REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1964, any article of the following named classes of published works deposited for copyright between January 1, 1960, and January 1, 1961, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and Pamphlets.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D.C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Superintendent of Documents,
U.S. Government Printing Office, Washington 25,
D.C. Price of this part is given on page vi.

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided into Parts corresponding to the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to distinguish the classes, and the prices of the semiannual issues.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc.).

Information as to changes of copyright ownership is not included in the *Catalog*, but a search of the Copyright Office Assignments and Related Documents Indexes may be requested from the Register of Copyrights, and a fee for the search and report will be estimated at the statutory rate of \$3 per hour.

In the case of each registration listed, except for renewals, there has been a deposit of a copy or copies of the work in accordance with the provisions contained in sections 12, 13, 14, or 215 of Title 17 of the *United States Code*.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all Parts of the *Catalog of Copyright Entries* should be sent to the Superintendent of Documents, U.S. Government Printing Office, Washington 25, D.C. Orders may be placed for individual issues, as subscriptions for one or more Parts, or for the complete *Catalog* at \$20 a year, and for periods of one, two, or three years. All orders should state clearly the title and the inclusive dates of the Part wanted. Checks or money orders should be made payable to the Superintendent of Documents.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D.C.

Organization of Parts

Each Part listed in the following table records all current registrations in the class or classes indicated by the alphabetical symbols given. Except for renewal registrations (separately listed at the end of each related Part), the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for the purpose of statistical analysis. The symbol "(R)" has been adopted by the Copyright Office to identify renewal copyright registrations. A zero immediately following the symbol, e.g., AF0, EF0, identifies a foreign work deposited under the waiver-of-fee provision (section 215 of Title 17 of the *United States Code*). Some Parts also contain registrations made under other symbols if the subject matter or type of material is similar to that generally included in the Part.

Renewal Registrations.....	39
Name Index.....	49

Introduction

PARTS 12-13 list motion pictures currently registered in classes L and M, filmstrips currently registered in classes A and J, and renewal registrations in classes L and M. The motion pictures registered include feature pictures, cartoons, newsreels, industrial films, classroom films, television films, etc. Many of the recording scripts made to accompany filmstrips are registered in classes C and D and are listed in *Parts 3-4: Dramas and Works Prepared for Oral Delivery*.

Arrangement is by title. Each work is described in a main entry which includes information pertinent to the copyright claim. References lead from other titles associated with the films. Films for which the subsisting copyright has been renewed are listed separately in the Renewal Registrations section.

The Name Index to the names of claimants, producing and releasing companies, sponsors, authors, etc. given in the main entries covers both currently registered works and renewal registrations, the latter being identified by the symbol "(R)."

For works currently registered each main entry includes the following items of information if available and applicable:

- 1) Title.
- 2) Production statement including name of releaser.
- 3) Physical description, including running time or number of reels, width of film, etc.
- 4) Series statement.
- 5) Author and title of the published work on which the film is based or with which it is correlated.
- 6) Names given in the application which do not appear elsewhere in the entry.
- 7) Name of the employer in the case of a work made for hire, if so named in the application.
- 8) Information contained in the application which relates to the registration of an earlier version of the work.
- 9) Brief statement of the new matter on which copyright is claimed, preceded by the abbreviation "NM," if this information is given in the application and is not indicated elsewhere in the entry.
- 10) Copyright symbol ©.
- 11) Name of the copyright claimant.

12) For published works, date of publication as given in the application; for unpublished works, the date on which the last of all the items required to complete registration (i.e., description and representative prints in the case of motion pictures—or a complete copy of the filmstrip—application, and fee) was received in the Copyright Office.

13) Registration number.

For published works, whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or date of publication, the data from the application are given first, followed by the phrase "in notice" and the data given in the work; e.g., © Richard Roe & Co.; 19Jan62 (in notice: 1961); LP21200.

Works deposited in connection with copyright registration may be selected for inclusion in the collections of the Library of Congress. Library of Congress printed cards are available for many of the published works so selected. Orders for such cards or inquiries concerning them should

be addressed to the Card Division, Library of Congress, Washington 25, D.C.

For renewal registrations, the main entry includes the following items of information if available and applicable:

- 1) Title.
- 2) Length of the film in reels.
- 3) Name of the author, which is usually the original producing company.
- 4) Copyright symbol ©.
- 5) Date of original copyright.
- 6) Original registration number.
- 7) Name of the renewal claimant followed by a statement, usually abbreviated, giving the basis of the renewal claim as supplied by the applicant; e.g., "John Doe & Co. (PWH)" indicates that renewal of copyright is claimed by John Doe & Co. as proprietor of copyright in a work made for hire.
- 8) Date of receipt of the renewal application or fee, whichever is later.
- 9) Renewal registration number.

Abbreviations and Symbols

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

(A) author
 a.a.d.o. accepted alternative designation of
 a.k.a. also known as
 appl. application
 b&w black and white
 © copyright symbol
 (C) child or children of the deceased author
 d.b.a. doing business as
 (E) executor(s) of the author

WASHINGTON : 1963

REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1964, any article of the following named classes of published works deposited for copyright between January 1, 1960, and January 1, 1961, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and Pamphlets.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D.C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Superintendent of Documents,
U.S. Government Printing Office, Washington 25,
D.C. Price of this part is given on page vi.

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided into Parts corresponding to the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to distinguish the classes, and the prices of the semiannual issues.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc.).

Information as to changes of copyright ownership is not included in the *Catalog*, but a search of the Copyright Office Assignments and Related Documents Indexes may be requested from the Register of Copyrights, and a fee for the search and report will be estimated at the statutory rate of \$3 per hour.

In the case of each registration listed, except for renewals, there has been a deposit of a copy or copies of the work in accordance with the provisions contained in sections 12, 13, 14, or 215 of Title 17 of the *United States Code*.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all Parts of the *Catalog of Copyright Entries* should be sent to the Superintendent of Documents, U.S. Government Printing Office, Washington 25, D.C. Orders may be placed for individual issues, as subscriptions for one or more Parts, or for the complete *Catalog* at \$20 a year, and for periods of one, two, or three years. All orders should state clearly the title and the inclusive dates of the Part wanted. Checks or money orders should be made payable to the Superintendent of Documents.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D.C.

Organization of Parts

Each Part listed in the following table records all current registrations in the class or classes indicated by the alphabetical symbols given. Except for renewal registrations (separately listed at the end of each related Part), the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for the purpose of statistical analysis. The symbol "(R)" has been adopted by the Copyright Office to identify renewal copyright registrations. A zero immediately following the symbol, e.g., AF0, EF0, identifies a foreign work deposited under the waiver-of-fee provision (section 215 of Title 17 of the *United States Code*). Some Parts also contain registrations made under other symbols if the subject matter or type of material is similar to that generally included in the Part.

Current Registrations.....	59
Renewal Registrations.....	97
Name Index.....	109

Introduction

PARTS 12-13 list motion pictures currently registered in classes L and M, filmstrips currently registered in classes A and J, and renewal registrations in classes L and M. The motion pictures registered include feature pictures, cartoons, newsreels, industrial films, classroom films, television films, etc. Many of the recording scripts made to accompany filmstrips are registered in classes C and D and are listed in *Parts 3-4: Dramas and Works Prepared for Oral Delivery*.

Arrangement is by title. Each work is described in a main entry which includes information pertinent to the copyright claim. References lead from other titles associated with the films. Films for which the subsisting copyright has been renewed are listed separately in the Renewal Registrations section.

The Name index to the names of claimants, producing and releasing companies, sponsors, authors, etc. given in the main entries covers both currently registered works and renewal registrations, the latter being identified by the symbol "(R)."

For works currently registered each main entry includes the following items of information if available and applicable:

- 1) Title.
- 2) Production statement including name of releaser.
- 3) Physical description, including running time or number of reels, width of film, etc.
- 4) Series statement.
- 5) Author and title of the published work on which the film is based or with which it is correlated.
- 6) Names given in the application which do not appear elsewhere in the entry.
- 7) Name of the employer in the case of a work made for hire, if so named in the application.
- 8) Information contained in the application which relates to the registration of an earlier version of the work.
- 9) Brief statement of the new matter on which copyright is claimed, preceded by the abbreviation "NM," if this information is given in the application and is not indicated elsewhere in the entry.
- 10) Copyright symbol ©.
- 11) Name of the copyright claimant.

12) For published works, date of publication as given in the application; for unpublished works, the date on which the last of all the items required to complete registration (i.e., description and representative prints in the case of motion pictures—or a complete copy of the filmstrip—application, and fee) was received in the Copyright Office.

13) Registration number.

For published works, whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or date of publication, the data from the application are given first, followed by the phrase "in notice" and the data given in the work; e.g., © Richard Roe & Co.; 19Jan62 (in notice: 1961); LP21200.

Works deposited in connection with copyright registration may be selected for inclusion in the collections of the Library of Congress. Library of Congress printed cards are available for many of the published works so selected. Orders for such cards or inquiries concerning them should

be addressed to the Card Division, Library of Congress, Washington 25, D.C.

For renewal registrations, the main entry includes the following items of information if available and applicable:

- 1) Title.
- 2) Length of the film in reels.
- 3) Name of the author, which is usually the original producing company.
- 4) Copyright symbol ©.
- 5) Date of original copyright.
- 6) Original registration number.
- 7) Name of the renewal claimant followed by a statement, usually abbreviated, giving the basis of the renewal claim as supplied by the applicant; e.g., "John Doe & Co. (PWH)" indicates that renewal of copyright is claimed by John Doe & Co. as proprietor of copyright in a work made for hire.
- 8) Date of receipt of the renewal application or fee, whichever is later.
- 9) Renewal registration number.

Abbreviations and Symbols

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

(A)	author
a.a.d.o.	accepted alternative designation of
