## Root Grafts Made to Order.

The Secret of success among many buyers of root grafts, is that they realize the importance of getting them of a firm who has an established reputation for furnishing grafts that will grow, as well as be true to name, without this favorable start you are handicapped. If a long experience, maturing yearly into an increased business until its volume is second to none, is worthy of note, we claim your attention. Get our prices on our regular Commercial grades or any special graft that might suit your wants or fancy.

### FRUIT TREE STOCKS.

We are still able to offer a good strong grade of No. 1 and No. 2 apple seedlings at reasonable prices. We have also to offer a full line of imported fruit tree stocks.

### APPLE TREES.

Our Prices are Reasonable, Varieties Consistent, Grade Excellent, Age two years.

**IMPORTANT.**—Do you appreciate the importance of the location of St. Joseph, Mo., as a shipping point? Not only on account of its central location but more especially because of its being a Missouri river terminal making a great saving in tariff rates over all inland towns far and near, in whatever direction and whether with or without competing lines.

# THE PRACTICAL NURSERYMAN.

A TRADE JOURNAL.

Vol. 4.

HUNTSVILLE, ALA., MAY, 1896.

No. 5

## THE PRAGTICAL NURSERYMAN.

PUBLICATION OFFICE:

HUNTSVILLE,

ALABAMA.

W. F. HEIKES, Editor and Manager.

Issued Monthly. Sent only to those in the trade. We do not solicit subscriptions. If you value THE PRACTICAL NURSERYMAN, please accept it with our compliments. Our circulation covers a list of 1,500 selected names of customers and correspondents, made up through many years of active wholesale business. Every name represents a buyer of nursery stock, and this list contains only the names of those who buy at wholesale.

Advertisements 10c. a line agate; \$20.00 a page; one-half page \$10.00; one-fourth page \$5.00. Advertisements must be handed in one week before the day of publication. Advertisements for less than \$5.00 will not be accepted. Discounts: 3 times 5 per cent.; 6 times 10 per cent.; 12 times 25 per cent.

The circulation of this Journal will be confined strictly to Nurserymen, Florists and Seedsmen, and only invited advertisements of articles pertaining specially to these trades will be inserted.

### The American Association of Nurserymen.

The twenty-first annual convention of the American Association of Nurserymen will be held on June 10th and 11th at Chicago, Ill. The Sherman House will be headquarters, and the sessions will be held in the Convention Hall of the hotel.

The Badge Book will give a complete list of members of the American Association of Nurserymen. The roll will be made up of those who immediately, on receipt of this circular, send to the Secretary, Geo. C. Seagers, Rochester, N. Y., the annual fee of Two Dollars. Each name will be numbered, and a badge with the same number will go with each book. Numbers will be given just in the order names are received. Do not delay or do not take it for granted that your name will be published without direct authorization from yourself.

If you send check, please include exchange.

The membership of this Association includes, almost without exception, the leading nurserymen of the country. Every live man ought to be a member.

### Raising Tree Seeds.

A Mobile, Alabama, correspondent says: "I find myself much in want of information on the vitality of tree seeds and the time required for their sprouting after being placed under ground. I readily raised plants of *Taxodium distichum* a year old, finding them to sprout a month or so after sowing. With the White Cedar, *Chamæcyparis thuyoides*, and the Red Cedar, *Juniperus Virginiana*, I never had such success."

There is no rule in regard to the germination of tree seeds. A quantity may be gathered from the same tree, be all preserved alike, and sown at the same time. Most of them may sprout the following spring; but a large number of plants will appear the following year, and often many will be found coming up the third year. No explanation has been given of these vagaries. A remarkable feature in tree-seed growing is, that most seeds have a period in spring in which they seem to love to sprout. If for any reason they do not germinate within that period, nothing will induce them to grow till the following Spring. They seem to have intelligence that they cannot mature the young plant, unless they start in good time during the Spring season. Seeds that have somewhat hard coatings are difficult to get to grow the same season when sown in Spring. Such seeds cannot usually be obtained till after the ground has frozen up in Autumn. In this case the method is to save the seeds till the growing season in Spring has passed, and then mix them with earth and sow the next Fall or Spring. This is termed, in the language of the seed-growers, putting the seeds in the rot heap. Such seeds as holly, hawthorn, and one of those inquired about by our correspondent, the Red Cedar, *Juniperus Virginiana*, are of this class. Most coniferous seeds grow easily the same season of sowing, though the harder-shelled ones, such as the Deciduous Cypress, *Taxodium distichum*, will have a few lie over till the second year.—*Meehan's Monthly*.

### Free Seed Distribution.

The limited free seed distribution voted by congress will now be made at once. Those who wish any of these seeds should apply at once direct to their senator or representative at Washington, D. C.

## THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

## THE HUNTSVILLE WHOLESALE NURSERIES

We do not print quotations this month. We wish an opportunity to correspond with those in need of stock we offer. We intend to make some special inducements to draw trade our way.

Our Surplus stock offered in box lots at St. Louis and Rochester were more difficult to sell than usual, showing that there was an over-supply of Kieffer Pears and Cherries on the market. Owing to the great freeze South in the Spring of 1894 we were obliged to cut our crop of Kieffers to the ground and let a new shoot grow. This brought us in two large crops at once. The depression in the financial affairs of the country had its influence also in reducing prices. There is now quite an improvement, manifested in better collections and better sales by agents operating for fall sales than for the past two years. Our supply of Kieffer Pears and Cherries will be light for Fall and Spring, as will be also our supply of Cherries, compared with the season just passed.

We have a fine stock of Red June and Wickson Plums, one year, for Fall and Spring use. The Red June promises to be the great early market plum among the Japanese sorts.

The Milton Plum is decidedly earlier than Wild Goose, and equal to it in every other respect. This is a good sort for market men to plant and for agents to handle.

The Koonce is growing in demand as it becomes better known. It is earlier than Early Harvest, and has been well tested in market orchards in Southern Illinois. We can supply one and two year old trees for Fall.

The Canner's Japan is not a good pear to eat; but it is so prolific and so beautiful on the tree and makes such good preserves that everybody who has a tree is glad of it. The tree is very hardy and bears in unfavorable seasons when other sorts do not.

We sold during the Winter and Spring over 25,000 Sneed June Buds. This indicates the demand to be expected for this variety the coming season. We have a large stock of it to sell.

**THE TRIUMPH PEACH.**—The colorotype of the Triumph Peach, given in the April number of the PRACTICAL NURSERYMAN, is a faithful likeness of this famous sort. We have a large stock of these trees for sale the coming Fall and Winter; the proceeds of a budding of over 30,000. Prices: Any size desired, \$8.00 per 100; \$75.00 per 1,000. The J. Horace McFarland Company Harrisburg, Pa., have colorotypes of it for sale.

We offer a fine collection of roses for Fall and Winter sales. All are grown on their own roots except Marechal Neil, which are root grafted. Notice the description we give of the size of the plants.

## UNSOLICITED COMMENDATIONS.

KANSAS, April 13th, 1896.—“Cherry trees have been received in good condition.”

IOWA, April 13th, 1896.—“The trees arrived on the 10th in good order.”

IOWA, April 12, 1896.—“The two boxes of cherry trees arrived on the 10th in good order.”

MISSOURI, April 9th, 1896.—“The trees are giving good satisfaction.”

MINNESOTA, April 13th, 1896.—“The roses are in fine shape with nice roots.”

CONNECTICUT, April 13th, 1896.—“Boxes came latter part of last week; are a good lot of trees.”

WISCONSIN, April 20th, 1896.—“Your stock came a few days ago. Was in good condition and dormant.”

OHIO, April 20th, 1896.—“I want to say to you right now that I never had a finer lot of trees, and my customers were never better pleased.”

WISCONSIN, April 24th, 1896.—“The box of Early Richmond Cherries I ordered from you from St. Louis has arrived in excellent condition, and the trees are very satisfactory.”

NEW JERSEY, April 17th, 1896.—“Opened one box of Kieffer this morning. Never saw nicer trees. I have had eleven years' experience in selling. I never saw finer roots on such large trees. Everybody well pleased.”

WISCONSIN, April 17, 1896.—“All stock in the four boxes opened up. Very fine and just what we expected from you.”

## Fall of 1896 and Spring of 1897.

Tract of 1,000 Acres. Over 800 Acres closely Planted in Nursery Stock. Nothing over Two Years Old.

The publication of this list abrogates previous quotations.

Except where prices are agreed upon, these quotations are subject to change without notice.

See Terms and Conditions governing these quotations on another page.

We do not print quotations this month, as we intend to give some special bargains to those who will write us, stating their wants in the line of stock we grow. Write us before buying elsewhere. We intend to meet all competition and do a little better for our customers than others will.

### KEIFFER--Two Years.

Grafted on French Seedlings, Japan Seedlings, or Own Roots, as May be Preferred.

These were very strong, handsome, one year trees, mostly 4 to 5 feet high. They were grown from root-grafts, transplanted at one year old, cut back to the ground and one shoot allowed to grow. They have the appearance of two year buds, and are very fine roots and tops.

**PEACH TREES--On Peach, Leading Varieties.**

Our Peach Trees are budded on seedlings, grown from Tennessee and Alabama pits. They are free from Aphis or Root-Knots, and have fewer borers than those from most nurseries.

Grown from cuttings at our branch nurseries, Biloxi, Miss. Price of boxes or bales to be added. Delivered at depot at Biloxi. Orders sent in by Northern customers for Spring delivery, we will pay freight to St. Louis, and hold in cold storage there until wanted. The No. 1 plants will have three or more branches and will be cut back to 30 or 36 inches. The roots are very fine.

### Terms and Conditions Governing Quotations in the Price List of the Huntsville Wholesale Nurseries.

**RATES.**—As we send this list to the trade only, we make the difference in prices between the 10, 100 and 1000 rates very slight—simply sufficient, as a rule, to cover the difference in the expense of handling in the smaller numbers. We uniformly tie in bunches of 10, when consistent with the order, and we suggest to our customers to make their orders for varieties in multiples of 10 as far as practicable. Orders for 50 and not over 300 trees, if for not less than 10 of a variety, will be charged at the rate per hundred. Orders requiring 300 trees or more, and not less than 10 of a variety, will be filled at the lowest quoted prices. Orders for less than 10 trees of one variety, will be charged at the rate per ten.

**SEASON.**—Our packing and shipping season begins by the 20th of September, and continues until about the first of March.

We have great advantages to offer here in early shipments for the North in Spring. We do not accept orders for trees we do not grow, as we never buy trees to sell again. You can depend upon us for fresh dug trees. Each order is taken up separately, and not until it is wanted for shipment.

**SHIPPING DIRECTIONS.**—We respectfully beg our patrons to furnish us with explicit directions as to shipping, and the mode of conveyance by which they desire trees forwarded. When no particular directions are given, we forward according to the best of our judgment. *But in no case do we assume any responsibility as to safe delivery and condition of Trees and Plants after a proper shipment by us.*

**RELEASE.**—When prepayment of freight is not required, we will Release and Guarantee, and take forwarder's receipt and mail to consignee. It is left to the option of the shipper of trees over some railroads, whether he will release them or not under the clause "Value less than \$5.00 per 100 lbs." If released under this clause, the freight is less on roads governed by this classification, and we will assume it to be proper to make this release, without reference to the value of the trees, unless instructed to the contrary. This clause does not apply upon roads under some of the district classifications, and because of this confusion we will not be held responsible for any oversight to release, unless instructed by our customers. Claims for delay or loss must be made to the forwarders.

**PACKAGES.**—The cost of package must be added to the prices quoted in this list, as follows: Boxes 30 inches square, from 7½ to 9 feet long, as the trees may require, each \$2.50; boxes 24 inches, \$2.00; boxes 18 inches, \$1.50; bales from 25c. to 75c. each.

**PACKING.**—Goods will be packed in moss, and especial care taken to insure their arrival in the best condition.

**ASSORTMENTS.**—We do not require customers to take an assortment they do not wish, but will sell one variety alone if desired. If any substitution can be allowed, either in grade or variety, it should be so stated when making the order. As a rule we do not substitute without permission.

**CAUTION.**—We accept all orders upon the condition that they shall be void, should any injury befall the trees from frost, hail, storm, fire, or other causes over which we have no control.

**TERMS.**—Cash. When desired, we will allow 30 to 60 days from date of shipment, to responsible.

prompt-paying customers. Parties with whom we have had no business transactions, will save time by sending reference, Bank, if possible, with order. We wish it expressly understood that payment is expected from the first collections made, and the time named is only intended as so many days of grace in which to make returns. To northern customers, who wish to lay in stock for Spring trade, we will ship late in Fall or early in Spring, and allow time for payment till May 15th. If shipment is required in the Fall for Spring use, a note is to be given upon receipt of the trees. We do not allow any discount for cash, but we make our prices low to command cash, or prompt returns. In orders when the time is not mentioned, 30 days is to be understood. Interest at the rate of 8 per cent per annum must be paid on over due accounts. Should prices be changed, either higher or lower, during the season, the prices ruling at the time the order is made, are expected to stand.

**FORMS OF PAYMENT.**—All bills are payable at the office of the seller, and remittances should be made by drafts on New York, Chicago or St. Louis, or by money orders on some Express Company, or by postal orders. We will, however, accept checks from those of our customers who may be located at places having no banking, express or postal facilities, provided they make them in every case payable "with exchange", or add ¼ of one cent, to the amount of the bill for the cost of collection.

**GRADES.**—We grade very carefully, in some cases by caliper, in others by height. When graded by both caliper and height, the caliper must govern, as the height then named is only to be considered approximately. When graded by height or caliper, we include the lower number and exclude the higher. Instance: in a grade of 4 to 5 feet trees, the 4 feet trees are included, but not the 5 feet trees. If 5 feet trees are wanted, the 5 to 6 feet grade must be ordered.

**GUARANTEE OF GENUINENESS.**—While we exercise the greatest diligence and care to have all our Trees, etc., true to label, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove untrue to label, free of charge, or refund the amount paid, it is mutually understood and agreed to, between the purchaser and ourselves, that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said trees, etc., that shall prove untrue.

**ACCEPTANCE.**—Notice should be sent us by telegraph, at our expense, if there is any cause of complaint, or should the trees be refused, stating reasons. Claims for deduction, from whatever cause, will receive consideration only when made promptly upon the receipt of the trees. If trees show any signs of shrivelling upon arrival, they can usually be restored by being thoroughly watered and buried entirely under the ground for two or three days. Should there be any frost in the trees upon arrival, they should not be removed from the box until the frost is all out. The box should be placed in the cellar or protected in some other way. The presence of frost in the boxes is not to be considered an evidence of bad condition, as we pack to secure the trees against damage, if the frost is allowed to come out in the natural way. Goods will be considered accepted if removed from the boxes in which they are packed, without notice of complaint to us, and without our orders for their disposition.

1838 NUT AND FRUIT CULTURE. 1896

MORE PROFITABLE than WHEAT OR COTTON, with less LABOR and RISK. Send for catalogue illustrating and describing best varieties. ALPHA, the earliest Chestnut, opens Sept. 5th to 10th without frost; RELIANCE, the most productive; PARRY'S GIANT, the largest, six inches around; PARAGON and others.

STARR, "the perfection of early apples." BISMARCK, fruits at two years old; PARLIN'S BEAUTY, the handsomest; LINCOLN CORELESS, KOONCE, GOLDEN RUSSET, ANGEL and other pears; JAPAN QUINCE COLUMBIA, a handsome shrub producing a VALUABLE fruit unequalled for jelly.

SMALL FRUITS, RARE NOVELTIES and VALUABLE introductions. FRUIT, SHADE and ORNAMENTAL TREES.
