FRENCH FIND SUPPORT IN BRITISH ITALIAN NOTES TO GERMANY

Point Out Both London and Rome Emphasize Lack of Guarantees in German Proposals; Criticism and Approval of British Note Voiced by London Papers.

Paris, May 14.—Premier Poincare will acknowledge receipt of the Italian and British replies to the German reparations proposals without comment, it was said at the Foreign Office to-day.

There is little disposition in French official circles to discuss these documents, but the expressions thus far heard indicate there is considerable satisfaction that the notes from London and Rome did not vary so radically from the Franco-Belgian standpoint as was thought might be the case from the previous declaration by Lord Curzon, the British Foreign Secretary.

It is pointed out that the writers of both notes dwell upon the lack of guarantees in the German offer, which is regarded in French official quarters as a tacit approval of the Franco-Belgian action in the Ruhr in taking the guarantees which Germany refused to give.

MINE SET OFF IN RUHR CANAL

Germans Failed to Destroy Gates and Drain Canal Floating Mines Are Used to Hamper French

Dusseldorf, May 14.—Floating mines similar to those used by the Germans during the war in the North Sea are being brought into use in the efforts to hinder coal and coke transportation from the Ruhr, it was announced to-day at French headquarters here.

At Ruhrort, one of the largest inland ports in the world, an effort was made to-day to destroy the gates of the canal, which carries the coal to the sea. The mine exploded prematurely, however, and the damage was slight.

Comeray, France, May 14.—France will stay in the Ruhr until she is paid, said Premier Poincare in an address here Sunday. The Premier did not refer to the notes which are being sent the Berlin Government by Great Britain and Italy, but he emphasized his determination to stick firmly to his previously announced policy. The Premier was speaking at the dedication of a monument erected to the memory of 217 men killed in the war, all of whom he had known.

M. Poincare answered the recent suggestion of Mr. Lloyd George, former British Premier, that France was ungrateful to Great Britain whom she again might need. "Certainly I remain eternally grateful to all people who came to our invaded country to support a common cause," said the Premier. "But we say quite openly that the same gratitude is due us by all our companions in arms."

M. Poincare said the dead, of whom the French were the most numerous, had the road of the Germans to Paris.

COURT TO DECIDE A. O'BRIEN CASE

British House of Lords Will Not Consider Irish Deportations

London, May 14.—The House of Lords decided to-day it had no jurisdiction to hear the Government's appeal in the case of Arthur O'Brien, who was deported from England after the March raids as an Irish agitator, and was returned from Ireland last night after a writ of habeas corpus had been granted by the Court of Appeal here.

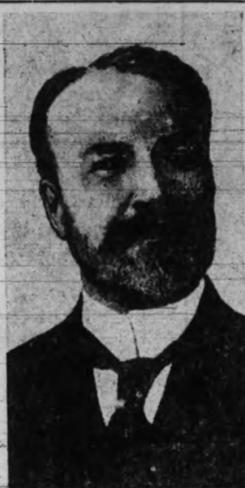

The decision means the case will take its course before the Court of Appeal on Wednesday, when Home Secretary Bridgman, against whom the writ was granted, will produce O'Brien.

The question of O'Brien and the other Irish deportees came up in the House of Commons this afternoon when Ramsey MacDonald, the Labor leader, asked whether the House of Lords had arrived at a decision on the habeas corpus appeal, what the Government proposed doing regarding the deportees, and if it would introduce any bill of indemnity "for the Ministers who had made mistakes."

Stanley Baldwin, Chancellor of the Exchequer, replying for the Government, said the Lords, by a majority, had decided that no appeal lay to them, and that the Government was considering its course of action. It would make an announcement tomorrow, he added.

O'Brien arrived at midnight at Holyhead, where he was handed over to the Scotland Yard detectives by four escorting Free State officers.

Peking, May 14.—A conference Saturday night between representatives of the railway bandits and the Peking Government resulted in an agreement by the brigands to release some of their captives immediately and to free the remainder when their terms, including withdrawal of the troops, were complied with, the Ministry of Communications announced yesterday.

Washington, May 14.—(Canadian Press)—The part of Hon. W. S. ## STATES DATES OF FIVE DEATHS WERE CAUSED BY FIRE

Collectors of Customs and Excise Throughout Canada Hear From Ottawa

Ottawa, May 14.—(Canadian Press)—The dates of the tariff and revenue changes under the new budget proposals have been set forth in a memorandum to collectors of customs and excise issued by the department here.

The changes are held to be in effect on May 12.

(A)—The customs tariff changes in effect on May 12 in respect of goods imported or taken out of warehouses for consumption on and after that day and goods previously imported for which no entry for consumption was made before that day.

(B)—Changes in the Inland Revenue Act respecting cigarettes in effect on May 12.

The repeal of Section 378 of the Excise Tax on sugar produced in Canada from sugar beets in effect as from January 1, 1923.

(C)—Changes in the Special War Revenue Act of 1915 and amending acts to be in effect August 1, 1923, except the provisions of Section 2 of the resolution regarding excise tax on wines of all kinds except sparkling wines, etc., to come into effect on a date to be fixed by proclamation of the Governor-in-Chief.

The changes which will come into effect on August 1 are those concerning the stamp taxes on cheques and receipts and the British preference.

Toronto, May 14.—How the change in the British tariff preference announced by Hon. W. S. Fielding is expected to work out is explained by a high customs official here as follows:

"The British preference, when introduced in 1897, applied to goods when imported into Canada by way of a port of call, and was intended to mean imported on through bills of lading, and consequently goods so imported might reach Canada by way of an American port and still enjoy the British preference. The intermediate tariff introduced in 1906 applied favorable treatment to goods imported and conveyed without transshipment into a sea or river port of Canada."

"The present change in the British preference is to apply a further discount of ten per cent. on the customs duties to goods coming direct to Canada by way of Canadian ports; that is, goods which heretofore paid thirty per cent. under the British preference will pay twenty-seven per cent. if imported under the British preference by way of a United States port direct on a through bill of lading, but they will not be entitled to the special discount of ten per cent. which applies to goods imported through Canadian ports."

"Last winter gripe and tonsillitis confined me to my home for weeks, and left me so thin and frail it looked like I could never get back to my business again. I would choke up with gas until I had to fight for breath, was so nauseated I could scarcely retain a thing, and pains in my stomach and sides would double me up. I could scarcely sleep a wink, and my hands were so trembly I couldn't even arrange my tie.

"However, the Tanlac treatment suited my case so well it ended my troubles, increased my weight, and fixed me up to where I felt as fine as I ever did. Washington, May 14.—With the exception of Great Britain, the United States exported more goods to Canada during March, 1923, than to any other country, according to figures issued by the United States Department of Commerce to-day. The total amount of exports to Great Britain was \$63,360,340, as compared with \$72,787,667 in March, 1922. ## GOMPERS REPORTS ON TRADE UNION PUBLICATIONS

Washington, May 14.—Trade union newspapers and periodical publications are to a considerable degree subject to "propaganda" that is hostile to the trades union movement, from radical and Communist organizations within the country and sometimes from associations representing the employers' viewpoint, according to a report made to-day by the American Federation of Labor executive council by President Gompers.

An investigation, Mr. Gompers said, showed "that for the most part the labor press has rejected practically all the propaganda," but that some of the radical matter was being used because the source and object of it was in a considerable degree concealed.

As a sample of radical organizations, the report said, the "Young Workers' League," the "International Press Correspondents," and the "Trades Union Educational League" are all organizations which fail to disclose their full purposes. The opinion was expressed that all three of them would receive "scattered attention" as labor editors came to understand the objective of their backers.

## The C.C.M. Triplex Makes Pedaling Easier

A SIGHTSEER, going through the large C.C.M. plant, asked us what we considered the most important part of a bicycle. Unhesitatingly, we replied, "The Crank Hanger."

He wanted to know why. "Well," we explained, "the crank hanger is the power plant of the bicycle. When you push on the pedals, the crank hanger turns and generates the power that makes your bicycle go. The smoother and easier the crank hanger turns the less effort you need to put into your pedaling."

"That's true," he agreed.

"Now," we continued, "if your crank hanger turns a little stiff or hard, or if it develops those irritating, tight and loose spots, it means more friction and less power—and more work for you."

"It sure does."

"If," said we, "a rider would stop and figure things out for himself, he would be willing to pay \$10 to \$15 extra to have the C.C.M. Triplex Hanger on his bicycle—yet we give it as regular equipment."

"The Triplex! What's that?"

**Special C.C.M. Design**

"The Triplex is a special C.C.M. design. It's a perfected three-piece hanger. Practically all the leading racers prefer a three-piece hanger, you know. And with the improvements our long experience has enabled us to make, the Triplex has no peer as a crank hanger. Tight and loose spots have been eliminated. The Triplex turns with wonderful ease, smoothness and quietness."

"My, you're enthusiastic about the Triplex!" he exclaimed.

"So will you be after you've ridden a C.C.M. Bicycle. You'll start with hardly an effort. After you're under way, you'll just glide along. And if you want to burn up the road, the Triplex will respond swiftly to the pressure you put on the pedals. It has lots of pep—and speed—and power!"

**Saves a Lot of Energy**

"You don't need to say anything more about the Triplex. Even if it just turned ever so little easier than an ordinary hanger, it would save me a lot of energy in wheeling to my work and back. And just think how much fresher I'd be at the end of a fifteen-mile ride than the fellow who had to push an ordinary crank hanger."

"You've got the right idea. Now, let's go through the rest of the factory so you can see for yourself just how carefully and accurately every part of a C.C.M. Bicycle is made. Then, you'll understand why C.C.M. Bicycles give so many years of faithful service."

## BEST CUSTOMER OF U. S. IS BRITAIN

Canada Takes Next Largest Amount of American Exports

Washington, May 14.—With the exception of Great Britain, the United States exported more goods to Canada during March, 1923, than to any other country, according to figures issued by the United States Department of Commerce to-day. The total amount of exports to Great Britain was \$63,360,340, as compared with \$72,787,667 in March, 1922. Canada imported goods valued at \$53,664,386, a great increase over the corresponding month a year ago, when the figure was \$44,492,960.

Germany followed Canada with imports amounting to \$25,930,957.

## GOMPERS REPORTS ON TRADE UNION PUBLICATIONS

Washington, May 14.—Trade union newspapers and periodical publications are to a considerable degree subject to "propaganda" that is hostile to the trades union movement, from radical and Communist organizations within the country and sometimes from associations representing the employers' viewpoint, according to a report made to-day by the American Federation of Labor executive council by President Gompers.

An investigation, Mr. Gompers said, showed "that for the most part the labor press has rejected practically all the propaganda," but that some of the radical matter was being used because the source and object of it was in a considerable degree concealed.

As a sample of radical organizations, the report said, the "Young Workers' League," the "International Press Correspondents," and the "Trades Union Educational League" are all organizations which fail to disclose their full purposes. The opinion was expressed that all three of them would receive "scattered attention" as labor editors came to understand the objective of their backers.

## TORNADO DAMAGE IN TENNESSEE

Nashville, Tenn., May 14.—One may die—two are less seriously injured and a score of persons are homeless as a result of a tornado which struck Edenwood, a small town five miles from here, Saturday afternoon and swept on with full force to the former Old Hickory powder plant, two miles ahead. The total damage is estimated at \$100,000.

## GEORGES PALLIN DIED IN PARIS

Paris, May 14.—Georges Pallin, seventy-six, honorary governor of the Bank of France, is dead here. For many years he was considered one of France's financial authorities.

## WAR MEMORIAL WAS UNVEILED

Winnipeg, May 14.—With reverent ceremony, the monument erected by the Soldiers' Relatives Memorial Association to the memory of 1,500 Winnipeg men who lost their lives in the Great War was unveiled yesterday afternoon on the grounds of the Parliament Buildings before several thousand persons.

The monument is a beautiful creation in bronze, representing a Canadian soldier stepping from the trenches in the moment of victory. It breathes the spirit which actuated the Canadian soldiers in the long, bitter struggle which cost so many heroic lives.

The statue was designed by Lieut.-Col. J. N. Semmens, formerly commanding officer of the 8th Battalion, and Mrs. Hilary Taylor, of Winnipeg, who modelled the figure.

T. R. Deacon, president of the association, presided; Mr. Justice Demistown delivered the dedicatory oration, and Mrs. A. Code and Mrs. T. R. Deacon unveiled the monument.

## DIED IN ONTARIO

Belleville, Ont., May 14.—Mrs. Fanny Embury, mother of Mr. Justice J. P. L. Embury of the Saskatchewan Court of King's Bench, is dead at Moira, Ont.

## "I Had Bilious Attacks and Stomach Weakness"

Mrs. Wm. Robinson, Yorker, Sask., writes: "I suffered from stomach and liver trouble, and used to have bilious attacks so bad that I could do nothing for weeks at a time. My stomach would be so weak that not even a drink of water would stay on it. On my sister's advice, I began to use Dr. Chase's Kidney-Liver Pills, and must say that they have made me feel like a new woman."

VICTORIA IN PROGRESSIVE MARCH.

Victoria has demonstrated her ability to furnish funds for her own enjoyment and advertisement without leaning upon donations from the public treasury.

The successful financing of the Maytime Frolic also insures an easier course for the promotion of future annual festivities that cannot fail to become sound investments from the general pecuniary and community points of view.

What has already been accomplished, the general policy of the Frolic management, indicates the wisdom of creating general interest in the scheme afoot.

This year's experience with the initial programme for the annual celebration also goes to show the wisdom of making proper plans well in advance.

From the immediately practical standpoint the Queen contest has justified itself completely.

THE BY-LAWS PASS.

When the Johnson Street Bridge and the thoroughfare beyond have been blessed by civic ceremonial and opened for traffic the taxpayers of this community will surely realize that, if the venture has been a costly one, it will form part of the more general evidence that this city recognizes the needs of the times and intends to keep up a brisk pace in the progressive march.

The easy passage of the by-laws last Saturday at least indicates a consistent attitude on the part of the qualified electorate in a local particular of first rate importance.

There is nothing now to delay the work on the Johnson Street Bridge and its extension. The sooner the undertaking in its entirety can be finished the sooner should it be possible to develop the area that will thus come within easier access to the city proper.

ADVERTISING METHODS.

Great play is being made by Soviet Russia over the terms of the British note. One or two of the Ministers at Moscow have dressed themselves in their military uniforms and generally have prepared a setting for war talk.

Talk of war from Russia is sheer nonsense. None better than Trotsky himself knows that Saturday's demonstration, with its militant speeches, was a form of advertisement employed by the War Minister and his colleagues whenever an opportunity presents itself.

On the other hand Britain has no intention of wasting money on a war with Russia. In the first place it is not necessary for her to do so.

SUGAR GOES DOWN.

Mr. Fielding's proposal to reduce the duty on refined sugar by one-half cent, a pound and on raw sugar by forty cents a hundred will be thoroughly appreciated by the housewives of this country.

Nor should it be forgotten that people on this and on the other side of the Atlantic are getting a little bit tired of being sported with by the sugar manipulators.

HELIGOLAND SLIPPING?

Heligoland is reported to be in danger of annihilation. Constant explosions of dynamite during the last three years have completely demolished the great fortifications which the Germans had embedded in the cliffs.

When its future was discussed three years ago we were not alone in our suggestion that it would be a good thing if Heligoland could be eroded altogether.

If Lenin and Trotsky can do nothing else they can appreciate the value of an impossible condition to advertise their own peculiar wares.

NOTE AND COMMENT

It is possible that President Harding may visit British Columbia either on his way to or return from the North. It is to be hoped that he may be induced to pay his respects to this city.

The German mark has now dropped to twenty-three dollars per million. That is all very well as a basis for Germany's incapability to pay her reparations bill; but it does not quite harmonize with the prosperity and profligacy of her people at the present time.

OUR CONTEMPORARIES

Kingston Whig—One of the chief advantages of the moving picture film of to-day is that it is of decided educational value when properly used.

MOVIES IN THE SCHOOLS.

Hongkong Press—Having induced the powers at Washington so far to recognize her claim to sovereignty over leased territories to the extent of securing pledges for the return of Tsingtau and Weihaiwei, China is not likely to contemplate the retention of the South Manchurian ports by Japan for another 99 years.

CHINA AND THE LEAGUE.

There is much to commend in any literature that will give the people of this city and neighborhood more specific information about their own immediate neighborhood.

A GREAT FIGURE A GREAT EPOCH A GREAT STORY

"CAPTAIN BLOOD"

Writer of "Scaramouche" By RAFAEL SABATINI
INSTALMENT NO. 13

Toward the end of December, when the hurricane season had blown itself out, he put to sea and before he returned in the following May from a protracted and adventurous cruise, the fame of Captain Peter Blood had run like ripples before the breeze across the face of the Caribbean Sea.
One day, as Captain Blood sat with Higthorpe and Wolvestone over a pipe and a bottle of rum in the stifling reek of tar and stale tobacco of a water-side tavern, he was accosted by a splendid ruffian in a cold-laced coat of a dark-blue satin with a crimson sash, a foot wide, about the waist.
"Cast your qu'on appelle Le Sant?" the fellow hailed him.
Captain Blood looked up to consider the question before replying. The man was tall and built on lines of agile strength with a swarthy, aquiline face that was brutally handsome.
"Captain Blood took the pipe-stem from between his lips.
"Your name," he said, "is Peter Blood. The Spaniards know me for Don Pedro Sangre, and a Frenchman may call me Le Sang if he pleases."
"Good," said the gaudy adventurer in English. "My name," he informed the three men, two of whom at least were eying him avariciously, "is Levasseur. You may have heard of me."
They had, indeed. He commanded a privateer of twenty guns that had dropped anchor in the bay a week ago. A roaring, quarrelsome, hard-drinking, hard-gaming second-rate, his reputation as a buccaner stood high among the wild Brethren of the Coast. There was about his gaudy, swaggering raffishness something that the women found singularly alluring.
It was current gossip that even Mademoiselle d'Oregon, the Governor's daughter, had been caught in the snare of his wild attractiveness.
This was the man who now thrust himself upon Captain Blood with a proposal of association, offering him not only his sword, but his ship and the men who sailed in her.
Because he disliked the man, Captain Blood would not commit himself at once. But because he liked the proposal he consented to consider it. The end of the matter was that within a week articles were drawn up between Levasseur and Blood, and signed by them and—as was usual—by the chosen representatives of the two powers.
All being now settled they made ready for sea, and on the very eve of sailing, Levasseur narrowly escaped being shot in a romantic attempt to scale the wall of the Governor's garden, with the object of taking passionate leave of the infatuated Mademoiselle d'Oregon.
That night he slept on board his ship, which with characteristic firmness he had named La Foudre, and there on the following day he received a visit from Captain Blood, whom he greeted half-mockingly as his admiral. The Irishman came to settle certain financial details of which that head-concerner is an understanding that, in the event of the two vessels becoming separated by accident or design, they should rejoin each other as soon as might be at Tortuga.
Thereafter Levasseur entertained

Its contents may be roughly translated thus:
"My well-beloved—I am in the Dutch brig Jongvrouw, which is about to sail. Resolved to separate us forever, my cruel father is sending me to Europe in my brother's charge. I implore you, come to my rescue, deliver me, my well-beloved hero!—Your desolated Madeleine, who loves you."
The well-beloved hero was moved to the soul of him by that passionate appeal. His scowling glance swept the bay for the Dutch brig, which he knew had been due to sail for Amsterdam with a cargo of hides and tobacco.
She was nowhere to be seen among the shipping in that narrow, rocky harbor. Blood roared out the question in his mind.
In answer the half-caste pointed out beyond the frothing surf that marked the position of the reef constituting one of the stronghold's main defenses. Away beyond it, a mile or so distant, a sail was standing out to sea.
Cursing in his soul the association into which he had entered, Levasseur was already studying ways of evasion. Blood would never suffer violence to be done in his presence to a Dutchman; but it might be done in his absence.
Within the hour the Arabella and La Foudre were beating out to sea together. Without understanding the change of plan involved, Captain Blood, nevertheless, accepted it, and weighed anchor before the appointed time upon perceiving his associate to do so.
All day the Dutch brig was in sight, though by evening she had dwindled to the merest speck on the northern horizon. The course prescribed for Blood and Levasseur lay eastward along the northern shores of Hispaniola. To that course the Arabella held steadily through the night, with the result that when day broke again, she was alone. La Foudre under cover of the darkness had struck away to the northwest with every rag of canvas on her yards.
Dawn found La Foudre close on the Dutchman's heels, not a mile astern, and the sight of her very evidently flustered the Jongvrouw. The Dutch ship veered, showed them her rudder, and opened her stern chasers. The small shot went whistling through La Foudre's shrouds with some slight damage to her canvas. Followed a brief running fight in the course of which the Dutchman let fly a broadside.
Five minutes after they were held tight in the clutches of La Foudre's grapnels, and the buccaners pouring noisily into her waist.
The Dutchman's master, purple in the face, stood forward to meet the pirate, followed closely by an elegant, pale-faced young gentleman in whom Levasseur recognized his brother-in-law elect.

MISS DORA ROLLS

Proof that the May Queen contest had caught the imaginations of Victoria residents was given on Saturday night when the committee announced a total subscription of \$16,255 by the public in the three weeks canvassing. Twenty per cent of this sum was returned at once to the various managers in accordance with the rules of the contest, thus leaving \$13,002 net for the Maytime Frolic funds. This sum is over four times as much as was expected to have been raised by the scheme.
With tense silence on the final stages of the contest managers for the several candidates were early at the office of the committee on Saturday night. The voting closed at 10 o'clock, but it was not until after 10 p. m. that the results were made known. As each manager was admitted the committee placed his accounts before F. H. Kidd, who audited the returns throughout the evening. As each total had to be subjected to a check, the counting process was reached, the count was a longer one than anticipated.
Apart entirely from the financial interest shown in the Queen Contest has surpassed that displayed at many a municipal election. Telephones in newspapers offices buzzed without intermission from five o'clock on Saturday evening well on until after midnight. The final figures were greeted with great interest, crowds watching the bulletin boards for the results.

YOUR HOME AND YOU Bath-Towel Curtains

By HELEN KENDALL
The first prize at the bridge party had been two luxurious bath-towels—thick, long and wide, with bands of French blue across both ends, and the bride of a month who won them did not seem to belong in a bathroom.
"But what's the matter with bath-towel curtains, I'm going to cut these beauty-things up and make draperies of them. I'll cut off each towel just a little above the blue bands at one end. Then I'll hang the long part of each towel at the side of the window, as an over-curtain, and sew the two short ends together to form a valance. With plain close net against the ash to make us invisible to the world, I'll have the most original and the prettiest bathroom windows in the city. I know I will."
When finished, the new curtains matched charmingly the heavy printed and crocheted towels on the racks, and the bride, when she came to the racks that these would, I really have an embarrassment of riches, when she comes to the bath towels."
She took her new possessions into the bathroom, and laid them experimentally over the shining green rods over the tub. Then suddenly she caught them off again.
"I have an idea, she called out. "You know I have been wanting to get some window treatment in here

EXPRESS THANKS

The campaign committee of the Provincial Civil Service Association wishes to express their deep appreciation of the generous support which was spontaneously accorded to them by their many friends who so materially assisted in the victory. The campaign was not confined to Victoria, but was made Province-wide through the affiliated branches of the Association, and just how loyal the outside service rallied to the standard is evidenced by the result.

## MRS. GLADSTONE WAS FOUND AFTER SEARCH

Seated comfortably between two logs, near a creek which runs through a ravine under the Marine Drive, close to the Dominion Mills, in South Vancouver, Mrs. T. W. Gladstone, aged seventy-three, wife of Rev. T. W. Gladstone, of Victoria, who had been missing since Wednesday from the home of her daughter, Mrs. F. C. Culloden Street, was found on Friday evening, apparently none the worse for her adventure.

Two men had been to the Dominion Mills seeking employment proceeded through the ravine which traverses the Marine Drive east of Dominion Road. Hearing a rustling among some bracken, the men investigated the cause of the noise, and found Mrs. Gladstone sitting between two logs near the creek. They at once notified Detective Tom Winters, and a search party which was "beating the bush" in the vicinity. Detective Winters escorted Mrs. Gladstone to the home of W. H. Harvey, of the Dominion Mills, where Mrs. Harvey made tea for her.

The Chamber of Commerce received the following telegram this morning from Cornelius Vanderbilt, Jr., who is at present in Los Angeles, and who, as a member of the City of Victoria, invited Mr. and Mrs. "Doug" Fairbanks here for the May-time Frolic. Marsh.

## JUNIOR INSTITUTE DANCE AT KEATING

A jolly time was held in the Temperance Hall, Keating, on Friday evening, when a large crowd turned up to enjoy the social dances given by the Junior Institute Club. The hall had been decorated to represent a barn with the use of greenery and bales of straw, while the young people were attired in overalls and gingham dresses, this being the rule for the evening. During the evening there were impromptu dances which had not obeyed this order, much amusement being caused by the judges' verdict. A hot dog supper was served by a committee of women, and dancing continued until two o'clock, the music being supplied by Mrs. Gleason and Mr. Robinson.

## LOST BREATH, HEART FLUTTERED after least exertion

Weak, Nervous Woman Obtains New Health

"Some months ago, I found that after the slightest exertion I suffered from shortness of breath and fluttering of the heart. Frequently I would get a stabbing pain in my left side. I tried various remedies but instead of improving I became worse. My appetite failed and soon even the sight of food became repulsive. Then my nerves became so weak that I would 'jump' at any sudden sound. One day a friend called and, seeing my exhausted condition, told me that what I needed was Wincarnis. I began taking it right away and in all I have taken four bottles I feel as if I am enjoying the wonderful result. Today I am strong and well and I owe all my renewed health to Wincarnis."

### The Sandman Story For To-night

#### THE CRYSTAL COMB—Part I.

The King's daughter had fallen into a sleep from which no one could awaken her. That she was still alive the King and Queen were certain for they could see that she breathed. All the wise men and the old herb women for miles around her father's kingdom were sent for to try their skill and bring the Princess out of this sleep, but not one could help her; and there she lay like a waxen figure on her bed of lace and satin while her father and mother stood wringing their hands and weeping in great sorrow. At last there came hobbling into the castle an old witch who asked to look at the sleeping girl. For some time the old witch stood gazing as she leaned upon her cane and at last she spoke. "There is but one thing that will awaken her," she said in a cracked high voice. "What is it, what is it?" asked the King and Queen together. "It is the crystal comb the Wind Witch uses to comb the hair of her son, North Wind," said the old witch. "I am sure that if you and the Wind Witch that put the Princess to sleep. Do you remember if the wind blew hard the night this sleep fell upon her?"

brought the Crystal Comb that belonged to the Wind Witch, the King would give anything he asked, even half of his kingdom, be he prince or pauper. This the King did and soon all the men in the kingdom were hunting for the Crystal Comb that would awaken

him this only to get his gold, that no such mountain existed. One day, while the King and Queen sat beside the sleeping Princess weeping, a poor peasant came to the door of the castle and asked to see the King. No one was turned from the door in those days for fear he might bring news of the magic comb and so the King sent for the lad and listened to what he had to say. When he came into the presence of the King he knelt on one knee before him. "My name is Joel," he said. "I am a poor peasant, but if I find the Crystal Comb I ask that you give me the Princess for my wife. No land or money do I ask." To give his daughter to a peasant was a thing he did not wish to do and yet the King was wise enough to know that unless the magic comb was found his daughter would remain as one dead. "If you find the comb and bring it back and the Princess awakes, I give you my promise," said the King, "that she shall be your bride if you can win her."

WHERE IT MIGHT HAVE HELPED. "Don't talk to me about colleges!" scoffed the self-made man. "Look at me! Do you suppose I would have been any more successful than I am if I'd had a college education?" "No," admitted the professor, "but you might have been inclined to brag about it."—Judge.

Dempsey Says Willard Great Ring Master

Pays Compliment to Victor Over Johnson; Jess Wild Over His Success

Salt Lake City, Utah, May 14.—As the outcome of the Willard-Johnson fight in New York on Saturday, in which Willard disposed of his opponent in the eleventh round, Jack Dempsey, heavyweight champion to-day hailed the former ring master as "one of the greatest ring masters in the game."

"Willard is fast and powerful, and when he is in proper condition I consider him a worthy challenger. I am not at all surprised at the result," Dempsey said.

Referring to Luis Firpo, who defeated Jack McAuliffe in the championship fight on Saturday, Dempsey said he considered him a worthy challenger. "I am not at all surprised at the result," Dempsey said.

In Good Shape. "I am having the greatest time of my life here," Dempsey said, adding that he was in fine physical trim for his fight against Tom Gibbons at Shelby, Mont., on July 4.

"After the Shelby fight," he said, "I felt that I had reached the peak of my career. I expected to see the next championship fight in Dempsey City. That is just an idea of mine—but anyway I expect it to come about eventually."

Willard Like a Two-Year-Old. New York, May 14.—Jess Willard, 40-year-old flinty combatant, showed the elation of a 10-year-old in the dressing room after his contest with Floyd Johnson.

"I never was in better condition than I am now," he said, "and I expect to fight Firpo or anyone else to prove that I'm entitled to a return match with Dempsey. I'm more confident now than ever that I'll regain the championship I lost four years ago."

"I fought the best I could," Johnson said, crestfallen by his defeat, but not discouraged. "He was too big for me, that's all."

Firpo, the "Silent Man of the Ring," took his latest laurels with the display of outward taciturnity that has marked his previous conduct. He received his congratulations with but little comment, while his defeated antagonist, McAuliffe, confined his post-battle remarks to a laconic admission that the South American was the toughest boxer and hardest hitter he had ever encountered.

Tex Rickard, who promoted the all-star card of five bouts announced last night, said the total attendance was approximately 62,000, and the gate receipts \$390,000.

A Metropolitan Crowd. Including proud holders of complimentary tickets, newspapermen, the police guard and a small army of hangers-on, more than 65,000 persons saw the performance. It was by far the greatest fight crowd New York ever had seen, and was second in the annals of the sport only to that which saw the Dempsey-Torp affair at Jersey City—an audience that totaled more than ninety thousand.

It was a metropolitan crowd, numbering among its ranks prominent society figures of both sexes, as well as sport celebrities and thousands upon thousands of "just folks."

A colorful gathering of society folk, flirts and other notables were grouped in the ringside section. Kermit Roosevelt, son of the late president, was among the onlookers. Prominent among ring figures were Jim Corbett, former heavyweight champion, and Mike McTigue, newly crowned world's light heavyweight title-holder.

There was light sprinkling of women in the 12 section, but they, like their male bleacher companions, had come in bad weather attire, and in the main it was an impartial crowd, ready to cheer anybody's good performance.

TIMES BASKETERS WIN CHAMPIONSHIP

Defeat Bays in 22-20 in Playoff for Community League Title; Exciting Game

Another championship was added to the Times' credit on Saturday night when the Newsies' intermediate boys captured the Community Centre Intermediate League by defeating the James Bay Methodist five 22-20. The game was one of the most exciting ever played in the Drill Hall this season. Both quartets were travelling at a fast clip during the whole of the forty minutes. The second half time, that these two aggregations have met the evening paper boys securing the advantage, winning two of the battles. The game on Saturday evening commenced at a fast rate from the starting whistle, and nearly five minutes had elapsed before either team found the basket. Then the Times played the ball rolling when Hemmingway netted a pretty basket. This was only the beginning of the damage, and at the half time while the score stood 11-3 in favor of the Times, the second half proved to be more exciting than opening period. The Bays had been in a bad slump from the beginning, but their combination of the ball brought them a machine, and they started to swell their score until they were within two points of their rivals when the whistle blew and brought to a climax one of the fastest games that the Drill Hall fans have witnessed.

Times Team Did Well. For the Times the whole team played a brilliant game, there being no outstanding stars, the team being the feature of the evening. For the Bays "Bud" Hocking played a stellar game at guard, while Wachter played a good game on the forward line.

As a result of their win the Times will be presented with the large shield, emblematic of the title, which will each receive a smaller medal. The teams were as follows: Times—Hemmingway, Hopkina, Hastings, Mackay and McCullum. James Bay Methodists—Passmore, Wachter, Bothwell, Hocking and Hartley.

CY WILLIAMS IS WAY AHEAD OF BABE RUTH'S MARK IN LONG HITTING

New York, May 14.—Cy Williams, of the Philadelphia Athletics, has run so far this season, is far ahead of Babe Ruth's record made in 1921.

This year Williams has hit 154 home runs, while Ruth hit 137 in 1921. This year Williams has hit 154 home runs, while Ruth hit 137 in 1921.

Do You Know Baseball? Questions: ONE—Is it possible to make a substitution for a base runner, and if so, when? TWO—In case of rain or muggy field, who is the sole judge as to whether or not the game should be started? THREE—In case a game is stopped by the umpire, because of rain, is there any time limit as to when the game can be resumed? FOUR—What happens when the batter strikes at an illegally pitched ball? FIVE—Is it necessary that the team at the bat make an appeal for the calling of a balk?

Answers: ONE—Only by consent of the captain of the other team. TWO—The manager or captain of the home team is the sole judge as to the fitness of the field for starting play. THREE—The time limit formerly was 30 minutes. Now under the new ruling the umpire can wait as long as he sees fit. FOUR—The manager for a strike or whatever may follow. FIVE—A balk rests entirely with the judgment of the umpire. There is no necessity of reason for an appeal, though the team at bat often raises the claim.

Railroaders Step Out Win Opening Game

Norm Forbes Twirled Beautiful Game For C. P. R. Allowing But Two Hits and Whiffing Seventeen Batters; McDonald Heaved a Nice Brand of Ball For Eagles But His Team-mates Failed to Hit Behind Him

Old Dame Fortune says that it is a good omen to start out the season with a win tucked away to your credit, so the C. P. R. ball nine took her sage advice and defeated the Eagles 5-2 in the opening game of the amateur league at the Stadium on Saturday afternoon before an enthusiastic crowd of ball fans. The C. P. R. had picked Forbes to do the twirling for them, and that boy surely delivered the goods, allowing but two scattered hits and making no less than seventeen of the feathered tribe whiff the air for three. He was in mid-season form and after digging into the hoard records of the league it appears that he has also made a strike-out record for the aspiring young pitchers to try and better.

The usual opening ceremonial was without a hitch and if any of the team managers are up a tree in the matter of a pitcher or a catcher they know exactly where to go to secure either. Mayor Hayward had been selected to hurl the first apple across the rubber while Darrell Spence, the President of the League, was given the task of grabbing the elusive globe. After throwing a perfect strike the star battery retired amid the applause of the fans. The mound was then taken by "Red" McDonald, the Eagle's chucker, who is a new face in the amateurs this season. Well, the lodge man was able to hold the railroaders in the first inning and they retired in a quick session. However in the second stanza the whole damage was done and in this inning the C. P. R. folks knocked his offerings to every corner of the lot, and were able to drive in four runs. George Allan started the works going by slashing out a clean single to third, and another single to second, and a third to first, and a fourth to first, and a fifth to first, and a sixth to first, and  IS FILM OF **MOTHER LOVE**

**"Who Are My Parents?"** is Capitol Feature

Mother love and a raft of babies are among the interesting features in "Who Are My Parents?"—a Fox special that drives straight to the heart of every right-minded film supporter. The picture will also serve to introduce Peggy Shaw, the clever little dancer who made such a hit with the Ziegfeld Follies, is the one in question. Given the character of Betty Lewis, the attractive little heroine of the story, she proved a valuable find and became the central figure in an uncommonly capable cast.

"Who Are My Parents?" was written by the mysterious "Mr. X," and directed by J. Scarle Dawley. Its theme puts it in the class of screen stories that increase their hold on the public every time they are shown.

Domestic in sentiment and filled with home atmosphere, it illustrates the folly of a parent trying to kill the love of his daughter for a poor, but worthy man.

**AMUSEMENTS TO-DAY**

Capitol—"Who Are My Parents?"  
 Dominion—"Safety Last."  
 Royal—"Mighty Lak' a Rose."

The efforts of the father of Betty Lewis to prevent her marriage with Bob Hale causes her great mental suffering and separates her from her child at the time when it most needs a mother's care.

Mr. Dawley has transferred the story to the screen with sympathetic understanding and given it a number of charming close-ups of happy childhood. There are a little brother and sister in the story, cleverly acted by Jimmy Lapsley and Florence Haas, whose fortunes will be followed with keen interest. The boy is such a manly little chap and tries so hard to comfort his sister when they are left alone in the world that he is going to win the hearts of every big and every little mother in front of the screen. An incident in which a litter of puppies and their mother figure is another of the scenes that will appeal to the better side of human nature. It is brought into the story with much skill, and teaches an important lesson while furnishing plenty of amusement.

Other well-known names in the cast, aside from Peggy Shaw, are those of Roger Lytton, Florence Billings, Ernest Hilliard, Robert Agnew, Adelaide Prince, Niles Welch and Marie Reichardt.

"Who Are My Parents?" comes to the Capitol Theatre to-day for a week's run.

**"SAFETY LAST" IS LLOYD FEATURE**

Comedy Specialist Will Be Here All Week at the Dominion

Sit pretty for the sky-high laughter, but cling to your seat for the sky-high thrills.

"Safety Last" which will play at the Dominion all this week, is a seven-reel comedy in which are incorporated all the possible thrills of filmdom's Thrilldom. Harold Lloyd nearly lost his life in the cause of laughter and thrills. When an insurance agent saw a preview of the picture, Harold also nearly lost his life insurance. He had so faithfully promise never to climb the side of a twelve story building again.

There are thrills without frills and thrills that bring chills in "Safety Last." But what a cure for the ills of the picture, Harold also nearly lost his hair. A miserly gentleman once poured water on his head, stood in the cold and let it freeze and then broke off his hair to save the price of a hair-cut, but if he had seen

**COMPOSITION BY VICTORIAN**

At the Capitol Theatre during the week the song "I Need You So," by a Victorian, William de Macedo, will be rendered by the orchestra and organ during the picture, and included in the music will be "Cavallera Rusticana" (Macagnoli), Verdi's "Traviata" selections, and an overture, "Queen of Autumn."

"Safety Last" he would have cracked his frozen face.

"Safety Last" is ahead of the Hal Roach comedy standard—a seven-reel comedy that doesn't permit you to control your laughter for a single second. It was directed by those comedy geniuses, Fred Newmeyer and Sam Taylor, with Robert Golden assisting. The story hails from the source of laughter—Hal Roach, Sam Taylor and Tim Whelan, and Harley M. Walker wrote the titles which are a show in themselves.

Harold Lloyd is a comedian who does not fear comparison with other players. He gets the best support he can obtain to surround him. Mildred Davis is at her best as The Girl with an abundance of opportunities to display her charm. "Bill" Strother, known everywhere as the "Human Fly," makes his debut and is splendid. Noah Young contributes the height of "hard-boiledness" as the cop, and Westcott B. Clarke is the haughty love-walker to perfection. Other favorites are Charles Stevenson, and Earl Mohan, the funniest "drunk" ever seen.

The settings are massive and elaborate. Fun centres around a railroad station, a department store, and a busy street where thousands of people are to watch Harold Lloyd thrill them and throw them into the realms of Hilarity as only Harold Lloyd can. If he thrilled those in the street, what will he do in a theatre?

This brings to all of them an awakening and a resolve to go straight. This is accomplished, but a final sacrifice is made by them to secure sufficient money for an operation on Rose's eyes. In this final theft Jimmy is caught by the police and sentenced to prison, and the girl for whom he made the sacrifice is led to believe him dead.

Years pass, while Rose, with slight regained, pursues a musical career with the aid of a wealthy man who has fallen in love with her. The hour of her triumph comes on the day when Jimmy is released from prison, and it is the sound of the song, "Mighty Lak' a Rose," drifting out like an echo from the past, that makes him pause at the concert hall stage door to listen and bring the two together again and face to face with a great problem.

The play moves with a swift and dramatic impetus, it is rich in contrasts of life in the upper and lower levels, its characters are etched in bold relief against the background of sium and drawing room.

**"THE IMPORTANCE OF BEING EARNEST"**

Popular Play to Be Presented at Playhouse

The attraction for the coming week at the Playhouse will be "The Importance of Being Earnest." Someone said that it was the wittiest play written since Sheridan wrote "The School for Scandal." The opinion is certainly not an overrated one, as the dialogue abounds in the most delightfully witty lines and sparkling epigrams.

The plot is a very light one, and requires no careful concentration to follow, but the bewitching clever lines keep one forever on tip-toe, anxious not to miss one of the delightful sallies.

The play will be given in a handsome mounting, and the principal characters will give Mr. Crompton and the other (named) members of his company an excellent opportunity of sustaining the very favorable impression they have already created.

After the delightful performance of "David Garrick" which the clever company presented last week, and which was so universally acclaimed, the production of "The Importance of Being Earnest" will be certain to draw crowded houses at the Playhouse this week.

**EDWIN CAREWE PICTURE AT ROYAL**  
**"Mighty Lak' a Rose" to Be Presented**

Only a hair's breadth divides tragedy from comedy, and it is at the moment when our eyes are filled with tears that we are ready to laugh at the slightest provocation. Likewise the greatest laughter comes when we have just been on the brink of impending tragedy, and it is the director who realizes this and carries his audience to emotional heights, then lets it smile, is the producer whose pictures live long in the memory. Edwin Carewe has accomplished this in his first National production, "Mighty Lak' a Rose," which opened at the Royal to-day for a week's engagement.

The story has as its theme the redeeming virtues of music and its power to sway the lives of people, but back of this is still a deeper thought. Simply, the tale tells of Ross Duncan, a beautiful young blind girl, whom fate throws in the hands of "Big" Moran, leader of a gang of thieves. He proposes to use her as a foil in his crooked dealings. Jimmie Harlow, a young member of "Big" Moran's clique, falls in love with Rose and through her gentle nature and her music begins to realize the futility of the life he is leading and hopes to regain his place in the world of honest folk.

"Big" Moran's other companions, "Hard Boiled" Molly Malone and "Slippery Eddie" Foster, do not so soon consider the spell of her influence, and it is in a fight between Jimmie and the hard-boiled boss of the gang that Rose is injured.

On Music Lovers' programme in conjunction with the feature picture "Mighty Lak' a Rose" which is the attraction at the Royal this week, the orchestra will render all performing what might be termed as Old Melody Week. This will include dear old songs, beautiful melodies that tell in music a beautiful story that is pictured on the screen. The following is a few of the numbers to be rendered during the musical programme to be played each day: Overture, "Ruy Blas" (Mendelssohn); "Mighty Lak' a Rose" (New); "To a Wild Rose" (Mae Dowell); "Roses of Picardy" (Wood); "Bow of Roses" (Wood); "Rose in the Bud" (Foster); "I Love You Truly" (Bond); "Just a Song at Twilight."

**MUSIC LOVERS' NIGHT AT ROYAL**

Patrons of the Royal Victoria Theatre have a treat in store, when, on May 14 and 15, the pupils of the Rochon School of Dancing will appear as a special week-end feature, in connection with the picture programme, which will delight the hearts of all lovers of the Terpsichorean Art. Nymphs and Fauns, gay Pierrettes, Dryads of the woods, and a fairy court, will charm all cares away and carry you back to the days when you used to believe in the folk lore of the woods.

Bring the kiddies. It is something they have never seen before, something that they will remember long after the curtain has dropped.

The programme is divided into two parts, each one complete in itself. The opening number is a Dance of Spring, graceful and joyous abandon expressing the very spirit of the Springtime. Then follows a Pas Seul to Chamainade's "Callishoe," the Minuet, a Pierrette, a Spanish and a Nymph and Faun Dance.

The second part of the programme depicts a day at a fairy court, the dream of a little girl who in her slumbers goes to fairyland, and meets with a fairy prince.

The costuming and lighting effects combine to make the performance one of delight to those fortunate enough to attend.

**FINE EXHIBIT IS PROMISED**

School of Dancing to Present Programme

In aid of the St. Matthias' Church funds a universally attractive programme was given last Friday evening in the Margate Jenkins School auditorium. Those taking part were some of the city's best known concert artists, and were Mrs. Jesse Longfield, who gave two contralto solos, "The Last Hour" (Kramer) and "My Destiny" (Kennedy), also taking part in a duet with Vaughan Jones, the latter popular tenor also contributing two numbers, "The Trumpeter" (Arlie Dix) and "Open the Gates of the Temple" (Knapp); Miss Gladys Thorne, renders two songs, "The Swallows" and "Morning"; instrumental numbers were given by Miss Gladys Shrapnel, in a violin solo, a "Sonata" by Handel, and a violin quartette "Fantasia" (Dancia), by three of her pupils, the Misses Florence Richards, Gertrude Lambert and Doris Le Pare, and by Miss Shrapnel. The Misses Critchard played two piano solos, "Donator," from "Nabucco" (Verdi) and while Mr. Thomas was heard in the recitation, "A Philosopher" (Foss). The accompaniments to the vocalists throughout were in the competent hands of Mrs. Clifford Warn. Rev. H. T. Archbold acted as chairman.

After the concert an impromptu dance took place in which several participated.

PASSENGER ROUTE VIA PANAMA TO ATLANTIC SHORTLY

Service of International Mercantile Marine to Resume October 1

C. P. Sargent, North Pacific coast manager for the International Mercantile Marine Lines, has just returned from San Francisco and Los Angeles, where he met A. J. McCarthy, manager of the Panama-Pacific Line, of New York, and T. H. Larke, San Francisco manager, in connection with the re-opening of the Panama-Pacific Line.

The I. M. M. Company was compelled to discontinue the Panama Pacific service on account of the World War, but has decided to resume operations about October 1, and will link the two coasts with a fast passenger and freight service between San Francisco, Los Angeles and New York. The steamships Kroonland and Finland, each of 22,000 tons displacement, and a third steamer yet unnamed, will re-open the service.

The traveling public will be interested in the service as the Kroonland and Finland will provide the best of accommodation in first, second and third class at rates which will be most attractive to persons desiring to make the all-water trip through the Panama Canal. A short call at Havana will be an additional feature and the schedule of sailings will be arranged so to make close connections in New York with the large steamers of the I. M. M. Co., and furnish an unexcelled all-water route from the Pacific Coast to the principal ports of Europe.

Mr. McCarthy came from New York to make preliminary arrangements in regard to docks and other facilities in connection with the handling of freight and passenger traffic, and while it is the present intention to have the Western terminus at San Francisco he states that if sufficient passenger business can be developed in the Northwest to warrant the steamer making the longer trip there will be no difficulty in arranging to have them come to Seattle. In the meantime special connections will be completed for the handling of passenger business to Victoria and Vancouver to San Francisco.

Backed by the strength of the International Mercantile Marine Company with its 117 ships the Panama Pacific Line is bound to be a success and prove a great advantage to the producer and the traveling public.

LOCH KATRINE ON COAST. The Royal Mail Line motorship Loch Katrine arrived at San Francisco Saturday from Europe.

INCREASES GRANTED SEAMEN IN STATES

Shipping Board Announces Increase of From 12 to 20 Per Cent., Effective To-day—New Scale, With Changes in Working Conditions, Reported Acceptable to Workers

Washington, May 14.—Increases of from 12 to 20 per cent. in the wages of seamen were announced by the Shipping Board, effective to-day, to meet the labor situation created by the continued surge of industrial activity ashore. While not meeting entirely the demands of the men as presented by the International Seamen's Union, the new scales, with changes in the working conditions, were said to be acceptable to representatives of that organization and to remove whatever probability there may have been of concerted coercive action.

The Board acted on the report of a special committee headed by Commissioner O'Connor, which was appointed May 2 after the union filed a summary of the situation asserting the present scale was "out of line with present economic conditions."

Disatisfaction. Members of the Board were informed at the same time that the constant decrease in percentage of American citizens among the crews could be traced to dissatisfaction as to compensation.

That the Board's committee recognized that a factor was seen in its statement that increased wages would be expected to solidify the support of real American seamen, which was declared to be essential to the maintenance of an efficient service.

The riff-raff element and the disloyal radical have no place in the American merchant marine, the report warned.

Wage Scale. Increases announced to-day included the following: Carpenters, from \$70 to \$80; ordinary seamen, from \$40 to \$47.50; deck engineers, from \$70 to \$80; coal passers, from \$50 to \$55; and water tenders, from \$35 to \$42.50.

Police Raid. Los Angeles, May 14.—Police raided a meeting of strikers in the harbor district Saturday night and arrested 24 alleged holders of I. W. W. cards on charges of violating the criminal syndicalism law.

FIRE DAMAGE TO SHIP ESTIMATED AT \$1,000,000

New York, May 14.—Estimated damage to the United States Company steamer Santa Marieta, swept by fire alongside a dry-docking pier in Brooklyn Saturday night, was fixed at \$1,000,000 by company officials to-day. Defective insulation was the cause of the blaze, it was said.

Those taken into custody brought the total number of arrested I. W. W. members arrested to forty-six. Among them was the Rev. F. R. Wedge, former pastor of a church in the harbor district, who once attracted considerable attention in connection with his development from prize fighter and lumberjack to Harvard student and clergyman.

B. C. Cement Company's Vessel Floated From Darcy Island Reef at 1.30 a.m. Sunday and Brought to Esquimalt by SS. Algerine

Salvage of the steamer Matsqui, which on Saturday morning drove ashore on a rock off Darcy Island, was successfully accomplished early on Sunday morning by the Pacific Salvage Company. The damaged vessel, floated at 1.30 a. m. Sunday, was brought to Esquimalt by the Algerine at 8.30 a. m. yesterday and to-day the Matsqui is being hauled out on the Yarrow ways for survey and repairs. The crew of the salvage ship Algerine under Capt. J. M. Hewison worked hard all day Saturday on the stranded craft, patching up the hole in the port bilge, pumping the water out of the hold and lightening the freight. Efforts were crowned with success with the assistance of the rising tide at 1.30 a. m. Sunday when the Matsqui was pulled from the rock into deep water.

The lecturer was discussing longevity. "Has anyone here and information to give regarding his own ancestors and longevity?" "Two of my ancestors," said one man in the crowd, "lived 150 years." "Wonderful!" exclaimed the speaker. "This is indeed getting hold of some interesting and unexpected facts. Can this statement of yours be vouched for?" "Subbetcha," said the man in the crowd. "They were grandfather and my great-grandfather. They lived 75 years each. Count it up for yourself."—Farm Life.

### SAANICH TEACHERS WANT MORE PAY

No Accord Results From the Meeting Between Board and Staff

General Discharge Prior to New Salary Scale Declared Illegal

Critical comment marked the reception by over forty Saanich school teachers of proposals for general salary reductions, advanced on Saturday afternoon by the Saanich Board of Trustees at Tolmie School.

Chairman Holloway explained the proposals of the Board, as published in The Times last Thursday, stressing the fact that termination of all existing contracts was believed to be the only legal way to commence fresh on a lower basic salary scale with only a three-year series of salary raises.

**Not Aiding Foo.**

Miss Alward asked what would happen if the teachers refused to consider their contracts terminable, and, insisting on a reply, was informed that legal advice would be sought by the Board. Trustee Cheetham declared that the proposed letter of dismissal was adequate, and asked Miss Alward if she was aware of any error, to point it out and aid the Board to carry out its intentions.

Amid the ensuing burst of laughter Miss Alward solemnly assured the Board that she had no intention of aiding in her own dismissal by pointing the way, while J. O. Welch declared the suggestion "a rather cool thing," and urged the Board, if confident of its legal rights, to send out the dismissal letters under discussion.

These letters would be in the following general terms, a copy of the proposed document being given the teachers with the qualification that it was subject to amendment.

"I am instructed to inform you that it has become necessary to change the scale of salaries of all the teachers of Saanich from the system of granting five yearly increases. In addition, the increase of \$70 made in the 1922-23 year of living allowance, will be discontinued.

"The Board finds that to accomplish its purpose legally and without the possibility of reproach, all contracts or agreements between the teachers of Saanich and the School Board of Saanich will terminate on June 30, 1923.

"You will therefore govern yourself accordingly, and the Board will be very pleased to re-engage you at once under the new arrangement."

**Has the Board Power?**

Much debate took place over the possibility that the dismissal would not accord with the Schools Act. Mr. Welch declared cause had to be shown, to enable the Board to dismiss teachers. Trustee McWilliam differed, whereupon Mr. Welch quoted the Act as revised at the last session of the House, which limits discharge of teachers to causes due to efficiency or misconduct, which must be specified in the notice of dismissal sent the teacher individually.

**Would Vary Terms**

Chairman Holloway assured Mr. Welch that while the board had all contracts on June 30 and sent out notices accordingly, the terms on which teachers would be re-engaged would be open to revision. He suggested substitution of a seven per cent. reduction on each salary as an acceptable variation. This was accepted upon by Mr. Welch as an effort to see the lower paid teachers in a camp apart, and at the conclusion of the meeting the teachers "broke" and decided to stand together in any action taken on their behalf.

**Taxes T-Lo**

Many efforts by the trustees to present the case for the taxpayers were abortive. Trustee Cheetham being countered by Mr. Welch, who objected to taxes being mooted at all, and the ratepayers were not to be taken in by the teachers for work done. He stressed the uselessness of the discussion prior to submission of a definite offer from the Board.

Trustee Cheetham tried again and was shot by no better success, his advice to the teachers to inquire of the farmers and to discover how lucky was the lot of the teacher resulting in Miss Alward's reminder that people who could not pay for an article usually go without the same.

**Ex-Secretary Blamed**

An unexpected feature marked debate on the letters of appointment sent out by H. S. Cowper when acting as secretary to the board. These letters in a number of instances specified the salary and therewith intimidated the practice of Saanich of paying increments for five years. Trustee Holloway and McWilliam declared that such letters were without the authority of the board and were in part the cause of the present proposal to discharge the whole staff and re-appoint them under new contracts. Chairman Holloway was very definite in his assertion that Secretary Cowper had taken it on himself to do many things he had no authority to do.

### URGES CITIZENS TO EXTEND COURTEOUS WELCOME TO VISITORS MAY 24

The Maytime Frolic committee has sent out a plea urging the citizens of Victoria to get the spirit of welcome which will greet the visitors from other towns who are coming here for the celebrations of May 24.

F. March, of the committee, told a story of such courtesy which he would like to see Victorians extend to visitors. It happened in Bellingham when a certain Victoria man to tour about the country and see what sights they had to offer. He entered a garage and asked for the automobile. The owner, who was not at home, but the wife of the shop asked the visitor if he was from Victoria and on the excursion ship. On the visitor's replying in the affirmative the garage man offered his own car, and after several hours of driving about the country refused to accept any remuneration. This is the kind of spirit that is truly admirable. The owner of the shop who saw visitors impressed here as that Victoria man was impressed in Bellingham.

The spirit of unselfish welcome and good fellowship cannot be too greatly commended and urged upon the citizens of this city. The Maytime Committee is out to please, so stated Mr. March.

### LOGANBERRIES ARE DOOMED TO THIS ISLAND

Mayor Fullerton, Authority on Berries, States There is Wealth Therein

Continuing a series of addresses which he has delivered at a number of points, under the auspices of the "Fruit and Home" association, Mayor James T. Fullerton, of Port Townsend spoke to a meeting in the Temperance Hall, Keating street, last evening. Mayor Fullerton is an authority on all branches of loganberry production, and is commonly known as "Loganberry Jim."

Questions were asked by the growers of the lower island and answered by the speaker after the address. Mayor Fullerton's address gave a large amount of valuable advice. "Vancouver Island could be made the greatest loganberry country in the world," stated the speaker. "You have the land and the climate, and I have seen nothing better. You are walking over it every day, and if you only work it you will become rich. Loganberries will pay you more money, give greater security, and will require less work than anything else you can grow. The loganberry vines I have visited on this island are cleaner than any others I have ever seen."

The speaker stated that the industry here was in its infancy, and that it was well for the growers to know what he himself had found in the case through constant experimenting. Chemical fertilizers are the best for the loganberry vine. If every man on Vancouver Island should grow a hundred acres of loganberries, still would the demand exceed the supply, stated the speaker. For that reason the loganberry industry has a future that is assured success to the ambitious grower.

Mayor Fullerton reminded the audience that the vine discovered by Judge Logan was a bearing fruit. The discovery of the logan was made in 1881.

The demand for the juice is also on the increase, and even the berries were abortive. Several occasions have put on a "pie week," and the public have responded to the visions of pie and a thick red jam. Dehydration might well be practiced on the island, where there was a great amount of berries, stated the speaker. Even New York demanded Western berries, the speaker pointed out. There are markets for these all over the continent.

### FROLIC COMMITTEE ASKS PEOPLE'S AID

Realizing that the people of Canada, as well as those of the United States must be told the beauties of the Canadian National parks, the educational information branch of the parks system of the Department of Interior has now a party in British Columbia to explain some of the scenic attractions.

That party which has conducted an extensive tour in Montana, Washington and Oregon, is now in Victoria and Vancouver, preliminary to an address by J. C. Campbell, Director of Education and Information, at the Chamber of Commerce auditorium to-morrow evening. His topics, which will be fully illustrated, and include two sets of motion pictures descriptive of the Banff-Windermere district and of Jasper Park, will bring home to the people of the Coast the beauty of the mountain resorts.

In a conversation yesterday evening with E. G. Forster, representative of the city by H. N. Fynn, Assistant Secretary of the Chamber of Commerce, Mr. Forster told The Times that there was a very widespread interest in the Canadian mountain resorts by the people of the Pacific Northwest, who were looking forward to the opening of the Banff-Windermere Road as a new means of access to a very valuable section of the country. "I can speak with assurance now after a thorough tour of the three states named," said Mr. Forster, "that fine as is the mountain and forest scenery across the line, there is nothing to compare with that which the Canadian National Parks system can offer."

"We want both our own people and American tourists to come to the parks this summer, and see wild life unobtainable elsewhere. Our bureau has, however, something further to achieve in conducting this tour, and that is to secure some illustrations of representative Coast scenery to be added to our pictures for the lecture addresses. For that reason it is intended to add some pictures of Vancouver Island to the display which will be on view in all parts of the country where tourists may be obtained."

"The promise of a record season in the mountain resorts should aid the Coast cities like Victoria which depend largely on tourist travel," Mr. Forster observed.

### VETERANS CLAIM PENSIONS UNJUST

Seek Review of Conditions to Relief Present Cause of Dissatisfaction

Expressing dissatisfaction with pension conditions at present existing, the Veterans of the City are planning to hold a mass meeting to discuss the question further.

The resolution that the Army and Navy Veterans' Association has passed, dealing with the proposed meeting of the returned men and dependents is as follows:

"Whereas at the present time an effort is being made to secure for the incapacitated returned soldiers in Canada, and for the dependents of those who lost their lives on account of the Great War, fair and just treatment from the Government of Canada in regard to pensions and medical care;

"And whereas the citizens of Victoria, as well as the people of Canada generally, do not seem to be aware of the grave injustices that have arisen under the Pension Act and the administration thereof, and under the regulations of the Department of Soldiers' Civil Re-establishment;

"And whereas it is advisable that at this time every effort should be made to bring pressure to bear upon the Federal Government in order that steps may be taken to remove the injustices referred to;

**Would Investigate Cases.**

"Therefore be it resolved, that the Executive Committee of this unit of the Army and Navy Veterans of Canada be requested, and is hereby empowered, if so decided, acting either alone or in conjunction with any or all other ex-service organizations in Victoria, to invite personally such leading and influential citizens as the Mayor and City Council, the Reeve and aldermen of neighboring municipalities, the clergy of all churches, the heads of all ser-

### INDIAN FORT ATTACK AS FINAL FEATURE

The Indian night attack spectacle, to be staged by the Elks, assisted by the Army and Navy, for the Maytime Frolic, will be the final feature of the three days' celebration.

The scene will be laid between Curtis Point and Gorge Bridge. A large fort is being built around the Elks Swimming Club building and a stockade is being built on a large float and will be anchored in mid stream. During the attack the Indians will burn the stockade, and also some settlers' huts to be built on Curtis Point.

Taking part will be about 300 people portraying the chief characters portrayed will be Redrick Finlayson, Hudson Bay Factor, and Sir Matthew Ballew Begbie.

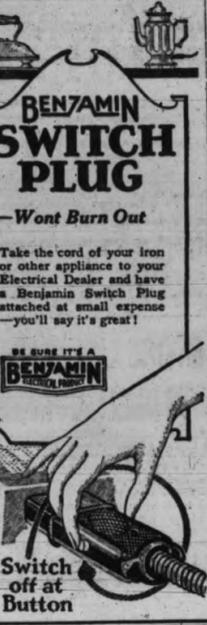

A large number of real Indian war canoes will lead the attack on the fort. The rescue of the fort by the Royal Navy will be worth while witnessing. A detachment of soldiers will assist the Elks in the defence of the fort.

All the spectacular features of a motion picture will be introduced, including a wild race between the hero and heroine in a small boat and Indian war canoes.

Batteries of flood and search lights will surround the bay, assuring plenty of light for the spectators to witness the attack. A splendid display of fireworks will be included in the performance, giving the necessary color.

The committee in charge is A. T. Weight, chairman; Messrs. C. M. Brooke, P. A. Raymond, A. J. Patton, F. C. Dillabough, W. Nield, H. L. Buttress, R. R. Reid, G. Feeble, H. Howard, H. G. Reilly, A. F. Young, R. T. Loubeck, H. Collins, and A. C. Hill.

### EASTERN FINANCIERS ARE IMPRESSED

Complete Extensive Tour in Interests of Casualty Company

Business conditions in British Columbia are relatively better than on the prairies and Eastern Canada, according to the party of head officials of the Dominion of Canada Guarantee and Accident Company, who arrived in the city Saturday, and spent the week-end here.

Col. A. E. Gooderham, the President, is paying his first visit to this city. C. A. Withers, the general manager, has been here frequently, and both have been joined at various points by the branch superintendents and managers during an inspection trip which has occupied two weeks since leaving Toronto.

Col. Gooderham expressed his pleasure at the visit, saying that he found B. C. conditions better than he expected. The business of the company, stated Mr. Withers to The Times, has always been good in this province, and is far better than 12 months ago, with good prospects of development in the future.

Mr. Withers declared that there would be a considerable expansion of casualty insurance business of eastern companies in this province, all companies feeling the energizing influence of better conditions in the insurance world throughout Canada.

The party, who were accompanied to the city by several Vancouver officials of the company, spent the day yesterday sightseeing. They are due to start East to-morrow.
