I think I can say the ~~object~~ object (or objects) was not a plane, but what else it was, I don't know. It was moving slowly & we all had an opportunity to get an excellent view of it. Of course the slowness could indicate a great height - I don't know. I didn't seem to get the impression that it was low.

Other than the fact that it was a spectacular sight & many commented on the beauty of it, I don't think I can't add anything further.

P.S. I was sober at the time.
