"PRO BONO PUBLICO"

PREFACE

In submitting Volume III of the Concord City Directory, it is gratifying to note the progress that is being made in the growth of population.

A great factor in the upbuilding of any city is its civic pride; the fact that your citizens stand as a unit on everything that affects the prosperity of your city is worthy of commendation.

The City Directory is one of the foremost enterprises of any city; it is generally referred to by the press of the whole country as a semi-public institution of great value.

The Directory is more than a mere list of names of residents giving their various occupations and addresses, it is an infallible guide to your city, for your people and for the stranger within your gates. It not only deals with your people, but with your government, your institutions and various organizations. It is a recognized standard work of reference and becomes the most reliable history of your city and its citizens. As there is no other publication in the world which gives the information as contained in the City Directory, there is probably no other publication in which all the people are so vitally interested.

To gather the data and compile a volume of this character is no easy task. It requires time, a well defined system, and incur no little expense. Few people have any idea of the work it means and the tenacity it takes to publish a reliable directory.

In preparing this book the publishers have spared neither time nor expense, and if errors occur or a single name is omitted which should appear in the work, it is generally the fault of the public and not of the publishers, as every house is visited and it is not the publishers' or canvasser's fault if some one fails to give all the information or gives it incorrectly. The intentions of the reliable publisher are always for improvement, and you can always count on getting as accurate a directory as circumstances will permit.

The estimate of the population of a city is a matter necessarily enjoined upon the directory publishers; such estimates, however, are not merely theoretical, but based on facts, sustained by the contents of the publication.

CONCORD'S PRESENT POPULATION

12,300

This does not mean simply population inside the city limits, but takes in consideration all suburbs included in the Directory.

In concluding, we desire to thank our patrons for their support and to extend our thanks to the public in general for the courteous way in which everyone supplied our canvassers with the desired data. We shall continue this publication bi-annually as heretofore.

Yours truly,

PIEDMONT DIRECTORY CO.,

ERNEST H. MILLER, Mngr.

A PERSISTENT ADVERTISER

One of the most persistent advertisers in the history of success was Robinson Crusoe.

He believed in advertising.

He knew what he wanted—a ship.

And he put up an ad for one.

He flung a shirt on a pole at the top of his island; that, in the language of the sea, was plain to every seafaring man.

The circulation was small and there was no other medium, but Crusoe kept it there despite the fact that he got no inquiries for a long time. He changed his copy—as one garment after another was flapped out—and in the end got what he wanted, was happy, and his name and fame have come down through the ages.

The present-day merchant is much better off than Crusoe.

He Has The City Directory through which he can reach all the people, some of whom want his goods. Your chances of success are thousands to his one, but your chances of failure are the same as his.

Suppose Robinson Crusoe had taken down that signal after, say a year, and declared, "Advertising doesn't pay," where would he and his story now be?

Put up your signal and keep it up. There will be a number of ships cruising around during the year 1916 that will be glad to call and take you off the island of Dull Business.

Crusoe advertised under discouraging circumstances. You have got a sure thing—The City Directory.

Mr. Manufacturer, Merchant (Wholesale and Retail):

No other publication in the world so thoroughly represents the commercial, social and private interests of your city as The City Directory. Representing, as it does, every private citizen from the hovel to the mansion; every commercial, social, religious and educational institution and all other data pertaining to your city, it is beyond question, the most accurate and complete index to the city and its various interests in existence.

The Directory is the dictionary to the city and the Piedmont Directory Co. intend that 1916 shall be The Unabridged Edition. "The first aid to strangers and a standard remedy for homefolks, accurate, complete and up-to-date in every respect. Unusual prospects of profit (direct and indirect) and Civic Pride should influence every manufacturer and business man to have full representation in this Directory, and every well-governed home to have a copy of the latest Directory for the use and convenience of Strangers and visitors. "Know thyself" is sound medical advice; Know Your City is equally good business advice. Consult the Directory when you want to buy or sell and you will get the best of everything at the lowest price and help reduce the high cost of living.

Mr. Manufacturer and Business Man—It's a fact that the Directory is your city's only standing representative to the world beyond your own gates and the only index to your city's growth and prosperity. Future Directories, by the exchange system, now in general use, will be placed in the Directory Libraries of the Principal Cities of The United States for the use of all who wish to consult its pages. A well-patronized city directory indicates a good city to locate in. Yours truly,

PIEDMONT DIRECTORY CO.
