A MODEL HOUSE.—Send Script for Description. GEO. J. COLBY, Architect, Waterbury, Vt.

NEW YORK, June 28, 1870.

Extreme dullness, chiefly resulting from the uncertainty of the final fate in Congress of the Currency and Funding bills, and only occasionally relieved by short spasms of an artificially engineered activity, has been the feature in financial and speculative regions of Wall and Broad streets during the month—since the 27th ult. But for that dullness, the loss by the city banks of an aggregate of over six millions of dollars in their surplus over the legal requirement, reflecting the flow of currency from this business centre towards the Southwest, for moving the cotton and grain crops, might have seriously disturbed the money market. As it was, money remained in abundant supply and easy. Yet, if the drain on our banks continue, as it probably will for some time to come, and with the adjournment of Congress, the various markets become more settled and active, a more active money market will follow, which might become stringent, should "the cliques" find it to their interest to "drop" one or more of their inflated stock-bubbles which they have so far successfully sustained.

Rates of interest for call loans on stock-collaterals range from 3 to 5 per cent on extreme quotations. In commercial paper little is done. Prime acceptances are readily discounted at 5@6 per cent, and inferior notes and of long dates passing at 7@9. Foreign exchanges are, to-day, strong on the basis of sterling, 60 days', commercial, 109 $\frac{1}{2}$ @109 $\frac{1}{2}$; bankers', 109 $\frac{1}{2}$ @109 $\frac{1}{2}$; shortsight, 110 $\frac{1}{2}$ @110 $\frac{1}{2}$.

Gold has, since our last report—13th inst.—declined 2 per cent. Its extreme quotations during the month were 115 $\frac{1}{2}$ @110 $\frac{1}{2}$. At the time of our writing it sells at 111 $\frac{1}{4}$. The most recent "break" in this market has been occasioned by a broker's firm—Boyd—having failed, which necessitated the "sale under the rule of several millions of long gold," at the same time also scaring other "bulls" into "throwing off their loads." When the disbursements by the Treasury for July coupons will have been absorbed by the street, and the cliques possessed themselves of a considerable portion thereof at the lowest possible figure, then might another vigorous "bull campaign in gold" be looked for, to be assisted chiefly by alarming and sensational telegrams from all parts of the globe, unless the promising crops of this blessed country be to any large extent called for to alleviate foreign wants.

For to-day's quotations in the various branches of the New York Stock Exchange, see page 27.

The German American Bank will open a banking institution in the Equitable Life Building, Broadway. They have commenced under very favorable circumstances, and their stock is being disposed of rapidly, as their books now show; in fact, nearly seven-eighths is disposed of already. They have as officers, Emil Sauer, as President, who is well and favorably known of the late house of Kammlah, Sauer & Co., for the last fifteen years, and as Cashier, Mr. O. H. Schreiner, well known as the late cashier of the Chatham National Bank of this city; and their Board of Directors is composed of men of long standing and commercial ability, in this city principally.

A popular argument with the advocates of an increased issue of paper money is the supposed equal distribution of the currency which such an increase could be made to produce. Careful computations are gone into of the number of inhabitants of each State and Territory, and a certain amount of circulating notes allotted, to be issued by the banks in each, proportionate to the population. It is fondly hoped that by this expedient each locality will always have a fair supply of money, and easy times universally prevail. That all such expectations are based upon ignorance of the practical working of financial laws, nobody in this region need be told; and it is a pity our members of Congress are not as well informed. Money goes wherever there is property to be bought and sold. If a Western farmer wants money, he can always get it by selling his crops; but after he has sold them and spent the money for dry goods and groceries, he cannot expect to receive any more money till the next year. Meanwhile, the bills of the bank in his county town will come hither to Wall street, and be used in the vast commercial transactions of this metropolis. Issue a hundred millions more of such bills or of greenbacks, and they would all be here within twelve months. When any part of the country gets so rich that it has a large local trade of its own all the year round, it will have no lack of money to do that trade with. What we do want, though, is a free banking law, which will permit the whole matter to be regulated by the laws of supply and demand.

About three weeks ago some adroit thief entered the room in the Treasury building in Washington, where are counted the National bank bills, and stole a package containing \$20,000. On the 28th inst., Treasurer Spinner was informed that a person was arrested in this city, who was supposed to be the thief, and \$6,400 of the money was recovered.

Shortly after the correction of our Dry Goods Report for this edition an attempt to relieve the monotony of dull trade was made by jobbers, some of whom reduced several brands of standard goods to 13c per yard; but in view of the entire absence of buyers from the market, the attempt was not a success. Among the brands reduced were Appleton A, Atlantic H, Lawrence X and Indian Head, but prices are recovering again. Trade movement may be somewhat augmented by this action, but there is but little reason to hope for any activity for some weeks yet. Sales are light, but up to expectations, considering the warm weather.

NEW LAWS OF NEW YORK.

An Act Relating to Banking.

CHAP. 163.—An act to amend the act entitled "An act to authorize the business of Banking," passed April eighteen, eighteen hundred and thirty-eight.

SECTION 1. Every banking association organized and doing business under and by virtue of the act entitled "An act to authorize the business of Banking," passed April eighteen, eighteen hundred and thirty-eight, and the various acts supplementary thereto and amendatory thereof, is hereby authorized to take, receive, reserve, and charge on every loan or discount made, or upon any note, bill of exchange, or other evidence of debt, interest at the rate of seven per cent per annum, and such interest may be taken in advance, reckoning the days for which the note, bill or other evidence of debt has to run. The knowingly taking, receiving, or reserving or charging a rate of interest greater than aforesaid, shall be held and adjudged a forfeiture of the entire interest which the note, bill, or other evidence of debt carries with it, or which has been agreed to be paid thereon, and in case a greater rate of interest has been paid, the person or persons paying the same, or their legal representatives, may recover back twice the amount of the interest thus paid from the association taking or receiving the same; provided, that such action is commenced within two years from the time the said excess of interest is taken. But the purchase, discount or sale of a bona fide bill of exchange, note, or other evidence of debt, payable at another place than the place of such purchase, discount or sale, at not more than the current rate of exchange for sight-drafts, or a reasonable charge for collecting the same, in addition to the interest, shall not be considered as taking or receiving a greater rate of interest than seven per cent per annum.

SEC. 2. It is hereby declared that the true intent and meaning of this act is to place the banking associations organized and doing business as aforesaid, on an equality, in the particulars in this act referred to, with the national banks organized under the acts of Congress, entitled "An act to provide a national currency, secured by a pledge of United States bonds, and to provide for the circulation and redemption thereof," approved June third, eighteen hundred and sixty-four. And all acts and parts of acts inconsistent with the provisions hereof are hereby repealed.

SEC. 3. This act shall take effect immediately. Passed April 9, 1870.

The following notice has been sent to all bankers and brokers on this continent—

THE "SINGER" NEW

Family Sewing Machine,

With Attachments for all kinds of Work,
IS FAST WINNING FAVOR IN THE HOUSEHOLD,
AS SHOWN BY THE SALES OF LAST YEAR,
AMOUNTING TO EIGHTY-SIX THOUSAND,
SEVEN HUNDRED AND EIGHTY-ONE
MACHINES, WHICH FAR EXCEED
THOSE OF ANY OTHER
COMPANY.

This new FAMILY MACHINE is capable of a range and variety of work such as was thought impossible, a short time ago, to perform by machinery. We claim, and can show those whom it may concern, that it is the cheapest, most beautiful, delicately arranged, neatly adjusted, easily operated, and smoothly running of all the Family Sewing Machines. It is remarkable, not only for the range and variety of its sewing, but also for the variety and different KINDS OF TEXTURE which it will sew with equal facility and perfection, using Silk, Twist, Linen or Cotton Thread, fine or coarse, making the INTERLOCKED ELASTIC-STITCH, alike on both sides of the fabric sewn. Thus beaver cloth, or leather, may be sewn with great strength and uniformity of stitch, and in a moment this willing and never wearying machine may be adjusted for fine work on gauze or gossamer tissue, or the tucking of tarletan, or ruffling, or almost any other work which delicate fingers have been known to perform.

Purchasers can soon be convinced that our new Family Machine embodies NEW and essential principles—simplicity of construction—ease of operation—uniformity of PRECISE action at any speed—capacity for range and variety of work, fine or coarse, leaving all rivals behind it.

THE FOLDING CASES.

The new Family Machine may be had in a variety of folding covers and cases. Some show in polished surface only the grain and tint of the wood, while others are finished in all the elaboration of art.

ATTACHMENTS

For Hemming, Felling, Ruffling, Braiding, Binding, Cording, Gathering, Tucking, Embroidering, and so forth, are not only numerous, but now brought to great perfection. Most of them can be attached or detached by a simple move of the hand. The quality of the work can only be fully appreciated on observation and examination.

MACHINE TWIST,

LINEN THREAD, SPOOL COTTON, OIL, &c.

We have and shall keep in stock at our Central Office, and Agencies, (on spools of various sizes,) Twist or all sizes and colors—Linen Thread, Spool Cotton, Oil, and all other articles necessary in the use of our machines.

We wish it understood that we manufacture the Twist sold by us; that we shall aim to have it excel in quality and exceed in quantity, for a given price, that of any other manufacturers, and that the Twist (made by us in our new and extensive mills, supplied as they are with the most improved machinery and skilled labor) can be relied on for the desirable qualities of uniformity of size, evenness, length of thread as marked on each spool, strength, excellence of color, and beauty of finish.

Counterfeit Tobacco Stamps.

The points of difference between the counterfeit and the genuine stamp are so marked as to be easily detected by the glass. They are as follows:

FIRST: The imprint in the counterfeit is badly engraved, and a trifle larger than the genuine. The words "Continental Bank Note Co., New York," in the genuine are small, distinct, and not connected, each letter standing separate, while in the counterfeit the letters are heavier, and more crowded, larger, and closer together, and in the word "Continental" the "i" joins the "n," making the "i" and "n" look like an "m," with a period at the end of the imprint in the counterfeit, which is omitted in the genuine.

SECOND: In the sky of the counterfeit, over the mane of the horse, will be observed four small dots: in the genuine the sky is made of straight lines.

THIRD: The ornamentations resembling small stars on each side of the vignette in the lattice work of the counterfeit look imperfect and blurred, while in the genuine they appear bright.

FOURTH: Over the white faced figure "6" on the left side of the stamp in the genuine is a small black figure, a part of the lattice work pattern which is wanting in the counterfeit, and the imitation lattice work of the counterfeit has a muddy appearance, while in the genuine the patterns are clear and distinct.

NEW COUNTERFEITS.

Every counterfeit that has ever been made has one or more mistakes in it. Our aim is to show what that mistake is.

FIRST NAT. BK, Philadelphia, Pa.

10s, imitation. Well executed and a very dangerous counterfeit. This is the second 10 on this bank, and all the omissions on the first plate are corrected in this issue.

ONEIDA NATIONAL BK, Utica, N. Y.

20s, imitation. The paper is rather poor, the shading irregular, impression imperfect. The child on the lap of the Indian girl, on back of the bill is very indistinct. Dangerous.

50 CENT FRACTIONAL CURRENCY.

New Issue—A very good counterfeit. The portrait of Lincoln is coarser and darker than the genuine, and the lattice work in the centre of the die is also darker.

TRADESMEN'S NAT. BK, N. Y. CITY.

20s, imitation. The paper is rather poor, the shading irregular, and impression imperfect, but it is a very dangerous counterfeit. The words "New York," read "Mew York."

UTICA CITY NAT. BANK, Utica, N. Y.

20s, imitation. Well done and very likely to deceive.

5s, GREENBACKS.

The green ornamental engraving, lengthwise of the bill, in the counterfeit, is of a paler color than in the genuine, and has a brighter look than the dark green of the original. Seen under the microscope the engraving is coarse, but to the naked eye the bills have a very good appearance.

10s GREENBACKS.

The engraving is coarse. The vignette of Lincoln is a very indifferent engraving, and the scroll work around the medallion is poorly imitated. Letter C, twenty-third series.

10s, GREENBACKS.

An excellent imitation of the genuine. Note the following discrepancies. In the genuine, the shading around the 10 in the medallion appears like a fine net work, and runs close up to the figures. In the counterfeit, the shading is "picked up," and becomes coarser as it reaches the figures, forming a light streak or circular haze. Another test is on the figure 10 within the light circle. The genuine has three and one-third dots on the left on the fig. 10, while the counterfeit has but three. Thus:

GENUINE. COUNTERFEIT.

10 10

But the surest test is under the left wing of the eagle. The genuine has FOUR DISTINCT ROWS OF FEATHERS under the wing, while in the counterfeit the rows of feathers are undefined. One issue of this counterfeit is of the new series, letter D, No. 53; another is letter D, with a small 5 under the D, No. 23. These counterfeits are the best we have ever seen.

Newer issues have appeared lately, in which the defects above referred to have been corrected. We would advise our patrons to refuse all tens, greenbacks, unless they know the parties from whom they receive them.

20s, GREENBACKS.

A dangerous counterfeit. Green ink a good color, but the paper too yellow. Principal defect is the die. No clear and distinct lines around the 20. Looks more like a collection of several spots. Female well done, but the face rather coarser than the genuine.

50s, GREENBACKS.

Imitation. Observe the figures 50 on back of the bill around the margin. The 5 in the imitation runs into the 0 on the lower left corner, and reads 550 instead of 50. The buttons on Hamilton's vest which are very distinct in genuine are scarcely discernible in the counterfeit. Genuine has FIVE while in the counterfeit you can hardly see FOUR. The note is dated March 10th, 1863. We would advise our patrons to scrutinize carefully all \$50 Treasury Notes, unless they know the parties from whom they receive them.

FRAUDULENT BANKS.

Lynn Park National Bank, N. Y. (No such bank.)

2s. Very well done.

Nat. Union Bank of Lindenpark N. Y.

2s, (NO SUCH BANK) well calculated to deceive.

National Bank of Idaho Territory.

10s. Well done.

National Bank of the State "IN" N. Y.

10s. Coarsely done.

Mechanics' National Bank of Janesville, N. Y.—(NO SUCH BANK.)

10s. A very good looking bill—look out for them.

20s, in center, a female erect, with sword and shield, between figure 20 and two green dies; figure 20 each side—TWENTY DOLLARS across each end in green die work—fancy green back.

50s left centre, oval portrait of Hamilton; Treasury die in pink on right of die; 50 on die on each end of note.

100s, upper left centre, large spread eagle sitting on a rock; Treasurer's die in pink and 100 in green die on right of vign.—right upper corner 100 on a black die—lower left corner 100 on a black die.

500s, in centre, portrait of Albert Gallatin enclosed in a green die—right end, 500; FIVE HUNDRED DOLLARS below—left end same as right.

1000s, in centre, portrait of Robert Morris in green circle—right end M with 1000 across it; ONE THOUSAND DOLLARS on a green die below—left end, same as right.

COUNTERFEIT GREENBACKS.

1s, (1st kind) can be readily detected by the inferior style of the engraving, particularly the head of Chase. The mouth is crooked, the eyes imperfect, and the hair on the top of the head resembles side hair brushed over to cover baldness. The back is of a lighter green than the genuine.

1s, (2d kind) the general appearance is very coarse and may readily be detected; green ink is very pale. On the imitation there is a BLACK STRAIGHT LINE under the red figures on the upper part of the bill; none in gen.

2s, imit., well executed. Coat of Hamilton badly done. The shirt bosom of Hamilton is very dark and uneven, but in the genuine white and plain. The shading of the words "UNITED STATES" light and broken.

5s, 10s, genuine notes without the red seal, and others reported without the usual number being printed upon them.

5s, imit., words "United States" heavily shaded. Gen. are clear, lightly shaded and plain. The words "Patented 30th June, 1861," under the words N. York are on the counterfeit bill. All the counterfeits are after A, and are $\frac{1}{2}$ inch shorter than the genuine.

On the new series of letter "A," around the figure of Liberty on left end is a plain black line. On the counterfeits, this line along the bottom of the figure running towards the right of the note forms two distinct lines, on gen. only one. But this

may be a counterfeiter's dodge to have it described and alter it afterwards.

5s, imit., this bill is well calculated to deceive, and the only difference we can detect is in the die on the right end enclosing the figure 5. The genuine has three black circles enclosing the 5. The imit. has only two, and on lower right end figure 8, and on left end series 90.

10s. Paper very light, and the green ink of a lighter shade. Dated March 10th, 1862.

10s alt'd from 1s, portrait of Chase on left.

10s imit. There are 16 small Xs on upper right margin, and only 15 on the genuine. The words "Printed by the National Bk Note Co." on lower left margin extends over 9 of the Xs on imit. and 8 on the genuine.

10s, imit., has 14 small x's on upper right margin—16 on left. The gen. has 15 x's each side of engravers name. Portrait of Pres't. Lincoln is very coarse and pale looking; imit. are dated Washington, March 10, 1862, letter C.

10s, very close imit. of gen., the engraving is good, in the center figure the foot of the female can scarcely be seen. On the left end bottom are the words "Payable at the Treasury of the U. S. at New York." The A's in payable are too small and uneven. The letter 'x' in the word 'The' is not crossed in the centre. The imprint is defective; the green ink is of too light a color.

50s, alt'd from 2s, portrait of Hamilton on left centre. The vignettes of the two-dollar and fifty-dollar Treasury note are the same. Ingenious persons are counterfeiting the body of the fifties and using the vignettes of the twos, producing a note that deceives experts.

50s, imit. observe the figures 50 on back of the bill around the margin, the 5 in the imit. runs into the 0, gen. does not. The word 'FIFTY' around the above 50 can scarcely be read. Words 'LAWAL TANNA' is very much blurred. Letter C dated March 8, '68. On the left lower corner the No. 550 instead of 50 enclosed in one circle.

50s, imit., observe the head of Hamilton, upon the face of the note, which represents the line of the waistcoat crossing the white collar at the neck. The acute angle formed by the shape of the collar, so far as it is shown, is perfect in the counterfeit note; but in the genuine the lines of the fash were drawn by the engraver across the point of the collar at its junction with the waistcoat, for the purpose of relieving the angle of the sharpness it would otherwise have exhibited. This difference is not readily observed unless the notes are perfectly clean. The other discrepancy is in the shape of the ornaments in the border on each end of the face of the bills, and in the whole border on the back. The figures "50" are engraved on a green ground, of which the rim, in the genuine bill, is in octagonal form, rather well defined, though the angles are not sharp. The eight sides of what at first view appeared to be circles, may be easily discerned. In the counterfeit bill the border ornaments, containing the "50" are octagonal in only a very slight degree, and seem to be perfect circles. The general appearance of the counterfeit gives no indication of its true character.

100s, imit. the red figures are much larger than the figures of any Treasury Notes, the wings or the eagle are very coarse—the double rule running from it is heavier, and the curve twice as large, while there is a diagonal shading at the joint of the imprint with the rule, which does not appear on the genuine. On the right end of the back of the bill, the 100 in the circles are inverted, thus, 001. In the genuine this inversion is on the left end. The imprint, American Bank Note Co., is very uneven, and too large.

100s, imit., (2d kind) of the notes issued under the act of February, 1862, well executed. The spurious note is smaller, and the coloring on the back is paler than on the genuine bill. The words "one hundred dollars" on the right hand side of the counterfeit are smaller than on the genuine note.

100s, imit., (3d kind) the note is smaller than the genuine, the spread eagle is very coarse, and the shading of UNITED STATES is badly done. The bill is calculated to deceive.

COUNTERFEIT COUPONS.

The following are the words on the coupons: "Acts of July 17 and August 5, 1861. The United States of America will pay to bearer fifteen dollars for six months' interest due 1st January, 1867, upon bond No. 786, for \$500. I. E. Chittenden, Register United States Treasury."

FIVE CENT COIN COUNTERFEITS.
Are in circulation. They may be distinguished from the genuine by the softness of the metal.

COUNTERFEIT**FRACTIONAL CURRENCY.****Old Issue.**

50s, imit., the portraits of Washington differs one from another; in the genuine they are all alike; the green color looks light and pale.

25s, imit., well executed. Look out.

2d Issue.

10s, imitation. All gen. on the top has the word "Depositaries," the imitation reads "Depositories."

50s, imit., have a pale slate color. The small barrels on lower right corner are very indistinct. The gen. have six barrels perfectly clear and plain. Three on lower row, two on next, and one on top. The counterfeit barrels are black, and gen. are white.

50s raised from 5s.

3d Issue.

50c. imit.; two kinds of the new long 50 cent currency. The imitation of one kind has DISINATED on upper right corner instead of DESIGNATED. The second kind has designated correctly spelt, but on the little American Shield, under the Eagle, there is a black line drawn across the upright bars of the Shield. Not so on the genuine.

25s, imit., are very pale and coarse. The letter G in cents on left end is smaller than the other letters, and too far off.

New Issue.

25, imitation. Above the words "Treasury Department," on the bottom of the bill in the genuine there is a fine horizontal line—the counterfeit has a straight line.

Notice the shading of the "25" on the back of the note. The genuine is dark, while the counterfeits is very pale, and very little darker than the other green. The word "of" on the face of the genuine appears thus—"of"—on the counterfeit "of."

25s, imit., well executed, but may be detected by the absence of a period (.) after the word Treasurer under Spinner's name; the work is better than any we have previously seen and liable to deceive unless carefully examined.

25s, well executed; head of Chittenden; where it reads "Furnished only by the Assistant Treasurer" the Assistant is spelt "Assistatn." In the genuine the shading of the letter "E" in "Five" is unbroken, while the counterfeit has a little notch in it.

50s, well executed. The engraving on the face of the note is excellent. The adverse is slightly blurred. The notes are an eighth of an inch narrower than the genuine.

50s, the "y" in "Colby's" name crosses a line of the coat in the genuine, but not in the counterfeit.

50s, the line of stars on counterfeit between the figures "50" at the top and bottom of the back of the note have white centres, while the entire stars on genuine are in green. The reading in black on the genuine note clear and distinct, while on the counterfeit the bronze is printed on the black, the words "FIFTY CENTS" being almost obliterated.

50s, well done. The last "e" in the signature of F. E. Spinner is omitted in some, and the (.) after print. on one end, and the d. after March 80.

50s. New and dangerous counterfeits of the last issue of the fifty cent fractional currency notes, which bear upon their face the head of Treasurer Spinner, have been detected by the Treasury Department. It can be detected by the absence of a period (.) after the word print on the right end, and also under the letter "d" in "March 8d," on the left end. The paper is thicker than that of the genuine notes, and the general appearance is calculated to deceive unless closely inspected.

COUNTERFEIT 7.30 BONDS.

The seal is slightly larger than the genuine; the red ink with which it is stamped is a shade lighter, and the points projecting from the seal are blurred and a little longer than the genuine. The imprint at the bottom of the face of the bond is set different in the margin, there being more space given it than in the genuine. The borders of the coupon which are attached to the counterfeit bonds are larger, while the red figures are finer than in the genuine. The borders of the ornamental lathework are blurred and somewhat indifferently executed. The figures denoting the bond are slightly uneven, while the blue ink in which they are printed is a duller blue and lacks the metallic glossy appearance of the genuine.

A counterfeit coupon for three dollars, purporting to belong to a one hundred dollar 5.20 bond, has been received at the Treasury Department, which had been sent from Germany to New York, cashed here and forwarded to Washington for collection. The counterfeit is a lithograph, and when compared with the genuine coupon it could be easily detected by the most inexperienced persons; as the execution is rough and inartistic, the paper thin and common, and a trifle shorter than the genuine coupon. It assumes to belong to the 5.20s of 1862, fourth series, and bore the stamp of some German house on the back, but too indistinctly to be deciphered fully.
