The Southern Advertising Company has just completed in Johnson City, Tenn., a new and up-to-date bill posting plant with a capacity in the city of 800 sheets, be-sides about 500 sheets in good ont-of-town showings. Minety per cent. of their city is first-class ratiroad showing. The com-pany has obtained membership in the As-vociated Bill Posters and Distributors of the U.S. and Canada, and the prospect for their doing a paying business is bright, from the fact that the government is ex-pending about ten million dollars in the erection of a Soldiers' Home in Johnson City. #### NOT THE MAN.

He further dis-cuanns that It was his son, and announces that the Michael Kuhn who was sued for divorce is not in the bill posting business, but resides at 504 South Fourth street, Hamilton, O.

COMMERCIAL ADVERTISERS. One advertisement won't make prosperity. Persistent use of space won't insure busi-ness, it isn't the use of the space that formats in the effort at business building. It isn't the large claims with hopes that results may come. It isn't bombast or as-surance or talk that does the business. All of these have their phase in advertising, but the one thing that is essential is honest business purpose. An effort to give to the people what is wanted, an effort to tell why it is wanted, why it will wear or sat-tice one thing the past, why it is cheaper at the present price than some articles that are sold for less. All these are points which will appeal to the sense of economy or high value, the worth that will make it promoted the advertising. The advertiser who knows what to say, when to talk, and bus the sing he is ideas, is not the one who is meet nin ab deas, is not the one who is uncertain about the value his advertisers. The ordinance which imposed a tax on all dvertising did not pass our City Counell f thiladelphia, and never will. The Kentucky State Fair Association has ecome inhoued with the idea that the suc-ess of their fair depends very largely upon he scope of their advertising. Who dares o say that Kentucky is behind the times. The C., H. & D. Raifroad has gotten out publication entitied "On the Way to Mich-gan," being the story of "Love and a Buil-log," which is a remarkably catchy plece of advertising. The little book is printed a two colors and profusely illustrated. The tory is unique and interesting.

#### INNOVATION

#### Scored by Who, What, When Minstrels in Point of Advertising.

in Point of Advertising. L. M. Boyer, general manager of the who, What, When Minstreis, has given in-ception to a novel form of advertising the minstrel show. Realizing the fact that carl-osity is a very strong element of human nature, Mr. Boyer has made use of his weeks ahead of the show, to distribute bills bearing only these three words: "Who, What, When." No information is given explaining the singular phrase, and three weeks later the second agent is sent out who duplicates the work of the first, and in addition places on every barrel, post and tree the same three words, "Who, what, When." Then in two more weeks the third and last agent passes through the same territory covered by the first two, leaving press notices galore in his wake. Every newspaper devotes a column to the explan-ation of the three words, Mr. Boyer be-lieves his plan very efficient, and places great hopes on the result.

Every one who had ever attempted it before had been severely injured in some way, and several are now in the hospital. Mr. Weinacht, knowing this fact, asked that he be given permission to make the attempt. The twelfth annual convention of the As-siciated lill Posters and Distributors of the United States and Cauada, which was held last week in Mliwaukee, was indeed a notathe meeting. It was notable because the keynote of its every proceeding was a disposition to con-serve and safeguard the Interests of the advertiser. If the legend, "The Advertiser and His Interests," had been blazoned in ietters of fire on all four walls of the con-vention hall, it could not have heeu borne more constantly in mind by the delegates. Everything that was said or doue scemed to spring from this one pervading thought. And it has already had its effect. The Association is stronger, its influence is greater, and its mandates command more respect than ever. It is building on a firm rock.

Association is stronger, its influence is greater, and its mandates command more respect than ever. It is building on a firm rock. The British delegates to the convention were fine fellows, and made many friends. Intensely loyal to their own land, their own customs and usages, they yet found much to admire in ours. We all hope they will come again. If they do, we want them to give us time enough to entertain them and show them some little part of our country, its grandeur and its resources. "The Billiboard" has no wish to shape events. Its mission is only to record them. In view of the growing strength of the As-sociated Bill Posters and Distributors and its grant usefulness we can not refrain from offering oue suggestion which it would seem would nake the organization invinci-ble. The distributors have come in. NOW COMPEL THE SIGN PAINTERS TO DO LIKEWISE. Secure uniformity from ex-orbitant rentais. This would he protection indeed.

Agricultural fair associations all over America are in a better financial condition than they have been for years. Evidence of this fact is found in the buildings heing erected and the improvements heing made on grounds, in the increased cash premiums and purses that are offered, and especially in the ilberal appropriations which are passed for advertising. Some of them never would have been in such dire fluancial straits if they had not pared their advertising appropriation al-most to the varnishing point.

The circuses are just emerging from a pe-ried of the rainest, stormiest and most un-seasonable weather that has been encoun-tered for years. One show, more unfortun-ate than the rest, has not packed the canvas up dry for six weeks. All have suffered from cold, and quite a few write of snow-storms encountered in June. Yet business has been good. Most of the tent shows on the road have made money. This demon-strates ciearly that the country is in a most prosperous condition.

NOTHING NEW UNDER THE SUN. If we are to believe one John Dick, of Springfeld, O., and originally from Sect. iand, the Loop-the-loop is not new. He says he saw the feat repeatedly success-

fully performed at a watering place in Scotland more than forty years ago. The hair-raising journey was in those days made on a car running on rails. The rider was tied to the car, so that when the top of the loop was reached he could not pos-sibly fail out.

Not only has Mr. Benbow secured his patents, but he has organized the American Aerial Navigation Company, with a capital stock of \$30,000, the incorporators all being Montana men. most careruly guarded, and the inventor is exceedingly reticent in giving details of its principles. Benhow claims to have recently chal-lenged M. Santos to a hurdle race with his machine. The feat of the race is to dive alternately over and under a series of hur-dies erected in the air. The motive principle of Benhow's ma-chine is somewhat like that of M. Santos, in that the craft is supported by gas hags or balloons. The balloons are of a longi-tudinal shape, and may be either large or smail, according to the amount of weight which the ship is designed to carry. Two extra balloons are provided, so that if an accident happens to the oues supporting the craft the gas in the ones remaining will be sufficient to carry the aeronaut to the ground without accident. Fans are operated by motor power, the moter being constructed of a light material -Mr. Benbow does not say what—and of sufficient power to drive the machinery car-ried in the fram work.—St. Louis Republic.

CROP REPORT.

CROP REPORT. The northern portious of the country east of Rocky Mountains are now experieucing favorable weather, with the exception of New England, Rainfalls have ameliorated the crop conditions in the Missouri and Up-per Mississippi Valleys, portions of the lake region and Middle Atlantic States. Rain is needed in the Central and East Guif dis-tricts and the South Atlantic States. There has been considerable rain in Texas again the past week, and conditions there are be-ginning generally to look more favorable in that State. The temperature has been very iow, with considerable frost in Nevada and Utah, but conditions in California are gen crally favorable. The corn crop has undergone material improvement in the central valleys, and the outlook for this crop in the principal corn States is encourging except in the Mis-souri Valley , where it has suffered from lack of cultivation, owing to excessive molsture. The harvest of winter wheat is now flu-shed in the Ohlo Valley, southern portions of the Middle Atlantic States, and is prac-tically done in the lake region. The har-vest on the North Pacific Coast is later than usal, owing to extensive lodging, but vesting in California is mearing completion under exceedingly fine conditions. The outlook ks utilimately favorable. Hur-vesting in California is mearing completion under exceedingly fine conditions. The past week in the Lower Missission Valley.

outlook for spring wheat is generally very promising. Oats yielded a big harvest during the past week in the Lower Mississippi Valley. Tennessee and Middle Atlantic States, and the crop is ripening very promisingly in the Ohlo Valley. The outlook in the cotton heit, especially the southern portion, is rather dark. In Tennessee, Northern Missispipi, Arkansas, Missouri, Oklahoma and Indian Territory the crop is in a fair condition. Throughout Texas, except in the southwestern and northwestern counties, the cotton crop will make good.

northwesteru counties, the cotton crop win make good. Tobacco is in a flonrishing condition gen-erally, except in the Carolinas and Florida, where it needs rain badly. A good crop of hay is reported in the Missouri aud Central Mississippi Valleys, but in the Upper Ohio Valley and Middle Atlantic States the crop is light.

INDUSTRIAL REPORT. At this writing a big strike is on among he freight handlers in Chicago, and as a result traffic in that city is practically at t standstili. Industrial conditions generally through-but the South are excellent. As a result of the coal miners' strike, there is a prospect of a general stopping of the wheels of industry in the Middle West, though such a contingency is hardly probable.

"Madame Flirt," the connedy that Miss Bingham has obtained for next season, has been one of the greatest successes Parls has been one beat interferes with the enjoyment of the public, as at the roof gardens and theaters, for the rink is roofed, and the temperature is always lifteen or twenty degrees less than outside, because the shi plest and most successful cooling apparatus yet devised is in use. Leed air is forced into the halt through enormons funnels, so arranged that there is no draft to endanger the visitor's health. The programmes are varled to suit all tastes, but there is no room in them for musical trash. Indeed, it is the arrangements of the selections that plays a large part in the success of these encorests. The place is large and never over-crowded. The character of the attendance is noteworthily respectable und orderly, and refreshments are excellent, and are served at prices in marked contrast to those demanded by the robber purveyers of the roofs. The stand most sime design bound is to the standard the standard the bar standard the bar is the standard to end in the superson of the standard to end in the superson in the superson end in t

for summer vacations, it is fair to assume that 5,000 people will go every night to these theaters, when ordinarily they would stay at home. Simple multiplication of these conservative figures indicates that the managers expect New Yorkers to be pre-pared to spend 81,800,000 more on theatrical entertainment next year than they have previously done. That amount will furnish a pretty good dividend, even if it is not hereased, as it very likely will be, with any sort of luck. Even if last season furnished very few great histrionic successes, the average was high, and more people than ever went to the theater. That the managers helicve that this number will be still increased is shown by the activity in theater building. IRALPH KELSO.

#### On in Philadelphia for a Run-Watt's Letter.

Letter. The Park Theater has been doing a re-markatile business, despite the hot weather. The production of "A Runaway Girl" by the Stewart Opera Company made a hit, and the audiences have been of profitable size every aight. The run of that play con-cluded on Saturday night and to-night "The Gelsha" will be put on and continued as long as profitable. Kelth's Theater con-tinues to draw big houses with big vande-ville bills. There will be no break in the senson of this house, it keeping open as usual throughout the year. That is all the annuschement offered our people at present, and no managers will tempt fortune by opending np before the middle of August.

amissement onered our people at present, and no managers will tempt fortune by opening np before the middle of August. Business at the parks in and around Phil-adelphia has only been fair this summer, and the privilege men are all complaining that they will lose money on the season. "The Kiltles" Band is the attraction at Willow firove Park, Liberati remains at Washington Park, and Conterno's Band is playing at Woodside. Fairman's Boston Band still pleases the crowds that go to Chestnet Hill Park. The other parks offer fullan hands of different names each week, but with the same performers. The season at Atlantic City is now in full swing, and as big crowds were there over the Fourth of July and many of them are there yet, the amissement people are mak-ing money. Sousa is drawing well at the Steeplechase Pler, but the hisiness is not large enough to make it profitable. Young's Her has the Royal Marine Band, Adjle and her Hons, Lafayette and his show, and in-numerable other attractions, The Steel l'ter has two hands, Murphy & Gibson's American Minstrels and cake-walkers. The hide Pavilion is running high-grade vande-wille in the evening and a band in the after-noons. Guvernator's, Doyle's and For-tesene are all running bigh gradeville bills and business is good. Frank Hubin is do-ling a wonderful business with his Gypsy Camp, and nearly every visitor to this place takes in the gypsies. BOSSIP.

#### GOSSIP.

GOSSIP. GOSSIP. The cutting out of the Trocadero Thea-ter by the burlesque managers has made a big change in the plans of two theaters for pext season. The burlesque companies in the association will play only the Lyceum and Star, two bonses within a half block of pach other. The latter house, which is owned by Frank Dunn, has been leased by Harry Morris. Charles Waldron. Sam Seribuer and Harry Martell. The latter will be the local manager. They were all here one day last week, and made arrange-ments for extensive improvements in the bonse. The Trocadero, which was one of the most successful burlesque houses in the country, will not play any of the blg bur-mered that Floyd Lauman, the manager, will place Carrie Radeliffe in the house and run a stock dramatic company for the sea-son. Another rumor is that he has made arrangements with a weik-known local nuther to write a series of local burlesques and will engage a blg stock company of burlesque people to put them on. If this balan is put in excention the bonse will be rum on the same order as Weber & Fledds' in New York. The Kensington The-ter is also shut out of burlesque bookings, but the manager and owner. Mr. John Hart, has completed arrangements with Stair & Us A Gilmore, the owner of the Audito-tion Theorer, and J. Bard Worrell, his

directors of the Tremont Theater trying to get the house. He has twenty weeks al-ready booked with Schofflel for next senson, and more to come. I obtained today positive confirmation of the fact that Boston is to have another new theater, which, it is intended, shall cater particularly to the elite of this city and vicinity. It will be located in the Back Bay district. The new playchones is to be built and equipped upon elaborate plans, with the beauties of a palace in its fur-nishings and adornment. The manager of this theatrient place is to be A. H. Chan-berlyn, well-known to Boston and New York theatter-goers as manager of the "De-fonder" and general playwright. The name of this house is to be "The Lenox," and its site is to be next to the Hotel Lenox, and its site is to be next to the Hotel Lenox, and Exeter street, opposite the B. A. A. Chah House, Mr. thamberlyn, who is at present at the Heraid Square, New York, was in town last Thesday making the final arrange-ments. It is understood that excavations will begin early next month. The plans have already been drawn and most of the construction contracts placed. This is the first invasion of Back Bay by theatriculs, and consequently the first attempt of a manager to make a direct bid particularly for the patronage of society. The more corresponds to the one in New York, while result du the rection of the Brekkeley Ly: cent. This latest attempt, it is claimed, will outdo New York's. It is understood that the new theater will present only the intertial talent. A new entrance to Musie Hall is heing en throngs from Washington street, tak-ing in the building which "The Six Little Tallors" occupied. Dudiey Buck, the well-know i organist and composer, is at Cushing's Islan I, Portland Iarbor.

In the evening Collins Maye gave a slide for life across the lake, and in the after-noon High Diver Allison repeated his cele-brated act. Coney Island was the Mecca Sunday for thousands who took advantage of the bean-tiful weather to enjoy the delightful river ride and an outing in the country. Those who remained until in the evening, and the majority did so, had the pleasure of making the return trip by moonlight. The features of the entertainment provided were the popular concerts by the Cincinnati Military Band aud the performances in the free van-deville theater, where an excellent bill was offered. Chief among the entertainers were the Valentinos, in a sensational aerial act; the Eidons, in a clever sketch, "Trouble in a Chinese Laundry." and Christopher, the necromancer, who made a decided hit. At the conclusion of the performance, the Bos-ton Operatic Quartette sang a number of selections from "Chines of Normandy," and, as on their previous appearances, were repeatedly encored. It was unnonneed that the quartet would be assisted by a chorus of eight voices, and that selections from the most popular operas would be given. "The work of selecting the chorus has be-gun, and rehearsals will be held at once, as it is intended to put to mb hitter part of the week. Mr. Emmet Mathew Lennor, the tenor, who was compelled to cance his en-gagement to go East, has been succeeded by Mr. Richard Burton, a well-known tenor of Chicago.

Mr. Richard Burton, a well-known tenor of Chicago. Delays that were not reckoned with caused the late arrival of the famons lia-genbeck animals at the Zoo Sunday. On this account the opening performances orig-inally promised were not given, but a spe-cial performance late in the evening was given for the benefit of those who stayed long enough to enjoy it. The train bearing the special ears and eages in which the animals were shipped from Hamburg direct to this city did not reach here until 1 o'clock Sunday after-noon. The ears were late in leaving Bal-timore, owing to delay in unloading the big consigument, but at that should have ar-rived here a 6 o'clock yesterday moruing. After these delays, the special ears were burifedly sidetracked at Winton Place, and unloaded as rapidly tedious. It was almost draw hefore the last wagon had been lifted from the flat ears. The tardy arrival made the needs and the strong activity the difference. ft tlg

from the hard cars. The tarly arriver with it necessary to postpone the opening exhibi-tion carded. The added attraction drew the biggest Sunday crowd of the senson to the Zoo, and thousands were disappointed. The disap-pointment, to a fair degree, was removed by Brooks and his Chicago Marine Baud. The selections were mostly popular ones, and, rendered in Brooke's catchlest manner, were most liberally applauded.

BALTIMORE, MD. The summer parks did a rushing busi-ness during the past week. The warm weather was responsible for the big crowds that visited the numerons resorts. Eackskin Bill's Wild West Show came here for two days, July 2 and 3. The four performances were largely attended, and the seating capacity was taxed to its ni-most. This is partly due to the fact that there are no other attractions in the city at the present time. Electric Park, (Wm, Morris, Mgr.)-Fourth of July week was a record breaker. Large crowds filled the eapacity of Cashno at every performance. The program for July 6 and week was threso. **COLUMBUS, GA.** North Illahands Casho, (C, P, Springer & F, V, Peterson, Mgrs.)-Only fair audi ences ranged through the last week, the people being kept undecided by the threat-enlug weather. On last Friday lighting struck the whres and set fire to some of the scenery and cansed a liftle blaze that was extinguished without much loss. The offering for the present week is deeldedly the strongest of the season. Brumage and Clark remaining for their fifth week and still catching the praises of the andlences, The newcomers are Bella Doyle and Babe Lauri, a singing, dancing and quick-change

team of the high class. Their wardrobe ls superb. The Randolphs, Fred and Ger-tle, "The Kids' Frolle in a Chinese Laun-dry," introducing aerobatic knock-about, contortion and burlesque trapeze work, brought the people to their feet, and cheer after cheer rewarded their work. Mr. Ran-dolph is the nerviest man I ever saw. He had the misfortune to sprain his right aukle on his opening night, and when the curtain rose last night It was swollen twice its normal size and the pain was intense, but he did not faiter in his act, and scarce-iy anyone in the andlence noted that there was anything the matter with him. Their act is away above the regular act of this kind, and deserves success. CLARENCE E. GRAY.

The performance proceeded with great success until the cue for Inele ban's appearance was given. As he walked out upon the stage, straw hat in hand, and howing at every step, the performers, and nudlence arose, and a mighty shout went up. As the applause died away the or-chestra played the opening bars of "Hixle," and then began again, but Inele Dan was shent. Again the leader of the orchestra started the world-known tune, but the wrifer of it did not respond. He stood with bowigd head and eyes cast down, as if un-conscions of his surroundings. I'ncle Dan does not get about as much as formerly, and delights to sit in the shadow of his little house, smoking his short black pipe, chaiting with callers or holding a monologue with his dog and cat, and gazing often to the East as the sun goes down be-hind the hills beyond the Kokasing Valley; the shadows lengthen and touch the tops of the tombstones and monuments in the pretty cemetery near by, where the old minstrel hopes finally to rest.

#### DOES HERSELF PROUD-BIG MEETING

#### And Much Business of Great Import ance Transacted.

The twelfth minimal convention of the As-sociated Rill Posters and Distributors of the United States and Canda has passed into history. It will be handed down as one of the greatest meetings ever held. Although the attendance was not as great as that at Ruffalo last year, yet the character of the business transmited, the high order of the debates and the zeal and earnestness of the discussions will easily mark the "greatest yet."

debates and the zeal and earnestness of the discussions will easily mark the "greatest yet." The regular meeting was preceded by a meeting of the Board of Directors on Sun-day and a meeting of the International As-sociation of Distributors on Monday. At the former the regular routine busi-mess preliminary to the annual meeting was transacted. At the latter a long and warm debate on the proposition to annalgamate the organization with the A. B. P. and B. occurred. Much feeling was munifest upon the part of those in favor of and against the proposition. It soon became evident that those supporting the movement were in the majority, and in spite of hitterness of the minority, the measure was passed by a vote of 74 to 13. The organization las been steadily failing in prestige and infla-ence over since the memorable meeting in beard of publication, and although this paper entertains maniful of bitterness over the offset of the 1.  The merrilez meeting was devoted entirely to the delivery of addresses of welcome and responses. President Pharles F. It is hut fair to the Chapmans and all present, to say that many members after-wards were heard to say that the action taken was unnecessarily harsh, hasty and severe.

#### 103 NEW MEMBERS,

The record was reached in the matter of the election of new members. There were 121 applications, of which 18 were rejected and 103 accepted. When the total was an-nonneed it was received with a round of applause.

There was a tendency on the part of a few to combat all idea of a com-mission to solicitors. Another element, and quite a strong one, wanted the commission tixed at 10 per cent. Len. D. Owens was almost alone when he came out flat-footed and determinedly advocated 162-3 per cent. There were speches galore on the sub-ject. Fretty nearly everybody present had something to say either pro or con. Never was a subject so thoroughly threshed out and thrashed out. The discussion was finally brought to a close, however, by a roll-call vote. Sixteen and two-thirds per cent was adopted by 139 ages and 19 nays. Geo, M. Leonard created considerable mer-riment by straddling the issue. He voted yes as representative of Grand Rapids and no as representative of Grand Rapids and no as representative of Grand Rapids and no as nepresentative of Grand Rapids and no as nepresentative of Grand Rapids and no as representative of Muskegon. The election of officers was inspiring and electrofying, if brief. All of the little hooms had either collapsed or been squelched by the candidates themselves. Every one of the old officers were reelected unanimously. R. C. Campbell started the built rolling by nominating Chas. F. Bryan, and he was put through with tumituous acetaim. The same enthusiasin marked the election of each of the others. The ovation to Secretary Chas. Bernard was especially sincere, and as one member said, ''A testi-monial to his ability which he can remem-ber with pride all his He." The instituation of officers was delayed by the absence of Barney Link, and while the generation of near year's meeting place was then up. #### CONVENTION COMMENTS.

CONVENTION COMMENTS. Thos, J. Murphy was very attentive to Mrs. Muivihili. His admiration was so open that it excited much gossip. H. H. Tyner advocated 10 per cent. com-mission to solicitors. O. J. The board of direc-tors, which meets in three months, will have the power to reinstate Mr. Bates, if t desires. Speaking of the action regarding the Chapmans of Cincinnati, the Milwaukee Sentinel says: "In some of the smaller class of citles, members who do not keep up their plants are suspended without much eeremony, but Cincinnati is too large and too important a place for such summary treatment. In the course of the discussion that fol lowed it was charged by Mr. Campbell that the only object Lord & Thomas had in wanting the restriction removed was that they might by cutting newspaper advertis-ing rates for Armour & Co. secure their bill posting contract. This was denied by

Even the Protective Company got a right good spanking and was compelied to show satisfactory reasons for delinquency (which, by the way, it was able to) or congh up. Various mensures to compel prompt pay-ment were considered, but no radical action was takeu. Col. Burr Robhins declares that he wants to self his one remaining holding, the

Their addresses were taken at Armonr's, and some of the finest specimes of "the ham what am" will be shipped to their homes—a compliment to their visit. Returning from the stock yards, they were turned over to and taken in charge by Mrs. Robert C. Campbell, who escorted them to the Art Gallery and from thence to the great mercantile bonse of Marshall Field & Co. Here they were entertained by the manager a bonnie Soot bimself. Mr. Selfridge. They partook of dinner in the spacions dining-room of this establishment. At 7 p.m. they were lined any with forty or more of their American brethren of the trade and representatives of Swift's. banqueters, in addition to the flowers, to decorate the lapels of their coats, The following was the program of the evening: Toasis (Toastinaster, Justice Julius M. Mayer, of New York): "Friends from Over the Sea," Rohert C. Campbell, of Chleago; "Our Foundation and Growth," President Charles F. Bryan, of Cleveland, O.; "The Modern Method," John Lee Mahin, of Chi-cago; "The Briton's Point of View," Jo-seph Briton and Hiram Long, of London, England: "Aufwiedersein," O. J. Gude; short taiks by the reception committee, Sammel Pratt, O. J. Gude of New York, and R. C. Campbell, of Chleago. After the regular numbers on the program were exhausted, many were called upon by the one only, the real article itself, known as Premier Toastmaster, Mr. Mayer, to "spiel" a few sentences, and a stenographic account of these short talks, as well as that which constituted the regular pro-gram, would prove intensely interesting to intelligent readers everywhere, because each speaker. In addition to the sparkling wit, of which there was an abundance, devoted his time to live, up-to-date, pro-gressive, entightening and educational sub-jects.

Every representative of the large mercan-tile drins, to the number of six or seven, his attendance were among those who address-ed the feasters. If there ever was a more intelligent or agreeable party assembled at a banquet in Chicago or anywhere else, this writer, who has attended many hundreds of such func-tions in various places, has no cogilizance of their location. At 3 o'clock on Sunday afternoon the vis-tors and the Eastern American delegates, with their families, took the Michigan Cen-tral Raifroad for Niagara Falls, at which place they will spend all of Monday, thence to the Thonsand Island, thence to Montreal, where they will take the liner for their distant homes. Au revoir and God-speed-so say we all of us. HUGH COYLE.
