Set of the leaders their words may have the same effect in creating that sort of mania which perpetrates great national erises. We are not dearning the same effect in creating that sort of mania which perpetrates great national erises. We are not dearning that there is may evidence of a purpose to commit such a strine; but we are not too the president, or do we think these is may evidence of a purpose to commit such a strine; but we are not too the president of the president of the chief States, but without it. The very idea of making a formal representation always disqualified me. Gentle me, your country is in your hands. The issue way it is now any it in not impossible that some cray factions its may be led to a criminal act.
