SUBJECT : Report on distribution, month of MARCH

REMARK : I simply transcribe the report transmitted to me by M. Boucly, Nagasaki Sub-Committee. without mentioning any distribution he writes: " Here is the list of items remaining in my hands after a NEW Verification.

Evidently, M. Boucly made his february report without checking accurately his balance in hands, having too much work to do at the same time.

About 102 tins were missing when the boxes were received in Nagasaki. This cannot be explained otherwise than by the certainty that they were stolen in the car, probably before their departure from Fukuoka if the car had to wait one night on the track without guardians. It is impossible to make out.
