(4) Necessity for Movement and Use of Machinery and Equipment:

Since the outbreak of the Korean War the demand for bearings which play a very important roll in the industrial rehabilitation of Japanese industries has been increasing very remarkably. Consequently, we have begun to receive more orders than hitherto. We intend to work out a plan for more production ~~rehabilitation of Japan~~ in order to meet the demand and contribute to the industrial rehabilitation of Japan.

In order to carry out the plan successfully, it is more effective to increase the working ratio of the plants now in operation than to put the plants remaining idle into operation. This is why we intend to move the machinery of our Nakagawa Plant which is idle now and part of the machinery of our Kokubu Plant to our Takamatsu Plant and let the Plant specialize in the production of comparatively small-sized bearings and thus aim at the increase of production and of efficiency.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 115015

Application for Movement and Authorized
use of Designated Reparation Machinery
and Equipment

To : Ministry of International Trade and Industry.

From : Koyo Seiko Kabushiki Kaisha.

(1) Name and Location of the Plant which intends to use designated reparation machinary and equipment:

Koyo Seiko Kabushiki Kaisha, Takamatsu Plant,(Plant No. 17-3)

630, Kusugamicho, Takamatsu City.

(2) Name and Location of the Plant which designated reparation machinary and equipment to be used actually exist:

Koyo Seiko Kabushiki Kaisha, Nakagawa Plant
(Plant No. 32-115 Category: Bearing)

Koyo Seiko Kabushiki Kaisha, Kokubu Plant
(Plant No. 32-114 Category: Bearing)

(4) Necessity for Movement and Use of Machinery and Equipment:

Since the outbreak of the Korean War the demand for bearings which play a very important roll in the industrial rehabilitation of Japanese industries has been increasing very remarkably. Consequently, we have begun to receive more orders than hitherto. We intend to work out a plan for more production ~~rehabilitation of Japan~~ in order to meet the demand and contribute to the industrial rehabilitation of Japan.

In order to carry out the plan successfully, it is more effective to increase the working ratio of the plants now in operation than to put the plants remaining idle into operation. This is why we intend to move the machinery of our Nakagawa Plant which is idle now and part of the machinery of our Kokubu Plant to our Takamatsu Plant and let the Plant specialize in the production of comparatively small-sized bearings and thus aim at the increase of production and of efficiency.

APPLICATION FOR MOVEMENT AND AUTHORIZED USE OF DESIGNATED REPARATION MACHINERY AND EQUIPMENT

Date: May 15 1950

TO: Ministry of International Trade and Industry.

FROM: Koyo Seiko Kabushiki Kaisha.
Address: No.35 Sueomachi Minamiku Osaka City.

(1) Name (Code No.40-1) and Location for the plant which intends to use designated reparation machinery and equipment:
Koyo Seiko Kabushiki Kaisha, Tokushima Plant.
No. 81 5-Chome Shomachi Tokushima City.
Code No: 40-1

(2) Name Code No, Category; and location of the plant where designated reparation machinery and equipment to be used actually exist:

Code No: 32-114
Category: Bearing
Location: No.3432, Oaza Kokubu Kokubucho Minamikawachigun, Osaka Prefecture.

(3) List of designated reparation machinery and equipment to be moved and used:

(4) Necessity for movement and use of machinery and equipment:
The production of bearings for export is so important that the future fate of bearing circles can be greatly influenced by it. Our Company is strongly determined to make every effort possible to make more bearings. Recently we have accepted many orders from Europe. To cope with such a situation, our Tokushima Plant is going to take part in our new plan for increase of production. However, the arrangement of the machinery there is not rational and some kinds of machines are wanted.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175015

We consider it very necessary that the rate of production there be caused to rise by utilizing some of the idle machines at our Kokubu Plant. Hence this petition of ours.

(4) Destination of machines to be transfered:
No.3432 Kokubucho Minamikawachigun Osaka Prefecture.
Koyo Seiko K.K.Kokubu Plant.

(5) Method of costody at the destination:
Upon transference the machines will be kept in custody under the responsibility of the custodian in charge in accordance with "Essentials for custody of designated equipment" of 1946

(6) Reasons necessitating removal:
In view of the fact that the only way to get out of the difficulty with which the present bearing circles are faced is to put great importance to the production of bearings for export, we have accepted many orders from Europe and are now setting up a plan for export. One of the necessary steps to be taken is to rearrange the whole machinery in each radically, so that anything and everything available can be efficiently utilized.Under such circumstance, the our main Kokubu Plant intends to get the above-mentioned wanted machinery from the Tokushima Plant to increase its production. We shall be much obliged if you will approve this application, for we must execute all our orders accepted not later than the time of delivery.
