The present volume is number sixteen, Part II, of an Alphabetical Index of the Births, Marriages and Deaths recorded in Providence, and is the third of a set of three volumes containing an index of the births, marriages and deaths recorded in the city for the years 1901 to 1910 inclusive. It contains an index of all the marriages for the years 1901 to 1910 inclusive. These marriages are recorded in the bound volumes of the Records of Marriages 19, 20 and 21. The record begins at page 100 of volume 19 and extends to page 417 of volume 21.

The following table shows the number of marriages that were recorded in Providence for each of the ten years 1901 to 1910 inclusive, and also the number of marriages recorded of persons who were residents of Providence but were married elsewhere.

Year.	Marriages taking place in Providence.	Ratio of per- sons married per 1,000 living.	Marriages outside of Providence.	Year.	Marriages taking place in Providence.	Ratio of per- sons married per 1,000 living.	Marriages outside of Providence.

Total recorded in Providence				26,329			

As all marriages are indexed separately under the name of each of the parties to the marriage, it might be expected that the number of entries in the index would be double the number of marriages. But there are 420 more names than persons married, for it occasionally happens that a foreigner is known among those of his own nationality by his true name, and among English speaking people by a translation of that name, or by some other name that he may fancy. In such cases both names are often used in the record.

The number of names in this volume parts one and two, under each letter of the alphabet is as follows:

A	1,731	J	1,061	S	4,531
B	4,717	K	1,650	T	1,687
C	4,852	L	2,587	U	81
