

Declaration of Homestead.

Persons wishing to procure a correct form for making out a Declaration of Homestead, as required by the Act of the last Legislature, with the acknowledgement attached thereto, will find printed blanks, on application to the KNIGHT'S LANDING NEWS OFFICE. By filling out these blanks themselves, parties will be subject to no other expense than the fees for acknowledgement and record.

PUB. DOCS.—We are again under obligations to A. A. Sargent, Member of Congress, for Public Documents.

LUMBER FOR THE BRIDGES.—Yesterday morning the steamer Visalia, Capt. Zimmerman, brought up a quantity of lumber for the commencement of the Bridges across Cache Creek.

LARGE APPLES.—Mr. Landon Glascock, of Sutter county, presented us with three of the finest apples, on Tuesday last, we have ever seen in the State. They were raised on his farm on the Sacramento river; and the combined weight of the three was 3 lbs. 2 ozs; and the best part of it is, they were of delicious flavor, and a beautiful red, looked beautiful, and tasted as good as they looked.

QUESTION.—The question is frequently asked us whether the Stamp Law is not in force after the first of October, and whether any note of hand or conveyance of real estate is valid, made after that date, without a stamp affixed. We are of the opinion the stamp must be affixed to make it valid, but don't know where they can be had, or whether there are any in the State or not. Can some of our San Francisco contemporaries give us some light on the subject?

CREMINAL CALENDAR.—On Tuesday last the trial of S. Bixler, for the shooting Alford St. Louis, took place before Justice Pickett, resulting in prisoner being bound over in the sum of \$500 to appear before the Grand Jury.

On Wednesday the trial of Alex. St. Louis, for Grand Larceny—stealing a ring and money from R Roberts—was examined before Justice Pickett, resulting in his being bound over to appear before the Grand Jury—\$500 bonds.

Bonds were given and approved in both the above cases.

The steamer Cryopolis discharged at Sacramento, on Sunday morning, 600 tons of freight.

There is now in the City Treasury of Sacramento \$143,028, of which amount \$119,055 belong to the Levee Fund.

At the close of business, on Saturday, there was in the State Treasury, \$344,652 03.

The San Francisco Patriotic Fund Committee sent \$100,000 by the steamer of Saturday to the Sanitary Commission.

WITHIN the last two months, over one hundred thousand dollars worth of property has been destroyed by fire in Mariposa county.

It is said that there will be expended altogether, in beautifying the San Francisco Roman Catholic burying grounds, known as Calvary Cemetery, over \$50,000.

WOOL GROWERS.—The annual meeting of the California Wool Growers' Association will be held in Sacramento during the State Fair, viz., on Wednesday, 1st of October.

THE net amount of the income tax in Great Britain, last year, was over eleven million pounds sterling. There were 59 individuals with incomes exceeding £50,000 a year; Ireland only furnishes one individual fortunate enough to rank in that class, but his income amounts to £115,000.

TOBACCO.—During the last nine years the total amount of tobacco imported into this State was 39,801,380 pounds being an average per year of 3,755,700; per month, of 312,975 pounds. The present requirement for home consumption is from 350,000 to 400,000 pounds per month.

THE San Franciscans, says the Sacramento Bee, are after Collector Rankin. His office is worth \$20,000 to \$25,000 per annum, and he gave \$100 to the Patriotic Fund, while lawyers, doctors, merchants, etc., gave \$1,000. That, however, was equal to the wealthy American importing house of Ross, Dempster & Co., which gave \$100, "provided they be received in Treasury notes at par."

Shipments of Grain.

Knight's Landing is evidently one of largest depots of grain in the State, outside of Sacramento. There are two steamers constantly employed in transporting it from here to Sacramento and other points. We have obtained the figures of grain shipped for the past six weeks, which make a total, of all kinds of grain shipped, of seventy four thousand sacks—this is exclusive of the vast quantity taken off by teams—besides there is at least 2,500 sacks on levee awaiting transportation. The magnitude of the crop in this section of the Sacramento valley cannot be fully realized, even by those acquainted in the county, and we fear the true yield this year will never be ascertained. It is now the duty of the Assessor to get the number of acres of each kind of grain sown, and the average yield; but from complaints which we have heard of the inefficiency of the present Assessor of Yolo, we fear his report on this subject will be very imperfect; at all events, we know from actual observation that the amount of grain shipped from here, is more than double that of any previous year. For the past three months it has been constant stream of teams bringing grain in town, and yet the half is not yet come, in fact, to pass through the county and see the graineries full to overflowing, and the immense quantity still on the farms, what has been shipped up to this time, can scarcely be missed.

State Agricultural Fair.

The indications at present are that the coming State Fair will be in every respect a grand affair, and surpass in attractions any preceding one ever held in the State. Thus far the entries made by competitors, and the stalls secured for stock, are greater than ever before up to this time; and the officers of the Fair are encouraged beyond their most sanguine expectations, in believing that the present will be the ultimatum of success in Agricultural Fairs in California.

We are truly gratified to hear such encouraging statements. The opinion prevailed a few months ago that the interest in the Fair this year would lag, on account of the drawback given agriculture by the destructive floods of last Winter, but it seems our people are determined to keep up their name for recuperative energy; and the greater the calamities, the greater the exertions put forth to overcome them.

The people of Yolo are especially interested in the success of the State Fair, particularly when held at Sacramento. Our close proximity and blended interests, make us feel a success to Sacramento is a corresponding one to us, and vice versa. We, therefore, are fully satisfied that Yolo will be represented by a full delegation at the coming State Fair.

NO SUBSTITUTES.—An important order has been issued by the War Department, by which it is declared that all attempts to procure substitutes in anticipation of the draft are regarded as discouraging enlistments, and will subject persons making such attempts, their aids and abettors, to arrest, under the order of the 8th inst. The following is Provost Marshal Kennedy's circular to the publishers of newspapers on this subject:

OFFICE Supt. METROPOLITAN POLICE, AND SPEC. PROVOST MAR.,
NEW YORK, August 21st, 1862.

James Leonard, Deputy Provost Marshal—SIR: You will call upon the publishers of the several newspapers in New York and Brooklyn and inform them that the War Department, by an order this day received, regards all attempts to procure substitutes in anticipation of the draft, as discouraging enlistments, and the persons who do so, their aids and abettors, are liable to be arrested under the order of August 8th. Publishing advertisements for such persons, with the view aiding their operations, is hereafter to be regarded as rendering the publishers liable to such arrest.

You will inform them your call is to put them on their guard, and relieve this office from the performance of an unpleasant duty. JOHN A. KENNEDY,
Special Provost Marshal.

THE last British mail steamship from Southampton to Aspinwall brought \$1,250,000, it being the first instalment of the \$8,000,000 loan contracted for by Peru in Europe. The return ship from Aspinwall to Southampton took \$2,000,000 consisting of gold from California, and silver from Mexico and South America.

THE steamer Golden Age will put into Manzanillo, on her way down to Panama, for the purpose of looking after the prospects of recovering the lost treasure of the Golden Gate.

BY OVERLAND TELEGRAPH.

The following dispatches are from the Sacramento Union of Sept. 23d:

MEMPHIS, Sept. 18th.—New Orleans dates to the 10th have been received.

The gunboat Essex had arrived from up the river. On her way down she was fired into at Natchez, for which act the city was bombarded for two hours, at the end of which time it surrendered and the stars and stripes raised.

The Essex then proceeded to Bayou Sara, which town she also burned.

While passing Port Hudson a rebel battery of 34 guns opened on her. A fierce battle at not more than 80 feet distance began and lasted an hour, resulting in silencing the battery, which was composed of guns of very heavy caliber. The Essex was not damaged except in the smoke pipes and ventilators, which were perforated in numerous places. The iron sides of the Essex were struck in a multitude of places with ten inch and other size balls, resulting in some cases in slight indentations, the balls breaking into fragments. She commenced with the upper gun in the battery, and silenced them all, one after another. It is impossible to ascertain the loss of the enemy. The crew of the Essex were so completely protected as to prevent them from seeing ashore. There were no casualties on our side.

WASHINGTON, Sept. 21.—Hooker has been appointed Brigadier General in the regular army, in consideration of his valuable services. His wound is serious and liable to superinduce lockjaw. The reported death of Gen. Meagher is incorrect. He was wounded.

LOUISVILLE, Sept. 21.—Two hundred rebel cavalry attacked the Home Guard, 120 strong, at Newcastle, today. The latter surrendered—men, horses and 300 stand of arms, without firing a gun. It is reported that the enemy subsequently burned the town. This needs confirmation.

Shepardsville advices say a Federal force stationed there was attacked today by rebel cavalry, whose intentions were to burn the bridge. The rebels were repulsed with the loss of 5 killed and 28 captured. On the 9th 600 guerrillas appeared at Owen-burg. Skirmishing ensued, and finally they were repulsed after a desperate encounter. The next day 800 rebels renewed the attack, but were routed with the loss of 38 killed and 25 wounded. The Federal loss was 3 killed and 18 wounded. We captured their army stores and provisions.

Reliable advices from Cave City, Ky., says that a portion of Buell's army attacked and whipped Bragg's rear guard at Horse Cave on Thursday evening. Upon learning this, Bragg is reported to have moved the main body of his army across the river southward from Mumfordsville. We have no further particulars.

WASHINGTON, Sept. 21.—A dispatch dated battle field of Antietam, Sept. 20, says:

Yesterday our lines were advanced toward the enemy, when the discovery was made that the rebels had retreated during the night, leaving their pickets along the entire line to prevent us from gaining knowledge of the movement. Those left behind generally surrendered as our skirmishers approached. The rebel reinforcements expected on Thursday and Friday did not arrive. Our cavalry pursued and captured a few hundred stragglers, but beyond this effected but little injury on the enemy. One prisoner captured says Gen. Joe Johnston died of his wounds at Richmond recently.

A dispatch from Frederick, says 10,000 stand of arms belonging to the enemy were found on Wednesday's battle field (Antietam.)

The Navy Department has information of the running of the blockade of Mobile by a rebel ten gun gunboat. Lieut. Preble, commanding the blockading squadron there, is charged with neglect of duty, in allowing her to do so, and consequently is dismissed the service.

CHICAGO, Sept. 22.—Later reports do not confirm the statement telegraphed some days since that the rebels left Harper's Ferry in such haste as not to be able to do any damage before leaving. They completely stripped it of war material. They also attempted to destroy the bridge and partially succeeded, but failed to blow up the piers.

NEW YORK, Sept. 22.—The Herald's Correspondent, writing from Frederick under date of the 21st, says it would not be proper to state the disposition and movements of our troops, but it is probable that more important news may be expected from McClellan's command in a day or two.

WASHINGTON, Sept. 22.—A dispatch from the headquarters of the Army of the Potomac, dated the 20th, says Stewart's rebel cavalry, with a regiment of infantry and three batteries, made a raid across the Potomac on Friday evening. A Federal force was sent up to drive them back. They recrossed during the night. The work of burying the dead still continues, the average of burials being about 1,000 a day. To-morrow will probably finish it.

Maryland Heights (at Harper's Ferry) were occupied by Federal forces on Friday. The indications are that the rebels are continuing their retreat into Virginia, abandoning the line of the Potomac.

CAIRO, Sept. 22.—An important expedition left Helena, Ark., on Wednesday last. Part of the troops landed at Lavonia, 20 miles above Napoleon. The object of the expedition is not known.

Gen. Steele, at Helena, has received information that 20,000 rebels are moving on that place from Little Rock.

Breckinridge and Villipigue, with their forces, are reported to be 12 miles from Memphis.

WASHINGTON, Sept. 22.—A proclamation has been issued by the President, the substance of which is as follows:

I, Abraham Lincoln, President of the United States, Commander-in-Chief of the army and navy, proclaim and declare that hereafter, as heretofore, the war will be prosecuted for the object of practically restoring the constitutional relation between the United States and the people of the States thereof, in which such relation is, or may be, disturbed. It is my purpose, at the next meeting of Congress, to again recommend the adoption of a practical measure, tendering pecuniary compensation to States the people whereof may not be in rebellion against the United States, and which States may then have voluntarily adopted, or may voluntarily adopt, the immediate or gradual abolishment of slavery. On the first of January, 1863, all persons held as slaves within any State or part of a State, the people whereof shall then be in rebellion against the United States, shall be thenceforth forever after free. On that day the Executive will designate by proclamation the States or parts of States in which the people shall be in rebellion. The fact that any State or part of a State shall be in good faith represented in Congress by members chosen by a majority of the electors, shall, in the absence of strong countervailing testimony, be deemed sufficient evidence that such States have not been in rebellion. The President quotes the new article of war approved March 30th, and also the ninth and tenth sections of the Act to suppress insurrection and punish treason and rebellion, approved July 17, 1862. (the Confiscation Act) and enjoins upon all persons in the military and naval service the enforcement of said Acts and sections. The Executive will, in due time, recommend that all loyal citizens shall, upon the restoration of their constitutional relations, be compensated for all losses by acts of the United States, including the losses of slaves.

Reconnoissances on the other side of the river demonstrate that there is no considerable force of rebels this side of Bull Run mountains.

An official report gives the loss of Sumner's corps in the battle of Antietam at 5,258.

CAIRO, Sept. 22nd.—In the battle at Iuka, Miss., on Saturday, Price was attacked at three points at the same time, being nearly surrounded. He cut his way through at the point where the 47th Illinois Regiment was stationed. During the fight, a party of Texan Rangers charged on one of our batteries, and notwithstanding our determined resistance spiked two guns. This was our only loss in artillery.

LOUISVILLE, Sept. 22.—Gov. Robinson has issued a proclamation calling the citizens to arms under Gen. Nelson.

The reported burning of Newcastle is incorrect.

Humphrey Marshall with 12,000 men and 42 pieces of artillery was expected to reach Price yesterday morning. The excitement here has somewhat subsided. There is a great exodus of women and children.

NEW YORK, Sept. 23.—The World's Washington special dispatch says: Stragglers and refugees all agree that the main body of the rebels is moving toward Winchester, all having disappeared from the Potomac except skirmishing companies. The abandonment of the line of the Potomac seems to be more a matter of necessity than choice with the rebels.

WASHINGTON, Sept. 23.—Commodore Charles H. Bell has been appointed Acting Rear Admiral and assigned to the command of the Pacific squadron.

In their hasty retreat the rebels left 1,100 or 1,200 wounded between Sharpsburg and the river. These have been paroled. Twenty-seven stands of colors were taken during the battle of Antietam, and have been received at headquarters. Seven more are in the hand of the different regiments which captured them.

The official report of the battle of Iuka, Miss., says: Our killed and wounded is less than 100, while the rebel dead found on the field number 260.

PHILADELPHIA, Sept. 23.—Richmond papers of Saturday contain a dispatch dated Knoxville, Tenn., 19th, stating that the Federal forces evacuated Cumberland Gap on the night of the 18th. The rebel papers do not regard this news as favorable as was supposed. General Morgan was stated to be completely hemmed in.

HARRISBURG, Sept. 23.—The rebels are reported again in considerable force in the vicinity of Williamsport. Heavy skirmishing is said to be in progress on both sides of the river.

The alleged treason of Gen. Miles in surrendering Harper's Ferry is still talked of in official circles. There is good reason for asserting that if it had not been for this surrender the rebels would undoubtedly have received a death blow.

We have information by a gentleman who arrived last night from the Army of the Potomac that the army was rapidly crossing into Virginia at Williamsport. Kenny's brigade in the advance, went over on Sunday night. Couch's division crossed on Monday. Franklin crossed, and was followed immediately by McClellan and staff, at Williamsport. An impression prevailed in the army that the corps of Heintzleman and Sigel were now

in Virginia, and that their mission was to stop the retreat of the rebels.

WASHINGTON, Sept. 23.—The President's emancipation proclamation is generally approved here. The Republican newspaper predicts that it will restore to the President all his old friends and unite the sound portion of the people in favor of the Union and the Constitution.

The Intelligencer regards it as a harmless production, but adds that if it proves otherwise it will open issues too tremendous for calculation. Army officers appear to acquiesce. Some of them express their warm approval.

Complaints having been made against Gov. Stanl, the conduct of his administration is under examination by the Government.

FT. MONROE, Sept. 22.—Richmond papers of the 20th, as usual, claim the victory at Boonesboro, Md., and say that Hill's corps was sufficient to hold in check McClellan's army, and that next day, with the assistance of Longstreet's Division, they defeated McClellan.

The Richmond Whig claims that more prisoners were taken at Harper's Ferry than were taken by the Federals in Maryland.

PORT ROYAL, Sept. 20.—Gen. Mitchell has arrived, and inspected the troops at Hilton Head, Beaufort and Pulaski. The health of the troops is good.

ALEXANDRIA, Va., Sept. 23.—Information has been received that parties of rebel cavalry are scouring the country in the vicinity of Warrenton and Rappahannock, impressing all able bodied men into the Confederate service.

WASHINGTON, Sept. 23rd.—An exchange of 10,000 rank and file, and 300 officers, was effected at Harrison's Landing yesterday. Pope's officers were not included, but it is understood that they will be exchanged this week.

Gen. White is here under arrest, to await the investigation of the circumstances attending the surrender of Harper's Ferry.

In connection with the arrest of Gen. White it should be stated that he arrived at Harper's Ferry with his command, from Martinsburg, the day before the surrender of the Ferry. He is a full Brigadier, while Miles is only an acting Brigadier. From courtesy, or some other reason not known, he waived his rank, and allowed Miles to retain command.

HUDSON, Mo., Sept. 24.—Early last week, Capt. Johnson, with 75 enrolled militia from Rolla county, attacked and routed 70 guerrillas under McDonald, scattering them in all directions. On the 19th, Johnson, with 25 men, surprised 150 rebels, and after a short engagement the enemy fled. Johnson captured all their camp equipage, guns and blankets. The same day Lieut. Dillon, with a part of a company, came up with and routed them, taking 7 prisoners and 11 horses.

St. Louis, Sept. 24.—Gen. Curtis has assumed command of this Department.

SYCAMORE SLOUGH.—We are informed that \$400 has been subscribed for the purpose of stopping the break in the river bank, between Colusa and Grand Island. The whole cost of the work is estimated at \$600. In order to save the public road from overflow and further destruction, the Board of Supervisors have very properly agreed to appropriate \$200 to the purpose, when the work is done. This amount, together with \$400 subscribed by the citizens, will, without doubt, complete the work.—Colusa Sun.

MURDER.—A man by the name of J. Spratt was killed last week on Little Butte Creek, near Chico, by a man named Henry Williams. They had quarrelled about some hogs, which Spratt alleged had been stolen by Williams. As Spratt was driving his team along the road he met Williams, on horseback, who dismounted and fired upon him with his revolver, killing him instantly. The citizens of Chico offer \$1,000 for his arrest.—Colusa Sun.

FOR SALE. Homesteads and Valuable Real Estate. Building Lots from \$10 to \$200 Each.

Also, 50 Vara Lots and Entire Blocks of Beautiful Garden Land!

IN THE CITY AND COUNTY OF SAN Francisco on the line of the San Jose Railroad, at the West End Depot. The title is absolutely perfect, being a Spanish grant, finally confirmed and patented by the United States.

The Shafter Bill respects this title, the City authorities respect it, the District Courts and Supreme Court of the United States respect it. Besides the title has been forever quieted by a final decree and judgment against the city. So that there is not even a cloud or shadow upon it. Whoever purchases one of these lots will buy a lot and not a lawsuit.

MANUFACTURERS AGENTS, AND dealers in Pitt's, Ball's, Russell's, and other popular

Thrashing Machines. Also, the following Reapers and Mowers, Improved for the harvest of 1862:

Burt's Eagle Combined Machine; New York do.; McCormick's do.; Heath's Eagle do.; Kentucky Harvesting Machine; Haines' (Illinois) do.; Ball's Ohio Reaper and Mower; Manny's Improved Machine.

Esterly's Improved Machine; Rugg's Combined machine; Vermont mowing machine; Buckeye do.; Bay State do.; Molly Stark (Ohio) Mower.

And sole agents for the celebrated Nourse, Mason & Co's

Ketchum's Improved Mowers, With or without Reaper attachments—the best mowing machine in use. They will be furnished this season at greatly reduced prices, bringing them within the reach of every farmer. These machines are very much improved, and never fail in the matted or lodged clover—cutting with equal ease the tall or tangled grass without clogging or breaking; and so close that it will save from one to five dollars' worth of hay per acre more than any other machine. They are furnished with Reaper Attachment, at small cost—making them a good and serviceable combined machine; and when all other machines have failed in the tangled grain, the work has been done by the Ketchum machine to the perfect satisfaction of all. The one horse machine cuts four feet; the light two-horse machine cuts four and a half and five feet—two sizes; the heavy two-horse machine cuts five and five and a half feet, two sizes. Any boy capable of driving the team can manage the machine; it is not liable to get out of order.

The New Bay State two-wheeled Mower.—We have purchased the patent right to the New Bay State Mower for the State of California. It is one of the many machines lately invented, and stands far ahead of all others in point of excellence as a two-wheeled mowing machine, having all the new improvements that have been fairly tested. It is very light, strong, durable machine, and cuts full four and a half feet.

The Vermont Mower—Also, a two-wheeled machine. It is made mostly of iron, simple in construction, and can be managed with ease.

The Buckeye Machine has two driving wheels like the Vermont machine, and is simple in its construction.

The Molly Stark Mower, (manufactured at Canton, Ohio), is a very light mower, of the Buckeye pattern.

Ball's Ohio Harvester, (manufactured at Canton, Ohio), is a two-wheeled Reaper and Mower. Has two cutter bars—one for reaping and one for mowing. We have imported a few for trial this season.

The Kentucky Harvester cuts about five and a half feet. Said to be a very good machine.

McCormick's Reaper and Mower—a very good reaper—intended for four large horses.

Burt's Eagle Reaper and Mower, (Improved for 1862.) Baker & Hamilton, sole agents for this machine in California and Oregon.

We have imported these machines for the past two years, which were furnished to some of our neighboring farmers and thoroughly tested. They gave general satisfaction both in cutting grain and grass. The style is very much the same as the celebrated Esterly's machine, except that they are better made; have a strong iron finger bar; are hand-raking reapers and have no side draft. They have a large four foot driving wheel. The outside grain wheel is thirty inches in diameter. The driver's seat is over two iron truck wheels, each thirty inches in diameter, and the machine may be turned round without crowding the horses, as there is no weight upon their necks. They have two sets of gearing for fast and slow motion; a smooth knife for mowing, and a sickle for reaping; the back of each is made of hammered cast steel. They cut about six and a half feet, and can be worked with two light horses. We have but a few for this season's trade, owing to the fact that the great demand at the factory made it impossible for the manufacturer to fill our orders for a large number in season for shipment to this market.

Rugg's Reaper and Mower, cutting six and nine feet. This machine cuts in advance of the horses, and the cutter can be raised by the driver from one to twenty-four inches. Sold very cheap.

Haine's Illinois Harvester, or Header, cuts ten feet. Improved for the harvest of 1862. We have also imported complete sets of trucks, or running gear for header-wagons, with neck yokes and whiffletrees complete.

P. Manny's Improved Combined Reaper and Mower.—This is a new style of machine, very light, yet strongly built, lately patented by P. Manny, in which there are many valuable improvements. We are willing to guarantee this Combined Reaper and Mower in every instance.

We have imported a large stock of extras for repairing Reapers, Mowers and Thrashers, all of which will be sold cheap for cash.

ALSO—Haying and Harvesting Tools

Of every description necessary to meet the wants of the farmers. These they have in large quantities, and can supply to traders wholesale and retail, at San Francisco prices.
