

ALLEGED BAKING HORRORS IN CITY.

LABOR CONVENTIONS ON THE WARPATH

Resolutions Passed at Today's Session Meeting Again To-morrow

The British Columbia Federation of Labor during their deliberations this forenoon in the Labor hall, went on record as condemning the Salvation Army's scheme for immigration as tantamount to slave trafficking...

Delegate Martin's resolution condemning the Salvation Army's immigration scheme which appears in another column, was the first item of business to-day. Speaking to the resolution he declared that the Salvation Army was a commercial institution...

Delegate Sayers also strongly condemned the Salvation Army for their immigration campaign. While he did not have any objection to the religious part of the play he most strenuously objected to it being used as a mask for their commercial enterprise.

An amendment to the effect that a delegate be appointed to carry out the intentions of the resolution should be sent to England was then put forward.

A negative attitude was taken by the secretary, Delegate Pettipiece. So far as the agent is concerned, he said that such a person was not needed as the unions of the old country were in close touch with those of Canada.

ONE BIRTH TO TEN BLOCKS IN A YEAR

Record of One of New York's Fashionable Highways, Fifth Avenue

New York, March 14.—Examination of the health department reports prove that Elinor Glynn was wrong again when she declared that there had not been a birth on Fifth avenue, New York's highway of fashion, in the last two years.

RESULT OF SPEEDING. Oakland, Cal., March 14.—A warrant is out to-day for the arrest of Jack Johnson for automobile speeding.

INSURGENTS SAY THEY WILL WIN

CLAIM TO HAVE TWELVE THOUSAND IN THE FIELD

Both Sides Appear to Be Gully of Cruelty to Their Prisoners

(Times Leased Wire.) New York, March 14.—With 12,000 insurgents in the field the revolution against the Diaz regime in Mexico is about to be successfully concluded, according to Francisco V. Gomez, confidential agent here of the insurgents.

Mexical Mex., March 14.—Notice that all federal prisoners captured by insurgents hereafter will be shot was served on Mexican Consul Sierra at Calexico to-day by General Simon Berthold, second in command of the rebel forces in lower California.

San Diego, Cal., March 14.—Fight or run will be the alternatives before the band of rebels occupying Tecate, on the Mexican line, either to-night or to-morrow, according to telephoned advices from that point to-day.

San Diego, March 14.—The mystery surrounding the trip of the gunboat Yorktown, which left here Saturday night for the south, was cleared in to-day by information that the vessel was at Ensenada, Mexico, Sunday.

El Paso, Texas, March 14.—Tales of the cruelty of Diaz's soldiers to the rebel wounded continue to arrive at the headquarters here of the insurgents.

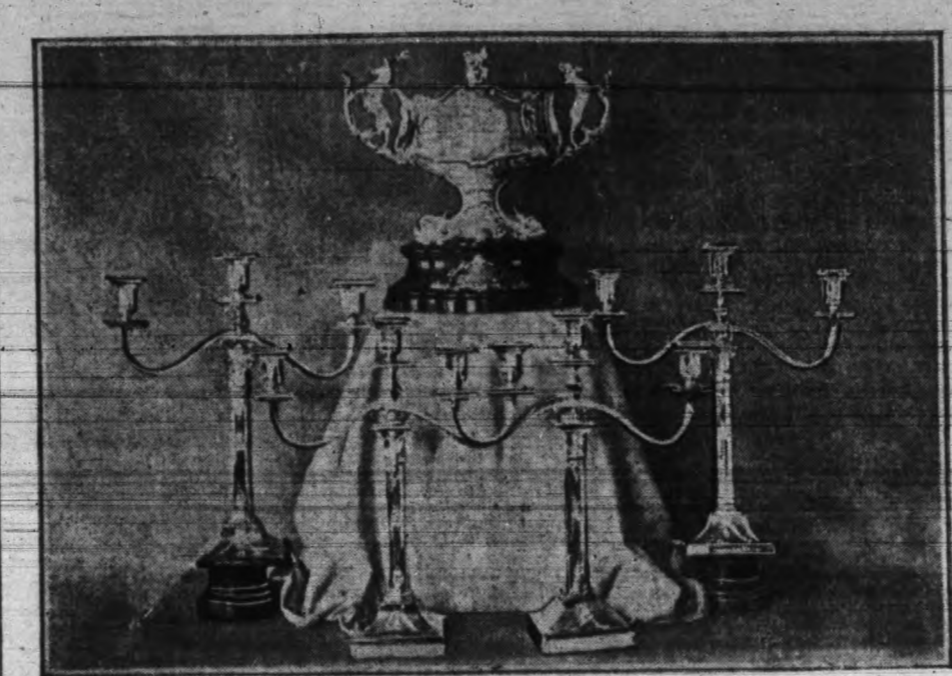

El Paso, Texas, March 14.—Tales of the cruelty of Diaz's soldiers to the rebel wounded continue to arrive at the headquarters here of the insurgents.

San Diego, Cal., March 14.—Telephoning from a San Diego & Arizona railway construction camp, 15 miles east of Tia Juana, Mexico, W. D. Van Blarcom, a San Diego newspaper man, said three companions, who had been missing since Sunday, sent word to-day that they were all safe.

NO ONE WILL BUY.

Edmonton, Alta., March 14.—Although the Dominion Government is willing to sell \$20,000 worth of Great Waterways timber for one-third of that price, \$3,200, amount of dues still unpaid on the timber, no one wants to buy.

CHOLERA AT HONOLULU. Honolulu, March 14.—Another case of cholera made its appearance to-day among those who had been exposed to infection and are in quarantine.

THE SERVICE OF SILVER FOR THE "RAINBOW." The service presented by the Province of British Columbia to the first vessel of the Canadian fleet was formally handed over to Commander Stewart by Lieutenant-Governor Paterson yesterday afternoon.

FORWARD POLICY BY ISLAND MINES

TWO INTERESTING ANNOUNCEMENTS MADE

Western Fuel Company Acquires Bunkers—Canadian Colliers' Big Output

LITIGATION OVER THE SPENCER SITE

Robert J. Williams Claims Ownership of Broad Street Property Worth \$45,000

Paris, March 14.—In reply to a request for an expression of opinion relative to the concentration of American troops in Texas, Porfirio Diaz, president of Mexico, cabled the following message: "The government of the United States has been careful to explain itself concerning the concentration of troops on the frontier of Mexico. There is, as the international press has already pointed out, no cause of disquiet."

Two interesting announcements relative to Vancouver Island's premier industry, coal mining, have just been made—one, to the effect that the Western Fuel Company of Nanaimo, has purchased the bunkers formerly owned by the Pacific Improvement Company at San Francisco, and the other that the Canadian Colliers, Ltd., (Mackenzie & Mann) increased its output in a period of six months' operations 10 per cent. over a similar period's operations by the old company (R. Dunsmuir & Sons).

Claming that he is still the owner of part of the David Spencer, Ltd., store site on Broad street, the assessed value being in 1910 \$45,100, Robert J. Williams has brought a Supreme court action for recovery, the hearing of which was commenced before Mr. Justice Morrison this morning, with the Sun Life Insurance Company and David Spencer, Ltd., as the defendants.

"The progress now reported is attributable to the more effective management which has been instituted. It is also found that the power plants of the present mines, particularly at Comox, can be permanently improved by the utilization of the Puntledge river, adjacent to the Comox mines, to the extent of a possible development of 25,000 horse-power, which is more than double the anticipated needs of the company for years at least, while the immediate requirements is 5,500 horse-power. This can be secured at a capital cost not to exceed \$60 per horse-power, and the maximum \$65 per horse-power. It is estimated that steam plant would cost nearly, if not quite, as much per horse-power to install, and more than four times as much annually to run.

JAP-MEXICAN PACT RUMORED

LONDON STORY TOKIO SAYS IS RIDICULOUS

A Report From Manzanillo Tells of Efforts to Secure a Coaling Station

(Times Leased Wire.) London, March 14.—Declaring that the information is based on the most authoritative sources, that Japanese friendship with Mexico is the real cause of American army manoeuvres, an American correspondent sends the following dispatch, which was printed in the Standard to-day:

"Mexican intimacy with Japan is increasing to such an extent as to threaten America with the possibility of a flank attack in the event of war for the mastery of the Pacific. That is the real reason for the massing of the American army in Texas and California."

"The demonstration is a warning to Mexico and an intimation to Japan that the United States would not tolerate the establishment of a pro-Japanese-Mexican government. America is fully determined to go to any extreme to end the danger of the Japanese using Mexico as a naval base for future operations against America. The situation could not be more serious."

"This information comes from a source the authenticity of which is unquestioned. There has been developing a strong anti-American feeling among certain leading Mexicans, causing them to foster the most cordial feeling for Japan, which the Japanese have encouraged."

"There are thousands of Japanese residents in Mexico—some say 100,000. All would accept unhesitatingly military orders from Tokio, and there has been unearthed lately unmistakable evidence that eminent Mexicans, gradually obtaining positions where they can dictate Mexico's foreign policy, have become colder in their willingness to ally themselves with Japan."

"Some have even carried their pro-Japanese proclivities to the extent of expressing a willingness to give Japan a naval base on the Mexican coast. The Japanese diplomats would not accept openly such a concession, knowing that to complete a violation of the Monroe doctrine would lead to immediate war with the United States."

"Diaz himself is friendly to the United States. He does not favor the development of the Japanese sentiment, but he is unable to control the situation."

"The military preparations of the United States are more extensive than is generally known. Preliminary negotiations have been made to concentrate the whole fighting strength against Mexico, should future developments make such a course necessary."

"Calls it Ridiculous. Tokio, March 14.—Adopting an attitude of puzzled surprise over what they term the "wild American news" regarding Japan's alleged secret connection with the Mexican complications, the Mexican officials to-day designated the stories that Japan had formed an alliance with Mexico as ridiculous.

BIG STEEL PLANT FOR PROVINCE

IMPORTANT NEWS COMES FROM TORONTO

Syndicate With Capital of \$10,000,000 to Operate Near Westminster

An announcement of very great importance to the people of British Columbia and of especial interest to Vancouver, and surrounding area, was made by the Toronto Globe in its issue of March 4, as follows:

"A charter has just been granted by the Ottawa Government incorporating the British Columbia Steel Corporation, with a capital of \$10,000,000. The plant will be erected on the Fraser river, near New Westminster, British Columbia."

"This was the announcement of Mr. A. P. Gibbs, who is staying at the King Edward hotel. In speaking of the proposed big plant, Mr. Gibbs said that French, Belgian, Holland, and American capital was interested in the undertaking."

"The plant will turn out structural steel, rails, and other articles from its merchant bar, rail and tube mills. Its capacity from seven furnaces will be 350 tons a day. Five thousand men will be employed."

"Mr. Gibbs said that \$16 to \$22 a ton had been paid for the delivery of rails from Pittsburgh to the Pacific coast. "It does not appear as if reciprocity will injure this industry," remarked Hon. G. P. Graham when informed of it last night."

"Repeatedly, from time to time, there have been announcements of alleged intentions on the part of powerful syndicates to establish steel works in this province, but the above statement from so reliable a source as the Toronto Globe bears all the earmarks of genuineness."

"It will be recalled that energetic attempts to form a company to inaugurate a steel and iron industry on Vancouver Island were made a couple of years ago by James A. Moore, the well-known Seattle capitalist. On the last occasion that he visited Victoria, he was interviewed by the Times and announced that his plans were progressing satisfactorily. Since that date nothing more has been heard of Mr. Moore's enterprise."

"Sir Donald Mann, interviewed by the Times about a year ago, expressed the opinion that it was entirely feasible to establish a steel and iron works on Vancouver Island. He said that the island possessed all the raw material and that the day was not far distant when a home market for the output would render the establishment of such works imperative."

**Seltzogenes**  
For Hot Weather Drinks

**GUNNER ALLEN GETS A FURTHER REPRIEVE**  
Stay of Execution is Granted Till April 5 by Mr. Justice Gregory

Gunner Thomas Allen, lying in the condemned cell at the 1145th avenue jail for the murder of Captain Peter Elliston, and contemplating the supposed fact that he had less than two days more on earth, was a surprised man when told early this afternoon that he will not be hanged on Thursday morning as arranged in accordance with the instructions of the secretary of state as communicated to him by Sheriff Richards on Saturday evening last.

Allen was this morning granted a further reprieve until April 5th, by Mr. Justice Gregory, before whom C. F. Davie, solicitor for the condemned man, appeared and made application on the ground that the Supreme court of Canada had not yet heard the appeal from the B. C. Court of Appeal. Mr. Davie presented an affidavit containing information received by wire from the Canadian Supreme court registrar, setting out the present position of the appeal and stating that if properly presented it will be heard.

The reprieve having been ordered and the order signed by Mr. Justice Gregory, notice was immediately served on the sheriff, who is thereby restrained from hanging Allen on Thursday morning. The news was then conveyed to the prisoner, who thanked his messenger calmly.

Referring to the matter this morning, Mr. Davie remarked upon the impropriety of Allen having been told on Saturday night that his execution was fixed, without the official who made the communication to the condemned man first intimating the contents of his message from the secretary of state to the prisoner's solicitor. Had this been done, said Mr. Davie, Allen would have saved the ordeal he has unnecessarily undergone in the last few days.

The appeal book and papers asked for by the registrar of the Supreme court of Canada, are being sent to Ottawa at once by Mr. Davie, who hopes the court will then assign counsel for Allen. The appeal book will reach the east in about five days, and two weeks will then intervene for the preparation and hearing by the Supreme court. Should the time be insufficient Mr. Davie will obtain another reprieve.

### PREDICTS REIGN OF MURDER IN MEXICO

#### Political Refugee Declares Prisoners Now in Jail Will Be Summarily Executed

Washington, D. C., March 14.—"Wholesale murder, unrestricted shooting and killing with anarchistic riot will be the portion of Mexico under martial law," said Juan Azonca, political refugee in a public statement. "The establishment of martial law in Mexico means these three things. The revolutionists will continue to make war, but it will be civilized warfare and not outrageous barbarism. "The reign of murder will be started with the slaughter of 9,500 political prisoners confined in Mexican jails. They will be lined up against walls and shot. It may sound paradoxical, but the revolutionists will be glad if this proves true. The prisoners know they must die and being shot saves them from lingering death through starvation and disease. The wholesale slaughter of political prisoners would bring thousands of recruits to the revolutionary cause."

Mexican Minister's Statement.  
New York, March 14.—In a statement yesterday in which he carefully quoted the word "manoeuvre" wherever it occurred, Joseph Yves Limantour, Mexican minister of finance, declared that Mexico has done nothing to warrant the doubling of the American force on the frontier. "I have no official information that the United States has decided to send 20,000 additional troops to the frontier," said Limantour. "It may be true, but there has been no development in my country warranting the doubling of the force the American government originally intended to mobilize in the southwest for military manoeuvres."

"Of course, your government has the right to send as many troops as it pleases, but not even 20,000 men are needed to stop the insurgents from smuggling arms and ammunition across the border. There should be no sensational deductions from the San Antonio reports that two detachments are to be sent to points actually on the border. Maybe they are going to stop the smuggling. "If the troops were distributed along the border it would by no means follow that a conflict is about to occur between the federal armies of Mexico and the United States. To effectively stop smuggling it by no means becomes necessary for American troops to cross the border, and if not it is logical to infer that they will invade the frontier simply because detachments are being sent actually to the border."

Senor Limantour stated most emphatically that under no circumstances would he meet members of the revolution Junta who were hurrying hither. He said he could not treat with them, but that if they desire peace it would be necessary for them to first see that all rebels laid down their arms and then throw themselves upon the mercy of the Diaz government.

Rebels Seize Train.  
Calxico, Cal., March 14.—A train of ten cars on the inter-California line at Packard was seized by a band of rebels from Mexicali yesterday and preparations to throw a large force toward Yuma were made. It was understood that a courier had reported that Algodoles was about to be captured by federal forces. A mass meeting of all the rebels in this section was held to settle the standing of various officers and to definitely decide on a plan of campaign.

### THINKING THEMES

BY DR. FRANK CRANE.

In all motion, as Herbert Spencer shows in a singularly beautiful chapter of his First Principles, there is rhythm. The wind comes in gusts, waves move in swells, the seasons rotate, night and day alternate, the lungs expand and contract, the blood circulates in beats, we wake and sleep, and so on. It is the same with life's more intangible forces. Passion rises and falls, reforms advance in periods, fashions come and go and business teeters from prosperity to panic. It would save us a great deal of alarm if we bore this in mind. The matter with many a wife is that she needs a vacation, not with her husband, but from him. Many a friend is lost by seeing too much of him. More than one bride has spoiled her honeymoon because she would not allow the groom to get out of her sight long enough for him to realize how happy he was. The deepest want of the human creature is something else. The man will chop more wood if he stops once in a while to spit on his hands. "Keeping everlastingly at it brings success"—also perishes. It does not pay even to be very, very good all the time. There was a saint, whose name is on the calendar, who said, "I went away from God that I might find him."

### PROPOSES PLANS FOR AUSTRALIAN NAVY

#### Fleet of Fifty-Two Vessels is Recommended by Admiral Henderson

Melbourne, March 14.—Rear-Admiral Henderson, who at the request of the Commonwealth government was sent out by the Admiralty to inquire into the condition of the naval defences of the country, has made his report to the cabinet, which has just been published. Rear-Admiral Henderson has made some remarkable statements. He maintains that Australia cannot afford to keep up a navy commensurate with the length of its coastline, consequently the Commonwealth must co-operate with the British authorities on a population basis. At present an outlay of £4,000,000 is invested in the work of policing the South Pacific. He recommends for Australia a fleet of 52 warships, including eight armored and 16 protected cruisers, as well as 18 destroyers and 12 submarines, the whole to be manned by 16,000 officers and men. The cost of the construction programme is to be spread over 22 years, and will amount to the sum of £52,000,000. To this is to be added a charge of a quarter of a million sterling per annum for depreciation, so that the final figure to be taken into consideration by the government is £73,000,000. This refers to the fleet alone. In addition there is £15,000,000 required for the adequate defence of the harbours, which are numerous and open to attack. In carrying out the programme 23 ships would be ready in 1915 and 48 in 1923. The principal naval bases under Rear-Admiral Henderson's scheme would be Sydney, Brisbane, Westernport, Port Stephens, Freemantle and Port Lincoln. The fleet would be divided into the eastern and western divisions, under the command of rear-admirals, the personnel to be drawn as far as possible from Australia and the training of officers to be carried out at a naval college at Sydney. Thirteen high power wireless stations are to be established around the coasts. For obtaining the best results from the defensive power of the fleet it is suggested that the land forces be re-organized as far as possible. To say that this ambitious programme has come as a surprise to the politicians at the head of affairs is to put it in mild language.

### DEMANDS JAIL FOR THE BATH TUB MEN

#### Imprisonment for Trust Defendants If They Are Convicted

Washington, March 14.—The government will move for the criminal trial of thirty-four individuals and four corporations which are defendants in the "bath tub trust" cases, the first week in April. The statement is authoritatively made at the department that all the defendants will be called to answer the indictments without immunity of any sort or degree having been granted to any. Attorney-General Wickensham has several times avowed that he would press for jail sentences in the event of conviction, and twice refused to compromise on pleas of guilty and fines only. The date of the trial was decided after negotiating with the defendants' attorneys. The courts have overruled all pleas of immunity and demurrers which had been raised. Intimations have been received that the so-called electrical trust, said to be part of "electrical trust" against which the government recently filed a case, are breaking up. With the exception of the incandescent bulb section of the business, against which the department of justice filed the anti-trust suit at Cleveland, all the others, it is said, have conveyed the intimation that they are willing to stop the practice to which the government objects. While the lamp case will be more or less in the nature of a friendly suit, both the government and the companies are anxious to have the courts decide the features of the Plant law in dispute.

### STATE FARM FOR TRAMPS

Albany, N. Y., March 14.—Among the recommendations in the annual report of the state board of charities is the establishment of a state farm for tramps where they might be made self-supporting. They now cost the state about \$2,000,000 yearly.

London, March 14.—Unusually large sums of money are being offered here for short leases on fashionable homes in the West End by wealthy Americans for the coronation period, according to realty men to-day. One Liberal peer is reported to have refused an offer of \$50,000 from an American who wished to have the property for six weeks. Another American is said to have offered \$90,000 for a "three months" lease on a residence in a fashionable quarter, but the owner declared that he would be able to rent it for \$100,000, and refused the proposition. It is said that John Hays Hammond, special ambassador of the United States to the coronation, will pay \$10,000 a week for the Burdett-Coutts mansion.

**U. S. GOVERNMENT LOSES CASE.**  
Washington, D. C., March 14.—The government lost its case against the Santa Fe railroad for alleged violation of the hours of service law in a decision by the Supreme court of the United States yesterday. The government claimed that the railroad worked its train dispatchers from 6.30 am. to noon and from 3 p.m. to 6.30 in alleged violation of the law prohibiting continuous employment for more than nine hours, contending that while the actual time of employment was only 9 hours, the men worked for a period of more than 12 hours. The court held that this claim was untenable.

**TWENTY MILLIONS INVOLVED.**  
Boston, March 14.—To promote the making of a railway and steamship terminal point of South Boston, plus involving an outlay of \$20,000,000 were announced yesterday. The specifications call for the erection within a year of eleven warehouses and factory buildings, a 5,000 horse-power electric plant and terminal docks 1,500 feet in length.

Notice to Advertisers

Owing to the rapidly increasing circulation of the Times and the growing demands for space, it has become absolutely necessary to place a limit upon the time at which changes for advertisements will be accepted.

SIR EDWARD GREY'S SPEECH.

By his speech in the British House of Commons yesterday Sir Edward Grey, Secretary of State for Foreign Affairs, has raised himself above the level of ordinary statesmen.

THE BRITISH CONSTITUTION.

The British Constitution is the most elastic in the world. There is no country where a change in the form of government can be as easily made as in Great Britain.

of the House of Commons to insure its being done. The majority had to be given twice, and the last time it had to be decided upon the constitutional question, but a majority of the members was all that was necessary.

There is no other country in the world where a change in the constitution could be brought about with as much ease. In the United States it is necessary to secure the support of two-thirds of the senators and two-thirds of the membership of the Houses of Representatives in order to effect an amendment to the constitution.

Because the King never opposes the will of Parliament, it must not be supposed that he is a useless ornament. Take the present crisis as an example. While there is no authentic information given out, it is a practical certainty that the King brought on the last election. An election was held at the beginning of last year, and the Liberals were returned with a good working majority.

Many people will think it almost childish iteration to repeat this, but there are still many people who do not understand how the Empire is ruled. As the Imperial Parliament is the highest court in the realm, a clear understanding of its powers is necessary in discussing any matter of government.

PRICES OF FRUIT LANDS.

Fruit lands in the United States are worth more than those in Canada. Why? The lands are not more fertile. The crops they bear are not larger. Wherever British Columbia fruit has come into competition with that from the state of Washington it has been given the preference.

The only business in this province that appears to fear United States competition is the fruit business, and yet we find the fruit growers on the other side of the line more prosperous than on this side.

day are beyond the reach of poor men. There will be greater prosperity all round, even as there was in Eastern Canada during the time when the reciprocity treaty of former years was in force.

Householders and license-holders who wish to vote on the coming civic election must register either to-day or to-morrow. It will be useless to growl after the election is over about the action of the people in the choice they make.

Much interest is being taken in the annual meeting of the Vancouver Island and Development League, which will be held to-morrow. Doubtless there will be a large attendance, for the work of the League is of great importance to the whole island, and especially to this city.

Canada has for years been supplying the American market with prominent writers, and there seems no good reason why we cannot do the same with food and other natural products.

W. L. Griffith, secretary to the High Commissioner of Canada, presiding at a Canadian Club dinner in London a short time ago, said fears for Canada were as baseless as the fabric of a dream.

The death of L. G. McQuade removes one of the pioneer merchants of this city. Mr. McQuade retired from active participation in business affairs several years ago, but was still looked upon as a member of the mercantile community.

A bill has been introduced into the British House of Commons for the purpose of preventing the importation of the plumage of wild birds into that country. In introducing the bill Mr. Alden stated that the plumage of 297,000 ostriches was imported last year.

Rev. George Jackson, the famous Torontonain who dares to speak the truth in regard to matters of belief, has accepted an invitation to give a number of addresses in Vancouver at the time of the Methodist Conference in May next.

The current number of the Canadian Courier has an article descriptive of the elk of Vancouver Island, their habits and their haunts, by Bonny-castle Dale. According to Mr. Dale's estimate there still remain nearly two thousand elk on this island.

PERSONAL.

R. L. Drury left this afternoon on a flying visit to Vancouver.

Mrs. J. H. Scott, of 1147 Fort street, will not receive on Thursday of this week.

Robert W. Service, the well known poet-author of the Yukon, has decided to locate in New York permanently.

It has been announced that Miss Marguerite Little, of this city, is engaged to be married to Mr. Despard Twigg. Miss Little is the daughter of Mr. and Mrs. Frank D. Little of Rockland avenue.

Joseph Taylor, of the Mount Tolmie post office, has returned from an extended trip to the Old Country. While in England he visited his old home in Shuttlewood. He travelled via the Grand Trunk railway system and the White Star line.

THE DALLAS ROAD SEA WALL.

To the Editor:—This project, to the initiation of which I think I may fairly lay claim, seems to be coming in for its share of the usual amount of criticism levelled against public works of any description.

In the first place, I know that this matter will give the most careful consideration by the engineers of the public works department of the province. They had the matter under consideration for some months; they had before them the very best and latest expert opinions on all classes of sea walls.

As regards the contract with the Pacific Coast Construction Company, this is upon the unit basis, which, I think, is admitted to be the one best adapted for works of this nature.

Washington Senator Wants an Investigation of Reason for Mobilization. (Times Leased Wire.) St. Paul, Minn., March 14.—That congress will investigate the action of President Taft in mobilizing American troops on the Texas frontier, was the statement made here to-day by Senator Miles Pollock, of Washington, who criticized the move as one without precedent.

Terrorizing Young Folks in Spokane. (Times Leased Wire.) Spokane, March 14.—Another "Jack the Sparker" is at large. With Charles or John Brown, confessed assailant of seven small boys in jail, another man is terrorizing the residence districts by whipping young boys and attempting to entice girls to his hut on Hangman creek.

Seeking Sunken Treasure. Effort to Raise Wreck of the Lutine, an English Boat Lost in 1799. The Amsterdam correspondent of the Antwerp Matin contributes to that journal some curious details which he claims to have derived from a trustworthy source concerning the salvage of the Lutine.

Driven From Their Homes. Toronto, March 14.—Thirty-six people were driven from their homes by flames this morning when a fire broke out from the kitchen of Wm. Cox's home, 112 King street west, and spread with such rapidity that the inmates were given no opportunity to do more than grab up a very few of their scanty clothes and run for the street.

Died Suddenly. (Special to the Times.) Kingston, Ont., March 14.—Mrs. Francis Ransom, aged 51, died here early this morning. She was a daughter of Rev. Archdeacon McMorine of this city and well-known. She leaves four children.

Gould Holds Control. St. Louis, Mo., March 14.—Geo. J. Gould will retain control of the Missouri Pacific railway, although the slate of directors announced in February by Gould, Rockefeller and Kuhn, Leob & Co., was broken in four places at the directors' election to-day.

—Building permits have been issued to Mrs. Alexander Hendry for a dwelling to be erected on Gladstone avenue, to cost \$3,000, and to S. A. Stoddard for a dwelling on Fell street, to cost \$1,400.

—The South Saanich municipal council has awarded the contract for the construction of the new municipal building to be erected on a site near Royal Oak to C. H. Merkley, for a figure in the neighborhood of \$4,350. The work of erecting the building will be commenced immediately, J. C. M. Keith is the architect.

—H. O. Alexander, of Vancouver, was appointed at yesterday's meeting of the provincial executive to the position created at the last session of the legislature of official guardian and administrator of children's estates. Mr. Alexander has for some time past acted as stipendiary magistrate and judge of the small debts court at Vancouver.

—A meeting of the Henry George Association will be held in the Unitarian hall, old post office building, Government street, to-morrow evening, when an address on "New Zealand" will be given by T. M. Brayshaw, a very well known resident of this city who is fully qualified to speak on conditions prevailing there, having resided in New Zealand for a number of years. Special reference will be made to social conditions prevailing in that country, and all interested are cordially invited to attend.

A GOOD IDEA IN HAIR TREATMENT

The trouble with most women's hair is that they won't take the time to give it proper treatment. If you want your hair to have that look of lustre and vitality, you must take care of it. You cannot expect to have splendid hair if you simply run a comb through it in the morning—give it a dab on the outer edge, with a brush—throw it into a braid—switch it around the head—jab in a few hair pins—and let it go at that.

Hair is like any other growing thing—it needs attention—it needs care—it needs thorough grooming regularly—not only the hair but the scalp.

If you have the time and patience you won't need any hair tonic—but most women haven't. The next best thing is Nyal's Hairstone. It is the best thing offered to take the place of hours of combing and brushing. It tones up the roots, brightens the color, improves the texture, and makes it stay gracefully where it is put.

Hairstone literally revitalizes the neglected hair. Your Nyal Druggist cheerfully recommends Hairstone because he knows. In artistic bottles, \$1 and 50c.

Sold and guaranteed by D. E. Campbell, John Cochrane, Dean & Hicks, F. W. Fawcett, Messrs. HALL & Co., W. Jackson & Co., F. J. Williams, Victoria.

MORE TROUBLE IN NUMBER 5 COMPANY

Work Point Detachment With Unenviable Record Now in for Court-Martial

Number 5 company, C. G. R. A., stationed at Work Point barracks, which has been in the public gaze because of the murder of Capt. Peter Elliston, the murder of Gr. Bowlan and the suicide of Gr. Ratcliffe, is not yet through with trouble. This morning a court-martial opened, when Gunner Evans of the company will be tried for making a false charge against Sergt-Major Farley.

The matter is considerably complicated and has been before the D. O. C. already. It is on the finding of the commanding officer that the court-martial takes place. The officer of the company will be tried for making a false charge against Sergt-Major Farley. The officer of the company will be tried for making a false charge against Sergt-Major Farley. The officer of the company will be tried for making a false charge against Sergt-Major Farley.

—The evening of St. Patrick's Day is to be celebrated by a concert and lecture in Institute hall under the auspices of the Knights of Columbus. Rev. Dr. O'Boyle, O. M. T., New Westminster, is the speaker and the musical programme will include talent new to Victoria audiences. In addition to several favorites of the concert hall, the full programme will be published later.

—The Anti-Tuberculosis Society will hold their annual rummage sale on the 7th and 8th of April in the Institute hall, View street. Householders and storekeepers are earnestly requested to keep cast-off clothing, furniture, crockery, millinery, old music, books, magazines, boots and shoes, ornaments, and, in short, any articles that they can spare, which will be most gladly received.

—Having heard evidence that the elevator shaft gates were in good working order, and that deceased, Chong Gin, must have opened the gates to gain access to the shaft, a coroner's jury yesterday afternoon found that the elderly Chinese came to his death accidentally. Chong Gin fell down the elevator shaft of the Simon Leiser Co. building Friday afternoon, and died soon after removal to the hospital from a fractured skull. He was a shoe maker and had been in Victoria 27 years.

—The Victoria Cymrodorion Society will hold its next meeting on Thursday, March 9, at 8 o'clock in the Sir William Wallace hall, Broad street, when a large attendance is requested of members and friends. Officers will be elected for the present year, followed by an excellent Welsh programme which has been arranged by Mrs. Jenkins, and special arrangements have been made for refreshments. Members please note donations are not needed as heretofore. This meeting should be a good starter for the coming year. The society extend a hearty invitation to all Welsh residents and friends to attend.

—A meeting of St. Andrew's Society was held in Sir William Wallace hall last night. Several important matters were discussed and the programme for the summer season outlined. The next monthly concert and dance promoted by the society, will be held on Tuesday, 21st inst. This will be the last of the season, and every effort is being put forth to make it a success. Business having been transacted, the members enjoyed a pleasant social time. Coffee, cake and cigars were served and a programme of songs, recitations and instrumental selections was submitted. The next regular meeting of the society will take place on Monday, 27th inst., when Dr. Donald has kindly consented to give a lecture on some popular subject to be announced later.

LEAGUE BOOKLET IS MERITORIOUS

FINE PUBLICATION TO ADVERTISE CITY

"Victoria—The Naples of the North" Issued To-day by Development League

In the past decade Victoria has become one of the most widely advertised cities of the Dominion, one might, without fear of exaggerating, say of the whole Empire. Visitors who have fallen under the enchantment of her physical beauty, her climatical and social charms, have spread her name and fame with tongue and pen throughout the world. More recently her standing as an industrial and commercial city has received much attention in the overseas press. This gratuitous publicity has from time to time been supplemented by publications issued by the Development League, and later by the local branch of the Vancouver Island Development League, but never before has such a distinctive booklet dealing with the manifold attractions of the most western city of the Last West been circulated in the brightly written and highly artistic publication, "Victoria—The Naples of the North," which was issued by the league to-day.

By keeping with the sub-title, the cover booklet is embellished with a trio of three-color decorations depicting local scenes, which lose nothing by comparison with the Naples of the inland sea. A glimpse of Victoria's harbor, showing the Princess Victoria abreast of Laurel Point, the Empress hotel, parliament buildings, post office and G. T. P. wharves in the background and a faint outline of the loftiest peaks of the Olympic mountains between the masts and funnels of the steamer in the foreground, occupies the centre of the front cover. Above and below are smaller panels, the upper one a panorama of the Strait of Juan de Fuca, revealing the mountain bulwarks of Washington masked in deep snow, and the lower one a faithful reproduction of the luxuriant yellow broom of Beacon Hill. These decorations are reduced facsimiles of very creditable water color paintings especially made for the booklet by H. Eldridge. The back cover of the book is devoted to an excellent map of Vancouver Island, showing the branches of the Development League, the location of known mineral deposits and transportation services in operation and projected.

In writing and illustrating the text Ernest McGaffey, the zealous secretary of the league, has accomplished a task of no mean magnitude in a most satisfactory manner. In terse English he has set down the story of modern Victoria, covering every phase of his subject in a painstaking fashion, so that a perusal of the thing-odd chapters into which the reading matter is divided reveals a veritable treasure trove of accurate information conveyed in language which is as interesting as it is conservative. A feature of the booklet's arrangement is the grouping of the illustrations, of which there are over fifty, in a separate supplement, which repeats the story of Victoria pictorially and substantiates the text. The illustrations are all half-tones and represent the highest standard of the photographic and engraving arts.

On the inside pages of the cover appear two short poems which to many will be the chief charm of a booklet possessing so many literary qualities seldom found in similar publicity publications. The first and longer, of these is entitled "The Broom on Beacon Hill," and the four verses it contains are rich in happy rhymes which paint the transient glories of "the yellow waves of blossom" which riot "in aureate splendor" upon the slopes of the hill during the summer months. The last verse, which is here quoted, is indicative of the poem's lyrical excellence:

"Beside the firs the shadows creep,  
The coast-line paler turns,  
A lone star o'er the brooding deep  
In God's far heaven burns,  
A twilight hush is on the world,  
The very birds are still,  
While waits in sunset glory furied  
The Broom on Beacon Hill."

The other poem is entitled "Victoria," and is so expressive in its language, and so evocative of the city, that it ranks as one of the finest tributes which have yet been paid in verse to this city. The last two of its four verses are as follows:

"She waits beside her sunny sands,  
Her heights and orchard trees,  
The furthest-flung by western lands,  
A city of the seas.

"And far along the world's wide ways  
Her heralds journey forth,  
To spread her fame adown the days,  
The Naples of the North."

While the two poems are unsigned the identity of the author who, with becoming modesty, withholds his name, is no mystery to one who is familiar with the half-dozen volumes of verse which have given Ernest McGaffey a leading place among the lyric poets of this continent. The booklet is printed upon good paper and is representative of the best work on the part of photographer, engraver and printer, much credit being due to the Acme Press for the excellence of the typographical work. The ten thousand copies which are now being distributed will constitute not only an unprecedented advertisement of Victoria, but, incidentally, an advertisement of the progressive policy which has brought results of unlooked-for proportions.

The Business Locators are a firm opening out at 707 1/2, Room 1, Yates St. The members are W. G. McLaren, J. W. Taylor. Mr. McLaren has been in the mercantile line in Manitoba 22 years and Mr. Taylor has been in the real estate business for the past few years. This firm intends to make specialty of selling all kinds of businesses, and in order to secure buyers they purpose to advertise in the leading centres in the Dominion, as well as in the Province.

At the meeting of the Victoria Bar Association held on Monday, Messrs. E. V. Bodwell, K. C.; Arthur D. Cressie, R. T. Elliott, K. C., and William C. Morsey, were chosen to represent the above association at the forthcoming election of benchers.

Pure Food Demonstration

At the Big Pure Food Market

We have three special displays and demonstrations on here this week and we would like all the housewives in Victoria to visit us while these displays are on. Be sure and come in and try a cup of the newest Cocoa of Fry's. Miss Nippett, the demonstrator will tell you that it is as nutritious as it is delicious. The simplest of all Cocosas to make, too. Don't miss this.

The Pure Gold Goods

Have a most artistic display. Mrs. Hine takes great delight in showing visitors what beautiful table effects may be obtained with these fine Jelly Powders, Quick Desserts, Salad Dressings, etc. If you are considering a Children's Easter Party this demonstration will give you many pretty and economical ideas. The Pure Gold goods are what their name implies—absolutely pure—so they're just the thing for the kiddies.

The Name E. D. Smith

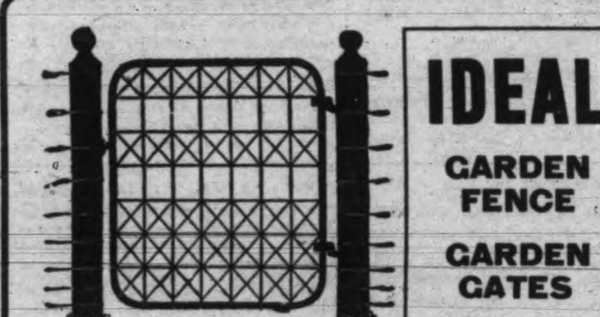

As applied to Jams, Jellies and Catsups, etc., is now a synonym to "home-made purity." Mrs. Lowe has a pretty and effective booth and no doubt you will enjoy a little chat with her about these splendid goods, preserves and catsups that are known from Victoria to Halifax as the very best procurable. Come in and talk to the demonstrator and ever after, we feel sure, your order will be for "Edie Smith's" goods.

# NEWS OF SPORT

## WARD PLAYERS ARE RESTORED TO FAVOR

### Amateur Union Annuls Action of League Officials—Seven Men Are Exonerated

Rather to the surprise of several of the members of the amateur league Association, who are also delegates to the B. C. A. U., the local branch of the amateur union did not suspend the North Ward team, which played in Duncan a week ago Saturday. It allowed seven of the members of the team to retain their standing as amateurs and to continue playing in the series.

It was, of course, conclusively proved that MacDonald and Dakers had played in the professional league, but no proof was produced showing that the rest of the team were aware of this fact. On the contrary, a statement, signed by seven of the players, was read, saying that the undersigned had no suspicion whatever that MacDonald and Dakers were professionals and consequently they had broken the laws of the amateur union unknowingly. On the strength of this testimonial the union exonerated the seven players in question. Frank Sweeney, Fred Brown, J. Baker, A. MacGregor, V. Hodgson and Tunnicliffe, from all blame. The other two men, Mull and MacMillroy, who had, owing to absence, been unable to sign the petition, will on application be able to obtain the same clemency.

J. B. Allan, who refereed the game, attended the meeting and stated that he was not aware there were any professionals on either of the teams. He absolutely denied the rumor that he had warned the Duncan team against MacDonald and Dakers.

A. Manson, delegate for the Foresters, made a motion that the North Ward club be censured for the disregard with which they had been treating the union, but on being told by D. Campbell, the North Ward representative, that the club had no voice in matters pertaining to the team, he withdrew his motion and at the same time made a shot at the Wards to the effect that they were irresponsible for their actions. At this stage the meeting threatened to become quite hot, as D. O'Sullivan sided in with the Foresters' champion, saying that the Wards must have known that Dakers and MacDonald had played with Esquimalt against Ladysmith and Nanaimo on February 25 and 26 and that they should not be let off so easily. The president, D. S. Tait, called the meeting to order, however, with the remark that the union was prepared to accept the word of the players themselves in this matter. Accordingly a vote was taken on the motion, the substance of which is given above and it was passed.

MacDonald and Dakers were placed in the same class as the rest of the old league players and will not be allowed to play amateur football this season.

As regards the Corinthians, who were also on trial for having played McKay in one of their matches, Kelsall, the manager of the team, stated that he did not know he was playing a black-listed man as he had received no warning from the union. The officials voted that club a clean sheet. McKay asked if there was any chance of him being reinstated in time for the summer sports, but the only answer he received was a smiling negative.

Another matter brought up for consideration was a telegram from Gowen of the Vancouver branch of the B. C. A. U., requesting information concerning the B. C. championship boxing tournament. As the Bays have practically decided to drop the affair entirely the Vancouver Athletic club are very anxious to stage it in Vancouver. D. O'Sullivan informed the union that the J. B. A. A. were holding a meeting tonight when the matter would be gone into thoroughly and exactly what the local club were going to do would be decided. He added that he did not think the Vancouver officials were treating the local boys fairly as they had asked if all the expenses of the boxers coming to Victoria were going to be paid by the J. B. A. A. They were answered in the negative and as a consequence no entries had been received from that city. Mr. O'Sullivan

## BIGGER PRIZE LIST THAN EVER BEFORE

### Entries for Bench Show Coming in Fast—Seattle Fanciers Are Confident

Judging by the number of entries already received, the bench show, to be held here at the end of the month, will be the largest show of its kind ever seen in Victoria. Although the premium list was not issued until the end of last week, over forty entries came in yesterday.

That the committee in charge are confident of greater success this year than ever before, may be seen by the fact that there are 40 prizes more than there were last year. There are quite a number of prizes listed in the catalogue, which did not appear in the premium list.

T. P. McConnell, speaking to a Times reporter yesterday, said word had just been received from Seattle saying that fanciers in that city were coming over stronger than ever before. The Americans expect to clean up every show in the circuit.

Owing to a regrettable error D. B. McLaren's name has been left off the premium list, which has just been printed. Mr. McLaren is a member of the bench show committee.

## EXPECTS TO BRING TOURNAMENT HERE

### Fencer Sure He Will Be Able to Stage the Affair in Victoria

There is every reason to believe that the fencing tournament for the championships of British Columbia will be held in Victoria some time around the end of the month. Mr. West will not make an definite announcement, but there is no doubt that the result of his visit to Vancouver on Thursday was satisfactory in every way. He is now only waiting for a letter from the officials in Vancouver.

As was stated last week these bouts with the fencing foil, the duelling sword and the epee will be the first of the kind ever seen in Victoria, and should prove quite an interesting exhibition. Whether the tournament is staged here or in Vancouver, the following rules issued by the Amateur Fencing Association of Great Britain will govern:

1. Engagement—The commencement of the assault is marked by the contact of the blades which is called the engagement. The commencement of each phrase must in like manner be marked by an engagement.
2. Validity of Hits—All hits that would, if the weapon were sharp, cause a punctured wound are valid, wherever they take effect. A hit given by a fencer to an opponent who is disarmed, or who has involuntarily fallen, is not valid if, between the disarmament or the fall and the hit given, there is an appreciable interval of time.
3. Acknowledgment—When a fencer is hit he must cease fencing and acknowledge the hit.
4. Mutual Hits—If both fencers are hit simultaneously, both hits are valid. If both fencers are hit and there is any appreciable interval of time between the two hits, the first hit only is valid. The validity of hits is determined entirely by this rule.
5. Duration of the Phrase—The phrase ceases when one or other of the fencers is hit, or in any of the following events:
  - (a) Corps a Corpe—When the fencers come to such close quarters that their limbs or bodies are in actual contact, or that the assault is likely to lose the character of a sword fight.
  - (b) When either fencer is disarmed or loses control of his weapon through its being caught in the guard or clothing of his opponent. But if a fencer is hit at the moment that he loses control of his weapon, the hit is valid.
  - (c) Seizing the opponent's weapon with hand or arm and the use of the unarmored hand or arm to parrying are forbidden.

SEMI-FINAL OF ENGLISH CUP.  
London, March 14.—The draw for the semi-final of the English Association football cup, to be played off on March 25, is as follows:  
Bradford City v. Blackburn Rovers.  
Newcastle United v. Chelsea.  
The games will be played on the ground of the first named club.

## TO BUILD HOCKEY RINK IN VICTORIA

### Artificial Ice Skating to Be Introduced—Inter-City Games Arranged

Frank and Lester Patrick, sons of the millionaire lumberman of Nelson, intend establishing an artificial ice rink in Victoria, which it is reported will cost no less than \$100,000. The rink will be built on Fort street, in the vicinity of the Willows hotel. The local men connected with the enterprise are: R. F. Green, Thomas Hooper, M. Carlin, J. A. Turner, Harry Wright and Dr. G. A. B. Hall.

The Patrick brothers will also build an artificial rink in Vancouver and natural ice rinks in Calgary and Edmonton. The entire undertaking will cost in the neighborhood of half a million dollars. The brothers intend to promote a Western Canada Ice Hockey League, to include teams representing Vancouver, Victoria, Calgary and Edmonton.

The Vancouver rink will be situated on George street. The ice surface is planned to be 40 feet by 85 feet, and the seating capacity will stretch to about 5,000. The Vancouver directors include: F. L. Buckley, Elsie Wilson, Hugh B. Gilmour, W. G. Gillett, John Dewar and Joseph Patrick, the last-named being the Nelson lumberman.

Skating on artificial ice will commence in Victoria and Vancouver by the beginning of January, and before the end of December the inter-city league will be started.

The Patrick brothers are known throughout the Dominion as star performers on the ice, both reaching their highest fame two years ago when they played for Renfrew.

## LEADERS MEET IN FINAL STRUGGLE

### Y. M. I. and Y. M. C. A. Play on Wednesday Night in Institute Hall

The basketball game which will decide the championship of Victoria, as there is no senior league this year, will be played in the Institute hall to-morrow night between the Y. M. I. and Y. M. C. A. If the former wins they are slated for first place as only a miracle could enable the Y. M. C. A. to recover such a lead at this stage of the game.

The action taken by the B. C. A. U. last night saved the Y. M. I. from going to pieces as, if the Wards, who played in Duncan, had been suspended, practically the whole of the Y. M. I. basketball team would have been on the black list. As it is McDonald is the only one of the five who will not be able to take part in the match on Wednesday night. Frank Sweeney made an effort to have McDonald reinstated last night but the union was adamant and could not think of such a thing.

The game starts at 8:30 o'clock sharp. The Y. M. C. A. team is as follows: Archibald, Beckwith, McKean, Baker and Willscroft. The Y. M. I. five will be chosen from the following: McArthur, Frank Sweeney, Art Pike, Hillier, Brown and MacDonnell.

## ABOUT BASEBALL

A meeting of the boys of the St. John's Sunday school will be held in the Sunday school room this evening, starting at 6:30 sharp, for the purpose of organizing a baseball club. A good turn-out of the boys is looked for.

Discussing the report to the effect that the Victoria Baseball club is composed of "has-beens," Manager Wattlett said: "There are only two men on the team who have played their previous games, Fred Raymer and Householder. Victorians know the reputation of Householder too well to believe any talk about him going down the hill. Eddie has been in the game for a good many years and he intends to stay in it for a good many more. As for Raymer, surely a man who has just come from the biggest league in America is as good as any in the Northwestern league. Raymer may not be quite as fast as he used to be, but even if he could not play the game at all his great experience and his vast knowledge of the game would make him a valuable asset to the team."

"Watt," when in a reminiscent mood recalled the occasion of his first meeting with Raymer. "It must have been about ten years ago," he said. It was really farther back than that, but "Watt" doesn't want anyone to know how old he is. "I was just breaking in to professional ball in one of the Bush leagues near the Mexican border," he continued, "and when I became a member of the El Paso team I encountered the old warrior who will convert around the local ball park this year. He was playing short stop at that time and his work was so good the National league snapped him up at the end of the season. His playing seemed to me marvelous at the time and I have no doubt he is as good as he ever was, right now."

When Pitcher Wyatt Lee was asked why so many wonderful minor league twirlers fall in the big show he remarked: "It's this way. They find their fast balls a mile too slow, and their slow ones just a bit too fast."

For the first time in a dozen years or more the Boston Nationals will issue season tickets. The price of the little books has been set at \$50 a toss.

Pitcher Jess Baker of the White Sox

Best remedy for CONSTIPATION

Yours his best fooler in the "fog ball." Years ago Miller, the "fog horn" catcher, performed in the major league, and now there is the "fog ball" pitcher.

Charles Schmidt, Detroit American league catcher, made his debut as a prize fighter on Friday night at Fort Smith, Ark., gaining the decision over Jimmy McDonald of Denver after ten rounds of hard fighting before the Arkansas Athletic club. Schmidt had the advantage over McDonald from the start, flooring him four times and forcing him to the ropes repeatedly. Schmidt weighed 178 pounds and his opponent 158.

## SPORT NOTES

Although interest in the games has abated considerably the race for second place in the Island League series is still going on. Esquimalt, Victoria West and the Foresters are the only teams competing. Nanaimo dropped out when the professional league series commenced, and Ladysmith has played all of its scheduled games, with the exception of the last one, which was defaulted by Nanaimo. It is hard to say which team has the best chance for second place as the three of them are very evenly matched, and there is almost no difference in the number of points each has made. The Foresters are slightly in the lead, in spite of their defeat on Saturday, with Esquimalt close behind and, sad to say, the local champions trailing in the rear. The standing of the teams is as follows:

Victoria West	W. L. D. Pct.
Esquimalt	1 4 . . 2
Foresters	2 4 . . 4
Nanaimo	2 3 . . 4

At last the Islanders have come to the fore in the professional league. In each of the games on Saturday and Sunday the mainlanders were defeated and, if reports can be believed, were in every way outplayed. The Vancouverers were downed by Ladysmith in Vancouver and the Calles by Nanaimo in the Coal City. The standing of the teams is as follows:

Vancouver	W. L. D. Pct.
Calcedonians	2 1 . . 4
Ladysmith	1 1 1 3
Nanaimo	1 1 1 3

REGIMENT SWAMPED.  
The Y. M. C. A. has again proved in a satisfactory manner that there is no intermediate basketball team in Victoria able to compete with them, except the redoubtable Y. M. I. five.

In the league game last night between the Y. M. C. A. and Fifth Regiment, the latter, at no time, stood the slightest show. The Y. M. C. A. boys played all around them, fooled them with tricky combination and then, to round off the lesson, dropped the ball into the net. The final score was 30 to 10, but might easily have been more as the winners did not feel obliged to extend themselves.

Maine and Dutoit played a good game for the losers and of the Y. M. C. A. boys Baker made quite a name for himself because of the number of times he lodged the pluck in the net. "Mick" Wilkerson handled the whistle to the satisfaction of everyone.

The teams were: Y. M. C. A.—Guards, Archibald and Beckwith; centre McKean; forwards, Baker and Willscroft. Fifth Regiment—Guards, Smith and Dutoit; centre, MacGregor; forwards, B. Maine and Kroeger.

## ATHLETIC CLUB MEET.

Association Has Had Successful Year—Will Build Large Boat House.  
At a meeting of the Shawnigan Lake Athletic Association, held a few evenings ago, the following officers were elected:  
President, A. Elford; vice-president, Sidney Heald, secretary treasurer, E. W. Blake; directors, R. G. Finlayson, W. H. Cullin, A. Peden, C. G. Dundas, Mr. Wallbank and R. Eford.

The report of the treasurer being read showed that the association was on a very sound footing. The handsome club house built on the shores of the lake has been completely paid for in little more than a year; all current expenses have been met and there is still a snug balance to the credit of the club.

The members were so pleased when they heard of this splendid achievement that they immediately arranged for the construction of a large boat house which, they expect to have ready

have quarrelled at the Springs. One bulle struck the pitcher in the right shoulder and the other lodged in his right forearm. While serious, Tozer's wounds are not considered fatal.

W. Northey announced yesterday morning at Montreal that a challenge for the Allan cup had been received from the St. Mary's Club of Calgary and had been accepted. The St. Mary's club will have to play the Winnipeg Victorias for the cup at some future date, which the clubs will arrange between themselves.

The club's annual dance will very probably be held on April 21. The committee who have charge of the affair say that it will be something a little out of the ordinary.

The annual meeting of the Victoria Local Option League will take place on Friday next in the First Baptist church, when there will be an election of officers for the ensuing year and other important business.

## PNEUMONIA

is a treacherous disease and often baffles the skill of physicians. Pneumonia symptoms are prolonged chills, headache, accompanied by nausea and vomiting. Unless promptly checked, pneumonia results fatal. With a good physician and plenty of **Duffy's Pure Malt Whiskey** the terrible disease may be checked, and a cure effected in nearly every case.

It has to its credit fifty years of public service, is the result of years of careful work and is an absolutely pure distillation of carefully malted grain. Overworked men, delicate women and sickly children will find in it the health and strengthening parts that are so necessary to them. It is recognized as a family medicine everywhere. You should have it in your home. It is a wonderful remedy in the treatment and cure of consumption, pneumonia, grip, bronchitis, coughs, colds, asthma, malaria, low fevers, stomach troubles and all wasting, weakened conditions, if taken as directed.

All liquor dealers, or direct, \$1.50 a large bottle. Be sure you get the genuine; substitutes and imitations are injurious. Medical booklet, containing rare common-sense rules for health and testimonials, also doctor's advice, sent free to anyone who writes The Duffy Malt Whiskey Co., Rochester, N. Y. Messrs. Pither & Lelser, Victoria and Vancouver Distributors.

### Tea Time Talks Tea Spoils with Age

No tea is fit to drink after it is two years old. That is the age limit of tea quality and benefit. The best tea is the freshest.

"Salada" Tea owes much of its world-wide reputation to its sale fresh from the plantation. The leaves are fresh picked every week the year round; then dried, sorted and packed in airtight lead packages. Every five weeks a new picking of "Salada" comes fresh from plantation to purchaser.

Bulk teas, carried year after year, lose their freshness.

Ask your grocer for "Salada" Tea or send for a free trial package which makes 25 cups of delicious tea. We will mail it to you without charge. Buy whether you use Black, Mixed or Green Tea and the price you pay per pound.

The "Salada" Tea Co.  
32 Yonge Street Toronto

### S. A. CONDEMNED AS SLAVE TRAFFICKERS

Labor Convention Opposed to Assisted Immigration on Economic Grounds

A number of resolutions covering a wide area of interests were the features of yesterday afternoon's session of the B. C. Federation of Labor. Perhaps the most important motion adopted was the first one. It ran as follows:

"The spread of technical education is both inevitable and ultimately desirable in the best interests of the working class; therefore, be it resolved that this convention is in favor of the establishment of an educational institution, supported and controlled by organized labor, for the instruction of its members in the fundamental principles of our modern industrial system."

The resolution aroused considerable discussion among the delegates. They realized that through the medium of education they would be brought appreciably nearer their goal—control of the political machine. It would help them to realize their own strength as a class, and after realization it was but a step to the accomplishment of their aims.

Speaking to the resolution, President Watters contributed a few noteworthy remarks upon the effects of education. He said that civilization to-day was measured by its industrial progress, and anyone who stopped that industrial development was staying the wheels of progress. He was firmly of the opinion that if their children were taught the ramifications of political economy, or in other words, taught to understand the relationship between the production and the distribution of wealth, they would go far toward solving the present situation.

Other delegates expressed the opinion that the subject of political economy should be taught in the schools. A new school, of thought would then be created whose ideas would be fostered by the labor press, and in this way the spread of enlightenment would go on until organized labor held the reins of power.

Another resolution dealing with the immigration question raised some discussion. It was in the following terms:

"Whereas assisted immigration has a tendency to intensify competition in the labor market, thereby reducing the standard of living enjoyed by wage earners, the employers of labor being solely the beneficiaries; and whereas immigration through agencies being the means used to supply the employers of labor with workmen, thereby being similar to the slave traffic engaged in by the slaves of a past generation in providing workers for the masters through placing commercial institutions such as the Salvation Army and other immigration agencies in the category of present day slave traffickers; therefore be it resolved that assisted immigration be strongly condemned, and the executive directed to use its best efforts with the government to secure its assurance that no aid, financial or otherwise, will be given to any agency engaged in assisting immigration; and that unqualified approval be expressed of the excellent results obtained by the Trades and Labor Congress of Canada through its representative in Great Britain in countering the pernicious influence at work in misrepresenting working conditions in Canada; and that the executive council of the congress be urged to use its best influence to furnish reliable information relative to working conditions in Canada to the wage earners of Europe."

The discussion on the resolution resolved itself, at least with several of the delegates, into an attack on the tactics of the Salvation Army. One of the delegates facetiously remarked that while he did not offer any objection to assisted passages to heaven if that was necessary, he most strongly opposed assisted immigration to a country where the labor market was already overcrowded.

A resolution requesting the provincial government to insert in the contracts for the construction of the provincial university a clause to the effect that wages will not be less than the minimum union rate of wages established in Vancouver for respective crafts; and another endorsing the fight of the Pacific Northwest Machinists in their effort to establish an eight hour day; and yet another approving of the action of the Trades and Labor Council of Vancouver in calling for a federal commission to investigate the price of coal in British Columbia, were adopted.

**OCCUPATION TAX.**  
Everett's Plan to Recoup Treasury for Liquor License Fees.  
Everett, Wash., March 14.—The people of this city are to-day divided on the new plan of the city council to enforce an occupation tax. The city council discussed the move last night, declaring that it is necessary since the town went dry and \$70,000 in liquor license fees are lost to the city treasury.

The power company, supplying the municipal electric lights, has notified the city that unless bills for street lighting are paid promptly, the juice will be turned off and the city plunged into darkness. Hence the plan to tax every man from \$3 to \$10, depending upon his trade or profession.

**WOMAN'S PLACE THE HOME.**  
Harrisburg, Pa., March 14.—To prove that "woman's place is the home," scores of prominent club women from all over the state left their happy homes to-day to come to Harrisburg to protest against granting the ballot to the fair sex. Penn suffragettes also are here in force.

### TRADE MARRIAGES ARE CONDEMNED

Local Women's Council Urges Disapproval of Scheme for Bringing in Women

The subject of "commercializing" marriage came up for discussion at the regular monthly meeting of the Local Council of Women held yesterday afternoon, when Mrs. Gordon requested the council to signify its keen disapproval of the proposed scheme of bringing women to Canada. The matter had been alluded to in the local newspapers and extended notices of it had appeared in the English papers.

Speaking from personal observation of the practice, Mrs. Gordon said that evil results had followed its adoption in the neighboring states. Marriage by correspondence was not likely to have an uplifting effect upon the community, and she thought that there was great reason to fear that Canadian citizenship would be degraded by the method of commercializing marriage which was the essence of the proposed scheme. She contended that the only safe way to found a home, apart altogether from the religious aspect of the case, was upon mutual affection. It was agreed to refer the matter to the immigration committee for report.

Mrs. McNaughton, president of the Vancouver Local Council, who along with Mrs. Jenkins and Miss Ravenshill had interviewed the government earlier in the day with a proposal that there should be established in the province a home for young girls who were sentenced by the courts for some offence, was then introduced. Prior to speaking of the cause which she had espoused, Mrs. McNaughton referred to the necessity for co-operation between Vancouver and Victoria in the work they had undertaken, as she contended that the united representations of the province would always be more effective than the representations of a single body.

Regarding the necessity for a girl's home, other than the common jail, Mrs. McNaughton said it was very pressing. To place a young girl who had been guilty of some misdemeanor along with hardened criminals was to make all attempts at reform abortive. Even the police knew this fact and often, rather than run the risk of ruining the lives of girls, they refrained from arresting them when they would be well within the law in doing so. The consequences of refraining from making the arrests was also disastrous in many cases, for the girls did not then get the lesson which it was necessary should be instilled into their minds.

She had the assurance of the chief of police of Victoria that many girls who had drifted along to ruin might very well have been saved if there had been an institution of the kind for which she was now agitating. She commended the work of the boys' industrial school, and said that a similar place for girls would supply a great want. She did not think that there was any need of an expensive institution. A modest but early start was what was necessary.

By a unanimous vote the meeting endorsed the action of the Vancouver Women's Council in seeking the aid of the government to establish a girl's home.

**C. N. R. PLANS WORK FOR YEAR**  
**TWELVE MILLIONS TO BE EXPENDED**

Six Hundred Miles of New Lines Will Be Built in Prairie Provinces

Winnipeg, March 14.—Sir William Mackenzie left for the east on Saturday evening via St. Paul. After consultation with the heads of the Canadian Northern railway in Winnipeg for two days, he approved of appropriations for extensions and improvements of the company's railway system to the extent of approximately \$12,000,000.

This enormous sum will be distributed in improvements and extensions from the Great Lakes to the Rocky mountains and promises employment to thousands of men from early spring until late in the coming fall.

**INTERNATIONAL PEACE ADVOCATE ON TOUR**  
 Baron de Constant Will Meet Andrew Carnegie and the Trustees of Endowment

New York, March 13.—Another disciple of international peace was due to arrive here to-day in the person of Baron de Constant, a member of the French senate. The Baron is admittedly the foremost advocate of the policy of international goodwill, and was the originator of the plan for informal and neighborly visits by groups of lawmakers from one country to another.

Upon his arrival here Baron de Constant will be received by Andrew Carnegie and the trustees of the Carnegie endowment for international peace. Later he will visit Washington, where he will be entertained by President Taft and he will then make an extended tour of the United States.

**DOUKHOBORS TO SUPPLY TIES.**  
 Nelson, March 11.—That the Doukhobor settlement at Brilliant will supply the C. P. R. with 100,000 railway ties this year was the statement made by R. Barnwell, the agent of the railway company. The ranchers of the Arrow lakes who have formed a union for the purpose of marketing ties, and other lumber, such as telegraph poles and fence posts, taken off their land during clearing operations, have thus made their first contract with the C. P. R. to supply ties. The number specified is 15,000.

**SHE GOT WHAT SHE WANTED**

**This Woman Had to Insist Strongly, but it Paid**  
 Chicago, Ill.—"I suffered from a female weakness and stomach trouble, and I went to the store to get a bottle of Lydia E. Pinkham's Vegetable Compound, but the clerk did not want to let me have it—she said it was no good and wanted me to try something else, but knowing all about it I insisted and I finally got it, and I am so glad I did, for it has cured me."

"I know of so many cases where women have been cured by Lydia E. Pinkham's Vegetable Compound that I can say to every suffering woman if that medicine does not help her, there is nothing that will."—Mrs. JANET ZELI, 2908 Arch St., Chicago, Ill.  
 This is the age of substitution, and women who want a cure should insist upon Lydia E. Pinkham's Vegetable Compound just as this woman did, and not accept something else on which the druggist can make a little more profit.

Women who are passing through this critical period or who are suffering from any of those distressing ills peculiar to their sex should insist upon Lydia E. Pinkham's Vegetable Compound just as this woman did, and not accept something else on which the druggist can make a little more profit.

**OUR LETTER BOX**

AS TO ASSESSMENT.

To the Editor:—As it is probable that the taxes hitherto levied on improvements will not be again demanded of the citizens, it is highly desirable that the assessment of land values shall be equitable and just. The city council are to be commended in obtaining the judgment of competent business men to assist Mr. Northcott in this undertaking. The occasion is both historic and important, and the skill and impartiality with which the work of assessment is done will largely determine the effectiveness and the popularity of the system to be inaugurated.

It is possible that neither of these gentlemen has made a particular study of the principles underlying true land assessment. The happy-go-lucky, rule of thumb, want of system which has characterized the appraisal of land values throughout the province has happily been minimized in Victoria by the careful and conscientious work of Mr. Northcott. It is not, therefore, any detractor from the ability or integrity of either of the present board of assessors to suggest that they have not made any scientific or mathematical study of principles of land assessment.

For the general information of your readers and of the board of assessors I would commend the perusal of the following excerpt from the Public in regard to the Somers system of land valuation. This system has been tried in New York, Philadelphia and Cleveland, and, as far as can be judged, is as nearly scientifically and mathematically accurate as human judgment can make an appraisal of land values.

"Site value is fixed and determined by local opinion. . . . As this opinion is the basis of all purchases and sales, it is evident that it is the true measure of the value of the land, and is the measure which must be used in any successful effort to find the true and full cash value of each piece of property. This opinion may be designated, for convenience, Community Opinion. To take advantage of Community Opinion . . . the work must be reduced to a system, in which the gathering and recording of the information will not be burdensome, but which will tend rather to relieve the burden of the work by prescribing limits that will take away the uncertainties of guessing at values. The secret of successful work in handling great numbers of similar things lies in reducing the labor connected with it to such movements or thoughts as may become mechanical. . . . The lots in a city are so numerous, and of such widely varying shapes and dimensions, and the corner influence is such a disturbing element, that Community Opinion as to the value of specific tracts or lots cannot be formed. . . . Notwithstanding the fact that Community Opinion does not exist in cities as to values of specific tracts, there does exist a Community Opinion which is just as definite and valuable for the purpose of taxation as though it extended to specific tracts, and which has elasticity enough to conform to growth, no matter how rapid, and to changes caused by shifting of business or residence districts. This is the opinion of the relative value of streets, and is Community Opinion formed by those familiar with the streets. . . . To make use of this Community Opinion of the relative worth of the streets, it is necessary to find some common term that can be used to express their comparative value as a unit in all parts of the city. The value of one foot in width for some fixed depth is the best measure for this purpose. By assuming in every case that the unit of one foot frontage is located in the centre of a block, that is, half way between the cross streets forming the block, the most disturbing element, viz., the corner influence, will be entirely eliminated from the problem, and the judgment required in fixing the value of the units will be reduced to a simple comparison of street values. Provided the value of the units has been fixed at the true and full cash value of the property, the most delicate shading of difference as to comparative value of streets may be accurately recorded in dollars, and any citizen can quickly and easily compare the work and judge of its accuracy, both as to the relative value of the streets and the actual value of the property. The work of fixing the units can be best accomplished through a committee of citizens to determine the most valuable part of the city, and indicate by marking upon plans prepared for the purpose the value of the units, or the value per front foot for a certain fixed depth

In the middle of each side of each block, within the district selected. . . . Any taxpayer, by an examination of the unit values, can very quickly learn the relative difference between the assessment of his property and any other property in the city, knowing that the values recorded indicate the value per front foot for the same fixed depth in all parts of the city. It is therefore necessary that this map of copies of it should be made records accessible to all citizens and taxpayers. The unit values being fixed for a certain depth, while the lots themselves may vary in depth, it is necessary to determine the ratio of the unit value to be used for different depths. . . . as the foundation for the construction of scales, by the use of which the same relative proportions can be read for any depths between the points thus fixed. By the use of the scale to determine the frontage value, the value of any lot may be ascertained by a simple multiplication of the width of the lot by its frontage value. . . . To make the unit values the basis for determining the value of the corner it is necessary to get an expression of opinion from the committees of the value of a corner under several different conditions, or values of cross streets, as a foundation for the construction of scales by which this opinion may be applied to the determination of the value of any lot or subdivision of a lot coming within the corner influence. . . . The unit values having been determined and marked upon the map upon each side of each block throughout the whole city, and the necessary rules and scales, based upon the community opinion of value as expressed through the committees, having been formulated and constructed, the actual assessment of the value of the land is completed. The balance of the work, that is, the determination of the value of each particular tract throughout the city, is purely clerical, and may be computed by anyone having a knowledge of the rules and understanding the use of the scales."

It would be worth while for the city council to cause a careful inquiry into this system.

### POLLING APRIL 7; DRURY WON'T RUN

#### PROGRESS TOWARDS MUNICIPAL CONTEST

Good Progress in Preparing Lists—Morley Yet Unopposed for Mayoralty

In the opinion of Harold B. Robertson, commissioner on behalf of the provincial government to arrange the necessary machinery to bring on the new municipal election, it will be possible to have the voting take place on or about April 7. Mr. Robertson was seen by a Times reporter this morning and besides conveying the above information said he hoped to have the lists completed by the end of the week. This would allow of the court of revision, which under the enabling act is constituted in himself, to get to work about the 25th of the present month. It would be laborious work checking up the list of names but three days after the date last mentioned he hoped to have lists ready for the printers.

Mr. Robertson was asked regarding the decision of the city assessor and the mayor to accept registration from women under the householders' qualification, basing this upon their interpretation of the recent ruling of the executive council on the point of the right of assessed owners to register as license holders and householders. Mr. Robertson said in reply that he had given his decision on that point—that women may not vote except as property owners or as holders of licenses. The fact that householders are called upon to make a declaration that they have paid the road tax, which cannot be paid by females, effectually debar the latter from making the household declaration.

The city assessor's staff had another busy time to-day accepting registrations from those who intend exercising their franchise at the forthcoming election. To-morrow is the last day for the reception of applications. It has been arranged that the city assessor's office shall be open to-morrow evening for this purpose, up to 9 o'clock. R. L. Drury, who had been pressed to enter the mayoralty contest, made the definite announcement to-day that he would not do so. A Times reporter who saw him this afternoon, he said: "I have not at any time expressed any desire or any intention of being a candidate for the mayoralty at the present bye-election. The fact is, however, that I have been so strongly and earnestly pressed to run by different deputations and by influential people from so many quarters, that I felt bound to give respectful consideration to their representations. Having done so, you are at liberty to state on my behalf that I will not be a candidate at this election." "That decision is final?" "Most certainly."

#### DIVORCE REFORM.

San Francisco, Cal., March 14.—Federal laws for marriages and divorces, with United States district courts to try divorce cases instead of the state courts, were asked to-day in a joint resolution presented to the assembly at the request of Francis M. Moody, head of a state organization dealing with the divorce reform.

#### ATTEMPTED BRIBERY.

Seattle, Wash., March 4.—A. B. Nickerson, proprietor of a bath house in the basement of the Pacific hotel, was indicted by the grand jury late yesterday on a charge of attempting to bribe a patrolman. His bail is fixed at \$5,000, in default of which he was locked up in the county jail.

#### ROBBED ON GOVERNOR.

Seattle, Wash., March 14.—W. M. Parker, of San Francisco, a passenger on the steamship Governor, was robbed of \$130 and a gold watch on the trip north. Last night when the steamer arrived in port she was met by three city detectives but no clew was found to the robbery.

#### CINCINNATI GRAFT CASES.

Cincinnati, March 14.—The grand jury returned a batch of indictments yesterday, four against Samuel Hirsch, known as Cincinnati's "handbook king," charging him with conducting gambling games.

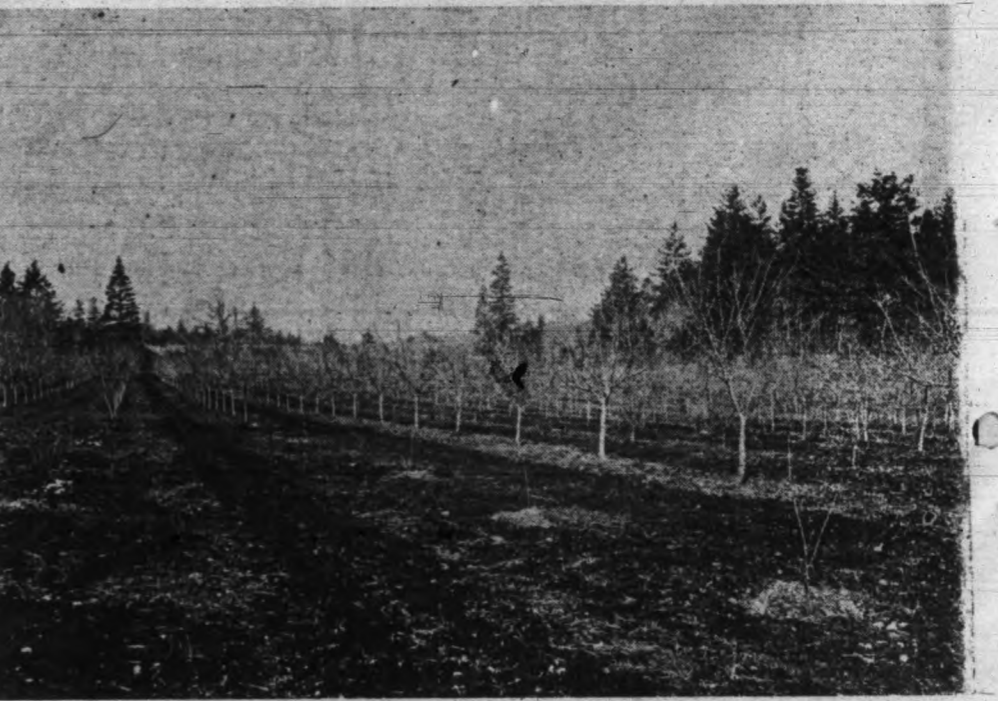

#### DYNAMITED A BANK.

Canandaigua, N. Y., March 14.—Armed posse to-day are searching for men who last night dynamited the bank at Rushville, near here, and escaped with \$50,000. Details of the robbery have not been received.

### ALLEGED BAKING HORRORS IN CITY

(Continued from page 1)

The eight hour day question was brought up in resolution form, the motion reading: "The convention pronounces itself in favor of a universal work day of not more than eight hours." Some lively discussion arose as to why they should stop at eight hours, but this talk was happily rebuked by Delegate Wilkinson, who said that the attitude of the grumblers was like the hungry man feeding his stomach through his eyes by absorbing the vision of the viands he was not in a position to purchase. It did not seem to have occurred to them that they would have to enforce eight hours before they could enforce less.

It was all very well to talk about working an hour and a half a day, but he noticed that most of those who did so were those who had not yet achieved the eight hour object. Finally the resolution was adopted. The resolution binding the convention to do what it could on behalf of the workers in Rogers' Sugar refinery in Vancouver brought to light some of the conditions that are said to exist in that institution. The feeling of the convention was that something ought to be done to help them out. At present, and for a long time past, it was stated that they had lived under terrible conditions. They had to work twelve hours a day at 25 cents an hour. Delegate Pettipiece pointed out that while perhaps the men themselves were more to blame than the company that was no reason why they, as a body, should not offer them all the assistance they could now that they had awoke to a sense of their condition in the labor world. The following resolution carried:

Resolved, that the B. C. Federation of Labor urges upon the membership of organized labor the necessity of supporting those candidates who are pledged to support the interest of the working class.

The resolution demanding that the statutes governing the sanitary regulations of bakehouses produced a discussion as to where to eat while in Victoria and Vancouver, and after threshing out the matter thoroughly it was decided that the only choice was "Hobson's choice." Vancouver and New Westminster are under the municipal act in this connection but it would appear that Victoria has to appeal direct to the government.

Delegate McVay suggested all bakehouses should be underground, and the regulations should be so enforced that it would no longer be possible for the horse blankets to be warmed on the top of the bread or for the bakers to sleep on the top of the dough. Another delegate spoke of the "ash foundations" he had visited in Victoria and also of the "resurrection dishes" that had been served up to him in restaurants until it began to look as if the convention would not worry about adjusting for lunch at all.

A climax was put to the discussion when one delegate said that if his wife did not at once learn to bake bread he would take proceedings for a divorce. Such dramatic intentions may give some idea of the horrifying pictures that were drawn not only of bake houses but of restaurants.

In the afternoon the delegates were treated to a drive round the town on the cars. It was expected that the business of the convention would be completed this afternoon but it is now probable that a session will be held to-morrow to clean up the programme.

### OBJECTED TO NICKNAME

New York, March 14.—Declaring that his friends got in the habit of calling him "Hank" but that it not only was unbecoming but distasteful to him, Hincley Goodlift Horn has received permission from Justice Guy to change his name to William Goodlift Horn.

BUY THE TIMES

The Evening Chit-Chat

BY RUTH CAMERON

"There was a young lady from Kent who always said just what she meant. Said her friends, 'She's a dear, so unique, so sincere'— And they shunned her by common consent."

Why is it, I wonder who pride themselves on saying just what they mean, some-thing seem to mean disagreeable things most of the time? Why is it that people who pride themselves on saying clearly seem to see flaws so much oftener than good points?

A little neighbor of mine put on her new gown for our inspection the other day, and awaited our admiration with all the excitement and enthusiasm of a young person who doesn't have pretty gowns often enough to conceal her pride and delight.

A blood relation of the lady from Kent, a person who prides herself on her sincerity and goes about rebuking the rest of the world for their lack of it, happened to be present.

"Yes, it's pretty, but there is something wrong with the sleeves," was her immediate comment.

My little neighbor's pretty radiance gave place to a look of disappointment and anxiety as suddenly as if a cloud had hidden the sun.

And I had all I could do not to suggest to the lady that she consult an oculist for those abnormally flaw-seeking eyes of hers.

You say that if there was anything the matter with the gown it was well for its possessor to know about it that she might have the fault corrected. Quite so.

But why need that have been the only thing the lady saw and the first thing she said?

Why might she not have noticed and remarked that the lines of the skirt were excellent, that the color was most becoming, and that the whole effect was thoroughly attractive, and then later have made the suggestion about the sleeves?

She would have done just as much good and caused less unhappiness. One may see clearly and yet see kindly; one may say just what one means without being a kill-joy, if one will go about it in the proper spirit.

For I think one can be sincere and yet remember and live by Helme's definition of the purpose of the tongue: "God has given us our tongues wherewith we may say pleasant things to our neighbors."

Industrial Home

Council of Women Waits Upon Provincial Executive.

A deputation representative of the Council of Women of British Columbia and including Mrs. McNaughton, Vancouver, Mrs. Jenkins and Mrs. Hasell, Victoria, and Miss Hemphill, Duncan, yesterday waited upon the provincial executive to urge the establishment of the local government of an industrial-home for girls, presumably to be located at Vancouver.

The deputation also requested that the age of consent be raised, but was informed that this latter matter is one falling exclusively within the jurisdiction of the Dominion. The necessity for the establishment of such an industrial and reformatory home for girls as asked for by the deputation, was promised government consideration, and in connection with existing conditions, the ladies were asked to submit further data in writing, which they promised to do.

THE APRIL SMART SET.

Katharine Metcalf Roof's novelette, "The Mask of Truth," is the leading feature of the April number of the Smart Set. This is a story of the present day. The scene is laid in and about New York and introduces a number of characters that are to be met with in certain metropolitan circles. Susan Keating Glaspeil contributes a strong story of the French art colony, entitled "Bound." "In a Vest Pocket Garden,"

TRY THIS HOME-MADE COUGH REMEDY

Costs Little, but Does the Work Quickly, or Money Refunded.

Mix two cups of granulated sugar with one cup of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (forty-cents worth) in a 16 oz. bottle; then add the Sugar Syrup. Take a teaspoonful every one, two or three hours. You will find that this simple remedy takes hold of a cough more quickly than anything else you ever used. Usually ends a deep-seated cough inside of 24 hours. Splendid, too, for whooping cough, chest pains, bronchitis and other throat troubles. It stimulates the appetite and is slightly laxative, which helps end a cough.

This recipe makes more and better cough syrup than you could buy ready-made for \$2.50. It keeps perfectly and tastes pleasant.

Pinex is the most valuable concentrated compound of Norway white pine extract, and is rich in gaulic acid and all the natural pine elements which are so healing to the membranes. Other preparations will not work in this formula.

This plan of making cough syrup with Pinex and Sugar Syrup (or strained honey) has proven so popular throughout the United States and Canada, that it is often imitated. But the old, successful formula has never been equalled.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., Toronto, Ont.

Spread Paste—It's COMMON SENSE!

If a house is over-run with roaches, bugs, and similar vermin, be sure to use COMMON SENSE Bug Paste. Bedbugs, Roaches, etc., eat it with avidity and it is their last meal. 25c, 50c and \$1, at all dealers.

MARRIOTT & FELLOWS

619 Trounce Avenue
Office Open This Evening.

A MODEL CLOTH GOWN.

One's favorite shade of material may be effectively employed for this design, but a rich shade of dark blue, with black satin for the girdle, cuff and sash ends—the latter finished with black silk tassels is suggested. The tunic is particularly pretty and graceful, running from waist line in back to hem of skirt in front, ending in sharp point and with two deep folds on each side. On bodice two large pointed revers open over a chemiselet of allover white lace matching the deep cuffs on sleeves.

by Annie E. P. Searing, is a love tale of Americans in Italy. The Smart Set also contains "Sins of Omission," by Jean Louise DeForest. Algernon Boyesen's one-act play, "Don Juan Duped," "The Woman, the Girl and Two Men," by H. Cheriton Hilgate, "A Song of the Vagrant Singer," by Charlton Lawrence Edholm, "An Effect in Gray," by Ailya deBoutville, "On Night," by Daniel Carson Goodman, "Her Guiding Star," by Mary Anthony, "Havoc," E. Phillips Oppenheim's latest serial, theatrical and literary reviews by Geo. Jean Nathan and H. L. Mencken, and the usual sketches, jokes, etc.

SOCIAL AND PERSONAL

Dr. Ernest Hall is making a lecturing tour of the Okanagan.

Mr. and Mrs. A. H. Peacey, Cumberland, are visiting the capital.

George W. Clinton, of Cumberland, is spending a few days in the city.

Mr. and Mrs. Cornwall are spending a few days with Vancouver friends.

J. H. McGregor went over to Vancouver last night on the Princess Royal.

**PLATE PRESENTED TO THE RAINBOW**

**INTERESTING CEREMONY AT ESQUIMALT YESTERDAY**

His Honor Lieutenant-Governor Paterson Officiates at Historic Function

The ceremony of the formal presentation of the piece of handsome silver plate on behalf of the province of British Columbia to H. M. C. S. Rainbow, at Esquimalt yesterday, proved a very interesting function. His Honor Lieutenant-Governor Paterson officiated at the

ceremony and speeches were also made by Hon. Richard McBride and Commander Stewart. Following the presentation the officers and men of the Rainbow entertained their guests on board. Many prominent citizens were present. Col. Wadmore and officers of Work Point barracks all in full uniform, were in attendance. Shortly after three o'clock, the time set for the historic ceremony, the lieutenant-governor, accompanied by Mrs. Paterson, Hon. Richard McBride, Mrs. McBride and party, went on board the Rainbow, where every preparation had been made for their reception, and took up a position behind a flag-draped table on which the silver cup and candleabra had been placed. Nearby, on a capstan, stood the loving cup and saucer, which had been presented to the Rainbow by Lord Strathcona, prior to her departure from England. In making the presentation His Honor the Lieutenant-Governor said: "Captain Stewart, officers and men of His Majesty's Canadian ship Rainbow: I understand that it is traditional to a very considerable extent in the old home land when new vessels are added to the navy, that different localities, whose names have some association with those new warships, provide some

piece of plate or other suitable gift for the ships that bear to them this distinction. "It is true that the first of H.M.C. ships to be stationed on the Pacific does not bear the name of our beloved province, but nevertheless we all know so well that almost from the very day that Canada secured this good ship as one of the pioneer vessels of her navy and assigned her for duty in this far western province we British Columbians looked to her with especial pride as if she were our own. "In handing to you, Captain Stewart, your officers and ship's company, this gift from our province I may say that I convey to you as well the heartiest and best wishes of the people of British Columbia." In acknowledging, on behalf of himself and his brother officers of the Rainbow, the reception of the very handsome gift from the province of British Columbia, Commander Stewart remarked on the fact that the first ship that had come to Esquimalt did not bear the name of British Columbia, but the Canadian Government would probably remedy this when it built the warships that were to be built for the Canadian navy. He hoped that one would bear the name of British Columbia. He thought it was right that the plate presented by the province of British Columbia should be transferred to the ship that bore the name of the province, when that vessel came out. Everyone knew how rapidly British Columbia was advancing. It was going ahead by leaps and bounds, and it was only right that, if the Canadian Government followed the custom which prevailed in Great Britain of naming vessels after counties and towns one should bear the name of this great province. Whilst many of those on the Rainbow were but lent to assist in the training of the Canadians all were proud of the service they were in, and were highly honored in receiving the handsome presentation that had been made to the Rainbow. Young Canadians were coming on well, now. He had been informed that the Government was obtaining what was wished in the way of officers. Candidates for cadetships were offering at Halifax, and he felt that there would be no difficulty in the way of manning the vessels that were to be built. In conclusion he thanked the Lieutenant-Governor, Premier McBride and the people of British Columbia for the handsome plate that had been given the Rainbow, a presentation of which all on board would be proud, would take great care of, and lose no opportunity of displaying. On concluding his speech, which was loudly applauded, Commander Stewart called upon the ship's company to give three cheers for the Lieutenant-Governor and Premier McBride. The premier then made a brief speech. He was sure that all present could not fail to be impressed with the fact that the occasion they were celebrating was a notable one. When the first ship of the Canadian navy to be stationed on this coast came to Esquimalt the people of the province thought the event should be properly recognized. It was traditional with Esquimalt to show recognition of the vessels of His Majesty in these waters. It was

not long since he had stood on the deck of the Rainbow to welcome the cruiser here. That was a red-letter day for Victoria. He felt as a loyal Briton that this section of the Empire should show some proper recognition of the coming of the warship, and he was glad to be able to welcome the vessel then and to assist in the presentation. In the ship's company of the Rainbow were many estimable men, and when their term of service expired he understood that many of them proposed to make their permanent residence in British Columbia. They had left behind them in the Old Land others who would probably follow them to British Columbia, and he knew of no place in the Empire that offers more advantages for them than this province. Refreshments were then served and the visitors spent some time very pleasantly in inspecting the cruiser.

**HOMESEEKERS RUSH**

Pacific Northwest is Attracting Hundreds From East. Portland, Ore., March 14.—With the arrival of 500 colonists from the east and midwest last night, the rush of homeseekers to the Pacific northwest has begun. It was explained that 1,000 colonists would reach Portland to-day and several other parties are en route. According to railroad officials the influx of new settlers will be great this year and reports from the east say that the transportation companies are making elaborate arrangements to handle the rush this spring.

**A POST CARD BRINGS HELP FOR THE KIDNEYS**

**GIN PILLS SENT FREE.** We want all sufferers from Kidney and Bladder Troubles, Lame Back and Rheumatism, to test GIN PILLS, and see for themselves that GIN PILLS will really cure all these troubles. If your kidneys are weak—if it pains you to urinate—if your back aches—if hands and feet are crippled with Rheumatism—give GIN PILLS a chance to prove that they will relieve you and cure you. It won't cost you a cent. You don't have to buy them. Simply write us for a free sample. "A short time ago I received a free sample of GIN PILLS which I have taken with such good effects that I herewith enclose 50¢ for a box of them. I believe GIN PILLS are just the things for me." "RICHARD HAMLYN, "French River." GIN PILLS are so called because they contain the medicinal principle of Juniper berries, the essential principle of Gin, but do not contain alcohol. Fifty cents a box—\$ for \$2.50—at dealers, and guaranteed to give satisfaction or money refunded. Sample box free if you write us. National Drug & Chemical Co., Dept. V. T., Toronto. —Your Grocer has Comox Fresh Creamery Butter, 45c. lb.

**ULTIMATUM FROM RUSSIA TO CHINA**

**An Army Corps is Now Within Hundred Miles of Frontier**

St. Petersburg, March 14.—Russia has sent an ultimatum to China insisting upon closer adherence to the provisions of the treaty of 1881, which has been the subject of negotiations between the two countries for several weeks. The Russian occupation corps is within a hundred miles of the frontier and is marching on Kulja. Only the immediate execution of China's treaty obligations toward Russia can interrupt the advance of the army which is to occupy Kulja. Two brigades of sharpshooters, four sotnias of Cossacks, two batteries of field guns and eight batteries of machine guns were dispatched from Margulan in Ferghana, Turkestan, shortly after the receipt of China's second reply. Advice to the war office to-night say the expedition is within 100 miles of the frontier and advancing in order to reach the frontier about the time of the presentation of the ultimatum. The Russian force is considered sufficient to reoccupy and hold Kulja, as the Chinese troops, although nominally 10,000 in number, actually number a bare couple of thousand. They are undisciplined and of diverse equipment, and lack artillery. The instructions which the foreign office telegraphed yesterday to M. Korostovitz, the Russian minister at Peking, contain the ultimatum. This embodies two points: the reopening of Russian consulates at the points specified in the treaty of 1881 and establishment of free trade in certain products, including tea, in fulfillment of article 12 of the same treaty. These two points are the ones which it was announced on February 23 would be easily adjusted, but China's second reply completely reversed the conciliatory attitude of the prince regent, which had led the Russian minister to telegraph to his government an assurance of China's compliance with Russia's demands.

**DEVELOPMENT LEAGUE**

Annual General Meeting of Victoria Branch to Be Held To-morrow Afternoon. The annual general meeting of the Victoria branch of the Vancouver Island Development League will be held at the board of trade rooms to-morrow afternoon at 8 o'clock. Premier McBride has promised to be present and deliver an address. Invitations have been extended by the executive of the league to

other members of the provincial cabinet, to the representatives of the city in the legislature, to Mayor Morley and the members of the city council, in addition to the entire membership of the Vancouver Island Development League. In addition to the routine business to come before the annual meeting a general policy for the ensuing year will be discussed, the details being left to the newly appointed executive to

work out. The president's and secretary's reports promise to provide very interesting reading. —The Girl Guides of the First Congregational church have kindly offered to give an entertainment, consisting of fancy marching and drills, in aid of W. C. T. U. mission, in St. John's school room, Herald street, this evening at 8 o'clock sharp.

If you are suffering from any form of skin disease or injury, read this!

**Mr. Arthur Fairbank, of 547 Lansdowne Ave., Toronto, is the speaker, and he says: "A bad eruption on my forehead quickly spread until it covered my scalp with foul and painful sores. I went to a doctor who treated me for it. Still the sores spread until almost the whole of my head was affected. As the doctor's treatment did me very little good, I left it off and tried various home remedies. "Then I tried blood mixtures, but not one of them did me any good. I was by that time in a shocking condition, and as a last resource I went to a skin specialist. He treated me for a period and it cost me over \$50, but the sores got no better. They would heal and burst so often until I was nearly mad. I must have spent over \$100 on useless remedies, when one day a friend asked me why I had not tried Zam-Buk, and gave me a little. That little bit of Zam-Buk did me more good than all the long treatment I had had from doctors and specialists. I immediately sent for a supply of the balm. Very soon I began to see and feel a great difference in the sores, and finally Zam-Buk cured me at a trifling cost. If I had got it at first it would have saved me dollars, and hours and hours of pain."**

## GOVERNMENT OF MUNICIPALITIES

Chicago Mayoralty Candidate Says It is Time Great Changes Were Made

Chicago, March 14.—Views on the government of municipalities were given to the United Press by Prof. Chas. E. Merriam, whom the Republicans nominated recently in the mayoralty primaries after one of the bitterest campaigns in Chicago's history. (Copyright, 1911, by the United Press Association. By Charles E. Merriam.)

The government of cities is not as honest as the people of cities and municipal affairs are not as intelligently and care-

fully conducted as are the affairs of its citizens. City government is not as progressive as its citizens.

Our governments are years behind the times, and they must come up to date. We have come to a time when great changes must be made in the conduct of municipal affairs. Free government cannot continue if we are ruled by grafters, spoilsmen and the special interests.

Government by crooks is demoralizing; by spoilsmen, wasteful; and by special interests, inconsistent and incompatible with protection and advancement of the general interests.

We must drive out graft and grafters; we must break the spoilsman's yoke and we must subordinate special interests to the general interest of the city as a whole. I know that the present system of politics cannot continue. American cities ought to take the lead in the progressive column. We ought to do our share in the task of solving the great problems of mighty urban communities that are springing up over the world.

## CORPORATION TAX LAW IS UPHELD

Declared Constitutional by Supreme Court of the United States

Washington, D. C., March 14.—The constitutionality of the corporation tax law was upheld yesterday by the United States Supreme court. The decision of the court was read by Justice Day.

The decision was concurred in by all the other justices and affected 15 cases in different parts of the country.

The cases came from the federal courts of New York, Illinois, Ohio, Massachusetts, Vermont and Minnesota. They include corporations engaged in real estate, mining, manufacturing, life insurance, transportation and merchandising. In each case two stockholders sought injunctions, declaring the law unconstitutional.

The decision declared that the contention that the law was not constitutional because it originated in a senate amendment to the Payne tariff act was untenable. It said that it was a tax upon doing business and not upon ownership.

"This is an excise tax upon the privilege of doing business," the decision read. "The constitution provides one stipulation for such tax; that it shall be equal and geographically the same all over the country."

"It is next contended that the attempted taxation is void because it taxes the state's right to grant corporation franchises; because it taxes franchises which are creations of the state in its sovereign right and authority. We think this is the result of cases heretofore decided in this court, that such activity, though exercised because of state-created franchises, are not beyond the taxing power of the United States."

The corporation tax last year brought the government \$20,869,732.

## THE WEAKNESS OF OLD AGE

GREATLY RELIEVED BY "FRUIT-A-TIVES"

"Fruit-a-tives" is a god-send to those suffering from the weakness and nervousness of old age. "Fruit-a-tives" rejuvenates the whole system—strengthens the stomach—helps digestion—relieves the irritated bladder and kidneys—stops that pain in the back—regulates the bowels—and purifies the blood.

The concentrated and intensified fruit juices in "Fruit-a-tives" act gently yet effectively, and speedily relieve the troubles which are the natural results of a long, useful life.

50c. a box, 6 for \$2.50, or trial size, 25c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

Moran battle of eleven rounds, at San Francisco, November last, when Nelson made his final appearance in the ring before the slaughtering blows of the little Britisher, will be shown here at the Victoria theatre. Then the eleven fast and serious rounds of fighting which were the Durable Dane's day at the big arena in the Golden Gate city, there is nothing faster on moving picture screens. It was after ten hard grueling rounds that little Moran got his hard work in and during the eleventh knocked Nelson down five times before the Durable Dane would take the count. The whole story will be shown with preliminary arrangements, training quarters, and pictures of men notable in fight circles.

Mischa Elman.

There is a strange story connected with Mischa Elman's violin, which is a Stradivarius and was formerly owned by the famous Joachim. Joachim drew a most wonderful tone from the violin, which after his death got into the hands of several violinists, and though some of them were as the best, not one could reproduce the tones.

There is a saying among those who play with the violin when they fail to get the tones, that a "wolf" is in the instrument. What this means is not quite clear, but 'tis said that when Elman took up the instrument, the minute he drew a bow across it responded to his touch with the cherished tones others had been trying to find. Perhaps the soul of the dead Joachim was reincarnated in this boy; perhaps it is hidden away somewhere in the dark corners of the instrument, only to come forth at the command, but whatever it is, Mischa Elman seems to have found the "wolf." At any rate, he is a great genius, and best of all, he is natural and unaffected.

## BLOOD BAD IN THE WINTER

Indoor Life, Too Little Exercise, Breathing Impure Air, Eating Artificial Foods

Is it any wonder that the system becomes poisoned with impure waste matter in the winter time, when you think of the artificial life we lead? With doors and windows tight shut we breathe the same air over and over again until it is incapable of purifying the blood.

In vain effort to cast the poisons out of the system the liver and kidneys are worked over time until they too are played out. Then come the pains in the back, the headaches, the attacks of constipation and indigestion.

The quickest and most certain way to overcome this condition is by the use of Dr. Chase's Kidney-Liver Pills. They act directly and directly on the liver and kidneys, awaken them to renewed energy in filtering poisons from the bowels and remove the cause of indigestion, backache and other body pains.

You are not experimenting when you use Dr. Chase's Kidney-Liver Pills. They are unique in their combined action on the liver and kidneys and for this reason stand without a rival as a means of purifying the blood and cleansing the filtering and digestive systems.

One pill a dose, 25 cents a box at all dealers, or Edmanson, Bates & Co., Toronto.

## PASSING SHOW

New Grand Theatre.

Grotesque comedy in athletics and very real and serious work mixed with it is the matter in the Braggart Brothers' headline act of the Grand Theatre show that opened its week here yesterday. The Braggart Brothers made good right on their matinee opening, with a straight exhibition of mixed horizontal bar work, including the seldom-seen giant swings and concluding with a fake wrestling match that was a scream for its tremendous antics in the wrong place, and for the exact and very clever reproduction of mass wrestling falls. The audience was highly delighted with the brothers, praising their skill and laughing uproariously at their dexterous absurdities.

The sweet tenor voice of Jere Sanford was heard again yesterday and came back like an old-time melody. There are few men with a voice equal to this popular yodeler, who is just as equal in his superbly tuneful whistling. The staid man from the farm with the bucket and old horse bridle got a whole-hearted welcome back again.

Spring and Chrys figures in a funny "Mother-in-law sketch" that hit right between the ribs and keeps all in several kinds of convulsions. There is nothing in it but the mother-in-law, the fool son-in-law and his wife, but that is enough to keep the large assembly in front happy all the time.

Clayton Sumner is a comedian. Helen Mae Page is beautiful and with much musical comedy effort the duo hand out a musical comedy sketch that "goes." Edwin George, a conjurer, is honestly entitled to a column of space for himself alone, but to give it would make him vain. He is a rare comedian and has a way with him that is all Irish for humor. It is one of those turns that are entertaining every instant; in fact, Edwin is fresh. The Grandioscope has a couple of good pictures.

Moran-Nelson Pictures.  
 Saturday night next the Nelsons.

## BRIBERY CASES MAY BE RE-OPENED

San Francisco Prosecution Will Act if Gallagher Returns to Bay City

San Francisco, March 14.—District Attorney Fickert intimated that should James L. Gallagher be returned here through a legal process he would move to withdraw his motions to dismiss the so-called graft cases and reopen the prosecution of Patrick Calhoun, A. K. DeWitt and others charged with municipal bribery.

Fickert's statement was made in response to the printed statement that Gallagher would be brought from his home in Vancouver, B. C., to face a felony charge in connection with real estate deals in Oakland. Should Gallagher be extradited he would be unable as a witness in the graft cases. Gallagher is regarded as the principal witness in the cases, having confessed

that he acted as go-between for Abraham Ruef and the hoodling board of supervisors in many briberies.

MANUAL TRAINING.

Revelstoke, March 11.—The city will probably have a manual training school established here before the snows of next winter fly. H. Dunnell, provincial inspector of manual training, was in the city the other day and met the school board. After explaining the nature of the training, the cost of the initial apparatus and maintenance, together with the assistance offered by the government, the board expressed themselves as very favorably inclined toward purchasing the

### TALES MEN AFRAID TO SERVE ON JURY

#### Judge Will Punish Men Who Refuse Duty at Trial of Camorraists

Viterbo, Italy, March 13.—Continued fear of the Camorra on the part of talesmen in the trial of 40 members of the band for murder, caused Judge Bianchi to-day to announce that he would punish the respective jurors who should attempt to evade service through false excuses.

"Two panels already have been exhausted," said the judge. "We must force men to do jury duty. Beginning to-morrow I intend to inflict jail sentences on every man offering an invalid excuse."

Public interest in the trial, which will be resumed to-morrow, was increased to-day by the news that Ciro Vitozzi, formerly a priest and now one of the defendants, is in a serious condition as a result of heart failure.

#### MAP FOR AIRMEN.

Paris, March 14.—The first airman's map has appeared in Paris. It was designed by the French army geographical department, a further evidence of the value set upon aviation by the French war department. Aviators have complained that existing maps are of little use to them, so Commandant Pollachi has set to work to provide them with something better. He began with the district of Chalons, where the flying school of Mourmelon is situated, and this is first to be published. It is printed boldly in six colors corresponding with what an airman can see of the earth from an altitude of 600 feet.

#### M. ST REMAIN IN JAIL.

Santa Rosa, Cal., March 14.—Judge Emmett Seawell denied yesterday the petition for a writ of habeas corpus for Dr. Willard P. Burke. Three physicians swore that Burke's health was being undermined by confinement and that unless liberated he would contract consumption. Three other physicians testified that an examination showed Burke to be in excellent physical condition.

This means that the aged sanitarium proprietor will have to remain in jail until arguments for an appeal from his ten-year sentence are heard early in July.

#### RAILWAY FREIGHT RATES.

All Schedules for Advance Have Been Withdrawn.

Washington, D. C., March 14.—All schedules for advanced freight rates disallowed by the interstate commerce commission have been withdrawn. The last schedules were withdrawn yesterday and a formal order of suspension will not now be necessary on the part of the commission.

### NO MORE DISTRESS FROM THE STOMACH

Dyspepsia, Gas, Indigestion and  
Heartburn Vanish and You Feel  
Fine in Five Minutes.

Every family here ought to keep some Pape's in the house, as any one of you may have an attack of indigestion or stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a distressed, out-of-order stomach five minutes afterwards.

If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Ask your Pharmacist for a 50-cent case of Pape's Diapepsin, and take a little just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Twisting Headaches, Dizziness of intestinal griping. This will all go, and besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there.

Get in five minutes from all stomach misery at any drug store, waiting for you.

These large 50-cent cases contain more than sufficient to cure almost any chronic case of Dyspepsia, Indigestion or any other stomach trouble.

#### ADMIRALS IN TRAINING.

Twelve rear-admirals, 22 captains and 10 commanders were selected to attend for instruction at one or more of the special training courses which started recently at Portsmouth.

The courses are grouped under four heads—war, signals, gunnery and torpedo—and they are usually taken in pairs in the order given.

Among the officers who are taking the war and signal courses are Rear-Admiral F. T. Hamilton lately commanding the Fifth Cruiser Squadron; Rear-Admiral the Hon. Stanley Colville, who will shortly be relieved of the command of the First Cruiser Squadron, and Rear-Admirals H. Lyon, Charles Dundas of Dundas, David Beatty, H. W. Savory and C. G. F. Cradock. The officers taking the gunnery and torpedo courses include Rear-Admiral Sir C. R. Koppel, C. H. H. Moore, H. L. Tottenham, W. B. Fisher and L. G. Tuftnell.

The best seat in the house is a chair seat made of three-ply cane; in eleven sizes and shapes, 15c. each. Measure your chair and we can suit you. R. A. Brown & Co., 1362 Douglas Street.

"Comox" First Prize Creamery Butter. All grocers. 45c.

# Westwood Farm Subdivision

THE tramline which the B. C. Electric Railway now propose to construct runs through this property with stopping station on it. There is plenty of rich land, good springs and lovely building sites. It is close to church and school, and quite close to Prospect lake, and is in a beautiful, sunny and cheerful location. When the line is constructed it will be only a few minutes' run to town. You ought to consider this. You can buy from six acres up to small coast, compared with city lots. Make a delightful home with a nice garden. Keep your own cow and poultry. You may like the country better than living in the city, where you are at work all day. It is a change. We consider this property a splendid investment and we are of the opinion that it is only a question of time before you would nearly double your money. Prices, \$350 per acre and up.

\$40,000 TO LOAN ON MORTGAGE

THE ABOVE ARE SPLENDID BUYS AND SHOULD APPEAL TO THE HOMESEKER.

TO BEGIN WORK ON NEW HOSPITAL

Directors of New Westminster Institution Preparing for Early Start

New Westminster, March 3.—Every effort will now be made to start the construction of the new Royal Columbian hospital. The new building will cost in the neighborhood of \$175,000, and will be erected on the seven and one-half acre hospital reserve, where the old hospital is now situated. When completed the new building will accommodate 165 patients, aside from the maternity cottage. It has been decided, in order to increase the building fund, to dispose of three lots which the board of managers own in Sapperton, and tenders for these will be called for shortly. They are lots 3, 4 and 17 of subdivision 2, lot 6, suburban block 1. The returns from these, together with the \$20,000 grant from the provincial government and the \$30,000 from the city, will greatly help the board of managers.

At a special meeting of the hospital board Miss Mary Martin, for the past eight years matron of the hospital, handed in her resignation. She was the recipient of addresses of appreciation from the hospital board and the nursing staff. Her place was filled by Miss Jessie Scott, formerly assistant lady superintendent of Toronto General hospital, and later superintendent of the Calgary General hospital.

It was decided to raise the salaries of the pupil nurses, which in the past have been six dollars a month for the first year, eight for the second, and ten for the third. In future the salary will be twelve dollars a month for the first year, fifteen a month for the second, and twenty dollars a month for the third year. The next meeting of the board will be held March 20, when tenders for the new hospital building will be opened.

NEW STAMP MILL Nelson, March 11.—That good progress is being made in the development of the Neepawa mine, which adjoins the Enterprise on Ten-mile Creek in the Slokan district; that the Van Roi mill is installed with the exception of the crusher, and that the Hewitt mill will in all probability make use of the Wakefield mill this coming spring and summer was the statement made by E. Shannon, superintendent of the Enterprise, which is under lease to Mr. S. S. Fowler, and operator of the Neepawa.

At the Neepawa the long tunnel, which is now in some 1,000 feet, is being extended for the purpose of hitting the ore shoot. It is believed that the present workings are about under the ore body, and that the object of the present development will be attained within the next few weeks.

For the past year the Van Roi Mining company has had the Wakefield syndicate, of which M. S. Davys is the head, under lease. The mill is located just across the creek from the Hewitt, where steady development has been progressing for the past two years under the management of George Stillwell.

It is stated that there is a large amount of low grade ore blocked out on this property and that the operators are only awaiting an opportune time to commence heavy shipments to the smelter. Now that the Van Roi mill is practically completed the Hewitt will again use the Wakefield mill. The Van Roi is expected to commence operations on a large scale about the middle of this month.

CURFEW LAW WORKS Vancouver, March 12.—According to Probation Officer Collier the notice that the curfew law was to be enforced in Vancouver has had a salutary effect. While waiting at the Probation office and his assistant Mr. Heater, took a tour of inspection through the leading streets and visiting many of the cheap theatres, but they did not find a single small boy after 9 o'clock, though there may have been about half a dozen children accompanied by their parents.

SMELTER AT KAMLOOPS Kamloops, March 13.—A meeting was held here between the members of the council, board of trade and citizens, with Messrs. Wallender and Eaton of the Iron Mask mine at which was discussed a proposition for the erection of a smelter in this vicinity. Mr. Wallender stated that the Iron Mask company did not absolutely require a smelter at the present time since by improved methods of treatment they are saving from 20 to 25 per cent more copper from the ore now than was done in the old concentrator, sooner or later, however, a smelter will be needed and he laid a proposal before the meeting and which will be more fully discussed at the meeting of the board of trade this evening. In brief, the proposition is that a company will be incorporated under the laws of B. C. to carry on the mine and to erect a 250-ton smelter. The citizens of Kamloops are asked to take up 5,000 shares valued at \$50,000 of the total capitalization of \$2,000,000. The present owners of the mine will be on the same footing as other shareholders, there will be no promoters' stock and only a sufficient number of shares will be sold to provide necessary ex-

UNCLE WALT The Poet-Philosopher

How sweet it is to take your seat when hungry; at a groaning board, and loosen up your belt and eat! The man thus gifted can afford to grin at all life's little ills, at fortune's frowns, however grim, at druggists and at doctors' bills—this world is just a snap to him! Dyspeptic people, driven daft, by foolish fads, look on and say: "He ought to try the Fishy graft, and chew his food half a day. To swallow smoking food like that is nothing better than a sin; yet he seems strong and beefy fat, and we are bilious, weak and thin!" Other cranks look on and sigh, and cry: "Great ginger! What ought to try the Fishy graft, and chew his food half a day. To swallow smoking food like that is nothing better than a sin; yet he seems strong and beefy fat, and we are bilious, weak and thin!" And other faddists wear the jaw, and keep the air with protests warm; he ought to eat his victual raw, or take them down in capsule form. He takes to heart the dinner-horn, invite him to increase his weight; he laughs the idle fads to scorn, and eats as Father Adam ate.

Waverly Hydraulic Mining Company, Limited. Location of Works, Grouse Creek, Cariboo, 1-1/2 h. Columbia. "Own Your Own Home" Was Joe Chamberlain's Advice

There's no advice so good to-day for the people of Vancouver Island. There certainly is an incentive to buying at once when one realizes how prices are forging ahead.

Here's a Fine Little Home For \$1,850

A nice, comfortable five roomed house on Hillside Avenue and only \$300 cash will handle it. Balance can go as rent. A fine snap for some discerning person.

Before you build a home you'll have to get a lot to build on. Come and consult with us. We've the best opportunities for "turn-overs" or for desirable home locations in the city and vicinity. Here are two splendid buys:

24 Lots For Only \$12,000. Single Lots For \$800 Easy Terms

Much money can be made in these. Located close to Florence Street and Old Esquimalt Road. These choice lots will be snapped up quickly. Make up your mind to let us show you them to-day.

Five Acres Close to Sydney For \$2,500

There's much speculative value attached to this as it is all cleared and car-line within one hundred feet. No location in North Saanich is finer. We can offer you easy terms, too.

PROSPECTS BRIGHT FOR ACTIVE SEASON

Many Properties in Silver-Lead Camps Will Be Developed

Nelson, March 11.—The prospects for an active season in mining on the upper lake and particularly in the Kasto and Ainsworth silver-lead camps, looks very substantial, said H. Giegerich, the well known mining man. "In the immediate district of Kasto," said Mr. Giegerich, "I might first mention the Cork mine on the south fork of Kasto creek, this property being owned by a French company, of which A. Fournier is manager. The Cork shipped from 1907 to 1909 and is equipped with a 100 ton concentrator, and a compressor. The upper workings are more or less worked out and the company is figuring on installing machinery to sink, this season.

"At the head of the south fork above the Cork, is the Joker, of which Count Perpigna is manager. The Joker will set up its compressor in the spring.

"The Utica, on Paddy's Peak, on the north fork, made a shipment in January from its small ledge of shipping ore, and I understand they are talking of erecting a concentrator in the spring for the handling of the big ledge of low grade ore which they have.

"It goes without saying, of course, that the Rambler-Cariboo and the Whitewater will be active mines this season. The Rambler-Cariboo has been shipping regularly by way of Three Forks.

"In the Ainsworth camp, the Highland has six men employed stoping between the second and third levels.

"The single factor of greatest promise in the camp is the deal by which three well known mining men of the Republic camp have acquired the Hobson group, Bob Maby being the leader. The standing of these men gives reason for the belief that this property will be the scene of active development work.

"The Long Highlander tunnel, which has a length of 2800 feet, it is calculated is within 200 feet or so of the big ledge of the Little Donald, Black Diamond and Maestro, and from the work now going on it is assumed that the Philadelphia owners of the property will push this tunnel on to the ledge.

"If only a portion of the probable activity now in sight for either camp, materializes, the season will be an unusually active one. As a matter of fact these camps have the ore, and it seems to me that, in the case of Ainsworth at least, a revival is indicated."

CITY OF VICTORIA

A complete list of Local Improvement Works, authorized by By-Law, from time to time, will be found posted on the Bulletin Board at the main entrance to the City Hall.

VICTORIA SPECIAL ELECTIONS ACT, 1911

NOTICE IS HEREBY GIVEN to those wishing to qualify to vote as householders, or under licence, that the City Assessor's Office, City Hall, will be kept open each office day until the 15th inst. (inclusive), until 8 p.m., for the purpose of taking declarations as householders or licensees. The road tax collector will be in attendance to receive the \$2.00 tax from declarants. WELINGTON J. DOWLER, City Clerk's Office Victoria, B. C., March 8th, 1911.

To Contractors

Tenders are invited up to 1 p. m. of Wednesday, March 15th, 1911, for the erection and completion of a Biscuit Factory for Messrs. Popham Bros., on Russell Street, Victoria West. The lowest or any tender not necessarily accepted. Plans and specifications may be seen at the office of H. S. GRIFFITH, Architect, 1004 Government St., Victoria.

Shipchangers. Sole Agents.

### AUTOMOBILE CASES

#### IN POLICE COURT

#### Lieut. - Governor's Chauffeur Among Sinners—No Further Remands Allowed

With some \$20,000 worth of automobiles lined up outside, and the city hall corner looking like a motor show, Magistrate Jay this morning presided over the second automobile session in the police court, and having disposed of some of the cases on remand until Thursday, administered a \$20 fine to George Morris, chauffeur for His Honor Lieutenant-Governor Patterson, and a \$20 fine to Benjamin Grossman, who yesterday wanted to bring a witness. The witness was Gordon Burdick, who said he did not know what speed the car was travelling as he was at the time paying more attention to real estate than to auto speed.

The Lieutenant-Governor's chauffeur was attended by Capt. Muskett, who told His Worship he had come to see the case through and not as a witness. George Morris pleaded not guilty because there was a mistake in the date. The error in the date having been rectified, the chauffeur said he had not been guilty of an offence before and had been driving for four years. The prosecuting witness was Mounted Constable S. J. Beckton.

Herbert Cuthbert, a real estate dealer, wanted a remand and J. H. Austin, his lawyer, appeared on his behalf. The case will be heard on Thursday. W. E. Holmes, who will be represented at the hearing by Elliott & Shandley, also got a remand through his lawyers until Thursday. These are the only two cases of the big batch the police have on hand that will be remanded.

City Prosecutor Harrison said this morning that consensibles on afternoon duty, having obtained the evidence, could not be brought to the court day after day as witnesses out of their regular hours for the convenience of those who are alleged to have sinned against the law. In future all defendants, he said, will have to be on hand the day the summonses call for, otherwise he will ask to have them dealt with peremptorily by the magistrate.

Both offenders fined this morning committed the breaches of the law on Rockland and Linden avenues. George Morris was taking some gentleman to the Vancouver boat in the afternoon, and the mounted constable said he had the previous afternoon also hit up a big speed when driving some ladies along Rockland avenue.

Magistrate Jay told the defendants the law now provided that they had to prove the speed of the machine to be not over ten miles an hour, and that the fine might range anywhere from \$5 to \$20. To Grossman, who has been before the court and fined for a similar offence, the magistrate said, if he came again it might be a heavier fine.

#### WEATHER BULLETIN.

Daily Report—Furnished by the Victoria Meteorological Department.

Victoria, March 14—5 a. m.—The barometer is abnormally high over the North Pacific slope, and fair weather is general with moderate northerly winds along the Coast. The weather is turning colder in the prairie provinces, and high northerly winds are reported in Manitoba.

#### REAL ESTATE ACTIVITY.

Present Movement Unprecedented in the History of Victoria.

The glorious weather which prevailed yesterday was taken full advantage of by seekers after real estate investments, with the result that in every direction, particularly in the outlying sections of the city where the new sub-divisions are being put on the market, hundreds of people were to be noted "snooping out the land." Victoria has never before in its history seen anything like the present activity in real estate. A feature of the buying is that most of the sales are in small purchases, that is to workingmen who are intending to build homes. Much property is, however, being acquired by people from the Northwest prairie provinces, and the numerous sub-divisions which have recently been put on the market are being handled by local syndicates.

Wm. H. Turner.

Wm. H. Turner who is to be seen in this city this evening in "Father and the Boys," was in a recent gathering at the Green Room Club when some of the party said to him, "I say, Billy, how the dickens do you make people laugh? You look more like a serious minister than a laugh merchant."

"Boys," replied Mr. Turner slowly, "I've always had the same idea myself, and while I've never made the fact public I started out on my career as an actor with the firm belief that I was going to write my name in the Halls of Fame as the one actor who could bring copious tears from an audience. I was ambitious to make ten shed tears to \$100. To Grossman, when I had a mission and I tackled the job bravely but do you know the great theatre public never sided with me—they simply would not cry. At first they giggled at my efforts then I was encouraged; that was hysteria of wrought up emotions, and I redoubled my water efforts, then the public laughed and the more I tried well—I'm not boastful but the people laughed and in doing so turned the whole bent of my actor life. They wouldn't cry so I had to keep on making my living by making them laugh, and it's not so bad either."

"David Harum" was a winner for over four years and now "Father and the Boys" looks even better to me than that. But I'll play a part some day and make 'em cry. See if I don't."

MEXICAN PRISON OUTBREAK.

Vera Cruz, Mex., March 14—Overpowering and killing the guard who opened the door of the jail to give them their coffee, forty prisoners made a break for liberty. Few persons were on the street, but small groups of policemen attempted to capture the fugitives. From the jail to the outskirts of the city the fight between the policemen and prisoners continued, but all escaped except one, who was captured and killed. One policeman was killed and three were wounded. The prisoner who was killed is believed to have been the one who planned the escape. Mounted police are pursuing the fugitives.

THREE TRAINS BLOCKED.

Cincinnati, O., March 14.—With the exception of the holding up of three trains at King's Mountain, Ky., by sympathizers of the striking firemen of the Cincinnati, New Orleans and Texas Pacific railroad, no action of a violent character is reported between Chattanooga and this city. No freight trains were moved to-day between Somerset and Chattanooga, and but few trains were run between Somerset and Cincinnati.

Some body will trip on that old carpet

The new patterns are prettier and better too

As to Values None Do or Can Give Better

We Let Others Try to. Why? Because Truth is Powerful

Dear Amy—

Isn't it dreadful to have a hole in the carpet? I used to try patching them, but I soon found that when a carpet was worn out in one place it was worn out all over. I decided the best thing to do was to throw out the old carpets and get brand new ones. The designs in carpets are getting more beautiful all the time, anyhow. The last one I bought is the prettiest one I've ever had.

Always your friend, Lou.

P. S.—I got my new carpet at Weiler Bros.' big store; it's a reliable place to get a carpet. I'm always going to deal there.

Our stock of Spring Carpets has now been opened and never in the history of the country has such a stock been submitted for your inspection and selection. Every weave, every grade, style, color and design is well represented. We would respectfully suggest that your selection be made early as possible, as owing to the amount of work on hand, it may not be possible to give as prompt delivery as we would like to.

#### AXMINSTER CARPET

The Axminster is unrivalled for the luxurious appearance and exquisite shading of color. We have a tremendous range of color and design in this favorite weave of carpet, suitable for every style of apartment. Per yard, \$3.75, \$3.00, \$2.75, \$2.50, \$2.25 .....

#### AXBURY CARPET

The famous Axbury is of a close weave, deep pile. The surface has the appearance of a hand-woven rug. It equals the Wilton for wearing qualities. In very rich Oriental effects, with indigo, camel and crimson grounds, 27-inch and 36-inch Stair Carpet to match. A carpet we can stake our reputation on. In one grade only. Per yard .....

#### WILTON CARPET

This carpet has a fine surface, closely woven with a rich velvety effect, and is the most durable carpet made. In rich Oriental and conventional designs, with 27-inch and 36-inch Stair Carpets to match. Prices, per yard, \$3.50, \$2.75, \$2.50, \$2.25 and \$2

#### BRUSSELS CARPET

The Brussels Carpet is easily the best known and most widely used carpet that is made. We have every worthy grade in a vast variety of styles and colors for the halls, stairs, dining room and sitting room use. Priced at, per yard, \$2.00, \$1.75, \$1.60, \$1.50 .....

NEW CURTAINS AND DRAPERY MATERIALS HAVE BEEN ARRIVING LATELY. DON'T MISS THEM.
