A Charming Yellow Rose

“Color, the shade of Sunburst with touches of orange on the reverse.”

“The blooms have an individual beauty not always found in the big fat buds of the modern varieties. It is ideal for table decorations, corsage bouquets, baskets, as well as by the dozen for store sales, where it is first choice with lady customers; it keeps well.”

An extremely prolific variety throughout the whole year; a great keeper; absolutely unique in both form and general make-up; bound to be profitable.

CHRYSANTHEMUMS

Novelties for 1923

THE four English varieties were selected for us by that Prince of English T'mum growers, Mr. Geo. Shawyer.

For our own firm, we were very fortunate in having several first class seedlings, which helped us to win a big number of premiums at St. Louis, in November, last; they will rank with the very best, the *Turners*, *Louise Pocket*, and the rest.

Price List, page 17, 18.

MRS. ALICE H. BURKE

(E. G. Hill)

Great exhibition variety; of enormous size, *Daybreak* pink, beautifully shaded cream, upright center and long spreading petals making a show variety of the largest size and of big, globular form. The shading of soft yellow gives it a lovely tone. Stem very stiff. An easy doer. Scored 95, C. S. A. An extra good keeper. Bloom Nov. 8; Bud Aug. 25.

NIAGARA

(E. G. Hill)

Immense, snow-white, good foliage, stiff stem, rounded and full, with very long petals, arranged uniformly, but finishes into a fine exhibition variety of rounded massive form. Good in every way.

Bud Aug. 15 and later; Full midseason.

NEW JERSEY

(E. G. Hill)

Awarded the *Silver Cup* of the C. S. A. at St. Louis, Nov., 1922.

A nice clean grower, very dainty in finish, outer petals slightly reflexing, and dimpled at the tips; shows a wide spread.

Color a soft clear pink, and of extra fine finish.

HONEYDEW

(E. G. Hill)

A lovely canary yellow of shining satin-like finish, large, round, and smooth; a beautiful addition to the class of this color. Extra nice grower, about 3½ feet high, good stem and handsome foliage.

MONARCH

(E. G. Hill)

A snow-white, incurved variety, and while of the very largest size, is of fine, lasting texture and nicely rounded form. A good grower, very easy to handle. Scored 95, C. S. A., St. Louis, in 1922.

MAJESTIC

(English)

Deserves the name; the grandest production of the year; enormous rounded bloom of the most perfect form, a shining golden orange, shading to rosy bronze. As brilliant as an electric light. A fine grower; a sensation wherever shown the past autumn.

LIZZIE ROBERTSON

(English)

An incurving variety of beautifully blended shades of pink. Of the wonderful finish so highly prized by English growers. A sterling novelty.

Monarch

WHITE GIANT

(E. G. Hill)

An extra fine large white, massive in build, of very firm texture, splendid keeper and traveler. Very pure color; stiff stem, unexcelled for exhibition. Scored 94, C. S. A.

Blooms Nov. 8.

CHRISTMAS GLOW

(Single)

Clear golden yellow, of fine size, very perfect in form and finish; should be disbudded to three blooms and single specimens are very fine and lasting. Promises to be as fine in *yellow* as Mrs. Buckingham in pink; an extra fine single sort.

White Giant

FAVORITE

(English Commercial)

A beautiful incurved variety, of fine finish and glistening white; we believe that this will prove a favorite in this country as well as in England. Makes a beautiful pot plant. Midseason.

REGINALD GODFREY

(English)

A brilliant colored novelty, bright red within, golden yellow without; a fine example of this gorgeous color, a nice grower, easy to handle.

The above sorts comprise our very BEST SELLERS, and the most profitable sorts to grow for commercial cutting. Florists who cater to their own retail trade can extend their list to cover many fancy varieties that will delight their home trade, in addition to the above.

This year a few changes in the list will be noted—some varieties dropped, a few added; look up descriptions of GOLDEN GLORY, ADRIAN'S PRIDE, two grand yellows, and ROSE DELIGHT and PINK TREASURE, two fine pinks.

Not since the war began have the BIG VARIETIES been in such heavy demand as during the past Autumn; both for large and small chrysanthemum shows, and also for window displays; the demand has been very heavy.

There are some SPLENDID NEW SORTS among them.

We offer a collection of fine Exhibition Varieties *nicely assorted*. Our selection of 10 each of 12 sorts for \$10.00.

Pompons

ADELPHIA (Novelty of 1922)

Color, white as snow; very perfect in shape, an absolutely perfect example of the very popular disbudded type. 3 ft. November 1.

ANGELO

Light pink; dwarf, and should be planted by end of May to secure 2½ ft. stems; very prolific, and blooms round, full and perfect, held perfectly erect. Also one of the best for pots.

BRONZE QUEEN

Much the same color as *Hilda Canning*; blooms Oct. 25th. Very choice variety.

CAPTAIN COOK

Taller in growth than the average Pompon, and first to open; the color is a lovely shade of rose-pink, very brilliant and free from lavender tones; one of the choicest of newer sorts. Makes a perfect commercial "bunch" which is a prime quality with the wholesaler.

CLARA JAMESON

Lovely combination of bronze and scarlet. Very showy; the tones of color always in demand in Pompons; immense producer. Early.

CHRISTMAS GOLD

Form of Baby, but larger; the name describes it perfectly. Very best of its type. One of the most profitable Pompons.

ELVA

A very useful white Pompon, good color, of nice form, and very early.

FLORA

Bright crimson with scarlet shading; much the color of *Jules La Graviere* and a free, easy grower with good stems and full sprays. Mid-season.

FRANK WILCOX

Also known as *Mrs. Frank Beu*. The very best Thanksgiving bronze shading to fine red; every florist wants some of this grand late.

GOLDEN STAR

Bright yellow—in small rosette form. Very profuse with good stiff long stems.

HILDA CANNING

One of the prettiest, most distinct and valuable Pompons; brilliant bronze, neat and compact, very lasting, and late; fine habit and "bunches" liberally. The color everybody likes.

IDA

By far the best true yellow of its date. Oct. 20th—fine producer per plant, with good stems.

LILLIAN DOTY

One of the best pinks of the larger flowered Pompons. Fine grown to single stem, 5 or 6 to a plant.

MRS. FRANK BEU

(See Frank Wilcox)

MARIANA

Large flowered and snow-white, on long stiff stem; when grown to a single stem, it is absolutely perfect; can be disbudded 5 or 6 flowers to a plant.

MRS. H. HARRISON

Very early, ready to cut Oct. 15th. Light Daybreak pink; when mature, pearl white; the form of flower is very perfect; sprays fine for bunching, stems of good length.

MRS. NELLIE KLERIS

This variety is an improved Lillian Doty, the color is stronger. The blooms are equally as large as Lillian Doty, but better arranged on the stems. A fine, sturdy grower. Very choice. Very fine shade of bright pink.

MUSKOKA

Golden bronze—6 to 10 blooms to a plant. Large and full for its type. Blooms Nov. 10.

'VARSITY

One of the "Dorner Set"; a greatly improved golden *Baby*, larger size, quite round, comes in just before Xmas. Gold. Bunches finely.

WHITE DOTY

Much like Mariana; specially fine grown to "single stem," 6 stems to the plant carefully disbudded.

Miscellaneous

SUNSHINE

No finer commercial in any class has been added in the past five years than this novelty.

Sunshine is a *deep yellow anemone* and is firm and fresh for Thanksgiving, and remains in perfect condition, if desired, for two weeks longer, which adds value to this fine variety. As a "disbudded" sort it is wonderfully taking—a fine companion for the disbudded pompons.

GOLDEN LIDA THOMAS (Anemone)

Golden yellow Thanksgiving variety. A splendid keeper, with beautiful cushion, and firm texture in the petals. A perfect all round sort, absolutely distinct from Sunshine.

LADY ASTOR

Very dark crimson. Bright golden center. Single. Very late December.

MRS. WM. BUCKINGHAM (Early)

The queen of the singles, a big flat flower with petals of wonderful texture, the loveliest shade of soft rose pink—very lasting both on and off the plant—long stemmed and can be planted close; one of the very best sellers. A true commercial, coming in very early.

While other singles are highly valued for the home trade, "*Buckingham*" is the only one of its date in demand by wholesale dealers; has wonderful texture. Requires no support.

MRS. E. D. GODFREY (Late)

Light pink, very finest for Thanksgiving; a strong grower and used in large quantity. A worthy running mate for *Mrs. Buckingham*. Fine when disbudded.

The "Cap" Family

A strain specially suited for growing in pots, making neat, compact bouquets of bloom; every retail florist should have some of this stock; all dwarf and bushy in habit. They make the nicest showing grown 10 to 12 flowers to the pot.

Kathleen Thompson—Crimson.

Lilac Caprice—Deep Violet.

Purple Caprice—Royal Purple.

Buller's Caprice—Deep Pink.

Yellow Caprice—Golden Yellow.

Two Decorative Varieties

Golden Feather, Synonym *Source d'Or*—One of the handsomest of tawney-yellows, bearing long stemmed sprays of individually perfect flowers—in wonderful profusion; this is a variety quite by itself. Brought the best price on the market of any "Bunch" variety the past Autumn.

Lizzie Adcock—Deep yellow sport of *Source d'Or*. Very valuable. Every grower should have these two fine and profitable sorts.
