MCMLXI TECHMILA

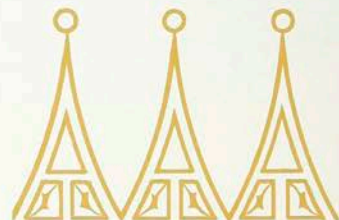

## FOREWORD

THE GAME of chess has, in many instances, been compared to the game of life. Using this old analogy as a theme the 1961 TECHMILA serves to emphasize the high points of this year's life at the Rochester Institute of Technology. The recollection of this year's activities brought about by leafing through the pages of this book will undoubtedly bring mixed emotions. The graduate will not only feel the pride of accomplishment but realize this is only the beginning and that the challenge ahead will afford him an opportunity for a happy and fruitful life. The underclassmen can anticipate the possibility of a new campus, new facilities, increased faculty, and even a new name. Soon the concrete campus may be gone forever and replaced by gleaming buildings in a setting of grass and trees. Spaciousness may replace the crowded narrowness of antiquated structures, but like the ageless chess pieces they will remain, if not in fact, in memory.

# TABLE OF CONTENTS

## CAMPUS

**I**F WALLS could talk, they could dictate a certain best-seller. With the minimum of grass to be found on our section of the city, the definition of our school's surroundings are those brick stanchions bordering on Plymouth, Broad, Clarissa, and Troup.

Within the portals of the Eastman Building lies the King of the campus. The main office is located here, but this is merely a necessary evil. The real center and the true headquarters for operation is the snack bar. Dates are made, homework done, hangovers cured, and classes have even been held here. From this axle extends the spokes of the campus wheel.

The RIT flag waves above the Rook of the campus or the "Quad," which affords the outdoor enthusiasts their place in the sun. The early fall and spring finds it full of active undergrads and coeds seriously discussing matters of state. When the weather forces the sun lovers back inside the Quad is taken over by the beanies and badges of fraternity pledging.

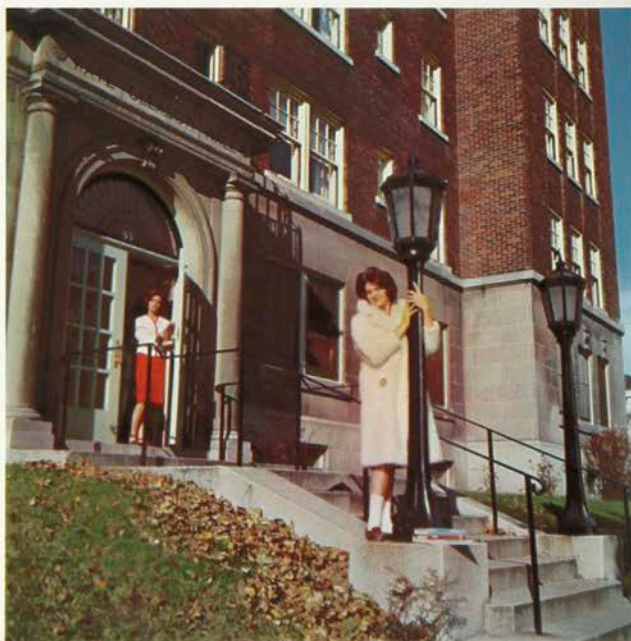

Across more concrete and asphalt stands six stories of queenly stature frequented by many, especially at closing time. Kate Gleason and Francis Baker Hall provide the setting for serenades, smiles, and slaps.

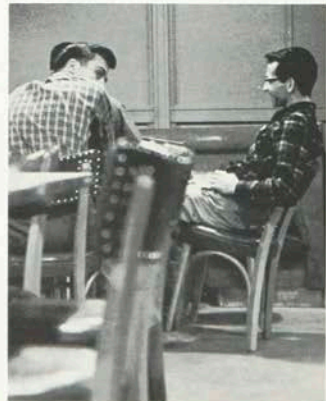

FACING EACH other with pride are the Knight and Bishop which provide modernization for the campus. The Ritter-Clark Building and the Library combine to make Spring Street the show-piece of the school. Each is active day and night in providing outlets for both scholastic and athletic endeavors.

A walk around the campus would take few moves and a minimum of effort, but to read or write its history and memories would take a master many years.

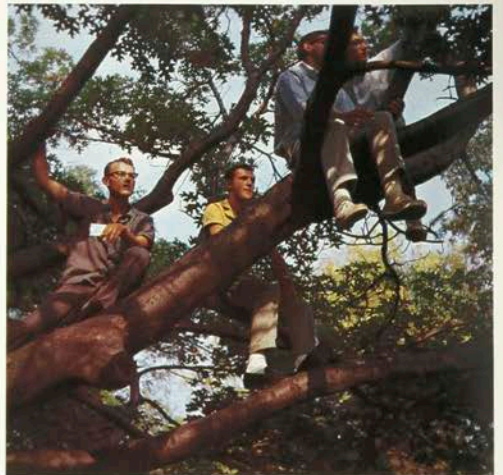

## FRESHMAN DAZE

CAN I help you with your luggage?" "Hey there, like to buy an elevator pass?" The largest freshman class in RIT history was greeted by these familiar sounds as they invaded the cubic campus. Displaying the usual wide eyes and dean's list confidence, they were met by the equally wide eyed, bird-dogging upper-classmen.

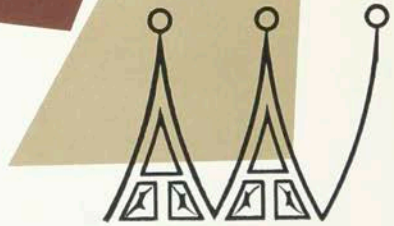

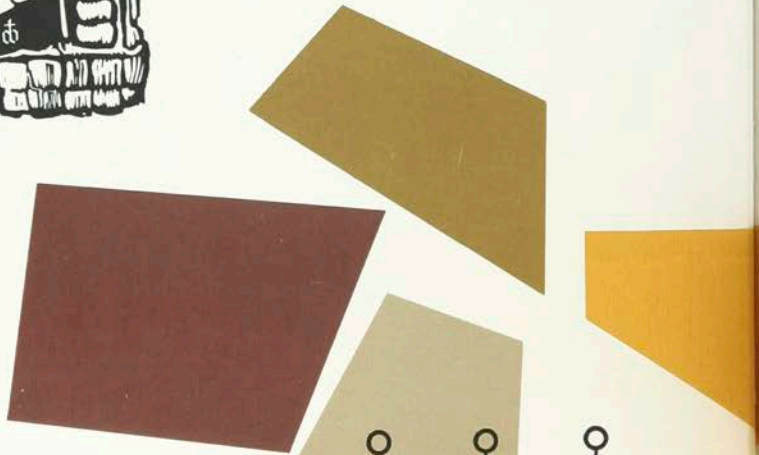

**A**PICNIC was provided to break the routine of entrance activities. Although the upperclassmen were not allowed to attend, it didn't keep the wild red Bermuda shorts away or the courageous egg throwers from displaying their talents.

**T**HE AFTERNOON activities included volleyball, softball, football, tug of war, and a good square meal. As in previous years, the frosh pulled through with little more than tired eyes, a few bruises, and the famous last words "This is the year I'm going to study."

**COLLEGES**

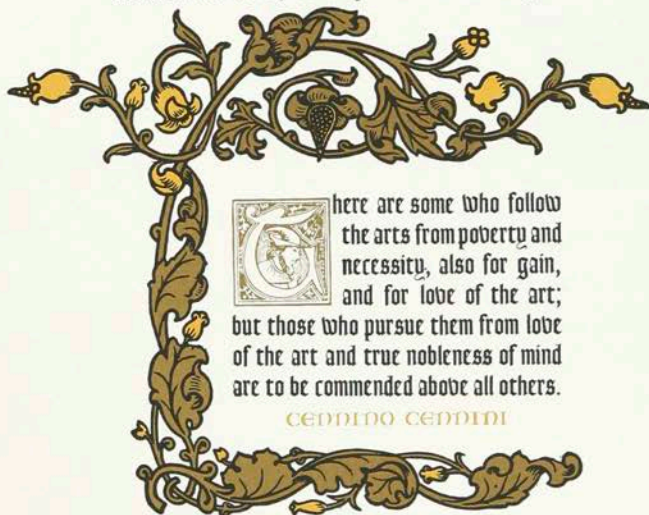

# COLLEGE OF FINE AND APPLIED ARTS

FROM THE door of the Bevier Building, oft times come artists. In that ancient, architectural masterpiece which stands at Spring and Washington, the Picassos and Rembrandts of the future, ply their talents and exhibit their wares for all to see. Here, also, dwell expert and competent instructors to direct these budding amateurs in skills and techniques needed for further advancement. While engaged in their comprehensive curriculum of painting, drawing, perspective and design, they strive for communication through visual means. ¶ The initial two years of instruction are basic in nature. At the finish of these two fundamental years the Art and Design student has his choice of either following the illustration path or going into the advertising phase of the field. The Associate in Applied Science Degree is awarded after the third year of endeavor. This degree is sufficient preparation for future success, however a fourth year of intensive study is offered. The Bachelor of Fine Arts Degree is conferred upon the student who completes the fourth year including the final project or thesis. ¶ The Art and Design School offers students and the public a fine opportunity to view the creative work turned out by their department. Examples of newly completed work are on display at all times during the year and special shows and exhibits are presented by various groups within the department in the newly revamped Bevier Gallery.

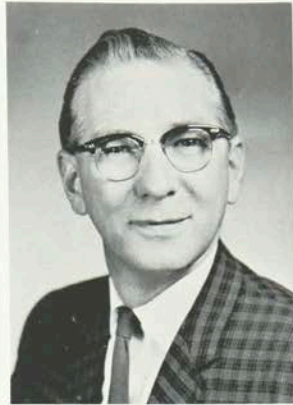

here are some who follow the arts from poverty and necessity, also for gain, and for love of the art; but those who pursue them from love of the art and true nobleness of mind are to be commended above all others.

Hark!

This close work makes me dizzy

ART AND DESIGN  
*First Row:* Roger Morris, David Raimy, Edwin Smith. *Second Row:* Barbara Bruno, Susan Dailey.

## SECOND YEAR

ART AND DESIGN  
*First Row:* Edward Deorr, Tim Ferguson, Norman Frisch. *Second Row:* Shirley London, Marta Soucek.

ART AND DESIGN

*First Row:* Roy Hiler, Judith Newton, Warren Ranney. *Second Row:* Joseph Manuse, Joan Miller, Betsy Olson, Ronald Julian.

ART AND DESIGN

*First Row:* Judith Enright, Jo Ann Falsone, Carole Barnum. *Second Row:* John Cox, Gordon Brown, Thomas Fawkes.

ART AND DESIGN

*First Row:* David Tann, Karen Spiglin, Carol Mortellaro, Daniel Winebrenner.

ART AND DESIGN

*First Row:* Anthony Ferri, Mary Humphrey, Lynn Wright. *Second Row:* Donald Gaeta, George Gray, Albert Goelluer.

ART AND DESIGN  
*First Row:* Barbara Kellogg, George Friedman, Christine Kajencki.  
*Second Row:* Garry Kaulitz, James Geldart, Thomas Hamilton, Douglas Johnson, David Hewson.

ART AND DESIGN  
*First Row:* Carol Anderson, Carol Beam, Catherine Boyle. *Second Row:* Lynn Buehlman, Timothy Butler, Charles Berry, Frank Argento, Maurice Bartikofsky.

ART AND DESIGN  
*First Row:* Donna Youmans, Dennis Wood, Beth Yahn. *Second Row:* Victor Yates, Lynn Vankuren, Victor Valla, James Wood, Peter Vogelaar.

## FIRST YEAR

ART AND DESIGN  
*First Row:* Sara Newton, Bonnie Manley, Terry Michlin. *Second Row:* Linda Pearson, Raymond Niver, Leonard Potter, Walter Piersol, Sandra Knapp.

ART AND DESIGN

*First Row:* Marilyn May, Patricia Kelly, Elaine Lane, Elaine Maul. *Second Row:* Charles Lobser, Joseph Rickard, George Lucas, Peter Dickson.

ART AND DESIGN

*First Row:* Brian Shapiro, Linda Schutte, Susanne Schapp, Margaret Parsons, Elwyn Smith. *Second Row:* Richard Stahl, Michael Stell, David Saifman, Rudolfo Siciliano, Edward Strong.

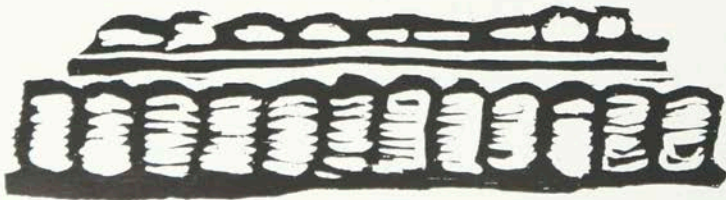

ART AND DESIGN

*First Row:* Sandra Federation, Brenda Cross, Norma Fitting. *Second Row:* Wayne Carr, Richard Dale, Michael Cotsworth, Francis Covell.

**A**N OLD, rather shabby looking building located on our campus produces some of the world's most beautiful and appreciated creations in both wood and metal. The School for American Craftsmen excels in the quality and originality of productions in ceramics, weaving, metalsmithing, and woodworking. The finished pieces turned out by students are admired the world over and furnish the Institute with justification for great pride. ¶ Affiliated with the Art and Design School for purposes of creative exchanges, the S.A.C. School offers the Associate in Applied Science Degree, the Bachelor of Fine Arts Degree, and also has initiated the Master's degree open to students with Bachelor's degrees. The Master's degree was begun at RIT by this school, who last year conferred the honor upon three graduates. ¶ The majority of the S.A.C. student's work is obtaining instruction in both fundamental and experimental design and application of these designs and principles toward a finished product of the highest quality. When the education, complete with instruction from S.A.C. and Art and Design, is brought to a close the student is capable and prepared to advance into the creative world of arts and crafts.

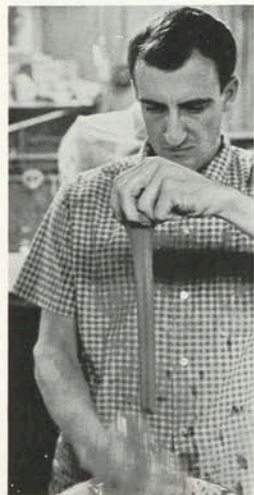

## SCHOOL FOR AMERICAN CRAFTSMEN

"Bowling" can be fun

Foiled again

Smooth as a baby's blanket

FACULTY: *First Row;* Geroldine Uschold. *Second Row;* Hobart Cowles, Karl Laurell, Michael Harmes, Frans Wildenhain, Harold Brennan, Hans Christensen, Tage Frid.

## THIRD YEAR

Carol Hoffman pulling for an A.

S.A.C.  
*First Row:* Carol Hoffman, Martha Cragg, Margaret Cragg. *Second Row:* Warren Ottemiller, Richard Swartz, Alban Chasse, William DeFrank, John Rogers.

S.A.C.

*First Row:* Kathryn Simon, Douglas Sigler, Dorothea DeFrank. *Second Row:* Garry Sleight, Jerrold Smith, Donald Sutherland, Aaron Rosenstreich, Martin Davis.

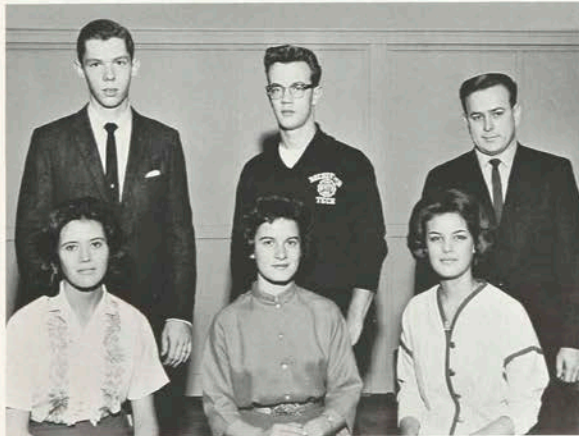

Harold Brennan, *Director  
Dean, College of Fine and  
Applied Arts*

## FIRST YEAR

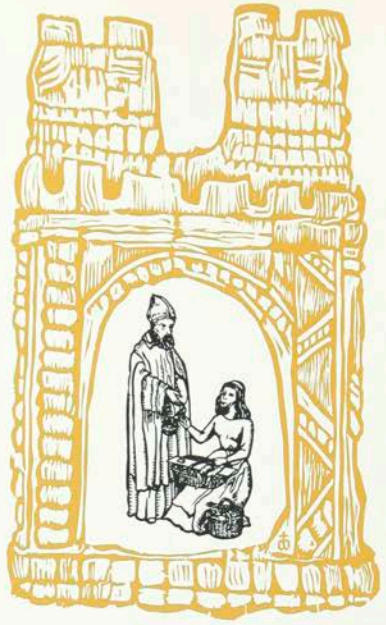

S.A.C.

*First Row:* Julie Baldwin, Joseph Csernak. *Second Row:* George Ball, Mark Dick, Young Byun.

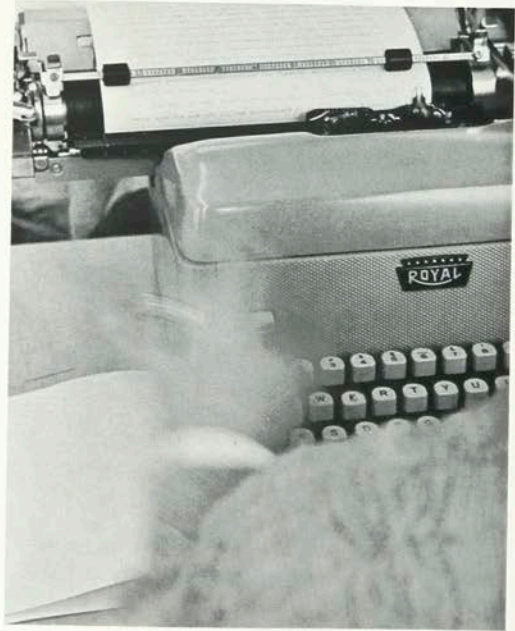

S.A.C.

*First Row:* Kathy Lauer, Barbara Schabel, Betsy Frankel. *Second Row:* Barry Merritt, Frederick John, Louis Pezzuti.

# COLLEGE OF BUSINESS

**T**HE SECRETARY is typing a sales report to be sent to the Auditing Department. The Production Manager reports a completed order. The Research Department has just tackled an advertising problem. The world depends on Business Administration personnel to better produce, distribute, and utilize all its goods and services. The School of Business Administration is meeting the need for well trained graduates with a two-part program. First, in the division of Business Administration, students pursue majors in General Business, Accounting or Certified Public Accounting. All earn an Associate in Applied Science Degree at the end of three years and a Bachelor of Science Degree after four years. Second is the division of Secretarial Studies for V.P.'s and M.D.'s. ¶ Class room theory is made practical with cooperative employment opportunities available to Business Administration students. Our students have experience in applying what they learn every other quarter for two years in their own fields of study. ¶ The world will be able to make good use of the Business Administration graduate. He has learned under competent, well informed professors. He has studied in a practical educational program under a progressive department head. He accepts the unlimited challenge and is ready to "Get things done through people." "Progress is his most important product." Truly our graduate is well trained and experienced.

## SCHOOL OF BUSINESS ADMINISTRATION

FACULTY: *First Row*; Rose Fewster, Irene MacNaughton, Agnes Putney, Elizabeth Klett, Dorothy Brooks. *Second Row*; William Fleming, Elias Awad, Joseph Stauffer, Houston Elam, Raghuvir Gupta, William Beatty, Arden Travis.

Mrs. Lock picking the keys

Eyes right girls

BUSINESS ADMINISTRATION

*First Row:* Frank D'Agostino, Warren Alent, James Carey. *Second Row:* David Campbell, Bruce Anderson, John Brodie, Daniel Chacchia.

## SECOND YEAR

BUSINESS ADMINISTRATION

*First Row:* William Cowley, Elaine Galante, Thomas Herring. *Second Row:* Gerald Abel, John Kester, Melvin Mayer.

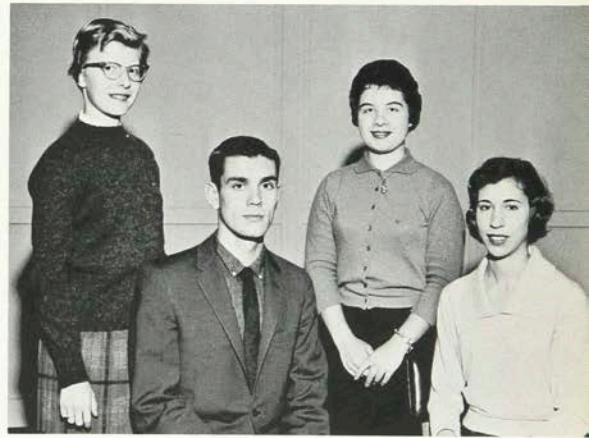

BUSINESS ADMINISTRATION

*First Row:* Paul Sanelli, Philip Stanat, David Wrobel, David Warren. *Second Row:* Byron White, Steven Plane, Elizabeth Wright, Philip Saggese, Victor Ukshe.

The "Royal" brigade

**BUSINESS ADMINISTRATION**

*First Row: Wayne Torkington, Pauline Weingarten. Second Row: Janice Tellier, Nancy Ritz.*

**BUSINESS ADMINISTRATION**

*First Row: Franz Griswold, Gary Elsom, Richard Fleming. Second Row: William Gault, Lawrence Downs, William Hall, George Haskell.*

# SECOND YEAR

**BUSINESS ADMINISTRATION**  
*First Row: Mary Kinn, Jay Heise, Helen Herzog. Second Row: Glenn Knight, John Mallory, John Quincey, Vaughn Hildreth.*

Check-maid

**BUSINESS ADMINISTRATION**  
*First Row: Donald Purdy, William Kehoe, John Russer. Second Row: Louis Muscate, John Duggan, Daniel McGillicuddy, Gary Lang.*

*First Row:* Anne Henderson, John George, Mary Hall. *Second Row:* George Grant, Brian Hansen, Edward Heineman, Richard Hartman, Donald Hassett.

**BUSINESS ADMINISTRATION**

*First Row:* Jacqueline Altmen, Kathleen Barringer, Margery Bronson. *Second Row:* David Baroodly, Donna Bailey, Elaine Alaimo, Richard Ammering.

# FIRST YEAR

**BUSINESS ADMINISTRATION**

*First Row:* Karin Sonneman, Judith Stilson, Carol Tanea. *Second Row:* Anthony St. George, Richard Vaccaro, Robert Sturn, James Tarquin, Harold Thurston.

**BUSINESS ADMINISTRATION**  
*First Row:* Ruth Cadle, Donna Cermak, Mary Carney. *Second Row:* Peter Browne, Paul Bruckhaus, Donald Brooks, John Cassata.

**BUSINESS ADMINISTRATION**  
*First Row:* Beverly Flint, Robert Desroches, Joyce Gebo. *Second Row:* Bonnie Gare, Douglas Gath, Joanne Fien.

## FIRST YEAR

**BUSINESS ADMINISTRATION**  
*First Row:* Barbara Neenan, Jane Bush, Lucille Orioli. *Second Row:* William Miller, Frank Palmeri, Courtney Palmer, Daniel Paap, David Newman.

**BUSINESS ADMINISTRATION**

*First Row:* Virginia McEwen, John Dunn, Margaret Martin. *Second Row:* Joseph Marhatta, Gary Lindsay, Kathleen McCaffery, Gary McNairn, William Luertzing.

**BUSINESS ADMINISTRATION**

*First Row:* Betty McNinch, Nona Mihr, Barbara Munch. *Second Row:* Edward Mroz, Jerome Murtha, Robert Leetz, George Meek, David Murphy.

**BUSINESS ADMINISTRATION**

*First Row:* Thomas DeRycke, Patricia Driscoll, Barry Cummins. *Second Row:* Richard DeSarra, George Douglas, Gary Ensign.

**BUSINESS ADMINISTRATION**

*First Row:* John Reigelsperger, Harlan Purdy, Robert Regelsberger. *Second Row:* Robert Reed, Herbert Rice, Peter Rhodes, Robert Shermer.

**BUSINESS ADMINISTRATION**  
*First Row:* Elaine Kendrick, Patricia Kiefer, Barbara Jones. *Second Row:* Herbert Ingersoll, Judith Kaiser, Raymond Klim, Joyce Judd, Joseph Lanzisera.

**BUSINESS ADMINISTRATION**  
*First Row:* Bernard DeCook, Barbara Cleary, Walter Delaney. *Second Row:* Barton Dambra, Ronald Coates, Joseph Coco.

**BUSINESS ADMINISTRATION**  
*First Row:* Stephanie Wooden, Nancy Walters, Otilija Vosylius. *Second Row:* Delores Will, David Webster, Karen Welter.

## FIRST YEAR

**BUSINESS ADMINISTRATION**  
*First Row:* Katharine Lawrence, David Lamphron, Shirley Knapp. *Second Row:* David Hayden, Shirley Lemcke, Darlene LaDue, Theodore Koetz.

**BUSINESS ADMINISTRATION**

*First Row:* Sharon Beuckman, Robert Bayer, Carol Boeckmann. *Second Row:* Patricia Bromley, Erika Baumbach, Carol Billings, Deanna Bell.

**BUSINESS ADMINISTRATION**

*First Row:* Theodore Solarek, Gloria Schuyler, Diana Schuyler, Roger Smith. *Second Row:* Georgiana Siemann, Claudette Singer, Mary Shepard.

**BUSINESS ADMINISTRATION**

*First Row:* Ann Vitale, Judith Valastro, Josephine Vona, Patricia Villareale. *Second Row:* Paul Wengert, Robert Weiss, Lowell Twitchell, Richard Travis.

**BUSINESS ADMINISTRATION**

*First Row:* Gail Plotzker, Corinne Pituley, Mary Pillitteri. *Second Row:* James Park, Robert Peck, Mary Pfenninger, Roy Peck, Joseph Plasso.

**BUSINESS ADMINISTRATION**

*First Row:* Dorothy Ritter, Dorothy Rotolo, Mary Schultz. *Second Row:* Robert Ryan, Roberta Ryan, Anthony Rossi, Karin Riedel, David Rumfelt.

# FIRST YEAR

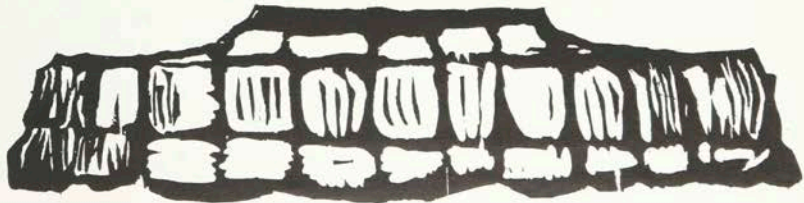

**BUSINESS ADMINISTRATION**

*First Row:* Patricia Graham, Richard Friday, Lois Grove. *Second Row:* Norman Gath, Frederick Guzzetta, William Golde, John Fennell, Richard Hill.

**T**HE BREADBASKET of the Institute lies in the south end of the Eastman Building. On both the first floor and in the cafeteria kitchen the students of the Food Administration Department bake, broil, and burn their way up the ladder of culinary success. For the person who appreciates the efficiency with which good restaurants are handled and expert preparation of food, this department turns out graduates capable of fulfilling his needs. ¶ Food Administration offers, as do several other departments, a choice of specific fields after two basic years of study. Following these first years, which contains instruction in the principles of cookery, food purchasing, quantity food preparation, and nutrition, the path branches into either food management or hospital dietetic work. The management field includes necessary courses and instruction in business subjects as well as further knowledge of foods. The hospital dietician focuses his attention on relationships between diets and diseases to further his study. ¶ The degrees of Associate in Applied Science and Bachelor of Science are conferred to graduates after three and four years, respectively. The purpose of this type education is to improve the quality of the food being consumed today and to aid in the curing and prevention of sickness through better dietary control.

## FOOD ADMINISTRATION DEPARTMENT

Elizabeth Hurley, *Coordinator*

"Double, double, toil and trouble"

Hurry Margie, *Chop-Chop*

FACULTY: *First Row*; Elizabeth Hurley. *Second Row*;  
Marjorie Pierpont, Bernice Skinner, Viola Wilson,  
Velma Jordan.

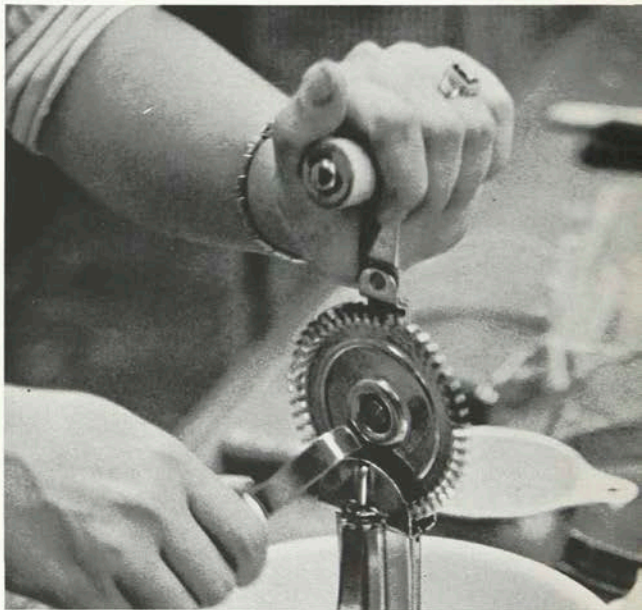

Food student cuts rolling pin to size

"I know this \*#@% jar can be opened"

RIT keeps wheels of food world turning

# SECOND YEAR

## FOOD ADMINISTRATION

*First Row:* Lillian Fritchie, Carol Robinson, Klaus Hartung, Mary McCartney, Marjorie Butts.  
*Second Row:* Pauline Browne, Beverly Fratta, Clarence Gallmann, Lois Berber, Judy Weaver.

## FOOD ADMINISTRATION

*First Row:* Carmen Carbone, Patricia Kearney, Ann Coleman, Nancy Johannes. *Second Row:* James Gatto, Donald Henderson, Ronald Graner.

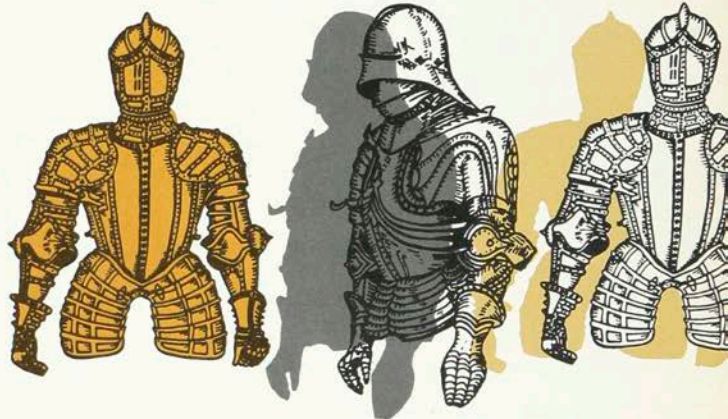

# FIRST YEAR

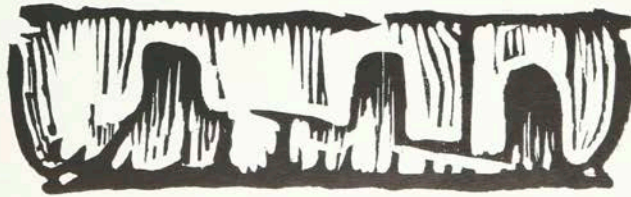

## FOOD ADMINISTRATION

*First Row:* Marilyn Sanderson, Angelica Pilato, Elizabeth Wullschleger. *Second Row:* Byron Nernoff, David Stern, William Muto, Joseph Worrell.

**B**UT THAT'S the style now." When you see a young gentleman or lady dressed in attire which you may feel is a bit different, chances are that he or she is a Retailing major keeping up with the current trend in fashion. The School of Retailing attempts to contribute the technical skills required to properly compete in the retailing field. Preparation is given to send competent people into the field as merchandise managers, interior decorators, and designers. ¶ At the Institute the principles of buying, selling, promotion, and control are taught, also, through the co-operative plan the student is given a chance to work in actual business retailing. The co-operative system offers the student a chance to compare classroom theories against those actually in use in the business world. This experience presents the student with new ideas, and an appreciation for the scope of Retailing. ¶ After two years of successful study the Retailing student is awarded the Associate in Applied Science Degree. Branching into either Retail Management or Retail Management with specialization in Interior Decorating and Fashion Merchandizing he may continue for a full four-year course and upon graduation receives the Bachelor of Science Degree.

## SCHOOL OF RETAILING

Edwina Hogadone, *Director  
Dean, College of Business*

**RETAILING**

*First Row:* Dorothy Rodecker, Mary Schauf, Genevieve Scarlata. *Second Row:* Paul Schafer, Caroline Rinschler, Delinda Shaheen, Susan Smith, David Ruttan.

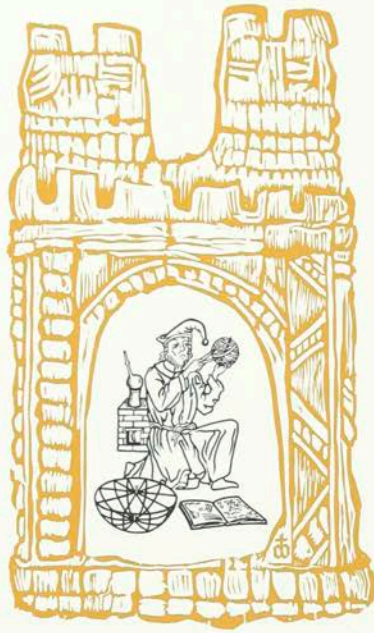

**RETAILING**

*First Row:* Diane DeStefano, Beverly Diamond, Marie Ferraro. *Second Row:* Charles Eckert, Vincent Fowler, Douglas Ezick, Brendan Fahy.

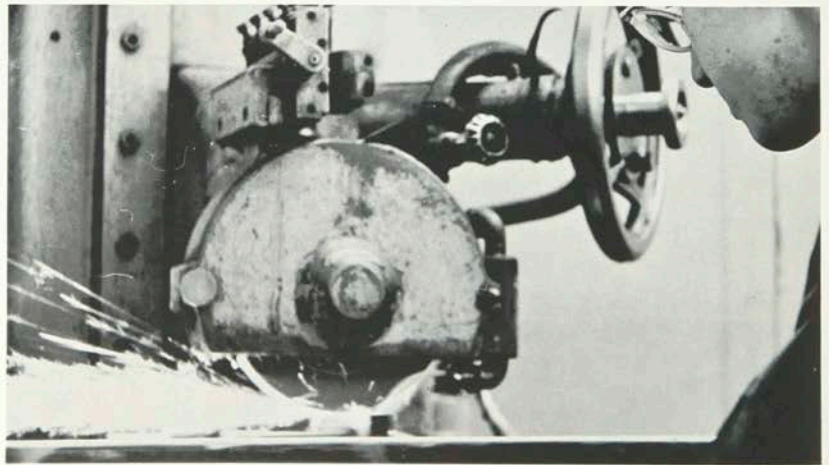

**RETAILING**

*First Row:* Alaine Matthies, Carol McLaughlin, Margaret McCallen. *Second Row:* Paul Murano, Kathleen McGraw, Elizabeth Meyer, Sheila Mason, Ellen Mayo, Gaylord Merow.

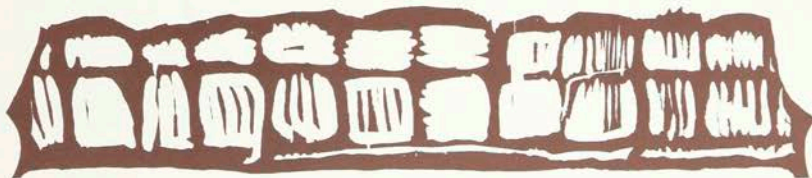

# COLLEGE OF APPLIED SCIENCE

**P**ROGRESS through chemistry and related fields of science has created the modern world in which we live today. This growth has been made in many areas through man's constant desire to improve his surroundings. Science has changed our environment to such a degree that ancient man would scarcely recognize his world. The greatest part of modern technological development is dependent upon chemistry, yet the significance of chemistry is not widely recognized. ¶ In this field the student may play an active role; he may build upon an existing theory, or lay a foundation for research by other chemists in a previously unknown area. At RIT, the chemistry course is separated into two departments, clinical laboratory technology and industrial chemistry. In both divisions, students learn the fundamentals of science and the theories of other scientists. After the study of such basic material, the student may become interested in any of the related areas. In time he is likely to develop ideas and views which have not been previously considered. Through publication of these discoveries, progress is made. ¶ To the uninitiated, the chemistry lab is a foreign sort of place, evil smelling and bristling with precarious structures of glass. These retorts and flasks, with their bright and bubbling contents, are the tools of the chemistry student. With these he builds a future for himself and for industry.

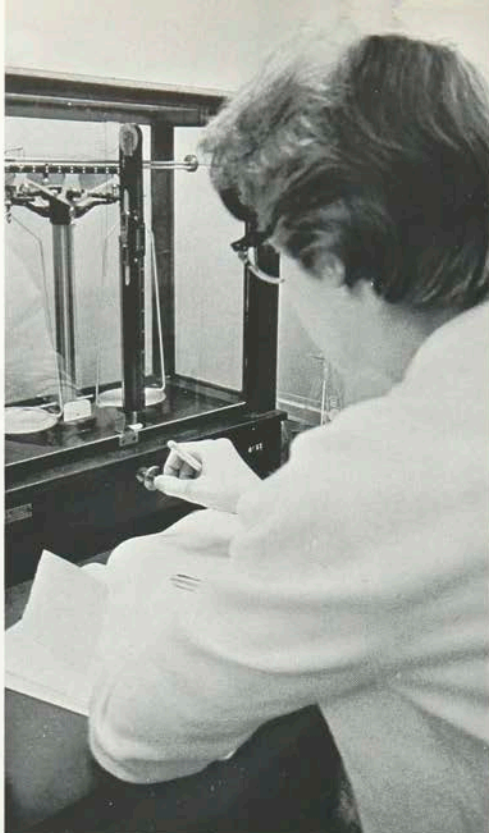

## CHEMISTRY DEPARTMENT

Ralph VanPeursem  
*Department Head*

The "Weighting" Game

FACULTY: *First Row:* Casselman Hess, Nina Sandberg, Theodore Michelfeld, Ralph VanPeursem, Judy Witzel, David Baldwin. *Second Row:* Homer Imes, Harry Clemson, Jr., Robert Craven, William Hayles, Charles Allen, James Wilson, Jr., Edwin Hennick.

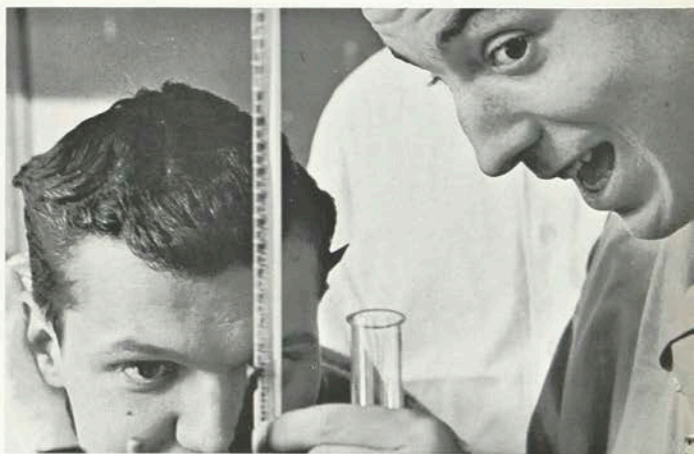

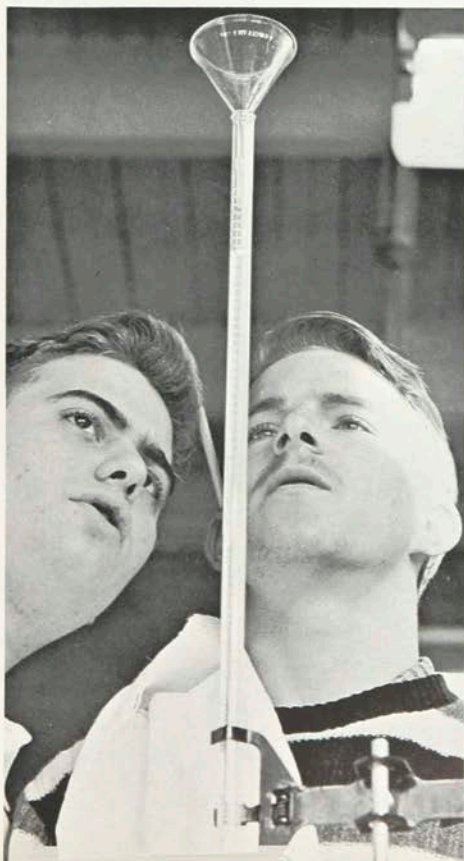

Wide-eyed over titration

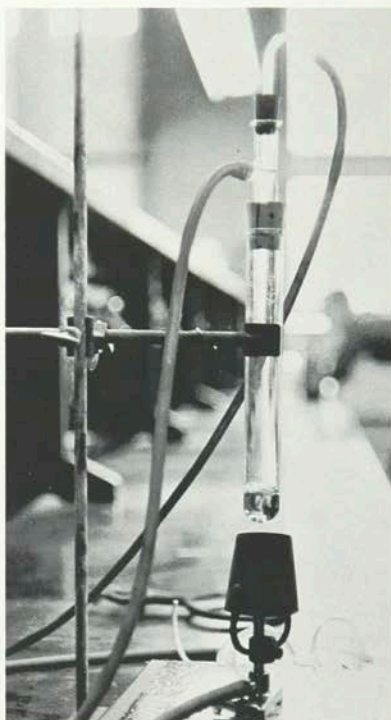

Oh, come on, boil

I think it just reached the third plateau

Ah! We've done it. It tastes just like CC

The teacher's gone but I love her "still"

## FIRST YEAR

CHEMISTRY  
*First Row:* James Wilson, Lana Tremsky, Kenneth Swiech.  
*Second Row:* Harold Totten, Floyd Vine, Steven Taillie.

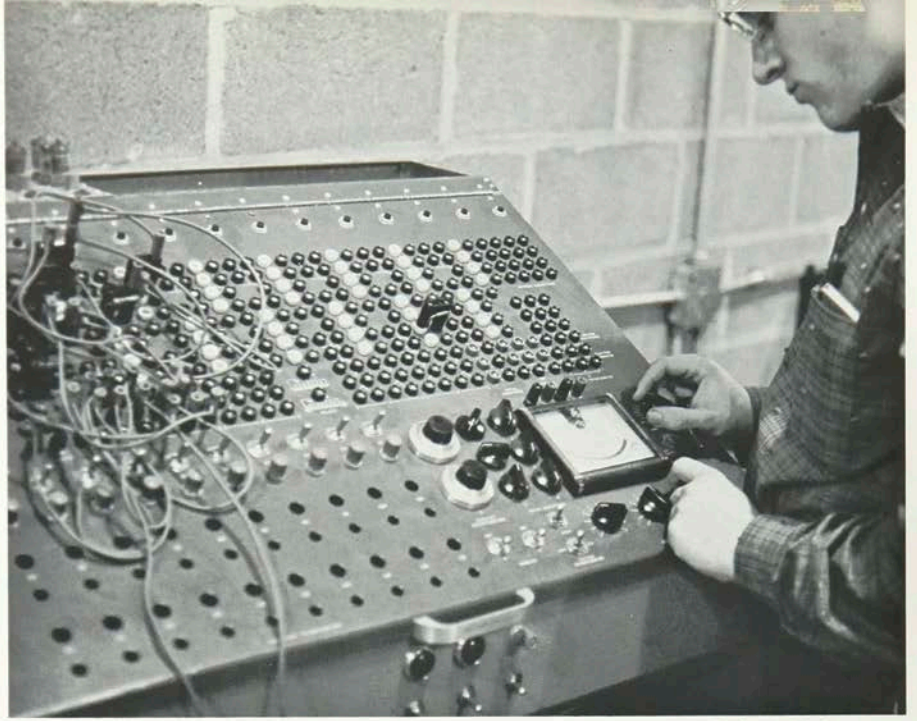

**F**OLLOWING a well known electrical firm's motto, the Electrical Engineering Department has made progress its most important product. Progress, through a competent faculty constructive cooperative plan, and diligent student support, has made this department one of the finest. ¶ Two major changes were initiated into the Electrical program this year. The major change was the separation of the Associate program from the Engineering program following the first year of study. This has proved to be important to the engineering student by allowing greater emphasis to be placed on directing his education toward more immediate objectives of engineering. The second innovation involves the cooperative school-work schedule. Students entering the Electrical Department attend classes on a full-time basis for the first two years. At the finish of these two years the Associate degree is awarded and the cooperative program for students begins in the fall of their third year. The department believes that these changes will result in one of the most effective training programs in the nation. ¶ In the midst of an ever growing need for qualified men in the electronics field, the Electrical Department stands to fill the gap with educated engineers.

## ELECTRICAL DEPARTMENT

61

Student with wires crossed

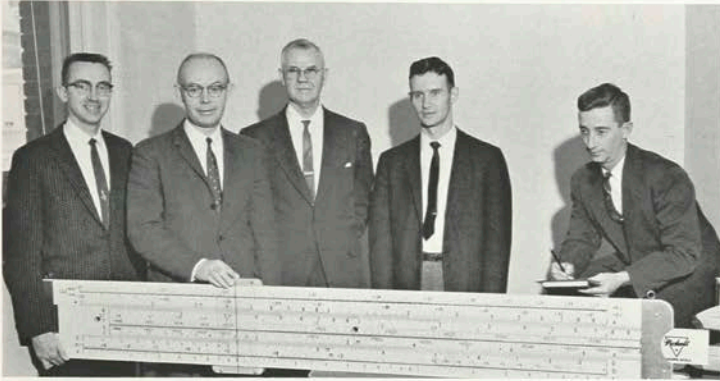

FACULTY: *First Row:* Kenneth Kimpton, Charles Piotraschke, Earle Morecock, George Brown, Bernard Logan. *Second Row:* Martin Siebach, Clarence Tuites, James Reynolds.

**A** MODERN technological institution is obliged to provide the mechanical engineering student with an education which is sufficiently specialized so that it will enable the student to succeed in a particular area. So the student will have an overall perspective, it should be general enough to include a knowledge of the problems existing in other areas. At RIT, this education is provided in a variety of ways. Regardless of whether the student is in the classroom attending a technical lecture, in the laboratory conducting an experiment, at home studying, on a co-operative plan gaining practical experience in the industry, or in the general education classroom, he is gaining insight which he will find useful throughout his career. ¶ The advances of modern technology in the fields of automation, metallurgy, and mechanical design during the past few years has been astonishing. Even more impressive are the challenges that face the technology society of today. These range from the development of a successful nuclear powered rocket to the design of an automatic machine that reduces production time on a simple part. ¶ The mechanical department offers the student a challenge in the field of mechanics and helps him to meet this challenge by providing adequate instruction and progressive education.

COLLEGE OF  
GRAPHIC ARTS AND PHOTOGRAPHY

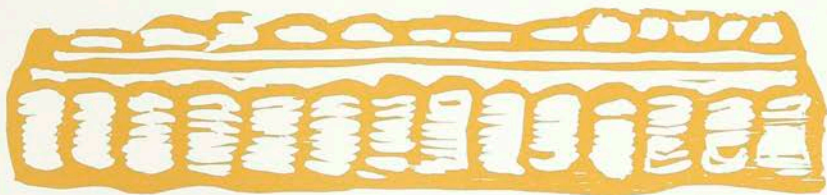

**T**HE SCHOOL of Photography combines with the School of Printing to form the College of Graphic Arts and Photography.

It is indeed fortunate that these two fields can be combined under the same roof, enabling them to probe into the future with far reaching experiments using the facilities of both schools. ¶ Occupying the third floor of the Clark Building are men and women students who have chosen as their life's vocation the art of photography. Through the years this profession has come to be one of the most respected in the entire world. Through the magic of their lenses have come invaluable experiences and information, which before went unrecorded but now have been captured and preserved for posterity. ¶ Receiving their A.A.S. Degree after completing two years of work, the students may then branch into Photo Technology or Illustrative Photography. Regardless of which of the two branches the student desires to pursue, he is expertly prepared and ready to take his place in the world of camera and film. ¶ A chess player needs a photographic memory, so they say, but the next best thing is a camera. A graduate photographer will have no trouble playing the game.

"I think I'll be a photographer when I grow up"

**A**MONG THE SHADOWS of Gutenberg, Gar-  
amond, Goudy, and other greats in the gra-  
phic arts field, exist the beginners and ap-  
prentices who daily endeavor to emulate  
their famous predecessors. The odds of becoming an  
artist and possessing the talent of these men are heav-  
ily against the student. If, however, great printers  
are made and not born, they will begin to achieve  
their greatness here in the School of Printing at the  
Institute. No other school in the country offers the  
program or opportunities that the student here en-  
counters. ¶ The School of Printing draws students  
from all over the United States, as well as foreign  
countries. When graduated with either an A.A.S. or  
B.S. degree, they are prepared to enter the world of  
creativity and craftsmanship with capability and con-  
fidence. ¶ The School prepares young men to give  
to the world everything from the morning paper to  
a label on a can of beets. The industry into which the  
students are sent is an awakening business which is  
realizing the need for educated leaders more and  
more. This need is directed in a straight line to our  
school, to tap each graduating class and put the grad-  
uate in a responsible position. ¶ When the graduate  
printer leaves the school his place has been reserved  
for him on the board. The only remaining part of  
the game is his next move.

Printing Week 1961 set several precedents. For the first time in many years the program was expanded to include more than the annual banquet. Two professional graphic arts exhibits were on campus; the noted designer Norman Kent displayed wood cuts and outstanding typographic designs; an open house was conducted for area high school printing students; and, the Goudy Room was formally dedicated.

The banquet itself was a gala event with the attendance at a record shattering 200. Professor Laurance Siegfried, a graphic artisan with a nationwide reputation, drew laughter and applause with his talk "Goudyamus Igitur." Professor Siegfried, former editor of the *American Printer* and presently with Syracuse University, was a personal friend of the late Fred Goudy.

The two professional exhibits included the Fifty Books of the Year 1960 and Design in Printing and Fifty Advertisements of the Year 1960. They were displayed in the library and the Bevier Gallery.

**T**HE Graphic Arts Research Department is a professional research organization operated by the Institute. Although students do not take courses in the Department, many graduates of the Schools of Printing and Photography have indirectly benefitted by its research. The facilities of the Department and its Information Service Library are open to students for use in their senior projects.

¶ Research is divided into the categories of science and technology, and applied science. The science and technology section's primary objective is to learn about color reproduction. Ordinarily this basic research does not have any immediate application but is intended to add to the general knowledge in the field. In applied science two major projects are in the works. First is the application of web offset printing to color newspaper reproduction. As a part of this research in color newspaper printing, the laboratory has printed the Reporter on a weekly basis for the past two years. The full color reproductions in the Reporter are the envy of the color newspaper publishers throughout the United States. Secondly, work is being done toward the development of a no-pack, minimum-shrink, stereotype mat for newspaper printing. It is probable that during the next school year it will reach completion and be available to the market.

# COLLEGE OF GENERAL STUDIES

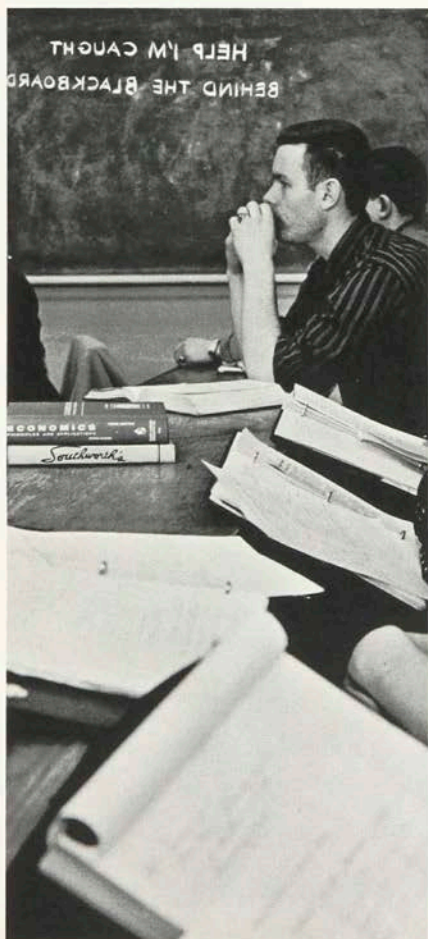

James Wilson, *Dean*

**E**XPERTLY played chess is possible only by players who devote the major part of their time and energy to study and practice of the game. As in chess the student must study, practice, and apply what he has learned in order to broaden his education and to open his mind to the world that surrounds him. ¶ It is the aim of the College of General Studies to develop within the student liberal knowledge, understanding, attitudes, skills, and appreciations in all fields so he can become a better player in the world in which he lives. ¶ Throughout the years, the educational program has offered a wide variety of subjects which included courses in communication, humanities, natural sciences, and social sciences. The objectives of the curriculum in these areas are to stimulate the student to express his own ideas, to learn to think critically and constructively, to understand man's physical environment, and to maintain a high degree of mature self adjustment and effective relationships with others in our society.

# ORGANIZATIONS

Alumni get together for a night at the round table

## ALUMNI ASSOCIATION

Ladies and gentlemen . . .

Vice Admiral Raborn expounds on the Polaris for the benefit of Mr. Davis

The members of the RIT Alumni Association wish to extend a cordial welcome to the graduating class of 1961. You are joining 14,000 persons who are your fellow alumni.

Through this organization graduates and former students are able to maintain contact with each other and their Alma Mater. It also provides the means by which they support their college.

The affairs of the Association are governed by a group of representatives comprising the Executive Council of the Association which meets monthly in Rochester. These representatives are elected on a departmental basis by a mail ballot once a year.

To meet its objectives of communications and support of the Institute, its students and its program, the Association plans a series of activities directed by the Executive Council. These activities are administered by the Alumni Relations Office of the Institute.

Highlighting this program of activities each year is the annual dinner and dance held in Rochester in the fall of the year. This past year Vice Admiral William F. Raborn, Jr., father of the Polaris Missile, was the guest speaker.

# AMATEUR RADIO ASSOCIATION

The Amateur Radio Association (ARA) at RIT was organized to provide recreation and advancement for the licensed radio amateur, and to assist students who wish to obtain an amateur radio license.

Membership in the ARA consists mainly of undergraduates who hold Amateur Extra, General, Technician, or Novice class licenses, or who are interested in obtaining a license. Weekly code and theory classes are held for those members who desire a license. This year the ARA had over twenty-five members who represented nearly all departments in the Institute.

Slides and talks by local hams highlighted most of the monthly meetings of the ARA. The club sponsored a trip to the studios and transmitter of WHEC and also visited the Antique Wireless Association Museum, where one can view the past of amateur radio.

The licensed members of the club operate from the "penthouse" (the ham shack atop the Eastman Building) under the call sign K2GXT which has been assigned to the ARA by the Federal Communications Commission. As a free service to RIT students and faculty, messages can be sent to anywhere in the United States and many foreign countries.

The officers for this year were: Harry Beardsley, President; Dan Schmitt, Vice-President; Willie Haruk, Secretary; and Jesse Zeck, Treasurer. The faculty advisor is Professor Bernard Logan.

... and after dinner we went to ...

Harry Beardsley, *President*

Calling car 44, car 44 please report to Washington and Troup

The student affiliate chapter of the American Chemical Society serves as a professional organization for chemistry students at RIT, in seeking to promote a better understanding of chemistry outside the classroom and an appreciation of professional life and its obligations.

To accomplish these objectives, the ACS provides monthly meetings for the duration of the school year. At these meetings, guest speakers from industry, as well as lectures by members of the faculty have all combined in the common goal of the edification of the student.

Although the purpose of the organization is technical in nature, the social aspects of student life on campus were not forgotten. The ACS planned and sponsored a highly successful outing for the pleasure of its members, which concluded an informative year.

The officers for this year were: Chairman, Joseph Barr; Vice-Chairman, John McKinley; Secretary, Peter Zando; Treasurer, Robert Case; Program Chairman, Donald Elliott; and Faculty Advisors, Professor Edwin Hennick and Dr. William Hayles.

## A.S.A.S.

The Art School Art Society is a small honorary organization composed of members from the top fifty percent of the second, third, and fourth year art students. Admission is on an invitational basis.

The objective of the A.S.A.S. is to provide certain cultural activities not available to the individual. Lectures by visiting artists, showings of significant art films, readings of plays, and field trips to nearby places of interest to the artist are among the events that enrich the cultural understanding of those participating. This past year the A.S.A.S. sponsored a very successful juried exhibit of student paintings, prints, and drawings. In addition to this, the group also conducted a sale of student prints and drawings. Purely social functions have been kept at a minimum in order to concentrate on the real purpose of the organization, which is the cultural enlightenment of the student.

Officers for this year were: President, Robert Conge; Vice-President, David Randall; Secretary, Joan Lindstrom; and Faculty Advisor, Professor Philip Bornarth.

The organization wishes to thank the rest of the faculty and art students for their enthusiasm and support of A.S.A.S. sponsored activities.

Art students frolic in fantasy land

# A.S.T.M.E.

The mechanical department's A.S.T.M.E. is a professional engineering society, offering students the opportunity of advancing their scientific and technical knowledge beyond the realm of the classroom. The RIT student chapter is one of the biggest in the country, with over 70 members.

The program presented by the A.S.T.M.E. this year included lectures, plant tours, social activities, and intramural athletics.

One of the most interesting programs of the year was presented by Mr. David Platnick of the University of Rochester. Mr. Platnick is associated with the computer section at the University and his lecture dealt with the engineering applications of the digital computer. The fourth annual banquet, held in May, completed the year.

The officers this year were: William Cotter, Chairman; Carl Nowak, First Vice Chairman; James Welch, Second Vice Chairman; Eugene Horak, Treasurer; Christian Tertinek, Secretary; and Professor Frederick Buehler, Faculty Advisor.

A.S.T.M.E. members assemble behind laboratory machinery

Eugene Horak, William Cotter, Frederick Buehler, and James Welch

Dr. William Hayles casts a scrutinizing eye over chess board

## chess club

Three years ago the RIT Chess Club was formed with the primary purpose of playing chess "one night a week." However, interest has grown so enormously, that in addition to the weekly meetings, the club engages in 12 inter-collegiate tournaments a year. This year's competition included: Clarkson College of Technology; LeMoyne University; University of Buffalo; Geneseo State Teachers College; St. John Fisher College; and the newest competitor, the University of Toronto.

In order to maintain the high interest in chess at RIT, the officers of the club, who were: William Berk, President; Tom Frantz, Vice-President; Stuart Farr, Secretary-Treasurer; and Faculty Advisor, Doctor William Hayles, sponsored an intra-school tournament this year. This tournament was opened to all members of the student body at RIT. It is hoped that this tournament will create an even greater interest in chess, so as to enable the Chess Club to continue its fine example of extra-curricular activity at the Institute.

William Berk, *President*

# FORENSIC SOCIETY

"Those who sow the seeds shall reap the harvest."

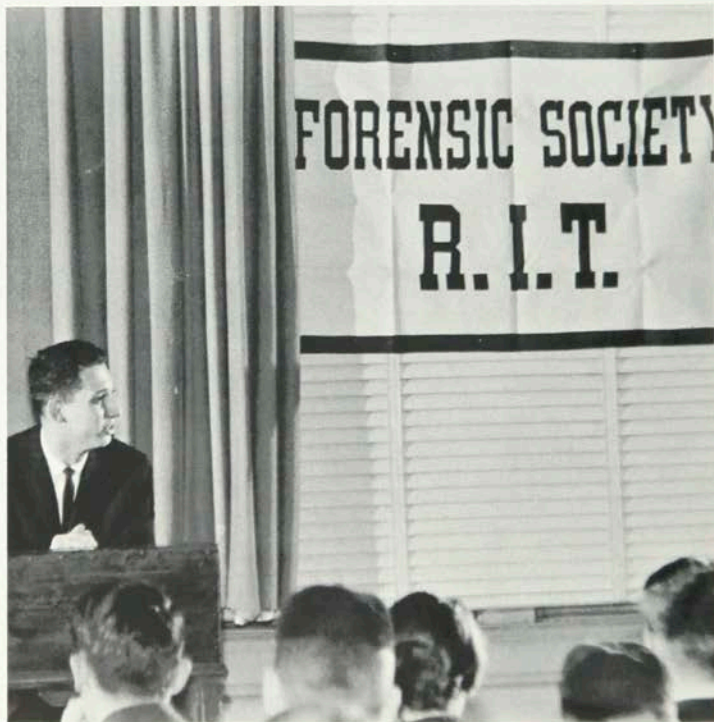

As the Forensic Society continued to expand in number, it also encouraged its members to argue logically, study the problem at hand, reach solid conclusions rapidly, defend convictions, and most of all to do these in an atmosphere of friendly competition. The problem that stimulated the minds of RIT's debaters this year was, Resolved: "That the United States should adopt a program of compulsory health insurance for all citizens." The members of the Forensic Society have found that the rewards were in the fruit of the labor and that all decisions cast proved to be beneficial in one form or another.

This year the activities included university and inter-collegiate competitions. The teams, under the direction of Joseph E. Fitzpatrick, participated in tournaments held at Syracuse University, Saint John Fisher, Colgate, University of Vermont, the annual Gannett tournament at the University of Rochester, University of Pittsburgh, and New York University. In January RIT played host to an oratorical contest and in February held a TKA tournament. The highlight of the year was the National TKA Tournament which was held at Bellarmine College, Louisville, Kentucky.

Mr. Fitzpatrick and the members of the Forensic Society wish to extend their congratulations to the graduating seniors of the group.

It's better than your foot!

This will have to be brief,  
there's someone waiting

I pray that this will end soon

# hillel

Alan Wolpin, *President*

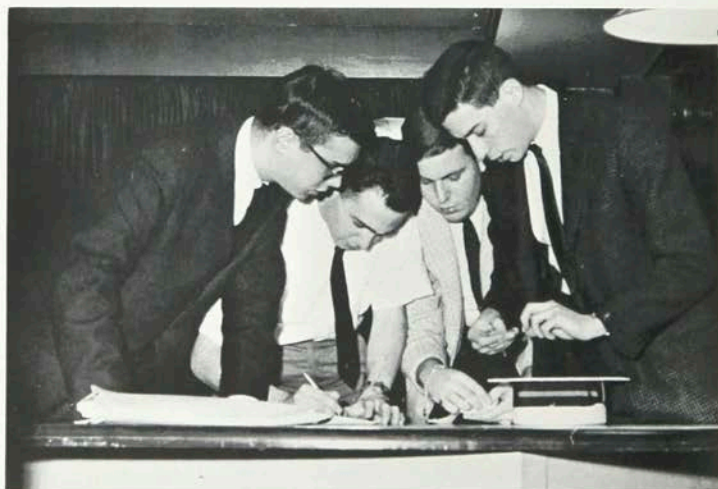

Not only is Hillel a religious organization but it also sponsors and participates in many social and cultural activities. This year was a record one for Hillel. We have had many activities of a varied nature and have made trips to other schools in the area for local conferences and conventions. We have had guest speakers on such topics as "Sex and Judaism," and other controversial subjects that are of interest and importance to the Jewish college student.

Our year started off with a "Breaking-of-the-fast" Dinner. This was followed with dances, discussion groups, religious services, and "brunches."

This year we have come together with the Brandeis Club of the Rochester Business Institute for many entertaining functions.

This year's activities were under the direction of our President, Al Wolpin; Vice-President, Gene Lieberman; Secretary, Paul Levy; Treasurer, Nate Josephson; Social Committee Chairman, Geff Small; and Cultural Chairman, Mike Rosenberg. Our able advisors were Rabbi Henry Hoschander and Dr. Maurice Kessman.

Our thanks to all those who could not be mentioned, without whom Hillel would never have had the successful year it did.

Illinois wants a recount

A new form of organization has been established on campus this year. Last year's newly formed hockey club has adopted the even newer skating club into one large organization. The club has completed a most beneficial and entertaining season.

The goals of the club are to promote interest and enjoyment through skating, and to further the sport of hockey at RIT.

The hockey group, with interest and talent showing a marked increase, is making its debut on the unofficial, inter-collegiate scene by playing games at Hamilton, Ithaca, and Colgate colleges. All games are being played away, due to the lack of adequate facilities on campus at the present time.

Members of the club benefit from free individual and group instruction during noon hours. Parties, exhibitions, and skating movies presented during the year were enjoyed by all members. Both groups utilized the fine facilities on the Ritter-Clark rink for instructional periods, parties, and limited practices for the hockey group.

# INSTITUTE OF RADIO ENGINEERS

New members of IRE listen intently to Professor Kimpton

Harry Beardsley, *President*

The newly organized Student Associate Branch of the Institute of Radio Engineers Inc. (IRE) is a Student Branch of an international professional society. The purpose of the Student Associate Branch is the dissemination of knowledge of the theory and practice of electronics, communications, and other related fields of engineering and science, as well as to further the professional development of the student.

Organization was begun in the spring quarter of the school year 1959-60, and the charter was received in the following fall quarter. There are forty-two charter members representing the second, third, fourth, and fifth year students of the Electrical Department.

Throughout the school year monthly meetings were held at which time guest speakers lectured on technical topics of interest to the group. Meetings were also held in conjunction with the Rochester Section of the IRE.

Although the organization is young, it is all ready an important part in the education of its members. With maturity, it will become one of the more outstanding organizations on campus.

The officers were: President, Harry Beardsley; Vice-President, Wilhelmina Haruk; Recording Secretary, Thomas Frantz; Corresponding Secretary, Andrew Bedrin; and Treasurer, Carol McKeithan. The IRE Student Representative and Faculty Advisor is Professor Charles Piotraschke.

Sitting on top of the world

# INTERNATIONAL AFFAIRS CLUB

The new name of International Affairs was adopted this year by the former International Students Club. The reason for the change was to clarify the organization's purpose, that of informing not only the foreign students, but all interested RIT students, faculty and wives, and the public of current world events, with the hope that through mutual understanding we shall obtain world peace.

During the course of the year, many pertinent issues have come to the fore with reference to the international scene. Through bi-weekly guest speaker meetings, the International Affairs Club heard timely discussions and slide lectures on such areas as Africa, India, Korea, The Netherlands, and Russia. Informal question and answer sessions following each meeting have proven to be most stimulating as well as informative.

Also included among the year's activities is participation in United Nations week, either through a library display or similar function.

Aside from speakers, slide lectures, and films, the annual closing international dinner is an event which is anticipated by all. The culinary talents of representatives from all corners of the globe combine their efforts into an always successful "United Nations" dinner.

Officers for the year were: Robert Ning, President; Warren Alent, Vice-President; Richard Swartz, Treasurer; Carol Hoffman, Publicity; and Mr. Robert G. Koch, who served as Advisor.

Hands around the world

Robert Ning, *President*

The RIT chapter of IVCF was organized three years ago for the two-fold purpose of strengthening the spiritual life of its members through Bible study, prayer, and Christian fellowship, and for the presentation of the relevance of the Lord Jesus Christ to all students. Inter-Varsity is a self-governing group affiliated with the IVCF organization which has chapters located in colleges, universities, and nursing schools throughout the world.

With both noon-hour and weekly evening meetings, the group enjoyed a well rounded program of Bible studies, guest speakers, and prayer meetings.

An important part of Inter-Varsity's program was area meetings with the IVCF groups at Eastman School of Music, the University of Rochester, and the local nursing schools. Other area functions included a picnic, several parties, and a banquet.

Of special interest were the annual Fall and Spring Weekend retreats held at Canandaigua Lake with all the IVCF groups in Western New York State participating.

The executive committee of the group included, Mr. Lester Fuller, Advisor; Alban Chasse, Secretary; Gardner Wills, Vice-President; and William Merry, President.

Bill Merry ponders decision.

William Merry, *President*

# INTER-VARSITY CHRISTIAN FELLOWSHIP

Alright you guys

Blue threads among the gold

The Lettermen's Club is the focal point of all the athletic teams of the Institute. Representing the various varsity sports, the club presents the athletic assemblies, organizes a sport's program, and through posters and other media keeps the student body informed of on-coming athletic events. The club membership is composed of the varsity lettermen of the six major sports; wrestling, basketball, fencing, tennis, baseball, and soccer.

Two trophies are awarded by the club at the end of each year. One is presented to the fraternity that displays the most active support of the various Institute teams. The other award, the outstanding athlete trophy, is presented to the athlete who displays the greatest athletic and scholastic ability while competing in his or her four years of collegiate competition.

The club, in its effort to support all the various athletic events, also presents numerous social events for its members.

## LETTERMEN'S CLUB

## MEN'S RESIDENCE

"No thanks, I roll my own"

The largest organization on campus with the exception of the whole student body is the 480 man dormitory association of Nathaniel Rochester Hall. It has accomplished an amazing array of feats this year through its governing body which is known as the Dormitory Council.

There were open houses, practically one a month, and weekly informal dances on the mezzanine. An election night party, coffee hour and punch hours, a series of parties for girls at different area colleges and hospitals, the traditional Christmas caroling with the girls from K.G. and Francis Baker Hall were a few of the many activities sponsored by the dormitory association.

A tremendous number of services and facilities were made available for Rochester Hall residents, by their association. These include a brand new high fidelity console, a ham radio room, a duplicating machine, WRIT, the Hall's student owned and operated self-sustaining radio station, a darkroom with 2 enlargers, a weightlifting and workout room, a television room, ping-pong equipment, and a pool room. A weekly newspaper, a small loan fund, and weekly full length movies also serve the students.

It must be remembered that Nathaniel Rochester Hall is not just the tallest building on campus. It is a tremendously versatile, dynamic, and enthusiastic group of students united by and dedicated to the common belief that all women were created for RIT men, and that homework shall not perish but cause everlasting agony.

Jack Battes decks the halls

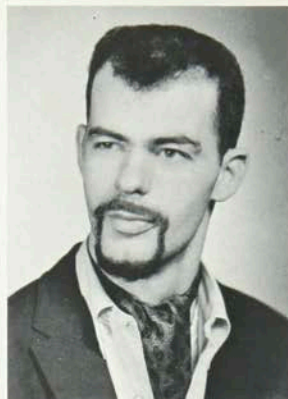

The maids day off

Hello there!

# MODERN JAZZ SOCIETY

Arnie Doren, *President*

Although the name implies that modern jazz is the only music enjoyed by the members, actually the group is interested in all types of music. Through the past years MJS has also incorporated the other arts into its enjoyment with the intention of showing the closeness of all the arts; jazz being only a small but necessary part.

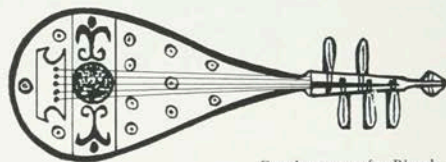

In the past, MJS has been instrumental in bringing big name artists to R.I.T. Among these were J. J. Johnson, Oscar Peterson, Chico Hamilton, Art Blackey, Maynard Ferguson, and the Australian Jazz Quintet.

This year the society is proud to have acquired its own private meeting place. The "Attic" has been a great asset this year for holding meetings, listening to music, and having parties. Live Folk singers were featured at the November 14 meeting. Also featured have been occasional talks on jazz and its importance through the years.

The Modern Jazz Society has been fortunate this year in having as its faculty advisor Miss LuAnn Goldchien. Miss Goldchien has been a tremendous help in making this year a successful one for MJS.

Richard Kast, *President*

## pi club

Playing an important part in supplementing the printing student's education, is the Pi Club of the School of Printing.

The Pi Club's purpose is to provide added information to the regular curriculum offered by the School of Printing and to help the student obtain a better knowledge of the workings of the printing industry and related areas. To accomplish these aims, the group presents films and speakers from industry at their meetings, and takes field trips to various printing houses and other plants concerned with the graphic arts industry.

Highlight of the year was a four day field trip to Washington, D. C., last November. Fifty members of the club participated in the event, and while in the Capital, toured the Government Printing Office, the Bureau of Engraving and Printing, and the headquarters of the American Chemical Society.

Officers of the organization numbering approximately 150 members, one of the largest on campus, were: Richard D. Kast, President; John R. Taylor, Vice-President; George Bruss, Secretary; and Neil Rice, Treasurer.

Dick Kast pilot's crew

The Rochester Institute of Technology Student Chapter of Interior Designers is now in its second year of existence and serves as a professional organization for students interested in the interior design field.

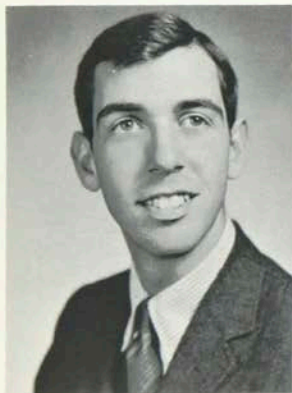

In accordance with the National Society of Interior Designers, its aims and purposes are to enable the student to further his interest in interior design and decoration, by exchanging ideas, and having the opportunity to listen to and meet with professionals who are associated with interior designing.

In order to accomplish these aims the Student Chapter of the National Society of Interior Designers has presented guest speakers who are working in the field of interior decoration and design. The highlights of our program for this year were: the Smith College tour, participation of members as guides at the New York Antique Show, and a trip to Utica, where we toured several buildings because of their architecture and interesting interiors and furnishings.

The officers for this year were: Richard Kollath, President; Eleanor Milion, Vice-President; Bertha Buettner, Secretary-Treasurer; Robert Strouse, Chairman of the Board of Directors; and Joseph Kaminski, Program Director. We thank our advisors, Miss Mary Miller and Mr. Karl Laurell, for their guidance and constant co-operation.

## NATIONAL SOCIETY OF INTERIOR DESIGNERS

So I took the muffler off my M.G.

Richard Kollath, *President*

George Murray, *President*

The Newman Club, a national organization for college students of the Roman Catholic faith, attempts to enrich the lives of its members through a three-fold program consisting of religious, educational, and social events. This balanced program leads the individual to a deeper and more potent love for his religion and helps to prepare him for his place in life.

Members attend theology classes three hours each week, dealing with Morals, Apologetics, and the Divine Life. Through these classes, Father Hohman of St. Andrew's Seminary helps the RIT Catholic to keep his religious education on a par with his vocational education. Father Hohman's ability to explain these subjects in clear and practical terms greatly increases the student's knowledge of his faith.

Weekly meetings feature lectures on topics of current interest, guest speakers, and question and answer periods. In addition, members attend daily rosary and monthly communion coffee-hours at the Immaculate Conception Church.

Social events include two annual picnics, dances, bowling parties, and an annual Christmas party given for the children of the Montgomery Neighborhood Center.

President George Murray was ably assisted by vice-presidents Joe Farage, John Spear, Pat Criscione, Frank Ballabio, and George Bruss; secretary Agnes Mastrella and treasurer Paul Ruggerio.

## NEWMAN CLUB

Club's secretary reads last meeting's minutes

The Photographic Society is open not only to photographic students but to students from every department. This policy is in keeping with the general overall growth of photography as its usefulness is recognized in many diversified industries. Our programs are designed to provide the members with a well-rounded picture of the various facets of photography. Through speakers and demonstrations society members are kept up to date on the professional and technical advances being made. Competing exhibitions afford the student the opportunity to compare his best work with that of his classmates while striving for cash awards.

Aside from benefiting in the field of photography the student is able to participate in administrative procedures. The ability to organize and execute one's ideas is indispensable in any sphere of endeavor. Social functions comprise an important portion of our activities. Highlight of the year is the annual banquet. A top notch speaker and superb meal bring another active year to a memorable climax.

The officers were: Richard E. Faust, President; Donald Lehmbeck, Vice-President; William H. Groves, Secretary; Casimir Dubicki, Treasurer; Professor Leslie Stroebel, Faculty advisor.

Mr. Leichtner demonstrates portraiture with model Linda Lou

## PHOTOGRAPHIC SOCIETY

Richard Faust, *President*

# RELIGIOUS ACTIVITIES ASSOCIATION

The Religious Activities Association is a council on campus, comprised of elected representatives from Newman Club, Hillel, and Student Christian Fellowship, for the purpose of co-ordinating and promoting inter-faith activities, a better understanding of one another's religious faith, and service to the community.

The whole body of Religious Activities Association, composed of all the members of the three member organizations, gathers together in brotherhood at the quarterly dinners where they are afforded the opportunity to hear excellent speakers from widely varied fields.

The main accomplishments of the Religious Activities Association was the orientation program in September, attended by nearly 300 freshmen and its participation in National Brotherhood Week, an annual event for RAA, with a school-wide assembly and two very successful social events. During November the RAA members enjoyed a really old-fashioned hayride followed by refreshments and dancing in the recreation room in the chapel.

The council, under the expert guidance of Reverend Murray Cayley, Chaplain of RIT and advisor to Religious Activities Association, was able to reach the goals set at the beginning of the school year.

Judy Newton, *President*

Chuck Dyer ducks behind available cover

## RIFLE CLUB

The purpose of the Rifle Club is the encouragement of organized rifle and pistol shooting, and promotion of the essentials of good sportsmanship and fair play combined with keen competition. In keeping with purpose, the club under their advisor, Allan Abramow and instructor Mr. Arnold Taylor, has also taken steps toward a school sponsored team.

Aided by numerous new and aspiring members, the older members of the club have done more this year to accomplish their aims and fulfill their purposes. This blending of the old and the new has been an unequalled morale booster to the organization.

While being an active group on campus, the club also maintains a membership with the National Rifle Association of America. Instruction is given in both hunter's safety and competitive firing.

Officers of this year's club include: Chuck Dyer, President; Basilio J. Battaglia, Vice-President; Frank Coon, Treasurer; Jack Rittler, Secretary; and Bernie Metzger, Executive Officer. This competent group has given the needed drive to the club this year and feel the club is ready for active competition and has the prospect of a great future.

## REPORTER

Typewriters clacking, telephones ringing, cameras clicking, presses rumbling—these are all sounds familiar to those students who have served on the staff of the Reporter during their years at RIT.

These sounds will become another bit of nostalgia for those who are leaving the Institute this June. For others, they no doubt will be part of next year's activities, for this type of co-curricular participation "gets into your blood."

The Reporter serves its 22,000 readers with a variety of news, features and editorial comment, and provides a showcase for student work. Wrapped in an attractive format of creative art, photography and typography, and exceptional color reproduction, this official publication of the Institute has become widely known across the nation.

Editors have taken an active part in national college affairs as well as in campus activities. Chief editors attended the national conferences of the Associate Collegiate Press and Overseas Press Club. They also exchanged information with the National Student Association, some 200 college newspaper editors and other groups.

Although the Reporter is primarily a student publication, it also serves two other areas within the Institute. For many graduates its alumni pages provide the only contact they have with the school. The Reporter has also proven itself as the main research organ of the Graphic Arts Research Department.

SAM—These are the initials of the Society for Advancement of Management. The RIT chapter is a member of the national organization which includes 179 other university chapters. The purpose of SAM is to help its members advance by practical application of the fundamental principles we hope to utilize after leaving the Institute.

Each member is an upperclassman who has a definite aim upon completion of his studies. SAM tries to supplement these aims by allowing the members to plan, organize, actuate, and control the various activities. Many of us have probably heard these words many times, but how often have we overlooked the fact that this is actually what we are doing at every meeting?

SAM is active in fields other than management. Each year a picnic is held for members and prospective members. An annual conference is held in co-operation with two leading industries, and is open to the College of Business. At our annual banquet, we celebrate the successful ending of each year.

SAM is growing and each year will see improvements which will add to its distinction as mileage markers added miles on ancient Roman roads. We are proud to be members and wish success to those who will carry on the ideals upon which our organization was founded.

# STUDENT CHRISTIAN FELLOWSHIP

As an association of Christian students, SCF is a member of the Religious Activities Association and is affiliated with the New York State Student Christian Movement. SCF seeks to unify members of Protestant denominations, to promote Christian ideas, and through RAA, to advance understanding of other religions on campus.

As the theme for the year, "Christian Involvement in the Community" led the group to participate in social service projects for the improvement of RIT's home, the Third Ward. Programs were given by leaders of the Third Ward, and a meeting on social problems was shared with the Protestant group of the University of Rochester; in addition, SCF sponsored the photography of neglected aspects of the Third Ward for downtown ministers. On a broader scope, SCF organized and made all the picket signs for the Election Day civil rights demonstrations, which were staged by RIT, University of Rochester, and Colgate-Rochester Divinity School students.

Additional activities included other types of programs at the regular Sunday evening supper meetings, the RAA dinner, the week-end fall retreat at Silver Lake, a similar retreat with Brockport State Teachers' College, a Saturday retreat at the Divinity School with University of Rochester and Brockport, and social functions, all of which provided real fellowship, not only within SCF, but also between SCF and other Christian organizations.

Donald Lehmbeck, *President*

Skiers display a variety of techniques

From the day of the club's first cabin party in the fall, to the spring cabin party in April, Ski Club members were recognizable on campus as those who kept looking up at the sky for snow clouds, checking the thermometers for freezing temperatures, reading ski reports in the newspapers or listening to ski reports on radio or TV, or trying to borrow money for admission to a John Jay or Warren Miller ski movie classic.

In a winter that fell short of last year's record snowfall, club members nevertheless put in an active season. Come Friday, it was a common sight to see hardy souls clamping skis to Volkswagens and venturing far and wide in quest of that glorious white stuff on which to try to execute those perfect parallel turns they dreamed about when they were watching Stine Ericsson wedeln on film.

Short one-day stints around Rochester, and longer stays at ski resorts during the holidays, was the order of business for the majority. But the climax of the season, of course, was the annual weekend trip by bus to fabulous Whiteface Mountain, which was taken by forty experts, near experts, and snow bunnies.

Daan Zwick of Eastman Kodak prepares for lecture

The RIT Student Chapter of the Society of Motion Picture and Television Engineers attempts to keep students informed of recent developments in the photographic and television fields. Both the Student Chapter and the Rochester national Chapter sponsor lectures by famous scientists and investigators on topics of current widespread interest. Members also receive the excellent monthly technical publication of the national S.M.P.T.E.

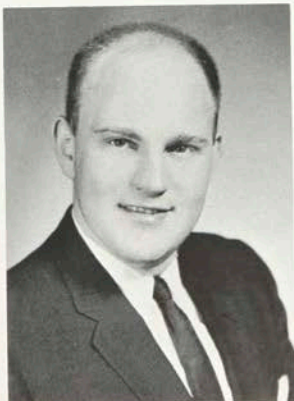

The highlight of the RIT program this year was the Second Annual Student Research Awards assembly. Nationally known judges from industry heard presentations of papers and conferred valuable prizes on one baccalaureate candidate and one A.A.S. candidate student for excellence in design and presentation of an original Research Project.

"Chief Engineers" this year were: Richard Walker, Chairman; Donald Gaffney, Secretary-Treasurer; and Professor Hollis Todd, Faculty Advisor.

# STUDENT COUNCIL

Joe Farage discusses plans for Winter Weekend

Student government, like other forms of government, are often taken for granted. Most of the various activities and responsibilities of a government are carried on without incident by the elected members and only occasionally will someone ask who, how, and where are these duties performed.

Student Council carries on the duties that are so basic, but of such prime importance to the successful coordination of student activities that this work is very often overlooked. The jobs get done and student activities function smoothly without realizing who makes it all possible. Your elected representatives and officers are the people who make this possible. Without the sincere efforts of Student Council chaos would reign throughout the extra-curricular activities and student services.

Some of the duties performed by your elected representatives are: the formulating of a budget and the allocation of your Student Association Fee; complete operation of the student parking facilities; coordination of the social activities of the various clubs and organizations; to approve and allow only organizations that are in the best interests of the student body on campus; to supervise and conduct the elections of student representatives in a way that will truly represent the choice of the student body, and perform liaison duties between the student body and the administration. These are only a few of the many jobs carried out by Student Council.

# STUDENT SOCIETY OF DESIGNER CRAFTSMEN

The Student Society of Designer Craftsmen is an organization which encompasses activities in the crafts field apart from the assigned work undertaken by the students of the School for American Craftsmen. The Student Society of Designer Craftsmen is composed of all the regular students enrolled whether candidates for an Associate, Bachelor's, or Master's degree.

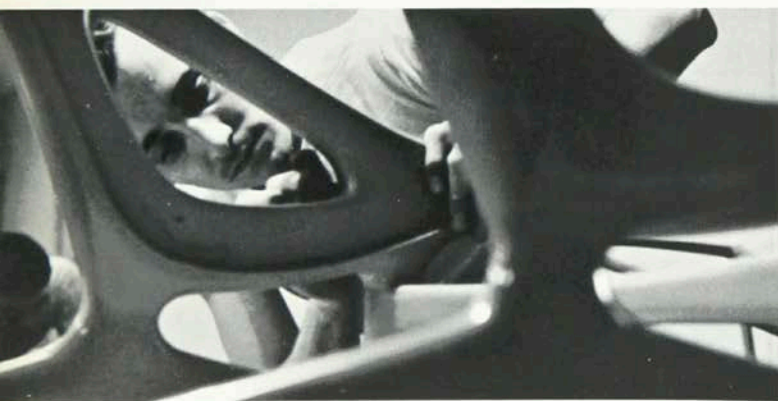

The Society is organized and its affairs conducted on a rather informal basis, with the offices of President, Vice-President, and Secretary filled by an election of all the student members. During the school year, the Student Society of Designer Craftsmen sponsors and organizes extra-curricular events in the field of arts and crafts such as the highly successful student exhibition held in March 1960, and lectures or illustrated talks by professional designers and craftsmen, exhibitions, and motion pictures on the arts. Activities for 1960-61 include sponsoring a series of talks on American architecture and on stained glass technique.

Another function of the Student Society of Designer Craftsmen is to provide some form of social activity which appeals to the heterogenous student body, and to stimulate participation in the cultural life of the community.

Officers for this year were: James Whitbeck, President; David Giorgi, Vice-President; Nancy Stubing, Secretary-Treasurer; and Professor Harold Brennan, Faculty Advisor.

David Whitbeck, *President*

Creation frames the creator

Happy little helper

Barry Ruth shares the spotlight

To be able to be triumphant and a success at the ancient master's game of chess, one must coordinate each man with his fellow players and use each to his full advantage.

To produce and be a success at the game of compiling a top notch yearbook, one must also utilize coordination and talent to the fullest extent.

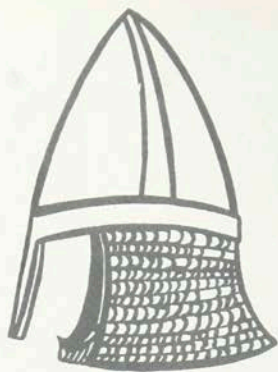

Every one of the editors and staff members have put forth much time and effort to produce a book worthy of the name Techmila which adorns its cover. This name Techmila has come through the years to be a symbol of quality, craftsmanship, and a showcase for our school and its students. This year's staff has made the effort and given the time to bring out what we hope and feel will be the ultimate in yearbooks.

On the following pages you will see the people who have put the memories of 1960-61 together, so that you may look back in the years to come and recall those events. The students made the memories, the students compiled the memories, and the students will reap and enjoy the benefits of reminiscing. If Techmila is enjoyed in an amount equal to the work put into it, there will be a great pleasure in store for both you and the Techmila Staff.

Ramon West assumes pompous pose

## UNITED GREEK HERALD

During the past year RIT noted the advent of various new organizations on the campus. Among them appeared a new publication, the United Greek Herald.

Published on a bi-weekly schedule, UGH was established to fill a vital communications need among the social fraternities and sororities representing the RIT community.

To quote vol. 1, no. 1, "UGH is to be an all social Greek organ that is objective and informative, with the hope of cementing closer relationships between Greeks themselves and their respective governing bodies. It will also be an attempt to lessen friction and promote harmony between our Panhellenic Peers."

The process of writing copy, editing, and carrying out the mechanical aspects of printing has involved a number of people. A regular publication schedule demands close coordination and cooperation if it is to succeed. In its first year UGH has demonstrated that this effective cooperative effort can be carried through by RIT's fraternities and sororities.

Ramon West, Editor-in-Chief

UGH receives smiles of approval

WITR has everything . . . and the kitchen sink

This year, a newcomer was welcomed to RIT's concrete campus. It was a long, hard struggle, but February 7, 1961 was the birthdate of WITR, our campus-wide, co-ed radio station. A member of the Inter-collegiate Broadcasting System, WITR has its broadcasting studios and business office housed in the Student Union on Troup Street.

The purpose of WITR is to broadcast music, news, educational features, social events, and general information to all its listeners. The station provides educational facilities in the field of radio broadcasting. It also provides for experience in the fields of management, announcing, and electronics. The function of the station is to foster the general information of campus activities, events, and campus groups. The station improves communication among members of the student body, the faculty, and the administration. It serves as a public relations medium for the Institute.

The three advisors of WITR are Mr. Melvyn Rinfret, Administrative; Dr. John S. Ingram, Programming; and Mr. Kenneth Kimpton, Technical.

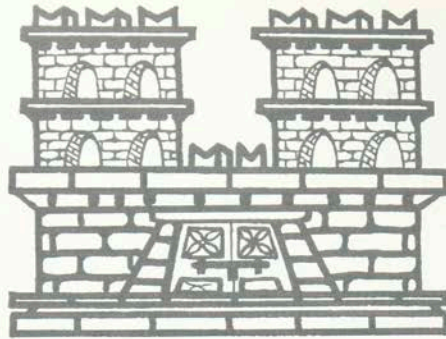

Richard Werner, *President*

## W. I. T. R.

Members make delicate adjustment

What can be more fulfilling and exciting to any college girl than her dormitory living? Kate Gleason Hall and Francis Baker Hall, the women's residence halls at RIT, will always bring back fond memories to any girl having lived there. Who can forget the burned meals, inspections, the two Friday night restrictions for singing out the windows, and the 10 minutes in the lobby before closing time?

"Amber Evening," this year's dorm formal, pajama parties, faculty tea, and, of course, the open houses all provided a chance for the girls to partake in various activities of their own choice. Through these social events and every day apartment living, a feeling of unity and security was enjoyed by each girl living in the "Kage."

The resident halls are self-governing. They are controlled through the Dorm Council which is composed of two representatives from each class year, elected officers and advisors. President this year was Nancy Bell, assisted by Catherine Ballister, Vice-President; Katherine Gatesman, Secretary; Loretta Gananian, Treasurer; Nancy Storelli, Social Chairman; Miss Schon, Mrs. Thompson, and Mrs. Metzger, Associate Directors.

Science versus creativity! This is the theme for many arguments among the members of this unique fraternity on RIT's campus. Delta Lambda Epsilon, Professional Photographic Fraternity, is an honor organization whose members are students in the School of Photography. Since students may study either science or illustration, there is always an opportunity for views to be expressed on the relative merits of the two branches of photography. Although the members of DLE have diversified interests, they all work together to further the aims of the fraternity which are scholastic achievement, personal growth, and above all worthwhile contributions to the field of photography.

In order to pledge the fraternity a photography student must have a high scholastic average. During pledging the neophyte will take part in several projects designed to further the aims of the organization, and in addition he will do a research paper in some phase of photography that especially interests him. When the pledge becomes a member, he will be ready to take part in the varied program that the fraternity offers.

DLE offers a program of lectures and seminars to inspire the interests of the members in the various branches of photography. The most well known of these is the Brehm Memorial Lecture given each spring by an eminent member of the field of photography. To provide the brothers with relaxation during the year, the fraternity sponsors parties and other leisure type activities.

In 1961, DLE started its second decade of working to increase the recognition of its members and of service to photography.

## GAMMA EPSILON TAU

In this, only the fifth year at RIT, Zeta Chapter of Gamma Epsilon Tau (the international honorary professional graphic arts fraternity), has brought to this campus the international headquarters. This achievement does well to show the enthusiasm and progressiveness initiated by the members. The ideals of this fraternity (the preservation and expansion of the graphic arts industry) have now been elevated to even higher standards as an example for other chapters to follow.

New methods and processes are constantly being evolved because the printing industry is highly competitive and increasingly technical. Through the media of tours, lectures, and informal meetings, the members of GET, Institute faculty, and men from industry discuss problems arising within the graphic arts field. Professional men in the graphic arts areas are invited periodically to discuss subjects ranging from paper chemistry to plant management.

This year many of the brothers took advantage of the opportunity to visit the U. S. Government Printing Office where currency and stamps are printed. Tours such as these are typical of the educational program developed by an organization which is designed to keep its members well abreast of the current developments in the graphic arts industry.

"And do you solemnly swear . . ."

Floor debate?

# TAU Kappa Alpha

Tau Kappa Alpha Fraternity was installed in the spring of 1958 on the RIT campus by Dr. Raymond Beard, the regional governor for the national Tau Kappa Alpha Fraternity. At this time, Joseph Fitzpatrick was named the faculty sponsor and Frank Clement an honorary member.

Members of the Forensic Society, who graduated before this fraternity was introduced on campus, were made honorary charter members. Any person who applies for membership must have completed two years of debate and be in the upper third of his class. Charter members and new members have all pledged themselves to the use of responsible speech.

TKA has worked with the Forensic Society in conducting the Annual Oratorical Contest and the Annual College Debate held at RIT. Its present plans include the sponsoring of an Annual High School Debate Tournament and public debates on the national topic, and other selected topics of special interest. The local chapter also plans to send at least one-half of its membership to the 20th Annual TKA Conference at Bellarmine College at Louisville, Kentucky.

## DELTA SIGMA pi

Delta Sigma Pi seeks to develop the academic and personal qualities of its members. During the past year the fraternity has been able to offer the College of Business a source of student workers. Utmost in the mind of every member is the concern and interest in taking every opportunity to promote the College of Business in the business world.

The chapter, Epsilon Lambda, was founded at RIT on March 25 of this year. Sigma Beta Rho was the original name and it was founded in June, 1960.

Among the activities of the fraternity can be found the following programs: Award Evening Sponsorship, College of Business Student Public Relations Projects, Community Projects, and varied social activities.

The officers for this year were: Irv Van Slyke, Jr., President; David Wurtenberg, 1st Vice-President; David Wrobel, Vice-President; Donald Stanton, Secretary; William Klem, Treasurer; and Mr. Houston Elam, Advisor.

Mrs. Metzger confers with Gretchen Olin

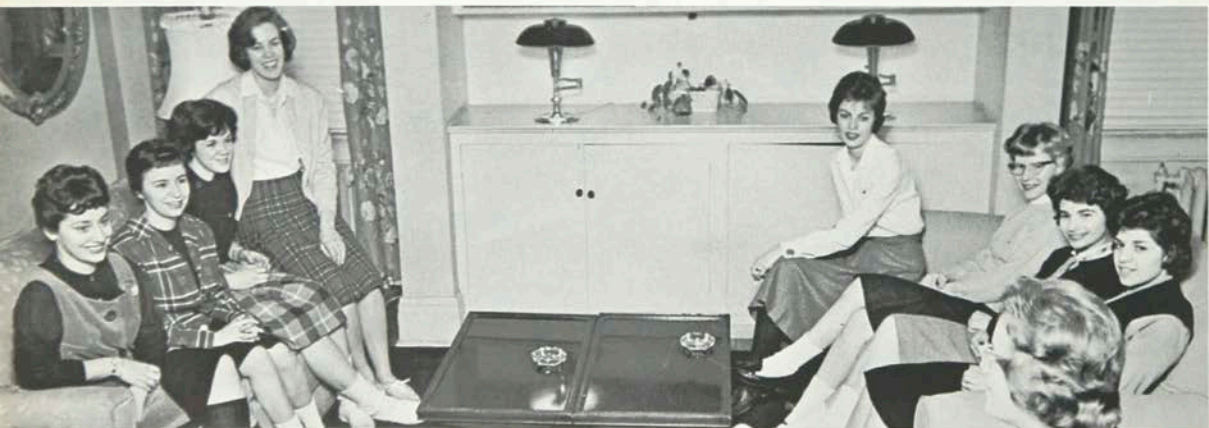

The Inter-Sorority Council, now in its forty-first year, provides a forum for discussion of questions of interest that arise to the college and to the sorority world.

Its membership consists of three representatives from each of the four sororities on campus. Within the council discussions of sorority problems, rush teas, pledge periods, and governing rules help to bring about a better understanding and advancement of sorority life at RIT.

The highlight of the year was the Inter-Sorority Ball which was a semi-formal affair held in the Spring. At this time the Scholastic Plaque was given to the sorority with the highest scholastic achievement.

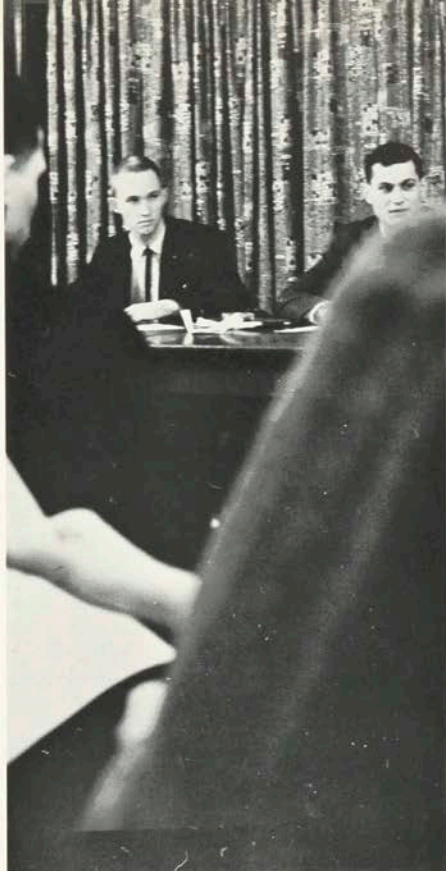

This year under the capable leadership of our officers, Gretchen Olin, President; Jeanie Carpender, Vice-President; Jane Hunt, Secretary-Treasurer; and Social Chairman, Gladys MacIntyre; and with the assistance of our advisor Mrs. Metzger, was a highly successful one.

## INTER-SORORITY COUNCIL

Distaff discussion

# INTER- FRATERNITY COUNCIL

Officers Absalom and Dubyniak scan members

Chuck West strikes familiar pose

Co-ordination among the Greek organizations on campus has long been a goal of each organization. The Inter-Fraternity Council provides this co-ordination and in recent years has come to be a strong functioning body on campus. Basic differences are set aside by each individual organization in an effort to promote good for the Greeks as a whole.

The Inter-Fraternity Council sponsors sports and other competition between the fraternities. Trophies are given for winners in basketball, bowling, and softball, as well as the coveted Scholastic Trophy, which is given annually to the organization with the highest grade point average for the preceding year. This average is always higher than that of the school.

The membership of the Council is made up of the president and two representatives of each organization. Officers are chosen from the member groups on a rotating basis. This year's president is Nick Dubyniak of Tau Epsilon Phi and the secretary-treasurer is John Absalom of Kappa Sigma Kappa.

Phi Sig representatives find meeting absorbing

TEP's big three

As the close of another year draws near, it comes time to recapture some of the highlights of the past.

Fall Quarter started with the welcoming of the freshmen to our campus. With this we were busily preparing for our Sorority Tea at which our theme was "Getting to Know You." The theme also applied to Mrs. Van Slyke, our new advisor, who has been a tremendous asset to the sorority this year.

Remember the Chug Contest? We, the Sisters of Alpha Psi, were the recipients of that trophy for the year. Among our other activities during the fall quarter were our special Thanksgiving Bake Sale, private dinners, and a Christmas party.

Winter quarter once again brought forth the blue and grey beanies, name cards, smiles, and frowns—pledging in other words. After two weeks of this activity we had our dinner, at which the pledges proudly became sisters.

Along with this fun-loving time for all of us, we also brought some pleasure and joy into the lives of some of the wonderful people at the Monroe County Home for the Aged.

Deemed to success was our "Lion Tamers Ball," which ushered in the month of March. Much of the credit is to be acknowledged to our new sisters.

All in all, we had a very successful and happy year to look back on.

Officers for the year were: Kitty Ballister, President; Barbara Burritt, Vice-President; Gail Moore, Recording Secretary; Jan Tellier, Treasurer; Linda Sapere, Social Chairman; and Nancy Ritz, Corresponding Secretary.

Delta Omicron Sorority is proudly celebrating their 40th year on the RIT campus, where they are still maintaining their high ideals both in the sorority and in the school.

As the school year draws to a close, we look back over our activities during the year. We began with our mixer, at which we sponsored the "ugly man" and jitterbug contest.

With the help of our advisor, Mrs. Rhodes, we have had a very successful and rewarding charity program. It has given us a wonderful feeling that we were able to help those who are not as fortunate as we. In connection with the American Red Cross, we helped out in the crippled children's swimming and recreational program. The sisters also worked with the children of the Montgomery Center. During the Christmas season, the sisters, along with their brothers Sigma Pi, spent an evening caroling and presented a basket of food and gifts to a needy family.

One of the highlights of the year was a hectic two weeks of pledging, which was followed by our annual show. Long hours were put into the preparation for this show; but at the end, the girls knew the time they had spent on it was worth every minute.

Now, another year has come to a close and another layer of foundation can be added to Delta Omicron Sorority.

# phi UPSILON phi

Our sorority has come to mean a group of individual girls uniting to share in a sisterhood whose goals are friendship, unity, fidelity, and scholarship. These are the specific aims of Phi Upsilon Phi sorority. They are carried out in many ways during the year. One of our major endeavors is our charity work. The sisters of Phi Upsilon Phi cooperate with our brothers of Kappa Sigma Kappa in work at the Multiple Sclerosis Hospital; in preparing baskets for needy families; and in entertaining the children at School No. 3 with a Christmas party. Charity work is also done by pledges at the Montgomery Center and at the RIT Chapel.

Sorority life also has a lighter side. Social activities are as integral a part as charity. We started our social season by having a closed hayride with K.S.K. Our fashion show, "Prelude to a Holiday" given this year for the first time, will become an annual event due to the favorable response it received. Pledging, the initiation dinner dance, and the installation dinner round out the year.

Of course we cannot forget Spring Weekend—the biggest event of the year. Phi Upsilon Phi successfully competes against many other organizations on campus.

Judi gets sized up

SKDs in the suds

The need for more group organizations has become apparent due to the increased student enrollment. It was with this purpose in mind that sixteen freshmen girls cooperated in the reorganization of Sigma Kappa Delta, a former sorority at RIT.

These sixteen women were formally initiated at the Powers Hotel by SKD alumnae on May 4, 1960, when Sigma Kappa Delta became an official sorority on campus.

Sigma Kappa Delta began in 1926 at RIT and continued through 1952 when it became inactive because of its policy to pledge only upper classmen. Gradually membership decreased until inactivity prevailed.

Presently, in its reorganized state, SKD's standing is that of a growing sorority whose development and achievement will be merited depending on enthusiasm, quality, ambition, and function as a group.

As the first year of SKD as a reorganized sorority draws to a close, the sisters look back on many happy memories they have shared in working on service projects, parties, teas, pledging, and other activities throughout the year.

Officers for the present year were: Jean Carpenter, President; Joan Button, Vice-President; Sue Weighill, Corresponding Secretary; Joyce Tobis, Recording Secretary; Judi Tummonds, Treasurer; Marcia Smith, Chaplain; Sue Owen, Social Chairman; and Midge Webb, Sergeant-at-Arms.

The past year for Kappa Sigma Kappa has been one showered with intrinsic blessings. Our social and charitable activities have been well received and highly successful. The brothers feel that they, along with the school and the entire community, have benefited from our past year's activities.

The local chapter came to RIT in 1916 under the name of Chi Delta Phi, and in 1949 we became affiliated with Kappa Sigma Kappa Fraternity, a well known national. Being the second in New York State we became New York Beta.

Fraternities mean many different things to many people, but the main ideals always remain intact. These ideals are to keep the word "fraternity" in the upper echelon of every person's mind. We try to maintain a high moral and ethical responsibility along with a high scholastic achievement.

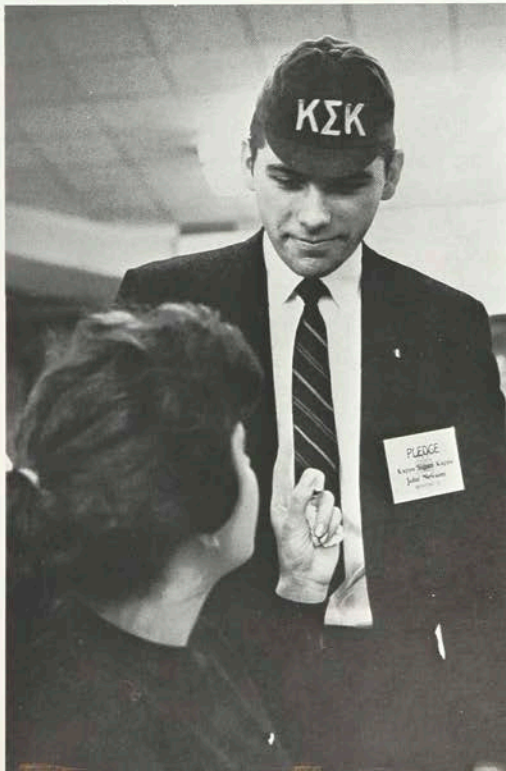

The brothers of Kappa Sigma Kappa feel that they have fulfilled not only the ideals of our own national, but the ideals of fraternity men throughout the world.

During the past year vast improvements have been made in our house. With a strong focal point like our house, a working brotherhood, a strong alumni and helping sisters, a successful year had been inevitable.

Individually, every brother has benefited from this past year's struggle for recognition. To the brothers who will leave this year, remember—we are bound by a tie that will never be broken.

# KAPPA SIGMA KAPPA

# phi SIGMA Kappa

As the brothers of Phi Sigma Kappa look back over this past year, we, without a doubt, center our thoughts on perhaps the biggest event of our history.

During the summer of last year the black and gold of Theta Gamma was replaced by the silver and magenta of Phi Sigma Kappa, when we became Phi Sig's seventieth chapter, Upsilon Tetarton. We are presently the largest national fraternity on campus and one of the largest chapters in Phi Sigma Kappa.

At RIT's first fraternity house, located at 29 Atkinson Street, we strive to promote brotherhood, stimulate scholarship, and develop character. These are the three Cardinal Principles of our fraternity.

Formal and informal parties were occasionally held in the house throughout the year. One of these was the traditional Snowball Cocktail Party, just prior to our Snowball. This year's Snowball was the first formal Greek weekend ever held at RIT.

Also in carrying out our Cardinal Principles our activities included regular chapter meetings, March of Dimes work, pledging activities, and work at the State Hospital.

Officers for this year were: Jerry Huffman, President; Brian Tolbert, Vice-President; John Perell, Secretary; Franz Griswold, Treasurer; John Channell, Sentinel; Tim Wallace, Inductor; and Jim Carey, House Treasurer and Manager.

After our first year as a chapter of Sigma Pi Fraternity, following ten years as a local fraternity, the brotherhood looks back on this year as one of accomplishment and distinction. We have seen the fraternity system grow stronger here at RIT and have enjoyed the benefits of this movement.

This was our first year in a fraternity house. It took much work to develop it into a fine home and center of activities for the brothers; but it has returned this effort in the strengthening of the chapter. Our Fall Weekend and the year's social schedule were the most successful we have ever had. The brothers have again been of service to the community in aiding the Red Cross during the Winter, in the handicapped children's swim program, and Monroe County Home dances.

All the activities of a fraternity, whether they be social, scholastic, or athletic, contribute to the development of the individual brother. No other organization can offer as much to the college male in the way of a means to compliment the educational training he will receive at RIT. For this reason we are proud of Sigma Pi, a fine example of the college fraternity.

# TAU epsilon phi

For Tau Epsilon Phi, this has been one of the busiest years in our history and unfortunately has passed much too quickly.

It seems only yesterday that we moved into our new house located on Fitzhugh Street. No sooner had we gotten settled into a normal existence when pledging began and interrupted this normal pattern. We are proud of the TEP pledges this year. They fulfilled the traditions handed down by their older brothers by cheering at the games, making snow sculptures, and studying hard.

Two weekends of the past year are most readily brought to mind; our own weekend and the incomparable Spring Weekend. These along with the annual "Night in the Tropics," have provided the brotherhood with memories never to be forgotten.

Every attempt has been made by our brotherhood to make this year a banner one for both our fraternity and the Greek organizations as a whole. We hope and feel that we have made a successful contribution and will continue to do so for many years to come.

The majority of the pledging activities are carried on by the fraternities. The sororities have their two weeks also, but the eight week period is the more noticeable of the two. Beanies or straw hats, plus coats and ties, distinguish the pledge from the average student. The appearance of these gentlemen is a welcome change from some of the self-styled beatniks and blue-jeaned babes which seem to flourish on the campus.

Investigation will find the pledge classes doing charity work, studying in groups in the library, and learning to function as a group with responsibilities.

All work and no play makes Jack a well rounded dud. This naturally leads to parties which increase in number as well as enjoyment as the pledge season arrives. In learning the art of throwing a party, the pledge is duly instructed in the arts of tapping, tipping, and toting without toppling.

"Sure I think you're cute, sir"

Skit skanners

This year's IFC-sponsored Toga Party was held for the Greeks and their dates at the Ukrainian-American Hall. Entertainment was provided by the pledge classes who gave skits of apparent originality. The prize for the best skit went to the pledges of Phi Upsilon Phi. Prizes were also given out for the snow sculpture contest, with Kappa Sigma Kappa receiving the first place, and the IFC scholastic award was presented to Phi Sigma Kappa for their combined grade point average of over 2.5.

The intermingling of the Greek organizations at parties, such as this, has brought about a strong union and a powerful bloc on campus.

# SPRING WEEKEND

**I**N SPRING a young man's fancy lightly turns to what the girls have been planning for all winter . . . Spring Weekend. With this in mind the Spring Weekend Committee wrote the words and music to "Songs of Spring," its theme for 1960. Songs of Spring went "Swinging Down the Lane" complete with Little Red Riding Hood, the Arc de Triumph, and never-to-be-forgotten Dogpatch. The Springish carnival mood continued on into Friday night's ice rink extravaganza. To the tune of "Please Don't Eat the Melons" and the cry of "Step right up and try your luck." "I'm Just a Kid Again" paved the way for the next two days.

**S**AUTER-FINNIGAN rained tuneful violets upon the patrons of Saturday night's formal dance. At 11:00 o'clock Bill Turri was proclaimed Mr. Campus and the weekend moved happily toward "trophy hour" on Sunday. A definite air of relief and exhaustion prevailed as weekenders settled down to enjoy the Hi-Lo's. Midway through the concert, trophies were given to deserving organizations climaxing months of planning and labor. "Songs of Spring" finally expired into "Tunes of Toil" as exams now peeked around the corner, but never-to-be-forgotten was Spring Weekend 1960.

## MISS RIT

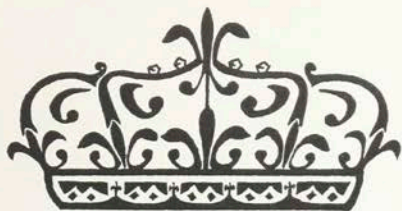

Our neighboring country to the North, which provides us with many a blast of winter air, has this time provided a more enjoyable contribution. Pat Mathews hails from Welland, Ontario, and as many of her friends will tell you, is very proud of it.

To be chosen as the Queen of a school such as ours, with its vast population of males, is certainly a great honor. This year we have, as we have always had, a Queen with grace and poise equal to the task of carrying the coveted crown.

A graduating Retailing student, Pat has been extremely active during her four years here at RIT. She is the president of Phi Upsilon Phi and the second straight president of this group to win the award. She has also been a member of the Inter-Sorority Council and is a charter member of the honorary Retailing fraternity, Eta Mu Pi.

## MR. CAMPUS

Once a year a male is selected worthy of being placed on a throne beside the Harvest Moon Queen, Snow Queen, Sweetheart of KSK, and Miss RIT. He is known as Mr. Campus and his reign is from Spring Weekend to Spring Weekend. Elected by all those who attend the formal dance, this gentleman is one of five, nominated by the four sororities and the Women's Dorm.

This year's Mr. Campus is Bill Turri, a third year student in Printing. Bill comes from Seneca Falls, New York where he participated in various activities as he has here at RIT. While here in school, he has wrestled, been on Student Council, was on Spring Weekend Committee, was president of Kappa Sigma Kappa Fraternity, and served on IFC.

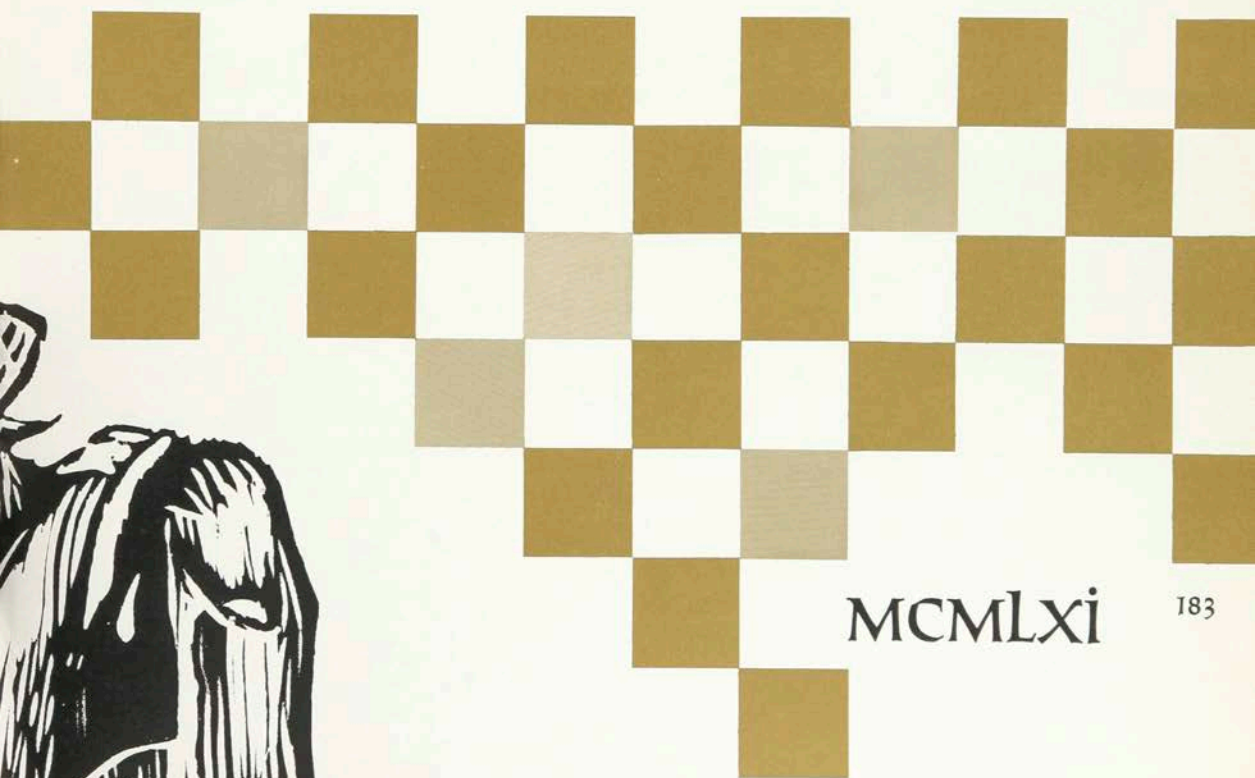

Bill, in customary fashion, has served well over the past year. It is a great honor and has yet to be given to a person who is non-deserving or who has tarnished the crown.

# ATHLETICS

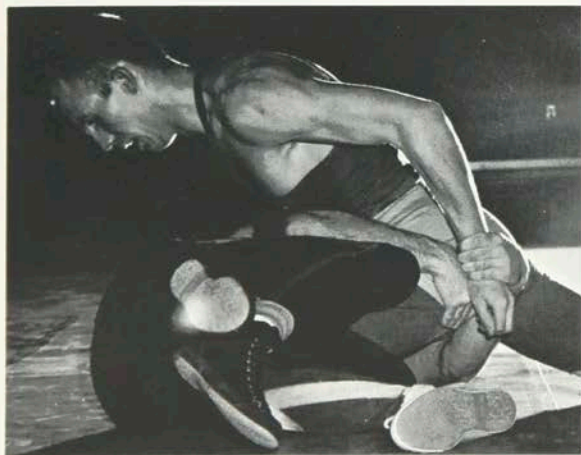

MCMLXI

183

## OUTSTANDING ATHLETE

The Knight of the Roundtable of Institute Sports for this year is Jerry Huffman. Chosen each year by the Athletic Committee, the Athlete of the Year is one of the highest honors awarded anyone at the school. With the five major sports in which the Tigers participate offering candidates it is a task every year to award the honor to just one of these candidates.

Jerry Huffman, who will be graduated this year from the Electrical Department, has had success follow him through from his early years. As captain of his high school wrestling team in Jefferson, Pennsylvania, Jerry excelled in leadership. He continued to be a leader in college where he compiled a record of 33 wins, 3 losses, and one tie. This still stands as an RIT record. He captained the Tiger varsity for two consecutive years and also served as president of the Lettermen's Club for a year.

Nine trophies and numerous medals adorn Jerry's mantle from meets all over the East including the 4-I, Wilkes, and Niagara AAU Tournaments.

In his final school year Jerry is continuing to lead, as President of Phi Sigma Kappa Fraternity.

First Row: Charlie Missakian, Paul Rode, Dave Egan, Ramon West, Roy Hiler, Jim Kennedy, Jerry Hejtmanek, Dick Zoyhofski, *captain*, Dave Zoyhofski, Ken Klaus.  
 Second Row: Earl Fuller, *coach*, Chuck Sprig, Bob Cully.

Another Tiger team to be hit by ill-timed injuries was the varsity wrestling team. Although the grapplers finished with a very respectable winning record, it is a shame that they could not have been at full strength for all the matches. Captain Dick Zoyhofski received an injury to his elbow early in the campaign, and it took several matches before the healing was complete. Oddly enough, Dick's replacement, Roy Hiler received a thigh injury the match before Dick returned to action.

Ramon West, along with Captain Zoyhofski, again led the Fuller-men through the season. Mon lost only one match in a big upset, and later went on to take a championship at the 4-I Tournament in Cleveland. Dick Zoyhofski took a runner-up spot in the tournament losing in an overtime match.

Varsity wrestlers for the year were Charlie Missakian, Paul Rode, Dave Egan, Ramon West, Jim Kennedy, Dick Zoyhofski, Roy Hiler, Jerry Hejtmanek, Bob Cully, Dave Zoyhofski, and Big Ken Klaus.

Freshman wrestling action was highlighted by Barry Libel who finished the campaign with an 8-1 record. The team finished with a 4-5 season record and sent four representatives to the West Point Invitational. Coach Gary Dotzler did a commendable job in molding the Varsity grapplers of the future.

The long arm of Charlie Albertson

Once a year through the efforts of RIT, 12 games of exciting and well-played college basketball are crammed into three days of action. The Invitational Tech Tournament provided fine basketball excitement with some of the country's top small college teams entered this year. Both this year's and last year's National scoring leaders ran head on in the first day's action. Last year's scoring champ, West Virginia Tech, ran up against this year's leader Lawrence Tech from Detroit. The Golden Bears from the hills came out on top of the city boys by a narrow 2 point margin in one of the best played and most thrilling games ever played in the Ritter-Clark Gym. Lawrence later lost another squeaker to Pratt Institute from New York City. The winner of the tournament this year was a big, strong team who played inspired basketball to upset West Virginia Tech in the finals. Illinois Tech proved to be an impressive, deliberate team whose sparkling ball-handling and hustling defense led them to the big win. This is the second year that a team from the mid-west has captured the coveted championship. The Warriors from Indiana Tech were last year's champs.

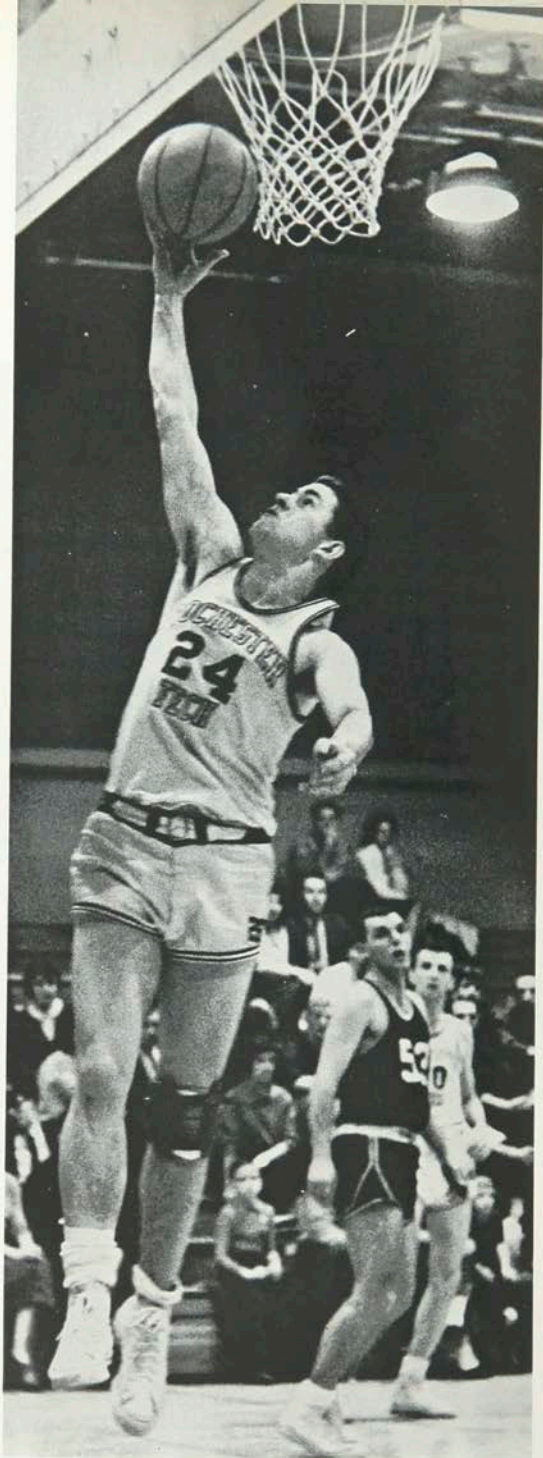

Participating teams this year in order of finish were Illinois Tech, West Virginia Tech, Indiana Tech, Newark College of Engineering, Pratt Institute, Lawrence Tech, Rochester Tech, and Lowell Tech.

RIT	62	Lowell Tech	60

Two for the Tigers

The Tigers of the past season went through one of the most unfortunate spells of bad luck ever experienced by an RIT team. Lacking experience to begin with, the team lost both co-captains before the season came to an end. Don Paladino suffered a knee injury in a pre-season scrimmage and was out the entire season. Later in the season the other co-captain, Kay Kramer sustained a leg, and then a foot injury, which kept him out of action much of the season. Three sophomores along with John Berdine and Ron Avery teamed up to give the Tigers what scoring punch they had. Jerry Abel, Bill Lamoreaux, and Charlie Albertson, all sophomores, gave their best in many a losing cause. Bill was the leading scorer with a 14.5 average and was second to Ron Avery in the rebound department.

The team as a whole had a disappointing record of 5-18, but managed to stay with many a tougher team, only to falter at the end. This year's experience should prepare the Tigers for better years ahead.

Bench strength for the Tigers came from Fred Plank, Henn Totsas, John Absalom, Mike Cowley, Hank Werking, and Bruce Bartlett.

"Buffalo" Bob Klos had his best aggregation of freshmen in several years as the Tiger Cubs raced home with a 14-5 mark. Losing infrequently and then by only a few points, the team was a bright spot on the winter sports scene. Pete Browne and Joe Taddia supplied the height, Doug Gustin the speed, with many of the players supplying sharp shooting eyes. The frosh dropped only one game at home while defeating such teams as Brockport and Alfred.

Brockport attacks Tiger's lair

## SOCCER

First Row: Pete Willard, Bill Sahmel, Dick Cansanzio, Fred Orsine, Roger Millard, Marty Davis, Bob Burdick, Al Meyers. Second Row: Bob Klos, Jim Dickie, coach, Corrado Zollo, Felipe Block, Jess Zeck, Mo Lysher, Vic Bokhan, Igor Kozlowski, captain, Harry Standhart, Luis Novaro, Gene Callender.

The newest Institute sport, soccer, proved very successful in its sophomore year. Coach Jim Dickie's men compiled a 3-5-1 record for the fall season. Led by Captain Igor Kozlowski, the team took on clubs from Potsdam, Roberts, and played arch rival Brockport's Jayvees to a 1-1 tie.

Hampered by not having a regulation size field on which to practice, the team occupied the lot next to the gym for practice and used Genesee Valley Park for home games. This disadvantage didn't seem to bother the Tigers as they performed like masters on the field.

Doing a great job in the goal this season was senior Mo Lysher. Helped out by good defensemen and given points by a potent offense, Mo showed great dexterity in defending the Tiger "lair."

Pumping in the goals for the team were stars Igor Kozlowski, Corrado Zollo, and Phil Block, however, this team was marked by a desire for teamwork and helping each other without regard to personal glory. This distinguished them from other teams with records or personalities greater than they.

Next year looks promising for Coach Dickie with many lettermen returning and a growing interest in the school for this fine team.

Big Brother is watching over you

First Row: Jeno Horvath, Denis Boquist, Bill Ottemiller, Jim Mason, captain, Lee Hocker, Ron Bambas, John Capurso. Second Row: Paul Scipione, coach, Dick Fisher, Louis Jacobson, Ron Carlton, Bob Lambert, Mike Volkhardt, Mike Geisseinger.

RIT's fencing teams began the season faced with the loss of a coach. In July assistant coach Gabor Marshall died of a heart attack while in New York watching the National Amateur Fencing Championships.

Despite a shortage of manpower in one and sometimes two weapons, Coach Paul Scipioni's fencers racked up a 6-5 winning season. The swordsmen defeated such teams as Hobart, Utica, Syracuse, and Brandeis.

John Capurso took first place in foil and Ron Bambas was the top in sabre at the North Atlantic Championships, with the fencing Tigers in second place overall. The defending team champions were only five points behind the University of Buffalo, winner of the coveted Broad Sword.

High individual scorer for the team was sabre-man Ron Bambas who won 31 of his 33 bouts during the regular season. Charlie Dunham and Jeno Horvath completed this year's successful sabre squad. Foil saw John Capurso finish in top position with a 21-6 record. John also substituted in the epee division where he won 9 of 14 bouts. Bill Ottemiller also was among those who fenced a dual season, fencing in both foil and epee, Lee Hocker and senior Jim Mason completed the epee.

Beleaguered by difficulties from the onset of the season, the women's fencing team had a rather unfruitful year of competition. Three of last year's team members did not return to the strip this year, leaving Coach Paul Scipioni with only three returning veterans, Sandy Meek, Joan Miller, and Captain Gloria Schick. Freshmen Pat Kelly and Donna Youmans completed the starting Tigerette team.

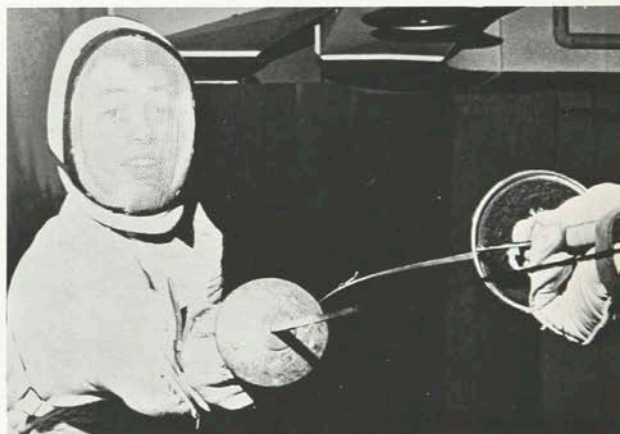

Because of finals the girls were unable to attend the first scheduled competition, the Annual Christmas Invitational Tournament, in New York City. The first regular match of the season, against New York University, resulted in a loss for RIT 9-16.

Knee injuries to Gloria Schick, who was unable to fence the remainder of the season, and to Donna Youmans prompted the cancellation of two matches, and left the rest of the schedule rather doubtful.

Competition sponsored by the Western New York Division of the Amateur Fencers League of America gave the first year fencers experience, and resulted in medals to Gloria Schick for 1st place in a junior division tournament and 2nd place in a senior classification.

Gay Blades

# BASEBALL

Fredonia batter connects . . .

The 1960 version of the bat-swinging Tigers compiled a 6-8 record under the influence of coach Lou Alexander. A predominantly young team fared quite well through a tough schedule.

Shortstop Don Paladino led the team in hitting with a .326 average. Don also led the team in total runs with 17 and in stolen bases with 6. Tom Kubala also swatted above the "300" mark with a .308 average while knocking in 17 runs. Versatile Henry Werking had the most base hits with 17, including five doubles. Captain Dario Armanini played flawless ball at the keystone spot while striking our 13 base hits.

While the pitching staff suffered from a lack of depth, a bright spot was sophomore Ray Vasil. Ray won 6 and lost only 3 for the season while tossing one shutout and setting a school record for strikeouts in a single game. His season total for strikeouts was 108 and he had a phenomenal ERA of 1.8.

The loss of Kubala will be felt this year, but with many returning lettermen this could be a banner year for RIT on the diamond.

Ray Vasil delivers with a stiff upper lip

... but Tom Kubala cuts off the runner at the plate

Tiger toes turf

#### 1960 RECORD

RIT	7	Buffalo	10
RIT	11	Geneseo	1
RIT	6	Fredonia	7
RIT	4	Oswego	18
RIT	9	Albany	1
RIT	14	Brockport	11
RIT	6	Canisius	20
RIT	0	Fredonia	3
RIT	12	Utica	2
RIT	0	Brockport	7
RIT	3	Potsdam	5
RIT	3	Geneseo	0
RIT	2	Buffalo	18
RIT	5	Buffalo State	4

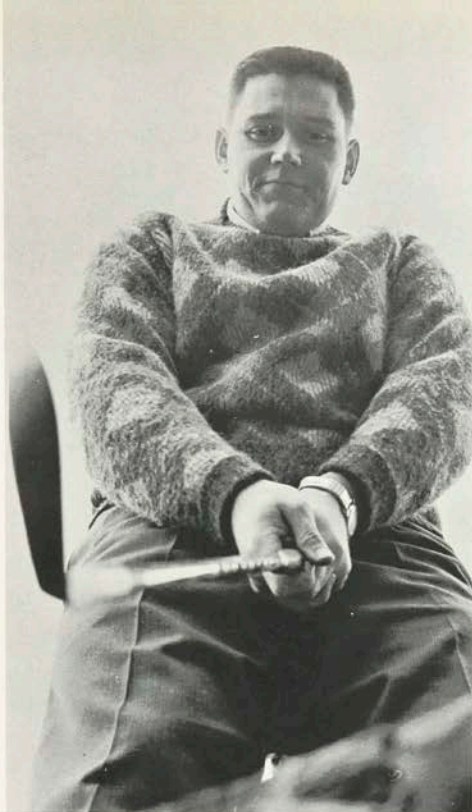

I can't even get mad anymore

Inning's end

Russ Carter wedges way into yearbook

Under the able direction of "Buffalo" Bob Klos, the golf team compiled a 3-4 record last year. This was the first year of college competition for the youngest of varsity teams on campus.

Leading the golfers this past season was Dick Roberts, who went undefeated in seven matches. His best score was a 77 against Geneseo and he shot a 79.1 average for the season. Phil Markham had a 6-1 record for the season, losing only in the opening match with Oswego. Other members of the team were Captain Russ Carter, Jerry Abel, Dick Lyndon, and Tom Olson.

A team of Abel, Carter, Roberts, and Lyndon went to the Eastern College Athletic Conference Tournament in New Haven, Connecticut last Fall. These golfers will all be back for the Spring season, and together with Tom Olson look forward to a promising season.

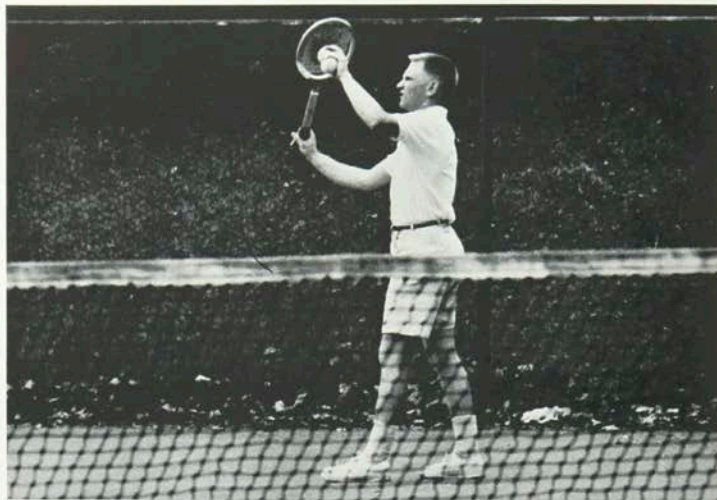

## GOLF

### 1960 RECORD

RIT	4	Ithaca College	5
RIT	4	Geneseo State	5
RIT	3	St. John Fisher	6
RIT	8	Oswego State	10
RIT	12	Brockport State	6
RIT	5½	Geneseo State	3½
RIT	14½	Oswego State	3½

Dick Roberts, Russ Carter, Jerry Abel, Bob Klos, coach

A ball over the net is worth two in the hand

## TENNIS

Led by Al Lupton and Dick Greene, the RIT racketmen compiled a 3-3 record. Adverse weather conditions caused the cancellation of two other matches which were anticipated as possible wins. Dick Greene compiled the best over-all record at 5-1, while Al Lupton was forging a 4-2 season. The rest of the team led by captain Jerry Mattison and coached by Bill Toporcer was composed of Gary Frind, Dick Beals, Chuck Loescher, Tom Fleck, and Ron Avery.

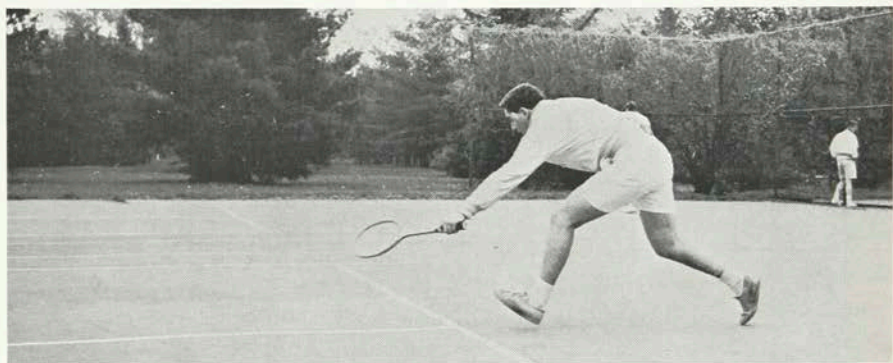

This year's team will have Lupton, Beals, Fleck, and Avery returning to the nets. If a couple of young players with talent can be recruited to fill the ranks of the squad they will be able to look forward to a successful season.

### 1960 RECORD

RIT	8	Ithaca	1
RIT	3	Buffalo State	6
RIT	4	Brockport	5
RIT	8	Fredonia	1
RIT	8	Potsdam	1
RIT	1	Brockport	8

SENIORS

URING your years at the Institute, the world about us has passed from the Electronic Age into the Space Age. This has been accompanied by an explosion in knowledge as well as an explosion

in population. Both will have a profound influence upon your life and will place new responsibilities upon you. Of utmost importance is your recognition of the fact that education is a continuing process and that your years at RIT constitute only a phase in the development of your professional competence. It is imperative that you retain an eagerness to continue your education and thus keep abreast of the great changes which are occurring in your professional field. ¶ The rapidly moving years which have measured your college career have been years in which our facilities have expanded and significant changes have occurred in the educational program. The offering of the Master's degree program in the College of Fine and Applied Arts, and the addition of the Library, are but two of many examples which will give you some perspective as to our future. As I see it, there is no limit as to what can be achieved in the growth and development of the Institute. ¶ You, the men and women of the Class of '61, have been an integral part of our immediate past. As Alumni, I am sure we can count on your sympathetic support as you plan the important role which is yours in our future. ¶ The faculty and staff join with me in extending congratulations and best wishes to the Class of 1961.

**A**NYONE'S "first job" is to get his basic education—and congratulations are due the boy or girl who gets this job done well.

Now, how about the next job?

Career opportunities in Rochester, with its many and diverse industries, businesses and professions, should interest almost any student. Most Rochester companies are recognized for their high standards and advanced technology. It follows that standards for employment are high, too—and a good education tops the list.

Now, here is an important angle to think about: an employer knows what kinds of people he is looking for. The student ready for a career, therefore, ought to have an equally good idea of what *he* or *she* is looking for. Talking with parents, counselors, friends, and with employers themselves will reveal what kinds of positions are available in what kind of industry, business or profession. How do education, experience, and personal characteristics measure up to a given employer's requirements and standards?

The correct answer is the key to anyone's career. There is no door it cannot unlock—when the key fits!

idea man ...  
the Keller yearbook  
representative

DONALD J. MESSINGER

To the casual reader a yearbook is often simply an "album" of pictures with accompanying identifications and enough written text to fill up the remaining holes on the pages. Merely ink on paper . . . though nice to own and enjoy.

But to the staff and the adviser the yearbook means much more. For yearbook work comprises a multitude of details: Layout, Art, Photography, Copy, Typography, Covers and Binding (not to mention the small detail of money-raising). Highly technical and often confusing, these details are at the very least time-consuming and a source of anxiety to a staff unless the publisher's representative is company-trained to give needed help and suggestions.

All representatives for Wm. J. Keller Inc. are skilled in the many facets of yearbook work, having at their finger-tips the answers to yearbook problems as well as a multitude of ideas for new graphic arts special effects, to enable the staff to produce a yearbook that is different and attractive. Your Keller salesman is more than a technical adviser, he is a "clearing-house" of yearbook ideas.

Wm. J. Keller Inc.

Publishers of Finer Yearbooks

## LITERARY

LITERARY EDITOR: John Absalom

STAFF: David Bowersox, Mercedes Conley, Elaine Galante, Diane Hoogendoorn, Michael Lombardo, Max Jarosky, Fred Plank, Frank Ballabio, Henn Totsas.

## ADVISORS

Dr. Warren Davis, Mr. Joseph Bowles, Mr. Alexander Lawson, Mr. Peter Jedrzejek, Miss Ruth Gutfrucht, Mr. Raymond Werner, Mr. Robert Bagby.

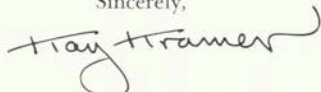

## TO THE STUDENT BODY

It has long been the habit of the editor to extoll the virtues of his staff at the summation of the book. However, it has never been the policy of this particular editor to confer accolades or confess gratitude to those from which no benefit has been received, and it seems superfluous to esteem those whose efforts markedly display the quality of their substance; as in the instances of Dave Brace's wood cuts, art work, and execution of the theme; Brian Tolbert's allocation of photo assignments, appropriate selection of the results, and pleasing color work; and the assemblance of scintillating prose by John Absalom.

However it frequently occurs that the very nature of the task prohibits the flaunting of the results, and it is to these people that due credit should here be afforded. Such was the case with Barry Ruth in his remarkably successful efforts to corral an elusive faculty and student body for the purpose of allowing them to have their name and likeness appear as part of the record of this year at the Institute. The juggling of our diminished budget and constant prodding of complacent debtors necessitated an effort on the part of Wally Maier that is difficult to discern in the finished product, but is in actuality, the substance from which this book is nurtured. The quiet efficiency of Judi Tummonds, apparent to all those with whom she dealt, the handling of the merchants necessary portion of the book by Jim Brennan, and the willing practical assistance of Joe Hickey, are for a person in my position, difficult not to acknowledge. Also of unquestionable value to their immediate superiors were, Shelia Sparnon, Barry Winters, Dave Nance, and Max Jarosky.

But beyond all this the versatile and conscientious manner in which Tom Heil acted as my associate was largely instrumental in making the overall effort the success that we feel it has been. Not only has this been the most complete and efficient staff in my acquaintance with the production of the book, but it has produced a book which I'm sure will elicit the same enthusiasm from the student body that it has from our staff. Next year will find Herb Johnson performing in the capacity of editor and with the culmination of this book go my best wishes and those of my staff to him and his staff.

Sincerely,

Kay Kramer  
*Editor-in-Chief*

## colophon

This edition of TECHMILA has been composed in Baskerville and Solemnis types and printed on Warren's Cameo Brilliant Dull by Wm. J. Keller Inc., of Buffalo, New York, in a quantity of 2,100. The woodcut illustrations are facsimiles of medieval chess pieces while the line drawings are adapted from book illustrations of the same period.
