### GOING BACK

We all arrived here after a long period of extended hard work and application and were indeed more than determined to achieve the goal upon which we had all set our hearts.

"Many are called but few are chosen," is something that we should all remember, when and if the time arrives that our status of a "Cadet" is terminated.

There are times during one's life, when seemingly unforgettable setbacks occur, but yet when looked upon later, the realization that it was for the best comes to the fore.

To those of you who leave Gibbs Field, as a stepping stone to your cherished and ultimate goal, my sincere best wishes for continued success.

To those of you who are left behind, be honest and manlike with yourself, by arriving at the realization, that although you did your best, your service to your country will be better accomplished in some other field.

## THE ARMY CHECK

I'm a rambling wreck from an army check  
and a hell of a bombardier.

I gave left rudder and opposite stick,  
so where do I go from here?

In a climbing turn the wing got low and  
the gosports began to roar.

I banged the throttle to bring it up but  
things got worse than before.

"Do me a two turn spin right on the nose,"  
the army pilot said.

So I cleared to the left and cleared to  
the right and stalled her out straight ahead.

Down and around she began to spin as  
pretty as pretty could be.

Till all of a sudden I lost the count  
and the spins reached over three.

"That's enough" said the voice in front,  
in a manner not pleasing to hear.

So back we went to old Gibbs Field as  
this poem dinned in my ear.

I'm a rambling wreck from an army check  
and a hell of a bombardier.

I gave left rudder and opposite stick  
so where do I go from here?

## OLD FAITHFUL

Here's to the Stearman  
the dodo's friend,  
For its two strong wings  
our praises never end.

Her looks aren't impressing  
with those wires and struts,  
But we cadets know  
that she's got the guts.

Many there are  
who prefer the Ryan  
But give us a Stearman  
to "Keep 'em Flying."

Sometimes a wing  
would touch the ground,  
But she comes back  
flying still sturdy and sound.

Whether in stalls or spins  
or loops in the blue,  
We could trust this old  
crate to bring us through.

So if any there are  
who don't get what we mean,  
It's three cheers and hurrah  
for the PT-17.
