SUBJECT: "Dispersed Reparations Item"
(Inventory Number 01-35-1975)

TO: Commanding General
Eighth Army
APO 343
Attn: Military Government Section

1. Reference is made to Paragraph 2f, Operational Directive 21, Headquarters Eighth Army, 30 March 1948.

2. There is a hydraulic press dispersed during wartime to Taiyo Aluminum Co., Shizuoka-shi from Fuji Sangyo KK, Handa Plant, Aichi Prefecture which qualifies for release under reference 1 above.

3. This Headquarters has taken no action inasmuch as the machine has an Aichi Prefecture inventory number and its presence in this prefecture was never reported by Aichi Military Government Team to this Headquarters.

4. Inasmuch as the local company has no use for this machine the matter was reported last year by telephone to Aichi Military Government Team.

5. As of this date neither the Japanese prefectural authorities nor the local company have any information as to release of the machine or whether it was evaluated with the Handa Plant inventory.

AG 387.6 (31 Mar 49)CPC/RP 2d Ind

GENERAL HEADQUARTERS, SUPREME COMMANDER FOR THE ALLIED POWERS, APO 500, 16 May 1949

TO: Commanding General, Eighth Army, APO 343

1. Authority already exists by technical letter, Civil Property Custodian, General Headquarters, Supreme Commander for the Allied Powers, to Chief, Military Government Section, Eighth Army, 10 January 1949, subject, "Proposed Revision of GO 21," enabling the Local Military Government to keep this pump in operation so long as it is not allocated. It appears that when all reparations items in the plant are allocated and shipped, the pump will no longer be necessary. Hence, it is believed that authorized use is not necessary in this case. The Plant evaulation report is not being changed to show authorized use.

2. If other factors exist which would indicate authorized use is necessary, a new request would be in order.

SUBJECT: "Request to Evaluate Released Small Craft"

TO: Commanding General
Eighth Army
APO 343
ATTN: Military Government Section

1. Reference is made to letter, Headquarters Shizuoka Military Government Team, 22 December 1947, Subject: "Former Military Small Craft Released to Home Ministry".

2. The local office of the Nagoya Financial Bureau advises that they have been instructed to evaluate two (2) craft that were released as of October 1947, which were formerly operated by the Acoustic Ordnance Technical Research Institute (# 37-24).

3. Instructions to evaluate are stated to be given in letter CNFE 041/L 11-3 from Commander Naval Forces Far East to the Construction Board.

4. The releases were No.3 and No.5 of the 149 receipts inclosed in reference letter paragraph 1 above.

5. It is the opinion of this Headquarters that these craft are not subject to evaluation as they were never on reparations inventory (paragraph 8 Operational Directive 21/1 Headquarters Eighth Army, 1 March 1949).

6. These craft are now operated by the companies from whom they were taken during the war. They had been returned to the former owners prior to issuance of Operational Directive 5/11 Headquarters Eighth Army, 29 July 1947, which applied only to arsenals, but were not properly released until the exchange of receipts forwarded in reference letter paragraph 1 above.

3 March 1949

SUBJECT: "Guarding of Reparations Installation (Nippon Hassoden KK, Shimizu Thermal Power Plant, Inventory No. 37-36)"

TO: Commanding General
Eighth Army
APO 343
Attn: Military Government Section

1. Reference is made to letter this Headquarters, 18 February 1949, Subject: "Theft of Installed Equipment at Reparations Installation (Nippon Hassoden KK, Shimizu Power Plant, Miho, Shimizu-shi, Inventory No. 37-36)".

2. Although the Reparations Section of the Prefectural Government reported that there had been no laxity in guarding of subject installation, this Headquarters suggested that discharge of the guards and the hiring of new men would appear advisable.

3. There has been little theft of reparations equipment to date in this prefecture, but in previous incidents guards have been replaced. In the present case the equipment was installed, not stored, and too bulky to have been removed without notice.

4. Of the stolen equipment (6 motors), five motors have been recovered. To date police investigation has revealed no collusion on the part of the guards.

5. It is felt that if no action is taken in regard to the guards who were responsible for the equipment a precedent prejudicial to the protection of reparations equipment will be established.

6. The prefectural Reparations Section advises that the guards cannot be discharged since they have become members of the Nippon Hassoden labor union and that the union contract permits reprimand, but not discharge in this instance.

57

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

BASIC: Ltr, Shizuoka Mil Gov't Team, APO 1007, 3 March 1949, Subj: "Guarding of Reparations Installation (Nippon Hassoden KK, Shimizu Thermal Power Plant, Inventory No. 37-36)."

7. This Headquarters has not yet ordered discharge of the guards, awaiting outcome of the police investigation. In event criminal connection on the part of the guards were revealed, action would be taken automatically. It is felt however that labor-contracts should not have precedence over reparations responsibility and that the present situation should be avoided in any and all reparation installations.

8. Due to the possibility of provoking a labor disturbance in event this Headquarters should request removal of the guards and hiring new men further action is withheld pending your instructions.

SUBJECT: "Theft of Installed Equipment at Reparations Installation (Nippon Hassoden KK, Shimizu Power Plant, Miho, Shimizu-shi, Inventory No. 37-36)"

TO: Commanding General
Eighth Army
APO 343
Attn: Military Government Section

1. Six 1/4 H.P. DC motors, accessory equipment to pulverizer, inventory number P1 thru P4, and installed on the 3rd level of subject plant were stolen sometime between 24 January and 1 February.

2. The equipment was last used on 24 January and the theft was not discovered until operation of the pulverizer was again required on 1 February.

3. The police have not as yet located the motors, but investigation is continuing and description of the stolen equipment has been circularized.

4. The Reparations Section of the Prefectural Government believes there has been no laxity in guarding but the following measures are to be taken to prevent further thefts:

a. Increase guards to provide stations both inside the plant and in the yard,

b. Repair of locks and doors,

c. Small motors to have bolts welded,

TO: Commanding General
Eighth Army
APO 343
Attn: Military Government Section

1. A portion of the yard conveyor equipment of subject plant was damaged during a fire which occurred on 5 February at the adjacent Kanazashi Shipbuilding Company.

2. Damage was confined to a part of the conveyor running from unloading pier to the coalyard of the power plant. Damage to this equipment was as follows:

a. conveyor frame 30 meters damaged

b. conveyor belt 120 meters burned

c. carrier 25 meters damaged

3. Total damage is estimated at ¥ 1,083,400. It is stated that 2 months will be required to obtain required materials for repair and 1 month to make repairs. Completion is expected by the 1st of May 1949.

C-O-P-Y

NIPPON HASSODEN KK, SHIMIZU POWER PLANT
Kaijima, Miho, Shimizu-shi, Shizuoka-ken

January 26, 1949.

SUBJECT: Application for Permission to Remove Equipment from Shimizu Power Plant for Repair.

TO : Commanding Officer,
Shizuoka Military Government Team

THRU : Reparations Section,
Shizuoka Prefectural Government.

(1) Name of Equipment to be Removed:

Exciter, shaft and pedestal of 30,000 KW generator

1 set

(2) Inventory No. of Equipment to be Removed:

GEN. No.3

(3) Reason for Removal:

This equipment had a tendency ever since its installation to produce vibration when the revolution exceeded the rated r.p.m. of 3,600. For the purpose of repairing, we made a trial run on January 21, 1949 in the presence of the makers (for turbine from Ishikawashima Shibaura Turbine Co.; for generator from Shibaura Electric Co.). In the trial run, an excessive vibration started near 3,850 r.p.m. and considerab heat was generated at the contact point of the shaft and the bearing. There is also a possibility of the shaft curving. As the generator cannot be operated under the present condition we wish to repair it promptly.

(4) Name and Location of Repair Plant:

Tokyo Shibaura Denki KK, Tsurumi Kojo.
Tsurumi-ku, Yokohama-shi.

(5) Date of Removal:

January 28, 1949. (planned)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(6) Period Required for Completion of Repair:

(a) If shaft is to be repaired: 2 months

(b) If necessary to make a new shaft 4 months

SUBJECT: Concentration of Base Metals Impounded under SCAPIN 1878

TO: Commanding Officer
Shizuoka Military Government Team
APO 1007

1. References:

a. Memorandum for the Japanese Government, from General Headquarters, Supreme Commander for the Allied Powers, AG 410.2 (7 Apr 48) CPC/LGP, SCAPIN 1878/3, 23 October 1948, subject: "Concentration of Base Metals Impounded under SCAPIN 1878," attached hereto as inclosure 1.

b. Letter from General Headquarters, Supreme Commander for the Allied Powers, AG 410.2 (7 Apr 48) CPC/LGP, 23 October 1948, subject: "Surveillance of Concentration of Base Metals," attached hereto as inclosure 2.

c. Letter from General Headquarters, Supreme Commander for the Allied Powers, AG 410.2 (7 Apr 48) CPC/PLD, 20 December 1948, subject: "Surveillance of Concentration of Base Metals," attached hereto as inclosure 3.

2. Your attention is invited to paragraph 2 of reference 1c above which extends the date of completion of concentration and storage of base metals impounded under SCAPIN 1878 to 15 March 1949.

3. The Japanese Government has been directed by General Headquarters, Supreme Commander for the Allied Powers, to make a physical inventory of looted property previously reported under SCAPIN 1878 and to affix CPC inventory numbers to individual ingots or lots of base metals. Upon completion of the above inventory, Form L-3 (authorization from General Headquarters, Supreme Commander for the Allied Powers to the Japanese Government for movement of looted property) will be issued by General Headquarters, Supreme Commander for the Allied Powers authorizing the movement of subject property. Copies of form L-3 will be furnished this headquarters for transmittal to the military government teams concerned through channels.

AGMGEM 386.3

SUBJECT: Maintenance of Recently Evaluated Machinery

TO : Commanding Officer
Shizuoka Military Government Team
APO 1007

1. References:

a. Paragraphs 2 and 3 of SCAPIN 1219.

b. Operational Directive 21, this headquarters, 30 March 1948.

c. Letter this headquarters, file AG 386.3(MG-Em) subject: "Maintenance and Disposition of Reparation Machines and Equipment", dated 30 June 1947.

2. Reference 1a places the responsibility on the Japanese Government for the preservation and care of all plants listed for reparations. This preservation extends to the servicing and repair of machinery, equipment and accessories, including auxiliary equipment of the entire plant regardless of inventories or evaluations.

3. Those items of equipment picked up and evaluated are to receive the same maintenance and preservation as is given to similarly classified items that were inventoried heretofore. It is not intended that salvage, scrap or third class machines be reconditioned, even though included in the evaluation of the facility. However, it has been noted in many instances that items which have been considered as scrap, actually have potential value as items of equipment, and consequently should not be considered as scrap and should receive a degree of maintenance comparable to class 3 equipment. Actual scrap, even though evaluated, may be released as raw material, provided it is determined that it will be used as such, and not reconstituted into a usable machine.

10 NOV 1948

SUBJECT: Requests for Releases of Former Military Installations

TO: Commanding Officer
Shizuoka Military Government Team
APO 1007

1. It has come to the attention of this headquarters that the Japanese have been practicing the requesting of partial releases of Former Military Installations in such a way as to render surrounding portions useless for other purposes, particularly use thereof by Occupation Forces. An example of this procedure is to request the center of a large area, showing only that area desired. This practice misleads the Occupation Forces into believing the area shown is the entire area. At a later date, another portion is requested for release under the guise of a separate installation. This piecemeal acquisition of real estate has been confusing and misleading and has, in some instances, worked to the disadvantage of the Occupation Forces.

2. It is requested that all future requests for releases of former enemy installations submitted be accompanied by sketches of the entire installation indicating whether ar not parts thereof have been previously released.

3. It is further requested that released portions be identified with date of release indicated on the face of the sketch, showing buildings by number and construction.

4. It is also requested that requests for releases be carefully screened by Military Government Units to determine the purpose for which release is requested and the integrity of the persons to whom release is to be made. This procedure will preclude embarrassment to the Occupation Forces.

SUBJECT: "Japanese Iron and Steel Scrap Survey"

TO: Commanding General
Headquarters Eighth Army
APO 343
Attn: Military Government Section

1. Reference is made to Operational Directive 39 Headquarters Eighth Army 24 June 1948.

2. Forwarded herewith in compliance with paragraph 5c of above reference is report of subject survey.

3. Contrary to the plan outlined in paragraphs 2 and 3 of above reference the survey was made by members of the local branch of the Nagoya Bureau of Commerce and Industry. A survey was made of the stocks of iron and steel scrap of sixty two plants designated by the Nagoya Bureau where stocks were assumed to be on hand. The report submitted consists of fifty sheets giving the scrap stocks on hand in forty nine plants.

4. Locations spot checked by this Headquarters appeared to be in agreement with the report submitted. The reports were also cross checked with the Excess Critical Materials (Operational Directive #27) inventories without developing information of value as the lapse of time (April-June) and subsequent utilization and additions to stocks has developed differences between the inventories.

5. The forty nine installations reported by the local branch of the Commerce and Industry Bureau indicate total stocks as follows:

a. Scrap iron 4,065.3 tons

b. Scrap steel 14,748.45 tons

#17
