REQUESTS FOR MEDEVAC OPERATIONS
 as of 29 August 12:00 CEST

The European Commission (DG ECHO and DG SANTE) has set up a standard operating procedure for the medical evacuation of Ukrainian people in need of urgent medical care.

Pre-planned flights for groups of MEDEVAC patients have been taking place twice per week since mid-August, using a medicalised plane **offered by Norway**. This is centrally coordinated by the ERCC and by **Medevac liaison officers, who are being embedded in the ERCC**. This is set to run for a trial period of twelve weeks until the end of October. The aim is to provide regular and predictable transport solutions for large numbers of patients, creating optimal flights and higher efficiency, while carrying out greener practices

1,143 Completed operations	73 Operations in progress* <small>*from acceptance of medevac offer to the arrival of the patient in the hosting hospital.</small>
149 Cancelled operations	0 Operations pending acceptance

Supplemental support:

- Norway has transported **207** patients for treatment in Belgium, Denmark, Germany, Finland & the Netherlands.
