TWO-YEAR SEARCH ENDS IN ARREST

William Paddie Accused of Forgery Said to Be Wanted at Winnipeg

DENIES HE IS MAN THE POLICE SEEK

Minneapolis, Minn., April 8.—William Paddie, accused of having committed extensive forgeries in Salt Lake City, San Francisco and many other cities throughout the country, was arrested by detectives here yesterday afternoon. Paddie has been sought for more than two years. He is said to have cashed many thousands of dollars' worth of forged paper. Paddie, who gave his name as James Robertson, is said by the police to be a former bank employee at Winnipeg, Man. It is alleged he disappeared in 1911 and that the last twelve months he has passed in boating on the Columbia river, bathing in the surf at Los Angeles, betting on the races at Juarez, Mexico, hobnobbing with the late President Madero at Mexico City, lounging on vine-covered porches of hospitable southern homes and conducting gambling operations from New York to Minneapolis.

The police say he is accused of stealing one hundred bank money orders from the institution in which he was employed and that three of them were found neatly folded in his underclothing and that two more were found later in his room at a hotel where he was stopping here. He is accused of forg-

German Imperial Chancellor Submits Bills for Increasing the Army Strength

READY TO CONSIDER CONCRETE PROPOSALS

Berlin, April 8.—"If outside forces should threaten us, Germany must stand ready with her last man," declared Dr. von Bethmann-Hollweg, the imperial chancellor, in parliament yesterday, while submitting the government bills for increasing the army and providing new forms of taxation. His speech was a striking one, although he qualified his warning with the admission that a European conflagration in all probability will not issue.

INCOME TAX IS TO MAKE UP REDUCTION

Chairman Underwood Gives Statement of New Tariff Bill

EFFORT TO REDUCE THE COST OF FOOD

Washington, D. C., April 8.—Chairman Underwood, of the ways and means committee, in his statement accompanying the new tariff bill, gave the following comparison, showing reductions made upon necessities. In each item the present tariff and the proposed tariff had been reduced to an ad valorem basis:

Article	Law	Proposed
Line	3.17	3.00
Grindstones	2.21	2.00
Bicycles	45.00	25.00
Pocket Knives	77.08	35.00
Razors	12.36	35.00
Scissors and shears	33.77	20.00
Knives and forks	41.92	27.00
Furniture	35.00	15.00
Cattle	27.07	10.00
Eggs	33.33	14.25
Stocks, etc., of fruit trees	54.44	27.58
Cotton cloth	42.74	28.00
Cotton clothing	50.00	30.00
Stockings, hose and half hose	75.38	20.00
Men's and boys' cotton work gloves	59.17	25.00
Shirts, drawers, etc. and underwear	69.27	25.00
Collars and cuffs	49.10	20.00
Blankets	72.09	25.00
Flannel	83.29	25.00
Clothing, ready made	79.54	25.00
Women's and children's dress goods	95.70	35.00
Sewing silk	25.00	15.00
Wrapping paper	35.00	25.00
Books	25.00	15.00
Brooms	49.00	15.00
Matches	27.59	14.00
Harness and saddlery other than leather	35.00	25.00

The new figures are estimated to reduce the customs revenue approximately \$20,000,000 a year. This is expected to be made up by the income tax.

ENDORSED BY PRESIDENT WILSON

Endorsed by President Wilson, the measure represents the efforts of the president and the House tariff makers to carry into effect the Democratic pledges of downward revision and of concessions to the American consumer. Protection to the farmer would be cut throughout by more than 50 per cent. in an effort to reduce the cost of food.

Protection to the steel and implement manufacturer would in turn be cut by fully as wide a margin. The heaviest reductions fall upon food stuffs, agricultural products, woolen and cotton goods.

THE FREE WOOL PROPOSAL

The free wool proposal, backed by the president and accepted by the House committee, is expected to provoke a severe fight within the ranks of both houses.

The proposed changes in rates, not included in the foregoing table, follow:

- Barley malt, from 45 cents to 45 cents bushel.
- Buckwheat, from 15 cents to 8 cents bushel.
- Oats, from 15 cents to 10 cents bushel.
- Rice, cleaned, from 2 cents to 1 cent per pound.
- Wheat, from 25 cents to 5 cents bushel.
- Butter, from 6 cents to 3 cents per pound.
- Cheese, from 6 cents pound to 20 per cent. ad valorem.
- Beans, from 45 cents to 25 cents per bushel.
- Eggs, from 5 cents to 2 cents a dozen.
- Nursery cuttings and seedlings, from 25 per cent. to 15 per cent.
- Fresh vegetables, from 25 per cent. to 15 per cent.
- Apples, peaches, etc., from 25 cents to 10 cents per bushel.

THE INCOME TAX

The income tax, which will transfer indirect taxes levied through the tariff into a direct tax upon the incomes of individuals and corporations, exempts all sums below \$4,000. Incomes in excess of that amount will pay 1 per cent. tax up to \$20,000, 2 per cent. from \$20,000 to \$50,000, 3 per cent. from \$50,000 to \$100,000, and 4 per cent. above that figure. The bill also includes in its provisions the property and earnings in this country of persons living abroad.

The present corporation tax, levying 1 per cent. on corporation incomes above \$5,000, would be retained as part of the income tax.

MAKE A WILL

There are many reasons why everyone who owns property should make a will. Where no will is left, the law does its best to divide property equitably; but it makes the same provisions for all intestate estates, and there are no two persons whose circumstances are the same. Here in British Columbia, the married man who leaves no will generally leaves his widow dependent.

If you would protect those dependent on you, MAKE A WILL.

Let us assist you in this important duty.

NOTICE OF CLOSURE TO BE PUT BEFORE HOUSE THIS AFTERNOON

Naval Debate at Ottawa Resumed; Prime Minister Suggests Termination of the Debate and is Opposed by Sir Wilfrid Laurier and Members of the Opposition

Ottawa, April 8.—The debate in the committee of the whole on the Naval Bill authorizing the expenditure of \$35,000,000 for purposes of defence was resumed yesterday. The discussion was dropped on March 15 after two weeks of continuous session, so that twenty-three days have elapsed since the bill was last under consideration. Contrary to the general expectation, the House rose at 11 o'clock, which would seem to indicate that for a few days at least, strenuous sessions will not be resumed.

A feeling of intense interest prevailed within the Commons chamber when Premier Borden moved the House into committee to resume consideration of the bill. Sir Wilfrid Laurier immediately produced from his desk notes and references, while Mr. Borden rose without any notes before him. His object was simply to suggest to the opposition that time enough had already been spent on the debate and that a date should be fixed for the third reading.

Sir Wilfrid replied with a set speech of some length in which he declined to accede to the request made by the premier.

Hon. Robert Rogers, speaking in the evening, said that the business of the country must and shall be proceeded with. He said that if a reasonable excuse existed he should be glad to have a general election because the country would declare most unanimously in favor of the government's policy.

Government Challenged.
Hon. Dr. Pugsley and E. M. Macdonald were the other speakers to contribute to the debate. Both challenged the government to go to the people.

After the House rose it was announced that notice of closure would be given this afternoon, and that Sir Wilfrid Laurier had been notified to that effect.

Replying to the prime minister's suggestion for a termination of the debate, Sir Wilfrid Laurier said the request was one entitled to a fair and unequivocal answer. He could not agree that more time had been taken up with the consideration of this bill than of any previous measure. Parliament, he said, in a past year had devoted more time to a discussion of the reciprocity agreement. The resolution on which that agreement was based was introduced in the House on January 28, and when dissolution took place, on July 29, consideration of the resolution was still pending. He was not disposed, he said, to find fault with the opposition of that day. At the present time it was charged that the attitude of the opposition was one of obstruction.

"Whatever you may call it," he said, "it is not unknown to parliamentary government."

Reform Bill of 1912.
Sir Wilfrid then quoted a reference made by Sir Thomas Erskine May to the discussion which took place on the Reform Bill of 1912 in the British House. This parliamentary authority had remarked that the development of freedom led to the desire to speak in the House. When leader of the government, he had never complained of obstruction. In the last instance of which he had experience, the best solution, he thought, was to refer the matter to the people. It would be the best solution in this case.

Sir Wilfrid said this was perhaps the most important measure which had ever engaged the attention of parliament, involving, as it did, a new departure in our national life.
"This day," he said, "is not without solemnity. If we pass this bill, we turn our backs on what has been the constitutional history of the Dominion since confederation. We interrupt, and perhaps put an end to, the spirit of self-confidence and self-reliance which has characterized the Canadian people."

Canadians Pay Tribute.
The bill, he continued, involved the question of concentration on one hand and expansion on the other, a question which had in the past always been settled in favor of a policy of expansion. The problem of defence, Sir Wilfrid said, had been with us since the early days of Canada as an auxiliary of the United Kingdom, but it had never entered his mind that Canadians should pay tribute to the British army or the British navy.

Once upon a time, he said, this great question had been freed from party prejudice. On that occasion parliament decided unanimously in favor of the organization of a Canadian navy. It could not be presumed that any departure from that policy could be an improvement upon it. When parliament acted in 1909 it was embodying the voice of duty, both Imperial and Canadian. It was now proposed to set this policy aside. They were told that this was not so and that the present proposal was one to meet an emergency. But who talked seriously of emergency now? No light had been let in upon it. He believed the words of the statesman of Great Britain that the relations between the Mother Country and Germany were never more cordial than now. The First Lord of the Admiralty had told them at least a dozen times that Great Britain could defeat her foe. (Conservative laughter.) That statement was received with derisive laugh or by the members opposite, but was there anyone who would say that England was not the equal on sea of any nation on the earth? he asked.

The Canadian Navy.
Sir Wilfrid went on to say that the secretary of the German navy had

WHAT THE PROPOSED CLOSURE PROVIDES

Ottawa, April 8.—The proposed closure bill provides for an amendment to rule 17 defining the rights of the members to be heard before a question is put. It is proposed that all but a specified list of motions shall be decided without debate or amendment.

The sections specified are adjournment motions, motions for concurrence in the report of a standing or a special committee, or for the previous question, or for the third reading, or for an adjournment of the House when made for a definite matter or urgent purpose, or for the adoption of the committee of the whole, or for the resolution clause, section, preamble or title under consideration.

This provides power for the government to shut off the debate.

A second amendment provides for any minister of the Crown, after having given notice on the previous day, may move in committee of the whole that the further consideration of any resolution or clause of a bill under consideration, shall be the first business of the committee, and shall not be further postponed. Such motion shall be decided without debate or amendment, and no member shall thereafter speak more than once or for longer than twenty minutes in any such adjourned debate; and if such debate is postponed consideration shall not have been resumed or concluded before two o'clock in the morning, no member shall rise to speak after that hour. This means that the government on giving one day's notice can force any bill through the committee stage by two o'clock the following morning.

made a statement which led us to believe that there might be a cessation of the mad race for naval supremacy. All recent developments went to show that the policy for the Canadian navy was more than ever the true solution of the problem which confronted the Empire.

He refused his consent to the proposal that a time should be set for the conclusion of the debate and the taking of the final votes on the bill.

Premier Borden replied to Sir Wilfrid Laurier. The leader of the opposition, he said, had told the House in diplomatic language that they were to be subjected to the obstructive tactics practiced for some time in the past. The leader of the opposition had further stated that this is a policy of permanent contribution. He took the strongest possible exception to this statement. It was not a policy of contribution; it was not a permanent policy at all. It was merely a proposal to build three battleships in Great Britain, and to be placed at the disposal of his majesty the king for the common defence of the Empire.

Defence Commission.
Mr. Borden then took up the question of representation on the Imperial defence commission. Sir Wilfrid Laurier, he said, had himself agreed that Canada should be represented on that committee. Now, he was opposed to such a proposal. For what reason? he asked. For the reason, he believed, that the leader of the opposition felt that Canada should be neutral in time of war. For himself, he thought that it was not possible for Canada to remain a part of the Empire under such conditions.

"If we are to remain neutral in time of war," he said, "we should not expect to have the protection of the British flag in time of peace. That stand could not be taken by any self-respecting man in the Dominion of Canada."
Sir Wilfrid and his party had in 1910 brought in what was supposed to be a permanent policy, but they had not submitted it to the people. Now they were demanding that a policy that was not permanent, but that was designed to meet a special existing condition should not be carried into effect until the people had had a chance to pronounce upon it.

Policy Not Permanent.
"This is not a permanent policy," declared Mr. Borden with marked emphasis. "It is the policy that we take in view of the distinct and definite statement of the Admiralty that the best way in which we can assist in strengthening the naval forces of the Empire is by the provision of a certain number of armored battleships or armored cruisers. Though the leader of the opposition refused to put his permanent policy before the people of the Dominion, he says that this is a policy which should not be carried out without a reference to the people. And yet already this session he has himself twice voted for this portion of the bill, which is the basis of the whole, the setting aside of a sum not exceeding \$35,000,000 for the purpose of increasing the naval forces of the Empire."

Mr. Borden said that reference had been made to the relations of Canada to other countries of the world. He was glad that the relations of this country with all other countries was cordial, but it was not by war alone that the destinies of the Empire were controlled. The very fact that the British navy had been all-powerful during the last 100 years was the reason why the British Empire had been able to develop.

Graceful Wraps for Day or Evening Wear

To the woman of discriminating judgment it is impossible nowadays to impose anything in the way of outer garments that is not indeed the very acme of correctness and up-to-the-minute in every detail—and in setting before the ladies of Victoria (with a reputation afar of ranking among the best dressed women on the continent) the delightful aggregation of wraps and cloaks which have recently come to hand from New York and the Old World centres, we do so with the confidence that our magnificent collection will at once appeal to the most fastidious and exclusive tastes, and a glance through the showing which we are specially arranging will immediately convince you that our careful selection is absolutely beyond criticism and "sans reproche."

Special mention might be given to two or three garments similar to the illustration shown above. One is a handsome two-tone silk cordelene in navy and gold, lined with a heavy satin of guinea gold. It has the new shaped shoulder collar, handsomely braided by hand, in blue and gold to blend. The revers are long and sweeping, and the wrap is draped at the side, fastened with pretty rosette ornaments and buttons. This is priced at ...\$90.00

ments are large roses made from the cord silk and velvet. This is a garment for any function and at once bespeaks elegance, and yet the price is only\$67.00

For the young matron here is a lovely brocade meter in all black but lined with a gold satin. This is cleverly draped at the side and fastened with large French handmade buckle ornaments and silk drops; unobtrusive yet distinctive. Priced at ...\$75.00

The range embraces every new and desired fabric, including satin meter, charmeuse, brocades, collettes, grenadines, etamine and black and colored brocade matelasses. To mention them all would take a book; to mention even the colors would take much space; suffice to say all new shades and every staple shade is in the range.

Corset Demonstration MISS ROSENTHAL, of New York, will be with us all this week demonstrating the merits of AMERICAN LADY CORSETS.

REPORTERS TAKE AN ACTION FOR SLANDER

Publicity Commissioner Sued for \$10,000 on Account of Statement Alleged

Moose Jaw, Sask., April 8.—As the result of a statement made at a meeting of real estate men on Thursday evening last, two reporters on the Morning News have instituted an action for slander against C. F. Brown, the publicity commissioner, who came here from Medicine Hat last September.

It is alleged that he accused them of taking money from the National Land Company in connection with the erection here of a lined oil mill. That any consideration was paid is denied by the reporters, and also by the local manager of the land company, as well as by the president, who came here from Calgary in connection with the lined oil mill.

The damages claimed by the reporters is \$10,000, and the case is attracting considerable interest here.

SAFEGUARDING THE HEALTH OF GROUP

Dr. Hall Proposes Plan Covering Victoria and Suburban Districts

INFECTIOUS DISEASES PREVENTION AND CURE

Mayor Morley Thinks Proposal Would Entrench on Statutory Jurisdiction

There was a long discussion at the city council last evening on a draft agreement with the outside municipalities of the peninsula concerning fumigation and quarantine of patients suffering from infectious disease, and their treatment at the isolation hospital.

The agreement came up because the mayor, the reeves and medical officers meet today to discuss a joint arrangement. In order to have something definite to submit to the reeves, this draft agreement was presented. The agreement was formally approved as presented, after some discussion.

A Free Hospital.
Alderman McNeill remarked that the hospital should be free, as protection to the public was the essential principle which should govern the hospital. He knew there were several cities where the services were free. The mayor did not see where the matter would end. The same principle would apply to every utility in the city. It was equally applicable to water. Alderman McNeill dissented. Alderman Cuthbert said that through personal experience he agreed that the hospital was doing excellent service, and all persons who could pay for treatment should do so. He suggested a collector to collect all fees throughout the joint area. Alderman Gleason did not agree that the public would welcome a col-

lector. It was better to leave the matter in the hands of the health officials who knew the local circumstances of their respective areas.

The council decided to propose to appoint Dr. Hall as assistant medical health officer for the districts in cases of infectious diseases in their localities. There was some discussion over this point, in view of the fact that this proposal would constitute Dr. Hall and his successors as partly responsible for the health of the districts outside this area. The mayor stated that the departure was of a serious character.

Dr. Hall gave instances to point out how necessary it was to exercise control of the outside municipalities so far as infectious disease was concerned. The mayor objected that the council was proposing to allow the city health officer to do the work of the provincial health officer. The outside municipalities ought to look after their own fumigation and quarantine, as the law required them to do.

In Case of Epidemic.
Dr. Hall did not think his proposal would take too much of his time, unless there was an epidemic or threatened epidemic. His contention was opposed by the mayor, who said it proposed to break up the city force to go into other districts. The medical officer declared that at present none of the three adjacent districts were carrying out the work adequately. There were no proper officers to look after the work in the suburban districts.

Alderman Gleason suggested that the result of the proposal would be to cost the city additional expenditure for more officials. The mayor again contended that it was not part of the city's duty to force other municipalities to carry out the responsibilities imposed upon them by statute.

Details of Agreement.
The agreement continues in force until April 1 next, subject to 30 days notice on either side. It provides that infectious cases from outside municipalities will be admitted to the isolation hospital upon notice from the medical health officer of such municipalities, except in cases of emergency, when such notification will not be required. The agreement further stipulates that the actual cost of treatment of such patients shall be collected by the city, but if, at the expiration of sixty days from the death or discharge of such patient the amount is not collected, the municipality whence the patient came will guarantee payment.

COMMITTEE IS NAMED TO GRADE THE STAFF

Council Passes By-law to Limit Height of Buildings

In supporting a motion to appoint the finance committee of the city council a committee to grade the officials, Alderman McNeill, at the meeting of the city council last evening said that the resolution would save much lobbying and trouble to aldermen. The resolution passed without discussion.

Height of Buildings.
The council determined to give a first reading to a by-law to amend the building by-law in order to limit buildings to ten stories. Alderman Dittworth opposed the motion, as a limitation of the right of the subject. No one else raised objections, Alderman Dittworth voting in the negative against the passage of the by-law.

Married and Single.
The Laborers' Protective Union wrote protesting against the order of the council in requiring the displacement of single men by married ones. A deputation from the union suggested that the labor bureau maintained by the city was subject to abuse. A. R. Sherk and J. L. Martin appeared for the union, and pointed out that the bureau in its results was defective. Mr. Sherk said that excellent, experienced men were laid off. From the taxpayers' point of view there was great loss.

The bureau would be conducted in a better way, as for instance by the presentation of a tax receipt for the previous year by each applicant. J. L. Martin contended that there was no fairness and justice in the present method. The council should consider efficiency and long service, and the present system of discrimination was doing a great injury to the married men. Many of the married men occupied rooming-houses, in which the single men occupied rooms, enabling the former to pay rent, and so live within the city limits.

Special Committee.
Alderman Cuthbert suggested that the question of the labor bureau should be referred to a special committee including himself, Aldermen Weston, Houston and Porter, and that the opinion of the Trades and Labor Council should be taken on the matter. Alderman Houston pointed to the difficulty of pleasing everybody in a matter of this character. The mayor referred to the great difficulty of the question. He was frequently compelled to choose between married and single men. Men with families on the verge of starvation were coming to him daily for help for their struggling families.

Hack Drivers Protest.
Another deputation waited on the council from the hack drivers with regard to the wearing of the badges which are strongly objected to by the hackmen. It was urged that small badges would be better. A good deal of humor was imported into the discussion, the mayor describing the large badges as the "frying pan" variety. An attempt to reach a settlement will be made in the course of the next few days, and meanwhile prosecutions for refusal to comply with the regulations will be held in abeyance.

EXECUTE TRANSFER OF CITY'S INTEREST

Final Arrangement Over Victoria & Sidney Railway; Ogden Point Lands

An agreement by the several parties embodying transfer of the Victoria & Sidney railway to the Victoria, Vancouver & Eastern railway, and the extinguishment of the city's interest therein, was read at the city council meeting last evening and will be duly executed.

Alderman Cuthbert, chairman of the legislative committee, thought the citizens would be glad to know that a satisfactory settlement of this long standing question had been reached, and he was sure the Aldermen all hoped that the settlement would lead to a great deal, both in improved service and improved conditions to the Saanich peninsula, and the district generally.

When the execution of the agreement is made the company will pay to the city \$49,500, and to the government \$23,000 in full settlement of all claims which they have against the company for interest paid upon the \$300,000 bonds floated by the company in 1922 and interest on which the government and city contracted to guarantee and which they were forced to pay by reason of the company's default.

The question of the Ogden Point lands required for harbor works was briefly referred to, and the council decided to continue in office the present committee, all papers and documents pertaining to be laid before the committee so that a report may be prepared for Monday next.

In connection with the petition for the improvement of Maddison street, which was applied for in August and deferred, Alderman Gleason urged that the work should not be delayed because of the stringency, in view of the fact that the work had been petitioned for so long.

The streets department will report on the matter shortly, the mayor saying the policy was to curtail expenditure as far as possible this year. Other streets undoubtedly had priority over this one.

An electrical device has been perfected to thaw out frozen water pipes without opening the ground.

Greatest Industrial Area Ever Placed on the Market in Victoria

This property, comprising some fifteen acres on the mile circle, near the junction of Burnside Road and Douglas street, is without question the most desirable for its purpose in Victoria. The majority of the lots will be served by trackage from the Great Northern Railway and the B. C. Electric railway. The property lies in the manufacturing area as prescribed by the City Council. The railway commission will be appealed to to compel an interchange of traffic between all lines of railway, and when that is accomplished one location is as good as another as far as shipping on any particular line is concerned. The question of location then resolves itself into the most central, accessible and the lowest priced.

The entire property will be graded to a uniform level.

The tracks will be laid free of cost to the purchaser, except where special trackage is desired in addition to the main spur.

At the prices and terms which these lots are offered they become desirable at once for warehouses, woodyards and manufacturing sites, while from a speculative view they are bound to increase tremendously in value.

Look at Vancouver or Seattle to day and imagine what similarly located lots with trackage would command in those towns. Victoria's future is brighter than either one of them.

Some reservations have already been made, so don't delay. The choicest ones will not last long.

You are dealing direct with the registered owners. The title is indefeasible and guaranteed.

All streets in the subdivided area will be paved at an early date.

Call at our office at once for further information.

The terms are easy and the prices right.

Sore Throat?

—Then try Formamint!

Sore Throat is so common a complaint that never to suffer from it, even during the worst season of the year, would be an unique experience for most people. Yet this can easily be accomplished, as an eminent physician has proved. "I have never had a Sore Throat myself since I began to use Formamint Tablets," he writes in the "Practitioner"

for December, 1907, "although I suffered periodically before." Everyone who uses Formamint may enjoy the same immunity, not merely from Sore Throat, but also from Tonsillitis, and those grave infectious diseases like Diphtheria, Consumption, Scarlet Fever, Measles, Mumps, etc., many of which invariably begin with Sore Throat.

All such diseases are contracted through inhaling germs, which breed rapidly in the mouth and throat. A Formamint Tablet, dissolved in the mouth, instantly destroys these germs.

WULFING'S Formamint THE GERM-KILLING THROAT TABLET

PROF. SEIFERT, M.D. writes: "Formamint Tablets have answered excellently in Sore Throat, and are splendidly adapted as a preventive of infectious disease."

SIGNOR CARUSO, the world-famous tenor, writes: "I have found Wulfin's Formamint Tablets very beneficial to the throat and pleasant to the taste."

THE BISHOP OF BATH AND WELLS writes: "Wulfin's Formamint is a remedy and preventive, the value of which is appreciated in this house."

Although Formamint Tablets are such celebrated people as Queen Alexandra's confidential secretary, the Hon. Charlotte Knollys; the ex-Prime Minister of Great Britain, the Rt. Hon. Arthur J. Balfour, M.P.; Lord Kingsale; Lord Justice Buckley; Sir Gilbert Parker, M.P.; the Archdeacon of Bristol, and the Dowager, Countess of Wicklow, etc.

Harmful and worthless tablets, with names very similar to Formamint, are frequently offered for sale. Refuse these and insist on Wulfin's Formamint, which is sold at all Druggists, in bottles of 50 tablets.

FREE SAMPLE

Measrs. A. Wulfin & Co., P. O. Box No. 2622, Montreal.
Please send me a free sample of Formamint and a free copy of "Hints on Sore Throat." I enclose a two cent stamp to cover postage.

SPORTING NEWS

(CONTINUED)

KANTLEHNER'S SOUTH PAW WILL ENDEAVOR TO STOP GIANTS

"Dutch" Picked to Heave Tomorrow; Bees Have Four Games This Week

Lynch's Larrupers will have a pretty busy time during the next four days disposing of their opponents as a wind-up to the training season. Tomorrow the terrible Chicago Giants, with their long list of wins, will be our guests, while the team plays again on Thursday. On Friday and Saturday the University of Washington ball squad will line up against the Bees. Boatman, the noted University twirler, being slated to work in the Victoria series. This will finish off the practise schedule, the Bees leaving for Seattle on Sunday so as to be in shape for the opening at Seattle next Tuesday.

Kantlehner Selected.
Dutch Kantlehner will work against the Giants tomorrow afternoon, and the game will start at 2:30. Mike Lynch figures that the colored team cannot be so effective against a southpaw, seeing that nine of the dukes swing the ash from the port side of the plate. The dark boys, from accounts of their Seattle games, simply murder speed, and it will be up to Manager Lynch to see that Kantlehner uses his curve ball. On Thursday Dick Kaufman will be called to the slab for duty, while

Wilson and Smith, Schultz and Narveson will be available for work against the University of Washington team on Friday and Saturday.

Steele Also Probable.
It is probable that Hap Morse will hold down first base against the Giants, seeing that Brooks refuses to work against the colored ball players, Lambe being used in the outfield. It is regrettable that Brooks will not play, for with the Bees at full strength, the locals should be about able to cop the series. Bob Brown beat the Giants yesterday using Dawson, a Chemalmus recruit, whose tantalizing slow ball had the Chicago team swinging their heads off in an endeavor to murder the pill. Bob Steele, Lynch's youthful southpaw, has a slow ball that simply loafs to the plate, and he may be rushed in to the breach should Kantlehner fail to hold the eastern plouters.

Yannigan Beaten.
Wilson's winners were worsted in yesterday's combat at the ball yard, the regulars hitting the Yannigan slab artists hard and often, while the recruits could hardly belt the horsehide out of the outfield. Bobby Steele and Brown were punched for seven runs in nine innings, while Smith held the Yannigan batters hopeless, only one run being made off his delivery in the full nine innings. The teams meet again to-day, no admission fee being charged to the Yannigan games.

BEE SQUAD WILL BE CUT FURTHER

Only Sixteen Players Will Be Carried After May 1

It is possible that one of the catchers and another of the twirlers will be dropped before the end of the week. President Watelett states that only two of the backstops will be carried after the first of May and but six of the twirlers. This means that the squad will have to be sliced, for at present there are eight twirlers, four catchers, three outfielders and four infielders on the job, with another outfielder due in a couple of days. This will shave the present team to sixteen, the number allowed by the league, and with this batch Lynch expects to go through to a first division berth, if not the pennant.

Bob Brown is after the outfielder that the Bees are trying to land, but the only way that the Terminal City magnate can beat out the locals will be for him to cut loose with his bank roll, and even then he will have to part with a good sized chunk of coin. This player is at present playing for a Coast League club, and has never hit less than .300 for several years back. He would surely fill out the Bees and give Victoria a .300 outfield, including Fred Weed and Mike Lynch. Hap Morse, the Seattle recruit, is sure of the utility job, with Lambe hanging close.

COAST LEAGUE

Monday is travelling day in the Coast League. There were no games yesterday; the standing is as follows:

	W.	L.	Pct.
Oakland	3	1	.750
Los Angeles	5	2	.714
Portland	4	2	.667
San Francisco	2	4	.333
Venice	2	5	.284
Sacramento	1	3	.250

HAS LIPTON HAD A SQUARE DEAL?

American Editors Score New York Yacht Club; Appreciation of Sir Thomas

Under the caption, "Has Lipton Had a Square Deal?" the following editorial appeared in a recent edition of the Detroit Free Press.

"The action of the voting members of the New York Yacht Club in turning down Sir Charles Lipton's challenge on a technicality will not tend to increase the estimation in which those who are held in the United States and England. Some faint consolation may be gained by those who are zealous for the reputation of American sportsmanship from the circumstances that the action of the club in control does not represent the sentiment of the majority of the members of the club. But this furnishes only small comfort.

"It appears very much as though those in power in the New York club were either afraid to try conclusions with the Irish baronet on his terms, preferring to insure the continuing presence of their trophy at the expense of honor, or that they are, influenced, as has been suggested, by

WANTS SHARE IN VICTORIA TWELVE

Ottawa Lacrosse Magnate Ready to Back Local Club in Coast League

Ottawa, Ont., April 8.—If Ottawa does not get a Big Four franchise, then Alex. Bannerman will probably become half owner of the new Victoria Coast League club and will take four or five of the Capitals West. The local man says that Lionel York, of Victoria, made him an offer to buy a half share and that he will accept unless he gets a Big Four franchise. Just what play-off deal being put through he did not say. Jones is peeved at his treatment by New Westminster. He threatens to use some forcible methods of making them accept his agreement with the D. L. A. He may even refuse to play with New Westminster.

ENGLISH SOCCER.

London, April 8.—Two postponed league games were played to-day and resulted as follows: First Division—Blackburn Rovers 3, Sheffield United 1. Second Division—Fulham nil, Bristol City nil.

ATELL IN TROUBLE.

Abo Atell may be suspended in New York state by the boxing commissioners as a result of one of his recent attempts to come back. His case is now being investigated.

TEN-ROUND DRAW.

New Orleans, April 8.—Johnny Lore, New York lightweight, and Joe Mandot fought ten rounds here, last, night. There was no decision. The ringside opinion was that the fight was a draw. Lore had Mandot groggy in the third round, but Mandot came back in the fourth and evened up the fight.

some petty personal dislike for Sir Thomas.

"In taking the ground that Lipton must challenge with a 90-foot yacht, the members of the New York Yacht Club know that under present conditions that they are demanding what is practically an impossible condition unless the challenger is content to engage once more in a task which will almost certainly end in failure.

"In order to get a vessel of the length demanded that can cross the ocean on her own bottom, Sir Thomas must sacrifice speed to seaworthiness. This means an unfair handicap. Had the type of yacht used in recent cup races been in vogue when the America first lifted the trophy, that blue ribbon of the sea would never have been brought to this country. But the boats which contested in that first race were real yachts, not freak machines built to go over a given course in the shortest possible time and good for nothing else. The America suffered no handicap in being obliged to cross the Atlantic before racing.

"The cup was put up to promote a fine sport, and to stimulate interest in yachting. As cherished by the New York Yacht Club it no longer stands for anything of the sort. The club has had an opportunity to restore something of the original conditions which made its conquest an achievement, but it has failed to rise to the occasion.

"Sir Thomas Lipton is one of the best sportsmen who has come to America from Britain, and the gallant attempt he has made to lift the cup under difficulties gave him a right to expect better treatment than he has received from the New Yorkers."

Banks Pay You Three and Four Per Cent Interest on Your Money; Great West Fisheries Bonds Pay You 6%, Are as Safe as the Bank and Has Additional Earning Power

No person would purchase a piece of real-estate without paying for a search of the title, no matter how small the transaction might be; why should the investor buy securities unless he knew he had protection for his money, and the assurance from a reliable source that everything is as represented. The investor is entitled to protection; he should have security for the money he advances; he should have a fixed earning power and, in addition, a show in the profit that his money has earned.

In purchasing Great West Fisheries bonds you have this security, you have the assurance of a reliable guarantee company, also the endorsement of a bank, that the personnel of the company is clean, officered by honest and capable men, and that the representations are conservatively made.

There Are Many Reasons Why Great West Fisheries Bonds Should Appeal to Investors

Gold bonds are recognized the world over as being the safest and best security to invest in when buying a bond, such as the Great West Fisheries, Ltd., are issuing. Every dollar you have invested will be paid back to you at a stipulated time as set out on the face of the bond.

A Good Catch of Halibut

Drying Codfish by Sun Process

Principal, by one of the strongest financial corporations on the continent, and certified by a bank, every bondholder enjoys all the privileges of a common stockholder and has no liability.

GREAT WEST FISHERIES BONDS CAN BE BOUGHT ON EASY TERMS

All bonds are issued in denominations of \$100 each, and can be purchased on easy terms. Interest on your bond is paid by us annually and dates from the date of your first payment. Price of Bonds \$100 Each, Payable \$10 Down and \$10 Monthly. Call or Write To-day for Further Information

THE GREAT WEST FISHERIES, LTD. VICTORIA, B. C.

Head Office, 411-412-413 Campbell Building.

PROFITS TO THE INVESTORS

The average price per case of salmon is \$6. The company expects to put up a pack of 40,000 cases, which would amount to \$240,000. Cost of production \$110,000.

Profit \$130,000. Cost of packing herring is \$14 per ton; 5000 tons \$70,000. Price obtainable, per ton \$26.00. 5000 tons would be \$130,000.

Profit \$60,000. Total profit \$190,000. Capitalization of Great West Fisheries Limited, \$300,000.

Great West Fisheries Bonds Bear 6 Per Cent. Annually, also Participates in all Profits Earned.

Great West Fisheries Bonds have additional features from many other bonds. With every bond sold, one hundred shares of common stock is set aside in trust, and should the bondholder wish to convert the bond held into common stock within three years, he can do so. The company also has the option of redeeming the bonds in five years by paying the bondholder a premium of 10 per cent, and accrued interest thereon. Every bond is guaranteed against loss of principal.

Plant Sale

We are selling out, and this is the time to plant.
ROSES—100 choice varieties, in Dwarf, Standard and Climbers. Thousands in stock; selling: will bloom this Summer.
HOLLIES—Berry-bearing, green, gold and silver variegated; in fine specimen-plants and also cheap for hedges; 10 varieties; 5000 in stock.
Rhododendrons, Yews, Cedars, Cypresses, Laurels—at reduced prices on large quantities, etc.

COUNCIL ASKS MONEY COLLECTED AT POUND

Esquimalt Official Was Appointed by Resolution Instead of by Ballot

A peculiar situation has arisen in the municipality of Esquimalt. The poundkeeper appointed under last year's council was appointed by resolution of the council instead of by ballot, as should have been done to make the appointment strictly legal. The terms of his appointment were that he was to receive a salary one-half of the amount of fines collected.

The new council having discovered this alleged irregularity in the appointment maintained that he is not de facto poundkeeper. Recently he collected \$12 in fines from certain people, and the latter, ascertaining the facts of his appointment, asked to have the money returned. At the meeting of the council last evening it was stated that \$10 has been paid back by the municipality; but so far the poundkeeper declines to turn over to the municipality the \$12 he collected, stating, according to Municipal Clerk Ellis, that on the advice of counsel he is entitled to hold the money.

The council has directed the clerk to demand that he turn the money in, and should he fail to hand it over action will be taken. The council maintains that the keeper must hand in all collected to the municipality, the latter then paying him his 50 per cent.

KEATING FARMERS FAVOR CITY MARKET

At the Temperance hall, Keating, the regular meeting of the South Saanich Farmers' Institute was held last week, at which Mr. Macoun, of the Experimental Farm; R. M. Winslow, provincial horticulturist, and Mr. Terry, provincial poultryman, each gave an interesting address. A good sized audience greeted these lecturers and a keen interest was shown throughout.

George Stewart, president of the Institute, announced the result of a meeting with a committee of the Victoria city council considering the advisability of establishing a public market. It is thought that such a project should receive all possible assistance from the farmers of this peninsula, as it would certainly be most beneficial. It was arranged that this matter should be discussed at the meeting, April 17.

ATTEMPT TO CURTAIL VOTE FOR ENGINEERS

Alderman Cuthbert Thinks the Council is Spending Too Much on Expert Advice

An unsuccessful attempt was made yesterday at the city council meeting to reduce the vote for the city engineering staff by \$4,000, the total salary appropriation for engineers being \$24,195.

Alderman Cuthbert strongly opposed the passage of the estimates with a vote of this amount placed thereon, and suggested the reduction, the actual decision as to what engineer should be retained to be left to Mr. Rust.

Mayor Morley opposed any further reduction in the vote on the ground that the engineer had been before the aldermen and had explained in committee the duties of each man, assuring the aldermen that it was not possible to do without any of them, should work continue. If, however, the works department did open up shortly they would all be needed. If not, the staff would be further reduced. In view of the fact that the department had been reduced by nearly 50 men since the beginning of the year he thought the engineer had shown a desire to assist. Mr. Rust had been most amenable to every reasonable request of the council and had cut down his staff to a minimum.

Alderman McNeill and Alderman Porter considered that action should have been taken at the time when the estimates were in committee, and that the vote as stated in the schedule should be agreed to. Alderman Cuthbert, in moving his motion, pointed out that while the subordinate men had been dismissed, the principals remained, and that the heavy overhead charge was too great.

Alderman Dilworth urged reduction. Alderman Weston then asked him why the economy had not begun when work slackened off in August, instead of in the present year.

The council would have saved \$20,000 thereby. Alderman Fullerton also held that the engineers were retained while the workmen went unemployed.

The expenditure by-law was then finally approved.

WILLIAM H. CRANE IN PLEASING COMEDY

"The Senator Keeps House" Entertained Large Audience at the Victoria Theatre

The visits of William H. Crane are welcomed in every American and Canadian city, not because he is one of the great dramatic artists of the generation, but because he always has a nicely balanced little comedy with some good, honest, familiar characters, the chief of which, a jolly old man, is always played by himself in his own inimitable way. It is a relief to break away once a year from problem plays, French farces and musical comedies and hear a play in which wholesome sentiment prevails.

"The Senator Keeps House," which held the boards at the Victoria theatre last evening, is not the comedy of a decade, but it is a good season's vehicle for a good comedian such as Mr. Crane. The household difficulties of an elderly United States Senator with an abhorrence for marriageable women, are the background of the action. The story tells how the woman whose civil war pension claim the Senator was fighting, revealed her identity and became his housekeeper, won his heart by the revolution she accomplished in the household, and then lost his confidence when the Senator found out who she was.

The "Mason claimant," needless to say, was led innocently into her deception by unscrupulous politicians who were using her as a pawn in the game of politics. In fact, she was the real victim of the duplicity, although to the Senator, who probably didn't listen in the wings while the scheme was being hatched, it seemed as if she must have been the author of the plot. The more kindly plotting of the lady's colored maid and of the Senator's secretary succeeded in bringing everybody to a happy understanding before the final curtain.

Mr. Crane had a grateful part in the honest old politician. There was a situation to call into play every one of his well-known mannerisms and tricks of speech. That is all that one demands in a part for Mr. Crane. He does the rest.

The female portion of the supporting cast was strong, but the men inclined to be too wooden. An unusually clever bit of character work was done by Marion Kerby as Honeyuckle, while in Lorraine Frost, the company has an ingenue of rare promise. Miss Mabel Bert as the "claimant" was thoroughly competent in the role of the dignified Southern lady. As "that nigger," Sam, Raymond Walburn was the pick of the male members of the cast.

OUTSIDE PATIENTS OCCUPY HOSPITAL

Medical Officer Points to Suburban Cases Treated in Isolation Ward

A healthy month was experienced in Victoria in March, according to the report the medical health officer, Dr. Hall, presented to the city council last evening. He reported in part: "There were twenty-nine cases of infectious diseases admitted to the Isolation hospital during the month: 15 cases of scarlet fever, 11 being from without the city; 10 cases of diphtheria, three being from without the city; three cases of measles, one being from without the city. There were three deaths. It will be seen that nearly half of the cases came from outside the city, the three deaths from diphtheria being outside patients. These three patients were brought in in a very low state, having had the disease for some time. One boy's throat was completely paralyzed, not being able to swallow even water. I mention this fact to show the necessity of early attention in all cases of throat trouble."

"There were twenty-six indigent patients treated at the Jubilee hospital, a total of 596 days. The usual complaints have been attended to in the sanitary department and inspections of food, etc., carried out. One person offering bad meat for sale was taken before the court and conviction obtained. Samples of milk and butter were also submitted to the city analyst."

In 12 cases of butter analyzed borax preservatives were found in seven.

PRESENTATION TO FLOYD

Former Clerk of Oak Bay Receives Testimonial From Council.

Last night at the Oak Bay municipal hall, Reeve Rattenbury presented J. S. Floyd, former clerk, and now auditor and secretary of the school board, with a purse of gold, and parchment testimonial from the municipality. The revee in making the presentation took occasion to pay a high tribute to the devotion which Mr. Floyd had always shown to the interests of the municipality.

ADMISSION 25c

PORT EDWARD

Is meeting with remarkable success throughout the entire Dominion. Many sales have been closed in the local offices of the directing sales agents BY MAIL, and orders are coming in from points throughout Canada from Halifax west.

A notable feature of the marketing of this great industrial townsite is the number of well-established industries that are making overtures for locations at Port Edward. Several have closed for sites, and the Port Edward Townsite Co., Ltd., in accordance with its policy, is

Port Edward is not a forced enterprise. Prince Rupert, it is well known, can find no room for the location of further industries along its waterfront. Port Edward offers the only available location for an industrial annex. Port Edward is immediately adjacent to Prince Rupert, with easy inter-communication assured. It has one of the finest natural harbors on the Pacific Coast, adapted to the building of pier wharves and affording seven times the total docking capacity of Prince Rupert harbor per unit of waterfront. It has been laid out by expert engineers

Port Edward, B.C.
Prince Rupert's Industrial Annex

closing with as many desirable industrial enterprises as possible. Evidence is plain that the manufacturers of the Dominion and of the United States as well are keenly alive to the wonderful possibilities of the Northern Interior of British Columbia in the light of the Grand Trunk Pacific and the Panama Canal.

No finer, safer, surer investment exists to-day than the purchase of lots in Port Edward. Don't wait until the second or third sales and pay higher prices. Take as an example the history of Prince Rupert.

BUY NOW, AT STARTING PRICES, AND MAKE PROFITS WORTH WHILE

as an industrial centre of the most modern type. A company made up of some of the most prominent men in the Dominion is behind Port Edward. Its capital is \$1,000,000 fully subscribed. A development fund of \$172,500 has been established, and more than \$32,000 of this was expended in the surveying and preliminary development. The entire business section and all streets and avenues on the balance of the townsite have been cleared, and four and one-half miles of plank walks have been laid on the principal thoroughfares. A wharf suitable for the landing of passengers, machinery, supplies, etc., is under construction.

Port Edward

Offers modern industries every requirement they demand; water transportation is provided with efficient, modern facilities for reducing time and cost in handling; the shortest route to Oriental markets of any Pacific port; rail transportation by a road that possesses the easiest grades in existence; immense markets at home and abroad; tremendous resources, including fish, timber, minerals and grain; a townsite laid out to meet the finest demands of modern commerce and industry.

A TRUE STORY OF A WISE INVESTMENT

Prince Rupert points an unusual lesson to investors. Many people thought that to buy Prince Rupert property originally was to throw money away. The first sale was held in 1909. Lots 9 and 10, Block 8, were sold to the Atlantic Realty Co. for \$1,220 for the pair. They were held until last year, and then they were sold to Mr. F. S. Long for \$10,000. And Mr. Long made a good investment. Port Edward offers you a chance to prosper by the development of the Great North. Are you going to take it?

Port Edward

Is bound to succeed. It is attracting some of the largest industrial enterprises in Canada right now. It will form one of the foremost industrial centres in the entire Dominion. Send for the literature without delay. Learn all about it. It means a wonderful opportunity to the people of Canada. It means excellent profits for you if you invest now at

RAILWAY STRIKE IS GENERAL IN AUSTRALIA

Sydney, N. S. W., April 8.—The railway strike is becoming general throughout the whole of Australia, and has assumed serious proportions. Passenger service is seriously curtailed, and the movement of freight is almost at a standstill. Demoralized conditions prevail. Total suspension of rail traffic over the entire Commonwealth is a probability by to-morrow. In the event of such an eventuality business will come to a standstill, and the loss would be almost incalculable. Australia has not faced such a crisis in many years.

TOO LATE TO CLASSIFY

WHEAT IS WEAKER FOR LATER MONTHS

Last Quotations Show Loss of One Cent; Corn Slack in Chicago Pit

(By F. W. Stevenson & Co.)
Chicago, April 8.—The wheat market opened weaker for the later crop months and slightly firmer for May. It was evident from the first that conditions were bearish for the trade, and when the trend became downward, the selling movement met with little opposition.

GRAND TRUNK WORK ON PRAIRIES IS CUT

Winnipeg, April 8.—Very little work would seem to be the intention of the G. T. P. in the prairie provinces this summer. It was learned from a high official in the engineering department today that the staff of civil engineers is to be very much reduced from the corresponding staff at this time last year.

MAY SEND SOUTH TO BRING MAWSON BACK

Melbourne, April 8.—State Governor Fuller, following the recent receipt of a wireless message from Dr. Mawson announcing that the party would return to Australia from the Antarctic next summer, has suggested that the federal government should fit out an expedition to bring the brave explorer back before the winter.

MAKE CHANGE IN TIME OF RAILWAY

Atlantic Standard Abandoned in June on Eastern Division From Vancouver
St. John, N. B., April 8.—An important change will be made by the Canadian Pacific Railway with the adoption of the summer time tables in June. This will be the abandoning of Atlantic standard time for the operation of the Atlantic division, and the adoption of eastern standard time for this section.

SPRING Skin Troubles

Mothers who have used Zam-Buk know it cures Spring Skin Troubles in Child or Adolescent. Mothers who have not yet tried it should note the facts—Zam-Buk was unknown ten years ago, yet such is its merit that to-day it has become the standard in the homes of four continents! Zam-Buk is purely herbal, contains no poisonous coloring matter; is used by leading medical men; used in the British Army and Navy; used by all best fitted to know the needs of the skin. Make it your family balm!
