[B. E. P. Q. 503 Rev.1]

WHITE-FRINGED BEETLE QUARANTINE RESTRICTIONS MODIFIED

MARCH 15, 1940.

§ 301.72-5c *Administrative Instructions—Modifying the restrictions of the white-fringed beetle quarantine by authorizing treatment by methyl bromide solution of balled nursery stock of specified thickness—Introductory note.* The instructions in circular B.E.P.Q. 503 issued on November 21, 1939, provided for treatment of nursery stock by a solution of methyl bromide for larvae of the white-fringed beetle and limited the treatment to balled and burlapped nursery stock with soil balls not larger than 6 inches in diameter, and provided for an exposure of 24 hours at temperatures of 70° or above. As a result of more recent investigations, the instructions are now revised to provide that soil balls 7 inches in diameter may be so exposed for 8 hours at a minimum temperature of 65°. The modification is restricted, however, to treatment for larvae of the more common species of the beetle, *Pantomorus leucoloma* Boh., and does not apply to such treatment for the new species, *P. peregrinus* Buch., known to exist at present at Gulfport and certain other points in Mississippi. The former specifications remain in effect for treatment of larvae of that species and are brought forward in the instructions which follow.

TREATMENT AUTHORIZED

Under the provisions of Regulation 5 (a) (§ 301.72-5) supplemental to Notice of Quarantine No. 72 (§ 301.72), the Chief of the Bureau of Entomology and Plant Quarantine hereby authorizes as a prerequisite to certification, the following method of treatment for balled plants, when carried out under the supervision

of an authorized inspector of the United States Department of Agriculture.

TYPE OF MATERIAL AUTHORIZED

For the more common species, P. leucoloma. The treatment shall be applied only to plants in soil balls not greater than seven (7) inches in diameter nor greater than seven (7) inches in thickness when not spherical.

For the new species, P. peregrinus. The treatment shall be applied only to plants in soil balls not greater than six (6) inches in diameter nor greater than six (6) inches in thickness when not spherical.

TREATMENT METHOD

For Both Species of White-Fringed Beetle

(a) The soil balls around the roots of plants must be buried in sand and plunged in boxes or trays approximately one foot deep, which are watertight.

(b) A 2-inch space filled with sand shall be provided between the soil balls, also above and beneath them.

(c) Such soil balls shall be treated with a solution of methyl bromide and alcohol at a concentration of 0.3 percent methyl bromide and 0.6 percent denatured ethyl alcohol by volume in water. The solution is to be prepared by first mixing the methyl bromide and alcohol together and then adding this mixture to the water and mixing thoroughly.

(d) The aqueous solution of methyl bromide and alcohol shall then be applied evenly over the surface of the sand around the plants at the rate of 40 gallons per 100 square feet of surface area by means of a sprinkling can or sprayer.

Exposure and temperature for the more common species (*P. leucoloma*)

(e) After the required dosage has been applied, the soil balls shall remain embedded in the sand for a period of 8 hours.

(f) The temperature of the soil balls during the treatment shall not be lower than 65° F.

Exposure and temperature for the new species (*P. peregrinus*)

(g) After the required dosage has been applied, the soil balls shall remain em-

CHAPTER VIII—SUGAR DIVISION

PART 802—SUGAR DETERMINATIONS

REVISION OF DETERMINATION OF FAIR AND REASONABLE PRICES FOR THE 1939-1940 CROP OF PUERTO RICAN SUGARCANE

Whereas, section 301 (d) of the Sugar Act of 1937, approved September 1, 1937, provides, as one of the conditions for payment to producers of sugar beets and sugarcane, as follows:

That the producer on the farm who is also, directly or indirectly, a processor of sugar beets or sugarcane, as may be determined by the Secretary, shall have paid, or contracted to pay under either purchase or toll agreements, for any sugar beets or sugarcane grown by other producers and processed by him at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due notice and opportunity for public hearing.

Whereas, the Secretary of Agriculture, on January 9, 1940, held a public hearing at San Juan, Puerto Rico, for the purpose of receiving evidence likely to be of assistance to him in determining fair and reasonable prices for the 1940 crop of Puerto Rican sugarcane:

Now, therefore, I, H. A. Wallace, Secretary of Agriculture, after investigation and due consideration of the evidence obtained at the aforesaid hearing and all other information before me, do hereby make the following determination with respect to the requirements of section 301 (d) of the Sugar Act of 1937:

§ 802.42b *Fair and reasonable prices for the 1939-40 crop of Puerto Rican sugarcane.* Fair and reasonable prices for the 1939-40 crop of Puerto Rican sugarcane to be paid by processors who, as producers, apply for payments under the Sugar Act of 1937 shall be as follows:

(a) When payment for sugarcane delivered to a producer-processor is made by actual delivery of sugar to the producer (colono) on the basis of a stated percentage of 96° raw sugar recoverable from the producer's sugarcane, such percentage shall be the same as for the 1938-1939 crop, except that in no event shall it be less than 63 percent of the recoverable sugar (packed in the customary bags) determined in accordance with either of the formulae given below, and except, further, that such recoverable

sugar shall be calculated fortnightly or monthly as may be agreed upon between the producer and the producer-processor:

(1) $R=FS$
where:

R =Recoverable sugar, 96° polarization.

S =Polarization of the crusher juice obtained from the sugarcane of each producer, during each fortnight or month.

F =Fraction whose numerator is the average yield of sugar of 96° polarization obtained from the aggregate grinding during each fortnight or month in which the cane of the producer (colono) has been ground, and whose denominator is the average polarization of the crusher juice obtained from the aggregate grinding during the fortnight or month in which the cane of the producer (colono) has been ground;

or
(2) $R=(S-0.3B)F$

where:

R =Recoverable sugar yield, 96° polarization.

S =Polarization of the crusher juice obtained from the sugarcane of each producer.

B ="Brix" of the crusher juice obtained from the sugarcane of each producer.

F =Factor obtained from the fraction whose numerator is the average yield of sugar 96° polarization obtained from the aggregate grinding during each fortnight or month in which the cane of the producer is ground and whose denominator is the average polarization of the crusher juice minus three-tenths of the Brix of the crusher juice, both components of the denominator being obtained from the aggregate grinding during the fortnight or month in which the cane of the producer has been ground:

Provided, however, That when through the delivery of unripe or burnt cane, or through any other cause, the recoverable sugar determined in accordance with either of the foregoing formulae amounts to nine pounds or less per 100 pounds of cane, or when sugarcane is delivered of the Japanese, Uba, Coinbatore, or other varieties of the *Sacharum Spontaneum* or *Sacharum Sinensis* type, the payment shall be on the basis of rates not less than those provided in the 1938-1939 cane grinding agreement between the producer-processor and the producer.

(b) When payment for sugarcane delivered to a producer-processor is made by actual delivery of sugar to the producer on the basis of an amount of 96° raw sugar equal to a stated percentage of the weight of the sugarcane received

from the producer (commonly referred to as the "flat rate" basis), the applicable percentage for the computation of the quantity of sugar deliverable to the producer shall be not less than the greater of either: (1) the percentage provided for in existing contracts (verbal or written) between the producer and the producer-processor; or (2) the product of the average number of pounds of sugar, 96° basis, recovered per 100 pounds of sugarcane during the current crop or month, or week (as may be agreed upon) at the mill where the sugarcane was ground, and .63. The figure for the average number of pounds of sugar, 96° basis, recovered per 100 pounds of sugarcane shall be rounded to the nearest one-tenth of a pound. The product of such figure and .63 shall be rounded to the nearest one-hundredth of 1 percent. If payment is to be determined from the sugar recovery for the entire crop, as aforesaid, provisional liquidation shall be made fortnightly or monthly on such basis as may be agreed upon between the producer (colono) and the producer-processor.

(c) When settlement is not made by actual delivery of 96° raw sugar, as aforesaid, the money value of the sugar which would otherwise be delivered to the producer, as in (a) or (b) above (whichever is applicable), shall be paid to the grower on the basis of the average duty paid price for 96° sugar for the fortnight or month (or such other period as may be agreed upon between the producer and the producer-processor) during which the sugarcane is delivered to the producer-processor, converted to the equivalent f. o. b. mill price by deducting selling and delivery expenses actually incurred by the producer-processor, except that in no event shall such deduction amount to more than .27 cent per pound of sugar: *Provided, however,* That settlement may be made for the quantity of sugar in excess of a per centum (computed by dividing the sum of the quotas for Puerto Rico as of April 1, 1940 by the total of the initial proportionate shares) of the sugar assumed to be deliverable from the producer's initial proportionate share (as a basis for computing the cash payment) by the delivery of sugar to the producer, except that in no event shall such partial settlement in sugar be made if the producer's initial proportionate share is 15 tons of sugar or less.

(d) When payment is made by delivery of sugar as in (a) or (b) above, the entire delivery or that part of the delivery representing a per centum (computed by dividing the sum of the quotas for Puerto Rico as of April 1, 1940, by the total of the initial proportionate shares) of the producer's initial proportionate share, whichever is the smaller, shall constitute sugar eligible for marketing under the 1940 quotas, except that if a producer's proportionate share is 15 tons of sugar or less, the entire delivery shall constitute sugar eligi-

ble for marketing within the 1940 quotas.

In addition to the foregoing, the following requirements shall be met:

(1) Any and all "normal carryover inventory" sugar due the grower under (a), (b), (c), or (d) above, shall be stored and insured by the processor free of charge to the grower.

(2) When sugarcane is delivered to a producer-processor in the name of a person other than the producer thereof (commonly referred to as "purchasing agent"), the producer-processor shall make payment to the producer of such sugarcane in accordance with the provisions of this determination.

This determination supersedes the "Determination of Fair and Reasonable Prices" for the 1939-1940 Crop of Puerto Rican Sugarcane, Pursuant to the Sugar Act of 1937", issued February 20, 1940.

PART 403—PROPERTY MANAGEMENT

PLANS AND TERMS OF SALE

Section 403.10 is added, reading as follows:

§ 403.10 *Plans and terms of sale.* The General Manager, with the approval of the General Counsel, is authorized to determine the plans of sale of real properties under the jurisdiction of the Property Management Division and of any leasehold or other interests therein. The General Manager is authorized to determine the terms of payment for the sale of such properties or interests therein: *Provided, however,* That in no event shall the term of repayment under any mortgage or other security instrument or installment or like contract exceed fifteen years from the date of delivery of the deed or of such contract. The General Manager is authorized to dispose of any personal property, or any right or interest therein, acquired by the Corporation and under the jurisdiction of the Property Management Division, in such manner and for such consideration as he may determine. The authority herein vested in the General Manager may be exercised also by the Regional Manager and the State Manager, under procedure and limitations prescribed by the General Manager with the approval of the General Counsel. (Effective date October 16, 1939)

The Regional Manager shall have authority to effect sales of real properties under the jurisdiction of the Division and of any leasehold or other interests therein at or above the minimum sales price which shall be fixed in accordance with established procedure. Once a minimum sales price has been fixed in accordance with established procedure such price need not be revised by reason of subsequently authorized expenditures for reconditioning or other purposes unless such expenditures in the opinion of the Regional, State or District Manager authorizing them enhance the value of the property. In cases where the value of the property is enhanced the officer authorizing the expenditure shall report to the Regional Manager his estimate of the extent of such enhancement and the new minimum sales price shall then be

established by the Regional Manager. In those cases where the Home Office or Regional Property Committee has not established a minimum sales price for the property "as is" but has established such a price "as reconditioned" in accordance with a specific reconditioning program, the Regional Manager may determine to hold the property "as is" or to proceed only with limited repairs. In such cases he is authorized to reduce the minimum sales price set by such Property Committee by such amount as, in his opinion, is appropriate but in no event by an amount in excess of the estimated cost of reconditioning items which he determines should not be performed. The authority granted to the Regional Manager in this paragraph shall not be exercised in any case where the Home Office or Regional Property Committee has directed otherwise. (Effective date August 15, 1939)

The Corporation shall not sell its acquired property either directly or indirectly to any officer or employee of the Corporation or to any individual approved by the Corporation to perform services on a fee basis, or to the spouse or close relative of any such person unless and until the transaction has been submitted to the Property Committee in Washington as provided in § 403.02, Sub-Division (i), provided, however, that the Corporation shall not sell any such property to any Contract Sales Broker, Contract Management Broker, or Approved Sales Broker of the Corporation. (Effective date June 9, 1939)

When the Corporation has contracted to sell real estate and the contract purchaser has deposited funds with the Corporation in connection with such contract and the sale fails of consummation, or prior to the closing of the sale the purchaser requests to be relieved of his obligations under the agreement for the sale of real estate and requests the return of his deposit or of a portion thereof, then the Regional Manager, after obtaining the advice of the Regional Counsel as to the legal rights or obligations of the Corporation in the matter, may authorize the refund of such deposit or any portion thereof and may also authorize reimbursement of the contract purchaser for any expenses incurred by him in connection with the transaction, when in the judgment of the Regional Manager such refund or reimbursement is in the best interest of the Corporation. (Effective date February 1, 1939)

Effective October 1, 1939, and until otherwise directed by the Board, interest on obligations taken for the unpaid balance of the purchase price in connection with the sale of real property, or of any interest therein, shall be charged at the rate of 4½% per annum. The purchaser shall agree in form satisfactory to the Corporation that in addition to his payments of principal and interest he will also pay to the Corporation at such time and in such manner as may be provided in such agreement a sum sufficient to en-

able the Corporation to pay his annual taxes, assessments, insurance premiums, ground rents and other charges upon the real property or interest therein securing his indebtedness to the Corporation. The General Manager with the approval of the General Counsel is authorized to prescribe procedure to carry out the provisions of this paragraph. (Effective date October 1, 1939.)

(Secs. 4 (a), 4 (k) of Home Owners' Loan Act of 1933, 48 Stat. 129, 132 as amended by Section 13 of the Act of April 27, 1934, 48 Stat. 647; 12 U.S.C. 1463 (a), (k)).

PART 403—PROPERTY MANAGEMENT

CONTRACTS AS TO CLASSES OF PERSONS WHO MAY PURCHASE PROPERTY

Section 403.10 is amended by changing the third paragraph thereof to read as follows:

The following restrictions are made with respect to the sale by the Corporation of its properties directly or indirectly to the following persons or classes of persons:

(a) Unless authorized by the General Manager in the particular case, a sale to the former borrower or his spouse shall be made only at a price equal to ledger value, including an amount equivalent to interest accrued subsequent to the transfer of the property to the "in process of acquiring title" status up to date of sale, plus expenditures for credit reports, appraisal and reconditioning inspection fees and other inspection fees which have been charged to a Home Office Control Account, while the property was under the jurisdiction of the Property Management Division, plus any accrued and unpaid charges against the property, except those the payment of which are to be assumed by the purchaser. The words "former borrower", as used herein, mean and include any person who at any time was legally obligated to pay the mortgage indebtedness owing to the Corporation and any owner of the property at the time foreclosure of the Corporation's loan thereon was authorized, excepting the owner or owners of the fee simple title to such property where the Corporation's loan was secured by a leasehold interest only. A written statement of the status of the prospective purchasers as former borrowers, in form prescribed by the Corporation and signed by one or more of such purchasers, may be relied upon in determining whether any of such purchasers are former borrowers as defined in this paragraph, unless information to the contrary is contained in the Property Management docket or is known to any Corporation official who determines that the offer to purchase should be accepted

or who executes the agreement for sale on behalf of the Corporation.

Whereas pursuant to the provisions of Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), notice of hearing is required in connection with a proposed marketing agreement, a proposed order, or proposed amendments thereto, and the General Regulations, Series A, No. 1, as amended, of the Agricultural Adjustment Administration, United States Department of Agriculture, provide for such notice; and

Whereas the Secretary of Agriculture of the United States (hereinafter referred to as the "Secretary") executed a marketing agreement and issued an

order¹ on May 24, 1939, effective on and after May 29, 1939, regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California; and

Whereas the Secretary has reason to believe that the execution of certain amendments to the marketing agreement and the issuance of certain amendments to the order will tend to effectuate the declared policy of the act with respect to the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California:

Now, therefore, pursuant to the said act and the said general regulations, notice is hereby given of a hearing to be held on certain proposed amendments to the marketing agreement and certain proposed amendments to the order regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California in the office of the Control Committee established under the said marketing agreement and order, 1910 Eye Street, Sacramento, California, at 9:30 a. m., P. s. t., on March 27, 1940.

This public hearing is for the purpose of receiving evidence as to the general economic conditions which, in order to effectuate the declared policy of the act, may necessitate said amendments to the aforesaid marketing agreement and order and as to the specific provisions which said proposed amendments to the marketing agreement and order should contain.

The proposed amendments to the marketing agreement and order provide, in similar terms, for clarification of present provisions and, among other changes, for: (1) altering the method of voting for, and qualification of, committee members; (2) additional compensation of grower members of committees; (3) delegation to a manager of certain duties of the Control Committee; (4) further regulation of certain unfair trade practices and unfair methods of competition; (5) modification of daily shipment regulations; (6) reporting of price information by shippers; (7) removal of Secretary's approval of certain actions by committees; (8) modification of the provisions with respect to reports of handlers; and (9) elimination of joint action by trustees after termination.

Copies of the said proposed amendments to the marketing agreement and proposed amendments to the order may be obtained from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, Washington, D. C., in Room 0310 South Building, or may be there inspected.

Wage and Hour Division.

IN THE MATTER OF APPLICATION FOR EXEMPTION OF THE SPRING FRESHET DRIVING OF LUMBER (OUTSIDE THE NORTHEASTERN AND LAKE STATES) FROM THE MAXIMUM HOURS PROVISIONS

Whereas H. C. Oliver of Helena, Arkansas and sundry other parties, have filed applications with the Administrator of the Wage and Hour Division, United States Department of Labor for a determination that the spring freshet driving of lumber is a branch of an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526, as amended, of the Regulations issued thereunder, and

Whereas the Administrator has determined that the spring freshet driving branch of the lumber industry conducted in the States of Maine, New Hampshire, New York, Vermont, Michigan, Minnesota, and Wisconsin is entitled to the seasonal exemption provided in section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526, as amended, of the Regulations issued thereunder, and

Whereas it appears from the applications filed by H. C. Oliver and sundry other parties and upon further investigation that spring freshet driving elsewhere is similar in all material respects to spring freshet driving in the above-listed states.

Now, therefore, upon consideration of the facts above set forth, the Administrator hereby determines, pursuant to § 526.5 (c) of the Regulations, that a *prima facie* case has been shown for the granting of an exemption, pursuant to section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526 of the Regulations issued thereunder to the branch of the lumber industry which is engaged in spring freshet driving in the United States.

In accordance with the procedure established by § 526.5 (c) of the Regulations, the Administrator for fifteen days following the publication of this determination will receive objection to the granting of the exemption and request for hearing from any interested person. Upon receipt of objection and request for hearing, the Administrator will set the application for hearing before himself or an authorized representative.

If no objection and request for hearing is received within fifteen days, the Administrator will make a finding upon the *prima facie* case.

The application and the report of the investigation made thereon may be ex-

aminated at Room 313, 939 D Street NW., Washington, D. C.

Signed at Washington, D. C., this 7th day of March 1940.

Whereas the Administrator published a preliminary determination in the FEDERAL REGISTER of February 21, 1940 (5 F.R. 729), pursuant to § 526.5 (b) (ii) of the Regulations, that a *prima facie* case was shown by the application for the granting of an exemption, pursuant to section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526 of the Regulations issued thereunder, to the cleaning and processing of Redtop seed, and

Whereas, no objection or request for hearing was received by the Administrator within the fifteen days following the publication of said preliminary determination;

Now, therefore, pursuant to § 526.5 (b) (ii) of the Regulations, the Administrator hereby finds upon the *prima facie* case shown in the said application that the cleaning and processing of Redtop seed is a seasonal industry within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 and the Regulations issued thereunder and, therefore, is entitled to the exemption provided in section 7 (b) (3) of the said Act.
