 the thought

 the enclosure & your wishes for
 you in your hands & get up as you can
 in the way of work out of every
 the more of your hands
 as the more of your hands
 the more of your hands
 the more of your hands

I don't know as that is to be hoped for -
 illuminations should be made with candles
 & we shall raise some candles. I shall
 get some ~~table~~ ^{cups} & refreshments - I have got
 some Linens done. I we shall have a table
 the table - this we have suffered partly
 for the want of people to work - we had
 had more money than labourers -

I am great by relieving by the arrival
 of the Dublin Box - who got him through
 the customs - & what was the charge -
 Will you send a bundle on Monday or
 Tuesday night - as the case may require -
 that is I should like get it off - I bend
 ten or a doz of lusk your bill - I'd think
 I can get some story books for them -
 for the book table - don't forget this -

Ms. A. 9. 2. 20. 137

I enclose a note for Mrs Spem which
you can send if you like it - I should
rather have her with us than any body else
& hope you will send it - Remember that
Thur lotta Bradford comes to you - & Mrs
Emerson - These are all the right kind of
folks to have, & for the more I don't dictate
Mr Murray that I shall expect him to give
up his Chamber to me for the time of the
fair & I will take in any body that may be offered
me - He can sleep somewhere else or be hung
on a peg -

What may that I don't write to her for
want of time - What Mrs Richardson will
come up with me on Friday afternoon - This
I could not avoid - as she is afraid of
being on her own hook - & I could not suggest
to her the expediency of waiting till Monday
The Satellite ~~Munich~~ Club will not come
at all, as she engaged to go & help Mary Bddy
about moving just at this time - & if
she should stay up towards the last of the time
I can say she would not be guaranteed upon
them - I suppose that Mrs R. means
to go part of the time to Dr Adams's in
Pearl Street - I shall be in the field about

Six o'clock fresh Friday afternoon - I
trust to find things in some for warmness
& foul fall him who blanches first -

Don't give up the green - Nothing else
answers - I guess that it can be bought
five dollars worth with do the Hall -
Any sort of the running trim may &
Spain can be got, in any weather -
I got \$5.00 worth bush year & it was a
great buy - See Mrs Johnson about this
& let her to take this into her own hands
I get it done on Friday or Saturday as we
said last year - Williams will know - about
it he helps us & his height is invaluable
See if I can have Mrs Loring's woman as I
had last year on the refreshment table -
I shall need black Courme - Mrs John-
son will get her - The dishes &c. I shall
be there to see to myself - I mean that
they shall be perfect -

Will you ask Mrs Loring to ask Mrs
Leach if she will lend her branches
again for the occasion - We must have
in general new cloth for the tables I
suppose the old is so much of it
rotten & stained & torn up that it's
useful for some thing, it will not

cover the whole case - It will help
me greatly at the Refreshment table
where there must be clean cloth every
day -

I send a note to Mary Ann & one
to Francis Babcock & to Richard Elisha
& Henry Robbins which I wish you to
forward me & truly - I shall over
see for the first day - from Mary Ann
with out regard to remittances from
the country & then shall hope for supplies
this is the best I can do - I trust that
some refreshments will come in I am
sure that Linn is to be strong on
four - they have spent their time
in earning money by burning shoes
which money they mean to lavish on
refreshments - don't go near Rose
for any thing about the fair - the
shoe not let us have a tack nail last
year that was not paid for in the severest
manner -

I shall bring candles - I hope enough
but don't know - don't keep back any
lights - make all the Boston folks fetch their
Candle sticks as well as candles -
Christ Holy Light - !!! -
May I express these sentiments -
