

# INCREASE THE NATION'S FOOD SUPPLY

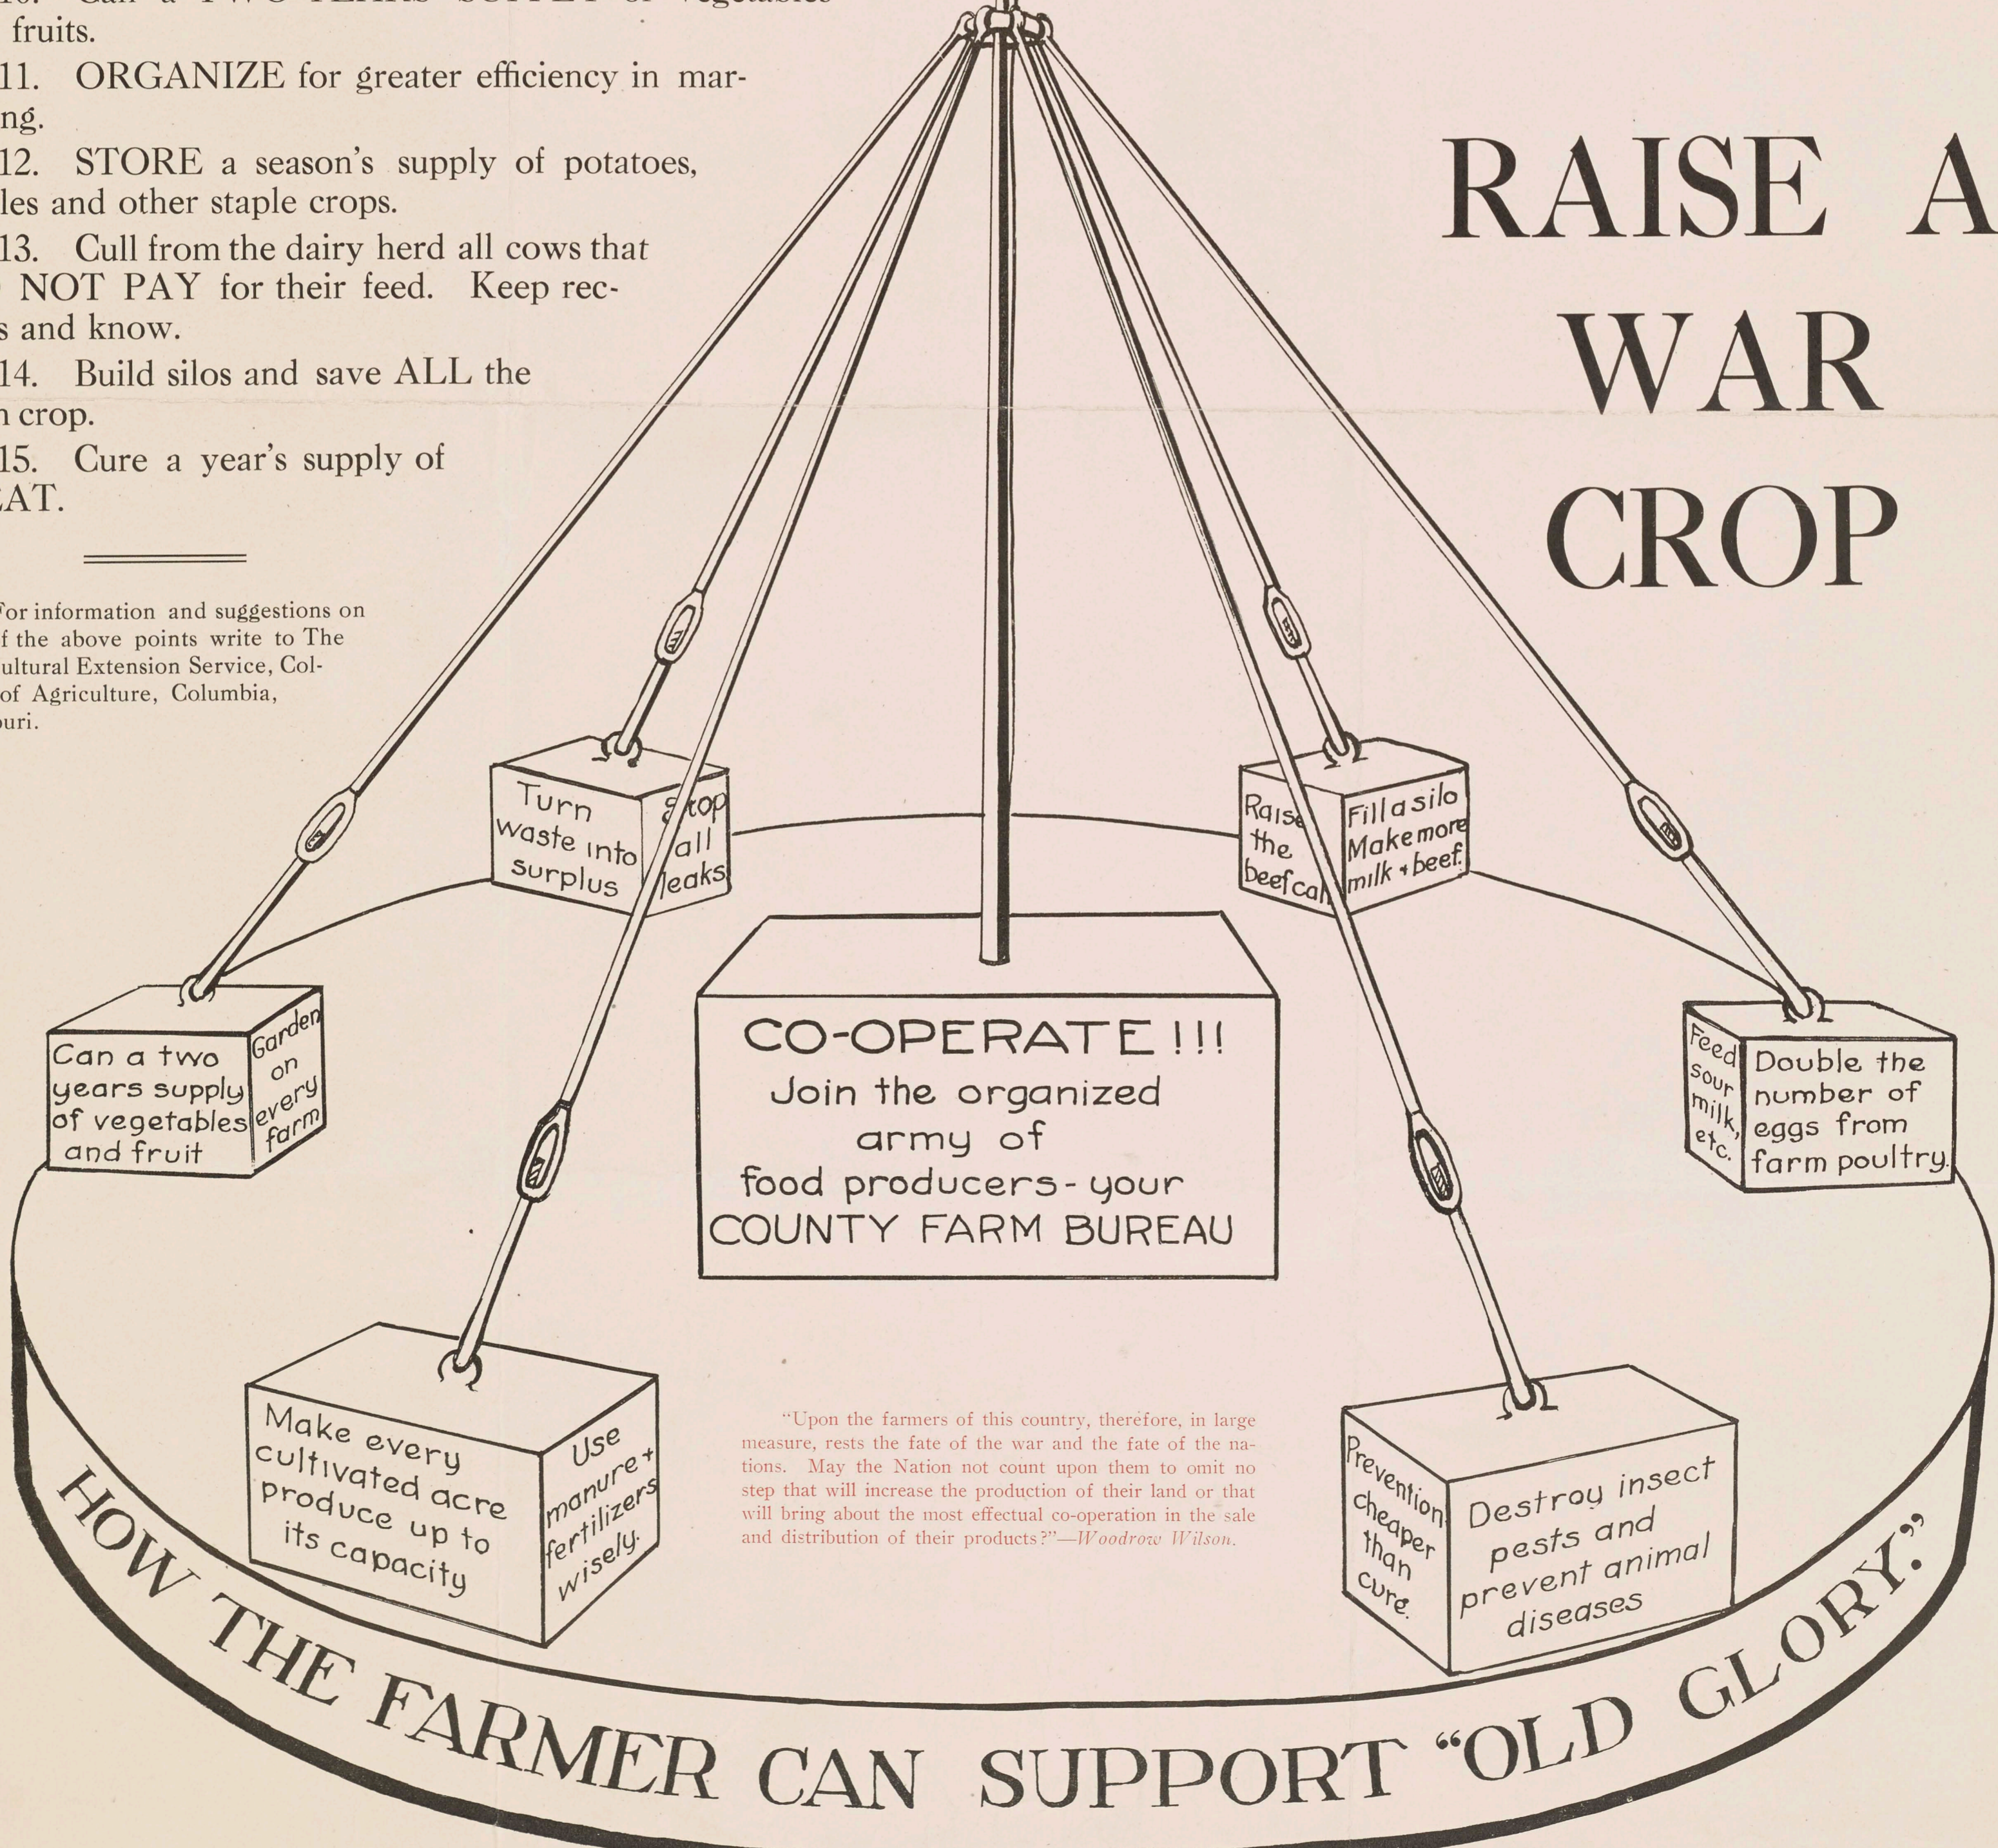

## The Farmer's Opportunity for National Service—Join the Army of Food Producers

1. Plant only TESTED SEED of adapted varieties on well prepared seedbeds.
2. Use fertilizers—the right kind in the right way. Use EVERY LOAD OF MANURE produced on the farm.
3. Raise all the BEEF CALVES the farm will carry by careful planning. Market baby beef instead of veal.
4. Use only GOOD PUREBRED SIRES with all classes of live stock.
5. Feed BALANCED RATIONS to all classes of live stock so as to produce more meat, milk and eggs with less feed.
6. Make just as much meat as possible, especially pork, on FORAGE CROPS.
7. Keep HOG CHOLERA off the farm and stop its spread to neighboring farms.
8. Prevent and destroy INJURIOUS INSECTS of every kind.
9. Have a good garden on EVERY FARM and in every back lot.
10. Can a TWO-YEARS' SUPPLY of vegetables and fruits.
11. ORGANIZE for greater efficiency in marketing.
12. STORE a season's supply of potatoes, apples and other staple crops.
13. Cull from the dairy herd all cows that DO NOT PAY for their feed. Keep records and know.
14. Build silos and save ALL the corn crop.
15. Cure a year's supply of MEAT.

For information and suggestions on any of the above points write to The Agricultural Extension Service, College of Agriculture, Columbia, Missouri.

## RAISE A WAR CROP

"Upon the farmers of this country, therefore, in large measure, rests the fate of the war and the fate of the nations. May the Nation not count upon them to omit no step that will increase the production of their land or that will bring about the most effectual co-operation in the sale and distribution of their products?"—Woodrow Wilson.
