One would have imagindd that the administration would have and of Yoodong him with exceration. A true so two-constants with reason and non-n zeros puzzled the political quidennes conduct the westery. Two promitent yirants are in their way, and may prove subbesome, it wit: Senator Donatas, of noid, and Governor Wirs, of Virginia. It irefore becomes essential, as a prelimi-ry to the opening of the next Presidential mpaign, that these pestitent interiopers outly be killed off. We see sothing to change our conviction that the Democratic party cannot afford to shelve Dopolas. Best assured that the attempt itself is a most dangerous experiment. Should it succeed it will be by long odds the mestatupendous political blunder ever perpetrated. It will monotinently break up and discourage the party, and afford an easy triumph to Savant and his legions. Per haps, however, the new firm are disposed to winess such a dopinatour with stolid equanimity and indifference. Your true politician and party back is the incarnation of selfabless. Role or rais is his motto. esa. Rule or rain is his motto.
