

**BROADENED OUTLOOK**

**SCOPE OF LIBRARY WORK ENLARGED BY TAKING OVER BRANCH**

What effect will taking over the Tropico Branch Library have upon the parent institution, Mrs. Alma J. Danford, Glendale city librarian, was asked. Mrs. Danford needs no encouragement to talk about library work, and she at once hastened to inform her questioner that her new duties had already tended toward broadening her outlook on her work. "This new work has come to me automatically," she said, "but it has inspired me with a clearer vision and a broader view. I shall have to ask the charity of the public if I am not always at my desk. Much of my time will necessarily be taken in supervising the two libraries and I will have to leave more and more of the routine work to the members of the staff. We have organized the Tropico branch along the same lines as the main institution. In the Glendale library there is a member of the staff at the head of each department, and in reorganizing we have arranged the work so that the head of each department assumes the work of that department in the branch automatically until the two girls who are now in training complete their course. That does not mean that those at the head of these departments will spend their time at the branch library."

"As soon as we have things well in hand, an up-to-date catalogue will be compiled," Mrs. Danford said. "Mr. Cushing, owing to lack of time and help, has not been able to do this. We want to build up the reference department just as fast as possible. The main library is back of the branch in reference works, and patrons of the branch through the main library have the privilege of consulting the Los Angeles reference department. We have been most happy to share some of our accessories with our new child, and these have been greatly appreciated, especially by the children, who are delighted with the small table and chairs. We dream of a story hour for the children of the Tropico branch when school is closed and we have the work well in hand."

In speaking of the co-operation of the city trustees and the library trustees in her work, Mrs. Danford said she could not adequately express her appreciation of their attitude. She said she could not ask more in the way of inspiration, suggestion and co-operation from these bodies.

She said one of the happy features connected with the onerous work of establishing the branch library on the same footing as the parent institution were the many expressions of congratulation and the promises of co-operation from the people of that section who dropped in with their words of encouragement.

**HE LIKES US**

A reader of this paper who lives in Glendale has contributed the following information, which should be of considerable interest to other readers.

"There is nothing better than prickly pear to make hens lay in winter, when other green stuff is not to be had. By removing the 'stickers' and cutting them into small bits they can be easily fed to hens and will be found second to nothing." So says T. J. Spradling, who has been spending the winter in Glendale. He thinks there is no finer place on earth than Glendale and says the climate is just like sitting down in a warm room to a nice turkey dinner which has been spread upon a table surrounded by good looking women and with other good things on the side. He says it is "perfectly wonderful." He is from Stephenville, Tex.

**LEATHER VESTS**

Splendid work was done Tuesday afternoon in the Leather Vest Department at Red Cross Headquarters by Miss Coral Griffith and her associates in the work, the list of assistants including Mesdames Yokel, George Whitaker, Scott Whitaker, G. E. Whittemore, V. E. Rapp, C. D. Shattuck.

More leather is needed for this section and old leather table covers, banners, worn chair seats, book covers, shoe tops, can not find a better place than in keeping warm some aviator who is going over the top in service on the French front. The ladies are doing wonders, but they cannot make bricks without straw. Hunt up all your scraps of leather of every description, bring them to headquarters, and the workers will do the rest.

**TROPICAL CALIFORNIA**

**MRS. LOUISE PURNELL AND PARTY VISIT BEAUTIFUL PALM CANYON**

Mrs. W. M. Crawford, of 916 Central avenue, who was the guest of Mrs. Louise Purnell of 139 West Tenth street on a camping tour, gives a most enthusiastic account of the pilgrimage which led to Palm Canyon, the most tropical scene in Southern California.

The party, which consisted of Mrs. Purnell, her nephew, Charles Luench, Mrs. Crawford, Allen Pollock and Roy Perkins, chauffeur, left Glendale Thursday morning a week ago about 7 o'clock and followed the Foothill boulevard to Riverside and on to Palm Springs via the new Jack Rabbit trail over the San Jacinto mountains which leads through most beautiful scenery. They camped in Palm Canyon, which for a distance of ten to fifteen miles is filled with splendid native palms 20 to 60 feet high, a scene entirely different from the typical verdure of this locality. Two days they spent in this most interesting spot, where temperatures corresponded to our midsummer heat in spite of the fact that snow-covered mountains were plainly visible in the near foreground. They explored the various trails of the canyon and then reluctantly bade it farewell and started homeward at 9 o'clock Saturday morning, coming back by a route which led through Beaumont and Redlands and via the Valley boulevard to Glendale, which they reached about 6 p. m. after a leisurely trip and several stops. The weather was perfect during their entire outing except for a sand storm which they ran through below Riverside, in which the wind blew with such velocity they could hardly keep their eyes open at all. The mountains were all snow covered and very lovely.

**EVENING R. C. MEETING**

Officials of the Glendale Red Cross Chapter have been canvassing the advisability of having a Thursday evening meeting weekly at the Chapter headquarters on Brand boulevard for the purpose of affording an opportunity to those who desire to give service to the cause but who are employed during the day, to come and work in the surgical dressings or sewing departments and give in connection a miscellaneous program of music, talks, etc., appropriate to the time and place. It is an experiment, however, and they wish to know whether there is a sufficient demand on the part of would-be workers to justify opening the headquarters in the evening. They have therefore requested this paper to request any of its readers who desire such an evening session to communicate with headquarters by letter or a personal visit, or by telephoning Glen. 1147. If enough friends of the Red Cross wish such a meeting, it will be arranged.

**INTERMEDIATE SCHOOL NOTES**

About those Victory Gardens! There are 196 pupils of 7th and 8th grades who have them in their own back yards or on a vacant lot near by. Through the untiring efforts of Mrs. H. C. Ackley, 959 penny packets of seeds have been most efficiently classified and distributed to those who have brought pennies and orders to Miss White's room at the close of the 7th period. Out of more than a dozen kinds of seeds sold, the first four in the order of the popularity are: radishes, carrots, beans, lettuce.

The Planet, Jr., plow continues to be a favorite with the boys, who appreciate its company on afternoons of school days and on Saturdays.

Several of the classes have taken home copies of the splendid "Family Garden Plan" which appears on the blackboard in Room 2.

**MUSIC SECTION**

The Music Section of the Tuesday Afternoon club will meet at the home of Mrs. Calvin Whiting, 1442 West First street, Friday, March 8th, at 2:30 o'clock sharp.

A very interesting program has been arranged for the pleasure of members and guests, a special feature of which will be a lecture by Mrs. George Doane, who will give musical reminiscences of her life abroad. She will bring messages from noted musicians with whom she has been associated.

Musical numbers will be given by Mrs. Roy Masters and Mrs. L. N. Hagood, Mrs. Capell will sing and Mrs. John Crampton will contribute original poems. Each member is entitled to bring a guest.

**MOSCOW SOVIET RATIFIES TREATY**

**LENINE'S STEAM ROLLER MAY BE ABLE TO ROLL RUSSIA INTO GERMANY'S POWER**

(Special Service to Glendale Evening News)

PETROGRAD, March 7.—The Moscow Soviet voted overwhelmingly to ratify the peace treaty with Germany. This acceptance is an indication that Premier Lenine's steam roller may succeed in rolling Russia into the hands of Germany.

The conspiracy of students to overthrow the Bolsheviki government resulted in Bolsheviki raids on houses near the winter palace, where six students were shot.

Germans shot and hanged 200 Russians at Yuriess without mercy.

Foreign Minister Trotsky notified German officials that if these outrages continue it would result in the execution of 160 barons and land owners held as hostages at Pskoff.

**GERMANY DEPORTING BOYS**

**BELGIAN CHILDREN FROM THIRTEEN TO FIFTEEN YEARS BEING SENT TO GERMANY**

(Special Service to Glendale Evening News)

WASHINGTON, March 7.—Germany is now deporting boys from Belgium as well as old men, according to information received at the Belgian legation here. Some children under thirteen years were included, while in the Mons district 300 boys of 14 and 15 were sent to Germany.

The destruction of industries and the carrying away of supplies continues.

**TO SEIZE ENEMY PROPERTY**

**MEASURE EMPOWERING GOVERNMENT TO PURCHASE GERMAN LINE S. S. PIERS REPORTED FAVORABLY**

(Special Service to Glendale Evening News)

WASHINGTON, March 7.—By a unanimous vote the Senate appropriation committee reported the measure authorizing the government to seize all alien enemy property in this country. The government's purpose in asking this is to weed out all entirely German interests in this country.

Another amendment authorizes the purchase of the steamship piers at Hoboken now owned by German steamship lines. These would be resold, the German owners only getting their money when peace comes.

**GERMANY CONSCRIPTS RUSSIANS**

**FORMING CORPS OF RUSSIANS TO BE SENT TO FRENCH FRONT UNDER GERMAN COMMANDERS**

(Special Service to Glendale Evening News)

PETROGRAD, March 7.—Refugees arriving from cities newly occupied by German forces declare that Germany is forming a corps of Russian conscripts under German commanders, which are to be sent to the French front.

The Russians are threatened with execution if they refuse to join the corps.

**U. S. ATTITUDE HALTS JAPANESE**

**INTERVENTION IN SIBERIA HAS HALTED TEMPORARILY AT LEAST PENDING FURTHER NEGOTIATIONS**

(Special Service to Glendale Evening News)

WASHINGTON, March 7.—The Japanese government at Tokio giving careful consideration to the question discussed by the American government indicates that the United States' position toward Japanese intervention in Siberia has halted temporarily, at least, contemplated action, it was stated at the Japanese embassy this afternoon.

No troops are en route to Siberia and none will go without further negotiations between the two governments.

Japanese officials here insisted that the attitude their government has taken is to get the direct approval of the allies.

**WALSH SCORES PACKERS**

**MAKES PLEA FOR EIGHT HOUR DAY AND HIGHER WAGES FOR PACKING HOUSE EMPLOYEES**

(Special Service to Glendale Evening News)

CHICAGO, March 7.—"The organized packers of America are afraid or ashamed to come here in person and have hired brains to come and plead that you keep industry safe for autocracy while the hosts of democracy are battling for the freedom of the world." With these words Frank P. Walsh launched a fiery plea for packing house employees, demanding an eight hour day and higher pay here today.

Walsh hurled denial at the packers that an eight hour day would endanger the food supply for our armies. He thoroughly condemned the plea that higher pay in the packing plants would cause discontent in other industries.

**CHANCE FOR INVENTORS**

**PUBLIC WAITING FOR IDEAL IN EVERYTHING, SAYS MR. CUTLER**

The majority of people do not know just what constitutes an invention and what is necessary to secure patent protection on an invention. W. C. Cutler, our Glendale inventor, who has learned all about these things through years of experience, says an invention comprises something which has been found out, constructed, devised or created and which has not existed or been known before. To secure patent protection on an invention there must be some ingenuity shown whereby a new and useful thing or result or a new method of producing an old thing or result is disclosed which has before been unseen or unknown. Inventions are divided into four classes: arts, machines, manufactures and compositions of matter.

"What are some of the qualifications of the man who becomes a successful inventor?" was asked Mr. Cutler. "The real inventor," he said, "enters into the spirit of his work to the exclusion of every other interest in life. He sometimes spends many years to learn just how to do this, but it is time well spent for after he really learns how to enter into the spirit of his work he can accomplish more in one short year than a man without this knowledge can in a lifetime. The inventor's dream of yesterday is a reality today, tomorrow or in the future. The real inventor is always a man who can not spell the word failure; he doesn't even know how to pronounce it. His mind is always reaching out to solve nature's problems and learn her secrets. The real inventive mind is awake. Step by step men with this persistence can force their way through seeming impossibilities which when solved give them a pleasure and a satisfaction that can be derived in no other way. The so-called wonders that have been achieved by inventors heretofore are only a foretaste of what science and human insight will accomplish in the future. The things we dream of as impossible today will be realities tomorrow."

"For instance," said Mr. Cutler, "so much is being learned about aviation and the laws of gravity and buoyancy just now that no man knows but that soon with a very small apparatus a man will be able to rise into the air drift about at will. Just what holds us on this old earth anyway? Release and control is all that are necessary for us to go where and when we please even without the use of a 'Ford.' Flying with a heavier than air machine and perpetual motion were two subjects which if mentioned a few years ago would brand you as a 'nut,' nor would the patent office of the United States allow you to put in an application for a patent on either of these subjects without accompanying the same with a perfect working model. Mr. Wright changed all this with the flying machine and we are 'cutting the corners' very close with perpetual motion."

**DORAN STREET P.-T. A**

The Doran Street P.-T. A. held its regular monthly meeting Wednesday afternoon at 1:30 o'clock, when there were patriotic songs by the children, and Jack Middleton sang two songs entitled "Over There" and "I'm Going Over," which were enjoyed by all the members.

Prof. Harry L. Howe talked about the War Savings Stamps and organized the War Savings Society of the Doran Street School, which will meet the first Wednesday in each month at the same time that the P.-T. A. meets. Twenty-one mothers joined the society and an effort will be made to enlist all the mothers. Miss Hatch, the principal, announced that \$60 worth of stamps had been purchased by children in the school. If all the boys and girls show as much interest and enthusiasm as the Doran street pupils display, there will be a big investment in thrift stamps by the junior population of Glendale.

**FUNERAL OF H. C. FENSTERMAKER**

Funeral services over the remains of H. C. Fenstermaker, who passed away at his home at 145 South Central avenue on Monday, will be held in the parlors of the Jewel City Undertaking Company, Monday, March 11, at 10 a. m. Interment will be made in Forest Lawn Memorial Park. Mr. Kahle, brother of Mrs. Fenstermaker, will reach Glendale Sunday afternoon.

Let's cheer our soldiers with our dollars. Buy War-Savings Stamps.

**GONE SOLDIERING**

**BOYS FROM LOCAL EXEMPTION DISTRICT ANSWER THE CALL**

Harry La Fountain of 131 West Acacia avenue left Wednesday evening to join the 319th Engineers at Camp Fremont, Palo Alto. He enlisted through the local Exemption Board and was entered for service as a mechanic by special induction. A party of friends and relatives, which included, of course, his parents, went with him to the train, which left about midnight.

Two others who will probably soon see service in France have just been inducted as chauffeurs by the local Board under the special call. One is Kastantinas Lenlauskis of Glendale, the other is Daniel Hernandez, Jr., of Newhall. They go to Kelley Field, San Antonio, to the Aviation Section Signal Corps.

Chase S. Story, of 1720 W. Broadway, who has been a student at Throop, has also been inducted for service at Rockwell Field, San Diego. He also is in the Aviation Section of the Signal Corps and goes as a mechanic.

Charles Schick, of 811 Central avenue, applied for induction into the Ordnance Training School at Berkeley. His application was approved by the school and he is now awaiting papers from Washington authorizing the local Board to send him forward. He anticipates that they will come in time for him to go Saturday.

Mrs. W. D. Carpenter of 321 East Palmer avenue gave a dinner Sunday to relatives and friends in honor of her brother Charles Allen, who also expects to be sent to Camp Fremont.

Tomorrow a draft will be made to fill any deficiency that may remain under the special call for cooks and chauffeurs, but it is not likely that this Board will be called upon for more than one or two, if any requirements are made, because California's quota was comparatively small to start with. The Board has received no announcement of any general draft in the near future.

**WIFE OF PIONEER PASSES AWAY**

Mrs. Mollie E. Overton, wife of John L. Overton, deceased, passed away in Los Angeles, Tuesday morning.

Mr. and Mrs. Overton came to California in 1864, crossing the plains with mule teams, in company with Mr. Biggs of Northern California, and settled for a time in Austin, Nevada, but later removed to Sacramento, California.

Both returned to the place of their nativity, Callaway County, Mo., at the close of the Civil War, returning to California in 1885 and locating at Pomona, later removing to Orange County and thence to Glendale.

Mrs. Overton has always taken an active part in all work pertaining to the Baptist Church, and was quite active in all civic organizations, particularly the Tuesday Afternoon Club of this city.

A few years ago she sustained a fall from a Pacific Electric car, from which she never recovered.

Mrs. Overton is survived by two sisters and a brother, Mrs. Eva Judson, and Prof. W. H. Williams of Kansas City, Mo., Mrs. Lee A. McConnell of this city and her son, H. M. Overton, of Yucaipa. She was 78 years of age.

Funeral is being held at Pomona this (Thursday) afternoon, Rev. J. F. Moody, retired pastor of First Baptist Church of Pomona, officiating.

**SEASON'S RAINFALL NOW 11.98 INCHES**

Jupiter Pluvius appears to be striving to make up for forgetting Southern California so long and trying to establish himself in its good graces. When he did finally send rain he sent it just right and stopped at just the proper time to give the ground a chance to absorb it all. Farmers seem to be equally well pleased with his method of distributing the present consignment. H. E. Bartlett, of 101 Brand boulevard, who has a rain gauge and keeps a close record of precipitation, says there is plenty of time to raise bumper crops. He quotes a Burbank man who told him of one season years ago when no rain fell until February and when crops proved exceptionally fine.

Mr. Bartlett's record shows that during the hours between 7:30 a. m. Wednesday and 12 o'clock today (Thursday) 2.41 inches of water fell. This brought the record of the storm to that time to 3.16 inches, and the total for the season to 11.98 inches.

## A BIT OF FINANCIAL HISTORY

The credit of the United States was so high and unquestionable that in 1900, two years after the Spanish War, 2 per cent bonds were offered at par and oversubscribed. This is a financial performance no other nation has ever equaled.

United States 4 per cent bonds in 1888 sold as high as 130 and in 1901 brought 139 7/8 on the stock market.

The United States has never defaulted on any of its bonds. Not one of its bondholders has ever lost a cent of principal or interest except those who voluntarily have taken losses by selling their bonds in a period of temporary price depression. One hundred cents on the dollar, principal and interest, has the United States always paid.

Back of the \$250,000,000,000 to \$300,000,000,000 of our national resources stands the rugged honesty of America. Liberty loan bonds are the safest security in the world.

## MILITARY TRAINING IN PUBLIC SCHOOLS

"We cannot establish military training in our schools any too quickly," declares Brig.-Gen. Styer, who was a member of a commission appointed just before the war to decide the best method of introducing the training in New Jersey schools. He is an ardent advocate of the plan.

"The training is not only of value to the boy through straightening his back and making him fit material for the army, but because it also instills ideas of discipline and subordination to constituted authority that Young America is prone to lack," he continued.

"We would have had better material for non-commissioned officers in the army if we had had such training in the past. What is of greater importance, we would have had more men in the national guard ready for service."

General Styer, however, believes this training should be confined to boys of high school age.

## UNDER SHELL FIRE

American Y. M. C. A. secretaries at work in huts in the war zone are already under shell fire. They have found that there is plenty of drudgery, long hours, high tension and nerve-racking work and a real test of their ability to keep cheerful and bring inspiration to other men who are war-weary, homesick and discouraged. British Y. M. C. A. huts and dug-outs have been knocked to pieces by shells, and American secretaries are today with the American troops facing actual danger and conditions which they never dreamed of before. Yet not a single man has faltered or turned back.

## WASTE IN WAR PUBLICITY

The director of publicity for the federal government makes the statement that the newspapers favor sensational news rather than the informative.

He makes the broad general statement that a large proportion of the government publicity is wasted.

There is no doubt that most of the newspapers of the country, regardless of their partizan affiliations, do their best to give publicity to government matter.

But they are simply swamped by the volume of matter of this sort they receive. No more than a small percentage of the publicity can possibly find space in the papers.

The State Council of Defense has stated in its list of accomplishments that it has sent out some scores of articles to the newspapers for publication. Of this only a small proportion found place in the newspapers.

The newspapers are loaded down with publicity on war and near war subjects from half a score of agencies. The editors use only what seems to them of most importance and the rest goes into the waste baskets.

The waste is enormous, of course, and it will continue to be so, as the newspapers have only a limited amount of space. They cannot permit the use of this space to be dictated by the publicity agents of either the nation or the state.—Monrovia News.

## IN HONOR OF LUTHER BURBANK

Homage to Luther Burbank, plant scientist, was paid by Santa Rosa today, taking the form of celebration in which 1200 school children participated in folk dances, chorus singing and kindergarten games on the grounds of the Burbank school there. The occasion was the birthday of Burbank, which is also celebrated as bird and arbor day. Each year for many years past, these celebrations have been held by the schools there and a new tree planted somewhere in the city.

Tomorrow night Burbank will be president of the evening at a gathering of the Social Center, a public social entertainment held each week in the high school building. A program of Burbank features will be presented.

## LONESOME SPOT TO BE INVADED

Out on the Farallon islands, twenty-three miles from the entrance of San Francisco bay, as lonesome a spot as man could find in the West, there are stationed thirty American radio men of the United States Navy. When Y. M. C. A. war work men learned that the enlisted men were there they sent out magazines and books, then a phonograph and records, and now George C. Crowe, in charge of entertainments in Y. M. C. A. war work buildings in the San Francisco bay section, is making up a party of hardy, sea-going entertainers, willing to brave the rough seas and the difficulties of landing on rope ladders and will take entertainment to the men. "Wherever the American soldier or sailor is stationed," said Crowe, "we will endeavor to entertain him and show him that the people back home appreciate and remember him. It's lonesome on the Farallons and we want to make life just a little brighter for those boys out there."

## SOLDIER'S TEN COMMANDMENTS

By Maj. W. E. P. French, U. S. A.

1. Keep your eyes at the ready, your ears at full cock and your mouth at the safety notch, for it is your soldierly duty to see and hear clearly; but, as a rule, you should be heard mainly in the sentry challenge or the charging cheer.
2. Obey orders first, and, if still alive, kick afterward, if you have been wronged.
3. Keep your rifle or gun and your accoutrements clean and in good order, and yourself as clean as you can; treat your animals kindly and fairly, and your motor or other machine as though it belonged to you and was the only one in the world. Do not waste your ammunition, your gas, your food, your time, nor your opportunity.
4. Never try to fire an empty gun nor at an empty trench, but when you shoot, shoot to kill, and forget not that at close quarters a bayonet beats a bullet.
5. Tell the truth squarely, face the music, and take your punishment like a man, for a good soldier won't lie, doesn't sulk and is no squealer.
6. Be merciful to the women of your foe and shame them not, for you are a man. Pity and shield the children in your captured territory, for you were once a helpless child.
7. Bear in mind the enemy is your enemy and the enemy of humanity until he is killed or captured; then he is your dead brother or your fellow soldier, beaten and ashamed, whom you should no further humiliate.
8. Do your best to keep your head clear and cool, your body clean and comfortable, and your feet in good shape, for you think with your head, fight with your body, stand and march with your feet.
9. Fear dishonor, dread defeat, be of good cheer and high courage, and don't shirk work or danger.
10. Fear not death, dread not wounds, suffer in silence and die game.

"Stars and Stripes" is the name of the weekly newspaper being published in France for American troops, under the direction of the intelligence section. Practically the entire paper is devoted to American news, including a daily radio report of about 1400 words supplied by the Committee on Public Information to the French Government.

Your dollars will help crush the German Autocracy. Buy War-Savings and Thrift Stamps.

Patriotism, local pride and just common selfishness all say "Buy War-Savings Stamps."

# THE MATCHLESS KITCHEN

—Particularly from the standpoints of comfort, cleanliness and convenience has the Electric Range revolutionized the kitchen idea.

—It is specially noticeable that the Electric Kitchen in no way resembles a workroom. There being an entire absence of the characteristics commonly associated with this part of the home.

—Better cooked food, less waste and shrinkage, a marked improvement in flavor and food value are other points you will thoroughly enjoy.

### JUNIOR RED CROSS BENEFIT

The children of the Cerritos street school are planning to do their bit for Uncle Sam Thursday evening, March 14, by giving an entertainment at the Yeomen Hall on San Fernando road. Much enthusiasm has been aroused among the teachers and children, as they alone give the program. The Junior Red Cross of that school is to receive the benefit. Tickets are now on sale at the school.

### MUSICALE POSTPONED

The musicale which was to have been given at the Presbyterian church this evening by Mrs. Laura Jones and her pupils has been postponed on account of the rain. Further notice will be given in the News when a date has been decided upon.

### SPECIAL NOTICE

There will be a prayer meeting and workers' conference at the Lutheran parsonage, 1109 West Fifth street, for W. C. T. U. members and friends Friday, March 8th, at 10 a. m. These are the times of sacrifices. What have you done? Buy War-Savings and Thrift Stamps.

No Advance in Prices.

Mrs. Sheffer of 1425 Burchett street, mother of Mrs. Green, has interesting family connections. She is the daughter of the man who wrote "Tenting on the Old Camp Ground," who was for a time Governor of Pennsylvania. Largely through his efforts and influence, "Decoration Day" was made a national holiday and this song was written by him to be sung on the first observance of May 30th as "Memorial Day."

Mrs. F. A. Chambers is trying to get accustomed to the absence of her young daughter, Portia, who is now en route for British Columbia. She is accompanying her grandmother, Mrs. Cook, who has been a guest in the Chambers home for several months, and who is now returning to her own Canadian home in Naramata, a very beautiful little place. They will make several stops, visiting Portia's other grandmother and other relatives and friends. To Portia it is quite an adventure and the letters received from her which have been written on the way indicate that she is enjoying the trip hugely.

B. F. Marsh, of Hartford, Conn., who has been Deputy State Treasurer of Connecticut for twenty-five years and a prominent man in state and national affairs, is the guest of his son, George Marsh, of San Rafael avenue. He will be here for some time and his son and daughter-in-law are anxious he should see as much as possible of the beauties and wonders of Southern California. Their son, George Wilbur Marsh, who is serving Uncle Sam in the Navy on the U. S. S. Frederick, has recently arrived with his ship on the Atlantic Coast from foreign waters and has been spending a much-appreciated furlough with his grandmother, Mrs. George Marsh, and other relatives in Hartford. He is a Glendale High alumnus and has many friends here.

#### RED CROSS ENTHUSIASTS

Women in the southern part of the city have taken hold of surgical dressing work for the Red Cross with considerable enthusiasm and are now meeting two afternoons a week, Monday and Wednesday, under the instruction of Mrs. William Harvey, Jr., of the Tropico Auxiliary. Ladies who are devoting time to it are Mesdames Clyde Carmack, Charles Stillman, M. Voll, Frank Ashton, Wesley Bullis, L. M. Goodrich, Merritt Ludden, Noble Ripley, Hal Davenport, O. P. Gallup, S. E. Brown, C. H. Scheu, John A. Logan, Andrew Stephenson, John Hobbs, Glenn Craig, C. A. Barker and Miss Helen Hazard.

The "First Aid Class" which has been under the instruction of Dr. William C. Mabry and which has been meeting Wednesday evenings in the City Building at Brand and Tropico avenue, is now reviewing its course in preparation for examination.

#### LITERARY SECTION

The Literary Section of the Tuesday Afternoon Club met Tuesday at the home of Mrs. H. E. Bartlett at 101 Brand boulevard.

Though the rain prevented a full attendance, it was a most enjoyable meeting, the topic being Russian Literature and Drama. "The Ideals and Realities of Russia," by Prince Krapotkin, was reviewed by Mrs. H. E. Baker. "On the High Road of Drama," a play by Anton Tchekoff, was read by Mrs. Albert D. Pearce. The meeting opened with miscellaneous quotations and the program was most interesting and well given.

#### BIG MEETING POSTPONED

The British Ambulance big membership drive meeting planned for tonight at the high school auditorium, has been postponed until Thursday evening of next week, on account of the inclemency of the weather. Two officers from the British Recruiting station in Los Angeles are to be among the speakers, and such an interesting program has been planned that those in charge have decided to wait for better weather.

#### WOMAN'S AUXILIARY

The Woman's Auxiliary of St. Mark's Church will meet in the Sunday School room of the church (corner of Fifth and Louise) Friday afternoon at 2:30. The Mission study for the afternoon will be in charge of Mrs. Edgar W. Pack, newly appointed secretary of the Auxiliary.

#### SPECIAL MISSION SERVICE

Next Sunday night in the Lutheran church, corner Fifth and Maryland, will be held a finely illustrated service entitled "The Social Side of Foreign Missions," of Japan, China, Korea, Africa, India, Assam, Siam and Turkey. There will be nearly 80 beautifully colored slides, insuring an evening of profit and interest. Parents and children invited. Come and see the picture of the Holy Man of India sitting on his bed of spikes. All invited.

#### JUNIOR R. C. BENEFIT

A dance and card party for the benefit of the Junior Red Cross of the Acacia school has been announced for Wednesday evening, March 13th, in the K. of P. Hall at Brand and Park avenue. The party will be given by Mesdames George and Will Peterson, Richard Todd, Tom Curtis, John Grant and Don Ashton, from whom tickets can be secured.

### A SPRING SHOWER

LUCKY THIRTEEN CLUB HONORS MISS GLADYS ANDERSON, A BRIDE TO BE

Not even a bad, stormy night prevented any member of the Lucky Thirteen from being present at a surprise the club had planned in honor of Miss Gladys Anderson, a bride to be. How could she know when she entered the front door of Mrs. Noble Ripley and found her in her kitchen busily washing her dinner dishes, that in the next room lay every possible idea of spring carried out to symbolize her dawning happiness.

When the last dish had been washed and the kitchen light turned out, Gladys walked into the front room to find all her girl friends awaiting her. Beautiful butterflies and birds were clinging everywhere, and old-fashioned flowers, violets and jonquils, were in abundance. An image of "the good fairy" standing amid violets, hyacinths and jonquils graced the center of the table, extending her arms to Miss Anderson with wishes for her happiness and the spirit of spring in her new life. Beneath every glass was found a butterfly which led to a bouquet of orange blossoms tied to the chandelier with yellow ribbon. Yellow flower cups held the salad and dainty candies and from each place card extended a wire wrapped with smilax on the top of which perched a butterfly.

Then there was music and a "Romance guessing contest," written upon paper cut and painted to represent butterflies, Miss Vera McPherson winning the prize provided for the most clever guesser.

The last surprise of the evening was a miscellaneous shower which brought forth many useful and beautiful gifts, among which was a kitchen card diary for which each girl brought one or more recipes.

It was one of the prettiest affairs of its sort that has ever been given in this city and highly creditable to the loving thought and originality of the hostess and her fellow conspirators in the Lucky Thirteen organization.

#### PATRIOTIC COOKING

At the demonstration by Mrs. Jessica Hazzard at the City Hall on Broadway, Tuesday morning, some time was spent in discussing the substitute cereals which our government is asking us to use in order to further conserve the wheat which is so urgently asked for by our allies.

It is up to us as individual buyers to see that we patriotically (which means cheerfully) help our merchants carry out the government regulations. In buying white flour an equal amount of substitutes must be purchased and while this may mean extra attention and time on our part, let us be loyal Americans and do our bit and do it willingly.

Barley flour, corn flour and rice flour were purchased in our local stores for this demonstration at equal price of wheat flour.

Glendale was honored by having the first opportunity of tasting the Milo maize muffin, which proved delicious. The maize was grown by Mrs. Hazzard and ground through an old-fashioned coffee mill rather coarsely. Our present-day meat grinder will answer the same purpose. The maize was rubbed between two cloths to free it from dust and then ground. The recipe follows. After tasting this several ladies present decided to add Milo maize to their gardens this summer.

We were urged to try dumplings made from half wheat flour and half corn meal with the warning to cook about twenty-five minutes, as these substitutes need longer cooking than white flour alone.

A leavening agent of lemon juice and soda, to be used in place of baking powder, was noted: 1 tablespoon lemon juice with 1/4 scant teaspoon soda will act as leavening for two cups of flour.

A pudding of dry bread and prunes was baked and enjoyed by those present. The recipe follows.

If potato flour is unobtainable, the mashed potato can be substituted for part of the white flour and the following recipe demonstrated the palatability of this substitute.

A demonstration will be held at the usual time next Tuesday morning, at which special attention will be given to well-balanced menus for the three meals, with especial emphasis on the government requests for substitutions.

About thirty were present and we urge every one who can possibly come to make a special effort to be there next Tuesday. These government requests must be met and the best soldier is the one who meets them with preparedness.

**Milo Maize Muffins**  
1/2 cup rice flour  
1 cup Milo maize (ground)  
1 egg (or omitted if not on hand)  
2 teaspoons baking powder  
1 tablespoon melted fat  
1 teaspoon salt  
About 3/4 cup liquid  
Make batter rather thin.

**Prune Pudding**  
1 1/2 cups dried bread broken in bits  
1 cup prunes cooked and seeded. Either honey or corn syrup may be used, from 1/4 to 1/2 cup, according to taste.  
1 teaspoon cinnamon  
1/2 cup prune juice.  
Bake in greased baking dish, first

RESOLUTION OF INTENTION NO. 989

A RESOLUTION OF THE BOARD OF TRUSTEES OF THE CITY OF GLENDALE DECLARING ITS INTENTION TO IMPROVE A PORTION OF BROADWAY IN SAID CITY AND DESCRIBING THE DISTRICT TO BE ASSESSED TO PAY THE COSTS AND EXPENSES OF SAID IMPROVEMENT.

The Board of Trustees of the City of Glendale resolve as follows:

SECTION 1. That the public interest and convenience requires and it is the intention of the Board of Trustees of the City of Glendale to order the following improvements to be made in said City, to wit:

First. That all of the roadway of Broadway, from a line drawn Ten (10) feet Easterly from and parallel with the Westerly line of Glendale Avenue, to the Easterly boundary line of the City of Glendale, including all intersections of streets and alleys between said points; but excluding therefrom such portion of Broadway and intersections as are required by law to be graded and paved by any person or company having railroad tracks thereon, and also excluding the following described portions of Broadway:

(a) Commencing at the Southeast corner of Lot 4, Block 25 of the Town of Glendale, as per map recorded in Book 21, Pages 89 and 90 of Miscellaneous Records of Los Angeles County, California. Thence Westerly along the Northerly line of Broadway 65 feet. Thence Southerly across Broadway to a point on the South line thereof distant 75 feet West from the East line of Lot 4, Block 24 of aforementioned Town of Glendale. Thence Easterly along the Southerly line of Broadway 150 feet. Thence Northerly across Broadway to a point on the Northerly line thereof distant 65 feet Easterly from the Southeast corner of Lot 4, Block 25 aforesaid. Thence Westerly along the Northerly line of Broadway 65 feet to the point of beginning.

(b) A strip of land of the uniform width of Twenty-four (24) feet lying 12 feet either side of, parallel and contiguous to the center line of Eagle Rock Road produced Southerly across that portion of Broadway included within a line drawn 31.03 feet South from and parallel with, and a line drawn 48.97 feet North from and parallel with the North line of Lot 73 of Watts Subdivision of a portion of the Rancho San Rafael, as per map of same recorded in Book 5, Pages 200 and 201 of Miscellaneous Records of Los Angeles County, California, be graded and paved to the official line and grade with hydraulic cement concrete base five inches in thickness, with a broken stone and asphaltic cement binder course one inch in thickness and with an asphalt wearing surface two inches in thickness, in accordance with Map No. 264, Plan No. 265, Profile No. 732, Cross Sections No. 266, and in further accordance with Specifications No. 24 for the construction of curbs, sidewalks, gutters, culverts and asphalt pavements in the City of Glendale.

Second. (a) That a cement curb of the Class designated as Class "B" curb in the hereinafter referred to specifications be constructed along the North line of the roadway of Broadway from a line drawn Twelve (12) feet West from and parallel with the East line of Everett Street to a line drawn Twelve (12) feet East from and parallel with the West line of Cedar Street, and from a point 518.42 feet East from the East line of Adams Street to the East City boundary line of the City of Glendale.

(b) That a cement curb of the class designated as Class "B" curb in the hereinafter referred to specifications, be constructed along the South line of the roadway of Broadway from a line drawn Ten (10) feet Westerly from and parallel with the East line of Franklin Court to the Easterly boundary line of the City of Glendale.

The construction of said curbs to include full returns at all street and alley intersections, omitting, however, such portions of Broadway and said streets upon which a cement curb of the Class hereinbefore referred to, or the equivalent thereof, has already been constructed and now exists to the official line and grade, and omitting such portion of Broadway as is required by law to be kept in order or repair by any person or company having railroad tracks thereon, and also omitting said curbs from the following described portion of Broadway:

Commencing at the Southeast corner of Lot 4, Block 25 of the Town of Glendale, as per map recorded in Book 21, Pages 89 and 90 of Miscellaneous Records of Los Angeles County, California. Thence Westerly along the Northerly line of Broadway 65 feet. Thence Southerly across Broadway to a point on the South line thereof distant 75 feet West from the East line of Lot 4, Block 24 of aforementioned Town of Glendale. Thence Easterly along the Southerly line of Broadway 150 feet. Thence Northerly across Broadway to a point on the Northerly line thereof distant 65 feet Easterly from the Southeast corner of Lot 4, Block 25 aforesaid. Thence Westerly along the Northerly line of Broadway 65 feet to the point of beginning. Said curbs shall be constructed in accordance with Map No. 264, Cross Sections No. 266, Profile Number 732, and in further accordance with Specifications No. 24, for the Construction of Curbs, Sidewalk, Gutters, Culverts and asphalt pavements in the City of Glendale.

Third. (a) That a cement sidewalk of the uniform width of five (5) feet be constructed along the North side of Broadway from a line drawn 12 feet West from and parallel with the East line of Everett Street to a line drawn Twelve (12) feet East from and parallel with the West line of Cedar Street, and from a point 518.42 feet East from the East line of Adams Street to a line drawn Twelve (12) feet Easterly from the Westerly line of Verdugo Road.

(b) That a cement sidewalk of the uniform width of Five (5) feet be constructed along the South side

of Broadway from a line drawn Twelve (12) feet West from and parallel with the East line of Everett Street to a line drawn Twelve (12) feet Easterly from the Westerly line of Verdugo Road.

The construction of said sidewalks to include full returns at all street intersections, omitting, however, such portions of said Broadway upon which a cement sidewalk Five (5) feet or more in width has already been constructed and now exists to official line and grade, and omitting such portion of Broadway as is required by law to be kept in order or repair by any persons or company having railroad tracks thereon, and also omitting said sidewalks from the following described portion of Broadway:

Commencing at the Southeast corner of Lot 4, Block 25 of the Town of Glendale, as per map recorded in Book 21, Pages 89 and 90 of Miscellaneous Records of Los Angeles County, California. Thence Westerly along the Northerly line of Broadway 65 feet. Thence Southerly across Broadway to a point on the South line thereof distant 75 feet West from the East line of Lot 4, Block 24 of aforementioned Town of Glendale. Thence Easterly along the Southerly line of Broadway 150 feet. Thence Northerly across Broadway to a point on the Northerly line thereof distant 65 feet Easterly from the Southeast corner of Lot 4, Block 25 aforesaid. Thence Westerly along the Northerly line of Broadway 65 feet to the point of beginning.

Said sidewalks shall be constructed in accordance with Map No. 264, Cross Sections No. 266, Profile Number 732, and in further accordance with Specifications No. 24, for the construction of curbs, sidewalk, gutters, culverts and asphalt pavements in the City of Glendale.

Fourth. That a cement gutter two (2) feet in width and five (5) inches in thickness, be constructed along both curb lines of Broadway from the Easterly line of Glendale Avenue to the Southerly prolongation across Broadway of the West line of Olive Street, including all street and alley intersections, except the intersection with Adams Street, and except also that said gutter shall be omitted upon such portion of Broadway as is required by law to be kept in order or repair by any person or company having railroad tracks thereon, and excepting that said gutter shall be omitted upon the following described portion of Broadway:

Commencing at the Southeast corner of Lot 4, Block 25 of the Town of Glendale, as per map recorded in Book 21, Pages 89 and 90 of Miscellaneous Records of Los Angeles County, California. Thence Westerly along the Northerly line of Broadway 65 feet. Thence Southerly across Broadway to a point on the South line thereof distant 75 feet West from the East line of Lot 4, Block 24 of aforementioned Town of Glendale. Thence Easterly along the Southerly line of Broadway 150 feet. Thence Northerly across Broadway to a point on the Northerly line thereof distant 65 feet Easterly from the Southeast corner of Lot 4, Block 25 aforesaid. Thence Westerly along the Northerly line of Broadway 65 feet to the point of beginning. At such points as said cement gutters hereinbefore referred to cross a street or alley intersection, they shall be constructed to a width of Four (4) feet instead of Two (2) feet as herein specified. Said gutters shall be constructed in accordance with Map Number 264, Cross Sections No. 266, Profile No. 732, and in further accordance with Specifications No. 24 for the Construction of Curbs, Sidewalk, Gutters, Culverts and asphalt pavements in the City of Glendale.

Fifth. That reinforced concrete, steel and corrugated iron culverts be constructed at the intersection of Broadway, with Verdugo Road, Adams Street, and Glendale Avenue, and on portions of Broadway, Verdugo Road, Adams Street and Glendale Avenue.

The construction of said culverts shall include all gutters, cement curbing, sidewalk and other appurtenances and appurtenant work as shown on Map Number 264 and Plan No. 265, adopted for said work; all of said appurtenances and appurtenant work being necessary for the effective operation of the culverts herein specified.

Said culverts, together with all appurtenances necessary for the effective operation of the same shall be constructed in accordance with said Map and Plan, between the points, on the lines and grades designated, and in further accordance with Specifications No. 24 for the construction of curbs, sidewalk, gutters, culverts and asphalt pavements in the City of Glendale.

Sixth. (a) That 2-in. standard screw pipe be installed parallel with and 18 inches back of the curb lines of Broadway, across all intersections of streets and alleys lying between the East line of Everett Street and a line drawn parallel with and ten feet Easterly from the Easterly line of Verdugo Road. Said pipe shall be installed in such manner as will permit the end of the pipe in all cases to extend respectively one foot East and one foot West of the East and West property lines of all streets and alleys within aforesaid limits;

(b) That 2-in. standard screw pipe 59 feet in length be installed across the roadway of Broadway at right angles thereto, at points respectively 145 feet West from the West line of Belmont Street; five feet West from the West line of Olive Street, and 910 feet East from the Northeast corner of Broadway and Verdugo Road.

(c) That 53 feet of 2-in. standard screw pipe be installed parallel with and Eighteen (18) inches back of the South curb line of Broadway extending Easterly from a point 427.13 feet East from the East line of Adams Street.

All of said 2-in. standard screw pipe shall be installed in accordance with Map Number 264, and in further accordance with Specifications No. 25, for installing 2 inch standard screw pipe in the city of Glendale.

SECTION 2. That said contem-

plated work or improvement in the opinion of said Board of Trustees is of more than local or ordinary public benefit and will affect and benefit the lands and district hereinafter described, and said Board of Trustees hereby declares that the district in the said city of Glendale benefited by said work or improvement and to be assessed to pay the costs and expenses thereof, is described as follows:

Beginning at a point on a line drawn 140 feet Westerly from and parallel with (measured at right angles to) the Westerly line of Glendale Avenue, said point being midway between the north line of Broadway and the South line of Third Street. Thence East along a line drawn midway between said north line of Broadway and the South line of Third Street, and the Easterly prolongation thereof to a point 200 feet Easterly from (measured at right angles to) the Northerly line of Eagle Rock Road. Thence Southerly parallel with said Northerly line of Eagle Rock Road to a line drawn Two hundred (200) feet North from and parallel with the North line of Broadway; thence East parallel with said North line of Broadway to a line drawn Two Hundred (200) feet Northeasterly from and parallel with the Northeasterly line of Broadway; thence Southeasterly, parallel with said Northeasterly line of Broadway to the Easterly boundary line of the city of Glendale; Thence Southwesterly, Northwesterly and Southerly following the various courses of said Easterly boundary line of the City of Glendale to an intersection with a line drawn 301.03 feet South from and parallel with the North line of Lot 73 of Watts Subdivision of a part of the Rancho San Rafael, as per Map recorded in Book 5, pages 200 and 201, Miscellaneous Records of Los Angeles County, California; thence West along said line drawn 301.03 feet South from and parallel with the North line of said Lot 73, to the Easterly line of Verdugo Road; thence Westerly to a point on the Westerly line of Verdugo Road midway between the North line of Fifth Street and the South line of Broadway; thence Westerly along a line drawn midway between the North line of Fifth Street and the South line of Broadway to a line drawn 140 feet Westerly from and parallel with (measured at right angles to) the Westerly line of Glendale Avenue; thence Northerly along said line so drawn parallel with and 140 feet Westerly from the Westerly line of Glendale Avenue to the point of beginning. Excepting therefrom any portion of any public street or alley included within said assessment district. This description is general only. Reference is hereby made to Map Number 264 in which the assessment district referred to is shown within green colored border lines.

SECTION 3. The Board of Trustees of the City of Glendale determines that serial bonds shall be issued to represent assessments of Twenty-five (\$25.00) Dollars or over for the cost of said work or improvement; said serial bonds shall extend over a period ending nine (9) years from and after the second day of January next succeeding the date of said bonds, and an even annual portion of the principal sum thereof shall be payable by coupon on the second day of January, every year after their date until the whole is paid; and the interest shall be payable semi-annually by coupon on the second days of January and July respectively of each year, at the rate of seven per cent. per annum on all sums unpaid until the whole of said principal and interest are paid. All of the herein proposed work shall be done in pursuance of an Act of the Legislature of the State of California, designated as the "Improvement Act of 1911," approved April 7, 1911, and the amendments thereto.

SECTION 4. Notice is hereby given that on the 21st day of March, 1918, at the hour of eight (8) o'clock P. M. of said day at the Council Chamber of the Board of Trustees of said City of Glendale, in the City Hall situated at the Northwest corner of Broadway and Howard Street in said City, is hereby fixed and designated as the day, hour and place, when and where any and all persons having any objections to the proposed work or improvement, herein designated, may appear before said Board of Trustees, and show cause if any they have, why said proposed improvement should not be carried out in accordance with the provisions of this resolution of intention.

SECTION 5. The City Engineer is directed to make a diagram of the property affected or benefited by the proposed work or improvement as described in this Resolution of Intention and to be assessed to pay the expenses thereof. Such diagram shall show each separate lot, piece or parcel of land, the area in square feet in each of said lots, pieces or parcels of land, the relative location of the same to the work proposed to be done, all within the limits of the assessment district.

SECTION 6. All Maps, Cross Sections, Plans and Profiles referred to in this Resolution are on file in the office of the City Engineer of the said City. All specifications referred to in this Resolution are on file in the office of the City Clerk of said City. Said Map, Plans, Cross Sections, Profiles and Specifications are hereby referred to for a more particular description of said work and made a part hereof.

SECTION 7. The Glendale Evening News, a daily newspaper of general circulation published and circulated in said City of Glendale, is hereby designated as the newspaper in which this Resolution of Intention, and notice of the passage thereof, shall be published in the manner and by the persons required by law.

SECTION 8. The Superintendent of Streets of said City, shall immediately cause to be conspicuously posted along the line of said contemplated work or improvement, and in front of all property to be assessed, and along all the open streets within the above described assessment district notices of the passage of this Resolution of Intention in the manner and form required by law.

SECTION 9. The City Clerk of said City of Glendale is hereby di-

TUJUNGA

Miss Ada Salstrom was called to her home in Glendale on Thursday by the illness of her sister, who passed away on Friday at eleven o'clock. The sister has been ill for a long time. There is left to mourn her loss Miss Ada, a sister and a nephew in Glendale. Miss Salstrom, who has been a teacher in our midst for the past five years, has the sympathy of all who know her in her bereavement. A brother living in Chicago arrived in time for the services, which were held in Glendale on Tuesday.

An all-day sewing bee was held at Bolton Hall Friday, but the attendance was not as large as we could wish, notwithstanding the fine weather. There is plenty of work and machines enough for at least thirty ladies to work, and it is up to each one to help at least one day in the week, when the need is so great. If we have no boys to send, it is then more than ever our duty to help outfit those who are fighting for us, and to help make garments necessary for their comfort in the hospitals. We ask you in the name of humanity to give us a good turnout every Friday at the club house, and we will furnish the work for your willing hands. The social conditions alone are worth the coming out for. Don't wait to be invited, if you are a member of the Red Cross anywhere in the world you have a passport to our sewing day and we will welcome you gladly.

Miss Reed took Miss Benedit and Mrs. Dean into Pasadena to return the knitted garments and get more yarn for our workers. There was no free wool that day and the Vice Regent, Mrs. Stuart, gave Mrs. Dean a personal check for \$30 worth of yarn, so that the Tujunga squad would have no time to idle, for which they thank her very much. From the Navy League they went to the Red Cross Chapter, left the finished garments and secured more for the next meeting. They also visited the Junior Department and inspected work sent in by them. This is well worthy of attention and the number and kinds are many. Those that do not come up to American Red Cross specifications are turned over to the French and Belgian Relief. Both sewing and knitting are taken up by the Junior Red Cross workers in the schools and the work is beautifully done.

Miss Margaret Proebst of Ocean Park was in the village for two days last week, looking for a suitable location for a home. She is very much pleased with the Valley, its climate, water and surroundings, and may decide to locate here. There have been many inquiries the past week for land properties, as well as rentals, so that it looks as if the coming spring would yield results, when the highway is finished and our streets put in order. It will then be up to the people of Tujunga to push and not pull. If you can not speak well of the place, keep still. With a fine climate, good water and an harmonious people, coupled with our nearness to Los Angeles, good roads and fine scenery, we might make it Heaven rather than purgatory (the waiting place for better or worse things). Everybody get busy and give the place a boost; it's your own town, your home town, and well worthy of your best efforts.

Dr. Newberry of Los Angeles was a guest of his partner, Dr. Wilkinson, on Sunday.

Mr. and Mrs. Wrigit spent the week end in Burbank, returning Monday.

rected to cause this Resolution of Intention to be published by two insertions in the manner required by law, in said Glendale Evening News.

Adopted and approved this 5th day of March, 1918.

FRANK L. MUHLEMAN, President pro tem. of the Board of Trustees of the City of Glendale. (Seal)

Attest: G. B. WOODBERRY, City Clerk of the City of Glendale, Pro tem.

State of California, ) County of Los Angeles ) ss. City of Glendale )

I, G. B. Woodberry, City Clerk pro tem. of the City of Glendale, do hereby certify that the foregoing Resolution was duly adopted by the Board of Trustees of the City of Glendale, State of California, and signed by the president of the Board at an adjourned regular meeting thereof, held on the 5th day of March, 1918, and that the same was passed by the following vote, to-wit:

AYES: Grist, Jackson, Muhleman, Woodberry.

NOES: None.

ABSENT: Thompson.

G. B. WOODBERRY, City Clerk of the City of Glendale, pro tem. 15612

Robert Copeland and Mr. Johnson were up from Brawley on Sunday and report that the little city is more lively and energetic than Los Angeles. The weather the finest ever. Mr. Copeland's father and mother, who were here for some time last winter, are preparing to return to California again. They think they have had sufficient zero weather in Detroit to last for some years.

Word was received of the death of Mrs. Hitchcock, who resided here last winter, at the county hospital. Mr. Hitchcock passed away about two months before. Two little children were left and will be cared for by relatives. Mr. Wieman was called upon to officiate at the funeral.

Mr. Adam, who has been working for Mr. Prescott at Monrovia, has been at home for a few days. Mr. Prescott has been making many improvements on the place in Monrovia that he recently purchased for a home.

Members of the Board who have been canvassing the village in the interests of co-operation, are well pleased with their success.

Mr. and Mrs. Saeger of Glendale are again occupying their cottage on Stephens Way.

The Glorietta Heights school was dismissed on Friday, the first of March, for the spring vacation, and will continue for one week.

Mrs. Sarah M. Wood of Sunset boulevard is in the hospital for treatment.

Port Arthur, Tex., is beginning a campaign to turn itself into a city of palms. Trees of uniform species are to be systematically planted on all the streets and boulevards; the School Board will co-operate in laying out the school grounds with walks and palms; and the railroads will help by planting palms in their train yards and around their property generally. It is a delightful, but not a new, scheme in town improvements. London has for years been planting plane trees in its streets, and there are certain other English towns, like Eastbourne, which have their own particular variety of tree. Salt Lake City, Utah, made a specialty years ago, of Lombardy poplars, but thereby hangs a tale. At the time of their planting, Brigham Young was a nurseryman with an overabundant supply of these tall and graceful trees in stock. So an ordinance was adopted authorizing the planting of the city with them. And now Salt Lake City and its environs reproduce something of the quaint charm of France, or Northern Italy.—C. S. Monitor.

CHANCE FOR INVENTORS

(Continued from Page One) ual motion, only we are calling it by another name."

Mr. Cutler's advice to the would-be inventor is, "Draw heavily on your imagination. Never think of anything as impossible."

Mr. Cutler relates some of his earlier experiences which are amusing but show that his inventive bump began to develop early. He said, "When I was about eight years old my imagination told me I could fly, so I proceeded to tie the ends of the bows of our old umbrella to the handle, which was in turn secured between my shoulders. Then with wings made with wire and cloth secure to my hands and arms, I climbed to the highest part of our old barn, made a sweeping bow to those watching me 'go in' to fly and started on my flight. My carefree was working badly and instead of flying upward I dug a hole in the ground that it took me three weeks with the help of our old family doctor to fill up." We ordinary mortals would have had our inventive aspirations stifled then and there, but not so with Mr. Cutler.

When asked as to the opportunities for inventors today Mr. Cutler said, "There are wonderful opportunities in both new and old subjects for the inventor today. There have been about 1,255,000 patents issued from the United States patent office and a considerable portion of these have been or are being manufactured and placed on the market. Each one has had or is having its use. When we stop to realize that not over three per cent of all the machinery in the world is more than 20 per cent efficient, and of the amount of power wasted in the rise and fall of the tides, sun's heat and light, waterfalls and other power about us that we do not yet quite understand, it can be readily seen what a vast field there is for inventive genius. The public is waiting for the ideal in everything. Invention almost arrives unannounced, or at least unexpected by 99 per cent of the people. The world of invention still has vast, undiscovered continents in it. The inventors who have gone before have helped to make the trails of new discoveries, and though they may not have reaped riches, they have helped to enrich others who have come after them and are still to come and to produce inventions growing out of the original ideas."

Mr. Cutler, who has hundreds of inventions to his credit, has promised the News further interviews on this fascinating subject when his time permits.
