本埠之大宗出口貨、中日特訂合同准運之鹽、共計一百萬担、皆由海州運往日本、本埠自製之棉紗、及自來火、因受停銷日貨影響之連累、悉改運各口、棉紗往大連天津、自來火往大連、銅錠貿易、勢將停止、出口冊中、日後當不載入、棉紗、牛肉、雞蛋、大豆數種、日本政府皆予免稅一年、以故牛肉、雞蛋、輸出極盛、除此二種不計外、運往日本各貨、計值二千三百餘萬兩、以豆餅、煤、焦炭、廠絲、生牛皮、畜油、爲大宗、次爲運滬貨品、係猪鬃、煤、棉紗、蛋白、蛋黃、花生仁、廠絲、繭綢、草帽縵、菸葉、共值七百十萬兩、僅以菸葉而論、已及二百七十萬兩、運往大連之貨、係豆油、花生油、菸葉、及別種雜貨、花生油一項、計值二百八十萬兩、菸葉、及雜貨、計值四百七十萬兩、往高麗之貨值、計七十萬兩、往天津之貨值、計四十九萬兩、往廣東之貨值、計四十六萬兩、本埠所製之啤酒、往通商口岸及日本者、計值五十六萬六千四百五兩、來自上海之棉紗、以山東鐵道不能裝載、復出口往大連者、計值一百萬兩、運往他口者、爲數亦多、總計復出口往通商口岸之土貨、本年計值一百七十萬兩、上年祇有十八萬兩、復出口往外洋之土貨、數少概置不論、

土貨進口、上年總值、共關平銀一千二百萬兩、本年則跌至一千萬兩、上海來貨、約值九百萬兩、大連來貨、計值四十萬兩、安東來貨、計值十七萬兩、天津來貨、計值十三萬兩、上海來之大宗貨品、爲布疋、棉紗、紙烟、麪粉、及各種紙張、棉紗一項、計值四百二十三萬兩、紙烟一項、計值一百九十七萬兩、

一出入內地之貨、入內地領有子口單之洋貨、本年所發之子口單、及貨值、均較上年增額、子口單較增二百十二張、貨值較增二十四萬七千三百二十六兩、該貨均係煤油、及少數之洋燭、

出內地領有三聯單、運往外洋之土貨、皆係河南運來之生鐵、特別論畧、無、

一船隻、遵照本關總章行駛者、進出口之輪船、較上年增六百九十八艘、計六十七萬六千五百三十二噸、其中英國船增九十二艘、計三十一萬六千六百六噸、均係裝載由歐返國之華工、日本船增五百三十九艘、計三十萬三千八百三十三噸、俄國船增十三艘、計一萬四千五百七十一噸、華船增五十二艘、計二萬五千三百四十四噸、遵照內港行輪章程行駛者、本年進出口、共一百九十艘、計二萬三千五百二十二噸、上年祇有一百二艘、計七千七百五十二噸、內有華輪一艘、行至二十三次、卽返烟台、

一旅客、進口華人、遠多於出口、但將回國華工、剔出另算、進出口之人數、尙不過差、來自日本之外人、亦較出口爲多、其故以來華遊歷之輩、多由日先來本埠、再往各處、繞經別口返國、

一金銀、本年進出口之金銀、已變更常態、入多於出、緣回國華工、在青領款、需用之華銀極多、輸入自形盛旺、

一藥土、上年進口之藥土、計五十五担、本年進口、祇有七担五十斤、以青島官憲、對於此事、業取漸減主義、遇有領照吸烟者、恒施嚴重之檢查、並嚴禁借照頂替之流弊、積存之土、供足應求、似無需多量之輸入、

一雜論、署理督軍張樹元、三月間被命真除、歲杪退職、繼其任者、爲都統田中玉、省長沈銘昌、於八月間辭卸、新任爲屈映光、青島司令官中將大島、任爲預備役、遺缺以現擢上將中將由比承其乏、本埠氣候、以二月四日爲最低、祇及攝氏表十一度八、最高時爲八月八日、計三十五度四、本年雨水、共計法度五百四十二四米里密達、大港東北之窪地、歲初開工填築、預計經費銀四十七萬二千二百圓、需填之面積、計十四萬三千二百三十一坪、折合英度一百十七畝、一歲之中、共填就八萬九千坪、翌年九月工程可以告竣、戶口大增、工業日盛、水電供難應求、居民深以爲缺憾、蓋本埠需水、每日約計五千噸、李村河及海泊河之水井、常虞不給、青島當局已在距青二十一基羅邁當之白沙河、新築水井、水管業經安放、工作已及八成、翌年五月、即可蕪事、此項經費、計需銀三十八萬圓、金六十萬圓、當局並預料日後水量不足、擬越過白沙河地方新築之水井二英里、造一極大蓄水池、能容水一千萬噸、青島發電所新增之發電機蓄電池、可供一千五百至二千基羅夸特之電氣、該機二架、值金二十三萬七千圓、新築專診華人之官醫院、計銀五萬四千圓、需用之器具、概係新式、各種病症、均能治療、舊紅十字會病院内、近又增設新院、計需銀十八萬圓、現正從事建築、翌年孟夏、便可完工、滄口中德合辦之縑絲廠、地址房屋、在歐戰時期、悉被英國招工局用作華工之兵房及操場、嗣由天津華新紗廠收買、重新改造、廠內所需之機器、皆自美國運來、約在來春、正式開工、亞洲之虎疫流行、本埠已被侵入、初次發現、係在七月九日、檢疫章程、當於此際施行、十月五日、始行取消、八月二十二日、並見軍令、禁止海水浴、捕魚及各種海面之遊戲、據憲兵隊之報告、患虎疫者、共一百九十一人、死亡計有六成、十月間流行性感冒病發現、兩閱月、染病者、共四千二百五十七人、死亡計九十九人、
