Large Number of Ballots Is Anticipated

Voting Comes After an Energetic Campaign

Cranbrook, Aug. 15.—Voting in the Cranbrook provincial by-election, following an energetic campaign by both the political parties, opened to-day throughout the riding...

Interest in the campaign was kept at fever heat during the past week and to-day the people are recording their verdict.

It is anticipated the result will be close. Every effort is being made to get a record number of voters to the polls.

John Taylor is the Liberal candidate and N. Wallinger the Conservative candidate.

HARDING WILL LAY STRIKE FACTS BEFORE CONGRESS

Will Give Americans Railroad Information

Confers With Members of His Cabinet

Washington, Aug. 15.—President Harding will place the rail strike situation before Congress, and before the country, within forty-eight hours, it was officially announced to-day at the White House.

The announcement came after the President had conferred on the strike situation with his Cabinet and with leaders in Congress and after railroad union labor organizations had made public their rejection of the President's last settlement proposal...

The administration spokesman who made known the President's purpose declared there was "no ground for the executive to stand upon in advancing any further proposition" for settlement of the railroad strike other than those which have already been laid before the managements and representatives of the workmen now striking.

The impression prevailed among the President's advisers that he would in his statement to Congress and through Congress to the country make no suggestions as to legislation, but the administration spokesman said that much depended upon the events that occur within the brief time before he speaks.

Washington, Aug. 15.—President Harding, having abandoned all efforts at mediation of the rail strike, was declared to-day by his advisers to have virtually decided to inform the railroad executives of the country that in the operation of trains, they will be given the full protection and aid of the Government.

The President, it was stated, determined that the only course the Government could now pursue was the path it followed in the coal strike—extension of an invitation to the employers to operate the railroads, which the Federal Government, with the co-operation of the states, stand behind them in their efforts so far as they are directed to the serving of the public.

Efforts Made... Washington, Aug. 15.—Leaders of the railroad labor organizations to-day made public their rejection of President Harding's final offer of settlement of the nation-wide strike of shophmen, but declared that attempts to mediate the difficulty by direct dealings between railroad executives and heads of the four brotherhoods were still in progress.

FIRE CHIEFS MEET IN SAN FRANCISCO... San Francisco, Aug. 15.—Possible development of fire fighting from the air by means of gas from airships is one of the new angles of the work to be taken up at the convention of the International Association of Fire Chiefs, which opened a six-day session here this morning, attended by 600 delegates.

ST. BONIFACE DISMISSES ALL ITS EMPLOYEES

Auditors Found Manitoba City's Books in Chaos

Accounts Call for Year's Steady Work by Expert

Winnipeg, Aug. 15.—All permanent civic employees of St. Boniface, a city of about 14,000 people, just across the river from here, are to be served with notices that three months from the end of August their services will no longer be required.

This measure was adopted by the City Council last night after startling revelations had been made in an interim report by J. D. Reid and Company, special auditors, who had been instructed to make a thorough investigation of all the city's books and accounts.

Every possible error and omission had been made in the books, Mr. Reid reported. In fact, they were in such a condition that the auditors were practically unable to obtain any of the information they required.

The work of bringing the books and accounts entirely up to date, said Mr. Reid, would require an expert possibly a year's time.

LLOYD GEORGE CRITICIZED FOR HIS MEMOIRS

Objections to His Writing While in Office

Manchester Guardian's and Westminster Gazette's Views

London, Aug. 15.—(Canadian Press Cable)—The announcement that Premier Lloyd George is writing his memoirs is generally expected to be met with a certain amount of criticism which is by no means favorable.

The Manchester Guardian and the Westminster Gazette are among the newspapers which are expressing their objections to his writing his memoirs while in office.

The Gazette wonders whether Premier Lloyd George can write really frank memoirs not involving some of his "fellow intriguers in the cabal which produced the coalition."

The Manchester Guardian says such reports are a common trust, and that Lloyd George's high post carries with it tradition and dignity and discretion.

DEATH LIST OF RALEIGH TEN... Members of Crew Missing Since Cruiser Wrecked

Canadian Railways Enforce Wage Cut For Shop Employees

Montreal, Aug. 15.—Canadian railways to-day cut \$200,000 from their semi-monthly wage bill to their shop employees, despite the overwhelming strike ballot which the union leaders hold in their hands.

About 37,000 men are employed from coast to coast. In the face of the cut and owing to the refusal of the railway executives to recede from their position that they may enforce the pay reduction pending the award of the board of conciliation, the board, after a brief session this morning, adjourned to permit the railways to forward their reply to Premier King's letter of yesterday.

The letter in question points out to the Canadian National Railways, the Grand Trunk and the Canadian Pacific Railway, that the Premier endorses the opinion of the Department of Labor and Justice, which is that the companies must re-establish the old wage scale and defer making any reduction until the conciliation board has made its award.

Many Telegrams... Little optimism prevails in the ranks of the labor representatives on the question of the contents of the railways' reply. A repeated negative is generally expected. What the effect of this will be is being widely conjectured and union chiefs point grimly to the sheaf of telegrams which have been pouring into the board's headquarters urging strike action to force the companies to bow to the Government's decision.

CONCERN FELT IN OTTAWA CIRCLES... Ottawa, Aug. 15.—(Canadian Press)—There is anxiety again in official circles here over the outlook in the coal mine troubles in Nova Scotia, and over the hitch in the hearings of the board of conciliation in the railway shophmen's case.

Both these difficulties will be settled, but the present developments are being watched with concern. Advice received here from Nova Scotia confirm the press reports that the miners have gone out in almost all of the mines. It is believed, however, that work will be continued at Inverness and at other mines not connected with the British Empire Steel Corporation.

MINERS OF SOFT COAL TO RETURN TO THEIR WORK... Agreement in S. to Last Till April 1

Fact-finding Commission to Be Named... Cleveland, Aug. 15.—An agreement ending the soft coal strike that has been in effect since April 1 last was unanimously approved by operators and miners in a joint conference here at 3:10 p. m. to-day.

At Same Scale... The settlement provides that the miners shall be returned to work at the same scale of wages that were in effect when they went on strike, and the new contract is to continue in force until next April 1.

THIEF TOOK SEATTLE POLICE CHIEF'S AUTO... Seattle, Aug. 15.—An auto thief stole the official automobile of Chief of Police W. D. Seawright while the chief and his family were taking in a picture show last night.

12,000 Coal Miners In Nova Scotia Are On Strike To-day

Sudden Stoppage of Work Causes Officials of Companies to Go Into Pits and Keep Pumps and Safety Equipment In Operation.

Sydney, N.S., Aug. 15.—With practically 100 per cent. of the union mine workers' membership of Nova Scotia on strike since last midnight, involving nearly 12,000 workers on Cape Breton Island and the mainland, the coal situation in this province has reached an extraordinary crisis.

At Spring Hill and Joggins, with conditions little better in the New Glasgow area, Mine officials have not so far offered any ray of hope that the strike will be of short duration with the exception of the operators of the Fundy mine at Joggins, who at a meeting last night agreed to restore the 1921 rate of pay.

Officials of the British Empire Steel Corporation express astonishment at the unexpected action of the men and declare they will put forth every effort to safeguard the mines.

Decided at Meeting... Amherst, N. S., Aug. 15.—In accordance with the decision reached by the miners last night at a mass meeting, the management of the Maritime Coal, Railway and Power Company was informed at 9:30 p. m. that unless the 1921 rate of pay was granted the mine would quit.

PREMIER DRURY'S POLITICAL PLANS CREATE INTEREST... May Try to Form Ontario Progressive Party

Rowell Mentioned for Ministry of Justice... Toronto, Aug. 15.—Premier E. C. Drury has apparently at last definitely decided to drop the distinctive farmer character of the political movement which placed him in power in Ontario and form a third party—a Progressive Party along the lines of the two old parties, with town and city people taking a definite part.

AGREE OTTAWA SHOULD CARE FOR SOLDIERS
Cities Think Federal Government Should Aid Jobless Returned Men
The cities and towns of Canada generally are agreed that the Federal Government should shoulder the burden of supporting unemployed returned soldiers next winter, according to Alderman E. S. Woodward who, with Alderman Reginald Hayward, represented Victoria at the recent Calgary unemployment conference at the Winnipeg convention of the Union of Canadian Municipalities.
"After a hard fight we managed to get our attitude on the unemployment problem pretty well adopted—although we had to threaten to withdraw from both conferences to do it," Alderman Woodward said this morning when he returned to the City Hall from the Prairies. "At first the Prairie cities held out for the dolic system and, in fact, our fight against it seemed to have failed." Finally, however, when we threatened to withdraw from the conference if the dolic system were upheld, the conference passed a general sort of resolution in which it endorsed our general attitude in favor of greater government aid in public works carried out by municipalities to relieve unemployment. The Calgary conference also endorsed our contention that the Federal Government should bear the cost of supporting jobless returned soldiers.

OBITUARY RECORD
The funeral of the late Mrs. Robert Sherratt, of Seattle, a former resident of this city, was held on Monday afternoon from McCall Bros. (Chapel to Oaklands) Gospel Hall, where services, conducted by Mr. O'Brien, of Seattle, were held at 2.30 o'clock. The large attendance of friends at the services and the many beautiful floral tributes showed the esteem in which Mrs. Sherratt was held. The remains were laid to rest at Ross Bay Cemetery. The bearers were D. McKerracher, P. Smart, E. Vaio, A. Inrig, H. Hitchman and G. Stewart.

All Trains Full Up For Prairies To-night, Workers Are Scarce
Rush of unemployed men out of Vancouver to work in the prairie harvest fields is so great to-day that the number shipped from Victoria this afternoon by the Government labor bureau had to be cut down to 50, H. Crisford, superintendent at the Government employment office, announced this afternoon.

Three trains loaded to the doors with harvesters are going out of Vancouver to-night on the C. P. R. alone. Trains went out last night over the C. P. R. and C. N. R. and another series this morning. Yesterday 220 men were shipped out of Victoria. Beginning to-morrow men will be shipped east from Victoria as fast as they can be enlisted here, now that the preliminary big rush from Vancouver city is over.

COW COMMITS SUICIDE
Disappointed in her affections, or otherwise tired of this existence, a young heifer belonging to N. Sheppard, 1278 King's Road, was found by a passerby on King's Road at 6 o'clock last night hanging by the neck, quite dead. The cow, stated on a portion of rocky ground, became restless and tramped around until its tether had shortened by degrees until the shortening extended to the life of the animal. The police were notified, and in turn found the owner, who was asked to remove the body of the suicide.

BOOST FARM OUTPUT; ELECTION DAY; ANTIPODES LOOKS TO GOVERNMENT CONTROL; POWDER GRANTS

DANCE CLUBS IN NEW YORK MUST CLOSE AT 1 A.M.
New York, Aug. 15.—Broadway's glittering lights and its midnight dance clubs both went out together at one o'clock this morning when the police quietly but firmly stopped all dancing and cabarets at that hour. The recent gangster battle outside the club had been announced, received and killed and a cabaret proprietor held, was given as the cause for the order. The police edict spread consternation among the night moths who formerly fluttered to the tune of jazz orchestras until daylight. The police announced that one o'clock closing hereafter would be strictly enforced.

Active Industries.
Her situation then would be better than that of the victorious Allies, since she would have only a small foreign debt and her industry would be in full activity. Thus she would resume in Europe and the world at the expense of the Allies the economic hegemony wrested from her by the four years of war. The French delegation wished to oppose an equitable and rational programme to this German scheme.

PRISONER SWALLOWS OPEN SAFETY PIN
Montreal, Aug. 15.—Safety pins as the path to mortal extinction have twice been resorted to by Adrian Payner, 24, a prisoner in Bordeaux Jail, who is waiting trial on a charge of theft.
Two years ago, while held, he swallowed a safety pin in an effort to end his life.
Yesterday stewards found him in distress in his cell, the result of having repeated his attempt to dispose of himself by partaking of an opened safety pin.
The pin has not yet been found, but the prison surgeon does not think he is in a serious condition.

WELSH MINES TO SHIP COAL TO TORONTO
Toronto, Aug. 15.—Mayor Maguire yesterday received a cable from Wales accepting the city's order for 5,000 tons of anthracite coal, with the advice that it will be shipped at the earliest possible date. Acceptance of another 5,000 order placed on Saturday is expected.

Fuel Factors and Facts—

THE average motorist cares little or nothing for the *factors* that govern the qualities of a good gasoline. He is not interested in the scientific niceties of petroleum refining or laboratory tests.

It is the business of the refiners to determine which factors contribute to the efficiency of gasoline and to be governed accordingly in the processes of its manufacture.

What the motorist *is* interested in is the number of miles he can get out of a gallon of "gas" and the way his engine performs. These are *facts* which he can verify himself.

In other words, a gasoline that starts easily, "picks up" quickly, burns clean and delivers full power at every stroke, is an efficient and economical motor fuel.

These are the qualities the motorist has a right to demand in the gasoline he buys and because the factors that govern them are too scientific and and too complex to test at time of purchase, he relies upon the name, the reliability and the reputation of the maker.

You get all of these qualities in the fullest measure in every gallon of Imperial Premier Gasoline you buy.

A visit to the Ioco refinery where Imperial Premier Gasoline is made, would convince the motorist of the folly of "experimenting" with unknown gasolines made in foreign countries when the most dependable and most powerful gasoline on the market is made right here in his own province by his own fellow citizens.

He would see at Ioco, Imperial Oil tankers unloading high-grade Peruvian crudes which are especially rich in gasoline content; he would see the most modern equipment and expert process-workers putting those crudes through the latest processes known to the science of refining; he would see chemists rigidly testing each batch before it leaves the refinery and he would see that gasoline loaded and shipped to every point in British Columbia--every gallon of it up to the same uniform standard of purity and high quality.

The motorist who adjusts his carburetor to the proper mixture, who uses Imperial Premier Gasoline exclusively and checks up on the results, will be agreeably surprised at the marked increase in mileage and the decrease in motoring costs per mile.

TARIFF AGREEMENT IS ABOLISHED

New Zealand Gives South Africa Preferential Rate
Up-to-Date Cruiser New Zealand Flagship

(Times Correspondence).
Wellington, Aug. 14.—New Zealand has formally abolished the tariff agreement existing between her and South Africa. This agreement was entered into after the formation of the Union of South Africa and it provided for the entry into New Zealand of South African products, mainly wine and tobacco, at reduced rates of duty.
The trade thus fostered did not amount to a great deal, not more than \$500,000 yearly between the two countries; and it irritated Australia because Australian wines were placed at a disadvantage as compared with South African. New Zealand, since she decided to make a new departure and conclude a reciprocity agreement with Australia, found that she had to sacrifice the South African agreement. But in place of it she has accorded the British preferential rate to South Africa.

New Cruiser.
Next year the New Zealand navy will be the most up-to-date, with the exception of the Australian, of the Dominion navies. A new cruiser to replace the Chatham will be procured and made the flagship of the fleet.

The Chatham is a light cruiser which did good service during the war. She is obsolescent, however, and the intention is to get another from the Admiralty of the very latest design and higher speed.

Meat.
Armour & Company, of Chicago, after a dispute lasting many years with the New Zealand Government, are now, at last, allowed to export meat from New Zealand. But the terms of export are such that victory rests with the Government.

Because of the revelations before the United States Congress showing the operations of the meat trust in that country the New Zealand Government refused Armour's for years an export license and the company was obliged to operate in conjunction with other firms and not directly. Then the Government established a Meat Producers' Board, giving it power over all meat exports from the Dominion, and allowed Armour, though unlicensed, to export meat from New Zealand on exactly the same terms as every other meat-exporting firm. At the same time the Government retains the right to bring Armour's to book if it exceeds the rules laid down by the Meat Producers' Board.

Armour's are now building up a large export business to the United States.

Earthquake changes.
Earthquakes, so numerous of late in the North Island of New Zealand, have tilted the beach along the shores of the great inland lake of Taupo, the centre of the thermal region. Seismologists who have been investigating have found not only many fractures in the earth, but in some places the beaches have been tilted up so as to give a totally new shore line to the lake.

Danger from the earthquakes, however, is now said to be altogether past. The recent tremors have tilted out the earth's crust and given it room to readjust itself.

Steered For Light.
"Steer for the light," said the captain of the steamer Rona, a New Zealand ship returning from Fiji with a cargo of sugar for the New Zealand refinery. The officer on deck nodded and the captain went below. Half an hour later he was thrown out of his bunk and the ship grounded with a terrific crash.
On deck he found the officer in a bewildered state. He explained that he could not make it out as he thought he was a mile from the light whereas he was only 200 feet. The night was clear and the sea perfectly calm.

At the marine inquiry Captain Wallis said he had always steered directly for the light when coming down the coast to Auckland harbor, and other sea captains confirmed him in this practice. The first officer, Grantly, said that evidently he had been more or less hypnotized by the light, because when the ship struck the ledge of rock on which the light was he thought she was a mile off it, and he had just given instructions to alter her course so as to pass the light in safety. The ship was hauled off after the cargo was lightered. The damage was considerable.

The court found the captain blameless and recommended him not in future to follow the practice of steering for a light. The mate was found guilty of an error of judgment.

OVER \$3,000,000 FROM RACETRACKS
Tax During 1922 Swells Revenue of Ontario
Toronto, Aug. 15.—If Hon. W. E. Raney's estimate of the probable Ontario revenue from the five per cent. racetrack tax is correct, the Provincial Treasurer's task of finding a surplus for the current financial year should be somewhat easier than it was last year.
"The amount wagered last year was upwards of \$55,000,000, and the amount that will come from this taxation this year will, it is estimated, amount to upwards of \$2,500,000, so that the total revenue which will be derived by the province from racetrack tax during 1922 will be somewhere between \$2,000,000 and \$4,000,000," he said.

GENOA WORKERS JOIN FASCISTI IN LARGE NUMBERS
Genoa, Aug. 15.—Twelve thousand workers of the port of Genoa have joined the Fascisti co-operative organization in the last few days. At Sarzana, near here, 2,000 more workers also have asked to be admitted. There is still considerable unrest.

GRAIN AND FRUIT CROP REPORTS

Dry Period in B.C.: Favorable Conditions on Prairies
Winnipeg, Aug. 15.—(Canadian Press)—For crops not yet matured the weather during the past week has been favorable, states the weekly crop report issued by the Agricultural Department of the Canadian Pacific Railway to-day. The bright warm weather was needed to enable the ripening of the later grains and to permit continuance of harvesting. Showery weather in Manitoba delayed wheat cutting somewhat, but it is now in full swing. The general situation in this province is good and a better than average crop seems assured.
Cutting will be general in Saskatchewan this week. The past week has been good for late grains, with rain over most of the province. In Alberta conditions again have been improved by rains. They delayed cutting for a day, but it will become general again this week. Conditions in the south continue good. Warm weather and shower are hastening maturity in the north. Feed is short in many northern districts.
Light rains in the Edmonton, Dunvegan and British Columbia districts came too late to benefit crops, but will help feed.
Drought continues over British Columbia, broken only in a few districts, where the moisture will benefit late fruits and vegetables. Cutting of hay and grain has begun, but these crops will not be up to normal and some districts will be forced to import winter feed. Tree fruits on the whole are doing well.

NO NEGOTIATIONS WITH COMMUNISTS
Preliminary Conference of Second Internationale Held in Prague
Prague, Aug. 15.—The preliminary conference of the Second Internationale was held yesterday, presided over by Arthur Henderson, the British Labor Leader. It was decided to postpone the convening of the Second Internationale set for October at Hamburg, but no date was announced.
It was resolved to have no negotiations with the Communist Party. Tom Shaw, Great Britain, was elected international secretary, to succeed Ramsay MacDonald, also of Great Britain, just resigned. Delegates were present from Great Britain, Belgium, Denmark, Sweden, Holland, Germany, Ukraine, Georgia and Czechoslovakia.

COAST-TO-COAST FLIGHT IN U. S.

San Antonio, Texas, Aug. 15.—Not content by his previous unsuccessful attempt to make a one-stop flight from coast to coast, Lieut. James H. Doolittle has been granted permission to make another attempt by the chief of the Air Service at Washington, and will start from Pablo Beach about September 1, when it is expected the plane wrecked in his first attempt at the one-stop flight will be repaired. Exactly the same plans will be followed in the second attempt as the first.

OUR FUTURE.

If Alderman Todd were a man of considerable means he would have no hesitation in purchasing reverted property and holding it as an investment. He advises all those who are in possession of substantial quantities of this world's goods to take his advice and collect their benefits at a later date.

What are the reasons for this optimism? They should be obvious to most people. During the course of the war a large part of the world's natural wealth was destroyed and Continental Europe is on the verge of bankruptcy. It must either sink farther into the economic mire or find new wealth and exploit it.

Vancouver Island is richer in natural resources than Belgium. Belgium's population before the war was only about one million short of that of the whole of the Dominion of Canada or more than sixty times that of this part of it.

When Alderman Todd talks about investing in reverted property he must have in mind the inevitable reaction from the war that cannot in the very nature of things permit such a vast storehouse of natural wealth to remain locked.

Canada is only a healthy industrial youngster in short pants; but British Columbia and Vancouver Island are still in swaddling clothes. Yet this part of the Province has more natural resources than Belgium.

CRANBROOK'S "GREAT" ISSUES.

All dispatches from the Cranbrook riding appear to indicate that the election which is being fought out at the polls to-day has been confined to two lone issues. The Conservatives are especially exercised over the recent dismissal of Mr. Wallinger from the position of Government Agent.

signed statement to the effect that if the Government should fail to provide for a new Courthouse at the next session of the Legislature he will resign. The interested onlooker at this distance will be forced to conclude that if Mr. Wallinger's idea of discharging his duties had not differed from that of the Government he would have been sadly lacking in campaign material.

Taylor have done for an election plank? Little matters such as the financial policy of the Province, public health, education, and so on, seem to have been regarded as altogether too trifling for public discussion.

LIFE SAVERS.

Victoria's bathing beaches should be made reasonably safe for the younger generation to enjoy all the delights of seaside pastime. There are too many fatalities which are largely the result of official indifference and parental carelessness.

HUBBARD'S RECORD.

Although his official duties are discharged under an American contract the people of Victoria regard Mr. "Eddie" Hubbard with feelings as cordial as those which are manifested in his own city across the Sound.

EXPLORING CANADA.

Twenty-five parliamentarians from Great Britain, including representatives from both Commons and Lords, will cross Canada next month with the members of the Montreal Board of Trade.

NOTE AND COMMENT

Premier Briand "fell" after a game of golf at Cannes. Those diplomatic breakfasts in London have certainly given the Entente a severe attack of indigestion.

away the mice will play. Both Commissioners may now consider themselves properly spanked. By the way, what is the matter with Cranbrook that it should require a new Courthouse so urgently? We had every reason to believe that the good people of that community were always particularly careful not to incur the wrath of the law.

Other People's Views

Letters addressed to the Editor and intended for publication must be short and clearly written. The longer an article the shorter it is given. All communications must bear the name and address of the writer, but not for publication unless the writer desires it.

SINGLE TAX.

To the Editor,—It is the misfortune of the single taxer that he is generally referred to in contemptuous terms by its opponents as Henry George's scheme or as a crude or dishonest proposition. The impression on the average mind is, in consequence, that the author of "Progress and Poverty" must have been an uneducated and unscrupulous man.

RE VICTORIA DAY CELEBRATION.

To the Editor,—Upon reading the article in The Colonist, issue of Friday, August 11, regarding the above celebration I was astonished to note at the end of the report that a Mr. W. A. Hurd, representing the Royal Order of Moose, had practically attempted to throw wet blankets on the whole scheme.

HUNGER STRIKE OF COMMUNISTS IN PARIS ENDED

Paris, Aug. 15.—(Canadian Press Cable)—Milk and sugar rations in front of them caused Communist prisoners here to abandon their hunger strike. The prisoners and their friends had been giving the authorities considerable trouble of late and only the other day a party of friends had to be forcibly ejected from the prison.

TELEGRAMS FROM CHIVALRY HAS FLED

Cannot Have Freedom and Old-fashioned Privileges, Lecturer Says

New York, Aug. 15.—Women cannot have freedom, equality of status, and opportunity of self-development with men and at the same time claim from society the right to do to-day, the same kind of privileges that chivalry and good-hearted men used to give to their mothers, sisters and friends when they were absolutely dependent upon them.

Has Increased Divorces

Pointing out that women have only recently had a real freedom of choice in marriage, Mrs. Spencer said that the economic independence of women now gives her the opportunity when a man asks her to marry him, to take into consideration the question whether she likes the man well enough to give up her economic independence for the sake of living with him; and the result is an attempt on the part of some women to do two things at once that are often incompatible.

Go Where Going is Good.

"I always advise women who are clustered together in the towns, from which the eligible men have gone to go themselves to some place where there are a lot of men. There is nothing in the world, nothing about women following the tide of emigration as men follow it, now that they have the chance to do so."

Women were also reminded of their responsibility in setting the standard of living which is theirs more in America than in any other country.

Mrs. Spencer pointed out that before human beings appeared on the earth, it gave itself to the strong and aggressive male elements and by so doing created a masculine type in which these traits predominated.

MR. FOX SETS A TRAP

As Mr. Coon listened to Mr. Fox, his eyes began to twinkle and he black pins, which marked the fur around his eyes made him look very wise as he became interested in what Mr. Fox was telling.

"I should like to fix a trap like that myself," he said. "Would you mind if I did, Mr. Fox?"

"Oh, not at all," said Mr. Fox, beginning to feel all puffed up with pride that he had invented something that Mr. Coon wished to copy. "You come right over and look at it. I expect by this time I have a box full of poultry."

Mr. Coon began to feel a little uneasy. He was not usually so cordial and did not invite his neighbors to dine with him unless he had some reason for doing so which would in some way be a benefit to himself.

"But what harm can come of just looking at Mr. Fox's clever arrangement?" thought Mr. Coon as he walked along. "I won't go near it so it can't harm me."

And so he went, but after Mr. Coon remembered his thoughts and wished he had heeded them, for in spite of all Mr. Fox said to prove he was not guilty Mr. Coon never felt quite sure about it.

When they reached the yard the box was down. "What did I tell you?" said Mr. Fox in a whisper. "Now we will creep up, so as not to scare them any more than we need to. You hold this bag and I will raise the box carefully and we will bag the biggest catch ever made in these woods."

SEPARATION PLAN IS SUSPENDED

Saanich High School Plan Subject of Conference

City Trustees Win Over District Board Against Change

The Saanich School Board last evening abandoned its proposal to initiate High School primary classes at North Dairy School, after a joint session with the Victoria Board had brought out the fact that city accommodations are ample to provide for several years to come, that teachers have been retained in anticipation of seventy new Saanich entrants, and that the cost per pupil for a full curriculum will be lower than Saanich could attain.

Victoria's Position.

Trustees Jay, Mrs. Spofford and C. Sivertz and Municipal Inspector Deane were the Victoria representatives. Chairman Jay explained that all arrangements have been made by Victoria for the reception of Saanich entrance pupils, "not only can we accommodate your pupils for this year, but I can safely say we can accommodate them for the next three or four years," declared Mr. Jay, after asserting that time tables have been prepared on the basis of inclusion of seventy Saanich pupils and loss of these would mean two teachers too many had been engaged by Victoria.

Trustee Jay asked a number of questions as to the scope of the proposed Saanich undertaking, and whether Victoria was expected to accept students taking special courses. He was informed by Chairman Holloway that the plan initiated last week comprised at first an arts course only, but it was intended to gradually develop the scope of the new school.

Trustee Jay pointed out that the High School last year cost Victoria \$54.05 per pupil, and the charge to Saanich was \$54. The year just concluded had worked out at \$56.90, and he suggested that the charge to Saanich would be \$55 yearly per pupil. "That is just one dollar per year of an advance, we would greatly regret to lose these young people," he said in closing.

Proud of Improvement.

Trustee Sivertz passed to the high percentage of passes secured at the recent examinations. "The High School has set a mark a hundred and fifty per cent, above the previous year, and this pass mark should induce you to reconsider your decision," he said.

Mr. Sivertz also asserted that the rate charged Saanich for High School services includes no share of capital and sinking fund charges, amounting to \$54,000 yearly for the whole city school system.

Special Studies Popular.

Municipal Inspector George Deane stated that, as a result of circulars distributed among Saanich pupils studying for entrance to High School, the seventy-one pupils passing expressed course selections as follows: Thirteen arts, with Latin or French; 27 arts, with science; 17 commercial and 14 technical. These circulars had been issued with a view to forehand selection of the teaching staff.

Inspector Deane outlined some of the difficulties to be overcome by a small High School, declaring "the handling by one or two teachers of all classes and studies in such small schools is the most killing job I know of."

He invited the Saanich Trustees to visit the Victoria High School and examine the equipment and facilities, "and compare them with what Saanich would be able to provide."

Mr. Deane stressed the fact that Victoria was able to employ specialists, citing French, mathematics and other courses as examples of the benefits accruing to Saanich pupils by sharing in Victoria's system.

Saanich Trustees.

Trustee Oldfield declared the action of Saanich had been unduly hasty, and he believed Victoria able to handle Saanich students for some years to come.

Chairman Holloway asked if Saanich pupils would not total one-fifth of the attendance. Inspector Deane denied this, expecting an enrollment of 960, with Saanich contributing 140 of this total and available accommodation for 1,250 pupils.

Mr. Deane anticipated that enrollment this year will be lower than last year's total. Chairman Holloway continued: "There are a number of courses optional, if Saanich cut out

commercial and technical courses, he will greatly cut down the cost." He also lightly touched upon the fact that Saanich contributes under the present plan, but had no voice in expenditures authorized.

Municipal Inspector Deane protested against such a cut in courses being considered, as being against the trend of modern education, and limiting the opportunities of the pupils.

A large delegation arriving at this time, H. E. Tanner was invited by Chairman Holloway to speak as a ratepayer, and said he was warmly in favor of continuance of the system hitherto in vogue.

"Transportation does not favor a Saanich high school, the special courses available at Victoria under existing conditions would be almost impossible for Saanich to undertake, and as long as there is room at Victoria, as I believe there is for some years, I fear it will be a mistake to make a change," he said.

Example of Past.

Trustee Hobbs recalled that, some years ago, Saanich pupils were excluded from Quadra Street school without notice and the Board had considered initiating a high school as a forehanded action. Chairman Jay interjected: "The parallel does not exist, Saanich was at that time equipped with graded schools and may rest assured ample notice will be given before Saanich pupils are refused at the High School."

Mr. Tanner remarked the question was one of so great import as to need a vote of the ratepayers, Trustee Hull agreeing "if the joint meeting had last week any mistake it was only in not referring the question to the ratepayers."

Chairman Holloway regretted the absence of Trustee Mrs. Humphries and declared "The crux of the position is this: sometime within the near future someone has to initiate a high school in Saanich, the municipal patty is in a good position at this time, we have two rooms at North Dairy, centrally located as regards more than two-thirds of the pupils seeking high school tuition," he said.

"We could not and would not attempt anything elaborate, but those who anticipate something cheap are mistaken," declared the chairman, touching on the burden taxation has grown in Saanich, largely through school costs. Before retiring Chairman Jay asked for early information as to whether Victoria should accept pupils from Saanich desiring to take special courses.

Ex-Trustee Y. Thorne, in a letter, suggested the ratepayers be asked to support a by-law authorizing conversion of the Health Centre into a High School, as being ideally located for the purpose.

Against Health Centre Plan.

Trustee Hobbs remarked: "As to

this, you may as well disabuse your mind, the Health Centre is doing a very good work as it is." Mr. Thorne retorted: "It is altogether too large for the use to which it is now being put."

"Another suggestion towards economy made by Mr. Thorne was termination of manual training as at present conducted. He declared the lessons to be too infrequent for efficiency, while the institution of a high school would give opportunity for restoration of this instruction and domestic science on a more satisfactory plan at less expense.

The bill for high school tuition, rendered by Victoria for the past year, amounted to \$11,424 for 141 pupils, the estimate provision made being \$11,750, to include the fees for nine pupils attending Oak Bay for whom no account has yet been received. The account from Victoria was ordered paid, although some of the pupils were attending without authority from the Saanich Board, it was said.

Later in the evening the Board resumed discussion of the High School question. Chairman Holloway remarking: "We have already advertised for instructors for our proposed entrance classes."

Would Be Economy.

"It looks to me like an economy to institute these classes," he said, objecting to inclusion by the city of free commercial and technical courses, and the consequent increase of the pro rata per pupil paid by Saanich. "If there are to be free technical classes, they should include agriculture, a well recognized science," he argued.

Trustee Oldfield supported continuance of the arrangement with Victoria. "We couldn't begin to give the courses at the price we now pay. There will be a great big bowl when people find what a restriction the change will cause, accompanied by a greater cost to ratepayers. As business men, we cannot better this offer from Victoria," he said.

Trustee Hull noted: "It would not be a square deal, this year at any rate. The city has engaged the teachers to take care of our pupils."

Chairman Holloway demurred against any idea of greater costs. "Certainly you will have greater costs if you give all the city gives, but that is unnecessary," he said. Chairman Holloway argued that, with a solid council supporting the Board, the opportunity to start should be seized before it passed for ever. "True, there are some things which might be delayed in our venture, but we would have three years to catch up. Look ahead, in a few years the Victoria High School will be packed, and it will be too late to get a by-law en-

dorsed by the ratepayers, sectionalism will keep any proposed site from securing the necessary majority," warned the chairman.

"In view of the fact that Victoria has made arrangements for teachers for the Saanich pupils this year, I move that no action be taken this year to start a Saanich high school," said Trustee Hull after debate, this passing with the addition that the city be asked to continue the existing arrangement.

Trustee Hobbs, voted in the negative.

THE CRUEL AGE.

Miss Marion Maud Matthews said in a lecture in Duluth:

"Children, anyhow, are all alike. Once I stumbled on a little boy sitting on the curbstone crying as if his little heart would break.

"What's the matter, sonny?" I said.

"Mom's gone and drowned all the kittens," he sobbed.

"Oh, he sobbed on, 'and she promised to let me do it!'"

FINDS INTERESTING RELICS IN NORTH

Sir William Schooling Back from Fort St. James

Interesting notes on early days at Fort St. James, and some relics for the Hudson's Bay Company museum at Winnipeg, were secured by Sir William Schooling and C. H. French, manager of the fur department of the company, during their recent visit to Stuart Lake.

Sir William has returned to the Empress Hotel to prosecute his examination of data for the history of the Nechako country with Mr. French. Having the companionship of such a well posted authority as Mr. French the collection of information was considerably simplified, and Sir William told The Times he was able to meet one or two persons associated with the trading post in bygone years who could aid materially to the well-known story of Fort James. He says that some of the old manuscript documents at the fort throw light on forgotten incidents, and that its long record will help the elucidation of information on the northern posts, owing to its far greater relative importance in the early decades of the nineteenth century. The Victoria-Fort St. James association with Sir James Douglas before he came to found this city will be of particular interest. Sir William, while in the district, was initiated into methods of nature trapping which were of considerable interest to him.

At Edmonton Sir William met a number of old timers who told him stories of the Alaskan capital when it was a trading post.

The insistent shrieking of a motor siren in the street below began to penetrate their senses. When it came to Sabre's consciousness he had somehow the feeling that it had been going on a very long time. He jumped to his feet. The siren had the obscene and terrific note of a gigantic hen in delirium. "What the devil's that?"

She received his question with the blank look of one whose mind had no idea of the question's reason. The strangled gurgle and shriek from without informed her in paroxysms of hideous sound. With a motion of her body, as of one shaking off dreams, she threw away the bemusement in which she had sat. She screwed up her face in torture. "Oh, wow! Isn't it too awful! That's 'Tony.' In the car. I told him I'd look in here." She glanced at the clock. "Marko! It's one o'clock. I've been here two mortal hours!"

The gigantic hen screamed in delirious death agony.

"Oh, good heavens, that noise!"

uncommonly pretty eyes went in a quick glance from Nona's face to Sabre's, where they hovered the fraction of a moment, and thence to Lord Tybar's where also they hovered, and smiled.

And Lord Tybar, his small, handsome head slightly on one side, looked from one to another with precisely that mock in his glance that Sabre had noticed, and transiently wondered at, on the day he had met them riding.

"But, Puggo, you don't know Sabre, do you?" Lord Tybar said. "Sabre, this is Mrs. Winifred. A woman of mystery. One mystery is how she ever won Fred and the other why she is called Puggo. There must be something pretty dark in her past to have got her a name like Puggo."

CANADIAN HAD STEAM UP AT HONGKONG TO RUN FROM TYPHOON

The Canadian Pacific liner, Empress of Canada just escaped getting a "kick" from the devastating typhoon which resulted in the death of thousands of lives at Swatow when it swept on toward Hongkong.

We had steam up ready to put out to sea at 10 miles, said Capt. A. J. Halley, commander of the Empress of Canada, which at the time of the typhoon was lying in the Swatow region was lying at Hongkong. The glass was away down when the big C.P.S.S. liner left Hongkong, and the brush of the storm was felt.

RAIL STRIKE IN STATES BENEFIT COASTWISE LINES

Noticeable Increase in Freight Offerings and Improved Passenger Bookings

San Francisco, Aug. 15.—Steamship lines operating in the coastwise trade are beginning to feel the effects of the rail strike. In the last few days there have been noticeable increases in cargo offerings for these vessels.

The tie-up of overland traffic and the uncertainty of rail shipments where tie-ups have been made are diverting quantities of freight to the steamship lines.

NEWS IN BRIEF
St. Jude's Social Guild—A meeting of the executive will be held in the church on Thursday next at 8 p. m.
School Transportation Tenders—The Saanich School Board is about to advertise for tenders for transportation of pupils attending a number of schools. The bids to be in by August 25. The contracts will hold good until next June.
Offers Crushed Rock—The Union Oil Company submitted an offer of a supply of crushed rock to the Esquimalt Council at its meeting last night and the matter was referred to the Board for final consideration in the absence of the engineer.

Wants Trees Cut—A letter was read at last night's meeting of the Esquimalt Council from Arthur Coles asking that the trees between Nicholson and Slikirk Streets be cut down. The matter was referred to the engineer for report.
Community Concert Meeting—The meeting of the Community Concert committee of the Fifth Regiment, O. C. A., which was to have been held at the Armories to-morrow evening, has been postponed until Thursday at 8 o'clock.

Nobody Loved Them—Visions of a city overrun by Tabby, Thomas and other cats, obtruded on the city police to-day with chill suddenness when they were called to the home of a residence to remove four. The visiting felines were removed by the police and taken to the city pound.
Policeman Makes a Find—Patrolling a beat at Bay Street and McRie Avenue in the early hours of the day, Constable Bishop of the city police force found a prime ham. The prize, branded with the Swift trademark, was taken to the station where it now awaits an owner.

Asks Transportation—A deputation of twelve Old West Road residents last night supported H. Thompson in an appeal to the Saanich School Board for motor transportation for their children attending Prospect Lake school. Chairman Holloway and Trustee Oldfield were appointed a committee to investigate.

Gifts to Orphans—Mrs. Cassidy, who had charge of the lunch-counter and home-cooking booth at the carnival at the Armories last week, announces that at the conclusion of the two-day fête the balance of the cakes, sandwiches, etc., were given to the Protestant Orphan Home and the Canadian Legion rooms.

G. W. V. A. Meeting—A meeting of executive of the Great War Veterans' Association will be held in the club, Bastion Street, at 7 o'clock this evening, following which a general meeting of the association will convene commencing at 8 o'clock. At the latter meeting the election of officers will be held and Secretary Jones will report on the plans for the two big excursions which will be held by the American Legion's posts at Seattle and Port Angeles to Victoria, the former on September 3 and the latter on a date yet to be fixed.

Odd Fellows' Excursion—Those who participate in the Odd Fellows' excursion to Seattle on the S. S. Princess Adelaide on September 3 will be able to spend about five hours in the American city. It is reported. A number of interesting events are scheduled to take place in Seattle on the occasion of the visit of the Canadian excursionists and the affair promises to be one of the biggest successes of the season. Great interest is being taken in the excursion, and the committees in charge are preparing a splendid programme of entertainment.

Will Notify Taxpayers—That delinquent taxpayers would be notified that on October 1 the second portion of the 15 per cent. tax penalty would go into effect was decided by the Oak Bay Council in session last night. The second penalty is 10 per cent. thus adding to the 5 per cent. imposed now observed. A local improvement by-law, to pave St. Ann Street, from Cranmore Road to Monterey Crescent, received its final reading last night. A lot on St. David Street is to be sold by the municipality for \$2,000, it was decided.

Church Boys' Gathering—Francis A. Williams, who is managing the junior programme at the international conference of Anglicans and Episcopalians in Seattle, August 20 to September 2, was a visitor in the city yesterday afternoon. Mr. Williams' former home was at Sidney. He is now Junior Work Secretary for the Brotherhood of St. Andrew in the United States, with headquarters at Philadelphia. Mr. Williams stated that a large number of boys of fifteen years and over at the junior convention is assured, while the programme is an exceptionally strong one.

To Attend Sarcee Camp—A detachment of artillery from the 15th Battery, 5th Regiment, under the command of Major Wendell Shaw, will leave on August 18 for a ten days' trip to Sarcee Camp, Alberta. The other officers of the unit are Capt. Aubrey Kent, Lieut. Despecker

WOODWARD WILL ANSWER LEEMING
 Statements About Him False, He Says on Return to the City
 As soon as he got back to the City Hall to-day and learned of Alderman Leeming's recent attack upon him, Woodward announced that he would reply to the Leeming statements at the next meeting of the City Council.
 "I cannot understand the remarks credited to Alderman Leeming," Alderman Woodward said to-day. "The statements reported in the press are, in many cases, absolutely untrue, and how Alderman Leeming could have made them is a complete mystery to me. I never said the things which he has never uttered labor men, as I am said to have done, not to own homes. As a matter of fact, in fighting the improvement tax I was fighting for the home owner of this city, and the rest of the Council knows it. I shall certainly take the first opportunity to reply to Alderman Leeming's statements and set the matter right."

5,000 RATEPAYERS GET SHORT REPORT
 But 3,000 Do Not; May Print More Copies, First Ballots in
 Five thousand copies of Dr. Adam Shortt's report on the city's finances have been sent out to 5,000 ratepayers, but there are still 3,000 more ratepayers who will receive the document unless further arrangements for its distribution are made. Whether additional copies of the report will be printed will depend upon the business men who brought Dr. Shortt here. The City Council will do nothing in the matter, it was said at the City Hall to-day.
 It was learned this morning that the printing firm which printed 5,000 copies of the report had destroyed most of the type used for that purpose, not anticipating that further copies would be required. Thus it will cost a substantial sum to print any more copies of the report.
 First ballots in the city's straw vote on the Shortt report were received at the City Hall yesterday. Two of the three ratepayers who

PARTY FEED SPROAT LAKE BEAR SUGAR
 Vancouver Island Animal Begged For More
 Somewhere in the woods to the north of Sproat Lake is a large black bear which in its younger days has known the sawdust ring. So says the party of local residents who saw it rise to its hind legs and beg. Some time ago D. W. Webster, of Wilson Creek, headed a party on a fishing trip at Sproat Lake. The party one day was out in a small boat, using an Ivinrude engine, when a large black bear was sighted on a point 500 yards away. The party neared the animal, and stopped the engine while 100 yards off, commencing rowing.
 The boat was within twenty feet of the mammoth bear when it was deemed wise to halt. At this time the bear had risen on its hind legs, and was swinging its head from side to side. A lady in the party suggested tempting it with a lump of sugar. This was done, the bear seizing the lump from the surface of the water before it was covered. Peanuts and more sugar followed, all the time the animal exhibiting a friendly interest in his visitors. After taking six pictures the boat was turned about and the party left the scene.
 The bear gazed long after his newly found friends.

EXPECTED FAILURE IN FIELD ROOTS
 But Rain Offsets Total Loss; Enough Feed to Keep Cattle Over Winter
 What was expected to prove a very bad failure in field roots this year, as a result of the long continued dry, has been offset somewhat by the recent rainfall. It is thought that had the rain not come, the root crop would hardly have defrayed expenses of gathering but with the rain it has been estimated that about a 75 per cent. normal crop can be looked for by local growers.
 Despite the fact that the weather was very dry, H. E. Turgoose, manager of the Saanich Fruit Growers' Association, reports a very good season in loganberries which he said "pulled through the dry season remarkably well." The berries, matured to a good size, and were none the worse for the continued drought.
 "Already," he went on to say "a tremendous lot of good has been done the crop by the recent rain. It has converted the crop from a losing proposition," he asserts, "into a paying one," and it is thought that probably the potato yield and in fact all other root vegetables will benefit by the recent rain.
 Very little ground was given to the production of mangels this year while the hay crops is about half of normal. Turgoose, of Saanich, seems to have had about the best crop in hay this year. The grain yield stood out well considering the dry spell, but seemed to stop growing after a certain height. The failure in the hay and grain asserts Mr. Turgoose, is not so much in the dry weather as the temperature. He says he cannot understand the reason grain and hay did not grow in the moist spots. He puts the failure of growth down to recent days has been unusually warm with warm winds blowing, which also proved a detriment to a good crop of wheat and hay.
 He estimated a large enough crop in the Keating district to keep the cattle throughout the winter season with the help of straw. If this fails the foreign market will be resorted to or the old method of turnips and straw. Another rain, stated Mr. Turgoose, and a little more of this kind of weather and the root crop would be pulled out of its present situation and shown to be a payable one.

STEEL PLANT TO GO NEAR COAL FIELDS
 Location on Island a Practical Certainty
 Menzies Leads With Union Bay; Sloan Wants Nanaimo
 Statements attributed to officers of the Coast Range Steel Co. that the \$12,000,000 steel plant which the Imperial, Dominion and Provincial Governments are being asked to jointly finance will be located on the Lower Mainland were contradicted in a statement issued to-day by the Rev. Thomas Menzies, M.P.P. for Comox. In this statement, Mr. Menzies explains that the plant will not be located by officers of the company at all but the agreement with the Government now being negotiated calling for the site to be chosen by expert ironmasters adjacent to one of the coal mining districts, such as Union Bay, Nanaimo or Ladysmith. Mr. Menzies also went on to explain that the arrangement is made along these lines so that if the project goes ahead the best chance of it being an economic and industrial success, and the money which the people will be taxed to provide will be adequately safeguarded.
 Experts who have already reported to the Government advise the locating of the steel plant in the Comox district. The Hon. William Sloan, Minister of Mines, however, wants it located at Nanaimo, claiming that the quality of Nanaimo Coal and the extent of the deposits there will be the best guarantee of the success of the undertaking.

Shawnigan Lake Is Arranging Regatta

J.B.A.A. Will Send Its Best Four-oared Crew to Row Against S.L.A.A. — Varied Programme of Water Events Arranged—Dance in Evening to Wind Up Outing

Shawnigan Lake is preparing for its gala day next Saturday. The many campers in that favorite spot, together with the all year residents, are busy getting the place rigged out in its holiday togs.

The Shawnigan Lake Athletic Association has arranged to hold its annual regatta next Saturday, and George Kingsley, P.N.A. single sculling champion and town-major of Shawnigan, who was in town yesterday, said that the event this year would be the best ever held at Shawnigan. A long varied programme has been arranged, and will no doubt serve as a strong drawing card for the local folk.

Local Oarsmen to Row

The J. B. A. A. will assist the Shawniganers to make the regatta a big success. A number of their oarsmen and supporters will go up the line and try and bring home all the prizes that will be up for competition.

The feature event on the programme will be the senior fours between crews from the J. B. A. and Shawnigan Lake. The boys have not yet picked their crew, but the Shawnigan boat will be stroked by Tom Lamman with E. Luckovich as coxswain. The other crews are No. 2, Eric Ghidola, No. 2 and Jack Yates. The boys will send up their best four men if they are not anxious to see their colors trailing in the water. The regatta will be rowed in laptrazaks, which gives the up-landers an advantage. The boys laptrazaks are much heavier and call for more power. The boys, however, expect to be able to overcome this handicap.

Chance For Everyone

Sculling races for both men and ladies have been arranged, while the folks who possess motorboats will be able to test out their speed. Swimmers will be given a chance to exhibit their speed, while divers will have a chance to thrill the multitude.

The programme will start at 2.30 o'clock. No special train will be run from Victoria but it is expected that large numbers of motor cars will have a chance to thrill the multitude.

A flannel dance will be held in the evening at the Shawnigan Lake Hall. A five-piece orchestra has been engaged to furnish the music. These dances are always a feature of the regatta and George Kingsley says that this one will be no exception to the rule.

The programme for the regatta will be as follows:
Sculling race—Boys, under 15.
Motor launch race.
Senior fours, J. B. A. A. vs. S. L. A. A. (Shawnigan crew): Tom Lamman, coxswain; E. Luckovich, Eric Ghidola and Jack Yates.
Outboard motor race.
Mixed double sculls.
Single scull pleasure boats—Feden Challenge Cup.
Single scull—Boys, under 15.
Mixed double canoe race.
Single canoe—Men's.
Swimming race—Boys, under 50 yards.
Swimming race—Boys, under 15.
Swimming race—Girls, open.
Swimming race—Girls, under 14.

CUBS CAUSE CARDS TO TUMBLE AGAIN

Chicago Takes Third Straight from St. Louis; Pirates Worn Out by Rush

New York, Aug. 14.—The Pittsburgh Pirates, who were the strain of winning 13 straight games, were beaten decisively yesterday by the Phillies, a team they had previously defeated in every game of the season. Jess Winters held the Pirates in check, while his teammates bumped Glasener and Carlson for 13 hits and ten runs.

In the only other game in the majors, the Chicago Cubs, who had the straight from St. Louis 8 to 6, and sent the Cardinals still farther away from the leading Giants.

CHESS TOURNAMENT

London, Aug. 13.—In the eleventh round of the international chess tournament played yesterday, Jose Capablanca, the world's champion, defeated H. E. Atkins, England, in a hard played game which was adjourned and then resumed. Capablanca continues to lead the tournament with 3 1/2 points. A. A. Alchins, Russia, who defeated Morrison of Canada, yesterday, has 3 points, and Dr. M. Vidmark, Jugoslavia, has 2 1/2, with one unfinished game. W. W. Winter, England, in an adjourned game.

CORDOVA BAY TO HOLD REGATTA

Arrangements Are Completed for Very Successful Affair at Beach

Orphans Will Be Guests of Campers; Land and Water Events on Programme

All arrangements have been completed for the Cordova Bay regatta, which is to be held to-morrow afternoon at the popular beach by the Preservation Club, which is an organization of campers which conducts this event annually. The regatta to-morrow will be one of the most successful in the history of the beach. Aquatic and land sports comprise the programme, which is a long one, while the social side of the affair has not been forgotten.

The orphans are to be given a treat again this year and will be taken to the bay in cars, and the campers will see to it that they are given a real holiday. The orphans enjoyed their lives last year.

A total number of twenty-nine events has been drawn up, including land races and novelty events, which will be a feature of the programme, while the 100 yards open event is expected to be an exciting one. The championship of Cordova Bay in the 100 yards dash will draw a big card, while the men's single canoe race 200 yards and return for a medal and cup will prove an exciting item. A men's single dingy race for the Norris Cup and medal is another championship, which will be completed for this event was a popular one last year.

Tea Rooms to Tug

Inter-stroke competition will be in vogue. The Little Arctic has raised a tug-of-war team which will have as its opponent a team representing the Canuck Tea Rooms. High divers will be a feature of the programme, while the 100 yards open event is expected to be an exciting one. The championship of Cordova Bay in the 100 yards dash will draw a big card, while the men's single canoe race 200 yards and return for a medal and cup will prove an exciting item. A men's single dingy race for the Norris Cup and medal is another championship, which will be completed for this event was a popular one last year.

Land Events

1. Boys' and girls' race—5 years and under, 25 yards.
2. Girls' race—10 years and under, 50 yards.
3. Boys' race—10 years and under, 75 yards.
4. Girls' race—14 years and under, 75 yards.
5. Boys' race—14 years and under, 75 yards.
6. 100 yard race (open).
7. Bun eating contest.
8. Tug race—50 yards.

Aquatic Events

Geary Out To Prove Sir Tom Can Win In Breeze As Well As Calm

Los Angeles, Aug. 13.—A series of three races for sloops of the R. Class was begun over an 18-mile course off the breaker at Los Angeles Harbor to-day with the Sir Tom, owned and skippered by Ted Geary, of Seattle; the Lady Gay, of the San Francisco Yacht Club, and several other yachts entered.

The races are an aftermath of the Southern California Yachting Association's recent regatta held at Newport Harbor. At Newport the breeze was so slight that they did not fill the sails of the boats and it was said by some yachtsmen that the California and the Angela, local yachts, would have a better chance for victory over Sir Tom, which won all races for this class at Newport, if a race was held where strong winds prevailed. Ted Geary readily agreed to another series of races and the races of to-day, to-morrow and Thursday, will decide whether Geary's confidence in his ship is justified.

Toronto Paper Questions Time; Calgary Stoutly Defends Time-keepers

Calgary, Alta., Aug. 15.—Strong exception is taken here to the sport comment of a Toronto afternoon paper which questioned the timing by Cyril Coaffee, of Winnipeg, of the world's 100-yard dash record of 9 3/5 seconds in the national track and field championships Saturday. Coaffee created a new Canadian record.

Aided By Breeze

Four of the five officials timed 9 3/5 seconds while the fifth punched the watch just between the 3-5 and 4-5 of a second. Johnston's watch making the sixth, registered 9 3/5. It was not a slow track by any means. A breeze was blowing in the runners' back and the track was in excellent shape for the 100-yards and the 200-yards.

Dominion Rifle Shoot Opens at Ottawa; Several Vancouver Shots Reported

Ottawa, Aug. 13.—The team competition in the Tyro match at the Dominion Rifle Association's annual meet yesterday proved somewhat unfortunate for Alberta shots, who tied the score for first place but were disqualified for having entered a man who was not eligible. This gave first place to the headquarters staff team of Toronto, with the Hamilton cadets getting second money, being only two points behind.

Big Fight Starts

The Macdonough match proved an interesting event, as it pulled out all the senior shots and started the big fight for the grand aggregate. The match resulted in a draw for first place. It was an absolute tie in which the money is divided, but one cup and medal have still to be shot for. The tie was between Pte. W. Irvine of Weston, and Staff Sergeant Paddock, of Toronto, with 96 each.

Major League Moguls in Favor of May 15 As Latest Date for Trades

Chicago, Aug. 13.—Changes in the gates on which major league clubs must cut their rosters to twenty-five players and on which trading and sales of baseball players can be consummated, were given unanimous approval yesterday in an informal discussion at the joint meeting of the National and American leagues before Commissioner K. M. Landis.

Would Also Prevent Wrecking of Clubs in Mid-season; Chance for Recruits

No definite action on these matters, however, was taken yesterday, it being necessary to give thirty days' notice previous to officially voting on the subject, but the unanimous approval of those attending yesterday's session assured the adoption of the changes at the next annual meeting.

Give Recruits a Chance

The changes approved included one by William Zeck, president of the Chicago National League club, who suggested the player limit date be advanced from May 15 to June 15. He believed this would give a ball club more opportunity to try out its recruits before being compelled to cut its roster to the required limit of twenty-five players.

Unexpected Victory of Wood Eliminated French Davis Cup Team — Patterson Wins Four-set Match from Cochet Despite Weak Ankle — Australians Crippled

Longwood Cricket Club, Mass., Aug. 13.—Australia advanced to the final round of the Davis Cup preliminary competition yesterday over the tennis team of France. Pat O'Hara Wood, doughty little player from the "land down under," struggled against an aching shoulder and one set advantage gained by the giant Frenchman, Andre Gobert, who was favored to win, secured the deciding point for his team by winning 2-6, 6-2, 6-1, 6-4. Gerald I. Patterson, Australian captain, was a post-climax match with young Henri Cochet, won another four-set victory, 6-2, 2-6, 6-4, 6-2.

at the Capitol Theatre

Do you take life too seriously? Then go to see Wanda Hawley in "Too Much Wife," her latest picture from Reelart, which opened last night at the Capitol Theatre.

It's a sure cure for blues or brain-ache, this jolly comedy of the wife who insisted upon being too indulgent with her husband. Can you imagine that you married men?

Miss Hawley is quite charming as "Eva," the bride who determines to let her husband do exactly what he chooses—and to do it with him! The way the conscientious little wife spoils her husband's fun by her too constant presence provides a world of fun and results in the husband's adopting a subterfuge which nearly ends disastrously.

Ray Barnes is excellent as the husband. Mr. Barnes has been seen

as Miss Hawley's leading man in several of her previous plays. Whereas Miss Hawley provided the thrills in "Her Face Value," in this picture it is up to Mr. Barnes, and he makes good in a near-drowning scene that will have you out on the edge of your seat. However, the main purpose of the picture is to garner the laughs, and this it does plentifully.

For the supporting cast, Reelart has assembled a group of real comedians. Arthur Hoyt as the hen-pecked husband, Willard Louis as the wary person who has been frequently married, Bertram Johns as the scaly who would like to be, to say nothing of Leigh Wyatt as the stenographer who is determined to be, all have good opportunities of which they take full advantage. Lillian Langdon and John Fox complete the cast.

The story of "Too Much Wife" was provided by Lorna Moon, and directed by George M. Cohan. Thomas N. Heffron is given credit for the excellent direction, and William E. Collins for photography.

DEATH OVERTOOK DOYSTON RESIDENT

(Times Correspondence.)
 Courtenay—Wm. Ferguson, aged 77, a native of Brantford, Ontario, was found dead in his cowshed near Royston on Friday. The body was lying beside the cow, which he had evidently been milking when he was struck down by apoplexy. Medical evidence went to show that death had occurred at least twenty-four hours before the body was found. For the past nine years he had been living alone in his shack near Royston.

A GIFT OF THE GODS.

Bounteous nature has supplied tea for the pleasure and refreshment of mankind. When pure and fresh, it is a most delicious and beneficial drink. In winter, if it is served hot, it is delightfully exhilarating, and in the heat of summer, if iced, there is nothing more refreshing. Unquestionably, the purest and most delicious tea to use is "Salada." Your grocer can supply you. Ask for it to-day.

DAIRY COMMODITIES FEATURE ACROSS LINE. Absolute reversal to the condition in British Columbia is a feature of reports received from the wholesale markets in the Victoria Wharves. It is evident that British Columbia's neighbors realize the effect that a few months of demerol have had on the dairy market, and for this reason are seeing to it that supplies are put in storage. Although quotations in the dairy section of late have been of an upward trend, this will be balanced up later when the market is found to be more active.

START REAL WORK ON SHORTT REPORT

Council Committee to Probe Taxation Proposals; Plan Legislation

Perry and Todd Income Tax Schemes Are Withdrawn by Sponsors

The City Council commenced the work of putting Dr. Adam Shortt's proposals for the reform of Victoria's finances into effect last night with the appointment of a committee which will go thoroughly into the Shortt report, and make recommendations on the suggestions contained in it.

Alderman Perry's resolution, proposing the formation of this committee, was followed by the adoption of the necessity of broadening the basis of taxation in Victoria is frequently urged, and Dr. Shortt has made a number of recommendations upon the subject.

Need Legislation.
"There is little doubt that if we are to put any of Dr. Shortt's proposals into effect we shall require legislation in certain directions," the Alderman Todd asserted. "For that reason the sooner we get down to business on the matter the better. I expect the committee considering the matter could report at the next meeting of the Council."

In view of the decision to appoint this committee to consider the taxation clauses of the Shortt report, Alderman Perry and Alderman Todd withdrew their motions urging the inauguration of an income tax here, and Alderman Perry explained that his scheme for levying an income tax had been endorsed by Dr. Shortt in his report, and therefore would receive consideration with the other clauses of that document.

CUPID SLACK, STORK ACTIVE HERE, NEW STATISTICS SHOWN

Dan Cupid eased up last month after his annual June drive and Victoria had only 33 marriages as compared to 49 the month previously, according to statistics laid before the City Council by City Health Officer Dr. A. G. Price last night.

Marrriages last month thus were at the rate of 10.2 per thousand. There were 36 deaths as compared to 48 in June, but the stork was busy, bringing in 78 new Victorians as compared to 78 in June.

SCHOOL BOARD TO DECIDE ON VOTE ABOUT EDUCATION

Council Asks Trustees to Settle Questionnaire Issue; Parents Oppose It

Whether parents of Victoria school children will vote upon a questionnaire to outline their views on proposed changes in the public school curriculum will depend upon the Victoria School Board. The City Council last night decided to leave the issue to the Trustees to decide.

This decision was reached after a letter had been received from John Dean, head of the committee of business men who brought Dr. Adam Shortt here recently to investigate the City's finances. Mr. Dean enclosed a letter from the Victoria Parent-Teachers' Federation which opposed the submission of the questionnaire proposed by the business men.

REMOVE ROCK FROM ROCK BAY ENTRANCE

Rock at the entrance to Rock Bay will be removed by the Dominion Public Works Department immediately. Authorization for the work has been received by J. P. Forde, District Engineer here, and last night the City Council decided to release the Public Works Department from the cost of any damage that may occur as a result of the removal of the rock to the city's sewer outfall and adjacent concrete culvert work.

MAYOR TO HEAD DELEGATION AT CITIES' PARLEY

Dewar, Gillespie, Pringle and Raymur to Back Him at Municipal Union Convention

Mayor Marchant and Alderman Dewar, Alderman Gillespie, City Solicitor H. S. Pringle and City Controller J. L. Raymur will form Victoria's delegation at the annual convention of the Union of British Columbia Municipalities in Kamloops in October. The Mayor announced to the City Council last night that he had picked those gentlemen to represent the city at the Union's meeting.

During the next few weeks the Council will consider what proposals it will lay before the Union. At the present moment no such proposals have even been thought of, for the Aldermen have been too busy with other things to give any consideration to the matter. Yesterday morning the first meeting of the City Council brought before the Union was considered by the Mayor and Police Commissioner Stenland—the prevention of vice in cities.

ASSESSMENT EQUITY URGED BY ALDERMAN

Alderman A. E. Todd Heard in Address on Shortt Financial Report to Gyro Club

The findings of the Shortt report on Victoria City finances were dealt with at length in an address delivered by Alderman A. E. Todd to the Gyro Club at luncheon yesterday afternoon. On the whole, summarized the speaker, he agreed with Dr. Adam Shortt, but took an exception to Dr. Shortt's statement that the single tax had failed. Only unwise management and ill-fortune had upset the efficacy of the single tax here, stated Alderman Todd.

Blames Public Apathy.
That adverse winds attacking the municipal craft on the ocean of financial doubts had been ably assisted by the indifference of the public, was a contention of the speaker, who complimented the Gyro Club on its progressive civic interest platform. Dr. Shortt's view that one of the primary troubles here had been excessive local improvement taxes was concurred in by the speaker, who dealt at considerable length with the folly of civic irresponsibility in the boom days prior to the war. The speaker declared himself in favor of the assessments were now greatly improved, but not yet equitable, he held.

PROTEST AGAINST CHINESE SCHOOL

New Building Would Ruin Adjoining Property Values, Council Told

Vigorous protest against the City School Board's plan to establish a school for Chinese pupils on city property at the corner of Caledonia Avenue and Cook Street was voiced in a petition laid before the City Council last night by residents of this neighborhood. The petition was signed by about forty people. The petitioners opposed the erection of the proposed Chinese school on the grounds that it would not only be a detriment to our properties, but that we should suffer serious loss in consequence.

TRY TO STAGE RACES WITHOUT BETTING HERE
Efforts are now being made by racing interests to secure permission to stage a three-day race meet without betting at the Victoria Agricultural Association's Fall Fair, it was learned to-day. Application for permission to hold such a meet, however, has not been made to the Oak Bay Council by racing interests immediately, it was understood. Racing men are hopeful that the race meet will be held on the three-day race meet, providing there is no betting in connection with it. Members of the Council approached on the subject, however, have not encouraged this expectation.

ESQUIMALT COUNCIL IN BRIEF SESSION

Prepare for Progressive Programme After Holidays

Intimating that there were possibilities of great industrial development in the Municipality of Esquimalt, Reeve Lockley after last night's brief meeting of the Council expressed the conviction that if advantages were taken of the opportunity confronting the district it would not be long before Esquimalt took its place as one of the most prosperous industrial centres of Vancouver Island.

PUT YOUR FIRES OUT

To Holders of Five Year 5 1/2 per cent Canada's Victory Bonds
Issued in 1917 and Maturing 1st December, 1922.
CONVERSION PROPOSALS
THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5 1/2 per cent interest, payable half yearly, of either of the following classes:
(a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.
(b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.
While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.
This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.
W. S. FIELDING, Minister of Finance.
Dated at Ottawa, 8th August, 1922.
