THE PAPER TRADE JOURNAL is the recognized organ of the various Paper-Makers' Associations of the United States.

THE JOURNAL contains the latest and fullest information relative to the paper trade in all parts of the world, including descriptions of new appliances and processes for making paper, experiments with new fibres and other materials, a record of the water supply, with the latest manufacturing news in all parts of the country.

Subscription and postage for Great Britain, per annum, \$11. Subscription and postage for France, per annum, 25 francs. Subscription and postage for Germany, per annum, 8 thalers.

Communications on matters of interest to the trade are earnestly solicited from all quarters, and if used will be liberally paid for.

HOWARD LOCKWOOD,

Publisher and Proprietor, No. 74 Duane street, N. Y.

TO CORRESPONDENTS.

As THE PAPER TRADE JOURNAL is the recognized vehicle of communication in matters of trade interest, we will be glad to receive correspondence from all parts of the country.

Who will furnish postal cards, double tint, of the quality selected by the Government, at less than \$1.35% per thousand? Going! going! gentlemen.

It will be seen from the report printed elsewhere that the Postmaster General has declined to receive the bids for the postal card contract, and that he will readvertise for proposals.

We fully believe in Mr. Key's intention to conduct the Post-office Department independently of all rings, and that he may be relied upon to jealously watch the interests of the people; but there is just a little suspicion that in this instance he has been imposed upon.

The charge made by the Washington correspondent of the Tribune seems to us, from what we have learned of the situation, and from a general knowledge of the paper trade in this country, not to be strictly well founded. Indeed, it has the appearance of being put forth in behalf of other interests, which are just as open to the imputation of a ring combination as those alleged.

There is no doubt that Mr. Wilkinson was very sharply alive to his own interests, and that he intended to seek the contract, and sub-contract the printing in preference to taking an order for card-board from printers who were determined, on their side, to limit him in price.

apparently different parties were made at various figures, and in the same interest. In no other way could a ring be formed with a certainty, or even a fair chance, of success. If this view is correct, the absurdity as well as the injustice of the charges made against Messrs. Wilkinson and others is apparent. The bids were not opened, and there is nothing to prove that there was any combination except in the suspicions of rival bidders, some of whom found themselves unable to manufacture goods like those which the Postmaster General had selected for samples.

PAPER STOCK IMPORTS. Table with columns for year (1877, 1876, 1875) and rows for Rags, Papers, and Manilla.

The arrivals from the different ports during March were: London—1,639 bales rags, 6,380 bales waste papers, 2,305 bales manilla stocks; Liverpool—225 bales rags, 143 bales waste papers, 1,013 bales manilla stocks; Hull—826 bales rags, 223 bales waste papers, 52 bales manilla stocks; Glasgow—335 bales rags, 827 bales waste papers, 172 bales manilla stocks; Bremen—286 bales rags, 244 bales waste papers, 53 bales manilla stocks; Antwerp—52 bales rags, 737 bales waste papers; Havre—588 bales rags, 397 bales waste papers; Leghorn—710 bales rags; sundry ports—1,191 bales rags, 1,021 bales waste papers, 369 bales manilla stocks.

Correspondence.

Communications are solicited from everyone who has anything of value or interest to impart. Items of news, trade gossip, and personal information will be gladly received.

Knotty Stock.

Will some paper-maker solve the following? After my machine has run for about two hours, the stock in the chest commences to roll and get knotty. This it does only when I start in the morning with a full chest of stuff.

"Admire the Result." To the Editor of The Journal: "Jack" seems to stick to the old idea that when the paper carries more water on one side of the machine than the other, the fault, if any, is in the machine not being level.

Smart Machine Tenders.

It is a mistaken idea, but one which seems to prevail, that men who are light foot make the best machine tenders. I have seen enough during the last twelve months to convince me that more depends on brains than agility.

P. M. P. U.

To the Editor of The Journal: According to promise I forward (as far as can be ascertained) a statement of the funds and expenditures at the dissolution of the Paper-Makers' Protective Union.

The Postal Card Contract.

Several communications have lately appeared in the Tribune relative to the postal card contract about to be entered into by the Government, in which the writer charges that the house of Wilkinson Bros. & Co., together with certain New England parties, have formed a ring to secure the contract for supplying postal cards for the ensuing four years at a high price.

The facts are these: We were called upon by several printers to make samples of board to be submitted to the authorities. We made several different samples, some of single tint and others of double tint.

opening the bids, our house, with more than fifty others, was represented at Washington, prepared to make a bid for the postal card contract. No tenders were made, the Postmaster General declining to receive any bids, as the letting of the contract was to be indefinitely postponed.

The opposition to the double tint card seemed to come from persons who are not up with the times in the improvement and perfection of paper-making. This opposition now seems to be trying to get the Government to adopt something that will throw out a double tint or a cylinder-machine-made card entirely, and thus to relieve themselves from the competition of manufacturers who possess the best means for manufacturing a good and heavy card-board.

It will thus be seen that we do not object to competition, believing that it is the life of trade. We do, however, object to combinations or rings, for we are not, nor have we been, of them.

Fires.

The store and stock of Arthur Bland, books and stationery, Rockdale, Texas, were damaged by fire on March 22.

The Wyoming paper mill, at East Pike, N. Y., owned by S. S. Hammond, was burned on Sunday morning, March 25. The property was almost wholly destroyed, and the loss is set down at about \$25,000.

The Augustine mills, near Wilmington, Del., belonging to Jessup & Moore, were destroyed by fire on Wednesday, April 4. The flames were discovered at about 4 P. M. in the ventilator over the machine room, and so rapid was the progress of the fire that in less than an hour the whole mill, with the exception of two fire-proof additions, was in ruins.

Foreign Notes.

James Mankey, London manager for Butterworth & Co., paper stock merchants, Ward's Buildings, Deansgate, Manchester, was recently indicted before the Recorder for having embezzled sums amounting in the aggregate to £4,000, received by him for and on account of his employers.

In Memoriam.

On the 11th February, at home (Vesles, Snodland, Kent), after fourteen days' illness, of rheumatic fever, Charles Townsend Hook, eldest son of Anna Maria and the late Samuel Hook, beloved and lamented by all who knew him.

Such is the notice which appeared in the Times briefly announcing the departure of one whose name is well known and deservedly esteemed in the paper trade. As a manufacturer, he was remarkable for his enterprising spirit and talented and successful career, though his unfinished life left much incomplete and undone that he would otherwise doubtless have achieved.

PAPER-MAKING MACHINERY AND Paper Mill Property FOR SALE.

J. N. PADDACK'S IMPROVEMENT

for equalizing the pressure on the Making Roll in the manufacture of Straw, Binders, Leather and Press Boards.

This important improvement can be attached to any machine at a small cost. It is capable of making a thicker, smoother and stronger Board than any other Machine, and entirely does away with crushing, blisters and other imperfections.

Trade Notices.

SPRINGFIELD, OHIO, and NEW YORK CITY, March, 1877.

To the Editor of The Journal:

Our late associates, William Foss and Lamar Foss, having on the first day of January last sold their entire interest to the other members, excepting the notes and accounts, have retired from the firm, which will be continued by the remaining members under the same name. Either member of the old firm is authorized to use the firm's name in settlement.

JAMES LEFFEL & Co.

A WATERPROOFING COMPOSITION.—Dr. Scherzer, an Austrian official at Pekin, has just sent to his Government some specimens of a Chinese composition called "Schioico," which has the property of making wood and other substances watertight. He has seen in Pekin wooden chests which had been to St. Petersburg, and have come back uninjured, and that the Chinese use the composition for covering straw baskets, which are afterwards employed in carrying oil for long distances. Cardboard, when covered with the composition, becomes as hard as wood; and most wooden buildings in Pekin have a coating of it. It consists of three parts of blood deprived of its fibrin, four of lime and a little alum.

hundred bales, at figures ranging from 3 1/4c. to 3 3/4c. We quote the market to-day at 3 1/4c. for ordinary quality, while choicer lots are held at 3 3/4c. to 3 1/2c., cash and time. The latest Calcutta advices indicate a continued firmness and high cost in that market, and light shipments in prospect.

FOREIGN RAGS AND PAPER STOCKS.—There is not much difference in the temper of the market, and we have, consequently, little to add to our late reports. Trade is only moderately active, transactions appear to be unimportant, and, as a rule, of a hand-to-mouth character. In Linen Rags, the bulk of business doing is in medium and low grade goods. In Cottons, low-priced goods are still more looked after than fines. The demand for Waste Papers continues mostly for light stocks, Newspapers and Letters and Shavings. Baggings show a decided decline in demand, and poorer qualities are offering at lower figures. Strictly No. 1 lots sell at figures closely approximating our quotations, but holders are not as strong in their views, although they do not as yet show any marked disposition to recede in prices. Rope is in better supply, and is not more than steady. Our latest London advices quote a pretty steady market there for the leading grades of Rags and Paper Waste, and also for Manila stocks. Orders from America, it is said, have been declined through inability to procure stock. The arrivals for the week are 1,367 bales Rags, 3,681 bales Old Papers, and 1,363 bales Manila Stocks.

DOMESTIC RAGS.—There is quite a noticeable increase in the gatherings, and all grades are in fuller supply. Sales continue to be rather moderate in bulk, and offerings are reported at shaded figures. Sales are noted of 100 bales City Seconds at 2 1/4c.; 15 tons City Whites at 5 1/4c.

WOOLEN RAGS.—The market shows something of the effect of the spring influx. Stocks are larger, and still accumulating, and with only a moderate demand prices are a little softer.

OLD PAPERS.—Trade presents no new features this week. The demand remains in much the same condition as we have noted of late, and sales are sufficiently large to keep down any large surplus of stocks. Prices show very trifling variation, and there does not appear to be any strong pressure towards either advance or decline. Sales are reported of 10 tons Light Stock, at 2 1/2c.; 10 tons Pure Manillas, at 3c.; 15 tons Newspaper Stock, at 3 1/2c.; 100 bales Light Book Stock at 2 1/2c.; 10 tons No. 1 White Shavings at 5 1/4c.; 10 tons News and Letter (English) at 2 1/2c.

BAGGINGS, &c.—The inquiry for Baggings is remarkably quiet in contrast with that of a few weeks since. Manufacturers are holding back, and evince little desire to buy even at concessions from old rates. The offerings of strictly No. 1 Baggings are not over large, and they do not feel the pressure so much as lower qualities. No. 2 is being offered quite freely, and we hear of some round lots being pushed for sale at 2 1/2c. Rope is not looked after much, and with a pretty fair supply in the market the prices are not by any means stiff. We note sales of 15 tons Grass Rope at 3 1/2c.; 10 tons Jute Rope at 3 1/2c.; 18 tons Grass Rope at 3 1/2c.; 10 tons Gunny Sacking at 2 1/2c.; 30 tons Gunny Bagging (Manchester) at 3 1/2c.

STRAW.—The receipts show no important increase, and with a fair demand ruling, prices are firm. The quotations are 70c. to 75c. for Long Rye, 60c. to 65c. for Short Rye, and 55c. to 65c. for Oat.

ROSINS.—The demand continues fair, and prices are generally held steady.

CHEMICALS.—The sales of round lots in this market during the past week show some increase, but the prices realized were shaded somewhat from figures ruling of late. Paper manufacturers are buying rather sparingly, and for small lots prices do not materially vary. Carbonated Soda Ash remains unchanged. Caustic Soda Ash is irregular, both as to movement and prices, and some of the leading brands are in short supply. Caustic Soda is not much looked for. Bleaching Powders are held steadily, and holders of spot lots are firm in their views. Orange Mineral is without variation. Venetian Red has come forward freely, and is in good supply. English China Clay is not in large supply, and prices rule firm. Terra Alba is in full stock, and selling quite freely. Sales are 100 bbls. Lump Alum at 2 1/2c. currency; 50 bbls. Ground Alum, at 2 1/2c. currency; 150 bbls. Porous Alum at 3 1/2c. currency; 50 bbls. Potash Alum at 2 1/2c. currency; 150 cks. Bleach at 2c. currency; 50 drums 60 per cent. Caustic at 4 1/2c. gold; 25 tons Sal Soda at 1.40c. gold; 100 tons Soda Ash at 2 1-16c. gold; 50 cks. English Silesian White at 1 1-16c. to 1 1/2c. currency.

THE COAL TRADE.—There are no changes of an important character to note in connection with Anthracite. The demand continues light, notwithstanding the present prospects for the formation of a new combination, and no trade of consequence is looked for until some plan is devised by which prices will in some manner be regulated. At the present time quotations are very irregular, and buyers are afraid to venture, feeling that perhaps with the dawn of another day lower prices will rule. The committee appointed at the recent meeting of the coal companies met on yesterday, and reported the following agreement, upon which the large companies will act: "That each interest be left free to sell at any price or in any manner it may desire, and that the committee of three be requested to prepare a proper monthly allotment of tonnage based upon an assumed product to competitive points, for the year 1877, of eight millions of tons, and to report a proper plan to provide for adequate security being given to guard against any interests over-shipping its proper quota." The quota of the different mining regions was established as follows: Philadelphia and Reading Railroad Company, 25 1/2 per cent.; Lehigh Valley Railroad Company, 18; Delaware and Hudson Canal Com-

pany, 15 1/2; Delaware, Lackawanna and Western Railroad, 15 1/2; Central Railroad of New Jersey and Lackawanna and Western Coal Company, 15 1/2; Pennsylvania Coal Company, 10.

FOREIGN MARKETS. London Market Report.

Trade during the week was not so brisk as before, as paper manufacturers here complain of slackness. From America some important orders were received, and prices are unaltered. Stocks here are small, so that there is no probability of a fall in prices.

English Chemical Market.

J. Berger Spence & Co. write: "Our market has undergone very slight alteration during the week. The symptoms of improvement, as far as an increasing demand for shipment is concerned, are still visible, and preparations for forwarding goods to the northern European and other ports claim a considerable share of attention, but nothing can be added of a cheering nature. Business is gradually assuming an attitude of most despondent import, not the least significant sign of which is to be found in the desire of manufacturers to book contracts extending over a period, at prices which preclude the possibility of other than the barest profit, and which two months ago they would have passed over as unworthy of a thought—in short, they are losing confidence, and becoming anxious to secure an outlet for their production on as favorable terms as they can command under the circumstances. Certainly, the outlook at present is most dreary, and seems to fully justify this policy; but there is danger of prudence being supplanted by rashness, so that it would be well that a united endeavor were made to hold out a little longer, in the hope of a reaction. Cream caustic soda has been quiet, and quotations are unchanged. White caustic soda maintains its last week's acquired firmness, and enjoys a sufficiently steady inquiry to prevent the rapid accumulations of stocks at work. Seventy per cent. white is in larger request, but makers seem to have no difficulty in supplying all requirements readily. Manufacturers of bleaching powder are more disposed to meet consumers in the matter of price than they were last week, without, however, attracting many of the latter, while the present tendency of prices is decidedly towards weakness. Soda Ash is more favorably circumstanced than most articles, and enjoys a steady trade."

**THE PAPER TRADE JOURNAL**  
 FOR 1877.

"The best paper (devoted to the Trade) in the English Language."  
 -LONDON BOOKSELLER.

The Journal is the ONLY paper devoted to the Paper Trade whose Proprietor has NO CONNECTION with the Business. It is therefore INDEPENDENT, and does not advocate the interests of any HOUSE or CLIQUE in the Trade.

RATES OF SUBSCRIPTION, PER ANNUM.  
 Weekly Edition . . . . . \$4.00  
 Monthly Edition . . . . . 1.50  
 POSTAGE PREPAID.

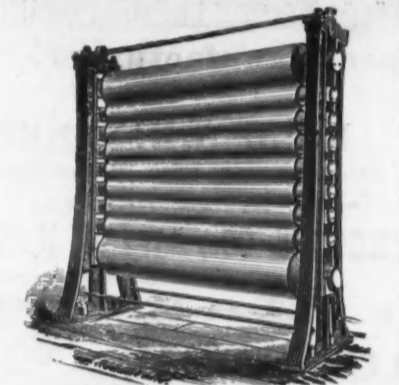

THE JOURNAL is the only representative of the American Paper Trade. It gives early information, with full descriptions of inventions and processes for paper manufacture at home and abroad, account of new fibres and other materials, and records of the operations of paper mills in the United States and Canada. It contains authentic data of the trade in foreign countries, and publishes communications of a practical and scientific character, by able and experienced writers. Its market reviews and quotations show the nature of trade at New York, Boston, Chicago, Cincinnati, Philadelphia, New Orleans, London, Paris, Hambury, Leghorn and Calcutta, and are as accurate and complete as it is possible to make them. Manufacturers and dealers who want to know of the progress of the paper business in this and other countries will find THE JOURNAL indispensable, and every reader will derive benefit from its contents.

Subscription and Postage for Great Britain (Weekly Edition), per annum . . . . . £1  
 Subscription and Postage for France (Weekly Edition), per annum . . . . . 25 francs  
 Subscription and Postage for Germany (Weekly Edition), per annum . . . . . 8 thalers

**CHILLED CALENDER ROLLS**  
 OF SUPERIOR HARDNESS.

THE PATENT "GAVIT MACHINE," FOR GRINDING CHILLED CALENDER ROLLS, enables me to give beyond a doubt a perfect and correctly finished roll, the only ABSOLUTELY CORRECT MECHANICAL PRINCIPLE upon which the Rolls should be ground.

**Gavit's Patent Noiseless One-Armed Pulp Dresser.**  
 This recent invention is one, long sought for by the paper manufacturer, furnishing not only the MOST PERFECT SCREEN, but ridding it entirely of noise. All using them recommend them highly.

**MACHINES FOR TESTING ALL KINDS OF PAPER.**  
**GORTON GAVIT,      A. FURMAN BLAIR,**  
*General Manager.      Proprietor.*

**ECONOMY IN DRYING PAPER ON MACHINES,**  
**HEATING MILLS, DRY ROOMS, &c.**

THE  
**AUTOMATIC BOILER FEEDER**  
 AND  
**RETURN STEAM TRAPS,**  
 Manufactured by the Pratt & Whitney Co., Hartford, Conn.

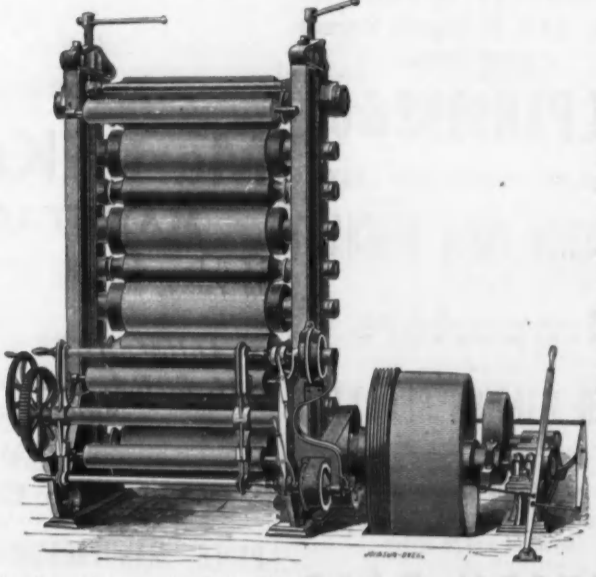

These Machines are in successful use in many PAPER MILLS, returning condensation from Drying Cylinders, Dry Rooms and Circulations. They save all the water and temperature, making loss of Steam by leakage of Valves or opening them wide impossible.  
 In some cases one-third of the fuel used in drying is saved, and WHEREVER they can be used to advantage the saving will pay the expense of Traps and attaching them, from two to four times a year.  
 We invite the attention of Paper-Makers to these Return Traps, as a very desirable addition to their Mills, and especially where they cannot see HOW the Traps are to save anything, we solicit the pleasure of correspondence on the subject.  
 Reference can be given to those who have them in use, and we guarantee them to give satisfaction; if they do not they may be returned to us.  
**PRICES.—No. 1, \$100; No. 2, \$150; No. 3, \$200.**  
 In use in Twenty to Thirty Paper Mills. Full information given on application.

 ALSO SHEET SUPER CALENDERS.

Calenders Furnished in Cheaper Style if Desired.

OUR PATENT REELING APPARATUS  
 Is all upon one side. This effects a saving in labor and a saving in broken paper.

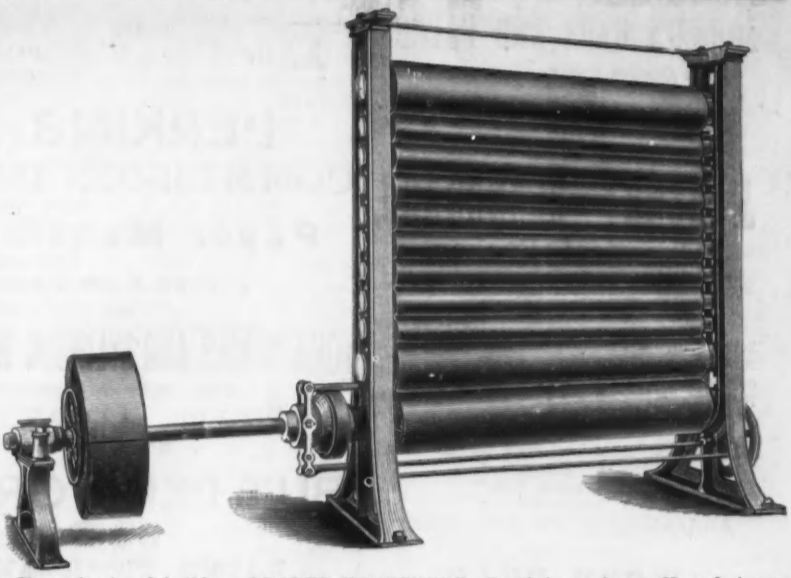

This Machine is complete and substantial in all its parts, with patent reeling apparatus, and patent fast and slow speed arrangement. The Paper Rolls are made of paper prepared specially for the purpose. The speed can be changed from fast to slow, or the reverse, without stopping the machine. The shippers are sent complete with each machine.

Medal and Diploma awarded by U. S. Centennial Commission

"FOR STRENGTH AND BEAUTY OF FINISH."

The undersigned, builders of PAPER MACHINERY, offer their services to Manufacturers of Paper, soliciting orders for all MACHINERY REQUIRED IN PAPER MILLS.  
 Having unsurpassed facilities for producing Machinery in short time, and with patterns and drawings of the best in use, they offer their customers advantages not usually found.  
 Specially they ask attention to their ROTARY BOILERS, the journals of which are turned AFTER the heads have been riveted in, thus insuring parallelism of the bearings, a very important matter.  
 Also to their CHILLED IRON CALENDER ROLLS, which they guarantee to be ABSOLUTELY PERFECT, both as to hardness and excellence of finish. Address
