Editing Simple Articles

**WIKIMANIA
SINGAPORE**

Today we are going to learn ...

1. Adding links (hyperlinks);
2. Adding subtitles;
3. Adding references;
4. Adding a list of references;
5. Adding categories;
6. Adding files (optional);
7. Creating a new article.

Let's take a look at the example article below.

**WIKIMANIA
SINGAPORE**

Let's start editing!

**WIKIMANIA
SINGAPORE**

Contributing on Wikipedia doesn't have to involve making numerous edits all at once. You can begin with simple edits, such as correcting spelling, punctuation, and the writing style used in an article. Any contribution, no matter how small, is highly valuable for the development of Wikipedia.

1. **Open the article you want to edit by typing its title in the search box.**
2. **Click on the word "Edit" to enter visual editing mode (Visual Editor - VE).**

This is how your page looks when you enter visual editing mode.

Note that the "Edit" tab is currently active. This indicates that you can now begin editing.

**WIKIMANIA
SINGAPORE**

Now, let's try adding internal links in
Wikipedia!

WIKIMANIA
SINGAPORE

What is a hyperlink?

Internal links serve to connect one article to another within Wikipedia.

They can only be 'linked' if both articles already exist on Wikipedia.

Internal links are present within the body.

Adding Hyperlink

1. Select the words you want to link as internal links.
2. Click the icon.
