(o) RESULTS: (For all hits claimed on ship targets and for land targets of special interest, draw diagram, top or side view or both, as appropriate, showing type and location of hits. For all targets give location and effect of hits, and identify by numbers above. Use additional sheets if necessary).

The above diagram represents the types of boats attacked in this strike. They were between 60 and 65 feet long with a beam of from 5 to 12 feet. They had clearly discernable forecastles and no masts. When discovered, they had been drawn up on the beach and were camouflaged with branches and natural growth that had been placed over them.

(p) Were Photographs Taken? No Photographs of Damage, When Taken, Should Be Attached By Staple.

Lt. Comdr. H. F. WHITTIER, USNR, flying an Avenger, led a strike group consisting of 2 Avengers and 4 Wildcats on an anti-boat search along the northeastern coastline of Okinawa Shima.

Two boats were attacked with rockets and strafing. No rockets hit the targets.

After the attack the two boats were observed to have been so riddled by strafing as to be destroyed.
